| **100 A1** | character used in Lloyd's Register denoting that a sea-going vessel is constructed of steel and is classed with Lloyd's Register |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------
| **klasa broda 100 A1** | Notation 100 A1 oznaka klase 100A1 |
| **AA** (always afloat) | (adj) (mar law) a term in Charter-Party which stipulates that the charterer must not order the ship to a port or berth where she would touch the bottom or perhaps be unavailable at any time due to tidal variations. |
| **AAAA** (Always Accessible Always Afloat) | (n) (mar law, shipping econ) Term in Charter-Party which stipulates that the charterer must not order the ship to a port or berth where she would touch the bottom or perhaps be unavailable at any time due to tidal variations. |
| **AAR** (against all risks) | (prep phr) (mar ins) an insurance policy that provides coverage against all types of loss or damage rather than specific ones |
| **A.B.** | (=Able-Bodied Seaman) (n) 1 (hum_resources, seamanship) = able-bodied seaman stariji mornar, iskusni mornar: On the morning of February 22 the chief mate decided that he would inspect the automatic draft gauges which were located in each of the ballast tanks to attempt to get them to work again. He asked the 4-8 watch A Bs to put water driven air blowers on 4P and 4S water ballast tanks at the end of their watch. He was assisted by the chief officer and by an AB ; both had just taken over the watch. ; 2 (seamanship, mar law) kormilar: An AB helmsman, and the second officer, who was on the engine controls, accompanied the master on the bridge. The two A Bs were both keeping a lookout, but took the helm when required. |
| **aback** | (adv) (boating/yachting) behind; sail with the wind on the fore side, pressing the sail back, slowing the ship, giving it sternway, or driving it to leeward (Mayne 2000 The Language of Sailing) jedro namjerno prebačeno na stranu vjetra (radi usporavanja ili...
abaft /æˈbaːft/ (adv, prep)
1 ANTONYM forward behind iza; 2 toward or nearer to the stern (relative to some other structure or object on board the ship); a point beyond the midpoint of a ships length, towards the rear or stern. https://unique-usa.com › Industry Tools › Glossary prema krmi:
Thirty containers had been lost overboard while 20 others had shifted and collapsed; all of them had been stowed on the starboard side abaft the superstructures. abaft the bridge iza mosta; 3 the after part of a ship; on the stern or after portion of the ship krmeni dio broda, na krmi: The second mate is abaft, supervising the sailors at the aft mooring station. Drugi časnik palube je na krmi i nadzire mornare na krmenom vezu.

abaft the beam (prep phr) (navig, seamanship) something (another ship, tug or object) located more than 90 degrees from dead ahead, i.e. a tug or ship observed on the bearing between own ship's beam and the stern quarter subočice po krmi: Overtaking means approaching another vessel at more than 22.5 degrees abaft her beam, i.e., so that at night, the overtaking vessel would see only the stern light and neither of the sidelights of the vessel being overtaken. Consequently, when a vessel is abaft the beam, it might be out of sight, but it should not be out of mind, particularly when she 's faster than you.

abandon /əˈbændən/ (v) (safety) get away from the ship in an emergency napustiti (brod):
The master quickly assessed the seriousness of the situation and decided to abandon ship. Following the broadcast of a distress call at 1125, the 26 crew abandoned the vessel in an enclosed lifeboat. ~ the ship napustiti brod: Only the Captain shall decide whether and when Abandon Ship procedures are to be undertaken. The captain of the cargo ship sounded an alarm for his crew to abandon the vessel shortly before it sank. All crewmembers abandoned ship into two lifeboats and were picked up by Royal Navy helicopters. After attempts to tow the vessel failed, all the crew members eventually abandoned ship to SAR boats, leaving the vessel adrift. https://gcaptain.com/video-cargo-ship-sinks-in-taiwan-strait, ~ ship drill vježba napuštanja broda: At 10551 of 06 January 2013, the master announced an abandon ship drill. The accident involved a brake failure on one of the lifeboat winches during a routine abandon ship drill. Abandon ship! Napustite brod!, ~ ship to a liferaft: The crew members on the vessel were unable to extinguish the fire, which spread rapidly throughout its GRP structure, forcing them to abandon to a liferaft: napustiti brod u splavi za spašavanje, prepare to ~ ship pripremiti se za napuštanje broda: The master ordered the crew to launch the liferaft and to prepare to abandon ship.

https://gcaptain.com/video-cargo-ship-sinks-in-taiwan-strait,
The Master gave the order to abandon ship at 2 a.m.

A proceeding wherein a shipper/consignee seeks authority to abandon all or parts of their cargo. (US MarAd 2008)

Dealing with abandoned cargoes can be both difficult, costly, and time-consuming.

For ocean going vessels, ship’s abandonment is to be conducted with totally enclosed lifeboats or free fall lifeboats

There are many reasons for cargo abandonment ranging from perfectly legitimate causes such as consignees going bankrupt, cargo discrepancies in quality or quantity, or other commercial disagreements.

The abandonment resulted to seafarers’ suffering from fatigue and serious mental health problems.

As far as practicable, each abandon-ship drill must be conducted as if there were an actual emergency. On one of our vessels, the lifeboat embarkation ladder rope parted during an abandon ship drill conducted in the presence of the US Coast Guard.

As far as practicable, each abandon-ship drill must be conducted as if there were an actual emergency. On one of our vessels, the lifeboat embarkation ladder rope parted during an abandon ship drill conducted in the presence of the US Coast Guard.

An order given by the senior officer to go to lifeboats and leave the vessel in the face of disaster that is beyond control

Precautions to detect and avoid cargo abandonment: Shipping lines must ask the customer at the time of booking whether the cargo is going to be shipped as Freight Prepaid or Freight Collect (at destination or elsewhere).

As far as practicable, each abandon-ship drill must be conducted as if there were an actual emergency. On one of our vessels, the lifeboat embarkation ladder rope parted during an abandon ship drill conducted in the presence of the US Coast Guard.

abandon the cargo (v) (cargo, mar law) A cargo maybe considered to be abandoned when the consignee of the bill of lading does not take delivery of the cargo even after repeated reminders and notifications and the cargo lies uncleared eventually forcing the shipping line to consider the cargo as abandoned, ...

(https://shippingandfreightresource.com/precautions-to-take-against-loss-due-to-abandoned-cargo/#)

napustiti teret: When a cargo is abandoned it causes severe financial losses to all parties concerned – seller, buyer, shipping line, freight forwarder, transporters, banks, Government etc etc..

https://shippingandfreightresource.com/precautions-to-take-against-loss-due-to-abandoned-cargo/

abate /əˈbeɪt/ (v) (meteorol) smiriti se (nevrijeme), oslabjeti (vjetar), stišati se, smanjiti se, ublažiti

abatement /əˈbeɪmənt/ (n) 1 (meteorol) slabljenje, stišavanje (vjetar, nevremena); 2 (shipping econ) One carrier assumes the charges of another without any increase in charges to the shipper preuzimanje troškova (drugog prijevoznika)

abbreviation /əˈbriːviəʃən/ (n) skraćenica

abdomen /ˈæbdəmən/ (med) trbuh, abdomen: Although it was not immediately apparent, it was likely that the diving gear impacted into the diver’s abdomen during the fall and caused significant internal injuries.

abdominal /ˈæbədəmənl/ (n) u trbuhu, trbušnji ~ pain bol u trbuhu, ~ injury

abduction /ˈæbdəkʃən/ (n) (safety) otmica: The authorities are investigating the abduction of five crew members after their vessel was attacked by gunmen in the country’s territorial waters. There was no report of abduction of crew in the area of _____; and no hijacking of ships for theft of oil cargo

https://www.marinelink.com/news/asia-piracy-incidents-down-january-462870 Following the attack on the oil tanker and abduction of ___ crew members on ___, the Company Management confirms that all the seafarers have been released and are now happily home with their families.

abeam /əˈbɪm/ (adv) (seamanship) the bearing of an object 90 degrees from ahead, in a line with the middle of the ship; in a line at right angles to the mid-point of the fore and aft line

American /ˈrəʊk/ (n) The skipper of the fishing vessel next sighted the other vessel as it came abeam on the port side. Be ~ of: The ship was about 40 meters off and abeam of the rock called Cheninic Maillard when he began to turn to starboard. The boats were sailing abeam of each other about 150m apart on a parallel course. At 0023, the ship passed abeam of Cap Hatteras on a heading of 287° in a position 0.5nm to the east of the fairway buoy

abandon the cargo

abeam to starboard
aberration /əˈbɛrərən/ (n) (navig) A deviation from the proper or expected course aberracija
ablution /əˈbɛləˈʃən/ (n) (navig) ablacija
ablaze /əˈbleiz/ (adj) (safety) koji gori brzo i jako, u plamenu, zapaljen: Just after midnight, a friend of the skipper was walking along a road high above the small harbour when he noticed that the boat was fiercely ablaze, but still at its mooring.

able-bodied seaman /ˈeɪblbɒdɪd ˈsiːmən/ (n) 1 (seamanship) an experienced deck-department seaman qualified to perform routine sea duties; a rating between ordinary seaman and leading seaman or boatswain stariji mornar, iskusni mornar: Able Seaman works as a watchstander or a day worker, depending on the requirement on the ship. When the ship is not moving, he may be asked to perform security related watches. A Merchant Mariner’s Document (MMD) is a must for this position. The able-bodied seaman will be responsible for handling mooring or anchoring duties, carrying out vessel and equipment cleaning, maintenance, and painting duties Duties of AB to include but not be limited to: Performs necessary routine maintenance, repairs, and handles tug’s business under the direction of deck officer in charge. gCaptain <noreply-gCaptain@yourmembership.com>; 2 (mar law, seamanship) at sea an AB’s duties include standing watch as helmsman and lookout kormilar; 3 zvanje kormilara
able seafarer (=AB) (n) (mar law) a rating qualified in accordance with the provisions of regulation II/5 of the IMO STCW convention (https://safety4sea.com/cm-stcw-convention-terms-and-definitions/) stariji mornar, kvalificirani mornar ~ - deck stariji mornar palube, kvalificirani mornar palube, kormilar, ~ - engine The AB seafarer engine is a new qualification and, under section A VII/2.3 and 4, (https://safety4sea.com/cm-stcw-convention-terms-and-definitions/) stariji mornar palube, kvalificirani mornar stroja, voda stroja
able seaman (=AB) (n) = able-bodied seaman = A.B. 1 stariji mornar, iskusni mornar: The able seaman assigned to the watch was absent from the bridge for at least an hour before the vessel grounded. An able seaman, the bosun and another able seaman stood in line between the panama lead and the bollard and began to pull the slack of the tow line in by hand. At about
1620, he walked towards the Panama chock to check the spring line, while an able seaman close by was preparing a stern line for the mooring tender.  

**abnormality** /æbnoʊˈral/ (n) neuobičajenost, abnormalnost, neispravnost  

**aboard** /əˈboʊrd/ (adv) on or in a vessel; on or within the ship or boat na brodu: Fortunately, no one aboard the ship has been seriously injured. One of the biggest problems aboard our own boat during the height of the 1979 storm was the ability of objects to break loose.  

**abor** /əˈboʊrd/ (n) na brodu (kao pomorac), to come ~ the ship doći na brod, ukrcati se na brod, popeti se na brod: A cargo surveyor came aboard and attached his cargo sampling equipment to the sampling point of tank No. ... fire ~ the vessel požar na brodu, safety ~ the ship sigurnost na brodu: Passage planning must be viewed as an essential and mandatory step that will help to improve the safety of all aboard and it must be completed before the first line even slips the dock.  

**go ~ ići na brod:** At low tide, the skipper rowed out in a dinghy and went aboard the boat with a salvage pump.  

**stow ~:** All loaded containers have been weighed at the loading facility before being stowed aboard a vessel for export.  

**ukrcati i složiti na brod**  

**abort** (v) (marine eng, navig, safety) obustaviti, odustati od, poništiti, anulirati: A decision was made to abort the berthing and return to the anchorage after being told it could take up to 24 hours to clear the whole cooling system. The dangerous cargo shifted while the master was attempting to abort an approach to the Firth in heavy seas.  

**odustati od manovre:** The state of the visibility is key in many operations and it is frequently better to abort a manoeuvre early rather than risk being caught out half way through.  

**napustiti sidrište:** When considering whether to abort an anchorage, the anchor windlass’s limitations should be taken into account as part of assessing the risk of remaining at anchor.  

**the berthing:** The berthing was aborted unnecessarily by the jetty manager; the problem with the cargo documentation could have been resolved once the vessel was alongside.  

**obustaviti privezivanje, odustati od manovre**  

**privezivanja**  

**abort point** (n) (navig) mjesto napuštanja (manovre), mjesto odustajanja (od manovre): Detailed the requirement for the abort points to be part of the passage plan are agreed between the master, pilot and VTS.  

**About ship!** (n) (boating/yachting) the command given to order the crew to tack a vessel  

http://www.photographers1.com/Sailing/NauticalTerms&Nomenclature.html  

**Okret!, Letanje!**  

**abound** /əˈbəʊnd/ (v) obilovati, imati u izobilju  

**about** (adv) (boating/yachting) on or to the opposite tack; across the wind; across the wind in relation to the bow  

**na suprotnoj uzdi, na drugoj / suprotnoj strani (vjetar):** Once the manoeuvre is completed, the boat is about.  

**go ~** When a sailboat tacks into the wind to bring it from one side to the other, she is said to go about.  

**letati, okrenuti (brod) na suprotnu uzdu, prebaciti se na suprotnu uzdu**  

**above deck** (prep phr) (seamanship) on the deck of the boat, not aloft  

**iznad palube, na palubi:** The boat was displaying an anchor ball 3m above deck level, and also had a bright orange mizen sail hoisted to keep her lying into the wind.  

**abrade** /əˈbreɪd/ (v) (marine eng) ohrapaviti, učiniti hrapavim  

**abrasion** /əˈbreɪʒən/ (n) (phys) abrazija, grebanje, habanje  

**abrasion damage** (n) (seamanship) šteta zbog abrazije (konopa, bubnja vitla
It was concluded that the sample had suffered abrasion damage and had lost 34% of its original strength.

**abrasive** /əˈbreɪsɪv/ (adj) abrazivan: The abrasive nature of the cargo meant that hotwork repairs were regularly required to the hopper and to the hull, which was prone to cracking.

**abreast** /əˈbrest/ (adv) 1 abeam of; situated nearby and to the side of the ship subočice, po boku, bočno: He stopped the ship’s headway abreast of Le Pot , a shallow in the south of Le Cochon buoy.; 2 alongside of usporedno, uz, pokraj: He was guided by a signalman on deck, positioned abreast of cargo hold no. 4.

**absorb** /əbˈsɔːb; əbˈzɔːb/ (v) upijati, apsorbirati: Pumping was immediately stopped, and the ship’s crew attempted to absorb the fuel with the oil spill equipment.

**abstract** /æbˈstrækt/ (n) kratak izvadak, kratak sadržaj, izvod, apstrakt, ekscerpt: No warning was written in the passage plan to inform the bridge team about the expected crossing traffic in the area, even though this information was included in the sailing direction abstract which was attached to the passage plan and also marked on nautical chart with a caution symbol. log ~ izvadak iz brodskog dnevnika: An abstract of the log (six copies) covering the period of the heavy weather should be made up.

**abuse** /əˈbjuːz/ (n) zloporaba, zloraba, zlouporaba alcohol ~ zlouporaba alkohola, nedopuštena uporaba alkohola: Alcohol abuse is suspected in near collision.
academic awards in ship officer programmes (UK) - Navigation

(hum_resources) diplome i svjedodžbe za pomorska časnička zvanja u sustavu visokoškolskog obrazovanja i izobrazbe pomoraca (UK) - nautičke znanosti DECK OFFICERS časnici palube

1. Deck Officer - Higher National Certificate (HNC) Higher National Certificate (HNC) route leads ultimately to the award of an MCA Deck Officer’s Certificate of Competency (STCW’95 II/I OOW), and the Higher National Certificate (HNC) in Nautical Science. A full deck officer cadet programme by a Higher National Certificate (HNC) route, leading ultimately to the award of an MCA Deck Officer’s Certificate of Competency (STCW’95 II/I OOW), and the Higher National Certificate (HNC) in Nautical Science. The scheme consists of five phases (usually over three years), three spent at the Academy and two at sea gaining practical experience.

2. Deck Officer - Higher National Diploma (HND) The scheme consists of five phases (usually over three and a half years), three spent at the Academy and two at sea gaining practical experience.

3. Deck Officer - Foundation Degree (Bachelor of Science Degree in Marine Operations / Nautical Science) a full deck officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW’95 II/I OOW), and the Higher National Diploma (HND) in Nautical Science.

accelerate /əkˈseɪtər/ (v) (phys) ubrzati, ubrzavati, povećavati brzinu: As the vessel continued to accelerate, a forward spring was deployed and placed on a bollard by the shore mooring party, who then moved to safety.

accept /əkˈsept/ ~ the offer prihvatiti ponudu (v) prihvatiti: Upon class approval of the repair the discharge port agreed to accept the vessel. Never accept fuel leakage on any system: a minor weep may originate from a small crack, which can propagate very quickly under vibration and engine loading.

acceptable /əkˈseptəbl/ (adj) prihvatljiv, uobičajen

acceptable risk (n) (mar ins) prihvatljivi rizik

acceptable risk criteria (n) (mar ins) prihvatljivi kriteriji rizika

acceptance of goods (n) (mar law, shipping econ) The process of receiving a consignment from a consignor, usually against the issue of a receipt. As from this moment and on this place the carrier’s responsibility for the consignment begins.

acceptance trials (n) (nav arch) a rigorous test process and material inspection carried out underway by the government, in the presence of the representatives ship register, to determine that ships constructed in shipyards are suitable for delivery.
accessory /ˈækˌsɛsəri/ (n) (marine eng) pribor, dodatak
access /ˈækses/ (n) prilaz, pristup: The Port of Seattle offers public access to many of its facilities. https://www.portseattle.org/Operations
access channel /əkˈses/ (n) prilazni kanal luci: North West Access Channel is 15.0 m deep and 280 m wide. The Port of Hamburg has been granted permission to deepen the River Elbe, the sole, 130 km access channel leading to the inner-city facility https://dredgingandports.com/
access hatch /əkˈses/ (n) (nav arch) otvor za ulaz u tank: The day before the planned maintenance, he instructed the Bosun to open the access hatch of the tank and to start ventilating with air so that it would be gas-free before tank entry the next morning.
access holes /əkˈses/ (n) (nav arch) temporary openings cut in the ship’s structure to allow access and shifting of equipment into position during ship’s construction prilazni otvori
accessible /əkˈsesəbl/ (adj) pristupačan, kojemu se može prći
access ladder /əkˈses/ (navig, ports) pristupne ljestve, prilazne skale: He had checked each of the tanks visually by taking a few steps down the tank access ladder.
accessorial charges /əkˈsesəriəl/ (n) (shipping econ) dodatni troškovi (uz osnovnu ugovornu cijenu ili tarifu)
accessorial service /əkˈsesəriəl/ (n) (shipping econ) Service rendered by a carrier in addition to transportation services. (e.g. sorting, packing, precooling, heating and storage.) dopunski usluge
accessories /əkˈsesəriz/ (n, n pl 1 pribor, pomočni uređaj; 2 potrepštine; 3 (marine eng) armatura, pripadci, dodatni dijelovi: Although many boats’ fittings and accessories might appear to be secure, this should not be taken for granted.
accessory /əkˈsesəri/ (adj) pomočni, dodatni, dopunski
accessory /əkˈsesəri/ (n) (marine eng) pomočni uređaj
access to the port /əkˈses/ (navig, ports) SEE approach channel prilaz luci: Access to the port is via Moreton Bay where deep-water channels are a minimum 280m wide from Fairway Beacons (FWB) to Entrance Beacons, and the minimum depth is 15.0m LAT (Lowest Astronomical Tide). https://www.portbris.com.au/Operations/Trade/Shipping-Operations/ the City Region has committed to improve access to the Port of Liverpool by rail, road and water
https://www.liverpoollep.org/growth-sectors/superport/access-to-the-port-of-liverpool/ Since the morning of 30th October, access to this main port has been restricted as one of the 5 STS (Ship to Shore gantry cranes) was blown off its rails due to the extreme winds Shipping and Freight Resource <info=shippingandfreightresource.com@send.aweber.com>

**accident** /ˈæksɪdənt/ (safety, mar ins) = marine accident = marine casualty

**COMPARE** incident (IMO DEFINITION) A **MARINE CASUALTY** (i.e. an 'accident') means an event that has resulted in any of the following: 1 the death of, or serious injury to, a person that is caused by, or in connection with, the operations of a ship; or 2 the loss of a person from a ship that is caused by, or in connection with, the operations of a ship; or 3 the loss, presumed loss or abandonment of a ship; or 4 material damage to a ship; or 5 the stranding or disabling of a ship, or the involvement of a ship in a collision; or 6 material damage being caused by, or in connection with, the operation of a ship; or 7 damage to the environment brought about by the damage of a ship or ships being caused by, or in connection with, the operations of a ship or ships. (IMO RESOLUTION A.849(20) adopted on 27 November 1997 - CODE FOR THE INVESTIGATION OF MARINE CASUALTIES AND INCIDENTS);

**NATIONAL DEFINITION** (New Zealand): An ACCIDENT means an occurrence that involves a ship and in which: a person is seriously harmed; the ship sustains damage or structural failure; there is a loss of, or damage to, or movement of, or change in the state of, the cargo of the ship which poses a risk to the ship or other ships; there is a significant loss of, or significant damage to, property (not being the cargo carried by the ship) or the property of any person (whether or not aboard the ship), whether or not the loss or damage arises from an interaction between 2 ships; there is a loss or escape of any substance or thing that may result or has resulted, in serious harm to any person; a person is lost at sea (whether or not subsequently found) or is missing; the ship is foundering, capsizing, being abandoned; stranding; missing or has foundered, capsized, been abandoned, been in a collision, or has had a major fire on board. (http://www.maritimenz.govt.nz/commercial/safety/accidents-reporting/definitions.asp) ; IMO defines two types of undesired events at sea; **MARINE CASUALTY** (largely synonymous to the general concept of 'accident', pomorska nesreća in Croatian) and INCIDENT (pomorska nezgoda in Croatian, i.e. an undesired event at sea other than 'accident'. pomorska nesreća: Half of the casualties were related to accidents of a navigational nature, such as contacts, grounding/stranding and collision.

www.emsa2018.com fatal ~ nesreća sa smrtnim posljedicama: This is another accident involving a fisherman losing his life.; the ~ occurred ... nesreća se dogodila ..., do nesreće je došlo ...: The accident occurred in an area of complex and strong tidal flows where there had been other accidents resulting in damage to vessels and shore infrastructure The accident occurred in an area of complex and strong tidal flows where there had been other accidents resulting in damage to vessels and shore infrastructure. The accident occurred during the hours of darkness on a rising spring tide with good visibility and a west-south-westerly wind blowing at 20-22kts.; 2 nesreća: If the safety guardrail had been fitted, this accident would not have occurred. Da je bila postavljena zaštitna ograda, ne bi bilo došlo do nesreće. ~ prevention sprječavanje nesreća: The analysis involved ship condition surveying, material on loss/accident prevention and an extensive seminar programme.; ~ report izvješće o nesreći, izvještaj o nesreći, ~ investigation istraga o nesreći: Post-accident investigation showed that the tripping line had jammed between the cruciform and the jaws of the docking head. investigation into an ~ istraga nesreće: The sole objective of the investigation of a safety investigation into an accident under these Regulations shall be the prevention of future accidents through the ascertainment of its causes and circumstances.; the ~ happened ... nesreća se dogodila, do nesreće je došlo ...: The accident happened because deficiencies in the loading and securing of the deck containers were spotted but not rectified before the ship sailed.; avoid the ~ izbjeći nesreću: This accident could have been
avoided had a suitable safety regime been in operation. Nesreća bi se bila mogla izbjeći da bi bio primijenjen odgovarajući sustav sigurnosti., cause of ~ uzrok nesreće, prevent an ~ spriječiti nesreću, lessons from the ~: The main lesson e can learn from all accidents is: keep alert, think carefully about what you are doing and be prepared for the unexpected. pouke iz nesreće, serious ~: There has been no pollution following a collision, grounding, or other serious accident. ozbiljna nesreća, teška nesreća, circumstances of an ~: The circumstances of this accident are, unfortunately, not uncommon. okolnosti u kojima je nastala nesreća, contribute to the ~ doprinijeti nesreći: There was no suggestion at all of alcohol or drugs contributing to the accident., likely causes of and ~ najvjerojatniji uzroci nesreće: Likely causes of the accident included: adverse tide, current and weather, inadequate bridge resource management (BRM), human error ship’s crew and/or pilot, unclear master/pilot information exchange, and failure to follow the passage plan, special directions and standing notices. www.gov.uk/maib, be involved in an ~ sudjelovati u nesreći / nezgodi: More than 1500 cargo ships were involved in accidents that resulted in 25 fatalities in 2017, the lowest number since the EU legislation is in place www.emsa2018.com; 3 nezgoda occupational ~ nezgoda na radu, profesionalna nezgoda accidental /ækˈsəd(ə)ntl/ (adj) ANTONYM voluntary slučajan: There were no shields fitted above the pipe to deflect any accidental release of fuel into the bilges. Accidental release of a lifeboat from the refrigerated cargo vessel ... ~ causes (mar ins) slučajni uzroci, ~ damage slučajna šteta, šteta nastala slučajno: ...- failure to keep a proper lookout, faulty maintenance or accidental damage to equipment can all play a part in creating situations which can escalate to dire levels ..., ~ release of fuel slučajno ispuštanje, slučajno puštanje: There were no shields fitted above the pipe to deflect any accidental release of fuel into the bilges. accidental event (n) (safety) An accidental event is an event that is assessed to be inappropriate and significant in the sequence of events that led to the marine casualty or marine incident. (IMO; www.emsa2018.com) nesretni dogodaj accidental jibe (=accidental gybe) (n) (boating/yachting) An accidental jibe happens when the boat is steered or the wind shifts such that the stern of the boat accidentally passes through the eye of the wind. This causes that main boom to swing violently to the other side of the boat.; An accidental jibe happens when the boat is steered or the wind shifts such that the stern of the boat accidentally passes through the eye of the wind. This causes that main boom to swing violently to the other side of the boat. https://www.ypiyachts.com/ slučajno kruženje, nenamjerna pojalabanda accommodate /əˈkɒmədeɪt/ (v) 1 prihvatiti brod u luci, dati brodu vez u luci, smjestiti brod u luci: The terminal is capable of accommodating cruise ships up to 320 metres in overall length. The Ferry Terminal accommodates car ferry services to Britain and continental Europe together with regular shipments of trade vehicles. The terminal is now accommodating and handling the newest and largest Ultra-Large Container Vessels (ULCV); 2 (marine eng) smjestiti, postaviti, primiti: Several compression fittings had been used in a very short run of pipe to accommodate valves, and changes to the pipe’s diameter. be ~d in biti smješten u, nalaziti se u: The 22m tail was shortened to 15m to allow it to be accommodated within the test machine. accommodation /əˈkɒmədeɪʃn/ (n) 1 all spaces on a ship, such as living spaces for the officers and the crew, including navigation, radio and similar spaces a smještaj; 2 nastambe časnika i
By now, the wheelhouse, the shelter deck, and much of the accommodation were filled with thick black smoke which was spreading and becoming more dense by the minute. crew ~ nastambe posade, ~ spaces stambeni prostori na brodu: Neither the owner nor the skipper permitted smoking in the accommodation spaces, for good reason., ~ area predio smještaja posade: Although this vessel was fitted with a fixed fire detection system, there was no sensor in the accommodation area., ~ alleway hodnik u nastambama posade: At 0630, a fisherman looked up the accommodation alleyway and saw thick black smoke coming out of one of the cabin doors., ~ door vrata nastamba posade: Three crewmen had been in the mess room, and one of them managed to dive down and out through the open accommodation door to escape from the upturned vessel., ~ superstructure nadgrade nastamba posade: The tug was made fast to bitts at the aft end of the main deck, by the break of the accommodation superstructure.; 3 smještaj broda u luci berthing ~ kapaciteti za privezivanje, luči vezovi; 4 smještaj tereta u luci storage ~ skladišni kapaciteti (u luci); 5 smještaj tereta na brodu accommodation gangway (n) (nav arch) = accommodation ladder brodski siz, brodska skala: As the main deck was level with the quay, the stevedores did not use the after accommodation gangway, which was about 13m further aft. accommodation ladder (=gangway ladder) (n) 1 (nav arch) = gangway the portable steps from the gangway down to the waterline or quay https://officerofthewatch.com/; Movable steps arranged temporary alongside e.g. a quay to allow access on board for officials, crew or passengers. http://www.iss-shipping.com/cargo/cargo_library_glossarya.asp; a portable flight of steps suspended over the side of a vessel from a gangway to a point near the water, providing any easy means of access from a small boat. (https://www.euronav.com/en/) brodski siz, brodska skala, : scala reale; scala di banda: The AB fell between the container ship and the quay when using a pilot gate in preference to the vessel’s accommodation ladder. Uncontrolled descent of an accommodation ladder from the container ship in San Francisco Bay resulted in one fatality. The pilot requested that the port accommodation ladder be hoisted by only a few metres and retained there, as he intended to use it for disembarking from the ‘sea’ side at the next berth. descend the ~ spuštati se po brodskom sizu, hoist the ~ podignuti brodski siz: During preparations for berthing the crew were requested to recover the pilot ladder and to hoist the accommodation ladder to deck level to be clear of subsequent cargo hose handling operations. http://safety4sea.com/three-crew-injured-due-to-collapse-of-accommodation-ladder/; 2 (nav arch) a staircase suspended over the side of a vessel from a gangway to a point near the water to provide easy access to the deck from a small boat alongside brodskaja skala za ukrcaj peljara s peljarske brodice accommodation platform (n) (navig) odmorište brodskog siza: Pilot ladder must
be firmly attached to ship’s side 1.5 metres above accommodation platform. upper / lower ~ gornje / donje odmorište brodskog siza: The lower accommodation platform shall be a minimum of 5 metres above the sea

accommodations (n) (seamanship) stambene prostorije na brodu, nastambe

accompany /əˈkʌmpəni/ (v) 1 popratiti (dokumentom), pratiti: All ropes or wires supplied to the vessel should be accompanied by an individual certificate stating the breaking load (MBL); 2 biti u pratnji: On the bridge was the chief officer, accompanied by an AB lookout.

accomplish /əˈkʌmplɪʃ/ (v) postići, izvršiti, obaviti: They used all the resources available to accomplish or achieve the established goals of safety and efficiency.

accomplished Bill of Lading (n) (mar law, shipping econ) Original Bill of Lading which has been surrendered to the carrying ship at the discharge port in exchange for the goods. ostvarena teretnica, realizirana teretnica

according to (prep) prema, u skladu s

account /əˈkaʊnt/ for ~ of za račun (nekoga), take into ~ uzeti u obzir, voditi račun o: Passage plans should take into account all available information so that corrective actions can be taken in good time should things go wrong. 1 (shipping econ) račun, bankovni račun on buyer’s account na kupčev račun, bank ~ bankovni račun, business ~ poslovni račun: račun firme, current ~ tekući račun; 2 izvješće, prikaz table ~ tabelarni prikaz, a short ~ of kratak prikaz

accountable to /əˈkaʊntəbəl / (adj) biti odgovoran nekome: Although port authorities are accountable to the legislative body that created them, they often have a great deal of flexibility in operation and finance.

account for (v) 1 iznositi, odgovarati za, odnositi se na: Transportation accounts for 66 percent of total U.S. oil consumption. 66 posto ukupne potrošnje nafte u SAD-u odnosi se na transport.; 2 biti odgovoran za; 3 uzeti u obzir: The local chart also warned of anomalies due to dredging, and the master ordered a small course alteration to port to account for an offset.

accumulate /əˈkjuːmajəlt/ (v) nagomilati (s), nakupiti (se): It was concluded that lack of ventilation had allowed hydrogen gas from the batteries to accumulate, to produce an explosive mixture that was ignited by sparks from the angle grinder. With the main engine still running, heat built up, causing soot deposits that had been allowed to accumulate in the EGE to ignite.

accumulator battery akumulatorska baterija, akumulator

accuracy /ˌækjərəsi/ (n) 1 točnost, preciznost determine the ~ utvrditi točnost, verify the ~ provjeriti točnost: Navigators should use all available means to check the position of their vessel, but they must regularly verify the accuracy of positions displayed by electronic position fixing systems by reference to visual bearings and transits whenever available.; 2 COMPARE availability COMPARE coverage COMPARE reliability COMPARE fix rate COMPARE fix dimension COMPARE system capacity COMPARE ambiguity potential točnost (navigacijskog sustava): Make use of all available navigation aids and do not simply rely on the perceived accuracy of a GPS track plotter as the single source of navigation. predictable ~ predvidljiva pogrješka, očekivana pogrješka, relative ~ relativna grješka, grješka susreta brodova, ~ of ship’s position preciznost pozicije broda
accurate /ækˈrət/ 1 (adj) točan, precizan, ispravan ~ fix precizna pozicija broda, precizno određena pozicija, ~ assessment precizna procjena: He then attempted to acquire the target on the vessel’s ARPA, but was unable to obtain an accurate fix. There are no excuses for not using navigational aids such as ARPA and compass repeaters to aid the accurate assessment of close quarters situations., ~ data preciznio podatci: The most accurate data is available only after the target has been tracked for a full 3 minutes., ~ position točna pozicija: When a boat is in difficulty and requests assistance, this cannot be provided promptly unless an accurate position is available., ~ navigation aid precizno navigacijsko pomagalo: ECDIS is potentially a very accurate and effective navigation and bridge watchkeeping aid, but it is no more than just that: an aid., ~ account of precizan prikaz nečega: It is not known why the course was altered, and it was possible to establish an accurate account of events only by analysing the vessel’s VDR.;

2 besprijekor

acid /ˈæsid/ (marine eng) (cargo) kiselina: The inhibited cleaner also contained a colouring agent to indicate the acid strength.

acidic /ˌæsidɪk/ (adj) kiseo, kiselkast, acidičan: the acidic nature of the scrubber washwater

acidimeter (n) (marine eng) acidometar, mjerač kiseline

acidity /ˈæsidəti/ (n) (cargo, marine eng) kiselost, aciditet

acid proof (adj) (marine eng, cargo) otporno na kiselinu, zaštićeno od kiseline

acknowledge /əˈknɒldʒ/ (v) 1 a potvrđiti ~ receipt of potvrđiti primitak: Kindly acknowledge receipt of this letter. Ljubazno Vas molimo da potvrdite primitak ovog dopisa. The container ship never acknowledged our ship’s VHF calls.; 2 a priznati

acknowledgement /əˈknɒlɪdʒmənt/ (n) (comm) (n) (shipping econ) potvrda (primitka poruke) obtain acknowledgement obtained dobiti potvrdu o primitku

acknowledgement of receipt (n) 1 (shipping econ, mar law) notification relating to the receipt of goods potvrda primitka robe; 2 (comm) a notification relating to the receipt of messages and documents. potvrda primitka poruke

acorn nut /ˈeɪkoʊ nʌt/ (n) (marine eng) slijepa matica

acquainted with /əˈkwɛintid ˈwɪd/ (adj) upoznat s: The OOW had little time to become fully acquainted with the traffic and navigational situation.

acquiescence /ˌækwɪˈesəns/ (n) (shipping econ) When a bill of lading is accepted or signed by a shipper or shipper’s agent without protest, the shipper is said to acquiesce to the terms, giving a silent form of consent. prihvaćanje (teretnice) bez prigovora, prešutno prihvaćanje

acquire the company (v) (shipping econ) preuzeti kompaniju: Singapore container shipping line Neptune Orient Lines finally agreed to be acquired by France’s CMA CGM in a cash deal that values its equity at $2.4bn.

acquire the contact (v) (comm) uspostaviti kontakt: We also tried to acquire the contact on the S band radar display.

acquire the target / vessel (v) (navig) prihvatiti cilj / objekt / brod (na radaru), uhvatiti cilj / objekt / brod (na radaru), označiti cilj / objekt / brod (na radaru): The second officer did not acquire the vessel on the ARPA or use the AIS data to determine the vessel’s name or status. He then attempted to acquire the target on the vessel’s ARPA, but was unable to obtain an accurate fix. The vessel outbound from the port was acquired on the ARPA.
**acquisition** (n) *(financ, mar law)* kupnja, otkup: Maersk announced the acquisition of a Customs House Broker, representing the first acquisition of the year in the fast-growing logistics sector. https://shippingandfreightresource.com/

**acquittance** /'kwitəns/ (n) *(shipping econ, mar law)* a written receipt in full, in discharge from all claims potvrda primitka, potvrda namirenja

**ACR** (=Anti Clutter Rain) (n) *(navig)* = A/C rain (FTC) brisanje smetnji s padalina, brisanje radarskih smetnja od padalina, sustav ACR, sustav brisanja smetnja od padalina

**A/C rain (FTC)** (=anti clutter rain) kontrola za uklanjanje smetnja od kiše i padalina, kontrola za brisanje smetnja od padalina

**A/C sea (STC)** (n) *(navig, electr)* kontrola za uklanjanje smetnja od mora i valova

**act** /ækt/ (v) ~ upon djelovati na djelovati: It was usual at this berth to take two shore ropes forward and two aft to act as head/ stern and breast lines, and to use the ship’s lines as springs. The owner on the boat called his friend to the wheelhouse and asked him to go forward and act as lookout. ~ accordingly djelovati u skladu s (nečim): Furthermore, the handing of a portable radio to one of the mooring team would have identified that person as the supervisor, and enabled them to act accordingly.

**act** (n) 1 a čin, djelo: The act of cancelling the alarm was insufficient to rouse the master into effectively monitoring the ship’s position; 2 radnja; 3 *(mar law)* zakon; 4 *(mar law)* dokument, isprava, akt ~s isprave, dokumenti, akta

**action** /əˈkʃn/ (n) djelovanje, djelo, postupak, radnja (pri manovri za izbjegavanje sudara): The managers of the ship have taken action to improve the standard of bridge watchkeeping on board their vessels. take ~ 1: There are only 20 minutes in which to notice the other radar target, monitor its movement and take action to avoid collision. Establish action taken; 2 poduzeti radnju, take immediate ~ poduzeti hitne mjere, poduzeti mjere odmah: Emergency situations require immediate action., piston ~ rad klipa / stapa, take appropriate ~ poduzeti odgovarajući radnju: There was very little time for vessels proceeding in the traffic lane to effectively assess the situation and take appropriate action., take avoiding ~ poduzeti radnju radi izbjegavanja sudara: The trawler’s skipper failed to detect the gill netter until it was too late to take effective avoiding action., course of ~ niz aktivnosti, način postupanja: When serving with inexperienced and newly acquainted officers, masters should never assume that they will necessarily carry out a course of action as they would expect. The tanker established contact with the bulk carrier over the VHF radio, and the two vessels mutually agreed on a suitable course of action. https://gCaptain.com, take corrective ~ poduzeti popravnu radnju (radi izbjegavanja sudara), poduzeti novu radnju: However, when fog was present he had to rely on the radar alone, delaying his ability to take effective corrective action to maintain position in the river., take substantial ~ poduzeti uočljivu radnju: In such circumstances, the port’s operational procedures require pilots to ‘take early and substantial action and make their intentions clear’, take legal ~ tužiti, podnijetu tužbu, positive ~: “Positive” means an alteration of course or speed which is large enough to be readily apparent to another vessel observing visually or by radar. www.safety4sea.com primjetljiva
action in personam (n) (mar law) the writ whereby an action was traditionally instituted against a person, including a corporation, rather than against a thing. 
pravni akt u odnosu na osobu, tvrtku itd., pravni postupak u odnosu na osobu, tvrtku itd.

action in rem (n) (mar law) the writ whereby an action was traditionally instituted against a thing. 
pravni akt u odnosu na stvar, pravni postupak u odnosu na stvar

action to avoid collision (n) (navig, safety) radnja radi izbjegavanja sudara, radnja izbjegavanja sudara ~ should be positive “Positive” means an alteration of course or speed which is large enough to be readily apparent to another vessel observing visually or by radar. As a matter of English law, “positive” action means an alteration of at least 30 degrees or more in restricted visibility (www.safety4sea.com) primjetljiva radnja radi izbjegavanja sudara

activate (v) (marine eng) pokrenuti, započeti, aktivirati: As the ignition was activated and the fuel sprayed from the open ended pipe, a fire erupted, engulfing the third engineer and also setting fuel alight on the electrician. The vessel was fitted with a bilge alarm, but it had failed to activate. ~ the device pokrenuti uređaj, ~ the alert aktivirati uzbunu, ~ the emergency transmission pokrenuti pomoćni pedajnik, ~ the epirb (safety, navig) aktivirati epirb, ~ fire alarm: Shortly after the boiler began operating, the engine room fire alarm activated, indicating a fire in the vicinity of the auxiliary boiler. (https://safety4sea.com/) aktivirati požarni alarm

active rudder (n) (nav arch) aktivno kormilo 
https://www.marineinsight.com/naval-architecture/types-rudders-used-ships/

Act of God (n) (mar law) accidents which are beyond human control such as flood, lightning or hurricane; also termed as ‘force majeure’ viša sila: The act of God is a mere short way of expressing this proposition: A carrier is not liable for any accident as to which he can show that it is due to natural causes. The classic definition in the Court of Appeal in Nugent v Smith 519 (https://books.google.hr/books?isbn=1317613465)

Act of public enemies (n) (mar law) djelo javnih neprijatelja

act of war (n) (mar law) ratni čin

actual carrier (n) (mar law) any person to whom the performance of the carriage of the goods, or of part of the carriage, has been entrusted by the carrier, and includes any other person to whom such performance has been entrusted. (Hamburg Rules 1978) osoba različita od prijevoznika koja stvarno obavlja dio prijevoza ili prijevoz u cijelosti stvarni prijevoznik
actual fault or privity /ˌprɪvɪti/ (n) (mar law) A faulty act or omission of a party, or his knowledge of or complicity with the faulty act or omission of another for whose conduct he is responsible.

actual shipper (n) (mar law) any person to whom the performance of the carriage of the goods, or of part of the carriage, has been entrusted by the carrier, and includes any other person to whom such performance has been entrusted. (Hamburg Rules 1978)

actual total loss (n) (mar law, mar ins) stvarna totalna šteta, stvarni potpuni gubitak broda

actuate /ˈæktʃuət/ (v) aktivirati, pokrenuti, potaknuti

actuating /ˈæktʃuətiŋ/ (adj) (marine eng) koji pokreće, koji aktivira ~ gear

pokretački uređaj, pokretački mehanizam valve ~ pokretački mehanizam ventila: The valve actuating gear is pressure feed-lubricated from the centralized lubricating system, through the water chamber part and from there into the rocker arm shaft 1, ~ portion dio regulatora za aktiviranje, servomotor

actuator /ˈæktʃuətər/ (n) (marine eng) pokretač, aktivator, izvršnik, servoklip

electric valve control ~ električni pokretač ventila: Eltorque - the manufacturer of electric valve actuators has unveiled its new ‘Safe Intelligence’ concept, a prototype line of battery-assisted failsafe valve actuators that will guarantee full functionality in the event of power or signal loss.

adaptor; adapter /əˈdæptər/ (n) 1 (electr) strujni adapter; 2 (safety) cijevni adapter (za vatrogasne cijevi drugačijen navoja)

ADAPTS (=Air Deployable Anti-Pollution Transfer System) (n) (safety, environ) the Coast Guard’s acronym for “Air Deployable Anti-Pollution Transfer System” - an ingenious pumping system designed by the US Coast Guard to pump oil and chemicals off distressed vessels and barges. (https://Marinelink.com) sustav zračnoga prijenosa tereta radi

sprječavanja onečišćenja

Adcock aerial (n) (electr, navig) Adcockova antena

A/D converter (n) (electr, navig) pretvarač analognih u digitalne signale

ADDCOMM (=address commission) (n) (shipping econ) Percentage of commission charged by charterers; commission payable by the shipowner to the charterer. unajmiteljeva / čarterera provizija, provizija čarterera free of ~ bez provizije čarterera, bez čartererove provizije: Free of address, refers to a charter which is not paid the address commission.

added value (n) (navig) dodana vrijednost (pri planiranju i nadziranju plovidbenog putovanja): By combining and integrating functions and information the INS provides “added value” for the operator to plan, monitor and/or control safety of navigation and progress of the ship.

addition /ˈædɪʃn/ (n) 1 dodatak in ~ pored, uz to, osim toga, povrh toga: In addition, all of the fire detectors were of the smoke detection type - there were no flame or heat detectors fitted. In addition, the starboard steering system’s hydraulic failure alarm sounded on the bridge console’s machinery alarm panel., in ~ to pored, uz: In addition to the mooring lines, a tug was being used to hold the vessel’s stern on the berth while its bow thrusters were being used forward. In addition to
address (v) 1 (safety, comm) obratiti se (putnicima): - the passengers The captain addressed his passengers over the ship's CCTV; 2 raspraviti o pitajnu / problemu, osvrnuti se na pitajnu / problem, pobrinuti se o problemu, pozabaviti se s (problemom, pitajjem): If you do not receive the delivery please let us know as soon as possible so that we can address the problem and ensure that your needs are met.

address /,edrə/ /,iːdɪ/ (adj) susjedni, pokrajnji, obližnji: A high speed catamaran (HSC) was scheduled to shift to an adjacent berth. Boundary cooling continued, and adjacent compartment temperatures were monitored. ~ to blizu (nečemu, nečega), pokraj, tik uz, odmah do: The stowage of lifejackets in a dedicated container on deck adjacent to the liferafts allowed the crew to readily access them. The stowage of lifejackets in a dedicated container on deck adjacent to the liferafts allowed the crew to readily access them., ~ berth obližnji vez: The angle of approach to the berth was more open than 'usual' due to another tanker alongside the adjacent berth.

adjust /əˈdʒʌst/ 1 (v) namjestiti, regulirati, ugoditi, podesiti, naštelati, naštimiti: If the radar controls are incorrectly adjusted the performance of the radar will be adversely affected. Having fetched a screwdriver, he removed the vent diffuser to adjust the flow of air from the vent.
~ general average (mar law) likvidirati generalnu havariju, ~ the transceiver ugoditi primopredajnik, namjestiti frekvenciju/postaju na radioprijamniku, ~ the autopilot namjestiti automatsko kormilo: At 2012, the master adjusted the autopilot to steer 175° to avoid the north-west bound ship, ~ the ship's heading namjestiti pramčani kut, namjestiti pramčanicu, ~ the course namjestiti kurs: The master instructed the OOW to adjust course to pass close astern of Target A and ahead of Target B, ~ the passage plan namjestiti plan plovidbe: Once at sea, the master decided to adjust the passage plan so as to keep the wind and sea fine on the starboard bow; 2: The skipper therefore relied on hand signals from a deckhand on the dredger to adjust the relative position of the two
adjustable /əˈdʒastəbl/ (adj) prilagodljiv, koji se može namjestiti / regulirati, podešiv

adjustable spanner (n) (marine eng) francuski ključ, vijak za ugađanje, prilagođavanje, podešavanje: The correct adjustment of the limit switch allowed for this, and was designed to prevent over tensioning and stretching of the wire. The importance of correct adjustment cannot be over-emphasised. Unfortunately, the adjustment of the linkage caused it to come into contact with other components when the engine was overloaded, which ultimately led to its eventual failure.

adjustment /əˈdʒastmənt/ (n) 1 (marine eng, seamanship, electr) namještanje, reguliranje, ugađanje, prilagođavanje, podešavanje: The correct adjustment of the limit switch allowed for this, and was designed to prevent over tensioning and stretching of the wire. The importance of correct adjustment cannot be over-emphasised. Unfortunately, the adjustment of the linkage caused it to come into contact with other components when the engine was overloaded, which ultimately led to its eventual failure. 2 ispravak make ~ ispraviti, izvršiti ispravak, obaviti korekciju: The port propeller had spontaneously moved to full astern pitch just as the initial course adjustment was made, as requested by the pilot. 3 (mar ins, mar law) procjena (štete) ~ of general average likvidacija (generalne havarije), obračun generalne havarije

adjustment screw (n) (marine eng) vijak za ugađanje, vijak za regulaciju, vijak za podešavanje

admeasure (n) (boating/yachting) formal measurement of a sailboat for documentation

administration /ədˌmɪnɪˈstreɪʃən/ (n) 1 (mar law) vlada; 2 (mar law) ministarstvo (pomorstva) maritime ~ ministarstvo pomorstva: A recommendation has also been made to the flag State Administration to raise the matter at the IMO, with the aim of enhancing local fixed firefighting systems ..., shipping ~ ministarstvo pomorstva; 3 (mar law) nadležno ministarstvo, nadležna uprava: Other recommendations were issued to the flag State Administration and to the Lifeboat Manufacturer to ensure an effective lifeboat maintenance regime. 4 primjena (zakona, propisa, pravila): proper administration of the law; 5 propisivanje (lijeka), određivanje (lijeka), primjena (medicinskog postupka): First-aid medical training is essential, and in this case the prompt administration of CPR (cardiopulmonary resuscitation) almost certainly saved the crewman’s life.

Administrative Officer (=Ship Secretary) (n) (navy) a junior officer assigned to the Commanding Officer

admiral /ˈædmerəl/ (n) (navy) the supreme commander of a fleet or navy; Word origin: amīr al-bahr, (= “prince”; “Emir of the Sea” in Arabic); a commissioned officer in the navy with a rank above vice-admiral, designated by four stars in the U.S. Navy admiral ~ of the fleet admiral, admiral mornarice, admiral flote, fleet ~ admiral, admirall mornarice, admiral flote
Admiralty anchor (=admiralty anchor) (n) (nav arch) admirality anchor (sidro s kladom)

Admiralty publications (=Admiralty publications) (n) (navig) publikacije britanskog admiraliteta

Admiral of the Fleet /ædˈmərəl/ (n) (navy) admiral flote, admiral ratne mornarice

Admiralty /ædˈmərəlti/ (=admiralty) (n) 1 (navy) a high naval authority in charge of a state’s navy or a major territorial component admiralitet; 2 (mar law) admirality pravo; 3 the governing authority of the Royal Navy Britanski admiralitet (zgrada, Uprava ratne mornarice)

Admiralty brass (marine eng) specijalna mjed, specijalni mesing

Admiralty charts (n) (navig) admirality karte, karte Britanskog admiraliteta: The approach channel was prone to silting, and a warning to this effect was shown on the appropriate Admiralty chart. Pilotage was not compulsory, but the information shown on the British Admiralty chart of the area was not up to date. Pilotage was not compulsory, but the information shown on the British Admiralty chart of the area lacked detail and was not up to date.

Admiralty law (n) (mar law) body of law that deals with maritime cases admirality pravo: Admiralty law or maritime law is a distinct body of law that governs maritime questions and offenses.

Admiralty List of Lights and Radio Signals Popis svjetlosnih signala i radio signala Britanskog admiraliteta: The VTS service was listed in maritime publications such as the Admiralty List of Radio Signals Volume 6 (NP286(8)) and the World VTS Guide5.

Admiralty Pilot Book (n) (navig) Peljar Britanskog admiraliteta: The Admiralty Pilot book contained a similar warning, but also mentioned that buoyed channels should be used.

Admiralty Sailing Directions Upute za plovidbu Britanskog admiraliteta, rute Britanskog admiraliteta: Advice contained in the Admiralty Sailing Directions for this port includes a suggestion to contact the harbourmaster before entry due to changing depths in the harbour.

admissible /ədˈmɪsəbl/ (adj) 1 dopustiv; 2 prihvatljiv
admission /ədˈmɪʃn/ (n) ~ of fresh-air charge dovod svježeg zraka, punjenje svježim zrakom 1 (marine eng) a ulaz; 2 (marine eng) dovod; 3 (marine eng) pristup
admit /æd ˈmɪt/ 1 (v) pustiti (unutra) ~ into pustiti u; 2 dopustiti; 3 prihvatiti; 4 priznati
adopt /əˈdɔpt/ 1 (v) (mar law) usvojiti: It is unrealistic to expect coastal shipping to adopt the navigational practices that would normally be found on deep sea vessels, because of the nature of the trade and the size of the crews.; 2 (mar law) prihvatiti; 3 (mar law) uvesti
adrift /əˈdrift/ (adj) (adv) loose from the moorings, not tied or secured and out of control; 1. Afloat and detached from the shore or seabed, but not making way. 2. Drifting with the wind or current.

Afloat and detached from the shore or seabed, but not making way. 2. Drifting with the wind or current. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/); floating at random koji pluta nošen strujom i vjetrom, zanesen (brod), nošen strujom (bez pogona),

Italian: (nave) alla deriva: The U.S. Coast Guard vessels are responding to a vehicle carrier which caught fire and is now adrift approximately 130 miles south of Southwest Pass, with 20 crewmembers aboard. The ship ended up being adrift for several days – posing no immediate threat to land or marine environment. The bulk carrier was towed to the port on Saturday after a minor main engine explosion left the ship adrift with 20 crew members onboard. A bulk carrier is adrift off the coast of Brazil after a fire knocked out power to the vessel more than four days ago. vessel ~ a vessel without power at sea, carried by currents and winds; Afloat and detached from the shore or seabed, but not making way. Drifting with the wind or current http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ brod
koji pluta nošen strujom: The vessel is currently adrift in the Atlantic Ocean. All the crew members successfully abandoned ship, leaving the ship adrift off the coast. The ship is currently adrift in 15 to 18-feet seas and winds at 17 mph., person ~ nestala osoba na moru, osoba koja pluta na moru: They assisted in the rescue of three fishermen who spent eight days adrift aboard their skiff in the South Pacific.

Ad Valorem /æd ˈvɑːlərəm/ (n) (mar law) po vrijednosti

Ad valorem freight (n) (mar law) freight or customs duties charged (levied) on goods, property, etc. set as a percentage of their value; Freight calculated on the value of the goods, expressed as a percentage thereof http://www.tkmglobal.net/index.html vozarina obračunata na temelju vrijednosti robe/tereta

advance /ædvəns/ (a) 1 (navig) COMPARE turning circle the distance a ship travels in its original heading after putting the helm over for a course change aksijalni pomak broda pri okretanju, dužina ravnog puta broda pri okretanju, put napredovanja broda (bez djelovanja struje): No allowance had been made for the vessel’s advance and, unsurprisingly, she grounded on the southern edge of the channel. The container ship was able to complete a 360° turn to starboard with an advance of 770m and transfer of 370m in 2 minutes and 30 seconds.

speed of ~ 1 The average speed in knots which must be maintained during a passage to arrive at a destination at an appointed time. prosječna brzina putovanja broda (do određene točke, luke ticanja, točke okreta itd.) a The average speed in knots which must be maintained during a passage to arrive at a destination at an appointed time. prosječna brzina putovanja broda; 2 (shipping econ) predujam, avans; 3 (marine eng) A device which advances the timing of the injection pump or injectors.(http://www.marinedieseleurope.com/) uređaj za fazno pomicanje (ubrizgavanja) unaprijed

advanced fire fighting (n) (safety) napredni tečaj protupožarne zaštite

advance freight (n) (shipping econ) Freight payable at a time agreed by the shipowner and the shipper, before the goods are delivered at the place of destination in the contract of carriage
advance on freight (n) (mar law, shipping econ) Money advances by the shipper to the master of a ship to pay for his disbursements while in port. It is often repaid by deduction from freight.

advantage (n) prednost, korist: This gave the advantage of allowing the tow wire length to be altered without the need for manual intervention on deck. take the ~ of iskoristiti: The master adjusted the passage plan so as to take advantage of the lee of an off-lying island.

advection (n) (meteorol) the horizontal transport of air, moisture or other atmospheric properties

advection fog (n) (meteorol) a type of fog that results from the advection of moist air over a cold surface and the cooling of the air to its dew point that follows advekcijska magla: Extreme air and water temperature difference produce nearly constant advection fog. https://gcaptain.com

adventure (n) (mar law, shipping econ) pomorski poduhvat, putovanje 1 pustolov, pothvat; 2 (mar ins) pomorsko putovanje (u prošlosti); 3 transport robe na brodarov račun

adverse effect (n) (safety) nepoželjan utjecaj, negativan utjecaj, negativno djelovanje: reduced visibility may have an adverse effect on the safety of a towage operation

adverse weather /ədvə: ɔː/ (n) (meteorol) loše vrijeme, nevrijeme: The master expected to encounter adverse weather conditions on the route. The primary cause of the accident was the swamping of the tender boat in adverse weather conditions. withstand ~ izdržati nevrijeme: The outcome depended on the Master’s decision making and the information available to him, as well as the ship’s capability to withstand adverse weather conditions.

adverse weather conditions (n) (meteorol) nepovoljni vremenski uvjeti, loše vremenske prilike: The UK Club issued a reminder to Masters of the considerations that should be taken into account when operating in areas of adverse weather conditions. (https://safety4sea.com/)

advertisement /ədˈvɜːtɪmənt/ (n) oglas, reklama

advice /ədˈvaɪs/ (n) 1 (comm) savjet seek expert ~: If in doubt, seek expert advice. zatražiti savjet stručnjaka; 2 (shipping econ) obavijest payment ~ obavijest o uplati; 3 prijedlog, sugestija: The VTSO probably assumed that the vessels were manoeuvring in accordance with the pilot’s advice.; 4 (comm) The Message Marker ADVICE indicates that the following message implies the suggestion of the sender which the receiver (ship’s master) can either follow or decide otherwise. In practice, ADVICE is accepted and carried out by the receiver savjet (oznaka poruke u IMO SMCP): ADVICE. Anchor in anchorage B 3. SAVJET. Usidrite se na sidrištu B3 ADVICE. (Advise you) stand by on VHF Channel six. SAVJET. ( savjetujem vam,) budite pripravni na VHF kanalu šest devet.

advice note 1 a written piece of information e.g. about the status of the goods obavijest, pismena obavijest; 2 (mar law) isprava cestovnoga prometa s podatcima o teretu, pošiljatelju, primatelju, prijevozniku, vozilu i prevoznini prijevoznica

advice of payment (n) (shipping econ) obavijest o (izvršenoj) uplati, obavijest o prestigloj doznaci

advice of shipment (n) (shipping econ) a notice sent to a local or foreign buyer advising that
shipment has gone forward and containing details of packing, routing **obavijest o otpremi** pošiljke (iz luke)

**advisable** /ˈæd vaɪzəbl/ (adj) preporučljiv

**advise** /ədˈvaɪz/  
1 (shipping econ) **obavijestiti, najaviti:** This is to advise you that the following cargo was damaged by rough and/or improper handling by stevedores Ovime Vas obavještavamo da je sljedeći teret bio oštećen zbog nevremena i nepravilnog rukovanja od strane slagatelja. This is to advise you that the quantity of the cargo loaded on the vessel at this port is as follows Ovime Vas obavještavamo da je količina tereta ukrcana na brod u ovoj luci bila kako slijedi: the Master advised the Chief Engineer that the anchorage and port approaches were in shallow water Zavojnik je obavijestio upravitelja stroja da će se sidrenje i prilaz luci obaviti u uvjetima plitkog mora. Masters must advise London VTS which approach channel they intend to use. He contacted the ship manager’s crisis team and kept them advised of the situation, but did not advise the coastguard. Masters are sometimes reluctant to advise shore authorities to a potential emergency situation. Advise engineer officer on watch. Obavijestite strojarskog časnika straže: ; 2 **uputiti:** The Port Control advised the ship’s master by very high frequency (VHF) radio to continue towards the entrance of the buoyed channel; 3 **savjetovati, pomoći:** At 20501 the pilot boarded to advise the ship’s command as she proceeded through the sea canal to her berth in the port.

**advising bank** (n) (mar law) A bank operating in the seller’s country that handles letters of credit on behalf of a foreign bank. **korespondentna banka** (inozemne banke)

**adze** /ədʒ/ (nav arch, sailing vessels, boating/yachting) teslića (brodostestarski alat)

**Aegis Combat System** /ˈeɪdʒɪs/ (n) (navy) Aegis is comprised of the AN/SPY-1D Radar, MK 99 Fire Control System, Weapon Control System, the Command and Decision Suite and Standard Missiles systems. It is controlled by an advanced, automatic detect-and-track, multi-function, three-dimensional, passive electronically scanned array radar, SPY. (https://www.public.navy.mil/surfor/ddg77/Pages/departments.aspx) **bojni sustav "Aegis":** The world’s most advanced combat system, Aegis can simultaneously attack land targets, submarines, and surface ships while automatically protecting the fleet ... https://www.lockheedmartin.com/en-us/products/aegis-combat-system.html

**aerial** /ˈɛərɪəl/ (comm, nav arch) **antena:** The VHF radio was now useless as the aerial had been at the top of the mast - they had no back-up. **radio ~ radioantena, main ~ system glavni antenski sustav**

**aeronautical light** /ˈɛərənɔː tɪkl/ (n) (navig) aeronautičko svjetlo

**aerosol** /ˈɛərə sɔl/ (n) koloidna suspenzija čvrstih ili tečnih čestica u plinu aerosol: Aerosol test sprays are available to safely check some types of detector.

**AFC** (=Automatic Frequency Control) (n) (navig, electr) automatizirano namještanje lokalnog oscilatora (brodskog radara)

**affect** /əˈfekt/  
1 (v) **djelovati na, utjecati na:** A number of factors can affect the lone watchkeeper including fatigue, lack of stimulation, etc.; 2 **štetno djelovati / utjecati na ~ adversely djelovati nepovoljno:** such defect may adversely affect the safety of the vessel during transit

**affidavit** /əˈfeɪ diˈvɪt/  
1 izjava, pod prizemom, o nekoj činjenici pred službenikom koji može (zakonski) primiti tu prizem (IG) **izjava po prizem / zakletvom, affidavit:** Mariners applying for a (certificate) duplicate credential must submit an affidavit describing the circumstances of the loss. The affidavit may be submitted in writing or electronically. (https://safety4sea.com/) Once an affidavit is submitted as part of an application it is evidence that the applicant is affirming that the
information provided is true and correct. (https://safety4sea.com/);

2 garantno pismo

**Affirmative (=Affirm)** (comm) Confirm or Yes, used in aviation and navigation

**Potvrđujem., Prihvatio., Da.**

afford /əˈfɔːrd/ (n, v) 1 pružiti; 2 pripustiti; 3 dopustiti, dozvoliti, dopustiti si The message from these statistics is that none of us can afford to be complacent.; 4 priuštiti (si)

**affreightment** /əˈfretmənt/ (n) 1 (mar law) In civil law jurisdictions, affreightment refers to a contract for the chartering of a ship or some principal part of it. According to your information, this service is not required. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm's Glossary) The hiring of a ship, the term may also sometimes be used to describe a contract for a series of voyages. http://www.tkmglobal.net/index.htm/ ugovor o iskorištavanju broda, ugovor o najmu broda, afretman; 2 (mar law) ugovor o zakupu broda ili dijela broda; 3 (mar law) ugovor o zakupu broda, ugovor o iskorištavanju broda, ugovor o prijevozu contract of ~; 4 (mar law) In England, the term is used to refer to the contract for the carriage of goods in a ship, either under a bill of lading or a charterparty. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm's Glossary) ugovor o prijevozu (na temelju teretnice ili ugovora o najmu)

afofloat /əˈfloʊt/ (adj) (navig) koji pluta: He was afloat, semi-conscious and with his lifejacket inflated.

When the mate returned to the bridge a short time later, the vessel was afloat. remain ~ ostati u plutajućem stanju, ostati plutati: Fortunately, his lifejacket gave him the buoyancy to remain afloat and cling onto the side of the boat until the helicopter arrived. The fishing vessel remained afloat and on fire until later that afternoon, at which time the fuel tanks exploded and the vessel foundered.; stay ~ ostati u plutajućem st anju, keep ~: The use of both pumps kept her afloat until help arrived in the form of a high capacity salvage pump, provided by the rescue services. održati (s) u plutajućem stanju

afore /əˈfoʊr/ ANTONYM abaft in, on, or toward the front of a vessel; in front of a ship blizu pramca, dalje od pramca

**AFR** (=Advance Filing Rule) (n) (logist) With the exception of Hong Kong, all ports in greater China, and all ports in Japan, require an Advance Filing. This applies to all cargo being imported, as well as cargo transhipped via these countries. https://www.logisticsglossary.com/term/advance-filing-rule/ pravilo prethodne elektroničke prijave tereta za iskrcaj i tranzit: The Advance Filing Rule requires carriers and NVOCC's to electronically file details of all cargo intended to sail for China or Japan, 24 hours prior to departure from the origin port, or Port of Loading (POL). https://www.logisticsglossary.com/term/advance-filing-rule

**Aframax** (=Aframax carrier) (n) (nav arch) brod koji mora, zbog velikog gaza, obilaziti Rt Dobre Nade; A term used for the largest dry bulk carriers. https://officerofthewatch.com/; a medium-sized crude tanker with a dead weight tonnage (DWT) ranging between 80,000 and 120,000. The tanker derives its name from AFRA which stands for Average Freight Rate Assessment. http://maritime-connector.com/wiki/aframax/ brod tipa Aframax

aft /əːft/ (adv) 1 toward, at, or near the stern of the ship prema krmi, The other seaman was swept aft and came into contact with a protection plate for the forward liferaft.: The skipper was not aware that either of the crewmen had gone aft. As the chief officer was moving aft, however, the head rope parted and struck him on the leg, which luckily was not
The ship was secured with four lines forward and four lines aft. Additionally, in normal operating conditions, the vessel had very little freeboard aft.

The aft tug was slower to secure than usual as her secondary towing gear was being used due to her primary gear being defective. The 25t bp tug was made fast aft and the two 10t bp tugs were pushing on the vessel’s starboard side. The Master keeps on turning to course 160, in order to pass on the tanker’s port side and then to cross on her aft.

The master gave instructions for a headline, a forward backspring and an aft backspring to be passed ashore.

Both these spaces were adjacent to the aft bulkhead of the hold.

As a result, the generator’s exhaust fumes filled the engine bay and spread through gaps in an internal bulkhead into the aft cabin where two passengers were asleep.

The fire damage to the aft engine room was extensive, and the vessel was out of service for more than a month.ing of the class VI passenger vessel on Mew Stone rocks near tFlooding of aft engine room of passenger cruise ship QE2 on 21/22 May 2002 – escape of steam and hot water on board QE2 in mid-Atlantic.

Looking through the door’s observation port they saw a fire around the after end of the port main engine. The second mate took the afternoon watch in the wheelhouse, while an AB carried out maintenance duties at the after end of the cargo hold coaming.

This was immediately followed by a series of heavy thumps which appeared to come from somewhere around the after end of the vessel. ~ mast krmeni jarbol, zadnji jarbol

A device used on turbocharged engines to cool air which has undergone compression. (http://www.marinedieseleurope.com/) međurashladnik

The boat came astern while the officer on the after
**after end** *(n)* **krmeni dio broda:** The thick black smoke had spread throughout the *after end of the vessel* via the open doors and hatches. This is not possible in an enclosed boat as the crew are mainly situated inside during lowering and there is only an opening at the side and at the *after end of the boat.*

**aftertreatment devices** *(marine eng)* Devices which remove pollutants from exhaust gases after the gas leaves combustion chamber (e.g., catalytic converters or diesel particulate filters).

**after end** *(n)* **stražnja strana (dijela broda), krmena strana (dijela broda):** An AB carried out maintenance duties at the *after end of the cargo hold hatch coaming.* Fuel is delivered to the high-pressure main by the multi-plunger pump fitted at the *after end of the engine.* An AB was carrying out maintenance duties at the *after end of the cargo hold hatch coaming.*

**afterglow** *(n)* *(navig)* nejasna radarska slika (nakon promjene područja), nefokusirana radarska slika (nakon promjene područja), zadržana slika na radarskom zaslonu (nakon promjene područja), trag cilja (na radaru)

**afterguy** /ˈɑːftəɡaʊ/ *(boating/yachting)* privjetrinska uzda špinakera, škotina tanguna špinakera, privjetrena škota špinakera, *brac*

**afternoon watch** *(n)* *(navy)* the 1200 to 1600 watch *poslijepodnevna straža*

**after peak** /ˈɑːftəpiːk/ *(=afterpeak) (n)* A compartment just forward of the stern post. It is generally almost entirely below the load water line. [https://officerofthewatch.com/krmeni pik, afterpek ~ bulkhead](https://officerofthewatch.com/pregrada krmenog tanka)

**after peak flat** *(n)* *(nav arch)* palubica krmenoga pika

**afterpeak tank** *(n)* *(nav arch)* ANTONYM forepeak tank tank krmenog pika,

**zatežni tank**

**after perpendicular** *(n)* An imaginary line drawn perpendicularly through the waterline at the edge of the rudder post where it meets the summer load line *krmena okomica*

**after spring** *(n)* *(seamanship)* ANTONYM *forward spring* *krmeni špring:

Arriving on the bridge, he was in time to see the *after spring* part just as the mate was reaching the forecastle. [https://www.ibiblio.org/hyperwar/USN/ref/PT-Manual/MTBM-3.html](https://www.ibiblio.org/hyperwar/USN/ref/PT-Manual/MTBM-3.html)

**after station** *(n)* = *aft station* *(navig, seamanship)* *krmena privezna grupa, postaja za privezivanje na krmi, stanica za privezivanje na krmi*

**aftertreatment devices** *(marine eng)* Devices which remove pollutants from exhaust gases after the gas leaves combustion chamber (e.g., catalytic converters or diesel particulate filters).

([http://www.marinedieseleurope.com/](http://www.marinedieseleurope.com/)) ANTONYM *uredaji za odstranjivanje nečistoća iz ispušnih plinova*
after-treatment equipment / units (n) (marine eng, environ) uređaj za naknadnu obradu (ispušnih plinova): If after treatment units are installed, the cost of the ship will increase, while operating the after-treatment units will also increase operating costs.

www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf The after-treatment equipment creates an increased electrical power demand because of the additional pumps required. www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf The additional costs for the after-treatment system are still moderate in comparison to the additional costs for the LNG fuel tank system.

aft mooring (n) ANTONYM forward moorings krmeni vez, krmeni konopi, krmena užad, krmeni armiž ~s krmeni konopi, krmena užad, krmeni vez

A typical Tanker Mooring at a tanker berth

https://www.slideshare.net/Ruranha/parts-of-a-ship1

aft mooring lines (n) (seamanship) užad krmenog veza: The vessel’s swing to port could not be checked (=stopped) and the aft mooring lines also parted. The forward and after mooring lines were secured in different ways: the forward mooring party used ropes on bights and left them on the winch warping drum so that rope tension

aft mooring party krmena privezna grupa, krmena privezna: The aft mooring party comprised the second officer, the carpenter, a welder and two engine room ratings. The forward and after mooring ropes were secured in different ways: the forward mooring party used ropes on bights and left them on the winch warping drum so that rope tension

aft mooring station (n) (seamanship) krmena privezna postaja, krmena privezna stanica: Crew members were at their forward and aft mooring stations. The officer on the aft mooring station passed a mooring line ashore, which then parted, and could have injured a crewman. Using his VHF radio, the second mate, who was at the after mooring station, shouted to the master that the ship was moving up the jetty.

aft of (prep phr) (seamanship) iza: A fire was noticed in the top tier of the deck containers aft of the funnel. The compartments aft of the engine room, for which access was gained via the deck, were all sealed
At 0720, the aft spring line parted. The aft spring line slipped as weight came on it because the rope had not been secured correctly.

The Master or the Officer of the Watch (OOW) has to tell the officers in charge of the Fore and After (Mooring) Station to single up.

The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode.

The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode.

The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode.

The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode.
agent  /ˈeɪdʒənt/  (n) ~s agencija, pomorska agencija: Traffic Service centers; potential distractions associated with making final arrangements for entering port including communications with the ship’s agent or sending departure messages, etc. The master was informed by his agent that the pilot was booked for 1315 the following day; the master made arrangements accordingly. 1 A person authorized to transact business for and in the name of another person or company. Typical jobs and duties of an agent are the following: 1. sales (marketing, acquisition of cargo, issuing quotations, concluding contracts in co-ordination with the shipping company), 2. booking (zaključivanje tereta; booking of cargo in accordance with allotments assigned to the agent for a certain voyage), 3. customs (dealing with the national customs administration for cargo declarations, manifest alterations and cargo clearance on behalf of the shipping company), 4. documentation (timeliness and correctness of all documents regarding the carriage of cargo), 5. handling (taking care of all procedures connected with physical handling of cargo), 6. equipment control (managing of all equipment stock in a particular area), 7. issuing (authorisation to sign and issue Bills of Lading and other transport documents), 8. collecting (authorisation to collect freight and charges on behalf of the shipping company), 9. delivery (the agent who releases the cargo and is responsible for its delivery to the consignee), 10. handling of cargo claims (Handling of cargo claims as per agency contract), 11. husbanding (handling non-cargo-related operations of a vessel as instructed by the master, owner or charterer)

(http://www.iss-shipping.com/cargo/cargo_library_glossarya.asp (P&O Nedlloyd) agent; 2

agencija

agent  (n) (chem) sredstvo, agens: Cargo holds intended for the carriage of dangerous goods should be equipped such that they contain the possibility to use water as an extinguishing agent or for cooling via a permanently installed system as well. extinguishing ~ protupožarno sredstvo

aggravate  /ˈægɹə vət/  (v) pogoršati

aggregate shipment  (n) COMPARE LCL (mar law, shipping econ) Numerous shipments from different shippers to one consignee that are consolidated and treated as a single consignment.

zbirna pošiljka

agree  1 a složiti se; 2 dogovoriti se, dogovoriti: Sometimes it may be appropriate to agree a temporary “no go zone” for both ferries and yachts during large regattas. An exchange of factual information should be used by both pilot and the bridge team to establish and agree an effective plan for the passage.; 3 (mar law) obvezati se, ugovoriti, skloponiti ugovor: Both contracting parties fully agree to comply with all the terms and conditions of this Agreement. obje ugovorne stranke obvezuju se da će se u potpunosti pridržavati uvjeta iz ovog ugovora It is agreed between the Master and the undersigned seafarers of the motor vessel ... owned and operated by ..., that ... agreement  /oˈɡriːmənt/  1 (mar law) sporazum make an ~ between ... and ...

skloponiti ugovor između ... i ...: the Agreement made between the International Transport Workers’ Federation (the ITF) and the Owners, Managers, Employers and Contract of that Offshore Vessel/Unit (the Owners); 2 (mar law) ugovor Articles of ~ ugovor o ukrcanju (pomorca), ugovor o zaposlenju na brodu, charter ~ ugovor o najmu broda, ugovor o iskorištavanju broda: Under the charter agreement the charterer’s port captain was responsible for arranging and paying for these extra deck fittings., This ~ shall terminate on ... Ovaj ugovor završava dana ..., This ~ shall come into force on .... Ovaj ugovor stupa na snagu dana ..., This ~ shall expire on ... Ovaj ugovor istječe dana ...; 3 (mar law) dogovor; 4 (mar law) pristanak, odobrenje:
Regardless of how well intended, individuals should not be permitted to assume control of the party without the prior agreement of the supervisor. The decision to pass the navigation buoy on the wrong hand was taken by the pilot, with the master’s agreement, when the vessel being overtaken moved across the channel to keep clear of inbound vessels using it.

**aground** /əˈɡraʊnd/ (adv) touching or resting on the bottom when still in the water (i.e. not ashore) (Mayne 2000) **nasukan:** By the time the anchor was finally released, the vessel was already aground. A tanker carrying refined petroleum products is aground in the St. Lawrence River near Morrisburg, Ontario.

http://gcaptain.com/product-tanker-grounds-in-st-lawrence-seaway/?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+Gcaptain+%28gCaptain.com%29&goal=0_f50174ef03-06db6817b3-169984497&m_c_id=06db6817b3&m_c_id=dea04dcdff2 go ~ nasukati se: the tanker took a sheer to port and went aground. The skipper was able to regain control of the vessel before she went aground.

Cargo Ship **Goes Aground** as Typhoon Meranti Hits China, run ~ nasukati se: The 332-meter containership ran aground at the Port of Santos access channel in Brazil during her departure Monday, December 7th. Approaching the planned anchoring position on a roughly south westerly heading, the vessel ran aground at 1435 on a rock pinnacle charted as an isolated danger. The ship was **firmly aground,** be ~ biti nasukan: The LNG carrier is aground in soft mud off the Bonny Island LNG Terminal. A fully-laden Suezmax tanker was hard aground near Istanbul. The master realised that the vessel was aground and put the engine telegraph control to stop. **hard ~** A boat which has gone aground and cannot break free under her own power. https://www.ypiyachts.com/ potpuno nasukan

**AGW** (=all going well) (n) (shipping econ) pod uvjetom da sve (prijezoz i ukrcaj / iskrcaj) dobro prođe

**ahead** /əˈhɛd/ 1 (prep, adv) (seamanship) sprijeda: She manoeuvred successfully to avoid a collision with a small craft ahead. 2 (navig, seamanship) forward of the bow or ship ispred broda: Passing close ahead of a ship at anchor is potentially perilous, but if it is unavoidable, the effects of the tidal stream, wind and a ship’s manoeuvrability need to be taken into account. A new small target was noted on the radar a little over 4 miles ahead of the ship and about 10° to port of the heading line. 3 (navig, seamanship) po pramcu; 4 (navig) naprijed: The master applied more thrust and the vessel moved slowly ahead.

**Ahoy!** /əˈhoɪ/ poziv kojim se privlači pozornost mornara na brodu ili drugi brod; a call used in hailing a vessel or boat to attract attention **Pozor! Ship ~! Pozor svima!**

**AHT** (=anchor handling tug) (n) (nav arch) tegljač za sidrenje

**ahull** (=a-hull) (adj) (boating/yachting) lying to the wind in heavy weather with no sail set, usually with the wind broadside on the ship or, with the helm a-lee, when the wind is on the quarter (Mayne 2000) u jakom vjetru bez podignutih jedara

**aid** /ˈeɪd/ (n) with the ~ of s pomoću, uz pomoć, pomoću pomoć

**aid** /ˈeɪd/ (v) pomoći, pomagati

**aids to navigation** (=Aton; aton) (n) any device EXTERNAL to a vessel specifically intended to assist navigators in determining their position or safe course, or to warn them of dangers or obstructions to navigation. **navigacijsko pomagalo, plovidbena oznaka:** While electronic charts and GPS feeds to radars are valuable aids to navigation, an unwelcome side effect is that the modern watchkeeper can often seem obsessed with sticking to ‘the red line’ (his track). establish and aid to navigation uspostaviti plovidbenu oznaku, postaviti
The use of common terminology is emphasised and MRM training aims to improve coordination, communications and team work. Identify and implement measures aimed at improving the identification of all dangerous and potentially dangerous spaces and increasing compliance with the safe working practices.

The pilot then advised the master to put the engine to full ahead and aim for the red buoy marking the south side of the entrance to the channel.

These procedures should be periodically reviewed with the aim of ensuring that risk is kept as low as reasonably practicable; 14/2014_R4 establish formal familiarisation training for all its personnel, which The helmsman achieved the aim, the electronic chart display data showing him steering between 10 and 15 degrees to starboard of the approach course to counteract the effect of The main aim of my latest survey was to answer the question whether sailing generally, and cruising in particular, was safer.
air bleeder (n) odzračnik, uređaj za odzračivanje: A device used to remove air from a hydraulic system.

airborne /ˈɛəˌbɔːr n/ (adj, adv) COMPARE seaborne u zraku, u zrakoplovu, prevožen zrakom ~ traffic zračni promet, ~ cargo teret prevožen zrakom

air breathing apparatus (n) (med) aparat za disanje: There will be an air breathing apparatus to provide safety danger from the release of HS gas. The cofferdam lid was re-secured 15 minutes later by a rating wearing full compressed air breathing apparatus.

air cell (n) (marine eng) A small receptacle communicating with an engine cylinder into which some of the compressed air is forced, and from which air later flows back into the cylinder. spremnik za prihvat viška komprimiranog zraka iz cilindra

air cleaner (n) (marine eng) A device (filter) for removing unwanted solid impurities from the air before the air enters the intake manifold. pročistač dovoda zraka (u usisni kolektor), filter zraka (izvanbrodskog morora) ~ element umetak filtera zraka, umetak pročistača zraka, element filtera zraka

air compressor (n) (marine eng) kompresor zraka: Engineering ratings of a foreign flagged ferry were preparing to move an air conditioning compressor from the auxiliary engine room to the engineer’s workshop, for maintenance purposes. He went to investigate and found that both main air compressors were running, but the air receivers were empty. main ~ cooler rashladnik glavnog kompresora zraka, main ~ glavni kompresor zraka, emergency ~

kompresor zraka za slučaj nužnosti
http://marineinfobox.blogspot.hr/2017/04/basics-of-main-air-compressor-on-board.html

air conditioner (n) (marine eng) klima uređaj

air conditioning (n) (marine eng) kondicioniranje zraka, klimatizacija: As both fans were running, he switched off the power to number 1 fan, closed the delivery flap and opened the air conditioning unit access panel. Without warning, one of the two bow thrusters stopped, the air conditioning went off and the lights momentarily dimmed as the ferry experienced a partial loss of electrical power.

air conditioning equipment (=air conditioning unit) (n) (nav arch) rashladni uređaj

air conditioning intake (n) (marine eng) usisizraka uređaja za klimatizaciju

air conditioning system (n) (marine eng) sustav kondicioniranja zraka, klimatizacija

air cooler (n) (marine eng) isparivač, evaporator

air-course (n) (sailing vessels) odušnik, produšnik

aircourse-board (n) (nav arch) rešetka za ventilaciju
**aircraft carrier**  (*n*)  (*navy*) a naval ship with a landing deck for launching and recovering aircraft
nosač zrakoplova, nosač aviona

**aircraft search and rescue unit**  (*n*)  (*navig, safety*) zrakoplovna spasilačka jedinica

**air cushion vehicle**  (*n*)  (*nav arch*) = hovercraft lebdjelica

**air cylinder**  (*n*)  (*marine eng*) zračni cilindar, cilindar zraka: In the engine room, the reserve compressed air cylinder was opened but there was still insufficient air pressure to re-engage the clutches.

**air density**  (*n*)  (*meteorol*) gustoća zraka

**air draft**  (*n*)  (*nav arch*) The vertical distance from the summer waterline to the highest point in the ship, usually the top of a mast. https://officerofthewatch.com/visina (broda) iznad mora, maksimalna visina (iznad mora)

**air drier**  (*n*)  (*marine eng*) uređaj za sušenje

**air duct**  (*n*)  (*marine eng*) odvod za zrak, zračni vod, vod zraka: Both fans supplied a common air delivery duct, and the airflow from the running fan caused the fan on number 1 to rotate in the reverse direction.

**air ejector**  (*n*)  (*marine eng*) zračni ejektor

**air exhaust**  (*n*)  (*nav arch, marine eng*) izlaz zraka, ispuh zraka, ispust zraka
air filter  (n) (marine eng) filter zraka
air flow  (n) (marine eng) protok zraka, strujanje zraka: He decided instead to reduce the air flow by stuffing a towel into the vent trunking.
air grid  (n) (marine eng, nav arch) rešetka za zrak
air grill  (n) (marine eng, nav arch) rešetka za zrak
air hammer  (n) (seamanship) Hammer driven by compressed air for riveting, or chipping.

Sometimes called an air gun or "gun". http://officerofthewatch.com/ pneumatski čekić

air intake  (n) (marine eng) usisni ventil zraka, ventil za ulaz zraka

air leak  (n) (marine eng) propuštanje zraka: In response, two engineers searched the engine room for a possible air leak.

airlift  /ˈɛəˌlɪft/  (n) (safety) podiçi iz mora u helikopter: All five crew were later safely airlifted ashore. Sva petorica članova posade kasnije su bila podignuta iz mora u helikopter Three of the crew members were airlifted to safety by the Navy. Three crew members were critically injured in the incident and were airlifted to a hospital. the Captain and Ship Superintendent were airlifted to a hospital and survived https://gCaptain.com

airlift  (n) (safety) podizanje s mora (broda) u helikopter: After initial rescue efforts were impeded by bad weather that stopped other ships getting close, it. and Greek helicopter crews began the airlift on Sunday afternoon.

air manifold  (n) (marine eng) kolektor zraka

air masses  (n) (meteorol) zračne mase

air pipe  (n) (nav arch) zračnik, odzračnik: It was found that the small basis bore ventilation air pipes to the engine room were completely blocked by rust flakes.

air port  (n) (nav arch, US) = porthole an opening in the side or deck house of a vessel, usually round in shape and fitted with a hinged frame in which a thick glass is secured brodsko okno

air pressure  (n) (marine eng) tlak zraka: In this case, crushed nut shells were injected into the turbocharger under 7 bar air pressure.

air pump  (n) (marine eng) pumpa zraka, sisaljka zraka, zračna pumpa

air receiver  (n) (marine eng) spremnik zraka: No1 compressor was isolated but the engineers soon noticed that the air pressure in the main air receiver was dropping.

air register 1 regulator zraka, registar zraka, uređaj za privod / dovod zraka; 2 privodne lopatice

air start system  (n) (marine eng) = starting air system sustav zraka za
A valve which admits compressed air to the air starter for starting purposes. (http://www.marinedieseleurope.com/)

Accordingly, the air start valves were opened and one of the engineers operated the turning gear control lever with the intention of disengaging the turning gear from The main engine indicator cocks were left open, the turning gear disengaged, the air receiver valves and main air start valve were shut, and the lubricating and cooling water pumps were left running.

There is no doubt that their swift actions in stopping the engines and isolating the fuel and air supplies to the engine room contributed significantly to extinguishing the fire. The engineer then opened the air supply valve to pressurise the reservoir.

A metal air-tight tank built into a boat to insure flotation even when the boat is swamped.

Following an unsuccessful attempt to fight the fire with a portable dry powder extinguisher, the engines were shut down and the air vents closed.
AIS display

AIS /ˈɛər iː ˈɛs/ (=Automatic Identification System) (n) (navig, safety) Automatic Identification System (AIS) – Used to help identify vessels, to assist in target tracking (based on Global Navigation Satellite System), and to improve quality of information available to OOW. AIS continually transmits the ship’s own data to other vessels and VTS stations. It also continuously receives data from other vessels and VTS stations and, when linked to radar or ECDIS, can also display this data. AIS transmits: static data (MMSI number, call sign and name, IMO number, length and breadth, type of ship, location of position fixing antenna), dynamic data (ship’s position, position time in UTC, course over ground, speed over ground, heading, navigational status, rate of turn), and voyage data (ship’s draught, hazardous cargo, destination and ETA, route plan – waypoints) (Seamanship Notes 2004).; AIS is a navigation and anti-collision tool enabling the exchange of ship-to-ship information.

AIS base station (n) (shipping econ, logist) Station on land that receives messages that are sent by the vessel. https://www.logisticsglossary.com/term/ais-base-station/ bazna stanica AIS-a

AIS data (n) (navig, comm) podatci iz automatskog identifikacijskog sustava, podatci dobiveni od AIS-a: The 30,000 DWT container ship was underway in the Ligurian Sea as of 11:20 a.m. EDT on Wednesday, according to AIS data from MarineTraffic.com. The speed derived from his GPS fixing and confirmed by AIS data showed the vessel maintained her maximum speed of 12 knots until shortly before the grounding. AIS data and visual observation confirmed that the tanker’s speed was not excessive and it was not abnormally close. AIS data as of 15:00 UTC showed the vessel’s status as “underway using engine” but with the assistance of six tugs as it continued its voyage to Hamburg. http://gcaptain.com/capesize-bulk-carrier-breaks-elbe-river-ais/ The AIS data is stored as comma-separated values files (CSV), which allows the data to be saved in a table structured format. From the Automatic Identification System (AIS) data displayed on the radar, he saw that vessel A was overtaking a general cargo vessel, and the vessel B was turning around Foxtrot 3 buoy to enter the south-west traffic lane at a SOG of 12.6 kts www.gov.uk/maib

AIS display (n) (navig) prikaz u sustavu AIS: Based on visual monitoring of the movement of the ship’s mark on the AIS display and comparison to another vessel’s movement tracking display, it was ascertained that the ship was actually moving west-northwest in the traffic lane.
AIS MOB device (n) (safety) An AIS Man Overboard (MOB) device is designed to be carried by individual crewmembers and used in the event of a Man Overboard situation or other personal emergency. AIS uređaj za otkrivanje osobe / čovjeka u moru: AIS MOB devices like the SEAANGEL SA15 AIS FLARE ECO, once activated, will transmit the emergency signal with the exact GPS position on internationally agreed upon frequencies that not only commercial ship crews are scanning permanently but also the U.S. Coast Guard and more and more recreational sailors.

AIS receiver (n) (navig) prijamnik sustava AIS, AIS-prijamnik: The target vessel’s details were displayed on the AIS receiver but the option to display the target’s information on the X-band radar, which was fitted with ARPA, was not taken.

AIS recreation (n) (navig) rekonstrukcija (pomorske nezgode) pomoću automatskog identifikacijskog sustava An AIS recreation of the incident from Vessel Finder is provided below

AIS-SART (=Automatic Identification System - SAR Transmitter) (n) (safety) A survival craft transmitter that sends out an AIS position report based on a built-in GNSS receiver (IAMSAR Vol. III 2013) AIS-SAR predajnik, SART predajnik u sustavu AIS

AIS Service Management (n) (navig) Služba upravljanja sustava AIS

AIS signal (n) (navig) signal sustava AIS: However, her AIS signal was logged and recorded onshore, allowing the coastguard to identify the vessel; after about 30 minutes they succeeded in contacting her.

AIS static and dynamic information (n) (navig) statički i dinamički podaci o brodu u sustavu AIS: The beam trawler’s AIS was transmitting static and dynamic information, including its status (engaged in fishing), SOG and COG.

AIS target (n) (navig) objekt (cilj, drugi brod itd.) dobiven putem AIS-a: Vessel B’s bridge team was only monitoring AIS targets on its radars and could not detect the change in Vessel A’s heading and speed. (https://safety4sea.com/) He then interrogated an AIS target about 6.

AIS track (n) (navig) putanja broda u sustavu AIS, trajektorij u sustavu AIS, trag rute broda na pokazivaču sustava AIS: Manual tracks were frequently lost and the information displayed on manual tracks was not as comprehensive or prominent as on AIS tracks.

AIS transmission (n) (navig) slanje signala AIS, odašiljanje AIS signala: Due to the loss of power, the AIS transmission ceased, causing the loss of the AIS plot. (https://safety4sea.com/)

AIS transmitter (n) (navig, safety) predajnik sustava AIS, AIS-predajnik: AIS transmitters on buoys and beacons provide increased awareness and safety when visibility is poor, regardless of the weather and the situation at sea.

AIS transponder (n) (navig) transponder sustava AIS, AIS-transponder: Although there is no requirement to fit a radar reflector and/or an AIS transponder, there are distinct advantages in doing so. Having an AIS transponder is required for all ships above 300 gross metric tons, all passenger ships and all fishing vessels with a length above 15 meters

AIS voyage details (n) (navig) podaci o putovanju u sustavu AIS update ~ ažurirati / osvježavati podatke o putovanju u sustavu AIS

alarm /əˈlaːrm/ (n) 1 (safety) uzbuna, alarm, upozorenje, znak za uzbunu sound the ~ dati znak uzbune: During this period the general alarm was sounded and the crew were mustered. There were numerous alarms sounding, including the bilge alarm for the bow thruster space,.

raise the ~ dati znak uzbune, uključiti alarm: Twenty-five hours later, the alarm was raised when its upturned hull was sighted by a passing ferry. One of the AB’s raised the alarm and the Master sounded the emergency alarm and mustered the emergency team by the hold.
Immediately, the bow thruster motor low insulation alarm was triggered and the breaker tripped.

Audible ~ zvučni alarm, visual ~ vizualni alarm, activate the ~ aktivirati alarm, pobuditi alarm: failed to notice that the visual grounding warning alarm had been activated, engineering ~ alarm iz strojarnice, inoperative ~ neispravan alarm.

Alarm koji ne radi: The ECDIS audible alarm was inoperative.

General ~ opća uzbuna: The master immediately sounded the general alarm and altered the course hard to starboard.

False ~ lažna uzbuna, lažni alarm: The majority of watchkeepers thought that these were false alarms and therefore ignored them.

Sound of ~ zvuk alarma: All officers and crew members were constantly disturbed and highly stressed by the sound of countless alarms, which made it extremely difficult to concentrate on the many challenges that appeared. Engineering alarm iz strojarnice, inoperative ~ neispravan alarm.

Failed to notice that the visual grounding warning alarm had been activated, engineering ~ alarm iz strojarnice, inoperative ~ neispravan alarm, alarm koji ne radi. The majority of watchkeepers thought that these were false alarms and therefore ignored them.

The master immediately sounded the general alarm and altered the course hard to starboard, false ~ lažna uzbuna, lažni alarm: The majority of watchkeepers thought that these were false alarms and therefore ignored them.

Failed to notice that the visual grounding warning alarm had been activated, engineering ~ alarm iz strojarnice, inoperative ~ neispravan alarm, alarm koji ne radi: The ECDIS audible alarm was inoperative, general ~ opća uzbuna: The master immediately sounded the general alarm and altered the course hard to starboard.

False ~ lažna uzbuna, lažni alarm: The majority of watchkeepers thought that these were false alarms and therefore ignored them.

Sound of ~ zvuk alarma: All officers and crew members were constantly disturbed and highly stressed by the sound of countless alarms, which made it extremely difficult to concentrate on the many challenges that appeared.

Reset the ~ resetirati alarm: The second officer arrived on the bridge and began silencing and resetting the alarms, as per the Master’s orders.

Alarm message (n) 1 (safety) poruka o opasnosti; 2 (safety) poruka za uzbunu. Alarm message display (n) (navig) pokazivač alarma na radaru: When trouble occurs the radar generates audio and visual (alarm message display) alarms to alert you.

Alarm signal (n) (safety) znak uzbune

Alcohol /ælkohol/ alkohol ingest ~ konzumirati alkohol

Alcohol consumption (n) (med, safety): It is likely that the his consumption of alcohol contributed to the seafarer’s injury. ~ limits granične količine alkohola u krvi: The alcohol limits were higher than those legally required.

Alcohol content (n) (hum_resources) sadržaj alkohola u krvi: The loss of co-ordination was due to his blood alcohol content being more than double the prescribed limit.

Alcohol free (n) (med) negativan test na alkohol: Alcohol tests were conducted on all staff on duty shortly after the incident and the results were satisfactory i.e. negative. The vessel is alcohol free.

Alcohol limit (n) (safety) granica alkohola u tijelu: The Captain of the ship was fined $1,000 and removed from his position for exceeding the alcohol limit in ... waters.

Alcohol test (n) (mar law) test na alkohol: Alcohol tests were conducted on all staff on duty shortly after the incident and the results were satisfactory i.e. negative. The vessel is alcohol free.

Conduct an ~ obaviti test na alkohol
Aldis lamp /ˈɔldis/ (n) (navig, comm) aldis lampa
https://commons.wikimedia.org/wiki/File:Aldis_lamp.jpg

a-lee /əˈliː/ (=alee) (v) (navig) to the leeward side; on the lee side of a ship; away from the ship

niz vjetar, u zavjetrini

alert /əˈlɜːt/ (adj) budan: Moving around the bridge will also keep you stimulated and alert! If the skipper and the deckhand had been more alert and had maintained a good lookout, they would have noticed the vessel was not following her intended course.

alert /əˈlɜːt/ (v) ubzuditi, ubzuniti, alarmirati: The master was immediately alerted and ordered wheel hard over to port. He alerted the coastguard and gave their position. The VTS officer then alerted the local tug skippers and placed them on standby to provide rapid assistance if needed.

www.gov.uk/maib The master alerted his crew and then called the company’s emergency telephone number and reported the situation. www.gov.uk/maib Ship-to-shore distress alerts or calls are used to alert rescue coordination centres via coast stations or coast earth stations that a ship is in distress. (ITU-R)

~ the passengers and crew ubzuditi putnike i posadu, ~ the vessels in vicinity! Almirajte brodove u blizini!

alert /əˈlɜːt/ (n) (comm, safety) ubzuna, znak ubzune, signal ubzune: On receiving the alert from VTS, the pilot ordered the engine to full ahead, helm hard-a-port and instructed the tug to pull on the vessel’s port quarter. DSC ~ 1 znak ubzune putem DSC-a: If you have DSC radio, you could try a ‘sécurité’ DSC alert followed by a voice broadcast. 2: The MF/HF DSC frequencies are reserved exclusively for DSC alerts associated with distress, urgency and safety messages, inadvertent distress ~ greškom poslan signal o pogibli, safety ~ signal ubzune o sigurnosti, signal sigurnosti, urgency ~ signal ubzune o žurnosti, signal žurnosti, ~ button dugme za ubzunu: The skipper pressed the Digital Selective Calling (DSC) distress alert button on the VHF radio and the coastguard responded immediately., raise the ~ podići ubzunu, uključiti ubzunu: Both the RNLI and RYA strongly recommend to raise the alert in the case of an emergency., issue ~ poslati signal ubzune o pogibli, izdati signal ubzune o pogibli: The maritime administration said there was no ocean pollution, and issued alerts to nearby vessels to avoid the collision area.

alerting post (n) (safety, comm) Any facility intended to serve as an intermediary between a person reporting an emergency and rescue co-ordination or rescue sub-centre". (IAMSAR Manual); sustav za posredovanje između osobe koja izvještava o opasnosti i Spasilačkog koordinacijskog centra (RCC RH/MRCC RH) ili Područnog centra za potragu i spasavanje (RSC/MRSC); (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html) točka uzbunjivanja
Alerting posts include facilities such as air traffic services (ATS) units or coast radio stations (CRSs). Central ~ središnje mjesto uzbunjivanja (u traganju i spašavanju)

Alertness /əˈlɜːt nis/ (n) (safety) budnost: Drinking alcohol, especially in combination with being tired, will reduce alertness and will affect judgment and perception.

Alert phase (n) (safety, navig) stupanj opasnosti koji određuje centar za koordinaciju traganja i spašavanja ako postoji sumja u sigurnost plovnoga objekta i osoba na njemu, zbog toga što nakon utvrđivanja stupnja neizvjesnosti nije uspio pokušaj uspostavljanja veze s plovnim objektom stupanj pripravnosti: During the ALERT phase of a maritime emergency, the SMC should, where possible .1 Issue an “All stations” broadcast under the urgency PAN PAN prefix for information on the vessel or, if the vessel is disabled, to locate vessels able to render assistance.; .2 Alert personnel and SAR facilities, and plan initial briefing of SAR crews.; ..;

Alert response (n) (safety) reakcija na uzbunu o pogiblj, akcija nakon primitka signala o pogiblj

Aliadade /ˌæli ˈdeɪd; ˈæli dæd/ (=alidad) (n) (navig) a device that allows one to sight a distant object and use the line of sight to perform a task alidada

Align /əˈlain/ (v) (marine eng) centrirati, poravnati ~ with poravnati s: The master used considerable lateral thrust to try and align his vessel with the linkspan.

Alignment /əˈlainmənt/ (n) (marine eng) centriranje, poravnavanje out of ~: The port drive unit was found to have been moved out of alignment and the drive shaft had sheared, requiring dry dock repairs. Izvan centra, necentriran, ~ tool alat za centriranje: The stowage had a working platform from which the riggers could access the top of the alignment tool to connect the slinging arrangements when it was to be deployed.

Alleged /əˈlɛdʒd/ (adj) (mar law) navodni

All-electric ferry (n) (nav arch) https://www.cnbc.com: An all-electric ferry capable of carrying 30 vehicles and 200 passengers has completed its maiden voyage.

Allen wrenches (=Allen keys) (n) (marine eng) usadni ključevi

Alleyway /ˈæli ˌwei/ (n) (nav arch) an internal passageway or corridor in the vessel; a passage between two rows of cabins in a ship brodski hodnik, prolaz, kanižela: He peered down the access hatch and saw smoke in the main alleyway below, but he could not see where it was coming from. Two of the crew, wearing BA, entered the alleyway and confirmed that black smoke was coming from a dry store, which was directly under the area where the hot work had been taking place.
all hands (n) (comm, seamanship) entire ship’s company, both officers and enlisted personnel

svi članovi brodske posade (časnici i mornari): The master sounded the fire alarm and made a public address announcement ordering all hands to their emergency muster stations. The master instructed him to contact the pilot 2 hours before the vessel was due to arrive at the pilot station, and to call all hands 30 minutes before the pilot boarded. All hands! poziv svim članovima posade, pozor svim članovima posade

all-hatch ship (n) (nav arch) otvoreni brod, all-hatch brod

allide with /əˈlaɪd/ (v) sudariti se (s foksnim objektom u luci, plovnom kanalu): A containership allided with the pier in the port, causing damage to the pier and unknown damage to the ship. www.gCaptain.com

all in (prep) (mar law, shipping econ) The total price to move cargo from origin to destination, inclusive of all charges. prijevoz i ostali troškovi uključeni

allision /əˈliːʒən/ (n) (mar law, US) the striking by a moving vessel against a stationary object; an event when a ship strikes a fixed object, such as a reef, dock or piling sudar broda s čvrstim objektom na moru, udar broda o čvrst objekt na moru (plutaču itd.), alizija: The bulk carrier was involved in an allision with the ...-registered container vessel. The tanker lost propulsion and struck two mooring dolphins on the Houston Ship Channel. The allision punctured the tankers hull plating, causing the release of about 88,000 gallons of low-sulfur marine gas oil which suddenly ignited in a massive fire ball. http://gCaptain.com

allocate /əˈloʊ/ (v) dodijeliti, odrediti dio, raspoređivati: People ashore alerted the coastguard, which issued a “Mayday Relay” and began to allocate resources. A radar was allocated to the pilot for his own use on the port side of the main bridge console. ~ a berth dodijeliti brodu vez u luci: A safe berth has been allocated to the ship.

allocate resources (v) (shipping econ) dodjeljivati sredstva, izdvajati (financijska) sredstva: People ashore alerted the coastguard, which issued a “Mayday Relay” and began to allocate resources. raspoređivati sredstva

allot /əˈbɔt/ (v) (mar law, shipping econ) doznačiti, isplatiti: If the Master and a seafarer agree, a portion of such seafarer’s earnings may be allotted to such seafarer’s spouse, children, grandchildren, parents, grandparents, brothers or sisters or to a bank account in the name of the seafarer.

allotment /əˈɔlmt/ 1 (shipping econ, mar law) a allotman, predviđena partija tereta za brod; 2 (shipping econ, mar law) dio plaće, doznaka (dijela) plaće ~ note doznaka (plaće), priznanica obiteljske doznake: Any Employee shall be
allowance

granted an allotment note payable at monthly intervals, of up to 80% of her/his wages; 3 (shipping econ) a share of the capacity of a means of transport assigned to a certain party, e.g. a carrier or an agent, for the purpose of the booking of cargo for a specific voyage dioba prijevoza tereta (na različite brodale, agente itd.), dio tereta u prijevozniku poslu (dodijeljen drugom brodaru, agentu itd.)

allowance /əˈlaʊəns/ 1 (shipping econ) naknada, platni dodatak (npr. za dnevnice), doplatak daily subsistence allowance (DSA) dnevnice, dodatak za dnevnice, iznos dnevica, bonus, naknada: In such cases the allowance shall be an extra 1.5 of the hourly rate; 2 (marine eng) The difference between the minimum and the maximum dimensions of proper functioning. (http://www.marinedieselEurope.com/) tolerancija, toleranca; 3 obzir, razmatranje: Throughout this process, the vessel was being set to the north of her planned track and no allowance had been made to counteract the tidal stream. make ~ for uzeti u obzir: However, no allowance is made for the quality of the crew's rest time, which is assumed to be good.

allowed lay time (n) (mar law) The number of hours allowed for loading and discharging a cargo as stipulated in a Charter Party. (https://www.euronav.com/en/) dopušteno vrijeme stojnica

allow for /əˈlaʊ fəː/ (v) 1 uračunati, uzeti u obzir: Sufficient staff must be available to allow for safe working on the manoeuvring stations in connection with the rope operations. ~ leeway (navig) uzeti u obzir zanošenje broda, uračunati zanošenje broda; 2 omogućiti: Since this accident, the ferry company, in conjunction with the harbour authority, has amended the passage plan to allow for a wider approach to the entrance.

allowing for 1 uračunavanje, uzimanje u obzir ~ stream and leeway uračunavanje struja i zanošenja; 2 dopuštanje

alloy /ˈæloɪ; əˈloɪ/ (marine eng) slitina, legura aluminium ~ alumihijska slitina, alumihijska legura, copper ~ bakrena slitina, copper-based ~ slitina na bazi bakra, ferrous ~ željezna slitina, light ~ lagana slitina, tin-based ~ kositrena slitina, slitina na bazi kositra

alloyed /ˈælɔɪd/ (adj) (marine eng) legiran, slitinast

alloyed steel (n) (marine eng) legirani čelik

all-round light (n) (navig) svjetlo vidljivo sa svih strana, svjetlo u 360 stupnjeva, okruglo svjetlo: Rule 27 Vessels Not Under Command or Restricted in Their Ability to Maneuver (a) A vessel not under command shall exhibit: (i) two all-round red lights in a vertical line where they can best be seen; During the pilotage period, the vessel had been constrained by her draft, and had displayed the appropriate signal of three all round red lights in a vertical line.

all standing (n) to bring up ~ naglo zaustaviti jedrenjak 1 (boating/yachting) fully rigged; to have all sails flying when running before the wind https://www.ypiyachts.com/ s punim jedriljem, potpuno opremljen; 2 (boating/yachting) sidrenje jedrenjaka pod prevelikom brzinom broda (s punim jedriljem), kruženje pod punim jedrima, bez pripreme

all-weather-lifeboat (=ALB) (n) (nav arch, safety) brodica za spašavanje u svim vremenskim uvjetima: Meanwhile, the second officer notified the coastguard, who tasked
the All Weather Lifeboat (ALB) and the Coastal Rescue Team. At 0049, the ALB arrived on scene and confirmed that there was no damage visible above the ship’s waterline and no pollution. MAIN Report 11/2018

**almanac** /ˈɔːlmənæk/ (n) (navig) godišnjak, almanah nautical ~ nautički godišnjak, nautički almanah

**aloft** /əˈloft/ (adv) 1 (navig, boating/yachting) above the upper deck; overhead or high above; above; toward or in the rigging above the deck; anything that might be above deck in the rigging or mast

**gore:** Once the ferry was safely alongside, the chief engineer went aloft to check the uptakes, and found traces of white smoke and a smell of burning oil.; 2 (seamanship) iznad palube: It is easy to become distracted when working aloft. Kada se radi iznad palube lako dolazi do ometanja / svračanja pažnje. to work ~ raditi na visini, raditi na jarbolu, raditi iznad

**navigacijskog mosta:** Personnel should avoid microwave radiation hazard by keeping clear of an operating scanner. If working aloft on the scanner unit or other equipment near the scanner unit.; 3 in the rigging u snasti; 4 podignuto (jedrilje); 5 na površini (zemlje), iznad površine zemlje

**alongside** /əˈlɒŋ sɑːd/ (adv) 1 side to side to a wharf/dock or to another ship uz bok broda, bočno, Italian: di fianco, alaj: The master then took control and manoeuvred the vessel alongside. Vessel A was starboard side alongside and carrying out a cargo operation. https://safety4sea.com depth ~ dubina uz lučku obalu: With a minimum depth alongside of 13.4 metres at low water, the Ringaskiddy Deepwater Terminal handles fully laden Panamax size vessels (60,000 tons deadweight), arrive ~ stići na vez, stići u luku: The ship arrived alongside in the port at 1100 Brod je stigao na vez u luci u 1100 sati., come ~: During the evening of 11 February 2015 the container ship was alongside in the port of Jebel Ali. A workboat was coming alongside a dredger to conduct a personnel transfer. pristati uz / na obalu, Italian: accostare, bring a ship ~ a pier dovesti brod na vez uz obalu, pristati uz obalu: At the end of the evening, the skipper brought the vessel back alongside a pier for the passengers to disembark., be moored ~ biti privezan uz obalu, alaj: A small gas tanker was moored alongside a terminal berth; all mooring bollards were in use due to bad weather., moor port side ~ privezati se lijevom stranom uz obalu, pristati lijevim bokom uz obalu: The vessel moored port side alongside another ro-ro berth and discharged her cargo., be secured ~ biti privezan uz obalu: A 100m long, LPG tanker was ready to sail from a river jetty, to which she was secured port side alongside and head upriver., manoeuvre the ship starboard side ~ pristajati desnom stranom uz obalu: The container vessel was being manoeuvred starboard side alongside with the assistance of a pilot and two attending tugs., berth ~ pristati uz obalu, pristati bokom uz obalu: It was a cold morning with temperatures dipping to freezing as a chemical tanker berthed alongside to discharge its last parcels of cargo before a routine docking. The vessel was port side alongside a berth which was perpendicular to the main shipping channel., be ~ biti uz lučku obalu (o brodu), nalaziti se na vezu uz obalu: The general cargo ship was alongside at Barking, London, port side to the quay. www.gov.uk/maib; 2 (mar law, shipping econ) Goods delivered “alongside” are to be placed on the dock or barge within reach of the transport ship’s tackle so that they can be loaded. slobodno uz bok broda, franko uz bok broda
alongside from (n) (mar law) sve troškove dovoza tereta/robe do broda u luci uklonjen odnosno primatelj uz bok broda
aloof /əˈluːf/ (adv) to windward, towards the wind (towards offshore); in the distance or far off
daleko od obale, dalje od obale
alphanumeric keypad (comm) alfanumerička tipkovnica
Altair /ˈæltɛər/ (n) (navig) a first magnitude star often used in celestial navigation; the brightest star in the constellation Aquila
promijeniti (smjer / kurs): If vessel B had not altered to starboard there would not have been a collision. Da brod B nije promijenio kurs u desno, ne bi bilo došlo do sudara.
alteration /ˌɔːltərəʃən/ (n) (navig) promjena (kursa): Accordingly, at approximately 0013, with the bulker 3.4nm off the trawler’s port bow, the trawler’s skipper began the first of several alterations to port. A single, broad alteration was not possible because the trawler’s manoeuvrability was limited by its fishing gear. The cargo vessel’s passage plan was to alter course by 60 degrees at the edge of the south-west traffic lane. The master made an alteration of course to starboard to a heading of 300°
course ~ promjena kursa: The turn involves two substantial course alterations: one to port abreast of the Prince Consort buoy of up to 40° and one to starboard, close to the Gurnard buoy, of about 140°.
alteration of course (n) (navig) promjena kursa: An alteration of course of just 10 degrees, when only 3 miles from the other vessel, was not enough to avoid a close-quarters situation. The planned track involved a 40° alteration of course just one ship’s length before the entrance to the channel.
alter course /ˈɔːltər/ (v) (navig) promijeniti kurs: the pilot ordered the helmsman to alter course from 124° to 149° to port / starboard: Immediately after crossing, she inexplicably began to alter course hard to starboard and turn back towards our vessel. The tanker’s master assumed that the container ship would alter to port on leaving the buoys and pass astern. While Vessel 1 conveyed to Vessel 2 that it would be altering her course to port in order to leave the anchorage areas and proceed towards the Hormuz Strait.
alternating current /ˈɔːltər/ (n) (electr) COMPARE direct current
alternating light naizmjenično svjetlo, svjetlo s promjenom boje
alternative fuel (n) (marine eng) alternativno gorivo: Interest in alternative fuels is growing because of the rising cost of diesel fuel, with liquefied natural gas (LNG) looking most promising,
alternative maritime power

An alternative fuel for compression ignition engines is di-methyl ether (DME).

alternative maritime power (AMP) (elect) = cold ironing

alternative port (n) (mar law, logist, mar ins) = safe port

An alternative fuel for compression ignition engines is dimethyl ether (DME).

alternative propulsion (n) (marine eng, nav arch) = alternativni pogon broda

alternative port: When the intended port is closed, the cargo owner/charterer would be obliged to nominate an alternative port. This is often not possible as there will not be any alternative destination the cargo can be discharged at.

alternative propulsion options and changes in fuels for merchant ships.

although (conj) = though

although a safety discussion took place, no formal risk assessment or permit to work was completed. The vessel was being steered by autopilot and, although a bridge navigation watch alarm system (BNWAS) was fitted, it was not switched on.

altitude (n) (in celestial navigation) the angle a celestial body makes with a point on the horizon vertically below this object

amber jack (n) (fishing) = yellow tail

ambiguity potential (n) (navig) višeznačnost očitavanja (u navigacijskom...
amend (v) promijeniti, izmijeniti, popraviti: The 2/O amended the passage plan on the ECDIS at the port bridge conning position. The master instructed the 2/O to amend the passage plan to route via the traffic separation scheme (TSS). ~ the passage plan promijeniti plan

Amendment/Cancellation Charge levied by the port/terminal for amending or cancelling any documentation/activity lodged with them (e.g. passing an amending document for change of destination of a container, or the export of that container needs to be stopped etc.)

https://shippingandfreightresource.com naknada zbog dopune ili otkazivanja tereta ili radnji u prijevoznim dokumentima

amenities /əˈmiːnɪtіz/ (=amenity) (n) facilities or services offered (at a port, marine, etc.); amenities such as shopping centres or sports facilities that are provided for passengers' convenience, enjoyment, or comfort. sadržaji, ponuda, popodnosti: The vessel is optimized for high durability, low maintenance and efficient operation, whilst delivering a high level of passenger comfort and amenity. https://gCaptain.com ~ in the marina (boating/yachting) sadržaji u marini (sve što se nudi u marini), ~ near the marina (boating/yachting) sadržaji blizu marine

American Bureau of Shipping (=ABS) (n) (nav arch, mar law) The American Bureau of Shipping is a U.S. classification society that certifies if a ship is in compliance with standard rules of construction and maintenance. Američki registar brodova

amidships /əˈmɪdʃɪps/ (adv) (n) In the middle portion of ship, along the line of the keel. sredina broda, srednji dio broda, po sredini, u sredinu: The big tanker struck the smaller vessel amidships, breaching her hull and rupturing a fuel tank. The RIB then circled back into mid-stream and collided with the passenger vessel for a second time, this time amidships on her port side. In the early hours of the morning, the ship was struck amidships on the port side by a large wave. put the wheel amidships: Seconds later, the master saw the cliffs emerge through the fog and, realising he was about to ground, he put the wheel amidships to take the impact on the bow and so minimise the chances of serious damage and pollution.

amidship(s) (adv) In or towards the middle of a ship in regard to length or breadth u sredini broda: She struck the smaller vessel amidships, breaching her hull and rupturing a fuel tank.

ammeter /ˈæmtɪtər/ (n) (electr) ampermetar

ammonium /əˈmɒnjəm/ (=ammonia (pl.)) (n) (chem) amonij: Wärtsilä has started testing ammonia as a potential fuel to help the shipping industry reduce its greenhouse gas emissions. https://gCaptain.com The experts discussed ammonia as a potential solution for carbon-free shipping. The flammability of ammonia is relatively limited, as it is limited in a specific range between 15-25% LEL and UEL. This is a blessing and a problem at the same time. A blessing because it is more difficult to ignite it, and problem because we need to enhance its ignition capability via pilot fuels. https://safety4sea.com/ The advantage of ammonia used as fuel is that it contains no carbon but it needs pilot fuel for combustion. https://safety4sea.com/

amount /əˈmaʊnt/ 1 iznos gross ~ ukupan iznos, bruto iznos ~ of rudder (navig) iznos zakreta kormila, stupanj zakreta kormila: The OOW did this while watching the buoy over the timber deck cargo from behind the starboard radar display; he did not monitor the amount of rudder used, or the rate the ship was turning; 2 količina: On their arrival, the coastguard
noticed a considerable amount of pollution in the vicinity of the propeller, and the decision was taken to remove the vessel to a nearby slipway. The skipper told some other fishermen that a significant amount of water had entered the vessel’s under deck area, and that he had experienced some problems with a bilge pump. On the return passage from the other harbour, the bridge team discussed the event further, and decided to restrict the amount of cargo they would load in order to produce a shallower draught.

amount claimed (n) (mar ins) traženi iznos (odštete) determine the ~ utvrditi iznos odštete

amphibious craft; amphibian /æmˈfɪbiəs/ (n) (nav arch) amfibija: A fire broke out inside the hull of the amphibious vessel operated on the River Thames by…..

ample time (n) (navig, safety, mar law) dovoljno vremena in ~ If you accept that a TCPA of 12 minutes in open waters means you are now in a close quarters situation, then “made in ample time” means taking action at least 12 minutes before collision. (www.safety4sea.com) pravodobno, na vrijeme

amplifier /ˈæmplɪˌfaɪə/ (n) (electr) pojačalo

amplitude /ˈæmplɪˌtjuːd/ (n) (navig) a measurement of the arc between true East or West and the plane of a selected star or planet at a precise moment in time amplituda

AMS (=Automated Manifest System) (n) (logist) AMS is the abbreviation for Automated Manifest System. https://www.logisticsglossary.com/term/ams-filing/ automatski sustav prijave tereta na brodu (manifesta tereta)

AMVER (=Automated Mutual-Assistance Vessel Rescue System) (n) (navig, safety) a worldwide maritime mutual assistance organisation which provides important aid to the development and coordination of Search and Rescue; a world-wide ship reporting system for search and rescue.; The Automated Mutual Assistance Vessel Rescue System (Amver) is a voluntary ship reporting system operated by the United States Coast Guard (USCG). (Camsar2014) Automatski sustav međusobne pomoći brodova

anchor /ˈæŋkər/ (n) 1 (ship_equipment, seamanship) sidro, kotva, ankora; Italian: ancore: He always kept his anchor ready%bb for such eventualities and was able to let it go without delay. All anchors are a compromise. Large, heavy anchors may hold better but are difficult to store and manage aboard. Lightweight anchors are easy to deploy but don’t set as quickly and tend to drag https://www.practical-sailor.com anchor gear sidreni uređaj, anchor watch straža na usidrenom brodu: Demonstrating a good anchor watch, the chief officer of the anchored vessel ensured that, when the accident happened, the alarm was raised quickly and the crew were able to summon., heave up ~ podići sidro (i zaploviti): Heave up anchor and proceed! Podignite sidro i krenite!, let go ~ oboriti sidro, spustiti sidro: The vessel’s starboard anchor was let go in an attempt to prevent a collision with the berthed ferry. Operating in confined waters, the forward mooring team is normally at hand to let go the anchor if required., raise ~ podizati sidro, ~ up and down sidro okomito u moru, sidro a piko, lower anchor spuštati sidro, stow the ~ podići sidro u sidreno oko, veer the ~ izvući sidro iz sidrenog oka, walk out the ~ izvući sidro iz sidrenog oka (tako da visi iznad mora ili u moru): The master decided to continue heading for the berth at reduced speed, and to berth without bow thrusters by walking out the starboard anchor., drop the ~ spustiti sidro, oboriti
sidro: He returned to the bridge to assess the navigational situation, and decided to stop the starboard main engine and drop the anchor. Still unable to regain control, the master ordered the starboard anchor to be dropped as well., stock ~ sidro s kladom, ~ a-peak sidro okomito i iznad dna, Italian: ancora a picco lungo, secure the ~ pričvrstiti i osigurati sidro, ease out the ~ of the hawse-pipe izvući sidro iz sidrenog oka, set the ~ spustiti sidro, postaviti sidro, starboard ~ desno sidro: The chief mate called the duty seaman and ordered him to proceed forward to heave-in the starboard anchor and, once that was complete, to rig the pilot boarding ladder., port ~ lijevo sidro: After weighing anchor, the bosun and a seaman had secured the port anchor and had begun stowing three loose mooring lines down into the forward store room., drag the ~ orati (o sidru): Had the OOW noticed that the ship was dragging anchor, and acted quickly and decisively in calling the master and engineer, the grounding could have been avoided. Da je časnik straže primijetio da sidro ore i da je brzo reagirao i pozvao zapovjednika i upravitelja stroja, nasukavanje bi se bilo moglo izbjeći. Despite the two anchors cast off Etel river, the vessel dragged anchor and stranded on Kerminihy beach, provoking an oil pollution., weigh ~ podizati sidro (s dna), podići sidro (i zaploviti): The master left night orders for the main engines to be at standby, and to start weighing anchor at 1315. After the loading operations were completed, she weighed anchor and proceeded seawards, her escort tug letting go and her two pilots disembarking near the entrance to the deepwater bay., recover the ~ podići sidro (na brod): The master over-estimated the ability of the anchor windlass and the crew to recover the anchor while the vessel was dragging., secure the ~ pričvrstiti i osigurati sidro: After securing the anchor once again, the passage was resumed to the next port, where repairs had been arranged by the shore management., bury the anchor ukopati sidro: The anchor is buried in the seabed and holding.

2 (navig, safety) sidrište: Northern Jupiter remained at anchor near Singapore as of Tuesday, January 28, 2009 be at ~ biti na sidru, biti na sidrištu, lie at ~ biti na sidru: biti na sidrištu, remain at ~ ostati na sidrištu, boraviti na sidrištu: The vessel remained at anchor near Singapore as of Tuesday, January 28, 2009 anchor /ˈæŋkər/ (v) usidriti se, usidriti brod: Berthing in this particular harbour was restricted to daylight, therefore on arrival at 0130, the vessel was anchored. anchorage /ˈæŋkərɪdʒ/ (n) 1 (navig) a sheltered place suitable for anchoring in relation to the wind, seas and seabed; area of a port or harbour sidrište: The weather deteriorated while the ship was at the anchorage, and the ventilators were closed as a result. working ~ trgovačko sidrište (za obavljanje operacija ukrcaja/iskrcaja), designated ~ naznačeno sidrište, propisano sidrište, leave ~ napustiti sidrište: , during NNE gales (in winter) a vessel could be forced to leave anchorage and seek shelter under the lee of the nearby island Krk., inner ~
Strong winds were being forecast for the coming night so it was decided to find a sheltered anchorage.

Anchorage Area, short-term ~ privremeno sidrište: Navigation within the port limits encompassed the approach channel, the short-term anchorage and the pilot boarding area, ~ circle

The position indicated that the vessel (bridge) was still 40 metres inside the anchorage circle on the chart. Open ~ otvoreno sidrište, nezaštitićeno sidrište: The vessel was sent to an open anchorage in deep water, but a few days later the wind increased and she dragged anchor twice more. Position ~ pozicija sidrenja: The master also saw that there was another vessel anchored and taking on bunkers to the east of his intended anchorage position, safe ~ sigurno sidrište: The pilot immediately called for tugs and the vessel was taken to a safe anchorage where the crew discovered that the sea water inlet filter of the fresh water cooler was blocked.

A laden tanker anchored outside the entrance of a traffic separation scheme (TSS) in a designated anchorage to await the next rising tide in order to proceed upriver to discharge her cargo, leave the ~ napustiti sidrište, isploviti sa sidrište: The Master left instructions on when he should be called and when the crew should begin making preparations to leave the anchorage. Inner ~ nutarnje sidrište: The VTS agreed that the vessel could use the inner anchorage since the area of the anchorage is outside the area of compulsory pilotage, outer ~ vanjsko sidrište, otvoreno sidrište, assigned ~ dodijeljeno sidrište, mjesto sidrenja određeno brodu: The master came to the bridge at 0115, and confirmed with the second officer the assigned anchorage. Deep-water ~ sidrište za brodove s velikom gazom, sidrište za prekooceanske brodove: This passage plan should have been changed to pass outside the Humber deep water anchorage, reach the ~ doploviti do sidrišta: The vessel reached a Singapore anchorage on June 24 for a for detailed inspection to assess the extent of damage. www.gCaptain.com; 2 Port charge relating to a vessel moored at approved anchorage site in a harbour. Naknada za sidrenje anchorage dues (n) (mar law) naknade za sidrenje, pristojbe za sidrenje anchor arm (n) (nav arch) krak sidra anchor awash (n) (navig, seamanship) the anchor is awash, when it is hove up to the surface of the water anchor aweigh (n) (navig, seamanship) said of the anchor when just clear of the bottom anchor bed (n) (nav arch) sidrena stjelja anchor bell (n) (seamanship) a warning bell on the forecastle used while the ship is at anchor in foggy weather anchor ball (n) (navig) round black shape hoisted in the forepart of a vessel to show that it is anchored anchor bell (n) (seamanship) kuglasta brodska oznaka za sidrenje anchor bed (n) (nav arch) sidrena stjelja anchor bell (n) (seamanship) zvono za označavanje broda na sidru u magli
anchor bend (n) (seamanship, boating/yachting) a very secure knot used to tie rode (anchor cable) to anchor uzao za sidro
https://stunthanger.com/smf/open-forum/another-spectra-knot-anchor-bend-45090/

anchor bill (n) (nav arch) šiljak lopate sidra
anchor billboard (n) (nav arch) A structure on the deck of a vessel upon which the anchor is mounted when not in use https://officerofthewatch.com/kućište sidra na palubi

anchor bridle (n) 1 (boating/yachting) Anchor bridles (and snubbers) are lengths of nylon line attached to a chain hook. They are used while anchored to create a direct link between an all-chain anchor rode and strong points on the boat - bypassing the windlass. uže za premoštavanje i spajanje sidrenoga lanca

https://www.bosunsupplies.com/anchor-snubber.html; 2

anchor buoy (n) 1 (navig) plutača za sidrenje; 2 a small buoy secured by a light line to an anchor to indicate position of anchor on bottom oznaka sidra

anchor cable (n) veer the ~ puštati lanac putem vitla: To veer cable is to let it run out under control., surge the ~ puštati da lanac izlazi slobodnim padom: To surge cable is to let it run out under its own weight., check the ~ zaustaviti lanac kočnicom: To snub or check cable is to stop it running out by putting on the brake., snub the ~ zaustaviti lanac kočnicom, ~ is taut lanac je napet, ~ is slack lanac je labav, pay out the ~ puštati sidreni lanac, ispuštati sidreni lanac: The failure of the windlass also meant
that more anchor cable could not be paid out.~ position pozicija sidrenja, mjesto sidrenja: While turning in the anchor position at 16531, the ship suddenly listed to starboard. The master intended to put the engines astern when 6 cables from the anchor position., anchor ~ straža na sidru, gvardija broda na sidru: The additional benefit of setting an anchor watch is that it should enable the other crew to sleep soundly and obtain quality rest., ~ party grupa zadužena za sidrenje: The vessel was dragging her anchor again, so the master called the anchor party and ordered the anchor to be heaved in., secure the ~ pričvrstiti i osigurati sidreni lanac: Assisted by two able seamen, the chief officer managed to secure the anchor cables using chain cargo lashings. (seamanship, nav arch) = anchor chain chain connecting a vessel to its anchor sidreni lanac: This now prevented the weight being taken off the anchor cable to allow the windlass to be taken out of gear so that the anchors could be let go under gravity. ~ grows sidreni se lanac podiže: The cable “grows” in the direction it leads outside the hawse pipe., ~ is at short stay lanac je kratak, lanac je napet i ide okomito prema sidru: When a cable is at short stay, it is taut and leads down to the anchor vertically, ~ is at long stay lanac je dug, lanac je dug i pod kosim kutem prema moru, lanac vodi naprijed: when it is at long stay it reaches out and makes an acute angle with the level of the water., ship at ~ brod na sidru, usidreni brod: Passing close ahead of a ship at anchor is potentially perilous, but if it is unavoidable, the effects of the tidal stream, wind and a ship’s manoeuvrability need to be taken into account.

anchor chain (n) (nav arch) chain connecting the ship to the anchor sidreni lanac, kadina, kadena: Twenty four hours later, after dragging the anchor and chain along the sea bed with the rig crane’s assistance we were able to recover the grapple to our deck, the tanker’s anchor and all of its chain. ... the anchor chain has been tensioned beyond the intended safe loading of its windlass. haul in ~ povlačiti sidreni lanac na brod, pay out ~ puštati sidreni lanac (kako se brod odmiče od sidra), run out ~ izvući sidreni lanac, ispuštati sidreni lanac

http://www.vicinaycadenas.net/mooring-chain/marine-chains.asp

anchoring line (n) (boating/yachting) sidreni konop, sidreno uže

anchoring operation (n) (navig, seamanship) operacija sidrenja, sidrenje

anchoring orders zapovijedi za sidrenje, Italian: ordini per manovrare le ancore

anchoring position (n) (navig, seamanship) pozicija sidrenja, mjesto sidrenja:

Approaching the planned anchoring position on a roughly south westerly heading, the vessel ran aground at 1435 on a rock pinnacle charted as an isolated danger.
anchoring system \( (n) \) (boating/yachting, nav arch) sustav sidrenja, sidreni  
uređaj: Your anchoring system is only as strong as its weakest component, which includes not only the rode, but also shackles, splices, mooring bitts, cleats  

anchoring tackle \( (n) \) (navy) sidreni uređaj, uređaj za sidrenja
anchor is apeak \( (\text{ship handling, seamanship, navig}) \) sidro okomito ispod pramca
anchor is clear of water \( (\text{ship handling, navig}) \) sidro podignuto iznad vode
anchor is dragging \( (\text{navig, ship handling}) \) sidro ore (zbog sila vjetra, struje, valova): An anchor is dragging when through stress of wind or tide it does not hold well, and is drawn along the bottom. After a while, the weather deteriorated and the vessel began dragging her

anchor is dredging \( (\text{navig, seamanship, ship handling}) \) namjerno orati sidrom / povlačiti sidro kako bi uhvatilo sidro hvata: Are you dredging anchor? Yes, I am dredging anchor. / No, I am not dredging anchor.

anchor is foul \( (\text{navig, seamanship, ship handling}) \) sidro se zaplelo
anchor is holding \( (\text{navig, ship handling}) \) sidro drži
anchor is home \( (\text{navig, seamanship, ship handling}) \) when the anchor is secured for sea sidro je u sidrenom oku, sidro je podignuto: the OOW has recognised that the anchor could not be home.

anchor is in the hawse-pipe \( (\text{seamanship, ship handling}) \) sidro je u sidnom oku, sidro je u padnoj cijevi
anchor is ready to let go \( (\text{navig, seamanship, ship handling}) \) sidro je spremno za obaranje / spuštanje
anchor is secured \( (\text{navig, seamanship, ship handling}) \) sidro je pričvršćeno i osigurano (u sidrenom oku)
anchor is stowed \( (\text{navig, seamanship, ship handling}) \) sidro je u sidrenom oku: When the ship is underway, the anchor is stowed in the hawse-pipe.

anchor is veered out \( (\text{navig, seamanship, ship handling}) \) sidro je izvučeno (iz sidrenog oka)
anchor is walked out \( (\text{navig, seamanship, ship handling}) \) sidro je izvučeno iz sidrenog oka i visi
anchor lashings \( (n) \) (nav arch, seamanship) sredstva za osiguranje / pričvršćivanje sidrenog
lanca za vrijeme plovde pričvrsnica sidrenog lanca, boce: The anchor cable is secured on the forecastledeck by stoppers, devil-claws and anchor lashings
anchor light \( (n) \) (navig) The riding lights required to be carried by vessels at anchor.: a 360° white light displayed by a vessel at anchor svjetlosna oznaka za sidrenje: two anchor lights are displayed by a ship over 150 feet (46 m) in length

anchor locker \( (n) \) (boating/yachting) A locker used to store the anchor rode and anchor  
https://www.ypiyachts.com/ jama za sidro, spremnik za sidro

anchor ring \( (n) \) (nav arch) sidreni kolut, vitica sidra, anel
anchor rode \( (=\text{rode; anchor rhode}) \) \( (n) \) (ship handling, seamanship) 1
(boating/yachting) = rode A rope or chain specifically designed to hold a ship to its anchor  
http://www.apsltd.com/aps-advisor/sailing-terms-glossary/; The line or chain attached to the anchor
and secured to the boat. 

Most anchor rodes are made up of a combination of rope and chain or all chain sidrenjak, sidreni lanac i konop, ukupna dužina sidrenjaka, dužina sidrenog lanca i konopa: An anchor rode is the connection system between anchor and the boat and its sturdiness during mooring is undoubtedly essential.

Anchor scope length of chain, rope or both used to attach anchor to the boat ispušteni sidreni lanac i konop, ispušteni sidreni lanac, ispušteni sidreni konop, dužina ispuštenog sidrenog lanca i/ili konopa

Anchor roller (n) 1 (boating/yachting) valjak vodilice sidra, rokel

Anchor's acockbill (seamanship) (in sailing ships or old ships) when the anchor is suspended perpendicularly from the cathead, ready to be let go sidro spremno za obaranje

Anchor's apeak sidreni je lanac napet i brod je okomito iznad sidra sidro a picco

Anchor's aweigh (n) (seamanship) Said of the anchor when just clear of the bottom (leaving or moving) (www.USMM.org) sidro podignuto s dna mora

Anchor scope (n) (boating/yachting, seamanship) SEE anchor rode COMPARE

Catenary odnos dužine ispuštenog sidrenog lanca ili konopa i dužine broda / brodice / jedrilice, ovisno o dubini; najmanji omjer je 3:1 za lanac i 5:1 za konop; Scope is the ratio between the length of rode deployed and the distance the boat is from the seabed (the height from the seabed to the bow-roller or hawse-pipe, not just depth). (http://kb.rocna.com/kb/Scope_vs_catenary) omjer sidrenjaka:

Catenary will be given every chance to prove itself. We will imagine a 16 m (~52′) boat, and simulate 48 m of 12 mm chain. The distance from the seabed to the roller will be 8 m (giving an anchor scope of 6:1). A scope of 3:1, i.e. three times the depth of water for the total length of line is okay for most boats anchored in winds up to 5-6 knots (Force 3) or as a "lunch pick". A scope of 5:1 is desirable for winds around 25 knots but in a 60 knot gale a scope of 7:1 may be desirable.
**anchor sentinel** *(seamanship)* a separate weight on a separate line which is loosely attached to the anchor rode so that it can slide down it easily

**anchor shackle** *(nav arch)* sidreni škopac ~ Type D škopac sidra u obliku slova D

**anchor shank** *(nav arch)* struk sidra

**anchor snubber** *(boating/yachting)* = Shockle line snubber An anchor snubber is a bridle used to take the strain of the chain rode.

**anchor stock** *(nav arch)* klada sidra

**anchor swivel** *(nav arch)* vrtulj sidrenog lanca, sidreni vrtuljak, dogulin
anchor tackle (n) (boating/yachting) sidreni lanac/konop i sidreni uređaj,
sidreni uređaj
anchor warp (n) (boating/yachting) sidreni konop, sidrenjak
anchor watch (n) (navig) making sure that the anchor is holding and the vessel is not drifting
straža na sidru
anchor well (n) (boating/yachting) sidreni zdenac, otvor sidra, sidrena jama,
proveni gavun
anchor winch (n) (nav arch) sidreno vitlo
anchor windlass (n) (seamanship, boating/yachting) sidreno vitlo

anchor work (seamanship) rukovanje sidrom
anchovy /ˈæntʃɔvi/ (fishing) Lat. Engraulis encrasicolus inčun, minčun, brgljun,

sardon, anćuga European anchovy inčun
ancillary /ænˈsɪlərɪ/ (adj) pomočni
ancillary equipment (marine eng) pomočna oprema
ancillary systems (marine eng) pomočni sustavi
anemometer /ˈæni məˈmɛtə/ (navig) on electronic weather instrument that indicates the speed and direction of the wind anemometar, vjetromjer hand-held ~ ručni anemometar
aneroid barometer /ˈænərɔd bəˈrɔmitə/ aneroidni barometar precision ~ (PAB) visoko precizni aneroidni barometar
angels /ˈɛindʒəlz/ (navig) učinak/smetnje jata ptica ili kukaca na radarskoj slici duhovi na radaru
angle /ˈæŋɡəl/ (navig) kut: The vessel was heading away from the line of the berth at an angle of about 15°. at an ~ of pod kutom od: The tug’s tow rope messenger was led through a Panama lead, around the bits at an angle of 110° and on to the winch end whipping drum. The vessel heeled to port to an angle estimated at more than 50°, ~ opens up / closes kut se povećava / otvara, kut se otvara / zatvara: When the angle between the two boats opened up again, the deck rating and deckhand helped the pilot to board the ship.
angle (nav arch) uglovnica equal ~ istokračna uglovnica, unequal ~ raznokračna uglovnica, bulb ~ gomoljasta uglovnica
angle bar /ˈæŋɡ əl bɑː/ (=angle) (nav arch) a bar of angle-shaped section used as a stiffener
and for attachment of one plate or shape to another okvirna uglovnica, kutni nosač, konzola, kutno ojačanje: A horizontal angle bar was welded to the tops of the outer stanchions, to tie the framework together and to stop the cargo shifting outboard. An accidents involving timber deck cargoes, angle bar, or flat bar welded to the edge the MAIB carried out a study into the of the hatch cover, or steel uprights subject and, in 2003, published its slo The moment he removed the last screw of the securing angle bar, the steel plates shifted towards him. bulkhead ~ okvirna uglovnica

angle collar (n) (marine eng) A collar or band made of one or more pieces of angle bar and fitted tightly around a pipe, trunk, frame, longitudinal, or stiffener intersecting or projecting through a bulkhead or deck for the purposes of making a watertight or oiltight joint. ovratnik, kolčak (cijevi), naglavak (cijevi)

angle indicator (n) (navig) pokazivač kuta kormila rudder ~ pokazivač otklona kormila, pokazivač kuta kormila: The main rudder angle indicator mounted on the deck head was not checked.

angle iron (n) (nav arch) kutni profil

angle lug uglovnica stringer ~ s interkostalne uglovnice palubne proveze

angle of approach (n) (navig) prilazni kut (u odnosu na vez): However, the combination of the vessel’s speed, which was faster than usual, and her angle of approach, resulted in the ferry slightly over-shooting the usual approach track by several meters.

angle of capsize (n) (nav arch) kut prevrtanja

angle of crank (n) (marine eng) kut koljena osovine, kut koljena vratila

angle of elevation (n) kut nagiba, elevacija

angle of flooding (n) (marine eng) kut naplavljivanja

angle of heel (n) (nav arch) 1 (stabil, cargo) kut nagiba broda (zbog slaganja tereta): He applied full starboard wheel and the vessel turned rapidly, thus increasing the angle of heel. (https://safety4sea.com/); 2 (cargo) nasipni kut (kod krcanja rasutog tereta); 3 (nav arch, stabil) poprječni kut nagiba broda

angle of inclination (n) (stabil) kut nagiba broda

angle of list (n) (seamanship, nav arch) kut nagiba (uslijed pomicanja tereta): This violent movement resulted in the timber shifting across the vessel about 1 metre, giving the vessel an angle of list of about 8° to port.

angle of loll (n) (stabil) COMPARE angle of heel the state of a ship which is unstable when upright (i.e. has a negative metacentric height (GM)) and therefore takes on an angle of heel to

negativnoj metacentarskoj visini, kut nestabilnosti broda u uspravljenom stanju pri uspravljenom stanju (uslijed negativne metacentarske visine): Although a vessel at angle of loll does display features of stable equilibrium, this is an extremely dangerous situation, and rapid remedial action is required to prevent the vessel from capsizing. This violent movement resulted in the timber shifting across the vessel about 1 metre, giving the vessel an angle of list of about 8° to port. This caused her to assume an angle of loll, and manoeuvring back alongside generated forces that made her "flop" from side to side. This change in list, called lolling was often 5 degrees or more, which caused havoc with loading arms, hoses, and mooring lines.
angle of repose \( (n) \) \((\text{cargo handling})\) \(\text{nasipni kut}\): Prior to loading bulk cargo, the shipper should declare characteristics & density of the cargo, stowage factor, angle of repose, amounts and special properties.

angle of roll \( (n) \) \((\text{seamanship, navig})\) \(\text{kut valjanja}\): In the early evening, the ship again suddenly rolled violently, reaching an extreme angle of roll of \(41^\circ\) to port. In the early evening, the ship again suddenly rolled violently, reaching an extreme angle of roll of \(41^\circ\) to port.

angle of vanishing stability \( (=\text{AVS}) \) \((n) \) \((\text{boating/yachting})\) the angle of heel at which the boat’s righting moment reacher zero \( (S. \text{ Sleight}) \) \(\text{kut nagiba bez mogućnosti ispravljanja jedrilice}\)

angler / ˈæŋɡər / \( (=\text{black-bellied angler})\) \((n) \) \((\text{fishing})\) = anglerfish \(\text{COMPARE}\)

sea devil = frogfish \(\text{Lat. Lophius piscatorius}\) \(\text{grdobina, udičarka, žaba, vrag}\)

rošpo

angler² \((n) \) \((\text{fishing})\) \(\text{udičar}\): A large wave then came over the boat’s stern and, as the other angler moved aft to assist with the bailing, the boat sank stern-first.

anglerfish \( (n) \) \((\text{fishing})\) \(\text{grdobina, udičarka, žaba, rošpo}\)
angling /ˈæŋlɪŋ/ (n) (fishing) the art or sport of catching fish with a rod and line and a baited hook or other lure, such as a fly (Collins) udičarenje, lov udicama: Three men left harbour on a winter’s morning in a small speedboat to go angling and to recover some long-line fishing gear they had laid the day before. ~ boat udičarska brodca, udičarska barka, udičar: Her two occupants were maintaining a lookout from the cockpit, and failed to see a small anchored angling boat, which was obscured by the sails and towards which the yacht was crabbing.

angry sea (n) (oceanogr) jako valovito more

ankle /ˈæŋkl/ (n) (seamanship) kavilja

annealing /əˈnɪliŋ/ a heat treatment process done to induce ductility in the metal; Annealing is the process of heating a metal or alloy to a temperature below its melting point in order to make it softer.

žarenje: Annealing involves heating a metal to a suitable temperature and holding it there, followed by cooling it at a suitable rate to lower the hardness.

https://www.collinsdictionary.com/dictionary/english/annealing

Annual Paid Leave (n) (mar law) godišnji dopust

annual survey (n) (navig) The amount of by which variation changes up or down each year in a particular area. https://www.ypiyachts.com/ godišnja varijacija

annular /ˈænjʊlər/ (n) ring-shaped prstenast, okrugao

annular seabream (n) (fishing) Lat. Diplodus annularis špar

anode /ænəʊd/ 1 (electr) anoda, pozitivna elektroda ~ material anodni materijal; 2 (safety, electr) cink-protektor

answering pennant (comm, navig) ponavljač (zastavica)

answer to helm (v) (navig) dobro reagirati na kormilo (o brodu)

Antares /ænˈtɛriːz/ (n) (navig) a giant red star located in the constellation Scorpio zvijezda Antares

antenna /ænˈtɛnə/ (n) (electr, nav arch) antena effective aperture on the ~ efektivna površina antene, dielectric ~ dielektrična antena, Luneburg ~ Luneburgova antena, lense ~ lećasta antena, waveguide ~ antena s valovodima, ~ array slob antena, effective array/area ~ antena s usmjeravajućim površinama, ~ amplifier antensko pojačalo: The necessary antenna amplifiers have now been mounted so that the range is complete all over the ship.

antenna array (n) (electr) slob antena

antenna depth (n) (navy) antenska dubina (podmornice), plovidba podmornice na antenskoj diubini

antenna mast (n) (nav arch) antenski jarbol

anticipate /ænˈtɪspət/ (v) predskazati, predvidjeti, reći unaprijed: Its members will then be able to anticipate dangerous situations arising and recognise the development of a chain of errors, thus enabling them to take action to break the sequence”.

anti-clockwise; anticlockwise /ˌæntɪˈklɒk waɪz/ (adv) (meteorol) 1 u smjeru suprotnom od kazaljke na satu; 2 lijevokretan

anti-clutter control (n) (navig) uređaj protiv radarskih smetnja, sustav za brisanje smetnja: After tuning the radar switch to the desired range scale and adjust the
anti-clutter controls. adjust the ~ namjestiti uređaj protiv radarskih smetnja
anticorrosive paint /ˌæntiˈkrɔrəsiv/ (n) (seamanship) antikorozivna boja
anti-cyclone; anticyclone /ˈæntiˈsaɪklən/ (n) (meteorol) a large body of air in which the
atmospheric pressure is higher than the pressure in the surrounding air anticiklona, područje
visokog tlaka: The winds blow clockwise around an anticyclone in the Northern hemisphere
anticyclonic circulation anticiklonsko kruženje, cold ~ hladna anticiklona,
isintfikaciinoj of ~ jačanje anticiklone
antifouling paint /ˌæntiˈfʌlɪŋ/ (n) (nav arch) protuobraštajna boja, antivegetativna boja, koper,
antifouling, Italian: antivegetativa: Your bottom looks good, but there's a lot of antifouling
paint on it selfpolishing ~ samopolirajuća protuobraštajna boja / antifouling,
selfcleaning ~ samočisteća protuobraštajna boja, eroding ~ erodirajuća
protuobraštajna boja, copper-free ~ s bezbakrene protuobraštajne boje
antifouling system /ˌæntiˈfʌlɪŋ/ (n) (nav arch) protuobraštajni sustav, sustavi
protiv obraštaja (dna broda)
antifouling system (n) (nav arch) protunagibni sustav broda, sustav protiv
nagibanja broda: We had to start the antifouling system.
antifouling system (n) (stabil) protounagibni sustav
antimony /ˈæntɪməni/ (≈Sb) a toxic metallic element that exists in two allotrophic forms and occurs
principally in stibnite antimon, sibilij
anti-rain clutter (n) (navig) smanjenje smetnja od kiše (na radaru)
antiranj
anti-rolling pin (n) (nav arch) protuljuljina peraja
anti-rolling tanks a pair of fluid-filled, usually water, tanks mounted on opposite sides of a ship
below the waterline protuljuljni tankovi
anti-sea clutter (n) (navig) smanjenje smetnja od mora (na radaru)
anti-slip paint (n) (seamanship) protuklizna boja: Consider the application of anti-slip
paint.
antiswirling system (n) (cargo handling) uređaj za umirenje tereta (na
dizalici)
antisyphon swan-neck fitting (n) (boating/yachting) antisifonska cijev (protiv
povrata vode za hlađenje u cilindar)
antitrade winds (=antitrades) (n) (oceanogr) the prevailing westerly winds of the middle
latitudes protupasati
anvil /ˈænvɪl/ (n) (marine eng) nakovanj
AP (=aft perpendicular) (n) (stabil, nav arch) krmeni perpendicular, krmena
apeak

apeak /əˈpiːk/ (=apeek) (adv) (ship handling, seamanship) perpendicular to the anchor, the cable having been drawn so tight as to bring the ship directly over it brod okomito iznad sidra, a piko; Italian: a picco: the anchor is a-peak

API Gravity (=relative density) A means used by the petroleum industry to express the density of petroleum liquids. API gravity is measured by a hydrometer instrument having a scale graduated in degrees API. (https://www.euronav.com/en/glossary/) specifična težina tereta po API-ju (za API Scale (=American Petroleum Institute Scale) (n) (shipping econ) The API scale is a scale used to define the specific gravity of a cargo. It is mainly used in the crude trades, with the product trades preferring the metric SG scale. (https://www.euronav.com/en/glossary/)

tankerskih vozarinskih API-ja (za specifičnu težinu tereta)

apoget /ˌæpoʊˈdʒiː/ (n) (oceanogr) ANTONYM perigee the point in its orbit around the earth when the moon or an artificial satellite is at its greatest distance from the earth apogeja

apogetean tides /ˌæpoʊˈdʒiːən ,tайдz/ (n) (oceanogr) tides of decreased range or currents of decreased speed occurring monthly as the result of the Moon being in apogete (farthest from the Earth) apeogejske mijene, perigejska perioda

aport (adv) (seamanship) on or toward the port side of a ship s lijeve strane (broda), prema lijevoj strani (broda)

apparel /əˈpærəl/ (n) (seamanship) a vessel's outfit, such as rigging, anchor and lifeboats brodska oprema

apparent /əˈpærənt/ (adj) primjetljiv, vidljiv, prividan, jasan: As the vessel closed the harbour entrance it became apparent to the master that the aspect of the breakwater was incorrect and that he was too far to starboard. Early action, which is readily apparent to the other vessel, ensures that the vessels involved will pass safely, and avoids any confusion as to actions taken. The vessel increased speed astern at an angle of about 10° from the berth until it became apparent that the bow would not clear the ferry berthed astern.

apparent good order and condition (n) (mar ins, mar law) prividno dobro stanje (tereta): The obligation to record the apparent good order and condition of cargo in a bill of lading is owed by the carrier to the shipper. https://safety4sea.com/

apparent wind (n) (boating/yachting) COMPARE true wind a combinatin of the true wind and the wind produced by our motion; The combination of the true wind and the wind caused by the boat's own speed. This is the wind felt on the boat, as well as the one shown by the telltales. https://www.ypiayachts.com/; the velocity and direction of the wind in relation to an observer in motion (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) prividan vjetar: The faster the boat sails into the wind, the more the apparent wind speed increases and the more it feels like it is coming from the front of the boat. The velocity and direction of the wind in relation to an observer in motion. http://www.apsltd.com/aps-advisor/sailing-terms-glossary/

appeal /əˈpiːl/ (n) 1 a žalba, apelacija; 2 molba za pomoć

appendages /əˈpɛndɪdʒɪz/ (n) (nav arch) konstrukcijski dijelovi izvan brodskoga obriša; Objects protruding from the underwater section of a hull; e.g., bilge keels, rudders, stabilising fins, shaft brackets, etc. https://officerofthewatch.com/ privjesci

appliance /əˈplaɪəns/ 1 naprava, uređaj line-throwing ~ naprava za bacanje
konopa, life saving ~ oprema za spašavanje, uređaj za spuštanje brodice za traganje i spašavanje; 2 sredstvo

applicable /æplɪˈkæbl/ ; pˈlɪkæbl/ (adj) primjenljiv, koji se primjenjuje: This Agreement is applicable and of full force and effect whether or not the Owners have entered into individual contracts of employment with any Employee

application /ˈæplɪkeɪʃn/ (n) 1 (mar law) molba, zahtjev make an ~ uputiti zahtjev / molbu, zahtijevati, tražiti: The folder is available on application., file an ~ podnijeti molbu / zahtjev: Survivors of the ferry disaster have filed more than 50 applications for compensation from the company., ~ of starboard / port helm okretanje kormila u desno / lijevo: The application of starboard helm was confirmed by movement of the main rudder angle indicator.; 2 primjena, uključivanje, postavljanje: The accident occurred due to poor application / knowledge of the COLREGS. The root cause of this accident was the chief engineer’s inadvertent application of propeller pitch. ~ ashore kopnena primjena, find ~ imati primjenu, for marine ~ za brodske namjene, za primjenu na brodu: The effect of these adjustments was to make them considerably more suitable for the marine application., pitch ~ promjena koraka propelera, namještanje koraka propelera applications form (n) obrazac prijave (molbe za zapošljavanje itd.)

applied force (n) (marine eng) primijenjena sila

apply for /əˈplai/ (v) 1 tražiti, moliti, zahtijevati; 2 prijaviti se (na natječaj, ...), uputiti / podnijeti zahtjev za apply the rudder / helm (v) (navig, seamanship) okrenuti kormilo, namjestiti kormilo: Master advised the pilot to apply full astern power. the pilot was surprised that after applying port helm, the ship turned to starboard. peljar se iznenadio što je nakon okretanja kormila u lijevo brod skrenuo u desno ~ the port / starboard helm okrenuti kormilo u lijevo / desno

appoint /əˈpoʊn/ (v) a imenovati; 2 postaviti (nekoga na dužnost): The Shipping Line has appointed a new chief executive officer and chief financial officer. The Board of Directors of .... has appointed Mr. ...... as the new CEO of the company. ~ as Master postaviti za zapovjednika, imenovati za zapovjednika, be ~ed: Mr. has been appointed new CEO of the Company.

apportion /əˈpɔʃən/ (shipping econ) raspodijeliti (troškove), rasporediti ~ blame (mar law) pripisati krivnju, okriviti: The role of the MAIB is purely to discover the facts, not to apportion blame or culpability. Uloga MAIB-a je isključivo da se utvrde činjenice, a ne da okrivljuje.

appraisal /əˈpriːzəl/ (n) ~ of the situation procjena situacije / stanja, procjena: Rule 5 of the COLREGS requires a proper lookout to be maintained at all times so as to make a full appraisal of the situation and of the risk of collision.

appraisement /əˈpriːzəmənt/ (n) (mar law) determination of the dutiable value of imported merchandise by a Customs official who follows procedures outlined in their country's tariff carinska procjena robe

apprehend /əˈpriːhend/ (v) (mar law) uhititi: The maritime authorities apprehended the perpetrators and confiscated all illegal fishing equipment, scare lines, fish nets including their boat captains and crew. https://www.marinelink.com/news/..2018
**apprentice** /ˈɑːprentɪs/ (n) *(mar law)* COMPARÉ cadet őh na praksi na brodu (za vrijeme školskih praznika) vježbenik, naučnik, špicfajer (archaic), špico (archaic)

**engine-room** ~ vježbenik stroja

**apprentice officer** (n) *(mar law)* = cadet = navigating cadet An apprentice officer provides assistance in various duties on a merchant ship, such as maintenance and minor repair duties. This level is necessary for further career development in deck department. vježbenik navigating ~ vježbenik palube, kadet, engineering ~ vježbenik stroja

**apprenticeship** /ˈɑːprentɪʃɪp/ izobrazba (za časnička ili mornarska zvanja), kadetura: He served his apprenticeship as a motor mechanic, after which he worked for 8 years on oil rigs in the north sea followed by many years, and still to the present day.

**approach** /əˈpraʊʃ/ (n) *(navig)* prilaz: The OOW monitored the other ship’s approach, and identified her from the AIS. ~ to the port prilaz luci: The approach to the port required the vessel to enter an inlet several miles wide and then alter course into a bay in which the port was located, ~ route prilazni plovni put, prilazna ruta, ~ to the berth prilaz vezu: The normal approach to the berth took the vessel to the port side of the channel to make a steep approach to the jetty, and this plan was followed, ~ to the entrance: The approach to the entrance of the river was made on a course of 355° at a speed of 10 knots, aiming to leave a beacon marking the western entrance of the river prilaz ulazu (u luuku, ušće, rijeku), ~ to the anchorage: Throughout the approach to the anchorage the echo-sounder had not been monitored. prilaz sidrištu, angle of ~: The angle of approach to the berth was more open than ‘usual’ due to another tanker alongside the adjacent berth kut prilaženja (broda vezu, obali, ...) **approach** /əˈpraʊʃ/ (v) *(navig)* prići, prilaziti: The vessel’s main propulsion had failed as she approached the berth and, although the starboard anchor was let go, the vessel could not be stopped. During the night of ..., 2019, the Vessel 1 was approaching the designated passage channel to the Fujairah Offshore Anchorage Area, while the Vessel 2 was proceeding outwards through the same passage channel https://gCaptain.com

**approach channel** (n) *(navig)* prilazni kanal (luci, tjesnacu), prilazni plovni put: At 0300, the ship neared the narrow approach channel of the destination port. The tug at this time was in the approach channel to the harbour, still proceeding at full speed. To get there from the Pacific Ocean, ships have to sail up a 90 km long navigation approach channel. https://forcetechnology.com/en/maritime-industry/cases/approach-channel southern limit of the ~ krajnja južna točka/crta prilaznog kanala, ~ buoy plutača koja označava prilazni kanal: With 1 mile to go, the chief officer called port control again and was instructed to keep east of the outer approach channel buoy, port ~ prilaz luci, prilazni kanal u luku: Near miss in Port Approach Channel.
approach course (n) (navig) prilazni kurs: The helmsman achieved the aim, the electronic chart display data showing him steering between 10 and 15 degrees to starboard of the approach course to counteract the effect of the tide.

approach downwind (n) (boating/yachting) prilaz (plutači, vezu) niz vjetar

approach upwind (n) (boating/yachting) prilaz (plutači, vezu) uz vjetar

appropriate /əˈprɒpriət/ (adv) primjeren, odgovarajući, prikladan, podesan ~ measures odgovarajuće mjere: This helps the crew and the shore side to take appropriate measures, not only for storage but also and especially in the event of damage, ~ precautions odgovarajuće mjere opreza: Fumigants are dangerous if not handled correctly and appropriate precautions are not taken, ~ action odgovarajuća radnja, primjerena radnja: Be alert to the problem and take appropriate action. They then continued to monitor the situation, and took appropriate action to avoid a collision, ~ safety equipment odgovarajuća sigurnosna oprema: Although tragically one man lost his life, this accident does demonstrate the benefit of carrying appropriate safety equipment, ~ procedures odgovarajući postupci: Appropriate procedures must then be developed and followed, which reduce the potential for human error, ~ navigation lights odgovarajuća navigacijska svjetla: Both the tug and the barge were showing appropriate navigation lights, the radar was operating, and from time to time the fog signal for a vessel engaged in towing was being sounded, ~ chart odgovarajuća pomorska karta: All available information for safe passage of the vessel must be entered clearly in all appropriate charts, ~ alteration of course primjerena promjena kusa, odgovarajuća promjena kusa: The combination of an early and substantial reduction of speed, together with an appropriate alteration of course, would have safely cleared all vessels.

appropriation /əˌprəʊpəˈrɛʃən/ (n) (financ, mar law) a sum of money set apart for a specific purpose, esp by a legislature (Collins English Dictionary) izdvajanje sredstava (za neku specifičnu namjenu)

approval /ə pruˈvəl/ odobrenje, pristanak: The voyage to Brunsbüttel was continued with the approval of traffic control. Immediately on arrival at the Engine Control Room (ECR), both the chief and
third engineers stopped the main engines without approval from the bridge and without knowledge of the navigational position. give ~: In this case, the drivers were routinely allowed to retain their vehicle keys and move their vehicles before approval was given by the crew. odobriti The vessel was taken out of service and was given approval to proceed, at slow speed, to her base for repairs before returning to service a few weeks later. dati odobrenje, without ~ bez odobrenja: The extended communications chain led to confusion and the later restarting of engines without the master’s approval. , seek prior ~ tražiti prethodno odobrenje, tražiti prethodni pristanak, tražiti odobrenje prije (poduzimanja neke radnje): However, the third engineer should have sought prior approval and taken steps to isolate the cooling system. , gain ~ dobiti odobrenje, ishoditi odobrenje: Without gaining prior approval, the two men decided to remove an adjacent thermometer pocket in the engine’s cooling water system in order to ease access to the rockers.

Approval in Principle (=AIP; pre-approval; initial approval) (n) (mar law)
Approval in Principle (AIP) is generally an indication from a lender that they may be willing to lend you a certain amount of money subject to specified conditions. (https://www.anz.com.au/)

principijalno odobrenje, prethodno odobrenje, iničijalno odobrenje: DNV GL has awarded China’s Hudong-Zhonghua Shipbuilding an Approval in Principle for a 25,000 TEU LNG-powered container ship. https://gCaptain.com

approve /ə pru.v/ (v) odobriti: A passage plan should be berth to berth, and approved by the master. The vessel remained aground for 11/2 days before the coastal state approved the owner’s salvage plan and the vessel was towed off the shore. The port authority approved the hot work, which was conditional upon the contractor complying with the ship’s Safety Management System (SMS).

approved /ə pru.vd/; (adj) (mar law) priznat (npr. u konvenciji STCW), odobren: In particular, access to the upper deck tiers is a problem, even with the approved fire-fighting equipment required by SOLAS. This vessel carried mandatory type approved lifejackets.

appurtenances /əˈpɜːtsnənsiz/ (n pl) (mar law) pripadnosti broda, pripadci broda

apron /ˈeprən/ 1 (ports) The area immediately in front of or behind a wharf shed on which cargo is lifted.; a concrete or planked area immediately in front of or behind a wharf shed on which cargo is lifted.; a concrete or planked platform at the entrance to a dock, usually extending from the nearby shed/warehouse/rail gauge to the quay edge operativna obala, lučka obalna površina: The area immediately in front of or behind a wharf shed on which cargo is lifted. On the front apron, cargo is unloaded from or loaded onto a ship. Behind the shed, cargo moves over the rear apron into and out of railroad cars. quay ~ obala / obalna površina (od ruba obale do obalnog skladišta), front ~ operativna obala (između skladišta ili kolosijeka i obalnog zida), rear ~ pozadinski obalni prostor (za utovar / istovar vagona i kamionova); 2 (nav arch, sailing vessels) A reinforcing timber bolted to the after side of the stem. http://titanic-model.com pramčana protustatva, uklada, kontraašt, ancikor; 3 (sailing vessels, nav arch) pramčana protupeta, karoc od prove

APS (=arrival pilot station) (mar law) dolazak (broda) na peljarsku postaju

apt to /əpt/ (adj) 1 sklon čemu; 2 pogodan, prikladan

aquatic hazard label /ˈækwətɪk/ (n) (safety, environ) a label used for any packaged cargo that represent a threat to the marine environment oznaka (etiketa) za opasne pakovane terete u prijevozu morem: According to IMO regulations, any packaged cargo transported at
aquatic organisms

sea which poses a threat to people, other living organisms, property or the environment should be listed on the manifest as “Dangerous Goods” and should display the appropriate hazard labels, for example as per the UN Globally Harmonised System (GHS) or the International Maritime Dangerous Goods (IMDG) code.

aquatic organisms /əˈkwaːtɪk/ (n) (environ) morski organizmi: Some invasive species have proven very destructive to native aquatic organisms as well causing serious damage to property and marine resources.

aquatic species /əˈkwaːtɪk ,spiːsɪz/ (=acquatic organisms) (n) (environ) morski organizmi: These organisms, known as invasive aquatic species, can negatively affect a ship’s operation, while they also present a threat to the marine environment. SAFETY4SEA <news@safety4sea.com>

arbitrage /ˈɑːrbi traːʒ/ (n) (logist) the method to control disputes between two parties. The decision is binding most of the time. This condition is usually included in a charter contract.

https://www.logisticsglossary.com/term/arbitrage/

arbitral award /ˈaːbitrəl/ (n) (mar law) arbitražna odluka

arbitral tribunal /ˌaːbitrəl triˈbjuːnəl/ (n) (mar law) arbitražni sud

arbitration /ˌaːˈbreɪʃən/ (n) (mar law) the process of referring to an agreed person (or body of persons) for judgement on issues of dispute, without requiring the use of courts; a method of settling disputes by one or more arbitrators. Quicker and cheaper than taking a case to court.

(http://offshore-industry.net/info/Terms_and_Expressions_in_Shipping_and_Offshore.pdf) arbitraža, izabrani sud

arbitrator /ˌaːˈbɪtraɪtə/ (n) (mar law) arbitražni sudac

arc /ɑːrk/ 1 (navig) luk: The anti-grounding warning zone covered an arc 1 degree either side of the vessel’s track out to a distance equivalent to 10 minutes’ steaming. in a wide ~ u širokom luku: The ship then turned to port and sailed towards the Langlütjen breakwater in a wide arc.; 2 (navig) sektor kružnice

archipelago /ˌɑːkiˈpɛli ɡau/ (n) (geogr) otočje

arc of horizon (n) (navig) luk horizonta

arc of visibility (n) (navig) the portion of the horizon over which a lighted aid to navigation is visible from seaward područje vidljivosti, luk vidljivosti

Arctic Ocean (=Arctic; the Arctic) (n) (geogr) Artktik, Arktičko more: For the next 16 years, commercial fishing will be prohibited in the central Arctic, a Mediterranean-sized patch of icy ocean more than 200 nautical miles from any nation’s coastline.
fishing impossible in the central Arctic Ocean. But global warming has changed things. The ice now melts enough in summer to expose as much as 40 percent of the water. Ice-free Artkičko more bez leda: At the current rate of carbon emissions of about 35 to 40 gigatons a year, scientists are estimating that the Arctic could become ice-free within the next 20 years, Maritime Logistics Professional

Arcturus (n) (navig) a giant fixed star of the first magnitude in Bootes zvijezda Arcturus
arc welding (n) (marine eng) lučno zavarivanje electric ~ elektrolučno zavarivanje: A standby vessel was in port waiting for her next tasking, so the opportunity was taken to carry out an electric arc welding repair to the bedplate of an alternator located in the engine room.

area /ˈɛəriə/ (n) 1 površina: They evacuated the area and prevented anyone from approaching the distribution box while they contacted shipyard representatives. cross-sectional ~ poprečna površina, unit ~ jedinica površine; 2 (meteorol) područje ~ forecast (meteorol) prognoza za područje, ~ of restricted visibility područje ograničene vidljivosti: Failure to laid down the actions to be taken when follow the checklist, compounded by a entering an area of restricted visibility, lack of positive reporting by other crew the majority of which had been ignored.; 3 područje plovidbe ~ of restricted waters područje ograničenih voda za plovidbu: Shortly after a large container ship had cleared an area of restricted waters, involving an extended period of slow speed manoeuvring, a fire was noticed in the top tier of the deck containers aft of the funnel., vessels in the ~ brodovi u tom području: She was, however, now disabled, and the skipper had to rip the wheelhouse door off its hinges to gain access to issue a “Mayday”. Several vessels in the area responded, and she was later safely towed into port., sea ~ morsko područje, područje na moru: While transiting the inshore route, he used binoculars to search the sea area ahead for the vessel they were to meet., port ~ lučko područje, područje luke: The VTSO was aware that the ship did not usually transmit on AIS in the port area and therefore had to be tracked manually on the radar display.

area of uncertainty (n) (boating/yachting, navig) nepouzdano područje areas of navigation (n) (navig, safety) područje kojim brod određene kategorije smije ploviti područja plovidbe area to be avoided (n) (navig, safety) područja unutar utvrđenih granica u kojima je plovidba posebno opasna područja koja treba izbjegavati argosy (n) 1 (nav arch, boating/yachting) a Mediterranean trading carrack in the Middle Ages; It is derived from the 16th century city Ragusa[3] (now Dubrovnik, in Croatia), a major shipping power of the day and entered the language through the It. ragusea, meaning a Ragusan ship (https://en.wikipedia.org/wiki/Argosy_(word)); an extremely large ship or fleet of ships, especially merchant ships dubrovačka karaka

http://www.enciklopedija.hr/natuknica.aspx?id=30379; 2 a ship richly laden jako nakrcan brod argument /ˈaːɡjəment/ (n) (mar law) svađa, spor, prepirka
arise /əˈraɪz/ (v) nastati, proizaći: General average arises when a deliberate sacrifice or expenditure is incurred for the common safety of the other cargo interests. Most of these accidents arise because of overheating or spillage. The problems arise when the nature of a fire needs everyone on board to respond effectively.

arise from (v) proisteći, proizaći iz, nastati zbog: An accident can be defined as an unexpected hazardous occurrence caused by unsafe practices that arise from inadequate knowledge, improper training, and failure to follow proper procedures, and usually resulting in loss of life or injury to personnel. All personnel need to be aware of the potential health hazards which can arise from both noxious and less obvious fumes.

armed attack (n) (safety) oružani napad

armoured cable / ˈɑːmərd / (seamanship) armirano uže: This may be by considering using a fire-resistant/armoured type cable or routeing it outside the engine room so far as this is reasonable.

armoured deck (n) (nav arch) ojačana paluba

AR Navigation System (=Augmented Reality Navigation System) (n) a navigating system temporarily providing increased visual support to crewmembers during their watch-keeping and ship operations by using AR technology to superimpose real-time video imagery and voyage information.

aromatic-based fuel (n) gorivo na aromatskoj osnovi: 2020 fuels will be predominantly paraffinic-based or aromatic-based and will come with different viscosity, pour point and CAT Fines level. www.safety4sea.com

ARPA / ˈɑːr.pə/ (=Automatic Radar Plotting Aid) (n) kompjutorizirani radarski sustav pomagala za plotiranje objekata na moru; Automatic Radar Plotting Aid sustav automatskog radarskog ucrtavanja, sustav ARPA, ARPA radar, ARPA, sustav automatskog radarskog plotiranja: ARPA functions as a collision avoidance tool, tracking individual Radar targets and plotting their course and speed in order to determine the closest point of approach (CPA) and time to closest point of approach (TCPA) to own vessel. Both vessels were equipped with operational radars, fitted with Automatic Radar Plotting Aid (ARPA), but neither watchkeeping officer used the ARPA to plot any radar targets.

ARPA; 2 ~ interpretation tumačenje grješaka u sustavu ARPA, use the ~: The master selected the container ship’s radar target using the automatic radar plotting aid (ARPA), which enabled him to monitor its progress. There are no excuses for not using navigational aids such as ARPA and compass repeaters to aid the accurate assessment of close quarters situations.

automatsko hvatanje cilja / objekta putem ARPA-a: Use the radar functions, including ARPA auto acquisition and CPA warning features, to give warning of other vessels and developing close-quarters situations.

ARPA radar ARPA radar: The OOW was sitting in front of an electronic chart system; an ARPA radar screen was to his left. The OOW knew that he had to make a planned 21° alteration of course to starboard 10 minutes later and, because the ARPA radars would not acquire the contact, he decided that the planned alteration would also suffice as a collision avoidance manoeuvre.

data podatci dobiveni putem ARPA-e: Had the handover included continually checking the latest ARPA data of the approaching vessel, more time would have been available to properly assess the situation and take effective action. This included information concerning the small vessel, including the initial ARPA data giving a CPA of 1 mile to port.

ARPA-i, ekran na ARPA-i: While the OOW attempted to acquire the contact on the X and S band ARPA displays, the pleasure yacht made a 20° alteration of course to port.
arrange /ˈreɪndʒ/ (v) 1 urediti; 2 srediti: The skipper then decided to establish a fire/smoke boundary, and arranged for the watertight doors to be closed.; 3 (navig) dogovoriti: But before doing so, he managed to arrange a tow from an offshore support vessel. As the vessel was swinging to port, he reduced the helm order to port 10° and then engaged in a VHF radio conversation to arrange passing with an outbound vessel, while the second officer plotted a position on the chart. ~ a berth
dogovoriti vez, rezervirati vez; 4 (navig) organizirati: The master decided to advance the ETA, and the OOW contacted the pilots to arrange an 0540 embarkation. This have might have prompted the pilot to arrange tug assistance.; 5 rasporediti; 6 poredati, svrstati; 7 smjestiti; s izvesti
arrangement /ˈreɪndʒmənt/ (n) 1 (navig) dogovor; 2 (cargo handling, ports)
organizacija make ~s (for discharge / loading) pripremiti (iskrcaj / ukrcaj), organizirati (iskrcaj / ukrcaj); 3 (marine eng) rasporedit cilindara, ~ of gas flow raspored odvoda plinova; 4 (seamanship) izvedba, sustav, način: working ~ način rada: to this vessel, which should undoubtedly contributed to the remove the dangers evident from the very serious injuries sustained by initial working arrangement.
berthing ~ način pristajanja, vrsta manovre pristajanja, anchoring ~: However, the veering loads produced when the wind backed and freshened, might have reduced the effectiveness of this anchoring arrangement. način sidrenja, closing ~ način zatvaranja
(grotla, skladišta itd.): Therefore no risk control measures had been put in place, such as a hinged barrier or other closing arrangement., mooring ~ način privezivanja: The vessel’s mooring arrangement consisted of two mooring winches forward and two aft, with captive drums and drum ends., securing ~ način pričvršćivanja (tereta, sidra, užadi itd.): Make sure that the relevant crew are familiar with the anchor chain securing arrangements., senhouse slip ~ uredaj s samootpusnom kukom, uredaj za automatsko otpuštanje
užeta: However, the rope or webbing lashing is also usually fitted with a quick release, senhouse-slip arrangement to facilitate rapid deployment of the raft in the event of an emergency., pilot boarding ~ način ukrcaja peljara: Amongst other factors, this safety investigation established that the pilot boarding arrangement provided by the ship was not compliant with the relevant SOLAS requirements due to its close proximity to the ship.; 5 (marine eng) uredaj, naprava: In this case, the long-term aim is now to significantly improve the securing arrangement by a permanent modification. lifting ~ uredaj za dizanje: On closer inspection, it was found that the design of the lifting arrangement allowed the lifting wire to chafe on the ramp handrails.
The other engine was stopped, to arrest the vessel's swing to port using the handwheel. Once on the port bridge wing, the captain adjusted the azimuth propulsion system whereby, in case of the United States, an U.S. Marshal goes aboard the vessel and physically takes charge of it.

Failure to comply with certification requirement may result in a fine, arrest or a penalty.

The other engine was stopped, to arrest the generation of frictional heat in the clutch, and the water fog fire-fighting system was activated.

The procedure whereby, in common law jurisdictions, a ship (and sometimes cargo and/or freight) may be seized by an admiralty court at the institution of or during an action in rem (infracourt) to provide pre-judgment security for the plaintiff’s maritime claim.

The dispute which led to the arrest of the general cargo ship in the port of Hamilton with 14 seafarers onboard causing damage but no serious injuries among passengers or crew.

The owner representative said: We have not seen any arrest orders and we don’t have any written official documents, a court ruling, or an arrest order;

The master used the engines and thrusters in an attempt to arrest the vessel’s headway in the space available and she made heavy contact with the quay on the opposite bank of the river (see figure). The master attempted to arrest the vessel’s swing to port using the handwheel. Once on the port bridge wing, the captain adjusted the azimuth propulsion to arrest the vessel’s movement astern. The factors contributing to the inability to fully arrest the ship’s turn are not readily apparent.

The chartered cargo vessel was placed under court arrest after the shipowner filed a civil claim for money it owed by …, ~ order nalog za zadržavanje broda: The owner representative said: We have not seen any arrest orders and we don’t have any written official documents, a court ruling, or an arrest order.

Arrest of a vessel is part of the process by which an Admiralty Court gains jurisdiction over the subject matter of a law suit.

Arrest of a ship: (n) (mar law) privrema mjera kojom se brod zastavlja radi namirenja točno određenih potraživanja zaustavljanje broda (radi osiguranja naplate), zaustavljanje broda (kao privrema sudskih mjera)

Arrest of a vessel is part of the process by which an Admiralty Court gains jurisdiction over the subject matter of a law suit.

Arrest of a vessel is part of the process by which an Admiralty Court gains jurisdiction over the subject matter of a law suit.

Arrest of a vessel is part of the process by which an Admiralty Court gains jurisdiction over the subject matter of a law suit.

Arrest of a vessel is part of the process by which an Admiralty Court gains jurisdiction over the subject matter of a law suit.
arrival in port

prior to arrival at the pilot station, the master should ensure a pre-arrival briefing takes place with the bridge team.

arrival in port (n) (navig) dolazak u luku: The chief officer has some extra duties on arrival in port while the master is dealing with port entry and other paperwork, otherwise the 6-on 6-off routine is maintained. The motorman was in the process of unplugging the power supply to the refrigerated container units on the vehicle deck in preparation for the vessel’s arrival in port.

arrival of a ship / tug dolazak broda / teglja: He then awaited the arrival of a second tug, which assisted in re-berthing the vessel alongside. All proved satisfactory, and he settled back to await the imminent arrival of the pilot.

arrival of the pilot dolazak peljara: All proved satisfactory, and he settled back to await the imminent arrival of the pilot.

arrival notice (n) (navig, comm) a notification by carrier of ship’s arrival to the consignee, the Notify Party; a notice sent by a carrier to a nominated notify party advising of the arrival of a certain shipment or consignment.

Arrival Pilot Station (=APS -) (n) (mar law, shipping econ) Location often used as the place of delivery of a ship by the shipowner to the charterer at the commencement of a time charter.

arrival procedure (shipping econ) postupak pri dolasku / uplovljenju: Make sure your bridge arrival procedures actually help the bridge team and that checklist completion adds value.

arrive at (v) stići u, doći u: The ship arrived at Svendborg via the western entrance of Svendborg Sound. 

arrival at the port stići u luku: When the vessel arrived at the port, the fumigator appointed to meet the vessel found a very high concentration of phosphine gas in the deceased crewman’s cabin and in the.

arrival at the pilot station stići na peljarsku postaju: The MS Sybille arrived at the pilot station of the port of Dublin at 05:15.

arrival at the destination stići na odredište: The coastguard then received a report that the ship had arrived at its destination.

arrival at the terminal stići na terminal: A short time later a lady arrived at the ferry terminal clearly in some distress following an altercation with the person driving her there.

arrived ship (n) (mar law) klauzula u brodarskom ugovoru i pismu spremnosti; Requirement of all voyage charts that the ship must have arrived before laytime can commence. Where the charterer has nominated a berth or dock, the ship must have arrived at that berth or dock.

arrival under power (n) (boating/yachting, seamanship) pristajanje motorom

arrival under sail (n) (boating/yachting) pristajanje pod jedrima

arriving at a berth (n) (boating/yachting, seamanship) dolazak na vez, pristajanje

article /ˈɑː.tɪkl/ (n) 1 (shipping econ, mar ins) stavka (robe), artikl, pojedini teret; 2 (mar law) članak ugovora read out the ~s pročitati stavke ugovora

articles (n) (mar law, shipping econ) SEE articles of agreement (mar law) signed documents (i.e. contract) indicating a crew member’s responsibilities, duties, wages, rank and/or position on board a ship; The Document containing all particulars relating to the terms of agreement between the Master of the vessel...
and the crew. Sometimes called ship’s articles. (https://euronav.com) **ugovor o ukrcanju pomorca**, radni ugovor (pomorca) sign the ~ potpisati ugovor o ukrcanju pomorca

**articles of association** *(n)* *(mar law)* ugovor o osnivanju trgovačkog društva, društveni ugovor

**articulated** /ˌɑːrtɪkjuːlɪtɪd/ *(adj)* *(cargo handling, marine eng)* having a joint or joints; jointed:

zglobni ~ pipe *(cargo handling)* zglobova cijev (za krcanje tekućih tereta), ~

**pistons** Two-piece pistons incorporating an entirely separate piston crown or dome with a separate skirt, and linking the two together with the piston pin. (http://www.marinedieseleurope.com/)

složeni klipovi

**artificial respiration** *(n)* *(med)* = artificial ventilation umjetno disanje

**artificial resuscitation** /ˌɑːrtɪfɪˈsɪskəteɪʃən/ oživljavanje, reanimacija: Half an hour later, an RNLI lifeboat arrived and lifeboat men transferred to the fishing vessel and recommenced artificial resuscitation to the casualty, despite being unable to detect outward signs of life.

**artificial ventilation** *(n)* *(med)* A procedure used to restore or maintain respiration in a person who has stopped breathing. The method uses mechanical or manual means to force air into and out of the lungs in a rhythmic fashion. umjetno disanje

as agent only *(prep phr)* *(mar law)* odredba u agentskom ugovoru kojom agent navodi da nastupa samo u svojstvu agenta isključivo kao agent, isključivo u svojstvu agenta

**ascend** /əˈsend/ *(v)* 1 ANTONYM descend dizati se, uzdizati se, penjati se:

While the crew on the top were engaged in manually hauling up a portable hydraulic pump with a polyprop 'heaving' line, the chief officer began to ascend the access ladder. They were passing through the accommodation and starting to ascend a ladder from the main deck when the ship's dog attacked the Pilot from behind.; 2 ulaziti

**ascertain** /æsˈtɛrn/ *(v)* 1 utvrditi, ustanoviti: In this case, the yachtsmen correctly took a series of compass bearings to ascertain if a risk of collision existed. The master was still looking at the engine monitoring system display, attempting to ascertain the reason for the starboard main engine slow response. Ascertain if sea in area is polluted of any other conditions which might hamper operations.

www.sqemarine.com/shipmanuals; 2 kontrolirati; 3 provjeriti: The VTS advised him to call the other vessel to ascertain the information.

**ASD (Azimuthing Stern Drive)** *(marine eng, nav arch)* = VSP = Z-drive

azimuthal krmeni porivnik

**ASD tug** *(nav arch)* COMPARE RSD tug tegljač s azimuthalnim krmenim porivnikom: Azimuth Stern Drive Tug range has proven design and provide up to 100 t bollard pull. https://gcaptain.com/damens-innovative-rsd-tug-2513-nominated-for-knvts-ship-of-the-year-award/
as fast as (=as fast as the vessel can receive; as fast as can; FAC) (n) (mar law) Term used in a contract of carriage, particularly in those of shipping lines, to denote that the shipper must supply the cargo as fast as the ship can load or that the receiver must take delivery as fast as the ship can discharge. http://www.tkmglobal.net/chartering_F.HTM tako brzo koliko brod može primiti (o krcanju tereta), predavati teret brzinom kojom brod može primati

as from, as of (prep phr) počevši od (... sati / dana)

A-shape frame (n) (marine eng) stalak (motora) u obliku slova A

ashore /ˈəʃɔr/ (adv) on the shore, land or beach na kopnu, na obali, na kraju: The propeller may become fouled unless good communication and co-ordination is maintained between the bridge, the mooring parties and the berthing party ashore. The skipper was recovered, landed ashore, and then flown to hospital by air ambulance. land ~: The rescue operation involving a helicopter, an inshore lifeboat and an all weather lifeboat ensured that the crew and passengers were landed safely ashore. iskrcati se na kopno / obalu, run / pass a mooring line ~: At 1555 UTC, two headlines were run ashore. The master gave instructions for a headline, a forward backspring and an aft backspring to be passed ashore. poslati privezno uže na obalu, dodati privezno uže na obalu, pass a line over the bollard ~ prebaciti privezno uže preko bitve na obali:

Two stern lines had been passed over bollards ashore and their respective winch brakes applied., to drift ~ plutati prema kopnu: With nothing now to restrain it, the yacht continued to drift ashore., transfer crew / passengers ~ prebaciti članove posade / putnike na kopno / obalu: The injured crewman was transferred ashore by the local lifeboat and on to hospital by ambulance., lay-up a boat / ship ~: The boat had been launched that morning after being laid-up ashore for 6 months. držati brodicu / brod u raspremi na kopnu, come ~ iskrcati se (o pomorcu): prestati ploviti He came ashore in 1992 and worked as Marine Surveyor/consultant with .... Ltd in Glasgow., assistance from ~ pomoć s kopna: If breathing apparatus is not carried on board, and it really is impossible to wait for assistance from ashore, entry should only be attempted when the space has been thoroughly ventilated with clean air, and all residues of CO2 have been removed.

ashore and afloat (prep phr, adv) na kopnu i na moru, na kopnu i na brodu: To address these issues, senior staff, ashore and afloat, must be pro-active in training, supervising and ensuring that rules are adhered to.

as if (conj) = as though kao da: It sounded as if a cylinder had stopped firing, but they were
unable to verify.

**as is where is** (prep phrase) (mar law) - In the condition in which the subject-matter is and at the place where it is lying. This expression is used where goods or a ship, are offered for sale without repair or rectification and with delivery being to the purchaser being at the place where the goods are lying.

[http://www.tkmglobal.net/index.html](http://www.tkmglobal.net/index.html) u stanju u kakvom jest, na mjestu gdje se nalazi (o teret/robi ili brodu)

**as long as** (conj) 1 sve dok, koliko god: The master felt he had no option but to maintain power for as long as possible. Similarly, when leaving a berth, tugs should remain attached for as long as they are needed.; 2 ako, ukoliko: It can save your life as long as you look after it and you understand its features.

**as near to as she can safely get** (n) (mar law) klauzula kojom brodar, ako je brod trajno spriječen ući u predviđenu luku, može uputiti brod u neku drugu najbližu sigurnu luku radi iskrcaja (IG) što je bliže moguće

**aspect** /ˈæspkt/ (navig) silueta, izgled (broda): A check of the visual aspect of the inbound vessel should have raised concerns over the accuracy of the information being provided to the master by the ARPA. The master of Vessel A was also surprised to see a starboard aspect of Vessel B, and used his forward speed and his side thrusters to slide his vessel away to cushion the effect of the imminent collision.

**aspect** (n) (navig) kut upada elektromagn. vala na površinu cilja) položaj cilja (na radaru) beam-on ~ horizontalni kut upada EM vala na cilj, perpendicular ~ okomit kut upada EM vala na cilj

**as presented** (n) (mar law) onako kako je podnesena (teretnica)

**assault boat** (n) (navy) a small portable boat used for military amphibious landings or for crossing rivers desantna brodica

**assemble** /ˈsəmbəl/ (v) 1 skupljati se: After the general alarm was sounded, the crew assembled on the bridge. He returned to the accommodation, alerted the remainder of the crew and told them to assemble in the wheelhouse. A deck party was assembled and they donned lifejackets and attached themselves to a previously rigged safety line.; 2 (marine eng) to join parts together sastaviti, sastavljati, montirati, sklopiti

**assembly** /ˈsəmbli/ 1 (marine eng) montaža, sastavljanje; 2 (marine eng, nav arch) sklop, Removal of the cylinder head, piston and connecting rod assembly.: The materials in use for that assembly consisted of three different metals, giving rise to accelerated corrosion in the marine environment. The forward hook assembly had sustained considerable damage. When the machinery space was entered, the engine’s No 6 cylinder large end bearing assembly was found to have passed through the port crankcase door, and to have come to rest immediately outside the engine. A dynamic test and examination of the davit winch and brake assembly were made in the presence of the class surveyor, ship representative and contractor representative.; 3 (logist) separate parts assembled into a single whole shipment prikupljanje tereta, konsolidacija tereta

**assembly area** (n) (safety) područje okupljanja na brodu: All passengers were wearing lifejackets and waiting in the assembly areas.

**assembly station** (n) (safety) mjesto za okupljanje na brodu (u slučaju opasnosti, uzborne itd.)

**assess** /əˈses/ (v) procijeniti, prosuditi, utvrditi, ocijeniti: Ecognise that the barge would be finally realised the barge lay directly encountered shortly after rounding the ahead, there was very little time to assess bend in the channel. However, time should always be taken to properly assess key
factors such as the vessel’s position, damage, the depth of water available, the nature of the seabed and the tide before considering whether ~ the risk prosijeniti opasnost, procijeniti rizik: The display of these lights Sea, Rule 7, identifies the correct way to would have facilitated a more thorough assess risk of collision. The passenger ship’s bridge team did not effectively assess the risk of collision with the approaching ferry, so took no action as the give way vessel, ~ the damage when the accident happened, the alarm was raised quickly and the crew were able to assess damage, start engines and re-anchor without undue delay.: The Coast Guard marine inspectors and investigators are investigating the cause of the collision and assessing the damage to the ship’s hull, ~ the situation procijeniti situaciju, procijeniti stanje: When in doubt, reduce speed early or come to a stop to allow time to safely assess the situation., ~ whether ... Then assess whether it can be operated safely in those areas, without adding to your problems., ~ alternative options procijeniti alternativne mogućnosti: by then, however, he had lost the opportunity to properly assess alternative options., ~ compliance procijeniti primjerenost (standardu, propisu itd.), procijeniti stupanj sukladnosti (s propisom, standardom itd.): It is essential that hotwork controls are strictly adhered to and that auditing procedures assess compliance., ~ the fitness stupanj pripravnosti broda, procijeniti stupanj sukladnosti (broda s propisima, standardom): Coastal state authorities should ensure that procedures are in place to assess the fitness of a vessel and her crew after an accident, before she is permitted to proceed on passage., ~ the implementation procijeniti provedbu: Assess the implementation of bridge and engine room resource management ?, ~ the possible danger procijeniti moguću opasnost: Always assess the possible dangers involved in any tasks, no matter how ., ~ the vessel’s stability procijeniti stabilitet broda: A technical working group was therefore commissioned to assess the vessel’s stability and to help prevent a recurrence of the accident., ~ the true condition procijeniti pravo stanje: However, in common with many other RIBs, there was very little access to the under deck areas, so it was very difficult to assess the true condition of the hull.

assessment /əˈsesmənt/ (n) 1 procjena; 2 proučavanje; 3 prosudba assessor /əˈsesər/ (n) 1 sudski pomoćnik; 2 (mar ins) procijenitelj štete, likvidator štete assets /ˈæsəts/ ~ and liabilities aktiva i pasiva (u bilanci) 1 (shipping econ) aktiva (u bilanci); 2 osnovna sredstva seize the ~ zaplijeniti sredstva (brodove, opremu itd.): A bankruptcy judge in the US ruled yesterday no company can seize any assets belonging to troubled offshore operator ... Holdings assign /əˈsain/ (mar law) opunomoćenik assign /əˈsain/ (v) 1 dodijeliti ~ an anchorage dodijeliti brodu mjesto sidrenja: On contacting the Port Authority at 0045, the ship was assigned an anchorage., ~ duty odrediti zadaću, dodijeliti dužnost / zadaću: He was assigned the duty of OOW., ~someone to carry out the task odrediti nekoga da obavi zadaću, dati nekome zadaću da: The 2nd Engineer assigned the cadet to carry out the task, while he attended to other jobs in the engine room.; 2 odrediti: The earlier they are informed the sooner appropriate resources can be assigned and the best course of action decided and implemented. The duty AB had just come on duty in port
when he was assigned to lashing/unlashing operations.

**assigned** /ˈsaind/ (adj) 1 (navig) dodijeljen, namijenjen, raspoređen: The able seaman assigned to the watch was absent from the bridge for at least an hour before the vessel grounded. ~ position: However, if a contact or close quarters situation occurs, the mark should be monitored to ensure that it has not been damaged or moved from its assigned position. dodijeljena pozicija, ~ pilot dodijeljeni peljar, peljar zadužen za određeni brod: The VTSO shall maintain uninterrupted communication with the assigned pilot to facilitate safe passage during the non-pilotage course., ~ anchorage: The Master and the pilot identified the assigned anchorage on the chart and departed the berth with the assistance of two tugs. dodijeljeno mjesto sidrenja; 2 (mar law) opunomoćen; 3 zadužen

**assignee** /əˈsainj/ (n) 1 koncesionar; 2 opunomoćenik; 3 ovlaštenik

**assignment** /əˈsainmənt/ (n) a i (mar law) The transfer by a creditor (the assignor) to another party (the assignee) of a debt or right of action which the creditor has against a third party (the debtor). http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

prijenos duga ili prava na pravni postupak, punomoć za takav prijenos; b assignment involves the transfer of rights, title and interest in order to assign goods by endorsing the bill of lading prijenos prava (na robu), punomoć za prijenos prava; 2 zadaća, zadatak: The severity of the damage to the MS led to discontinuation of the assignment and to the tug proceeding to the port of Bremen.; 3 posao

**assist** /əˈsist/ (v) 1 pomagati, sudjelovati, asistirati: During the transit, two other seamen, who were slowing mooring lines away aft, were sent to assist forward. By this stage, all other engineers had arrived to assist, and the vessel’s full emergency procedures came into play to effectively tackle the fire using the CO2 smothering system. Meanwhile another company vessel, with a more experienced skipper on board, came alongside to assist. ~ in: The ship was asked to assist in the search, and one hour later its crew found the missing fisherman in the darkness. A harbour tug was tasked to assist in the berthing operations of a 75,000gt bulk carrier. a pomoći; 2 (navig) pružati tegljačke usluge, tegliti, pratiti (brod), asistirati, pomoć (brodu) pri ulasku u / izlasku iz luke: the tug was assisting a ro-ro vessel through the lock brod je pružao tegljačke usluge brodu na putu kroz ustavu A plan had been agreed for using the tug to assist with getting into the lock and onto the berth Dogovoreno je da će se tegljač koristiti za pomoć pri ulasku u ustanju i za privezivanje At 1106, the ship, assisted by two tugs, departed from Berth No 15. The container ship then came to dead slow ahead with the forward tug still secured to assist the vessel to negotiate a nearby bend in the river. A tugboat came to the assist the bulk carrier and towed the vessel to the port of refuge. https://safety4sea.com/

**assistance** /əˈsistəns/ (n) (safety) pomoć: The ferry suffered substantial hull damage, but was able to return alongside without assistance. With the assistance of two tugs, a pilot launch, and a fire brigade RIB, the fire was brought under control and eventually extinguished. render ~ pružiti pomoć,

**ship in need of** ~ brod u nevolji: By the time rescue crews arrived, the crew of the Centennial Harmony notified that they were no longer in need of assistance after power to the vessel was restored and the situation stabilized https://gcaptain.com/canadian-coast-guard-responds-to-bulk-carrier-in-distress-newfoundland-and-labrad or, Maritime ~ Services Pomorska služba za pružanje pomoći (pri IMO-u), arrange tug ~ dogovoriti pomoć tegljača: The particular characteristics of this ship helped the pilot to arrange tug assistance. make arrangements for tug ~ dogovoriti
tegljenje, ugovoriti tegljenje, organizirati tegljenje: The managers were informed of the situation in order to make the necessary arrangements for tug assistance. request ~ zatražiti pomoć: The master called the pilot station by VHF radio requesting assistance, and a pilot and a tug were despatched from the port. About 30 minutes after CO2 flooding began, the master commenced venting the engine room and requested the assistance of shore-based firefighters. provide ~: This obligation to provide assistance applies regardless of the nationality or status of such persons or the circumstances in which they are found. the Coast Guard Cutter .... was sent to provide additional assistance. pružiti pomoć, call for ~ pozvati pomoć, zatražiti pomoć: However, he was fortunate that his personal radio survived the fall and this enabled him to call for assistance. receive ~ primiti pomoć: The vessel was allowed to enter the Port of Djibouti where they received assistance from local firefighters and Dutch salvage experts. seek ~ tražiti pomoć: Seek assistance from other crew and try and make the person safe. offer ~ ponuditi pomoć, pružiti pomoć: At the same time the local all- weather lifeboat (ALB) offered assistance. prompt ~ brza pomoć, neposredna pomoć: The activation of the EPIRB resulted in prompt assistance. emergency ~ pomoć u opasnosti, pomoć u nuždi: When planning to use a tug, whether for routine or emergency assistance, the tug’s specification must be considered to ensure that it is up to the job. immediate ~ neposredna pomoć, pomoć smjesta: After the collision the vessels exchanged details and verified that neither required immediate assistance. medical ~ medicinska pomoć: The ship reported the accident to the coastguard and requested medical assistance. At 1621, the vessel’s agent was informed and he arranged for an ambulance, medical assistance, and first aid to the casualty. proceed to one’s assistance uputiti se u pomoć nekome, krenuti u pomoć nekome: If receiving the distress alert is unable or, in the special circumstances of the case, considers it unreasonable or unnecessary to proceed to their assistance, the master must enter in the log-book the reason for failing to proceed to the assistance of the persons in distress, taking into account the reco, require ~ trebati pomoć, zatražiti pomoć: The master’s night orders instructed the bridge watchkeeping officers to call him if they required his assistance. trebati pomoć, give ~ dati pomoć, pružiti pomoć: The vessel requested for assistance from a harbour tug that was on a call-off stand-by situation but it could not give assistance. call for ~ nazvati radi pomoći, nazvati u pomoć: The weather was good, with calm seas, and there were no tugs in the area to call for assistance. tug ~ pomoć tegljačem: Following the accident, with tug assistance, the ship was manoeuvred to the fairway.

assistance to vessels (n) (sailing vessels) pomoć brodovima u pogibli assistant (n) pomoćnik, asistent ~ engineer časnik stroja (US): The assistant engineer fought the fire aggressively, and a short while later he reported the fire had been extinguished. assistant engineer (n) (navig, US) časnik stroja: The reduction in vessel speed, and interruptions in the electrical supplies alerted the assistant engineer. On entering the engine room, the assistant engineer took the foam extinguisher from the electrician and proceeded forward along the floorplates to fight the fire on the engine. The company .... is seeking engine room officers with an unlimited assistant engineer license 1st ~ prvi časnik stroja, 2nd ~ drugi časnik stroja, 3rd ~ treći časnik stroja assistant steward (n) (mar law) pomoćnik glavnog konobara assist hook (n) (fishing) pomoćna udica na jigu
**Assisting Disabled Vessels**

**Associate Degree in Marine Engineering** (n) *(US)* *(mar law, marine eng)* = Foundation Degree in Marine Engineering

**broodostrojarstva** **Associate Diploma in Marine Engineering:** The Academy offers a full deck officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW ’95 II/I OOW), a Foundation Degree (FdSc) in Marine Operations and a direct top-up pathway to BSc (Hons) Marine Operations Management.

**Associate Degree in Nautical Science** (n) *(US)* *(mar law, navig)* = Foundation Degree in Marine Operations Management

**assorted spares** (n) 1 *(boating/yachting, safety)* ostali pričuvni dijelovi sail repair kit komplet za popravak jedara, sticky backed sail repair tabe ljepljiva vrpca za popravak jedara, piston hanks kukice za jedra, whipping twine špaga za podvezice, bottlescrew zatezač pripona, tirant, stezaljka na navoj, škartoc, ropes - various sizes užad - različite veličine, clevis pins karabini, split pins and rings rascjepke i prstenasti osigurači, bulldog clamps stezaljke za čeličnu užad, marine sealant silikon, underwater epoxy podvodna smola, waterproof grease vodootporni vazelin, petroleum jelly uljna želatina, paint and varnish (minor repairs) boje i lakovi (za manje popravke), epoxy glue and fillers epoksidno ljepilo i kit, glass fibre tape and cloth platno od staklene niti, nails, screws, bolts, and nuts - assorted čavli, vijci, svornjaci i matice - razni, wood - assorted pieces drvo - razni komadi; 2 klizač glavnog jedra

**assume** /əˈsuːm/ (v) 1 pretpostaviti: Never assume – always confirm your vessel’s current position and projected track before deciding an appropriate action. Never assume that an electrical circuit is dead. Therefore, it was reasonable for the master to assume that the tanker would pass down the container ship’s port side.; 2 preuzeti: You should ensure that individual officers are familiar with the vessel and management system before they assume their duties. ~ responsibility preuzeti odgovornost: The masters must put in place a bridge organisation that allows them to assume their responsibilities.

**assume the cost** (v) *(shipping econ)* preuzeti troškove

**assumption** /əˈsʌmpʃən/ (n) pretpostavka: There was an assumption that the after moorings were the same as the satisfactory ones forward. Assumptions should not be made, and checking sea room ahead and astern is not only good practice but it should also be common sense. MAIN Safety Digest /2018 make an ~ pretpostaviti: The pilot of the cargo vessel made an assumption, based on scanty information, that the ro-ro vessel was increasing speed.; on the ~ that pod pretpostavkom da, pretpostavljajući da: However, he delayed doing so and continued towards the fairway buoy on the assumption that the cargo vessel would eventually take action to avoid a collision.; be based on an ~ zasnivati se na pretpostavci: The regular master’s decision to apply more astern power to the port control was based on an assumption that the port azimuth unit was in the same
astronomical navigation

position as the control lever, false / erroneous ~ kriva pretpostavka: Although ESD valves onboard the ship were tested to ensure their closure rates were acceptable, there was a false assumption that the valves were indicating that they were closed.

assured /ə'ʃʊərd/ (n) (mar ins) = insured osiguranik the ~ osiguranik
assured (adj) uvjerjen u, siguran u: Once assured of his position, the skipper had only to steer a course to keep the vessel within the safe sector to ensure her safe passage into the harbour. be ~ biti uvjerjen, uvjeriti se: But it is still the responsibility of ship’s staff to be assured that correct spare parts are being used, and that they are fitted in accordance with manufacturer’s instructions and guidance.

astern /ə'stɜːrn/ (adv) 1 the bearing of an object that is 180 degrees from ahead; (behind); toward the stern of a vessel; an object or vessel that is abaft/behind another vessel or object; position, in the rear of or abaft the stern po krmː: Providing there is sufficient sea room, it is safer, and in the spirit of good seamanship, to pass astern of a ship at anchor.; 2 u krmː, krmom: the Pilot put the engine astern peljar je stavio stroj u krmː: The chief officer then applied full astern krmom: The master moved the centre console engine control to full astern.

astern operation (n) (seamanship) vožnja krmom
astern power (n) (marine eng, nav arch) snaga za vožnju krmom: Astern power was applied and three short blasts sounded. ~ movement kretanje prema natrag: The vessel’s astern movement due to the currents strained the aft spring line.; of iza, po krmː: After manoeuvring from her berth, she proceeded at slow speed so as to keep sufficiently clear astern of another departing ferry. This resulted in the ferry passing close astern of the cargo vessel.; ~ pitch korak propelera za vožnju krmom: The chief officer then applied full bow thrust to port and, on the master’s suggestion, applied astern pitch to the port propeller.

astern propulsion (n) (navig) vožnja natrag, vožnja krmom: The tug skipper reacted quickly to the grounding by simultaneously applying astern propulsion and paying out the towing cable.

operate ~ voziti natrag, staviti u pogon krmom

as though (conj) kao da: The crew felt that the vessel was behaving as though the fore peak tank was ballasted, whereas they believed it to be empty. All bare electrical cables pose a threat to life and must be treated as though they are live until proven otherwise by a competent person.

as to (conj) što se tiče, u pogledu: In the event of any doubt as to the systems ’ operational condition, advice should be sought from the maker’s service agent, without delay, to ensure that the system remains in g As the master allowed the OOW to keep the con to the berth, he did not specifically enquire as to the status of the fins. so as to tako da, kako bi: Careful thought should be given to the lead of the lines so as to avoid creating sharp angles. After manoeuvring from her berth, she proceeded at slow speed so as to keep sufficiently clear astern of another departing ferry.

astray shipment (n) (shipping econ) zagubljena pošiljka, zalutala pošiljka

astrolabe /æstraˈlɛib/ (n) (navig) a historical navigational instrument which consisted of a dial, showing degrees, with an arm (alidade) pivoting through the centre; predecessor of the sextant

astrolab

astronomical almanac (n) (navig) a catalogue of tables showing the location of various celestial bodies at specific moments in time throughout the year astronomski godišnjak, astronomski almanah

astronomical navigation /ˌæstrəˈnɒmɪkəl/ (n) (navig) astronomska navigacija
astronomical observation (n) (navig) astronomical observation

as yet (prep, conj) as yet

asylum harbour (n) (navig) asylum harbour

a-synchronous motor /'esinkroʊnəs/ (n) (eletcr) a-synchronous motor

ATA (=Admission Temporaire; Temporary Admission) (n) (logist) ATA

at anchor (n) (navig) at anchor

at and from (n) (mar ins, mar law) at and from

ATHOSHINC (=Any time Day or Night Sundays & Holidays Included.) (n) (mar law) Athos HINC

athmospheric corrosion /'ætməsərətɪk/ (n) (marine eng) atmospheric corrosion

athwart /'æθwɔt/ (prep) 1 (seamanship) athwart, athwartships

athwartships /'æθwɔtʃips/ (adv) athwartships

Atlantic bonito (n) (fishing) Atlantic bonito

Atlantic mackerel (n) (fishing) Atlantic mackerel
ATM (=automatic teller machine) (n) (US) = cash machine = cashpoint
bankomat
atmospheric pressure /ætməˈsɛriək/ (n) (meteorol) atmosferski tlak
atoll /ætəl; əˈtɒl/ (n) (geogr) atol
atomization /ætəˈmaɪzəˈʃən/ (n) (marine eng) raspršivanje, atomizacija
atomizer; atomiser /ætəˈmaɪzər/ (n) (marine eng) a device used to disperse fuel into fine particles
raspršivač
AtoN /ˈeɪtən; ATON; Aids to Navigation) (navig) = AtoNav
navigacijska pomagala (na plovidbenom putu)
AtoNav /ˈeɪtənəv/ (=atons; aids to navigation) (navig) artificial objects to supplement natural landmarks to indicate safe and unsafe waters. (buoys, beacons, seamarks, landmarks)
navigacijska pomagala (na plovidbenom putu): The Stockholm local authorities launched a new buoy with the ATON transponder to assist commercial and recreational ships moving in and out of the busy harbor.
ATON transponder (n) (navig, safety) transponder na navigacijskom pomagalu: If the buoy becomes detached from the seafloor the AIS transponder will broadcast current position to warn mariners that it is no longer located at the correct marked location.
at or off the port (prep phr) (mar law) u luci i izvan nje
at; a-trip /əˈtrɪp/ (adv) (seamanship, navig) = aweigh (of an anchor) no longer caught on the bottom; tripped; aweigh podignuto s dna (o sidru) ancho's ~ sidro je podignuto (s dna)
at sea (prep phr) (seamanship) na moru, u plovidbi: It's now well known that around 80% of accidents at sea (and more than 90% in cases of collisions and groundings) involve so-called 'human factors'. Towards the end of his watch at sea, a motorman was tasked by the chief engineer to mop up some hydraulic fluid in the steering gear flat which had been leaking onto the deck from the. The junior seaman had only been at sea a few days. It is important that all deck officers have a clear understanding of the International Regulations for Preventing Collisions at Sea and of the manoeuvring characteristics of their vessels. Each issue and the reports they contain are a valuable contribution to improving safety at sea and in port, so protecting lives, property and the marine environment. By working together, at sea and ashore our maritime professionalism can rise to this challenge. A 30m scallop dredger was at sea in moderate weather. One of our greatest dangers at sea is complacency. In my career at sea, spanning just over 47 years, I have seen the use of the word safety increase year by year and ... The more time spent at sea, the more the mistakes that will be observed or made, and the more the seaman learns.
at shipper’s risk  (prep phr)  (mar law)  na rizik krcatelja
attach  /əˈtɛtʃ/  (v)  1  (cargo handling)  priključiti, prikopčati, vezati: Was this the only way to re-attach a lifeboat to the falls? Regardless of how short the planned journey may be, a powerboat driver should always attach the kill cord around his/her leg before the engine is started. As the FRC was still partly suspended over the deck edge, the assistant bosun and the AB left the boat to help attach a bowing line to assist in pulling the FRC around the deck edge. There the tugboat was still attached with a loose towin line to starboard. ~ a grab / spreader / hook to the crane priključiti grabilicu / spredar / kuku na dizalicu: A second load of oil, weighing 788kg (within the crane’s SWL) was attached to the crane. The hook was attached by shackles to a 2m length, 32mm diameter polypropylene rope strop, the other end of which was attached to a pad eye welded to the top of the b; 2  (ship handling, seamanship) vezati (uže, konop) ~ the line vezati uže / konop, postaviti uže / konop: When the ship is close to the wharf, mooring lines are attached to the bollards.
attached plating  (n)  (marine eng)  pojasni lim
attack  /əˈtæk/  (n)  (safety)  napad: Pirates have launched a series of attacks in the creeks of the Delta region since last Thursday, abducting at least nine people, security officials said.
attack  /əˈtæk/  (v)  napasti ~ the fire gasiti požar, upustiti se u gašenje požara: The chief officer took charge of the deck and approved a two-man team to attack the fire with an extinguisher.
attack on fire  (n)  (safety)  gašenje požara make an ~ on fiore gasiti požar,
upustiti se u gašenje požara, napasti požar: Two fire parties made an attack on the fires from behind the breakwater bulkhead (Figure 3).
attend  /əˈtend/  1  prisustavovati: If possible, the Master should attend the survey of damaged cargo himself, or have his Chief Officer attend.; 2  pohadati (tečaj): There is a requirement for all navigating officers joining its vessels to attend bridge resource and bridge team management refresher training if they have not completed this training within the last 5 years. Having recently attended a fire-fighting course, the skipper was able to effectively and calmly assess the risks and tackle the fire confidently. The master attended the following relevant training courses: …; 3  pojavit se (pred nekim) ~ before the notary public (mar law) pojavit se pred bilježnikom; 4  njegovati; 5  opaziti, primijetiti: Unfortunately one of the deckhands did not attend the tug when she sailed at 0415.; 6  paziti na, voditi računa o: Attend to leaking systems promptly – they will never be resolved on their own. Attend to electrical defects promptly. Attend to fuel leaks promptly. The starboard main engine was started, then immediately stopped to attend to a fuel leak.
attendance  /əˈtendəns/  1  prisustvo: As OSV2 was available to assist if required, the master of OSV1 decided not to request the attendance of a harbour tug. The mooring gang was already in attendance so permission to sail was obtained from the VTS service for the port, moorings were let go and the ship left her berth. in ~ prisutan, u službi, dežuran: Is there an effective deck watch in attendance on board? Je li spremna brodska straža?; 2  pohađanje; 3  njega; 4  služba, posluživanje, rukovanje; 5  (marine eng) odrađivanje (stroja)
attention  /əˈtenʃən/  pozor, pozornost draw ~ privući pažnju: The liferaft was only equipped with hand-held flares and these were not sufficient to raise the alarm or draw attention during the search and rescue. 0, give ~ to obraćati pozornost, pripaziti na nešto, attract ~: The second officer sounded a short blast on the whistle in an attempt to attract attention, and ordered the AB to place the wheel on hand-steering., pay ~ obratiti pozornost, posvetiti pažnju: Plan your passage carefully, paying attention to minimum depths, and make additional allowances when there is a heavy swell. In this case, the skipper failed to pay sufficient attention to the wind conditions and
the limitations of the novice crew.

**attenuate** /ˈætəˌneɪt/ (v) to weaken or become weak; reduce in size, strength, density, or value

**oslabjeti, postati slabijim, oslabiti, smanjiti:** any radar bandwidth of less than 5 MHz will attenuate the SART signal slightly

**attenuation** /əˌtɛnjuˈeɪʃən/ (n) (electr, navig) Attenuation occurs when part of the radar energy is absorbed by water vapour in the atmosphere. Slabljenje (radarskog snopa), upijanje (signalata): Attenuation is greatest in heavy rain and can cause severe reduction in detection ranges but may also occur in hail, snow, sleet, and, to a lesser extent, in fog. A 10 cm radar because of its greater power will be less affected by attenuation than a 3 cm radar.

**attestor** /əˈtɛstər/ (n) (law) Svjedok quod ~ kao svjedok

**attorney** /əˈtɜːrni/ (n) (law) A person legally appointed or empowered to act for another

(authorised officer)

**attorney general** (n) Pravobranitelj

**attorney secretary** (n) (law) SEE authorised officer Prokurist

**attribute to** /əˈtreɪbjət tuː/ (v) damage to pripisati štetu (nečemu) pripisati (štò nečemu): The cause of the winch failure was attributed to a faulty pilot valve in the cursor’s winch control system, which prevented the winch brakes from applying once hydraulic power was removed. A visual inspection revealed a hole in the hull, which was attributed to the vessel having made contact with the light float.

**auction** /ˈɔːkʃən/ (n) Dražba, licitacija: The starting auction price for the 2007-built vessel is $3.8 m. Ningbo Marine Court is going to hold an auction to sell the 2010-built capesize bulker through online platform Taobao on December 6. Splash247 <splash@asiashippingmedia.com> CS Shipping ... has sold a 1999-built VLCC via auction at Guangzhou Shipping Exchange https://splash247.com

**audibility** /ˈɔːdiˈbɪləti/ (n) (comm) Čujnost
audible alarm (n) (safety) zvučni alarm: The ECDIS anti-grounding warning zone alarm then activated on the display, but no audible alarm sounded. This vessel’s two engine room bilge alarms were not audible or visible outside on deck.

audit /ˈɔːdit/ (n) (mar law, shipping econ) revizija, audit: The serious shortcomings with the navigation on board the vessel had not been identified during the vessel’s recent audits and inspections.

external ~ vanjska revizija: An external auditor has been appointed by the company to perform a navigation audit on all company fleet, perform an ~ provesti reviziju, obaviti reviziju, izvršiti reviziju, navigational ~ revizija od strane stručnog plovidbenog povjerenstva, navigacijska revizija: A navigational audit was carried out by the attending marine superintendent and all the staff were re-briefed on the company’s procedures for safe navigation, carry out an ~ provesti reviziju: obaviti reviziju, ~ procedures postupak revizije, revizijski postupci: Owners and managers should continually review their audit procedures to ensure they remain strong and target all areas of the vessel’s safe operation., internal ~ unutrašnja revizija: Internal audits must be carried out to establish that safety and pollution prevention activities comply with Safety Management System., IMS ~ IMS revizija, revizija u sustavu IMS: The ship’s last internal IMS audit prior to the accident was undertaken between 17 and 22 September 2015 while the vessel was on passage between Le Havre and Malta.

auditor /ˈɔːdɪtər/ (n) (mar law, shipping econ) revizor external ~ vanjski revizor aural watch (=ɔ:ɹɔl) (n) (safety, comm) straža slušanjem (radio telefona) aureole /ˈɔːriəʊl/ (=aureola) (n) (meteorol) aureola aurora /ˈɔrərə/ an atmospheric phenomenon consisting of bands, curtains, or streamers of light, usually green, red, or yellow, that move across the sky in polar regions. aurora ~ borealis the luminous, radiant emission from the upper atmosphere over middle and high latitudes, and centered around the earth’s magnetic poles aurora borealis, aurora australis a geomagnetic show of lights seen in the far Southern skies at night. aurora australis authorised officer (=attorney; proxy; company secretary; attorney secretary; authorized clerk; authorized officer (US); authorised signatory (UK); AO; authorized representative; confidential clerk;) (n) (mar law) SEE authorised signatory officer authorized to act and sign on behalf of the firm; company officer with special power of attorney; any person acting in the exercise or performance of a power, authority, duty or function conferred or imposed by or under any Act and having a right of entry conferred by or under any Act but does not include a police officer;

(https://www.lawinsider.com/dictionary/authorised-officer); opunomoćena osoba koja "sklapa ugovore i poduzima pravne radnje u ime i za račun trgovačkoga društva i zastupa ga u postupcima pred upravnim i drugim državnim ogranima, ustanovama s javnopravnim ovlastima te državnim i i zabranim sudovima" (https://www.zakon.hr/z/546/Zakon-o-trgovačkim-društvima) prokurist: Appointment of Authorised Officer(s) for a Body Corporate - The following officer(s) of the Company are hereby authorized to make and sign all declarations of ownership or otherwise for and on behalf of the said Company, as required under the provisions of the Merchant Shipping (Bailiwick of Guernsey) Law 2002. http://www.harbours.gg/CHttpHandler.ashx?id=78142&p=0

authorised signatory (n) (mar law) = authorised officer company officer with special power of attorney; Officer or representative vested (explicitly, implicitly, or through conduct) with the powers to commit the authorizing organization to a binding agreement. Also called signing officer.
A distress alert from a vessel may be transmitted only on the authority of the master. He considered the VTSO had more authority and was better placed to resolve the situation quickly and effectively. It is essential that he or she recognises that responsibility and exerts the necessary authority and leadership to ensure a safe outcome.

There is a strong obligation to notify the Authority after major changes in order to have stability check-up. Maritime competent authority pomorstva: It is essential that he or she recognises that responsibility and exerts the necessary authority and leadership to ensure a safe outcome. Danish Maritime Authority Ministarstvo pomorstva Danske: Prior to the accident, the Danish Maritime Authority has submitted a guidance to enhance safety during transfer operations to the IMO.

A VTS is a service, implemented by a competent authority, that is designed to improve the safety and efficiency of vessel traffic and to protect the environment. This section includes summaries and safety recommendations extracted from marine investigation reports on casualties involving ships and occupational accidents as produced and published by the National competent Authority, as mentioned in the source from marine investigation reports on casualties involving ships and occupational accidents.

The port authority had more authority and was better placed to resolve the situation quickly and effectively. The port authority sent a tug to assist, however the ship continued to drag her anchor until the wind finally abated and the anchor held in deeper water. In the Port of London Authority, we place great emphasis on reading each safety digest and distilling those lessons learned applicable to port operations.

A device that uses the suction created from forward momentum to drain water from the inside of a boat.
The Wartsila prototype autodocking system was successfully tested on the Norwegian ro-ro passenger ship Folgefonn, first out in the open water on a simulated dock in January 2018, and then again successfully in the Stord, Norway harbour in April 2018. https://www.wartsila.com/twentyfour7/...https://www.youtube.com/watch?v=TvFDHIO3L_w&feature=push-sd&attr_tag=csizC5v4EQ9mMSXV-6

Pure phosphine gas has an auto-ignition temperature greater than 100°C. The principal cause of explosions in starting air manifolds of marine engines is probably the auto ignition of oil deposited on the inner surface of the manifold, not backfire from cylinders as previously thought.

Things have moved along apace and the widespread use of the electronic nautical chart, ECDIS, ECS and wholly automated bridge systems are possibly increasing risks in vessel operation, and complacency. Pressing the DSC distress button for 3 seconds would have transmitted an automated distress message, which would have included the identity and position of the vessel.

In conclusion, an automated bridge system is very helpful to the mariner as long as the limitations of the system are known.

About 4 hours into the passage, the alarm on the automatic bilge pump alerted the skipper to unexpected water in the bilge.

The vessel command attributed the engine failure to a defect in the automatic control system.

Automatic equipment identification tags similar to bar codes are placed on containers and truck trailers for identification as they go through different stages of their trip.

The watchkeeping engineer was alone in the machinery spaces when the automatic fire alarm activated. The automatic fire alarm began to sound.

When the vessel cleared the approaches to the harbour, the skipper set a course on the automatic helm to pass on his port side a small island, which lay about 2 miles to the south-west.

A means of identifying an item e.g. a product, parcel or transport unit by a machine (device) entering the data automatically into a computer (e.g. barcode, radio frequency, magnetic stripes or optical character recognition)
automatic identification system (pošiljke) automatnska identifikacija (navig) automatski identifikacijski sustav automatic keying device (navig) automatsko tipkalo automatic plotting (navig) automatsko ucrtavanje: automatsko plotiranje Facilities such as automatic plotting, electronic bearing lines, variable range markers and radar guard alarms, are normally provided to assist the OOW. Automatic Radar Plotting Aid (ARPA) (navig) = ARPA sustav automatskog radarskog ucrtavanja automatic release hook (safety) kuka za brzo otpuštanje, samootpusna kuka: The bowman released the preventer chain and pulled the Automatic Release Hook (ARH) wire ... automatic shutdown (safety, marine eng) automatsko isključivanje: The enclosure UV sensors picked up the fire, and the automatic shut down and fire extinguishing process activated. automatic steering (navig) automatsko kormilarenje: He immediately changed from automatic to hand steering, switched on the second steering motor, and put the helm to port. automatic trimmer (cargo handling) uredaj za samoporavnavanje tereta, uredaj za samotrimanje tereta automation (marine eng) the technology by which a process or procedure is performed with minimal human assistance (https://safety4sea.com/) automatizacija autonomous ship (nav arch, navig) = unmanned vessel Next generation modular control systems and communications technology will enable wireless monitoring and control functions both on and off board. These will include advanced decision support systems to provide a capability to operate ships remotely under semi or fully autonomous control. (http://www.unmanned-ship.org/munin/about/the-autonomus-ship/) self-sailing crewless vessel, but there are actually various degrees of autonomy (https://safety4sea.com/) autonomano brod, brod upravljan s kopna, brod bez posade: Dutch maritime group to launch first autonomous vessel by 2019 https://fairplay.ihs.com/commerce/article/4296956/dutch-maritime-group-to-launch-first-autonomous-vehicle-by-2019? Code of Practice for autonomous vessels: The Code of Practice provides guidance for the design, construction, and operation of autonomous maritime systems.
**autonomous shipping** autonomono brodovlje, brodovi upravljani s kopna, brodovlje bez posada: Autonomous shipping is coming and for good reason. 90% of global trade moves by sea and it can be a risky business. The weather is getting more extreme which has increased risk to both vessels and crew. A new UK study on navigational requirements for autonomous vessels to identify the future data requirements for autonomous shipping and explore how navigational and wider geospatial data can be used to enable the safe navigation of smart and unmanned vessels. news@safety4sea.com

**autopilot** /əˈtepələt/ (n) (navig) an electromechanical device which steers ships along a preset course automatsko kormilo, autopilot, automatski pilot: The 2/O initially made a succession of small alterations of course to starboard using the automatic pilot, but then requested the QM to begin hand steering to manoeuvre between the two vessels. engage the ~ uključiti autopilot: the Master instructed the helmsman to engage the autopilot on a heading of 290°. The master instructed the helmsman to engage the autopilot and then handed the con to the third officer, who stood facing the starboard radar display, with the ECDIS display to his right, ~ control upravljač automatskog pilota: A tanker was transiting a heavily used waterway under VTS control at a speed of about 12 knots and using autopilot control, gyroscopic ~ žiroskopsko automatsko kormilo, žiroskopski autopilot, zvrčni autopilot, automatsko kormilo na žirokompas, magnetic compass ~ automatsko kormilo na magnetski kompas, adjust the ~ namjestiti automatsko kormilo: Over the next 2 minutes, the ship’s OOW adjusted the autopilot to alter the vessel’s heading to port and then to starboard. The ship’s master adjusted the autopilot to bring the vessel on to a COG of 218, run on ~ ploviti pod automatskim peljarom, ploviti pod autopilotom: The vessel was running on autopilot, set the ~ namjestiti autopilot, adjustment to the
auxiliaries

**auxiliary** /ˈæɡˈzɪliəri/ (n) (nav arch, marine eng, seamanship) Various winches, pumps motors, engines, etc., required on a ship, as distinguished from main propulsive machinery (boilers and engines on a steam installation). https://officerofthewatch.com/ pomoćni strojevi i oprema

**auxiliary boiler** (n) (marine eng) pomoćni kotao: A large cargo vessel was alongside in port when the flame in the auxiliary boiler went out unexpectedly. The auxiliary boiler and EGE were linked, with water being taken from the auxiliary boiler to circulate through the EGE.

**auxiliary diesel generator** (n) (marine eng) pomoćni dizel generator

**auxiliary drum** (n) (nav arch) pomoćni bubanj vitla: The 4mm control wire was wound onto an auxiliary drum, which was connected to the main winch drum.

**auxiliary engine** (n) (marine eng) pomoćni stroj, pomoćni motor: The inoperable auxiliary engine meant that the vessel had lost its main emergency services backup, which severely reduced the vessel’s potential pumping capacity. The boat was fitted with two main engines, each driving its own shaft, as well as an auxiliary engine for electrical power.

**auxiliary engine room** (n) (marine eng) pomoćna strojarnica: After releasing CO2 some small fires remained in the auxiliary engine room.

**auxiliary equipment** (n) (marine eng) pomoćni uređaji: Auxiliary equipment in the engine room includes centrifugal type sea water, fresh water, ballast and bilge pumps, all driven by electric motors.

**auxiliary generator** (n) (marine eng) pomoćni generator: The chief engineer put the ship’s engine control lever astern and then went below to change from the shaft to the auxiliary generator.

**auxiliary machinery** (n) (marine eng) ship’s machinery other than the main engine(s); e.g., generators, pumps, electric motors, boilers etc. pomoćni strojevi

**auxiliary power gear** (n) (marine eng) pomoćni strojevi

**auxiliary radarscope** (n) (navig) radarski ponavljač

**auxiliary ship** (n) (navig, nav arch) pomoćni brod

**availability** /əˈveɪlbəl/ (adj) na raspolaganju, raspoloživ: This investigation revealed that the master did not fully understand the chart plotter controls and was not making best use of the equipment available - particularly a good visual lookout ... Rule 7 of the Collision Regulations requires all available and appropriate means to be used in determining if a risk of collision exists, and warns of the dangers of misinterpretation and of making assumption There were no pumps immediately available and it was deemed too dangerous to go on board, so the vessel sank alongside, ending up sitting on the harbour bottom. No heavy weather checklist was available and none was required to be completed as part of the vessel’s safety management system.

**Avast!** /əˈvaːst/ (v) 1 (boating/yachting, seamanship) (nautical) stop! cease! halt!, an order to stop
or cease hauling (stop action at once) https://officerofthewatch.com/ Stani, Stop!, Zaustavi!
2 (seamanship) Veži! (uže, konop), Agvantaj! (uže, konop), Drži! (uže, konop); 3 stati (naredba), prestati
Avast heaving! (n) (seamanship, ship handling) Stop heaving! Zaustavi/te podizati lanac / sidro!

**average** /ˈævəridʒ/ (n) to adjust general ~ procijeniti / riješiti generalnu havariju (mar law) šteta na brodu ili teretu tijekom pomorskoga pothvata; (in marine insurance) a loss or damage to or in respect of goods or equipment pomorska šteta, havarija, avarija general ~ opća / generalna havarija, particular ~ partikularna havarija, ~ adjuster likvidator / procjenitelj šteta, havarijski procjenitelj, ~ bond havarijska obveznica

**average adjuster** /ˈævəridʒ əˈdʒæstər/ (n) (mar law, mar ins) average adjusters are entrusted with the task of apportioning the loss and expenditure over the parties interested in the maritime venture and to determine which expenses are to be regarded as general average (http://www.iss-shipping.com/cargo/cargo_library_glossarya.asp) havarijski procjenitelj, procjenitelj šteta, likvidator šteta

**average bond** /ˈævəridʒ ,bɔnd/ (mar law, mar ins) pravni akt kojim primatelj tereta preuzima izričitu obvezu plaćanja svoga dijela doprinosu u zajedničku havariju, dok se brodar prešutno obvezuje odmah predati teret havarijska obveznica: In a general average situation, all the consignees of the cargoes on board the carrying ship will be notified as soon as possible and those consignees whose cargoes are not sacrificed and thereby indirectly benefited would likely be asked to furnish general average security by way of an average bond together with additional security.

**average speed** (n) (navig) prosječna brzina
**average undertaking** (n) (mar ins) posebna vrsta havarijskog jamstva
**average value** (n) prosječna vrijednost

**average voyage length** (n) (shipping econ) prosječna duljina putovanja broda (tankera) LR1 ~ Size of clean vessel equivalent to panamax; LR1 (Long Range 1) tankers: They are used to load both refined products and crude oil. The ones suitable for dirty products or crude oil are used to be called panamax tankers. LR1 and panamax tankers have a deadweight of between 55,000 MT and 80,000 MT. (https://opensea.pro/blog/ships-types-and-sizes) prosječna duljina putovanja tankera tipa panamax, LR2 ~ Size of clean vessel equivalent aframax; LR2 (Long Range 2) tankers: They are suitable for carrying both refined products and crude oil while their size is between 80,000 MT deadweight and 160,000 MT deadweight. It is worth to note that the LR2 vessels suitable to load crude oil are usually called Aframax tankers (from 80,000 MT to 120,000 MT deadweight) and Suezmax tankers (from 120,000 MT to 160,000 MT) instead. (https://opensea.pro/blog/ships-types-and-sizes) prosječna duljina putovanja broda tankera aframax, MR ~ MR (Medium Range) tankers: Used to load refined products and their size is between 40,000 MT and 55,000 MT deadweight (https://opensea.pro/blog/ships-types-and-sizes) prosječna duljina putovanja tankera srednjih putovanja (~)

**avert** /ˈvɜːt/ (v) 1 spriječiti: Port officials are encouraged to exercise this power in order to avert a major accident.; 2 (safety) otkloniti (opasnost): ... we can all recall similar incidents in which we have been involved but were fortunate that something or someone intervened at a crucial moment to avert an accident. ~ the casualty izbjeći nesreću
avoid /əˈvɔːd/ (v) = keep clear = keep out of the way = give way (navig) izbjeći (brod, sudar), izbjegavati (brod, sudar): They then continued to monitor the situation, and took appropriate action to avoid a collision when it became apparent that the ship did not intend to do so. to ~ collision izbjeći sudar: The ro-ro ship also altered course to port and the vessels narrowly avoided colliding. The two ships were now very close, and the master of the inbound ship then took action to avoid collision by turning his vessel hard to starboard and reversing his course. Any action to avoid collision... shall, if the circumstances of the case admit, be positive, made in ample time, and with due regard to the observance of good seamanship www.safety4sea.com, ~ close-quarters situation izbjeći položaje opasnih blizina: The master altered course to starboard to avoid a close-quarters situation with the first of the vessels while still keeping a safe distance from the sandbank., ~ a accident izbjeći nesreću, izbjeći nezgodu: To talk about the problems of rules and regulations, stability and training is all very well, but the most straightforward way to avoid accidents is to learn the lessons from those that have impacted on others., ~ misunderstandings izbjeći nesporazume: His/her communications should be clear and concise to avoid any misunderstandings and he/she should then monitor activities to confirm if they have been understood., ~ the ship izbjeći drugi brod: Her master was taking actions to avoid the west-bound LPG carrier... on her port side. When the vessels were 3 miles apart the cargo vessel altered course by 10 degrees to avoid the trawler, which was now hauling her nets. Seconds later, the engine was put to full ahead, and the helm put hard to port to avoid the tanker., ~ the buoy izbjeći plutaču / oznaku: He altered course to port to avoid the buoys and, as he did so, the vessel grounded on a rock ledge., ~ the risk of izbjeći opasnos od: Classification societies should ensure inconvenience of thoroughly inspecting the components is justified to avoid the risk of a serious accident.

avoiding action (n) (navig) akcija izbjegavanja: The give-way vessel should take avoiding action in open waters at least 12 minutes or more before collision www.safety4sea.com

await /əˈweɪt/ čekati na (isploviljenje, uploviljenje, ulaz u kanal, ...): The number of vessels awaiting transit has been reduced to acceptable levels. The vessel proceeded to anchorage to await an improvement in weather conditions.

award /əˈwɔːrd/ (v) 1 nagraditi: For their efforts, Captain McGee and Phillips were awarded the International Maritime Organization’s Bravery at Sea Award, the IMO’s highest honor for bravery at sea, in recognition of their role in preventing a major disaster on one the nation’s busiest commercial waterways. http://gcaptain.com/; 2 (shipping econ, mar law) nadoknaditi (nekome troškove); 3 (mar law) dobiti posao (na natječaju), sklopliti ugovor (o gradnji broda) be ~ed the contract dobiti posao, dobiti ugovor ( na natječaju): We are delighted to have been awarded the classification contract for these innovative containerships, which draw on our real-world experience classing vessels using LNG as fuel Solstad Offshore has been awarded two contracts as part of a frame agreement for building large platform supply vessels. https://splash247.com

award /əˈwɔːrd/ 1 a nagrada: He was presented with the Silver Riband Award for his lifetime achievement in the maritime industry. The award is presented every two years by the Council of Marine Carriers (CMC) committee to a recipient who has made a significant, positive and lasting contribution to the marine towing industry https://gCaptain.com; 2 priznanje: In 2008 Captain McFadyen was delighted to receive the award of Lloyds List Ship Master of the Year; 3 rješenje, odluka (sudska) arbitral ~ The arbitral award which embodies the decision of an arbitral tribunal http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm)
odluka arbitražnog suda; 4 dodjela (diplome, svjedodžbe): Undertaking the voluntary training currently on offer, that leads to the award of a Certificate of Competency, is a very useful way for fishermen to refresh and update their navigational skills. This type of training currently on offer leads to the award of a Certificate of Competency.

**aware** (adj) 1 **svjestan (nečeg), znati be ~ that biti svjestan da, znati da:** Watchkeepers must be aware that skippers would rather be called 10 minutes too early, than 1 minute too late – “If in doubt, call him out”. As the vessel approached the berth, the pilot became aware that the following wind and tide were having a greater effect on its speed than he had expected …, be ~ of biti svjestan (nečeg), znati (nešto): The skipper was acutely aware of the risks of fire and flood, so he shut the gas supply from the gas bottle to the stove, and isolated the electrical supplies at the main. With the vessel now 20 minutes behind schedule, the pilot boat became aware of the high speed on approach, and called the vessel to slow down and swing to starboard to provide a lee for boarding., be un~ that ne biti svjestan da, ne znati da: The OOW was unaware that the tanker was 511m off his ship's starboard beam.; 2 upoznat; 3 opaziti: As the vessel approached the river bank the lookout became aware of flashing white lights ahead but he did not identify the lights or report the sighting to the OOW.

**awareness stage** (n) (comm, safety) A period during which the search and rescue system becomes aware of an actual or potential incident. **faza saznavanja o potencijalnoj opasnosti (u sustavu potrage i spašavanja)**

**awash** /əˈwaʃ/ (adv, adj) 1 **(seamanship)** at a level of the surface of the sea; so low in the water that the water is constantly washing across the surface izvan vode / mora (o sidru) anchor’s ~ sidro je podignuto (s dna i nalazi se na površini mora); 2 **(seamanship)** pod vodom, mokar: The vessel’s aft deck was almost constantly awash as she rolled in the force 6 seas with the wind on her starboard bow. By this time, the vessel was listing with the deck’s starboard side awash. The main deck was completely awash

**aweight** /əˈweiθ/ (adj, adv) **(seamanship, navig)** position of an anchor just clear of the bottom, also indicating that the ship is under way; (an anchor) no longer hooked into the bottom podignuto s dna (o sidru): Following a temporary suspension in operations due to a hydraulic line failure, the anchor was aweigh at 1039. With the anchor aweigh at 1235, and a maximum speed of 14 knots, allowing time for acceleration and deceleration the vessel was never going to achieve the programmed ETA. anchor’s ~ sidro je popustilo s dna, sidro slobodno od dna, sidro podignuto s dna, Italian: l’ancora e spedata

**awkward cargo** /ˈɔːkwəd/ (n) (cargo) nezgrapan teret, izvangabaritni teret

**awning** /ˈɔːnɪŋ/ (n) (seamanship, nav arch) a roof of canvas or other material supported by a frame to provide protection from the weather, esp one placed over a part of a deck of a ship; canopy streha, tenda; Italian: tenda ~ deck paluba s ceradom (na putničkom brodu)
axe /æks/ (n) (boating/yachting, nav arch, sailing vessels) sječira
axial thrust /æksIAL/ (n) (seamanship, marine eng) aksijalni / uzdužni poriv propelera
axillary seabream /æksilaɪri 'siːbriːm/ (n) (fishing) batoglavac
axle /æksel/ (n) (marine eng) COMPARE shaft An axle is more specifically used for mounting wheels to any type of carriage, such as an automobile, it does not rotate but it may have power transmission shafts mounted inside the axle to drive the carriage osovina
axle of rudder (n) (nav arch) osovina kormila
Aye, aye, Sir!; Ay, ay, Sir!. /aɪ aɪ, sɜː/ the reply to an officer’s order signifying that he is understood and will be obeyed (I understand). “I understand and will obey/carry out the order” U redu., Na zapovijed.
azimuth /æzɪməθ/ (n) (navig) the angular distance usually measured clockwise from the north point of the horizon to the intersection with the horizon of the vertical circle passing through a celestial body; the azimuth of an object is its bearing from the observer measured as an angle clockwise from true north azimut
azimuthal sight (n) (navig) smjeralo, alidada
azimuth circle /æzɪməθ/ (n) (navig) instrument used to take bearings of celestial objects azimutni krug, smjeralo, smjerna ploča
azimuth compass (n) (navig) an instrument employed for ascertaining position of the sun with respect to magnetic north azimutski kompas
azimuth device (n) (navig) smjeralo, smjerna ploča azimuthing electrical podded propulsor (n) (marine eng, nav arch) = azipod azimutski električni porivnik, azimutski porivnik

azimuth mirror (n) (navig) zrcalo smjeralo
azimuth mirror (n) (navig) smjerna ploča, smjeralo
azimuth thruster (n) (nav arch, marine eng) azimutski porivnik: The tugboat features a
propulsion package based on twin Rolls-Royce Bergen C26:33L9PG engines and a pair of highly reliable Rolls-Royce US 205 CP azimuth thrusters for maneuvering and strong bollard pull. The chief officer set each azimuth thruster to face 45° outwards for the ship move and proceeded to take the ship through a narrow channel between moored craft.

azipod (n) (nav arch, marine eng) porivnik koji omogućuje poriv i kormilarenje te vožnju krmom;
used for a large engine and propeller assembly mounted underneath a ship that can be turned in any direction to provide both propulsion and course changes (http://www.merriam-webster.com/dictionary/azipod). The outboard unit can be 360 degrees rotatable for manoeuvring purposes. azipod, usmjerivi propeler, propeler-kormilo,
azimutni porivnik ~ control lever upravljačka ručica azipoda, ručica za
upravljanje azipodom: Three minutes after grounding an engineering alarm sounded and the OOW placed both azipod control levers to zero.

azipod control lever (n) (nav arch, marine eng, navig) upravljačka ručica
azipodnog porivnika: The OOW moved the starboard azipod control lever to pitch ahead but the ship remained stationary.

azipod electric propulsion system (n) (marine eng, nav arch) sustav usmjerivog električnog pogona, električni pogon putem azipoda: Since its development by ABB in 1987, the Azipod electric propulsion system, a streamlined steerable pod motor mounted below the ship, with the propeller connected directly to the motor shaft, has become the preferred propulsion system across a range of shipping segments.

azipod propulsion (n) (nav arch, marine eng) a gearless steerable propulsion system where the electric drive motor is in a submerged pod outside the ship hull sustav usmjerivog pogona, pogon putem azipoda, azipodni pogon, azipodna propulzija: Once on the port bridge wing, the captain adjusted the azimuth propulsion to arrest the vessel’s movement astern.

azipod propulsor (n) (nav arch, marine eng) azipodni porivnik, azipodni propulzor
babit metal (n) (marine eng) An antifriction metal used to line bearings, thereby reducing the friction of the moving components. (http://www.marinedieseleurope.com/) protutarni metal

Bachelor of Science (Honours) Degree (n) (UK) (mar law) BSc (Hons) indicates one has completed an Honors Degree Bachelor of Science undergraduate program. An ordinary Bachelor of Science accepts grades on a pass/no pass basis. In contrast, an honors designation requires that students demonstrate superior academic performance (https://www.reference.com/education/bsc-hons-stand-2db47f34f4fbb3cf) akademski stupanj prvostupnika s posebnim uspjehom (napredni studij) Bachelor of Science (Honours) Degree in Marine Operations Management akademski stupanj prvostupnika nautičkih znanosti s posebnim uspjehom (napredni studij): This course draws upon the exciting and challenging area of shipping management. It is tailor-made for those seafarers who decide to embrace a new career path, enhancing the qualifications
which they have gained, with the quality of excellence of an Honours degree but without the three years of academic study that is necessary for such a degree on a traditional university course. (http://www.warsashacademy.co.uk/courses/course-pages/bsc-hons-marine-operations-management/course-details.aspx), Bachelor of Science (Honours) Degree in Marine Engineering and Management

posebnim uspjehom: Warsash Maritime Academy offers an academic top-up programme leading to a Bachelor of Engineering (Honours) Degree in Marine Engineering and Management.

back (v) 1 (meteorol) (of wind) to shift direction counter-clockwise in the Northern hemisphere and clockwise in the Southern hemisphere skretati suprotno od kazaljke na satu (o vjetru), mijenjati smjer suprotno od kazaljke na satu (o vjetru): However, the veering loads produced when the wind backed and freshened, might have reduced the effectiveness of this anchoring arrangement.

back and spill (n) (seamanship) korištenje bočnog izboja propelera pri manevriranju

backboard /ˈbæk,boː.d/ (boating/yachting) klupa na zrcalu krme (barke ili jedrilice)

backfreight (n) (mar law, shipping econ) Freight payable to a shipowner for the carriage of goods back to the port of loading or to another convenient port when the vessel is unable to reach the port of destination because of an excepted peril or because the consignee fails to take delivery of The goods or provide instructions for their disposal. http://www.tkmglobal.net/chartering_B.HTM vozara za povratak robe (u luku ukrcaja)

backhaul1 /ˈbæk hoːl/ (v) (shipping econ) To haul a shipment back over part of a route that it has already traveled; return movement of cargo, usually opposite from the direction of its primary cargo destination. https://officerofthewatch.com/ vratiti dio tereta s putovanja broda

backhaul2 (n) (shipping econ) povratno putovanje broda, povratna vožnja ~ leg ANTONYM headhaul povratno putovanje broda (od luke odredišta do polazne luke): Headhaul usually refers to the stronger or dominant leg of a round-trip voyage attracting the greater volume of cargo relative to the weaker backhaul leg. (http://www.globalshiplease.com/glossary.cfm)

back in (v) ući na vez krmom, pristati krmom: Let me see how the ship turns. Then I’ll decide if we go inside or back in.

backing /ˈbækɪŋ/ (meteorol) skretanje vjetra u smjeru suprotnom od kazaljke na satu

backing1 (n) (ship handling) moving astern vožnja krmom, vožnja broda nazad ~ astern vožnja broda krmom, vožnja broda nazad: The manoeuvre required swinging the vessel 180 degrees and then backing astern to berth port-side to.

backing plate (n) (navig) potporni lim

backing spring (n) (seamanship) uže za tegljenje unazad

backing wind /ˈbækɪŋ/ (meteorol) wind which shifts in a counterclockwise direction with time at a given location (e.g. from southerly to southeasterly), or change direction in a counterclockwise sense
back load (v) (cargo handling) ukrcati ponovno: The vessel must also back load empty containers to achieve the necessary stability criteria for a subsequent safe passage to Asia

https://gCaptain.com

backlog /ˈbækˌlɔɡ/ (n) 1 (shipping econ) velik broj brodova koji čekaju na iskrcaj, zaostatak, čekanje (brodova na ulaz u kanal itd.), čekanje (zbog zakrčenosti luke, prolaza, kanala itd.): To shorten the backlog, non-critical maintenance was postponed, bookings for priority passage have been reduced twice since mid-October and additional crews have been assigned to increase capacity at the canal’s locks. Tanker backlog threatens world oil market gridlock. The container port is loosening the backlog of cargoe.

2 neispunjena narudžba, zaostatak

back-piece of rudder (n) (nav arch, sailing vessels) list kormila

back pressure (n) 1 (cargo handling) The operating pressure level measured upstream from a control valve. (www.euronav.com) povratnitlak tekućine / tekućeg tereta; 2 (marine eng) protutlak

backreach (n) (cargo handling) ANTOTHYM outreach kopneni dohvat dizalice

backstay /ˈbækˌstei/ (n) (boating/yachting) wire or line reaching from the stern of the vessel to the mast head, used to support the mast stražnje leto, zaputka, krmeni štraj; Italian: straglio, Italian: paterazzo

backstay adjuster (n) (boating/yachting) stezaljka krmenog leta, stezaljka

back the jib (v) (boating/yachting) zategnuti prečku / flok prema vjetru (pri otpadanju, zaustavljanju ili okretanju): However, the veering loads produced when the wind backed and freshened, might have reduced the effectiveness of this anchoring arrangement.

back the vessel (v) (ship handling) voziti krmom, voziti brodom unazad: Once turned successfully, the pilot began backing the vessel;

back-up arrangements (n) (navig) rješenja za pričuvu, rezervna rješenja (u sustavu ECDIS)

back-up control system rezervni upravljački uređaj, pomoćnu sustav upravljanja: It was considered most likely that the button to activate the back-up control system for
the starboard propulsion system was inadvertently pressed during the early stages of the entry into the port.

**back-up storage** (n) ANTONYM transit shed (ports) pozadinsko skladište

**backwash** /ˈbæk wɔʃ/ (n) (navig) a sucking movement of water, such as that of retreating waves

**usisni val u brazdi broda**

**backwind** (n) (boating/yachting) povrati vjetar, vjetar iza floka, koji prazni jedro

**bad weather** (n) (meteorol, navig) nevrijeme, loše vrijeme: A small gas tanker was moored alongside a terminal berth; all mooring bollards were in use due to bad weather. The onset of bad weather the previous day had required the vessel to anchor overnight and await a suitable opportunity for passage to its next port of call ... They took a pride in their work, which they carried out carefully and cheerfully, in the most unbelievably bad weather and sea conditions. The Master came on the bridge due to the increasing bad weather of Tropical Storm / Hurricane. (https://safety4sea.com/) face ~ naići na nevrijeme, suočiti se s nevremenom

**BAF (=Bunker Adjustment Factor)** (n) (shipping econ) Used to compensate steamship lines for fluctuating fuel costs. naknada za fluktuaciju cijena goriva, faktor promjene cijena goriva: When fuel prices are subject to major price fluctuations, the shipping company sometimes levies a bunker surcharge or BAF (Bunker Adjustment Factor) of BUC (Bunker Contribution) so as to compensate for the risks of price fluctuations.

[https://www.logisticsglossary.com/term/bunker-contribution/](https://www.logisticsglossary.com/term/bunker-contribution/)

**bag** (n) (cargo) vreća: These were stowed in large bags, each holding an estimated one tonne. The cargo was transferred via a chute into bags stowed in the hold or on deck. ~ cargo vrećarija, uvrećeni teret

**bagged cargo** (n) (cargo) vrećarija, teret u vrećama: The following losses may arise from improper stowage of bagged cargo in containers: The bags slip out of the container when the container doors are opened. Also the density of the contents determined whether a bagged cargo would be considered as bulk or bagged.

**bagging** (n) (cargo handling) uvrećavanje tereta

**bail** /ˈbeɪl/ (n) 1 (mar law) personal security provided by a defendant to the court to prevent the arrest of a ship or to secure its release from arrest. jamstvo; 2 kaucija: The skipper was arrested and imprisoned, then released on bail pending the results of a blood sample analysis to confirm alcohol levels. ~ bond kaucijska obveznica; 3 (shipping econ) depozit, roba položena na čuvanje

**bail** /ˈbeɪl/ (v) (boating/yachting) to throw or empty water out of a boat, usually by hand

izbacivati vodu iz jedrilice, paljat: Consequently, the five crew started to bail out the water using empty cans. ~ out izbaciti vodu (iz barke, jedrilice), ispaljat

**bail** (n) (seamanship) vjedro, kanta za vodu, sić

**bail** (n) (seamanship) = rung prečka (na ljestvama)

**bailee** /ˈbeɪli/ (shipping econ, mar law) ANTONYM bailor a person to whom the possession of goods is transferred under a bailment depozitar: Before finding out who to blame the consignee or cargo owner should notify the sub-carrier or other bailee or their agents where the goods have been shipped or handled by them before delivery to the consignee. Warehousemen and depositories are Balees, as well as carriers.

**bailee** /ˈbeɪli/ (seamanship) ispolac, palj
**bailer** *(n)* 1 *(seamanship, boating/yachting)* a device for removing water that has entered the boat;  
2 *(boating/yachting)* pumpica (malih jedrilica), automatska sisaljka (za automatsko pražnjenje vode iz jedrilice) auto-~ A device that uses the suction created from forward momentum to drain water from the inside of a boat.  

As the buckets and **bailer** were not secured to the boat, they quickly drifted off after the boat capsized, leaving the men no effective means of **bailing out**.

---

**bailment** '/beɪlmənt/ *(n)* *(mar law)* A bailment is the relationship that exists when the bailor of the goods allows another to have temporary custody of them.; A bailment is delivery of goods by one person to another for some purpose under a contract. deponirana roba, čuvanje robe kod depozitara (u depozitnom skladištu i sl.)

**bailor** '/beɪloʊr/ *(n)* 1 *(boating/yachting)* ispolac; 2 *(shipping econ, mar law)* deponent

**bail out** *(v)* *(figurative)* bježati s broda (koji tone): Rats **bailing out** from a sinking ship fig. Štakori prvi bježe s broda koji tone.

**bait** *(n)* *(fishing)* mamac, ješka, Italian:esca: The skipper and crewman of a 10 metre fishing vessel were on the aft deck, preparing **bait** and listening to music via a loudspeaker as the vessel headed towards the first string of pots due to be hauled that day. live ~ živi mamac

**bakery/pastry man** *(n)* *(mar law)* Bakery/Pastry Man is responsible for cooking bakeries and pastries. brodski pekar/slastičar

**balance** '/ˈbæləns/ *(n)* 1 *(shipping econ)* saldo; 2 ravnoteža, balansiranje: Of the last three contractors to step onto the gangway, two **lost their balance** when the gangway dropped, and fell into the water. mechanical ~ mehanička ravnoteža, mehaničko balansiranje, ~

**weight** balansni uteg, utez za ravnotežu: When the gripe is removed, the tricing pendant
balance

will drop down under the suspension hook balance weight.

balance3 (v) uravnotežiti, držati u ravnoteži: Although regarded as a capable skipper, those who knew him, found it extremely difficult to balance this with his ambivalent attitude towards the condition of his vessel.

balance2 (n) (boating/yachting) balans (jedrilice), ravnoteža (jedrilice) maintain ~ održavati ravnotežu, balansirati

balanced helm (n) (boating/yachting) uravnoteženo kormilo (stabilan kurs jedrilice)

balanced rudder (n) (nav arch) A rudder with its axis halfway between the forward and after edge. https://officerofthewatch.com/tools/maritime-dictionary/ balansno kormilo: Ever Smart was fitted with a semi-balanced rudder with a maximum angle of 35° to port or starboard.

bale /ˈbeil/ (n) cotton ~ bala pamuka (cargo) bala

bale capacity (n) (stabil, shipping econ) Total cubic capacity of a ship's holds available for the carriage of solid cargo which is not capable of filling the spaces between the ship's frames. It is expressed in cubic feet or cubic meters. Where a cargo is free flowing and is capable of filling the spaces between the ship's frames, the corresponding cubic capacity is known as the grain or grain capacity.

http://www.tkmglobal.net/chartering kapacitet za bale

bale clamp (n) (cargo handling) hvataljka za bale

bale out the water (v) (boating/yachting) = bail izbaciti vodu (iz barke, jedrilice, splavi): They managed to right the raft, board it, bale it out, administer sea sickness tablets and release one red hand-held flare, which was immediately spotted by a member of the public who contacte

balisage (n) (navig, navy) SEE buoyage a method of marking a sea route balisaža: sustav označavanja plovidbenih poutova

ball (navig) kugla (oznaka na brodu): The boat was displaying an anchor ball 3m above deck level, and also had a bright orange mizzen sail hoisted to keep her lying into the wind.

ballast /ˈbæləst/ (n) 1 (nav arch, boating/yachting) heavy weights carried low, i.e. in the bottom of a boat or ship to improve her stability. balast, sovrnja, savrnutn, tal. zavorra: When the vessel was salvaged, however, an analysis of her stability found that, due to the installation of additional ballast and fishing equipment, her operational displacement had increased by over 30% since new.; 2 (nav arch, stabil, safety, marine eng) Seawater taken into a vessel's tanks in order to submerge the vessel to proper trim. Ballast can be taken into cargo tanks, double bottoms, fore and aft peak tanks and/or segregated ballast tanks, (SBT). (https://euronav.com) balastna voda, balast: The engineers pumped ballast into the upper starboard wing tanks and pumped out some double bottom tanks on the port side. After discharging ballast from the forepeak, the vessel refloated some 5 hours later without the assistance of tugs. transfer of ~ prijenos balasta, prebacivanje balasta:
The transfer of ballast water commenced. After discharging ballast from the forepeak, the vessel refloated some 5 hours later without the assistance of tugs. The engineers pumped ballast into the upper starboard wing tanks and pumped out some double bottom tanks on the port side. Ballast carried in ship’s tanks that were designed to carry nothing else (https://www.euronav.com) were segregated : ballast kept in tanks segregated from cargo pipes and tanks.

After discharging ballast from the forepeak, the vessel refloated some 5 hours later with the assistance of tugs. Ballast kept in tanks segregated from cargo pipes and tanks. Ballast carried in ship’s tanks that were designed to carry nothing else (https://www.euronav.com) were segregated : ballast kept in tanks segregated from cargo pipes and tanks.
ballast valve  (n) (nav arch) sisaljka balasta, pumpa balasta, balastna

pumpa: The duty engineer immediately contacted the second officer and told him to stop the ballast pump and to close the ballast valves.

ballast voyage  (n) 1 (shipping econ) A voyage with no cargo on board to get a ship in position for the next loading port or docking. (http://www.clarksons.com/glossary/) povratna plovidba, plovidba bez tereta; 2 (navig) plovidba u balastu: At 5 am local time, the vessel departed from Rotterdam for a ballast voyage to Montreal, Quebec.

ballast water  (n) (nav arch) balastna voda: The fore peak was damaged, causing ballast water to drain to sea, but no pollution was caused. Approximately 40 tonnes of ballast water had been transferred into the bilge collection tank instead of the forward ballast tank as intended. Ballast water is a traditional way to improve the stability, propulsion and manoeuvrability of a vessel.

https://safety4sea.com/ ~ treatment system sustav obrade balastnih voda: A ballast water treatment system, such as Alfa Laval PureBallast, must last your vessel’s lifetime. IMO ~ management system convention Konvencija IMO-a o upravljanju balastnim vodama: The IMO Ballast Water Management (BWM) Convention, which has now been ratified, serves as the main international guideline for ballast water treatment systems. Compliance with the BWM Convention is a must

ballast water exchange  (n) (stabil) zamjena balastne vode

Ballast Water Management Convention (=BWM Convention)  (n) (mar law, stabil) The BWM Convention aims to protect marine ecosystems by requiring ships to manage their ballast water so that harmful aquatic organisms and pathogens are removed or rendered harmless before the ballast water is released into a new location. (https://www.marineinsight.com/)

Konvencija o upravljanju balastnim vodama: Adopted in 2004, the BWM Convention is known officially as the International Convention for the Control and Management of Ship’s Ballast Water and Sediments.

Ballast Water Management Plan  (n) (stabil) plan upravljanja balastnim vodama: Adopted in 2004, the BWM Convention is known officially as the International Convention for the Control and Management of Ship’s Ballast Water and Sediments.

Ballast Water Treatment System (=BWST)  (n) (stabil, mar law) sustav obradbe balastnih voda: Energy efficient, PureBallast 3.1 offers superior performance in all waters: fresh, brackish and marine. (BWTS) Guard, Alfa Laval PureBallast 3.1 is the third generation of the leading ballast water treatment technology https://www.alfalaval.com PureBallast 3.1 Compact can be configured as a plug-and-play ready module, https://www.alfalaval.com
ball bearing (n) (marine eng) COMPARE roller bearing kuglični ležaj: The safety investigation identified poor condition of a ball bearing inside the winch as the immediate contributing factor to the uncontrolled descent of lifeboat no.

ball head (n) (marine eng) centrifugalni dio regulatora: The ball head is the speed detecting portion of the governor.

ball valve (n) (marine eng) kuglični ventil, kuglasti ventil: the watchkeeping engineer closed the local isolating ball valve on the clutch’s air system and opened the system’s vent.

baloon freight (n) (cargo handling) lagani veliki koleti, lagane velike pošiljke

Baltic Dry Index (n) (shipping econ) vozarinski indeks / stavovi za suhe rasute terete koje objavljuje 'The Baltic Exchange': The Baltic’s BDI index, which gauges the cost of shipping resources including iron ore, cement, grain, coal and fertilizer, has dropped to 498 points and is over 95 percent down from its all-time high of 11,793 points in 2008 before the financial crisis first hurt the sector. Dry bulk sales fail to keep pace with the BDI. Baltic Dry Index at 5 1/2-Year High. The Baltic Exchange’s main sea freight index rose to its highest since December 2013 on Wednesday, https://gCaptain.com

Baltic Exchange /bɔːˈlɪk/ (n) (shipping econ) burza čarterskih terete, burza brodskog prostora i tereta: The center of the chartering business is the Baltic Exchange in London, where brokers representing shippers meet with shipowners or their representatives to arrange the agreements. The Baltic Exchange Ltd., a London-based publisher of shipping rates that shape the cost of hauling everything from iron ore to oil FCA has approved the takeover of London’s Baltic Exchange after shareholders gave the green light for the deal last month. ~ freight index The Baltic Exchange’s main sea freight index tracks rates for ships carrying dry bulk commodities, fell on Friday as closure of mines and ports in Australia due to a cyclone weighed on demand for capesize vessels. vozarinski indeksi koje utvrđuje burza čarterskih terete (The Baltic Exchange), vozarinski stavovi koje utvrđuje 'The Baltic Exchange': This week the Baltic Exchange’s main sea freight index , which tracks rates for ships carrying dry bulk commodities and seen by investors as a forward-looking indicator of global industrial activity, plunged to an all-time low.

Baltic index (n) (shipping econ) = freight index indeks vozarina za suhe terete (burze vozarina Baltic Exchange), indeks vozarina za rasute terete (burze vozarina Baltic Exchange): The Baltic index, which tracks rates for ships ferrying dry bulk commodities, fell 3%, or 56 points, to 1,812 points. GCaptain

European sea~ luben
bathyscaphe /ˌbæθiˈskiːf/ (n) (nav arch) batiskaf
batten /ˈbætən/ 1 (cargo) daska, letva ~ ends krajevi rezane građe (manji od 2, 5 m dužine); 2 (seamanship) čelična letva za pričvršćenje platna na grotlu
batten /ˈbætən/ (n) (boating/yachting) a thin strip of material used to create rigidity and shape in sails or canvas. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) letvica (u jedru), šteka; Italian: stecca, lajsna jedra ~ pocket džep letvice u jedru
batten down /ˌbætən ˈdaʊn/ (v) (cargo handling, safety) to close the hatch watertight; the act of making a hatch watertight by wedging the battens against the tarpaulins, or of wedging shut or dogging down any watertight opening zatvoriti hermetički (grotlo, brodsko skladište, ventil): The hatches were properly battened down. The derricks are to be lowered and secured and all the hatches are to be closed and battened down. Port holes and access to pump room battened down. They should have battened down the hatches and vents, and donned lifejackets in case the vessel capsized.
battens /ˈbætənz/ (n) 1 (cargo handling) = cargo battens bokoštitnice; 2 (nav arch) dugačke letvice od elastičnog materijala (drvo, polimerni materijal, ili sl) koje služe za crtanje i uglačavanje brodskih forme (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni) letvice: As the sail swings across, the helmsman briefly stops the mainsheet from swinging to leeward so that the mainsail battens flick to their new shape.
batter (v) (meteorol) pogoditi neko područje (o cikloni), sručiti se na (o cikloni), opustošiti neko područje (o cikloni), poharati neko područje (o cikloni): A 200m-long cargo ship has hit a barge full of rocks in the English Channel, as Storm Angus continues to batter the south coast of England. Most powerful hurricane ever recorded over Atlantic Ocean batters Caribbean islands as it moves west with category 5 winds and rains (battery /ˈbætəri/ (n) (electr) električna baterija, akumulator, baterija: Also, make sure that you carry an EPIRB and that the battery in the EPIRB is in date - not everyone will be as fortunate as the crew on board this vessel in this respect. storage ~ akumulator, ~ capacity kapacitet akumulatora, ~ terminal klem, stezaljka na polovima akumulatora, starting ~ akumulator za upućivanje motora (brodici, jahte, jedrilice, gliseru), service ~ servisni akumulator, akumulator za dnevnu uporabu (rasvjetu, hlađenje itd. na bordici), liquid electrolyte ~ akumulator s tekućim elektrolitom i čepovima, ~ charger brodski punjač, punjač akumulatora, punjač baterije, AGM ~ (absorbed glass mat) hermetički zatvorena brodska baterija / akumulator (elektrolit apsorbiran unutar staklene vune), GEL ~ (gel cell battery) hermetički zatvorena brodska baterija / akumulator (elektrolit apsorbiran unutar gela), deep cycle ~ servisni akumulator, semi-traction ~ servisni akumulator, VRLA ~; valve regulated lead acid ~) akumulator s regulacionim ventilom olovne kiseline, rechargeable ~ baterija s punjenjem na mrežni napon,
akumulator s punjenjem na mrežni napon, ~ booster pojačivač baterija, pojačivač akumulatora, ~ operation rad baterije / akumulatora, ~ is flat akumulator je prazan, baterija je prazna: He then tried to use the hand-held VHF set, but the battery was flat., ~ is out of date bateriji je isteklo vrijeme trajanja: Although the EPIRB battery was out of date, the EPIRB had worked and its signal had been received by the coastguard, and a surveillance aircraft was tasked to locate the ves, ~ alarm alarm za praznu bateriju / akumulator: Almost immediately, the battery alarm sounded. recharger the ~

dopunjavanje akumulatora, punjenje akumulatora / baterije: These batteries will be recharged during navigation, through shaft generators adding the peak shaving system, and with the aid of 600 m2 of solar panels.

https://www.maritimeprofessional.com/news/generation-roro-vessels-unveiled-317740 The batteries will be recharged during navigation using shaft generators as well the aid of 600 square meters of solar panels.

http://gCaptain, lithium ion ~ litij-ionska baterija

battery /'bætərɪ/ (n) (marine eng) skup aparata / uređaja, baterija aparata / uređaja, komplet uređaja

battery charger (n) (elecr) 1 punjač akumulatora, punjač baterije: It was subsequently discovered that a faulty battery charger had overcharged the boat’s batteries, which produced the hydrogen sulphide gas.; 2 ispravljač; 3 brodski punjač

bulk-absorption-float; loUoU Bulk - brzo punjenje do 80% kapaciteta, tj.14,2 V; absorption - punjenje konstantnim naponom do 100% kapaciteta; - float - plutanje - faza održavanja kapaciteta sustav punjenja akumulatora u tri koraka

battery power (n) (marine eng, nav arch) akumulatorski pogon: Stena Line recently signed a contract with Callenberg Technology Group for batteries with a total capacity of 1 MWh which will be installed on Stena Jutlandica, which operates between Gothenburg and Frederikshavn.

battery-powered (n) (marine eng) na baterijski pogon, na akumulatorski pogon ~ system baterijski pogon, akumulatorski pogon: Louisiana-based SEACOR Marine has completed the installation of the first hybrid battery power system on an offshore support vessel in the Gulf of Mexico. gCaptain <info=gcaptain.com@mail230.wdc02.mcdlv.net>

battery switch (n) (elecr) glavni prekidač (na brodicu, jedrilici): The power for the pump and float switch was derived from the battery side of the battery isolating switch.

battery voltage (n) (elecr) napon baterije, napon akumulatora: He discovered that the battery voltage had dropped to below the 10.2 Volt threshold required by the heater to operate its safety features.

battle cruiser (n) (navy) a large warship carrying heavy armament, which is smaller, faster and more manoeuvrable than a battleship

battleship /ˈbæt(ə)ʃ/ (navy) a type of large, heavily armored warship of the second half of the 19th century and first half of the 20th century armed with heavy-caliber guns, designed to fight other battleships in a line of battle; A naval vessel having a large displacement, good speed, large radius of action, maximum armament, maximum protection against gun fire, bombs, and torpedoes, ability to keep at sea in all weathers and to bear the brunt of sea fighting as a line-of-battle ship.

(https://www.history.navy.mil/) bojni brod
baulk /bo:k/ (=balk) (n) (cargo) (nav arch) A piece of timber from 4” to 10” square.

BCR

bauxite /ˈbɔksait/ (n) (cargo) boksit

bay /bei/ (n) 1 (nav arch) the position where the container is placed along the length of the container ship; section of vessel in which containers are held

bays are numbered lengthwise from bow to stern with odd numbers for 20' containers and even numbers for 40' containers. The even number between two 20' containers is used to define 40' bays. the bay spaces for 20' containers are numbered throughout fore to aft with odd numbers, i.e. in this case 01, 03, 05 and so on up to 75. The bay spaces for 40' containers are numbered throughout with even numbers: 02, 04, 06 and so on up to 74.; 2 (cargo handling) a larger open area belowdecks on a ship, as in cargo bay, sick bay

bay /bei/ (n) 1 (geogr) COMPARE gulf COMPARE cove a body of water forming an indentation of the shoreline, larger than a cove but smaller than a gulf

zaljev, Italian: baia: The vessel was in a sheltered bay and the conditions were good, so the skipper and his deckhand laid out the ring net. A yacht equipped primarily for cruising in the Caribbean is not necessarily going to be able to handle everything a winter storm in the Bay of Biscay can produce. Once the master had received the day’s orders, the launch sailed into the bay to rendezvous with the helicopter for another day of routine training. The vessel was attempting to recover her starboard anchor in adverse weather and sea conditions, off Tees Bay, UK.; 2 zaton

BB (=ballast bonus) (n) (mar law) special payment above the chartering price when the ship has to sail a long way on ballast to reach the loading port naknada za plovidbu u balastu (bez tereta)

BBB (=Before Breaking Bulk) (n) (mar law, shipping econ) SEE break bulk A condition of carriage that freight, or some percentage of it, becomes payable before breaking bulk (discharge of a vessel commences); freight payments that must be received before the discharging of a vessel starts https://www.logisticsglossary.com/term/bbb/ prije početka iskrcaja/ukrcaja, prije otvaranja grotla / skladišta broda (radi iskrcaja/ukrcaja)

BC Code (=Bulk Cargo Code) (n) (cargo handling, mar law) Pravilnik za osiguranje krutog tereta u rasutom stanju: The shipper did not supply information on the characteristics of the cargo as required by IMO’s Code of Safe Practice for Solid Bulk Cargoes (BC Code). After consulting the Bulk Cargo (BC) Code, the master determined that the cargo was non-hazardous seed cake and therefore could be carried on board the ship.

BCO (=Beneficial Cargo Owner) (n) (mar law) the importer, who physically takes possession of cargo at destination krajnji primatelj tereta

BCR (=Bow Crossing Range) (n) (navig) minimalna udaljenost minmoila ženja po pramcu: In this case, the OOW was content to accept a bow crossing range/distance of 1 mile with the cargo ship and a considerably reduced CPA with the yacht, without feeling the need to refer to the master.
BDI (=Baltic Dry Index) (n) (shipping econ) = Baltic Dry Index vozarinski indeks / stavovi za suhe rasute terete koje objavljuje 'The Baltic Exchange'

BDN (=Bunker delivery note) (n) (marine eng) the document showing the quantity and quality of the bunker(s) delivered to a customer  dostavnica goriva, potvrda o isporuci goriva: Apart from the BDN, the PSC will check the soundings of the tanks where the low sulphur fuel is kept or where the HSFO is kept for ships with exhaust gas scrubber www.safety4sea.com MARPOL Annex VI, International Convention for the Prevention of Air Pollution from Ships, now requires certain information in a BDN. As well as being required for the above purposes, a BDN (as dictated in MEPC.176(58)) must also include the sulphur levels in the product, as well as delivered quantities. https://www.exxonmobil.com/en/marine/technicalresource/marine-resources/bunker-delivery-notes The BDN document is still the primary method to document the quantity delivered to a customer. https://www.exxonmobil.com/en/marine/technicalresource/marine-resources/bunker-delivery-notes

BDR (=Bunker Delivery Receipt) (n) (marine eng) COMPARE BDN the document showing the quantity and quality of the bunker(s) received on board ship; * document that we supply to your vessel when we bunker its fuel, as proof of delivery. potvrda o primitku goriva: Originally the BDR was used as a means to document quantity delivered from a supplier to a customer and provide evidence of receipt of product. https://www.exxonmobil.com/en/marine/technicalresource/marine-resources/bunker-delivery-notes BDR is a document that we supply to your vessel when we bunker its fuel, as proof of delivery. The BDR must be accompanied by a sample of the fuel that has been tested, and the ship’s copy must be kept onboard for a minimum of 3 years. http://www.geosgroup.com/news/article/what-is-a-bdr-or-bdn The BDR is completed by our representative and should be signed (for volume, not weight) upon receipt by the chief engineer or captain. http://www.geosgroup.com/news/article/what-is-a-bdr-or-bdn

beach /bɪtʃ/ (v) (mar ins) namjerno nasukati brod (brodicu, barku): Once back in the safety of the harbour, the skipper was able to beach his boat and make an inspection at low tide. To avoid sinking, the master decided to beach the vessel. (https://safety4sea.com/) ~ a ship namjerno nasukati brod (radi spašavanja pomorskog pothvata): In an extreme emergency, a ship’s captain may elect to beach his vessel to keep it from sinking in deep water or for easier rescue of his passengers and crew. To prevent an even greater disaster the SOSREP made the decision to intentionally beach the ship in Lyme Bay. http://gcaptain.com/ Fearing that the ship could break up and sink, she was intentionally beached in the nearby bay. During the return trip, smoke began filling the lazarette, main deck, and engine room. The captain deliberately beached the vessel in shallow water near shore to evacuate the passengers. https://safety4sea.com/watch-insufficient-maintenance-caused-fire-on-the-passenger-vessel-off-florida/ beach /bɪtʃ/ (n) a narrow, gently sloping strip of land that lies along the edge of an ocean or a lake (education.nationalgeographic.org/) pješčana morska obala, plaža: ... where it would have been possible to land the passengers with the vessel’s tenders onto an appropriate beach. a gently sloping ~ pješčana obala koja se lagano spušta

beachcomber /bɪˈtʃəm/ (n) 1 (UK, seamanship) a person who searches shore debris for anything of worth, esp a vagrant living on a beach skupljači korisnog ostataka / naplavina na obali nakon brodoloma; 2 (seamanship, US) A derelict seaman found unemployed on the waterfront, especially in a foreign country (seaman without a ship). (www.USMM.org) brodolomac, pomorac bez broda, pomorac bez posla

beaching /ˈbɪfin/ (n) (mar law, mar ins) deliberately running a vessel aground to prevent a
damaged vessel sinking; intentional grounding in order to land crew or cargo namjerno nasukavanje broda (u generalnoj havariji): in an emergency a damaged ship might be beached to prevent it from sinking in deep water. ... he tried to slow down, but the throttle linkage slipped and there was no response from the engine. He was coming in far too fast for beaching. He tried again to throttle back, but in his haste he increased the speed.

beam /′biːm/ 1 (navig) a lighted or unlighted fixed aid to navigation attached directly to the earth's surface; Types of beacons: radar reflectors, radio beacons, sonic and visual signals svjetleća oznaka, far, svjetionik, oznaka plišine, Italian: meda; boa-radio: On approaching beacon “B”, the cargo vessel reduced speed and altered course to starboard. The vessel passed close to a detached rocky outcrop on its starboard side, which was marked by a beacon.

bead /′biːd/ 1 (navig) a lighted or unlighted fixed aid to navigation attached directly to the earth's surface; Types of beacons: radar reflectors, radio beacons, sonic and visual signals svjetleća oznaka, far, svjetionik, oznaka plišine, Italian: meda; boa-radio: On approaching beacon “B”, the cargo vessel reduced speed and altered course to starboard. The vessel passed close to a detached rocky outcrop on its starboard side, which was marked by a beacon.

beacon /′biːkən/ (n) 1 (navig) a lighted or unlighted fixed aid to navigation attached directly to the earth's surface; Types of beacons: radar reflectors, radio beacons, sonic and visual signals svjetleća oznaka, far, svjetionik, oznaka plišine, Italian: meda; boa-radio: On approaching beacon “B”, the cargo vessel reduced speed and altered course to starboard. The vessel passed close to a detached rocky outcrop on its starboard side, which was marked by a beacon.

articolated / buoyant ‑ A floating mark secured to a sinker, either directly through a joint or by a cable that is held in tension by the buoyancy of the mark. The buoyancy chamber is normally below the surface of the sea. (http://www.iala-aism.org/wiki/dictionar) plutajući zgloboći far, trigger the ~ izazvati uključivanje fara, to erect a ~ postaviti far (oznaku); 2 (navig) a beacon-like buoyant structure, tethered directly to the seabed and having no watch circle zgloboći far (usidren u moru)

beacon (n) 1 (safety) = distress beacon In the system of SAR, beacons use radio signals to indicate distress. Each unit has a built-in transmitter and batteries. Two main beacon types interest the Coast Guard: an Emergency Locator Transmitter (ELT), designed for aircraft and an Emergency Position Indicating Radio Beacon (EPIRB), designed for vessels. Both transmit a radio signal when activated. Unlike most ELTs, EPIRBs transmit a coded message that indicates the identity of the beacon in use. A third type of beacon, which operates through the satellites for use on land, is the Personal Locator Beacon (PLB) class. (http://www.ccg-gcc.gc.ca/eng/CCG/SAR_Maritime_Sar#Rescue_Alerting) radiosignal pogibli, predajnik radiosignala pogibli personal locator beacon (safety) osobni radio lokator (u traganju i spašavanju): The EPIRB was activated along with the personal locator beacon.

bead (n) (fishing) perlica (prame)

beam (n) (fishing) greda, nosač: When he reached the after end of the port side conveyor belt, he found the wiper’s body between the conveyor belt roller and a supporting beam. H-beam nosač od H-profila, H-profil: the flange and one bolt on the trolley cheek plate connecting bar fractured, causing the chain block and trolley to fall from the “H” beam. A fixed “H” beam with a four wheel trolley was fitted directly above the engine.; 2 (nav arch) an athwart member or girder supporting the portion of the deck above sponja, nosač palube deck ~ sponja, nosač palube, tier of ~s red sponja; 3 (seamanship) the side of the ship and positions of other ships and objects relative to own ship's side bok broda, po boku, atreso: The vessel had no bridge wings, which meant that the sea surface could not be seen from the manoeuvring station within 93 metres%bb of the beam and 184 metres of the stern. on the ~ po boku, subočice: --- the westerly cardinal was warning of the danger of a well-charted area of exposed rocks, however the mark was rounded, leaving it just 20-30m on the beam. the skipper was heard to pull the engine control back to neutral as a succession of large waves broke over the vessel, which was now beam onto the sea., before the ~ / forward of the ~ subočice po pramcu, abaft the beam subočice po krmi: A short time later, the skipper saw the trawler out of the port side wheelhouse window at close range and just abaft the beam., before the ~ to port subočice po pramcu lijevo, abaft the ~ to starboard
subočice po pramacu desno, on the starboard ~ desno po boku, na desnoj strani broda: He then held the ship stationary, stemming the 3-4 knot flood tide, with the port’s entrance lock on his starboard beam. The other ship, which was now about 50m on the starboard beam, then altered course to starboard, causing her port quarter to collide with the coaster’s starboard side.\, on the port ~ lijevo po boku, na lijevoj strani broda: During this manoeuvre, OSV1 also let go all ropes, and as soon as OSV2 was on the port beam, she went astern. The wind was on the port beam and the stern was swinging quickly towards the stone reinforced riverbank.\, starboard ~ desni bok broda, desna strana broda: The tidal stream was flooding at between 3 and 4 knots, and a 20 knot wind was acting on the vessel’s starboard beam. He did not see the bulk carrier, which had maintained a steady course and speed and was only 0.25nm off the cargo ship’s starboard beam.\, port ~ lijevi bok broda, lijeva strana broda: However, as the vessel moved astern into the main shipping channel, the force of the wind acting on her port beam was greater than the power the tugs could produce to hold the vessel against the wind.\, turn the ship ~ on to the wind bokom na vjetar, okrenuti brod bokom prema vjetru: The pilot hurried to the bridge and, with the assistance of one of two tugs in attendance, turned the ship on to the wind in readiness for berthing.\, forward of the ~ subočice po pramacu: The skipper was well into his day’s work and was shooting a fleet of creels with the wind and seas just forward of the beam when, for some unknown reason, he left the safety of his wheelhouse.\, 4 (nav arch) = width, breadth širina broda beam: (n) (navig) radarski snop ~ width širina snopa beam ends (n) 1 (seamanship) A vessel lying on her side strane broda, bokovi broda: As lowering continued, the rotation increased until the boat was almost on its beam-ends and with its stern hanging down.\, 2 (seamanship) on her beam-ends means a ship heeled over on the side so that the deck is almost vertical nagnuti brod (radi čišćenja dna) on her ~ nagnuti brod (oko 45 stupnjeva tako da se može čistiti dna) deck beam knee (=beam arm) (n) (nav arch) a bracket between a frame or stiffener and the end of a beam koljeno sponje beam reach (n) (boating/yachting) 1 sailing at an angle approximately 90° to the apparent wind, such that the wind is crossing the vessel’s beam.\, 1 s bočnim vjetrom; 2 sailing with the wind coming across the vessel’s beam jedrenje s vjetrom u bok: The wind was south west force 5-6 and good progress was made, the yacht sailing first on a beam reach and then a broad reach. beam reaching (n) (boating/yachting) jedrenje bočnim vjetrom beam sea (n) (navig) seas (waves) moving perpendicularly to the direction of the ship bočni val, bočno more: A small fishing boat was rolling easily while trawling in a moderate beam sea. ~ s bočni valovi beams in aft peak (n) (nav arch) donje sponje u kremenom piku beam socket (n) (nav arch) ležište grede grotenog poklopca beam trawler (n) (fishing) a fishing vessel carrying trawl nets boomed out on both sides from a central mast bočna kočarica: On a late winter’s afternoon, in calm sea conditions, a beam trawler caught her port trawl gear on a fastener. The skipper and 2 crew of a 9.9 metre beam trawler had just completed an uneventful passage to nearby shrimp fishing grounds.
beamwidth (n) (navig, electr) the angular width, horizontal or vertical, of the path taken by the radar pulse  

kutna širina radarskog snopa  

horizontal beamwidth širina radarskog snopa u vodoravnom presjeku,  

vertical ~ širina radarskog snopa u okomitom presjeku  

beam width distortion (n) (electr, navig) izobličenje širinom snopa (radara)  

beamwidth error (n) (navig) grješka zbog širine radarskog snopa

beam wind (n) (meteorol) wind at right angles to the vessel's course  

bočni vjetar,  

Italian: vento al traverso: Beam winds reached 90 knots and it was necessary to offset the ship’s heading by 30° to maintain the revised planned track.

bear /ˈbɛər/ 1 (v) (marine eng) A light, or other naviga- tion aid, usually on land, to warn boats of danger or obstruction  

https://www.ypiyachts.com/  
nositi, pritiskati težinom: The 20 tonne weight of the door came to bear on the hydraulic cylinder and the lower hinge assembly. the tanker crew, however, were unable to handle the pennants clear of the bitts, so decided to connect the mooring lines as messengers once again, to bear the weight of the towing gear. ~ the load podnositi

opterećenje; 2 (shipping econ) snositi (troškove); 3 (boating/yachting, seamanship, navig) to lie in a certain direction  

biti u jednom smjeru, ploviti u određenom smjeru, biti na azimutu od: During the turn, with the cargo vessel heading 125°(T) and the bulk carrier bearing 082°(T) at a range of 2. the waypoint, the master ordered a slow alteration of course to port. During the turn, with the cargo vessel heading 125°(T) and the bulk carrier bearing 082°(T) at a range of 2.04 miles, the bulk carrier’s OOW made several calls on VHF radio Channel 16 to clarify the cargo vessel’s intentions.; 4 podnositi, trpjeti

bear* (n) (seamanship, boating/yachting) smjer

bear* (n) (navig) to be located on a particular bearing, as  

biti u smjeru (od .... stupnjeva od drugog broda ili objekta), nalaziti se u smjeru, biti na azimutu od ... stupnjeva: By 0241, the ship B’s master had adjusted the autopilot to steady on to a COG of 212° and his vessel was now bearing 347° from Ship B at a range of 1.6nm, www.gov.uk/maib At 0218, vessel A was bearing 351° from vessel B at a range of 2.6nm, The tanker is now bearing fine on ferry’s port bow at a distance of 0.65nm The lighthouse bears 049 degrees.

bear a hand (v) (seamanship) to assist or help  

pomoći, dati ruku

bear away (=bear off) (v) (boating/yachting) ANTONYM luff up ANTONYM

head up: namjerno otpadati skretanjem jedrilice od vjetra; to steer or turn a vessel away from the wind; to change direction from close hauled to a reach or run; To fall off. A boat falls off the wind when it points its bow further from the eye of the wind. The opposite of heading up.

https://www.ypiyachts.com/  
otpadati, skretati od vjetra, pojat; pojati, zapojati,
**bear down on** (v) *(boating/yachting)* to head toward and close on another ship *približavati se s privjetrino*

**bearer bill of lading** *(n)* *(mar law)* A bill of lading (supra) providing for the delivery of the goods to whomever holds the bill. *http://www.minds erreur.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm*; Person who tenders the Bill of Lading to the ship at the place of discharge in exchange for the goods. Bills of lading are often made out to bearer. *http://www.tkmglobal.net/chartering_B.HTM*

**bearing** / *bearin* *(n)* *(navig)* the direction of an object (with reference to you, your ship, another object); the horizontal direction of a line of sight between two objects on the surface of the earth, expressed as the horizontal angle, in degrees, between that direction and north; the direction of an object from an observer, measuring in degrees clockwise form a reference point.

*(http://www.quarterdeck.org/index.html)* **azimut, horizontalni kut, smjer,** *(Italian: rilevamento)*: In navigation, two or more bearings on stationary objects at wide angles to each other provide a fix. When working close inshore do not rely on a single bearing and range for position fixing: use clearing bearings, use parallel indexes on your radar. *closing / opening ~s azimut koji se približavaju / odvajaju*: Over the next 15 minutes, the **true bearing** of the target changed by 1°, by which time it had closed to 0. Meanwhile, on the tug, the **bearing** of the fishing vessel was observed to be opening to port and an assumption was made that no risk of collision existed.

**converging / diverging ~s azimut koji se približavaju/udaljaju**, to take the ~ of an object snimiti azimut nekog objekta, izmjeriti azimut nekog objekta, steady ~ stabilan azimut on a steady ~ na stalnom azimutu, s azimutom / smjerom koji se ne mijenja: The chief officer saw that the vessel was fishing and, by using the EBL on the radar display, assessed that she was on a steady bearing. Ideally, when two ships are closing on a steady bearing, each is aware of the other’s presence, and action is taken in accordance with the collision regulations. The container ship was approaching on a steady bearing from the port beam at high speed., ~ accuracy preciznost azimuta, ~ line crta azimuta, linija azimuta: This had not been detected by the OOW, who was monitoring the ship’s position using only a single radar range and bearing line from a fixed beacon. He checked the vessel was on heading for the next alteration of course position, which was indicated by an electronic bearing line on the plotter., leading ~ vodeći azimut, visual ~ vizualno snimljen azimut, vizualno dobiven azimut: After steadying on the new course the OOW fixed the position using a visual bearing and radar distance, and plotted it on the chart in the chart room., monitor the ~ pratiti azimut (drugog broda): The OOW did not monitor her bearing, either visually using an azimuth gyro repeater, or by radar., true ~ azimut pravi: Over the next 15 minutes, the true bearing of the target changed by 1°, by which time it had closed to 0., constant ~ When the angle of an approaching vessel remains the same over time, indicating a collision course.

*(http://www.apsltd.com/aps-advisor/sailing-terms-glossary/)* **stalni azimut, konstantni azimut**

**bearing** *(n)* *(marine eng)* ležaj, Italian: *cuscinetto* ~ box kućište ležaja donje glave ojnice, ~ bush košuljica ležaja, tuljac ležaja, ~ cover poklopac
When the machinery space was entered, the engine’s No 6 cylinder large end bearing assembly was found to have passed through the port crankcase door, and to have come to rest immediately outside the engine.

This blanked the oil supply to the small end bearing and cooling oil to the underside of the piston, resulting in overheating and seizure of the piston in the cylinder liner.

However, a spate of turbo-charger bearing failures had been linked to overheating.

http://www.enginebuildermag.com/2015/12/engine-bearings-under-pressure/

**bearing** (n) (shipping econ) utjecaj: have a ~ on the business operation For cargo ships, the properties of cargoes that are permitted to be carried on each ship have an important bearing on safety. Check the bearing condition as described in ...

