

# Ballast Water Management

Understanding the retrofitting  
of BWM Systems from 2026

16th Edition  
Volume 1 - Guidance

By Captain Nadeem Anwar, PhD  
Revised by Dr Linda Churcher

Updated to MEPC 83

# Contents

Foreword .....	v
Abbreviations .....	xi
<b>Volume One – Guidance</b>	<b>1</b>
<b>Part One – Introduction and Regulations</b>	<b>3</b>
<b>Chapter One – Introduction</b>	<b>5</b>
1.1 Ballast Water .....	7
1.2 Sediment .....	10
1.3 Aquatic Species .....	12
1.4 Ballast Tank Configuration .....	14
1.5 Biofouling .....	14
<b>Chapter Two – IMO Regulations</b>	<b>17</b>
2.1 Application of the BWM Convention .....	19
2.2 The IMO Approval Process .....	24
2.3 Same Risk Area (SRA) Concept (the Management of Risk) .....	26
2.4 Temporary Storage of Grey Water/Treated Sewage in Ballast Tanks .....	27
2.5 The Schedule for Compliance .....	28
2.6 Transparency and Effectiveness of G8 Type Approval .....	29
2.7 Port State Control (PSC) Procedures for Sampling and Analysis .....	30
2.8 <i>'Ballast Water Management – How to do it'</i> .....	32
<b>Chapter Three – Local and Regional Regulations</b>	<b>33</b>
3.1 Americas .....	35
3.2 United Kingdom .....	39
3.3 Polar Waters .....	41
<b>Chapter Four – Alternatives to Using a BWMS On Board</b>	<b>43</b>
4.1 Port Reception Facilities .....	45
4.2 Contingency Measures .....	46
4.3 Port-based Ballast Water Treatment .....	47
4.4 Sediment Control .....	49

<b>Part Two – Implementation of Regulations</b>	<b>51</b>
<b>Chapter Five – Port State Authorities and Port State Control</b>	<b>53</b>
5.1 Port State Requirements .....	55
5.2 Existing Conditions .....	56
5.3 Notification .....	57
5.4 Inspection, Monitoring and Enforcement .....	57
<b>Chapter Six – The Financial Implications of BWM Legislation</b>	<b>69</b>
6.1 Cost of Compliance with BWM Legislation .....	71
6.2 Cost of Ballast Water Management Systems (BWMS) .....	71
6.3 Issues and Costs for BWMS Manufacturers .....	72
6.4 Cost of Ballast Water Exchange (BWE) .....	74
<b>Part Three – Treatment Systems and Operation</b>	<b>75</b>
<b>Chapter Seven – Introduction to Treatment Technologies</b>	<b>77</b>
7.1 Ballast Water Management System (BWMS) Requirements .....	80
7.2 The Evolution of BWMS .....	81
<b>Chapter Eight – Physical Separation, Thermal, Ultraviolet and Plasma Technologies</b>	<b>89</b>
8.1 Physical Separation .....	91
8.2 Heat Treatment Technology .....	96
8.3 Ultraviolet Radiation/Advanced Oxidation Technology .....	98
8.4 Plasma Technology .....	100
<b>Chapter Nine – Deoxygenation, Magnetic and Ultrasonic/Cavitation Technologies</b>	<b>101</b>
9.1 Deoxygenation/Supersaturation Technology .....	103
9.2 Magnetic/Electric Field Technology .....	104
9.3 Ultrasonic and Hydrodynamic Cavitation Technology .....	104
<b>Chapter Ten – Chemical, Biocide and Electrochemical Technologies</b>	<b>107</b>
10.1 Chemical and Biocide Technology .....	109
10.2 Electrochemical Technology .....	113
<b>Part Four – Practical Installation and Retrofitting Considerations</b>	<b>117</b>
<b>Chapter Eleven – Choosing a BWMS</b>	<b>119</b>
11.1 Making the Decision .....	121

<b>Chapter Twelve – The Design Stage (Feasibility Study and 3D Scan)</b>	<b>129</b>
12.1 Retrofit Planning .....	131
12.2 Retrofitting – Feasibility Study .....	132
12.3 The 3D Scan .....	134
12.4 The Design Engineering Stage .....	135
12.5 The Role of Class .....	138
12.6 Selection of Retrofit Location .....	139
<b>Chapter Thirteen – The Installation Process</b>	<b>141</b>
13.1 Simplified Overview .....	143
13.2 Detailed Overview .....	144
13.3 Before Entering the Retrofit Facility .....	148
13.4 During the Stay in the Retrofit Facility .....	149
13.5 Departing the Retrofit Facility/Dry Dock .....	151
13.6 Technical Installation and Retrofit Facility/Dry Dock Challenges .....	152
<b>Chapter Fourteen – Commissioning of the BWMS</b>	<b>159</b>
14.1 Delays in the Commissioning Process .....	161
14.2 IMO Commissioning Guidance .....	162
<b>Part Five – Operations</b>	<b>165</b>
<b>Chapter Fifteen – Ship Administration of BWM</b>	<b>167</b>
15.1 The Ballast Water Management Plan (BWMP) .....	169
15.2 Duties of the Ballast Water Management Officer .....	177
15.3 Ballast Water Record Book (BWRB) .....	177
15.4 Surveys .....	181
15.5 Certification .....	187
15.6 Ballast Water Reporting .....	189
15.7 Training .....	192
<b>Chapter Sixteen – Ballast Water Sampling/Monitoring</b>	<b>197</b>
16.1 Monitoring of Operations .....	203
16.2 Arrival Ballast Conditions .....	204
16.3 Monitoring Levels .....	205
16.4 Post-treatment Monitoring .....	208
16.5 Sampling .....	209
16.6 Sediment .....	212

16.7	Test Methods .....	214
16.8	Ballast Tank Entry .....	217
<b>Chapter Seventeen – Maintenance and Operational Issues</b>		<b>219</b>
17.1	Maintenance Issues .....	221
17.2	Operational Issues .....	223
17.3	Emergency/Contingency Measures .....	230
<b>Chapter Eighteen – Preparing for Inspections</b>		<b>231</b>
18.1	Overview of PSC Inspections .....	233
18.2	Checklist for Preparing for Inspections .....	235
18.3	Reducing Overall Risk .....	236
18.4	Ship Inspection Report Programme (SIRE) and Other Inspection Regimes .....	237
<b>Chapter Nineteen – Challenging Water Quality (CWQ)</b>		<b>239</b>
19.1	Regulatory Guidance .....	242
19.2	Operations .....	243
19.3	Assessing BWMS Operations .....	244
19.4	Troubleshooting and Mitigation .....	245
19.5	Alternatives to Bypass .....	248
19.6	Bypass Procedure .....	249
19.7	Decontamination .....	251
19.8	Records and Roles .....	253
<b>Chapter Twenty – Ballast Water Exchange (BWE)</b>		<b>257</b>
20.1	BWE Operational Considerations .....	262
20.2	Sequential BWE Method .....	268
20.3	Flow-through BWE Method .....	271
20.4	BWE Operations Checklists .....	275
<b>Appendices</b>		<b>279</b>
A1	Key Invasive Species .....	281
A2	IMO Guidance Documents for the BWM Convention .....	301
