AI and
INFORMATION ACCESS
Benefits, Challenges and Lessons
G. G. Chowdhury
Sudatta Chowdhury

Contents

Figures and Tables xiii

Introduction xix

1 Generative AI and Access to Information 1
Introduction 1
Generative AI 2
GPTs (Generative Pre-trained Transformers) 2
Gen AI for access to information 4
Gen AI tools used in this book 5
Information search process 6
Gen AI v. conventional tools for information access 7
Implications for information education, research and professional practices 11

2 Information Access: Tools and Processes 15
Information and data 15
Information retrieval 17
Information access 20
Indexing 25
Information users 27
Summary 28

3 Information Seeking 29
Introduction 29
Information searches 31
Information search process 32
Everyday life information seeking 33
Information access and critical thinking 34
From information literacy to AI literacy 35
Exploratory search and Gen AI 36
Summary 36

4	**Gen AI for Everyday Life Information**	**39**
	Introduction	39
	The search context	40
	Search results	41
	Summary	67
5	**Gen AI for Scholarly Information**	**69**
	Introduction	69
	The search context	69
	Search results	70
	Summary	112
6	**Gen AI for Research Information**	**113**
	Introduction	113
	The search context	113
	Search results	115
	Summary	156
7	**Gen AI and the Information World**	**157**
	Introduction	157
	Gen AI tools for everyday life information	158
	Access to information using libraries and scholarly databases	159
	Comparison with the Gen AI tools	167
	User education	169
	Use of Gen AI for information access: library guidelines	170
	Summary	171
8	**Gen AI and Information Seeking: Some Lessons**	**173**
	Introduction	173
	Information for research and scholarly activities	174
	User perceptions of Gen AI	175
	Not all AI-powered search tools are the same	182
	How good are the cited items in Gen AI results?	183
	How to improve the output of Gen AI tools	186
	Retrieval-augmented generation (RAG)	187
	Gen AI and the information services sector	190
	Summary	193
9	**Gen AI for Information Access: Teaching, Research and Professional Practices**	**197**
	Introduction	197
	Is Gen AI empowering users?	198
	Gen AI for information access: a paradigm shift?	199
	Unintended consequences of Gen AI	202
	AI governance	203
	Information science education and research	205
	Implications for information behaviour and practice	207
	Implications for society	207

AI literacy 208
Gen AI and sustainability of the knowledge ecosystem 209
Implications for information science education and professional practices 212
How should the users be prepared to use Gen AI for access to information? 214
Summary 218