**bearing away** (n) (boating/yachting) turn away from the wind intentionally; turn away from the wind, often with reference to a transit otpadanje, namjerno otpadanje od vjetra, pojanje; Italian: poggiata

**bearing bush** (n) (marine eng) ležajni tuljac, bukula; It.:boccola, bukola

**bearing cap** (n) (marine eng) poklopac ležaja: When dismantling the main bearing caps fasten them by means of straps

**bearing circle** (n) 1 (navig) smjeralo, naprava za smjeranje; 2 azimutski kut
bearing cursor (n) (navig) smjeralo interscan bearing cursor interscan
smjeralo

bearing discrimination (n) (navig) razlikovanje objekata / ciljeva na istom ili bliskom azimutu (na radaru), odvajanje objekata / ciljeva na istom ili bliskom azimutu (na radaru): bearing discrimination governs the radar’s ability to distinguish between two targets close together at the same range.

bearing from a buoy (n) (navig) azimut (snimljen) s plutača: The 3/O fixed the vessel’s position at 1725, a single radar range and bearing from a buoy, which showed that the ship had regained the planned track coincident with a planned 5 degree alteration to port.

bearing journal (n) (marine eng) rukavac ležaja, ležajni rukavac

bearing line (n) (navig) linija azimuta: He checked the vessel was on heading for the next alteration of course position, which was indicated by an electronic bearing line on the plotter.

bearing oil (n) (marine eng) ulje za ležajeve

bearing plate (n) (navig) smjeralo, smjerna ploča

bearing puller (n) (marine eng) izvlakač ležajeva, radapciger ~ set izvlakač

Dismount the upper bearing shell. Take special care that no damage occurs to the bearing shells while they are being removed.

košenje ~ to windward
košenje

https://theamya.org/hints/sailmanual/part3.php

beating straps (n) (boating/yachting) trake za noge (uz kobilicu jedrilice)
beating up (v) (boating/yachting) jedriti protiv vjetra stalnim letanjem,
zbordižavati, jedriti u bordadama

Beaufort windforce scale /ˈbəʊfərt/ (n) (meteorol, oceanogr) a scale that indicates the wind speed using the effect wind has on certain familiar objects

Beaufortova ljestvica 0 calm tišina, 1 light air lahore, 2 light breeze povjetarac, 3 gentle breeze slabi vjetar, 4 moderate breeze umjereni vjetar, 5 fresh breeze umjereno jaki vjetar, 6 strong breeze jaki vjetar, 7 near gale Žestoki vjetar, 8 gale olujni vjetar, 9 strong gale jaki olujni vjetar: The wind was forecast to increase to Beaufort Force 9 that night, 10 storm orkanski vjetar, 11 violent storm jaki orkanski vjetar, 12 hurricane orkan

becalm /biˈkaːm/ (n) A complete lack of wind, rendering sails useless. potpuna tišina, potpun izostanak vjetra, kalma bonaca

becalmed /biˈkaːmd/ (adj) (boating/yachting) A sailing vessel dead in the water due to lack of wind (not moving). jedrilica bez vjetra: After a late lunch, the boat was becalmed and the two men decided to row the dinghy back to the shore.

becket bend (=becket) (n) (boating/yachting) SEE sheet bend sheet bend zastavni uzao

bedding compound (n) (seamanship) materijal za kalafatanje, materijal za šuperenje

bedplate /ˈbedpleɪ/ (n) (marine eng, nav arch) the upper surface plating of a foundation platform of an engine temeljna ploča: overheating of the bedplate at the main bearing housings; overheating of the piston connecting rods engine ~ temeljna ploča glavnog stroja: The damage sustained necessitated an engine rebuild and the replacement of the bedplate and crankshaft.
beech /biːtʃ/ (n) (cargo) bukva, bukovina
beep (n) (electr) kratki zvučni signal (pri startanju ili nekoj naredbi računala, uređaju), beep, bip: The unit beeps, the startup screen appears, and then the equipment checks the ROM and RAM for proper operation and displays program number. The senior member momentarily pressed the VHF radio DSC button, but did not hold it down and did not hear the acknowledgment “beep”.

beetle /ˈbiːtəl/ (n) (seamanship) bat za kalafatanje: Tom Cunliffe is a lifelong professional sailor who has served before the mast in small sailing ships, skippered yachts for private owners, raced offshore, been to sea as mate on a British-registered coasting vessel and taught

before (prep) ahead of; on the forward side of ispred (nečeg na brodu), pred before the beam (prep prh) subočice po pramcu before the mast (prep phr) (seamanship, boating/yachting) a work station forward of the main mast; the quarters (accommodation) of the common sailors, in the forecastle, in the front of the ship U potpaljublju pramca before the wind (prep phr) (boating/yachting) Sailing with the wind from astern, in the same direction the wind is blowing, https://www.ypiyachts.com/ jedrenje niz vjetar, plovidba niz vjetar: The vessel was aligned to run before the wind with a lookout strategically positioned to give directions to the master in order that the vessel could be steered to provide the repair party wit

belay /biˈlei/ (v) 1 (seamanship) to make fast a rope or line by taking turns round a cleat or belaying pin; to tie and secure a rope vezati (konop, uže) na bitvu, učvrstiti konop na bitvu ili o klin, omotati konop na bitvu, Italian: dare volta su una bitta; 2 (navy) to cancel an order opozvati naredbu, poništiti naredbu; 3 zaustaviti belay: (v) (seamanship) zaustaviti (uže), zavezati (uže)
belaying pin (n) (seamanship) bar of iron or hard wood to which running rigging may be secured, or belayed klin za osiguranje uzla (užeta)
https://en.wikipedia.org/wiki/Belaying_pin

bell (n) 1 zvono, brodsko zvono; 2 (seamanship) obilježavanje straže zvukom zvona; 3 (seamanship) dio dana na brodu (1/8 dana): eight bells
bellbook (n) (marine eng) dnevnik stroja (telegrafa)
bell buoy (=bellbuoy) (n) (navig) A buoy with a bell that sounds when the buoy is moved by the waves. https://www.ypiyachts.com/ plutača sa zvonom: A bell buoy is usually mounted near a rock or shoal to warn of a serious danger to navigation.
bellmouth (n) (geogr) velika vodena rupa uz rub rijeke (utječe na smjer strujanja)
belly //beli/ (n) (boating/yachting) the fullness of a sail trbuh jedra
below (n) (seamanship) Any area of a boat below deck level. Downstairs (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) potpalublje, prostor ispod palube
belt /belt/ cooling ~ rashladni pojas, port ~ pojas kanala (na cilindru), zona otvora, drive ~ pogonski remen, Italian:cinghia (marine eng) pojas, zona: The skipper had been on board during the morning to replace the worn main engine fan belt.
bench and vice (n) (marine eng) radionička klupa (stol sa škripom/moršom)
benchmark /ˈbɛntʃ,maːk/ (n) 1 a mark on a stone post or other permanent feature, at a point whose exact elevation and position is known: used as a reference point in surveying granična točka, referentna točka, standard: These ships will be the new benchmark for the European feeder trades.; 2 (oceanogr) A fixed physical object or marks used as a reference for a vertical datum hidrografska nula
benchmarking (n) (shipping econ, safety) the measurement and comparison with a standard or others of efforts and results in the business process for e.g. input, output, reliability, quality and customer satisfaction (http://www.iss-shipping.com/cargo/cargo_library_glossaryb.asp); compare someone or something with the best that can be achieved within a specified field. utvrđivanje komparativnih standarda, određivanje komparativnih graničnih točaka (za mjerenje razvoja i napretka): Benchmarking is the comparative search for the best practices (processes) that will lead to superior performance of the company.
benchtop tools (n) (marine eng) stacionarni alati
bend //bend/ 1 (v) (phys) saviti, savijati, iskriviti: As the wire continued to try to move to starboard (Figure 3), the bracket began to bend, freeing the shackle. The port skeg was removed, the port propeller shaft was bent and the port propeller blades were badly damaged (Figure 3). While the hull was found to be intact, the Becker rudder was found to be seized and the rudder stock bent by about 20o from the vertical.; 2 (seamanship) The twisting or turning of a rope so as to fasten it to some object, as a spar
or ring; to join two lines together vezati, zavezati (uže) ~ a line vezati konop / uže, zavezati konop na konop, ~ a hitch / knot zavezati uzano / čvor

bend /bend/ (navig) zavoj (rijeke, plovidbenoga kanala), okuka, krivina, zakrivljeni element: As the tow approached a bend in the river, it started to set quickly to the south, towards a mooring buoy, under the influence of the strong tidal stream. The pilot incorrectly ordered the helm to starboard after the vessel had rounded a right-handed bend in the river. At a speed of about 9.5 mph over ground, the pilot began to steer the bend, a turn to port. http://gCaptain.com clear the ~

izaći iz zavoja rijeke, proći zavoj rijeke: The bulkcarrier approached the final bend in the channel before the sea reach, speed was reduced and course altered to allow the inbound ship to clear the bend., negotiate the ~ ploviti zavojem (rijeke), prolaziti zavojem: As the vessel was negotiating the long bend before the bridge, the pilot, at the master’s suggestion, moved the starboard console to obtain a better view down the side of the ship., round the ~s na zavojima (rijeke),

na okukama: While rounding a bend, the tow touched bottom.

bend /bend/ (n) (sailing vessels) = wale voj gaza, pojas gaza

bend /bend/ (n) 1 (seamanship) COMPARE hitch COMPARE knot any type of knot used to join two lines together; a hitch or knot; Bends are used to secure two lines together (http://shipofficer.com/so/wp-content/uploads/2015/02/2.-Knots-Hitches-and-Bends.pdf) uzo (za spajanje dvaju konopa / užeta) single~ zastavni uzo, carrick~ ukrižani

uzao, unakrsni uzo

https://www.animatedknots.com/indextypebends.php; 2 uzo koji spaja dva užeta

bending force (n) (marine eng) sila savijanja

bending moment (n) 1 (marine eng) the reaction induced in a structural element when an external force or moment is applied to the element causing the element to bend moment savijanja; 2 (nav arch) the result of vertical forces acting on a ship as a result of local differences between weight and buoyancy moment savijanja: At sea the bending moment will change as a result of wave impact which than periodically changes the buoyancy distribution. The accident occurred suddenly and without warning when only the vessel’s midships tanks were full, creating a maximum bending moment in the sagged condition.

bending moment curve (n) (nav arch) krivulja momenata svijanja

bending on sails (n) (boating/yachting) navlačenje i vezivanje jedara za debljenjak (na početku sezone) postavljanje jedara

bending stress (n) (marine eng) naprezanje pri savijanju: the extra bulb weight exacerbated the problem and the keel was unable to withstand the “in service” bending stresses, and this led to the conditions of failure.

Beneficial Cargo Owner (=BCO) (n) (mar law) a cargo owner who could be a direct
beneficial owner

beneficial owner (n) (mar law) A term usually referring to the registered shipowner, but which may also designate another party having the equitable ownership of the vessel where it is operated under the cloak of a trust. The term may designate some party behind the registered owner, such as a parent corporation or holding company, having some legal or equitable interest in the vessel, including a right to dispose of it korisnik broda

beneficiary /ˌbenɪˈfɪʃəri/ 1 a (mar law) naslovnik; 2 primalac (novčane doznake); 3 korisnik (vlasnik računa u čiju se korist obavljava uplata)

benefit /ˈbenɪt/ (=benefits) (n) 1 korist: This case demonstrated the benefit of regular drills.

bermudan sloop /ˈbɜːrnədən ˈsluːp/ (boating/yachting, navigation) a one-masted sailing boat with a jib and mainsail rigged fore and aft.

Bermuda rigging /ˈbɜːrnədər ˈrɪɡɪŋ/ (boating/yachting, nav arch) oputa s trokutastim jedom podignutim kosim deblenjakom privezanim pri vrhu ili na vrhu jarbola; an arrangement of sails and spars featuring a triangular fore and aft sail and a mast with a sharp rake bermudksa oputa

Bermuda sail /ˈbɜːrnədər ˈsɛl/ (boating/yachting, nav arch) trokutasto jedro podignuto do vrha jarbola s privjetrenim rubom uhvaćenim po cijeloj dužini jarbola i dnom za cijeli deblenjak; A sailing vessel designed with one tall mast and triangular sails. bermudsko jedro

Bermuda triangle /ˈbɜːrnədər ˈtræɪn əˈrɑŋkəl/ (geogr) bermudski trokut

Bernoulli effect (=Bernoulli’s Principle) (n) (navig) the function of fluid dynamics that tends to draw together two ships moving side by side Bernoulijeva jednadžba,

Bernoulijev zakon

berth /ˈbɜːθ/ (n) 1 (ports) Any place where a ship can safely lie alongside a quay, pier or dock, at anchor or a buoy, and where she can carry out loading/discharge operations or embark and disembark passengers; dio vodenoga prostora i dio obale uređen za pristajanje plovi objekata i opremljen privetnim sustavom; dockage space for vessel terminal ~ vez na terminalu: A small gas tanker was moored alongside a terminal berth; all mooring bollards were in use due to bad weather.

adjacent
~ obližnji vez, susjedni vez: A high speed catamaran (HSC) was scheduled to shift to an adjacent berth. obližnji vez, boat's ~ vez za brodic: ... and all four were enjoying the fine weather and scenery as they made their way back to the boat's berth. iv e A general cargo vessel loaded with timber, which was stowed in the holds and on top of the hatches, was on a pilotage passage upriver to her discharge berth. vez za brodice, vez za barke, refuelling ~ vez za opskrbu gorivom: The service team boarded the vessel, as the tug's crew were preparing to move to a nearby refuelling berth., repair ~ vez za popravak brodova: Crew safety drills continued apace throughout the duration the vessel remained alongside the repair berth, dedicated ~ namjenski vez, brodarov vez, vez koji pripada određenom brodaru / brodu: A car and foot passenger ferry arrived alongside her dedicated berth during the early hours of the morning. a (ports) vez (za brod u luci), pristan, pristanište, privezno mjesto, privezište, armiž, Italian: posto ormeggio, vez za opskrbu gorivom to allocate a ~ dodijeliti brodu vez (u luci), leave the ~ napustiti vez: isploviši se sa veza A tanker was preparing to leave her berth and depart the port by way of a narrow channel. A 30m beam trawler left her berth after being given all the necessary clearances from the harbour authorities., wait for a ~ čekati vez, čekati na vez: While waiting for berth, a fully loaded oil product tanker was anchored about 1 mile from the nearest shoal patch., shift to a ~ premjestiti se na drugi vez, prebaciti se na drugi vez: A high speed catamaran (HSC) was scheduled to shift to an adjacent berth., shift to another ~ premjestiti se na drugi vez: The vessel was shifted to another berth and subsequently to dry dock, as originally planned., reach the ~ doći do veza, stići do veza: The tug was able to reach her berth and moor up under her own power after the collision., turn off the ~ okrenuti se s veza i zaploviti: By 1551, the ship had turned off her berth and was heading toward the departure channel., depart the ~ napustiti vez, isploviti sa veza: A container ship departed its berth and was heading on the outward passage with a pilot on board., approach the ~ prilaziti vezu, približavati se vezu: The vessel's main propulsion had failed as she approached the berth and, although the starboard anchor was let go, the vessel could not be stopped., manœuvre the vessel clear of the ~ kormilariti (manevrirati) brodom tako da bude podalje od veza: The master manœuvreed the vessel clear of the berth and then headed on a north westerly course at a speed of 4 knots towards a reef, 5 cables away and marked by north and south cardinal marks, manœuvre the ship off the ~ manovrirati brodom tako da se udalji s veza: The master agreed to the pilot's suggestion that he would manœuvre the ship off the berth and turn her, and then that the pilot would take over to negotiate the locks and the river passage., pull the ship / stern off the ~ izvući brod / krmu brod dalje od veza, pomaknuto brod / krmu boda s veza: He then ordered the tug to pull the vessel's stern off the berth and operated the bow thruster to move the bow to starboard., assist the ship on her berth pomoći brodu u manovri do veza: Two tugs were assisting a container vessel onto her berth on a wide river., give a wide ~ držati se podalje, zaobići u širokom luku: This means the fishing vessel was restricted and should be given a wide berth at all times. He then handed over the con to the deep-sea pilot, confirming the need for him to give the light- float a wide berth to starboard.; 2 (seamanship) a place to sleep on board; a bunk or bed in a ship ležaj (na putničkom brodu) berth /braθ/ (v) (ship handling) to bring a ship to a berth vezati brod, pristati: The vessel
berthed at the Parker Point ore jetty at 0024. While waiting to berth, a fully loaded oil product tanker was anchored about 1 mile from the nearest shoal patch. ~ alongside pristati bočno uz obalu, vezati se bočno oz obalu, Italian: ormeggiare di fianco alla banchina: The ship will be berthing port side alongside. Brod će pristati lijevom stranom uz obalu, ~ at vezati se uz / na: We berthed at dock 15., to berth starboard side on / to vezati se / pristati desnom stranom / bokom na obalu: The plan was for the vessel to berth starboard side alongside in readiness to load cargo., to ~ port side on / to vezati se / pristati lijevom stranom / bokom na obalu, Italian: ormeggiare sul lato sinistro: the vessel was berthed portside to, facing downstream alongside the Northfleet Hope Container Terminal., to ~ stern on / to vezati se / pristati kromom na obalu, vezati se u četverovez, Italian: ormeggiare sul lato dritto: We will berth starboard side to., to ~ bow on / to vezati se / pristati pramcem na obalu, vezati se u četverovez, akoštat, ~ at the terminal pristati na terminalu, vezati se na terminalu (o brodu): The ship berthed at the terminal during the early morning on May 21 and commenced discharging her cargo.

https://gCaptain.com

berth /ˈbɜːθ/ (n) (boating/yachting, seamanship, marine eng) ležaj, postelja saloon ~ ležaj u glavnoj kabini, krevet u kabini, forecabin ~ ležaj u prednjoj kabini, aft ~ ležaj u stražnjoj kabini

berth /ˈbɜːθ/ (n) (navig) razmak, obilazak give the wreck a wide ~ zaobiđite podrtinu u širokom luku, držite se podalje od podrtine, Wide ~ requested! Zaobići u širokom luku!

berth (n) (boating/yachting) vez (u marini) wet ~s vezovi u moru, dry ~s suhi vezovi, vezovi na kopnu, daily ~ dnevni vez, annual ~ godišnji vez ~ benefits pogodnosti za godišnji vez, bonus za godišnji vez

berthage /ˈbɜːðidʒ/ (n) (shipping econ, mar law) vezarina, pristojba za korištenje (lučkog) veza ili obale

berth bow on (v) (seamanship) pristati pramcem prema obali, vezati se u četverovez pramacem prema obali: A ship may berth port or starboard side on or bow or stern on

berth dues (n) (shipping econ, mar law) vezarina, naknada za korištenje veza

berth head (n) (ports) glava veza, glava gata: It was only within the imminent proximity of berth head, just at under half-a-ship’s length away and when a bow tug had to cast off the towing line, the master finally realised the danger of the situation These measures were however taken too late to prevent an accident and the vessel, still having headway, contacted the berth head.

berth head-in (v) (navig) pristati pramcem prema obali: Our handy-size, multi-purpose vessel was berthed head-in, starboard side to and had already singled up with pilot on board. Our handy-size, multi-purpose vessel was berthed head-in, starboard side to and had already singled up with pilot on board.

berthing /ˈbɜːθɪŋ/ (seamanship, ship handling) pristajanje, privezivanje, koštivanje, akoštavanje: A 100m long, liquid petroleum gas tanker was conducting a routine berthing at a “T” jetty, which was connected to dolphins by walkways. The master insisted on being on the bridge for the canal transit, and for berthing and un-berthing. ~ manoeuvre manovra
The two men did not discuss the ship’s manoeuvring characteristics, the status of the propulsion or how the berthing manoeuvre would be carried out. The vessel was equipped with a bow thrust unit, rated at 20t, to assist with berthing manoeuvres.

On this occasion, when several items of heavy electrical load were started in quick succession in preparation for berthing, the generator frequency dropped below 58Hz.

He then awaited the arrival of a second tug, which assisted in berthing the vessel alongside.

Upon receipt of the Berthing Application Notice of Arrival, the Harbor Operations Officer makes an initial evaluation of all applications for berth space, taking into consideration the GRT, LOA, and draft of the vessel and the cargo intended to be discharged or loaded.

What are my berthing arrangements? I’mmao li vez po dolasku? Gdje ćemo se vezati?

1. oprema za privezivanje
2. upute za privezivanje
3. dobivanje veza u luci
4. to make ~ arrangements dogovoriti vez za brod u luci, organizirati vez za brod, agree ~ arrangements dogovoriti vez u luci

Before boarding the ship, the pilot met the berthing master on the jetty.

The chief officer and the officer aft was properly briefed for the berthing operation. The berthing operation required the vessel to be turned through 180° before mooring port side to. A harbour tug was tasked to assist in the berthing operations of a 75,000gt bulk carrier and to pass her tow line from her forward towing winch through a panama lead at the ship’s starboard shoulder.
We will berth on the starboard / port side. Privezat ćemo se desnim / lijevim bokom.

Send out headline! Dodajte pramčani konop.

Have heaving lines ready forward and aft! Neka bacala budu spremna na pramcu i na krm.,

Send the heaving lines ashore! Dodajte bacalo na obalu.

Use the bow lead! Koristite pramčano oko.

Heave on the ... line! Natežite ... konop!

Stop heaving! Prestanite napinjati.

Heave in easy! Napinjte polako.

Slack away stern line! Popuštajte krmeni konop.

Pick up the slack on the ... line(s) / ... spring(ove).

Check the ... line.

Keep the springs tight! Držite špringove nategnutima.

Make fast fore and aft! Privezat ćemo se lijevim/desnim bokom.

Finished with manoeuvring stations. Privezivanje završeno.

Hold on the ... line(s) / ... spring(s). Zadržite... konop(e)/špring(ove).

We will moor alongside. Pristat ćemo bokom na obalu.

Berthing party (n) (ship handling) (seamanship) privezivačka grupa, privezivačka skupina, brodoprivezivači: When this happens, there is always the danger of thrusters or a propeller becoming fouled unless good communication and co-ordination is maintained between the bridge, the mooring parties and the berthing party ashore.

Berthing pilot (n) (navig, seamanship) privezivački peljar, peljar ovlašten za privezivanje broda: The berthing pilot began the manoeuvre to turn the tanker using a combination of engine, helm and tug movements. The berthing pilot began the manoeuvre to turn the tanker using a combination of engine, helm and tug movements.

Berthing plan (n) (navig) plan privezivanja broda, plan pristajanja broda: The berthing plan was revised to prevent the unit’s failure at a critical stage of the berthing manoeuvre. The berthing plan was discussed between the pilot and the Master but the pilot had not mentioned the restricted room due to the other berthed tanker.

Berthing port/starboard side to the berth (n) (ship handling, navig) pristajanje lijevim/lijevim bokom uz obalu ~, with / without thruster pristajanje lijevim bokom uz obalu, s / bez pramčanog porivnika

Berthing position (n) (ship handling) (navig) mjesto vezivanja broda, mjesto pristajanja broda: Just short of the intended berthing position the vessel stopped. The approach went according to plan until the ferry was about 11 ships’ length from its final berthing position, when her main engine clutches disengaged almost simultaneously.

Berthing procedure (n) (seamanship, navig) postupak privezivanja

Berthing ropes (n) (seamanship, ship handling) užad za privezivanje: The selection of the sizes and types of berthing ropes used on board ships is largely a matter of commonsense and good practice.

Berthing stern on (n) (seamanship, ship handling) = Mediterranean moor = Mediterranean moor pristajanje u četverovez, pristajanje krmom prema obali

Berthing stern to (n) (boating/yachting, ship handling) privezivanje krmom prema
obali, vez u četverovezu s krmom prema obali
berth is/not clear (n) (ports) vez je slobodan / vez nije slobodan
berth no berth 1 (mar law, shipping econ) bez obzira je li brod na vezu ili nije; 2 = whether in berth or not
berth operator (archaic, ports) operator veza (terminala), poduzetnik poslova veza / terminala, lučko poduzeće koje upravlja vezom / terminalom: In case of pollution advice immediately berth operators and harbor authorities;
berth place (n) (ports) operator veze (terminala), poduzetnik poslova veza / terminala, lučko poduzeće koje upravlja vezom / terminalom:
berth stern first (v) (navig, ship handling) pristati najprije krmom prema obali: The Pilot advised the Master that the vessel would berth stern first at No 5 berth
berth stern on (v) (navig, seamanship, ship handling) = berth stern to pristati i vezati se krmom prema obali
berth terms (=B/T) (n) (mar law) the freight rate that includes cost of carriage from end of ship's tackle at load port to end of ship's tackle at discharge port; Expression signifying that the contract of carriage is subject to the customs and conditions of the ports of loading and discharging.
http://www.tkmglobal.net/chartering_BHTM; Shipped under a rate that does not include the cost of loading or unloading. https://officerofthewatch.com/tools/maritime-dictionary/ klauzula o uvjetima prijevoza stvari u skladu s običajima luke ukrcaja
berth-to-berth route (n) (navig) ruta od početnog do krajnjeg veza (u planiranju ploidbe broda - voyage planning): Although the route plotted on the chart was berth-to-berth, it lacked the necessary detail.
beset in ice (adj) (navig) opkoljen ledom, zarobljeni u ledu: The vessels became beset in ice in Northeast Passage.
best bower (n) (seamanship) najveće sidro na brodu
bevel gear /ˈbev(ə)l gə(r)/ (n) (marine eng) stožnik, kosi zupčanik, stožni zupčanik, stožasti zupčanik, zupčanik s kosim zupcima
bevel square (n) pomični kutomjer, škvara, squadra falsa
beyond /biˈjɒnd/ (prep) 1 (mar law) iznad; 2 iza: Once beyond a nearby bridge, the vessel continued for several minutes before the skipper turned the vessel around and started to head back downriver. Kad je brod prošao obližnji most, nastavio je tako ploviti nekoliko minuta prije nego što je zapovjednik okrenuo brod i usmjerio ga niz rijeku.; 3 iznad (moći) ~ control izvan moći, izvan kontrole: The wind and the waves are beyond our control and the challenge is often finding the best way to use these elements to our advantage. Instead, we were faced with a series of events that escalated beyond our control., ~ repair koji se više ne može popraviti: A new fire tube was fitted to the auxiliary boiler, but the EGE was damaged beyond repair. To make things worse, the VHF radio in the lifejacket pouch had been damaged beyond repair.
bible /baɪbəl/ (n) (boating/yachting) porozni kamen za ribanje palube (na jedrenjacima)
bid (n) (mar law) proposal, offer ponuda (na natječaju)
bidder (n) (shipping econ, mar law) ponuđač preferred ~ preferirani ponuđač, ponuđač s prednošću: The dry bulk shipping specialist Korea Line Corporation was named the
preferred bidder to take over company’s Asia-US and intra-Asia networks

bid opening (n) (mar law) otvaranje ponuda

bifurcation (n) (navig) the point where a channel divides when proceeding from seaward

račvanje, bifurkacija

Big Bear (n) (navig) Veliki medvjed

big end (n) (marine eng) COMPARE upper end donja glava ojnice, donji dio ojnice, pršut

bight /bait/ (n) (seamanship) 1 (seamanship) any section of line that is bent into a U-shape; a curve or loop in a rope udvojak konopa, polukružna petlja užeta: At this point the tail of the rope fouled the propeller and trapped the remaining deckhand in a bight as it whipped overboard. The deckhand on the workboat had passed the line as planned, but he had not noticed that he was standing with his foot in a bight of the rope.

his foot in a bight of the rope.

http://www.vcsar1.org/training/knots_slings_rope.html

2 (seamanship) a curved section or slack part between the two ends of a rope, labavi dio užeta (između dva kraja užeta); 3 (geogr) plitka uvala

big-scale sand smelt (n) (fishing) COMPARE sand smelt gavun oliga

bilge /bildʒ/ (n) 1 (nav arch) the parts/spaces of a vessel’s hull where the vertical sides curve inwards to form the bottom and where water collects or drains and must be pumped out of the vessel kaljuža, santina, ston, Italian: sentina; assecco: The water level in the bow thruster room eventually reached the outside sea level because of undetected holes in the bilge area. ~ alarm alarm kaljuža, alarm kaljužnog tanka: The vessel was fitted with a bilge alarm, but it had failed to activate. The forward bilge alarm did not sound, and the automatic bilge pump indicator lights had been inadvertently covered., ~ level razina kaljuže, razina tekućine u kaljužnom tanku: He then checked the boat over, including the bilge levels and mooring ropes before locking the wheelhouse and making his way home.; 2 (nav arch) uzdužna zakrivljenost palube na boku (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarjiteme.htm#osnovni) oblok, uzvoj

bilge (n) (nav arch) zakrivljeni dio na spoju dna i boka broda uzvoj

bilge and ballast system (n) (nav arch) a piping system located in holds or lower compartments of a vessel and connected to pumps or eductors. sustav kaljuža i balasta, kaljužni i balstni sustav, cjevovod kaljuže i balasta: The bilge and ballast system is used to clear off the accumulated water overboard and also to fill water into the ballast tanks

bilge blocks (n) (nav arch) Supporting blocks used under bilge for support during construction or drydocking. https://officerofthewatch.com/tools/maritime-dictionary/ potklade ispod kaljuža broda (u izgradnji ili pri dokovanju)

bilge bracket (n) (nav arch) uzvojno koljeno

bilge clamp (n) (sailing vessels, nav arch, boating/yachting) bočno pasmo, verzina
**bilge drain** *(n) (nav arch, seamanship)* odvod iz kaljuže, kaljužni odvod, škarik santine

**bilge keel** *(n) (nav arch)* a vane or keel mounted on the outside of a ship at the turn of the bilge perpendicular to the hull to reduce rolling effect ljuljina kobilica

**bilge keelson** *(n)* 1 *(sailing vessels)* bočna hrtptenica, dohrptenica, bočno dopasmo; 2 *(sailing vessels)* uzvojna proveza

**bilge pipe** *(n)* kaljužna cijev, cijev kaljuže ~ pipe system sustav kaljužnog cjevovoda, kaljužni cjevovod: Large sections of *bilge pipe system* were renewed, and improved routing was introduced.

**bilge piping system** *(n) (nav arch)* sustav kaljužog cjevovoda

**bilge plates** *(n) (nav arch)* kaljužni oplatni limovi, oplatni limovi kaljuže

**bilge pump** *(n) (marine eng, boating/yachting)* a hydraulic pump fitted at the lowest inboard part of the hull to bail out water kaljužna crpka, kaljužna pumpa: A significant amount of water had entered the vessel’s under deck area and we had experienced some problems with a *bilge pump*. The primary deck wash and *bilge pump* ran continuously with no means of disengaging it from the main engine. The cause of the sinking was failure of the electric *bilge pump*, leading to the bilge slowly flooding.

**manual kaljužne vode** ručna kaljužna pumpa, electric ~ električna kaljužna pumpa, ~ handle ručica kaljužne pumpe, ~ installation ugradba kaljužne pumpe: While *bilge pump* installations are fairly straightforward - and definitely within the scope of DIY projects - there are several factors to consider (capacity, wire size, hose diameter, fuse size) before you begin, and there are some good rules of thumb to follow: https://www.brighthubengineering.com/marine-engines-machinery/31677-the-bilge-pumps-used-on-board-ships/
**bilge pumping system** *(n) (marine eng)* suštav kaljužnih pumpi: A portable salvage or submersible pump will ensure you can pump out compartments not served by the fixed **bilge pumping system**.

**bilges** /bildʒiz/ *(n) 1 (nav arch)* The lowest portion of a ship inside the hull, considering the inner bottom where fitted as the bottom hull limit. https://officeroftewatch.com/tools/maritime-dictionary/ kaljuže, santine; 2 kaljužni voj

**bilge strake** *(n) (nav arch)* hull plates that form the curved sections that make the transition from bottom shell to side shell uzvojni voj, voj uzvoja, ljužni voj, voj obluka

**bilge stringer** *(n) (nav arch)* kaljužna proveza

**bilge suction** *(n) (marine eng, nav arch)* usis kaljuže: The compartment, immediately forward of the accommodation space, had no fixed bilge suction, in order to continue pumping out the water.

**bilge system** *(n) (nav arch)* kaljužni sustav: The bilge system in all the holds, except Hold 1, incorporates two centrifugal, self-primping pumps rated at 200 m³/hr, and a single piston type bilge pump of 10 m³/hr

**bilge waste** *(n) (environ)* kaljužni otpad: The coastguard has fined a tanker vessel operator $1.30 million for unlawful discharge of bilge waste. https://gCaptain.com

**bilge water** *(n) (nav arch)* kaljužna voda

**bilge well** *(n) (nav arch)* zdenac kaljuže: To pump out the lower car hold **bilge wells**, the engineer selected each system in turn, opened the appropriate valves and started the bilge pump.

**bill** /bil/ *(1 (financ) a račun; 2 (financ) novčanica, banknota; 3 (mar law) nacrt zakona

**bill** /bil/ *(n) (nav arch) oštrica lopate sidra, vrh lopate sidra

**billboard** a fitting at the bow of a vessel for securing an anchor kućište sidra (na pramcu)

**bill-board** /bilˌboː(r)d/ *(n) (sailing vessels) štit za sidra

**billed weight** *(n) (shipping econ) fakturirana težina (tereta), obračunata težina tereta

**billet** /'bilt/ *(1 (navy, US) položaj, zadaće i zaduženja pojedinog mornaričkog časnika, dočasnika itd.; a specific personnel position, assignment, or duty station which may be filled by one person, most commonly used by the United States Navy )https://en.wikipedia.org/wiki/Billet) zadaće (mornaričkog časnika): There were three major operational departments i.e., Operations, Gunnery and Engineering. Aboard destroyers, these were all Lieutenants’ **billet**

http://www.dd596.com/Our-Ship/Organization A fleet destroyer will normally have all three major department head billets filled by a Lieutenant Commander or fairly senior Lieutenant.

http://www.dd596.com/Our-Ship/Organization; 2 (navy) smještaj mornaričkog časnika (na kopnu): a place, especially a civilian’s house, where soldiers are lodged temporarily.; 3
*bill of anchor* *(archaic, navy)* pismeni nalog

*bill of anchor* *(nav arch)* vršak lopate sidra, vršak krila sidra

*bill of exchange* *(mar law, shipping econ)* an unconditional order in writing, addressed by one party (drawer) to another party (drawee), requiring the drawee to pay at a fixed or determinable future date a specified sum in lawful currency to the order of a specified person. (Glossary of Shipping Terms, US MarAd)

*bill of health* *(mar law)* = maritime declaration of health

A document provided to a ship’s master by port health authorities indicating the state of health of the ship’s company and of the port from which the ship is sailing, as well as other ports to which the ship intends to sail

*zdravstveni list, zdravstveni list (pomorski)*: When a vessel has free pratique, this means that the vessel has a clean Bill of Health certifying that there is no question of contagious disease and that all quarantine regulations have been complied with, so that people may embark and disembark.

*bill of lading* /ˈbil əv,leidiŋ/ *(B/L)* *(n)* *(mar law)* = bill of lading - types

A document issued by a carrier, or its agent, to the shipper as a contract of carriage of goods. It is also a receipt for cargo accepted for transportation, and must be presented for taking delivery at the destination.

Originally called a bill of loading, a bill of lading is not necessarily the complete contract of carriage of goods but is usually the best evidence of the contract. It is, as well, a receipt signed by the master or on his behalf indicating in what apparent order and condition the goods have been received on board. Finally, it is also a document of title and thus a document of transfer, but not a negotiable instrument (Tetely); Legal document signed by or for the captain/master, agents, owners of a vessel or the (common) carrier. It is written evidence of the contract of carriage by sea and/or by land.

Shipment shall be subject to CMA CGM bill of lading terms and conditions available in any CMA CGM agencies or on CMA CGM web site: www.cma-cgm.com

*bill of lading - types* /ˈbil əv,leidiŋ/ *(n)* ~ to name

teretnica na ime / imenovano

osobu ili tvrtku, ~ to bearer

teretnica na donosioca, (to) order ~ teretnica po naredbi / nalogu, booking ~ teretnica s klausulama o modalitetima ugovora, charter party ~ teretnica bez klausula o modalitetima ugovora, teretnica u okviru ugovora o prijevozu, clause ~ teretnica s opaskama, nečista teretnica, prljava teretnica, dirty ~ teretnica s opaskama, nečista teretnica, prljava teretnica, unclean ~ nečista teretnica, prljava teretnica, clean ~ A B/L which bears no superimposed clause or notation which declares a defective condition of the goods and/or the packaging

teretnica bez opaske, čista teretnica, dirty ~ prljava teretnica, foul ~ nečista teretnica, teretnica s opaskama / primjedbama, groupage ~ zbirna teretnica, received ~ teretnica primljeno na ukrcaj, shipped ~ teretnica ukrcano na brod, straight ~ teretnica na ime, negotiable ~ negocijabilna teretnica, utrživa teretnica, non-negotiable ~ neutrživa teretnica, through ~ direktna / izravna teretnica, transhipment ~ teretnica za prekrcaj / razvoz, razvozna teretnica, to complete the ~
ispuniti / popunuti teretnicu, to endorse the ~ indosirati teretnicu, ovjeriti teretnicu, upisati opasku na teretnicu, make out a ~ izdati teretnicu, sign the ~ potpisati teretnicu, set of bills of lading komplet teretnica, combined transport ~ teretnica za kombinirani transport, stamp the ~ staviti pečat na teretnicu, present the ~ predočiti teretnicu, prezentirati teretnicu, compile the ~ ispuniti teretnicu, popuniti teretnicu, combined ~ B/L that covers cargo moving over various transports multimodalna teretnica, teretnica u multimodalnom prijevozu, teretnica u kombiniranom prijevozu, intermodal ~ multimodalna teretnica, kombinirana teretnica, teretnica u multimodalnom prijevozu, house ~ = certificate of shipment kućna teretnica, otpremnička potvrda, teretnica na jednog primatelja, freight ~ a contract of carriage between a shipper and forwarder vozarska teretnica, consolidated ~ B/L combined or consolidated from two or more B/L’s zbirna teretnica, konsolidirana teretnica, domestic ~ Non-negotiable B/L primarily containing routing details; usually used by truckers and forwarders domaća teretnica (za cestovni prijevoz/špediciju), straight ~ This B/L indicates that the shipper will deliver the goods to the consignee. It does not convey title (non-negotiable). Most often used when the goods have been pre-paid. neutrživa teretnica, non-negotijabilna teretnica, teretnica na ime, shipped on board ~ B/L validated at the time of loading on to the ship teretnica ukrcano na brod, original ~ The part of the B/L set that has value, especially when negotiable; rest of set are only informational file copies. originalna teretnica, izvorni primjerak teretnice, received for shipment ~ B/L validated at time cargo is received by ocean carrier to commence movement teretnica primljeno na ukrcaj, digital ~ digitalna teretnica: “Moving to a digital bill-of-lading would be hugely beneficial in supporting the supply chain in general, through reduced costs, error free documentation and fast transfer of original documents. The container shipping industry could save itself up to $4bn a year if half of all bills of lading (B/Ls) were dealt with digitally.” https://gCaptain.com, ~ to a named person teretnica izdana na ime, blockchain ~: CargoX becomes the first public blockchain Bill of Lading provider approved by International Group of P&I Clubs https://shippingandfreightresource.com/cargoxt-becomes-the-first-public-blockchain-bill-of-lading-provider-approved-by-international-group-of-pi-clubs/# teretnica u sustavu blockchain, blockchain teretnica

bill of sale (n) (mar law) ugovor o prodaji (broda)
billow /'bilou/ (n) (oceanogr) veliki morski val
BIMCO (=The Baltic and International Maritime Council) (n) (mar law, shipping econ) Association whose main object is to promote and defend the interests of shipowners. It also has a membership of shipbrokers and has been responsible for contributing to the creation of a large number of Charter-Parties and other shipping documents. BIMCO (svjetska udruga za zaštitu interesa brodovlasnika i brodara)
bimetallic thermometer /ˌbaimiˈtɛlɪk θɛˈmɒmɪtə/ (n) (marine eng) bimetalni termometar
bimini /ˈbimini/ (n) (boating/yachting) tenda nad kokpitom jedrilice; awning over cockpit; a sunshade
bimini, tenda iznad kokpita (njčešće sklopiva), suncobran (iznad kokpita) ~ top cerada biminija

http://www.tms-marmaris.com/services/other-services/sprayhood-bimini-tops/

binary storage unit (n) (electr, navig) jednobitna memorija
bind /'baind/ (v) (mar law) obvezati, vezati
bind pilotage (n) (navig) obalna navigacija direktno sa radarskog

pokazivača: Blind pilotage or parallel indexing involves navigating a vessel along a pre-planned track in waters so confined that conventional methods of navigating (transferring visual bearings and radar ranges to the chart) is impractical because it cannot not be done quickly enough.

binnacle /'binakl/ (n) (navig) the stand, usually of brass or non-magnetic material in which the compass rests and which contains the compensating magnets; compass holder postolje magnetskog kompasa, okuće kompasa: The skipper borrowed a large magnet from the engine room, placed it close to the binnacle and managed to turn the card 180°, but thereafter the...
compass’s reliability was found to be somewhat suspect. 
http://www.skinnerinc.com/auctions/2314/lots/618

**binoculars** /bɪˈnɒkjʊləz; bɛɪˈnɔkjʊləz/ (n) (navig) dvogled, dalekozor, kanočal: Through **binoculars**, the OOW was able to see the vessel’s port side light and its deck lights. While transiting the inshore route, he used **binoculars** to search the sea area ahead for the vessel they were to meet. Post lookout with **binoculars**.

**biodiversity** /bəˈrəʊdərəˈsɛstɪ/ (n) (environ) biološka raznolikost: Ballast Water Treaty is aimed at protecting marine **biodiversity**.

**biofouling** (=hull biofouling) (n) (environ) During a ship’s lifetime microorganisms, plants, algae, or animals will gather in its hull, during a process called biofouling. (SAFETY4SEA <news@safety4sea.com>); the undesirable accumulation of various aquatic organisms on ship’s hulls.

**bioiloški obraštaj, bioobraštaj, obraštaj**: These organisms, known as invasive aquatic species, can negatively affect a ship’s operation, while they also present a threat to the marine environment. Some studies have suggested that hull biofouling is a far more important vector for the transfer of invasive species than ballast water. Some studies have suggested that hull **biofouling** is a far more important vector for the transfer of invasive species than ballast water. Some studies have suggested that hull **biofouling** is a far more important vector for the transfer of invasive species than ballast water.

**biofuel** /ˈbæɪəˌfjuːl/ (n) (marine eng) biološko gorivo, gorivo biološkog podrijetla: Mediterranean Shipping Company is starting to use **biofuel** for ships calling at Rotterdam. https://gcaptain.com/

**bipod mast** /bʌɪˈpɒd/ (n) (nav arch) dvonožni jarbol, bipod

**bird’s nest** (n) (boating/yachting) COMPARE crow’s nest a small lookout position, usually round, placed at the masthead (smaller than the crow’s nest) koš za motritelja na jarbolu

**bireme** /ˈbɪərɪm/ (n) (boating/yachting, nav arch) an ancient Greek or Roman war galley propelled by two tiers of oars on each side **dvovesla**, **birema**

**Biscay low** /ˈbɪskəɪ/ (n) (meteorol) biskajska ciklona

**bite** /bait/ (v) (fishing) When a fish strikes or takes your bait / lure also known as a hit and strike. zagristi (ješku, mamca)

**bite** (n) (boating/yachting) A rudder “bites” when water begins to flow past it, creating resistance and positive feel at the helm of a vessel. http://www.aps ltd.com/aps-advisor/sailing-terms-glossary/

**kormilo drži** (pruža otpor), kormilo odgovara

**bitt; bitts** | (seamanship) a pair of vertical wooden or iron heads on board ship, used for securing mooring or towing lines **bitva, bita, kljuna** (zastarj.), **mankul, kaštanjoli**
**bitter** (zastarj.) A sternline was led from a roller fairlead, through a set of bitts, around a pedestal fairlead and on to a warping drum. The head line and breast line began to run out around the bitts, and the starboard anchor was let go. They were backed up with only a couple of turns around a single bitt. After securing the first spring on the twin bitt, the second spring line was wound around the winch drum and hauled in taut. **secured on the bitts vezan na bitvu, pričvrščen na bitvu:** Lines should be stoppered off and **secured on the bitts,** run around the bitts prebaciti oko bitve, **obaviti oko bitve:** The head line and breast line began to run out around the bitts, and the starboard anchor was let go. **make fast on the bitts vezati na bitvu:** The tug was made fast to bitts at the aft end of the main deck, by the break of the accommodation superstructure. **post of the bitts stupić bitve:** Synthetic fibre ropes should be made fast using two round turns around the leading post of the bitts before finishing it off with at least three ‘figure of eight’ turns. **turn up on the bitts prebaciti preko bitve, prebaciti oko bitve:** the rope was turned up on the bitts.

https://www.schoellhorn-albrecht.com/mooring-double-bitts.html; 2 (boating/yachting) **kaštanjoli, bita, bite;** Italian:**bitta**

**bitter** (n) **namotaj užeta na bitvi, volta:** The luffing wire rope had unwound and the bitter end slipped out of the luffing wire rope drum. **bitter end** 1 (seamanship) the inboard end of a cable when made fast to the bitts **kraj sidrenog lanca (u spremištu sidra); 2** (seamanship) the end section of a rope **kraj**
bitumen carrier /ˈbɪtjʊmɪn/ (n) (nav arch) tanker za bitumen

bitumen tanker (n) (nav arch) tanker za bitumen

B/L (=bill of lading) (n) (mar law) Document issued by a shipowner to a shipper of goods. It serves as a receipt for the goods, evidence of the contract of carriage and document of title. As a receipt it contains the description and quantity of the goods as well as suitable notations if the goods are not in apparent good condition when received by the ship. As evidence of the contract of carriage, the Bill of Lading contains the terms and conditions of the contract or, where the contract is represented by a Charter-Party, a reference to the Charter-Party. As a document of title, the "to order" Bill of Lading is used by a third party to take delivery of the goods from a ship.

http://www.tkmglobal.net/chartering_B.HTM

teretnica, konosman; fr. connossement

black box (n) (safety) crna kutija: The rescue workers also retrieved the ship's black box but had to leave quickly because of the toxic smoke and high temperatures

black fish (n) sipa

blacklist (n) (mar law) List of countries published by a particular government which will not allow ships to trade at its ports if they have traded at ports in the countries on that list. crna lista (zemalja)

blackout /ˈblækəut/ nestanak struje, raspad elektrosistema: A brief blackout occurred when the shaft generator stopped for several seconds and the emergency generator started, but the main engine continued to run. The water had entered the fuel oil system, causing the fuel pumps to seize, and this led to the blackout. The engine room staff undertook the blackout procedure. cause a ~

izazvati / prouzročiti nestanak električne struje: The rapid escape of gas caused the cylinder to “fly” into the control room, where it hit the switchboard and tripped a breaker, causing a blackout. complete ~ uslijed takvoga stanja brod se proglašava nesposobnim za plovdbu potpun nestanak struje, suffer a ~ pretrpjeti nestanak struje: The vessel suffered a blackout and started taking on water. (https://safety4sea.com/)

black scorpionfish (n) (fishing) Lat. Scorpaena porcus škrpun, četinjak, jokavec,

bodeč

black sea bream (n) (fishing) Lat. Spondylosoma cantharus kantar, kantor, sivac, grobar, manjamorti
blackspot sea bream (n) (fishing) COMPARE red sea bream lat. Pagellus bogaraveo rumenac okan
black tail seabream (n) (fishing) Lat. Oblada Melanura ušata, oćada, češalj, mrkulja, hlamina

Blackwall hitch (n) (seamanship) uzao za kuku
blackwash  /ˈblæk, wɑːʃ/ (navig) brazda, šija
blackwater  /ˈblækˌwɔːtər/ (environ) COMPARE greywater Blackwater is mostly sewage from toilets and generally includes the most harmful bacteria. (https://safety4sea.com) otpadne vode (iz kanalizacije), fekalne vode: On board a passenger ship, a crossover line between the port and starboard ballast/treated black water/grey water tanks passed through an adjacent cofferdam.
black water tank  (n) (boating/yachting) Waste water carrying urine and feces from toilet facilities.
crni tank, tank za fekalije
blade  (n) 1 (marine eng) lopatica (rotora itd.), krilo moving~ rotorska lopatica, stationary ~ statorska lopatica, turbine ~ turbinska lopatica, two~d propeller dvokraki propeller, three~d propeller trikraki propeler; 2 (seamanship) tanji ravni dio vesla; 3 (nav arch) krilo propelera, lopatica propelera
blading1 /ˈbleɪdɪŋ/ (n) (mar law) teretnica
blading2 /ˈbleɪdɪŋ/ (n) (marine eng) lopatičje turbine ~ turbinsko lopatičje, turbinske lopatice
blame1 /ˈblɛm/ (n) (mar law) krivnja, krivica to put the~ on okriviti (nekoga), no ~ culture politika kojom se ne traži krivnja pojedinaca, apportion the blame odrediti udio u krivnji, pripisati krivnju: The role of the MAIB is purely to discover the facts, not to apportion blame or culpability.
blame2 /ˈblɛm/ (v) okriviti, kriviti za nešto: Before finding out who to blame, there is something more important that the consignee or cargo owner should do first. 1. engage a surveyor to ascertain and collate evidence of the loss or damage;
blank  /ˈblæŋk/ 1 praznina, prazno mjesto ~ chart (navig) slijepa karta; 2 (marine eng) slijepa prirubnica: Consequently, there was no verification that the blank had been put in place before the duty officer attempted to release the pressure in the cargo line.
**blast** /ˈblaːst/ (n) (navig) the signal of a ship’s whistle

**sirenom, zvižduk, zvučni signal:** On hearing the continuous blast, he altered course to starboard. Their passage was noted by the their foghorn; three blasts in succession every two minutes—one prolonged and two short. https://gcaptain prolonged ~ dugi zvuk / signal: Sound alarm, including three prolonged blasts on ship’s whistle., short / long ~ kratak / dugi znak, sound

1. **blank** (v) (marine eng) zatvoriti (prirubnicom), zatvoriti otvor: Two ABs, who were keeping watch on the main deck, considered it to be unsafe to blank the manifold while working under the cargo hose, and deferred doing so. It was also found that the fuel compensation damping tank was empty and that the drain valves of the diesel oil service tanks were blanked. https://gCaptain.com

2. **blanket** /ˈbleɪŋkɪt/ 1 (v) (marine eng) prekriti ~ the line obložiti cijev (na mjestu gdje propušta); 2 (marine eng) spriječiti pristup (zraka); 3 (boating/yachting) to block the wind by sailing on the weather side of another sailboat preuzeti vjetar (drugoj jedrilici tako da joj se stane u privjetrinu)

3. **blank flange** (n) (cargo handling, marine eng) slijepa prirubnica

4. **blanking of service** (n) (shipping econ, logist) privremeno obustavljanje

5. **linijske službe (za neke luke ili regiju):** Due to seasonal market demand reductions, Maersk has endeavoured to balance our network to match reduced demand. There will be a blanking of the AE2 service in week 9. This is an additional blank sailing on top of the already communicated Chinese New Year blank sailings.

6. **blank sailing** (n) (shipping econ, logist) Blank sailing occurs when, due to various reasons, a liner service operator might decide to cancel the call of a vessel at a certain port or certain region, or the entire leg. When that happens, that particular port/region/entire route will have a “blank sailing” which simply means that for that week or fortnight or month (depending on the frequency of the liner service) that area will not have a vessel to discharge or load cargo

(https://shippingandfreightresource.com/blank-sailing/) privremena obustava brodskih

7. **linijskih polazaka iz luke / luka, priremena obustava ticanja linijskih luka:** When there are blank sailings, the line usually announces it on their sailing schedule so the customers can plan their shipments accordingly. https://shippingandfreightresource.com(blank-sailing/)

Due to the anticipated slowdown in demand during and after the 2018 Golden Week holiday, MSC Mediterranean Shipping Company plans to exclude sailings (blank sailings) on its Asia-Europe & Asia-Mediterranean networks during this period, followed by a temporary structural adjustment to its Asia-Europe network. https://www.ocean-insights.com/liner-news/2018-golden-week-blank-sailing/ Due to seasonal market demand reductions, Maersk has endeavoured to balance our network to match reduced demand. There will be a blanking of the AE2 service in week 9. This is an additional blank sailing on top of the already communicated Chinese New Year blank sailings. We aim to minimize the impact to our customers by securing alternative routings wherever possible.

8. **blast** /blaːst/ (n) 1 (navig) the signal of a ship’s whistle zvučni znak, znak brodskom sirenom, zvižduk, zvučni signal: On hearing the continuous blast, he altered course to starboard. Their passage was noted by the their foghorn; three blasts in succession every two minutes—one prolonged and two short. https://gcaptain prolonged ~ dugi zvuk / signal: Sound alarm, including three prolonged blasts on ship’s whistle., short / long ~ kratak / dugi znak, sound a ~ dati znak brodskom sirenom: our ship sounded 5 short blasts on her whistle The OOW
remained concerned by the movement of the east-bound vessel, which was now within 2nm, so he *sounded* one blast lasting approximately 3 seconds on the ship’s forward whistle. ; 2 *(marine eng)* mlaz ~ of compressed air mlaz komprimiranog zraka; 3 *(meteorol)* udar vjetra; 4 *(seamanship)* zvuk trublje

**blast furnace** *(n)* visoka peć
**blast of air** *(n)* jaki mlaz zraka

**blaze** /ˈbleɪz/ *(n)* veliki požar: The blaze was extinguished at around 5:30 p.m.
**bled steam** *(n)* ispuštena para, ispušna para, para oduzeta iz (niskotlačne) turbine: On completion of the work the rams were replaced, the oil reservoir and header tank were replenished, air was bled from the hydraulic system and the steering arrangements were proven.

**bleed** /ˈbliːd/ *(v)* *(marine eng)* odzračivati, oduzimati paru (iz niskotlačne turbine), ispuštati (paru, vodu, …): Replace fuel filters and bleed air from the fuel system ~ the pump of air odzračiti pumpu, ~ air: Replace fuel filters and bleed air from the fuel system On completion of the work air was bled from the hydraulic system and the steering arrangements were proven. odzračiti, ispuštiti zrak

**bled** /ˈbliːd/ *(v)* *(med)* krvariti: With the aid of a torch, they were able to see the AB lying 5m below; he was unconscious and was bleeding from a head wound. After stabilising the situation a “Mayday” was put out on VHF channel 16, and first-aid was administered to the casualty, who was unconscious and bleeding profusely. He was bleeding profusely from his right leg..

**bleeders** *(n)* *(nav arch)* A term applied to plugs screwed into the bottom of a ship to provide for drainage of the compartments when the vessel is in dry dock.

https://officerofthewatch.com/tools/maritime-dictionary/*ispusni čepovi (na dnu broda, pri dokovanju)

**bleeding** /ˈblɪdiŋ/ *(n)* *(boating/yachting, marine eng)* odzračivanje ~ the fuel system odzračivanje sustava goriva

**bleeding** /ˈblɪdiŋ/ *(n)* *(med)* krvarenje severe ~ jako krvarenje, internal ~ unutarnje krvarenje, external ~ vanjsko krvarenje

**bleed screw** *(n)* *(marine eng)* vijak za odzračivanje

**blend** /ˈblɛnd/ *(n)* *(marine eng)* a mixture of fuel or oil; type of fuel or oil produced by blending mješavina goriva ili ulja, kvalitet goriva, *blenda goriva* cargo ~ mješavina tekućeg tereta: Precautions before loading argo blends containing DRI (C) can be identified by their chemical composition, details of which must be requested.

**blend** *(v)* If you blend substances together or if they blend, you mix them together so that they become one substance. *miješati, blendirati*

**blended fuel** *(n)* heavy fuel and distillate fuel mixed in various proportions, usually 70:30 mješano gorivo, *blendirano gorivo*: Many genset engine builders can now offer designs capable of burning the diesel oil or blended fuel either bunkerred as an intermediate fuel or blended onboard.

**blending with** *(adj)* *(navig)* Blending is the mixing of two fuels, usually a heavy fuel and marine diesel oil. The intention is to produce an intermediate-viscosisty fuel suitable for use in auxiliary diesels (http://www.machineryspaces.com/fuel-oil-blenders.html) koji se stapa s (npr. pomorsko svjetlo s pozadinom)
blind /ˈblaind/ (v) (navig) zaslijepiti: The bridge team’s vision was blinded by the bright city lights to the south, which were virtually doubled in intensity by the reflection from the calm water. be ~ed by the light biti zaslijepljen svjetlom: The bridge team on the product tanker was blinded by the bright deck lights of the anchored vessels, ~ the vision zaslijepiti vidljivost, zakriliti vidljivost

blind /ˈblaind/ (n) (cargo handling, nav arch) čep, slijepa prirubnica
blind pilotage (n) (navig) COMPARE parallel indexing Blind pilotage or parallel indexing involves navigating a vessel along a pre-planned track in waters so confined that conventional methods of navigating (transferring visual bearings and radar ranges to the chart) is impractical because it cannot not be done quickly enough. ucrtavanje dužine paralelene s pramčanicom, obalna navigacija izravno putem radarskog pokazivača: In blind piloting the radar comes into its own, with some pre-planning, its graphic presentation, showing the vessels position in the context of its immediate surroundings can be interpreted by the navigator instantly and the vessel conned directly from the radar display in daylight or darkness. As the visibility was about one cable, the bridge organisation was configured to conduct blind pilotage.

blind sector (navig) nevidljivo područje, slijepo područje (radara), mrtvi kut: Funnels, stacks, masts or derricks in the path of the antenna may hide Radar targets which are behind them. However, the lowered position seriously increased the forward visual blind sector to a point beyond that allowed by regulations.

blinker /ˈblɪŋkər/ (n) (fishing) Generalni naziv za metalnu varalicu koja svojim bljeskanjem privlači predatore. (https://ribolovnajadranu.hr/ribicki-leksikon/) blinker
blip (n) = pip A spot of light on a radar or sonar screen indicating the position of a detected object, such as a ship, an aircraft or a submarine. odraz na radarskom ekranu, svijetli trag (objekta na radarskom zaslonu), repić (objekta na radarskom zaslonu): The mate, who was on watch, saw a blip on the radar and realised that it was a small yacht that he could see about ....
blister (n) (marine eng) blister
block /ˈblɒk/ 1 (seamanship, cargo handling) a hoisting device in which a rope or chain is passed around a pair of blocks containing one or more pulleys.; One or more wheels with grooves in them (pulleys) designed to carry a line and change the direction of its travel. https://www.ypiyachts.com/
kolotur, koloturje, kolut, bucels, bocel, Italian: bozzello: The main trawl wire parted and the trawl block and bridle chains fell onto the crewman below. to move the turbocharger from its engine room stowage, through the engine room stores access hatch, and onto the vehicle deck above using a chain block attached to the deckhead of the vehicle deck. cargo ~ kolotur podigača tereta, cargo purchase ~ kolotur podigača tereta (na samarići ili brodskoj dizalici), double block dvostruki kolotur, single ~ jednostruki kolotur, snatch ~ rasklopivi kolotur, otvoreni kolotur: The skipper was guiding the line over a snatch block hanging from gallows extending beyond the side of the vessel., upper ~ gornji kolot koloturnika, lower ~ donji kolot koloturnika, cat ~ kolot s kukom, four-sheave ~ četverostruki kolotur, kolotur s četiri užnice, cargo purchase ~ kolotura podizača tereta (na samarići ili brodskoj dizalici), four-sheave ~ kolotur s četiri užnice, snatch ~ pomični kolotur, chain ~ lančani kolotur, kolotur za lanac: The chain block was used at an angle to lift engine components, and the trolley was then used to move them away from the engine.

https://www.globalsecurity.org/military/library/policy/army/fm/55-17/ch6.htm; 2 (boating/yachting) kolotur,

bucel
http://www.downwindmarine.com/Lewmar-Control-Blocks-60mm-p-91002175.html

block /blɔk/ (v) (marine eng) začepiti, blokirati: sea water cooling system was blocked The moving parts of main engine were blocked and stuck.

block (n) (nav arch) a section of ship structure which is a three dimensional entity brodska sekcija, sekcija konstrukcije broda (u odvojenoj gradnji), brodski modul: Blocks are built in the sub-assembly area and are combined to form a ship.

block (n) (nav arch) klada (ispod kobilice, dna ili kaljuža broda): The dock is fitted with stationary keel blocks and movable bilge blocks, which usually are fitted on rack tracks, allowing them to be pulled under a vessel before the water is pumped out. (https://www.history.navy.mil/)

~ erection postavljanje klada

block and tackle (=purchase) (n) (seamanship, marine eng) (Block and Falls). The complete unit of two or more blocks rove up with an adequate amount of rope.

https://officerofthewatch.com/tools/maritime-dictionary/ koloturnik, čekrk, parank,
Blockchain is a network of users that collectively create a shared system of transparent transaction records or ledgers among the network users.

There are many benefits that Blockchain can bring to the marketplace such as reducing paperwork delay, eliminating fraud, reducing errors, improving issue identification, improving inventory management and, increasing partner confidence in the process and their confidence in you. As all the members in a blockchain, each share the same view of the data and all the transactions, mistakes, fraud, manipulation, deceit and deception are greatly reduced.

Whether in its use by Banks and Shippers to create Trade Finance documents; or creating and transmitting smart bills of lading; or setting up a blockchain-based marketplace app for trading in coffee; or making documentation easy for ports; or ensuring prompt delivery of mandarins for the Chinese New Year; Blockchain is making its presence felt quite rapidly in our industry.

How blockchain works?

1. The flower grower readies the product for international shipment. 2. Shipment information is added to the blockchain. 3. As the container awaits transfer to port, officials submit approvals electronically. Blockchain confirms the transaction and executes a smart contract, releasing the shipment. 4. The container is loaded onto the ship. 5. All parties have end-to-end visibility of the container’s progress through the supply chain. 6. The container arrives at the destination port and clears customs. 7. Retailer receives the flowers on time and signs electronically. Information is relayed back to the blockchain. With blockchain, delays will be reduced, resulting in significant cost savings for all parties.
With blockchain, delays will be reduced, resulting in significant cost savings for all parties. Global trade digitization solution will benefit the industry using blockchain to manage transactions among network of shippers, freight forwarders, ocean carriers, ports and customs authorities. Blockchain—a shared, distributed ledger—can trace the container’s path through the supply chain with exceptional transparency and security. Blockchain confirms the transaction and executes a smart contract, releasing the shipment.

Tech firm CargoX today launches its much trailed shipping blockchain platform. The system stores documents and data securely encrypted on a public globally accessible blockchain network and is available to lines, shippers, logistics companies and NVOCCs alike. Splash24/7 <splash@asiashippingmedia.com> GSBN will be a blockchain-enabled platform that will help digitise the industry, set standards and transform documentation flows. ... https://gcaptain.com, ~ platform digitalizirana platforma umreženog lanca sudionika u pomorskom pothvatu, digitalizirana platforma blockchain: Tech firm CargoX today launches its much trailed shipping blockchain platform. The system stores documents and data securely encrypted on a public globally accessible blockchain network and is available to lines, shippers, logistics companies and NVOCCs alike. Splash24/7 <splash@asiashippingmedia.com> GSBN will be a blockchain-enabled platform that will help digitise the industry, set standards and transform documentation flows. ... https://gcaptain.com/industry-questions-new-box-ship-blockchain-network/ Shipping lines from each of the alliances have formed an association in a bid to develop “digitalisation, standardisation and interoperability”. The move follows last week’s announcement of a joint blockchain platform comprising the Ocean Alliance and Yang Ming from THE Alliance e- Captain www.gCaptain.com

the CargoX Platform for Blockchain Document Transfer (BDT) was successfully tested by Portall Infosystems and India’s global shipping stakeholders to transfer electronic bills of lading. https://safety4sea.com
blockchain technology (n) (logist, shipping econ) tehnologija računalno umreženih korisnika transporta, blockchain-tehnologija: Last year the Municipality of Rotterdam and the Port of Rotterdam Authority jointly started BlockLab: a field lab for Blockchain. Blockchain technology offers considerable potential to change the way we manage supply chains. Its main contributions will be increased compliance and transparency, better tracking of orders and assets, and find more effective ways of resolving trust issues. http://www.marinestrategy.com/key-interviews/ben-van-scherpenzeel-talks-container-throughput-port-planning-infrastructure-blockchain-brexit-and-more Service and solution providers who do not open their data models, processes, and data transaction technology to other participants in the market, might do more damage than good for the whole industry, and blockchain technology specifically. https://gcaptain.com/industry-questions-new-box-ship-blockchain-network IBM (NYSE: IBM) and Maersk announced today a new collaboration to use blockchain technology to help transform the global, cross-border supply chain. https://www-03.ibm.com/press/us/en/pressrelease/51712.wss

block-diagram /ˈblɒk-ˈdaɪ ˈɡreɪm/ (n) (marine eng, navig) blok-shema, blok-dijagram

block (adj) (marine eng) blokiran, zaglavljen, začepljen: The moving parts of main engine are blocked or stuck.

block pallet (=four-way pallet) (n) (logist) The customary dimensions of a block pallet are 100 x 120 cm. paleta standardnih dimenzija (100 x 120 cm): A block pallet is sometimes also referred to as a four-way pallet, as a forklift truck can lift it on any of the four sides. https://www.logisticsglossary.com/term/block-pallet/

blocks (nav arch) (nav arch) blocks made of wood or concrete set under the ship's bottom for support during construction or dry-docking klade bilge ~ klade ispod kaljužnih tankova, keel ~ klade ispod kobilice

block train (n) (shipping econ) a number of railway wagons (loaded with containers), departing from a certain place and running straight to a place of destination, without marshalling, transshipping or any coupling or de-coupling of wagons direktni kontejnerski vlak, kontejnerska željeznička kompozicija, blok-vlak, blok-vagoni

blow /ˈbləʊ/ 1 (v) (marine eng) puhati, propuhavati, upuhavati: ... in normal circumstances it is good practice to use ventilation fans to blow fresh air into the compartment for 24 hours and use analysing equipment to check that the atmosphere is safe to breathe before entering. ~ clear of otrgnuti, iščupati, ~ off ispuhati, ispuhnuti, ispustiti, otrgnuti, otkinuti, ~ off valve ispušni ventil za paru, ventil za ispuhavanje, ~ out ispuhati, blow overboard otkinuti s broda, iščupati s broda: Dozens of containers were blown overboard in the blast.; 2 (electr) pregorjeti: As he operated the controls for the solenoid to withdraw the securing pins, the fuse blew, leaving the pins engaged.; 3 (navig) zanositi vjetrom, pomjerati silom vjetra: As the lines were let go, the wind increased and began to blow the vessel’s bow to the south.

blow² (n) (navig, safety) udarac, udar heavy ~ jaki udarac, jak udar: It was noted that the crack was caused by a heavy blow, possibly from a tug during berthing.

blow down (v) (marine eng) propuhavati: Boilers are to be blown down at least once per week dependent upon the frequency required to control the level of dissolved solids contained in the boiler water.

blower /ˈbleʊə/ (n) (marine eng) A low pressure air pump, usually of either rotary or centrifugal type. puhalo, egzaustor, centrifugalni ventilator: It was a very basic boiler: an electrically driven blower supplied air through a flexible, plastic corrugated
hose, and a small pump delivered the diesel fuel. auxiliary ~ pomočno puhalo, ~ motor motor puhala, air ~ puhalo zraka: Once the water had boiled, the skipper thought that he had switched off the fuel pump, leaving the air blower running to allow any unburned fuel to burn off, and to purge the boiler furnace. scavenging ~ puhalo za ispiranje (propuhivanje)

blow off (v) otpuhati ~ the berth otpuhati s veza: The vessel was blown off her berth when subjected to sudden, unexpected squalls. Brod je bo otpuhan s veza kad je bio izložen iznenadnom neočekivanim oljnim vjetrom

blow the gaff (idiom) izbrbljati, odati tajnu
Blis (=bales) (n) (cargo handling) bale

bluefish (n) (fishing) Lat. Pomatomus saltator/saltatrix strijelka, pilitica, zubatica,

bluewater navy (n) (navy) a maritime force capable of operating globally, essentially across the deep waters of open oceans.
blue whiting /ˈbluː,weɪtɪŋ/ (n) (fishing) molet, ugotica
bluish cast (n) (marine eng) plavkasta nijansa
BM (=Transverse Metacentric Radius) the distance between the center of buoyancy and the metacenter poprečni metacentarski radijus: BM is defined as the moment of inertia around the longitudinal axis of the waterplane at which the ship is floating divided by the displacement volume.
BML (=Longitudinal Metacentric Radius) (n) (stabil) the distance between the centre of buoyancy and the longitudinal metacentre uzdužni metacentarski radijus: BML is defined as the moment of inertia of the waterline waterplane about a transverse axis divided by the volume of displacement. calculation of BML proračun uzdužnog metacentarskog radijusa
BN (=base number) (n) (marine eng) High-BN cylinder lube oil should be used to protect the engine from cold corrosion. bazični broj (ulja za podmazivanje cilindra), indeks bazičnosti (ulja za podmazivanje cilindra), BN: Till now, CLO of high TBN, generally 80 BN, is being used for the HSHFO. www.safety4sea.com Cylinder lubricants with a base number (BN) between 70 and 140 are ideal for use with high sulphur fuels, https://www.chevronmarineproducts.com
BNWAS (=Bridge Navigational Watch Alarm System) (n) (navig) alarmni sustav plovidbene straže na mostu: The BNWAS was set to alert at 3-minute intervals. The electronic chart display and information system (ECDIS), radar and the bridge navigational watch alarm system (BNWAS) were functioning correctly He routinely reset the BNWAS.
board /boːd/ (v) 1 ANTONYM disembark ANTONYM land: ukrcati se (pilot): Prior to departure from a berth, the pilot boarded the tanker and advised the master that, after clearing the berth, he would leave the tanker and transfer to another (inbound) ship instead of conni The a pilot had boarded the vessel and joined the vessel’s master, chief officer and chief engineer on the bridge. After boarding a 2000gt dry cargo ship, a harbour pilot discussed with the vessel’s master his plan for the vessel’s first entry to the port. 2 doći na brod, Italian:imbarcarsi: The port stevedores boarded the vessel and commenced loading at 14451. Shortly after the release of the CO2, the shore fire brigade boarded the vessel, having been alerted by the master through the port authority. P&I club representatives, surveyors and superintendents boarded the vessel in the morning. the pilot boarded the ship at 16:30 peljar je došao na brod u 16.30; 3 popeti se na brod / barku / brodicu / splav: Five of them successfully boarded the liferaft; tragically one man was lost. The nine passengers boarded the rescue boat, each having been fitted with manually inflating lifejackets with a crotch strap.; 4 ukrcati se na brod (kao zaposlenik, časnik, mornar itd.); 5 ukrcati se na brod (kao putnik): The vessel berthed, and the passengers boarded.
board /boːd/ (n) ~ foot jedinica mjere za prijevoz / pošiljku drvene građe (cargo) daska (tanja, do 30 mm debljine)
board (n) (seamanship) the side of a ship strana broda go by the ~ letati, okrenuti brod s jedne strane vjetra na drugu
boarding /ˈboʊdɪŋ/ (n) 1 (seamanship) dolazak na brod (članova posade, putnika, servisera itd.), ukrcaj na brod (osoba), Italian:abbordaggio ~ of the vessel dolazak na brod; 2 (navig, mar law) ukrcaj peljara: The pilot boarding of vessels
boarding accident

inwards takes place normally between the Breaksea Light and Barry Roads between 6 to 4 hours before High Water at Sharpness by the Bristol Pilot Cutter. pilot area područje ukrcanja

peljara: Poor planning considerations caused the delay in weighing anchor, which in turn required a high speed approach to the pilot boarding area.

boarding accident (n) (navig, safety) nezgoda pri ukrcaju (peljara) na brod, nesterća pri ukrcaju (peljara) na brod: the pilot was injured in the boarding accident at the port

boarding arrangements (n) (navig) oprema za ukrcaj peljara (ljestve, siz, podigač itd.): Details of the vessel’s next port of call, pilot boarding arrangements and the number of tugs to be used for departure were exchanged. Ensure that the designated pilot boarding areas on the ship are marked and that pilot boarding operations are overseen by a responsible officer

www.gov.uk/maib ~ poster poster s uputama za ukrcaj peljara: The IMPA ‘Required Boarding Arrangements for Pilot’ poster provided a clear and easy to understand reminder of the correct procedures to be followed for safe pilot transfer, and was widely used on vessels as a guide for crews.

www.gov.uk/maib, designated ~ upute za ukrcaj peljara, propisane upute za ukrcaj peljara

boarding ladder (n) 1 (nav arch) peljarske ljestve, boškaina: The chief mate called the duty seaman and ordered him to rig the pilot boarding ladder.; 2 A ladder used to board the vessel. Boarding ladders may be designed to be useful from either the water or a dock and are usually stowed when not in use. https://www.ypiyachts.com/ brodski siz, brodska skala

boarding officer (n) (mar law) službena osoba za pregled broda u luci, vlasti

boarding party (n) (mar law) predstavnicu lučki vlasti koji dolaze na brod radi pregleda dokumenata i izdavanje dozvole za uplovljenje, vlasti (agent, carinici, pomorsko-pogranična policija, zdravstvene vlasti)

boarding place mjesto ukrcaja pilot boarding and landing places mjesta

ukrcaja i iskrcaja peljara

boarding point mjesto ukrcaja peljara: The pilot boarding point for inbound ultra-large container vessels is 4nm south of the Nab Tower. ... www.gov.uk/maib

boarding position (n) (navig) pozicija za ukrcaj peljara: The port control instructed her master that the vessel was to arrive at the pilot boarding position at 0400, and he was then to await further instructions.

boarding speed (n) (navig) The speed of a vessel adjusted to that of a pilot boat at which the pilot can safely embark/disembark

brzina broda pri ukrcaju peljara

boarding station (n) 1 (navig) peljarska postaja, pilotska stanica: Before disembarking, the pilot pointed out an inbound ship to starboard, making for the pilot boarding station.; 2 (nav arch) ukrcajno mjesto (za putnike na brodu): Passengers will board the vessel at one of three boarding stations on each side of the main deck: aft, midship and foredeck.

https://gCaptain.com

board of directors (n) uprava, upravni odbor (dioničkog društva): Last month the SCPA Board of Directors approved the purchase of two additional cranes of this size for delivery at the end of 2017, coinciding with the completion of the wharf project. Mr. .... was appointed to the board of directors, expanding the board from three to four independent directors. member of the ~ član
board the ship (v) (seamanship) to go aboard a vessel (train, aircraft, or other vehicle) ukrcati se na brod, popeti se na brod, doći na brod: The pilot boarded the ship at 15:35 hrs. P&I club representatives, surveyors and superintendents boarded the ship in the morning.

boat /bəʊt/ (n) (nav arch) 1 A boat is any vessel or conveyance that floats on or operates on the water and is under 197 feet (60 meters) length overall (LOA). A boat may be used for pleasure, commercial, or residential purposes. Boat is synonymous with small craft in marine use. brodica, barka, čamac, lada (riječni brod / brodica), ladva. Italian: barca; imbarcazione; natante, battello: In the morning, the skipper and his crew tried to locate the boat, but were unable to do so. ... he waited a few minutes until the skipper of a nearby boat came alongside to assist. “That’s a boat?” No, that’s a yacht,” he said. “They’re bigger and nicer than any boat.” Excerpt From Ace Atkins: Robert B. Parker's Kickback fishing ~ ribarica, ribarska brodica: Two crewmen of a fishing boat were on the deck and had just started to shoot a line of pots. life~ brodica za spašavanje, čamac za spašavanje, rowing ~ veslački čamac; 2 (nav arch) a vessel of any size, especially a large one (OED); used in this sense mainly in US brod; 3 strictly speaking a boat is a small open craft with no decking, usually propelled by oars or an outboard engine, sometimes with a lugsail on a short mast (Mayne 2000) brodica, barka, čamac, lađica, lada

boat balance ravanje jedrilice, balansiranje jedrilice

boat bilge pump kaljužna pumpa na brodicama / jedrilicama: there are several factors to consider when dealing with boat bilge pumps (capacity, wire size, hose diameter, fuse size) before you begin, and there are some good rules of thumb to follow. https://www.practical-sailor.com

boat boom (n) (boating/yachting) A spar rigged out from the side of an anchored or moored ship to which boats are tided when not in use (http://www.quarterdeck.org/index.html) privezni stup za brodice

boat care (n) (boating/yachting) održavanje brodice, održavanje jedrilice

boat chock (n) (nav arch) sedlo brodice za spašavanje

boat davit (n) (nav arch) soha za brodicu za spašavanje: A pin was passed through these holes to secure the life boat davit. Ensure that all devices fitted to boat davit systems to prevent overload are tested on each occasion before a boat is hoisted and that such devices are not relied upon during operation.

boat deck (n) (nav arch) a deck on which lifeboats are kept paluba za brodice, paluba za čamce: ... the passengers were kept well informed and were mustered on the Boat deck.

boat drill (n) (safety) vježba spuštanja brodica za spašavanje: The crew of the ro-ro cargo ship were undertaking a combined fire and boat drill, while alongside a UK port. Boat drills were carried out regularly, often every week.

boat equipment (n) (boating/yachting) oprema brodice jedrilice / barke, armiž
**boater** *n* (boating/yachting) = yachtsman nautičar: Mariners, recreational boaters and persons are advised to exercise extreme caution in areas in the vicinity around the safety zone due to the dangers associated with a grounded vessel.

**boat falls** *n* (nav arch) A purchase (block and tackle) for hoisting a boat to its davits. https://officerofthewatch.com/tools/maritime-dictionary/ koloturnici na sohama (za dizanje i spuštanje brodica/čamaca): During operation when stowing the boat, it is important to equalise the length of the fore and aft boat falls. After setting the davit arm stopper (cradle stopper), raise the brake lever of the winch slowly and unwind the boat fall wire to allow the boat to lower slightly.

**boat fishing** *n* (fishing) COMPARE shore fishing ribolov s barke, ribolov s brodice

**boat generator** *n* (boating/yachting, electr) agregat za brodicu: This boat generator expands the very successful series of inverter generators with variable speed. It has a nominal output of 15 kW (18.7 kVA). http://www.nauticexpo.com

**boat grip** pričvršnica za brodicu, rica za brodicu

**boat gripe** *n* (meteorol) priveza za brodicu za spašavanje, kukasta priveza

**boat handling** *n* (boating/yachting) manevriranje brodicom

**boat harbour** *n* 1 (ports) lučica, portić; 2 (boating/yachting) marina

**boat hatch** *n* (boating/yachting) prozor otvora palube, bokaporta, bukaporta, tambuć, provena bokaporta

**boat hook** *n* (seamanship) A pole with a hook on one end, designed to grab anything that might be outside the vessel. (generally dock lines, moorings, etc.)

http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ čaklja, mezomariner: He then used a boat hook to retrieve the floating mooring line and brought that inboard and handed it to the mate to shackle the two eyes together.

**boat-hook; boathook** *n* (seamanship) čaklja, mezomariner

**boatie** /ˈbɔti/ (=boater; boat owner) *n* (boating/yachting, jargon) = boat owner a boating enthusiast (Austr. and New Zealand) vlasnik brodice, vlasnik barke, nautičar

**boat indicator** *n* (boating/yachting) instrument for measuring and showing depth, heading, water temperature, engine revolutions, rudder deflection, inclination, etc. pokazivač na brodici, mjerni instrument ~ speed (depth / heading / engine / rudder etc.) pokazivač (brzine / dubine / smjera / broja okretaja / otklona kormila /
boating /ˈbəʊtiŋ/ (adj) (boating/yachting) nautički general ~ information osnovne nautičke informacije

boating /ˈbəʊtiŋ/ (n) 1 (boating/yachting) the leisurely activity of travelling by boat, or the recreational use of a boat whether powerboats, sailboats, or man-powered vessels (such as rowing and paddle boats), focused on the travel itself, as well as sports activities, such as fishing or waterskiing (Wiki)

nautički turizam; 2 (boating/yachting) rekreacijska plovidba

boating fees (n) (boating/yachting) naknade za turističke brodice, naknada brodice za sigurnost plovidbe

boating licence (n) (boating/yachting) ovlaštenje za plovidbu brodicom (u nacionalnom moru)

boat insurance (n) (boating/yachting) osiguranje brodica: Our boat insurance was coming due and that the company would require an out-of-water survey this time around.

boat-keeper upravitelj brodice, barkajol

boat launching (n) (safety, seamanship) spuštanje brodice za spašavanje: ALL seafarers have experience, both positive and negative regarding incidents with boat launching and recovery. Svi pomorci imaju pozitivna i negativna iskustva vezana uz nezgode sa spuštanjem i podizanjem brodica za spašavanje.

boat maintenance and repair shop (=yacht maintenance and repair shop) (n) (boating/yachting) tehnički servis plovila

boatman /ˈbəʊtmən/ 1 (shipping econ) a commercial boat operator upravitelj brodice, barkajol; 2 (seamanship) person who attends to the mooring and unmooring of vessels privezivač

boatman /ˈbəʊtmən/ (n) 1 (inland waterways) brodarac; 2 (inland waterways, mar law) voditelj brodice (unutrašnje plovidbe): ‘operational level’ means the level of responsibility associated with serving as boatman, as able boatman or as helmsman and maintaining control over the performance of all tasks within his or her designated area of responsibility in accordance with proper procedures and under the direction of a person serving at management level.

https://eur-lex.europa.eu/resource.html?avigation time:(a)for the Union certificate of qualification for a boatman: 540 days of navigation time including at least 180 days were in inland navigation

https://eur-lex.europa.eu/resource.html? all boatmen and boatmasters are required to pass an administrative exam organised by a competent authority in order to have their qualifications recognised across the EU, even if they are already in possession of a diploma or certificate from an IWT education or training institute. https://eur-lex.europa.eu/resource.html? able ~ stariji voditelj brodice (unutrašnje plovidbe)
boatmaster (n) (*inland waterways*) a deck crew member qualified to sail a vessel on the Member States’ inland waterways and who has nautical responsibility for the vessel

 zapovjednik rječnoga plovila, zapovjednik plovila unutrašnje plovidbe: As there is no EU-wide sectoral legislation for the recognition of professional qualifications for workers below the level of boatmaster, the general Directive 2005/36/EC on the recognition of professional qualifications is applicable.
https://eur-lex.europa.eu/resource.html?local knowledge requirements may create unnecessary difficulties for boatmasters operating on certain river stretches https://eur-lex.europa.eu/resource.html? Il boatmen and boatmasters are required to pass an administrative exam organised by a competent authority in order to have their qualifications recognised across the EU, even if they are already in possession of a diploma or certificate from an IWT education or training institute. https://eur-lex.europa.eu/resource.html?

boat note (n) (*mar law*) potvrda o primitku robe sa teglenice

boat operator (n) (*seamanship*) rukovatelj brodice: The brake remote control is a wire connected between the boat operator and the winch brake handle.

boat owner (=boatie) (n) (*mar law*) vlasnik brodice: Boat owners and hire companies should follow equipment manufacturers’ instructions and guidance when maintaining equipment.

boat show (n) (*boating/yachting*) sajam nautike

boat skipper (n) (*seamanship*) zapovjednik brodice: This created problems for the boat skipper in getting the boat near without getting underneath the gangway.

boat station (n) (*nav arch, safety*) položaj brodice za spašavanje, prostor brodica za spašavanje: I wonder what they would have written if they had been called out in the middle of the night to muster at boat stations.

boatswain /ˈbəʊsən/ (=bosun; bos’n; bo’s’n) (n) 1 (*seamanship*) ANTONYM donkeyman an unlicensed member of the crew who supervises the work of the deck men under direction of the first mate; an unlicensed member of the crew who supervises the work of the deck men under direction of the first mate. https://officerofthewatch.com/tools/maritime-dictionary/ voda palube, noštromo (od koverte / kuverte), Italian: noostromo; nocchiero: Directly reporting to First Mate, the boatswain acts as a foreman of the unlicensed deck crew. A senior Able Seaman is usually considered for this position. Reasonable English skill is desired for this position. ~ chair a piece of rectangular board on which a man can sit when working aloft; the board with holes at the sides is suspended by rope arrangement noštromov stolac, ~’s pipe noštromova zviždalja (za davanje zapovijedi posadi), ~’s locker A compartment or store usually located forward where lines, paints and other equipment used by the deck crew are stowed.

spremište vode palube, noštromovo spremište; 2 (*sailing vessels, navy*) The person (usually an officer) who coordinated various tasks by the crew which by means of a specialized whistle which he could blow two or three tones. e.g. one set of tones told the crew to hang the mizenmast and secure the halyards; another set told them to set the studs and royals; a third set of tones was “Call to Quarters,” and so on. (Wiki); the term that refers to the mate, warrant officer, or petty officer in charge of boats, rigging, and ground tackle aboard ship (http://www.quarterdeck.org/index.html) božman (na jedrenjacima), bocman (from hol. bootsman)

boat tackle (n) (*nav arch*) koloturnik brodice za spašavanje, čekrk brodice za spašavanje (za dizanje i spuštanje brodice)

boat transfer (n) (*nav arch, hum_resources*) brodica za razmjenu posada, brodica za prijevoz posade (na brod, platformu itd. ili s broda, platfpre
The ship was making way towards a **boat transfer position** inside the Bay. MAIB The LPG ship was on passage to Rotterdam, calling at Algeciras to embark personnel by **boat transfer**.

**boat trim** *(boating/yachting)* **trimanje jedrilice**

**boat tuning** *(boating/yachting)* **ugađanje jedrilice prije jedrenja, namještanje jedara, trimanje jedara**

**boatwain’s mate** *(=bosun’s mate; BM)* *(US)* = **bosun’s mate** *(seamanship)*

The mate (assistant) to the Bosun; The most versatile member of the Coast Guard’s operational team is the boatwain’s mate (BM). Boatwain’s mates are masters of seamanship. BMs are capable of performing almost any task in connection with deck maintenance, small boat operations, navigation, and supervising all personnel assigned to a ship’s deck force. (Wiki)

**dočasnik palube, dočasnik posade broda**: Boatswain’s mates train, direct, and supervise personnel in ship’s maintenance duties in all activities relating to marlinspike, deck, boat seamanship, painting, upkeep of ship’s external structure, rigging, deck equipment, and boats. (Wiki); 2 *(navy)*

**dočasnik palube** *(na jedrenjaku)*, **dočasnik-pomoćnik vode palube, dočasnik vode posade**: He then appointed his officers. Young was made master, Stewart the master’s mate, myself quartermaster, Morrison boatswain, and Alexander Smith boatswain’s mate. Charles Nordhoff and James Norman Hall: Mutiny on the Bounty - http://gutenberg.net.au/ebooks08/0800401h.html#c0

**boat watermaker** *(boating/yachting)* = **desalinator**

**boatwright** */boʊtˌraɪt/* *(mar law)* mali brodograditelj

**boat yard** *(nav arch)* brodogradilište za brodice, mali brodogradilište

**bobber** *(fishing)* The bobber also known as a slip, cork or float serves two angling functions: (a) a surface strike indicator and (b) a controlled depth presentation using live bait or lure. **plovak (za udicu)**

**bobcat** */ˈbobˌkæt/* *(cargo handling)* mali jaružalo, mali *katterpillar* *(za radu brodskom skladištu)*, **bobcat**

**bobin knotter** *(fishing)* a PR knot tying tool, that makes the PR complicated knot easy **naprava za spajanje ribarskog najlona / povraza, bobin knotter**

**bobstay** *(boating/yachting)* stay or cable from end of bowsprit to the stem to prevent the former
bobstay-piece

boiler oil

from lifting čelično uže između pramčane statve i kosnika

bobstay-piece (n) (nav arch, sailing vessels) brid kljuna

body lines (n) (nav arch) brodske linije

body of water (n) (geogr) količina vode

body plan (n) (nav arch) pogled na teoretsku formu sprijeda. Na desnoj strani nacrta nalaze se rebra prednje (pramčane) polovine broda, a na lijevoj rebra zadnje (krmene) polovine.

(https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni) nacrt rebara

bogie, boggie /ˈbəʊɡi/ (n) (cargo) a set of wheels built specifically as rear wheels under the container postolje za kontejner, podvozak za cestovni prijevoz kontejnera, kontejnerska prikolica (šasija)

bogue /ˈbəʊɡ/ (n) (fishing) Lat. Boops boops bugva, bukva, bukvina, bobulina, boba, bubu

buba

boiler /ˈboɪər/ (n) ~-room kotlovnica, kaldaja; Italian: caldaia, oil-fired Scotch ~ škotski kotao na lož-ulje, three-furnace ~ kotao s tri ložišta, donkey ~ pomoćni kotao, lučki kotao, double drum ~ kotao s dvostrukim bubnjem, kotao s dvostrukom komorom, double-flow ~ kotao s dvostrukom dimnom komorom, fire-tube ~ vatrocijevni kotao, dimocijevni kotao, high-pressure ~ visokotlačni kotao, horizontal-tube ~ kosocijevni kotao, kotao s položenim cijevima, intermediate pressure ~ srednjotlačni kotao, low-pressure ~ niskotlačni kotao, oil-fuel ~ kotao ložen naftom, single-flow ~ kotao s jednostrukom dimnom komorom, single-drum ~ kotao s jednostrukim bubnjem, kotao s jednostrukom komorom, three-drum ~ kotao s trostrukim bubnjem, vertical-tube ~ strmocijevni kotao, kotao sa strmim cijevima, water-tube ~ vodocijevni kotao (marine eng) kotao: On 06 July 2013, at about 1100, the second engineer on board the oil tanker commenced the overhaul of one of the boiler’s main steam valves.

boiler auxiliaries (n) (marine eng) pomoćni uređaji kotla

boiler casing (n) (marine eng) plašt kotla

boiler feed pump (n) (marine eng) napojna sisaljka kotla

boiler furnace (n) (marine eng) ložište kotla

boiler geed water (n) (marine eng) napojna voda kotla ~ system sustav napojne vode kotla

boiler internal corrosion (n) (marine eng) unutrašnja korozija kotla

boiler oil (n) (marine eng) kotlovnvo ulje heavy ~ teško loživo ulje
boiler plant (n) (marine eng) kotlovsko postrojenje
boiler room (n) (marine eng) kotlovnica
boiler shell (n) (marine eng) plašt kotla
boiler water drum (n) (marine eng) vodena komora kotla
boiling point (n) (marine eng) the temperature at which a liquid begins to boil vrelište, točka ljučanja
boil off control equipment (n) (cargo handling) kontrolni uređaj za isparavanje
boisterous weather /ˈboɪstərəs/ (n) (navig) jako nevrijeme
BoL (=bill of lading) (n) (mar law, shipping econ) = bill of lading - types teretnica
bollard /ˈbɔlərd/ (n) (nav arch) a single post line-securing device on a wharf around which mooring and berthing lines are fastened. bitva za privezivanje (obično na obali), bitveni stup (na obali): Immediately after the spring was hooked on to the bollard ashore, the forward mooring party started heaving up the slack but the vessel still had strong head movement. The breast line bollard failed and due to a lack of spread of lines we drifted off of the dock. single bitt ~ privezna bitva s jednim stupićem, double-bitt ~ privezna bitva s dva stupića

bollard pull (n) (navig) snaga na kuki (za tegljenje), vlačna sila na kuki (tegljača): The tugs were made fast at 0808, the forward tug with a bollard pull of 30 tonnes and the after tug with a bollard pull of 10 tonnes. Svitzer has ordered two more Damen ASD 3212 tugs with 80 tons bollard pull performance for its escort and towing operations on the Thames and Felixstowe. A pilot was embarked and two tugs were assisting: a 53 tonne bollard pull Voith Schneider tug was made fast on the centre lead forward and a 66 tonne bollard pull b ASD tug was secured on the centre lead aft. Before delivery, the rescue tug was tested in sea trials where it exceeded design targets in bollard pull, fuel economy, maneuverability, and low-load performance. www.marinelink.com a 43 ~ vlačna sila 43 tone na kuki od, achieve a ~ postići snagu na kuki: ALP tug Striker achieved an impressive and most satisfactory bollard pull results of 309.6 tonnes during her sea trials., ~ diagram dijagram vlačnih sila na kuki (tegljača): The pilot card was supplemented by a ship’s particulars sheet and a bollard pull diagram ...
bollard(s) /ˈbɔlərdz/ (n) (nav arch) bitva (u obliku priveznog stupa, na obali ili na brodu), preza
bolster /ˈboulstər/ (n) (nav arch) sidreno oko
bolt /ˈbəult/ (n) (marine eng) svornjak, vijak (s maticom), Italian:bullone: * Make sure that the weld has been carried out properly and that both the bolt and the nut materials are weldable.
The Bolt should be fitted with a Butterfly head, in order that the bolt can be released from the inside?
holding down ~s pričvrstiti, spojiti vijcima
thrust ~ vijak temeljnog ležaja preopterećen na tlak, through ~ kotveni vijak,
prolazni vijak s maticom, jack ~ vijak temeljnog ležaja preopterećen na tlak
bolt /bəʊlt/ (marine eng) pričvrstiti, spojiti vijcima
bolt, washer and nut /bəʊlt,ˈwɔːsər/ (marine eng) vijak s podloškom i maticom
bolt down (v) (marine eng) pričvrstiti vijcima: The cylinder cover is bolted down with eight studs.
bolted plate (n) (nav arch) ploča sa svornjacima / vijcima
boltrope /ˈbəʊltˌrəʊp/ (boating/yachting) porubni konopac jedra uvlači se u puć (kanal) jarbola i
deblenjačka (buma) radi pričvršćivanja jedra porubni konopac, porubnik na obodu jedra
bona fide /ˈbəʊnəˈfaɪd/ (n) (mar law) undertaken in good faith; real or genuine u dobroj vjeri,
po načelu dobre vjere
bonded freight (n) (mar law, shipping econ) cargo moving under a bond to the Customs, to be
delivered only under stated conditions. teret podložan carini
bonded store /ˈbɒndɪd/ (n) (shipping econ, mar law) place on a vessel where goods are placed
behind seal until the time that the vessel leaves the port or country again zapecaćeno
skladište, zapecaćeno carinsko skladište, sidil
bonded warehouse (n) 1 (mar law) a port warehouse in which dutiable goods are deposited
until duty is paid or the goods are cleared for export carinsko skladište; 2 zapecaćeno
skladište (u kojem roba leži dok se ne plate potraživanja)
Bond of Indemnity /ˈbɒnd/ (mar law) jamstvo (za slučaj neuručene teretnice)
bond port (n) (mar law, shipping econ) port of initial Customs entry of a vessel to any country
prva luka ticanja
Bonjean curves (=Bon-Jean curves) (n) (stabil) the curves of cross sectional area for all
body plan stations Bonjeanove krivulje; Bonjean Curves display the submerged area at a given
location (or station) along the length of the ship, for a given draft.
bonus /ˈbəʊnəs/ (n) 1 a (mar law) dodatak, doplatak; 2 premija, posebni dodatak
na plaću
booby hatch (n) 1 (nav arch, boating/yachting) a special opening through which personal access to
a hold through hatch covers is possible malo grotlo za ulaz osoba u skladište, usko
grotlo: Personal access to a hold through hatch covers is possible via special openings often called
booby hatches. When a person wants to use them they usually have to hold the booby hatch as support for
the first few steps as they enter or exit. Mast houses or store spaces which have booby hatch access to
cargo holds must also be treated as confined spaces on loaded passages.
COMPARÉ spray hood a raised hoodlike covering over a small hatchway on a boat’s deck

natkriveni ulaz u kabinu

zaključnica

boom /ˈbʊm/ (n) 1 (cargo handling) = jib; krak / grana dizalice, krak samarice: The derrick topping lift double purchase was disconnected from the derrick head and attached to the derrick boom near the heel with a wire strop, with the intention of using the greater force available to free the heel pin.  

2 (shipping econ) procvat (prometa itd.); 3 (boating/yachting) a spar used to extend the foot of a for-and-aft sail deblenjak, bum, lantina, Italian: boma: A crew member was hit by the boom while sailing and fell overboard.

boom /ˈbʊm/ (v) (shipping econ) cvasti, cvjetati, naglo rasti (npr. promet u luci)

boom (n) (safety, environ) = floating boom plutajuća brana, cijev oko broda za sprječavanje onečišćenja (pri ukrcaju/iskrcaju), barijera: As a precautionary measure, an oil boom was deployed around the damaged tender boat. So far about 1600-feet of boom has been deployed around the barges. Additional boom is being deployed and staged to protect sensitive areas along the bay. https://gCaptian.com oil containment ~ brana za suzbijanje širenja uljne mrlje, protunaftna brana

boom fittings (n) (boating/yachting) oprema deblenjaka, oprema buma

boom jack (n) (boating/yachting) = boom vang priteg deblenjaka, vang
**boom vang**  *(n) (boating/yachting)* a sail control to apply downward tension on the boom, countering the upward tension provided by the mainsail; a purchase system to hold a boom down

**boost**  *(v) (shipping econ)* jako rasti (vozarine, promet, dobit), jako pojačati ~

**the net profit** naglo povećati dobit: The rise in freight rates could boost the Line’s 2016 net profit by as much as $760 million.

**booster**  */bu:ste/* *(v) (marine eng)* pojačati (protok, kapacitet itd.), jačati

**booster pump**  *(n) (marine eng)* doabavna pumpa, pumpa za dodatno pojačavanje tlačenja, pomoćna visokotlačna pumpa, sisaljka za podizanje tlaka, *buster pumpa, busterica*

**boot**  *(n) (boating/yachting)* platno oko pete jabola, vodootporna zaštita oko pete jarbola

**boot**  *(n) (navy, figurative)* mornarički novak, regrutirani mornar

**boots**  */bu:t/* *(n) (boating/yachting)* čizme za jedrenje breathable ~ prozračne čizme

**boot topping**  */bu:t/* *(n) (boating/yachting)* pojas vodene linije, *banjašuga*

**bore**  */bo:/*(n) (marine eng)* A cylinder, hole, or the inside diameter of the cylinder or hole. Also, the diameter of an engine cylinder. (http://www.marinedieseleurope.com/) provrt (cilindra, cijevi), otvor, kalibar, unutrašnji provrt control ~ kontrolni kanal, kontrolni otvor, liner ~ provrt (promjer) košuljice, cylinder ~ provrt cilindra, promjer cilindra

**bore cooling**  *(n) (marine eng)* hlađenje kroz radijalne kanale, hlađenje kroz zavojne provrte

**borehole**  *(n) (marine eng)* izvrtani otvor, izbušena rupa

**boring**  */bo:riŋ/* *(n) (marine eng)* enlarging the cylinders by machining them to a specified size

**busenje, obrada provrta cilindra bušenjem**

**nutarnji dio uglovnice**

**boss**  */bos/* 1 *(nav arch)* The part of the propeller to which blades are attached. Also the aperture in the stern frame where propeller shaft enters. https://officerofthewatch.com/tools/maritime-dictionary/

**glavčina propelera**  ; 2 *(nav arch)* pojačanje

**provlake krmene cijevi**  ; 3 *(marine eng)* an area of increased thickness, usually cylindrical,
that strengthens or provides room for a locating device on a shaft, hub of a wheel, etc: podebljani dio cijevi (na priključku), tuljak (za spajanje cijevi): It was also observed that the joint and the fuel pump inlet pipe bosses were not covered with approved splash prevention screening, as required under Solas.

**bossed framing** (n) (nav arch) grbava rebra

**bosun** /ˈbɒsən/ (=bos'n; bo's'n; boatswain) (n) 1 = boatswain (on a merchant ship) an unlicensed member of the crew who supervises the work of the deck men under direction of the first mate. voda palube, noštromo assistant ~ pomoćnik vode palube: As the FRC was still partly suspended over the deck edge, the assistant bosun and the AB left the boat to help attach a bowing line to assist in pulling the FRC around the deck edge.; 2 (on a naval ship) a mate, warrant officer, or petty officer in charge of boats, rigging, and ground tackle aboard ship božman

**bosun's chair** (=bo's'n's chair) (n) 1 (seamanship) sjedalo od platna ili drva, za rad na oputi jarbola; a seat consisting of a board and a rope; used while working aloft or over the side of a ship (https://www.vocabulary.com/dictionary/bosun%27s%20chair); a canvas chair attached to a halyard, designed to hoist a person aloft http://www.apsltd.com/api-advisor/sailing-terms-glossary/viseća sjedalica (za rad na jarbolu); 2 (boating/yachting) viseća sjedalica (za rad na jarbolu)

**bosun's locker** /ˈbɒsənz/ (n) (nav arch, seamanship) A locker where tools for maintaining the deck, rigging and sails are kept. https://www.ypiyachts.com/ loker vođe palube

**bosun's mate** (=boatswain's mate; BM) = boatwain's mate 1 prvi dočasnik broda (Obalne straže SAD); 2 (navy) dočasnik palube; 3 dočasnik palube (na ratnim jedrenjacima), božman, bocman

**bosun's pipe** (=boatswain's pipe) (n) (navy, seamanship) A whistle used for passing orders on a ship, noštromova zviždaljka (za davanje zapovijedi posadi), zviždaljka vođe palube

**bosun's store** /ˈbɒsənz/ (n) (nav arch, seamanship) spremište vođe palube

**both ends** (=BENDS) (n) (mar law, shipping econ) Both Ends - At both loading and discharging ports. This term is often used together with GSAAAAB (good safe always afloat always accessible berth), with OSP (one safe port), with OSB (one safe berth) and to qualify the prices of the bunkers on delivery and redelivery in a time charter. Also used to state agency determination (ex. Carrier’s agents bends) http://www.tkmglobal.net/chartering_B.HTM na oba kraja (ukrajnom i skrajnom)

**both-to-blame clause** (n) (mar law) A clause inserted into some U.S. bills of lading, which required that in the event of a ship collision for which both vessels were at fault, cargo indemnify its carrying vessel for any amount which that vessel had had to pay to the colliding vessel in respect of any claim made by cargo against the colliding vessel.
both to blame collision clause

Clause in a Bill of Lading or charter party which stipulates that, in the event of a collision between two ships where both are at fault, the owners of the cargo must indemnify the carrying ship against any amount paid by the carrying ship to the non-carrying ship for damage to that cargo. This clause arises because, under American law, a cargo owner is not able to make any recovery from the carrier for damage resulting from negligent navigation but may instead sue the non-carrying ship which in turn seeks recovery from the carrying ship in proportion of his fault. This would render a carrier indirectly liable for a loss for which he is not directly liable to the cargo owner. The clause has, however, been held to be invalid in the American courts when incorporated with a common carrier.

bottleneck

A condition in a process of transporting cargo which limits or impedes performance. NY–NJ port is confident warehouse capacity is sufficient to avoid bottleneck.

bottlescrew

= turnbuckle, stezaljka, škartoc.

tirant

dno (broda, barke, brodice), Italian: carena: However, the ship's bottom remained intact, meaning no oil escaped. dvodno (broda): This condition remained until de-ballasting of #4 wingtank and double bottom in the English Channel.

bottom cleaning

Regular bottom cleaning can also prolong protection, but it cant work miracles.

bottom contact

While manoeuvering, the ship’s stern came out of the canal’s navigable limits, resulting in a bottom contact.

bottom dead centre

EXHAUST As the piston approaches the bottom of the cylinder (known as Bottom Dead Centre or BDC), the exhaust valve starts to open.
in temperature as the piston rises.

**bottom end** (n) (marine eng) = large end donji kraj ojnice

**bottom end bearing** (n) (marine eng) donji ležaj ojnice, leteći ležaj

**bottom end stroke** (n) (marine eng) krajnji donji položaj hoda stapa

**bottom fittings** (n) (cargo handling) conical shaped devices inserted between a container and the permanent floor on the deck of a vessel in order to avoid shifting of the container during the voyage of this vessel kutni umetci za kontejnerei na palubi

**bottom flat line** (n) (nav arch) granica ravnog dna

**bottomline centre girder** (n) (nav arch) = centre girder hrptenica

**bottom paint** (n) (seamanship) = antifouling paint podvodna boja, koper, antifouling: The major bottom paint manufacturers have priming/tie-coat products. layers of ~ slojevi podvodne boje, ruke podvodne boje: If there aren't that many layers of bottom paint, you can sand them off with an 8-inch, dual-action orbital sander and 60-grit sandpaper https://www.practical-sailor.com/blog/too-many-layers-of-bottom-paint?

**bottom planking** (n) (sailing vessels) oplata dna

**bottomry** /ˈbɒtmri/ (n) (mar law) pledging a ship as security in a financial transaction; A primitive form of ship mortgage, whereby the master, while away from the ship's home port, by signing a bottomry bond, borrowed money on the credit of the vessel to pay for goods or services needed to preserve the ship or complete the voyage; Arrangement in which a ship's keel (hence the ship structure), but not its cargo, was pledged as the security for a loan.

(https://www.businessdictionary.com/definition/bottomry.html) založni zajam

brodovlasnika (za održavanja broda i putovanja), pomorski zajam za popravak broda ~ bond isprava kojom se zapovjednik obvezuje vratiti zajam ili predujam što ga je uzeo za potrebe broda. zajmodavač ima pravo zaloga na brod (ship mortgage), teret ili vozarinu ako se zajam ne vrati, ali samo poslije dolaska broda na odredište (IC); Older type of bond or promissory note secured by a ship as collateral, issued by the ship's captain who urgently needed money but could not contact the shipowners (or when they lacked creditworthiness).

(https://www.businessdictionary.com/definition/bottomry-bond.html) zajmovna obveznica

**bottomry bond** (n) (mar law) isprava kojom se zapovjednik broda obvezuje vratiti zajam ili predujam koji je uzeo za potrebe broda zajmovna obveznica

**bottom shell** (n) (nav arch) oplata dna

**bottom side girder** (n) (nav arch) bočni nosač dna

**bottom stool** (n) (nav arch) donji oslonac pregrade

**bottom strake** (n) (nav arch) voj dna

**bottom stringer** (n) (nav arch) proveza dna
bottom web (n) (nav arch) okvir dna
bound /baʊnd/ (adj) 1 COMPARE bind vezan, pričvršćen; 2 (mar law) obvezan
be ~ to biti obvezan, biti dužan (nešto učiniti): A ship at sea which is in a position to be able to provide assistance, on receiving information from any source that persons are in distress at sea, is bound to proceed with all speed to their assistance ...; 3 (meteorol) obuhvaćen, zahvaćen, obavijen fog-~: 200710 Collision with dredger A coastal tanker completed discharge in the forenoon and was being piloted out in a fog-bound harbour channel. obavijen maglom; 4 (navig) koji se kreće prema outward-bound ship brod koji se kreće prema izlazu (iz luke, kanala), brod na izlasku iz (luke, kanala): Two outward bound ships had been plotted on my ARPA and, after my coursealteration, it was observed that they would both pass astern but far too close for comfort.
bound for (adj) (navig) brod na putu za, brod na putovanju za, brod u plovidbi za: The ship was bound for Port Elizabeth, South Africa. On 7 July 2010, the ship was en route from Port Klang, Malaysia bound for Salalah, Oman.
bound from /baʊnd/ (n) (navig) brod na putovanju iz: All vessels in excess of 20 metres in length, bound to or from or passing through the Port of Southampton are required to communicate by VHF with Southampton VTS. Own ship was on a course of 2710T at a speed of 13 knots bound from Greece to Gibraltar.
bound to /baʊnd/ 1 (adj) (mar law) biti obvezan da, biti dužan da; 2 (shipping econ, navig) brod na putu za, brod u plovidbi za: The following morning, the master stated on the manifest that the loading had been done under the rain, then he sailed bound to Rotterdam. the ship (was) bound from the port of ... to the port of ... brod (je bio) na putovanju iz luke ... za luku ...
Bourdon tube pressure gauge (n) (marine eng) manometar s Bourdonovom cijevi
bow /bau/ (n) (nav arch) the forward part of the ship held together by the stem pramac, prova; Italian: prora raked ~ kosi pramac, on the port / starboard ~ lijevo / desno po prmacu: The 2nd vessel was 2 points on the starboard bow about 4 miles distance, heading NE but passing well clear to starboard. The OOW is observing a small coaster on the port bow about 0.8 nm, on the ~ po prmacu, ispred broda
bow anchor  (n) (nav arch) pramčano sidro: When a vessel is laid-up on sway with one anchor deployed, the other bow anchor should be lowered to the water surface and be ready for dropping. <source>GL_22</source> <sentence>… under normal circumstances a ship will use only one bow anchor and chain cable at a time. <source>MARS reports_1992-2016</source> <sentence></tlCorpus>

bow chock  (n) (nav arch, boating/yachting) podloga kosnika

bow cross range (=BCR)  (n) (navig) najmanja udaljenost mimoilaženja brodova po pramcu (u NM)

bow door  (n) (nav arch) pramčana vrata (ro-ro broda, trajekta), pramčani otvor: … failure of the starboard bow door on motor ferry …. at Calais on 24 February 2006 It was about 1640 when the first officer started the bow door closing procedure.

bow drill  (n) (boating/yachting, nav arch, sailing vessels) lučno svrdlo

bower anchor  (n) (nav arch) the large anchors carried in the bow of a vessel pramčano sidro, položajno sidro, obično sidro

bowfast  (n) (seamanship) = painter pramčani konop splavi, pramčani konop brodice za spašavanje

bow fitting  (n) (boating/yachting) pramčani kutni okov (za hvatanje prednjeg leta i denove), pramčani okov

bow-in berth, wind astern berth vez s pramcem prema unutra, krma u vjetar

bow into tide  (n) (boating/yachting, seamanship) struja s pramca, struja u pramac

bow lateral navigation lights  (n) (navig) pramčano navigacijsko svjetlo (crveno i zeleno)

bowline  /ˈboulin/ (seamanship) a type of knot, producing a strong loop of a fixed size, topologically similar to a sheet bend; a very practical and strong knot pašnjak (uzao), Italian: gassa
**bowline** 
/ˈbaʊˌlaɪn/  (=bow line)  (n)  (boating/yachting)  On a square-rigged ship, a bowline is a rope that holds the edge of a square sail towards the bow of the ship and into the wind, preventing it from being taken aback. **prednji brac**: "The slack ropes beneath the flagstaff-stay can only be bowlines ready for a sail that might be sent up if required.”  A Short History of the Sailing Ship (Dover Maritime) by Romola Anderson, R. C. Anderson -  •  http://a.co/4zrtdrP bowline for the main royal sail

---

**bowline hitch**  (n)  (seamanship)  petlja

**bowline knot**  (n)  (seamanship)  pašnjak, gaša

**bowline on the bight**  (n)  (seamanship)  dvostruki pašnjak

**bowline-upon-the-bight**  (n)  (seamanship)  dvostruka petlja

**bow loading system (=BLS)**  (n)  (cargo handling, nav arch)  The Bow Loading System (BLS) fitted on shuttle tankers, is providing efficient means for offshore loading of crude oil. **sustav pramčanog ukrcaja sirove nafte**: The BLS equipment is located On forecastle and on the ship’s bridge.

**bow pudding fender**  (n)  (nav arch, boating/yachting)  pramcobran, pramčani brk

**bow rail**  (n)  (boating/yachting)  pramčana ograda, provena murada

**bow rake**  (n)  (nav arch)  pramčana kosina

**bow ramp**  (n)  (nav arch)  pramčana rampa

**bow roller**  (n)  (boating/yachting)  = anchor roller  valjak vodilice sidrenog lanca, rokel  ~ mount vodilica sidrenog lanca, kućište vodilice sidrenog
Both vessels suffered major structural damage to their bows but there were no injuries or pollution. On the na pramcu bow searchlight pramčani reflektor bow section pramčani dio broda: Because of the contact of the vessel with the cap of the eastern breakwater head, the outer shell was damaged on the starboard side in the bow section of the vessel.

Bowsprit /ˈbəʊsprɪt/ (nav arch, sailing vessels, boating/yachting) a spar projecting forward over the bow for the purpose of holding the lower ends of the head sails kosnik, baštun, bumpreš, Italian: buttafuori, Italian: ompresso: The Bounty was incredibly small when one considers her mission. Under the bowsprit there was a figurehead portraying a woman in a riding habit. https://library.puc.edu/pitcairn/bounty/bounty.shtml ~ bed ležište kosnika, ~ cap glavina kosnika, ~ hounding vanjski dio kosnika, ~ housing nutarnji dio

Bowsprit anchor roller (boating/yachting) kosnik s valjkom vodilice za
bow stopper  

**sidreni lanac**  

**bow stopper** (n) *(nav arch)* štoper sidrenoga lanca: The brakes were tightened along with the **bow stopper**. A crowbar was temporarily inserted into a link to jam it in the **bow stopper** when the brake could not hold the anchor cable that was under high tension.

**bow thruster** /bɔʊ,θrʌstə/ *(=bow thrust)* (n) *(nav arch)* an auxiliary motor and propeller mounted athwartships at the bow, and employed to maneuver the ship sideways **pramčani porivnik, pramčani propeler, manevarski propeler:** The ship had two 2,000 kW bow thrusters. This seemed to work and the Master also deployed a **bow thruster** to stop the starboard turn, but it was too late; the vessel made several heavy contacts with the breakwater. The pilot ordered astern propulsion and **bow thruster** to starboard. The pilot tried to use the **bow thrusters** to drive the vessel back into the channel. As we had now had lost steering, a **bow-thrust** was ordered to be put on line as to aid in the control of the vessel. The master confirmed to the pilot that the **bow thrust**er was ready for use. The ship was equipped with a 3,000kW **bow thruster.**

**operate the ~ koristiti pramčani porivnik, voziti pramčanim porivnikom:** The pilot operated the bow thruster to move the bow to starboard, **ineffective ~ nedjelotvorni pramčani porivnik:** The thrusters were ineffective at speeds above 5kts.
**bow thruster tunnel** *(n) (nav arch)* tunel pramčanoga porivnog uređaja, tunel pramčanog propelera

**bow to bow** *(n) (navig)* pramac - ramac: Tug A approached the ship **bow-to-bow**, and a heaving line was passed from the ship to the tug. *source: 2018 -- SD1 -- MAIB_Safety_Digest* 

**Modern ASD tugs** commonly used for **bow-to-bow operations**.

**bow wave** *(n) val koji brod stvara gibanjem naprijed* pramčani val

**bow windshield** *(n) (nav arch)* vjetrobran pramca: MOL has developed and installed **bow windshield** on exiting middle-size containership in 2015 and confirmed CO2 reduction by about 2% 
Boyle's Law

At a constant temperature, the pressure and volume of a gas are inversely proportional.
Boyleov zakon, Boyle-Mariottov zakon
brace /ˈbreɪs/ (n) 1 (boating/yachting) rope secured near each end of a yard in square-rigged vessels, so as to alter its angle to the fore-and-aft line (Mayne 2000); a rope (line) used to rotate a yard around the mast, to allow the ship to sail at different angles to the wind uzda križnog jedra, prače,

brac, Italian: braccio

brace in (v) (boating/yachting) to trim a squaresail so that it lies more across the beam popustiti uzdu križnoga jedra
brace up (v) (boating/yachting) to trim a squaresail so that it lies on a more fore and aft angle potegnuti uzdu križnoga jedra

bracket /ˈbreɪkt/ (n) (nav arch) a steel plate, commonly of triangular shape with a reinforcing flange on its free edge, used to connect two parts such as deck beam to frame, frame to margin plate, etc.

http://www.seasources.net/vessel_nomenclature.htm; A steel plate, commonly with a reinforcing flange, used to stiffen or tie beam angles to bulkheads frames to longitudinals, etc.

https://officerofthewatch.com/tools/maritime-dictionary/ koljeno, koljeno sponje plate ~ plošno koljeno

brace /ˈbreɪks/ (n) (boating/yachting) okov tanguna

bracketed (adj) (nav arch) pričvršćen koljenom, spojen koljenom bracketed to the bulkhead koljenom pričvršćen na pregradu

bracket floor (n) (nav arch) otvorena rebrenica, okvirna rebrenica

bracketless (adj) (nav arch) bez koljena, bez koljenastog spoja

brackish /ˈbreɪkʃ/ (n) bočata (voda)

braid (n) (fishing) pletena nit od 4, 6 9 ili čak 16 tankih niti, kojim je karakteristika velika nosivost, mala ili nikakva istezljivost, što ribiću daje mogućnost brže kontre te velika nosivost.

(https://ribolovnjadranu.hr/ribicki-leksikon/) upredenica, najlon od pletenih niti, povraz od pletenih vlakana, pletena nit: The braided fishing line has revolutionised
modern day sea angling. Kevlar and Spectra braid’s unique properties are (a) that it is significantly stronger than either nylon monofilament, or braided Dacron, which some boat anglers were still using then. (b) It has virtually zero stretch, as opposed to mono which can stretch by up to a quarter of its length.

power ~ jaka upredenica

braided fishing line /breid/ (n) (fishing) one of the of earliest types of fishing line, and in its modern incarnations it is still very popular in some situations because of its high knot strength, lack of stretch, and great overall power in relation to its diameter. (Wiki) povraz od pletenih vlakanaca, sukani najlon

braided rope (n) (seamanship) pleteni konop, konop s jezgrom i pletenom ovojnicom

brail /breil/ (n) (sailing vessels) COMPARE buntline konopac za odvijanje i ubiranje jedra oko deblenjakata i križeva; small ropes used to haul in or up the leeches and bottoms of a sail for furling; one of a series of lines used to haul a square sail up to the yard and secure it furled kraća ubralja

(križnog jedra, krat, tercarol, trcarol

brake /breik/ (n) 1 kočnica: The accident involved a brake failure on one of the lifeboat. The more the boat descended, the more the brake was released. ~ lever ručica kočnice, poluga kočnice: Prior to the drill, the brake lever was checked and found to be correctly adjusted., ~ failure otkazivanje kočnice: The accident involved a brake failure on one of the lifeboat., ~ handle ručica kočnice: When outboard and clear of the davits, the remote control brake handle was released to stop the movement., ~ lining kočna obloga, obloga kočnice, feroda: The brake lining had to be renewed as soon as possible as the brake may not have held., release the ~ otpustiti kočnicu, osloboditi kočnicu: From that point onwards the effect of the reducing length of the control wire was to place tension on to the winch brake handle and release the brake., breakdown of the ~ kvar kočnice, engage the ~ uključiti kočnicu, operate the ~ kočiti, uključiti kočnicu, upravljati kočnicom: As an emergency measure, the jibs were housed by operating the brake release mechanism manually., ~ shoe / block papuča kočnice, kočna papuča, tijelo kočnice: The brake pad had become detached from the brake shoe., ~ pad kočna obloga, tarna obloga; 2 (nav arch) kočnica vitla: Damage occurred to the mooring winch engaging/disengaging handle, brake handle, a hydrant and the railings. This placed them in an area of danger because a winch brake band could have rendered while they were attaching the centre chain.

brake band (n) (nav arch, marine eng) tarna obloga kočnice (na vitlu): In this situation is the question of burning a brake band or losing an anchor important? The Chief Officer investigated the matter and found that the brake band-tightening stud was bent and broken.
**breake horsepower**  
*(n)* (marine eng, nav arch) *snaga na kočnici*: Performance: An important parameter for a marine diesel engine is the rating figure, usually stated as *breake horsepower* *(bhp)* or kilowatts per cylinder at a given revolu- tions per minute. If the latter is ‘breake’ *horsepower* *(bhp)*, the mep derived is the brake mean effective pressure *(bmepe)*;  

**breake testing of a mooring winch**  
*(n)* (ship handling, seamanship) *ispitivanje kočnice priteznog vitla*;  

**branch off** *(v)* *račvati se, granati se, dijeliti se (cijev)*;  

**branch office** *(n)* (shipping econ) *filijala*;  

**brass plate** *(n)* (marine eng) *brtvilo, mjedena košuljica*;  

**brazing** *(n)* (marine eng) *lemljenje tvrdim lemom*: When brazing is done, flux is used as it prevents the oxide formation while the metal is heated.  

https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/  

**blemijenje, lemnijenje tvrdim lemom**: When brazing is done, flux is used as it prevents the oxide formation while the metal is heated.  

https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/  

**breake** *(v)* *(safety, nav arch)* *probiti*: Fortunately, neither vessel's hull was breached, and there was no injury or pollution. A number of water ballast tanks and at least one fuel oil tank were breached resulting in pollution. The general cargo vessel's port bow collided with the LPG tanker's starboard quarter and the hulls of both vessels were breached above their respective waterlines. The crew's initial inspections and tank soundings indicated that the vessel's hull had not been breached.  

www.gov.uk/maib ~ the hull probiti trup broda, stvoriti otvor u trupu broda: If the hull is breached, or a hatch breaks free, the flooding can be contained to a relatively small area.;  

*(mar law)* *kršiti (pravilo, propis, zakon, ..., prekršiti)*: While fishing vessels inevitably have to breach their watertight integrity at sea to load fish, this is not an excuse to leave your fishing vessel unnecessarily vulnerable to flooding.  

*(mar law)* *kršenje (propisa, ugovora)*: Although this was in breach of the company requirements, it did not in any way contribute towards the accident. In fact, it turned out the officer concerned was in breach of STCW regulations relating to the hours of rest due to the nature of the trade, od, due to very high ambient temperature, No 2P COT pressure relief valve opened, releasing inert gas *(IG)/cargo vapour mixture to the atmosphere, in breach of the applicable Annex 6 of Marpol.*  

Although there were no injuries, the vessel suffered breach of two ballast tanks. ~ of contract  

**kršenje ugovora, ~ the obligations under the agreement prekrštiti obvezne iz ugovora, labour ~ kršenje pomoračkih radnih prava**: The bulker was detained six weeks ago by the .... Maritime Authority over labour breaches. Brod za rastute teret zaustavljen je prije šest tjedana od strane Pomorskih vlasti (uprave) zbog kršenja radnih prava pomoraca.;  

*(safety)* breaking an opening or hole in the hull of a ship *probój trupa broda, rupa u trupu broda hull ~ rupa u trupu broda, probój trupa broda*: A hull breach that flooded river cruise ship MS ..... , and forced the evacuation of 194 passengers and crew may have been caused by the ship running aground in low water, ~ in the hull / tank *probój trupa / tanka, rupa u trupu / tanku*: The collision resulted in a breech in the container vessel's port bunker tank, resulting in an oil spill.
breach /ˈbrɛtʃ/ (n) (safety, nav arch) rupa u trupu broda, probijanje trupa: r's note: It must be remembered that the primary purpose of the hold bilge system is to preserve the ship from sinking due to flooding as a result of breach of the hull. An underwater inspection of vessel carried out Tuesday revealed several breaches of the hull. http://gcaptain.com sustain ~ pretrpjeti probijanje (trupa): The vessel sustained breach in its hull and took in water, causing the failure of the ship’s main engine., suffer a hull ~ pretrpjeti probijanje trupa: The ship suffered a hull breach after hitting the reef under rough sea conditions forcing the crew to abandon the ship.

breached compartment /ˈbrɛtʃtʃ/ (nav arch, safety) probijen predio broda, predio broda u koji je prodrla voda: the Master ordered the breached compartment to be opened at sea and for a party consisting of the C/O, C/E and a seaman to internally inspect the damage.

breach of contract /ˈbrɛtʃtʃ/ (n) (mar law, mar ins) kršenje ugovora, ugovorna odgovornost, odgovornost za kršenje ugovora

break /briːk/ (v) 1 (marine eng) slomiti, razbit, kidati, prekinuti: Even under excessive load conditions, the D Shackle on the chain, which is the weaker link, should break first. It is highly unlikely that the lashings will break in any reasonable circumstances, including heavy weather navigation. Ropes will break when under stress or tension. ~ down 1 pokvariti se (motor), prestati funkcionirati, ispasti iz pogona / sistema, zastaviti se (z bol preopterećenja), slomiti se, imati kvar / defekt; 2 (shipping econ) podijeliti, razdijeliti (prihod), dijeliti se u; 2 (ship handling) puknuti ~ away otkinuti

break /briːk/ (v) (nav arch) klasično čišćenje grijanjem (let-lampom) drvene oplate dna rezati brod za staro željezo

breakage /ˈbreikidʒ/ (n) 1 (marine eng) lom, slom, prekid, pucanje (užeta): The breakage of the tow wire occurred due to wear and tear.; 2 (shipping econ) neiskorišteni prostor u kontejneru Breakaway! (navig) Zastavite manovru!

break away (v) (ship handling, seamanship) otkinuti se (s veza): Several barges and vessels broke away from their moorings on the Hudson River due to ice flows.

break bulk /ˈbrɛik ,ˈbʌlk/ (v) 1 (shipping econ) SEE BBB to begin unloading the cargo; to unload and distribute a portion or all of the contents of a rail car, container, trailer, or ship započeti iskrcaj/ukrcaj, raspakirati pošiljku, otvoriti grotla (kako bi počele operacije iskrcaja/ukrcaja tereta): Under the before breaking bulk (BBB) clause freight is to be paid, i.e. the money deposited into the shipping company’s account, prior to discharging.; 2 (shipping econ, cargo handling) to strip unitised cargo prazniti teret (iz kontejnera, s paleta itd.)

break bulk /ˈbreik ,ˈbʌlk/ (n) (mar law)
klasični teret, generalni teret (osim kontejnera): Cargo gear is designed for speed and flexibility for handling breakbulk, palletized, or container cargo. Breakbulk steel imports are expected to decline further this year after falling in 2019, as sinking demand for vehicles and other steel-based products adds to tariff woes. Journal of Commerce

break bulk cargo /ˈbreikˌbʌlk/ (=breakbulk cargo) (n) 1 (cargo, shipping econ) non-containerized general cargo stored in boxes, bales, pallets or other units to be loaded onto or discharged from ships or other forms of transportation; The term BREAK BULK relates to trades where the cargoes are carried in unitized form such as palletised, bagged, strapped, bundled, drummed and crated like below and also non unitised general cargo (vehicles, steel etc.).

https://shippingandfreightresource.com/difference-between-bulk-and-break-bulk/ jedinični generalni teret (koji nije kontejneriziran): There is an area of 20000 sq.m for for breakbulk cargo and LCL operations With regard to general cargo (goods, merchandise, commodities), also referred to as break bulk cargo, almost 90 percent of all such cargo in most liner cargo trades today is containerized.; 2 (cargo) Goods that cannot be transported in or on a container by (seagoing) vessel due to their exceptionally large dimensions or weight. When sea transport does take place by container ship, it is called break bulk shipping. When these goods are transported by means of a special ship (i.e. not a container ship), it is called conventional shipping.

https://www.logisticsglossary.com/term/break-bulk/ komadni teret, klasični teret, konvencionalni generalni teret

break-bulk vessel (n) (nav arch) brod za generalni teret (novijeg tipa): * We arrived at the roads of a South American port on a breakbulk cargo vessel at 23:00.

break cargo (n) (cargo) komadni teret: When carrying break cargo (such as steel rolls), there was no risk of any cargo covering the lights.

breakdown (n) (marine eng) kvar, havarija: The Captain and all the bridge team thought the ship had a complete electrical breakdown due to the auxiliary engine overheating. Note date/time of breakdown.

break down /ˈbreikˌdaʊn/ 1 (v) pokvariti se, doživjeti havariju (o glavnom stroju): A safety device is fitted in case the system breaks down. The pilot boat engine had broken down. If a vessel breaks down and puts into a port for repairs, she is off hire, but hire will be payable again when she is fit to sail again from that place. ... When the ship’s main diesel marine engine breaks down at sea, it is imperative that the Engineering Officers affect repairs as quickly as possible in order to restore power and steerage. A capesize bulk carrier broke down in Elbe River blocked ship traffic in the Elbe River after losing power while inbound to the port of Hamburg. A containership broke down and began drifting shortly after departing the port.; 2 rasporediti, podijeliti u; 3 prekinuti (vezu): Communications broke down on a number of levels and played a part in this accident:

breakdown clause (n) (mar law) = Cesser Clause odredba o privremenom prestanku ugovora o najmu/zakupu broda (zbog havarije glavnog stroja itd.)

breaker /ˈbreika/ (n) (oceanogr) a large wave with a white crest on the open sea or one that breaks into foam on the shore lomi val, prijelomi val

breaker /ˈbreika/ (n) (electr, safety) automatska sigurnosna sklopka, automatski isklopnik

breaker (n) (nav arch) rezalište brodova ~‘s yard rezalište brodova: The number of container vessels sent to breakers’ yards so far this year will shortly eclipse the total demolished in 2015

break-even freight rate (n) (shipping econ) prag korisnosti / isplativosti
vozarine, najniža ekonomična vozarina

break free (v) 1 (seamanship) okvačiti se (od veza), odvezati se (nenamjerno): Three barges have broken free from the towing vessel after alliding with the Helena Highway Bridge pier. The crew often connect it directly to the ship's structure so that the raft will not break free should the vessel sink.; 2 otrgnuti s s veza / sidra: Super Typhoon Meranti caused a 14,000 teu newbuild container ship break free from its moorings and strike shoreside in cranes. A large cruise ship broke free from its moorings due to strong winds in Freeport, Bahamas on ...

break ground (v) (seamanship, navig) when the anchor lifts clear of the bottom i ti said to break ground osloboditi se od dna (o sidru), otpustiti se od dna (o sidru)

breaking force (n) (marine eng, seamanship) prekidna sila fiber average ~ prekidna sila niti

breaking in (n) (marine eng) COMPARE running in a short period of running of the marine engines under no load so that the piston rings are allowed to seat and lubricated properly. uhodavanje (stroja / dijelova stroja) bez opterećenja, razrada (stroja / dijelova stroja) bez opterećenja: The breaking in time may differ from engine to engine and is provided in the engine manual by the makers. An average breaking-in time for a four stroke engine is 48 hours.

breaking load (n) (phys, seamanship, ship handling) sila pucanja (užeta, sila kidanja (užeta), opterećenje kidanja (užeta): The parted fall wire was observed to be in good condition and when tested after the accident, it achieved a breaking load of 137kN. minimum ~; MBL minimalna sila kidanja, minimalna sila pucanja: When the components of the mooring systems were evaluated, one vessel was found to have mooring lines with a Minimum Breaking Load (MBL) of 104 mt when new.

breaking strength (n) (marine eng) sila pucanja (užeta): The test certificate stated its minimum breaking strength of 101,6 tonnes when new.

breaking yard (n) (nav arch) rezalište brodova, brodorezalište

break loose (v) (navig, seamanship) otkinuti se (konop), popustiti (sidro), otkinuti / otrgnuti se sa sidra (o brodu): The last length of chain had broken loose from the chain locker, and the AB was hit and fatally injured by the bitter end. In the harbor a fifty-foot boat broke lose from its anchor and went careening through the mooring field where dozens of boats where moored.

break off moorings (v) (ship handling) otkinuti se s veza (zbog pucanja privezne užadi): The capesize bulker broke off moorings and contacted the berthed containership.

break of forecastle (n) (nav arch) the point where the forecastle changes level to the main deck or shelterdeck skok kaštela

break out (v) (safety) izbiti (o požaru): The fire broke out Friday evening as the ferry was about 34 miles from the coast of Japan. The crew of a bulk carrier has been evacuated after a fire broke out in a cargo hold off the coast of the Canary Islands. Fire broke out due to an explosion in one of the containers. https://www.marinelink.com A fire broke out onboard the RoRO ferry. ~ out izbiti (o požaru): Fire broke out in the vessel engine room.
break up (v) (safety) prelomiti se (brod): The ship broke up and sank. As the disabled vessel approached the English coast there was a growing concern that the vessel could break up or sink. Salvors instead opted to break the ship up on the beach using explosives. The company officials feared that the ship could break up and sink so she was intentionally beached in ... Bay off the coast of ...

breakwater /ˈbreikwɔːtər/ 1 (ports) lukobran, Italian: frangiflutti; frangionde: The ship then turned to port and sailed towards the Langlütjen breakwater in a wide arc. On clearing the breakwater, the skipper ordered the helmsman to head in a northerly direction. Another vessel was leaving the harbour and had just passed the breakwater and was in the main channel. ~ head glava lukobrana, vanjski kraj lukobrana: The ship was anchored in the designated area about eight cables south of the breakwater head. ~ entrance ulaz kod lukobrana: The heavy swell abeam made the ship roll very heavily all the way to the breakwater entrance, causing us much anxiety. ~ outer ~ vanjski lukobran: The passage plan for this voyage finished at the outer breakwater.

breakwaters /ˈbreikwɔːtəriz/ (n) lukobran;

bream /briːm/ (n) 1 (fishing) ribe iz porodice Sparus aurata, arbuni itd.; 2 (fishing) komarča, podlanica, orada, lovrata gilt-head ~ orada

breakwater light (n) (navig) svjetlosna oznaka na lukobranu: the vessel was 1.62 miles north of the breakwater light

bream (v) (nav arch) čistiti dno broda od obraštaja

breast hook /breɪst/ (n) (sailing vessels, nav arch) a triangular plate bracket joining structural members of the port and starboard sides at the stern (https://www.wartsila.com/encyclopedia/term/breast-hook) pramčano koljeno, pramčana vjenčanica, rašlje, zoja
breast line (n) (seamanship) a mooring line that leads from ship to pier at right angles to the ship
bočno uže, tresina; Italian: traversino: The vessel was berthed port side to the jetty, heading west, by four headlines, two forward breast lines, two forward springs, two aft springs and six sternlines. Although most winch manufacturers recommend that auto-tension is used only on breast lines, on one of the vessels all the lines were operated in auto-tension mode. The berth only really had one bollard for headlines, one for breast lines and one for springs. aft ~ krmeno bočno uže,
Italian: traversino di poppa, forward ~ pramčano bočno uže
Italian: traversino di prora
breath pipe /ˈbrɛθa/ (n) (boating/yachting, marine eng) a pipe opening into the crankcase to assist ventilation cijev odušnika, odušna cijev
breathing apparatus /ˈbreθɪŋ/ (n) (safety) aparat za disanje: One of the two crew started the hold ventilation fan, and brought a breathing apparatus (BA) set and an emergency escape breathing device (EEBD) to the f'ocsle. A fire party in breathing apparatus entered the engine room after a further 40 minutes. compressed air ~ aparat za disanje na komprimirani zrak, presurize the ~ tlačiti aparat za disanje (radi ispitivanja), don the ~ nositi aparat za disanje, staviti na sebe aparat za disanje: The Chief Officer donned a breathing apparatus, and dived from a lifeboat to detect the source of leakage. refill the ~ cylinder napuniti bocu aparata za disanje: a cargo ship suffered burns to his hands and face when he wrongly used a self-contained breathing apparatus (SCBA) air compressor to refill an oxygen breathing apparatus (OBA) cylinder, causing it to explode. wear the ~ nositi aparat za disanje: Soon afterwards, crew members wearing breathing apparatus rescued the chief officer and seaman.
breec /ˈbreʃ/ (n) (mar law) kršenje ~ of C/P terms kršenje uvjeta iz čartera
breec (n) 1 (seamanship) pomični kolotur u koloturniku; 2 (seamanship) otvor kolotura (kroz koji se provlači uže)
breec (v) (safety) probušiti: The hulls of both vessels were breached below the waterline, with the tanker sustaining extensive damages
breeces buoy (n) (safety) pojas u obliku trapeza za prebacivanje mornara s broda na brod ili obalu) trapezni pojas: Due to the conditions, rescuers were forced to evacuate the crew to shore using a breeches buoy in an operation that lasted several hours.
The weather was fine, with a light breeze and rippled sea. Despite being overcast, a light north-northeasterly breeze and slight seas meant a pleasant start for a day’s fishing. Visibility was good with a moderate breeze. The depth of water was 20 metres, the weather was fine with a light breeze. The company’s bridge procedures, checklists and navigational safety guidelines were set out in a series of bridge cards that were compiled together in the IMS to form a bridge manual. The bridge manual contains bridge cards for watchkeeping, bridge management, passage planning, navigation with ECDIS, preparations for arrival and pilot management.
bridge chair (n) (navig) sjedalica na zapovjedničkom mostu (za časnika straže): The OOW was sitting in the port bridge chair where he had a direct view of both radar and ECDIS displays.

bridge clearance (n) (navig) Slobodna visina mosta (za prolaz brodova), najniža visina mosta (za prolaz brodova)

bridge console (n) (navig, nav arch) pult zapovjedničkog mosta: - The layout of the central bridge console prevented the chief officer from utilising the ECDIS display to support the Master during pilotage. After the vessel left her berth, her master, who was positioned at the aft-looking bridge console, handed control to the chief officer. A radar was allocated to the pilot for his own use on the port side of the main bridge console. www.gov.uk/maib

bridge control (n) 1 (navig) upravljanje s mosta: The engine control was set to bridge control and a helmsman was using manual full follow-up (FFU) steering; 2 (nav arch) upravljački uređaji na mostu: The tow line became taut and the mate, who was at the bridge controls, stopped the winch as he could no longer pay out the line.

bridge crane (n) (cargo handling) = gantry prekrcajni most (dizalica)

bridge deck (n) (nav arch) mosna paluba, paluba zapovjedničkog mosta: All essential signalling systems, including SATCOM, were sighted on the upper bridge deck and destroyed by the fire.

bridge equipment (n) (navig) oprema na zapovjedničkom mostu: Check if all bridge equipment is logged Provjerite je li stanje sve opreme na mostu uneseno u dnevnik The ship's bridge equipment included X and S band radar displays that were set on the 6nm range scale. All bridge equipment was functioning normally. The ship’s bridge equipment included X- and S-band radars. All other bridge equipment, including speed logs, depth indicators, AIS and GPS receivers was operational and functioning as designed. bridge navigational equipment navigacijska oprema mosta: The OOW focused on finding a visual reference and did not utilise the bridge navigational equipment to effectively monitor the vessel’s progress.

bridge-fitting (n) (cargo handling) mostić (za spajanje vrhova kontejnera): The Boatswain wanted to send a seaman on top of the containers to place bridge-fittings.

bridgehouse (n) (nav arch) nadgrađe navigacijsko mosta, srednje nadgrađe

bridge layout (n) (nav arch) nacrt zapovjedničkog mosta

BridgeLink (n) (navig, nav arch) platforma integrirane navigacije BridgeLink: BridgeLink is a unifying platform for linking critical navigation equipment, such as radar, ECDIS, conning and propulsion control with vessel automation and power management and sensors used for monitoring condition and performance of engineroom systems. NauticExpo.com www.NauticExpo.com

bridge manning (n) (seamanship) postava posade mosta: A number of factors - predominantly relating to bridge manning and management - contributed to the incident.

bridge manual (n) (navig) The bridge manual contains detailed instructions for watchkeeping, bridge management, passage planning and pilot management. priručnik o radu na navigacijskom mostu: The bridge manual formed part of the IMS and detailed the company’s bridge procedures, checklists and navigational safety guidelines.
The fundamental requirements of planning and executing a safe navigational passage must be clearly and fully understood and implemented by all bridge officers. After lunch, the bridge OOW gave the duty engineers permission to test the main engine.

Bridge personnel were not functioning as a team on either vessel.

The company’s bridge procedures, checklists and navigational safety guidelines were set out in a series of bridge cards that were compiled together in the IMS to form a bridge manual. The SMS bridge procedures provided by the managers were comprehensive and included extensive guidance on the conduct of navigation using ECDIS.

Effective bridge resource and team management should eliminate the risk that an error on the part of one person could result in a dangerous situation. The principles of bridge resource management (BRM), such as consultation and cross-checking, are equally applicable to engine room operations, particularly during an emergency. Contributing to the circumstances that resulted in the collision was the inadequate bridge resource management between the master and the pilot.

It is imperative that pilots and ships’ bridge teams work together and implement the best practices of Bridge Resource Management to ensure the safety of both ships and ports.

Then he used the search light on top of the bridge roof and operated by a handle just above the manoeuvring desk.

All the officers involved will attend a Bridge Team/Pilot Relationship course on a full mission ship bridge simulator.

The bridge team included the OOW, an AB and a deck cadet. All members of a bridge team should be briefed on the plan, encouraged to actively contribute to the vessel’s navigation. The bridge team consisted of the Master, the pilot, the third officer as the officer of the watch (OOW), and a helmsman. The bridge teams of both vessels were in VHF contact, but each team developed different understandings of how the meeting would be conducted. The bridge team comprised the master and the river pilot, who was
conducting the navigation and providing pilotage advice to the master. The ship’s **bridge team** consisted of the master, second officer and an AB. As soon as a fire is detected, **bridge team** should be informed.

**bridge team management** (BRM) the management of the human resources available to the etc.—and how to ensure that all members contribute to the goal of a safe and efficient voyage. **upravljanje ljudskim resursima na mostu, upravljanje ljudskim potencijalima na mostu:** Poor **bridge team management** on the vessel resulted in a lack of accurate vessel. **Good bridge team management** is a vital tool in any navigational situation. Ensure that every member of the team is aware of the plan, their role in it, and that they are empowered to monitor the actions of others in the team. MAIB Safety Digest 2/2018 **breakdown of ~ krah / neuspjeh upravljanja ljudskim potencijalima na mostu,** effective ~ učinkovito upravljanje ljudskim resursima na mostu: Effective **bridge resource management** should eliminate the risk that an error on the part of one person could result in a dangerous situation.

MAIB Safety Digest 2/2018, ~ **course:** • All masters and chief officers serving in the LNG carrier fleet, are required to participate in **Bridge Team Management courses** every five years (https://safety4sea.com/)

**bridge telegraph** (telegraf na mostu): mostni telegraf

**bridge-to-bridge communications** (komunikacije most-most)

**bridge watch** (straža na zapovjedničkom mostu): the bridge watch consisted of the lookout and the chief officer. He undertook only **bridge watches**, leaving all the cargo work to the mate. The master was in charge of the **bridge navigation watch** and was accompanied by the bosun and a deck cadet.

**Bridge-Watch alarm** (alarm u slučaju smrti časnika straže): At sea, the **Bridge-Watch alarm** should be switched on.

**bridge watchkeeper** (časnik straže na mostu): A **bridge watchkeeper** should not be alone at night. I was the junior **bridge watchkeeper** on a 9,000 grt cargo liner belonging to a reputable company.

**bridge watchkeeping** (držanje straže na mostu): The managers of the MV ... have taken action to improve the standard of bridge watchkeeping on board their vessels. However, the Master and deck officers did not implement the ship manager’s policies for safe navigation and **bridge watchkeeping**.

**bridge wings** (krila mosta): The STS superintendent was on the manoeuvring ship and had the con, while standing at the outboard end of the port **bridge wing**, before the non-running generators could come on line to give the demanded additional power, the ship collided with the moored vessel, damaging her **bridge wing** and windows.

**bridle** (a length of rope, wire or chain secured at each end to a spar, to the bight at which a purchase can be hooked (in the case of the spinnaker pole, to spread the load of the downhaul) (Mayne 2000); A length of wire or rope joined together at a midpoint; designed to distribute load in two or more directions

http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ **račvasto uže** (u obliku slova Y), uže privezano s oba kraja na obalu ili brod (tegljač), račva: Tug A was towing from the centre **bridle** to two chaffing chains to Smit brackets. On arrival on scene, the lifeboat offered a tow and the owner rigged a **bridle** to secure the tow line.
; 2 (boating/yachting) uzde prednjeg leta na katamaranu; 3 račva: I use a bridle for my 43 foot monohull because it ends up hunting too much with a single line attached to a port or starboard forward cleat mainsheet ~ račva škote
decided to make a broad alteration to starboard, ~ the ship alongside (navig, seamanship): ... despite the breakdown of the structural barriers, the ship’s officers and crew managed to contain the emergency situation and bring the ship alongside at the Suez Canal Container Terminal without any personal injury or pollution to the environment. dovesti brod bočno uz obalu, pristati uz obalu, ~ under control dovesti pod nadzor, dovesti pod kontrolu: He managed to extinguish the fire and bring the situation under control., ~ a ship to the pilot station (navig) dovesti brod do peljarske postaje: Two days ago, I brought a large fast container ship from Hamburg down to the pilot station seven miles off Brixham. donijeti
bring about (v) (boating/yachting) to reverse or change directions, to turn around. okrenuti (jedrilicu / brodicu)
bring in (v) ANTONYM let out (boating/yachting) zategnuti (uzdu, škotu, škotinu)
bringing to 1 (navig) manovra dovođenja broda do pozicije sidrenja bringing to 2 (navig, seamanship) okrenuti pramac broda: As the vessel entered a narrow part of the channel, the pilot requested a slight change of heading to port. The helmsman brought the head around and applied starboard helm to steady her on her new heading. However, the vessel’s head continued to pay off to port.
bring the ship’s head to wind (v) (navig) okrenuti pramac u vjetar: The port main engine tripped due to the excessive list and, with only one engine, there was not enough power to bring the ships head into the wind.
bring the ship to a stop (v) (navig) zaustaviti brod: As Captain of a hovercraft, I could bring it to a dead stop from 65 knots in a mere quarter-of-a-mile
bring to 1 a (navig) dovesti brod na poziciju sidrenja; 2 (navig, boating/yachting) zaustaviti brod okretanjem u vjetar; 3 (mar law) dovesti brod do mjesta ukrcaja vlasti (carinskih, zdravstvenih, lučkih, pogranične policije itd.)
bring up (v) (navig) dovesti brod na poziciju sidrenja: The ship is being brought up. Brod dolazi / plovi na mjesto/poziciju sidrenja The ship is brought up. Brod je na poziciji sidrenja However, at 1111, the twist was cleared, the anchor was dropped and the ship was brought up to 9 shackles in the water.
British thermal unit (n) (marine eng) britanska toplinska jedinica brittle /ˈbritəl/ (adj) (marine eng) krt, krhak, lomljiv (materijal), loman brittleness /ˈbritlɪns/ (n) (marine eng) krhkost, lomljivost BRM (=Bridge Resource Management) (n) (hum_resources, navig) = bridge resource management Bridge resource management (BRM) is the effective management and use of all available resources, both human and electronic, by the bridge team to ensure the safe navigation of a ship. (www.gov.uk/maib upravljanje resursima na mostu: BRM incorporates concepts such as workload management, problem-solving, decision-making, communication and teamwork. www.gov.uk/maib No bridge resource management training or refresher training was carried out. The master and chief officer of the ship had received BRM training in the form of maritime resource management training in June 2... www.gov.uk/maib broach /brəʊtʃ/ (v) 1 (boating/yachting) otopadanje nekontroliranim zakretanjem pramca niz vjetar
A sailboat broaches when its heading suddenly changes towards the wind due to wind/sail interactions for which the rudder cannot compensate.

(Wikipedia) **broaching** (n) (cargo, safety) provala, provalna krala (tereta) ~ of cargo

**broaching to** (n) 1 (navig) a sudden movement in navigation, when the ship, while sailing in the following seas and wind astern, accidentally turns her leeward side to windward, skretanje (broda) u vjetar, bježanje (broda) u vjetar; 2 (boating/yachting) bježanje (jedrilice) u vjetar, bježanje i orcu, štraorcivanje; Italian: starorzata

**broach to** (n) (ship handling, boating/yachting) to get crosswise (without power) to the direction of wave travel; particularly dangerous near a beach. naglo skretanje s opasnošću preVRTanja (jedrilice, broda), nekontrolirano otpadati (od vjetra), štrapoljaž; Italian: strapoggiare: As the crew unloaded their luggage, the fierce current and the weight of the cargo net caused the boat to swing and broach to the current. He managed to cling on to the top guard rail and as the yacht had almost certainly broached to windward and stayed effectively hove-to, its speed through the water was substantially reduced.

**broadcast** /ˈbrɔːst/ (v) (comm) odslati, emitrati: The Coast Guard is broadcasting a notice to transiting vessels every 12 hours via VH-F channel 16. Broadcast SAFETY or URGENCY message, if appropriate. ~ a distress call and message emitrati poziv za pomoć i poruku o pogibli, ~ the information emitrati informacije / podatke: The beam trawler’s AIS was transmitting static and dynamic information, including its status (engaged in fishing), SOG and COG. However, no heading information was broadcast.
Mission Coordination); re-transmission of a distress message emitiranje informacije o traganju i spašavanju: Broadcasts of SAR related information are normally initiated by the SAR Mission Coordinator (SMC). A distress broadcast (Mayday Relay) may, however, be retransmitted or initiated by a station that learns that a mobile station (aircraft or vessel) or person is in distress and it is apparent that further assistance is required. CAMSAR II – Mission Coordination

broaden /ˈbrɔːdn/ (v) proširiti (se), raširiti (se), rastegnuti (se)
broad on (adv) (navig) Široko po prednjoj strani broda: The ship was almost broad on to the wind and rolling up to 35/40 degrees, when she took a few heavy rolls of more than 40/50 degrees. ~ on the starboard beam desno po pramčanom boku, ~ on the bow halfway between dead ahead and abeam, and halfway between abeam and astern, respectively. Široko po pramcu: When the ferry was 5 miles away and broad on our port bow, she altered about 300 to her port, which considerably worsened the situation. At approximately 2115 I sighted the silhouette of a barge in the moonlight broad on the starboard bow at fairly close range.
broad reach (=broad raching) (n) 1 (boating/yachting) SEE point of sail A point of sail where the boat is sailing away from the wind, but not directly downwind with the sails let out nearly all the way. https://www.ypiyachts.com/ s vjetrom u pola krme: The skipper, who was helming at the time, handed the wheel to one of the trainee crew and instructed her to keep on a port tack on a broad reach.; 2 (boating/yachting) jedrenje s vjetrom u pola krme
broadside (adv) (navig, ship handling) bokom prema valovima / vjetru become ~ to the wind / sea biti okrenut bokom prema vjetru / valovima (o brodu): As the vessel became broadside to the wind this also added to the total heeling effect and a maximum list/heel of 60 deg was reported. (https://safety4sea.com/) As the vessel became broadside to the wind this also added to the total heeling effect and a maximum list/heel of 60 deg was reported. (https://safety4sea.com/)
BROB (=Bunkers Remaining on Board) (n) (seamanship) preostalo gorivo na brodu
broken (adj) slomljen, prekinut, puknut ~ line (seamanship) puknuto uže /
konop: The accident resulting in severe injuries to 2 people caused by three broken lines while making fast the ship. The broken mooring rope was a 70mm diameter polypropylene monofilament 8-strand plaited rope., ~ leg / arm / bone / rib skomljena noga / ruka / kost / rebro: I then went to my GP (general practitioner) who sent me to hospital for an X Ray where they discovered three broken ribs.
broken down (n) u kvaru, pokvaren, havariran: the pilot boat engine had broken down
broken image (n) (navig) iskrivljena / nejasna slika (na radaru)
broken stowage (n) (shipping econ) 1 the spaces between and around cargo units, including dunnage, and spaces not available for cargo stowage because of physical obstructions or ventilation and access requirements; Amount of unused space in a ship or a hold by virtue of the irregular shape of the cargo. For example, the space taken up by a bundle of bars of irregular length would be calculated on the basis of the longest length, as if all the bars were of that length. http://www.tkmglobal.net/chartering_B.HTM neiskorišteni brodski prostor, izgubljeni prostor; 2 (cargo handling) ispuna za neiskorišteni brodski prostor
broker /ˈbraʊkər/ person who transacts the business of negotiating between merchants and shipowners respecting cargoes and clearances, or one who effects insurances with underwriters; person who arranges for transportation of loads for a percentage of the revenue from the load posrednik, mešetar,
broker: ... in 1980 he joined ... Marine in London and operated as a dry cargo broker on the Baltic Exchange until 1985. insurance ~ osigurateljski posrednik, osigurateljski broker: More specifically brokers connected with the maritime industry can be categorised as: Insurance brokers, who act as the intermediary between the ship/cargo owner and the underwriters when marine insurance is negotiated, loading ~ Company that represents a shipping line at the port of loading brodarov agent / predstavnik u luci ukrcaja, brodarov broker, zastupnik: The loading broker's duties are to advertise the line's sailings, to obtain cargoes and co-ordinate their delivery to the ship and to sign bills of lading on behalf of the master, cargo ~s brokeri tereta: Commodity brokers connect sellers and buyers for any specific commodity and Cargo Brokers connect “Commodity Traders” who trade in commodities and Ship owners for the carriage of the commodities., shippingandfreightresource.com brokerage (n) (shipping econ) freight forwarder/broker compensation as specified by ocean tariff or contract; Fee or commission payable by a shipowner to a shipbroker for successful negotiation of a charter. It is normally expressed as a percentage of the freight or hire and demurrage. Brokerage may or may not be payable, according to the terms of the Charter-Party, should the voyage or period of the charter not be completed http://www.thmlglobal.net/chartering_BHTM, Brokerage is the percentage of freight payable to broker (by owners in c/p's) or applicable to sale or purchase.
https://www.logisticsglossary.com/term/brokerage/ naknada za posredništvo, špediterska provizija brokerage /ˈbraʊkərɪdʒ/ 1 (mar law) brokerstvo, mešetarenje (u pomorskoj trgovini); 2 brokerske usluge ~ commission brokerska provizija brokerage clause (n) (mar law) klauzula o proviziji (za posredništvo) bronze /ˈbrɔːn/ (n) (marine eng) bronca, bronza aluminium ~ alumiška bronca, manganes ~ manganska bronca, phosphor ~ fosforna bronca brought up /ˈbrɔːtɜp/ (n) (seamanship, navig) doveden na mjesto sidrenja (o brodu), usidren: At 0300 it was confirmed the vessel was brought up and holding her position with 8 shackles in the water.
brow /ˈbraʊ/ (n) (navy) = gangplank Large gangplank leading from a ship to a pier, wharf or float; usually equipped with hand rails. Used to cross form one ship to another, and from a ship to a pier. (http://www.quarterdeck.org/index.html) brodska skala (tavalon), mostić, pasarela brown meagre /ˈmiːɡ/ (=corb) Lat. Sciaena umbra kavala, konj, krap, pešikaval,
The brown water environment starts from the shoreline through to the end of the continental shelf. (https://en.wikipedia.org/wiki/Maritime_geography); an inland or coastal waterway (US) riječni i unutrašnji plovni putovi: For brown water hulls big enough to merit ballast water treatment systems, the price tag for those systems could hit $1 million MaritimeReporter-2016-06 <l merchant fleet’s 40,000 hulls are largely comprised of brown water, inland, workboat type vessels. … at a time the U.S. merchant fleet’s 40,000 hulls are largely comprised of brown water, inland, workboat type vessels. Designing such a vessel that can incorporate the training needs of all vessels and the skills necessary in today’s wo MaritimeReporter-2015-08 … as many as 39,500 of our collective 40,000 merchant hulls can be classified as brown water, shallow draft tonnage MaritimeProfessional-2016-03 ~ tonnage brodovi za unutrašnje plovne putove, ~ operator riječni brodar, brodar brodova unutrašnje plovidbe, ~ vessel brod unutrašnje plovidbe, brod riječne plovidbe; 2 (US, geogr) obalne vode, obalno more: <tlCorpus> <sentence> That said; it is also fair to note that inland / brown water mariners typically have much shorter work rotations than do their blue water, deep draft counterparts. MaritimeReporter-2016-04 brown water navy (n) (navy) any naval force capable of military operations in river or littoral environments, especially those carrying heavy sediment loads from soil runoff or flooding (https://en.wikipedia.org/wiki/Brown-water_navy) ratna mornarica za unutrašnje vode i priobalje Bruce anchor (n) (boating/yachting) sidro tipa Bruce, Bruceovo sidro: The skipper
set his new 20kg “look-alike” Bruce anchor in calm conditions, with a trip rope to aid recovery, and then retired for the night with no watch set.

bruise /bruːz/ (n) (med) modrica, masnica: A suitable pair of gloves provides protection to the hands against cuts, and bruises. https://www.transportstyrelsen.se/

brush /brʌʃ/ (n) 1 (seamanship) četka, kefa; 2 (seamanship) kist, pinel

Brussels conventions (n) (mar law) The main international conventions are referred to as Brussels Conventions, because the diplomatic conferences at which they were adopted were held in Brussels and the Belgian Government acted as depository of the Conventions and of the related instruments of ratification, accession and denunciation Briselske konvencije

B.Sc (=Bachelor of Science) (n) prvostupnik, baccalaureus, prvostupnik inženjer, univ. bacc.

BSc Degree Marine Engineering (n) (mar law, marine eng) SEE academic awards in ship officer programmes (UK) - Marine Engineering

akademski stupanj prvostupnika brodskog strojarstva (UK): The Warsash Academy offers a full engineer officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Engineer Officer’s Certificate of Competency (STCW A-III/I OOW), a Foundation Degree (FdEng) in Marine Engineering and a direct top-up pathway to BEng (Hons) Marine Engineering and Management. (http://www.warsashsuperyachtacademy.com/courses/engineering/cadetships/engineer-cadet-hnd-programe/course-details.aspx)

BSc Degree Marine Operations Management - UK (n) (mar law, navig) SEE academic awards in ship officer programmes (UK) - Marine Engineering

akademski stupanj prvostupnika nautičkih znanosti: The Academy offers a full deck officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW’95 II/I OOW), a Foundation Degree (FdSc) in Marine Operations and a direct top-up pathway to BSc (Hons) Marine Operations Management. (http://www.warsashacademy.co.uk/courses/course-pages/deck-cadet-foundation-degree-programme/course-details.aspx) Bachelor of Science (Honours) Degree in Marine Operations Management

akademski stupanj prvostupnika nautičkih znanosti (napredni studij): Warsash Maritime Academy offers an academic top-up programme leading to a Bachelor of Science (Honours) Degree in Marine Operations Management. (http://www.warsashsuperyachtacademy.com/courses/engineering/cadetships/engineer-cadet-hnd-programe/course-details.aspx) BSc (Hons) indicates one has completed an Honors Degree Bachelor of Science undergraduate program. An ordinary Bachelor of Science accepts grades on a pass/no pass basis. In contrast, an honors designation requires that students demonstrate superior academic performance. (http://www.warsashsuperyachtacademy.com/courses/engineering/cadetships/engineer-cadet-hnd-programe/course-details.aspx)

BSc Degree Nautical Science - UK (n) (mar law, navig) SEE academic awards in ship officer programmes (UK) - Marine Engineering

BSS (=basis) (n) (shipping econ) osnovni uvjeti ponude u čarteringu owners’ best ~ brodarova najbolja ponuda

BTU (=British thermal unit) (n) (marine eng) britanska toplinska jedinica: This means that ... it will be cheaper to operate on conventional HFO using a SOx scrubber and SCRs if the
price of HFO is 500 USD/ton and the price of LNG is >12.3 USD/mmBTU. ... Considering both CapEx and OpEx costs, the break-even price for LNG is 12.3 USD/mmBTU.

www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf As LNG is typically priced in USD/mmBTU, it is challenging to understand the actual price without further conversions. 12.3 USD/mmBTU corresponds to 42 USD/MWh.

---

**bubble** /ˈbʌbəl/ (n) mjehurić
**bucket** /ˈbʌkit/ (n) (seamanship) kablić, vjedro, bujol: Before knocking off he suggested that they dip the tape in a bucket of hot water for a few minutes immediately before using it.

**bucket elevator** (n) (cargo handling) vjedričar, žličar

**bucket grab** (n) (cargo handling) vjedrasta grabilica, grabilica u obliku vjedra, The superintendent informed everyone that the ship’s bucket grabs were to be taken ashore.: However, for bucket grabs connected to the crane for handling bulk cargoes, it is prudent to make a substantial reduction The superintendent informed everyone that the ship’s bucket grabs were to be taken ashore.

**bucket wheel dredger** (n) (cargo handling) jaružalo vjedričar

**buckle** /ˈbʌkl/ (v) (nav arch, safety) saviti se, ulegnuti se (lim): Bottom plating on port side of keel buckled extensively for a length of about 15 metres from stem and holed in fore peak tank and bow thruster space Oplata dna s lijeve strane kobilice bila je jako udubljena u dužini od oko 15 metara od pramčane stavke i probijena u prostoru tanka pramčanog pika i pramčanog porivnika. The impact caused the tank frame to buckle and resulted in the release of a small quantity of the tank’s contents.

**buckling** /ˈbʌkliŋ/ (n) (nav arch, marine eng) the departure of a plate, shape, or stanchion from its designed plane or axis when subjected to load or to strains introduced during fabrication, thereby reducing its ability to carry loads savijanje, uleknuće (limova i konstrukcije pri sudaru): Hull girder strength and buckling checks are carried out on all critical sections along the entire length of the hull. The hull failed along the line of a welded deck seam close to the tank hatch coamings, causing buckling of the main deck and ship sides. An investigation into the accident determined that, among other contributing factors, the vessel’s hull did not have sufficient buckling strength. ~ in compression izvijanje kad je brod u progibu

**buffer** /ˈbʌfər/ (n) (marine eng) something that lessens or absorbs the shock of an impact odbojnik, amortizer, prigušivač

**buffer** (v) (marine eng) to act as a buffer, to cushion, shield, or protect ublažiti, amortizirati

**buffer piston** (n) (marine eng) razvodni klip, povratni klip

**buffer spring** (n) (marine eng) amortizer

**buffer storage** (n) a device or area used to store data temporarily (in computers) međuspremnik (računala)

**buffer tank** (n) 1 (marine eng) tank za miješanje goriva, banana tank; 2 (marine eng) SEE settling tank taložni tank

**buffer time** (=buffers) (n) (logist, mar law) Rezervno vrijeme u projektiranju plovidbenog reda linija - gera servisa (koje koristimo u situacijama kada je brod “izašao” iz plovidbenog reda zbog zahtjeva u luci, slabije produktivnosti u luci, kvara stroja, štrajkova, nevremenja...). (J. Karmelić, personal information) rezervno vrijeme za nepredviđene okolnosti (u ispunjenju ugovorenog vremena putovanja broda): Therefore, we need to determine an optimal recovery policy and buffer time allocation to the ship route in order to minimize the total costs associated
with delays and recovery actions, such as increasing sailing speed. Some liner shipping companies add “buffers” at certain voyage legs to account for uncertain events that may delay the vessels throughout the planned voyage. However, for significantly large delays, the buffers are usually not enough to recover the vessel schedule. Also, an introduction of many buffers in the liner shipping network affects the network efficiency.

**buffing machine** (n) (marine eng) the process of cleaning and removing debris and hard deposits like carbon and sludge from the surface of the metals alatni stroj za politranje, alatni stroj za sjajenje: A buffing wheel or buffing tool, which is a metal wire wheel, is attached to a portable hand driven buffing machine or an installed buffing wheel.

**build** (v) (marine eng, nav arch) graditi, izgraditi ~ in ugraditi, ~ a ship izgraditi brod: Two vessels were built at Damen Maaskant Shipyards Stellendam using hulls fabricated in Germany, and were delivered in February and May this year. https://gcaptain.com/damen-shipyards-group-celebrates-multiship-carrousel-rave-tug-winning-the-maritime-award

**builder** (n) 1 (nav arch) proizvođač; 2 konstruktor builders (n) 1 (nav arch) brodogradilište: He left school at 16 and worked in a boat builders. The bolts had not been properly tightened up after its first trial inspections in the builder’s yard. ； 2 brodograditelj

**builders trials** (n) (nav arch) an event conducted by the shipyard/contractor to inspect, test and evaluate a ship’s performance underway pokusne vožnje, probne vožnje

**building slip** (n) (nav arch) = slipway An inclined launching berth where the ship is built https://officerofthewatch.com/tools/maritime-dictionary/ navoz

**build the pressure** (v) (cargo handling) povećati tlak (u cjevovodu tereta) build-up (n) (navig) rast, narastanje, gomilanje, akumulacija, povećanje ~ of traffic povećanje prometa (u kanalu), rast prometa (brodova): Because of morning fog, there was a build-up of slow-moving traffic in the Great Bitter Lake. ； 2 (oceanogr) akumulacija leda, stvaranje naslaga; 3 (safety) nakupljanje, akumulacija: The liferaft bowing wires had seized in their aluminium channels, on the ship’s side, due to a build up of corrosion deposits within the channels.

**bulb** /bʌbl/ (n) 1 (nav arch) kruškolik pramac, bulb stern ~ kruškolika krma, krmeni bulb; 2 (electr) žarulja: The bulb was changed but without success and after several bulbs were plugged in with the same result it was found that the electric circuit was broken.

**bulbous bow** /ˈbʌlbəs bɔː/ (n) (nav arch) a part of the bow with a round, bulging shape at the bottom of a ship to improve flow and resistance characteristics pramčani bulb, bulbasti pramac, bulb pramac, kruška (pramca), pramac s bulbom, bulb: The vessel herself sustained only minor damage to her bulbous bow. Despite that, the ship continued to move forward with her bulbous bow ramming against the dam and only came to a standstill there. The bulbous bow provides a narrower profile aimed at reducing fuel consumption at slow speed.

**bulge** (n) (nav arch, marine eng) izbočina, isupućenje in the hull plating isbočina na oplati trupa

**bulid up** (n) (navig) razvijati brzinu, povećavati brzinu: The pilot put the engine astern and was building up through slow and half to full astern to bring the ship to a stop

**bulk** /bʌlk/ 1 (adj) glavni dio, najveći dio; 2 (n) rasuti teret
Traditionally, scrap metal has been carried in bulk and is, therefore, subject to the Bulk Cargo (BC) Code. The vessel loaded cement in bulk in two small ports in the Mediterranean.

2 voluminozan; 3 u rasutom stanju, u sipkom stanju:
A bulk carrier loaded a full cargo of wheat in bulk.

bulk cargo

1 (n) (cargo) tereti (suhi i tekući) koji se prevoze u velikim količinama i bez bez pakovanja; unpackaged cargoes such as ore, grain, and oil (includes both dry and liquid cargoes carried in bulk); loose cargo (dry or liquid) that is loaded (shoveled, scooped, forked, mechanically conveyed or pumped) in volume directly into a ship’s hold; e.g., grain, coal and oil.

voluminozn tereti, masovni tereti: Grain, coal and sulfur are usually bulk cargo A coaster, recently purchased by new owners, completed unloading her bulk cargo at a berth in a small harbour. Bulk carriers, ore Carriers or bulkers carry dry bulk cargoes.

liquid ~ tekući tereti, bulk graing cargo: Bulk grain cargoes are often fumigated to prevent or to address insect infestation.

break ~ komadni teret, generalni teret

bulk cargo

(dydry bulk cargo) (n) (cargo) unpackaged dry cargo such as iron ore, non-ferrous minerals, coal or grain; Usually a homogeneous cargo stowed in bulk, and not enclosed in any container. (http://www.euronav.com); dry cargoes carried in loose (=unpackaged) form, such as iron ore, metallic and non-metallic ores, coal, bauxite, alumina, phosphate, grain, sand, etc.), loaded in hip holds rasuti teret, sipki teret dry ~ suhi rasuti teret, rasuti teret

bulk cargo carrier (=bulk carrier; bulk-carrrier; bulkcarrier) (nav arch) brod za rasuti teret

bulk-carrier (=bulker; bulk cargo ship; dry bulk cargo ship) (n) (nav arch) = bulk cargo carrier = bulker

A single deck cargo vessel with an arrangement of topside ballast tanks for the carriage of bulk dry cargo of a homogeneous nature (http://www.ihsfairplay.com/About/Definitions/definitions.html)

brod za rasuti teret: A large bulk carrier, in ballast, embarked a pilot at the entrance to the port and headed upriver on an ebb tide.

Own vessel was a handymax bulk carrier. self-unloading ~ brod za rasute terete s vlastitim uređajem za iskrcaj tereta, geared ~ brod za rasute terete s vlastitim opremom za ukrcaj/iskrcaj tereta: Back in 1979, I was Master of a on a long-term charter carrying grain from the USA and Canada to Russia, and this often necessitated a Great Lakes transit.

bulk cement pipeline (n) (ports) cjevovod za iskrcaj cementa

bulk container (n) (cargo) a container designed for the carriage of free-flowing dry cargoes, which are loaded through hatchways in the roof of the container and discharged through hatchways at one end of the container. kontejner za sipke terete: Bulk containers are used in particular for transporting bulk cargo, such as grain, feedstuffs, spices. Some special dry bulk containers resemble tank containers.

bulker (=bulk cargo ship; dry bulk cargo ship; bulk-carrier) (n) (nav arch) =
bulk cargo carrier brod za rasute terete, brod za sipke terete gearless ~ a bulk cargo ship which does not have its own cranes and/or other form of cargo handling equipment brod za rasute terete bez vlastitog teretnog uređaja, geared ~ a bulk cargo ship which has its own cranes and/or other form of cargo handling equipment brod za rasute terete s vlastitim teretnim uređajem

bulker rate (n) (shipping econ) najamnina za brod za rasute terete: HANDYSIZE bulker rates have continued their cent rally in the past week, supported by a burst of demand in both the Pacific and Atlantic basins.

bulk freight (n) (shipping econ, US) = bulk cargo masovni teret

bulkhead₁ /ˈbʌlkhɛd/ (n) (nav arch) the vertical (cross or longitudinal) partitions that divide the ship’s hull into separate compartments; A vertical structural partition dividing a vessel’s interior into various compartments for strength and safety purposes; (termed strength bulkhead).

https://officerofthewatch.com/tools/maritime-dictionary/brodska pregrada: The bulkhead between the shaft tunnel and the main engine room could not withstand the hydrostatic water pressure ...

transverse ~ poprečna pregrada: On the inclined plates of the hopper tanks and in the lower hold and the lower stool of the transverse bulkhead, extensive damage in the shape of groove corrosion was found with depth up to 9mm in places., collision ~ protusudarna pregrada: The longitudinal bulkhead in way of water ballast tank no. 3 Finally, the collision bulkhead saved the boat from being lost. The collision bulkhead was not penetrated and there was no pollution., longitudinal ~ uzdužna pregrada, ~ door vrata pregrade, double skin ~ dvostruka pregrada, watertight ~ nepropusna pregrada, expansion-trunk ~ s pregrade ekspanzionih tankova; 2 a structure used to protect against shifting cargo and/or to separate the load pregrada

bulkhead₂ (n) (ports) A port structure designed to retain fill at locations with only limited wave action, and not to resist coastal erosion. lučka barijera (za zaštitu od rasipanja obale, nasipa itd.): The price of sea wall and bulkhead construction to be between EUR 750,000 per km and EUR 2 million per km. Filled bulkheads% provide a lower initial construction cost and lower maintenance costs than pile supported docks. Economics ruled out conventional pile-supported platform docks in favour of a new Open Cell Bulkhead. https://www.porttechnology.org/

bulkhead deck (n) (navig) Uppermost deck at which transverse watertight bulkheads terminate

https://officerofthewatch.com/tools/maritime-dictionary/pregradna paluba

bulkhead strake (n) (nav arch) voj pregrade

bulkhead stringer (n) (nav arch) proveza pregrade

bulk liquid (n) (cargo) Unpackaged, homogenous liquid goods, without mark or count and usually free-flowing, bought and sold by weight or volume, such as crude oil, oil products etc. tekući teret,
bulk liquid chemicals: Sampling is an important part of the bulk liquid cargo custody transfer process and can help in protecting the ship's interests in the event of disputes over cargo quality.

**bulk liquid chemicals** *(cargo)* kemikalije u razlivenom stanju

**bulk raw material** *(cargo, shipping econ)* sirovine u rasutom stanju, sirovine (koje se prevoze) u velikim masama

**bulk unloader** *(cargo handling)* lopatičar

**bulk vessel** *(nav arch)* = bulk-carryer brod za rasuti teret, brod za suhe masovne terete: The bulk vessel was now very close and collision could not be avoided; the bulk vessel struck the container vessel amidships on the port side.

**bulky** /ˈbʌlki/ *(adj)* velik, glomazan: The boat had an old bulky lifejacket stowed in the bows, and a lifebelt. ~ cargo COMPARE awkward cargo glomazan teret, teret velikog obujma

**bulldozer** /ˈbuldəzər/ *(cargo handling)* buldozer

**bullet** *(boating/yachting, figurative)* a first place victory in a sailing race. prvo mjesto (u jedriličarskoj regati)

**bullnose** /bʌlnəʊz/ *(nav arch)* 1 sidreno oko (u pramčanoj statvi); 2 *(nav arch, boating/yachting)* zjevača za privezno uže

**bull ray** (=common eagle ray) *(fishing)* Lat. *Myliobatis aquila* golub, sokol,

**sokol biskup, šipatka, krlatica**

**bulwark** /ˈbulwɑrk/ *(nav arch)* the wall (shell plating stroke) around any deck exposed to the elements. This includes the weather deck, the poop deck, the fore deck, and any deck on the superstructure. On top of the bulwark is a flat rail (or plate) called the rail. linica, partigeta (drvene brodice), Italian: paratia, mrtva banda, murada: A seaman was told to look over the bulwark and to inform the bosun when the breastlines had been released. The tug's deck is obstacle free and with a 1.1 m bulwark. ~ rail šina linice, rukohvat linice, ~ stay upora linice

**bulwark planking** *(sailing vessels)* oplata ograde

**bulwark rail** *(nav arch)* razma

**bulwark rail section** *(nav arch)* razma

**bulwark stanchion** *(sailing vessels)* izdanak rebra

**bulwark stay** *(nav arch, sailing vessels)* potporanj ograde, izdanak, štil

**bundle** /ˈbændəl/ *(cargo)* svežanj (tereta), snop

**bundling** *(logist)* Bundling is the assembly of pieces of cargo, secured into one manageable unit. This relevant to items such as structural steel, handrails, stairways etc.

https://www.logisticsglossary.com/term/bundling/ pakovanje tereta u svežnje

**bung** /ˈbʌŋg/ *(boating/yachting)* čep za ispusni otvor
bunker adjustment factor

bunker cord /ˈbʌndʒiˌkɑːr/ (=bungie, shock cord) (n) (boating/yachting) an elastic cord composed of one or more elastic strands forming a core, usually covered in a woven cotton or polypropylene sheath. elastična vezica (s metalnim ili plastičnim kucicama za vezivanje bez čvora), lastik (za skupljanje jedra i sl.): When it comes to boats, there’s never a shortage of stuff to secure, coil, or hang up. Bungee cords are the default go-to in many cases https://en.wikipedia.org/wiki/Bungee_cord

bunker (n) (seamanship) built-in sailor’s bed aboard ship mornarska postelja (u kabini), mornarski krevet, postelja u kabini, Italian: cucceta: The fishing vessel heeled over considerably, throwing one of the crew out of his bunk.

bunker /ˈbʌŋkər/ (n) (seamanship, marine eng) fuel used aboard the ship; Compartment for the storage of oil or other fuel.; (in old steam ships) a compartment used for stowage of coal gorivo, pogonsko ulje ~ delivery isporuka / ukrcaj goriva, ~ consumption potrošnja goriva, total ~ cost ukupna potrošnja goriva, ~ space prostor za spremanje goriva, prostor za bunker, coal ~ bunker za ugljen, spremište za pogonski ugljen, fuel oil ~ a large storage container or tank, originally for coal, but today mainly for fuel oil bunker za pogonsko gorivo, bunker za pogonsku naftu, ~ ex barge opskrba goriva s teglene-cisterne, ~ ex pipe opskrba goriva iz pumpnih cijevi na terminalu, grades of ~ vrste goriva, ~ barge maona / brodica za opskrbu gorivom: Just after midnight, a bunker barge moored on the starboard side of a bulk carrier at anchor off port limits (OPL), with two lines and a spring forward and aft. In quick successions, the master ordered ‘dead slow ahead’, ‘slow ahead’ and ‘full ahead’ on the main engine in order to clear the bunker barge. 41-0209_bsu_248-12 The crew of the bunker barge passed the ‘messenger line’ to a crewman on the PSV, along with two mooring ropes. MARS reports_1992-2016, ~ pipe cijev za osprbu gorivom: The full length of the bunker pipe should then be examined for its condition., ~ hose fleksibilna cijev za opskrbu gorivom: On close inspection the bunker hose outer core was found cut in two areas - see pictures., ~ requirements potrebe za gorivom: The Master was kept busy with the phone calls and frequent internal calls to the engine room about bunker requirements and myself (OOW) drawing up the new Passage Plan., ~ tank tank goriva: This had resulted from a split between the ballast tank and an adjacent bunker tank, which had been caused during the grounding., ~ line cijev za opskrbu gorivom: He checked the starboard fuel oil tank to reduce the pressure in the bunker line., ~ arm ruka za krcanje goriva, zglobna ruka za krcanje goriva: North Pier: Berths No. 11 and 12 loading arms: 3_16 in. cargo arms.; 2 compartment for the storage of oil or other fuel spremište za gorivo

bunker /ˈbʌŋkər/ (v) (marine eng) krcati gorivo: The vessel will bunker with approximately 200 tons of LNG at Rotterdam http://gCaptain.com The Chief Engineer had ordered a fuel barge to bunker 350 MT of fuel oil. https://safety4sea.com

bunker /ˈbʌŋkər/ (n) (nav arch) ugljenara (na parobrodu), bunker

bunker adjustment factor (n) (logist) When fuel prices are subject to major price fluctuations, the shipping company sometimes levies a bunker surcharge or BAF (Bunker Adjustment Factor) of BUC (Bunker Contribution) so as to compensate for the risks of price fluctuations. https://www.logisticsglossary.com/term/bunker-adjustment-factor/ naknada za moguće promjene cijene goriva ~ surcharge dodatak na vozarinu zbog
Maersk Line has announced a new Bunker Adjustment Factor surcharge, effective from the start of next year, which it claims is aimed at recovering the costs of compliance. Maersk Line said it will introduce a new Bunker Adjustment Factor (BAF) surcharge designed to recover costs of compliance with the global 0.5 percent sulphur cap set to enter into force on January 1, 2020.

Bunker Delivery Note (=BDN) (n) (shipping econ, marine eng) obavijest o isporuci goriva: BDNs were/are the weakest point in the bunker delivery process as the potential for deliberate manipulation of quality and quantity is rife as is the risk for pure error because of an exhausted Chief Engineer and worn out tankerman exchanging the BDN between the rail of a ship to the deck of a barge in the middle of the night and pouring rain.

Bunker fuel (n) (marine eng) gorivo: • Currently all modern commercial ships run on fossil fuels such as MGO (Marine gas oil), MDO (Marine diesel oil), IFO (Intermediate fuel oil), MFO (Marine fuel oil), HFO (Heavy fuel oil) collectively known as bunker fuel. Shipping and Freight Resource

Bunkering (n) (marine eng, seamanship) krcanje goriva, opskrbljivanje gorivom, bunkeriranje, krcanje bunkera, bunker ~ facilities oprema za opskrbu gorivom, kapaciteti / uređaji za ukrcaj i iskrcaj goriva, ~ operations operacija krcanja goriva, proces krcanja goriva: Cleanup is underway off Spain after a containership spilled fuel oil during bunkering operations Tuesday night.

Royal Dutch Shell has completed the first ship-to-ship LNG bunkering to take place at the Port of Rotterdam using the new specialized LNG bunker vessel.

Bunkering barge (n) (nav arch) teglenica za opskrbu brodova gorivom: Just after midnight, a bunker barge moored on the starboard side of a bulk carrier at anchor off port limits (OPL), with two lines and a spring forward and aft.

Bunkering hose (n) (marine eng) fleksibilna cijev za opskrbu gorivom, cijev za opskrbu gorivom: Have the bunkering hoses been satisfactorily connected ans suspended on ship and supplier? Jesu li crijeva za snabdijevanje sigurno spojene i osigurane između broda i snabdjevača?

Bunkering supply pump (n) (marine eng) dobavna pumpa goriva za brod: The bunkering supply pumps must be stopped momentarily at a place close to the manifold on supplier. Mora biti omogućeno trenutno prekidanje rada pumpi s mjesta u blizini manifolda.

Bunkers (n) (seamanship) a term referring to fuel used aboard the ship; the quantity of fuel on board a vessel; vessel's fuel and diesel oil supplies gorivo, bunker: The plan was to take bunkers before proceeding to Tacoma, USA.

Bunker spend (n) (marine eng) izdaci za gorivo: SimBunker optimizes vessels’ bunker spend, which can account for up to 60% of the total voyage costs, by determining optimal solutions for factors such as speed, bunker purchase and route.
**bunker surcharge** (=B/S) (n) *(mar law, shipping econ)* Extra charge applied by shipping lines, or set by liner conferences on behalf of their members, to reflect fluctuations in the cost of bunkers. This surcharge is expressed either as an amount per freight ton or as a percentage of the freight. Also referred to as bunker adjustment factor (BAF), or fuel oil surcharge (FOS), or fuel adjustment factor (FAF).

http://www.tkmglobal.net/chartering_B.HTM

**cijene goriva:** Maersk Line Introduces *Bunker Fuel Surcharge* to Counter Crude Price Rise

http://gCaptain

**BAF** surcharge faktor nadoplate na vozarinu zbog povećane cijene goriva: The liner operator will introduce a new Bunker Adjustment Factor (BAF) surcharge designed to recover costs of compliance with the global 0.5 percent sulphur cap set to enter into force on January 1, 2020.

**bunker tank** (n) *(marine eng)* tank goriva: When lining up for bunkering, confirm that the bunker tank filling valves are fully open according to the bunkering plan.

**bunker vessel** (n) *(nav arch)* tanker za opskrbu gorivom: monitoring and residual forward movement of the bunker vessel significantly contributed to the incidents; 3 Inadequate work planning: The size of the bunker vessel required more detailed hazard analysis and planning for the mooring operation ...

**buntline** /ˈbʌntln ; ˈbʌnt lain/ (n) *(boating/yachting)* konopac za odvijanje i ubiranje jedra oko deblenjaka i križeva; one of the lines attached to the foot of a square sail to haul the sail up to the yard for furling *ubralja* ~ *hitch* a type of knot used to attach a line to a shackle *uzao za škopac*

; 2 lines used to handle the sails of a square rigged ship, used in hauling (furling) the foot of the sail up to the yard *ubralja križnog jedra*
buoy /ˈboʊi/ (navig) a floating object of defined shape and color, which is anchored at a given position and serves as an aid to navigation; it can also be used to indicate a laid mooring; A floating object employed as an aid to mariners to mark the navigable limits of channels, their fairways, sunken dangers, isolated rocks, telegraph cables, and the like. (https://www.euronav.com) plutača, plovidbena oznaka, bova; Italian: boa: The VTSO replied: “Proceed to buoy No1. Keep watch all the time. floating ~ plutača, plutajuća oznaka, mooring ~ privezna plutača, navigation ~ navigacijska plutača, set a ~ postaviti plutaču na ucrtanu poziciju, approach the ~: On approaching buoy 9, the Pilot initiated the agreed starboard turn anticipating that the westerly set of the current would assist the vessel to swing to starboard. prilaziti plutači, pass the ~: At 2334 the master saw the other ship pass between the No1 buoys and became concerned that the container ship had not altered course to port as he had expected. proći plutaču, near the ~ približiti se plutači, lateral ~ lateralna plutača, bočna plutača: The mate glanced out of the window and noticed the flashing red light of a lateral buoy ahead., east / north / south / west of ~ No. ... istočno / sjeverno / južno / zapadno od plutače br. ..., distance from ~ No. ... udaljenost od plutače br. ..., pair of lateral ~ par lateralnih plutača, leave the ~ napustiti plutaču, fairway ~ prilaziti plutači na početku plovidbenog kanala, prići plutači koja označava plovidbeni kanal: The cargo vessel’s master was alone on the bridge as the vessel approached the fairway buoy. Shortly after leaving the harbour, the vessel was brought up in a position 1 cable from the fairway buoy, 1., go round the ~ oploviti plutaču: When approaching No. 1 buoy, go round the buoy and enter in the correct lane., channel ~ plutača koja
označava plovni kanal: With 1 mile to go, the chief officer called port control again and was instructed to keep east of the outer approach channel buoy, single point mooring ~ (SPM ~) vez na jednu plutaču: An oil tanker was moored to, and discharging to, a single point mooring (SPM) buoy, cardinal ~ kardinalna oznaka, glavna oznaka: He then altered course to 022° in autopilot to head directly towards a cardinal buoy at the start of the approach channel, the outer limits of which were marked by leading lights, deploy a ~ postaviti plutaču: A meteorological and oceanographic data buoy has been recently deployed approximately 60km offshore along the Northern coast of Poland.

buoyage /ˈbɔiɪdʒ/ (n) ~ system balisaža, General Direction of Marks opći smjer balisažnih oznaka: Around the British Isles the General Direction of Buoyage runs north along the west coast and through the Irish Sea, east through the English Channel and north through the North Sea (the opposite is true in IALA system B, for example in the USA). (https://www.trinityhouse.co.uk/mariners-information/navigation-buoys/lateral-marks) (safety, navig)

označavanje pomorskih plovnih putova, sustav označavanja plovidbenih putova, sustav oznaka plovnih putova, balisaža, Italian: segnalamento con boe; segnalazione

buoyancy /ˈbjuːjənsi/ US ‘bjuːjənsi/ (n) 1 (nav arch) ability of the ship or boat to float; the supporting effort exerted by a liquid (water) upon the surface of a body, wholly or partially immersed in it uzgon broda center of ~ the geometric center of gravity of the immersed volume of the displacement or of the displaced water, determined solely by the shape of the underwater body of the ship težište uzgonova, ~ tank uzgonski tank: It is important to realise that both the stern and bow buoyancy tanks must be kept watertight.; 2 (safety) plutanje, osobina plutanja: She was overloaded with equipment and fittings, and her freeboard and buoyancy were inadequate as a result. Fortunately, his lifejacket gave him the buoyancy to remain afloat and cling onto the side of the boat until the helicopter arrived.

buoyancy aids (n) (boating/yachting) uzgonska pomagala: All were wearing buoyancy aids. The passenger was not a strong swimmer and only had a 50N buoyancy aid on.

buoyancy bag (n) (boating/yachting) zračna komora od pneumatskih vreća smještenih u bokovima trupa jedrilice zbog kojih jedrilica pluta pri prevrtanju ili potapanju uzgonska komora

buoyancy bags (n) (boating/yachting) uzgonske pneumatske vreće

buoyancy curve (n) (nav arch) krivulja uzgona

buoyancy force (±Bf) (n) (stabil) the force acting vertically upwards sila uzgona: If the lines of Wf and Bf are considered, they will act to return the ship to the upright condition.

buoyancy reserve (n) (nav arch) rezerva plovnosti, rezerva plutanja

buoyancy tanks (n) (boating/yachting) Sealed tanks in the hull of dinghies that contain buoyancy to support the boat in case it capsizes https://www.ypiyachts.com/ uzgonske vreće (u trupu jedrilice), uzgonski tankovi (u trupu jedrilice)
buoyant apparatus (n) 1 (nav arch) užgonska oprema; 2 (nav arch) splav za spašavanje (zastarjelo)

buoyant lifeline (n) (safety) plutajuće uže za spašavanje

buoyed /UK bɔɪd; US ’buːɪd/ (adj) (navig) označen plutačom: the principal dangers are buoyed

~ fairway označeni plovilbeni kanal: The vessel came rapidly on port and got out of the

~ channel označeni plovilbeni kanal, plovilbeni kanal označen plutačama: As the tanker left the buoyed channel, the second ship was only 4 cables fine off the container ship’s port bow (Figure 8).
buoy laying vessel (n) (nav arch) brod za plutače, brod za postavljanje plutača

buoy mooring (n) (ports) vez na plutači: The port lifeboat had been launched while at a sheltered buoy mooring. I am a mooring Master at an offshore oil terminal and regularly berth large tankers to buoy moorings.

buoy tender (n) (nav arch) radni brod za održavanje plutača: The 180ft ocean-going buoy tender was underway, steaming at 12 knots on the north side of Kodiak Island.

burden; burthen /ˈbɜːn/ 1 (nav arch) the carrying capacity of a vessel teretni kapacitet broda; 2 (shipping econ) the weight of a ship’s cargo težina tereta na brodu full reach and burden the cargo space, which is normally available for cargo, including lawful deck capacity.

burdened vessel (n) (mar law, navig) = give-way vessel the vessel required by the Rules of the Road to keep clear of another brod koji je dužan izbjegavati, brod koji izbjegava

burden of proof (n) (mar law) teret dokaza, teret dokazivanja: The consignee or cargo owner has the initial burden of proving the physical loss or damage.

burden of proving (n) (mar law) teret dokazivanja: The consignee or cargo owner has the initial burden of proving the physical loss or damage.

burgee /ˈbɜːʒi/ 1 (boating/yachting) mala zastavica na vrhu jarbola koja pokazuje smjer prividnog vjetra; a triangular flag used to identify a yacht club or boating organization. Also used to indicate wind direction. https://www.ypiyachts.com/ vjetrulja, vjetrokaz; 2 a yachting pennant, usually pointed, identifying the shipowner or sailing organisation zastavica brodovlasnika ili jedriličarskog društva

burn /bɜːrn/ (v) gorjeti, izgarati: The fire burned through all cargo holds forward of the superstructure. ~ through progorjeti

burn /bɜːrn/ 1 (safety, med) opekлина: One crew member sustained first-degree burns in the fire. The chief engineer staggered backwards and suffered burns to his right forearm, face and chest. sustaining burns dobiti opekline, ~ injury opekлина: Burn injuries should always be immediately cooled, under clean, cold running water, for at least 10 minutes., convert ~ energy pretvoriti toplinsku energiju: The nozzle acts to convert heat energy in the steam into kinetic energy.; 2 (marine eng) izgorjelio dio ~ hole rupa nastala izgaranjem: Damaged piston crown: A burn hole of about 10 mm diameter was found in no. 6 piston crown., ~ damage šteta nastala izgaranjem: The resulting fire caused substantial burn damage to adjacent electrical fittings and paintwork on the deck, vertical surfaces of the bulkhead and a ventilator cowl.

burner /ˈbɜːnər/ (n) (marine eng) gorionik, gorač, plamenik pressure jet ~ tlačni gorionik, oil-fuel uljni gorionik, naftni gorionik, rotating ~ rotacijski gorionik, steam blast jet ~ gorionik s raspršivanjem putem vodene pare, ~ barrel tijelo gorionika, tijelo plamenika, ~ carrier nosač gorionika, ~ tip vrh gorionika, vrh plamenika
**burning** /ˈbɜːnɪŋ/ 1 (adj) koji gori, goreći: The vessel was later towed into harbour, still burning and with the main engine running. ~ surface goreća površina, ~ vessel zapaljen brod, brod koji gori: The crew abandoned the burning fishing vessel safely, using the liferaft to transfer to a nearby fishing vessel which had responded to the “Mayday”. ; 2 (n) gorenje, vatra smell of ~ miris gorenja: There was a smell of burning around the electrical supply breaker panels, and a number of earths were detected, as well as a high temperature bow thruster motor alarm.

**burn out** (v) (marine eng) pregorjeti, izgorjeti: No. 2 blower motor was also burnt out motor puhala br. 2 potpuno je pregorio

**burst** /bɜːst/ (v) (marine eng) prsnuti, puknuti, pući (o cijevi), eksplodirati: Meanwhile the ETO found the defective box which, when opened burst into flames. Forepeak tank vent heads burst and detached from base due to the shock pressure wave generated by the water inside the fully-ballasted forepeak tank.

**burton** /ˈbɜːtn/ (n) COMPARE block and tackle (seamanship) a light tackle having double or single blocks, used to hoist or tighten rigging manji čekrk, čekrk manje snage

**Spanish ~ čekrk s tri koloturnika i kukom**

6–55. Determine the force P needed to support the 20-kg mass using the Spanish Burton rig. Also, what are the reactions at the supporting hooks A, B, and C?

[Diagram of a Burton rig with force P and mass 20 kg]

**burtoning** /ˈbɜːtnɪŋ/ (cargo handling) a system of handling a ship’s cargo by means of a sling rigging between two derricks or masts krcanje tereta s dvije samarice, amerikana, udvojene samarice

**bus bar** /ˈbʌs bɑː(r)/ (n) (electr) sabirnica: Onboard tests showed that if the bus bar frequency dropped from 60Hz to below 58Hz, two of the three generators experienced severe voltage and frequency...
oscillations.
bush /bush/ (n) 1: The rotating gland is held in place by a two-piece clamp ring that is tightly mounted on the tail shaft and is also connected to the bush by means of bolts, maintaining the forward seal gland in position. a (marine eng) ležaj stapnog svornjaka, bukula; Italian: boccola; 2 klipna / stapna očica
bushing /ˈbʌʃɪŋ/ (n) (marine eng) A metallic or synthetic lining for a hole, which reduces or prevents abrasion between components (http://www.marinedieseleurope.com/) tuljac, rupa za osovinicu, bukula control ~ razvodna čahura, cilindar razvodnika
business account (n) (shipping econ) poslovni račun (u banci)
busy ports (n) (navig) luke s velikim/ gustim prometom: Jebel Ali is a very busy port that deals with a significant number of vessel movements each year.
busy waters (n) (shipping econ) prometne vode, vode s gustim prometom: The vessel lost her main propulsion engine in restricted and busy waters.
butt /bʌt/ (n) (sailing vessels) a place where two planks or steel plates are joined at the ends without overlapping štik planking ~ štikovi trenica, flush-welded ~ sučeono zavareni vodonepropusni stik
butt clearance (n) (marine eng) zračnost krajeva prstena, razmak krajeva prstena, čelni zazor (prstena): In addition, the butt, or end to end, clearance of the rings was excessively large and the rings were poorly spaced around the piston.
butt dowel /ˈbʌt, daʊəl/ (n) (sailing vessels) spojni šip
butterfly head krasta glava (vijka), leptirasta glava (vijka): Is it not possible that within the hatch the Bolt could be fitted with a Butterfly head, in order that the bolt can be released from the inside?
butterfly nut (n) (nav arch) krilasta matica, leptirasta matica
butterfly valve (n) (marine eng) A valve in the venturi unit which controls airflow. (http://www.marinedieseleurope.com/) leptirasti ventil
butterworth (n) (seamanship) A washing process used to gas free or clean a cargo tank, employing hot water or chemicals, sprayed through a patented rotating nozzle. ispiranje tankova, pranje tankova
Butterworth hatch (n) (nav arch) an opening on the deck of a vessel opened when cleaning or ventilating the tanks ventilacijsko grotlo, ventilacijski grotlo tipa
Butterworth, ventilacijski otvor: it had become normal practice to use the portable washers which were passed through open Butterworth hatches. The accompanying seaman, who opened the tank’s

Butterworth hatch, was not protected.
http://maritimeaccident.org/tags/jo-elk/
Butterworth hose (n) (cargo handling) water discharge hoses designed and manufactured for
the tank cleaning operations **gumena cijev u sustavu pranja tankova tipa Butterworth**: Connect two **Butterworth hoses** to Y piece in front of valve BG... and Fire Main Line. The function of a Tank Cleaning **Butterworth Hose** is to transport water or a cleaning solution from a water source such as pump or hydrant to the inlet of a portable tank cleaning machine.

**Butterworth machine** *(n)* *(cargo handling, nav arch)* stroj za pranje tankova tipa Butterworth

**butt joint** *(nav arch)* spoj dviju trenica *(madira)* po dužini, spoj na sljub, spoj na stik: Hence, fillet joints are susceptible, whereas **butt joints** never have this problem.

**buttock** /ˈbʌtək/ *(=buttocks) *(n) *(nav arch)* presjek brodskoga oblika ravninom usporednom s uzdužnom simetričnom ravninom; The curves shown by taking a vertical longitudinal section of the after part of a ship’s hull, parallel to the keel. [https://officerofthewatch.com/tools/maritime-dictionary/uzdužnica broda (vertikala), uzdužnice broda, uzdužna vodoravna ploha broda, uzdužna ravnina, uzdužne ravnine broda ~ lines] The curves shown by taking vertical longitudinal sections of the after part of a ship’s hull parallel to the ship’s keel.

**buttress** *(n)* 1 *(nav arch)* potporni stup *(rebro), oslonac, potporanj; 2 *(cargo handling)* lateral supports acting between the container stacks and the ship’s structure bočni.
potpornji za vezivanje kontejnera za strukturu broda
buttress system (n) (cargo handling) on large container ships - a system of large towers (bird cages) attached to the ship at both ends of each cargo hold, esp. deck cell guides on the stern; sustav palubnih vodilica za vezivanje i pričvršćivanje kontejnera, sustav vezivanja i pričvršćivanja kontejnera na brodu
butt seams (n) (sailing vessels) štikovi trenica
butt sewing (n) (nav arch, seamanship) odvajanje trenica radi šuperenja (kalafatanja
butt strap (n) (nav arch) stičnica
butt welding (n) (nav arch) čelno zavarivanje but joint welding stično

zavarivanje čelno zavarivanje
buyer /ˈbeɪər/ (n) = purchaser (shipping econ, mar law) kupac
BWAD (=Brackish Water Arrival Draft) (n) (nav arch, navig) gaz u boćatoj vodi dolasku pri dolasku broda
BWT system (=Ballast Water Treatment System) (n) (environ) sustav obrade balastnih voda: Fit your own BWT systems while in operation, without the need for dry-docking? Is that possible? https://www.trojanmarinex.com/systems/ A typical ballast water treatment system on board ships use two or more technologies together to ensure that the treated ballast water is of IMO standards. The SKID BWT systems can treat flow-rates from 10 to 2000 m3/h per ballast pump https://www.ballast-water-treatment.com/en/bwt-solutions/skid-system The Modular BWT system can treat flow-rates from 10 to 2000 m3/h per ballast pump.
by and large (prep phr) (boating/yachting) sailing somewhat off the wind (about five to seven points off) jedriti blago od vjetra
bye-laws /bai ˈloʊz/ (n) 1 (mar law) a lokalni propisi: Appropriate Byelaws, Regulations and directions for navigating in the Pilotage district; 2 (mar law) statut (tvrtke, trgovačkog društva)
by-pass /ˈbaipaːs/ (n) ~ valve cirkulacijski ventil, ventila za rasterećenje (marine eng) mimovod, obilaženje, bajpas, odvod
by-pass /ˈbaipaːs/ (v) obilaziti, odvoditi, voditi mimo, mimoilaziti, bajpasirati
by the board (prep phr) (seamanship) overboard preko palube, u stranu broda
by the head (prep phr) 1 (seamanship) deeper forward (front end deepest in water) ispred pramca; 2 (seamanship) duboko na pramcu; 3 (seamanship) pretežan brod (pramac uronjen više od krme)
by the lee (prep phr) (boating/yachting) skretanje od vjetra pri jedrenju u krmu (opasnost of kruženja i prebacivanja delenjaka)
by the mark (prep phr) (seamanship) lanac (u moru) do oznake
by the stern (n) (stabil, seamanship) ANTONYM by the head zatežan brod (krma uronjena više od pramca)
by the wind (prep phr) (boating/yachting) u vjetar, oštro u vjetar
C /Celsius, centigrade; carbon/ 1 (meteorol) Celzij, Celzijev stupanj; 2 (chem) ugljik
cabin (n) (nav arch) the interior living space of a vessel kabina, mornarska kabina:
Immersion suits must be provided for each member of the crew and be kept in each Seaman’s cabin. The master was in his cabin and the other watch AB was on stand-by in the crew mess room, both were easy to call through the ship’s intercom.

cabin (n) (nav arch) zatvorena putnička paluba (trajekta, putničkog broda): The upper deck cabin seats 116, with a bathroom for passengers and a dedicated bathroom for crew located forward. https://gCaptain.com open deck otvorena paluba

cabin boy (n) (seamanship) mladić sobe, mali od kamare

cabin cruiser (n) (boating/yachting, nav arch) motor boat with cabin and berths motorna brodica s kabinom, krstaš (manji): Life is good on a cabin cruiser. Creature comforts include a galley or kitchen, a head or toilet, and one or more berths or sleeping areas. Don’t be surprised to find air conditioning, heating, hot water, electrical power from a generator, and a hookup for quick access to shore http://www.discoverboating.com/buying/boat/cabin-cruisers

cabin sole (n) (boating/yachting) the floor of a cabin pod kabine (jedrilice)
cable /ˈkeɪbl/ (n) (ship_equipment) = chain cable A chain or line (rope) bent to the anchor.

sidreni lanac: Own vessel’s Master ordered the anchor party forward and by slacking away the anchor cable a collision was avoided. The port anchor was then let go using a similar amount of cable as before, but when applying the brake, the windlass catastrophically failed .

1 (ship_equipment) = chain cable (archaic use) kabel (1/10 nm = 185.2 m): The other ship was now at a distance of some 3 cables and approaching at speed on the port side With the vessels now about seven cables apart, he contacted the ferry via VHF and proposed that they should pass starboard to starboard. The pilot left the vessel about six cables before the normal pilotage disembarkation point. The vessels were now about seven cables apart VTS instructed the vessel to drop anchor N-5 anchorage with keeping 4 cables distance to other vessels.

2 (navig) a measure of length or distance - equivalent to (UK) 1/10 nautical mile, approx. 600 feet; (USA) 120 fathoms, 720 feet (219 m)

3 (electr) električni kabel: The power cable for the grinders was deployed across the deck, which was about two metres above sea level. Damage to cable insulation and fittings - speedy actions by the crew were commendable. Lessons Learned * Steel braiding on electrical cable is required to be ‘earthed’ at both ends for safety reasons. ~ armour kabelska armatura, kabelska zaštita, ~ gland kabelska uvodnica, ~ insulation izolacija električnog kabela: This caused an electrical short, resulting in sparking and leading to high temperatures which caused damage to the cable insulation and fittings. , supply ~ dovodni kabel, opskrbsni kabel: Early in the morning, the crew noticed that one of the distribution boxes appeared to be live, and that the terminals on the shore supply cable were not insulated, were bundled together and were hanging close to a metal grating above the deck. , electrical ~ električni kabel: The heavy electrical cable was led parallel to the shore gangway that was hooked on to the ship’s side bulwark on the main deck.

4 (comm) telegram; 5 (seamanship) originally, a thick strong rope or wire uže (za

privezivanje i tegljenje, obično deblje)
cable /ˈkeɪbl/ (v) (comm) poslati telegram, telegrafirati
cable connection (n) (electr) kabelski spoj, kabelski priključak: Never begin an exercise without first checking that all bolts are tight, cables are not frayed, cable connections are secure, rack pins are securely in position, ...
cable crossing (n) (seamanship) ukrižani konopi, ukrižana užad
cable gland (n) (electr) kabelska uvodnica: The proximity switch was incorrectly fitted with its cable entry gland higher than the switch body thereby increasing the possibility of water ingress.
cable laid (n) (seamanship) konop sukan u devet strukova (3 x 3 struka)
cable layer (n) (nav arch) polagač kablova
cable-laying ship (n) (nav arch) brod za polaganje kablova, polagač kablova: A 10 year old cable laying vessel was heading for dry dock with a pilot on board.
cable-length 100 fathoms or 600 feet dužina lanca od 600 stopa (182,88 m)
cable lifter (n) (seamanship, nav arch) = wildcat podigač lanca, nazupčani bubanj sidrenog vitla, barbotin, Italian: barbotin; ruota ad impronte

cable mark (n) (seamanship) oznaka lanca, mjerilo lanca
cable party (n) (seamanship) in large ships, a group of hands (sailors) needed forward to handle the chain cable or mooring ropes grupa za sidrenje
cable ship (=CS) (n) (nav arch) a ship specially designed to install and repair telecommunications

https://www.schoellhorn-albrecht.com/anchor-windlass.html
cables laid on the seabed *brod za polaganje kabela*
cable sleeve (n) *(boating/yachting)* *završetak konopa*, *stezaljka užeta tipa*
norseman
cable stopper (n) *(nav arch)* *štoper sidrenog lanca*: On the forecastle, the bosun proceeded to show a newly-joined deck officer the features of the ‘guillotine’-type anchor cable stopper bar arrangement.
cable termination (n) *(electr)* *kabelska stezaljka*, *kabelski priključak*, *klema*: It was also observed that the cable terminations within the socket were loose and there was poor contact within the multiple outlets of the adaptor.
cabling agent (n) *(mar law, US)* *agent koji skuplja informacija i prijenos obavijesti bitnih za ugovore o iskorištavanju brodova* agent posrednik (u SAD)
caboose /ˈkɑbəs/ (n) 1 *(nav arch)* *a deckhouse for a galley aboard ship* *(archaic use)* grotlo *brodske kuhanje*; 2 *(boating/yachting)* *any odd corner used as a store privremeno spremište*
cabotage /ˈkæbətæʒ/ (n) *(mar law)* = coastal service *shipment and sea transport of cargo between coastal ports of one state* mala obalna plovidba, *kabotaža, obalna plovidba*: Cabotage is often governed by statutes, requiring, for example, that only ships flying the flag of the coastal state concerned may engage in the coasting trade between ports of that state, unless waivers are obtained from the government of the state. ~ restrictions *ograničenja na maloj obalnoj plovidbi, kabotažna ograničenja*: The bill proposes that 10% of US crude oil exports should be carried by US ships after 2032. The cabotage restrictions as proposed in the new bill are more usually applied to coastal routes and services or intra-national ones. They are rarer for deep-sea international shipping. Splash24/7 <splash=asiashippingmedia.com@mail245.suw101.mcdlv.net>, relax / ease ~ laws *omekšati / olalšati zakonske propise o kabotaži*: India relaxes cabotage laws. The government has decreed that foreign boxlines will now be allowed to tranship at Indian ports as well as reposition empty containers. Splash24/7 <splash=asiashippingmedia.com@mail245.suw101.mcdlv.net>
cadet /ˈkədət/ (n) 1 *(mar law)* *COMPARE apprentice kadet, vježbenik*: The OOW was accompanied on the bridge by a cadet and a lookout. My seafaring adventures started in 1984 with ..... where I progressed from cadet to master specialising in petro-chemicals. Captain ... commenced his sea-going career with ....... of Leith, working on .... Line steamers as cadet and second officer between 1972 and 1979 The new crew strategy will result in the significant reduction of cadets recruited from such countries as ..., navigating ~ kadet, vježbenik palube: He started as a Navigating Cadet with BP Tanker Company in 1971 serving in crude and product tankers worldwide., *engineering cadet asistent stroja, vježbenik stroja*: An oiler and an engineering officer cadet were assigned to sound the bunker tanks., dual ~ *polivalentni kadet, kadet palube i stroja, deck ~ kadet palube, engine ~ vježbenik stroja, asistent stroja*: In order to prime the pump, the Third Engineer instructed the Engine Cadet to open the lubricating oil storage tank valve., progress from ~ to napredovati od kadeta do ..: His seafaring career started in 1981 with ... where he progressed from cadet to master specialising in petro-chemicals., *oversee the cadet nadzirati kadeta*: To facilitate their training, the chief officer was overseeing one cadet who was taking charge of the lifeboat drill, while the second mate was overseeing the other cadet who was taking charge of a fire drill.; 2 *(navy)* *kadet na ratnom brodu*; 3 *(mar law, UK, US)*
As the vessel approached the Varne Bank the deck cadet became aware of flashing white lights ahead but he did not identify the lights or report the sighting to the OOW.

cadetship /ˈkeɪdɛtʃɪp/ (n) 1 (mar law) an officer cadet training programme kadetura, studijski program za pomorske časnike, školovanje prije stjecanja pomorskog časnog zvanja: A cadetship is a great pathway to a career in fields such as marine engineering, navigation, surveying, horticulture and even IT. deck ~s studijski programi za časnike palube: All UK officer cadet training programmes (deck cadetships) are financed or sponsored by a number of shipping companies and maritime recruitment specialists, in order to complete the sea time elements of the training programme. Anyone wishing to undertake an officer cadetship should apply directly to the shipping companies and their representatives, not to Warsash or UCAS, engineering ~s studijski programi za brood ostrojarske časnike; 2 čin kadeta navigating ~ vježbenik palube, kadet, engineering cadet vježbenik stroja, asistent stroja
cage /ˈkeidʒ/ (n) (marine eng) A housing in which a bearing’s rolling elements are held.
(http://www.marinediesel-europe.com/) kavez, kućište exhaust valve ~ skidljivo kućište ispušnog ventila
cago claim (n) (mar law, shipping econ) zahtjev za naknadu štete na teretu
caique /ˈkeikw/ originally, a light boat or skiff propelled by one or two oars (used in Turkish waters, the Bosporus); Later, a small Levantine sailing boat with a lateen rig lagana brodica na vesla, lagani čamac na vesla, kač, today, a small sailing or motor boats plying between the East Mediterranean ports and islands
caisson /ˈkeɪsaʊn/ (n) A watertight structure used for raising sunken vessels by means of compressed air. Also the floating gate to close the entrance to a drydock. (https://www.history.navy.mil/) keson
calamari /ˌkæləˈmeɪri/ (n) (fishing) lignja, liganj
calandraca (n) (seamanship) vrsta brodske hrane - gulaš od krvumira, luka i slane govedine;
žgvačet kalandraka
calculation (n) proračun, izračun: The calculation proved that the vessel was loaded precisely to her summer permitted draft and we were then able to complete the matter amicably. A revised stability calculation showed that after loading the containers on the hatch covers, the vessel would fail to meet Solas minimum stability criteria.
CALDOVREP (n) (navig, comm) CALDOVREP is a mandatory reporting system for vessels transiting the Dover Strait CALDOVREP, Sustav javljanja brodova u Doverskom tjesncu
calibrated /ˈkælɪbreɪtɪd/ (n) (marine eng) kalibriran
calibration /ˈkælɪbreɪʃən/ (n) (marine eng) kalibracija: During the post-fire sea trial, the technician for the CPP equipment had made an error in adjusting the astern pitch calibration settings; astern movements were not tested at the time except during a crash stop test. ~ tables tables that represent volumes in each tank according to the liquid (innage) or empty space (ullage) measured in the tank. The tables are entered with linear measurements (for example, feet, inches, meters, centimeters) to obtain calibrated volumes (for example, barrels, cubic meters or cubic feet).
Call (n) (safety) a radio transmission (usually on VHF) calling another ship or a station ashore poziv: This call alerted the coastguard, who then monitored their AIS display and observed that the vessel was less than 2 miles from the shore. A call from the MRSC/NTS Centre informed her that she was running into danger. make a ~ pozvati: He sat on the footrest of the port bridge chair to make the call and, as a consequence, his view through the wheelhouse window was considerably restricted, be on ~ odazvati se, biti spreman, put out a radio ~ poslati poziv radijom, pozvati putem radija, acknowledge the ~ potvrditi poziv, potvrditi primitak poziva: The cargo vessel acknowledged the call and replied that they would maintain course and speed and pass ahead of the tug and barge, VHF radio ~ poziv VHF-radijom, pozvati putem radija, acknowledge the ~ potvrditi poziv, potvrditi primitak poziva: The cargo vessel acknowledged the call and replied that they would maintain course and speed and pass ahead of the tug and barge. VHF radio ~ poziv VHF-radijom, pozvati putem radija, acknowledge the ~ potvrditi poziv, potvrditi primitak poziva:

Call (n) (mar ins) premija P&I osiguranja, godišnja premija osiguranja broda u P&I osiguranja: Before the policy year is finally closed, the club can decide to cover the claims and to charge an Additional Supplementary Call. An Estimated Total Call is calculated for any given ship.

call (n) (ports) the visit of a vessel to a port for the purpose of loading or discharging the cargo

Call (n) (comm) pozvati: When the overtaking ship was about 7 cables astern, the OOW tried to call
call at VHF radio: 2 (navig) nazvati: At midnight, the master left instructions for the chief officer to call him 30 minutes before pilot embarkation. The master’s night orders instructed the bridge watchkeeping officers to call him if they required his assistance.

call at (shipping econ) ticati luku: We called at the port of Neaples on the way to Algeciras. The world’s biggest shipping company, Maersk Line, and its affiliated shipping services, SeaLand and Safmarine, has agreed to continue to call at the Port of Houston after APM Terminals, a unit of Maersk Group, said it was permanently terminating its operations there. This ship, a Panamax Bulk Carrier, regularly calls at this port to load coal.

call by VHF radio (comm, navig) nazvati putem VHF radija, nazvati VHF radijom

call for (v) ~ tug assistance pozvati pomoć teglača tražiti, zahtijevati, iziskivati: The advice to yachtsmen is to ensure you have the equipment necessary to call for help and to survive in the water.

call format (n) (safety, comm) format poziva (u pomoći u pogibljivim): The distress relay on behalf of a mobile unit in distress shall be sent in a form using either a distress call relay by radiotelephony, an individually addressed distress alert relay by DSC, or a distress priority message through a ship earth station. (ITU-R)

call for tender (n) (shipping econ) javni natječaj, raspis za ponude, poziv za dostavljanje ponuda ~ documents poziv za dostavljanje natječajne dokumentacije

call into a port (shipping econ) ticati luku, pristajati u luci: The ship normally calls into the Port of Rijeka nine times per year.

call on VHF radio (n) (navig) nazvati putem VHF radija, zvati VHF radijom: I made a brief call on VHF and the OOW of the other ship promised to keep well clear. The pilot on vessel A called vessel B on the VHF and asked to pass green to green, which an officer on vessel B agreed upon.

www.safety4sea.com
callout (n) (mar law) izvanredni poziv na dužnost, poziv pomorcu za dolazak na dužnost izvan normalnog radnog vremena

call out (v) (safety, comm) izreći naglas, viknuti: If you detect a fire or smell fumes or smoke act immediately as follows: Call out Fire! The helmsman is to repeat the order and call out the compass heading on receiving the order. He was passing close to a boat on an adjacent mooring and managed to hold onto its mooring chain long enough to call out for help.

calls (n) (mar law) plaćanje doprinosa (u generalnoj havariji)
call sign (n) (comm) a code published by the International Telecommunication Union in its annual List of Ships’ Stations to be used for the information interchange between vessels, port authorities and other relevant participants in international trade (http://www.iss-shipping.com/cargo/cargo_library_glossaryc.asp) pozivni znak: AIS can also assist in the identification of targets, by name or call sign and by ship type and navigational status. When the nearer one was little over six miles away, I heard a call from one of them, - no name or call sign, just a GPS latitude and longitude to four places of decimals, calling the ship on my starboard bow.

call system (n) (comm, safety) pozivni uređaj hospital ~ pozivni uređaj
As the tanker turned to starboard, the coastguard watch officer called the bulkcarrier via VHF radio, channel 11.

The iceberg that is set to break off Antarctica's shelf could calve within HOURS, experts warn. http://www.dailymail.co.uk/sciencetech/article-4647956/Iceberg-set-break-Antarctica-calve.html

One of the items requiring particular attention from the crew is the cam, which moves the latch to release the hook. ~ follower (marine eng) vodilica brijega (kvrga, grba), set of ~s (marine eng) red brjegova (kvrga, ekscentara), separate ~ (marine eng) odvojeno izrađena kvrga (brjega) navučena na razvodno vreteno, locking ~ (seamanship) zaporna kvrga, zaporni jezičac, zaporni ekscentar: It is likely that the forward hook and locking cam were not engaged correctly when the lifeboat was recovered after launch during the last annual inspection.; operating ~ (seamanship) pokretački ekscentar, kvrga za pokretanje (sklopkе): Further examination found that the switch's operating cam had been modified several years previously., integral ~ (marine eng) kvrga (brijeg) u sustavu osovine

camber /ˈkæmbo/ (≈round of the beam) (n) 1 (nav arch) The arching of the deck upward measured at the centerline in inches per foot beam. (www.euronav.com); poprečna zakrivljenost palube preluk, poprječno povišenje palube od bokova prema sredini broda; 2 (boating/yachting) trbuh jedra
cam cleat /ˈkæm,kli:t/ (n) (boating/yachting) COMPARE clam cleat cleat for securing a rope by means of a cam stoper (užeta na jedrilici), patentna hvataljka,

camshaft /ˈkæmʃaːft/ (n) (marine eng) bregasta osovinе, razvodna osovinе, razdjelna osovinе (vreteno) ~ drive pogon bregaste osovine, prijenosnik bregaste osovine: There is an integral forged coupling flange for the flywheel, and the camshaft drive gear is split to facilitate replacement.
constructed to carry commercial vessels kanal (umjetni): The ship was bound for the Suez Canal, and subsequently the Far East. A sufficient number of tugs should be made available along the canal at strategic places to assist large vessels regardless of the traffic situation and delays. ~ bank obala kanala, strana kanala:... close to the bank he picked up the mooring rope, a mooring spike, and the mallet and attempted to step across the gap between the stern and the canal bank. ~ boat pomoćna brodica za plovidbu kanalom: Ensure you hire a canal boat that is suitable for your party. ~ convoy konvoj brodova u kanalu: wrecked gangway On a pleasant evening in the 1980s, our large LPG carrier was 12 hours away from Port Said, and scheduled to join the southbound Suez Canal convoy the next day. ~ pilot kanalski peljar, peljar u kanalu: Upon consultation with own ship's canal pilot, he confirmed that he had agreed with his colleague on the other vessel to pass port to port – which was the logical action. We had rigged the starboard accommodation ladder to facilitate the transfer of immigration, customs personnel, agents, ship chandlers etc and to embark canal pilots. ~ transit prolaz kanalom, plovidba kanalom: Arriving for a canal transit, the vessel had rigged the starboard accommodation ladder to facilitate the transfer of immigration, customs personnel, agents, ship chandler The Chief Officer and I were relaxing on the bridge discussing plans for the impending arrival and canal transit. ~ curve zavoj u kanalu: At the canal curve, the ship met the downbound bulk carrier. https://safety4sea.com/canal due(s) (n) (mar law) kanalske dadžbine, dadžbine za prolaz kanalom
Suez canal due dadžbine za prolaz Sueskim kanalom, Suez Canal Net Tonnage Certificate svjedodžba klasifikacijskog društva o neto tonaži broda za prolaz Sueskim kanalom: The Suez Canal Net Tonnage Certificate can be obtained from any class society. The SCNT is measured every time the vessel transits the Canal. The SCNT is close to the vessels International Gross Tonnage SCNT is roughly half the vessels deadweight Canal Transit Dues /kəˈnæl/ (n) (shipping econ) Charge levied by a canal authority, such as that for the Suez Canal, for transiting. This charge is based on the ship's tonnage. http://www.tkmglobal.net/chartering_C.HTM pristojbe za prolaz kanalom, naknada za prolaz kanalom can buoy /kæn/ (=can) (n) (navig) A navigational buoy, cylindrical in shape, that marks the port side of a channel form seaward; painted green and odd numbered. (http://www.quarterdeck.org/index.html); nun; a floating aid to navigation having a flat top valjkastra platača, cilindrična platača cancel /ˈkænsəl/ (v) 1 (mar law, shipping econ) ukinuti; 2 (mar law) brisati (iz upisnika); 3 (mar law) raskinuti (ugovor, čarter); 4 (shipping econ) otkazati, prekinuti, obustaviti: ~ the alarm otkazati alarm, otkazati uzbunu: The watchkeeping officer cancelled the alarm. The chief mate was too busy completing ISM papers, entering details in the Log Book and continuously having to cancel various GMDSS alarms. cancelling clause (n) (mar law, shipping econ) The cancelling date is the final layday and the date beyond which, if the chartered vessel has not been presented for loading, the charterers may reject her and cancel the charter. (http://generalcargoship.com/charter-party-laycan.html); a voyage charter party clause providing that if the vessel is not ready to load by a certain date, agreed between the parties, then charterers have the option to cancel. Sometime before the cancelling date it becomes clear that it is impossible for the vessel to arrive at the load port in time. brisovna klauzula, zadnji dan stojnica cancelling date (=cancelling day) (n) 1 (mar law) A term used in a voyage charterparty,
referring to the period of time between the commencement of laytime (being the beginning of the lay
days when the charterer must commence loading the cargo), and the cancelling date (being the date
after which the charterer may repudiate the charterparty if the ship has not then arrived at the specified
port or place of loading).

Pravo
naručitelja prijevoza da raskine ugovor o prijevozu ako brodar ne osigura da brod bude spreman na
ukraj/skrcaj u vrijeme poredenja ugovora o iskorištavanju broda na putovanje; voyage charter
party) dan obustave stojnica, dan brisanja vremena stojnica: Cancelling Date
- The fixing of a cancelling date in the charterparty merely gives warning to the shipowner that non-
arrival by the cancelling date may go to the root of the contract ... The Vessel will not be ready to load by the
cancelling date. The last day of laydays is the cancelling day. The cancelling date (Box 21, clause 9)
defines the other end of this period known as the “laydays” after which the Charterers have the option to
cancel the charter party if the ship has still not presented herself for loading.; 2 (mar law) Last date,
agreed in a voyage Charter-Party or time Charter-Party, by which a ship must be available to the
charterer at the agreed place at the commencement of the contract. If the ship is not available by that
date, the charterer may have the option to cancel the charter under certain circumstances and clauses of
the Charter Party. datum završetka ugovora o najmu broda

can hook (n) (cargo handling) kukice (klijesta) za bačve
canoe /'kænu/ (n) (boating/yachting) a light-weight narrow double ended boat, usually fabric
stretched over a frame, and propelled by paddles: kanu
canopy /'kænapi/ (n) (nav arch, seamanship) tenda
cant /'kænt/ (n) (cargo) trupac koji je rezan u obliku ploče po dužini tako da konačni tanki dio ima
dvije suprotno paralelno ravnane strane, a u nekim slučajevima i treću stranu koja je također izrezana

cant
cant /'kænt/ (v) 1 (navig, seamanship) to turn anything so that it does not stand square to a given
object: https://officerofthewatch.com/tools/maritime-dictionary/ držati brod koso (prema
obali), držati brod koso (prema obali / od obale): Soon, with the ship’s bow canting
about 80° away from the wharf, it was realised the swing to port was bringing the stern rapidly towards the
wharf. I advised the Master to cant easy to port.; 2 (boating/yachting) nagnuti se: The yacht was
resting on the beach, its deck canted to one side.
cant /'kænt/ (n) 1 (navig, seamanship) kosi kut (broda prema lučkoj obali), koso
približavanje / udaljavanje (broda u odnosu na obalu): The vessel then started
into a slow starboard cant towards the knuckle, at which point I returned to the wheelhouse and asked the
Master for more port thrust – which he acknowledged. The rate of cant to starboard then increased and at
this point I observed the Bow Thrust controls were set for starboard thrust.; 2 an inclination of an object
(e.g. ship) from a perpendicular nagib, inklinacija
Cant /ˈkænt/ (n) (nav arch) krmena oblina
cant beam (n) (nav arch) radijalna sponja
cant floor (n) (sailing vessels) krmena rebrenica
cant frame (n) 1 (nav arch) radijalno rebro; 2 (sailing vessels) a frame such as stern frame which is not square to the keel line krmeno koso rebro; 3 (sailing vessels) koso rebro krme, rebro krmene obline
cantilever /ˈkænti ˈliː vər/ (n) (nav arch) a projecting beam supported only at one end konzolna sponja
cantilever beam (n) (nav arch) konzolna sponja

Canvas /ˈkænvəs/ (n) 1 (seamanship) a material made of cotton etc. used for making sails platno (za jedra); 2 (boating/yachting) all the sails of a ship komplet jedara (jedrenjaka), sva jedra; 3 (seamanship) platnena zaštita, platnena ovojnica: One seaman placed a securing wire through the starboard anchor cable, while the other two, on the starboard winch platform, were lashing canvas covers around the mooring wires.
canvas cowl /ˈkænvəs,kaʊl/ (n) (nav arch) platnena vjetrolovka
canvasing /ˈkænvəsɪŋ/ (n) (mar law) akvizicija tereta
canvas sling (n) (cargo handling) platneni pasac
canvaswork (n) (boating/yachting) radovi na platnim dijelovima (tende, jedra, bimini, vreće, itd.)

CAP (=central alerting post) (n) (safety, comm) središnje mjesto uzbunjivanja (u traganju i spašavanju): A Central Alerting Post (CAP) in a given country* is the sole point of contact for SAR matters between all authorities and SAR facilities of this country and the foreign MRCC of the Search and rescue Region (SRR) in which is included the country of the CAP. (COMSAR 14.4)
cap /kæp/ (marine eng) poklopac, kapa bearing ~ ležajni poklopac, poklopac ležaja, ležajna kapa
cap /kæp/ (sailing vessels) glavina debla (jarbola)
cap (n) (marine eng, environ) gornja granica: Under the new global cap, ships will have to use fuel oil on board with a sulphur content of no more than 0.50% m/m, against the current limit of 3.50%, which has been in effect since 1 January 2012.
http://www.imo.org/en/mediacentre/hottopics/ghg/documents/faq_2020_english.pdf The current global sulphur cap is 3.5%, while the average sulphur content of today’s heavy fuel oil (HFO) bunkers - by far the most common type of marine fuel burned today - is around 2.7%.
gornja granica ispuštanja sumpora: The new lower global cap on sulphur emissions from international shipping is to come into effect on 1 January 2020

Capacities of Holds and Tweendecks (n) (stabil) Plan i tablica kapaciteta

Capacitor /ˈkæpəsɪtər/ (n) (electr) kondenzator
Capacity /ˈkæpəsɪtɪ/ (n) 1 (marine eng) kapacitet high ~ pump pumpa velikog kapaciteta, snažna pumpa: The vessel’s main sea water system supplied all sea water pumps, including two high capacity ballast pumps, drawing from two low sea suction and one high sea suction
intakes, pumping ~ kapacitet pumpanja: operable auxiliary engine meant that the vessel had lost its main emergency services backup, which severely reduced the vessel’s potential pumping capacity.;

2 (nav arch) zapreminina (broda), kapacitet (broda): It was intended to bring Nos 2 and 3 port and starboard double bottom tanks to 90% capacity by bunkering 85 tonnes in each of the tanks.

carrying ~ nosivost, ~ in CBM and CFT kapacitet u kubičnim metrima i kubičnim stopama, nominal ~ (in TEU) nazivni kapacitet (u jedinicama TEU), nominalni kapacitet (u jedinicama TEU): The containership has a nominal capacity of 12075 TEU; 3 (cargo handling) nosivost (dizalice) lifting ~ moć dizanja (dizalice), nosivost (dizalice): The lifting capacity of the davit was reduced by approximately 90% to around 300 kg. ... all cargo was meant to be loaded and discharged with ship’s twin (Gemini) cranes, each of SWL 26 tonnes giving a total lifting capacity of 52 tonnes., handling ~ kapacitet rukovanja (broj koletakontejnera na sat; količina prekrcanih tona na sat), kapacitet ukrcaja/iskrcaja, prekrcajni kapacitet: What is the handling capacity of the container crane / gantry?; 4 (nav arch, cargo handling) prostor, sposobnost primanja storage ~ skladišni kapacitet, kapacitet uskladištenja: The vessel’s main sea water system supplied all sea water pumps, including two high capacity ballast pumps, drawing from two low sea suction and one high sea suction intakes.

Capacity in which Employed (n) (mar law) zaposlen u svojstvu, kvalifikacija capacity plan (n) (nav arch) A general plan or inboard profile which gives all data relating to the capacity of cargo spaces, tanks, bunkers and storerooms. (www.euronav.com) kapacitivni plan capacity tonnage (n) (stabil) kapacitet broda za teret

cape /keip/ (n) (geogr) a promontory or headland protruding into a waterway (The Dictionary of English Nautical Language Database; http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) rt, punta
capesize vessel (n) (nav arch, shipping econ) A dry bulk vessel above 80,000dwt or whose beam precludes passage via the Panama Canal and thus forces them to pass around Cape Horn or the Cape of Good Hope brod koji zbog svoje širine mora oploviti Rt Dobre Nade ili Rt Cape Horn, capesize: Capesize vessels generally serve deepwater terminals handling raw materials, such as iron ore and coal. Average daily earnings for capesizes, which typically transport 170,000 tonne-180,000 tonne cargoes such as iron ore and coal, fell $885 to $26,067. http://gCaptain.com A capesize bulk carrier was approaching port while fully loaded with iron ore.
capital cost (n) (nav arch, shipping econ) cost covering interest and capital repayments on a vessel kapitalni troškovi broda: The current market situation, the financial structure of the purchase, and future market expectations affect the level of capital costs.
cap nut 1 (marine eng) matica kape (tlačnog gorionika); 2 (marine eng) stezna matica

capping (n) (navig) Routing a vessel around the Cape of Good Hope, South Africa.
oplovljavanje rta Dobre Nade

caprail (n) (sailing vessels, boating/yachting, nav arch) razma, porub, kuvertela
cap shroud (n) (boating/yachting) = main shroud glavna pripona, vanjska pripona, vanjska sartija
capsize /kæpsaiz/ (=overturn) 1 (v) when a ship or boat lists too far and rolls over, exposing the
keel; to overturn when afloat; overturn; improper loading of cargo has caused the ship to capsize

prevrnuti se: Around 10 minutes after abandoning the vessel, she capsized to starboard and then sank by her stern. Oko 10 minuta nakon napuštanja broda, brod se prevrnuo po desnoj strani i zatim potonuo krmom. The investigation found that ship capsized in extraordinarily violent sea conditions caused by gale force winds and a strong, opposing tidal stream. At one point the lifeboat capsized due to strong wind and waves. It is not yet known what caused the ship to capsize.;

odvezati se (konop, uzao)
capsize /ˈkæpˌsaɪz/ (n) (safety, boating/yachting) prevrtanje ~ recovery ispravljanje

prevrnute jedrilice
capsizing (n) (stabil) prevrtanje, Italian: scuffia: The urgency release system for the towing winch on board the tug had operated, but not quickly enough to prevent the tug from capsizing.
capstan /ˈkæpstæn/ (n) 1 (seamanship, nav arch) a vertically mounted winch head used aboard ship when mechanical power is required for raising anchor, lifting heavy weights, or for any similar work.

pritezno vitlo, motovilo, Italian: vericello verticale; argano: Crew members should not be allowed to operate a windlass or capstan and handle the rope at the same time. He removed the turns from the bits and then three turns from around the capstan. ~ head bubanj motovila, glava motovila: The slack was taken in using the capstan head of the port winch. However, on the port winch it was first necessary to stop the spring still located on the capstan head in order for it to be secured on a bollard on deck.

sidreno vitlo (na jedrenjacima)

captain /ˈkæptɪn/ (n) 1 (mar law, hum_resources) senior officer in charge of a ship, regardless of rank;

Rank or commanding officer of a ship or squadron. (http://www.quarterdeck.org/index.html); In the British Merchant Navy a Master Mariner who has sailed in command of an oceangoing merchant ship will be titled Captain kapetan: The captain decided to anchor too close to shallow water. Captain XY commenced his sea-going career with ... Co. of Liverpool, working on ... Line steamers as cadet and second officer.; 2 (mar law) master of the ship zapovjednik broda: As the vessel passed our stern at 2 cables the Captain called the tanker on VHF stating the vessel's name and position and asked the tanker's reason for not giving way. Prior to departure, the Captain explained that they had been
experiencing problems with the displays; 3 naval mornarički kapetan (jednak rangu pukovnika): He is a Captain in the Royal Fleet and has recently finished a three year appointment as Chief Staff Officer (Engineering) ... Am I to understand that the Captain of the Warship considers himself to be the give way vessel?
captain of the fleet (n) (navy) a temporary adjutant-general who is responsible for discipline aboard the ships of a fleet (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary)
Kapetan flote
captain of the port (n) (mar law, US) = port captain = Harbour Master Captains of the Port and their representatives enforce within their respective areas port safety and security and marine environmental protection regulations, including, without limitation, regulations for the protection and security of vessels, harbors, and waterfront facilities; anchorages; security zones; safety zones; regulated navigation areas; deepwater ports; water pollution; and ports and waterways safety.
(Wiki) Employed in this meaning the term is equivalent (in US) to the term harbourmaster which is more frequently used internationally; In the United States, captain of the port is a title held by a United States Coast Guard officer, usually the commander of a United States Coast Guard sector with the rank of captain (O-6). http://www.maritimetoday.com lučki kapetan: Captain of the port duties involve enforcing within their respective areas port safety and security and marine environmental protection regulations, including regulations for the protection and security of vessels, harbors, and waterfront facilities; anchorages; security zones; safety zones; regulated navigation areas; deepwater ports; water pollution; and ports and waterways safety. The Company failed to comply with a recent captain of the port order related to safety of its vessels anchored in the port. https://gCaptain.com
captain’s cabin (n) (nav arch) kabina zapovjednika
captain’s mast (n) (sailing vessels) mjesto preslušavanja članova posade i izricanja disciplinskih mjera
Captain’s protest (n) (mar law) = note of sea protest a document issued by the master upon arrivat at a port, which shows conditions encountered during voyage, generally for the purpose of relieving ship owner of any loss to cargo and shifting responsibility for reimbursement to the insurance company
company prijava pomorske nezgode
captain’s quarters (n) (nav arch) zapovjednikove prostorije, nastamba zapovjednika
captain’s sitting room (n) (nav arch) zapovjednikov salon, predsoblje zapovjednika
captive cargo port (n) (shipping econ, US) regionalna luka, luka za terete iz obližnjeg područja
captivity /ˈkæptɪvɪti/ (n) (mar law) zatočeništvo, držanje u zarobljeništву: the crew was released after six months in ~ posada je bila oslobodena nakon šest mjeseci zadržavanja u zatočeništvu
capture /ˈkæptʃər/ (n) (mar law) = seizure zapljena, zaplijenjeni brod: The Navy forces captured an oil tanker accused of violating current navigation sanctions.
caravel /ˈkærəvəl/ (n) (nav arch, boating/yachting) ship of the 15th century with three masts carrying a mixture of lateen and square sails, shaped broad in the bow and with a high poop karavela
carbon /ˈkærəbən/ (n) 1 (chem) ugljik; 2 (cargo) ugljen
carbonaceous matter /ˌkærəˈneɪʃəs/ (n) (marine eng) ugljikove tvari
carbon deposits (n) (marine eng) naslage gareža, naslage ugljika: Observations made at the 12 000-h overhaul of the first Wärtsilä 64 engine in marine service (a seven-cylinder model)
Carbon dioxide; cardinal marks

revealed no evidence of heavy carbon deposits on the cylinder head flame deck.

Carbon emission (n) (environ) ispuštanje ugljika (u zraku), emisija ugljika: Leading ports, banks, oil and shipping companies on Monday launched an initiative which aims to have ships and marine fuels with zero carbon emissions on the high seas by 2030, in another step by the maritime sector to reduce CO2. https://www.maritimeprofessional.com/

Carbon-free fuel (n) (environ, marine eng) gorivo bez ugljika: The prediction for 2050 is that the split between carbon-free and non-carbo containing fuels will be about 50-50, meaning that one of the carbon fuels may be ammonia. https://safety4sea.com

Carbon monoxide /ˈkaːbən məˈnɒksaɪd/ (safety) ugljični monoksid: A carbon monoxide detector was also fitted in the wheelhouse. Unfortunately, the atmosphere inside the trunking was only checked some 24 hours after the accident; Oxygen and carbon monoxide levels were found to be normal.

Carbon-neutral voyage (n) (environ) putovanje broda bez štetnog lučenja: NYK has become the first Japanese shipping company to complete a carbon-neutral voyage by offsetting 5,000 tons of carbon dioxide (CO2).... Splash https://splash247.com

Carbon steel (n) (marine eng) ugljični čelik

Carboy /ˈkaːˌboʊ/ (cargo) stakleni spremnik, bocun (za prijevoz kiselina itd.)

Carburetor, carbureter, carburettor /ˈkɑːbʊreɪtər, kɑːburɛˌtər, kɑːˈbʊrɛtər/ (marine eng) karburator, rasplinjač

Car carrier (n) (nav arch) brod za automobile, brod za prijevoz (putničkih) automobila: All targets were being plotted on ARPA, a large car carrier was ahead of us at three miles but not visible.

Cardboard (n) (cargo handling) karton (za zaštitu tereta): Two-layers of corrugated cardboard can protect the goods in the box or container.

Card chassis /ˈkaːd, ˈfəsi/ (cargo handling) prikolica / šasija (na kontejnerskom terminalu)

Car deck (n) (nav arch) paluba za automobile: ... the small watertight access hatch into the bow door space from the car deck was unbolted.

Cardinal buoyage system (n) (navig) kardinalni sustav označavanja (plovnih putova)

Cardinal buoys (n) (navig) kardinalne oznake, glavne oznake: It is felt that a separation scheme with precautionary area should be introduced with the dangerous wrecks clearly marked by cardinal buoys. ... the vessel continued to be set down onto the North Cardinal buoy marking the channel.

Cardinal marks (n) (navig) are used in conjunction with the compass to indicate the direction from the mark in which the deepest navigable water lies, to draw attention to a bend, junction or fork in a channel, or to mark the end of a shoal

(https://www.trinityhouse.co.uk/mariners-information/navigation-buoys/cardinal-marks) glavne oznake, osnovne oznake, kardinalne oznake: Mariners will be safe if they pass north of a north mark, south of a south mark, east of an east mark and west of a west mark. https://www.trinityhouse.co.uk/mariners-information/navigation-buoys/cardinal-marks The ship was heading towards a reef, 5 cables away and marked by north and south cardinal marks. Cardinal Marks
Cardinal points are also used for permanent wreck marking whereby North, East, South and West Cardinal buoys are placed around the wreck. North ~ glavna sjeverna oznaka, south ~ glavna južna oznaka, west ~ glavna zapadna oznaka, east ~ glavna istočna oznaka.

Cardinal points (navig) (navig) The four principal points of the compass: North, East, South and West strane svijeta

Cardiopulmonary resuscitation (CPR) /ˌkaːdiəˈpəlmənəri riˈsʌsi ˈteɪfən/ (safety) davanje umjetnog disanja: Cardio-pulmonary resuscitation was immediately performed by crew members.

care /keər/ (n) 1 briga, skrb, pažnja: Care must be taken to ensure that the grips are properly tightened. This is largely beneficial, but care must be exercised to carefully consider and plan each arrival, particularly when responding to changes to the ‘normal’ routine proper ~ of cargo (cargo)

Ispravna briga (o teretu): Carriers are required to take proper care of cargo throughout their loading, navigating, discharging and delivering operations, exercise proper ~ (cargo) voditi pažljivo brigu o: If wet, additional care must be exercised, and if possible, the cargo surfaces must be wiped dry or the task must be postponed until conditions improve.

2 (med) medicinska skrb, medicinska njega intensive ~ unit odjel intenzivne skrbi / njega: He was admitted in the local hospital’s intensive care unit.

careen /ˈkeərɪn/ (n) 1 (seamanship) cause the ship to tilt on its side, usually to clean or repair the hull below the water line nagnuti brod (radi čišćenja ili popravka dna), karinat; Italian: carenare; carenaggio, karinavat, žbandat: I had no choice but to careen the next port to fix a packing hose but I am considering it again now for bottom paint.

2 izvaditi barku na suho (radi bojanja i održavanja)

careening the practice of grounding a sailing vessel at high tide in order to expose one side of its hull for maintenance and repair; intentional grounding in order to conduct maintenance or repairs

Nasukavanje barke ili brodice radi održavanja i popravaka, Italian: carenaggio Careening is the time-honored way of cleaning, painting, maintaining, and repairing boat and ship bottoms.

career /ˈkeərɪər/ (n) (hum_resources) karijera: Following an extensive career at sea, the river pilot had been with the ... for over 16 years.

car ferry /ˈkaː fɛərɪ/ (n) 1 (nav arch) trajekt: The world’s largest car ferry, Irish Ferries’ giant ship ‘Ulysses’ leaves Dublin port, on her way to Holyhead in Wales. She is currently owned and operated by Irish Ferries.

2 (UK) trajekt za prijevoz automobila (i drugih cestovnih
cargo /ˈkaːɡə/ (n) break bulk ~ general teret, komadna roba, containerized ~ kontejnerizirani teret, kontejnerski teret, conventional ~ klasičan teret, dangerous ~ opasan teret, dead weight cargo težinski teret, dry bulk ~ suhi masovni teret, rasuti teret, sipki teret, general ~ generalni teret, groupage ~ zbirni teret, inward ~ teret za iskrcaj, teret u uvozu, liquid bulk ~ tekući masovni teret, tekući teret (u velikom količinama), measurement ~ volumenski teret, prostorni teret, mass ~ masovni teret, teret koji se prevozi u velikim količinama, outward ~ teret u ukrcaju, teret u izvozu, wheeled ~ ro-ro teret, teret na kotačima, ~ flow kretanje tereta / roba, robni tok, ~ handling equipment uređaji za ukrcavanje/iskrcajanje tereta, uređaji za rukovanje teretom, prekrcajna mehanizacija, ~ mixture mješoviti teret, miješani teret, ~ net mreža za teret, ~ plan planiranja tereta, plan tereta, ~ procedures postupci pri preuzimanju i predaji tereta, ~ stowage slaganje tereta, ~ superintendant nadzornik tereta, inspektor / kontrolor tereta, ~ surveyors kontrola tereta, kontrolna kuća (za kontrolu tereta), ~ tray tava za teret (UK) the goods, merchandise, commodities, or products carried by a ship, barge, train, truck or plane.

teret: If a cargo is susceptible to damage by rain, snow or precipitation, the vessel should opt to discontinue cargo operations altogether during inclement weather.

cargo arm (n) (cargo handling) dizalica (s fleksibilnom cijevi, manigom) za ukrcavanje/iskrcajanje tankera, maniga: The loading was stopped and the cargo arm disconnected.

cargo battens (=batten) (n) 1 (nav arch) wood battens fitted to the inside of the frames in a hold to keep the cargo away from the ship’s side and to allow the necessary through ventilation. bokoštnice u skladištu, priboj, razdjelne daske: The cargo battens are damaged.; 2 (sailing vessels) letve skladišta, bočne letve skladišta

cargo book (n) (cargo handling, safety, nav arch) knjiga tereta
cargo booking note (n) (mar law) isprava u ugovoru o prijevozu stvari koja sadržava pojedine važne dijelove zaključnica

cargo boom (n) (cargo handling) a heavy boom used in loading cargo teretni stup, samarica, derič, delič

Cargocaire system /ˈkaːɡəˌkɛə/ (n) (nav arch) sustav Cargocaire
cargo-carrying capacity (=net capacity; cargo deadweight; useful deadweight) (n) (nav arch) The number of tons of cargo which a vessel can carry when loaded in salt water to her summer freeboard marks. (www.euronav.com) kapacitet za teret: The ship had a cargo-carrying capacity of 18,869 TEUs.

cargo claim (=freight claim (US)) (n) (shipping econ, mar law) 1 a legal demand by a shipper or consignee against a carrier in respect of damage to a shipment, or loss thereof. (https://en.wikipedia.org/wiki/Freight_claim) tražbina, zahtjev za naknadu štete: It is the responsibility of the claimant to file a cargo claim within the prescribed time frame and to respond to any requests from the carrier for supporting documentation. file a ~ podnijeti zahtjev za
naknadu štete na teretu; 2 reklamacija
cargo control room (n) (nav arch, cargo handling) kontrolna prostorija za teret
cargo damage (n) (mar law, mar ins) gubitak, manjak, oštećenje i zakašnjenje tereta šteta na teretu: TT Club records indicate that as much as 66% of incidents related to cargo damage in the intermodal supply chain can be attributed in part to poor practice in the overall packing process, https://shippingandfreightresource.com/the-importance-of-declaring-correct-cargo-details-and-consequences-of-cargo-misdeclaration/
cargo damage assessment (n) (mar ins, mar law) procjena štete na teretu: After the accident the ship sailed to the Port of ... for further recovery and cargo damage assessment.
cargo damage claim (n) (mar law, mar ins) zahtjev za nadoknadu štete, odštetni zahtjev za štetu na teretu, prijava štete na teretu, protestno pismo (za havariju, štetu)
Cargo Damage Report (n) (cargo handling) izvještaj o šteti na teretu
cargo deadweight (n) (nav arch) korisna nosivost
cargo documentation (n) (shipping econ) robni dokumenti, dokumentacija tereta
cargo documents (n) (shipping econ) prijevozne isprave, robni dokumenti, popratni dokumenti uz teret
cargo door (n) (nav arch) vrata ro-ro broda (s rampom za ulaz i izlaz ro-ro tereta)
cargo dues (n) (mar law, shipping econ) naknada za korištenje lučkih obala i lučke mehanizacije: Cargo Dues are charged to the users (exporters, importers or shipping lines) for using the port facilities for movement of the cargo through it. This fee is generally fixed and published in a tariff by the port for a year

cargo failure (n) (cargo handling, safety) Cargo failure is the result of solid bulk cargo becoming liquid (fluid). Liquefaction causes the cargo to become compacted by the ship’s motion and this can imperil ship’s stability neispravnost tereta, opasnost zbog neispravnog tereta (npr. zbog ukapljivanja suhih rasutih tereta): The last report for the years 2008-2017 showed that 101 lives and 9 bulk carriers were likely lost due to cargo failure (this compared with a total of 202 lives lost in all 53 casualties). marinelink.com Moisture related cargo failure mechanisms, widely known as liquefaction, continue to be a major concern for dry bulk shipping marinelink.com
cargo fastener (n) (cargo handling) pritega za teret: The incident happened after the cargo fasteners broke on a load of large diameter steel pipes.
cargo feeds by gravity to the hold when discharging (n) (cargo handling, nav arch) teret koji se kod iskrcaja spušta u tovarni prostor zbog gravitacije
cargo gear (n) (cargo handling, nav arch) teretni uređaj (obično brodski), uređaj za rukovanje teretom: Many general cargo vessels have tlier own cargo gear that helps them to load and discharge in ports lacking infrastructure. (Swadi) A new ship was discharging steel plates with own cargo gear.
cargo handling (n) (cargo handling) all procedures involved in the physical handling of goods
rukovanie teretom, manipuliranje tereta: The handling of cargo is carried out either by the ship's own cargo gear or by shore cranes.
cargo handling costs (n) (cargo handling, shipping econ) involves loading, stowage, lightering, and discharging of the troškovi rukovanja teretom
cargo handling equipment (n) 1 (cargo handling) sredstva za rukovanje teretom, oprema za rukovanje teretom, uređaji za rukovanje teretom, teretni uređaj: Cargo handling equipment includes two modern gantry container cranes and six straddle carriers.; 2 pribor i alati za rukovanje teretom (kuke, pasci itd.); 3 lučka mehanizacija
cargo handling gear (n) 1 (cargo handling, nav arch) teretni uređaj (obično brodski), uređaji za rukovanje teretom; 2 alati za rukovanje teretom
cargo hatch (n) (nav arch, cargo handling) grotlo za krcanje tereta, grotlo: For bulkers the most common cargo damage is the leaking of cargo hatches. (https://safety4sea.com/)
cargo hoist (n) (cargo handling) dizalo za teret
cargo hook (n) (cargo handling) kuka (za teret): –s should never be used when discharging fragile cargo
cargo hose (n) (cargo handling) A hose usually of 6 to 10 inches in diameter used for the transfer of
liquid cargo from ship to shore and vice versa. (www.euronav.com) 

**savitljiva cijev, maniga za teret, fleksibilna cijev za teret**

**cargo insurance** (n) *(mar ins)* osiguranje robe, osiguranje tereta, *cargo osiguranje*

**cargo interests** (n) *(shipping econ)* Parties having an interest in the cargo zainteresirane stranke za teret, vlasnici tereta: A loading/discharge programme should be planned in advance and agreed with cargo interests and the terminal staff. If a vessel causes loss or damage to her cargo and if the carriers are liable, carriers have to compensate ~ for their damages.

**cargo lien** (n) *(mar law)* privilegij na stvarima ukrcanima na brodu

**cargo liner** (n) = freighter 1 *(shipping econ)* teretni brod, teretnjak: I was the bridge watchkeeper on a 9,000 grt cargo liner belonging to a reputable company. A cargo liner carrying a variety of cargo in relatively small consignments would have ‘tween decks to facilitate stowage.; 2 linijski brod, linijaš

**cargo loading procedure** (n) *(cargo handling, ports)* proces ukrcaja tereta, ukrcaj tereta

**cargo manifest** (n) *(shipping econ, mar law)* a comprehensive list of all cargo for a destination. It is made up from the information contained within the B/Ls manifold tereta

**cargo manifold** (n) *(nav arch, cargo handling)* glavni razvodni ventil za tekuće tereta na brodu: a unique substance can be loaded / unloaded to/from all tanks by means of the two common lines located aft and fore of cargo manifold

**cargo marks** (n) *(cargo handling)* oznake na teretu

**cargo mass** (n) *(logist)* masa tereta: Cargo Integrity campaign that have bearing on this type of casualty, such as the correct declaration of cargo mass as well as the safe packing and securing of the freight within the container, together with the container structure and maintenance. https://safety4sea.com/

**cargo mast** (n) *(cargo handling)* teretni stup

**cargo master** (n) *(cargo handling, mar law)* A Cargo Master is generally seen on a ship where they measure cargo in tonnage and they may have loads from hundreds of different sources that ultimately with go tho hundreds of different destinations. časnik odgovoran za teret, prvi časnik palube

**cargo mat** (n) *(cargo)* A mat, usually square and made of manila rope, used to protect the deck covering while taking stores, etc., on board. prostirka za teret (od hasure, rogožine, konopa itd.)

**cargo net** (n) *(cargo handling)* mreža za teret: Cargo nets are suitable for mail bags and similar cargoes that are not liable to be crushed when hoisted. Pallets should be lifted within a cargo net.

**cargo oil pump (=COP)** (n) *(nav arch, cargo handling)* pumpa tereta nafte, pumpa za nafte teret

**cargo oil tank (=COT)** (n) *(cargo handling, nav arch)* naftni tank, tank za naftu, tank za teret nafte ~ # 2P/S naftni tank br. 2 lijevi/desno

**cargo operations** (n) *(cargo handling)* operacija ukrcaja / iskrcaja tereta (s broda / na brod): Following the completion of cargo operations, at 1620 Sunni departed the berth, bound for Pasajes, Spain. start the ~ započeti operaciju ukrcaja / iskrcaja, complete the ~ završiti operaciju ukrcaja / iskrcaja
Cargo owner (n) (shipping econ, mar law) vlasnik tereta
Cargo pipes and fittings (n) (nav arch, cargo handling) cijevi i oprema cjevovoda za teret: Cargo pipes are class II type mild steel pipe. The connections to be of butt welded if possible. The pipelines to be of through cargo tank inside. The pipelines to be arranged with sufficient expansion possibilities.
Cargo plan (n) (cargo handling) a plan giving the quantities and description of the various grades carried in the ship's cargo tanks.; a plan giving the quantities and description of the various items of cargo, containers or packages in the ship's hold plan krcanja tereta
Cargo port (n) (nav arch, cargo handling) An opening, provided with a watertight cover or door, in the side of a vessel of two or more decks, through which cargo is received and discharged. (https://www.history.navy.mil/) otvor u trupu broda za krcanje tereta
Cargo properties (n) (cargo) svojstva tereta, karakteristike tereta
Cargo pump (n) (cargo handling, nav arch) Pump used on tankers for discharging cargo and loading or discharging ballast. Located, at the bottom of the pump room, these pumps are usually of the common duplex type, or turbine type of which the centrifugal is the most common. (www.euronav.com) sisaljka tereta
Cargo purchase (n) (cargo handling) čekrk za podizanje tereta (na samarici, dizalici), koloturnik za podizanje tereta
Cargo remaining on board (=CROB) (n) (logist, mar law) neiskrcan teret
Cargo runner (n) (cargo handling) podigač tereta (na samarici), teretnica
Cargo securing arrangements (n) (cargo handling) uređaji za pričvršćivanje tereta
Cargo Securing Manual (n) (cargo handling) brodska knjiga za osiguranje i slaganje tereta, priručnik za osiguranje i slaganje tereta: The cargo must be loaded as per Cargo Security Manual.
Cargo shift (n) (cargo handling) micanje tereta, pomjeranje tereta
Cargo ship (n) (mar law, nav arch) brod za prijevoz tereta i najviše dvanaest putnika teretni brod, teretnjak
Cargo ship safety construction certificate (n) (mar law) svjedodžba o sigurnosti konstrukcije teretnog broda
Cargo spaces (n) (nav arch, shipping econ) teretni prostori, prostori za teret, teretnjak: Cargo spaces include epoxy coated cargo tanks integrated in the structure separated by longitudinal and transverse corrugated bulkheads and integrated slop tank at fore of cargo space.
Cargo stoppage signal (n) (cargo handling) znak za prestanak ukrcaja/iskrcaja tereta
Cargo stowage (n) (cargo) slaganje tereta
Cargo Stowage and Securing Code (n) (cargo handling) pravilnik o slaganju i pričvršćivanju tereta
Cargo Stowage Plan (n) (cargo) plan krcanja tereta: The break-bulk vessel cargo stowage plan is a complete diagram of a vessel's cargo space showing the location (both on and below deck) of all cargo aboard ship prepare the ~ 1 pripremiti plan krcanja tereta; 2: The cargo stowage plan is prepared by the loading terminal after the ship has been loaded and is used to
facilitate the subsequent loading and discharge of cargo at all ports along the voyage.

cargo surveyor (=independent inspector) (n) (mar law) = marine cargo surveyor

A person or organization of persons acting independently (but on behalf of, one or more parties involved) in the transfer, storage, inventory or analysis of a commodity for purposes of determining the quantity, and/or quality of a commodity. (www.euronav.com) inspektor tereta, inspektor za štete na teretu: Having taken four samples, the cargo surveyor moved aft to the sampling point of tank No. 5. After completion of loading, a cargo surveyor boarded to take samples of the cargo. Immediately after completion of line blowing the manifold valves were sealed by the cargo surveyor. Cargo surveyors may also be assigned to the calibration of various measurement instruments and/or storage tanks ashore or on vessels. www.euronav.com

cargo system (n) (nav arch) teretni sustav na brodu: Cargo system is designed so that 11 different substances can be loaded/unloaded at the same time.

cargo tank relief valve (cargo handling) sigurnosni ventili tankova tereta: Are cargo tank relief valves set correctly and actual relief valve settings clearly and visibly displayed? esu li sigurnosni ventili tankova tereta ispravno namješteni, a namješteni tlak vidljivo isписан? set the ~ regulirati sigurnosni ventil tankova tereta

cargo theft (n) (shipping econ, safety) krada tereta: Cargo theft can occur anywhere along the supply chain affecting local logistics, transporters, storage yards, groupage operators, LCL consolidators, ports, depots, terminals, insurance, carriers and freight forwarders equally. https://shippingandfreightresource.com/first-smart-container-innovation-lab-contopia-labs/

cargo tonnage handled (n) (ports) total weight of goods loaded and discharged in a port promet tereta u tonama

cargo tracer (n) (shipping econ, mar law) a document sent by the agent to all relevant parties, stating that certain cargo is either missing or over-landed potražnica za teretom

Cargo Tracking Note (=CTN; Loading Certificate) (n) (logist) an official marine document that contains information relating to the cargo and its movement between ports (https://shippingandfreightresource.com/ Obavijest o trenutnoj poziciji tereta u transportu: In general, the CTN number must be shown on all documentation related to the cargo shipped under that note. The shipper and/or forwarder should provide the certificate number to the ocean carrier at the loading port (Loading agent) for inclusion in the manifest and bill of lading. (https://shippingandfreightresource.com/)

cargo tray (n) (cargo handling) tava za teret: Cargo trays and pallets, the latter being wooden or of steel construction, are ideal for cargo of moderate dimensions, which can be conveniently stacked, such as cartons, bags, or small wooden crates or cases. clamp

cargo unloading procedure (n) (cargo handling, ports) proces iskrcaja tereta

cargo valve (n) (cargo handling) ventil za tekuće terete: after ensuring that the cargo valves were closed the chief mate proceeded to the bridge and relieved the third mate as the navigation watch officer

cargo ventilation system (n) (nav arch) sustav prozračivanja tereta: In the cargo ventilation system, PV valves setting pressure is 2000 mmWG for pressure, -350 mmWG for vacum. The lines between PV valves and tanks are so arranged as to permit their self draining to the tanks. Pipe connections are to be full penetration butt welded type.

cargo visibility (n) (shipping econ) lociranje tereta, poznavanje kretanja tereta (u transportu), vidljivost tereta: In terms of cargo visibility, most supply chains still operate in the dark, yet when fully available and leveraged, true visibility would save shippers millions
of dollars in detention and demurrage, late and expedited fees, theft and inventory costs, and improved customer service...

cargo volume (n) (ports) količina tereta (u prometu lukom), tonaža tereta: Cargo volume at the Port of Long Beach continued to rise in November, setting the stage for a second consecutive calendar year record. www.gCaptain.com

cargo watch (n) (cargo) nadzor nad teretom: keeping an efficient and safe ~ is a key requirement of and OOW.

cargo winch (n) (cargo handling) teretno vitlo, manat electric ~ električno vitlo, ~ drum, motor, gears, shafts, and brakes bubanj, motor, reduktor, vratilo i kočnica električnog vitla, ~ barrel bubanj teretnog vitla

cargoworthiness (n) (mar law) prikladnost broda za preuzimanje, prijevoz i očuvanje tereta u stanju u kojem je teret primljen na prijevoz; Fitness of a ship to carry a particular cargo.

http://www.tkmglobal.net/chartering_CHTM prikladnost broda za preuzimanje i prijevoz tereta, sposobnost broda za preuzimanje tereta: The Master always has the final responsibility for the sea- and cargo worthiness of the vessel.

carpenter /ˈkaːpəntər/ (n) (seamanship) brodski tesar, meštar: The carpenter asked the second officer to operate the winch, and told the welder and the two ratings to help him push the messenger back onto the rotating drum. The carpenter lowered the messenger line to the tug and the tug’s mate attached the eye of the steel tow wire to the messenger line. The second officer was in charge of the operation; however, the carpenter was the most experienced member of the team and the de facto leader that morning.

carpenter’s compass (n) (boating/yachting, nav arch, sailing vessels) stolarski šestar

carrack /ˈkæræk/ (n) (nav arch, boating/yachting) a large galleon of the 15th C karaka

carriage /ˈkærɪdʒ/ (n) 1 (shipping econ) the whole or any part of the operations and services undertaken by the Carrier in the transportation of goods by sea prijevoz, transport, prevoženje: Ships’ staff responsible for the loading and carriage of cargoes requiring fumigation are fully aware of the potential risks and safety precautions required. The master or owner of a ship shall not accept for carriage by the ship any cargo that may liquefy when carried by sea unless the actual moisture content of such cargo is less than its TML. However, to facilitate the carriage of bulk cargoes the tank top ceiling had been floored over with steel plates welded together, the bilges having been similarly treated. ; 2 kolica, podvozak: The equipment had been installed between decks and was mounted on a carriage that slid out from the ship’s side.

carriage ban (n) (marine eng, mar law, safety) zabrana prijevoza (zbog nedopuštenog sadržaja sumpora u gorivu): As of March 1, the International Maritime Organization (IMO) has adopted the “carriage ban” rule prohibiting to ships from carrying fuel oil with a sulphur content greater than 0.5 percent unless the ship is fitted with an Exhaust Gas Cleaning System, aka scrubber. https://gcaptain.com/ics-ships-could-face-detention-under-new-imo-carriage-ban The carriage ban is intended to make it easier for Port State Control authorities to enforce the IMO’s new 0.5 percent sulphur content limit that entered into force on January 1, 2020. https://gcaptain.com/ics-ships-could-face-detention-under-new-imo-carriage-ban

Carriage Paid To (=CPT) (n) (logist) Carriage Paid To, CPT, (agreed place of destination), non-maritime condition. The transfer of costs occurs when the goods have been delivered to the agreed destination. https://www.logisticsglossary.com/term/carriage-paid-to/ vozarina se plaća po isporuci na odredištu
carrick bend (n) (inland waterways, seamanship) a knot used to tie two lines together ukrižani

uzao
carrier /ˈkærɪə/ (n) 1 (mar law, shipping econ) a person that enters into a contract of carriage with a shipper (Rotterdam Rules 2009); A party who contracts to carry goods or passengers by water (the contracting carrier), or the party who actually performs such carriage in whole or part (the actual carrier). http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; any person by whom or in whose name a contract of carriage of goods by sea has been concluded with a shipper. (Hamburg Rules 1978); Party who enters into a contract of carriage with a shipper. The carrier may be the owner or charterer of a ship. http://www.tkmglobal.net/chartering_C.HTM; an entity that arranges the carriage of the goods and issues the Bill of Lading to the Merchant. prijevoznik, vozar, brodar: A carrier is any person or entity who, in a contract of carriage, undertakes to perform or to procure the performance of carriage by rail, road, sea, air, inland waterway or by a combination of such modes. (Glossary of Shipping Terms, 2014; www.marad.dot.gov) originating ~ prvi prijevoznik, delivering ~ zadnji prijevoznik, prijevoznik isporučitelj robe; 2 (nav arch) brod, vrsta broda; 3 (marine eng) nosač, greda revolving ~ okretni nosač, okretni tanjur; 4 (nav arch) nosač
carrier haulage /ˈhɔː.liːdʒ/ (n) (logist) Carrier haulage is when the shipping company itself takes care of preliminary and subsequent transport of a container. It is also referred to as liner’s haulage. brodar odgovoran za prijevoz kontejnera morem i kopnom
Carrier Issuing the Bill of Lading (n) (shipping econ) prijevoznik koji je izdao teretnicu, brodar izdavatelj teretnice
Carrier's Inspection Report Form (n) (shipping econ) prijevozovnikov obrazac za izvješće o pregledu (štete na teretu)
carrier's lien (n) (mar law) When the shipper ships goods 'collect', the carrier has a possessory claim on these goods, which means that the carrier can retain possession of the goods as security for the charges due (http://www.iss-shipping.com/cargo/cargo_library_glossaryc.asp) brodarov privilegij na robu, brodarovo pravo na zadržavanje robe
carry (v) be carried nalaziti se, biti u, ~ away odvoditi, odnijeti, ~ out izvršiti, provesti, izvesti, obaviti: Carry out a risk assessment before the start of dangerous jobs so that identified control measures can be put in place. Always carry out a full set of CPP tests, both ahead and astern. Avoid carrying out lashing jobs when the vessel is rolling badly., ~ through provesti (do
The master sensed that the coxswain was having difficulties and asked him if it was safe to carry on. Personnel entering tanks must also carry a CO detector together with O and LEL personal detector, (as per company policy when entering tanks after carrying Crude or Fuel Oil). In their circular 118 the Panama Maritime Authority states that vessels must carry a minimum of two Watchstanding Deck Officers or one dedicated Radio Officer. This accident demonstrates the need to carry a means of raising the alarm in the event of an emergency. Should high speed vessels carry additional warning lights to indicate their extra speed? A rescue helicopter carrying a doctor arrived after approximately 45 minutes.

Do you carry any dangerous goods? The vessel was certified to carry up to 12 passengers. The vessel was carrying 1973 containers on deck, which were stacked seven containers high.

The OOCL United Kingdom, with a carrying capacity of 21,413 TEUs, is one of the carrier’s six ‘G Class’ vessels and they are currently the world’s largest container ship.

A heavy open vehicle, usually having two wheels, used to transport goods locally is a cart. A cartage is the process of transporting by cart; in US the term is used for trucking (intra-city hauling on drays or trucks) or for trucking fees. A carter’s note is a potvrda o primitku robe / tereta sa cestovnog vozila.

A cartridge gun is a pištolj za silikonske patrone.
boat constructed with the hull planks laid edge to edge to make a flush smooth finish trup s ravnim trenicama (madirima), trup s ravnim platicama (madirima)

Carvel-method  
(n) (nav arch, boating/yachting, sailing vessels) Carvelov sustav gradnje broda, metoda gradnje s dodirivanjem platica (trenica, madira)
carvel planking  
(n) (nav arch, boating/yachting) COMPARE clinker-built boat

trenice bez preklapanja ravné trenice, ravné platice: liša gradnja
carvel work  
(n) (sailing vessels, nav arch, boating/yachting) glatka gradnja (barke, brodice, jedrenjaka)

CAS (=collision avoidance system)  
(n) (navig) sustav izbjegavanja sudara
case /keis/  
(n) 1 (marine eng) plašt; 2 (mar law) slučaj in~ of u slučaju (da), ako; 3 (cargo handling) kutija, sanduk
case law  
(n) (mar law) sudska praksa, pravo utemeljeno na sudskim slučajevima: The bill of lading’s identity and legal standing is provided for by national and international law, by case law and precedent, and by common usage over many years. Most of the common law countries follow English statute and case law.
cash  
(n) (financ) gotovina
Cashier's Office /ˈkæʃiə/  
(n) (shipping econ) blagajna
cash machine  
(n) (UK) bankomat
cashpoint  
(n) 1 (financ) blagajna; 2 bankomat ~ machine bankomat

casing /ˈkeisɪŋ/  
(n) 1 (marine eng) plašt, kućište, oplata cylinder ~ kućište cilindra, outlet ~ odvodna (obložena) cijev, boiler ~ plašt kotla, funnel ~ oplata dimnjaka, iron ~ željezna oplata, željezno kućište, rotor ~ kućište roto (turbine), boiler ~ kućište kotla, twindlass motor ~ ~ kućište motora

sidrenog vitla: Soon the windlass motor casing shattered …, engine ~ kućište stroja, kućište motora: This allowed boundary cooling of the engine casing to be started.
nutarnje kućište: The inner casing carries the structural load from the HP compressor outer casing to the turbine casing;
inner ~
cask /ˈkaːsk/  
(n) (cargo handling) bačva (drvena, za alkoholna pića), drvena bačva
cast /ˈkaːst/  
(v) (marine eng) lijevati ~ in one piece lijevan iz jednog komada, ~ iron lijevano željezo, sivi lijev
cast  
(v) 1 (seamanship, ship handling, boating/yachting) throw (the line) baciti, dobaciti ~ the line baciti konop (na obalu, na drugi brod / brodicu); 2 (seamanship, ship handling, boating/yachting) baciti ~ the anchor spustiti sidro, baciti sidro: The MV …. dragged anchor 2 miles away but did not use enough her propulsion plant to help holding her mooring and did not cast her second anchor.
castaway /ˈkaːstweɪ/  
(n) (seamanship) brodolomac

(n) (seamanship) zapovijedi za odvezivanje
casualty casualties cast the line cast steel cast iron

give extra attention to all valves, especially those made of cast iron.

odbaciti uže (s bitve),

He was aware that the end of the rope had been cast off from the mooring bitt on the pier and cast into the water. One of the deckhands went on deck to cast the lines off. On pilot's advice, all lines were cast off, and the two tugs began pulling the vessel away parallel from the berth.

Three Pilots boarded and the vessel cast off at 0900 with 2 tugs made fast. A single mooring line was put out, the two pilots passed each other on the gangway, and the vessel cast off to continue her passage to the sea.

cast iron (n) (marine eng) = gray iron lijevano željezo, sivi lijev, giza: Give extra attention to all valves, especially those made of cast iron.
cast off (v) 1 (seamanship) let go (line) to let go the dock lines in order to get under way. To remove the dock lines, or to free them from their cleats, and throw them to the dock (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) odbaciti uže (s bitve),

Italian: mollare (gli ormeggi): He was aware that the end of the rope had been cast off from the mooring bitt on the pier and cast into the water. One of the deckhands went on deck to cast the lines off. On pilot's advice, all lines were cast off, and the two tugs began pulling the vessel away parallel from the berth.

Three Pilots boarded and the vessel cast off at 0900 with 2 tugs made fast. A single mooring line was put out, the two pilots passed each other on the gangway, and the vessel cast off to continue her passage to the sea.

cast steel (n) (marine eng) lijevani čelik
cast the line (v) (ship handling, seamanship, boating/yachting) = toss a line throw / toss a line ashore, on the doct, or another boat / ship
dobaciti konop / uže, baciti konop / uže
casualties /ˈkæʒuəltɪz/ (n) (safety) 1 a gubici; 2 poganuli u pomorskog nesreći, žrtve (u pomorskij nesreći); 3 štete
casuality /ˈkæʒuəltɪ/ (n) (safety) nesreća, pomorska nesreća, gubitak: In a recent maritime casualty, a vessel sank with loss of many lives. The second tug was quickly alongside the casualty and passed across three charged fire hoses. Type of casualty: Capsizing/Listing EMSA No. ... 3-2008 A recent marine casualty involving a large fishing vessel resulted in multiple fatalities and loss of the vessel.

marine ~ 'izvanredni događaj na moru koji je prouzročio štetne posljedice kojima su neposredno ugroženi ljudski životi, imovina i okoliš'; In accordance with the RESOLUTION A.849(20) adopted on 27 November 1997 - CODE FOR THE INVESTIGATION OF MARINE CASUALTIES AND INCIDENTS a marine casualty is an event that has resulted in any of the following: 1. the death of, or serious injury to, a person that is caused by, or in connection with, the operations of a ship; or 2. the loss of a person from a ship that is caused by, or in connection with, the operations of a ship; or 3. the loss, presumed loss or abandonment of a ship; or 4. material damage to a ship; or 5. the stranding or disabling of a ship, or the involvement of a ship in a collision; or 6. material damage being caused by, or in connection with, the operation of a ship; or 7. damage to the environment brought about by the damage of a ship or ships being caused by, or in connection with, the operations of a ship or ships.

nesreća serious ~ a casualty which does not qualify as a very serious casualty and which involves: 1 a fire, explosion, grounding, contact, heavy weather damage, ice damage, hull cracking or suspected hull defect, etc., resulting in; 2 structural damage rendering the ship unseaworthy, such as penetration of the hull underwater, immobilization of main engines, extensive accommodation damage etc.; or 3 pollution (regardless of quantity); and/or .4 a breakdown necessitating towing or shore assistance.
ozbiljna nesreća (požar, eksplozija, nasukanje, oštećenje broda) uslijed kojega brod prestane biti sposoban za plovidbu, very serious ~ a casualty to a ship which involves the total loss of the ship, loss of life or severe pollution

nesreća (s fatalnim posljedicama): The number of very serious casualties has continuously decreased since 2014 with 74 reported in 2017 www.emsa2018.com, suffer a ~

pretrpjeti nesreću: A bulker with 20 crew members onboard had suffered a marine diesel engine
casualty event, Annual Overview of Marine Casualties and Incidents

Casualty that knocked out vessel’s main propulsion. Casualty event

Unesrećena osoba, ozlijeđena osoba: The casualty was extremely lucky not to suffer more severe or even fatal injuries. Unesrećeni je imao sreću što nije doživio ozbiljnije ili čak smrtonosne ozljede. Very soon afterwards another crew member saw the casualty and alerted the chief officer. The emergency services arrived and stabilised the casualty before he was craned out of the hold on a stretcher. He immediately instructed the casualty not to move and contacted the ship’s medic. The fishing vessel skipper skilfully manoeuvred the boat alongside the casualty to enable his colleagues to recover him on board. 3 (safety) Žrtva (u pomorskoj nesreći), nastradali (u pomorskoj nesreći): Number of casualties: four. Number of injured persons: five. Broj žrtava: četiri. Broj ozlijeđenih osoba: pet. No other casualties have been reported and 20 crew were evacuated to sister vessel. Fortunately there were no casualties and the damage was limited to the forecastle area. Report casualty. Izvijestite o žrtvama / nastradalima. 4 (safety, mar law) Unesrećeni brod, havariiran brod: A couple of minutes later the casualty was sighted, it was a dis-masted yacht. 5 (safety, mar law) Havarija (stroja, uređaja itd.): The Navy is investigating a casualty to one of the main propulsion diesel engines (MPDE) on board the ship. The MPDE will need to be removed and rebuilt or replaced altogether.

casualty event (n) (mar law, safety, mar ins) Casualty events are unwanted events in which there was some kind of energy release with impact on people and/or ship including its equipment and its cargo or environment. (IMO; www.emsa2018.com) Pomorska nesreća, nesretne dogodaje: are classified in: capsize/ listed, collision, contact, damage to equipment, grounding/stranding, fire, flooding, hull failure, loss of control, missing, non-accidental events, illegal discharge, other.

catamaran /ˌkætəˈmærən/ (nav arch) a vessel with two hulls joined by a deck and bracing

Katamaran, dvotrupac: A large catamaran was fitted with four gas turbine engines, two in each of the hulls. ~ with enclosed cockpit katamaran s ugrađenim kokpitom, 4-berth ~ katamaran s četiri postjelje, ~ passenger ferry katamaranski trajekt

catamaran /ˌkætəˈmærən/ (boating/yachting) jedrilica katamaran
Incat Crowther is pleased to announce construction of a 35m Catamaran Passenger Ferry for Samso Rederi in Denmark. The ferry will operate between the Aarhus and the island of Samso.

Four people died in a car ferry that caught fire off the coast of Greece. A product tanker caught fire off Dayangshan Island on 3 August, killing one crew member and injuring five others. The vessel caught fire and sank at about 1 a.m. The tanker caught fire after the collision and burnt for more than a week before sinking off China’s east coast.

The container ship caught fire on 9 March, which cost the lives of five crew members. The ship caught fire off the port.
cater for /ˈkeɪtər/ (v) 1 opskrbljivati, snabdijevati; 2 brinuti se o, skrbiti se o, pobrinuti se za: The engine control room was informed and the switchboard was then reconfigured with an additional generator to cater for the additional load.; 3 (shipping econ) udovoljiti (zahtjevima prometa), odgovoriti (zatjevima prometa), udovoljiti potražnji: The port will be expanded to cater for coal exports.
catering department /ˈkɛtərdʒəmənt/ (=the steward's / catering department) (n) (shipping econ) = steward's / catering department: The catering or galley department is responsible for preparation and serving of foods to the crew on board of a ship. There are a number of jobs available in this department that includes Chief Steward, Chief Cook, Second Cook, Bakery/Pastry Man, Cleaners and Dish Washers. opća služba (na brodu), bijelo osoblje, brodski ekonomat

catering officer /ˈkɛtərinər/ (n) (mar law) časnik opće službe
catering staff (n) (mar law) bijelo osoblje, osoblje opće službe: The galley extraction fans and principal electrical equipment had been shut down some time earlier by the catering staff ...

CAT fines (=catalytic fines) (n) (marine eng) using marine fuel with aluminium and silicon content; Cat fines (catalytic fines) are hard aluminium and silicon oxide particles that are normally present in heavy fuel oil. (https://www.motorship.com/news101/fuels-and-oils/on-line-measurement-of-catalytic-fines-in-hfo-systems) aluminijske i slikonske čestice u brodskom gorivu: Cat fines in fuel entering the engine will cause wear: The higher the amount of cat fines, the higher the wear will be.2. The recommended maximum acceptable level of cat fines entering the engine should always be as low as possible and maximum 15 ppm Al+Si for short periods https://marine.man-es.com/docs/librariesprovider6/

Cat fines are hydrophilic and emulsify readily on contact with water. Removal efficiency falls as water content increases. Maintain settling tank temperature above 85°C to aid settling and water content removal. https://www.exxonmobil.com/en/marine/technicalresource/marine-resources/cat-fines-removal

Wear from cat fines in two-stroke engines is found in the combustion chamber on cylinder liner, piston rings and piston ring grooves, resulting in high wear rates and possible scuffing. https://marine.man-es.com/docs/librariesprovider6/
catfish (n) (fishing) som
catfish (n) (fishing) mačka, mačka mrkulja
cathead (n) (sailing vessels) a beam extending out from the hull used to support an anchor when raised in order to secure or 'fish' it soha sidra

CCNR - Central Commission for the Navigation on the Rhine (=CCNR) (n) (inland waterways) Središnja komisija za plovidbo Rajnom (CCNR)

CCRP (=Consistent Common Reference Point) (n) (navig) zajednička referentna točka

CCRS (=Consistent Common Reference Point) (n) (navig) a single consistent common reference point for information in the Integrated Navigational System) zajednički referentni sustav: The CCRS should ensure that all parts of the INS are provided with the same type of data from the same source.

cease /siːz/ (v) (mar law) prestat, obustaviti, završiti: On advice from the terminal we decided to cease discharging and proceed to sea until the typhoon had passed.

ceiling /ˈsiːliŋ/ (n) 1 (nav arch) planking with which the floor and sides of a vessel’s hold is covered podnice, pajoli ~ planks daske podnica, tavaloni podnica; 2 (sailing vessels, nav arch, boating/yachting) = inner planking planks attached to the inside of the frames of a wooden boat; platice s unutrašnje strane rebara unutarnja oplata; 3 (marine eng) strop, pokrov: As a result of the fire, there was considerable smoke and fire damage to the bulkheads and ceiling. ~ tank pokrov tanka

celling coils (n) (nav arch, marine eng) spiralne cijevi tanka ispod palube, serpentine tanka ispod palube

celestial body /'siːlestiːl/ (n) (navig) nebesko tijelo: The starting point marks where the Sun crosses the celestial equator in the spring and the angle from it to a celestial body is called the sidereal hour angle, or SHA.

celestial fix (n) (navig) nebeska pozicija, pozicija dobivena astronomskom navigacijom: Due to the long time it takes to complete a set of celestial observations, advancing and retarding LOPs is a common feature of a celestial fix.

celestial horizon (n) (navig) an imaginary plane through the observer at right angles to the local vertical horizon (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) astronomski horizont, nebeski horizont

celestial navigation (n) (navig) Celestial navigation systems are based on observation of the positions of the Sun, Moon, Planets and navigational stars. Such systems are in use as well for terrestrial navigating as for interstellar navigating. By knowing which point on the rotating earth a celestial object is above and measuring its height above the observer’s horizon, the navigator can determine his distance from that subpoint. A nautical almanac and a marine chronometer are used to compute the subpoint on earth a celestial body is over, and a sextant is used to measure the body’s angular height above the horizon. That height can then be used to compute distance from the subpoint to create a circular line of position. A navigator shoots a number of stars in succession to give a series of overlapping lines of position. Where they intersect is the celestial fix. The moon and sun may also be used. The sun can also be used by itself to shoot a succession of lines of position (best done around local noon) to determine a
celestial object (n) nebesko tijelo

celestial observation (n) (navig) motrenje nebeskih tijela, snimanje nebeskih tijela

celestial pole (n) (navig) nebeski pol: In this time exposure, stars circle the north celestial pole as Earth turns. Stand on the North Pole, latitude 90° N, and overhead will be the north celestial pole, declination +90°. (http://www.skyandtelescope.com)

cell /sɛl/ (n) (nav arch) COMPARE container cell guide a structural arrangement in container vessels that permits ship containers to be stowed in a vertical line with each container supporting the one above it.

cell guide (n) (nav arch) steel bars and rails used to guide containers during loading and discharging whilst sliding in the ship.

High cube boxes stowed cumulatively, resulting in the highest container extending well above the top of the cell guides. Cell guides on the sides of the hold ensure that the containers stack properly.

cell position (n) (shipping econ, cargo handling) slot

cellular /'sɛlɪər/ (n) fully ~ container ship kontejnerski brod (samo za prijevoz kontejnera) (nav arch) celularan, kontejnerski

cellular vessel (n) (nav arch) a vessel, specially designed and equipped for the carriage of containers kontejnerski brod

cement carrier /ˈsɪmɛnt/ (n) (nav arch) brod za cement, brod za prijevoz cementa

centerboard trunk (n) (boating/yachting) = centreboard case kućište pomične kobilice
centerline (n) (nav arch) simetrala
centerline fairlead (n) (nav arch) privezno oko (na pramcu), panama aft ~
privezno oko na krmi, panama na krmi
center of gravity (n) (US) (phys) = centre of gravity; (G) sustavno težište
broda
center of gravity in metres from bottom of keel (n) (stabil) težište u
metrima od dna kobilice
center point method (n) (navig) metoda potrage i spašavanja s polaskom
iz središnje točke ~ rectangular area metoda pravokutne potrage i
spašavanja s polaskom iz središnje točke, ~ circular area metoda
kružne potrage i spašavanja s polaskom iz središnje točke, ~ rectangular area, bearing and distance metoda pravokutne potrage i
spašavanja s polaskom iz središnje točke, s određenim azimutom i
udaljenošću
centigrade /ˈsɛntɪgriːd/ (n) celzijev stupanj, stupanj celzija
centilane (n) (navig) pojas frekvencija podijeljen u sto dijelova (u sustavu
LORAN C)
centistoke (n) (marine eng) A measurement scale for the viscosity of a liquid. (www.euronav.com)
**centistoke**

central processing unit (=CPU) (n) (navig) COMPARE VDR središnja procesna jedinica (VDR-a)

centre (n) ~ of gravity težište, bottom dead ~ (BDC) donja mrtva točka, top ~ gornja točka (marine eng) središte, centar
centreboard (=centerboard (US)) (n) (boating/yachting) COMPARE

daggerboard a centreboard pivots on a bolt through the centreboard case and rotates into its case as it is raised while the tip moves aft in the water; pomična kobilica koja se podizanjem ili spuštanjem okreće oko svoje osi, a dno lista peraje koso se diže prema trupu i obratno pomična kobilica, koso pomična peraja, centarbot

centreboard case (boating/yachting) kućište pomične kobilice, kućište centarbot a trunk kućište pomične kobilice, kućište centarbot

centre console (n) (navig) središnji pult, glavni pult: The master returned to the centre console, where he attempted to re-establish control of the propulsion;

centre girder (n) (nav arch) hrptenica

centre keelson /ˈsɛntəˌkɛlsən; ˈsɛntəˌkɛlsən/ (n) (nav arch) hrptenica

centre lead (nav arch, seamanship) središnje oko, panama: The larger tug was made fast through the centre lead forward to perform the tow The Deck Cadet was passing a mooring rope to the tug from the aft winch drum after taking it around a set of bitts and out through the aft centre fairlead.

centre-line (nav arch) os, središnja linija, simetrala

centreline fairlead (n) (nav arch) pramčano privezno oko, panama%

centreline plane (nav arch) simetralna ravnina

centre of buoyancy (=B) (n) (stabil) the geometric centre of the underwater volume of the ship at a particular instant, and the point through which the total buoyancy force (Bf) is considered to act vertically upwards (Rhodes, Ship’s Stability, Seamanship, 2003) težište istisnine, težište uzgona, centar uzgona: Ship stability is concerned with the relative positions od G (centre of gravity) and B (centre of buoyancy) as the ship is heeled. The officer in charge of loading the ship must be fully conversant with the way that G moves when shifting, loading and discharging weight. longitudinal ~ (LCB) uzdužni centar uzgona

centre of effort (=CoE) (n) (boating/yachting) The geometric center of force created by the wind on the sails. Subject to change based on sail shape and wind direction
http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ težište (sila pri jedrenju); 2 (ship handling) težište sila vjetra

centre of flotation (n) (stabil) The centroid of area of a waterplane
https://officerofthewatch.com/tools/maritime-dictionary/ centar plutanja longitudinal ~ (LCF) uzdužni centar plutanja: uzdužni centar plovnosti

centre of gravity; (G) (n) (nav arch, stabil) the point where the total weight force (Wf) of the ship is considered to act vertically downwards sistemno težište broda, sustavno težište broda, sila teže broda, težište broda, težište gravitacije vertical shift of ~ vertikalni pomak sustavnoga težišta broda, virtual ~ virtualni položaj sustavnoga težišta broda, longitudinal ~ (LCG) uzdužni centar
centre of gravity in metres from after perpendicular

gravitacije
centre of gravity in metres from after perpendicular (n) (stabil) udaljenost težišta prostora od krmene okomice
centre of gravity in metres from after perpendicular (Bales) (n) (stabil) udaljenost težišta teretnog prostora od krmene okomice (za ukrcaja bala tereta)
centre of gravity in metres from after perpendicular (Grain) (n) (stabil) KG teretnog prostora od kobilice (za žito)
centre of gravity in metres from bottom of keel (Bales) (n) (stabil) Kg teretnog prostora od kobilice (za Žito)
centre of gravity in metres from bottom of keel (Grain) (n) (stabil) KG teretnog prostora od kobilice (za žito)
centrifugal /ˈsɛnˈtrɪfjuɡəl/; ˈsɛntrɪ fjuˈɡəl/ (adj) centrifugalan
centrifugal pump (n) (marine eng) A pump consisting of a shaft to which vanes are attached and which rotates in a circular casing. (www.euronav.com) centrifugalna pumpa,
centrifugalna sisaljka, centrifugalna crpka
centrifugate /ˈsɛnˈtrɪfjuɡeɪt/ (v) (marine eng) centrifugirati
centrifuge /ˈsɛntriˌfjuːdʒ/ centrifuga
centrifuge pump (n) (marine eng) = centrifugal pump centrifugalna pumpa
centrifuging /ˈsɛntrɪˌfjuːdʒɪŋ/ (n) (marine eng) centrifugiranje: Regular centrifuging of the oil is essential for removing particles and water from the oil sump; some engines have the centrifuge running twenty-four hours a day; only being stopped for cleaning.
cephalopod /ˈsɛfəloʊpɔd/ (n) (fishing) mekušac
certificate /ˈsɛtɪfɪk/ (n) (mar law, safety) svjedodžba, potvrda, certifikat
Vaccination ~ svjedodžba o cijepljenju, ~ of shipment podteretnica za kontejnere u sustavu LCL (less than contain er load) (sastavni dio zbirne teretnice), kućna teretnica (House B/L), diona teretnica, ~ of Registry upisni list, ~ of shipment potvrda o otpremi (robe), ~ of qualification svjedodžba o sposobljenosti / stručnosti, ~ of origin, Wireless ~ svjedodžba o radio-uređuju, tonnage ~ svjedodžba o baždarenju, sanitary ~ svjedodžba sanitarnih organa, Safety Equipment ~ svjedodžba o podrijetlu (robe, materijala), svjedodžba o sigurnosnoj opremi, Safety ~ svjedodžba o sigurnosti, provisional ~ privremena svjedodžba, privremeni plovidbeni list, Master’s ~ svjedodžba o ovlaštenju za zapovjednika, classification ~ svjedodžba o klasni broda, ~ of inspection svjedodžba (potvrda) o pregledu
certificate /ˈsɛtɪfɪk/ (v) (mar law) potvrditi
certificated engineer /ˈsɛtɪfɪktid/ (n) (mar law, hum_resources) ovlašteni časnik stroja, ovlašteni strojar
certificated officer /ˈsɛtɪfɪktid/ (n) (mar law, hum_resources) ovlašteni časnik
A certificate issued and endorsed by the administration, for masters, officer and GMDSS radio operators in accordance with the provisions of chapters II, III, IV or VII and entitles the lawful holder thereof to serve in the capacity and perform the functions involved at the level of responsibility specified.

He held a Chinese STCW II/2 certificate of competency (CoC) with a UK certificate of equivalent competency (CEC). The master was ... years old and held an STCW6 II/2 Master’s Certificate of Competency.

The master held a .... STCW1 II/2 master’s certificate for vessels of 3000 gross tonnes or more and a certificate of equivalent competency issued by the ----- Maritime Authority., II/3 - CoC for officers in charge of a navigational watch on ships of less than 500 gross tonnage, engaged on near-coastal voyages.

For more information on the IMO STCW Convention and its certificates, visit: https://safety4sea.com/cm-stcw-convention-terms-and-definitions/
jačim (STCW III/2, točke 1-2), drugi časnik stroja na brodu sa strojem porivne snage od 3.000 kW ili jačim (STCW III/2, točke 1-2), svjedodžba o položenoj 1. klasi - upravitelj stroja (naziv svjedodžbe/ ovlaštenja u uporabi prije usvajanja Konvencije IMO STCW 1978/1995), III/3 - CoC for chief engineer officers and second engineer officers on ships powered by main propulsion machinery of between 750 kW and 3,000 kW propulsion power upravitelj stroja na brodu sa strojem porivne snage do 3000 kW (STCW III/3), drugi časnik stroja na brodu sa strojem porivne snage do 3.000 kW (STCW III/3), III/4 - CoC for ratings forming part of a watch in a manned engine-room or designated to perform duties in a periodically unmanned engine-room član posade koji čini dio plovidbene straže u strojarnici (STCW III/4), III/5 - CoC for ratings as able seafarer engine in a manned engine-room or designated to perform duties in a periodically unmanned engine-room stariji član posade koji čini dio plovidbene straže u strojarnici (STCW III/5), III/6 - CoC for electro-technical officers časnik elektrotehnike (STCW III/6), III/7 - CoC for electro-technical rating brodski električar (STCW III/7), CoC for GMDSS radio operators GMDSS radio operator (STCW IV/2), V/1 - CoC for masters, officers and ratings on oil and chemical tankers Svjedodžba o dopunskoj osposobljenosti – Rad na tankerima za ukapljene plinove (STCW V/1-2-2), obtain the ~ steći svjedodžbu za časnika palubne straže, steći svjedodžbu za časnika palube: He has recently obtained his STCW II/2 Chief Mate’s Certificate, V/2 - CoC for masters, officers, ratings and other personnel on ro-ro passenger ships Svjedodžba o dopunskoj osposobljenosti – Mjere sigurnosti na putničkom brodu (STCW V/2). a svjedodžba o osposobljenosti pomorca, ovlaštenje, patent, brevet Second Class Engineer 1 svjedodžba strojara druge klase (= svjedodžba časnika straže u stroja+u), First Class Engineer ~ svjedodžba strojara prve klase, ~ of Competence svjedodžba o osposobljenosti (za pomoračka časnička zvanja prema IMO-konvenciji STCW), First Mate’s ~ of Competency svjedodžba o ovlaštenju za prvog časnika palube, fake ~ lažna svjedodžba o osposobljenosti pomorca: The Government has taken action on fake certificates of competency.

**Certificate of competency as Master**

*mar law* *(hum_resources)* svjedodžba o osposobljenosti za zapovjednika

**Certificate of Competency First Class (Deck)**

*mar law, hum-resources* SEE Class 1 Certificate svjedodžba o osposobljenosti za prvog časnika palube i zapovjednika broda

**Certificate of Competency First Class (Engineering)**

*mar law, hum_resources* SEE Class 1 Certificate svjedodžba o osposobljenosti za upravitelja stroja (strojara I. klase)
**Certificate of Conformance** *(logist)* A Certificate of Conformance is a document certified by a competent authority that the supplied good or service meets the required specifications.

**Certificate of Delivery** *(mar law)* A certificate, indicating the condition of a vessel upon delivery for a charter including ballast, available bunker and fresh water.

**Certificate of Conformity** *(logist)* A Certificate of Conformity is a document certified by a competent authority that the supplied good or service meets the required specifications.

**Certificate of Delivery** *(mar law)* A certificate, indicating the condition of a vessel upon delivery for a charter including ballast, available bunker and fresh water.

**Certificate of Fitness** *(safety)* A document that certifies an individual or organization as being fit or competent to engage in a particular work activity or industrial project. (www.safopeia.com)

**Certificate of Inspection** *(shipping econ)* 1 *(shipping econ, mar law)* A document certifying that merchandise was in good condition immediately prior to its shipment.

**Certificate of Origin** *(=CoO)* *(mar law, shipping econ, logist)* A certified document used in international trade showing the origin of goods; A certificate of origin is an official document that states in which country or group of countries a certain product was manufactured. [https://www.logisticsglossary.com/term/certificate-of-origin/](https://www.logisticsglossary.com/term/certificate-of-origin/)

**Certificate of Pratique** *(mar law)* = **Free Pratique** = **Slobodni promet**

**Certificate of Proficiency** *(mar law, hum_resources)* A certificate, other than a certificate of competency issued to a seafarer, stating that the relevant requirements of training, competencies or seagoing service in the convention have been met. [https://safety4sea.com/cm-stcw-convention-terms-and-definitions/](https://safety4sea.com/cm-stcw-convention-terms-and-definitions/)

**Certificate of Redelivery** *(mar law)* COMPARE Certificate of Delivery

**Certificate of Registration** *(mar law, nav arch)* Isprava kojom se dokazuje državna pripravnost broda, njegova namjena i područje plovidbe.

**Certificate of Shipment** *(mar law, shipping econ)* Otpremnička potvrda, kućna teretnica.

**Certificate of Test and Thorough Examination of Lifting Appliances** *(safety)* Svjedodžba o ispitivanju i cjevljotom pregledu prekrcajnih sredstava.

**Certified Officer** *(mar law, hum_resources)* Ovlašteni časnik, časnik s ovlaštenjem.

**Certify** *(mar law, safety)* Potvrditi: This is to ... Ovime se potvrduje da ... It is the master's responsibility to verify that the vessel is properly certified and equipped for carrying any
intended cargo as soon as he is told about it by the charterers or owners. The vessel was in good condition, had been certified by the MCA 6 weeks earlier, and was manned by an experienced skipper and two crew. The lifting gear and sling were duly certified for the load and had not been subjected to any severe loads since new;

CESNI - European Committee for drawing up Standards (=Comité Européen pour l’élaboration des standards pour la navigation intérieure) (n) (inland waterways) SEE CCNR - Central Commission for the Navigation on the Rhine an international body set up under the auspices of the CCNR, and in order to streamline the legal frameworks governing the professional qualifications in Europe, certificates of qualification, service record books and logbooks, issued in accordance with the Rhine Navigation Personel Regulation (https://eur-lex.europa.eu/resource.html?)

Europski odbor za izradu standarda unutarnje plovidbe: At its plenary session in June 2015, the CCNR adopted a Resolution creating a European committee for drawing up common standards in the field of inland navigation (https://eur-lex.europa.eu/resource.html?) This Resolution promotes the development of uniform, modern, user-friendly requirements and takes into account the CCNR’s “Vision 2018” for the sustainable development of inland navigation. (https://eur-lex.europa.eu/resource.html?)

Cesser Clause /ˈsɛsər/ (n) (mar law) A clause in a charterparty which releases the charterer from his personal liability to the shipowner and substitutes the bill of lading holder as the debtor. The substituted bill of lading holder thus becomes personally liable for the charges and the shipowner waives his rights against the charterer;

Cession /ˈsɛʃən/ (n) (mar law, shipping econ) ustupanje, ustup, ustupanje prava

Cetane index /ˈsɛtəni/ (n) (marine eng) cetanski indeks

Cetane number /ˈsɛtəni/ (n) (marine eng) A number which expresses how well a diesel fuel ignites.

(https://www.marinedieseleurope.com/) cetanski broj

CEU (=ceu; car equivalent unit) (n) (cargo handling) jedinica za prijevoz automobila, CEU jedinica: A 6,500 ceu Pure Car/Truck Carrier (PCTC) berthed in Mombasa yesterday afternoon for a regular discharge operation.

C&F (=cost and freight) (n) (mar law, shipping econ) COMPARE C.F.R. term of sale meaning “cost/cargo and freight” whereby Seller pays for cost of goods and freight charges up to destination port cijena (robe) i vozarina ~ (named port of destination) cijena i vozarina (s naznakom luke odredišta)

cf. /kɑːn ˈfɜː/ usp., usporedi, isporedi

CFAR (=constant false alarm rate) (n) (navig) broj lažnih alarma sveden na konstantnu veličinu (o ARPA-i)

CFD (=Congestion Fee Destination.) (n) (logist) naknada za štetu zbog zakršćenosti luke odredišta

CFPP (=Cold Filter Plugging Point.) (n) (marine eng) Cold filter plugging point (CFPP) is the lowest temperature, expressed in degrees Celsius (°C), at which a given volume of diesel type of fuel
still passes through a standardized filtration device in a specified time when cooled under certain conditions (https://en.wikipedia.org) točka prekida protoka kroz filtr za nezagrijano gorivo: The Cold Filter Plugging Point (CFPP) method is used to determine the low-temperature operability CFPP is a critical property used to forecast the lowest temperature at which a fuel will freely flow through filters in a diesel engine system. https://www.anton-paar.com/?eID=documentsDownload&document=58092&L=0

C.F.R. (=cost and freight) (n) (shipping econ, mar law) A trade term requiring the seller to arrange for the carriage of goods by sea to a port of destination, and provide the buyer with the documents necessary to obtain the goods from the carrier. Under CFR, the seller does not have to procure marine insurance against the risk of loss or damage to the goods during transit.; Cost and Freight (named destination port): seller must pay the costs and freight to bring the goods to the port of destination. However, risk is transferred to the buyer once the goods have crossed the ship’s rail. Maritime transport only. http://www.tkmglobal.net/inco.html vanjskotrgovinski uvjet (INCO) koji uključuje cijenu robe i vozarina

chafe /feil/ (n) Any wear to running rigging or sails, created by unwanted friction. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) habanje (konopa), trošenje trenjem

chafe (n) (seamanship) To wear the surface of a rope by rubbing against a solid object habati se (o konopu): Mooring lines may chafe or get caught in the area of locks.

chaff (n) (electr) metalni listići za radarske protumjere

chafing (n) (cargo) wear away, rub, cause friction trenje: Number 4 cylinder fuel injector leak-off pipe suffered extensive chafing because of its inadequate bracketing arrangements. ~ gear material used to protect lines form excessive wear materijali za zaštitu od trošenja trenjem, ~ plate a bent plate, which minimizes the chafing of ropes as at hatches zaobljeni lim (za ublažavanje trenja užadi) protutarni lim, ~ guards protutarne vodilice: The mooring teams were fitting chafing guards to the lines.

chain (n) 1 (ship_equipment) lanac drive ~ (marine eng) lančani pogon, lančani prijenos; 2 (seamanship, ship_equipment) sidreni lanac: ... the windlass hydraulic motor suddenly failed and the entire 11 shackles of chain ran out ...

chain block (n) (seamanship, cargo handling) lančani čekrk, lančani koloturnik, lančani parank: The bowl was being lowered on to the shaft by the rating using a chain block. The chain block was used at an angle to lift engine components.

chain-bolt (n) (sailing vessels) svornjak sprežnjaka puta

chain cable (n) (seamanship, nav arch, ship_equipment) sidreni lanac: The starboard anchor was quickly let go using about 10m of chain cable.

chain drive (n) (marine eng) lančani pogon, lančani prijenos

chain fall (n) (cargo handling, marine eng) lančani čekrk

chain guide (n) (nav arch) vodilica lanca
Chain hook

chain hook \( (n) \) \textit{(seamanship)} kuka za slaganje lanca

Chain link \( (n) \) \textit{(nav arch)} oko lanca, karika, \textit{maja}: Just as the skipper stopped heaving, the hook opened up under load, causing it to be released from the \textit{chain link}. Suddenly, a \textit{chain link} parted and the tugger wire instantly became slack.

Chain locker \( (n) \) \textit{(nav arch)} the compartment for storing the anchor chains, located near the bow of the ship. \textit{lančanik, prostor za lance, Italian: pozzo delle catene}: The last length of chain had broken loose from the \textit{chain locker}, and the AB was hit and injured by the bitter end.

Chain mark \( (n) \) \textit{(seamanship)} oznaka duljine lanca

Chain pipe \( (n) \) \textit{(nav arch)} pipe leading from the forecastle deck to the chain locker \textit{cijev lančanika, cijev lanca}

Chain plate \( (n) \) \textit{(nav arch)} uglava

Chain puller \( (n) \) \textit{(seamanship, nav arch)} podigač sidrenog lanca

Chain sling \( (n) \) \textit{(cargo handling)} lančani pasac: Stevedores were securing containers on board a vessel with \textit{chain slings}.

Chain slip \( (n) \) \textit{(nav arch)} otpusna kuka lanca

Chain stopper \( (n) \) \textit{(nav arch)} A device used to secure the chain cable when riding at anchor, thereby relieving the strain on the windlass, and also for securing the anchor in the housing position in the hawsepipe. (https://www.history.navy.mil/) \textit{zapor lanca, štoper sidrenog lanca}: The vessel approached the single point mooring (SPM) to pick up the chafing chain from the buoy and secure it to her bow \textit{chain stopper}. A \textit{chain stopper} was subsequently applied to the tug towline (48mm diameter
wire) in order for the eye to be placed over the bitts.

Pawl type chain stopper

Bar hinged type chain stopper

http://www.tradekorea.com/product/detail/P333835/Ship-Dog-Type-Cable-Clench-Anchor-Releaser.html

chain well (n) (nav arch) zdenac sidrenog lanca
chainwheel (n) (nav arch) = cable lifter = gipsy = wildcat podigač lanca
chamber (n) combustion ~ komora izgaranja, komora za sagorjevanje,
ionization ~ ionizacijska komora (marine eng) komora
Chamber of Commerce /ˈtʃeɪmbə/ (n) trgovinska komora
chamfer /ˈtʃæmfə/ (v) (nav arch) to cut of the sharp edge at an angle of 90 degrees odrezati pod kutom od 90 stupnjeva (u brodogradnji)
chandler /ˈtʃændlə/ (n) (shipping econ) a company providing the ship supplies to operate and serve its crew, such as groceries; paper products; engine parts; electronics; hardware; etc. A chandler sells these supplies to the ship’s agent. brodoopskrbljivač
chandlery /ˈtʃændləri/ 1 (ports, shipping econ) skladište brodske opreme (u luci), spremište brodske opreme; 2 (seamanship) brodske i pomoračke potrepštine; 3 (boating/yachting) a store that sells nautical gear nautička trgovina
change of trim at aft end (n) (cargo handling, nav arch) promjena trima na krm
change oil (n) (marine eng) izmjena ulja
change over 1 (v) (marine eng) prebaciti (s jednog sustava na drugi): the engineers changed over from the low to the high sea water cooling suction; 2 (marine eng, navig) prebacivanje changeover from automatic to manual steering prebacivanje s automatskog na ručno kormilarenje
**change over** (n) (navig, hum_resources) razmjena, zamjena ~ of pilots (navig) zamjena peljara, razmjena peljara: The accident occurred during a routine **changeover of pilots** at Gravesend Reach pilot boarding station. Be ready for ~ of pilots.

**change scale** (n) (navig) promjena mjerila (u sustavu ECDIS)

**changing over the watch** (seamanship) zamjena straže, smjena straže

**channel** /ˈʃænəl/ (n) 1 (navig) plovidbeni kanal, kanal: As the east channel is narrow, and weather conditions were poor, I slowed down to allow the other vessel to clear the channel before we entered it. narrow ~ uski kanal, navigable ~ plovni / plovidbeni kanal: Vessel A was southbound in the channel while Vessel B was approaching the channel entrance on a northerly course. 5 cables from the channel entrance, course was adjusted on the autopilot to 345° in accordance with the passage plan.

~ entrance ulaz u plovidbeni kanal, buoyed ~ kanal označen plutačama, approach ~ prilazni kanal, leave the ~ isplovi iz kanal, enter the ~ uplovi u kanal, clear the ~ napustiti kanal, isplovi iz kanala: While the tanker waited for the cargo ship to clear the channel, no action was taken to stop the tanker from slowly moving towards the channel’s entrance.

~ exit the ~ isplovi iz kanal, izaći iz kanala, approach the ~ prići kanalu, približiti se kanalu, cross the ~ plovi preko kanala, presijecati kanal, a busy shipping ~ prometni plovidbeni kanal, main ~ glavni kanal, navigate in the ~ plovi kanalom, plovi u kanalu, wait outside the ~ čekati izvan plovidbenog kanala, ~ buoy oznaka plovidbenoga kanala: After passing the last channel buoy before the breakwater entrance at very close range, the pilot ordered hard-a-starboard.

~ deep-graught ~ plovidbeni kanal za brodove dubokog gaza: The ship decided to take the deep-draught channel, turned to port and scraped down our port side less than 2 cables off.

~ close the ~ zatvoriti plovidbeni kanal: The incident cause the **Channel to be closed** for three days.

~ (comm) radio-kanal, komunikacijski kanal listen to the ~ pratiti kanal, slušati kanal, biti na kanalu, radio ~ radio-kanal, be on the ~ biti na kanalu; 3 (geogr, oceanogr) prirodni kanal

**channel** /ˈʃænəl/ (n) (sailing vessels) polica lower ~ donja polica, upper ~ gornja polica

**channel marked by bouys** (n) (navig) plovidbeni kanal označen plutačama: The ship entered the port through a channel marked by pairs of lateral buoys numbered from 1 at the seaward end to 16 near the outer basin.

**channel marker buoy** (n) (navig) oznaka plovidbenoga kanala: However, due to the combined effects of a tidal stream and loss of steering due to decreased speed, the vessel drifted on to the channel marker buoy, which got fouled briefly with the rudder.

**channel pilot** (n) (navig) morski peljar, peljar za plovidbu kanalom

**channel transit** (n) (navig) plovidba kanalom: As a Master of VLCCs and ULCCs with many **Channel transits** behind me, I am certainly not against alterations to port in certain circumstances.

**chanty; chanty** /ˈʃænti; ˈʃænti/ (n) (seamanship) merchant seamen’s work song used when working the capstan or halyards mornarska radna pjesma

**chaplain** /ˈʃæplən/ (n) kapelan port ~ lučki kapelan, svećenik za pomorce: Using ship movement data from MarineTraffic, chaplains will be able to see when ships are due to come
into port and plan their ship visits accordingly. They can then provide care to the seafarers.

**characteristic of Aton** *(n) (navig)* the audible, visual, or electronic signal displayed by an aid to navigation to assist in the identification of an aid to navigation. Characteristic refers to lights, sound signals, RACONS, radio beacons, and daybeacons *(Seasources.net)* **karakteristika plovidbene oznake, obilježje plovidbene oznake (plutače, svjetla itd.)*

**charge** *(n)* 1 *punjenje (baterije);* 2 *nadležnost, briga person in ~ nadležna (odgovorna, zadužena)* osoba: At the poop deck, the second mate was in charge of the mooring operations., be in ~ biti nadležan (zadužen, odgovoran za): Complacency, familiarisation, and perhaps over confidence, spreads to the Master, Chief and others in charge aboard the vessel. **na dužnosti, officer in ~ dežurni časnik, časnik straže, odgovorni časnik:** When I asked the Officer in charge his intentions he responded by asking me why, I had not taken action earlier to avoid the original close quarters situation. The officer-in-charge instructed the crewman controlling the winch to start heaving slowly to pull the tug’s tow wire on board. Complacency, familiarisation, and perhaps over confidence, spreads to the Master, Chief and others in charge aboard the vessel.; 3 *(mar law)* optužba; 4 iznos vozarine; 5 zaduživanje

**charge** *(v) (electr)* puniti ~ the battery puniti akumulator: ... the vessel’s emergency generator battery charging system was wrongly set up in such a way that two chargers could be charging the battery simultaneously.

**charge** *(v) (shipping econ)* obračunati, naplatiti ~ a fee obračunati pristojbu / proviziju

**charge** *(n) (shipping econ)* an amount to be paid for carriage of goods based on the applicable rate of such carriage, or an amount to be paid for a special or incidental service in connection with the carriage of goods *iznos vozarine, prevoznina*

**charge air cooler** *(n) (marine eng)* rashladnik zraka za punjenje cilindra

**charges** *(shipping econ)* troškove, ubrati iznos za troškove; 2 *(mar law)* optužba: The charges were for failing to maintain an accurate Oil Record and Garbage Record Books onboard the ship bring ~ podnijeti tužbu: Maritime authorities of ... have brought charges against the captain of a bulk carrier for working without the use of proper safety equipment https://gcaptain.com, face ~ biti suočen s tužbom: The Master of the MS ... appeared in a court on Monday to face two charges related to the loss of the containers overboard during heavy weather https://gcaptain.com

**charge with** *(v) (mar law)* optužiti, tužiti

**charging** *(n) pressure (marine eng)* prednabijanje *(electr, marine eng)* punjenje: All charging systems should be checked to ensure that the charging current cannot exceed the specified safe range;

**chart** *(n) (navig)* karta, mapa: The chart used was Admiralty Chart 323, a copy of the relevant area being enclosed. This resulted in the use of inappropriate settings with regard to depth contours, and chart and depth alarms. **large / small-scale ~ karta velikog / malog mjerila:** ... the 2nd Mate had plotted the position on a small scale chart and not on the large scale chart that was used by the 3rd Mate for coastal navigation when arriving SE of the Canary Islands., **up-to-date ~ ažurirana** karta, correct the ~ ispraviti kartu: Correct all applicable charts through the latest Notice to
The principles and requirements of passage planning on ECDIS are no different than when using a paper chart, and a master’s responsibility to cross-check the work of his officers still remains. As the vessel reached the southern end of the box, the deckhand selected a new course from the electronic chart and is reported to have dialled it into the automatic helm, expecting the vessel to turn onto a northerly heading. We had a look at the latest hydrographic chart, position on the chart and fisherman’s pilot as part of your passage planning, to ensure you are fully aware of a harbour’s aids to navigation. Although you may think you are familiar with a harbour, consult the chart and fisherman’s pilot as part of your passage planning, to ensure you are fully aware of a harbour’s aids to navigation. The shoal been highlighted on the chart and the second officer was consulted with respect to the tanker’s position and track. Soon afterwards, the second officer plotted the vessel’s position on the chart and initiated a planned alteration of course from 110° to 118° using the autopilot.

charter hire

(n) (mar law, shipping econ) A sum of money paid to the shipowner by a charterer for the use of a ship. Charter hire paid under a voyage charter is also known as freight, the offshore oil and gas group is suing its ... Ltd for over USD140,000 of alleged unpaid charter hire.

charter in

(v) (mar law) To hire a ship from a shipowner. uzeti brod u najam, unajmiti brod, uzeti brod u čarter

chartering agent

(n) (mar law) Shipbroker that acts on behalf of a charterer in the negotiations leading to the chartering of a ship. He is the counterpart to the owner's broker, the shipowner who acts on behalf of the shipowner. http://www.thmglobal.net/charter CHTM posrednik u ugovaranju najma broda, čarterski broker

chartering broker

(n) (mar law) = shipbroker agent posrednik, broker

charter out

(v) To hire a ship out to a charterer. dati brod u najam, iznajmiti brod, dati brod u čarter

charter owner

(n) (mar law, shipping econ) A company that owns container vessels and charters out its vessels to container shipping companies rather than operating the vessels for liner services; also known as shipowner. (http://www.globalshiplease.com/glossary.cfm) brodovlasnik

charter party (=C/P)

(n) 1 (mar law) The contract for a charter is commonly called a charterparty. A document of contract, or agreement, by which a ship-owner agrees to lease, and a charterer agrees to hire, an entire ship, or all or part of the cargo space to carry cargo for an agreed sum under certain conditions. (www.euronav.com) brodarski ugovor, ugovor o iskorištavanju brodova, čarter partija, čarter, ugovor o najmu / zakupu broda Voyage ~ ugovor o najmu broda na vrijeme, ugovor o iskorištavanju broda na vrijeme, Time ~ ugovor o najmu broda (brodskog prostora) na vrijeme, ugovor o iskorištavanju broda (brodskog prostora) na vrijeme, Demise ~ ugovor o zakupu cijelog / golog broda (bez posade, goriva i zaliha), Bareboat ~ ugovor o zakupu cijelog / golog broda (bez posade, goriva i zaliha); 2 (mar law) ugovor o prijevozu

charterparty, charter party

(/ˌtʃɑːˈpɑː.tɪ/) (n) 1 (mar law) a contract of lease of a ship in whole or in part for a long or short period of time or for a particular voyage. It has been said that its origin lies in the mediaeval Latin carta partita or charta partita or charta divisa, where an agreement was torn into two pieces and one half was given to each party. Proof of the whole contract was no doubt difficult if one party was obstinate - modern methods of photocopying the contract for each party seem preferable. A charterparty is part contract of hire (affreightment supra) and part contract of transport (carriage). The proportion of affreightment decreases as one moves from a demise charter, to a time charter and then to a voyage charter, while the proportion of carriage increases from a demise charter
through a time charter to a voyage charter. Affreightment is essentially placing a ship at the disposal of another party, while transport is essentially the carrier (supra) taking charge of goods. Hire (infra) is the consideration paid under demise and time charters; freight (infra) is the consideration paid under voyage charters and bills of lading.

The typical tramp operates under a charter party, that is, a contract for the use of the vessel.

A charterparty by demise is a contract by which the lessor (shipowner) places a ship in the hands of the lessee (the demise charterer) who assumes possession and control. The consideration paid by the charterer is hire, which is payable at specified intervals during the term of the charter. Under a demise charterparty, the shipowner appoints the master and the crew, although they are paid and controlled by the demise charterer.

The rate charged by charter owners normally as a daily rate for the use of their container vessels by container shipping companies.

A charter yacht is a yacht employed primarily for recreational purposes, that is principally operated by a professional crew for paying passengers who themselves will primarily use the yacht for pleasure. Charter yachts must meet commercial requirements for passenger-carrying vessels.

chemical carrier /ˈkɛmlɪkər/ (n) (nav arch) COMPARE zz_chem_tanker tanker za kemikalije, brod za prijevoz kemijskih proizvoda: 96036 Own vessel was a 15,000 dwt chemical carrier of very basic construction.
chemical properties (n) (cargo) kemjska svojstva
chemical tanker (n) (nav arch) Chemical tankers are modern parcel tankers with either full or partial stainless steel tanks that cover the sophisticated end of the chemicals market, for which IMO Grade I/II is required; A tanker for the bulk carriage of chemical cargoes, lube oils, vegetable/animal oils and other chemicals as defined in the International Bulk Chemical Code. Tanks are coated with suitable materials which are inert to the cargo (http://www.ihsfairplay.com/About/Definitions/definitions.html)
tanker za kemikalije: On 24 February the oil product and chemical tanker loaded with a full cargo of 35,000t of jet fuel. An oil/chemical tanker was berthed at a shipyard for routine dry docking.

chemical treatment (n) (chem) kemjska obrada
chest (n) škrinja slop ~ (seamanship) sidíl, medical chest (archaic) medicinska škrinja
chickson (US) = loading arm dizalica (s fleksibilnom cijevi, manigom) za ukrcaj / iskrcaj tankera, maniga

chief cook (n) (mar law) The chief cook oversees all the food preparation and quality control in the Steward’s department of a ship; the senior unlicensed crew member working in the steward’s department of a ship (https://safety4sea.com/) glavni brodski kuhar: In this case the chief cook should have trained the messman, who was relatively inexperienced, about the correct procedures to be followed.

Chief Engineer /ˈtʃ titre, ˈʃtri rio/ (n) (mar law) the senior engineer officer responsible for the mechanical propulsion and the operation and maintenance of the mechanical and electrical installations of the ship (STCW 2010); The Chief Engineer is responsible for maintenance, operation, and repair of all vessel electrical and mechanical systems onboard ships. (http://jobsite.gcaptain.com)
upravitelj stroja, kapo; Italian: capo; direttore di macchine, kapo makina: The chief engineer on board a ship oversees the entire operations of the engine department. He/she is responsible for operations and maintenance work of all engineering equipment throughout the ship. He/she reports to the captain of the ship. Extensive experience with minimum 5 to 8 years in subordinate positions on board ships is required for this position. Fluency in English language is a must. A rapid rise in the temperature of the EGE was noticed, and the Chief Engineer realised there was a fire inside the EGE casing. However, the clutch appeared to be performing correctly and the chief engineer decided the problem was due to an instrumentation fault. The second engineer was instructed to leave the control room and, with heavy smoke now issuing from the engine room, the master and chief engineer considered it unsafe to enter. Chief and Second Engineer tasks will include: a) Overseeing the engine department in a merchant ship. b) Operation and maintenance of engine room machinery.
Chief Engineer Unlimited

https://jobsite.gcaptain.com/

Chief Engineer Unlimited (n) (UK, US, mar law, marine eng) upravitelj stroja na brodovima s pogonom neograničene snage (u neograničenoj plovidi s pogonom): Sailing on a US flagged container ships as Chief Engineer unlimited sailing stateside and international to many different ports. Maintaining bow thruster’s, Pumps, generators, water purifying system and main engine. Primary propulsion (Wartsila)

https://www.maritimejobs.com/jobs/job/chief-engineer-unlimited-433108

chief executive officer (=CEO) (n) (mar law) izvršni direktor, glavni izvršni direktor

appoint (as) ~ imenovati za glavnog direktora: He has been appointed CEO of the Company. The Board of Directors of .... has appointed Mr. as the new CEO of the Company.

chilled cargo (n) (cargo) rashlađeni teret, pothlađeni teret (+8 st. do -12st.): During transport of chilled cargo and frozen goods, water ingress may lead to cargo spoilage or to ice formation in the door area.

chillblain /ˈtʃɪlbɛln/ (n) (med) an inflammation of the fingers, toes, or ears, caused by prolonged exposure to moisture and cold ozelblina

chilblain /ˈtʃɪlbɛln/ (n) (med) an inflammation of the fingers, toes, or ears, caused by prolonged exposure to moisture and cold ozelblina

chilled cargo (n) (cargo) rashlađeni teret, pothlađeni teret (+8 st. do -12st.): During transport of chilled cargo and frozen goods, water ingress may lead to cargo spoilage or to ice formation in the door area.

chinagraph pencil /ˈtʃainəˌɡræf/; ‘tʃainəˌɡreɪf/ (n) (navig) olovka (u boji) za pisanje po ekranu / pokazivaču draw a ~ across the screen ucrtati crtu na ekranu:

By drawing line with a chinagraph pencil parallel to the heading marker, the vessel is assured to travel...
along the intended track. This technique is known as blind pilotage or parallel indexing.

**chine** /tʃain/ (n) 1 (nav arch, boating/yachting) crta presjeka dviju ploha brodskoga obraša; The location where the deck joins the hull of the boat. The angle between the side and the bottom of a boat.

**chock** /tʃɔk/ (n) 1 (nav arch, US, seamanship) = fairlead heavy fittings secured to the deck. Lines are passed through them to bollards on the pier. The types of chocks used are closed, open, roller, and double roller. oko za privez (u oplati broda), zjevača, passacavo

(Italian:passacavo) open roller ~ otvorena zjevača s valjcima, 3-roller closed ~ zatvorena zjevača s tri valjka, Panama ~ oko Panama, zjevača Panama, središnja zjevača na pramacu: At that moment, the spring line The head line held on the winch drum came under extraordinary load and parted at the Panama chock. At about 1620, he

walked towards the Panama chock to check the spring line.

http://www.liftingandmarine.com/panama-chocks.htm; 2 (cargo handling) wedge; secure with wedges klin za sprječavanje pomjeranja složenog tereta; 3 (boating/yachting) zjevača brodice, jedrlice
chock\(^2\) (n) (sailing vessels) umetak okvira za jarbol
chock boat (n) (nav arch) a cradle or support for a lifeboat postolje brodice za spašavanje

choke\(^1\) /ʃəʊ/ (v) 1 (marine eng) zagušiti, prigušiti, začepiti; 2 (marine eng, boating/yachting) dodavati/oduzimati zrak u mješavini (izvanbrodskoga benzinog motora), otvoriti/zatvoriti zrak: choking off air from the outboard engine carburretor thereby making the gas/air mix richer; 3 (med) gušiti se: The pumpman and the cadet came out choking.

choke\(^2\) (n) (marine eng, boating/yachting) The outboard motor features an adjustable choke that changes the amount of fuel in the fuel and air mixture. čok, zrak, ručica za dodavanje i oduzimanje zraka u mješavini s gorivom (na izvanbrodskim motorima): Do not use the choke when the engine is warm or the air temperature is high. Without a choke, an outboard internal-combustion motor may not start up when cold. When the operator activates the choke through a pull handle, button, or knob, the choke solenoid, a coil, expands, restricting the area through which air enters the carburetor. ~ lever polužica čoka, polužica zraka, ručica leptira rasplinjača: Move the choke lever to the CLOSED position.

chooking (n) (marine eng) prigušivanje
choose /ʃuːz/ (v) birati, izabrati

chop (n) (oceanogr) maretta, valovito more (s kratkim valovima): Despite the worsening conditions and heavy chop to the surface of the sea, the instructor did not consider cancelling the exercise although this had been done on previous occasions.

choppy sea (n) (oceanogr) a sea state having short steep wave valovito more, živo more (s kratkim valovima), jaka maretta, maretta; Italian: maretta viva: Due to the choppy seas, the outbound general cargo vessel had created a lee for the pilot launch to facilitate the boarding process. www.gov.uk/maib The easterly winds over the ebb tide resulted in choppy seas with a maximum wave height of 2m. www.gov.uk/maib

chord /ˈkɔːd/ (n) (boating/yachting) ravnocrtna udaljenost između prednjeg i stražnjeg poruba jedra razmak među prednjeg i stražnjeg poruba jedra

christen /ˈkrɪstən/ (v) (mar law, nav arch) krstiti (brod), imenovati (brod): Th newest bulkcarrier was christened on Saturday during a ceremony at the shipyard.

christening /ˈkrɪstenɪŋ/ (nav arch) a ceremony in which the ship’s sponsor (usually a woman) breaks a bottle of champagne across the bow and grants the ship its name krštenje boda, davanje imena brodu

chromium /ˈkroʊmiəm/ (=Cr) (n) (chem) krom
chronometer /kroʊnəˈmɛtər/ (n) (nav arch) an instrument for measuring time with great accuracy kronometar

chuk /ʃʌk/ (n) (seamanship) škrip, morša

chum (n) (fishing) bait consisting of chopped fish and fish oils that are dumped overboard to attract fish brum, torilo: the best chum is a mixture of large and small particles and predominately made of liquid.

chumming (n) (fishing) the practice of luring fish such as sharks, by throwing chum into the water. Chum often consists of fish parts and blood, which attract fish primama, mamljenje ribe
bacanjem ješke, **brumanje**

chute (n) **safety** sklizni kanal za spuštanje s broda

CIF /sɪː /'ɛf/ (=cost, insurance, freight; , C.I.F.) (n) **shipping econ, mar law** a term of the contract of sale whereby the seller undertakes to pay the cost of the insurance and transport of the goods to the named port of destination. Legal delivery occurs when the goods cross the ship's rail in the port of shipment. The purchaser takes actual delivery (possession) of the goods at the quay or other place named in the contract, as the place of destination. (The insurance premium and freight charges are included in the price of the goods.)

Prodavatelj je dužan sklopliti ugovor o prijevozu do odredišta luke, nositi vozarinu i osigurati robu za vrijeme prijevoza; Cost, Insurance and Freight (named destination port): exactly the same as CFR except that the seller must in addition procure and pay for insurance for the buyer. Maritime transport only. http://www.tkmglobal.net/inco.html; Cost, insurance and freight. Delivery of goods is the seller's responsibility to the port of discharge. The freight is paid for by the supplier of goods.

(https://www.clarksons.com/glossary/) **cijena s osiguranjem i vozarinom:** Cost of goods, marine insurance and all transportation (freight) charges are paid to the foreign point of delivery by the seller. ~ (named port of destination) **cijena s osiguranjem i vozarinom** (označena luka odredišta)

CIP (n) **mar law, shipping econ** SEE INCOTERMS 2000 Carriage and Insurance Paid to (named place of destination): the containerised transport/multimodal equivalent of CIF. Seller pays for carriage and insurance to the named destination point, but risk passes when the goods are handed over to the first carrier. http://www.tkmglobal.net/inco.html prijevoz i osiguranje plaćeni do (mjesta odredišta): Carriage and Insurance Paid to

circle /ˈsɜːkl/ (n) 1 krug; 2 kružnica

circular error probable; (=CE) (n) **navig** kružnica vjerojatne pogrješke (navigacijskog sustava)

circuit /ˈsɜːkt/ (n) 1 (electr) električni krug, strujni krug, krug: Figure 2: Circuit diagram for the main engine cooling system ~ breaker(s) kontaktor, platine, close ~ zatvoreni krug, electric ~ električni strujni krug, short ~ kratki spoj: the source of smoke was a short circuit on the electric heater for the lubricating oil purifier, probably resulting from loose electrical connections.; 2 (marine eng) krug kotla, kotlovni krug

circuit breaker (n) 1 (electr) kontaktor, platine: The circuit breaker on the main switchboard was also tripped. All the affected reefer power sockets and circuit breakers were repaired or changed by the crew.; 2 automatski prekidač

circular radiobeacon (n) **navig** kružni radiofar

circulate /ˈsɜːkjuˈleɪt/ (v) kružiti, cirkulirati, optjecati
circulating connection (n) (marine eng) kružni spoj, protočni vod
circulating tube (n) (marine eng) cirkulacijska cijev, protočna cijev
circulation (səˈkrələn) (n) (marine eng) cirkulacija, kruženje, protok, optok:
Careful control must be maintained over fuel and lubricating oil quality, and associated purification and
circulation systems. hot water ~ protok tople vode, forced ~ prisilna cirkulacija,
natural ~ prirodnal cirkulacija
circumference /ˈsəʊkʌmərfoʊns/ (n) external ~ vanjski obujam 1 opseg; 2 obujam;
3 periferija
circumnavigate /,səʊˈkəm ˈnɛvi ɡeɪt/ (v) 1 (navig) to sail around a body of land and return to the
starting point oploviti: a RIB (rigid inflatable boat) has circumnavigated Iceland in 42 hours.; 2
(navig) oploviti Zemlju
cirrocumulus /ˈsɪrərək ˈkjuː mjuːləs/ (n) (meteorol) cirroscumulus
cirrostratus /ˈsɪrərəs ˈstrætəs-, -strɛtəs/ (n) cirostratus, višeslojni oblak
cirrus cloud /ˈsɪrəs/ (n) (meteorol) cirrus, oblak cirrus, tanki visoki oblaci
citizenship (n) (mar law) državljanstvo
citrus fruit /ˈsɪtrəs, ˈfru ɪt/ (n) (cargo) južno voće, agrumi: citrus fruit, i.e. oranges, lemons,
grapefruit and mandarins, are a relatively simple cargo to carry.
city port (n) (shipping econ) obično putnička ili koja više ne obavlja usluge ukrcaja i skrcaja tereta
gradska luka, stara gradska luke
civil engineering (n) (ports) građevinarstvo (za morsku / lučku infrastrukturu)
civilian association unit (n) (safety) postrojba građanskih udruga (u
traganju i spašavanju): When tasking a civilian association unit, the joint rescue coordination
centre (JRCC)/maritime rescue sub-centre must ensure that the crew members clearly understand that the
tasking is in fact a request and that they are not obligated to comply with this request. Camsar2014
civil law (n) (mar law) legal tradition which has its origin in Roman law, as codified in the Corpus Juris
Civilis of Justinian (528 to 534 A.D.), and as subsequently developed in Continental Europe and around
the world. ... Civil law is highly systematised and structured and relies on declarations of broad, general
principles, often ignoring the details.
građansko pravo
civil procedure (n) (mar law) parnični postupak (EUdict), građanski
postupak
civil proceedings (n) (mar law) građansko-pravna tužba
civil status (n) bračno stanje (oženjen/udana / neoženjen/neudana) single
neoženjen / neudana, married oženjen / udana, separated koji/koja živi
odvojeno, divorced razveden/a, widowed udovica
claim /klɛm/ 1 (mar law) obveznim prawom zaštićen zahtjev vjerovnika da mu dužnik izvrši
određeno davanje ili činidbu; a charge made against a carrier for loss, damage or delay tražbina,
zahtjev (osiguravajućem društvu) za naknadu štete: In order to defend any
future claim against short-loading or deadfreight, the terminal obtained a signed declaration from the
Master stating that he did not want to load any more cargo, The ship had to be placed off-hire for three
days for removal and disposal of the damaged cargo and a heavy cargo damage claim had to be settled with the consignee. Indeed, the Master of the vessel did admit that a port had filed a claim for fender damage against another sister ship. P & I ~: P&I claims: Passenger vessel incidents, Navigational Claims, Oil Tanker (cargo) Claims, Mooring Incident Claims, Enclosed Space entry Claims, zatjevi P&I klubovima za naknadu šteta, support a ~ poduprijeti zahtjev / potraživanje, settle a ~ riješiti / likvidirati (odštetni) zahtjev / potraživanje / reklamaciju, raise a ~ against podići / uložiti tužbu / zahtjev protiv, make a ~ uputiti / podnijeti zahtjev / reklamaciju: This claim for $ 45,000 is made against your company for damage / loss in connection with the following described shipment: ... lodge a ~ podnijeti zahtjev / reklamaciju / potraživanje, deal with a ~ rješavati / obrađivati zahtjev / reklamaciju, assess a ~ ocijeniti / proučiti zahtjev, ~s Department odjel / služba za reklamacije, note of a ~ odštetni zahtjev, file a note of ~ against podnijeti zahtjev za odštetu prema nekome, ~ release prenošenje zahtjeva, ustupanje zahtjeva, establishment of a ~ podnošenje / uspostavljanje zahtjeva / tužbe, defeat ~ against the ship pobiti reklamaciju / zahtjev, meet a ~ udovoljiti zahtjevu; 2 (mar law) tužba; 3 (shipping econ) A claim is a demand in writing for a specific amount of money that contains sufficient information to identify the shipment received by the originating carrier, delivering carrier, or carrier on whose line the alleged loss, damage, or delay occurred within the time limits specified in the B/L contract; a demand made for payment on account of a loss sustained through its alleged negligence.

tražba, potraživanje, zahtjev, reklamacija: I was called to attend a 499 GRT coaster trading in the North Sea on behalf of the Cargo Underwriters to investigate a claim that the cargo had been contaminated with salt water, ostensibly from the vessel's bilges. file a ~ podnijeti tražbu, podnijeti zahtjev za naknaku (štete): Time limit for filing a claim is 9 months from date of delivery, or in the event of non-delivery, 9 months after a reasonable time for delivery has elapsed, ~ form obrazac za prijavu tražbine, deny a ~ odbiti tražbinu, odbiti zahtjev za naknadu štete, odbiti reklamaciju, acknowledge a ~ potvrditi primitak tražbine, potvrditi primitak zahtjeva za naknadu šteta, receipt of claim primitak zahtjeva za naknadu štete, submit a ~ podnijeti tražbinu, dostaviti tražbinu, lawful ~ zakonita tražbina, zakonit zahtjev, bring a claim against (an owner; carterer etc.) podnijeti tražbinu od (brodovlasnika unajmlitelja broda itd.), podnijeti zahtjev za naknadu protiv (brodovlasnika, unajmlitelja), pay a heavy ~ uložiti oštru reklamaciju, postaviti velik / visok (odštetni) zahtjev claim /k'laim/ (=claim for) (v) 1 (mar law) potraživati: If you contracted directly with the shipping line and you are manifested as the shipper on the Master Bill of Lading and not as an “Agent”, the shipping line will be within their legal rights to claim for demurrage, storage, destruction and other charges of any uncollected cargo from you.

https://shippingandfreightresource.com/10-tips-to-avoid-losses-due-to-abandoned-cargo/; 2 (mar law) imati pravo na, tražiti naknadu za (štetu, gubitak): Lack of proper paperwork for landed parts has made it impossible to claim the losses from the barge company.; 3 (shipping econ) reklamirati; 4 (shipping econ) žaliti se; 5 tvrditi: Many ships are now sailing with unsafe
one man bridge watchkeeping routine - a six hour watch being accepted as the norm - because shipowners claim that they cannot afford an extra officer or have ratings on lookout, even at night. If a power driven vessel is not restricted by its draft to stay in the main channel, it surely cannot claim to have the right of way outside the channel?

**claim** (n) tvrdnja
**claim adjuster** /ˈklem ə dʒəstə/ (n) (shipping econ, mar law) likvidator tražbina,
likvidator zahtjeva za naknadu štete
**claimant** (n) (mar ins, mar law) podnositelj zahtjeva, podnositelj odštetnog zahtjeva
**claiming value** (n) (mar law) vjerovnička masa
**claim notice** (n) (shipping econ) obavijest o tražbini, obavijest o zahtjevu za naknadu štete
**claim notice** (n) (cargo, mar ins) obavijest o (nastaloj) šteti
**Claim Procedure** (n) (shipping econ) Postupak o naknadi štete
**claims** (n) (mar ins, mar law) tražbine ~ for loss of life or personal injury tražbine zbog smrti i tjelesnih ozljeda, ~ for damage to property tražbine zbog materijalnih šteta
**clam** /ˈkleɪm/ (n) (fishing) SEE grooved carpet shell Lat. *Venus* spp. prnjavica,

kućica, *vongola* ~shell prnjavica, kućica
**clam cleat** (n) (boating/yachting) okomit stoper, okomit stoper konopa
clamp /klæmp/ 1 (cargo handling) hvataljka za teret (bačve itd.), kliješta plate lifting ~ s kliješta za limove; 2 (marine eng) škrip, škoba, moršet; 3 štipaljka clamp) /klæm/ (n) (sailing vessels) = stringer dopodponjak, proveza shelf ~ palubna bočna proveza, prvi podponjak clamp down (v) pritegnuti, stisnuti, vezati, učvrstiti sponu (štitaljku itd.)

Class A fire (n) (safety) Fires in which the combustible material is wood, paper, fabric, rubber, etc. (http://www.marinedieseleurope.com/) požar klase A
class approval (n) (nav arch, mar law) odobrenje klasifikacijskog društva: With company’s and class approval, the vessel continued on its short passage towards the discharge port, where, after unloading, she entered drydock to effect permanent repairs.

Class B fire (n) (safety) Fires in which the combustible material is a liquid such as gasoline, fuel, or paint. (http://www.marinedieseleurope.com/) požar klase B

Class 1 Certificate (=CoC) (n) (mar law) (mar law, hum_resources) SEE academic awards in ship officer programmes (UK) - Navigation SEE academic awards in ship officer programmes (UK) - Marine Engineering svjedodžba o osposobljenosti za pomorskih časnika I. klase (u sustavu britanskih i srodnih pomoračkih ovlaštenja): The Institute of Marine Engineering, Science and Technology (IMarEST) is supporting the professional development of seafarers by mapping Class One Certificates of Competency (unlimited) and Master Mariner Certificates to a Chartered Status qualification. (http://www.imarest.org/) Officers in your crew must have the necessary certificates of competency (CoCs). Class 1 Deck Officer Certificate SEE certificate of competency ekvivalent za A-II/2 Management Level Deck Department (STCW 1995/2010) svjedodžba o osposobljenosti za prvog časnika palube (časnika
The OOW, who had recently gained a Class 1 Certificate, was new to the trade but had undertaken a period of training and appeared to be willing and able. During the first night, the Barge Master, an Australian who has been Master on supply vessels and has a Master's Class 1 certificate, instructed my 2/0 to put on our red/white/red lights, which he did, thinking the Barge Master on the rig was in charge. The Combined Class 1 & 2 (Deck Officers) course will lead to the issue of Class 1 & 2 Certificate of Competency (CoC), issued by the Maritime & Port Authority (MPA) of Singapore, upon successful completion of written examinations at SMA and oral examinations at MPA.

Class 1 Certificate (Engineering) SEE certificate of competency (marine eng) = Certificate of Competency First Class (Engineering) SEE academic awards in ship officer programmes (UK) - Marine Engineering equivalent za A-III/2 Management Level

svjedodžba o osposobljenosti za časnika straže u stroju (2. časnik stroja; strojar II. klase, u sustavu pomoračkih ovlaštenja Vel. Britanije), IMO STCW: Svjedodžba o osposobljenosti za časnika stroja odgovornog za stražu u strojarnici sa strojem porivne snage od 750 kW ili jačim (STCW III/1):

He holds a Class 2 Certificate of Competency which he obtained in 1992. The Combined Class 2 & 1 Engineer Officers course will lead to the issue of Class 2 & 1 Certificate of Competency (CoC), issued by the Maritime & Port Authority (MPA) of Singapore, upon successful completion of written examinations at SMA and oral examinations at MPA.

Class 2 Certificate of Competency (Deck) equivalent za A-II/1 Operational Level Deck Department (IMO STCW 1995/2010)

IMO STCW: Svjedodžba o osposobljenosti za časnika plovidbene straže na brodovima od 500 BT ili većima (STCW II/1) svjedodžba o osposobljenosti za časnika palubne straže ( u sustavu pomoračkih ovlaštenja Vel. Britanije) class certificate (n) (nav arch) svjedodžba klase broda: The lifeboat manual and class certificate, which gives the details of life saving appliances/fire fighting appliances, gave the correct diameter.

Class 3 Certificate of Competency (hum_resources) SEE academic awards
Class C fire

Fires in which the combustible materials are electrical, components such as motors, generators, or switch panels. (http://www.marinedieseleurope.com/)

**classification** *(n) (nav arch)* klasifikacija broda

**classification society** *(n) (nav arch, mar law)* Classification societies are institutions (often non-profit) which inspect, study and report on the seaworthiness and the general and particular condition of individual ships. They also often perform port state control inspections. Finally, they may provide surveying services to national maritime administrations by contract with the governments of those countries. They issue a certificate of “class” of the ship.

An independent organization that certifies that a ship has been built and maintained according to the organization’s rules for that type of ship and complies with the applicable rules and regulations of the country of the ship’s registry and the international conventions of which that country is a member.

**class inspection** *(n) (nav arch)* klasifikacijski pregled, pregled za dobivanje klase broda: Subsequently, the vessel berthed for class inspection and after no damage was found, she was allowed to sail.

**class notation** *(n) (nav arch)* oznaka klase (broda): class notation: BV, I + HULL, + MACHINERY, OIL TANKER, CHEMICAL TANKER, IMO II, ESP, UNRESTRICTED NAVIGATION, + AUT-UMS, CLEAN SHIP, ICE CLASS IC, VCS, IG, INWATERSURVEY, MONSHAFT Class notation DNV+A1 Tanker for oil ESP NAUTICUS E0 COAT

**class of ship** *(n) (nav arch)* klasa broda, dodijeljena klasa brodu: A condition of class was issued which allowed the vessel to sail to another port for permanent repairs.

**class society** *(n) (nav arch, mar law)* klasifikacijsko društvo: Hull Maintenance:

Owners, Class Societies and Repair Yards are to be re-alerted of the risks of introducing residual stresses in hull structure ...

**class survey** *(n) (nav arch)* klasifikacijski pregled, pregled od strane klasifikacijskog društva, pregled za izdavanje klase broda: A void space in a gas vessel was opened up for inspection by ship’s staff prior to a Class Survey. ABS conducts majority of annual class surveys remotely. ABS launched ten remote survey options, with an overall of 28 surveys and audits able to be conducted remotely. (https://safety4sea.com/) The new remote class survey services include Annual Hull Survey, Annual Machinery Survey, Annual Automation Survey, Annual Dynamic

class surveyor (n) (safety, nav arch) registarski vještak, registarski inspektor, inspektor iz registra brodova: A class surveyor with divers attended before midnight and after an underwater survey, issued a conditional certificate of class to sail to the nearest major port. Later that morning, in the presence of the class surveyor, the same lifeboat was lowered, when the forward fall wire parted and the empty lifeboat fell into the water.

class the ship (n) (nav arch) dati brodu klasu: International classification society ABS has been selected to class 11 ultra-large containerships (ULCs) for Denmark’s Maersk Line A/S.

clause /klɔːz/ (n) (mar law) breakdown ~ klauzula o privremenom prestanku / prekidu ugovora o iskorištavanju broda (čartera), najčešće uslijed havarije stroja, cesser ~ klauzula o privremenom prestanku ugovora o iskorištavanju broda (čartera) (mar law) = provision odredba (konvencije, ugovora, pravilnika), klauzula, zaporka: Does it comply with STCW 95 Section A-VIII/2 part 3.1 clause 14 or 26? The IMO has given the clue for solving the problem in clause 16.8 for all seafarers to see. Such incidents may impinge on the safe berth' clause in the charter party, if applicable.

claued bill of lading /klɔːzd/ (n) (mar law, shipping econ) = unclean bill of lading nečista teretnica
claw /klɔː/ kliješta
claw cleat (n) (UK) = cam cleat stoper (užeta na jedrilici), patentna hvataljka, vodoravnio stoper
claw hammer (n) (seamanship) čekić s procjepom (za vađenje čavala)
clay /ˈklei/ (n) (cargo) glina, ilovača
clayish /ˈkleɪʃ/ (adj) glinen, od ilovače: the piping was blocked with a mixture of fine sand and mud of a clayish texture

Clean Hold Certificate (n) (mar law) Potvrda da je (brodsko) skladište čisto teretnica, teretnica bez primjedaba: If the charter party requires the master to issue clean bills of lading, he must ensure, from the very beginning, that only cargo in apparent good order and condition is allowed to be loaded. The ship was chartered to carry soya beans from Brazil to China. A clean bill of lading was issued. https://safety4sea.com/

cleaner (n) (marine eng) čistač (u službi stroja)
Clean Hold Certificate (n) (mar law) Potvrda da je (brodsko) skladište čisto teretnica, teretnica bez primjedaba: If the charter party requires the master to issue clean bills of lading, he must ensure, from the very beginning, that only cargo in apparent good order and condition is allowed to be loaded. The ship was chartered to carry soya beans from Brazil to China. A clean bill of lading was issued. https://safety4sea.com/

initial pre-wash to remove traces of the last cargo. thorough ~ temeljito čišćenje cleaning brush (n) (marine eng) četka za čišćenje cleaning gun (n) (marine eng) pištolj za čišćenje cleanliness /'klɛnliːnəs/ (n) (cargo) čistoća cleanliness of the tanks čistoća tankova clean oil (n) (cargo, marine eng) refined oil products such as naphtha (https://www.clarksons.com/glossary/) naftni derivat clean on board (adj) (logist, mar law) A clean Bill of Lading is issued with the added term “clean on board”. which means that the goods have been received in good order and in a good condition, as far as the shipping company can see. primljeno na brod bez primjedaba clean petroleum products (=CPP) (n) (marine eng, cargo) Liquid products refined from crude oil, whose color is less than or equal to 2.5 on the National Petroleum Association scale. CPP’s include Naphtha, let fuel, Gasoline, and Diesel/Gasoil. (www.euronav.com) čisti naftni proizvodi clean receipt (n) (mar law) Receipt given by anyone receiving cargo into his care or possession bearing no clausimg or notation indicating loss or damage, thus indicating that the goods were received in apparent good order and condition. potvrda o primitku tereta (bez primjedaba) cleanse /'klenz/ (v) čistiti, ispirati clean service (n) (shipping econ) Tanker transportation of products lighter than residual fuels, e.g. distillates, including No. 2 Heating Oil. (www.euronav.com) prijevoz lakih derivata cleanup (=clean-up) (safety) čišćenje: Crews are making progress in the clean-up of more than 200 metric tons of heavy fuel oil that was spilled at the port after a chemical tanker hit a jetty. Clean-up efforts after a container ship spill off the coast are being hampered by rough weather. cost of ~ troškovi čišćenja: the cost of the cleanup of the spilled oil was about 1.85 billion USD, ~ operation operacija čišćenja onečišćenog mora, operacija čišćenja uljne mrlje: On Monday, China Central Television said a search and rescue operation had been cancelled and a clean-up operation had begun after a fire on the surface was extinguished. clear (adj) 1 jasan, bistar: The visibility was bright and clear and the channel was clear of outward traffic. Our position was very clear - a vessel cannot take bunkers using a substandard hose. It was a clear and bright day, and on arrival at 1430 the wind was northeasterly between 30 – 35 knots. Ensure clear instructions for operating CO2 extinguishing systems are displayed near the distribution control valves and near the gas cylinders. Review the procedures on your vessel to ensure that measures exist to ensure personnel are clear of the danger areas before hatch cover securing pins or locks are released and power applied. When the situation become too serious and when it was quite clear that fully laden container vessel was not aware how serious the situation was, ...; 2 (seamanship) slobodan, oslobodan, bez zapreke, bez smetnje, otvoren, nezakrčen, otkvačen, otpleten (lanac, sidro), otpetljanc (lanac, sidro) ~ anchor = founder slobodno sidro, nezapetljano (otpetljano) sidro: 0506 Resumed heaving anchor 0512 Anchor up and clear. 0514 Dead slow ahead. Rudder 10 degrees to starboard, heading at this time around 2900. (extract from ship’s logbook); ~ cable slobodan lanac, nezapetljano (otpetljano) lanac, ~ line oslobodan konop, otpetljano konop, ~ propeller (seamanship) oslobodan propeler, otpetljano propeler, ~ of the davits dalje od soha: When outboard and clear of the davits, the remote control brake handle was released to stop the movement.; 3 (navig)
slobodan (po pramacu; od zapreka; prostr): The cargo vessel’s engine was then put astern and she slid aft, along the ro-ro vessel’s hull, until she came clear of the larger vessel. ~ entry slobodan ulaz: This then allowed us a clear entry into the deep water lane., ~ area slobodan prostr: The vessel was fitted with a large wavebreaker right forward, which meant that the forecastle deck had very little clear area., be ~ of the channel biti izvan plovidbenoga kanala, proći plovidbeni kanal: The master realised that the other ship would not be clear of the channel for some time and at 2314 he set the engine telegraph from ‘dead slow ahead’ to ‘stop’, come ~ of the vesel biti dalje od drugog broda: The cargo vessel’s engine was then put astern and she slid aft, along the ro-ro vessel’s hull, until she came clear of the larger vessel. VTS reiterated that the VLCC was eastbound in the deep water lane, and to keep well clear of the vessel. The cargo vessel’s engine was then put astern and she slid aft, along the ro-ro vessel’s hull, until she came clear of the larger vessel. biti udaljen od drugog broda, clear of the buoy biti dalje od plutače, proći plutaču: The pilot turned to guide the master in manoeuvring the ferry clear of the buoy.; 4 (safety) Izvan mora / vode, iz vode / mora ~ of the water izvan mora / vode hoist the boat ~ of the water izvući brodicu iz mora: The boat returned to the falls, was hooked on and hoisted clear of the water., keep the head ~ of the water: This additional buoyancy would have helped the casualty to keep his head clear of the water, thus substantially increasing his likely survival time. iznad mora clear ~ (v) 1 (navig) to pass safely by a danger to navigation obići (mjesto ili oznaku opasnosti); 2 (navig) isploviti (iz luke), proći (oznaku, objekt na moru, plovidbeni kanal), napustiti: As the vessel cleared the bend the master contacted the pilot station Kad je brod prošao zavoj na rijeci zapovjednik je nazvao peljarsku postaju After clearing the harbour and when heading in a northerly direction, the skipper engaged the autopilot, set the radar at 1.5 miles range. ~ the port napustiti luku, isploviti iz luke, izaći iz luke: The master held a Pilot Exemption Certificate (PEC), so no pilot was required to manoeuvre the ship off the berth or clear the port. We had by now managed to turn east to clear the port. After unberthing, under pilot's advice we commenced to swing to port to clear the harbour in an easterly direction., ~ the ship zaobići drugi brod, proći drugi brod: The vessel increased speed astern at an angle of about 10o from the berth until it became apparent that the bow would not clear the ferry berthed astern., ~ the traffic lane izaći iz plovidbenoge staze (u shemi odvojene plovidbe), izaći iz plovidbenoga smjera: Although the fishing vessel had started to alter course in order to clear the traffic lane and avoid impeding the safe passage of the two larger vessels, this alteration was not seen by the general cargo vessel’s OOW for ov, ~ the buoy proći plovidbenu oznaku: ) and, on seeing the buoy, the Master ordered hard to port in order to clear the buoy.; 3 (mar law) obaviti carinske formalnosti to ~ customs to carry out customs and immigration formalities before leaving port obaviti carinski pregled, obaviti carinske formalnosti: There has been a significant slowdown in clearing customs. The container arrives at the destination port and clears customs., ~ imports obaviti carinske formalnosti za uvoz tereta: Harbour authorities are taking longer than usual to clear the imports with customs officials. https://gcaptain.com; 4 (mar law) riješiti; 5 (marine eng) očistiti, pročistiti: the engineers tried to clear the blocked cooling system; 6 (seamanship) osloboditi (zapetljano uže, lanac, plovidbeni
Preparations were undertaken to clear the lines; the line was pulled clear abreast of the propellers and the channel was cleared with restrictions to shipping on Sunday as emergency officials worked to clear the channel following a collision between a tanker and two barges. The tug began to recover the slack in the tow and moved ahead to clear the propellers.

The Houston Ship Channel was reopened with restrictions to shipping on Sunday as emergency officials worked to clear the channel following a collision between a tanker and two barges.

The interfering vessel passed clear ahead at 4 cables. In the meantime, I had already altered course to starboard and we passed well clear ahead.

Vessels must also inform London VTS before the vessel navigates the Thames and obtain clearance from the relevant VTS centre so to do.

A loaded tanker was outward bound along an estuary at about 10 knots with an underkeel clearance of about three metres.

The OOW requested clearance from the engine control room to deploy the stabiliser fins.

While awaiting clearance to stow the lifeboat, two crewmen placed the manual winding handle into position on the winch, at poop deck level, and readied themselves to begin winding. The OOW, who was part way through a compass error calculation, requested clearance from the engine control room to deploy the stabiliser fins.

After obtaining inward clearance, we unberthed and anchored in the waiting area.

Once aboard, the draught and other information can be added to enable the pilot to give the minimum underkeel clearance and other relevant information. A loaded tanker was outward bound along an estuary at about 10 knots with an underkeel clearance of about three metres.
used in clearing the ship outwards, and compare them with the corresponding ones used for the clearance inwards. i.e. GENERAL DECLARATION ON ARRIVAL - ENTRY OUTWARDS AND DECLARATION

obavlja carinske formalnosti za vlasnika tereta: The clearing agent have to be

accredited with the local customs authorities, border agencies, port and other authorities relevant to the

shipment of goods.. https://shippingandfreightresource.com Some freight forwarders have their own customs clearance department/divisions which means that they do not normally use 3rd party customs clearing agents. https://shippingandfreightresource.com Some agents may act as Freight Forwarder only, Clearing Agent only, or Both Forwarding and Clearing agents.

clearing line (n) (navig) siguran put

clearing mark (n) (safety) oznaka sigurnosti

clear key (n) (comm) tipka za brisanje (na VHF uređaju)

clear of the berth (adj, adv) (navig) sa veza, dalje od veza: The master manoeuvred the vessel clear of the berth and then headed on a north westerly course at a speed of 4 knots towards a reef ...

clear of the berth / jetty / dock / wquay (adj) (navig) oslobodiš od veza,

brod koji je upravo napustio vez, brod koji se upravo odvezao, brod

udaljen od veza, biti odmaknut od veza: Soon afterwards, the pilot told London VTS that the vessel was clear of the berth, passing the bellmouth and heading towards the south side of the river. Once the vessel was clear of the jetty the main engine was put half astern to move the pivot point aft, making it easier for the tugs to turn the vessel. (https://safety4sea.com/)

clear skies (n) (meteorol) vedro nebo
clear the anchor  (v) (seamanship) otpetljati sidro, osloboditi sidro  
clear the goods  (v) ocariniti robu: The ports have started clearing goods from ... on Monday, as new tariffs on imports have gone into effect. www.gCaptain.com  
clear the ship for entry / departure  (v) (mar law) dati brodu dopuštenje za uplovljenje / ispolovljenje, obaviti carinske formalnosti za brod: The Coast Guard and Customs and Border Protection boarding teams boarded the vessel and cleared the ship for entry. www.gCaptain.com  
clearview screen  (n) (navig) kružni prozor (na staklu kormilarnice) s električnim rotacionim brisačem  
clear water  (n) (boating/yachting, navig) otvoreno more (bez prepreka za plovidbu): ... on your first few trips afloat, row or paddle away from shore, then hoist the sail once you are in clear water. in ~ na otvorenom (izvan lučice, marine itd.)  
clear zone  (n) (navig) sigurna zona, slobodna zona  
cleat  /ˈklɛt/ (n) (nav arch, seamanship) a fitting of metal, plastics or wood with horns, used for securing lines; a device used to secure a control line, sheet, or halyard on a boat.; A broad classification of devices used to secure a control line, sheet, or halyard on a boat. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) bitvica, kljuna, rog, žabica, bita, Italian: gallocia, Italian: bitta: Loads on the cleat of a 35- to 40-foot boat during an actually hurricane can exceed one ton. cam ~ 1 stoper; 2 bitvica, kaštanjola; Italian: castagnola  
cleat  /ˈklɛt/ (v) (boating/yachting) zaustaviti konop u stoperu  
cleat  /ˈklɛt/ (v) (seamanship) prebaciti uže oko bitvice  
cleat bollard  (n) (boating/yachting) privezni stupić  
clerk  /ˈklɛrk/ (n) (mar law) pisan, činovnik, službenik Master ~ brodski pisar  
clevis pin  (n) (nav arch) klin škopca (s osiguračem), šift
clevis slip hook (n) (cargo handling, boating/yachting) kuka na oprugu, slipna

kuka, karabin
https://www.amazon.com/Clevis-Slip-Hook-Latch-Grade/dp/B00LGYT36G

claw /klɔː/ (n) (boating/yachting) rogali na slobodnome stražnjem kraju glavnoga ili prednjega jedra za hvatanje pritega baze jedra uz deblenjak ili za hvatanje uzde prednjega jedra; the after lower corner of a sail in the fore-and-aft rig; the two lower corners in the square rig uzdeni rogalj, rogalj škote, zatezni rogalj jedra, stražnji rogalj jedra ~ outhaul konop za zatezanje stražnjeg roglja jedra
clew /klɔː/ (v) (boating/yachting) to haul a squaresail up the the yard using lines secured to the clews prikupljati križno jedro
clew /klɔː/ (v) (seamanship) spustiti se: He then moved to the forward end of the port hatch cover to climb down. As soon as the pilot had climbed down the first few steps, the right side ropes parted without any warning and an instant later, the left side ropes parted as well.
clingage (n) (cargo handling) The residue that adheres to the inside surface of a container, such as a ship’s tank or shore tank, after it has been emptied (www.euronav.com) prijanjajući ostatak tekućine u tanku
cling to the lifeboat (v) (safety) držati se za brodicu za spašavanje, uhvatiti se za brodicu za spašavanje: Three other sailors managed to cling to the overturned lifeboat and were later rescued by a fisherman and brought to shore.
clinic for seamen (n) (med) ambulanta za pomorce
clinker (n) (boating/yachting) voj preko voja, klinker, madir preko madira
clinker-built boat (n) (boating/yachting) COMPARE carvel planking hull construction in which the lower edge of each plank overlaps the upper edge of the one below it

clinker work (n) (sailing vessels, nav arch, boating/yachting) prijeklopna gradnja (barke, brodice, jedrenjaka), preklopna gradnja

clinometer /klaɪˈnɒmətər/ (n) (navig) an instrument used for indicating the angle of roll or pitch of a vessel

clip (n) 1 (boating/yachting, seamanship) stezaljka, škrip, moršet; 2 (nav arch) štipaljka (za spajanje rebara broda), zahvatač (za spajanje rebara broda)

clipper (n) (nav arch) a fast sailing ship brzi jedrenjak, kliper

CLO (=cylinder lube oil) (n) (marine eng) The function of CLO is not simply to neutralize the acid. CLO also functions to lubricate the liner surface, allows heat transfer from the rings to the liner and cleans up the carbon deposits and hence works as a dispersant agent. (www.safety4sea.com)

clock-notation system (n) (boating/yachting) sustav kazaljke na satu: the other boat is at 9 o'clock druga nam je jedrilica ravno po desnom boku (tj. u poziciji 9 sati na satu)

clockwise /ˈklɒkwaɪz/ (adv) (meteorol) u smjeru kazaljke na satu, desnokretan

clog1 (n) (marine eng) začepljenje (cijevi)

clog2 (v) (marine eng) začepiti (cijev itd.), The oil filter is clogged.

close (v) 1 zatvoriti, pokriti: A prompt decision was made to close the engine room ventilation, shut the fuel isolating valves and flood the space with CO2; 2 (seamanship, navig) to move nearer to približiti se (drugom brodu, oznaci, točki javljanja itd.): When the ship exited the buoyed channel at 1915, the master adjusted the course on the autopilot from 112° to 065°, to close a waypoint marked on the paper chart. The cargo ship started to close a dredger that was working on the opposite side of the dock basin, so the pilot told the master to go 'ahead'. The Master realised that an inbound ship was closing faster than he had anticipated.

close (adv) (navig) near blizu ~ the bow blizu pramca: Initially her bearing was 2 points on the port bow but her course took her uncomfortably close across our bow, ~ ahead blizu po pramcu: As the vessel came close to the entrance the skipper, who was on the bridge alone, noticed two small marker buoys close ahead: Target vessel passed close ahead of own vessel and proceeded towards the ‘HA’ buoy to embark his pilot, ~ astern blizu po krm: At about 2050 I returned to the Bridge and the Third Mate reported that target x was standing on and would still pass close astern of us. This
resulted in the ferry passing close astern of the cargo vessel. , ~ by u blizini, blizu: The master expected to see the pilot boat close by, and asked the chief officer where it was. For his part, the Master expressed his fear that the vessel was in danger of hitting another mooring buoy close by, , ~ on the beam blizu po boku: 4 in the convoy overtaking us very close on our port beam and at this moment I ordered hard starboard, , ~ on the bow blizu po pramcu: Unfortunately, he did this without looking out, and thus failed to see the other vessel very close on the port bow, , stay as ~ to as ... držati se što bliže ...: As I could see that the other vessel was intent on overtaking on my port side, I stayed as close to the south mark as was safe, given that the prevailing set was predicted to be between 1270T and 1360T at that time, , ~ to blizu nečemu: As the vessel approached the inner harbour entrance, the pilot realised that she was getting close to the southerly pier head, which was on the vessel’s port bow. The mate would direct the master via VHF radio as the ship got close to the buoy. At minimum steerage way we were keeping close to the breakwater head.

close-coupled towing (n) (nav arch) tjesno povezano tegljenje, tegljenje s dva teglača
Closed Gauging System (n) (cargo handling) A method of obtaining measurements of the tank contents without opening the tank. (www.euronav.com) mjerenje tekućine u tanku bez otvaranja tanka
close down (n) (safety) zatvoriti: The need to close down the engine room and use CO2 was also poorly considered. Despite this, no attempt was made to close down the engine room, or isolate the ventilation or fuel supplies.
closed sea (n) (mar law) morski prostor spojen s otvorenim morem tjesnacem ili uskim prolazom i kojemu su obale i tjesnaci pod suverenom sasvim uz vjetar, zatvoreno more
close-feed system (n) (marine eng) zatvoreni napojni krug
close-hauled /kloʊsˈhɔːld/ (adj) 1 (boating/yachting) SEE point of sail COMPARE close reach, broad reach, beam reach, run, no-sail zone sailing as close to the true wind direction as possible oštro uz vjetar, sasvim uz vjetar, jako u orcu,
Italian: bolina: At this time it is believed that the yacht was sailing close hauled in a south-south-westerly direction. Two Wayfarer class sailing dinghies were crossing the Solent, close-hauled in a fresh breeze and good visibility.; 2 (boating/yachting) jedrenje uz vjetar
close-hauled sailing (n) (boating/yachting) jedrenje oštro uz vjetar
close-hauling /kloʊsˈhɔːliŋ/ (n) (boating/yachting) prihvaćanje (skretanje jedrilicom prema vjetru; orcanje, orcavanje), jedrenje oštro uz vjetar, jedrenje oštro u orcu, Italian: bolina: The wind was north-west at 20 knots, and the yacht was on a close haul, heading in a westerly direction.
close quarter/s situation /kloʊsˈkwərə(t)/ (n) (mar law, navig) položaj brodova u kojemu postoji opasnost od sudara, lying so near another ship that there is no room to maneuver and therefore causing the risk of collision položaj opasne blizine, položaj opasnih blizina: So, if the TCPA reduces to 12 minutes in open waters, I would suggest you are now in a close quarters situation www.safety4sea.com ~ developed položaj opasnih blizina razvio se / nastao je ...: A close-quarters situation developed. But the tanker continued on her original heading and a close-quarters situation was quickly developing. A close quarters situation was developing with a cargo vessel to starboard, ~ occurred ... položaj opasnih blizina nastao je ...: A recent
Closest point of approach (CPA) is the closest point between two vessels. It occurs when the target vessel is ahead of your vessel in its course and speed. CPA is calculated by AIS, which shows a target vessel's course and speed. When the CPA is close to zero, it indicates a close-quarters situation. When the CPA is zero, it indicates a close approach. The ARPA is a device used to indicate the CPA. To increase the CPA, one might alter course or speed. To avoid a close approach, one might alter course or speed to give the target vessel a safe distance. Closest point of approach is a crucial concept in maritime safety, especially in the Dover Strait traffic separation scheme. Closest point of approach can be calculated using the formula: CPA = (d1 - d2) / (v1 - v2), where d1 and d2 are distances and v1 and v2 are speeds. To avoid a collision, it is essential to calculate and monitor CPA.
pokazati CPA od ..., prikazati CPA od: I saw the tanker cross the general cargo vessel's bow, standing on and now showing a CPA of 0.1 nm at 10 minutes.
close to the wind (adv) (navig) sasvim uz vjetar
close up (v) 1 (navig) približiti se; 2 (seamanship) to hoist a flag to, or in, its highest position
podignuti zastavu do vrha
closing (n) (navig) približavanje (obali, objektu)
closing courses (n) (navig, safety) približavanje kursova, kursovi koji se približavaju, kursovi u spajanju
closing distance (n) (navig, ship handling) razmak približavanja (vezu, drugom brodu), udaljenost približavanja: The second officer on the ship's forecastle reported decreasing closing distances from the berth.
closing speed (n) (navig) brzina približavanja brodova, brzina približavanja (kursova): At a closing speed of nearly 29 knots, the vessels were now only 90 seconds apart.
closure /ˈkloʊzə/ (n) 1 (mar law) zatvaranje (luke, terminala, usluge): In April 13 m swells and heavy rain forced the closure of Sydney Harbour and every commercial port across NSW. The ferry was on a fixed service between Dover and Calais, and the occasional closure of either port was a feature of the run, especially during winter months. The closure timings of the ship's ESD valves were regularly tested and found to be satisfactory. The closure of ports and port congestion have caused disruptions in the supply chain and import and exports. (https://safety4sea.com/); 2 (shipping econ) = shutdown zatvaranje (linije, terminala), prestanak rada (terminala, linije): The closure of the terminal was expected to impact over 100 jobs.; 3 (marine eng) zatvaranje (vodova, ventila itd.): Watertight integrity Inspect all watertight decks and bulkheads periodically to verify that progressive flooding cannot occur and that closure devices (such as watertight doors (WTDs) and duct closures) are in place and in working order.
clothing (n) (safety) odjeća: The crew were wearing heavy clothing.
cloud point (n) (marine eng) mutište (tekućeg goriva), temperatura zamućenja
cloudy (adj) (meteorol) oblačno: South Atlantic. Daytime. Cloudy. Good visibility. - Report No. ..006. My vessel was en route from Necochia in Argentina to the Persian Gulf in October . . ~ weather oblačno vrijeme: The weather was cloudy with good visibility, and the wind was west-south-westerly Force 3 ..., partly ~ djelomično oblačno: It was a partly cloudy day, with light winds.
clove hitch /ˌklʌv,хɪt/ (n) (seamanship) A knot for fastening a line to a spar or pile vrzni uzao, vrzin uzao, Italian:mezzo collo da incappellare; nodo di cabestano
Club (＝Protection and Indemnity Club) (n) (mar law) SEE Protection and Indemnity Insurance; P & I Insurance

P & I klub

He then joined the Club in Sep 2012.

club (n) (boating/yachting) deblenjak floka, bum floka

cluster /ˈklʌstər/ (n) 1 a number of things growing, fastened, or occurring close together skup, grozd:

Radar picture: Crossing vessel suddenly emerging from cluster of anchored ships echoes about 1.5 on starboard bow Soon afterwards, her skipper saw a cluster of lights ahead and adjusted course by several degrees to port to avoid them.; 2 grupa (ljudi); 3 (navig) grupa zvijezda, skup sazviježđa; 4 cluster, klaster

clutch /klʌtʃ/ (n) (marine eng) A device used to connect or disconnect the power input to the power output (http://www.marinedieseleurope.com/) spojka, kopča, kvačilo ~ lever poluga spojke, ručka kvačila: After completing the job they intended to disengage the clutch by shifting the clutch lever., ~ control ručica spojke: a routine maintenance of all filters in the clutch control and reduction gearbox lubricating oil circuits was conducted as per ship’s PMS., ~ housing kućište sojke: Checks of the gearbox found that there was damage to the gearbox pinions and clutch housing., dog ~ zupčasta spojka: ... the main engine stopped, resulting in the loss of hydraulic power and a consequent inability to disengage the winch dog clutch., gearbox ~ spojka reduktora, spojka prijenosnika: Shortly after the pilot boarded, a signal on the machinery monitoring system indicated a fault with one main engine to gearbox clutch., hydraulic ~

hidraulička spojka / kopča

http://www.indclutch.com/newsroom/2012/04/HC-Clutches-for-Marine-Gearboxes

clutch2 (n) (boating/yachting) = jammer A set of jaws, similar to a cleat, designed to hold a rope fast under high loads. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) stoper, štoper
clutch coupling  

(n) (marine eng) izvrstva spojka

http://www.apsltd.com/hardware/cleats-clutches/clutches-jammers.html

clutch in  

(n) (seamanship) spojiti se, uključiti se: The self-tensioning system was unable to clench in and out fast enough to render all the lines before they parted. Samozatezni privezni uređaj nije se mogao dovoljno brzo uključiti i isključiti kako bi uže moglo popustiti. The engine would only clutch in the ahead mode occasionally and at high engine revolutions.

crunch out  

(n) (seamanship) isključiti se (o vitlu), odspojiti se: The self-tensioning system was unable to clench in and out fast enough to render all the lines before they parted. Samozatezni privezni uređaj nije se mogao dovoljno brzo uključiti i isključiti kako bi uže moglo popustiti.

clutter  

(klʌtʃ) (navig) smetnje (u radarskoj slici), radarske smetnje sea ~ smetnje nastale utjecajima valova, smetnje od mora, smetnje s mora i valova: In rough weather, returns from the sea surface, called sea clutter, are received over several miles around own ship and mask nearby targets. 5 miles and the sea and rain clutter had been adjusted as the vessel gathered speed and settled at 23kts., rain ~ smetnje nastale utjecajima kiše, smetnje od kiše, smetnje od padalina: Radar range scale and tuning (gain, sea clutter, rain clutter) should be regularly adjusted throughout the watch in order to detect weak radar targets., anti ~ unit uređaj za ublažavanje smetnji od mora, suppress the ~ ukloniti smetnje od valova i mora, suppress the ~ ukloniti smetnje od kiše

CMI (=Comite Maritime Internationale)  

(n) (mar law) The Comité Maritime International (CMI) has attempted to bring about an international convention on the responsibility of classification societies without success so far. ... . In May 1998, the CMI Assembly adopted Principles of Conduct for Classification Societies. These principles imposed certain duties and procedures and outlined standards of
practice and performance for societies which adopt them. A year later, the CMI Assembly adopted Model Contractual Clauses for Use in Agreements between Classification Societies and Governments and Classification Societies and Shipowners, which define and clarify, subject to national law, the circumstances under which civil liability of the classification societies and their employees and agents should be regulated or limited. ... The classification societies have been in serious negotiation with European Union (EU) authorities to produce, if possible, a mutually acceptable directive on liability of classification societies. ...instrumental in the adoption of many important international conventions, e.g. 1) Collisions between Vessels, 1910.

Međunarodni pomorski odbor

CNG carrier (=Compressed natural gas carrier) (n) (nav arch) a ship designed for transportation of natural gas under high pressure (https://en.wikipedia.org) brod za prijevoz komprimiranog prirodnog plina

CO2 /siː əʊˈtuː/ (=carbon dioxide) (n) (safety, marine eng) ugljični dioksid: The fire was extinguished following activation of the CO2 smothering system. (https://safety4sea.com/) CO2 emission ispuštanje ugljičnog dioksida, release ~ pustiti CO2: A cloud of smoke began emerging from Hold 4 which was noticed by the crew who promptly commenced fire fighting measures by releasing CO2 (Carbon Di-Oxide) to suppress it. www.gCaptain.com

COA (=Contract of Affreightment) (n) (mar law) = contract of affreightment An agreement to transport a defined amount of cargo at an agreed freight rate, with the shipowner choosing the ship. (https://www.clarksons.com/glossary/) ugovor o prijevozu robe (za određenu količinu i na određeni rok, npr. godišnji ili višegodišnji ugovor), dugoročni brodarski ugovor na putovanje, afretman

coach roof (n) (boating/yachting) krov kabine

couch screw (n) (marine eng) vijak sa četrtastom glavom

cOAL-burner (n) (nav arch) parobrod na ugljen

cOAL-carrier (n) (nav arch) brod za ugljen

cOAL-fired (adj) (marine eng) s pogonom na ugljen

coaming /ˈkoʊmɪŋ/ (n) (nav arch, safety) the raised frame work around deck openings, and cockpit of open boats; the raised edge of a hatchway used to help keep out water; raised frame around a hatch opening pražnica grotla, solijer, soljera: Hatches are surrounded by coamings to reduce the risk of flooding in heavy seas. transverse hatchway ~ poprečna pražnica grotla, longitudinal hatchway ~ uzdužna pražnica grotla

coarse /ˈkoʊrs/ (adj) (marine eng) ANTONYM fine-grained grub, krupnozrnat

cOARSE-grained (adj) ANTONYM fine-grained krupnozrnat

cOAST /ˈkoʊst/ (n) (geogr) the entire extent of land area adjacent to the sea or ocean morska obala, obala: If you ever travel to Europe, you must visit and spend as much time as you can on the
Adriatic coast. We spent a very vigilant night at anchor in deep water off the coast. Fortunately, the vessel was near the coast and medical evacuation was effected promptly, and he was repatriated home after a brief hospitalisation. An eight-metre pleasure craft was struck by a passing bulk carrier while anchored for the night in a shipping lane off the north east coast of Australia...

**coastal /ˈkoʊst əl/ (adj) obalni**

**coastal authorities (n) (mar law) državne obalne vlasti, obalne vlasti (neke države):** MIN 231 (M+F) requires coastal authorities and shipping to inform vessels of erroneous vessel data being transmitted. Report incident to coastal authorities and to MARS (The Nautical Institute).

**coastal navigation (n) (navig) = terrestrial navigation** the safe conduct of a ship where the navigator has the land on one side of his course and the open sea on the other obalna navigacija: Mariners should use GPS in ocean navigation to check the Astronomical position, but in coastal navigation they must be very prudent with the GPS position.

**coastal passage (n) (navig) dužobalno putovanje broda, putovanje uz obalu:** A 5500 teu container ship was on a coastal passage off southern China. The skipper had planned a coastal passage that allowed several port visits en route, enabling him and his two crew members to get adequate rest.

**coastal service (n) great / short ~ velika / mala obalna plovidba (shipping econ) obalna plovidba, kabotaža**

**coastal state (n) (mar law) a State in whose territory, including its territorial sea, a marine casualty or marine incident occurs (IMO Casualty Investigation Code; EMSA) obalna država:** Under Marpol regulations, vessels with faulty pollution prevention/ control systems or related deficiencies must report the situation to the nearest coastal state immediately on such fault(s) being discovered.

**coastal station (n) (comm) obalna radiopostaja:** If in doubt, consult a Coast Station/RCC before sending a DSC Distress Acknowledgement. The initial message came via the Coast Station from an unknown MMSI.

**coastal tanker (n) (nav arch) tanker obalne plovidbe:** A coastal tanker was on passage with a cargo of gas oil.

**coastal trade (n) (mar law, shipping econ) obalna plovidba, kabotaža**

**coastal vessel / ship (n) (mar law) brod obalne plovidbe:** A 58-metre coastal cargo vessel was steaming south in the early hours of a February morning. This is partly due to a language barrier but also a reluctance by the coastal ships to answer calls on VHF.

**coastal waters (n) (navig, mar law) the area from a line approximating the mean high water along the mainland or island as far out as 25 miles including the bays, harbors and sounds (Seasources.net) obalne vode, priobalne vode:** In coastal waters or in traffic separation schemes, the restricted nature of the available sea room, and the high density of traffic, necessarily reduces the margins of safety Test manual steering before entering coastal waters.

**coast earth station (=CES) (n) (comm) obalna stanica u satelitskoj komunikaciji**

**coast earth stations (n) (comm, navig) obalna zemaljska postaja, obalna zemaljska stanica:** Those coast earth stations assuming a watch-keeping responsibility in the GMDSS shall maintain a continuous automatic watch for appropriate distress alerts relayed by space stations. (ITU-R)

**coaster /ˈkoʊstər/ (n) (nav arch) a ship that trades or operates from port to port along a coastline brod obalne plovidbe:** As is common in very busy ports, most coasters, fishing and small craft do
not report to VTS or port authorities,

Coast Guard /ˈkəʊst ɡɑːrd/ (n) (safety, mar law) obalna straža: Shortly afterwards Dover Coastguard called the bulk carrier on channel 18 by name and call sign, asked him to change to channel 80 and ... The crewmember was evacuated by the Netherlands' Coast Guard and brought to hospital.

coastguard (=CG) (n) (safety, mar law) A branch of the government with a mission to protect the coastal waters of a country, administer and enforce legal and safety regulations in the nation’s waterways, maintain aids to navigation, and provide rescue service for mariners in distress (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) obalna straža
coasting (n) (mar law) = cabotage mala obalna plovdba, kabotaža
coasting trade (n) (mar law) obalna plovdba, kabotaža
coastline /ˈkəʊstˌlain/ (n) 1 (geogr) obala: 23 out of 28 EU countries have a coastline.; 2 (shipping econ) obalna linija, obalna pruga
coast pilots (n) (navig) (boating/yachting) Books covering information about coastal navigation, including navigational aids, courses, distances, anchorages and harbors. https://www.ypiyachts.com/obalni peljar
coast radio station (=CRS) (n) (comm) obalna radiostanica, obalna radiopostaja
coast station (n) (comm) A land station in the maritime mobile service. (IAMSAR Vol III 2013) obalna radiopostaja, obalna radiostanica: Those coast stations assuming a watch-keeping responsibility in the GMDSS shall maintain an automatic digital selective calling watch on frequencies and for periods of time as indicated in the information published in the List of Coast Stations and Special Service Stations (ITU-R)
costwise /ˈkəʊstwaɪz/ (adj) (adv) = coastal service obalni, uz obalu, obalom ~ shipping obalna plovdba, priobalna plovdba
cost with off laying dangers (n) (navig) opasnosti za navigacijo pred obalom: When passing along coasts with off lying dangers a radar range can be used to pass a danger at a safe distance.
ccoat1 /kəʊt/ (v) 1 (seamanship, marine eng) pokriti, obložiti, prevući; 2 premazati (bojom)
ccoat2 (n) (seamanship) premaz
coating /ˈkoʊtɪŋ/ (n) (seamanship) premaz, zaštitna boja: In 2006 IMO adopted regulations on the coating of ballast tanks. When the ship came into the drydock the ecoshield coating was still in very good condition and did not need to be replaced or repaired. The Polar Code recommends the application of abrasion resistant, low friction coatings to vessels operating in ice-covered waters. When the survey ship was drydocked after navigating 2.5m thick ice with a high content of gravel and volcanic lava, the original coating, applied seven years ago, was virtually intact, undamaged marine ~s brodski premazi, brodske zaštitne boje, antifouling ~ premaz protiv obraštaja, protuobraštajni premaz: Most of the presently used antifouling coatings for marine applications contain biocides to mitigate the effects of bio-fouling over underwater components https://www.maritimeprofessional.com, fiberglass ~ premaz od stakloplastike
CoC (=Certificate of Competency) (n) (mar law) = certificate of competency svjedodžba o osposobljenosti (za zapovjednika, upravitelja stroja,
cock /ˈkɒk/ (n) (marine eng) A valve which is opened or closed by giving a disc or a tapered plug a quarter turn. (https://www.history.navy.mil/)

cocked hat /ˈkɒkt, hæt/ (n) (navig) a triangle produced by plotting three bearings on a chart trokut pozicije, trorogi šešir

http://www.sailtrain.co.uk/navigation/fixedes.htm

cockpit /ˈkɒk, pɪt/ (n) (nav arch) the well of a sailing vessel, especially a small boat, for the wheel and steerman https://officerofthewatch.com/tools/maritime-dictionary/ zdenac, brodski zdenac,

Italian: pozzo (boating/yachting) The seating area of a small boat or sailboat toward which most of the controls are run. kokpit jedrilice

cockswain; coxswain /ˈkɒksən; ‘kɒk, sweɪn/ (n) (seamanship) kormilar brodice za spašavanje, kormilar brodice, zapovjednik peljarske brodice, skiper (pilotine): The pilot boat’s coxswain called the river pilot on the Very High Frequency (VHF) radio and it was agreed that the pilot transfer would be completed on Sunmi’s port side. www.gov.uk/maib At 1809, the coxswain brought pilot boat onto a course parallel to the ship and made an approach towards the cargo ship’s port side. www.gov.uk/com

cocktailshaker (n) (marine eng) koktelmikser (način rashlađivanja klipa)
cocoa /ˈkəʊkəʊ/ (n) (cargo) kakaovac

code /ˈkəʊd/ 1 (mar law) zakonik, skup zakona; 2 (marine eng, mar law) pravilnik
code alerts and identificators (n) (navig) obvezni alarmi zapovjedničkog mosta
code flag (n) (comm) = signal flag signalna zastavica, zastavica signalnog kodeksa

Code of Practice for Ships Carrying Timber Deck Cargoes (n) (cargo handling) Pravilnik za osiguranje tereta drva na palubi broda

Code of Practice for the Carriage of Live Animals Pravilnik za prijevoz živih životinja

Code of Practice for the Safe Carriage of Grain in Bulk (Grain Code)
Pravilnik za prijevoz žitarica u rasutom stanju
Code of Practice for the Safe Loading and Unloading of Bulk Cargoes (BLU Code)
Pravilnik za ukrcaj i iskrcaj rasutog tereta
Code of Safe Practice for Cargo Stowage and Securing (n) (cargo handling)
IMO kodeks/pravilnik o sigurnom slaganju i učvršćenju tereta
Code of Safe Practice for Solid Bulk Cargoes (n) (cargo handling) = BC Code
Pravilnik za osiguranje krutog tereta u rasutom stanju
coils

code sign /ˈkɔːd,sain/ (n) (comm, navig) signalni kod
codfish (n) (fishing) bakalar
coefficient /ˌkəʊˈfɪʃənt/ ~ of performance koeficijent učina, učin koeficijent
coefficient of expansion koeficijent rastezanja
CO2 extinguisher (n) (safety) prijenosni aparat za gašenje ugljičnim dioksidom
coffee watch (n) (seamanship) = morning watch jutarnja straža, jutarnja gvardija
cofferdam /ˈkoʊfə,dæm/ (n) (nav arch) A small space left open between two bulkheads as an air space, to protect another bulkhead from heat, fire, hazard or collision.
https://officerofthewatch.com/tools/maritime-dictionary/ loska, pregradak, koferdam:

Cofferdams are also used for insulation purposes

COG (course over ground) (n) (navig) = course over ground kurs preko dna: The ship’s master adjusted the autopilot to bring the vessel on to a COG of 218.

COGSA (Carriage of Goods by Sea Act) (n) (mar law) U.S. federal codification which standardizes carrier’s liability under carrier’s bill of lading; U.S. enactment of The Hague Rules

COGSA = Carriage of Goods by Sea Act

Zakon o prijevozu robe morem

cogwheel (n) (marine eng) zupčanik
coil /kɔil/ (electr) zavojnica, bobina deflection ~s otklonske zavojnice (katodne cijevi); 2 (marine eng) zavojnica, spiralna zavojnica heating ~ grijača zavojnica, serpentina za zagrijavanje; 3 cijevna spirala cooling ~ rashladna spirala, rashladni radijalni kanal, serpentina, serpentina; Italian: serpentina; 4 (cargo) svitak (tereta); 5 (electr) bobina
coil /kɔil/ (v) 1 namatati; 2 (boating/yachting) To prepare a line for stowing by turning it in equal loops so that it is neat and orderly and ready for use

(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) slagati konop ~ the rope namatati konop, kojit, skojit: Coil the rope into your right hand in clockwise loops about two feet long, up to a maximum of about 10 loops. https://www.practical-sailor.com/, ~ down slagati konop, ~ a rope in Flemish flake namatati konop spiralno

coils /ˈkoʊlz/ (nav arch, cargo handling) A system of small diameter pipes installed inside a liquid cargo tank for the purpose of heating the cargo by means of hot oil or steam.
 heir https://officerofthewatch.com/tools/maritime-dictionary/; the heating elements in the cargo tanks which are used to heat DPP cargoes on the laden voyage so that the cargo is fluid enough to discharge efficiently at the discharge port (www.euronav.com) serpentine (rashladnog uređaja)
coil spring (n) (marine eng) spiralna opruga
cold cranking amps (=CCA) (n) (electr, boating/yachting) struja hladnoga stara (motora brodice)
cold flow properties (n) (marine eng) svojstvo protočnosti hladnog goriva: ... we expected huge variations in viscosity, density & cold flow properties of VLSFOs (https://safety4sea.com/)
cold ironing (n) (electr) shore connection, or alternative maritime power (AMP), is the process of providing shoreside electrical power to a ship at berth while its main and auxiliary engines are turned off obalni priključak (na električnu struju), kopneni električni priključak: Solar panels, optimized propellers and cold ironing - the possibility to connect to land power network at ports - are among the economically profitable investments in new technologies - https://safety4sea.com
cold start (n) (marine eng, navig) upućivanje iz hladnog pogona
cold starting (n) (marine eng) startanje iz hladnog stanja
cold storage skladište-hladnjača (u luci), rashladno skladište
cold store brodski frižider, jacera
collapse /kæˈlɛps/ (n) (cargo) rušenje cargo ~ rušenje tereta, raspad složenog tereta, ~ of the stack rušenje reda (kontejnera): The MAIB investigation determined that poor stevedoring practices probably contributed to the unsecured cargo stack collapsing, a crane ~d srušila se dizalica: A giant crane collapsed after being hit by a ship at the port of ... The accident resulted in the collapse of a shore crane.
collapsible container (=foldable container) (n) (cargo, cargo handling, logist) a container that can collapse up to a quarter of its size and combine with 3 others to achieve a 4-1 ratio; This means that the space, handling and transportation of empty containers is reduced by up to 75% in comparison to a standard unit. (shippingandfreightresource.com) rasklopivi kontejner, sklopivi kontejner: The flexible container is strong and can take an active top load of over 380 Tonne. shippingandfreightresource.com
collar /ˈkɒlər/ (n) (boating/yachting) otvor za jarbol (u palubi / kabini)
collar (n) (marine eng) 1 ovratnik, prsten, obruč; 2 greben; 3 naglavak (cijevi), kolčak (cijevi); 4 prirubnica (košuljice motora)
collaring (n) (nav arch) osiguranje nepropusne prolaznosti maskama
collate /ˈkoʊleɪt/ (v) (shipping econ) prikupiti i urediti (dokumentaciju): engage a surveyor to ascertain and collate evidence of the loss or damage;
collect skupiti, prikupiti, ubrati (novac) ~ freight ubrati vozarinu, naplatiti vozarinu
Collector of Customs carinski blagajnik
collect the cargo (v) (shipping econ, logist) preuzeti teret (u luci): The cargo that is not colected at ports creates congestion and takes up space, reducing capacity for incoming cargo and containers.
college-based education (n) školovanje u višoj školi
collide /ˈkɒləd/ (v) (navig) sudariti se: the container ship collided with the a fishing vessel at the junction of the Vlieland and Texel TSS In the evening of 29 January. COSCO's container ship Fei He collided with Cido Shipping's chemical tanker Lime Galaxy off Jurong Island. As the tanker was turning to port, in order to provide more space for what the Master believed would be a starboard to starboard meeting, it became apparent that the ships would collide www.nautinst.org - MARS reports The pilot on vessel A ordered hard to starboard and full astern but it was too late, and the vessels collided.
www.safety4sea.com ~ with sudariti se s: A general cargo vessel sank after it collided with a 10,546-teu containership, vessel X and vessel Y collided … brod X i brod Y sudarili
su se …: The tanker and the bulk carrier collided Monday night at about 11:30 p.m. approximately 8 nautical miles from the northern entrance in the Bosphorus Strait. Cruise ship with hundreds of passengers and a chemical tanker carrying flammable naphtha collided in the Dardanelles Strait, causing damage but no injuries At 0027 on 11 December 2014, the general cargo vessel ...... and the tanker .... collided in the south-west lane of the Dover Strait Traffic Separation Scheme.
collier /ˈkɒliər/ (n) (nav arch) = coal carrier A vessel designed for the carrying of coal, which may or may not be fitted with special appliances for coal handling. (https://www.history.navy.mil/)

collision bulkhead (=collusion bulkhead) (n) (nav arch) the foremost transverse watertight bulkhead sudarna pregrada, Italian: paratia d’abbordo: The tanker sustained considerable structural damage forward of its collision bulkhead. afterpeak ~ sudarna pregrada kod stražnjeg pika, forepeak ~ sudarna pregrada kod pramčanog pika

brod za ugljen
collision /koˈlizən/ (navig, safety) a structural impact that occurs between two vessels and may result in severe damages, pollution or even loss of human lives (https://safety4sea.com/) sudar: Both vessels were damaged in the collision and assisted to an anchorage outside the strait. to avoid ~ izbječi sudar, direct ~ izravni sudar, indirect ~ neizravni sudar, a ~ occured between ... and ... došlo je do sudara, dogodio se sudar, ... i .... sudarili

su se: At about 0854 on 9 March, a collision occurred between the 9.96m fishing vessel and the 49,424 gt vehicle carrier ---- The collision between the 623-foot bulk carrier and 600-foot tanker occurred on a foggy morning on March 9 ... prevent the ~ spriječiti sudar, imminent risk of ~ neposredna opasnost od sudara, prior to the ~ prije sudara, following the ~ nakon sudara, poslije sudara, ~ avoidance izbjegavanje sudara, ~ between ship X and ship Y: Report on the investigation of the collision between the container ship ..... and the oil tanker ..... sudar između broda X i broda Y, take action to prevent ~ poduzeti radnu kako bi se spriječio sudar, on ~ courses: It was extremely difficult for the VTSO to identify that the vessels were on collision courses. on kursevima sudara, ~ resulted from several factors sudar je nastao iz nekoliko razloga, investigation of the ~ istraga sudara, ispitivanje sudara, the ~ occurred due to ... sudar se dogodio zbog ....: The collision occurred as a result of the general cargo ship ... turning into the path of the motor tanker ...., cause of ~ uzrok sudara: The cause of the collision is still not known., the ~ occurred ... sudar se dogodio ....: The collision occurred nearly 30 miles southeast of New York., attribute the ~ to pripisati razlog za sudar (nekome ili nečemu): Collision of LNG carrier and VLCC attributed to VHF communication https://gCaptain.com, cause a ~ izazvati sudar, prouzočiti sudar: Most ship collisions have been caused by lack of communication between vessels, incompetence, poor knowledge, restricted visibility and bad weather conditions, and failures of critical system for vessels’ navigation. (https://safety4sea.com/)
collision avoidance (n) (navig) izbjegavanje sudara: The ship’s master is at the starboard radar display conducting collision avoidance

collision avoidance tool (n) (navig) pomagalo za izbjegavanje sudara

sudar
Considering distance and ship’s speed he was on a collision course. While the two trailing vessels took action to avoid an imminent collision, the nearest fishing vessel continued on a collision course. He was writing his log and did not notice that he was on a collision course.

Collision Regulations (=COLREGS) Pravila o izbjegavanju sudara contrary to the ~ suprotno pravilima, u suprotnosti s pravilima collision risk (n) (navig) opasnost od sudara
Collision Rules (=COLREGS) Pravila o izbjegavanju sudara na moru adhere to ~ držati se pravila o izbjegavanju sudara, poštivati pravila o izbjegavanju: Collision regulations should be adhered to at all times and verbal agreements over VHF radio which contradict the collision regulations, and can cause confusion, should be avoided.

collision warning (n) (navig) alarma upozorenja za sudar (na ARPA radaru)
collude /kəluːd/ (v) (shipping econ, mar law) co-operate secretly or illegally dogovoriti se tajno (radi izbjegavanja konkurencije): The court has found that the ship operators colluded to avoid competition in tenders ((Fairplay august 2017)

colors (n) (US, navy) nacionalna zastava broda
colour (=color (US)) (n) boja bitish in ~ bjelkaste boje
colours (n) (seamanship) the national ensign flown by a ship nacionalna zastava broda, zastave države broda
colours and symbols (n) (navig) boje i simboli (na radarskom prikazu, u sustavu ECDIS itd.)
colour vision test ispitivanje sposobnosti raspoznavanja boja

COLREGS /ˈkɔːlregz/ = Regulations for Preventing Collisions at Sea (COLREG, COLREGS) = rules of the road = Collision Regulations

International Regulations for the Prevention of Collisions at Sea, annexed to the Convention on the International Regulations for the Prevention of Collisions at Sea, adopted by the IMO at London,
Pravila o izbjegavanju sudara: the COLREGS are to be strictly followed. Pravila o izbjegavanju sudara valja strogo poštivati. To comply with the ~ poštivati pravila o izbjegavanju sudara, observe the ~ poštivati pravila o izbjegavanju sudara, violate the ~ kršiti pravila o izbjegavanju sudara, break the ~ kršiti pravila o izbjegavanju sudara, adhere to the ~ pridržavati se pravila o izbjegavanju sudara, strictly follow the ~ strogo se pridržavati pravila o izbjegavanju sudara, misunderstand the ~ kršiti pravila o izbjegavanju sudara, as required by the ~ kao što se zahtijeva pravilima o izbjegavanju sudara, under the ~ prema pravilima o izbjegavanju sudara, u smislu pravila o izbjegavanju sudara: Steering and Sailing Rules are the most important rules under COLREGS. They have been designed to keep vessels apart when they approach each other. Laid down by the ~ propisano u pravilima o izbjegavanju sudara, zacrtao u pravilima o izbjegavanju sudara: The most important group of rules are the steering and sailing rules, which lay down the procedure to be followed when ships approach each other and there is a danger of collision. Amendments to the ~ izmjene i dopune pravila o izbjegavanju sudara column /ˈkɒləm/ stup (svjetla) column /ˈkɒləm/ A-form ~ stalak u obliku slova A, engine ~ stalak motora stup, stupac, stalak (motora), kolona column of engine (n) (marine eng) stalak motora combat /ˈkɒmbæt/ (v) suzbiti, boriti se protiv, oduprijeti se: To combat the strong flood tide and prevailing headwind, the lead pilot stated decoded to navigate the vessel deep into the Precautionary Area … ~ fire boriti se protiv požara: Crew members attempted to combat the fire but it quickly spread to the main deck, reaching the midship section where combustible cargoes were stored.

combatant ship (n) (navy) a ship whose primary mission is combat bojni brod, brod za bojna djelovanja Combat Information System (=CIC) (n) (navy) Bojni informacijski sustav combat ship (n) (navy) ratni brod Combat Systems Department (n) (navy) The ship’s sophisticated combat system is designed to support brief, intense engagements, in which the full simultaneous operational capability of the ship, including maximum firepower of all weapons, will be employed (https://www.public.navy.mil/surfor/ddg77/Pages/departments.aspx) bojna služba (ratnog broda), bojni sustav (ratnog broda): The ship’s numerous warfare (combat) mission areas include: Anti-Air Warfare (AAW), Anti-Surface Warfare (ASUW), Anti-Submarine Warfare (ASW), Strike Warfare (STW), Visit Board Search and Seizure (VBSS), and Force Protection. https://www.public.navy.mil/surfor/ddg77/Pages/departments.aspx CC Division komunikacijski odjel (ratnog broda): CC Division, run by the Communications Officer, consists of Information Systems Technician (ITs), who are responsible for all of the ship’s electronic communication. CF Division CF Division - is manned by Fire Controlmen (FC) who are responsible for the maintenance and operation of the ships Fire Control radars, Close-In-Weapon-System, all Combat Information Center (CIC) consoles and displays, the Combat Direction System and associated computers.
The Electronics Technicians (ETs) and Interior Communications Electricians (ICs) operate and maintain the ship’s electronic support systems. Primary responsibilities include the operational readiness, calibration and casualty control of the Exterior Communications System, Interior Communication System, Navigation System, Surface Search Radar System, and electronic equipment not specifically assigned to another division. Odjel elektronike i unutarbrodskih komunikacija

comber /ˈkəʊmə/ (n) (oceanogr) a long, breaking ocean wave val koji se ruši, val na početku rušenja
comber² /ˈkəʊmə/ (n) (fishing) Lat. Serranus cabrilla kanjac, Italian. sciarriano

cabrilla, kanj, zubuša, kanjica, giričar

combi carrier (=combination carrier) (n) (nav arch) = combination carrier
Ships designed to be able to carry both oil cargoes or ‘dry’ cargoes such as iron ore or grain, in the hope that the vessel can maximise earnings by swapping between wet and dry cargoes and eliminate some of the time spent ‘in ballast’. (www.euronav.com)

(combination spanner) (n) (marine eng) kombinacija viljuškastog i okastog ključa ključ (vrsta alata)

combinator (n) (marine eng) The active combinator minimizes the fuel consumption during transit sailing modes, based on the principle that equal thrust can be achieved at more fuel optimised propeller pitch and engine speeds compared to a static combinator mode (www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf)

(combined transport) (n) (shipping econ) prijevoznopravni posao koji se odvija unutar najmanje dviju grana prometa te za koji postoji jedinstveni ugovor za cijelu prijevoznu relaciju i jedna jedinstvena prijevozna isprava; intermodal transport where the major part of the voyage is by one mode such as rail, inland waterway or sea and any initial and/or final leg carried out by another mode such as road mješoviti prijevoz, kombinirani prijevoz, multimodalni prijevoz: Where the Carriage is Combined Transport, the Carrier undertakes to perform and/or in his own name to procure performance of the Carriage from the Place of Receipt or the Port of Loading, whichever is applicable, to the Port of Discharge or the Place of Delivery, whichever is applicable
Combined Transport Bill of Lading (n) (mar law, shipping econ) A type of Bills of Lading for shipments carried by more than one means of transport (e.g. by a door-to-door freight-forwarding service). Document evidencing a contract between shipper and a shipping line for carriage of goods on a voyage involving at least two legs. Normally, the issuer of this document is responsible for the goods from the time they are received into his care until the time they are delivered at destination.

http://www.tkmglobal.net/chartering_C.HTM teretnica za kombinirani prijevoz, teretnica za mješoviti prijevoz, teretnica za multimodalni prijevoz combined transport carrier (n) (mar law) poduzetnik mješovitog prijevoza, operator mješovitog prijevoza combined transport operator (n) (shipping econ) poduzetnik mješovitoga prijevoza combustible gas indicator (n) (safety) indikator zapaljivog plina combustion /ˌkɒmbɪˈʃən/ ~ chamber izgarna komora, komora za sagorijevanje, ~ gases plinovi izgaranja, produkti sagorijevanja, ~ space izgarni prostor, ~ stroke radni takt, takt sagorijevanja (eksplozije), products of ~odzi izgaranja, spontan ~ samozapaljenje, internal 1 unutarnje izgaranje izgaranje, sagorijevanje combustion chamber (marine eng) izgarna komora, komora izgaranja: The combustion chamber is enclosed between the cylinder head and the piston and the most of it contained in the top of the piston.

come about (v) (boating/yachting) SYNONYM Ready about! to change tacks with the boat turning through the wind; to tack: to change tack; to change direction through the wind letati, okretati (jedrilicu), napraviti bordadu come alongside (v) (seamanship, navig) pristati uz obalu, pristati bokom uz obalu, koštat come around (v) (boating/yachting) to bring a sailing vessel into the wind and change to another tack okrenuti jedrilicu (drugom stranom prema vjetru), letati come ashore (v) doći na kopno: Denmark will allow merchant sailors stranded on the high seas since the outbreak of the coronavirus to come ashore and be reunited with their friends and families www.gCaptain.com come due (v) (financ, mar ins) dospjeti (za naplatu, obnovu itd.): While on Grenada, we discovered that our boat insurance was coming due and that the company would require an out-of-water survey this time around. We would need to haul out the boat https://mail.google.com/mail/u/0/#imp/163accbb97b17485 come home (v) (boating/yachting) When you pull the anchor cable and the anchor comes towards the boat povlačiti se po sidru Come in, please (v) (comm) frequently said on VHF radio by the station calling another station/ship and waiting for response Prijam.: Ship on may port side, three point three miles away, steering 2-3-6. Come in, please. come to (v) (boating/yachting) to stop a vessel by turning into the wind zaiustaviti se okretanjem (jedrilice) u vjetar come to rest zaustaviti se
come to touch doći u dodir, dirnuti, taknuti
comfortable /ˈkʌmtəbl/ (adj) udoban, ugodan
coming alongside (n) (navig, seamanship) pristajanje uz obalu
coming to starboard / port (ship handling) pomicanje broda po sidru u desno / lijevo: But coming 50 yards to starboard and 75 yards aft is not simple, you must adjust all four anchors and visualize the change in the ship’s position. https://gcaptain.com/dropping-anchors-in-the-gulf-of-mexico-60-days-of-letting-her-go-and-pulling-her-up/
Comite Maritime International (CMI) Međunarodni pomorski odbor
comity /ˈkəməti/ (n) 1 (mar ins) They agree in particular to strengthen their links with the member countries of the Council of Europe and with other democratic European countries with which they have friendly relations and close co-operation.(EuroTerm); The doctrine requiring courts of one state to recognize the laws of foreign states and judgments of competent courts of such states, in order to secure the reciprocal recognition by that foreign state of the laws of the first state and the judgments of its courts.http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; 2 reciprocitetet, priznavanje zakona i sudskih odluka na bazi reciprociteta
command (n) (navig) zapovjedanje be in ~ 1 zapovijedati brodom; 2 biti zapovjednikom: After three years in command, he came ashore and headed the Commercial and Operations department of a shipping company Након три године пловида као заповједник он се искrcao (зaposlio na kopnu) и bio на чељу комерцијалне и оперативне службе бродарског друштва.
commander /ˈkɔːmənər/ (n) 1 (navy) naval officer next below captain; Title of an officer between a Lt Commander and Captain. (http://www.quarterdeck.org/index.html) zapovjednik ratnog broda (između čina kapetana i poručnika), kapetan fregate: Commander of the aircraft carrier ; 2 the master of a merchant ship zapovjednik
Commanding Officer (=CO; Commander) (n) (navy) The Commanding Officer of a U.S. naval vessel is the officer regularly ordered to command it by the Secretary of the Navy. Regardless of his rank, he has full command, authority, and precedence over all officers and persons serving in his ship. (https://www.ibiblio.org/hyperwar/USN/ref/Seamanship/Seamanship-7.html) zapovjednik (ratnog broda; razarača, fregate, krstarice itd.), kapetan (ratnog broda): The Commanding Officer (CO) of a destroyer under peacetime conditions is normally a Commander with 15 to 18 years of commissioned service. During World War II, the commanding officer was frequently a Lieutenant Commander http://www.dd596.com/Our-Ship/Organization
command of the English language vladanje engleskim jezikom: there is reason to doubt that the bridge staff have a sufficient command of the English language to be able to respond correctly and without delay to the Pilot’s directions.
commence /ˈkərnəns/ (shipping econ) ANTONYM cease započeti, početi: laydays ~ to count as of May 15th stojnice se započinju računati od 15. svibnja Wages shall commence no later than on the day specified and agreed to in these Articles Zarada/plaća se počinje računati najkasnije od dana navedenog i dogovorenog u ovom radnom ugovoru Like the voyage charter there is a clause stipulating when time shall commence to count.
commencement /kəˈmɛnsmənt/ početak

commence search point  (n) (safety) The point normally specified by the search and rescue (SAR) mission coordinator where a SAR facility is to begin its search pattern.

(https://ccga-pacific.org/training/manuals/IAMSAR/Camsar-2014-english-signed.pdf) početna pozicija potrage i spašavanja

commercial invoice  (n) (shipping econ) poslovni račun, poslovna faktura

commercial ship (=commercial vessel)  (n) (nav arch) trgovački brod:
Commercial vessels that face the highest risk through heavy weather are container ships, heavy lifts and Ro-Ro vessels. (https://safety4sea.com/)

commission /koʊˈmɪʃən/ provizija: The gross charter rate is US$12,000 per day, minus a 4.75% commission paid to third parties, for a period of about twelve (12) months. Maritime Today <update@maritimetoday.com>

commission /koʊˈmɪʃən/ to place / put a ship, crane etc. in service predati u službu / eksplataciju, pustiti u rad, obaviti primopredaju (broda):
The vessel was commissioned as the first seagoing container ship in 1968. Houston Authority has commissioned the first of four new Super Post-Panamax STS cranes at its Barbours Cut Container Terminal. Furthermore, expired certificates need to be renewed before the vessel can be re-commissioned.

commission:  (n) (navy) If a member of the armed forces receives a commission, he or she becomes an officer. (https://www.collinsdictionary.com/dictionary/english/commission) ovlast (časnika ratne ili trgovačke mornarice), odluka o dodjeli časničkog čina

commissioned light ponovno osposobljena plovidbena oznaka

commissioned officer  (n) COMPARE non-commissioned officer
1 (navy, hum_resources) the term OFFICER almost always refers to only commissioned officers, i.e. the more senior portion of a force who derive their authority from a commission from the head of state. (https://en.wikipedia.org/wiki/Officer_(armed_forces)) časnik (trgovačke mornarice);
2 an officer of the armed forces holding by a commission a rank of second lieutenant or ensign or above (https://www.merriam-webster.com/dictionary/commissioned%20officer) časnik (ratne mornarice), osoba s časničkim imenovanjem

commissioning ceremony  (n) (nav arch, navy) ceremonies during which a new ship is placed in service (http://www.quarterdeck.org/index.html) svečanost primopredaje broda, svečanost puštanja broda u plovidbu

commissioning of the ship  (n) 1 (nav arch) primopredaja broda (od strane brodogradilišta); 2 (nav arch) an elaborate ceremony that officially places the ship in service puštanje broda u plovidbu, svečanost puštanja broda u plovidbu:
Although commissioning places the ship in service, much work usually remains to be done by the crew to bring the ship to its full operational capability. Keel laying is one of the four specially-celebrated events in the life of a ship; the others are launching, commissioning, and decommissioning. re-~ ponovno puštanje broda u plovidbu: Depending on the length of lay-up, three weeks or more should be expected for re-commissioning.

commissioning phase  (n) (nav arch) faza primopredaje (broda, dizalice, opreme itd.): Of the cranes that arrived in December, the first is already in use. The second crane is in its final commissioning phase and should be in use in the third week of March. https://safety4sea.com

commit /kəˈmit/ izvršiti, počiniti krivično djelo to ~ crime
committed (adj) odan, vjeran, posvećen: We remain committed to serving all of our customers.

commodities /ˈkɒmədɪtɪ/ roba, tereti, tereti u prijevozu morem: The Baltic Exchange’s main sea freight index tracking rates for ships carrying dry bulk commodities was unchanged on Tuesday, as rising demand for capesize or large vessels typically carrying iron ore and coal was countered by falling demand elsewhere.

commodity /ˈkɒmədɪtɪ/ (shipping econ, logist) any article/goods shipped; Indication of the type of goods; A commodity is a basic good used in commerce that is interchangeable with other commodities of the same type. (http://www.investopedia.com/) roba (u transportu), teret: Usually tramps carry shipload lots of the same commodity for a single shipper. Commodities are basic because they have simply been grown or extracted from their natural state and brought up to a minimum grade for sale in a marketplace - there is no extra value added to them by the producer. Commodity is what is being bought and sold.. How and when commodity becomes cargo will be decided after the trade..

commodore /ˈkɒmədər/ (n) 1 (navy) najniži admiralski čin u ratnim mornaricama SAD-a i Velike Britanije; naval officer between the ranks of captain and rear admiral komodor; 2 the senior officer of a yacht club komodor (jedriličarskog društva)

common benefit (n) (mar law, mar ins) zajednička korist

common bower (n) (nav arch) obično sidro, pramčano sidro

common carriage (n) (mar law) Carriage performed by a common carrier, who undertakes to transport the public’s goods from and to places advertised and at times advertised, usually on regular, liner (infra) routes and under liner bills of lading, in consideration of the payment of freight (infra) by the shipper (infra). linijski prijevoz, linijska plovidba, javni prijevoz

common carrier (n) 1 (mar law) A shipping company which provides service to the general public at published rates javni prijevoznik, linijski prijevoznik: The Port Authority has had a lengthy landlord-tenant relationship with Maersk at its Barbour’s Cut container terminal, and the company is now free to call there or at the Port Authority’s Bayport container terminal as a common carrier, the port authority said. Non-Vessel Operating ~; NVOCC Carrier offering an international cargo transport service through the use of underlying carriers and under their own rate structure in accordance with tariffs filed with the Federal Maritime Commission in Washington D.C. (http://www.maerskline.com/en-jm/help/shipping-glossary) linijski prijevoznik koji prevozi teret brodovima podugovornih brodara; 2 (shipping econ, US) domaći prijevoznik

common-carrier service (n) (shipping econ) a person or company that transports goods or people for any person or company and that is responsible for any possible loss of the goods during transport.[2] A common carrier offers its services to the general public under license or authority provided by a regulatory body. usluge javnog prijevoza roba i putnika, javni prijevoz: Until the 19th century, ships were owned by the merchant or by the trading company; common-carrier service did not exist.

common dentex (n) (fishing) = pink dentex Lat. Dentex dentex Zubatac, žubatac, mudrac mora, dental, Italian. dentice: For many people common dentex (Dentex dentex)
Common dolphinfish is the most valuable specie of fish that can be caught in Mediterranean Sea.

Common dolphinfish (n) (fishing) lampuga, pučinska skakavica, lampura,

lančeska

common eel (=European eel) (n) Lat. Anguilla anguilla jegulja, angula, uklica,

bižot, punoglavica

common law (n) (mar law) the legal tradition which evolved in England from the 11th century onwards. Its principles appear for the most part in reported judgments, usually of the higher courts, in relation to specific fact situations arising in disputes which courts have adjudicated. The common law is usually much more detailed in its prescriptions than the civil law.

običajno pravo, anglo-saksonsko pravo: Under common law the force and authority of the law derives from precedent, custom and usage rather than from statutes, particularly with reference to the laws of England and the United States Most of the common law countries follow English statute and case law. ~ obligations obveze iz običajnoga prava, obveze prema

anglo-saksonskom pravu: The terms under which a private carrier contracts out of his common law obligations must be clearly stated if they are to protect him in law.

common lobster (n) (fishing) Lat. Homarus gammarus hlap spiny ~ rakovica, spinous ~ rakovica

common pandora (n) pandora (fishing) Lat. Pagellus erythrinus ar bun, ribon, rumenac, ar bor, jar bun, marelić, Italian. Pagello Fragolino

common rail injection system (n) (marine eng) sustav ubrizgavanja goriva sa zajedničkom sabirnicom

common rail system (n) (marine eng) A diesel fuel injection system employing a common pressure accumulator, called the rail, which is mounted along the engine block.

(http://www.marinedieseleurope.com/) sustav goriva sa zajedničkom sabirnicom (goriva): In the common rail system a single pump supplies fuel at high pressure to a common manifold feeding the cylinders.

common risk (n) (mar ins, mar law) opasnost u pomorskom pothvatu koja se odnosi najmanje na dva posebna interesa zajednička opasnost

common safety (n) (mar law, mar ins) zajednički spas
common seabream (n) (fishing) Pagrus pagrus pagar, parag, parog, albun

common sole (n) (fishing) = sole fish list, švoj, šfolja

common spiny lobster (n) (fishing) jastog, ltalian: aragosta
common two-banded seabream (n) (fishing) Lat. Diplodus vulgaris fratar
common-user berth (n) (mar law, ports) COMPARE single-user berth a berth whose use is not restricted to the ships of any one line or shipping company otvoreni vez, vez za brodove svih brodara, vez za sve lučke operatore
common user facility (n) (mar law, ports) lučki kapacitet za sve korisnike, lučki vez / kapacitet u vlasništvu lučke uprave
common user terminal (n) (mar law, ports) terminal open to any vessel that makes arrangements to call at this terminal otvoreni terminal, terminal na raspolaganju svim zainteresiranim brodarima
common venture (n) (mar law) = joint venture A basic concept in maritime law, reflecting the understanding of maritime commerce as a joint undertaking on the part of shippers, carriers and consignees; shipowners and charterers; and their respective insurers, who (directly or indirectly) confront the perils of the sea together, and who should therefore share both the profits and the risks attendant upon their combined operation. zajednički pothvat, pomorski poduhvat

Communicating with the Media/Public (n) (safety) komunikacije sa sredstvima priopćavanja i javnosti (u SAR operacijama), komunikacije s medijima i javnošću (u SAR operacijama): Where circumstances allow, clearance shall be obtained from the SMC or designated Public Affairs Officer prior to conducting such interviews or making public releases. Personal opinions on the conduct of a particular SAR operation or on departmental policy should not be offered. (Camsar2014)
communication (n) 1 (comm) ~ system uređaji za komunikaciju, sustavi za dojavu a priopćenje, obavijest, komunikacija, poruka, vijest; 2 sporazumijevanje, komuniciranje: Communication between vessel bridge teams must be sufficiently early, clear and unambiguous, especially when it involves a deviation from the collision regulations. The safety investigation concluded that the immediate cause of the collision was communication between the two vessels over the VHF radio, ~ over VHF radio komunikacija
**putem VHF radija:** Communication between the two vessels over the VHF radio, which continued even when a close-quarter situation had developed, thus reducing the possibility of timely and effective until the collision occurred. https://gCaptain.com

**communicational equipment** *(comm)* uređaji veze, komunikacijski uređaji

**communication hatch** *(cargo handling, comm)* doglasni otvor

**communications** *(comm)* komunikacije establish ~ with uspostaviti komunikaciju s, doći u vezu s: Establish communications with the RCC and/or On-Scene Coordinator and other SAR units. (https://safety4sea.com/)

**communications desk** *(comm, navig)* komunikacijski pult, pult za veze: communications desk on the after port side of the bridge

**communication signals** znakovi za komuniciranje: Before entering confined spaces check that communication signals are agreed

**communications satellite** *(comm)* komunikacijski satelit

**companion** *(nav arch)* a covering over the top of a companionway poklopac kabine, poklopac ulaza (u brod, skladište, jedrilicu), *tambuć*

**companion ladder** *(nav arch)* = companionway a staircase fitted as a means of access from a deck to the quarters stubište ulaza (u potpalublje, kabinu jedrilice)
companionway /ˈkʌmpənweɪ/ (n) 1 (nav arch) a stairway on a ship leading from one deck to another; A raised hatch, with a ladder leading below deck.

palubne stepenice, unutrašnje stubište (na brodu)
https://www.ladderstore.com/companionway-ladder; 2 (boating/yachting) entryway into the cabin from the deck https://www.ypiyachts.com/; silazne stepenice u jedrilici, stubište ulaza u (potpalublje, skladište)

company /ˈkɒmpəni/ (n) 1 (mar law, shipping econ) the owner of the ship or any other organization or person such as the manager, or the bareboat charterer, who has assumed the responsibility for operation of the ship from the shipowner and who, on assuming such responsibility, has agreed to take over all the duties and responsibilities imposed on the company by these regulations; (STCW 2010); (= shipping company) brodarsko društvo, brodovlasnik; 3 (seamanship) all the officers and crewmembers with assigned duties on a ship posada broda
Company procedures have been amended instructing masters to keep safe distance from anchorages.

The company secretary is responsible for the efficient administration of a company, particularly with regard to ensuring compliance with statutory and regulatory requirements and for ensuring that decisions of the board of directors are implemented. Despite the name, the role is not clerical or secretarial. (https://en.wikipedia.org/wiki/Company_secretary)

This decision was contrary to his company’s standing instructions that required its vessels to use the east Solent route when arriving or sailing from Southampton.

Damage to the ship was contained to two flooded compartments. Seawater flooded the compartment below the main deck; 2 compartments.

The radar was set up to be sea stabilised, compass bearing, rather than relying on but the log input was reading zero knots.

The compass binnacle is a subdivision of space or room in a ship.
compass-box (n) (navig) kutija kompasa
compass card (n) (navig) A flat disc mounted on the needle of a ship’s magnetic compass so as to swing freely, having the 32 points of the compass or the 360 degrees of a circle printed around the perimeter (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) ruža kompasa, Italian: rosa dei venti
compass correction (n) (navig) kompenzacija kompasa
compass course (n) (navig) kurs kompasni, kompasni kurs
compass error (n) (navig) The total of all factors which might cause a particular compass to show inaccurate readings. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) grješka kompasa, greška kompasa determine the ~ utvrditi grješku kompasa
compass heading (n) (navig) kompasni kurs, Italian: Iprora bussola
compass north (n) (navig) kompasni sjever
compass points (n) (navig) strane svijeta oko broda, položaji oko broda

http://navsbooks.blogspot.hr/2012/04/compass-points-225-degree-abaft-beam.html
**compass repeater** *(n)* **(navig)** kompasni ponavljač
http://www.tnlcom.gr/el/repeaters/raytheon_anschutz__bearing_rptr_compass.html

**compass rose** *(n)* **(navig)** the circular design on the compass card illustrating the 32 points of sailing or the 360 degree gradations of a circle ruža kompasa
http://slideplayer.com/slide/5862743/

**compass stabiliser** kompasni stabilizator, stabilizator kompasa
**compatibility** *(cargo)* združivost, kompatibilnost
**compatible** /kəmˈpætəbl/ *(adj)* *(cargo)* kompatibilan, teret koji se može slagati uz drugi

**compensate for** *(n)* *(mar ins)* nadoknaditi: if carriers are held liable, carriers would have to compensate cargo interests for their damages ~ loss nadoknaditi gubitak

**compensation** /ˌkɒmpənˈseɪʃən/ *(n)* 1 *(navig)* kompenzacija kompasa; 2 *(mar ins)* osigurnina

**compensation weights** *(n)* **(navig)** kompenzacijske kugle (kompasa)

**competence** /ˈkɒmpətns/ *(n)* *(hum_resources)* SEE competency a skill needed to do a particular job; legal and practical proof of this skill osposobljenost, sposobnost: The inspectors may also randomly check the competence of the seafarers by asking questions related to their capacity and their experience.

**competency** *(n)* 1 *(hum_resources)* a skill needed to do a particular job; legal and practical proof of this skill sposobnost: The officer of the watch was very inexperienced and he had not yet developed sufficient competency to keep a bridge watch in the Dover Strait at night by himself.; 2 osposobljenost cetrificate of ~ (CoC) *(mar law, hum_resources)* svjedodžba o osposobljenosti, ovlaštenje

**competent authority** *(n)* *(mar law)* any national regulatory body or authority designated or otherwise recognised as such for any purpose in connection with IMO code nadležne vlasti, nadležni organ vlasti, nadležno ministarstvo
**complacent** (adj) a feeling of satisfaction, esp. extreme self-satisfaction; pretjerana ležernost i samouvjerenost kao rezultat dugogodišnje prakse i iskustva odnosno rutiniranosti samozadovoljnost, samodovoljnost, samodopadnost, smanjen oprez zbog ustaljenih navika: This whole incident reflects complacency on the part of the officers in addition to a blatant disregard for the rules designed to prevent collisions occurring at sea. Complacency is a major cause of maritime casualties.

**complain** (v) žaliti se, uputiti reklamaciju
**complaint** (n) žalba, pritužba; 2 reklamacija to make ~ uložiti žalbu / reklamaciju

**complement** (n) A ship's company. The entire crew of a ship when it is fully manned.

**compile** (v) an abstract sastaviti apstrakt (izvadak, sažetak), ~ a summary sheet of information ispuniti obrazac i glavnim informacijama 1 (mar law, shipping econ) sastaviti, napisati, popisati; 2 prikupiti (podatke)

**compliance** (n) a feeling of satisfaction, esp. extreme self-satisfaction; pretjerana ležernost i samouvjerenost kao rezultat dugogodišnje prakse i iskustva odnosno rutiniranosti samozadovoljnost, samodovoljnost, samodopadnost, smanjen oprez zbog ustaljenih navika: This whole incident reflects complacency on the part of the officers in addition to a blatant disregard for the rules designed to prevent collisions occurring at sea. Complacency is a major cause of maritime casualties.

**complete** (v) 1 (mar law, safety) ispuniti (obrazac); 2 dovršiti, završiti

**compliant** (adj) potpun, dovršen

**compliance** (n) ispunjavanje, ispunjenje, pridržavanje, poštivanje (konvencije, zakona, ugovora): Singapore, the world's busiest port by shipping tonnage, has reported a high level of compliance with IMO 2020 regulation with just two vessels detained for using non-compliant fuel in the first quarter of the year. https://www.seatrade-maritime.com/ in ~ with u skladu s, sukladno

**comply with** (v) ispunjavati (zahtjeve), biti u skladu s, poštivati (propise, zahtjeve): Ensure the vessel complies with the fire and safety regulations https://gcaptain.com Starting in January, vessels the world over will have to drastically reduce sulfur content in their fuel to comply with rules set out by the International Maritime Organization in London. to ~ with the regulations ispunjavati / poštivati propise, ~ rule 19 of COLREGS
pridržavati se pravila broj 19 Pravila o izbjegavanju sudara, failure to ~ the regulations neispunjavanje propisa, nepridržavanje propisa, ~ the STCW requirements pridržavati se Konvencije IMO-a o standardima za obrazovanje, izdavanje ovlaštenja i držanje straže pomoraca

component /ˈkəmˈpəʊənt/ (n) (nav arch, marine eng) sastavnica, sastavni dio, komponenta, konstrukcijski element additional ~ dodatni dio, dodatna komponenta, running ~ pokretni dio, stationary ~ nepomični dio, fiksan dio

composite rigging (=synthetic rigging) (n) (boating/yachting) sintetička oputa: Composite (or synthetic) rigging is one of the biggest and most cost-effective performance improvements that you can make. info.Upffront.com

composite ship (=composite steamer) (n) (nav arch) U prijelaznom periodu korištenja željeza umjesto drva kao materijala za konstrukciju broda, kompozitni brodovi su bili prirodan slijed. U ovom tipu konstrukcije je kompletno orebrenje, to jest kobilica, pasma, rebrenice, proveze, bočna rebra i sponje, napravljeno od željeza i samo su drvene platice dna, stropa, boka i palube od drveta. (https://www.fsb.unizg.hr/kziha/shipconstruction/main/trgovbrod/4tipovibrodova.pdf); a ship with a wooden casing and iron frame (https://www.thefreedictionary.com/Composite+ship) kompozitni brod (od kombinacije željeza i drva), drvo/željezni parobrod: For a few years, composite ships were built with iron frames and wooden skins, but difficulties with corrosion between the wood and metal soon led to hulls built completely of metal, both sailing ships and steamers. https://njscuba.net/artifacts/obj_hull_steel.php

composition 1 sastav (pismeni), sastavak; 2 (chem) sastav chemical ~ kemijski sastav

compound /ˈkɒmpənd/ 1 složenica; 2 (safety) izdvojena jedinica, agencija, formacija IMO ~ agencija IMO-a, izdvojena jedinica IMO-a

compress stlačiti, sabiti, komprimirati, sabijati

compressed air cylinder (n) (marine eng) boca s komprimiranim zrakom

compressed air system (n) (marine eng) sustav komprimiranoga zraka

compression (n) ~ ring kompresijski prsten, maintain ~ održavati kruti spoj, čvrsto povezati, ~ stroke tlačni takt (motora), kompresijski takt (motora), ~ ratio omjer kompresije (marine eng) tlačenje, kompresija, pritisak

compression ignition engine (n) (marine eng) motor u kojem do paljenja dolazi uslijed tlačenja, motor na paljenje kompresijom

compression ratio (=compression rate) (n) (marine eng) The ratio between the total volume in the cylinder when the piston is at BDC and the volume remaining when the piston is at TDC. (http://www.marinedieseleurope.com/) omjer kompresije

compression stroke (n) (marine eng) kompresijski takt, stapaj kompresije

compressor 1 (marine eng) a mechanical device which increases air pressure kompresor air ~ kompresor zraka, zračni kompresor, centrifugal ~ centrifugalno puhalo, steam driven air ~ kompresor zraka na parni pogon, turbine-driven air ~ zračni kompresor na turbinski pogon; 2 (seamanship) štoper sidrenog
compress the chest (safety) pritiskanje grudnog koša (umjetnog disanja)
compress /kəmˈprɛɪz/ (v) sastojati se, uključiti, obuhvatiti
comprise /kəmˈpɜːsrə/ (adj) 1 obvezan, obligatan: Pilotage shall be compulsory within the area described in paragraph 2 below for all vessels be ~ biti obvezan, morati, vessel subject to compulsory pilotage brod koji obvezno mora imati / uzeti peljara;
2 prinudan, prisilan
computation računanje, izračun, obračun (vozarine)
con /kɔn/ (=conn) (n) 1 (navig) The position of responsibility and authority for the operation and steering of a ship (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary); Condukt of the navigation of a ship (MAIB reports); station, usually on the bridge, from which a ship is controlled (navy)
kormilarenje, zapovijedanje brodom / brodicom / čamacem zaspavanje, komanda (nad brodom, brodicom): the vessel continued her passage through the west Solent with the master conning from his forward console chair at the starboard radar. by 2112 the vessel was clear of the berth and the pilot began conning the vessel toward the harbour entrance do 12:12 sata brod se udaljio od veza i peljar je preuzeo vođenje broda prema izlasku iz luke In any event, the officer having the con must be clearly indicated in the ship’s deck log at all times. <source>american_practical_navigator</source><sentence>take over the ~ preuzeti zapovijedanje nad brodom, preuzeti kormilarenje brodom, preuzeti komandu nad brodom: the master took over the ~ 0 Who has the con? The assistant pilot took over the con for the passage to the container terminal. The pilot took over the con for the passage to the container terminal.<source>hand over the ~ predati kormilarenje broda, predati zapovijedanje brodom: The Master handed over the con to the 3/O, have a ~ upravljeti brodom, kormilari: On the bridge were the master, who was on the port wing and had the con, the OOW and a quartermaster. Who has the con? Tko upravlja / kormilari brodom? The Master, who had been surveying the pilot transfer from the wheelhouse, now had the con, with a helmsman on the wheel. The Master now had the con, with a helmsman on the wheel. The master had the con and he had instructed the second officer to compile the required information for the mandatory CALDOVREP report www.gov.uk/maib, take the ~ preuzeti kormilarenje, preuzeti kormilo, preuzeti upravljanje brodom: ... eventually, the mate took the con and set a course clear of the coast and back towards the vessel’s intended track., be at the ~ zapovijedati (brodicom, brodom), kormilari: I was inbound to a port with the local pilot at the con.; 2 the place where a person who cons a vessel is stationed mjesto upravljanja brodom /brodicom
con /kɔn/ (v) 1 (navig) to direct the steering of (a vessel); to direct the helmsman davati naredbe kormilaru, kormilari ~ the ship / vessel davati naredbe za kormilarenje: The Master/Pilot exchange took place between the Master and the pilot who was to con the vessel.; 2 upravljeti brodom / brodicom
con (n) (navig) the conduct of navigation of the vessel provedba plovidbe broda
con (n) (navig) zapovijedno mjesto
concealed damage (n) (cargo handling, mar law) damage that is not evident from viewing the unopened package skriveno oštećenje (tereta)
concealed loss or damage /ˈkənˌsɪld/ (n) (shipping econ, mar law) When damage is discovered after the delivery receipt is signed and the cartons are opened, it is termed concealed damage. skriveni gubitak ili oštećenje, nevidljivi gubitak ili šteta: When concealed loss or damage occurs, the carrier should be immediately contacted at the delivering terminal, to request an inspection.

concern /kənˈsɜːrn/ (n) (navig) zabrinutost, sumnja, briga: In May 2004, the Chemical Distribution Institute (CDI) carried out an inspection of the vessel during which four areas of concern with respect to bridge operations were highlighted. The navigator’s primary concern is the safe navigation of his/her vessel to its destination. raise ~ pobuditi zabrinutost, izazvati zabrinutost: the recent collisions in the Singapore Strait have raised concern among the city-state’s shipping community. They also did not raise any concerns about the ‘starboard to starboard’ passing. www.safety4sea.com

concerned /kənˈsɜːnd/ 1 koji se tiče all the ~ svi zainteresirani, sve zainteresirane strane; 2 zabrinut

concession /kənˈseʃən/ 1 dopuštanje to make a ~ to dopustiti; 2 (shipping econ) koncesija

concession approval (n) (mar law, ports) koncesijsko odobrenje

concessionary deed (n) (mar law, ports) koncesijsko odobrenje

conclusion stage (n) (safety) A period during a search and rescue (SAR) incident when SAR facilities return to their regular location and prepare for another mission. (https://ccga-pacific.org/training/manuals/AMSAR/CamSar-2014-english-signed.pdf) zaključna faza potrage i spašavanja

condensate /ˈkɑndənsət/ (n) kondenzat de-aerated ~ odzračeni kondenzat, otplinjen kondenzat

condensate (v) kondenzirati (se), pretvoriti paru u vodu

condensate extraction pump (n) (marine eng) sisaljka kondenzata, kondenzatna pumpa

condensation reduction of a vapor or gas into a liquid state kondenzacija

condense /ˈkɑndəns/ ~ out kondenzirati, pretvoriti u tekućinu, ukapljivati kondenzirati

condenser (=capacitor) 1 a device used to store an electric charge kondenzator: The Chief Engineer was called to the engine room as the deck steam condenser had overheated and was releasing a lot of steam. steam ~ kondenzator pare

**condition**

- 1. stanje; 2. uvjet to fulfill the ~ ispuniti uvjet

**conditioned air** kondicionirani zrak

**conditioning** (n) 1. (marine eng) priprema (kotlovne vode); 2. (marine eng) kondicioniranje (zraka) air-~ klimatizacija

**condition precedent** (n) (mar law) osnovni / bitni uvjet ugovora o prijevozu

**conditions of stability** (n) (stabil) stanja stabilnosti broda stable condition brod u stabilnoj ravnoteži, stabilno stanje, neutral condition indiferentna ravnoteža, neutralno stanje, unstable condition labilna ravnoteža, stanje nestabilnosti, nestabilno stanje

**conduct** /konˈdʌkt/ (v) 1. odvoditi ~ away odvoditi; 2. voditi, provoditi to ~ an operation voditi (operaciju), provoditi (operaciju); 3. dovoditi; 4. ponašati

Se: Seafarers shall conduct themselves in an orderly, faithful, honest and sober manner, and shall at all times be diligent in their respective duties and obedient to the lawful commands of the Master ~ oneself

**conda** /ˈkondekt/ 1. i izvršenje; 2. ponašanje code of ~ pravila ponašanja

**conductivity** /kondəkˈtivitɪ/ (n) (electr, marine eng) vodljivost, provodljivost
**conductor** /ˈkənˈdʌktə/ (n) (electr) provodnik, vodić električne struje

**cone** /ˈkəʊn/ apex of a ~ vršak stošca stožac, konus

**conference** (n) (mar law, shipping econ) an association of ship owners operating in the same trade route who operate under collective conditions and agree on tariff rates; Two or more shipping lines operating a service in common between designated geographical areas. The lines agree a set of freight rates and any special rates for shippers and each line charges the same as the others. http://www.tkmglobal.net/chartering_C.HTM brodarska konferencija, konferenca: Competition in liner service is regulated generally by agreements, known as conferences, among the shipowners. steamship ~ brodarska konferencija, member of the ~ brodarska društvo - članica (brodarske) konferencije, ~ rate konferencijski vozarinski stav, liner ~ linijska konferencija

**confined spaces** /ˈkənˈfaind/ (n) (safety, nav arch) Confined spaces are tanks, cofferdams, void spaces, CO2 chambers and cold storage chambers zatvoreni prostore, skučeni prostore, suženi prostore enter ~ ući u zatvorene prostore, ~ entry ulaz u zatvorene prostore

**confined waters** /ˈkənˈfaind/ (n) (navig) zatvorene vode, skučene vode

**confirm** (n) 1 (shipping econ) potvrditi: We hereby confirm receipt of this letter Ovime potvrđujemo primitak Vašeg dopisa; 2 utvrditi

**confirmation** 1 a potvrda; 2 dokaz

**confirming bank** (n) (mar law, shipping econ) potvrđujuća banka

**confiscate** /ˈkonfɪˌsket/ (v) (mar law) konfiscirati, oduzeti, zaplijeniti ~ the ship konfiscirati brod

**conflict of laws** (n) (mar law) sukob prava, sukob pravnih sustava

**conform** /ˈkənˈfɔːm/ (v) odgovarati, biti u skladu s to ~ with the rules biti u skladu s pravilima, odgovarati pravilima

**confused sea** /ˈkənˈfjuːzd/ (n) (oceanogr) = cross sea waves progressing in several directions
at once križano more, nemirno more
http://sunshinecoast.peterhyndman.com/2011/12/confused.html

confused swell (n) (oceanogr) križano mrtvo more
CONGENBILL Bill of Lading intended to be used with Gencon charter parties One of the clauses in this Bill of Lading states that it incorporates all the terms of the Charter-Party.

http://www.tkmglobal.net/chartering_C.HTM teretnica za uporabu uz brodarski ugovor (čarter partiju)
conger /ˈkɔŋgə/ (=European conger) (n) (fishing) ugor, grongo, školjar, gruj, škanjaš European ~ murina, ~ eel murina

congested /ˈkɒŋgestid/ zakrčen, začepljen, s gustim prometom ~ TSS zona odvojene plovidbe s gustim prometom
congested port (n) (shipping econ) zakrčena luka
congestion (n) 1 (shipping econ) accumulation of vessels at a port to the extent that vessels arriving to load or discharge are obliged to wait for a vacant berth zakrčenost (luke, prometa), kongestija: The greatest amount of delay in a trip often occurs at a terminal, usually because of congestion or inadequate capacity. He congestion to enter the Canal has been getting progressively worse since late September when a high number of arrivals coincided with scheduled dry-chamber maintenance of the locks. The country's major container ports are facing severe congestion as import containers are stacking up. https://splash247.com/; 2 (logist, mar law) Due to all sorts of port-related problems, it is possible that the processing of incoming and outgoing vessels is delayed. This is referred to as congestion. In some ports, this delay is of such a structural nature, that the mooring time of vessels in these ports brings on additional costs. To compensation for those costs, an additional surcharge is levied on the sea freight. naknada zbog zakrčenosti luke (odredišta) ~ surcharge Extra charge applied by shipping lines, or set by liner conferences on behalf of their members, to reflect the cost of delay to their ships at a particular port caused by congestion.

http://www.tkmglobal.net/chartering_C.HTM nadoknada za zadržavanje broda zbog zakrčenosti luke: To compensation for the costs of congestion, an additional surcharge is levied on the sea freight.
conical buoy (n) (navig) stožasta plutača
CONLINEBILL (n) (mar law) Liner Bill of Lading published by the BIMCO teretnica za linijski prijevoz
connect /kəˈnekt/ 1 spojiti; 2 priključiti
connecting rod (n) (marine eng) a rod joining the piston with the crankshaft. ojnica, klipnjača, Italian: biella fixed centre ~ ojnica s fiksnim središtem, ~ with Marine large (big) end ojnica s brodskom izvedbom donje glave, ~ shank

tijelo ojnice, ~foot peta ojnice
http://www.tsb.gc.ca/eng/rapports-reports/marine/2000/m00l0034/m00l0034.asp
connecting rod alignment centriranje ojnice, centriranost ojnice
connecting rod large end bearing (=connecting rod lower end bearing) (n) (marine eng) leteči ležaj, ležaj donje glave ojnice
connecting rod upper end bearing (=connecting rod small end bearing) (n) (marine eng) gornji ležaj ojnice
connection (n) (electr, marine eng) spoj, veza recirculation ~ priključak optoka / optjecanja (u zatvorenom krugu)
connectivity at sea (n) (hum_resources) dostupnost interneta pomorcima: The latest Seafarers Happiness Index report ... has revealed that seafarer happiness continues to fluctuate – with improvements in connectivity at sea, but also continuing concerns regarding workload among the issues raised by seafarers. https://www.marineinsight.com/
connector (n) (electr) spojka snap-in ~ STORZ-spojka
connexion (n) (navig) spoj, veza
conning officer (n) (navig) časnik koji upravlja brodom, časnik koji kormilari brodom, časnika koji upravlja brodicom za spašavanje
conning position (n) (navig) upravljačka pozicija na zapovjedničkom mostu, mjesto upravljanja brodom ili brodicom, mjesto kormilarenja brodom ili brodicom: The 2/O amended the passage plan on the ECDIS at the starboard bridge conning position
ConRo (=Container Roll-on/Roll-off ship) (n) (nav arch) kombinirani kontejnerski i ro-ro brod: Matson, Inc has placed an order for two new combination container and roll-on/roll-off vessels to add to its Hawaii fleet. The two ConRos will be built on a 3,500 TEU platform, with enclosed garage space for up to 800 vehicles.
consecutive /kənˈsɛkjətɪv/ (adj) neprekidan, kontinuiran, konsekutivan, uzastopan
consecutive voyage charter¹ (n) (mar law) ugovor o najmu broda za nekoliko uzastopnih putovanja
consecutive voyage charter² (n) (mar law) brodarski ugovor za više uzastopnih putovanja
consecutive voyages (n) (shipping econ, mar law) ugovor u kojemu se brodar može obvezati da će obaviti više unaprijed određenih putovanja; Successive voyages of a ship on charter to one party. The Charter-Party may stipulate the number of voyages or the total quantity of cargo to be carried or the total period during which the shipowner performs the maximum number of voyages.
http://www.tkmglobal.net/chartering_C.HTM uzastopna putovanja
consent (n, v) 1 a pristati; 2 suglasiti se
consent pristanak, suglasnost
conservancy (n) (navig, mar law) a fee levied to retain upkeep of the approaches to waterways and canals. naknada za održavanje plovidbenih putova
conservation point for ~ predmet za razmatranje zaštita (od korozije) zaštita broda (od korozije itd.); (mar law) očuvanje živih bogatstava (u međunar. pravu mora)
consideration /ˌkənˈsɪdərəʃən/ (n) take into ~ uzeti u obzir, with due ~ given to s posebnim obzirom na obzir, razmatranje
consideration /ˌkənˈsɪdərəʃən/ (mar law) payment for a service; recompense; fee naknada, novčana naknada, kompenzacija: In consideration of this service, to be duly performed, the Master agrees to pay the undersigned seafarers the wages expressed herein and/or set forth in
supplemental provisions and/or agreements. Kao naknadu taj posao, koji se valja uredno obaviti, zapovjednik se obvezuje platiti nizapotpisanim pomorcima zarade navedene u ovom ugovoru i/ili propisane odredbama u dodatku i/ili drugim ugovorima. in ~ of kao naknada za, u zamjenu za

**consign** /ˈkɑːnsɪn/ (v) dostaviti (pošiljku), poslati, otpremiti

**consignee** /ˌkɔnˈsaɪniː / (law) = receiver The party to whom delivery of the goods is to be made under a contract for the carriage of goods by water.

http://www.mindsnake.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; the person entitled to take delivery of the goods. (Hamburg Rules 1978): The person to whom cargo is consigned as stated on the bills of lading (www.euronav.com) primatelj, primatelj tereta

**consignee mark** (law, shipping econ) a symbol placed on packages for identification purposes; generally a triangle, square, circle, etc. with letters and/or numbers and port of discharge

**consistent** ~ of sastoji se od / iz sastojati se

**console** /ˈkɑːnsəʊl/ 1 konzola, nosač; 2 pult, upravljački pult, konzola control ~ upravljački pult, navigation ~ navigacijski pult: The master positioned himself on the starboard side of the navigation console.

**consolidate** (v) (shipping econ) to group and stuff several shipments together in one container

grupirati teret (za slaganje u kontejner)
Consolidated Freight Station; (CFS) (n) (shipping econ) = Container Freight Station zbirno skladište kontejnerske robe, konsolidacijsko skladište, zbirna postaja / stanica / centar (za kontejneriziranu robu), centar za punjenje i pražnjenje kontejnera consolidated pack ice /κονσόλι deit/ (n) (oceanogr) područje konsolidiranog leda

consolidation (n) (shipping econ, cargo handling) = groupage cargo containing shipments of two or more shippers or suppliers, usually involving goods for stowing into containers; The grouping together of several compatible consignments into a full container load. Also referred to as groupage http://www.tkmglobal.net/chartering_C.HTM; Consolidation occurs when the shipping company or carrier of the containers also accepts to transport consignments of goods that are smaller than the capacity of a container in terms of volume. The carrier will cluster various smaller consignments (LCL) until he can fill one container. https://www.logisticsglossary.com/term/consolidation/; The act of collecting the LCL cargo from the various shippers and packing into a container is known as Consolidation (https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/)

razvrstavanje tereta po primateljima, konsolidacija tereta, skupljanje tereta (radi prijevoza u kontejnerima)

consolidation shed (n) (shipping econ) COMPARE container depot zbirno skladište (za kontejnerski teret)

consolidator (=Groupage Consolidator) (n) (cargo handling) COMPARE Consolidated Freight Station; (CFS) The person or firm that consolidates (combines) cargo from a number of shippers into a container that will deliver the goods to several buyers; ...the LCL cargo is delivered by the client to a warehouse for packing into a container.. The act of collecting the LCL cargo from the various shippers and packing into a container is known as Consolidation. The entity that handles such operations are known as Consolidators (Groupage Operators) (https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/) operator konsolidacijskog skladišta, operator konsolidacijskog centra, operator kontejnerskog zbirnog skladišta: In the case of consolidation cargo, the consolidators issue their House Bills of Lading to the shippers and secure a Master Bill of Lading from the shipping line for the container which is booked with the line as an FCL and which will show them as a shipper on the lines bill of lading.. https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/ In the case of consolidation cargo, the consolidators issue their House Bills of Lading to the shippers and secure a Master Bill of Lading from the shipping line for the container which is booked with the line as an FCL and which will show them as a shipper on the lines bill of lading https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/
consort /ˈkonsoːt/ (n) (US, navig) tegljeni brod (na Velikim Jezerima), bropd u teglju

conspicuous /ˈspiːkʃuːs/ (adv) uočljiv, raspoznatljiv, koji se ističe, upadljiv ~ point uočljiva točka, ~ radar features obilježja uočljiva na radaru: The crucial factor in radar navigation is to correctly identify radar conspicuous features that are recognisable on the chart as well as on the radar screen. Towers, monuments, buildings and other prominent features that are favourites with compass navigation will not be visible on radar. However, objects such as headlands, islands, buoys and beacons will, with the added advantage that they will be equally useable by day or night.

constant pressure (n) (marine eng) stalan tlak, konstantan pritisak

constrained by draught /ˈkənstreind/ (seamanship) (brod) ograničene sposobnosti manevriranja zbog svog gaza: The vessel was on harbour manoeuvring mode under bridge control, displaying the appropriate signals to indicate her 'constrained by draught’ status. The vessel was constrained by her draft and displayed the required signals in the deep water route. The vessel was constrained by its draught and had the correct lights displayed.

constraint /ˈkənstreint/ (n) (mar law) ograničenje operational ~s ograničenja za rad

construction 1 konstrukcija, struktura: ~: steel; 2 gradnja, izgradnja; 3 izvedba

constructive total loss (n) (mar law, mar ins) izvedeni potpuni gubitak roda, izvedena totalna šteta: The giant ship has just been declared a total constructive loss and will trigger a sizeable insurance claim. https://splash247.com/

construe /ˈkənstrjuː/ tumačiti to ~ the rules tumačiti pravila

consular /ˈkɒnsələ/ (n) (mar law) an official appointed by a sovereign state to protect its commercial interests and aid its citizens in a foreign city konzul

consular (adj) konzularni

consular fees (n) (mar law) konzularne pristojbe

consular invoice (n) (mar law, shipping econ) an invoice covering shipment of goods certified by a consular official of the destination country, and used normally by customs or officials concerned with foreign exchange availability to ascertain the correctness of commercial invoice values konzularna faktura, račun potvrđen od strane konzula

consulate (n) konzulat

consume /ˈkɒnsjuːm/ (v) trošiti

consumer /ˈkɒnsjuːma/ (n) (shipping econ) potrošač, klijent

consumers (n) (electr) električni potrošači

consumption /ˈkɒnsəmpʃən/ (n) potrošnja, potrošak in port ~ potrošnja (goriva) u luci, ~ of fuel potrošnja goriva

contact1 (v) 1 (comm) obratiti se, stupiti u vezu s, kontaktirati: At 2045 on 21 August 2016, the vessel’s officer of the watch (OOW) made radio contact with Southampton Vessel Traffic Services MAIB Report 23/2017 When the ship was in the eastbound lane of the Strait of Gibraltar fic separation scheme (TSS), the watchkeeping officer contacted the Port Pilot Station using very high frequency (VHF) radio, channel 13. MAIB accident reports establish ~ with uspostaviti vezu / kontakt s: The tanker established contact with the bulkcarrier over the VHF radio, and the two
vessels mutually agreed on a suitable course of action. 1, make ~ with stupiti u vezu / kontakt s: We later also made contact with a chemical tanker, who was also anchored nearby. 2 (safety, nav arch, navi) udariti (u obalu, lučki objekt), dodirnuti: At 1254 on 22 June 2013, the ferry Sirena Seaways made heavy contact with berth 3 at Harwich International Port. The vessel made contact with a jetty and accidentally ruptured its hull, causing the release of about 200 tons of heavy fuel oil from the fuel tank. As the pilot manoeuvred the vessel around Tilbury Ness, he lost control of the vessel and she contacted the quay at Northfleet Terminal. Dok je peljar vodio brod oko Tylurnessa, izgubio je kontrolu nad brodom pa je prod udario u obalu terminala Northfleet. make ~ with the quay udariti u obalu, dodirnuti obalu: Shortly thereafter the pilot ordered full astern, but the vessel’s starboard bow made contact with the quay. The containership made a heavy contact with the quay and a shore crane.

ccontact (n) 1 (navig, safety, nav arch) dodir, kontakt: the tanker could not avoid a glancing contact on her starboard quarter with the crossing vessel make ~ with dodirnuti, udariti u: the cargo vessel’s port quarter made heavy contact with the lock gate, heavy ~ jak dodir, jak kontakt: However, this was too late to prevent the vessel making heavy contact with the quay. This seemed to work and the Master also deployed a bow thruster to stop the starboard turn, but it was too late;

the vessel made several heavy contacts with the breakwater, come into ~ with doći u dodir s (drugim brodom), dodirnuti (drugi brod): The drifting vessel came into contact with the portside of the bulk carrier causing damage to both vessels. (https://safety4sea.com/); 2 (electr, marine eng) spoj, kontakt ~ brushes (elecr) četkica/e, ~welding točkasto zavarivanje, touch ~ welding točkasto zavarivanje, close ~ tijesan dodir a stvoriti električni spoj; 3 (safety) udar (broda u obalu, morsko dno itd.), dodir (broda s obalom, morskim dnom itd.) bottom ~ udar broda o dno, dodir broda s dnom contactor (n) (electr) teleprekidač contagious disease /kənˈteɪs/ (adj) zarazna bolest contain /kənˈteɪn/ (v) a sadržavati, sadržati: If oil contained on deck take action to clear up.; 2 uklujiči(va)ti; 3 obuhvaćati; 4 (safety) obuzdati (vatru), sputati, blokirati, suzbiti ~ fire obuzdati požar, suzbiti požar, ograničiti požar: The ship’s fire suppression system was immediately activated, which contained and extinguished the fire. The container fire that broke out was largely contained and brought under control after one week through the launching of immediate fire-fighting efforts Shipping and Freight Resource obuzdati izvanredno / opasno stanje: ... despite the breakdown of the structural barriers, the ship’s officers and crew managed to contain the emergency situation without any personal injury or pollution to the environment.

container (n) 1 (cargo) SYNONYM freight container SYNONYM shipping container A box made of aluminum, steel or fiberglass used to transport cargo by ship, rail, truck or barge. Common dimensions are 20’ x 8’ x 8’ (called a TEU or twenty-foot equivalent unit) or 40’ x 8’ x 8’, called an FEU. Variations are collapsible containers, tank containers (for liquids) and rag tops (open-topped containers covered by a tarpaulin for cargo that sticks above the top of a closed box). In the container industry, containers are usually simply called boxes.

contract of employment govor o zaposlenju (npr. pomorca) enter a ~ with

1 sklopliti ugovor s, zaključiti ugovor s; 2: the Owners have entered into an individual contract of employment with the Employee

contract of marine insurance (n) (mar ins, mar law) ugovor o pomorskome osiguranju

contract of sale (n) (shipping econ, mar law) kupoprodajni ugovor

contract of towage (n) (mar law) ugovor o tegljenju

contractor (n) 1 (mar ins) ugovaratelj, spašavani brod; 2 (shipping econ, mar law) a person or firm that contracts to supply materials or labour, esp for building izvođač radova,
dobavljač: Contractors have now started working around the clock in constructing an environmental barrier around the wreck and also preparing the wreck for the cutting - gCaptain https://gCaptain.com; 3 (seamanship) serviseri na brodu, servisne tvrtke (uposlene na brodu za vrijeme boravka u luci): Be sure to know where contractors and ship staff are working on the vessel

contractual carrier (n) (mar law, shipping econ) ugovorni prijevoznik
This showed a lack of precautionary thought and contravened Article 98 of the United Nations Convention on the Law of the Sea, which requires the master to render assistance...

contributing cargo (n) (mar law, shipping econ) Article 98 of the United Nations Convention on the Law of the Sea, which requires the master to render assistance...

contributing factor (n) (safety, mar ins) a condition that may have contributed to an accidental event or worsened its consequence (e.g. man/machine interaction, inadequate illumination)

contribution (n) make a ~ pridonijeti, doprinijeti: the cargo vessels’ stern ramp and aft fairlead arrangements were certainly contributory to these accidents Krmena rampa teretnjaka i raspored zjeva svakako su doprinijeli nezgodi

contributory amount (n) (mar law) = contributory value

control box (n) (marine eng, electr) upravljačka kutija

control head (n) (marine eng) upravljačka glava (ventila): The control head of the valve has a slot that lines up with either the ‘set’ or the ‘released’ position...

contravene /ˌkɔnˈtrævəni/ (v) (mar law) prekršiti: This showed a lack of precautionary thought and contravened Article 98 of the United Nations Convention on the Law of the Sea, which requires the master to render assistance...

contrivance /ˌkɒnˈtrɛvəns/ (n) naprava, aparat, sprava

control /ˈkɒntrəʊl/ 1 (marine eng, nav arch) nadzor, kontrola: to bring under ~ stavit pod kontrolu, obuzdati; 2 (marine eng) regulator

control head (n) (marine eng) upravljačka glava (ventila): The control head of the valve has a slot that lines up with either the ‘set’ or the ‘released’ position...

control and monitoring system (n) (marine eng) sustav upravljanja i nadzora: The engine room is arranged with a control and monitoring system, that meets LR class requirements for a periodically unmanned engine room.

control box (n) (marine eng, electr) upravljačka kutija

control head (n) (marine eng) upravljačka glava (ventila): The control head of the valve has a slot that lines up with either the ‘set’ or the ‘released’ position...

controllable forces (n) (marine eng) upravljive sile

controllable pitch propeller /ˈkɔntrəʊləbrəl/ (=CPP) (n) (nav arch, boating/yachting) = c.p.p. ANTONYM fixed propeller A
controllable-pitch propeller also has the ability to change the pitch of the prop blades, by rotating each blade at the root, but these props are generally used on superyachts, not your normal cruising boat. (https://www.cruisingworld.com/spin-class-finding-right-prop) prekretni propeler, propeler s promjenjivim korakom (kutom) krila: These tugboats have 2,800mm controllable-pitch propellers in combination with special render recovery winches.

control lever (n) (marine eng, nav arch) upravljačka poluga, upravljačka ručka, upravljačka ručica

control of the engine room (n) wing control upravljački uređaj na krilu mosta, bridge control mosni upravljački uređaj za strojeve (navig, marine eng) upravljački uređaj za brodske strojeve: At 0945, control of the main engine was transferred to the port bridge wing.

control over the vessel (=control of/over the ship) (n) (navig, ship handling, safety) upravljanje brodom, moć upravljanja brodom, nadzor nad brodom: The second vessel called once again on the VHF and reported that they had no control over their vessel. (https://safety4sea.com/)

control panel (n) (marine eng) upravljačka ploča, kontrolna ploča local ~ kontrolna ploča u upravljačkoj kabini strojarnice, remote ~ kontrolna
Conventional Buoy Mooring

The Conventional Buoy Mooring (CBM) system includes multiple buoys that are fixed to the seabed by means of mooring lines and marine anchors. The three to six buoys are permanently installed in a rectangular pattern that allows safe mooring of a vessel which is positioned between the buoys with tug assistance.

control rack (=rack) (n) (marine eng) A mechanism for changing linear governor motion to rotary motion at the fuel-injection plunger.

control system upravljački sustav

close the main engine (v) (marine eng, navig) upravljati glavnim strojem: The main engine was controlled from the bridge via an electronic load management system.

control the ship (v) (safety, navig) kontrolirati kretanje broda, kontrolirati brod, upravljati (onesposobljenim) brodom: Tugs attempt to control the drifting tanker, but the attempt fails and the vessel runs aground.

convention (mar law) konvencija

Conventional Buoy Mooring (=CBM) (n) (ship handling, navig) = multiple-buoy mooring

The Conventional Buoy Mooring (CBM) system includes multiple buoys that are fixed to the seabed by means of mooring lines and marine anchors. The three to six buoys are permanently installed in a rectangular pattern that allows safe mooring of a vessel which is positioned between the buoys with tug assistance.

Spread mooring systems with
buoys are called *Conventional Buoy Mooring* (CBM) systems and do not require any modifications to the vessel hull structures.  

**conventional cargo** *(cargo)* = break bulk cargo *klasični teret, generalni teret* ~ ship *brot za generalni teret, brod za klasični teret*: Metal drums were being loaded on to a *conventional cargo ship* and, in the process, had to be slung over bales of greasy wool.

**conventional direction of buoyage** *(n)* *(navig)* the general direction taken by the mariner when approaching a harbor, river, estuary, or other waterway from seaward, or proceeding upstream or in the direction of appropriate nautical documents (normally following a clockwise direction around land masses) *(Seasources.net)* *konvencionalni smjer plovidbenih oznaka, uobičajeni smjer plovidbenih oznaka*

**conventional ship** *(n)* *(nav arch)* *klasični brod, konvencionalni brod*

**converging courses** *konvergentni kursovi, kursovi koji se spajaju / približavaju*

**conversion** /kənˈvɜːʃən/ *(n)* 1 a *(nav arch)* preinaka (broda), preinačen / prenamičen brod; 2 konverzija

**convert** /kənˈvɜːt/ *(v)* 1 a pretvoriti, konvertirati; 2 adaptirati

**converter** *(n)* *(marine eng)* konverter

**convey** /kənˈveɪ/ *(v)* 1 a prenositi, prevoziti, transportirati; 2 prenijeti, dovesti

**conveyance** /kənˈveɪəns/ *(n)* means of ~ transportno sredstvo, sredstva

**transporta** *(shipping econ)* transport of goods from one place to another transport, prijevoz, prijenos

**conveyor** /kənˈveɪər/ *(cargo)* transporter (tračni) ~ belt tračni transporter, transportna traka, transporter, ~ system transportni sustav, sustav transportera, ship unloading ~ iskrcajni transporter, ship loading conveyor ukrcajni transporter

**conveyor belt** *(n)* *(cargo handling)* a mechanical device in the form of a continuous belt for transporting cargo, mainly dry bulk cargo transporter, transportna traka: The amount of cargo remaining on the conveyor belt which will be loaded onboard the ship after a cargo stoppage signal
has been given by the ship. The chief officer activated the emergency conveyor belt stop system and called for help.

convict /ˈkɒnvɪkt/ to pronounce (someone) guilty of an offence osuditi, kazniti: The shipping company was convicted of violating the Act to Prevent Pollution from Ships Also convicted at trial were two senior officers who worked aboard the vessel.

convoy /ˈkɒnvɔɪ/ (n) 1 (navig) a group of ships sailing together for mutual guidance or protection

konvoj: The situation became complicated because the ship had just initiated a passage in a convoy through the Suez Canal. The vessel has just initiated a passage in a convoy through the Suez Canal.

join the ~ pridružiti se konvoju: Vessels arrive 0300 hrs till 0400 hrs and can join the Convoy; 2 (inland waterways) plovnii sastav, ričeni konvoj large ~ a pushed convoy composed of the pusher and seven or more barges (https://eur-lex.europa.eu) veliki plovnii sastav

cook (n) (seamanship) brodski kuhar, kogo assistant ~ kuharski pomoćnik, chief ~ glavni kuhar, second ~ drugi kuhar, ship’s ~ brodski kuhar

cool (v) hladiti, rashladiti

coolant (n) (marine eng) rashladno sredstvo, rashladni medij: The coolant used for removing and conveying the heat from a piston may be either fresh water, distilled water or lubricating oil.

cool down (v) (marine eng, cargo handling) oholaditi: Every month, at the turnaround port, it was a routine for the engine crew to isolate, cool down and open the economiser (also known as waste heat or exhaust gas boiler) to clean out the accumulated soot and unburnt carbon particles. The area around cargo hold 4 was to be cooled down later.

cooler (n) charge air ~ međurashladnik 1 (marine eng) rashladnik, hladnjak: The central coolers, the main engine cylinder cooling fresh water cooler, and the main engine lub oil cooler are all plate type, and were manufactured by Alfa Lavals, Sweden. The cooler is required to maintain optimum temperature and viscosity and cools the oil using seawater that passes through tubes or plates depending on the type of cooler.; 2 rashladno sredstvo

cooling /ˈkjuː.lɪŋ/ (n) (marine eng) hlađenje, rashlađivanje bore ~ klađenje kroz zavojne / radijalne kanale

cooling cargo chamber (n) (nav arch) stanica za hlađenje tereta

cooling coils (n) (nav arch) serpentine (rashladnog uređaja)

cooling control (n) (marine eng) regulator hlađenja

cooling down (n) (marine eng) pothlađivanje

cooling fan (n) (cargo handling, marine eng) rashladni ventilator, ventilator

cooling medium (n) (cargo handling, marine eng) rashladno sredstvo

cooling piping (n) (marine eng) cjevovod sustava za hlađenje
cooling pump (n) (marine eng, cargo handling) rashladna pumpa
cooling system (n) (marine eng) rashladni sustav
cooling water (n) (marine eng) rashladna voda ~ system sustav rashladne vode
cool out (v) rashladiti
Co-ordinator of Surface Search (=CSS) (n) (safety, navig) koordinator potrage i spašavanja na mjestu nesreće
copal (n) (seamanship) lak za drvo, verniž
cope with (v) 1 uhvatiti se u koštac, izići na kraj; 2 biti dorastao, svladati poteškoće, ići u korak s
copper /ˈkɒpər/ (=Cu) (n) (chem) bakar
copper paint koper (podvodna boja), koperpajn
copper tube (n) (marine eng) bakrena cijev
copra /ˈkɒpra/ (n) (cargo) the dried, oil-yielding kernel of the coconut kopra, suhe koštice kokosova oraha
Copy. SEE Roger. Razumio., Primio.
copy not negotiable (n) (mar law) prijepis teretnice nije prenosiv, neprenosiva teretnica

coral reef (n) (geogr) koraljni greben
corb (n) (fishing) grb

cord /ˈkɔːrd/ (n) 1 (seamanship) konopac, uže ; 2 žica
cordage /ˈkɔːrdɪdʒ/ (≈mooring ropes) (n) 1 (boating/yachting) all the ropes used aboard ship, esp. all the lines of the rigging oputa; 2 užad, konopi: Our approach was to take the weathered 10- to 12-year-old nylon three-strand line, cordage that for half of its life had been used as part- time dock line, and for the other half, enlisted as full-time (24/7) dock line, tethering a 41-foot sloop to a fixed pier in a very protected cove on the Chesapeake Bay. ( Practical Sailor <practicalsailor@e.practical-sailor.com>
mooring ~ privezni konopi, privezna užad: Marine ropes characteristics: Strand: 3, 6, 8,
12; Diameter: cordage 160 mm; Layer: single or double braid; Material: polyester, PP(polypropylene), polypropylene & polyester mixed, UHMWPE(ultra-high molecular weight polyethylene), nylon; http://www.nauticexpo.com Fountom mooring ropes can be used for all types of vessels including yacht, tug boat and cargo ship. http://www.nauticexpo.com

core /ˈkɔːr/ (n) (seamanship) jezgro konopa

Corinthian (n) (boating/yachting) an amateur sailor jedriličar amater, jedriličar početnik

cork /ˈkɔrk/ (1) (cargo) pluto; (2) (nav arch) izolacijsko pluto
corned beef (n) (cargo) konzervirana govedina, konzervirano meso
corner casting (=corner post) (n) (cargo) fittings located at the corners of containers providing means of supporting, stacking, handling and securing the container; Each corner of a container is fitted with a corner post. This is a steel cube, fitted with an oval opening on the outside. These openings serve to lift the containers or to secure them onboard a vessel, truck, railway wagon, or to connect the container to another container. https://www.logisticsglossary.com/term/corner-post/ kutni okov / odlijevak (na dnu i vrhovima kontejnera): The corner castings are used in conjunction with twist locks to secure containers when traveling on road vehicles or stack and fasten them securely to the deck of ocean-going vessel. https://www.indiamart.com/proddetail/container-corner-iso-1161-11141061091.html

corner fittings (n) (cargo handling) kutni okovi / odlijevci (na dnu i vrhovima kontejnera) top ~ gornji kutni okovi kontejnera, bottom ~ dolnji kutni okovi kontejnera
corner method (n) (navig) metoda potrage i spašavanja u zoni određenoj koordinatama kutova

corner post (n) (cargo) vertical frame components fitted at the corners of the container, integral to the corner fittings and connecting the roof and floor structures kutni stup kontejnera, kutni oslonac: A corner post is a vertical structural member at either side of an 'end frame' of a container joining a top and a bottom corner fitting.
coronavirus (n) (med) koronavirus: Denmark will allow merchant sailors stranded on the high seas since the outbreak of the coronavirus to come ashore and be reunited with their friends and families gCaptain www.gcCaptain.com

Corporate Social Responsibility (=CSR) (n) (mar law) Voluntary self-regulation and integration of social and environmental factors in business decision-making, taking into account the perspectives of individuals and groups material to the success of the business and/or impacted by its activities (http://www.jterc.or.jp/english/kokusai/conferences/pdf/120426_linda-1.pdf)

društveno-odgovorna kompanija: The broad aims of this study are to see if the shipping industry's CSR requirements with regard to seafarers' welfare are met and how maritime security initiatives give seafarers a difficult time https://www.researchgate.net/ ... IADC is a treasure trove of data, it also espouses four sacred tenets of the dredging; namely Corporate Social Responsibility, Sustainability, Emissions Control and Safety. <source>MaritimeReporter-2016-06</source>
True, a few companies had launched corporate social responsibility programs, and there was some feeling—there more needed to be done. In shipping

**društveno-odgovorno brodarstvo**

**corporized port** (n) (mar law, ports) COMPARE landlord port Concerns ports that have almost entirely been privatized, with the exception that ownership remains public and often assumed as a majority shareholder. The port authority essentially behaves as a private enterprise. This management model is unique since it is the only one where ownership and control are separated, which lessens "public good" pressures landlord port authority are facing and "shareholder value" pressures private ports are facing.

**luka s privatnim koncesionerima, privatna luka**

**correspondent** (n) (mar ins) Representatives of the Association who are based in all major and minor ports throughout the world. Correspondents can be maritime lawyers, ship's agents or in some cases surveyors.

**korespondentni P&I osiguravatelj, predstavnik korespondentnog P&I osiguravajućeg društva (u luci)**

**correspondent bank** (n) (shipping econ) A bank that, in its own country, handles the business of a foreign bank.

**korodirati, podlijegati korodiranju**

**korozija, hrđanje** internal boiler ~ unutarnja korozija kotla

**skidanje rđe**

**otpornost na koroziju**

**otporan na koroziju ~ steel čelik otporan na koroziju**

**djelovanje korozije, ~ acids korozivne kiseline korozivan**

**korozivne tvari**

**valoviti lim, rebrasti lim**

**nabor, rebrasti materijal; 2 (nav arch) rebrasto oštećenje limova trupa**

**gusar**

**korveta** a fast, highly manoeuvrable warship, somewhat smaller than a destroyer
Cosine theory /ˈkɔɪsən/ (n) kosinusov poučak

COSPAS-SARSAT (=Cospas-Sarsat) (n) (safety) međunarodni satelitski sustav za potrebe traganja i spašavanja, određivanja pozicije pogibelji; an international satellite system for search and rescue used for the transmission of distress alerts sent by emergency position-indicating radio beacons (EPIRBs), emergency locator transmitters (ELTs) or personal locator beacons (PLBs) via a satellite link. (SAR Manual); International satellite system for search and rescue, Cospas-Sarsat detects distress beacons signals on the 406 megahertz frequency.

https://en.wikipedia.org/wiki/Corvette

cost and freight

Cospas-Sarsat COSPAS-SARSAT 406 MHz Beacons radiomagnet signal pogiblji na frekvenciji 406 MHz sustava COSPAS-SARSAT: COSPAS-SARSAT 406 MHz Beacons – Alerts from 406 MHz distress beacons— ELTs, EPIRBs and PLBs—are received by the COSPAS-SARSAT constellation of geostationary (GOES) and low-earth orbiting (LEO) satellites and relaid to ground stations called local users terminals. Alerts are then forwarded to the associated mission control centre (MCC) for processing and determination of position. (CAMSAR II – Mission Coordination) The 406 MHz distress beacons are coded, and when properly registered, identify the aircraft or vessel and give contact information, which the JRCC/MRSC coordinator uses in resolving the incident. (CAMSAR II – Mission Coordination) (CAMSAR II – Mission Coordination) VHF-DSC EPIRBs VHF DSC epirb: Ships operating exclusively in a GMDSS “A1 sea area” may, in lieu of satellite EPIRBs, use VHF-DSC EPIRBs transmitting on channel 70. These EPIRBs transmit their MMSI number, their GPS position and other vital information. (CAMSAR II – Mission Coordination) Ships operating exclusively in a GMDSS “A1 sea area” may, in lieu of satellite EPIRBs, use VHF-DSC EPIRBs transmitting on channel 70. These EPIRBs transmit their MMSI number, their GPS position and other vital information. They are registered in the national MMSI database for each country. (CAMSAR II – Mission Coordination)

Cospas-Sarsat system (n) (navig) sustav potrage i spašavanja

COSPAS-SARSAT
cost /kɔst/ (n) (shipping econ) 1 trošak (npr. prijevoza) ~ of transport prijevozni troškovi, cijena transporta, ~ incurred trošak nastao uslijed, troškovi nastali uslijed, maintenance ~ troškovi održavanja, operational ~ pogonski troškovi, raise ~s povećati troškove, manage the ~s upravljati troškovima, reduce ~s smanjiti troškove; 2 cijena (proizvoda, robe, tereta u transportu) ~ of commodity cijena robe, vrijednost robe
cost and freight (=CFR) (n) (mar law) međunarodni trgovinski uvjet prema kojemu je prodavatelj dužan platiti troškove i vozarinu kako bi se roba dopremila do luke odredišta, ali rizike gubitka ili oštećenja robe i povišenje cijene snosi kupac od trenutka kada roba prijeđe brodsku ogradu u luci ukrcaja; Cost and Freight (CFR) means that the seller must pay the costs and freight in order to
transport the goods to the port of destination in question.

Cost and Insurance (≡C&I) (n) (mar law) a price that includes the cost of the goods, the marine insurance and all transportation charges except the ocean freight to the named point of destination (Glossary of Shipping Terms, www.marad.dot.gov) cijena robe i transportno osiguranje
cost of shipment (n) 1 (shipping econ) cijena prijevoza; 2 troškovi prijevoza
CO2 system /si: əˈtuː/ (n) CO-2 sustav, sustav gašenja ugljičnim dioksidom portable ~ prijenosni CO-2 sustav, fixed ~ fiksni CO2 sustav
cotter pin /ˈkoʊtər ˈpɪn/ (n) (marine eng, boating/yachting) rascjepka, šplinta
cottonwood /ˈkɒtnwʊd/ (cargo) pamučika
count /ˈkaʊnt/ (v) 1 računati; 2 brojati; 3 uzeti u obzir
count (n) (mar law) točka optužnice: Count one of the indictment alleged that the Police Port Security Unit traced an oil sheen in the to the MV ...
countdown odbrojavanje (udaljenosti): VTS officer’s radar screenshot showing the countdown to the ..... buoy The VTS officer began his countdown on the VHF radio when the vessel was 6 cables away from the .... buoy Twenty seconds later, as the VTS officer’s countdown reached 2 cables, he ordered full helm to starboard (35°). www.gov.uk/maib At 0026, on the VTS officer’s count of 3 cables, the lead pilot gave a helm order of “starboard 10°”. Twenty seconds later, as the VTS officer’s countdown reached 2 cables, he ordered full helm to starboard (35°). www.gov.uk/maib
counter /ˈkaʊntər/ (v) (navig) suprotstaviti se, spriječiti: the tug was connected to the port quarter to counter winds gusting to force 5 The helmsman was leaving his throttle ahead to counter the tide and then removing the kill-cord from his wrist in order to hold on to the barge. ~ the prop walk spriječiti efekt smjera okretanja propelera, ~ the crosswind spriječiti efekt poprečnog vjetra
counter /ˈkaʊntər/ (n) (nav arch, sailing vessels) COMPARE overhang The part of the hull that lies above the water at the stern. https://www.ypiyachts.com/ obлина кроме ~ timbers rebra krmene obline, side ~ timbers kukovi krmenog okvira
counteract /ˌkaʊntər ˈækt/ (v) djelovati u suprotnom smjeru, nastojati spriječiti, osujetiti, djelovati suprotno: The helmsman achieved the aim, the electronic chart display data showing him steering between 10 and 15 degrees to starboard of the approach course to counteract the effect of the tide. The master intended to use the bow thruster to counteract the onshore wind and hold the bow steady; the tug, under the direction of the pilot, would hold the stern. 0
counter current (n) (oceanogr) protustruja: There is a counter current flowing westerly in Bonita Cove at that time.
counter-flow (n) (geogr) protutok vode, protustrujanje: A contributing factor was the vessel’s bow entering an area of counter-flow while her stern remained in the main ebb flow, causing her bow to unintentionally pay off to starboard. Dodatni faktor nezgode bio je ulazak broda u područje protutoka vode dok je istodobno krma boda ostala u toku glavne struje od oseke, što je izazvalo neželjeno otpadanje njegova pramca u desno.
counter-offer /ˈkaʊntər ˈɒfər/ (n) (mar law) Response to an offer which in some way varies the terms or conditions of that offer, by virtue of a party making a counter-offer, the offer itself is no longer binding. Offer and counteroffer form the basis of the negotiations involved in chartering.
counter rudder (n) (navig) determines the amount of opposite helm to be applied

coupling (n) (marine eng) A hydraulic coupling on the mooring winch gave way, squirting a jet of hot hydraulic oil all over the mooring station. The ship was towed from the River Thames following the failure of a drive shaft universal coupling in her engine bay. Unfortunately, on the next occasion, the left sleeve of his jacket became entangled with a coupling on the rotating propeller shaft.

counterweight /ˈkaʊntəweið/ (n) (marine eng) Weights that are mounted on the crankshaft opposite each crank throw. These reduce vibration and bearing loads.

country damage (n) (mar law) Damage to baled or bagged goods (e.g. cotton) caused by excessive moisture from damp ground or exposure to weather, or by grit, dust or sand ashore.

country of origin (n) (shipping econ) the country from which goods or cargo are sent to the importing country

coupled to /ˈkʌpled/ (adj) The anchor was coupled to a short length of chain, which was intended to be attached to the boat’s painter to form the anchor cable.

coupling (ˈkʌplɪŋ) (n) 1 (marine eng) spojka, Italian: innesto: A hydraulic coupling on the mooring winch gave way, squirting a jet of hot hydraulic oil all over the mooring station. The ship was towed from the River Thames following the failure of a drive shaft universal coupling in her engine bay. Unfortunately, on the next occasion, the left sleeve of his jacket became entangled with a coupling on the rotating propeller shaft. ~ nut spojna matica, matica steznog vijka, navojna stezna spojka, ~ dog zupčasta spojka, flexible ~ izvrstiva spojka, fleksibilna spojka: A flexible coupling is always fitted between the turbine rotor and the gearbox pinion. The membrane-type flexible coupling is made up of a torque tube, membranes and adaptor plates.

country damage (n) (mar law) Damage to baled or bagged goods (e.g. cotton) caused by excessive moisture from damp ground or exposure to weather, or by grit, dust or sand ashore.

cover /ˈkʌvər/ (n) bearing ~ kapa ležaja, poklopac ležaja, cylinder ~ poklopac cilindra, cylinder ~ insert uložak poklopca cilindra, unutarnja glava, cylinder ~ of double deck construction dvokatni poklopac cilindra, outer cylinder ~ vanjski poklopac cilindra, vanjska glava (marine eng) poklopac, pokrov, kapa, zaštitna kapa: The bilge cover was opened up and the bilge was found to be half full of salt water ... As soon as he cracked open the dome cover, hot condensate water (at about 80°C) escaped from the opening and spilled over the oiler.

**coverage** (n) (navig) pokrivenost, područje pokriveno navigacijskim sustavom, frekvencijom itd., područje pokrivanja (navigacijske opreme): In instances such as these, which may be out of VTS coverage, it is suggested that other endangered ships be empowered to report such rogue vessels to the coastal authorities, Make sure that before setting sail, full chart coverage and associated publications for the intended passage are held on board. The display was in relative motion and was off-centred to extend the coverage ahead of the vessel to about 4.5 nm.

coverage factor (n) (navig) faktor pokrivenosti (u SAR-u)  
covering /ˈkʌvərɪŋ/ (n) (marine eng) zaštita, oblog: Tiger stripes have now been painted on the deck and a soft protective covering placed around the flange.

**covering-board** (n) (sailing vessels) ANTONYM planksheer The wider outermost plank of the deck mounted over the tops of the frames and covering the sheer strake of a decked boat.
covering note (n) (mar ins) = slip: ceduljica / bilješka s podacima o riziku
cover letter (=letter of application for a job) (n) 1 (mar law) COMPARE
resume: a document sent with your resume to provide additional information about your skills and experience. The letter of appointment is intended to provide detailed information on why you are a qualified candidate for the job (http://www.thebalancecareers.com/job-application-letter); The main purposes of a cover letter is to provide a short summary of who you are and what you have to offer and why you would be an excellent candidate for the job. (http://marineengineer.es/) popratno pismo s molbom za posao, pismena molba za posao, motivacijsko pismo: In the first paragraph of your cover letter to explain why you are interested in the job. You want to write about who you are and what you are doing currently, such as work, studies, etc. http://marineengineer.es/; 2 an accompanying letter sent as an explanation, introduction, or record popratni dopis, popratno pismo
COW (=Crude Oil Wash) (n) (cargo handling) = Crude Oil Washing The use of a high-pressure stream of the crude oil cargo to dislodge or dissolve clingage and sediment from the bulkheads, bottom, and internal tank structures of a vessel during the discharge operation. (www.euronav.com) pranje tankova sirovom naftom
cowl /kaʊl/ (n) (nav arch, boating/yachting) a hood shaped top or end of a natural ventilation trunk or pipe that may be rotated to cause wind to blow air into or out of the trunk palubna ventilacijska cijev, šijun, Italian: cuffia; manica a vento: The fire caused substantial burn damage to adjacent electrical fittings and paintwork on the deck, vertical surfaces of the bulkhead and a ventilator cowl. ... fire damage was limited to the paintwork on the forecastle break bulkhead, a reefer electrical supply cable, light fittings and a hold ventilation cowl.
cowl ventilator (n) (nav arch) (boating/yachting) palubna ventilacijska cijev, šijun
coxswain /ˈkɒkswɛn; ˈkɒkˌswɛin/ (=cockswain) (n) (seamanship) the helmsman of a lifeboat or launch, the helmsman or crew member in command of a boat vođa brodice, kormilar brodice za spašavanje, zapovjednik brodice, Italian: capobarca: Meanwhile, the rescue boat coxswain and assisting crew member continued to investigate the cause of the engine failure. The pilot boat coxswain contacted the bridge by VHF to enquire the reason for the delay. At this stage, the lifeboat coxswain decided that the risk to the yacht’s crew was too great, and they were evacuated from their vessel by helicopter.
CPA /ˌsɪ piːˈeɪ/ (=closest point of approach) (n) (navig) najbliža točka mimoilaženja, najbliža točka susreta: The closest point of approach (CPA) between the vessels was 0.5nm in 88 minutes time. A CPA of 0.8nm was predicted with own ship whilst CPAs of less
than 0.3nm were predicted between the ferry and two other vessels. Vessel B had a CPA of 0.5 NM. The ship’s second officer saw that the target ship was crossing ahead with a CPA of 0.5nm. At the same time, the OOW of ... noticed that the CPA of the other ship was reducing, so he used the VHF radio to attempt to establish communications with that ship.

c.p.p. (=controllable pitch propeller) (marine eng, nav arch) prekretni porivnik, prekretni propeler: The controllable pitch propeller (CPP) was turning at full manoeuvring speed of 130 rpm in neutral pitch, as was usual on this vessel when manoeuvring. CPP can move its blade in the desired position by changing the pitch of the blades. A general cargo vessel suffered an accident when its CPP malfunctioned.

CPR (=cardio-pulmonary resuscitation) (med) an emergency procedure for manually preserving brain function until further measures to restore spontaneous blood circulation and breathing in a person who is in cardiac arrest. masaža srca: The AB was given oxygen and CPR was started. The two men carried out cardio-pulmonary resuscitation (CPR) until he began to cough and eventually breathe freely.

CPT / carriage paid to (named place of desination); c.p.t. (shipping econ, mar law) SEE INCOTERMS 2000 prijevoz plaćen do (odredišta pošiljke): Carriage Paid To (named place of destination): the general/containerised/multimodal equivalent of CFR. The seller pays for carriage to the named point of destination, but risk passes when the goods are handed over to the first carrier. http://www.tkmglobal.net/inco.html

spinous spider ~ rakovica, grancigula

crack (nav arch, marine eng) pukotina, napuklina: A crack had developed in the fuel injection pipe, and fuel may have spurted from the crack onto a hot surface. Furthermore, he had
encountered water in the tank several months previously due to a crack in the deck; on that occasion the vessel made shore safely, whereupon the water was drained from the tank, pumped overboard and the deck repaired. The container ship developed a crack and flooding after experiencing heavy weather ~ of shell plate. napuklina na oplati broda, develop a ~ napuknuti, doći do napuknuća: The ship developed a crack and flooding after experiencing heavy weather in ..., ~ in the fuel pipes: Problems in the fuel system may lead to cracks and leakages in fuel pipes in case of improper fuel treatment. https://safety4sea.com/ napuknuće cijevi goriva cracking /ˈkraʊkɪŋ/ (marine eng, nav arch) napuknuće, pukotina, prslina: There was also evidence of the likelihood of fine cracking in the steel adjacent to the fillet weld, but this went undetected by the repairer ...
cradle /ˈkreɪdl/ (n) 1 (nav arch) A framing built up on the ways and in which the ship rests while being launched. https://officerofthewatch.com/tools/maritime-dictionary/ saonice na navozu; 2 (boating/yachting) a woden or steel frame built to support a vessel when it is hauled out. postolje za brodicu, važ, kaavalet
craft /kraːft/ (n) 1 (nav arch) any vessel or conveyance that operate in a fluid medium or a vacuum. Thus, boats are craft; aircraft are craft; and spaceships, spacecraft, and space capsules are craft. When applied to vessels or conveyances that float on the water, a craft is any boat or ship of any size or type and of any use. (http://www.westlawn.edu/student_center/definitions.asp) plovilo, plovni objekt, brodovlje naval ~ ratni brod, ratni brodovi, non-displacement ~ bezdeplasmansko plovilo (npr. jedrilica), water ~ plovilo, plovni objekt, plutajući objekt, survival ~ plovilo za spšavanje i pružanje prve pomoći: Crew members responsible for launching the survival craft should practise and be able to launch with their immersion suits on., high-speed ~ brzi putnički brod: brzo plovilo, small ~ malo plovilo: mali brodovi There were not many problems as the barge and small craft traffic was mostly resting for the night. Numerous small craft were moving around in the anchorages, and there was a steady flow of vessels transiting the east bound lane., fast rescue ~ (FRC) brza brodica za spašavanje: The maneuverboard drill requires the launch and recovery of the vessel’s fast rescue craft (FRC) to simulate the rescue and recovery of a person from the water., pleasure ~ brodica za razonodu, gliser: The sole occupant of the pleasure craft, which had no radar reflector, had seen the fishing vessel approaching and had managed to jump clear before the impact., recreational ~ brodica za razonodu, gliser, leisure ~ brodica za razonodu: Using a leisure craft while under the influence of alcohol is dangerous and puts your and others’ lives unnecessarily at risk.; 2 vještina
crane /krein/ dizalica: What is the safe working load of the crane? Do not approach the crane slings/hook until the crane is fully stopped and ensure all is safe and secure prior to approaching. bridge ~ mosna dizalica, container ~ kontejnerska dizalica, kontejnerski most, dockside ~ obalna dizalica, quay / wharf ~ obalna dizalica, floating ~ plutajuća dizalica, plovna dizalica, gantry ~ mosna dizalica (npr. kontejnerski most): Each gantry crane was fitted with warning devices that operated automatically whenever the gantry crane travelled along the length of the deck., mobile ~ autodizalica, ~ rails staze za kretanje dizalice duž obale kranske staze (na lučkoj obali), kranske šine (na lučkoj obali), shore ~ obalna dizalica: The vessel had
berthed and commenced discharging, with a *shore crane*, a load of 72,000 metric tons of steaming coal, a *ship’s crane* and derrick wires at regular intervals, a *deck* ~ *palubna dizalica*, a *shore crane* used the bypass key to override the jib luffing lower limit cut-off switch, so that the cargo sling could be landed at the desired spot on the wharf, a *hook* ~ *kuka dizalice*: The pumpman was stationed at the manifold, monitoring the cargo hoses still attached to the *deck crane hook*, a *hatch* ~ *dizalica iznad brodskog skladišta*: Operate the *hatch crane* only if there is a person on each side to check whether the hooks are connected properly, a *hose-handling crane* to position the vessel’s gangway to provide safe access to the ship, a *mobile* ~ *autodizalica*: The mobile crane lifted the lifeboat and suspended it below the davit heads while the crewmen attached the falls.

The resulting secondary explosion was large enough to tear the *crankcase door* from its mounting points.
crank counterweight (n) (marine eng) protuuteg koljenastog vratila, kontrauteq koljenastog vratila

crank handle (n) (marine eng, boating/yachting) ručka za pokretanje motora,
ručica za pokretanje vitla, **kurbla**: This final closed position allowed the winch motor to be started with the **crank handle** in place.

**cranking motor** *(n) (marine eng)*: motor za stavljanje u pogon koljenčastog vratila

**cranking power** *(n) (fishing)*: snaga prijenosa (role)

**crankpin** /ˈkræŋk.pɪn/ *(＝crank journal) (n) (marine eng)*: The portion of the crank throw attached to the connecting rod. (http://www.marinedieseleurope.com/) osnac letećeg ležaja:

As No. 5 **crankpin** was seriously damaged, the crankshaft was found beyond use and had to be scrapped.

**crankshaft** *(n) (marine eng)*: A rotating shaft for converting rotary motion into linear motion. (http://www.marinedieseleurope.com/) koljenasto vratilo, koljenasta osovina, koljenčasta osovina: The slow-speed diesel engine rotates at this low speed and the crankshaft is thus directly coupled to the propeller shafting. ~ journal rukavac koljenastog vratila, oslonac koljenastog vratila, osnak, ~ journal pin oslonac letećeg ležaja, oslonac koljena, osno koljeno, čep ručice, fully-built ~ potpuno sastavljenada koljenasta osovina, semi-built ~ polusastavljena koljenasta osovina, heavily bent ~ jako savijena koljenasta osovina, revolution of the ~ okret koljenaste osovine, ~ bearing temeljni ležaj, ležaj koljenaste osovine: If a crankshaft bearing is running hot, oil is heated and an oil mist produced which can lead to a crankcase explosion., semi-built ~ polusastavljeno koljenasto vratilo
crankshaft deflection (n) (marine eng) progib koljenastog vratila, progib koljenaste osovine

crankshaft gear (n) (marine eng) zupčanik koljenastog vratila

crank throw /ˈkraŋkθrəʊ/ (crankthrow) 1 one crankpin with its two webs

ručka koljenastog vratila, par koljena vratila: Turn the crankthrow to the exhaust side.; 2 (marine eng) razmak od vratila do ručke (koljenastog vratila)

crank web /ˈkraŋkweb/ (crankweb; web) rame koljenastog vratila, koljeno, krak koljena, pršut: The plan was to position the crank shaft in such a way that the crank web was in the horizontal position.

Crates of uniform size and weight should be stacked directly one atop another. ... the spare part was inadequately secured inside the crate and as the crate tilted, the internal shift of weight assisted the
‘tipping’ motion;
crawler crane /ˈkrələ/ dizalica na gusjenicama

crayfish (n) jastog
crayon /ˈkreɪn; ˈkreɪn/ (marine eng) kreda za obilježavanje
credit note izvješće o odobrenju (financijskih) sredstava
creditor /ˈkrɛditər/ (mar law) vjerovnik: This is one a handful of major global ports where the troubled line's ships can freely unload cargo without threat from creditors Top priority debt means claims for public interests, which are paid first to creditors and include cargo owners’ damages and unpaid charter fees ...
credit rating (n) (shipping econ) kreditno vrijednovanje, kreditni rejting: The shipping company's credit rating was put under review for a downgrade by Moody’s in June. The shipping company may consider selling assets or cutting dividends as it seeks to retain its credit rating,
creek /ˈkriːk/ 1 (geogr) (UK) a narrow inlet or bay, esp of the sea; a small stream or tributary riječno ušće, uvala: They ordered the Master to take the ship into a creek but he managed to persuade them that the draught was too deep to comply with their orders. 2 (US, AUS) a small stream or tributary rukavac (u delti rijeke), Italian: cala: two speed craft will monitor the creeks of the Niger Delta; 3 pritoka
creosote /ˈkriə ʃoʊt/ (cargo) kreozot
crescent wrench /ˈkreɪsənt, ˈrentʃ/ (marine eng) francuski ključ, ključ s kotacijem za namještanje
crest /krɛst/ (oceanogr) the highest point of a sea wave kriješta vala: ... we were overtaken by a single, huge swell that rolled past the ship just above deck level, the crest breaking on to the main deck on both sides. ~ of the wave kriješta vala
crest /ˈkrest/ (marine eng) The top surface joining the two sides of a thread.

crew transfer (n) (hum_resources) razvoz posada (iz luka na brodove; brodova u luke, broda na brod), prebacivanje posade (na brod), premještanj posade (na brod)
crew transfer vessel (=CTV) (n) (hum_resources) vessels or boats used to transport wind farm technicians and other personnel out to sites on a daily basis.
crew wellness (n) (mar law) The five dimensions of crew wellness and wellness at sea (Social, Emotional, Physical, Intellectual and Spiritual) are for working seafarers and all factors related (SAFETY4SEA <news@safety4sea.com>) blagostanje posade, blagostanje pomoraca: How is crew wellness implemented onboard? social ~ socijalno blagostanje pomoraca, emotional ~ emocijsko blagostanje pomoraca, physical ~ fizičko blagostanje pomoraca, spiritual ~ duhovno blagostanje pomoraca
criminalisation (n) (mar law) kriminalizacija, krivično optuživanje ~ of seafarers kriminalizacija pomoraca: This case was one of the worst examples of the unjustified criminalisation of seafarers.
crimping (n) (fishing) krimpanje, vezivanje predveza
cringle /ˈkrɪŋɡəl/ (n) (boating/yachting) = lacing eye očica jedra, plastična ili metalna očica ušivena u jedru reef ~s Reinforced cringles in the sail designed to hold the reefing lines when reefing the sail. https://www.ypiyachts.com očice jedra (za kraćenje)
criterion /ˈkraɪtɪriən/ (n) mjerilo, kriterij
crockery /ˈkrɒkəri/ (n) posuđe
crocus cloth (=abrasive cloth) (n) (marine eng) abrazivno platno
crop /ˈkrɒp/ (n) (shipping econ) godišnji urod (žitarica itd.)
cross /ˈkrɒs/ (v) 1 prijeći, prelaziti, presijecati: The Savannah crossed the Atlantic under
steam propulsion for part of the voyage, pioneering the way for the British ship Sirius, which crossed the
Atlantic entirely under steam in 1838. Their vessel was crossing the tanker bow from starboard to port. to
~ the channel prijeći kanal, ploviti preko kanala: the vessel was ~ing the channel
before grounding, ~ ahead prelaziti ispred (drugog broda): The OOW sighted a vessel
crossing ahead from starboard to port at a very close range. The master decided to make a further
alteration of course to starboard in the hope that he could cross ahead of the two vessels and clear the end
of the sandbag. A few minutes later the green vessel was observed to be crossing ahead at a range of
dem four cables. Another vessel, which had just left the anchorage areas, was observed crossing ahead of the
oil tanker, at a close range. https://gCaptain.com, ~ the traffic lane presjećii stazu u
plovnom kanalu, ~ the traffic lane presijecati plovidbenu stazu,
presijecati plovidbeni smjer, ~ the traffic separation scheme (TSS) prijeći
zonu odvojene plovidbe, presijecati zonu odvojene plovidbe: A cargo vessel
was on a regular service that required her to routinely cross a Traffic Separation Scheme (TSS).; 2
križati se (o kursovima)

cross bar (n) (nav arch) greda, nosač

cross bearings (n) (navig) križane crte azimuta, linija azimuta koje se
presijecaju ~ position pozicija dobivena presijecanjem dviju crta
azimuta, pozicija opažanjem dva ili više objekata

cross-channel service (n) (shipping econ) plovidba preko kanala: The ship was
cleared to continue her cross-channel service.

cross-check (v) (navig) višestruko provjeriti, provjeriti na više načina: The
ship's position should be monitored and cross-checked using more than just one method, and the track
projected ahead to ensure detection of any possible dangers.

Cross Clot Space Charter Party (n) (shipping econ) Ugovor o međusobnoj
razmjeni dijela brodskog prostora

cross-docking (n) (logist) This is the transhipment of goods at various points in the delivery chain.
The term cross-docking relates to the physical receipt of goods and their immediate transit to the next
phase in the delivery chain, without interim storage.

https://www.logisticsglossary.com/term/cross-docking/

preuzimanje radi izravnog
prijevaza kontejnera (do odredišta): For example cross-docking refers to cargo that is
directly loaded/discharged out of the container into the truck (or vice versa) to be shipped to the final
destination. https://www.logisticsglossary.com/letter/?letter=c

Crosshead /ˈkrɒs hɛd/ (marine eng) ~ bearing ležaj križne glave: erm performance and
reliability tests were also conducted, and the first installation made on a large two-stroke engine to
measure cross-head-bearing temperatures. križna glava, Italian: testa a croce: The
designs of the crankshaft, cross-head, bearings and exhaust valve actuating gear are, in the main, similar
to the components introduced with the K-GF series.
http://www.marinediesels.info/2_stroke_engine_parts/crosshead.htm

crosshead engine (n) (marine eng) motor s križnom glavom
crossing (n) 1 (navig) prijelaz (poprijeko, npr. kanala, plovnog puta): A passenger ferry, on a southerly heading in daylight and good visibility, was crossing a TSS. A small taxi boat with two passengers on board was crossing a navigation channel in dense fog. 2 (navig, mar law) presijecanje ~ situation križanje kursova (u Pravilima o izbjegavanju sudara): The red vessel, being a stand-on vessel in a crossing situation, failed to comply with Rule 17 (Action by stand-on vessel) of the COLREGS but [reduced speed and] altered course to port to avoid collision ... both vessels were now heading in the same direction when the other vessel again altered to port and created a crossing situation. ~ vessel 1 brod koji presijeca kurs (drugom brodu): The crossing vessel came into close quarters situation with a group of ships ahead and then steered a course of 1700T towards the 2CZ buoy. The OOW noted the crossing vessel's name on the AIS and attempted to alert the crossing vessel on the VHF about the impending danger, without success. 2 brod koji plovi prijeko kanala crossing courses (n) (navig) križani kursovi, ukržani kursovi crossing situation (n) (navig) when two vessels approach each other and their paths are crossing.

crossover /ˈkrɔsəʊvər/ (n) (cargo handling) prebacivanje (s jedne strane na drugu), prebacivanje s jednog cjevovoda na drugi manifold ~s 1
prebacivanje s jedne ventilske jedinice na drugu; 2 prespajanje s jednog manifolda na drugi; 3: All ~ must remain isolated to each other., bottom ~s prespajanje s jednog cjevovoda/linije na dnu na drugi, ~ valve ventil za prespajanje: However, the cross-over valve connecting the ballast and bilge systems was left open.
cross sea (n) (oceanogr) = confused sea a sea phenomenon appearing when two wave systems cross each other at nearly perpendicular angles križano more, bibavica, mareta

cross sea (n) (oceanogr) ukrižano more, Italian: onde incrociate
cross-section (n) poprečni presjek
Due to the number of containers the vessel was carrying on deck, her cross sectional area at the time of the accident was 6,750 m², which in a wind speed of 15 m/sec equated to a force of approximately 120 t acting on the vessel.

After the turn, the vessel slowly diverged from her planned track and, eventually, the GPS alarm sounded as she strayed outside of the 2 cable cross track error (XTE) margin.

The second officer monitored Paula C’s position using the cross track error facility on the Global Positioning System (GPS) receiver.

The remote transport of goods, when they are neither transported to one country, nor dispatched from that same country. Cross-trades procedure is often set up in consultation with one of our overseas offices so as to be physically present, as it were, to look after the interests of the client.
zemalja)
crosstree /ˈkros, tri/ (nav arch) either of a pair of wooden or metal braces on the head of a mast to support the topmast, etc. okov vrha stupa samarice, okov vrha jarbola, krožeta,

Italian: crocetta

crosswind (n) (meteorol) poprječni vjetar

crosswise /ˈkros, waiz/ (n) ~ tightening unakrsno stezanje (vijaka) poprijeko, unakrsno

crow bar /ˈkrəʊ , ba:/ (cargo) željezna poluga s ojačanim račvastim dnom za podizanje jedne strane teških komada tereta od dna Čelična poluga - podigač, pralica, štrangulin, Ćuskija, pajs, praseća noga: Dockers working in the ship's holds also use pinch or crowbars for moving heavy packages, and hand hooks for manoeuvring packages into position.

crowded anchoring position (adj) (navy) an anchorage area with too many ships anchored

prezauzeto (sidrište): The Master found the intended anchoring position to be also crowded with nearby 4 vessels being too close and encountered with rough sea, wave and poor visibility.

crown /ˈkrɔrn/ (n) (seamanship) COMPARE anchor kruna sidra
crown gear (n) (marine eng) zupčanik s nazubljenom krunom
crown shackle (n) (nav arch, seamanship) škopac na kruni / čelu sidra
crow's nest /ˈkroʊz, nest/ (n) (nav arch) COMPARE bird's nest A lookout station attached to or near the head of a mast. https://officerofthewatch.com/tools/maritime-dictionary/ koš za
motritelja pri vrhu jarbola

**CRS** *(n)* *(comm, safety)* a maritime radio station situated on shore which monitors radio distress frequencies, coordinate the radio traffic and relays ship-to-ship and ship-to-land communications. Some of CRSs are categorised as MRCCs or MRSCs or NAVTEX CRSs. (https://www.egmdss.com) *obalna radiopostaja, obalna radiostanica*

**crucifix** /ˈkruːsɪfɪks/ *(n)* *(nav arch)* *križasti stup*

**crude oil** /ˈkruːd/ *(n)* *(cargo)* unrefined oil *sirova nafta, nepreradaena nafta*: The movement of liquid bulk cargo, crude oil and derivatives, from the tanker is undertaken by means of pipelines connected to the shore-based storage tanks. ~ *cargo teret sirove nafte*: Recently one of our tankers discharged an excess of nearly 150,000 barrels (bbls) of *crude oil cargo*, *ultra-light* ~

**ultralaka sirova nafta**: The tanker was carrying 136,000 tonnes of *ultra-light crude oil* which generates a toxic underwater slick that would be invisible from the surface.

**crude oil carrier** *(=crude oil tanker)* *(n)* *(nav arch)* *tanker za naftu*: A tanker for the bulk carriage of crude oil
Crude Oil Washing (=COW) (n) (cargo handling) A method of cleaning tanks using oil from the ship's cargo. COW is normally used when a tanker is discharging. Oil is taken from the tanks and pumped through a special line to fixed or semi-fixed tank washing machines where it is sprayed against all inside surfaces of the tank. This procedure removes any cargo which is 'clinging' to the surfaces of the tank. (www.euronav.com) pranje tankova sirovom naftom crude oil washing system sustav za pranje tankova sirovom naftom
crude tanker (n) (nav arch) Crude tankers move large quantities of unrefined crude oil from its point of extraction to refineries. tanker za prijevoz sirove naftе
cruise (v) (boating/yachting) to sail to and fro over a particular area krstariti: The vessel can cruise at a speed up to 23 knots.
cruise industry (n) (shipping econ) gospodarstvo brodova za kružna putovanja: The cruise industry has been among the worst hit by the pandemic. https://safety4sea.com/
cruise line (n) (shipping econ) brodar za kružna putovanja: Almost all cruise lines offer an Internet Café complete with pay-as-you-use options for guests to stay connected. ... two important agreements were made: with the US group Carnival Corporation for the construction of two cruise ships for the Holland America Line _and Carnival Cruise Lines, and with Viking Ocean Cruises for another two cruise ships. ~ sailing kružno putovanje, kružni servis: In July, the port signed a new fiveyear agreement with Carnival, keeping the world’s biggest cruise line sailing at least two vessels from the city year-round through 2019. ~ service kružna plovidba, kružni servis
cruise liner A cruise ship or cruise liner is a passenger ship used for pleasure voyages, where the voyage itself and the ship's amenities are a part of the experience, as well as the different destinations along the way. linijski brod za kružna putovanja: Dedicated transport oriented ocean
Linens typically transport passengers from one point to another, rather than on round trips.

**cruise operator** (n) *(shipping econ)* brodar za kružna putovanja: Fun, luxury, experiences — that’s what cruise operators sell, and by all accounts, it is selling well.

www.maritimeprofessional.com U.S. cruise operators will voluntarily suspend ocean voyages until at least October 31, as new COVID-19 infections continue to surge in the US. (https://safety4sea.com/)

**cruise passenger** (n) *(shipping econ)* putnik na brodu za kružna putovanja, putnik na kružnom putovanju: In 2014, Port of New Orleans terminals handled more than one million cruise passengers, based on embarkations and www.maritimeprofessional.com.

**cruise port** /kruːz/ luka za kružna putovanja: Dubrovnik is Croatia’s premier cruise port. Southampton is the UK’s premier cruise port, handling almost half a million passengers.

**cruiser** /ˈkruːzə/ (n) *(nav arch)* = cruise ship brod za kružna putovanja, tal crociera

https://www.cruise compete.com/ships/carnival_magic_cruise_ship.html

**cruiser** /ˈkruːzə/ (n) *(navy)* A high speed vessel designed to keep at sea for extended periods and in which protection against gun fire is subordinated to speed and long radius of action. Used largely for scouting and convoy work. (https://www.history.navy.mil/) krstarica: Light cruisers and heavy cruisers are so designated in accordance with the calibre of the guns carried. (https://www.history.navy.mil/) light ~ lagana krstarica, heavy ~ teška krstarica

**cruiser clothing** (n) *(boating/yachting)* = cruise ship krstaš odjeća za krstarenje

**cruiser fittings** (n) *(boating/yachting)* oprema krstaša

**cruiser stern** /ˈkruːz/ (n) 1 *(nav arch)* krstarička krma; 2 *(boating/yachting)* krstaška krma

**cruise ship** /ˈkruːz/ (n) *(nav arch)* a cruise ship or cruise liner is a passenger ship used for pleasure voyages, where the voyage itself and the ship’s amenities are a part of the experience, as well as the different destinations along the way. brod za kružna putovanja, kroćera: A cruise ship in Dubrovnik

**cruise terminal** /ˈkruːz/ (n) *(ports)* terminal za brodove za kružna putovanja dedicated ~ namjenski terminal za brodove za kružna putovanja, expand
The cruise port operator plans to invest USD50 million across the year to expand the cruise terminal. [https://splash247.com/cruise-trade/]

Cruise trip (=cruise voyage) (adv) (shipping econ) putovanje broda za kružnu putovanja, putovanje putničkog kruzera: Carnival Corp said on Monday it planned to resume some of its cruise trips from North America in August as it tries to recover from the coronavirus pandemic, which has brought the industry to a virtual standstill. [https://gCaptain.com/cruising/]

Cruising power (n) (nav arch) brzina krstarenja
Cruising range (n) (navig) doseg plovidbe, doplov, autonomija broda, autonomija plovidbe
Cruising speed (n) (navig, nav arch) brzina u normalnoj plovidbi, brzina krstarenja: The ship has a cruising speed of 22 knots.

Crushed 1 zdrobiti; 2 zgnječiti: As the deck ratings struggled to lift the pilot onto the ship, the angle between the two vessels changed, crushing the pilot's leg between them. [www.gov.ik/maib; 3 pritiskati]

Crushing (cargo) drobljenje (tereta, pakovanja), gnječenje, šteta nastala drobljenjem

Crustacean /ˈkrʌstəsiən/ rak s plavim obrubima

Crutch /ˈkrʌtʃ/ (n) (sailing vessels) krmena vjenčanica ~ bolts svornjaci krmene vjenčabice

Cryogenic /ˈkraɪədʒɪnɪk/ the production of and behavior of materials at very low temperatures.

Kriogenički, niskotemperaturni, supravodljiv: The cryogenic temperature range has been defined as from −150 °C (−238 °F) to absolute zero (−273 °C or −460 °F), the temperature at which molecular motion comes as close as theoretically possible to ceasing completely. [https://www.britannica.com/science/cryogenics ~ equipment kriogenska oprema, oprema za supravodljivo zamrzavanje]

Cryogenics /ˈkrʌstəsiən/ (phys) branch of physics that studies what happens to things at extremely low temperatures. (https://www.collinsdictionary.com/dictionary/english/cryogenics)

Niskotemperaturna fizika, kriogenika

Cubbies (n) (boating/yachting) lokeri za hranu i osobne stvari

Cube root /ˈkjuːbˈruːt/ (n) (math) treći korijen
cubic capacity (n) (nav arch) The inside measurement of a tanker’s cargo compartments or tanks, usually expressed in barrels or cubic feet/meters. (www.euronav.com) kubična zapreminina, zapreminina u kubičnim metrima, korisna prostornošt, kapacitet
give added ~ povećati kubičnu zapreminu
cubic foot (n) (math) kubična stopa
cubic meter (US) kubični metar
cubic metre (n) (UK) (math) kubični metar
cu.; cubic (adj) kubični, kubni
Cumulonimbus /ˌkjuːmjuˈləʊ nimbəs/ (n) (meteorol) kumulonimbus
Cumulostratus /ˌkjuːmjuˈləʊ streɪtəs/ (n) (meteorol) kumulostratus
Cumulus /ˈkjuːmələs/ (n) (meteorol) kumulus
cunningham /ˈkʌniŋm/ (n) (boating/yachting) A line which provides downward force on the luff of a sail, in order to fine tune sail shape http://www.apsltd.com/aps-advisor/sailing-terms-glossary/
priteg jedra za palubu, nateg prednjeg poruba jedra, nateg
cunningham, cunningham
https://www.ronstan.com/marine/cunningham-downhaul_systems.asp
currency /ˈkʌrənsi/ sredstva plaćanja, valuta foreign ~ strana sredstva plaćanja, strana valuta, domestic ~ domaća sredstva plaćanja, domaća valuta, devize
current /ˈkærənt/ (oceanogr) a horizontal movement of water; The flowing of water in one direction. Measured in knots. Currents may be affected by tides, wind, barometric pressure, temperature and geography. (https://www.bask.org/technical-and-gear/tech4_tides/) struja, morska struja, kurenat: The island is located where the cold south running Labrador Current meets warm northerly flowing Gulf Stream waters. ocean ~ oceanska struja, nontidal ~ nontidal currents include the permanent currents in the general circulatory systems of the sea as well as temporary currents arising from more pronounced meteorological variability nemijenske struje, tidal ~ tidal currents are caused by gravitational interactions between the Sun, Moon, and Earth and are a part of the same general movement of the sea that is manifested in the vertical rise and fall, called /tide plimna struja, struja morske mijene, set(ting) of current smjer struje, drift of ~ brzina struje
current price tekuće cijene, aktualne cijene (goriva, zaliha)
cursor /ˈkɜːsər/ pokazivač, uputnik, kursor radar display ~ The cursor functions to find the range and bearing (default function) to a target or the latitude and longitude position of a target
Cursor data can be shown as latitude and longitude or range and bearing from own ship to the cursor. Position and heading bearing signal are required.

cursor pad (n) (electr, navig) = trackball kuglica (radarskog) kursora, kuglica za upravljanje kursorom

curtail /ˈkɜːtəl/ (v) uskratiti

curvature /ˈkɜːrvətʃər/ (n) (geogr) zakrivljenost ~ of the Earth zakrivljenost Zemlje

custody /ˈkʌstədi/ 1 (mar law) pritvor keep in ~ pritvoriti, držati u pritvoru; 2 (shipping econ) čuvanje (robe, tereta): Sampling is an important part of the bulk liquid cargo custody transfer process and can help in protecting the ship’s interests in the event of disputes over cargo quality. in ~ na čuvanju (roba, tereta)
custody of the law (n) (mar law) troškovi za čuvanje broda za vrijeme dok je zaustavljen ili zadržan sudskom odlukom
custom /ˈkʌstəm/ običaj, uzanca: It had become custom and practice to remove the gangway stanchions and guardrails while the gangway was in its rigged position. port ~ lučke uzance

Custom Authority (n) (ports) carinske vlasti, carinski organi custom authorities carinske vlasti
custom boat (n) (nav arch) carinski brod
custom broker (n) (mar law) A person or firm, licensed by the customs authority of their country when required, engaged in entering and clearing goods through customs for a client (importer).https://officerofthewatch.com/tools/maritime-dictionary/ cartnski broker,
carinska posrednička agencija: Maersk announced the acquisition of a Customs House Broker, representing the first acquisition of the year in the fast-growing logistics sector.. https://shippingandfreightresource.com
custom brokerage (n) (logist, mar law) carinsko posredništvo, carinsko brokerstvo: Maersk has announced the acquisition of a customs brokerage firm https://shippingandfreightresource.com Customs House Brokerage is a key component in Maersk’s strategy to become an integrated container logistics company, providing end-to-end solutions to customers. https://shippingandfreightresource.com
custom clear (v) (logist) obaviti carinski pregled: If, as an importer of goods, you wish to customs clear your goods, you will require both a special customs license as well as a customs bond. https://www.logisticsglossary.com/term/customs-clearance/
customer (n) (shipping econ) kupac, klijent: The Epirb was later condemned by the manufacturer and the customer was notified. win new ~s privući nove kupce / klijente: Danish shipping group A.P. Moller-Maersk’s is betting on winning new customers for its port division by becoming a one-stop shop that can transport goods from factory to retailers’ shelves. gCaptain <info=gcaptain.com@mail70.us4.mcsv.net>

Custom House (=custom-house) = customs: 1 carinarnica
Custom Inspector carinski inspektor
custom manifest (n) (mar law) carinska prijava, carinski manifest
custom of the port (=CoP) (n) (shipping econ) local rules and practices in a port which may impact upon the costs borne by the various parties; Established practice at a port, which becomes part of a contract of carriage unless otherwise provided for in the contract. Frequent examples are daily rate of loading and discharging, and the point where a carrier’s responsibility ends in a liner terms contact. http://www.tkmglobal.net/chartering_C.HTM lučke uzance, lučki običaji
custom port (n) (mar law) carinska luka
customs Collector of ~ carinski blagajnik, to collect ~ naplatiti carinu, ubrati carinu, to clear ~ 1 srediti carinske formalnosti; 2 proći carinske formalnosti, to comply with ~ formalities ispuniti carinske formalnosti 1 A duty or tax on imported goods. a carina: Arriving for a canal transit, the vessel had rigged the starboard accommodation ladder to facilitate the transfer of immigration, customs personnel, agents, ship chandlers etc and to embark canal pilots. I am a Third Officer and assist the Master with the port paper work and in dealing with the authorities (Customs, Immigration, Port Health); 2 the department of the Civil Service that deals with the levying of duties and taxes on imported goods from foreign countries and the control over the export and import of goods e.g. allowed quota prohibited goods (http://www.iss-shipping.com/cargo/cargo_library_glossaryc.asp) carinarnica
customs allowances (n) (mar law) roličina artikala dopuštena od strane carine (cigarete, pića itd.) po pojedinom pomorcu na brodu carinsko dopuštenje
Customs Bonded House (n) (mar law) a warehouse authorized by Customs to receive duty–free merchandise carinsko skladište
customs clearance (n) 1 (mar law) Goods that are transported from one fiscal zone to another, must be customs cleared before they can be brought in to free circulation. The commercial invoice, packing list and any other documents pertaining to the cargo (i.e. Certificate of Origin, Veterinary certificates, etc) are presented to customs, who then determine the duties and taxes to be levied. https://www.logisticsglossary.com/term/customs-clearance/ carinski pregled, carinski odobrenje; 2 obavljanje carinskih formalnosti
customs clearance agent (=customs clearance agents) (n) (mar law, shipping econ) customs broker or other agent of the consignee designated to perform customs clearance services for the consignee agencija za obavljanje carinskih formalnosti
customs declaration (n) (mar law) carinska prijava
customs duties (=custom duty) (n) (mar law, logist) = duty: Customs duties or import duties are taxes imposed by countries to protect their domestic markets against foreign products. They serve as a trade restriction to provide domestic products with a head start. Import duties on goods are
Customs entry

carinske pristojbe

Customs entry (n) (mar law) declaration on incoming foreign goods carinska prijava, carinska deklaracija

customs entry (n) (mar law) carinska prijava, carinska deklaracija

Customs Inward Clearance (n) (logist) Declaring incoming goods to customs for import purposes and releasing these for free circulation.

Carinski pregled robe u uvozu (iskrcaju)
customs officer carinski službenik
customs regulations (n) (mar law, boating/yachting) carinski propisi

cut (n) (med, safety) posjekotina
cut (n) (sailing vessels, nav arch) = recess rebreni utor
Cut and Run (n) (logist, mar law) Odluka o prekidu trgovačkih operacija u luci u određeno vrijeme, neovisno o tome da se planirana kontejnera neće iskrcati ili ukrcaj (i da će tom odlukom planirani kontejner za iskrcaj ostati na brodu (short landed) i planirani kontejnera za ukrcaj ostati u luci (short shipped). (J. Karmelić personal information); If the vessel is horribly behind schedule it may have to do what is known in the shipping business as a "cut and run." This means that even though unloading operations have not been completed, the vessel must go in order to make later legs in its schedule.

cut and run (v) (seamanship) prerezati konope, ispustiti lance i žurno isploviti (u opasnosti)
cut off isključiti, obustaviti dovod (goriva, vode, struje): The switch was intended to cut off power to the winch when the davit closed to within approximately 12mm of the sensor. This handle was quickly re-fitted to the valve spindle and the valve was repositioned, with a result that the hydraulic pressure was cut off, causing the brake to activate. The ship speed was reduced and power supply cut off to Decks 3 and 4.

Cut off Time (n) (logist, mar law) Zadano krajnje vrijeme unutar kojeg kontejner treba stići na terminal kao bi bio ukrćan na planirani (bukiran) brod. Ukoliko kontejnera ne stigne na terminal unutar zadanog vremena onda se neće ukrćati na planirani brod. (J. Karmelić personal information); The last date or time at which export cargo will be received for a particular vessel or aircraft.; The latest time cargo may be delivered to a terminal for loading to a scheduled train or ship.

(https://www.cma-cgm.com/local/singapore/export-cut-off-date/) krajnji rok stizanja kontejnera na terminal (prije ukrcaja)
cutout (adj) 1 a udubljen, izdubljen, urezan; 2 nazupčan
cut out isključiti, prekidati
cut out (v) ~ the fuel supply prekinuti dovod goriva, isključiti dobavu goriva prekinuti, isključiti: the alternators were cut out
cut-out (n) 1 (nav arch) prolaz za ukrepe: the free edges (cut surfaces) of cut-outs, hatch corners etc. should be free from notches and must be properly prepared.

https://www.marineinsight.com/naval-architecture; 2 (nav arch) otvor izrezan u limu
The pilot then advised the master that he was disembarking into the pilot cutter, and that the master should put the engine to full ahead, and aim for the red buoy marking the south side of the entrance to the channel as soon. This was seen by the pilot following in the cutter astern, and he immediately repeated his previous advice to the master via VHF radio. pilot ~ peljarska brodica: Another inward vessel came up astern of me and asked the pilot cutter if he should slot in behind me or continue towards the cutter, he was advised to do the latter.

Admittedly a cutter rigged sailboat is not quite as efficient to windward as a sloop rigged version, but its other benefits outweigh this small mark against it. There are two variants of the cutter rig: (a) with bowsprit and (b) with no bowsprit. Tacking a Cutter Rig Sailboat is slightly more complicated than with a sloop as you’ve got two headsails and an extra pair of sheets to deal with when going about.
The generator was switched on and immediately 220 AMPS of electricity surged down large cables to a Broco cutting torch being held by the diver. https://gCaptain.com
cuttlefish (=common cuttlefish) (n) Lat. SEPIA OFFICINALIS sipa tackle and leader for ~ pribor s predvezom i pramom za sipe

cutwater /ˈkʌtˌwɑːtər/ (n) 1 (nav arch, sailing vessels) the foremost part of the stem, cutting the water as the vessel moves ahead brid pramca (u dodiru s morem); 2 (sailing vessels) valosijek, brid pramčane statve

CV /ˌsiːˈvɪː/ (siˈriːkjuːləmˌviːɪ) (curriculum vitae) (n) (UK) životopis, cv

cyanotype /saɪˈænətæɪp/ (marine eng) = blueprint modri nacrt, modra kopija, kopija
cyber-attack /ˈsaɪbə / (cyber attack) kibernetski napad, informatički napad, napad putem interneta: Now there is a new kind of threat – that of the cyber-attack with the ability to do everything from stealing data to changing the course of a ship, and possibly to steal the cargo as well. The Windows ransomware attack that hit the shipping company's operations has spread. The cyber attack, which hit the carrier on Tuesday morning, has resulted in a network failure across the world. www.splash247.com The Group's shipping and land operations have once again been the target of a cyber attack. https://gCaptain.com
cyber security /saɪbə ˈsɪkjʊrɪtɪ/ (cybersecurity; cyber-security) (n) (navig, safety) kibernetička sigurnost (u elektroničkoj navigaciji): Cybersecurity risks weigh on shipping industry. The guideline covers navigation, vessel engineering, remote control centers and communications, with particular emphasis given to cyber-security and software testing - two key areas that emerge from the reliance of autonomous and remote concepts on software and communications systems https://www.marineelectronics.com/news/guidelines-autonomous-ships-255753
cycle /saɪkl/ 1 (marine eng) ciklus, kružni proces, kružni tijek re-heat ~ krug dogrijavanja, complete the ~ dovršiti krug, završiti krug; 2 (navig) perioda (u sustavu LORAN C)
cycle of events (n) ciklus zbivanja
cyclone1 /saɪkləʊn/ (meteorol) ciklonsko vrijeme frontal ~ frontalna ciklona, ~ rain ciklonska kiša, ~ wind ciklonski vjetar, tropical ~ tropska ciklona: The latest tropical storm warning is as follows: Tropical storm warning at ... UTC. Hurricane... (name) / tropical cyclone / tornado / willy_willy / typhoon ... (name) with central pressure of ... millibars / hектopascals located in position ... Present movement... (card (name) / tropical cyclone / tornado / willy_willy / typhoon .
cyclone2 (meteorol) tropska oluja, ciklon: Cyclone Owen is moving slowly over waters off the (Australian) Northern Territory with winds of up to 200km/h (124mph), meteorologists said. www.bbc.com
cyclonic circulation /saɪˈklɒnɪk/ (meteorol) ciklonsko kruženje
cylinder /ˈsɪldər/ (marine eng) 1 cilindar, stublina: A couple of weeks later, there was a main bearing failure in number 8 cylinder and a crank case explosion. When the machinery space was entered, the engine’s No 6 cylinder large end bearing assembly was found to have passed through the port crankcase door, and to have come to rest immediately outside the engine. ~ block blok cilindra, blok motora, ~ cover poklopac cilindra, glava cilindra, ~ head glava cilindra, ~ liner košuljica cilindra, ~ lubricators mazalice cilindra, ~ top vrh cilindra, wall stijenka cilindra, working ~ radni cilindar
The CO2 system's pilot and gang release bottles did not appear to operate correctly and thus each cylinder had to be individually activated, using its valve handle. The seat of the fire was between the turbocharger and cylinder head no. 1. The fire was the result of a defective high pressure fuel pump spraying fuel over a hot indicator cock on a cylinder head. Exhaust system: modular and compact, the system comprises single cylinder units bolted to the cylinder head and connected to the next unit with expansion bellows. A unit fuel pump injector with removable nozzle is arranged in each cylinder head and operated from the camshaft by the fuel cam via cam follower, pushrod and lever in a similar manner to the inlet and exhaust valves. 2 stroke engines with an exhaust valve mounted in the cylinder head are known as uniflow scavenged engines. The cylinder head is provided with replaceable valve seat rings of heat-resistant steel, and the exhaust valve seat rings are water cooled. The cylinder head, water jacket, cylinder liner, piston and connecting rod can be withdrawn from the engine as one assembly...
passage is provided in the cylinder head to allow an adaptor and indicator cock to be fitted for performance checks. ~ valve ventil na glavi cilindra

cylinder hone (n) (marine eng)  A tool used to bring the diameter of a cylinder to specification and at the same time smooth its surface. (http://www.marinedieseleurope.com/) alat za fino brušenje cilindra, alat za honanje cilindra, alat za honovanje cilindra
cylinder jacket (n) (marine eng) plašt cilindra, vodeni plašt cilindra
cylinder liner (n) (marine eng) košuljica cilindra: The piston and severely distorted connecting rod were hanging from the cylinder liner. Once the cylinder liner, piston, and connecting rod
were removed, the full extent of the damage could be assessed.

A type of centre board that adjusts vertically in the well. 

A luxury cruise ship has suffered damaged after running aground in a marine preserve off Panama’s Pacific coast. 

Throughout the night, checks were made for flooding or signs of damage. The team’s prompt action prevented excessive damage. Damage to the ship’s rudder necessitated the vessel being towed to the nearest port for repair. At 0049, the ALB (all-weather lifeboat) arrived on scene and confirmed that there was no damage visible above the ship’s waterline and no pollution. MAIB Report 11/2018

Petroleum-based solvents, with the potential to destroy lubricant oil film and cause damage to the rubbing parts of fuel pumps and engine cylinders. ~ report Izvještaj o havariji / kvaru / šteti, ~ repairs popravak oštećenja, serious ~ jako / teško oštećenje, to suffer serious ~ pretrpjeti teško oštećenje: A luxury cruise ship has suffered damaged after running aground in a marine preserve off Panama’s Pacific coast. ~ extent of ~ veličina / obim / stupanj štete, to cause ~ izazvati / prouzročiti štetu, to give rise to ~ dovesti do štete, ~ sustained pretrpljeno oštećenje: the damage
Two cargo ships collided in the North Sea off the northwestern coast of Germany on Thursday, resulting in damage to both ships but so far no pollution. The containership suffered main engine damage, which will cause the vessel to be delayed.

Prior to loading the cargo it should be inspected for damage. The oil terminal has been observed on the ground at the terminal site and in neighbouring areas. The size of the spill is not yet clear.

Both vessels were damaged but there were no injuries and there was no pollution. Both vessels were severely damaged but there were no injuries and no pollution.

The findings were revealed in a damage assessment of the vessel which was submitted to the Coast Guard by Marine Construction. A thorough initial damage assessment was made and it was decided that our ship was not endangered. Both vessels were damaged in the collision but were able to proceed to nearby ports for damage assessment.

... Marine Construction. A thorough initial damage assessment was made and it was decided that our ship was not endangered. Both vessels were damaged in the collision but were able to proceed to nearby ports for damage assessment. www.gov.uk/maib

broda, penali za zadržavanje broda: The carrier shall have a lien over the goods for all freight, primage, charges, demurrage. damages for detention.

damage stability (=damaged stability) (n) (nav arch, stabil) COMPARE intact stability This type of stability concerns with stability of the ship when it is damaged, usually hull is breached. It includes of flooding of ship compartments when hull is damaged leading to sinkage of the ship below margin line or even total sinkage or capsize of the ship.

https://www.marineinsight.com/naval-architecture/ship-stability-damaged-stability-ships/ the IBC/BCH Code is amended by Res. MSC.369(93) and the IGC Code is amended by Res. MSC.370(93) requiring tankers to be fitted with an approved stability instrument capable of handling both intact and damage stability cases http://www.amc.gr/amcLoadingSoftware.htm The careful positioning the bulkheads allows the ship to fulfill the damage stability criteria. A direct damage stability loading instrument provides a solution that will make it easy to demonstrate compliance with the damage stability requirements to the Port State. 

Typically the vessel’s GM-limits for damage stability are adjusted so that “A”=”R”. Typically the vessel’s GM-limits for damage stability are adjusted so that “A”=”R”. 

effects of ~ posljedice promjene stabiliteta broda u oštećenome stanju: Effects of flooding on a ship: Change of Draft; Change of Trim; Heeling; Change in Stability (https://www.marineinsight.com/naval-architecture/ship-stability-damaged-stability-ships/) In this case, the master of the bunker barge pumped water into the vessel without understanding the effect on the damaged stability., ~ booklet knjižica stabiliteta broda u oštećenom stanju: As per today’s requirements from some IACS members it is not enough just to enter the prede ned damage cases that are presented in the vessel’s damage stability booklet. Therefore the loading computer has been extended to include damage cases that incorporate a complete survey of the intact condition in accordance with MARPOL, IBC or IGC. http://www.sateco.it/loadmaster, ~ calculation izračun stabiliteta broda u oštećenome stanju: Permeability is the ratio of maximum flooded water (in damaged condition) volume to the space volume. It is used in damage stability calculations.

za provjeru stabiliteta broda u oštećenome stanju: IMO IMO has adopted guidelines and applicable IMO Code amendments for the mandatory carriage of damage stability verification instruments onboard new and existing tankers.

za određivanje stabiliteta broda u oštećenom stanju: ... approved range of loading conditions; and existing tankers (are) provided with approved limiting KG/GM curves covering all applicable intact and damage stability requirements.

damage survey of the ship (n) (safety) pregled broda poslije havarije: After re-floating, the damage survey showed the vessel had sustained damage to its bottom plating in way of the forepeak and ballast tanks 1, 2, and 3.

damp /ˈdæmp/ (adj) Vlažan: Two packages were wet / damp / mouldy.

damper /ˈdæmpər/ (n) 1 (marine eng) zaklopka, zasun control ~ regulacijska zaklopka, upravljačka zaklopka; 2 amortizator: An appropriate axial damper is
fitted to all MC engines to minimize the effects of the axial vibrations.

damping effect (marine eng) prigušivač

damping tank (marine eng) prigušni učin, utjecaj prigušenja

damping tank: It was also found that the fuel compensation damping tank was empty and that the drain valves of the diesel oil service tanks were blanked.

danger /ˈdeindʒər/ (safety) opasnost, pogibelj: He determined that the vessel was stable and not in danger of sinking. The OOW realised that the ferry was heading into danger, and alerted the master. Later in the evening he assessed that the weather no longer posed an immediate danger to the ship.

immediate ~ neposredna opasnost: There is no immediate danger to our passengers or the ship and there is no reason to be alarmed.

high ~ velika šteta, ~ area opasno područje, područje opasnosti: The ship was then navigated clear of the danger area, allowing her to berth
safely soon afterwards., pose a ~ predstavlji opasnost: Later in the evening he assessed that the weather no longer posed an immediate danger to the ship.; 2 srljati u opasnost, avoid ~ izbjeći opasnost: the Colregs require all vessels to 'avoid entering a separation zone' unless it is necessary to avoid immediate danger., imminent ~ neizbježna opasnost: At about the same time, the outbound pilot boat identified the vessel on radar, realised that she was in imminent danger of grounding, and called on VHF to warn the master., run into ~ ući u opasnost, srljati u opasnost, ići ususret opasnosti: You are running into danger. Shallow water to the south of your vessel., potential ~ potencijalna opasnost: moguća opasnost All forms of cracks are a potential danger and are totally unacceptable., be aware of the ~ biti svjestan opasnosti, shvatiti opasnost: The master must be aware of the danger in the port named and exercise his right of proceeding to the nearest safe port., head into ~ srljati u opasnost, ploviti prema opasnosti: Watchkeepers ashore noticed that the vessel was heading into danger, and made verbal warnings. (https://safety4sea.com/)

dangerous and hazardous cargo; D&H (n) (cargo handling, cargo) opasan teret
dangerous cargo (n) (cargo) opasni teret: The ship was displaying navigation lights appropriate to its length and a local signal, a flashing red light at the masthead, to indicate it was carrying a dangerous cargo. A specialist cargo ship was in port loading a dangerous cargo.
dangerous course /ˈdeɪndʒərəs/ (n) (navig) opasan kurs: You are steering a dangerous course.
dangerous goods (n) (cargo) goods are considered dangerous if the transport of such goods might cause harm, risk, peril, or other evil to people, environment, equipment or any property whatsoever (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp) opasan teret,
opasni tereti: aying navigation lights appropriate to its length and a local signal, a flashing red light at the masthead, to indicate it was carrying a dangerous cargo. In this case the container must be treated as dangerous goods and should be marked properly and stowed in accordance with the IMDG Code.

document Document issued by a consignor in accordance with applicable conventions or regulations, describing hazardous goods or materials for transport purposes, and stating that the latter have been packed and labelled in accordance with the provisions of the relevant conventions or regulations (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp) prijava opasnih tereta na brodu, izjava o opasnim teretima na brodu
Dangerous Goods Certificate (n) (safety, cargo handling) Svjedodžba o prijevozu opasnih tereta: Those responsible for the packing of dangerous goods into a freight container or vehicle should provide a signed dangerous goods container or vehicle packing certificate, stating that the provisions of paragraph 5.4 of the IMDG Code have been met, and the original or a copy should be handed over to the vessel operator.

dangerous goods declaration Document issued by a consignor in accordance with applicable conventions or regulations, describing hazardous goods or materials for transport purposes, and stating that the latter have been packed and labelled in accordance with the provisions of the relevant conventions or regulations (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp) Deklaracija o opasnim teretima na brodu, Izjava o opasnim teretima na brodu: The shipper of dangerous goods should provide a dangerous goods declaration embodying the relevant details listed in section 9 of the general introduction to the IMDG Code and the original or a copy should be placed aboard the ship. This is a signed certificate or declaration that the consignment, as offered for carriage, is
properly packaged, marked, labeled or placarded as appropriate and in proper condition for carriage ...

**Dangerous Goods Declaration** (=DGD) *(logist, mar law)* Hazardous Goods Declaration must be issued by the shipping company in accordance with the IMDG regulations. https://www.logisticsglossary.com/term/dgd/

**Prijava opasnih tereta, deklariranje opasnih tereta:** Based on these details of DGD, the shipping company will determine whether the goods can be accepted for transport. If this information is not given in time or if it is incorrect, the shipping company may refuse the cargo. https://www.logisticsglossary.com/term/dgd/

**Dangerous Goods Manifest** *(mar law)* **Manifest opasnih tereta na brodu:** The ~ lists the weight, quantity, packaging, class and stowage of all hazardous cargo on the vessel. It is compiled by the agent and signed by the Master.

**Dangerous Goods Packing Certificate** *(cargo handling, cargo)* A document as part of the dangerous goods declaration in which the responsible party declares that the cargo has been stowed in accordance with the rules in a clean container in compliance with the IMDG regulations and properly secured (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp) *svjedodzba o pakovanju opasnih tereta*

**dangerous obstruction** *(navig)* opasna prepreka, opasna zapreka, opasna smetnja: A safer option would have been to leave far more sea room before altering course, and carefully monitoring their position as they sailed around a dangerous obstruction.

**dangerous quadrant** *(navig)* opasan kvadrant

**dangerous situation** *(safety)* opasno stanje, opasna situacija: Besides taking care to control the heating of fuel oil tanks, the recommendations of the IMSBC Code must be strictly followed to prevent a dangerous situation from developing as well as to avoid cargo damage.

**dangerous substances** *(cargo, safety)* opasne tvari: Brief all crew members / passengers on the symptoms caused by dangerous substances.

**dangerous target** *(navig)* opasna jeka (na radarskom ekranu)

**danger zone** *(navig)* zona izbjegavanja, zona uklanjanja s puta (drugim brodovima): We held a special safety drill prior to entering the danger zone.

dead freight /ˈdedˌfreɪt/ (=deadfreight) (n) (mar law, shipping econ, logist) A sum of damages payable by the charterer to the shipowner or intermediate charterer where the charterer loads less cargo than promised in the charterparty.

vozarina koja se plaća za neispunjeni brodski prostor ili neukrcanu količinu ili masu tereta; cargo slots paid for but not used; Amount of money payable by a shipper or charterer to a shipowner or shipping line for failing to load the quantity of cargo stipulated in the contract of carriage. Deadfreight is normally payable at the full freight rate but may be reduced by the loading and/or discharging expenses if these were included in the freight. http://www.tkmglobal.net/chartering_D.HTM; an amount a shipper needs to pay, when the shipper does not utilize the space he or she has reserved on a truck or a vessel. https://www.logisticsglossary.com/term/dead-freight/; non-utilization of cargo carrying capacity on a vessel vozarina prazno za puno, prevoznina prazno za puno, mrtva vozarina, naknada vozarine za neiskorišteni brodski prostor: Otherwise the Carrier shall be relieved of any obligation to load such cargo and the vessel may leave the port without further notice and dead freight is to be paid. Late amendments or cancellations may result in dead freight fees, or late cancellation fees. https://www.logisticsglossary.com/term/dead-freight/

deadhead (n) 1 (shipping econ) a case when a truck returning from a delivery has no return cargo on the back haul (return journey) kamion bez povratnog tereta; 2 (boating/yachting, safety) plutajući trupac, plutajući balvan
dead in the water (prep phr) (navig, figurative) sudden loss of power after being underway bez kretanja, bez zaleta plovila, bez abreive, zaustavljen brod / jedrilica

deadlight /ˈded ˈlaɪt/ (n) 1 (nav arch) a strong shutter fitted over a porthole or other opening that can be closed in bad weather; a port lid or cover poklopac brodskog okna, čep brodskog okna: Attention! Close all dead lights and storm doors.
a watertight glass mounted in the deck or cabin top which lets light below svjetlarnik, špiraj
deadline /ˈdeɪli/ (n) (shipping econ) datum istjecanja, krajnji rok
deadman (n) (seamanship) A line that has come free of its cleat and is thrashing in the wind or dragging in the water, a very embarrassing example of poor seamanship.
(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) odvezani konop (koji se vuče u moru)
deadman alarm button (n) (navig, safety) alarmno dugme u slučaju smrti (časnika straže): The ‘dead man’ bridge alarm system was disengaged;
deadman alarm panel (n) (navig, safety) alarmna ploča u slučaju smrti (časnika straže)
dead man switch (n) (navig, safety) sigurnosni prekidač u slučaju smrti (časnika ili mornara u straži): These included ‘hard’ barriers such as more effective guards and a dead man switch, and ‘soft’ barriers such as risk assessment and understanding of proper operating procedures; This boat was not fitted with a “dead man’s” switch, and in the event of the helmsman being tipped overboard would have run on in an uncontrolled manner, putting the individual at ris
dead reckoning /ˈdedrekɪŋ/ (n) (navig) Dead reckoning or DR, in which one advances a prior position using the ship’s course and speed. The new position is called a DR position. It is generally accepted that only course and speed determine the DR position. Correcting the DR position for leeway, current effects, and steering error result in an estimated position or EP. An inertial navigator develops an extremely accurate EP (Bowditch 2001); The determination of the position of a craft by adding to the last fix the craft’s course and speed for a given time. (IAMSAR/Camsar2014) zbrojena plovidba, zbrojena navigacija: The GPS which fed the ECDIS, had lost its signal and gone into Dead Reckoning (DR) mode shortly after assuming this course. ~ navigation zbrojena navigacija,
dead reconning position (n) (navig) zbrojena pozicija, pozicija dobivena zbrojenom navigacijom, Italian: posizione stimata
defdrise (=rise of bottom) (n) (nav arch) the design angle between the keel and horizontal, i.e. between the keel to the full breadth of the turn of the bilge nagib dna

defdrun (n) (boating/yachting) jedrenje niz vjetra, niz vjetar
Dead slow ahead! (navig, seamanship) Sasvim lagano naprijed!
Dead slow astern! (seamanship, navig) Sasvim lagano krmom!
The superintendent asked the master for “dead slow ahead” but the latter relayed the order as “dead slow astern”, which was executed by the officer in the wheelhouse. While weighing up the anchor, the master ordered engines on ‘dead slow astern’ but found himself in close quarter situation with a bunker-barge.
defdrwater (n) (seamanship) vrtlog u brazdi broda
defdrweight /ˈdɛdˌwɛt/ (n) (nav arch) the weight of a ship’s cargo, stores, fuel, passengers, and crew when the ship is fully loaded; The lifting or carrying capacity of a ship when fully loaded. This measure is expressed in long tons when the ship is in salt water and loaded to her marks. It includes cargo, bunkers, water, (potable, boiler, ballast), stores, passengers and crew. (www.euronav.com); ukupna masa tereta, goriva, vode, zaliha, posade, putnika i njihove prtljage koju brod može prevesti

https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni

dead weight (n) (shipping econ) mrtva masa
defdrweight all told (DWAT) (n) (nav arch, logist) Deadweight all told or the gross deadweight tonnage of a vessel expresses the quantity of goods that the vessel can load, including provisions, lubricant and fuels. sveukupna nosivost broda
defdrweight capacity (n) (shipping econ) ANTONYM carrying weight mrtva masa
defdrweight capacity (=Deadweight Cargo Capacity; DWCC) (n) (nav arch) ukupna nosivost broda
defdrweight cargo (=paying deadweight; useful deadweight; deadload; burden) (n) (nav arch, shipping econ) The number of tons remaining after deducting from the deadweight the weight of fuel, water, stores, dunnage, and crew and their effects necessary for use on a voyage. (https://www.history.navy.mil/) korisna nosivost
defdrweight cargo capacity (=DWC) (n) (nav arch, logist) the net deadweight tonnage of a vessel; it only expresses how much pure cargo can be loaded, without provisions, lubricant and fuels for the vessel https://www.logisticsglossary.com/term/deadweight-cargo-capacity/ neto nosivost broda, Korisna nosivost, nosivost tereta
deadweight coefficient \( (n) \) (nav arch) iskoristivost istisnine
deadweight tonnage \( /\text{d}e\text{d} \text{w}e\text{t} \text{t}a\text{n}i\text{d}z/ \) \( (=\text{DWT}) \) \( (n) \) (nav arch) the actual calculated weight in tonnes of the cargo which can be carried by a ship

(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) nosivost
deadwood \( (n) \) (sailing vessels, nav arch) a wooden part (vertical timbers or planking) of the centerline structure of a boat, usually between the sternpost and amidships. It is used to fill the spaces where, owing to the shape of the vessel, the floor-timbers have to be discontinued

krmeni umetci mrtvog ugla, mrtva statva
deadwood

de-aerate \( /\text{d}\text{e}\text{a}\text{r}\text{e}\text{t}\text{e}/ \) \( (v) \) (marine eng) oppliniti, odzračiti

debris \( /\text{de}\text{b}\text{r}/ \) \( 1 \) (safety) ostatci (od eksplozije nesreće): All of a sudden, the aft turbocharger exploded and debris flew all over the engine room. Dozens of containers were blown overboard in the blast, creating a debris field that was estimated to be five miles around the vessel.
nakon brodoloma: The NTSB launched its investigation into the sinking of the MV … on October 5th after floating debris from the vessel was located by Coast Guard searcher and rescue crews. That day, only the EPIRB and debris were found. The following morning, the liferaft was recovered, inflated but with a severed painter.

debt /dət/ (n) (shipping econ, mar law) dug: Lien is the right to hold property until a debt is paid off. Top priority debt means claims for public interests, which are paid first to creditors and include cargo owners’ damages and unpaid charter fees ... The court arrest the container vessel over an estimated USD eight million pollution debt. bad ~s nenaplativa potraživanja

debtor /dɪˈtɔr/ (n) (mar law) ANTONYM creditor dužnik
debunkering (n) (safety) iskrcaj goriva (radi rasterečenja broda): The debunkering of the ship that sunk in may has been completed and all leaks sealed.
decanting /dɪˈkæntɪŋ/ (n) (safety) discharging the slop liquid overboard iskrcaj iz taložnog tanka u more, iskrcaj pročišćenog sadržaja taložnog tanka u more:
Decanting of Slop Sbd will be carried out after enough time has been given to slops to settle. Although the decanting line between these tanks should have been drained of naphtha during tank washing, this was overlooked. The owners do not give enough time for decanting which takes about 24/36 hours and express their concern over any time delays.
decay /dɪˈkeɪ/ (n) (cargo) propadanje (tereta), truljenje, gnijiljenje
deceleration /dɪˈsɛlərəʃən/ (n) (marine eng) ANTONYM acceleration opsoite of accelerataion usporavanje
deciduous fruits /dɪˈsɪdʒəs/ (n) (cargo) voće bjelgoričnih biljaka, listopadno
voće: Optimum transit temperatures for deciduous fruit vary greatly per type and variety, but mostly range between −1 and +4°C. Reefer trade growth was held back due to lower shipments of both deciduous and citrus fruits on the back of extreme weather conditions in Europe and drought in South Africa and Chile. Twitter https://www.drewry.co.uk/
decision odluka make a ~ donijeti odluku, odlučiti: Given the tug’s rapidly closing distance to the pipeline gantry, he was conscious of the limited time available in which to make his decision., ~making donošenje odluka: Fatigue affects a person’s alertness, comprehension, decision making abilities, judgment, awareness of danger and many other capabilities essential to the OOW.
deer (n) (nav arch) the structures or structural parts of a ship forming the approximately horizontal surfaces in the ship’s general structure paluba, koverta (na sjevernom Jadranu), kuverta (u Dalmaciji), Italian:ponte; coperta: Decks are usually designated by their location, as boat deck, bridge deck, upper deck, main deck, etc. on ~ na palubi: Once the helicopter winchman was on deck, he discussed the situation with the crew. The lashings of the grab loosened and the grab shifted away from its position on deck., flush ~ ravna plauba, paluba bez
prepreka, clear ~ slobodna paluba, paluba bez prepreka, bridge ~ paluba navigacijskog mosta, forecastle ~ paluba kaštela, car ~ paluba za putničke automobile, vehicle ~ paluba za teretna vozila, main ~ glavna paluba, poop ~ paluba krmice, krmica, paluba kasara, paluba krmenog nadgrađa, navigating bridge ~ paluba zapovjedničkog mosta, boat ~ paluba brodica za spašavanje, above ~ iznad palube, below ~ ispod palube, for on ~ carriage teret primljen za prijevoz na palubi, ~ Cargo Memo

Izjava o palubnom teretu
https://cruiseline.com/ship/zuiderdam/decks

**deck beam** *(n) (nav arch)* palubna sponja, *katina, žbaj, lata*: It was also noted that the hold, in general, was in poor condition with heavy scaling on all surfaces and large wasted holes in the deck beams, especially those adjacent to the former hold bulkhead.

**deck boy** *(n) (mar law)* mladić palube, *muco, moco*: the deck boy standing near the tank entrance entered the hatch to help his colleagues

**deck cadet** (=Trainee Navigational Officer; Nautical Apprentice) *(n) (mar law)* kadet, vježbenik palube: The Deck Cadet was passing a mooring rope to the tug from the aft winch drum after taking it around a set of bitts and out through the aft centre fairlead.

**deck cargo** *(n) (cargo)* palubni teret, teret na palubi: The list could not be significantly reduced by adding ballast, so the decision was made to jettison some of the deck cargo. The vessel managed to make her way to a safe anchorage, where the deck cargo could be removed and complete packages eventually re-stowed. secure ~ for sea pričvrstiti palubni teret za režim plovidbe

**deck centre girder** podveza, bočni nosač palube

**deck crane** *(n) (nav arch)* palubna dizalica: The C/O and deck crew held a toolbox meeting and prepared the port (weather) side combination ladder first. The bosun, with the assistance of a deck cadet and five seamen, had just completed changing the cargo wire on a deck crane. I was overseeing a bulk carrier self-discharging cargo by deck cranes and grabs.
Simultaneously, the deck crew was taking fresh water from a shore connection through tank filling pipes located on the poop deck. As the vessel’s propulsion was going astern in order to stop the vessel the Master reported by VHF radio to the deck crew that the vessel was ‘in position’.

The deck department onboard a ship offers a wide range of jobs from ordinary seamen to the captain. Job positions in this department include Captain, Chief Officer, 2nd & 3rd Officers, Boatswain and Seaman. All shipboard personnel and, in particular, the deck department, must be advised to report any deficiencies immediately.

Three container vessels have recently suffered heavy-weather damage to deck equipment, bow structure, anchor and containers.

Several areas of the vessel were damaged, these included the deck fittings, hatches and coamings.

The investigation also found that the deck gate opening was unsuitable to be used as a means of pilot access.
the sea pilot attempted to board by stepping up and through an open gate in the railings onto ship’s main deck. 

**deck gear** *(nav arch)* deck machinery, deck fittings, running rigging, and standing rigging.

**deck girder** *(nav arch)* podveza palube, flanged plate ~ nosač paluble s pojasnom trakom.

**deck hand** *(nav arch)* podveza palube, flanged plate ~ nosač paluble s pojasnom trakom.

**deck hatch** *(nav arch)* poklopac palubnog otvora, bokaporta.

**bukaporta** *(nav arch)* poklopac palubnog otvora: The planks were bound and stacked in three tiers on top of the deck hatch covers.

**deckhead** *(nav arch)* The underside of the deck, viewed from below (the ceiling.)

**deck height** *(nav arch)* the vertical distance between the moulded lines of two adjacent decks

**deck-lashings** *(nav arch)* palubna oprema za učvršćivanje (tereta), palubne rice: Deck lashings were removed and crew stood by to remove the support trestle at the front of the trailer.

**deck leak** *(nav arch)* propuštanje na palubi, propuštanje palube

**deck level** *(nav arch)* razina palube: Before I reached the deck level I noticed that below the top step one rope was partly torn off.
**Decklight** (n) *(nav arch, seamanship)* = deadlight  
**Deck lighting** (n) *(nav arch)* palubna rasvjeta, rasvjeta palube: It took a while before I could clearly distinguish the towing lights, due to the bright *deck lighting* of the tug.  
**Deck lights** (n) *(navig)* palubna svjetla, radna svjetla na palubi: The weather and sea conditions were good, but it was dark, so navigation lights and aft *deck lights* were switched on.  
**Deck line** (n) *(nav arch)* linija palube, oznaka palube  
**Deck load** (n) *(cargo handling)* teret na palubi: A general cargo/container vessel was on passage in heavy weather with a full *deck load* of containers.  
**Deck log** (n) *(navig)* A full nautical record of a ship’s voyage, written up at the end of each watch by the deck officer on watch. The principle entries are: course steered; distance run; compass variations, sea and weather conditions; ship’s positions, principal headlands passed; names of lookouts, and any unusual happenings such as fire, collision, and the like. *(www.euronav.com)*  
**Deck Logbook** *(=deck log)* (n) 1 *(navig, seamanship)* This log is the legal record of the passage. *Dnevnik palube*: In any event, the officer having the conn must be clearly indicated in the ship’s *deck log* at all times. The *deck log* combined with the bearing log should constitute a complete record of the passage. At the time of the collision, the container ship’s OOW was at the chart table *completing the hourly entries* into the *deck log*. In *deck log book* all the entries regarding navigation and charts are mentioned. As everything was quiet, the master took the opportunity to inspect the *deck logbook* and found that the entries were incomplete.  
2 *(cargo handling)* *Dnevnik ukrcaja tereta na palubu*: *Cargo Lashing Deck Log*  
**Deck machinery** (n) *(marine eng, nav arch)* All sorts of machinery which is located on various decks of a ship used for mooring, anchoring etc., such as windlasses, winches etc. *Palubni strojevi*: The steam supply to the deck machinery was shut down and the Master informed of the situation … the insulation readings returned to normal and power supply was restored to the *deck machinery*.  
**Deck officer** = mate  časnik palube, oficir palube: Deck Officers maintain watches on the bridge at sea and about the ship in port. They are responsible for passage planning, the safe navigation of the ship, cargo loading and discharge, ship stability, communications and the maintenance of the hull and deck equipment. The duty *deck officer* flashed the Aldis lamp five times in the direction of the overtaking ship – but no response. ~ trainee student nautike: At the conclusion of the initial training the successful trainee will have attained: HNC/HND, Foundation Degree or Honours Degree in Marine Operations. *(e.g. in UK, Ireland)*  
**Deck party** (n) *(seamanship, safety)* palubna skupina (za izvanredna stanja), *Plaubna grupa*: A *deck party* was assembled and they donned lifejackets and attached themselves to a previously rigged safety line. The Master was quick with his order to put rudder hard to port and to order the *deck party* to deploy a lifebuoy.  
**Deck plank** (n) *(sailing vessels, nav arch, boating/yachting)* *Platica palube*  
**Deck planking** (n) *(nav arch)* wood sheathing or covering on a deck *oplata palube*  
**Deck plate** (n) 1 *(nav arch)* palubni lim, lim palube: The poop *deck plate* buckled in way of sheared Panama fairlead.; 2 *(boating/yachting)* a metal or GRP plate fitting on the deck that can be opened to take on fuel or water čep na palubi za krcanje goriva / vode  
**Deck plating** (n) *(nav arch)* steel plating of a deck *oplata palube*: The fairlead detached from the *deck plating*. Whilst this was being heaved tight the complete structure of the Old Man suddenly broke away from the *deck plating*.

decommission /diˈkeɪmɪʃən/ (n) (shipping econ, mar law) taking a ship out of service

decommissioning broda, povlačenje broda iz plovibde, stavljanje broda izvan pogona: Keel laying is one of the four specially-celebrated events in the life of a ship; the others are launching, commissioning, and decommissioning.
decommission /diˈkeɪmɪʃən/ (v) (shipping econ, mar law) to take or put a ship out of service

decommission broda, poući brod iz plovibde: The company has decided to decommission its jack-up rig.
decommission (n) (shipping econ, cargo handling) skladište za
dedicated berth (n) (mar law, ports) = single-user berth brodarov vez, vez za jednog korisnika, vlastiti vez: A car and foot passenger ferry arrived alongside her dedicated berth during the early hours of the morning.
deduct (dikt) (v) 1 izvesti, zaključiti; 2 oduzeti, odbiti: If the shipowner wrongly and in breach of contract deprives the charterer for a time of the use of the vessel, the charterer can deduct a sum equivalent to the hire for the time so lost.
deduction (difekfən) (n) (mar law) odbitak (od plaće) ~s from the wage odbici od plaće: The only deductions from such wages shall be proper statutory deductions as recorded in the Special Agreement and ..., statutory ~s zakonski odbici
deem (v) 1 držati, smatrati, misliti: Freight including charges shall be deemed fully earned on receipt of the Goods by the Carrier and shall be paid and non-returnable in any event. By the time the other vessel was a mile off, it was deemed that there was a risk of collision. This Agreement shall be deemed to be terminated in the case of the sale of the Vessel or, if the Vessel becomes a total loss or is declared as a constructive total loss, there were no pumps immediately available and it was deemed too dangerous to go on board, so the vessel sank alongside, ending up sitting on the harbour bottom. the risk shall be ~ed to exist if ... valja držati da rizik postoji ako ...; 2 suditi; 3 vjerovati: The bridge team on the ferry deemed the fishing vessel to be on the wrong side of the fairway.
depth draft (n) (navig) duboki gaz: As the displaying of the deep draft signal is voluntary (Colreg 28), it was suggested that it should be made mandatory. As we are a deep draft vessel, we have to alter course at the buoy SE of Pyramid Shoal in order to go South (180 degrees).
depth draft channel (n) (navig) plovidbeni kanal za brodove s dubokim gazom: She was tracking well clear of us until, at a mere 8 cables range, she decided to take the depth-draught channel, turned to port and scraped down our port side less than 2 cables off.
depth draft vessel (n) (mar law) = vessel constrained by her draught brod

depth frame (n) (nav arch) duboko rebro
depth laden (adj) (seamanship) jako nakrcan (brod): Vessel Traffic Services (VTS) made
several calls to the bulker warning that there was a deep laden VLCC tanker in the eastbound lane and they needed to give it a wide berth.

deep port (n) (shipping econ) luka za koje se tereti krcaju dublje u brodsko skladište kasnija luka ticanja: Thus, cargo for later or deep ports on the voyage bas to be loaded first, and that for earlier ports loaded last.

deep sea (n) (oceanogr, mar law) pertaining to offshore ocean areas (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) otvoreno more, područje prekomorske plovidbe ~ vessel prekoocenski brod, prekomorski brod, brod prekomorske plovidbe: This residual fuel is the heavy fuel oil (HFO) traditionally supplied to ships as bunkers and used in the main engines of most deep-sea and some coastal vessels.

deep-sea navigation = ocean navigation duga plovidba, oceanska plovidba, prekomorska plovidba: During deep sea navigation at full sea speed, with the chief engineer’s approval, the Electrician was engaged in isolating each of the four engine room supply fans for routine inspection, maintenace and operation.

deep sea pilot (n) (navig) peljar za peljarenje na otvorenom moru: The OOW received a call from a deep sea pilot on board a nearby tanker, warning him of a developing close-quarters situation.

deep-sea service (n) (shipping econ) duga plovidba, prekoocenska plovidba, prekomorska plovidba: This practice is on the increase, usually involving the use of containers in deep sea container services.

deep-sea tanker (n) (shipping econ) prekoocenski tanker: Low-speed engines are dominant in the mainstream deep sea tanker, bulk carrier and container ship sectors while medium-speed engines are favoured for smaller cargo ships, ferries, cruise

deep-sea trade (n) (shipping econ) duga plovidba, prekoocenska plovidba, prekomorska plovidba: The largest vessels, which typically are around 80,000 cubic meters, are used in the deep-sea trade, for example from the Arabian Gulf to Japan.

deep-sea tug oceanski tegljač

deep six (idiom) (seamanship) to throw an article overboard bacati stvari u more

deep tank (n) (nav arch) tank extending from the shell plating, or inner bottom to the lowest deck
duboki tank, diptank: Deep tanks are often fitted with hatches so that they may also be used to store dry cargo instead of fuel oil, ballast water, or liquid cargo. About 130 tonnes of fuel were to be taken into No 2 deep tank, which had a 360 tonnes capacity.

deep tank bulkhead (n) (nav arch) pregrada dubokoga tanka

deep transverse (n) (nav arch) visoki poprečnjak

deep V hull (n) (nav arch) trup u obliku slova V: 74 MAIB Safety Digest 2/2008 _ CASE 24 CASE 24 Great Fun Until it all Goes Wrong Narrative A new model of a 7m long, stepped deep V hull powerboat had been acquired by a leisure craft sales office.

deep water (=deepwater) (n) duboko more, duboka voda: All vessels should walk out the anchor when anchoring in deep water. The normal course in this area entails a dog leg to pass the beacons and keep in deep water.

deep water anchorage (n) (navig) sidrište za brodove s dubokim gazom: This passage plan should have been changed to pass outside the Humber deep water anchorage.

deepwater berth (n) (ports, shipping econ) privezište izvan doka, vez u dubokoj
deep water channel  

The deep water channel from Fawley to the Container Terminal is maintained to a depth of 10.2m below Chart Datum.

defect  

Due to a defect, No.3 generator was unavailable for use.

vodi  

deep water channel (n) (ports) plovidbeni kanal za prekomorske brodove:
The deep water channel from Fawley to the Container Terminal is maintained to a depth of 10.2m below Chart Datum.

default  

Due to a defect, No.3 generator was unavailable for use.

defect  

Due to a defect, No.3 generator was unavailable for use.
defective manjkav, neispravan, defektan, nepotpun, oštećen: The root cause of the spill in the MARS report appeared to be a defective bunker hose. High-pressure CO2 fire-extinguishing systems also warns against inadvertent discharge, due to defective cylinder valves. Against his better judgement the Master sailed with a defective engine into a Southerly gale. B/L bears no clauses or endorsement as to the defective condition of the goods or packaging, etc. There was no heading readout available because of the defective satellite compass. Serious damage may be caused by water leaking from defective turbo-blower casings into the cylinders via the exhaust manifolds. The fire was caused by hydraulic oil, at about 100 bar, being sprayed from the defective seal. Further investigations on board other vessels revealed more such defective lifebuoy as that were accompanied by valid type-approval certificates. The findings revealed the following: absence of rubber gaskets in hatch covers * leaking double bottom tanks * draft marks and load lines not readable * lifeboat launching arrangements defective and inoperative * lifeboat engines inoperative. The cargo had been loaded in a defective condition in that it was already heat damaged. https://safety4sea.com/

**Defence Mapping Agency (DMA) Kartografska agencija Ministarstva obrane (US)**

defendant /diˈfendənt/ (mar law) ANTONYMP plaintiff tuženik, tuženi, optuženik, optužena stranka, okrivljenik, okrivljeni: Permitting these state law claims to proceed against defendant clean-up responders could cause cleanup responders in the future to refuse or hesitate to provide their services to mitigate the impact of future spills. Motion Practice Where the troll’s claim is frivolous or its complaint is procedurally or jurisdictionally defective, a motion to dismiss may allow a defendant to dispose of a case before engaging in expensive discovery.

defense (n) (mar law) ANTONYM prosecution obrana

defense attorney ANTONYM prosecutor Branitelj, zastupnik obrane:

**Defense Mapping Agency Hydrographic/Topographic Center (DMAHTC) (n) (navig, mar law) Kartografska agencija Ministarstva obrane**

SAD: Defense Mapping Agency Hydrographic/Topographic Center creates or produces charts to determine the fix position of the vessel by the lighthouses, headland, and buoys indicated in their charts.

defer /diˈfər/ (v) (safety, mar law) odgoditi, otkazati ~ sailing odgoditi isplovljenje, otkazati isplovljenje: A further assessment of the risks should be made and, if necessary, sailing deferred until the equipment is repaired.

deferred rebate /diˈfərd ˈreɪˈbeɪt/ (n) (shipping econ) naknadni rabat

deficiency /diˈfɛnsi/ (safety) neispravnost, nedostatak, manjak: deficiencies found and follow up actions utvrđeni nedostaci i naknadne radnje / akcije
deficiencies on the 85,300 dwt bulk carrier while conducting a routine inspection on 28 September. The Chief Officer is responsible for any deficiency in the number on the discharge of the goods. These deficiencies include, among others, failure to maintain critical equipment such as the ship’s engines and fire extinguishing systems, inadequate food provisions, unsanitary living conditions including defective toilets and water leakage into cabins, inadequate training for crew and evidence of crew exceeding 72 hours of work in seven days and being underpaid. gCaptain
<info=gcaptain.com@mail122.sw17.mcsv.net> The AMSA said the deficiencies were serious enough to warrant immediate detention of the ship. https://gCaptain.com severe ~ ozbiljni nedostatak, rectify the ~ ispraviti nedostatak: The defective tachometer was duly renewed and the deficiency rectified at the next port., make up any ~ nadoknaditi nedostatak, ispraviti nedostatak: To make up for any leaks in the system there is a header tank, which automatically makes up any deficiency., issue ~ utvrditi neispravnost: In total, the cargo ship has been issued 73 deficiencies between 12 August 2015 and 29 February 2017., find ~ utvrditi neispravnost, ustanoviti neispravnost: The Port State Control Officer inspected the vessel and found deficiencies that allowed the ship to be detained under the Maritime Transport Act section 55. https://gCaptain.com Majority of the deficiencies found upon inspection in 2019 were related to safety of navigation (15.1%), life saving appliances (13.8%), health protection, medical care, social security (9.7%) and fire safety measures (9.7%). https://safety4sea.com/; 2 nesťašica; 3 oštećenje tereta deficient /dɪˈfɪʃənt/ neispravan, manjkav, defektan, nedovoljan: Deficient fire safety equipment has led US Coast Guard (USCG) inspectors to detain a bulker at the Port of Tacoma until the issues can be resolved. The atmosphere in any enclosed space may be deficient in oxygen and/or contain flammable and/or toxic gases or vapours.
deflection /dɪˈflektən/ (n) (marine eng) otklon rudder ~ otklon kormila; 2 (marine eng) bending or movement away from the normal position, due to loading (http://www.marinedieseleurope.com/) izvijanje, savijanje ~ of the webs izvijanje / savijanje koljena, defleksija koljena: To ensure efficient and reliable operation the crankshaft should be checked periodically for alignment by measuring the deflection of the webs., crankshaft ~ iskrivljenost koljenastog vratila: The main engine crankshaft deflection was to be measured and recorded at the anchorage, a routine job completed every three months.
deflection coils (n) (navig, electr) otklonske zavojnice (radara): The focused electron beam is deflected by a magnetic field that is generated by current flow through a set of deflection coils.
deflection indicator (n) (navig) pokazivač otklona (kormila) deflection system (n) (electr, navig) COMPARE flow of radar signal otklonski sustav (radara) deflector (n) ~ plate pločice deflektora deflektor deflexion; see: deflexion (n) = deflection otklon, defleksija deformation (n) (marine eng) izobličenost, deformacija: The ship sustained a minor deformation of the outer structure of the bridge wing. A modified vee-clamp, improved gasket and E-ring were able to compensate for the higher axial deformation. The upper two compression rings were increased in thickness to withstand the higher combustion pressure and reduce torsional deformation.. permanent ~ trajna deformacija, cause ~ prouzročiti deformaciju, resist ~ oduprijeti se deformiranju deformed ice (n) (oceanogr) led u komadanju, raskomadani led
defray /ˈdɪ friː/ to furnish or provide money for (costs, expenses, etc); pay  
platiti (troškove),  
nadoknaditi (troškove): The Owner shall be liable to defray the expense of medical care and maintenance until the sick or injured person has been cured or ... ~ the expense osigurati

novac za izdatke / troškove  
defrost damage (n) (cargo) šteta nastala odleđivanjem  
defrosting (n) (marine eng) odleđivanje: records of inert gas and venting operations; records of reefer defrosting and temperature control; reefer ~ odmrzavanje hladnjaka  
defruitor /ˈdrəːtər/ (n) (navig, electr) integrator s vodom za kašnjenje (impulsa u raconu)

degrees magnetic (n) (navig) magnetski stupnjevi  
degrees of emergency (safety, navig) stupnjevi opasnosti (u traganju i spašavanju zrakoplova), faze opasnosti Uncertainty Phase (1) = uncertainty phase stupanj neizvjesnosti (o postojanju pogiblji), Alert Phase (2) = alert phase stupanj pripravnosti, Distress Phase (3) = distress phase stupanj
pogiblji, stupanj pogibelji 

degrees true (n) (navig) pravi stupnjevi: The ARPA plot showed the ship to be steering 188 degrees true at a speed of about 12.

degroupage /ˌdiːˈgruːpɑː/ (n) (shipping econ) splitting up shipments into small consignments

pregrupiranje tereta, razdvajanje tereta (iz jednoga kontejnera u druge)

dehumidifier /ˈdiːhuːmiːdɪfər/ (n) (cargo handling) odvlaživač: Regular draining of control air bottle as well as main air bottle is to be included in the regular watch routine; Control air drier or dehumidifier, if fitted in the system, must also be checked and maintained at all times.

delay /ˈdiːleɪ/ (shipping econ) 1 (n) kašnjenje (dolaska broda, ukrcaja, iskrcaja, isporuke tereta itd.), zakašnjenje, zastoj: Serious delays to load and unload vessels at Venezuela’s main crude port started to create a backlog of tankers The ship sailed from the terminal without any delay. Expecting a long berthing delay at the discharge port, the charterers ordered the vessel to anchor outside the limits (OPL) of the port. delay in the vessel’s departure kašnjenje broda u odlasku: Another vessel was due onto the berth to discharge cargo, and the pilot was aware that a delay in departure may adversely affect commercial operations in the port.

zakašnjenje isporuke tereta: No compensation shall be payable for loss resulting from delay in delivery unless a notice has been given in writing to the carrier within 60 days, ~ in delivery prouzročiti zakašnjenje, izazvati kašnjenje: Anchoring and returning alongside following mechanical problems inevitably causes delays. The whole process caused a considerable delay to the vessel., give rise to ~ dovesti do kašnjenja, izazvati kašnjenje: Accidents give or may give rise to delay to the Vessel or claims or disputes involving third parties.

delay /ˈdiːleɪ/ (v) 1 (navig) odgoditi za kasnije: The Master did not exercise his overriding authority for the safety of the vessel to delay sailing until his watchkeepers and lookouts were adequately rested. The vessel’s owners and DPA were aware of the conditions and asked the master if he planned to delay the voyage, and shelter. ~ departure odgoditi isplavljenje: Initially, the fog had been quite thick and had delayed departure.

2 odlaganje: Therefore, all reports and statements should be completed with the least possible delay.

delay in port (n) (ports) duži boravak broda u luci (zbog zastoja u ukrcaju/iskrcaju): Delays in ports. Ships in ports worldwide are facing delays because of the coronavirus, with additional HSE and customs checks being conducted in some ports.

delay line (n) (navig) The delay line stores the energy received from the power source. 

deletion of a ship /ˈdiːliʃən/ (n) (mar law) brisanje broda (iz upisnika brodova)

deliberate (adj) ANTONYM accidental namjeran: Ships can roll heavily for numerous reasons such as heavy weather, inadvertent use of the helm or deliberate avoiding action. General average also arises when a deliberate sacrifice or expenditure is incurred for the common safety of the other cargo interests.

deliberate act /ˈdiːliˈbɛrət/ (n) (mar law, mar ins) namjerni čin ~ or omission namjerni čin ili propust: However, a marine casualty does not include a deliberate act or omission, with the intention to cause harm to the safety of a ship, an individual or the environment

deliberation /ˈdiːlibərəʃən/ (n) (mar law) odluka (suda, nadležnog tijela)

deliver /ˈdiːlivər/ (v) 1 (shipping econ) predati, isporučiti ~ the goods / cargo /
consignment /predati robu / teret / pošiljku, isporučiti robu / teret / pošiljku: The carrier undertakes to deliver the goods against surrender of the document and the consignee undertakes to take over the goods from the carrier. Prijevoznik se obvezuje predati robu uz predočenje robnih dokumenata, a primatelj se obvezuje istu preuzeti od prijevoznika. We shall take necessary action on the arrival of the ship and deliver your consignment at your address.  

The ship is expected to be delivered in 2020. The vessel is expected to be delivered from the shipyard in the first quarter of 2020  

Delivered at Frontier (=DAF) (adj) (logist) isporučeno na granici  
Delivered at Place (=DAP) (adj) (logist) delivery at agreed place of destination  

Delivered at Terminal (=DAT) (adj) (logist, mar law) isporučeno na terminalu  
Delivered Ex Quay (named port of delivery) (adj) (mar law, shipping econ)  

Delivered Ex Ship (n, adj) (mar law, shipping econ) COMPARE INCOTERMS 2000  

Where goods are delivered ex ship, the passing of risk does not occur until the goods have been unloaded at the port of discharge (INCOTERMS) isporučeno s lučke obale (naznačena luka predaje tereta/robe)  

Delivering Carrier (n) (mar law, shipping econ) COMPARE INCOTERMS 2000  

The carrier who delivers the consignment to the consignee or his agent prijevoznik - isporučitelj tereta, konačni prijevoznik  

deliver the goods (n) (shipping econ, mar law) predati robu, isporučiti robu  

delivery /diˈlɪvərɪ/  1 (shipping econ) The physical and legal transfer of a shipment from consignor to carrier and from carrier/ transport agent to consignee  

(http://www.maerskline.com/en-jm/help/shipping-glossary); The process of delivering the consignment to the consignee at the agreed place. isporuka (tereta, robe), predaja (tereta, robe), dobava short ~ manjak pri isporuci tereta, nekompletna predaja tereta: All torn, slack or empty bags or packages should be carefully collected whilst discharging is in progress, delivered (against tally) along with the cargo, otherwise claim for short delivery is likely to follow.  

make ~ to predati / uručiti (teret), ~ order 1 bez zapreke, nalog za iskladištenje, izrčnica; 2 diobna teretnica, diona teretnica, on ~ po isporuci, po predaji (tereta), refuse to take ~ of the cargo odbiti preuzeti
**delivery note** (n) *(shipping econ, mar law)* A document accompanying a shipment of goods that lists the description, and quantity of the goods delivered. A copy of the delivery note, signed by the buyer or consignee, is returned to the seller or consignor as a proof of delivery.; A document recording the delivery of products to a consignee (customer).; when goods that are being transported on one Bill of Lading are sold on during transport by sea, the recipient who sold the goods will issue a delivery order or delivery note to the different buyers, each for their share in the load they purchased.

**delivery (of a ship)** /ˈdɪ lɪvərɪ/ (=dely) (n) *(mar law)* ANTONYM re-delivery Placing of a time chartered ship by the shipowner at the disposal of the charterer at the beginning of the period of the charter, at the time and place agreed. The place of delivery is often a location, such as a pilot station, where it is relatively easy to verify the time of arrival and hence the time when the charter commences. Normally, an on hire survey is carried out as soon as practicable in order to determine the condition of the ship and the quantity of bunkers on board at the time of delivery.
http://www.tkmglobal.net/chartering_D.HTM

predaja broda u najam, predaja broda unajmitelju (čartereru), predaja broda (čartereru) prilikom početka ugovora o najmu/zakupu, stupanje broda u najam (čarter): Our vessel let go her starboard anchor at an exposed roadstead at night in a near gale (30-33 knot wind), awaiting delivery on a new charter. delay ~ odgoditi isporuku broda, kasniti s isporukom, schedule the ~ of the ship planirati primopredaju broda: Delivery is scheduled to the second quarter of 2021 ...

delivery of the ship1 (n) 1 (shipping econ) isporuka broda; 2 (nav arch) primopredaja broda: Hyundai Heavy Industries (HHI), the world’s biggest shipbuilder, announced today the delivery of the MV Black Lion.

delivery of the ship2 (n) (nav arch) primopredaja broda, priimopredaja broda: Delivery of the first ship is anticipated for 2020.

delivery order /diˈlɪvərɪ,ər/ (shipping econ) = ship’s delivery order isprava kojom brodar potvrđuje da je primatelj podmirio sve obveze iz teretnice te može preuzeti teret. primatelj se legitimira prezentacijom originala teretnice zapovjedniku broda. U praksi se najčešće primatelj s teretnicom javi prijevozniku, agentu. Nakon što je primatelj podmirio sve obveze iz teretnice, agent povlači teretnicu i u zamjenu za nju izdaje posebnu ispravu kojom se potvrđuje da je osoba navedena u ispravi potvrđuje primatelj teretnice i da je primatelj podmirio sve obveze iz teretnice; A document from the consignee, shipper, or owner of freight, ordering a terminal operator, carrier or warehouseman to deliver freight to another party. (http://www.globalnegotiator.com/international-trade/dictionary/delivery-order); An order from the consignee, shipper or owner of freight to a terminal operator, carrier or warehouse to deliver freight to another party. On imports, it may also be known as a pier release (http://www.maerskline.com/en-jm/help/shipping-glossary); A carrier’s delivery order (negotiable document) is used for splitting a B/L (after surrender) in different parcels and have the same function as a B/L. (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp); Document issued by a liner company’s agent authorizing the party named in it to take delivery of specific cargo from a ship. It is normally issued in exchange for an original Bill of Lading.

http://www.tkmglobal.net/chartering_D.HTM; A Delivery Order is a document issued by the carrier, in exchange for (1) One or all duly endorsed Original Bill(s) of Lading or duly authorised and issued Bank Guarantee (2) A Telex Release confirmation from the loading port or principal confirming surrender of one or all Original bills of lading issued for the shipment (3) A copy of a Sea waybill issued, thus releasing the cargo to the legal consignee mentioned in the bill of lading.

(https://shippingandfreightresource.com/what-is-a-delivery-order/) izručnica, bez zapreke, nalog za iskladištenje / izručenje tereta s broda, nalog za iskrcaj, delivery order, nulla osta (tal. = bez zapreke): In the liner trade it is usual for the to present his B/L to the Carrier and receive in exchange a Delivery Order. This is the consignee’s authority to take of the goods from the ship or wharf or warehouse. Only with this delivery order the consignee can clear the cargo with customs and take delivery of the cargo from the port or terminal or depot or wherever it is stored. https://shippingandfreightresource.com/what-is-a-delivery-order/

delivery party (n) (shipping econ, mar law) The party to which goods are to be delivered. primatelj (robe, pošiljke, tereta)

In a voyage charterparty, an agreed amount payable to the
shipowner by the charterer in respect of delay in loading or discharging the vessel beyond the laytime, for which the owner is not responsible.

http://www.mindserpent.com/American_History/reference/Tetley_admiraalty/Tetley_2004.htm; fee is applicable when the customer holds carrier equipment in the terminal for longer than the agreed amount of free time (http://www.maerskline.com/en-jm/help/shipping-glossary); the payment made by the charterers if the loading and unloading times agreed in the chartering agreement are exceeded and the shipowners cannot be held liable for that. https://www.logisticsglossary.com/term/demurrage/

demurrage amounts, danguba, kontrastalije; Italian: controstalie, vrijeme prekostojnica, Italian: contrastalie: Each Merchant shall be liable towards the Carrier for a proportionate part of the total demurrage due, based upon the total freight on the goods to be loaded or discharged at the port in question. Port lockdown may result in the vessel arriving at the port and finding no cargo to be shipped, causing incurring of costly demurrage. The Impact of the Covid-19 Pandemic on Shipping BY PHILIP TEOH 04-07-2020 01:22:23 Instagram ~ rate the damages for detention which arise if the agreed loading or unloading times have lapsed and no demurrage days are allowed or if these have lapsed as well. https://www.logisticsglossary.com/term/demurrage/

naknada / iznos kao kazna za prekostojnica, on ~ u prekostojnicama / dangubi (brod ili čarterer): Provided that if the delay is due to causes beyond the control of the Merchant, 24 hours shall be deducted from the time on demurrage, charge ~ costs zaračunati prekostojnica: Shipping lines have been charging demurrage and detention costs on containers that the customers do not pick up or turn in on time. https://shippingandfreightresource.com/

demurrage amounts (o) (mar law) Demurrage Amounts paid by charterers to the owners of a vessel under a spot charter for time used for charterers' business in port, over and above the amount allowed for in the Charter Party, according to the terms, conditions and exceptions laid out in the Charter Party. (www.euronav.com) iznos troška prekostojnica demurrage and detention charges troškovi prekostojnica i zadržavanja tereta u luci, obračun troškova prekostojnica i zadržavanja tereta u luci: Lines charge demurrage and detention charges based on the date of return of empty container and when the depots are full and customers are unable to return the empties in time, they are also asked to pay these additional demurrage and detention. https://shippingandfreightresource.com

demurrage rate /dɪˈmaːrdʒ/ , Reid/ (mar law) iznos prekostojnica
dense (adj) gust ~ fog (meteorol) gusta magla: Two ships collided in dense fog in the Kiel Canal's inland port of Brunsbüttel. There was dense fog throughout the area when a pilot boarded a large bulk carrier which had discharged its cargo at a riverside berth. ~ traffic (navig) gust promet: The OOW should not be distracted to carry out the duties of safe navigation especially within such dense traffic areas. It should also include other precautions such as a reduction in speed - due to factors such as the proximity of dangers, the likelihood of dense traffic or poor visibility. ~ smoke (safety) gusti dim: As he opened the door he was immediately confronted by dense smoke.

density /ˈdɛnsəti/ 1 (stabil) (for ship stability purposes) density of any given substance is its mass per unit volume; tonnes per cubic metre (t/cubic metre) gustoća relative ~ te ratio of the density of the substance in question to that of fresh water; the density of fresh water is 1.000 t/cub. m; salt water density is 1.025 t/cub.m relativna gustoća; 2 zgosnutost / zbitost; 3 specifična težina
density of traffic (n) (navig) gustoća prometa: A combination of wind direction, restricted sea room, traffic density and routeing prevented a change of heading to provide sufficient lee for rigging the combination ladders; When aware that crossing traffic is expected in the region, density of traffic is
fairly high, and the size and speed of vessels is are high, then it is all the more reason that extreme caution is exercised.

dent: udubina (na trupu/limovima nakon sudara), udubljen dio (broda):
The only visible damage was a dent to the starboard bow. The barge whipped around and struck the shell plating on the port bow of the anchored ship, causing a large dent. There were slight personal injuries and the hull was dented. It was found that there were several scratches on the port side and several dents on the side shell of the port quarter below waterline. (https://safety4sea.com/)}
items and the fleet team could make the necessary arrangements for additional support during the discharge and the various inspections. **technical ~ tehnčki odjel, tehnččka služba:** It is the responsibility of the ship owner/manager’s **technical department** to ensure that ships’ engineers are aware of oil stress, the symptoms to look for and how to prevent it occurring. **operational ~ operativni odjel:** Regular reports are prepared for each **operational department**, each ship and for the company as a whole. **insurance ~ služba pomorskog osiguranja:** First of all, fill out the required form sending one copy to your **insurance department**. **accounting ~ računovodstveni odjel, računovodstvo:** The management needs to keep the **Accounting Department** up to date with operational proceedings at all times, with changes and corrections when necessary. **chartering ~ čarterska služba (brodarskog društva), služba iznajmljivanja/unajmljivanja brodova:** A **chartering department** does not consist entirely of brokers. **engineering ~ tehnčka služba (brodarskog društva):** The **engineering department** investigated and found the port stabiliser head severely damaged. 3 **ministarstvo (US)**

departure /diˈpɑːr/ (n) (seamanship) polazak (broda na putovanje), isplovljenje, partenza; Italian: partenza: Ensure that checklists include the requirement to prove propulsion controls before arrival and before letting go mooring lines on departure. The day after **departure from** a turnaround port, the chief officer began deep-sea ballast water exchange. **At the time of departure**, my VHF radio was tuned to Ch 16 and the appropriate Harbour Channel. 20 minutes after **departure** the cargo vessel’s main engine oil mist detector alarm sounded while the engine was at full ahead. The chief officer came to the bridge just **before departure** and was not fully briefed. **delay in ~ kašnjenje u polasku broda:** Fortunately no one was on the gangway when it failed and the incident resulted only in equipment damage and a minor **delay in departure**, ~ checks provjere pri isplovljenju: Prior to weighing anchor the chief mate had started to test the gear, and when the master arrived on the bridge he finished off the **pre-departure checks**, ~ checklist **provjera pri isplovljenju:** The poor use of the **departure checklist** is most likely to have contributed to this failure, ~ **manoeuvre manovra isplovljenja:** The master and pilot exchanged information on the vessel’s status and briefly discussed the planned **departure manoeuvre**, ~ report izvješće / izvještaj o isplovljenju, izvješće / izvještaj o polasku iz luke: Instructions from the charterer may indicate that **arrival and departure reports** for all ports be turned in on completion of the voyage, ~ **time vrijeme isplovljenja, vrijeme polaska broda iz luke:** The Master set the vessel’s **departure time** to midnight that same day, ~ **vessel’s ~ isplovljenje broda, polazak broda iz luke:** To assist the vessel’s **departure**, the head lines were tightened, to swing the stern off the quay.

departure arrangements (n) (navig) dogovoreno isplovljenje broda, operacija isplovljenja broda: As the problem could not be immediately detected and rectified, the scheduled **departure arrangements** had to be postponed resulting in off hire and commercial loss. **departure briefing (n) (navig)** kratak dogovor o isplovljenju broda: Despite this familiarity, the master ensured that the presailing checklist had been fully completed and he **held** a full **pre-departure briefing with the bridge team**, discussing the manoeuvre, the environmental conditions, and ... A pilot boarded and was in the **pre-departure briefing with the Master** and bridge team ... **departure brief (n) (navig)** kratak dogovor prije isplovljenja broda: Although **departure and arrival briefs** might occasionally seem repetitive and unnecessary, they do help to ensure
that everyone is aware of where the vessel should be.

departure briefing /briːfɪŋ/ (safety) kratak dogovor, kratke obavijesti i upute, kratko upoznavanje posade s nekom operacijom na brodu, departure: There was no pre-departure briefing and almost no information flow between the officers once the vessel was underway. This is achieved by a good predeparture briefing and a commentary from the master during the passage. A crew briefing should always take place before each mooring operation, even if the planned manoeuvre may appear routine. The new pilots received a safety briefing on boarding practices and a practical demonstration of ladder use. www.gov.uk/maib safety ~ upoznavanje sa sigurnošću na brodu: Take time to give a thorough safety briefing. When the surveyor eventually arrived, the lifeboat crew mustered and carried out a safety briefing, arrival ~ kratak dogovor o uplovjenju broda, ~ kratak dogovor o isplovjenju broda.

departure draught /diˈpaːtʃər/ (navig) gaz pri isplovjenju

departure port (n) (shipping econ) luka polaska, luka isplovjenja, polazna luka na putovanju: In this occurrence, 41 passengers embarked at the initial departure port and received the briefing; on the other hand 219 other passengers, who embarked at later ports, did not receive the briefing.

departure procedure (n) (navig) postupak pri odlasku/isplovljenu (broda iz luke): Ballasting operations should be part of the vessel’s standard departure procedures and safety management system. Departure procedure, as agreed with the pilot, was to tow the vessel upstream against the current, then turn the vessel at a distance that would allow the vessel to gain minimum steerage speed ...

dependant /diˈpendənt/ (=dependent) (n) (mar law) Family members who meet specific benefits eligibility requirements. (http://www.quarterdeck.org/index.html) član obitelji (zaposlenog pomorca)

deploy /diˈpləʊ/ (v) 1 rasporediti (ljude na dužnosti): For any work more than two metres above the deck, it is advisable to deploy another crew member to continuously supervise, monitor and assist the worker aloft.; 2 upotrijebiti, postaviti, rasporediti (tegljače, opremu itd): They poorly considered the deployment of tugs, which ideally should have made fast on the starboard side before passing the breakwater. Loše su rasporedili tegljače (oko broda), jer su oni, u idealnoj situaciji, trebali biti uhvaćeni s desne strane broda prije nego što je brod prošao lukobran. The skipper was concerned that the vessel would capsize, so instructed the crew to deploy a liferaft without delay. Deploy standby vessel to patrol safety zone of a two mile radius and warn vessels in vicinity. The crew abandoned the vessel and deployed the life raft. (https://safety4sea.com/) ~ on the service uvrstiti u linijsku plovidbu, uključiti brod u plovidbu (servis): The ship is deployed on Maersk Line’s service. Both newbuildings are planned to be deployed in the company’s route network on the North Sea. • The vessel will bunker with approximately 200 tons of LNG at Rotterdam and will be deployed on the intra-European carrier’s Baltic service http://gCaptain.com The ship is deployed on Othe Owner’s service, connecting Australia with ports in South Asia. HMM Algeciras will be deployed on THE Alliance’s Far East Europe 4 (FE4) service. (https://safety4sea.com/)

deployment (n) (navy) raspored (ratnih brodova), zadaća routine ~ rutinska zadaća, rutinski raspored: a naval destroyer entered the .... Sea a few days ago on a routine deployment

deposit /diˈpɔzɪt/ (v) 1 položiti (novac / dokument); 2 taložiti, nanositi deposit (n) 1 (financ) polog (novca u banci / dokumenta itd.): If a general average
**deposit** is required, the consignees will have to pay the amount demanded in return for a receipt for it.; 2

*(marine eng)* *talok, naslaga, taloži čade:* Such engines will obviously be more sensitive to the mechanism of piston crown *deposit* build-up than older designs having much lower mechanical and thermal load levels. By spraying a certain amount of water into the compressor, the *deposit* can be removed, provided it has not already become too hard. Clean the gear housing and the spindle parts thoroughly and remove all *deposits* before filling the new oil. Clean any *deposit* on the piston. *carbon ~s naslage ugljika, scale ~ naslage kamenca:* To reduce the corrosive action and inhibit the formation of *scale deposit* in the system it is usual to provide some form of water treatment.

**depot** /d.options/; *US * di.options/ (cargo) *skladište:* A discarded marine flare ignited on the picking line at a *depot* where ship's garbage is sorted. The port authorities, its stakeholders including terminal operators and customs have arranged for the empty containers to be returned to various private/shared depots outside the port. https://shippingandfreightresource.com to release a container from ~ izdati kontejner sa skladišta, *container ~ kontejnersko skladište*

**depreciation** /d.pr.j(e)ən/ (n) *(shipping econ)* *amortizacija (broda)* accompanied by low clouds and precipitation *ciljona, područje niskog tlaka, depresija:* The weather forecast indicated that the *centre of the depression* and the ship's intended course were converging, so the officers and crew had been ordered to secure the ship for heavy weather. Some two days into the ocean crossing, the *frontal depression* had deepened into a severe storm. The *depression* was tracked and, in an effort to avoid the worst of the weather, the ship altered course. *cold ~ hladna ciljona, deep ~ duboka ciljona:* Due to a *deep depression* producing severe gales, the vessel remained within the lee of the land for most of her voyage.

**depression angle** (n) *(navig)* *radarska depresija*

**depth** /d.options/ 1 *dubina:* The vessel was passing directly over an area of water with less depth than the draught of the vessel. By the time he was on deck, the depth sounder was showing *minimal depth*, and almost immediately the keel touched the bottom. When the *depth decreased* to 38 metres, the anchor took some of the weight and the ship's head swung into the wind. ~ alongside *dubina veza, dubina lučke obale:* Check the minimum *depth of water alongside*, the berth and in the fairway channels. ~ at the berth *dubina uz vez broda, ~ taken by sounding dubina izmjerena ultrazvukom, ~ unknown dubina nepoznata, ~ of the water *dubina mora:* This route took the vessel across Haisborough Sand, where the *charted depth of water* was considerably less than the vessel's draught. The pilot ordered the port anchor to be let go and to be held at 3 shackles on deck as the *depth of water* was only 15 meters. ~ of the bank *dubina rječne obale:* The published chart correction revised the *charted depth of the bank* to be 7.1 m. *charted ~ dubina ucartana na karti:* The *charted depth* at the position of the grounding was shown to be greater than 20m, with the closest sounding on the chart showing a depth of 26m. *chart ~ dubina na karti:* It passed over the narrowest part of a sandbank where the least *chart depth* was between 8 and 9 metres. ~ minimum ~ *minimalna dubina:* Subsequently, the harbour pilot confirmed that the *minimum depth* in the area was 20 m at low water. ~ sufficient ~ *dostatna dubina:* Dovoljna dubina As the incident occurred close to the time of high water, *there was sufficient depth of water* available for the container ship to pass outside the main channel.; 2 razmak od dna broda do gornje palube; the distance [m] measured vertically on the midship transverse section, from the base line to the top of the deck beam at side on the uppermost continuous deck *teorijska visina broda, visina trupa broda*
**depth alarm** (n) (safety, navig) alarm dubine mora: In most collisions and groundings, electronic aids such as ARPA, CPA and TCPA alarms, waypoint alarms and depth alarms had not been used.

**depth alongside** (n) (ports) dubina uz lučku obalu, dubina lučke obale

**depth charge** (n) (navy) an explosive device launched from a ship to attack a submerged submarine (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) dubinske bombe

**depth contour** (n) (navig) izobata: This resulted in the use of inappropriate settings with regard to depth contours, and chart and depth alarms. t, with the datum shift applied, and the position correctly plotted, the vessel was 240 metres outside the circle, and already across the 20-metre depth contour, putting the bow 90 metres from a charted 10.

**depth finder** dubinomjer

**depth indicator** (n) (navig) pokazivač dubine

**depth moulded** (n) (nav arch) The vertical distance from the molded base line to the top of the uppermost strength deck beam at side, measured at midlength of the vessel.

(https://www.history.navy.mil/) baždarna visina broda

**depth sounder** (n) (navig) = fathometer, echosounder an instrument for measuring the depth of the water ultrazvučni dubinomjer, Italian:eccoscandaglio: I immediately went to the Bridge and discussed my concern with the Chief Officer as to what was happening with the tides, then I looked at the depth sounder - it said 2.8 metres! A vessel's position as displayed on an ECS can and should be crossreferenced using radar, Loran, visual, depth sounder etc.

**depth soundings** (n) (navig) snimanje dubine, mjerjenje dubine take ~ snimiti dubinu, izmjeriti dubinu: At the same time, depth soundings were taken by one of the assisting tugs.

**derate** /d:reit/ (v) sniziti iskoristivost: 2-stroke diesel engines are today often heavily derated., meaning that the service speed is typically around 60% of the R1 rating

**deratisation** /d:reitˈzeiʃən/ deratizacija: It has to be borne in mind however, that whilst deratisation by fumigation, or otherwise, may destroy all rats when on board its efficacy is only temporary ...

**de-ratting** /d:ˈrætiŋ/ deratizacija: ... the master should have ready for production the Maritime Declaration of Health as well at the Deratting (or Exemption) Certificate. ~ certificate svjedodžba / potvrda o deratizaciji

**derelict** /ˈdɛrilikt/ (n) (safety) an abandoned vessel floating at sea and therefore presenting a danger to navigation olupina, napušteni brod: Derelict Vessel still afloat, abandoned at sea. Unlit derelict vessel adrift in vicinity.
derick support (n) (cargo handling, nav arch) hajmica samarice, upornica
derivative /diˈrivətiv/ (n) 1 (cargo) derivat; 2 (cargo) naftni derivat, naftni
proizvod: The movement of liquid bulk cargo, crude oil and derivatives, from the tanker is undertaken by means of pipelines connected to the shore-based storage tanks.; 3 (marine eng) inačica,
izvedba: A V18-cylinder derivative of the 3600 series was jointly developed by Caterpillar with the Spanish enginebuilder Bazan Motores to target high-speed ferry propuls
dererrick /ˈderɪk/ (n) 1 (cargo handling, nav arch) a lifting device composed of one mast or pole and a boom or jib which is hinged freely at the bottom samarica, teretnica, tovarnica, derić, delić:
The derricks are the ship's cranes, and their lifting capacity can vary from 3 tonnes to 50 tonnes or more. Derricks are used for raising or lowering heavy weights, cargo, stores, etc. single swinging ~ jednostruka samarica, union purchase ~ udvojene samarice, samarice u paru, Hallen ~ samarica s teretnim stupom u obliku polegnutog slova D Hallenova samarica, Stuelcken heavy lift ~ samarica tipa Stuelcken za teške terete, ~ heel peta kraka samarice, peta samarice: The derrick heel had not lifted and the wire strop was unstressed., ~ head vrh kraka samarice: As soon as a container is lifted off an anchored vessel it starts swinging, the degree of swing depending upon the state of sea; as the derrick head swings together with the barge, so does the container., Velle ~ samarica tipa Velle s teretnim stupom u obliku slova T samarica tipa Velle, head of the ~ glava samarice, vrh derića, rig the ~ pripremiti samaricu za rad
The derrick topping lift double purchase was disconnected from the derrick head and attached to the derrick boom near the heel with a wire strop, with the intention of using the greater force available to free the heel pin.

Worst of all, the port derrick winch auto-tensioner had frequently failed, causing the port derrick to suddenly drop directly in the area where the crew member was positioned.

Wärtsilä’s delivery comprises a total of 10 large MSF distillation systems with unit capacities spanning from 115 tons/day to 900 tons/day, and 4 Single Stage Desalination systems (SSD) with unit capacities of...
Designated Person Ashore

30 tons/day.

designator /ˈsɛzl reɪtə/ (n) (marine eng) desalinator manual ~ ručni desalinator (za brodice, jahte), power ~ električni desalinator (za brodice, jahte)
descend /ˈdesend/ (v) 1 ANTONYM ascend silaziti, spuštati se: Never descend into a confined space to save a victim unless you are equipped with proper breathing apparatus and have support from other personnel. However, when the brake was applied, it failed and the boat continued to descend. The Pilot managed to descend the remaining two metres to the boat deck. AB2 then descended to assist AB1 while the Fitter went to notify the Captain.; 2 (marine eng) spuštati se (o klipu motora)
description of goods (n) (mar law) opis robe (u teretnici)
desertion /dɪˈzɜːʃən/ (n) 1 (mar law) the act of purposely and unlawfully abandoning the ship by the crew neodgovorno napuštanje broda; 2 (mar law) a crewmember unlawfully leaving his duties on a vessel neodgovorno napuštanje dužnosti na brodu (npr. straže itd.)
design /ˈdezən/ 1 plan, nacrt, crtež ~ drawings izvedbeni nacrt; 2 (nav arch)
projektiranje, projekt: Deltamarin’s scope of work includes basic and detail design of the hull outfitting, machinery and cargo areas.
projektiranja, projektne usluge: Deltamarin Ltd is to provide the Finnish Rauma Marine Constructions Oy shipyard with design services for a ro-pax vessel to be built for the Danish Mols-Linien A/S. http://www.marinelink.com/news/deltamarin-molslinien414939.aspx; 3 izvedba: A special inlet port design and engine control system ensures a homogeneous and lean mixture of air and gas. Improved hull design and the use of ships with larger cargo carrying capacities have led to a reduction in emissions and an increase in fuel efficiency.; 4 konstrukcija
design /ˈdezən/ (v) 1 projektirati, konstruirati: The new 158-metre ro-pax vessel will be designed and optimised to carry passengers and cargo between the Danish islands of Bornholm and Sjaelland.; 2 kreirati
designated anchorage (n) (navig) A protected waterway clearly marked on local charts, lying clear of navigation channels and offering adequate depth and good holding ground where boats may anchor. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) označeno sidrište, područje određeno za sidrenje, područje obveznog sidrenja: A laden tanker anchored outside the entrance of a traffic separation scheme (TSS) in a designated anchorage to await the next rising tide in order to proceed upriver to discharge her cargo.
designated area (n) (navig) označeno područje, područje određeno za (sidrenje itd.): One of our tankers was proceeding with a Pilot on board to anchor in the designated area for bunkering in a large Asian port.
designated person /ˈdezɪd nətɪd/ (n) (mar law, safety) (u pravilniku ISM) osoba koja ima izravan pristup najvišoj razini upravljanja zadužena osoba, nadređena osoba ~ ashore; (DPA) zadužena osoba na kopnu
Designated Person Ashore (=DPA) (safety) zadužena osoba na kopnu (u sustavu SMS brodarskog društva), osoba na kopnu zadužena za sustav upravljanja sigurnošću, zadužena osoba brodarske kompanije (u sustavu ISM): The Designated Person Ashore (DPA) was informed and began an investigation immediately. We arranged for the vessel’s bridge officers, and company’s Designated Person (DPA) and
design feature
designated route (n) (navig) zadana ruta, zadani smjer, obvezna ruta: At about 2100 hrs, after reaching her waypoint, the vessel altered course to 070°T and was proceeding along the designated east-bound deep water route
design criteria (n) (nav arch) konstrukcijska obilježja (broda): Design criteria: Ice-strengthened, single decked, single screw motor ship with double bottom and double skin with coated cargo tanks. No steel structure facing into the cargo tanks. The hull form is designed for minimum resistance, overall design provides an environmentally friendly, cost-effective, reliable and flexible unit. One deep-well pump for each tank and complete segregation for each cargo tank, one vapour return line.
designed /ˈdɛizənd/ 1 konstruiran: 70 BN cylinder oil and an engine series is well designed against corrosive wear and with no need for excessive BN. It must be remembered that anchoring equipment is designed and manufactured only for mooring a vessel in moderate sea conditions, and for relatively short periods, while awaiting berth availability ~ for namijenjen za, konstruiran za, ~ to konstruiran za, namijenjen za: Siemens’ SINOx SCR system is designed to reduce the emissions of different exhaust gas pollutants simultaneously—notably NOx, HC and soot—as well as to achieve a sound attenuation Fuel feed lines are integrated in the pump housing, and the fuel system is designed to keep pressure pulses low. The anchor gear is not designed to stop a ship. In the 1950s, as trade volume increased, the industry started to develop special tankers designed to carry up to 40 parcels of different chemicals within a single ship.; 2 namijenjen: Among the measures designed to ease inspection and maintenance are: cylinder heads hydraulically tightened with four stud screws on the cylinder block; and ... The manoeuvre was designed to make best use of a strong south-westerly wind.; 3 određen
designed for /ˈdɛizənd faɪr/ (adj) 1 (marine eng) projektiran za: The injector was also designed for robust safety in the event of a fault condition.; 2 (nav arch) namijenjen za: These vessels have multiple decks designed for the carriage of cars, and a high cubic in order to maximize the number of vehicles which can be loaded.
designed output (n) (marine eng) nazivna snaga (motora), projektirana snaga
designed waterline (=DWL) (n) (nav arch) Designed waterline - je presječnica forme broda i ravnine vodne linije za koju je brod osnovan. Na toj vodnoj liniji brod redovito postiže i najveću nosivost. (Designed waterline - je presječnica forme broda i ravnine vodne linije za koju je brod osnovan. Na toj vodnoj liniji brod redovito postiže i najveću nosivost.

https://www.fsb.unizg.hr/geometrija/broda/donji/glosarij.htm) projektna vodna linija
designer /ˈdɛizənər/ 1 (marine eng) projektant: A pioneering Danish designer and builder of low-speed two-stroke crosshead engines, Burmeister and Wain (B&W) focused in the post-War era on high-pressure turbocharged single-acting uniflow-scavenged models with one centrally located exhaust valve. CatErpillar A wide programme of high-speed engines from the US designer Caterpillar embraces models with bore sizes ranging from 100 mm to 170 mm. The A55 benefited from GMT’s technical collaboration with New Sulzer Diesel, permitting elements of the Swiss designer’s successful ZA40S medium-speed engine to be exploited. engine ~ projektant stroja, graditelj strojeva: MTU Friedrichshafen, the German high-speed engine designer, was a pioneer in adopting the technology in the modern era and worked on CR systems in conjunction with specialist fuel injection partners ...; 2 (marine eng) konstruktor
design feature /ˈdɛizən fətʃər/ (n) (nav arch, marine eng) konstrukcijsko obilježje,
despatch\(^1\) /dɪˈspeɪtʃ/ (n) (shipping econ, mar law) otprema: In order that we may effect customs clearance and despatch, we would feel obliged if you would let us have the Bill of lading duly endorsed together with a letter addressed to customs & Excise authoriti The carrier shall be paid demurrage at the daily rate of 45$ per ton of the vessel’s GT if the vessel is not loaded or discharged with the despatch set out in Clause 8; and delay in waiting for berth or off the port to count. quick ~ brza otprema (tereta), brz ukrcaj (tereta): ... the C/P may state that the cargo is to be loaded with ‘customary despatch’ or ‘customary quick despatch’ or ‘as fast as the vessel can receive’., with the utmost ~ najbrže moguće: The Master should prosecute all voyages with the utmost despatch., with due ~ pravovremeno, na vrijeme: On the other hand, the merchant may make a protest (i.e. Letter of Protest) against the master, for misconduct, drunkenness, etc., for not proceeding to sea with due despatch, for not signing bills of lading in the customary form, and other irregularities.; 2 slanje (brodice ili helikoptera u pomoć): The skipper’s early call to the coastguard and the swift despatch of the rescue helicopter ensured that the injured fisherman received the required medical attention as quickly as possible.

despatch\(^2\) (v) (safety) poslati (brodicu u pomoć): Thai marine police dispatched a patrol boat to reach the lifeboat, but were unsuccessful as the lifeboat was dangerously close to rocks. ~ a patrol boat for help poslati brodcul za ophodlju u pomoć despatch\(^3\) (n) (mar law, shipping econ) = despatch money naknada za ušteđeno vrijeme despatch money (n) (mar law, shipping econ) nagrada za ušteđeno vrijeme (pri ukrcaju/iskrcaju): Despatch is the money payable by the owner of the ship to the charterer if the ship completes loading or discharging before the laytime has expired. Commercial Management (c) voyage estimating and accounting and calculation of hire, freights, demurrage and/or despatch monies due from or due to the charterers of the Vessel; despite /dɪˈspæt/ (conj) usprkos: Despite all three of the vessel’s own pumps running, the situation continued to deteriorate, and the skipper issued a “Mayday” on Channel 16 about an ho. The speed was about nine knots, despite a speed limit of five knots that should have been observed at this point.
destination /ˌdestɪˈneɪʃən/ (n) (shipping econ, mar law) odredište: The freight was short or damaged at destination. On being cleared by the coastal state authorities, the tanker continued on her voyage, arriving at her destination after two days. port of ~ odredišna luka, luka odredišta: In the evening, in order to adjust the ETA at the destination port the following morning, the Master decided to stop and drift for an hour in open water before resuming passage at full speed. Separate manifests must be made out for each port of destination., get to the ~ doći do odredišta: Through bills of lading: In many cases it is necessary to employ two or, more carriers to get the goods to their final destination., final ~ konačno odredište, krajnje odredište: In the event, all units were discharged safely at the berth and reached their final destination. All the sound containers are now being released and will be loaded on other vessels for transport to their final destination., country of ~ zemlja odredišta: When no such enactment is in force in the country of shipment, the corresponding legislation of the country of destination shall apply.

destroyer (n) (navy) A small fast warship armed with missiles, mines, torpedoes, depth charges and guns, usually employed as an escort to protect larger ships, and to attack submarines.
razarač stealth ~ nevidljivi razarač, neprimjetljivi razarač

destroyer turn (n) (navig, safety) skretanje u opasnosti, devijacija u opasnosti
detach /diˈtɛtʃ/ (v) odijeliti, odvojiti, isključiti: The damaged wire had been removed from the jetty bollard, and work was underway to detach the wire from the winch drum when the chief officer arrived at the after mooring deck.
detachable /diˈtɛʃəbəl/ (adj) (marine eng) odjeljiv, odvojiv, skidljiv, koji se montira: The head incorporates four valves whose seats are detachable; the exhaust valve seats are water-cooled. The large exhaust gas inlet casing is of two-piece construction comprising a detachable inner casing fitted with the turbine nozzle assembly and a fixed outer casing containing the rotor shaft fitted with the turbine wheel.
detain /diˈteɪn/ (mar law) zadržati brod u luci, zaustaviti brod u luci (kao mjera osiguranja naplate): The ship described as a repeat offender for for breaches of seafarer welfare and ship maintenance – was detained in Tauranga after Maritime New Zealand found 14 deficiencies, with 11 to be rectified before it can leave. Australian authorities have detained a bulk carrier over several crew labor violations including non-payment of wages. Australska vlada zadržala je brod za rasute terete .... zastave zbog višestrukog kršenja radnih prava posade, uključujući i neisplatu zarada. Port State Control officers have the power to detain foreign ships in port if they do not conform to international requirements. A ship was detained recently by the port authority due to a lack of onboard ECDIS familiarization The vessel owned by .... has been detained by port Maritime Court at the request of the local bank in a debt dispute. The deficiencies found allowed the ship to be detained under the Maritime Transport Act section 55. https://gCaptain.com The shipping company has moved to legally detain the oil tanker to collect on late payments owed to it by the oil company https://gCaptain.com

detained (adj) (mar law, safety) zadržan (brod), zaustavljen (brod): the vessel
remained detained for 29 days until the operator provided evidence that the crew had been paid their outstanding wages. https://gCaptain.com
detect /ˈdetɪkt/ (v) 1 naići na; 2 pratiti; 3 otkriti: The cylinder condition monitoring system is intended to detect faults such as blow-by past the piston rings, cylinder liner scuffing and abnormal combustion. A thermocouple sensor is installed close to the pumping chamber to detect delivery valve leakage: if the delivery valve were to leak, fuel from the rail would be re-pumped, causing a temperature increase in the pumpin
detection /diˈtektʃən/ otkriće, otkrivanje, pronalaženje: This led to an early detection of the leakage, quick response and averted a pollution incident. The controller covers sequencing, steady state and transient control, surveillance, fault detection and protection. fire ~ (safety) otkrivanje požara: The fire detection and fixed suppression system suffered early damage in the fire, which prevented its operation. The use of fire detection devices is, therefore, increasing particularly in view of reduced manning and unmanned machinery spaces., electronic ~ aids (navig) elektronička navigacijska pomagala za otkrivanje ciljeva: Electronic detection aids, such as automatic target acquisition and radar guard zones, can only help bridge watchkeepers if they are used., gas ~ equipment (safety) oprema za otkrivanje plina: Before departing the ship, the fumigator-in-charge briefed the chief officer, and issued him with two gas masks and some phosphine gas detection equipment.
detector /diˈtektər/ detektor, otkrivač: Loading proceeded as planned, when a fire detector activated. (https://safety4sea.com/) water ~ detektor vode, detektor prisustva vode u sustavu: The installation comprises the separator, an automatic control panel, water detector, water detector controller and discharge detector., CO2 ~ detektor ugljičnog dioksida: Personnel entering tanks must also carry a CO detector together with O and LEL personal detector, (as per company policy when entering tanks after carrying Crude or Fuel Oil., fuel leakage ~ detektor propuštanja goriva: Fortunately the fuel leakage detector activated so that fuel leakage and attendant risks were minimal., oil mist ~ detektor naftne maglice: An oil mist detector gives advance warning of an impending major failure., gas ~ detektor plina: The master was carrying a walkie talkie as well as a personal gas detector (combined O and LEL) and the chief mate and pump man were standing on deck., fire ~ detektor požara: Shortly afterwards, the fire detector head in the passageway was activated., thermal ~ detektor topline, smoke ~ dimni detektor, dimni otkrivač požara: A cheap smoke detector, effective firefighting and early alerting of the coastguard proved invaluable., heat ~ detektor topline: Heat detectors can use any of a number of principles of operation, such as liquid expansion, low melting spot/post/point materials or bimetallic strips., flame ~ detektor plamena, electro-pneumatic ~ elektropneumatski detektor

detent (n) (seamanship) A catch on a mechanical capstan which keeps it from rotating. A notch in a ratchet. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) zaporni zubac na vitiu
detention /diˈtenʃən/ (n) (mar law) COMPARE seizure COMPARE arrest: zadržanje broda, zadržavanje broda u luci (kao mjera osiguranja naplate potraživanja), zaustavljanje broda: Thus any irregularities in such documentation may result in fines, detention or other such serious implications for the vessel. Port State Control inspectors issued a detention deficiency against one of our vessels for a defective tachometer on
an auxiliary engine. The AMSA said the deficiencies were serious enough to warrant immediate detention of the ship. https://gCaptain.com damages for ~ 1 naknada za zadržavanje; 2 prekostojnice zbog zadržavanja broda u luci, release from ~ osloboditi (brod) nakon zadržavanja: The vessel, which had passed through the Great Barrier Reef on its journey, was released from detention upon completion of her crew training. temporary ~ of ship privremeno zaustavljanje broda, ~ of ship zadržavanje broda, ~ charge Charge payable by a shipper or receiver to a shipping line for detaining equipment or a vessel beyond the time allowed http://www.tkmglobal.net/chartering_D.HTM naknada za zadržavanje broda / opreme, lift the ~ prekinuti zadržavanje broda, obustaviti zadržavanje broda: The detention was lifted on Saturday, 30 March, after the ship passed the independent International Safety Management (ISM) audit. The vessel, which had passed through the Great Barrier Reef on its journey, was released from detention upon completion of her crew training.

The vessel, which had passed through the Great Barrier Reef on its journey, was released from detention upon completion of her crew training.

deterioration /diˌtiərəˈreit/ 1 pogoršati (s): the situation continued to deteriorate stanje se stalno pogoršavalo Despite all three of the vessel’s own pumps running, the situation continued to deteriorate, and the skipper issued a “Mayday” on Channel 16 about an hour after the flooding was discovered.; 2 (v) kvariti se (o teretu), pokvariti se; 3 (meteorol) pogoršati se (vrijeme, vidljivost): the weather deteriorated and the anchor chain began to render vrijeme se pogoršalo i sidreni je lanac počeo popuštati Weather conditions have further ~d since Saturday, with winds of 50 km/h and waves of 6 meters. the visibility ~s vidljivost se smanjuje, vidljivost se pogoršava: When visibility appears to be improving, stay on your guard, it can deteriorate twice as quickly and without warning.

deterioration /diˌtiərəˈreij/ 1 kvarenje (tereta), pogoršanje stanja (tereta): Hay, wool, pepper, cocoa - if wet or damp, are very liable to spontaneous combustion, sweat damage and deterioration. to suffer ~ pogoršati se (npr. stanje tereta); 2 (marine eng) pogoršanje (stanja): Root cause/contributory factors Improper maintenance: Erosion and deterioration of the piston crown were not acted upon at the time of periodic overhauls and routine
deviate /'deviət/ (v) skrenuti (s kursa): During the blackout, the rudder unexpectedly turned to port, causing the vessel to deviate sharply from its course and toward the tug and tow. to ~ from the course skrenuti s kursa: What time does the off-hire period cover when the ship must deviate from her course and put into a port of refuge? On 13th October 20__, I, __________, Master of the M/V Sea Crest, (relative) had to deviate to the port of __________ as port of refuge on account of fire in the engine room on 10th October 19, and herewith declare In the aftermath of the incident, it was determined that ship’s Second Officer had deviated from the intended course to ... in order meet pilot boat deadline. http://fCaptain

deviation /ˈdiːviʃən/ (n) 1 (navig) magnetic compass error caused by the magnetic properties magnetska devijacija, devijacija (kompasa) magnetic ~ magnetska devijacija, ~ table tablica devijacije, add easterly / westerly ~ dodati istočni / zapadnu devijaciju, subtract easerly / westerly ~ oduzeti istočnu / zapadnu devijaciju; 2 (navig) skretanje s kursa, skretanje s puta; 3 (mar law, shipping econ) skretanje s puta / putovanja: Any deviation in saving or attempting to save life or property at sea or any reasonable deviation shall not be deemed to be an infringement or breach of the Rules or any contract of carriage. ~ from the planned route skretanje s planirane rute, ~ limit granično skretanje (s putanje/rute), granična devijacija: The ECDIS was set with the following safety parameters: a safety contour of 10 metres; a cross-track deviation limit of 0.2 either side of the planned track.

deviation clause (n) (mar law) A departure by the carrier of goods by sea from the agreed or customary geographic route, done without the consent of the cargo interests; Clause in a Bill of Lading or Charter-Party allowing the shipping line or shipowner to deviate from the agreed route or normal trade route. This clause varies from contract to contract and may permit the ship to call at unscheduled ports for whatever reason, or to deviate to save life or property.

http://www.tkmglobal.net/chartering_D.HTM klauzula o skretanju s plovidbenog puta, klauzula o devijaciji s plovidbenog pravca, klauzula o devijaciji, privremeni prekid pomorskog ugovora o prijevozi zbog skretanja u luku zakloništa ili na popravak, devijacija, kršenje ugovora zbog skretanja s rute: Deviation clause allows the shipowner to proceed on a course other than usual and reasonable to save property.

deviation report (n) (navig, comm) izvješće o skretanju
deviations (n) (safety, mar ins) occupational accidents which consist in the description of the event deviating from normality leading to the accident odstupanja od normalnog funkcioniranja (sustava, opreme na brodu) koji dovode do ozljeda i oboljenja na radu: Deviations include: 1. Deviation due to electrical problems, explosion, fire, 2. Deviation by overflow, overturn, leak, flow, vaporisation, emission, 3. Breakage, bursting, splitting, slipping, fall, collapse of Material Agent, 4. Loss of control (total or partial) of machine, means of transport or handling, 5. Slipping - Stumbling and falling - Fall of persons, 6. Body movement without any physical stress (generally leading to an external injury, 7. Body movement under or with physical stress (generally leading to an internal injury, 8. Shock, fright, violence, aggression, threat, presence www.emsa2018.com
device 1 naprava, sprava, uređaj, mehanizam, aparat fail-safe ~ besprijekorna naprava / uređaj, uređaj koji ne može zatajit / otkazati /
devices to measure and indicate speed and distance DGPS and GLONASS maritime radio beacon receiver equipment

**zakazati**, sprava koja radi bez greške, *explosion* ~ eksplozivna naprava, explosion detection ~ uređaj za sprječavanje eksplozije, control ~ upravljačka naprava (ručka itd, kontrolni uređaj, regulacijski uređaj): The governor, which is the principal control device in any engine, is so termed as it controls the engine speed at some fixed value., safety ~ sigurnosni uređaj: A safety device is fitted in case the system breaks down., release ~: If the main release device fails to launch the lifeboat, the assigned crew member operates the emergency lifeboat release lever. otpusna naprava; 2 sredstvo devices to measure and indicate speed and distance uređaji mjerenje i pokazivanje brzine i prijeđenog puta

diagram /ˈdaiəɡræm/ 1 crtež; 2 grafički prikaz, graf, grafikon: The above diagram shows the watchkeeping arrangements in each of those groundings. This diagram shows the cashflow in the shipping market. As can be seen on the diagram the vessel actually came within less than 10nm of land more than once leading up to the grounding; 3 shema, dijagram, blok-shema: The two stroke cycle can also be illustrated on a timing diagram. In the system shown in the diagram above, the oil is stored in tanks in the double bottom from which it is pumped to a settling tank and heated. Fuel line: Figure 8.6 shows a typical fuel line pressure diagram and also the needle lift diagram for an engine having a camshaft speed of 300 rev/min, both at high load (Figure 8. complete the ~ dovršiti shemu, dopuniti dijagram, stress-strain ~ dijagram naprezanja,
The cargo plan shows in diagrammatic form the longitudinal section of the ship and each hold with its respective decks, with main consignments marked off by coloured blocks.

The owner’s shouts were heard by his son on the helm, who promptly stopped the engine and immediately used his mobile telephone to dial 999 and ask for coastguard assistance.

For example, 0.5 tonne of water per hour will flow through a hole of just 18mm in diameter assuming a constant head of 25mm. The tug’s steel tow wire was 44mm in diameter and weighed 7.8 kg/cm.

Dangerous cargo/goods/commodity are often indicated by diamond-shaped signage. We were displaying navigation lights, day signals (ball, diamond, ball) plus red white red lights for a vessel restricted in its ability to manoeuvre throughout. The first and the last poles were marked with a black diamond each. Both diamonds and poles, as well as tube, were perfectly visible on the tug’s radar screen in all scales.
**diesel** /ˈdiːzəl/ (marine eng) dizelski motor, dizel-motor: Before a large diesel is started it must be warmed through by circulating hot water through the jackets, etc.

diesel-electric drive /ˌdizəl-ɛkˈtrɪk/ (marine eng) dizel-električni pogon: A number of vessels are built with diesel-electric or turbo-electric drive.

diesel-electric vessel /ˌdizəl-ɛkˈtrɪk/ (nav arch) brod na diezel-električni pogon: Four 6-cylinder models (each developing 5700 kW) are specified to drive the main gensets of a diesel-electric LNG carrier.

diesel engine /ˈdiːzəl ɪnˈɡɪn/ (marine eng) dizelski stroj, dizelski stroj, dizel motor: The first merchant ocean-going liner driven by a diesel engine was the Selandia in 1912. A diesel engine may be designed to work on the two-stroke or four-stroke cycle. The four-cycle Diesel engine is easier to reverse than the two-cycle Diesel engines as there are fewer moving parts to be changed in direction of rotation. The most powerful diesel engines in the world are two stroke crosshead engines. marine ~ brodski dizelski stroj, brodski dizel stroj, brodski dizel motor, brodski stroj: An important parameter for a marine diesel engine is the rating figure, usually stated as brake horsepower (bhp) or kilowatts per cylinder at a given revolutions per minute. Inboard ~ nutarnji dizel motor, outboard ~ izvanbrodski dizel motor, 2-stroke ~ dvotaktni dizelski stroj: A slow-speed two-stroke diesel is usually arranged to operate continuously on heavy fuel and have available a diesel oil sup The 2 stroke diesel crosshead engine works on exactly the same principle and cycle as the 2 stroke diesel trunk piston engine. Unlike the 4 stroke engine, a two stroke diesel engine does not use the piston to push out the exhaust gas, instead, air enters the cylinder around bottom dead centre and sweeps or the exhaust gas from the cylinder, 4 stroke ~ četverotaktni dizelski stroj: In a four stroke trunk piston engine of 1100 kw output, a hole was (burn) through a piston crown, in medium speed ~ srednjohodni dizelski stroj: On a medium speed 4 stroke engine the oil is supplied to the main bearings through drillings in the engine frame to the crankshaft main bearings.
These ancillaries need electrical power which is usually provided by generators driven by medium- or high-speed diesel engines. Low-speed gas-burning engine designs are offered by the MAN Diesel group, which cites successful experience with a Holeby 16V28/32-G (gas injection).

http://marine-diesel-engines.blogspot.hr/2011/01/2-stroke-cross-sectional-view.html

diesel fuel (n) (marine eng) dizel gorivo, Italian: gasolio: An average diesel fuel should comprise in percentages, carbon 86–87; hydrogen 11.0–13.5; sulphur 0.5–2; oxygen and nitrogen 0.5–1.0. To secure low NOx emissions, it is essential that the amount of injected diesel fuel is very small.

diesel-fuelled (adj) (marine eng) na dizelski pogon: As the group went ashore, the diesel-fuelled heater located in the engine room was running and the radiators were noted to be on.

diesel generator (n) (marine eng) dizel-generator: Two diesel generators were sharing the electrical load and the engine speed had been reduced to 60 rpm ...

diesel genset (n) (marine eng) dizel-generator: These small gas turbines are also in service in integrated systems linking steam turbo-alternators, shaft alternators and diesel gensets.

diesel oil (=DO) dizelso gorivo, laka nafta, dizel: Low-, medium- and high-speed diesel engines are designed to burn marine diesel oil (ISO 8217, class DMB or BS 6843, class DMB) while low-speed. The engine was released for operation on marine diesel oil (ISO 8217, F-DMX to FDMB). The engine can be started up and manoeuvred on diesel oil or even a blend of diesel and heavy fuel oil.

diesel oil line (n) (cargo handling) cijev dizel goriva, cjevovod dizel goriva

diesel propulsion (n) (marine eng) dizelski pogon, pogon na dizel-motor: The marine diesel propulsion market is dominated by direct-coupled low-speed two-stroke crosshead engines and geared high-/medium-speed four-stroke trunk piston

diesel unit (n) (marine eng) dizelski stroj, dizelska jedinica

Global positioning system /DGPS/ (n) (navig) diferencijalni globalni sustav za određivanje pozicije, sustav DGP

difficulty /ˈdɪfɪkəlti/ (n) (marine eng, navig) poteškoće: The vessel began experiencing difficulty with her main engine shortly after departing the Panama Canal. https://safety4sea.com/

diffraction (n) (navig) ogib radarskog signala (na oštrom bridu prepreke)

diffuser /ˈdɪfrəsər/ (=diffusor) (n) (marine eng) Turbocharger component which converts exhaust air velocity to increased air pressure at turbocharger outlet. (http://www.marinedieseleurope.com/)

difuzor, razdjelnik: The air exits the impeller radially and passes through a diffuser, where some of the kinetic energy gets converted to pressure energy. A diffuser or volute is then used to convert most of the kinetic energy in the liquid into pressure.

digital fright forwarder (=digital fright forwarders) (n) (logist, mar law) Digital
freight forwarders have the ability to offer the services of a freight forwarder but on an instant basis using online technology and data digitalni otpremnik, digitalni špediter: Digital freight forwarders (i.e. companies like Twill, Freighthub, Flexport etc.) understand, develop, use and offer some of the most modern technologies known to the industry; are repurposing data from previous shipments and creating codes and algorithms to automate the most common activities; are able to use sophisticated methods to market their services using the full gamut of social, traditional and mainstream media for a quicker and more effective reach

digitalisation (=digitalization (US)) (n) (logist) digitalizacija: With the advent of digitalisation, innovative concepts and technologies like Blockchain, Big Data, IoT, Artificial Intelligence there have been several changes in the industry

https://shippingandfreightresource.com/trade-and-digitalisation/

digital measuring tools (n) (marine eng) digitalni mjerni alati
digital processing unit /ˈdɪdʒɪtəl/ digitalni procesor
digital selective calling /ˈdɪdʒɪtəl/ (=digital selective call; DSC) (n) (safety, comm)
A technique using digital codes which enables a radio station to establish contact with, and transfer information to, another station or group of stations. (IAMSAR/Camsar2014) digitalni selektivni poziv (u sustavu GMDSS)

Digital Sellective Calling /ˈdɪdʒɪtal/ (=DSC) (n) (comm, safety) . DSC is a semi-automated means of establishing initial contact between stations. Once this contact has been established, normal radiotelephony is used for subsequent communications. The main use of DSC by small vessels is for distress, urgency, and safety purposes digitalni selektivni poziv (DSC), digitalno selektivno pozivanje: Although there is no regulatory requirement for a vessel of this size to carry an EPIRB, liferaft or Digital Selective Calling (DSC) capable VHF radio, all are recommended. The captain contacted the coastguard via Digital Selective Calling who alerted the rescue helicopter and two lifeboat stations. The skipper pressed the Digital Selective Calling (DSC) distress alert button on the

VHF radio and the coastguard responded immediately.

http://www.ybw.com/author/icom
digital shipping line (n) (logist, mar law) COMPARE digital fright forwarder

Digital Shipping lines have consortiums and associations set up to improve their digital presence: 1) Maersk Line teamed up with IBM to create the TradeLens project, which is a blockchain technology in the global supply chain to enable trust between multiple trading partners including carriers, freight forwarders, customs, port authorities and more when transacting in a digitized global trade documentation process with Maersk Line, ZIM Lines and PIL as members currently.. ; 2) A rival to the above grouping consists of CMA CGM, Cosco Shipping (including OOCL), Evergreen Marine, and Yang Ming Line, representing about one-third of total global containership capacity.. This consortium is based on CargoSmart technology, a shipment management software provider owned by Cosco.. digitalni
**digital transformation of shipping** (n) (logist, shipping econ, mar law) the maritime sector should keep in mind the 7 digital trends: 1. **E-platforms**: They will improve shipping by offering an online booking, online cargo management and customer personalization; 2. **Advanced analytics**: Offers network optimization, dynamic pricing, as well as empty container repositioning.; 3. **Internet of Things (IoT)**: The technology provides vessel machinery monitoring and reefer container conditions monitoring; 4. **Alternative Intelligence (AI)**: 4. **E-service centers**, dynamic capacity reallocation, predictive maintenance; 5. **Autonomous vessels and robotics**: automated vessel navigation, automated port calls; 6. **Blockchain**: E-bill of lading, payment automation and cargo insurance; 7. **Cyber security**: Security assurance for customer data and security assurance for automated operations. (https://safety4sea.com/cm-3-key-features-for-shippings-digital-transformation)

digitalna preobrazba pomorskog gospodarstva, digitalna transformacija pomorskog prijevoza, digitalizacija brodarstva: With the arrival of a new decade, the shipping industry continues experiencing digital transformation, with shipping companies having to switch from the traditional way of operations into a modern and smart environment; https://safety4sea.com/cm-3-key-features-for-shippings-digital-transformation

dihedral corner reflector / daiˈhiːdrəl/ (n) (navig, electr) dvostrani kutni radarni reflektor

dike /daɪk/ (=dyke; sea-dike) = dyke zaštitni nasip (u luci), zaštitni lukobran, diga, zaštitni mul (molo): Building dikes or levees to protect against one metre of sea level rise varied from EUR 1 million per km to EUR 4 million per km. https://safety4sea.com
dildo (n) (seamanship, boating/yachting) = thole-pin palac za veslo, škeram, škaram

diligence /dɪˈlɪdʒəns/ (n) marljivost, revnost with due ~ s pažnjom (dobrog privrednika, stručnjaka itd.): Inspection, lubrication, renewals of parts including the wire and rigging must be carried out with due diligence., act with due ~ poslovati s pažnjom dobrog privrednika, raditi u skladu s pravilima dobre pomoračke prakse, raditi kao dobar stručnjak-pomorac, exercise due ~ poslovati u maniri dobrog gospodarstvenika / stručnjaka: The carrier shall be bound before and at the beginning of the voyage to exercise due diligence to make the ship seaworthy, properly man, equip and supply the ship and make all parts in which cargo is to be carried, fit an To surveyors or repairers) but he will be responsible if they fail to exercise due diligence in carrying out their work., practise due ~ poslovati pažnjom dobrog gospodarstvenika / privrednika

**Dilution of Precision (=DOP)** (n) (navig) raspršenje točnosti horizontal dilution of precision; HDOP horizontalna komponenta raspršenja točnosti

dimension /diˈmɛnʃən; daɪˈmɛnʃən/ 1 mjera, dimenzija; 2 izmjere (broda)
diminish /diˈmɪnɪʃ/ ~ in thickness stanjiti se: It consists of a disc on the side of which are a number of radial vanes which diminish in thickness as they approach the periphery., ~ing depression

ciklona u slabljenju smanjiti se: The use of ECDIS does not diminish the importance of keeping a good lookout.

dimmer /ˈdɪmər/ (=DIM) (n) (comm) prigušivač (svjetla na VHF uređaju)
dinghy /ˈdɪŋgi/ (=dink; tender) (n) (boating/yachting) a small boat for recreation or racing,
especially an open boat with a mast and sails; also used as a tender boat: **jedrilica**, **sportska jedrilica**, **jedrilica za razonodu**, **mala jedrilica** general-purpose ~ **jedrilica opće namjene**; 2 a rowboat or small sailboat (in India) **dingi**; 3 a small boat carried on a larger vessel as a launch or lifeboat, usually powered by oars, sail, or small outboard motor

**pomoćna brodica / čamac, bajbot**
dining room (n) (mar law) blagovaonica
dink / *dink* (v) a usmjeriti; 2 uputiti
direct / *diˈrɛkt*; *dayrɛkt* (v) 1 a usmjeriti; 2 uputiti
direct action (n) (mar law) The right of a third party who has a liability claim against an insured to proceed directly by suit against the insurer, usually because the insured has been declared bankrupt or has become insolvent. In most jurisdictions, **direct action** is permitted only by statute. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

izravni odštetni zahtjev, izravni zahtjev za naknadu štete
direct-contact heater (n) (marine eng) dodirni zagrijač
direct cooled piston (n) (marine eng) ANTONYM indirectly cooled piston A piston which is cooled by internal circulation of oil from an oil jet. (direktno hlađeni klip, uljem hlađeni klip
direct-coupled engine (n) 1 (marine eng) direktno spojeni motor (na osovinu): A **direct-coupled propulsion engine** cannot operate unaided since it requires service pumps for cooling and lubrication, and fuel/lube oil hand The three layouts involve the use of **direct-coupled slow-speed diesel engines**, medium-speed diesels with a gearbox, and the steam turbine with a gearbox drive to the propeller. According to the way the main engine is joined to the shafting, they may be classified as **direct coupled engines**, i.e. coupled directly to the propeller shafting (also called direct drive) and **geared engines**, i.e. coupled to a reduction gearing (indirect drive).; 2 direktni priključak
direct coupling (n) (marine eng) neposredni spoj, direktni priključak
direct current (=DC) (n) (electr) istosmjerna struja
direct injection (n) (marine eng) In diesel engines with direct injection the combustion chamber is not divided and fuel is injected directly to the cylinder. (http://www.marinedieseleurope.com/)
d neposredno ubrizgavanje, direktno uštrcavanje
direction /ˈdɪrɛkʃən; daiˈrɛkʃən/ (n) smjer, pravac opposite ~ suprotan smjer, anticlockwise ~ u smjeru suprotnom od kazaljke na satu, clockwise ~ u smjeru kazaljke na satu
directional light (n) (navig) A light illuminating a sector or very narrow angle and intended to mark a direction to be followed svjetlo pokrivenog sektora
direction finder (=DF) (n) (navig) A radio receiver with a directional coil antenna mounted over a compass card, used in navigation to determine the bearing of a radio signal.
(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) goniometer radio ~ radiogoniometer
direction finding (=DF) (n) (safety, navig) Homing on signals to pinpoint a position. (in SAR) radiogoniometrija, određivanje azimuta radiogoniometrom: Direction finding includes: VHF DF and HF DF.
direction of current (n) (oceanogr) = set of current smjer u kojem teče morska struja;
The direction TOWARD which a current is flowing. smjer morske struje
direction of waves, swells or seas (n) (oceanogr) The direction FROM which the waves, swells or seas are moving. smjer valova i mrtvoga mora
direction of wind (n) (meteorol, oceanogr) The direction FROM which the wind is blowing. smjer vjetra
directions /ˈdɪrɛkʃənz; daiˈrɛkʃənz/ (n) upute: Pilotage Exemption Certificates may be applied for in accordance with the provisions of Section 8 of the Pilotage Act 1987 and Schedule 2 to these Directions.
direct-printing (n) (comm, safety) automated telegraphy techniques which comply with the relevant recommendations of the International Telecommunication Union Radiocommunication Sector (ITU-R). (COMSAR 14.4) direktno ispisivanje, direktno printanje
direct reversing engine (n) (marine eng) stroj s direktnim prekretem: For direct reversing main engines >230 mm bore flame arresters or bursting discs are required for each cylinder fitted between the cylinder start air valve and the manifold.
direct supervision (n) neposredni nadzor (broda)
dirty ballast (n) (environ) the seawater used for ballast when it is contaminated with the remnants or residue left in cargo tanks that previously carried crude persistent refined oils. (www.euronav.com)
prljavi balast, zauljeni balast
dirty oil (n) (shipping econ) Less refined oil products such as fuel oil. (https://www.clarksons.com/glossary/) gorivo niskoga stupnja rafiniranosti, prljava nafta
dirty petroleum products (=DPP) (n) (marine eng, cargo) Liquid products refined from crude oil, whose color is greater than 2.5 on the National Petroleum Association scale. DPP's include Fuel oil, Low Sulfur Waxy Residue (LSWR) and Carbon Black Feedstock (CBFS). (www.euronav.com)
prljavi naftni proizvodi: DPP's will usually require heating during the voyage as their viscosity or waxiness would make discharge difficult at ambient temperature. www.euronav.com
disability /dɪˈsabilɪti/ (n) onesposobljenost: The compensation provided under this paragraph for 100% disability shall not exceed US$150,000 for officers and US$100,000 for ratings, with lesser
disabled vessel /diːˈsæbəld/ (=disabled ship) (adj) (navig) = vessel not under command (NUC) A situation wherein a vessel or aircraft afloat and not in distress or potential of distress, has lost all means of propulsion, steering or control to such a degree as to be incapable of proceeding to safety without assistance. (COMSAR) onesposobljzen brod, brod

nesposoban za manevriranje: The vessel was disabled and had to be towed to port. The multipurpose vessel ... was in the vicinity of the disabled vessel as of 1150. German media reports say the disabled vessel blocked shipping traffic on the Elbe for several hours. http://gcaptain.com/capesize-bulk-carrier-breaks-elbe-river-ais/ The Canadian authorities began tracking the disabled containership on ... A Very Large Ore Carrier (VLOC) has been disabled since June 26 after a fire in its engine room

disagreement /ˌdɪsəˈɡriːmənt/ (n) nesporazum, neslaganje: If in doubt, query his intentions, and in case of disagreement, ensure that conflicting intentions / interpretations are resolved before continuing with the operation. After a slight disagreement about the stowage factor the surveyor confirmed that the vessel was within the stability criteria required by SOLAS.

disassemble /ˌdɪsəˈsɛmbl/ (v) (marine eng) rastaviti, demontirati
disassembly /ˌdɪsəˈsembli/ (n) (marine eng) rastavljanje, razmontiranje,

demontaža: Replacement or inspection of the piston rings is possible without disassembly of the liner: the piston can be partially removed from the liner for this purpose. For easy assembly/disassembly, the parts are connected to each other with slide connections.

disaster (n) (safety) nesreća: The tragedy is considered the worst maritime disaster in the country in over 30 years.

disbursements /ˌdɪsbrəsmənts/ (n) 1 (shipping econ, logist) all expenses that the agents made for the vessel in a port (e.g. port duties, loading and unloading costs, tugs, provisions, etc.)

https://www.logisticsglossary.com/term/disbursements/ izdaci (za agencijske usluge brodu prije putovanja) ~ account obračun svih izdataka pomorskoga agenta za račun brodara u luci pristajanja broda; Account rendered by a ship's agent at a port to the shipowner for all sums paid out in respect of the ship's call at the port such as pilotage, towage, any cash advance to the master, supply of provisions and stores and the agency fee. Receipts known as vouchers support the account, http://www.tkmglobal.net/chartering_D.HTM račun otpreme, troškovi otpreme, port ~ Payments incurred for a variety of port expenses embracing fresh water, bunkers, customs fees etc. lučki izdaci (za takse, pristojbe, tegljenje, peljarenje itd.),

master's ~ zapovjednikovi izdaci: Master's disbursements are expenses by the master for items that are necessary for the navigation of the ship and the prosecution of the voyage). ; 2 (mar ins) In ocean marine insurance policies, the term disbursements relates to all expenses of the shipping company before the start of a journey, such as the costs for bunkers, provisions, inventory, outgoing port duties, etc.

izdaci brodara prije početka putovanja broda
disc 1 kolo, pločica; 2 disk
discard (v) (marine eng) odbaciti, baciti u smeće: Remove and discard the piston ring and scraper ring.

disc cutter (n) (marine eng) rastavni rezač
discharge (n) 1 (shipping econ, cargo handling) iskrcaj broda: The following procedures are recommended to ensure that a proper record is made of the loading, carriage and discharge: At the time of the incident, the vessel was passing Ile d'Ouessant (Ushant), France, en route for discharge at Rotterdam. complete ~ završiti iskrcaj: A vessel was preparing to sail from port after
discharge

completing discharge when multiple alarms sounded. ; 2 (cargo handling) iskrcaj (ereta (nafte, rasutih tereta itd)): Samples should be taken from the vessel’s bunker tanks upon completion of loading and prior to discharge. cargo ~ iskrcaj tereta: When the cargo discharge was almost completed, the master and 2 other crew members entered the tank with the intention to carry out the required squeezing as described above.; 3 (mar law) iskrcaj pomorca, otpust (nakon završetka ugovora): Any seafarer may request his immediate discharge on grounds of injury or illness. Svaki pomorac može zatražiti hitan iskrcaj s broda uslijed ozljede ili oboljenja. Any seafarer may request his or her immediate discharge on grounds of injury or illness, and such discharge may be granted in the Master’s reasonable discretion at the next appropriate port. time and place of ~ vrijeme i mjesto iskrcaja (pomorca) s broda: The Master shall give to a seafarer discharged from his vessel either on his discharge or on payment of his wages, the Seafarer’s Identification and Record Book as issued by the office of the Maritime Administrator, with an entry specifying the period of his service and the time and place of his discharge. ; 4 (nav arch, marine eng) odvod, ispust, pražnjenje, ispuštanje: Ensure that the water in ballast tanks is uncontaminated prior to discharge, by sighting of the surface and sample drawn from each tank; engine ~ odvod iz motora, ispust iz motora, overboard ~ ispuštanje u more (balasta, nafte itd.), iskrcaj u more (balasta, nafte itd.): Should any overboard discharges occur, they must be documented in an oil record book, a log that is regularly inspected by the U.S. Coast Guard. discharge (v) 1 (nav arch, seamanship) ispuštati, prazniti, iskrcajti, odvoditi ~ ballast iskrcajti balast, ispustiti balast: After discharging ballast from the forepeak, the vessel refloated some 5 hours later without the assistance of tugs. ~ bulge water ispustiti kaljužnu vodu u more: The owner and operator of a fishing vessel have been fined $1 million after pleading guilty to discharging oily bilge water from the vessels’ engine rooms. https://gCaptain.com; 2 (shipping econ, mar law, cargo handling) iskrcaj teret: It is the duty of the First Mate to receive and discharge cargoes. It is advisable for the master to note a protest whenever the consignees failed to discharge cargo or take delivery thereof, and pay freight in accordance with C/P or B/L terms. The ship duly moved to the container berth to discharge her cargo. The vessel was discharging a cargo of steel plates with shore cranes alongside a quay.; 3 (electr) isprazniti se (akumulator, baterija): After discharging ballast from the forepeak, the vessel refloated some 5 hours later without the assistance of tugs. discharge (n) (environ) ispuštanje (nafte, ulja) u more: Dumping oil-contaminated water overboard is almost always followed by an attempt to cover the illegal dumping up by failing to record these discharges in the ship’s oil record book. The tanker knowingly failed to record overboard discharges of oily bilge water. https://gCaptain.com illegal ~ protuzakonito ispuštanje (onečišćene vode, ulja) u more discharge book (n) (mar law) = seaman's book pomorska knjižica, matrikula: It is important that those signing on should have all the necessary documents such as Certificate of Competence, or Certificate of Qualification, Discharge Book (or Seaman's Book, Seaman's Passport) and Yellow Book (Vaccination Certificate). discharge hose (n) (cargo handling) iskrcajna fleksibilna cijev, iskrcajna gumena cijev: Each pump had a discharge hose passing through the port side freeing port leading to one of the tanks. discharge line (n) (cargo handling, nav arch, marine eng) cjevovod iskrcaja,
Frequently, overboard discharge lines are fitted with non-return valves to reduce the risk of backflooding. Although some ESD valves appeared to have been pressure tested by ship’s staff, those on the cargo discharge lines were not, as there was no readily available method to do so.

**discharge operations** *(n)* *(shipping econ, cargo handling)* operacija iskrcaja,

**odvodni cjevovod, odvodna cijev, iskrcajna linija**: After re-checking the complete cargo system, discharge operations were resumed with all standard Company and Industry procedures in place. Later, the discharge operations were also suspended at shore request.

**discharge rate** = unloading rate kapacitet iskrcaja (nafte, rasutih tereta), brzina iskrcaja *(u tonama)*: ... the maximum venting capacity is well below the designed discharge rate of the pumps! This should cover the order in which tanks are to be loaded/discharged, tank/pump/pipe work allocation and loading/discharge rates in order to minimise the stress on the vessel and the risk of cross-contamination of different grades of cargo. What is the maximum loading rate / discharging rate?

**discharge strainer** *(n)* *(marine eng)* tlačni pročistač

**discharge under pressure** *(v)* *(marine eng)* ispustiti pod tlakom, stlačiti

**discharge valve** *(n)* *(cargo handling, marine eng)* ventil za iskrcaj (tereta): The pump system consists of an expansion bellows, a suction valve, the pump itself and a discharge valve with non-return function. The cargo discharge valve of cargo tank 3S had stuck during the previous discharge and could only be used with a limited rate.

**discharging** *(n)* *(shipping econ, mar law)* iskrcaj: Loading, Discharging and Delivery of the cargo shall be arranged by the Carrier’s Agent unless otherwise agreed.

**discharging port** *(n)* *(cargo, shipping econ)* luka iskrcaja: Demurrage at the loading and discharging port is payable by the Charterers at two (2) per cent to cover insurance and other expenses.

**discharging rate** *(shipping econ)* brzina iskrcaja, kapacitet iskrcaja

**disciplinary proceedings** /*dišiplinari*/ *(n)* *(mar law)* stegovni postupak,

**disciplinski postupak**: The Master shall comply with the following **disciplinary procedures** against an erring seafarer:

**disconnect** *(v)* iskopčati, isključiti, otkvačiti, otpojititi: There is also often a need for a clutch to **disconnect the engine from the gearbox**. Shore party reboarded vessel and managed to disconnect cargo hose and lower it to the water.

**discontinue** *(v)* obustaviti: When grabs are in use, it is strongly suggested that, if a cargo is susceptible to damage by rain, snow or precipitation, the vessel should opt to **discontinue cargo operations altogether during inclement weather and avoid working cargo through partially open hatchways**. **traffic** ~d obustavljena plovdba

**discount** /*diskont*/ *(n)* *(shipping econ)* popust: The original invoice must disclose all discounts and allowances, if any.

**discrepancy** /*diškrepansi*/ *(n)* 1 *(shipping econ)* razlika *(u broju, količini, opisu, ... tereta), nepodudarnost: Whereas the said discrepancy is beyond vessel’s control, the Owners, the Master, the Vessel and the Crew are not responsible for any dispute S obzirom da je spomenuta razlika iznad naše moći, brodovlasnik, zapovjednik i posada ne mogu biti odgovorni u slučaju bilo kakvog spora Believing the original plan to be incorrect, he amended the ullages in the discharge plan; The C/O did not discuss the discrepancy and revised stopping ullages with the OOW and Master, resulting in a one-man error. Any discrepancies in the value of the sounding may lead to suspicion and further investigation. **www.marineinsight.com** Discrepancy between both figures razlike između brojaka
(količina tereta); 2 (navig) failure of an aid to navigation to maintain its position or function as prescribed in the Light List odstupanje plovidbene oznake od objavljenih podataka
disease /ˈdiːziː/ (med) bolest: a ship clean and free from any ~ brod na kojem name nikakve (zarazne) bolesti infective ~ zarazna bolest, contagious ~ zarazna bolest: This is to certify that the ship is free from any contagious disease., infectious ~ zarazna bolest
disembark /ˌdisəˈbɑːk/ (v intr) ANTONYM iskrcati se (o peljara, putniku, osobi): The pilot disembarked soon after unberthing, and the vessel proceeded at Full Ahead The heading was chosen to create a lee for the sea pilot to disembark safely, and the drift rate increased substantially under this beam wind situation until the ship became wind-rote at about 14:55. The package must be presented to the CBSA prior to any persons being allowed to disembark or embark the vessel, or any cargo being discharged. A pilot was about to disembark from a small cargo vessel in benign weather conditions, with a good lee, and the pilot launch alongside and under control. ~ a pilot
iskrcaj peljara: A 16m, twin screw pilot launch was tasked to disembark a pilot from an 81m general cargo ship., ~ a vessel / ship iskrcati se s broda: It has taken measures to ensure its required radio procedures are followed, and has changed the point at which pilots disembark outbound vessels. A ship pilot at the Port of Lisbon in Portugal has died after falling into the water while disembarking from a container ship early Wednesday morning. gCaptain
<info=gcaptain.com@mail23.sea91.rsgsv.net>, ~ the lifeboat 1 iskrcati se iz brodice za spašavanje: All crew, except the assigned operating crew, disembark the lifeboat.; 2 iskrcati se s brodice za spašavanje, ~ the passengers iskrcati putnike: Sirena Seaways was subsequently moved to another berth to disembark the passengers and vehicles., ~ the casualty iskrcati unesrećenu osobu: the ship deviated to the nearest port to disembark the casualty., ~ the animals iskrcati životinje: Permission to disembark the animals will be granted only once authorization to do so is received from CFIA and once all necessary animal health permits are pr
disembarkation (=,dis.im.ˈbɑːk.ˈkei.ˈjɛn) (n) (navig) landing (of a pilot, crewmember etc.)
iskrcaj (peljara)
disembarkation point (n) (navig) mjesto iskrcaja (peljara): The pilot left the vessel about six cables before the normal pilotage disembarkation point, in order to disembark in more protected waters. www.nautinst.org - 201776 Message mix-up contributes to collision The pilot left the vessel about six cables before the normal pilotage disembarkation point, in order to disembark in more protected waters.
disembarking (n) (hum_resources, seamanship) iskrcaj (posade, putnika ili drugh osoba): The authorities stopped all cruise ships with more than 100 people on board from disembarking at the ports from Monday, after an outbreak of COVID-19 gCaptain www.gCaptain.com
disembark the pilot (v) 1 (v tr) = drop the pilot iskrcati peljara: The ship had then altered course to 2300 T to head for Cherbourg, either for cargo or to disembark the pilot.; 2 (v tr) iskrcati se: The pilot disembarked at the East Lepe Buoy.
disengage /ˌdɪsɪnˈɡeɪdʒ/ (v) (marine eng, seamanship, cargo handling) isključiti (pogon, stroj), otkvačiti, osloboditi, Italian:disinnestare: When the 20 foot container was lifted during discharge, the automatic midlocks securing the container to the tank container did not immediately disengage as designed. safe and permission given by the bridge the engine should be tried – ahead or astern – on starting air. Prior to that it is necessary to disengage the turning gear. On engines with bridge control the control selector must be switched to the desired position. The engine is now ready
After completing the job they intended to disengage the clutch by shifting the clutch lever. e skipper tried to pay out the port trawl wire but the main engine stopped, resulting in the loss of hydraulic power and a consequent inability to disengage the winch dog clutch.

disentangle (v) 1 (seamanship, boating/yachting) ANTONYM entangle otpetljati (konop, lanac), odriješiti (konop, lanac); 2 (safety) odvojiti (sudarene brodove): Salvors have disentangled the two vessels after collision in Germany bay. Wedged cargo ships have been separated and brought under control ... www.gCaptain.com

dish (n) (comm) parabolična antena
disinfect / disin'fekt/ (v) (cargo handling) dezinficirati

dispatch /di'spætʃ/ (n) 1 = despatch; isporuka; 2 (mar law) In a voyage charterparty, an agreed amount payable by the shipowner if the vessel completes loading or discharging before the laytime has expired http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

nagrada za ušteđeno vrijeme, ušteda, dispač; 3 (shipping econ) an agreed amount to be charged by terminals for prompt vessel turn around (www.euronav.com) otprema (robe), isplovlenje (broda): Check every load to ensure nothing is loose or damaged before dispatch. Prije isplovlenja provjerite svaki teret kako biste se uvjerili da nije neučvršćen ili oštećen.
quicks ~ brza otprema, with due ~ pravodobno, u dogovorenom roku / vremenu: ... the merchant may make a protest (i.e. Letter of Protest) against the master, for misconduct, drunkenness, etc., for not proceeding to sea with due despatch, for not signing bills of lading in the customary form, and other irregularities.; 4 (mar law) SEE shipping order The function of issuing voyage instructions or sailing orders to vessels (www.euronav.com) nalog ukrcaja

dispatch /di'spætʃ/ (v) 1 otpremiti; 2 isporučiti

dispatch /di'spætʃ/ (n) (mar law) = dispatch money nagrada za ušteđeno vrijeme
dispatch money /di'spætʃ/ (n) (shipping econ, mar law) iznos koji brodar plaća krcatelju ili primatelju tereta za ranije ukrcan ili krcan teret u odnosu na vrijeme stojnica nagrada za ušteđeno vrijeme (pri ukrcaju/iskrcaju): Should a vessel load and/or discharge in less than the prescribed time, owners of a ship pay dispatch money as a “reward” for time saved. The rates for demurrage and dispatch money are stated in dollars per day in the charter-party.

dispensary /di'spensəri/ (n) (safety) brodská lijekarná: Oxygen flasks from a dispensary are often white, whilst breathing apparatus is seen filled in flasks with all sorts of colours, including white. His workmates rushed him to the nearest eye wash stand in the paint store, and rinsed out his eyes, before escorting him to the ship’s dispensary, where the second officer applied eye drops.

dispersant /di'spærənt/ (n) (safety) otapalo, disperzivno sredstvo: An important function of the cleaning agent is to be a good solvent for the gypsum in the sludge. It should also act as a
Dispersant and emulsifier for oil. Oil ~ otapalo za zauljene vode

Displace /di'spleiz/ (v) 1 (marine eng) istisnuti; 2 pomaknuti, premjestiti,

Potisnuti: One mooring bollard was displaced in the accident. After the impact with the quay the ships bulbous bow was displaced to port. ~ axially premjestiti uzdužno / aksijalno

Displaced volume (n) (nav arch) istisnuta zapremnina

Displacement /dis'pleismənt/ (n) (nav arch) the volume of fluid displaced by a freely floating and unrestrained vessel, the weight of which exactly equals the weight of the vessel and everything on board at the time the displacement is recorded. https://square-words.tk › World War II; The weight in tons of the water displaced by a ship. This weight is the same as the total weight of the ship when afloat.

Displacement or displacement tonnage is the weight of water that a ship displaces when it is floating, which in turn is the weight of a ship (and its contents). It is usually applied to naval vessels rather than commercial ones, and is measured when the ship's fuel tanks are full and all stores are aboard. (Wiki.) Istisnina, ~ hull A hull design that achieves buoyancy by displacing a volume of water equal to its weight.

(https://officeroftwatch.com/tools/maritime-dictionary) Deplasmasni trup,

Standard ~ standardni deplasman, full load ~ pun deplasman, ~ table

Tablica istisnine, tablica deplasmana, loaded ~ ukupna istisnina, light ~ laka istisnina

Displacement (=DISP.) (n) 1 (marine eng) In a single acting engine, the volume swept by all pistons in making one stroke each. The displacement on one cylinder in cubic inches is the circular area (in square inches) times the stroke (in inches). (http://www.marinedieseleurope.com/) Stapajni obujam; 2 (marine eng) pomicanje, pomak, premještanje; 3 (marine eng) istisnuće (pumpe), istisnina (pumpe)

Displacement coils (n) (electr) COMPARE deflection coils zavojnice za pomak slike (na radaru)

Displacement from draught readings (n) (stabil) Istisnina dobivena iz očitavanja gaza

Displacement pump (n) (marine eng) Volumetrijska pumpa, istisninska pumpa

Displacement speed (n) (boating/yachting) The theoretical speed that a boat can travel without planing, based on the shape of its hull. This speed is 1.34 times the length of a boat at its waterline https://www.ypiyachts.com Istisninska brzina (jedrilice, brodice)

Displacement tonnage (n) (nav arch) the weight the water displaced by the vessel which in turn is the weight of the vessel at that time. (expressed in tons) (www.euronav.com) Istisnina broda, deplasman

Light ~ the weight of the vessel only and the vessel's loaded displacement is the weight of the vessel and all cargo, stores, fuel, water, etc. on board (www.euronav.com) Lagana istisnina broda, lagani deplasman

Display /di'splei/ (n) (navig) Radarski pokazivač, pokazivač, ekran (radara),
The navigating officers on board the ferry had a preference for interrogating AIS targets on the radar display. The chief officer saw that the vessel was fishing and, by using the EBL on the radar display, assessed that she was on a steady bearing. The master went to the bridge and, on examining the port radar display, found the automatic tuning facility was not operating correctly. We tried to acquire the contact on the S band radar display.

The chief officer saw that the vessel was fishing and, by using the EBL on the radar display, assessed that she was on a steady bearing. The master went to the bridge and, on examining the port radar display, found the automatic tuning facility was not operating correctly. We tried to acquire the contact on the S band radar display.

The traffic lanes trend west-northwest to east-southeast, while the heading display for this ship (reportedly outbound for Longview, Washington) indicated it was heading northeast at about 14 knots.
disponent owner /disˈpəʊnənt/ (n) 1 COMPARE managing owner brodar koji nije vlasnik broda, ali prema određenome pravu raspolaže njime radi zaključivanja prijevoza stvari trećih strana; a person or company which has commercial control over a vessel's operation without owning the ship as in a bareboat charter; Person or company who controls the commercial operation of a ship, responsible for deciding the ports of call and the cargoes to be carried, very often, the disponent owner is a shipping line, which time charts a ship and issues its own liner bills of lading. In most cases, Industrial Maritime Carriers are acting as "disponent owners". http://www.tkmglobal.net/chartering_D.HTM; Charterer who has sublet the vessel and is acting as the owner per the terms of the contract. (www.euronav.com) **brodar raspolagatelj**: This is done by taking the ships they require on time charter or another form of long term lease known as a bareboat charter, in which event they may be referred to as the disponent owner. The definition of a disponent owner is “deemed to be the owner but not actually the owner”. The registered or disponent owner of the vessel named herein (or substitute) only shall be liable for any damage or loss due to any breach or non-performance of any obligation arising out of the contract of carriage, whether or not relating to the vessels seaworthiness. The person who hires a ship (or several ships) in bareboat charter or in time charter is called a “disponent owner”. If the commercial operation of the ship is entrusted to a managing company, than the manager is called “managing owner”. http://www.maritimeknowhow.com/ Many ships today are owned by banks or finance/leasing companies who have no operational involvement whatever. In practice the lessee companies, referred to as 'Disponent Owners' or one of their subsidiary companies, may appear as the
Manager of the ship. The disponent owner, reimbursed the head owner 50% of that sum under the Inter-Club Agreement (ICA). A person, such as a bareboat or time charterer, who, while not being the registered owner of a ship, nevertheless has the right to dispose of it (i.e. to control its commercial operation), notably by sub-chartering it to a third party. Although lacking title to the vessel, the disponent owner may have many of the rights and responsibilities of the owner.

zakupnik broda, korisnik broda, čarterer, brodar, podnajmitelj broda
disport /disˈpɔːt/ (=discharging port) (shipping econ) luka iskrcaja, iskrcajna luka
disposal /diˈspəʊzl/ (n) at ~ na raspolaganju: A skipper must monitor his passage using all appropriate means at his/her disposal and not be over reliant on just one method. In other words, the shipowner puts at the charterer’s disposal a fully equipped vessel and operates her for the benefit of the charterer. place the ship at the ~ of the charterer staviti brod na raspolaganje unajmitelju 1 odbacivanje, otpad: An official disposal certificate was issued by the authorities but there was no mention that the cargo removed was damaged. ; 2 (shipping econ)
raspolaganje
dispose of /diˈspəʊzl/ (n) ukloniti, odbaciti, osloboditi se (čega), riješiti se (čega): Disposal of fumigant residues MSC Circular 1264 requires that ‘all waste and residues are disposed of in an appropriate manner, either by incineration or by disposal on shore, as recommended by the manufacturer. Much discussion took place on alleged poor condition of the drums, the subsequent disposal of their contents etc. Disposal of bilge water through the oily bilge separator was not attempted for a prolonged period as the vessel was in coastal waters and the ship’s staff had 0

disposition /diˈspəʊzɪʃə(n)/ 1 razmještaj, raspored: The true weights and the disposition of the vessel’s cargo were not known. ; 2 (shipping econ, mar law) odobrenje, nalog, dispozicija: Salvage must be retained until the claim is resolved, or until the claimant is given disposition by the carrier.
dispute /diˈspjuːt/ (n) (mar law) spor: Any dispute arising out of this Charter Party shall be referred to arbitration in ~ sporno, pod znakom pitanja: He issued a protest to the terminal stating that the water content was in dispute and might increase on the loaded passage. We reject all liability for this amount in dispute and hold you fully responsible for all consequences which may arise. ..., industrial ~ radni sporovi, civil ~ gradanski spor: The vessel will not be allowed to leave the port until a civil dispute originating in federal court involving a payment disagreement is resolved
disrate (v) (mar law) degradirati
disruption /diˈspərʒən/ (n) (shipping econ, mar law, logist) poremećaj (prometa): Insurance implications arise from the disruption of shipping and logistics due to the pandemic (https://safety4sea.com/) The closure of ports and port congestion have caused disruptions in the supply chain and import and exports. (https://safety4sea.com/) Arising from the lockdowns and disruptions to international supply chains, several of the offshore and marine division’s projects have been delayed. https://www.seatrade-maritime.com/shipbuilding/

dissolve /diˈzəlv/ (v) otopiti, rastopiti: A chemical cleaning agent must dissolve the deposits quickly without attacking the material of the separator parts. They said two ships were spraying the water with chemical agents designed to dissolve the oil. http://www.bbc.com/news/world-asia-china-42690247
dissolved air /diˈzɔlv/ (n) (marine eng) otopljeni zrak
dissolved gas /diˈzɔlv/ (n) (marine eng) otopljeni plin
distance (n) (navig) udaljenost, razmak: Ships have to keep the maximum distance possible from crowded anchorages at a ~ of na udaljenosti od: The bearing remained steady until 2120 when, at a distance of 2 miles, the Master ordered Hard a Starboard. A vessel was observed at 6 points on the port bow at a distance of 6 miles, showing green and on a steady bearing., safe ~ sigurna udaljenost: The master altered course to starboard to avoid a close-quarters situation with the first of the vessels while still keeping a safe distance from the sandbank., at a close ~ na vrlo maloj udaljenosti, vrlo blizu
distance counter (n) (navig) brojilo prijeđenog puta
distance division (n) (navig) utvrđivanje najmanje udaljenosti između brodova koji plovi istim smjerom raspodjela udaljenosti
distance made good (=DMG) (navig) prijeđeni put (broda u plovidbi)
distance off (prep.phr) (navig) udaljenost od (oznake): When our vessel had turned to starboard and was passing parallel through the target vessel's intended course, she was now on the port quarter, the distance off was 4 cables.
distance piece (n) (marine eng) umetak, uložak, distancer: A distance piece, known as compression plate or shim, is interposed between the foot and the box to permit the piston to be moved ...
distance run (navy) prijeđeni put, prijeđena udaljenost
distance tables (n) (navig) daljinar
distance washer (n) (marine eng) podloška
distilled water /′dɪsˈtɪld/ (n) (marine eng) destilirana voda
distilling plant (n) (marine eng) postrojenje za pripremu pitke vode
distilling system (n) (marine eng) sustav za destiliranje vode
distinguishing flag (n) (navig) zastava brodovlasnika
distortion; distorsion; distortion /′di stɔrʃən/ (n) 1 (marine eng, nav arch) iskrivljenje, izobljenje, iskrivljenost, deformacija, distorzija: The resulting low thermal distortion as well as the high mechanical stiffness fosters good valve seat sealing with optimum heat transfer to the exhaust valve seats. The boat suffered distortion to longitudinalis and to hull plates near to the port side of the keel.; 2 (med) uganuće
distort /′di stɔrt/ (v) izobličiti, iskriviti, iskriviti, deformirati: If the surface was uneven, then when the bolts were tightened the bedplate would be distorted, which in turn would distort the crankshaft, causing unacceptable stresses to be set up when the engine was running.
distraint proceedings (n) (mar law, mar ins) ovršne radnje
distraint proposal (n) (mar law) = execution proposal prijedlog za ovrhu
distraint /′di strɛint/ (n) 1 (mar law) COMPARE execution the seizure and holding of property as security for payment of a debt or satisfaction of a claim ovrha, pljenidba, zabrana ~ law ovršni zakon; 2 (mar law) zaustavljanje broda radi ovrhe
distress /′di stres/ 1 (safety) A search and rescue incident where there is a reasonable certainty that one or more individuals are threatened by grave and imminent danger and require immediate assistance. (IAMSAR/Camsar2014); a situation at sea when a station (ship, floating object, etc.) is
threatened by grave and imminent danger and requests immediate assistance; Examples: fire, explosion, flooding, collision, grounding, list - danger of capsizing, sinking, vessel disabled and adrift, undesignated distress, abandoning vessel, person overboard; a state of danger to the lives of the passengers and crew of a vessel pogibao, pogibelj, Italian:pericolo respond to a vessel in ~ reagirati na poziv za pomoć s broda u pogibli: The South African Maritime Safety Authority (SAMSA) is responding to a VLCC in distress off the port of St. Johns.

https://gcaptain.com/; 2 nesreća, opasnost
distress acknowledgement /əkˈnɔldʒmənt/ (n) (comm, safety) potvrda primitka poruke o pogibli: This 'auto acknowledge' should be disabled so that any DSC Distress Acknowledgement must be sent manually. If in doubt, consult a Coast Station/RCC before sending a DSC Distress Acknowledgement.
distress alarm (n) (safety, comm) The distress alert is a digital selective call (DSC) using a distress call format, in the bands used for terrestrial radiocommunication, or a distress message format, in which case it is relayed through space stations. (ITU-R); The distress alert may also contain information regarding the nature of the distress, the type of assistance required, the course and speed of the mobile unit, the time that this information was recorded and any other information which might facilitate rescue.. (ITU-R); digitalni signal uzbune o opasnosti prema Špilačkom koordinacijskom centru (RCC RH/MRCC RH) ili područnom centru za potraživanje (RSC/MRSC) koji mogu osigurati organiziranu pomoć; (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html)
digitalna uzbuna o pogibli (putem DSC u sustavu GMDSS), digitalni selektivni poziv za pomoć u pogibli (u GMDSS-u), digitalni poziv za pomoć u pogibli (poslan putem DSC u sustavu GMDSS), DSC uzbuna o pogibli: The distress alert shall be sent through a satellite either with absolute priority in general communication channels, on exclusive distress and safety frequencies reserved for satellite EPIRBs in the Earth-to-space direction or on the distress and safety frequencies designated in the MF, HF and VHF bands for digital selective calling (see Appendix 15). (ITU-R) DSC ~ digitalni selektivni poziv u pogibli, DSC poziv za pomoć u pogibli: Some DSC equipment is programmed to automatically acknowledge a DSC Distress Alert., send the ~ poslati digitalni selektivni signal o pogibli: The distress alert shall be sent through a satellite either with absolute priority in general communication channels, on exclusive distress and safety frequencies reserved for satellite EPIRBs in the Earth-to-space direction or on the distress and safety frequencies designated in the MF, HF and VHF bands for digital selective calling (see Appendix 15). (ITU-R), repeat the ~ ponoviti digitalni selektivni signal pogibli, terminate ~ završiti slanje digitalnoga signala pogibli: Once selected and initiated, a DSC distress alert will continue to be automatically repeated until terminated by the operator, initiate the ~ započeti slanje signala pogibli, poslati signal pogibli, cancel the ~ poništiti poslani digitalni selektivni signal o pogibli, otkazatii poslani digitalni selektivni signal o pogibli, genuine ~ stvarni znak pogibli: Unfortunately, some genuine distress alerts often go unheeded., false ~ lažni digitalni selektivni signal pogibli: False distress alerts already impose a considerable burden on Rescue Co-ordination Centres (RCCs) and divert SAR resources away from real distress situations and therefore also reduce the confidence of seafarers, receive a ~
primiti digitalni selektivni poziv za pomoć u pogiblji: All stations which receive a distress alert or call transmitted on the distress and safety frequencies in the MF, HF and VHF bands shall immediately cease any transmission capable of interfering with distress traffic and prepare for subsequent distress traffic. (ITU-R)

distress alert button (=DIST) (n) (comm) dugme za uključivanje alarmnog signala u pogiblji, dugme za uključivanje digitalnog selektivnog alarma o pogiblji

distress alerting uzbunjivanje o pogiblji, digitalno selektivno uzbunjivanje o pogiblji

distress alert relay (n) 1 (comm, safety) The distress alert relay is a DSC transmission on behalf of another station. (ITU-R); a re-transmitted distress alert prenesena digitalna uzbuna o pogiblji (putem DSC u sustavu GMDSS), prenesen digitalni selektivni poziv za pomoć u pogiblji, retransmitiran digitalni selektivni poziv za pomoć u pogiblji: The distress relay on behalf of a mobile unit in distress shall be sent in a form, appropriate to the circumstances using either a distress call relay by radiotelephony, an individually addressed distress alert relay by DSC, or a distress priority message through a ship earth station. (ITU-R); A station transmitting a distress alert relay or a distress call relay in accordance with Nos. 32.16 to 32.18 of RR32-5 shall indicate that it is not itself in distress. (ITU-R); 2 prenošenje poziva za pomoć u pogiblji, retransmitiranje digitalnoga selektivnog poziva za pomoć u pogiblji

distress and safety frequencies (n) (safety, comm) radiofrekvencije za komunikacije u pogiblji i sigurnosti keep a communications watch on the ~ držati stražu na frekvenciji za pogibao i isgurnost: The MRCC and MRSCs keep a constant marine radiocommunications watch on the following international distress and safety frequencies: · VHF-DSC channel 70 (156.525 MHz); · VHF channel 16 (156.800 MHz); · MF-DSC frequency 2187.5 kHz SAR Manual, Finland 2010

distress beacon (n) (safety) A generic term used to describe any emergency locator transmitter, emergency position-indicating radio beacon or personal locator beacon. (IAMSAR/Camsar2014=Canadian Coast Guard); There are two types of distress beacons regulated for use: .1 COSPAS-SARSAT 406 megahertz (MHz) emergency locator transmitters (ELTs), emergency position-indicating radio beacons (EPIRBs) and personal locator beacons (PLBs), and .2 Very high frequency (VHF) digital selective calling (DSC) EPIRBs (IAMSAR/Camsar2014=Canadian Coast Guard) radiosignal pogiblji, radiopredajnik signala pogiblji, radiolokator pogiblji: In the absence of other information, a signal from a 406 megahertz distress beacon, on its own, is to be considered as a sign of distress and shall be investigated immediately. Camsar2014; Cospas-sarsat

distress beacon alert (n) (safety) uzbuna putem radiosignala o pogiblji: Through the COSPAS-SARSAT system, the Canadian Mission Control Centre (CMCC) receives 406 MHz distress alerts from Emergency Locator Transmitters (ELTs), Emergency Position-Indicating Radio Beacons (EPIRBs) and Personal Locator Beacons (PLBs). CAMSAR II – Mission Coordination

distress call (n) COMPARE distress alert The distress call is the initial voice or text procedure (ITU-R) poziv za pomoć u pogiblji (poslan radiotelefonijom), Italian: chiamata di soccorso: Always use the DSC to raise a distress call. transmit the ~ poslati poziv za pomoć u pogiblji
distress call relay

Singapore - Invests in New Satellite Technology to Enhance Search-and-Rescue Capabilities, send out a ~ poslati poziv za pomoć u pogibli: The vessel was located about 100 kilometers from Mumbai when it sent out the distress call. Sending a distress call by digital selective calling or by VHF channel 16 when an emergency arises is the right action to take. The distress call shall be sent on the distress and safety frequencies designated in the MF, HF and VHF bands for radiotelephony. (ITU-R), transmit a ~ poslati poziv za pomoć u pogibli, odaslati poziv za pomoć u pogibli: The skipper transmitted a distress call on VHF radio, which was answered by other vessels also sheltering in the bay., send a distress ~ by DSC poslati poziv za pomoć u pogibli putem sustava DSC: Sending a distress call by digital selective calling or by VHF channel 16 when an emergency arises is the right action to take. The skipper immediately notified his crewman of the situation and sent out a distress call., broadcast a ~ poslati poziv za pomoć u pogibli: After broadcasting a distress call at 1125, the 26 crew abandoned the vessel in an enclosed lifeboat., make a ~ poslati poziv za pomoć u pogibli: The other deckhand was roused, while the skipper made a distress call to the coastguard. At 2:51 a.m., the captain made the first radio distress call to the Coast Guard https://gcaptain.com, receive a ~ primiti poziv za pomoć u pogibli: Whilst on watch recently, I received a DSC distress call. 0538 Ship X to Coast Station - I have received distress call and am proceeding to position 0552 Ship X to Coast Station - I am now 4nm away. The Coast Guard received a distress call from the ------flagged vessel reporting that it was in need of assistance-
distress call relay (n) 1 (comm, safety) The distress call relay is the initial voice or text procedure for a station not itself in distress (ITU-R) glasovno prenošenje poziva za pomoć u pogibli (radiotelefonijom), retransmitiranje poziva za pomoć u pogibli
distress communications (radiotelefonijom); 2 prenesen poziv za pomoć u pogibli, retransmitiran poziv za pomoć u pogibli

**distress communications komunikacije u pogibli:** Distress communications rely on the use of terrestrial MF, HF and VHF radiocommunications and communications using satellite techniques. Distress communications shall have absolute priority over all other transmissions. (ITU-R)

**distress flare (n) (safety)** baklja za upozorenje o pogibli

**distress message (n) (comm, safety, navig)** The distress message is a subsequent voice or text procedure following the DSC distress alert or initial distress call. (ITU-R, RR32-1) poruka pogibli, poruka o pogibli, poruka o opasnosti: As a result of this, the coastguard issued a distress message on behalf of the vessel, and an RNLI lifeboat and two helicopters were tasked to the scene. Pressing the DSC distress button for 3 seconds would have transmitted an automated distress message, which would have included the identity and position of the vessel.

**distress phase (n) (safety, navig)** stupanj opasnosti koji određuje centar za koordinaciju traganja i spašavanja ako je primljena sigurna obavijest da su plovni objekt i osobe na njemu u ozbiljnoj i neposrednoj opasnosti i potrebna im je hitna pomoć; A distress phase exists when a 406 megahertz (MHz) ELT has been reported by the Cospas-Sarsat system (elemental or composite position); A situation wherein there is reasonable certainty that a vessel or other craft, including an aircraft or a person, is threatened by grave and imminent danger and requires immediate assistance. (IAMSAR/Camsar2014) stupanj pogibli, stupanj pogibelji: During the DISTRESS phase of a maritime emergency, the SMC shall, when applicable: 
1. Initiate action in accordance with the detailed plans or instructions for the conduct of SAR operations in his/her area of responsibility.
2. Develop a search plan.
9. Assess and determine the most suitable SRU for assuming the duties of on-scene coordinator. Camsar2014

**distress position (n) (safety, navig)** pozicija broda u pogibli: I was about 8 hours steaming distance from the distress position and there were several ships nearer. What is your ETA at distress position?

**distress procedure (n) (safety, comm)** DSC procedures use a combination of automated functions and manual intervention to generate the appropriate distress call format in the most recent version of Recommendation ITU-R M.541. postupci u slučaju pogibli

**distress relay (n) (comm, safety)** prenesena poruka s oznakom mayday, prenesena poruka o pogibli: Within minutes I had received a Distress Relay from USCG in Miami, then another, and another, and another. Do not send a DSC Distress Relay to 'All Ships/All Stations' before consulting a Coast Station/RCC, unless you have been appointed 'On-Scene Co-ordinator - OSC' by the RCC.

**distress signal (n) (navig, safety)** a radio signal, flag display or a sound, light used in calling for assistance in distress or emergency znak pogibli, signal pogibli: The Coast Guard Maritime Rescue Coordination Centre (MRCC Mumbai) received a distress call Sunday night at approximately 11:00 p.m. from the MV ..... reporting that the vessel was listing by about 20 degrees. ..... at 04:05h, an EPIRB distress signal has been received at Varna MRCC from ..... Nothing else was heard from the vessel, and no distress signal was received. false ~ lažni signal pogibli, genuine ~ stvarni signal pogibli: Sometimes it may happen that genuine distress alerts will go unheeded.

**distress site (n) (safety)** mjesto pogibli, mjesto oasnosti: The method of penetrating and accessing the distress site rests with the aircraft commander and the SAR Tech team leader. (Camsar2014)

**distress traffic (n) (comm, safety)** Distress traffic consists of all messages relating to the immediate
assistance required by the ship in distress, including search and rescue communications and on-scene communications. (ITU-R) radiopromet u pogibli: A distress traffic always has to commence with stating the position of the vessel in distress as specified in “GENERAL 11 Positions /13 Bearings” ... The distress traffic controlling station/other stations may impose radio silence on any interfering stations by using the term “Seelonce Mayday/Distress”, unless ... control of ~ kontrola radioprometa u pogibli, upravljanje radioprometom u pogibli, monitor ~ pratiti radiopromet u pogibli, cease ~ obustaviti radiopromet u pogibli

distress vessel (n) (safety) brod u pogibli: Various vessels asked distress vessel to repeat position and other details.

distribute /ˌdistriːbjuːt/ (v) rasporediti (teret u štiv), raspodijeliti, razmjestiti, razdijeliti: station, another agent working in close liaison with the agent forwarding the cargo will break bulk the consignment and distribute the goods to the various consignees. When dunnaging use boards placed 750 to 1000 mm apart so as to distribute the weight evenly over the beams.

distribution (n) 1 (cargo handling, shipping econ) raspored (tereta), otprema (tereta): The cargo plan plan shows the distribution and position of the cargo in the ship's holds or on deck. However, it was afterwards confirmed by sounding that there had been considerable asymmetrical distribution of ballast before the ship listed.; 2 (marine eng) razvod, razvođenje: Connections are provided on the accumulators for the injection valves and for the fuel distribution and injection-control components. Result of investigation 1 It was established that despite being shut, the steam distribution and inlet valves were not holding. Atomisation is the usual term to indicate the proper distribution and penetration of fuel in the combustion chamber.; 3 (marine eng) raspored (sila, opterećenja): The mean indicated pressure is determined as a check on cylinder load distribution as well as total engine output. The higher number of bolts allowed for a more even distribution of the stresses at the joint line and facilitated a slimmer connecting rod than with the two-bolt design. even ~ ravnomjeran raspored: Two pairs of studs are said to give the most even distribution of holding-down load, and also allow the tie rods to be located close to the bearing for efficient transfer of firing pressure load.

distribution box /ˌdistriˈbjuːʃən/ (n) (electr, marine eng) razvodna stanica, razvodna kutija: Fortunately, the breakers on the shore distribution box tripped automatically and there was no fire or injury.

distribution panel /ˌdistriˈbjuːʃən/ (n) (electr) razvodna ploča: The 220 volt electrical distribution panel outside the engine room access was totally destroyed.
distribution system  (n) (electr) razvodni sustav: Trained shipboard personnel should be assigned to check and approve all SPDs in use or brought on board for compatibility with the vessel’s electrical distribution system prior to use.

distribution valve  /distri'bju:fə/ (n) (marine eng) razvodni ventil: Before commencing the task, he isolated the line by shutting off the main distribution valves as well as the inlet valve for the steam heating coil from where the return line issued.

distributor  /distri'bju:tə/ (n) (marine eng) razvodnik, razdjelnik ~ cap poklopac razvodnika, kapa razvodnika, ~ valve razvodni ventil: The distributor valves provide air to operate each starting valve in the correct order and timing, air start ~ razvodnik zraka za upućivanje stroja: The Air Start Distributor: The air distributor normally consists of a series of pilot valves, one for each cylinder arranged radially ..., ~ rotor The metering mechanism of the distributor-type fuel-injection system. (http://www.marinediesel.europe.com/) rotor razdjelnika

disturb  /di'stra:b/ (v) 1 (comm) ometati; 2 (cargo) dirati (teret, kolete); 3 (navig) ometati (promet, druge brodove): Always pass at a safe distance. Try to avoid crossing ahead. Do not disturb the vessel being overtaken. This can all be summarised very easily by the application of Good Seamanship and Common Sense.; 4 smetati: He did not want to disturb the master and did not contact the bridge.

disturbance  /di'strengz/ (n) 1 smetnja, ometanje; 2 (meteorol) a disruption of the atmosphere that usually refers to a low pressure area, cool air and inclement weather poremećaj, Italian: perturbazione: The night was dark and there was a 25 knots wind blowing in the opposite
direction to the tidal current, causing some disturbance on the river.

ditch (v) to land (an aircraft) on water in an emergency: prisilno sletjeti na vodu
ditch bag (n) (boating/yachting, safety): vodonepropusna vreća za

preživljavanje: Ditch Bags and Emergency Gear - Make sure you have all the supplies necessary for emergency survival (yes - you do need a compass, and only one Kit supplied Practical Sailor
ditching (n) (safety): The forced landing of an aircraft on water. prisilno slijetanje na
more, ditching
diurnal /daiʒnəl/ (adj): having a period or cycle of approximately 1 tidal day: dnevni, jednom
na dan
diurnal wind /daiʒnəl/ (n) (meteorol): dnevni vjetar
dive /dai/ (v): roniti, uroniti: He dived underneath, but found it very difficult to free the skipper. No salvage is to be dumped / dived / jumped / thrown without written authorization from the carrier.
dive boat (n) (nav arch): ronilačka brodica, pomoćna brodica za ronjenje: flares would reduce the chance of flare reports being made to the coastguard from vessels out of sight of the situation; Divers and commercial dive boats should consider the overall risk when operating in busy shipping lanes.
dive equipment (n) ronilačka oprema: The group managed to remove their dive equipment
to lighten the RHIB, which had been holed in a number of areas.
dive fishery (n) (fishing): ronilački ribolov: Dive fisheries typically involve hand collection of
the target species with the aid of a breathing device.
diver /dai və/ (n) ronilac: Subsequent survey of underwater hull by a diver and internal inspection of
bottom and peak tanks did not show any damage. The diver made a positive indication that he wished to
continue with the dive and then he entered the water unaided. Following suspected damage, a diver’s
examination can, at best, give only an indication of the condition of the external hull ... Divers are
inspecting the ship’s hull for damage.
diverge (v) (navig): skrenuti (s kursa): After the turn, the vessel slowly diverged from her
planned track and, eventually, the GPS alarm sounded as she strayed outside of the 2 cable cross track
error (XTE) margin. Your vessel is diverging from the reference line.
divergence /dai və dʒəns/ (n) (meteorol): širenje vektorskog polja, a u meteorologiji služi za opis
vodoravnih strujanja zraka: divergencija: The actual track was then reconstructed to show the
divergence of the two tracks.
diverging /dai və dʒiŋ/ (adj): divergentan (kurs), koji se odvaja
diverging courses /dai və dʒiŋ/: divergentni kursovi, kursovi koji se otvaraju
diverging limiters /dai və dʒiŋ/ (n) (navig): divergirajući graničnici
diversion /dai və fən/ (n) (navig): skretanje: Further engine problems necessitated a second
diversion for repairs. Oute to the berth; Despite the fact that the direct safe route to the berth was
obstructed, the pilot convinced the master that it was safe to take a diversion and pass to the side of the
warship that was obstructing the direct passage; On proceeding to the bridge, I discovered that my vessel
was only 13 miles from the indicated position and required only a small diversion to arrive in 45 minutes.
~ of route mijenjanje rute
divert /dai və t/ skrenuti, odvojiti, odvratiti: If practicable, divert the vessel to the nearest
suitable port that can cater for the vessel and provide fast access to the container; We had received a
message to say that we were to divert to Singapore for bunkers.
dive site (n) (navig): mjesto ronjenja, pozicija ronjenja: Skippers should not let their
dive support boats drift far from the dive site.
Dive support vessels (n) (nav arch) prateći ronilački brod, prateća ronilačka brodica: Dive support vessels should not rely too heavily on other vessels seeing and identifying an “A” flag correctly.

Divided by (adj) COMPARE multiplied by podijeljen s, dijeljeno s

Dividers /diˈvaɪdər/ (n) (navig) a navigational tool used to measure distances on a chart

Navigacijski šestar: The position of the buoy is taken off the chart by dividers and entered in the GPS and saved as a waypoint.

Dive support vessel  

Dive support vessels should not rely too heavily on other vessels seeing and identifying an “A” flag correctly.

Divided by  

Dividers  

Navigacijski šestar: The position of the buoy is taken off the chart by dividers and entered in the GPS and saved as a waypoint.

Diving /ˈdaɪvɪŋ/ (n) ronjenje: The swell had increased, the weather was closing in, and it was decided that the conditions would make diving unsafe.

Diving casualty (n) (safety) ronilačka nesreća, nesreća pri ronjenju

Diving centre /diving center (US)/ (boating/yachting, safety) ronilački centar

Diving equipment /ˈdaɪvɪŋ/ (n) ronilačka oprema

Diving helmet (n) (seamanship) ronilačka kaciga: “SWITCH ON!” the diver yelled into the speaker inside his Superlight 17 fiberglass diving helmet. https://gCaptain.com

Diving incident (n) (safety) ronilačka nezgoda, nezgoda pri ronjenju: Diving accidents occurring in coastal waters and remote areas usually require medical assistance on short notice. CAMSAR II – Mission Coordination

Diving inspection (n) (safety) ronilački pregled: A diving inspection was necessary to untangle the messenger line from the starboard pod; no damage to the pod was found.

Diving operations (n) (safety, navig) ronjenje, ronilačke operacije: The dive boat
was displaying an International Code ‘A’ flag to denote diving operations in progress.

diving survey (n) (safety) ronilački pregled dna broda: After a diving survey of the vessel's hull, rudder and propeller, the attending Classification Surveyor found the vessel in all respects capable of continuing on her voyage.

diving vessel /ˈdaɪvɪŋ/ (n) (nav arch) ronilački brod: The diving vessel was displaying clearly and conspicuously the international code flag Alpha, drawing attention to the fact that it was engaged in diving operations. diving support vessel prateći ronilački brod: Modifications were being carried out on the diving bell recovery system of a diving support vessel.

division1 /diˈvɪʒn/ (n) (math) dijeljenje

division2 (n) 1 (navy) A main subdivision of a ship’s crew (1st, E, G, and so on)

DLOSP (=dropping last outwards sea pilot) (mar law) iskrcaj zadnjeg peljara pri isplovljenju broda

DO (=D.O.; diesel oil) dizel gorivo

dock /dɔk/ (n) 1 The designated water area, alongside or between piers, intended for ships to tie up for the purpose of loading or unloading cargo and passengers.

dock 2 pier; jetty

The designated water area, alongside or between piers. On the day the vessel was scheduled to leave the dock, all the ship’s Officers and Crew were busy for the whole day attending various jobs. While sailing further into the port, we came closer to the dock and saw a docked bulker. All packages which are found broken during discharge should be laid aside on board, or if discharging on to the dock, and the damaged cargo locked up (a lock-up should always be provided and carefully recoopered, etc. The breast line bollard failed and due to a lack of spread of lines we drifted off of the dock. In ~ u luci: About 5 years ago I was appointed as Captain to a ship during the first voyage after it had been in dock for repairs, on the ~ u luci, na lučkoj obali: Incoming cargo should be carefully examined - which is best done on the dock or wharf rather than on board - and every unsound or suspicious package rejected until its contents have been ascertained, leave the ~ isplovi, napustiti luku: On the day the vessel was scheduled to leave the dock, all the ship’s Officers and Crew were busy for the whole day attending various jobs, on

the ~s na lučkoj obali

gat: When a ship broke away from a dock in Portland, Oregon, it was found that her ropes had been too slack. contact between two vessels, King George Dock, Hull on 13 November 2007 Published 30 May _ Viking Islay – loss of three lives, 25 miles off the East Yorkshire coast on 23 September 2007 Publi This may be an area such as a river or port, or a precise place such as a particular berth, wharf, dock or
The ship was secured alongside the dock within 15 minutes. The vessel came into dock at the Port of Vancouver’s Global Container Terminal. The term dock denotes an area of water that can accommodate a ship and can be closed off by locks to allow regulation of the water level; the water space between adjacent piers or wharves or the space in a drydock. Once the lock had filled, the vessel entered the dock and made her way towards the berth. Previously, they had operated from a sheltered enclosed dock, but the new pontoon was located in a more exposed position within the harbour. Contact between two vessels, King George Dock, Hull on 23 November 2008; lučki bazen, Italian: bacino; darsena: An enclosed dock, with limited manoeuvring space and other vessels in close proximity, is not the ideal place to get to grips with a vessel’s handling characteristics. The master has applied for a pilot to bring the ship to the berth or dock. She then proceeded into the second dock without further incident. In US it often indicates a small landing pier for accommodating boats in a river or lake creek.

https://www.practical-sailor.com/; in the ~s u luci dock /dɔk/ (v) 1 (ship handling, navig) = berth: a to navigate a vessel to tie up at a wharf. The vessel remained afloat and was able to dock. On Saturday the containership docked at Bremerhaven, completing the first voyage by a containership across the Northern Sea Route.; 2 (seamanship, ship handling) privezati se, pristati: She floated free with the rising tide and finally docked about 3 hours late. Our ship was docked in Sydney and, at around 11. Double-checking the computer, he saw that the ship/AIS was still docked. The Terminal wanted the vessel to dock and undock with holds open. These pier improvements will allow two 18,000-TEU ships to dock at the same time ~ the boat under power pristati na motorni pogon (o jedrilici), pristati uz pomoć motora (o jedrilici).

dockage /ˈdɔkɪdʒ/ (n) (mar law, shipping econ) a charge by a port authority for the length of water frontage used by a vessel tied up at a wharf. The cargo ship started to close a dredger that was working on the opposite side of the dock basin, so the pilot told the master to go ‘ahead’.

dock basin (n) (ports) a space between two wharves or piers for the mooring of ships. The cargo ship started to close a dredger that was working on the opposite side of the dock basin, so the pilot told the master to go ‘ahead’.

dock bumper (n) (boating/yachting) obalni odbojnik

dock dues (n) (ports, mar law) Charge levied against a shipowner or ship operator by a port authority for the use of a dock. http://www.tkmglobal.net/chartering_D.HTM
dock entrance

dock entrance  (n) (ports, navig) prilaz vezu, prilaz lučkom bazenu
docker  /ˈdəkə/ (n) = power distribution (ports, shipping econ) lučki radnik, doker
dock gate  (n) (ports, navig) ustava lučkog bazena, dokovska usatva, brana za u lučki bazen
docking  /ˈdəkɪŋ/ 1 pristajanje ~ under power (boating/yachting) pristajanje na motor (o jedrilici), pristajanje motorom (o jedrilici); 2 privezivanje
docking bracket  /ˈdəkɪŋ/ (n) (nav arch) koljeno za dokovanje
docking communicator  /ˈdəkɪŋ/ (navig, comm) dvosmjerni razglasni uređaj između zapovjedničkoga mosta i manevarskih mjesta manevarski razglas, komandni razglas za pristajanje broda
docking head  (n) (nav arch) A docking head is linked to a cone in the boat and keeps the boat steady during all operations with the davit (when the boat is at its upper position in the davit)
protunjihajuća glava sohe (za brodice): The ship was fitted with a “Caley” type davit, consisting of a single fall running through a docking head to a single release hook in the boat. A docking head fixed to the davit is triaxially operated via three hydraulic cylinders and fits directly onto a cone in the boat.
docking line  (n) (boating/yachting) privezni konop, privezno uže
docking master  (n) (mar law, navig) = dock master upravitelj dokovskog veza, zapovjednik lučkog bazena: upravitelj lučkog veza/terminala After a nine-hour, all-night river transit, the vessel was approaching the discharge terminal, where the river pilots disembarked and the docking master boarded.
dock(ing) pilot  /ˈdəkɪŋ/ (n) (mar law, navig) lučki pilot (za privezivanje broda): The crew were rigging the pilot ladder to receive the Hamburg dock pilot and preparing to make fast the tugs. Once the docking pilot boarded, the river pilot disembarked on the pilot launch.
docking plan  (n) (nav arch) Detailed structural plan and profile of the lower hull structure required for correct location of the vessel in dry docking. https://officerofthewatch.com/tools/maritime-dictionary/plan suhog dokovanja broda
docking signals  /ˈdəkɪŋ/ (navig) signali za privezivanje broda
docking survey  /ˈdəkɪŋ/ (n) carry out a ~ obaviti pregled broda u remontnom brodogradilištu (safety) pregled broda u doku, pregled broda u remontnom brodogradilištu: After an underwater survey a conditional certificate of class
was issued for the ship to sail to the nearest major port in order to carry out a docking survey. Result of investigation: It was concluded that after the last tail end shaft and docking survey two months ago, the shipyard staff had failed to fully tighten the bolts of the two-piece clamp ring (shaded in red) on the tail shaft.

**docking telegraph** /ˈdɔːktəlɡrɑːf/ (comm, navig) komandni razglas za pristajanje dock master (n) (ports, navig) = wharfinger upravitelj lučkog veza, zapovjednik dokovskog veza, zapovjednik lučkog bazena: I should also mention that in many well-managed terminals, it is customary for an experienced berthing or dock master to control the shoreside operation in close liaison with the pilot. At 0430, VTS informed the vessel that the dock master was prepared to allow the vessel to berth and that the fire and rescue services would attend on her arrival.

dock pass (n) 1 (mar law) dozvolu (pomorcu) za izlaz u grad; 2 dozvolu (brodu) za uplovljenje u dokovsku luku: But if the ship is in an enclosed dock, the Dock Master will require to sight the Dock Pass (issued by the authority when dock dues have been paid) before he will permit the vessel to leave.

dock pilot (n) (ports, navig) peljar za vezivanje broda, peljar za pristajanje uz vez

dock receipt (n) (mar law, shipping econ) A receipt issued by the carrier attesting to the delivery of the goods to the dock prior to their loading aboard the ship. It contains all relevant information about the cargo such as weight, volume, number of pieces etc. It is also used to calculate freight and other handling costs for the cargo. potvrda o uskladištenju (u luci), potvrda (luk) o primitku tereta na ukrcaj: When the cargo consignment is delivered to the terminal a dock receipt is issued to the person delivering it When delivery of a foreign shipment is completed, the dock receipt is exchanged for a bill of lading with the transportation line.

dock regulations (n) (ports) lučki propisi

dockside 1 /ˈdɔksaid/ (adj) on the ~ na (lučkoj) obali 1 (ports) obalni: Despite his injuries, the bosun managed to swim around the stern of the ship to a dockside ladder, from where he was assisted out of the water and given medical treatment.; 2 (ports) the land area immediately adjacent to the dock lučki

dockside 2 /ˈdɔksaid/ (n) (ports) lučka obala: At 0530 the cargo loading crane driver arrived, and an hour later he started to remove the smoking cargo to the dockside, where it was cooled down once more. As the master put the engines astern to clear the linkspan, he dragged the pontoon away from the dockside.

dockside crane /ˈdɔksaid krein/ (n) (cargo handling, ports) obalna dizalica, dizalica na lučkom doku: Are dockside cranes available? Yes, dockside cranes are available.

dockside manoeuvring (n) (navig, seamanship) manovra pristajanja broda, pristajanje broda

dock trials (n) (nav arch) events conducted at the shipyard to determine the ability of the ship, from a material standpoint, to conduct sea trials safely išpitivanja broda u brodogradilištu ili na opremnom vezu prije primopredaje

dock wall (n) (ports) obalni zid: A dredger was clearing a shoal, close off the next berth downstream, between the dock wall and the centre of the fairway.

dock warrant (shipping econ) a document acknowledging that the goods have been deposited with a dock or port potvrda o uskladištenju (tereta s broda u lučko skladište): Along with the Bill of Lading the Dock Warrant and Delivery Order are some of the most
dock water (n) (stabil) water density that lies between the two extremes, i.e. fresh water and salt water miješana voda, stvarna gustoća vode (između gustoće sletke i slane vode) ~ allowance (DWA) the number of millimeters by which the mean draught changes when a ship passes from salt water to dock water, or vice versa, when the ship is loaded to the Summer displacement (Rhodes, Ship’s Stability, Seamanship, 2003) iznos promjene gaza pri ulasku u područje različite gustoće vode, krcanje u miješanoj vodi
dock worker (n) (ports) lučki radnik: On the whole this well-intentioned article was a good one illustrating the type of incident that kills hundreds of seamen and dock workers every year around the world, including the odd surveyor. Offshore vessels’ units’ crews shall not be required or induced to carry out cargo handling and other work traditionally or historically done by dock workers without the prior agreement of the ITF dockers’ union ...
dockyard /ˈdɔk jaːd/ 1 (ports, nav arch) a shipyard or facility where ships are constructed or repaired opremni vez, remontni vez: Dockyards are sometimes more associated with maintenance and basing activities than shipyards There was no fire watch, either by the dockyard or the ship because nobody realised he was working through.; 2 (nav arch) remontno brodogradilište; 3 (navy) a naval establishment with docks, workshops, etc, for the building, fitting out, and repair of vessels vez u ratnoj luci, vez za opremu i popravak ratnih brodova; 4 a shipyard or plant where ships are constructed or repaired brodogradilište
Doctor / Physician (n) (med, mar law) person responsible for the treatment of crew members. brodski liječnik, brodski doktor: The position of a doctor / phisician requires current license and extensive experience within primary care, trauma, internal, cardiac, and emergency medicine. If in port, and it is thought necessary, a doctor should be called or the injured person should be sent to a hospit:;
documentary credit any arrangement, however named or described, whereby a bank (the Issuing Bank) acting at the request and on the instructions of a customer (the Applicant) or on its own behalf, http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; a process in which a bank, at the request of a buyer of goods, undertakes to pay the seller of the goods a certain amount, subject to production of a number of clearly defined documents. A Letter of Credit is the basic document for documentary credit. https://www.logisticsglossary.com/term/documentary-credit/
dokumentarni akreditiv, akreditiv, bankovni komercijalni kredit, komercijalni akreditiv: Standard form bills of lading, charterparties, marine insurance policies and sales contracts are good examples of common forms and the accepted meaning of the terms, as well as the York/Antwerp Rules on general average and the Uniform Customs and Practice for Documentary Credits.
documentary shipper (n) (mar law) a person, other than the shipper, that accepts to be named as “shipper” in the transport document or electronic transport record. (Rotterdam Rules 2009)
zamjenski krcatelj, opunomoćeni krcatelj: a number of the provisions in the chapter on the shipper’s obligations to the carrier can be criticized. For example it is not clear to what extent the shipper will still be liable for breaches of the obligations under chapter 7 in a situation where a documentary shipper delivers the goods to the carrier. http://www.maritimelawlibrary.se
document of compliance (n) (marine eng, cargo) potvrda o usklađenosti: This enabled the local Lloyd’s Surveyor to complete the survey and issue a Document of Compliance for Carriage of Dangerous Goods in Bulk. The vessel must be in possession of a valid Document of compliance with special requirements for ships carrying dangerous goods.
document of title (n) (mar law) isprava koja navodi tko je vlasnik tereta odnosno tko ima pravo
primiti teret isprava koja daje naslov na teret: The voyage charter remains the governing contract of carriage; the bill of lading serves only as a receipt and as a document of title to the goods. Contract of carriage applies only to contracts of carriage covered by a bill of lading or any similar document of title, ...

dodger /ˈdɒdʒər/ (n) (seamanship) A hood over a hatch to protect from wind and spray
(http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) zaštitna cerada nad grotlom ili otvorom
dog (v) (seamanship) pričvrstiti grotleni poklopac (leptirastim vijcima)
dog (n) (seamanship, nav arch) A hold fast, a short metal rod or bar fashioned to form a clamp or clip and used for holding watertight doors, manholes, or pieces of work in place
https://officerofthewatch.com/tools/maritime-dictionary/ zapor, zaporna poluga (na vratima, poklopcima grotla, šahta, otvora itd.): The Quick Acting 4-dog watertight hatches also feature a new 4 dog latching system of securing the hatch cover to the deck. The 4 dog system is a proven mechanism for hatch engagement winch ~ zupčasta spojka vitla: The Chief Engineer managed to engage a mechanical winch dog before the last layer of wire unraveled from the towing winch drum. After the Chief Engineer had engaged the dog, I pulled the throttle back to dead slow

dogbolt /ˌdɒɡˈbʌlt/ (n) (nav arch) leptirasta matica za zatvaranje poklopca brodskog okna
dog clutch (n) (marine eng, cargo handling) a dog clutch is used to separately engage or disengage each of the units of the winch: the cable lifter, mooring drum and a warp end. zupčasta spojka: In order to remove the dried old grease around the dog clutch and shaft, it was necessary for the seaman to extend his arm between the drum and the winch drive gear and clear it manually. He then attempted to remove the old grease from the dog-clutch arrangement. ay out the port trawl wire but the main engine stopped, resulting in the loss of hydraulic power and a consequent inability to disengage the winch dog clutch.
dogfish (=spiny dogfish, spurdog, mud shark, piked dogfish) (n) 1
COMPARE nursehound Lat. Squalus acanthias pas kostelj spotted ~ COMPARE

small-spotted catshark morska mačka piked ~ pas kostelj
dogs (n) (marine eng, boating/yachting) leptiraste matice
dog ship (n) (shipping econ, logist) Dodatni brod koji se u linijskom servisu angažira, izvan redovitog plovidbenog reda, u situacijama kada se na tržištu/u pojedinoj luci u izvanrednim situacijama akumulira veća količina tereta (mogu biti puni kontejneri, ali isto tako i prazni kontejneri) koje nije moguće ukrcati (evakuirati) na brodovima u redovitom linijskom servisu. (J. Karmelić, personal information); an additional ship entered in the regular liner service due to increased market demands (increased volumes of cargo, containers etc.)
dodatni brod u linijskom servisu (radi povećanih zahtjeva tržišta)
dog's teeth (n) zubatac
dog vane (n) (boating/yachting) pokazivač smjera vjetra, muštravent; muštravenat
dog watch (=dodge watch) (n) 1 (seamanship) a short watch period, generally half the usual time (e.g. a two hour night watch between two four hour ones); A dog watch is a work shift, also known as a "watch", in a maritime watch system that is half the length of a standard watch period. This is typically formed by splitting a single four-hour watch period between 16:00 and 20:00 (4 pm and 8 pm) to form two two-hour dog watches, with the "first" dog watch from 16:00 to 18:00 (4 pm to 6 pm) and the "second" or "last" dog watch from 18:00 to 20:00 (6 pm to 8 pm).
(https://en.wikipedia.org/wiki/Dog_watch) polusmjena, pola vremena straže: Under the new system, by just doing one of the 2 hour dog watches in the morning, I can make sure that each of the officers gets a break once in three.; 2 (seamanship) n marine or naval terminology, is a watch, a period of work duty or a work shift, between 16:00 and 20:00 (4 pm and 8 pm) brodska straža (na našim starim brodovima) od 00:00 do 04:00 sata, pasja gvardija first ~ brodska straža od 16:00 do 18:00, last ~ brodska straža od 18:00 do 20:00
doldrums /ˈdoldrəms/ (n) 1 (meteorol) SYNONYM equatorial trough = horse latitudes COMPARE trade winds the belt on each side of the Equator in which little or no wind ordinarily blows
kalma bonaca
dolphin /ˈdɒlfin/ (n) 1 (ports) a large wooden pile or a block of wood piles with a ring bolt at each end, used as a mooring post or for mooring a buoy
lučke obale), dolfin: At this point the vessel's bow was 440M (just over 2 ship's lengths) from the dolphin of the bulk berth. The vessel was to moor to a fixed jetty forward, stern ramp onto a floating pontoon, and rest alongside an isolated dolphin amidships, which was also used for a spring from aft. One man was standing on the dolphin ready to throw a heaving line down to take the spring from the boat.

mooring ~ a cluster of pilings to which a boat or barge ties up privredni stup: The Port Authority had built a mooring dolphin especially for cruise ships for this purpose and assured us that it was strong enough for all of the headlines. Instead of moving into the river, the pilot manoeuvred the ship close and parallel to the jetty, and as she approached the upriver mooring dolphin, he placed the engine full astern.

https://www.engineeringcivil.com/what-is-the-difference-between-breasting-dolphin-and-mooring-dolphin.html; 2 A minor aid to navigation structure consisting of a number of piles driven into the seabed or riverbed in a circular pattern and drawn together with wire rope plovidbena oznaka na stupovima u moru

domain /deɪˈmeɪn/ (n) (navig) područje oko broda u plovidbi koje časnik straže želi zadržati slobodnim od drugih brodova i nepomičnih objekata poduzimanjem odgovarajućih manevara izbjegavanja sudara na moru domena
domestic navigation (n) (mar law) nacionalna plovidba
don (v) (safety) odjenuti, obući ~ a lifejacket odjenuti prsluk za spašavanje, staviti prsluk za spašavanje: After the general alarm was sounded, the crew assembled on the bridge and donned the lifejackets. He alerted the crew, asking them to don lifejackets and prepare to haul the net. The coastguard were alerted quickly by DSC alert; the liferaft was deployed manually and kept alongside until needed; the crew donned lifejackets; As the vessel started to list to starboard, the skipper broadcast a “Mayday” on VHF radio Channel 16 and instructed the crew to don lifejackets and deploy the liferaft. The two crew donned extra clothing and lifejackets, ~ the immersion suit
obući odijelo za spašavanje (u moru): After the general alarm was sounded, the crew assembled on the bridge and donned immersion suits collected from two decks below, ~ the breathing apparatus staviti aparat za disanje: The engineer on watch left the control room to don breathing apparatus, as the smoke was becoming heavier.
donkey (n) 1 (marine eng) a small boiler pomoćni kotao; 2 (marine eng) a small engine used to operate deck machinery such as winches and derricks.
http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) mali parni stroj
donkey boiler (n) 1 (marine eng) pomoćni kotao, kotao za lučke službe: The donkeyman attends a donkey, auxiliary boiler, especially when the ship is in port.; 2 pomoćni kotao
donkey engine (n) (marine eng) A small gas, stem or electric auxiliary engine, set on the deck and used for lifting, etc. https://officerofthewatch.com/tools/maritime-dictionary/ mali pomoćni motor (parni, električni)
donkeyman /ˈdɔŋkiːmən/ (n) (marine eng) = oiler: head of engine room ratings; an obsolete title;
The term derives from 'donkey-man', i.e. a rating in charge of the 'donkey-engine - a small steam engine that was used to propel the coal into the boilers of the main propulsion engines. **voda stroja, noštromo (od) makine, Italian: caporale di macchina:** The propulsion plant department can also include some petty officers, such as the donkey man and the storekeeper and, if the ship is a tanker, there may also be the pump man. The donkey man took a few recordings and noted them in the Engineer’s Log.

**donkey pump** (n) (marine eng) pomoćna pumpa pare

**door** (nav arch) vrata sliding ~ klizna vrata: The sliding door opened and the two passengers were just about to step through the door when, to their alarm, they found that there was no deck outside the door., **ramp ~ vrata rampe (ro-ro broda, trajekta):** 200850 Ramp door near miss

During her maiden voyage, the CO of a new ro-ro ship was preparing to set the stern quarter ramp door for cargo operations., **side ~ bočna vrata (ro-ro broda):** Whilst a Pilot was disembarking from the side door of a Ro-Ro vessel departing port, both the side ropes of the pilot ladder parted once the full weight of the pilot was on the first rung of the ladder., **cabin ~ vrata kabine:** Looking down into this hatch, he saw flames and smoke coming from the open cabin door., **bow ~ pramčana vrata:** Ro-Ro ferry bow door failure in port Bow door operating panel on car deck valves was found in the correct sequence., **access ~ prilazna vrata:** On opening the access door to the hold, the officer saw that the first mate was unconscious, about three metres from the door., **~ operating handle ručka za otvaranje vrata:** The door operating handle protruded farther inside the watertight doorway space than was necessary., **hinged ~ vrata sa šarkama:** The lower frame box is on the front of the engine provided with a large hinged door for each cylinder., **watertight ~ vodonepropusna vrata:** Water flooded through an open watertight door and into the accommodation. Lessons learned *

Always fully open a watertight door before passing through the doorway when the door is in the remote-close mode., **container ~ vrata kontejnera:** The container released has bent door hinges, rust, dents, old cracks in the door of the container, apparent improper previous repairs etc. https://shippingandfreightresource.com/

**door-to-door service** (n) 1 (shipping econ) Said of a service or freight rate provided by a container shipping line whereby goods are loaded into a shipping container at the shipper’s premises and not unloaded until they arrive at the consignee’s premises. http://www.tkmglobal.net/chartering_D.HTM

**prijezov od skladišta otpremnika (prodavatelja) do skladišta primatelja:** 2 (shipping econ) prijevoz tereta pod istom teretnicom od prodavac/ prodavača/proizvođačevog do kupac/potrošačevog skladišta usluga / služba / servis

**vrata -vrata, izravan / direktan prijevoz**

**DOP (=dropping last pilot)** (mar law) iskrcaj peljara pri isplovlenju broda

**Doppler effect** (n) (navig) A change in the observed frequency of a wave, as of sound or light, occurring when the source and observer are in motion relative to each other, with the frequency increasing when the source and observer approach each other and decreasing when they move apart. The motion of the source causes a real shift in frequency of the wave, while the motion of the observer produces only an apparent shift in frequency. Also called Doppler shift. **Dopplerov efekt**

**Doppler frequency oscillator** (n) (navig) namjestivi oscillator, regulacijski oscillator, podesivi oscillator

**Doppler log** (n) (navig) ultrazvučni brzinomjer, snimalica dubina, uređaj za ultrazvučno snimanje dubina, **Doppler-log:** ... an increase in current reading from 2.2kts to 3.2kts, and a Doppler log reading of 4.5kts were all immediately observed. A visual sighting of the
clump weight wires showed it to be streamed astern, also DP observation. It was assumed, wrongly as it turned out, that in shallow water the Doppler Log goes automatically into ground tracking mode and gives speed over the ground.

dormant period (n) (navig) razdoblje mirovanja (u sustavu BNWAS)

dory (n) kovač, šampjer
https://hr.wikipedia.org/wiki/Kova%C4%8D_(riba)

double (v) (seamanship) COMPARE Single up! to place a second dockline alongside the existing one udvostručiti (primezno uže)

double-acting (n) (adj) (marine eng) dvoradni ~ pump dvoradna pumpa, ~ piston dvoradni stap, ~ engine dvoradni stroj

double bottom (n) (nav arch) the space between the inner and outer skins of a vessel called respectively the inner bottom and shell, usually extending from bilge to bilge and for nearly the whole length of the vessel fore and aft, and subdivided into water or oil tight compartments (http://www.seasources.net/) dvodno, Italian: doppio fondo: In the system shown in the diagram above, the oil is stored in tanks in the double bottom from which it is pumped to a settling tank and heated.

https://www.tc.gc.ca/eng/marinesafety/tp-tp14609-4-construction-150.htm

double bottom strut (n) (nav arch) element koji povezuje i prenosi vertikalno opterećenje između uzdužnjaka oplate dna i pokrova dvodna razupora dvodna

double bottom tank (n) (nav arch) tank dvodna: The next morning, the chief officer resumed the operations by deballasting one of the after double bottom tanks. This prudent practice is to avoid any damage to cargo by water which may potentially enter the hold via leaking double-bottom tank manhole lids, sounding and air pipes and cracks or holes in tank plating.

double casing (n) (marine eng) dvostruki plaš (kotla): The boiler is also provided with a double casing which allows the passage of combustion air to the air control register surrounding the burner.

double-check (v) provjeriti dvaput: Double check all line-ups before pressing ‘pump on’.

double-decked cylinder head (n) (marine eng) glava cilindra s dvostroškom stjenkom
**doubled line** (n) (seamanship) uvojak, duplin
**double-drum marine watertube boiler** (n) (marine eng) brodski vodocijevni
kotao s dvostrukim bubnjem
**double-ended boat** (n) (boating/yachting, nav arch) a boat or vessel with a pointed shape to
the hull both bow and stem brodica sa zaoštenim pramacem i krom, brodica u
obliku guca
**double-flow** (n) (marine eng) dvostruka dimna komora
**double-hull tanker** (n) (nav arch) tanker s dvostrukom oplatom: The vessel, a
double hull product tanker, berthed starboard side to at high water tide in the terminal to discharge a
cargo of oil products.
**double planking** (n) (nav arch) dvostruka drvena oplata
**double plated rudder** (n) (nav arch) strujno kormilo
**doubler /ˈdʌblər/ (n) 1 (nav arch) A steel plate installed on an existing structural plate and used as a
strengthening base for deck fittings https://officerofthewatch.com/tools/maritime-dictionary/
dvostruki čelični lim (dio ojačanja za montažu opline na palub),
dvostruka ploča; 2 (nav arch) A steel plate installed on an existing structural plate and used as a
strengthening base for repair of a damaged area.
https://officerofthewatch.com/tools/maritime-dictionary/ dvostruki čelični lim (dio
ojačanja za popravak oštećene opline)
**double-seater** (n) (boating/yachting) dvosjed
**double sheet bend** (n) (seamanship) dvostruki zastavni uzao
**double skin** (n) (nav arch) Double watertight hull construction, usually referring to hull sides but
may include double bottom structure. https://officerofthewatch.com/tools/maritime-dictionary/
dvobok double skin bulkhead dvostruka pregrada
**double the line** (v) (ship handling, seamanship) udvostručiti uže / konop,
postaviti dva uzeta: Mooring lines are then doubled if necessary.
**double up** (v) 1 (seamanship) COMPARE singled up pojačati vez,
udvostručiti vez; 2 (navig) udvostručiti stražu: Double up watches and listen!
**doubt** /dʌt/ (n) (safety, navig) sumnja, dvojba: Good listening watch to be kept on VHF and,
in case of any doubt about intentions of another vessel, seek clarifications after positively identifying her and inform VTS/port control. There is no doubt that plotters and autopilots have eased the burden of wheelhouse watchkeepers in recent years. If in ~ ako se sumnja, ako postoji sumnja: The master must be called if the watch officer is in doubt as to the existence of the collision When in doubt as to weight, quality and condition, Mate’s receipts as well as the bills of lading should be caused weight, quality, quantity and condition unknown.

doubt /daut/ (v) sumnjati, dvojiti: My own vessel is a very manoeuvrable and responds very well to course and speed alterations but I doubt whether the Master of the container ship can say the same!

douse /daʊs/ (=dowse) (v) 1 (boating/yachting, sailing vessels) to take down a sail quickly

brzo spustiti jedra: We doused the sails and started up the diesel engine. “When you hear me scream; “Douse All Sails!”’, that means get them down as quickly as possible, we will furl them properly after we get moored.” https://gCaptain.com; 2 (seamanship) popustiti konop; 3 (comm) spustiti zastavu, spustiti signalnu zastavicu; 4 (safety) ugasiti vodom: Without further questioning he decided to use water to douse the fire. the skipper opted to engage the main engine-driven deckwash pump so that the crew could fill a bucket with water for him to douse the flames.

dowel /dəʊəl/ (marine eng) cap-locating ~ zatik za postavljanje poklopcia / kape, ~ pin zatik: dowel pins were used mainly because the tightness of the shrink fit could not be guaranteed.

downdrain (n) (geogr) strujanje vode prema ušću rijeke: During a flood tide, an outward flow of water known as the ‘downdrain’ near the face of Northfleet Hope Container Terminal interacts with the inward tidal stream to create a counter-flow off the berth.

downgrade /dɔːŋɡreɪd/ (v) (meteorol) degradirati, spustiti rang, ublažiti: Several ports in Florida remained closed on Monday even as former Hurricane Irma, now downgraded to a Tropical Storm, moved on into neighbouring Georgia.

downhaul /ˈdaʊnˌhɔːl/ (=foreguy) (n) (boating/yachting) any a line used to control either a mobile spar, or the shape of a sail priteg tanguna, karikabaso; Italian: caricabasso
down haul /ˈdaʊn ˈhɔːl/ (n) (boating/yachting) pritega tanguna špinakera
down-payment (n) (boating/yachting) plaćanje unaprijed, avans
down rigger spuštač ribolovnog udičarskog sistema (kod panule)
downstream (adv) nizvodno, niz rijeke: Having asked his two passengers if they were holding on, he commenced a turn to starboard to head down stream.
down time (n) (marine eng) period izvan rada (stroja): This result in the shortening of lubricant life, lower lifetime of key components, reduced reliability and increased downtime.
downwind (adv) (sailing) with the wind astern; point of sail 180° from the true wind direction niz vjetar, šotovento, plovidba u čistu krmu
dowse; douse /ˈdaʊs/ (v) 1 (boating/yachting) to take in, or lower a sail; to lower, smother and hold down a sail quickly spustiti jedro, ubrati jedro; 2 prigušiti svijetlo, pogasiti svijetlo
Do you read me? (comm) Čujete li me? How do you read me? Kako me čujete?

DP (dynamic positioning) (n) (marine eng) dinamičko pozicioniranje: The ship was held in position by its DP system
DPC (n) (hum_resources) dežurni kontrolor prometa u luci, dežurni u službi

The VTS Duty Port Controller (DPC) received the coxswain’s call at 1812:40. The DPC role was to liaise and co-ordinate pilotage movements in the district. Several sea pilots had completed V-1032 training for VTS operations and fulfilled the role of DPC within the VTS team.

draft = draught depth of a loaded vessel in the water taken from the level of the waterline to the lowest point of the hull of the vessel gaz broda: Our draft at the time was 5.7M forward and 9.8M aft.
I was OOW on a loaded bulk carrier with a draft of 9.9 metres making 8 knots at Half Ahead. calculate ~ izračunati gaz: The ship’s draught was calculated by the Chief Officer. It was 12.69m forward and 12.72m aft.

take the ~ izmjeriti gaz, departure ~ gaz prije isplovljenja, arrival ~ gaz pri dolasku (broda u luku), laden ~ gaz nakrcanog broda, ~ aft gaz na krmi, ~ forward gaz na pramac: My draft forward is 5.2 metres., after ~ gaz na krmi: The after draft had been reduced to 9M.,

air ~ visina broda iznad mora: What is your air draft? My air draft is ... metres., loaded ~ gaz nakrcanog broda: Own ship was a 300,000 dwt tanker with a loaded draft of 21.6 metres., maximum ~ najveći gaz, maksimalni gaz: What is your present maximum draft? I was recently on a bulk carrier passing through the Suez Canal in a northbound convoy on a maximum Suez draft of 56 feet., permissible ~ dopušteni gaz: The maximum permissible draft was 11.8 m.,

~ read out očitavanje gaza, očitani gaz, očitano stane gaza: The remote draft read outs were inoperative and, reportedly had been for several years., sailing ~ gaz u plovidbi: The final sailing draft was 11.7 m. forward and 11.8 m
draft: napraviti nacrt / prijedlog ~ a firm offer sastaviti nacrt ponude

draft\(^1\) (n) (boating/yachting) = belly trbuh jedra

draft\(^2\) (n) (mar law, shipping econ) = bill of exchange an unconditional order in writing, addressed by one party (drawer) to another party (drawee), requiring the drawee to pay at a fixed or determinable future date a specified sum in lawful currency to the order of a specified person; A signed, written order by one party that instructs another party to pay a third party a specific amount. It can also be called a bill of exchange. (http://www.maerskline.com/en-jm/help/shipping-glossary) mjenica

bank ~ an order issued by a seller against a purchaser; directs payment, usually through an intermediary bank bankovna mjenica

draft calculations (n) izračun gaza: The draft calculations made by the master were on the basis that the vessel was floating in sea water, however, the specific gravity at the time was in fact 1015.

draft indicator (n) (navig) pokazivač gaza remote ~ daljinski pokazivač gaza: All bulk carriers should have reliable remote draft indicators.

draft marks (n) (nav arch) numerals applied vertically to the sides of a ship fore and aft indicating the depth of the keel (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) zagaznice, oznake gaza borda: draft marks and load lines not readable

draft of cargo (cargo) teret složen u pasac, braga tereta

draft of sail (n) (boating/yachting) zakrivljenost plohe jedra, projektirani trbuh jedra

draft reading (n) (seamanship) očitavanje gaza: Access to the shore for draft reading is often difficult.

draft read out očitavanje gaza, očitani gaz, očitano stane gaza: The remote draft read outs were inoperative and, reportedly had been for several years.
**draft restriction** *(n)* *(navig)* **ograničenje gaza:** Two days before arrival at a river entrance, a Company Vessel was advised by the agent of a **draft restriction** of 36.1 ft (11.00 m) due to the low water flow in the river.

**draft signals** *(n)* *(navig)* **oznake gaza:** We were navigating in the appropriate traffic lane, following the designated deep-water route at a speed of about 12 knots, **displaying deep draft signals.**

**draft survey** *(n)* *(cargo handling)* **određivanje količine tereta na brodu pomoću gaza, kontrola gaza:** On completion of the first parcel, a **draft survey** was taken by the Chief Officer and the quantity of cargo calculated by himself and a surveyor.

**draft surveyors kontrolori gaza, tvrtka za kontrolu gaza:** They are also used by **draft surveyors** to read the offside marks and stern readings where launches are not available.

**drag**/dræg/ 1 *(v intr)* *(navig)* **to fail to hold to the ground, i.e. to lose control of an anchored vessel because of heavy seas, currents, wind or a foul bottom, so that the anchor cannot hold its ground orati (na sidru), Italian:spedare (ancoraggio): the anchor is dragging sidro ore, sidro ne drži A decision to pay out another shackle of cable was taken to try and stop the vessel **dragging her anchor.** The crew weighed anchor and then re-anchored, but to no avail as they **continued to drag** with six shackles out. ~ **anchor orati (sidrom):** Ensure engines are available in case vessel starts to drag anchor. Pazite da strojevi budu spremni za upućivanje u slučaju da brod počne orati As the squall passed, own vessel started to **drag anchor.** At 0936, the ship began to **drag her anchor** to the north and towards the shore line. According to reports the container ship **dragged anchor** and ran aground on the southwest tip of Kinmen island. Due to the strong winds the ship was **dragging its anchor** and was without their main engines. (https://safety4sea.com/); 2 **to ~ a net vući / potezati mrežu**

**drag** *(n)* *(nav arch)* **razlika između gaza na pramcu i gaza na krmi** zatega

**drag** *(n)* *(fishing)* **kočnica (role ribolovnog štapa)**

**dragging**/ˈdrægɪŋ/ *(navig)* **oranje sidra:** Beware of **dragging,** especially when in an area of strong tides / current. Unfortunately, none of the bridge team realised the slow **dragging of the anchor,** having monitored the ship's position by distant radar ranges, which failed to change appreciably.

**dragging anchor** *(n)* *(navig, seamanship)* **A dragging anchor means when the ship drifts without holding power even though it has been anchored.**

(https://safety4sea.com/cm-dos-and-donts-when-dragging-anchor/) **sidro koje ore, brod čije sidro ore, Italian:ancora arante:** Are you dragging anchor? Yes, I am dragging anchor. A tanker in ballast at anchor in a storm **began dragging her anchor** in Tees Bay, UK. Plotting the anchor position and estimating a bridge swinging circle is necessary to determine whether a vessel is **dragging anchor.**

**dragnet** *(n)* *(fishing)* **mreža potegača**

https://kapprasad123.com/fisheries-sci-gr-9/nets/
drain /driːn/ (v) (marine eng, seamanship) ~ the daily fuel tank odstraniti talog i vodu iz dnevnog tanka goriva, ~ the water off odvodniti, ispuštiti vodu, isušiti tank 1 ispuštiti, ispušati (vodu, ulje, tekućinu): in Figure 4 Forward hook assembly showing damage The second mate then remained on the boat while it was lifted clear of the water, allowed to drain, and then hoisted to the embarkation level. ~ away ispuštiti: ...l, and as water was still coming on to the deck, he opened one of the freeing port shutters to try and drain it away.; 2 otjecati, slijevati se; 3 isušiti: A hydraulic pipe bulkhead gland was found to be leaking, which had allowed the hydraulic oil to drain away and air to enter the system during the lay up period.; 4 odvoditi

drain /driːn/ (n) air ~ odušni otvori na zračnom vodu, drenažni kanali na vodu zraka: The CO2 line’s air drain in the engine room was checked and found to be in order., gravity ~ otjecanje slobodnim padom, ispuštanje samotokom: From the sump the oil is drained into the lubricating oil tank for re-use. In most cases this is a gravity drain to a tank in the double bottom., oil ~ otvor za ispuštanje ulja: The bearing covers are each fitted with an oil filter, an oil drain opening and an oil gauge glass., ~ hole ispusni otvor: A double seal arrangement is provided at each branch point with a drain hole to detect leakage and prevent intermixing or contamination. odljevni otvor, otvor za drenažu: Clear glass sample bottles rinsed with boiling water should be used to take drain or bottom samples from service, header and storage tanks.

Drainage /driːnɪdʒ/ (marine eng, cargo handling) odvod (kondenzata), pražnjenje: Emergency drainage of Hold 1 is also possible using the engine room bilge pumps. Always ensure that freeing ports are kept clear, and that containers on deck have adequate drainage holes. When the drain valves from the main air receiver were opened, the condensate flowed into the drainage pot in sufficient quantity to cover the bottom of the pot and the discharge hole. ~ pump cijevi za odvod kondenzata

Drain channel (n) (marine eng) ispusni kanal, ispusni žljeb: The tube also acts as a drain channel to ensure that any leakage from the fuel valve and the HP pipe is drained off.

Drain cock (n) (marine eng, nav arch) ispusni pipac: The crew found that cargo was coming out through the open drain cock on the tank cleaning line branch to 5 Starboard Cargo Oil Tank (COT). The drain cock of the tank cleaning line was kept open as a precaution against freezing.

Drain hole (n) (marine eng, nav arch) ispusni otvor: Drain holes were blocked and none had non-return valves.

Draining plug (n) (nav arch) čep izljeva

Drain off /driːn ˈof/ (v) (marine eng) ispuštiti, iscijediti, isušiti: The engineers had to work rapidly to drain off this water before it got into the engines.

Drain pipe (n) (nav arch, marine eng) odljevna cijev: The leaking oil from the holed bunker pipe found its way through a drain pipe in the side channel into the overboard discharge line causing the oil pollution.

Drain plug (n) (nav arch, boating/yachting) odvodni čep: Although the boat was fitted with a drain plug on the transom, the internal compartments were not interconnected. The capsized boat was later towed to the jetty, where it was found that the hull drain plug was missing.

Drains (n) (cargo, cargo handling) (sealable) openings in the floor of reefer containers for the drainage of condensation https://www.logisticsglossary.com/term/drains/ drenažni otvori kntejnera
**drain system** *(marine eng, seamanship)* **odljevni sustav**: Consequently, the shipyard did not conduct appropriate engineering analysis or testing of the condensate drain system prior to fitting it. Both the shipyard and the owner’s representative considered the drain system to be open and therefore not prone to pressure accumulation.

**drain tank** *(marine eng)* **drenažni tank, sabirni tank, odljevni tank**: The oil in the drain tank is being constantly circulated through a centrifugal filter / purifier / strainer. He proceeded to stop the transfer pump locally and shut the inlet valve of the drain tank. The oil then drains from the crankcase into the drain tank or sump. atmospheric ~ drenažni tank pod atmosferskim tlakom

**drain tap** *(boating/yachting, marine eng)* **ispusni pipac**

**drain valve** *(marine eng, nav arch, cargo handling)* **ispusni ventil**: odvodni ventil The cargo then passed through the partially opened tank cleaning valve and fully opened drain valve on to the deck, resulting in the oil cargo spilling on deck. Prior to the changeover, he opened the drain valve at the bottom of the tank being put into service and started to drain off water.

**draught** /ˈdraːft/ *(nav arch, stabil)* the distance measured vertically on the midship transverse section, from the base line to the load waterline; the distance from the keel to the waterline (WL), as measured at the forward and aft ends of the ship gaz broda, Italian: pescaggio, peškaj: The vessel, loaded to a draught of 13.5 metres, was upbound in a river estuary. The work will deepen and, in some places, widen the river, to allow vessels of 13.5 m draught to pass at low tide. Vessels of up to 14.5 m draught, meanwhile, will be able to pass at high tide. https://dredgingandports.com/ ~ aft gaz na krmi, take the ~ izmjeriti gaz, snimiti gaz, departure ~ gaz u odlasku, arrival ~ gaz u dolasku, maximum ~ najveći gaz, ~ forward gaz na pramcu, ~ on departure gaz pri isplovljenju, ~ on arrival gaz pri dolasku / uplovljenju, sailing ~ gaz u plovidbi: Maximum sailing draught and minimum draught for safe manoeuvring permitted by the port authority, designed ~ projektni gaz, minimum ~ najmanji gaz, minimalni gaz, anticipated ~ predviđeni gaz, gaz nakon ukrcaja / iskrcaja: ... the actual time, particulars of draught, information regarding the tonnage and type of cargo she will work, and the maximum draught anticipated when loading has been completed, recommended ~ preporučeni gaz: The vessel had transferred cargo and ballast in order to meet the recommended draught, however this proved insufficient, vessel constrained by her ~ brod ograničene sposobnosti manevriranja zbog svojega gaza: ‘Any vessel... shall... avoid impeding the passage of a vessel constrained by her draught exhibiting the signals in Rule 28., light ~ gaz bez tereta, gaz nenakrcanog boda: The vessel was light draught and had a large windage area, and was yawing substantially., fresh water ~ gaz u slatkoj vodi: During the master pilot exchange of information, the master declared that the vessel’s fresh water draught was 4.1 m., have a ~ of ... metres imati gaz od ... metara: The master advised the pilot that the ship had a draught of 15.52 m and was 'very heavy'. www.gov.uk/maib, even-keel ~ na ravnoj koblici: The ship had an even keel laden draught of 15.50 m.; 2 (marine eng) propuh, cirkulacija zraka induced ~ usisna cirkulacija zraka, natural ~ prirodna cirkulacija zraka, prirodni propuh, mechanical ~ prisilna cirkulacija zraka, umjetni propuh

**draught aft** /ˈdraːft/ *(nav arch, seamanship)* krmeni gaz, gaz na krmi
draught amidships  /dra:ˈt/ (nav arch) gaz na sredini broda
draught and trim calculation (n) (stabil) proračun gaza i trima
draught forward /dra:ˈt/ (nav, seamanship) pramčani gaz, gaz na pramcu
draught indicator /dra:ˈt/ (nav arch, seamanship) pokazivač gaza
draught marks /dra:ˈt/ (nav arch) zagaznice, bale
check the ~ provjeriti zagaznice, očitati zagaznice
draught restrictions (n) (navig) ograničenje zgog gaza broda: During the passage of the ship’s agent advised the shio's master of the 
draught restrictions at the discharge berth ...
https://safety4sea.com
draught signals (n) (navig) SEE vessel constrained by her draught oznake

**gaza:** ... the deep draught signal was being displayed, visibility was in excess of 10 miles, wind w’ly

*(o brodu), imati gaza: the vessel is ~ing 17.6 meters brod ima gaz od 17,5 metara How much does your boat draw? Koliki je gaza vašega broda? Own ship was a bulk carrier drawing 17.7m, heading up the southern North Sea bound for Rotterdam and using the Sandettie Deep Water Route.

(boating/yachting) to fill with wind and begin propelling a sailboat povuči vjetar (o jedru)
draw (v) 1 to require sufficient depth of water necessary to move the ship without grounding gazi

*(o brodu), proučiti na sredini broda: The two vessels wer drawing too close.

Simultaneously, and rudder was moved to hard-a-port and, to our great relief, the drift net slowly began to
draw astern and was cleared about two cables off. Now drawing ahead of the tanker, and some distance to
the north-east of the track, the pilot ordered 'Full Ahead' and 'Hard a Starboard'

draw attention (v) pruvič pažnju, skrenuti pažnju, upozoriti: I wish to draw your attention to the fact that owing to the negligent and careless handling by the stevedores, during discharge of the above cargo, heavy damage has been caused to the goods. Cylinder heads are fitted with relief valves in order to draw attention to any abnormally high firing pressure.

drawback (n) (marine eng, nav arch) nedostatak: Owners should seek expert professional advice, and wherever possible, reference should be made to design drawings, and the designer/builder consulted to check construction details and suitability of the modification.

drawing board (n) (nav arch) crtači stol
drawings /ˈdrɔ:ɪŋ/ (marine eng, electr) nacrti: List of manuals and drawings available on board. The information and drawings available on board the vessel at the time included the final (approved) drawing for the compressed air system but did not mention the modified drainage system.

design ~ izvedbeni nacrt: Owners should seek expert professional advice, and wherever possible, reference should be made to design drawings, and the designer/builder consulted to check construction details and suitability of the modification. Although technical drawings were not supplied, the company used an experienced contractor to undertake the work, which was overseen by an independent consultant.

draw knife (n) (seamanship) nož s dvije oštrice
draw off (n) (navig) spuštanje razine mora (zbog prevelike brzine broda u kanalu): damage caused by wash or draw off due to excessive speed
draw out a lesson (v) povući pouku: There is a need to inform the shipping and fishing industries, the pleasure craft community and the public of the general circumstances of marine accidents and to draw out the lessons to be learned.
draw up (v) (shipping econ, mar law) sastaviti, napisati: Draw up a Statement of Facts covering the time the breakdown occurred and deviation commenced ... ~ a report sastaviti izvješće, ~ a document sastaviti / napisati dokument, sastaviti / napisati ispravu, ~ a contract sastaviti ugovor, napisati nacrt ugovora, ~ instructions napisati upute: Shipyards and repair yards should draw up clear instructions for each type of vessel, ~ a passage plan sastaviti plan putovanja: The Master was kept busy with the phone calls and frequent internal calls to the engine room about bunker requirements and myself (OOW) drawing up the new Passage Plan, ~ the cargo stowage plan sastaviti plan krcanja, napraviti plan krcanja
dray /drei/ (n) (cargo handling) cart or for local haulage or carriage of cargo, eg. on the dock or within the port) kola, kolica
drayage /draɪdi/ (n) 1 (cargo handling) = cartage prijevoz kolicima; 2 (shipping econ) naknada za podvoz, naknada za prijevoz kolicima; 3 (shipping econ) Inland transportation from vendors to the port of shipment, and from discharge port to the point of stripping the ocean container kopneni prijevoz (od prodavatelja do luke ili od luke do primatelja/kupca na kopnu) ~ drivers vozači u kopnenom prijevozu: Cargo owners and drayage drivers complained over what they considered unfair fees for failing to pick up cargo and return equipment in a timely manner. https://www.joc.com, ~ operator operator kopnenog prijevoza: While drayage operators in California await the fate of legal challenges to AB5, some are shifting to a freight-broker model, and owner-operators are becoming licensed as individual companies https://www.joc.com/
dredge /dredʒ/ (v) 1 (seamanship, navig) to use an anchor to help maneuver large vessels in close quarters manevrirati oranjem sidra: Dredging anchors is a method which is used to assist a ship in maneuvering during unavailability or inability of tugs to assist as required Do not dredge anchor. Concerned that the vessel might sink, the Master released the tow and put both engines full ahead in an attempt to dredge the anchor into shallower water. a (v n) (navig, seamanship) zavlačiti sidrom (kako bi se ukopalo / kako bi uхватило / držalo), namjerno oranje sidra; 2 (ports) to dig up the bottom in order to deepen the channel, process of removing sediment from harbour or river bottoms for safety purposes and to allow for deeper vessels jaružati, produbljivati plovidbeni kanal / more uz vez, bagerirarti: The maritime authorities will jointly dredge the rivers as low water draught has become a threat for vessels carrying goods and passengers. https://dredgingandports.com/news/2020/ Terminal 1 basin was dredged to a depth of 17.5 metres. ~ the fairway jaružati plovidbeni kanal, ~ the seabed jaružati morsko dno, bagerirati morsko dno, produbljivati i čistiti morsko dno jaružalom: <tlCorpus><sentence>Having the main bridle trailing over the side can cause it to foul with underwater obstructions or simply dredge the seabed and act as an anchor thereby making emergency towing difficult.<source>PUBS-Loss-Prevention-Tug-and-Tow-Safety-and-Operational-Guide_A5_onscreen</s
to fish using a fishing dredge; 3 (fishing) dredge n

At about 1415, the fishing vessel returned to the mussel beds and started dredging again. After a few tows, when the vessel was heading into shallower water and turning to starboard to haul the starboard dredge:

screenshot showing ship departing the dredged channel: the vessel approached the westward edge of the dredged channel ...

---

dredge net povlačna mreža, mreža potegača

https://en.wikipedia.org/wiki/Fishing_dredge
dredger /ˈdrɛdʒə/ (n) (cargo handling) jaružalo, bager grab ~ jaružalo grtalica, suction ~ jaružalo usisavač, dipper ~ jaružalo žličar, bucket wheel ~ jaružalo žličar
**dredging** /ˈdrɛdʒɪŋ/ (ports) ḳaružanj, bageriranje: The crew of a *twin beam scallop dredger* had hauled the beams inboard and had secured them in position with the safety chains ready to empty the catch of scallops. <ttCorpus><sentence>Dredging and disposal of dredged materials Generally speaking, *dredging* activity consists of periodic removal of material from the seabed in approach channels to port and harbour basins to maintain widths and depths in previously dredged areas to ensure the safe access for vessels. <source>14-ME-tal_001</source></sentence></ttCorpus> Environmental groups argue that *dredging* will lead to wildlife habitat losses along the river. https://dredgingandports.com/ ~ disposal odlaganje iskopa s dna mora, ~ project projekt produbljivanja luke / prilaznog kanala luci: The *dredging project* will take the channels to 55 feet deep, from their current depth of 50 feet, and widen the channels in select areas to allow for two-way traffic of ultra-large container vessels. , ~ master plan razvojni plan jaružanja u luci

**dredging** /ˈdrɛdʒɪŋ/ (seamanship) namjerno oranje sidrom kako bi sidro uhvatilo oranje sidrom, zavlachen ene sidrom: The vessel was yawing and rolling heavily and *dredging her anchor* at the anchorage due to strong winds and heavy sea, now coming from the southeast. http://gCaptain.com Harbor *deepening project* gets final government approval.

**dredging** /ˈdrɛdʒɪŋ/ (fishing) kočarenje po dnu mora, ribolov oranjem po dnu mora: Dredging is a technique primarily targeting bottom dwelling molluscs such as scallops and clams. The weather conditions were good, and *dredging took place* until 0930 when there was insufficient water over the mussel beds to continue. ~ operations ribolov povlačnom mrežom / koćom, ~ gear oprema za kočarenje povlačnom mrežom / koćom

**dredging anchor** (navig, seamanship) sidro kojim se ore, Italian:*ancora dragante*

**dredging buoy** (navig) a buoy indicating the boundary of an area that is being dredged oznaka za jaružanje

**dressed full** (seamanship) all flags sent up for decorating the ship brod potpuno ukrašen galom, *gran pavese*

**dressing** (med) zavoj sterile ~ sterilni zavoj
**dress ship** (v) *(seamanship)* to decorate a ship with flags; flying all the flags of the ship in port to celebrate a special event. **ukrasiti brod galom**: *Dressing Ship* is done with the International Code Signal Flags. Officer's flags, club burgees and national flags are not used. [http://www.boatsafe.com/nauticalknowhow/dressing.htm](http://www.boatsafe.com/nauticalknowhow/dressing.htm)

**dress the wound** (v) *(safety)* **povezati ranu**: He then used the boat’s first-aid kit to *dress* his father’s *arm*, using a wooden spatula from the galley as a splint and cottonwool pads to stem the flow of blood.

**dribbling** (n) **kapanje, curenje**

**drift** (n) 1 *(oceanogr)* the speed and flow of a moving mass of water or current. **struja, jačina struje**: We failed to realise that as we were traversing a gap between the islands, a strong current was flowing that induced sudden and strong *set* and *drift*. During this time the RoRo vessel *drifted towards* the coast. [https://safety4sea.com/](https://safety4sea.com/) *effect of drift* **utjecaj brzine struje, zanošenje**

**strujom / vjetrom, jačina struje**: Navigation in boyed channel, with regular alterations of course, requires the bridge team to closely monitor the vessel’s position so that the effects of *set* and *drift* on differing headings can be assessed and appropriate action taken to ensure the safety of the vessel.

2 *(navig, ship handling)* a vessel’s lateral movement caused by ocean currents, one of the variables employed to calculate a reliable course over the bottom; The movement of a search object caused by environmental forces. **zanos broda, zanošenje broda, Italian: scarroccio, Italian: deriva**: We continued to monitor the tanker’s *drift* and it was ascertained that she would probably miss the jack up rig but collide with the other rig. The autopilot was set in ‘heading mode’, which meant that the *drift* was to be corrected manually. Despite dropping port anchor to *minimize the drift*, our ship hit the bow of the cruiser.  ~ **angle kut zanošenja**: We tried to alter the *drift angle* by rapidly putting the helm over from port to starboard, but to little avail.  ~ **rate brzina otpadanja, brzina zanošenja**: The weather deteriorated and the *drift rate* increased to 37 miles per day.  ~ **counter ~ suprotstaviti se zanošenju, spriječiti zanošenje djelovati protiv zanošenja**

**drift** (v) 1 *(navig)* leeward movement of a ship/boat caused by currents when not under power. **plutati (bez pogona), biti nošen strujom i vjetrom**: the vessel drifted midstream in the freshening breeze. the vessel was located 150 nautical miles west of La Rochelle on Friday and was drifting east at east at 1 knot. The tide was turning and the stern of the vessel started to *drift away*, opening up a gap between it and the pier. The boat then *drifted*, downwind without power, towards the far side of the bay. I could see the coast, and had no reason to suspect that the ship might *drift off course*. The vessel is currently on emergency power and *drifting* in the Gulf of Mexico as it awaits the arrival of a tugboat. [http://gcaptain.com/american-vehicle-carrier-adrift-in-gulf-of-mexico-after-fire](http://gcaptain.com/american-vehicle-carrier-adrift-in-gulf-of-mexico-after-fire) An abandoned ship has been found *drifting* in the Atlantic; 2 **zanositi se, otpadati**: I went out on to the boat deck to see what was happening and saw that the ship was *drifting away* from the berth and was already about 2 metres off the fenders. The vessel was *drifting* and getting closer to buoy No. 1 to starboard. A bulk carrier experienced main engine failure and subsequently *drifted* about 700 nautical miles northeast of Honolulu. [https://safety4sea.com](https://safety4sea.com)

**drift** (n) *(safety, oceanogr, navig)* The movement of a search object caused by environmental forces. *(Camsar2014=Canadian Coast Guard)* **zanos objekta potrage (zbog struje, vjetra)**
**drift angle** *(ship handling) kut zanošenja (pri okretanju):* The maximum turning moment of the hull resistance is reached at a drift angle of about 45 degrees.

**drift current** *(oceanogr)* struja od plime i oseke

**drifter** */ˈdrifər/* *(boating/yachting)* puna genova (iznimno duga po bazi); A Drifter is a full-draft, lightweight nylon No. 1 genoa that does away with the frustration and aggravation of sailing in light air. **drifter:** Drifters are a hybrid designed specifically for cruising sailors. A drifter generally allows a vessel to sail close hauled and to tack, and it’s very easy to control when set and struck.
drift error  (n)  (safety)  greška u određivanju pozicije potrage i spašavanja zbog zanošenja

drift ice  (n)  (oceanogr)  putujući led, led nošen strujom

drifting  (n)  1  (navig)  zanošenje: * Sailing vessels are very susceptible to drifting due to the considerable amount of windage on the sails. Finally, after about two days' drifting, the fire burnt itself out and the barge was towed to a repair facility.  2  (electr, navig)  brzina pomaka (osi zvrka)

drifting  (n)  (fishing)  fishing from the boat carried (drifted) by current and wind; Ribolov iz neusidrenog broda pomoću balona ili bez njih, koji vodene struje i vjetar lagano nose.

drifting vessel  (=drifting ship)  (n)  (navig, safety)  brod u zanošenju, brod koji pluta i otpada (sa strujom, valovima ili vjetrom): The Master of the bulk carrier began to heave in the port anchor and to maneuver the vessel to avoid coming into full contact with the drifting vessel. (https://safety4sea.com/)

drift net  (n)  (fishing)  plutajuća površinska mreža: Simultaneously, and rudder was moved to hard-a-port and, to our great relief, the drift net slowly began to draw astern and was cleared about two cables off. Around midnight, a long line of weakly lit buoys came into view, indicating the existence of drift nets.
after the drill was completed the crew were dismissed. perform a fire, lifeboat or other emergency ~ izvoditi protupožarnu vježbu, vježbu spuštanja brodice za spašavanje i ostale vježbe u slučaju opasnosti, abandon ship ~ vježba napuštanja broda: This was the immediate contributing factor to the uncontrolled descent of lifeboat no. 1 during the routine abandon ship drill at sea. On one of our vessels, the lifeboat embarkation ladder rope parted during an abandon ship drill conducted in the presence of the US Coast Guard., boat ~ vježba spuštanja brodice za spašavanje: Narrative The crew of a UK registered 5300gt ro-ro cargo ship, built in 1970, were undertaking a combined fire and boat drill, while alongside a UK port., fire ~ protupožarna vježba, vježba gašenja požara: During an engine room fire drill, the crew practised an evacuation through the emergency escapes. The alarm was sounded, and the crew were split so as to cover the fire drill and the lowering of the boat., lifeboat ~ vježba spuštanja brodice za spašavanje: On a Sunday morning with good weather conditions and the ship steaming at 14 knots in ballast, the crew prepared to conduct a lifeboat drill., man overboard ~ vježba osoba/čovjek u moru Last man overboard drill was on October 12th., impact ~ udarna bušilica
This task involved drilling holes through the deck plate with a magnetic drill. Spot weld ~ sjekač zavara, sjekač vara, pneumatic spot weld ~ pneumatska bušilica za zavarivanje; 2 bušilica straight ~ štapna bušilica, angle ~ kutna bušilica.

Drill bits (n) 1 (marine eng) svrdlo za bušilicu insert the ~ umetnuti svrdlo u bušilicu, remove the ~ izvaditi svrdlo bušilice

2 svrdla i odvijači bušilice

Drilled (adj) rifle~ spiralno probušen, vijčano probušen bušen, probušen:
The fuel line consists of channels drilled in cast parts which are clamped firmly on the engine block ...

Drilling (n) (marine eng) a process of cutting or enlarging a cylindrical hole in a solid material (https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/)

Bušenje ~ machine bušilica

Drilling rig (n) (nav arch) naftna platforma, bušotina za naftu: A drilling rig was engaged in operations in a designated offshore oilfield. Our offshore supply vessel was holding station close to a drilling rig, with two hoses connected, delivering bulk barite and fuel.

Drilling ship (n) (nav arch) brod za bušenje nafta

Drill press (n) (marine eng) okomita bušilica, bušilica na vertikalnom stupu

Drinking water system (n) (nav arch) sustav pojne vode, sustav pitke vode

Drip (v) kapati, cijediti: Care should be taken that there is not too much oil on the torch which could drip and possibly cause a fire;

Drip tray (n) 1 (marine eng) nakapnica; 2 (safety) posuda za prikupljanje prolivenih tekućina: Check that drip trays are in position and empty .. some 100 litres of cargo spilled into the manifold drip tray and approximately 20 litres overflowed on to the main deck.

Drive /drəɪv/ (n) 1 (marine eng) pogon diesel ~ 1 dizelski pogon a: Today practically all vessels use a diesel drive., diesel-electric ~ dizel-električni pogon: A combination of geared diesel and diesel–electric drive is exploited in some offshore support vessels., direct drive = direct-coupled engine direktan pogon (bez reduktora): The direct drive of a fixed pitch propeller by a low-speed two-stroke engine remains the most popular propulsion mode for deep sea cargo ships., indirect ~ posredni pogon (s reduktorom), turbo-electric ~ turbo-električni pogon, camshaft ~ pogon bregaste osovine: On a two stroke crosshead engine lubricating oil is supplied to the main bearings and camshaft and camshaft drive. The lost-motion clutch or servo motor uses a rotating vane which is attached to the camshaft but can move in relation to the camshaft drive from the crankshaft., electric ~ motor stroj na električni pogon, stroj s elektropogonom: A podded propulsor (or pod) incorporates its electric drive motor in a hydro-dynamically optimized submerged housing., genset ~ pogon generatora, pogon agregata: First introduced in 1971, the 250 mm bore/300 mm stroke K-engine was designed
mainly to be a genset drive but numerous propulsion plant applications have been logged in tugs, offshore supply ships and fishing vessels. The fire pump was in operation to provide cooling water for the windlass hydraulic drive system. The frame section for the four- and five-cylinder engines consists of one part with the chain drive located aft. The crew member was wiping clean the base of the scaler with the air motor running, when his glove became entangled in the moving drive belt, trapping his fingers. 

drive belt (n) (boating/yachting, marine eng) pogonski remen: The crew member was wiping clean the base of the scaler with the air motor running, when his glove became entangled in the moving drive belt, trapping his fingers.

drive belt, trapping his fingers. 

drive gear (n) (marine eng) pogonski prijenosnik, reduktor: In order to remove the dried old grease around the dog clutch and shaft, it was necessary for the seaman to extend his arm between the drum and the winch drive gear and clear it manually. There is an integral forged coupling flange for the flywheel, and the camshaft drive gear is split to facilitate replacement.

drive gear, trapping his fingers. 

drive gear, trapping his fingers. 

drive shaft (n) (nav arch, marine eng) pogonska osovina: The port drive unit was found to have been moved out of alignment and the drive shaft had sheared, requiring dry dock repairs.

drive shaft, trapping his fingers. 

drive unit (n) (marine eng, nav arch) pogonska jedinica, pogonski uređaj: The port drive unit was found to have been moved out of alignment and the drive shaft had sheared, requiring dry dock repairs.

drive unit, trapping his fingers. 

driving force (n) (boating/yachting) potisak 

driving gear (n) (marine eng) pogonski uređaj, pogonski zupčanik: The relative movement between driving gear and camshaft is via a helically toothed sleeve integrated in the gearwheel, meshing with the corresponding counterpart on the camshaft.

driving gear, trapping his fingers. 

driving generator (n) (marine eng) pogonski generator: Diesel engines are used as main propelling machinery and frequently as auxiliary for driving generators to provide electric power for shipboard use.

driving generator, trapping his fingers. 

driving motor (n) (marine eng) pogonski elektromotor, pogonski motor: The emergency generator must be rated to provide power for the driving motors of the emergency bilge pump, fire pumps, steering gear, watertight doors and possibly fire fighting equipment.

driving motor, trapping his fingers. 

driving turbine (n) (marine eng) pogonska turbina 

driving wheel (n) (marine eng) pogonski zupčanik, pogonsko kolo 

drizzle /ˈdrɪzl/ (n) (meteorol) small, slowly falling water droplets, with diameters between 0.2 and 0.5
drogue /droug/ (n) (safety) a sea anchor zavlacno sidro: The master and crew of this vessel deserve praise for practising good seamanship by using the anchor and cable as a drogue and preventing what would have been a potential calamity to both the vessel and local fishermen. Many sailors use an icicle hitch to form a bridle when dragging their drogue.

dromon (=dromone) (n) (boating/yachting) a type of galley and the most important warship of the Byzantine navy from the 5th to 12th centuries AD dromona, bizantska dromona

drone /drəʊn/ (n) (nav arch, navy) bespilotno plovilo, plovilo-dron, dron mine-hunting ~ bespilotni minolovac, underwater ~ podvodno bespilotno plovilo, marine ~ bespilotno istraživačko plovilo, plovilo-dron, plutajući dron: Marine Drone - is an Unmanned Surface Vehicle, catamaran type, with tele-operated and/or autonomous modes. Ultra portable (50 kg), it is the ideal platform for all kinds of investigations in shallow waters.

drone /droun/ (n) (safety, navig) bespilotna letjelica, dron: Shortly after the drone had been launched the Master was contacted by the Suez Canal Authority and told to drop anchor. The national authorities confiscated the drone and its memory card and the vessel was detained in anticipation of further investigations. Japanese shipping line Mitsui O.S.K. Lines has participated in a demonstration test of ship class survey using aerial drones to inspect an MOL-operated coal carrier in service. GCaptain www.gCaptain.com The scope was an intermediate survey on a bulk carrier and consisted of close-up inspections and ultrasonic thickness measurements (UTM) conducted by the drone in two cargo hold spaces. https://www.marineinsight.com/shipping-news Drones to deliver 3D printed spare parts in Singapore. https://safety4sea.com/

droop (n) (marine eng) Droop is the variation in engine speed following a load change, approximately 4% for a full load change.

drop /drɒp/ (n) (marine eng, electr) pad, smanjenje, opadanje: An inexplicable drop in radar performance can often be traced to water in the waveguide. A voltage drop caused large, but equal errors in both gyros. The drop-in voltage set off a number of power failure alarms on the bridge, including both gyrocompasses. (https://safety4sea.com/) temperature ~ pad temperature: Cycle thermal efficiency is approximately the same as that of a simple- cycle engine, as additional fuel is required to offset the drop in compressor exit temperature. There was a sudden drop in cooling water pressure: engine jacket temperatures were shooting up and automatic main engine slow-down or shut-down trips would operate suddenly. ~ in pressure pad tlaka, pad pritiska: Earlier that day there had been...
intermittent main engine problems due to a drop in lubricating oil pressure, but the exact cause of the reduced oil pressure was not yet known. pressure ~: Thanks to the double lap joint, the pressure drop will be almost constant irrespective of the wear on the liner and rings. speed Speed reduction from high idle after a load is placed on the engine. (http://www.marinedieseleurope.com/) brzina

drop (v) 1 ispustiti, baciti; 2 = let go oboriti sidro: The vessel was advised by the VTS to drop anchor at anchorage “B”. Until recently, tankers and other vessels were always dropping anchor in the area between the westbound and eastbound lanes, South and West of Nippa, in order to carry out above mentioned operations safely. port anchor Oborite lijevo sidro!; 3 otpustiti (uže, konop) ~ the headline! Otpustite pramčani konop!; 4 ~ off a sling (otretu) ispasti iz pasca; 5 (navig) iskrati (peljara): After dropping the pilot we made a second attempt to head East, again a coaster heading South tried to cross our bows, this time at 2 cables range.; 6 (marine eng) padati, opadati: At about 0330 the watchkeeper noticed that the engine revolutions were dropping and that the engine was making a strange noise.

drop an anchor (v) (seamanship) = let go oboriti sidro: The Master then sent the helmsman to the bow to drop anchor as requested by the river pilot. Busan VTS had directed the vessel to drop her anchor in N4 Anchorage Area. The vessel was instructed by VTS to drop anchor at N-4 anchorage upon arrival. (https://safety4sea.com/)

drop astern (v) (navig) pustiti se po krmi broda (o tegljaču): A tug assisted the unberthing by pushing on the inshore (port) bow, and was then ordered to drop astern and escort the vessel out.

drop back 1 (v) (navig) to increase the distance from the vessel ahead by reducing one’s own speed

povećati razmak po krmi drugog broda: You must drop back from the vessel ahead of you.; 2 (navig) usporiti; 3 (seamanship) pasti natrag (o užetu): However, the messenger kept slipping off the warping drum, causing the tow wire to drop back onto the tug.

drop-keel (n) (nav arch) a keel that can be pivoted up into a well for sailing in shallow waters

pomična kobilica

drop light (n) (seamanship) prijenosna svjetiljka sa zaštitnom rešetkom

drop line (n) (cargo handling, nav arch) the pipelines which drop oil cargo to the bottom of the tanks vertically from the pipeline on deck – thus bypassing the pump room. vertikalna cijev za punjenje tankova: The combined pipeline system of the shore and the ship deliver the oil to the cargo oil tanks directly via the drop lines. This tank also had the drop line blocked at the bottom.

drop the pilot (n) (seamanship) iskrcati peljara: The ship had slowed to drop the pilot. After clearing the Panama canal en route to Guayaquil my vessel dropped the pilot at Balboa and had just passed the seaway buoy southbound.

drought /draʊt/ 1 (meteorol) suša; 2 (navig) izušenje (kanala ili tjesnaca) uslijed vjetra, pad razine vode zbog izušenja vjetrom: The Panama Canal Authority (ACP) says it will set temporary draft restrictions on vessels transiting the Canal because of drought caused by El Niño.

drown /drəʊn/ 1 utopiti se: Two seafarers are presumed drowned after a container ship sank in the .... Sea on 5 September. Without this additional buoyancy a person can quickly tire and drown. Wearing a lifejacket when it is rough makes sense, but most fishermen drown in calm conditions when they least expect to find themselves in the water.; 2 (v) utopiti, potopiti
drowning /ˈdraʊnɪŋ/ (n) (safety) utapanje, Italian: annegamento: He died from a combination of hypothermia and drowning about 10 minutes after the initial capsize. Fishermen had been fishing for many years they did not wear lifejackets, and when they were suddenly thrown into the water they were at serious risk of drowning.

drug and alcohol policy (med, safety, hum_resources) politika o uporabi droga i alkohola: Drug and alcohol policy specified that staff should not have an alcohol level above that stated in the Road Traffic Act 1988, which was 80mg of alcohol per 100ml of blood, when on duty. ww.gov.uk/maib

drug test (med) test na drogu: As part of routine drugs testing of our crews, all crewmembers recorded negative tests, Several crew members aboard the MV... have been suspended and may end up getting fired after testing positive for drugs pass the ~ uspješno proći na testu na droge, fail the ~ pasti na testu na droge, negative ~ negativni test na drogu, positive ~ pozitvni test na drogu: The U.S. Coast is warning credential mariners against the use of hemp-based CBD products that could result in a positive drug test.

https://gCaptain.com, nen-negative ~ pozitivni test na drogu

drum 1 a (cargo) bačva; 2 (seamanship, nav arch) bubanj (vitla); 3 (marine eng) komora lower ~ donja komora, donji bubanj, main ~ glavna komora, upper ~ gornja komora, gornji bubanj, water ~ vodena komora

dry (=dry cargo market) (shipping econ) tržište suhih rasutih tereta, tržište rasutih tereta

dry bulk cargo (cargo) suhi masovni tereti, rasuti tereti, sipki tereti: During self-discharging of a dry bulk cargo, the engine room rating on watch informed the cargo control room by portable radio that he was proceeding to the conveyor belt tunnels. All dry bulk cargoes must be transported strictly according to the recommendations in the bulk carrier (BC) Code. ~ sector gospodarski sektor suhih rasutih tereta: The drybulk sector – where iron ore, coal, grain and other raw materials dominate – is still wrestling with a decade-long hangover that began with the financial collapse of 2008. https://www.maritimeprofessional.com/news/bulk-shipping-economics-317750

dry bulk market (=dry; dry market) (shipping econ) tržište suhih rasutih tereta, tržište rasutih tereta: There is COA business in the dry bulk market carrying cargoes of iron ore and coal and the major customers are the steel mills of Europe and the Far East.

dry cargo (cargo) suhi tereti

dry cargo brokering posredništvo u trgovanju suhim (rasutim) teretima, brokerstvo na tržištu suhih (rasutih) tereta: A brokerage (commission) of 1¼% to each of the brokers involved in the fixture is usual in dry cargo chartering.

dry cargo carrier brod za rasute terete, brod za suhe (rasute) terete: A small dry cargo carrier was en route in a vessel traffic services (VTS) controlled restricted waterway and, because of her size, was without a pilot.

dry chemical (safety) suha pjena: Small fires can be extinguished with dry chemical, soda ash or lime. ~ extinguisher aparat za gašenje suhom pjenom: Several attempts were made during the next two hours to extinguish the fire, first with portable foam and dry chemical extinguishers, then with a fire hose before the decision was made to flood the engine room with CO2.

drydock /ˈdræd dok/ (nav arch) a type of dock consisting of a rectangular basin dug into the shore of a body of water and provided with a removable enclosure wall or gate on the side toward the
water, used for major repairs and overhaul of vessels; a large dock made out from the shore, from which water can be pumped out in order to repair parts of the ship which are below the waterline; The dry dock is fitted with stationary keel blocks and movable bilge blocks, which usually are fitted on rack tracks, allowing them to be pulled under a vessel before the water is pumped out. (https://www.history.navy.mil/) suhi dok, Italian: bacino di carenaggio: after unloading the ship entered drydock to effect permanent repairs During the short passage to drydock, all tanks were monitored and the ballast pump was continuously discharging the ingress into the fore peak tank. In the drydock, it was observed that apart from the large hole punched in the shell plating in way of the fore peak tank, there was no other damage. With company’s and class approval, the vessel continued on its short passage towards the discharge port, where, after unloading, she entered drydock to effect permanent repairs. The four main types of dry docking methods are as follows: floating dock, excavated dock, patent slip, ship lift After discharging cargo at Warrenpoint, the ship proceeded to Belfast dry dock, where a full inspection revealed extensive structural damage throughout the forward third of the hull with 26 penetrations in three compartments. MAIB Report 11/2018 https://worldmaritimenews.com/archives/tag/dry-dock/; 2 (safety, nav arch) remontni vez, vez za opravke brodova u brodogradilištu dry-dock /ˈdraɪ ˌdɒk/ (v) 1 (nav arch) popravljati brod u luci: The vessel was dry docked a week after the accident as part of the Continuous Class Survey schedule.; 2 (nav arch) staviti brod u suhi dok, dokovati drydocking (n) 1 (nav arch) The removal of a ship from the water for inspection and repair of those parts of a ship that are below the water line.; Putting a vessel into a dry dock for inspection, repair and maintenance. (https://www.clarksons.com/glossary/) suho dokovanje: A product tanker was proceeding on a long voyage after the completion of drydocking and associated surveys. During drydockings, which are required to be carried out periodically, certain mandatory classification society inspections are carried out and relevant certifications are issued. Drydockings for containerships are generally required once every three to five years. The main objective in carrying out dry docking is to ensure ships are operational and to maintain their class license Dry docking is also required if a ship has sustained damage to the under water structure due to grounding, collision or any other damage which will affect the water integrity of the ship’s hull.; 2 (nav arch) popravak broda u luci; 3 (nav arch) remont dry-dock refit (n) (seamanship) održavanje u suhom doku dry freight (n) (shipping econ) suha roba (u transportu), suhi teret drying height (n) (geogr) suhi greben, visina mora pri kojoj greben viri iznad površine dry marina (n) (boating/yachting) suha marina dry off (v) posušiti, isušiti dry out alongside (n) (boating/yachting) ostati na suhom na vezu (u lukama s plimnim režimom)
dry powder (n) (safety) suhi prah: The attending firefighters employed dry powder extinguishers to quench the ‘fire’ in each drum. ~ extinguisher aparat za gašenje suhim prahom: Both teams were able to locate the source of the fire at the main engine and it was soon put out using portable dry powder extinguishers.

dry powder piping (n) (safety, nav arch) cjevovod praha za gašenje
dry storage (n) (boating/yachting) zimovanje na suhom, zimovanje jedrilice: For longer periods of time, it may be cost effective leave your boat in dry storage.

dry tank certificate (n) (cargo handling, mar law) potvrda da je tank suh i čist, potvrda o ispražnjjenom tanku: The terminal or cargo interests’ representative should be requested to sign a dry tank certificate and only after this has been signed should shore hoses be disconnected. A dry tank certificate is issued on completion of discharge. This should be signed by the consignees.

dry van (n) (cargo, logist, figurative) the standard 20Ft and 40Ft containers
https://www.logisticsglossary.com/term/dry-van/; Standard containers are also known as general purpose containers or dry van standardni kontejneri od 20 ili 40 stopa

dry wipe (n) (marine eng) čišćenje na suho, čišćenje suhim sredstvom

DSA /di: es 'ei/ (=daily subsistance allowance) (n) (mar law) iznos dnevnice

DSC (=Digital Selective Calling) (n) (navig) a technique using digital codes which enables a radio station to establish contact with, and transfer information to, another station or group of stations, and complying with the relevant recommendations of the International Telecommunication Union Radiocommunication Sector (ITU-R), (COMSAR 14.4) digitalno selektivno pozivanje, digitalni selektivni poziv, DSC uzbuna: At about 0630 our vessel received a DSC alert on 16MHz for a vessel in position 01°25’N 103°54’E - somewhere in the region of the Singapore Straits. When this, too, did not get a response, I sent them a DSC call. Whilst on watch recently, I received a DSC distress call. Although a Mayday message was broadcast on VHF radio channel 16, Digital Selective Calling (DSC) was not used. ~ distress alert SEE distress alert digitalni selektivni poziv u pomoć u pogiblji, DSC uzbuna o pogiblji, DSC-poziv za pomoć u pogiblji: Upon notification of a DSC urgency or distress alert at the JRCC/MRSC, the JRCC/MRSC SAR mission coordinator shall: .1 Obtain the distressed vessel’s MMSI and other vital data. CAMSAR II – Mission Coordination

DSC alert message (n) (safety) The DSC alert message shall be composed as follows.1 Format specifier (distress, urgency, safety); .2 Nine-digit MMSI (a ship station: MIDXXXXX, or .b coast station: OOMIDXXXX); .3 Nature of the distress (default setting is “undesignated”); .4 Distress coordinates (default is “no position information” or 99999 99999); .5 Coordinated Universal Time (UTC): hhmm (default is “no time information” or 8888); and .6 Mode of subsequent communication (default is “radiotelephony”). DSC poruka o uzbuni

DSV (=diving support vessel; deep submerged vessel) (n) (nav arch) brod za ronilačke radove: Failure to Recognise a Suspended Load Results in Death Narrative Modifications were being carried out on the diving bell recovery system of a diving support vessel.

dual channel watch (n) (comm) dvokanalno osluškivanje, dvokanalna radijska straža

dual control (n) dvostruko upravljanje, duple komande

dual-fuel engine (=DF engine) (n) (marine eng) stroj na dvije vrste goriva, stroj s alternativnim gorivima: The new low-pressure dual-fuel engine provides CAPEX
reductions of 15% to 20% through a substantially simpler and lower cost LNG fuel gas handling system. Gas or dual-fuel engines running on gas have 25% lower CO2 emissions, while NOx emissions are 85% lower than for a diesel engine. https://www.wartsila.com For example Wärtsilä’s dual-fuel engines running on gas have 12-30% lower greenhouse gas emissions than Wärtsilä’s diesel engines.

**dual-fuel propulsion** *(marine eng, nav arch)* pogon na dvije vrste goriva, alternativni pogon: The 1,400 teu vessels will feature dual-fuel propulsion enabling them to burn LNG and conventional bunker fuel.

**dual-fuel ship** *(nav arch, marine eng)* brod s pogonom na dvije vrste goriva (naftu i ukapljeni prirodni plin), brod s dvovrsnim pogonom, brod s alternativnim pogonom

**dual-fuel technology** tehnologija pogona na dvije vrste goriva: Both the main and at least one auxiliary engine will use dual-fuel technology, providing cleanly generated electricity for the ship’s 300 reefer containers.

**dual purpose crew** *(mar law)* posada dvojne namjene (za rad na palubi i u stroju): Ratings arc trained to perform the duties of the dual and general purpose crew.

**dual watch key** *(=D/W)* *(comm)* tipka za uključivanje / isključivanje rada na radnom kanalu i istovremenog praćenja kanala 16

**duck boat** *(=duck)* *(navy)* a wheeled amphibious vehicle amfibija

**vozilo/brodica**

**duct** *(n)* 1 *(nav arch)* kanal: The connection between the duct and containers is made by couplings which are pneumatically controlled. • Semicircular duct and Rudder bulb Semicircular duct and rudder bulb are fitted in front and back of the propellers respectively. MaritimeReporter-2015-12; 2 *(marine eng)* vod, cijev: The charge air duct, for example, is integrated in the crankcase.; 3 *(electr)* kanal za električni kabel

**ductile** *(adj)* *(marine eng)* rastezljiv, pružljiv: The monobloc crankcase is made of ductile cast iron, the side walls extending far down below the crankshaft centreline. Casing material was changed from grey (laminar) cast iron to ductile (nodular) cast iron and the turbine enclosed in a protective shroud.

**ductility** *(n)* 1 *(marine eng)* That property of a material which permits its being drawn out into a thread of wire. (https://www.history.navy.mil/) pružljivost, rastezljivost: Factors to be considered when designing cylinder liners include material composition, strength, ductility, heat transfer coefficient and wear properties.; 2 *vodljivost*

**ducting** *(n)* 1 *(electr)* vođenje (signala); 2 *(electr, navig)* An extreme form of super-refraction is known as ducting, when the radar beam is conducted for long periods within a duct formed by air layers. vođenje (radarskog signala) zračnim kanalom
DUCT KEEL (nav arch) Longitudinal passage within the double bottom, usually on the centreline, extending from the collision bulkhead to the engine room, through which ballast, bilge, fuel and hydraulic piping may be conducted and providing access to double-bottom spaces.

DUCT KEEL
(n)(nav arch) Longitudinal passage within the double bottom, usually on the centreline, extending from the collision bulkhead to the engine room, through which ballast, bilge, fuel and hydraulic piping may be conducted and providing access to double-bottom spaces.

DUCT KEEL
(n)(nav arch) Longitudinal passage within the double bottom, usually on the centreline, extending from the collision bulkhead to the engine room, through which ballast, bilge, fuel and hydraulic piping may be conducted and providing access to double-bottom spaces.

DUE /dju:/ be ~ koji stiže na naplatu, naplativ: Acknowledge the receipt of your letter of the 18th instant, enclosing the bill of lading in connection with the consignment on board Jawahar, which is due on 23rd February - 20—.... seamen who are due wages pomorci kojima dospijeva isplata plaća: pomorci kojima trebaju dobiti plaću 1 biti obvezan / dužan; 2 predviden, planiran

DUE CARE /dju:/ (n) (navig) dužan oprez, dužna briga: Masters are advised that navigating without due care and attention, or navigating in a manner liable to injure or endanger persons, other vessels or structures Warn personnel to exercise due care while moving around the vessel especially in adverse sea conditions.<source>MARS reports_1992-2016</source> Due care and diligence must always precede the commencement of any ballast operation.<source>MARS reports_1992-2016</source>

DUE DATE (n) 1 (mar law, shipping econ) dogovoreni nadnevak, ugovoreni datum: The terms will be set out in a charter-party and, if all goes well, the ship arrives on the due date, loads the cargo, transports it to Tilbury, discharges and the transaction is complete. BIA pointed out that before the due date, few vessels will be using the more expensive refined fuels.<source>MaritimeProfessional-2017-01</source> It is however still the responsibility of each manager to ensure that his vessels are compliant within the due date by presenting the Document of Approval** or, alternatively, the relevant waiver obtained from the respective flag Administration.<source>NEW REQUIREMENTS FOR STABILITY INSTRUMENTS ON TANKERS_tcm8-24104</source>; 2 (shipping econ) dan
dospijevanja (plaćanja), dospijeće: In the event of payment after the due date of any outstanding sums the Manager shall be entitled to charge interest at the rate stated in Box 13.

due diligence /dju: `dilidʒəns/ (n) (shipping econ, navig, marine eng) proper attention or care; the degree of care required in a given situation dužna pažnja: Due diligence must be exercised, particularly when calling at an unfamiliar port or when operating within tight parameters. Shipping Lines must exercise due diligence to make the container equipment is seaworthy by regularly servicing its containers. https://shippingandfreightresource.com/ act with ~ poslovati pažnjom dobrog privrednika, raditi pažnjom dobrog privrednika (zaposlenika, poslodavca itd.), exercise ~ postupati i djelovati dužnom pažnjom dobrog stručnjaka: PPE matrix must be worn at all times. If gloves are worn out, they must be replaced; 4. Personnel should take care while being involved in any work. Due diligence should be exercised. 5. Wheel keys should be fitted with non-hazardous hanging/securing arrangements. 2 Due diligence means taking all reasonable precautions to see that the vessel is fit for the voyage contemplated. The carrier is not obliged to give an absolute guarantee of seamanship dužna
due diligence: Due diligence and planning should be utilised when attempting to
lift a heavy or bulky object and it is not recommended to carry or manhandle heavy object. Under English
law, if the latent defect is not discoverable by due diligence, the carrier is apparently not liable even if he
failed to exercise due diligence in attempting to discover latent defects.

due diligence (n) (shipping econ, mar law) comprehensive appraisal of a business undertaken by
a prospective buyer, especially to establish its assets and liabilities and evaluate its commercial
potential; an investigation or audit of a potential investment ocjena / revizija

potencijalnog kupca ili investitora o poslovanju odnosno preuzimanju
tvrtke (na temelju temeljitog snimanja i ispitivanja tvrtke), dubinska
procjena / revizija (tvrtke), dubinska analiza poslovanja (tvrtke),
dubinsko snimanje poslovanja (tvrtke): Due diligence serves to confirm all material
facts (e.g. balance sheets etc.) in regards to a sale It’s important to do your research; due diligence and
understanding the financials of the carriers is the key. <source>MaritimeProfessional-2016-11</source></corpus>

Due diligence runs an average of about 60 days, during which time the buyer and their team of advisors closely examine the
business, legal and accounting details o MaritimeProfessional-2015-03 Due diligence runs an average of
about 60 days, during which time the buyer and their team of advisors closely examine the business, legal
and accounting details o MaritimeProfessional-2015-03</source></sentence></tlCorpus>

Ship owners and operators who plan ahead for their retrofits, doing the due diligence to fit the right system
to their vessels, and who snag guarantees of

U. <source>MaritimeReporter-2015-01</source></source></sentence></tlCorpus> These provide that when the
carrier, who could be the shipowner or a charterer, exercises due diligence before and at the beginning of
the voyage to make the ship seaworthy ... Due to an additional interest voiced by potential investors the
management decided to extend a due diligence process until Jan. 24. Originally, the due diligence process
was due to be completed on Jan. 17. www.gCaptain.com enter a period of ~ ući u postupak

dubinske analize: ...terms of total value and especially deal structure, so the deal team negotiates
with the top few prospective buyers and eventually enters a period of “due diligence” with the chosen
buyer. <source>MaritimeProfessional-2015-03</source></source></sentence></tlCorpus>

due investigation (n) (mar law) propisna istraga, pravilna istraga: After due
investigation, which included a rigorous testing and calibration of the equipment, it was determined that,
in all probability one or more of the non return valves of the cargo compressors had failed in service

dues /djuːz/ (shipping econ) pristojbe, naknade, dadžbine, takse; What dues must be
paid in order to clear the ship outwards? port ~ lučke pristojbe, canal ~ pristojbe za
korištenja plovnog puta / kanala, dock ~ 1 pristojbe za korištenje ustava
/ brana dokovske luke; 2 = port dues lučke pristojbe: The buyer will be responsible
for the charges involved in getting the goods off the ship to his warehouse, such as lighterage, dock dues
and custom duties., berth ~ pristojbe za korištenje veza, vezarina, harbour ~
lučke pristojbe: The officer issuing the clearance must also satisfy himself that harbour and light
dues have been paid, and that emigration and port health regulations have been carried out., light ~
pristojbe za korištenje plovnih putova / oznaka: Where are the inward light dues
paid? The master or the agent must go to the Custom House and first pay the outward light dues unless
these dues have already been fully paid for the current financial year., to levy the ~ nametnuti /
propisati / zahtijevati naplatu pristojba, to pay the ~ platiti pristojbe, to
charge ~ obračunati pristojbe, canal ~ kanalske pristojbe: naknade za plovidbu
kanalom ... the charterer directs the commercial operations of the vessel and pays all voyage expenses (i.e.
bunkers, port charges and canal dues) and cargo handling costs. ~ levied on nametnute
naknade / pristojbe: Taxes/dues levied on the cargo shall be paid by charterers and taxes/dues
levied on the vessel shall be paid by owners. naknade / pristojbe koje se nameću / obračunavaju na
due time (n) (mar law) = maturity date dospjelost: The master is to give notice in due time
- two hours before the actual sailing time at the late control by the Maritime Police, crew members and
passengers are no longer allowed to go ashore. The potential of AIS as an anti collision device is
recognised and AIS may be recommended as such a device in due time. The potential of AIS as an anti
collision device is recognised and AIS may be recommended as such a device in due time.
<source>MAIBInvReport-28_2015</source></sentence></tlCorpus>
due to 1 zbog, uslijed: The Pilot Boat would come on the starboard side of A due to the fresh
southerly wind and sea. Due mainly to moisture, rain, fresh or salt water, and sweat (and the presence of
oxygen) rust is a corrosion producing red discolouration ... The auxiliary engine abnormal condition
alarm was not activated, due to drive gear overheating; The crew was unable to determine the integrity of
all parts to be reused during the last routine overhaul of the pump.; 2 planiran, biti dužan
(nešto učiniti), predviden: the ship is ~ leave
duly /djuːli/ 1 valjano, kako treba, prema propisima, na propisan način: In
consideration of this service, to be duly performed, the Master agrees to pay the undersigned seafarers the
wages expressed herein and/or set forth in supplemental provisions and/or Extracts can be published
without specific permission providing the source is duly acknowledged. In order that we may effect
customs clearance and despatch, we would feel obliged if you would let us have the Bill of lading duly
endorsed together with a letter addressed to customs & Excise authorities, appointing us to act on your
behalf.; 2 pravovremeno: The electrician duly arrived in the engine room and the two men
discussed the problem, consulted the boiler instruction manual and ...
dump /dʌmp/ (v) bacati (teret) u more: The officer was sentenced for ordering the crew
members to dump overboard several barrels containing some hydraulic oil. use of the quantities of water
involved and the chemi
cal treatment, it is not economically viable or environmentally responsible to dump
the treated water overboard each time. A large cargo vessel that was responsible for dumping tons of oily
waste into the Pacific Ocean last year.
dump barge (n) (nav arch) plovni objekt bez vlastitoga poriva za prijevoz i iskrcavanje kamena
prevršiljaka
dumping /ˈdʌmpɪŋ/ (n) 1. any deliberate disposal of wastes or other matter from vessels,
aircraft, platforms or other man-made structures at sea; 2. any deliberate disposal of vessels, aircraft,
platforms or other man-made structures at sea; potapanje (u međunar. pravu mora),
namjerno potapanje stvari u more: Convention on the prevention of marine pollution by
dumping of wastes and other matter 1972 ~ ground morsko područje za potapanje /
odlaganje otpisanih brodova: After a detailed investigation, it was realised that the vessel
ran aground in an uncharted dumping ground, where local barges had been discharging mud, sand
and/or other unknown spoil; No information relating to this activity was circulated.; 2 bacanje
stvari u more, ispuštanje (onečišćene vode, nafte, ulja) u more: Surely, there is some convention which precludes dumping waste of this sort at sea! Dumping oil-contaminated
water overboard is almost always followed by an attempt to cover the illegal dumping up by failing to
record these discharges in the ship’s oil record book illegal ~ nelegalno bacanje stvari u
more, nelegalno izlijevanje u more, protuzakonito ispuštanje stvari u
more: this shipping company has been sentenced to pay a fine of $1 million for failing to maintain an
accurate oil record book and false statements concerning the illegal dumping of oil-contaminated bilge
**dune** *(n) (geogr)* dina: The island’s low sloping *dunes* provide little to no radar return, https://gcaptain.com/

**dunnage** *(n) (cargo handling)* Any materials used to block or brace cargo to prevent its motion, chafing, or damage and to facilitate its handling.

https://officerofthewatch.com/tools/maritime-dictionary/; material (usually lumber) used to secure cargo in containers and ships’ holds in order to prevent shifting and resulting damage during the voyage (to protect goods and their packing from moisture, contamination or mechanical damage and to prevent shifting of cargo); materials of various types, often timber of matting, placed among the cargo for separation, and hence protection from damage, for ventilation and, in the case of certain cargoes, to provide space in which the tynes of a fork lift truck may be inserted.

https://www.logisticsglossary.com/term/dunnage/; izolacija i sredstva za izolaciju tereta od štetnog utjecaja oplate i strukturnih elemenata broda, od izvora topline na brodu, te od drugih tereta materijal za podlaganje (tereta), daske za podlaganje, razdjelne daske, separacijski materijal, *dunid, dunić, duned*: Any *dunnage* must be inspected and unusable *dunnage* is to be disposed off. *Dunnage* is the material used around cargo to prevent breakage or shifting, normally provided by shipper. Its weight is included in the rating. *Dunnage* should not be disturbed before the surveyor sights it. The consignee shall pay the cost of removing the *dunnage* after discharge of the cargo. When necessary, *dunnage* such as *wood planks*, *plastic foam* and *paper boards* should be used to protect against mechanical damage, such as the damage caused by the container corner post, or corrugation of the container wall or by the uneven surfaces of the load next to it. *inflatable ~ pneumatski materijal za podlaganje tereta, pneumatske vreće, vreće za napuhavanje (vrsta *dunida)*, ~ bags vreće za podlaganje / zaštitu tereta, ~ laid postavljen / umetnut materijal za podlaganje, lay ~ postaviti / umetnuti materijal za podlaganje: The Charterers shall provide and lay all *dunnage* material as required for the as required for the proper stowage and protection of the cargo on board., remove ~ ukloniti materijal za podlaganje, floor ~ podni materijal za podlaganje, podne daske za podlaganje, ~ boards daske za podlaganje: Before commencing to load scrap iron, the lower strakes of spar ceiling should be well protected from damage by covering with *dunnage boards*, ..., *permanent collapsible ~ (PCD's) trajne sklopive daske za podlaganje, interlayer ~ materijal za međusobno separiranje tereta, top ~ vršni materijal za podlaganje, air filled ~ separacijski materijal na napuhavanje zrakom, improper ~ neispravan materijal za podlaganje, neodgovarajući materijal za podlaganje: A large proportion of cargo claims arise from lack of or improper *dunnage*, ~ material sredstvo za podlaganje tereta, materijal za podlaganje tereta, remove the ~ ukloniti materijal za podlaganje: The Charterers shall be responsible for and pay the cost of *removing their dunnage* after discharge of the cargo., place ~ umetnuti *duned*: Place *dunnage* between the tiers., timber ~ drveni materijal za podlaganje tereta: *Timber dunnage* from temperature regions may harbour eggs or larvae, so that some countries have developed strict safeguard, wet ~ mokri materijal za podlaganje tereta: *Wet dunnage* may cause damage to the
dunnaging (v) (cargo) podlaganje tereta: When dunnaging under a deck cargo of timber, use rough 25 mm boards placed diagonally 750 mm to 1,000 mm apart, so as to distribute the weight evenly over the beams, When dunnaging use boards placed 750 to 1000 mm apart so as to distribute the weight evenly over the beams.

duplexer (n) (electr) antenska skrennica
duplicate tank (n) (marine eng) dvostruki tank, udvostručeni rezervoar
dusky grouper (n) (fishing) kirnja
dusky serranus (n) (fishing) kirnja
dust storm (n) (meteorol) an area where high surface winds have picked up loose dust, reducing visibility to less than one : half mile pješčana oluja
dutch bollard (n) (nav arch) bitva u oplati broda (za bočno tegljenje)
Dutchman's log (n) (navig) a buoyant object thrown overboard to determine the speed of a vessel plavčica (za mjerenje brzine broda): Dutchman's log.
dutiable (adj) (mar law) koji podliježe carini (o teretu)
duty (n) 1 služba look-out ~ služba motrenja, služba opažanja; 2 posao:
They remained fit for duty. auxiliary ~ pomoćna služba, pomoćni posao; 3 (mar law, seamanship) dužnost: It is the duty of the watchkeeping engineers to fill out and sign the log book at the end of every watch. be on ~ 1 biti na dužnosti, biti u službi, biti dežuran: The master had been on duty for 19 of the previous 24 hours.; 2 biti u straži, biti na straži, biti u gvardiji, off ~ izvan službe, slobodan, koji nije u službi: Make the best of off duty periods for resting, should not drink alcohol and try to eat good nutritious food regularly. 10 hours of rest may be broken into no more than two periods, one of which shall consist of at least 6 (six) consecutive hours off duty., assign the ~ dodijeliti dužnost / zadatak / posao: The OOW was joined by the deck cadet who was assigned lookout duties. All persons who are assigned duty as officer in charge of a watch or as a rating forming part of a watch shall be provided a minimum of ten (10) hours of rest in every 24-hour period., take over the ~ preuzeti dužnost, have the ~ to biti dužan, biti obvezan, imati dužnost: As per rule 13, the overtaking vessel had the duty to keep clear, even after we made our alteration to port. Port state control already has the duty to investigate cases of unsafe navigation. Bridge officers have a duty to support the pilot and to monitor his actions.; 4 namjena: Engines for genset duty (designated S20U) were offered with a higher rating to cover power demands up to 1575 kW at 1000 rev/min (Figure 26. engine for genset ~ stroj namijenjen za pokretanje generatora
duty² (n) a government tax on imported merchandise carinska pristojba, carina, iznos
Carine pay ~ platiti carinu

duty AB (n) (navig, mar law) kormilar u straži, stariji mornar u straži: At 19:00, in anticipation of a manoeuvre to avoid collision, the third officer placed the duty AB on manual steering. At about 0235, the duty AB detected a small fire in the open hold.

duty deck officer (n) (navig, mar law) dežurni časnik palube, časnik palube u straži: The duty deck officer flashed the Aldis lamp five times in the direction of the overtaking ship – but no response.

duty engineer (n) (marine eng) dežurni časnik stroja: The duty engineer immediately contacted the second officer and told him to stop the ballast pump and to close the ballast valves. on-call ~ časnik straže u stroju na poziv: ... one of the oilers reported to the fitter that there had been a lubricating oil spill in the engine room and this was immediately reported to the on-call duty engineer.

duty free (n) (shipping econ) osloboden carine

duty officer (n) 1 (mar law) časnik straże, dežurni časnik: On chemical tankers, an additional duty officer, who can assist the chief officer in tank cleaning operations, is a must. ; 2 dežurni časnik (službe VTS, Obalne straže itd.): The ship’s movements were also seen on radar by the duty Dover Coastguard watch officer.

duty roster (n) (hum_resources) raspored dužnosti, popis dužnosti: He held a valid certificate and kept watches as DPC as part of his duty roster. www.gov.uk/maib

dwell (n) (marine eng) The angle that the valve remains in the fully open position.

kratak zastoj (ventila, stroja, uređaja)

dwell time (n) (shipping econ, logist, mar law) Dwell time is the amount of time which cargo or ships, spend within a port. It is a key indicator of how efficiently a port is operating, how quickly cargo is flowing through its terminals and how long a ship is spending in port. The longer cargo is stuck in port, the more it costs shippers. (https://www.marinetraffic.com/blog/no-time-to-dwell/); vrijeme čekanja tereta u luci prije njegova ukrcaja na brod ili izlaska iz luke kopnenim ili rječnim putem; vrijeme čekanja broda u luci na iskrcaj ili ukrcaj tereta vrijeme čekanja (tereta / broda) u luci, indeks vremena čekanja tereta na ukrcaj na brod u luci: Typically, dwell time is the time taken for exports inside terminal gates to be loaded onto a ship and imports onto a truck or train. In addition to easing terminal congestion, shorter dwell times enable cargo owners to save on storage charges applied by port authorities. Dwell time doesn’t just impact shippers, but ship operators too. Container vessels operate on schedules and a delay in any particular port is felt across the service. The shorter the dwell time, the lower the vessel and marine terminal operating costs. https://www.marinetraffic.com/ Customs are working to reduce container dwell time at ports. https://www.hellenicshippingnews.com/

dye marker / /dai/ (n) (comm, navig) signal u boji

dyke / (sea-dike) (n) (ports) An artificial earthen wall, often meant to prevent flooding of the hinterland.Like revetments but without, or hardly any, beach in front of the structure.
dynamical stability arm curve /ˌdɑɪ mænikˈəl/ (n) (nav arch) krivulja poluga dinamičke stabilnosti
dynamic load /ˈdænɪmɪk/ (n) (nav arch) dinamičko naprezanje: The final tightening of wire falls must be always done manually and only efficient sea lashings must bear the dynamic loads at sea.
dynamic positioning (=DP) (n) (navig) a computer-controlled system to automatically maintain a vessel's position and heading by using its own propellers and thrusters. Position reference sensors, combined with wind sensors, motion sensors and gyrocompasses, provide information to the computer pertaining to the vessel's position and the magnitude and direction of environmental forces affecting its position (Wiki) dinamičko pozicioniranje: Examples of vessel types that employ DP include ships and semi-submersible Mobile Offshore Drilling Units (MODU) Since the development of Dynamic Positioning which incorporates the usage of SONAR, Radar and other comprehensive detection, ships have started finding it easy to maintain their pace and steady their being in the deeper parts of the oceanic and sea waters. The installation of an upgraded dynamic positioning system (DPS) fitted to a platform supply vessel (PSV), while alongside a quay, had proceeded well. manual ~ ručno dinamičko pozicioniranje: Manual DP was immediately selected (with yaw control), full astern thrust was applied and the vessel’s movement stopped.
dynamometer /ˈdaɪəməmətər/ (n) (marine eng) a device for measuring engine torque and horsepower.

eagle flies (n) (seamanship, figurative) dan isplate plaća

eagle ray (n) (fishing) golub

earmuff /ˈɛrməf/ (n) (safety) prigušivač za uši

earn /ɜːn/ (v) zaraditi: To earn lump sum freight, either the ship must complete the voyage, or the cargo must be transhipped and delivered by the ship to ~ freight (shipping econ) zaraditi vozarinu, ostvariti pravo na vozarinu

earnings /ˈɜːnɪŋz/ (n) (financ) zarada: The cost of repairs and loss of earnings was about L4 million. If the Master and a seafarer agree, a portion of such seafarer's earnings may be allotted to such seafarer's spouse, children, grandchildren, parents, grandparents, brothers or sisters, or to a bank account
Ear protectors should be worn when the noise level is more than 80 dB.

Earth (n) (electr) zemlja, masa: About 10 minutes later, the chief engineer noticed the earth fault alarm had cleared. At 0215, the chief and third engineers, who were in the engine control room (ECR), noticed an electrical earth on the vessel’s calorifier sited in the bow thruster compartment. The liners had been found to have suffered severe electrolytic corrosion as a result of poorly maintained electrical equipment and a non-attached earth strap to the main engine.

Ease 1 /iːz/ (v) (seamanship, navig) to allow the helm to turn back after being put hard over

Ease the wheel! (v) (navig, seamanship) Smanji (kut kormila)!

Ease off (Ξ ease) (v) (seamanship) popustiti (konop, lanac, škotu, škotinu)

Ease the sail out (v) (boating/yachting) popustiti jedro, laškat

Ease the sheet (v) (boating/yachting) ANTONYM sheet in popustiti uzdu jedra / floka (škotu / škotinu)

Easeing wire (n) (seamanship) čelično uže za spuštanje sidrenog lanca

Eastbound /ˈiːstˌbaʊnd/ (adj, adv) (navig) ANTONYM westbound prema istoku, u smjeru istoka: On my last tour of duty I was towing a crane barge from Singapore using the East bound lane of the TSS. We were a loaded VLCC, eastbound along a narrow and busy sea lane. ... the inshore traffic zone is effectively closed to larger vessels proceeding eastbound from Tanjung Pelepas and Singapore.

easterlies (n) (meteorol) istočni vjetar, istočnjak

easterly (n) (meteorol) istočnjak ~ wind istočni vjetar

easterly 2 (adj, adv) 1 (navig) koji se kreće prema isotku, prema istoku ~ course
na istočnom kursu, u kursu prema istoku: VTIS East was informed about close 
quarter situation after own vessel was clear and back on an easterly course, ~ heading istočni 
smjer: The ship made steady progress on an easterly heading into strong north-easterly winds and heavy swells. The ship was now on a south easterly heading, and as she continued to be set to the north by wind and swell.; 2 (meteorol) istočni (vjetar), s istoka north~ winds sjeveroistočni 
vjetar, sjeveroistočnjak, vjetar iz sjeveroistoka: The ship made steady progress on an easterly heading into strong north-easterly winds and heavy swells. ~ winds istočnjak, vjetar 
s istoka: Overnight the ship experienced easterly winds in excess of 90 knots, and a swell height of more than 5 metres.; 3 (oceanogr) struja prema istoku: The tidal stream was easterly about 0.9 knots ~ strum struja prema istoku: He was aware that the predicted tidal stream was easterly at 3 knots, but considered that his intended course would result in his ship passing clear.

Easy! (seamanship) Carefully (watch what you’re doing) Polako!, Lagano!

ebb /ɛb/ (n) (oceanogr) a falling tide; the period when the tidal current is flowing from the land; 
outgoing tidal current draining a body of water spuštati se (o moru, mijenama), 
opadati, Italian: flusso (di marea); marea calante: the tide was ebbing at about 0.3 knots towards the northeast The tide was on the ebb. Unknown to them, the increasing ebb caused the yacht’s anchor to drag.

ebb (n) 1 (oceanogr) oseka: Unknown to them, the increasing ebb caused the yacht’s anchor to 
drag.; 2 (oceanogr) struja uslijed oseke: Unknown to them, the increasing ebb caused the 
yacht’s anchor to drag.

ebb current (n) (oceanogr) struja oseke, struja uslijed oseke: Due to the ebb current and her loss of manoeuvrability, the ship ran aground outside the fairway level with buoy 30 after the collision.

ebb tide /ɛb/ (n) (oceanogr) a state of low water; period of time during which the tide is falling 
oseka: The ebb tide was causing the ship to set to starboard, and because of her slow speed and poor manoeuvrability she did not return to her planned track. The vessel slipped from her berth on the ebb tide and made her way along the short, straight, narrow channel to open water.

e-bill of lading (n) (mar law, shipping econ) = electronic bill of lading 
elektronička teretnica

EBL /iɛkˈtronik/; /iˈlektroni/ (=electronic bearing line) (n) (navig) elektroničko 
smjeralo: To take the bearing of an object simply adjust the EBL until it cuts through the centre of the object and read off the bearing from the EBL readout on the display. Modern radars incorporate an improvement on the EBL by using a electronic cursor. The cursor is usually a cross which can be moved around the screen by using a trackball or other pointing device. ~ readout očitanje putem 
elektroničkog smjerala, ~ reference očitanje putem elektroničkog 
smjerala, offset the ~ prebacivanje smjeranja na drugu točku / cilj (na 
radarском pokazivaču)

ebony /ˈebəni/ (n) (nav arch) ebanovina

EC (=Electronic Chart) (n) (navig) elektronička karta 
ECA (=Emission Control Areas) (n) (marine eng) Svjetska područja kontrole 
ispuštanja (sumpornih oksida, dušičnih oksida itd.): Since January 1st, 2015, 
only vessels with a sulphur content of the fuel lower than 0.1% are allowed to sail through Emission 
Control Areas (ECAs). https://www.embassy-freight.be
ECDIS (=Electronic Chart Display Information System) (n) (navig) ECDIS with adequate back-up arrangements may be accepted as complying with the up-to-date charts required by regulations V/19 and V/27 of the 1974 SOLAS Convention, as amended. - (IMO 232(82) Standards for electronic chart display and information system (ECDIS) sustav pomorskih karata s elektroničkim pokazačem, informacijski sustav i prikaz elektroničkih karata, elektronički kartografski sustav, sustav ECDIS: The intended route had been prepared using the ship's electronic chart display and information system (ECDIS) and the OOW selected the scale on the ECDIS display that closely aligned with the 12 nm range scale. The intended route had been prepared using the ship's electronic chart display and information system (ECDIS) and the OOW selected the scale on the ECDIS display that closely aligned with the 12 nm range scale. ECDIS was the vessel’s primary means of navigation and the units were networked with the ship’s radars and Automatic Identification System (AIS), www.gov.uk/maib The transition to Electronic Chart Display and Information System (ECDIS) set for 2025 is already underway, but this does not mean the end of backup paper charts, and hopefully not the end of the navigational skills associated with traditional pilotage. https://www.practical-sailor.com/ ECDIS chart elektronička karta

ECDIS display /ɛkdiːs/ (n) (navig) ECDIS is a digital navigational chart system which can be used instead of paper charts, making the navigator's workload easier with its automatic capabilities such as route planning, route monitoring, automatic ETA computation and electronic navigation chart updating. The International Maritime Organisation (IMO) made the carriage of ECDIS mandatory under Safety of Life at Sea (SOLAS) Chapter V (Safety of Navigation) for most large vessels of 3000 GT or more, on 1 July 2018. (https://www.marineelectronics.com/news/ecdis-maritime-accident-255821) prikaz elektroničke karte: The OOW looked at the ECDIS display and reported to the master that there was no cause for concern. A few minutes later, after having been contacted by VTS, the OOW zoomed in on the ECDIS display and realised that the vessel was aground. At 0240, the 3/O noticed that the ship's speed shown on the ECDIS display had reduced to 7.4kts. Using such tools, ECDIS can help to establish the best time-saving route planning within pre-defined 'safety corridors' although .... a one-to-one check of the entire route from berth to berth must still be carried out. https://www.marineelectronics.com/news/ecdis-maritime-accident-255821 The ship was equipped with an ECDIS, though it was not in use at the time of the accident as its chart with an ECDIS, though it was not in use at the time of the accident as its chart licence expired www.gov.uk/maib zoom in the ~ povećavati prikaz na ECDIS-u, zumirati na prikazu elektroničke karte, zumirati na displeju ECDIS-a: The 2/O had zoomed in the ECDIS display and changed the chart view from 'standard' to 'all', change the view from 'standard' to 'all' promijeniti prikaz karte sa "standardnog prikaza" (prema IMO-u) na "sve prikaze": The 2/O changed the chart view from 'standard' to 'all'; standard ~ Standard Display is the display mode intended to be used as a minimum during route planning and route monitoring. (https://puc.overheid.nl/ni/doc/PUC_2574_14/1/) standardni prikaz na ECDIS karti, 'all' ~ prikaz svega na karti: The 2/O zoomed in the ECDIS display and changed the chart view from 'standard' to 'all', which showed more detailed depth information, ~ base: 1 Display base to be permanently shown on the ECDIS display, consisting of: temeljni podaci na ECDIS-u
ECDIS - Standards for electronic chart display and information system  

ECDIS - Standards for electronic chart display and information system  

(navig) standardi za prikaz na sustavu ECDIS  
e-chart symbols (Navig) oznake na elektroničkoj pomorskoj karti

The reflection of a radar signal from an object; the display of the reflected signal on the radar screen is called an echo. (navig) The target ship's echo appeared on the radar at 3 miles. Multiple echoes can occur when a strong, short-range echo is received from a target. The target ship's echo appeared at 3 miles. Multiple echoes can occur when a strong, short-range echo is received from a target.

- Strength: jačina jeke
- False: lažna jeka
- Unwanted: neželjena jeka
- Sea: smetnje od mora i valova
- Indirect: indirektna jeka

Indirect echoes may be returned from either a passing ship or from a reflecting surface on your own ship, such as a stack. ~ enhancement pojačavanje odraza / jeke, ~ stretch izdužavanje odraza, pojačavanje odraza, ~ expansion povećanje odraza, ~ strength jačina odraza: The echo strength depends on the peak power of the transmitted pulse and the characteristics of the target. , weak ~ slab odraza: Remember! The weakest echoes, or those not seen at all may be the most dangerous. , displayed ~ (on the radar screen) jeka prikazana na radarskom zaslonu: At 1219:43, with the VRM touching the displayed echo of the corner of the quay.

echosounder (=echo-sounder) (n) (navig) An instrument which transmits sound through the water and receives reflected signals from the bottom, and which, by measuring the elapsed time, computes and displays the depth. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary)

ultrazvučni dubinomjer check ~ provjeriti zvučni dubinomjer, hydroacoustic ~ 1 ultrazvučni dubinomjer; 2 eholot, switch on / off the ~ uključiti / isključiti ultrazvučni dubinomjer: The vessel’s electronic navigation equipment were functioning properly but the echo sounder had been switched off shortly after leaving the port

echo stretch kontrola na radaru za izduživanje manjih odraza / jeka, kontrola za pojačavanje slabijih odraza / jeka na radaru: The object of echo stretch or expansion is to make small targets look bigger.

echo trail (n) Echo trails are the afterglow of target echoes that represent their movements relative to own ship. They are useful for monitoring or zoom or shift is activated. trag cilja na radarskom ekranu, zadržana slika na radarskom zaslonu (nakon promjene područja): Echo trails are useful for assessing target movement and collision possibility

eclipse /ˈklɪps/ (n) (navig) an interval of darkness between appearances of a light tama, pomrčina, ekipsa, period tame (plovidbene oznake)

eco-friendly ship (=eco-ship) (n) (environ, marine eng, nav arch) ekološki prihvatljiv brod: the use of resources and energy to transport people and goods by ship and specifically concerns the reduction in such resources and energy in order to preserve the global environment from GHGs (greenhouse gas) and environmental pollutants generated by ships. (https://www.sciencedirect.com/science/article/pii/S2092521217300652)

e-commerce (n) (safety) elektronička trgovina: The e-commerce players will decide the future of e-shipping world of the future.

economic speed (n) (shipping econ, navig) the speed of a vessel producing the best possible financial results for the owners, considering the following: 1. The prices of bunkers in the ports en route. 2. Fuel consumption of the vessel at various speeds. 3. Daily operating costs. 4. The net freight per ton of cargo.5. Operating profit per day) http://www.tkmglobal.net/chartering_E.HTM ekonomična
**economiser** /ˈiːkənəˌmeɪza/ (n) (marine eng) a device that uses the waste heat from a boiler flue to preheat the feed water. **zagrijač napojne vode, ekonomajzer**: At the same time, the exhaust temperature was not reduced too low, so retaining the potential for waste heat recovery from an **economizer**.

**economy of scale** (n) (shipping econ) a condition/theory of economy which encourages the production of larger volumes of a commodity to reduce its unit cost by distributing fixed costs over a greater quantity. **ekonomija velikih brojeva, ekonomija razmjera**: The flexibility, critical mass, **economies of scale** and the availability of manpower for the ships are some of the factors that are considered important in making the “outsourcing” or “inhouse” Economics of scale will tend to give figures higher than the flat rate of the Worldscale for smaller vessels and lower than this for larger vessels.

**eddy** /ˈɛdɪ/ (n) (navig) A current of water moving against the main flow. Often causes small whirlpools. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) **vrtožna struja, virovi**: I went into the chartroom and had a look at the chart - and there were numerous symbols of **eddies** in the vicinity of our position. This is particularly so at night, when the presence of turbulent water and **eddies** in the vicinity of obstructions such as bridge buttresses might not be readily apparent until their effects are experienced.

**eddy current** /ˈɛdɪ/ (n) (electr) **vrtožna struja, Foucaltova struja**

**eddy water** /ˈɛdɪ/ (n) (nav arch) **povratna voda (od propelera)**

**EDI** (n) (shipping econ) an interactive electronic system that enables a supplier and a customer to communicate easily **električka razmjena podataka, sustav EDI**: The customs broker sends his import or export declaration via the customs web application or an **EDI message**.

**edible cockle** (n) **kapica srčanka**

**edible oil** /ˈɛdɪbəl/ (n) (cargo) **jestivo ulje**

**educational qualification** školovanje, školska kvalifikacija name of institute / college naziv školske ustanove / visoke škole

**educt** /ɪˈdʌkt/ (v) separate a substance from another substance without chemical change; separirati edukcijom **odvoditi, odvajati**

**educator** (n) (marine eng) In most turbo-charged engines, crankcase fumes are not removed by direct suction as in the normally aspirated engines. Instead a venturi principle is used. This is commonly called an **educator**. **eduktor, ejektor**: A certain amount of coking takes place in the stack around the rim of the eductor tube where more oxygen is available. Blocked Sea Suction Prevented Engine Room Flood Vessel’s **educator system valve**. He found that the starboard main engine **bilge eductor system valve**, which was out of sight, behind the engine, had completely sheared off from the sea water suction pipe. **cargo ~ eduktor tereta (nafte), ejektor tereta (nafte)**
eductor room /ɪˌdʌktər/ (marine eng, cargo handling) a pump room to transfer liquid cargo
prostorija eduktora, prostorija / tank za prijenos tekućeg tereta
eel /ɪl/ (n) (fishing) jeglulja
e-ferry (n) trajekt na električni pogon, električni trajekt: The e-ferry is powered by a 4.3MWh battery – the largest ever in a boat www.NauticExpo.com Over one year, the e-ferry will prevent the release into the atmosphere of 2,000 tons of CO2, 42 tons of NOx, 2.5 tons of particulates and 1.4 tons of SO2 …
e-ferry route (n) (shipping econ) linija električnih trajekata: The maiden voyage was between the ports of Søby and Fynshav, on the islands of Ærø and Als in southern Denmark, a trip that is seven times longer than any other e-ferry route.
effect /ɪˈfɛkt/ (n) 1 (mar law) učinak, djelovanje, zakonska snaga, posljedica, efekt with ~ from ... until ... počevši od ... do ..., s punovažnošću od ... do ..., have ~ on utjecati na, djelovati na, imati učin na: Although the engine telegraph had been set from full ahead manoeuvring to half ahead, this had no effect on the engine speed ..., adverse ~ on nepovoljan učin na, negativan utjecaj na: Such mixing may have an adverse effect on the running condition., immediate ~ neposredni učin: This had an immediate effect as he then made a large alteration to starboard and passed clear., full force and ~ punopravni učin: This Agreement is applicable and of full force and effect whether or not the Owners have entered into individual contracts of employment with any Employee., side ~ popratno djelovanje, popratna posljedica, take ~ (navig, marine eng) djelovati, početi djelovati: Astern movements were given in time to stop the vessel, but the movement failed to take effect., take ~ (mar law) stupiti na snagu (propis, zakon, pravilo, norma, ugovor itd.), početi važiti: Orders at Japanese shipyards rocketed 186% in October as shipowners rushed to build ships that will comply with the International Maritime Organization's (IMO's) new standards, which will take effect from July 2016., to come into ~ stupiti na snagu: This Agreement shall come into effect on...................................................and shall continue until................................., sealing ~ brtveni učin, učin brtljenja: To assist in the sealing effect, air from the compressor volute casing is led into a space within the gland., desired ~ željeni učin, željeno djelovanje, željeni efekt: Miraculously this had the desired effect and she altered just in time to port passing us at a CPA of less than 0.1 mile., in ~ na snazi: Regulation currently in effect.; 2 posljedica
effect /ɪˈfɛkt/ (v) 1 izvršiti ~ payment platiti (račun), izvršiti plaćanje, ~ a repair popraviti, obaviti popravak, izvršiti popravak: There were enough spares and bits
and pieces to **effect a temporary repair.**; 2 **djelovati učinkovit, djelotvoran, efikasan:** The fishing vessel’s skipper’s last-minute avoiding action was too late to be **effective.** take ~ action poduzeti efikasnu radnju: the speed was too high to **take effective action** to avoid collision. It is therefore important when manoeuvring to know how a vessel’s CPP will behave on failure so that **effective action can be taken.** ~ 1 January 2015 koji stupa na snagu 1. siječnja 2015., ~ means **učinkovito sredstvo, djelotvorno sredstvo:** ECDIS provides the bridge team with an efficient and **effective means of navigation.** ~ Bridge Team and Resource Management **učinkovito upravljanje ljudskim resursima na mostu:** Effective bridge resource management should eliminate the risk that an error on the part of one person could result in a dangerous situation. ~ **protection učinkovita zaštita, efikasna zaštita:** Pipelines for fire-fighting purposes (monitor supply, foam, water spray, etc.) installed on open deck should have **effective protection** against corrosion.

**effective dates of contract** (n) (mar law, shipping econ) datumi stupanja na snagu početka / završetka ugovora: Effective dates of contracts can be amended, even orally. There’s nothing to preclude parties from agreeing to modify the **effective date of a transportation contract.** Such agreement would be an amendment to the contract itself. As long as there was no conflict between the parties, such an amendment could even be an oral one.

**effective plating area** (n) (nav arch) sunosiva širina lima. **Effect of wind and rolling** (n) (stabil) učin vjetra i ljuljanja broda, utjecaj vjetra i ljuljanja broda: The generic risk assessment for STS (Ship-to-Ship) operations – which is also applicable to bunkering operations – was reviewed and revised to take into consideration the **effect of wind** and sea on the other ship at anchor.

**efficiency** (n) 1 a **djelotvornost, efikasnost;** 2 (marine eng) iskoristivost, korisni učinak thermal ~ termički stupanj djelovanja, combustion ~ korisni učinak izgaranja, degree of ~ stupanj iskoristivosti, plant 1 stupanj iskoristivosti pogona / postrojenja, increase the ~ povećati stupanj iskoristivosti, fuel ~ iskoristivost goriva, efikasnost goriva: Fuel costs contribute a major share of the total operating expenses for a Kamsarmax bulker. Therefore, the **fuel efficiency** is of great importance.

https://www.wartsila.com/.../shipping-in-2020-choosing-the-right-fuel-and-propulsion, propeller ~ učin propelera, efikasnost propelera, poor ~ slab učin, slaba iskoristivost, slaba efikasnost: The higher hotel load and the **poor efficiency** of the auxiliary gensets in meeting the hotel load outweighs these gains for the 2-stroke concept compared to the 4-stroke concept. https://www.wartsila.com/.../shipping-in-2020-choosing-the-right-fuel-and-propulsion., **loss in ~:** The **loss in efficiency** over the reduction gear box is 2% (a one stage gear is applied) and the CPP is calculated to have a 1% lower open water efficiency compared to the FPP used in the 2-stroke concept. https://www.wartsila.com/.../shipping-in-2020-choosing-the-right-fuel-and-propulsion. **pad učinka, gubitak efikasnosti**

**efficient** (adj) 1 učinkovit, efikasan, uspješan; 2 sposoban **efficient deckhand** (E.D.H.) (n) (mar law) stariji / iskusni mornar **efficient speed** (n) (marine eng) korisna brzina
effort /ˈɛfət/ (n) napor, pokušaj to make every ~ pokušati sve, učiniti sve: If there is an unusual discrepancy between the shipper's figure and that disclosed by the vessel's loading ullages, every effort should be made to have the latter inserted in the bill of lading, make a good ~ potruditi se jako: The crew made a good effort in tackling the fire but their work was hampered by containment difficulties.

e.g. /ˈdʒi/ (=eg.; eg) npr., na primjer
EGB (=Exhaust Gas Boiler) (n) (marine eng, environ), kotao ispušnih plinova: "Un-burnt fuel and lubricants can also settle in the EGB, which reduces the ignition temperature of soot, while increasing a risk of soot fire

EGC (=Exhaust Gas Cleaning) (n) (environ, marine eng) pročišćavanje ispušnih plinova ~ Record Book Knjiga pročišćavanja ispušnih plinova: The nitrate discharge data and analysis certificate is to be retained on board the ship as part of the EGC Record Book and made available for PSC if requested www.marineinsight.com

EGCSA (=Exhaust Gas Cleaning System Association) (n) (environ, marine eng) Udruga sustava za pročišćavanje ispušnih plinova

egging /ˈegɪŋ/ (n) (fishing) lov na lignje s obale, lignjolov s obale

EGR (=Exhaust Gas Recirculation) (n) (marine eng) recirkuliranje ispušnih pinova: An alternative means of meeting the IMO Tier III levels might also be to use Exhaust Gas Recirculation (EGR), although this technology has still to be further validated.

ejector /ɪˈdʒektoʊ/ (n) (marine eng) a static pump for ejecting liquid, as from a sump; induces fluid flow by entraining the liquid in the flow of a stream of air, steam, or water. ejektor, potiskivač, mlazna pumpa, strujna vakuumna sisaljka: The ejector can be used for all suction purposes. Ellehammer Ejectors are ejector pump strujna vakuumna sisaljka
elapse (v) 1 istjeći, isteći: An audible signal is usually given when the 5 seconds have elapsed and a message is sent. Only 30 minutes had elapsed from the vessel striking the quay wall to it sinking. time for delivery has ~d rok za isporuku je istekao: Time limit for filing a claim is 9 months from date of delivery, or in the event of non-delivery, 9 months after a reasonable time for delivery has elapsed.; 2 (mar law) istjeći (o roku), isteći (o roku), proći (o roku): During the course of a voyage if your vessel is or has experienced bad weather or any nature of extraordinary damage or loss that may be caused to your vessel and/or cargo you must prepare a Note Of Protest and upon arrival and/or never after 24 hours having elapsed (not including holidays, Saturdays and Sundays) have it notarized at Notary Public.
electric coupling (n) (marine eng) elastična spojka, opružna spojka, elastična spojnica: Elast or flexible couplings allow slight misalignment and damp out or remove torque variations from the engine. The system comprises a compact unit with a step-up gear coupled directly to the generator, which is located above the elastic coupling.
elastic curve krivulja elastičnih deformacija: The line in the right-hand diagrams connecting the maximum amplitudes reached simultaneously by each mass on the shaft system is called the ‘elastic curve’. The most significant masses in any mode of vibration are those with the greatest amplitude on the corresponding elastic curve.
elastic limit /ˈleɪstɪk/ (n) (marine eng) granica elastičnosti
elastic steel /ˈleɪstɪk/ (n) (marine eng) elastični čelik, rastezljivi čelik
electric /ˈlektrik/ (adj) (electr) električni
electrical /ˈlekstrɪkəl/ (adj) (electr) električni ~ engineer inženjer elektrotehnike, elektroinženjer
electrical cable (n) (electr) električni kabel: The fire was caused either by a short circuit where the electrical cables were draped over the non-continuous bulkheads, or by an overheating electrical device belonging to one of the crew.
electrical conductivity (n) (electr) električka provodljivost, električka vodljivost
electrical fault (n) (electr) električni kvar: All the indications suggest that the fire was probably caused by an electrical fault on the bilge pump or high bilge level float switch circuit which were the only circuits that were live while the boat was at the mooring. Lack of attention, spontaneous combustion and electrical faults are the major causes of shipboard fire. Tender vessel caught fire due to a suspected electrical fault. (https://safety4sea.com/)
electrical motor (n) (electr) elektromotor: Root cause/contributory factors Incorrect layout of sea-water piping directly over steering pump electrical motors: The electrical motors and components were successfully cleaned out with solvents, dried out and made fully operational in the anchorage by ship’s staff ...
electrical officer časnik za električne uređaje i instalacije, brodski elektro-časnik: Electrical engineer is responsible for maintenance of all the electrical equipment on a ship such as motors, switchboards, fire detectors, navigational lights, batteries etc. He assists ship’s deck officer and engineer in all kind of electrical malfunctions. The third engineer, who may or may not hold a certificate of competency, keeps the 2x2 watch and where an electrical officer (electrotechnical officer) is not carried usually maintains the ships electrical equipment. In our fleet, we now require electrical officers (E/O) to examine carefully all radar antennas, cable penetrations and junction boxes on the compass deck and masts once a month ...
electrical panel (n) (electr) strujna ploča, električni ormarić: A lifeboat should never be hoisted by operating the winch motor from a remote electrical panel as this may by-pass the safety
cut-outs, can result in loss of control due to communication difficulties and also pose an electrocution hazard.

**electrical plant** *(n)* 1 *(electr)* električni uređaj; 2 električno postrojenje, elektrana

**electrical power** *(n)* *(electr)* električna struja, električno napajanje: The heavy seas washing over the deck rendered about 130 reefer containers without electrical power. The engine room responded promptly to a 'low insulation' alarm and upon seeing the sea-water leak in the steering gear room, immediately turned off the electrical power to the motors and informed the bridge. Electrical power was isolated throughout the ship with the exception of the emergency fire pump, which had been started to provide fire-fighting water. At the time, all electrical power was being supplied by the main engine driven shaft generator, and so with the main engine shutting down, all electrical power was also lost.

**electrical shortcut** *(n)* *(electr)* kratki spoj: This caused an electrical short (cut), resulting in sparking and leading to high temperatures which caused damage to the cable insulation and fittings.

**electrical socket** *(n)* *(electr)* električna utičnica: Overloaded electrical socket and defective adaptor.

**electrical spares** *(n)* *(boating/yachting, electr)* pričuvni dijelovi za električne instalacije fuses osigurači, bulbs žaruljice, terminal fittings stopice, soldering iron and solder nit za lemljenje i lemilica, tape - insulating and self-amalgamating vrpce - izolirajuće i samostapajuće, bacteried for torches baterijski ulošci za svjetiljke, distilled water for topping up batteries destilirana voda za dolijevanje akumulatorskih čelija, hydrometer (for checking battery cells) hidrometar (za provjeru akumulatora), connecting blocks spojnice

**electrical spark** *(n)* *(electr)* električna iskra: Do check the Product and Material the halogen lamp. Either the hot lens or bulb, Safety Data sheets of materials to or an electrical spark from the lamp ignited identify if there are dangers associated the mixture, causing the explosion.

**electrical storm** *(n)* *(meteorol)* oluja s električnim pražnjenjem, električna oluja: lines for completing the ship/shore safety checklist: The operations should be suspended and all deck and vent openings closed on the approach of an electrical storm.

**electrical supply** *(n)* *(electr)* napajanje električnom energijom: About 40 minutes after leaving the berth the ship experienced a series of short power failures which interrupted the steering gear electrical supplies.

**electrical system** *(n)* *(electr)* električni sustavi: A complete failure of the vessel’s electrical system with the navigation equipment and the radio set is considered probable in view of the arrangement of the load batteries. After salvage, the main engine could be restarted, but all the electrical systems were damaged.

**electrical tape** *(n)* *(electr)* izolacijska traka, električna traka, električna vrpca: Following the incident the school’s instructors examined the flare firing mechanism and decided to place a band of electrical tape around it to help prevent inadvertent firing of the flare.

**electrical wiring** *(n)* *(electr)* električni vodovi, električno ožičenje, električna mreža: The insulation of electrical wiring should be checked at regular intervals. A short circuit occurred in the electrical wiring.

**electric arc welding** *(n)* *(electr)* elektrolučno zavarivanje: A standby vessel was in port waiting for her next tasking, so the opportunity was taken to carry out an electric arc welding repair to
the bedplate of an alternator located in the engine room.

electric boat /ˈɛlektrɪk/ (n) (boating/yachting) brodica na električni pogon
electric charge (n) (electr) električni naboj
electric circuit (n) (electr) struji krug: Check that electric circuits are in good condition and that fuel pipes are free from chaffing.
electric device (n) (electr) električni uređaj, električni aparat
electric drive (n) (nav arch) električni uređaj, električni aparat

electric boat /ˈɛlektrɪk/ (n) (boating/yachting) brodica na električni pogon

electric charge (n) (electr) električni naboj

electric circuit (n) (electr) struji krug: Check that electric circuits are in good condition and that fuel pipes are free from chaffing.

electric device (n) (electr) električni uređaj, električni aparat

electric drive (n) (nav arch) električni uređaj, električni aparat

Gerarda Johanna looks like a classic with wood paneling, but beneath its floorboards lies a high-tech underbelly: rows of lithium ion batteries, 66 in all, with an electric drive train powering its propeller.

electric ferry (n) (nav arch) električni trajekt, trajekt na električni pogon: When delivered later in 2019, the 70m electric ferry will be able to take up to 550 passengers and 75 cars on up to 3,600 annual trips in the rough waters between Landeyjahöfn on the mainland and the Westman Island, covering eight-mile route in about 45 minutes.

https://www.marinelink.com/news/iceland-electric-ferry-powered-abb-462829 The new electric ferry will feature a large battery pack (3000kW) and is designed to operate in a fully electric mode for most of the time, with onshore charging in both harbors, with an estimated average charge time of 30 minutes.

https://www.marinelink.com/news/iceland-electric-ferry-powered-abb-462829 During particularly challenging weather conditions, when the consumption of battery power may exceed the available energy, this electric ferry will use its diesel generator set.

https://www.marinelink.com/news/iceland-electric-ferry-powered-abb-462829 The scope of ABB supply for the electric ferry also includes generators, transformers, switchboards, the Power and Energy Management System (PEMS) and the Energy Storage Control System (ESCS).

electric generation (n) (electr) generiranje električne energije, proizvodnja električne energije, proizvodnja električne struje

electric generator (n) (electr) električni generator, generator električne struje

D.C. ~ generator istosmjerne struje

electric heater (n) (electr) električni grijajač: The oil is heated by steam (although thermal oil or electric heaters are used on other systems).

electrician /ɪkˈtrɪʃən/ (n) (electr, marine eng) električar (brodski), struja

electricity (n) (electr) elektricitet, električna struja generate ~ proizvoditi električnu struju

electricity usage fee (n) (shipping econ) naknada za korištenje električne energije (za napajanje brodova, hlađenih kontejnera itd.)

electric motor (n) (electr) elektromotor: There is at least one good solution where the boat has a single point hoisting/lowering system with an electric motor. The turning gear on a turbine installation is a reversible electric motor driving a gearwheel which meshes into the high-pressure turbine primary pinion. An electric motor can provide a drive with very low-vibration characteristics, a quality valued for warships, research vessels and cruise ships ...

electric motor (n) (boating/yachting) električni pogonski motor (za brodice, jahte) inboard ~ nutarnji pogonski električni motor: The VETUS brushless electric motor does not use carbon brushes, which makes it whisper-silent and maintenance-free. At low revolutions, the efficiency of this brushless motor is considerably higher than conventional electric motors equipped with carbon brushes. The VETUS brushless motor also has a very favourable power to weight ratio. Another remarkable feature of the brushless VETUS electric motor is the very low number of
revolutions (max. 1,250 r.p.m.), which means that it can be coupled directly to the propeller shaft, without the need for a reduction gearbox.

electric power  (n) 1 (electr) električna struja: Loss of the ship’s own propulsion, electric power, steeraoge and manoeuvrability could be foreseen and eventually occurred.; 2 električna energija provide ~ opskrbiti električnom energijom

electric-power unit /ˈlɛktri/ (n) (electr) agregat električne energije

electric pre-heating coil (n) (marine eng) električni predgrijač

electric propulsion (n) (nav arch) električni pogon: Diesel electric propulsion allows the engines to be placed wherever is most suitable, as they no longer have to be aligned with reduction gearing. Another example of the flexibility facilitated by an electric propulsion system is a semi-submersible rig installation whose gensets are mounted on the main deck and propulsion motors in the pon GE will provide the electric propulsion system with his partners Imesa and Nidec that will bring operational efficiency and excellent maneuverability to Seaside EVO largest cruise ships. GE’s electric propulsion solution consists of propulsion controls along with transformers, variable frequency drive (VFD) technology, propulsion motors and distribution transformers.

electric pump (n) (electr, marine eng) električna pumpa, električna crpka, električna sisaljka: After fitting the new propeller, the contractor cast off and, while leaving the marina, pumped the bilges using the electric pump.

electric ray (n) (fishing) COMPARE ray Lat. Torpedinidae; Lat. Torpedo marmorata drhtulja, drhtulja šarulja, mramorna drhtulja, tremol
Another crew member who went to his aid also received an electric shock from the same source and sustained a serious injury.

A lack of maintenance or bad watchkeeping practices. They are usually caused by fuel spills, overheating components or careless use of electric welding or gas brazing gear. The officers became curious, seeing the electric welding cable leading from the engine room along the upper deck, and followed it to the hot work site in hold no. 3.

The bosun operated the electric winch briefly, and the manual winding handle, in the hands of the two other crewmen, swung rapidly and struck one of them on the head.

The bulk carrier's officer of the watch did not effectively use the electronic aids available to maintain a proper lookout. In most collisions and groundings, electronic aids such as ARPA, CPA and TCPA alarms, waypoint alarms and depth alarms had not been used.

We have monitored or plotted their radar targets using the cursor or ARPA facility; taken a series of compass bearings using the radar's electronic bearing line; and/or taken a series of visual compass bearings using the azimuth ring. Facilities such as automatic plotting, electronic bearing lines, variable range markers and radar guard alarms, are normally provided to assist the OOW. He checked the vessel was on heading for the next alteration of course position, which was indicated by an electronic bearing line on the plotter.

The ARPA is non-functional and the electronic bearing marker is about 20 degrees out.

India is now looking for ways to implement electronic bills of lading, electronic delivery orders, certificates of origin, letters of credit, and other trade documentation across all export-import transactions in India. https://safety4sea.com
Electronic Cargo Tracking Note (=ECTN) (n) (logist) If you are shipping to, or through one of the countries listed (e.g. listed African countries) then you will need special waiver certificate documentation in order to clear customs.

Electronic Chart Display and Information System (ECDIS) (n) (navig) The electronic chart displays the vessel's 'real-time' position, course and speed. It also carries out different complex functions to help improve the bridge crew's 'situational awareness' and can meld together radar imagery, ship information, chart activity and AIS information all into one view.

Electronic Data Interchange (EDI) exchange of information through an electronic format

Electronic engine control (EEC) (n) (marine eng) Microcomputer coupled with sensors and controls for fuel, coolant, and other on board systems, as well as self diagnostic ability.

Electronic navigation (n) any method of position fixing using electronic means, including: radio navigation, radar navigation, satellite navigation. električni navigacijski sustav, sustav ECDIS: The OOW was monitoring the vessel’s position on the Electronic Chart Display (ECDIS) but was not plotting the position on the paper chart. We have developed the Electronic Navigational Charts for the Strait (and our port) which can be used together with the Electronic Chart Display and Information System (ECDIS) for real-time navigation without the use of paper charts. were fully compliant with International Maritime Organization (IMO) requirements. The ship was fitted with two independent Electronic Chart Display and Information System (ECDIS) units.

Electronic navigation aids (navig) električni navigacijski pomagala: It is essential that all mariners are not only trained in the operation of electronic navigation aids, but understand the weaknesses and how these aids should be used as a decision support system rather than a decisionmaking system.
can decide to exclude certain features in order to keep the view clear and simple electronic navigation equipment, elektronička karta: Using an electronic navigational chart within ECDIS, the OOW can monitor the safety corridor, safety contours, their own vessel GPS and its vector, any other vessels AIS and vector, the tide vectors and exploit the customizable menu.

electronic navigation equipment (n) (nav arch, navig) elektronički navigacijski uređaji, elektronička navigacijska oprema: The vessel’s electronic navigation equipment, which included the electronic chart display and information system (ECDIS), radar and the bridge navigational watch alarm system (BNWAS), were functioning correctly.

electronic position fixing system /lektronik/ (n) (navig) sustav elektroničkog određivanja pozicije: Navigators should use all available means to check the position of their vessel, but they must regularly verify the accuracy of positions displayed by electronic position fixing systems by reference to visual bearings and transits whenever available.

electronic range and bearing line (=ERBL) (n) (navig) elektroničko smjeralo za mjerenje udaljenosti i smjerova

electronic range marker /lektronik/ (=ERM) elektronički daljnomjer

electronics (n) (electr) elektronika, elektroničko traženje tereta

electronic tracking /lektronik/ (shipping econ) elektroničko praćenje tereta

electronic transport record (n) (mar law, math) information in one or more messages issued by electronic communication under a contract of carriage by a carrier, including information logically associated with the electronic transport record by attachments or otherwise linked to the electronic transport record contemporaneously with or subsequent to its issue by the carrier, so as to become part of the electronic transport record, that: (a) Evidences the carrier’s or a performing party's receipt of goods under a contract of carriage; and (b) Evidences or contains a contract of carriage. (Rotterdam Rules 2009)

elektro/elektronike/elektronika: An electronically controlled injector which depends on a cam and rocker arm mechanism to produce fuel injection pressure.

(http://www.marinedieseleurope.com/) elektronički upravljani ubrizgač

electrotechnical officer /lektronik/ (=ETO; electronics officer) (n) (mar law) = electrical officer = ETO časnik elektrotehničkih i elektronike na brodu,
brodski elektrotehnički časnik: Electro-Technical Officers are specialist officers working within the Engineering Department where they take particular responsibility for the maintenance of on board control engineering and electronic systems including propulsion control, radio communications and electronic navigation aids. Marine Electrotechnical Officer; METO brodski časnik

elektrotehnički/elektronike

electrotechnical rating (n) (mar law, marine eng) elektrotehničar član posade

elevation /,el.i'veifən/ (n) 1 visina: At an elevation angle of about 35 degrees and a height of about...
40 metres, the pipe suddenly slipped out of the grab and fell with great force back onto the deck ... the satellite is at such an elevation for Inmarsat that the signal from the ship is beamed up at a perfect angle to intercept the GPS antenna. ; 2 presjek, profil side ~ bočni profil, bokocrt, pogled sa strane: Side elevation of typical ballast hold shows how lamellar tear is caused; 3 okomita vertikalna projekcija; 4 vertikalni profil elevation of focal plane above datum (n) (navig) visina žarišta svjetla iznad srednje razine mora visina svjetla elevator /ˈeliˌveɪər/ (n) 1 (cargo handling) elevator, pneumatski uređaj (za ukrcaj/iskrcaj tereta u silosu): Elevators (US) or silos are normally associated with grain. They may be operated by pneumatic suction which sucks the grain out of the ship’s hold. ; 2 nagnuti transporter: Some hoppers have an elevator for depositing the cargo into heaps on the quay side for later onward transportation. elongated spreader produženo gazište pilotskih ljestava elongation /ɪˈlɒŋɡeɪʃn/ (n) 1 (marine eng) istezanje: ... the control valve is adjustable which can be used to allow for fuels of varying ignition qualities and changes in the camshaft timing due to chain elongation. ; 2 (seamanship) produljenje, istezanje (užeta): ... on a rare day at anchor, we worked the ramp door in and out several times and eliminated diverse causes such as possible wrong rigging, elongation of wire ropes, malfunction or wrongly adjusted limit switches etc. . The amount of elongation in the tested ropes prior to destruction was impressive, but it was still shorter than the up-to-25-percent elongation that new nylon cordage will exhibit prior to failure. embankment /ɪmˈbæŋkmənt/ (n) 1 (ports) boarding; coming on board izgrađena riječna obala; 2 (ports) nasip, diga embark /ɪmˈba:k/ 1 (v) ANTONYM disembark to go on board a ship; to go aboard ship preparatory to sailing; to board the ship ukrcati se (o pomorcu koji započinje plovidbu na brodu): The bridge team became distracted and lost their situational awareness while maneuvering the ship to rendezvous with the pilot vessel or while preparing to embark or disembark a pilot. The vessel tied up, bows to the pier with engines at idle, to embark passengers, reducing the gap between the mooring barge and the stern of the passenger vessel to about 30 metres. ; 2 ukrcati se (pilot, putnik); 3 (v tr) ukrcati (peljara): The vessel arrived at the pilot boarding point and embarked the pilot. A fast modern container vessel was preparing to embark a pilot during the early hours of the morning. embarkation /ɪmˈba:kənʃn/ (n) (seamanship) ANTONYM disembarckation ukrcaj, ukrcavanje ~ deck (nav arch) paluba za ukrcaja putnika: The boats were brought to the Embarkation deck without incident. , pilot ~ area (navig) područje ukrcaja peljara: The vessel’s approach to the pilot embarkation area was being monitored by VTS. The two deckhands moved along the launch’s port side to the embarkation area. www.gov.uk/maib, ~ of pilots ukrcaj peljara embody /ɪmˈbɒdɪ/ 1 uključiti: ... and the necessary changes were mainly those relating to the increase in piston stroke and modifications to components to embody thermodynamic improvements . Turbocharging is based on the constant pressure system and embodies low flow resistance air and exhaust piping with suitable diffusers between the ports and the manifolds. ; 2 (mar law) utjeloviti, ostvariti embritllement (n) (marine eng) krtost, lomnost
EMCIP (=European Marine Casualty Information Platform) *(safety, mar law, mar ins)* a database and a data distribution system operated by EMSA. **Europska platforma za izvješćivanje o pomorskim nesrećama i nezgodama (pri EMSA-i):** EMCIP provides the means to store data and information related to marine casualties involving all types of ships and occupational accidents. It also enables the production of statistics and analysis of the technical, human, environmental and organisational factors involved in accidents at sea. Furthermore, it allows Member States to report investigation findings to the IMO-GISIS system directly and without any duplication of effort. http://emsa.europa.eu/emcip.html ~ **Model**

**Europske platforme za izvješćivanje o pomorskim nesrećama i nezgodama**

**emergency** /ɪˈmɛʒəntri/ *(safety)*

1 *hitan slučaj*: In an emergency raise the alarm, call the master and instigate measures to prevent damage. I can confirm that the lack of a common language in the event of an emergency is a serious risk to crew and vessel safety. When you have an emergency on board, it is sensible to let the coastguard know, even if you do not require assistance. deal with an ~ *nosit se s opasnošću*: This is especially important in the highly stressful situation when dealing with an emergency.;

2 *izvanredno stanje, kritično stanje*: If you have DSC radio, you could try a ‘sécurité’ DSC alert followed by a voice broadcast; During an emergency, a DSC Pan alert should be made, followed by a VHF voice broadcast stating the situation and danger.;

3 *nepredviđeni događaj*

**emergency alarm** *(safety)*

Alarm za slučaj opasnosti: The container ship’s engine telegraph was set to ‘stop’ and the emergency alarm was sounded. The bridge and nearby crew were alerted and the emergency alarm was activated. Immediately the emergency alarm was sounded and a full rescue team prepared to muster near the tank. Sound the general emergency alarm. Uključite alrm za opću opasnost. general ~ *alarm za opću opasnost*: Operate the general emergency alarm. Uključite alarm za opću opasnost.

**emergency anchorage** /ɪˈmɛʒəntri/ *(navig)*

**pomoćno sidrište**: Then he ordered the OOW and the bosun to the forward mooring station for an emergency anchoring.

**emergency checklist** *(safety)*

**popis provjera u nuždi / opasnosti:**

**Emergency Checklist - Fire:** 1. Sound general emergency alarm. Muster fire party.; 2. At sea, alter course & speed to reduce draft & minimize fire spread.; 3. Advise bridge; 4. Call master.; 5. Determine location of fire. Master / Ch. Officer; 6. Conduct fire control procedures; 7. Assess proximity of navigational hazards, including traffic, and maneuver the ship as appropriate.; 8. (a) In case of fire in engine room: Engine room – checklist “Main Engine Failure” as appropriate. (b) Steering gear compartment – checklist “Steering Failure” as appropriate; © Generator compartments – checklist “Total electrical power Failure (Blackout)” as appropriate.; 9. Broadcast URGENCY or DISTRESS message, if appropriate., etc. https://safety4sea.com/wp-content/uploads/2018/06/SQE-MARINE-Fire-2018_06.pdf? ~ **Oil Pollution**

**popis provjera u slučaju onečišćenja naftom:** Emergency Checklist - Oil Pollution:

Stop all cargo & bunkering operations; S top all ballasting & de-ballasting operations; Call Master; top all bilge pumping / internal transfer; S top all cargo/fuel transfer operations; Mu ster fire party; Ad vise berth operators; If oil spill to sea dock immediately alert P&I local representative & address to SOPEP.

www.sqemarine.com/shipmanuels, ~ - **Main Engine Failure**

**ootkazivanja glavnog stroja:** Emergency Checklist: Main Engine Failure: Che ck for other vessels in the vicinity; Che ck for navigational hazards in vicinity; Use sound signals as necessary; Call Master; ... Describe damage and establish Cause of breakdown; Esta blish if repairs possible by vessel’s
emergency communication

On receipt of distress call fix own position, calculate distance & steaming time to distress position; Record contents of distress alert and / or message; Call Master; Establish communications with the RCC and/or On-Scene Coordinator and other SAR units as appropriate; Maintain radio watch.; Monitor X-Band radar and AIS for SART signals as appropriate; Consult IAMSAR Manual Volume III and industry guidance on rescue procedures; If assistance can be rendered then follow guidelines in IMO publication: “MERCHANT SHIP SEARCH & RESCUE MANUAL”; etc. www.sqemarine.com/shipmanuals

Power Failure popis provjera u slučaju nestanka električne energije, ~ - Flooding popis provjera u slučaju naplavljivanja / prodora vode, ~ - Hull Failure popis provjera u slučaju strukturalne onesposobljenosti trupa broda, popis provjera u slučaju onesposobljenosti trupa broda

Some of the findings related to passenger briefings and emergency communication brought to light by the investigation were: The failure to notify those on board of an emergency situation delayed emergency response

The frequent crew changes also meant that individual crew members had not carried out emergency drills on all the vessels they were expected to operate. Emergency drills should be designed so that crews beco familiar with all that they may be required to do. Emergency-related activities may include personal safety familiarisation and training, planning and conduct of emergency drills, proper response to actual emergencies.

equipment /ɪˈməʊntsi/ (n) (safety) oprema za slučaj opasnosti: Ensure that everyone on board is very familiar with the emergency equipment carried: both location and use. Most of the emergency equipment, including ventilation shut-off valves and the emergency fire pump, were not properly maintained and no-one could remember when they were last te

egress: Is there provision for emergency escape? Postoji li izlaz za slučaj opasnosti? The skipper took an extinguisher from the wheelhouse and operated it through the emergency escape hatch. ~ breathing device; EEBD dišni aparat za izlaz u slučaju opasnosti, dišni aparat za izlaz u nuždi: He donned an Emergency Escape Breathing Device (EEBD) ~ and escaped into fresh air.

Lifeboat drills shall be made in order to fulfill the requirements of the annual emergency evacuation drill required by the unit’s Emergency Evacuation Plan (EEP). https://safety4sea.com/

During a fire drill, the second engineer entered the emergency fire pump room to operate the emergency fire pump: this involved negotiating a vertical ladder section within a straight access trunking.
Emergency full ahead! /ɪˈmɜːdʒənsi/ (n) (navig, safety) Punom snagom naprijed zbog opasnosti!

Emergency full astern! /ɪˈmɜːdʒənsi/ (n) (safety, navig) Svom snagom krmom zbog opasnosti!: reason, this pilot simply did not seem to appreciate the problem of our approach speed relative to the proximity of the wall and I put the engines on emergency full astern. Residual headway of own vessel despite the emergency full astern manoeuvre.

eMERgency generator /ɪˈmɜːdʒənsi/ (n) (electr, safety) generator za slučaj nužnosti, generator za slučaj opasnosti: Automatic start up of the emergency generator at a low voltage value is usual on modern installations. The emergency generator had failed to start automatically because it had been left in hand control. Any faults or defects in the emergency generator/alternator, its prime mover and associated equipment, must be rectified and immediately reported to the appropriate management office. At some stage the ship’s emergency generator started, after the ship’s main diesel generators stopped as a result of lack of cooling water. It was not until 15 minutes later that the emergency generator was started and the generators were cooled down sufficiently to enable them to be re-started. On the next day, the emergency generator also stopped, resulting in a total loss of power.  https://gCaptain.com

eMERgency lighting /ɪˈmɜːdʒənsi/ (n) (nav arch) pomoćna rasvjeta, rasvjeta u nuždi: Emergency lighting for occupied areas, navigation lights, communications systems and alarm systems must also be supplied. ~ system sustav pomoćne rasvjete, sustav rasvjete u nuždi / opasnosti

eMERgency lights (n) (safety) svjetla u nuždi, pomoćna svjetla: Emergency lights came on, and the vessel stopped rolling and adopted a list of about 45 degrees to starboard.

Emergency locator transmitter (=ELT) (n) (comm, safety) An aeronautical radio distress beacon for alerting and transmitting homing signals. (IAMSAR/Camsar2014) lokatorski predajnik u opasnosti (za zrakoplove)

Emergency manoeuvre (n) (marine eng, ship handling) izvanredna manovra: The pilot called the engine room by telephone, advising of the need to prepare for an emergency manoeuvre. manovra u slučaju opasnosti

Emergency muster station (n) (safety) pomoćno zbrojno mjesto, zborno mjesto u nuždi, mjesto za okupljanje u nuždi: The master sounded the fire alarm and made a public address announcement ordering all hands to their emergency muster stations.

Emergency party (n) (safety) skupina za djelovanje u opasnosti, grupa/tim za djelovanje u nuždi, protuhavarijska grupa: The master immediately mustered the emergency parties. Meanwhile, the ship’s emergency party was activated and the passengers advised of the situation by the captain. Other members of the crew cooled down the area as the emergency party then entered the hold and confirmed it to be clear.

Emergency phase (n) (safety) A generic term meaning, as the case may be, uncertainty phase, alert phase or distress phase. (IAMSAR/Camsar2014) faza opasnosti (u traganju i spašavanju): Maritime SAR emergency phases must primarily be reported to the nearest MRCC/MRSC. SAR Manual, Finland 2010 alert phase (of the ~) A situation wherein apprehension exists as to the safety of an aircraft or a vessel and of the persons on board. (IAMSAR/Camsar2014) faza uzbunjivanja (u sustavu SAR), uncertainty phase (of the ~) A situation wherein doubt exists as to the safety of an aircraft or a vessel, and of the persons on board. (IAMSAR/Camsar2014) faza neizvjesnosti (o postojanju pogibli - u sustavu
SAR), distress phase (of the ~) A situation wherein there is reasonable certainty that a vessel or other craft, including an aircraft or a person, is threatened by grave and imminent danger and requires immediate assistance. (Camsar) faza opasnosti / pogibli emergency plan (n) (safety) plan u slučaju opasnosti: The vessel’s emergency plan for grounding incidents was activated. Shipboard Marine Pollution ~; (SMPEP) Brodski plan za slučaj onečišćenja mora: Repeatedly practise ship’s emergency and reporting procedures as outlined in the shipboard oil pollution plan (SOPEP) and shipboard marine pollution emergency plan (SMPEP).

Emergency Position Indicating Beacon /ɪˈmɜːs.dʒənsi/ (=EPIRB) (n) (navig, safety) uređaj koji omogućuje određivanje položaja broda ili ljudi u nezgodi ili autonomno određuje položaj broda u nevolji te o njemu izvješćuje mjerodavne ustanove na kopnu. uređaj za otkrivanje položaja, Radioplutača koja odašilje poziciju broda u opasnosti, epirb emergency power (n) (safety, marine eng) pomoćni pogon, pomoćno napajanje, pogon u nuždi: The vessel is currently on emergency power and drifting emergency power plant /ɪˈmɜːs.dʒənsi/ (n) (marine eng) pomoćni generatorski sustav emergency power supply /ɪˈmɜːs.dʒənsi/ (n) (marine eng) napajanje električnom energijom za slučaj nužde: Where the rudder stock is greater than 230 mm an alternative power supply is to be provided automatically from the ship’s emergency power supply or from an independent source of power located in the steering gear compartment. The emergency power supply is operational. Select emergency power supplies for bridge and navigational equipment. (https://safety4sea.com/)

Emergency Procedure Guide (n) (safety) Vodič za postupanje u izvanrednom stanju emergency procedures (n) (safety) postupci u opasnosti, postupci u nuždi: By this stage, all other engineers had arrived to assist, and the vessel’s full emergency procedures came into play to effectively tackle the fire using the CO2 smothering system. A drill will be held to familiarize passengers with their assembly stations, with their life-saving equipment and with emergency procedures. Crews were regularly exercised in emergency procedures, including fire drills, and could refer to the vessel’s comprehensive Fire Action Drill checklists.

emergency release (n) (safety) otpuštanje u nuždi, oslobađanje u nuždi, pogon u nuždi: Procedures for emergency release methods, time delays and release speed shall be established and this information shall be displayed at the conning position. Additionally, ensure your derrick head block emergency release is operational and that the crew know how to activate it. ~

system sustav za oslobađanje u nuždi, uređaj za oslobađanje / otpuštanje u nuždi: The lack of an accepted international industry standard for tug tow line emergency release systems. The investigation has identified a number of factors which contributed to the accident, including: The emergency release system for the towing winch on board Flying Phantom had operated, but not quickly enough to prevent the tug from capsizing emergency repairs /ɪˈmɜːs.dʒənsi/ (n) (safety) popravci u nuždi emergency response and rescue vessel /ɪˈmɜːs.dʒənsi/ (=ERRV) brod (brodica) za hitne intervencije i spašavanje: An emergency response and rescue vessel was operating offshore during a period of heavy weather. Jade Traffic coordinated the initial emergency response. The Master was immediately called and the oil spill emergency response plan was
emergency response operation: The Port Authority initially responded to the incident due to the release of hazardous materials, and a Unified Command was established soon after the collision to manage the emergency response operations and planning.

emergency response plan: When an accident takes place, the emergency response plan comes into play, but can the operator be sure that it works? Implement emergency response plan procedures ([https://safety4sea.com/](https://safety4sea.com/)).

emergency response team: After the ship’s emergency response team provided air to the stricken crew via in-line breathing apparatus, the motorman recovered and was able to leave the tank.

emergency services: The emergency services arrived on the scene within minutes and several pumps were quickly rigged to try and prevent further flooding. The skipper raised the alarm immediately with the emergency services, and a full air and sea search was conducted. Approximately 15 minutes after the spillage, the local emergency services arrived and established an exclusion zone around the vessel.

emergency shutdown system: A lubricant header tank is incorporated in the structure for effective lubrication of the turbocharger rotor following emergency shutdown of the engine. The Master, upon arrival on the bridge, activated the Emergency Shut Down and the main engine stopped.

emergency signal: No emergency signal was sounded on the ship’s whistle.

emergency situation: Despite the breakdown of the structural barriers, the ship’s officers and crew managed to contain the emergency situation and bring the ship alongside at the Suez Canal Container Terminal without any personal injury or pollution to the environment. If passengers are to be embarked on your vessel, for whatever reason, ensure they are aware of what to do in an emergency situation. The coastal state should always be informed of any emergency situation on board. Contain the ~ svladati stanje opasnosti, svladati opasnost: The ship’s officers and crew managed to contain the emergency situation and bring the ship alongside at the Suez Canal Container Terminal without any personal injury or pollution to the environment. ([https://safety4sea.com/](https://safety4sea.com/))

emergency squad: The Captain said he had everyone go to their emergency stations for a head count and if it was determined that an evacuation was required. Vessel’s personnel was immediately be called to the emergency stations. ([https://safety4sea.com/](https://safety4sea.com/)) ~ signal signal za

emergency station: The Captain said he had everyone go to their emergency stations for a head count and if it was determined that an evacuation was required. Vessel’s personnel was immediately be called to the emergency stations. ([https://safety4sea.com/](https://safety4sea.com/)) ~ signal signal za
Emergency Escape Breathing Device

Emergency steering /ɪˈmɜːrəni ˈstɪərɪŋ/ (n) (nav arch) kormilarski uređaj za slučaj nužde, pomoćni kormilarski uređaj: Subsequent investigation revealed that none of the Officers knew how to operate the emergency steering. The master changed over to emergency steering.

Emergency steering gear drill /ɪˈmɜːrəni ˈdʒɔrnli/ vježba isprobavanja kormilarskog uređaja za opasne situacije

Emergency stop /ɪˈmɜːrəni ˈstɑːpt/ (n) (safety) zaustavljanje glavnog motora u nuždi, zaustavljanje u slučaju opasnosti: Shutdown functions for lube oil pressure, overspeed and emergency stop are provided as standard. It was observed that the automatic emergency stop system for the engine room supply fans had already tripped the blowers and the fixed CO2 gas release alarm had been activated. ~ button dugme za zaustavljanje u slučaju opasnosti: Fit audible and visual alarms on new deck cranes, which activate automatically when the emergency stop button is pressed. ~ system sustav za zaustavljanje u slučaju opasnosti: It was observed that the automatic emergency stop system for the engine room supply fans had already tripped the blowers and the fixed CO2 gas release alarm had been activated.

Emergency switchboard /ɪˈmɜːrəni ˈswɪtʃbɔːrd/ (n) (electr) rasklopna ploča za slučaj nužde, razvodna ploča za slučaj nužde, razvodna ploča za slučaj opasnosti, pomoćna razvodna ploča: Never forget that your emergency switchboard is always on and ready to feed the more important systems in the ship. A quick look showed that the breaker on the emergency switchboard was open; this was immediately rectified and the fire pump re-started.

Emergency system (n) (safety) sustav za nuždu, uređaj za slučaj opasnosti: Nowadays, when joining a new vessel I not only quickly make myself familiar with the operation of emergency systems (steering, fire pump, total smothering etc. Also, DMA demanded that independent systems for the supply of control air to emergency systems are established.

Emergency team (n) (safety) skupina za djelovanje u nuždi, grupa/tim za djelovanje u opasnosti, protuhavarijska grupa: An emergency team was struggling to overcome the leak. The emergency team removed the casualty to the ship’s hospital, where it was noticed that his blood pressure was low and he was showing signs of dizziness and... The fire alarm was activated and speed was reduced while the emergency team proceeded to the location, with two crew members wearing breathing apparatus.

Emergency transmitter /ɪˈmɜːrəni ˈtræmɪnər/ pomoćni predajnik: predajnik u nuždi

Emergency transmitter /ɪˈmɜːrəni ˈtræmɪnər/ predajnik u slučaju opasnosti, predajnik u nuždi, pomoćni predajnik

Emergency turn /ˈɛmərəni ˈtɜrn/ (n) (safety, navig) okret u nuždi, okret u opasnosti: With a distance of less than one mile between our two rapidly-closing vessels, we executed an emergency turn to starboard with engine going full ahead. The Ferry was approximately 3 miles astern of the crossing vessel and just prior to our emergency turn had altered course to starboard to pass clear of own ship. Emergency Escape Breathing Apparatus (=EEBA) (n) (safety) dišno aparat za izlaz u nuždi

Emergency Escape Breathing Device (=EEBD) (n) (safety, marine eng) dišno aparat za izlaz u nuždi: He donned an Emergency Escape Breathing Device (EEBD) and escaped into fresh air. The chief engineer also donned an EEBA and remained in the control room as back up.
**emission** (n) (marine eng) ispuštanje (plinova u zrak), emisija: Staged pre-mixed combustion allows NOx emission levels to be reduced without the need for expensive selective catalytic reduction systems typically required by diesel engines to meet the CO2 ~ ispuštanje ugljičnog dioksida, NOx ~ ispuštanje dušičnog monoksida: The Bergen C26:33 gas engines reduce CO2 emissions by 25 percent and NOx emissions by up to 90 per cent., zero ~ nulto ispuštanje: The vessels will use electricity in port, courtesy of large lithium batteries, thus generating zero emissions while at berth. https://www.maritimeprofessional.com/news/generation-ro-ro-vessels-unveiled-317740 • The vessels will be designed to meet the highest Finnish/Swedish ice class, 1A Super, with hybrid battery power for zero emissions while in port https://gCaptain.com, ~ of oil ispuštanje nafte: Our role is to prevent, prevent and limit emissions of oil to protect the marine environment www.gcaptain.com, IMO ~ timeline vremenski raspored IMO-a za ograničavanje ispuštanje štetnih plinova s brodova, vremenski plan IMO-a za ograničavanje ispuštanje štetnih plinova s brodova

**Emission Control Area (=ECA) (environ, mar law) Svjetska područja kontrole ispuštanja (sumpornih oksida, dušičnih oksida itd.):** Most ships which operate both outside and inside these ECA will therefore operate on different fuel oils in order to comply with the respective limits. In such cases, prior to entry into the ECA, it is required to have fully changed-over to using the ECA compliant fuel oil, regulation 14.6, and to have onboard implemented written procedures as to how this is to be undertaken. Similarly change-over from using the ECA compliant fuel oil is not to commence until after exiting the ECA. http://www.imo.org/en/OurWork/Environment/PollutionPrevention/AirPollution/Pages/Sulphur-oxides-(SOx)-%E2%80%93-Regulation-14.aspx

**emit** /ˈɪmɪt/ (v) (environ) ispuštati (u zrak): Ocean-going vessels emit hazardous air pollutants or air toxics that are associated with adverse health effects impacting populations living near ports and coastlines. https://www.marineinsight.com

**employ** /ɪmˈploɪ/ (v) 1 koristiti, iskoristiti: Because the tie bolts are so close to the crankshaft, some engines employ jack bolts to hold the crankshaft main bearing cap in position instead of conventional studs and nuts. MAN two-stroke engines employ constant pressure turbocharging. Employing radar within a wind farm is not reliable; therefore, the decision by the captain not to employ the radar while transiting the wind farm was understandable.; 2 primijeniti: Skippers and engineers employ routine checks such as checking engine and gear oil levels, inspecting bilges for unusual water levels and ensuring bilge pumps are serviceable etc.; 3 uposliti: The vessel’s size, and that she was not carrying passengers, meant there was no requirement for the master to employ a pilot for this entry. Following an extensive career at sea, the river pilot had been employed with the company for over 15 years.

**employee** /ɪmˈplɔɪ; ɪmˈplɔɪ/ (n) (mar law) zaposlenik, pomorac (u ugovoru o zaposlenju)

**employment** /ɪmˈploɪmənt/ (n) 1 upotreba; 2 zaposlenje: Hand transmitted vibration (HTV) is one of the hazards that seafarers face in the course of employment on board ships. contract of ~ ugovor o zaposlenju, ugovor o ukrcanju; 3 služba; 4 korištenje, iskorištavanje

**empties** (n) (logist, ports) prazni kontejneri: The port authorities, its stakeholders including terminal operators and customs have arranged for the empties to be returned to various private/shared depots outside the port. https://shippingandfreightresource.com

**empty** /ˈɪmprənt/ (v) isprazniti: The forward tanks were emptied and refilled without incident, except that the
day's operations ended with an overflow.

**empty** (adj) prazan ~ tank prazan tank: The Coast Guard was notified immediately of the grounding and the sounding of all empty tanks and void spaces including verification of cargo tank ullages commenced.

**empty container** (n) (cargo, ports) ANTONYM loaded container prazan kontejner: Full import containers are coming in, but there is not enough export cargo going out and therefore empty containers are piling up. https://shippingandfreightresource.com Empty containers represent a sizeable proportion of logistics activity, however previous studies on container freight operations in Melbourne have tended to focus on commercially valuable, loaded containers - not empty containers. https://www.sciencedirect.com/science/article/pii/S2352146519300997

**emulsifier** (n) (seamanship, safety) emulzivno sredstvo: An important function of the cleaning agent is to be a good solvent for the gypsum in the sludge. It should also act as a dispersant and emulsifier enable (v) omogućiti: He was confident that his “twin-screw” experience was sufficient to enable him to safely manoeuvre the ship off the berth. The additional benefit of setting an anchor watch is that it should enable the other crew to sleep soundly and obtain quality rest.

**e-navigation** (n) (navig) ‘the harmonized collection, integration, exchange, presentation and analysis of marine information on board and ashore by electronic means to enhance berth to berth navigation and related services for safety and security at sea and protection of the marine environment.’

(IMO) elektronička navigacija, digitalna navigacija, e-navigacija: Administration (NCA) has initiated the first full-scale trial of e-navigation in Norwegian waters in conjunction with e-navigation technology and services company NAVTOR. The first e-navigation test involves the ferry MS Stavangerfjord digitally sharing its routing information with NCA via NAVTOR’s NavStation ‘digital chart table’. These (e-navigation) include but not limited to the Automatic Identification System (AIS), Electronic Chart Display and Information System (ECDIS), Integrated Bridge Systems/Integrated Navigation Systems (IBS/INS), Automatic Radar Plotting Aids (ARPA), Long Range Identification and Tracking (LRIT) systems, Vessel Traffic Service (VTS) and the Global Maritime Distress Safety System (GMDSS). https://www.marineelectronics.com/news/ecdis-maritime-accident-255821

**ENC** /ˈeɪ sɛn/ (=Electronic Navigational Chart) (n) (navig) elektronička navigacijska karta: Navigation was conducted by eye and by reference to an electronic navigational chart display (ENC). None of the bridge team had been trained in the use of ENC, and the settings were inappropriate, such that key dangers would not have been displayed; An ENC contains more information than an RNC and has a slightly different look than a paper chart. Different objects on an ENC have attributes; by clicking on a vessel or lighthouse, for example, more information about the object will become available. https://www.amnautical.com/ Because of the increased amount of data available, ENCs are suited for use with alarms and warnings to alert crews of danger in the ship’s path. https://www.amnautical.com/ There is an increased reliance on NOAA electronic navigational charts (ENC) as the primary navigational product and the decreased use of traditional raster chart products. https://www.nauticalcharts.noaa.gov/ dual ~ dvojni prikaz elektroničke karte, single ~ jednokratni prikaz elektroničke karte, ~ display prikaz na elektroničkoj karti: Navigation was conducted by eye and by reference to an electronic navigational chart display
Tragically, accidents in enclosed/confined spaces continue to be one of the most common causes of work-related fatalities on board ships today. The enclosed space where the seafarers were working was filled with the toxic gas.

Investigation findings: Enclosed Space Entry checks were not carried out. The tanks were washed, made gas free and, after enclosed space entry permits had been issued, the crew could enter for mopping.

All seafarers, regardless of rank, must not enter an enclosed space without permission and then, only in accordance with ship management’s established procedures. Seafarers must not ignore the basic safety procedures and precautions when entering enclosed spaces.
encounter /ɪnˈkʌntər/ (v) susresti, naići (na): Although neither master was on the bridge, standing/night orders were not used to alert the watchkeepers to the risks they were likely to encounter during their bridge watch. ~ boisterous weather (meteorol) naići na olujno nevrijeme, close ~ (navig) blizak susret: While I wished to bear away from the flood current in mid channel, I was reluctant to put myself in a close encounter with the ship. Inevitably, this can lead to dangerous close encounters., ~ adverse weather naići na nepovoljne vremenske uvjete, naići na nevrijeme: The master expected to encounter adverse weather conditions on the route.

end 1 kraj, zadnji dio, krajnji dio; 2 (nav arch, ship handling) kraj broda (pramac, krma) meet ~ on sresti se u protukursu, sresti se pramcem prema pramcu, forward ~ (seamanship) = forward end prednji dio broda pramac, after/aft ~ = after end = aft end stražnji dio broda, krma; 3 (marine eng) glava ojnice large / big ~ glava letećeg ležaja: Connecting rod large ends are basically either of “marine” type or fixed centre design., small ~ gornja glava ojnice, gornji kraj ojnice: It conducts oil from the big end to the small end for lubrication and to the inside of piston for its cooling., top ~ of connecting rod gornja glava ojnice, crankpin ~ glava letećeg ležaja: In the marine type design the rod large end, called “crankpin end”, consists of a separate bearing housing (or box) divided in two parts, bolted to a foot on the rod shank., diagonally split large / big ~ koso podijeljen donji kraj ojnice

danger /dɪˈændʒər/ (v) (safety) ugroziti: In case of a dangerous cargo vessel even a minor misjudgement in conning the vessel or the occurrence of a breakdown of critical equipment would seriously endanger both vessels, lives on board, port facilities and the environment. Leaks from oil and fuel systems are fire hazards which endanger vessels and their crews.

dead /dɪˈɛvər/ (v) pokušati: It is very rare for watchkeepers to give the name of their own vessel or to endeavour to identify the other party by name. He then saw his crewmates but, despite his best endeavours to assist them, they were beyond help.

dead /dɪˈɛvər/ (n) pokušaj, nastojanje: The foul propeller disabled the vessel and prevented further endeavours at rescue. to use the best ~ učiniti sve, pokušati sve

dead /dɪˈɛvər/ (n) (seamanship) kraj čeličnog užeta

dead ~ (adv) ~ collision (navig) sudar pramac u pramac: The pilot altered course hard a starboard to avoid an end on collision, then full ahead and hard a port to clear the stern. 1 (navig) pramac prema pramcu drugog broda two vessels meeting ~ two ships meeting head on dva broda koja se susreću u nasuprotnim kursovima (pramac prema pramcu): I recognised my mistake in sufficient time to take appropriate action for two vessels meeting end on or nearly end on and an incident was averted, however, the incident made a lasting impression on me., passing ~ 1 (ship handling) passing on reciprocating courses mimoilaženje na suprotnim paralelnim kursovima (pramac prema pramcu): On most occasions when they are passing, either end on or overtaking, they think nothing of trying to pass as close as 0.4 miles and ...; 2 (ship handling) two vessels passing close on the bow or stern mimoilaženje na vrlo maloj udaljenosti.; 2 (ship handling) pramac (krma, bok) na vrlo maloj udaljenosti od drugog broda, obale itd.; 3 (navig) pramac prema, prednjim/stražnjim dijelom (broda) prema ...: The port anchor is let go and the ship turned to port to take the beach end on.
endorse /ɪnˈdɔːs/ (v) (mar law) 1 (mar law) indosirati (mjenicu, teretnicu, ček itd.); 2 potvrditi (svjedodžbu), ovjeriti svjedodžbu / ovlaštenje (pomorskog časnika): The Master in question had a full certificate issued and endorsed for STCW 95 by the MSA of a very reputable authority. The only fault he could find was that the Master's Bahamian certificate had not been endorsed for STCW 95; 3 pribilježiti / ovjeriti na poledini; 4 upisati opasku / bilješku (u teretnicu, časničku potvrdu); 5 ovjeriti, potvrditi: Bills of lading should wherever possible be endorsed to show that the volume and weight measurements are not provided, ascertained or warranted by the carrier. Gdje god je moguće, teretnicu valja ovjeriti kako bi se dokazalo da prijevozniku (vozaru) nije pružio ili ne jamči za podatke o količini i težinama tereta. The plan was endorsed by the second engineer and the Terminal representative.

endorsed bill of lading (n) 1 a (mar law) indosirana teretnica; 2 teretnica s opaskom

endorsee /ɪnˈdɔːsiː/; /ɪnˈdoʊsiː/ (n) (mar law) A party to whom an order bill of lading (supra) is endorsed by the original consignee (supra) or a previous endorsee of that same bill of lading. See Tetley

endorsement /ɪnˈdɔːsmənt/ (n) 1 (mar law) bilješka na poledini dokumenta, naledenje; 2 (mar law) ovjera, potvrda: The vessel was quite old but held valid certificates and the Load Line annual endorsement had been signed three months previously. Being on a Bahamian ship, he also had a Bahamas certificate and application had already been made for the new endorsement.; 3 (mar law, shipping econ) prijenos prava iz teretnice po naredbi: izjava zakonitog posjednika teretnice kojom on nareduje prijevozniku da umjesto njemu teret preda drugoj osobi. Obično se upisuje na naličju teretnice (D. Pavić); the transfer of the right to obtain delivery of the goods of the carrier by means of the consignee's signature on the reverse side of a bill of lading indosman, indosament, prijenos prava iz teretnice: For the release of cargo at destination and for the purpose of documentary credit negotiations, there are several endorsements required on a bill of lading ~ in blank bjanko indosament, special ~ puni indosament; 4 (shipping econ, mar law) opaska / primjedba (u teretnici itd)

endorsement (n) (mar law) A document issued to masters and officers, either as part of the certificate or as a separate document. This attests (endorses) that the national certificate has been issued in accordance with all STCW requirements (https://safety4sea.com/cm-stcw-convention-terms-and-definitions/); isprava kojom se potvrđuje da je nacionalno pomoračko ovlaštenje izdano u skladu sa zahtjevima Konvencije STCW IMO-a.

ovlaštenje pomorca (sukladno konvenciji STCW), pomoračko ovlaštenje (sukladno konvenciji STCW)

endorsement of the bill of lading (n) (mar law) prenošenje prava iz teretnice po naredbi ili drugih uvjetnosnica s prethodnoga imatelja na novoga vlasnika indosiranje (teretnice): In the conventional method, when a bill of lading is issued in original, the destination agent of the carrier may issue release of cargo only after at least 1 of the issued originals are surrendered by the consignee, after checking the endorsements on the bill of lading..

https://shippingandfreightresource.com/cargox-blockchain-smart-bl-app/

endorsement on the bill of lading (n) (mar law) indosman na teretnici, indosman teretnice, ovjera teretnice: Endorsement required on the B/L consigned “To Order” or “To Order of ZYX” : Shipper’s endorsement stating DELIVER TO THE ORDER OF “ZYX Client” and ZYX’s company stamp and sign in case he is taking the final delivery or his endorsement
endorse the B/L stating, DELIVER TO THE ORDER OF “ABC Client” (if the cargo has been further sold)

**endorse the B/L** *(v) (mar law, shipping econ)* To sign over a Bill of Lading to another, thus transferring title to the goods described in the Bill of Lading to that party.

http://www.tkglobal.net/chartering_E.HTM

**endorsing** *(n) (mar law, logist)* The holder of a bill of exchange, order form, cheque or original Bill of Lading transfers this document to a third party (the endorsee) whose name he may or may not know, by putting his signature and company stamp on the back of the document.

https://www.logisticsglossary.com/term/endorsing/

**ends** *(n) (cargo)* kratki komadi drvene građe short ~ kratki komadi drvene građe

**end switch** *(n) (electr)* krajnji prekidač, granični prekidač

**end-to-end service** cjelokupna usluga prijevoza: By developing a logistics offering to complement our maritime activity, we will be able to propose a full ‘end-to-end’ service to our customers. https://shippingandfreightresource.com/

**endurance** *(n) (marine eng)* Maximum time period (indicated in hours or days) that a vessel can operate unreplenished while performing its intended role.

https://officerofthewatch.com/tools/maritime-dictionary/izdržljivost, autonomija: The high-pressure fuel system was designed and **endurance tested** at 2000 bar; an actual injection pressure of around 1400 bar thus represents a substantial safety margin. ~ limit granica izdržljivosti, ~

**test test izdržljivosti (užeta, …):** nylon rope endurance test

**energy** *(marine eng)* energija kinetic ~ kinetička energija: The kinetic energy in the exhaust gas rotates the valve a small amount as it passes. , chemical ~ kemijska energija, heat ~ toplinska energija: The temperature of the droplets rise rapidly as they absorb the heat energy from the hot air in the cylinder, and they ignite and burn before they can hit the relatively cold surface of the liner, mechanical ~ mehanička energija, thermal ~ toplinska energija: In the internal combustion engines the energy is converted from thermal to mechanical energy., convert ~

**pretvoriti energiju:** The four stroke cycle is so called because it takes four strokes of the piston to complete the processes needed to **convert the energy** in the fuel into work.

**enforce** *(v)* to ensure observance of or obedience to (a law, regulation, rule, etc) primijeniti (propis, zakon, pravilo), provesti (zakon, propis, pravilo): Cargo interests and authorities should also oversee shipments and ensure the fitness of both cargo and vessel before loading, and proper stowage and securing and adequate stability before departure, enforcing all applicable regulations and observance of best industry practices. That they have to **enforce COLREG 72 rules**, particularly those related to the conduct of vessels in restricted visibility conditions (safety speed). ~ the law / regulation provesti zakon / propis

**enforcement** *(n)* 1 (mar law) ovrha, prisilna naplata ~ debtor ovršenik, ~ creditor ovrhovoditelj, law ~ provedba zakona, provedba prava: The adverse effect of alcohol on performance is becoming increasingly recognised by national enforcement authorities and ship owners, with alcohol testing following an accident becoming more widespread., take ~ action against … poduzeti zahtjev za prisilno provođenje zakona protiv …: The US Coastguard is moving to **take enforcement action** against the Company
after it failed to comply with the captain of the port order. https://gCaptain.com; 2 ovra na brodu
engage /inˈgeɪdʒ/ (v) 1 (marine eng) zahvatiti, ukliniti; 2 (marine eng) spojiti ~ with
keys spojiti klinovima; 3 (mar law) zaposliti se: with effect from the date on which the
Seafarer is engaged until the date on which s/he signs off; 4 (marine eng) uključiti (strij, kvačilo, kočnicu itd.), Italian:innestare: Several fruitless attempts were made to engage the brake but this was all to no avail. In the engine room, the reserve compressed air cylinder was opened but there was still insufficient air pressure to re-engage the clutches.; 5 (shipping econ) biti u plovidbi, ploviti (o brodu) vessel ~d in coastal trade brod (koji plovi) u obalnoj plovidbi; 6 angažirati
engine /ˈɛn(d)ʒɪn/ (n) compression ignition ~ motor s paljenjem na kompresiju,
dizel-motor: The diesel engine is a compression ignition engine, that is to say a type of engine in which air is compressed to a pressure sufficient to produce a high temperature..., crosshead ~ motor / stroj s križnom glavom: A two stroke crosshead engine must be supplied with air above atmospheric pressure for it to work., exhaust ported ~ motor s ispušnim kanalima: In a two-stroke exhaust ported engine, both inlet and exhaust port timings are symmetrical about bottom dead centre (BDC) and these will be identical when the engine is reversed ..., high-speed ~ brzohodni / brzokretni motor: The connecting rod must be strong, yet must not be too heavy because of inertia forces, especially in high speed engines., in-line ~ motor s vertikalnim u liniji postavljenim cilindrima, motor u L- izvedbi: As an option for particularly difficult applications, the in-line engine can be specified with control of the turbocharger turbine surface by MaK’s Variable Multi-Pulse (VMP) sys- tem., large bore ~ motor sa cilindrima velikog promjera: Wear rates vary, but as a general rule, for a large bore engine a wear rate of 0.05 - 0.1mm/1000 hours is acceptable, marine ~ brodski motor: Turbocharger is an integral part of the ship’s marine engine as it reuses the exhaust gases in order to increase the overall efficiency of the engine., medium-speed ~ srednjohodni / srednjokretni motor: SWD decided to develop a high-powered medium-speed ~, multi-cylinder ~ motor s više cilindara, non-reversible ~ neprekratni motor (za vožnju u jednom smjeru): Two-piece replacement cams were introduced for non-reversible engines to simplify renewal., outboard ~ izvanbrodski motor: The outboard engine had a maximum power rating of 225kW (300hp), and had been supplied with a mid-range 21., reversal of the ~ prekretanje motora, prekret stroja: Reversal of the engine will be unnecessary if variable-pitch propellers or reversible gearboxes are used., reversing the ~ prekretanje stroja / motora:, the vessel is proceeding at full speed, only when speed is considerably reduced blast of compressed air will be applied for stopping and reversing the engine., single-acting ~ jednoradni motor / stroj: The four Sulzer six-cylinder ST70 two-stroke single-acting engines (700 mm bore/990 mm stroke) developed a total of 9560 kW at 127 rev/min., slow-speed ~ sporohodni / sporokretni motor: The slow-speed diesel engine rotates at this low speed and the crankshaft is thus directly coupled to the propeller shafting., turbocharged ~ motor s turbopuhalom: In the exhaust turbocharged engine, the necessary scavenging is obtained by providing a satisfactory pressure difference between the air manifold and the exhaust,, trunk piston ~ klipni motor, motor bez križne glave: In the 2 stroke trunk piston engine, the side thrust
engine

caused by the angularity of the connecting rod is transmitted to the liner by the piston skirt or trunk.

unidirectional ~ istosmjerni motor: In case of a controllable pitch propeller an
unidirectional engine is sufficient.

Vee ~, V~ motor u V-izvedbi, V-motor: The V-engine
big ends run side-by-side on the crankpin.

prepare the ~ for sea pripremiti stroj za
plovidbu, reverse the ~ prekretati motor, mijenjati smjer okretanja stroja:
To reverse the direction of the engine, pressure oil is led to one side of a hydraulic piston which is coupled
to the camshaft. Where a controllable pitch propeller is in use there is no requirement to reverse the main
engine.

run the ~ upravljati strojem / motorom, rukovati strojem:
However, when it is necessary to run the engine in reverse it must be started in reverse and the fuel injection timing
must be changed.

down the engine allowing it cool.on the port side of the bank, in which there was no traffic present at that
time.

try the ~ isprobati stroj:
Try the engine in port on starting air only when situation
external to the ship is quite safe.

speed up the ~ ubrzati stroj:
Whilst we were in the process of altering course to starboard, ship B made a sudden alteration of course hard to port and began to speed up
even more, (own ship speed was 23 knots).

turn the ~ okretati stroj:
After opening the indicator cocks the Engineer should turn the engine through at least one complete revolution by means of the turning
gear.

warm up the ~ through zagrijavanje motor, put the ~ on slow / half / full
speed ahead prebaciti stroj na polagano / pola snage / punom snagom
naprijed, auxiliary engine pomoćni motor:
The auxiliary engine and the engine bilge
pump were renewed.

direct-coupled ~ motor s izravnim pogonom propelera,

motor bez reduktora, double-acting ~ dvoradni motor / stroj: 9 A B&W

662-WF/40 two-stroke double-acting engine, first installed as a six-cylinder model in the Amerika (1929),

external combustion ~ stroj s vanjskim izgaranjem, four-stroke ~

četverotaktna motor:
For a four-stroke engine, the exhaust and suction strokes are shown by the
horizontal line at C, and this has no effect on the cycle.

free piston ~ motor sa slobodnim
klipom, gasoline ~ (US) benzinski motor, geared ~ motor s posrednim
pogonom propelera, moltor s reduktorom, lifeboat ~ motor brodice za
spašavanje: Even though adequate spares for the lifeboat engine and the air motor were available
on board, the ship’s staff was unaware of its inventory and location.

main ~ glavni stroj, glavni
porivni stroj: Where CPP is in use there is no requirement to reverse the main engine.

After reaching
the planned position, we disengaged the main engine and put our AIS on 'not under command' mode.

marine propelling ~ brodski pogonski stroj, opposed-piston ~ motor s
protuhodnim klipovima: The opposed piston two-stroke engine in service today is

single-acting.

reversible ~ prekretni motor / stroj: In large diesel engines, the main engines
must be reversible and should be able to produce thrust efficiently in both the directions ( ahead and asterm).
The RTA72U is a single-acting, low-speed, two-stroke reversible marine diesel engine
manufactured by New Sulzer Diesel Ltd.

two-stroke ~ dvotaktni motor:
A slow-speed
two-stroke diesel engine is usually arranged to operate continuously on heavy fuel and have available a
diesel oil supply for manoeuvring conditions.

steam-reciprocating ~ parni stapani stroj: In the steam reciprocating engine, the up and down movement of the pistons is converted into rotary
movement by piston rod and crankshaft.

unidirectional ~ neprekretni stroj / motor,
jednosmjerni stroj: In case of a controllable pitch propeller an unidirectional engine is sufficient.
Most medium speed engines are unidirectional. (marine eng) stroj, brodski stroj, brodski motor, pogonski stroj
engine apprentice (=engine assistant) vježbenik stroja, asistent stroja, as

engine block (n) (marine eng) blok motora, Italian: blocco motore: The BV design is based on a single-piece engine block cast in GGG500 nodular iron carrying two banks of cylinders in a 55° V-configuration. The engine block combines crankcase and cylinder housing in one rigid casting with an integral camshaft housing and charge air manifold.

engine book (n) (marine eng) = engine log dnevnik stroja

engine boy (n) (marine eng, mar law) mladić stroja

Italian: avaria del motore: An engine breakdown could occur as a result of a human error or machine failure. Following a breakdown of a ship’s main diesel engine, it is the job of the Engineering Officers to locate the fault and carry out repair as soon as possible. il pressure damaged the bottom end bearing; Evidence suggests that the lube oil pump had been running in a damaged condition for some time before the engine breakdown led to the pump’s failure being discovered. suffer ~

pretrpjeti havariju stroja: Shortly after, the tanker suffered main and auxiliary engine breakdown and a full black-out in the Malacca Strait, resulting from sticking fuel pumps and clogged filters.

engine casing (n) 1 (nav arch) the walls or partitions forming trunks above the engine and boiler spaces, providing air and ventilation and enclosing the uptakes grotlo strojarnice, kućište strojarnice: This allowed boundary cooling of the engine casing to be started.; 2 (nav arch) grotlište strojarnice (na starim brodovima)

engine control (n) 1 (marine eng) uređaj za upravljanje strojem, ručka za upravljanje strojem: The OOW woke up and, sensing something was wrong, he immediately moved the engine control to neutral, and then full astern, but the vessel grounded nonetheless.; 2 upravljanje strojem

eengine control console (n) (marine eng) upravljački pult strojarnice

engine control room (=E.C.R.) (n) (marine eng) Space adjacent to engine room from where engine room systems may be controlled and monitored.

https://officerofthewatch.com/tools/maritime-dictionary/ upravljačka kabina strojarnice: The oil mist detector has remote monitoring from the engine control room.

engine control system (n) (marine eng) sustav upravljanja strojem: The pilot fuel pump transmits the prevailing fuel pressure to the engine control system.

engine damage 1 havarija stroja, kvar motora: A 292-meter .... suffered “engine damage” which left the ship adrift in the Elbe River for about a half hour before tugs arrived to provide assistance.; 2 šteta na stroju

engine data (n) (marine eng) podatci o stroju, informacije o stroju: RTA60C engine data: Bore 600 mm; Stroke 2250 mm ... An optional Customer Communications Module translates engine data to standard ASCII code for transmission to a PC or via satellite to remote locations.

engine department (n) (mar law) = engine-room department služba stroja: The Officer of the watch on the Bridge must give the Engine Department at least one hours notice before Stand By for manoeuvring. I am the head of the Engine Department and am responsible for personnel and the proper operation, maintenance, and safety of the vessel’s propulsion system, power generation, ...
engine drive 1 pogon motora: The gearing arrangement used to reduce the medium-speed
engine drive down to suitable propeller revolutions.; 2 pokretanje motorom
engineer /ˈendʒiˈnɪər/ (n) ~ officer časnik stroja, strojarski časnik, ~ officer in
charge dežurni časnik stroja, dežurni strojar, First Assistant ~ (US) prvi
časnik stroja, prvi strojar, Junior ~ mladi strojar, Senior ~ 1 stariji / viši
strojar; 2 viši strojarski inspektor, ~ superintendent strojarski inspektor,
watch ~ časnik stroja u straži, strojar u službi, watchkeeping ~ časnik
stroja u straži, ovlašteni časnik stroja, 1st ~ prvi časnik stroja, 2nd ~
drugi časnik stroja, chief ~ upravitelj stroja, kapo, refeer ~ časnik stroja
za rashladne uređaje, certificated ~ ovlašteni časnik stroja, osposobljen
časnik stroja, licensed ~ ovlašteni časnik stroja, 3rd ~ treći časnik stroja,
1st assistant ~ (US) prvi časnik stroja, 2nd assistant ~ (US) drugi časnik
stroja, 3rd assistant ~ (US) treći časnik stroja (mar law, marine eng) časnik
stroja, strojarski časnik, oficir stroja, makiništa
engineering /ˈendʒiˌnɪərɪŋ/ (n) 1 tehnika; 2 strojarstvo marine ~ brodsko
strojarstvo, brodostrojarstvo; 3 inženjerstvo
engineering cadet (n) 1 (marine eng) vježbenik stroja, asistent stroja,
asistent ~ship školovanje prije stjecanja zvanja časnika stroja: The Maersk
Engineering Cadet Educational Programme is a world-class training opportunity equipping you with the
skills and qualifications you need to be a marine engineer.; 2 (marine eng) asistentura
Engineering Department (n) (navy) COMPARE engine-room department
Engineering Department's mission is to maintain and safely operate O'KANE's engineering plant in order
to support O'KANE's primary mission as an instrument of national policy. The primary responsibilities of
Engineering Department are to safely and efficiently provide propulsion, and generate and distribute
electrical power throughout the ship. Additional responsibilities include: Fresh water distillation, steering
control, damage control, drainage, and sewage treatment. tehnička služba (ratnog
broda): služba stroja (ratnog broda) A Division Auxiliaries Division maintains almost all of the ship's
auxiliary engineering equipment on board the ship. Known as A-Gang, the Enginemen (ENs) are
responsible for the ship's air conditioning plants, fresh water distillers, potable water system, sewage
system, steering system, and galley equipment. odjel pomoćnih motora i uređaja
(ratnog broda), E Division Electrical Division is primarily tasked with maintaining the ship's
electrical distribution systems. Additionally, the Electrician Mates (EMs) are responsible for shipboard
lighting, cathodic protection, casualty power, degaussing systems, laundry service equipment, galley
equipment, and electrical tool issue and maintenance. elektrotehnički odjel, MP Division
The Gas Turbine Systems Mechanical Technicians (GSMs) and Gas Turbine Systems Electrical Technicians
(GSEs) are primarily responsible for main propulsion and electrical power generation. The GSMs
maintain four LM-2500 Gas Turbine Engines, and all associated equipment, in two Main Engine Rooms,
necessary to provide and control propulsion. odjel za turbinski pogon, R Division Repair
Division is home to a mix of Damage Controlmen (DCs), Hull Technicians (HTs), and damage control
petty officers. It is primarily responsible for maintaining the O'KANE's structural integrity and repair
equipment. The Damage Control Assistant (DCA) provides general and specific training on proper
fire-fighting, flooding, and other casualty response techniques. Every Sailor must first be a fire-fighter.
odjel za popravke (u stroju i na brodu)
engineering material (n) 1 tehnički materijal, tehnološki materijal; 2
industrijski materijal

engineering officer (n) (marine eng) = marine engineer časnik stroja,
brodostrojarski inženjer: Engineering Officers are responsible for the maintenance and operation of the ship’s main propulsion machinery, deck machinery, air conditioning plants, refrigeration plants, and domestic and electrical services. Depending on the type of ship and operational circumstances, Engineer Officers will be required to keep watches in the ship’s Engine Room.

engineering plant (n) postrojenje marine ~ (marine eng) brodsko postrojenje

engineer officer (n) (marine eng) časnik stroja, strojarski oficir:

Engineer Officer of the Watch (=EOOW) (n) (mar law) časnik straže u stroju

engine failure (n) kvar na stroju, zakazivanje stroja, havarija motora: The vessel command attributed the engine failure to a defect in the automatic control. Meanwhile, the rescue boat coxswain and assisting crew member continued to investigate the cause of the engine failure.

engine fittings (n) (marine eng) oprema stroja

engine foundation (n) (marine eng) temelj stroja: The bedplate is mounted on chocks and is securely bolted to the engine foundation plate on which it sits and which forms part of the structure of the hull. These forces, if not in themselves necessarily damaging, create objectionable vibration and noise in the engine foundations, and through them to the ship (or building) in which the engine is operating.

engine frame (n) (marine eng) stalak motora, okvir motora: The camshafts are mounted in bearing bushes fitted in bores in the engine frame. Lubricating oil for the main bearings is supplied through holes drilled in the engine frame.

engine housing (n) (marine eng) kućište motora: The crankshaft damper is mounted outside the engine housing for optimum cooling and accessibility; bolted covers and replaceable nylon bearings permit rebuilding of the damper on site.

engine indicator (n) (marine eng) The Engine Indicator is used to record the cylinder pressure of an engine and piston travel in an X-Y graph, where pressure forms the vertical axis and piston travel forms the horizontal axis pokazivač indicirane snage stroja, indikator motora: Engine indicator is the device used to take the indicator diagram, which can be considered as a 'stethoscope' for diesel engines. ~ diagram dijagram indikatora motora, ~ cock pipac indikatora motora: This involved the fuel being shut off, the main engine indicator cocks being left open, the turning gear being disengaged, the air receiver valves and main air start valve being shut, ...

engine inlet (n) (boating/yachting, marine eng) dovod za motor, usis rashladne vode za motor: Approximately two-thirds of the flow pass through a HT circuit and returns directly to the engine inlet, while the remainder is fed into a thermostatically controlled LT circuit. From the main engine inlet rail the fuel enters each fuel pump (one per cylinder). The air is cooled before passing to the engine inlet manifold or scavenge air receiver.

engine load (n) (marine eng) opterečenje motora, opterečenje stroja: Pulsating compressor noise, typically registered at around 30–50 per cent engine load, can be an issue due to today’s higher power outputs. The maximum efficiency measured at near-70 per cent engine load was around 69 per cent.

engine log (n) (marine eng) dnevnik stroja: Any such loss of water must be recorded in the Engine Log Book and reported to the Chief Engineer. The chief engineer will examine the Engine Log when he has time. ~book 1 dnevnik stroja; 2 ~ abstract izvod iz dnevnika stroja

engine maintenance (n) (marine eng, boating/yachting) održavanje stroja, održavanje motora: A planned lifeboat drill was carried out on a coastal tanker while she was
alongside in port for **engine maintenance**.

**engine manufacturer** *(marine eng)* proizvođač motora: By working with a prospective operator, the **engine manufacturer** is then able to make an accurate assessment of the maintenance costs. The ship remained at the anchorage as the **main engine manufacturers** were arranged to attend the vessel to repair the air start valve.

**engine operation** *(marine eng)* rad motora, rad stroja, upravljanje strojem, rukovanje strojem: The resulting flexibility allows **engine operation** to be adjusted and optimized for fuel economy or low NOx emissions.

**engine orders** *(marine eng)* zapovijedi stroju, Italian: *ordini andatura macchine*: Any **engine order** given should be repeated by the person operating the bridge telegraph(s) and the officer of the watch should ensure the order is ca At 1015, the transfer of stores was completed and an **engine order** of 80 rpm was executed. **standard** ~ **standardne naredbe za upravljanje strojem**, **Full ahead / astern!** Svom snagom naprijed / krmom!, **Half ahead / stern!** S pola snage naprijed / krmom!, **Slow ahead / astern!** Lagano naprijed / krmom!, **Dead slow ahead / astern!** Sasvim lagano naprijed / krmom!, **Stop port / starboard engine!** Zaustavite lijevi / desni stroj!, **Emergency full ahead!** Hitno punom snagom naprijed / krmom!, **Stand by engine!** Pozor u stroju!, **Finished with engine(s)!** - **No more manoeuvring!** Svršeno u stroju - Završeno s manevriranjem!, **Bow thruster full / half / to port / starboard!** Pramčani porivnik svom snagom / pola snage lijevo / desno!, **Stern thruster full / half / to port / starboard!** Krmeni porivnik svom snagom / pola snage lijevo / desno!

**engine order telegraph** *(marine eng)* Electromechanical device that transmits orders to the engine room concerning desired direction of turn and general speed of the engines. *(http://www.quarterdeck.org/index.html)* strojarski telegraf 1 Stand by with engine/s!, 2 Start engines!, 3 Dead slow ahead!, 4 Slow ahead!, 5 Half ahead!, 6 Full ahead!, 7 Dead slow astern!, 8 Half astern!, 9 Full astern!, 10 Finished with engine - no more manoeuvring!
engine output \((n)\text{ (marine eng)}\) snaga motora: For engine outputs of up to 8000 kW, only one turbocharger is used.

engine performance \((n)\text{ (marine eng)}\) radne karakteristike, performanse stroja, radni učin stroja: The controllable injection timing (CIT) pumps also ensure that engine performance is improved at the service load. The computer-controlled fuel injection system opens up possibilities to optimize engine performance, thanks to the freedom to choose key parameters: injection timing, injection pressure independent of engine speed, maximum injection quantity ...

engine power \((n)\text{ (marine eng)}\) snaga motora, snaga stroja: Using full rudder and engine power, and transmitting appropriate signals on the air horn and VHF radio, the master just managed to turn the ship’s head into the wind and... An engine power range from 20 000 kW to 28 000 kW per turbocharger is covered by the TPL-91B. limit ~ ograničiti snagu stroja (radi smanjivanja onečišćenja): ... to reduce greenhouse gas emissions from international shipping, technical measures to limit engine power are among the ideas being considered to reduce carbon dioxide (CO2) from the existing fleet. Marineinsight https://www.marineinsight.com/, ~ limitation ograničavanje snage stroja

engine problems \((navig)\) problemi sa strojem, poteškoće sa strojem: the ship was having some ~ and drifted midstream in a strong breeze brod je imao problema sa strojem i otpadao (plutao) u jakoj struji po sredini kanala i pri jakom vjetru On boarding, it was discovered that the loaded vessel had engine problems and the Master had ordered spares which would arrive the following morning. After several days at sea a serious engine problem occurred in number 7 cylinder.

engine readiness \((navig)\) spremnost stroja za pokretanje / manovru state of ~ stanje spremnosti stroja za manovru, stupanj spremnosti stroja za manovru

engine ready for immediate manoeuvre \((n)\text{ (navig)}\) stroj spreman za
neposrednu manovru: Own ship quite rightly in my opinion had her engine ready for manoeuvre, but, does not appear to have had any intention to use it.

gene repairs (n) (marine eng) popravci na stroju: My technical department at the time was fully engaged in carrying out a major engine repair ... The sea conditions were slight and the vessel continued to drift in a southeasterly direction towards the Moroccan coast while engine repair work continued.

gene revolution (n) (marine eng) broj okretaja stroja: About 10 minutes afterwards, the main engine revolutions dropped from 1400 rpm to about 1100 rpm.

gene room (=engine-room; engineroom) (n) 1 (marine eng) = machinery room = machinery strojarnica, brodska strojarnica: The duty engineer entered the engine room at 06:50 to man the engine room. The chief engineer entered the engine room at the upper level, without BA, to guide the fire brigade. ; 2 (marine eng) strojarnica, Italian: sala macchine; locale motore

gen. room access (n) (nav arch, marine eng) prilaz strojarnici: At 1450, the engine room alarm panel repeater sounded in his cabin, so he immediately ran the short distance to the engine room access where the panel was situated.

gen. room alarm (n) (marine eng, safety) alarm u strojarnici: As the lift was being prepared, the engine room alarm sounded.

gen. room bilges (n) (nav arch) kaljuže strojarnice: The duty engineer opened the overboard valve to prevent the system from potentially overflowing into the engine room bilges.

gen. room bulkhead (n) (nav arch) pregrada strojarnice: Smoke was filtering through the engine room bulkhead and filling the wheelhouse, making it impossible to use the main VHF radio set.

gen. room cadet (n) (marine eng) vježbenik stroja, asistent stroja

gen. room casing grotlo strojarnice: On leaving his office, he saw flames rising from the stairwell around the engine room casing.

gen. room component (n) (marine eng) sastavni dio strojarnice
engine room CO2 system *(n) (marine eng, safety)* sustav za gašenje strojarnice ugljičnim dioksodom: The master decided it would be necessary to operate the engine room CO2 system to extinguish the fire.

engine room crew *(n)* 1 *(marine eng)* posada stroja: Whilst the other engineer officers were engaged on various jobs, one of the engine room crew was cleaning the lube oil filters. 2 *(marine eng)* član posade stroja: An engine room crew attempted to call the bridge, but received no response. An exhausted engine room crew once again opened, cleaned and boxed up the sea suction (again filled with tiny fish) and the ship sailed from the terminal without any delay.

engine room department *(n) (marine eng)* služba stroja: The Engine Department onboard a merchant ship is responsible for all maintenance and repairs of engines, electric motors, pumps, winches and other mechanical and electrical equipment. Job positions, on board a (US / Croatian, etc.) ship, within this department include Chief Engineer, 2nd, 3rd and 4th Engineer, Trainee Engineer, Chief Mechanic, Mechanic, Fitter, Oiler, Wiper and Engine Utility Man. Engine-Room Department - The modern ship’s propulsive unit, whether steam turbine or diesel engine, is run on oil, and the engine-room department is composed of a team of engineer officers and ratings controlled by the chief engineer, who ranks after the master. The modern ship’s propulsive unit, whether steam turbine or diesel engine, is run on oil, and the engine-room department is composed of a team of engineer officers and ratings controlled by the chief engineer, who ranks after the master.

engine room door *(n) (nav arch, marine eng)* vrata strojarnice: He shut the engine room door, informed the master of the fire and recommended that both main engines be shut down. It was initially assumed that the smoke was coming from the open engine room door. He shut the engine room door, informed the master of the fire and recommended that both main engines be shut down.

engine room double bottom tank dvodno u strojarnici

engine room escape hatch *(n) (nav arch, safety)* grotlo strojarnice za izlaz u nuždi: The engine room escape hatch was locked from the outside. Assuming this was an Engine Room escape hatch then it would be best secured from the inside, thus allowing those attempting to get out to achieve their escape.

engine room fan *(n) ventilator u strojarnici: Conscious of the need to isolate the oxygen supply, and potential fuel supply to the fire, he blocked the engine room ventilators, and shut down the engine room fans, main engine and generator.

engine room fire *(n) (safety, marine eng)* požar u strojarnici: The fuel is supplied to the injectors through drillings in the cylinder head, dispensing with high-pressure fuel lines and removing a potential cause of engine room fire. By now the crew, who had regularly exercised fighting an engine room fire, had blocked off the engine room vents, carried out boundary cooling on the deck using the hand-operated deckwash pump, and ... A containership suffered an engine room fire that left the ship adrift in the Caribbean Sea. https://gCaptain.com

engine room hatch *(n) (nav arch, marine eng)* grotlo strojarnice: Back in the wheelhouse, the skipper closed the engine room hatch and instructed the crew to haul in the fishing gear and don their lifejackets. The engine room hatch was opened, and a hose was discharged into the engine room. The engine room hatch was opened, and a hose was discharged into the engine room.

engine room log book *(n) (marine eng)* dnevnik stroja: Marine engineers are required to keep a log of all important machinery parameters such as pressure, temperatures, revolutions etc. in the engine room log book.

engine-room personnel *(n) (marine eng)* osoblje strojarnice, posada strojarnice, svi zaposleni u strojarnici: Engine-room personnel is fully ready to manoeuvre and bridge manned to relay engine orders.
engine-room rating  (n)  (marine eng) mornar stroja, član nižeg osoblja stroja

engine room space  (n)  prostor strojarnice: If engine room space allows, the complete cylinder unit (cylinder head, water collar, liner, piston and connecting rod) can be withdrawn as a single assembly.

engine room staff  (n)  (marine eng) osoblje strojarnice, personal stroja: Two of the engine room staff remained in the engine room and two went to the vehicle deck. The second engineer distributed the day’s work to the engine room staff, verbally instructing the junior wiper to burn the garbage in the incinerator.

engine room telegraph  (n)  (marine eng) veza između zapovjedničkog mosta i strojarnice za upravljanje strojem; A mechanical signaling device for communicating propulsion orders and acknowledgements between the bridge and the engine room.

(engine talk.info/cgi-bin/nautical-marine-sailing-dictionary) strojarski telegraf, telegraf za stroj

engine room vent  (n)  (nav arch, marine eng) zračnik u strojarnici, ventilacijski otvor u strojarnici: ..., the tug master and chief engineer went back on board and “cracked” open the engine room vents before returning to the rescue vessel.

engine room workshop  (n)  (marine eng) strojarska radionica: Making the ramp door operable A new set of wedges and small doublers was quickly fabricated in the engine room workshop and immobilisation and hot work permits were obtained at the next berth the following day.

engine skylight  (n)  (nav arch) vidnik strojarnice: I sent my watchman to close the engine skylight and inform the crew of the rain.

engine spares  (n)  (boating/yachting, marine eng) pričuvni dijelovi motora spark plugs svjećice (benzinski motor), injector ubrizgač (dizelski motor), repair kit for fuel and water pumps with seals and impellers komplet za popravak pumpe goriva i pumpe rashladne vode s brtva i impelerima, set of hoses komplet gumeni cijevi, oil filters filtri ulja, fuel filters filtri goriva, set of gaskets, seals, and O-rings komplet brtva i brtvenih prstena, fuel gorivo, oil and grease ulje i mast za podmazivanje, fuel antibacterial additives antibakterijski aditivi za gorivo, spare ignition key rezervni ključ za paljenje motora

engine speed  (n)  (marine eng) broj okretaja / obrtaja motora, brzina stroja: Engine speed is controlled by a mechanical or electronic governor with hydraulic actuator. The ‘heart’ of the system was a microprocessor to which the actual engine speed and crankshaft position were transmitted as output signals. Full load can be accepted swiftly and smoothly at any engine speed, says EMD, and a 10 per cent overload capability can be exploited for two out of every 24 h of running. A reduction in engine speed compared with the BL550 limited the mean piston speed and yielded the increased output with virtually the same brake mean effective pressure. Although a late order to increase engine speed and helm was given, the vessel made contact with the buoy.

engine stores  (n) 1  (nav arch) spremište strojarnice; 2  (marine eng) zalihe i materijali za strojarnicu

engine switch  (n)  (marine eng, boating/yachting) prekidač motora (za dovod i zatvaranje goriva na izvanbrodskom motoru)

engine telegraph  (marine eng) strojarski telegraf: At 2340, the master moved the engine telegraph from ‘dead slow ahead’ to ‘slow ahead’; the tanker’s speed was about 2kts and it remained on an
easterly heading. A load programme led to a delay between the setting of the engine telegraph and the engine achieving the speed intended. The Master was quickly on the bridge and moved the engine telegraph to stop. If the engine telegraph printer for some reason does not function, movements shall be recorded manually, in this case in the Bridge and Engine Bell Books. The ship’s engine telegraph was set to full ahead.

**engine trials** *(marine eng)* strojarske probne vožnje, strojarske pokusne vožnje: it would have been prudent to retain at least one escorting tug; 2 The outward pilot was apparently unaware that the vessel was intending to conduct engine trials off port limits (OPL) and was scheduled to return and anchor in the waiting area;

**engine utility man** *(marine eng, mar law)* a rating who provides assistance in various duties within the engine room, such as maintenance and minor repair tasks.

**English law** *(mar law)* All law applicable in England. The major sources of English law are: 1) the common law of England; 2) the rules of equity; and 3) statutes and regulations of the United Kingdom applicable to England. Other sources of English law include English admiralty (i.e. maritime) law, the Law Merchant, the ecclesiastical law (of the Church of England) and custom.

**enlarge** /ɪnˈlaːdz/ *(v)* povećati, proširiti

**enlist** /ɪnˈlɪst/ *(v)* 1 *(hum_resources)* enrol upisati se, prijaviti se, pristupiti; 2 *(navy)* engage (a person) for duty in the armed forces (Collins English Dictionary Online) stupiti u vojsku, regrutirati (se), novačiti (se)

**ensign** /ˈɛnsain/ *(n)* 1 *(mar law)* a flag flown by a ship, branch of the armed forces, etc, to indicate nationality, allegiance; ship’s national flag zastava, zastava pripadnosti, nacionalna zastava broda red ~ zastava britanske trgovačke mornarice, national ~ zastava državne pripadnosti broda; 2 *(navy)* the entry level rank of a young naval officer; the lowest grade of a commissioned officer; the lowest ranking commissioned officer. mladi časnik, zastavnik (ratne mornarice)

**ensue** /ɪnˈsjuː/ *(v)* uslijediti, nastati nakon nečeg: As a result, the salvage pump quickly emptied the foc’sele space and air locked, allowing uncontrolled flooding to ensue.

**ensure** /ɪnˈʃɜːr; ɪnˈʃʊə/ *(US) insure* *(v)* 1 omogućiti: All these features ensure a free choice of the most appropriate bearing material. Never leave the wheelhouse unattended, and always monitor alterations of course to ensure the vessel turns as expected.; 2 provjeriti, utvrditi: The two owners visited the vessel during the day to ensure that the auxiliary engine was running.; 3 *(mar ins)* osigurati

**entablature** The entablature is the name given to the cylinder block which incorporates the...
entail (v) podrazumijevati, povlačiti za sobo, uključivati
entangle (n) (seamanship) zapletiti (se), zapetljati (se), zakvačiti, zahvatiti: The vessel came rapidly on port and got out of the buoyed fairway and entangled the buoy chain with her screw.

entangled (adj) (seamanship) = fouled any entangled lines, rigging, or equipment zapleten (uže, lanac, mornar): The free end of the messenger line then became entangled in ‘riding turns’, causing it to be heaved back into the warping drum with the part under tension. Out on deck the skipper became entangled in the back rope, possibly as a result of being unbalanced by the heavy rolling, and he was dragged overboard. In an attempt to prevent injury he jumped into the water as he was being pulled towards the deck edge, but his leg remained entangled in the rope.

enter /ˈentə/ (v) ~ inwards (mar law) prijaviti dolazak broda (carinskim i lučkim vlastima), ~ outwards prijaviti odlazak broda (carinskim i lučkim vlastima) 1 prodrijeti, prodirati (o vodi, moru): Sea water also entered the engine room.; 2 unijeti (podatak): If the cargo is discharged in a different condition, or in a lesser quantity, than that entered on the B/L, the shipowners may be held liable for the damage or shortfall.; 3 unijeti u dnevnik / zapisnik; 4 ući u luku: the accident occurred while the ro-ro vessel was entering the lock.; 5 ući

enter a ship to clear customs and perform other administrative duties upon arrival at a foreign port before allowing passengers or crew to go ashore

(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) prijaviti dolazak brod lučkim vlastima

entered goods (mar law) prijavljena roba / teret

enter the port (=enter the harbour) (v) (navig) ući u luku, uploviti u luku: The vessel entered the port with a Pilot on board but the Pilot could not read the draft outside the harbour as the sea was rough. As the vessel entered the harbour, the mooring teams closed up and made ready to come alongside starboard side to. What precautions are taken while preparing the ship for entering a port?

entitle (v) 1 (mar law) ovlastiti be ~d to biti ovlašten, imati pravo na: I turned 45-60 degrees to port, allowing other vessel to maintain current heading so she would notice my alteration and see that she could stand on as she was entitled to do.; 2 nasloviti (knjigu, članak), nazvati:

entitled (adj) (mar law) ovlašten, koji ima pravo na person ~ to the goods 1 osoba koja ima pravo na robu, osoba ovlaštena da prими robu; 2: An Employee, in accordance with Article 1 above, shall be entitled to the wages and other benefits of this Agreement U skladu s gornjim člankom 1 Pomorac/zaposlenik ima pravo na zaradu (plaću) i ostale naknade (beneficije) iz ovog ugovora

entrance (n) (navig, ports) 1 přístup; 2 ulaz port ~ a passage which allows safe access to a harbour ulaz u luku: A pilot boarded a fully loaded product tanker as it approached the port entrance., access ~ ulaz za uplovljene (u luku), width of ~ širina ulaza u luku, depth at ~ dubina mora na ulazu u luku

entry 1 (mar law) bilješka (u dnevniku, upisniku brodova itd.), zapis (u
It is wise to put a position on the chart or make an entry in the log book when there are other vessels or hazards in close proximity. He also has to make an entry in the Radio Log with timings, so he will use a small source of light and lose his night vision for a few minutes every time he uses a light.

make an ~ in the logbook unijeti zabilješku u brodski dnevnik; 2 (mar law) prijava ~ form obrazac prijave; 3 (navig, ports) ulaz (u luku): After boarding a 2000gt dry cargo ship, a harbour pilot discussed with the vessel’s master his plan for the vessel’s first entry to the port, which was accessed from the open sea via a 30m wide river. The vessel was denied entry in the ports. Due to the crisis ports around the world are denying entry to certain vessels. https://safety4sea.com/ ~ to the Rijeka Bay ulaz u Riječki zaljev; 4 unos (podatka); 5 (nav arch) ulaz: The enclosed space was safe for entry, having been visited only 30 minutes earlier by the inspection team. Thus, an entry into the tank was not necessary for making the tank dry before tank inspection.

Entry and sojourn of foreign boats and yachts intended for sports and leisure (boating/yachting, mar law) Ulazak stranih brodica i jaht namijenjenih sportu i razonodi i njihov boravak (u Hrvatskoj) entry by sea ulazak morem, entry by land or after winter vacation ulazak kopnom ili sa zimovanja, navigation safety fee and pollution prevention naknada za sigurnost plovidbe i zaštita od onečišćenja, fee for use of aids for navigation safety (light fee) naknada za korištenje objektima sigurnosti plovidbe (svjetlarina), soyourn tax boravišna pristojba, authorization of vessel users punomoć korisnika plovila, sailing out from the Republic of Croatia isplavljenje plovila iz Republike Hrvatske, licences for operating small vessels and yachts dozvola za upravljanje brodicama i jahtama (www.mpbi.hr/UserDocsImages)
enumerate /ˈnjuː.mreɪt/ (v) nabrojiti, specificirati
envelope (n) 1 omotnica, kuverta; 2 (electr) ovojnica signal ~ ovojnic signala

environment /ɪnˈvaɪrənmənt/ (n) protection of the ~ zaštita okoliša okoliš affect the ~ utjecati na okoliš (negativno), marine ~ morski okoliš: Specialized coatings are applied where necessary for protection against the marine environment. The vessel was left in the lurch with crew on board and as a potential danger to safety of lives as well as marine environment as she had lost one anchor in a storm when anchored. This demonstrates the susceptibility of exposed engines/fuel tanks in a harsh marine environment, highlighting the requirement for extra diligence by operators in respect of maintenance and inspection. cause damage to the ~ prouzročiti štetu morskom okolišu: The Erika, a 25 year-old single-hull oil tanker, broke in two off France,
polluting almost 400 km of French coastline and causing unprecedented damage to marine environment.
SAFETY4SEA <news@safety4sea.com>

environmental award (n) (environ) (mar ins) nagrada za ekološko spašavanje, ekološka nagrada
environmental awareness (n) (environ) svijest o skrbi za okoliš, svijest o zaštititii okoliša: First of all we would like to complement the ship's staff, especially the Chief Engineer and the Master for their safety and environmental awareness.

environmental barrier (n) (environ) zaštitna obrana (plutajuća) za zaustavljanje onečišćenja, zaštitna barijera (plutajuća) za zaustavljanje onečišćenja: Contractors have now started working around the clock in constructing an environmental barrier around the wreck and also preparing the wreck for the cutting - gCaptain https://gCaptain.com

environmental conditions (n) (environ) ekološki uvjeti: Environmental conditions at the time were good; there was hardly any swell or wind.

environmental damage (environ, safety, mar ins) ekološka šteta: While many believe that the bulk of this environmental damage is done by major spills, such as the Exxon Valdez or the Deepwater Horizon events, in reality, every spill matters. No environmental damage was reported / sustained.

environmental harm (n) (mar ins, safety, environ) šteta zbog onečišćenja
environmental impact (n) (environ) utjecaj na okoliš: There is growing concern regarding the environmental impact and associated costs of petroleum based fluid discharges. Oil pollution response plans and drills are not frequently required to be used in anger, but when an incident does occur their value is immense and can significantly reduce the environmental impact of a spill. The big concern now is for the environmental impact, he said. There could also be a very tall plume of condensate, this ultra-refined form of oil, underneath the surface.
http://www.bbc.com/news/world-asia-china-42690247 Environmental impact: Pilot ladder damaged; Minor damage to fendering ~ statement izvješće o utjecaju na okoliš

environmentally-friendly (adj) u skladu s okolišem, ekološki prologođen: The ships represent a new generation of environmentally friendly ro-ro ships as they comply with the latest environmental rules of the new IMO-standard EEDI (Energy Efficiency Design Index), "

environmental pollution (n) onečišćenje okoliša: The vessel grounded in a violent storm, without injuries or loss of life but causing environmental pollution to the sea and coastal areas.

environmental protection barrier (=EPB) (n) (environ) SEE boom zaštitna ekološka brana, plutajuća ekološka brana, zaštitna brana od onečišćenja: An environmental protection barrier (EPB) is to be built around ship leaking crude oil.. The EPB that will mitigate threats to the marine ecosystem.

environmental salvage (n) (mar ins) = environmental award ekološka nagrada, nagrada za ekološko spašavanje
environmental status (n) (safety) ekološko stanje morskog okoliša good ~

dobro ekološko stanje morskog okoliša

EOOW (=Engineer Officer of the Watch) (n) (mar law) = Engineer Officer of the Watch časnik straže u stroju: EOOW - This MCA certificate competency (CoC) allows candidates to work as an engineering Officer of the Watch (OOW) on any size and type of vessel. https://www.warsashsuperyachtacademy.com/courses/engineering/unlimited-certification/engineer-office-r-of-the-watch-unlimited/engineer-officer-of-the-watch-unlimited.aspx Unless a candidate is exempted by
the UK Maritime and Coastguard Agency due to previous industrial experience/qualifications, an MNTB Workshop Skills Training programme has to be undertaken and passed before initial certification as Engineer Officer of the Watch (EOOW) can be gained.

ţa u stroju - za neograničenu snagu stroja

EPFS (=Electronic Positioning Fixing System) (n) (navig) sustav za elektroničko određivanje položaja

ephemerides /ˌɛfɪˈmiəri ːdʒiː/ (n) (navig) an annual publication giving the positions of the sun, moon, and planets during the course of a year, information concerning eclipses, astronomical constants, etc

efemerida

ephemeris /ɛfɪˈmerɪs/ (n) (navig) table of the positions of celestial bodies at regular intervals, often with supplementary information. efemerid: In the USA, an official (and initially separate) series of ephemeris publications began with the issue for 1855 as The American Ephemeris and Nautical Almanac

epicontinental sea (n) (mar law) SEE continental shelf That portion of the sea lying upon the continental shelf, and the portions which extend into the interior of the continent with similar shallow depths. Also known as epeiric sea; inland sea.

(ephttp://encyclopedia2.thefreedictionary.com/epicontinental+sea) epikontinentalno more

EPIRB /ˈpiː rɛb/ (=emergency position indicating radiobeacon) (safety, navig)

SEE beacon: A radio transmitter that emits a distinctive distress signal to aircraft and satellite receivers supplying an exact position for search and rescue missions

(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary); A device usually carried aboard maritime craft that transmits a signal which alerts search and rescue authorities and enables rescue units to locate the scene of the distress. (CamSAR2014) radio pulitača za označavanje pozicije u slučaju opasnosti ili potonuća, epirb: The EPIRB alerted the coastguard and enabled the recovery to be initiated. No matter where you are in the world, an EPIRB sends a signal to emergency responders through a satellite system called Cospas-Sarsat. An EPIRB is used to alert search and rescue services in the event of an emergency. It does this by transmitting a coded message on the 406MHz distress frequency. The owner also provided an EPIRB and one of the crew had a personal

locator beacon. ship's ~

~ vrste epirba: 1. COSPAS-SARSAT – EPIRBS under the COSPAS-SARSAT system work on the 406.025 MHz and 121.5 MHz band and are applicable for all sea areas (https://www.marineinsight.com/marine-safety/what-is-epirb-emergency-position-indicating-radio-beacon/) 2. INMARSAT E – 1.6 GHz band is the one which this EPIRB works on. These are applicable for sea areas A1, A2 and A3 3. VHF CH 70– This works on the 156.525 MHz band and are applicable for sea area
A1 only, **activate ~ aktivirati EPIRB**: The crew **activated their EPIRB** and a search and rescue operation commenced.

**EPIRB distress alert** *(n) (safety) poziv za pomoć u pogibli putem EPIRB-a:*

MV ‘Tian Fu’, a Hong Kong flagged vessel, saved the survivors. They sent out **EPIRB distress alert** from their boat.

**epoxy** *(n) (nav arch) a polymer resin used for coatings and adhesives epoksidna smola, epoksi-smola:*

After approximately two hours of painting, using a spray gun to apply **epoxy paint** with thinners, there was an explosion which blew the tank apart. We also had limited success using **epoxy and polyurethane adhesive**

https://www.practical-sailor.com/blog/Repairing-Plastic-Water-or-Holding-Tanks-12520-1.html

Epoxy is better for repairing small holes because it is easier to thicken and sets up fairly quickly. The repair will set within a few minutes.

**epoxy filling** *(n) (boating/yachting) epoksi kit*

**epoxy resin** *(n) (nav arch) epoksidna smola, epoksi-smola:*

After alignment of the bedplate, **epoxy resin** choking material is poured around the sleeves.

**equation** *(n) (math) jednadžba*

**equator** *(n) (geogr) ekvator:*

AREA VIII NORTH OF **EQUATOR** PART-I: NO STORM WARNING PART-II: THE LOPAR OVER NW BAY AND ...

**equatorial trough** *(n) (meteorol) ekvatorijalno područje zatišja*

**equinox** *(n) (navig) ekvinocij*

The day, twice each year, when the sun is perpendicular to the earth's equator, causing day or night to be exactly 12 hours anywhere on the earth.

(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary)

**equip** *(v) 1 opremiti; 2 snabdjeti*

**equipment** *(n) fire-fighting ~ protupožarna prema:*

The port operator must inspect the work site and issue the required work permits after ensuring that there is no combustible material in the vicinity, **fire fighting equipment** is readily available and a fire watch is being maintained. The main **portable means of fire fighting equipment** are the different types of hand held extinguishers.

**safety ~ sigurnosna oprema, zaštitna oprema:***

During fire safety equipment verifications, the fixed CO2 cargo hold line identified as number five hold was tested by blowing compressed air into the system line. Seafarers should always wear safety equipment where appropriate, and be alert for any hazards caused by the presence of oil, grease or water on deck. The emergency generator is a vital part of ship's safety equipment and it is the most vulnerable engine onboard.

**cargo handling ~ oprema za rukovanje teretom, mehanizacija:***

**cargo handling equipment** will be arranged on deck and there will be large hatch openings closed with steel hatch covers.

**mooring equipment**

**uređaj za privezivanje broda:***

Lessons learned. The limitations of the vessel’s anchor and mooring equipment are of paramount importance.

**anchoring ~ uređaj za sidrenje:*** It must be remembered that anchoring equipment is designed and manufactured only for mooring a vessel in moderate sea conditions, and for relatively short periods.
Attention was also paid to the weight of the ancillary equipment serving the engine. dodatna oprema, electrical ~ elektrčni uređaji: We urge all our vessels to check areas with switchboards and electrical equipment and ensure that CO2 extinguishers are placed in these areas., bridge ~ oprema navigacijskog mosta: Prior to weighing anchor, the master had completed the bridge equipment checklist in the deck logbook, with no defects noted., cargo ~ uređaj za rukovanje teretom: Investigations revealed that several pieces of the vessel’s cargo equipment, some navigation equipment, and the watch alarm were defective., emergency ~ oprema za slučaj opasnosti, oprema za nužnu uporabu, lifting equipment uređaji za ukrcaj i iskrcaj tereta, vertikalna lučka mehanizacija: Lifting equipment should always be in date for survey or test before it is used., life-saving ~ oprema za spašavanje života: This incident involved the vessel’s rescue boat, a key item of life-saving equipment which must be ready for deployment at any time (SOLAS Chapter III – Life Saving Appliances , control ~ upravljački uređaj, uređaj za upravljanje: All control equipment and alarms should be examined for correct operation., fuel injection ~ uređaj za ubrizgavanje goriva: The combination of an ineffective oil mist detector, poorly adjusted fuel injection equipment and an unknown maintenance history meant that this was an accident waiting to happen., lashing ~ : A part of the lashing equipment fell and injured a stevedore. oprema za vezivanje tereta, navigation ~ navigacijski uređaji, navigacijska oprema: The captain was relying solely on the turbine safety lights and didn’t make good use of the lookout and navigation equipment on board., navigational ~ navigacijski uređaji, navigacijska oprema: The safety investigation concluded that bridge navigational equipment, in particular the ECDIS, was not utilised to its full potential., protective ~ zaštitna oprema, uređaji za zaštitu: The crew should wear appropriate protective equipment and clothing when on mooring stations., personal protective equipment; PPE osobna zaštitna oprema, oprema za osobnu zaštitu: Both were properly fitted with appropriate personal protective equipment (PPE), including approved full body harnesses and fall arrest equipment., release ~ uređaj za otpuštanje (kuke), otpusna naprava: Fortunately the Lifeboat Onload Release equipment manual was clear, complete and satisfied the requirements of SOLAS for onboard instructions of maintenance., rescue ~ spašavalačka oprema, oprema za spašavanje: The company had not considered the need to provide any rescue equipment such as harnesses, lifelines or lifting equipment or other appropriate emergency arrangements., survival ~ oprema za preživljavanje: However, the level of survival equipment within the raft came as a surprise to them as they were expecting more. (nav arch, marine eng, safety, cargo handling) oprema (broda), Italian:equipaggiamento, uređaj (npr. za sidrenje, privezivanje, navigacijski itd.): All available equipment should be used by the OOW, whether be it ARPA, AIS or anti-collision alarms (COLREG rule 7 -Risk of collision).

equipment failure (n) (marine eng, ship_equipment) zataživanje opreme: Critical equipment failure Zataživanje kritične opreme equipped with (adj) opremljen s, koji sadrži / ima: The tanker was equipped with ground stabilised radar, log and GPS, all of which indicated that she was making sternway. The vessel was equipped with a bow thrust unit, rated at 20t, to assist with berthing manoeuvres. Each vessel was equipped with azimuth stern thrusters and a bow thruster, but the bow thruster fitted to OSVI, which was the easterly of the two vessels, was defective. Both TCA and TCR series turbochargers are available optionally with VTA technology, whereby a nozzle ring equipped with adjustable vanes replaces the fixed
vane ring used in the standard turbochargers.

**equity**¹ (n) (mar law) A principle of fundamental fairness and justice applied by admiralty courts and arbitrators in maritime disputes where the circumstances of the case warrant doing so (e.g. altering the normal order of ranking of maritime claims **načelo poštenosti**

**equity**² (n) ¹ (financ) Any right to an asset or property, held by a creditor, proprietor, or stockholder (shareholder). **kapital**; ² (financ, shipping econ) On a balance sheet, equity represents funds contributed by the owners (stockholders) plus retained earnings or minus the accumulated losses. (http://www.businessdictionary.com/definition/equity.html); Net worth of a person or company computed by subtracting total liabilities from the total assets. In case of cooperatives, equity represents members’ investment plus retained earnings or minus losses. (http://www.businessdictionary.com/definition/equity.html)

**vlasnički kapital** (EuroTerm): The Norwegian operator attracts private equity. Norveški brodar privlači privatni vlasnički kapital (radi kupnje brodova). **vlasnički kapital** represents members’ investment plus retained earnings or minus losses.

**ERM** (=electronic range marker) (n) (navig) an electronic means of measuring the radar bearing of a target with a rotating radial line on the radar screen **elektronički daljinomjer**: The ship’s position was monitored by GPS waypoint navigation and the helmsman maintained a distance of 1.5 to 2 miles off the coast using the radar **elektronički daljinomjer**.

**erosion** /ɪˈrəʊʒən/ (n) (marine eng) **erozija**: Look carefully for any signs of erosion damage.

~ resistant **otporan na eroziju**

**error** (n) (safety) **human ~ ljudska grješka, ljudski faktor**: Human error accounts for the majority of accidents. The fault performed without intention, purpose or desire; errors may be based on skills, decision and perception of errors. **grješka, greška**: Effective bridge resource management should eliminate the risk that an error on the part of one person could result in a dangerous situation.

**compass ~ grješka kompasa**: Magnetic compass error is se / gyro compass course / magnetic compass course is ... degrees. Gyro compass error is ... degrees plus / minus. , ~ of the sextant grješka sekstanta, assess an ~ utvrđivanje pogreške, plot an ~ ucrtat grešku, mean ~ srednja pogreška, gross navigational ~ gruba navigacijska pogreška, gruba pogreška, systemic ~ sistemska pogreška, navigational ~ navigacijska pogreška, pogreška položaja broda:, accidental ~ slučajna pogreška, square ~ kvadratna pogreška mean ~ srednja kvadratna pogreška, vector ~ vektorska pogreška, navigational ~ navigacijska pogreška, repeatable ~ grješka ponavljanja, yaw error grješka određivanja radarskog azimuta zbog zaošijavanja

**error correction unit** (n) (navig) **korektor grešaka**

**escape** (v) (safety) ¹ izbjeći, pobjeći: The third engineer was fortunate to escape serious injury. Crew members gathered to fight the fire while the Chief Navigating Officer rang the Master from his cabin to seek advice on how to escape the fire. He was advised to escape through the starboard aft accommodation door.; ² izaći: Floodwater was trapped in the shelter, and the vessel capsized before the water could escape through the freeing ports.; ³ istjeći: This had allowed heated fuel and vapour to escape where it was ignited, probably by the engine’s hot exhaust manifold.; ⁴ propustiti
Without stating his intentions, he entered the lift car, climbed through the escape hatch on the top, and shut the hatch behind him. The skipper took an extinguisher from the wheelhouse and operated it through the emergency escape hatch. All passengers are requested to follow the escape routes shown.

This led to undue pressurising of cargo lines for all cargo tanks loaded with MTBE cargo and No 1 stbd tank filling up causing escape of cargo onto the deck through the PV Valve. This may result in an explosion if a flammable phosphine: gas: air mixture ignites spontaneously, accompanied by the continuing escape of toxic phosphine gas.

The superintendent, who was on the jetty inspecting the ship side at that time, had a narrow escape.

The cargo hold had only one escape route;

The two ships were given pilots and were escorted to a safe anchorage. The destroyers escorted the ship to the port.

Vessels outbound from the Port of Southampton should establish communications at least 30 minutes prior to leaving berth and obtain permission from Southampton VTS before letting go. The vessel’s radar echo was acquired and tracked by the VTS officer, who made several attempts to establish communications with the unknown contact which was heading downstream. The third officer attempted to establish communication with the other ship but neither he nor the container ship’s master knew the tanker’s name.

A quick and easy method to establish whether or not a risk of collision may be developing with another vessel on radar, is to position the EBL over the centre of the contact, as if to take a bearing of it. If after two or three minutes the contact appears to be moving towards the centre of the display and along the EBL, a risk of collision maybe developing.

With the PRU value, stating the external moment relative to the engine power, it is possible to give an estimate of the risk of hull vibrations for a specific engine. The shipping company and its
salvors are still unable to make a precise estimate of any damage to the ship or its cargo.

estimate /ˈɛstɪ miːt/ (v) 1 procijeniti: If we use that as a factor, we can estimate the total reported incidents were 715 in 11 years or about 65 a year. The passing distance was estimated at less than 100m. It was estimated that about 2.5 gallons of sea water were entering the bilge every 15 minutes. Tug A can tow at 5 to 6 kts solo, with all the problems encountered with tug B, a safe speed was estimated to be 4 to 4.8 knots.

estimated position (=EP) (n) (navig) procijenjena pozicija (broda): After the alteration of course to 270°, the OOW did not effectively monitor the vessel’s position; no fix was taken when steady on the new course, no estimated position (EP) was calculated and radar parallel indexing was not used.

Estimated Time of Arrival (=ETA) procijenjeno vrijeme dolaska (broda), ETA: After the initial contact with the pilots regarding our Estimated Time of Arrival and pilot boarding arrangements, no further contact was made. notice of ~ obavijest o ETA-i, notify ~ poslati obavijest o ETA-i

Estimated Time of Departure (=ETD) Procijenjeno vrijeme polaska (broda): Warming through is to commence, not less than 12 hours prior to the estimated time of departure.

estimate tidal heights (v) (oceanogr) procijeniti visinu plime estuary (n) (geogr) an area of waterway where river water flows into the sea estuar, riječno ušće: The vessel, loaded to a draught of 13.5 metres, was upbound in a river estuary. A loaded tanker was outward bound along an estuary at about 10 knots with an underkeel clearance of about three metres. The vessel was guided by a radar pilot from Elbe Approach East Radar to the estuary of the river Elbe.

ETA /ˈɛtə/ (=estimated time of arrival) (shipping econ) = ETA Notice procijenjeno vrijeme dolaska (broda), procijenjeno vrijeme dolaska u luku odredišta: Passage planning had identified that one of the year’s strongest spring ebb tides was running and the estimated time of arrival was at low water, but that sufficient safe water still existed in the dredged channel for a safe entry to be made. To achieve the ETA at the pilot station, minimum speed was selected, but the stronger than expected flood tide left the OOW with the choice of either advancing his ETA at ...(name) Pilot Station in local time? My ETA at...(name) Pilot Station is ... hours local time. confirm the ~ potvrditi očekivani vrijeme dolaska broda:

Masters of vessels bound for Chepstow, Lydney and Sharpness boarding a pilot from the Barry Roads Station must give at least 24 hours confirmation of their ETA off the Breaksea Light, advance the ~ ranije procijenjeno vrijeme dolaska broda: The master decided to advance the ETA, and the OOW contacted the pilots to arrange an 0540 embarkation., amend the ~ ispraviti procijenjeno vrijeme dolaska: The pilots were called up and the ETA was amended to 0830., adjust the ~ prilagoditi procijenjeno vrijeme dolaska: In the evening, in order to adjust the ETA at the destination port the following morning, the Master decided to stop and drift for an hour in open water before resuming passage at full speed.

ETA Notice obavijest o očekivanoj dolasku broda u luku ETD /ˈɛtə dɛr/ (=Estimated Time of Departure) (n) (shipping econ) procijenjeno vrijeme odlaska iz luke: Masters of vessels outward bound from Sharpness and sailing before 1300 hours must agree, either directly or through their Agent, their ETD with the Duty Pilot by telephone before 1730 hours on the previous day. the agreed ETD must be confirmed by the Master directly to the
ETO (=Electrotechnical Officer; electronics officer) *(n)* = electrotechnical officer *(mar law, electr)* elektrotehnički časnika: Responsible for electronics troubleshooting, maintenance and repair of various onboard electronics based systems, including navigation, radio and satellite communications, automation, IT support including LAN and client side computers. Also responsible for email configuration and marine radio communications.

Euro pallet *(n)* *(logist)* A euro pallet measures 80 by 120 cm. Throughout Europe, this pallet has a deposit value of about EUR 15.00 (2017 rate). [https://www.logisticsglossary.com/term/euro-pallet/](https://www.logisticsglossary.com/term/euro-pallet/)

standardna paleta EU

European cockle *(n)* *(fishing)* kapica prugasta

European date mussel *(n)* *(fishing)* prstac

European lobster *(n)* *(fishing)* Lat. Homarus gammarus hlap, llItalian:astice

---

**European Maritime Single Window** *(n)* *(mar law, logist)* an agreement was reached (On 8 February 2019) between the European Council, the European Commission and the European Parliament, regarding the proposal to harmonise ship notifications in Europe, through the European Maritime Single Window. [https://about.safety4sea.com/](https://about.safety4sea.com/)

**Jedinstveni europski pomorski prozor (za elektroničku najavu dolaska brodova):** A draft report published on 15 October 2018, by the European Parliament’s Committee on Transport and Tourism sets out a proposal for a Regulation creating a European Maritime Single Window environment. • The report focuses on the harmonisation of data elements and data sets, and supports the cooperation between customs and maritime authorities at both national and Union level. It also recognises that, even with a fully harmonised data set, relevant authorities might require additional data [https://about.safety4sea.com/](https://about.safety4sea.com/) Moreover, the draft report states that Member states should allow the use of port community systems, as long as those systems are then passing the necessary information to the National Single Window [https://about.safety4sea.com/](https://about.safety4sea.com/) harmonized ship notification through the European Maritime Single Window

**Jedinstvenog europskog pomorskog prozora** harmonizirana elektronička najava dolaska brodova putem

**evacuate** /ˈvækjuət/ *(v)* *(safety)* evakuirati, spasiti i odvesti na sugurno mjesto, spasiti se (ukrcavanjem u brodicu za spašavanje itd.): The chief officer was evacuated immediately and provided with resuscitation treatment, but could not be rescued. Emergency services were very quickly on scene, with helicopter and lifeboat both available to evacuate the casualty. ~ the crew evakuirati posadu: The Indian Navy helped evacuate all 20 crew from a sinking containership off Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them. ~ the vessel evakuirati sve ljude s broda: ... the skipper continually monitored the flooding boundary, the crew donned their lifejackets, and the liferaft was deployed in case they had to evacuate the vessel, evacuate to a liferaft spasiti se ukrcavanjem u splav za spašavanje: Three of the four people were able to evacuate to a life raft before the vessel sank. One crew member remained missing, ~ by helicopter evakuirati helikopterom: Initially 14 persons were evacuated by helicopter leaving 9 onboard attempting to stabilize the situation. [https://safety4sea.com/](https://safety4sea.com/)
evaporation (n) (mar law, shipping econ) dokaz: There was evidence that the use of rope slings to lift the jumper hose in the past had probably caused the coiled wire sleeve to be displaced, causing the hose to kink. This could then be used as evidence to the IMO committees that there are still problems with DSC.

documentary ~ dokazna dokumentacija, pismena dokumentacija: This clearance is not given until the Collector of Customs is satisfied that documentary evidence has been produced to testify that the cargo is in order, the necessary permits have been procured, and ..., in his ~ u svojoj izjavi, u svoju obranu, produce the ~ predočiti / predati dokumentaciju / dokazni materijal, dati na uvid dokaze, take photographic ~ snimiti dokaz: Once with the Harbour Master the vessel’s Master was shown photographic evidence that clearly showed ballast water being discharged from the ship., provide evidence pružiti dokaz, dati dokaz: Histograms of engine operation can also be produced to provide
Evidence of performance over time.

Examination of the selected track showed that it did not in fact pass between the rock and the island, but to the other side of the rock and over other obstruction. During examination it was found that the hose and discharge horn had been replaced. A thorough examination of the fore peak found that of the four frames, two had waste and come away from the shell plating completely.

Excessive wear will take place if the crosshead guides are out of alignment or if the guide clearances are excessive. However, due to excessive wear (estimated to be 6 bar), about 500 litres of DO was pushed out of the port tank vent, some of it overflowing over the upper edge of the drip.

Excessive pressure prekomjerni tlak: Fundamental to the vessel being too close to the edge of the bank and at an excessive speed was the decision to overtake the barge at the entrance of the smaller channel. The engine crankshaft was damaged and the entablature probably distorted due to the excessive heat generated as a result of the overspeed.

Excessive speed previsoka brzina: The turbochargers are provided with a connection for Disatac electronic tachometers, and prepared for signal equipment to indicate excessive vibration of the turbochargers.

Examine the cargo and to witness the loading and discharge should there be subsequent claims.

Regular examination and testing of lifting equipment is an essential element of safety management and risk reduction.

Excessive speed was the decision to overtake the barge at the entrance of the smaller channel.
radijskih poruka: Editor’s note: In this context, 'lookout by all available means' includes the use of VHF, as the radio exchange made it apparent to the stand-on vessel that the give-way vessel was not intending to take appropriate action.

excluded spaces (n) (shipping econ) izuzeti / isključeni (brodski) prostori

exclusive economic zone (n) (mar law) an area beyond and adjacent to the territorial sea, subject to the specific legal regime established in this Part, under which the rights and jurisdiction of the coastal State and the rights and freedoms of other States are governed by the relevant provisions of this Convention. isključivi gospodarski pojas: In the exclusive economic zone, the coastal State has sovereign rights for the purpose of exploring and exploiting, conserving and managing the natural resources, whether living or non-living, of the waters superjacent to the seabed and of the seabed and its subsoil, and with regard to other activities for the economic exploitation and exploration of the zone, such as the production of energy from the water, currents and winds; (UNCLOS)

excursion ship (n) (nav arch) izletnički brod

execution /ˈeksɪkjuːʃən/ (n) provedba, izvršenje: Poor planning / execution of the mooring manoeuvre. It is appropriate to emphasise the critical nature of the Master/Pilot relationship, and the Master’s obligation to monitor the pilot’s performance and execution of the vessel’s passage plan at all times. Inadequate work planning and execution; 2 (mar law) ovrha, izvršenje (sudske odluke)

execution on a ship (n) (mar ins, mar law) ovrha na brodu

execution proceedings (n) (mar law, mar ins) ovršne radnje

execution proposal (n) (mar law) prijedlog za ovrhu

executive /ɪɡˈzɛkʃjʊtɪv/ (n) rukovoditelj, izvršni službenik: Mr XY joined the Insurance Association as Chief Executive in 2005. He was appointed Chief Executive in October 2012.

Executive Department (n) (navy) The Executive Department provides medical services, administrative services, counseling services, and a Master-At-Arms Force that maintains good order and discipline in the ship. It is led by the Executive Officer. Izvršna služba (ratnog broda), zdravstvena, administrativna i disciplinska služba (ratnog broda)

Personnel The Personnel Specialists (PSs) update Sailor’s service records, chop orders, and are the personnel charged with ensuring Sailors receive all payment benefits for which they are eligible and that all crew members are paid the correct amount on time. odjel za ljudske resurse (ratnog broda), Administrativni odjel (tarnog broda), Career Counseling The ship maintains one Navy Counselor (NC) on board to assist crew members in applying for numerous programs offered by the Navy. The NC ensures that all reenlistment requests are accurate and submitted. odjel za izobrazbu (na ratnom brodu), Master-at-Arms The Master-At-Arms Petty Officers (MAs) maintain good order and discipline both on and off the ship. MAs continuously inspect the ship for cleanliness and safety. disciplinski odjel, Medical The ship maintains two Hospital Corpsman (HM) on board to support the crew with medical treatment, and to provide quick response in case of emergency. The ship’s Independent Duty Corpsman (IDC), “Doc,” serves as the command’s sole resource for both routine and emergency medical care.

Executive Officer (=XO; Exec.) (n) (navy) The Executive Officer (XO) is the second in command on the ship. He functions as the administrator of the ship and has overall responsibility for all personnel on board. (http://www.dd596.com/Our-Ship/Organization); The executive officer. The Commanding Officer’s chief assistant is the executive officer, who is detailed as such by the Secretary of
exemption

Exemption surveys. pilot ~ certificate izuzeće od obveze uzimanja peljara (u luci): However, due to the frequency of visits to the port, one officer did have a pilotage exemption certificate. The master, who held a Pilotage Exemption Certificate, decided to swing the vessel at the berth because he did not wish to depart stern-first in such conditions. ~ clause a clause in a contract, which relieves the carrier’s responsibility for certain events. Zaporka o izuzeću, odredba o izuzeću, klausula o izuzeću (od odgovornosti), request for ~ zahtjev za izuzeću: The Flag State’s process for managing requests for exemptions from international safety regulations was also found to lack rigour. ~ from izuzeće od Exemption from Deratisation Certificate izuzeće od obveze predočenja svjedodžbe o deratizaciji

exercise /ˈeksə ˈsaɪz/ (n) 1 vježba, vježbanje: The evening before the exercise, a team briefing was held, during which an alternative exercise to the crossing was briefly discussed. revision ~ vježba ponavljanja; 2 upotreba, primjena exercise /ˈeksə ˈsaɪz/ (v) 1 vježbati, uvježбавати: The general health of officers has improved since they now have time to exercise and sleep more regularly: The retention of personnel is significantly higher as officers get better job satisfaction and are more willing to continue; 2 primjenjivati, prakticirati: As the vessel approached a precautionary area at 21 knots, Vessel Traffic Services (VTS) advised the vessel to exercise caution as three outbound vessels were ahead and intending to cross the TSS.

exhaust /ɪkˈzuːt/ ~ system ispušni sustav / sistem: A simple yet efficient exhaust layout designated Daihatsu single-pipe (DSP) exhaust system recovers gas energy effectively by allowing a good match to the turbocharger. ~ arrangement raspored ispuha, ispušni sustav, ~ line ispušni vod, ispušni cjevovod: It is desirable that the engine room air should be able to circulate inside the exhaust line, the air outlet being located as close as possible to the end of the exhaust line. 1 (marine eng) ispuh, ispust, škarik: ... airborne noise is generated from the air intake, the structure and the exhaust. Flames came out of the main engine exhaust at the funnel and ignited waste oil that was lying on the funnel top. ; 2 ispušni plin exhaust /ɪkˈzuːt/ (v) 1 ispuštati; 2 isprazniti exhaust analyzer (n) (marine eng) A test instrument used to measure the density of the exhaust smoke to determine the combustion efficiency. uređaj za analizu ispuha

exhaust and inlet system (n) (marine eng) sustav ispuha i dovoda zraka exhaust gas (n) (marine eng) ispušni plin: The passages for the inlet air and exhaust gas are incorporated, as are the cooling water passages and spaces. As well as these, most oiltankers install inert gas generators which may continuously produce an exhaust gas containing nitrogen and carbon dioxide for fire extinguishing. ~ emission emisija ispušnih plinova, ispuštanje ispušnih plinova: Because of the need to minimise exhaust gas emissions in this area, the ferry will operate primarily on LNG using two 9-cylinder Wärtsilä 20DF medium-speed dual-fuel engines.

exhaust gas cleaning system (EGCS) (n) (marine eng) uređaj za
Working with Euroshore, the association of European port reception facility providers, the EGCSA has been taking a science-based approach to the quality of scrubber washwater discharges. The number of merchant ships with exhaust gas cleaning systems either installed or on order is approaching 1,000 ships worldwide, according to a survey by the Exhaust Gas Cleaning Systems Association. (2018) www.gcaptain.com

Drain cocks in exhaust and inlet manifolds are to remain open when machines are at rest and should be regularly tested and proved clear of blockages. The engine room fire was probably caused by the ignition of lubricating oil that sprayed from a fatigue-fractured fitting on one of the main engine’s pre-lubrication oil pumps onto the hot surface of the main engine’s exhaust manifold.

Exhaust gas is conducted away from the turbocharger through the outlet casing via exhaust pipes to the exhaust silencer, then out into the open air through the stack or through the exhaust gas boiler.

Exhaust gas cleaning systems

exhaust manifold (n) (marine eng) a device which connects all the exhaust ports to one outlet

ispušni kolektor, razvodna cijev ispuha: Drain cocks in exhaust and inlet manifolds are to remain open when machines are at rest and should be regularly tested and proved clear of blockages.

exhaust pipe (n) (marine eng) ispušna cijev: If the oil mist meets a hot spot it can be ignited; it is therefore important to keep the insulation around the exhaust pipes in good condition.

exhaust port (n) (marine eng) The opening through which exhaust gas passes from the cylinder to the manifold. (http://www.marinediesel-europe.com/) ispušni kanal, ispušni otvor: As the piston uncovers the exhaust ports on the power stroke, the exhaust gas starts to leave the cylinder. The opening and closing of the exhaust and air inlet ports are shown diagrammatically in the typical timing diagram.

exhaust silencer (n) (marine eng) prigušivač ispuha: Exhaust gas is conducted away from the turbocharger through the outlet casing via exhaust pipes to the exhaust silencer, then out into the open air through the stack or through the exhaust gas boiler.

exhaust steam (n) (marine eng) ispušna para
exhaust valve (n) (marine eng) ispušni ventil: The two inlet and two exhaust valves seat on renewable inserts in the head, those for exhaust service being intensively cooled and sealed with Viton O-rings. A nodular cast iron cylinder head, hydraulically bolted to the crankcase at four points, incorporates two inlet and two exhaust valves. ~ cage kućište ispušnog ventila: All water flowing across the cylinder head runs through the exhaust valve cages, significantly reducing the valve seat temperature. ~ gear polužje ispušnog ventila, uređaj ispušnog ventila.

exhaust ventilator (n) (nav arch, marine eng) odvod ventilacije, odušnik: The vessel had been towing her twin rig gear for about 3 hours when the skipper saw smoke coming from the outlet of the engine room exhaust ventilator.

exhibit /ɪɡˈzɪbɪt/ (v) 1 (navig) Istaknuti (svjetlo, signal), izvjesiti, podići (zastavnicu): Many of these vessels exhibit NUC lights while drifting. Rule 3(g)(vi) allows towing vessels to exhibit restricted ability to manoeuvre signals if circumstances permit. In many regions, local regulations require vessels carrying dangerous cargoes to exhibit a flashing red light. Exhibit “Not under Command” shapes or lights and use sounds signals as necessary.

exhibit (karakteristike, obilježja): Smaller turbochargers exhibit better acceleration and vibration behaviour. Another synthetic lubricant, Castrol 778, is claimed to exhibit excellent anti-wear and rust-protection properties supported by superior oxidation stability.

exit /ˈɛɡzɪt ; ˈɛksɪt/ (n) (navig) izlaziti ~ the lock izaći iz ustave: As soon as the tanker had exited the breakwater, the pilot’s launch transferred the pilot to the container ship. Čim je tanker izašao iz ulaza pri lukobranu, peljarska brodica prebacila je peljara na kontejnerski brod., emergency ~ izlaz u slučaju opasnosti, nužni izlaz, ~ the port izaći iz luke, isploviti iz luke: They should develop such procedures for preparation of the vessel to exit port that would ensure that the vessel would not be able to exit port not fully ballasted and they would allow the captain to conduct ballasting operation ..., ~ the tank izaći iz tanka

exit (n) (safety) izlaz: The ferry’s exit from the harbour was delayed. ~ door izlazna vrata, vrata za izlaz (u nuždi): Engineers and ratings should be fully familiar with all exit doors of the
engine room so that in an emergency, they can evacuate safely. The exit channel from the terminal had a draught restriction and sailing was subject to a narrow tidal window. Vessels with a draught of over 10m must enter and exit the channel between the No1 buoys. Before you enter a channel, a harbor, a port, or any confined or restricted space you must have an exit plan. https://gCaptain.com

If a stevedore is injured on board, the vessel will be subjected to a very harsh inquiry/investigation and the authorities will likely exonerate the stevedore company of any blame and instead unfairly hold the ship liable for damages.

The exit channel from the terminal had a draught restriction and sailing was subject to a narrow tidal window. Vessels with a draught of over 10m must enter and exit the channel between the No1 buoys. Before you enter a channel, a harbor, a port, or any confined or restricted space you must have an exit plan.

The parts made of brass have a larger coefficient of expansion than the other parts of the valve. A header tank allows for expansion and water make-up in the system. One benefit is that smaller turbochargers are required for the reduced gas flows; the lower scavenge ports also allow greater expansion in the cylinder and thus improve fuel consumption.

The company investigation found that the rupture of the expansion bellows was caused by an overpressure in the pump system between the suction valve and the delivery valve.

Expansion bellows were caused by an overpressure in the pump system between the suction valve and the delivery valve.
replenishment of oil in stowage or cargo tanks **ekspanzijski tank, ekspanzioni tank**: A header or **expansion tank** is placed at a sufficient height to allow the venting and water make-up in the system.

**expansion valve** *(n) (marine eng) ekspanzijski ventil, prigušni ventil*: It was reported that while this system was operating, the piping near the **expansion valve** began constricting flow due to freezing hydrates.

**expel** /ɪkˈspel/ *(v)* **1 istjerati, odstraniti; 2 istiskivati (tlačenjem)*: Intermittent rotation of exhaust valves is caused by the flow of burnt gases **expelled** from the cylinder. i.e lower piston, so allowing air under pressure, which is delivered to the scavenging space by the turbocharger, to flow through the cylinder and **expel the remaining burnt gases**. As the piston moves up the cylinder, the hot gases (consisting mostly of nitrogen, carbon dioxide, water vapour and unused oxygen) are **expelled** from the cylinder.

**expenditure** izdatak, trošak: As a result of the ship’s staff’s not observing the maker’s maintenance instructions and poor engineering practice, the company incurred an unplanned **expenditure** of nearly US$ 100,000.

**expense** izdatak, trošak: ..., maximize the exploitation of the waste heat available in ships whose operating profiles and revenues can justify the added **expense** and complexity. He recommended that it should be renewed, but the owners were reluctant to **take on the extra work and expense**, and delay the vessel’s return to service. To avoid **overtime expenses**, few shipowners provide any assistance to the Duty Officer on the bridge at night. **~s incurred (from) nastali troškovi, troškovi nastali uslijed**: In addition to the **extra expenses incurred**, the vessel arrived at the discharging port three days late. **out-of-pocket ~s džeparac, at the ~ of na trošak / račun (nekoga)*: Significantly lower NOx emissions are reported, as well as reduced smoke and even carbon monoxide, but at the **expense** of a slightly higher fuel consumption. ..., the mate’s receipt was signed with the note, ‘Shipped on deck **at shipper’s**/receiver’s risk and **expense**, operational **~s** operativni troškovi, pogonski troškovi.

**experience** /ɪkˈsperiəns/ *(safety) doživjeti, proživjeti, iskušati, pretrpjjeti*: Shortly after the contact with the foundation the ferry **experienced a blackout**. The ship left port in the early evening and, once clear of land, started to **experience** significantly stronger winds than were originally forecast, prompting the master to adjust the passage plan ... It was a last resort action as he **had not previously experienced** a similar situation and remained unaware of the fact that the port unit was misaligned. **~ fire (safety) pretrpjjeti požar, zapaliti se, ~ rough / heavy weather (navig, meteorol) proći kroz / doživjeti / pretrpjjeti nevrijeme**: ... the instructor of one of the RIBs decided to close on a cardinal mark post, where the water was confused, so that the trainees could **experience** the influence of rougher water.

**experienced** /ɪkˈspériəns/ *(safety) iskusan, vješt*: An **experienced and responsible deck officer** shall be in charge of the forward station when connecting/disconnecting chafe chain; The **experienced crew member** leaned back to get a better view of what had become entangled, and, in doing so, his left foot slipped on the footwear.

**experience fire** *(v)* *(safety)* doživjeti požar, zapaliti se, doći do požara: The ship **experienced a fire** in a mechanical space as she was pulling into Falmouth, Jamaica. While underway a towing vessel with six crewmembers on board experienced an **engine room fire**.

**expiration** /ɪksˈplɪrəʃən/ *(v)* *(mar law)* **termination of a certain period istjek (ugovora)*: This Agreement shall terminate upon the **expiration** of a period of................. months from the date Ovaj ugovor završava po istjeku vremenskoga razdoblja od .... mjeseci od dana ...

**expire** /ɪkˈspaɪər/ *(v)* *(mar law)* **istjeći (ugovor, dozvola): the contract has ~ed rok ugovora je **
expired certificate  svjedodžba kojoj je istekao rok važenja: Furthermore, expired certificates need to be renewed before the vessel can be re-commissioned.  

Expiry /ɪkˈspiəri/ (n) 1 (mar law)  istjek (ugovora) ~ date datum istjeka roka (akreditiva, tarifa itd); 2 (safety, ship handling) istjek roka (trajanja): We recently replaced some of the sealed spare batteries and decided to test the old ones to see if they still worked. The expiry date on them is 2014.  

Expiry of laytime (n) (mar law) Moment when the time allowed in the Charter-Party for loading and / or discharging, as the case may be, has been used up. If loading or discharging, as the case may be, has been used up, If loading or discharging has not been completed, demurrage or damages for detention become payable.  

Explosion (n) (safety) eksplozija: The explosion came from the ship’s boiler room, which triggered a fire onboard. the ~ occurred došlo je do eksplozije, nastala je  

Explosion relief valve  otpusni ventil za slučaj eksplozije: Explosion relief valves are fitted to the crankcase to relieve any build-up of excess pressure inside the engine;  

Explosion-proof (adj) (safety) protueksplozijski, siguran od eksplozije: A cargo light was used to illuminate the work area, which was not intrinsically safe/explosion proof.  

Explosives (n) (cargo) eksplozivi: Other ‘illegal’ goods or possessions can include weapons, explosives, pets, drugs in any form other than for medical purposes.  

Exponentiation /ˌɛkspəˌnɛnʃən/ a mathematical operation, written as bn, involving two numbers, the base b and the exponent (or index or power) potenciranje: 3 raised to the power of 5 3 na petu 3 squared 3 na kvadrat 3 cubed 3 na kub / 3 na treću  

Export (n) (shipping econ) izvoz: The MAIB has already pointed out that there is a strong case for weighing unaccompanied lorry trailers before they are loaded for export.  

Export declaration (n) (shipping econ, mar law) izvozna deklaracija, prijava robe za izvoz  

Export(ed) cargo (n) 1 (shipping econ) izvozni teret; 2 (ports) teret u ukrcaju  

Export licence (n) (mar law, shipping econ) a government document which permits the licensee to engage in the export of designated goods to certain destinations izvozna dozvola, dozvola za izvoz  

Export rate (n) (mar law, shipping econ) a (freight) rate published on traffic moving from an interior point to a port for transshipment to a foreign country izvozni vozarski stav, vozarski stav za izvoz (u luku druge države)  

Exposed port (n) (ports, navig) luka izložena valovima i vjetru, nazaštićena luka: A high-sided ro-ro vessel was berthed in an exposed port, waiting to load cargo.  

Exposed to (to) 1 izložiti (nečemu): ... under extreme sea conditions and when vessels sail in ballast, the vessel and (deck) cargo are not only exposed to a risk arising from excessive speed, but that reducing the speed, Another explanation could be that our berth, being the first one inside the breakwater, was more exposed to the ocean swell. In both these cases wires which usually rested in not easily
accessible blocks were exposed to the elements. However, the location of her destination port meant that she would have to eventually transit more exposed waters. Thus bare steel was exposed to attack by the corrosive cargo. 2 izvrgnuti (nečemu)

exposure (n) ~ to weather (navig) Izloženost vremenskim prilikama / nevremenu / atmosferilijama: Although both men had been wearing lifejackets that had inflated, neither was able to survive their exposure to the heavy weather conditions. (safety)

izloženost: Exposure to detrimental environmental conditions e.g. salt, moisture, airborne sand and dust; Improper winding under load: It was thought that exposure to hot, high pressure fuel oil over a long period had caused the fitting to suffer from fatigue or stress corrosion cracking.

extend (v) 1 protezati se, širiti se: The water jackets does not usually extend below the port belt. 2 produžiti, protezati (se), ispružiti: A deep sump provides a large oil capacity to reduce ageing of the lubricating oil and extend intervals between oil changes. The Safety Investigation Authority decided, in accordance with the Safety Investigation Act, to extend the investigation to include the procurement of traffic services and contract related issues ... Risk assessment training must extend to all stevedores and seamen, particularly those in charge of other workers.

extension (n) 1 (marine eng) produžetak, proširenje: They inserted the fan extension hose into the tank and vacated the area. Winch brakes need to be applied tightly, and using a wheel spanner or extension bar to get added purchase may be necessary. This is an extension of US Coastguard directives which required all tonnage visiting US ports to display diagrams of their fuel loading, transfer and storage. 2 (shipping econ) produženje (vremena, roka): A further extension of maintenance intervals can be secured by plasma (ceramic) coating or chrome plating the surface of the uppermost piston ring.

extent (n) to a greater ~ u velikoj mjeri 1 obim: To determine the extent of flooding, the skipper checked the fish room and found water at the same level as that in the engine room. 2 veličina; 3 razmjer; 4 stupanj; 5 opseg, obim: The full extent of the damage to the smaller vessel was not realised until some time after the collision. 6 mjera to some ~ u izvjesnoj mjeri, donekle: ... the pilot was left with little room for manoeuvre or time for critical decision making, and the grounding of the vessel became to some extent inevitable. to such an ~ that do te mjere da, toliko da: The bolts were wasted to such an extent that the threaded parts were reduced to 50% of their original diameter. to the ~ that do te mjere da: The OOW had become over-confident in his ability, to the extent that he was prepared to stretch the parameters within which the master had permitted him to operate autonomously. The bolts were wasted to such an extent that the threaded parts were reduced to 50% of their original diameter. to the full ~ u punoj mjeri: In such situations, the use and handling of AIS information becomes more difficult, and the AIS can not be used to its full extent, thus losing its meaning to the navigator.

externally (adv) (marine eng) izvana, s vanjske strane: Modern turbochargers with externally lubricated journal bearings have uncooled casings. The chamber is drained externally by a tap and cleaned without risk of contaminating the lubricating oil system.

extinguish /ikˈstɪŋgwɪʃ/(v) (safety) ugasi, pogasi ~ fire ugasi požar: The fire on board has been extinguished by crewmembers. The fire was fully extinguished within about an hour. The master decided it would be necessary to operate the engine room CO2 system to extinguish the fire. Attempts to extinguish fires in accommodation and engine room failed. Crew members were able to extinguish the fire and no injuries were reported, but the vessel remains without propulsion and adrift some 100 miles off the coast. http://gcaptain.com The fire was extinguished following activation of the CO2 smothering system, ~ the light
The question of whether or not to extinguish the side lights once the vessel was no longer making way then arose. The chief engineer attempted to fight the fire using an extinguisher, but was quickly driven back into the ECR. The skipper took an extinguisher from the wheelhouse and operated it through the emergency escape hatch. The ETO immediately grabbed the closest portable extinguisher, which happened to be the 45ltr foam extinguisher, and put the fire out. The second engineer had more success, and tackled the fire with a water extinguisher. The AB immediately unplugged the fan and fought the fire using a foam extinguisher located in the adjacent alleyway. They were able to enter the compartment and discharge their CO2 extinguisher, but they were beaten back by the smoke. The crew put out the fire by using a portable CO2 extinguisher. The fire was subsequently extinguished using a dry-chemical fire extinguisher. Following an unsuccessful attempt to fight the fire with a portable dry powder extinguisher, the engines were shut down and the air vents closed.

At least the cargo holds intended for the carriage of dangerous goods should be equipped such that they contain the possibility to use water as an extinguishing agent or for cooling via a permanently installed system as...
well, dry chemical ~ system sistem za gašenje požara suhom pjenom: Dry chemical extinguishing systems are designed to combat Class B (flammable liquids and gases) and Class C (electrical) fires. foam ~ system sistem gašenja požara pjenom: Fixed foam extinguishing systems are used to smoother flammable liquid fires. gas ~ system sistem gašenja požara plinovima: Gas extinguishing systems have proved to be most efficient in enclosed spaces, such as machinery rooms, electrical panels and cargo holds.

uređaji za gašenje, protupožarni uređaji: What fire extinguishing appliances are available on board ship?

extract (v) 1 izvaditi, ekstrahirati; 2 istisnuti; 3 izvući: Heating of sludge oil tanks, waste oil and oily water bilge tanks in order to extract water. Their surfaces are curved to extract the maximum amount of energy from the exhaust gases and transfer it to the turbine shaft.

extractor (n) (marine eng) = piston ring opener otvarač klipnih prstenova

extraordinary event (n) (safety) događaj na brodu koji nije planirali zapovjednik ni posada i može rezultirati opasnošću za ljudske živote, imovinu ili okoliš izvanredni događaj

extreme breadth (n) (nav arch) najveća širina, maksimalna širina

extreme length (n) (nav arch) najveća duljina

Ex Works (n) (shipping econ, mar law) an INCOTERM of sale meaning the seller delivers to the buyer at seller's named premises; free from manufacturer's premises; Including charges only up to the seller's factory or premises. All charges from there on, such delivery, distribution, and commissions, are to be borne by the buyer. slobodno iz tvorničkog skladišta, franko tvornica, the seller makes the goods available at his premises

eye 1 (nav arch) oko za privez, oko za prolaz konopa, oćet,

Italian: occhiello; 2 (marine eng) a hole through the head of a needle, pin, bolt, etc. or a loop forming a hole or opening through which something is intended to pass, such as a hook, pin, shaft, or rope (Seasources.net) očica, oko rod ~ oko / očica ojnice

eye (n) (meteorol) the low pressure center of a tropical cyclone središte (ciklone)
eye-bolt (marine eng) vijak s maticom na očicu

eye pad (=eye-pad; eyepad) (n) (nav arch, cargo handling) SEE pad eye uška (za pričvršćivanje / vezivanje užadi, tereta, peljarskih ljestava), ušica (za pričvršćivanje / vezivanje užadi, tereta, peljarskih ljestava), oćet: Accommodation ladder should be secured to ship's side by using eyepad, magnetic or pneumatic system. www.impahq.org

eye plate uška veza (rica na palubi), oćet

eye protection device (n) (seamanship) očna zaštitna pomagala

eye splice (n) (seamanship, boating/yachting) A fixed loop, or attachment point at the end of a line. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) oko konopa s upletkom

facets /ˈfæsɪts/ (n) (electr, navig) smetajuća radarska jeka na malim površinama mora male površine (radarske jeke)

facilitate /ˈfæsilɪteɪt/ (v) olakšati: As the boat had to approach stern first in order to be picked up, two lines were passed to the crew to facilitate her positioning.; 2 omogućiti: This was to facilitate easy access for the ship's personnel to continuously monitor the after-draft while cargo loading was nearing completion.; 3 pomoći

facilities /ˈfæsilɪtiz/ (n) 1 usluge; 2 kapaciteti port ~ lučki kapaciteti; 3 postrojenje obalna postrojenja; 4 sredstva, oprema cargo handling ~ prekrcajna sredstva, sredstva za prekrcaj

facility /ˈfæsilɪti/ (n) (ports) postrojenje, kapaciteti reception ~ prihvatna
**postrojenja**: The water has to be properly treated before discharge into the sea, and the sludge must be disposed of at reception facilities ashore. **bunkering facilities kapaciteti za ukrcaj goriva**, port facilities lučki kapaciteti, lučka postrojenja: The vessel hit the quay, and then the link span, causing significant damage to both the ferry and the port facilities. **cargo handling facilities kapaciteti za prekrać (ukrcaj i iskrać) tereta**, ukrcajno-iskrcajni kapaciteti, storage facilities skladišni kapaciteti, extend the facilities proširiti / povećati kapacitete, pružiti sve pogodnosti / pomoć, shoree ~ obalno postrojenje: They also cannot accept the fact that they have to land large amounts of slops to shore facilities as this costs them money. **loading ~ ukrcajno postrojenje**: A tall there is growing pressure in some quarters for the IMO to establish a legal requirement that all loaded containers are weighed at the loading facility before being stowed aboard a vessel for export.; 2 **uredaj**: The ARPA facility would have made this task easy.

**facsimile receiver** /ˈfæksɪmɪl/ faksimil prijamnik, faks

**factory ship** (n) (nav arch) brod-tvornica

**fade** /feild/ (v) (navig, comm) gubiti se, slabjeti (signal)

**fading** /ˈfeɪdɪŋ/ (n) (elec, navig) slabljenje (signal, elektromagnetskog vala, svjetla), gubljenje: As they made their way across the water, in fading light, the tender was rocked by the wash of another craft and it capsized, throwing all three men into the water.

**fail** /feil/ (v) 1 **propustiti (učiniti)**: Too often mariners fail to appreciate the importance of frequent fixes while navigating in restricted visibility. If the crew fail to re-secure the painter before launching, this liferaft will certainly be lost along with the painter. ~ to inform propustiti obavijestiti o: the crossing vessel failed to inform VTS and other traffic about her intention to leave the anchorage and cross the traffic lane, ~ comply with the regulations ne poštovati propise, ne pridržavati se propisa: The other ship failed to comply with a number of regulations to keep his and other vessels safe, including failing to make his vessel’s radar operational, failing to make sound signals, and failing to ensure all the navigation lights were working. http://gcaptain.com/; 2 **zatajiti**, otkazati: The engine remains manoeuvrable even if one cylinder fails: in such a case the relevant fuel pump is set to the zero index position. ~ to work ne raditi (o uređaju, opremi), prestati raditi, zatajiti: All flares must be periodically checked and renewed when past their “use-by” date. Otherwise they may fail to work, when needed. CASE 22 _ Narrative The owner of a high powered, rigid inflatable boat (RIB) was well known to have been a keen and competitive; 3 ne uspjeti, propastiti: A vessel can travel several hundred yards, especially if the operator fails to reduce speed, in the time it takes for the track line to update on an electronic chart. Numerous attempts to repair the main engine failed. https://safety4sea.com/ the rope ~ed uže je popustilo, uže je zatajilo: The rope, which was made of high-modulus polyethylene (HMPE), failed in-board close to the roller pedestal that leads the rope from the winch at a 90° angle to the roller fairlead.

https://gcaptain.com/safe-harbor-learning-from-mooring-accidents/; 4 pokvariti se, biti u kvaru / defektu; 5 popustiti (materijal)

**fail-proof** /ˈfeɪlpruːt/ (n) (safety) besprijekor: Hatch lid modified to incorporate safer lifting arrangements: permanent fail-proof securing arrangements;

**fail-safe** /ˈfeɪlseif/ nepokvarljiv, poudan, siguran, bez kvara,

**samoisključujući**: In the case of bridge operations, it is prudent to have fail safe procedures in
failsafe operation

place, such as the testing of manual steering, before entering any harbour ...

failsafe operation (n) (safety) besprijekoran rad

failure /feɪljuː/ rudder ~ zakazivanje kormila, power ~ nestanak električne energije: 'In the event of a power failure to any one of the steering gear power units, an audible and visual alarm shall be given on the navigating bridge., ~ to report ne izvijestiti, propustiti izvijestiti, main engine ~ otkazivanje glavnog stroja: The vessel command attributed the main engine failure to a defect in the automatic control., steering ~ otkazivanje kormilarskog uređaja: The cause of the sudden steering failure could not be established; however the following contributory factors were noted.:, brake ~ otkazivanje kočnice, zakazivanje kočnice: The accident involved a brake failure on one of the lifeboat.,
catastrophic ~ strašno zakazivanje, strašan propust, zakazivanje (stroja, uređaja) s ozbiljnim posljedicama: There have been many reported instances of sudden and catastrophic failure of roller fairleads on ships due to ineffective inspection and maintenance., hull ~ pucanje trupa broda, napuknuće trupa: The shipi encountered heavy seas during a passage of the English Channel, causing catastrophic hull failure. 1 kvar, havarija sudden ~ of the main engine iznenadna havarija glavnog stroja; 2 prekid u radu; 3 propust, neizvršenje, neispunjavanje: Failure to comply with certification requirement may result in a heavy fine, arrest or a penalty and loss of insurance The basic errors here seem to be the failure of the other vessel to comply with the Collision Regulations, particularly with reference to Rule 13 (overtaking) and Rule 18, d.; 4 otkazivanje (materijala, uređaja, konstrukcije), zakazivanje: Corrective/preventative actions Following the failure of the hose, all the other hoses were hydraulically pressure-tested.

fairing /ˈfeɪrɪŋ/ (n) (nav arch) dotjerivanje brodskih linija ili privjesaka da postanu glatke, tj. bez izbočina, valova i sl. (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarij.htm) izglađivanje brodskih linija i privjesaka

fairlead (n) (nav arch, UK) = eye: a fitting or device used to preserve or to change the direction of a rope, chain, or wire so that it will be delivered fairly or on a straight lead to a sheave or drum without the introduction of extensive friction zjevača, oko za sidrenje, oko za privez s valjcima, pasakavo; Italian: passacavo roller ~ zjevača s valjcima: A sternline was led from a roller fairlead, through a set of bits, around a pedestal fairlead and on to a warping drum., Panama ~ oko za privez (po sredini pramca ili krme), panama: The master ordered to heave on the forward backspring and to slacken the headline, which had been passed from the centre mooring winch through the vessel’s centreline Panama fairlead., centreline ~ oko za privez (po sredini pramca): A Voith Schneider tug was attached through the forward centreline fairlead, with the (now repaired) ASD tug from Case 1 pulling on the vessel’s port quarter to try to counter a strong cross-tide and force 6 winds., aft ~ oko za privez (po sredini krne): The cargo vessels’ stern ramp and aft fairlead arrangements were certainly contributory to these
A regional meeting of Asia’s leading seafaring nations has highlighted the plight many seafarers face in the event of a maritime accident and has pledged to lead the drive towards proper and effective implementation of the International Maritime Organization (IMO) and International Labor Organization (ILO) agreed Guidelines on the Fair Treatment of Seafarers.

fairway (n) (navig) COMPARE waterway navigable channel for entering or leaving a port, usually marked by port and starboard buoys, seamarks etc. plovidbeni put, plovidbeni kanal: The vessel came rapidly on port and got out of the buoyed fairway and entangled the buoy chain with her screw. I joined the westbound lane and was able to have a clear run past the Jong Fairway and get up to about 17 knots. Last year I was sailing as Third Officer transiting the Galveston to Freeport coastal fairway at night. Large vessel is leaving the fairway - keep clear of the fairway approach. The water depth in the fairway of the port is more than 18 metres. approach the ~ približavati se plovidbenom putu / kanalu (o brodu): Vessel A’s pilot ordered the tugs to standby as they
were approaching the buoyed fairway.
http://www.cowesharbourcommission.co.uk/approaches_to_cowes

**fairway buoy** (=FB) *(navig)* plutača na početku plovidbenog kanala *(s morske strane)*: Several minutes later, another fairway buoy fitted with a Racon was detected at a range of 6nm fine on his starboard bow. Due to my ship's draft, the fairway buoy must be passed on our port side.

**fairway depth** *(n)* *(navig)* dubina plovnoga kanala

**fairway speed** *(n)* *(navig)* obvezna brzina u plovidbenom putu / kanalu: What is the fairway speed? Fairway speed is 7 knots.

**fair weather** *(n)* *(meteorol)* weather in which there is less than 4/10ths of cloud cover, no precipitation, and there is no extreme visibility, wind or temperature conditions lijepo vrijeme, vedro vrijeme: A vessel with low freeboard is susceptible to ship seas on deck even in relatively fair weather. The trawler was returning to her home port, in fair weather and good visibility, but it was dark.

**fake** /feik/ *(n)* *(seamanship)* one complete circle of a coil of rope red složenog konopa *(u krugu)*

**fall** *(n)* *(seamanship)* handling rope end of a block and tackle; dio užeta između dva kolotura u čekru/koloturniku radna struna koloturnika, uže koloturnika / čekrka; 2 *(seamanship) = hauling line* the end of tackle rope to which the power is applied in lifting cargo živi kraj užeta (na koloturniku/čekrku), radni kraj užeta (na koloturniku/čekrku), radna struna koloturnika/čekrka; 3 *(boating/yachting)* podigač jedra, gindac

**fall** *(n)* *(seamanship)* čekrk, parank; paranak forward ~ pramčani čekrk (na brodici za spašavanje), prednji čekrk (na brodici za spašavanje): The second mate was designated to be the cox’n of the starboard lifeboat, and two ABs were tasked with releasing the forward and aft falls, aft ~ krmeni čekrk (na brodici za spašavanje), stražnji čekrk: The aft falls block chain ring had been placed in the hook securing bracket, and the safety pin pushed though it, as shown in figure 3., ~ block koloturnik čekrka, blok čekrka: He re-attached the aft falls block chain ring correctly to the hook, and lashed the hook securing arrangement., ~ arrest zaustavljacija koloturnika (čekrka): The seaman was not using any kind of fall arrest systems.

**fall due** *(v)* *(mar law)* dospijeti, dospijevati: Demurrage shall fall due day by day and shall be payable as per Charter Party.

**fall off** *(v)* *(seamanship, navig)* to change direction so as to head more downwind otpasti (o brodu, jedrilici), otpadati od vjetra: the effect of the wind on the starboard quarter caused
fall overboard (v) pasti u more (s broda), nestati (s broda): A crew member is lucky to be alive after falling overboard off the coast of ... on Monday. the Deck Officer reportedly fell overboard at approximately ... am local time on the Canadian side of the Saint Lawrence River https://gCaptain.com He fell overboard and drowned at sea. A man fell overboard while involved in mooring operations. (https://safety4sea.com/) The crewman was retrieving the forward mooring rope from the sea when he suddenly lost his balance and fell overboard. (https://safety4sea.com/) Turn the ship on side that man fell overboard.

fall upon (v) pasti na teret (o troškovima)
false pogrešan, kriv, netočan
false activation (n) (safety) lažno aktiviranje (signala o pogibli), lažno uključivanje (signala o pogibli): False activation of the SAR system is a serious matter and is dealt with under the Criminal Code of any country.
false alarm (n) (safety) COMPARE false alert Distress alert initiated for other than an appropriate test, by communications equipment intended for alerting, when no distress situation actually exists (https://natsar.amsa.gov.au/) lažni alarm za testiranje opreme (izvan stvarne pogiblj): The main engine failed due to false alarm.
false alert (n) (safety, comm) situacija kada Spasilački koordinacijski centar (RCC/MRCC) primi informaciju o mogućem zrakoplovu / brodu u opasnosti i provjerom utvrdi da nije potrebno aktivirati ostale sudionike potrage i spošavanja zrakoplova; A distress alert received from any source, including communications equipment intended for alerting, when no distress situation actually exists, and a notification of distress should not have resulted. (IAMSAR/Cmsar2014) lažna uzbuna
false echo lažna jeka (na radaru), lažni odjek (na radaru): The radar operator should become familiar with the appearance of false echoes so as not to confuse them with echoes from legitimate contacts.
false echoe (n) (navig) lažna jeka (na radaru)
false keel (sailing vessels) štitna koblica, zaštitni kilj, falšakilja, suraoš, šjoleta
false keelson (n) (nav arch) zaštitna koblica, zaštitni kilj

familiarization /fəˈmɪliərɪzəʃən/ (n) (navig) upoznavanje, prilagodba ~ training
izobrazba za upoznavanje: The consequences of ECDIS deficiencies are due to a lack of onboard familiarization training in the use of ECDIS.
familiar with dobro upoznat s, upućen
fan (n) (marine eng) ventilator ~ belt remen ventilatora
fan mussel (n) periska
fare /feə/ (n) (shipping econ) the money that a person pays to travel by bus, plane, taxi, etc cijena putničkog prijevoza, prevoznina

F.A.S. (=free alongside) (mar law, shipping econ) (jedan od trgovinskih uvjeta INCO) cijena uključuje dopremu tereta za ukrcaj na lučku obalu (do ispod broda ili brodskog čekrka); Free Alongside Ship means that the seller delivers when the goods are placed alongside the vessel at the named port of shipment. This means that the buyer has to bear all costs and risks of loss of or damage to the goods from that moment.

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; the seller must place the goods alongside the ship at the named port. The seller must clear the goods for export; this changed in the 2000 version of the Incoterms. Suitable for maritime transport only.

http://www.tkmglobal.net/inco.html; Under this term the seller’s obligations are fulfilled when the goods have been placed alongside the ship on the quay or in lighters. This means that the buyer has to bear all costs and risks of loss or damage to the goods from that moment. It should be noted that unlike fob, the present term requires the buyer to clear the goods for export.

http://www.tkmglobal.net/chartering_F.HTM franko uz bok broda, franko lučka obala (pod čekrk broda) ~ (named port of shipment) franko uz bok broda (s naznakom luke ukrcaja), ~ port of Rijeka franko uz bok broda u luci Rijeka

fashion timber (n) (sailing vessels) međurebro krme

fast (adj) (seamanship) vezan, privezan: A ro-ro vessel was exiting the lock with a Voith Schneider tug fast forward and an Azimuth Stern Drive tug fast on the starboard quarter. Jedan ro-ro brod izlazio je iz ustave s tegljačem s Voth-Schneiderovim pogonom privezanim po pramcu i jednim tegljačem s krmenim azimuthskim pogonom privezanim bočno po krmi. made ~ privezan, vezan, make ~ vezati (brod)

Fast Daughter Craft (=FDC) (n) (nav arch) prateće brzo plovilo (za popravke, spašavanje itd.): A FDC’s function is to operate away from the mother ship or offshore installations for extended periods of time. The primary function is to search for and rescue persons lost at sea.

fasten (v) 1 vezati, privezati; 2 pričvrstiti

fast ferry (n) (nav arch) brzi trajekt

FASTON connector (n) (electr) faston konektor (s maticom za pritezanje stopice, kabela), ženski dio konektora

fast timer constant (=FCT) kontrola radara za otklanjanje smetnja od padalina

fatality (n) 1 (safety) smrtni slučaj, smrtno stradala osoba: MAIB has also recently published reports into a triple fatality on board Viking Islay and a double fatality in Sava Lake. Parting of a mooring line alongside at berth in the port resulted in one injury and one fatality. The sinking of the fishing vessel resulted in one fatality. A burning ship has been abandoned in Pacific Ocean: two missing, three fatalities www.gcaptain.com Fatalities: 2 Broj smrtno stradalih osoba: 2; 2 nesreća sa smrtnim posljedicama: After an increase of fatalities from 2013 to 2015, the number of victims has since decreased. www.emsa2018.com

fathom /ˈfæðəm/ (n) (seamanship, navig) a unit of length equal to 6 feet (1.8 m), roughly measured as the distance between a man’s outstretched hands sežanj (1,829 m), fadom, paš, Italian: braccio
**fathometer** (n) *(navig)* = echosounder A trade name for an instrument that measures water depth by emitting an electronic signal through the water and measuring the elapsed time for the signal to reflect off the bottom and return (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) **dubinomjer**: But all they could see was fog, depths from a fathometer, and sea return on the radar. https://gcaptain.com/

**fatigue** /ˈfætɪj/ (n) *(marine eng)* to weaken as a result of constant strain and movement;

Deterioration of material caused by cycles of loading. (http://www.marinedieseleurope.com/) **zamor** *(materijala), zamorenost *(materijala)*: Safety agencies worldwide have decided fatigue is a primary factor in seaborne accidents. https://gcaptain.com Workload is considered as one of the factors likely to induce fatigue especially when combined with long periods of wakefulness and long duty hours. https://safety4sea.com/ **resistance to ~ otpornost na zamor materijala, ~ limit granica zamora, ~resistant otporan na zamor ~ steel čelik otporan na zamor, effect of ~ učin zamora, djelovanje zamora, efekt zamora, affected by ~ pod utjecajem zamora**: The official report states that the officers on both vessels were probably affected by fatigue. Fatigue is an insidious and often overlooked factor in accidents. www.nautinst.org - MARS reports, alarm ~ umor od suvišnih *(lažnih)* alarma: “Alarm fatigue” was something which came to the forefront of the survey findings and was so pertinent because all alarms on the bridge sounded similar and navigational watchkeepers struggled to differentiate between the alarms. More importantly, the alarms of more significance were no louder than the routine alarms www.safety4sea.com, **suffer from ~ trpijeti od umora**: The ship’s master had been present on the bridge for over 14 hours and was probably suffering from fatigue, which was likely to have had an adverse effect on his decision making. www.gov.uk/maib; 2 *(safety, navig)* umor *(časnika*, mornara): The official report states that the officers on both vessels were probably affected by fatigue.

**fault** /fɔːlt/ (n) 1 kvar, mana, defekt, havarija, neispravnost, poremećaj, mana ~ in the scavenge system defekt sustava ispiranja, incipient ~ početna greška, kvar na samom početku, mechanical ~ mehanički kvar: While completing a towing operation, a tug experienced a mechanical fault. (https://safety4sea.com/), electrical ~ električni kvar; 2 grješka, greška; 3 krivnja be at ~ biti kriv: When a cargo is lost or damaged, it is not at all easy to determine who has been at fault and who should be liable.

**faulty** *(adj)* neispravan, loš, pokvaren, manjkav fax 1 faks, dokument primljen putem faksimil uređaja; 2 faksimil uređaj faximile recorder faksimil pisač

**F.C.A.** (=free carrier- *(named place)* *(mar law, shipping econ)* Free Carrier means that the seller fulfills his obligation to deliver when he has handed over the goods, cleared for export, into the charge of the carrier named by the buyer at the named place or point. If no precise point is indicated by the buyer, the seller may choose within the place or range stipulated where the carrier shall take the goods into his charge. When, according to commercial practice, the seller’s assistance is required in making the contract with the carrier (such as in rail or air transport) the seller may act at the buyer’s risk and expense.; Free Carrier (named place): the seller hands over the goods, cleared for export, into the custody of the first carrier (named by the buyer) at the named place. This term is suitable for all modes of transport, including carriage by air, rail, road, and containerised / multi-modal transport.

http://www.tkmglobal.net/index.html **slobodno morski prijevoznik (s navedenim mjestom preuzimanja robe), franko morski prijevoznik, franko brodar, franko vozar**
FCC (=first class charterer) *(shipping econ)* prvoklasni čarterer
F.C.L. (=full container load) *(n)* *(mar law, shipping econ)* ANTONYM LCL

**COMPARE** container load In a FCL shipment the shipper usually packs its goods in the container and seals it. sav teret u kontejneru glasi na istoga primatelja; Quantity of cargo, which fills a shipping container to capacity, either by weight or cubic measurement. izravna kontejnerska pošiljka, direktna kontejnerska pošiljka: FCL is cheaper than LCL LCL costs more than FCL per unit of freight. That’s because freight agents prefer a full container load rather than to figure out how to bundle many LCL shipments in a full container. FCL gets delivered more quickly than LCL.

**FCL allowance** *(n)* *(mar law, shipping econ)* Deduction from the FCL freight provided by a shipping line or liner conference to a shipper who loads a minimum number of tons or cubic meters of cargo into a shipping container. There may be various allowances depending on the degree of utilization of the container. Also known as utilization allowance. popust na vozarini za puni kontejner / FCL (popust najvećem krcatelju za teret u jednom kontejneru)

**FCL/FCL** *(n)* *(shipping econ)* Term used to describe a container freight rate whereby the shipper is responsible for packing of the container and the shipper or receiver, as the case may be, is responsible for the unpacking. FCL/FCL, vozarina za puni kontejner u kojoo je krcatelj odgovoran za pakovanje, a primatelj tereta za raspakiranje kontejnera

**fear** *(v)* ~ damage to cargo bojati se / strahovati da je teret oštećen strahovati, bojati se

**feathering** *(n)* *(boating/yachting)* Sailing a fine directional line between two points of sail, usually close hauled and irons [http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ jedrenje preoštro uz vjetar (jedra lepršaju)]

**feathering mechanism** *(n)* *(boating/yachting)* mehanizam elastičnog propelera

**feathering propeller** /ˈfɛðərɪŋ/ *(n)* *(boating/yachting)* COMPARE folding propeller

**COMPARE** fixed propeller Feathering props are one of the best props for sailing boats when mixing performance under sail and power. They get their name due to the feathering blades, which align with water flow when in neutral. [http://myboatsgear.com/2016/12/27/sailboat-propellers/]; an automatically self-pitching feathering propeller which varies its pitch depending on the operating conditions, thus maintaining maximum efficiency at all times. … The blades automatically adjust their pitch to match the engine torque to the varying load conditions. [https://kingpropulsion.com/autoprop/]; A propeller whose blades have been rotated so that the leading and trailing edges are nearly parallel with the aircraft flight path to stop or minimize drag and engine rotation. feathering props have blades that rotate 180 degrees so the leading edge is still the leading edge in reverse, which makes them more efficient in reverse over folding and fixed propellers. [http://myboatsgear.com/] sklopivi prekretni propeler (s krilima u liniji kretanja jedrilice), sklopivi propeler s promjenjivim korakom lopatica: The Max-Prop feathering propeller had excellent stopping power, but needed rebuilding three times in 18 years. The Flexofold was sized to match the new smaller 75-horsepower engine. 

https://www.practical-sailor.com/issues/44_2/features/Folding-vs-Feathering-Props_12354-1.html?ET=pr acticalsailor:e36748:2438214a:&st=email&s=p_Grabbag012118 The advantages of the Max-Prop are very little drag when sailing as the prop instantly feathers unless the engine is engaged, no freewheeling in
neutral, adjustable pitch, and incredible stopping power in reverse. Max-Prop can literally bring a boat from 6 knots to a dead stop in a boat length
https://www.practical-sailor.com/issues/44_2/features/Folding-vs-Feathering-Props_12354-1.html?ET=practicalsailor:c36748:2438214a;&st=email&s=p_Grabbag012118 My installation required that the prop shaft be trimmed about 1/2 inch meaning that it could never again be used with a fixed prop; a critical concern to determine for your boat before undertaking...it is a marriage and divorce is always expensive. Consider this factor on any feathering/folding prop selection.
https://www.practical-sailor.com/issues/44_2/features/Folding-vs-Feathering-Props_12354-1.html?ET=practicalsailor:c36748:2438214a;&st=email&s=p_Grabbag012118 As the blades rotate 180 degrees in ¾ turn of the shaft a feathering propeller has the same efficiency in reverse as in forward. ... ... a feathering propeller is a low drag propeller. When motoring, the blades swing to the ahead or astern angled position, but under sail they ‘feather’, turning parallel to the boss. Feathering propellers typically produce nearly as much forward thrust as folding propellers and more forward thrust than those that are fixed. They are also generally more efficient than folding propellers when going astern.
https://www.sailmagazine.com/diy/why-low-drag-propellers Feathering props create about 5-10% of a fixed prop’s drag, sometimes less, while folding props have almost zero drag.

feature (n) osobina, obilježje, karakteristika, crta, svojstvo, posebnost
fee 1 a pristojba, dadžbina clearing ~s carinska dadžbina; 2 provizija; 3 honorar
feed ~ the fire podržavati vatru (v) napajati, opskrbljivati, snabdijevati
feed (n) ~ piping napojni cjevovod, 1 linkage povratna veza, povratno polužje spojni cjevovod

feeder (n) (marine eng) napajač, fider
feeder (n) (nav arch, cargo handling) zdenac oko grotla

**feeder** (n) 1 (shipping econ) Transportation conveyance utilised to relay cargo from the mother vessel to ultimate destination or from first receipt port to mother vessel (http://www.maerskline.com/en-jm/help/shipping-glossary); Vessels of under 2,500 teu which distribute containers regionally between hub ports. (http://www.clarksons.com/glossary/) razvozno prijevozno sredstvo (manji brod, teglenice, kamion itd.); 2 (shipping econ) brod za razvoz kontejnera, feeder

**feeder boxship** razvoznii kontejnerski brod, konteinerski brod za razvoz: Germany’s MPC Container Ships has taken its **feeder boxship fleet** to 68 vessels with the acquisition of three vessels. The company has acquired the 2005-built 2,500 teu Victoria Schulte for $11.8m and 2,500 teu pair Welle (built 2005) and Woge (built 2006) for $11m each. Splash24/7 <splash=asiashippingmedia.com@mail245.suw101.mcdlv.net>

**feeder port** (n) (ports) razvozna luka

**feeder service** (n) (shipping econ) sea transport system involving use of centralized ports to assemble and disseminate cargo and carry it to and from smaller ports within a geographic area.

**feeder ship** (n) (shipping econ, mar law) a short–sea or coastal vessel which transfers cargo between a central "hub" port and smaller ports (also known as feeder ports) brod za razvoz, brod u razvozu, feeder

**feed heater** (n) (marine eng) zagrijač napojne vode direct contact ~ visokotlačni zagrijač napojne vode

**feed pump** (n) (marine eng) napojna pumpa, napojna sisaljka, dobavna pumpa boiler ~ napojna pumpa kotla, main ~ glavna napojna pumpa

**feedstuff** (n) (cargo) = foodstuff životinjska hrana: Most of the Port’s considerable trade in animal feedstuffs is discharged here where there is large – scale private sector investment in specialist warehousing.

**feed system** (n) (marine eng) napojni sustav, dobavni sustav, sustav napajanja (gorivom, vodom, uljem itd.)

**feed tank** (n) (marine eng) rezervoar napojne vode make-up ~ dolijevni tank napojne vode

**feed water** (n) (marine eng) napojna voda boiler ~ napojna voda kotla, supply of ~ dobava / dovod napojne vode, supply ~ pretičak / višak napojne vode

**feed-water unit** (n) (marine eng) uređaj napojne vode, napojni uređaj

**feeler gauge** a tool used to measure gap widths lisnato mjerilo, špijun: Be careful when using this **feeler gauge** as in certain circumstances it may scratch the bearing metal. main bearing ~

**fender** (n) (seamanship) rubber, PVC, canvas, wood or rope used over the side to protect a vessel

mjerni štap za pregled zračnosti glavnih ležajeva

https://www.amazon.com/Stanley-Proto-J000BR-Non-Magnetic-Feeler/dp/B001HWC39Q

**fender** (n) (seamanship) rubber, PVC, canvas, wood or rope used over the side to protect a vessel
from chafing when alongside another vessel or a dock. **bokobran, stičnica boka, pajet, parabordo**; Italian: **parabordo**; Four fenders are mounted on four breasting dolphins which form the fender line, with which the moored ship will be in contact. Ship’s fenders are a type of marine equipment that are used to prevent boats, ships and other naval vessels from colliding against each other or against docks, wharves and piers. In other words marine fenders can be simply termed as a marine bumper. https://www.marineinsight.com/ports/what-are-marine-fenders/ **rig the ~s** **postaviti bokobrane, floating ~ plutajući bokobran, rubber ~ gumeni odbojnici, foam ~ pjenom ispunjeni odbojnici, pneumatic ~ pneumatski odbojnici, odbojnici na napuhavanje, ship’s ~ brodski odbojnik, marine ~s brodski odbojnici, boat’s ~ odbojnik jedrilice / brodice**

**fendering** odbojnici (na obali in na brodu)

**fender line** *(ports)* linija odbojnika, red odbojnika: The fender line is approximately 280 feet from the shore line

**fender spar** *(seamanship)* plutajući odbojnik

**fend off** A command given to the crew to manually prevent the boat with colliding with something, usually at low speed [http://www.apslt.com/aps-advisor/sailing-terms-glossary/](http://www.apslt.com/aps-advisor/sailing-terms-glossary/) **odgurnuti se rukom (od druge jedrilice radi izbjegavana udara)**

**feright rate** *(mar law)* vozarinski stav

**ferrous metal** /ˈfɛrəs/ *(marine eng)* željezni metal non-~ obojeni metal

**ferrum**; *(Fe)* *(n)* željezo

**ferry** *(nav arch)* A vessel of any kind which is used to transport passengers and goods on a relatively short passage across a body of water, and which operates on a regular schedule similar to that of a train or bus ([http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary](http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary)) **trajekt**: A ro-ro **passenger ferry** left port with the second officer on watch. The foot passengers and vehicles were loaded on the ferry’s main car deck. Once parked up, the vehicle occupants made their way up to the passenger lounge and the ferry sailed on her short crossing. ~ **route trajektna linija, ~ ticket karta za trajekt, ~ port trajektna luka, ~ operator trajektni brodar**: trajektna kompanija

**ferry** *(v)* *(navig)* prevoziti preko rijeke, kanala itd., prevoziti trajektom: They, along with winchmen, signalmen and tallymen worked in 12-hour shifts and the tugs would ferry them to and from land twice daily.
The ship was on passage between Malmo and Istanbul, loaded with fertiliser.

fetch (n) (boating/yachting) dostizati oznaku do trenutka u kojemu jedrilica može proći drugu jedrilicu u njezinoj privjetriini i ostaviti je na zahtijevanoj strani bez mijenjanja uzda dosezati

fetch (n) (meteorol) duljina otvorenoga morskog područja ili razmjerno jednolikog kopnenog terena na kojemu je mjerena od određene točke u smjeru uz vjetar; the area in which ocean / sea waves are generated by the wind; the length of the fetch area, measured in the direction of the wind; The distance that the wind travels over open water that determines the size of a wave https://www.ypiyachts.com; The distance over which the wind blows in a constant direction, without obstruction.

IAMSAR/Camsar2014 privjetrište, doseg vjetra ~ length dužina privjetrišta

FEU (=Forty Foot Equivalent Unit) (n) (shipping econ) Unit of measurement equivalent to one 40-foot container. Thus two 20-foot containers comprise an FEU. kontejner od 40 stopa, kontejnerska jedinica od 40 stopa

few /few/ (adj) malo a ~ nekoliko, nekolicina (ljudi), quite a ~ priličan broj

F.I. (=free in) (shipping econ) troškove ukrcaja snosi primatelj slobodno u, franko ukrcaj

fiberglass /ˈfaɪbəɡlɑːs (UK); ˈfaɪbəɡlæs (US)/ (n) (nav arch) stakloplastika, plastika, fiberglas ~ boat brodica od stakloplatike, plastična brodica, plastična barka, ~ fabrics tkivo od stakloplastike

fibre /ˈfaɪbər/ Vlakno

fid (n) (boating/yachting) a rope splicing kit; a splicing tool designed to facilitate the making of various splices in rope or wire http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ pribor za upletanje užeta

fiddle (n) (boating/yachting) izdignuti rub (stola, police)

figure 1 (n) brojka, broj; 2 slika (u stručnom tekstu)

figure code (n) (comm) SEE phonetic alphabet kodeks za sricanje brojeva (u radiokomunikaciji)

figure-head (n) (nav arch, sailing vessels) pulena, pramčani kip, beštijun, zvir

figure-of-eight knot (n) (seamanship) osmica, Italian: nodo a otto: Tie a Figure 8
on a bight (photo #5) or other bulky knot in the thrown end of the line.

file  / ˈfæl/  1 fascikl, mapa; 2 datoteka, fajl; 3 (mar law) brodska mapa, fajla ~
holder registrator s brodskom mapom: A file holder with the written voyage plans of past voyages is just a piece of unnecessary ballast, but excellent documentary evidence of resources ...

defile  / ˈfaɪl/ (v) podnijeti (zahtjev, molbu, tužbu, tražbinu itd.) ~ a claim
podnijeti tražbinu, podnijeti zahtjeva za naknadu štete, ~ a claim with podnijeti zahtjev kod: The claim may be filed with the delivering carrier, ~ an application
podnijeti molbu, podnijeti zahtjev, ~ for protection podnijeti zahtjev za zaštitu, The shipbuilder has filed for protection in the High Court.

defile  / ˈfaɪl/ (n) (marine eng) turpija, lima rough-cut ~ gruba turpija, round ~ okrugla turpija

fill  (v) 1 (marine eng, seamanship) puniti, ispuniti, unijeti: A short time later, the engine well started to fill with water from the stern. The third engineer used the diesel oil (DO) transfer pump to fill up the emergency fire pump diesel oil header tank.; 2 ispuniti (obrazac, dokument itd.) ~ in (mar law, safety) ispuniti / popuniti obrazac: He then started to collect information required to fill in the deck log., ~ out (mar law, safety) ispuniti / popuniti obrazac: The Officer on watch was busy filling out his overtime request slips. The Senior DPO was at the console carrying out the movement whilst the junior DPO was filling out a Permit to Dive next to the DP console.

filler cap  (n) (boating/yachting, marine eng) poklopac cijevi dovoda (na palubi)
fillet  (n) (marine eng) a curved joint between two straight surfaces zaobljenje, zaobljeni prijelaz

fillet joint  (n) (marine eng) kutni spoj

fill in  (v) (mar law, safety) = complete: ispuniti (obrazac)
filling chocks  (n) 1 (nav arch, sailing vessels) umetci kljuna; 2 krmeni umetci
filling material  COMPARE dunnage materijal za ispunjavanje (praznih prostora)
filling transom  (n) (sailing vessels) prečanica krme

fill out  (v) = fill in ispuniti (obrazac)

film  (n) (marine eng, seamanship) tanak sloj, tanka prevlaka, opna, mrena, film oxide ~ tanki sloj oksida

F.I.L.O. (=free in, liner out)  (n) (mar law) In the event of FILO (Free In / Liner Out), the loading of the cargo on board the ship is not included in the freight rate. Unloading at the destination is however included and paid by the carrier. In this instance, the shipper must pay for loading the goods on board the ship separately. https://www.logisticsglossary.com/term/free-in-liner-out/ franko ukrcaj, iskrcaj na teret brodara

filter 1 COMPARE strainer COMPARE purifier filters ers for retaining particles finer than 150 microns because with finer retention there is often a requirement for increased efficiency. (http://www.fdpp.com/Difference%20Between%20a%20Strainer%20and%20a%20Filter.htm); a fine
filter pročistač suction and discharge ~ filtar usisa i pražnjenja: The suction and discharge filters remove any particles contained in the oil, replace the ~ promijeniti filtar novim, change the ~ promijeniti filtar clean the ~ očistiti filtar, ~ element filtarski uložak / umetak, indicator ~ kontrolni filtar, dvostruki pročistač, lube oil ~ filter / čistilac ulja za podmazivanje; 2 (marine eng) filtar; 3 čistilac; 4 filter
fin (n) 1 peraja, pomična kobilica jedrilice ~ keel pomična kobilica jedrilice; 2 (nav arch) stabilizator
findings (n) nalaz (inspektora, stručnjaka): the survey report was based on findings Some of the findings and lessons learned from the official report are as follows: ... ...
find out (v) 1 a otkriti; 2 ustanoviti; 3 odgonetnuti
fine (n) (mar law) As part of the plea agreement the shipping company agreed to a fine of $1.6 million and three years probation. novčana kazna, globa be liable for a ~ podlijegati kazni: Any seafarer bringing weapons or narcotics on board shall be liable for such fines as the Master may direct Svaki pomorac koji donese oružje ili droge na brod podliježe kažnjavačno o zapovjednikovoj naredbi, ~ levied against the ship kazna nametnuta / određena brodu, levy a ~ nametnuti kaznu / globu, odrediti kaznu / globu: Failure to comply with certification requirement may result in a heavy fine, arrest or a penalty., heavy ~ velika globa, teška globa, teška novčana kazna, be punished by a ~ of kazniti globom od ..: A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than US$ .... and not more than US$ ..., be ~d for biti kažnjen zbog: The Captain of ship was fined $1,000 and removed from his position for exceeding the alcohol limit in .... waters, prior.
finer mesh (n) 1 (marine eng) gušće očice filtra; 2 gušća mreža
finger (n) (ports) a narrow dock or pier which protrudes into the seaway uski gat
finger jetty (n) (ports) izduženi gat (za prihvat brodova/brodica s obje strane)
finger pier (n) (ports) gat (izgrađen okomito na obalnu liniju)
finish (n) (boating/yachting) završni premaz, završna boja: The type of polyurethane that is commonly used in woodworking is a one-part finish
http://hingstssignpost.blogspot.com/2013/06/one-part-polyurethane-varnish.html exterior wood ~ završna boja za drvo
finished goods (n) (cargo) finalni proizvodi
Finished with engines - no more manoeuvring! (comm, marine eng) Svršeno u stroju - završeno s manevriranjem!, Italian: Basta col motore!; Finito in macchina!
Finished with the wheel, no more steering! (navig, seamanship) Svršeno s ručnim kormilarenjem!
finishing (boating/yachting) položaj jedrilice u regatnome natjecanju pri kojemu bilo koji dio njezina trupa, posade ili opreme u normalnome položaju presijeca ciljnu crtu u smjeru kursa od posljednje regatne oznake završavanje
finishing stone (=hone) (n) (marine eng) kamen za završno brušenje, kamen za honanje
fin keel (n) (boating/yachting) fiksna kobilica s utegom
finn (n) (boating/yachting) fin, jedrilica tipa finn
F.I.O. (=free in and out) (n) (shipping econ) A term of a charterparty. It means that the charterer controls and pays for loading and discharge of the cargo (which is therefore free of charge to the shipowner).
http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; troškove ukrcaja i iskrcaja snosi naručitelj franko ukrcaj i iskrcaj, slobodno u i iz: under f.i.o. terms the cost of loading and unloading a vessel is borne by the shipper or charterer Liner ~ Liner In Free Out – Qualification to freight rate denoting that it is inclusive of the sea carriage and the cost of loading. It excludes the cost of discharging, which is payable by the shipper or receiver, as the case may be. There may be a laytime and demurrage arrangement at the port of discharging since the carrier has no control over the discharging. (http://www.leewardcorp.com/es/) franko ukrcaj i iskrcaj u linijskoj službi
FIOLS & D - Free In and Out, Lashed, Secured and Dunnaged (n) (shipping econ, mar law) Qualification to a freight rate, which is equivalent to free in and out, but which avoids any ambiguity by specifying that the cost of lashing, securing and dunnaging is not for the account of the shipowner. It is normally payable by the charterer or the shipper. franko ukrcaj i skrcaj uključujući vezivanje, pričvršćivanje i podlaganje tereta
F.I.O.S. (=free in and out stowed) (shipping econ) the charterer controls and pays for loading, discharge and stowage of the cargo. Note that in the event of FIOS the freight rate only covers
A major fire broke out at a storage yard at the port last night. Fire broke out due to an explosion in one of the containers. The fire broke out in the ship's engine room. Extinguish ~ ugasi požar, put out the ~ pogasi požar, smother ~ prigušiti vatru, confine ~ lokalizirati požar, ~ fighting brigade vatrogasna jedinica, ~ precautions protupožarne mjere, catch ~ zapaliti se: Five people were confirmed to have died in the car ferry that caught fire off the coast of Greece. A tanker has caught fire in the Gulf of Mexico. Immediately after the accident the tanker started to leak its cargo and caught fire. Suffer ~: The vessel suffered an engine room fire on ...., 2017, two days after departing the port ... The fire comes just a few months after the tanker suffered a significant engine room fire. gcaptain.com pretrpjeti požar, zapaliti se, set on ~ zapaliti, ~ the fuel zapaliti gorivo, fight the ~ gasiti požar, liquid ~ požar tekućine / kapljevine, gas ~ požar plinova, flammable liquid ~ požar zapaljive tekućine, fixed ~ installations fiksni / ugrađeni uređaji na gašenje požara, ~ protection protupožarna zaštita, electric ~ electric ~, ~ main glavni protupožarni cjevovod, ~ hydrant protupožarni hidrant, ~ fighting equipment protupožарна oprema, ~ fighting appliances protupožарna oprema, ~ fighting protupožарна zaštita, ~ extinguisher aparat za gašenje požara, ~ detection device uređaj za otkrivanje požara, ~ alarm požarni alarm / uzbuna, suffer a ~ pretrpjeti požar: While on passage, the suffered a fire in the shaft generator that was quickly extinguished by the crew. fire (n) (navy) pucnjava, vatra return ~ uzvratiti vatru, uzvratiti pucnjavu, gun ~ pucnjava vatrenim oružjem exchange if ~ razmjena pucnjave fire (v) ispaliti,ランス理 Psycho Signal raketi)
The crew had already responded to the initial fire alarm and mustered rapidly on the bridge, which was the designated emergency station.

Fire detection panel on the bridge indicated that the fire was within engine room.

Fire detection system sustav dojave požara, sustav otkrivanja požara

Fire detector javljač požara manual ~ ručni javljač požara

Fire drill vježba gašenja požara

Fire extinguisher protupožarni aparat, Italian: estintore portable ~
Fire hose and fire-fighting equipment on board and ashore should be positioned and ready for immediate use. Are fire hoses and fire-fighting equipment pravilno postavljena i spremana za upotrebu?
fire locker (n) (nav arch, safety) loker propupožarne opreme
fire main (n) (safety) piping systems to which fire hydrants are connected vodovod
protupožarnog sustava, cjevovod za gašenje požara vodom ~ line cijev protupožarnog vodovoda
fire mains (n) (safety) vodovod protupožarnog sustava, cjevovod za gašenje požara vodom, protupožarni cjevovod: 5. Check the fire mains and report.

5.1 All fire mains are operational. (IMO SMCP)

fire main (n) (safety) piping systems to which fire hydrants are connected vodovod
protupožarnog sustava, cjevovod za gašenje požara vodom ~ line cijev protupožarnog vodovoda
fire mains (n) (safety) vodovod protupožarnog sustava, cjevovod za gašenje požara vodom, protupožarni cjevovod: 5. Check the fire mains and report.

5.1 All fire mains are operational. (IMO SMCP)

fireman 1 (marine eng, mar law) ložač (u brodskoj strojarnici); 2 (safety) a rating responsible for maintenance and handling of firefighting equipment onboard the ship vatrogasac
fireman's outfit (=fire-fighter's outfit; firefighting outfit) (n) (safety) = firefighting outfit vatrogasno odijelo (s opremom): According to SOLAS requirements the minimum number of fireman's outfit required on board are as follows: 3) For vessels 4000 tons and above minimum four sets are required. SOLAS regulations Chapter II Regulation 17 Safety lamps forming a part of the fire-fighter's outfit should be of an approved explosion-proof type, complying with a recognised standard. https://assets.publishing.service.gov.uk/

fire monitor vodeni top (na tegljaču), protupožarni top
fire on board (n) (marine eng, safety) (nav arch) požar na brodu: Most fires on board are located in engine room and they are caused by oil leakages, boiler incidents, electrical failures or accidents during hot work operations due to lack of proper maintenance and poor watchkeeping. (https://safety4sea.com/)

fire partrol (n) (safety) protupožarna ophodnja
fire party (n) (safety) protupožarna grupa: As soon as the fire is detected, fire party should muster. Master fire party.

fire plug (n) (nav arch, safety) hidrant
fire point (n) (marine eng) Lowest temperature at which an oil heated in standard apparatus will ignite and continue to burn. (http://www.marinedieseleurope.com/) točka zapaljenja
Before entering the fire space, crew should wear the appropriate PPE and use the proper fire extinguishing system. The ship’s fire suppression system was immediately activated, which contained and extinguished the fire.

Cardio-pulmonary resuscitation (CPR) is a procedure used to help a person whose life is in danger. The sequence of actions includes:

- Check for responsiveness
- Start CPR
- Call for help
- Administer CPR
- Continue CPR until help arrives

First aid actions are crucial in providing immediate assistance to a person who is in distress, such as:

- Checking for responsiveness
- Opening the airway
- Checking for breathing
- Administering rescue breathing
- Administering chest compressions
- Administering oxygen
- Administering medications

First aid kits are essential in providing the necessary supplies for immediate care. They typically include:

- Sterile dressings
- Sterile gauze pads
- Assorted plasters
- Crepe and conforming bandages
- Bandage clips, tape, and safety pins
- Scissors

Onboard first aid kits are crucial for providing immediate medical assistance in case of emergencies.
First Assistant Engineer (=Second Engineer Officer (in UK and IMO STCW Convention)) (US) prvi časnik stroja, prvi strojar: The First Assistant Engineer has the responsibility of overseeing vessel equipment operation, making log entries, and reporting problems to the Chief Engineer. The First Assistant Engineer assists with the primary level maintenance and repair of the vessels while underway. The First Assistant Engineer is responsible to the Chief Engineer for engine room duties, to the Captain for emergency duties underway and to the delegated yard supervisor when working ashore. The First Assistant Engineer is responsible for following established safety practices while performing assigned duties to protect self, co-workers and the public from personal injury and to prevent damage to Authority property. The First Assistant Engineer will be required to abide by all rules and regulations for operating passenger vessels.

https://jobsite.gcaptain.com/jobs/view/1st-assistant-engineer/52420381

Duties and responsibilities of the ~ dužnosti i odgovornosti prvog časnika stroja: □ Standing engine room watch and recording temperatures and pressures in the engine room logbook □ Notifying Chief Engineer of any abnormalities in the operation of the machinery on the vessel □ Accepting charge of lifeboat or life raft in an abandoning ship situation □ Pumping bilges and sewage, filling water, fuel and lubricant tanks, running main engines and/or generators and keeping vessel’s machinery from freezing during lay up □ Assisting with engine and electrical repairs as necessary □ Keeping engine room neat and clean □ Night engineer’s duties □ May be required to attend shipyard with Port Engineer and act as his/her representative as needed at remote locations and may be for extended periods of time □ Provides the highest level of customer service and professionalism to all internal and external customers □

Completes projects as assigned by the Port Engineer, prvi časnik broda: opis poslova: The First Assistant Engineer has the responsibility of overseeing vessel equipment operation, making log entries, and reporting problems to the Chief Engineer. The First Assistant Engineer assists with the primary level maintenance and repair of the vessels while underway. The First Assistant Engineer is responsible to the Chief Engineer for engine room duties, to the Captain for emergency duties underway and to the delegated yard supervisor when working ashore. This is a safety sensitive position both underway and ashore. The First Assistant Engineer is responsible for following established safety practices while performing assigned duties to protect self, co-workers and the public from personal injury and to prevent damage to Authority property. The First Assistant Engineer will be required to abide by all rules and regulations for operating passenger vessels. This position is a bargaining unit position that is represented by the Marine Engineers’ Beneficial Association (MEBA). Gcaptain www.gCaptain.com

first class ship (n) (nav arch, mar law, shipping econ) Ship to which the highest class has been given by a classification society in accordance with its rules concerning construction and maintenance. http://www.tkmglobal.net/chartering_F.HTM

prvoklasni brod, brod najviše klase, brod prve klase

first come first served tko prvi doće taj prvi dobiva (vez itd.), tko dođe prvi, taja prvenstvo: All other vessels are on a “first come first serve” basis

First Engineer (=1st Engineer) (n) (mar law, marine eng, hum_resources) = First Assistant Engineer prvi časnik stroja, prvi strojar, prvi oficir stroja, prvi makine; prvi od makine
First Engineer Officer (n) (mar law, marine eng, hum_resources) prvi časnik stroja
First Mate (=1st Mate) (n) (mar law, navig, hum_resources) prvi časnik palube, čif, prvi (od koverte / kuverte), čif, primo
first watch (=evening watch) (n) (navig) straža od 20:00 do 24:00 sati; the 2000 to 2400 watch prva straža, prva gvardija
fish (n) to clean ~ čistiti ribu, to fillet ~ rezati ribu za konzerviranje, to gut ~ čistiti iznutricu ribe, to skin ~ ljuštiti ribu, prati ribu, pelagic ~ pelagična riba, pučinska riba (plava), benthos ~ pridnena riba (bijela), oily ~ plava

riba, white-flesh(ed) ~; white ~ (UK) bijela riba 1 riba ribe
fish anatomy (n) (fishing) anatomija ribe

fish carrier (n) (nav arch) brod za prijevoz ulova ribe
fisherman's anchor (n) (seamanship, boating/yachting) SYNONYM Admirality anchor A traditionally shaped anchor having flukes perpendicular to the stock of the anchor and connected by a shank, similar to Admirality anchor. Less commonly used today. sidro s kladom, klasično sidro: The fisherman's anchor has the anchor shape most familiar to non-sailors. Fisherman's anchors are less common than modern anchors such as the plow and lightweight anchors.
fisherman's knot (n) (seamanship) ribarski uzao
fisherman's wharf (n) (ports) ribarski vez, ribarska obala
fishery (n) (fishing) ribarstvo, ribarsko poduzeće, ribolov ~ subsidies državni
poticaj za ribolov: Ban certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing
https://safety4sea.com/cm-life-below-water-addressing-ocean-sustainability/
fish factory ship (n) (nav arch) brod za preradu ulova ribe
fishing apparatus ribastki pribor, sredstvo za ribolov
fishing area (n) (navig) ribolovno područje, područje ribolova: They could therefore either remain in port and wait for the weather to abate, or steam for 2 days to another fishing area where the forecast was more favourable.
fishing boat (n) 1 (nav arch) ribarska brodica, ribarica, Italian: pescereccio:
We met a fishing boat on a reciprocal course. Two crewmen of a fishing boat were on the deck and had just started to shoot a line of pots.
2 ribarski brod
fishing gear = fishing tackle oprema za ribolov, pribor za ribolov: In the late evening, the port fishing gear became snagged on an underwater obstruction. When the fishing gear fouled the propeller, the boat would have become anchored at its stern and vulnerable to being swamped and ultimately capsizing. Back in the wheelhouse, the skipper closed the engine room hatch and instructed the crew to haul in the fishing gear and don their lifejackets. After further checks, the main engine was started, fishing gear recovered and, under her own power, the trawler returned to her home port.
fishing ground (n) ribolovno područje, područje ribarenja: The skipper had just hauled his lines onboard and was heading for another fishing ground.

fishing knot (n) (fishing) ribarski čvor, čvor za udicu
fishing lights (n) (navig) svjetla ribarskog broda
fishing line (n) (fishing) povraz, struna, tunja, kančenica, najlon, krena, fildešpanj, silk, svila fluorcarbon ~; monocalon line fluorkarbonski
povraz: For a perfect presentation and increased hook setting, this fluorocarbon is invisible underwater and offers the ideal balance between stiffness, strength, sensitivity and stretch and thereby an outstanding abrasion-resistance. **Fluorocarbon fishing line** has, in recent years, become a popular option for anglers in many situations. **Mono ~ = monofilament line povraz od jedne niti, jednovlaknasti najlon / povraz, monofil:** a sensitive line with an extreme shock absorber build-in to the monofilament. How To tie braided fishing line to monofilament or fluorocarbon leader- easy and strong fishing knot ?, braided ~; braided line najlon od pletenih vlakana, suhani povraz: The braided line is super sensitive and accurately passes every single nibble to the
bait, alerting the angler to strike.

**fishing line knot** (n) *(fishing)* = fishing knot čvor za udicu, ribarski čvor

**fishing reel** (n) *(boating/yachting)* rola za ribarski štap, bubanj ribolovnog štapa, rola za ribolov, mašinica za ribolov

**fishing rig** (n) 1 predvez: The basic types of fishing rigs are: Texas rig, Carolina rig, drop shot rig, sliding sinker bottom rig, split shot rig, three way rig, stream rid, bottom bouncers, bait walkers, slip bobbers; 2 *(fishing) = fishing tackle* ribolovni pribor

**fishing rod** (n) *(boating/yachting)* A long lever, usually made of fiberglass, graphite or composite materials and used to catch fish. ribolovni štap

**fishing spoon** (n) *(fishing)* SYNONYM blinker blinker

**fishing tackle** (n) *(fishing)* oprema za ribolov, oprema ribolovnog štapa, ribolovni pribor: The suggested tackle for Texas rig: rods: 6-6-7 foot medium heavy fast action bait casting; reel: low profile bait casting reel 6:3:1 gear ratio, thumb bar release medium line capacity; line:
10 lb to 14 lb test low stretch monofilament.

**fishing techniques** *(n) (fishing)* tehnikе ribolova pole and line fishing ribolov primamlживанjem *(brumanjem)* i šтапом, dive fisheries and hand collection ronilački ribolov, pots and traps ribolov vršama, dredging kočarenje, ribolov kočama, purse seine ribolov mrežom plivariicom, plivaričarenje, pelagic longlining ribolov повršinskim / pučinskim parangalom, површinski parangal, demersal longlining ribolov parangalom na morskom dnu, pridneni parangal, pelagic trawling површinsко kočarenje, ribolov површinskом kočом, demersal trawling kočarenje на morskom dnu, ribolov kočom на morskom dnu, ghost fishing štetni и nepoželjni lov napuštenim mrežama и drugim ribarskim alatima (hvatanje nepredviđenih organizama u mrežu), ribe uhvaćene u napuštenim mrežama, drifting gillnet; pelagic gillnet ribolov na morskom dnu mrežom posebnog oka, demersal gillnet ribolov na morskom dnu mrežom posebnog oka

**fishing vessel** *(n) (nav arch)* ribarski brod
**fish searching vessel** *(n) (fishing)* tragač ribe
**fish the anchor** *(v) (seamanship)* secure the anchor in the cat head učvrsti sidro

**fit** *(v)* 1 ugraditi, montirati ~ slack ugraditi / postaviti labavo, ~ together sastaviti, sklopiti, spojiti, ~ over montirati / postaviti na / preko, ~ between umetnuti; 2 *(marine eng)* staviti, postaviti; 3 opremiti, armati ~ with opremiti, opskrbiti / snabdjeti; 4 namjestiti, prilagoditi, podesiti

**fit** *(n)* 1 pristajanje, stavljanje; 2 The closeness of contact between machined components. (http://www.marinedieseleurope.com/) dobar spoj close ~ dobar spoj, dobro pristajati / sjedati, tijesno ležati, prijanjati: It is a close fit.; 3 prilagodba; 4 ugradak

**fit** *(adj)* 1 a pogodan, prikladan; 2 spreman: The second mate r was fit for watchkeeping duties.

**fitness** *(n) (mar law)* prikladnost broda (za preuzimanje i prijevoz tereta)

**fit out** *(v) (seamanship, boating/yachting)* opremiti, armati; armati

**fitted with** *(adj) be ~ with biti opremljen (s), imati, sadržavati opremljen (s), koji ima / nosi на sebi, koji sadrži

**fitter** *(n)* 1 *(marine eng)* a rating responsible for daily maintenance and minor repairs of all mechanical equipment onboard the ship monter: The fitter began the job by unscrewing the securing bolts of the angle bar at one end of the plates, then moved to the other end.; 2 mehaničar; 3 strojobravar

**fitting** *(n)* 1 okov на palubi за hvatanje vezova за teret hvataljka, okov

**fitting** *(n)* 1 *(marine eng)* ugradnja, montaža, sastavljanje; 2 *(marine eng)* uređaj

**fittings** *(n)* 1 *(marine eng)* a small part on or attached to a piece of piping, furniture or equipment oprema, sitna oprema, ventili, zasuni, pipci itd., armatura, *fitinzi* pipeline
~ oprema cjevovoda; 2 sitna oprema male jedrilice small-boat ~ sitna oprema male jedrilice, okovi male jedrilice (hvataljke, bitvice, pramčani okov, stoperi, vodilica škote i škotine, tračnica vodilice)

**fix** (n) *(navig)* the intersection of two or more lines of position; A geographical position determined with certainty by one or more of the following: visual references, radio navigation aids, celestial plotting, or any other navigation device. (IAMSAR) pozicija broda (dobivena snimanjem), opaženi položaj, položaj broda snimanjem jednog ili više terestričkih objekata, Italian: *punto* mark a ~ on the chart označiti poziciju na karti: No fixes were marked on the chart, and even the normal recording of GPS positions in the log was not carried out., electronic ~ pozicija broda određena pomoću sustava elektroničke navigacije, satellite ~ pozicija broda određena pomoću satelitske navigacije (npr. GPS), plot a ~ ucrtati poziciju: If ECDIS is in use, fix frequency is not an issue. Nevertheless, it is reasonable to plot fixes at less frequent intervals when using an ECS, checking the system with a hand-plotted fix at prudent intervals., to obtain a ~ dobiti / odrediti poziciju broda: The usual method of obtaining a fix on the chart from radar ranges is to use a pair of compasses and draw “position circles” of at least three, widely-spaced identified conspicuous objects. C, make a ~ odrediti poziciju, running ~ pozicija dobivena u razmaku

[vremena]

**fix** (n) *(mar law, shipping econ)* To conclude successfully negotiations resulting in the charter of a ship or cargo. **ugovoriti najam broda** To reach final agreement on the terms of a charter party. **sklopliti ugovor o najmu broda**

**fix accuracy** točnost pozicije / snimke / položaja

**fix a position** *(v)* *(navig)* odrediti poziciju proda, utvrditi poziciju broda: Fix position of vessel.

**fix by soundings** *(n)* *(navig)* pozicija dobivena mjerenjem dubine

**fix dimension** *(n)* *(navig, electr)* dimenzije očitanja (navigacijskog sustava)

**fixed and flashing light** *(n)* *(navig)* stalno svjetlo s bljeskovima
**fixed fittings** *(n) (cargo handling)* Fixed container fittings include: Deck and hatch cover foundations, Lashing points, - In hold installations, - Tank top fittings

**fixed offshore facility** *(n) nepomični odobalni objekt*

**fixed pitch propeller** *(=f.p.p.) (n) (nav arch, marine eng) = fixed propeller prekretni propeler**: The engine drives a fixed pitch propeller and, at sea, is run at 83 rpm to give the ship a speed of about 12 knots.

**fixed propeller** *(=fixed prop) 1 (nav arch, marine eng) COMPARE controllable pitch propeller**

**fixed route** stalni pravac / ruta / brodska linija, utvrđena ruta, ustaljena linija, redovita linija

**fixing by radar ranges** *(n) (navig) određivanje pozicije s radarskim mjerenjem udaljenosti**
fix rate (n) (navig, electr) interval očitanja (mjernih podataka)
fixture /'fikstʃə/ 1 (mar law, shipping econ) Successful conclusion of the negotiations between shipowner and charterer, generally through shipbrokers, resulting in the charter of a ship
http://www.tkmglobal.net/chartering_F.HTM

sklopljeni ugovor o iskorišćavanju broda, ugovarateški posao brodarski ugovor o kratkoročnom najmu broda, ugovor o kratkoročnom čarteru broda, contract of affreightment ugovor o prijevozu robe (za određenu količinu i na određeni rok, npr. godišnji ili višegodišnji ugovor), dugoročni brodarski ugovor na putovanje; 2 (mar law, shipping econ) sklopljena vozarina, sklopljena najamnina broda, ugovorena vozarina: May and June fixtures are in the $7.50 to $7.80 per tonne range for some operators” for a Brazil to China voyage, said a Shanghai-based capesize broker on Thursday

fix update rate (n) (navig) vremenski period između dvije pozicije
flag (n) (navig, mar law) zastava hoist a ~ izvjesiti zastavu, istaknuti zastavu, display the ~ istaknuti zastavu: These vessels are required to display a red flag by day and an all round red light by night., courtesy ~ zastava zemlje u čijim vodama brod plovi
flag (n) 1 zastava, zastavica; 2 (navig, mar law) država pripadnosti (broda)
flagged ship (n) (mar law) brod nečije zastave, brod nečije državne pripadnosti: The vessel is flagged in the Marshall Islands. UK ~ brod britanske državne pripadnosti, Croatian ~ brod hrvatske zastave, brod hrvatske državne pripadnosti: The was sailing under the Croatian flag.
flag of convenience (=flag of necessity) (n) (mar law) Flag states that provide lesser economic, financial, tax and/or regulatory burdens to ship owners registering their ships in those countries.(www.euronav.com)

jeftina zastava
Flag Officer (n) (navy) Rear Admiral, Lower Half; Rear Admiral, Upper Half; Vice Admiral, Admiral, and Fleet Admiral are flag officers. kontraadmiral
flag of ship (n) (mar law) država pripadnosti broda, zastava broda
flag pole (n) (seamanship) zastavni jarbol, jarbolet
flagstaff (n) 1 (nav arch) jarbol za isticanje države zastave broda; flag pole, usually at the stern of a ship; carries the ensign zastavni jarbol, Italian:asta di bandiera; 2 jarbolet (na pramcu), aštulin
flag state (n) (mar law) država zastave broda Law of the ~ pravo države zastave broda: The provision of such crew management services includes the following services, (ii) ensuring that the applicable requirements of the law of the Flag State in respect of rank, qualification and certification of the Crew and employment regulations, such as Crew’s tax and social insurance are satisfied.
flag state requirements (n) (mar law) inspekcijski nadzor domaćih brodova, propisi države zastave broda
flake /'fleik/ (boating/yachting, seamanship) COMPARE flake: to lay a rope or chain down in long bights side by side or in coils in regular order so that it will run out clear or can be easily and rapidly paid out slagati konop: The Figure 8 Flake allows the rope to be pulled rapidly off the deck
with minimal risk of kinking, twisting, or knotting. Before making the **flake**, start at the cleat and work your way to free the end shaking out any twists. ~ **down složiti konop**

**flake** /flēk; feik/ (=fake) (n) (seamanship) složeni konop, namotaj konopa, uredno složeni konop Flemish ~ spiralno složen konop

**flake catfish** (n) (fishing) mačka mrkulja

**flame** (n) (safety) ~ arrester zauostavljač plamena, osigurač plamena: The relief valves are made with an approved **flame arrester function**. For direct reversing main engines >230 mm bore **flame arresters** or bursting discs are required for each cylinder fitted between the cylinder start air valve and the manifold., ~ **plate plamena ploča**: Individual cylinder heads, incorporating a thick bore-cooled **flame plate**, are held down by four hydraulically tightened studs., ~ **trap odvajač plamena, prigušivač plamena**: In an attempt to reduce the effects of an explosion, **flame traps** and relief valves are provided in the pipelines. **plamen**: The base oil ignited and a **sheet of flame** and dense smoke enveloped the area.

**flame arrester** (=flame screen) (n) (safety) A device comprised of a fine wire gauze that is fitted into the discharge end of a vent line. It prevents the passage of flame, but will allow vapor to pass through. (www.euronav.com) **zaustavljač plamena, blokator plamena**

**flame detector** (n) (safety) javljač plamena, detektor plamena: Flames, as opposed to smoke, are often the main result of gas and liquid fires and **flame detectors** are used to protect against such hazard.

**flameproof enclosure** (n) (safety, electr) neprodorni oklop (el. spoja)

**flammable** (adj) ~ cargo zapaljiv teret, ~ gas zapaljiv plin, ~ liquid zapaljiva tekućina, ~ vapours zapaljive pare zapaljiv

**flammable cargo** (n) (cargo) zapaljivi teret: After carrying a **flammable cargo**, always assume that the atmosphere within a tank is flammable. Oil tankers, carrying various **flammable cargoes**, experience a real danger of explosion when vapours remain in emptied tanks.

**flammable gases** (n) (cargo) zapaljivi plinovi: A container packed or loaded with flammable gases or liquids having a flashpoint below 23°C c.c. should only be stowed under deck. Ventilate properly, and ensure that the atmosphere is correctly tested for both toxic and **flammable gases**, and that the atmosphere is certified as being safe.

**flammable liquids** (n) (cargo) zapaljive tekućine: Dry chemical extinguishing systems are designed to combat Class B (flammable liquids and gases) and Class C (electrical) fires. Adjacent to the store was a designated storage arrangement for chemicals and **flammable liquids**.

**flammable solids** (n) (cargo) zapaljive krute tvar

**flange** (n) deep ~ deblja prirubnica, liner ~ prirubnica košuljice: The cylinder liners are short single-piece units with intensive cooling of the upper part achieved by bore cooling of the **liner flange**. (marine eng) **prirubnica, flanđa**: They had difficulty in removing bolts from a **flange**
and so decided to cut them off, using gas cutting equipment. blank ~ slijepa prirubnica: Take off the assembly and replace it with a blind flange, bolt the ~ spojiti prirubnicu vijcima, ~ connection prirubnički spoj: Although the vessel had been in operation for less than six months since the last dry-docking, it was evident that excessive vibrations caused some flange connections to become loose; 3., pipeline ~ prirubnica cjevovoda: It was soon established that the leak originated from a failed joint at a pipeline flange on a fuel pump oil return line.

http://marineengineersblogs.blogspot.hr/2013/06/types-of-coupling_17.html

flank (n) (marine eng) SEE crest: bok zuba (na zupčaniku)
flap (v) (boating/yachting) treperiti (~ o jedru), lepršati, tresti se
flare /flər/ (n) (safety) baklja: At 0500 another flare was sighted approximately 2nm ahead of own vessel and the Coastguard was advised. parachute ~ baklja s padobranom, white ~ bijela baklja, hand-held ~ ručna baklja, mini~ mini-baklja, orange smoke ~ baklja narančastog dima, red ~ crvena baklja: During the twilight hours of the morning a red flare was sighted on a northerly bearing, approximately two minutes later, a second flare was sighted, buoyant ~ plutajuća dimna baklja, fire the ~ ispaliti baklju, zapaliti baklju: The crew members of the vessel had abandoned the ship and fired flares for help from a lifeboat, alerting other vessels., distress ~ baklja za slučaj pogiblji: The skipper contacted the coastguard by mobile telephone and a deckhand ignited a distress flare., ~ sightings opažanje baklji (za slučaj pogiblji i drugih opasnosti), red ~ crvena baklja: Red flares are recognized internationally as a distress signal.
flare /flər/ (n) (nav arch) the spreading out from a central vertical plane of the body of a ship with increasing rapidity as the section rises from the water line to the rail kosina pramca: The port side of the ship's bow flare was badly damaged. MAIB accident report

http://meoclassiv.blogspot.hr/2016/10/define-flare-in-ship-construction-and.html

flare /http://racetrackdriving.com/tech/brake-line-flares-metric-sae-inverted-bubble/ (=flaring) (n)

prošireni otvor cijevi

flash (n) thin ~ of tanak sloj / obloga 1 (navig) a relatively brief appearance of a light
The tin flash also functions as an effective dry lubricant when new bearings are installed and the engine is barred over. The 3rd Officer used the Aldis Lamp to flash him and the Pilot attempted to call him on VHF. After Dover Coastguard were informed, they requested that we continued to call on VHF and flash the bulk carrier.

A deckhand released a second flare when they spotted the blue flashing lights of emergency service vehicles on the shore, and a third flare on hearing the approach of the local lifeboat. Suddenly he sighted a flashing light twice within a short space of time on the port bow and very close to the ship. In many regions, local regulations require vessels carrying dangerous cargoes to exhibit a flashing red light.

Fl single flashing na bljeskove, long flashing dugi bljeskovi, group flashing bljeskovi 3 u grupi, Fl (2+1) composite group flashing bljeskovi 2+1 u grupi, continuous quick flashing kratki bljeskovi, Q(3) group quick kratki bljeskovi u grupi, IQ interrupted quick kratki bljeskovi na prekide, VQ continuous very quick ~ ultrakratki bljeskovi, ~ signalling signalizacija bljeskajućim svjetlom

During this turn, there was a short flashing with an orange flashlight from the other vessel, but nothing else.

The temperature at which a fuel will give off a vapor that will burn momentarily when exposed to a flame or spark. (http://www.marinedieseleurope.com/) plamište: Use only clean oil with a flash point above 250 °C. The fuel can be dangerous to handle and store; this is especially so if the pour point is high, making it necessary to heat the HFO close to its flash point.

The engine must also be bolted to a flat surface.

Ravno / plosnato dno

A rail car without a roof and walls plato-vagon, vagonska platforma, vagon bez stranica
flat container  (n) (cargo) = flat rack  ravni kontejner, kontejnerska platforma,  flat kontejner
flathead grey mullet  (n) (fishing) cipal od porta
flathead mullet  (n) (fishing) Lat. Mugil cephalus cipal blataš

flat keel  (=keel plank; center plank)  (n) (sailing vessels, nav arch) plosna kobilica
flat of bottom forward  (prep.phr) (nav arch) na ravnom prednjem dijelu dna: Most frequent damage to hull plating seems to occur on the flat of bottom forward. Čini se da se oštećenje oplate dna događa najčešće na ravnom prednjem dijelu dna
flat oyster  (n) (fishing) (fishing) kamenica, oštriga
flat rack  (=flat rack container)  (n) (cargo handling) a container with no sides and frame members at the front and rear.; container can be loaded from the sides and top  ravni kontejner, kontejnerska platforma,  flat kontejner: The unit affected was an empty flat rack with a wooden floor.

flat rate  (n) (shipping econ, mar law) Flat rate reflects the costs in USD of transporting a tonne of cargo for a standard vessel on a route-specific round voyage. The standard vessel is of 75.000 dwt, traveling at 14.5 knots with a consumption of 55 tonnes of 380cst fuel oil. referentna vozarina: The reference rate, also known as the flat rate, is reported as Worldscale 100 (WS100), flaw  /fləʊ/ (n) 1 neispravnost; 2 grješka, greška: This design flaw seems to have existed from the time of construction of the ship and apparently had not been rectified; 3 (mar law) pogreška u proceduri; 4 (nav arch) pukotina, napuknuće
flawless  /ˈfləʊləs/ (adj) bez greške, bez smetnji
flax oil (n) (cargo, marine eng) laneno ulje

fleet /flət/ (n) 1 (shipping econ) brodovlje: The incident was reviewed by the management office, and shared with all vessels in the fleet; owner’s ~ brodovlje nekog brodovlasnika: This incident report will be circulated to the owner’s fleet and to the industry to increase safety awareness; In future, the vessel is to verify the condition of the entire cargo-hose string with the terminal. The information was promulgated to the shipyard and throughout the owner’s fleet and offices. A campaign on mooring safety has been carried out in the company fleet.

fishing fleet is the third biggest in the European Union., company ~ brodarova flota, flota

brodara: A campaign on mooring safety has been carried out in the company fleet, manage the ~

upravljati flotom; 2 An organization of ships, aircrafts, marine forces, and shore based fleet activities, all under one commander, for the purpose of conducting major operations.

(https://www.quarterdeck.org/index.html) mornarica merchant ~ trgovačka

mornarica; 3 (navy) flota

Flemish eye splice (n) (boating/yachting) omča s metalnom upletkom

Flemish flake (n) (seamanship) COMPARe flake: spiralno namotan konop, spiralno namatanje užeta

Flemish horses (n) (sailing vessels) uže nogostupa na križu

flexibility / fleksəˈbɪləti/ (n) (marine eng) savitljivost, opružnost, elastičnost, prilagodljivost: The propulsion plant must therefore allow flexibility in operation over a range of power levels while maintaining operating efficiency with respect to fuel and lube oil consumptions. Operational flexibility and power output are fostered by the single-stage sequential turbocharging system which is based on two turbochargers load ~ of the engine prilagodljivost stroja svim opterećenjima

flexible /ˈflɛksəbə/ (adj) savitljiv, elastičan, fleksibilan: The false metal tank top was extremely flexible and water could be heard moving when this was walked on. ~ pipe elastična cijev: As the fire spread, it is possible that flexible pipes in the engine room failed, thus allowing more water into the vessel, ~ hose elastična cijev (gumena, platnena, sintetička): The chief engineer decided to recharge the system, using a flexible hose linking a full Freon cylinder and the recharging valve located on the compressor. During this operation, a flexible hose on the crane came adrift from its coupling and hydraulic oil under high pressure sprayed out, some of it entering the bosun’s eyes, ~ tubing Nylon, neoprene, or other synthetic material used for tubing whose advantages are adaptability and vibration resistance. (http://www.marinedieseleurope.com/) elastične cijevi, fleksibilne cijevi
flight deck (n) (navy) deck of ship on which planes land and takeoff poletno-slijetna paluba

float /fləʊt/ (n) 1 (marine eng) plovak: The power for the pump and float switch was derived from the battery side of the battery isolating switch.; 2 (fishing) plovak, gavitel
float /fləʊt/ (v) (safety) = refloat odsukati (brod)
float /fləʊt/ (n) (nav arch) plutajući objekt: Having passed abeam of the light float, the other vessel altered course to port.
float /fləʊt/ (v) plutati: A liferaft's ability to float free is pivotal to its usefulness in an emergency. The rope, being stiff and heavy did not float, the excess slack went straight down into the ship's propeller. The draft calculations made by the master were on the basis that the vessel was floating in sea water, however, the specific gravity at the time was in fact 1015
float /fləʊt/ (n) (fishing) A term also for bobber, used as a strike indicator for live bait fishing. plovak (za udicu)

floating (n) plutanje
floating koji pluta, plutajući ~ container plutajući kontejner, kontejner koji pluta: Ships have been alerted to the danger of floating containers near the scene of the disaster, although no pollution or hazardous cargo have been reported.
floating boom (n) (safety) plutajuća brana, barijera (za sprječavanje širenja onečišćenja mora) (plutajuća)
floating craft plutajuće plovilo, plutajući objekt
floating crane plutajuća dizalica, plovna dizalica, pontonska dizalica

http://maritime-connector.com/ship/matador-3-9272137/

floating dock (=floating drydock) (n) (nav arch) A U-shaped dock with double skins which is filled by opening up the silcocks, and allowed to settle sothe middle section will be lower than the keel of the ship so that repairs can be made on her hull.
floating ice (n) (oceanogr) plutajući led: The draft calculations made by the master were on the basis that the vessel was floating in sea water, however, the specific gravity at the time was in fact 1015.

floating liquefied natural gas facility (=FLNG facility) (n) (nav arch) plutajući LNG objekt: In 2018, Shell’s huge floating liquefied natural gas (FLNG) Prelude, the world’s largest vessel, will begin its job of extracting and processing gas at sea, reported CNBC. The 488-meter-long and 74-meter-wide floating facility left the shipyard Maritime Logistics Professional <update@maritimeprofessional.com> The Prelude facility weather vanes 360 degrees around a turret, moored in 248 meters of water. Three stern thrusters enable FLNG Prelude to maintain an optimum heading that will facilitate offtake operations within the design limits of the facility and associated cargo transfer equipment. The facility is moored to the sea bed via 16 anchor piles and chains whilst being directly connected to wells that access the gas reservoir via flexible risers routed through the turret.

floating mark (n) (navig) plutajuća oznaka
floating object (n) (nav arch) plutajući objekt: The echo was weak and occasionally disappeared, giving the impression that it was interference or a floating object drifting in the sea.

floating policy (n) (mar law) otpisna polica
floating production, storage and offloading vessel (=FPSO) (n) (nav arch) plutajući objekt za proizvodnju, skladištenje i iskrcaj naftnih proizvoda, FPSO-brod: The basic design of most FPSOs encompasses a ship-shaped vessel, with processing equipment, or topsides,
Floating Storage Regasification Unit (FSRU) is a vital component required while transiting and transferring Liquefied Natural Gas (LNG) through the oceanic channels. Therefore, FSRU can be termed as a special type of ship used for LNG transfer.
float low in the water

flooded

2. za uplinjavanje ukapljenog prirodnog plina, brod za regasifikaciju ukapljenog prirodnog plina

float low in the water (v) (navig) biti duboko uronjen u vodi

float off (v) (seamanship, safety) odsukati se: With the engine still going astern, she floated off on her own. Sa strojem koji je još uvijek vozio nazad brod se sam odsukao.

float out (v) (nav arch) zaplutati (iz doka): ... the world’s biggest cruise ship, was floated out of dry dock

float out (n) (nav arch, navig) isplovljenje iz doka: The float out was conducted June 18 and 19 under perfect conditions

floe (n) (oceanogr) plutajući led big ~ veća plutajuća ledena masa

flog /flɔɡ/ (n) (boating/yachting) lamatanje jedra

flood (n) 1 (oceanogr) the period when a tidal current is flowing landward; a rising tide; incoming tidal current filling a bay or other body of water plima, visoka voda, Italian: flusso ~

tide plima, plimna struja, p'limni val: The vessel had been in that position for several minutes when the flood tide caught the stern and pushed her to one side of the narrow channel., ~ stream

plimna struja: Slack water was at 0926 and so the passage was made with a 2 - 4 knot flood stream, which in some sections of the narrow channel was directly abeam.; 2 (seamanship) naplavina (u kaljuži, tanku): The master went into the engine room and saw flood water rising in the bilges. ~

water naplavna voda, ~ level razina naplavljivanja, razina naplavne vode: After divers had partially plugged the puncture and a high capacity shore pump had been rigged, the flood level in the pump room was reduced to below floor plate level, enabling a cement box to be constructed to prevent further flooding.

flood (v) (oceanogr) rasti (o moru, morskim mijenama): The wind was force 2 from the north north east and the tide was flooding at 3 knots from the north.

flood /flʌd/ (v) (seamanship) to fill a space with water naplavit, poplaviti: The accommodation space started to flood, but instead of investigating the source of the flooding further, the skipper instructed the crew to retrieve the nets. The bow thruster space was found to be flooded. Breaching of the hull caused water to flood a compartment below the main deck. https://gCaptain.com

flooded (adj) naplavljen (skladište, strojarnica; radi gašenja požara)
flooding 1 (n) (safety) Flooding is the result of water ingress onboard and can affect the watertight integrity and finally the stability of the vessel (https://safety4sea.com); ship flooding may result from damage in vessel's hull due to collision or grounding, heavy weather such, leakages at the ballast tanks etc. naplava, naplavljivanje (skladišta itd.), prodor vode: The exact cause of the flooding is unknown. The accommodation space started to flood, but instead of investigating the source of the flooding further, the skipper instructed the crew to retrieve the nets. last passage and conducting ballast exchange operations when a large gate valve in the engine room on the ballast/bilge system failed, causing severe flooding. Establish extent of flooding and approximate rate of water ingress. Utvrđite obim naplavljivanja i približnu brzinu prodora vode. cause ~ prouzročiti naplavljivanje, izazvati naplavljivanje: The ship sustained shell plate damage to the bottom of its hull, causing water ingress to some ballast tanks and flooding in the engine room.; 2 namjerno naplavljivanje brodskih prostora (skladišta itd. radi sprječavanja totalne štete) flooding of ship’s spaces (n) (safety) naplavljivanje brodskih prostora: Some flooding of forward spaces was caused by wave damage to ventilation pipes when the vessel was hove to, but she reached port without further problems.
flooding tide (n) (oceanogr) plimna struja, plima: running astern with main engine and bow thruster, the wind and the flooding tide were slightly on the vessel’s port side.
flood light (n) (nav arch) reflektor: The main deck, including the pilot ladder, was well illuminated by the deck flood lights and the bridge wing lights.
flood tide (n) plima, plimna struja, Italian: marea montante: Soon after the onset of the flood tide, the tension on the forward ropes increased and the bow was set slowly off the wharf. Although there was a flood tide and the westerly wind was blowing at 15 knots, a tug was not considered necessary.
floor /floː/ (n) 1 (nav arch) poprječni nosivi element dna broda koji se proteže od uzvoja do uzvoja; Vertical transverse full-breadth plating between bottom inner bottom and bottom shell plating. https://officerofthewatch.com/tools/maritime-dictionary; vertical transverse plate immediately above the bottom shell plating, often located at every frame, extending from bilge to bilge. (Ship Terms Glossary.html) rebrenica, rebro na dnu brodske konstrukcije: The investigation later found that halfway down the ladder to the forecastle tweendeck, oxygen concentrations were in the order of 10% and only 5-6% at floor level. The Third Officer heard a cry and a thud on the floor of the hold, looking down, he saw the seafarer lying at the bottom of the hold. djelomična rebrenica, watertight ~ nepropusna rebrenica, deep ~ visoka rebrenica, bracket ~ okvirna rebrenica, ~ timber rebrenica (drvenoga broda), asymmetric ~ rebrenica nejednakih krakova, overlapping ~ rebrenica nejednakih krakova

https://www.tc.gc.ca/eng/marinesafety/tp-tp14609-4-construction-150.htm; 2 (nav arch) dno brodskog skladišta, pajolada (drvene barke): That aluminum floor plating in the engine rooms are exchanged with plating of steel. ~ plates podni limovi, limovi dna skladišta: As the chief engineer went onto the bottom floor plates to check the freedom of the propeller shaft he saw there was
about 40cm of water in the bilge, ~ plating podni limovi, limovi rebrenice, limovi dna skladišta [ ]

floorboard (boating/yachting) podnica, pajol
floor ceiling (n) (sailing vessels) planking with which the bottom or tank top of a vessel's hold is covered nutarnja oplata dna, pajol, Italian: pagliolo; paliolato
floor grating (n) (nav arch, marine eng) podne rešetke, gradele, gradelaj: Air is delivered into the bottom opening and rises through a floor grating over the cargo and returns via another section of the plenum to the top port.
flooring (n) (nav arch) podne daske (užljebljene), pajoli: A few days into the voyage, with the ship pitching heavily in gale force winds and high seas, two crewmen were repairing the cabin flooring in a crew cabin.
floor plate (n) (nav arch) podni lim, podna ploča: Safely carry out necessary modifications to any similar deficiencies and/or deformed floor plate(s).
floor timber (n) (sailing vessels) rebrenica, pjana, lukoča, kalata (flotilla /fləˈtɪlə/ (navy) flotila HRM ~ Flotila HRM Flotilla Command

Zapovjedništvo Flotile, Surface Action Division Divizijun za površinsko djelovanje, Support Division Divizijun za potporu, Mine Division Protuminski divizijun, Resident Ship Detachment Odred rezidencijalnih brodova, Marine Corps Company - Infantry Satnija mornaričko desantnog - pješaštva

Flotilla Command

flotsam, jetsam, ligan (lagan) and wreck (n) (mar law) Particular categories of property which may be salved. Flotsam refers to things found floating after a ship has perished. Jetsam refers to things thrown overboard to lighten a ship. Ligan (lagan) refers to things thrown overboard with a buoy to mark where they are. Wreck refers to an abandoned vessel or part of a vessel which is still afloat, stranded or aground.

spašena imovina, plutajuća, izbačena s broda, izbačena i označena plutačom te napušteni brod koji pluta

flounder /ˈflaʊndər/ (n) (fishing) Lat. Platichthys flesus iverak, iver, ploča, pašara,
flour /ˈflaʊər/ (cargo) brašno
flow /ˈfləʊ/ (v) ~ by gravity protjecanje / istjecanje slobodnim padom /
  samotokom, ~ through propuštati, protjecati: The blower impeller, as it rotates,
  accelerates the air flow through the impeller, and the air leaves the blower with a velocity that is
  convertible into a pressure at the diffuser. teći, kolati, strujati, izlijevati se: When the system
  is working properly, the water should flow across the tanktop.
flow /ˈfləʊ/ traffic ~ 1 (ports, shipping econ) promet tereta (u luci); 2 (navig) kretanje
  prometa brodova: The other vessel crossed the south bound traffic lane on a course of 0750T and
  not at right angles to the traffic flow. 1 (marine eng) protjecanje, protok, tijek, tok: There
  are thermostatic valves to regulate the flow of either the sea or the fresh water. heat ~ (marine eng)
  strujanje topline: This is particularly important because the exhaust seat insert incorporates a
  water-cooled cavity to maximize heat flow from the valves., ~ meter mjerač protoka: A flow
  meter is fitted into the system to indicate fuel consumption., air ~ protok zraka, strujanje
  zraka: The blower impeller, as it rotates, accelerates the air flow through the impeller, and the air leaves
  the blower with a velocity that is convertible into a pressure at the diffuser., gas ~ protok plina: The
  new bearing arrangement facilitates the use of axial and radial exhaust gas flow into the turbocharger,
  extending the options for the enginebuilder., ~ rate brzina protoka: The so-called fuel-stop valve
  interrupts the fuel supply to the relevant injector in cases of excessive fuel flow rates.; 2 strujanje; 3
  (navig) kretanje (prometa)
flowmeter /ˈfləʊˌmiːtər/ (marine eng, cargo handling) An instrument used to measure the flow
  rate of a fluid in motion. (http://www.marinedieseleurope.com/) mjerač protoka (tekućine,
  tekućeg tereta)
flow of radar signal (n) (electr, navig) tok radarskog signala u predaji i
  prijamu
FLT (=fork lift truck) viličar: At all times around 250 new and refurbished used forklift trucks
  and port equipment are in stock, available for sale or rent:

fluke /ˈfluːk/ (seamanship, nav arch) lopata sidra, krak sidra, pata: As the anchor was
lifted the bosun informed us that one fluke was missing.

flurries (n) (meteorol) light snow falling for short durations lagani kratkotrajni snijeg:
Newfoundland: Sea-effect flurries forecast for the island, with western portions seeing heavier amounts in the 10-15 cm range. snow ~ a brief instance of snow with thin, single flaked showers lagane snježne padaline: Snow flurries tend to come from stratiform cloud.

flush (v) (boating/yachting) isprati: Flush your cooling system

flush deck (n) (nav arch) A deck running from stem without being broken by forecastle or poop.

https://officerofthewatch.com/tools/maritime-dictionary/ paluba bez nadgrađa, ravna paluba (bez prepreka), kontinuirana paluba: Taking hold bilge and tank soundings is very important at sea for the safety of the vessel. However, is it really possible to do this with the flush deck sounding caps when shipping seas over the decks? No, it is not possible.

flush deck vessel (n) (nav arch) Vessel having an upper deck extend continuously from bow to stern. https://officerofthewatch.com/tools/maritime-dictionary/ brod bez nadgrađa

flush face (n) (cargo) ravni rub daske

flush joint (n) (nav arch) spoj sa stičnicom, dodirni spoj

flute /flu:t/ (n) (marine eng) udubina (ženskog dijela rotora), žljeb (ženskog dijela rotora)

fly /flai/ (v) 1 letjeti, poletjeti: A search and rescue helicopter flew out to the vessel, and a portable pump was lowered. ; 2 (navig, seamanship) vijoriti: The vessel, on which I was Chief Officer, was managed and owned by a reputed Japanese company, flying a FOC and manned by multinational Asian crew. to ~ a flag vijoriti zastavu: The correspondent does not mention if the warship was flying a flag hoist. The vessel flew the flag of a European State and, for the purposes of operating and chartering, had managers in that Country. ; 3 (navig, seamanship) izvjesiti (zastavu), istaknuti, dići

flybridge (n) (boating/yachting) a high position or deck from which to steer a boat nadkabinski most (na gliseru, jahti, brodici), flybidge: This liferaft had not yet been stowed in its permanent location on the flybridge.

flying bridge (n) (nav arch) krilo navigacijskog mosta

flying jib (n) (boating/yachting) protuflok

flying sail furler (n) (boating/yachting) In flying sail furlers, only the head of the sail is attached to the torsion rope, the rest of the sail is independent from the furler, and the tack is connected to a floating ring on the lower drum, allowing it to remain stationary while the drum turns. slobodan uređaj za namatanje prečke / genove (neovisno od prednjeg leta): Flying sails furlers are an excellent upgrade for anybody looking to improve performance (professional skippers or hotshot racers, but also sailors keen on cruising).

https://www.westmarine.com/WestAdvisor/Flying-Sail-Furlers The NEX flying-sail furlers are composed of 2 mechanisms, the spool and swivel, each with terminals allowing for fitting or use.
flying sail system
slobodan sustav za namatanje prečke / genove (neovisno od prednjeg leta): Flying sail furlers are designed to be used with light and heavy flying, asymmetrical sails, at heading angles between a close reach and a broad reach.

flyweight (n) (marine eng) zamašni uteg: It consists of revolving carrier on which are mounted two weights (the flyweight) having cranked levers.

flywheel /fliːəlwɛl/ (n) (marine eng) zamašnjak, Italian: volano: There is an integral forged coupling flange for the flywheel, and the camshaft drive gear is split to facilitate replacement. The valve gear is actuated by side-loaded camshafts driven from the flywheel end through nitride-hardened gears.

F.O. (=F.O.; fuel oil) (shipping econ, marine eng) brodski: Signs to be placed on both FO and DO service tanks and in vicinity of activation point outside the engine room, warning crew of the risk of blackout if QCVs are shut; gineer and a company superintendent who was on board to carry out an inspection of the vessel, planned to test the operation of QCVs in the fuel oil (FO) and diesel oil (DO) tanks.

F.O. (=free out) (n) 1 (mar law, shipping econ) A term of a charterparty which obliges the charterer to control and pay for discharging the cargo. The term is sometimes also found in contracts of sale of goods, often in combination with one of the Incoterms.

franko iskrcaj tereta, cijena prijevoza uključuje i troškove iskrcaja tereta, slobodno iz a (shipping econ, mar ins) troškove iskrcaja snosi primatelj franko iskrcaj

foam /fəʊm/ (n) (safety) pjena (za gašenje požara): We carried out a test on a sample foam extinguisher following servicing, to ensure it is capable of laying an effective foam blanket. air ~ mehanička pjena, mechanical ~ foam produced by mixing a foam concentrate with water to produce a foam solution: mehanička pjena, ~ extinguisher protupožarni aparat na pjenu: He briefly entered the space and rapidly discharged a portable CO2 and a foam extinguisher, ~ monitor top za gašenje pjenom, protupožarni top na pjenu: Soon afterwards, an offshore supply vessel arrived on scene and began to fight the fire with a powerful foam monitor. foam monitor extinguisher (n) (safety) protupožarni aparat na pjenu foam system (n) (safety) sustav gašenja pjenom: ... it specifies only CO2 and halon systems, with no mention of the high-expansion foam systems which are being installed more frequently these days

F.O.B. (=free on board) (mar law, shipping econ) (jedan od trgovinskih uvjeta INCOTERMS) cijena uključuje ukrcaj tereta na brod; a term of the contract of sale. INCOTERMS: Free on Board means that the seller delivers when the goods pass the ship's rail at the named port of shipment. This means that the buyer has to bear all costs and risks of loss or damage to the goods from that point. The FOB term requires the seller to clear the goods for export. This term can be used only for sea or inland waterway transport. If the parties do not intend to deliver the goods across the ship’s rail, the FCA term [free carrier] should be used.; Prodavatelj je dužan predati robu u ukrcajnoj luci uz bok broda na mjestu ukrcaja u luci koje je označio kupac ili u teglenici (D. Pavić); Free On Board (named loading port): the classic maritime trade term, Free On Board: seller must load the goods on board the ship nominated by the buyer, cost and risk being divided at ship's rail. The seller must clear the goods for export. Maritime
FO’C’SLE /ˈfəʊksl/ (=forecastle) (seamanship) prednji kaštel ~ head prednji kraj kaštela: One of them had come aboard with the night stevedores unnoticed and sneaked inside the fo’c’sle head when a crew member was inside sorting out light clusters. It was estimated by those at harbour stations on the fo’c’sle head that the tug passed no more than 10 - 15 meters ahead.

Fog (n) 1 (meteorol) visibility to less than one kilometer magla: Also, the navigation lights were switched on, a fog lookout was positioned on the forecastle, engines were ready for immediate manoeuvre and speed was moderated to 8 knots. yards. It was dark and visibility was reduced by fog; both factors requiring the presence of an additional lookout on the bridge. radiation ~ A common type of fog, produced over a land area when radiational cooling reduces the air temperature to or below its dewpoint. radijacijska magla, advection ~ fog that is produced when damp air is moved across a surface that is cooler than the air. It is most commonly seen over seas or other bodies of water. When the temperature of the air is lowered to its dew point, changes start to happen. First, saturation occurs. Then, fog advekcijska magla, frontal ~ Fog associated with frontal zones and frontal passages frontnalna magla, ~ forming stvaranje magle, formiranje magle, ~ increase jačanje fronte, coastal ~ obalna magla, dense ~ gusta magla: In the dense fog, one of the tugs managed to identify the vessel and transfer a crew member across onto her deck. The collision occurred in darkness, dense fog and in an area of heavy shipping traffic. MAIB, patchy ~ mjestimična magla; 2 magla - vidljivost manja od 1000 metara

Fog bank (n) (meteorol) gusti sloj magle, gusta magla: When crossing the Traffic Separation Scheme a fog bank developed, giving visibility of 10 to 20 yards.

Fog-bound (n) (navig) Said of a vessel when forced to heave to or lie at anchor due to fog.

Fog detector (n) (navig) instrument za otkrivanje i upućivanje alarma za maglu; An electronic device used to automatically determine conditions of visibility which warrant the activation of a sound signal or additional light signals detektor magle

Fog dissipation (n) (meteorol) rasplinjanje magle
fog gong (n) (boating/yachting) a sound signal device used in case of fog. Proc. za maglu: ... and started taking evasive action by switching the steering from autopilot to manual, going hard to port and sounding the fog horn.

fog horn (n) (boating/yachting) A sound signal device used in case of fog. Proc. za maglu: ... and started taking evasive action by switching the steering from autopilot to manual, going hard to port and sounding the fog horn.

fog patches (n) (meteorol) Male odvojene naslage magle: The weather forecast was for Force 6 and good visibility apart from isolated fog patches.

fog signal (n) (seamanship) Zvučni znak sa svjetionika i/ili brodova koji upozorava na maglu. Upozorenje za maglu, signal za maglu: The vessel was making way at near nine knots in order to match the speed of the pilot boat and was sounding the prescribed fog signal.

fog signallling appliances (n) (navig) Uređaji za signaliziranje magle.

fog siren sarena za maglu.

fog whistle (n) 1 (nav arch) Zviždalja za maglu; 2 (safety) Sirena za maglu.

foil (n) (boating/yachting) Profil, šina rolfloka, cijev rolfloka.

foils (n) (boating/yachting) Sve vrste kobilica.

foldable container (n) (cargo, cargo handling, logist) = collapsible container.

skloplivi kontejner, raskloplivi kontejner.

folding propeller (n) (boating/yachting) COMPARE fixed propeller COMPARE.

feathering propeller A type of propeller with blades that fold inward in order to reduce drag on a sailboat. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/). Folding propellers however, cannot change pitch and are therefore not reversible. Skloplivi propeler (neprekretni), skloplivi propeler (s nepromjenjivim korakom lopatica): ... I went with a Gori folding prop for my Bavaria Vision 42 (Volvo 40 hp saildrive) and have been very happy with it. It has the lowest drag of any prop when folded, excellent reverse thrust, little to no prop walk, and an "overdrive" feature that can keep the reverse prop pitch while moving forward, for use when motorsailing or in flat water, resulting in increased fuel efficiency. A folding or feathering prop will need more maintenance than a fixed prop.

http://myboatsgear.com/

follower (n) (marine eng) Vodilica podizača ventila, podizač: Rollers are arranged at the lower end of the push rod and are fitted to run on the cam surface with the purpose of reducing friction. The fuel pump cam follower is moving up the rise of the cam on the delivery stroke. In the simple arrangement the lower end of the push rod carries a head or a "follower" which rides on the cam.

hinged cam ~ Zglobni podizač brijega, podizač u obliku šarnira: In many
Following sea (n) (oceanogr, navig) wave or tidal movement going in the same direction as a ship; A sea with waves approaching from the stern of the boat. https://www.ypiyachts.com

Following wind (n) (navig) vjetar koji puše u krmu, 10° lijevo i 10° desno od uzdužne osi broda vjetar u krmu, uzdužni vjetar: As the vessel approached the berth, the pilot became aware that the following wind and tide were having a greater effect on its speed than he had expected, ...

FONASBA (=Federation of National Associations of Ship Brokers and Agents) (n) (mar law) Međunarodna udruga nacionalnih udruženja pomorskih agencija

Food store (n) (nav arch) spremište hrane

Foodstuff /ˈfuːdʃtʌf/ (cargo) hrana (kao vrst tereta), prehrambeni artikli: Always unpack cartons containing canned beverages and foodstuffs, ...

Foot (n) 1 stopa (jed. mjere), noga: Recently, a freight ship was underway in 15 foot seas when the forecast flood alarms activated. 2 (marine eng) donji kraj / dio: The foot of the piston rod is bolted to the crosshead pin. connecting rod ~ peta ojnice; 3 (boating/yachting) The lowest (bottom) edge of a sail. donji porub jedra; 4 (boating/yachting) peta jarbola

Foot (v) popustiti jedro/flok (kako bi jedrilica dobila na brzini pri jedrenju uz vjetar)

Footing (n) (boating/yachting) povećavanje brzine laganim otpadanjem

Foot of pier (n) (ports) dno gata (prema obali)

Foot of sail (n) (boating/yachting) the bottom of a sail osnovica jedra, baza jedra, donji rub jedra, donji porub jedra

Foot of the sail (n) (boating/yachting) baza jedra

Footpump (n) (electr, boating/yachting) nožna pumpa

Footropes (n) (sailing vessels) nogostup od konopa (na križu jarbola)

For and on behalf of (=for the account of and on behalf of) (n) (mar law) odredba brodarskog ili agencijskog ugovora: za i u ime (brodara) u ime i za račun

For'ard /fɔːrd/ (adv, adj) = forward 1 ANTONYM aft: 1 prema pramcu; 2 sprijeda

Forbes log (n) (navig) Forbesov dnevnik: A Forbes log consists of a small rotator in a tube projecting below the bottom of the vessel, and suitable registering devices.

Force /fɔːs/ (n) 1 (phys, marine eng) sila centrifugal ~ centrifugalna sila: When the flyweights are rotated the centrifugal force throws the weights outwards, inertia ~ inercijska sila, sila inercije, sile tromosti: The first-order inertia force from the lower piston is balanced against the corresponding force from the upper pistons, and a well-balanced engine is obtained, stretching ~ vlačna sila, torsional ~ torzijske sile, sila torzije, to exert ~ vršiti
force

pritisak, pritiskati, exercise ~ primjenjivati silu, amount of ~ veličina sile, internal ~ unutarnja sila, tensile ~ vlačna sila, resist a ~ oduprijeti se sili; 2 (meteorol) jačina (vjetra): The weather was fine but overcast, and it was very dark, there was a force 3-4 wind and it was low water. ... southerly wind speeds were peaking between midnight and 0300 at force 7 with gusts of force 9.; 3 (mar law) snaga, punovažnost come into ~ doći na snagu, postati punovažan: The IMO 2020 regulation came into force on 1 January worldwide mandating that vessels use fuel with less than 0.5% sulphur content.

https://www.seatrade-maritime.com/regulation/, enter into ~ stupiti na snagu, remain in ~ biti na snazi: This Agreement shall remain in force as specified in clause 1.01 of this Agreement.

FONASBA

force /foʊ s/ (v) ~ against pritiskati, stlačiti, natjerati, ~ out izbaciti, istjerati, istisnuti: In this way any water which may have collected in the cylinders will be forced out. 1 stlačiti; 2 ubaciti pod pritiskom; 3 prisiljivati, siliti: The worried harbour authorities forced the barge to cast off from the berth, leaving it to drift in the harbour with no assistance.

forced /foʊ st/ (adj) 1 (marine eng) prisilan ~ circulation prisilna cirkulacija, prisilno kruženje, ~ draught fan ventilator za tlačnu cirkulaciju; 2 (mar law) prinudan

force majeure (n) (mar law) = Act of God a common clause in contracts, exempting the parties for non-fulfillment of their obligations as a result of conditions beyond their control, such as earthquakes, floods or war; Circumstance which is beyond the control of one of the parties to a contract and which may, according to the terms and conditions, relieve that party of liability for failing to execute the contract. http://www.tkmglobal.net/chartering_F.HTM viša sila declare ~ prijaviti višu silu, objaviti višu silu: The forwarding company declares force majeure due to COVID-19 impact due to a potential inability to fulfill its ocean and air freight contracts.

https://www.joc.com/international-logistics/ Some ports have taken the precaution to declare ‘force majeure’ to pre-empt claims and legal liability. (https://safety4sea.com/), ~ notice obavijest o stupanju "više sile" na snagu: Force majeure notices have been served to customers of the affected projects and the group is working closely with them to mitigate the impact of COVID-19.

https://www.seatrade-maritime.com/shipbuilding

force of wind (n) (meteorol) jačina vjetra: As the vessel moved astern into the main shipping channel, the force of the wind acting on her port beam was greater than the power the tugs could produce to hold the vessel against the wind.

fore /foʊ/ 1 (adv) a term used in indicating portions or that part of a ship at or adjacent to the bow; towards the bow sprijeđa, na pramcu: On the pilot’s advice, all headlines and sternline(s) were first let go, retaining only the backsprings fore and aft. Stations were called fore and aft, preparatory to making fast tugs.; 2 (n) prednji dio (broda): The impact caused considerable damage to the fore end of the vessel, including penetrations below the waterline.; 3 (adj) prednji, pramčani: Once the topline was secured to the customer vessel, the initial part of the inward passage was uneventful, with the tug maintaining a fore/aft position with no weight in the topline.; 4 prema pramcu: They were stowed at floor level at the fore end of cargo hold No. 3.

fore-and-aft bridge (n) (nav arch) prijelazni most, mostić, pasarela
fore and after (n) (sailing vessels) uzdužna greda grotla
fore-and-aft rigged ship (n) (boating/yachting) COMPARE square-rigged ship a ship with a rig in which the principal sails are fore-and-aft brod s uzdužnim jedrima,
fore-and-aft sails (n) (boating/yachting) uzdužna jedra
fore body plan (n) (nav arch) uzdužni presjek pramčanog dijela broda
forecabin /ˈfɔːˌkæbɪn/ (n) (boating/yachting) prednja kabina
forecast /fɔːˈkɑːst/ (n) (meteorol) description of the most significant weather conditions expected during the current and following days. prognoza, Italian: previsione coastal ~
COMPARE offshore forecast a forecast of wind, wave and weather conditions between the coastline and 25 miles offshore (Seasources) obalna prognoza, prognoza vremena za priobalje
forecast (v) (meteorol) prognozirati vrijeme: When bad weather is forecast during a port call, it is important to ensure that it is safe to remain in port. Strong northerly winds had been blowing in the preceding days, and were again forecast for the coming day when the yacht set sail to the east.
forecast /fɔːˈkɑːst/ (n) 1 (nav arch) Raised and enclosed forward superstructure section of the hull. https://officerofthewatch.com/tools/maritime-dictionary/ kaštel, pramnica, Italian: castello di prora: Fortunately, the fire damage was limited to the paintwork on the forecastle break bulkhead, a reefer electrical supply cable, light fittings and a hold ventilation cowl.; 2 pramčano nadgrađe
forecastle deck (n) (nav arch) a deck over the main deck at the bow paluba kaštela:
Damage to Ship or Equipment 19-473 AP MOELLER Accident to seafarer 19 December 2009 The accident occurred on the forecastle deck during the mooring operation at departure from Singapore.

forecast head (n) (nav arch) prednji kraj kaštela: The two Third Officers monitored the vessel's position, the Helmsman and bridge telegraph, and one Ordinary Seaman remained on the forecastle head as required by USCG regulations. It was discovered towards dawn that the fo'c'sle head escape door on deck was not in its original locked position, whereupon the fo'c'sle head area was searched. the clock, it was discovered towards dawn that the fo'c'sle head escape door on deck was not in its original locked position, whereupon the % fo'c'sle head area was searched.
fore-cent timbers (n) (sailing vessels) umetci uz očna rebra
fore-deadwood (n) (nav arch, sailing vessels) pramčani umetci mrtvog ugla
foredeck (n) (boating/yachting) Foremost section of exposed main deck.
https://officerofthewatch.com/tools/maritime-dictionary/ prednja paluba, Italian: ponte di prua, pramčana paluba: These tugs have a spacious foredeck with plenty of working space, making it easier to handle the ropes from a large ship. The incident was immediately reported to the bridge and the fore deck was evacuated. The deckhand left the cabin to make his way to the foredeck.
fore end pramčani dio broda, prednji dio broda, pramac: The majority of the damage however, was noted in the fore end and it was observed that there was water leaking into the hold at the junction of the main deck and the forward hold / forepeak bulkhead.
forefoot /foʊˈfʊt/ (=gripe) (n) (sailing vessels, nav arch) peta pramčane statve
foreguy (n) (boating/yachting) = downhaul priteg kojim se tangun povlači dolje ili naprijed
priteg tanguna, karikabaso, Italian carica basso
foreign exchange (n) (financ) strana sredstva plaćanja, strana valuta
foreign-going vessel (n) (shipping econ, mar law) prekomorski brod, brod međunarodne plovidbe
foreign matter (n) (marine eng, safety) strane tvari, strano tijelo, nečistoća
foreign trade (n) 1 (mar law) ANTONYM coastal trade međunarodna plovidba; 2 (shipping econ) međunarodna trgovina
Foreign Trade Zone (=FTZ) (n) (US, shipping econ, mar law) = Free Trade Zone α free port in a country independent of Customs authority but under government control slobodna zona, slobodna carinska zona: In a free trade zone goods may be stored in the zone without being subject to import duty regulations.
forelock of anchor stock (n) (nav arch) zatik klade sidra
foreman /ˈfɔːr.mən/ (mar law) predradnik, nadglednik, vođa grupe, Italian: capo squadra: Overnight, I had delegated my chief foreman to oversee the discharging under my guidance.
foremast (n) (nav arch) prednji jarbol, pramčani jarbol, Italian: albero di trinchetto
forenoon-watch (n) (seamanship) the 0800 to 1200 watch dopodnevna straža
fore peak /foʊˈpiːk/ (=forepeak) (n) (nav arch) the section of the hold of a ship that is within the angle made by the bow and is used for trimming or for storage of cargo; odjeljak u trupu broda ispred sudarne pregrade (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni) pramčani pik, forpik, prednji pretežni tank, gavone di prua: There was already about 60 cubic meters of water in the forepeak which was close to the critical limit.

forepeak bulkhead (n) (nav arch) The bulkhead nearest the stem, which forms the after boundary of the forepeak tank. https://officerofthewatch.com/tools/maritime-dictionary/pregrada pramčanog pika
fore peak flat (n) (nav arch) palubica pramčanog pika
forepeak tank (n) (nav arch) ANTONYM afterpeak tank tank pramčanog pika, pretežni tank: Fortunately, the collision bulkhead, at the aft end of the fore peak tank, was in good condition and saved the vessel from flooding uncontrollably. The crew felt that the vessel was behaving as though the fore peak tank was ballasted, whereas they believed it to be empty. After securing to the shore with unusually long lines, it was discovered that the empty fore peak tank was holed below the waterline.
foresail /ˈfoʊˌseɪl/ (naut: `foʊˌsal)/ (n) (boating/yachting) COMPARE jib the forward most sail on a vessel prednje jedro, flok
fore spring (n) (ship handling) pramčani špring: As the chief officer made his way to the forecastle to see what was happening, the fore spring parted. When she sailed past at about 19:13, the fore spring of the MV .... broke.
fore station = forward station ANTONYM aft station stanica za privezivanje na pramacu
forestay (n) 1 (boating/yachting) ANTONYM backstay a steel wire attached either at the very top of the mast, or in fractional rigs between about 1/8 and 1/4 from the top of the mast. The other end of the forestay is attached to the bow of the boat. prednje leto, proveni štraj, Italian: strallo inner ~ nutarnje leto, nutarnji štraj: How do I install an inner forestay or Solent stay?"; 2 kraće pramčano leto, mali štraj

forest product carrier (n) (nav arch) brod za drvo i drvne prerađevine
fore tack prednji rogalj (floka, jedra)
forfeit /ˈfɔː.ʃɪt/ (v) 1 (mar law) lose (s.th.) or lose the right to (s.th.) by some error, offense, or crime. To suffer the loss of something by wrongdoing or non-compliance (https://www.definitions.net/definition/forfeit) izgubiti pravo / jamčevinu; 2 (mar law) zaplijeni
forfeit (n) 1 (mar law) something that a person has to pay, or something that is taken from them, because they have done something wrong gubitak prava; 2 (figurative) kazna, globa
forfeit clause (n) (mar law) forfetni stavak
forfeit rate (n) (shipping econ, mar law) način otpreme pri kojemu je ukupna svota za ispunjavanje naloga određena ugovorom; visina naknade za špeditersku uslugu i iznosi određenih troškova trećih osoba (https://repozitorij.fpz.unizg.hr/); fixed / lumpsum freight (in forwarding goods) fiksna naknada, forfetni stavak
forfeit shipment (n) (mar law) špedicija u kojoj se naknada ugovara u fiksnom iznosu i koja obuhvaća sve naknade i sve troškove realizacije ugovora; forfeetna otprema, forfeetna špedicija

forfeiture / ˈfɔːr.fɪtʃə(r)/ (n) 1 (mar law) Forfeiture is the loss of any property without compensation as a result of defaulting on contractual obligations, or as a penalty for illegal conduct. (https://www.investopedia.com/terms/f/forfeiture.asp); losing or surrendering something as a penalty for a mistake or fault or failure to perform etc. confiscate, forfeit, forfeited (verb). surrendered as a penalty. (https://www.definitions.net/definition/forfeit) gubitak prava; 2 gubitak, gubljenje; 3 konfiskacija

forge (v) kovati

forged iron (marine eng) kovano željezo: The cylinder cover comprises a stiff grey cast iron cap fitted with a thinwalled forged heat-resistant steel bottom.

forged steel (n) (marine eng) kovani čelik

forkbeard (n) (fishing) Lat. Phycis phycis tabinja, babinja, mrkulja, grujeva mati,

mrka tabinja

forked shape viličasti / rašljasti oblik, oblik U-profila

fork lift (n) (cargo handling) = fork lift truck viličar: Occasionally containers are hoisted aloft while standing on the forks of a fork lift truck.

forklift pockets (n) (cargo handling) džepovi u dnu kontejnera: Some bulk containers are equipped with forklift pockets, which allow handling by forklift trucks.

fork lift truck (FLT) (n) (cargo handling) viličar, viljuškar: Fork lift trucks (FLT) are mechanically or electrically operated and fitted in front with a platform in the shape of two prongs of a fork. Container handling at the terminal comprises container lift trucks, reach stackers, fork lift trucks and all the attachments needed. Test certificates, maintenance reports and pre-operation checks of the gear they provide and intend to use, eg fork-lift trucks, cranes, slings and ladders.
form \(\text{(n) (mar law)}\) obrazac, formular fill out / fill in / complete a ~ ispuniti obrazac

form \(\text{(n) (sailing vessels, archaic)}\) SEE linesplan lik (o linijama, tj. planu broda), šest (o linijama, tj. planu broda), šablon rebra

formality \(\text{(n) (mar law)}\) formalnost complete the formalities ispuniti / obaviti formalnosti: A container vessel had completed its departure formalities and it just remained for the gangway to be brought inboard and secured and the lines let go before she could make her way to her next port.

formal safety assessment (=FSA) \(\text{(n) (safety)}\) metoda formalne procjene sigurnosti

form coefficients \(\text{/foːm keuʃiˈfɪʃənts/ (n) (stabil)}\) koeficijenti brodskih oblika, koeficijenti brodskih formi / linija

former \(\text{1 prvi (od dva): the former ..., the latter ... --- (e.g. vessel) prvi brod ..., potonji ... (npr. brod)}\) The two vessels were approximately 10 nm from each other, and now in sight, the private vessel received a VHF radio call from the cargo vessel requesting that the former alter course so that the cargo vessel could stand on.; 2 prethodni, prijašnji: As a marine consultant and surveyor I visit merchant ships from time to time and as a former shipmaster I take an interest in the way in which shipping is conducted nowadays.

form stability \(\text{(n) (stabil)}\) stabilitet forme

forward \(\text{/ˈfɔːrwd; ˈfɔːrɪd; ˈfɔː.rɛd/ (adv, adj) 1 (adv) in front; towards the bows of a ship; in the fore part of a ship prema pramcu, naprijed: The vessel was required to move forward about 30 meters to load the after hatch. He was standing just outside the after door to his wheelhouse, facing forward and to starboard.; 2 (adv) sprijeda (na brodu), ispred ~ of ispred: My father, who was skipper, decided to take the ropes out of the cage roller on the starboard quarter and let the boat pivot on the shooting bar forward of midships., ~ of the beam subočice po pramcu: 1045: Target observed at about one point forward of the port beam, distance approx 4.6 miles.; 3 (adj) prednji, pramčani: Crew educated on the snap back zones at forward and aft mooring stations. On impact, the container ship’s OOW felt a sudden and unusual vibration from the forward part of the}

https://en.wikipedia.org/wiki/Forklift
The Master is busy with emails, communicating to all parties the results of the inspection and forwarding all relevant documents.

A base, located as close as possible to an incident site, which is capable of handling large aircraft and has sufficient facilities (with augmentation, if necessary) to support a major aeronautical or marine disaster operation. (IAMSAR/COMSAR) najbiža baza (mjesto pogibli) za pružanje pomoći

The ship pivoted about the forward port shoulder causing one of the forward breast lines to part.

He then moved to the forward end of the port hatch cover to climb down. There were two three-furnace oil-fired Scotch boilers at the forward end of the engine room, the starboard boiler could be operated on the main engine exhaust gases. The fire continued to spread rapidly throughout the forward end of the wheelhouse, filling it with thick black smoke.

The party arranging the carriage of goods including connected services and/or associated formalities on behalf of a shipper or consignee otpremnik, špedicija, otpremnička tvrtka, špediter: ..., by signing declarations, a forwarder confirms that the goods have been correctly classified and that the packing and labelling conforms to the appropriate regulations. It has been noted with alarm that there is an increasing tendency for freight forwarders to sign dangerous goods declarations.

forwarding agent (n) (mar law) pravna ili fizička osoba koja se obvezuje da radi prijevozna odredjene stvari sklapa u svoje ime i za račun nalogodavca ugovor o prijevozu i ostale uobičajene poslove i radnje u vezi s otpremom robe za što mu nalogodavac plaća odgovarajuću naknadu; Person or company who arranges the carriage of goods and the associated formalities on behalf of a shipper. The duties of a forwarding agent include booking space on a ship, providing all the necessary documentation and arranging Export Customs clearance. http://www.thkmglobal.net/chartering_F.HTM; an agent/operator who undertakes to handle the movement of goods from point to point on behalf of the cargo owner

The IMDG prompt ships to revisit their relevant risk Code is quite clear in its instructions to assessments and realise the need for shippers, forwarding agents and road specific equipment. A freight forwarder is expected to (a) arrange transportation of the cargo from/to the customers’ premises and port (b) arrange the distribution or “forwarding” of the cargo as per the instructions of their client (c) have the capability to negotiate freight rates with the shipping line (d) to book cargo with the shipping line as per the requirement of the client or under their own contract (e) process all relevant shipping documents such as certificates of origin, customs and port documentation, bills of lading and associated shipping/negotiating documentation (Eur1, Certificate of Origin, etc) (f) issue their own approved house bill of lading (HBL) although they are not an NVOCC, etc.
A freight forwarder may or may not also do customs clearance. Kuehne + Nagel Inc., the Swiss freight forwarding agents, handled 4,355,000 TEU’s in 2018.

**Forwarding instruction** (n) *(shipping econ, mar law)* document issued to a freight forwarder, giving instructions to the forwarder for the forwarding of goods described therein.

**Forward line** (n) *(seamanship)* pramčano uže: High tides and strong winds caused the ship to surge along the berth, causing the **forward lines** to slacken.

**Forward mooring lines** (n) *(seamanship)* pramčana privezna užad, privezna užad na pramcu, pramčani konopi

**Forward moorings** pramčani vez, pramčani konopi, proveni armiž: The master was able to view the **forward moorings** from the bridge, but the after moorings were obscured. The vessel was engaged in loading Naphtha when, in a sudden strong squall, three of the rope tails on the **forward moorings** parted. The remaining **forward mooring ropes** then parted as the vessel’s bow started to swing away from the quay.

**Forward of** (adv) 1 *(seamanship)* ispred (vlastitog broda): This was unsuccessful, and a short time later the ship made contact, at over 3 knots, with a concrete dolphin which was about 70 metres **forward of the ship’s berth**. 2 *(seamanship)* ispred (dijela broda): The two remaining crew members decided that they should relocate the pumps to the adjacent compartment, immediately **forward of the accommodation space**, which had no fixed bilge suction, in order to continue pumping.

**Forward perpendicular** an imaginary line drawn perpendicularly through the waterline where the forward edge of the stem meets the summer load line.

**Forward ropes** (n) *(seamanship)* pramčani konopi: Soon after the onset of the flood tide, the tension on the **forward ropes** increased and the bow was set slowly off the wharf.

**Forward spring** (n) *(seamanship)* pramčani špring, prednji špring: During the shift, the **forward spring lines** became too long. They agreed that the **forward spring** would be the last mooring rope to be let go and that the vessel would then move stern first into the fairway. The ship was manoeuvred off the berth as normal using the **forward spring**.

**Forward station** (n) *(seamanship, navig)* grupa mornara, obično na čelu s prvim časnikom, na pramcu broda pri manevriranju brodom stanica za privezivanje na pramcu: the Master or the Officer of the Watch (OOW) has to tell the officers in charge of the Fore and After (Mooring) Station to single up.

**Forward store** (n) *(nav arch)* pramčana sprema: Ventilation openings to the **forward store** were still closed in the seagoing position.

**Forward tank** (n) *(nav arch)* pramčani tank: The **forward tanks** were emptied and refilled without incident, except that the day’s operations ended with an overflow. The skipper preferred to use fuel
from it is essential to be alert for subtle the forward tanks before the aft tanks changes that can make a big difference.

forward trim (n) (cargo handling) pramčani trim
forward tug (n) (ship handling) teglač po pramcu, teglač na pramcu: The forward tug was also to the vessel and she was able to requested to push on the starboard bow.

foul /faʊl/ (v) 1 (seamanship, ship handling) entangle zaplestiti, zaplestiti se (o užad, lanac itd.), zakačiti, zapetljati se, Italian: impigliare: We must be sure that there are no lines, small boats, or obstructions which would be likely to foul the rudder or propeller. We were concerned that the lines could foul the boat's rudder or propeller. Eventually, while the tug barely managed to clear the bow of the anchored ship, the towline fouled her anchor cable … ~ the anchor zaplestiti sidro, zapetljati sidro, zapeti sidrom o: on, the Pilot's assessment was 2-3 knots * The reader of the MARS report may be left with the impression that the Pilot was aware that the anchor was fouled by a heavy and probably very long wire rope., ~ the propeller zaplestiti se o propeler: The master of the tug became concerned that the large amount of slack in the starboard side of the bridge could foul his propellers, so he moved his tug to the port bow of the tanker, Fortunately, the propeller was not fouled and after tugs were fast, the ship sailed without further incident. Damaged bollard Narrative While securing alongside, a ferry propeler was not fouled of the brid …

odbojnik: …. as a result of variations in water levels due to tides and in vessels' draughts due to changes in displacement, such steel fenders can foul the fenders on the berth from above or below, and potentially damage/dislodge them., ~ the ladder zaplestiti se o brodski siz: When berthed in ports with high tidal range, or when obstructions on the quay could foul the ladder, it may be more prudent to leave it suspended so that the crew can tend it continuously., be ~ed with zapetljati se s, zaplestiti se o: As the crew tried to heave anchor once again they noticed that their anchor appeared to be fouled with the ground tackle of the second tanker. Once the anchor was clear of the water, the seaman reported that it was home but fouled with some lashing wire.; 2 (navig) oštetiti, udariti u, zahvatiti (plutaču, lanac, konop itd.): The ship’s starboard quarter fouled a lock gate. desni kvartir broda udario je u vrata ustave i oštetio ih; 3 onečistiti (more, obalu), zagaditi (more, obalu): The tanker sank off US east coast and fouled thousands of miles of coastline.

foul /faʊl/ (adj) a piece of equipment that is jammed or entangled; not clear zapleten, zapetljan, zakačen ~ anchor zapetljano sidro, ~ rope zapleten konop
foul (adj) 1 (seamanship) jammed, not clear zapleten, zakačen, zapetljan ~ anchor zapleteno sidro, zapetljano sidro, ~ propeller zapleteni propeler, zapetljani propeler, ~ line zapleten konop; 2 obrašteno, blatno, šporko ~ bottom obrašteno dno

foul an anchor (v) (seamanship) zakvačiti nečije sidro / sidreni lanac
foul anchor /faʊl/ (n) (seamanship) anchor with chain wrapped about a fluke or the stock or with some other encumbrance entangled about it zapleteno sidro, zaglavljeno sidro

foul bill of lading a bill of lading, i.e. receipt for goods, issued by a carrier with an indication that the goods were damaged when received nečista teretnica, teretnica s opaskom
fouled /faʊld/ (adj) (seamanship) jammed, not clear zapleten (konop, lanac), zapetljan, zamršen ~ anchor zapetljano sidro, zapleteno sidro, zapelo
foul hawser

**sidro:** In light of this experience, a procedure will be established whereby attempts to clear a fouled anchor should be made by letting go the brake and manoeuvring until the anchor is cleared.

**foul hawser** *(n) (seamanship, ship handling)* Said of the anchor chain when moored and the chain does not lead clear of another chain. [https://officeroftthewatch.com/tools/maritime-dictionary/](https://officeroftthewatch.com/tools/maritime-dictionary/)

**zapleten sidreni lanac / konop**

**fouling** *(n) (environ)* The types of fouling are broadly categorised as microfouling - microscopic organisms including bacteria and diatoms producing a slime layer on the hull - and macrofouling being larger organisms visible to the human eye such as barnacles, tubeworms and fronds of algae.

**obraštaj (na dnu brodskog trupa):** Fouling increases the frictional or drag resistance, the most important component of resistance. (https://safety4sea.com/)

**foul propeller** *(n) (seamanship) zapleten vijak / propeler**

**foul rudder** *(n) (seamanship) zapleteno kormilo, zapetljano kormilo**

**foul tide** *(n) plimna struja iz nepovoljnog smjera**

**foul weather** *(n) (meteorol) nevrijeme, Italian: maltempo; cattivo tempo: The vessel deviated from its route but evacuation was delayed by foul weather and darkness. Importantly, and as would prove to be lifesaving, the skipper had opted to wear a two-piece foul weather suit with buoyant sections. ~ gear Gear, clothing or accessories that are designed to accommodate needs that arise from bad weather issues [https://www.ypiyachts.com](https://www.ypiyachts.com) oprema za nevrijeme (odjeća, obuća, alati, pribor): The schooner’s crew is thankful for the large diesel stove in the galley to dry their foul weather gear and keep the boat’s interior warm. [https://gcaptain.com](https://gcaptain.com)

**foundation** *(n) (nav arch, marine eng)* A structural support for equipment and machinery in a ship

**temelj, oslonac:** The structural support for the boilers, main engines or turbines, and reduction gears are called the main foundations. auxiliary ~ the support for auxiliary machinery temelj pomocnog stroja

**Foundation Degree (=FdS) (UK)** A foundation degree is a vocational qualification in higher education, introduced by the government of the United Kingdom in September 2001, which is available in England, Wales and Northern Ireland. This makes it similar in level to the associate's degree awarded in the United States, and sometimes in the United Kingdom. It is below the level of an honours degree (Bachelor of Science, Bachelor of Arts, Bachelor of Laws etc.). Courses are typically two years full-time study or 3 to 4 years part-time study and are offered both by universities and colleges of higher education. visokoškolski stručni studij (temeljni studij - niži od BSc), diploma o završnom visokoškolskom stručnom studiju: A foundation degree is a degree level qualification which combines academic study with work place learning. Foundation degrees are ideal if you're unsure about taking a full degree or if you want to study while you work. (https://www.ucas.com/ucas/undergraduate/getting-started/what-study/foundation-degrees)

**Foundation Degree in Marine Engineering (=FdEng) (n) (UK) (mar law, marine eng)** = Associate Degree in Marine Engineering visokoškolski stručni studij brodostrojarstva i tehnologije pomorskog prometa - brodsko strojarstvo (temeljni studij), diploma o završnom visokoškolskom stručnom studiju brodostrojarstva i tehnologije pomorskog prometa - brodsko strojarstvo (temeljni studij): The Warsash Academy offers a full engineer officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Engineer Officer’s Certificate of Competency (STCW A-III/1 OOW), a Foundation Degree (FdEng) in Marine Engineering and a direct top-up pathway to BEng (Hons) Marine Engineering and Management.
Foundation Degree in Marine Operations Management (FdSc) (UK) (mar law) visokoškolski stručni studij nautike i tehnologije pomorskog prometa - (temeljni studij), diploma o završenom visokoškolskom stručnom studiju nautike i tehnologije pomorskog prometa

Foundation Degree in Marine Operations Management - Nautical Science (FdSc) (UK) (mar law, navig) = Foundation Degree in Marine Operations Management = Associate Degree in Nautical Science visokoškolski stručni studij nautike i tehnologije pomorskog prometa - (temeljni studij), diploma o završenom visokoškolskom stručnom studiju nautike i tehnologije pomorskog prometa:

The Warsash Academy offers a full deck officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW ‘95 II/I OOW), a Foundation Degree (FdSc) in Marine Operations and a direct top-up pathway to BSc (Hons) Marine Operations Management.

founder /ˈfaʊnda(ə)r/ 1 (v tr) to fill with water and sink; to sink out of control potopiti se, potonuti: In darkness and heavy seas, a small general cargo ship began to founder. About an hour after the vessel foundered, a rescue helicopter arrived on scene. Very soon afterwards, the barge collided with the pulling tug, overrunning her and causing her to capsize and founder; 2 (v tr) (navy) potopiti (drugi brod), to sink another ship (in a battle)

foundering /ˈfaʊndərɪŋ/ (navy, safety) potonuće: However, there was very little time to consider the options, because the capsize and foundering were very rapid.

four-stroke engine (=4-stroke engine; 4 S engine) (marine eng) četvoroatinski motor: The four-stroke engine usually rotating at medium speed, between 250 and 750 rev/min is used for auxiliaries such as alternators and for main propulsion with gearbox to provide a propeller.

Fourth Engineer (=Second Assistant AEngineer (US); 4th Engineer) (marine eng, mar law) An engineering officer junior to the second assistant engineer/third engineer in the engine department. (https://safety4sea.com/) treći časnik stroja (UK), treći strojar: An engine cadet was assigned to note down the readings and the fourth engineer was to operate the main engine turning gear remote control.

FP (forward perpendicular) (stabil, nav arch) pramčana okomica, pramčani perpendikular

F.P.A. (free of particular average) (mar law) cijena prijevoza ne uključuje troškove nastale zbog partikularne avarije

fractional rig (boating/yachting) oputa s nizim vršnim hvatištem leta; a type of rig where the jib attaches below the top of the mast dijeljena oputa, sedamosminska oputa jarbola

fracture /ˈfræktʃə/ 1 (nav arch, marine eng, safety) lom, prijelom: they identified a 3-metre longitudinal fracture in the hull bottom plating The chief engineer identified that the fire had been caused by a fracture in a low pressure fuel sensor pipe coupling, which had resulted in oil spraying onto the unshielded, main engine exhaust drain cock. extensive ~ prijelom / napuknuće većih razmjera ili dimenzija: After slowing down, the leak was located in the expansion piece between the manifold and the blower in the top inlet, an extensive fracture of the bottom of one of corrugation; 2
fracture (marine eng, nav arch) napuklina, napuknuće
fracture /ˈfræktʃə/ (v) (med) slomiti (nogu, ruku): He was bleeding from his head, ears and nose and had fractured his legs and right wrist. (https://safety4sea.com/)
fray /ˈfreɪ/ (n) lomljiv: Fragile cargo is only accepted for shipment provided that it is adequately stored in solid packaging materials (grades, wooded boxes), preferably new.
frail /ˈfreɪl/ (adj) lomljivost, lomnovost
frame (n) 1 (nav arch) one of the transverse members, the rib-like part of the skeleton of a ship. The frames act as stiffeners holding the outside plating in shape and maintaining the transverse form of the ship. main ~ glavno rebro, reverse ~ proturebro, ~ thickness širina rebra, ~ depth visina rebra, cant ~ koso rebro; 2 kostur; 3 postolje
frame (n) (marine eng) the main structural member of an engine. okvir (stroja), okvirna konstrukcija: These shoes are lined with white metal, a bearing material and they reciprocate against the crosshead guides, which are bolted to the frame of the engine. stalak motora The shells are held in position and shape by seatings of the bedplate or frame. ~ structure okvirna konstrukcija: The frame structure of the cylinder does not come into contact with water. ~ section sekcija stalka motora, okvirna sekcija: The frame section is attached to the bedplate with bolts. ~ engine ~ stalak stroja, stalak motora: The crankshaft vibration was coupled to the engine frame and double bottom which, in turn, transferred vibration energy back to the crankshaft.
frame antenna (n) (nav arch, comm) okvirna antena
frame first ship construction (=frame-first shipbuilding) (n) (nav arch, sailing vessels) COMPARE shell first construction “typical shell-first construction, with edge-joined planks fastened to one another by mortise-and-tenon” joints and reinforced by inserting frames after the hull was formed (The Sea and Civilization: A Maritime History of the World by Lincoln P. Paine” - http://a.co/3NXFSun) konstrukcija "prvo rebra" (kostur broda)
frame lines (n) (nav arch) Lines of a vessel as laid out on the mold loft floor, showing the form and position of the grames. Also the line of intersection of shell with heel of frame. https://officerofthewatch.com/tools/maritime-dictionary/; presijek teoretske forme poprečnom ravninom okomitom na simetralu (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni) linije rebara
framework (n) okvir: One such regulation gave us the ISM Code, an excellent framework for robust safety management which requires that each company’s objectives include the continuous improvement of safety management skills.
framework tower (n) (safety, navig) toranj, rešetkasta kula (za svjetlo)
framing (n) (nav arch) orehrenje, rebra broda, buškamenat
franchise (n) (mar ins) (in marine insurance) a sum or percentage stated in a policy, below which the insurer disclaims all liability. franšiza deductible ~ odbitna franšiza, non-deductible ~ integralna franšiza
franchise (n) 1 (US) koncesija, zastupstvo; 2 povlastica, privilegij
fraud (n) (logist) prijevara: Blockchain reduces or eliminates fraud and errors
fraying (n) (cargo) struganje, ribanje
free alongside ship (mar law, shipping econ) slobodno uz bok broda, franko uz bok broda ~ (named port of destination) slobodno uz bok broda (naznačena luka odredišta)

freeboard /ˈfriːbɔːrd/ (n) (nav arch) the distance measured amidships from the water line to the main deck of a vessel. This is normally the uppermost continuous deck in a ship with one or more decks. However, in a shelter deck vessel it would be the next deck below. nadvode, Italian: bordo libero: A pilot ladder was securely rigged by the ship’s staff and inspected by the duty OOW; the ship’s freeboard at the time was 7.6 m. A vessel with low freeboard is susceptible to ship seas on deck even in relatively fair weather. However, due to the freeboard of the assisted ship, no one on board the tug could see past the ship’s main deck hand rails. The tanker, in ballast, had a freeboard of about 16 metres. The difference in freeboard between the two vessels varied from 30cm to 130cm as the vessels moved up and down in the seaway. www.gov.uk/maib summer ~ ljetno nadvode, summer fresh water freeboard ljeto nadvode za slatku vodu, summer timber freeboard ljeto nadvode za teret drva, summer fresh water timber freeboard ljeto nadvode za teret drva za slatku vodu, minimum ~ najmanje nadvode, winter ~ zimsko nadvode, winter timber ~ zimsko nadvode za teret drva, high ~ visoko nadvode: The wind caught the beam of the high-freeboard and low draught vessel, and started setting her on to the lee shore, less than two miles downwind. , low ~ nisko nadvode: The boat had a low freeboard at its stern, which was further reduced by a poorly fitted patch where the engine control cables passed through the transom., timber ~ nadvode za teret drva

freeboard deck (nav arch) the uppermost continuous deck exposed to the weather and sea paluba nadvode: The BEAmer reminds all concerned that watertight doors to compartments below the freeboard deck must remain closed and dogged down at all times when the vessel is at sea;

freeboard mark (n) (boating/yachting, nav arch) oznaka nadvoda, bala
freeboard ring (n) (navig) krug nadvoda
Free Carrier … (n) (mar law, shipping econ) franko prijevoznik
free days (n) (mar law) vrijeme ili rok odobren za punjenje / pražnjenje kontejnera
freediver (n) (boating/yachting) ronilac na dah
freedom of navigation (n) (mar law) sloboda plovidbe
freedom of passage (n) (mar law) sloboda prolaska equal ~ jednaka sloboda prolaska, jednako pravo prolaska
free end (n) (seamanship) = working end ANTONYM bitter end slobodni kraj užeta, radni dio konopa, radni kraj konopa, Italian: filo libero
free fall lifeboat (=FFB; freefall lifeboat) (n) (nav arch, safety) Some ships have freefall
Lifeboats, stored on a downward sloping slipway, dropping into the water as holdback is released. Such lifeboats are considerably heavier to survive the impact with water.

https://officerofthewatch.com/tools/maritime-dictionary/brodica-za-spašavanje-na-slobodan-pad, gravitacijska-brodica-za-spašavanje: While at anchor, an inspection of the free fall boat (FFB) was to be carried out, among other things. There is no standard procedure for launching free-fall lifeboats, as design and fittings vary considerably. Freefall lifeboats are used for their capability to launch nearly instantly and high reliability, and since 2006 are required on bulk carriers that are in danger of sinking too rapidly for conventional lifeboats to be released. https://officerofthewatch.com/tools/maritime-dictionary/ While abandoning the ship, in case of FFB, the crew should proceed to assigned seats and fasten the seat belts. The freefall lifeboat was inadvertently released. (https://safety4sea.com/)

**frostbite** (n) (med) smrzotina: Skin contact with liquid Freon can cause frostbite.

**froth** (n) (safety) sustav gašenja prahom

**frozen** (adj) smrznut: A fitter and the deck crew worked many long hours for two days to open the frozen manholes and there was much stress due to this unforeseen complication.

**frozen cargo** (n) (cargo) smrznuti teret (-12 st. i niže), smrznuti teret: The cargoes comprised perishable, frozen and chilled cargoes.

**FRT** (=freight per tonne) (mar law) vozarina po toni

**fruit** (n) (cargo) voće green ~ nedozrelo voće, citrus ~ južno voće, agrumi

**fruit carrier** (n) (nav arch) brod za voće, brod za prijevoz južnog voća

Frustration of Charter (n) (mar law) When the contract cannot be completed or materialized without the fault of any party it is called frustration.
frustration occurs whenever the law recognises that, without default of either party, a contractual obligation has become incapable of being performed because the circumstances in which performance is called for would render it a thing radically different from that which was undertaken by the contract. Non haec in foedera veni. It was not this that I promised to do.

Frustration of contract under the carriage of goods by sea is concerned with the situation where, following the formation of a valid contract, an event occurs which is not the fault of either party but which has a significant impact on the obligations contained in the contract.

The second kind of frustration is that when any change has been brought in the law and as a result of this law the performance of the contract becomes unlawful and delay also causes frustration as a delay may result in not achieving the objectives of the contract.

Owners had attempted to induce frustration of the charterparty by electing not to repair the vessel. There are various kinds of frustration and the first one is impossibility of the performance and this type of frustration happens when the ship that is chartered is lost or becomes constructive total loss.

The mixing tank is used to collect recirculated oil and also acts as a buffer or reserve tank as it will supply fuel when the daily service tank is empty. To run on fuel.

fuel oil (=FO) (n) 1 (marine eng) Fuel oil (also known as heavy oil, marine fuel or furnace oil) is a
fraction obtained from petroleum distillation, either as a distillate or a residue.
(https://en.wikipedia.org/wiki/Fuel_oil) ; A name given to the heaviest grades of residual fuel used in
marine oil burning boilers. Fuel Oil, or Residual Fuel Oil (RFO), refers to fuels that are primarily
non-boiling fractions. (www.euronav.com) gorivo, pogonska nafta, brodska nafta:
Double-walled HP fuel lines distribute the fuel from the pumps along the engine to each cylinder. in the
marine industry Marine Diesel Fuel is the blend of distillate and residual oils (intermediate types).
http://www.kittiwake.com/fuel_terminology Heavy fuel oils are mainly used as marine fuel, and HFO is
the most widely used marine fuel at this time; virtually all medium and low-speed marine diesel engines are
designed for heavy fuel oil.
The generic term heavy fuel oil (HFO) describes fuels used to generate motion and/or fuels to generate
heat that have a particularly high viscosity and density. In the MARPOL Marine Convention of 1973,
heavy fuel oil is defined either by a density of greater than 900 kg/m³ at 15°C or a kinematic viscosity of
more than 180 mm²/s at 50°C.

Operation on Heavy Fuel Oil Main engines designed to manoeuvre on heavy fuel oil are to be operated
according to the manufacturer’s instructions.; 2 mazut, intermediate ~ (IFO) nafta (37 Ct),

oil service pump, fuel oil supply pump fuel oil booster pump or fuel oil circulation pump. It can be in
centrifugal, gear, three screw and other types. (http://silipump.com/application/marine-fuel-oil-pump/)
fuel oil system

fuel oil system (n) (marine eng) sustav pogonskog goriva: The fuel oil system for a 
diesel engine can be considered in two parts: the fuel supply and the fuel injection systems. The fuel oil 
system is checked and circulated with hot oil.

fuel oil supply (n) 1 (marine eng) dobava goriva: The diesel fuel oil supply on the engine is 
divided into two systems: one for the pilot fuel and one for the back-up fuel. ~ system dovodni 
sustav goriva; 2 dovod loživog goriva

http://www.marinediesels.info/2_stroke_engine_parts/Other_info/MANBW_VIT_pump.htm
fuel pipe (n) (marine eng) cijev goriva: Problems in the fuel system may lead to cracks and leakages in fuel pipes in case of improper fuel treatment. https://safety4sea.com/

fuel pump (n) (marine eng) pumpa goriva, sisaljka goriva: It is also very important that the fuel pump and exhaust valve operate at exactly the right time, so the camshaft is driven by the crankshaft.

fuel return line (n) (boating/yachting) povratna cijev goriva

fuel supply (n) (marine eng) dovod goriva, dobava goriva: At that point, the chief engineer started isolating the engine room ventilation and fuel supplies.

fuel system (n) (marine eng) sustav goriva: The fuel system can be changed over so that the engine can be run on diesel fuel. If the HFO is unstable, the asphaltenes will precipitate from the fuel and block filters and/or cause deposits in the fuel system, as well as lead to excessive sludge formation in the fuel separator.

fuel tank (n) (marine eng) tank goriva, tank. serbatoio della nafta: An investigation of the fuel tanks found that the fuel pick-up tubes within both tanks had become detached from the tank top fuel hose fittings. They tried swapping the two fuel tanks and supply hoses, but this failed to rectify the fault.

fuel transfer (n) (marine eng) = fuel change-over fuel change-over prebacivanje s jednog goriva na drugo: The ship must keep ready the fuel oil transfer plan for LSFO and HSFO fuel. www.marineinsight.com ~ record zapis prebacivanja s jednog goriva na drugo

fulcrum /'fʊlkrəm/ (n) (marine eng) pivot point of a lever uporište poluge: A cast iron rocker housing supports the fulcrum for the fuel and valve levers, encloses the valve gear and also forms the cylinder head water outlet connection ...

fulfill (v) 1 ispuniti, izvršiti: As a result, the deck watch was effectively composed of a single person who was expected to fulfill all of the tasks of navigation, maintaining a lookout and steering. ; 2
udovoljiti
Full ahead! (adv) (seamanship, navig) Svom snagom naprijed!: The pilot ordered full ahead, hard to port and requested one of the tugs to assist. 2235 Pilot away at southern boarding ground 2236 Full Ahead 2240 Half Ahead, course 125 deg, crossing the west bound lane at almost right angles to the separation scheme. Seconds later, the engine was put to full ahead, and the helm put hard to port to avoid the tanker. The pilot ordered 'full ahead'.
full and by (prep phr) (boating/yachting) Sailing as close to the wind as possible with full sails.
https://www.ypiyachts.com/ sasvim u vjetar (ali bez trešnje jedara)
full and complete cargo (=F/C) (mar law) This expression characterizes a full cargo, in accordance with the custom of the port, which will either bring the vessel down to her maximum permissible draft or fill the vessel cubically as the case may be. brod nakrcan do maksimuma
Full astern! (adv) (seamanship, navig) Svom snagom krmom!, Svom snagom nazad!: At 2019 as the vessel passed the tanker berth the pilot ordered full astern, rather than his usual slow or half astern. The master immediately applied full astern pitch and full port thrust. Consequently, although full astern was ordered, this only increased the power ahead on the starboard propeller. Manual DP was immediately selected (with yaw control), full astern thrust was applied and the vessel's movement stopped.
full-away (adv) (marine eng) punom snagom naprijed: After every economiser cleaning, for the first hour after Full Away, it became standard practice to deploy an additional seaman on the upper deck, ... I switch off the MF/HF DSC at the end of passage and only switch it on again at full away. The container ship’s third officer returned to the bridge and, on instruction from the master, he rang ‘full away’ with an engine setting of 80rpm. At the time the FULL – AWAY is received the auxiliary scavenge air blower should be stopped, the starting air stop valve closed and all drains opened.
full cargo (n) (cargo, shipping econ) jedini teret na brodu, sav teret na brodu: The ship had departed Gladstone at 1054 that day after loading a full cargo of coal destined for Bayuquan, China. A large bulk carrier was unberthing after loading a full cargo of coal.
Full Container Load (=FCL) (mar law, shipping econ) FCL means that all goods in the container are listed on one Bill of Lading, and as such are owned by one party.
https://www.logisticsglossary.com/term/full-container-load/ teret u kontejneru samo za jednog naručitelja (u direktnom prijevozu, door-to-door): The German-flagged full container ship ...... was en route back from the east coast of the United States to Europe. At about 0218 on the morning of 17 September 2011, a very serious marine casualty occurred on board the full container vessel ... full liner terms (n) (logist, mar law) Full Liner Terms express what is and what is not included in the freight price, from the shipping company's point of view. The freight rate includes loading, lashing, trimming, transport itself and unloading of the cargo. puni linijski prijevoznii ugovori full load (n) (marine eng) puno opterećenje: For modern engines, the optimum injection duration is around 18–20° crank angle at full load, and the maximum firing pressure is reached in the second half of that period. Droop is the variation in engine speed following a load change, approximately 4% for a full load change.
full load (n) (cargo handling, shipping econ) cjeloviti brodski teret, sav brodski teret iste vrste: Own vessel, a 21,310dwt multipurpose vessel with a full load of containers and a draught of 9.5 m. They finished loading at 1500 and sailed at 1510 with a full load for Monsteras in Kalmar Sound, Sweden.
full mission bridge simulator (n) (navig) navigacijski simulator sa svim
Full operational capability (n) (navig, electr) COMPARE initial operational capability: vrijeme rada u punom pogonu (navigatorstog sustava)

Full power (n) (nav arch) punom snagom, svom snagom: ... the engines had been running at full power for some six-and-a-half hours ... At full power the turbocharger may be rotating at speeds of 10000RPM

Full reach and burden of the ship (n) (nav arch, mar law) sav prostor i nosivost broda

Full reverse svom snagom natrag

Full rigged sailing vessel (=fully rigged sailing vessel) (n) (boating/yachting) jedrenjak, nava

---

---

Full rigged ship - barque (boating/yachting) a sailing vessel with three or more masts, all of which are square rigged jedrenjak tipa bark, bark
full rudder (navig, seamanship) kormilo do kraja (lijevo ili desno), kormilo sve lijevo ili sve desno: At the same time the tanker also altered, apparently under full rudder, to starboard. Using full rudder and engine power, and transmitting appropriate signals on the air horn and VHF radio, the master just managed to turn the ship’s head into the wind and execute the 180-degree turn and head out to open sea. The master realised that a dangerous situation was developing and applied full starboard rudder. full starboard rudder kormilo sve desno: Despite the use of full starboard rudder and full speed ahead, the port turn was not fully arrested and subsequent application of full astern power was insufficient to avoid a collision. Noticing that the CPA of the approaching ship had not increased as expected, the master increased to full starboard rudder. MAIB accident reports, full port rudder kormilo sve lijevo

full scantling vessel (n) (nav arch) brod s punim dimenzijama elemenata, brod gađen s punim dimenzijama materijala

Full speed! (n) (marine eng, comm) Svom snagom ~ ahead Svom snagom naprijed, ~ astern Svom snagom natrag

full speed (n) (navig, nav arch) puna brzina: Following this discussion my pilot advised me that as we were proceeding further up the harbour we should enter first and so we should maintain full speed at ~ punom brzinom: After disembarking the pilot, the vessel proceeded out to sea at full speed. A little later, we saw a vessel approaching at full speed from the south heading towards the Western Boarding Ground.

Full speed ahead / astern! (navig, comm) Punom snagom naprijed / natrag!

full starboard / port wheel (=full starboard / port rudder) kormilo sve u desno / lijevo: The Master applied full starboard wheel and the vessel turned rapidly, thus increasing the angle of heel.

fully automated unattended machinery space (n) (marine eng) = UMS

automatska strojarnica (rad bez osoblja u stroju)

fully autonomous ship (n) (nav arch) a ship run by an operating system that can calculate consequences and risks, and make decisions by itself

autonoman brod

fully battened sail (n) (boating/yachting) a sail that has sail battens across its entire width to provide better sail shape

fully laden (adj) (navig) nakrcan (brod), pod punim teretom: A fully laden 80,000 tonnes deadweight tanker was manoeuvring to go alongside when a total power loss occurred as a result of the sea water cooling system becoming blocked. The ship left the port of Riga fully laden with timber three days earlier.
A pilot boarded a fully loaded product tanker as it approached the port entrance.

The bridge and engine room was fully manned with a Bosun and AB stationed on the bow for lookout and emergency anchor purposes. I had always reduced my speed and kept the engine room fully manned when transiting these areas.

The bridge and engine room was fully manned with a Bosun and AB stationed on the bow for lookout and emergency anchor purposes. I had always reduced my speed and kept the engine room fully manned when transiting these areas.

Do not leave the gangway unattended once the lashings are removed until the gangway is fully rigged or secured. They left the gangway suspended outboard, fully rigged and secured horizontally at main deck level, ready to be lowered for the pilot next morning.

This grinding created significant amounts of fumes. … four seamen were sent to check the lashings and they were all overcome by the fumes in one of the holds. The OS who had removed the plug received some phenol fumes inside the face shield and inhaled a small amount of fumes.

The contractor who carried out the fumigation of the cargo provided the master with documentation that named the fumigant, defined the dosage rate, outlined the fumigation plan and the safety precautions. Before commencing any fumigation, a thorough briefing is provided by the suppliers of the fumigant covering safety and gas monitoring procedures plus any additional control measures. The vessel completed loading of wheat at port and commenced cargo fumigation subsequently before departure. Safety4sea (https://safety4sea.com/)

The oil feed rate is controlled according to engine load and is adjustable as a function of engine condition.

The coupling may in addition function as a clutch or disconnecting device. The fire detection system did not function correctly.

The Vancouver Fraser Port Authority received federal funding for projects that will improve the flow of goods to and from the Port of Vancouver. https://www.maritimeprofessional.com/news/federal-funding-port-vancouver-317672

… dozens of ships remain anchored off ports while the Company tries to secure funds to unload cargo.

Amongst the most familiar fungi affecting citrus fruit are green and blue penicillium mould growth which is accelerated by high storage temperatures.
significant area on every deck between the *funnel* and the machinery spaces is thus released for other purposes. Only the *uptake* was burning inside the *funnel*, probably because the inside bulkheads were too caked with carbon to burn. High density black smoke was then seen coming from the *funnel*. 

**funnel casing** *(marine eng, nav arch)* kućište dimnjaka, oplata dimnjaka  
**funnel down** *(meteorol)* stuštiti se (o vjetru), sručiti se  
**funnel smoke** *(marine eng)* dim iz brodskog dimnjaka  
**furl** *(boating/yachting)* to roll a sail; to roll or wrap a sail around the mast, spar or forestay to which it is attached namatati (prečku/flok/genovu, jedro), *rolati*, *rolflok*, *jib* ~ *furler* *(boating/yachting)* = *furling system* Each *furler* is composed of a drum, a series of sections (extrusions) which come around the forestay and a hoisting system: halyard swivel or sheave box.

futtocks /ˈfutəks/ (n) (sailing vessels) rebro 1st ~ s donji dio rebra, 2nd ~ s obluk rebra, 3rd ~ s obluk rebra, 4th ~ s gornji dio rebra
futtock shrouds (n) (sailing vessels) kosne pripone
futures /ˈfjuːtərz/ (n) (financ, shipping econ) = futures contract ročnice, rokovni ugovori, ugovori s naknadnim datumom izvršenja
futures contract (n) (shipping econ) A futures contract is a legal agreement, generally made on the trading floor of a futures exchange, to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future. ročnica, burzovni ugovor o kupoprodaji roba ili financijskih instrumenata (vrijednosnica, teretnica) po prethodno dogovorenim cijenama ali s naknadnim datumom izvršenja, rokovni ugovor, futures ugovor
futures exchange (n) (shipping econ) burza ročnica, burza rokovnih ugovora
futures market ANTONYM spot market A futures market is an auction market in which participants buy and sell commodity and futures contracts for delivery on a specified future date.
(http://www.investopedia.com/terms) tržište roba (tereta) i ugovora o prijevozu s naknadnim datumom izvršenja, tržište ročnicama, tržište rokovnih ugovora
FV (=fishing vessel) (n) (nav arch) ribarski brod: Later that evening, loaded with the bagged cockles, the fishing vessel anchored, to wait for the next rising tide to enable her to return to harbour. At that instance, the master on the coaster returned to the forward part of the bridge and detected the fishing vessel 5 to 6 cables ahead. The remaining crew held onto the upturned hull, until they were seen by a passing fishing vessel, and recovered on board.
FW (=fresw water) slatka voda: Lubricating oil coolers using sea or fresh water as the cooling medium, must also be periodically checked for oil leakage. According to the fresh water capacity tables, we were using 14 tonnes per day, which for 11 men is way over the mark (usually 3-5 tonnes is standard).
F.W. pump (=fresh water pump) pumpa slatke vode: On most engines sea water and fresh water pumps are fitted.
gaff /ɡæf/ (n) 1 (fishing) a long hook with a sharp point to haul fish in ribarska kuka, harpun, kučma, ganač, kučva blow the ~ odati tajnu, izbrbljati; 2 (seamanship) mornarska kuka, mezomariner
gaff /ˈɡæf,seil/ (n) (boating/yachting) spar that holds the upper edge of a sail; duga oblica, koso podignuta i privezana pri vrhu jarbola, o koju je uhvaćen gornji dio četvrtastog uzdužnog jedra ili privjetrinska strana trokutastog uzdužnog jedra; a spar to which the head of a fore-and-aft sail is bent

sošnjak, pik, pilun ~ jaw rašlje sošnjaka
https://www.rcgroups.com/forums/
gaff rig (n) (boating/yachting) snast s četvrokutastim glavnim jedrom

**gaff-rigged ship** (n) (boating/yachting) any sailing vessel or boat that is rigged using a gaff

**brod sa sošnim jedrom**: 6m *gaff-rigged wooden sailing yacht* was on passage between two German ports in the Baltic, with four people on board.

**gaffsail** /ɡæ/ (=trysail) (n) (boating/yachting) A four sided sail used instead of a triangular main sail. Used on gaff rigged boats. https://www.ypiyachts.com/

**gaff-sail boom** (n) (boating/yachting, sailing vessels) deblenjak sošnog jedra

gage /ˈgeɪdʒ/ (US) mjerilo, mjerni instrument

gain /ˈgeɪn/ (n) (navig) The gain functions to adjust the receiver sensitivity for the best reception of signals of widely varying amplitudes. **intenzitet odraza na (radarskom) ekranu, osjetljivost radara, namještanje pojačanja prijamnika**: Gain may be adjusted automatically or manually. Push the GAIN control to choose automatic or manual adjustment alternately.

adjust the ~ namjestiti osjetljivost radara, ~ level razina osjetljivosti set the ~ namjestiti razinu osjetljivosti odraza na radarskom pokazivaču

gain² /ˈgeɪn/ (n) (navig) pojačavanje osjetljivosti radara

**gain control** (n) (navig) kontrola za namještanje osjetljivosti radara: The gain control affects the receiver and not the display as the brilliance does. Turning up the gain will increase the amplification of the incoming signal, making weak echoes look stronger, but confusing the display with background speckle or noise, similar to the background crackling of an ordinary radio.

gale (n) 1 (meteorol) wind of at least force 8 Beaufort; sustained wind speeds from 34 to 47 knots (39 to
54 mph) **vrlo jak vjetar (po Beaufortovoj ljestvici), Italian: *burrasca*: The weather forecast for the planned voyage predicted *gale* and *storm*, ... Expecting to berth the following day, the Master paid out a scope of 6 shackles of chain on the port anchor in *gale conditions*. ~ **force (wind) vrlo jak vjetar, olujni vjetar**: the conditions alongside were calm, although the wind was predicted to be between force 3 and 4, increasing to 5 to 7 and perhaps *gale force 8* later. Once out of the harbour, very rough weather was encountered with a heavy swell and *gale force winds*. The weather throughout the day had been strong Westerly *gale force winds*, increasing in strength.

(https://safety4sea.com/), **whole ~ olujni vjetar, severe ~ vrlo jak vjetar**: The wind overnight was south-west force 6 to 7, and the morning forecast predicted south-west winds of force 7 to *severe gale 9*, occasionally storm force 10, decreasing 4 at times., **near ~ jak vjetar**: 201235 Anchor cable rendered in severe gale Our vessel let go her starboard anchor at an exposed roadstead at night in a *near gale* (30-33 knot wind), awaiting delivery on a new charter.

**gale warning** (n) *(meteorol)* *oluja, jaki vjetar, nevrijeme*: A panamax container vessel sailed just after midnight, with approaching *gale warning* in force. **issue a ~ izdati upozorenje o oluji / nevremenu**: The BOM issued marine *gale warnings* and hazardous seas to continue tomorrow until midnight Eastern Standard Time Thursday 24 September, with further disruptions to shipping expected. The following day, a *gale warning* was issued for the port area.

**galleon** / ˈɡæliən/ (n) *(nav arch)* A large three-masted sailing ship with a square rig and usually two or more decks, used from the 15th to the 17th century *galijun, galića*

**gallery** / ˈɡæli/ (n) *(marine eng)* uzdignuta platforma u strojarnici oko glavnog stroja za smještaj pomoćnih strojeva *platforma (u strojarnici), galerija*

**galley** / ˈɡæli/ (n) *(nav arch)* A cookroom or kitchen of a ship; *Kitchen compartment aboard a vessel.*

https://officerofthewatch.com/tools/maritime-dictionary/*brodska kuhinja, fogun*: The superstructure was two decks high, and consisted of the bridge above a mess room and *galley*. There was also heavy smoke damage to the accommodation, *galley* and wheelhouse. Hot cooking oil splashed into cook's eye The cook was shallow frying vegetables in the *galley*. ~ **deck paluba brodske kuhinje**: During subsequent routine washing down of the *galley deck*, the cook noticed the wires and, assuming they were isolated from the supply, he lifted them clear of the deck.

**galley** / ˈɡæli/ (1) *(sailing vessels)* A large, usually single-decked medieval ship of shallow draft, propelled by sails and oars and used as a merchant ship or warship in the Mediterranean

(www.thefreedictionary.com/galley) *galića, antička galića*; 2 *(sailing vessels)* **dubrovačka galića**
galley boy mladić kuhinje, mali od kuhinje, mali od kužine, moco: The ratings in the Catering Dept. are the Ship's Cook, Assistant Cook, Baker, Pantry and Galley Boy, Messman etc.

galley counter (n) (boating/yachting) predio kuhinje (na brodici, jedrilici): ... sharp edges can potentially exist in pressed stainless steel or aluminium fittings around the living and common spaces onboard ship, eg air louvres, galley countertops and sinks, insulated bulkhead claddings, deckhead panelling, corrugated / perforated shelving, gratings etc.

galley range (n) (ship_equipment) štedljank brodske kuhinje

galley stores (n) (seamanship) namirnice, zaliha hrane, provišta
galvanic corrosion (n) (boating/yachting, nav arch) elektroliza, korozija uslijed galvanskih struja: Layers of paint which had built up over the years had masked the galvanic corrosion, thus hiding the actual condition of the clamping screw. To avoid areas of severe galvanic corrosion, redundant hull fittings on GRP hulls should, ideally, be removed and appropriate repairs made to the GRP. prevent ~ sprječavanje elektrolize
galvanize /gælˌvaɪzn/ (=galvanise) (v) (marine eng) pocinčati, galvanizirati, prevući cinkom
galvanized /gælˈvaɪznld/ (adj) (nav arch, safety) pocinčan, galvaniziran: The exhaust gas receiver and exhaust pipe are provided with insulation covered by a galvanized steel plate.
gammoning-piece (n) (nav arch, sailing vessels) platnica kljuna

gang /gæŋ/ (n) 1 (cargo handling) brodska ruka, grupa lučkih radnika, ganga, škvadra stevedore ~ štivadorska ruka, number of ~s on board broj ruku na brodu, ship ~ waiting time čekanje brodskih ruku, shore ~ obalna ruka, lučka ruka, un/lashing ~ grupa za od/vezivanje tereta / kontejnera: On arrival at the vessel's home port an unlashing gang immediately boarded and released the lower lashing bars and twist locks that connected the bottom two containers in each stack stowed on deck.; 2 radna skupina, radna grupa mooring ~ privezivačka grupa, privezivački tim: As
there was a lot of weight on the spring and the mooring gang had not taken sufficient turns of the gantline, the gantline parted.

**gangboard** *(n) (nav arch) SYNONYM gangplank pasarela, mostić*

**gangplank** *(n) 1 (boating/yachting) a mobile bridge to facilitate loading/unloading of persons and cargo onto a ship [http://www.apsilt.com/aps-advisor/sailing-terms-glossary/ pasarela];

Italian: *passerella, mostić*: In winter, with ice and snow on the gangplank it was a sheer balancing act at times.

https://www.ebay.ie/sch/i.html?_sacat=0&_sop=1&_nkw=boat+gangplank&_frs=1; 2 *(nav arch)* brodska

**skala (tavalon)**

**gangway** /ˈɡæŋˌwei/ *(n) 1 (nav arch) = accommodation ladder* the opening in a bulwark including the ship’s accommodation ladder; a passageway, side shell opening, and ladderway used for boarding of aship siz, brodski siz, brodska skala, *skala reale*; Italian: *scala reale*, otvor u linici sa sizom: Several crew members left the vessel via the port side gangway and the gangway was then returned to the stowed position. rig the ~ postaviti brodski siz (po boku broda), spustiti brodski siz (po boku broda): Please rig a combination of the pilot ladder and the gangway on the port/starboard side. Update and keep inspection and maintenance records as per PMS; Do not leave the gangway unattended once the lashings are removed until the gangway is fully rigged or secured., ~ fall čekrk brodskog siza, koloturnik brodskog siza, parank brodskog siza: Gangway *fall* wire parted. At this time, the Master and duty officer who were on the bridge saw the gangway *fall* wire rope part., ~ watch straža pri brodskom sizu: Shortly after, the OS was relieved for a break by the duty AB, whose duties included the gangway security watch., shore ~ brodski obalni siz: Immediately, our crew safely re-moored the vessel and the shore gangway was repositioned and secured., hoist / lower the ~ spuštati / podizati brodski siz: Having removed all the stanchions and guardrails, the AB started to hoist the gangway., heave up the ~ podići bodski siz: The gangway was also heaved up.; 2 the opening in a bulwark that gives access to a gangplank or accommodation ladder otvor u linici za brodski siz; 3 *(navig) mali mostić (za ulaz u brod), Italian: *passerella, pasarela* yacht ~ mostić jahte, *pasarela* jahte
gangway watch (n) (safety) straža pri brodskom sizu: Protect your owners’ interests by posting a gangway watch.

gangwy-up order (n) (med, safety) naredba o zabrani napuštanja broda (zbog epidemije): The gangway-up order was put into effect back on March 21 to combat the growing COVID-19 outbreak. The gangway-up order required all civilian mariners working on MSC ships worldwide to stay aboard their ship and suspended crew shore leave. GCaptain

gantlet (n) (safety) zaštitna rukavica

gantline /ˈɡænt, lain; ˈɡæntlin/ (n) (boating/yachting) a line rove through a sheave for hoisting standing rigging, boatswain’s chair, men or gear podigač dijelova opute (na jedrenjaku), podigač sjedala mornara na jabol: The gantline is secured to the bosun’s chair with a ‘rolling hitch’

Taking Care of Your Boat as You Cruise

Figure 16.2. A gantline (or workline), 4-to-1 power ratio.

http://www.landlpardey.com/cruising-tip-working-aloft-%E2%80%93-the-gantline.html; 2 (seamanship) 1. A rope to throw ashore as messenger for a mooring line. 2. A rope for mooring a lifeboat. uže za prihvaćanje i povezivanje priveznih konopa: A forward back spring was passed and secured to a dolphin ring by means of a gantline. As there was a lot of weight on the spring and the mooring
gang had not taken sufficient turns of the gantline, the gantline parted.

gantry /ˈɡæntri/ (n) (cargo handling) mosna dizalica, granik: ... containers are not meant to be handled by a single point suspension system such as a derrick fixed to a dumb lighter, but by a shore gantry. These gantries move not only parallel to the quay, but also run back for considerable distances, and so cover a large stacking area, and are able to plumb the ship's hold. The handling capacity of container gantry is 29 TEUs per hour. Apart from slewing deck cranes, corrosion, wastage and cracks can affect the structural and components of monorail hoists, overhead and travelling gantry cranes, derricks and other lifting gear.

gantry crane (n) (cargo handling) track-mounted, shoreside crane utilized in the loading and unloading of general cargo, containers and heavy lift cargo. mosna dizalica (na obali), granik, okvirna dizalica: The West Basin Container Terminal currently includes 13 post-Panamax ship to shore gantry cranes, 19 transtainers, 39 tophandlers, and more than 170 yard hustlers, helping move more than 800,000 containers per year. Each gantry crane was fitted with warning devices that operated automatically whenever the gantry crane travelled along the length of the deck. Since the morning of 30th October, access to this main port has been restricted as one of the 5 STS (Ship to Shore gantry cranes) was blown off its rails due to the extreme winds. Shipping and Freight Resource <info=shippingandfreightresource.com@send.aweber.com> shipboard ~ brodska mosna dizalica, The terminal has installed a new electrical substation to provide power for the new gantry cranes.

gap (n) 1 (marine eng) rascijep, praznina, raspon: The 12 mm gap between the safety pin and its brake release lever, and the less-than-adequate maintenance on the brake-lever mechanism, contributed to the unexpected release of the lifeboat down the davit cradle. The gap between the turning gear's worm and the flywheel. ; 2 (navig) razmak: There was a 5m gap between the ship and the quay. The vehicle carrier continued her south-easterly approach with the pilot now aiming for a gap between the inbound tanker and an outbound container ship.

garbage (n) (shipping econ) Garbage includes all kinds of food, domestic and operational waste excluding fresh fish and parts thereof, generated during the normal operation of the vessel and liable to be disposed continuously or periodically. ( smeče, brodsko smeče delivery of ~ predaja smeća: The ship's Master stopped delivery of the garbage to the barge and requested the crew of the barge to cast off and collect the bags, ~ discharge iskrcaj smeče, poslovi iskrcaja i prihvata smeče s bodova, ~ management plan plan upravljanja brodskim smećem: A company's Garbage Management Plan is vital onboard in order to ensure effective compliance with Annex V of MARPOL. https://safety4sea.com/cm-why-garbage-management-plan-onboard-is-vital/, ~ marine pollution onečišćenje mora brodskim smećem, ~ Record Book Knjiga brodskog smeća, Knjiga evidencije o brodskom smeću: Garbage Record Book shall be kept on board ship and in such a place as to be available for inspection in a reasonable time. (https://safety4sea.com) https://safety4sea.com, handling of ~ rukovanje smećem, briga o smeću, segregation of ~ odvajanje brodskog smeća
garboard plank \textit{(n)} \textit{(sailing vessels, nav arch)} dokobilična platica, dokobilična trenica
garboard strake \textit{(n)} \textit{(nav arch)} the strake of bottom shell plating adjacent to the keel plate (running fore and aft).
dokobilični voj, dokiljni voj
garfish \textit{(=sea needle)} \textit{(n)} \textit{(fishing)} iglica, jagla, dingula, inglun

gas \textit{/gæs/ \textit{(n)}} 1 \textit{(cargo)} plin (teret); 2 \textit{(marine eng)} plin burnt \textit{~es} izgorjeli plinovi, exhaust \textit{~e} ispušni plin: The rotation force is provided by exhaust gas acting on vanes fitted to the valve stem. Some of the exhaust gas is cooled and cleaned before recirculation to the scavenge air side. combustion \textit{~es} plinovi izgaranja: This gap provides a leakage path for the combustion gases so that one piston ring alone is insufficient to seal adequately., escaping \textit{~es} ispuh plinova: The ship's crew made several attempts to refit the sampling valve, but due to the high pressure of the escaping gas and the formation of ice on the pipe, these were unsuccessful., inert \textit{~ generator generator inertnog plina, uređaj za proizvodnju inertnog plina, inert ~ inertni plin: Line clearance was undertaken for a 45-minute period during which the inert gas system (IGS) was not run. Fires in the engine internal spaces can be attacked and extinguished using inert gas such as CO, foam, or water., boiler exit \textit{~es} izlazni plinovi kotla, burning \textit{~es} gorući plinovi, izgarajući plinovi: As the piston passes tdc, the burning gas expands, driving the
piston toward bdc, rotating the crankshaft and its attached weighted flywheel.

- gas: (n) (US) = petrol benzin = oil (marine eng) gorivo, mazut, marsh = oil zemni plin, ~ station (US) pumpna stanica

- gas bottle: (n) 1 (marine eng, seamanship) plinska boca: Look for the less obvious fire risks: cable insulation, heat transfer to the other side of bulkheads/decks, and the possible release of gas from nearby gas bottles. The acetylene ignited because the gas bottle valves were open.

- plinska baca ~ fittings pribor plinske boce (ventili, pipci, brtve), ~ piping plinski cjevodov

- gas cargo container: (n) (cargo) spremnik za prijevoz plina

- gas carrier: (n) (nav arch) ships especially designed ocean-going vessels that are dedicated for transporting all types of liquefied natural gases (LNG) and liquefied petroleum gases (LPG) to their destinations (https://www.marineinsight.com/types-of-ships/what-are-gas-carrier-ships/); Gas carriers carry gases like LPG, ammonia, butane propane etc. brod za prijevoz plina, plinski tanker: A fully pressurised gas carrier had just completed loading liquefied propane at an oil refinery. Capacity of a gas carriers depends on the trade for which it was constructed and ranges from 3,500 –1, 50,000 m3. (https://www.marineinsight.com/types-of-ships/what-are-gas-carrier-ships/)

- gas cutting (=autogenous cutting): (n) (marine eng) the process of cutting metals by application of high temperature flame or torch produced by combination of two gases-oxygen and acetylene (https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/)

- gas detector: (safety) detektor plina: The master was carrying a walkie talkie as well as a personal gas detector (combined O and LEL) and the chief mate and pump man were standing on deck.

- gas-flow: (n) (marine eng) strujanje plinova, odvod plinova: A nodular cast iron cylinder head was configured to achieve improved air and gas flow rates for the PA6B STC version. arrangement of ~ raspored odvoda plinova (iz komore izgaranja do
gas free (adj) (safety) bez plina ~ certificate A certificate issued by a chemist after sampling the air in a tanker's cargo tanks after the cargo has been pumped out. (www.euronav.com)

svjedodžba o neprisutnosti plina

gas freeing (n) (cargo handling) otplinjavanje tanka, oslobađanje tanka od plina: After gas freeing and one of the crew entering the tank, the leak was found and the hydraulic line repaired. commence ~ započeti otplinjavanje

gas fuel (n) (marine eng, nav arch) plinsko gorivo

gas-fuelled vessel (n) (nav arch) brod na plinski pogon, brod s pogonom na plin LNG-fuelled vessel brod s pogonom na ukapljeni prirodni plin

gash /gæʃ/ (n) (med) posjekotina, dubok rez

https://www.dailyecho.co.uk/news/15182916.cargo-ship-hits-southampton-dock-tearing-a-gash-in-side/; 2 (nav arch, safety) SEE indent udubina (na oplati broda), urezotina (na oplati broda): The collision left the tanker with a 30-foot gash in its hull. The collision caused a gash under the ship's waterline. The gash is above the waterline, and the ship is docked alongside in the port of repair. The collision resulted in a large gash on the starboard side of the tanker, causing it to take on water. tear a ~ stvoriti porezotinu (na trupu broda), izazvati porezotinu (na trupu broda): The collision tore a gash below the ship's waterline.
gas jetty (n) (ports) gat za brodove za ukapljeni plin, vez za brodove za ukapljeni plin
gasket /ˈɡæskɪt/ (n) (seamanship) An elastic packing material used for making joints watertight.

https://officerofthewatch.com/tools/maritime-dictionary/ brtva, brtvilo,

Italian: guarnizione rubber ~ gumena brtva: Wear to rubber door gaskets or improper handling may result in the doors no longer closing correctly, so that they are no longer sealed against rainwater and the like., door ~ brtva za vrata, head ~ brtva glave cilindra: A cylinder head with significantly increased safety factors is achieved with a wall supported by the head gasket, a thicker flame deck, optimized placement, larger exhaust seat ring cooling bores and smooth transition
gas leak (n) (safety, marine eng) propuštanje plina, curenje plina: The ignition heat source was a hot gas leak from around the “plenum seal”.

gas leakage (n) (safety, marine eng) propuštanje plina, curenje plina: A control bore is provided in the cylinder cover to enable possible gas leakage to be detected between the two parts of the cover.

gas locker (n) (boating/yachting) spremnik za plinsku bocu self-fraining ~ spremnik plinske boce samopražnjenjem

gas mode (n) (marine eng, nav arch) rad (stroja) na plin, način rada na plin run in ~ raditi na plin (o brodskom stroju), raditi u plinskoj verziji / modusu: When running in gas mode, the engine instantly switches over to diesel operation if the gas feed is interrupted or component failure occurs.

gas oil (n) (marine eng) plinsko ulje, lako dizelsko gorivo, laka nafta marine ~ brodsko plinsko ulje, laka brodska nafta: The ship was running at slow speed on one diesel generator, which was being supplied with marine gas oil (MGO) from one of two fuel oil service tanks.

gasoline engine (n) (US) (marine eng) = petrol engine benzinski motor
gasoline; gasolene /'ɡæsəliːn/ (n) (US) = petrol benzin
gas-tight door (n) (nav arch, safety) plinotijesna vrata: Access to the modules was through
gas-tight seal (n) (marine eng) plinotijesna brtva, plinonepropusna brtva: A piston ring is a spring tensioned ring set in grooves in the circumference of a piston that push out against the walls of the cylinder forming a gas tight seal.

gas turbine /ˈɡæs ,tɜːˈbain/ (marine eng) plinska turbina: A large catamaran was fitted with four gas turbine engines, two in each of the hulls. The main candidates for gas turbine propulsion in commercial shipping are cruise ships.

gas welding (n) (marine eng) plinsko zavarivanje, autogeno zavarivanje: Before a gas welding operation is carried out, all equipment and connections are to be checked and verified they are in safe condition;

gate (n) 1 (navig) vrata ulaza u lučki bazen brana u ustavi: After the lock gate in the direction of the Elbe was opened, the TMV …, which was moored on the opposite side, was the first vessel to sail out of the lock. dock ~ brana u ustavi, ustava, lock ~ brana ustave: A coastal tanker was berthed 150m ahead of a lock gate while waiting to enter port to discharge her cargo.

vrata: An additional security gate was being installed at the top of the gangway in way of the pilot boarding access; 2 (nav arch) vrata security ~ sigurnosna zaštitna vrata: A point at which freight moving from one territory to another is interchanged between transportation lines.

gather (v) 1 skupljiati, skupiti, okupljati se: At the centre they are formed to gather the air which enters at the eye of impeller. They expected to make the short transit to the sandy area and then gather in the forward part of the boat to discuss the next part of the exercise. Water was pouring into the engine bay and all the people on board gathered at the stern to help bail out the water; 2 (navig) to attain headway / sternway; to get going or pick up speed kretati se u jednom smjeru (o brodu) to ~ sternway kretati se krmom, kretati se nazad (o brodu): The ship started ~ing sternway Brod se počeo kretati krmom / u krmu The skipper engaged the engines astern, and the boat started to gather sternway. At 0212, the master, still misled by the 0210 plotted position, noted that the vessel was still not gathering sternway, and increased to half astern., ~ headway kretati se pramcem (brod), kretati se naprijed (brod): The ferry continued to gather headway. With the ship gathering headway, it was observed that the head was swinging very quickly to starboard, and accordingly, hard port rudder was applied; ~ way To attain headway or sternway (to get going or
pick up speed; to get going or pick up speed: početi ploviti prema naprijed ili nazad (o brodu), početi se kretati: Coming immediately onto their course of 160°, the combination of excessive leeway as the yacht was gathering way, and the onshore swell, quickly placed them in danger.;
speed dobivati na brzini: ... the sea and rain clutter had been adjusted as the vessel gathered speed and settled at 23kts. Over the next 5 minutes, the ship gathered speed from 8kts to 13kts.

**GATT** (=General Agreement on Tariffs and Trade) (n) (shipping econ, mar law)

Opći sporazum o trgovini i carinama

gauge /ˈɡeɪdʒ/ (n) (UK) 1 (marine eng, safety) = gage mjerilo, mjerni instrument, mjerač, pokazivač: The lub-oil tank’s contents gauge indicated that the tank was empty; approximately 10000 litres of oil had apparently ‘disappeared’. A level gauge gives a local read-out of the drain tank contents. deflection ~ komparator, diphragm pressure ~ barometar s membranom, pneumatic ~ pneumatski pokazivač sadržaja tanka, below pressure ~ barometar s valovitom komorom, pressure ~ manometar, tlakomjer: They also showed that the pressure reading on the differential pressure gauge for the on-line oil filter remained low, indicating that the filter did not require changing.;

manometra, ~ glass vodomjerno staklo, pokazivač razine (tekućine), manifold ~ tlakomjer na ventilskoj jedinici, manometar na manifoldu,

mjerila: The bearing covers are each fitted with an oil filter, an oil drain opening and an oil gauge glass. The bearing covers are each fitted with an oil filter, an oil drain opening and an oil gauge glass.;

contents ~ mjerilo sadržaja (tekućine u tanku): The lub-oil tank’s contents gauge indicated that the tank was empty; approximately 10000 litres of oil had apparently ‘disappeared’.;

tide ~ pokazivač razine mora (plime i oseke): To assist approaching ships in assessing the depth of water available, MAIB has suggested to the harbour authority that a tide gauge is placed at the entrance to the port.;

2 kalibar, šablonu

gauge  /ˈɡeɪdʒ/ (v) 1 mjeriti šablonom, mjeriti; 2 kalibrirati

gauge stick (n) (marine eng, cargo handling, nav arch) mjerni štap, mjerni štapić

gauging system /ˈɡeɪdʒɪŋ/ (n) (marine eng, cargo handling) A process of measuring height of a liquid in a storage tank usually using a weighted graduated steel tape and bob. (www.euronav.com)

sustav mjerenja tank level ~ sustav mjerenja razine tekućine u tankovima, ballast tank ~ uređaj za mjerenje razine tekućine u balasnom tanku

gauntlet /ˈɡoʊntəlt/ (n) (safety) zaštitna rukavica

Gaussian maximum shift keying (=GMSK) (n) (navig, electr) digitalna modulacija minimalnog pomaka faze (u sustavu AIS)

gear /ɡeər/ 1 (seamanship) the general name for ropes, blocks and tackles, tools, etc. (things).

https://officereofthewatch.com/tools/maritime-dictionary/ oprema, uređaji; 2 (marine eng) zupčanik, Italian: ingranaggio camshaft ~ zupčanik bregaste osovine: The camshaft gear drive at the free end of the crankshaft and the auxiliary drive hub are fitted on a taper using the oil injection method.;

idle ~ međuzupčanik: Type of drive : gear(state approximate ratio between crankshaft and camshaft gears, number of idle gear(s), etc., intermediate ~
međuzupčanik: The intermediate gear wheels of the camshaft drive can be aligned more quickly than before by means of a built-in device to move the wheels vertically and horizontally., set of ~s niz zupčanika, train of ~s niz zupčanika, worm ~ pužni zupčanik, pužno kolo, pužni prijenos, ~ ratio omjer zupčanika, odnos zupčanika: These pumps are integrated in the gear drive at the front side of the engine and driven by the crankshaft with a gear ratio of 1.65 at speeds of up to 1800 rev/min., ~ wheel zupčanik: The use of gear wheels for the camshaft drive allows the thrust bearing to be very short and stiff, and to be carried in a closed rigid housing., idler ~ međuzupčanik: The camshaft drive is located at the free end of the engine; the crankshaft gear drives via a compound idler gear for each camshaft.; 3 (marine eng) uređaj, mehanizam jack ~ uređaj za okretanje motora, running ~ pogonski mehanizam: The upper piston of the engine requires its own running gear and crank throws., reversing ~ prekretni uređaj, prekretni prijenosnik: This oil is also used to operate the hydraulic reversing gear for the engine., timing ~ razvodni mehanizam: The camshaft timing gear is attached to the front end of the engine, positioned between the crank gear and cam gear., turning ~ uređaj za okretanje: Accordingly, the air start valves were opened and one of the engineers operated the turning gear control lever with the intention of disengaging the turning gear from the main engine flywheel., ~ drive zupčani prijenos: A flange is provided for the vibration damper at the end, opposite to the coupling; a gearwheel for the gear drive is flanged on the coupling end. Timing is controlled by cams or gear drive from the engine camshaft.; 4 (marine eng) prijenosnik auxiliary drive ~ prijenosnik pomoćnog pogona; 5 (safety) sigurnosna oprema, sigurnosni uređaj: Everything was labelled, panic bags were clearly marked and every crew member briefed on the location of safety gear.
gear: (n) (cargo handling) = cargo gear A comprehensive term in general use on shipboard signifying the total of all implements, apparatus, mechanism, machinery, etc., appertaining to and employed in the performance of any given operation, as cleaning gear, steering gear, anchor gear, etc. (SeaSources-US.dict.net) brodski uređaj za krcanje tereta, oprema za dizanje/spuštanje tereta
gearbox /ˈɡɛrbɔks/ (n) (marine eng) reverse ~ prekretni uređaj, prekretna kopča, reversing ~ prekretna spojka, prekretna kopča, ~ drive pogon zupčanog prijenosnika, reduction ~ reduktor, marine ~ brodski reduktor 1 zupčani prijenosnik, Italian: invertitore; 2 reduktor; 3 kutija mjenjača; 4 zupčani mjenjač
gear-driven (adj) (marine eng) na zupčasti pogon, sa zupčastim prijenosom: The camshaft is either chain or gear driven from the crankshaft. The PTO at the free end accepts either gear-driven or belt-driven pumps and alternators.
geared container ship (n) (nav arch) Containerships that are equipped with cranes or derricks for loading and unloading containers and other cargo operations. kontejnesni brod s opremom za ukrcaj/iskrcaj tereta
gear driven engine (n) (marine eng) ANTONYM direct-coupled engine motor s prijenosnikom, brodski stroj s reduktorom, motor s posrednim pogonom propelera: According to the way the main engine is joined to the shafting, they may be classified as direct coupled engines, i.e. coupled directly to the propeller shafting (also called direct drive)
and **geared engines**, i.e. coupled to a reduction gearing (indirect dr.

**geared ship** (n) (nav arch) brod s vlastitim uredajem za ukrcaj/iskrcaj tereta

**gearing** /ˈdʒeərɪŋ/ (n) (marine eng) zupčanici, sustav zupčanika: The resulting damage to the shaft and gearing and to the turning gear casing disabled the ship for a month and cost a six-figure sum to repair. **reduction ~ reduktor**: Torsional vibration involves the whole shaft system of the propulsion plant, engine crankshaft, intermediate shafts and propeller shaft, as well as engine running gear, flywheel, propeller and (where appropriate) **reduction gearing**, flexible couplings, clutches and PTO drives.

**gearless bulk carrier** (n) (nav arch) SEE bulker brod za rasute terete bez uredaja za ukrcaj/iskrcaj tereta: brod za rasute terete bez vlastitog teretnog uredaja
gearless ship (n) (mar law, shipping econ, nav arch) Gless – Gearless Ship - Ship which is not equipped with her own crane(s) or derrick(s). http://www.tkmglobal.net/charteering_G.HTM brod bez opreme za krcanje/iskrcanje tereta

gear pump (n) (marine eng) pumpa pokretana zupčanicima: A chain-driven rotary **gear pump** provides lubricating oil to the main bearings and through internally drilled passages in the crankshaft to both connecting rod bearings.

**gears** /ˈgɛərz/ (n) (marine eng) bevel ~ konični zupčanici, stožnici, double-helical ~ zupčanici sa strjelastim zupcima, herringbone ~ zupčanici sa strjelastim zupcima, intermeshing ~ međusobno zahvaćanje zubaca zupčanika, single-helical ~ cilindrični zupčanici s kosim zupcima, spur ~ čeoni zupčanici, čelni zupčanici, cilindrični zupčanici sa ravnim zupcima, valjkasti zupčanici zupčanici: The crankshaft drives the camshaft by a **train of gears** and the cams lifts the pushrods, thus transferring the motion to the rocker arms, which swing on pivots.

**gearshift** (n) (marine eng) ručica prijenosa

gear wheel (n) (marine eng) zupčanik, zupčasti kotač: If the gear wheels are misaligned, shock loading will result, which can lead to broken teeth. The camshaft was raised to be close to the cylinder covers and is driven via gear wheels.

gelcoat /dʒelkəʊt/ (n) (nav arch, boating/yachting) staklasti zaštitni sloj, delkot: Acrylic fiberglass coatings – an alternative when waxes and polishes won’t revive your gelcoat – leave a hard, clear plastic coating on gelcoat. https://www.practical-sailor.com/ repair ~ damage popravak štete na delkotu, ~ crack napukлина delkot, puknuće delkota: every owner of a fiberglass boat will have to deal with gelcoat cracks and chips, ~ repair popravak delkota: For small gelcoat repairs like this, we use a Preval sprayer ... Until recently, they used to sell a handy aerosol gelcoat repair kit, ~ crazed ~ delkot sa zrakastim napuklinama: On some early fiberglass boats you may encounter crazed gelcoat □ that is, gelcoat that has hardened and become covered with a random network of small cracks, ~ crazing zrakasto napuknuće delkota: A severe case of crazing may require you to grind away the crazed gelcoat altogether, acrylic ~ akrilni delkot, akrilni zastitni sloj

**GENCON** (n) (mar law) Widely used general purpose voyage Charter-Party published by BIMCO.

BIMCO-ov ugovor o najmu broda Gencon, opći ugovor o njemu broda general agency (=GA; General Agent) (n) (mar law) **opća pomorska agencija, pomorska agencija, pomorski agent**
General Agency Agreement (n) (mar law) ugovor o općoj agenciji, ugovor o generalnoj agenciji: The Agreement covers the General Agency work within the Territory. It includes the duties of marketing, operations, accounting and finance mentioned below. FONASBA General Agency Agreement

general agent (=GA; General Agency) (n) (mar law) opći pomorski agent, pomorski agent, pomorska agencija: The Principal hereby appoints the GA as its agent for all maritime services and vessels (either owned or chartered including any space or slot charter agreement) calling at the GA's territory serving the trade between .... and ... FONASBA General Agency Agreement

general alarm (n) (safety, navig) opća uzbuna, znak za opću uzbunu: The master raised a general alarm and the crew immediately proceeded to clean up the spilled fuel oil on deck.

sound the ~ dati znak za opću uzbunu: The master sounded the general alarm and the well practised fire-fighting organisation swung into action. The master sounded the general alarm to muster the crew members. After the general alarm was sounded, the crew assembled on the bridge and donned immersion suits collected from two decks below. As soon as a fire is detected general alarm should be sounded.

general alarm bell (n) (safety) zvono za opću uzbunu, zvono opće uzbune sound the ~ uključiti zvono za opću uzbunu

general arrangement plan (=GA plan) (n) 1 (nav arch) A drawing of a ship which lists all necessary statistics and operating information such as LOA, SDWT, cargo, water, fuel capacity, etc (www.euronav.com) opći nacrt broda, opći plan broda, generalni plan broda

http://marineinfobox.blogspot.com/2017/05/different-types-of-ship.html; 2 situacijski nacrt

general average (=GA) (n) (mar law, mar ins) havarija koja pogađa sve sudionike pomorskoga pothvata; A general contribution of money paid by all parties concerned in a marine adventure in direct proportion to their several interests when a voluntary or deliberate sacrifice has been made of one or more of the party’s goods in time of peril with a view to saving the remainder of the property.
General Average act and General Average contribution

(www.euronav.com); Intentional act or sacrifice that is carried out during voyage to preserve the venture from a real peril. The party who has suffered a loss as a result is reimbursed by all the other parties to the marine adventure, each paying a proportion of the amount of the loss according to the value of their interest. http://www.tkmglobal.net/chartering_G.HTM; General Average is a legal principle of Maritime Law under which, all parties who are involved in that voyage, shall be asked to proportionally share the losses resulting from such sacrifice. (https://shippingandfreightresource.com); namjerni čin žrtvovanja dijela broda ili opreme za vrijeme plovilde radi očuvanja pomorskog pothvata. Pretprjelu štetu plaća, u razmjenom dijelu, svaki sudionik pomorskog pothvata.

zajednička havarija, generalna havarija, generalna avarija: GA is a principle of maritime law where damages or salvage costs etc are shared among the cargo in proportion to its value and adjuster http://gcaptain.com The basic concept of GA is that all losses, including salvage, port, and transfer costs, are shared between surviving cargo http://gcaptain Once ashore, containers for which General Average and Salvage security has been provided (“secured containers”) will be stacked apart from those which remain unsecured (“unsecured containers”). https://gCaptain.com General Average requires that the shipowner and its customers share a proportionate amount of the costs associated with saving a vessel after a major casualty. www.gCaptain.com declare ~ on a ship proglasiti zajedničku havariju za brod: General average (GA) has been declared by Maersk, which means cargo owners will need to lodge the necessary security bonds before they can have their cargo. http://gcaptain.com The shipping company declared general average on the vessel appointing a Liverpool-based average adjuster to collect the necessary GA security. On January 25, 2019, Hapag Lloyd declared “General Average ” for the CV ..... https://shippingandfreightresource.com/ The owner of thecontainership has declared general average following an engine room fire When General Average is declared, cargo owners are required to contribute to a GA fund before cargo can be released. www.gCaptain.com

General Average act (n) (mar law) There is a general average act when, and only when, any extraordinary sacrifice or expenditure is intentionally and reasonably made or incurred for the common safety for the purpose of preserving from peril the property involved in a common maritime adventure. (York/Antwerp Rules 1994) čin generalne avarije, nastupanje čina generalne avarije

general average act (n) (mar law) čin zajedničke havarije

general average adjuster (n) (mar ins) General Average Adjusters are responsible to coordinate the collection of General Average securities, all documentation from parties with interest in cargo, containers, vessel, and fuel.(https://shippingandfreightresource.com) likvidator

zajedničkih havarija: When General Average is declared, the owners of the ship will appoint Average Adjusters.. The Average Adjusters are preparing the necessary instructions to the parties concerned in cargo as well as Average Bond and Average Guarantee forms which are to be completed and signed by cargo interests. www.gCaptain.com appoint XY as ~ imenovati XY za likvidatora zajedničke havarije: ONE said the owners have appointed Stichling Hahn Hilbrich (Hamburg & London) as Average Adjusters. www.gCaptain.com

general average adjustment (n) (mar ins) obračun zajedničke havarije, likvidacija generalne avarije

general average clause (n) (mar law) klauzula o generalnoj havariji

General Average contribution (n) (mar law) The monetary contribution required of shipowners and cargo owners (or their respective insurers) in respect of general average expenditures and general average sacrifices.

When *General Average* is declared, cargo owners are required to contribute to a *GA fund* before cargo can be released. www.gCaptain.com

The company has set the salvage security to the amount of 42.5% of the CIF (cost, insurance and freight) value of the cargo, with an additional 11.5% required as *GA security*. The containers have been declared sound and for these containers all *General Average and Salvage securities have been submitted* The shipping company appointing an average adjuster to collect the necessary *GA security*. We therefore again urge all cargo interests that are yet to provide *General Average/Salvage securities* to do so without further delay, in order to allow delivery of their cargo. https://gCaptain.com

*General cargo* consists of both containerized and breakbulk goods, in contrast to bulk cargo. *General cargo* is handled by cranes on the quay, floating cranes or by the ship's own cargo gear (deck cranes, derricks, etc.). The container ship arrived in Esbjerg, Denmark, from Larvik, Norway for discharging and loading *general cargo* in containers.

*General cargo ship* (=freighter (US); general cargo vessel) A single or multi deck cargo vessel for the carriage of various types of dry cargo. Single deck vessels will typically have box shaped holds. Cargo is loaded and unloaded through weather deck hatches (http://www.ihsfairplay.com/About/Definitions/definitions.html) *brod za opći teret, brod za generalni teret, teretnjak*: A 1680gt *general cargo ship* in ballast was on passage to Sweden, course was 132° in autopilot and speed was 10 knots. A 2500 grt *general cargo ship*, carrying a timber deck cargo, was heading towards the entrance to a 300m wide buoyed channel, on a course of 004° in autopilot. A 79-metre *general cargo vessel* was on passage through UK waters in the early hours of a winter’s morning. A *general cargo ship* arrived with an import cargo that was stacked high on the hatch covers, exposing a large lateral wind area. *General cargo vessels* are equipped with gears with sufficient capacity (about 30-40 tons SWL) able to handle containers and other general cargoes.

*General Characteristics* *opći podaci o brodu* *general compressed air system for deck* *sustav zraka opće službe za palubu* *General Declaration* 1 *opća izjava, opća prijava (tereta); 2*
general electric maintenance (n) (electr) opće održavanje električkih sustava
insulation izolacija, test equipment ispitna oprema, oprema za testiranje
general emergency alarm (n) (safety) uzbunjivanje u slučaju opće opasnosti: Remain calm when you hear the general emergency alarm. When the general emergency alarm is sounded, which consists of seven short blasts and one prolonged blast, all passengers have to go to their assembly station.
general practitioner (=GP) liječnik opće prakse: It was some time before I got home, I then went to my GP who sent me to hospital for an X Ray where they discovered three broken ribs.
general purpose container (n) (cargo) kontejner opće namjene
general purpose crew (n) (mar law) posada opće namjene (za rad na palubi i u strojarnici): Ratings are trained to perform the duties of the dual and general purpose crew.
general purpose manning (=GP manning system) sustav posade opće namjene, polivalentna posada: In the GP manning system officers and ratings are trained to have knowledge and skills common to all departments in
general quarters (n) (navy) battle stations for all hands bojne postaje (na brodu)
general radiocommunications operational and public correspondence traffic other than distress, urgency and safety messages, conducted by radio (COMSAR14.4) opće radiokomunikacije
general service pump (n) (nav arch) pumpa opće namjene: ballast, condenser sea water, fire and general service (GS), and IG scrubber pumps.
general service system (n) (nav arch) sustav opće službe
general synopsis (n) (meteorol) stanje vremena, vremenska situacija, opis stanja vremena
general terms (n) (shipping econ) opći uvjeti poslovanja ~ and conditions opći uvjeti poslovanja
generate /ˈdʒɛneɪˌreɪt/ (v) stvarati, proizvoditi, generirati ~ steam (marine eng)
proizvoditi paru: He suggested that overall plant efficiencies of 57–58 per cent are possible from a combi-cycle exploiting waste heat to generate steam for a turbo-alternator, ~ power (marine eng)
proizvoditi struju
generating plant (n) (marine eng) brodska elektrana, brodski generator: Three 14 000 kW azipod propulsors power royal Caribbean Cruises’ voyager-class liners generating plant. Integrated energy-saving generating plants have been developed over the years for application mainly to large container ships.
generating set; genset (n) (marine eng) generatorski sklop, generator: Diesel gensets have even been installed in containers on deck to provide propulsive power, and other vessels equipped with a 10 000 kW generator mounted in a block at the stern above the RoRo deck.
generating tubes (n) (marine eng) isparne cijevi, isparivačke cijevi: The D type boiler also has a two stage superheater - primary and secondary, located below the generating tubes.
generating unit (n) (electr, marine eng) brodska elektrana, brodsko električna centrala
generator /ˈdʒɛnəˌreɪtə/ (n) 1 (electr) električni generator, generator, generator
Diesel gensets have even been installed in containers on deck to provide pro-pulsive power, and other vessels equipped with a 10 000 kW generator mounted in a block at the stern above the RoRo deck. The economic attraction of the main engine-driven generator for electrical power supplies at sea is that it exploits the high thermal efficiency, low specific fuel consumption and low grade fuel-burning. The electrical power is supplied from the generators to the main switchboard from where it is distributed to all parts of the ship through numerous breakers and relays. There are normally three generators, one running and supplying power, one on standby, and one down for maintenance whilst at sea. He then, started No.2 generator and transferred vessel’s electrical load from shaft alternator on to No.2 generator and prepared the dredging pump which would be powered by the shaft alternator. (https://safety4sea.com/) drive the ~

It seems somewhat illogical to use electric generators, switchgear and motors between prime movers and propeller when direct-coupling or coupling or geared transmission to the shaft may be all that is necessary., emergency ~ pomoćni generator, generator za rad u nuždi: Any faults or defects in the emergency generator/alternator, its prime mover and associated equipment, must be rectified and immediately reported to the appropriate management office. The emergency generator started, but did not run for long because its ventilation openings were left shut, causing it to overheat., auxiliary ~ pomoćni generator: Power was restored quickly using an auxiliary generator, and when the main engine was restarted, the main engine low lube oil pressure alarm sounded again., shaft ~ osovinski generator: Since the electrical systems on board the vessel were linked to the main engine via the shaft generator, the electricity failed as well and for a short period of time the vessel suffered a blackout. The shaft generator was designed to provide some emergency propulsion, but this was faulty and could not be used., ~ room prostorija generatora: To gain access to the control room from the generator room, the crew had to negotiate two steps and a doorway with a raised cill before stepping down into the room .., ~ uptake odvod ispuha generatora (u brodskom dimnjaku): On both occasions, one of the generator uptakes inside the funnel caught fire., main ~ glavni generator: All emergency stops were operated, however the main generator continued to run., portable ~ prijenosni generator, prijenosni agregat: A “suitcase” type portable petrol-driven generator had been installed in the motor cruiser’s engine bay to supply the boat with 240v power., ~ engine motor generatora: Although the engineers reacted correctly and quickly stopped both generator engines, the lube oil priming pumps continued to operate, powered by the emergency power source., ~ power snaga generatora, jačina struje iz generatora: Generator power was lost not long afterwards, and with only their portable pump running, they abandoned, about 3 hours after discovering the flooding.; 2 (marine eng) fresh water ~

SEE evaporator uređaj za proizvodnju slatke vode, destilator: The fresh water generator (or evaporator) uses the heat from the main engines in the cooling water to produce fresh water from sea water. A fresh water generator (FWG) which is used to produce fresh water from sea water is also incorporated.; 3 (marine eng) generator plina, plinski generator: Gas generator, power turbine and all ancillary systems are mounted on a common bedplate to form a self-contained unit for ease of installation The gas generator of the GT35 is a two-shaft engine equipped with a 10-stage LP compressor, an eight-stage HP compressor, seven can-type combustion chambers, ...

Generator protection (n) (electr, marine eng) zaštita generatora

Generator set (n) (marine eng) generator: Each 59 000 kW outfit comprises a pair of GE LM2500 gas turbine-generator sets, rated at 25 000 kW apiece, and a 9000 kW non-condensing steam turbine-generator.

gennaker (=kite) (n) (boating/yachting) asimetrični špinaker čiji je ogлавni rogali uhvaćen za palubni okvor prednjeg leta; assymetrical, lightweight reaching jib; A large sail that is a cross between a
spinnaker and a genoa. Hoisted without a pole, the tack is attached at the bottom of the headstay. 

https://www.ypiyachts.com/ denaker, asimetrični spinaker

Genoa (=Genoa jib) (n) (boating/yachting) = Genoa sail a headsail (jib) whose clew overlaps the mast or shrouds genova, đenova; tal genoa
genoa car (n) (boating/yachting) klizač đenove
https://www.oceanchandlery.com/LEWM-0193.html
Genoa sail (n) (boating/yachting) genova
genset (n) (marine eng, electr, nav arch) = generator set generator, agregat: The running speed was determined by the frequencies in genset applications, focusing on 900 rev/min to 1000 rev/min for 60 Hz and 50 Hz requirements. Yanmar Diesel is a prolific Japanese producer of high-speed and smaller medium-speed engines for genset and propulsion drives. For lower power demands, MTU’s Series 396 engine is long established as a propulsion and genset drive, the 165 mm bore/185 mm stroke design delivering up to 2560 kW at 2100 rev/min from V90° configuration 8-, 12- and 16-cylinder models.
gentle breeze (n) (meteorol) vjetar jaćine tri bofora i brzine od 12 do 19 kilometara na sat slab
vjetar: The weather was good, with a gentle breeze and slight sea.
genuine link (n) (mar law) stvarna veza, bitna / istinska veza (između države i broda)
geographical position (=GP) (n) (navig) geografska pozicija: Geographical position of any future STS operations should be thoroughly appraised and discussed with all participating parties (commercial operators included).
Geographic Information System (=GIS) (n) (navig) geografski informacijski sustav, GIS
geography (n) (navig, ship handling) geografski oblik ~ of the basin oblik lučkog bazena (radi pristajanja / isplovljavanja), geografski ~ of the body of water geografski oblik akvatorija
geometrical dilution of precision (=GDOP) (n) (navig) geometrijsko raspršenje preciznosti (u sustavu GPS)
geometry of anchoring system (n) (navig) geometrija sustava sidrenja
germinate (v) (cargo) klijati, proklijati
get afloat (v) zaplutati
get back on course (v) (navig) vratiti se na kurs
get off (v) (seamanship) iskrcati se (s broda), iskrcati (teret) s broda: ... the good news is that all the crew got off safely.
get on board (v) 1 (seamanship) ukrcati se (na brod): He appeared to be in quite a hurry to get on board and started climbing up the pilot ladder as soon as it was confirmed to him by the 2nd Officer on deck that it was secured.; 2 (cargo handling) ukrcati (teret) na brod
get the line across (v) (seamanship) dobaciti uže, prebaciti konop
get the line ashore (v) (seamanship) dobaciti uže do obale, baciti uže na
get the line on board  

**obalu**

get the line on board (v) (seamanship) dobaciti uže na brod

**getting underway** (n) (ship handling, navig) isplavljanje: And, most importantly, that masters should not hesitate to get underway or to seek a more sheltered anchorage should the forecast or actual weather and sea conditions warrant it. The ferry finally got underway again 5 hours after the duty engineer first noticed the low pressure alarm. A Master/Pilot exchange, including the prevailing and probable weather conditions forecast for the transit was conducted in accordance with Company Passage Planning procedures prior to getting underway. ~ port/starboard side to the berth/quay/wharf/pier/dock, with / without a bow thruster isplavljanje broda vezanim lijevim/desnim bokom uz obalu, s ili bez pramčanog porivnika

get trapped (v) (marine eng) zaustavitiv se (o plinu, pari, zraku), biti zaustavljen, blokirati se, hvatati se

**get underway** (v) (ship handling, navig) isploviti, zaploviti (nakon manovre odvezivanja, dizanja sidra): Be ready to ~ Pripremite se za isplavljanje The decision was taken to get underway, and the starboard anchor was weighed. A container feeder vessel was lying to her starboard anchor, preparing to get underway to embark a pilot. The Master informed him that, after completion of cargo work, the vessel needed to carry out pre-departure check lists tests before getting underway.

**G Gh (≡horizontal component)** (n) (stabil) horizontalna komponenta: Free couples of mass forces and the torque variation about the centre lines of the engine and crankshaft (Wärtsilä): \( m_V \) is the first-order couple having a vertical component. \( m_h \) is the first-order couple having a horizontal component. \( m_V \) is the second-order couple having a horizontal component.

**GGv (≡vertical component)** (n) (stabil) vertikalna komponenta ~ of the shift of \( G \) vertikalna komponenta sistemskog težišta broda

**GH (≡transverse statical stability)** (n) (stabil) ships’ ability to return to upright position after being disturbed by a force that rotates it around longitudinal axis, poluga poprečne statičke stabilnosti

**GHG (≡greenhouse gas)** (n) (environ) staklenički plin ~ emission ispuštanje stakleničkih plinova: According to the IMO Conventions, ships are to be constructed with an immediate reduction in greenhouse gas (GHG) emissions of 15%, then 20% by 2020, and 30% by 2025. https://www.sciencedirect.com/science/article/pii/S2092521217300652 It is necessary to reduce ~s to a minimum, ~ mitigation ublažavanje ispuštanja stakleničkih plinova: The GHG mitigation increases costs of running a ship.

ghost fishing (n) (fishing) Ghost fishing is the term used to describe the capture or entanglement of organisms in lost or discarded fishing gear. štetni / nepoželjni ribolov napuštenim mrežama i drugim ribarskim alatima

giant goby (n) (fishing) glavić pločar

gig /ˈɡɪɡ/ (≡fishgig) (n) (fishing) SYNONYM trident osti (bez zubaca na oštricama) fishing ~ osti

**gig** /ˈɡɪɡ/ (n) (navy) a captain or commander’s personal boat. zapovjednikova brodica, zapovjednikov čamac

gillnet /ˈɡɪl nɛt/ (n) (fishing) Gillnets are large, rectangular mesh nets that are positioned either on the sea floor or float within the water column depending on the target species. mreža posebnog
Drift gillnets, commonly referred to as drift nets, are kept at higher depths with buoys. (http://safinacenter.org/2015/03/fishing-gear-101-gillnets-entanglers/)

**gills (n) (fishing)** škrge

**gilt-head bream** /gilt-head sea bream; sea bream/ (=gilt-head sea bream) (n) (fishing)

**podlanica, komarča, orada, lovrata, italıan: orata; cagnina**
gimlet /ˈgɪmlɪt/ (=wimble) (n) (boating/yachting, nav arch, sailing vessels) boring pin svrdlo, svidar, svrdal

gin-pole (n) (boating/yachting) a spar designed to facilitate raising and lowering the mast

potporni štap za podizanje i spuštanje jarbola

gipsy (=gipsey) (n) 1 (nav arch, seamanship) = gypsy = cable lifter = wildcat a drum of a windlass for heaving in cable or line; a drum of a windlass for heaving in anchor chain or mooring line podigač sidra (na sidrenom vitlu), tamburin; 2 (nav arch, seamanship, UK) a drum of a windlass for heaving in cable or line; bubanj priteznog vitla (na krajevima sidrenog vitla)

girder /ˈɡɜːdər/ (n) 1 (nav arch, marine eng) a form of longitudinal stiffeners in the ship’s structure; a structural member which provides support for more closely spaced members, such as beams, frames, stiffeners, etc., which are at right angles to it and which either rest upon it or are attached to its web; Longitudinal continuous member with a vertical web providing support of deck beams.

https://officerofthewatch.com/tools/maritime-dictionary/ nosač, greda, traversa: So while estimating the scantlings of a ship, the designer first calculates (using the rules specified by the authorised Classification Society) the height of the centre girder, which must always be housed within the double bottom. https://www.marineinsight.com/naval-architecture/design-of-ships-bottom-structure/ bridge ~ a structural member holding a portion of the deck nosač palube mosta, deck ~ nosač palube, greda palube, potpalubni nosač, box ~ kutijasti nosač, centre ~ hrptenica, bottom side ~ bočni nosač dna, transverse ~ poprečni nosač: Instead there are two pairs of tie bolts fitted either side of the single plate A frame and screwed into the bedplate transverse girder, hull ~ nosač trupa broda, nosač u trupu broda: Hull girder strength and buckling checks are carried out on all critical sections along the entire length of the hull, crane jib ~ nosač kraka dizalice: It was determined that if the other A/B had positioned himself on the crane jib girder by climbing on to it from the crane pedestal, he could have safely secured the casualty’s lifetime.
2. Longitudinal continuous vertical plating on the bottom of single- or double-bottomed vessels.

Big size steel plate (or sometimes beams) connected to bottom of the ship; Runs in fore and aft direction; strengthen the ship.

uzdužni limovi dna
GIS (Geographic Information System) (navig) geografski informacijski sustav, sustav GIS

give off (v) (cargo) 1 (marine eng) lučiti, izlučivati, osclobađati (paru, plin itd.): The test determines the temperature at which the fuel will give off sufficient vapours to ignite when a flame is applied. Flames give off ultraviolet and infra-red radiation and detectors are capable to respond to either. The fire consumed the oxygen in the space and gave off toxic fumes.; 2 ispuštati
give rise to (v) (mar law, marine eng, navig) dovesti do, prouzročiti, izazvati: The forecast did not give rise to concern. Prognoza nije izazivala zabrinutost. The electrically driven compensator will not give rise to distorting stresses in the hull, but it is more expensive than the engine-mounted compensators. The actions of other vessels gave rise to concern. The total stress level is high and varies with time, giving rise to the risk of fatigue. I believe watch officers ought to call the master before using the VHF for close quarters or collision avoidance as it can give rise to doubts and misunderstandings and can be a distraction.
give way (v) (navig) dati pravo puta, ukloniti se sputa drugom brodu, dati pravo prolaza drugom brodu: Failure of the tanker to give way caused me to reduce speed as action to avoid collision. Within a few minutes he realised his assessment was wrong so he altered course to starboard attempting to give way and pass clear. As the area was clear of shipping it was expected that the other vessel would give way at about 2nm range in accordance with rules 15 and 16.
give way to (v) (navig) dati pravo puta (drugom brodu), izbjeći drugi brod: Another vessel in the SW Lane had to alter course to give way to the NE bound vessel, still maintaining its course in the SW Lane. I believe that HSC do generally give way to other vessels.
give-way vessel ANTONYM stand-on vessel The vessel that must yield to another vessel according to the navigation rules. Also known as the burdened vessel. https://www.ypiyachts.com/
vessel, and recognised this fact from a relatively early stage. Since own vessel was now the give way vessel, appropriate action was taken by altering course to starboard. Concerned that the give way vessel was still standing on, the OOW started to try and attract the other vessel’s attention using the Aldis lamp.

giving-way ship = give-way vessel brod koji izbjegava, brod koji je dužan izbjegavati (drugi brod)

gland (n) 1 (marine eng) brtva, brtvilo, brtvenica, očnica: This oil is prevented from entering the crankcase by the piston-rod gland, and is drained into the dirty oil tank. A vent to atmosphere at the end of the labyrinth gives a guide to the efficiency of the turbine end gland. The two-part gland seals for the piston rod, and telescopic piston cooling pipes can be inspected while the engine is running and can be dismantled; 2 (nav arch) Šupernica: During this relatively short run, the owner decided to again check the stern gland.

gland steam (n) (marine eng) para koja izbije / pušta iz brtvenice: With the lubricating oil supply maintained, low vacuum, and gland steam on the turbines are to be turned on ahead steam for approximately 2 propeller revolutions every five minutes, using astern steam as appropriate.

glass (n) 1 (marine eng) kontrolno staklo: The first stage required the glass panel to be broken, and depressing the button activated the selected space visual and audio alarm, stopped the ventilation fans and ... They are of the ‘sight feed lubricator’ type, and each lubricating point has a glass. sight ~
kontrolno staklo (za razinu ulja, vode, ...): The sight glass shows the oil level in the oil sump., break ~ fire alarm staklo za uključivanje protupožarne uzbune: They then activated a ‘break glass’ fire alarm., gauge ~ cover poklopac mjernog stakla: Where required to be fitted, the gauge glass cover should always be in place when the glass is under pressure., oil gauge ~ kontrolno staklo mjerača tlaka: The bearing covers are each fitted with an oil filter, an oil drain opening and an oil gauge glass.; 2 (navig, meteorol) a term used by seafarers for a barometer tlakomjer, barometar; 3 topomjer

glass fibre (n) 1 (nav arch) stakloplastika: As the fishing vessel was swinging to port, the ice-strengthened bow of the cargo vessel collided with her starboard quarter, causing severe damage to her glass fibre hull.; 2 stakleno vlakno

glass wool (n) (nav arch) staklena vuna

glassy sea (n) (meteorol, oceanogr) zrcalasto more, more kao zrcalo: The wind was
Force 2, the sea glassy calm, visibility was excellent and the swell was negligible.

glaze (n) to break the ~ skidati glatkoću, ohrapaviti (nav arch, marine eng)
glazura, pocačljenje, caklina: When the piston rings are renewed the glaze on the liner bore should be broken by honing to provide the surface suitable for rapid running-in.

glint (n) (navig) pomicanje središta radarskog odraza duž cijelog cilja / objekta

Global Maritime Distress Safety System (n) (safety) The GMDSS is an internationally agreed-upon set of safety procedures, types of equipment, and communication protocols used to increase safety and make it easier to rescue distressed ships, boats and aircraft.

https://officерofthewatch.com/tools/maritime-dictionary/Svjetski pomorski sustav pomoći u pogibli i opasnosti: Some merchant vessels have sunk without a single DSC Distress Alert sent either by terrestrial or satellite links (sometimes even the EPIRB was not used) despite full GMDSS installations in duplicate on board and all Deck Officers (including the Master) in possession of valid GMDSS GOC qualifications. ~ requirements u skladu sa zahtjevima sustava GMDSS: -Use of radio equipment Practically all fishing vessels are now equipped in compliance with

GMDSS requirements. in compliance with the ~
global navigational satellite system (=GNSS) (n) (navig, comm) = GNSS
globalni navigacijski satelitski sustav

Global Positioning System (=GPS) (n) (navig) a space-based global navigation satellite system (GNSS) that provides reliable location and time information in all weather and at all times and anywhere on or near the Earth when and where there is an unobstructed line of sight to four or more GPS satellites. sustav globalnog pozicioniranja, Globalni sustav određivanja pozicije, sustav GPS, svjetski sustav (satelitskog) određivanja pozicije broda monitor ~ pratiti sustav plovidbe GPS, check ~ provjeriti sustav globalnog pozicioniranja, Differential Globa Positioning System; DGPS diferencijalni globalni sustav za određivanje pozicije broda, ~ system
globe (n) (geogr) Zemlja, Zemljina kugla, globus
globe valve (n) (marine eng) kugličasti ventil
GLONASS (=Global Navigation Satellite System) (n) (navig) a space-based satellite navigation system operated by the Russian Aerospace Defence Forces Globalni sustav satelitske navigacije
glossy sea (n) (meteorol) zrcalno more
glue /gluː/ (n) ljepilo, kola martine ~ morsko ljepilo
GM (metacentric height) = metacentric height; the distance between the points G and M; 

**metacentricsa visina:** This measurement is calculated by subtracting KG from KM (GM = KM – KG). GM is a measure of the ship’s initial stability. A ship whose metacenter lies above the center of gravity has a positive metacentric height and is stable; conversely, a ship with the metacenter below the center of gravity has negative metacentric height and is unstable.

**GMDSS** = Global Maritime Distress Safety System; GMDSS is a digital electronic communications system which sends distress and safety information. It applies to vessels over 300 Gross Registered Tons and all international passenger vessels. GMDSS divides the world into four types of communications coverage (sea areas A1 to A4), which determine the appropriate terrestrial or satellite means of communication to use.

(http://www.ccg-gcc.gc.ca/eng/CCG/SAR_Maritime_Sar#Rescue_Alerting); A global communications service based upon automated systems, both satellite-based and terrestrial, to provide distress alerting and promulgation of maritime safety information for mariners. (IAMSAR/Camsar2014)

**sustav pogibelji i sigurnosti, sustav GMDSS, GMDSS** = alarm alarm putem GMDSS-a, GMDSS alarm:

- Recently I was on watch and the GMDSS alarm went off, in the following hour and three minutes I logged 25 alarms consisting of two distresses, one over 3,000 nm away and the second 1,600, ~ alert poziv u pomoć putem GMDSS-a, uzbuna putem GMDSS-a:

Not only must the OOW perform his primary function of safe navigation, he must listen to the GMDSS alerts and attend to radio and telex correspondence either on watch or do this work in his rest period which means he is getting insufficient rest.

- ~ equipment uređaj GMDSS: The practical outcome of GMDSS equipment fitting is that most A3 ships are fitted with Inmarsat-C (to give them SafetyNET coverage, and Distress Alerting ship-to-shore. The installation of the GMDSS equipment plus telex, fax and telephone and other alarm sounds on the bridge are an additional headache to the officer on duty.

- ~ call poziv putem GMDSS-a: How to Reduce Unnecessary GMDSS Calls?, ~ course tečaj GMDSS-a, ~ DSC alert digitalni selektivni poziv u pomoć putem GMDSS-a:

- The GMDSS DSC alert system was not used because we were not in danger.

- Does anybody use their GMDSS DSC correctly to get the right response?, false ~ alert lažni alarm putem GMDSS-a:

- The problem of false GMDSS alerts has been with us for some time now and I feel that it has become a nuisance that we have learned to live with.

- ~ installation ugradba uređaja GMDSS, uređaj GMDSS: The GMDSS installation is located on the rear bulkhead of the bridge and the OOW is unable to maintain his navigation watch so long as he is attending the radi For increased safety the IMO is stressing on duplication of all essential gadgets including the GMDSS installation.

- ~ message poruka putem GMDSS-a, ~ radio signal radio signal putem GMDSS-a, ~ regulation propisi o ugradnji i uporabi sustava GMDSS:

Regarding the (written) Radio Log: under GMDSS regulations, vessels are required to log a summary of Distress (Mayday), Urgency (Pan Pan) and Safety (Securité) traffic (Page 24 of ‘The Guide’).

- ~ rules pravila o uporabi GMDSS-a: Maintaining a written log of ‘routine’ calls is not required under GMDSS rules (though company/ship’s rules may require such items to be logged).

- ~ response to GMDSS odgovor na pozivu pomoć / poruku putem GMDSS-a, ~ distress signal signal o pogibelji putem sustava GMDSS: The chemical tanker stood by the stricken yacht, which transmitted a GMDSS distress signal.

- ~ officer časnik zadužen za sustav GMDSS: GMDSS Officer should
continuously listen and watch the relaying distress signals (https://safety4sea.com/) GMDSS Officer to continue listening/watch/ relaying distress signal.

GMDSS equipment (n) (comm, safety, navig) uređaj GMDSS: The standard GMDSS training course, on its own, is not enough to fully equip most candidates to use effectively GMDSS equipment that is very often 'non user-friendly'. check the ~ provjeriti uređaj GMDSS

GMDSS radio room (n) (comm, navig) radio kabina s GMDSS-om

GMDSS ship (n) (comm, nav arch) brod opremljen s uređajem GMDSS: I have now completed six months on my first full GMDSS ship. Officers on full GMDSS equipped vessels may consider that VHF Channel 16 is redundant through lack of training, lack of experience or lack of responsibility.

GML (=Longitudinal Metacentric Height) (n) (stabil) the distance between the height of the center of gravity and the longitudinal metacenter measured in feet uzdužna metacentarska visina

GMT (=transverse metacentric height) (n) (stabil, nav arch) = KMT poprečna metacentarska visina

gnomonic /nəʊˈmɒnɪk/ (adj) (navig) gnomonski
gnomonic chart (n) (navig) gnomonska karta, karta gnomonske projekcije
gnomonic projection /nəʊˈmɒnɪk/ (n) (navig) gnomonska projekcija

![Gnomonic Projection Diagram](http://www.sailtrain.co.uk/navigation/projections.htm)

GNSS (=Global Navigational Safety System) (n) (navig, comm) = global navigational satellite system a constellation of satellites providing signals from space that transmit positioning and timing data to GNSS receivers. The receivers then use this data to determine location. (https://www.gsa.europa.eu/european-gnss/what-gnss) globalni navigacijski satelitski sustav: Activate GNSS MOB marker. By definition, GNSS provides global coverage. Examples of GNSS include Europe’s Galileo, the USA’s NAVSTAR Global Positioning System (GPS), Russia’s Global’naya Navigatsionnaya Sputnikovaya Sistema (GLONASS) and China’s BeiDou Navigation Satellite System. https://www.gsa.europa.eu/european-gnss/what-gnss

go about (v) (boating/yachting) Change tack to bring wind to the other side.

https://www.ypiyachts.com/ to tack a vessel, boat; to change the course of a ship by tacking; When a sailboat tacks into the wind to bring it from one side to the other, she is said to go about.

https://www.ypiyachts.com/ okrenuti jedrilicu (tako da se promijeni strana izložena vjetru), letati, Italian: virare di bordo

go adrift (n) (seamanship) break loose otkinuti se (od veza ili sa sidra): On 2:12 AM the ship completely stopped and went adrift.

go aground (v) nasukati se: A bulker vessel went aground on a rocky shore on the coast of Sardinia, Italy, leading to the Italian Coast Guard (Guardia Costiera) launching a rescue operation for those onboard. https://safety4sea.com

go alongside (n) (navig, seamanship) pristati: The person in control of the boat had to decide
quickly whether to let go the dinghy or to go alongside the jetty adjacent to the bridge. We put out the few small rope fenders that we had and went alongside. About 11/2 hours later, the vessel momentarily went alongside a berth to change pilots. We had all hands on stand-by for going alongside the approach wall and mooring there temporarily prior to entering the lock. While going alongside an outward bound ferry, the pilot boat approach was a little ahead of the ideal position.

**goatfish (n) (fishing) lat. Mullus spp. trilja, trilja**

**goby (=black goby) (n) (fishing) Lat. Gobius niger glavoč, crni glavoč, glavoč od fanga**

**goggles (n) (safety) zaštitne naočale:** Ensure proper PPE in good condition is used at all times including appropriate gloves, helmets, boiler suits, safety shoes, safety goggles, ear muffs etc. During the meeting, particular attention was paid to the use of personal protective equipment (full-vision goggles and respiratory particle filters) to protect against exposure to dust during loading. cutting ~ zaštitne naočale za rezanje i zavarivanje, put the ~ on

**staviti zaštitne naočale:** After estimating the quantity drawn and deciding to pour out more chemical, the engineer failed to put the goggles back on.; night vision ~ naočale za gledanje noću: Thes were supplied with the latest technology in search equipment such as the ability to home to all types of beacons, a Thermal Imaging (FLIR) camera. Night Vision goggles and powerful search lights.

**remove the ~ skinuti naočale:** On completion, he removed the goggles to view the quantity and seeing it was slightly less than the required amount, proceeded to pour a further 0.5 litre in.

**goldfish (n) (fishing) orada, komarča, podlanica, lovrata, ovrata**

**goldline (n) (fishing) salpa**

**gong (n) (navig) gong**

**good faith (n) (mar law) [Lat. bona fide; Fr.: bonne foi] [Sp.: buena fe] [It.: buona fede] [Cr.: guter Glaube]- A principle found throughout the civil law, to the effect that parties must negotiate and carry out a contract honestly and fairly.

[http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm](http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm) Udoboj vjeri, s dobrom namjerom: He purchased the RIB, and operated it in good faith, believing that it had been built to the European Recreational Craft Directive (RCD) standards. I have written this in good faith (confidence) as I have a continued watch-keeping arrangement on other vessels...

**goods (n) (shipping econ, cargo, mar law) SEE cargo** Goods means the whole or any part of the cargo and any packaging accepted from the Shipper and includes any Container not supplied by or on
behalf of the Carrier; the wares, merchandise, and articles of every kind whatsoever that a carrier undertakes to carry under a contract of carriage and includes the packing and any equipment and container not supplied by or on behalf of the carrier. (Rotterdam Rules 2009) roba, stvari (u prijevozu), teret dangerous ~ = dangerous cargo opasni teret: ... it is mandatory for every dry cargo vessel to carry copies of the relevant IMO publications – the IMDG Code for packaged dangerous goods and the IMSBC Code for dry bulk cargoes. They did not overtly document or declare the dangerous goods in the recommended fashion., dangerous ~ container opasni teret u kontejneru, kontejner s opasnim teretom: A special team discharged the four dangerous goods containers affected as a priority, thus eliminating the ensuing hazardous situation., hazardous ~ opasni teret, opasna roba: An expert found that the drums being used had been refurbished but, as they had not been re-certified for the movement of hazardous goods, their use was illegal., heavy goods teški teret, storage of ~ skladištenje tereta, stowage of ~ slaganje tereta
gooseneck (n) 1 (boating/yachting) universal joint that attaches the boom to the mast vratni okov, zglob
http://www.blumhorst.com/catalina27/gooseneck.htm; 2 (cargo handling) zglobni spoj kamiona i prikolice

gooseneck bearing (n) (cargo handling, nav arch) oslonac samarice goosewinged sails (n) (boating/yachting) jedra u leptiru, Italian: vele a farfalla goosewing /sailing before the wind with the jib held out to the opposite side of the mainsail/ (n) (boating/yachting) jedrenje u položaju leptira, leptir
go to sea (v) 1 postati pomorcem, zaposliti se kao pomorac, ploviti (u svojstvu pomorca): All I want to do in my future life was to go to sea. All of us who go to sea as a profession, have confidence in our boats, and do not want to think about the unthinkable. This is very worrying to the people who have to maintain and go to sea in the vessel. Experience can only be gained by going to sea, watching, listening and learning, and building up a ‘database’ from which we can draw when things start going wrong or ... He first went to sea in 1968 with .... Lines until obtaining masters in 1975.; 2 (navig) ploviti, isploviti: Under the SOLAS V regulations, passage planning is a legal requirement for all craft that ‘go to sea’. Going to sea alone, on any type of boat, presents its own hazards and challenges.
gouge /gauʒ/ (n) (boating/yachting, nav arch, sailing vessels) dlijeto za dubljenje

govern (v) 1 (mar law) uređivati, odrediti, propisati: Legislation governing the design
and use of watertight doors should be flexible enough to achieve appropriate procedures for the use of any watertight door in any mode. **Maritime law governs** many of the insurance claims relating to ships and cargo, civil matters between shipowners, seamen and passengers, and piracy.

**government agencies** (n) (shipping econ) **državna poduzeća, državna trgovačka društva**: Government agencies often operate important terminals, especially in countries other than the United States.

**government regulation** (n) (mar law) **državna regulativa, državni propisi**: The United States has an extensive system of **government regulation**, but, in contrast to what happens in other countries, most U.S. transportation services are privately owned and operated.

**governor** /ˈɡʌvənər/ (n) (marine eng) **regulator motora, automatski regulator**: The camshafts and **governor** are driven by the main gear train at the flywheel end of the engine, rotating at a speed half that of the crankshaft. An engine-driven fuel-pressurizing pump supplies fuel via a filter to the fuel supply main and is controlled conventionally using an **electronic governor** and electric actuator. The rack is connected to the **engine governor**. HYDRAULIC GOVERNOR **Woodward governor** is commonly used on board. A hydraulic amplifier amplifies the **governor**’s signal to the fuel pump. **control**

**upravljanje regulatora**: A new ‘programmable droop’ capability allows precise **governor control** for load-sharing applications. **droop variranje broja okretaja**, **hydraulic ~ a governor** that uses fluid to operate the fuel control **hidraulički regulator motora**

---

**GPS** (n) (navig) = Global Positioning System posebna i specifična satelitska mreža koja se koristi za veze sa mobilnom opremom u cilju određivanja precizne pozicije zračnog / brodskog. (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html) A specific satellite-based system used in conjunction with mobile equipment to determine the precise position of the mobile equipment. (IAMSAR) **sustav globalnog pozicioniranja, globalni sustav određivanja pozicije, sustav GPS**: All navigation changed with the advent of satellite-based navigation systems - notably the global positioning system (GPS). **GPS** is a system that was never intended to be a standalone navigation alternative developments in GPS and IoT have paved the way for sophisticated fleet management systems, which can be used to manage almost every aspect of a transport operations business. https://shippingandfreightresource.com **aerial antena sustava GPS, ~ alarm** alarm sustava GPS, **GPS alarm**: After the turn, the vessel slowly diverged from her planned track and, eventually, the **GPS alarm sounded** as she strayed outside of the 2 cable cross track error (XTE) margin. Everything appeared to be secure and the **GPS alarm** was set to 0.03 mile. **Initial GPS alarm was cancelled** when going into DR mode but no action taken, and the fact was not handed over
or investigated. ~ chart karta u sustavu GPS, GPS karta: The track of the yacht and the waypoints being used were stored in the GPS/chartplotter, and were analysed by the MAIB. ~ check provjera GPS-om: Only 2 fixes were made on this chart, about 30 minutes apart, each time using a single radar range and bearing from a headland, backed up with a GPS check. ~ cross-track error greška bočnog otpadanja od kursa u sustavu GPS: In practice, the actual method employed was to monitor the GPS cross track error, and to use a 0. ~ display pokazivač uređaj GPS: No speed indication was available on the bridge wings because the GPS display was only available in the wheelhouse; ~ position pozicija dobivena putem GPS-a: Nowadays we have very good radars which have GPS inputs and we can determine the exact GPS position of the other vessel and also its SOG and COG etc. The declared primary method of navigation was by using paper charts, and watchkeepers were required to plot a GPS position on the chart every 2 hours. ~ receiver prijamnik: The Master plotted the position displayed on the GPS receiver onto the paper chart and thus confirmed that the vessel was in very shallow water. ~ set uređaj GPS, GPS uređaj: The two independent GPS sets were not routinely compared. ~ signal signal sustava GPS: After much trial and error and experimenting, we determined that the GPS signals were not being received on those particular headings only when a voice telephone call via Inmarsat A was being conducted from ship to shore ... ~ track putanja broda u sustavu GPS: All I can think of is that we were on the GPS track and, after a change of watch, the OOW did not want to be deviated from his track and took the shortest way back to it, 5 mile range scale, and a track for the destination was selected from the GPS track plotter. ~ waypoint točka promjene kursa u sustavu GPS, međutočka u navigacijskom sustavu GPS, međutočka u GPS-u: The ship’s position was monitored by GPS waypoint navigation and the helmsman maintained a distance of 1.5 to 2 miles. The passage plan consisted of a series of GPS waypoints which terminated in the vicinity of the pilot station.

GPS buoy (n) (navig) plutača s GPS signalom: With connection of a GPS radio buoy locator, GPS buoy position can be monitored on the radar. One application of a GPS buoy is to tether it to a fishing net to monitor net position on the radar screen. ~ position pozicija GPS plutače na radaru

GPS data (n) (navig) podatci iz navigacijskog sustava GPS: the recovered GPS data confirmed that no alteration was made to the vessel’s course or speed during the passage towards the harbour.

GPS display (n) (navig) prikaz u navigacijskom sustavu GPS: The GPS display would also have shown the course and speed over the ground ...

GPS fix (n) (navig) pozicija dobivena putem GPS-a: At 1515 the OOW took a GPS fix but incorrectly plotted it one mile to the south of the vessel’s actual position.

GPS navigation (n) (navig) plovidba pomoču sustava GPS, GPS navigacija
GPS receiver (n) (navig, electr) prijamnik GPS-a, GPS prijamnik: it was only after information gleaned from the boats track plotter computer and GPS receiver that we found the position of the final leader. ~ block diagram blok shema GPS prijamnika preamplifier and down converter predpojačalo (širokopojasni modul) i konverter prema dolje, mixer mikser, data bit demodulation and core control demodulator i kontrolni modul, C/A code measurement mjerenje C/A koda

https://www.slideshare.net/sachinsinghshekhawat/introduction-to-navstar-gps

He was primarily using an electronic chart plotter with a GPS input, although he had two radars and a
magnetic compass at his disposal. ~ Navigator navigacijski uređaj GPS: The correct courses were plotted on the charts, and the correct waypoints were programmed into the GPS Navigators.

GPS satellite signals (n) (navig) signal GPS-a, GPS signal carrier L1 veza L1,

C/A Code C/A kod, P/A Code P/A kod

https://www.colorado.edu/geography/gcraft/notes/gps/gps.html
gps satellite signal structure (n) (navig) struktura GPS signala carrier veza, navigation message navigacijska poruka (u signalu GPS), GPS navigacijska poruka, fundamental frequency središnja frekvencija

gps signal structure.jpeg

GPS spoofing (n) (navig, safety) The attack tries to deceive a GPS receiver by broadcasting fake GPS signals, which resemble normal signals, or by broadcasting genuine signals captured elsewhere or at a different time. (https://safety4sea.com/) davanje lažnih podataka o poziciji na GPS-u, namjerno davanje krive pozicije putem GPS-a: There have been concerns over the risk of GPS spoofing for a number of year- tricking or deceiving computer systems or other computer users. This works by convincing a GPS device that it is in a different location GPS spoofing threatens the safe navigation of vessels.

GPS tracker (=GPS tracking device) (n) (logist) prijenosna GPS-tražilica tereta, prijenosni GPS uređaj za traženje tereta: We offer a wide range of tracking devices such as: plug & play, mini, waterproof and the smartest GNSS and GALILEO enabled GPS tracker in the UK. https://www.rewiresecurity.co.uk/gps-tracker-car-tracking-devices

GPS transmitter (n) (navig) predajnik GPS-a, GPS predajnik: For good reason, PLBs are marked to show where the GPS transmitter is located, with an instruction "do not obstruct".

grab (n) (cargo handling) grabilica: Soon afterwards, the two pockets of smouldering cargo were removed from the hold with a grab and placed on the wharf. hydraulic ~ hidraulička

grabilica: In executing this task, the upper end of pipe, which was lying alongside, was grasped by means of a hydraulic grab and raised on one side, cargo ~ grabilica (za sipki tereti), ~ hopper dredger jaružalo s lijevcima, bager s lijevcima

grab (ship handling) uhvatiti (uže, konop): Due to the large dimensions of this section of the jib girder, the A/B had to lean out from his precarious perch to grab the free end hook of the line.
grab crane (n) (cargo handling) dizalica s grabilicom

grab dredger (n) (cargo handling) jaružalo s grabilicom, bager s grabilicom

grab hold (v) (sailing vessels, ship handling) uhvatiti (uže, konop): The man overboard managed to grab hold of the trawl wire, which was quickly hauled up in an attempt to recover him.

grab rail (n) (boating/yachting) = handrail ručka na kabini (za držanje pri nagibu brodice), rukohvat na kabini (jedrilice)

grab rail (n) (nav arch, boating/yachting) žica ograde, zaštitna ograda: It is possible that when the deck cadet stationed in the bow held the grab rail fitted on the boat’s bow cover to steady himself, he inadvertently also pulled the wire lanyard that was lying under the grab rail and unknowing, however, as he reached for the grab rail his lifejacket automatically inflated and he was pushed away from the yacht.

grace period (n) (financ) poček (u otplati kredita za gradnju broda itd.), moratorij (u otplati kredita za gradnju broda itd.)

grade (n) 1 (marine eng) vrsta kvaliteta goriva (nafte): All grades of fuel are available by pipe-line or barge at anchorage ~ of bunker vrsta goriva, kvalitet goriva, ~ of oil vrsta ulja, ~ of fuel oil vrsta kvaliteta goriva: Many genset enginebuilders can now offer designs capable of burning the same heavy fuel grade as the main engine as well as marine diesel oil or blended fuel (heavy fuel and distillate fuel mixed in various proportions, ...) Daily Entry for all the lube oil ROB ( Rest or Remaining onboard) ; Daily entry for all grade of Fuel Oil Remaining onboard ; 2 vrsta tereta (uglja itd.): Recommended safe handling procedures for loading and transport of intended grade of coal, entry is not allowed into cargo tanks if CO content concentration has not been checked and shown as 0ppm irrespective of whether present or previous grade of cargo carried is a Hydrocarbon or not. 23 Oil cargo spill from tank washing line drain cock During a ballast voyage, a product tanker completed tank cleaning operations for change of cargo grade.; 3 stupanj, kakvoća; 4 razred; 5 stupanj; 6 ocjena

grades of cargo (n) (shipping econ) fine podvrste tereta, različite kakvoće istog tereta: A loading/discharge programme should be planned in order to minimise the stress on the vessel and the risk of cross-contamination of different grades of cargo

gradient /greidient/ (n) (marine eng, navig) gradijent: ... gradient A exceeds the turbine pressure gradient G by the amount of the scavenge gradient.

grain /grein/ (n) (cargo) žito, žitarice: The vessel is fully loaded with grain in its cargo holds. A cargo of grain became contaminated with salt water in the final stages of discharge. Experience has shown that grain, soya bean meal and many other kinds of agricultural produce are prone to damage if they come in contact with heated surfaces.
grain & bale capacity (n) (nav arch) prostor za žitarice i prostor za bale

grain capacity (n) (nav arch, stabil) Total cubic capacity of a ship’s holds available for the carriage of grain or any other free-flowing bulk cargo which is capable of filling the space between the ship’s frames. It is expressed in cubic feet or cubic meters. http://www.tkmglobal.net/chartering_G.HTM
kapacitet za žito, kapacitet broda u kumičnim metrima za prijevoz žitarica: What is the grain capacity of the vessel? The grain capacity of the vessel is ... cubic metres.

grain carrier (n) 1 (nav arch) sipki tereti - nekohezijski tereti čiji je nasipni kut do 30 stupnjeva (HRB) brod za sipki teret; 2 brod za prijevoz žitarica
grain elevator (n) (cargo handling, US) port facility at which bulk grain is unloaded, stored, weighed, cleaned, blended, and exported. prekrcajni uređaj za žito: The handling capacity of the grain elevator is .... cubic metres per hour / tonnes/hour.
grain silo (n) (ports, UK) silos
granny knot (n) (boating/yachting) on incorrectly tied knot nepravilni čvor
grant (v) take for ~ed uzeti zdravo za gotovo: Where ropes are in the water near propellers something can always go wrong - take nothing for granted. 1 dodijeliti, odobriti ~ scholarship odobriti školarnu / stipendiju, ~ Free Pratique (mar law) dodijeliti slobodan promet, odobriti slobodan promet, ~ permission izdati dozvolu, dopustiti, dati dopuštenje: Permission was granted and the fins were extended, after which the OOW returned to his calculations.; 2 (figurative) priznati

granule (n) (cargo) zrno, granula
graph (n) grafikon, grafički prikaz
graphic display (n) 1 grafički prikaz: The relevant data is processed by the system, which provides the operator with a graphic display of current status and trends.; 2 mimički dijagram
grapnel (n) (seamanship) A small anchor with several arms used for dragging purposes sidro mačak, sklopljivo sidro, kišobran sidro, sidarce, Italian: grappino

grappling anchor (n) (navig) povlačno sidro
grass (n) (oceanogr) SEE sea weed morska trava
graticule /ˈɡrætɪˌkjuːl/ (n) (navig) rešetka, mreža (u hiperboličkoj navigaciji)
grating  (n) (marine eng, nav arch) rešetka, gradelaj: Protective grating before turbocharger may be fouled. The larger of the two openings was fitted with a removable grating to allow for another specialist tool to be stowed. ~s rešetka

gravel  (n) (geogr) šljunak, valutice

graveyard watch  (n) (seamanship) the middle watch on a ship, from midnight to 4 a.m.

ponoćna straža, straža od ponoći do 4 sata u jutro: The graveyard watch was always bad but extended for an extra two hours.

graving drydock  (n) (navy) dry docks in navy yards; they are practically permanent and supply a more rigid foundation for supporting a ship. (https://www.history.navy.mil/) suhi dok za ratne brodove

gravity  (n) sila teže, gravitacija: The return from these flows by gravity to the supply tank.

under ~ (seamanship) pod vlastitom težinom: The vessel's anchor was run out under gravity to 6 shackles, checked and finally adjusted to 9 shackles on deck. The windlass was taken out of gear so that the anchors could be let go under gravity. , specific ~ specifična težina: When test data are not available, the specific gravity of a fuel will provide an approximate guide to its calorific value: specific gravity at 15°C 0.85

gravity davit  (n) (nav arch) gravitacijska soha: Shortly after reaching the deck he heard a noise; he then saw the lifeboat sliding down the cradle of the roller gravity davits. With the davit winch brake disengaged, the corroded lashing line failed to hold the weight of the port gravity davits and the suspended lifeboat, allowing the assembly to slid down the davit cradle, knocking the bosun overboard.

gravity tank  (n) (cargo handling, nav arch) gravitacijski tank, samoprazneči tank

gray iron /grei/ (n) (marine eng, US) = grey iron sivi lijev, giza: Cylinder block: A one-piece casting of heavily ribbed, weldable grey iron alloy.

grease  (v) (marine eng) mast za podmazivanje

greaser /'griːzər/ (n) 1 (marine eng) mazač; 2 uljna mazalica, pantigana, pantagana

great circle = orthodromic curve ortodroma, Italian: curva ortodromica

great circle sailing plovidba po ortodromi
great coastal navigation (n) (shipping econ, mar law) velika obalna plovidba
great coastal service area (n) (mar law) velika obalna plovidba
greater amberjack (n) (fishing) lat. Seriola dumerili gof, orhan, gofa, felun, žutej,

greater weever (=pointed comber) (n) (fishing) Lat. trachinus draco pirka, vuk

greenhouse gas emission (n) (environ, marine eng) ispuštanje stakleničkih plinova:
In April 2018, more than 100 Member States met at the United Nations IMO in London and adopted an initial strategy on the reduction of greenhouse gas emissions from ships by at least 50% by 2050 compared to 2008 levels. <info=shippingandfreightresource.com

green ship (n) (nav arch, environ) an eco-friendly vessel; a ship that has reduced GHG emissions through the development of technologies related to fuel savings and alternative fuels (https://www.sciencedirect.com/science/article/pii/S2092521217300652) ekološki čisti brod,

ekološki prihvatljiv brod: Leclanché, Kongsberg Join Forces for Green Ships Push. Nordic marine technology company Kongsberg Maritime has selected Swiss battery maker Leclanché, one of the world's leading storage solutions companies, as its battery partner and supplier of customised marine energy storage solutions https://www.marineelectronics.com/news/leclanch-kongsberg-join-258017 A few benchmark technologies have already been developed to reach the ultimate goal of building a “Green ship” which would not only comply with the new environmental rules and regulations but would also leave least possible carbon foot-prints.

green shipping (=eco-friendly shipping) (n) (environ, nav arch, marine eng)
ekološki prihvatljivo brodarstvo, ekološki prihvatljiv morski transport
green water (≡green sea) (n) (geogr, mar law, shipping econ) COMPARE blue water COMPARE brown water The green water environment extends from the outer edge of the brown-water layer past any continental shelves, archipelagos and islands; perhaps a few hundred miles from shore (https://en.wikipedia.org/wiki/Maritime_geography) morski gospodarski pojas (neke države): Green water is the most important maritime arena, including most coastal traffic and territorial waters, in which are found the great majority of a nation’s maritime police, customs, environmental, and economic concerns. (https://en.wikipedia.org/wiki/Maritime_geography) Shipbuilding is firing on all cylinders, driven primarily by the construction of new Brown water and Green water vessels, with a few Blue water vessels as well. MaritimeReporter-2015-06(1)
green water (n) (oceanogr, boating/yachting) A solid mass of water coming aboard instead of just spray. more koje se prelijeva preko palube: While not making way, the vessel rolled heavily in starboard beam-on seas and green water was taken over the main deck and hatch covers. MARS reports_1992-2016 Wind speeds of more than 60 knots, and sea/swell conditions in excess of 10 metres, caused the vessel to roll heavily and take on large quantities of green water; MARS reports_1992-2016
green water navy (n) (navy, US) a naval force that is designed to operate in its nation’s littoral zones and has the competency to operate in the open oceans of its surrounding region (https://en.wikipedia.org/wiki/Green-water_navy) obrambena ratna mornarica (za obranu priobalja i otvorenoga more neke države)
Greenwich Hour Angle (≡GHA) satni kut po Greenwichu
Greenwich Mean Time (≡GMT) (n) (navig) SEE Universal Time
Co-ordinated srednje vrijeme po Greenwichu
green wrasse //æs/ (≡green wrass) (n) (fishing) drozak, drozd, lenica, bimba,

čvrljak
grey ice (n) (oceanogr) led na vodi debljine deset do petnaest centimetara sivi led
grey iron (n) (marine eng, UK) = gray iron sivi lijev, lijevano željezo
grey mullet (≡golden grey mullet) (n) (fishing) za nazive riba vidi:
http://www.srd-luben.hr/luben_ribe.htm; Lat. Mugil cephalus; Lat Liza aurata cipal, cipla, zlatac, glavatac, vrecinaš, zlatulj thin lip ~ cipal balavac, flathead ~ drugi hrv. nazivi: babaš, glavaš, javra, mulj, skakavac, žuc; lat. MUGIL CEPHALUS, leaping ~, sharpnose ~ cipal mržnjak, golden ~ cipal zlatac
greywater  (n)  (environ)  COMPARE blackwater  otpadne vode (iz brodske kuhinje itd.): An inspection revealed that the damage was confined to the bow thruster compartment and in way of the grey water tank. As with many other such vessels, it is common practice to proceed sufficiently far from shore to discharge food waste and grey water. Greywater contains mostly remainings from showers, washbasins, laundries, and conditioner condensates, while blackwater is mostly sewage from toilets and generally includes the most harmful bacteria. (https://safety4sea.com) Sometimes, greywater is added to the blackwater in the treatment, but chemical shampoos and other such items of personal care could kill the useful bacteria of the treatment plant. https://safety4sea.com

grid  (n) 1  (marine eng)  mreža, rešetka, rashladne cijevi hladnjaka: A grid is fitted at the inlet to prevent broken piston rings from damaging the turbocharger. There is a protection grid between the exhaust gas receiver and each turbocharger. ; 2  (boating/yachting, navig)  mreža na pomorskoj karti, mreža geografske širine i dužine na karti

grid line  (n)  (boating/yachting) any of a series of numbered horizontal and perpendicular lines that divide a map into squares to form a grid by means of which any point may be located by a system of rectangular coordinates (Merriam-Webster) linija geografske širine ili dužine, linija mreže na pomorskoj karti: Is there a plotted grid line (a line of latitude or longitude) on the course in front of you, you can do your planning from where that grid line intersects your course line.
grind (pret. ground, pp. ground) (v) the process used to smoothly cut the metal and to remove edges from the metal

grinding (n) (marine eng) brušenje ~ disc (marine eng) brusni disk, brusna ploča:
The definition of hot work (previously only gas-cutting and welding) is expanded to include burning, brazing, grinding, soldering, thermal resistance heating, etc; 4. Suddenly, the grinding disk rotating at high speed jammed between two adjacent studs. During the operation, the grinding disk shattered,
resulting in multiple injuries to the fitter's hand.

**grinding-in** (n) ~ equipment [oprema za brušenje](marine eng) brušenje: These valves seats become damaged during the operation and from time to time they have to be reconditioned by grinding-in the valves.

**grinding machine** (n) [brusilica](marine eng): The reconditioning of the valves can be effected with the help of grinding machines. [sparkless ~ bušilica bez iskrenja]

**grip** (v) stisnuti, čvrsto držati, uhvatiti rukom: Do not grip machine handles more tightly than necessary as intensive gripping increases blood pressure; Never begin an exercise without first checking that all b At first he was unable to pull himself on board as the freeboard was too large and he had nothing to grip onto.

**grip** (n) [hvataj, zahvat rukom]: Work place and tools were not wiped clean of the oil resulting in poor hand grip; He was standing next to the open hatch when he lost his grip on the bin and fell down the open hatch. The force of the wave washed them overboard and caused the safety crew to release their grip on the lifelines.

**grip** (n) [hvatanje (kormila)]: When the rudder loses its grip, the rudder angle must be quickly reduced until the flow reattaches. A considerable loss in steering power result during the upset.

**gripe** (n) 1 [nav arch, sailing vessels] = forefoot obluk pramčane statve, peta pramčane statve; 2 [nav arch, safety] The purpose of the gripes is to secure the lifeboat against the davits when in the stowed position. [potpas (sohe)]: Disengage lashings, gripes, etc. installed to secure the lifeboat for sea or for maintenance, except those required for simulated free-fall; The gripes were slipped and the winch brake was released to begin the launch. The order was then given to release the lifeboat gripes, which, although done simultaneously, allowed the aft gripe to clear first.

**grit** (n) [marine eng] straps which attach to the ends of the boat and are secured to the davits krupni pijesak, krupnozrnatni pijesak, zrnce, kamenčić: Carry out routine marine grit cleaning on the turbine side. Filters are fitted in the lubricating and fuel oil systems to remove grit and foreign matter. ~ blasting pjeskarenje krupnim pijeskom: At the end of the day on a vessel at sea, two crewmembers were engaged in securing the grit blasting equipment on deck for the night.

**grog** (n) [seamanship] watered-down pusser's rum consisting of half a gill with equal part of water, issued to all seamen over twenty; vrsta mornarskog pića, razrijeđeni rum grog

**groove** (n) [helical ~ kosi žljeb, kosi izrez (prorez)]: A helical groove (or helix) extends from the top of the plunger part way down its cylindrical surface., relief ~ kontrolni kanal, odušni kanal: There is a relief groove between the two rings to allow, in the event of leaks, water or
oil to pass outside. top ring ~ utor gornjeg prstena, ring ~ utor prstena, žljeb prstena: Piston undercrown deposits reduce the life of the crown; ring groove deposits shorten the life of liners and piston rings and reduce reliability; and an increase in the viscosity of the oil shortens its life. piston ring ~: The flange cooling provided for heavy fuel-burning versions reduces the top piston ring groove temperature. In order to extend the interval before reconditioning of the piston ring grooves is required, the chromium layer has been introduced. utor klipnog prstena, annular ~ okrugli utor, okrugli žljeb: The plunger has a helix machined into it which also forms a vertical groove and an annular groove at the base of the helix. 1 (marine eng) utor: The bush is provided with an inner circumferential groove and a pocket or distributing oil in the bush itself and for supplying oil to the pin bosses. The first groove collects the leaking fuel. Where there are two grooves, the second will spread lubrication.; 2 žljeb, kanal, kanalić
grooved carpet shell (n) (fishing) Lat. Ruditapes decussatusa; clam or bivalve mollusc in the family Veneridae kućica
gross error (n) (navig, seamanship) velika greška, velika grješka: Failure to recognise the over-reliance on a single system and its equipment resulted in a gross error;
gross negligence (n) (mar law) grub nemar, gruba nemarnost: Lack of maintenance or unsafe rigging of gangways will be construed as gross negligence on the part of the responsible officers on board.
gross/net register tonnage bruto / neto registraska tonaja
gross terms (n) (mar law) type of voyage charter in which the shipowner pays for loading and discharging bruto uvjeti prijevoza (prijevoznik plaća troškove ukrcaja i iskrcaja)
gross ton /ˈɡrəʊst tɔn/ (=gross tonne; (formerly) GRT) (n) (nav arch) a unit of measurement for the total enclosed space within a ship equal to 100 cubic feet or 2.831 cubic meters bruto tona: on 17th September a tanker of 7,973 gross tonnes with a cargo of 11,000 metric tonnes of gas oil sailed from the port ...
gross tonnage (=GT) (n) (nav arch) mjera ukupnoga zatvorenog brodskog prostora; a function of the moulded volume of all enclosed spaces of the ship; the entire internal cubic capacity of a vessel expressed in tons taken at 100 cubic feet each; A measurement of volume including most of the confined spaces on board a vessel. The figure is often used as a basis for calculating port charges.
(www.euronav.com) bruto tonaža
ground (v) (navig) ANTONYM reflot nasukati se, Italian: incagliarsi: the vessel ~ed on the coast of Northern Ireland the ship took a sheer to port which the tugs were unable to control and at 0930 grounded forward in soft mud The 2016-built, 16,856 teu boxship grounded just after midnight yesterday as it made its way to Southampton on the UK’s south coast. The Main Engine could not develop full power for more than 3 days until the vessel grounded in a violent storm. Fortunately, the vessel had grounded very shortly after low water, and, as the tide rose, she refloted without tug assistance after
about 3 hours. At 04:13 the vessel grounded on the seabed with the engine at full speed. Vessel grounds in fair weather, no significant damage and refloats on next tide. No injuries, no (or very minor) pollution, no impact on port operations. take the ~ nasukati se(namjerno): The car carrier was intentionally grounded on the Bramble Bank after developing a severe list. The ship was intentionally grounded and broken up off the east coast.

ground (n) 1 (navig) seabed or shore dno, morsko dno, Italian: fondale ~ scope the length of cable / chain under water between two anchors used as moorings dužina lanca u moru (za brod usidren s dva sidra), holding ~ dno dobro za sidrenje, dno koje drži dobro: Five shackles of cable were deployed on a holding ground of sand., poor holding ~ dno koje ne drži dobro: Furthermore, the anchorage has poor holding ground and ships have tended to drag anchors under these conditions., good holding ~ dno koje drži dobro: The anchoring equipment is designed to hold a ship in good holding ground in conditions such as to avoid dragging of the anchor., boarding ~ mjesto ukrcavanja peljara: Own vessel was a multipurpose cargo vessel of 11900 grt. 2226 Stop engines 2233.5 Half Ahead 2235 Pilot away at southern boarding ground 2236 Full Ahead 2240 Half Ahead, course 125 deg, crossing the west bound lane at almostright angles to the separation scheme. I was eastbound, about 4 miles SW of the Southern Boarding Ground at 0300 when I noticed that the radar plot indicated a large stationary target right in the middle of the eastbound lane., ~ track putanja broda preko dna: The ship’s ground track from leaving her berth until 1630 is show at Figure 2., speed over ground (SOG) brzina preko dna: The other shio only managed 6.5 kts speed over ground and 9 kts speed through water, despite proceeding at full speed ahead., make a speed over ~ ploviti brzinom od … milja preko dna: The inbound vessel was running with the tide at about 7 knots over the ground, while the outbound vessel was making 5 knots over the ground against the 4 knot tide. The inbound vessel was running with the tide at about 7 knots over the ground, while the outbound vessel was making 5 knots over the ground against the 4 knot tide., make a course over ~ ploviti u … kursu preko dna: The vessel was making approximately 10 knots and a course over ground of approximately 027°., rocky ~ stjenovito dno: The ship is hard on a rocky ground.; 2 (electr) uzemljenje, zemlja, masa ~ connection uzemljenje, spoj na zemlju grounded vessel (n) (navig, safety) nasukani brod: U.S. Coast Guard has established a 500 yard safety zone around the grounded vessel in the vicinity of buoy number 3. Later, the passengers were evacuated from the grounded vessel to her sister vessel and were returned safely to the harbour. grounding (n) (navig) running ashore; to hit the seabed, a rock etc. nasukanje, nasukavanje, Italian: incaggio: The Transportation Safety Board of Canada (TSB) says it has deployed a team of investigators to determine the circumstances of the grounding. Following the Monday’s grounding, the vessel was refloated and anchored in the vicinity. At this point, the OOW did not yet realise that the vessel was aground. Three minutes after grounding an engineering alarm sounded and the OOW placed both azipod control levers to zero. He then informed the Master of the alarm and also rang the engine soft ~ meko nasukavanje, powered ~ nasukanje pri radu porivnoga sustava, drift ~ nasukanje zanošenjem, hard ~ tvrdo nasukanje, suffer ~ nasukati se, pretrpjeti nasukanje: Giant boxship suffered grounding off Southampton., ~ position pozicija nasukanja, ~ checklist popis provjera kod nasukanja: The 2/O started to go through the grounding checklist., unintentional ~ ANTONYM beaching accidental impact of the ship on seabed or waterway side nenamjerno nasukanje
grounding  (n) (electr) uzemljenje electrical ~ električno uzemljenje
ground lock  (n) (navig) dodatna stabilizacija radarske slike
ground search and rescue incident  (n) (safety) Any search and rescue incident not otherwise classified as an aeronautical or maritime incident, and involving missing persons or persons in distress. (IAMSAR) opća nezgoda (u sustavu potrage i spašavanja)
ground speed  (n) (safety) The speed a craft is making relative to the earth’s surface. (IAMSAR)
brzina preko zemljine površine
ground stabilization  (n) (navig) Stabilizacija radarske slike preko dna
ground-stabilized display  (n) (navig) stabilizirana radarska slika preko dna
ground strabilized picture  (n) (navig) radarska slika stabilizirana u odnosu na morsko dno, stabilizirana radarska slika preko dna
ground tackle  (n) COMPARE anchor gear 1 (nav arch, seamanship, ship handling)
the anchor, chain and rode (anchor rope) ~ A term used to cover all of the anchor gear. ; a general term for all anchors, cables, ropes, etc., used in the operation of mooring and unmooring a ship ; A term used to cover all of the anchor gear. https://officerofthewatch.com/tools/maritime-dictionary/ sidreni uređaj, uredaj za sidrenje: It is prudent practice when in drydock to carefully examine all ground tackle for defects. As the crew tried to heave anchor once again they noticed that their anchor appeared to be fouled with the ground tackle of the second tanker. ; 2 (boating/yachting) = anchor chain all the parts of an anchor package between the boat and the anchor. If you use only line the ground tackle may be referred to as simply the anchor rode or line. (http://myboatsgear.com/2016/12/28/anchor-ground-tackle/) sidrenjak (sidreni lanac ili konop) all chain ~ lančani sidrenjak, all rode ~ sidrenjak od konopa, chain rode combinations sidrenjak u kombinaciji lanca i konopa
ground terminal  (n) (electr) stezaljka uzemljenja, priključak uzemljenja
ground track  (n) (navig) kurs preko dna: The ferry was steering 098°(T) and her GPS ground track was correctly displayed on the radar screen.
group  (v) (cargo) grupirati (teret), sabirati (teret)
groupage (=consolidation)  (n) (cargo, shipping econ) = consolidation The grouping together of several compatible consignments into a full container load.
http://www.tkmglobal.net/chartering_C.HTM; Groupage is the same as LCL. That means that multiple LCL shipments with different Bills of Lading and different owners can be loaded in a single container. Any space used in the container is subject to a charge. https://www.logisticsglossary.com/term/groupage/ grupiranje tereta ~ Depot skladište za grupiranje tereta, ~ shed zbirno / konsolidacijsko skladište, skladište za pražnjenje i punjenje kontejnera, ~ Consolidator = consolidator operator konsolidacijskog skladišta, operator kontejnerskog zbirnog skladišta

**Groupage Bill of Lading**  (n) (mar law) COMPARE house bill of lading teretnica koja se izdaje krcatelju radi uštede troškova, a vrijedi za ukrcanu robu različitih vlasnika tereta i treba je isporučiti većemu broju primatelja; Bill of Lading, issued by a carrier to a forwarding agent, sometimes known as a groupage agent or consolidator, which covers consignments from various shippers for the same destination which have been consolidated into one consignment by the forwarding agent.
Each shipper receives a house Bill of Lading from the forwarding agent covering his consignment.

http://www.tkmglobal.net/chartering_G.HTM

zbirna teretnica (za kontejnere u sustavu LCL), skupna teretnica, grupna teretnica ~ depot / shed zbirno skladište (za kontejneriziranu robu), konsolidacijsko skladište (za kontejneriziranu robu)

grouper /ˈɡruːpə/ (=dusky grouper; merou) (n) (fishing) Lat. Epinephelus marginatus

kirnja, kjerna, finka, galinjača dusky ~ kirnja, giant ~ kirnja

---

group long flashing light (n) (navig) svjetlo na bljeskove u grupama
group quick flashing light (n) (navig) svjetlo na brze bljeskove u grupama
grow (v) (seamanship) rasti (o sidrenom lancu, dok se napinje): How is the cable growing? The cable is slack / tight / coming tight. The cable is ~ing ahead / astern. The cable is growing to port / to starboard / round the bow / up and down.

GRP (=glass reinforced plastic) (n) (nav arch, boating/yachting) stakloplastika:
She was built of GRP and had a wheelhouse forward, with the hauler and additional engine and steering controls on the starboard side.

GRP deck (n) (boating/yachting) GRP = glass-reinforced plastics paluba od stakloplastike: The canvas and plywood coverings, GRP deck, and hull and outboard motor petrol tank contents would all have provided the fuel for this intense and fatal fire.

GRP hull (n) (boating/yachting, nav arch) trup od stakloplastike: To avoid areas of severe galvanic corrosion, redundant hull fittings on GRP hulls should, ideally, be removed and appropriate repairs made to the GRP. OOW of a cargo vessel was expected to see a (small) yacht, in a swell, wind waves or rain, radar clutter and spray, night-time and dull white sails, GRP hull and alloy mast.

GRP lifeboat (n) (nav arch) plastična brodica za spašavanje, brodica za spašavanje od stakloplastike: The vessel was equipped with two open, 40- person GRP
lifeboats, which were suspended from independent forward and aft hooks.

**GRP vessel** (n) (nav arch) plovilo od stakloplastike: At about the same time, a GRP fishing vessel left the port with the intention of laying her pots in her usual fishing grounds.

**GT (=gross ton)** (n) (nav arch) bruto tona: There have been many accidents involving merchant vessels of over 500 gross tons dragging their anchors and subsequently grounding. A 1600 GT vessel built in 2006 was fitted with a MARIOFF high pressure water mist fire suppression system throughout the vessel.

**GTS (=gas turbine ship)** (n) (nav arch) plinski turbinaš, brod s pogonom na plinske turbine

**guarantee** (n) (mar law) jamstvo, garancija: A guarantee had to be placed to allow the ship to sail. ... there was also no evidence on board of the managers having submitted a guarantee claim against the shipbuilder for this defect. lette of ~ jamstveni list, garantno pismo

**guard** (n) (safety) čuvati, stražariti: Guarding your ship shall always be in accordance with the ISPS code.

**guard** (n) (nav arch, safety) zaštita: Although the fan was a small piece of equipment, the missing front guard should have been replaced. It is suggested that the requirement for a propeller guard will depend on the exact role and particular operational conditions that a safety boat is likely to encounter.

**guard rail** (n) (nav arch, safety) zaštitna ograda: The bosun climbed up onto the starboard platform using the deck guardrails and then waited for the deckhand to appear on the opposite platform. During operations, an O/S climbed onto the 2.2 metre hatch coaming and used the guard rail for foot support.

**guard ship** (n) (safety) brod obalne straže, stražarski brod: The guard ship in the area was able to identify the supply vessel and put me in contact with him on VHF ... Our practice is to station one Guard Ship ahead and the other one at the end of the cables and share radar and visual watch on all sectors of the surrounding area, ...

**guard zone** (n) (navig) The guard zone defines an area which, when targets enter or leave as per user settings, an audible alarm is triggered to alert the user to the change. zona alarma (na radaru): Most modern radars have a facility to incorporate a guard zone on the display which sounds an alarm whenever a contact enters a predetermined section of the display. The guard zone is set up using the EBL and VRM. Guard zones can be set up for many reasons, but a common one would be to give early warning of the approach of another vessel. I observed an echo on my radar screen that was passing...
through the preset **Guard Zone** of 1.5 nautical miles.

gudgeon /ˈɡʌdʒən/ (n) 1 (nav arch) a **samica** lower ~ **donja samica**; 2 (nav arch) eyes set in the stern or the rudder post to receive the pintles of the rudder štenac kormila očnica kormila

gudgeon pin /ˈɡʌdʒənˌpin/ (n) (marine eng) osovinica klipa, **bolcen**: The piston is joined to the connecting rod by a **gudgeon pin**. A **gudgeon pin** is said to be “fully floating” when it is secured in the piston and the bearing is held in the rod end. The oil is then led up the connecting rod to the piston or **gudgeon pin** and from there to the piston cooling before returning to the crankcase

https://en.wikipedia.org/wiki/Gudgeon_pin

guest briefing (n) (safety) **uvodno informiranje o plovidbi (na brodovima za kružna putovanja)**
guide (n) 1 (marine eng) **vodilica**: The link connecting the **roller guide** and the roller is self-locking
in the ahead and astern positions. The chain drive is provided with a chain tightener, and guide bars support the long chain strands. Valves: both inlet and exhaust valves have a tight guide bush and the exhaust valves feature a turning device. To ensure that the crosshead reciprocates in alignment with the piston in the cylinder, guide shoes are attached either side of the crosshead pin. To ensure that the crosshead reciprocates in alignment with the piston in the cylinder, guide shoes are attached either side of the crosshead pin. To ensure that the crosshead reciprocates in alignment with the piston in the cylinder, guide shoes are attached either side of the crosshead pin.

guided-missile destroyer (n) (navy) razarač s navođenim raketama

guilty (adj) (mar law) kriv plead ~ izjasniti se krivim, priznati krivicu: The owner and operator of a d fishing vessel have been fined $1 million after pleading guilty to discharging oily bilge water from the vessels’ engine rooms.

https://gCaptain.com

gulf (n) (geogr) COMPARE bay: a portion of the ocean that penetrates land. Gulfs vary greatly in size, shape, and depth. They are generally larger and more deeply indented than bays.

Gulf Stream (n) (geogr) Golfska struja: Large deep-draught vessels are requested to stay at least 1 nautical mile eastward of the Light Buoy for pilot boarding because of the strength and proximity of the Gulf Stream current.

gun boat (n) (navy) topovnjača

gunmetal /ˈɡʌnˌmɛtəl/ (n) (marine eng) a type of bronze containing copper (88 per cent), tin (8–10 per cent), and zinc (2–4 per cent): used for parts that are subject to wear or to corrosion, esp by sea water (Collins on-line Dict.) topovska bronca

gun-missile boat (n) (navy) raketna topovnjača

gunnel /ˈɡʌnəl/ (n) (nav arch, boating/yachting) = gunwale upper edge of the hull žuljnica, vanjski rub palube: The skipper reports that the port gunwale was under the water and that water reached the level of the fish hatch. The fishing vessel sustained damage to its prow and gunwale: the tanker a little paint damage to her hull. When there was sufficient of the rope in the boat, it was secured by a stopper attached to the gunwale of the boat.

gunwale /ˈɡʌnəl/ (n) (nav arch, boating/yachting) the top of the side of a boat or the topmost plank of a wooden vessel, where the sides meet the deck; prostorna krivulja koja nastaje kao presječnica površine boka s površinom palube

https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni) razma, vanjski
rub palube, žuljnica

gurnard /ˈɡɜːnəd/ (=Large-scaled gurnard) (n) (fishing) kokot, lastavica, kopunić yellow ~ lastavica, kokot  
gusset /ˈɡʌsit/ (n) (nav arch) triangular plate fitted to distribute forces between two structural members križna ploča, trokutasti spojni element, trokutasta spojna ploča

gusset plate /ˈɡʌsit ,pleit/ (n) (nav arch) a bracket plate lying in the horizontal or nearly horizontal plane križna ploča

gust /ˈɡʌst/ (n) (meteorol) a brief sudden increase in wind speed nalet vjetra, mah, reful; Italian: raffica; colpo di vento: Tropical Storm Julia, carrying winds of 40 mph (65 kph) with higher gusts, was expected to cause rip currents and hazardous wave conditions along the southeastern coast through the weekend, When the gust hit, the helmsman was not fully aware of what was happening to the yacht, or the consequences of leaving full starboard helm on ... At 2105 there was a gust of 45 knots recorded by port control. After a short time the gust subsided, but with the helm still hard over, the yacht quickly came round to starboard and continued into a rapid and uncontrolled gybe ... Maximum gust in the last hour up to 9am was recorded to 58kts or 107km/h - but has now veered W-NW and should slowly ease by late morning. wind ~s vjetar na mahove

gust /ˈɡʌst/ easterly winds ~ing to 40 knots sjeveroistočni vjetar (bura) s naletima (na mahove) do 40 čvorova: As forecast, the wind was gusting up to 40 knots. Maritime Prefect reported at 11:00 Sunday that the ship was located at 59 nautical miles west Arcachon and winds were gusting to 80 km/h. (v) puhati na mahove: The weather was very poor with driving rain and winds gusting force 7-8, ....
gusty wind (n) (meteorol) mahoviti vjetar, vjetar na mahove: The vessel subsequently moved out of position in the gusty wind conditions during which time the mooring teams were fitting chafing guards to the lines. The wind was force 3 to 4, but quite gusty and shifting 10-15 degrees either side of the mean direction.
guy /ɡai/ (n) (cargo handling) wire or hemp ropes or chains to support booms, davits, etc., laterally, employed in pairs brk (samarice), sinjalet slewing ~ brk za zakretanje samarice u stranu, slewing ~ blocks koloture brka samarice, standing ~ nepokretni brk samarice, rinforac, ~ pendants fiksni (nepokretni) dio
gybing /ˈdaɪbɪŋ/ (n) (boating/yachting) turning the stern (back) of the boat up through the wind; To change tack, sailing downwind. The yacht did an emergency gybe to run off in a SSE direction. During a gybe crews need to maintain an awareness of the risk of injury from being hit by the mainsheet, and the mainsheet fine tuning blocks where these are fitted. The yacht quickly came round to starboard and continued into a rapid and uncontrolled gybe until the boat settled close to head to wind. At about 300 yards I executed a 360° buttonhook to starboard, crash jibe, flapping sails and all. A jibe can be dangerous in a fore-and-aft rigged boat because the sails are always fully filled by wind during the maneuver. accidental ~ slučajno kruženje, slučajna pojalabanda

Gybe Ho! a warning that a gybe has started, given by the helmsman Pojalabanda!

gybing /ˈdaɪbɪŋ/ (n) (boating/yachting) turning the stern of the boat through the wind using the rudder, sails, and crew weight kruženje, okrenanje niz vjetar, pojalabanda, okretanje pri vjetru u krnu: I altered course to starboard, gybing through the wind onto a south westerly course, allowing the other vessel to cross astern before tacking and resuming course. roll ~ kruženje s njihanjem, ~ with a trapeze kruženje s trapezom

brka samarice
guy (=brace) (n) (boating/yachting) = afterguy privjerinsko uže kojim se namješta kut tanguna prema vjetru; A line used to control the movement of the object at the other end, such as a spar. https://www.ypi-yachts.com/ privjetrinska uzda špinakera, brac špinakera, škotina tanguna špinakera, privjetrena škota špinakera
guy winch (n) (cargo handling) vitlo brka
gybe /ˈdaɪb/ (=jibe) (v) (boating/yachting) turning the stern (back) of the boat up through the wind; To change tack, sailing downwind. Kružiti, napravit pojalabandu, okrenuti niz vjetar, prebaciti jedro s jedne strane na drugu, kružiti preko krme: After attempting to gybe on two occasions without success, the boat suddenly did gybe and heeled heavily to port. accidental ~ slučajno kruženje, slučajna pojalabanda

Gybe Ho! a warning that a gybe has started, given by the helmsman Pojalabanda!
**gypsy** /ˈdʒipsi/ (n) = wildcat

**COMPARE** anchor windlass a small auxiliary drum usually fitted on one or both ends of a winch or windlass on which the turns of a line or wire are taken for heaving

**bubanj za uže (na sidrenom vitlu):** An offshore supply vessel was mobilising for a project which required the use of an 84mm chain wheel (gypsy) instead of the 105mm unit already installed. The anchor party, comprising the third officer, bosun and one AB, could not fully house the anchor in the hawsepipe, as a twist in the cable between the gypsy and the guide roller prevented the anchor from orientating properly. The plan was to temporarily take the weight of the anchor on its lashing (wire sling) by 'walking back' the windlass in gear, and then rotate the slack chain between gypsy wheel and the guide roller to remove the twist;

**gyrocompass** /ˈdʒaiəroʊ kəmpəs/ žiroskopski kompas, žirokompas, zvrčni kompas, džairo: At this time, a gyro compass heading of 021° was being steered. Information was exchanged between pilots and the Master, among others, that the gyro-compass was 3° high. ~ repeater

**ponavljač žiroskopskog kompasa:** The master saw from the gyro repeater that the vessel was altering course to port, and quickly moved to the steering console and applied starboard helm, correct the ~ for latitude and speed error ispraviti geografsku širinu i brzinu na žiroskopskom kompasu, master ~ glavni žiroskopski kompas, check ~ provjeriti žiroskopski kompas: During this phase of the transit, checking and verifying the gyro occupied the bridge team to a great extent.

**gyro error** /ˈdʒaiərə/ (n) (navig) greška žirokompasa: The gyro error distracted the bridge team during a critical period of the berth approach. check the ~ provjeriti grješku žirokompasa, take a ~ snimiti grešku žiroskopskog kompasa

**gyro heading** (n) (navig) pramčanica na žiroskopskom kompasu: ... the vessel was felt to ground moments later on a gyro heading of 330°.

**gyro-pilot** (n) (navig) zvrčni kompas, žiroskopski kompas

**gyroscopic compass** /ˈdʒaiərəs kəpəs/ žiroskopski kompas, žirokompas

**GZ (=righting arm)** the distance between the lines of action of the weight acting through the center of gravity and the force of buoyancy acting through the center of buoyancy at any angle of inclination; The distance from the centre of gravity to the line of action of the buoyancy force. It is a measure of a ship's ability to resist heeling moments.

**https://officerofthewatch.com/tools/maritime-dictionary/** poluga uspravljanja broda: The length of the righting arm varies with the angle of inclination. Operators of such vessels must bear in mind that the maximum righting arm (GZ-max) may occur at angles of heel as low as 15 degrees and that the working deck immerses at very small angles of heel. 0

**GZ curve** (n) (stabil) = curve of statical stability The area under the curve up to any given angle, multiplied by the displacement, represents the energy needed to heel the ship to that angle. It is referred to as the ship's dynamical stability and is a measure of the ability of the ship to absorb the energy imparted by waves and gusting winds krivulja statičke stabilnosti, statička stabilnost, statički stabilitet
Calculating the value of GZ at specified angles of heel for a ship's particular condition of loading will allow a curve of statical stability, or GZ curve, to be produced.

**Hague-Visby Rules** (n) (mar law) Set of rules, amending the Hague Rules, published and subsequently given the force of law by many maritime nations. [http://www.tkmglobal.net/chartering_H.HTM](http://www.tkmglobal.net/chartering_H.HTM) **Pravila Hague/Visby, Dopunjena Haška pravila**
**hail** /heil/ (n) *(meteorol)* precipitation composed of balls or irregular lumps of ice with diameters between 5 and 50 mm **tuča**

**hail** (v) 1 *(seamanship)* to address a vessel, to come from, as to hail from some port (call). dozivati, dovikivati; 2 *(comm, safety)* To attempt to contact another boat or shore, either by voice or radio

https://www.ypiyachts.com/ nazvati *(putem VHF-a)*: *The bulk carrier’s master ordered the OOW to hail the other vessel to ascertain its intentions.* MAIB Safety Digest 2/2018 *The OOW hailed the oil tanker. Three minutes later the 2nd Officer hailed Dover Coastguard on the VHF channel 11.* ; 3 osloviti

**hailer** /ˈheɪlə/ (n) *(comm)* doglas, megafon, portavoče

**hair rig** (n) *(fishing)* COMPARERE: The hair rig is piece of fishing tackle which allows a bait to be presented without sitting directly on the hook. predvez s dlakom (jelenjom, sintetičkom …), prevez: *Hair rigs will improve your catch rate because the hook point isn’t masked in the bait.*

https://www.hillbillybonez.org/hair-rig/

**hake** (n) *(fishing)* Lat. *Merluccius Merluccius* oslić, mol, tova, murluc European ~ oslić

**half ahead** *(navig, seamanship)* pola snage naprijed: *The pilot ordered ‘half ahead’.*

**half astern** *(navig, seamanship)* pola snage nazad

**half-beams** *(n) *(sailing vessels)* polusponje grotla
**half-breadth plan** *(nav arch)* SEE *linesplan* pogled na teoretsku formu broda odozgo. Radi uštede prostora obično se prikazuje samo lijeva polovina broda. 

(http://marinewiki.org/index.php/Lines_plan; a plan or top view of one-half of a ship divided by the middle vertical plane *nacrt vodnih linija* )

**half cardinal points** *(navig)* međustrane svijeta

**half deck** *(nav arch)* a partial deck below the main deck *djelomična paluba*

**half frame** *(sailing vessels, nav arch)* *polurebrenica*

**half-hitch** *(seamanship)* a simple knot made around an object *poluuzao*

**half-mast** *(comm)* *zastava na pola jarbola*

**half-model (=half-scale model)** *(n)* A scale model of the hull of a proposed ship showing the hull from stem to stern. *Blok-model je polumodel trupa broda izrađen u manjem mjerilu (1 : 25 ili 1 : 50), a služi za definiranje vanjske oplate i položaja različitih okova, privjesaka i otvora na vanjskoj oplati* 

(http://tehnika.lzmk.hr/tehnikaenciklopedija/brod_22_gradnja_broda.pdf) *polumodel trupa broda (pri osnivanju boda)*
Half speed ahead / astern! (navig, comm) pola snage naprijed / natrag!
halliard /ˈheɪliərd/ (n) = halyard 1 (boating/yachting) a line used to raise the head of any sail
podigač jedra, gindac; 2 (boating/yachting) originally, ropes used for hoisting a spar with a sail attached podigač križa (jedrenjaka)
Hall's anchor (n) (nav arch) = patent anchor = stockless anchor Hallovo sidro
halo /ˈheɪloʊ/ (n) (meteorol) a ring or arc that encircles the sun or moon halo, skup svjetlosnih pojava oko Sunca ili Mjeseca u obliku prstenova ili svjetlosnih točaka
halon /ˈhælən/ (n) (safety) halon ~ extinguisher vatrogasni aparat na halon
halt the traffic /hoːt/ (v) (navig, safety) zaustaviti plovidbu, zaustaviti promet, obustaviti promet / plovidbu: The collision had halted all traffic between lights 61 and 75 on Friday https://gCaptain.com
halyard (=halliard) (n) 1 (boating/yachting) ropes, wires or tackle used for hoisting sails, gaffs and signal flags, ensigns etc. podigač (jedra, floka), gindac, Italian: drizza ~ swivel

prema kojima je prijevoznik odgovoran za svu štetu na teretu bez obzira na uzrok i bez ograničenja za sve vrijeme dok se za teret brinuo prijevoznik; Rules governing the rights and responsibilities of carrier and cargo interests which may be incorporated into a contract for the carriage of goods by sea either by agreement of the parties or statutorily. http://www.tkmglobal.net/chartering_H.HTM Hamburška pravila (o prijevozu rob/stvari morem)

hammering /ˈhæmərɪŋ/ (marine eng) kovanje

hampered vessel /ˈhæmpəd/ (navig) brod ograničene sposobnosti kretanja (u SMCP-u)

hand (n) 1 (cargo handling) grupa lučkih radnika zaposlenih na ukrcaju / iskrcaju tereta iz jednog brodskog skladišta brodska ruka, ruka (lučkih radnika); 2 a member of the ship’s company, crew member član posade deck ~ mornar, efficient deck ~ stariji mornar, priučeni mornar

hand (v) (boating/yachting) to lower and furl the sail spustiti i prikupiti / smotati jedro

hand barrows (cargo) ručna kolica

hand cranking (n) (marine eng) ručno upućivanje motora

hand flare (n) (safety) ručna baklja

handgrip (n) (boating/yachting) rukohvat, pašaman, paraman

handheld radio (=handheld) (n) (comm) a mobile marine communications radio ručni radio

handhold /ˈhændhəuld/ (navig) rukohvat

handhold stanchion (navig, safety) upora rukohvata peljarskih ljestava
handrail

handle (n) (marine eng) ručka, ručica, manica; Italian: maniglia direction ~ ručica za određivanje smjera, bring the ~ to the stop position postaviti ručicu u položaj STOJ, push the ~ over to FUEL prebaciti ručicu u položaj za dobavu goriva, set the ~ to START postaviti ručicu u položaj upućivanja, shift the ~ from starting to puel posaition micat ručku iz položaja za upućivanje u položaj dobane

handle 1 rukovati (teretom, uređajem, priveznom užadi), manipulirati (teretom): one AB was handling the lines on the stern jedan je mornar slagao konope (rukovao užadima) na krm; 2 (ports) promovati ~ the cargo promovati (teretom), obavljati promet (tereta): In 2007, over 13.7 thousand vessels entered the Port of Busan, and the port handled a total of 13.3 million TEUs of containerized cargo. In addition, the Deepwater Terminal handles other dry bulk cargoes, such as molasses, cement and steel scrap. Felixtowe is the UK’s busiest container port, handling more than 4 million TEUs each year. The port handled 621,835 twenty-foot equivalent units (TEUs) of container cargo during the month, a 1.5 percent increase compared to November 2017. www.gCaptain.com The South Carolina Ports Authority announced this week that it handled 2.44 million TEU in 2019, representing a 5% increase in year-over-year. www.gCaptain.com

priveznim konopima: These tugs have a spacious foredeck with plenty of working space, making it easier to handle the ropes from a large ship.

handle (v) (shipping econ) obraditi (brod), rukovati (brod), obavljati ukrcaj / iskrcanje broda: the port agents handle the ship on behalf of the shipowner The terminal is now accommodating and handling the newest and largest Ultra-Large Container Vessels (ULCV).

hand lead (n) (navig) = lead line A lead of from 7 to 14 pounds used with the hand lead line for ascertaining the depth of water in entering or leaving a harbor. (Line marked to 20 fathoms.)

https://officerofthewatch.com/tools/maritime-dictionary/olovnica

handling /ˈhændlin/ (n) (cargo handling) rukovanje cargo ~ rukovanje teretom, manipulacija teretom, ship ~ (seamanship, navig) rukovanje brodom, manevriranje

handrail (n) (boating/yachting) manevriranje motorom

handover /ˈhændəvr/ (n) (seamanship) zamjena straže, predaja straže, razmjena časnika brodskog straže: In the early morning hours there was a handover of OOWs. watch ~ predaja straže, zamjena straže: During the watch handover the master instructed the 2/O to amend the passage plan to route via the traffic separation scheme (TSS).; 2 (nav arch) predaja broda (od strane brodogradilišta brodovlasniku)

hand over (v) (mar law) uručiti (teret, dokument), isporučiti, predati hand over the watch to (v) (seamanship) ANTONYM take over the watch predati stražu, zamijeniti brodsku stražu, razmijeniti brodsku stražu, predati gvardiju: After handing over the watch to the 2nd Mate, the chief ofcer went below to to his cabin

handrail (=hand rail) (n) 1 (nav arch) razma; 2 (nav arch) A steadying rail of a ladder
handsomely (adv) (seamanship) with a slow even motion

hand starting (n) (marine eng) ručno upućivanje

hand steering (n) (navig) ručno kormilarenje: As the vessel approached the channel at full sea speed, the master took the con, switched the helm to hand steering and, against company instructions, started to steer the vessel himself towards and through the narrow entrance. Engage hand steering. (in SAR and MOB operation) change to ~ prebaciti na ručno kormilarenje: Immediately after ship’s OOW had finished talking to Dover Coastguard, he changed to hand-steering and instructed his lookout to take the helm, switch the helm to ~ prebaciti kormilo na ručno kormilarenje

hand taut (adj) (seamanship) As tight as can be pulled by hand.

hand torch (n) ručna svjetiljka, ručna lampa

handwheel (n) ručno kolo

handycap (n) (boating/yachting) A race or contest in which contestants are given advantages or compensations to equalize the chances of winning. hendikep (u regatama), prednost u vremenu (u izračunu rezultata regate)

handymax (n) (nav arch) Handymax and Supramax are bulk carriers with a capacity less than 60,000 dwt. A Handymax vessel typically has a capacity between 35,000 and 50,000 DWT, while Supramax vessels are relatively bigger in size with 50,000 to 60,000 DWT. Modern handymax designs are typically 52,000-58,000 DWT in size. Dry bulk carrier of 35 – 50,000 tonnes deadweight, popular for full efficiency, flexibility and low draft (<12 m).

handy size tanker (n) (nav arch, shipping econ) handy size tankers carry clean or refined products, although some may carry black oil, chemicals and, occasionally, bulk grain. tanker

hanger beams (n) (cargo) vješalice u kontejneru za odjeću: hanger beams allow transport of garments on hangers without further packing

hang off an anchor (v) (seamanship) To remove the anchor out of the hawse pipe and enable the vessel to be moored to a buoy or towed using the anchor chain through the hawse pipe. izvući sidro i pripremiti se za privezivanje broda ili tegljenje

hank (n) 1 (boating/yachting) a plastic or metalic fastener attached to the luff of the headsail that attaches the headsail to the forestay karabin, karabinka, kopča, patentna kuka (za hvatanje prečke za prednje leto), kaništrel: UK can custom-make the luff attachment of a Drifter to fit your furling system, to be used with hanks or set flying. jib ~s karabini floka,
harbor /ˈhaːbər/ (US) = harbour a port or haven where ships may anchor; a type of harbour used in literature or in names and adds the idea of refuge luka, zaštićena luka

harbour (v) pružati utočište

harbour /ˈhaːbər/ (UK) (ports) a place of security and comfort, a small bay or other sheltered part of an area of water, usually well protected against high waves and strong currents, and deep enough to provide anchorage for ships and other craft; A harbour tends to be a physical area where water meets land and results in a sheltered bay, such as Botany Bay in New South Wales, Australia. (http://www.portinfo.co.uk/port-information/our-blog/247-what-s-the-difference-between-a-port-harbour-and-terminal) luka, zaštićena luka well sheltered ~ dobro zaštićena luka, ~ limit granice luke: The outbound general cargo vessel collided with the inbound ferry, in the vicinity of the fairway buoy that marks the harbour limit of the harbour.

harbour (=harbor (US)) (n) 1 a luka petroleum ~ petrolejska / naftna luka; 2 utočište; 3 zaštićeno pristanište

harbour approach (n) (navig, ports) SEE approach channel = access to the port prilaz luci, prilazni kanal

harbour authority (n) (ports, mar law) = Port Authority lučka uprava: ABP Southampton is the competent harbour authority for the Port of Southampton Competent ~ (CHA) nadležna lučka uprava, nadležne lučke vlasti

harbour deepening project (n) (ports) SEE dredging projekt produbljevanja luke / prilaznih kanala luci, projekt bageriranja luke

harbour dues (=harbor dues (US)) (n) (mar law) Charge levied against a shipowner or ship operator by a port authority for the use of a harbor. Various local charges against all seagoing vessels entering a harbor, to cover maintenance of channel depths, buoys, and lights. etc. (www.euronav.com) lučke pristojbe, naknada (državi) za korištenje luke

Harbour Master (n) (safety) an official responsible for enforcing the regulations of a particular harbour or port, in order to ensure the safety of navigation, the security of the harbour and the correct operation of the port facilities lučki kapetan: The harbour master generally manages the port’s pilotage service (in some cases required to pilot vessels into berth), and enforces the port’s regulations to ensure safe navigation and efficient facility use, as well as the maintenance of maritime security

Harbour Master’s Office (n) (mar law) the task of harbormasters’ offices is to control
navigation in the internal and territorial waters of a country, actions of search and rescue on sea, inspection of navigation safety, inspection of the maritime domain, registration and deletion of vessels as well as organizing a register of vessels. 

lučka kapetanija, Italian: capitaineria del porto: The task of harbormasters’ offices is to control navigation in the internal and territorial waters of the Republic of Croatia, actions of search and rescue on sea, inspection of navigation safety, inspection of the maritime domain, registration and deletion of vessels as well as organizing a register of vessels.

harbour master’s branch office lučka ispostava
harbour pilot lučki pilot, lučki peljar: A harbor pilot was transferring from the outbound containership to the inbound tanker by launch when the vessels collided at the entrance to the port’s approach channel. It has been confirmed that two harbour pilots will board the vessel 4 miles off the Lighthouse.

harbour tanker (n) (nav arch) lučki tanker
Hard-a-port! (navig) = hard to port sve lijevo: By applying full speed, and helm hard-a-port, the tanker managed to miss the ship’s bow by less than a metre. The pilot also ordered the helm ‘hard-a-port’. Sve lijevo! wheel ~ kormilo sve lijevo

Hard-a-starboard! (navig) COMPARE Hard-a-port! sve desno: Twenty five seconds later PV called B and urged her to immediately put her helm hard-a-starboard, this was again confirmed by B. The master was shocked to see that the light was now so close that he immediately switched the steering to manual and ordered the second officer to put the helm “hard to starboard”. wheel ~ kormilo sve desno, order hard a starboard narediti kormilo sve desno: The pilot on board the ship ordered hard a starboard and full ahead in an effort to counter his vessel’s anticipated movement to the left.

hard-chined vessel (n) (nav arch, boating/yachting) A vessel designed with a sudden change of angle lengthwise in the hull, usually placed near the waterline.

(broda o brod): Three ship pilots have been injured after their pilot boat made ‘hard contact’ with an LNG carrier during a routine transfer.

harden (v) očvrsnuti, stvrdnuti
harden up (v) (boating/yachting) okrenuti jedrilicu prema vjetru
hardness (n) (marine eng) COMPARE strength tvrdoća Brinell ~ tvrdoća po Brinellu

hard over (n) 1 (seamanship, boating/yachting) To move all the way in one direction, such as when turning the wheel https://www.ypiyachts.com/ kormilo sve u stranu (pri okretu jedrilice, broda), alabanda; 2 (boating/yachting) Okret!, upozorenje za okretanje jedrilice / letanje

hard rudder (n) (navig) kormilo okrenuto do kraja, kormilo sve u (lijevo / desno): He tried to steer to the left bank using hard rudder which was 45o, but the vessel slid deeper into the bend http://gCaptain.com

hard to port (navig) sve lijevo: At 0557 the vessel was swinging quickly to starboard; the pilot again ordered the helm hard-to-port, the engine to full ahead and the OOW to steer a heading of 071 degrees. He put the steering controls into manual mode and turned the helm hard to port. The pilot ordered ‘port 20º’, and then ‘hard to port’. The pilot ordered hard to port and stop engine. Immediately after the collision, Ship A’s master put the rudder hard to port in an attempt to swing the vessel’s stern
hard to starboard

away from Ship B. MAIB accident reports wheel ~ kormilo sve lijevo: at 2015 the pilot had to order dead slow ahead, wheel hard to port in order to maintain the correct heading

**hard to starboard** (navig) = Hard-a-port! sve desno: Two minutes later, the vessel’s engine was stopped and the pilot ordered ‘dead-slow-ahead’ and the helm hard-to-starboard: Once the ferry was abeam to starboard, the pilot put the helm hard-to-starboard and asked for full ahead on the main engine.

**wheel** ~ kormilo sve desno

**hard wood** (cargo) tvrdo drvo, tvrda drvena grada

**harness** (n) 1 (safety) radna oprema safety ~ zaštitna radna oprema: The skipper and bosun donned safety harnesses, went over the side, and managed to throw buckets of sea water through the scuttle.; 2 (boating/yachting) trapez

---

[Image of a harness]

**harvest clams and scallop** (v) (fishing) kupiti / hvatati školjke (čančice, lianse ..) i kapice s morskog dna koćom, kuoiti školjke češljanjem morskog dna Scallops and clams are harvested using dredges.

**hatch** /hætʃ/ (n) = hold 1 (nav arch) an opening in a ship’s deck for passing and handling cargo or stores grotlo: He closed the hatch immediately and alerted the crew. To get a better view, he went down on the main deck abreast the forward end of No.2 hatch and tried to direct operations from there. He then returned to the forward hatch and, on opening it, saw flames in the hold. unobstructed ~es ravna grotla, grotla bez zapreka, cargo ~ grotlo za kranje tereta, access ~ otvor za ulaz u tank / skladište / spremište, palubni otvor: The AB opened the access hatch on the aft working deck to enable the senior engineer to access the bottle room located in the hold below. A rating had been posted at the access hatch of the ballast tank; his task was to stand by at the entrance and advise the bosun once the surveyors were out of the tank, entrance ~ of the hold
He then got off the crane and ran to the entrance hatch of cargo hold No. 2. The Second Officer was dismantling the side cleats of hatch #1 for overhauling with the aid of a pipe wrench.

The engine room escape hatch was locked from the outside. The engine room escape hatch was locked from the outside.

Despite the flames, the skipper opened the door again and ran across the accommodation area to the emergency escape hatch in the opposite corner, where the other two crew members were able to help him climb out.

Ship’s crew should ensure that the locking pins are always properly secured whenever the booby hatch is in the open position.

extended meaning to: ship’s hold brodsko skladište: Hatches served by two sets of cargo gear generally measure 20 by 30 feet or larger. batten down the ~: Hatches served by two sets of cargo gear generally measure 20 by 30 feet or larger. batten down the ~:

hatch arrangements (n) (nav arch) uređaj / oprema za zatvaranje, otvaranje i osiguranje grotlenog poklopca: Regularly examine upper deck, non-watertight hatch arrangements.

hatch beam (n) (nav arch) a portable beam across the hatch to support hatch covers greda / nosač grotla, sponja grotla

hatch boards (n) (nav arch) daske grotlenih poklopaca, tavaloni grotlenih poklopaca: The fish hold did not have a watertight cover or even a tarpaulin to cover the hatch boards, and there was virtually no paint protection to prevent hull corrosion.

hatch-coarling (n) (sailing vessels) uzdužna pražnica grotla

hatch coaming (n) (nav arch) = coaming = coaming an upright steel wall, in the shape of a shallow box without top or bottom, is put around the entry to the hold, which helps to keep out water. pražnica grotla, soljer, soljera; ta. battente di boccaporto: There was a large hole in the fish hold hatch coaming, which clearly compromised the watertight integrity. The day after sailing, the crew observed black smoke coming from no. 3 cargo hold, between the hatch coaming and the hatch cover. However when we have to do some work on hatch covers at sea as part of the hold cleaning process, we sometimes have to put our hand between the hatch coaming and the partly opened hatch cover. However when we have to do some work on hatch covers at sea as part of the hold cleaning process, we sometimes have to put our hand between the hatch coaming and the partly opened hatch cover.
hatchcover (n) (nav arch) grotleni poklopac, poklopac grotla, bokaporta (sjev. Jadran), bukaporta (južni Jadran): However when we have to do some work on hatch covers at sea as part of the hold cleaning process, we sometimes have to put our hand between the hatch coaming and the partly opened hatch cover. Ssel was carrying a cargo of sawn timber and, at the time of the accident, shore stevedores were discharging the timber loaded on top of the forward hatch cover. Inspections have also revealed hatch cover rubber packing that is missing or damaged. Give the crew a warning when hatch covers are removed before berthing. The cargo was not trimmed or compacted in the hold and was noted to be ‘steaming’ before the hatch covers were closed. automatic ~ 1 grotleni poklopci s automatskim zatvaranjem; 2 poklopac tipa McGregor; 3 McGregor, endfolding ~ sklopivi poklopac grotla

grotla, hydraulic ~ hidraulički poklopac grotla, mechanical ~ poklopac grotla s mehaničkim pogonom, ~ girder nosač grotlenog poklopca, close / open the ~ zatvoriti / otvoriti grotleni poklopac: The chief officer asked the bosun and deckhand to close the cargo hatch covers, cargo ship ~ grotleno poklopac teretnjaka
Operate the hatch crane only if there is a person on each side to check whether the hooks are connected properly.

The hatch coamings and hatch lid securing arrangements were painted yellow and a prominent warning stencilled on them to ensure that the lid is properly secured when in the open.

Hatch List of Lights skladišna lista
hatchman (n) (seamanship) voditelj grupe u brodskom skladštu, 
Italian: capostiva

hatch opening (n) (nav arch) otvor grotla: What is the size of the hatch openings? At the time of the accident the main deck hatch opening was not roped off. At the time of the accident the main deck hatch opening was not roped off.

hatch pontoon (n) (nav arch) grotleni ponton, pontonski poklopac grotla: The bosun of a self-unloader ship equipped with a deck gantry crane and stackable hatch pontoons was instructed to open cargo hold no. 2.

hatchrail (n) (nav arch) ograda grotla

hatch trunk (n) (nav arch) grotlište: The J/E leaned over the open hatchway trunk to look into the engine room with his right hand resting on the coaming edge and his left hand taking the support of the partially open lid. The weight accumulates in the hatchway and the load should be trimmed to the ends and sides to avoid undue strains on the ship's structure. The hatchway had a portable lid which was designed to be lifted and stowed clear by means of a portable davit fitted on one side of the coaming.

hatchway (n) 1 (nav arch) an opening in a deck through which cargo or stores may be handled, machinery or boilers installed or removed, and access (by means of a ladder) is obtained to the decks and holds below grotlo, soljer, palubni otvor: After successfully exiting via the escape hatchway, the team leader instructed a rating to operate the external hand-wheel to ensure the free opening of the hatch lid for emergency entry purposes. ~ beam nosač grotla

bukaporta, Italian: boccaporto

haul /hɔːl/ (v) prevoziti (cestom, morem): a number of specialized ships haul ore from South America to Baltimore, Maryland ~ commodities prevoziti robe

haul /hɔːl/ 1 udaljenost, ruta (tereta): The operator of a long-haul container ship entering an SECA may choose to reduce the feed rate. on longer / shorter ~s na duljim / kraćim udaljenostima (rutama), long-haul vehicle vozilo na dugim rutama / putovanjima / udaljenostima; 2 dio putovanja broda/brodce: After the last haul of the trip, the skipper of a 20m trawler set the autopilot to return to port at a speed of about 7 knots.

haul /hɔːl/ (v) 1 (seamanship) to pull; to pull on a rope or line vući (konop), povlačiti (konop), natezati (konop), Italian: alare; cazzare: The deckhands on the forecastle
are hauling the forward spring. This case, the evidence suggests that the AB was struck by the flailing
message rope as it whiplashed around his leg because the rope was being hauled by the tug faster than it
was being payed out by the AB. After securing the first spring on the twin bitt, the second spring line was
wound around the winch drum and hauled in taut. The trawl block was then hauled and tensioned. ~ the
line / rope (in) povući konop, uvući konop: After securing the first spring on the twin bitt, the second spring line was
wound around the winch drum and hauled in taut. povlačiti konop /
uže; 2 (seamanship) podići (osobu, mornara): After several attempts, a life ring was
thrown, and was grabbed by the crewman, allowing the other crew to haul him alongside a ladder.; 3
(fishing) podići ribarski alat / mrežu ... ~ the net: He then returned to the main deck to
haul the net. At about 1300, just as the skipper was about to haul the nets, the nets came fast on an
obstruction. He was unable to haul both nets together on the main winch and so hauled each net in turn
until both were near the surface. He alerted the crew, asking them to don lifejackets and prepare to haul
the net. podići mrežu, ~ the fishing gear (fishing) podići ribarski alat / kavez ...:
After three pots were hauled on board, the skipper/owner’s body was found entangled in the gear. The
skipper instructed the crew to haul in the fishing gear and don their lifejackets.
haul /ˈhauəl/ (v) (boating/yachting) skretati smjer u vjetra: The weight accumulates in the
hatchway and the load should be trimmed to the ends and sides to avoid undue strains on the ship’s
structure. The cargo of scrap iron is dropped in the hatchway and allowed to pile up in pyramidal form.
haul /ˈhauəl/ (v) (boating/yachting, mar ins) 1 izvući brod / brodicu na kopno / dok
(radi popravka): While on Grenada, we discovered that our boat insurance was coming due and
that the company would require an out-of-water survey this time around. We would need to haul out the
boat. 90 percent of sailors have their boat hauled by a yard.
https://www.practical-sailor.com/boat-maintenance; 2 (safety) izvući osobu iz mora: After
about 10 minutes of strenuous effort, a spinnaker halyard was connected to the skipper’s tether and he was
hauled clear of the water.; 3 (safety, navig) tegliti brod, vući brod: They will haul the ship
severely damaged in a collision with a freighter back to the United States for repairs
haul /ˈhauəl/ (n) (boating/yachting) promijeniti smjer (o vjetru): the wind hauled to the
southwest
haul aboard (v) podići na brod / brodicu za spašavanje: He was hauled aboard
the lifeboat, wrapped in a blanket and brought to our port side where the pilot ladder was rigged ready for
the Port Authorities to board.
haulage /ˈhɔːlɪdʒ/ (n) 1 (shipping econ) prijevoz (cestom) road ~ vehicle cestovno
teretno vozilo, carrier ~ the inland transport service, which is performed by the sea-carrier
under the terms and conditions of the tariff and of the relevant transport document kopneni
prijevoz u nadležnosti pomorskog prijevoznika, road ~ cestovni
prijevoz; 2 (US, shipping econ) inland delivery dostava unutar zemlje
haul alongside (v) (seamanship, fishing) povući do boka broda: A bumper catch of
pilchards was then hauled alongside and the skipper and the deckhand brailed the fish into large tubs on
deck, and then filled the tank in the fish hold.
haul around (v) (boating/yachting) change from a run to a reach okrenuti (jedrilicu) iz
krme u pola krme
Haul away! order to pull Vuci!, Povlači!
haul clear (v) (seamanship) podići iznad mora, podići iz mora: After about 10
minutes of strenuous effort, a spinnaker halyard was connected to the skipper’s tether and he was hauled
clear of the water. To avoid this danger, the crew had attached a tripping line to the ring so that once the
boat was released, the ring and fall could be **hauled clear** and secured on deck.

**haul down** *(boating/yachting)* spustiti (jedro), **Italian:** ammainare

**hauler** /ˈhɔːlər/ *(cargo handling)* kamion, teški kamion; *(shipping econ, US)* kamionski prijevoznik, cestovni prijevoznik

**haulier** /ˈhɔːliər/ *(shipping econ)* kopneni prijevoznik road ~ cestovni prijevoznik; *(shipping econ)* person or company making the inland delivery of greight or containerised freight otpremni k tereta / kontejnera kopnom

**haul in** *(seamanship)* povlačiti (konop, uže), povlačiti (konop) na brod, rekuperati; **Italian:** recuperare un cavo: After securing the first spring on the twin bitt, the second spring line was wound around the winch drum and **hauled in taut.** ~ *a line povlačiti konop:* The seamen on the forecastle were **hauling in the headline.** The crewmember risked life and limb by moving towards a line that was being **hauled in.** After that, he began to **haul in** the section of the stern line now on deck with the winch., ~ taught povući i zategnuti (uže, konop): After securing the first spring on the twin bitt, the second spring line was wound around the winch drum and **hauled in taut.** ; *(seamanship)* podizati sidreni lanac: He promptly raised the rest of the crew and **hauled in on the anchor chain:** The skipper instructed the crew to **haul in the fishing gear** and don their lifejackets. ; *(safety)* podići (brodicu za spašavanje): A line from the aft mooring winch was passed and the lifeboat was **hauled-in under the davits.** ; *(seamanship)* podignuti osobu iz mora na brodicu za spašavanje / palubu / brod: He was **hauling aboard the lifeboat,** wrapped in a blanket and brought to our port side where the pilot ladder was rigged ready for the Port Authorities to board. Just as the **skipper was hauled on deck,** his lifejacket was pulled from his body and over his head.; *(fishing)* povlačiti mrežu / ribarski alat / koću / kavez / vršu: A fishing vessel was on an easterly heading and engaged in hauling a line of pots which was about 1 mile long and lay in a north/south direction off a port on the east coast. A 19 metre twin rig trawler was **hauling in the first trawl** of the trip when the centre warp parted close to the clump. At about 1200, the three crew, one of whom was salaried, **hauling in the catch,** during which it was found that the centre warp had stranded. The gear was **hauling on board** and the cod end emptied on to the deck After three pots were hauled on board, the skipper/owner’s body was found entangled in the gear.; *(boating/yachting)* zategnuti uzdu (škotu, škotinu), **Italian:** mettere in forza la scotta

**haul in** *(boating/yachting)* zategnuti škotu, **kacak(i)** škotu

**hauling line** (=**hauling part**) *(seamanship)* živi kraj užeta (na koloturniku/čekrku), radni kraj užeta (na koloturniku/čekrku)
haul inoard (v) (seamanship) podići na brod, podići na palubu, povlačiti na brod: After a considerable struggle, the tanker’s mooring lines were attached as messengers, and the mooring winches used to haul the bridle pennants inboard.
haul off (v) (seamanship, boating/yachting) okrenuti brod u vjetar, okrenuti od (veza ili nekog objekta)
Haul out! (seamanship) order given to a boat coxswain to take his boat from the ship’s side and secure it at the boat boom Pripremi brodicu za spašavanje za spuštanje!
haul out (v) (boating/yachting) remove a boat from the water izvući na kopno: We discovered that our boat insurance was coming due and that the company would require an out-of-water survey this time around. We would need to haul out the boat. Quite a few sailboats were hauled out in preparation for the storm. While on Grenada, we discovered that our boat insurance was coming due and that the company would require an out-of-water survey this time around. We would need to haul out the boat. https://mail.google.com/mail/u/0/#imp/163accbb97b17485 We would need to haul out the boat in order to carry out an out-of-water survey.
haul taught (v) (seamanship) čvrsto povući (uže), Italian:arridare,
Italian:assuccare
haul the anchor (v) (ship handling, seamanship) podizati sidro, podići sidro: When the mate went forward to haul the anchor, the bridge team consisted of the master, the third mate and a helmsman.
haul up (v) (boating/yachting) jedriti u vjetar, orcat; Italian:orzare
haven /ˈheɪvən/ (n) (navig) zaklonište za brodove, luka, pristanište: Skippers and mates of vessels operating within 60 miles of a safe haven are permitted to use the Boatmaster’s Licence medical, ML5, which is renewable every five years. Of course, the best way to avoid an accident in restricted visibility is not to get underway, or to seek a safe haven if conditions change while underway.
hawse /ˈhɔːz/ (n) (nav arch) = hawse hole a hole in the bow through which a cable or chain passes sidreno oko
hawse hole /ˈhɔːz/ (n) (nav arch) a hole in the ship’s bow for stowing the anchor sidreno oko, pramčano oko
hawse line (n) (seamanship) privezno uže
hawsepipe /ˈhɔːz,paip/ (=hawse-pipe, hawse pipe) (n) (nav arch) a pipe lead-in for anchor chain through ship’s bow; tube leading the anchor chain from the deck on which the windlass is located down and forward through the vessel’s bow plating padna cijev, sidreno ždrijelo,
sidreno oko, oko sidra: The replacement anchor’s relative position in the hawse pipe was not the same as the original, because the shank length and connecting linkages were different. Walk out (to) (of anchors) means to reverse the action of a windlass to lower the anchor until it is clear of the hawse pipe and ready for dropping. As the 4th shackle was passing through the hawse pipe, with the ship making slight sternway, the cable suddenly began to run freely, despite the dog clutch being fully engaged ... They failed to keep the anchors ready outside the hawse pipe. At 21:00 decision was made to gas-cut the cable at hawse pipe.

hawse plug (n) (nav arch) A stopper used to prevent water from entering the hawse hole in heavy weather. https://officerofthewatch.com/tools/maritime-dictionary/čep sidrene cijevi

hawser /hoːzoə/ (n) (seamanship) a large rope or a cable used in warping, towing, mooring, anchoring; A large circumference rope used for towing or mooring a vessel or for securing it at a dock. https://officerofthewatch.com/tools/maritime-dictionary/ debliji konop, uže (za tegljenje): Lines of thick diameter are usually referred to as cables and when used for towing they may be called (towing) hawsers. The purpose of the weak link is to reduce the risk of the hawser parting when picking up/casting off the chain, which has an attendant hazard of whiplash. The mooring equipment of the SPM consisted of a chafing chain (76 mm diameter) joined to a polypropylene hawser (80 mm diameter).

očna rebra, rebra pramčanog oka, apostol

hazard (n) (safety) dogadaj koji može štetno utjecati na okoliš, život i zdravlje ljudi te izazvati oštećenje ili uništenje imovine opasnost: Both officers were aware of the hazard, and the master asked the chief officer whether they were clear of the reef. There would be an accompanying severe and immediate fire hazard. Always remember that fire is the greatest hazard aboard ship. moving ~s pokretne opasnosti, dangers and ~s along the route opasnosti na ruti, fire \ opasnost od požara: Haphazard storage creates fire hazard. Apart from malfunction/loss of vital navigation and communication equipment, such water ingress can pose a serious electrocution and fire hazard. Leakage from fuel pressure systems is a serious fire hazard, health ~ opasnost po
zdravlje: Underestimation of health hazard of this cargo is the main reason of the near miss. It should still not contain harmful chemicals or chemical wastes that would cause machinery damage or pose a health hazard to personnel. navigational ~ opasnost za plovidbu: When manoeuvring in close proximity to another vessel or navigational hazard the possibility of something going wrong must be carefully considered. Check for navigational hazards in vicinity. examine the ~s procijeniti opasnosti: They did not examine the specific hazards associated with low freeboard transfers.

hazard label (n) (environ, safety) oznaka za opasnosne terete aquatic ~ oznaka za opasnosne terete u prijevoz morem

hazardous (adj) (cargo, safety) opasan (teret, roba): The terminal managers in the loading port did not consider the cargo to be hazardous, and the wet cargo was loaded in rain without trimming or measuring the cargo temperature. Running main propulsion engines while a vessel is alongside is an extremely hazardous activity and must be controlled carefully.

hazardous and noxious substances (=HNS) (n) (cargo, chem, environ, safety) = HNS opasne i štetne tvari

hazardous area (n) (navig, safety) opasno područje: Demarcate and point out hazardous areas and control measures already taken by vessel.

hazardous cargo (n) (cargo, safety) opasni teret: This is the vessel overtaking you on your starboard side, I am carrying hazardous cargo, what are your intentions? The Collision Regulations clearly state obligations for vessels 'restricted in their ability to manoeuvre' and such 200145 A vessel was berthed port side to and loading hazardous cargo.

hazardous goods (n) (cargo, safety) opasna roba, opasan teret: the mast or superstructure of a vessel IMO Class Group of dangerous or hazardous goods, harmful substances or marine pollutants in sea transport as classified in the International Maritime Dangerous Goods Code (IMDG Code).

hazardous incident (n) (safety) opasna nezgoda, opasan slučaj, opasni događaj: A hazardous incident occurred on board a tanker while crew members were engaged in rinsing and mopping up in a slop tank and discharging oily water slops. It also show passing too close to a fishing vessel when uncertain about her type of operations or manoeuvrability can lead to a hazardous incident.

hazardous materials (n) (safety) opasne tvari, opasni materijali

hazardous situation (n) (safety) opasno stanje, opasna situacija: I practice of having only one vessel at that particular anchorage, the Port Control allowed two large vessels to anchor there hence contributing to a hazardous situation. During manoeuvring, propulsion plant’s requirements are below system’s capacity and the failure of ne generator is unlikely to present a hazardous situation.

haze /heiz/ (meteorol) fine dust or salt particles in the air that reduce visibility sumaglica: The pilot boat appeared through the haze and the pilot disembarked without any delay and highly rewarded for his great efforts. The vessel approached the alter course position in daylight on a warm, calm day with a slight haze and with no significant tide.

HBG (=trim lever) (n) (stabil) poluga trima

HCS (=Heading Control System) (n) (navig) sustav nadzora pramčanog kuta

head /hed/ (n) 1 (navig) the fore end of a ship; ship’s bow pramac broda, prednji dio broda: The ship started picking up speed but the head responded very slowly. Brod je počeo dobivati brzinu, ali je pramac reagirao vrlo sporo. About one minute later the pilot gave the helmsman orders to bring the vessel’s head towards the north pillar of the bridge, which was not illuminated but was visible.
His required constant attention throughout the period of loading and discharging, particularly when trimmed by the head, to ensure no weight came onto the lifting wires. d AIS wrongly set up Colregs violation and AIS wrongly set up. MARS Report 201018 Own vessel: speed 10 knots, course over ground 242 degrees, ship's head 235 degrees. The ship's head began to turn to starboard, but it soon became apparent that she was closing the shallows and would not be able to complete the turn. The OOW was alerted to this abnormality when the autopilot alarm activated after the ship's head had wandered off course. As the skipper selected neutral, the heel increased under the influence of the strong tide and the head continued to turn to port.

1 (marine eng) gornji dio, glava: A simple connection attaches the exhaust manifold to the head. cylinder ~ glava cilindra: The combustion chamber is enclosed between the cylinder head and the piston and the most of it contained in the top of the piston.

2 poklopc ~ cover poklopc cilindra: 4 attachment of a sail halyard on the top of the sail luff gornji rub sošnog / četvrtastog jedra, Italian: punto di drizza; 5 (ports) glava (gata, doka): Contact with the pier head The line then passed between the docking head and cruciform arrangement wherever space allowed.

head /hed/ (v) (navig) uputiti se (prema), biti u smjeru prema: The third officer did not realise that the vessel was heading towards shoal ground. The master decided to head back toward BXA buoy and requested for assistance of the pilot station. Having asked his two passengers if they were holding on, he commenced a turn to starboard to head down stream. ~ for the port uputiti se prema luci: The trials were completed and it was decided to head back into port, ~ in a direction ploviti u smjeru: On clearing the breakwater, the skipper ordered the helmsman to head in a northerly direction. Once the helicopter arrived they agreed with the pilot that the launch would head in the direction of a prominent headland that was about 5 miles away., ~ north / south etc. ploviti prema sjeveru / jugu itd., biti okrenut u smjeru sjevera / juga itd.: He plotted his position at 0850 UTC and manoeuvred his vessel to head north with the use of helm and engines, acquiring a speed of about 3 knots in so doing., ~ west / east / north / south zaploviti u smjeru zapada / istoka / sjevera / juga: One minute later, the pilot launch Patrol departed Royal Terrace Pier and headed west. www.gov.uk/maib

head (n) (boating/yachting, nav arch) a toilet on board of a ship brodski zahod, brodska kupaonica, zhod u brodici / jahti: Learn How To Keep Your Head Working Well and Odor Free with Practical Sailor’s Marine Sanitation Systems <practicalsailor@p.practical-sailor.com> A poorly functioning head can make even the finest outing awful. Hose permeation, leaking clamps, clogged toilets - these are all problems that every boater dreads. <practicalsailor@p.practical-sailor.com>

Captain of the ~ (navy, seamanship) The rating in whom is vested the responsibility for the cleanliness of the ratings' latrines glavni od zahoda: Any toilet upgrade must take into account plumbing details, but a conversion to electric also entails additional power requirements, wiring details, and over-current protection., manual ~ / toilet ručni zahod: Manual Toilets remain popular because they're simple, have only a few easily accessible parts, and require no amp usage., electric ~ / toilet električni zahod / WC: Electric Toilets are more compact, reliable, and less expensive than ever, and if you’re ready to make the switch - easy to install. Once considered a frivolous luxury for larger sail boats and motoryachts, the new breed of electric heads are generally more compact, more reliable, and less expensive than their predecessors., portable ~ / toilet prijenosni zahod / WC, kemijski zahod / WC, electric marine ~ električni brodski zahod

head (n) (mar law) voditelj, šef službe: The Chief Steward is the head of the Catering Department. Master instructed all ship staff to carry out risk assessment prior to commencing any task; The department head and the assigned work team must inspect the site of work and identify the hazards.
involved; Master instructed all department heads to explain assigne

head (n) 1 (boating/yachting) = head of sail the upper corner or edge of a sail gornji rogalić jedra; 2 (sailing vessels) the upper end of a lower mast boom gornji dio deblenjaka (o jedrenjaku)

header /ˈheʊdər/ (n) 1 (marine eng) razdjelivač, cijevna komora, cijevni sakupljač: The water wall tubes are connected either to the top and bottom headers or to the bottom header and the steam drum. Boiler Headers are used in the boiler room to act as a hub for your heating system. https://www.supplyhouse.com/Boiler-Headers-Separators-1361000; 2 (marine eng) kolektor, sabirnik pipe ~ cijevni kolektor, sabirna cijev: All CMI high-performance exhaust systems feature headers, big tail pipes and free-flowing mufflers to eliminate back-pressure in the exhaust system. http://custommarine.com/headerapps/index.php

header /ˈheɪdər/ (n) (meteorol, boating/yachting) A wind shift towards a vessel’s direction of travel, causing a turn to a more downwind course to correct for the shift. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) promjena smjera vjetra prema pramcu

header tank (n) (boating/yachting) tank kolektora izlazne vode: The system may incorporate a header tank arrangement to supply oil to the hearings whilst the turbocharger comes to rest should the oil supply fail. To make up for any leaks in the system there is a header tank, which automatically makes up any deficiency.

headfoil (n) (boating/yachting) šina floka

head for (v) (navig) ploviti prema: However, the engineers required the tug to be run at full speed in a straight line to make their adjustments, so the master had to head for open water outside the harbour. The ship had then altered course to 2300 T to head for Cherbourg, either for cargo or to disembark the pilot. Since the vessel had only one hold, running fore and aft, the Master reduced speed and altered course to head for the nearest suitable port of refuge. After dredging we head for the western buoy on a course of 020. We met a southbound LPG tanker which appeared to head for the separation zone between the two lanes. The vessel, loaded with 5,000 tonnes of wheat, was headed for the port of Helsingborg

headhaul /ˈhed hɔːl/ (n) (shipping econ) outgoing voyage of a vessel from port of origin to its ports of destination (http://www.globalshiplease.com/glossary.cfm) putovanje broda od polažišne do odredišne luke, isplativija dionicna putovanja broda: Headhaul usually refers to the stronger or dominant leg of a round-trip voyage attracting the greater volume of cargo relative to the weaker backhaul leg.

head-in (adv) (navig) pramcem prema kopnu (uz obalu u luci, riječnu obalu) berthed ~ brod vezan pramcem prema kopnu (uz obalu u luci, riječnu obalu): Our handy-size, multi-purpose vessel was berthed head-in, starboard side to and had already singled up with pilot on board.

heading /ˈhedɪŋ/ (n) 1 (navig) COMPARE course: The horizontal direction the vessel’s bows at a given moment measured in degrees clockwise from north (SMCP); The horizontal direction in which a craft is pointed. (IAMSAR) pramčani kut (u odnosu na pravi sjever), pramčanica: Checking his radar, he confirmed that the heading of the unknown vessel had a very small Closest Point of Approach (CPA) with the dive site. About 1 minute later, the ship’s heading started to drift to the north, away from the lights of the harbour and into darkness. alter a ~ promijeniti pramčani kut: By that time, tanker’s heading had been altered to 227° and the bulk carrier was 79°
abaft tanker’s starboard beam at a distance of 1.7nm. he assessed the fishing vessels’ aspects from their navigation lights and altered the autopilot heading about 10° to port to pass ahead of them. The Master was called, speed reduced to minimum and heading altered into the sea and swell., follow a ~ ploviti u smjeru ...: The vessel was following an autopilot-controlled heading of 221° at a speed over the ground (SOG) of 11.9 knots (kts), adjust a ~ namjestiti pramčani kut, namjjestiti pramčanicu: The deck officer adjusted the vessel’s heading set on the autopilot to 130° to follow the revised track, What is your heading? ... My heading is one - two - eight degrees. Koji je Vaš kurs? ... Moj kurs je jedan - dva - osam stupnjeva., on a ~ of na pramčanom kutu od ...: The vessel passed abeam of the charted rocks at a speed of approximately six knots and on a heading of nearly 227° T. The wind was NW 25 knots and the vessel was on a heading 335°. At 1607, the vessel was on an easterly heading with a SOG of 10.6 kts., on a reciprocal ~ na suprotnoj pramčanici: We continued to turn hard a starboard and main engine full ahead until we were steaming away from the other vessel on a reciprocal heading and the other vessel was well clear., original ~ početni pramčani kut, početna pramčanica: But the tanker continued on her original heading and a close-quarters situation was quickly developing., maintain ~ održavati pramčani kut, držati pramčani kut, steady ~ stabilan pramčani kut: The skipper found that the autopilot had difficulty in keeping the vessel on a steady heading., ~ display pokazivač pramčanice: The traffic lanes trend west-northwest to east-southeast, while the heading display for this ship indicated it was heading northeast at about 14 knots., veer from the ~ skretati s pramčanica: This allowed the trawler to veer from her heading until she came to an abrupt stop against a rock., change of ~ promjena pramčanice: As the vessel entered a narrow part of the channel, the pilot requested a slight change of heading to port., adjust the ~ ispraviti pramčaniciu: He then adjusted the ship’s heading to aim toward the centre of the channel and the bright harbour lights ahead., on autopilot ~ pramčanica na autopilotu: The ship was on an autopilot heading of 120° and proceeding at a speed over the ground (SOG) of 6.4 knots., turn onto a ~ of ... degrees okrenuti brod u smjer od ... stupnjeva, okrenuti brod na azimuth od ... stupnjeva; 2 (navig) smjer kretanja: At 0312 the master turned the ship onto a heading of 075 degrees to creat a lee for the pilot boat.; 3 naslov (članka, knjige, izvješća), podnaslov, natuknica Heading Control System (navig) (u područjima gustog prometa) kut pramčanice upravlja se putem autopilota kontrola pramčanice, sustav kontrole pramčanice heading line (navig) pramčanica heading line: (=HL) (navig) pramčanica (na radarskom pokazivaču): The heading line indicates the ship’s heading and it is the solid line which appears at zero degrees on the bearing scale. heading marker (=HM) (navig) oznaka kuta pramčanice / azimuta: The heading marker in the North-up position requires constant adjustment to give a correct reading. head injury (safety) ozljeda glave: In most cases when mooring ropes part they cause head injury. The victim was wearing a safety helmet which probably helped prevent a head injury. head into the wind (prep phr) (navig) pramac u vjetar bring the ship’s ~ into the wind okrenuti brod u vjetar, dovести pramac u vjetar: The port main engine tripped due to the excessive list and, with only one engine, there was not enough power to bring the ships
head into the wind., hold the ship's ~ držati pramac u vjetar: The master requested the assistance of a harbour tug to hold the ship's head into wind, while he attempted to manoeuvre the ship back to her original anchor position., turn the ship's ~ okrenuti brod u vjetar: Using full rudder and engine power, and transmitting appropriate signals on the air horn and VHF radio, the master just managed to turn the ship's head into the wind and execute the 180-degree turn and head out to open sea.

headland (n) (navig) obalna uzvisina, uzvisina rta, promontorij: the radar cannot see through the headland so anything behind the headland will be hidden in the radar's shadow area. An inbound passenger ferry was rounding a headland and approaching her final waypoint, at which point the passage plan required her to alter course to port and head towards the harbour approaches. He also chose this position because it was in the lee of a prominent headland and it was outside the main tidal stream.

head-ledges (n) (nav arch) poprečna pražnica grola
head light (n) (nav arch) pramčano svjetlo, prednje svjetlo
headline /ˈhɛd lain/ (n) naslov, natuknica
headline (n) (seamanship) ANTONYM stern line pramčano uže, provijera, Italian: cavo di prora; cavo alla lunga: The forward mooring station lowered the headlines to the mooring boat but they could not be made secure in good time. This accident occurred when a 15,000 dwt vessel was unberthing; she was singled up to one head-line and one back spring on the forecastle. The head line and breast line began to run out around the bitts, and the starboard anchor was let go. Send the head line(s) ashore. Let go of the ~ otpustiti pramčano uže: The master selected “start engine” on the telegraph, and soon afterwards he instructed the forward and after mooring parties to let go of the head and stern lines. Let go the head line!, heave up the ~ podizati pramčano uže: Then third mate proceeded to heave up a head line and the OS was asked to heave up the starboard breast line. Tighten the ~ zategnuti pramčano uže, napeti pramčano uže: Once the vessel was alongside again, the head lines were again tightened and the stern swung further off the jetty.

head of breakwater (n) (ports) vrh lukobrana, kraj lukobrana (prema moru): It was commended that pilots should use tugboats and advise captains to use their assistance until the vessel is pulled away to the roadstead – behind the head of the eastern breakwater to the water region with safe depths (for a given draught of a vessel),
head off (v) 1 (navig) otpadati: The ship altered course to starboard and then appeared to head off to pass east of the Bank.; 2 (boating/yachting) skretati od vjetra
head office (n) 1 (mar law) sjedište (firme), matična kuća: The investigation report was forwarded to the fleet Head Office in order to instigate legal action against the original equipment manufacturer (OEM) for potential breach of code(s) in the material, design etc. A telex to head office reporting the damage caused by a rogue swell was, I suspect, treated with some scepticism. 2 uprava, direktija: Following a further brief debate between ship and head office, the ropes were replaced. The completed log is used to compile a summary sheet or abstract of information which is returned to the company head office for record purposes.

head of navigation (n) (navig) The uppermost limit of navigation from the mouth of a waterway. https://officerofthewatch.com/tools/maritime-dictionary/ maksimalna dužina uzvodne plovnosti (rijeka, plovilbenog kanala)

head of pump (n) (marine eng) The head or height of a column of water which will give a prescribed pressure on the vertical or horizontal sides of a compartment or tank in order to test its tightness or strength or both. (https://www.history.navy.mil/) tlačna visina pumpe, visina stupca pumpe, jačina pumpe: The appropriate head of the pump will prevent any type of suction problem.

head of sail (n) (boating/yachting) gornji rogalj jedra

head of the pier (n) (ports) = pier head vrh gata, krajnji dio gata (prema moru): Fortunately, there were no injuries and, although material damage was caused to the head of the pier, the vessel sustained only superficial scratches to her paintwork. The ship came to rest on the southerly pier head.

head on (prep phr) (navig) nasuprot drugom brodu, u suprotnom kursu:, he observed another small vessel about a mile away right ahead and coming head on The fishing vessel collided head-on with the port quarter of the anchored bulk carrier, before bouncing along her port side. At 0330 a vessel was sighted fine to port, nearly head on, masthead lights visible, a few minutes later the Master departed from bridge. The two vessels collided nearly head-on at about 6:40 a.m. sailing ~ plovidba u suprotnim kursovima, ~ course kurs u pramčanici: el’s starboard side, the overtaking vessel is putting the priority on herself being able to turn to starboard in case of another ship appearing on a head on course,, come ~ on dolaziti ravno u pramac: Simultaneously, he observed another small vessel about a mile away, right ahead and coming head on, and altered more to starboard to 324°, ~ encounter susret brodova pramac o pramac: This situation inevitably leads to head on encounters with westbound traffic and alterations of course by each vessel to port,, collide ~ sudariti se pramcem o pramac: The fishing vessel collided head-on with the port quarter of the anchored bulk carrier, before bouncing along her port side.

head on collision (n) (navig) sudar pramcem o pramac: Recently we handled a damaged vessel which had a head on collision with a small unlit island during the night.

head-on situation (n) (navig) protu-kurs, položaj brodova u protukursu, brodovi u (na)suprotnim kursovima: The ferry’s OOW should have foreseen that his intended port alteration of course would result in a head-on situation.

head-on vessel (navig) brod koji ima pravo puta: Earlier, at about 23:30 hours, I had
encountered a head-on vessel and, in accordance with Colregs, I altered our original course from 259 degrees to a new course of 285 degrees in order to pass the other astern.

**head out to sea** (v) **(navig)** isploviti prema otvorenom moru: On approaching strong winds, masters of ro-ros and similar high-sided vessels must not hesitate to leave port or confined waters and anchorages and head out to open sea. ... the port anchor was quickly heaved up and with a single astern engine movement we were able to safely clear the wharf and head out to sea.

**headquarters** (n) **(mar law)** sjedište (trgovačkog društva, kompanije): This ship is part of a group of vessels managed from the CMA CGM Group headquarters in Marseille, France.

**head rope** = **headline** pramčano uže: This caused the port head rope to be lost overboard after being pulled through the bollards upon which it had been turned up. She was secured by 2 × 26.5cm (10.5) circumference head ropes and a 19cm (7.5) spring forward; The head ropes were tightened and the engines put astern.

**heads**¹ (n) **(shipping econ)** izdaci, troškovi various ~ razni izdaci

**heads**² (n) **(boating/yachting)** kupaonica (sa zahodom, umivaonikom i tušem u jedrilici/jahti)

**headsail** (=**head sail**) (n) **(boating/yachting)** = **foresail** any sail flown in front of the most forward mast; a generic term for any sail placed forward of the mast (of a sloop-rigged sailboat)

**headsail foil** (n) **(boating/yachting)** šina rol-floka: Twin-grooved foils allow for easy and fast sail changes, keeping you in front.

**headsail furler** (n) **(boating/yachting)** rol-uredaj za flok, uredaj za namatanje floka, rofllok: The Facnor headsail furler is designed to be installed without unstepping the mast nor cutting the wire.

**headsail furling system** (n) **(boating/yachting)** = headsail furler uredaj za namatanje floka, rol-uredaj za flok
It was daylight with a forecast force 9 headwind and 6m head sea, and the vessel was making a good speed of about 3 knots through the water and 1 knot over the ground. As the vessel encountered force 9 winds with a 6 metre head sea, it was discovered that nylon mooring lines on the aft deck were becoming unsecured. The owner and the remaining friend carried on, struggling through head seas until they were able to seek some shelter by using an inshore route up an estuary.

Heads up! Pazi glavu!

The radar sets was decentred and working in head-up mode at ranges of between 0.5 and 0.75 nm. The ship was slowly making headway, heaving to against the waves and the wind. With our ship still making headway, the container vessel’s port quarter came into contact with our vessel’s bow. We sounded 5 short & rapid blasts on the whistle and put the engines on Stop but were still making headway. Our bow was by now 0.2 miles from the...
head wind

SBM and we were making headway at about 0.5 knots. We sounded warning blasts on the whistle and the tugs also gave warning. The ship immediately started to make headway but the angle with the berth remained too small; vessel making ~ gibanje broda naprijed, kretanje broda naprijed, zalet pramacem, abriva po pramcu, briva, lose ~ prestati se kretati (o brodu), zaustaviti se (o brodu), izgubiti abrivu: As he did this, he stalled into wind, and lost all headway. As he did this, he stalled into wind, and the boat lost all headway, stop the ~ zaustaviti kretanje naprijed: He stopped the headway abreast of Le Pot a shallow in the south of Le Cochon buoy.

head wind  (n) (boating/yachting, navig) vjetar u pramac, pramčani vjetar, vjetar u provu

heat (v) grijati: Turbochargers also heat the inducted air by compression. A boiler is used to heat feed water in order to produce steam. ~ up zagrijavati se: Because they are very small these droplets heat up very quickly and start to burn as the piston passes over TDC.

heat conductivity  (n) (marine eng) toplinska vodljivost: A thin flame plate for the cylinder head promotes good heat conductivity while high stiffness is imparted by a strong deck plate absorbing the vertically acting gas forces. cal arrangement of bore cooling is applied to the upper collar of the cylinder liner, which is made from lamellar cast iron, a material of good heat conductivity and wear resistance.

heat damaged  (adj) oštećen toplinom (o teretu): The cargo had been loaded in a defective condition in that it was already heat damaged. https://safety4sea.com/

heat detector  (n) (safety) detektor topline

heat energy  (n) (marine eng) toplinska energija

heat engine  (n) (marine eng) toplinski stroj

heater /ˈhi.tər/ (n) 1 zagrijač direct contact ~ dodirni zagrijač, feed ~ zagrijač
heat exchanger (n) (marine eng) izmjerno topline: Lubricating oil system: self-contained forced feed system, with oil flow progressing through gear-type pumps, heat exchanger and filters to the engine lubrication points. The plate-type heat exchanger is made up of a number of pressed plates surrounded by seals and held together in a frame. ~ tube cijev izmjerno topline

heat exhaustion (n) (safety, med) topolna iscrpljenost

heat fire detector (n) (safety) toplinski javljač požara, toplinski detektor

heat flow (n) (marine eng) strujanje topline: ... the exhaust seat insert incorporates a water-cooled cavity to maximize heat flow from the valves.

heating /ˈhɪtɪŋ/ (n) (marine eng) grijanje, zagrijavanje: ..., effective use of the centrifugal separators, settling tanks and filters is essential, and the correct fuel viscosity must be maintained by heating, adequate injection pressure and correct injection timing. When transporting such cargoes, besides taking care to control the heating of fuel oil tanks, the recommendations of the IMSBC Code must be strictly followed to prevent a dangerous situation from developing as well as to avoid oil ~ grijanje goriva, space ~ grijanje prostorija, water ~ zagrijavanje vode

heating coils (n) (marine eng) Coils located in the bottom of cargo tanks that steam passes through to heat cargo. (www.euronav.com) serpentine (rashladnog uređaja), zagrijač sa spiralnim cijevima, spiralna cijev za zagrijavanje: We will heat both slop tanks using heating coils. The workload increases when the cargo stops flowing due to freezing, when the level of cargo goes below heating coils. The heating coils in the tank were also reported to be leaking, causing a gradual increase in sounding: steam ~ parni zagrijač s spiralnim cijevima

heating of cargo (n) (cargo handling) zagrijavanje tereta, pregrijavanje tereta

heating radiator (n) (marine eng) radijator

heating system (n) (marine eng) sustav grijanja: Heat recovery steam generators located in the exhaust ducts of the gas turbines produce the steam to drive the steam turbine and feed auxiliaries such as evaporators and heating systems.

heating & ventilation system (n) (marine eng) sustav grijanja i ventilacije

heat load (n) (marine eng) toplinsko opterećenje: The heat load on the cylinder liner has been reduced by lowering the mating surface between cylinder liner and cylinder cover as much as possible.

heat loss (n) (marine eng) gubitak topline, toplinski gubitak: If all else fails, oilskins secured around cuffs, waist and ankles can reduce heat loss in immersion situations, and reduce the early onset of hypothermia.

heat-resistant (adj) (marine eng) otporan na toplotu: Pistons are of composite construction, with a heat-resistant steel crown and forged aluminium body. Thus the wall can be very hot—requiring heat-resistant materials—but it can also absorb too much heat from the air in the initial compression strokes during starting and pre The heat shield was a post-installation modification -
originally the turbo-chargers had been fully clad with **heat-resistant insulation**.

**heat-resisting** (adj) *(marine eng)* **otporan na toplinu, termootporan**: The crown is made of **heat-resisting steel** and is provided with five ring grooves, which are hard-chrome plated on both lands.

**heat source** (n) *(marine eng)* **izvor topline**: Possible **heat sources** causing ignition include heat exchangers, exhaust pipes, turbochargers, electrical contacts, static electricity and faulty wiring.

**heat stroke** (n) *(med, safety)* **toplotni udar**: **Heat stroke** is caused by a failure of the 'thermostat' in the brain: the body becomes dangerously overheated due to a high fever or prolonged exposure to heat. **exposure to ~ izloženost toplini**: **Heat stroke** is caused by a failure of the 'thermostat' in the brain: the body becomes dangerously overheated due to a high fever or prolonged exposure to heat.

**heat transfer** (n) *(marine eng)* **prijenos topline**: The plates have various designs of corrugations to aid **heat transfer** and provide support for the large, flat surface.

**heat-treated** (adj) *(marine eng)* **toplinski obraden**: Crankshaft is manufactured from **heat-treated alloy steel**, with unhardened bearing trunnions and concave fillets.

**heave**1 /ˈhɪv/ (n) *(navig, nav arch)* the whole ship alternately lifting and lowering with the vertical movement of the water (tide) **podizanje i spuštanje broda**

**heave**2 (＝heave; heaved; heaved / (arch) heave; hove; hove) (v) *(nav arch, ship handling)* **podizati se (o brodu, trupu broda)**: Upon berthing, (moored to four+two+two fore and aft, all with rather short leads) we continued to feel the effects of the swell as the vessel continued to roll, **heave** and surge alongside.

**heave**3 (＝heave; heaved; heaved / (arch) heave; hove; hove) (v) *(seamanship, boating/yachting)* to throw; to throw a line **baciti (tanji konop, pandul na obalu)**, **dobaciti (tanji konop, pandul)**

**heave**4 (＝past tense: heaved / hove), (past participle: heaved / hove)) 1 to haul or pull on a line **vući (konop), povući (konop)**, **Italian: virare**: The ship’s aft mooring deck crew manually **heaved the messenger line** through the transom panama eye. The vessel’s crew began to **heave the towline** back on board. He was waiting for assistance from his colleagues to **heave the rope** using the ship’s winches on board. **Stop heaving!** **Prestani vući / povlačiti!**

2 **podizati (sidro), ta. virare**: We will **heave anchor**. **Podizat ćemo sidro**. While preparing to depart anchorage and **heaving the port anchor** it was discovered that the end shackle pin was protruding from its normal position. ~ the cable **podizati sidreni lanac**

**heave**5 (v) *(boating/yachting)* to stop the boat using the sails or the engine **zaustvaiti jedrilicu / brodicu (jedrima ili motorom)**

**heave alongside** (v) *(ship handling)* **povlačiti brod konopima uz lučku obalu / vez**: 200206 During berthing operations the back spring had been put out and was being used to **heave the vessel alongside** into position.

**heave anchor** (v) *(ship handling, seamanship)* **podignuti sidro**: Gone out of the relative shelter given by Ile de Groix, the master decided to **heave anchor** and to reposition. As the crew tried to **heave anchor** once again they noticed that their anchor appeared to be fouled with the ground tackle of the second tanker. When she attempted to **heave the anchor** and get under way, the hydraulic windlass motor suffered a catastrophic failure and the cable ran out to the bitter end. **heave home the anchor**

**podići sidru u sidreno oko**: We proceeded to **heave home the anchors** and get underway.

**Heave and Away!** **Ho-ruk!** (uzvuk pri potezanju konopa)
heave around (v) (navig) to revolve the drum of a capstan, winch or windlass to pull the line, rope or cable https://officerofthewatch.com/tools/maritime-dictionary/; haul in a line, usually by means of a capstan or which okretati bubanj vitla (radi povećanja konopa), povezati uže vitlom
heave away /'hiːv ə'weɪ/ (v) (seamanship) to haul away; An order to haul away or to heave around a capstan (pull). https://officerofthewatch.com/tools/maritime-dictionary/ povlačiti (olabavljenjeno) uže vitlom, Povlačite (konop vitlom)!!; 2 (seamanship) to heave around a capstan; pull okretati bubanj vitla (radi povlačenja i napinjanja užeta)
heave down (v) (boating/yachting) turn a ship on its side (for cleaning); careen nagnuti (brod, brodicu radi čišćenja dna i bokova)
Heave ho! (seamanship) a call for extra collective effort; poticajni uzvik ili naredba Jače! (vuci, diži itd.)
heave in (v) = haul in 1 (seamanship) to haul in a line or cable; take in line or cable povlačiti (konop / lanac vitlom na brod), uvlačiti (konop, lanac), vući konop (na brod, bez zatezanja), rikuperat, Italian:virare: As the tug began to heave in the tow wire, the towing winch suffered a burst hydraulic oil line which could not be immediately repaired. Heave in easy! The spring that was being heaved in began paying out rapidly as the drum could not take the weight due to loss of hydraulic power. As the capstan heaved in the wire, the crew manually flaked about 75 metres of it on the deck to achieve the desired length of tow. The ship’s crew changed from manual hauling to using a winch to heave in the tow line.; 2 podizati lanac sidra, Italian:virare: As the cable continued to heave in, the bob weight operated the limit switch, but once again the motor failed to stop and the cable continued to be heaved in. ... she let go both anchors but due to her headway, she continued to close with our vessel, while we tested our engine and continued to heave in our anchor cable. To avoid contact with it, the Mooring Master insisted that instead of using a short kick ahead on the engine, the chafe chain be released by heaving in some slack. Once the engines were running, I began heaving in our port anchor but it was slow going at the start, especially as we were dragging at a fast rate backwards towards the beach. When three cables away, she let go both anchors but due to her headway, she continued to close with our vessel, while we tested our engine and continued to heave in our anchor cable. The Master of the bulk carrier began to heave in their port anchor and to maneuver the vessel to avoid coming into full contact with the drifting vessel. (https://safety4sea.com/)
Heave in easy! (seamanship) Podižite polako! (o sidru)
heavenly body (n) (navig) nebesko tijelo
heave on (v) 1 (seamanship, ship handling) natezati (uže, konop), zatezati (konop), napinjati (konop, lanac), Italian:agguantare: To bring the bow alongside, the third mate heaved on the starboard breast line and second mate slackened the stern lines. As the winch operator attempted to heave in on the springs, the winch repeatedly stalled and rendered. The tanker was warped ahead safely and correctly positioned by heaving on the after backspring. The forward mooring party, which initially consisted of an officer and two crewmen, was required to slack down the headlines and heave on the backsprings to assist the vessel’s movement along the quay. The C/O was looking at the men on the forecastle and instructing them to heave on the headlines. The vessel was also unable to heave on her stern lines and bow lines simultaneously to keep the vessel alongside ... ~
forward spring zategnite pramčani špring; 2 (ship handling, seamanship) napinjati sidreni lanac, zatezati sidreni lanac: Once fast, the skipper attempted to free the trawl by alternate heaving on the port and starboard warps pulling the vessel towards the fastener
heave out (v) (seamanship, navig) popuštati (konop), ispuštati
Heave right in!; Heave right on! (v) (ship handling, seamanship) order given to heave the anchor up into the hawse Podigni sidro u sidreno oko!
Heave short! (seamanship) to heave in until the vessel is riding nearly over her anchor Lanac okomito!
heave short (v) (seamanship) to heave in until the vessel is riding nearly over her anchor, i.e. at short stay povlačiti se po sidru (tako da brod dođe okomito na sidro)
heave taut (v) (seamanship) to haul in until the line has a strain upon it napinjati konop jako dok ne bude zategnut, povući jako konop (uže), Italian:mettere in forza; arridare
heave the lead /,hi:v 'lɛd/ (v) (navig, seamanship) The operation of taking a sounding with the hand lead (to find bottom). https://officerofthewatch.com/tools/maritime-dictionary/ mjeriti dubinu mora olovnicom
heave the rope on the winch (v) (seamanship, ship handling) povlačiti konop vitlom, zatezati konop vitlom: He was accompanied by the bosun and another able seaman, they were both heaving the port guy rope on the warping drum of the winch.
heave tight = heave taut (jako, čvrsto) napinjati (konop) dok ne bude zategnut: The officer was operating the winch. On heaving the sternline tight, one of the seamen used a stopper to secure the rope in readiness for it to be turned up on the bitts.
heave to (v) 1 (navig, boating/yachting) (in extremely heavy weather, or while waiting for entering the port) to bring vessel on a course on which she rides easily and hold her there by the use of the ship's engines (holding a position), just just enough to maintain steerageway; stopping or reducing headway of the ship just enough to maintain steerageway zavlačiti brod (u olujnom nevremenu), čekati na moru za ulaz u luku: The vessel remained stubbornly beam on to the wind despite all attempts to heave to with the head into the sea and swell. The Master found himself unable to hold the ship's head into the wind and heave-to due to the severity of the weather. As sunset approached he advised the passengers and crew of his intentions to heave-to; he then turned the ship into the wind and sea and reduced speed, predicting that the depression would pass ahead of his intended track. An alternative option would have been to heave to at sea. Be extremely conservative when estimating speeds for a passage. It is much better to err on the slow side. You can almost always slow down or even heave-to, but it is much harder or impossible to make up for lost time.; 2 (boating/yachting) stop a sailing vessel by lashing the helm in opposition to the sails zaustaviti se jedrima
heave up (v) 1 (ship handling, seamanship) podići sidro (u sidreno oko),
Italian:virare l'ancora, podizati lanac sidra: You must heave up anchor. Pilot staation to Master: Heave up and proceed to berth! Having embarked a pilot, a vessel had heaved up her anchor and was under way. The vessel heaved up anchor and started proceeding towards a new position closer inshore in an already crowded anchorage. Have your crew on stand by for heaving up anchor when the pilot embarks. Stand by for heaving up%!: While heaving up the port anchor in an area with strong current, the anchor appeared to be fouled; We were heaving up the port anchor in a position where the depth of water was 60 metres. The port anchor was quickly heaved up and with a single astern engine movement, we were able to safely clear the wharf and head out to sea. ~ anchor! Podigni sidro!;
2 (ship handling, seamanship) podizati (lanac sidra): Heave up port cable. ... due to heaving against the prevailing tidal stream, at times submerging the gunwale. It is also likely that, due to heaving on the anchor cable, the ship had minimal headway.
The push rod and rocker arm is heavy and the engine must overcome the inertia of these heavy parts. The old ropes were heavy and difficult to handle, and had a tendency to get caught under fenders. ~ rod teška motka; 2 (meteorol) jak (kiša) ~ rain jaka kiša: By now, heavy rain had reduced the visibility to about 3nm; it had also adversely affected the quality of the picture on the bridge radar displays. ~ knocking jako lupanje (u motoru): Light knocking

heavy

on the anchor cable, the ship had minimal headway. ; 3 (seamanship, ship handling) podizati (labavo, slobodno uže), podignuti (uže): Then third mate proceeded to heave up a head line and the OS was asked to heave up the starboard breast line. Then third mate proceeded to heave up a head line and the OS was asked to heave up the starboard breast line. Within 10-15 seconds of the OS being asked to heave up the starboard breast line a loud sound of parting rope was heard. The aft mooring team on the cargo vessel took up the slack in the messenger lines and attempted to heave up the tow wire by hand. The second officer looked down at the tow wire and gesticulated to the welder to heave up the messenger line. Within 10-15 seconds of the OS being asked to heave up the starboard breast line a loud sound of parting rope was heard. ~ on the line napinjati uže, zatezati uže: the mooring party does not seem to have appreciated that it is extremely dangerous to heave up on the spring whilst the vessel is still moving ahead at speed and that merely stopping the engines does not take the way off of the vessel. It is extremely dangerous to heave up on the spring whilst the vessel is still moving ahead at speed and that merely stopping the engines does not take the way off of the vessel. ; 4 (seamanship, safety) podizati (brodicu za spašavanje, splav itd.), podignuti (brodicu, spalv itd.): When I received his signal, I started to heave up the boat from the poop deck winch station while two seamen were guiding the aft part of lifeboat on to the slides.

heaving (n) 1 (ship handling, seamanship) bacanje, dobacivanje (konopa na obalu); 2 (ship handling, seamanship) potezanje (olabavljenog užeta, lanca); 3 (ship handling, shipping econ) podizanje sidra: This had been done prior to heaving anchor. ; 4 (seamanship) potezanje (rampe), povlačenje: I was told by the CO and Bosun that the hinged ramp door could not be hove in fully, and that the final heaving and tightening was done with two crew members jointly hauling on the two chain blocks hooked on to the hinged flap.

heaving (n) (nav arch, navig, ship handling) COMPARE ship's motions alternate lifting and lowering of the ship with the water podizanje trupa broda (zbog gibanja mora), poniranje: The Pilot stated to the investigating team that the vessel was not rolling or heaving but yawing. As heaving continued, the messenger line slipped off the side of the warping drum, causing the tow wire to drop back down towards the tug.

heaving line (n) (seamanship, ship handling) a small line thrown to an approaching vessel, or a dock as a messenger https://officerofthewatch.com/tools/maritime-dictionary/; A line with a weight at one end, heaved across an intervening space for the purpose of passing over a heavier line. (http://www.quarterdeck.org/index.html) bacalo, pandul, Italian: sagola: Indeed, the chief mate had previously instructed all deckhands to leave the heaving lines attached to the head and stern lines. The next stage was to pass over the stern and head lines using heaving lines and secure them onto two of the turntable’s bollards. Indeed, the chief mate had previously instructed all deckhands to leave the heaving lines attached to the head and stern lines. When our vessel was approximately 15-20 metres from the berth, an aft spring line was sent ashore by heaving line and secured.

heaving to (=heaving-to) (n) 1 (navig, safety) zavlačenje broda (u nevremenu); 2 (navig) zavlačenje broda pri dolasku u luku (ako nema veza odmah pri dolasku); 3 (boating/yachting) zaustavni položaj, zaustavljanje jedrima; 4 zaustavljanje jedrilice;

heavy /ˈhevi/ (adj) 1 težak: The push rod and rocker arm is heavy and the engine must overcome the inertia of these heavy parts. The old ropes were heavy and difficult to handle, and had a tendency to get caught under fenders. ~ rod teška motka; 2 (meteorol) jak (kiša) ~ rain jaka kiša: By now, heavy rain had reduced the visibility to about 3nm; it had also adversely affected the quality of the picture on the bridge radar displays. ~ knocking jako lupanje (u motoru): Light knocking
leads to automatic adjustment of the pilot fuel timing and cylinder-specific air–fuel ratio; heavy knocking leads to load reduction or a gas trip.; 3 (oceanogr) velik, visok ~ seas visoki valovi: A fully-laden bulk carrier lost steerage in heavy seas due to flooding of the steering gear compartment by sea water.

**heavy cargo** *(n)* (cargo) teški teret, teški tereti: When the wave hit, the heavy cargo probably moved slightly, and the tie bars failed, allowing the deck cargo to move further.

**heavy crane** *(n)* (cargo handling) dizalica za teške terete: Using the heavy crane, an iron pipe (so-called ‘pile’) of 85 metres in length weighting 425 tonnes and with a diameter of about 3.6 m.

**heavy cruser** *(n)* (navy) teška krstarica big gun ~ teška krstarica s velikim topovnima

**heavy damage** *(n)* (cargo handling, safety) jako oštećenje suffer ~ pretrpjeti jako oštećenje: There were no injuries but the boat suffered quite heavy damage., sustain ~ pretrpjeti jako oštećenje: This resulted in the jib lowering out of control, falling heavily on the open hatch covers and sustaining heavy damage.

**heavy-duty** *(adj)* izdržljiv, jak, koji radi u teškim uvjetima ~ test test izdržljivosti: Extensive heavy-duty field tests with MTU high-speed engines in fast ferries are said to have demonstrated the ability to reduce engine wear, extend draining intervals and lower fuel consumption., ~ work rad u teškim uvjetima: e., One of the easiest methods to help however, vulnerable to abrasion and prevent movement of a deck cargo, is to not suitable for really heavy-duty work., ~ engine izdržljiv stroj, stroj za rad u teškim uvjetima: Heavy-duty high-speed engines, ~ shoes teške radne cipele, teška radna obuća: Wearing non skid, heavy duty shoes was a must. In winter, with ice and snow on the gangplank it was a sheer balancing act at times., ~ bearings izdržljivi ležajevi, jaki ležajevi: The crankshaft incorporates hardened large diameter pins and journals forged in one piece and supported by heavy-duty bearings for durability.

**heavy fuel** *(n)* (marine eng) teško gorivo, nafta, mazut

**heavy fuel oil (=HFO)** *(n)* (marine eng) teško gorivo, teška nafta: Conventional heavy fuel oil (HFO) used by marine vessels contains 3.5% sulphur, meaning ship owners must either buy expensive low sulphur fuel or install SOx scrubbers to meet the cap. https://www.wartsila.com

**heavy hauler** *(n)* (US, cargo handling) teški kamion, kamion za teške terete

**heavy lift** teški teret, teško koleto: The stricken drilling rig has started its journey aboard a heavy lift ship more than two months after the rig ran aground in the North Sea.

**heavy lift cargo** teški teret(i)

**heavy lift cargo gear** uređaji za rukovanje teškim teretima

**heavy lift clause** *(n)* (mar law) prijevoznik ne snosi ni troškove niti rizik za ukrcaj i iskrcaj tereta (koleto) koji prelazi određenu težinu (DP) klauzula o teškim teretima

**heavy-lift derricks** *(n)* (cargo handling) samarice za teške terete: Some ships have
special heavy-lift derricks that may serve one or more holds.

**heavy lifting beam** geda za teške terete: Heavy lifting beams are suitable for heavy and long articles such as locomotives, boilers or railway passenger coaches.

**heavy lift ship** (n) (nav arch) brod za teške terete: The heavy-lift vessel ... 19 arrived in Los Angeles carrying two new gantry cranes for the West Basin Container Terminal at the Port of Los Angeles. The stricken drilling rig has been loaded onto a semi-submersible heavy lift ship.

A large inbound vessel was approaching the pilot station in a gale and heavy rain and was instructed to prepare combination ladders on both sides. We approached the One Fathom Bank beacons via the recommended southern side of the traffic separation scheme in visibility at times less than 500 metres in heavy rain. As mistakes in providing the figure can be made and cargo can be wetted by heavy rain whilst stored in the open or during loading, the moisture content of the cargo should be monitored.

When the water has large or breaking waves in stormy conditions...
failure.

**heavy ship** (n) *(navig, ship handling)* težak brod (za manovrnu okretnja): Pilot: “How is she turning?”; Master: “She is good but maybe she’s heavy”.

**heavy traffic** (n) *(navig)* gust promet, jak promet: There is heavy traffic in the area of ... After turning the ship around in heavy traffic and steaming back about 15 miles, the Master anchored in the chosen spot in depths of about 25 m, paying out five shackles. In heavy traffic situations, doubling of the watch should be considered if there is a possibility of the OOW being distracted by other tasks, ...

**heavy weather** (n) *(meteorol)* Stormy conditions, including rough, high seas and strong winds

https://www.ypiyachts.com nevrijeme: Heavy weather damage: Three container vessels have recently suffered heavy-weather damage to deck equipment, bow structure, anchor and containers.

**heel** 1 (n) *(seamanship, navig)* the term heel is used to describe a ship that has been forcibly inclined by external forces (wind, wave, etc.); The sideways incline of a sailing vessel due to the force of the wind.

nagibu broda: Although your vessel may appear to have good initial stability, ensure that downflooding does not occur before 40 degrees of heel so as to maintain an adequate righting moment at greater angles of heel. The boat ran aground and her angle of heel increased to 30° as a result of heavy wind and waves. ... specific consideration should be given to ensure the viability of passenger muster stations following the effects of a large angle of heel. It has been estimated that these intakes would have been immersed at only 17 degrees of heel. The boat was brought onto the desired heading and was making about 41/2 knots when she grounded violently, and after a few bounces took on a substantial angle of heel.

2 sideways incline of a sailing vessel due to the force of the wind

http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ nagib (usljet vjetra), nagnuće, Italian: sbandamento: This includes understanding what impact the vessel’s speed, heading, heel, and trim will have on the crew as it abandons ship. Despite the skipper’s efforts, he was unable to free the dredge or correct the heel before downflooding occurred into the engine room via the vents sited under the bulwark. the ship has a ~ brod se nagnuo, angle of ~ kut nagiba broda: Although your vessel may appear to have good initial stability, ensure that downflooding does not occur before 40 degrees of heel so as to maintain an adequate righting moment at greater angles of heel. The boat ran aground and her angle of heel increased to 30° as a result of heavy wind and waves. ... specific consideration should be given to ensure the viability of passenger muster stations following the effects of a large angle of heel. It has been estimated that these intakes would have been immersed at only 17 degrees of heel. The boat was brought onto the desired heading and was making about 41/2 knots when she grounded violently, and after a few bounces took on a substantial angle of heel.

2 sideways incline of a sailing vessel due to the force of the wind

http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ nagib (jedrilice); 3 (boating/yachting) peta (jarbola): Before the mainsail could be reefed, the heel rapidly increased, and at about 0320 the boat very quickly inverted, trapping the skipper inside the cabin.

**heel** 1 (v) COMPARE list 1 (seamanship, navig) naginjati se (usljet vjetra, valova): At very close range the target began to heel and she turned to PORT. A large wave hit the vessel on her port side, causing her to heel about 35° to starboard, before she came back to an average of about 25°. The vessel immediately yawed and heeled to starboard. The ship rolled very heavily several times, heeling the ship to more than 30°.

2 (boating/yachting) naginjati se (jedrilica): There was an 8 -10 knot north-easterly wind, and the boat was on a port tack and heeling about 15° to starboard when the first reef was put in the mainsail just before midnight. By 0245 the wind had increased to 25 knots, gusting 35 knots, and the boat was heeling 25° to starboard.

**heeling** 1 (seamanship, navig, ship handling) nagibanje (broda) ~ angle kut nagibanja: Heeling angle equivalent to a GZ-value equal to 50% of GZ-max; The angle at which the working deck immerses; 15 degrees, suffer severe ~ nagnuti se jako (o brodu): The vessel suffered a sudden severe heeling over to starboard.

2 (boating/yachting) inclination caused by the wind’s force on the sails of a sailing vessel naginjanje (jedrilice): This creates initial instability and results in heeling to an angle where the ship becomes stable again (lolling).

**heeling arm curve** (n) *(nav arch)* krivulja poluga nagibnoga momenta

**heeling force** (n) *(boating/yachting)* sila naginjanja
heeling moment (n) (stabil) nagibni moment
heeling moment curve (n) (nav arch) krivulja nagibnoga momenta
heel over (v) (navig) nagnuti se: The impact caused her to heel over violently, and seas poured in over her port quarter.
height /hɛlt/ (n) visina ~ of the waves visina valova: Concern grew as the height of the waves and the pitching and rolling of the vessel increased. A Significant Wave Height of 6 metres was predicted, with a maximum wave height of 9.5 ~ of tide visina plime: Taking into account the height of tide of 1.4 metres and an estimated squat of 0.9 metre, the vessel would have grounded at a charted depth of 10.13 metres,...
height of observer's eye (n) (navig) visina očišta
held covered (adj) (mar ins) klauzula povrede jamstva, klauzula drži se pokrivenim
helical gears /ˈhelɪkəl/ (n) (marine eng) a gear in which the teeth are cut across the face at an angle

helicopter /ˈhelɪkɔptər/ (n) (safety) helikopter winch a person into the ~ podić osobu vitlom u helikopter: The pilot and the two crew members were then winched into the helicopter and taken ashore, rescue ~ helikopter za spašavanje na moru: The coastguard immediately activated the inshore and all weather lifeboats, rescue helicopter and coastal rescue teams to search the area for possible survivors. The captain contacted the coastguard via Digital Selective Calling who alerted the rescue helicopter and two lifeboat stations. A rescue helicopter carrying a doctor arrived after approximately 45 minutes, SAR ~ helikopter u sastavu Službe traganja i spašavanja: The man who had collapsed to the deck was winched off the boat by SAR helicopter and taken to hospital, and two others that had been transferred ashore at the slipway were also taken to hospital by air ambulance, ~ evacuation evakuacija helikopterom, izvlačenje helikopterom: The doctor requested helicopter evacuation for the injured man, who was subsequently airlifted to hospital for treatment, a helicopter has ditched into the water: The marine pilot on board the MV ... witnessed the helicopter ditch into the water and immediately notified harbor control, which in turn advised AMSA just before midnight local time.
helikopter se srušio u more, dispatch the ~ poslati helikopter (u pomoć): The Coast Guard dispatched a helicopter crew to the ship in distress The vessel made contact with Maritime Rescue Coordination Centre and a helicopter was dispatched to the vessel.

helicopter carrier (n) (navy) nosač helikoptera
helicopter landing / take off (n) (safety) slijetanje / polijetanje helikoptera:
"Helicopter landing area" means an area on a ship designed for emergency landing of helicopters.

**helicopter operations** (n) (safety) Helicopter operations are commonly used on ships for crew changes, pilot embarkations and disembarkations, medical and other emergency lift offs.

**helicopter rescue** (n) (safety) spašavanje helikopterom, evakuacija

**helikopterom:** This enabled a prompt distress call to be made to the coastguard, which quickly initiated a helicopter rescue.

**helideck** /'helidek/ (=heliport) (n) (nav arch, safety) A heliport located on a fixed or floating offshore facility such as an exploration and/or postaja za helikoptere (na platformama itd.)

**heliograph** (n) (safety, navig) signalno zrcalo za privlačenje pozornosti i slanje poruka pogibelji s pomoću odsjaja Sunčevih zraka sa spasilačke jedinice heligraf

**helipad** /'helipæd/ (n) (nav arch, safety) plataforma za slijetanje / poletanje

**helikoptera), helipad:** Helipad on a modern ferry boat.

**heliport** /'eliport/ (=helidrome; rotor station) (n) (nav arch, safety) postaja za helikoptere, helidrom shipboard ~ A purpose-built shipboard heliport is one designed specifically for helicopter operations. (https://www.icao.int/) brodska paluba za helikoptere

**helix** /'hiːliks/ (n) (marine eng) the spiral curve shape used on plungers kosi izrez (na plovku pumpe goriva), kosi žiljeb (na plovku pumpe goriva): The helix of the pump plunger is shaped so as to raise Pmax throughout the part-load range and thereby reduce part-load brake specific fuel consumption.

**hell piece** 1 (nav arch) peta statve; 2 (boating/yachting) petica

**helm** (n) 1 (nav arch) kormilo: No significant alteration of course was detected from her and rather than waste precious time on the VHF, I ordered our helm 20.. Under the master’s guidance, the OOW was at the helm again for most of the two hour cruise, … When the master realised that the next port hand mark, a light-float, was now on the starboard bow, he used both helm and engines to try and manoeuvre the vessel towards the main channel. The berthing pilot began the manoeuvre to turn the tanker using a combination of engine, helm and tug movements. respond to ~ reagirati na kormilo: The rudder stalled and the boat failed to respond to the helm, take the ~ preuzeti kormilarenje: The OOW changed to hand-steering and instructed his lookout to take the helm. The pilot then took the helm and ordered the the master to reduce speed to 7 knots, ~ a-weather kormilo u vjetar, ta. barra al vento, put the ~ amidstships staviti kormilo u sredinu: About 30 seconds later, the chief officer noted that the ship was approaching the northern breakwater arm at the entrance, and put the helm amidstships to slow the rate of turn. The bank suction effect on vessel A became
progressively more pronounced, requiring increasing starboard helm; placing the helm amidships caused the vessel to sheer to port. 

He reacted by applying full starboard helm, order hard port / starboard helm zapovijediti da se kormilo stavi sve lijevo / desno: Meanwhile, the bulk carrier’s OOW had also been contacted by the TSS services and after a short conversation this OOW ordered hard port helm., order the helm 20 degrees zapovijediti da se kormilo okrene 20 za stupnjeva: No significant alteration of course was detected from her and rather than waste precious time on the VHF, I ordered our helm 20., ~ TAKE OVER button dugme za preuzimanje kormila: The officer pressed the helm TAKE OVER button and confirmed; the helmsman then confirmed he had hand steering, amount of ~ kut kormila, stupanj zakreta kormila: The ship started to turn quickly to port and the pilot was not aware of the amount of helm the master had applied. The superintendent was told about a minute later, by which time he had ordered slow ahead and had increased the amount of port helm., order ~ amidships izdati zapovijed za kormilo u sredinu, order the ~ into manual zapovijediti prebacivanje na ručno kormilarenje: I ordered the helm into manual and the Third Mate gave the signal indicating that we believed the target to be the giving way vessel., automatic ~ automatsko kormilo: When the vessel cleared the approaches to the harbour, the skipper set a course on the automatic helm to pass on his port side a small island, which lay about 2 miles to the south-west., apply XY degrees of ~ (u desno /lijevo) okrenuti kormilo XY stupnjeva: During the execution of his orders, the helmsman applied a maximum of 10° port helm to achieve an average ROT of about 10° per minute.

www.gov.uk/maib; 2 kormilarsko kolo helm-a-weather (n) (seamanship) kormilo u vjetar, Italian:barra al vento helm control (n) (ship handling) kontrola na kormilom, sposobnost kormilarenja brodom: When the ship is underway with a stern swell running at the same or slower speed, the rudder becomes ineffective and helm control is only restored by giving short kicks ahead. It should be standard practice to make sure that the helm control is always in the midships position before switching over to a new helm control station. helmet /ˈhelmɪt/ (n) (safety) kaciga safety ~ zaštitna kaciga: Although he was wearing these safety helmet at the time of the accident, and despite receiving prompt medical assistance, the injuries the OS sustained to his head were felt.: helm hard to port (=helm hard-a-port) (navig) kormilo sve u lijevo: At 0557 the vessel was swinging quickly to starboard; the pilot again ordered the helm hard-to-port, the engine to full ahead and the OOW to steer a heading of 071 degrees. The pilot also ordered the helm ‘hard-a-port’. helm hard to starboard (=helm hard-a-starboard) (navig) kormilo sve u desno: Two minutes later, the vessel’s engine was stopped and the pilot ordered ‘dead-slow-ahead’ and the helm hard-to-starboard: Twenty five seconds later PV called B and urged her to immediately put her helm hard-a-starboard, this was again confirmed by B. helm indicator (n) (navig) pokazivač otklona kormila: A few minutes later, the gyro off-course alarm sounded (vessel still on autopilot) and the helm indicator showed the rudder to be moving to starboard. The exterior bridge wing helm indicator illumination was very poor and could not be seen
from the superintendent’s position.

**Helm input** (n) *(navig)* informacije za kormilarenje, ulazni podaci za držanje kormila: The pilot had previous experience of the vessel and knew that she required constant helm input to resist her tendency to yaw.

**Helm instructions** (n) *(navig)* upute za kormilarenje: The pilot had a clear view from the crane, but he had no need to give any helm instructions to the pulling tug and only occasional helm instructions to the pushing tug.

**Helm orders** (n) *(navig)* = steering orders zapovijedi za kormilarenje, naredbe za kormilarenje: Meanwhile, with the port helm order, the tanker had turned almost 90deg from her original heading, but could not avoid a glancing contact on her starboard quarter with the crossing vessel. As the vessel was swinging to port, he reduced the helm order to port 10o and then engaged in a VHF radio conversation to arrange passing with an outbound vessel, ... The Quartermaster (QM) was not given a helm order, or a course to steer, and instead was given broad directions on what he should do. This can only be achieved by the good seamanship practice of habitually checking the rudder angle repeater after each helm order has been given.

**Helm port** (n) *(sailing vessels, nav arch)* provlaka kormila

**Helmsman** (=steerman) (n) 1 a seaman (usually an able-bodied seaman) who steers the ship by turning the helm kormilar, timunjer; Italian: timoniere, a seafarer (usually able-bodied) who steers the ship by turning the helm: The International Convention on Standards of Training, Certification and Watchkeeping for Seafarers (STCW) requires that a helmsman be able to understand and respond to helm orders in English. The bridge team consisted of the master, officer of the watch (OOW), helmsman and a pilot. An AB helmsman, and the second officer, who was on the engine controls, accompanied the master on the bridge. The bridge was manned by the master, second officer, helmsman, and a pilot who had conduct of the vessel.; 2 COMPARE crew :4 kormilar jedrilice
hemp (n) (seamanship) konoplja: A prominent risk while carrying certain cargoes is oxygen depletion due to the inherent form of the cargo, for example, self-heating, oxidation: cargoes such as jute, hemp, flax, sisal, kapok, cotton and other vegetable fibres ... ~ rope konop od konoplje

herring (n) (fishing) haringa
herringbone (n) ribija kost

hesitate (v) oklijevati: If there is any doubt, do not hesitate to call the emergency services to seek advice or to arrange treatment. OOW must use all available equipment and controls and must not hesitate to use the whistle when needed; OOW must not hesitate to call the master;

hesitation (n) oklijevanje: ... and during the subsequent discussion of the trawler the operator asked the OOW whether he intended “to do a 360...” After some hesitation the OOW confirmed that this was his intent. called on and the officer should have no hesitation to do so.

hex nut (n) (marine eng) šesterokutna matica

hide (cargo) koža raw ~ sirova koža

high (n) = anti-cyclone; anticyclone (meteorol) an area of high pressure, usually accompanied by anticyclonic and outward wind flow anticklona

high, wide and handsome (adj) (boating/yachting) jedriti s povoljnim vjetrom

High Bay Storage system (n) (cargo handling) Instead of stacking containers directly on top of each other, as has been global standard practice for decades, the High Bay Storage system places each container in an individual rack compartment. ladičarsko skladište za kontejnere: With this (High Bay Storage system) design, each container can be accessed without having to move other containers, enabling 100 percent utilization in a terminal yard. https://www.arabianbusiness.com

high cube container (=high cube) (n) (cargo) High-cube containers are similar in structure to standard containers, but taller. In contrast to standard containers, which have a maximum height of 2591 mm (8’6), high-cube containers are 2896 mm, or 9’6, tall. High-cube containers are for the most
part 40' long, but are sometimes made as 45' containers. The superstructure of High Cube (HC) containers is approximately 30 cm higher than that of standard 40Ft GP containers, making it possible to load higher elements and/or more goods. The seaborne freight is often equal to that of a standard 40Ft GP container. 

https://www.logisticsglossary.com/term/hc/ visoki kontejner: The 48-foot (14.63 m) shipping container is a High Cube container in that it is 9 ft 6 in (2.90 m) tall on the exterior. It is 8 ft 6 in (2.59 m) wide which makes it 6 inches (15 cm) wider than ISO-standard containers. On the stack weights screen or the bay plan, the only clue indicating the presence of a high-cube container may be the letters HC (high-cube) instead of perhaps DC (dry container 8'6?).

**high cube reefer** *(n)* *(cargo)* The superstructure of High Cube Reefer (HR) containers is approximately 30 cm higher than that of standard 40Ft RE containers, making it possible to load more goods, while the seaborne freight is often equal to that of a standard 40Ft RE container. 

https://www.logisticsglossary.com/term/high-cube-reefer visohi rashladni kontejner, visoki kontejner-hladnjak

**hike** /haik/ *(boating/yachting) Leaning out over the side of the boat to counteract heel

https://www.ypiyachts.com sjesti na razmu / kraj palube jedrilice, visiti na razmi
hiking straps (n) (boating/yachting) trake za noge

Himalaya Clause (n) (mar law) A clause in a bill of lading (supra) extending to specified third parties, such as servants or agents of the carrier (supra) and independent contractors (e.g. stevedores and terminal operators) employed by the carrier, the benefit of the exemptions, limitations, defences and immunities of the carrier under the bill of lading.

odredba (u teretnici) pod nazivom Himalaya o pravima i obvezama trećih strana (podugovarača)

hindrance (n) (navig, safety) smetnja, ometanje, prepreka: The abandoned ship is in full darkness and is now a dangerous hindrance to navigation.

hinge (n) (marine eng) šarka, britvela, osovinica: The chief engineer tried to raise the stern ramp, but once it reached an angle of 45 degrees it was evident the hinges of the ramp were damaged. Had a suitable method of Non-Destructive Testing been carried out on the door hinge components, after the cracks were discovered, it might have been possible to determine the depth and extent of the cracks. This resulted in the booby hatch inadvertently moving on its hinge while the person was using the hatch; some injuries have resulted.

hinged door 1 (nav arch) vrata s osovinama / šarkama: The lower frame box is on the front of the engine provided with a large hinged door for each cylinder.

brodska rampa (na ro-ro brodovima): Then suddenly, the rubber seal disengaged from the fixed ramp section causing the hinged ramp to swing down on to the cadet.
hinterland  (n) *(shipping econ, logist)* a geographical area (domestic and international) covered by a logistical distribution point (e.g. port) zaleđe *(npr. luke)*, gravitacijsko područje
luke: The consignment was destined for a project site *deep in the hinterland*, involving transportation on a single lane road by special trailer for a distance of nearly 900 kilometres from the discharge port.

`~ lučko zaleđe (ekonomsko i prometno), lučko gravitacijsko područje`

hip towing  (n) *(navig, ship handling)* A method of towing whereby the vessel being towed is secured along-side the towboat. https://officerofthewatch.com/tools/maritime-dictionary/ bočno tegljenje, tegljenje s tegljačem uz bok broda

hire  (v) 1 *(mar law)* zakupnina, najam broda, *naval, Italian:* *noleggio*; 2 [Fr.: loyer or loyer d’affrètement] [Span.: precio o tarifa] [Itt.: prezzo di noleggio] [Gr: Mietzins] - The consideration (monetary compensation) in bareboat, demise and time charterparties.

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm] A sum of money paid to the shipowner by a charterer for the use of a ship.; Money paid by a charterer to a shipowner for the hire of a ship taken on time charter. It may be expressed, for example, as an amount per day or per deadweight ton per month, hire is payable, by agreement, at regular intervals such as monthly or semimonthly, normally in advance. http://www.tkmglobal.net/chartering_H.HTM

najamnina (broda) (u ugovorima na vrijeme i ugovorima o zakupu), zakupnina (broda) vessel daily ~ dnevna najamnina za brod, off-hire clause klauzula o (privremenom) prestanku najma /čartera, klauzula /odredba) o prestanku plaćanja najamnine, payment of ~ plaćanje zakupnine, neplaćanje vozarine (u prijevoznom ugovoru), non-payment of ~ neplaćanje zakupnine, neplaćanje vozarine, fixed daily ~ fiksna dnevna najamnina broda: The voyage time and port time are calculated and multiplied by the fixed daily hire., ~ money najamnina (broda) (u ugovorima na vrijeme i ugovorima o zakupu), zakupnina (broda)

hire  (v) 1 *(mar law, shipping econ)* unajmiti, uzeti u najam ~ a ship unajmiti / iznajmiti brod: A company had hired a class V passenger vessel., ~ a boat / barge unajmiti brodicu / teglenicu: At the discharge port, a slop barge was hired and the contaminated ballast from the fuel tanks was duly disposed ashore. A 12 metre long, twin screw charter boat was hired by a team of divers for 2 days of diving., ~ to iznajmiti (nekome), ~ from unajmiti od; 2 *(mar law, shipping econ)* iznajmiti, dati u najam; 3 unajmiti (osobu, stručnjaka): In some cases special skilled personnel may need to be hired, like electricians and others. However, the terminal staff were concerned about the paint can, which had sunk releasing more paint so a diver was hired to recover it before the ship departed.

hire rate  (n) iznos najma broda, iznos najamnine broda: On the LNG market ... the global demand for cleaner fuels has continued to rise and *hire rates* for ships remain near $200k/day.

hit  (v) 1 *(navig, safety)* udariti u ~ the dock udariti u gat: The ship hit the dock head., ~ the berth udariti u obalu / vez: First the stern hit the berth and a few minutes later the bow of the container vessel which was moored ahead was violently hit by our starboard side midship section and, ~ the ship udariti u brod: In less than 30 seconds she hit the bow of the mother vessel at a speed of about 18 knots. so to pass south of the buoys found herself in a very close quarters situation with the next inbound vessel and I was amazed how shear managed to avoid hitting either this vessel or the buoys., ~ the
**reef udariti u greben:** The group continued to watch for any signs of waves breaking over hidden obstructions when suddenly **the RHIB hit a submerged reef** and came to an abrupt stop. ~ **the buoy udariti u plutač:** Seconds later, **the ship hit the buoy** with her starboard quarter. ~ **the quay udariti u lučku obalu:** The vessel **hit the quay**, and then the link span, causing significant damage to both the ferry and the port facilities. ~ **the waves udariti u valove, naći na jake valove:** Six passengers and one crewmember were injured when **the vessel hit the waves**. ~ **the rock udariti o stijenu / hrid:** He put the vessel astern, but it was too late and they **hit the rocks** on the port side of the channel. ~ **the button pritisnuti dugme:** However, he too was unable to take control, so the master hit the **engine emergency stop button**. ~ **the bridge udariti u most:** Mooring lines failed and **the vessel drifted and hit a nearby bridge**. ~ **the water udariti u površinu vode / mora:** Mobility of back injuries to persons sitting on tubes is also considerably greater due to the twisted position of the spine and the shock of the boat **hitting the water**. As soon as this button was pressed the FRB descended at high speed **hitting the water** about 18 metres below. ~ **get biti pogođen (olujom, orkanom):** The cargo ship was anchored off the coast of Japan when it **got hit** by the typhoon; 2 **udariti (osobu, člana posade, dio tijela), pogoditi:** The end of the rope **hit the winch operator** causing severe injuries, the 3rd officer also just missed being injured by the other rope. **The rope hit the Chief Engineer** who was checking the mooring winch operation. The crew in the vicinity recognised the danger and started to move clear, but the rope parted and **hit two of the crew on the head** as it recoiled. During the securing of one container, the chain broke at the hook and hit a stevedore on the head. **The seaman was hit by the mooring line** and was killed almost instantly. As his head came level with the nozzle, it suddenly jerked clear and whipped violently, hitting him on the face.

**hitch** (n) *(seamanship) COMPARISON bend - COMPARE knot* a knot that secures a rope or line to an object, a stanchion, mooring ring, bollard; Hitches are used to bend a rope to or around an object, such as a ring, spar, or stanchion. **uzao, volta:** However, before the eye was sufficiently slack to be removed from the bitts, the **messenger’s hitch** failed and the AB hastily attempted to reattach the messenger to the mooring rope’s eye. Poor seamanship: entangled mooring ropes, perhaps caused by passing them through the same fairlead and fitter’s initial hitch on the mooring rope’s eye was unreliable due to lack of expertise; **bowline ~ petljica, back-wall ~ uzao za kuku, rolling 1 dvostruki vrzni uzao, half ~ poluuzao, timber ~ dvostruki ribarski uzao, clove ~ vrzni uzao, without a ~ (figurative) bez problema:** The process continued without a **hitch** until the davit arms were fully swung out and the boat began to lower.
small echo. To show that echo, press and hold down the HM OFF key to temporarily erase the heading mark. Release the key to display the heading mark.

**HMS** (=H.M.S.; Her/His Majesty's Ship) (n) (navy) brod Ratne mornarice Velike Britanije, brod Kraljevske mornarice (GB): He was the Navigating Officer of HMS .... . During his naval career he was a bridge watch keeper and commanded the aircraft carrier HMS .......

**HNC** (=Higher National Certificate) (n) (mar law) SEE academic awards in ship officer programmes (UK) - Marine Engineering SEE academic awards in ship officer programmes (UK) - Navigation A full-time Higher National Certificate (HNC) takes one year to complete, or two years part-time. Many HNC courses cover the same subjects as an HND, but an HNC is one level below an HND (it's generally equivalent to the first year at university).

(https://www.whatuni.com/advice/choosing-a-course/what-is-a-hnd-and-a-hnc/2116/) **potvrđnica o završenom jednogodišnjem ili dvogodišnjem višem stručnom studiju**: A full-time Higher National Certificate (HNC) takes one year to complete, or two years part-time.

**HND** (=Higher National Diploma) (n) (mar law) SEE academic awards in ship officer programmes (UK) - Marine Engineering SEE academic awards in ship officer programmes (UK) - Navigation A Higher National Diploma (HND) is a work-related course provided by higher and further education colleges in the UK. A full-time HND takes two years to complete, or three to four years part-time. Generally an HND is the equivalent to two years at university.

(https://www.whatuni.com/advice/choosing-a-course/what-is-a-hnd-and-a-hnc/2116/); Generally an HND is the equivalent to two years at university **svjedodžba o završenom visokom stručnom studiju ~ in Nautical Science**: He gained a Master Mariners Certificate and HND in Nautical Science and served as Master aboard four of the company’s vessels. **svjedodžba o završenom visokoškolskom stručnom studiju nautike, HND Marine Engineering svjedodžba o završenom visokom stručnom studiju brodskog strojarstva, Higher National Diploma (HND) in Nautical Science Diploma o završenom visokoškolskom stručnom studiju nautike: The Academy offers a full deck officer cadet programme by a Higher National Diploma (HND) route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW ’95 II/I OOW), and the Higher National Diploma (HND) in Nautical Science.**

Higher National Diploma (HND) in Marine Engineering **svjedodžba o završenom visokoškolskom stručnom studiju brodskog strojarstva**: The Academy offers a full engineer officer cadet programme by a Higher National Diploma (HND) route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Engineer Officer’s Certificate of Competency (STCW ’95 III/I OOW), and the Higher National Diploma (HND) in Marine Engineering. **Foundation Degree - Marine Electro-Technical Officer (METO) Diploma o završenom visokoškolskom stručnom studiju brodskog časnika elektrotehnike: Warsash Maritime Academy offers a full marine electro-technical officer (METO) cadet programme by a foundation degree route, leading ultimately to the award of: HNS (=hazardous and noxious substances) (n) (environ, safety, cargo) ... if the chemical concerned has i) a low biodegradation rate or high persistence, ii) a high bioaccumulation rate
or iii) is classed as toxic / flammable / explosive / corrosive or reactive, it is likely to be considered as HNS (https://www.itopf.org/knowledge-resources/documents-guides/hazardous-and-noxious-substances-hns )

opasne i štetne tvari ~ Fund The Fund financed by contributions paid by receivers of HNS, or titleholders for LNG cargo in some cases, that have been transported by sea to the ports and terminals of Member States. fond za prijevoz opasnih i štetnih tvari (koji plaćaju primatelji tereta): The HNS Fund will have up to four accounts, with separate accounts for oil, LNG and LPG and a general account for bulk solids and other HNS
https://www.hnsconvention.org/hns-reporting/, list of HNS popis opasnih i štetnih tvari

HNS Convention (=International Convention on Liability and Compensation for Damage in connection with the Carriage of Hazardous and Noxious Substances by Sea) (n) (safety, environ, cargo, mar law)
The 2010 HNS Convention establishes a comprehensive, uniform and global set of liability rules covering pollution damage from hazardous and noxious substances carried by ships, as well as the risks of fire and explosion, including loss of life, personal injury and loss of or damage to property.
(https://safety4sea.com/) Međunarodna konvencija o odgovornosti i naknadi štete u svezi prijevoza opasnih i štetnih tvari morem: The Convention is increasingly important as the carriage of HNS by sea is growing by almost all ship types including: container ships, chemical, liquefied natural gas (LNG) and liquefied petroleum gas (LPG) tankers.

HO (=hold) (n) (shipping econ) brodsko skladište, štiva
hoaxes reports /'hoʊks/ (n) (safety) izvješća o lažnim uzbunama o pogibli
hogging (=arching) (n) (nav arch) the distortion of a vessel's hull when her ends drop below their normal position relative to her midship portion; dropping of ship ends pregib (broda):
Longitudinal Stresses created by Hogging and Sagging can be very severe and can cause a ship to break up

hogshead (n) (cargo) bačva (pivska)
https://www.kilgraney.com/KFoakbarrels.htm
hoist (n) 1 (cargo handling) vitlo: The operator released the hoist and luffing lever controls and pushed the 'power off' button. full ~ position; 2 (cargo handling) uređaj za dizanje tereta (na dizalici): They disconnected the crane hoist wire, and stayed in the lifeboat while the crane jib was lowered.; 3 (cargo handling, marine eng) koloturnik, čekrk, parank, paranak: After the accident, the overhauling stand was properly aligned to be in line with the chain hoist and
purifiers; 2 Fleet circular issued instructing all vessels to discuss the incident at the next safety meeting. Thread the slings through the lifting eyes and fit them to the hook of the hoist. Realising the emergency, other crew members rushed to the site with a portable lever hoist (chain block) and managed to relieve the stress and free the trapped men.

~ the flag podići zastavu, istaknuti zastavu

hoist (n) (navig) podigač (zastave, oznaka)

hoist (v) (navig) podići, istaknuti (zastavu), Italian: issare: It is also safer when you need to make fast only one hook and you are ready to hoist a whole lifeboat up. Each time the crew tried to hoist the ladder, it descended rather than moving up. The tender was then positioned immediately below the vessel’s crane, which was used to hoist the tender and transfer it to its stowage position on the sun deck.

~ the flag podići zastavu, istaknuti zastavu

hoist (v) (boating/yachting) podignuti jedro, podići jedro, Italian: issare ~ the mainsail podignuti glavno jedro

hoist (n) (nav arch) dizalo (za peljara), lift pilot ~ peljarsko dizalo

hoist (n) (safety) podigač (uže za podizanje osoba na helikopter)

hoist = pilot hoist peljarsko vitlo pilot ~ peljarsko vitlo: The pilot then sailed with the ship to test the port pilot hoist and reported that this was satisfactory. Case 1 deals with the failure of a pilot hoist and happened to a pilot disembarking from a high sided vessel on the UK coast shortly before midnight.

hoist away (v) (seamanship) An order to haul up.

https://officerofthewatch.com/tools/maritime-dictionary/ podizati do sljedeće naredbe

hoist in (v) (seamanship) hoist an object to a required height and swing it in podići do željene visine i zakrenuti (brodicu za spašavanje)

hoist out (v) (seamanship) swing out and lower away zakrenuti i spuštati (brodicu za spašavanje)

hoist out of the water (v) (boating/yachting) izvući iz mora / vode: Then we were strapped into the Travelift and hoisted out of the water.

hoist speed (n) (cargo handling) brzina dizanja (uredaja za dizanje tereta na dizalici)

hoist system (n) (cargo handling) uredaj za dizanje (na dizalici)

hold /həʊld/ (n) (nav arch) the space or compartment between the lowermost deck and the bottom of the ship, or top of the inner bottom if one is fitted (SeaSources.net) brodsko skladište, skladište, štiva: A typical mid-size ship may have five or six holds; three or four forward of the machinery space and superstructure, and one or two aft. There, he plotted the vessel’s position on the chart before checking the hold and hull for damage. i al report from the Hong Kong SAR Marine Accident Investigation Section While berthed and after discharging cargo, crew were instructed to clean the hold. work a ~ ukrcavati / iskrcavati brodsko skladište, cargo ~ brodsko skladište, štiva: Forced ventilation or adequate natural ventilation must be carried out prior to admitting any personnel into cargo hold carrying logs. This type of cargo is liable to self-heat, and can therefore reduce the levels of oxygen within the cargo hold, , upper gornje skladište, lower ~ doljnje skladište: Clean the tween deck(s) before opening lower hold(s). The chief officer instructed that the main deck and lower hold were to be washed in accordance with the appropriate work order., ~ space brodski skladišni prostor, prostor skladišta, No. 3 ~
brodsko skladište br. 3: It was refused by the consignee, the Calcia company, because a 30 cm layer of water was above the cargo in the number 3 hold. The bosun of a self-unloader ship equipped with a deck gantry crane and stackable hatch pontoons was instructed to open cargo hold no. 3, bulkcarrier skladište broda za rasutet terete

http://marinesurveypractice.blogspot.hr/2013/01/bulk-carriers.html, ~ bilge system kaljužni sustav skladišta: With the hold bilge system already pumping out two holds, a crew member was instructed by the chief officer to enter the third hold to attend to the portable pump, ~ bulkhead pregrada skladišta: In general, was in poor condition with heavy scaling on all surfaces and large wasted holes in the deck beams, especially those adjacent to the former hold bulkhead, ~ ladder ljestve brodskog skladišta: Because of the poor light in the hold, the seafarer decided to use a light cluster placed close to the top of the hold ladder to illuminate the whole space, ~ ventilation ventilacija skladišta, prozračivanje skladišta: All hold ventilation was stopped and
the engineers isolated electrical power to the forward part of the ship.

**hold** (v) držati, zgrabiti ~ the ship's head in ... držati pramac broda u smjeru

...: The Master found himself unable to **hold the ship's head in the wind** and heave-to due to the severity of the weather, ~ **down the button** pritisakati dugme: The group were advised of the need to **hold down the DSC button** for at least 5 seconds, after which the transmission would be acknowledged by a "beep", ~ **position** držati poziciju broda: We positioned the vessel 3nm east of the NE bound lane to keep well clear of the traffic and maintained the vessels head into wind and tide to **hold position**, in other words no longer RAM, ~ **the port / starboard bow** držati se na sidru lijevo / desno po pramcu: “**Hold the port bow, and take up** slowly on the port stern, Ok, all stop. On the bridge, how do we look now?”

**hold a ship** (v) **(mar law)** zadržati brod: A freighter is being **held** in the port of Duluth amid an ongoing investigation into alleged violations of U.S. environmental law.

**hold beam** (n) **(sailing vessels, nav arch)** sponja skladišta ~ knee-rider okvirno koljeno sponje skladišta, ~ lodging knee horizontalno koljeno sponje skladišta, ~ shelf dopodsponjak skladišta, ~ clamp podsponjak skladišta, ~ waterway proveza sponje skladišta, ~ spricketting nadproveza sponje skladišta

**hold-beam clamp** (n) **(sailing vessels)** podsponjak donje palube

**hold-beam spricketting** (n) **(sailing vessels)** nadproveza donje palube

**hold-beam waterways** (n) **(sailing vessels)** proveza donje palube

**hold ceiling** (n) **(sailing vessels)** nutarnja oplata skladišta; **2** (nav arch) podac, drveni oblog dvodna

**hold coaming** (n) **(nav arch)** pražnica skladišta, pražnica grotla: They were sent to weld a doubler plate to a corroded steel box section on the upper deck, adjacent to the **deck coaming** of a 5845m3 **tween deck hold coaming**. Two ABs were sweeping out cargo residue from the trackways between the side-rolling hatch covers and the **cargo-hold coaming** when the bosun decided to remove the securing pins in anticipation of closing the hatches.

**holder** /ˈhouldə/ (n) **(mar law)** A person that is in possession of a negotiable transport document; and (i) if the document is an order document, is identified in it as the shipper or the consignee, or is the person to which the document is duly endorsed; or (ii) if the document is a blank endorsed order document or bearer document, is the bearer thereof (Rotterdam Rules 2009); **The person to which a negotiable electronic transport record has been issued or transferred** (Rotterdam Rules 2009) **imalac, Imalac prenosivog prijevoznog dokumenta**: Cargo must only be delivered to the holder of the original B/L or his agent. ~ **of the original B/L** Holder means any Person rightfully in possession of the Bill of Lading or the named Consignee in the event the Bill of Lading is non-negotiable. **imalac originalnog primjerka teretnice**

**holder of the bill of lading** (n) **(mar law)** any person rightfully in possession of a particular Bill of Lading or the named Consignee in the event the Bill of Lading is non-negotiable **imalac teretnice**

**hold hatch** (n) **(nav arch)** grotlo brodskog skladišta: Crucially, the hold lights were left on throughout loading and after the **hold hatches were closed**. Beam trawler arrangement had been
dredged: 45 bags were in the fish hold and 7 were on the fish hold hatch waiting to be stowed.

hold hatch cover (n) (nav arch) poklopac grotla brodskog skladišta, grotleni poklopac: The cargo hold hatch covers and ventilators were then closed.

holding capacity (n) (boating/yachting) snaga držanja sidra: There are four common factors that can cause an anchor to drag: poor bottom, short scope, insufficient shock absorption, and yawing. Each of these reduces the holding capacity of the anchor, PracticalSailor.com

holding-down bolts (n) (marine eng) pričvrsnii vijci glave cilindra, pritezni vijci glave cilindra: Cylinder heads: individual, with six holding-down bolts, housing caged exhaust valves and air inlet valves seated on pressed-in seat inserts; valve operation is by Y lever-type gear.

holding ground (n) (seamanship) The type of bottom that the anchor is set in.

holding power (n) (ship handling) jačina držanja (sidra, lanca): Tandem anchoring is a recognised technique for improving holding power on a single chain. ~ of anchor (boating/yachting) jačina držanja sidra: The first thing which must be considered, apart from the anchor itself, is the complete anchor tackle, especially the rode and its effect on the holding power of your anchor.

holding tank (n) 1 (nav arch, marine eng) tank za zadržavanje (ulja, prljave vode itd.): Once the engine had cooled, the contents of the lub-oil drain tank were transferred to a holding tank and the lub-oil drain tank was inspected. ates, the bilge high-level alarms should be placed just above the point where, under normal working conditions, the accumulation would be pumped to a holding tank, overboard, or through an oily water separation system if required. 2 (boating/yachting) A storage tank where sewage is stored until it can be removed to a treatment facility. https://www.ypiyachts.com/ spremlnik za fekalije

hold inspection (n) (cargo) pregled skladišta

hold ladder (n) (nav arch) ljestve u brodskom skladištu

hold on 1 (n) (seamanship, ship handling) držati (se na užetu), zaustaviti (uže), agvantat, zadržati se (na užetu) Hold on the line! Uhvati uže! (i prebaci ga na bitvu ili vitlo), Prihvatite konop!, Čapaj cimu!, Agvanta cimu!, ~ aft breast line Držite se na zadnjem bočnom konopu; 2 (seamanship, ship handling) držati, uhvatiti Hold on tight! (seamanship) Drži čvrsto!, Nategni (konop)!

(safety) držati se (za nešto): Life-rings were thrown to him, but he was unable to hold on, and once again he drifted away from the boat. The man then made a grab for the rail but could not hold on, and fell in.

hold on 2 (v) (comm) biti na vezi, ostati na vezi: Hold on! Ostanite na vezi!

hold onto the manrope (v) (safety) držati se za rukohvat, držati se za uže rukohvata: the pilot was holding onto the man ropes, while the pilot boat was pitching and the gunwale sliding down along the shipside with the manrope(s) between the gunwale ...

hold pillar (n) (nav arch) upora skladišta, stup u skladištu

hold platform (n) (nav arch) platforma u brodskom skladištu

hold someone responsible for (v) (shipping econ) držati nekoga odgovornim
za, smatrati nekoga odgovornim za: We hereby hold you fully responsible for the damage to the subject cargo. Ovime Vas držimo u potpunosti odgovornim za štetu na predmetnom teretu.

**hold space** (n) (nav arch) brodski skladišni prostor, prostor brodskog skladišta: For a given trade, hold spaces are usually designed so that the ratio of bale cubic to deadweight is 10 to 15 percent greater than the overall stowage factor of the goods carried to allow for more rapid cargo handling and broken stowage.

**hold-stanchion** (nav arch, sailing vessels) = orlop beam upora doljne palube

**hold the carrier harmless** (v) (shipping econ, mar law) držati / smatrati da prijevoznik nije krv: We agree to hold the above named carrier harmless and indemnified against any and all lawful claims which may be made against the carrier arising out of the same shipment.

**hold the stern off the berth** (v) (seamanship) COMPARE hold the stern on the berth držati krmu dalje od veza, držati krmu na razmaku od veza

**hold the stern on the berth** (v) (seamanship) držati krmu uz vez / obalu: In addition to the mooring lines, a tug was being used to hold the vessel’s stern on the berth while its bow thrusters were being used forward.

**hole** (n) (safety, boating/yachting) rupa (na trupu broda), škulja: The hole in her hull was first seen when illuminated by a rescue helicopter. Leaning over the side of the boat, they could see a section of shell plating at the waterline, opening and closing the hole as it moved about in the seaway. As a result of the collision, the RIMAC took on water due to a hole in the area of the port side of cargo hold 5; however, this did not compromise her buoyancy. As the pilot boat’s coxswain passed the ship’s stern to take off the pilot, he reported to the master and pilot that he could see a hole in the ship’s port quarter. Some of them fall into the water which could cause us danger and pollute the water by protruding from the ground under the ship and piercing a hole in the bottom plating. The vessels collided, ripping a large hole in the ferry’s engine room. block a ~ začepiti rupu, ~ in the forepeak tank rupa u tanku

**pramčanog pika**: The Coast Guard reported a hole in the forepeak tank with water ingress, a hole in the bow thruster, metal damage to the bulb and along the port side. www.g.captain.com, tear a ~ stvoriti rupu, napraviti rupu: The collision tore a hole in the ship’s waterline, flooding the ship’s hold.

**hole** probušiti, napraviti rupu (na trupu broda): The starboard bow’s shell plating was holed 2 metres above the waterline. It soon became apparent that the ship had been struck and holed on the port side aft above the waterline. MAIB accident reports

**holiday** (n) (seamanship, figurative) An imperfection, spots left unfinished in cleaning or painting.

https://officerofthewatch.com/tools/maritime-dictionary/ propust pri bojanju ili čišćenju broda

**holing** (n) 1 (safety, boating/yachting) rupa na brodici / jahti; 2 nastajanje rupe

**hollow** (adj) (marine eng) šupalj, izdubljen, prazan: The push rods are usually hollow in order to obtain the stiffness without unnecessary weight, Camshafts: modular design with one cam element per cylinder; they are hollow and form the main lube oil supply to the engine.

**Home Address** (n) (mar law) kućna adresa

**home port** (n) (mar law) luka pripadnosti: A scallop dredger returned to her home port and landed her catch. The ship had suffered only minor damage and returned to her home port for repair the same day. SE 19 Better to be Safe Than Sorry Narrative First incident: On a Tuesday morning, a 28m, wooden-hulled, 60-year old beamer sailed from her home port to her fishing grounds. The ship was then able to make a further loaded trip to the home port where permanent repairs were carried out in a shipyard.
home port  (n)  *(shipping econ)* port from which a cruise ship loads passengers and begins its itinerary, and to which it returns to disembark passengers upon conclusion of voyage  

homing (=houminj)  (n)  1 *(navig, marine eng)* ugadanje (radiofrekvencija), reguliranje; 2 *(navig)* ploidba ravno prema radio faru ili radiogoniometru; 3 *(safety)* navodanj ~ signals *(safety, comm)* signali navođenje: Locating signals are radio transmissions intended to facilitate the finding of a mobile unit in distress or the location of survivors. *(ITU-R)*

homing frequency  (n) *(comm)* frekvencija navođenja na cilj

hone /ˈhoun/ *(marine eng)* A cylinder finishing tool using an abrasive stone for removing metal.  
(http://www.marinedieseleurope.com/)  brusni kamen, kamen za honanje

honing /ˈhounɪŋ/ *(marine eng)* Conditioning of the engine cylinder with a rotating abrasive.  
(http://www.marinedieseleurope.com/)  vlačno glačanje, fino brušenje, honanje, honovanje: Careful machining followed by full deep honing to remove all damaged hard phase from the liner surface reportedly delivers an ideal running surface for the piston rings, ... lube oil consumption are fostered by a chrome-ceramic piston ring coating, an anti-polishing ring at the top of the cylinder liner and special honing of the liner surface.

honors /ˈonərz/ *(navy)* Ceremonies conducted in honor of a visiting dignitary, usually involving side boys and, occasionally, a band and honor guard.  
(http://www.quarterdeck.org/index.html)

hook  1 *(cargo)* kuka, ganač; Italian:gancio: The AB secured the lifting hook, and the second officer, who was operating the recovery davit on the vessel, then pushed the winch “start” button to raise the boat. The hook had failed due to ductile overloading. can ~ kuka za bačve: Can or barrel hooks are suitable for hoisting barrels or drums, crane ~ kuka dizalice: Meanwhile, the disconnected cargo hoses were still suspended from the deck crane hook and were temporarily lashed to the hose saddles at the side railings. Always watch the crane hook when it is being moved, cargo ~ kuka za teret: Ship’s staff instructed the stevedores to be more safety conscious and ensure no person or vehicle to come directly under the cargo hook at any time, boat ~ kuka brodice za
spasavanje: After two attempts where the heaving line fell short the seafarer, holding a boat hook, placed himself right next to the aft fairlead’s stag-horn, looking upwards., davit ~ kuka sohe: The limit switch itself was activated by a circular block which was lifted when in contact with the davit hook.
lifeboat ~ kuka brodice za spasavanje: Root cause/contributory factors Inadequate understanding and/or improper operation of the lifeboat hook on-load release system and resetting procedure; The forward hook had not been correctly reset; quick-release ~ brzootpusna kuka, towing ~ kuka za tegljenje: However, while the tug was pulling at full power, the towline slipped from the towing hook and entered the water near the vessel’s stern.

(boating/yachting) kuka na mezomarineru mooring ~ kuka na mezomarineru

hook ~ (n) (fishing) udica circle ~ okrugla udica

https://bcfishingjournal.com/project/tip-4-beads-and-hook-sizes/

hook point ~ (n) (fishing) vršak udice, oštrica udice
hook pull ~ (n) (navig) snaga na kuki (za tegljenje)
hookup (n) (ports) priključak (za vodu, gorivo itd.) water hookups lučki priključak za vodu

hoop stresses (n) (marine eng) a normal stress in the tangential (azimuth) direction obodna naprezanja: Because of the resulting higher pressures in the cylinder from the combustion of the greater mass of fuel, and the larger diameters, the liner must be made thicker at the top to accommodate the higher hoop stresses, and prevent cracking of the material.

hopper 1 (n) (cargo) lijevak, lijevak bunkera (za iskrcaj rasutih tereta): When the grab is also used, the iron ore would be discharged into a hopper, feeding by gravity a railway wagon or road vehicle below. 7 Grab bucket of the on-shore crane grabs cargo and drops it into hopper.

https://www.diytrade.com/china/pd/10891344/Fixed_Type_Prot_Hopper_for_Port_Unloading_Bulk_Cargo.html; 2 bager, jaružalo s lijevkom; 3 bunker (dizalice za rasuti teret)

hopper barge (n) (nav arch) klapeta, maona s dnom na otvaranje

http://ganzdanubius.eu/products/split-hopper-barges/

hopper tank (n) (nav arch) donji bočni tank: On the inclined plates of the hopper tanks and in the lower hold and the lower stool of the transverse bulkhead, extensive damage in the shape of groove corrosion was found with depth up

horizontal longitudinal shift of centre of gravity (n) (nav arch) horizontalni uzdužni pomak sustavnoga težišta broda

horizontal transverse shift of centre of gravity (n) (nav arch) horizontalni poprječni pomak sustavnoga težišta broda

horizontal-tube boiler (n) (marine eng) kotao s položenim cijevima, kosocijevni kotao

horn (n) (boating/yachting, comm) sirena, rog za zvučne signale, klakson: The yacht has no engine and is sounding fog horn as required. He also sounded his horn in compliance with Rule 34d. fog ~ signalna sirena za maglu: mainder of the crew, and started taking evasive action by switching the steering from autopilot to manual, going hard to port and sounding the fog horn., blast on the ~ znak sirenom: However in this case, the skipper saw no crew members on the deck of the receiving ship and sounded several blasts on his horn to attract attention., ship's horn

brodska sirena: Master observed a tug and barge approaching from the North on a collision
course, *sounded ship’s horn* several times to give attention to the Master of the tug, but no reaction. As the fishing vessel closed, the anglers shouted and *sounded the boat’s horn*, but this had no effect; they also tried to cut the anchor rope.

https://www.trekearth.com/gallery/Central_America/Panama/East/Panama/photo1272515.htm

**horn cleat** *(seamanship)* kljuna, kljunasta bitva

**horn timber** *(sailing vessels)* srednje rebro krmnenog okvira

**horse** *(boating/yachting)* a footrope on a square rigged sailing ship that is found at the extreme outer end of the yard *uže za stajanje na križu jedrenjaka*

https://en.wikipedia.org/wiki/Yard_(sailing)

**horse latitudes** *(meteorol)* COMPARE trade winds the latitudes on the outer margins of the trades where the prevailing winds are light and variable

https://officerofthewatch.com/tools/maritime-dictionary/ promjenjivi vjetrovi, *konjske širine*

**horse mackerel** *(fishing)* = *Jack mackerel* lat. *Trachurus spp.* šarun, širun, šnjur, srun

**horsepower; (=HP; hp)** *(marine eng)* *konjska snaga*: The boat was fitted with a *90 HP engine*, and there were two 150N lifejackets and a buoyancy aid carried in a kitbag. The 12 cylinder version weighs in at 2000 metric tons and delivers *90,000 Horse Power* at 100 Revs per minute, with best
fuel economy at 53,244 HP at 90 Rpm. The engine weighs in at 2,300 tons and is capable of delivering 109,000 horsepower. A 4 metre RIB with a 150 horsepower engine, providing a top speed of about 50 knots (Figure 1), ulated by the naval architect, and, once the chosen engine is coupled to a fixed pitch propeller, the relationship between engine horsepower, propeller revolutions and ship speed is set according to the fixed propeller curve.

British ~ britanska konjska snaga, nominal ~ nazivna konjska snaga, shaft ~ snaga na osovini: By using the indicator to calculate mean indicated pressure and thus indicated horsepower, and the torsionmeter to calculate shaft horsepower (shp) from torque readings and shaft revolutions, ... brake ~ snaga na kočnici: Performance

An important parameter for a marine diesel engine is the rating figure, usually stated as brake horsepower (bhp) or kilowatts per cylinder at a given revolutions per minute, indicated ~ indicirana snaga: By using the indicator to calculate mean indicated pressure and thus indicated horsepower, and the torsionmeter to calculate shaft horsepower (shp) from torque readings and shaft revolutions,

horseshoe buoy (n) (safety) A floatation device shaped like a U and thrown to people in the water in emergencies. https://www.ypiyachts.com/ kolut za spašavanje

horseshoe life preserver (n) (boating/yachting) kolut za spašavanje u obliku

hose (n) 1 (cargo handling) savitljiva cijev (za prekrcaj tekućih tereta, nafte itd.), fleksibilna cijev (za prekrcaj tekućih tereta, nafte itd.), gumena cijev, savitljiva cijev (gumena, platnena, sintetička), maniga: The discharging pressure was reduced at the request of the terminal, due to a leakage in the shore flexible hose. The hoses are connected to the tanker, which discharges the cargo to the buoy and then to an undersea pipeline that runs ashore, and connects directly to the refineries by other pipelines. Heavy hoses, laying on the floor, are a trip hazard; not to mention they can be easily damaged, tangled, twisted, confusing and dripping residue liquids. cargo ~ savitljiva cijev za iskrcaj/ukrcaj nafte (i drugih tekućih tereta), maniga, ukrcajna / iskrcajna cijev za naftu (i druge tekuće terete) The duty officer had not checked that the ABs had blanked the manifold after the cargo hose had been disconnected, which, although not a checklist item, was a company operating procedure., flexible floating ~ savitljiva plutajuća cijev (za naftu), shore ~ obalna fleksibilna cijev, obalna maniga: The terminal or cargo interests' representative should be requested to sign a dry tank certificate and only after this has been signed should shore hoses be disconnected., disconnect the ~ otpojiti cijev, otpojiti obalnu manigu: Shore party reboarded vessel and managed to disconnect cargo hose and lower it to the water., ~-handling crane dizalica za rukovanje ukrcajnim / iskrcajnim cijevima: The use of eye protection should be considered when operating hose handling cranes or other hydraulic machinery where flexible hoses and fittings may be exposed to the aggressive elements of the sea., ~ connection spoj cijevi: One of the hose connections became jammed and a second member climbed out of the tank to assist. The
hose connection routine was then started by picking up the hoses from the mother vessel.

samarica za ukrcajnu / iskrcajnu cijev (za naftu, tekuće terete): Routine maintenance was being carried out on a cargo hose derrick.

While the caustic soda was being pumped out, the hose parted from the pressure side of the pump, spattering one crew member with the caustic solution.

party grupa za rukovanje cijevi za ukrcaj / iskrcaj (nafta, tekuće terete): After about 20 minutes, as the contents of the cylinders were exhausted, the fire began to die out and the hose parties were finally able to enter the burnt out gas storage room and put out the remaining fires, now confined to the control valves of a few cylinder.

derrick

cijev je pukla: While the caustic soda was being pumped out, the hose parted from the pressure side of the pump, spattering one crew member with the caustic solution.

rupture

cijev je pukla: While the caustic soda was being pumped out, the hose parted from the pressure side of the pump, spattering one crew member with the caustic solution.

~ party grupa za rukovanje cijevi za ukrcaj / iskrcaj (nafta, tekuće terete): After about 20 minutes, as the contents of the cylinders were exhausted, the fire began to die out and the hose parties were finally able to enter the burnt out gas storage room and put out the remaining fires, now confined to the control valves of a few cylinder.

~ rupture

cijev je pukla: While the caustic soda was being pumped out, the hose parted from the pressure side of the pump, spattering one crew member with the caustic solution.

~ party grupa za rukovanje cijevi za ukrcaj / iskrcaj (nafta, tekuće terete): After about 20 minutes, as the contents of the cylinders were exhausted, the fire began to die out and the hose parties were finally able to enter the burnt out gas storage room and put out the remaining fires, now confined to the control valves of a few cylinder.

~ rupture

cijev je pukla: While the caustic soda was being pumped out, the hose parted from the pressure side of the pump, spattering one crew member with the caustic solution.

rubber ~ gumena cijev: Sparks from the welding fell through this hole on to electrical cables and rubber hose stored in the workshop below the deck.

suction ~ usisna savitljiva cijev, crpna savitljiva cijev: Tank entry for the tank cleaners and the suction hose was through a manhole located in the engine room at an upper level.

~ coupling

~ failure propuštanje cijevi, zatajivanje cijevi: No abnormal manifold pressures were noted at any time prior to or at the time of the hose failure.

flexible ~ 1

savitljiva cijev, fleksibilna cijev, gumena / plastična cijev, cijev: With the hose partially disconnected in the engine room, the base oil remaining in the hose flowed out under gravity and splashed over the running engine.

~ prsnuta cijev: Eye injury due to burst hose.

~ fittings oprema cijevi (ventili, obujmice, prirubnice itd.), fitinzi za cijevi: An investigation of the fuel tanks found that the fuel pick-up tubes within both tanks had become detached from the tank top fuel hose fittings.

~ leaking ~ cijev koja pušta: The fire continued to be fed by more fuel from the leaking hose. The ship's staff requested the terminal to replace the leaking hose, which took place within next two hours.

~ coupling

~ failure propuštanje cijevi, zatajivanje cijevi: No abnormal manifold pressures were noted at any time prior to or at the time of the hose failure.

flexible ~ 1

savitljiva cijev, fleksibilna cijev; 2 savitljiva cijev: The consequence in this case was that diesel fuel oil was supplied to the fire as the auxiliary engine’s flexibele hose melted.

steam ~ cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

steam ~ cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

~ coupling

cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

steam ~ cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

~ coupling

cjev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

steam ~ cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

~ coupling

steam ~ cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

~ coupling

steam ~ cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.

~ coupling

steam ~ cijev za paru, parna cijev: A steam hose was inserted into the tank, steam pressure was increased and a cargo pump was started to remove any water collecting in the tank.
hose ends (n) (marine eng) An adapter used to connect a hose to another adapter or component.

Hospital Corpsman /ˈkɔːrnən/ (=HM; Doc; Hospital Corpsmen (pl.)) (n) (navy)
The ship maintains two Hospital Corpsman (HM) on board to support the crew with medical treatment, and to provide quick response in case of an emergency. The ship’s Independent Duty Corpsman (IDC), “Doc,” serves as the command’s sole resource for both routine and emergency medical care.

hospitalisation (n) (mar law) hospitalizacija, smještanje u bolnicu: As a result of the spill, the second engineer suffered burn injuries, which required hospitalisation. The incident resulted in the hospitalisation of two crew members during the venting of a cargo tank containing high sulphur crude.

cijevi: The hoses to hydrant in ... are worn. ~ spanner ključ za pritezanje vatrogasne cijevi

hostage /ˈhɒstɪdʒ/ (n) (safety) talac release the ~s osloboditi taoce: All the hostages held onboard the .... ship have been released by ..... pirates after a month in captivity, hold ~ držati za taoce: The pirates seized a cargo ship and held 25 sailors hostage, be taken and held ~ uzeti i držati taoce: Six seafarers were taken and held hostage. The attack resulted in 20 crew members of ___ Nationality being taken hostage.

hot (v) vruć run ~ (marine eng) pregrijati se
hot air gun (n) (marine eng) puhalo vrućeg zraka
hot bulb engine (n) (marine eng) motor sa zagrijanom glavom,

hotel load (n) (marine eng) COMPARE propulsion load various ship service loads (lighting, HVAC etc.) other than the (electric) loads for ship’s main propulsion; The base amount of electricity needed to work the ship. (naval use) hladni pogon: When taking propulsion and hotel load demands into account, the total energy In harbour, the propulsion loads will be absent, whereas the hotel loads will be present. In case of Dynamic Positioning Operations, both hotel loads and propulsion units will be in operation. https://www.marineinsight.com

hotel staff (n) (shipping econ) Those persons on board providing services to passengers and who are not regularly assigned to perform shipboard safety and pollution prevention related duties are considered hotel staff and not part of the ship’s crew as defined above (Shipping Articles) bijelo osoblje: Accordingly, hotel staff are not required to sign Shipping Articles. U skladu s time bijelo osoblje ne mora potpisivati ugovor o ukrcanju

hot gases (n) (marine eng) vrući plinovi: Explosions caused by overheating of surfaces within the engine crankcase or by leakage of hot gases past the piston have always posed a danger. The machine itself is water cooled since it is circulated by hot exhaust gases.

hot glueing /ˈɡluːɪŋ/ (n) (marine eng) vruće lijepljenje

hot spots (n) (safety) vruća mjesta, vruće točke: Check adjacent compartments and
spaces for **hot spots** and secondary fires. No **hot spots** were found and a fire watch covering the hold and adjacent compartments was established.

**hot water wash** *(cargo handling)* *ispiranje tankova vrućom vodom*

**hot work** *(marine eng)* *radovi s otvorenim plamenom*: The port authority approved the **hot work**, which was conditional upon the contractor complying with the ship’s safety management system (SMS). No dedicated fire watch was in place either during the **hot work** or after it was completed.

**hot work permit** *(marine eng)* *dozvola za rad s alatima koji proizvode visoku temperaturu*: Completion of an decision to do so, in this case, resulted in approved **hot work permit** to work the fire re-igniting. It is important to note that the master, chief officer and chief engineer had not issued any **hot work permit** for that day - the crewmembers took it upon themselves to use gas cutting equipment without first informing senior management on board.

**hounding** *(sailing vessels)* *vanjski dio kosnika*

**hound-piece** *(sailing vessels)* *čeljust debla (donjeg dijela jarbola)*

**hounds** *(boating/yachting)* *prednje leto i pripone nisu uhvaćeni za vrh jarbola već na 7/8 visine ili niže oputa na sedamosmskom jarbolu*

**hourglass** *(boating/yachting)* *zapetljani špinaker (na sredini prednjeg leta / štraja)*

**house** /ˈhaus/ *(marine eng)* *to stow or secure anything in its proper place* *smjestiti, biti kućište nečemu*: They have to **house** the inlet and exhaust valves, the fuel injector, the air start valve, relief valve and indicator cock. The head is mounted on the engine block with hydraulically tensioned studs, and is arranged to **house** two inlet and two exhaust valves, all equipped with rotators; The main frame and casing, together with a motor support bracket, **house** the pumping element assembly. 

1 *(boating/yachting)* **spusiti viši dio jarbola (kod jedrenjaka), spremiti**: A top-mast was housed by lowering it and securing it to a lowermast; 2 *(seamanship)* **spremiti i učvrstiti (opremu, teret)**

**house bill of lading (=HBL)** *(mar law)* *COMPARE Groupage Bill of Lading, Master Bill of Lading* *podteretnica koju izdaje špediter kao podtereničku priznanicu u okviru njegove skupne teretnice ili FCL teretnice*; Bill of Lading issued by a forwarding agent to a shipper covering a consignment, which the forwarding agent has grouped with consignments from other shippers to the same destination. The forwarding agent receives one groupage Bill of Lading from the carrier that covers all the consignments.

*http://www.tkmglobal.net/chartering_H.HTM;* A House Bill of Lading (HBL) is issued by an NVOCC operator (non-vessel-operating common carrier), or a Freight Forwarder to their customers.

*(https://shippingandfreightresource.com/)* **kućna teretnica, podteretnica, teretnica izdana od strane špeditera**: In cases where a **House Bill of Lading (HBL)** has been issued by a Freight Forwarder, the Freight Forwarder’s counterpart agent at destination will collect his Original HBL and issue a Release Letter to the main carrier requesting that their Delivery Order be issued to the nominated consignee. https://shippingandfreightresource.com *In the HBL the Shipper will usually be the actual shipper/exporter of the cargo (or as dictated by the L/C); the Consignee will usually be the actual receiver/importer of the cargo (or as dictated by the L/C); the Notify could be the same as Consignee (or any other party as dictated by the L/C)* https://shippingandfreightresource.com/

**house flag** *(mar law)* *Distinguishing flag of a merchant marine company flown from the mainmast of merchant ships. https://officerofthewatch.com/tools/maritime-dictionary/ zastava brodarskoga društva, zastava kompanije*
housing /ˈhaʊзɪŋ/ (n) 1 (marine eng) kućište: Corrosion in the valve housing was effectively minimized by introducing the optimized cooling water system. The thrust bearing housing forms a vessel and contains an oil bath providing additional lubrication for the bearing segments. 35 m/s calling for increased diameters of the main and crankpin journals, and reinforcement of the main bearing housing and bedplate. bearing ~ kućište ležaja: Bearing housing contains cooling oil grooves., crankhouse ~ kućište koljenastog vratila, kućište koljenaste osovine: The crankcase housing has transverse diaphragms between each cylinder to provide water compartments around the cylinder liners., engine ~ kućište motora: The crankshaft damper is mounted outside the engine housing for optimum cooling and accessibility; bolted covers and replaceable nylon bearings permit rebuilding of the damper on site., stern gland ~ kućište brtvenice statvene cijevi, pump ~ kućište pumpe: The pump housing incorporates the compact RTA-series arrangement., valve ~ kućište ventila: The valve housing is made of cast iron and arranged for water cooling, and is provided with a bottom piece of steel with Stellite welded onto the seat. Corrosion in the valve housing was effectively minimized by introducing the optimized cooling water system.; 2 (marine eng) plašt; 3 (nav arch) kućište azimoda, kućište azimutnog porivnika: A podded propulsor (or pod) incorporates its electric drive motor in a hydro-dynamically optimized submerged housing which can be fully rotated with the propeller(s) to secure 360° azimuthing and thrusting capability.

hove in (=heave; arch) hove in; hove in / heave in; heaved in; heaved in) (v, adj) (seamanship) = heave in povučen (uže), uvučen (uže): This resulted in a poor lead for the messenger, which bunched up around the outer edge of the drum as it was hove (=heaved) in. As the trawl wires were hove in, it became apparent that there was an abnormal weight in, or on, the gear. I was told by the CO and Bosun that the hinged ramp door could not be hove in fully, and that the final heaving and tightening was done with two crew members jointly hauling on the two chain blocks hooked on to the hinged floor.

hovercraft (n) (nav arch) vessel designed to ride on a cushion of air formed by downthrusting fans. https://officerofthewatch.com/tools/maritime-dictionary/lebdjelica, plovilo na zračnom jastuku: The hovercraft evacuated the crew from the ice and took them to the port for emergency care control and later back to the vessel. The hovercraft set off at 40 knots.

hove-to (=heave; arch) hove; hove / heave to; heaved to; heaved to) (v, adj) 1 (navig) = heave to čekati na moru (za ulaz u luku ili radi obavljanja popravka): The vessel then hove to in order to recover the ramp. When the ship was hove-to at slow speed the stabilisers became ineffective and acted only as a bilge keel. The vessel remained hove-to all night. Some flooding of forward spaces was caused by wave damage to ventilation pipes when the vessel was hove to, but she reached port without further problems.; 2 (navig, seamanship) zavlačiti (smanjiti brzinu i okrenuti u vjetar u olujnom nevremenu): The speed was reduced and the vessel hove to wind. Fearing bottom contact due to the increase in draught with each roll, we turned around and slowly steamed out to deeper waters and hove to until conditions improved the next day. The weather deteriorated and the vessel was hove to for a day. Even though we were hove to, the seas were still breaking over the after deck and the crew did a magnificent job in rigging the equipment ...

hove-to (=heave; arch) hove; hove / heave; heaved; heaved) (adj) (boating/yachting) zaustavljenat Jedrilica: No avoiding action was taken by the ship, and the yacht finally hove to, resulting in the ship passing ahead at a range of about 0.8 nm.

HOW (=HandOver Word) (n) (navig) COMPARE TLM ričev HOW (predaja signala), Riječ za predaju signala (u GPS navigacijskoj poruci)
How is the cable growing? (seamanship) Kako se proteže sidreni lanac?
How is the cable leading? (seamanship) Kako radi sidreni lanac?
howl /ˈhaʊl/ (v) (meteorol, seamanship, boating/yachting) zavijati, fijukati ~ing wind
vjetar koji zavija /ˈfjuːtʃə
HSC (=Heading Control System) sustav automatskog kormilarenja
HSC (=High Speed Craft) (n) (nav arch) = high speed ship vrlo brzi brodovi, brzi brodovi: I believe that HSC do generally give way to other vessels. On clearing the entrance of the estuary, the master of the HSC retained the con of the vessel and increased speed to about 34 knots.
HSFO (=High Sulphur Fuel Oil) (marine eng, environ) COMPARE LSFO gorivo s visokim udjelom sumpora, gorivo s visokim sadržajem sumpora, gorivo s visokim postotkom sumpora: Apart from the BDN, the PSC will check the soundings of the tanks where the low sulphur fuel is kept or where the HSFO is kept for ships with exhaust gas scrubber www.safety4sea.com The recent tightening in HSFO markets has been caused, to a large extent, by a notable reduction in the supply of HSFO https://www.joc.com › maritime-news › “There is no more demand for 380 CST [HSFO bunkers] on the ex-wharf side, mainly because most delivered bunker demand is now shifting to lower sulfur fuel,” a Singapore-based fuel oil and bunkering source said. https://www.hellenicshippingnews.com/singapore-ex-wharf-hsfo-bunker-premium-sinks-further-to-four-month-low-ahead-of-imo-2020/
hub (n) (nav arch) glavčina (propelera): She sustained major damage, including the total loss of her port controllable pitch propeller hub and a section of tail shaft.
hub port (n) (shipping econ) jedna od većih luka u kružnim putovanjima, npr. luka Dubrovnik, a seaport that serves as a central junction https://www.logisticsglossary.com/term/hub/ glavna luka: As well as being a World-class hub port for containers and new vehicles, Southampton handles a wide range of other trades including cruise ships.

huer, color, background color (n) (navig) kontrola na radaru za namještanje boje na pokazivaču i pozadine pokazivača

hug (v) (seamanship) to keep close https://officerofthewatch.com/tools/maritime-dictionary/ držati se blizu

hulk (n) (seamanship) a worn out vessel stari brod, istrošen brod

hull /hul/ (n) (nav arch) the body of a ship excluding her superstructure, her masts, rigging, and mooring and cargo handling equipment; A hull is a primary structural element ensuring buoyancy as well as total and local durability of a vessel. trup (broda): The fishing vessel sustained damage to its prow and gunwale; the tanker a little paint damage to her hull. Hull girder strength and buckling checks are
carried out on all critical sections along the entire **length of the hull**. There were slight personal injuries and **the hull** was dented. **The hole in her hull** was first seen when illuminated by a rescue helicopter. **The vessel’s hull was surveyed** by divers and, apart from loss of paint, was found to be undamaged. Subsequently, she went into the nearest port where she was unloaded and **her hull was strengthened** with temporary external stiffeners. **The repairs to the hull’s steelwork** caused several days of lost time to the vessel. Had there been more traffic in the area the vessel could have been in collision and, once aground, had the sea been rougher **the vessel’s hull might have breached**. **damage to the ~ oštećenje trupa broda**: The vessel **sustained only superficial damage to her hull coating**. No injuries or pollution had occurred, but the **vessel had suffered damage to her hull and propellers**, **double ~ dvotrupac, brod s dva trupa**: **Probable Cause** The ship is **a double hull tanker**. **underwater ~ podvodni dio trupa**: As a further precaution, a diving team was organised to survey the vessel’s **underwater hull** and rudder area for damage. At the next port, the vessel underwent a routine **underwater hull coating inspection** and the divers reported damage to the propeller blades. **inner / outer ~ vanjski / nutarnji trup**: The WHRB 6.50 was constructed with an **inner and outer hull**.

**hull and machinery insurance** *(n) (mar ins, mar law) osiguranje brodova*: **Hull and machinery insurance** is to protect the shipowner’s investment in the ship. It is basically a property insurance which covers the ship itself, the machinery and equipment.

**hull cleaning** *(n) (nav arch, seamanship) čišćenje trupa (obraštaja dna broda)::* Typically, we observe annually a speed reduction of 2-4%, which is quite significant. It is desirable to have an automatic alarm system in place that will tell us when it is time for **hull cleaning**.

(https://safety4sea.com/) The curve of power versus speed at a fixed draft provides a criterion to decide when hull cleaning is needed. (https://safety4sea.com/)

**hull damage** *(n) (safety) oštećenje trupa, šteta na trupu*: The vessel **sustained significant hull damage**. Only when tank soundings the following day revealed loss of fuel oil from no.2 starboard fuel oil tank, collision with TG1 and **hull damage was confirmed**. **suffer ~ pretrpjeti oštećenje trupa, oštetiti trup**: The icebreaker **... suffered hull damage** in Alaska. However, the container vessel **suffered extensive hull damage**. The ferry **suffered substantial hull damage**, but was able to return alongside without assistance.

**hull deflection** */hʌl,diˈflektʃən/* *(n) (nav arch) izvijanje trupa, savijanje trupa, deformacije trupa:* ..., the importance of the so-called sag of the bedplate is emphasized in order to counteract the hog caused by **hull deflections** as a result of the loading down of the ship, and partly by deformations due to the heating up of the engine and certain tanks.

**hull failure** *(n) (safety, nav arch) a failure affecting the general structural strength of the ship (EMSA2018)*; a failure in the main body of the vessel which protect her inside from water ingress or structural damage (https://safety4sea.com/) **onesposobljeno** **trupa broda**, **strukturalna onesposobljeno** **trupa broda**: A **hull failure**, i.e. loss of hull’s integrity, may be caused by corrosion of vessel’s hull, or by fracture due to overload or as a result of an accident such as collision, contact or grounding. (https://safety4sea.com/)

**hull form** *(n) (nav arch, sailing vessels, boating/yachting) a series of curves which are the intersections of the hull with three sets of mutually orthogonal planes** linije trupa broda*
The hull form is portrayed graphically by the lines plan or sheer plan.

**Hull geometry** *(boating/yachting)* geometrija trupa jedrilice, linije trupa jedrilice

**Hull insurance** *(mar law, mar ins)* osiguranje broda, polica osiguranja broda

**Hull number** *(nav arch)* broj novogradnje (u brodogradilištu), broj trupa

**Hull plating** *(nav arch)* oplata: She sustained minor damage to her hull plating. This dented and punctured the hull plating below the waterline of the vessel trailing the net. Fortunately there were no injuries, but the vessel suffered extensive penetrations to the port hull shell plating.

**Hull repairs** *(nav arch)* popravci na trupu: The vessel was refloated a few hours later on a rising tide, with the assistance of two tugs and was taken out of service for 2 weeks while hull repairs were carried out.

**Hull resistance** *(seamanship, nav arch)* otpor broda, otpor trupa broda: Because of the difference between loaded and trials draught, the hull resistance may be 25–30 per cent greater for the same speed.

**Hull side** *(boating/yachting)* unutrašnja stranica trupa jedrilice

**Hull stress** *(nav arch)* naprezanje trupa: Research and review the technological aids available which would assist masters to measure hull stresses in port and at sea.

**Hull vibration** *(nav arch, marine eng)* vibracije trupa: Since resonance with both the vertical and horizontal hull vibration modes is rare, the standard engine is not prepared for the fitting of such compensators. Hull vibration can only be excited by a low-speed engine if it is located on or near a node of critical hull vibration, and if the frequency of this vibration mode coincides with the first or second harmonic of the engine excitation.

**Human element** *(safety)* ljudski faktor, ljudski element: The guide helps to identify countermeasures to avoid human errors and bad decisions. Discover how to manage the human element on all levels – from the engine room, to the bridge, to the shore.

**Human error** ljudska greška: Human error represented 58% of accidental events and 70% of accidental events had shipboard operations as a contributing factor. www.emsa2018.com The investigation into the collision involving a roll-on/roll-off vessel and a containership in the Mediterranean Sea last October identified human errors on a multitude of levels as the root cause of the accident. www.gCaptain.com

**Human factor** *(safety)* shipboard or engine problems which may occur as a result of operator performance issues rather than the fault of the equipment or engine components. ljudski faktor

**Humanitarian incident** *(safety)* A humanitarian incident occurs if a life-threatening emergency is not related to an aeronautical or maritime SAR incident humanitarna nezgoda, opća nezgoda s opasnosti po živote ljudi: ... SAR units (SRUs) may be tasked for humanitarian incidents to preserve human live or relieve suffering. CAMSAR II – Mission Coordination

**Humidifier** *(marine eng)* uređaj za vlaženje zraka
humidity /ˈhjuːˈmɪdɪtɪ/ (n) 1 (marine eng) vlažnost: Bypass valves on the intercooler are modulated depending on the pressure and relative humidity of the air so that condensation formation can be avoided. MAN Diesel has also pursued NOx reduction by increasing the humidity of the charge air with water vapour. Although the vessel was operating in an area with high humidity, the possibility of more water than usual accumulating in the service tanks was not considered. Increased air temperature, in particular, reduces efficiency and lowers fuel economy; relative humidity has a less significant influence, though at high inlet temperatures an increase in humidity will have an adverse effect on sfc.; 2 (cargo handling) vlažnost: Are the temperature / humidity recorders in the hold(s) operational? The temperature / humidity recorders in the hold(s) will be operational in an hour.; 3 (meteorol) vlažnost: Heat sickness can frequently occur onboard ships due to the extreme temperature and high humidity conditions in which seafarers often work. relative ~ relativna vlažnost

hump /hʌmp/ (n) (fishing) Underwater area higher than the surrounding area. brak
hunting /ˈhʌntɪŋ/ (n) (marine eng) Alternate overspeeding and underspeeding of the engine caused by governor instability. (http://www.marinedieseleurope.com/) regulacijsko kolebanje, povremeno kolebanje brzine (broja okretaja itd.)
hurricane (n) (meteorol) a severe tropical cyclone with sustained winds over 64 knots orkan, uragan: Effect of recent hurricane: navigational warnings about changes to channel depths and unreliable buoys not taken into consideration in the passage plan; What is the latest tropical storm warning? 4 I. The latest tropical storm warning is as follows: Tropical storm warning at ... UTC. Hurricane... (name) / tropical cyclone / tornado / willy_willy / typhoon ... (name) with central pressure of ... millibars / hectopascals located in position. (IMO SMCP) Hurricane Dorian which caused widespread devastation across the Bahamas. https://www.joc.com path of the ~ put orkana: The cargo ship went missing after sailing into the path of Hurricane Joaquin as it sailed from Florida to Puerto Rico., ~ is gaining strength orkan dobiva na snazi: Hurricane Mathew at 11am EDT 1500 UTC is once again gaining strength with max winds now at 120 knots (about 140 mph.), ~ winds orkanski
vjetrovi: It is difficult for me to understand why I could not use the bay for shelter and had to struggle against huge waves and hurricane winds in the open seas instead of getting protection from shore line against the storm., ~ update najnovije informacije o uraganu
hurricane force (n) (meteorol) orkan, orkanska jačina vjetra ~ force storm low ciklonska oluja orkanske jačine, olujna ciklona orkanske jačine: • A developing hurricane force storm low over the west-central North Atlantic continues to move eastward at 35 knots producing winds of 55-75 knots with significant wave heights up to 12 meters (40 feet) within 180 NM south and 120 NM west of the center. Over the next 24 hours max winds will be between 50-75 knots with significant wave heights to 15 meters (50 feet) within 240 NM in the western semi-circle.
hurricane scale ljестvica orkana 1 minimal damage, 2 moderate damage, 3 extensive damage, 4 extreme damage, 5 catastrophic
husbandry /ˈhʌzbəndri/ (n) 1 (mar law) COMPARE ship's husband agent services provided to a ship in the port, for requisite repairs, attending to the management, equipment, and other concerns of the ship; A ship's husband is usually authorized to act as the general agent of the owners, in relation to the ship in her home port.; management of affairs and resources https://www.collinsdictionary.com/dictionary/english/husbandry opći agencijski poslovi za brod u luci (za popravke, opremu itd.): Our ship husbandry services include inspections, repairs, hull cleaning, and propeller polishing. Good husbandry is always to be encouraged, and in this case the skipper wasted no time instructing the crew member to thoroughly clean out and wash...
down the accommodation area. **ship's fire hydrant**

Corporation provides consulting and commercial diving services for all facets of ship's **husbandry** (the inspection, maintenance, and repair of underwater hull and hull appendages of waterborne ships, submarines, tugboats, and other watercraft). Typical services include: Emergency blank, plug, and cofferdam installation, Rudder removal and installation, Habitat installation Screw removal and installation **Underwater inspections including video and still photography Bow thruster removal and installation** Stern tube wraps removal and installation **Un-fouling of vessels’ running gear**

(www.seawardmarinecorp.com/services/ships-husbandry/; 2 farming (mussels etc.) **husbandry agent** (školjaka itd.), **husbandry** (n) **husbandry** (n) **husbandry** (n) **husbandry** (n)

(brodo u luci, ali ne i teretu), agencija za pružanje općih agencijalnih usluga brodu u luci, prvevoznikov agent

**hybrid boat** /ˈhaɪbrɪd/ (n) **hybrid power** (n) **viševrsni pogon** = **hybrid propulsion plant**

**hydraulic** /ˈhaɪdrəlɪk/ (adj) **hydraulic** (marine eng) **hydraulic** (marine law)

Return lines are not designed to take high pressure in most hydraulic systems. Before arrival in extreme cold conditions, hydraulic systems should be carefully inspected, system oil confirmed to be at optimum levels, and condition and oil filter elements renewed or cleaned. The third engineer raised the alarm and the ETO was eventually freed after the hydraulic pressure on the watertight door was released. hidraulična pumpa, **pump** The Chief Engineer found a fault with the CPP **pump** unit which had caused the pitch control to fail. As a result of the crew being in the engine room, the main engines and generators were kept running, although the controllable pitch propeller hydraulic pump had to be restarted to maintain propulsion. **control platform** **upravljanje**

Steering gears can be arranged with hydraulic control equipment known as a 'telemeter', or with electrical control equipment. In principle, this consists of the **ME engine hydraulic control oil system** and an ELGI valve. **control** **control** **control** (n) **control** **control** (n) **control** (n) **control** (n) **control** (n)

Following a temporary suspension in operations due to a hydraulic line failure, the anchor was aweigh at 1039. **control** **control** **control** **control** **control** **control** **control** **control**
to the **starboard hydraulic control platform** and could not find the chief officer. ~ **clutch**

hidraulička izvrstiva spojka, hidrauličko kvačilo: At engine loads above 50 per cent of the optimized power, the power turbine is connected to the crankshaft via a **hydraulic clutch** and flexible coupling, ~ **coupling** hidraulička spojka, ~ **drive system** hidraulički pogon:

The fire pump was in operation to provide cooling water for the windlass **hydraulic drive system**, ~

**governor** hidraulički regulator: Governor The engine revolution per minute is controlled by a **hydraulic governor**, ~ **hose** hidraulička savitljiva cijev, hidraulička fleksibilna cijev: Above the cargo discharge pipe a hydraulic hose was found to be leaking from an end fitting, ~

**machinery** hidraulički strojevi, strojarnica hidrauličkog sustava: The team, led by the C/E, and comprising of the 3/E, J/E and an OS, entered the **hydraulic machinery room** and started the main pump motor, ~ **fluid** hidraulična tekućina: the Chief Engineer instructed the motorman to go to the steering gear flat and mop up a small quantity of accumulated leaked hydraulic fluid, ~ **motor** hidraulički motor: Subsequent operation of the controls resulted in sudden overloading of the hydraulic motor and sheared the drive shaft linkage, ~ **pipe** hidraulička cijev, He was attempting to dismantle a hydraulic pipe on deck to carry out repairs., ~ **piston** hidraulički klip: The tightening force is applied by a hydraulic piston to which oil is fed via the engine’s lubricating/cooling oil system, ~ **power** snaga hidraulička, jačina hidrauličkog sustava, hidraulička energija, hidraulički pogon: The crane’s hydraulic power was drawn from the tug’s port main engine, which had to be running for the crane to operate. As the ship’s port list increased, hydraulic power was lost, resulting in band brakes on the automatic trawl winch system activating.

Hydraulic Electronic Unit Injector (=REVI) (n) (marine eng) An electronically controlled injector that uses hydraulic pressure acting on an intensifier mechanism to produce fuel injection pressure. (http://www.marinedieseleurope.com/) hidraulički elektronički ubrizgač

**hydraulic grab** (n) (cargo handling) hidraulički grabilica: In executing this task, the upper end of pipe, which was lying alongside, was grasped by the heavy crane by means of a hydraulic grab and raised on one side.

**hydraulic jack** (n) 1 (marine eng) hidraulički pritezni uređaj (za vijke): Again the hydraulic jack was pumped to approximately 250 bar pressure, the pin was struck again and the deflected maul landed heavily on the leading seaman’s right hand. There are four bolts at each connection point which help for assembly and removal of the connecting rod, and are tightened to their required torque using hydraulic jack. Extracting the sheave pin appears to be in order, the risk assessment must consider the possibility of two more hazards when applying tension with the hydraulic jack; 1) the rod coming off the the pin due to corroded / wasted threads, and, 2) the threaded rod fracturing, especially if not of approved strength. Therefore, most of the important or big screws are tightened hydraulically on ships such as cylinder head nuts, exhaust valve nuts, for crank pin bearing, cross head bearing, main bearing, tie bolts, etc. (http://marineengineeringonline.com/an-introduction-to-hydraulic-jacks-on-ships/)
hydraulic oil (n) (marine eng) hidraulično ulje: Any leakage of fuel, lubricating and hydraulic oil should be disposed of in accordance with Oil Pollution Regulations at the earliest opportunity. During this operation, a flexible hose on the crane came adrift from its coupling and hydraulic oil under high pressure sprayed out, some of it entering the bosun's eyes. ~ leakage curenje hidrauličkog ulja, puštanje hifrauličkog ulja: Over the years, the steering rams had suffered from hydraulic oil leakage, and the hydraulic oil reservoir and header tank had been regularly topped to cope with the loss of oil.

hydraulic ram (n) (marine eng) hidraulički klip, hidraulička dizalica

hydraulics /haɪˈdrɒljɪks/ (n) (marine eng) hidraulika: The crew were called, and the engineer went to the engine room to start the hydraulics ready for hauling. The skipper tried the main engine stop button, but this did not work either, so he reduced engine speed and engaged the hydraulics to try and stall the engine.

hydraulic tensioning (n) (marine eng) hidrauličko pritezanje (vijaka na motoru)

hydrodynamic effects (n) (navig, ship handling) hidrodinamički utjecaji: It is important that bridge teams consider the hydrodynamic effects their vessels are subject to while
hydrofoil /ˈhaɪdridfl/ (n) (nav arch) A boat that has foils under its hull onto which it rises to plane across the water surface at high speed. https://www.ypiyachts.com/hidrokrilni brod: I recently travelled from Sicily to Stromboli and back again using one catamaran and two separate hydrofoil passenger vessels for different legs of the journey.

hydrographic vessel (n) (nav arch) Vessel designed for the survey of seabed topography, currents, etc., relevant to marine navigation. https://officerofthewatch.com/tools/maritime-dictionary/
brod za hidrografska istraživanja

**Hydrometer /haidrəˈmətə/ (n) (marine eng)** A device which measures the specific gravity (density) of a liquid. (http://www.marinedieseleurope.com) **hidrometar, areometar**

**Hydroplane /haidrəˈplein/ (=plane) (n) (navy)** A horizontal vane on the hull of a submarine for controlling its vertical motion (https://www.thefreedictionary.com/hydroplane) **peraja podmornice**

**Hydrostatic calculation /haidrəˈstætik/ (n) (stabil)** hidrostatski proračun, proračun hidrostatkog stabiliteta ~ for a specific trim hidrostatski proračun za određeni trim, ~ for one waterline hidrostatski proračun za jednu vodenu liniju

**Hydrostatic curves /haidrəˈstætik/ (n) (stabil, nav arch)** dijagramni list broda

**Hydrostatic data /haidrəˈstætik/ (n) (stabil)** hidrostatske informacije broda, hidrostatski podacii broda ~ for even keel and trim hidrostatski podaci za brod na ravnoj kobilici i za trim, Hydrostatic data for intact stability

**Hydrostatic particulars /haidrəˈstætik/ (n) (stabil) = hydrostatic data** hidrostatski podatci

**Hydrostatic release unit /haidrəˈstætik/ (=HRU) (n) (safety, nav arch)** 1 hidrostatski uređaj za otpuštanje, uređaj koji uslijed hidrostatskog tlaka oslobađa splav za spašavanje, EPIRB ili drugo sredstvo kada se pri potonuću brod neđe na određenoj dubini: It had not inflated automatically because the painter had not been attached to the weak link of the hydrostatic release unit (HRU). The hydrostatic release unit (HRU) is secured to an open hook on the cradle. Four months before the accident, the skipper had purchased a new liferaft for the vessel, fitted it with a hydrostatic release unit (HRU) and, thankfully, decided that the crew would benefit from attending another sea survival course, which they subsequently did.; 2 (safety) hidrostatska kopča: The vessel was equipped with a liferaft fitted

- **Hydrostatic stability data (n) (stabil)** hidrostatske informacije
- **Hydrostatic tables /haidrəˈstætik/ (n) (stabil)** hidrostatske tablice, tablice
- hidrostatskog stabiliteta broda: The data given in the hydrostatic tables and in the isocline

[Image: https://commons.wikimedia.org/wiki/File:IMO_9185554_STAD_AMSTERDAM_(09)_Hammar_Hydrostatic_release_unit_H20_R.JPG]
stability tables (MS- and KN-tables) are presented as a function of the ship's moulded draught amidships $T$ for the following trim values: -1.0, 0.0, 1.0, 2.0 and 3.0 metres (positive trim is trim aft).

i.e. /ˈɛər/ (＝Lat 'ɪd est’) tj., to jest: Fire/explosion includes ships where fire/explosion is the first event reported, or where fire/explosion results from hull/machinery damage. i.e. this category includes fires due to engine damage, but not fires due to collision etc. The volume of displacement, V, is the underwater volume of a ship afloat i.e. the volume below the waterline.

IF (=intermediate frequency) (n) (electr) međufrekvencija: The received IF signal is an analog signal. ~ amplifier međufrekvencijsko pojačalo

IGC Code (n) (nav arch) pravilnik IGC

ignite /ɪɡˈnait/ (v) (marine eng, safety) zapaliti( se), upaliti se (motor): The compressed air from the bottle is necessary to ignite the fuel. The starboard cargo engine (its lever left in the ON position) must have developed high pressure in the cylinder causing the safety valve to crack open and ignite the flammable gases in the engine room. If the impact had been more direct, the steel plate could have pierced the tank, and also provided the energy to ignite the flammable mixture of fuel vapour and air which would have formed within the truck’s empty tanks. The cargo was liable to self-heat and ignite spontaneously because it contained fine shavings contaminated with cutting oil, cast iron borings and organic flammable materials. Unfortunately, the junior engineer succeeded in his attempt to ignite the boiler and the residual fuel ignited explosively.

ignition /ɪɡˈnɪʃən/ (n) (marine eng) paljenje, zapaljenje: Better still, the electrodes should have been bench tested away from all sources of ignition. The source of heat for ignition comes from piston blowby, slow ignition and afterburning, or excessive exhaust back pressure, which causes a blowback through the scavenge ports. The engine room fire was probably caused by the ignition of lubricating oil that sprayed from a fatigue-fractured fitting on one of the main engine’s pre-lubrication oil pumps onto the hot surface of the main engine’s exhaust manifold. spontaneous ~ samozapaljenje, ~ system uređaj za paljenje, ~ timing tempiranje paljenja, ~ switch prekidač paljenja, ~ control upravljanje paljenja, ~ temperature temperatura paljenja: The ignition temperature for this type of oil mist can be extremely low, depending on the type of oil being atomized. ~ delay zakašnjelo paljenje, odgođeno paljenje: High-aromaticity fuels cause increased ignition delay in some cases. ~ pressure tlak paljenja: The air-blast pressure, which was only just slightly above the ignition pressure in the cylinder, was produced by a water-cooled compressor driven off the engine connecting rod by means of a rocking lever. ~ system sustav paljenja: Once the ignition system was reassembled, it was tried again; but still to no avail. It was then decided to test for a spark at the end of the electrodes. ~ activate ~ aktivirati paljenje: As the ignition was activated and the fuel sprayed from the open ended pipe, a fire erupted, ...; cause ~ prouzročiti paljenje, izazvati paljenje, dovesti do paljenja: Possible heat sources causing ignition include heat exchangers, exhaust pipes, turbochargers, electrical contacts, static electricity and faulty wiring. ~ source of ~ izvor paljenja, uzrok paljenja: The source of ignition for these explosions can be attributed to one of the following: - A leaking air start
valve, ~ quality kvalitet paljenja: Damage due to poor ignition quality fuel can be prevented by injection control (pre-injection), spontaneous sponrtano zapaljenje, samozapaljenje: The lack of an effective guard allowed fuel to spray onto the adjacent turbocharger and/or exhaust piping causing spontaneous ignition, lead to ~ dovesti do paljenja / zapaljenje: The low spontaneous ignition temperature of the liquid fuel leads first to ignition of the diesel fuel and then to ignition of the air–gas mixture, self-~ samozapaljenje: To prevent the risk of self-ignition, the following precautions should be taken as laid out in the Code of Safe Practice for Solid Bulk Cargo 2004. ... and a fine spray of hydraulic oil began falling on the hot surfaces on the top of the exhaust manifold and ignited after attaining self-ignition temperature, ~ lag kašnjenje paljenja

I.L.O. (=International Labour Organization) (n) (mar law) Međunarodna organizacija rada: Considering the number of times one’s rest is disturbed in order to stuff another wad of paper to hold a rogue drawer shut, I wonder whether this might constitute a violation of ILO 2006 crew accommodation standards.

IMDG Code (n) (mar law, cargo handling) The International Maritime Dangerous Goods Code, adopted by the IMO. Međunarodna pravila o prijevozu opasnih stvari morem: In 2004 the IMDG Code becomes compulsory but some bits remain recommendatory, such as the requirement for training for all those involved in sending dangerous goods to sea ... It is of great concern that there is still evidence of non-compliance with the IMDG Code. The correct bulk cargo shipping name (BCSN) for the International Maritime Dangerous Goods (IMDG) class 4. However, if such action is not in accordance with the guidance provided in the IMDG Code Emergency Schedules (EmS), the possibility of injury to personnel, harm to the environment, and damage to the vessel is increased considerably ... Meanwhile, the spillage was diluted with a copious amount of water following the procedures laid down in the IMDG Code supplement.

IMDG Code - IMO Class and divisions (n) (cargo handling, safety) Pravilnik o prijevozu opasnih tereta morem - vrste i razredba opasnih tereta 1 Explosives 1. eksplozivi, 1.1 Substances which have a mass explosion hazard, 1.2 substances and articles which have a projection hazard but not a mass explosion hazard, 1.3 substances and articles which have a fire hazard and either a minor blast hazard or a minor projection hazard or both, but not a mass explosion hazard, 1.4 substances and articles which present no significant hazard, 1.5 very insensitive substances which have a mass explosion hazard, 1.6 extremely insensitive articles which do not have a mass explosion hazard, gases 2. plinovi pod tlakom, ukapljeni ili otopljeni pod tlakom, 2.1 flammable gases, 2.2 non-flammable, non-toxic gases, 2.3 toxic gases, 3 Flammable liquids, 4.Flammable solids; substances liable to spontaneous combustion; substances which, in contact with water, emit flammable gases 4. zapaljive krute tvari, 4.1 flammable solids, self-reactive substances and desensitized explosives, 4.2 substances liable to spontaneous combustion, 4.3 substances which, in contact with water, emit flammable gases, 5. Oxidizing substances and organic peroxides 5. Oksidirajuće tvar, 5.1 oxidizing substances, 5.2 organic peroxides, 6. Toxic and infectious substances Otrovne tvari, 6.1 toxic substances, 6.2 infectious substances, 7. Radioactive material 7- Radioaktivne tvari, 8. Radioactive
IMHA = International Maritime Health Association

(9a) (med) Međunarodna pomorska zdravstvena organizacija: Amid the current pandemic situation which has adversely affected the ability of crew changes, the International Maritime Health Association (IMHA) shared recommendations on quarantine and testing requirements for seafarers joining a ship. Safety4 https://safety4sea.com/

**immediate** /iˈmiːdiət/ (adj) (safety) neposredan, koji slijedi odmah: Have engines ready for immediate manoeuvre. Pripremite odmah strojeve za manouvre.  

**pomoć**: However, they were unable to provide immediate assistance because of the swell and shallow waters, ~ cause neposredan uzrok: The immediate cause of the accident was that the bow doors of the vessel had been left open as it left the harbour, allowing sea water to enter the main vehicle, ~

**danger** neposredna opasnost: A vessel may use an inshore traffic zone when en route to or from a port, offshore installation or structure, pilot station or any other place situated within the inshore traffic zone or to avoid immediate danger, ~ vicinity neposredna blizina: His attention was then focused on avoiding her in the knowledge that the radar was indicating no vessels in the immediate vicinity, ~

**action** neposredna radnja: No immediate action was taken even though the ARPA indicated that the vessels were in collision course. The master and I agreed that immediate action was necessary to avoid a collision.

**immediately** /iˈmiːdiəlti/ (adv) 1 odmah, smjesta: The main engine was immediately stopped and the difficult task of replacing the broken bolts commenced. The helmsman should report immediately if the vessel does not answer the wheel. activate ~ smjesta aktivirati, odmah aktivirati: The chief officer saw and heard a gas leak, and immediately activated the emergency shut down (ESD) valves.; 2 neposredno,izravno: The master was informed immediately about the accident and a team assembled to recover the casualty and to render medical first aid.

**immersion** (n) (nav arch) uronuće, uronjenost: This was apparent only when starboard deck edge immersion occurred and water was building up on deck.

**immersion of propeller** (n) (nav arch) uron propelera: Holds aft of the accommodation and machinery spaces improve the trim of the vessel when partially loaded, and provide the ship with sufficient draft aft for stability and propeller immersion.

**immersion suit** (n) (safety) odijelo za spašavanje: The crew put on lifejackets and immersion suits, and then launched the liferaft. don the ~ obući odijelo za spašavanje: After the general alarm was sounded, the crew assembled on the bridge and donned immersion suits collected from two decks below. The crew quickly mustered and donned their immersion suits as the vessel
began to take on a port list.

Immigration Authority (*n*) (*mar law*) pogranične vlasti, pogranična policija:
The Third Officer assists the Master with the port paper work and in dealing with the authorities (Customs, Immigration, Port Health).

immigration office (=Immigration) (*n*) (*mar law*) pogranična policija,
pomorska pogranična policija: Arriving for a canal transit, the vessel had rigged the starboard accommodation ladder to facilitate the transfer of immigration, customs personnel, agents, ship chandlers etc and to embark canal pilots.

immigration officer (*n*) (*mar law*) službenik granične policije

immigration signal (*n*) (*comm, navig*) znak pomorske pogranične policije

imminent /ˈɪmɪnənt/ (*adj*) 1 (*safety*) neizbježan, neminovan, koji prijeti: 3 Is danger imminent? 3.1 No, danger not imminent. 3.2 Yes, danger of heavy listing (to port / starboard) (IMO SMCP 2001) He realized that the contact with the quay was imminent. ~ danger neizbježna opasnost: ... the sudden failure of the main engine auxiliary blowers resulted in imminent danger due to the close proximity of rocky shoals. At about the same time, the outbound pilot boat identified the vessel on radar, realised that she was in imminent danger of grounding, and called on VHF to warn the master. In radiotelephony, the spoken word for distress is MAYDAY. The distress signal indicates that the station sending the signal is: 1. threatened by grave and imminent danger and requires immediate assistance, or ... At about the same time, the outbound pilot boat identified the vessel on radar, realised that she was in imminent danger of grounding, and called on VHF to warn the master., ~ collision neizbježan sudar: - When confronted with an imminent collision, lookouts on the bow should clear the area., ~
The OOW had been alerted to the imminent grounding by vibration of the ship.; 2 (meteorol) koji dolazi unutar 6 sati od vremena objave

Making the ramp door operable A new set of wedges and small doubilers was quickly fabricated in the engine room workshop and immobilisation and hot work permits were obtained at the next berth the following day.; 2 (med) immobilizacija (noge, ruke itd.)
immobilise; immobilize (v) (marine eng, mar law) immobilizirati (brodski stroj), zaustaviti strojeve (u luci): If it is necessary to work on steering gear when the vessel is at sea, the ship should be stopped and suitable steps taken to immobilise the rudder by closing the valves on the hydraulic cylinders or by other appropriate and effective means. the main engine was immobilised

Unfortunately immediately after the pilot boarded No. 2 blower motor also burnt out and vessel’s main engine was immobilised, leading to an emergency situation.

IMO (=International Maritime Organization) (n) (mar law, safety)Međunarodna pomorska organizacija: IMO is an agency of the United Nations, charged with developing a regulatory framework that promotes maritime safety and environmental protection. The system is an IMO adopted system and consists of traffic separation schemes and rules aimed at enhancing the safety of navigation in the Straits. In 2008 the IMO approved further amendments to curb SOx emissions: ... combined with Admiralty Notices to Mariners number 17 which states in paragraph 4 whilst vessels using traffic lanes in schemes adopted by the IMO must, in particular, comply with Rule 10 of the International Collision Regs.

IMO class (n) (nav arch) IMO klasa: .1 Briefing on nature of dangerous goods .1 What is the IMO Class of these goods? .1.1 The IMO Class of these goods is: ... .2 This package contains IMO Class ... goods. .3 These goods are flammable / poisonous ... (IMO SMCP 20101)... Before leaving the vessel, the local emergency services advised the vessel that sawdust was not an appropriate absorbent material to deal with IMO class 5.1 oxidising agents such as hydrogen peroxide due to the risk of self-ignition.

IMO emission timeline (n) (marine eng, environ) vremenski raspored IMO-a za ograničavanje ispuštanje štetnih plinova s brodova, vremenski plan IMO-a za ograničavanje ispuštanje štetnih plinova s brodova: IMO emission timeline concerns three types of emissions: SOx, NOx and CO2. The 2020 fuel options are HFO + scrubber, LSHFO and Alternative fuels. Each of them has pros and cons; nothing is really problem-free

IMO Number (n) 1 (mar law) he IMO number is a unique seven digit number that is assigned to propelled, sea-going merchant ships of 100 GT and above upon keel laying, with the exception of ships without mechanical means of propulsion; pleasure yachts; ships engaged on special service, such as lightships; hopper barges; hydrofoils, air cushion vehicles; floating docks and structures classified in a similar manner; ships of war, troopships as well as wooden ships. (https://safety4sea.com/) IMO-ov broj (broda), IMO-ov identifikacijski broj broda: Over 75% fail to update this information. Bad routines or are they just are slack? · Ship’s data are missing. Call sign, Vessel type, IMO number, Draught, Ship’s size. Vessel type and size is something we can use for identification. ... MV ABC confirms and OOW has to reply to the following questions as a matter of surveillance of merchant navy vessels. The flag, IMO number, Port of Registry, name of owners, agent, cargo type and quantity.; 2 IMO-ov identifikacijski broj luke

IMO Performance Standards for Navigational Equipment (n) (safety, mar law) Izvedbeni zahtjevi za navigacijsku opremu IMO-a
IMO SMCP 2001 (n) (comm, safety) IMO-ovi standardni pomorsko-komunikacijski izrazi: The IMO SMCP meets the requirements of the STCW Convention, 1978, as revised, and of the SOLAS Convention, 1974, as revised, regarding verbal communications; The IMO SMCP was adopted by the IMO Assembly in November 2001 as resolution A.918(22).

IMO STCW Code, 1995 (n) (mar law) Pravilnik o izobrazbi, izdavanju svjedodžbi i držanju straže pomoraca (1995): The IMO STCW Code requires lookouts to be on duty during the hours of darkness. The IMO SMCP meets the requirements of the STCW Convention, 1978, as revised, and of the SOLAS Convention, 1974, as revised, regarding verbal communications;

IMO STCW Convention, 1978/1995/2010 (n) (mar law) Međunarodna konvencija IMO-a o standardima izobrazbe, izdavanju svjedodžbi i držanju straže pomoraca (1978/1995/2010): The value and benefits of Resource Management training have been recognised by the 2012 amendments to the STCW Convention in Manila. The IMO SMCP meets the requirements of the IMO STCW Convention, 1978, as revised, and of the SOLAS Convention, 1974, as revised, regarding verbal communications.

IMO Tier I, II, III levels (n) (marine eng, environ) COMPARE Stages (I, II, III A, III B, IV) IMO Tier III means that the NOx emissions will have to be 80% lower than those specified by the IMO Tier I levels introduced in the year 2000.

(www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf) razine IMO-a I, II, III za ograničavanje dušičnih oksida u ispušnim plinovima strojeva, standardi IMO-a I, II, III za ograničavanje dušičnih oksida u ispušnim plinovima strojeva: The global cap of an 0.5% maximum content of sulphur in fuel from 2020, and the IMOTier III regulations (specifying that NOx emissions must be 80% lower than at the IMO Tier I level) within Emission Control Areas will force the shipping industry to consider alternatives beyond today’s standard solutions.

www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf New ships will have to comply with IMO Tier III regulations when operating within Emission Control Areas. Diesel engines can as per today only meet IMO Tier III with catalysts, i.e. Selective Catalytic Reduction units (SCR).

impact (n) 1 (navig, safety) udar broda: The ship almost rebounded with the impact. Brod se uslijed udarca skoro odbio (od stijene). The impact was so hard in fact that three of the five crew members on board the pilot boat suffered injuries The impact was very heavy for the trawler that sunk rapidly. On very large vessels, the bridge team may not feel the impact of green seas or contact with small vessels or objects; Several containers fell from the ship onto the quay as a result of the impact. ship ~ (safety) udar broda: The ship impact caused considerable damage to the fore-end of the vessel, including penetrations below the waterline. It is uncertain whether the skipper on the tanker realized the risk of collision be-fore the impact., ~ damage oštećenje od / zbog udara: The two crewmen were slightly injured and the lifeboat suffered moderate impact damage.; 2 (navig, safety) sudar: At about 0425, the crew of the fishing vessel were woken by the impact of their vessel with a much larger vessel.; 3 (med, safety) udarac: Because of the heavy impact on his head he was sent ashore to see a doctor. The flame from the explosion burnt his left hand, wrist and arm and the force of the impact knocked him over backwards, which caused a head wound.; 4 utjecaj (na): Berthing times can be easily re-scheduled, but accidents can have a long-lasting impact on individuals and companies. Moderate capital costs, compactness and minimal impact on fuel consumption are cited as merits. The Master's duty is to inform the nearest coastal and port state authorities of any defect on the vessel that may affect her safety,
structural integrity, navigation and impact on the environment. ... ensure that the means used by DUKW operators to achieve the required standard of buoyancy and stability for their vessels does not adversely impact on their safe operation. ... this application can be run at much higher air flow face velocities than traditional filters in other applications before it has an impact on gas turbine performance.

**impact drill** *(n) (marine eng)* udarna bušilica, vibracijska bušilica, vibraciona

**bušilica** cordless ~ baterijska udarna bušilica https://uae.souq.com/ae-en/bosch-professional-impact-drill-gsb-16-re-6693048/i/

**impacted portion** *(adj) (safety)* dio broda zahvaćen (udarom, nasukanjem itd.): ... the impacted portion of the bulkcarrier was of 25 meters in length near the starboard bow.

https://gcaptain.com/vloc

**impact load** *(n) (marine eng)* udarno opterećenje: ..., there have been many cases where the bow or the stern structure of a container ship has been overloaded and could not withstand the heavy impact load from the waves.

**impact strength** *(n) (marine eng)* čvrstoća na udar

**impact wrench** *(n) (marine eng)* udarni ključ pneumatic ~ pneumatski udarni ključ

**impair** /ɪmˈpɛə/ *(v) (safety)* umanjiti, oslabiti: Such damage can impair the hatch cover’s weathertightness and can render the vessel unseaworthy. Hazards which arise from the installation operating condition but have the potential to impair the safety of the crew and the vessel as a whole must already be provided for in the testing and approval procedures of the Ship Safety Division. or impair the safe navigation of the vessel umanjiti sigurnu plovidbu broda

**impart** /ɪmˈpɑːt/ *(v) 1 dati, predati: When the connecting rod performs its swinging movement relative to the piston, the pawls impart an intermittent rotating motion to a toothed rim, from which it is transmitted to the piston by an annular spring. The camshaft-driven actuators impart hydraulic drive to the single central exhaust valve working against an air spring. A thin flame plate for the cylinder head promotes good heat conductivity while high stiffness is imparted by a strong deck plate absorbing the vertically acting gas forces. Note how the main bearing caps are bolted in the lower part to both sides of the crankcase, imparting high crankcase stiffness.; 2 djelovati (na): ... check, wherever possible to withstand the loads imparted when design, construction, or condition of vehicle the ferry rolled.; 3 prenijeti: I recommend that crewing / marine departments of companies regularly impart Colregs training to bridge watchkeepers and verify their knowledge of the same.; 4 prenositi

**impede** (=ɪmˈpiːd) *(v) (navy, mar law)* ometati, omesti: t buoyancy in their vessels, and where buoyancy foam is fitted for this purpose, the quantity installed is measured by volume and the foam does not t buoyancy in their vessels, and where buoyancy foam is fitted for this purpose, the quantity installed is measured by volume and the foam does not impede the operation or maintenance of key equipment. Despite their manoeuvrability many tugs seem reluctant to give way to larger vessels, frequently impede the fairway and it is often difficult to contact them on the VTS working channel.
According to Rule 9 (COLREGS) Inland waters, vessels and powerboats less than 20 meters (or 65 feet), all sailboats and vessels engaged in fishing shall not impede the passage of a vessel that can safely navigate only within a narrow channel or fairway. The term "shall not impede" means a small vessel or craft must keep well clear and not hinder or interfere with the transit of larger vessels.

https://www.gCaptain.com ~ passage (navig) ometati prolaz: The master contacted her by VHF radio and agreed a starboard-to-starboard passing, but it soon became apparent that the inbound vessel would impede the tanker's passage within the channel. Rule 9d clearly states no vessel shall impede the passage of a vessel that can only be safely navigated in a fairway.

impeller /imˈpɛlər/ (n) 1 (marine eng) rotor: The components surrounding the turbine impeller are designed to be able to absorb the kinetic energy of several broken blades. ... the problems of higher impeller peripheral speed, elevated impeller blade temperature and increased impeller blade surface load, and the problem of optimizing the aerodynamic characteristics of the higher speed air flow in the impeller. The compressor impeller is of aluminium alloy or the more expensive titanium. The air exits the impeller radially and passes through a diffuser, where some of the kinetic energy gets converted to pressure energy. A labyrinth arrangement is also fitted to the back of the compressor impeller to restrict the leakage of air to the gas side; 2 (boating/yachting, marine eng) rotor pumpe, impeler: The pumping element is made up of a top cover, a pump shaft, an impeller, a bearing bush and a sealing arrangement around the shaft. The hollow bowl spindle features an impeller which pumps closing water from a built-in tank to the operating system for sludge discharge.

impending danger (n) (safety) neposredna opasnost, prijeteća opasnost: The OOW noted the crossing vessel's name on the AIS and attempted to alert the crossing vessel on the VHF about the impending danger, without success. Radar guard zones and echo sounder shallow water alarms can also help to give warnings of impending danger.

imperil /imˈpɛril/ (v) (safety) ugroziti, dovesti u opasnost
imperilled /imˈpɛrild/ (adj) (safety) ugrožen

impetus /ˈimpɪtəs/ (n) 1 poticaj: The introduction of electronic fuel injection in the heavy truck market to meet stringent emission controls gave that impetus and the investment to advance the technology. gain ~ dobiti zamah / poticaj; 2 zamah, zalet

implement (v) sprovesti, primijeniti: Carefully identify all hazards in the work area and implement appropriate control measures; The bridge team failed to notice rapid swing to port and implement corrective action in good time; Companies should implement procedures in their SMS to guide ships’ officers on how and when to conduct these inspections. Implement effective training on new release system, supplemented by maker’s video programme; The root cause/contributory factor of this accident was the failure to implement company’s procedures for using power tools; Inadequate procedures / instructions; The company decided to implement the following steps immediately: ... However, the Master and deck officers did not implement the ship manager’s policies for safe navigation and bridge watchkeeping.

implementation (n) (mar law) provedba, primjena (konvencije, zakona, odredaba itd.): The implementation of GMDSS requires further revision. ...
shipmasters and watchkeeping officers alike should make every possible effort to ensure better understanding and implementation of the Rules of the Road. Many, many years since the implementation of SOLAS requirements, pilots are still faced with this type of situation. Decision taken to expedit the implementation of a work safety training programme in the fleet. However, since the implementation of the ISM Code, the behaviour of some port state control inspectors has become more and more impudent. * Company procedures/checklists may degenerate into paper tools without proper understanding and implementation. implementation of the STCW Convention provedba konvencije STCW

implied indemnity (n) (mar law, mar ins) prešutno pravo na naknadu
import duties (n) (mar law, logist) taxes imposed by countries to protect their domestic markets against foreign products. They serve as a trade restriction to provide domestic products with a head start. uvozne carine, carina na uvoznu robu: Import duties on goods are levied on the basis of the statistics code, the country of origin and statistical value or, in case of some agricultural products, per unit (of weight). https://www.logisticsglossary.com/term/import-duties/ https://www.logisticsglossary.com/term/import-duties/
import(ed) cargo (n) 1 (shipping econ) uvozni teret: A general cargo ship arrived with an import cargo that was stacked high on the hatch covers, exposing a large lateral wind area.; 2 (ports) teret u iskrcaju
impose (v) (mar law, marine eng) nametnuti: The cylinder conditions in the latest designs of low-speed crosshead engines impose a higher maximum pressure, higher mean effective pressure and higher cycle temperature than those of previous generations. Finally, inadvertent over-tightening of gangway (and lifeboat) wire falls during stowage can impose excessive loads for long periods on the system. Each and every word on the vessel’s port papers is checked to find any flaws, so as to be able to impose heavy fines ... Subsequently, during a PSC inspection, the PSC official noted this open valve, which was in contravention of local regulations and imposed a penalty on the vessel. Such legal requirements are probably years away from being imposed, but there can be little doubt that such a move would be in the interests of good practice. It is admitted that, in spite of the constraints imposed by the regulations of the port, ship’s personnel failed to carry out a Can-thumping test as per Code of Safe Practice for Solid Bulk Cargoes section.. ~ a ban (on) (mar law) uvesti zabranu: I brought the matter up in the safety meeting and have imposed an official ban on the use of the mobile phones on the navigating bridge while the ship is at sea ..; ~ radio silence (comm) narediti radio-šutnju: The distress traffic controlling station/other stations may impose radio silence on any interfering stations by using the term “Seelonce Mayday/Distress”, unless the latter have messages about the distress.
improper /ˈɪmprəpər/ 1 (adj) neispravan (teret) ~ cargo neispravan teret, ~ operation neispravan rad, nepravilan rad: Many injuries have been directly attributable to improper operation and maintenance of lifeboat launching and recovery systems, ~ combustion nepravilno izgaranje: At the time of running the scavenge air pressure drops and this causes the improper combustion, ~ handling neispravno rukovanje: ... Inadequate procedures / instructions; Inadequate checks of power tool and accessories before use; Improper handling of materials; Inadequate personal protective equipment (PPE). Send a letter of protest to all parties concerned (in the first instance to the local harbour master, who is responsible for the ship’s safety) against loading dangerous/improper cargo., ~ maintenance neispravno održavanje: 200870 Gangway accidents Recently we had two accidents involving shore personnel, due to improper maintenance and rigging of portable gangways.; 2 neprikladan, nepodesan; 3 neodgovarajući: This indicated an improper assessment of priorities.
improper stowage (n) (cargo handling) neispravno slaganje: Improper stowage (e.g.
containers stowed six-high) or improper use of cargo handling equipment can cause heavy damage or collapse of container stack due deformation of bottom container. Improper stowage could restrict air circulation or lead to shifting/crushing:

**improve** *(v)* 1 **unaprijediti, usavršiti**: Taking responsibility for it is essential to improve safety. In the rapidly changing situation the skipper did not consider using the quick release mechanism to drop the derrick blocks which would have helped improve stability. Make sure that those on board are aware carriage of flares and a VHF radio will of the internationally recognised method greatly improve your chances of survival of signalling distress: raising and – you owe it to yourself and your lowering of the arms outstretched at each passengers Establishment of traffic lanes VTS Vessel Traffic Services: services designed to improve the safety and efficiency of vessel traffic and to protect the environment VTS area.; 2 **poboljšati, dotjerati**: Composite piston of the low NOx engine is designed for increased combustion pressure and low friction to improve atomization at the start and stop of injection, ... To improve combustion even further, however, a new slide-type valve was introduced for all large bore engines. Modifications are generally intended to improve performance or safety, but can catch you out by introducing other problems. Mooring close to roads or tracks, where this is possible, will significantly improve the speed of response.

**imprudent** *(adj)* neoprezan, nesmotren: Both the Pilot and myself agreed that it would be imprudent to take this action until the inbound vessel was clear.

**impurity** *(n)* (marine eng) nečistoća, prljavština: The normal abrasive impurities in fuel are ash and sediment compounds. The separation of impurities and water from fuel oil is essential for good combustion.

**IMSBC** *(=International Maritime Solid Bulk Cargoes Code) (n)* (safety, cargo handling) Medunarodni pravilnik o prijevozu krutih rasutih tereta morem

**IMSBC Group A cargoes** *(n)* (safety, cargo handling) cargoes cargoes which may liquefy if shipped at a moisture content exceeding their Transportable Moisture Limit (TML) tereti skupine 'A' Pravilnika IMSBC

**IMSBC Group B cargoes** *(n)* (safety, cargo handling) cargoes which possess a chemical hazard which could give rise to a dangerous situation on a ship. tereti skupine 'AB Pravilnika IMSBC

**IMSBC Group C cargoes** *(n)* (safety, cargo handling) cargoes which are neither liable to liquefy (Group A) nor possess chemical hazards (Group B). Cargoes in this group can still be hazardous. tereti skupine 'C' Pravilnika IMSBC

**IMX** *(=intermodal exchange) (n)* (ports, shipping econ) intermodalni centar

in accordance with *(prep prh)* **u skladu s**: Maintenance systems should be designed and followed to ensure that watertight doors are maintained in accordance with manufacturers’ instructions, and in accordance with good standard marine engineering practice. Ten minutes before transit, own ship altered course to 090 in accordance with the passage plan, in order to pass between beacons. Earlier, at about 23:30 hours, I had encountered a head-on vessel and, in accordance with Colregs, I altered our original course from 259 degrees to a new course of 285 degrees in order to pass the other at a safe distance. Reduction in speed from full speed to the recognised manueuvring speed is to be as gradual as possible and in accordance with the manufacturer’s instructions. Two tugs were assisting, one was made fast on the port quarter and the other was standing by forward to assist in accordance with pilot’s orders. Hence, he lacked an understanding that his was a stand-on vessel in a crossing situation and was therefore expected to maintain course and speed in accordance with Rule 17(a) (i) of the COLREGs. The clearance must be set in accordance with the temperature of the engine. Check that all non-cargo lifting appliances on board have been identified and recorded in accordance with national regulations. In accordance with the pre-arrival schedule and loading plan, extra ballast was being pumped out.
inaccuracy (n) nepreciznost, manja netočnost: To keep measurement inaccuracies to a minimum, standard procedures should be adopted by the ship's crew when measuring cargo and calibrating equipment. Despite the fact that the master had 12-years experience as master mariner, in this case he demonstrated inaccuracy in visual range finding abilities and estimation of own ship speed as well as possible unawareness of ship’s inertia characteristics. AIS Inaccuracies AIS Inaccuracies MARS Report 200552 There have been some more reported inaccuracies in AIS data displayed by vessels. Even so, inaccuracies in determining shaft stiffness, damping effects, coupling performance and hull structure response make it advisable in certain borderline cases.

inactive (adj) nedjelotvoran, neaktiv: ... the governor reduces fuel injection to zero, which, in turn, causes a pressure increase in the rail system as the individual injectors become inactive.

inadequate (adj) neodgovarajući, neprikladan: ... a hazardous condition was found but the repair was grossly inadequate and did not eliminate the unsafe condition. Inadequate assessment of needs and risks; He came to the engine room and observed that all the sea water pumps were showing inadequate discharge pressure. The securing of these drums was evidently inadequate for the intended purpose: either the lashings used or their securing points were not capable of restraining the oil drums or were poorly adjusted/secured. An accident can be defined as an unexpected hazardous occurrence caused by unsafe practices that arise from inadequate knowledge, improper training, and failure to follow proper procedures, and usually resulting in loss of life or injury to personnel, damage to property etc. The events leading to the capsize were a mix of complacency, poor shipboard procedures and inadequate leadership, both afloat and ashore. The root cause of the accident was the failure of the pilot ladder due to inadequate maintenance and inspection. The fact that the boats involved in the collision were not carrying radios to communicate their predicament demonstrated the inadequate planning for the passage. Inadequate risk assessment and work planning, position of high sea suction and changes to draughts not adequately considered. Inadequate securing of items, cargo nets not used in conjunction with pallets. Improper motivation arising from complacency, inadequate supervision, operating without authority and defective equipment also contributed to the error chain.

in ballast (adv) (shipping econ, stabil) ANTONYM laden bez tereta, u balastu

inboard (adj) (seamanship, marine eng) brodski, unutarbrodski, nutarnji: Turbocharging system: based on non-cooled turbochargers with inboard plain bearings lubricated from the engine’s lube oil system. Although a gangway watch has traditionally been kept at the inboard side of the gangway, this is not always the best position. ~ engine (marine eng) brodski motor: The boat did not have an inboard engine fitted but, as required by class rules, did have a small outboard which was stored inside the hull near the mast. That yacht then started the inboard engine and, leaving his sails to flog, made towards the man in the water.

inboard (adv) *1 unutra, u brod, na brod, u unutrašnjost broda: He then started to bring his catch inboard and stow the gear. However, they could easily have been removed after the gangway was hoisted inboard and before it was finally secured. Together they dragged the skipper inboard and began attempts to resuscitate him. The crew of a twin beam scallop dredger had hauled the beams inboard and had secured them in position with the safety chains ready to empty the catch of scallops. ~ of prema unutra, s nutarnje strane: Meanwhile, he and another crewman led the messenger line inboard of the bitts holding the ‘firewire’, round a standing roller bollard and between another set of bitts, to the mooring winch. s intentions with the rest of the team, the carpenter then passed the messenger line through the aft centreline bitts, diagonally across the deck, inboard of the starboard winch, to a pedestal fairlead located forward of the winch. 2 within a ship; inside a ship unutar (broda, brodice)
inboard electric motor \( \text{(n) (boating/yachting, nav arch)} \) nutarnji brodski električni pogonski motor, brodski električni pogonski motor: MWB400 is a special series of permanent magnet motors/generators (PMS, PMAC) uniquely designed with an external rotor and internal stator. http://www.tema.hr/mwb/ synchronous electric motors with permanent magnets sinkronijski nutarnji brodski električni pogonski motor s permanentnim magnetom: All synchronous motors with permanent magnets are also generators. MWB400 series can be used as a generator for compact marine gensets or as a motor/generator for hybrid propulsion systems. http://www.tema.hr/mwb/
inbound (adj) 1 (navig) koji se kreće prema unutra (luci, obali, ušću, plovnom kanalu, tjesnacu itd.): Two ships crossed ahead of us inbound to Singapore and there were several fishing boats in the vicinity which we were required to avoid. The tanker was inbound and was moving very slowly ahead while waiting for the pilot from the container ship to board. The tanker was outbound while the tug and barges were inbound when the accident occurred. ~ traffic brodovi koji plove prema luci (ušću, ulazu u plovn kanal): In the meantime we had managed to get ahead of her and clear of all inbound traffic by passing north of the buoys., ~ lane ulazni plovidbeni smjer, plovidbeni smjer prema luci: The other passenger vessel elected to enter the TSS on the southern limit of the inbound lane, and we elected to proceed further north and join the TSS at the northern border of the inbound lane, to leave the outbound coaster a safe passi, ~ ship brod koji uplovjava u luku (kanal itd.), brod koji plovi prema luci (kanalu itd.): The Master realised that an inbound ro-ro ferry was closing faster than he had anticipated, at about 20 knots.; 2 (shipping econ) teret u uvozu, teret u iskrcaju
inbound (adv) (navig) prema unutra, prema luci (ušću itd.): As a number of yachts, including our own, were transiting inbound between the navigation marks, we were appalled to be rapidly caught and passed by an MCA rigid inflatable at speeds in excess of 15 knots. The traffic situation was of a lower intensity than normal, with another large passenger vessel, ETA Pilot 07.00, inbound and two small coasters outbound.
inbound ship (n) (navig) brod koji se kreće prema luci (ušću, kanalu, tjesnacu), brod koji uplovjava: The master checked his ARPA and decided that because this indicated the inbound ship to be passing clear on his starboard side, it would be safe for him to alter to port and increase speed, and then cross ahead of the inbound ship. Just after sunset on a calm evening, a large inbound container ship was approaching the pilot boarding position about a mile NE of the harbour’s breakwater entrance. Odmah po zalasku sunca jedne tihe većeri veliki kontejnerski brod na putu u luku pričuva se poziciji za ukrcaj peljara oko jedne nauti, ~ ship brod koji uplovjava u luku (kanal itd.), brod koji plovi prema luci (kanalu itd.): The Master realised that an inbound ro-ro ferry was closing faster than he had anticipated, at about 20 knots.; 2 (shipping econ) teret u uvozu, teret u iskrcaju
in bulk (prep phr) 1 (cargo) u rasutom stanju: Traditionally, scrap metal has been carried in bulk and is, therefore, subject to the Bulk Cargo (BC) Code. A bulk carrier loaded a full cargo of wheat in bulk. Access hatches need attention too. My vessel was en route to Norway to load cement in bulk through a chute.; 2 (cargo handling, cargo) u velikim količinama: Further investigations revealed that the previous vessel at the berth had discharged a cargo of caustic soda in bulk, some of which had spilt on the wharf and the fittings thereon. This enabled the local Lloyd’s Surveyor to complete the survey and issue a Document of Compliance for Carriage of Dangerous Goods in Bulk.
incandescent (adj) (marine eng) užaren: Probably incandescent pieces of metal had (fall) into the crankcase and (bring) about the accident. He found an electric light fixture lying on the bunk with the incandescent bulb still burning.
in charge of (prep phr) zadužen za, odgovoran za, nadležan za: On the bridge were
the Master, Mate, a deck cadet and a helmsman, the Second Engineer was in charge of the engine room. On the bridge were the master, pilot, helmsman and the chief mate in charge of the watch. Although they might be qualified to be in charge of a navigational watch, the less experienced still require careful monitoring and close support, particularly in potentially challenging situations. The officer in charge of anchoring must know the number of shackles available on each anchor. An experienced and responsible deck officer shall be in charge of the forward station when connecting/disconnecting chafe chain; The person in charge of the mooring party does not seem to have appreciated that it is extremely dangerous to heave up on the spring whilst the vessel is still moving ahead The Chief Engineer, or Chief Engineering Officer, is in charge of the Engine Department. The master was in charge of the bridge navigation watch and was accompanied by the bosun and the helmsman.

incident (n) 1 (safety, seamanship) in a wider, generic sense, a (marine) incident includes all instances of mishaps at sea or in port (excluding and including threats to human life), ranging from minor cases such as near misses, minor accidents to major marine casualties, pollution cases etc.

pomorska nezgoda: The marine industry experiences incidents that range from major accidents to near misses. https://www.seagull.no/Courses-Training/Courses?ID=1623 The ship lost 42 containers overboard. The UK MAIB has launched an investigation into the incident. In one of the worst incidents off the coast of the Netherlands, more than 250 containers fell off the container ship, during a North Sea storm https://gcaptain.com/rough-weather-hampers-msc-zoe-container-cleanup A total of three incidents of armed robbery against ships were reported in January 2019, compared to 11 incidents in January 2018. https://www.marinelink.com/news/asian-piracy-incidents-down-january-462870 Lifting, slips, and falls are the most frequent incidents at sea. safety4sea.com; 2 (mar law, safety) SEE marine casualty COMPARE accident SEE marine casualty in a narrow, specific sense and use marine incidents refer to incidents as described by IMO (see below); IMO definition: Marine incident means an occurrence or event being caused by, or in connection with, the operations of a ship by which the ship or any person is imperilled, or as a result of which serious damage to the ship or structure or the environment might be caused.

(http://www.imo.org/blast/blastDataHelper.asp?data_id=22633&filename=A849(20).pdf); An incident means any occurrence, other than an accident, that is associated with the operation of a ship and affects or could affect the safety of operation. (http://www.maritimenz.govt.nz/commercial/safety/accidents-reporting/definitions.asp); izvanredni događaj na moru koji je prouzročio štetne posljedice koje ne ugrožavaju ljudske živote, imovinu i okoliš u velikoj mjeri nezgoda, pomorska nezgoda, slučaj nezgode: Vessels must advise the Harbourmaster immediately (through the relevant VTS station) if involved in any of the following incidents: Collision, sinking, fire, grounding, pollution, damage to ship or structure, foul or lost anchor. There were reportedly 13 crew members on board the vessel during the incident and they had tried to de-ballast the vessel to correct the list. The 5,350 TEU vessel was sailing from Qingdao to .... when the incident occurred. This incident took place in the middle of the night, visibility was good, wind ESE force 4. This incident demonstrates that, even on a short trip, in a sheltered harbour, things can go wrong. The matter was reported to the vessel’s owners who replied that the incident had been caused by failure of the guard frame to revert automatically to the operation position ... The following incident happened while on a loaded passage from Madras to Singapore. The first incident involved a large container vessel, the other a large passenger vessel. This incident involved a close quarters situation between a ro-ro ferry crossing a traffic lane, and two vessels – a container ship and a tanker – ... This incident involved two crew members tasked with general maintenance of hatch cover hydraulics while the ship was at sea. A hazardous incident occurred on board a tanker while crew members were engaged in rinsing and mopping up in a slop tank and discharging oily water slops ... The incident occurred at approximately 0400 in good visibility. ~ investigation istraga pomorske nezgode: This involved safety inspections, cargo survey work, accident and incident investigation, port captaincy and usual wide range of work
involved with this type of position. In my incident investigation report, I will certainly identify improper stowage as the main root cause. ~ report izvješće o pomorskoj nezgodi: An incident report was sent to the office to be shared with the rest of the fleet; hazardous ~ opasna nezgoda: A hazardous incident occurred on board a tanker while crew members were engaged in rinsing and mopping up in a slop tank ..., major ~ veća nezgoda: ... the awareness and prompt actions of a crewman, followed up by preplanned emergency procedures, prevented a major incident., serious ~ ozbiljna nezgoda: In this case, a serious incident did not escalate into a crisis., cause of the ~ uzrok nezgode: The root cause of the incident was due to poor visibility compounded by excessive speed for the prevailing conditions and the pilot’s ineffective use of the radar equipment to monitor the situation., contribute to the incident pridonjeti nezgodi / nesreći: We also believe that in this case poor cross cultural communications contributed to the incident The Lessons A number of factors - predominantly relating to bridge manning and management - contributed to the incident, report the ~ izvijestiti o nezgodi, podnijeti izvješće o nezgodi: The skipper of the fishing vessel reported the incident to the coastguard. As a result, the master decided not to report the incident to the authorities or the ship’s management company, and the ship continued on its passage., the ~ occurred ... nezgofa se dogodila ....: The incident occurred as the ship was underway from Taipei to the Port of Los Angeles. Further, the master of the fishing vessel decided not to report the incident. The ~ occurred as the ship was underway from Taipei to the Port of Los Angeles incinerator /ɪnˈsɪnərətər/ (n) (marine eng) incinerator, spaljivač ( otpada): Kvaerner of Norway provided the solid/oil waste incinerator unit, which has an approximate burning capacity for solid waste of 50 kg/hr for sludge oil. The local fire alarm for the incinerator area was activated and the appropriate fire extinguishing mist system for the incinerator was triggered. ~ room prostoreja incineratora: A little while later, the fourth engineer went up to the incinerator room to check the safety parameters of the equipment. incised wound (n) (med) posjekotina

incision /ˈɪnsɪʃən/ (n) (med) posjekotina
http://keepcalmstudentmedic.blogspot.hr/2013/09/
in class (adv) A vessel currently meeting all the requirements of its Classification Society is “in-class”. (www.euronav.com) u klasi, koji udovoljava zajtjevima klase brodova inclination / ɪnkliˈneɪʃən/ (n) (marine eng) nagib, kosina: The oil distribution grooves have a very small angle of inclination to avoid blow-by over the piston rings and small but regular quantities of cylinder oil supplied by an accumulator system. ship’s ~ nagib broda: List is the inclination of the vessel to port side or starboard side. inclining experiment (n) (nav arch) pokus nagiba, ispitivanje kojim se određuje položaj težišta broda
inclining test  (*nav arch, navig*) a test performed on a ship to determine its stability, lightship weight and the coordinates of its center of gravity  **pokus naginjanja broda**: The inclining test/experiment, and its subsequent analysis, indicated that her inherent stability had been poor.

inclusive of  (*adj*  *mar law*) koji uključuje

incoming air  (*n*  *marine eng*) dolazni zrak, dolazeći zrak: An engine driven scavenge blower is fitted and the incoming air is blown into the cylinder through the inlet ports when they are uncovered by the piston.

incoming vessel  (*n*  *navig*) brod koji dolazi / ulazi u luku / u plovidbeni kanal: It is suggested that ports and incoming vessels voluntarily adopt a system whereby essential information is exchanged before arrival, preferably in writing, or at least verbally. Recently, I boarded an incoming tanker whose harbour manoeuvring speeds were abnormally high. We observed that the incoming vessel, too, had deployed some small rope fenders and proceeded to berth and conduct cargo operations. The VTS was also in contact with vessel B and informed them that vessel A was an incoming vessel. www.safety4sea.com

incompetency  (*n*)  1  neosposobljenost; 2  nesposobnost

incompetent  1  (*adj*) nestručan: Competency should be assessed by the peers and not a one sided declaration that they are incompetent. Some officers are incompetent or have forged certificates. ~

handling  nestručno rukovanje; 2  (*mar law*) neovlašten

in consideration of  (*prep phr*  *shipping econ, mar law*) u zamjenu za, uz nadoknadu za: The voyage charter, the most common of the three, provides transport for a single voyage, and designated cargo between two ports in consideration of an agreed fee.

incorporate  /ɪnˈkɔːrpoʊrət/  (*v*)  1  ugraditi, uključiti: Preparations for sea trial shall incorporate: i) passage plans that ensure ample sea room, avoid transiting congested inshore waters, and provide for contingency anchorages; ii) ...; 2  imati u sebi, sadržavati: Most marine gas turbines incorporate a free power turbine, which is free to rotate at whatever speed is dictated by the combination of the power output of the gas turbine change un Larger engine models incorporate pumps with variable injection timing for optimizing fuel economy at part load; the start of fuel injection is controlled; 3  utjeloviti

incorrect  (*adj*)  1  neispravan; 2  netočan; 3  pogrešan

INCOTERMS 2000  (*n*  *shipping econ, mar law*) the internationally accepted and employed terms for contracts of sale, were first published by the International Chamber of Commerce (ICC) in 1936; The latest revision, known as Incoterms 2000, came into force on January 1, 2000. **Međunarodna pravila za tumačenje trgovinskih uvjeta, Uvjeti međunarodnih trgovinskih ugovora, trgovinski uvjeti, ponude međunarodnog pomorskog prijevoza**: The terms consist of 13 rules which are fundamental to international trade, defining the most important responsibilities of buyers and sellers in international sales contracts. **Incoterms** are a basic reference for sales contracts, recognised as the international standard by customs authorities and courts everywhere. (http://www.maerskline.com/en-jm/help/shipping-glossary)

in-court settlement  (*n*  *mar law*) sudska nagodba

increase  (*n*)  porast, rast, povećanje: The long-term effects on the engine are a significant increase in fuel consumption and component damage. The increase in air density is, however, fractionally
offset by the increase of air temperature resulting from adiabatic compression in the turboblower, the )
Because of an increase in pressure, the relief valve opened. The pressure increase in the drainage pot
was sufficient to fracture the observation glass, leading to its catastrophic failure.

increase (v) 1 povećati (se), porasti: I altered course slightly to port to increase CPA to
about 0.0515 Our vessel was drifting to port so I ordered to increase the speed to slow ahead and increase
helm to 20 degrees to starboard. The pilot then asked the Master to increase the pitch to 20% and
requested the helmsman to steer on a heading of 353° gyro (G) to bring the vessel to the south of the
channel centreline. Within limits, so far as combustion is concerned, it is possible sometimes to increase
the speed of an engine if the mean pressure is reduced.; 2 povisiti (se), pojačati (se): The oil level
failed to increase and the pressure remained at zero. The weather forecast on the day of the accident
was for the wind to increase and veer during the day to become onshore, leading to deteriorating local sea
conditions.

increment (n) 1 povećanje (troškova), porast; 2 utržak
incur (v) 1 (shipping econ, mar law) nastati (o troškovima), izazvati: Repairs delayed
the vessel by 2 weeks, spoiling perishable cargo and incurring further penalties. As a result of the ship’s
staff’s not observing the maker’s maintenance instructions and poor engineering practice, the company
incurred an unplanned expenditure of nearly US$ 100,000. costs / expenses ~ in delivery troškovi, proizašli troškovi: Substantial costs were incurred by the member in making
cargo fit for on-carriage.; 2 (marine eng) povećati: The standard methods for curing heavily
contaminated fuels involve the use of biocides, which may be toxic and incur disposal problems.; 3 (nav
arch, safety) nastati (o štečenje / šteta): The chief officer went forward to determine what
damage had been incurred, and when he arrived back on the bridge made a report to the coastguard.
incurred (adj) (mar law, shipping econ) nastalo iz, koji proizlazi iz, izazvan the
cost/expenses ~ in delivery troškovi nastali pri isporuci: In addition to the extra
expenses incurred, the vessel arrived at the discharging port three days late., damage ~ (nav arch,
shipping econ) nastalo oštećenje, prouzročena šteta, nastali izdaci: The actual
damage incurred was as follows: On the port side 10 half round steel fendering on the sheer strake at deck
level was flattened with, fortunately, .... the speed of fire spread and the damage incurred means that the
exact causes will probably never be known., loss ~ (shipping econ) pretrpljeni gubitak:
However, the monetary losses incurred through the incident were quite large.
in damages (n) (mar law) na ime odštete, kao odšteta, kao naknada štete:
US$ 25,000 was paid in damages Na ime štete uplaćeno je 25000 US dolara. US$ 25,000 was paid in
damages

indemnify /in'demnitai/ (v) (mar law) obeštetiti, nadoknaditi štetu

indemnity (n) (mar law, mar ins) Compensation offered by one party to another for the
consequences of carrying out, or omitting to carry out, a certain act.

http://www.tkmglobal.net/chartering.htm; An indemnity is usually given in writing but is
unenforceable in a court of law if the act for which it is given is intended to defraud an innocent third
party. http://www.tkmglobal.net/chartering.htm nadoknada štete (za gubitak i
oštečenje tereta), obeštečenje, naknada štete: The disponent owner then sought an
indemnity from the voyage charterer/shipper. https://safety4sea.com/ Letter of ~ garantno
pismo (za nadoknadu štete): Having failed to get a response, our terminal served the vessel’s
Master, agent, stevedoring company and consignee with an indemnity letter, holding them individually and
jointly responsible for any loss or damage arising from underestimated weights of the lifts. The master then
issued a letter of protest to the terminal and, in return, received a letter of indemnity from them,
 indemnity clause

independent contractor

exonerating the ship from all costs and consequences; measure of ~ opseg prava na naknadu

indemnity clause (n) (mar law) klaузula u prijevoznim ugovorima kojom se određuje visina naknade zbog neispunjenja ugovora klaузula o naknadi

indent /ɪnˈdɛnt/ (n) (safety, nav arch) SEE gash udubljenje (nakon sudara): A little while later the Master inquired from the C/O if he heard the loud bang, and explained that there was a heavy indent on the starboard side of the bridge wing deck. hull ~ a hollowed, notched, or cut place, as on an edge or on a coastline udubljenje na trupu broda, ~ to the shell plating

udubljenje na oplati trupa: The ship sustained a minor deformation of the outer structure of the bridge wing while the other vessel reported several indents to the shell plating in the way of the port quarter above the waterline.

indent /ɪnˈdɛnt/ (v) (navig, safety, mar law) udubiti, ulupiti: The bow of the other ship crushed a half round steel fendering and indented the deck over 3m up to maximum of 20cm depth in way of the forward store between the collision bulkhead and cargo tanks. The ship sustained significant damage to the shell plating along her length; the hull was heavily indented, but it was not breeched and there was no pollution. The bow was distorted and the hull plating was severely indented and holed.

indentation /ˌɪndəˈteɪʃən/ (n) 1 (nav arch, safety) a shallow hole or cut in the surface of the shell plating or ship’s plates udubljenje (na trupu broda, oplati itd.): Unfortunately the momentum of the vessel caused both scows to contact, resulting in a crack on the deck of one and an indentation in the bow of the other. The vessel suffered bottom plate indentation forward but no hull penetration. Unfortunately the momentum of the vessel caused both scows to contact, resulting in a crack on the deck of one and an indentation in the bow of the other. Damage to own vessel consisted of indentation of the bulwark plates and a 800 mm long tear of the shell plating on the starboard bow. The bunker barge suffered a large indentation below the waterline where it was struck by the cargo ship’s bulbous bow >2018_-_-SD1_-_-MAIB_Safety_Digest The collision resulted in significant indentation and steelwork damage to ship’s port bow. https://safety4sea.com; 2 (marine eng) nazubljenost, nazubljenje, zupčast urez, usjek; 3 (oceanogr) razvedenost (obale)

indented (adj) 1 (nav arch) udubljen (o oplati broda): The ship sustained significant damage to the shell plating along her length; the hull was heavily indented, but it was not breeched and there was no pollution.; 2 (marine eng) nazubljen; 3 (geogr) razveden (obala) ~

coastline razvedena obala. Italian:frastagliatura della costa

indention /ɪnˈdɛnʃən/ local plate permanent deflection in some areas of ship’s shell plating between stiffeners (ISSC Committee - V.1.) nazubljenno oštećenje limova oplate, udubljenje (trupa, oplate, nakon sudara)

independent carrier (n) (shipping econ) carrier that is not a member of a shipping conference.

samostalan prijevoznik, prijevoznik izvan brodarske konferencije

independent contractor (n) (mar law) samostalni poduzetnik
independent piece (n) (sailing vessels) pramčana statva

index (v) 1 (shipping econ) indeksirati; 2 (marine eng) zakretati (do određenog stupnja)

index /'indeks; pl. 'indeksi.z (indexes) or 'indi.si.z (indices)/ (=plural: indexes or indices)
(n) 1 (marine eng) pokazatelj, indeks: ... the heating temperature may vary, depending on the viscosity and viscosity index of the fuel. Ignition quality is indicated as cetane number, diesel index and calculated cetane index; the higher the value the better the ignition quality of the fuel. The cetane number or diesel index will determine injection timing and also influences the combustion noise and production of black smoke.; 2 pomicanje (vrijednosti): Increase fuel pump index by regulating handwheel.

indicated horse power (=IHP; indicated power) (n) (marine eng) The power transmitted to the pistons by the gas in the cylinders. (http://www.marinediesel-europe.com/)
indicirana konjska snaga motora, indicirana snaga motora: On modern engines the indicated diagram can be continuously taken by employing two transducers, one pressure transducer in the combustion space and other transducer on the shaft. Through the computer we can thus get on line indicated diagram and power of all cylinders. The indicated power can only be measured from diagrams where these are feasible, and they are also subject to significant measurement errors. measure ~ izmjeriti indiciranu snagu

indicator /'indi.keito/ (n) pokazatelj, pokazivač, indikator: Centrifugal filters fitted for further filtration of the lubricating oil also serve as the oil condition indicator. card ~ indikatorski papirič: It does mean that if indicator cards are being taken as a check on cylinder performance, several cycles per cylinder should be taken to ensure that a properly representative, ~ pen pisač indikatora

indicator cock (n) (marine eng) An engine indicator is used to calculate the indicated power of the engine, and this is connected to the indicator cock. The engine indicator is operated as the engine fires when running normally. The cock is shut before disconnecting the engine indicator. indikacijski pipac, indikatorski pipac, pipac kalkulatora indicirane snage, pipac pokazivača indicirane snage, pipac: The indicator cock is opened when the engine is being turned over by the turning gear and, when being started for the first time after being shutdown to blow out any water or debris from the cylinder. The cock is then shut for normal running. Cylinder heads for 4 stroke engines are of a complex design. They have to house the inlet and exhaust valves, the fuel injector, the air start valve, relief valve and indicator cock. The passages for the inlet air and exhaust gas are incorporated, as are the cooling water passages and spaces. The fire was the result of a defective high pressure fuel pump spraying fuel over a hot indicator cock on a cylinder head.

indicator diagram (n) (marine eng) indikatorski dijagram: The indicator diagram is
very important to know the combustion in the cylinder and also to adjust the engine. Indicator diagrams give efficiency of combustion in the cylinder, condition of the running gear, irregularities in fuel pumping and injection and a lot of things. The main engine indicator cocks were left open, the turning gear disengaged, the air receiver valves and main air start valve were shut, and the lubricating and cooling water pumps were left running. The indicator cock is opened when the engine is being turned over by the turning gear and, when being started for the first time after being shutdown to blow out any water or debris from the cylinder. The cock is then shut for normal running. Watch-keeping duties include checking the cock is not leaking exhaust gas, if it is a temporary cap can be screwed on, and the cock replaced at the first opportunity at next shutdown.

indikatorskom dijagramu
http://marineengineeringonline.com/indicator-diagrams/
indict /ɪnˈdaɪt/ (v) (mar law) to charge (a person, company) with crime optužiti
indictment /ɪnˈdæɪtmənt/ (n) (mar law) optužnica: The jury convicted on each of the nine counts in the indictment.

indifferent equilibrium (n) (nav arch) indiferentna ravnoteža
indirect drive (n) (marine eng) posredni pogon, neizravni pogon, pogon s reduktorom: The most common form of indirect drive of a propeller features one or more medium-speed four-stroke engines connected through clutches and couplings to a reduction gearbox to drive either a fixed pitch or CP propeller. According to the way the main engine is joined to the shafting, they may be classified as direct coupled engines, i.e. coupled directly to the propeller shafting (also called direct drive) and geared engines, i.e. coupled to a reduction gearing (indirect drive).

indirect injection (n) (marine eng) posredno ubrizgavanje
indirectly cooled piston (n) (marine eng) A piston cooled mainly by the conduction of heat through the cylinder walls. (A piston cooled mainly by the conduction of heat through the cylinder walls.) posredno hlađeni klip
indiret ignition (n) (marine eng) posredno paljenje
indispensable (adj) neophodan, prijeko potreban: For this reason functions that are indispensable or needed for safety reasons to protect the machine and/or personnel are denoted with shall while other functions are denoted with should.

indium (n) (chem) indij: A thin flash of lead or indium is often added to provide a layer giving protection against corrosion.

indorse /ɪnˈdɔːs/ (v) (mar law) = endorse ovjeriti
endorsement /ɪnˈdɔːsmənt/ (n) 1 (mar law) = endorsement bilješka na poleđini dokumenta, naledenje; 2 ovjera

induce /ɪnˈdjuːs/ 1 (marine eng) inducirati; 2 (electr) povlačiti zrak: ... while the piston begins to descend on the expansion stroke, the piston movement usually helping to induce air movement to
induced air blower (n) (marine eng) usisni ventilator
induced draught (n) (marine eng) umjetni propuh, usisna cirkulacija
inducement freight rate (n) (mar law, shipping econ) Minimum quantity of cargo or freight required by a shipping line to make it worthwhile to call at a particular port of loading or discharging.
inductive (adj) nedjelotvoran, neučinkovit, neefikasan:
inductance (n) (electr) indukcija
induction /ɪnˈdʌkʃn/ (n) 1 (electr) indukcija: Synchronous speed: The speed the machine will attain when it is driven by a three-phase squirrel-cage induction motor and there is no slippage in the motor and the drive system.: 2 (marine eng) usis, usisavanje, puštanje / uvodenje: The time period for the induction of starting air. To improve the induction of fuel/air mixture into the crankcase, one-way valves (check valves, reed valves, or rotary valves) may be used in the intake port to allow the induction stroke commences when the inlet valve opens 10° before TDC when air is drawn into the cylinder as the piston moves down.
industrial action (n) (mar law) steps such as a strike or work to rule that workers of a firm may take to enforce their demands or to press addressing of their grievances.
industrial dispute (n) (mar law) a disagreement between workers and management over pay, working conditions, hours of work etc., especially one that includes strikes (= workers refusing to work):
industry /ˈɪndəstri/ (n) 1 (shipping econ) grana gospodarstva, grana privrede, industria (n) shipping ~ brodarstvo, brodarsko gospodarstvo, brodarska privreda: This investigation report is to be circulated among the company vessels and shipping industry., transportation ~ (US) transport, transportno gospodarstvo: The transportation industry is the largest industry in the world., fishing ~ ribarstvo, ribarsko gospodarstvo: Safety at sea for the fishing industry has to be a prime concern. Besides involvement in the UK fishing industry, I have also experienced the extremes of artisanal fishing in the Pacific Islands and industrial fisheries of Japan., marine ~ brodarstvo: He is a Master Mariner and has spent over 33 years in the marine industry., maritime ~ (n) 1 brodarstvo: He began his career in the maritime industry as a Deck Officer with .... in 1964 and came ashore in 1971 having graduated with a BSc in Nautical Science from Southampton University.; 2 pomorsko gospodarstvo, pomorska privreda: The human element is, quite rightly, a major topic in the maritime industry. Having been involved in the maritime industry for more than 63 years, I've seen a dramatic change in the personnel in charge of ports and harbors throughout the world.; 2 industria (teška, naftna itd.); 3 ljudska djelatnost
ineffective (adj) nedjelotvoran, neučinkovit, neefikasan: Additionally, Flag State inspections of the vessel were ineffective. Ineffective use of manpower With an ineffective pump, water ingress, and a forecast gale, he chose to divert to the nearest port to effect repairs and take shelter. ..
inefficient

neeefikasno motrenje: Ineffective lookout and failure to take independent action to avoid collision on the part of the crossing vessel.

inefficient (adj) 1 nedjelotvoran, neefikasan: However, inefficient scavenging and other losses, reduce the power advantage to about 1.8. The maintenance was considered necessary because the burner unit was emitting excessive black smoke – a sure sign of inefficient combustion. render ~

inefficient (adj) 2 bezuspješan

inert (v) (cargo handling, safety) inertirati (prazan prostor u tanku): ... chemical tankers have nitrogen plants capable of supplying large amounts of N2 but I am not sure if this is sufficient or of high enough quality to inert all tanks for all cargoes carried that have a low flash point. How to carry out inerting, pugging, and gas freeing?

inert gas (=IG) (n) (cargo handling, safety) A gas such as carbon dioxide or nitrogen that is used to make an oxygen deficient atmosphere. Inerted tanks are useful for preserving cargo integrity and reducing the explosive potential of cargo tanks.

https://officerofthewatch.com/tools/maritime-dictionary/; An inert gas is one which has little or no ability to react with other gases, or to heat (e.g. nitrogen and CO2) (www.euronav.com) inerti plin; Carriage is only permitted under an inert gas blanket; The ventilation from an IG (inert gas) blower was on but the IG inlet was opened on all cargo tanks. During the stoppage, tank pressures rose significantly probably as a result of the unsaturated ullage space containing mainly inert gas; During this period, due to very high ambient temperature, No 2P COT pressure relief valve opened, releasing inert gas (IG)/cargo vapour mixture to the atmosphere, in breach of the applicable Annex 6 of Marpol. Prior to berthing, the tank inert gas pressures had been reduced to 70 mm WG; 4. The inert gas is used to blanket the oil cargo during discharging operations.

inert gas inlet (n) (cargo handling, safety) ulaz inertnog plina close the ~s

inert gas plant (n) (marine eng, safety) uredaj inertnog plina: The inert gas (IG) plant was in operation. so was equipped with a nitrogen gas plant, it was practice to use nitrogen as much as possible for inerting in order to avoid soot generated from the inert gas plant entering the tanks.

inert gas system (=IGS) (n) (cargo handling, safety) sustav inerti plina, sustav za inertiranje atmosfere; Line clearance was undertaken for a 45-minute period during which the inert gas system (IGS) was not run.

inertia /ˈɪnˌɜːʃə/ (n) inercija, tromost: The first-order inertia force from the lower piston is balanced against the corresponding force from the upper pistons, and a well-balanced engine is obtained. In this case he demonstrated inaccuracy in visual range finding abilities and estimation of own ship speed as well as possible unawareness of ship’s inertia characteristics. The inertia forces originating from the unbalanced rotating and reciprocating masses of the engine create unbalanced external moments although the ext The crank also has to absorb the inertia loading due to the conrods and pistons, which easily amounts to several tons on each cylinder. A more robust rod pin end enhances the durability required for the increased piston speeds and higher inertia loads.

inertial navigation (n) (navig) a navigation aid that uses a computer, motion sensors (accelerometers) and rotation sensors (gyroscopes) to continuously calculate via dead reckoning the position, orientation, and velocity (direction and speed of movement) of a moving object without the need for external references. It is used on vehicles such as ships, aircraft, submarines, guided missiles, and spacecraft. /Wikip) inercijalna navigacija

inerting (n) (safety, cargo handling) A procedure used to reduce the oxygen content of a vessel’s cargo spaces to 8 percent or less by volume by introducing an “inert” gas blanket such as nitrogen or
infectious disease

information service

carbon dioxide or a mixture of gases such as flue gas. (www.euronav.com)\itingranje
infectious disease /in′fɛkʃəs di,zi:z/ (n) (med) = contagious disease infektivna bolest, zarazna bolest
infested (adj) (safety) zaražen
infirmary (n) (med, nav arch) brodska bolnica
inflammability (n) (safety) nezapaljivost
inflatable boat /in′fleitəbəl/ (=inflatable) (n) (boating/yachting, safety) gumenjak: A rigid inflatable boat (RIB) was being employed as a support boat for an event on the water. Fast turns in rigid inflatable boats generate large forces which can throw personnel overboard, despite their best attempts to hold on.
inflation cord (n) (safety) konopac za napuhavanje (prsluka za spašavanje)
information (n) (comm) obavijest obtain ~ dobiti / ishoditi informacije / podatke, scanty ~ oskudni podaci: A master’s reliance on scanty VHF information and another’s failure to keep a proper lookout contributed to a collision between a containership and an oil tanker off Jebel Ali earlier this year, AIS ~ informacije dobivene sustavom AIS: The lack of AIS information possibly contributed to the tanker master’s ignorance of the container ship’s identity immediately before the collision., exchange ~ razmijeniti informacije: The master and pilot exchanged information on the vessel’s status and briefly discussed the planned departure manoeuvre., wait for further ~ čekati na daljnje informacije: Approximately 30 minutes before arrival at the station he was therefore advised to stop and wait for further information.,
provision of ~ davanje informacija, pružanje informacija: Provision of information to the surveyor concerning the normal working level of the liquid contained within a tank, and …, unambiguous ~ nedvosmislene informacije: When crew critical to an operation are located out of sight of each other, it is vital that unambiguous information is relayed, and that all involved understand their role and responsibilities.

Information and Traffic Organisation Service (n) (UK) (navig, ports, safety)

Služba za informiranje i organizaciju prometa brodova (UK): Traffic Organisation Services are concerned with, for example: ● forward planning of vessel movements ● congestion and dangerous situations● the movement of special transports ● traffic clearance systems; ● VTS sailing plans; ● routes to be followed; and ● adherence to governing rules and regulations. www.gov.uk/maib

information exchange (n) razmjenica informacija, razmjena podataka: The Master/Pilot information exchange had been carried out in accordance with the Company Safety Management System and the Master had discussed the prevailing weather conditions had already let go and by the time the pilot arrived on the bridge the master had started the departure manoeuvre without any form of master / pilot information exchange or notification of his intentions. The master and pilot shall exchange information regarding the navigation procedures, local conditions and the ship's characteristics. The ship’s stability was determined using the vessel’s on board stability computer with the information provided by the staff captain and the chief engineer.

information service (n) (navig, safety) služba koja priprema izvješća i upute brodovima u plovdbi u području nadležnosti o događajima i okolnostima zbog kojih bi mogli biti ugroženi ljudski životi, sredstva i morski okoliš služba izvješćivanja: Three levels of service can be provided: an information service (INS), a navigational assistance service (NAS) and a traffic organisation service (TOS). The VTS Information Service gave regular traffic broadcasts on the port operations VH radio channel.
infrared  (adj) infracrven: The coastguard helicopter arrived within 5 minutes and, using the on board infrared (IR) equipment, was able to identify to the skipper that the seat of the fire was in the starboard after corner of the engine room.

infrastructure  /ˈinfrastrəktʃər/ (n) (ports) infrastruktura, podgradnja: The Port Authority is investing heavily in infrastructure at its container terminals and other facilities and will continue to deliver a high level of service to all carriers. There were no injuries or pollution, but damage was caused to infrastructure on the quayside and the vessel’s hull in way of empty ballast tanks. This resulted in the vessel making multiple contacts with the jetty’s infrastructure, resulting in material damage to both the jetty and the vessel before control was regained. The port authority commends government for its investment in infrastructure projects that will address transportation challenges along Canada’s trade corridors, improve the movement of goods through the port, and help ease the impacts of growing trade on local communities. https://www.maritimeprofessional.com/news/federal-funding-port-vancouver-317672

port ~ sea locks, waterways, breakwaters, quay walls, wharves, docks, piers, jetties, and main roads in a port 

shore ~ obalna infrastruktura: ears in this area, involving loss of control of large vessels during times of strong tidal flow, resulting in contact damage to vessels and shore infrastructure.

infringe  (v) (mar law) povrijediti, prekršiti (propise, ugovor)

infringement  (n) (mar law) kršenje (propisa, ugovora), prekršaj, povreda (propisa): Failure to comply with certification requirement may result in a heavy fine, arrest or a penalty due to the infringement of flag/port state requirements.

in good order and condition  (mar law) u dobrom izgledu i stanju, klauzula u dobrom izgledu i stanju

in good working order  (safety) u dobrom stanju za normalan rad: Check if the inert gas system (IGS) is fully operational and in good working order. Arrangements (pilot ladder, accommodation ladder, winches, wires, davits, sheaves and all associated equipment) have been thoroughly inspected and are in good working order, and comply with IMO recommendations. In addition to authorised service personnel, crew have equal responsibility for ensuring that lifeboats are in good working order and are maintained and operated properly.

ingress  /ˈɪŋgrɛs/ (n) (safety) prodor ingress of ballast water into holds (cargo, mar ins)

prodor balastne vode u brodska skladišta: the Master discovered that there was water ingress in No 3(P) ballast deep tank. Ingress of water prodor vode (u brod): Ship’s tanks and compartments were sounded and monitored for any ingress of water or possibility of pollution, The chief officer left the bridge to see if there was any water ingress in the ballast tanks. No water ingress or other damage was found. An underwater inspection of vessel revealed water ingress in a couple of tanks which will require a complex salvage operation to make safe. www.gcaptain.com The forward void spaces were also reported to have water ingress.

inherent  /ɪnˈhɪərənt/ (adj) sadržan u nečem, inherentan, sam po sebi: This points out the dangers inherent in false information from ARPA at low ranges and fast moving vessels in these close quarter situations. The risks inherent in all lifting operations, including the launching of watercraft, must be rigorously assessed and safe working practices developed. ~ vice skrivena mana

inherent vice  (n) (nav arch) .. any existing defects, diseases, decay or the inherent nature of the commodity that will cause it to deteriorate with a lapse of time. Examples of goods that are subject to inherent vice are agricultural commodities, such as fruits and vegetables, and tobacco, which have the tendency to over-heat and to be subject to spontaneous combustion.

http://www.tkmglobal.net/chartering_I.HTM skrivena mana
inhibit (v) 1 kočiti, ukočiti; 2 spriječiti: The flame deck has drilled coolant channels to inhibit large thermal stresses. To reduce the corrosive action and inhibit the formation of scale deposits in the system it is usual to provide some form of water treatment.

inhibitor (n) (marine eng, chem) usporivač, inhibitor: Any substance which retards or prevents such chemical reactions as corrosion or oxidation. (http://www.marinedieseleurope.com/)

in-house (adj) (mar law, shipping econ) vlastiti, unutar kompanije: The Club’s in-house lawyers are available to advise on any issue relating to the chartering of vessels, including advising on contract terms, and to assist in resolving We do expect a certain level of certification for some positions and lean mostly on the in-house/on-the-job training process. Trainings are conducted by in-house trainers and also those engaged from reputable consultancies such as... The new vessel joins two other test tanks and increases the in-house pressure testing capability and services offered to outside companies needing pressure testing.

in irons (=in-irons) (n) (boating/yachting) when the bow of a sailboat is headed into the wind and the boat has stalled and is unable to maneuver; The boat is pointing into the wind with the sails flapping, but it will not pay off on to either tack by its own momentum and is temporarily out of control.

https://www.ypiyachts.com/ jedrila okrenuta sasvim u vjetar, bez kretanja

initial action stage (n) (safety) A period during which preliminary action is taken to alert search and rescue facilities and obtain amplifying information. (IAMSAR/Camsar2014) preliminarne radnje u traganju i spašavanju

initial alarm (n) (safety, marine eng) prvi alarm: Main power was restored 15 hours after the initial alarm.

initial course (n) (navig, safety) početni kurs (U SAR-u): After turning my vessel 100 degrees from its initial course he was on my port quarter. It was dark, and shortly after making an initial course alteration to effect his chosen route, the master fell asleep. Assessing my own and the probable intentions of my two targets, I decided to stay on my initial course running over my waypoint.

initial distress message prva poruka za pomoć u pogiblji, prva poruka za pomoć koju šalje brod u pogiblji

initial operational capability (n) (navig, elect) početak rada (navigacijskog sustava)

Initial Position Error (n) (safety) greška u određivanju početne pozicije (potrage i spašavanja)

initial position error (X) The estimated probable error of the initial position(s) at the beginning of a drift interval.(IAMSAR/Camsar2014) pretpostavljena greška u određivanju početne pozicije SAR-operacije

initial report (n) (navig, comm) izvješće koje plovni objekt predaje službi VTS pri uplovljavanju u područje njezinе nadležnosti početno izvješće: Wherever possible after the initial report, the master may delegate the task of filing reports to additional parties to a responsible agency or person.

initials /ɪˈnɪʃəlz/ (n) početna slova, inicijali

initial ship design (n) (nav arch) osnivanje broda

initial stability (n) (stabil) The stability of a ship in the range from $0^\circ$ to $7^\circ/10^\circ$ of inclination početna stabilnost: Although this ballast would have improved initial stability, the effect of the decreased freeboard would have also reduced the vessel’s righting lever.

initial transverse metacentre; (M) (n) (stabil) the point of intersection of successive lines of action of buoyancy force (f) when the ship is in the upright condition and subsequently heeled conditions
initial transverse stability

injector /ˈɪnʤɛktər/ (n) (marine eng) ubrizgač, raspršivač, rasprskač: The in-line six-cylinder model benefited from an upgraded fuel injection pump and a new injector as well as a new charge-air cooling system, which reduces the inlet air temperature by around 10°C ... Further upward movement of the plunger causes the fuel to be raised in pressure and expelled through the delivery valve to the injector. ~ nozzle mlaznica ubrizgača: The fuel flows at high velocity through small holes in the injector nozzle causing it to divide up into fine spray which penetrates throughout the combustion
injection sleeve (n) (marine eng) A tube that keeps engine coolant away from the injector.

injection (n) (safety) ozljeda, povreda: Both vessels suffered major structural damage to their bows, but there were no injuries or pollution. - The CE was not wearing gloves, which could have reduced

injurious (adj) ozlijeđen, povrijedjen: Immediately after berthing, the injured crew was sent ashore and the doctor diagnosed a bone fracture, ligament injury and subcutaneous haematoma.

injure (n) ozlijediti, povrijediti: Fortunately, no one was injured. Na sreću nitko nije bio ozlijeđen. As a result of the sea state during the subsequent manoeuvres, several persons on board the tug were injured. The AB reported from the forecastle that the bosun was seriously injured. The ship suffered minor damage to her bow but nobody on board was seriously injured and there was no pollution.

injured (adj) ozlijeđen, povrijedjen: Immediately after berthing, the injured crew was sent ashore and the doctor diagnosed a bone fracture, ligament injury and subcutaneous haematoma.

injunction (n) (mar law) An order from a court that prevents someone from doing something zabran, mjera, nalog, sudski nalog o zabrani, naredba administrative ~ administrativna zabrana, temporary ~ privremena zabrana (isplovljenja broda): A temporary injunction - arrest of a ship (yacht), which is situated in a marina, shall be effected in a manner that the arrested ship remains berthed within the waters of the port., grant an ~ izdati zabranu, obtain an ~ against a carrier ishoditi zabranu (od suda) protiv prijevoznika / vozara

injury (n) (safety) ozljeda, povreda: Both vessels suffered major structural damage to their bows, but there were no injuries or pollution. - The CE was not wearing gloves, which could have reduced...
the severity of the injury. No injuries or pollution have been reported. Injuries: 4 Broj ozlijeđenih:

fatal ~ smrtonosna ozljeđa, fatalna ozljeđa: A fatal injury to a crew member on a platform supply ship occurred while the ship was at anchor off the port, severe ~ ozbiljna ozljeđa: The failure caused severe injury to a stevedore and gave rise to a lengthy off-hire period., suffer ~ ozlijediti se, biti ozlijeđen, doživjeti ozljeđu, zadobiti ozljeđu: We are very relieved that our crew are safe and have not suffered any serious injuries., escape ~ izbjeći ozljeđu, sustain ~ zadobiti ozljeđu, pretrpjjeti ozljeđu, ozlijediti se: a serious injury sustained when falling overboard on 7 August 2005 Three seafarers sustained minor injuries but remained on board the vessel. The research reveals that injuries sustained while lifting or in slips, trips/falls are the most frequent incidents at sea, https://safety4sea.com/ Three port employees sustained injuries as a result of the accident., serious ~ = serious injury ozbiljna ozljeđa: Fortunately, despite being struck lightly by the pilot boat and scratched by the ship's hull, the pilot did not sustain any serious injury and was quickly rescued from the water by the pilot boat's crew. Wherever there is a serious injury, a “Mayday” call would be appropriate. Due to the serious injury, and under radio medical advice, the vessel deviated to the nearest port, from where the injured crewmember was flown to Singapore., ~ due to ozljeđa uslijed, ozljeđa zbog: Injury due to parted mooring rope., ~ to (a person) ozljeđa (osobe): Mooring line failure resulting in serious injury to a deck officer on board the ship ..., cause ~ izazvati ozljeđu, prouzročiti ozljeđu: Sudden release of load caused injury Inappropriate use of disc grinder caused injury, fatal crush ~ kobna ozljeđa gnječenjem: As the vessel’s bow moved away from the jetty, an AB who was standing inside the bight of the spring line suffered a fatal crush injury., burn ~ opeklina: An crewmember sustained severe burn injury., scald ~ ozljeđa prženjem, opeklina, ofuriti se: The oiler had a large 2nd degree scald injury on his left ankle., hand / head / leg / eye ~ ozljeda ruke / glave / noge / oka: A ship’s crew member sustained a serious hand injury while using an air driven deck scaler during maintenance operations. The spreader and chain block fell on to the bottom plates violently, inflicting a head injury on a crew member. Ultra violet light caused eye injury. Whilst changing the ultra violet (UV) lamp in the ship’s fresh water steriliser unit, a crewmember inadvertently switched on the UV light and stared, report an ~ prijaviti ozljeđu, izvijestiti o ozljeđi: No injuries were reported and the cause of the fire is unknown. (https://safety4sea.com/)

ink fish (n) (fishing) liganj

inland (adj) 1 kopneni; 2 obalni, na kopnu; 3 u unutrašnjosti; 4 (navig) unutrašnji (plovnih putova) ~ port luka unutrašnjih plovnih putova, unutrašnja luka: The two ships collided in dense fog in the Kiel Canal’s inland port of Brunsbüttel., ~ sea pilot pilot za unutrašnje plovne putove: Taking an Inland Sea pilot was not necessary but without hesitation I decided to take a pilot for berthing., ~ vessel brod unutrašnjih plovnih putova: A new mate joined a small inland passenger vessel for his first day of work. The hatch crane and hatch arrangement are similar to those in many small ocean going and inland vessels.

inland navigation ship (n) (mar law, navig) brod unutrašnje plovidbe

inland port (n) (ports) unutrašnja luka, luka na unutrašnjem plovnom putu: Expanding intermodal service in South Carolina through Inland Port Dillon will create a competitive advantage for area businesses by lowering transportation costs and providing greater access to domestic and international markets. http://www.marinelink.com/news/carolina-planned-inland415305.aspx

Inland Rules (n) (navig, mar law) A specific set of maritime traffic laws applying to inland
inland waterways (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) Pravila o plovidbi unutarnjim plovnim putovima

inland waterways (n) (mar law, inland waterways) a stretch of water not part of the sea, open to navigation (https://eur-lex.europa.eu/legal-content) unutarnji vodni putovi, unutarnji plovidbeni putovi, unutrašnji plovni putovi: It is essential that any information affecting the safe navigation of inland waterways is brought to the attention of all users. The vessel, a typical box/barge type capable of inland waterway transportation, was under the British flag and only a few years old. It will be Maersk’s first container movement in the 1390-km inland waterway in the River Ganga from Haldia to Varanasi https://Marinelink.com

inland waterway unit (n) (nav arch, mar law) plovni objekt unutarnje plovidbe, ploveći objekt unutarnje plovidbe

inland waterway vessel (n) (nav arch, mar law) brod unutarnje plovidbe

inlet (n) 1 (marine eng) ulaz ~ water ulazna voda, ulaz za vodu; 2 ulazni otvor (zraka / pare / vode / ulja / goriva itd.); 3 dovod ~ valve dovodni ventil, ulazni ventil: Closure of the inlet valve is timed so that just the right amount of air is sucked into the cylinders. The inlet valve closes 1° before bdc. The inlet valve is open and a fresh charge of air is being drawn or pushed into the cylinder by the turbocharger. air ~ ventil za ulaz zraka, ventil za usis zraka, ~ pipe dovodna cijev: The inlet pipe has to be replaced with a new one. ; 4 A fitting in a ship’s hull to allow seawater to enter or exit. usis mora (za hlađenje motora) inlet port (n) (marine eng) otvor za usis zraka: Here the inlet ports are machined around the liner about 1/3 of the way up from the bottom. The opening and closing of the exhaust and air inlet ports are shown diagrammatically in the typical timing diagram. https://www.quora.com/What-is-a-%E2%80%9C2-stroke-SI-engine%E2%80%9D

inlet vanes (n) (marine eng) ulazne lopatice

in-line engine (n) (marine eng) an engine in which all the cylinders are in a straight line (http://www.marinedieseleurope.com/) redni motor, motor s cilindrima u nizu, L-motor: ... a 320a 320mm mm bore/420bore/420mm mm stroke design which had been offered as stroke design which had been offered as an in-line engine with six, eight and nine cylinders or as V12 and V16 versions with an output of 370 kW/cylinder. As an option for particu- larly difficult applications, the in-line engine can be specified with control of the turbocharger turbine surface by MaK’s Variable Multi-Pulse (VMP) system.

in-line injection pump (=in-line injection fuel pump) (n) (marine eng) An injection pump with a separate cylinder and plunger for each engine cylinder. (http://www.marinedieseleurope.com/) redna pumpa goriva, Boschova pumpa goriva

INMARSAT (n) (comm, navig) a British satellite telecommunications company, offering global, mobile services. It provides telephone and data services to users worldwide, via portable or mobile terminals which communicate to ground stations through eleven geostationary telecommunications
satellites. A system of geostationary satellites for world-wide mobile communications services and which support the Global Maritime Distress and Safety System and other emergency communications systems. (IAMSAR/Comsar 2014) **Organizacija INMARSAT:** Maintain the Inmarsat SafetyNET watch and disable the HF DSC watch until it has to be activated as the standby means of shore-ship alerting, should SafetyNET fail … If the sole means of Distress Alerting in Sea Area A3 were INMARSAT-C, disregarding the use of an EPIRB, the number of False Distress Alerts/Relays would be significantly less. To look at it from another angle: Inmarsat-A, Inmarsat-B and Fleet 77 equipment is all allowed to be installed as part of a ship’s GMDSS fit. So, if their Inmarsat-A happens to include a SafetyNET facility, they do not have to programme their ‘A’ to receive SafetyNET information in addition to their Inmarsat-C.

**signalni uzvune o pogibli i žurnosti na moru putem sustava INMARSAT A, B i C:** Inmarsat A, B or C distress and urgency alerts transmitted from a vessel are first detected by an Inmarsat land earth station (LES) and forwarded directly to its associated rescue coordination centre (RCC). CAMSAR II – Mission Coordination

**inner anchorage (n) (navig, ports) nutarnje sidrište, sidrište u zaštićenom dijelu luke:** Our vessel was anchored in a crowded inner anchorage with a current of up to two knots. **inner bottom (n) (nav arch) = tank top** inner skin or tank top plating; the plating over the double bottom **pokrov dvodna**

**inner forestay (n) (boating/yachting) = Solent stay nutarnji štraj:** How do I install an

---

**inner forestay or Solent stay?**

https://wavetrain.net/2015/06/17/cruising-sailboat-rigs-sloops-cutters-and-solent-rigs/

**inner pilot station (n) (navig, ports) peljarska postaja u zaštićenom dijelu luke:** Pilotage is only compulsory from the inner pilot station.

**inner planking** planks attached to the inner side of a boat’s frames **unutrašnja oplata**

**inner port / harbour (n) (ports) nutarnja luka, zaštićen lučki dio (od valova), lučki akvatorij zaštićen od otvorenog mora (za ukraj peljara):** As the ship approached the inner harbour, speed was reduced to half ahead, giving about 4.3 nm. There were no other vessels moving either in the outer harbour, or the inner harbour, and the navigational light at the entrance to the inner harbour was clear and un-obscured.

**inner-post (n) (sailing vessels) krmena protustatva, kontaašta**

**inner stern post (n) (sailing vessels) krmena protustatva**

**inner surface (n) nutarnja površina:** The inner surface of the cylinder liner is usually chrome plated to make it smooth but this smoothness also has its drawback that it does not Further, the
inner surfaces of exhaust gas uptakes and economisers are invariably coated with a highly corrosive and toxic, jelly-like residue and even if skin contact

innocent passage (mar law) ship or aircraft’s right to enter and pass through another’s territory so long as it is not prejudicial to the peace, good order or security of the other state. (Duhaime)

neškodljivi prolaz, slobodan prolaz (tjesnacima, kanalima itd) right of ~

pravo neškodljiva prolaza

inoculate /ɪnˈnʌkjuːlət/ (v) cijepiti (se)

inoculation /ɪnˈnʌkjʊləʃən/ (n) cijepljenje (radi imunizacije) ~ certificate potvrda o cijepljenju

inoperative (adj) pokvaren, koji ne radi / ne funkcioniraj: the vessel was moving astern and had an inoperative bow thruster Fog signal ...(charted name of light / buoy) in position ...

inoperative. (IMO SMCP) Even if her radar had been inoperative, the bridge watch must have been very much at fault to mistake the lights and to have been in the deep water route. Simple failures render CO2 system inoperative. The ECDIS audible alarm was inoperative. The third accident involved a ro-ro vessel entering the same lock; this vessel was moving astern and had an inoperative bow thruster.

in order to (conj) s ciljem, kako bi (pri izražavanju namjere): In order to allow a wider clearance, the tanker reduced speed to dead slow. Simultaneously, his aspect was observed of change as he altered course to port and we quickly reversed the helm and steadied up back on 3100 T in order to allow him to pass round our stern. In order to allow a wider clearance, the tanker reduced speed to dead slow.

in personam (Latin) A type of legal proceedings directed against the defendant personally (e.g. an action for breach of contract, the commission of a tort or delict or the possession of property). Where an action in personam is successful, the judgment may be enforced against all of the defendant’s assets, real and personal, moveable and immovable.

pravni postupak u odnosu na osobu (tvrtku, trgovačko društvo), in personam (lat.), protiv osobe: Although admiralty are frequently in personam, against individual or corporate defendants only, the most distinctive feature of admiralty practice is the proceeding in rem, against maritime property.

inquire, enquire /ɪnˈkwɔːri/ (v) 1 tražiti (informacije), pitati: When the two vessels were a little over 4 miles apart, the south-west bound vessel called on VHF channel 16 to inquire into the crossing vessel’s intentions. When the two vessels were a little over 4 miles apart, the south-west bound vessel called on VHF channel 16 to inquire into the crossing vessel’s intentions.; 2 (mar law)

insolvency proceedings (n) (mar law) stečajni postupak: The Bank has asked the Tribunal to initiate insolvency proceedings against the Shipping Company seeking dues worth more than $5 million.
inspect /ɪnˈspekt/ (v) 1 (safety) pregledati, obaviti inspeksijski pregled (broda), pažljivo pregledati: The undersigned duly authorised by the ... Marine Administration, hereby declares that the above-mentioned vessel has been inspected as indicated below. Inspect cargo as it comes on board. Accordingly, our onboard procedures ensure that my highly reliable and competent crew open, inspect and seal every empty container on the quay before being loaded. On the bridge I informed the Master and he inspected the ladder himself. Inspect the tanks, pregledati tankove, ~ for damages, pregledati radi utvrđivanja oštećenja: The boxships is being inspected for any damages following a brief grounding incident, ~ the cargo, pregledati teret: Five days into the voyage, the first mate intended to inspect the cargo via the access in the forecastle, ~ the pilot ladder arrangement, ispiti kako su postavljene peljarske ljестve: In this case the pilot in question boarded the vessel over the stern ramp and did not have the opportunity to inspect the pilot ladder arrangement prior to using it (the same might also be said when the pilot embarks for the first time from a launch).; 2 nadzirati tour of ~ obilazak (broda / strojarnice) radi nadzora.

inspection /ɪnˈspekʃən/ (n) 1 pregled, inspekcija, inspeksijski pregled: On the following day, after further inspections by UK Flag State surveyors, the ship’s classification society and the ship’s insurers, the vessel departed the port. www.gov.uk/maib make an ~ of pregledati, obaviti pregled: Record in the log books inspections of cargo holds undertaken by the ship’s officers or crew during the voyage, ~ perform the ~ obaviti pregled, izvršiti pregled: The ~ was performed under the authority of ... Maritime Administration, special inspection izvanredni pregled broda, occasional ~ izvanredni pregled broda, initial ~ osnovni pregled broda, routine ~ uobičajeni pregled, redoviti pregled, rutinski pregled: About 45 minutes later, the Chief Officer also went down to the tunnels to carry out his routine inspection and monitoring of the self-discharging system, ~ conduct an ~ provoditi pregled, follow-up ~ naknadni pregled, naknadna inspekcija, hold ~ inspeksijski pregled skladišta, pregled skladišta: A recent example of the problem was a pre-loading hold inspection and suitability survey on a vessel which was to load fertiliser, ~ hole otvor za pregled, otvor za inspekciju, ~ revealed (that) inspekcija je otkrila (da ..), inspekcija je pokazala (da..): An inspection revealed that the damage was confined to the bow thruster compartment and in way of the grey water tank. The inspection revealed a number of serious deficiencies, such as failure to start the emergency generator, failure of life boat starting arrangements, short comings in the safety management system (ISM), and failure to pay crew wages https://gCaptain.com, ~ of the hull inspekcija trupa: The subsequent diver’s inspection of the hull identified that the leading edges of the propeller blades were polished and that there was a mass of large size monofilament ..., annual ~ godišnji pregled, godišnja inspekcija: Serious injury to crew member during a free-fall lifeboat annual inspection in the port of Marseille on ..., ship inspekcija broda inspeksijski pregled broda, Ship Security ~ Check List kontrolnu lista nadzora sigurnosne zaštite brodova, undergo ~ podvrgnuti se inspekciji: The vessel arrived in Richmond, where it underwent a U.S. Coast Guard inspection and examination. https://gCaptain.com; 2 nadzor

inspection report (n) (mar ins, mar law) izvješće o pregledu: The introduction of quarterly reviews of risk assessments based on port state control inspection reports, external and internal
audits and crew feedback. Carrier ~ vozarovo (prijevoznikovo) izvješće o pregledu

inspector (n) (safety) A person assigned to determine the quantity and/or the quality of a commodity. (www.euronav.com) inspektor, inspektor sigurnosti plovidbe: In one, a cargo inspector departed the job-site in the early hours of the morning after a long day loading a bulk-carrier. Even classification societies and the class inspector on board during the vessel construction can make mistakes or miss something. On one occasion as a marine inspector, I was driving home at the end of a very long work day and I fell asleep at the wheel.

in spite of (conj) = despite usprkos: In spite of applying more starboard helm, the helmsman was unable to stop the head paying off to port even more rapidly. In the Oil Record Book some ships show nil remains of oil on board in spite of the massive tank cleaning operations that have taken place.

instability (n) (nav arch, safety) nestabilnost, promjenjivost: ... longitudinal bulkheads may cause large free surface effects to the extent that the initial metacentric height (GM) becomes negative. This creates initial instability and results in heeling to an angle where the ship becomes stable again (lolling). As the group members stood up, the centre of gravity rose and the boat’s instability increased, eventually causing it to capsize.

install (v) ugraditi, instalirati, montirati, postaviti
installation (n) 1 (n) (ports) postrojenje port s lučka postrojenja, marine ~ brodsko postrojenje, shore ~ obalno postrojenje, steam turbine ~ turbinsko postrojenje, postrojenje parnih turbina; 2 (marine eng) instaliranje, montiranje, postavljanje; 3 instalacija, uređaj; 4 (marine eng) ugradba: Integration of the ancillaries on the engine further eases shipboard installation procedures.
in stays (prep phr) (boating/yachting) = in irons jedrilica okrenuta sasvim u vjetar, bez kretanja

Institute Cargo Clauses (n) (mar ins) Institutske klauzule za teret (za kargo-osiguranje): Cargo insurance is usually written in one of two ways, either all risks (Institute Cargo clause (A)) or named perils (Institute Cargo clauses (B) and (C)). The range of subjects that are covered by the institute cargo clauses are as varied as the cargoes that a ship can carry

Institute clauses for builders (n) (mar law) Institutske klauzule za rizik gradnje

Institute port risk clauses (n) (mar ins) Institutske klauzule za lučki rizik

Institute Time Clauses - Hulls (n) (mar ins) Institutske klauzule ua brod (ua kasko osiguranje)

Institute War and Strike Clauses (n) Institutske klauzule za osiguranje rizika od rata i štrajka

instruct (v) uputiti, narediti: The port authorities instructed both vessels to proceed to the pilot station

instruction 1 naredba: When the main engine was running again at about 1900, the Master intended to follow the vessel operator’s instruction and sail to the port of destination. The container ship’s third officer returned to the bridge and, on instruction from the master, he rang ‘full away’ with an engine setting of 80rpm.; 2 (marine eng) upute (za rad, rukovanje, održavanje), uputstvo operating ~ s upute za rukovanje: These operating instructions describe routine procedures to follow before and during the start, running and stopping sequences of the separator. Then the fuel oil
Insurance is a means of protection against loss, whereby the cost of the loss, which would otherwise fall upon the owners, is taken over by the insurer. In general practice the insured does not deal directly with the underwriters, but...
negotiates through an insurance. The insurance also covers the crew’s hospital bills and costs of sending replacement personnel to the ship if necessary. The Company shall conclude appropriate insurance to cover themselves fully against the possible contingencies arising from the Articles of this Agreement.

Insurance brokers act as the intermediary between the ship/cargo owner and the underwriters when marine insurance is negotiated.

Insurance brokers (n) (mar ins) Insurance brokers act as the intermediary between the ship/cargo owner and the underwriters when marine insurance is negotiated.

Insurance claim (n) (mar ins) zahtjev za naknadu štete: Please make the necessary arrangements for a quick settlement of our insurance claim. The giant ship has just been declared a total constructive loss and will trigger a sizeable insurance claim https://splash247.com/)

Insurance clause (n) (mar law, mar ins) klauzula o osiguranju

Insurance company (n) (mar ins) = underwriter = insurer osiguravatelj, osiguravajuće društvo: Would the insurance companies pay out in the event of an accident when the investigation reveals there was no lookout posted?

Insurance of goods (n) (mar ins) = cargo insurance osiguranje robe, kargo osiguranje: Thereafter the buyer incurs all the carges including insurance of the goods from departure to the port of destination and pays the freight.

Insurance policy (n) (mar ins) An Insurance Policy is a written contract whereby the insurer (an insurance company), on the basis of an agreed payment termed the premium, undertakes to make good to the insured, any loss or damage to the property specified therein. Polica osiguranja: to be done, how it is to be achieved, what equipment is to be used, and the safety precautions to be taken, is a valuable insurance policy; one which usually yields high dividends. The seller is entitled to payment in exchange for the documents – including bill of lading and insurance policy – relative to the shipment.

Marine ~ polica pomorskoga osiguranja: Particular average is normally covered by a marine insurance policy, held with a marine underwriter, which extends to total as well as partial loss.

Insurance premium (n) (mar ins) premija osiguranja: The charterparty may state that the charterer has the privilege of breaching the trading limits by paying an extra insurance premium. Advantages of groupage include less packing: lower insurance premiums; usually quicker transits; less risk of damage and pilferage; and lower rates when compared with such cargo being despatched as an individual shipment. When a shipowner buys a ship, or needs to renew his annual insurance premium, or a cargo owner requires to have his goods insured for the forthcoming voyage, he usually asks his broker to find insurance cover.

Insurance proceeds (n) (mar ins) utržak od osigurnine: The car carrier declared a total loss, as it is expected to receive insurance proceeds of about ... million in 2020, close to the value of the vessel. https://safety4sea.com/

Insurance underwriters (n) (mar ins) Insurance underwriters evaluate the risk and exposures of potential clients. They decide how much coverage the client should receive, how much they should
pay for it, or whether even to accept the risk and insure them. **procjenitelj rizika osiguranja**.

**insure** (v) *(mar ins)* osigurati be ~d biti osiguran, osigurati se: **Goods are as a rule insured against various risks** from the moment they leave the suppliers' storehouses until they enter the storehouses of the consignees.

**insure** /ɪnˈʃʊər/ (US) 1 (mar ins) osigurati: **Goods are as a rule insured against** various risks from the moment they leave the suppliers' storehouses until they enter the storehouses of the consignees. The expenses incurred in administering a general average are often quite out of proportion to the amounts involved and because the same underwriters sometimes **insure** both hull and cargo; 2 (mar law) jamčiti, garantirati; 3 omogućiti

**insure against** (v) *(mar law, mar ins)* osigurati protiv rizika: **Goods are as a rule insured against** various risks from the moment they leave the suppliers' storehouses until they enter the storehouses of the consignees.

**insured** /ɪnˈʃʊərd/ (n) *(mar ins)* osiguranik the ~ osiguranik

**insured with** (adj) *(mar ins)* osiguran kod (osiguravajućeg društva): **A large container vessel insured with** ……… has recently experienced a serious loss of containers. … as of 1973 the operators of about 80 percent of the world's ocean tonnage were **insured with** the British clubs and their Scandinavian and Japanese affiliates Ex.

**insurer** /ɪnˈʃʊərər/ *(mar ins)* osiguratelj, osiguravateljsko društvo: Temperature ranges must be strictly adhered to, and in case of unavoidable deviation, the vessel’s P and I **insurer** must be immediately notified; Cargo owners, importers, risk managers and **insurers** need to monitor closely: (a) Accumulation of Cargo; (b) Delay; (c) Delay Clause; (d) Demurrage Charges; (e) Deviation; (f) Force Majeure; and (g) Interruptions in Transit *(https://safety4sea.com/)* ~S

**osiguratelj, osiguravateljsko društvo:** After assessing the vessel’s watertight integrity and the depth of the water surrounding her; they informed the coastal state authority, owners, **insurers** and Flag State;

**insurer of liability** (n) *(mar ins, mar law)* osiguratelj odgovornosti

**intact** *(cargo)* nedirnut, netaknut: **The tender was recovered nearby and found to be intact and dry.** The hull remained intact with paint scrape to hull plating in area of grounding. When a hull is designed, stability calculations are performed for the intact and damaged states of the vessel

**intact stability** *(nav arch)* comparing damage stability **stabilnost broda u neoštećenome stanju:** the IBC/BCH Code is amended by Res. MSC.369(93) and the IGC Code is amended by Res. MSC.370(93) requiring tankers to be fitted with an approved stability instrument capable of handling both **intact and damage stability** cases *(http://www.amc-gr/amcLoadingSoftware.htm)*

**intake** /ɪnˈtɛk/ *(marine eng)* usis: The engine was shut down, and the fuel, ventilation, **air intake** and exhaust systems were isolated. The crew always kept both low suction intakes open because when both ballast pumps were used together, one **intake** could not cope with the demand; 2 *(nav arch)* ulaz: … only one accommodation door was open to the deck, thus limiting the **intake** of unauthorised personnel to the living quarters; 3 *(safety)* prodor vode: **The cause of the water intake** is unknown and an investigation underway.

**intake certificate** *(shipping econ)* A document issued by the shipper indicating the amount of cargo loaded aboard the vessel as calculated from the shore tank gauges. Freight is paid on the basis of these figures. *(www.euronav.com)* **potvrda o ukrcanom tekućem teretu**

**intake manifold** *(marine eng)* A port or component that brings air to the cylinder
intake port: A connecting casting between the air filter or turbocharger. Air is sucked in either via an intake air silencer, a 90° intake casing or an intake manifold; exhaust gas flows into the turbine via either an axial- or radial-flow casing.

intake port (n) (marine eng) usisni otvor (u košuljici cilindra): To improve the induction of fuel/air mixture into the crankcase, one-way valves (check valves, reed valves, or rotary valves) may be used in the intake port to allow the fuel air charge to get into the crankcase quickly, but prevent it leaking back out.

intake valve (n) (marine eng) usisni ventil, uvodni ventil (zraka), ulazni ventil (zraka)

integrated bridge system (=ISB) (n) (navig) sustav integrirane navigacije: The ship had no paper charts and was fitted with an integrated bridge system (IBS) with two interchangeable radar / electronic chart display information system (Ecdis) displays on the bridge with a third, separate unit … The vessel was equipped with an integrated bridge system, including full ECDIS capability, and the OOW was relying heavily on this despite having not been trained in its use. Kongsberg Maritime has developed a new integrated bridge system, a cutting-edge, integrated technology platform designed to deliver complete situational awareness through the process of Sensor Fusion, where traditional navigation sensors such as Radar and Sonar are combined with cameras and lasers. https://www.marineelectronics.com/news/kongsbergs-unveils-integrated-255384

integrated carrier (n) (shipping econ) Carriers that have both air and ground fleets or other combinations, such as sea, rail and truck (http://www.maerskline.com/en-jm/help/shipping-glossary)

intermodalni prijevoznik, prijevoznik u integralnom transportu

Integrated Management System (=IMS) (n) (shipping econ, mar law) Integrirani sustav upravljanja sigurnošću: The Company’s Integrated Management System (IMS) encompasses the voluntary quality, environmental and safety management requirements set out in the ISO 9001, ISO 14001 and OHSAS 18001 standards7, as well as the mandatory requirements of the International Safety Management Code (ISM Code). The shipping company operates an Integrated Management System (IMS), which contained generic procedures that were created and approved by shore management and applicable to the whole company fleet. www.gov.uk/maib

integrated tug and barge unit (=ITB) tug is designed to fit into a notch at the stern of a barge making the whole tug/barge combination a single vessel tegljač s teglenicom

intelligence (n) 1 informacije: In this way they are intended to become an acceptable safety language, using English for the verbal interchange of intelligence among individuals of all maritime nations on the many and varied occasions when precise meanings and translations are in doubt, …; 2 obavještajna služba

intended course (n) (navig) namjeravani kurs, željeni kurs: The weather forecast indicated that the centre of the depression and the ship’s intended course were converging, so the officers and crew had been ordered to secure the ship for heavy weather. Sometimes, when I go aboard ships, I see the 2nd mate drawing up a plan that shows every buoy and navigation mark in a river, every intended course and speed change.

intended manoeuvre (n) (navig) namjeravana manovra, zadana manovra, željena manovra: The OOW did not check visually or by radar that the intended manoeuvre was safe or make a sound signal to indicate he was turning to starboard. Uncertainty might have been avoided
if the cargo vessel’s Master had effectively communicated his intended manoeuvre to the bulk carrier’s OOW at a sufficiently early stage.

**intended route** *(n)* *(navig)* planirana ruta, namjeravana ruta: The vessel departed from the intended route because the waypoint selected as the destination in the GPS did not follow the sequence of waypoints detailed in the voyage plan. The intended route had been prepared using the ship’s electronic chart display and information system (ECDIS) and the OOW selected the scale on the ECDIS display.

**intended track** *(n)* *(navig)* The path of intended travel with respect to the earth as drawn on the chart. (Bowditch 2002) zadana ruta broda, zacrtana ruta, namjeravana ruta, željena ruta: This tug’s intended track should have been marked on the chart, ... eventually, the mate took the con and set a course clear of the coast and back towards the vessel’s intended track.

**intensity of stress** *(n)* *(marine eng)* jakost naprezanja

**intention** *(n)* 1 *(navig)* namjera: At a distance of 8 cables, own ship called target vessel and stated our intention to alter course to starboard in order to avoid an otherwise inevitable collision.; 2 *(comm)* namjera: What are your intentions? IMO SMCP 2001 Vessel B called up vessel A and asked what their intentions were. (https://safety4sea.com/)

**interaction between ships during passing or overtaking** *(n)* *(navig)* međudjelovanje brodova pri mimoilaženju i pretjecanju

**inter alia** /ˈɪntər ˈɛlɪə/ *(idiom)* *(mar law)* among other things između ostalog: ... formal familiarisation training for all its personnel, which should include, inter alia, a thorough knowledge of the Organisation.

**interchange** *(n)* izmjena, izmjenjivanje, davanje u zamjenu

**interchangeable** *(adj)* zamjenjiv, međusobno zamjenjiv

**intercharge** *(v)* izmjenjivati se, izmjenjivati se međusobno

**INTERCO** /ˈɪntərkəʊ/ *(n)* *(comm)* Međunarodni signalni kodeks

**interconnect** *(v)* spojiti međusobno, povezati međusobno

**intercooler** *(n)* *(marine eng)* heat exchanger used for cooling the air between the stages of compression međurashladnik, Italian:scambiatore: Combustion air is supplied by the turbocharger to the individual cylinders via the intercooler and the charge air manifold, and ...

**intercooling** *(n)* *(marine eng)* međurashladnik: Intercooling between the low- and high-pressure turbocharger stages is a key factor because, by allowing an approximation of isothermal compression,

**intercostal** *(n)* *(nav arch)* Plates which fit between floors to stiffen the double bottom of a ship. Intercostal comes from the Latin words inter, meaning between, and costa, meaning rib.

https://officerofthewatch.com/tools/maritime-dictionary/ međuelement (između rebrenica, rebara ili sponja), interkostal

**intercostal side keelson** *(n)* *(navig)* interkostalna bočna hrptenica dvodna

**interface** /ˈɪntər feɪs/ 1 *(cargo)* mjesto dodira dvaju sustava transporta; 2 *(navig, electr)* sučelje: Recently there were repeated reports from the ship complaining of poor ship-shore interface at the terminal. The Mother-ship and both of these Guard Ships are equipped with ARPA radars with GPS interface giving us the ability to pinpoint the vessels to which we are trying to talk.; 3
priključak: A number of position fixing and communicational aids may be fitted within the main console, or separately such as satcom and satellite back-up radio-station, navtex receiver, RD finder, satnav with gyro and log interfaces, Loran-C receiver, Decca navigator, etc.

interfere /ɪntɪˈfɪər/ (v) ometati: Anchors on bow rollers often also interfere with visibility. ... energy-saving compact fluorescent lights (CFL), sometimes known as radio frequency (RF) lighting devices, may interfere with certain communications equipment. It is essential that watchkeepers maintain a proper navigational watch at all times and do not undertake any other duties that would interfere with the safe navigation of the vessel. ~ with distress communications ometati

komuniciranje u pogibli

interference /ɪntəˈfɪərəns/ (n) smetnja, ometanje: The echo was weak and occasionally disappeared, giving the impression that it was interference or a floating object drifting in the sea. ..., make sure that it is properly fitted with an appropriate HRU, and that it is carried in a position where it can float free without interference from obstructions. radio ~ radiosmetnja: Coast Guard Warns of Radio Interference from LEDs. www.gCaptain.com eliminate ~ ukloniti radiosmetnje

interference (n) (electr, navig) interferencijske smetnje (na radaru): be either by a second vessel (e.g. to the Seychelles Islands via Mombassa or Bombay) or by a different form of transport (e.g. to destinations in the interior of Canada).

interference rejector (n) (navig, electr) Mutual radar interference may occur in the vicinity of another shipborne radar operating in the same frequency band (9 GHz) uređaj za uklanjanje međuradarskih smetnja

interim discharge ports (n) (shipping econ, cargo handling, ports) međuluke

interim rate (n) (shipping econ) interkalarna kamata

interim report (shipping econ) međuizvješće, interkalarno izvješće, prijava dolaska broda na vez neposredno po dolasku (tj. bez prethodne najave): If the vessel arrives outside working hours and immediate discharge is desired, an interim report will be made on board immediately on arrival.

interior /ɪnˈtɪəriər/ (n) unutrašnjost: The on-carriage may be either by a second vessel (e.g. to the Seychelles Islands via Mombassa or Bombay) or by a different form of transport (e.g. to destinations in the interior of Canada).

intermediary /ɪntəˈmiːdɪəri/ (n) (mar law, shipping econ) posrednik: The marine insurance broker is the professional intermediary and is the agent for the assured. More specifically brokers connected with the maritime industry can be categorised as: Insurance brokers, who act as the intermediary between the ship/cargo owner and the underwriters when marine insurance is negotiated. The shipper can transfer the goods to the intended buyer, by exchanging the bill of lading for money, usually through an intermediary (e.g. a bank), put the goods on the open market, selling them to whoever offers the most money.

intermediary supervision (n) (nav arch, mar law) posredni nadzor

intermediate /ɪntəˈmiːdiət/ (adj) 1 prosječan, u sredini, međuːːːː: The AB, however, opened the intermediate valve to No 2 centre tank. During the entire discharge operation at the intermediate port, the loading computer program was in use with the altered settings to obtain the ship’s figures on the quantity discharged. ; 2 posredan

Intermediate Bulk Container (=IBC; tote) (n) (cargo, logist) a pallet mounted, industrial grade reusable container that is used for storing and transporting bulk liquids and powders. the IBC is capable of stacking and can be moved by a pallet jack or forklift.
tank-kontejner, kontejner-cisterna, tank-paleta: IBCs consist of 3 parts, viz., an HDPE inner inclusion with a lid on top and discharge tap below surrounded by a metal grid. This unit is mounted on a wooden, synthetic or metal pallet. 

https://www.logisticsglossary.com/term/ibc/  
https://www.tanks-direct.co.uk/1000-litre-plastic-pallet-intermediate-bulk-container.html

**intermediate frame** *(nav arch)* međurebro, umetnuto rebro

**intermediate fuel oil** (=IFO) *(marine eng)* Light, residual-type fuel oils with characteristics between bunker fuel and marine diesel fuel, typically used in motor ships. It is quoted in terms of Redwood per second. (www.euronav.com)

**IFO gorivo, međunafta**: A potential for burning an **intermediate fuel oil grade** such as IF30 was addressed in the development programme, ... Many genset engine builders can now offer designs capable of burning the diesel oil or blended fuel (heavy fuel and distillate fuel mixed in various proportions, usually 70:30) either bunkered as an **intermediate fuel** or blended onboard.

**intermediate longitudinal** *(nav arch)* međuuzdužnjak

**intermediate port** *(shipping econ)* međuluka: Seafarers are entitled to receive on request, in local currency, from the Master one half of the balance of base wages actually earned and payable at every **intermediate port** where the vessel shall load or discharge cargo before the end of the voyage, but not more than once in any ten-day period. During the entire discharge operation at the **intermediate port**, the loading computer program was in use with the altered settings to obtain the ship’s figures on the quantity discharged.

**intermediate pressure boiler** *(marine eng)* srednjotlačni kotao

**intermediate pressure compressor** *(marine eng)* srednjotlačni kompresor: An eight-stage variable geometry axial **intermediate pressure (IP) compressor** driven by a single-stage IP turbine feeds air to the HP spool, ...

**intermediate shaft** *(nav arch)* međuosovina: The thrust shaft is connected to the crankshaft and the **intermediate shaft** with fitted bolts.
intermittent /ˌɪntəˈmitənt/ (adj) (comm, marine eng) isprekidan, u razmacima, na prekide - light isprekidano svjetlo
intermodal marketing company (n) (shipping econ) a company that consolidates container loads or piggyback trailers from several shippers and contracts with railroads for volume space
intermodal transport /ˌɪntəˈmeudəl/ (n) (shipping econ, logist) Coordinated transport of freight, especially in connection with relatively long-haul movements, using any combination of freight forwarders, piggy-back, containerisation, air freight, assemblers, rail and road.
(http://www.maerskline.com/en-jm/help/shipping-glossary); Carriage of a commodity by different modes of transport, i.e. sea, road, rail and air within a single journey.
https://www.logisticsglossary.com/term/intermodal/ intermodalni transport, integralni transport
intermodal transportation /ˌɪntəˈmeudəl/ (n) (shipping econ, US) Intermodal transportation is the combination of two or more transportation modes used to move freight from origin to destination.
intermodalni transport: Intermodal transportation improves the transfer of freight from intercity movement to local distribution. Intermodal transportation requires cooperation and agreements relating to prices and delivery arrangements among the different carriers.
internal /ɪnˈteɪnəl/ = longitudinal uzdužnjak, nutarnji nosač ili ojačanje (u konstrukciji broda)
internal combustion engine (n) (marine eng) motor s unutrašnjim izgaranjem: Explosion-relief valves are used on internal combustion engines to protect the crankcase in the event of an explosion of the oil mist, ...
**internal gear pump** *(n)* *(marine eng)* An oil pump with an off-center internal drive gear and external driven gear used to increase oil pressure and create oil flow.

(https://www.marinedieseleurope.com/) **zupčasta (uljna) pumpa s unutarnjim ozubljenjem**

**internal waters** *(n)* *(mar law)* waters on the landward side of the baseline of the territorial sea form part of the internal waters of the State (UNCLOS); morske vode koje obuhvaćaju luke i zaljeve na obali kopna i otoka, dijelove mora između crte niske vode na obali kopna i ravne polazne crte za mjerenje širine teritorijalnoga mora **unutrašnje more:** ... where a casualty or incident occurs **in the internal waters** or territorial sea of another State, the coastal State should notify, with a minimum of delay, the flag State or States of the circumstances ... Foreign vessels have no right of passage within **internal**
International Air Pollution Prevention Certificate (IAPPC) (n) (environ)

Međunarodna svjedodžba o sprječavanju onečišćenja zraka: As per the MARPOL Annex VI requirement, all 400GT and above ships are bound to carry a valid International Air Pollution Prevention Certificate and supplement as a confirmation that the ship is fulfilling the requirements of this Annex. www.marineinsight.com

International Association of Lighthouse authorities; (IALA) (n) (navig)

Međunarodna udruga svjetioničarskih služba: The service was aligned to, but did not meet, all of the VTS standards of the International Association of Marine Aids to Navigation and Lighthouse Authorities (IALA). With reference to the provision, declaration of services, the IALA VTS Manual includes: An Information Service (INS) is the basic type of service. It should be declared formally and provided as a service by all VTS.

International Brokers Commission Contract (mar law) Međunarodni ugovor o posredničkoj nagradi, Međunarodni ugovor o brokerskoj proviziji

International certificate of vaccination /ˌɪntəˈnæʃənl/ (n) Međunarodna svjedodžba o cijepljenju

International Chamber of Shipping (ICS) (n) Međunarodno udrženje brodara: In accordance with the International Chamber of Shipping’s Bridge Procedures Guide, effective bridge resource and team management should eliminate the risk that an error on the part of one person could result in a dangerous situation.

International Code for the Construction and Equipment for Ships Carrying Liquefied Gases in Bulk (IGC) (nav arch, mar law) Međunarodni pravilnik za gradnju i opremu brodova za prijevoz ukapljenih plinova

International Code of Signals (ICS) (n) Međunarodni signalni kodeks

International Convention on Liability and Compensation for Damage in Connection with the Carriage of Hazard
in Connection with the Carriage of Hazardous and Noxious Substances by Sea, 1996 International Maritime Organization

International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978 (=STCW) (mar law) Međunarodna konvencija IMO-a o standardima izobrazbe, izdavanju svjedodžbi i držanju straže pomoraca (1978/1995/2010): In the case of collisions and groundings at night or in restricted visibility, the lookout had been stood down by the officer of the watch, in contravention of STCW and, frequently, company standing orders. In fact, it turned out the officer concerned was in breach of STCW regulations relating to the hours of rest due to the nature of the trade. Critical operations to be planned properly with additional contingency plans; All key personnel are well rested, in compliance with STCW regulations; Always post a designated lookout as a second watchkeeper at night in accordance with STCW. ~ Code Pravilnik Konvencije STCW: The STCW Code requires lookouts to be on duty during the hours of darkness.

International Convention on the Safety of Life at Sea (safety, mar law) Međunarodna konvencija o zaštiti ljudskih života na moru (SOLAS): Accommodation ladders and portable gangways on ships must comply with SOLAS regulation II-1/3-9 and the construction, installation, maintenance and testing requirements as detailed in MSC. ... this safety investigation established that the pilot boarding arrangement provided by the ship was not compliant with the relevant SOLAS requirements due to its close proximity to the ship.

International Hydrographic Organisation (oceanogr) Međunarodna hidrografska organizacija: The International Hydrographic Organization (IHO) has issued a set of data comprising two fictitious Electronic Navigational Chart (ENC) cells and four sets of tests to check for a number of anomalies ..

international law of the sea (mar law) međunarodno pravo mora: The Law of the Sea Convention defines the rights and responsibilities of nations with respect to their use of the world's oceans, establishing guidelines for businesses The United Nations Convention on the Law of the Sea (UNCLOS) defined a treaty regarding protection of the marine environment and various maritime boundaries.

International Load Line Certificate (nav arch, safety) A document issued by a classification society stating the minimum freeboard granted to a vessel and giving the position of the loading disc on the ship's side. (www.euronav.com); A document issued by a classification society stating the minimum freeboard granted to a vessel and giving the position of the loading disc on the ship’s side.

International Load Line Convention (Međunarodna konvencija o teretnoj liniji) Međunarodna svjedodžba o teretnoj liniji: Regarding, for instance, the recent mistrust about the provisions of the International Load Line Convention of 1966, if the concern is so severe that these provisions must be changed, those who are now aware of the risk should, as soon as possible.

International Maritime Organization (IMO) (Međunarodna pomorska organizacija (IMO): All the officers and ratings must read and acknowledge IMO circular MSC1/Circular 1206 'Measures to prevent accident with lifeboats'. Further, and again in line with ISPS, within mandatory reporting areas, IMO should encourage authorities to primarily use passive surveillance techniques (radar), relying on AIS only to the extent necessary for positive identification .. ' In February 2013, Canada and the Republic of Korea submitted a proposed amendment to the ISM Code to
the IMO Sub-Committee on Standards of Training and Watchkeeping. It is recommended to address their safety management system in respect of maintenance of lifeboats and launching appliances in line with IMO Resolution A ...
International Safety Management Code

interpreting

intergovernmental organization that oversees certain public satellite safety and security communication services provided via the Inmarsat satellites Međunarodna organizacija za mobilne satelitske komunikacije

International Safety Management Code (n) (safety) Međunarodni kodeks upravljanja sigurnošću: The company’s ISM procedures clearly were in place. The chief mate was too busy completing ISM papers, entering details in the Log Book and continuously having to cancel various GMDSS alarms. The ship must have established procedures (as required by the ISM Code) for safely conducting routine operations such as exchanging ballast. Under the ISM Code, it is required to report and record all incidents.

international sea (n) (mar law) Međunarodno je more otvoreno za upotrebu svim državama, obalnim i neobalnim, a upotrebljavati se smije jedino u miroljubive svrhe. međunarodno more

International Shore Fire Connection (n) (safety) Univerzalni priključak na obalni protupožarni sustav

International Standard Organisation (=ISO) (n) Međunarodna organizacija za tehničke standarde, Međunarodna organizacija za normizaciju: 35 _

CASE 9 This picture shows the pad and shoe – note the misalignment of the rivet holes The contractor carrying out the work was certified ISO 9001 compliant, and had issued both a test certificate and inspection test report on the work undertaken. The lifejacket complied with the European Norm (EN) 1095/International Organization for Standardization (ISO) 12401 and 12402 requirements.

International Tonnage Certificate (n) (mar law, nav arch) Međunarodna svjedodžba o baždarenju

International Union of Marine Insurance (n) (mar ins) Međunaradno udruženje za pomorska i prijevozna osiguranja: The International Union of Marine Insurance has recently published a report which states that 2010 will join the worst five vessel loss years in the last seventeen years.

international voyage (n) (mar law) međunaradno putovanje: The aim of the parties to the convention was to establish uniform principles and rules to determine the tonnage of ships engaged on international voyages.

international waters (n) (mar law) međunarodne vode: Some 13 container ships are waiting in international waters outside the port. Laws between nations governing such things as national versus international waters are considered public international law and are known as the Law of the Seas. Passenger ships operating in international waters are expected to comply with the relevant legislation concerning safety and pollution, that is, solas and marpol.

interpose /ˌɪntəˈpəʊz/ (v) (marine eng) staviti u, staviti između: A compression plate or shim is interposed between the foot and the box of the rod large end.

interpreting (n) tumačenje: Studying and interpreting drawings calls for special skills and
experience: a shipowner must entrust this responsibility to suitable persons. Personnel must be given training in correctly interpreting remote gauges and indicators. ~ the radar display (navig)
tumačenje radarskog pokazivača, tumačenje radarske slike, ~ of the COLREGS tumačenje pravila o izbjegavanju sudara
interrogate (v) (navig, mar law) ispiti, ispiti, provjeriti: He then interrogated an AIS target about 6.5 miles on the starboard bow and altered the vessel’s course again, to 122o to increase the CPA with this vessel to about Having to interrogate each target and note the ships' names manually posed an especially serious problem in busy areas.
interrupt /ɪnˈtrəpt/ (v) (electr, comm, marine eng, navig) prekidati, prekinuti, ometati: Vessels are not permitted to interrupt loading operations for more than 8 hours for de-ballasting. For shipboard applications, it is critical for a device to interrupt both power conductors. The lookout should never be interrupted (COLREG rule 5 - Lookout). Recordings of the VHF communications showed that channel 69 was very busy with exchanges frequently being interrupted and over-spoken. When a vessel fitted with a CPP is moving ahead and the pitch is set to zero, the flow of water through the propeller and across the rudder is interrupted and steerage will be adversely affected.
interrupted quick flashing light (n) (navig) brzi bjeskoviti na prekide
intersection (n) 1 (navig) sjecište: From a point about two miles before the intersection of the tracks there is no other shallower water than 30m within a mile of the tanker's track. Your position is distance ... metres / cables from the intersection of radar reference line ... (IMO SMCP) The Coast Pilot advises about the intersection of those two currents and the effect on course that it is likely to have as the bow of a ship enters the south flowing current: ; 2 (oceanogr) sjecište (morskih struja): The Coast Pilot advises about the intersection of those two currents and the effect on course that it is likely to have as the bow of a ship enters the south flowing current.
interswitching (n) (electr) prekopčavanje, prekapčanje
Intertanko (=International Association of Independent Tanker Owners.)
intervention vessel (=IV) (n) (nav arch) brod za interventne namjene
intrinsic safety (n) (safety) samosigurnost
introduce /ɪnˈtrədʒuːs/ (v) 1 uvesti: Identify sources of distraction for bridge watchkeepers, and introduce measures to minimise these.; 2 umetnuti; 3 predstaviti (nekoga)
introduction /ɪnˈtrədʒʌkʃən/ (n) (safety) uvod; 1 uvod; 2 uvodenje, unošenje; 3 umetanje
invaluable /ɪnˈvæljuəbl/ (adj) od neprocjenjive vrijednosti, vrlo vrijedan:
Unusual tasks present unusual hazards, and risk assessment is an invaluable tool to ensure that any activity is completed as safely as possible. In such situations, the use of electronic aids, such as ARPA, is invaluable. The work of the MAIB Inspectors is invaluable in ensuring safety at sea is understood and complied with by all. ~ information vrlo vrijedna informacija
invariably /ɪnˈvɛriəbli/ (adv) 1 nepromjenljivo; 2 neizbježno; 3 redovito: More importantly, it is our seafarers who have the most to gain from studying this review since human conduct is almost invariably at the root of maritime incidents. Radars invariably require a degree of fine tuning, and two are always better than one.
invasive species (n) (environ) bacteria, microbes and small invertebrates which enter the ballast water during loading, and get discharged in new locations. (https://safety4sea.com/) invazivni organizmi: A rapid scan of the environmental DNA in ballast water can show whether ships are following rules meant to prevent the spread of invasive species and disease. https://gCaptain.com Ballast water contributes to the spread of invasive aquatic species (IAS). https://safety4sea.com/
inventory /ˈɪnventəri/ (n) 1 a written list of all the objects (of a company, store, etc.) inventar, popis roba: Even though adequate spares for the lifeboat engine and the air motor were available on board, the ship’s staff was unaware of its inventory and location. All vessels instructed to ensure the timely stocking of spares and to maintain correct inventory of these and special tools; 2 (shipping econ) a supply or stock of something vrijednost roba na skladištu (u zalihama), zalihe: Blockchain can improve inventory management.

inventory carrying costs (n) (shipping econ) financial measurements that calculate all the costs associated with holding goods in storage troškovi skladištenja robe, troškovi držanja robe u skladištu: Inventory carrying costs include inventory-in-storage, warehousing, obsolescence, deterioration, spoilage and labour costs, as well as insurance and taxes (http://www.maerskline.com/en-jm/help/shipping-glossary)

inventory velocity (n) (shipping econ) the speed with which products move from receiving dock to shipping dock brzina dopreme robe do lučke obale (za ukrcaj na brod)

inversion /ˈɪn vər ʃən/ (n) (boating/yachting) preokretanje jedrilice (s jarbolom prema dolje) righting from ~ Ispravljanje preokrenute jedrilice

inversion /ˈɪn vər ʃən/ (n) (meteorol) inverzija nastaje kada hladni zrak ostane zarobljen ispod sloja toploga zraka, najčešće uvečer ili noću. Zbog toga se zrak u blizini površine zemlje brže hladni nego zrak na većim visinama inverzija ~ forming stvaranje inverzije, ~ breaking prestanak inverzije

inverter /ˈɪn vər tər/ (n) (electr) pretvarač istosmjernu u izmjeničnu struju električni inverter: After rectifying a minor defect with the starboard inverter, the engines were started and the vessel shifted over to its loading berth without incident.

investigate (v) (mar law) istražiti (slučaj), istraživati, ispitivati: No injury or pollution has been reported and the authorities are investigating the cause of the incident. The Coast Guard says it is investigating the crew, equipment and records of the 175-meter MV......... for allegations involving violations related to the discharge of oily water. ~ into the matter istražiti spor / slučaj, ~ the grounding: The Transportation Safety Board of Canada says it is deploying a team to investigate the grounding. istražiti nasukanje broda, ~ the cause of collision

istraživati uzrok sudara: The Coast Guard marine inspectors and investigators are investigating the cause of the collision and assessing the damage to the ship’s hull.

investigation /ˌɪn vɛsˈteɪ ʒən/ (n) (mar law) istraga: Investigation into the accident is under way.

Further investigation showed that the whole auxiliary sea water cooling system was blocked. A full investigation in collaboration with relevant authorities is ongoing to determine the cause of the fire outcome of ~ ishod istrage, conduct the ~ provesti istragu, provesti ispitanje, complete the ~: obaviti istragu završiti istragu, ~ report izvješće o istrazi: The causes and contributing factors of the ship’s mooring line failure are subject to an ongoing investigation and will be discussed in a full investigation report., under ~ pod istragom, u tijeku istrage: The cause of the incident is under investigation. The cause of the incident is under investigation., launch an ~ pokrenuti istragu: The ship lost 42 containers overboard. The UK MAIB has launched an investigation into the circumstances surrounding the accident. https://gcaptain.com/, internal ~
**unutrašnja istraga:** Following its internal investigation, the manager of the ship has amended its procedures for the use of VHF for collision avoidance. www.gov.uk/maib, the ~ revealed that ...  
**istraga je utvrđila da ...** ... the investigation revealed that the watch officer on board the ro-ro ship was alone on the bridge and far away from radar, at the time of the collision https://gcaptain.com, ~ into the incident  
**istra~ o dogođaju (nesreć / nezgodi):** An investigation into the incident revealed that the engines piston rings were well worn and that 4 out of 5 engine units required new piston crowns. https://safety4sea.com/, carry out an ~ provesti istragu: Following the accident the managers of both vessels have carried out investigations and have taken steps to help prevent a recurrence MAIB accident reports  
**invite** (v) 1 pozvati, zatražiti: Also I would like to invite your valuable comments for the ships engaged in a particular pattern of voyage, like tankers engaged in lightening trade ...; 2 (shipping econ) zatražiti ponudu: invite Owner’s best offer ~ tenders for zatražiti ponudu, rasposati natječaj za  
**invoice** /ˈɪnvoʊs/ (v) (shipping econ) račun, faktura pro forma ~ predračun, consular 1 konzularna faktura, deliver the goods against ~ isporučiti robu prema fakturi, make out an ~ ispostaviti fakturu / račun, original ~ izvorni račun, originalni račun: The original invoice verifies that the amount of the claim does not exceed the terms of sale (value of the goods) at destination, and excludes any prospective profit., freight ~ = freight bill vozarinska faktura, račun za vozarinu: Freight bill - Carrier’s invoice for freight charges applicable to a shipment. Also called freight invoice., commercial ~  
**komercijalna faktura, robi račun:** Clean, shipped on board B/L in complete set, together with the Commercial Invoice and insurance certificate, both in triplicate, have been handed to the Bank,  
**involve** /ɪnˈvɔlv/ the vessel ~d brod o kojemu je riječ (v) uključiti, involvirati: The collision involved a containership and a bulk carrier. be ~d in an accident sudjelovati u nesreći: The port pilot was involved in an incident while boarding a container vessel inbound to the Port of ... https://gcaptain.com/, vessel ~d in a accident unesrećeni brod, a ship ~d in collision brod u sudaru, brod koji je sudjelovao u sudaru  
**involve** /ɪnˈvɔlv/ 1 obuhvatiti, sadržavati: ... the urgency signal PAN-PAN should be used when an unsafe situation exists that may eventually involve shore personnel, with attendant legal complications. The key to success is detailed planning, which should involve a representative of the shipper, cargo superintendent and surveyor appointed by the carrier.; 2 uključiti: Accidents caused by gangways can be fatal and may often involve shore personnel, with attendant legal complications. The key to success is detailed planning, which should involve a representative of the shipper, cargo superintendent and surveyor appointed by the carrier.; 3 povlačiti za sobom, imati za posljedicu: After giving this advice he specifically instructed them not to use any other means of heat, which would involve open fire on deck, such as a blow lamp.  
**inward** (adv, adj) ANTONYM outward nutarnji, unutarnji, prema unutra: ... the fitter inserted the holding screws of the panel, which was located just inside the entrance to the cabin with the door opening inward. The Master was horrified that the pilot who conducted the vessel inward had omitted to relay this crucial information. ~ bound (navig) koji se kreće prema unutra (luci, plovnom kanalu itd.), koji plovi prema unutra (luci, plovnom kanalu itd.): After her impact with the jetty, the trawler headed seawards, passing very close to other inward bound vessels, before the port authorities were able to establish contact and persuade the skipper
inward cargo (n) (shipping econ) teret za iskrcaj s broda: However, if it is required to commence loading outwards before all the inward cargo has been discharged, a special permit must be obtained.

inward clearance (n) (mar law) dozvola za uplovljenje: After obtaining inward clearance, we unberthed and anchored in the waiting area. When the discharge is completed and all the formalities finished, the master is given a certificate of inward clearance is known as jerque note or Inward Clearing Bill. If of lading and sends it to the shipper The forwarding agent will also be employed by the consignee to collect the delivered goods and arrange the inward customs clearance and formalities.

Inward Clearing Bill (n) (mar law) Potvrda o izvršenom carinskom pregledu (ujedno i dozvola carinskih vlasti za uplovljenje, Dozvola za početak komercijalnih operacija broda u luci

Inward Clearing Bill (n) Potvrda o carinskom pregledu i dozvola za uplovljenje (tj. početak trgovačkih operacija): It will be delivered within 14 days of vessel's departure) List of Outgoing Passengers (if any), signed by Master and countersigned by Emigration Officer, Inward Clearing Bill (Jerque Note), Waterguard Officer) when the ship has been searched and no unentered goods are on board; also called Inward Clearing Bill.

Inward Entry (n) (mar law) Opća izjava o dolasku broda, Prijava dolaska broda (u luku): Inward Report: When reporting at the Custom House, inward light dues are paid and GENERAL DECLARATION ON ARRIVAL (or Inward Entry) is completed by the Master or Agent.

inward passage (n) (navig) plovidba prema luci / plovnog kanalu: Once the towline was secured to the customer vessel, the initial part of the inward passage was uneventful, with the tug maintaining a fore/aft position with no weight in the towline. He took no account of a number of buoys found missing on the inward passage, the possibility that visual leading marks might be obscured in rain showers, ...

inward pilot (n) (navig) peljar za vođenje brodova prema luci: Our product tanker was approaching port to pick up the inward pilot.

inward pilotage (n) (navig) peljarenje prema luci: After a short voyage up the coast from her last port the inward pilotage lasted from 1230 to 1445.

Inward Report (n) (shipping econ, mar law) prijava dolaska broda u luku (carinskim vlastima): The complete inward report package includes: Form E1, Ships Stores Declaration; Form IMM200, Crew List; the Form Y14, Crew’s Effects Declaration. When practicable, the formal inward report may be taken at this time; should the vessel arrive after working hours, the ship’s master or agent may present the inward report the following day.

inwards (adv) prema unutra: 2), all vessels arriving in or departing from the UK territorial waters must report inwards, including vessels arriving and working at offshore installations, and obtain outwards clearance. clearance / clearing ~ (mar law) dopuštenje za uplovljenje broda u luku (od strane carinskih vlasti), dozvola za uplovljenje broda u luku (od strane carinskih vlasti): Here is a list of terms used in clearing the ship inwards or outwards, clear the ship ~ (mar law) dozvoliti uplovljenje brodu (od strane carinskih vlasti), Entering ~ (mar law) Dozvola za uplovljenje broda (od strane carinskih vlasti): Entering inwards: When the ship is berthed, the master must report her arrival at the Custom House, report the ship ~ (mar law) prijaviti brod za uplovljenje u luku (od strane carinskih vlasti): Clearance Inwards: a document required for the ship to be cleared inwards or outwards; it also shows a clear picture of the cargoes loaded...
inward traffic (n) (navig) promet brodova prema luci / ulazu u plovni kanal: ... the route is deep at all points and would not cause navigational difficulties - although he would still have to cross inward traffic somewhere between the Channel Islands and Ushant. She had sufficient sea room to safely navigate outside the channel, or alternatively, could have overtaken on the tanker's port side, there being no inward traffic.

inward vessel (n) (navig) brod u plovidbi prema luci / ulazu u plovni kanal: Another inward vessel came up astern of me and asked the pilot cutter if he should slot in behind me or continue towards the cutter, he was advised to do the latter ... the pilotage boarding area should be moved, possibly to a position in the centre of the east and west lanes NW of the Kwintebank buoy, so that inward and outward bound vessels can be kept completely separate.

in way of (prep phr) (navig, safety) u području (pri opisu štete na trupu broda), na području: The hole was punctured above the waterline in way of a ballast tank. The ship's port side was damaged above the waterline in way of the No 1 and No 2 wing ballast tanks.

in working order (prep phr) (safety, mar law) u radnom stanju, u dobrom stanju: ically to verify that progressive flooding cannot occur and that closure devices (such as watertight doors (WTDs) and duct closures) are in place and in working order. The pilot station called the bulk carrier on channel 18 by name and call sign, asked him to change to channel 80 and then asked if the ship's navigation lights were in working order. In good working order u dobrom stanju: All such equipment to be in good working order. eted at the earliest opportunity without fail; In addition to authorised service personnel, crew have equal responsibility for ensuring lifeboats are in good working order and are maintained and operated properly.

in writing (n) (mar law) napismeno, u pisanom obliku: The representatives of the terminal should be invited to inspect the tanks and confirm their acceptability in writing prior to the commencement of loading.

IoT (Internet of things) (n) (logist) traženje informacija (o pošiljci) putem interneta, internet stvari (IoT): Onboard IoT devices gather and store a surprising amount of information on a vehicle, and GPS technology allows these devices to send regular location and route updates to a cloud-based tracking server to be stored on the server for up to 6 months of route history.

iron / ˈaɪərn/ (marine eng) željezo: Regular monitoring detects any sudden increase in a wear element, such as iron or copper, which would indicate that excessive wear was occurring. cast ~ kovano željezo: The cylinder block forms the housing to take the cylinder liner and is made of cast iron., close-grained cast ~ sivi lijev finozrnate strukture, sitnoznato lijevano željezo, forged ~ kovano željezo, grey cast ~ sivi lijev: Such rings of a special alloyed grey cast iron were therefore introduced as standard on new engines., molten ~ rastaljeno željezo, pig ~ sirov kovano željezo, sheet ~ željezni lim: ... chain slings are indispensable for certain types of packages and useful for most classes of iron goods but the use of such with light cases, sheet iron, coils of copper, piping, sawn logs of valuable timber and other goods liable to buckling, fraying or marking by chain ...

iron alloy / ˈaɪərn,ɛl/ (marine eng) željezna legura: The liner material is a special grey cast iron alloy developed for wear resistance and high strength.

iron casing / ˈaɪərn/ (marine eng) željezno kućište, odljevak: In the most usual arrangement cylinder liners are enclosed in one cast iron casing forming a cylinder block.

iron casting (n) (marine eng) željezni odljev: The cylinder jacket is a single-piece iron
casting, its height determined by the space required for the scavenge air receiver.

**iron maul** (n) *(boating/yachting, nav arch, sailing vessels)* željezni malj, željezni bat, maca

**Iron Mike** /ˈaiən/ (n) *(navig)* automatski pilot

**iron ore** /ˈaiənˌɔː / (n) *(cargo)* željezna ruda: The major bulk cargoes include raw materials (e.g. iron ore & coal), cereal in general, minor ores and phosphates.

**iron plates** /ˈaiən/ (n) *(cargo)* željezni limovi: Many goods have little or no form of packing whatsoever, and are carried loose. These include iron and steel plates, iron rods railway sleepers and steel rails.

**iron rod** /ˈaiən/ (n) *(marine eng)* željezna šipka, željezna motka: Many goods have little or no form of packing whatsoever, and are carried loose. These include iron and steel plates, iron rods, railway sleepers and steel rails.

**irons** /ˈaiənz/ (n) *(boating/yachting)* = no-go zone When the bow of a boat is stuck into the wind, resulting in stalled sails and the inability to maneuver.

**iron ship** (n) *(nav arch)* željezni brod

**iron spinnaker** (n) *(boating/yachting, figurative)* pomoćni motor

**irregular** (adj) 1 nepravilan: A traditional problem with low load operation is engine fouling due to irregular fuel injection and atomization leading to incomplete combustion. ; 2 neispravan ~ cargo neispravan teret: Some tramp ships carry irregular cargoes which do not fit in with the regular liner services. ; 3 neredovit: The sensitivity of the heart to the arrhythmogenic action of epinephrine will increase, causing irregular pulse, palpitations, or inadequate circulation.

**irregularity** (n) 1 nepravilnost; 2 neispravnost

**irreparable** /ɪˈrɛpərəbəl/ (adj) 1 *(mar ins)* nepopravljiv; 2 nenadoknadiv ~ damage nepopravljiva šteta, nenadoknadiva šteta: Processed steel may suffer irreparable damage if rust is permitted to gain a hold.

**irrevocable letter of credit** /ɪˈrɛvəkəbəl/ (n) *(shipping econ) (mar law)* neopozivi akreditiv, neopozivi dokumentarni akreditiv: Irrevocable L/C is the most commonly used method of payment for imports. An irrevocable letter of credit cannot be changed or cancelled unless everyone involved agrees. Irrevocable letters of credit provide more security than revocable ones.

**ISGOTT** (International Safety Guide for Tankers and Terminals) (n) *(mar law)* Međunarodni vodič o sigurnosti tankera i naftnih terminala

**Isherwood System** (n) *(nav arch)* A method framing a vessel which employs closely spaced longitudinals with extra heavy floors spaced further apart. Most tankers use this type of framing system.

orebrenje tankera po sustavu Isherwood, Isherwood sustav, konstrukcija broda po sustavu "Isherwood"

**ISM Code** /ˈaɪs ɪm/ (International Safety Management Code) (n) *(mar law)* (The International Management Code for the Safe Operation of Ships and for Pollution Prevention, which is Annex IX to the Safety of Life at Sea (SOLAS) Convention 1974 as amended) obliges shipowners and ship operators to maintain a high standard of management of their ships and this has increased the extent of classification society duties and reports.
Međunarodni kodeks upravljanja sigurnošću, Međunarodni pravilnik o upravljanju sigurnošću (tvrtke, broda itd.): (1) ensure that the Crew, before joining the Vessel, are given proper familiarisation with their duties in relation to the ISM Code; and (2) instruct the Crew to obey all reasonable orders of the Company in connection with the operation of the SMS. 2) When a company, which owns or manages vessels, complies with the requirements of the ISM Code, it will be issued with a Document of Compliance. An Interim DOC, valid for no more than twelve months, may be issued to facilitate initial implementation of the ISM Code and implementation where a Company is newly established or where new ship types are added to an existing DOC.

**isobar** /ˈaisərə/ (n) **(meteorol)** a line of equal barometric pressure on a weather map

**isochronous governor** /aiˈsɔkrənəs/ (=isochronal governor) (n) **(marine eng)** a governor with zero speed droop, i.e. having the same speed frequency

**isoclinal; icoclinic** /ˌaisəuˈklainəl; ˌaisəuˈklɪnɪk/ (adj) **(stabil)** sloping in the same direction and at the same angle

**isoclinal stability** /ˌaisəuˈklain/ (n) **(stabil)** izoklinska stabilnost

**isolate** /ˈæsələt/ (v) to physically separate from

**isolated danger mark** /ˈaisələtɪd/ (n) **(navig)** a mark erected on, or moored above or very near, an isolated danger which has navigable water all around it

We normally leave fairway and isolated danger marks to port ...

**isomeric line** (n) **(meteorol)** izomera

**isophase light** (n) **(navig)** a rhythmic light in which all durations of light and darkness are equal

**izofazno svjetlo (jednak period svjetla i tame)**

**isotherm** /ˈaisərəθm/ (n) **(meteorol)** izoterma

**isothermy** /ˈaisərəθmi/ (n) **(meteorol)** izotermija

**ISPS code** (=International ship and port facility security code) (n) **(mar law, safety)** Međunarodni pravilnik o sigurnosnoj zaštiti brodova i lučkih postrojenja: Additionally, leaving a secured pilot ladder hanging over the side is clearly a breach of the ISPS Code and leaving a slack length on deck is very unseamanlike and irresponsible. Moreover,

http://en.wikipedia.org/wiki/Light_characteristic
beyond mandatory reporting areas, and to comply with the ISPS Code, IMO needs to be of the opinion that masters would normally be expected to isolate AIS.

**issuance** /ɪsjuːns/ (mar law) izdavanje (dokumenta): A seafarer who has been refused issuance of a seafarer’s medical certificate or has a limitation imposed in his certificate, may appeal to the Director of Marine for a review. https://safety4sea.com/

**issue** /ɪʃuː/ ; 'ɪʃjuː/ (mar law) izdavanje (isprrave, dokumenta) date of ~ and expiry datum izdavanja i istječka važnosti (isprrave, dokumenta); 2 izdanje (dokumenta, časopisa): BIMCO have taken steps to address these sort of problems as described in the feature pages 14 and 15 in the December 2004 issue of SEAWAYS.

**problem**, pitanje: This issue has been discussed with all loading masters at the terminal and correction done for the future. This issue has been raised in accident reports by various investigation agencies in the past. IMOCA works tirelessly to address the issue of safety in the solo sailing environment.

**issue** /ɪʃuː/ ; 'ɪʃjuː/ (mar law) izdati (isprravu, dokument) ~ a certificate izdati svjedodžbu, izdati potvrdu: The discharging operation was postponed as the vessel had to pass Coast Guard inspection in order to issue a Certificate Of Compliance before carrying out any cargo operation. Every two years the Classification Societies issue a Cargo Ship Safety Equipment Certificate on behalf of the Flag State that should include all of the above items. ~ a document izdati ispravu, izdati dokument: This enabled the local Lloyd's Surveyor to complete the survey and issue a Document of Compliance for Carriage of Dangerous Goods in Bulk. ~ a clean B/L izdati čistu teretnicu, izdati teretnicu bez primjedaba: If the charter party requires the master to issue clean bills of lading, he must ensure, from the very beginning, that only cargo in apparent good order and condition is allowed to be loaded. ~ instructions izdati upute: The Traffic Department will shortly issue detailed instructions on the use of mobile phones on board. ~ orders

**issuing authority** (mar law) vlast koja je izdala (dokument): Only the issuing administration may withdraw the smc.
issuing bank (n) (mar law) akreditivna banka, banka koja izdaje akreditiv

isthmus /ɪsməs/ (n) (geogr) a narrow strip of land with sea on either side, forming a link between two larger areas of land

ITU (n) =International Telecommunication Union (comm) Međunarodna telekomunikacijska unija: mation on radio from ship to shore Urgency traffic and/or ship to ship / aircraft about a distress / urgency situation as defined in the relevant ITU Radio Regulations.

ITOPF (n) =International Tanker Owners Pollution Federation Limited (environ, mar law, safety) a not-for-profit organisation established on behalf of the world's shipowners to promote an effective response to marine spills of oil, chemicals and other hazardous substances.

item /ˈaɪtəm/ (n) 1 stavka (u popisu): This incident involved the vessel’s rescue boat, a key item of life-saving equipment which must be ready for deployment at any time (SOLAS Chapter III – Life Saving Appliances - Regulation 20 ...). The Safe Working Load (SWL) of an item of ship’s lifting gear is the safe maximum weight that can be lifted with the load suspended directly from the hook in the standard configuration ...

~ No. 5 stavka br. 5: released only after all the designated crew have boarded, been checked off and have secured themselves in their seats (item number 9), or even after item number 4 (Ensure rudder is midships) in the next paragraph titled ‘Once crew are in the lifeboat’. ..., the weight of the boat was not adequately transferred to the suspension links on the davit arms, and the harbour pin could not be engaged. Item no. 4 above seems to suggest an incorrect length of fall wire(s), possible obstruction to the free movement of davit arm(s) or improper rigging grips ...

2 (shipping econ) stavka (tereta): Transferring heavy items on top of 'soft' containers, which are liable to collapse, suffer damage and cause the heavy item(s) to be lost.

ITOPF (n) =International Tanker Owners Pollution Federation Limited (environ, mar law, safety) a not-for-profit organisation established on behalf of the world's shipowners to promote an effective response to marine spills of oil, chemicals and other hazardous substances.

https://www.itopf.org/in-action/key-services/spill-response/ For 2019, ITOPF recorded one large spill (>700 tonnes) and two medium spills (7–700 tonnes). https://safety4sea.com/

ITU (n) =International Telecommunication Union (comm) Međunarodna telekomunikacijska unija: mation on radio from ship to shore Urgency traffic and/or ship to ship / aircraft about a distress / urgency situation as defined in the relevant ITU Radio Regulations.

Signals, and their use in ship’s external communications has to be in strict compliance with the relevant radiotelephone procedures as set out in the ITU Radio Regulations. Note: All of the following phrases must come as the culmination (message content) of a radio message exchange between stations covered by the ITU Radio Regulations, and the relevant calling procedures have to be observed.

jack /dʒæk/ (n) (cargo handling, seamanship, marine eng) naprava, sprava, uređaj

hydraulic ~ hidraulička dizalica, hidraulička naprava (za podizanje, razdvajanje teških komada): There are four bolts at each connection point which help for assembly and removal of the connecting rod, and are tightened to their required torque using hydraulic jack.

jack /dʒæk/ (n) 1 (boating/yachting) a small flag flown at the bow of a ship indicating the ship's nationality, flown at the jackstay of a commissioned ship not underway. zastavica na kosniku;

2 (navy) mornar, pomorac

jack bolts (n) (marine eng) Jack bolts are hydraulically tightened long studs with incorporated hydraulic connection which holds the upper keep of the main bearing intact.

http://www.marineinsight.com/main-engine/jack-bolts) pritezni svornjaci (temeljnog ležaja), svornjak temeljnog ležaja: Jack bolts do not pass through the main bearing keep housing but do hold the keep by using hydraulic tension applied and maintained externally.
The main bearings of these engines use holding-down studs instead of the previous hydraulic jack bolts pipe connections are designed to support this type of modular assembly and achieve the shortest possible assembly time. The hydraulic jack bolts on the main bearings were eliminated and replaced by simple holding-down bolts that fix the bearing cap directly to the bedplate. Tensioning of ~ pitezanje svornjaka temeljnog ležaja.

**jacket** /dʒækit/ (n) 1 (marine eng) = cylinder jacket plašt (cilindra): The cast iron cylinder head is fixed to the water jacket and to the liner by eight studs screwed into the frame bosses. cylinder ~ (marine eng) plašt cilindra: The components are clamped together by the cylinder jacket and held down by four cylinder head bolts. ~ cooling system sustav rashlađivanja košuljica: Both jacket and piston cooling systems must have alarms fitted to give warning of loss in pressure, high or low tank level or …, cooling water ~ vodeni plašt: … the HT cooling water passes through the HT circulating pump and then through the first stage of the charge-air cooler before entering the cooling water jacket and the cylinder head.; 2 (safety) = lifejacket plutajući prsluk, zaštitni prsluk / jakna: The owner also had a buoyancy jacket and he carried a mobile telephone. An experienced yachtsman was sailing an of clothing and a waterproof sailing jacket. The crewman regularly wore a flotation jacket on deck, but unfortunately he was not wearing one on this occasion.; 3 plašt, omotač

**jackline** /'dʒæklain/ (=jack line; jack stay) (n) (boating/yachting) A line run lengthwise on the deck of a ship, onto which crew may clip a safety harness or tether. Reduces the risk of falling overboard. http://www.aps ltd.com/aps-advisor/sailing-terms-glossary/; A strong line, usually of flat webbing, or a wire stay running fore and aft along the sides of a boat to which a safety harness can be attached. https://www.ypiyachts.com/; the jackline provide a secure and continuous means of attachment for on-deck crew sigurnosni konopac uzduž palube (za zadržavanje...
During the race, the weather rapidly deteriorated and just before midnight the skipper, who was tethered to a *jackline*, fell overboard while working on the foredeck. *Jacklines* must be tied off sufficiently to provide complete security. PS offers recommends that *jacklines* ideally be installed so that a sailor who is clipped in can’t go over the side. *Jacklines* and fixed points for clipping in should be oriented so that it is nearly impossible for you to go overboard while clipped in. They should be consistent with the tether maker’s guidance for use with their safety tethers. https://www.practical-sailor.com

Jack mackerel *(fishing)* lat. *Trachurus spp* šarun, širun, šnjur

jackstaff /ˈdʒækstaːf/ *(nav arch)* flagpole at the bow of a ship; A short vertically erected pole at the bow on which the national flag is hoisted on naval ships while at anchor

(http://www.marineterms.com) nosač kosnika: Conventionally, courtesy flags are flown from the jackstaff at the bow.

jack stand /ˈdʒækstænd/ (=jackstand) *(boating/yachting)* potporanj s navojnom dizalicom (za jedrilicu / brodicu na kopnu): Fisheries Supply offers a full complement of boat *jack stands* from Brownell – from keel and sailboat stands, to powerboat stands, to stern drive storage racks. https://www.boats.com/how-to/boat-enough-jack-stands/ The boat must be vertical. The angled jack stands are there only to provide balance. https://www.practical-sailor.com/boat-maintenance/
jackstays /ˈdʒæk.steɪz/ (n) 1 (boating/yachting) SYNONYM jackline A strong line, usually of flat webbing, or a wire stay running fore and aft along the sides of a boat to which a safety harness can be attached. (https://www.ypigroup.com/en/yacht-terms/yachting-glossary/) sigurnosna vrpca / uže za hvatanje / držanje (jedriličara u jakom vjetru ili nevremenu); 2 (safety, seamanship) A cable between two ships or from a ship to a fixed point which can be used to support a load during transfer of personnel or materiel along the cable. uže za prebacivanje tereta / opreme između dva broda

Jacob's ladder /ˈdʒeɪ.kəbz, lædər/ = pilot ladder a ladder of rope with rungs, used over the side; rope ladder with wooden rounds used for getting on or off a vessel not at a berth. Also referred to as a pilot's ladder because of its extensive use by vessel's pilots. (www-euronav.com) jakovljice, peljarske ljjestve, boškaina, buškaina, Italian:biscaglina: A pilot plunged into the sea after falling from a Jacob's ladder. While boarding the bulk carrier at the port a ship pilot fell from the vessel’s Jacob’s ladder and was successfully recovered in the early morning darkness. One of our vessels reported that the Jacob's ladder provided by the vessel for embarking the stevedore labourers parted.

jagged coastline (n) (geogr) razvedena obala

jam /dʒæm/ (n) 1 (navig) začepljenje prometa, zastoj prometa traffic ~ začepljenje prometa; 2 (marine eng) zapinjanje, zastoj: A man put himself in danger by going aft to clear the rope jam.; 3 (marine eng) zaribavanje, uklinjenje: In that report, a crowbar was temporarily inserted into a link to jam it in the bow stopper when the brake could not hold the anchor cable that was under high tension.; 4 (shipping econ) zakrčenost (luke)

jam /v) (marine eng, seamanship) ukliniti, začepiti, blokirati, zaustaviti: A crowbar was temporarily inserted into a link to jam it in the bow stopper when the brake could not hold the anchor cable that was under high tension. Soon afterwards, the mechanism jammed completely, leaving the yacht with no steering. Post-accident investigation showed that the tripping line had jammed between the
cruciform and the jaws of the docking head.

**jam cleat** (n) *(boating/yachting)* COMPARE clam cleat stoper

**jammed** uklinjen, zakrčen, blokiran, začepljen, zaustavljjen: Not allowing shore crew enough time to get a jammed rope off the bollard before starting to heave it in. The first crewman had gone aft to free a creel that had become jammed in the stern opening. The chief engineer became aware of the problem with the tow line and he moved forward to inspect the jammed turns on the winch, gesticulating to the ship’s crew to slack back. Examination of the engine, after the incident, revealed that the fuel rack was still jammed in the full “on” position, and only released and returned to the zero position when the governor was removed.

**jammed port** (n) *(shipping econ)* = congested port zakrčena luka

**jammer** (n) = clutch: stoper rope ~ stoper

**jamming cleat** (n) *(boating/yachting)* naprava s nazubljenim ekscentričnim polugama s oprugama za zaustavljanje komopa žabica

**jam nut** (n) *(marine eng)* protumatica

**Jason Clause** /ˈdʒeɪsən/ (n) *(mar ins, mar law)* klauzula o nemaru i zajedničkoj

**havariji**: General Average and New Jason Clause: General Average shall be adjusted in London unless otherwise agreed in Box 22 according to York-Antwerp Rules 1994 and any subsequent modifications.

**jaw gear puller** (n) *(marine eng)* izvlakač ležajeva, radapciger
jawl /ˈɔːl/ (n) (boating/yachting) a two-masted yacht with the mizzen mast stepped aft of the rudderpost
djol, jedrilica slična keču, ali joj je zadnji jarbol smješten iza statve kormila
djaws /dʒɔːz/ (n) čeljusti (škripca / morše)
jeer /dʒiə/ (n) (boating/yachting) podigač jedra
jellyfish (n) (fishing) meduza

http://valgerda.blogspot.hr/2012/06/things-i-did-right-no-gooseneck.html
jenny (=Genoa jib) (n) (n) genova
jerk pump (n) (marine eng) A positive displacement pump with a close fitting piston.

sisaljka s razvodnim klipom (za ubrizgavanje goriva), Boschova pumpa, Bosch-pumpa: There are two basic systems in use, each of which employs a combination of mechanical and hydraulic operations. The most common system is the jerk pump system; the other is the common rail. In the jerk pump system the fuel is metered and raised in pressure by a separate fuel pump for each cylinder. The pump is timed to force the fuel through the injector into the cylinder at the appropriate moment. ~ sysetm sustav
visokotlačnih sisaljki za ubrizgavanje goriva, sustav Boschovih pumpa

Jerce Note /dʒɛr/ (n) (mar law) Potvrda o carinskom pregledu i dozvola za uplovljenje (tj. početak trgovačkih operacija): It is most convenient to enter the ship outwards as soon as the Jerque Note has been issued. The Waterguard Officer checks the landing of all goods destined for the port and when the discharge is completed the ship is searched and compared with the Surplus Store List, and if all is in order the Inward Clearing Bill (or JERQUE NOTE) is issued.

jerry can (n) (seamanship, boating/yachting) kanta (za gorivo, vodu): The pump, which was being used as part of the cockle dredging operation, was being topped up with petrol from a jerry can while it was running.

jet /dʒɛt/ (n) (marine eng) mlaz, štrcaj: If it is necessary because of insufficient steam for fuel heating, to use Diesel Oil or other lower viscosity fuel a single pressure jet burner with the smallest available tip is to be used. Cooling oil is jet sprayed into passageways within the piston. The design addresses the demands of waterjet operation, notably sudden large load changes if air is drawn into the jet unit in severe sea conditions. water ~ (safety) mlaz vode: This was followed by a water jet from a charged fire hose and the fire was soon extinguished., ~ nozzle (safety) mlaznica: The seaman descended to the top platform, bringing with him a fully pressurized fire hose fitted with a jet nozzle.

jetsam /dʒɛtsəm/ (n) (safety) goods or equipment deliberately thrown overboard izbačeni teret (radi olakšanja broda)

jettison /dʒɛtisən/ (n) (marine) The act of throwing goods or pumping cargo overboard to lighten a ship to improve stability in an emergency. izbacivanje tereta s broda u more (radi olakšanja broda): The point of jettison was only about 20 metres ahead of the propeller. ~ of cargo izbacivanje tereta s broda u more: a heroic jettison of cargo to save a listing ship; No jettison of cargo shall be made good as general average, unless such cargo is carried in accordance with the recognised custom of the trade. Examples of general average acts are: - Jettison of cargo, in order to lighten a vessel., ~ from underdeck izbacivanje tereta iz brodskog skladišta u more, ~ form on deck izbacivanje tereta s palube u more

jettison /dʒɛtisən/ (v) to throw goods or cargo overboard, sometimes to lighten the ship in distress
izbacivati teret u more: 6.1 / MV...will jettison cargo to refloat. 6.1 Warning! Do not jettison IMO-Class cargo. (IMO SMCP) The list could not be significantly reduced by adding ballast, so the decision was made to jettison some of the deck cargo. Crew members were assigned to cut the remaining lashings in an attempt to jettison the rest of the packages and reduce the list.

jettison clause (n) (mar law) Clause in a Bill of Lading or Charter-Party setting out the circumstances under which a master is entitled to jettison goods from a ship.
http://www.tkmglobal.net/chartering_J.HTM klauzula o dopuštanju izbacivanja tereta u more
jetty /ˈdʒeti/ 1 a small pier, usually made of timbers for boats, yachts or fishing boats gat, molo, lučka obala, mul, ribarski molo, Italian:molo; pontile; gettata fisherman jetty ribarski gat, ribarski molo, ribarski mul, on the ~ na obali: The line apparently got caught on an underwater obstruction on the jetty and suddenly became taut around his ankles, moving up his body to his waist; he was dragged around the bollard on which the rope was earlier tied, ..., both the lines were cast off on the forecastle deck and it was confirmed that they were released from the mooring bitt on the jetty. clear of the ~ odvezan od obale: The tug would be released once the vessel was clear of the jetty and making headway downriver. towards the ~ prema obali: As the rate of turn to port increased towards the jetty, the pilot ordered the engine astern, the rudder hard to starboard and the bow thrust full to starboard. away from the ~ od obale / data: As the vessel’s bow moved away from the jetty, an AB who was standing inside the bight of the spring line suffered a fatal crush injury. 2 a big jetty designed for tankers veliki gat T~ tankerski vez (u obliku slova T), oil ~ tankerski gat, tankerski vez

jib /dʒib/ (n) (boating/yachting) the foremost triangular stay sail at the front of a ship prečka, prednje jedro, flok; Italian:fiocco ~ fairelads koloturi uzde floka na palubi, ~ lead vodilica škotine: If the bottom telltale luffs first, then move the jib lead aft., ~ sheet uzda prečke, škotina: Ease the jib sheet, moving the lead aft to reduce the power in the sail; use a snatchblock to move the jib lead outboard

jib (n) (cargo handling) the arm or boom of a crane providing the reach (working radius)

https://officerofthewatch.com/tools/maritime-dictionary/ krak brodske dizalice: The seaman lowered the crane jib. Seaman A then started to put the rubber pad under the jib head, and signaled to B to raise the crane jib a little more. ~ angle indicator pokazivač nagiba kraka dizalice, ~ head vrh kraka dizalice: The jib of the crane resting on the bridge front bulkhead started making a noise due to friction between the jib head and its support.

jib-boom (n) (boating/yachting) prikosnik

jibe /dʒaib/ (=gybe (UK); gibe; jibing) (n) (US) (boating/yachting) = gybe

ANTONYM tack to turn the boat downwind from one side of the wind to the other kružiti,
napraviti pojalabandu  
http://gosailing.info/how-to-gybe-a-sailboat/

jibe ho! (v) (boating/yachting) zapovijed / upozorenje za kruženje; a warning issued before jibing a sailboat.  
Pojalabanda! Prepare to ~! Spremni za kruženje!, Spremni za pojalabandu!

jib fittings (n) (boating/yachting) oprema prečke, oprema floka

jib furler (n) (boating/yachting) = headsail furler uređaj za namatanje floka,

rol-mehanizam za flok, rolflok

jib halyard /dʒib, hæljəd/ (n) (boating/yachting) the line that raises and lowers the jib podigač floka, gindac floka

jib sheet (n) (boating/yachting) A sheet (line) used to control the position of the jib. The jib has two sheets, and at any time one is the working sheet and the other is the lazy sheet.

https://www.ypiyachts.com/ uzda prednjeg leta, uzda prečke, škotina, uzde letnog jedra, škota floka, Italian: scotta del fiocco

jibstay /dʒɪbsteɪ/ (n) (boating/yachting) COMPARE headstay malo leto, štraj floka, mali štraj

jib tack (n) (boating/yachting) = jib sheet uzda floka, škotina

jig /dʒɪɡ/ (n) 1 (fishing) A hook with molded weight attached in lead or steel. Jigs come plain undressed or dressed with hair, marabou, rubber skirts and soft plastics; varalica sa jednom ili dvije krunice od
zavunutih iglica na repnom dijelu kojom se love glavonošci, prvenstveno lignje
(https://ribolovnajadranu.hr/ribicki-leksikon/); A jig consists of a lead sinker with a hook molded into it
and usually covered by a soft body to attract fish. (https://en.wikipedia.org/wiki/Jigging)

**skosavica, šuštavica, plovuća, lignjarić:** Jigs are intended to create a jerky, vertical
motion, as opposed to spinnerbaits which move through the water horizontally.

**skosavica**
http://learninghowtofish.com/fishing-equipment/fishing-jigs/

**jig** /dʒɪɡ/ (v) *(fishing)* skosati
**jig fishing** (n) *(fishing)* fishing technique of lowering a weighted lure until just above the bottom,
then alternately jerking the rod upwards and lowering it to give action to the lure
https://www.ypiyachts.com/

ribolov skosanjem, ribolov sa skosavicama *vertical*
~ lignjolov, lov lignanja okomitim skosanjem

**jig fishing knot** (n) *(fishing)* čvor za kopčanje skosavice

**jigging** (n) *(fishing)* skosanje, ribolov skosanjem *vertical ~ = vertical jigging* lov
liganja okomitim skosanjem, *vertical jigging*, ~ rig oprema za skosanje
jig head (n) (fishing) COMPARE squid jig glava skosavice
jig hook (n) (fishing) posebna udica koja na vrhu vrata ima olovno otežanje jig udica
jigsaw /ˈdʒɪɡsɔː/ (n) (marine eng) a power saw with a fine steel blade for cutting curves in wood or metal plates strojna pila, ubodna pila
joggled joint /ˈdʒɒɡld/ (n) (nav arch) džoglovani spoj

john dory (n) (fishing) Lat. Zeus faber kovač, Petrova riba, kovača, šampjer
join /dʒɔɪn/ (v) 1 (marine eng) spojiti, povezati: The camshafts are of modular construction with single-cylinder sections joined by bearing journals.; 2 sastaviti; 3 pristupiti, pridružiti se, uploviti u, uči u, stupiti u: One person went to the wheelhouse to join the skipper who, having raised the alarm, was collecting lifejackets from the cabin. The master was alone on the bridge until he was joined by the berthing pilot. By nightfall, several vessels joined in the SAR operations.; 4 stupiti u (vojnu službu, firmu)

joint /dʒɔɪnt/ (n) 1 (marine eng) spoj: There is a metallic joint, a copper or soft iron ring, interposed to make a seal. A thick section mild steel ring makes the gas joint between the liner and cylinder head. Studs should be evenly tightened so that a satisfactory joint can be provided. angle ~ kosi spoj: Transverse diaphragms for each main bearing provide rigid support for the crankshaft, and angled joint faces ensure positive locking of the main bearing caps in the bedplate., step ~ stupnjevit spoj, stepenasti spoj, lap ~ preklopni spoj: Thanks to the double lap joint, the pressure drop will be almost constant irrespective of the wear on the liner and rings., butt ~ ravni spoj, provide a ~ spojiti, osigurati spoj, make a ~ spojiti, napraviti spoj, metallic ~ metalni spoj: There is a metallic joint, a copper or soft iron ring, interposed to make a seal., failed ~ spoj koji propušta, loš spoj: It was soon established that the leak originated from a failed joint at a pipeline flange on a fuel pump oil return line (originated), flange ~ prirubnički spoj: He did not take the precaution of staying away from the valve while releasing the flange joint and was right in front of the valve, while dismantling.; 2 zglob: 62 MAIB Safety Digest 1/2012 _ CASE 23 CASE 23 Figure 2: Layout of gear throttle cables As he did so, the steering cable ball joint became disconnected from the outboard engine frame, and the engine turned hard to port. The steering cable had been replaced using an outdated spring-loaded ball joint to connect it to the outboard engine frame.

joint and several liability (n) (mar law) zajednička i nedjeljiva odgovornost,
A new mate joined a small inland passenger vessel for his first day of work. He joined HM Coastguard in 1994 serving at Belfast, Falmouth etc. He then joined the Company as Marine Superintendent in 1996 with special responsibilities for the oil spill compliance programme and contingency planning.

In 2004 he joined his first ship as an officer. This left me only five hours to join the ship. Own vessel was heading at 13kts to round the F3 buoy and join the SW lane. I had joined the vessel two weeks previous as chief officer.

Two or more debtors who are obligated to the same creditor for the same obligation are jointly liable where they may only be compelled to perform the obligation separately and only up to their respective shares of the debt.

The new RORO Terminal is a joint-venture initiative between the Japan-headquartered shipping company and Saudi Arabia-based Ports Development Company. A large private ship owner purchased its 49.5% stake in the joint venture last June for approximately $150 million. These alliances may take the form of pools, joint ventures, or space charter agreement. General Average is a partial loss voluntarily and reasonably incurred in time of peril for the safety of the joint adventure; which is contributed to by the owners of all property saved.

A number of U.S. maritime industry stakeholders rallied together in a strong show of support for the Jones Act, sending a clear message to opponents that any attempt repeal the 95-year-old law is severely misguided and not in the best interest of the American people.
journal (n) (marine eng) that portion of a shaft or other revolving member which transmits weight directly to and is in immediate contact with the bearing in which it turns

temeljni oslonac, potporni rukavac: The generous diameters of both crankpin and journal achieve a large bearing surface while allowing a reduced cylinder spacing ratio. The bearings are so constructed that the bearing pressure between journal and bearing is distributed evenly over the entire length of the bearing.

journal bearing (n) (marine eng) temeljni ležaj vratila, vratilni ležaj, ležaj temeljnog oslonca, ležajni rukavac

journal pin (n) (marine eng) rukavac

joystick control (n) (marine eng, navig) upravljačka ručica (za upravljanje strojem, dizalicom itd.), džoistik: The vessel was in hand-steering, joystick control, and the pilot was unhappy with having to continually check the only rudder angle indicator which was sited above his head. The OOW then returned to the centreline console and began to adjust the vessel’s heading to port using the joystick control on the vessel’s track pilot system.

judgement (n) (mar law) presuda, sudbarska odluka: In judgement on the case of ..., it was stated that if the case was decided on the legal interpretation of the clauses in isolation, the expression the expression days would mean running days and hence include Sundays and holidays.

judicial decision (n) (mar law) sudbarska odluka, sudbarsko rješenje: Common Law: The body of law based on judicial decisions and custom, as distinct from statute law.

judicial proceedings (n) (mar law) sudski postupak: ... and, pursuant to Regulation 14(14) of the Merchant Shipping (Accident Reporting and Investigation) Regulations 2012, shall be inadmissible in any judicial proceedings whose purpose, or one of whose purposes is to attribute or apportion liability or blame. (© Crown copyright, 2015)

jumbo boom (n) = jumbo derrick (cargo handling) samarica za teške terete

jumbo derrick (n) (cargo handling) regularly installed heavy-duty swinging derrick for handling extra heavy lifts samarica za teške terete

jumboisation (n) (nav arch) The conversion of a vessel to increase displacement by means of a mid-length transverse cut and the installation of a new section.
Chinese state run Qingdao Beihai Shipbuilding Heavy Industry (BSIC) is rapidly building up a new revenue base as the go-to yard for vessel jumboisation. MSC has recently signed with the northern Chinese yard to lengthen eleven 14,000 teu ships into 17,000 teu units with more likely to follow. CMA CGM has also signed a letter Splash24/7 <splash=asiashippingmedia.com@mail18.atl111.rsgsv.net>

**jump ship** (v) (safety, navy) napustiti brod (skakanjem u more)

**junk** (n) (nav arch, boating/yachting) a sailing vessel common with two or three masts carrying batten lugsails (used in East Asia), džunka ~ rig oputa i snast džunke
jurisdiction /ˌdʒʊərɪsˈdɪkʃən/ (n) 1 (mar law) A term referring to the nature and extent of the legal authority bestowed upon a legislature to enact laws (legislative jurisdiction) or of courts to hear and determine actions and other legal proceedings (judicial jurisdiction), as determined by international conventions or national laws. http://www.mindsnake.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

pravosude: Admiralty law is distinguished from the Law of the Sea, which is a body of public international law dealing with navigational rights, mineral rights, jurisdiction over coastal waters and international law governing relationships between nations. 2 (mar law) court exercises its jurisdiction (i.e. decision-making authority, or competence) over proceedings of certain types (subject-matter jurisdiction, or jurisdiction ratione materiae) and over a defined territory (territorial jurisdiction, or jurisdiction ratione loci). http://www.mindsnake.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

pravna nadležnost, sudska nadležnost: No one is permitted to exercise jurisdiction over the high seas thus you cannot have mandatory reporting ergo there can be no need for AIS, long range or otherwise. Another form of restraint is by this injunction. This forbids the movement of a company's assets from the jurisdiction of the court. 3 (mar law) nadležnost under ~ pod nadležnošću, u nečijoj nadležnosti: Some more knots were needed to maintain steering, navigation marks and lights are in place giving a speed over the ground of at least in areas under their jurisdiction, ... marine casualties or incidents where either one or more interested States have a substantial interest in a marine casualty involving a ship under their jurisdiction, within ~ u
nadležnosti: Harbour authorities play a major role in safe navigation within their jurisdiction.

area of ~ područje nadležnosti: A port authority should, as an essential element of its formal safety assessment of hazards and risks in its area of jurisdiction, develop plans and procedures to control those risks.

nadležnost: No one is permitted to exercise jurisdiction over the high seas thus you cannot have mandatory reporting ergo there can be no need for AIS, long range or otherwise.

nadležan za: It provides jurisdiction for incidents occurring on board the ship when the ship is on the high seas.

jurisdiction clause (n) (mar law) A clause in a bill of lading, a waybill or a charterparty, providing that any dispute arising under the contract evidenced by that document shall be tried before the competent court of a particular State.

klauzula / odredba o sudskoj nadležnosti

jury anchor / ˈdʒʊəri/ (n) (safety, nav arch) olujno sidro, zamjensko sidro, improvizirano sidro

jury mast / ˈdʒʊəri/ (n) (seamanship, nav arch) a temporary mast put up by the crew when the spars have been carried away in a storm or in action olujni jarbol, improvizirani jarbol (nakon obaranja jarbola): Once the boat had lost her mast, it was time to set up a jury rig.

jury rig (n) (seamanship) any makeshifts device or apparatus. provizorna naprava / oprema / uredaj

jury-rigged / ˈdʒʊəri/ (adj) (US) (boating/yachting) makeshift, improvised, temporary privremeno opremljen, improvizirano opremljen, improvizirano ugrađen

jury rigging (=jury rig) (n) (boating/yachting) makeshift rigging; makeshift repairs or temporary contrivances, made with only the tools and materials that happen to be on hand, originally a nautical term. (Wikip.) privremena snast / oputa, zamjenska snast / oputa, improvizirana snast / oputa, Italian: armamento di fortuna, improvizirana oprema i jedrilje (u izvanrednim okolnostima)

justify /ˈdʒʌstɪ fai/ (v) opravdati: Owners and masters must ensure that they do not use this argument to justify bad practice and complacency. Editor's note: The convenience of a direct course and a shorter transit time must not justify the selection of a route that plainly contravenes the Colregs.

jute /dʒuːt/ (n) (cargo) juta: Bags made of jute, cotton, plastic or paper, are a cheap form of container.

kamsarmax (=Kamsarmax bulk carrier) (n) (nav arch) KAMSARMAX got its name by meeting the 229-meter limit on ship length at the Port of Kamsar, a major bauxite shipping port in the Republic of Guinea on the west coast of Africa. (www.tsuneishi.co.jp/english/products/kamsarmax)

brod za rasute terete tipa "kamsarmax" (dužine do 229 m): The 81,478 dwt kamsarmax bulk carrier will be delivered in 2017, bringing the company's fleet to a total of 10 ships.

kapok /ˈkeɪpɔ/ (n) (safety) materials used to stuff life jackets and other lifesaving apparatus

(http://www.quarterdeck.org/index.html) kapok (ispuna za kolute, prsluke za spašavanje itd.)

KB (=Height of the Center of Buoyancy) (n) (stabil) visina težišta uzgona:
Because the center of buoyancy is the geometric center of the underwater body of the ship, the height of the center of buoyancy depends upon the shape of the ship.
**kedge** /kɛdʒ/ (v) **seamanship** povlačiti se po sidru: moving a ship by hauling it ahead by heaving in on a line to a laid out kedge (small anchor)

**kedge anchor** (n) 1 **boating/yachting** A small anchor used for warping or kedging. It is usually planted from a small boat, the vessel being hauled up toward it. The weight varies, being usually from 900 to 1,200 pounds. (https://www.history.navy.mil/) pomoćno sidro, sidro za manje dubine: The prudent mariner will also carry a kedge anchor, which can be used as a back-up in an emergency.; 2 sidro s kladom

**kedge off** (v) **boating/yachting** odsukavati se s pomoću sidra (s pličine)

**kedging-off** (n) **seamanship** a method of pulling a boat out of shallow water when it has run aground. odsukivanje jedrilice / brodice povlačenjem po sidru

**keel** /kɪl/ (n) **nav arch** the central structural basis of the hull; a center-line strength member running fore and aft along the bottom of a ship from which the frames and plating rise; the base line reference point from which all other reference point measurements are compared kobilica, kilj, kolumba, Italian: chiglia: By the time he was on deck, the depth sounder was showing minimal depth, and almost immediately the keel touched the bottom. A short while later we were passed over a shoal area and less than one foot under the keel was indicated by Echo Sounder at speed of 4.3 knots. lay the keel položiti kobilicu: M/v ....... was a medium size bulk-carrier, the keel was laid 1984, registered in Cyprus and managed by a management company based in Spain. The keel being laid in the Fincantieri yards at Monfalcone., on even ~ na ravnoj kobilici: Draught on departure

Kalundborg Fiord was 11.23 m on even keel.

**keel blocks** (n) **nav arch** Blocks on which the keel of a vessel rests when being built, or when she is in a drydock. https://officерofthewatch.com/tools/maritime-dictionary/; Heavy wooden or concrete blocks on which ship rests during construction or repair.

https://www.wartsila.com/encyclopedia/term/keel-blocks potklade za kobilicu (na navozu, u suhom / plutajućem doku): The dock is fitted with stationary keel blocks and movable bilge blocks, which usually are fitted on rack tracks, allowing them to be pulled under a vessel
before the water is pumped out. https://www.history.navy.mil/  

**keel boat** /ˈkiːlˌbəʊ/ (=keelboat) (n) (boating/yachting) jedrilica s čvrstom kobilicom, jedrilica s fiksnom kobilicom: Most of the techniques described for dinghies also work for keel boats, although the mainsheet traveller tends to be more of a primary control in keel boats. Both the anchorages and a few marinas are easily accessible for most keel boats ...

http://interestingsailboats.blogspot.hr/2014/03/stability-1-misleading-information.html

**keel bolts** (n) (boating/yachting) vijci kobilice: Tighten the keel bolts per schedule.

**keel date** (n) (nav arch) datum postavljanja kobilice broda

**keel-hauling** /ˈkiːlˌhɔːlɪŋ/ (=keelhauling) (n) (seamanship, sailing vessels) To tie a rope about a man and, after passing the rope under the ship and bringing it up on deck on the opposite side, haul away, dragging the man down and around the keel of the vessel. As the bottom of the ship was always covered with sharp barnacles, this was a severe punishment used aboard sailing ships long ago. Today, a reprimand. (www.USMM.org); a brutal punishment inflicted on seamen guilty of mutiny or some other high crime in the days of sail. The culprit was fastened to a line which had been passed beneath the vessel's keel. (http://www.quarterdeck.org/index.html) provući (vezanoga mornara) ispod kobilice, s jednog boka na drugi

**keel-knee** (n) (sailing vessels) kutni okov krmene statve

**keel laying** (n) (nav arch) polaganje kobilice: Keel laying is one of the four specially-celebrated events in the life of a ship; the others are launching, commissioning, and decommissioning. ~ ceremony svečanost polaganja kobilice: The keel laying ceremony was held on Saturday attended by the Owners, and the local officials.

**keel plate** (n) (nav arch) središnji voj oplate dna plosna kobilica

**keel rabbet** (n) (sailing vessels) utor kilja

**keel shoe** (n) (sailing vessels, nav arch) = false keel = shole štitna kobilica, falša kilja

**keelson** /ˈkelsən; ˈkiːlsən/ (n) (nav arch, sailing vessels) a timber or girder fastened above and parallel to the keel of a ship or boat for additional strength. (FreeDict); a beam attached to the top of the floors to add strength to the keel on a wooden boat; the part of a boat’s keel that is inside the boat hrptenica, središnje pasmo, parmezal; promezal; primezal rider ~ nadhrptenjača, ~ scarphs ključ hrptenice, sister ~ dohrptenica, side ~
doehrptenica

keel strake (n) (nav arch) = garboard strake dokobilični voj, dokiljni voj
keel stub (n) (boating/yachting) izdanak trupa za kobilicu, nosač kobilice,

nosač kolumbe: The keel has recently been cleaned, primed, and painted, and is holding up well. However, the seam between the keel and the keel stub is opening up. The keel bolts are not leaking. This boat was hit so hard that the keel stub itself has been cracked. http://forums.sailinganarchy.com/index.php?/topic/158328-westerly-anarchy/&page=3

keep (v) držati ~ cool držati hladnim, ~ down 1 smanjiti; 2 ne dati maha, ~ running držati i radu, držati u pogonu

keep a sharp lookout (v) (seamanship, navig) to be on guard against sudden opposition or danger; place a seaman in a station to watch for danger ahead pomno motriti: 16 Keep sharp lookout for lifeboats / liferafts / persons in water / . (IMO SMCP) ... all ships in vicinity are requested to keep a sharp look out, to contact 'MV ....' on 6216 khz, to propose assistance and to report to the MRCC.

keep a watch (n) (hum_resources, navig, marine eng) držati stražu, biti u gvardiji:
The officer on watch should keep a close watch on the ship’s course as sometimes small vessels, objects, and ice may not be detected. https://www.marineinsight.com/

keep clear 1 (v) (mar law, navig) izbjegavati (brod), dati pravo puta: usly the international code flag Alpha, drawing attention to the fact that it was engaged in diving operations and that vessels were to keep well clear and pass at slow speed. ~ of izbjegavati, držati se podalje od: We replied that, being the stand-on vessel, we were keeping our course and speed and that the bulk carrier, being the overtaking vessel, should keep clear of us. Those tempted to blindly charge into the TSS lanes believing that through traffic must no matter what the circumstances keep clear of them would then in fact be violators of Rule 9(d), ~ from (the vesssel) zaobići (drugi brod), izbjeći (drugi brod), držati se podalje od (drugog broda): I advised other vessels via Ch16 to keep clear from this vessel. I advised other vessels via Ch16 to keep clear from this vessel. ; 2 (navig) ukloniti se drugom brodu, skloniti se s puta (drugom brodu), izbjeći drugi brod; 3 (boating/yachting) skloniti se s puta (drugoj jedrilici)

keeping clear (n) (seamanship, navig, boating/yachting) sklanjanje s puta, uklanjanje (jedrilice u regati), davanje prava puta / prolaza: Encountering and keeping clear of fishing vessels is a routine occurrence for most bridge watchkeepers. The tanker crossed the TSS as originally planned, took early action to avoid collision in accordance with Rule 16 and exercised the precaution of keeping clear of the MPC buoy in accordance with Rule 2(a).

keep out of the way = keep clear = keep clear izbjegavati (drugi brod): As this was alarming, the CV was told that she was an overtaking vessel and that she was required to keep out of the way. Rule 13 clearly states that the overtaking vessel shall keep out of the way of the vessel being
overtaken. In a clear day with no other traffic or land in the way, one would expect, as we were the stand on vessel, that the other vessel would do her duty and keep out of the way.

**keep running** (n) (marine eng) pustiti (strok itd.) da radi, držati (strok itd.) u radu: The Chief Engineer kept the two diesel alternators running, despite rising lubricating oil temperatures, to maintain ship mobility.

**Keep the buoy / mark on port / starboard side!** (navig, seamanship) Ostavite plutaču/oznaku s lijeve / desne strane!

**keep tight** (v) (seamanship) držati konop zategnutim

**keep to sea** (v) ići u pomorce, postati pomorcem

**keg** /ˈkɛɡ/ (n) 1 (cargo handling) a small barrel used for storing something such as beer or other alcoholic drinks. (Collins Online) bačva, bačvica; 2 (cargo handling) a kind of beer which is kept under pressure in a metal barrel. (Collins Online) pivska metalna bačva

**kellet** (=anchor kellet) (n) (seamanship) = anchor sentinel a weight that slides down the anchor line which helps lower the pull to horizontal

**Kelvin** /ˈkɛlvɪn/ (n) (marine eng) kelvin (jedinica termodinamičke temperature)

**kenter pin hammer** (n) (nav arch) čekić za izbijanje zatika spojne karike sidrenog lanca čekić izbijajuča spojne karike (sidrenog lanca)

**kenter pin punch** (n) (nav arch) izbijač spojne karike (sidrenog lanca)

**kenter shackles** (n) (nav arch) rastavljiva karika za spajanje lanca; A detachable shackle which is used to join two forged anchor chain links together.

https://officerofthewatch.com/tools/maritime-dictionary/ spojna karika (sidrenog lanca): Spile and other ‘locking’ pins that hold Kenter-type joining shackles together and secure the pin of the ‘D’ shackles should be sighted at every opportunity. The anchor is badly fouled at the bottom and cannot be freed, the traditional seamanship practice (if time and circumstances permit) is to bring the next Kenter shackles on deck and open it with pin and hammer.

**kerosene** /ˈkeroʊziːn/ (n) (cargo) kerozin: There was an explosion which tore away bulkheads to adjoining tanks and ignited the aviation fuel and kerosene slops that were stored in them. The investigation also revealed that the usual cleaning equipment was not operational, and that the supply of kerosene onboard was exhausted.

**ketch** (n) (boating/yachting) jedrilica s dva jarbola; krmeni je jarbol niži od prednjeg; a two-masted sailing craft whose mainmast is taller than the mizzen mast (or aft-mast). (https://en.wikipedia.org/wiki/Ketch) jedrilica s dva jarbola, keč: I was motor-sailing on a 55 foot ketch steering a course of 2700 T towards Tio Man Island on the east coast of Malaysia at a speed of 6
knots. My first encounter was with a yachtsman motoring along in his 45ft ketch, inshore of the Goodwin Sands, after dark, in a Force 6 and with rain falling in torrents.:.

http://www.schoonersail.com/how-to-tell-a-ketch-from-a-schooner.html

kevlar (n) (boating/yachting) kevlar
key 1 (marine eng) klin ~ and keyway klin i žljeb (utor) klina; 2 tipka (na tipkovnici računala); 3 (electron) tipkalo
key (n) (electr, navig) tipka za uključivanje i isključivanje (radara), dugme za uključivanje i isključivanje: Press the POWER/BRILL key at the top of the control panel to turn the radar on, and the lamp to its left lights. press the ~ pritisnuti tipku, pritisnuti dugme, press and hold the ~ pritisnuti i držite tipku pritisnutom, power ~ tipka z uključivanje/isključivanje struje / napajanja
keyed on (adj) (marine eng) klinasto spojen, uklinjen, učvršćen klinom,
osiguran klinom: Or the camshaft may consist of a steel shaft with separate forged-steel or cast-iron cams keyed on.
key in (n) (comm) unijeti, utipkati: ~ the ship's name utipkati ime broda
key performance indicator (=KPI) (n) (cargo handling, shipping econ) klučni pokazatelj učinkovitosti (brzine usluga luke, lučkoga terminala), ključni pokazivač radnih performansi (brzine usluga luke, lučkoga terminala): The port’s management had introduced a number of Key Performance Indicators (KPIs) for all the terminals. For a container ship, inbound to the Container Terminal, the KPI duration allocated for the act of pilotage in 2016 was 60 minutes MAIB reports
keyway /'ki:wei/ (n) (marine eng) utor (za klin), žljeb (za klin)
keyworker (=key worker) SEE seafarers as keyworkers ključni radnik: Tourists can move more freely than seafarers, despite seafarers being designated as #keyworkers.

Instagram

KG (=center of gravity above the keel; KG metres above the keel) (n) (stabil) visina sistemnog težišta broda iznad kobilice (dobivena račinom centracije), položaj sistemnog težišta iznad kobilice: The vertical position of the centre of gravity of a weight on board is expressed in terms of 'metres above the keel' (KG) In practice 'moments about the keel are taken to determina the final KG of the ship. The centre of gravity (KG) above keel depends on the distribution of cargo in the vessel.
kick ahead (v) (ship handling, navig, marine eng) dati nekoliko brzih okretaja naprijed, kratko ubrzati naprijed, kick ahead: The pilot gave a kick ahead on the engine and the vessel started to turn to port towards another terminal on the other side of the river. The pilot used the CP propeller lever to produce an engine kick ahead, then set the CP propeller lever at full astern but the vessel continued crossing the channel at a 45° angle.
kick ahead technique (n) (marine eng, seamanship) tehnika / manovra naglog ubrzanja
Control is best achieved by applying full rudder and utilizing a short but substantial burst of engine power. This is the Kick Ahead technique. The Master gave a kick ahead on the engine to stop the vessel’s astern movement.

**kick astern** (v) *(ship handling, navig, marine eng)* dati nekoliko brzih okretaja natrag, kratko uspori natrag

**kicking strap** (n) *(boating/yachting)* SYNONYM boom vang a strap or line which exerts downward pressure on the boom near where it joins the mast of a fore-and-aft rigged sailing boat

**priteg deblenjaka, vang, Italian: caricabasso del boma**: The kicking strap is used upwind in heavy winds to bend the mast and hereby opening the sail in the bottom part. It also keeps the leech from opening too much when easing the mainsheet in the gusts.

**kidnap (v) SYNONYM abduct oteti**: Five crewmembers were kidnapped from a cargo ship off the coast of .... The seafarers were released today morning and are heading home Piracy hasn’t gone away. Seafarers are still being kidnapped and taken and held hostage Nineteen crew were kidnapped and remain missing ... https://gCaptain.com

**kilowatt** /ˈkɪləʊˌwɔt/ (=kW) *(phys)* A unit of power equal to 1,000 W.

**kinetic energy** /ˈkiːnetɪk; ˈkæiːnetɪk/ *(n)* the energy of motion of a body, equal to the work it would do if it were brought to rest

**king post** (=Samson post) *(nav arch)* a strong vertical post used to support a derrick

**kink** /ˈkɪŋk/ *(seamanship)* a twist in a rope or hose *zavrnutost užeta, zasukanost, zafrkanost užeta, verinanje*: Root causes/contributory factors: 1. The fall wire had a kink in way of the failure location, believed to be a permanent stress point when the gangway is swung out to upper

knockdown

deck level; http://nibinet.com/kink-wire-rope-inspection; 2 zapetljani

konop

kink /kɪŋk/ (v) (seamanship) zapetljati (o konopu), stvoriti petlju (na užetu / savitljivoj cijevi); ... the use of rope slings to lift the jumper hose in the past had probably caused the coiled wire sleeve to be displaced, causing the hose to kink in places.

kite sail technology (n) (nav arch) dopunski pogon broda sa jedrom-zmajem: Kite sail technology will help to reduce bunker costs and aid in navigation and security surveillance

Klein scale (=K) (n) (marine eng) A temperature scale having the same size divisions as those between Celsius degrees, but having the zero point at absolute zero.

(http://www.marinedieseleurope.com/) kelvinova ljestvica (za mjerenje temperature)

klystron /ˈklaɪstrən ; kˈlaɪstrn/ (=KLY) (n) (electr) an electron tube for the amplification or generation of microwaves by means of velocity modulation klistron (radara)

KM (=transverse metacentre) (n) (stabil, nav arch) transverse metacentic height above base line; The point of intersection of the vertical through the center of buoyancy of a ship in the position of equilibrium with the vertical through the new center of buoyancy when the ship is slightly heeled poprečni metacentar KM is the distance from the keel to the metacentre.

KML (=Height of the Longitudinal Metacenter) (n) (ship handling) the distance between the metacenter and the keel measured in feet visina uzdužnog metacentra

KMT (=transverse metacentric height) (n) (stabil, nav arch) the transverse metacentric height at zero heel angle poprečna metacentarska visina: KMT is the transverse metacentric height at zero heel angle and is measured from the base line.

knee (n) (nav arch) koljeno, bracul (drvene brodice) hold-beam ~rider (sailing vessels) okvirno koljeno skladišta

knee of the head (n) (sailing vessels) kljun

knee-rider (n) (sailing vessels) okvirno koljeno

knight-head (n) (sailing vessels) COMPARE hawse-timbers the forwardmost primary main cant timbers and are fitted one either side of the apron or stomach piece (https://www.iims.org.uk/wp-content/uploads/2014/03/Glossary-of-ship-and-boat-building-terms.pdf)

pramčano rebro uz statvu

knob /nob/ (n) (marine eng) okrugla ručica za upravljanje, pomul

knob /nob/ (n) (seamanship) namotaj na kraju užeta

knockdown (n) (boating/yachting) When a sailboat is suddenly pushed onto its side, either by an
knocking

A sharp pounding sound occurring regularly in an engine.

lupanje, udaranje: The engine was assembled and tested but had to be stopped immediately when loud knocking sounds were heard from the crankcase. The knocking in the cylinders grew too heavy to keep the engine running.

knocking /ˈnɒkɪŋ/ (n) (marine eng) A sharp pounding sound occurring regularly in an engine.

knot /nɔt/ (=KT) (n) 1 (seamanship) knots are used to form eyes, or to secure a cord or rope around an object, i.e. the line is bent to itself.

knot /nɔt/ (n) 1 (seamanship) knots are used to form eyes, or to secure a cord or rope around an object, i.e. the line is bent to itself.

knuckle /ˈnʌkl/ (n) (nav arch) = chine The numbers of decks and knuckles are to be regarded only as identification numbers.
knuckle moulding /ˈnækləˌmaʊldɪŋ/ (n) (nav arch) brid krmenog okvira
knuckle rail /ˈnækl/ (n) (nav arch) brid krmenog okvira
Kort's nozzle (=Kort nozzle) (n) (nav arch) A steel tube that surrounds a propeller, directing the water and improving efficiency. Kort nozzles are engineered to improve the flow around the propellers. https://officerofthewatch.com/tools/maritime-dictionary/ Kortova sapnica (na tegljaču): ... we passed the tanker's bow so close that the starboard Kort Nozzle around the propeller came into contact momentarily with the tanker's anchor chain.
KPI (=Key Performance Indicators) (n) the indicators that focus on the aspects of organisational performance that are the most critical for the current and future success of the organisation (https://safety4sea.com/) ključni indikatori učina, ključni učinski indikatori, ključne radne karakteristike, ključni indikatori performansa
label /ˈleɪbl/ (n) natpis, etiketa, naljepnica, oznaka: The watertight door at the aft end of the superstructure carried the label “to be kept closed at sea”. Check to be sure the cylinder label matches the colour code; Look around your vessel; identify a readily accessible place for stowing lifejackets and label it; and, if appropriate, place a ‘grab bag’ containing other emergency equipment close by.
label /ˈleɪbl/ (v) označiti, obilježiti, upisati / utisnuti naziv: staviti etiketu / naljepnicu Look around your vessel; identify a readily accessible place for stowing lifejackets and label it; and, if appropriate, place a ‘grab bag’ containing other emergency equipment close by.
label cargo (n) (shipping econ) Cargo, including all commodities, requiring a label according to the provisions of the International Maritime Dangerous Goods Code. (http://www.maerskline.com/en-jm/help/shipping-glossary) teret s obveznom naljepnicom (prema Međunarodnim pravilima o prijevozu opasnih stvari morem)
labour /ˈleɪbər/ (=labor (US)) (n) 1 (shipping econ) A vessel is said to labor when she works heavily in a seaway (pounding, panting, hogging and sagging).
https://officerofthewatch.com/tools/maritime-dictionary/ radna snaga: Pneumatic tools reduce the need for manual labour and limit repetitive strain injuries. Other major labour supply countries include Greece, Japan, Norway, Russia and the United Kingdom. ~ cost cijena / troškovi radne snage, port ~ lučka radna snaga, lučki radnici, shore ~ kopnena radna snaga, lučka radna snaga: On the P and I club surveyor's advice, shore labour was employed to remove the debris from the cargo.; ~ shortage nedostatak radne snage: The government is looking to recruit over 13,000 shipbuilding overseas workers this year, as part of the plan to solve labour shortage issues in several sectors. https://splash247.com, manual ~ fizička radna snaga; 2 (navig) a vessel is labouring when she works heavily in a seaway probijati se kroz nevrijeme (o brodu); 3 mučan posao
labour through (n) (navig) a vessel is said to labor when she works heavily in a seaway (pounding, panting, hogging and sagging). ( www.USMM.org); heavy rolling or pitching while underway

labour through (n) (navig) a vessel is said to labor when she works heavily in a seaway (pounding, panting, hogging and sagging). ( www.USMM.org); heavy rolling or pitching while underway

probijati se kroz nevrijeme: The vessel's movement began to be of grave concern to the skipper as she laboured in the heavy seas, so he ordered the crew to launch the liferaft and to prepare to abandon ship.

lace-piece /leis/ (n) (nav arch, sailing vessels) umetci brida

lacing eye (n) (boating/yachting) očica jedra, očet, Italian: occhiello

lacing wire (n) (marine eng) wire that passes through holes in the blades of a turbine and damps the vibration due to friction between the wire and blade. vezna žica za ublažavanje vibracije (lopatica turbine): Lacing wire is used to dampen vibration, which can be a problem.

Failure of blading due to cracks emanating from lacing wire holes can also be a problem. http://www.marinediesels.info/Turbocharging/turbocharger_principles.htm

lack (n) nedostatak nečega, manjak: Lack of planning led to a non-compliance with company procedures, industry best practice and statutory requirements. ~ of lack of communications, manjak komunikacije, nedovoljna komunikacija: Lack of communication resulted in misunderstanding of intentions.

ladder /ˈlædə/ 1 (navig) ljestve: to judge whether or not a ladder is more than the statutory 9 meters, especially at night, so the pilot only discovers the height after climbing the ladder. access ~

pristupne ljestve: An engineer attempted to go down the access ladder between two platforms in the engine room while holding a book and pen in either hand. The upper platform on the access ladder had safety railings only on two sides, with no guard rails or chains on the tank side.

skale: They rushed to the open manhole and saw the Bosun lying motionless on the top platform of the vertical ladder, about 5 metres below the main deck.

ladder ropes (n) (seamanship) užad peljaskih ljestava: Pilot fell overboard due to ladder ropes parting Embarkation ladder ropes to be renewed at intervals of not more than three years with renewal date stencilled in its vicinity.

ladder rung (n) (nav arch) prečka ljestava, gazište ljestava: The davit cradle ladder rungs were located in very close proximity to the faulty winch brake lever, and as the seaman descended the aft davit cradle, he probably stepped on

ladders /ˈlædəz/ (n) (nav arch) = ladder ljestve, stube: traffic density and routeing prevented a change of heading to provide sufficient lee for rigging the combination ladders;

ladderwell (n) (nav arch) stepenište za pristup zapovjedničkom mostu: He fell down the ladderwell but was not injured fortunately.

laden /ˈleɪdən/ (adj) ANTONYM in ballast nakrcan: Arriving at a very busy tanker port, and with only three miles to go to the charted pilot station, a laden deep-draught VLCC, displaying the appropriate signals for a vessel constrained by her draught (CBD), was crossing a west-bound TSS lane from south to north. A partly laden tanker was shifting from the lightering berth to the main discharge berth, with a harbour pilot on board and with two tugs fast. fully ~ sasvim krcat (brod): Own
laden passage, a 45,000grt container ship on passage from St John, New Brunswick to Livorno, almost fully laden and steaming at 19 knots.

laden passage /ˈleɪdən/ (n) (shipping econ) ANTONYm ballast passage :1

plovidba s nakrcanim brodom

lag (=lag behind) (v) 1 (marine eng, navig) kasniti, zaostajati; 2 (marine eng) zaštititi, obložiti: How to lag or insulate pipes?

lagging /ˈlægɪŋ/ material providing heat insulation for a water tank, pipes, etc.; Pipe lagging is a special type of insulation fitted around water pipes. It keeps heat within the pipes - so it’s useful for saving energy as well as preventing pipes from freezing and bursting. Lagging also prevents condensation forming on cold pipes

omotavanje plaštem (cijevi, spojeva itd.), izoliranje, zaštićivanje: Pipes carrying hot water from your boiler or cylinder to your hot water taps should be insulated or lagged wherever possible.

lag time (n) (marine eng) vrijeme zaostajanja

laid (adj) položen: Several drums were laid on their sides and not vertically stowed. He was carried to the main deck and laid on a mattress to await an ambulance.

laid down (adj) (mar law) propisan, zacrtnan, utvrđen: Having made certain that the ship has arrived at the time and place laid down in the Charter-Party, the Shippers inspect the ship’s holds in order to ascertain whether they are fit to receive the particular cargo the ship General average: The principle of general average is clearly laid down in Rule A of the York- Antwerp Rules, reading: “There is a general average act when, and only when, any extraordinary Marine casualty investigator means a person or persons qualified and appointed to investigate a casualty, or incident, under procedures laid down in national legislation for the furtherance of marine safety and protection of the marine environment.

laid-off ship /ˈleɪd-/ (n) brod u raspremi

laid out (adj) 1 (mar law) SEE laid down naveden, specificiran, zacrtnan: It is worrying that virtually none of the hot work procedures laid out in the vessel’s SMS or those detailed by the contractor were complied with. The ship’s staff carried out the pre-welding checks as laid out in the Safety Management System (SMS) and associated risk assessment.; 2 (seamanship, ship handling) staviti (uže), postaviti (uže): The master laid out additional mooring ropes to restrain the vessel’s rolling at berth.

laid rope /ˈleɪd-/ (seamanship) sukanji konop, konop sastavljen od tri struka

laid teak deck /ˈleɪd-/ (boating/yachting) paluba od tikovih laminata, paluba pokrivena laminatima od tikovine

laid-up berth /ˈleɪd-/ (n) (shipping econ) mrtvi vez

laid-up ship /ˈleɪd-/ (nav arch, shipping econ) = lay off ship brod u raspremanju, brod u raspremi, brod na mrtvom vezu, Italian:

ave in disarmo: TERMINATION DUE TO VESSEL SALE, LAY-UP OR DISCONTINUANCE OF VOYAGE Where the vessel is sold, laid up, or the voyage is discontinued necessitating the termination of employment before the date indicated in the Contract, ... ... except only that the Owners may discharge an Employee: (i) upon the total loss of the vessel/unit, or (ii) when the vessel/unit has been laid up for a continuous period of at least two months, or (iii) upon the misconduct of the Employee giving rise to a
lawful entitlement to dismiss, ... Since the ship just came from being laid-up for about one year, the ladders had apparently not been used for some time and ... The boat had been launched that morning after being laid-up ashore for 6 months.

**laminate** /ˈlæmɪnet/ (n) (boating/yachting) laminat: Vessels will be laid-up or start trading in accordance with the given freight rates.

**land** 1 (n) 1 (navig, mar law) ANTONYM board: iskrcati se (član posade, putnik, peljar), iskrcati (nekoga): I sailed out straight into a typhoon, and after two days, had to deviate to land a sick engineer. The intention was to seek a sheltered anchorage, where it would have been possible to land the passengers with the vessel's tenders onto an appropriate beach. ~ the pilot

iskrcati peljara: 3. All vessels subject to compulsory pilotage shall, when entering or leaving the harbour approaches, board or land their pilot in the vicinity of Breaksea Light Float (51° 20' N, 3° 19' W); 2 (cargo handling, seamanship) iskrcati (teret, ulja, kaljužu itd.): They also cannot accept the fact that they have to land large amounts of slops to shore facilities as this costs them money. A Hard Day’s Night Narrative In the early hours of the morning, a Vivier crabber ran aground as she returned to port to land her catch after a 6-day trip. Soon after the vessel finished mooring the vessel’s crew were occupied with landing an electric motor. ~ the cargo iskrcati teret; 3 (safety)

spustiti se na brod (helikopter): .16 V: I am ready to receive you. .17 H: MV
... , I am landing. .18 H: MV ... , I am starting operation. (IMO SMCP); 4 (med, safety)
pasti na: Before he could shout a warning, the trolley, weighing over 400kg, twisted off the gantry and fell about 7.5m, landing on the ship's guardrail. Luckily, none of the seven people who were standing nearby were injured. Suddenly, he slipped and fell, landing about 8.5 metres below on top of a container in the cargo hold.

**land** 2 (n) (navig) kopno: Inexplicably the pilot failed to execute the 'wheel-over', leaving the vessel heading directly for the land ahead. At lunchtime, the skipper decided to head in to land and re-store, and elected to take the 6-hour navigation watch back to port. Although other vessels, with AIS receivers, were in the vicinity at the time, no one alerted the vessel until she was very close to land. Due to a deep depression producing severe gales, the vessel remained within the lee of the land for most of her voyage. The vessel started to drift back towards the land. In this case, the ship's limited engine power gave the master little choice other than to anchor in the shelter of the land.

land and sea breezes (n) (meteorol) obalno kruženje zraka, obalni povjetarci

land-based (adj) kopneni, obalni: Achieving zero emissions may dictate shutting down all engines and boilers during a port stay, and plugging into a land-based electrical supply system. Most seafarers of my age will probably agree that the new metric charts are not a patch on the old ones as they contain far less detail of land based objects, land contours, etc. The quality and quantity of land based equipment (communications, radars, RDF etc.)

**land breeze** (n) (meteorol) ANTONYM sea breeze a wind that blows from the land towards a body of water kopnenjak, vjetar s kopna, burin, Italian: brezza di terra

**land bridge** (n) (shipping econ) Containers moving from a foreign country by vessel, and then sent to an inland point in the U.S. or elsewhere by land transportation (rail or truck)

(kombinacija morskog i kopnenog prijevoza)

**land earth station** (LES) (n) (comm) kopnena stanica satelitskih komunikacija
land effect (n) meteorol učinak kopna
landfall /ˈlænd fɔːl/ (n) navig a ship reaching shore; first sight of land after a voyage
približavanje (broda) kopnu, Italian: atterraggio make an early ~ stići (do kopna, luke) ranije od planiranog vremena, ugledati kopno, make a ~ doploviti do kopna / obale, približavati se kopnu / obali, stići do kopna / kopna: He usually relied heavily on the radar for navigational guidance when making a landfall.

Somewhere between buoys four and five as they made landfall he fell asleep.

~ mark oznaka kopna, oznaka koja pokazuje blizinu kopna: After BXA landfall mark, the ship altered course to 300° at 8.8 knots ...

landing (n) 1 (mar law, shipping econ) iskrcaj (ljudi na) obalu: Means of boarding and landing of personnel by boat at sea with this type of vessel is not properly considered during the design stage.

2 (cargo handling) iskrcaj / spuštanje (roba / tereta na obalu): The Waterguard Officer checks the landing of all goods destined for the port and when the discharge is completed the ship is searched and the stores checked and compared with the Surplus Stor In such a case the master may and must deal with the cargo for the benefit of its owner by landing it, carrying it on, or transhipping it, as may seem best.

landing area (n) (safety) područje slijetanja (helikoptera na brodu)
landing assault ship (n) (navy) desantno-jurišni brod
landing craft (=landing ship) (n) (navy) Flat-bottomed shallow-draft vessel designed to beach, with a bow and/or stern ramp for the transfer of cargo/payload.

https://officerofthewatch.com/tools/maritime-dictionary; a naval craft intended primarily for the transport of cargo and/or personnel from ship-to-ship and ship-to-shore desantni brod, desantna brodica ~ mechanized (LCM) mehanizirano desantno plovilo: a

river boat and mechanized landing craft

landing fees (n) (shipping econ) pristojbe za korištenje zračne luke, aerodromske pristojbe
landing minesweeper (n) (navy) desantni brod-minopolagač
landing net (n) (fishing) ribolovno pomagalo kojim se prihvaća ulovljena riba
(https://ribolovnajadraniu.hr/ribicki-leksikon) mreža prihvatnica, mrežica za prihvat ribe, vresečasta mrežica za prihvat ribe, podmetač, sak za ribu, špurtil; šurtil, oprara, janka, sak, lumprara, šica, voliga;
landing place (n) 1 (ports) pristanište; 2 (ports) putnički vez (gat)
landing port (n) (shipping econ, fishing) luka ticanja: An experienced skipper of an 11 metre prawn trawler was well known around the many landing ports he used, ...

landing stage (n) 1 (ports) putničko pristanište (na rijeci, u ušću, kanalu), trajektno pristanište, putnička platforma (na rijeci, u kanalu): After alerting the port authorities, the tug headed upstream to a landing stage where the injured seaman walked ashore and was taken to hospital.

landing watercraft (n) (navy) desantno plovilo

land-locked state /ˈlændˌlɒkt/ (n) (mar law) neobalna država, kontinentalna država: The agent may even be only involved in sales and marketing which would be the case for an agent in, say, Switzerland, Austria, Zimbabwe or any other land-locked state or area.

landlord port (n) (shipping econ, mar law) COMPARE operating port COMPARE port privatization At a landlord port, the port authority builds the wharves, which it then rents or leases to a terminal operator (usually a stevedoring company). javna luka čiji se terminali, vezovi, skladišta itd. koja se daju u koncesiju korisnicima (lučka poduzeća, lučki operatori) koncesijska luka, koncesionarska luka: While public service and tool ports mostly exist to promote public interests, landlord ports attempt to balance public and private interests (https://people.hofstra.edu/geotrans/eng/ch4en/conc4en/tbl_public_privte_roles_ports.html)

landlord-tenant relationship (n) (US, mar law) Landlord-tenant law governs the rental of commercial and residential property. It is composed primarily of state statutory and common law. (https://www.law.cornell.edu/wex/landlord-tenant_law) odnos između vlasnika (npr.lučke uprave) i zakupca / unajmitelja / koncesionara (terminala, lučke obale): The Port Authority has had a lengthy landlord-tenant relationship with Maersk at its Barbour’s Cut container terminal, and the company is now free to call there or at the Port Authority’s Bayport container terminal as a common carrier, the port authority said.

land lubber (=landlubber) (n) (seamanship) a person unfamiliar with being on the sea or anyone inept on board; a non-sailor žabar, kontinentalac, nepomorac

landmark /ˈlændˌmɑːk/ (n) (navig) a distinctive reference point that can be used for navigation kopnena oznaka, Italian:punto conspicuo; punto di riferimento, istaknuta oznaka, orijentir: In confined waters, a good helmsman will always pick a prominent landmark to steer by, not use the compass. bearing to a ~ (boating/yachting) azimut u odnosu na kopnenu oznaku: Bearing to a Landmark - Simply sight on a charted feature to the side of your current course, usually a landmark or a buoy.

landmass (n) (boating/yachting) obalna crta, kopens, obala: Most navigation in inshore waters was by reference to landmasses and not astronomical fixes, Surveyors were more concerned with
depicting an accurate relationship of soundings and hydrographic features relative to the local landmass (coastline) than they were with absolute accuracy relative to latitude and longitude.

**lane** /lein/ (n) 1 (navig) plovidbeni smjer (u zoni odvojene plovidbe), staza (u zoni odvojene plovidbe): A number of vessels were proceeding in both directions within the appropriate lanes. busy shipping ~ plovidbeni smjer s gustim prometom: The accident occurred as a cargo vessel was proceeding with an unmanned bridge, across busy shipping lanes, before grounding on a mercifully benign stretch of coast. As we approached the Westbound shipping lane close East of the Casquets TSS, we saw three ships about 2nm apart in line abreast of each other approaching about 4nm away., eastboud / westbound / northbound / southbound ~ plovidbena staza u smjeru istoka / zapada / sjevera / juga: The ship was in the eastbound lane of the Strait of Gibraltar traffic separation scheme (TSS).; 2 a route used by ships or aircraft on regular journeys ruta, redovita ruta

**lane** /lein/ (n) (cargo handling, nav arch) parkirna staza (na ro-ro brodu), parkirna traka, kolovož (za vozila na ro-ro brodu) ~ metres of freight duljina parkirnih staza u metrima (za teret vozila na ro-ro brodu): The new ships will each carry 6,700 lane meters of freight, equivalent to around 450 trailers, and The newly built ro-ro vessel will have a 242-metres length, a beam of 35.2 meters and a capacity of 5,800 lane meters (https://safety4sea.com/)

**lane metres** (n) (nav arch) dužina kolnika za kamione (u ro-ro brodu): The design is aimed to be flexible for all types of RoRo cargo with a capacity of 5,800 lane meters and more than 5,000 square metres of vehicle decks. https://gCaptain.com

**lane slipping** (n) (navig, elect) proklizavanje pojasa (u sustavu DECCA)

**language** (n) (hum_resources) jezik official ~ službeni jezik, working ~ radni jezik: The ship’s working language was English., mandatory ~ obvezni jezik

**lantern** /ˈlæntən/ (n) (seamanship) svjetiljka: Once the vessel’s range was down to 4 miles, I indicated to him that I was unsure of his intentions by five short and rapid flashes on the signal lantern. The combined bow lantern then went out, possibly due to water ingress to the unit. ... a sailing yacht (under 20 metres) was motoring (or motor-sailing) with her steaming light on along with both her masthead combined lantern and ordinary sidelights at the right aspect to produce red-white-red in a vertical line.

**lanyard** /ˈlænjəd/ (boating/yachting) a short rope or cord that attaches to an item onboard a boat , usually for keeping it attached to the boat. https://www.ypiyachts.com/ priteg: Fixing a lanyard to an operating lever and pulling on it from the rope-handling position should strictly be forbidden. The lanyard was pulled back in, and fully unravelled, before a second attempt at a throw was made.

**lap joint** (n) (nav arch) preklopnii spoj: An improved design of S-seal ring (double-lap joint) was developed and tested to achieve a completely tight upper ring.

**lapping** (n) (marine eng) A method of refinishing (grinding and polishing) the surface of a component. (http://www.marinedieseleurope.com/) lepanja, uglačavanje (površine)

**lap strake** (n) (nav arch) preklopnii voj: The top lap strake always laps on the outside of the lap strake beneath.

**lap weld** (n) (marine eng) zavareni šav preklopnog spoja, preklopnii zavar

**larboard** /ˈlɑːrboʊd/ (=larboard side) (n) (seamanship, navig, archaic) = port: the left side of the ship lijeva strana broda

**large end** (n) (marine eng) COMPARE small end donja glava ojnice, donji
**kraj ojnice:** A compression plate or shim is interposed between the foot and the box of the rod large end. ~ bearing ANTONYM bottom end bearing lećeći ležaj ojnice, ležaj dolnjeg kraja ojnice: The design of the large end bearing is similar to that of the main bearing. Again, some oil is used to lubricate the large end bearings whilst the remainder leaves via the groove in the centre of this bearing and up the passage in the connecting rod to the small end. bearings, ~ bolts vijci dolnjeg kraja ojnice: The large end bolts withstand any load since they are strongly made.

lashing bar

vezivanje i pričvršćivanje tereta: All person involved in the lashing and securing of cargoes have working knowledge of the IMO Cargo Securing Manuals (CSM) ...

lashing bar 1 čelična motka za vezivanje kontejnera a motka za vezivanje tereta: On arrival at the vessel’s home port an unlashing gang immediately boarded and released the lower lashing bars and twist locks that connected the bottom two containers in each stack stowed on deck.

lashing force (n) (cargo handling) COMPARE racking force COMPARE post load COMPARE lifting force the resultant force in the lashing, causing damage to the container sila opreme za učvršćivanje kontejnera: Exceeding lashing force can be reduced by using additional lashing units.

lashing gear (=lashing equipment) (n) (cargo handling) oprema za vezivanje tereta, naprave za pričvršćivanje tereta, sredstva za pričvršćivanje tereta: Lashing gear for 600-700 containers was found to have been damaged during the incident. Lashing gear for 600-700 containers was found to have been damaged during the incident. Maintaining of the lashing equipment is to be in a good condition (https://safety4sea.com/)

lashing inventory (n) (cargo handling, seamanship) popis potrebne opreme i materijala za vezivanje tereta, popis opreme za ricavanje tereta

lashing plan (n) (cargo handling) plan vezivanja tereta

lashing ring (n) (cargo handling) kolut za vezivanje tereta: Lashing rings are mounted in the top side rails for securing the cargo.

lashing rod (n) (cargo handling) = lashing bar čelična motka za vezivanje tereta, čelična šipka za vezivanje tereta, pričvršna šipka: Two 20 foot containers placed in a 40 foot slot, leaving insufficient space for lashing rods to be fitted to the inward facing ends.

lashings /ˈlæʃɪŋz/ oprema za učvršćivanje (tereta), rice: The lashings on the deck cargo are secured correctly and the seals on the hatch covers are weathertight. timber ~ drvna oprema za učvršćivanje, chain cargo ~ lančana oprema za učvršćivanje tereta, lanac za vezivanje tereta, lančane rice za teret: Assisted by two able seamen, the chief officer managed to secure the anchor cables using chain cargo lashings.

LASH ship (n) (nav arch) brod za prijevoz teglenica (maona, barža): A serious injury occurred to a member of crew on board the LASH vessel.

last /lɑːst/ (v) trajati, potrajati: This operation lasted nearly eight minutes, by which time the vessel was very close to the breakwater and nearly parallel with it. The whole incident lasted about one hour.
last known position (LKP) (=LKP) Last witnessed, reported, or computed dead reckoning position of a distressed craft. (IAMSAR/Camsar2014) zadnja poznata pozicija (u operaciji SAR)
latch /lætʃ/ (n) 1 zaporka; 2 (marine eng) zubac: These must be adjusted optimally to give a smooth and controlled speed of closing, and fail-proof latch activation; 3 potiskivač; 4 skakalica
lateen rigging /ləˈtiːn/ (boating/yachting) latinska oputa

https://commons.wikimedia.org/wiki/File:Lateen_rigging_fig_6.png
lateen sail /ləˈtiːn/ (boating/yachting) a triangular sail set on a long yard mounted at an angle on the mast, and running in a fore-and-aft direction. latinsko jedro
latent defect /ˈleɪənt/ (mar law) hidden defect (or the very nature) of a good or property which of itself is the cause of (or contributes to) its deterioration, damage, or wastage. Such characteristics or defects make the item an unacceptable risk to a carrier or insurer. If the characteristic or defect is not visible, and if the carrier or the insurer has not been warned of it, neither of them may be liable for any claim arising solely out of the inherent vice. (Business Dictionary) skrivena mana: This could be due to a latent defect, as such an occurrence is unusual under normal usage.
laten heat /ˈleɪənt/ (marine eng) skrivena toplina, vezana toplina
lateral buoy (n) (navig) bočna oznaka, lateralna oznaka, lateralna plutača:
After being on watch for almost 3 hours, the chief officer suddenly noticed a lateral buoy close on the vessel’s starboard side. The port was entered through a channel marked by pairs of lateral buoys numbered from 1 at the seaward end to 16 near the outer basin. The ship’s forward part made contact with a green lateral buoy marking the north side of the channel.
lateral buoyage system (n) (navig) a system of aids to navigation in which characteristics of buoys and beacons indicate the sides of the channel or route relative to a conventional direction of buoyage (usually upstream) lateralni sustav označavanja
lateral marks (n) (navig) sea marks / buoys used to mark the sides of well-defined, navigable channels: bočne oznake, lateralne oznake: Remember that, when navigating in and around harbours, Lateral Marks are coloured as if you are approaching from the sea. That is, when entering port,
you keep the port-hand marks on the port side of your vessel. When proceeding to seaward, you therefore leave them to starboard. http://www.otenmaritime.com/iala-system-of-buoyage/lateral-marks IALA ~ bočne oznake prema IALA-1, IALA B ~ oznake kanala prema IALA-i, port-hand mark oznake s lijeve strane, straboard-hand ~ oznake s desne

latex /ˈleɪtɛks/ (n) (cargo) latex
lath /læθ/ (n) (cargo) letva, motka (debljine 1)
lathe /leɪθ/ (n) (marine eng) a machine used for various purposes such as manufacturing, cutting, shaping and checking different spares and parts of the ship.(https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/)
tokarski stroj, drebang; njem. Drehbank: Injuries to lathe operators - A crewmember was engaged in lathe work in the ship's workshop.
latitude /ˈleɪti juːd/ (n) (navig) geografska širina: He gave a local position, but did not include a latitude and longitude. North of latitude 55N an increasingswell from the north west was experienced. This was done using the latitude and longitude readout of the radar cursor using the co-ordinates of the centre of the anchorage circle from the chart. When the nearer one was little over six miles away, I heard a call from one of them, - no name or call sign, just a GPS latitude and longitude to four places of decimals, calling the ship on my starboard bow. ... Amendment (2) : In addition, the Outer Pulley Lighted Buoy has been moved 25 metres to a new assigned position of Latitude 51° 04'.338N., Longitude 04° 12'.920W. 3 Amendment : Following review of the aids to navigation in the approaches to Bideford, ... angle of ~ kut geografske širine, measure the ~ mjerenje geografske širine, difference of ~ razlika geografske širine
latter /ˈlætə/ (pron) COMPARE former drugi (od dva), potonji: the latter ship was involved in another collision potonji (drugi) brod imao je još jedan sudar The inward vessel came up astern of me and asked the pilot cutter if he should slot in behind me or continue towards the cutter, he was advised to do the latter and it was left to me to contact him and ask him to slot in behind me. Corrosive wear control can be based on either feed rate control or control of the cylinder oil BN; the latter approach calls for two or more lube oil tanks or blending facilities onboard.
lattice /ˈlætɪs/ (n) (navig, marine eng) mreža, rešetka (na karti): The results would be the hyperbolic lattice shown in Figure 1206b. When he interpolates in sight reduction or lattice tables, he assumes a linear (constant-rate) change between tabulated values.
launch /ˈlɔːntʃ/ (v) 1 (nav arch) porinuti (brod): The tanker was launched in Split on 25th July 2009 After the ship was launched, the QE2 was fitted out with a steam turbine propulsion system ... ~ sideways porinuti bočno: The MV Ireland (Nb. 435), a dedicated cement carrier, was sideways launched March 19 at the company’s Westerbroak shipyard in northeast Netherlands. ; 2 (seamanship) spustiti u vodu (brodicu za spašavanje, splav): The crew was able to launch all of
the vessel’s liferafts successfully in this manner. If the main release device fails to launch the lifeboat, the assigned crew member operates the emergency lifeboat release lever. Hold on to the ropes or to your seat when launching the lifeboat. A safety standby vessel was carrying out a regular drill to launch the Fast Rescue Craft. 3 (safety) lansirati (signalnu raketu); 4 (navy) lansirati (raketu) ~ a missile lansirati raketu; 5 (safety) započeti (operaciju spašavanja), aktivirati operaciju spašavanja: There was a lack of skill in dealing with an emergency situation: the crew took too long to launch a rescue operation.

launch /lɑːntʃ/ (n) (nav arch) a small power or motor boat, usually a pilot launch motorna brodica (agenta, lučkih vlasti itd.), peljarska brodica (čamac), pilotina, lanča; Italian: lancia, Italian: scialuppa: A harbor pilot was transferring from the outbound containership to the inbound tanker by launch when the vessels collided at the entrance to the port’s approach channel. A launch arrived to pick up disembarking crew of 10 persons who were leaving the vessel by pilot ladder (with combination of gangway). A launch was to transfer two persons to a vessel at anchor, via the accommodation ladder lowered with its bottom platform near the water level. The vessel was at anchor and a launch had been arranged for shore leave. Spares or stores have to be supplied by launch at anchorage. Powered by twin Scania diesel engines, the launch had a service speed of approximately 15kts. www.gov.uk/maib pilot ~ peljarska brodica, pilotina, lanča: 201361 Pilot ladder gives way A pilot was about to disembark from a small cargo vessel in benign weather conditions, with a good lee, and the pilot launch alongside and under control. The pilot launch made two attempts to close in to offer me assistance, but there was too much sea to let him get close in with safety and I asked him to stand off. A pilot was about to disembark from a small cargo vessel in benign weather conditions, with a good lee, and the pilot launch alongside and under control. Two pilot vessels available, one has royal blue hull, white superstructure and the other, a fast pilot launch, is painted international orange. http://wellsmarineinsurance.com/vessels/pilot-vessels/

launch /lɑːntʃ/ (n) (nav arch) the act of having the ship slip (stem forst or sideways) from the slipways in a shipyard and let it float porinuće broda sideways ~: Launching a ship sideways avoids the need to have a water channel more than half as deep as the ship is long. the sideways launch just puts the ship more or less in a condition it will find itself in a storm, and it ought right itself. bočno porinuće broda

launch a service (v) (shipping econ) otvoriti linijsku službu, otvoriti linijski servis, otvoriti liniju: APL launched the Atlantic Gulf Express Service – a direct Trans-Atlantic service which connects the key markets of North Europe, US South Atlantic and Gulf of Mexico.

launching (n) 1 (nav arch) the operation of transferring a vessel from the building ways into the water porinuće, Italian: varo: The launching of the new ship involves sliding the ship into the water from an inclined slipway. side ~ bočno porinuće: In the side oiled side launch system the sidewalk extends into the water and the ship slides into the water using the sidewalk. In the second method the sidewalk doesn’t go until the water and the ship along with the frame slides into the water., sidewalk ~ bočno porinuće, launching end on (nav arch) porinuće
launch the liferaft

krmom: The most popular and widely accepted ship launching method is the end-on launch. In this launch method, the new ship is allowed to slide into the water with its stern entering the water first, longitudinal ~ uzdužno porinuće, tradicionalno porinuće (na klizajućem navozu / saonicama): The longitudinal oiled slideway launching is one of the oldest forms of launching systems, ship ~ porinuće broda: Traditionally, ship launching in the water is done using four main types of methods: Gravitational type launching, Floating-out type launching, Mechanical Type launching, Airbag launching.

http://www.marineinsight.com/guidelines/4-types-of-ship-launching-methods/ Ship naming and launching procedures are arranged to provide a ship hull with her identity, ~ ceremony

svečanost porinuća broda: Various guests gathered at the launching ceremony, end ~ uzdužno porinuće (krmom ili, rjeđe, pramcem)

http://www.nauticexpo.com/prod/eversafe-marine-engineering-company/product-35865-262602.html; 2 (safety, nav arch) spuštanje brodice za spašavanje u more: ... a dangerous occurrence (near miss incident) happened during the annual servicing and inspection of the lifeboat and its launching gear in port. ~ gear uređaj za spuštanje brodice za spašavanje, ~ appliances sredstva za spuštanje i dizanje brodica / splavi za spašavanje, uređaji za spuštanje i dizanje brodica / splavi za spašavanje: No one should enter the lifeboats or carry out any maintenance work on lifeboats and associated launching appliances without clear instructions and the presence of a senior officer. Recommendations have been made to the vessel’s managers with the scope of reviewing and updating compliance with procedures established in the IMO guidelines, the ISM Code and SOLAS regulations during periodic servicing and maintenance of lifeboats, launching appliances and on-load release gear.

launch the liferaft (v) (safety) spustiti splav za spašavanje (s broda): The crew put on lifejackets and immersion suits, and then launched the liferaft. The vessel was going down rapidly, but the skipper managed to launch the liferaft and board it along with one of his crewmen.

launch the ship (v) (nav arch) porinuti brod: The ultra-luxury cruise ship was launched today at Fincantieri’s shipyard in Marghera, Venice. The keel of the first nuclear-powered passenger-cargo ship, the Savannah, was laid on May 22, 1958, and the ship was launched in 1960.

laundry /ˈloʊndrɪ/ (n) (nav arch) pramonica (brodska): On detecting the fire, the laundry was evacuated and door was closed. Fires in commercial laundry facilities, hospitals and laundromats have been attributed to the spontaneous ignition of cotton or linen that has been dried and then either stacked officers’ ~ pramonica za časnite, crew ~ pramonica za posadu
law /lo:/ (n) (mar law) 1 zakon under the ~ prema zakonu, u skladu sa zakonom: Under the law of salvage, strangers to the maritime venture who succeed in saving maritime property from loss or damage from perils of the sea or other waters are entitled to an award for their efforts and have a maritime lien on the salvaged property therefor. A «Straight» Bill of Lading and the Sea Waybill are consigned to a named consignee, and are therefore nonnegotiable under the law of most, but not all countries in the case of Straight Bills of Lading., maritime ~ = maritime law pomorsko pravo: Maritime law governs many of the insurance claims relating to ships and cargo, civil matters between shipowners, seamen and passengers, and piracy.; 2 pravo question of ~ pravna stvar, stvar prava, spor, public international ~ međunarodno javno pravo: Admiralty law is distinguished from the Law of the Sea, which is a body of public international law dealing with navigational rights, mineral rights, jurisdiction over coastal waters and international law governing relationships between nations.

Law and Arbitration (mar law) Zakonska nadležnost i arbitraža (za sporove iz ugovora, ili ugovor o iskorištavanju broda)
law court (n) (mar law) sud: Place of Arbitration - in most charterparties is affected through London or New York, with organisations like the London Maritime Arbitrators Association (LMAA) or law courts like the Commercial Division of the High Court of Justice.

lawful /'lɔːful/ (adj) 1 zakonit, u skladu sa zakonom: The seafarers shall conduct themselves in an orderly, faithful, honest and sober manner, and shall at all times be diligent in their respective duties and obedient to the lawful commands of the Master, or of any person who shall lawfully succeed him, and their superior officers, in everything relating to the vessel, . f lading also provides the name of the ship and its owner, and where and when goods were loaded As a document of title, the bill of lading allows the lawful possessor of the bill to be considered the lawful owner of the cargo described on it Insubordination or any act of disobedience to lawful orders of a superior officer.; 2 pravno / zakonski dopustiv: If the charterparty merely describes the cargo to be carried as lawful merchandise, the charterers must provide cargo which may be lawfully shipped from the port of loading and lawfully carried to and discharged at the port of destination.

Law of the Sea (n) (mar law) pravo mora: Admiralty law is distinguished from the Law of the Sea, which is a body of public international law dealing with navigational rights, mineral rights, jurisdiction Law of the Sea Law of the Sea is a branch of international law concerned with public order at sea. Laws between nations governing such things as national versus international waters are considered public international law and are known as the Law of the Seas. UN International Tribunal for the ~ Međunarodni sud prava mora Ujedinjenih naroda: If such efforts prove unsuccessful, a country may, subject to some exceptions, refer the dispute for compulsory settlement by the UN International Tribunal for the Law of the Sea (located in Hamburg, Ger.), by arbitration, or by the ICJ. http://en.wikipedia

laws of flotation (n) (stabil) zakoni plovnosti Archimedes' principle when a body is wholly or partially immersed in a liquid, it experiences an uphurt (apparent loss of mass - termed Buoyancy force (Bf), equal to the mass of liquid displaced (Rhodes, Ship's Stability, Seamanship,2003) Archimedov zakon, law of flotation the law of flotation states that every floating body displaces its own mass of the liquid in which it floats zakon uzgona, draught and feeboard gaz i nadvođe, reserve buoyancy the volume of the enclosed spaces above the waterline rezerva plovnosti

lawsuit (n) (mar law) tužba: Before pursuing a Jones Act lawsuit, do everything you need to prepare your case after you recover from your work-related injuries In the lawsuit the owner seeks damages,
The bondholders of the owner have made a consensus at a meeting to file lawsuits against the company after the company defaulted on bond payments. A claim can be handled by 1) direct negotiations with your employer or insurance adjuster; 2) filing a lawsuit; or 3) legal proceedings before a state or federal agency. You can file a lawsuit against the company, even if you get off the ship in another country.
approved the hot work, which was conditional upon the contractor while our tanker was moored alongside a lay-by berth for minor repairs, the attending port state control (PSC) officers observed work being carried out in an enclosed space (slop tank) ...

LAYCAN /ˈleɪkæn/ (=layday cancelling date; laydays cancelling; laycan; L/C) (n) (shipping econ, mar law) (mar law) = cancelling date COMPARE laydays

COMPARE laytime laydays/cancelling or, as it is often called, the “laycan” is the period within which the vessel must be presented at the agreed port or place.

(http://generalcargoship.com/charter-party-laycan.html); A term used in a voyage charterparty, referring to the period of time between the commencement of laytime (being the beginning of the laydays when the charterer must commence loading the cargo), and the cancelling date (being the date after which the charterer may repudiate the charterparty if the ship has not then arrived at the specified port or place of loading). (Tetley); In charter parties and related documents the laycan will usually be written as (for example) “10/20 May”, meaning 10 May is the first layday while 20 May is the cancelling date. Period during which the shipowner must tender notice of readiness to the charterer that the ship has arrived at the pod of loading and is ready to load, This period is expressed as two dates, for example laydays 25 March canceling 2 April or, when abbreviated as laycan, laycan 25 March/2 April. (http://www.leewardcorp.com/es/); Period during which the shipowner must tender notice of readiness to the charterer that the ship has arrived at the pod of loading and is ready to load, http://www.tkmglobal.net/chartering_L.HTM dan prestanka stojnica (rok brodaru za dolazak broda u luku prema ugovoru o najmu broda), dan kada se čarter ugovor (privremeno) prekida (ako brod dođe u luku / na vez prema ugovoru o najmu broda): In general chartering parlance, the laydays along with the cancelling is called “laycan”. The NOR (Notice of Readiness) must be given within the ‘laycan’ period and before laytime can commence. 22/23333 ALL DETAILS ABOUT FOR ACCOUNT: FCC CARGO/QTY: 50,000 MTS IRON ORE IN BULK 10 PCT MOLOO 1SBP PORT HEDLAND, AUSTRALIA / ISP LIANYUNGANG, CHINA LAYCAN 0001 HRS 15SEPT/2400 HRS 22SEPT, 2001 (LOCAL TIME). The cancelling date (Box 21, clause 9) defines the other end of this period known as the “laydays” after which the Charterers have the option to cancel the charter party if the ship has still not presented herself for loading. The period of Laycan is expressed as two dates, for example laydays 25 March canceling 2 April or, when abbreviated as laycan, laycan 25 March/2 April. http://www.tkmglobal.net/chartering_L.HTM

layday cancelling date (=LAYCAN) (n) (mar law) dan prestanka stojnica, dan kada se čarter ugovor (privremeno) prekida

laydays /ˈleɪdez/ (=lay days) (n) (mar law) COMPARE laytime COMPARE demurage COMPARE laytime = layday cancelling date, COMPARE LAYCAN In a voyage charterparty, the period of time (the laydays) agreed between the parties during which the shipowner will make and keep the vessel available to the voyage charterer for loading or discharging without payment additional to the freight

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm); Laydays refers to a period of specified days (e.g. “Jan 7/16”) during which owners must present the vessel for loading. Laydays should not be confused with laytime, which is the period allowed to the charterers for loading and/or discharging without payment additional to the freight. (http://generalcargoship.com/charter-party-laycan.html); broj dana dopuštenih brodaru za dolazak njegova broda u luku radi ukrcaja/iskrcaja, prema ugovoru o najmu broda / charterparty) stojnice (broda / brodara), dani određeni brodu za ukrcaj/iskrcaj tereta, stalije; Italian:staliie: Laydays should be counted from the time stipulated in the C/P. If he takes longer to load or discharge than the number of laydays allowed, he must pay demurrage at so much a day. The
laydays commence within 6 hours on the day the notice of readiness has been delivered. This notice must be given before the laydays start to count, and may not be given until the ship is actually ready in all respects.

lay down\(^1\) (v) (mar law) propisati, utvrditi, odrediti: This requirement is laid down in the International Maritime Organization’s “Life-Saving Appliances including LSA Code 2010 Edition.” ~ in the Charter Party odrediti / utvrditi / predvidjeti ugovorom o prijevozu, laid down in the COLREGS (mar law, navig) utvrđen u pravilima o izbjegavanju sudara, propisan u pravilima o izbjegavanju sudara, određen u pravilima o izbjegavanju sudara: Use the appropriate signals laid down in the ColRegs, and, if necessary, initiate a manoeuvre under Rule 17.

lay down\(^2\) (v) 1 (navig) odrediti, propisati: The York-Antwerp rules lay down the conditions which must apply before losses and expenditures come under general average, and how contributions are to be calculated and paid. So in the interest of safety of life and cargo at sea, I would request that the concerned authorities like IMO lay down compulsory rules for shippers to provide required information and certificates, without which the vessel would be unable to sail. ; 2 (nav arch) položiti (kobilicu) ~ the keel

layer /ˈleɪər/ (n) 1 sloj: Often, these washers are either too hard (due to age) or covered by thick layer of paint which makes the rubber washer ineffective. ; 2 naslaga: There was a layer of oil on the surface of the bilge water – but then that was not unusual. ; 3 (cargo handling) red (kontejnera) po visini: As a container was being loaded on to the 3rd layer by stevedores a twistlock fell from a height of about 8 metres.

laying the keel (n) (nav arch) polaganje kobilice: Laying the keel represents the beginning of a ship’s construction. Much activity, such as design, ordering of material, and initial fabrication, takes place prior to laying of the keel, so in many respects that date is one of convenience

layline (n) (boating/yachting) When zigzagging upwind, a layline is the last leg or bearing from which a vessel can reach her destination on a close-hauled course.

lay off (v) 1 (navig) ucrtati (kurs) ~ the course ucrtati kurs: Lay off the required course to make good “AB”; 2 (shipping econ) otpustiti (radnike): The Company is going to lay off up to 150 offshore workers due to the contract termination. Crews are being laid off due to the crisis.

lay off ship (n) (mar law, nav arch) brod u raspremi

layout /ˈleɪət/ (n) 1 (nav arch, marine eng) nacrt, opći nacrt: Due to the layout of the wheelhouse, the skipper was unable to see out of the forward windows once he had left the wheel position, ... The vessel’s layout was conventional: a fishing winch amidships, just aft of the forward wheelhouse, and a net drum mounted on a stern gantry. This ineffective use of resources was due to a lack of understanding of the construction and layout of the ship and, consequently, the location of the seat of the fire. The tank layout did not match the tanks on board.

http://www.divebuddy.com/divesite_photo/3678/drawing-ship-layout-top-side-view/ ; 2 rasprođen; 3 (marine eng, nav arch) situacijski nacrt, situacijski plan, situacioni nacrt: All engineers should be familiar with the engine room pipe layout and the crew should be instructed in the correct
procedures for each operation. A combination of the cargo vessel’s large stern ramp and aft mooring **deck layout** meant that she did not have an aft centreline fairlead: **The layout of the central bridge console** prevented the chief officer from utilising the ECDIS display to support the Master during pilotage. **The general layout of the engine** is conventional with wet cast iron liners and an underslung crankshaft.

**lay out** (v) 1 (mar law) **odrediti, specificirati, utvrdati:** This should be clearly **laid out in the vessel’s SMS.** To prevent the risk of self-ignition, the following precautions should be taken as **laid out in the Code of Safe Practice for Solid Bulk Cargo 200.** 2 (safety, seamanship) **postaviti, iznijeti:** The crew had exercised for a cargo hold fire, and immediately laid out the fire hoses for boundary cooling as the master contacted the coastguard. The master **laid out additional mooring ropes** to restrain the vessel’s rolling at berth.

**lay the course** (v) **ucrati kurs:** The third mate **laid a course** on the relevant paper chart.

**lay the keel** (v) **položiti kobilicu:** The keel was **laid** on May 15th. The Shipyard has **laid the keel** for the first product tanker **The Shipyard has laid the keel** for a 84,000 cbm Very Large Gas Carrier.

**lay the rope** (v) **(seamanship)** The direction of the twist of the wires in a strand and to the direction that the strands are laid in the rope. **sukati konop:** Usually a wire rope consists of a core member, around which a **number of multi wired strands are laid** or helically bent. An assembly of several (usually six) single layer stranded **ropes** (referred to as unit ropes) **laid helically** over a core (usually a seventh single layer stranded rope).

**laytime** /ˈleɪtaɪm/ (n) **(mar law)** **COMPARE laydays** **COMPARE LAYCAN** Laytime clause states the period of time allowed for loading and for discharging. It states the conditions under which Notice of Readiness (NOR) may be tendered. The usual amount of total time allowed to charterers in the tanker trades is 72 running hours. (www.euronav.com); Time allowed by the shipowner to the voyage charterer or Bill of Lading holder in which to load and / or discharge the cargo. It is expressed as a number of days or hours or as a number or tons per day. (http://www.leewardcorp.com/es/) **stojnice (čarterera / naručitelja), vrijeme čartererovih stojnica:** ... Ice, blockades, congestion, tides, etc., could prevent the ship reaching the agreed destination, and with the above wording in the charterparty, **laytime would count** as soon as the ship reached an alternative destination allowed by the phrase: as near thereto as she may safely get. Strikes in a port can be excluded from laytime calculations, whereas, strikes only affecting the ship in question could be included in the total **laytime.** The NOR (Notice of Readiness) must be given within the ‘laycan’ period and **before laytime can commence.** **customary ~ uobičajeno vrijeme stojnica, commencement of ~ početak stojnica:** There is normally a provision in the Charter-Party for the **commencement of laytime,** which is often at a certain hour after notice of readiness has been tendered by the master, a provision for periods when laytime does not count, for instance during bad weather, weekends or holidays or a provision for **laytime being exceeded,** when demurrage or damages for detention become payable, or not being fully used, when despatch may be payable.

http://www.leewardcorp.com/es/

**lay two anchors** (v) **(boating/yachting, seamanship)** **postaviti dva sidra**

**lay up** (v) 1 (nav arch) **staviti (brod) u raspremu, poslati u raspremu;** 2 (shipping econ) to **lay-up a vessel** means to stop using it for a certain period **staviti brod na mrtvi vez:** The owner was pleased with the RIB’s performance, but as the weather deteriorated during the latter part of the year, he decided to **lay up the boat** for the winter. The boat had been launched that morning after being **laid-up ashore** for 6 months. The rate of marine growth will be more prominent if a vessel is **laid up for some time.** A high speed ferry was being prepared for a seasonal charter **after a period**
of winter lay-up.

lay-up (=lay-up; lay up) (n) 1 (shipping econ) mrtvi vez: The reasons for lay-up might be to wait for a better scrap price or to deactivate the vessel due to over-capacities with the intention of activating it again later. Prior to lay-up or issue of a declaration, all machinery should be established to be in normal good condition. be in ~ biti na mrtvom vezu (o brodu): In February 101 of their offshore vessels were in lay-up., ~ period vrijeme broda na mrtvom vezu, hot ~ topli pogon broda na mrtvom vezu: The reasons for lay-up might be to wait for a better scrap price or to deactivate the vessel due to over-capacities with the intention of activating it again later. In a hot lay-up condition the ship engines and machinery keep running so that the re-commissioning of the vessel can be carried out very quickly, and the vessel’s preservation is much easier and cheaper compared to a cold lay-up., cold ~ hladni pogon broda na mrtvom vezu: In a cold lay-up vessels are only supplied with emergency energy for lights, windlass / mooring winches and fire extinguishing – often by portable generators installed on deck., place for ~ mjesto mrtvog veza: Ideal places for lay-up have good grounds for anchoring or mooring, and almost no current or heavy winds (e.g. should be outside of the typhoon belt). Furthermore it should be legal and authorized by the local port authority.

lay up berth (n) 1 (shipping econ) mrtvi vez, vez za duži boravak brodova bez ugovora o plovidbi: Just before 2000, tugs arrived to assist in bringing the vessel back to the lay-up berth. Following the accident, he ship was manoeuvred onto a lay-by berth to allow the resulting damage to be assessed.; 2 (nav arch) rasprema broda be in ~ biti u raspremi, take a ship out of ~ izvaditi brod iz raspreme: The ship is being taken out of layup for the new contract. Splash24/7 <splash=asiashippingmedia.com@mail245.suw101.mcdlv.net>, come out of ~ izači iz rasprema: The ship came out of layup mid-2017 for a 60-day contract with Maersk Oil. Splash24/7 <splash=asiashippingmedia.com@mail245.suw101.mcdlv.net>

lay up the engine (n) (boating/yachting) konzervirati motor

lazarette (=lazaret) (n) 1 (boating/yachting, nav arch) a storage space below the deck in the cockpit; a space in a ship between decks used as a storeroom krmena sprema, krmena jama: The fire disabled the VHF radio, and flames were coming out of the locker next to the lazarette of the small passenger ship. During the return trip, smoke began filling the lazarette, main deck, and engine room. The crew knew that there was a leak somewhere in the lazarette, which required them to regularly pump out the space. https://safety4sea.com

https://www.tributeboats.com/; 2 (med, safety) a building or a ship used for detention in quarantine lazaret, karantena

lazyjack /ˈleɪziˌdʒæk/ (=lazy jack) (n) (boating/yachting) sustav za prikupljanje jedra pri spuštanju na deblenjak; An arrangement of lines designed to cradle and stow a sail along the boom
when not in use http://www.aps ltd.com/aps-advisor/sailing-terms-glossary/ ubirač jedra (po deblenjaku / bumu), lazyjack (čit. lejzidžek): The lazyjacks hold the main securely, even in a strong breeze. Make sure there is enough spare line to allow the lazyjacks to be slackened enough to pull them forward and secure them out of the way of the sail. lazybag tenda ubirača jedra: But if it’s poorly designed or made, a lazybag can flop around annoyingly when you’re under sail, ...

lazzaretto (=lazaret; lazarette) (n) 1 (nav arch, seamanship) a low headroom space below decks used for provisions or spare parts, or miscellaneous storage http://www.officerofthewatch.com/tools/maritime-dictionary/lazaret; 2 (med) a quarantine building or ship

LB (=lifeboat) (n) (nav arch) brodica za spašavanje, čamac za spašavanje
LBP (=Length between Perpendiculars; lbp; lpp; LBP; LPP) = length between perpendiculars (LBP) dužina između okomica: Typically LCB is located slightly aft of midship (Lpp/2).

LCB (=Longitudinal Center of Buoyancy) (n) (stabil) the longitudinal position of the centre of buoyancy uzdužno težište broda, udaljenost sistemnog težišta od sredine broda: Position of LCB is very important for the hull resistance. The longitudinal position of the center of buoyancy is measured in feet from either the forward perpendicular or the midships section.

LCF (=Longitudinal Center of Flotation) (n) (stabil) the longitudinal position of the centre of flotation; LCF is the point at which the ship trims. It is the geometric center of the waterline plane. udaljenost centra plutanja od sredine broda: LCF can be calculated if the exact shape of the waterplane is known or it may be obtained from the curves of form.

LCG (=longitudinal center of gravity) (n) (stabil) LCG is the longitudinal distance between center of gravity and frame #0. udaljenost sistemnog težišta od sredine broda (od glavnog rebra broda): The longitudinal position of the center of gravity is measured in feet from the midships.

LCL /ˈɛl sɪ: ɛl/ (=Less than container load) (n) (mar law, shipping econ) COMPARE
F.C.L. = less than container load  Less than Container Load refers to the freight forwarders shipping product where cargo from multiple customers is consolidated into one standard marine container. (https://www.transporteca.com/lcl-less-container-load/); Here the carrier takes the goods from two or more shippers, packs them into the container and seals it.

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; Common term for an amount of goods to be shipped and which do not fill an entire container (http://www.maerskline.com/en-jm/help/shipping-glossary); Cargo failing to qualify for freight rates given to a standard shipping container due to insufficient quantity or weight.

(http://thelawdictionary.org/less-than-container-load-lcl/); Consignment of cargo, which is insufficient to fill a shipping container. It is grouped with other consignment for the same destination in a container at a container freight station. (http://www.leewardcorp.com/es/); Consignment of cargo, which is insufficient to fill a shipping container. It is grouped with other consignment for the same destination in a container at a container freight station  http://www.thelawdictionary.org/less-than-container-load-lcl/; Consignment of cargo, which is insufficient to fill a shipping container. It is grouped with other consignment for the same destination in a container at a container freight station

LCL consolidated by Consolidator  (n) (logist, shipping econ) zbirni kontejner (kontejner s robom koja glasi na više različitih primatelja): Ocean rates for LCL are commonly higher on a per-unit basis than for a full container load. Thus, consolidation of several LCL loads from different places or shippers into a full container can save on costs. Less than Container Load (LCL) is a service offered by freight forwarding companies, allowing shippers to book only part of a container. The smallest standard marine container carries a volume of 33 cubic metres or a weight of 28 tons – so an LCL service should be considered for any shipment considerably smaller than this. With an LCL shipment, you pay for your load to be shipped in a container with one or more loads from other customers of the freight transport provider. LCL lets you ship in smaller volumes so that you can keep your inventory lean. Instead of purchasing large quantities from suppliers, you can use LCL to keep a steady flow of inventory in smaller quantities. That frees up cash flow for other purchases. When an FCL shipment arrives at port, it's unloaded from the vessel and delivered to the buyer. It's more complicated for LCL: someone has to consolidate different shipments, process multiple documents per container, and then sort goods for each customer (https://www.flexport.com/learn/ship-by-lcl-or-fcl/)

LCL consolidated by Consolidator  (n) (logist, shipping econ) zbirni teret za kontejnere koji prikuplja konsolidacijsko skladište: In the case of consolidation cargo, the consolidators issue their House Bills of Lading to the shippers and secure a Master Bill of Lading from the shipping line for the container which is booked with the line as an FCL and which will show them as a shipper on the lines bill of lading

https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/
LCL consolidated by Line (logist, shipping econ) zbirni teret za kontejnere

koji prikuplja brodar

LD (=Lethal Dose; Lethal Concentration) (n) (cargo, safety, chem) a rough indication of the degree of toxicity of a substance smrtonosna doza, smrtonosna koncentracija.

~ 50 values pedesetpostotna doza smrtnosti: The "poisonousness" of a substance is usually expressed in terms of LD 50- values, Lethal Dose (sometimes LC 509 Lethal Concentration).

http://www.chemicaltankerguide.com/risk-with-cargo-contact.html

lead /liːd/; ked; kéd/ (v) voditi: How is the cable leading? The cable is leading ahead / astern / to port / to starboard / round the bow (IMO SMCP). cable ~ing astern (seamanship) sidreni lanac vodi prema krmi, sidreni lanac gleda prema krmi

lead2 (n) (seamanship) dužina užeta za privezivanje od broda do bitve na obali raspon (užeta za privezivanje): The lead of all mooring lines was relatively short as the vessel was not berthed with her full length alongside the berth.
lead /lɛd/ (=plumbum (Pb)) (n) (chem) olovo
lead barge (n) (navig) vodeća teglenica (maona, barža), prva teglenica: The dolphins and a lead barge were damaged. http://gCaptain.com
leader /ˈliːdə/ (n) (fishing) A leader is a length of line attached to the end of your main fishing line. It’s this separate length to which rigs or lures are tied.; A leader is a section of line that ties directly to the hook or lure, and then to a weight, swivel or the main line.; završni dio predveza koji spoja udicu s prevezom (rig) i osnovnom strunom (main line) (https://ribolovnadjadrnu.hr/ribski-leksikon) prama, upredenica predveza, najlon predveza, pioka; pjok, fila, pic, brk: There are two main reasons for using leader line. Firstly it can be used to provide increased protection against the sharp edges of teeth, rocks, reef or shell-covered pylons. Second, using specific types of leader can make it difficult for fish to see the line connected to your bait or lure. In order to attach a leader to braided fishing line for drop shotting, it’s important to pay attention to the diameter of the braid and leader wire ~

žičana prama

leader line /ˈliːdə,lain/ (n) (boating/yachting) konopac za provlačenje šireg užeta (npr. podigača / gindaca)
leading lights (n) (navig) = leads A pair of lights or day marks deliberately placed to mark a narrow channel. svjetla pokrivenog smjera, pokriveni smjer, Italian: allineamento d’ingresso: The ferry passed to the north of the fairway buoy, and about 15 minutes later, was still about 0.5 cable north of the intended track of 236°, indicated by leading lights. At this point, the master altered course about 25° to port, to bring the ship further south. As they progressed in the gyro was checked against leading lights and found to be out by up to 8°. In this case, a suitable passage should have consisted of setting a course that ensured the vessel was in the safe sector of the leading light at least 1 mile from the harbour entrance. While still looking for the leading lights, the OOW glanced at the echo sounder and noticed that the water depth was decreasing.
leading line (n) (navig) On a nautical chart, a straight line, drawn through leading marks. A ship moving along such line will clear certain dangers or remain in the best channel. (http://www.sailingissues.com/navcourse9.html) crta pokrivenog smjera: On a nautical chart, a straight line, drawn through leading marks. A ship moving along such line will clear certain dangers or remain in the best channel.
leading marks (n) (navig) oznake pokrivenog smjera: It was a very hazy afternoon and the two leading marks of the main channel were obscured shortly after passing the front marker. The master initially altered course to port towards a secondary channel, but then had difficulty identifying one of its leading marks.

lead paint /lɛdpeɪnt/ (n) (seamanship) minij: Most lead-based paint in the United Kingdom was
banned from sale to the general public in 1992, apart from for specialist use Lead dust and fumes can be generated from boats with paint containing lead. red ~ minij (zaštitna boja): White lead is hydrated lead carbonate and red lead is lead tetroxide.

lead pilot (n) (navy) glavni peljar, glavni pilot: The VTS officer then asked the lead pilot what assistance he required from the VTS to help with the vessel’s turn into the ... channel As our ship approached the South Middle buoy, the lead pilot ordered an increase of speed to half ahead.

leads /li:dz/ (n) (navig) COMPARE leading lights svjetla pokrivenog smjera: The Pilot ordered slow ahead and brought the ship onto the leads fixed green Port Entry ~ zelena svjetla pokrivenog smjera (za ulaz u luku), red sector of the ~ crvena

svjetla pokrivenog smjera
lead sheeting (n) (sailing vessels, nav arch, boating/yachting) outside protection of the hull botto in the form of lead sheet plates (https://hrca.hr/hr/188453) olovna obloga
lead to (v) (marine eng) dovesti do, izazvati, proutročiti: Problems in the fuel system may lead to cracks and leakages in fuel pipes in case of improper fuel treatment
league /li:g/ (n) (navig) a unit of length, normally equal to three nautical miles liga (stara mjera za duljinu = 3,18 naut. milja)
leak /li:k/ (n) 1 rupa; 2 (safety, marine eng, nav arch) puštanje, propuštanje (mora; tekućine), curenje, Italian: falla; fessura; via dell’acqua: The vessel had a small leak believed to be associated with the planking behind the hull sheathing, which the skipper hadn’t been able to fix. The third engineer reported the leak to the bridge and the chief officer immediately reduced the CPP to the dead slow ahead setting. It was soon established that the leak originated from a failed joint at a pipeline flange on a fuel pump oil return line. Investigations continue into a carbon dioxide leak incident which occurred on the on the ship last month Locate leak & repair. the ship has developed a ~ brod propušta, na brodu je nastala rupa: A ship develops a leak 12 km from the shore., spring a ~ propuštati (o brodu), puštati vodu, zrak, plin, tekućinu (o cijevima), dovesti do propuštanja: A research vessel sank early Wednesday while tied up in the harbour after springing a leak., check for a ~ provjeriti propuštanje: The ballast tanks were checked for internal leaks., gas ~ prpuštanje plina / plinova: The chief officer saw and heard a gas leak, and immediately activated the emergency shut down (ESD) valves., fuel ~ curenje goriva, pro/puštanje goriva: The starboard main engine was started, then immediately stopped to attend to a fuel leak., hydraulic ~ curenje hidrauličkog ulja, prpuštanje hidraulike: Had there been a hydraulic leak, there could potentially have been a fire and/or explosion., a major ~ jako pro/puštanje, jako curenje, veća rupa: – a major LPG leak from the gas carrier occurred while alongside the terminal..., oil ~ curenje ulja, curenje goriva: As the COW line was slowly pressurised, a crew member noticed an oil leak in the pumproom where the heater was located., cause of the ~ uzrok puštanja, uzrok curenja: Attempts by the ship’s staff to determine the cause of leak were of no avail. The cause of the leak was poor engineering practice., experience a ~ doživjeti pro/puštanje, doživjeti
**leakage** /ˈli:kə/ (n) 1 (marine eng, safety) curenje: The fire was caused by a hydraulic oil leakage above a main engine where outflowing oil was lit by hot surfaces on the engine. Indications of leaking starting air valves and the cause of their leakage □ The leakage of starting air valves is indicated by the overheating of line between the starting air valve and the starting air manifold, when the engine A severe leakage occurred on a container vessel while she was being loaded. (https://safety4sea.com/) The leakage was caused by a mechanical break-down of a stern thruster situated at the aft part of the vessel’s shaft tunnel whereby the shaft tunnel was flooded. (https://safety4sea.com/) □ Groove kontrolni kanal za kontrolu curenja ili ispuštanja tekućine kontrolni kanal (za kontrolu curenja ili ispuštanja tekućine), check for any sign of ~ provjeriti moguće znak (pro)puštanja, fuel ~ curenje goriva, propuštanje goriva: Any fuel leakage from pipes, injection valves and pumps is collected in a closed piping system which keeps the hot box and the engine dry and clean. □ Gas ~ propuštanje plinova: A control bore is provided in the cylinder cover to enable possible gas leakage to be detected between the two parts of the cover. □ Water ~ propuštanje vode, curenje vode: If the sump level were to rise this would indicate water leakage into the oil and investigation into the cause must be made. □ Oil ~ curenje nafte: stern tube oil leakage has traditionally been considered common operating practice. □ Liable to ~ sklon curenju / propuštanju, podložan curenju / prppuštanju, subject to ~ podložan curenju / propuštanju, koji lako pušta, ~ at starting valve puštanje pri ventili za upućivanje; 2 (environ) propuštanje (nafte u more, more)
leave

leaking 1 (safety, marine eng) istjecanje tekućine (naftne, goriva) iz cijevi / tanka: Any leaking or damaged fuel pipe should be reported to the senior engineer immediately.; 2 (environ, safety) propuštanje (mora / vode u brod)

leak-off hole (n) (marine eng) kontrolni kanal, oduševni otvor: A leak-off hole is often provided between the upper and lower rings to ensure that water passing the one or oil passing the other runs to the outside of the engine.

leaky (adj) 1 (cargo handling) šupalj, koji cura / pušta: Search for any packages which may have been tampered with or which are improperly or inadequately protected, broken, leaky, damaged, repaired, spilled, torn or stained. ~ cargo teret koji curi: No leaky drums must be allowed to cross the ship's rail.; 2 (marine eng, nav arch, safety) šupalj, koji cura / pušta: The engine room is at special risk from flashbacks in oilfired boilers, leaky pipings carrying oil, overheated bearings and even the accumulation of rubbish (oil rags, dirty oil, tins of oil, etc.) On one of our vessels, cargo damage resulted from ingress of water into no. 3 hold through a leaky hold-bilge valve which had gone undetected.

~ stern tube gland šuplj na brtvenica statvene cijevi, šupnica koja

propušta: The bulk carrier developed a leaky stern tube gland.

leap year (n) prijestupna godina

lease /liːs/ (n) (shipping econ, mar law) najam, zakup, leasing on ~ u zakupu, u leasingu: Our units on lease to the shipping company were manufactured in our colour, with our logo and markings., long-term ~ dogotrajan ugovor o najmu broda: This is done by taking the ships they require on time charter or another form of long term lease known as a bareboat charter, in which event they may be referred to as the disponent owner.

lease (v) (shipping econ, mar law) ANTONYM hire: iznajmiti (brod, brodicu), dati brod u čarter, staviti brod pod ugovor o najmu broda: A charter party is a document of contract by which a shipowner agrees to lease, and the charterer agrees to hire, a vessel or all the cargo space, or a part of it, on terms and conditions forth in the charter party. When buying or leasing a liferaft, it is usually possible to specify additional flares to those supplied as standard.

lease from /liːs/ 1 unajmiti od; 2 (shipping econ, mar law) uzeti u zakup, uzeti u leasing

lease the ship /liːs/ (v) (shipping econ) zakupiti brod (u okviru kupoprodajnog ugovora o leasingu)

lease to /liːs/ (v) 1 iznajmiti; 2 (shipping econ, mar law) dati u zakup, dati u leasing, iznajmiti: CAI International told investors it currently has 15,000 units leased to the shipping company.

leasing /ˈliːsɪŋ/ (n) (mar law) kupoprodaja zakupom: The financing will take the form of debt, equity or leasing. In this case the company's need for a ship may be of a relatively short duration, and going to the expense and trouble of buying a ship, or leasing a ship, and having the complications of hiring and controlling a crew, may not be economically viable.

leather /ˈleðər/ (n) (cargo) koža ~ belt (marine eng) kožni remen

leave (=leave; left; left) (v) 1 (navig, shipping econ) napustiti (luku), isploviti (iz luke), largat se ~ the port isploviti, napustiti luku, isploviti iz luke: As deep draught vessels of differing types can only enter and leave the port via the main buoyed channel, ...

Otherwise the Carrier shall be relieved of any obligation to load such cargo and the vessel may leave the
**port** without further notice and dead freight is to be paid. my riba **left port of rijeka** morning 13th with complete shipload of 11,000 tons of grain ...’ After loading, the vessel **left port** at 2300. , ~ the berth

**napustiti lučki vez, odvezati se od obale:** The vessel’s crew began to single up the vessel’s mooring lines and the pilot informed Vessel Traffic Services (VTS) that the vessel was preparing to **leave the berth. The vessel left the lock** stern-first, under tow by the aft tug. , **leave the ~ napustiti plovni kanal, isploviti iz plovnog kanala:** The oncoming outward bound vessel **left the channel** and passed outside No 4 buoy. , ~ the bridge **napustiti zapovjednički most, izaći iz zapovjedničkog mosta:** The pilot then **left the bridge,** accompanied by the third officer. ; **2 (mar law) iskrati se (s broda):** When **I left the ship** after 33 months, all the compressor sets and BA’s were usable. ; **3 sići s broda leave the vessel sići s broda:** By the evening, all cargo had been discharged from the after part of the hold and the stevedores **left the vessel** through an open gate in the starboard side bulwark. The vessel’s second officer **had left the vessel** while the chief officer had been on leave, and he had not been replaced.

**leave** (n) **1 paid vacation of seafarer dopust:** His work agreement was for 3 months’ service on board followed by 3 months’ **leave. ; 2 (mar law) dopusnica za izlaz na kopno / u grad**

**leave the mooring** (v) **(boating/yachting) napuštanje veza na plutači:** The **boat left the mooring** late that morning and made its way out to the unrestricted waters of the lake.

**leaving berth** (n) **(boating/yachting) isplovljanje s bočnog veza**

**leaving bow first** (n) **(boating/yachting) manovra isplovljanja odmicanjem pramca od obalne otplovljanje pramcem, napuštanje veza pramcem**

**leaving stern first** (n) **(boating/yachting) isplovljanje (s veza) krom, napuštanje veza odmicanjem krme:** As the **ferry left the berth,** stern first. the master was at the bridge wing console, manoeuvring her using the combinator controls.

**leaving the berh under power** (n) **(boating/yachting) isplovljenje motorom, isplovljenje vlastitim pogonom**

**ledger** /ˈlɛdʒər/ (n) **(logist, financ)** SEE blockchain **poslovna knjiga, robna dokumentacija, računovodstvena knjiga / dokumentacija, fascikl**

**general ~ glavna knjiga**

**lee /liː/ (n) (meteorol, navig)** a downwind area of the sailboat/ship or on the side of it; **an area sheltered from the wind zavjetrina:** The pilot boat came on the **lee side,** because the prevailing 20 knot wind, sea conditions were fairly rough and cold. A deep sea fishing vessel’s main engine stopped at a critical moment after she had been sheltering from severe weather for almost 2 days in the **lee of an island.** Due to a deep depression producing severe gales, the **vessel remained within the lee** of the land for most of her voyage. **on the ~ u zavjetrini, the ~ of the breakwater zavjetrina lukobrana, u zavjetrini lukobrana, make a ~ pružiti zavjetrini:** Make a lee on your port side / starboard side. (IMO SMCP) The pilot boat was having difficulty coming alongside in the waves so the pilot, now on deck, requested the Master change course to 180° and then to 160° to make a lee. , **provide a ~ pružiti zavjetrinu:** ... the pilot boat became aware of the high speed on approach, and called the vessel to slow down and swing to starboard to **provide a lee for boarding. , ~ shore obala u zavjetrini:** The master chose to remain at anchor when gale force winds onto a **lee shore** were forecast., **create a ~ pružiti (peljarskom brodu) zavjetrini:** The master turned his ship %to create a sheltered area on the **lee side** to make it easier for the sea pilot to board.

www.gov.uk/maib The master turned the ship onto a heading of 089 degrees to **create the lee** for the
pilotboat.

**leech** /ˈlɛʃ/ (n) 1 *(boating/yachting)* the back edge of a sail; the aft or trailing edge of a fore-and-aft sail; the leeward edge of a spinnaker; a vertical edge of a square sail. **stražnji rub jedra**, **stražnji porub jedra**, **ventana**, **ventam**, **Italian: balumina**: The sheet exerts a large downwards force on the **leech of the sail** when the boom is directly above it, much more than the kicker. The kicker controls **leech tension** and twist when the boom has passed to leeward of the traveller. A series of telltales along the **leech of the main** should flow evenly. Most boats benefit from a boom vang, which keeps tension on the **mainsail’s leech**.

https://www.slideshare.net/galeforcesailing/sail-trim-and-balance-fundamental

2 **stražnji rub floka / špinakera**: the trimmer set the jib to her normal setting and observed the **jib leech telltale** flowing 100 percent of the time.

**leech cord** *(n) (boating/yachting)* = **leech line** **ventam**, **konopac stražnjega poruba jedra**, **majolica**: The **leech cord** is really not a sail trim devise. It's main purpose is to stop the leech from fluttering BUT it does have some sail trim advantages. The **leech cord** on a mainsail can also be used to fine-tune leech twist.

**leech line** *(n) (boating/yachting)* **konopac stražnjega poruba jedra**, **ventam**; **ventan**; **majolica**; **dušica**: Tension on the **leech line** supports the edge of the sail to keep it from fluttering. Most new sails today come with **leech lines** built-in, particularly on larger sailboats.

**lee helm** *(n) (boating/yachting)* **ANTONYM weather helm** list kormila više u zavjetrenoj strani; tendency of the boat with poorly trimmed sails to continually turn downwind on its own or if the helm is released **skretanje kormilom od vjetra**, **bježanje od vjetra**, **zavjetreno kormilo, otpadanje**, **Italian: barra sottovento**: Moving the sails’ center of effort forward of the center of lateral resistance tips the scale in the other direction and forces the bow away from the wind, creating **lee helm**. If you experience **lee helm** in light air, shift crew weight to leeward to heel the boat and build weather helm.

**Lee-Oh!** *(interj)* *(boating/yachting)* uzvik pri zapovjedi za letanje (bordadu): Most crew sensibly take the view that **lee-oh** means let go the genoa sheet, which upsets those skippers who shout **lee-oh** at the start of the tack, and like to use the lift from the genoa generated by the rotation of the bow through the wind. The order **Lee-Oh** is given when the genoa starts to luff.

**leer fish** *(n) (fishing)* *lica*, *lica bilizma*

**lee shore** *(n) (boating/yachting)* the land to the leeward of the vessel (wind blows from the ship to the land) https://officerofthewatch.com/tools/maritime-dictionary

**vjetar s mora, obala prema kojim puše vjetar**: Be alert to navigational dangers and, where possible, keep well clear
of a **lee shore.** The master chose to remain at anchor when gale force **winds onto a lee shore** were forecast.

**lee side** ANTONYM weather side = windward side *(meteorol)* the side of a ship sheltered from the wind; The side of a ship that is towards the leeward is its **lee side** *zavjetrina*: We were sailing on the **lee side** of an island. The chief officer asked port control on which side the pilot ladder should be rigged, and was told "**on the best lee side**." hard-a-lee means pushing the tiller hard to the **lee side** When the vessel begins drifting (diagonally) leeward, water resistance is generated on the **leeside of the bow.**

**leeward** /ˈliːwəd, ˈluːəd/ (adj, adv) The direction away from the wind **prema zavjetrini, u zavjetrini, koji se nalazi u zavjetrini**: When the vessel begins drifting (diagonally) **leeward**, water resistance is generated on the leeside of the bow. Vessel’s sideways **drift leeward** of the desired course. **on the ~ side u zavjetrini**: The vessel was at 4.30 am on the **leeward side of Groix Island** to embark the pilot.

**leeward** /ˈliːwəd, ˈluːəd/ (n, adv) (navig) ANTONYM windward *zavjetrina*: The sailing boat was hit by a particularly strong gust of wind which caused it to capsize **to leeward.** It was fortunate that the yacht grounded on a reef with safe water **to leeward.** The analysis conducted after the incident, using the ship’s manoeuvring and “rate of turn” data, revealed that the initial “wheel over” position was **too far to leeward,** given the prevailing wind strength and direction. When the wind is pushing the ship’s stern away to **leeward,** the stern tends to swing towards the **leeward leeward berth** (n) *seamanship* vez u zavjetrini

**leeward side** (n) (navig) *zavjetrina*

**leeway** /ˈliːˌwei/ (=LW) (adv, adj) 1 (navig) **COMPARE drift** the amount of drift motion to leeward of an object floating in the water caused by the component of the wind vector that is perpendicular to the object’s forward motion; **Leeway** is the motion of the object induced by wind (10 m reference height) and waves relative to the ambient current (between 0.3 and 1.0 m depth). *(https://zenodo.org/record/797/files/12152.pdf)*; The movement of a search object through water caused by winds blowing against exposed surfaces. *(IAMSAR/Camsar2014) zanos (u plovidbi, vožnji), zanošenje (u odnosu na željeni kurs):* A navigator or pilot on a vessel must adjust the ordered course to compensate for the **leeway drift** We are making .... degrees **leeway** (IMO SMCP). This allowed the westerly wind, blowing across the channel from the left, to have a greater **effect on leeway. Correcting the DR position for leeway, current effects, and steering error result in an estimated position (EP).** *(Bowditch)* **Leeway** and current effects combine to produce the most pronounced natural dynamic effects on a transiting vessel.
leeway divergence angle

 otpadanje (u jedrenju): Coming immediately onto their course of 160°, the combination of excessive leeway as the yacht was gathering way, and the onshore swell, quickly placed them in danger. Rough weather will increase leeway, because the boat will be carried sideways by breaking waves. Bilge keel yachts (twin keels) make more leeway than fin keeled ones in the same conditions.

http://www.sailtrain.co.uk/navigation/leeway.htm

leeway divergence angle The average angle between an object’s direction of leeway and the downwind direction. (IAMSAR/Camsar2014) kut divergencije pri zanošenju: Leeway may diverge to either the right of the left of the downwind direction. Current evidence indicates that objects with significant leeway divergence angles rarely jibe or tack downwind.

left-hand (adj) (seamanship, navig) lijevi ~ side lijeva strana: A straight line joining the date on the left-hand side with the same date of the right-hand side represents a complete circle around the sky, the two ends of the line representing the point 180° from, ~ bank lijeva obala rijeke: Astern thrust was applied, but at the same time the wind caught the bow and the boat gently bumped into the left-hand bank of the river.; ~ lay (seamanship) lijevi suk konopa, uže sukano u lijevo

left-laid (adj) (seamanship) sukan u lijevo (uže, konop)

leftover cargo (n) (cargo handling) zaostali teret, ostatci tereta

leg (n) 1 (navig) COMPARE waypoint the run or distance made on a single course or heading (before changing it) dio rute (između dva mijenjanja kursa), stranica, the run or sitance made on a single tack (in sailboats): They began the final leg of their journey in poor visibility, having had a tiring voyage up-Channel. When the boat rounded the first mark, the crew members’ spirits rose as they headed downwind on the return leg. The engine rooms had not been re-visited by the time the ferry neared her berth on the return leg of the crossing at 0700. Similarly, mark each track leg’s distance under the course line with a “D” followed by the distance in nautical miles. The computer determines each track leg’s distance and, given a speed of advance, calculates the times the vessel can expect to pass each waypoint. At 1830, they passed the Needles fairway buoy and settled down for the long downwind leg towards Start Point. ~ of the voyage (navig) stranica rute (putovanja), stranica putovanja broda, stranica rute (između dva mijenjanja kursa): The initial leg of the voyage was uneventful, and the mate later relieved the
skipper for his evening meal break.

2 (boating/yachting) a the run or distance made on a single tack (in sailboats) bordada, put jedrilice između dva letanja; b the side of a racing course between two marks stranica regatnog polja

legal action (n) (mar law) sudski postupak, tužba pred sudom: ... the terminal operator has taken legal action against ...xxxx for building an international free zone on the ... Terminal, legal proceedings (n) 1 (mar law) pravni postupak, sudski postupak institute ~ pokrenuti sudski postupak; 2 sudski progon (EUDict)

legend (n) tumač crtėža / slike itd., tekst u potpisu crteža ili slike

leg of voyage = leg stranica rute, dio putovanja između dvije promjene kursa / pozicije

leisure /ˈliːʒər/ (n) dokolina, odmor with more ~ kasnije, bez žurbe

leisure boat (n) (boating/yachting) SEE pleasure boat brodica za razonodu: It was a common feature to meet many leisure boats close to Cherbourg.

leisure craft (gliseri, jedrilice itd.) (n) (boating/yachting) SEE pleasure craft a boat used for personal, family, and sometimes sportsmanlike recreation (motorboats and sailboats)

brodica za razonodu: Occasionally however, one is hampered from taking the desired action due to large concentrations of leisure craft. For anyone operating a vessel commercially – merchant ship, fishing boat or leisure craft – there is a legal duty to report accidents.

L-engine (n) (marine eng) redni motor, L-motor, motor s cilindrima u nizu

length (n) length overall duljina preko svega dužina about mid~ of the ship negdje po sredini dužine broda, ~ of ship dužina broda, length between perpendiculars duljina između okomica, length on waterline duljina na vodnoj liniji, full ~ cijela dužina broda: The lead of all mooring lines was relatively short as the vessel was not berthed with her full length alongside the berth.

length between perpendiculars (LBP) (n) (nav arch) COMPARE length overall (LOA) the length of a ship measured from the forward side of the stem to the aft side of the stern post at the height of the designed water line. In naval practice, the total length on the designed water line https://officerofthewatch.com/tools/maritime-dictionary/ duljina između okomica: Length between perpendiculars (often abbreviated as p/p, p.p., pp, LPP, LBP or Length BPP) is the length of a ship along the waterline from the forward surface of the stem, or main bow perpendicular member, to the after surface of the sternpost, or main stern perpendicular member.

(lengthen /ˈlɛŋθən/ (v) 1 produžiti, produljiti: Checking of friction element: A worn or oily friction element will lengthen the stopping time.; 2 istegnuti
Lesson: The most fundamental lesson from this incident is the need to ensure that there is no load on the system prior to conducting any maintenance work. The lessons learned from the official accident report Let us learn a lesson from this and have the crew only in the boat after it has been swung out and then they can use the release gear.

Lessor /ˈlesər/ (n) (mar law, shipping econ) iznajmitelj: Container lessors were this week also beginning to count the cost of the bankruptcy. Container ~ iznajmitelj kontejnera, trgovačko društvo za iznajmljivanje kontejnera

Less than container load (=LCL) (n) (logist, shipping econ) (mar law) SEE LCL

Less Than Trailer Load (=LTL) (n) (shipping econ) prikolica s robom koja glasi na više različitih primatelja

Let go (v) 1 (seamanship, ship handling) oboriti sidro, spustiti sidro, Italian: dare fondo l'ancora: They failed to let go anchors in good time. Propustili su pravovremeno oboriti sidra. We have prepared the starboard anchor for letting go in case the ship began to drag her port anchor. ... adjust the speed so that the vessel will be dead in the water or have very slight sternway when the anchor is let go. The mate managed to let go both anchors just as the two vessels collided. The master then ordered the vessel’s anchor to be let go and rotated the pod to astern mode to reduce the vessel's headway. ~ port / starboard anchor oborite lijevo sidro: Let go port anchor! The master ordered the
starboard anchor to let go, but this did not slow the vessel’s movement. The towed vessel was about 60 metres away when the Master ordered to let go the port anchor and put one shackle of chain in the water.

the anchor is ~ sidro je spušteno, sidro je oboreno: Secondly, the ground speed was not properly ascertained on the bridge when the anchor was let go. At 1220 the starboard anchor was let go to 2 shackles in the water and at 1223 the Pilot boarded the vessel. 

otpustiti konop / uže, odbaciti konop s bitve, molat; Italian:mollare: After all lines were let go, the ship attempted to clear the berth by putting both the bow thruster and rudder full / hard to port. The bosun was assisted by two other seamen at the aft mooring station who were told to let go the starboard stern and spring lines and heave them in. 

Tug line is let go. Uže za tegljenje je otpušteno., ~ fore and aft Otpustiti sve!, Otpustiti svu užad, ~ all Otpustite svu užad, otpustite sve konope, mola sve!: During this manoeuvre, OSV1 also let go all ropes, and as soon as OSV2 was on the port beam, went astern., ~ tug line. Otpusti teglo., Otpusti uže za tegljenje.: ... the pilot began to make preparations to let go the tugs and proceed to the designated anchorage. The Pilot instructed the Master to let go the ship's rope being used by the forward tug, advising the tug's skipper accordingly. 

remarkner: “Let Go the Tug!! Easy! Soon afterwards, the pilot asked the master to let go the harbour tug, which had its tow line fast to a bollard on the starboard side, just aft of the forward mooring station., ~ the mooring line otpustiti priveznu užad, otpustiti užad za privezivanje: He then handed the con to the trainee master, who gave the order to let go the mooring lines.

let go of the line (v) 1 (ship handling) odbaciti (uže, konop), otpustiti (uže, konop): At about 0347 the master selected “start engine” on the telegraph, and soon afterwards he instructed the forward and after mooring parties to let go of the head and stern lines.; 2 (safety, ship handling) osloboditi se (od užeta itd): He managed to let go of the line with his right hand but his left hand was badly crushed when it became caught between the tow line and the panama lead.

let go staff (v) (shipping econ, mar law) otpustiti osoblje / zaposlenike: The Company is letting go of 66 staff from nine offshore ships and will replace them with contract labour.

let in (v) 1 dovoditi; 2 (safety, nav arch) pustiti unutra: The skipper was unaware that the hull of his vessel was breached above the waterline and would let in water in a moderate sea or when heavily loaded.

let out (v) (boating/yachting) ANTONYM bring in popustiti (uzdu, škotu, škotinu): Let out the mainsheet. Popusti škotu.

letter of acceptance of order (n) (mar law) pismo prihvaćanju narudžbe / naloga

letter of acknowledgement (n) (mar law, shipping econ) potvrda o primitku: Letter of Acknowledgement of Order and Its Execution : From : The Sender's Name, Door Number and Street's Name, Area Name, City. potvrda o primitku i izvršenju naloga / narudžbe

letter of credit (L/C) (mar law, shipping econ) A written commitment to pay, by a buyer's or importer's bank (called the issuing bank) to the seller's or exporter's bank (called the accepting bank, negotiating bank, or paying bank); A letter addressed by a banker to a correspondent certifying that a person named therein is entitled to draw on him or his credit up to a certain sum. http://www.maerskline.com/en-jm/help/shipping-glossary; A Letter of Credit (L/C) is the basic document for documentary credit. Documentary credit concerns a process in which a bank, at the request of a buyer of goods, undertakes to pay the seller of the goods a certain amount, subject to production of a number of clearly defined documents. https://www.logisticsglossary.com/letter/?letter=l

akreditiv: A letter of credit guarantees payment of a specified sum in a specified currency, provided the seller meets precisely-defined conditions and submits the prescribed documents within a fixed timeframe. These documents almost always include a clean bill of lading or air waybill, commercial invoice, and certificate of origin. LETTER OF CREDIT (L/C): a letter issued by a bank entitling the bearer to draw funds up to a specified maximum from that bank or its agencies - open the ~ otvoriti akreditiv: Before the seller arranges to ship the cargo to you, you'll need to demonstrate that you can pay for the shipment. To to this, you'd open a letter of credit from a bank after proving that you have the necessary funds to repay the bank., establish a ~ otvoriti akreditiv: Where the shipper had sold the goods under a letter of credit established through a bank, or when he wishes to obtain payment of his invoice before the consignee obtains the goods, he will pass the full set of original bills to his bank, who will in due course arrange presentation to the consignee against payment., confirmed ~ a letter of credit, issued by a foreign bank, whose validity has been confirmed by a domestic bank. potvrđen

akreditiv (od strane uvoznikove banke)

letter of guarantee (n) (mar law) A written undertaking, or letter of indemnity, usually provided by a bank, promising to hold the carrier harmless, up to a certain sum, for claims that may arise from the delivery of goods to a particular person who is unable to surrender the original bills of lading in return for the goods garantno pismo (pri dolasku broda), garancija, jamstvo: Guarantee letter is issued by the bank to the shipping company as a Bill of Lading: B/L for receiving products before Shipping Document's arrival Letters of guarantee, reasonably worded, are a perfectly legitimate device to protect the carrier from claims if cargo is released without production of the original bill of lading. (http://www.fta.co.uk/policy_and_compliance/sea/long_guide/letters.html) Shippers should try to arrange delivery contracts in such a way that recourse to a letter of guarantee does not become necessary.

letter of indemnity /in demniti/ (n) (mar law) A written undertaking by a shipper (infra) to indemnify a carrier for any liability which the carrier may incur for having issued a clean bill of lading when, in fact, the goods received were not as stated on the bill of lading. Such a letter is usually a central document in a fraud, whereby the shipper and carrier knowingly misrepresent to third parties the actual order and condition of the goods at the time of shipment or the bad order of the packing, or whereby they issue duplicate bills of lading to replace lost or stolen originals. Letters of indemnity should not be condemned by courts and are generally held ineffective as against third parties. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; isprava kojom se tražitelj obvezuje da će od brodovlasnika, njegove službenike i agente obeštetiti u odnosu na svaku odgovornost, gubitak, trošak ili oštećenje koji može nastati zbog provedbe njegova naloga. (D. Pavić); Written statement in which one party undertakes to compensate another for the costs and consequences of carrying out a certain act, for example, a shipper who has been delayed in sending an original Bill of Lading to the receiver may instruct the master of the ship or the shipowner to release the goods to a named third party without production of an original Bill of Lading. (http://www.leewardcorp.com/es/); Written statement in which one party undertakes to compensate
another for the costs and consequences of carrying out a certain act, for example, a shipper who has been delayed in sending an original Bill of Lading to the receiver may instruct the master of the ship or the shipowner to release the goods to a named third party without production of an original Bill of Lading. http://www.tkmglobal.net/chartering_L.HTM, a document which the shipper indemnifies the shipping company against the implications of claims that may arise from the issue of a clean Bill of Lading when the goods were not loaded in accordance with the description in the Bill of Lading.

https://www.logisticsglossary.com/letter/?letter=l

jamčevno pismo, garantno pismo:
There is no p&i cover for misdelivery of cargo, so change of destination is usually the subject of a letter of indemnity ... In case of cargo being lost or delayed in transit, the shipping company will allow delivery of the goods to the person claiming to be the consignee, if he gives a letter of indemnity; this is normally countersigned by a bank, and relieves the shipping company of any liability should another person eventually come along with the actual bill of lading. When the owners instruct the master to accept a letter of indemnity (LOI), they will take steps to ensure that the wording of the LOI presented to the master is the same as that which they have proposed. Carriers who meet a shipper request to issue a clean bill of lading in spite of pre-shipment damage or to backdate a bill of lading to meet letter of credit terms sometimes require letters of indemnity. The master or owner, if they agree, may require a letter of indemnity from the shipper for the consequences of complying should it turn out that the named party is not entitled to take delivery of the goods. It should be noted that, as a rule, any such letter that seeks to indemnify against an act, which is intended to defraud an innocent third party, is unenforceable in a court of law.

http://www.leewardcorp.com/es/ The master or owner, if they agree, may require a letter of indemnity from the shipper for the consequences of complying should it turn out that the named party is not entitled to take delivery of the goods. http://www.tkmglobal.net/chartering_L.HTM

letter of inquiry (n) (mar law) upit, pismo o traženju ponude: Reply to The Letter of Inquiry Regarding Freight Rates Pismo o traženju ponuda o vozariñama

This serves as a written record that the particular action or finding was questioned at the time of occurrence. This serves as a written record that the particular action or finding was questioned at the time of occurrence. (www.euronav.com) zahtjev za naknadu štete, protestno pismo, reklamacija: Please be advised that, from calculations of loading rates, the following difference is noted: Load Rate requested by ship 350 M/T per hour. Load Rate actually received305 M/T per hour. This letter is to notify you that, on behalf of my vessel’s owners and/or charterers, I hold you responsible for the damage/loss/costs sustained as a result of this incident. A letter of protest is a formal declaration whereby a person expresses a personal objection or disapproval of an act. Reasons for issuing a Letter of Protest: Delays/incidents during berthing/un berthing: Delays at loading/discharge terminal (e.g. delays due to waiting for customs or immigration officers), etc. lodge the ~ podnijeti zahtjev za naknadu štete: ... and in order to protect the vessel, her owners and/or any other party who may be directly or indirectly concerned, I lodge this formal letter of protest and hold the consignor, the shippers and the terminal jointly responsible for any delays, loss, damage or claims ...; 2 pritužba, prigovor

Levanter (n) (meteorol, boating/yachting) a strong easterly wind of the Mediterranean, especially in the Strait of Gibraltar, attended by cloudy, foggy, and sometimes rainy weather istočnjak, istočni vjetar, levant, levanat
Levee /ˌlevi/ (ports) an artificial bank confining a stream channel or limiting adjacent areas subject to flooding. Nasip, diga: A levee is a critical safety feature for low-lying areas, such as New Orleans. When a levee breaks, surrounding land faces massive destruction.

Level /ˈliːvl/ (n) (maritime eng) razina: A wet dock is one in which water can be maintained at various levels by closing a gate when the water is at the desired level. As a result, it is likely that the local temperature rose to a level above the auto-ignition temperature of the diphosphine gas and that the gas subsequently ignited. The level of risk is increased due to many factors. As shown in this case, lives may well depend on the level of shipboard organisation and preparedness.

Oil ~ razina ulja, check the oil ~ provjeriti razinu ulja, ~ indicator pokazivač razine (tekućine), ~ reading očitavanje razine, high / low ~ visoka / niska razina (npr. tekućine u tanku), sea ~ razina mora: If the ice is thicker than about 2 meters above sea level, it is called an ICE SHELF. However, under exceptional conditions, either severe extra-tropical storms or tropical cyclones can produce changes in sea level that exceed the normal range of tide.

Water ~ razina mora, razina vode: I observed that the vessel with the bright lights had its nets at and above water level and was making about 5 knots. Afterwards he returned to the engine room and found that the water level had not reduced but had increased by a further 20 cm; it was now well above the floor plates and half way up the main engine.

Level-luffing crane (n) (cargo handling) dizalica s podiznim krakom (granom), dizalica s krakom na podizanje i spuštanje: The advantages of Level Luffing cranes are that they offer high lifting capacities, accurate positioning of the hook or grab and high duty ratings.

Level-luffing gear (n) (cargo handling) uređaj za dizanje kraka (grane) dizalice level luffing speed (n) (cargo handling) brzina podizanja kraka dizalice

Lever /ˈliːvər (UK), ˈlevər (US)/ (n) 1 (maritime eng) poluga, ručka, ručica, motka: A lever for one bow thruster which had to be moved to port to move arrow indicator and ship to starboard. He placed the starboard lever back to zero pitch and called the Master, who came to the bridge. The linkage was not securely fixed to the throttle and was connected so that putting the lever in the forward position put the engine astern, and vice versa. The master immediately changed to auxiliary steering and put the lever hard to starboard. Brake ~ ručica kočnice, upravljačka poluga kočnice: The allowable clearance between the stopper pin and brake lever is 10 mm, clutch ~ ručica spojke, poluga spojke: However, the bosun’s finger was still positioned between the edge of the clutch lever and the stopper plate, control ~ upravljačka poluga, ručica za upravljanje (motorom, uređajem): When the vessel was about 100 metres off the jetty, at a speed of 1.2 knots, the control lever inexplicably moved on its own to approximately 70 per cent of full power. He set the port control lever in the astern position and increased power. The engine continued to race even after the engine control lever was brought down to neutral, compensating ~ povratna poluga cranked koljenasta pluga, koljenasto polužje, helm ~ ručica kormila: He quickly changed over the steering to manual and the pilot pushed the helm lever hard to port, output ~ poluga za dobavu goriva, rocker ~ klatna poluga, klackalica, dvokraka poluga, speed control ~ poluga / ručica regulatora broja okretaja, starting ~ ručka za upućivanje, operating ~ upravljačka poluga, upravljačka
ručica: Tests showed that the stopping time of the winch was about 3.5 seconds after the operating lever is released. propeller ~ ručica za upravljanje propelerom, poluga za upravljanje propelerom: The pilot used the CP propeller lever to produce an engine kick ahead, then set the CP propeller lever at full astern but the vessel continued crossing the channel at a 45° angle. release ~ opusna poluga, opusna ručica: As the officer removed the pin and operated the release lever, the crew member stepped to one side, which caused the bawling rope that he was holding to come free from the bitts. ; 2 (navig, seamanship) poluga (u tegljenju): This manoeuvre only served to cancel the rudder’s action, as the larger after tug’s force was enhanced due to the very long lever between the ship’s pivot point and tug’s push point.

levy /ˈlɛvi/ (n) (shipping econ) an amount of money that must be paid and that is collected by a government or other authority (Webster) pristojba, porez, namet, naknada: The shipping industry faces the threat of paying a levy to the European Union on its greenhouse gas emissions ... The Marine Navigation levy is a charge against commercial shipping which is used to recover the costs of operating the Commonwealth's marine aids to navigation systems marine navigation ~ porez na korištenje plovnih putova: The Marine Navigation levy is a charge against commercial shipping which is used to recover the costs of operating a country's marine aids to navigation systems levy: (=ˈlɛvi) (v) uvesti (porez, troškove), ubrati (porez) ~ tax uvesti porez, nametnuti porez, oporezivati, ~ surcharges nametnuti naknadu (troškova): Many carriers are expected to levy interim IMO surcharges in November.

lex maritima (n) (mar law) A body of oral rules, customs and usages relating to navigation and maritime commerce, the first elements of which may be traced back to the Rhodian Law (infra) (c. 800 B.C.), and which developed in medieval Western Europe from the ninth to the twelfth centuries as part of a wider, customary mercantile law (the lex mercatoria or Law Merchant, infra), administered by merchant judges. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm) pomorsko pravo (temeljeno na usmenoj predaji): This lex maritima, part of the lex mercatoria, or Law Merchant as it was usually called in England, was the general law applicable in all countries of Western world. Much of this contemporary lex maritima is to be found in the maritime arbitral awards rendered by arbitral tribunals around the world by a host of institutional and ad hoc arbitration lex mercatoria (n) (mar law) COMPARE lex maritima A body of oral, customary mercantile law which developed in medieval Europe and was administered quite uniformly across Europe by merchant judges, adjudicating disputes between merchants. The lex mercatoria originally included the lex maritima http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm) trgovačko pravo (na temeljima srednjevješkog prava) liabilities (n) (financ) pasiva (u bilanci) assets and ~ aktiva i pasiva liability /ˌlaɪˈbɪlətɪ/ (n) 1 (mar law, shipping econ) odgovornost, novčana obveza admit ~ for priznati / preuzeti odgovornost za: Never admit liability or that your vessel was at fault. be cleared of any ~: The classification society, which certified the seaworthiness
of the vessel, was cleared of any liability in connections to the disaster. **biti osloboden nodgovornosti, reject ~ odbiti odgovornost**: We reject all liability for the damage/s referred herein and hold you fully responsible for all consequences which may arise from our loading the cargo in a damaged condition, **be discharged / released from ~ biti oslobođen odgovornosti**: The carrier and the ship shall in any event be discharged from all liability whatsoever in respect of the goods, unless suit is brought within one(1) year of their delivery or of the date when they should have been delivered ..., ~ for oil pollution **odgovornost za onečišćenje mora**: OTHER P&I COVERED RISKS: Other risks covered include liability for stowaways, **liability for oil pollution** and other types of pollution and legal liability for wreck removal if the ship sinks and is blocking free navigation for other vessels. **limitation of ~**: ..., failure to comply with this article will remove the limitation of liability cover from the shipowner Pollution - the tanker owner may not avail himself of the limitation of liability for oil pollution damage if the incident; 2 (mar law) **obveza Owner's ~ brodarove obveze (npr. iz ugovora o najmu broda / čartera)** liability (n) 1 (mar law, shipping econ) = shipowner's liability (SOL) = Owner's liability **odgovornost (brodara)** the ~ of the owner commences at ... and terminates at ... **odgovornost brodara počinje ... i završava ...**: in most countries the carrier's liability only commences at the point where the cargo passes through the vessel's permanent manifold connections, and terminates when the cargo passes out through the manifold connections at the port of discharge., **noncontractual liability of the shipowner and the ship izvanugovorna odgovornost brodovlasnika i brodara, shipowner's ~ (SOL) odgovornost brodara, odgovornost brodovlasnika**: Shipowners are generally entitled to limit their liability in respect of claims arising from damage caused by their ships. The maximum **liability of a shipowner** is usually calculated based on the size of the ship involved in the incident and has no relationship to the amount of damage caused by the incident. There has been a trend in the more recent Conventions to establish systems of determining liability to pay compensation for damage, in addition to providing a **limit on the shipowners liability**. Liability of the owner of a seagoing ship in case of damage to cargo or persons due to collision or other accidents is not unlimited. A typical SOL example is geographical deviation or departure from the contractually agreed voyage: liability for loss of and/or damage to cargo arising out of such a deviation falls outside the scope of standard P&I., **charterer's ~ izvanugovorna odgovornost naručitelja prijevoza, odgovornost unajmitelja broda**: General Strike Clause - this clause is needed to explain the limits of the charterer's liability with regard to strikes.; 2 (mar law) **obveza liability for damage to property (n) (mar law) odgovornost za oštećene stvari liability for pollution (n) (safety, mar ins) odgovornost zbog onečišćenja liability insurance (n) (mar ins) osiguranje odgovornosti**: P&I or Shipowner's liability insurance is a form of marine insurance which protects shipowners, ship-operators and charterers of ships against third party claims for indemnity (third party) ... **liability to damage by ... 1 (mar law, shipping econ) odgovornost prema (brodaru, naručitelju, brodu itd.)**: Negligence of the other vessel, or default of the Master or the Servants of the Carrier, the Merchant will indemnify the Carrier against all loss or liability to the other or non carrying vessel; 2 (cargo handling) **osjetljivost na oštećenja uslijed ..., sklonost oštećenjima uslijed ..., izloženost oštećenju zbog ...,
sklonost (kvarenju, hrđanju, mehaničkom oštećivanju itd.): The principal disadvantage is its liability to crushing and pilfering. ... it provides the defenses that are available under the Himalaya Clause, in as much that it applies the limitation of liability to the servants and agents of the carrier, enabling such individuals, if sued personally, to claim the benefits of the Rules ...

liable (adj) (mar law) odgovoran: ... if the latent defect is not discoverable by due diligence, the carrier is apparently not liable even if he failed to exercise due diligence in attempting to discover latent defects. When a cargo is lost or damaged, it is not at all easy to determine who has been at fault and who should be liable.

liable for /ˈlaɪəbl/ (adj) (mar law) odgovoran za, biti dužan da ..., biti obvezan: If the cargo is discharged in a different condition, or in a lesser quantity, than that entered on the B/L, the shipowners may be held liable for the damage or shortfall. Thus the carrier shall not be liable for any loss or damage resulting from the reasonable deviation. operty, occurring on board or in direct connection with the operation of the ship (maritime claims convention 1976) Passengers - the carrier shall be liable for the damage suffered as a result of the death of or personal injury to passengers. No compensation is payable, and the shipper of the goods will be liable for all damages and expenses directly or indirectly arising out of or resulting from the shipment. The Owners shall be liable for the cost of maintaining the Employee ashore until repatriation takes place. The shipowner retains full possession of their ship and in most cases is fully liable for the safety of the ship and its safe operation. be ~ for the payment of biti obvezan / dužan platiti: the company is liable for the payment whether or not the ship's articles are endorsed If the cargo is discharged in a different condition, or in a lesser quantity, than that entered on the B/L, the shipowners may be held liable for the damage or shortfall. When a cargo is lost or damaged, it is not at all easy to determine who has been at fault and who should be liable, the shipowner will be held ~ brodar će se držati odgovornim za, brodar će se smatrati odgovornim za: If the cargo is discharged in a different condition, or in lesser quantity than that entered on the B/L, the shipowner may be held liable for the damage or shortfall. If the cargo is discharged in a different condition, or in lesser quantity than that entered on the B/L, the shipowner may be held liable for the damage or shortfall.

liable to /ˈlaɪəbl/ (adj) 1 koji se lako oštećuje, osjetljiv na; 2 (cargo, cargo handling) = subject to osjetljiv na, sklon (oštećivanju), podložan (oštećivanju), koji se lako (npr. kvari, oštećuje itd.): When different lots of bulk grain, or bagged goods are carried, the contents of which are liable to mix as a result of torn packages or of sifting, they should be separated. Cargoes in cartons are liable to crushing. Some commodities are liable to spontaneous heating, which would include: 1. Certain commodities are liable to introduce vermin in the ship, the presence or ravages of which may prove costly. ~ tainting koji se lako kalja (prožima) s drugim teretima: Butter is liable (susceptible) to tainting with coffee., ~ pilferage podložan krađi (teret), ~ leakage koji lako curi / propušta (teret), ~ deterioration koji se lako kvari (o teretu), ~ mechanical damage osjetljiv na fizičko oštećenje (o teretu), ~ to damage osjetljiv na oštećivanje (o teretu), podložan oštećivanju (o teretu), koji se lako oštećuje (o teretu): The cargo of steel is liable to damage by rust. Goods liable to damage by rust should not be stowed in the same compartment or container with cargo, packaging or dunnage which is liable to give off moisture.; 3 (navig, mar law) biti dužan / obvezan: The Master and Engineer are liable to keep full and correct logs including scrap logs accessible to the Charterers or their Agents.

liaise with /ˈlɛiz/ (v) povezati se s (nekim): Masters should identify what services and deliveries are to take place at each port of call and liaise with the local agent to ensure the most logical
delivery schedules, given the manpower available to the vessel. Liaise closely with the company and P&I club so that decisions are made jointly in the best interests of the safety of the ship and crew ...

liaison /ˈleɪzən/ (n) veza: Pilots are engaged for a variety of reasons depending on circumstances which include pilotage based upon local knowledge, liaison, ship handling and bridge support. in close ~ with u uskoj vezi s: At the destination, another agent working in close liaison with the agent forwarding the cargo will break bulk the consignment and distribute the goods to the various consignees.

~ officer časnik za vezu

liberty (n) sloboda be at ~ to biti slobodan (da), imati slobodu (za) Liberty ship (=pl. Libertys) (n) (nav arch) mass-produced cargo ships built during World War II to provide the Allies with much needed merchant tonnage. Liberty’s carried a crew of about 44 and 12 to 25 Naval Armed Guard. About 200 Libertys were lost to torpedoes, mines, explosions, etc. during WWII. The United States designated this new type of ship the EC2 (E for emergency, C for cargo and 2 for a medium-sized ship between 400 and 450 feet at the waterline.) Consequently, all the EC2 type of emergency cargo ships came to be known as Liberty ships.

lice /ˈlaɪs/ (n) uši (štetočine): Bales of rags, unless thoroughly fumigated, often harbour lice and other insects which, in turn are carriers of certain diseases.

licence /ˈlaisən/ (= _license) 1 svjedodžba o ovlaštenju, časničko ovlaštenje Mater’s Licence zapovjednik broda u neograničenoj plovidbi (STCW), ovlaštenje za zapovjednika duge plovidbe (traditional title in Croatia), zapovjednik broda duge plovidbe: A nautical captain may be a civilian with a master’s license or a naval commissioned officer of any rank. In most modern navies, the rank of captain is equivalent to the army rank of colonel, and is thus three ranks higher than army captain.

( http://maritime-connector.com/captain-nautical/), pilotaž ~ ovlaštenje za obavljanje peljarenja: They hoped that this dismissal and its repercussions would at last convince the authorities to withdraw his pilotaţ licence, and expressed their thanks for my action! ; 2 plovidbena dozvola; 3 (mar law) dozvola, odobrenje: A dredging licence had been granted to the harbour authority. A licence or permit card for hazmat training must be presented when requested by officials. 4 - ‘Crew’s Effects’. If you are carrying firearms you should have a valid licence or permit authorising their carriage/possession from the appropriate country of origin. dredging ~ dozvola za jaružanje, dozvola za održavanje dubine plovnog kanala, dozvola za bageriranje, the ~ expired on .... 2009. dozvola je istekla dana ... 2009

license /ˈlaisən/ (v) ovlastiti, dati ovlaštenje, izdati ovlaštenje, izdati časničko ovlaštenje: It was later found that the service contractor was not licensed by the maker;

licensed /ˈlaisənst/ (adj) ovlašten ~ officer ovlašteni časnik, ~ average adjuster ovlašteni havarijski procjenitelj, ovlašteni procjenitelj pomorskih šteta,
ovlašteni osigurateljski likvidator štete, ~ navigator ovlašteni časnik navigacije: Many ports require a pilot, a federal or state licensed navigator who possesses extensive local knowledge of the harbor, to be on board as the vessel makes its harbor passage, ~ compass adjuster ovlašteni serviser za kalibriranje kompasa

licensing (n) (mar law) izdavanje ovlaštenja

lid (n) (nav arch) poklopac tanka ~ poklopac tanka

lie /laɪ/ (=lie, lies; lay lain; lying) (v intr) 1 (navig) to make no way (of a ship) mirovati, stajati (na mjestu, sidru), biti zaustavljen, nalaziti se, biti smješten: When the vessel cleared the approaches to the harbour, the skipper set a course on the automatic helm to pass on his port side a small island, which lay about 2 miles to the south-west. The vessel cannot remain on the berth as the terminal operator either wishes to put another ship on the berth, or he just will not allow any ship to lay alongside. ...the Public Prosecutor issued an arrest warrant for the Master who was then detained overnight in a cell whilst his ship lay at anchor. ~ at anchor (of a ship or boat) biti na sidru, biti usidren: A tanker is lying at anchor waiting to berth, ~ alongside (of a ship or boat) biti vezan bočno, biti uz bok; 2 temeljiti se na nečemu, zasnivati se na nečemu; 3 (marine eng) ležati, nalaziti se na: if the fault ~s in the governor itself ako se kvar nalazi u samom regulatoru

lien /ˈlaɪən/ 1 (n) (mar law) privilegirano potraživanje u sklopu stvarnih prava na brodu (Grabovac) pridržaj, zadržavanje (broda), retencija, pravo zapljene imovine, privilegij, zalog ~ for freight zalog radi naplate vozarine, ~ on the goods / cargo pravo pridržaja robe, pravo zaloga na robu: The shipowner has a common law lien on cargo for general average., exercise ~ on primijeniti pravo zaloga, have a ~ on imati pravo zaloga na, maritime ~ pomorski privilegij; 2 pomorski privilegij

lien clause (n) (mar law) Clause in a voyage Charter-Party which entitles the shipowner to exercise a lien on the cargo, that is, to retain control of the cargo until any freight, deadfreight or demurrage which is owing is paid. (http://www.leewardcorp.com/es/); Clause in a voyage Charter-Party which entitles the shipowner to exercise a lien on the cargo, that is, to retain control of the cargo until any freight, deadfreight or demurrage which is owing is paid. http://www.tkmglobal.net/chartering_L.HTM

klauzula o retenciji, klauzula o zadržavanju broda: This provision (Lien Clause) is often incorporated into the cesser clause, which seeks to relieve the charterer once the cargo has been shipped. http://www.leewardcorp.com/es/

lie off (=heave to) (v) (navig) to heave to at some distance from shore zavlačiti, čekati na moru za ulaz u luku

lie to (v) 1 (seamanship, navig) biti vezan na (sidru, plutači); 2 (boating/yachting) to head into the wind and stop forward motion zaustaviti se u vjetru

life /laɪf/ (n) (marine eng) vijek trajanja, rok trajanja extend the ~ of the engine produljiti vijek trajanja stroja, shelf life rok uporabe, rok trajanja: The shipowner's EO predicts ships will have far shorter shelf life. https://splash247.com/

life-belt (n) (safety) pojas za spašavanje

lifeboat (=lifeboat; life-boat; life boat) (n) (nav arch, safety) brodica za spašavanje, čamac za spašavanje, lajbot, Italian: lancia di salvataggio;
Make sure you are properly trained and familiar with the correct way to prepare and launch the lifeboat. As the seaman descended the aft davit cradle, he probably stepped on the winch brake lever extension, instead of the ladder rung, and released the lifeboat, compelling personnel to place themselves in a dangerous position on the inclined portion of the davit roller track when securing the lifeboat.

Portable pumps were transferred from the lifeboat to the trawler and the flooding was brought under control. At about 2 meters above the embarkation level, the lifeboat’s forward hook accidentally opened and the lifeboat dropped. The forward end of the lifeboat fell to the water but it was undamaged and there were no injuries to the crew. The brake then opened and the lifeboat lowered a short distance until the brake again applied itself and the boat swung violently onto two angled plates at the ship’s side, ... The starboard lifeboat, with three crew members on board, was unlashed and lowered to the water. Shortly afterwards, the port lifeboat was lowered. Twelve crew ran to the davit and swung off the hand brake to try to stop the lifeboat descending. freefall ~ brodica za spašavanje sa spuštanjem na slobodni pad, brodica za spašavanje koja se spuštaju vlastitim težinom:

The freefall lifeboat was inadvertently released. (https://safety4sea.com/), ~ capacity nosivost

brodice za spašavanje: While the vessel was at anchor the opportunity was taken to lower the free-fall lifeboat (capacity 16 persons) in order to test the engine, water sprays and provide training for the crew., ~ hoist the ~ podignutih brodic za spašavanje: Although untested, it was then used to hoist the lifeboat until the limit switch shut off the power., all-weather ~ (ALB) brodica za spašavanje za sve vremenske uvjete: The skipper made a distress call via VHF radio. In response, the coastguard tasked an all-weather lifeboat (ALB), which went to assist., ~ engine motor brodice za spašavanje: Operate lifeboat engine(s) and report. 5.1 All lifeboat engines are operational. 5.2 No. ... lifeboat engine is not operational (yet). 5.3 No. ... lifeboat engine will be operational in ... minutes. (IMO SMCP), ~ winch višto uređaja za dizanje / spuštanje brodice za spašavanje: Review the condition and specification of other lifeboat winch motors to ensure that they would not contribute to further incidents., ~ falls kolotunici uređaja za spuštanje / dizanje brodice za spašavanje, koloturnici čekrka (paranka) za spuštanje / dizanje brodice za spašavanje: Upon renewal of lifeboat falls, if time permits, the lifeboat must be lowered to the water level and the remaining length of fall wires on the winch drums must be estimated ... Whilst travelling as a passenger on a cruise ship I noticed that all the lifeboat falls had been clamped with only two bulldog grips., ~ equipment oprema za spuštanje / dizanje brodice za spašavanje, mehanizam za spuštanje / dizanje brodice za spašavanje: Therefore ship’s crew should take the utmost care to check and ensure lifeboat equipment remains fit for proper operation at all times., ~ stations 1 mjesta brodica za spašavanje na brodu: Do not go to the lifeboat stations until you are ordered to do so. (IMO SMCP); 2 VHF postaja brodice za spašavanje: The captain contacted the coastguard via Digital Selective Calling who alerted the rescue helicopter and two lifeboat stations., ~ embarkation ukraj u brodicu za spašavanje: On one of our vessels, the lifeboat embarkation ladder rope parted during an abandon ship drill conducted in the presence of the US Coast Guard., ~ hook kuka uređaja za spuštanje / dizanje brodice za spašavanje: Root cause/contributory factors Inadequate understanding and/or improper operation of the lifeboat hook on-load release system and resetting procedure.; ~ release gear uređaj za oslobađanje kuke uređaja za spuštanje / dizanje brodice za spašavanje, otpusni mehanizam: ... investigation of the lifeboat release gear test on MV ... which caused injuries to two people at the nearest ship repair yard, ~ release oslobađanje
During maintenance, the second engineer noted that the free-fall lifeboat release system hydraulics appeared to be losing oil and he wanted to personally confirm that all was in order. During maintenance, the second engineer noted that the free-fall lifeboat release system hydraulics appeared to be losing oil and he wanted to personally confirm that all was in order.

Unfortunately there have been a number of accidents, some fatal, resulting from a misunderstanding of the functionality of elements of rescue boat and lifeboat hoisting and lowering equipment. Launch the free-fall lifeboat release system hydraulics, hoisting and lowering equipment, launch the free-fall lifeboat release system hydraulics, hoisting and lowering equipment, launch the free-fall lifeboat release system hydraulics, hoisting and lowering equipment.

The two simulation wires, in place to allow for launch training but so as to prevent an actual launch, failed under the shock load and the lifeboat launched into the sea. The two simulation wires, in place to allow for launch training but so as to prevent an actual launch, failed under the shock load and the lifeboat launched into the sea. The two simulation wires, in place to allow for launch training but so as to prevent an actual launch, failed under the shock load and the lifeboat launched into the sea. The two simulation wires, in place to allow for launch training but so as to prevent an actual launch, failed under the shock load and the lifeboat launched into the sea.

All persons are safely on board a totally enclosed lifeboat in the davits and accounted for. All persons are safely on board a totally enclosed lifeboat in the davits and accounted for. All persons are safely on board a totally enclosed lifeboat in the davits and accounted for. All persons are safely on board a totally enclosed lifeboat in the davits and accounted for.

The vessel was at anchor the opportunity was taken to lower the free-fall lifeboat (capacity 16 persons) in order to test the engine, water sprays and provide training for the crew. Shortly afterwards, the port lifeboat was lowered. Shortly afterwards, the port lifeboat was lowered. Shortly afterwards, the port lifeboat was lowered. Shortly afterwards, the port lifeboat was lowered.

Enter the lifeboat / liferaft only when ordered by an officer / lifeboatman. (IMO SMCP)

Although untested, the davit was then used to hoist the lifeboat until the limit switch shut off the power. During a lifeboat drill in port, the crew of a container ship had some problems hoisting the lifeboat using the davit winch motor controls on the boat deck.

The drill was abandoned but as there was a substantial distance between the suspended lifeboat and the nearest ship’s deck, it was thought to be too risky to disembark the crew from this position.

During a routine lifeboat drill at anchorage an officer slipped when he was attempting to board a lifeboat which was lowered to the embarkation deck.

During a routine lifeboat drill at anchorage an officer slipped when he was attempting to board a lifeboat which was lowered to the embarkation deck.

The drill was abandoned but as there was a substantial distance between the suspended lifeboat and the nearest ship’s deck, it was thought to be too risky to disembark the crew from this position.
The were operating lifeboat securing or release equipment, recover the ~ podićе brodice za spašavanje iz mora: The vessel was turned around to recover the lifeboat, launch a ~ spustiti brodicu za spašavanje: All lifeboats aboard a facility, shall, at a minimum, be launched annually with the assigned lifeboat crew in order to fulfill the requirements of the annual emergency evacuation drill required by the unit’s Emergency Evacuation Plan (EEP).

https://safety4sea.com/

lifeboat davit (n) (nav arch, safety) soha brodice za spašavanje: Substantial damage had been caused to the vessel’s port quarter and lifeboat davit. The fourth engineer, along with the bosun, wrongly assumed that the job was officially assigned to them and proceeded to open up the brake unit on the port lifeboat davit.

lifeboat deck (n) (nav arch, safety) paluba brodica za spašavanje: The bosun had fallen onto a lifeboat deck some 5 – 6m below the crane operating platform, and had remained conscious.

lifeboat drill (n) (safety) vježba spuštanja brodice za spašavanje: During a lifeboat drill in port, the crew of a container ship had some problems hoisting the lifeboat using the davit winch motor controls on the boat deck. A planned lifeboat drill was carried out on a coastal tanker while she was alongside in port for engine maintenance.

lifeboat radio (n) (comm, safety) radio-stanica za brodicu za spašavanje

lifeboat station (n) (safety) mjesto brodice za spašavanje: By the time the seaman arrived at the lifeboat station the bosun had already begun the task. ...the Chairman of the Technical Committee he is responsible for the design, build and maintenance of all weather and inshore lifeboats and lifeboat stations. Follow the lifeboatmen to the lifeboat stations / liferaft stations on the embarkation deck. (IMO SMCP)

(http://www.quarterdeck.org/index.html) kolut za spašavanje, obruč za spašavanje, Italian: salvagente anulare: He threw the life buoy and marker stowed alongside the pilot ladder. Release the lifebuoy with light and smoke signal on side that man fell overboard.

Plot lifebuoy position. Uctaj poziciju koluta za spašavanje. https://www.vectorstock.com/royalty-free-vector/life-buoy-vector-313113; 2 (safety) pojas za spašavanje lifejacket (=lifejacket; life-jacket; life jacket) (n) (safety) = life-vest prsluk za spašavanje, Italian: giubbotto salvagente inflatable ~ prsluk na napuhavanje: The seaman had been wearing a manually inflatable 150N lifejacket which, for some unknown reason, he did not inflate. Two deckhands, who were wearing inflatable lifejackets and oilskins, went up onto the aft deck to prepare to launch the buoys.
lifeline (n) 1 (boating/yachting) the lines erected around the edges of decks to prevent sailors/yachtsmen from falling overboard uže ograde, čelično uže ograde; 2 a line thrown on board a wreck by life-saving crew; a knotted line secured to the span between life-boat davits for the use of the crew when hoisting and lowering.

life of a ship vijek trajanja broda: “The useable life of an asset (ship) can no longer be the standard 25 to 30 years which owners used to amortize their assets, as like technology and consumer goods, it will shorten significantly.”

life preserver (n) (safety) osobno užgansko sredstvo

liferaft (=liferaft; life-raft; life raft) (n) (safety) = raft splav za spašavanje, Italian:zattera di salvataggio board the ~ popeti se na splav za
According to survivors’ statements, six crew boarded a life raft while five others were able to board a lifeboat.

life ring (n) (safety) = lifebuoy kolut za spašavanje, obруч за spašavanje: A life ring has been found from the cargo ship …., which went missing on Thursday after sailing through Hurricane Joaquin in the Bahamas.

life-saving apparatus (n) (safety) sredstva (oprema) za spašavanje: The life-saving apparatus includes lifeboats, inflatable rubber liferafts, lifebuoys and individual lifejackets.

life saving appliances (n) (safety) oprema za spašavanje: Life saving appliances are a crew’s last chance at survival if disaster strikes. An officer was undertaking his inspections of the various life saving appliances on a relatively new (two years) small coastal vessel. … the lifeboat manual and class certificate, which gives the details of life saving appliances/fire fighting appliances, gave the correct diameter.
lifesling (n) (boating/yachting) plutajuće uže za spašavanje

life span of depression (n) (meteorol) trajanje ciklone
life-vest (=life-vest; life vest) (n) (safety) prsluk za spašavanje: For the task, the bosun’s mate was wearing the obligatory working life-vest, but the bosun was dressed in a coverall and riggers boots. Next, a seaman wearing all appropriate PPE, including an inflatable life vest and safety harness with lifeline, descended to the bottom platform of the gangway to monitor the lowering of the pilot ladder. A life vest must be made available, and personnel strongly encouraged to wear it during transfers.
don the ~ staviti na sebe prsluk za spašavanje, obući prsluk za spašavanje: After donning a life-vest, safety harness, other PPE and taking a portable light, I went aboard alone to investigate the cause of the list.
lifting plant (n) (cargo handling) = lifting gear brodski uređaji i alati za teret: Check that all lifting plants (dericks, cranes, wires, blocks etc) are in good condition and properly rigged.
**lift** (v) *podignuti, podići, dizati*: To **lift the boat** from its chocks, the motor controls were operated, but there was no movement of the winch. With the mate keeping a watchful eye on deck, the master **started to lift the ‘A’ frame into position** using separate heaving and luffing winches; heaving in on one set of winches and slacking back on the other. The bosun began to **lift the load**, with the skipper of the stores barge steadying it as it cleared the deck. **lift clear of podignuti s, podignuti izvan dohvata**: Despite the efforts of the tug, the stern moved off the quay, requiring the ro-ro ship’s stern door to be **lifted clear** of the linkspan, ~ on podignuti na brod, ~ off iskrati (s broda), istovariti (iz vagona, kamiona), ~ up podignuti (se): The tanker made contact with the walkway, causing it to **lift up** and fall into the water.

**lift height** (n) *(cargo handling)* visina dizanja tereta: The new cranes will be capable of serving ultra-large container vessels with an outreach of 24 containers and a **lift height** of 165 feet above the pier deck.

**lifting appliances** (n) *(cargo handling)* sredstva za ukraj/iskraj tereta, prekrcajna sredstva: Examinations of **lifting appliances** and loose gear should be carried out by persons competent, by virtue of their knowledge and experience, to do so. As a result of serious local degradation of the wire in excess of the limits set by the classification society in their ‘**Rules for the Certification of Lifting Appliances Onboard Ships**’. ... the ‘tightening’ is achieved simply by a person holding or tapping down the unloaded eye as the weight is taken by the **lifting appliance**. A **lifting appliance** generally has no ‘redundancy’ – so a single failure is enough to cause a major accident.

**lifting beam** (n) *(cargo)* greda za (teški) teret: **Lifting beams** and spreader bars are designed to lift heavy loads with a crane safely and efficiently. **Lifting beams** can be provided with fixed or adjustable load centres, adjustable centre of gravity etc. **Heavy lifting beams** are suitable for heavy and

long articles such as locomotives, boilers or railway passenger coaches.

**lifting boom** (n) *(cargo handling)* pomični krak mosne dizalice, grana dizalice, samarica: ... the **lifting boom** of a crane fell onto the containership ...
lifting capacity (n) (cargo) nosivost dizalice, moć dizanja: Four gantry cranes, lifting capacity 3 x 30 tons and 1 x 50 tons, are used for handling ore and coal. The derricks are the ship's cranes, and their lifting capacity can vary from 3 tonnes to 50 tonnes or more.

lifting equipment (n) (cargo) uređaji za dizanje, brodski uređaji za krcanje tereta: Lifting equipment should always be in date for survey or test before it is used. Follow the guidance on lifting equipment published by the MCA in Marine Guidance Notes 331 and 332 and in the Code of Safe Working Practices. Lifting equipment should always be in date for survey or test before it is used. <source>Safety_Digest_3-05</source></sentence></tlCorpus>

lifting force (n) (cargo handling) the resultant vertical lifting force acting on stowed containers, causing damage to the containers sila podizanja: Exceeding lifting forces can be reduced by use of diagonal or vertical lashing units.

lifting frame (n) (cargo) = lifting beam okvirni nosač za dizanje tereta: Lifting frames are used to lift a wide range of commodities including unitised pulp, timber, plywood, aluminium, copper, and lead, as well as non-unitised commodities such as slung timber, tissue reels and big bags of bulk commodities. The Safe Working Load (SWL) of an item of ship’s lifting gear is the safe maximum weight that can be lifted with the load suspended directly from the hook in the standard configuration or in other specified
lifting gear (n) (cargo handling) the lifting equipment (i.e., cranes) for loading and discharging operations. https://officierofthewatch.com/tools/nautical-dictionary/ uredaj za ukrcaj / iskrcaja tereta na brod / sa broda, lučka vertikalna mehanizacija, sredstva za ukrcaj, obalne dizalice: Attached to the lifting gear is a shackle which links the crane or derrick with the form of cargo-handling equipment being used. All the vertical cargo movements are conducted by the lifting gear (lift-on/lift-off equipment). It may be preferable for the ship's crew not to handle any item until the delivery personnel have placed each lift on the wharf under the lifting gear, such that the contents can be visually sighted and verified against proper documents.<source>MARS reports_1992-2016</source> 2 (cargo handling) alati za hvatanje tereta, naprave za hvatanje tereta: The lifting gear and sling were duly certified for the load and had not been subjected to any severe loads since new;

lifting height visina dizanja (kraka dizalice): Important measurements are the minimum lifting height for lifting tackle, shortest distance between driving motor and wall, free passage for dismantling and assembly, maintenance and operation.

lifting hook (n) (cargo handling) kuka za dizanje tereta: The first problem encountered was that the wire fall from the davit head did not plumb over the lifting hook.

lifting machinery (n) (marine eng) postrojenje za dizanje

lifting speed (n) (cargo handling) brzina dizanja

lift on/lift off (=lo-lo ship) (v) (cargo handling) COMPARE roll-on/roll-off
dizanje i spuštanje tereta, vertikalne operacije s teretom: In the current trade today, a portion of the ship is roll-on/roll-off; a portion of the ship is lift-on/lift-off. (n) ~ equipment vertikalna mehanizacija: All the vertical cargo movements are conducted by the lifting gear (lift-on/lift-off equipment), and construction of the container ship TEU container ship cell guide The main characteristic of a container ship is that it depends on shorebased lift-on/lift-off equipment, mainly container gantry cranes (also called portainers), to handle its cargo. uredaji za dizanje tereta, ~ services (shipping econ) (n) usluge lučke vertikalne mehanizacije, usluge iskrcaja/iskrcaja tereta (u luci), ~ vessel (nav arch) COMPARE roll-on/roll-off vessel brod s klasičnim uredajem za teret, brod za vertikalne operacije s teretom: Lift-on/Lift-off (LoLo) vessels use a crane to load and unload cargo.

lift pump (n) (marine eng) A mechanical or electric supply pump that sends fuel from the tank to the injection pump. (http://www.marinedieseleurope.com/) usisna pumpa

light /lait/ (n) 1 (navig) any of a ship's navigation lights navigacijsko svjetlo,

Italian: fanale: The skipper then picked up the quick flashing green light at the end of the destination's quay. all-round ~ on omnidirectional light; a light which presents the same characteristic over the whole horizon of interest to marine navigation. svjetlo vodljivo sa svih strana (u 360 stupnjeva): The pole mounted all-round white light was broken. anchor ~ sidreno svjetlo: Switch on the anchor light(s). Hoist the anchor ball. Check the anchor position by bearings / by ... . The anchor position is bearing ... degrees, distance ... kilometres / nautical ... (IMO SMCP),

background ~ pozadinsko svjetlo: Large tows and background light also often obscure the tug's stern light and the light for the tow to steer by from an overtaking vessel, flashing ~ bljeskajuće svjetlo: It is painted in the same colours as the north cardinal mark and is fitted with a quick flashing light. After I had called three or four times, she started showing a red flashing light (generally used on tankers during cargo work.), masthead ~ jarbolno svjetlo: Through
binoculars, he identified the **masthead light** and the port side light of what he assessed to be a power-driven vessel crossing the traffic lane. She was exhibiting a **masthead light**, port and starboard sidelights and a stern light., **towing - svjetlo za tegljenje**: It took a while before I could clearly distinguish the **towing lights**, due to the bright deck lighting of the tug., **screened - zaslonjeno svjetlo**, **signal - signalno svjetlo**: 200057 Two vessels were seen during one evening exhibiting red over white over red **signal lights** whilst steaming normally along the South West Lane of the TSS off Vlieland and Terschelling. A **signal light** exhibited by day and also, usually with reduced intensity by night., **station - položajno svjetlo**: ... a narrower frequency band can be used, and the signal is less subject to manmade interference or selective fading **single station range light.**, **exhibit a light istaknuti / pokazati svjetlo**: A power driven vessel underway, even when not making way through the water, **should exhibit the lights** prescribed in rule 23., **show a - istaknuti / pokazati svjetlo**: These 40-foot diameter buoys **show lights** from heights of about 71 36 feet above the water. 5 knot container vessel, draft of 13.5m, was **showing 3 vertical red lights.**, **12 mile range - svjetlo / svjetionik s dosegom od 12 milja, display a - istaknuti svjetlo, height of - visina svjetla, observe a - opaziti navigacijsko svjetlo, primijetiti navigacijsko svjetlo**: Those in vessel A observed the **starboard green sidelight** and **masthead lights** on vessel B.  www.safety4sea.com;

**light (navig) upaliti svjetlo (na jarbolu, plutače itd):** The crossing vessel's forward working and deck lights were still lit.

**light (adj) 1 lagan; 2 prazan, bez tereta (n) - ship (shipping econ, stabil) brod bez tereta, prazan brod**

**light air (n) (meteorol) lahor, Italian: bava di vento:** The weather conditions were good with **light airs** and excellent visibility.

**light airs (n) (boating/yachting) lagani vjetar**

**light alloy (n) lagana slitina, lagana legura**

**light beacon (n) (navig) svjetleća oznaka**

**light breeze (n) (meteorol) COMPARÉ calm, gentle breeze, moderate breeze, fresh breeze, strong breeze, light air povjetarac, bava:** The weather was fine, with a **light breeze** and rippled sea. In some places the wind becomes a **light breeze** which is unsteady in direction, or stops altogether, while in other places it continues almost undiminished, with changes in direction or calm. The sea was calm, there was only a **light breeze** and visibility was very good.

**light buoy (=light buoy; lighbuoy) (n) (navig) plutača sa svjetlom:** The third mate thought the green light was from an expected isolated danger beacon and he responded to the lookout that the light was a distant **light buoy**. Large deep-draught vessels are requested to stay at least 1 nautical mile eastward of the **Light Buoy** for pilot boarding because of the strength and proximity of the Gulf Stream current. **red - plutača sa crvenim svjetlom, ~ marking the approach**
**light characteristics** *(n)* *(navig)* karakteristike pomorskih svjetala: The top marks and light characteristics of the beacons indicate that the clear water lies between them ... Consult the chart for the location and light characteristics of all navigation aids; consult the light lists to determine their detailed description.

**light dues** *(n)* *(mar law)* naknade za korištenje plovnih putova, pristojbe za korištenje plovnih putova, naknade za korištenje oznaka na plovnim putovima: The officer issuing the clearance must also satisfy himself that harbour and light dues have been paid, and that emigration and port health regulations have been carried out. The master or the agent must go to the Custom House and first pay the outward light dues unless these dues have already been fully paid for the current financial year.

**lighten** /ˈlaɪtn/ *(v)* *(safety)* making a ship lighter by removing weight into another craft or by jettison:

**olakšati brod (iskrcavanjem dijela tereta):** There is a possibility to dredge under the vessel or lighten the LNG carrier by a ship-to-ship transfer of a portion of its bunker fuel or cargo.

**lightening holes** *(n)* *(nav arch)* Large apertures cut in floor plates, side girders, and tank bracket plates. 

**lighter** *(n)* *(nav arch)* = barge: a full-bodied, heavily-built craft, usually not self-propelled, used in bringing merchandise or cargo alongside or in transferring same from a vessel teglenica, maona, barža: When a shipper’s cargo is loaded into lighters from a stranded ship and is taken straight to its destination, the rights and liabilities involved in this are not affected, ...
lighter (v) (safety) olakšati brod (iskrcavanjem tereta), isprazniti (teret s broda) u teglenicu ~ the ship: Authorities lightered the ship by removing 500 tonnes of rice from it to allow the stranded ship to refloat.

lighter-aboard-ship (=LASH) (n) (nav arch) brod za pripjevoz teglenica:
Containerization, lighter-aboard-ship, and barge-aboard-ship operations have facilitated the shipping of cargoes between oceangoing vessels and those of the inland waterways.

lighterage 1 (n) (shipping econ) Fee charged for conveying cargo by lighters or barges cijena pripjevoza teglenicom; 2 pristojba za upotrebu teglenice: The buyer will be responsible for the charges involved in getting the goods off the ship to his warehouse, such as lighterage, dock dues and custom duties.

lighthouse (n) (navig) a lighted beacon of major importance, usually erected on shore svjetionik, lanterna, Italian: faro: As a vessel proceeds along a coast, the bearing of a fixed point on shore, such as a lighthouse, is measured frequently. INFORMATION: The fairway entrance is: position: bearing 1-3-7 degrees true from North Point Lighthouse, distance: 2 decimal 3 miles REQUEST: Please supply bunkers: quantity: 3 thousand metric tonnes (IMO SMCP) Thank you, Sir. Starboard ladder, and approach the Ambroze Lighthouse from the east. A beacon (S31) stands over a reef about 2.5 n.m. to the NNW of the lighthouse.

lighting /ˈlaitiŋ/ (n) (nav arch, electr) rasvjeta, sustav rasvjete na brodu: The retrieval was achieved with considerable difficulty due to inadequate emergency lighting aboard the pilot launch, ... Persons must move with caution in areas that may have obstructions, especially under low lighting conditions; A lack of lighting have been more sensible to let the master on the controls made it difficult for the continue to steer the vessel ... ~ distribution razvod rasvjete

lighting fishing boat (n) (nav arch, fishing) svjećarica

lightning (n) (meteorol) 1 any form of visible electrical discharges produced by thunderstorms munja, strijela: A violent squall with thunder and lightning, encountered during the rainy season along the west coast of Central America.; 2 sijevanje, grom: A squall with violent thunder, lightning, and rain, which blows at night in the Malacca Straits, especially during the southwest monsoon. The circular applied to any severe local storm accompanied by gusty winds, precipitation, thunder, and lightning. If the thunder accompanying lightning cannot be heard due to its distance, the lightning is called heat lightning.

lightning rod (n) (nav arch) šiljak gromobrana, šiljak munjovoda: A luminous discharge of electricity from pointed objects such as the masts and arms of ships, lightning rods, steeples, etc.

light off tests (n) (nav arch) Light-Off occurs as various major components of the ship are completed, energized and tested ispitivanja rada pojedinih sustava broda: Light-off events include electronic systems light-off (which may include the ship’s Command, Control Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) equipment),
light range (n) (navig) svjetlosni domet: ...the new buoy with an increased light range has now been established.

light recognition (n) (navig) raspoznavanje navigacijskih svjetala

---

**pajoli**

**limber hole** *(n) (nav arch)* a hole or slot in a frame or plate for the purpose of preventing water from collecting; Holes in the bottoms of stringers through which cargo flows through to the suction strums. List - The leaning of the vessel to the port or starboard. (www.euronav.com) slivnica, sljevnica,

---

**slivnik, kaljužni otvor, manikela, brunal**

[https://forshipbuilding.com/ship-construction/bottom/](https://forshipbuilding.com/ship-construction/bottom/)

**limber strakes** *(n) (sailing vessels)* nutarnja oplata (uz hrptenicu)

**limewash** *(v) (cargo handling)* prati (brodsko skladište) vapnenom vodom

**limit** *(n) granica fatigue ~ (nav arch, marine eng) granica zamora materijala*: If the material is loaded below the fatigue limit, which in the example shown is $14 \times 10^3$ psi ($95 \times 10^3$ kN/m²) then it will not fail regardless of the number of stress cycles.

**limitation of liability** *(n) (mar law)* ograničenje odgovornosti: the tanker owner may not avail himself of the limitation of liability for oil pollution damage if the incident occurred as a consequence of the actual fault of, or of someone in privity with, the owner failure to comply with this
article will remove the limitation of liability cover from the shipowner the carrier shall not be entitled to benefit from the limitation of liability if it is proved that the damage resulted from an act or omission of the carrier.

**limitation of shipowners' liability** *(n) (mar law)* The ancient right of shipowners, later extended to charterers, managers, salvors and insurers of ships, to limit their liability for certain maritime claims, either to a sum representing the value of the vessel and pending freight after the casualty, or to a sum determined by the tonnage of the vessel, depending upon the jurisdiction concerned and the applicable or national law.

**ograničenje brodarove odgovornosti**

**limited company** *(n) (mar law)* dioničko društvo

**limited liability company** *(n) (mar law)* dioničko društvo, d.d.

**limit stop** *(n) (electr)* graničnik

**limit switch** *(n) (electr)* krajnja sklopka, krajnji prekidač, sigurnosna sklopka: The proximity sensor/limit switch fitted to the davit was considered by its manufacturer to be inappropriate for use as a 'final stop' or safety device. The davit arm limit switch was found to be working correctly. Although bench tests showed the limit switch to be operating normally, it did not cut power when

the crane block exceeded the set limit.

**Line** *(geogr)* Ekvator, podnevnik cross the Line prijeći Ekvator: The ceremony of Crossing the Line is an initiation rite that commemorates a sailor's first crossing of the Equator.

www.nauticapedia.ca/Articles/Crossing_the_Line.php, ~crossing ceremony svečanost

**prijelaska Ekvatora**

**line** *(n)* crta, linija, pravac: A rhumb line makes the same angle with all meridians it crosses and appears as a straight line on a Mercator chart. in line (with) 1 u jednom pravcu, u ravnoj liniji, na ravnoj liniji: Fix by Range and Distance: When the vessel comes in line with a range, plot the bearing to the range and cross this LOP with a distance from another NAVAID. The 2/O on the 8/12 watch had commenced his morning watch on the bridge and, in line with the Master's Standing Orders, had started one engine after the ship had spent a period of time drifting.; 2 usporedan s; 3 centiran line *(n) = rope, wire 1 (seamanship)* A general term for a rope of any size used for various purposes: small cords such as long line, lead line, or small stuff as marlin, ratline, houseline, etc.

(https://www.public.navy.mil) uže, konop; 2 (ship handling, seamanship) = mooring line

privezno uže, privezni konop, cima, Italian:cavo; cima: the line landed on the dock konop je pao na obalu the line parted konop je pukao, uže je puklo as the line runs out dok konop izlazi (iz broda) Tow line have short. Teglo pritegnuto (na blizu) Heave away! Počinji potezati!, Poteži! Heave easy on the line! Poteži polako!, Napinji polako Heave the line tight! Napni konop jako! All gone and clear! Svi konopi otpušteni i prikupljeni. Let go fore and aft! Otpustite sve konope! Mola sve! Single
line

up! Odbaci sve konope osim jednog! Single up! Surge! Neka konop klizi na bubnju vitla! **to bend the ~**

**zavezati (tanji konop za deblji):** Reving a small diameter messenger of sufficient strength and length through the rigging as the old wire is being unreved, and subsequently securely **bending the messenger line** on to a small single-strand eye or the plain end of the new runner wire with a series of timber hitches, may be a safer method, **to cast a ~ baciti konop, dobaciti konop (na obalu), to cast off a ~ 1 otpustiti konop:** Awoken by the sound of the engines, one of the deckhands got up and went on deck to **cast the lines off.** On pilot's advice, all lines were cast off, and the two tugs began pulling the vessel away parallel from the berth. **2 odbaciti konop (s bitve), to check the ~ zaustavit konop (na kočnici vitla), to get the ~ across dobaciti (baciti, dodati, prebaciti, predati konop tegljaču itd.), to get ~ ashore baciti (dobaciti) konop na obalu, to get the ~ on board povući (prikupiti) konop na brod, to haul (in) the ~ povući (privači, prikupiti) konop (smanji labavost konopa), ručka za upućivanje, prikupiti (povući) konop na brod, rekuperat, to heave on the ~ zategnuti (napeti) konop, to heave the ~ 1 potezati (natezati) konop: ... since the ship’s crew was not be able to pull the line on board by hand, the mate went to the bridge door and shouted to them to **heave the tow line using one of the ship’s mooring winches, so that the buried turn could be pulled free from the winch drum.**

**2 baciti konop ili bacalo na obalu (drugi brod), to let go the ~ otpustiti konop, odbaciti konop (s bitve), molat:** During this manoeuvre, OSV1 also let go all ropes, and as soon as OSV2 was on the port beam, went astern. He then handed the con to the trainee master, who gave the order to **let go the mooring lines.**

**to make ready the ~s pripremiti konope (za privezivanje / odvezivanje):** When the vessel reached a position about a mile from the harbour entrance, all three deck crew members were called to **make ready the vessel’s moorings and fenders.**

**to make fast the ~ vezati konop, privezati (i učvrstiti) konop, pričvrstiti konop:** The Master instructed the C/O to slack on that spring too, however, the C/O instructed the AB to **make fast the spring on the bitts.**

**to pass the ~ (down) to dodati (dati, predati) konop nekome (niz brod):** A deckhand normally **passed the line** from the workboat to the dredger, to **pick up the ~ uhvatiti konop, prihvati konop, Čapat, to pay out on the ~ puštati konop (kako se brod odmiče od obale / veza), pratiti konopom (brod koji se odmiče od obale), puštati konop (dok izlazi s palube ili vitla):** Using a drum end as a winch, and expecting the controller to react quickly enough to stop heaving or **pay out the line**, is highly dangerous. On the tug’s bridge, the chief engineer was controlling the towing winch and he started to **pay out the tow rope** as he saw the tanker take up the slack in the messenger line.

**to pull the ~ on board vući (povući) konop na brod:** When the tug’s mate saw that the vessel’s mooring team were attempting to manually **pull the tow wire up**, he shouted up to them to stop and use the mooring winch instead. Knowing that the jammed tow line meant that the ship’s crew would not be able to **pull the line on board** by hand, the mate went to the bridge door and shouted to them to heave the tow line using one of the ship’s mooring winches, ... **to put some weight / strain on the ~ malo zategnuti konop (toliko da nije labav), to put the ~ on / to the winch prebaciti konop preko / na vitlo, to put a few turns of ~ on the winch namotati konop nekoliko puta oko vitla, to remove the slack on the ~ uvući (povući) konop (tako da nije labav), to run the ~ through provući / provrsti konop kroz, to run the ~ out izvući /
izvlačiti konop (s palube, kroz oku), to secure the ~ pričvrstiti konop, vezati konop: ..., the sailor was able to secure the line and arrest drifting of the boat All lines were secured and clear of the water. (https://safety4sea.com/), to send away the ~ baciti /
dobaciti konop ( na obalu), to slack away the ~ popustiti konop, laškat: Slack away towing line. The sailor must be able to steer, paint, sew, scrub, polish, scrape, splice, drive a winch, keep a lockout, slack away a backspring and do a hundred other jobs., to slack off the ~ popustiti konop, to stopper off the ~ osigurati (privezni) konop manjim /
tanjam užetom, bocat, bocavat, to stow the ~ složiti / pospremiti konop, to turn the ~ on / to prebaciti konop preko (bitve, vitla), to take the ~ on the bitts / winch prebaciti konop preko bitve / vitla, to unbend the ~ odvezati konop (tanje uže od priveznog konopa), odriješiti konop, to take up the slack on the ~ potegnuti / napeti konop, to heave away (on) the ~ početi potezati,
mooring ~ privezno uže, privezni konop: The officer on the aft mooring station passed a mooring line ashore, which then parted, and could have injured a crewman., breast ~ bočno uže:
The head line and breast line began to run out around the bitts, and the starboard anchor was let go.,
buoy ~ uže za privezivanje na plutaču, head ~ pramčano uže, provijera:
Then third mate proceeded to heave up a head line and the OS was asked to heave up the starboard breast line., heaving ~ bacalo, pandul: The stern line was quickly secured, but the head line heaving line became snagged on an obstruction on the monobuoy’s body. The ship’s crew threw a heaving line onto the tug’s foredeck and the tug’s chief engineer made it fast to the messenger, which was attached to the tow line., stern ~ krmeno uže: At about 1620, he walked towards the Panama chock to check the spring line, while an able seaman close by was preparing a stern line for the mooring tender. The stern line was quickly secured. The ship surged about 5 metres up the jetty, the remaining stern line parted and the ship’s stern started to leave the quay., life ~ sigurnosno uže, uže za spašavanje: He was holding on to the life line, so did not get injured. In an open life boat the life line gives support in an emergency right to the moment the boat takes to water., messenger ~ uže (oko broda, brodice, pramca, krme) za hvatanje drugog užeta ili lanca, mesinđer:
The carpenter had taken approximately eight to ten turns of the thick messenger line around the drum. A messenger line is recommended for handling these lines from the tug to the vessel’s deck., spring ~ špring: At that moment, the spring line held on the winch drum came under extraordinary load and parted at the Panama chock (Figure 3.), tow ~ teglo, uže za tegljenje: The tow line became taut and the mate, who was at the bridge controls, stopped the ship as he could no longer pay out the line. A tug approached stern to stern with the containership ready to make fast a tow line from her aft tow winch, as was normal practice., wire ~ čelično uže, čelik-čelo, sajla
line (v) obložiti
line (n) (fishing) povraz, struna, tunja, najor (za ribolov) fluorcarbon ~
fluorkarbonski povraz, monofilament ~ povraz od jedne niti, monofil
line (n) 1 (mar law, shipping econ) brodarska linija: Major damage to a line ship Involved in collision off China; 2 (mar law, shipping econ) linijski brodar: Despite ‘early gains’, container lines are in for another year of losses. Maersk Line has recorded a significant profit this year.; 3 (mar law, shipping econ) brodska linija (putnička)
line (n) 1 = fishing line povraz, tunja, struna a panula fishing ~ s panule: A
fishing line has fouled our rudder obstructing the steering of the vessel.

line (n) (navy) formacija ratnih brodova u brazdi
line (n) (electr) električni vod, kabel
line (n) (marine eng) tube, pipe cjevovod, vod main feed ~ glavni napojni
cjevovod: The pipe in the main feed line had burst. starting air ~ cijev zraka za
upućivanje, cjevovod zraka za upućivanje: The heating generally occurs due to the
passage of hot gases from the engine cylinder to the starting air line. The heating occurs due to the leakage of hot gases from the engine cylinder into the starting air rail
line (n) (nav arch, cargo handling) cijev za tekući teret, teretni cjevovod:
Investigations may therefore be necessary to prove that the vessel's valves, lines and pumps are all in good
order.

line (n) (nav arch) brodska cijev, cijev brodskih cijevnih instalacija
line (n) (shipping econ, mar law) brodarsko društvo, brodarska kompanija the
Line brodarsko društvo, brodarska kompanija
linear strain / lineə ,streɪn/ (n) (marine eng, nav arch) linearna deformacija
linear stress / lineə ,stres/ (n) (marine eng, nav arch) linearno naprezanje
line boat (n) (nav arch) a large towboat is used to push from 5 to 40 barges in a tow tegljač s
tegljem, riječni tegalj: A line boat and a work boat were then used to hold the vessel alongside. They failed to recognise risk of line boat got trapped between ship and quay, particularly with onshore wind or tide.
line dressing (n) (fishing) opremanje povraza, Italian: montaggio: The new line
dressing will further improve flotation, casting and durability also.
line fishing (n) (nav arch) ribolov parangalom, ribolov povlačnim
povrazima: The anchor, which was used to hold bait for rod and line fishing, was proving very
difficult to heave in. long ~ ribolov parangalom
https://infogram.com/long-lining-1g6v4m781ekrp18

line handlers (n) (navig) brodoprivezivači: The vast majority of seafarers do not readily
appreciate the hazards faced by line handlers on the shore during berthing and unberthing operations.
line handling (n) 1 (seamanship) rukovanje konopima: He was more experienced at line
handling than most of the other crew members.; 2 privezivanje / odvezivanje brodova
line haul (n) (shipping econ) marine portion of a vessel's route covering the greatest distance, usually
across an ocean prekomorski prijevoz, prekomorska brodska linija
line hauler (n) (nav arch) vitlo: ... a large hopper was set into the deck beneath the line hauler.
lineman (=linesman; pl. line(s)men) (US) privezivač: It was his intention to surge the
rope while heaving so that just enough slack was given for the linesman on the quay to cast off, and the
rope could then be retrieved smartly to keep the propellers clear. After signalling to the linesman to keep his hands clear, the bosun set the capstan to ‘haul’ with his left hand and attempted to surge the mooring rope using his other hand.

**linen** /ˈlinin/ (n) (seamanship) posteljina, rublje  
line of bearing (n) (navig) linija azimuta: One of a pair of unlighted structures is used to mark a definite line of bearing.  
line of buoys (n) (navig) niz plutača, linija plutača: The channel is usually marked by a single or double line of buoys and sometimes by ranges.  
line of business struka, vrsta posla: What is your line of business? Čime se bavite?  

Ko jim poslom se bavite?  

**line of intersection** crta / linija presijecanja  
**line of no variation** (n) (navig) agonička linija, linija točaka bez varijacije  
**line of position (=LOP)** (n) (navig) The locus of points along which a ship’s position must lie. A minimum of two LOPs are necessary to establish a fix. It is standard practice to use at least three LOPs when obtaining a fix, to guard against the possibility of and, in some cases, remove ambiguity. (http://www.sailingissues.com/navcourse4.html) stajnica, linija položaja, linija pozicije: The navigator then has enough information to plot the line of position. When advancing a line of position, consider course changes, speed changes, and set and drift between the two bearing lines. The PCD can cause line of position errors about 6 to 8 nautical miles. A long range medium frequency (1850 to 1950 kHz) radionavigation system by which a hyperbolic line of position of medium accuracy was obtained.  

[Image of line of position](http://www.aztecsailing.co.uk/theory/ch1%20sect%206.html)  
**line of throw** (n) (marine eng) linija kretanja (stapa)  
**line operator** (=liner operator) (n) (shipping econ, mar law) SEE liner operator  

linijski brodar, linijsko brodarsko poduzeće  
**line pull** (n) (seamanship) vlak, povlak užeta: All blocks are at their strongest when the strain is applied in a straight line pull. Bollards were once designed to take line pull loads of about 35 tons. Modern container ports usually have bollards with 100-ton line pull capacities.  

**liner** /ˈlainə/ (n) = liner ship (shipping econ) Vessel (over 1000 grt) operating on a regular route between ports according to a particular schedule.  

https://officerofthewatch.com/tools/maritime-dictionary/linjaš, linijski brod, brod  

linijske plovdbi, brod redovite plovdbi: I was the bridge watchkeeper on a 9,000 grt cargo liner belonging to a reputable company. Both ships were container liners and subject to extreme commercial pressure to maintain schedules and therefore reluctant to reduce speed. Liners operate on fixed routes. cargo ~ teretni linijski brod, linijski teretnjak: ... heavy or bulky cargoes are likely to be troublesome or impossible to carry for the ordinary liner cargo vessel. Own ship was a 10,000 ton cargo liner on passage in the South Atlantic from the UK to South Africa. ocean ~ prekooceanski linjaš, prekooceanski linijski brod: Ocean liners also usually have larger capacities for fuel, victuals, and other stores for consumption on long voyages, compared to
liner (n) (marine eng) a cylindrical part to be fitted into an engine block to form a cylinder; a cylindrical part to be fitted into an engine block to form a cylinder

dedicated cruise ships.

košuljica, radna košuljica: Multi-level cylinder lubrication was adopted to ensure sufficient lubrication of the liner. Gas sealing between liner and cylinder head is effected by an iron ring. cylinder ~ košuljica cilindra, radna košuljica: The piston and severely distorted connecting rod were hanging from the cylinder liner. The cylinder liner features a high collar and drilled cooling channels. The cylinder liner is a one-piece casting and incorporates the scavange and exhaust ports in the lower and upper sections, respectively. dry ~ košuljica smještena u cilindru na suho: Close contact between dry liner and casting is absolutely necessary; if it is missing, considerable resistance to heat flow results. wet ~ mokra košuljica: In wet liners the water is in direct contact with outer surface of the liner whereas in dry liners the water is in indirect contact with outer surface, compression ~ odstojni element, podloška, uloška, podložna pločica, ~ wear trošenje košuljice: The common rail on the engine. der liner, reduces carbon deposits on the edge of the piston crown and reduces cylinder liner wear. ~ wall stijenka košuljice cilindra: While trying to avoid corrosive wear by optimizing liner wall temperatures, it is necessary to keep as much water as possible out of the cylinders. ~ surface površina košuljice cilindra: A uniform temperature pattern over the entire liner surface is reportedly secured through intensive cooling by a special water feed in its upper area. ~ bore provrt košuljice: The liner bore has tiny porous spots which can retain lubricating oil. The upper part of the liner bore, where the top piston ring reaches the top of its travel, suffers the greatest wear. ~ cooling hlađenje košuljice cilindra: Various possibilities for securing load-dependent cylinder liner cooling have therefore been investigated. ~ running surface radna površina košuljice cilindra: The insulating tubes are adapted according to the engine rating to ensure that the temperature of the liner running surface is kept above the dew point temperature of water over the full length of the stroke and over a wide load range. ~ lubrication podmazivanje košuljice cilindra: The five-ring pack includes two compression rings while two spring-loaded scraper rings control lube oil consumption, their position in the upper part of the skirt facilitating easier piston and liner lubrication. bore-cooled ~ hlađenje kroz radijalne kanale u košuljici: Other refinements included a bore-cooled cylinder liner and a bevel-cut connecting rod allowing the crankpin diameter to be enlarged. ~ large bore ~ košuljica širokog provrta, worn ~ istrošena košuljica cilindra

liner (n) (navy) a major warship capable of taking its place in the main (battle) line of fighting ships

liner bill of lading (n) (mar law) a document issued by a carrier (or their agent) to acknowledge receipt of cargo for shipment. Although the term historically related only to carriage by sea, a bill of lading may today be used for any type of carriage of goods

liner conference (n) (shipping econ, mar law) = freight conference = shipping
**liner operation** (n) *(shipping econ)* linijska plovidba, linijski srevis: Therefore, in **liner operation** the regular scheduled service is the basis of this particular type of ships, ...

**liner operator** (n) *(shipping econ, mar law)* liner operator means a vessel-operating common carrier engaged in liner service (https://www.law.cornell.edu/cfr/text/46/appendix-A_to_part_535); “liner operator” means an undertaking which provides liner shipping services; and is a party to a liner shipping agreement. (https://sso.agc.gov.sg/SL/CA2004-OR1) linijski brodar: When accepting the booking of scrap shipments, **liner operators** must demand that the shipper declares the exact nature and contents of scrap in writing.

**liner port** (n) *(shipping econ)* linijska luka

**liner service** (=service) (n) *(shipping econ)* Liner service consists of regularly scheduled shipping operations on fixed routes: linijska plovidba, linijska služba, linijski servis: General cargo vessels and multi-purpose vessel often operate on liner services. The ship sailed later the next morning, and being on a **liner service**, returned to the same port after six weeks. On a **liner service**, the ship operates to a schedule, it trades on a specific route between advertised load and discharge ports on a regular basis. Competition in **liner service** is regulated generally by agreements, known as conferences, among the shipowners. In **liner service** the service must be marketed, the cargoes documented, arrangements made for loading and discharging these cargo all of which fall under the heading **be engaged on a** ~ biti u linijskoj službi (o brodu): The vessel was engaged on the Company’s **liner service**, linking ports in China with ports in the Middle East.

**liner’s haulage** (n) *(logist, mar law)* Liner’s haulage is the preliminary and subsequent transport of a container being carried out by the shipping company itself is referred to as liner’s haulage.

https://www.logisticsglossary.com/letter/?letter=l

**liner ship** (n) *(shipping econ)* = **liner** = cargo **liner** linijski brod: It would require hundreds of freight aircraft, many miles of rail cars, and fleets of trucks to carry the goods that can fit on one large **liner ship**. About 20 percent of **liner vessels** are ships other than container ships. **Liner ships** also include some car and truck carriers designed specifically to handle passenger vehicles and trucks, ...

**liner shipment** (n) *(shipping econ)* linijska pošiljka: Ad valorem freight is freight charged as a percentage of the value of a shipment, usually of high-value goods and is not normally used in voyage C/Ps, generally being confined to **liner shipments**.

**liner shipping** (n) 1 *(shipping econ)* linijsko brodarstvo; 2 *(shipping econ)* linijski prijevoz: **Liner shipping** is the most efficient mode of transport for goods.

**liner terms** (n) *(mar law)* Liner terms refer to the ordinary responsibility of the shipowner under a charterparty to control and pay for the loading, stowage, trimming and discharge of the cargo of the charterer. Liner terms are therefore to be contrasted with terms such as F.I.O., F.I.L.O., F.I.O.S. and F.I.O.S.T., which have the effect of transferring some of those responsibilities from the shipowner to the charterer.

**linijski uvjeti**

**liner trade** (n) *(mar law, shipping econ)* ANTONYM tramp trade linijska plovidba:
.... container ships capable of conveying up to 15,000 containers or TEUs (twenty-foot equivalent units) with a speed up to 23 knots have appeared in many liner cargo trades. Agreements made for loading and discharging these cargo all of which fall under the heading of Liner Trades, which will be carried out either within the liner company or by independent Liner Agents. Container ships are mainly used in the liner trade. In the liner trade it is usual for the to present his B/L to the Carrier and receive in exchange a Delivery Order..

**liner transportation** *(n)* *(mar law)* a transportation service that is offered to the public through publication or similar means and includes transportation by ships operating on a regular schedule between specified ports in accordance with publicly available timetables of sailing dates. (Rotterdam Rules 2019) "linijski prijevoz, linijski transport"

**line runner** *(n)* *(ship handling)* privezivač, brodoprivezivač, lučki privezivač

**liner waybill** *(=sea waybill; ocena eaybill; waybill)* *(n)* *(shipping econ, mar law)* = **seaway bill** Document, issued by a shipping line to a shipper, which serves as a receipt for the goods and evidence of the contract of carriage. In these respects it resembles a Bill of Lading but, unlike a Bill of Lading, it is not a document of title; it bears the name of the consignee who has only to identify himself in order to take delivery of the cargo. (http://www.leewardcorp.com/es/); Document, issued by a shipping line to a shipper, which serves as a receipt for the goods and evidence of the contract of carriage. http://www.leewardcorp.com/es/

**lines** *(n)* 1 *(nav arch)* SEE lines a drawing which shows frame lines in elevation; A pair of half transverse and elevations, with a common vertical center line. The right side gives the ship as seen from ahead, the left side from astern. (Water lines, buttock and bow lines, diagonal lines, etc.,)

http://www.tkmglobal.net/chartering_LHTM/"linijski teretni list": Because it is not negotiable, the liner waybill is not acceptable to the banks as collateral security; the purpose of the **liner waybill** is to avoid the delays to ships and cargoes that occur when bills of lading are late in arriving at the discharge port. The **liner waybill** is also referred to as a **sea waybill** or an **ocean waybill** or simply **waybill**. http://www.leewardcorp.com/es/

**nacrt rebara** 2 *(nav arch)* pregled na teoretsku formu broda sprijeda

**lines drawing** *(n)* *(nav arch)* = **linesplan** nacrt koji u tri pogleda prikazuje teoretsku formu plovila (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni) "nacrt linija broda"

**line service** linijska plovidba, linijski servis: On January 5, 1818, the full-rigged American ship James Monroe, of the Black Ball Line, sailed from New York City for Liverpool, inaugurating common-carrier **line service** on a dependable schedule.

**linesmen** *(n)* *(mar law)* *privezivači*: The forward 64mm backspring was passed down to two
linesmen. The linesmen will use shackles/lashings for securing mooring. The Pilot was immediately informed by the Master, and the shore linesmen were requested to return the rope tail with connecting shackle to the ship. Normally the officer will receive orders from bridge, relay them to linesmen and run back to tend to lines with the other crew.

**line snubber** *(boating/yachting)* = Shockle line snubber amortizer

**linesplan** *(n)* *(nav arch)* Plans indicating the hull form via the inclusion of waterlines, buttock lines and section lines shown on profile, plan and end views.

**line squall** *(n)* *(meteorol)* = squall line any non-frontal line or narrow band of active thunderstorms; **line squall** - a squall that occurs along a squall line. oljna pruga, pruga maha, linija maha, redna oluja, kišna oluja (nastala iz reda tamnih oblaka - kumulonimbusa): Line squalls, especially in the tropics, can develop without warning and can turn very violent. About 10 minutes later a violent line squall descended on us with blinding flashes of lightning and deafening peals of thunder. The pilot and the port control were still trying to establish contact with the tug on the radio and with liberal use of the ship's air horn, a violent line squall descended on us with blinding flashes of lightning and deafening peals of thunder.

**line storm** *(n)* *(meteorol)* ekvinocijska oluja
line-throwing apparatus (n) (nav arch) = line throwing appliance naprava za bacanje konopa, uređaj za izbacivanje užeta (za evakuaciju nastradalih s broda): Lifeboats launched by gravity davits and aircraft ramps or slides have been developed. Other equipment involves rescue boats, lifejackets, lifebuoys, line-throwing apparatus, VHF (portable radio) transponders, and EPIRB transmitters, parachute signals, hand flares, smoke signals, etc. Muster lists, fire drills.

line throwing appliance (n) (safety) naprava za bacanje konopa: Shortly afterwards, the line throwing appliance was detonated.

line-throwing device (n) (seamanship) = line throwing appliance naprava za bacanje konopa

line thunderstorm (n) (meteorol) redna grmljavinska oluja

line traffic (n) 1 (shipping econ) linijska plovidba; 2 (shipping econ) prijevoz robe i putnika linijskim brodovima

line trawler (n) (nav arch) koćar za ribolov s parangalima

line up (v) (navig) stajati u redu jedan iza drugoga (o brodovima, tegljačima, ...), ploviti u redu jedan iza drugoga (o brodovima, tegljačima, ...): The pilot had embarked, and three tugs were lining up to connect to the vessel. o enter the fairway, vessel A needed to be lined up at an early stage. www.safety4sea.com

line winch (n) (seamanship) vitlo za uže

line with (v) (marine eng) obložiti s nečim: The main bearings are lined with white metal, and the thrust bearing is incorporated in the aft end of the bedplate. The main bearings consist of steel shells lined with white metli.

lining /ˈlainiŋ/ (n) (marine eng) obloga, sloj obloge, podstava: The brake lining had to be renewed as soon as possible as the brake may not have held. bearing ~ ležajna obloga: Bearing shells have copper–lead lining and lead–tin plating.

lining material (n) (marine eng) materijal za podlaganje (strojnih dijelova)

link (n) 1 (nav arch) karika (lanca), oko lanca, maja: Good seamanship dictates that the anchor cable should be clearly marked by paint and by turns of seizing wire secured around the relevant link adjacent to the joining shackle. stud~ karika s prečkom: This chain is 112 metres in length and a combination of 76 mm and 54 mm stud link chain with suitably positioned triangular plates. This includes observing and reporting the condition of all moving parts, confirming the proper condition of
cables and fittings, detection of twists in the cables, and cracks in stud link welds., studless ~ karika

The shackle require a studless endlink at the chain-side, and fit the anchors crown-shackle. Chains consist of chain links which can be either stud-links or studless links., weak ~

The weak link had a ‘D’ shackle at each end, one passing through the eye of the hawser and the other passing through the first link of the chafe chain. The purpose of the weak link is to reduce the risk of the hawser parting when picking up/casting off the chain, which has an attendant hazard of whiplash.; 2 (marine eng) spoj: The link between the piston and the connecting or piston rod in four-stroke engines is the gudgeon pin, sometimes referred to as the wrist pin. Each individual fuel pump rack is connected to the mechanism by an adjustable link so they can be balanced to ensure that each cylinder takes its share of the load. Allen S12 engine in-line cylinder form unit mounted on the engine gearcase connected through a collapsible link to the fuel injection pump control shaft.; 3 veza: To ensure the safe operation of each ship and to provide a link between the company and those on board, each company should designate a person ashore having direct access to the highest level of management.

link (v) spojiti, povezati: the North Pacific route linking western America with Japan and China Attached to such lifting gear is a shackle which links the crane or derrick with the form of cargo-handling equipment being used. ~ to spojiti na nešto, spojiti s nečim: The 2/O had plotted the position of the buoys and channel limits into the basic radar mapping programme, linked to the GPS. When changing fuel types, some ships have experienced propulsion losses linked to procedural errors or fuel oil incompatibility.

linkage (n) 1 (nav arch) spoj, veza: Pay particular attention to the linkage between the rudder stock and the wheel because, as was the case in this accident, disconnecting the two can be the only way the rudder becomes free.; 2 (marine eng) spojka: Subsequent operation of the controls resulted in sudden overloading of the hydraulic motor and sheared the drive shaft linkage.; 3 zglojni spoj; 4 (marine eng) spoj: This engine’s control linkage was not fit for purpose. Correct fitting of the governor linkage is critical to the control of the engine, and incorrect fitment, on this occasion, is the likely cause of the engine failure.

linkspan (n) (ports) hidraulična obalna rampa (za ro-ro brodove): The bow moved back towards the quay, but the vessel’s stern then started to swing rapidly towards a number of small pleasure craft moored alongside a ro-ro link span on the north side of the basin. The vessel hit the quay, and then the link span, causing significant damage to both the ferry and the port facilities. He then continued manoeuvring astern to ensure the vessel’s bow did not damage the berth or link span. was in the process of being raised, and had almost reached the fully stowed position when the lifting wire parted and the ramp fell back onto the link span. lift the stern ramp off the ~ podići krmenu rampu s hidraulične obalne rampe: Despite the efforts of the tug, the stern moved off the quay, requiring the stern door to be lifted clear of the linkspan.

https://www.ravestein.nl/portfolio/315/

liquefaction /ˌlɪkiːˈfeɪʃən/ (n) (cargo handling) ukapljivanje, pretvaranje u tekućinu: Cargo trimming is a mandatory requirement for some cargoes, especially where there is a risk of the cargo shifting or where liquefaction could take place. It is recommended the cargo in all holds
be trimmed in an attempt to minimise the risk of cargo shift. Moisture related cargo failure mechanisms, widely known as liquefaction, continue to be a major concern for dry bulk shipping. Liquefaction can lead to cargo shift and even to the capsize and total loss of the ship, and can occur even when cargoes are cohesive and trimmed level. www.ukpandi.com; www.intercargogo.org

vulnerable to ~ osjetljiv na ukapljivanje: Nickel ore, which is listed in the International Maritime Solid Bulk Cargoes Code (IMSBC) as a high-risk ‘Group A’ cargo, is particularly vulnerable to liquefaction and has earned the nickname as the world’s most dangerous cargo due its role in several high-profile casualties.

liquefied cargo /ˈlɪkwɪfaɪd/ ukapljeni teret
liquefied natural gas carrier /ˈlɪkwɪfaɪd/ (=LNG carrier) brod za prijevoz

ukapljenih prirodnih plinova
liquefied petroleum gas /ˈlɪkwɪfaɪd/ (=LPG) (marine eng) ukapljeni zemni plin, utekućeni zemni plin
liquefied petroleum gas carrier /ˈlɪkwɪfaɪd/ (=LPG carrier; liquefied pressurized gas carrier) Vessel designed to transport petroleum gas in a form of butane or propane. https://officerofthewatch.com/tools-maritime-dictionary/brod-za-prijevoz

liquefy /ˈlɪkwɪfaɪ/ (v) (cargo) ukapljiti, pretvoriti u tekuće stanje: Amendment to the International Maritime Solid Bulk Cargoes Code (IMSBC 04-17) which entered into force on 1st January 2019 and includes important updates related to cargoes that may liquefy https://marinelink.com

liquidation /ˌlɪkwɪˈdeɪʃən/ (n) (mar law) likvidacija (trgovačkoga društva), ukidanje (trgovačkoga društva): Shares in the shipping company dropped by more than a fifth to a record low, causing fears that the company will slide into liquidation

liquid bulk cargo (n) (cargo) tekući voluminozni tereti, tekući masovni teret (nafta, naftni proizvodi), tekući voluminozni tereti: The movement of liquid bulk cargo, crude oil and derivatives, from the tanker is undertaken by means of pipelines connected to the shore-based storage tanks.

liquid cargo (n) (cargo) tekući teret, tekući tereti (u velikim količinama): Liquid cargo is nowadays usually transferred using an articulated arm loading/discharge systems, and groups of arms are often found on a shore refineries ... In many cargo liners, refrigerated accommodation,
Lisbon Rules 1987

Lisabonska pravila 1987 (o procjeni šteta u sudarima)

A set of rules on the assessment of damages in ship collisions (supra), prepared by the CMI and adopted at Lisbon in 1987. The Rules do not have the force of law, but are intended rather as guidelines for judges, arbitrators, insurers, average adjusters and others concerned with evaluating collision damages.

Lisabonska pravila 1987 A set of rules on the assessment of damages in ship collisions (supra), prepared by the CMI and adopted at Lisbon in 1987. Lisabonska pravila 1987
experienced and the master decided to bring the vessel head to wind. (https://safety4sea.com/), angle of ~ kut nagiba: The angle of list now made moving on the bridge almost impossible. https://www.marineinsight.com/; 2 popis, lista: The following list contains those items that, as a minimum, the relieving OOD must check prior to assuming the watch.

list (v) (navig) 1 COMPARE heel inclination of a ship or boat due to excess weight (e.g. cargo) on one side or the other nagnut se (o brodu), nagibati se uslijed pomicanja ili krcanja tereta itd. (o brodu): The bulk carrier lists to its port side after taking on water in void spaces after running aground while transiting the Columbia River. The vessel listed heavily in rough seas. On December 14, 2015 the towing vessel listed severely after taking on water ... By the time assistance arrived, the ship had listed and rolled violently to starboard. Several passengers aboard the cruise ship were reported injured after freak gust of wind reportedly caused the ship to list as much of 45 degrees. http://www.gcaptain.com The car carrier was listing heavily and had caught fire. The vessel had departed the port, headed for open sea, when it started to list heavily.; 2 popisati, nabrojati

listening watch (n) (comm, safety) straža na radiopostaji continuous ~ stalna straža na radiopostaji

listening watch (n) (comm) radijska straža (na VHF radiostanici), radiostraža maintain ~ držati radiostražu: All vessels over 20m LOA must maintain a listening watch on channel 12 when in the area. continuous ~ stalna radijska straža: A continuous listening watch is maintained on VHF Ch11 and 13, Ch11 being the primary channel for the co-ordination of shipping movements entering and leaving Portsmouth

listing (n) (navig) nagibanje, nagib: As a result of heavy weather conditions and adverse swell, the cargo in holds No 1 & 2 shifted, resulting in the vessel listing by 14 degrees starboard

listing (adj) (safety) nagnut, koji je nagnut: A four-man team from SMIT Salvage has successfully boarded the heavily listing car carrier in the Bay of Biscay in an attempt to attach a tow line to the drifting vessel.

list of crew (n) popis posade

List of Light and Fog Signals (n) (navig, comm) Popis svjetala i signala za maglu (http://www.hhi.hr/), popis svjetlosnih signala i signala za maglu

List of Lighthouses (n) (navig) popis svjetionika: List of lighthouses in England includes lighthouses which are no longer in use as a light but are still standing. It also includes some of the harbour and pier-head lights around the country (Wiki). The lighthouses and lightvessels of Australia are listed in the National Geospatial-Intelligence Agency List of Lights publication.

List of Lights (n) (navig) The Defense Mapping Agency Hydrographic/Topographic Center publishes the List of Lights, Radio Aids, and Fog Signals (usually referred to as the List of Lights, not to be confused with the Coast Guard’s Light List). popis svjetala: In addition to Admiralty charts or national charts, each ship must carry a number of publications such as Sailing Directions, updated Notices to Mariners, Tide tables, List of Lights, List of Radio Signals, Nautical Almanac, Pilots, etc. Those situated near the coast and visible from sea are listed in the List of Lights. Verify charted lights against the Light List or the List of Lights to confirm the charted information is correct.

List of Radio Signals (n) (comm, navig) popis radio signala Admiralty ~

Admiralitetski popis radio signala: ADMIRALTY List of Radio Signals provides information on all aspects of Maritime Radio Communications, helping bridge crews to manage communications and comply with all reporting regulations throughout a voyage. https://www.admiralty.co.uk/publications/publications-and-reference-guides/admiralty-list-of-radio-signa
Lists of Lights and Fog Signals (n) (navig, mar law) popis svjetala i signala za maglu, popis svjetala i pomorskih navigacijskih oznaka  Admiralty ~ (UK)
ADMIRALTY Lists of Lights and Fog Signals provides coverage of over 70,000 light structures including lighthouses, lightships, lit floating marks, fog signals and other lights of navigational significance. Popis svih navigacijskih svjetala i signala za maglu Britanskog Admiraliteta i Američke kartografske agencije (DMAHTC):
Each volume of List of Lights and Fog Signals offers: 1. Descriptions of the characteristics of lights and fog signals, together with the equivalent foreign language light descriptions, to help bridge crews with identification; 2. Tables to assist in the calculation of geographical and luminous ranges of lights; 3. Details for all lights listed including the international number, location and/or name, geographical position, characteristics and intensity, elevation in metres, range in sea miles and description of structure; 4. Published in 14 regional volumes (A-P) for simplicity and ease of handling

List of Lights and Fog Signals: (DMAHTC - Defense Mapping Agency Hydrographic/Topographic Center) (US) Popis navigacijskih svjetala, oznaka i signala za maglu Kartografske agencije Ministarstva obrane SAD:
DMAHTC List of Lights, Radio Aids, and Fog Signals The Defense Mapping Agency Hydrographic/Topographic Center publishes the List of Lights, Radio Aids, and Fog Signals (usually referred to as the List of Lights, not to be confused with the Coast Guard’s Light List).
lit (adj) (navig, safety) upaljen (svjetlo): Around midnight, a long line of weakly lit buoys came into view, indicating the existence of drift nets. The crossing vessel's forward working and deck lights were still lit, such that her port sidelight was not easily seen and the tanker's bridge team was misled to assuming that the crossing vessel was at anchor. the anchor light was not lit svjetlo nije svjetlilo
lifting loop (n) (safety) omča užeta (prsluka za spašavanje, za podizanje osobe iz mora): ... the lifejacket had the appropriate tether point at the front of the lifejacket’s waist belt and was fitted with a lifting loop, although the latter was exposed only after the bladder had inflated.
Little Bear (n) (navig) Mali Medvjed, Mala Kola: the Phoenicians could plot a course by the recognition of certain stars (the constellation of the Little Bear and Polaris or the Pole Star).
live animals (n) (mar law, cargo) životinje (u prijevozu), domaće životinje (u transportu), žive životinje: The term goods includes live animals, and where the goods are consolidated in a container, pallet or similar article of transport, goods include such article of transport (Art 1). Goods include goods, wares, merchandise, and articles of every kind whatsoever except live animals and cargo which by contract is stated as being carried on deck and is so carried (Art I(c)). This port is also used by cargo ships carrying live animals.
live bait (n) (fishing) živi mamac: Live bait has its downsides. From the initial procurement to care and presentation, natural baits are a hassle, http://www.berkley-fishing.com/ What is the best way to rig your live bait so your catch won’t get away?
live end of rope (n) (boating/yachting) ANTONYM dead end kraj užeta koji se radi i koji je opterećen živi kraj užeta, živi kraj konopa, poteg: Live end can also be called the 'running end', 'live end', or 'tag end'. Make sure the live end of the rope is not kinkad at the point whera it
livestock /ˈlaɪv, stək/ (n) (cargo) stoka (prijevozu): A ro-ro passenger vessel carrying livestock vehicles encountered heavy weather while on passage. After the vessel is cleared for loading, the chief officer and his team are busy preparing the vessel to receive the livestock.

livestock carrier (n) (nav arch) brod za stoku, brod za prijevoz stoke

live wire (n) (electr) kabel pod naponom: a conductor wire which is under electric tension

living quarters (n) (nav arch) = accommodation : stambene prostorije na brodu: No smoke leaks to the external decks and living quarters were detected. Due to the risk associated with explosives, it is important that they are stowed 'away from' living quarters. MV Becrux is the largest livestock carrier in the world with a carrying capacity of almost 60000 goats. The livestock carrier is designed to carry a variety of animals, such as cattle, sheep, horses, pigs and goats, on a medium-term charter.

LKP (=Last Known Position) (n) (safety) zadnja poznata pozicija

Lloyd's open form (=LOF) (n) (mar ins, safety, mar law) Lloyd'sov standardni obrazac ugovora o spašavanju: The most common salvage contract is called a Lloyd's Open Form Salvage Contract. sign the ~ potpisati Lloyd'sov standardni obrazac ugovora o spašavanju: A Lloyd's open form (LOF) was signed in haste and salvage tugs were called for immediate assistance.

Lloyd's Standard Form of Salvage Agreement (=LOF 2000) (n) (mar law, mar ins, safety) Lloyd'sov standardni obrazac ugovora o spašavanju: Lloyd's Standard Form of Salvage Agreement (Approved and Published by the Council of Lloyd's) PROCEDURAL RULES (pursuant to Clause I of LOF 2000) ... SMIT Salvage Americas, LLC have been engaged as salvors for this vessel under a Lloyd's Open Form contract (LOF). https://Marinelink.com

LNG (liquefied natural gas) (n) (cargo) ukapljeni prirodnii plin: Alternatives such as SOx scrubbers or LNG should be more economically viable for the propulsion of newbuildings in the 2020-ies.

LNG bunker tank (n) (marine eng) tank za LNG gorivo

LNG bunker vessel (n) (nav arch) brod za opskrbu LNG gorivom

LNG carrier An LNG carrier is a tank ship designed for transporting liquefied natural gas (LNG).

LNG-fuelled (adj) (marine eng, nav arch) s pogonom na ukapljeni prirodnii plin, koji se pokreće ukapljenim prirodnim plinom: Recent years have also seen the commissioning of double-ended ropax ferries, a coastal LNG carrier and small roro cargo ships with propulsion by LNG-fuelled Bergen gas engines from Rolls-Royce. DNV GL recently found that 63 LNG-fueled vessels were already operating globally with another 76 LNG-fueled ships being built. ~
**engine** (n) *brodski stroj s pogonom na ukapljeni prirodni plin*: The global containershipping giant CMA CGM announced its intention to outfit its series of new 22,000 TEU containerships with **LNG-fueled engines**. [http://maritimeglobalnews.com](http://maritimeglobalnews.com), ~ ship *brod s pogonom na ukapljeni prirodni plin*

**LNG fuelled ship** *brod na LNG pogon, prod na pogon ukapljenim prirodnim plinom*: As **LNG fuelled ships** are generally always more expensive than HFO fuelled ships equipped with after-treatment units, it means that the operating costs for LNG must be lower in order to make the use of LNG profitable. [www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf](http://www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf)

**LNG fuel tank** (n) (*nav arch*) *tank goriva na ukapljeni prirodni plin (LNG)*: The design incorporates a unique **LNG fuel tank** positioned in an upright position in the foreship. ~ system *sustav tankova goriva na ukapljeni prirodni plin (LNG)*: LNG fuelled ships will, in most cases, be the most expensive alternative, and this is mainly because of the price for the **LNG fuel tank system**. [https://www.wartsila.com/.../shipping-in-2020-choosing-the-right-fuel-and-propulsion](https://www.wartsila.com/.../shipping-in-2020-choosing-the-right-fuel-and-propulsion)

**LNG loading arm** (n) (*cargo handling*) *zglobna ruka za krcanje LNG-a, ruka za ukrcaj/iskrcaj LNG-a, loading arm za LNG*: LNG bunkering system is installed on the jetty or ship for the LNG fuel filling. It connects the jetty tank storage and ship by loading pipe. LNG bunkering system consists of liquid pipe and vapor pipe in which the liquid media and BOG transmitted separately. The swivel joint ensure the **LNG bunkering arm** could be moved freely. [http://www.ccltech.com.cn/proshow_219.html](http://www.ccltech.com.cn/proshow_219.html)

LNG-powered (adj) (nav arch, marine eng) pogojen ukapljenim prirodnim plinom, s pogonom na ukapljeni prirodnii plin: In 2015, NASSCO launched the world’s first LNG-powered containership. ~ vessel brod s pogonom na ukapljeni prirodnii plin: Bigger, more capable, cleaner LNG-powered vessels will arrive, ...
LNG terminal (n) (ports) COMPARE FSRU terminal za ukrcaj/iskrcaj ukapljenog prirodnog plina
LO (=lubricating oil; L.O.) (n) (marine eng) ulje za podmazivanje: Water cooled casings are necessary for turbochargers with ball and roller bearings with their own integral LO supply (to keep the LO cool). Older engines used a separate LO system for the camshaft because of the possibility of contamination by fuel oil leaking past the fuel pumps.
LOA (=Length over All) (n) (nav arch) dužina preko svega: All vessels in excess of 20 metres LOA entering the East Solent are required to report to Southampton VTS on VHF Channel 12 when 10 miles from Nab Tower. ... (b) T Jetty; No.1; 4x12 in. FMC loading arms for crude discharge or black product loading. If LOA is more than 200m, berthing only during daytime. (c) LPG Platform; No.1; 1x8 in. FMC loading arm for LPG, berthing only during daytime. All vessels over 40m LOA must have an operational radar to navigate in restricted visibility.
load /ˈloʊd/ (n) 1 (cargo) = cargo teret: - Stand clear from moving crane boom and/or block even with no load. The bosun began to drive the trolley outboard ready to pick up the first load. The unusual direction of load on the aft suspension hook damaged the boat’s stern, but there were no injuries.
container ~ 1 kontejnerski teret; 2 teret u jednom kontejneru; 3 kontejnerska pošiljka, unit ~ jedinični teret, paletizirani teret; 2 (seamanship, ship handling) opterećenje: Failure to observe basic seamanship practice – never stand directly under load. At a load of about 10 tonnes the sheaves were inspected for any structural change – none was found. Had they done so, they could have ensured that he approached the rope from the opposite direction, causing it to move away from him when it came under load. At a load of about 10 tonnes the sheaves were inspected for any structural change – none was found. Statistical evidence shows that in 53 per cent of all cases of personal injuries arising from mooring incidents, ropes (wire or fibre) have parted under load and personnel within ‘snap-back zones’ have been hit. safe working ~ 1 sigurnosno opterećenje; 2 dozvoljeno opterećenje: However, the combined weight of the tender and the coxswain put the arrangement close to its Safe Working Load (SWL),
minimum breaking load; MBL minimalna sila pucanja (užeta itd.),
minimalno opterećenje kidanja (užeta itd.): Loads in any one mooring line should not exceed 55% of its Minimum Breaking Load (MBL), release the ~ osloboditi opterećenje,
popustiti opterećenje: e or in some other way so that in case of a breakage in towing line or loss of power/bollard pull in one of the vessels, the other vessel may quickly release the load, ready to ~ bulk spreman za krcanje tereta (tekućeg ili rasutog): Once the tanks reach about −140 °C the tanks are ready to load bulk., ~ computer računalo za krcanje tereta: Load computers are placed on vessels to assist officers in cargo operations.; 3 (marine eng) opterećenje, pritisak: Below 20 per cent load the engines can be run on HFO with a time limit.
<tlCorpus><sentence>These blowers cut in and out as a function of scavenging air pressure and usually remain in operation until the engine reaches 50 per cent load.</sentence><source>New-Pounder</source> <sentence>axial ~ aksijalno opterećenje, osno opterećenje: With this sort of arrangement there is heavy axial loading on the connecting rod which reaches its peak at the top dead center because the gas pressure and the
The passage during which the ship is carrying cargo is called a loaded passage. The cargo piping and ballast piping are also completely separate. This eliminates the discharge of ballast contaminated with oil from the tank's cargo on the previous loaded leg.

Inertial forces add to increase fatigue and apply a transverse poprečno opterećenje, which reduces bearing load, extends bearing life and improves crankshaft strength and stiffness.

To begin work, the engine was taken off load, declutched from its gearbox and stopped from the machinery control room (MCR). To rasteretiti, skinuti opterećenje: To begin work, the engine was taken off load, declutched from its gearbox and stopped from the machinery control room (MCR). To rasteretiti, skinuti opterećenje ležaja: The special four-bolt design allows for an extra-large bearing which reduces bearing load, extends bearing life and improves crankshaft strength and stiffness.

The vessel concern was loading a full cargo of propylene in a NW European port. aboard ship ukrcati / krcati na brod: On containerships, all loose cargo is packaged into containers and the container itself is loaded aboard a vessel. ~ cargo krcati teret, ukrcavati teret, kargat: The vessel was alongside in port and loading cargo when the accident happened. At 1545 the vessel was loading its cargo of scrap metal.

The vessel berthed at the ore jetty at 0024 on 10 July 2002, to load a cargo of iron ore for Japan. In line with this change the vessel was scheduled to load 1900 tonnes of animal feed wheat pellets. While discharging a cargo of grain in Egypt we received orders that our vessel should sail to a port in Africa to load a cargo of Ammonium Nitrate for Australia. In comparison to containerships, breakbulk ships take much longer to load and unload. The plan was for the vessel to berth starboard side alongside in readiness to load cargo. The vessel concerned was loading a full cargo of propylene in a NW European port.

Most parcel carriers operate loose loaded containers and trailers for transportation between sorting terminals. Loose loaded containers monthly imports and exports through Port Authority of NY, NJ Maritime Terminals https://commons.wmu.se/lib_datasets/1/

A subdivision of a ship's voyage during which the ship is carrying cargo is called a loaded leg. The passage during which the ship is carrying cargo is called a loaded passage. A general cargo ship was on loaded passage in coastal waters, steering a course of 184 degrees (T) and making a speed of about 11.4 knots. Every day, during the loaded passage,
the Levels (Ullage) and Temperatures (in case of heated cargo) of cargo shall be measured and recorded
http://shipsbusiness.com/tanker-operation-laden-voyage.html

**loader** *(n) (cargo) ukrcavač:* In preparation for loading cargo with a *shore loader*, all the ship’s
 crane jibs were raised and swung clear of the hatchways. What is handling capacity of grain elevator/or
 loader/...? (IMO SMCP) The handling capacity of the grain elevator / ore loader / is .... (IMO SMCP)

**side ~ bočni viličar:** Additional equipment: 1/50 t straddle crane, 1/35-45 t *side loader* and
tugmasters for ro/ro trailers., **front ~ čeoni viličar, ship ~ brodoukrcavač (za rasute
tere)***

**load factor** *(n) (marine eng)* The mean load carried by an engine, expressed in percent of its
capacity. (http://www.marinedieseleurope.com/) **faktor opterećenja**

**loadicator** *(=loading computor; loading indicator; lodicator) *(n) (stabil, cargo handling)* SEE loading instrument an approved stability instrument (loading
software) capable of handling both intact and damage stability cases
(http://www.amc.gr/amcLoadingSoftware.htm); uređaj koji registrira svijanje na pojedinih točkama
trupa broda te stabilnost broda; The requirement of loading instrument for bulk carriers is governed by
SOLAS chapter XII, regulation 11. Even though there is no statutory requirement for loading computer
onboard other ships, classification societies require all tankers of more than 100 meters to have type
approved loading instrument. There are three main documents ship should have for it to be actually
complying with Loadicator requirements. These are: 1. Class certificate for loadicator, 2. Class approved
Loadicator Manual, 3. Class approved loadicator test conditions
(http://www.myseatime.com/blog/detail/compliance-with-loadicator-testing-and-its-records)

**računalni kalulator krcanja tereta i stabiliteta broda, lodikator,**

**loadicator:** 1. **Class certificate for loadicator:** This certificate is issued by the class and gives the
details of the loadicator software as well as the hardware on which it is installed, including the details of
the Make, model and serial number of the computer.
https://www.myseatime.com/blog/detail/compliance-with-loadicator-testing-and-its-records 2. **Class
approved Loadicator Manual** is the user manual of the loadicator which is from the maker of the
loadicator software. 3. **Class approved loadicator test conditions:** These are usually in the form of a
booklet specifically titled “ test conditions for loadicator” with class stamp. These are usually provided
during yard delivery of the vessel or after the loadicator is installed for the first time and approved by the
class. The class certificate for loadicator is issued by the class and gives the details of the loadicator
software as well as the hardware on which it is installed, including the details of the make, model and serial
number of the computer.
https://www.myseatime.com/blog/detail/compliance-with-loadicator-testing-and-its-records **DURING
annual class surveys, loadicator need to be tested for its accuracy in presence of a class surveyor.
http://forums.marineinsight.com/forum/main-forum/1995-loadicator** The ship’s loading instrument, e.g. a
loadicator, is a ship specific onboard equipment and the results of the calculations are only applicable to
the ship for which it has been approved. The Chief Officer needs to check all the resultant values (like GM,
VCG, LCG, SF, BM) from the loadicator and compare it with approved test condition. CAMEL Loading
software for Windows is a comprehensive Stress and Stability package, designed for containerships,
bulkers, car carriers, tankers etc. The Loadicator is type approved by Det Norske Veritas (DNV) and other
Classification Societies. The loadicator offers Damage Stability, Ballast Management and Autotrim
options. http://www.aeoliki.co.uk/product_loading.htm The test procedure of the loadicator includes
choosing a test condition from the approved test conditions, entering the exact same data in the loadicator
and comparing the results with the approved test conditions.
loadicator manual

the user manual of the loadicator which is from the maker of the loadicator software

loading arm (n) (cargo handling, stabil) A marine loading arm, also known as a mechanical loading arm, loading arm, or mla is a device consisting of articulated steel pipes that connect a tankship such as an oil tanker or chemical tanker to a cargo terminal.

loading arm: The use of loading arms, or articulated pipe systems, to replace hoses is becoming increasing popular, especially on bottom loading or unloading operations.
refineries or on offshore loading facilities. The **loading arm** will be out of service for some time, resulting in financial consequences for the terminal. Mainly used in the oil and gas industry, **loading arms** and **hoses** are storage tank equipment commonly used to transfer fuel or liquid. Nowadays, a **loading arm** is recommended suitably for tanker loading and unloading, it is seen as the safe, fast and easy way of operation especially in the terminals.

https://canadnpetroleumequipment.wordpress.com/2015/10/01/loading-arms-versus-hoses/ All **loading arms** are chiksans with quick connector couplings. ~ **coupling spojka mehaničke ruke**, **ship’s ~ mehanička ruka za krcanje tekućih tereta, brodska dizalica za ukrcaj/iskrcaj nafte, terminal / shore ~ obalna mehanička ruka, disconnect the ~ isključiti spoj mehaničke ruke**: The personnel from the shore have disconnected the

---

**loading berth** *(n) (ports)* **ukrcajni vez**: The ship moved away from the **loading berth** and started rolling. Two pilots were called to sail the loaded vessel and shift the smaller vessel onto the same **loading berth**.

**loading broker** *(n) (mar law)* Company that represents a shipping line at the port of loading. Its duties are to advertise the line’s sailings, to obtain cargoes and co-ordinate their delivery to the ship and to sign bills of lading on behalf of the master. *(http://www.leewardcorp.com/es/)*

**agent-posrednik, agent koji posreduje pri ukrcaju tereta**

**loading calculator** *(n)* 1 **kalkulator krcanja i slaganja tereta u kontejnere**: The 3D **Load Calculator** is a tool where you can insert all the pieces you want to load in a container and see the optimal way to load it in a container; 2 *(cargo handling)* **kalkulator krcanja tereta i stabilitet broda, lodikator**

**loading computer** *(n) (cargo handling)* **računalo za krcanje tereta i stabilitet broda**: The ship’s **loading computer** was then used to check that the vessel was safe with the pump room flooded. In the **loading computer**, there is an ullage entry program where tank ullage tables, petroleum measurement tables are all interlinked with formulae. Ships were, at this stage, still supplied with **loading computers** that continued to calculate a ship’s stability, shear forces, bending and, occasionally, torsion moments. Many of these functions are available only if the tank / draught level gauges and the Ballast Control system is interfaced to the **ShipLoad Loading Computer**. *(https://www.km.kongsberg.com/)*

Damage stability calculation by **loading computers**. Do you comply with Resolution MEPC.248(66)?
The loading programme should cover the order in which tanks are to be loaded/discharged, tank/pump/pipe work allocation and loading/discharge rates in order to minimise the stress on the vessel and the risk of cross-contamination of different grades of cargo.

**loading arm** (cargo handling) COMPARE loading arms

**loading hose** (cargo handling)

**loading instrument** (=loadicator) (cargo handling, stabil)

**loading manual** (cargo handling, stabil)

**loading master** (cargo handling)
**loading operation** *(n) (cargo handling)* Throughout the **loading operation**, the dock water density was consistently measured by the Chief Officer to be about 1.013.

**loading order** *(n) (mar law, shipping econ)* pismeni nalog lučkom operateru za obavljanje rada koji izdaje korisnik lučkih usluga dispozicija (ukrcaja), nalog (ukrcaja)

**loading plan** *(n) (cargo handling)* plan krcanja: There was no dangerous cargo in this area according to the **loading plans**. In accordance with the pre-arrival schedule and **loading plan**, extra ballast was being pumped out. The **loading plan** should always be prepared carefully and, especially for containerships, calculations should include the characteristics of each loading and all different sizes of containers. ([https://safety4sea.com/](https://safety4sea.com/))

**loading port** *(n) (cargo)* luka ukrcaja: The vessel was en route to a **loading port**, when the chief engineer commenced routine maintenance of no. 1 auxiliary engine as per maintenance programme. ... a coastal LPG tanker was north-east bound in the Dover Strait Traffic Separation Scheme **enroute to its loading port** in Scotland. The terminal managers in the **loading port** did not consider the cargo to be hazardous, and the wet cargo was loaded in rain without trimming or measuring the cargo temperature.

**loading rate** *(n) ANTONYM unloading rate (shipping econ, ports)* brzina ukrcaja (u tonama, koletima, broju kontejnera), kapacitet ukrcaja: The hourly **loading rate** was about 10,000 cu m/hr and six cargo tanks were receiving the cargo simultaneously: two tanks per connection. The initial **loading rate** of 120 m3/hr-1 was gradually increased to 250 m3/hr. The **hourly loading rate** was about 10,000 cu m/hr and six cargo tanks were receiving the cargo simultaneously: two tanks per connection.

**loading sequence** *(n) (cargo handling)* redoslijed krcanja: A few amendments were made to the loading and deballasting plan and a revised **loading sequence** was submitted. However, the master stated that he would only agree to continue loading after re-working the **loading sequence** based on the higher rate of loading now demanded.

**loading terminal** *(n) (ports)* ukrcajni terminal u luci: ... The SPM tower, located in position Lat. 29 _06.90_ N, Long. 048 _19.30_ E, approx. 1.5 n.m. east of the damaged **loading terminal**. The **loading terminal** numbers the tiers from the bottom of the hold upward including the containers on deck. The cargo stowage plan is prepared by the **loading terminal** after the ship has been loaded and is used to facilitate the subsequent loading and discharge of cargo at all ports along the voyage.

**loading valve** ventil za ukrcaj (tekućih tereta): In order to stagger the topping off process of the cargo tanks, the **cargo tank loading valves** had been adjusted to achieve the desired 'spread'.

**load levelling device** *(n) (cargo handling)* uređaj za izravnavanje tereta

**load lifting magnet** *(n) (cargo handling)* magnet za dizanje (tereta)

**load line** *(n) (nav arch)* The maximum draft to which the vessel may load. The line on a vessel indicating the maximum depth to which that vessel can sink when fully loaded with cargo.

(www.euronav.com) **teretna linija, teretna crta:** A hydrostatic instrument installed in the side of a vessel, below the **light load line**, to indicate the depth to which a vessel is submerged. While discharging at an SBM, a VLCC was required by her owners to have the **Load Lines** changed, in order that
the Class Surveyor could check and issue the new certificate on completion of discharge. **summer ~ ljetna teretna linija, winter ~ zimska teretna linija, winter North Atlantic ~ zimska teretna linija za sjeverni Atlantski ocean, tropical ~ tropska teretna linija, fresh water ~ teretna linija za slatku vodu, tropical fresh water ~ tropska teretna linija za slatku vodu**

**load line markings** *(nav arch)* Markings on the ship's side defining the minimum freeboard allowable in different ocean areas and different seasons of the year. **oznake teretnih linija**

**crte teretnih linija, teretne linije**: Each **load line** indicates the minimum freeboard that applies to the seasonal zone and/or area as stipulated in the **International Convention on Load Lines**.

**load management system** *(marine eng)* **sustav upravljanja opterećenjem (glavnoga stroja)**: The **load management system** was programmed to protect the engine by governing the rate at which it responded to telegraph orders. **override the ~ prebaciti automatski (u nuždi) sa / na sustav upravljanja opterećenja stroja**: The electronic load management function could be overridden on the bridge. During the pilotage, there were no load restrictions on the main engine and its electronic power management system had been overridden.
**loadmaster** (=load master)  (n) 1  (**stabil, cargo handling, nav arch**) A load-calculation designed for a vessel approved by a classification bureau for the calculation of the vessel's stability.

**loadmaster** računalo za krcanje tereta i stabilitet broda, kalkulator krcanja tereta i stabiliteta broda, kalkulator krcanja tereta, **loadmaster**: **LOADMASTER** - the leading loading computer made for onboard operation while checking longitudinal strength, intact stability, and damage stability.

**LOADMASTER** calculates damage stability using the Lost Buoyancy Method. By using the **Loadmaster damage generator**, Kockum Sonics can offer support on damage analysis in accordance with MARPOL, IBC or IGC Codes. http://www.sateco.it/loadmaster A summary of the calculation results is presented clearly on screen and the program's powerful functionality allows any of the cases to be selected for a detailed study, with the **damage survey report** generated for on-screen presentation as well as hard copy.

**Loadmaster Damage Generator** kalkulator svijanja (određenih točaka)

**lobe switching** *(navig)* prespajanje s jedne latice radarskog snopa na drugu

**lobster** *(fishing)* COMPARE European lobster lat. Palinurus elephas; Palinurus vulgaris; jastog: ... there is a growing scientific evidence that lobsters - and other invertebrates, such as crayfish and crabs - are able to feel pain common slimy ~ jastog, common spiny ~ jastog Local User Terminal (=LUT) *(n) (safety)* zemaljska prijamna stanica koja prima odgovarajuće signale predajnika preko satelita COSPAS-SARSAT sustava, obradjuje ih određujući poziciju predajnika i proslijedi signale; ([https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html](https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html)) lokalni korisnički terminal

**local user terminal (LUT) (=LUT)** *(n) (safety)* An earth receiving station that receives beacon signals relayed by Cospas-Sarsat satellites, processes them to determine the location of the beacons and forwards the signals. (IAMSAR/Camsar2014) lokalni korisnički terminal (u sustavu Cospas-Sarsat)

**locate** */ləʊˈkeɪt/ *(v) 1 (safety)* locirati, smjestiti, odrediti mjesto, postaviti, pronaći mjesto: the leak was ~d in ... mjesto (pro)puštanja bilo je otkriveno na / u ... Lacking any of this information, locate a channel or safe route delineated on the chart and plot the vessel’s track through the channel.; 2 *(safety)* opaziti (brod, brodicu za spašavanje), ugledati (brod, brodicu za spašavanje): The ship crew has located a lifeboat confirmed t be from the
missing oil tanker.

**locating** (n) *safety, navig* means the finding of the ships, craft, aircraft, units or persons in distress

**location** /ˈloʊkeɪʃən/ (n) *položaj, lokacija, smještaj, mjesto*: From his location across the full width of the ship, the deck officer had no view of the quayside, and was relying on and responding to hand signals from an A/B station. The Chief Officer shall prepare a copy of the dangerous cargo stowage plan (*indicating DG class & location*) along with a dangerous cargo list (*indicating Location, Container number, DG class and UN number*), and **provide** ~ **smjestiti**, **osigurati mjesto**

**lock** /lk/ (n) 1 *navig* **ustava**: The U.S. Coast Guard reported late Thursday that the vessel remained in the lock in Massena, New York, where the water was drained as response crews removed injured passengers. A 286-foot cruise ship hit a wall in the Eisenhower Lock in the Saint Lawrence Seaway Thursday night, injuring several passengers. The new world’s largest lock was opened for business at the Port of Antwerp on Friday. The Kieldrecht lock measures 68m wide, 500m long and 17.8m deep ~ **gate brana ustave, vrata ustave**: Like the Neopanamax locks in the Panama Canal the Kieldreccht lock in Antwerp uses rolling gates to form watertight the lock chambers. ~ entrance ulaz u ustavu: A bulk carrier was approaching a lock entrance with Master and helmsman on the Bridge. (https://safety4sea.com/), ~ transit prolaz ustavom: The ship is preparing for the lock transit. ~

**lock outer pier** valjski gat / molo ustave: As they approached the lock outer piers, at a speed of about nine knots, Master called the engine room request the bow thruster.

---

**lockdown** /ˈlɒkdaʊn/ (n) *mar law, safety* A lockdown is an emergency protocol that usually prevents people or information from leaving an area. (https://www.definitions.net/definition/lockdown)

---

https://www.bimco.org/news/ relax ~ **ublažiti lockdown, enforce ~ uvesti lockdown, exemption to the ~ iznimka u lockdownu, impose ~ nametnuti lockdown, uvesti lockdown**: The lockdown, imposed on 9 March 2020, has had a substantially negative effect
on the economy, both on international markets and for the money in people’s pockets.

**locker** *(n) (nav arch, cargo handling)* parts of the holds for cargoes of special value. They can be locked against pilfering. **loker, malo spremište s bravom chain ~ a storage compartment in a ship spremište sidrenog lanca, prostor za lance**: The last length of chain had broken loose from the **chain locker**, and the AB was hit and fatally injured by the bitter end.

**locking pintle** *(n) (nav arch)* štenac kormila: The top or **locking pintle** prevents any vertical movement of the rudder.

**locking screw** *(n) (marine eng)* pričvrsni vijak, zaporni vijak ~ handle kolo pričvrsnog vijka (tlačni gorionik)

**locking wire** *(n) (marine eng)* žica za osiguravanje matica (od trenja)

**lock nut** *(n) 1 (nav arch) matica propelera; 2 (marine eng) protumatica, Italian: controdado

**lock out** *(n) 1 (mar law) zabrana pristupa zaposlenicima objektu (zbog štrajka): The Owners of oil rigs are considering imposing a **lockout** on workers as a high-stakes gamble to try to end a strike by almost 1,600 staff that began last week. A **lockout** would involve preventing staff from accessing installations until a deal is struck. gCaptain

<info=gcaptain.com@mail21.sea21.rsgsv.net>; 2 (mar law, shipping econ) obustava rada (u luci), masovno isključivanje radnika s posla: The **lockout** means no commercial activity for the port until further notice – except for the grain silos, run by the port authority itself.

http://www.cbc.ca/news/canada/montreal/port-of-montreal-shut-down-by-lockout-1.877337 The longshoremen were notified of the association’s move late Sunday evening, and were on picket lines early Monday morning in advance of the 8 a.m. **lockout deadline**. The agents also said the **lockout** is costing the port millions of dollars, with containers still waiting to be unloaded.

**lock up** *(v) zatvoriti, zaključati

**lock up** *(n) (nav arch, cargo handling) = locker loker

**lodge a complaint** *(v) (mar law, shipping econ) reklamirati, podnijeti pritužbu, podnijeti reklamaciju: The crew members **lodged a complaint** with the Police Headquarters at a West African port as the vessel was at an anchorage and a Doctor was not called to see the deceased.

**lodge the Bill of Lading (with someone) /lɔdʒ/ (v) (mar law) predati (nekome) teretnicu: The note is signed by the wharfinger and returned to the shipper, or his representative, who then **lodges bills of lading** with the shipowner or agent.

**lodge the Note of Sea Protest /lɔdʒ/ (v) (mar law) podnijeti prijavu pomorske nezgode: Lodge a sea protest at your first available port of call and make sure a log extract, showing
relevant entries, is attached.

lodging knees (n) *(sailing vessels)* horizontalna koljena oko grotla

LOF 2000 (=Lloyd's Open Form) = Lloyd's Standard Form of Salvage Agreement A form of salvage contract approved and published by the Council of Lloyd's to replace, as of September 1, 2000, the previous Lloyd's Standard Form Salvage Agreement (LOF 1995). The acronym LOF derives from the former name of the Agreement (Lloyd's Open Form). LOF 2000 provides for salvage services to be rendered on the principle of no cure - no pay (infra), subject, however, to the provisions of the Salvage Convention 1989 (infra) relating to special compensation (infra) and to the SCOPIC Clause http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

Lloyd's standardni obrazac ugovora o spašavanju: Improving the understanding of LOF is an area on which both the International Salvage Union and Lloyd's intend to campaign. Lloyd's Open Form (LOF) is still the most widely used salvage contract, even after over a century of constant use.

loftsman (n) *(nav arch)* A man who lays out the ship's lines in the mold loft and makes the molds or templates therefrom. brodski traser

log /ˈlɒɡ/ (n) *(cargo)* trupac, log: About 250 tonnes of the logs were stowed on deck. A gang of stevedores commenced loading the vessel, skillfully standing atop the floating logs and slingling them in ones or twos, depending on the size of the logs and capacity of the ship's cargo gear. The holds were duly filled with logs and the vessel berthed at a wharf to load the sawn timber and plywood in the tween decks and the containers on the hatch cover.

log /ˈlɑːɡ/ (n) *(navig)* device for measuring the ship's speed and progress brzinomjer, log, Italian: solcometro: A log consisting of a rotator towed through the water by a braided log line attached to a distance-registering device usually secured at the taffrail. The true motion radar requires own ship's speed input, either log or manual, in addition to own ship's course input. However, the following observations were made: The radar was stabilised with GPS instead of speed over water from the log The propeller wash was not seen but the log showed about 0.5 kts stern way. speed ~ brzinomjer, ~ calibration baždarenje brzinomjera, kalibriranje brzinomjera, common ~ brzinomjer, patent ~ patentni log, mehanički brzinomjer na propeler, Walker's Cherub ~ mehanički brzinomjer, electronic ~ električki brzinomjer, electromagnetic speed ~ elektromagnetski brzinomjer: An electromagnetic log consists of suitable registering devices and an electromagnetic sensing element, extended below the hull of a vessel. ..., hydrodynamic speed ~ hidrodinamički brzinomjer, ultrasonic speed~ ultrazvučni brzinomjer, ~ error grješka brzinomjera, ~ readings očitanje vrijednosti brzinomjera, očitanje brzine: ..., but an increase in power on engine indicators, an increase in current reading from 2.2kts to 3.2kts, and a Doppler log reading of 4.5kts were all immediately observed., Doppler ~ ultrazvučni brzinomjer: It was assumed, wrongly as it turned out, that in shallow water the Doppler Log goes automatically into ground tracking mode and gives speed over the ground.

log /ˈlɒɡ/ (=log book) (n) *(mar law, navig)* A record book carried aboard a ship in which all significant events relating to the journey are recorded by the ship's officers authorized to make such entries. A ship may have aboard more than one log, including an official log, an engine room log, a radio log, a rough log, etc. The log is at time prima facie evidence in a maritime dispute http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

dnevnik (brodski, palube itd.): It cannot be overemphasized that clear and properly
annotated echograms and navigation logs are especially important in shoal reports. On very large ships, such as VLCCs, some guidance may be available from reliable doppler logs, but on many ships a doppler log is not available. Like time-delay measuring logs, Doppler logs can only track the seabed in relatively shallow waters. Modern logs use electronic sensors or spinning devices that induce small electric fields proportional to a vessel’s speed. keep a ~ voditi dnevnik, voditi brodski dnevnik: As a part of engine room watchkeeping routine, marine engineers are required to keep a log of all important machinery parameters such as pressure, temperatures, revolutions etc., ship’s ~ brodski dnevnik: There, he noticed the ship’s log indicated the vessel had stopped, so he reduced the pitch on the Controllable Pitch Propeller to zero, and called the master., engine room ~ dnevnik stroja: Engine room log book is also an important document in case of accident and this gives the clear picture of the engine room working condition and... marine engineers are required to keep a log of all important machinery parameters such as pressure, temperatures, revolutions etc. in the engine room log book.

engine movement log dnevnik zapovijedi stroju: It is important that the status of the main engine machinery conforms to the status recorded in the engine movement log and machinery state boards to enable everyone involved in an operation to maintain a clear understanding., medical ~ zdravstveni dnevnik, radio ~ dnevnik radio-službe: Regarding the (written) Radio Log: under GMDSS regulations, vessels are required to log a summary of Distress (Mayday), Urgency (Pan Pan) and Safety (Security) traffic. He also has to make entry in the Radio Log with timings, so he will use a small source of light and lose his night vision for a few minutes every time he uses a light., scrap ~ koncept dnevnik, neslužbeni / radna verzija dnevnika, škartafac, make a ~ ubilježiti u dnevnik: Make a log of all important events, deck ~ dnevnik palube: At about the same time, he recorded the visibility in the deck log, which he assessed to be about 2 miles in light snow. The deck log combined with the bearing log should constitute a complete record of the passage. All events when encountering heavy weather must be carefully and duly entered in the ship’s or deck log book., periodic ~ upis manovre (upisnik naredaba stroju), bridge ~ dnevnik zapovjedničkog mosta: Record all events and information in the bridge log book correctly., ~ entry zapis u dnevniku, bilješka u dnevniku: In deck log book all the entries regarding navigation and charts are mentioned. Whilst not reducing the level of own-vessel business/crew communications, the following should help reduce the number of unnecessary (false) alerts/log entries onboard all vessels: make a false ~ unijeti krivu zabilješku / zapis: I have personal knowledge of a similar ballasting error where the Master, in an attempt to hide the mistake from authorities, actually made false log book entries., ~ readings zapisu dnevniku, podaci u dnevniku: He should verify the current operational parameters and the condition of all machinery and see if these correspond to the log readings., electronic ~ elektronički dnevnik, dnevnik vođen elektroničkim putem: ... with the increasing use of computers on ships, the daily log books might be totally replaced with electronic log books, but currently paper books are in popular use., official ~ službeni brodski dnevnik, glavni brodski dnevnik: The official log book is only for the official entries made by only captain and chief engineer about the crew and their behaviour., position ~ navigacijski dnevnik, dnevnik pozicija broda: • Check the Position Log and Chart: Check the type and accuracy of the ship’s last fix., fill up the ~ ispuni brodski dnevnik, fill in the ~ ispuni brodski dnevnik: The regulations require that a lookout is kept from sunset to sunrise but this is not done in most cases despite filling in the log books to that effect., maintain ~ voditi dnevnik, voditi bilješke (u brodskom dnevniku): Maintain log/record of events and decisions.
log /lɒg/ (v) 1 (safety, shipping econ, navig, mar law) unijeti u brodski dnevnik, ubilježiti u dnevnik: All operations undertaken during loading and discharge should be logged by the ship including details of all valve positions, changes in valve usage, pumping rates, manifold pressures and vessel’s draught and trim. … the Master’s license was suspended for one year for failing to reduce speed to investigate, call the RCC, and log the event. The quartermaster should log the change of watch in the ship’s deck log. The helmsman and Second Officer followed the instructions of the Master and Pilot, monitoring and logging the vessel’s progress, however, the Second Officer was not involved with monitoring radar targets, this function being carried out by the Master and … dar observations for position fixing, while the bow lookouts reported the sighting of channel buoys as the vessel passed, with a ‘bridge-team’ member logging the time, ship’s head, and speed from GPS in the Bell Book. ~ the bridge equipment upisati podatke o opremi na mostu u dnevnik, ~ the time abeam of prominent landmarks and navigation aids ubilježiti vrijeme kada je brod bio subočice istaknutim kopnenim oznakama i plovidbenim oznakama; z zabilježiti, registrirati

log book (=logbook; log) (n) (navig, mar law) brodski dnevnik, log carrier (n) (nav arch) brod za trupce, brod za prijevoz trupaca: A general cargo-cum-log carrier in ballast was approaching the pilot station to embark the inward pilot.

logger (n) (boating/yachting) jedrenjak s dva jarbola, izvorno s oglavnim jedrima loger

logging (n) bilježenje, unošenje u dnevnik data ~ bilježenje podataka

log grab (n) (cargo handling) hvataljka za trupce

logical shore stations (n) (navig) logičke obalne stanice u sustavu AIS

logistics /lo'dʒistikz/ (n) 1 (shipping econ) The management of freight and information throughout the total supply chain from the original raw material source to the ultimate consumer of the finished product, encompassing factories, assembly and packing plants, warehouses, distribution centres and retail outlets. (http://www.maerskline.com/en-jm/help/shipping-glossary) logisika (pomorskog prijevoza): Mr. … leads the transportation and logistics practice at the company. the company provides marine transportation, offshore support services, port management and logistics services ILMI also offers an Associate of Applied Science degree in Logistics and Operations Management which focuses on all modes of transportation. The CEO of CMA CGM has made logistics a major focus of his development strategy. This transaction allows CMA CGM to expand its presence in the logistics sector, which is closely related to shipping

https://shippingandfreightresource.com/cma-cgm-launches-its-public-tender-offer-for-ceva-logistics/ By taking control of a global player in logistics, CMA CGM will be able to offer its customers complete solutions combining transport and logistics https://shippingandfreightresource.com ~ service providers pružatelji logističkih usluga: Shipping lines seem to be strengthening their positions in the market with their growth strategies based on acquisitions of logistics service providers

https://shippingandfreightresource.com; 2 (marine eng) logistička podrška: Wärtsilä notes that whichever system of injecting water is applied, consideration must be given to the logistics of providing sufficient freshwater onboard.

logistics company (n) (mar law, shipping econ) logističko trgovačko društvo,
trgovačko društvo za transportnu logistiku: The CMA CGM Group is an international logistics company and operated one of the world’s biggest shipping fleets. www.gov.uk/maib

log reading (n) (navig) podaci iz brzinomjera, očitanja s loga: ..., but an increase in power on engine indicators, an increase in current reading from 2.2kts to 3.2kts, and a Doppler log reading of 4.5kts were all immediately observed. A visual sighting of the clump weight wires showed it to be streamed astern, ...

log vessel (n) (nav arch) brod za prijevoz trupaca: On one of our log vessels, the stevedores started entering a full cargo hold immediately it was opened for discharge.

loll (n) (stabil) naginjanje (broda): Consequently the vessel stopped rolling and remained listed on her starboard side, and this alerted the skipper to the angle of loll developing. Ships' officers should have a thorough knowledge of stability, particularly the difference between a static list and angle of loll caused by free surface and the appropriate ballasting measures to adopt angle of ~ kut

naginjanja: Soon after leaving the port, the cargo liquefied, forming a free surface and causing a severe list (angle of loll).

loll (v) (stabil) A ship which is slightly unstable in the vertical position will heel until the GZ curve becomes zero. It is said to loll and the angle it takes up is the angle of loll

https://officerofthewatch.com/tools/maritime-dictionary/ nagibati, nagibati se: The vessel began to list, or possibly loll, to one side and the skipper, realising the danger the vessel was in, broadcast a “Mayday” on VHF channel 16. The boat started taking on water over its bow and sides, which then accumulated on the deck and caused the boat to loll to port.

lolling (n) (ship handling, nav arch) promjene kuta nagiba broda: This change in list, called lolling was often 5 degrees or more, which caused havoc with loading arms, hoses, and mooring lines. For a tanker of this size, the stable condition after listing would normally be less than 5 degrees if lolling was the only contributory factor.

lo-lo ship (=lolo ship) (n) 1 (nav arch) = lift on/lift off = geared ship

COMPARE ro-ro ship ship that uses a crane to load the cargo; cargo ship with on-board cranes to load and unload cargo, applying vertical loading and unloading operation brod s klasičnim dizalicama za teret, brod za vertikalne operacije s teretom, teretni brod; 2 (nav arch) kontejnerski brod

lo-lo system /ˈləʊləʊ/ (=lift-on/lift-off) system) sustav vertikalne manipulacije tereta, ukrcaj i iskrcaj tereta

long blast (n) (comm, navig) dugi znak, dugi zvižduk, dugi zvučni signal: At 0430 the 1st vessel was heard giving one long blast and passed ahead without observation. sound a ~ dati dugi zvučni signal, dati dugi zvižduk (brodskom sirenom): He then sounded one long blast on the ship’s whistle. Unclear as to the cargo vessel’s intentions, the Master of the tug sounded one short and one long blast on the whistle to alert his crew, then reversed engines to stop and let the cargo vessel cross ahead.

long flashing light (n) (navig) dugo bljeskajuće svjetlo, svjetlo na bljeskove
**longitude** /ˈlɒndʒiː tjuːd; ˈlɒndʒi tjuːd/ (n) (geogr) geografska dužina angle of ~ kut geografske dužine, measure the longitude mjeriti geografsku dužinu, difference of ~ razlika geografske dužine

**longitudinal** /ˈlɒndʒiː tjuːdɪnl; ˈlɒndʒi tjuːdɪnl/ (adj) 1 (nav arch) SEE structural components ukrepni element uzdužno postavljen na limove; a fore and aft strength member of a ship’s structure; the fore-and-aft girders in the bottom of a ship uzdužnjak: It suffered a puncture to the forward section of the hypalon tube, a 1 metre long split to the starboard side of the hull, and distortion to longitudinals and to hull plates near to the port side of the keel. Practically, all the compartments in ships would contain items within them that would reduce the total volume that can be occupied by the flooded water. The items include stiffeners, web frames, longitudinals, brackets, beam knees, equipment, piping, and outfits. Hence, the ratio of the floodable volume to the total volume of the compartment gives the http://www.marineinsight.com/ The longitudinals are usually made up from plates and shapes and are sometimes intercostal and sometimes continuous. https://www.history.navy.mil/ deck ~ uzdužnjak palube, side ~ uzdužnjak boka, bottom ~ uzdužnjak dna, inner bottom ~ uzdužnjak pokrova dvodna, ~ of bilge tank uzdužnjak uzvojnog tanka

https://www.tc.gc.ca/eng/marinesafety/tp-tp14609-4-construction-150.htm; 2 uzdužni lim

**longitudinal axis** (n) (nav arch) uzdužna os: Surge is the bodily motion of a ship forward and backward along the longitudinal axis, caused by the force of the sea acting alternately on the bow and stern.

**longitudinal bulkhead** (n) (nav arch) uzdužna pregrada: The longitudinal bulkhead in way of water ballast tank no. 2 port was also deformed.

**longitudinal load** (n) (nav arch, stabil) naprezanje brodske konstrukcije u uzdužnome smjeru uzdužno naprezanje

**longitudinal metacentre (=LM)** (n) (stabil) uzdužni metacentar: LM is located where the force of buoyancy’s lines of action running through the longitudinal center of buoyancy intersect the vertical line through the center of buoyancy of the untrimmed ship.

**longitudinal section** /ˈlɒndʒiː tjuːdɪnl; ˈlɒndʒi tjuːdɪnl/ (n) (nav arch) uzdužni presjek: Cargo plan shows longitudinal sections of the ship and the spaces reserved for the various items.
longitudinal ship’s stability (n) (nav arch) uzdužna stabilnost broda
longitudinal stability (n) (stabil) (nav arch) COMPARE transverse stability the measure of a ship’s ability to return to its original position after being disturbed by a force that rotates it around a transverse axis uzdužna stabilnost arm of ~ poluga uzdužne stabilnosti, poluga trima
longitudinal-transverse load (n) (nav arch) uzdužnoprječno naprezanje
long-line fishing boat (n) (fishing) brod za ribolov parangalima
longlining (n) (fishing) ribolov dugačkim parangalima: In longlining the lines are commonly between 10-100km long, and have thousands of baited hooks spaced consistently on branching lines (snoods). pelagic ~ ribolov pučinskih parangalima

ribolov pridnenim parangalima
long range identification and tracking (=LRIT) (n) (navig, safety) The Long-Range Identification and Tracking (LRIT) system provides for the global identification and tracking of ships.
sustav praćenja i identifikacije brodova: ...the IMO Navigation & Security department is advising owners to prepare to fit a Long Range Tracking & Identification system by July 1st 2006.
Long Range Navigation System (=LORAN) (n) (navig) Navigacijski sustav dugog dometa za određivanje položaja broda iznosi danju do 650 M, a noću čak i do 1300 M pri jakosti odašiljača od 100kW. Loran-C, navigacijski sustav dugoga dometa ~ chain lanac LORANa
long sea (n) (oceanogr) dugi valovi
long sea passage (n) (navig) dugotrajna plovidba: On inbound vessels the failures may have been due to an oversight occurring after a long sea passage, however, some of the vessels were outbound and had been underway on the river for several hours.
long ship (n) (sailing vessels, archaic) galija
longshore labor (=dock labour; port labour) (n) (US) (ports) lučka radna snaga
longshoreman /ˈlɔŋʃoʊrəmən/ (=pl. longshoremen) (n) 1 (US, shipping econ) = stevedores Dock workers who load and unload ships, or perform administrative tasks associated with the loading or unloading of cargo; A laborer who works at loading and discharging cargo.
https://officerofthewatch.com/tools/maritime-dictionary/ lučki radnik: Longshoremen are employed by a terminal operator who is designed to facilitate the operation of loading and discharging vessels, as well as other terminal activities. Ports often have cargohandling equipment such as cranes (operated by longshoremen) and forklifts for use in loading/unloading of ships, which may be provided by private interests or public bodies. The Longshoremen then demonstrated how it should be done by shackling the strap to a link above the on-load release hook. A longshoreman and security guard also received non-life-threatening injuries. He is a 6th generation longshoreman and has worked at the port for
18 years; 2 (shipping econ) slagačko društvo, slagatelj
longshore workers (=dock workers; port workers) (n) (ports) Longshore workers are engaged in transferring cargo from ships and other vessels, and throughout the dock area. lučki radnici, radnici u luci (na terminalima itd.): Longshore workers are hired by marine terminals to load and unload ships and move cargo containers.

long ton (=LT) (n) (cargo) A unit of weight = 2,240 pounds or 1,106 kilos. dugačka tona

lookout / look, out (n) 1 (navig) motrenje, promatranje, osmatranje effective ~ djelotvorno motrenje, ineffective ~ nedjelotvorno motrenje, proper ~ pravilno motrenje: Ensure proper lookout is maintained at all times. Proper lookout is critical.

Maintain a proper ~ pravilno motriti, pažljivo motriti: From that position, he could not maintain a lookout because his view was obscured by the wheelhouse. All vessels are required to maintain a lookout by sight and by hearing, as well as by using all available means. hen being assisted by an ice-breaker it is important to maintain a continuous listening watch on the appropriate VHF Channel and to maintain a proper lookout for sound and visual signals. A ~ postaviti motritelja: No additional lookout was posted. The vessel was in hand steering and a lookout was posted on the starboard wing of the bridge. The requirement to post a lookout in addition to the watchkeeping officer, during the hours of darkness and as necessary at all other times, is widely promulgated. Post additional lookouts. Post lookout with binoculars, effective ~ efikasno motrenje: The obligation to keep an effective lookout at sea is fundamental to safe navigation as is the need to adhere to the rule of the road.

ditor’s note: The report does not offer an explanation of several principal errors in bridge team management: The failure to keep an effective radar lookout in the absence of an officer of the watch, the master should have been monitoring the radar; efficient ~ učinkovito motrenje: An efficient lookout and watch must be maintained at all times. At anchor, ~ post mjesto motrenja, osmatačnica, ~ duty dužnost motrenja, dužnost motritelja, maintain a proper ~ pažljivo motriti: It is imperative that a lookout be maintained at all times. It is impossible to both maintain a proper lookout and work at the chart table for any length of time...

good / efficient / sharp ~ budno / pomno / djelotvorno / dobro motrenje: The use of ECDIS does not diminish the importance of keeping a good lookout. The fundamental requirements of keeping a safe navigational watch are to maintain a good lookout and ensure that a vessel maintains her course in accordance with her passage plan. Under such conditions of visibility growlers are a greater menace to vessels; the vessel’s speed should be reduced and a sharp lookout maintained. Of course, keeping a sharp lookout is also a watchkeeping task that may have helped avoid this accident. ~ motriti, to keep a sharp ~ motriti pomno: Vessel should not be complacent and always keep a sharp lookout on passing traffic and vessels anchored near own vessel. Keep sharp lookout for signals / sightings of the vessel in distress and report every sighting. (IMO SMCP), keep a ~ držati stražu, biti u gvardiji: There were four personnel on the bridge but all were fulfilling other roles and no one was solely keeping a lookout. ~ stand a ~ držati stražu / gvardiju, stand down a ~ obustaviti stražu, ukinuti stražara: As the ship approached a container terminal, visibility improved to about one mile, so the fog lookout was stood down and speed increased ... ~ visual ~ vizualno motrenje: Using his radar and a visual lookout, he ascertained four ships to be there; all were at anchor. Keeping a good visual lookout is key to safe bridge watchkeeping. ~ all-round ~ motrenje u 360 stupnjevja: An efficient all-round lookout by all available means is vital, not only when under way or at anchor but, as this case shows, even when alongside.
posebni motritelj, namjenski motritelj, specijalni motritelj: ically review their vessels’ manning levels and operating routines to ensure that sufficient crew are on board and, specifically, that a dedicated lookout can be maintained during the hours of darkness. A QM was employed continuously on the bridge, and at sea he was nominated as the dedicated lookout.

loop

posjećivanje, osmatrač: The man stationed aloft or in the bows for observing and reporting objects seen. https://officerofthewatch.com/tools/maritime-dictionary/

lookout: 1. (navig) motriti, izviđati: ... there was a VTS operator advising every vessel in the vicinity to lookout for the ULCC ahead of them.

lookout: (n) (mar law) dužnost motrenja, dužnost motritelja: Two able seamen (ABs) were assigned 4 hours on / 4 hours off lookout duties on the bridge at sea, and 6 hours on / 6 hours off cargo watches in port. Dva starija mornara (kormilara) postavljena su na dužnost motrenja, 4 sata na mostu u plovidbi odnosno 4 sata izvan motrenja, te 6 sati straže na teretu u luci odnosno 6 sati izvan straže. The 00W is left by himself to maintain lookout duty as well as GMDSS duty. The new OOW was joined by the deck cadet who was assigned lookout duties. An additional lookout or an additional watchkeeping officer were present on her bridge. https://gCaptain.com

look out for: 1. (safety) tražiti, tragati: Look out for person in water / lifebuoy and report. The OOW started to make chart corrections, relying on the AB to look out for other vessels in the vicinity.

2 paziti na, voditi računa o

look through: (v) pregledati (dokument)

loop /luːp/ (n) (seamanship) petlja užta / konopa: To counter this risk he attempted to remove
the loop by kicking it with his right foot while the winch was in motion.

**loop scavenging** *(n) (marine eng)* sustav obrnutog ispiranja motora, vrtložno ispiranje, vrtložno ispiranje: As RLB engines exploit **loop scavenging** with both scavenge and exhaust ports in the lower part of the liner, the fully gas-tight top ring significantly reduces the lateral forces at the piston skirt in addition to reducing the blow-by of hot combustion gases—both of which increase the piston skirt life. The method of **loop scavenging** is similar to the cross flow except the exhaust and scavenge ports may be found on the same side.

http://www.machineryspaces.com/scavenging.html

**loose** *(adj)* 1 *(marine eng, seamanship)* labav, nepričvršćen, slabo pričvršćen, slabo pritegnut *(o matici, vijku);* 2 *(cargo handling)* nepakiran, bez pakovanja: Heavy vehicles, locomotives and buses are also carried loose, because of the impracticability and high cost of packing. To maximise the unloading process loose cargoes are often loaded from a stockpile or stockyard into a hopper. **cargo carried** ~ teret koji se prevozi bez pakovanja (npr. rasuti teret), **break** ~ osloboditi se, otkvačiti se: Cable reel deck cargo broke loose. As the wheels of the trailer went over a hump on the upper ship's ramp, a container twistlock broke loose and fell on to the Chief Officer. **come** ~ osloboditi se (uže), odvezati se (uže): The mooring rope had come loose because a steel bar, holding the pallet on which the rope was coiled, had broken free from the deck due to weld failure.

**loose cargo** /lu:s/ *(cargo, shipping econ)* teret bez pakovanja

**loose fittings** *(n) (cargo handling)* *ANTONYM fixed fittings* Loose fittings include: - Twistlocks, manual and automatic, - Midlocks and stackers, - Lashings, supports, - RoRo and timber equipment

**pomična oprema za pričvršćivanje kontejnera** ~ on decks

**pomična oprema za pričvršćivanje kontejnera na palubi,** ~ in holds

**pomična oprema za pričvršćivanje kontejnera u brodskom skladištu**

**loose gear** *(n)* 1 *(cargo handling)* pribor i alati za sidrenje, privezivanje
loose goods (n) (cargo handling, cargo) nepakirani teret, teret bez pakovanja, teret koji se može upakirati: A mini-caterpillar with push-blade used for the careful distribution of loose goods in cargo holds of bulk carriers.

loosen /ˈluːsn/ (v) (marine eng) ANTONYM tighten olabaviti, popustiti, otpustiti, odvranuti: Look for signs of loose connection points as cyclic loading will further loosen them, leading to possible failure, and attend to their rectification as soon as possible. When he found the outboard pin jammed, he used a crowbar to lever off the extendable section of the gangway to loosen the pin. ~ the nuts opustiti matice: Loosen the nuts of the bearing caps.

loosen sail (v) (boating/yachting) odmotavati jedra Loran C (n) (navig) uređaj Loran C: Department of Defense is phasing out use of Loran C in favor of the highly accurate, space-based Global Positioning System (GPS). Additionally, Omega measures phase differences between the two signals whereas Loran C measures time delays between signal receptions. shipborne ~ brodski uređaj Loran C

lorry /ˈlɒri/ (n) (cargo) = truck kamion, teretno vozilo: Towards the end of the loading period, the deck crew directed a lorry to the starboard side amidships. When the driver of the lorry switched off the ignition, after having parked in the designated position, a small electrical fire started in the vehicle cab.

lose /luːz/ (v) 1 (safety) izgubiti: In total, the ship had lost 27 containers, with 28 containers loose but still on board. ~ control izgubiti kontrolu, izgubiti nadzor nad: It is important to remember that tugs, operating in the wash of a ship can, and do, occasionally lose control temporarily, causing them to move off station., ~ consciousness onesvijestiti se, izgubiti svijest: He then started to lose consciousness., ~ balance izgubiti ravnotežu: The pipe which was holding the pipe wrench slipped which caused the Second Officer to lose his balance, then the pipe wrench hit the elbow of the Chief Officer, causing a blood clot and a little swelling below the right elbow., ~ situational awareness izgubiti svijest o situaciji: The vessel continued towards the pier, and the master appeared to lose situational awareness when contact was imminent., ~ speed izgubiti brzinu, izgubiti na brzini: In light winds (less than 20-knots), ships lose speed in headwinds and gain speed slightly in following winds., ~ steerageway izgubiti sposobnost kormilarenja: ... reducing speed and stopping engine causes the vessel to lose steerage quickly. At
1059 own vessel began to lose steerage way, ~ headway prestati ploviti naprijed, izgubiti abrivu, izgubiti zalet broda / plovlila: As he did this, he stalled into wind, and lost all headway, ~ power gubiti snagu, izgubiti snagu: The Coast Guard responded to a vessel in distress following a report that it was taking on water and losing power, ~ a container izgubiti kontejner (pad kontejnera u more): The ship lost about 50 containers overboard off Sydney on Sunday. https://gcaptain.com/ According to a recent report by the World Shipping Council, on average a total of 1.382 containers lost at sea every year. https://safety4sea.com/; 2 pretrpjeti gubitak

**lose containers** (v) (safety, cargo handling) izgubiti kontejnere: A 10,000 TEU containership lost approximately 70 to 73 cargo containers due to high winds and heavy seashttp://gcaptain.com/containership-losses-about-70-containers-overboard-off-us-east-coast

**lose engine** (v) ostati bez pogona (na jednom ili oba stroja), ostati bez stroja: She then lost one of her two engines due to lube oil low pressure trip (https://safety4sea.com/) The ship then lost one of her two engines due to lube oil low pressure trip. (https://safety4sea.com/)

**lose overboard** (v) (safety) nestati s palube, pasti u more (o teretu) lose a person overboard izgubiti osobu / člana posade u moru: A crew member was lost overboard from a twin rig trawler during shooting operations, in darkness and moderate to rough sea conditions. One of the deckhands lost overboard was quickly recovered by the fishing vessel, but the second was in the water for over 30 minutes until he was eventually found and recovered, ~ lose a container overboard izgubiti kontejner u moru: A cargo ship lost 67 containers over-board during heavy seas off Australia A number of containers were lost overboard when the vessel listed heavily after beaching.

**lose power** (v) (navig, marine eng) ostati bez pogona: A capesize coal carrier lost power in Bosphorus and had to be rescued. The Master advised the other vessel and Pilot that his vessel had lost power and steering. A chemical tanker laden with caustic soda has lost engine power and is drifting in high winds and seas just 43 nautical miles from shore.

**lose propulsion** (v) ostati bez pogona: The ship lost propulsion after fire in Caribbean Sea. https://gCaptain.com

**lose steering** (v) (ship handling, navig) izgubiti sposobnost kormilarenja: Bulk Carrier Under Tow After Losing Steering Off Nova Scoti. A 143-meter bulk carrier is under tow back to port after losing steering off Cape Breton, Nova Scotia http://gcaptain.com/bulk-carrier-tow-losing-steering-off-nova-scotia/?

**loss** (n) (shipping econ, mar ins, marine eng) gubitak, šteta, opadanje: Such changes would have reduced the stability and freeboard, and possibly contributed to this loss. The ship may experience a 30 to 50% speed loss and it is a useful feature in many areas of ship handling where a sharp speed reduction is required. The following navigational errors and negligence were found to have contributed to this accident which caused a heavy loss to the company: Loss of the vessel’s own propulsion, electric power, steereage and maneuverability could be foreseen and eventually occurred. (https://safety4sea.com/) ~ of space gubitak prostora, actual total ~ (mar ins) stvarna totalna šteta: (ii) the Vessel shall be deemed to be lost either when it has become an actual total loss or agreement has been reached with the Vessel’s underwriters in respect of its constructive total loss or ... Total loss may be: a) actual total loss, where the subject-matter insured is destroyed or so damaged as to cease to be a thing of the kind insured, bear the ~ podnijeti štetu / gubitak, snositi štetu: Though the parent company will have to bear the losses of any claims received, either by its own ships and, of course, from third parties, ..., constructive total ~ izvedena totalna šteta:
The tug was a constructive total loss. The vessel was later declared a constructive total loss.

**partial ~ djelomični gubitak / šteta:** Broadly speaking, they are defined as follows: Particular Average is a partial loss due to purely accidental causes. Average can be divided into two areas: Particular average _ General average. Particular average is the incidence of a partial loss or damage of ship, cargo or freight, through unavoidable accident, upon the individual owners (or insurers) of the interest affected. 

**recover the ~ pokriti gubitak / šteta, nadoknaditi gubitak / štete:** The cargo underwriters will then seek to recover their losses from the shipowner or charterer.

**suffer the ~ pretrpjeti štetu / gubitak, poslovati s gubitkom:** The shipbuilder...

**suffered heavier losses for the second quarter of 2016.** The insured is entitled to claim whether he has suffered a total loss in his goods, which arises when the goods insured have been destroyed, or a partial loss.

**total ~ totalna šteta / gubitak:** Total loss may be: a) actual total loss, where the subject-matter insured is destroyed or so damaged as to cease to be a thing of the kind insured. 2 Very serious casualty means a casualty to a ship which involves the total loss of the ship, loss of life or severe pollution.

**~ in pressure gubitak tlaka, pad tlaka, ~ of life gubitak života:** It is also important to remember that there was no loss of seafarers’ lives during the incident. In this incident, such action could have caused a catastrophic explosion/fire with loss of life.

**~ prevention sprječavanje gubitaka:** Our recommendation in Loss Prevention Circular no. 05-06, to contact the respective suppliers of such locks to seek clarification of any limitations, is therefore still valid.

**major ~ (mar ins) veća šteta, veći gubitak:** Lloyds has assigned the casualty a major loss code and the International Union of Marine Insurers (IUMI) has said it may generate the largest GA loss on record, thought to be up to 100$ http://gCaptain

**loss and damage claim** (n) (mar law, mar ins) zahtjev za nadoknadu gubitka ili štete ~ form obrazac zahtjeva za nadoknadu gubitka ili štete

**loss of propulsion** (n) (marine eng, safety, ship handling) nestanak pogona broda, nestanak snage stroja, gubitak propulzije: At 08.50 No. 1 generator engine suddenly stopped, causing a blackout and loss of propulsion and steering. Under such circumstances, if the AHT suffers loss of propulsion or thrust, together with an adverse rudder position, the vessel is very vulnerable. The vessel suffered a power loss, which resulted in a temporary loss of propulsion and steering. The ship experienced a temporary loss of propulsion during heavy seas. https://splash247.com/

**loss of steering** (n) (navig, safety, ship handling) gubitak sposobnosti kormilarenja: The vessel suffered a power loss, which resulted in a temporary loss of propulsion and steering.

**loss or damage claim** (n) (shipping econ, mar law) tražbina za gubitak ili oštećenje (tereta): Cargo Loss or Damage Cargo claims can be divided into two categories claims for loss and damage claims for delay present the ~ podnijeti / predočiti tražbinu za gubital ili oštećenje tereta

**Loss Payable Clause** (n) (mar ins, mar law) odredba o plaćanju naknade za štetu (u polici osiguranja broda)

**lost container** (n) (shipping econ, safety, logist) izgubljeni kontejner, nestali kontejner: According to a recent report by the World Shipping Council, on average a total of 1.382 containers lost at sea every year. https://safety4sea.com/

**lost or not lost** (adj) (mar law) Klauzuła o isplati vozarine s ciljem da brodar zadrži pravo na vozarinu makar nije dovezao teret do odredišta (Grabovac); The term which may be used in contracts of carriage in which the freight is prepaid: often, freight is not returnable whether the ship and/or the
cargo are lost or not once having commenced the voyage. **izgubljeno ili nije izgubljeno:** Many charter-parties provide that brokerage commission is payable whether the ship is **lost or not.**

**lost slots** (n) *(cargo handling)* **SEE OOG cargo** The loss of space caused to the shipping line by the out-of-gauge (OOG) cargo. **izgubljena mjesta za slaganje kontejnera** *(zbog slaganja izvangabaritnih tereta na brodu)*, **izgobljeni slotovi**

**lot** (n) *(cargo, shipping econ)* **partija tereta, pošiljka tereta, jedinica tereta:** Usually tramps carry shipload *lots* of the same commodity for a single shipper. ~s of bulk grain pošiljke žita u rasutom stanju: Different *lots* of bulk grain should be separated in such a manner as to preclude their mixture., ~ of cargo *partija / pošiljka tereta, less than shipload ~s više partija/pošiljaka tereta na brodu*

**loud hailer** /ˈlaʊdheɪər/ (n) *(comm)* zvučnik velike snage za jednosmjernu vezu s drugim plovnim objektima ili k plovnom zvučnik na dovik, **portavoče:** The skipper heard the **loud hailer** but, although the launch was very close, he did not **CO2** bottle missing This message was passed by the harbour launch by a **loud hailer**. Nobody on board the tanker heard the tug’s **loud hailer**.

**lounge** /ˈlouns/ (n) *(nav arch)* **salon:** He looked through the glass access from the bridge to the **lounge** and saw the **lounge** rapidly filling with thick black smoke which was emanating from the engine compartment hatch. **passenger ~ putnički salon:** Once parked up, the vehicle occupants made their way up to the **passenger lounge** and the ferry sailed on her short crossing., **officer's ~ časnički salon,** **crew ~ salon niže posade, salon za posadu**

**louvre** /ˈlu:vər/ (n) *(nav arch)* a small opening to permit the passage of air for the purpose of ventilation, which may be partially or completely closed by the operation of overlapping shutters

**ušće izlaza zraka ventilation ~ ušće izlaza zraka**

**louvred washboard** /ˈlu:vəd/ *(boating/yachting)* **rešetkasti ventilacijski otvor**

**low** (n) = **depression** 1 *(meteorol)* An area of low pressure, usually accompanied by cyclonic and inward wind flow **ciklona:** ... BETWEEN 100 MILES AND 350 MILES FROM THE CENTRE. WINDS WILL ALSO INCREASE TO STORM FORCE 10 IN THE DENMARK STRAIT Part Two: **GENERAL SYNOPSIS** AT 150000UTC, **LOW** 58 NORTH 21 WEST 960 EXPECTED 62 NORTH 09 WEST 927 BY 160000UTC. **LOW** 63 NORTH 32 WEST 968 EXPECTED 58 NORTH 27 WEST 968 BY SAME TIME. **HIGH** 35 NORTH ... Since a **low** is, on a synoptic chart, always associated with cyclonic circulation, the term is used interchangeably with CYCLONE.; 2 *(oceanogr)* **niska voda, osea:** A “mixed tide”—two uneven tides a day, or one high and one **low**—is also possible

**lower** *(v tr)* **spuštati, spustiti, sniziti, smanjiti:** As the davit operator pushed the control to **lower the boat,** the hook opened and the boat fell approximately 9 metres to the water. At about 1432, as the tension increased, the skipper mentioned the need to **lower the mainsail,** but he did not direct his instruction to anyone in particular. This is achieved by reducing the height of the scavenge ports to **lower the scavenge air quantity** flowing through the cylinder. The starboard hoist was therefore used to **lower the pilot** to the waterline and it operated faultlessly. A container feeder vessel had just berthed at a terminal for cargo operations and the seaman assigned to **lower the gangway** reported to the duty officer that the controls of the electrical winch motor were unreliable. ~ **the cargo spuštiti teret,** ~ **the freight sniziti vozarinu,** ~ the pressure **smanjiti tlak,** ~ the anchor / cable **spuštati sidro / lanac,** **majnat sidro,** **Italian:** **ammainare:** Rverse the action of a windlass to **lower the anchor** until it is walked out of the hawse pipe.

**clear of the hawse pipe and ready for dropping** Walk back *(to)* **To reverse the action of a windlass to ease the cable** *(of anchor Electric Winch The Windlass is a special type*
of winch used to raise and lower the anchors and to handle the forward mooring lines. ~ the cable spuštati sidreni lanac: A decision to pay out another shackle of cable was taken to try and stop the vessel dragging her anchor. This was done by lowering the cable using the winch brake. ~ the cargo hoses spustiti cijevi za ukrca/iskrcaj tereta (manige), spustiti savitljive cijev (za prekrcaj tekućih tereta, nafte itd.): Failure to lower the cargo hoses into the water before releasing mooring; 12.

lower away (v) (seamanship) spuštati (brodicu za spašavanje): “Lower Away!” shouts the MLB (motor lifeboat) coxswain, www.gCaptain.com

lower bulkhead strake (n) (nav arch) donji voj pregrade
lower deck (n) (nav arch) the deck of a ship immediately above the hold donja paluba: It started when the Chief Officer reported a smell of gas in the lower deck alleyway.

lower-deck beam (n) (nav arch, sailing vessels) sponja donje palube
lower-deck hook (n) (nav arch, sailing vessels) zoja donje palube
lower gudgeon (n) (marine eng) donja samica
lower hold (n) (nav arch) donje skladište: The chief officer instructed that the main deck and lower hold were to be washed in accordance with the appropriate work order. Eight other labourers were

engaged in different tasks in the lower hold.

lower-lift purchase (n) (cargo handling) nateg donje klobučnice
lower-lifts (n) (sailing vessels) donja klobučnica (križa jarbola)
lower line (n) (nav arch) linija donje palube
lower mast (n) (boating/yachting, nav arch) the lowermost spar of a compound mast, stepped in the hull of a vessel and carrying a topmast and any other upper spars (http://www.dictionary.com/browse/lower-mast); a mast proper, as distinguished for a topmast glavni dio jarbola, donji dio jarbola, deblo

lower rigging (n) (boat/missile) lower shrouds donje pripone
lower strake (n) (nav arch) donji voj

lower the anchor (v) (seamanship) spuštati sidro: The Chief Officer commenced lowering the anchor cable but had to stop as there was no more loose cable remaining in the locker.

lower the sail (v) (boating/yachting) spustiti jedro: How to Raise and Lower Sails If conditions are calm and not challenging, its not much of a problem to lower sails but I still have to step up and manually bring them down.

low freeboard vessel (n) (nav arch) brod s niskim nadvođem ~ transfer
low-pressure alarm (n) (marine eng) alarm pada tlaka, alarm za preniski tlak:
229 On a loaded mini-bulk carrier sailing close to coast, a low pressure alarm sounded for the main engine lube oil system.

low-pressure boiler (n) (marine eng) niskotlačni kotao
low-pressure heater (n) (marine eng) niskotlačni zagrijač
low-pressure turbine (n) (marine eng) niskotlačna turbina: The high pressure and low pressure turbines are really separate turbines having their own drive shafts, which are coupled to a double reduction gearbox that decreases their

low slack water (n) (oceanogr) nizak vodostaj
low sulphur fuel (n) (marine eng) gorivo s niskim udjelom (sadržajem, postotkom) sumpora
low sulphur surcharge (=LSS, Green Fuel Surcharge (GFS), Emission Control Area Surcharge (ECA), Low Sulphur Fuel Surcharge (LSF)) (n) (environ, marine eng) Low Sulphur Surcharge is a surcharge levied by the lines to cover the costs associated with using low sulphur fuel in line with the IMO 2020 Sulphur Cap regulation. (Shipping and Freight Resource <info=shippingandfreightresource.com) doplata na vozarinu zbog poštivanja doljne granice udjela sumpora u gorivu: Low Sulphur Surcharge, also known as Low Sulphur Fuel Surcharge, LSS or LSF, was introduced in January 2015 by the International Maritime Organization (IMO) to reduce the amount of sulphur-containing fuel used by vessels. https://www.embassy-freight.be

low tide (n) (oceanogr) osea, niska voda: When the range of tide is increased, as at spring tides, there is more water available only at high tide; at low tide there is less, for the high waters rise higher and the low waters fall lower at these times. A high tide may provide enough depth to clear a bar, while a low tide may prevent entering or leaving a harbor. At low tide, the full extent of the damage was revealed ...

low water (n) (oceanogr) = low tide The minimum elevation reached by a falling tide. The low water is due to the periodic tidal forces and the effects of meteorological, hydrologic, and/or oceanographic conditions. niska voda, nisko more, osea, mala voda,

Italian:bassa marea: The water level is stationary at high and low water for only an instant, but the change in level near these times is so slow that it is not usually perceptible. The master checked the tidal information and saw that low water was at 0340.
loxodrome /ˈlɒksə dreaɪm/ (n) (navig) A loxodrome (or rhumb line) is a line crossing all meridians at a constant angle. (https://www.jasondavies.com/maps/loxodrome/); a line on the surface of the earth making the same oblique angle with all meridians loksodroma: a loxodrome or loxodromic curve spirals toward the poles in a constant true direction. The Mercator projection is so good for marine navigation since courses of constant compass bearing (loxodromes) appear as straight lines. The loxodrome appears as a straight line on the Mercator projection.

loksodromic /ˈlɒksədrəmɪk/ ~ curve Loxodromic curve line, or spiral, the course of a ship oblique to the equator and cutting all the meridians at the same angle, sailing constantly toward the same point of the compass (http://www.finedictionary.com/Loxodromic%20curve.html) loksodromska krivulja: Any other rhumb line spirals toward the pole, forming a loxodromic curve.

loxodromski trokut, ~ course loksodromski kurs loksodromski

LPG carrier Vessel designed to transport petroleum gas in a form of butane or propane. https://officerofthewatch.com/tools/maritime-dictionary/brod za prijevoz ukapljenog prirodnog plina

LRIT (Long Range Identification and Tracking of ships) (n) (navig) sustav praćenja i identifikacije brodova velikog dometa

LSF (Low Sulphur Fuel) (marine eng) gorivo s niskim udjelom (sadržajem, postotkom) sumpora

LSFO (marine eng, environ) (marine eng, environ) COMPARE HSFO The marine gas oil is also considered as low sulfur fuel oil or LSFO because it has sulphur content between approx. 0.10 and 1.50 m/m %. (https://www.marineinsight.com) gorivo s niskim udjelom sumpora, gorivo s niskim sadržajem sumpora: Low-sulphur fuel oil (LSFO) sales more than tripled to 570,000t in October from 174,000t in September. The higher viscosity 380cst LSFO grade again accounted for the large majority of sales, at 459,000t. Cylinder Lubrication of the main engines will face problem while using the LSHFO. www.safety4sea.com

LSS (Low Sulphur Fuel Surcharge) (marine eng) gorivo s niskim udjelom (sadržajem, postotkom) sumpora

LTL (less than truckload) (n) (shipping econ, logist) cargoes from different sources are usually consolidated into a truck to save costs. zbirni kamionski teret (kamion s robom koja glasi na više različitih primatelja): For shipments that won’t fill an entire truck, but don’t fit into contracted LTL rates, customers can turn to SMC3’s volume LTL pricing API to find needed capacity. JOC Daily Newswire

LTL carrier (less-than-truck carrier) (shipping econ, logist) prijevoznik kamiona kao teretnih jedinica, LTL prijevoznik: LTL carriers are positioning
themselves today for an anticipated increase in freight volumes
https://www.joc.com/trucking-logistics

LTL operator (=less-than-truckload) (n) (shipping econ) (logist) SEE truckload

While truckload carriers are trying to cut excess capacity, LTL operators are adding capacity in the form of new and expanded terminals, and many large publicly owned LTL carriers are growing profits in a soft freight market.

organizer prijevoza robe u kamionu koja glasi na više različitih primatelja; While truckload carriers are trying to cut excess capacity, LTL operators are adding capacity in the form of new and expanded terminals, and many large publicly owned LTL carriers are growing profits in a soft freight market.

organizer prijevoza zbirnog kamionskog tereta, otpremnik zbirnog kamionskog tereta, LTL operator

lubber (n) (safety) a clumsy or unseamnlike sailor nepomorac, nespretn pomorac, Žabar

lubber-hole /ˈlʌbər/ (n) (sailing vessels) ulaz u koš (na jarbolu)

lubber's line (=lubber line) (n) (navig) line engraved on the inside of a compass bowl; the direction (on the compass) you want your boat / ship to go; The angular difference between the heading as indicated by a lubber's line, and the actual heading; the horizontal angle, at the center of an instrument, between a line through the lubber's line and one parallel to the željeni pravac / kurs (na kompasu): Correct alignment of the lubber's line of the compass, gyro repeater, and pelorus with the fore-and-aft line of the ship is important.
**lube oil** /ˈluːboɪl/ (n) *(marine eng)* = lubricating oil, **SYNONYM** luboil ulje za **podmazivanje**: Subsequently, the main engine low **lube oil alarm** sounded. An entirely closed lube oil system eases installation and avoids the risk of dirt entering the **lube oil circuit**. The **lube oil supply pump** driven directly from the engine is also known as the priming pump.

**lube oil system** (n) *(marine eng)* **sustav ulja za podmazivanje**: An entirely closed **lube oil system** eases installation and avoids the risk of dirt entering the lube oil circuit. The **lube oil system** comprises of the main engine sump, suction and discharge filters, circulating pump, coolers and centrifuge.

**luboil** /ˈluːboɪl/ (n) *(marine eng)* **ulje za podmazivanje**

**lubricant** /ˈluːbrikənt/ (n) *(marine eng, seamanship)* **sredstvo za podmazivanje**: Sources of contamination within the **lubricant** are the fuel, cooling water and sea water. Viscosity of the **lubricant** is an important feature. When you face various deck equipment challenges, making **the right lubricant selection** can help lower labor costs, extend the life of the equipment, improve safety and more - **www.marinelink.com** ... selecting a specialty lubricant that can maximize the performance of a given deck application brings many benefits, including: minimizing wear and damage to moving parts, improving corrosion protection, reducing consumption of the lubricant, extending operating temperatures, increasing...
energy efficiency and reducing lubricant disposal costs. www.marinelink.com cylinder ~ sredstvo za podmazivanje cilindara

**lubricate** /ˈluːbrɪkeɪt/ (marine eng) podmazivati: The crosshead bearing is difficult to lubricate effectively. Oil is also supplied to lubricate the rocker gear operating the inlet and exhaust valves, and to the camshaft and camshaft drive.

**lubricating** (n) (marine eng) podmazivanje:

**lubricating oil** (=lube oil; luboil) (n) (marine eng) ulje za podmazivanje: Engine-driven lubricating oil and water pumps are mounted at the free end of the engine; air manifolds are mounted on the outside of the vee; and turbochargers and intercoolers As a preliminary step the Watch Engineer should check the fuel, lubricating oil and cooling water are at working level and the tanks properly drained. Any leakage of fuel, lubricating and hydraulic oil should be disposed of in accordance with Oil Pollution Regulations at the earliest opportunity.

**lubricating oil system** (n) (marine eng) sustav ulja za podmazivanja: The hydraulic pressure for the amplifier is delivered by the camshaft lubricating oil system. On models with plain bearings, where the quantity of oil required is large, these are fed from the main engine lubricating oil system.

**lubrication** /luˈbreʃən/ (marine eng, seamanship) podmazivanje: The roller pin requires positive lubrication, and the cam track must at least receive a definite spray. Cylinder lubrication: Because the cylinder is separate from the crankcase there is no splash lubrication as on a trunk piston engine.

**lubrication oil treatment unit** (n) (marine eng) uređaj za obradu ulja za podmazivanje

**lubricator** /luˈbreito/ (n) (marine eng) mazalica: The lubricator has a small piston for each quill in the cylinder liner, ... The cylinder control unit is connected to all of the functional components, its purpose to control the activation of fuel injection, the exhaust valve, the starting valve, and the cylinder lubricator for a specific cylinder.

**luff** /luʃ/ 1 (boating/yachting) SYNONYM head up; SYNONYM beat to head a sailing vessel more towards the direction of the wind prihvaćati (u jedrenju), skretati u vjetar, orcat, orcovat; Italian: orzare; 2 nekontrolirano prihvaćati, bježati u vjetar, bježati u orcu; 3 isprazniti jedro

**luff** /luʃ/ (n) (boating/yachting) COMPARE leech the forward edge of a sail; leading edge of a sail; forward-most section of a sail prednji rub jedra, prednji porub jedra, Italian: inferitura: One of the spinnaker halyards was “shot up” the mast and there was a tear in the genoa’s luff. The luff of a mainsail is usually hoisted up and attached to the mast whereas the luff of a jib is attached to the forestay. ~ cord konopac prednjeg ruba jedra, forestay ~ groove žljeb (kanal) prednjeg leta, žljeb (kanal) prednjeg ruba genove / floka: The reefing lines had not been put in the mainsail, and the genoa’s forestay luff groove was very stiff.

which caused difficulties in hoisting the sail.

**luffing** (n) 1 (boating/yachting) prihvaćanje, skretanje u vjetar; 2 when a sailing vessel
is steered far enough to windward that the sail is no longer completely filled with wind; to head into the wind, causing sails to flap and flutter. To head into the wind, causing sails to flap and flutter.

**luffing** (n) (cargo handling) podizanje / spuštanje kraka dizalice (samarice), podizni krak dizalice: The hoist, especially if attached to grabs, is subject to greater wear, but statistics show that the luff is more prone to part under load. level—crane dizalica s podiznim krakom (granom), dizalica s krakom na podizanje i spuštanje: On the docks various types of dockside cranes, level-luffing cranes, mobile cranes etc.

**luffing effect** (n) (ship handling) učin skretanja broda u vjetar, efekt bježanja broda u vjetar (zbog smjera vrtnje propelera i kuta zanošenja): For a given speed the turning effect (yaw movement) or luffing effect is normally greatest when drift angle is close to 45 degrees.

**luffing up** (n) (boating/yachting) namjerno skretanje u vjetar prihvaćanje, orcanje
**luffing winch** (n) (cargo handling) vitlo za podianje kraka dizalice / samarice / deriča: However, a lack of co-ordination in the use of the hoisting and luffing winches caused the crane's deck pad eye fittings to become overloaded.

**luff-line** (n) (boating/yachting) konopac prednjeg poruba jedra, utor jedra, grativ
**luff of jib** (n) (boating/yachting) prednji porub jedra
**luff of sail** (n) (boating/yachting) COMPARE leech prednji porub jedra
**luff up** (v) (boating/yachting) ANTONYM bear away To luff up means to bring the boat's bow so close to the wind, that the leech of the sail begins to flap.

**luff-up** (n) (boating/yachting) prihvaćanje, orca(va)nje
**lug** /lʌg/ (n) (nav arch) pločica kojom se međusobno spojaju elementi u prolazima spojna pločica

**luggage** (n) putnička prtljaga pesonal ~ putnički prtljag
**lugless joining shackle** /ˈlʌgəlis/ (=lugless shackle) (n) (seamanship) Each length of cable is joined to the next by a link which can be dismantled, and is called a lugless shackle.

**karika lanca, patentni škopac, škoba:** In order to distinguish one shackle from another,

---

the lugless shackle is painted white.
http://www.sotra.net/products/manuals/dismantling-of-a-kenter-shackle

**lug sail** /lʌɡseil/ (n) (boating/yachting) jedro na gornjem kraju pričvršćeno za drvenu motku postavljenu koso u odnosu na visinu jarbola oglavno jedro, sošno leto
**lull** (n) *(meteorol)* tišina, **bonaca**; **Italian**: bonaccia: A sudden brief increase in the speed of the wind of more transient character than a squall, and followed by a lull or slackening of the wind.

**lumber** /ˈlʌmbə(r)/ (n) *(US) (cargo)* drvo, drvena građa: Dry bulk shipping refers to lumber (n) *(US) (cargo)* drvo (teret), rezana građa

**lumber carrier** *(nav arch) = timber carrier* brod za piljenu građu, brod za rezanu građu, brod za drvo

**lumber clamp** *(cargo handling)* hvataljka za drvo (rezanu građu), klijiješta za dizanje tereta drva

**lump sum charter** *(mar law, shipping econ)* Voyage charter for which the freight is payable as a lump sum rather than per ton or other unit of cargo. (http://www.leewardcorp.com/es/); Voyage charter for which the freight is payable as a lump sum rather than per ton or other unit of cargo. The shipowner guarantees to lift a certain quantity of cargo but the charterer pays the same amount for freight irrespective of the quantity loaded. http://www.tkmglobal.net/chartering_LHTM paušalni ugovor o najmu broda, okrugli iznos najamnine broda: Voyage charter for which the freight is payable as a lump sum rather than per ton or other unit of cargo. The shipowner guarantees to lift a certain quantity of cargo but the charterer pays the same amount for freight irrespective of the quantity loaded.

**lump sum freight** /ˈlʌmpsaʊmˌfreɪt/ *(shipping econ)* the money paid to shipper for a charter of a ship (or portion) up to stated limit irrespective of quantity of cargo.

https://www.logisticsglossary.com/term/lumpsum-freight/; the alternative to fixing on a ‘Worldscale’ basis for spot charter parties, is to fix an agreed lumpsum freight amount for a specific voyage.

(www.euronav.com) okrugla vozarina, paušalna vozarina, vozarina

naprijeko, okrugli iznos vozarine: The remuneration of the shipowner from a voyage charterparty is Freight, calculated according to the quantity of cargo loaded or carried, or sometimes a lump sum freight for the complete voyage. If the vessel is chartered for a lump sum freight but is incapable of carrying the guaranteed capacity the charterer will be entitled to damages.
**lurch** /ˈlɜːtʃ/ (n) (seamanship) motion of a ship when rolling or pitching suddenly; a sudden heave of the ship
**broda:** Sensibly, he did not enter the compartment because at about the same time the vessel made a sudden lurch and began to roll to starboard. If disturbed by some external force, caused by wind or waves, the vessel may lurch to the same angle of loll on the opposite side.

**lure** /ˈluər/ (n) (fishing) any artificial bait used to attract and catch fish; predmet kojim pokušavamo isprovocirati napad ribe **varalica:** Scent Blazer lures are the ultimate in technology for the fishing industry. Not only are they crafted to look extremely realistic but they allow the fisherman to stock the lure with real bait. They work by rushing water through the entry holes in the front of the lure. When the water passes through, the scent of the bait along with minute pieces, attracts a host of species.

**lustrous** /ˈlʌstrəs/ (adj) (marine eng) sjajan
**LWL**¹ (=Load Water Line) (n) (nav arch) A line painted on the side of the vessel to which the vessel sinks when carrying its full load. The water line when a vessel is carrying its full load **teretna vodena linija**
**LWL**² (n) (nav arch) the length on the waterline where the ship is floating. **dužina vodene linije**

**lying a-hull** (n) (boating/yachting, safety) plutanje na valovima bez jedara
**lying ground** (n) **sidrište:** 1 mjesto / pozicija sidrenja broda: When the Master orders “Dead slow ahead”, the vessel is inching towards the lying ground of her port anchor.

**lying-to method** (n) (boating/yachting) postupak za kratko zaustavljanje (jedrilice)

**machinability** /ˈməʃənəbɪləti/ (n) (marine eng) sposobnost strojne obrade: Aluminium alloy has been traditionally used for turbochargers because of its high specific strength and excellent machinability.

**machine** /ˈməʃi:n/ (n) (marine eng) stroj, mašina: There were no instructions posted locally to the machine and little record of training. Maintenance: During maintenance oil and wear parts in the machine are replaced. Cracks can initiate on the machine after a period of operation and propagate with time. The Standard compass in particular is the only machine we have at sea which is almost 100% reliable and I do wish this was recognised. Only skilled or instructed persons are allowed to operate the machine, e.g. operating and management staff. **testing ~ uredaj / stroj za ispitivanje machine** /ˈməʃi:n/ (v) (marine eng) strojno obraditi

machinery /ˈməʃi:nəri/¹ (marine eng) = engine room strojarnica, brodska
strokarnica auxiliary machinery pomoćni strojevi: At appropriate intervals the main propulsion plant, auxiliary machinery and steering gear should be inspected. unmanned space strokarnica bez stalne straže u stroju, automatska strokarnica: Personnel should never enter or remain alone in any unmanned machinery space unless they have advised the bridge of their intentions. Modern ships provided with an Unmanned Machinery Space (UMS) such as tankers and bulk carriers employ dual-watch (poli-valent) officers (MarOff in the Netherlands) capable of keeping simultaneously the navigating and engine-room watch. unattended space automatska strokarnica, strokarnica bez straže u stroju, space strokarnica, steering gear space strokarnica kormilarskog uređaja, propelling space pogonski strojevi: The main propelling machinery must be kept ready to move (standby) and there must always be available on board a sufficient number of crewmen to enable the ship to leave the berth, refrigerating space

parno postrojenje, hydraulic machinery hidrauličko postrojenje: Recommendation that the use of eye protection should be considered when operating hose handling cranes or other hydraulic machinery where flexible hoses and fittings may be exposed to the aggressive elements of the sea, propulsion space pogonski stroj / strojevi: Note: A machinery space is not limited to the engine room noting that spaces containing auxiliary propulsion machinery are also included in the definition in regulation 2 of SOLAS II-1. Every chief engineer officer and second engineer officer on a seagoing ship powered by main propulsion machinery of 3,000 kW propulsion power or more shall hold an appropriate certificate. main space glavni pogonski stroj, glavni motor: Although some power was immediately restored by the emergency generator, it took some time to get the main machinery restarted. While alongside during the morning watch, a “bang” was heard in the unmanned forward main machinery space of a 20,000gt ro-ro ferry, manned space strokarnica s časnicima i posadom u straži: ... the container vessel proceeded on maneuvering speed and with manned machinery space towards One Fathom Bank., operation of the space rad stroja, funkcioniranje strojnice: The Chief Engineer shall command and supervise the operation of machinery; in person; in the following cases at minimum When entering and leaving port and shifting in a port., running space stroj u pogonu: Specific in the precautions to be taken, including a risk assessment, isolation of potential risks such as running machinery or hazardous substances and using correct equipment and clothing; prepare the space for (docking / berthing, loading etc.)

pripremiti storj za (pristajanje / ukrcaj tereta itd.): Approximately 1 hour before arrival at the loading area, the officer of the watch called the third engineer to prepare the machinery for loading.

2 strojarnica (kormilarska, sidrenoga vitla, mosne dizalice itd.)

steering space strojarnica kormilarskog uređaja: Several oil leaks from steering machinery were noticed. 3 all spaces in a ship that primarily contain operating equipment such as main propulsion machinery, auxiliary machinery, pumping systems, heating, ventilation and air conditioning machinery, etc (Ship Terms Glossary.html) svi strojevi na brodu: He should verify the current operational parameters and the condition of all machinery and see if these correspond to the log readings.

machinery breakdown (n) (marine eng) havarija stroja, kvar stroja: When a
Machinery breakdown occurs in close proximity to navigational dangers and other vessels, its consequences could be catastrophic unless effective action is taken.

Machinery control room (n) (marine eng) kontrolna kabina strojarnice, kontrolna prostorija strojarnice: The engineer then went to the machinery control room to start the engine. To begin work, the engine was taken off load, declutched from its gearbox and stopped from the machinery control room (MCR).

Machinery damage (n) (marine eng) oštećenje stroja, havarija stroja: The likely cause of the machinery damage was over torquing of the gearbox ...

Machinery failure (n) (marine eng) zakazivanje stroja, otkaz stroja, kvar stroja: Machinery failure lead to contact with berth.

Machinery room (n) (marine eng) = engine room strojarnica: The team, led by the C/E, and comprising of the 3/E, J/E and an OS, entered the hydraulic machinery room and started the main pump motor.

Machinery space (n) (marine eng, nav arch) strojarnica, prostor strojeva: A ship might reasonably be divided into three distinct areas: the cargo-carrying holds or tanks, the accommodation and the machinery space. A machinery space is not limited to the engine room noting that spaces containing auxiliary propulsion machinery are also included in the definition in regulations ... The engine room ventilation was stopped and all machinery space vents closed. The crew evacuated the machinery space and mustered, after which the C/E, J/E and electrician went to the CO2 room to investigate. Make every effort to keep the access to the machinery space clear; you never know when you may need to enter. Unattended ~ nenadzirana strojarnica, strojarnica bez posade, automatska strojarnica: ..., the engineer completely forgot about the transfer operation and both he and the rating left the engine room after changing over to unattended machinery spaces (UMS) mode. Unmanned ~: Code of Safe Working Practices for Merchant Seamen (COSWP) gives advice on communications for personnel entering and working alone in unmanned machinery spaces; nenadzirana strojarnica, strojarnica bez posade, automatska strojarnica

Machinery trials (n) (nav arch) inspections, tests and evaluations specific to the ship's machinery, including its main propulsion system išpitivanje strojeva, pokusne vožnje strojeva

Machine shop (n) (marine eng) radionica i skladiště alata i dijelova za potrebe strojarnice machine tools alatni strojevij (za obradu materijala), power tools elektroalati, hand tools ručni alati, welding equipment oprema za zavarivanje, aparat za zavarivanje

Machine tool (n) (marine eng) strojni alat

Mackerel (n) (fishing) lat. Scomber spp. skuša, lokarda, golac, vrnut Spanish ~ 1 Lat. Scomber Japonicus
MAFI truck (=MAFI tractor) (n) (cargo handling, ports) a mobil loading platform for loading a large item, facilitating transport by Ro-Ro vessel https://www.logisticsglossary.com/term/mafi/ ro-ro tegljač tipa Mafi: MAFI diesel tractors are used for shunting containers and semi-trailers and for loading and unloading of RoRo-ships.

magic eyeball reflector (n) (navig, electr) radarski reflektor s magičnim okom magični ventil, fleksibilna cijev za protuzakonito (zaobilazno) ispuštanje onečišćenih voda u more: A federal jury in .... has convicted a chief engineer of environmental crimes relating to the use of a 'magic pipe' aboard the vessel he served on in .... http://gcaptain.com/chief-engineer-found-guilty-of-using-magic-pipe/ The operator of a car carrier calling at Port of ..... has pleaded guilty and was sentenced to pay $ .... million over charges stemming from the use of a so-called magic pipe. http://gcaptain.com/tag/magic-pipe/page/3/

magistrate court /ˈmædʒəstɪ kɔːrt/ (n) (mar law) In England and Wales, a magistrates’ court is a lower court, where almost all criminal proceedings start. They have been streamlined to deliver justice swiftly. (https://en.wikipedia.org/wiki/Magistrates’_court); a court having limited jurisdiction over minor civil and criminal matters, as matters of contract not exceeding a particular amount of money (www.dictionary.com/browse/magistrate-s-court) lokalni / općinski sud: A city magistrate court on Monday ordered seizure of cargo ship M.V. ......., which is suspected to have hit a fishing boat just 20 NM away from the fishing harbour.

magnafux (n) (marine eng) The magnetic field fluorescent method for locating fine fatigue cracks. (http://www.marinediesel europe.com/) ispitivanje zamora materijala feromagnetskim paškom

magnesium (Mg) /ˈmæɡ nɪ ziəm/ (n) (chem) magnezij
magnetic bearing (n) (navig) an absolute bearing using magnetic north magnetski azimut: The ship’s bearing from shore on the reversed pelorus is the magnetic bearing of the shore position from the ship. Determine the range’s true bearing from a chart; then, convert this true bearing to the magnetic bearing by applying the variation listed on the chart.

magnetic compass (n) (navig) an instrument employing a magnetized needle which aligns with the Earth’s magnetic field and indicates magnetic north (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) magnetski kompas: This magnetism is the principal cause of deviation changes of a magnetic compass. The process of neutralizing the magnetic effects the vessel itself exerts on a magnetic compass is properly called COMPASS ADJUSTMENT, but the expression COMPASS COMPENSATION is often used for this process, too. A marine magnetic compass, usually of the inverted type, frequently installed in the master’s cabin for his convenience. After 1840, British Astronomer Royal Sir George Airy and later Lord Kelvin developed combinations of iron masses and small magnets to eliminate most magnetic compass error.

magnetic field (n) (boating/yachting, electr) magnetsko polje, magnetizirano polje: o An onboard magnetic field that is strong enough may deflect your compass and cause deviation. The strength of the field is proportional to current flow; 8 amps produce twice the deflection of 4. Boats and yachting

magnetic north (n) (navig) the direction towards the North Magnetic Pole; Horizontal direction expressed as angular distance from magnetic north. magnetski sjever: ...., a compass needle in line with the earth’s magnetic field will not indicate true north, but magnetic north.

magnetic variation (n) (navig) angular difference between magnetic north and true north, which alters year by year as the magnetic poles move magnetska varijacija: These values of magnetic variation may be found on Chart 42, on pilot charts, and, on the compass rose of navigational charts. On NOS charts, variation is to the nearest 15', updated at each new edition if over three years old. The current practice of DMAHTC is to give the magnetic variation to the nearest 1', but the magnetic information on new editions is only updated to conform with the latest five year epoch.

magnetron /ˈmæɡnɪtrɑn/ (n) (electr, navig) a high power microwave oscillator in which the potential energy of an electron cloud near the cathode is converted into r.f. energy in a series of cavity resonators magnetron (radara): After the power is turned on and the magnetron has warmed up, “ST-BY” (Stand-by) appears, indicating the radar is ready to transmit radar pulses

magnify /ˈmægnɪ fai/ (v) povećati: ....; slight changes in air pressure cause the cell to expand or contract, while a system of levers magnifies and converts this motion to a reading on a gage or recorder. Furthermore, the fall hazard was magnified by the application of grease to areas of the hatch coaming that he would be walking over.

magnitude /ˈmægnɪ tjuːd/ (n) (navig) the apparent brightness of a star as measured against a standard brightness scale (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary)
**magnituda:** All stars of magnitude 1.50 or brighter are popularly called “first magnitude” stars. Those between 1.51 and 2.50 are called “second magnitude” stars, ... Any quantity, such as a force, velocity, or acceleration, which has both magnitude and direction, as opposed to a SCALAR which has magnitude only. He can obtain the current’s magnitude from pilot charts or weather reports.

**mahogany** /ˈmɑːhəɡəni/ (n) (nav arch) mahagoni

**maiden call** (n) (seamanship) prvo pristajanje broda u luci: The new cruise ship made its maiden call at Hamburg on Tuesday. The world’s biggest container ship, OOCL United Kingdom, made her maiden call at Malaysia’s Westports in Port Klang on her way to China www.gCaptain.com

**maiden voyage** /ˈmeɪdən/ (n) first voyage for a new ship prvo putovanje broda: The first ever newbuild liquefied natural gas (LNG) fuelled German seagoing vessel, which is powered by a complete Wärtsilä LNG propulsion solution, had its maiden voyage on December 11. The Titanic struck an iceberg on its maiden voyage and sank with the loss of 1,513 lives. The vessel was on her maiden voyage and this was the first occasion that the system had been operated by the crew since the commissioning test by shipyard personnel during sea trials ... One of the world’s first ConRos powered by liquefied natural gas (LNG), departed Jacksonville on Friday night and arrived in San Juan on Monday, completing the maiden voyage on its regular Jones Act shipping service connecting the U.S. mainland with Puerto Rico. www.gCaptain.com The world's largest ship HMM Algeciras departed on its maiden voyage to Europe with a world record container load. Marineinsight https://www.marineinsight.com/ be on the ~ biti na prvom putovanju: A vessel on her maiden voyage carried a full cargo of Crude Coconut Oil, make the ~ ploviti na prvom putovanju: The container ship is making her maiden voyage from Asia to Europe.

**MAIF (=Marine Accident Investigators International Forum) (n) (mar law, safety) Međunarodni forum istraživatelja pomorskih nezgoda

**main** (n) (boating/yachting) = mainsail glavno jedro: Sails are always raised mainsail first, then the jib, because it's easier to point the boat into the wind using the main. http://www.wikihow.com/Sail-a-Boat Pull on the main sheet (trimming) until the sail is around 45 degrees away from straight back (aft). This is a safe place for the main while you trim the jib We raised the main and roller furling genoa.

**main aerial system** (n) (comm, nav arch) glavni antenski sustav: ..., it may be possible to transmit a message using the portable equipment, which is provided for use in the survival craft and connected to the ship's main aerial system. https://gr.dreamstime.com/

**main arm** (n) (cargo handling) krak dizalice: The main arm or derrick boom can be raised when the vessel departs so as to clear the mast and superstructure. The main arm or derrick boom can be raised when the vessel departs so as to clear the mast and superstructure.
main bearing (n) (marine eng) a bearing supporting the crankshaft on its axis glavni ležaj:
The main bearing bolts are hydraulically tightened. The main bearings have white-metal shells, and the main bearing caps are held down by a pair of jack bolts in the RTA84C and by a pair of elastic holding-down studs in the RTA96C. ...; the displacement of all the crankshaft main bearing shells; scoring of the crankpin and main bearing journals; overheating of crankpin and main bearing journals; overheating of the bedplate at the main bearing housings; overheating of the piston connecting rods; the seizure of several pistons ... The stud bolts for the cylinder head (shown here) as well as those for the connecting rod and main bearing of the W26 engine are hydraulically tensioned. inspection of the ~s pregled glavni ležajeva: During inspection of the main bearing in the thrust shaft end use the lifting tools for crankshafts and bearing caps / shells.
http://www.tsb.gc.ca/eng/rapports-reports/marine/2014/m14p0023/m14p0023.asp

main body (n) (nav arch) the hull proper, without the deck houses, etc. goli trup broda

main brace (n) (boating/yachting) one of the braces attached to the mainmast glavna uzda:
'Haul on the main brace! The main brace was the principal fore-and-aft support of the ship’s masts. Splicing the Main Brace was the most difficult repair to effect at sea.

http://www.oceannavigator.com/May-June-2014/Square-sail-handling/

main bridge console (n) (nav arch, navig) = console upravljački pult na zapovjedničkom mostu: The wheelhouse equipment of a modern ship normally encompasses the main bridge console with the plotting aids (ARPA), path finder radars ((3 cm x-band radar and 10 cm s-band relative motion radar).
main course

**main deck** *(nav arch)* the uppermost continuous deck extending from bow to stern; the principal deck of the hull, usually the highest extending from stem to stern and providing strength to the main hull

**glavna paluba**: To get a better view, he went down on the **main deck** abreast the forward end of No. 3 hatch. An AB slipped on the port side of the **main deck** adjacent to hatch #2 and bruised his left knee slightly. The chief officer instructed that the **main deck** and lower hold were to be washed in accordance with the appropriate work order. Two ABs, who were keeping watch on the **main deck**, considered it to be unsafe to blank the manifold while working under the cargo hose, and deferred doing so. At 0600, the dayshift crew issued a Permit to Work (PTW) for the hot work on the **main deck**.

![Diagram of the main deck](http://navy.memorieshop.com/Cargo-Ships/Section-107.html)

**main deck line** *(nav arch)* linija glavne palube

**main deck stanchion** *(nav arch)* upora glavne palube: A **main deck stanchion** on frame 14 was struck and sheared off about a foot above the deck ~ beam

![Diagram of the main deck stanchion](http://www.scritub.com/tehnica-mecanica/Curs-este-destinat-studentilor13221974.php)

**main deck stringer bar** *(nav arch)* A continuous fore and aft strength member made up of angle bars or shapes attached to the inside flanges of the frames of the main deck

**main engine** *(marine eng, nav arch)* glavni stroj, glavni motor, A small amount of water was also put down the exhaust uptake, care being taken to allow this to drain off before it reached the **main engine**: The ship was fitted with a single 2-stroke slow speed diesel **main engine** driving a 6-blade, right-handed, fixed pitched propeller. [www.gov.uk/maib](http://www.gov.uk/maib) He saw oil being sprayed from the port (scavenge) side of the single,
eight cylinder, main engine, accompanied by smoke and flames. When the chief engineer received the high temperature alarm at the fresh water inlet to the main engine, it was already too late. As a result, the main engine shut down automatically on a critical alarm condition. The ship has a single main engine driving a right-handed six fixed pitch propeller. Standard bulk carrier designs today have a single 2-stroke main engine directly connected to a Fixed Pitch Propeller and have three auxiliary gensets.

www.motorship.com/__data/.../White-Paper.Shipping-in-the-2020-era_Pre-final.pdf  start the ~ uputiti glavni stroj: The master called the crew to mooring stations and requested that the vessel’s main engines be started., run the ~ ahead voziti glavnim strojem naprijed: The tension on the spring line was checked in position by the master running the main engine ahead., control the ~ upravljati glavnim strojem: The main engine was controlled from the bridge telegraph via an electronic load management system. www.gov.uk/maib http://www.marinelog.com/index.php?option=com_k2&view=item&id=7032:me-gi-adds-ethane-to-its-fuel-portfolio&Itemid= 231

main engine control system  (n) (marine eng) upravljački sustav glavnog stroja, sustav upravljanja glavnim strojem

main engine damage  (n) (marine eng) havarija glavnoga stroja, kvar glavnoga stroja suffer ~ pretrpjeti havariju glavnoga stroja, pretrpjeti kvar glavnoga stroja: The ship suffered main engine damage which, will cause the vessel to be delayed.

main engine failure  (n) (marine eng, navig) otkaz(ivanje) glavnog stroja, zatajivanje glavnog stroja: A bulk carrier experienced main engine failure and subsequently drifted about 700 nautical miles northeast of Honolulu. https://safety4sea.com/

main engine manoeuvring air system  (n) (marine eng) sustav uputnog zraka za vožnju strojem naprijed i natrag

main engine systems  (n) (marine eng) sustavi za brodskie strojeve

main frame  (n) (nav arch, sailing vessels, boating/yachting) glavno rebro, žaba (glavno rebro drvene brodice)

main halyard  (n) (boating/yachting) podigač glavnog jedra: A main halyard should have a low elongation
**mainland** /ˈmeinland/ (n) (geogr, navig) kopno: Much of Cork’s traffic in trade vehicles is handled at the Tivoli Ro-Ro terminal where regular shipments are discharged from British and mainland European ports. An area of fast ice between the mainland and nearby inhabited islands used in winter as a means of travel. Approximately 25 minutes later, the vessel ran aground on the shores of the mainland while still travelling at passage speed.

**main line** (n) 1 (fishing) SEE fishing line uzica koja je namotana na rolu, a na njega se veže, predvez, na kojemu su prame ili pijke (https://ribolovnjadarhu.hr/ribicki-leksikon) osnovni najlon, povraz, tunja: Mono and fluorocarbon main lines work best for kingfish professionally, with wire leader of course.

2 (nav arch, cargo handling) glavna cijev, glavni vod: After leaving the paint locker he hit his forehead on the inert gas (IG) main line directly above and to the side of the paint locker entrance.

**mainmast** /ˈmeɪnmæst/ (n) (nav arch) the chief, and tallest mast of a sailing ship that has more than one mast; usually the second mast aft form the deck glavni jarbol
The Main Mast Or the Radar Mast

Main mast light: Main mast lights range reduced to about 20% due to exhaust from funnel. We observed this vessel and gave it the widest berth possible as the light she was showing were: Foremast, mainmast, port and starboard side lights, 2 red lights in a vertical line, one red slightly displaced and lower than the two red, one flashing red and a flash.

- Reefing Line
- Outhaul
- Cunningham Cringle
- Foot
- Reefing Cringle
- Leech
- Luff
- Clew
- Boom Vang
- Boom
- Tack
mainsail fittings (n) (boating/yachting) Mainsail fittings include centre and/or transom mainsheet fittings, sheet blocks, fairleads and cleats.  

mainsail handling (n) (boating/yachting) The Fantail DS and WE can be fitted with an optional carbon pocket boom with integral mainsail cover and lazy jacks for convenient mainsail handling.

mainsail parts (n) (boating/yachting)
mainsheet /ˈmeɪntʃ/ (≈main sheet; sheet) (n) (boating/yachting) sail control line that allows the most obvious effect on mainsail trim. Primarily used to control the angle of the boom, and thereby the mainsail, this control can also increase or decrease downward tension on the boom while sailing upwind, significantly affecting sail shape (http://www.nauticed.org/)
jedra, škota (jedra), Italian: scotta della randa: Just before the tack, bear away onto a close reach, ease the main sheet ... With your sheet hand, pull in the mainsheet as far as possible, bringing the sheet across your body from the stern. This latest model has a rope traveler located on the transom of the boat with the main sheet attached and a newly designed main with a higher boom angle. When tacking an aft-main sheet boat, the helmsman faces aft; if a centre-mainsheet is fitted, he must face forwards to handle the mainsheet. ~ block kolotur škote, bucel škote: There is usually a cleat attached to the lower mainsheet block so that the sheet can be cleated when the helmsman chooses.

mainsheet tackle (n) (boating/yachting) čekrk glavne škote, koloturnik glavne škote: The 4:1 mainsheet tackle is the most common system on boats under 28 ft (8.5 m). At the same time, grasp all the parts of the mainsheet tackle and 'throw' the mainsail over to the new gybe.

mainsheet traveller (=mainsheet traveler (US)) (n) (boating/yachting) klizač škote, Italian: barra di scotta: Features including oversized line clutches, self-tailing winches, adjustable jib sheet cars and mainsheet traveller allow novice sailors to learn the basics, and more experienced sailors to progress to higher levels of performance. The crew then pulls in the jib sheer further, while the helmsman uses the mainsheet traveller to control the direction of the cat. As the mainsheet traveller moves into the centre, she passes the extension behind the mainsheet to the other side of the boat.

mainsheet traveller rail (n) (boating/yachting) tračnica klizača uzde, šina klizača škote: As the mainsheet traveller moves into the centre, she passes the extension behind the mainsheet to the other side of the boat. Most of the techniques described for dinghies also work for keel boats, although the mainsheet traveller tends to be more of a primary control in keel boats.

main shroud (n) (boating/yachting) a stabilising rope from the top of the mainmast to the bottom of the foremost. pripona glavnog jarbola: One of the main shrouds on my sailing boat has a couple of broken wires in it.
main stay (=mainstay) (n) (boating/yachting) the stay running from the top of the mainmast to the bottom of the foremost, or from the top of the foremost to the ship's stem

leto glavnog jarbola, glavni štraj
The 440 Volt power supply was not isolated from the main switchboard prior to the re-connection attempt. The circuit breaker on the main switchboard was also tripped. Most of the lights below deck will remain on because they receive electric power from the main switchboard. The tanks was not estimated either. At about 0130 hrs, a ‘440 V Insulation Fail’ alarm activated at No. 1 deck crane power distribution panel on the main switchboard.
maintain /ˈmeɪntɪn/ 1 (seamanship, marine eng) održavati: No routine had been established to
In particular, it includes advice on the need start and maintain the engine, and ... Do not allow personnel
to clean, assemble, operate or maintain the separator until they have read and fully understood this
manual. Lessons learned - Ensure the engine crew maintain the boiler as per manufacturer’s
specifications. ~ the hull održavati trup; 2 (marine eng, seamanship, navig) = keep
držati, održavati: Those coils, usually fitted in the bottom of the cargo tanks, can maintain a
constant heat of up to approx. 50 degrees C. The main function of the governor is to maintain the engine
speed at the desired value. ~ the course (navig) držati kurs: He could not give way as his Captain
had given strict orders to maintain the course. The ship was unable to maintain course due to a loss of
steering, ~ the watch (navig) držati stražu: During the voyage to the next port the master, chief
officer and second officer maintained their normal navigation watches. Za vrijeme plovbe do sljedeće
luke prvi i drugi časnik palube držali su svoje normalne plovidbene straže, ~ a proper lookout
pomno motriti: Maintain a proper lookout at all times. It is impossible to both maintain a proper
lookout and work at the chart table for any length of time. , ~ the heading držati smjer, držati
pramčanicu na: The ship then maintained this heading until about 2114
maintenance /ˈmeɪntənəns/ (n) održavanje, Italian: manutenzione proper ~ 1: Most of
the cargo loss or damage resulting cargo claims can be prevented by a proper maintenance of vessels
and proper care of cargo. ; 2 pravilno održavanje, undergo ~ biti podvrgnut
radovima održavanja, obavljati radove održavanja: The ro-ro ferry was
undergoing maintenance in a shipyard overseas Ro-ro trajekt je obavljao radove održavanja,
preventive ~ preventivno održavanje: The probable cause of the fire on board the vessel was the ineffective preventive maintenance program and insufficient guidance regarding the response to
engine high-temperature conditions, ~ perform ~ obavljati održavanje: Maintenance,
through examination, operational testing overhaul and repair of lifeboats, rescue boats and fast rescue
boats must be performed by authorized service providers, improper ~ nepravilno
održavanje, poor ~ loše održavanje
main yard (n) (sailing vessels, boating/yachting) the lower yard on a mainmast glavni križ: If
the main yard is weak, get a jumper on the weather yard-arm, before starting the main tack. The mainsail is
unbent and sent down, main topsail furled, and the main yard stripped of leechline blocks, boom-irons, &c.
maize /meɪz/ (n) cargo kukuruz: In this case, the maize cargo was fumigated by placing bags of aluminium phosphide fumigant on top of the cargo in each of the vessel’s four holds.

major damage (n) (safety, mar ins) velika / veća šteta: The vessel sustained major damage, including the total loss of her port controllable pitch propeller hub and a section of tail shaft. One of the tugs then became trapped between the vessel and the berth knuckle, causing major damage to the tug and putting her in danger of capsize.

make a lee (v) (navig, boating/yachting) pružiti brodu privjetrinu, stati u privjetrinu: Make a lee for the pilot boat. .15 Make a lee on your port side / starboard side. .16 Steer ... degrees to make a lee. (IMO SMCP) ... so the pilot, now on deck, requested the Master change course to 180° and then to 160° to make a lee.

make boarding speed (v) (navig) ploviti brzinom za ukrcaj peljara: .18 Make a boarding speed of ... knots. (IMO SMCP)

make colours (=make colors) (v) (seamanship) Hoisting the ensign at 8 a.m. and down at sunset. dizanje zastave pripadnosti broda (u suton)

make fast (v) 1 (seamanship) to tie up a mooring line, ship etc.; to attach / tie a line to something so that it will not move. zavezati, vezati (konop, uže), privezati (brod, uže), završiti privez, Italian: dare volta: ... Your vessel in position - make fast. We are in position. Make fast fore and aft. Fast forward. Fast aft. ... ... ..., it is quite common for the stern tug to make fast on a central line sunken bitt, ... The Master instructed the C/O to slack on that spring too, however, the C/O instructed the AB to make fast on the spring on the bitts. A tug approached stern to stern with the containership ready to make fast a tow line from her aft tow winch, as was normal practice. headline made fast pramčani konop vezan i učvršćen, tug made fast 1 tegljač

privezani: Two tugs were also in attendance, one tug was made fast aft through the centre “Panama Lead”, the second was pushing on the port quarter. The tug made fast aft and commenced operations.; 2 teglo uhvaćeno, ~ the line zavezati konop: Making a tug line fast to a ship presents a significant hazard to both ship and tug crews., ~ (a tug) privezati se (o tegljaču): The pilot ordered the first tug to make fast on the stern, the second on the starboard side and the third to follow the vessel on the port side. www.safety4sea.com; 2 privezati brod: The tugs were made fast at 0808, the forward tug with a bollard pull of 30 tonnes and the after tug with a bollard pull of 10 tonnes. ship made fast and secured brod privezan i vezovi učvršćeni (u izvješću poslanom ptem radija)

make good 1 (navig) preći put / udaljenost: Every passage should be planned in advance, the intended track plotted, and the course made good closely monitored and checked against the plan. During the time while trying to get the light on, the Master was using the radar for guidance and the course made good was displayed on the GPS screen. course made good pređeni kurs, ~ course ploviti na kursu od ...: The OOW also identified that the container ship was making good a course over the ground (COG) of 216° at a speed of 12.4kts and was overtaking the tanker. Example 2: The captain desires to make good a course of 095° through a current having a set of 170° and a drift of 2.5 knots, using a speed of 12 knots. The vessel was following a track displayed on the ECDIS and was making...
good a course of 146° in autopilot steering at a speed of 11.2kts., distance ~ pređena udaljenost, pređeni put: With electronic systems out of service, keep a close check on speed, direction, and distance made good. Traverse sailing applies the principles of plane sailing to determine the equivalent course and distance made good by a craft following a track consisting of a series of rhumb lines., ~ speed ploviti brzinom od: At 1007 the bulkcarrier was making a speed of 12.8kts; 2 (v) (mar law, mar ins) nadoknaditi štetu, obeštetiti: the cost of fuel in the salvage operation shall be made good to the Shipowner brodaru će se nadoknaditi troškovi za gorivo u operaciji spašavanja

make ... knots ploviti brzinom od ... čvorova (o brodu): The target was on a course of 125 degrees making about 10 knots, ... www.safety4sea.com

make of the engine (n) (marine eng) izvedba motora, tip stroja: The starting and manoeuvring of the engines is accomplished by the operation by the operation of either a handwheel, or a lever, or a combination of levers, according to the make of the engine.
maker (n) proizvođač, konstruktor (stroja, itd.): Root cause/contributory factors Inadequate instruction: the engine maker's manuals did not give specification or define the period for renewal of the tab washer of drive gear securing nut; Inadequate alarm system design: As a result of the ship's staff's not observing the maker's maintenance instructions and poor engineering practice,...

make sail (v) 1 (boating/yachting) Spread a sail or sails; start the voyage razviti jedra, povećati jedrilje (jedrenjaka); The sloop is about to make sail. 2 (seamanship, navig) isploviti, započeti putovanje broda

makeshift (adj) zamjenski, privremen, improviziran, provizoran: Makeshift plugs, sockets and fuses should not be used.

make the land (v) (navig) to sight and approach or reach land from seaward; to reach shore stići do kopna, doploviti do kopna / obale, stići do obale

make the landfall (v) (navig) to reach land after a journey by sea doploviti do kopna, stići do kopna / obale, doći do obale (o cikloni): ... beyond the range of short range systems, but their use is generally limited to ranges permitting reliable positioning for about 1 day prior to making landfall; These aids also assist mariners in making a safe landfall, mark isolated dangers, enable pilots to follow channels, and provide a continuous chain of charted marks for precise piloting in coastal waters. Cyclone Vardah made a landfall in Chennai on Monday beyond the range of short range systems, but their use is generally limited to ranges permitting reliable positioning for about 1 day prior to making landfall; Decca is an example.

make up (v) 1 sastaviti (napisati, ispuniti) dokument / obrazac / pismo: Another construction, used on large engines, is to make up the camshafts in sections, with cams either integral or separate, each section handling one cylinder or a group of cylinders.; 2 (v intr) činiti / sačinjavati (pošiljku): In the vast majority of cases the pilot works professionally alongside the master and officers to make up an efficient and safe Bridge Team ...; 3 dopunjavati, dolijevati; 4 nadoknaditi, dodavati: It is always easier to avoid arriving early by slowing down than it is to make up lost time by speeding up. To make up for any leaks in the system there is a header tank, which automatically makes up any deficiency.

make-up feed tank (n) (marine eng) tank za dodatnu napojnu vodu, nadolijevni napojni tank

make water (v) (safety) to take in water; to leak puštati, krcati more / vodu,
prodirati (more u brod): . 1.1.2 - Flooding I have leak below water line. **I am making water**.
Can you stop leak? I will send pumps / divers I have dangerous list. I am in critical condition. (IMO SMCP)
What is damage? No damage. I am not under command. I am making water. I am sinking. (IMO SMCP)
The vessel was holed and **making water**.

**make way** (v) (navig) kretati se (o brodu), **Italian: abbreviare**: The ship was making its way down the river towards the exit under the command of captain ..., at 12 knots. Her ARPA vector also confirmed that she was making way and was on a near-collision crossing course. Meanwhile, a ferry was en route in the main channel making way at about 14 knots. **While not making way**, the vessel rolled heavily in starboard beam-on seas and green water was taken over the main deck and hatch covers. A small container vessel was making way in a restricted waterway under pilotage. Nonetheless, the RIB continued to make way in the water until it stopped about 100m from the helmsman. If the ship does not make way through the water the sidelights should not be exhibited. As the vessel made way in restricted waters, the helmsman was at the main console using the wheel to steer the vessel in full follow-up (FU) mode. ~ through the water the term is used to express that the vessel is actually moving through the water, i.e. making way through the water and thus responding to her rudder. **kretati se kroz vodu**: A power driven vessel underway, even when not making way through the water, should exhibit the lights prescribed in rule 23. A power-driven vessel gives one prolonged blast every two minutes on her whistle or siren when she is making way through the water, and two prolonged blasts every two minutes if she is under way but stopped., ~ over the ground **kretati se preko dna**: ... and at one point we were doing a boat speed of 9 knots, but only making way over ground at 1 knot. (Boating), ~ ahead **kretati se naprijed**: that the master and pilot maintained control of the vessel until she had fully entered the flood tidal stream and was in a safe position to start making way ahead., ~ astern **kretati se natrag**

**make way under power** (n) (boating/yachting, navig) **plovidba motorom**: If making way under power in fog, the signal is: One prolonged blast every 2 minutes when a sailboat is making way under power, it is considered a power driven vessel

Malacca-max (n) (nav arch) Maximum size of container and bulk vessels (in terms of draught) that can cross the Malacca Straits. The Malacca-max reference is believed to be today the absolute maximum possible size for future container vessels (approximately 18,000 TEU)

**malfunction** /mælˈfʌŋkʃən/ (n) (marine eng, seamanship) neispravnost, loš rad, loše funkcioniranje, greška: Any routine adjustment may then be made and malfunction and breakdowns can be noted, reported and corrected. No bank suction/cushion was involved and no machinery malfunction is suspected. The most likely cause of the auxiliary boiler overheating was a malfunction of the control system, which allowed the water level to drop too low without shutting down the burner.

**malicious act** /ˈmeɪliəs/ (n) (mar law) zlonamjerni čin
**malicious damage** /ˈmeɪliəs/ (n) (mar law, mar ins) šteta osiguranomu interesu nanesena isključivo namjernim djelovanjem trećih osoba zlonamjerna šteta: (b) "War Risks" shall include ..., acts of hostility or malicious damage, blockades (whether imposed against all Vessels or imposed selectively against Vessels of certain flags or ownership, or against certain cargo.

**Malicious Damage Clause** (n) (mar ins) **klauzula o zlonamjernoj šteti**

**malleability** /ˈmæliəbəl/ (adj) 1 (marine eng) kovan; 2 (marine eng) koji se može kovati

**malleable** /ˈmæliəbl/ (adj) 1 (marine eng) kovan; 2 (marine eng) koji se može kovati
mallet  /ˈmælɪt/ (n) (marine eng) veliki bat, malj, drveni malj, macola: He was at the helm, and as the boat drew close to the bank he picked up the mooring rope, a mooring spike, and the mallet and attempted to step across the gap between the stern and the canal bank. rubber ~ gumeni malj, gumeni bat: If replacing valve plugs (24), use a rubber mallet.

manned by 16 crew of various nationalities ~ the engineroom postaviti posadu stroja, časnici i posada u strojarnici: The engine room was adequately manned at the time of the incident; 6. Strojarnica je imala odgovarajući broj posade. The duty engineer entered the engine room at 06:50 to man the engine room and discovered fuel oil spraying around the main engine top, middle and lower platforms, as well as around the flywheel area.

rubber ~ gumeni malj, gumeni bat: If replacing valve plugs (24), use a rubber mallet.

man  (v) 1 to take up a duty position; to post a man on a duty on board ship postaviti posadu na brodu, zaposliti posadu na brodu, imati posadu (o brodu): the ship was manned by 16 crew of various nationalities ~ the engineroom postaviti posadu stroja, časnici i posada u strojarnici: The engine room was adequately manned at the time of the incident; 6. Strojarnica je imala odgovarajući broj posade. The duty engineer entered the engine room at 06:50 to man the engine room and discovered fuel oil spraying around the main engine top, middle and lower platforms, as well as around the flywheel area.

man the lookout postaviti člana posade na mjesto motrenja; 2 postaviti brodsku posadu, popuniti brod posadom: The vessel/unit shall be competently and adequately manned so as to ensure its safe operation and the maintenance of a sea-watch system. One person cannot man the helm, monitor the radar, serve as lookout, plot fixes, communicate with other vessels and the bow lookout, and so on.; 3 voditi (brod), upravljeti: the ship must be well -ned brodom valja dobro upravljeti

manage  (v) 1 rukovoditi, biti direktorom: The officer-in-charge on deck must monitor and manage his mooring team effectively. His role is to control and manage the personnel of his mooring party. Today, 56-year-old .... manages the shipyard with .... chairing its executive board; 2 upravljeti; 3
The crew managed first to confine the fire in the hold by smothering it. Once in the water, the skipper retrieved the liferaft from its stowage and managed to inflate it, although it was upside down.

(k) koristiti (brod), ekonomski upravljati brodom, poslovno voditi brod: The vessel is managed by CMA Ships and is operating on the company's Far East Line.

The ship managed by BSM will be responsible for all aspects of ship management, including crewing, technical operations, safety performance, environmental performance, and energy efficiency. Once the demise charterer obtains the ship, the Managers shall be entitled to have regard to their overall responsibility in relation to all vessels as may from time to time be entrusted to their management and in particular, but without prejudice to the generality of the foregoing, the Managers shall be entitled to allocate available supplies, manpower, and owned by a reputable company. Some shipowners may like to manage their own ships using an in-house ship management department. Some shipowners, especially those with small fleets or institutions who have bought ships as a speculative investment, employ ship managers to manage their ships for them. ~ in house poslovno voditi brod unutar vlastite firme: By managing ships both in house and by using third-party management companies, owners can benchmark their own operations against those of a contractor.

BSM will be responsible for all aspects of management, including crewing, technical operations, safety performance, environmental performance, and energy efficiency. Once the demise charterer obtains the ship, the Managers shall be entitled to have regard to their overall responsibility in relation to all vessels as may from time to time be entrusted to their management and in particular, but without prejudice to the generality of the foregoing, the Managers shall be entitled to allocate available supplies, manpower, and owned by a reputable company. Some shipowners may like to manage their own ships using an in-house ship management department. Some shipowners, especially those with small fleets or institutions who have bought ships as a speculative investment, employ ship managers to manage their ships for them. ~ in house poslovno voditi brod unutar vlastite firme: By managing ships both in house and by using third-party management companies, owners can benchmark their own operations against those of a contractor.

A ship management company provides any combination of services for a shipowner, including areas of technical, operational, operational, manning, commercial and even financial management. upravitelj broda, trgovačko društvo koje se bavi upravljanjem brodova: The services of the Ship Management Company are paid for by the shipowner.

Maersk Line has decided to hand over the management of six vessels to Bernhard Schulte Shipmanagement (BSM). A mistake in the management of the ship can be very expensive, both in terms of financial loss and reputation. The bareboat charter provides for the lease of the ship to a charterer who has the operating organization for complete management of the ship.

The container ship was one of 18 container ships managed by Ltd. Limited, and was trading on a liner service between the Far East and the Mediterranean Sea. This incident occurred on an otherwise very well maintained vessel which is managed by BSM and is operating on the company's Far East Line. ~ the ship managed by BSM will be responsible for all aspects of ship management, including crewing, technical operations, safety performance, environmental performance, and energy efficiency.

Subject to the terms and conditions herein provided, during the period of this Agreement the Managers shall carry out the Management Services in respect of the Vessel as agents for and on behalf of the Owners.

services usluge: Subject to the terms and conditions herein provided, during the period of this Agreement the Managers shall carry out the Management Services in respect of the Vessel as agents for and on behalf of the Owners.
**MANAGEMENT LEVEL** *(mar law)* 
Razina odgovornosti za obavljanje dodijeljenih zadataka, dužnosti ili odgovornosti zapovjednika ili upravitelja stroja na pomorskom brodu.

**MANAGING OWNER** *(mar law)*
Razina odgovornosti za obavljanje dodijeljenih zadataka, dužnosti ili odgovornosti zapovjednika ili upravitelja stroja na pomorskom brodu.

**MANAGING DIRECTOR** *(mar law)*
Izvršni upravitelj broda.

**MANAGEMENT OF THE SHIP** *(mar law, shipping econ)*
Rukovođenje brodom, poslovanje brodom:

- If the watch officer’s had a lack of competence, this would be covered by the section which refers to the carrier not being responsible for loss or damage arising from any act, neglect or default of the master, or servants of the carrier in the navigation or in the management of the ship (Hague Visby Article IV (2)) chart, ... the most effective means of combating marine pollution is by educating and training the operating personnel employed on board ships involved in the management of ships administering the export/import Port.

**MANAGEMENT OFFICE STAFF** *(shipping econ)*
Poslovodno osoblje brodara na kopnu:
Responsibility for maintaining clean and updated vessel’s certification is shared between the Master and the relevant Management Office Staff.

**MANAGER** *(mar law)*
Upravitelj (broda), poslovodni upravitelj broda: The responsible manager and owner should keep manning levels continuously under review.

**UPRavitelj broda**:
The ship manager arranged for a Class Surveyor to attend the ship and carry out a survey, and a Condition of Class was imposed requiring permanent repairs. However, the Master and deck officers did not implement the ship manager’s policies for safe navigation and bridge watchkeeping.

**2 Rukovoditelj, direktor, upravitelj**:
Once the heat of the moment was over, the terminal manager asked if, during preliminary control for entry, CO content was checked, ... he has progressed through various roles including marine manager, safety manager, vetting manager, etc. The duty harbour manager was not sure what he could do to help, and called out the harbour’s pollution control contractors.

**MANAGE THE SHIP** *(mar law, shipping econ)*
Poslovno voditi brod, upravlje brodom: The ship is owned by .... Ltd, registered in Luxembourg; it is managed by Singapore-based ......... Shipmanagement. But the ship is chartered by Maersk Line and Maersk owns the ship’s containers.

**MANAGING DIRECTOR** *(n)*
Izvršni upravitelj, direktor: He was then appointed Managing Director of .... Shipping until ... Ms .... will take the helm as the new managing director at .... Co. starting in March 2016.

**MANAGING OWNER** *(mar law)*
The person who hires a ship (or several ships) in bareboat charter or in time charter is called a “disponent owner”. If the commercial operation of the ship is entrusted to a managing company, than the manager is called “managing owner”.

**POSLOVOĎA BRODA** *(Pomorski zakonik / Croatian Maritime Code, 2004), upravitelj broda:*
More and more the term “operator” is used to indicate the disponent owner or the managing owner. The merchants are bound to pay to the managing owner of the ship all freight which has been agreed upon between them, and all the expenses which the managing owner has made, and the managing owner is bound to the mariners to pay all the wages which he has promised to them. The person designated as managing owner must have an address in the United States except where no owner of the vessel has an address in the United States.
insufficient to allow Lloyd's to evaluate and make an informed decision

**man-basket** (n) *(seamanship)* mornarska košara, košara za prijenos osoba: The ABs agreed that one would go in the man-basket and clear the fastenings from the top of the stack while the other opened the hatch covers to enable the containers in the hold to be discharged. To get onto the top of the container stacks after each tier had been discharged, the ratings were transported from the quay in a man-basket, which was lifted by crane.

**mandatory** /mændətərɪ; mændətri/ (adj) *(mar law)* obvezujući, obvezan (prema međunarodnim konvencijama, sporazumima, nacionalnim zakonima itd): Consequently most fishermen are required only to undertake a mandatory basic training in Survival, Fire Fighting, First Aid and Safety Awareness. He has also completed all mandatory safety training courses, the last one being the safety awareness course which he had completed in December 2002. The Taskforce will now make the wearing of masks mandatory for anyone leaving their home. Safe distancing measures for workplaces that continue to operate will also be enhanced.

(https://safety4sea.com) - Singapore's Ministry of Health ~ carriage requirements obvezno imati na brodu, nešto što se mora obvezno nalaziti na brodu, uređaj koji obvezno mora biti na brodu: The OOW should always be aware that other ships fitted with AIS as a mandatory carriage requirement might switch off AIS under certain circumstances by professional judgement of the master. Časnik straže treba uvijek imati na umu da bi drugi brodovi, koji su premijeni uređajem AIS, koji se obvezno mora nalaziti na brodu, mogli isključiti uređaj AIS u određenim okolnostima na temelju stručne prosudbe zapovjednika. Mandatory and recommended items for vessels up to 13.7 metres and over 13.7 metres in length https://safety4sea.com, ~ criteria obvezna mjerila, obvezni kriteriji: To elaborate mandatory criteria for safety of construction and safe operation of river-sea vessels, ~ course obvezni tečaj: They had all attended the mandatory fire-fighting course and, importantly, had regularly practised fire drills, ~ reporting obvezno izvješćivanje, obvezno javljanje: ude establishing and operating a system of traffic clearances or VTA system of traffic clearances or VTS sailing plans or both in relation to priority of movements, allocation of space, mandatory reporting of movements in the VTS area, routes to be followed, speed limits to be observed or other appropriate measures which ...., ~ requirement obvezni zahtjev: Although the use of an additional bridge lookout during darkness is a mandatory requirement, many vessels continue to operate with a lone watchkeeper at night, ~ training obvezna izobrazba, obvezna specijalistička izobrazba: If you are a fishing vessel skipper, have you completed your mandatory training? ~ training course obvezni tečaj specijalističke izobrazbe, osnovni tečaj izobrazbe: The advent of improved vessels and the greater availability of mandatory training courses mean a better and safer working environment for everyone.

**Mandatory Ship Reporting System** (n) *(navig, comm)* Sustav obveznog javljanja brodova: Besides, the Gibraltar Strait has VTS and mandatory ship reporting system. The inbound vessel was unidentified as it had failed to contact either the mandatory ship reporting system operating under German Bight Traffic or the Weser Pilots or the River VTS. A proposal by the three littoral states of the Malacca and Singapore Straits to introduce Mandatory Ship Reporting System in the Straits is being considered by IMO and is expected to be brought into use by the end of 1998. ~ ADRIREP

**Sustav obveznog javljanja brodova za Jadran**

**mandrel** /ˈmændrəl/ (n) držalo (za ispitivanje razmaka), držač testing ~ držalo za ispitivanje razmaka (utora klipa, …)
**maneuver** /ˈmeɪ nu ər/ (n) (US) (navig) = manoeuvre: *manovra*; This maneuver may cause the ship to veer off in a direction which will swing the stern into the ice. This maneuver may cause the ship to veer off in a direction which will swing the stern into the ice. • Watch officers maneuver in accordance with the Rules of the Road to avoid close CPA’s and collisions.

**maneuver** /ˈmeɪ nu ər/ (v) (US) = manoeuvre: *rukovati brodom, manevrirati brodom, manevrirati, manovrati, IItalian*: *manovrare*; When well within the less dangerous semicircle, maneuver as indicated above. Harbour pilots and tugboats are often used to maneuver large ships in tight quarters as they approach and leave the docks. Watch officers maneuver in accordance with the Rules of the Road to avoid close CPA’s and collisions. vessel restricted in her ability to maneuver brod ograničene sposobnosti manevriranja

**maneuvering characteristics** (n) (navig) The maneuvering characteristics may be determined by conducting special maneuvering trials or by computer simulation techniques or by estimation. (www.gov.uk/maib) manevarske karakteristike; The pilot must know the ship’s maneuvering characteristics before entering restricted waters.

**maneuvering space** (n) (navig) širina prostora za manevriranje

**manganese** /ˈmæŋ ə ni ə z/ (Mn) (n) (chem) mangan; This loading of the rod influences its design, and to withstand the loading described above, connecting rods are often forged from a manganese molybdenum steel in an I or H section ... ~ bronze manganska bronca

**manhole** /ˈmæn həul/ (=M.H.) (n) (nav arch) okrugli ili ovalni otvor na palubama i drugim konstrukcijskim dijelovima broda; an opening into a tank or compartment designed to admit a man; A hole in a tank, boiler or compartment on a ship, designed to allow the entranced of a man for examination, cleaning and repairs. https://officerofthewatch.com/tools/maritime-dictionary/

provlaka, otvor (na palubi broda); The tank was ventilated using a fan blowing air through a manhole and a compressed air line situated in the tank, which was inadequate; Our Ship Manholes & Inspection Covers provide you with simple and quick access to critical areas of the vessel. ~ cover poklopac otvora, portela; The chief officer also instructed him to renew the gaskets of the manhole cover., deck ~ provlaka palube, palubna provlaka; ... the water flowed along the upper deck and before the crew could divert the water into another ballast tank via the deck manhole, a small amount trickled over the deck edge at the stern., ~ lid poklopac provlake; This prudent practice is to avoid any damage to cargo by water which may potentially enter the hold via leaking double-bottom tank manhole lids, sounding and air pipes and cracks or holes in tank plating.

**manifest** /ˈmæn ɪ fest/ (n) (mar law) Entire listing of all cargo on board a vessel as required by the relevant local authorities e.g. customs. (http://www.maerskline.com/en-jm/help/shipping-glossary); a Cargo Manifest lists the goods carried in a means of transport or in a transport-unit; i.e. a full list of ship’s cargo, extracted from the bills of lading; a list of all goods, listed per Bill of Lading, which was loaded onto the ship in one certain port and which has a single certain destination. https://www.logisticsglossary.com/term/manifest/ prijava tereta, manifest; The Carrier or Carrier’s Agent stores the completed general segment of the manifest before proceeding to enter the
corresponding bills of lading. ... Declaration of cargo • The cargo declaration normally consists of the **manifest**, but other commercial or administrative document(s) relating to the goods and containing the necessary particulars for each consignment may be accepted ... The cargo manifest solely lists the details of the goods (nature, quantity, types and numbers, sender, destination, etc.) and service for customs **declaration of the goods.**

**manifest, višepriključna cijev:** Oil cargo is discharged from the ship’s tanks, via the cargo piping system to the main ship’s manifold usually situated amidships, on either port or starboard side. From there by means of shore-based loading arms oil is transferred to the **shore manifold** and is then distributed to shore-based storage tanks on the oil terminal. The duty officer had not checked that the **ABs had blanked the manifold** after the cargo hose had been disconnected.
that sprayed from a fatigue-fractured fitting on one of the main engine’s pre-lubrication oil pumps onto the hot surface of the main engine’s exhaust manifold. In the meantime, the mate went into the port engine room and saw that the large oily rag he had used when dipping the engine sump was on the engine exhaust manifold and was on fire. This had allowed heated fuel and vapour to escape where it was ignited, probably by the engine’s hot exhaust manifold.

The sketch shows a relief valve as fitted to the air start manifold of Sulzer RTA 2 stroke engines. ‘Tell tales/drains’ at each end of the starting air manifold found to have been blanked off with screwed plugs. The air is cooled down to reduce its volume and is then delivered to the engine cylinders via the air manifold or scavenge air receiver.

don manifold...
Immediately after completion of line blowing the manifold valves were sealed by the cargo surveyor;

(cargo handling) flanda (prirubnica na priključnoj cijevi za krcanje nafte)

Manila rope (n) (seamanship) rope made from the fibers of the abaca plant konop od manile: Insufficient thoroughness during the inspection of the equipment by the ship's crew – failure to detect internal rot by untwisting the Manila rope's strands;

manning /ˈmænɪŋ/ (hum_resources) 1 (n) (navig, mar law) brodska posada: Bridge resourcing is tight, as is overall vessel manning, and we know that where there is a corner to be smoothed there will be those who take advantage without considering the risk. ; 2 zapošljavanje pomoraca, sustav popunjavanja brodske posade: But it is evident that fatigue, low manning, and poor watchkeeping practices all played a part in this collision, the consequences of which could have easily been so much worse,... Owners and managers should ensure that the manning of their vessels takes into account the demands of the vessels’ trade, and not simply the statutory minimum...
The Lessons

A number of factors - predominantly relating to bridge manning and management - contributed to the incident.

1. Manning of vessels (imenovanjem i ostavljanjem časnika i članova niže posade), kadrovsko popunjavanje brodova;
2. Vođenje brodova (zaposlenjem posadom);
3. Manning (n) (hum_resources) djelatnost zapošljavanja pomoraca, djelatnost popunjavanja brodske posade:
4. Manning: 19

While the manning industry immediately complied with all the precautionary measures set by the government, the manning sector has felt the brunt of the suspensions, which lead to the slowdown in the deployment of seafarers.

Manning levels (n) (mar law, hum_resources) standardi postavljanja posade, razine kvalitete brodsko posade: The responsible manager and owner should keep manning levels continuously under review. minimum ~ minimalni standardi postavljanja posade: Minimum safe manning levels need to be increased so that each seagoing vessel of over 500gt has at least a master and two bridge watchkeeping officers.

Manning practices (n) (mar law, hum_resources) postupci popunjavanja brodsko posade: In many instances today, commercial pressure and unrealistic vessel manning practices conspire to trap mariners and set them up for fatigue while watchkeeping.

Manning scales (n) (mar law, hum_resources) platni razredi pomoraca, rangirane place pomoraca: Given today's minimum manning scales, some ships may find themselves stretched for manpower.

Manning system (n) (mar law, seamanship, hum_resources) sustav postavljanja, raspoređivanja i zapošljavanja: In the GP manning system officers and ratings are trained to have knowledge and skills common to all departments in addition to their own qualifications. In the traditional (UK) system of manning the chief engineer must hold a DT (Department of Trade) Certificate of Competency First Class...

Manning the rail(s) (n) (hum_resources) (navy) Manning the rail, like the ceremonial military gun salute, is a centuries old practice for rendering honors aboard naval vessels. počasni pozdrav na ratnom brodu (sva posada postrojena uz ogradu broda)

Manning the yards (n) (hum_resources) (navy) počasni pozdrav s križeva (jedrenjaka)

Manoeuvring /məˈnuːvərɪŋ/ (=maneuvering (US)) 1. rukovanje brodom, manevriranje brodom: The tanker's engine was ready for ~ When manoeuvring a vessel in a confined waterway where the margin for error is small, a tug is always a good investment. Boat owners should ensure regular manoeuvring alongside, as she will then servicing procedures for all equipment on be under easy control due to the braking board are in place. He then continued manoeuvring astern to ensure the vessel's bow did not damage the berth or link span. This was just too much, as I believe that manoeuvring any vessel at speed in the open sea in nil visibility, at distances counted in meters instead of miles, is totally unacceptable, no matter what elect;

2. Rukokreće (prvi hrvatski naziv za pojam manovre, A.J. Mikoč 1852); 3. Manovra: The tanker's engine was ready for manoeuvring but the speed was too high to take effective action to avoid collision.
manoeuvrability /məˈnuːvərəˈbɪləti/ (n) (navig) sposobnost manevriranja, manevarska sposobnost broda, upravljivost broda: These tugs are known by their captains for their quick acceleration and manoeuvrability and can work in any climate, no matter how challenging. Uninterrupted power supply in confined waters is essential in order to guarantee a ship’s manoeuvrability and should be considered a best practice. This skipper’s quick action in ordering the wires to be cut maximised the chances of gaining manoeuvrability of the vessel. The Masters who anchor too close to other vessels are relying on the speed of reaction of their crew and the manoeuvrability of their vessels to get out of the way if necessary. restricted ~ ograničena sposobnost maneuvriranja, ~ characteristics manevarske karakteristike broda: The two men did not discuss the ship’s manoeuvring characteristics, the status of the propulsion or how the berthing manoeuvre would be carried out., lose ~ izgubiti sposobnost maneuvriranja: As a result, the vessel lost manoeuvrability and was drawn into the wake of the much larger container ship., increase ~ poboljšati sposobnost maneuvriranja: The tug’s engines need to be very powerful and, to increase manoeuvrability, the controllable pitch propeller and Kort’s nozzle are now commonly fitted.

manoeuvre /məˈnuːvər/ (=manoeuer (US)) (v) (UK, nav arch, seamanship) = maneuver manevrirati brodom, rukovati brodom, manovrirati brodom, Italian:manovrare: A fully laden 80,000 tonnes deadweight tanker was manoeuvring to go alongside when a total power loss occurred as a result of the sea water cooling system becoming blocked. The ship was maneuvered on the basis of scanty VHF radio information. The master was on the bridge, attempting to manoeuvre the vessel back alongside using the main engine and bow thruster. Vessel A was a huge vessel, constrained by its draught and was assisted by tugboats which made it difficult for it to manoeuvre. www.safety4sea.com ~ the ship off the berth izvoditi brod sa veza, isploviti s veza: The master agreed to the pilot’s suggestion that he would manoeuvre the ship off the berth and turn her, and then that the pilot would take over to negotiate the locks and the river passage., ~ the ship clear of the berth voditi brod s veza: The master manoeuvred the vessel clear of the berth and then headed on a north westerly course at a speed of 4 knots towards a reef, ... Port helm was applied to manoeuvre the ship clear of the berth, ~ the vessel / ship maneuvrirati brodom: When maneuvring a vessel in a confined waterway where the margin for error is small, a tug is always a good investment. Use the propulsion system to manoeuvre a vessel to relieve tension in the anchor chain before ‘heaving in’, and ... The skipper lost steerage of his water jets but was still able to manoeuvre the vessel using differential thrust. The master agreed to the pilot’s suggestion that he would manoeuvre the ship off the berth and turn her, and then that the pilot would take over to negotiate the locks and the river passage., ~ clear of izvući se manovraom, izbjeći (neku zapreku) manovrom: Attempts to manoeuvre clear of the shallows were unsuccessful.

manoeuvre /məˈnuːvər/ (=maneuver (US)) (n) (UK, navig, seamanship) = manoeuvre manovra, Italian:manovra: The berthing pilot began the manoeuvre to turn the tanker using a combination of engine, helm and tug movements. The watchkeeping officer on RIG tried to avoid the collision by turning to starboard, but the manoeuvre was too late. During the manoeuvre the OOW was at the helm and was also operating the engine telegraph; the master remained in the central area of the bridge and the pilot ... The manoeuvre required swinging the vessel 180 degrees and then backing astern to berth port-side to. Had he been involved in the planning and execution of the manoeuvre, it is likely that the anomaly with the control station transfer would have been avoided. conduct the ~ voditi manovru, izvesti manovru: The pilot had conducted the manoeuvre, under similar
tidal conditions, on a number of occasions without incident. Peljar je mnogo puta bez nezgoda izvodio takvu manovru pod istim uvjetima. The manoeuvre was therefore required to be conducted with a following wind and tide, contrary to good seamanship.

The manoeuvre was therefore required to be conducted with a following wind and tide, contrary to good seamanship.

The master held a full pre-departure briefing with the bridge team, discussing the manoeuvre, the environmental conditions, and reminding everyone that if they had concerns at any time, they should raise them immediately. The pilot and master briefly discussed the manoeuvre and the master confirmed that, despite the strong north-westerly breeze, the high speed craft did not require tug assistance.

However, he had limited experience of manoeuvring the vessel with a tug and had not previously carried out the manoeuvre in similar wind conditions. VTS still carried out the manoeuvre, which resulted in the ferry paralleling the bulk carrier’s course at 0.5 miles...

There was no agreed plan for the intended manoeuvre.

The pilot asked the Master about the vessel’s manoeuvring characteristics and was informed that the bow went to starboard when going astern, but was not told that the vessel had a controllable pitch propeller drive (CPP). ... d) The Maneuving Characteristics of the Berthing Vessel being unsuitable for the task. (Suitable Maneuving Characteristics for such a Vessel could include - size below 100,000 Dwt, Bridge Control of Main Engine, Controllable Pitch Propeller, High Engine Power, ...
room phoned the bridge to inform them that there would be a delay in starting the bow thrusters. **on ~ u manevarskom režimu, u režimu maneuvriranja:** The vessel's engine was on harbour manoeuvring mode under bridge control.

**manoeuvring speed** /maˈnuərɪŋ/ (n) (navig) **brzina maneuvriranja:** With an astern manoeuvre the master came free of the quay and went forward at **manoeuvring speed**, about four knots. The Pilot attempted to contact the target on both channels 13 and 16 without success but maintained **full ahead manoeuvring speed**. **minimum ~ milimanla brzina maneuvriranja:** According to the wheelhouse poster, the **minimum manoeuvring speed** for vessel A was 5 knots. [www.safety4sea.com](http://www.safety4sea.com)

**manoeuvring station** (n) (navig) **postaja za maneuvriranje, manevarska stanica:** Corrective/preventative actions The fleet was instructed to make warning placards with the words 'Turning gear engaged' and to hang these at all **manoeuvring stations** and engine controls whenever the turning gear is engaged, irrespective of whether the safety devices are functional.

**manoeuvring tests** (n) (navig, safety) **testiranje manovre:** The inspectors attended the bridge simulator training centre and witnessed several **simulated manoeuvring tests**.

**man-of-war** (=Man O War; pl. men-of-war) (n) (navy) **ANTONYM**

**merchantman** = sailing warship a warship from the age of sail; a British Royal Navy expression for a powerful warship or frigate from the 16th to the 19th century. (Wikipedia) **ratni brod (iz doba jedrenjaka):** The **man-of-war** design developed by Sir John Hawkins, had three masts, each with three to four sails. The ship could be up to 60 metres long and could have up to 124 guns: four at the bow, eight at the stern, and 56 in each broadside. marine academy (n) (mar law) visoka pomorska škola, pomorska akademija, nautička akademija: He is a 1985 graduate of the United States Merchant Marine Academy and a 1989 graduate of Columbia University, where he received an MBA in Logistics and Transportation. www.MaritimeLogisticsProfessional.com He is a US Merchant Marine Academy graduate ... He earned a bachelor’s degree in marine transportation from the U.S. Merchant Marine Academy.

marine accident (n) (navig, safety) = marine casualty COMPARE marine accident

incident pomorska nezgoda: Between 1950 and 1978, the augmentation of the shipping fleet caused an increase in number of marine accident and casualty. The Marine Accident Investigation Branch (MAIB) examines and investigates all types of marine accidents to or on board UK vessels worldwide, and other vessels in UK territorial waters. More than Numbers On an average day, the United States Coast Guard responds to 64 ‘maydays’, investigates 12 marine accidents, and mitigates 10 pollution incidents. The Marine Accident Investigation Branch (MAIB) examines and investigates all types of marine accidents to or on board UK vessels worldwide, and other vessels in UK territorial waters. ~ investigation

istraga pomorske nezgode: ... has been responsible for all facets of marine accident investigations, including the collection of evidence and analysis of facts to determine probable cause and the preparation of detailed reports for ue by both domestic and international government agencies., ~

report izvješće o pomorskoj nezgodi: The marine accident report on this fatal accident centers on two topics: The construction and safety measures of the tank access ladders on the vessel, and ... ~ investigator istražitelj pomorske nezgode, ~ brief kratak prikaz pomorske nezgode, kratke upute o djelovanju u pomorskoj nezgodi

Marine Accident Investigation Branch; (MAIB) (n) (safety) The Marine Accident Investigation Branch (MAIB) is an independent part of the Department for Transport, the Chief Inspector of Marine Accidents being responsible directly to the Secretary of State for Transport.

za istraživanje pomorskih nezgoda (u velikoj Britaniji): The UK Marine Accident Investigation Branch (MAIB) issued the report of the multi-agency investigation of the collision between the Arctic Ocean and the Maritime Lady, the capsize of the Maritime Lady, contact with the wreck by the Sunny Blossom, and the subsequent grounding of the Sunny Blossom in the Elbe River on 5 December 2005 http://www.marinelink.com/maritime/marine-accident-investigation Carbon monoxide poisoning on board the ... resulting in two fatalities eas investigated by the Marine Accident Investigation Branch ... The UK Marine Accident Investigation Branch (MAIB) noted that no mechanism existed for verifying declared container weights.

marine aid to navigation (n) (navig) SEE NAVAIDS navigacijsko pomagalo (u plovidbenom kanalu), pomorska oznaka, morska oznaka: A marine aid to navigation (AtoN) may be defined as a signal deliberately placed to provide mariners with information.
The placement and maintenance of marine aids to navigation in U.S. waters is the responsibility of the United States Coast Guard. The Coast Guard maintains lighthouses, radiobeacons, racons...

**marine airbags** *(nav arch)* zračni jastuci za porinuće broda: Marine airbags are used for ship launching, haul-outs, loading, and floating. They are widely used in cargo boat launching and landing, lifting and moving sunken ships, and salvaging stranded boats.

http://blueoceanfleckle.com/marine-supply-equipment/launching-airbags/ marine airbags include ship launching airbags, salvage buoyancy airbags.

**marine ambulance boat** *(med)* marine ambulances are used for the rescue and instant treatment to the marine fishermen in distress as well as for normal patrolling. ambulantska brodica, brod-ambulanta: Marine Ambulance boats are being built for the Department of Fisheries, https://www.maritimeprofessional.com/news/build-marine-ambulance-boats-350919

**marine application** *(nav arch)* brodska primjena, primjena na brodu: The effect of these adjustments was to make them considerably more lenient for the marine application. Cummins delivered the first four QSK95 engines for a marine application, with four additional units to be delivered in December. in / for all ~ za brodske namjene, za primjenu na brodu: EALs should be used in place of traditional petroleum lubricants in all marine applications where there is any oil-water interface. With an economical, sustainable and robust design, Econace valves are suitable for many marine applications.

**marine barograph** *(meteorol)* brodski barograf

Accidents on board ships involving marine boiler have caused severe damage to the property and even claimed human lives in the past. To increase the efficiency of the marine boiler, the feed water that enters the boiler is pre-heated with the help of an economizer through which the feed water passes before entering the boiler.

The marine cargo surveyor Inspects cargoes of seagoing vessels to certify compliance with national and international health and safety regulations in cargo handling and stowage:

http://www.marine-knowledge.com/auxiliary_systemsmarine-boilers/

IMO defines two types of undesired events at sea; MARINE CASUALTY (largely synonymous to the general concept of 'accident', nesreća in Croatian) and INCIDENT (nezgoda in Croatian, i.e. an undesired event at sea other than 'accident'); MARINE CASUALTY (i.e. an 'accident'”) means an event that has resulted in any of the following: 1 the death of, or serious injury to, a person that is caused by, or in connection with, the operations of a ship; or 2 the loss of a person from a ship that is caused by, or in connection with, the operations of a ship; or 3 the loss, presumed loss or abandonment of a ship; or 4 material damage to a ship; or 5 the stranding or disabling of a ship, or the involvement of a ship in a collision; or 6 material damage being caused by, or in connection with, the operation of a ship; or 7 damage to the environment brought about by the damage of a ship or ships being caused by, or in connection with, the operations of a ship or ships. (IMO RESOLUTION A.849(20) adopted on 27
November 1997 - CODE FOR THE INVESTIGATION OF MARINE CASUALTIES AND INCIDENTS);

POMORSKA NESREĆA: izvanredni događaj na moru koji je prouzročio štetne posljedice kojima su
naposredno ugroženi ljudski životi, imovina i okoliš pomorska nesreća: The underlying cause of
these marine casualties was that the ship’s Master and members of the bridge team became distracted and
lost their situational awareness either while maneuvering the ship to rendezvous with the pilot Formal
investigations, including Marine Boards, should continue to be reserved for the most serious marine
casualties. The number of marine casualties at sea continues to give cause for concern. The US Coast
Guard classified the accident as a major marine casualty. ~ investigation istraživanje izvješća o pomorskoj
nesreća: A marine casualty investigation of two separate stateroom fires revealed that the sources of
the fires were attributed to the use of SPDs plugged into a light ... The Casualty Investigation Code was
adopted in 2008 to provide guidance to Administrations in the conduct of such marine casualty
investigations. ~ reporting izvješćivanje o pomorskoj nesreći: While there have been
needed improvements in the marine casualty reporting process, we still feel that the dollar threshold for
marine casualty reporting remains unrealistically low. ~ notice obavijest o pomorskoj
nesreća, notice of ~ obavijest o pomorskoj nesreća, major ~ teža
pomorska nesreća: veća pomorska nesreća, ~ report izvješće o pomorskoj
nesreća, a vessel involved in a ~ brod koji pretrpio pomorsku nesreću,
brod koji je doživio pomorsku nesreću: 46CFR §4.05-1(a) requires the owner, agent,
master or person in charge of a vessel involved in a marine casualty to give notice as soon as possible
(emphasis added) to the nearest Coast Guard Safety or Marine Inspection Office if the casualty involves
either a grounding which creates a hazard to the safety of the vessel, navigation or the environment, or an
occurrence materially affecting the vessel’s seaworthiness or fitness for service, site of the ~ mjesto
pomorske nesreće, very serious ~ vrlo teška pomorska nesreća, vrlo
teška pomorska nezgoda: A very serious marine casualty means a marine casualty involving
the total loss of the ship or a death or severe damage to the environment. At about 0018 on the morning, a
very serious marine casualty occurred on board the full container vessel ..., ~ reporting form
obrazac izvješća o pomorskoj nesreći complete the ~ reporting form
ispuniti obrazac izvješća o pomorskoj nesreći, type of ~ vrsta pomorske
nesreće: Type of marine casualty Very serious marine casualty

marine casualty information (n) (navig, safety) informacija o pomorskoj
nesreća: Marine casualty information includes; Date and time; Type of marine casualty or incident;
Location of incident; Place on board; Injuries/fatalities; Damage/environmental impact; Ship operation;
Voyage segment; External environment; Persons on board

marine civil engineering (n) (ports) morsko građevinstarvo

marine coatings (n) (seamanship) morske završne boje: Above the waterline, marine
coatings help prevent damage due to UV radiation. The oil & gas industry employs marine coatings on
subsea equipment that are subjected to hostile pressure and temperature conditions in deep-water and
ultra-deep-water zones. https://www.informazione.it

marine communications (n) (comm) pomorske komunikacije, brodske
komunikacije

Marine Communications and Traffic Services (=MCTS) (n) (safety, comm)

Služba pomorskih komunikacija i radio prometa: Marine Communications and
Traffic Services (MCTS) centres within the SAR region may also be able to provide JRCCs/maritime
rescue sub-centres (MRSCs) with real-time radar information concerning incidents and/or traffic within
the limits of a traffic zone. Camsar2014

maritime community (n) pomorska zajednica, pomorski svijet: This Safety Digest draws the attention of the marine community to some of the lessons arising from investigations into recent accidents and incidents.

marine control systems (n) (marine eng) vessel movement control systems exemplified by dynamically positioned (DP) vessels with electrical propulsion systems sustav i upravljanja i pozicioniranja broda

maritime corps (n) (navy) marinci: The Marine Corps has been a component of the U.S. Department of the Navy since 30 June 1834, working closely with naval forces. https://www.google.hr/ The Marine Corps plays a major role as the first force on the ground in most conflicts

marine diesel (n) (marine eng) = marine diesel oil brodsko dizel gorivo, brodska nafta: The vessel is fully loaded with grain in its cargo holds, and is carrying 218,380 gallons of high sulfur fuel and 39,380 gallons of marine diesel. Fuel oil combustion generates substantially greater volumes of particles (and soot) than the burning of cleaner fuels, such as marine diesel and marine gas oils.

marine diesel engine (n) (marine eng) brodski dizel motor, brodski dizelski motor: Lubricating oil for a marine diesel engine achieves two objectives; it must cool and lubricate. The introduction of common rail injection technology has been the major step in marine diesel engine
marine diesel oil (=MDO; DO) (n) (marine eng) brodska nafta, brodsko pogonsko gorivo, brodsko dizel gorivo: The standard way of removing sediments and other contaminants from marine diesel oil is by the centrifugal separation process.

marine drone (n) (safety) The Marine Drone is just a giant basket that is dragged through the water by three battery-powered propellers. bespilotno istraživačko plovićo, daljinski upravljano istraživačko plovilo, plutajući dron: Marine drones have the potential to revolutionise maritime business, reducing the time, cost & danger of many operations, whilst improving the value of the data captured. https://www.martek-marine.com/drone-surveying
marine electrical systems (n) *electr* brodski električni sustavi
marine electronics (n) *electr* brodska elektronika: Beier Radio, Inc. marks 70-years of providing engineering, sales and service for marine electronics around the globe. www.beierradio.com; www.MarineLink.com

**marine engine (n) *marine eng* brodski stroj:** Unlike the 4 stroke engine, a two stroke *diesel engine* does not use the piston to push out the exhaust gas, instead, air enters the cylinder around bottom dead centre and sweeps or scavenges the exhaust gas from the cylinder.
marine engineer /ˈmɛrənˌɛndʒɪnər/ (n) = engineering officer

Marine engineer officers are responsible for the maintenance and operation of a ship’s main propulsion machinery and auxiliary plant, including deck machinery, air conditioning plants, refrigeration plants and domestic and electrical services.

A responsible marine engineer watch keeper has to fill the log book for his/her own watch period without fail, along with the signature of all watch keepers for their concerned watch.

Depending on the type of ship and the operational circumstances, marine engineer officers will be required to keep watches in the ship’s engine room. As a marine engineer working on ships, you would be required to monitor the performance of turbochargers during the watch and carry out maintenance whenever required. The successful candidate may be awarded a diploma and will then be able to work on
ships as a qualified Marine Engineer class four. He has sailed on a number of ships serving as a marine engineer officer.

marine engineering /ˈmɔːriˌnɪ;ɪnˌˈɜːniŋ/ (n) (marine eng) brodsko strojarstvo, brodostrojarstvo, pomorsko strojarstvo: The primary function of any marine engineering plant is to convert the chemical energy of fuel into useful work and to employ that power for steering, lighting, ventilating, air conditioning, heating etc. "We’re pleased to provide scholarships to deserving midshipmen who demonstrate leadership in the field of marine engineering and who have built a greater understanding of clean air technologies. www.MaritimeProfessional.com He has an MSc in Marine Engineering and BSc in Naval Architecture. REQUIREMENTS: Minimum BS in Marine Engineering or related field and a Marine Engineer’s License with several years of experience for the engineering positions. www.marinelink.com ~ plant brodsko postrojenje

marine engineering (=ocean engineering; oceanographic engineering; waterfront engineering; maritime engineering (Aus.)) (n) 1 (ports) morsko građevinarstvo, morski građevinski objekti: KCI provides multi-disciplined environmental and marine engineering services for waterway and port projects. https://www.kci.com/services/transportation/ports-marine-engineering/ ... we provide a full toolkit of maritime engineering expertise in masterplanning, due diligence and feasibility studies, inspections and assessments, consents, engineering design, project management, construction supervision and more. https://www.arup.com/expertise/services/infrastructure/maritime-engineering; 2 morska infrastruktura

marine environment (n) (environ) morski okoliš: ..., everything we do is dedicated to protecting life and property at sea, protecting the marine environment and supporting the maritime industry, and I expect that to continue in the future. www.MaritimeProfessional.com The product is a completely biocide free paint and has no impact on the marine environment. ... both components are uniquely able to withstand the harsh marine environment and the tremendous demands of the DP system. They understand the challenges of a marine environment including river fluctuations, weather variations, and accessibility. The ballast water treatment system safeguards the marine environment. ... new regulations for the sweeping and the washing of bulk carriers carrying mining products that mandate the testing residues to determine if they’re harmful to the marine environment. www.marinelink.com

Marine Environment Protection Committee (=MEPC) (n) (environ) Odbor za zaštitu morskog okoliša: The International Maritime Organization’s (IMO) Marine Environment Protection Committee (MEPC70) meeting brought progress by member countries The Marine Environment Protection Committee (MEPC) addresses environmental issues under IMO’s remit. This includes the control and prevention of ship-source pollution covered by the MARPOL treaty, including oil, chemicals carried in bulk, sewage, garbage and emissions from ships, including air pollutants and greenhouse gas emissions.

marine equipment (n) (boating/yachting, nav arch) brodska oprema: We supply an extensive range of marine supplies and marine equipment, including anchor windlasses, calibrated chain, anchors, anodes, battery management equipment, boat fittings, stainless steel chain, switch panels, marine fenders & covers, fids, comfort seat, marine lights, shackles, ladders, bilge pumps, electrical fittings, calorifiers, cookers, stoves, hinges, barrel bolts, bow rollers, acoustic, plug and sockets, fire extinguishers, sealant, deck fillers, cable, and more... http://www.ecs-marine-equipment.co.uk/

marine evacuation system (=MES) (n) (safety) The most important advantage of having a marine evacuation system on a ship is that the people can get into the floats without getting soaked in the water or facing any danger and can save precious time which could make the entire difference between life and death. (https://www.marineinsight.com/marine-safety/different-types-of-marine-evacuation-systems)/
sustav za brzo napuštanje broda: Manufactures have been advised to revalidate the design of vertical chute marine evacuation systems so that it is impossible for evacuees to become stuck during their descent by removing any possible causes of blockages by redesign and/or redesign and/or
https://www.gov.uk/government/organisations/marine-accident-investigation-branch The drill was being conducted using a marine evacuation system consisting of two vertical chutes leading to two large, fully reversible enclosed liferafts. ~ - slide sklizni tobogan za napuštanje broda: The slide system is advantageous in the sense that it can be set up anywhere – in both the extremities of the front (forward) and in the back (aft) of the ship. ...The slide is set up at an angle of 30 degrees which allows a better movement for the evacuees

<table>

|https://www.viking-life.com/en/evacuation-systems/-marine-evacuation-systems, | ~ chute | sklizni kanal za napuštanje broda: The chute system is a type of cruise ship evacuation system that has an evacuation capacity of 565 people within half an hour. The material of the chute is made of Kevlar which ensures that the chute itself is protected during the harsh weather conditions

marine fender (n) (seamanship) Efficient marine fender saves ships from external damages that would otherwise occur to the ship’s hull plates or to the berth or jetty during berthing brodski odbojnik, paje: . the heaviest and the largest vessel that reports to the dock before selecting and arranging the marine fender system.
Marine fuels were traditionally classified after their kinematic viscosity. This is a mostly valid criteria for the quality of the oil as long as the oil is made only from atmospheric distillation. Marine fuel analysis is performed to ISO 8217 specifications, helping your ship fuel comply with Marpol Annex VI, the EU Sulphur Directive, Sulphur Emission Control Area (SECA) requirements, and other legal and quality standards. http://www.intertek.com/marine/fuel-testing/

Movement towards natural gas as a marine fuel continues to progress, and conditions exist in some regions to make a near-term transition to natural gas feasible. https://www.sciencedirect.com/science/article/pii/S0301421515300665 This type of marine fuel (VLSFO) contains less sulphur and therefore complies with the IMO 2020 regulations (https://safety4sea.com/)

Contaminated marine fuel that clogs and damages ship engines has been found in a ship refuelling hub. www.gcaptain.com

2014 Contract signed to construct two dual-fuel PCTCs capable of using both marine fuel oil and LNG fuel. www.maritimelink.com

Many predict by 2020 that we will see this type of ship with a limited crew in smaller applications such as the marine highway short haul scenarios, local ferry service such as the Staten Island ferry and offshore supply boats in the Gulf of Mexico. www.maritimelink.com The reasons why we can’t seem to properly develop our so-called ‘marine highway’ system are many.
The TRANSFLUID HTM700 hybrid marine system is made up of the following TRANSFLUID products: SAE multi-disc clutch system, to connect and disconnect the internal combustion engine; Solenoid clutch-control valve; Power shift with SAE B power take-off; Permanent magnet electric machine (max 35kW or 47hp) with motor or generator function; Marine Powershift gear-box with RBD flexible coupling; Electric selector with in-built http://www.transfluid.eu/en/product/htm700/ The hybrid system enables you to sail at normal cruising speed with a traditional Diesel engine as well as allowing you to sail in protected areas with zero emissions and in ports or marinas where silence and reduced pollution are well appreciated http://www.transfluid.eu/en/product/htm700/

**marine incident** *(n)* **COMPARE** marine casualty **IMO** defines two types of undesired events at sea; **MARINE CASUALTY** (largely synonymous to the general concept of 'accident', *nesreća* in Croatian) and **INCIDENT** (*nezgoda* in Croatian, i.e. an undesired event at sea other than 'accident'); A **MARINE INCIDENT** (IMO DEFINITION) is an occurrence or event being caused by, or in connection with, the operations of a ship by which the ship or any person is imperilled, or as a result of which serious damage to the ship or structure or the environment might be caused. (RESOLUTION A.849(20) adopted on 27 November 1997 - CODE FOR THE INVESTIGATION OF MARINE CASUALTIES AND INCIDENTS); A marine INCIDENT means any occurrence, other than an accident, that is associated with the operation of a ship and affects or could affect the safety of operation. (http://www.maritimenz.govt.nz/commercial/safety/accidents-reporting/definitions.asp); an event, or sequence of events, other than a marine casualty, which has occurred directly in connection with the operations of a ship that endangered, or, if not corrected, would endanger the safety of the ship, its occupants or any other person or the environment (IMO Casualty Investigation Code 2009; EMSA) **pomorska nezgoda**: A **marine incident** means an event, or sequence of events, other than a marine casualty, which has occurred directly in connection with the operations of a ship that endangered, or, if not corrected, would endanger the safety of the ship, its occupants or any other person or the environment. However, a **marine incident** does not include a deliberate act or omission, with the intention to cause harm to the safety of a ship, an individual or the environment. (IMO Resolution MSC.255(84), Code of the International Standards and Recommended Practices for a Safety Investigation into a Marine Casualty or Marine Incident (Casualty Investigation Code), 16 May 2008) The information gathered from **marine incident reports** helps to develop safety standards, education programs and on-water compliance programs that benefit all waterways users. **report** a ~ **prijaviti pomorsku nezgodu**: Reporting a **marine incident** may also help you if you decide to make insurance claims on any damage. , ~ **report izvješće o pomorskoj nezgodi, izvještaj o omorskoj nezgodi**: Some insurance companies may require a marine **incident report** to validate claims.

**marine industry** *(n)* **COMPARE** marine infrastructure **shipping econ** pomorsko gospodarstvo, **pomorska privreda**: The **marine industry** is under tremendous legislative pressure to reduce emissions, with fuel quality heading the list. One of the largest challenges a broker can face in the **marine industry** is being able to properly represent their clients operations and exposures to insurance carriers. www.MaritimeProfessional.com

**marine infrastructure** *(n)* **COMPARE** marine construction, marine structures **ports** morska infrastruktura, morski građevinski objekti: **Marine infrastructure** includes the platforms, subsea structures, pipelines, and cables crucial to our offshore activities in oil and gas, energy, and telecom. https://www.wsp.com/en-RO/sectors/marine-infrastructure Planning, designing and operating of **marine infrastructure** projects are complex and require understanding of the shipping and maritime sector, expertise in civil construction and custom engineered structures on the waterfront and in the water. https://www.dnvgl.com/services/marine-infrastructure-84872 Our company is experienced in complex and large **marine infrastructure undertakings**. We offer expertise across all phases of **marine infrastructure**
and port construction projects.

**marine installation** *(n)* (marine eng, nav arch) 1 *brodska instalacija*; 2 *brodska ugradba*

**marine institute** *(n)* *pomorsko učilište, pomorska škola (viša, visoka)*: As a campus of Memorial University of Newfoundland, the Fisheries and Marine Institute is Canada’s most comprehensive centre for education, training, applied research and industrial support for the ocean industries. In addition to undergraduate and graduate degrees, the Institute offers advanced diplomas, diplomas of technology and technical certificates.

https://www.collegesinstitutes.ca/members/marine-institute/

**marine insurance** *(n)* *(mar ins)* Marine insurance covers the loss or damage of ships, cargo, terminals, and any transport or cargo by which the property is transferred, acquired, or held between the points of origin and the final destination. (https://en.wikipedia.org/wiki/Marine_insurance)

**pomorsko osiguranje**: *Marine Insurance* is the insurance of interests (property and earnings) that may be imperilled in a maritime adventure. In basic terms there are three main types of *marine insurance*: Hull and machinery, Cargo insurance, and P&I insurance..

**Marine Insurance Act** *(n)* *(mar law)* *Zakon o pomorskog osiguranju*: In the UK all present-day marine insurance contracts are governed by the 1906 *Marine Insurance Act*, where a contract of marine insurance is one that the insurer undertakes to indemnify the assured, in manner and to the extent that has been agreed.

**marine insurance underwriters** *(n)* *(mar law)* The word “Underwriting” refers to protecting by way of insurance. Marine underwriting refers to providing marine insurance to the necessary clients (https://www.marineinsight.com/careers2/what-is-marine-underwriting-and-who-are-marine-underwriters/)

**procjenitelji pomorskoga osiguranja**: *marine investigation* *(n)* *(mar law)* *istraga pomorske nezgode/nesreće*: The primary purpose of a *marine investigation* is to ascertain the cause or causes of an accident, casualty, or personnel behaviors to determine if remedial measures should be taken and to determine whether any violation of Federal Law or Regulation has occurred.

https://en.wikipedia.org/wiki/Marine_Investigation_(USCG) Marine Casualties and Incidents This section includes summaries and safety recommendations extracted from marine investigation reports on casualties involving ships and occupational accidents as produced and published by the National competent Authority, as mentioned in the Marine Casualties and Incidents

**marine life** *(n)* *(oceanogr)* Plants and animals of the sea, from the high-tide mark along the shore to the depths of the ocean. (http://www.ecologydictionary.org) morski životinjski i biljni svijet: Both the fuel and the ultra-light oil could cause devastating damage to marine life.

**marine loading arm (mla)** *(n)* *(cargo handling)* = loading arm *dizalica* *(s fleksibilnom cijevi, manigom)* za krcanje tankera
Loading Arm Schematic Picture

**marine machinery** *(marine eng) brodski strojevi*: Marine machinery is designed to ensure the proper functioning of a ship’s main engines, piping systems, and equipment. Marine machinery operating manuals must always be available for the engine operation crew.

**marine medicine** *(med) brodska medicina*

**marine meteorological report** *(meteorol) brodsko meteorološko izvješće*

**marine meteorological service** *(meteorol) pomorska meteorološka služba*

**marine navigation** *(navig) pomorska navigacija*: In marine navigation, altitudes, latitudes, and longitudes are usually expressed in degrees, minutes, and tenths (27°14.4’). The Air Almanac contains slightly less accurate ephemeris data for air navigation. It can be used for marine navigation if slightly reduced accuracy is acceptable. Chapter 19 provides more detailed information on using the Nautical Almanac. 417. Sight Reduct

**marine note of protest** *(=NoP) (mar law) = note of sea protest* The Note of Protest is a declaration under oath by the Master of the ship. It covers circumstances beyond master’s control which may cause/have caused loss or damage to the ship or cargo or may have caused the Master to leave an unsafe port, which may render the owners liable for legal action by another party.

(https://www.marineinsight.com/guidelines/note-of-protest-nop-on-ships/) **prijava pomorske nezgode**: When making the NoP, the Master has the right extend the NoP to cover unforeseeable circumstances (vis a vis the NoP) The NoP has to be made before a notary public (public officer constituted by law), magistrate (a civil officer who administers the law) or consul (diplomat) or other authority without delay and within 24 hours of arriving at port.
... it is advisable for the master to note a protest: whenever during the voyage the ship has encountered conditions of wind and sea which may result in damage to cargo.

**marine occupations** *(n)* *(mar law)* merchant and cruise ship jobs pomoračka zanimanja

**marine operations** *(n)* 1 *(shipping econ, mar law)* Any operation conducted using Vessels offshore, inshore or at terminals ashore. (http://www.standard.no/pagefiles/1216/j-cr-003r1.pdf); Typical marine operations that are covered ranges from laying of electric cables and smaller units to tow-out and installation of enormous oil platforms. (http://www.uio.no/studier/emner/matnat/math/MEK4450/h12/undervisningsmateriale/module-3/mek4450-marine-opertaions-theory.pdf) pomorski radovi, pomorski infrastrukturni radovi, pomorske operacije: The push for autonomous marine operations is picking up steam, and unmanned vessels will be a market reality. faced with daunting regulatory and technical challenges, and the world’s leading classification societies remain the foundation upon which successful marine operations are built. Marine Operations is responsible for the safe movement and operation of our ships. Challenges with respect to marine operations related to installation and operation of offshore oil and gas fields are presented. Examples are towing of offshore structures, lifting, mooring, pipelaying, offshore loading and different subsea operations and factors influencing regularity for critical operations.;

2 visokoškolski pomorski studiji (za nutički i brodostrojarnski), visokoškolski studiji za brodski časniški BSc (Hons) Marine Operations Management akademski stupanj prvostupnika nautičkih znanosti *(napredni studij)*: Candidates should hold either a foundation degree in Marine Operations, or a Higher National Diploma (HND) in Nautical Science with at least 12 months' industrial experience after attaining the HND.

**marine park** *(n)* *(environ)* a park consisting of an area of sea (or lake) sometimes protected for recreational use, but more often set aside to preserve a specific habitat and ensure the ecosystem is sustained for the organisms that exist there. (https://en.wikipedia.org/wiki/Marine_park) morski nacionalni park, morski park prirode

**marine pilot transfer helicopter** *(n)* *(safety, navig)* helikopter za prijenos pomorskih peljara

**marine plant** *(n)* *(marine eng)* brodsko postrojenje

**marine pollution** *(n)* *(environ)* onečišćenje mora, zagađenje mora: Convention on the Prevention of Marine Pollution by Dumping of Wastes and Other Matter 1972 SOLAS 1974 Chapter VII MARPOL is the most important single document concerned with preventing marine pollution. There has been a substantial reduction in marine pollution over the last 15 years, especially with regard to the amount of oil spilled into the sea, despite a massive increase in world sea borne trade. One of the most effective means of combating marine pollution is by educating and training the operating personnel. Shipping is the least environmentally damaging form of commercial transport and, compared with land based industry, is a comparatively minor contributor to marine pollution from human activities.

**marine projects** *(n)* *(ports)* projekti (novih) lučkih infrastrukturnih objekata: More than forty marine projects are in progress by the Hong Kong government which include bulkheads, seawalls, foundation piles, docks, inspections, piers dredging and pipe work. DOI 10.5592/otmcj.2012.1.5

**marine propelling engine** *(n)* *(marine eng)* brodski porivni stroj, glavni brodski porivnik: Heat engines are marine propelling engines.
**marine propulsion** *(n) (marine eng) brodski pogon, brodski porivni sustav:* Lloyds Register predicts that LNG will reach a maximum 11% share of marine propulsion solutions in 2030,... A growing consensus says that LNG is the future of marine propulsion, while others argue that marine diesel fuel will always have its place in the mix... www.MaritimeProfessional.com The steam turbine has until recently been the first choice for very large power marine propulsion units. The steam reciprocating engine, the oldest form of mechanical marine propulsion was in regular use for almost two hundred years. http://www.brighthubengineering.com

**mariner** *(n) 1 (mar law) = seafarer* a seafarer, sailor, person who makes his living at sea

**pomorac; 2 (navig)** anyone employed aboard ship moreplovac: Under severe conditions the mariner’s best ally may be patience since there will be many times when nothing can be done to improve the vessel’s plight until there is a change in meteorological conditions... Typically for harbor approaches and piloting, the mariner will shift to visual piloting. In principle, the positions of marks in the lateral system are determined by the general direction taken by the mariner when approaching port from seaward. Every experienced mariner is always thinking three, four, five steps ahead. Not just the next watch, but the next day, the next drill, next cargo evolution, next refueling, next weapons or fire drill.

**marine radar** (=ship radar) *(n) (electr, navig)* Marine radars are short range radars used for locating other ships and land in the area. Ship radar are used as Tracking ship devices as per COLREGS. (https://www.marineinsight.com/marine-radar-and-their-use-in-the-shipping)

**navigacijski radar, brodski radar:** The bright rotatable radial line on the display of a marine radar set, used for bearing determination. The development of commercial marine radar entered a new phase in the 1980s when raster-scan displays that were compliant with the IMO Performance Standards were introduced. The common wave length in a marine radar is: a) 3 and 10 cm b) 3 and 10m c) 600 m d) 500 kilocycles 4. The marine radar is classified under the x-band (10 GHz) or S-band (3GHz) frequencies With the help of ship radar, accidents can be prevented at sea with the use of the various inherent functionalities of the radar (determining the CPA and the TCPA, EBL, VRM etc).

Maritime law is composed of two main parts - national maritime statutes and international maritime conventions, on the one hand, and the
general maritime law (lex maritime), on the other hand; 2 (mar law) maritime law in a narrow sense

**pomorsko privatno pravo**: A distinctive feature of maritime law is the privilege accorded to a shipowner and certain other persons (such as charterers in some instances) to limit the amount of their liability, under certain circumstances, in respect of tort and some contract claims.

**maritime lien** *(n)* 1 (mar law) A secured claim against a ship (and sometimes against cargo or bunkers) in respect of services provided to the vessel or damages done by it. A maritime lien is a substantive right in the property of another, derived from the general maritime law and rooted in the civil law concept of a privilege. It arises without notice, registration or other formalities, at the time the services are rendered or the damages are done.

*sredstvo osiguranja stvaropravne odgovornosti za određene tražbine koje nastaju iz same plovidbe* (Čorić 1993); privilegiji na brodu primijenjuju se na tražbine (claims) prema vlasniku, zakupcu ili brodaru (owner, charterer or ship operator), a pod posebnim uvjetima i prema poslodavcu i poslovodvor broda (ship manager and the employer) za tražbine kao što su plaća, smrt, tjelesne ozljede, spašavanje, lučke naknade, štete počinjene na drugim stvarima itd. (Pomorski zakonik RH); maritime lien ima pravo prvenstva pred hipotekom/mortgageom pomorski privilegij, pravo zadržavanja broda, privilegij na brodu: Under the law of salvage, strangers to the maritime venture who succeed in saving maritime property from loss or damage from perils of the sea or other waters are entitled to an award for their efforts and have a maritime lien on the salvaged property therefor. Maritime liens can arise not only when the personified ship is charged with a maritime tort such as a negligent collision or personal injury, but also for salvage services, for general average contributions, and for breach of certain maritime contracts.; 2 pravo retencije, pravo zadržaja broda, pravo zapljene imovine; 3 pomorsko založno pravo

**maritime lien on cargo** *(n)* (mar law) = cargo lien privilegij na stvarima ukrcanim na brodu

**maritime logistics** *(n)* (shipping econ) maritime transport (i.e. shipping and ports) is clearly concerned with the transportation of goods and/or passengers between two or more seaports by sea; on the other hand, logistics is the function responsible for the flow of materials from suppliers into an organization, through operations within the organization and then out to customers. (https://www.koganpage.com/article/maritime-logistics-a-new-definition#); the process of planning, implementing and managing the movement of goods and information which is involved in ocean carriage. (Eon-Seong Lee, Dong-Wook Song - 2014 Maritime Logistics Value in Knowledge Management)

**pomorska logistika**: He majored in maritime logistics and security.

**maritime minister** *(n)* (mar law) minister pomorstva

**maritime mobile service** *(n)* (comm, safety, navig) A mobile service between coast stations and ship stations, or between ship stations, or between associated on-board communication stations; survival craft stations and emergency position-indicating radiobeacon stations may also participate in this service (ITU Radio Regulations) služba digitalnog selektivnog pozivanja (u traganju i spašavanju)

**maritime mobile service identity** *(n)* (comm, navig, safety) digitalni selektivni broj, identifikacijska oznaka pošiljatelja ili primatelja digitalnoga selektivnog poziva

**maritime navigational risk** *(n)* (mar ins) pomorski plovidbeni rizik

**maritime offence** *(n)* (mar law) povreda propisa kojima se uređuju odnosi u morskim i podmorskim prostorima Republike Hrvatske ili nad kojima Republika Hrvatska ima suverena prava,
nijihovim obalama i lukama, pomorskim objektima hrvatske državne pripadnosti te svim pomorskim objektima koji plovi ili se nalaze u morskim i podmorskim prostorima Republike Hrvatske u vezi sa sigurnošću plovitbe i zaštite ljudskih života i okoliša te s prometom na moru pomorski prekršaj maritime peril

1 (mar law, safety) pogibelj na moru; 2 opasnost na moru

maritime peril (n) (mar law, safety) pogibelj na moru; 2 opasnost na moru

Maritime Safety Information

Maritime Safety Information includes navigation and meteorological warnings, meteorological forecasts and other
urgent messages pertaining to safety transmitted from coast stations or coast earth stations. (ITU-R - WRC-07). MMaritime Safety Information bears the message marker SECURITE. Informacije o sigurnosti na moru (prioritet br. 3 u komunikacijama o pogiblji, žurnosti i sigurnosti na moru): When an MSI provider sends an EGC SafetyNET message via telex (ITA2 code) the CES converts 5 bit telex code into 7 bit ASCII (ITA5) format, which is a mandatory requirement for all Inmarsat-C CESs. If MSI is sent using 7 bit code, no conversion is carried out. COMSAR 14.4.3.31

maritime search and rescue (n) (safety) a set of duties that include the search and rescue of persons in distress at sea, provision of emergency medical services for them and conduct of radio communications related to an emergency phase (MARITIME SEARCH AND RESCUE MANUAL 2010) potraga i spašavanje na moru, traganje i spašavanje na moru

maritime search and rescue incident (n) (safety) A search and rescue incident on a country's waterway involving a vessel or person(s) from a vessel, including the medical evacuation of person(s) from a vessel.(IAMSAR/Camsar2014) događaj potrage i spašavanja na moru

maritime sector (n) sekrot pomorskog gospofarstva, pomorsko gospodarstvo, pomorska privreda: Containerships are not the only maritime sector facing pressure at the moment. Experience shows that, even though the maritime sector is recognized as vital to our economy, mistakes by mariners are not tolerated. www.MaritimeProfessional.com The maritime sector facilitates 95 percent of all UK trade and that it is larger than both the automotive and aerospace transportation sectors, contributing a total of £46.1 billion ($56.8 billion) to the UK’s GVA in 2017, an £8.3 billion increase over 2010. https://www.marineline.com/news/maritime-contributes-b-uk-economy The report also found that the maritime sector directly supports 220,100 jobs in the UK, an increase of 24,000 jobs from 2010, and that the total employment impact of the maritime sector was 1.07 million jobs in 2017, an increase of 13 percent on 2010. https://www.marineline.com/news/maritime-contributes-b-uk-economy

maritime services (n) (shipping econ) SEE ship management usluge brodovima, poslovođenje brodova

maritime subsidies (n) (shipping econ) subsidies, tax breaks and other forms of financial support from governments.received by the shipping sector; Maritime subsidies relate to support for national flags, seafarer employment, the competitivenessof maritime clusters, promoting high quality standards and maintaining maritime connectivity. They can take the form of budgetary expenditures, tax expenditures and transfers of financial risk to governments. (https://www.itf-oecd.org/sites/default/files/docs/maritime-subsidies-value-for-money.pdf); corporate tax exemptions extended to the shipping sector državne potpore brodarskom gospodarstvu (putem poreznih olakšica itd.), državne potpore brodarima (putem poreznih olakšica itd.), olakšice brodarima (porezne i druge): Maritime Subsidies - Do They Provide Value for Money? https://www.itf-oecd.org/sites/default/files/docs/maritime-subsidies-value-for-money.pdf Exemption from taxation of ship fuels is a second important maritime subsidy.

maritime transportation (n) (geogr, logist, shipping econ) Maritime transportation concerns the movement of passengers and freight over water masses, from oceans to rivers (https://transportgeography.org/?page_id=1762) pomorski promet, morski transport, prijevoz morem

maritime venture (=maritime adventure; marine adventure) (n) (mar law, ship handling) any situation where insurable property is exposed ... (Marine Insurance Act, Canada) pomorski poduhvat, pomorski pothvat, pomorsko putovanje
mark /maːk/ (n) 1 (navig) a visual aid to navigation, which includes floating marks (buoys) and fixed marks (beacons) oznaka
bear a ~ imato oznaku na sebi, nositi oznaku, leading ~ glavna oznaka, navigation ~ = Mk navigacijska oznaka, sea ~ morska oznaka, plovidbena oznaka, land ~ oznaka na kopnu; 2 (boating/yachting) regatna oznaka
mark /maːk/ (v) označiti, obilježiti
marker word (n) (comm, navig) one of the following eight message markers may be used to increase the probability of the purpose of the message being properly understood (so that the receiver has an idea of what the message being sent is about): Instruction, advice, warning, information, question, answer, request, intention (cf. IMO A.918(22)) oznaka (VHF) poruke (prema SMCP), označitelj (VHF) poruke, uvodna riječ (VHF) poruke
marking (n) (marine eng) oznaka: It is important that the markings on the bearing shells be noted so that they can be reinstalled in the correct position.
mark-room (n) (boating/yachting) prostor dopušten jedrilici za jedrenje prema oznaci prostor oznake
marks, quality, weight, measurement unknown (n) (mar law, shipping econ) oznake, kakvoća, mjera i masa nepoznati
marks and numbers (n) (mar law) the identifying details on or of a package or the actual markings that appear on the packages oznake i brojevi (na pakovanju tereta i u teretnici)
marks unknown (n) (shipping econ, cargo) oznake nepoznate
marks unknowm (n) (mar law) oznake nepoznate (u teretnici)
mark zone (n) (boating/yachting) područje u regatnome polju oko regatne oznake unutar udaljenosti od triju duljina trupa njoj bliže jedrilice zona oznake

marlin /maːlin/ (n) (fishing) sabljarka
marlin /maːlin/ (n) (seamanship) rope protected from rot by tarring or coated with tar konopac

iz dva suka http://www.tarsmell.com/marline.html
marline (n) 1 (boating/yachting) A small line used for whipping, seizing, and lashing
marlinspike /ˈmaːlnspaɪk/ (n) (seamanship) pointed iron implement used in separating the strands of rope in splicing, marling, etc. šilo za pletenje konopa, jedrarski trn, kavilja;

Italian: caviglia (per impiombare)

MARPOL Konvencija o zaštiti od onečišćavanja mora, Međunarodna konvencija o sprječavanju zagađivanja s brodova

marry /ˈmæri/ (v) (seamanship) to temporarily sew the ends of two ropes together for rendering through a block; to prepare rope strands for splicing upleti krajeve dva konopa

marshalling yard (n) (ports) a system of tracks within a certain area used for making up trains, storing cars, placing cars to be loaded or unloaded, etc. ranžirni kolodvor

marshalling yard (=marshalling yard stock) (n) (ports, cargo handling) a container parking lot, or any open area where containers are stored in a precise order according to the ship loading plan. kontejnersko slagalište
The term MASS covers many levels of autonomy, from vessels that still have some crew on board to remote control vessels through to fully autonomous vessels. Another existing risk is collisions. However, what if there is a collision between a manned vessel and a fully autonomous vessel, who on the autonomous vessel is taking that liability? Will the shipowner have to seek recovery from the programmers or the software developers?

MASS (noun): MASS Flow Meter (MFM) - "MPA is investigating the bunker craft operator and supplier ... for using a magnet to tamper with the Mass Flow Meter (MFM) of its bunker tanker, Southernpec 7, during a bunkering operation," the MPA said in its email on Monday.

**Master** *(n)* *(hum_resources)* the person having command of a ship *zapovjednik* *(broda)*, *barba, master, ta.* *comandante; capitano:* The master held a Croatian STCW 7 II/2 Master’s Certificate of Competency *(CoC)*.

**Master-at-Arms** *(=Master at Arms)* *(n)* *(navy, hum_resources)* The ship’s Master at Arms force reports directly to the Executive Officer. These are senior petty officers who function as the ship’s police force. *(http://www.dd596.com/Our-Ship/Organization)*; *(on a modern warship)* The Master-At-Arms Petty Officers *(MAs)* maintain good order and discipline both on and off the ship. MAs continuously inspect the ship for cleanliness and safety. Additionally, MAs handle the preparation of all discipline reports, and assist the Legal Officer in conducting both judicial and no judicial punishment procedures. *disciplinski časnik/dočasnik na brodu, brodski policajac* *(mornarički)*: The Chief Boatswain’s Mate also functioned as the Chief Master at Arms.

**Master Bill of Lading** *(=MBL)* *(logist, mar law, shipping econ)* [COMPARE](https://shippingandfreightresource.com/difference-between-house-bill-of-lading-and-master-bill-of-lading/) A Master Bill of Lading *(MBL)* is issued by the Shipping Line *(Carrier)* to the NVOCC Operator, or Freight Forwarder. *(https://shippingandfreightresource.com)* In the *MBL* the Consignee will usually be the destination agent or counterpart or office of the NVOCC operator, or the Freight Forwarder; the Shipper will usually be the NVOCC operator, or their agent or the Freight Forwarder.; the Notify could be the same as Consignee or any other party.. *(https://shippingandfreightresource.com)* If you contracted directly with the shipping line and you are manifested as the shipper on the Master Bill of Lading and not as an “Agent”, the shipping line will be within their legal rights to claim for demurrage, storage, destruction and other charges of any uncollected cargo from you. *(https://shippingandfreightresource.com)*

**Master Mariner** *(UK)* 1 *(n)* *(mar law, hum_resources)* a sailor who has achieved a level of competence and experience to be qualified to act / serve as the Captain of a commercial vessel of any size, of any type, operating anywhere in the world; In the US merchant navy a Master Mariner license comes rated for the maximum gross tonnage of vessel which that license-holder is allowed to operate with the highest being a license for any gross tonnage.; In the British Merchant Navy a Master Mariner who has sailed in command of an oceangoing merchant ship will be titled Captain *kapetan trgovačkog broda, kapetan duge plovvide, zapovjednik broda od 3000 bt i više:* In many countries, the term “Master Mariner” is reserved only for those who hold an unlimited master’s certificate. The U.S. Council for **American Master Mariners** *(CAMM)* reserves regular membership for those who have sailed as master under an unlimited deck license or as First Class Pilots and calls those members “Captain.” *(3)* The Honourable Company of **Master Mariners** in London is “open to Class I foreign-going Master Mariners (or Royal Navy equivalent) with a British Masters’ certificate or the recognised equivalent.” *(http://gcaptain.com/call-captain-not/)*; 2 *viši pomorski*
The Master-pilot exchange (MPX) was conducted prior to departure, including discussion of the passage plan. The pilot card was provided to the pilot during the master/pilot information exchange (MPX).

He obtained his Master's Certificate in 1985 and was promoted to Master in 1988. He is now considered a master shipbuilder after being at the shipyard for more than 40 years.
Skills: A Master Unlimited must have a valid USCG MMC (Merchant Mariner Credential) with Master Unlimited. Must have VSO (Vessel Security Officers), a valid TWIC (Transportation Worker Identification Credential), Passport, and Medical Certificate. In the UK, an unrestricted master’s certificate is colloquially called a Master’s Ticket or a Master's. It is sometimes still referred to as a “Class 1” or “Master Foreign-Going” as it was named during the latter part of the 20th century. The conventions or acts governing the certificate have evolved alongside the shipping industry and the official name of a Master Mariner’s qualification has varied over the years. The UK Maritime & Coastguard Agency, in-line with the amended STCW convention, currently title the certificate Master Unlimited.

Ovlaštenje za zapovjednika broda u neograničenoj plovidbi:

Most rig failures are caused by poor maintenance and breakage of the fittings and connectors, especially those that attach the shrouds to the mast, rather than the actual spars or rigging themselves failing.

Regular rig checks prevent the risk of mast and rigging failure at sea. This includes regular rig inspections of the spars, rigging and fittings, especially before a major passage at sea.

mate /ˈmeɪt/ (n) (mar law) = deck officer časnik palube, ufičal: Meanwhile, the survey vessel was following its survey line, and the mate was monitoring the cruise ship on his radar. Both the seamen sustained minor injuries but the mate was hospitalised with more serious injuries. second ~
drugi časnik palube: The second mate was designated to be the cox’n of the starboard lifeboat, and two ABs were tasked with releasing the forward and aft falls. The second officer must also be qualified and hold at least a second mate’s certificate, though any officer may hold a certificate higher than the one he is required to have by law., first ~ prvi časnik palube: Five days into the voyage, the first mate intended to inspect the cargo via the access in the forecastle. The first mate took evasive action by going hard to port, away from the trawler; the trawler came full astern. It is probable that his chief officer will hold a similar qualification; though the law requires him to have a first mate’s certificate only., third ~ treći časnik palube: At the time of the accident, the captain was in his private cabin and the third mate was at the helm., second ~’s certificate ovlaštenje / svjedodžba

poručnika trgovačke mornarice: The second officer must also be qualified and hold at least a second mate’s certificate, though any officer may hold a certificate higher than the one he is required to have by law., chief ~ prvi časnik palube: The chief mate was the officer of the watch and was responsible for manoeuvring the vessel towards the pilot station.

mate (n) (seamanship, hum_resources) a shipmate, another sailor on the same ship

supomorac, sudrug na brodu

material /meɪˈtɪərɪəl/ (n) (marine eng) materijal soft ~ mekan materijal, plastičan materijal, ductile ~ rastezljiv materijal, ductible ~ provodljivi materijal, engineering ~ tehnički materijal, tehnološki materijal, flexible ~ elastičan materijal, gibljiv materijal

material damage (n) (safety, mar ins) in relation to a marine casualty means: 1. damage that: 1.1 significantly affects the structural integrity, performance or operational characteristics of marine infrastructure or a ship; and 1.2 requires major repair or replacement of a major component or components; 2. 2. destruction of the marine infrastructure or ship (EMSA2018) materijalna šteta (u pomorskoj nesreći ili nezgodi)

mate’s receipt (n) (mar law) a document in which the first officer of the ship, who bears responsibility for the cargo, describes the actual condition of the loaded goods. This document lists any damage and shortcomings. https://www.logisticsglossary.com/term/mates-receipt/ časnička potvrda, potvrda o ukrcaju tereta: A Mate’s Receipt should only be signed once it has been verified that the goods are actually loaded on board. sign the ~ potpisati časničku potvrdu, endorse the ~ ovjeriti časničku potvrdu: It is important to carefully note any damage to the cargo and endorse the Mate’s Receipt accordingly.

math /meθ/ (n) (math) matematika, računanje

matter /meɪtɑː/ (n) tvar, materija solid ~ krute tvari: Fine mesh strainers are used to free oil from solid matter., foreign ~ strana tvar, nečistoće: Filters are fitted in the lubricating and fuel oil systems to remove grit and foreign matter.

matting /meɪtɪŋ/ (n) (cargo) heavy duty solid PVC, rubber or rope mesh that prevents loads moving in cargo holds, trucks, vans, cars hasura, rogožina: Dunnage is used according to Load Line and Draught circumstances and consists of baulks, planks, and quarterings of timber, it also includes matting
maturity date /məˈtjuərəti/ (n) (mar law) dospjelost
maximum allowable bending moment (n) (nav arch) maksimalno dopušteni momenti svijanja
maximum allowable shear force (n) (nav arch) maksimalno dopuštene poprječne sile
maximum authorized draft (n) (navig, safety) najveći dopušteni gaz broda:
From 30 March 2020, the Maximum Authorized Draft for vessels transiting the Neopanamax locks will be 13.87 m (45.5 feet), Tropical Fresh Water (TFW), due to low water levels.
https://safety4sea.com/panama-canal-implements-draught-restrictions/
maximum continuous rating (MCR) (=MCR) (n) (marine eng, nav arch)
maksimalna kontinuirana snaga (motora, stroja): The vessel will operate at 25 knots at a modest MCR to reduce load on the engines and reduce maintenance intervals. Maximum speed will be 29.5 knots. https://gCaptain.com
maximum ebb (n) (oceanogr) the maximum rate of flow of water as it recedes najveća oseka, najjača oseka: The terms maximum ebb and minimum ebb are applied to the maximum and minimum speeds of a current running continuously.
https://www.bask.org/technical-and-gear/tech4_tides/
maximum flood (n) (oceanogr) the maximum rate of flow of water as it rises najveća plima, najviša plima: Note that the current flows south in the Bonita Channel at maximum flood.
maximum power (n) (marine eng) maksimalna snaga (brodskog stroja): The new engine delivers an impressive maximum power output of 846 kW (1,150 hp) at 2,300 rpm and is suitable for both propeller and waterjet applications. Using the tug's weight The conventional tug is clearly at its best when it can utilise its maximum power and apply full bollard pull to the tow line or ship when so required.
maximum section (n) (nav arch) najveće rebro

mayday /ˈmeɪ deɪ/ (n) (navig, safety) the international distress signal given by voice radio on one of the emergency channels oznaka poruke u pogibli, oznaka poruke za poziv u pomoć, glasovna poruka u pogibli ~ call poziv za pomoć u pogibli: The owner broadcast a “Mayday” call and a lifeboat was launched to respond. Unfortunately, valuable rescue time had been lost and 1 hour and 40 minutes elapsed between the “Mayday” call and the crew being rescued by helicopter.

MAYDAY message: A MAYDAY message was sent and the Master activated the GMDSS distress signals and then the abandon ship alarm. All crew were ordered to move to the port upper side deck. https://www.marineinsight.com/

mayday relay message prenesena poruka s oznakom mayday: People ashore alerted the coastguard, which issued a “Mayday Relay” message and began to allocate resources.

MCS (=multiple console support) (n) (navig) glavna kontrolna stanica (u sustavu GPS)

MCT (=moment to change trim 1 cm) (n) (stabil, nav arch) the longitudinal moment required to change the trim one centimetre. moment promjene trima za 1 cm

MDS (=Minimum Detectable Signal) (n) (navig) najmanji detektabilni signal (na radaru)

meagre (=croaker, jewfish, shade-fish, corvina, salmon-bass, stone bass) (n) (fishing) hama, krb, sjenka, morski orao, grb pravi, sokol

mean draft (n) (nav arch) The average of the drafts measured at the bow and the stern. srednji gaz

mean high-water line /miːn/ (nav arch, oceanogr) In regard to tide, the average height of high water measured over a period crta srednje više visoke vode
mean low-water line (n) (navig, oceanogr) In regard to tide, the average height of low water, measured over a period; the line showing the average of the lower of the two daily low tides (https://www.bask.org/technical-and-gear/tech4_tides/) crta srednje niske vode

mean range (n) (oceanogr) srednji raspon plime i oseke

mean sea level (n) (oceanogr) the average height of the sea surface, based upon hourly observation of the tide height on the open coast or in adjacent waters that have free access to the sea srednji vodostaj, srednja razina mora, obična voda, normalna voda

mean tide level (n) (oceanogr) srednja razina morskih mijena
mean water level (n) (oceanogr) The average height of the water surface, determined at equal (usually hourly) intervals over a considerable period of time srednji vodostaj, normalna voda

measure /ˈmɛʒər/ (n) mjera
measure (v) (nav arch) mjeriti, biti dugačak: The HMM Algeciras measures 399.9 meters long and 61 meters in beam. (https://safety4sea.com/)

measurement /ˈmɛʒəment/ (n) 1 (nav arch) izmjere (broda), dimenzije (broda)
tonnage ~ baždarenje (broda); 2 dimenzije (tereta)
measurement ton (=M/T) (n) (shipping econ) COMPARE weight ton prostorna tona: Measurement tons are usually expressed as cargo measurement of 40 cubic feet (1.12 meters) or cubic meters (35.3 cubic feet.)

measures unknown (n) (shipping econ, mar law) masa nepoznata (u teretnici)
measure the bearing (v) (navig) izmjeriti azimut, odrediti azimut, izmjeriti kut: The relative bearing from own ship to targets can be measured by the cursor and by the EBL. ~ with an EBL izmjeriti azimut do objekta putem elektroničkog smjerala (EBL), ~ to a target nekog objekta, ~ between two targets izmjeriti azimute između dva objekta, ~ by cursor izmjeriti azimut s pomoću kursora (na radaru), ~ by EBL izmjeriti azimut s pomoću elektroničkog smjerala
measure the range (v) (navig) izmjeriti udaljenost (radarom): The range from own ship to target can be measured in three ways: by range rings, by cursor, and by VRM.

measuring range (n) (navig) mjerenje udaljenosti (putem radara itd.) ~ by range rings mjerenje udaljenosti s pomoću kružnica na radarskom pokazivaču, by cursor mjerenje udaljenosti s pomoću kursora, by VRM mjerenje udaljenosti s pomoću promjenljivih daljinskih kružnica (na radarskom pokazivaču), precise ~ točnost mjerenja udaljenosti

meathook (n) (boating/yachting) prekinuta žičica (čelik-čela), šćenza, trn
Running the halyard through your palm is an accurate, but sometimes painful way to detect meathooks.

**mechanic** *(n) (mar law)* An engine room rating responsible for the daily maintenance and repairs of mechanic equipment onboard the ship under the supervision of Chief Mechanic. *mehaničar*, *meho* chief ~ stariji mehaničar, viši mehaničar, *marine ~ brodski mehaničar*: The *marine mechanic* in our company is to assist in scheduling, coordinating, and performing vessel repair & maintenance. He also coordinates in purchasing of parts and repair services and supplies, schedule routine maintenance requirements for the Company vessels and accurately files records of all maintenance performed using company program

**mechanical** /miˈkænikəl/ *(adj)* mehanički ~ control mehaničko upravljanje, mehaničko reguliranje, ~ draught mehanički propuh, umjetna cirkulacija zraka, ~ marine propulsion mehanički pogon broda, ~ propulsion mehanički pogon, mehanički poriv, ~ property mehaničko svojstvo

**mechanical advantage** *(n) (phys)* a measure of the force amplification achieved by using a tool, mechanical device or machine system; omjer sila između kraka kolotura i kraka tereta

**prijenosni omjer**

**mechanical damage** *(n)* mehaničko oštećenje, fizičko oštećenje

**mechanism** /ˈmeke nɪzəm/ *(n) (marine eng)* mehanizam, stroj, uređaj, mehanički uređaj camshaft drive ~ pogonski mehanizam razvodne osovine, pogonski uređaj bregastog vratila, valve ~ mehanizam za otvaranje ventila, polužje za pokretanje ventila

**MEDEVAC** /ˈmi dɛvæk/ *(v) (med)* = medical evacuation evakuirati bolesnika

**helikopterom**: The Coast Guard medevaced a 64-year-old man from Bayou Rigolettes. Sector New Orleans directed the launch of an MH-65 Dolphin helicopter crew from Coast Guard Air Station New Orleans to recover the man. Rescue MEDEVACs from vessels at sea are actioned and classified as maritime search and rescue (SAR) incidents. Camsar2014 Routine MEDEVACs or hospital to hospital transfers are beyond the mandate of a humanitarian incident; they are not considered to be SAR incidents and should be dealt with by provincial or territorial authorities. Camsar2014

**mediation** *(n) (mar law)* posredništvo

**medical advice** *(n) (med)* savjet liječnika, medicinski savjeti

**medical assistance** *(n) (med, safety)* liječnička pomoć, medicinska pomoć request ~ zatražiti liječničku pomoć, render ~ pružiti liječničku pomoć

**medical attendance** *(n)* bolesnička njega

**medical care certificate** *(n) (med, safety)* svjedodžba o osposobljenosti za pružanje medicinske pomoći: Both the master and the chief officer held the STCW Medical Care certificate. www.gov.uk/maib

**medical certificate** *(n) (med)*: Seafarer’s *medical certificates shall be valid for* not more than 2 years or not more than 1 year in the case of a seafarer under the age of 18 years. If a seafarer’s *medical certificate expires* in the course of a voyage, then the *certificate shall remain valid* until the next port of call. https://safety4sea.com/

**medical evacuation** *(safety, med)* Evacuation of a person for medical
reasons. **medical examination** critical ~ The transfer of persons under medical care where the situation is deemed to be life threatening in terms of either the patient’s serious condition or isolated location. (IAMSAR/Camsar2014) kritična medicinska evakuacija, evakuacija životno ugroženih osoba, rescue ~ The critical evacuation of injured or stranded persons from isolated areas, or the recovery of sick or critically injured persons from vessels at sea. (IAMSAR/Camsar2014) medicinska evakuacija ozlijeđenih osoba s brodova, routine ~ The transfer of a patient from one medical facility to another where delay would not unduly compromise the patient’s condition. (IAMSAR/Camsar2014) rutinska medicinska evakuacija

**medical examination (n) (med)** liječnički pregled: MPA Singapore issued a circular informing of the medical examination of seafarers and seafarer’s medical certificate, in line with the IMO and ILO guidelines which have been adopted as national requirements for medical examination of seafarers. https://safety4sea.com/ pass ~ proći liječnički pregled

**medical fitness (n) (med, safety)** zdravstvena spremnost, zdravstvena sposobnost: If a pilot had a serious injury or illness, then a re-evaluation of the pilot’s medical fitness was required before pilotage duties were resumed.

**medical guide** medicinski vodič, medicinski priručnik

**medical history (n) (med)** povijest bolesti

**medical log (n) (med)** zdravstveni dnevnik

**medical officer (n) (hum_resources, med)** zdravstveni časnik, časnik zadužen za medicinsku zaštitu: Emergency Checklist: Medical Officer is to prepare for medical treatment of survivors & provisions of hot food & drinks.

**medical response team (n) (safety)** brodski tim za interventnu zdravstvenu pomoć

**medical transports (n) (safety, med)** any means of transportation by land, water or air, whether military or civilian, permanent or temporary, assigned exclusively to medical transportation and under the control of a competent authority of a party to a conflict or of neutral States and of other States not parties to an armed conflict, when these ships, craft and aircraft assist the wounded, the sick and the shipwrecked (1949 Geneva Conventions and Protocols) medicinski transport

**medical treatment (n) (med)** medicinska pomoć, medicinska obrada: Medical Officer should be prepared for medical treatment of survivors and provisions of hot food and drinks medicare /ˈmediˌkeər/ (n) (safety) medicinska zaštita i njega, tečaj medicinske zaštite i njega

**medicine chest (n) 1 (med)** medicinska oprema i lijekovi (na brodu): the role of “International Medical Guide for Ships” (IMGS3) as being a guide for medical treatment on board, as well as for the content of the medical chest http://www.ncmm.no/ship-medicine-chest In the 1700’s, legislation mandated that a Medicine Chest be carried on each American Flag vessel of more than 150 tons, provided it had a crew of ten or more. http://www.lulu.com/shop/us-department-of-health-and-human-services/the-ships-medicine-chest-and-medical-aid-at-sea/paperback/product-21968699.html

**ship’s ~ brodska medicinska oprema;**

2 brodska medicinska škrinja, medicinski ormar
MEDICO Medical advice; exchange of medical information and recommended treatment for sick or injured persons where treatment cannot be administered directly by prescribing medical personnel. (IAMSAR/Camsar2014) medicinski savjeti i razmjena medicinskih informacija, MEDICO

Mediterranean barracuda (=European barracuda) (n) (fishing) škaram, škeran, jadranska barakuda

Mediterranean moor (=Mediterranean berth) (n) 1 (seamanship, navig) the MEDITERRANEAN MOOR consists of making a ship fast stem-on to a berth with the bows held in position by the anchors; a method of docking with a boat’s stern to the dock četverovez, vezivanje u četverovez s krmom prema obali: The port anchor was dropped to help swing the stern around for a perfect mediterranean moor.

Mediterranean mooring, docking a boat “end-on” to a quay as opposed to tying up alongside, is common practice in many parts of the world. (http://www.medsailor.com/how-to-med-moor/) četverovez (za

tanje uže (konop ili lanac) za prihvaćanje užadi za privezivanje, tanji lanac ili uže za prebacivanje sidrenog lanca (s jednog oka na drugo), mesinder,

gija: Attached to the hawser is a messenger made up of 100 fathoms of 3-inch line and 50 fathoms of 1 1/2-inch line. https://www.globalsecurity.org/military/library/policy/navy/nrtc/14160_ch7.pdf A messenger should be used to heave the tug’s tow line on board by a winch, and then a stopper used while the eye is placed around the bollard. http://www.generalcargoship.com/making-fast.html Only enough turns of the messenger should be used on the warping drum end to heave in the tow line. On tankers, do not place the tow line’s eye over the bollard which has the fire wire made fast to it. Take the fire wire off, if there is no bollard available. http://www.generalcargoship.com/making-fast.html

messenger line 1 (seamanship, ship handling) a light line used for hauling over a heavier rope or cable; A light line attached to the end of a main mooring line and used to assist in heaving the mooring to the shore or to another ship. (https://www.wartsila.com/encyclopedia/term/messenger-line); The equipment on deck is fairly easy to keep straight. To do this job, these items are needed: A stout line of about four inches in diameter, a smaller messenger line, used to haul the heavy docking line up to the ship’s deck, and an even smaller heaving line, to get the messenger up to the ship’s deck first. (http://tugboatsonline.com/boat_yard/harbor_boats/dock-ships.htm) tanji konop (ili lanac) za prihvaćanje i povlačenje užadi za privezivanje, gija, mesinder: After reaching the bow of the car carrier, the salvors were able to attach a messenger line from a tug to the car carrier. A heaving line was thrown down from the ship to the single crewman on the aft deck of the tug, and the tug’s messenger line was attached. The second officer looked down at the tow wire and gesticulated to the welder to heave up the messenger line. The second officer looked down at the tow wire and gesticulated to the welder to heave up the messenger line. They shoot the messenger line to the shore. It usually has a weight on the end so the shore crew have something to grab .... https://boards.cruisecritic.com The shot line, after being successfully shot to the other boat, is connected to a sturdier messenger line. This line has to be pulled across the distance between the ships. The officer in charge of the aft mooring party onboard the tanker Queen Zenobia when a messenger line parted. They had been in the process of securing the tow rope of the tug Thrax in preparation for their departure from Fawley oil terminal. https://www.gov.uk/maib-reports/parting-of-messenger-line-from-tanker-queen-zenobia-at-fawley-oil-terminal-southampton-england The headway approach has to be slow often less than while at the same time approaching at a smaller angle to the buoy and then gradually hauling in the buoy messenger rope and pulling the vessel slowly towards the buoy using engine kicks at short intervals to control and maintain headway https://www.marineinsight.com/marine-navigation/mooring-methods-ships/ The crew of the bunker barge passed the ’messenger line’ to a crewman on the PSV, along with two mooring ropes. MARS reports_1992-2016
Messenger line is a strong, UV stable, and low stretch polyester braided cord. Perfect for sailboat rigging, it’s ideal for halyard leaders.

(tanksužeza)

provlačenje drugog užeta: it's just as useful as a pulling line for electricians looking to snake
wire or cable in tight spaces.

**messman** *(mar law, seamanship)* A member of the steward’s department who served meals to officers and crew. https://officerofthewatch.com/tools/maritime-dictionary/ brodski konobar

**messroom** *(=mess)* *(nav arch)* A space or compartment where members of the crew eat their meals; a dining room aboard a ship blagovaonica, mesrum, messer officers’ messroom časnička blagovaonica

moorings

2 sidreni konop (u marini), muring, privezna užad koju daje luka

moorings (n) 1 (seamanship, ship handling, boating/yachting) vez na platači, muring permanent ~ A buoy secured to the bottom by permanent moorings and provided with means for mooring a vessel by use of its anchor chain or mooring lines. <source>american_practical_navigator</source>

čvrsti vez na platači, fiksní vez na platači: Heavy chain used with permanent moorings and connecting the various legs or bridles. <source>american_practical_navigator</source>
Three yachts have just left their moorings and set sail for the open sea. 

permanent ~ čvrsti vez (za brodice / jahte u marini), stalni vez (za brodice / jahte u marini), fiksni

http://www.twocsmarine.com/moorings-101/; 2 (boating/yachting) vez (u marini), muring: Three yachts have just left their moorings and set sail for the open sea. permanent ~ čvrsti vez (za brodice / jahte u marini), stalni vez (za brodice / jahte u marini), fiksni
**mooring shock absorber** *(n)* *(boating/yachting)* čelični amortizer na oprugu

(za priveznu užad)

**mooring snubber** *(n)* *(boating/yachting)* = mooring shock absorber amortizer

priveznog užeta mooring rubber snubber gumeni amortizer

**mooring spring** *(n)* *(boating/yachting)* čelični amortizer (za privezne konope)

http://www.nauticexpo.com/boat-manufacturer/mooring-spring-984.html

**mooring station** *(n)* *(seamanship)* privezno mjesto (na brodu), privezna postaja (na brodu): All radio and talk-back contact was lost with the mooring stations. **forward ~ privezno mjesto na pramcu broda**: The **forward mooring station** was manned by the C/O, Bosun, an Ordinary Seaman (OS), a Trainee Seaman (trainee) and a deck cadet. **aft mooring station privezno mjesto na krmi broda, call the crew to ~s**: The master called the crew to mooring stations and requested that the vessel’s main engines be started. **narediti posadi da dođe na mjesta za privezne postaje, pozvati posadu na mjesta za manovru**

**mooring team** *(n)* *(seamanship)* privezivačka skupina, privezivačka grupa, **privezivački tim**: The aft deck **mooring team** closed up as the pilot boarded, 15 minutes before the scheduled departure time, and a short time later, the officer-in-charge receive

**mooring tower** toranj za sidrenje, privezni toranj: There are two versions of the mooring tower. One is where the tanker is moored along side a rigid that comes down from the tower and the other being when the tanker is moored from the bow. **Common for both** is that a floating hose is connected to the turntable at the dower so the tanker will still move according to environmental forces.
mooring warps (n) (boating/yachting) privezna užad, privezni konopi, vezaljke
mooring wharf (n) (ports) vez, pristan
mooring whips (n) (boating/yachting) sohe za brodice / barke (obalne)

mooring winch (n) (nav arch) pritezno vitlo: The bosun and a seaman were carrying out routine greasing of a mooring winch. The first line, the forward spring from the starboard mooring winch, was put ashore at 2130. automatic ~ automatsko pritezno vitlo

mooring wire (n) (seamanship, nav arch) privezno čelično uče, privezno
We moored to four+two+two fore and aft, all with rather short leads.

moray /moʊˈrei/ US ˈmoʊ.rei/ (n) (fishing) = moray eel Lat. Muraena helena murina, žutošarka, morina, mirina Mediterranean ~ murina

moray eel (n) (fishing) murina
morning watch (n) the 0400 to 0800 watch jutarnja straža, jutarnja gvardija
Morse code /mɔːs/ (n) (comm) Morzeova abeceda
morse lights /mɔːs/ (n) (comm) morze svjetla
mortgage /mɔrˈdʒɪt/ joint ~ zajednička hipoteka 1 hipoteka, založnica, založno pravo, mortgage registered ~ hipoteka na brodu upisanom u upisnik brodova; 2 Termin mortgage razlikuje se od termina pomorska hipoteka po tome što „mortgage poznaje i dopušta stupanje vjerovnika u posjed, tj. deposesiju broda u slučaju propusta dužnika, dok hipotekarni vjerovnik može samo tražiti prodatju broda“ (Ćorić, 1993).; Security on a ship
and its appurtenances by the shipowner as security for a loan. It is derived from the English common law chattel mortgage and is similar to the hypothèque maritime of the civil law. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

**pomorska hipoteka**

**mortgage claim** *(n) (mar law)* an agreement under which a person borrows money to buy property, esp a house or a ship, and the lender may take possession of the property if the borrower fails to repay the money; zahtjev hipotekarnoga vjerovnika prema hipotekarnomu dužniku zaštićen obveznim pravom **hipotekarna tražbina**

**mortgagee** /ma:ɡi'diʒi:/ *(n) (mar law)* hipotekarni vjerovnik

**mortgage of ships** *(n) (mar law)* a mortgage provides a creditor with security for the repayment of a loan or the performance of some other obligation by the acquisition of a property interest in the ship. It may in fact be used to secure any financial obligation involving the ... operation of a ship. (www.duhaime.org) **hipoteka na brodu, ugovorno založno pravo (hipoteka na brodu), hipotekarna tražbina**

**mortise** /'mɔːtis/ *(n) (mar law)* hipoteka na brodu =mortice) *(n) (sailing vessels, nav arch, boating/yachting)* cavity cut into a plank to receive a tenon in a mortise and tenon joint, secured by a dowel; used for joining carvel planks of a ship **UTOR (trenice drvenog broda), utor (madira drvenog broda) ~ and tenon joint spoj trenica utorom i čepom, spoj madira utorom i jezičcem**
mortise and tenon joint \(^{(n)}\) (sailing vessels, nav arch, boating/yachting) - spoj na utor i jezičac

mother vessel \(^{(n)}\) (shipping econ) - Main ocean vessel in a liner service designated to move containers from set origin points to set destination ports/points on a regular basis.

motion \(^{/məʊʃən/} (n)\) 1 (phys, marine eng) - gibanje, kretanje rotary ~ kružno gibanje, whirling ~ vrtožno gibanje; 2 (mar law) - prijedlog odluke (sudu / sucu), molba (sudu / sucu) za donošenje odluke, zahtjev (sudu / sucu) za odluku: The plaintiff filed a motion to seek leave of the court to extend the 3 year time limitation under the Limitation Act in order to sue vessel owner in negligence. This motion is fully briefed and ripe for adjudication. The court will decide on the motion for arrest. file a ~ podnijeti prijedlog (sudu; sucu rasprave): SEAFARERS-Action for negligence for injuries suffered on board vessel limited by Limitation Act. The plaintiff filed a motion to seek leave of the court to extend the 3 year time limitation under the Limitation Act in order to sue vessel owner in negligence. DECISION: motion dismissed

prijedlog odbijen, molba (sudu / sucu) odbijena, zahtjev odbijen, ~
denied prijedlog odbijen, molba se odbija, zahtje se odbija: Plaintiff’s motion
denied, ~ for default judgement zahtjev (sudu) za odluku o presudi zbog
ogluhe (propusta, izostanke, neizvršenja, neispunjenja): Plaintiff’s motion for
default judgment against defendants ... ; The Defendants have not opposed this motion. For the reasons
stated herein, Plaintiff’s Amended Motion for Default Judgment will be granted.

http://www.americanmaritimecases.com/assets/July-2019/Maersk-Line-v-TJM.pdf, decide the ~
odlučiti o prijedlogu / zahtjevu: In deciding the motion, the court determined whether
maritime or the State law applied. donijeti sudsku odluku o zahtjevu (molbi, prijedlogu)

motor /ˈməʊtər/ (n) 1 (electr) elektromotor A.C ~s motori izmjenične struje, D.C.
~s motori istosmjerni struje; 2 (marine eng) pokretač, motor

motor ~ (v) (boating/yachting) voziti na motor, ploviti na motor, ploviti na
motroni pogon: For the past 40 years we’ve sailed an average of 10,000 miles annually between
Australia, Alaska, Antarctica and Spitsbergen motorizing or motorsailing between 400 and 600 hours,
depending on the area - more hours in high latitudes of Antarctica and the Arctic, fewer in the tropical

motor boat (n) (nav arch) motorna brodica, motorni čamac

motor driven pump (n) (electr) elektromotorna pumpa

motor generator (n) (electr, navig) jedinica napajanja (radara)

motorise (=motorize) (v) (boating/yachting) voziti motorom (jedrilica): When the
winds didn’t materialize, the crew ended up motorsailing and motorising for much of the passage

motor launch (n) (nav arch) motorna brodica

motorman /ˈməʊtərmən/ (n) (n) motorist

motorsail /ˈməʊtərˌseɪl/ (v) (boating/yachting) ploviti na motor i jedra

motorsailer /ˈməʊtərˌseɪlə/ (n) (nav arch) A boat designed to use its motor for significant amounts of
time and use the sails less often than a normal sailboat. https://www.ypi-yachts.com/ motorna
motor ship

motor ship /ˈməʊtəʃɪp/ (=motorship; m.s.; M.S.; M/S; motor vessel) (n) (nav arch) motorni brod, brod na motorni pogon
motor vehicles (n) (cargo) motorna vozila
motor vessel (=motor ship; m.v.) (n) (nav arch) = motor ship motorni brod, brod na motorni pogon

motor yacht (=M.Y.) (n) (nav arch) motorna jahta

mould /ˈmould/ (=mold (US)) (n) (marine eng, nav arch, UK) kalup, odljev
mould /ˈmould/ (=US mold)) (n) (UK) 1 (marine eng) kalup; 2 odljevak
moulded beam (=molded beam (US)) (n) (nav arch, UK) = moulded breadth

teorijska širina broda, baždarska širina

moulded breadth /ˈmouldid/ (n) (nav arch, UK) the maximum beam, or breadth, of the ship measured inside the inner shell strakes of plating, and usually occurs amidships (http://www.splashmaritime.com.au/Marops/data/less/Shipk/Design/definitions%20Ship%20k.htm); the greatest breadth of a vessel, measured from the heel of frame on one side to heel of frame on the other side. https://officeroxofthewatch.com/tools/maritime-dictionary/ teorijska širina broda,
**moulded depth** *(n)* *(nav arch)* the vertical distance between the moulded base line and the top of the beams of the uppermost continuous deck measured at the side amidships.

https://www.splashmaritime.com.au/Marops/data/less/Shipk/Design/definitions%20ship%20k.htm; The extreme height of a vessel amidships, from the top of the keel to the top of the upper deck beam.

**baždarna visina trupa broda**

**moulded depth of ship** *(n)* *(nav arch)* the extreme height of a vessel amidships, from the top of the keel to the top of the upper deck beam.

**baždana istisnina, teorijska istisnina**

**moulded draught** *(n)* *(nav arch)* the draught measured to any water-line, either forward or aft, using the moulded base line as a datum.

**teorijski gaz broda**

**moulded draught amidships** *(=T)* *(n)* *(stabil, nav arch)* the moulded draught amidships, i.e. measured from the upper side of the keel plate at Lpp/2.

**baždarni gaz na glavnom rebru**

**moulded surface** *(n)* *(nav arch)* the moulded surface. (nav arch) unutarnja površina oplate broda **teoretska forma**

**moulding** /ˈmouldɪŋ/ *(=molding (US))* *(n)* *(nav arch)* 1 izrada kalupa; 2 *(marine eng)* oblikovanje

**mould loft** *(=molding loft (US))* *(n)* *(nav arch)* A space used for laying down the lines of a...
vessel to actual size and making templates therefrom for laying out the structural work entering into the hull. (https://www.history.navy.mil/)

mouldy /mouldi/ (adj) pljesniv (teret)

mount /maʊnt/ (v) postaviti, ugraditi: mount the instrument on shock-absorbing material

mount /maʊnt/ (n) (navy) topovsko postolje gun mount topovsko postolje

mounting /maʊntɪŋ/ (n) 1 (marine eng) postolje; 2 montiranje; 3 (nav arch) postolje

na palubi deck ~ postolje na palubi: The front bench seat was torn from its deck

mountings, plunging two of the children into the water. The incident caused considerable damage, with

the Panama fairlead detached from the deck plating, an air vent pipe detached from deck mounting, ...

mouth (n) (geogr) ušće (rijeka)

movable jaw (n) (marine eng) = vice škrip, morša: Machine Vise with Movable Rear Jaw

250 mm ~ with

move /mu:v/ (v) 1 gibati se; 2 kretati se; 3 micati se: At the berth we had to move the ship 20 meters astern.

move (v) (mar law) predložiti (sudu / sucu) odluku, podnijeti zahtjev (sucu / sudu): The Plaintiff moved to remand the matter to the State Court. If Plaintiff wishes to be awarded attorney’s fees, it should move within fourteen days following entry of the default judgment.

move ahead (v) (seamanship, comm) pomaknuti brod naprijed (na vezu): Move ahead 20 metres.

move astern (v) (seamanship, comm) pomaknuti brod nazad ~ 10 metres.

move away from the quay (v) (ship handling, seamanship) udaljavati se od obale / veza: With the combined effects of the turning moments created by the rudder and the forward spring, the stern of the ship gradually moves away from the wharf.

move headway (v) (ship handling) kretati se naprijed

movement /ˈmuːvmənt/ (n) 1 (phys) gibanje up-and-down ~ izmjenično gibanje, recipročno gibanje; 2 kretanje; 3 micanje; 4 (shipping econ) promet (tereta u luci): The Terminal’s excellent passenger and freight facilities ensure smooth and efficient movement of passengers and freight through the port and onwards to their ultimate destinations annual cargo ~ godišnji promet tereta

movement of cargo (n) (shipping econ) transport tereta, promet tereta (u luci); 2 (cargo) pomicanje / gibanje tereta

move off the quay (v) (seamanship) odmicati se od obale: Despite the efforts of the tug, the stern moved off the quay, requiring the stern door to be lifted clear of the linkspan.
move sternway  

**move the cargo**  
1 a (vi) (shipping econ) transportirati teret (npr. putem neke luke); 2 prenositi teret; 3 premjestiti teret

**moving parts** (marine eng, boating/yachting) pokretni dijelovi (motora)

**M/R (=Mate’s Receipt)** = mate’s receipt
Receipt made out by the first officer, stating the quantity and condition of the goods loaded on board the ship.

**MRCC** (n) (safety) = Maritime Rescue Coordination Centre (MRCC)
Pomorska središnjica za usklađivanje potrage (Hrv.), Spasilački koordinacijski centar na moru, Nacionalna pomorska središnjica za usklađivanje traganja i spašavanja, Pomorski centar za koordinaciju potraga i spašavanja (opći naziv):

All SAR activities are organized by MRCCs and MRSCs within specified navigational sea areas normally bordering their coastlines.

https://www.egmdss.com

Once an RCC/MRSC is notified that a person(s) is in danger, the SAR Co-ordinator begins to organize the rescue. All available information about the person(s) in danger is gathered and recorded and the positions of potential assisting resources in the area of the incident are determined.

http://www.ccg-gcc.gc.ca/eng/CCG/SAR_Maritime_Sar#Vessels

**MRSC** (n) (safety) = Maritime Rescue-Sub Centre
The RCCs and MRSCs are responsible for the planning, co-ordination, conduct and control of SAR operations.

Područni centar za potragu i spašavanje na moru, Područni centar za traganje i spašavanje na moru:
Contact with a Maritime Rescue Coordination Centre and/or Operator if necessary (https://safety4sea.com/)

**MS** (=M.S.; M/S; Motor Ship) (n) (nav arch) brod na motorni pogon

**M.Sc (=Master of Science)** (n) (mar law) magistar znanosti, magistar inženjer, mag. ing.

**M.Sc; Master of Science in Marine Engineering** (n) (mar law, navig) SEE academic awards in ship officer programmes (UK) - Marine Engineering SEE academic awards in ship officer programmes (UK) - Navigation magistar znanosti brodostrojarstva i tehnologije pomorskog prometa; akademsko zvanje

**M.Sc; Master of Science in Marine Operations Management - Nautical Studies** (n) (mar law, navig) SEE academic awards in ship officer programmes (UK) - Marine Engineering magistar nautičkih znanosti i zehnologije pomorskog prometa; akademsko zvanje

**MSDS (=Materials Safety Data Sheet)** a document that contains information on the potential hazards (health, fire, reactivity and environmental) and how to work safely with the chemical product. It is an essential starting point for the development of a complete health and safety program. It also contains information on the use, storage, handling and emergency procedures all related to the hazards of the material.

**MSI** (n) (safety) = Maritime Safety Information
Maritime safety information includes navigation and meteorological warnings, meteorological forecasts and other urgent messages pertaining to safety transmitted from coast stations or coast earth stations. (ITU-R - WRC-07).
MSI SafetyNET EGC Broadcasts

Maritime Safety Information bears the message marker SECURITE. (CAMSAR II – Mission Coordination) Informacije o sigurnosti na moru: The SMC shall initiate the broadcast appropriate to the type of SAR incident and degree of emergency. To this end, a completed Maritime Safety Information (MSI) Broadcast Message form will be transmitted to the appropriate MCTS centre(s) for broadcast. CAMSAR II – Mission Coordination

MT1 (=Moment to Change Trim One Inch) (n) (stabil) moment promjene trima za jedan inch

mt (=M.T.; motor tanker) tanker

MTC (=moment to change trim 1 cm) (n) (stabil) the longitudinal moment required to change the trim one centimetre moment promjene trima za 1 cm zagažaja

MTI (=Moving Target Identification) (n) (navig) izdvajanje pokretnih ciljeva (na radaru), otkrivanje pokretnih ciljeva (na radaru)

MTI radar (=moving target indication radar) (n) (navig) radar za izdvajanje pokretnih ciljeva / OBJEKATA

MTS (=metric tons) (n) (cargo) metričke tone

mucking /ˈmʌkiŋ/ (n) (safety, cargo handling) collecting all the sludge in bags and leave them inside cargo tanks to be disposed in the next post of call skupljanje i odlaganje taloga iz tanka: After all cargo tanks have been washed, purged and gasfree we will start with mucking operation.

cargo tanks ~ odlaganje taloga iz tankova za teret, start ~ započeti skupljanje i odlaganje taloga, stop ~ zaustaviti skupljanje i odlaganje taloga

mud (n) mulj: a great deal of mud was stirred up by the propeller the cooling water side of the condenser was completely filled with mud glutionous ~ ljepljivi mulj

mule (n) (navig) the ships are guided through the lock chambers by electric locomotives, known as 'mulas' (mules) električna lokomotiva (u Panamskom kanalu): The mules are used for side-to-side and braking control in the locks, which are narrow relative to modern-day ships.
multiple echo

mullet (n) (fishing) lat. Liza spp
cipal, porodica cipala
grey mullet
cipal

multiblade rudder (n) 1 (boating/yachting) višeplošno kormilo, kormilo s dva ili više listova; 2 (nav arch) višeplošno kormilo

Multifunction Display (=MFD) (n) (boating/yachting) višefunkcionalni zaslon:
Just read the “I accept” contract on your multifunction display (MFD) screen, and you’ll run across phrases like “electronic charts are inadequate as a primary means of navigation.” (Practical Sailor)

multifunction tools (n) (marine eng) višenamjenski alati

multihull /ˈmʌlti həl/ (n) (nav arch) any boat with more than one hull, e.g. a catamaran or trimaran

višetrupac

https://www.austal.com/ship-types/vehicle-passenger-ferries
multimodal carriage /ˌmʌltiˈmeudəl/ (n) (shipping econ) the transport of goods by two or more carriers using two or more modes of transport or types of carriage (i.e. truck, rail, sea and air).

multimodalni prijevoz

multimodal or combined bill of lading /ˌmʌltiˈmeudəl/ (n) (mar law) A through bill of lading (infra) which involves at least two different modes of transport - road, rail, air and sea

multimodalna ili kombinirana teretnica, direktna teretnica

multi-modal transport /ˌmʌltiˈmeudəl/ mješoviti prijevoz, multimodalni transport

multimodal transport operator /ˌmʌltiˈmeudəl/ (n) (shipping econ) = combined transport operator poduzetnik mješovitoga prijevoza

multiple /ˈmʌltipəl/ (adj) višestruk, višekratan, mnogobrojan ~ echo (navig) višestruka jeka

multiple-buoy mooring /ˈmʌltipəl/ (=MBM) sidrenje / vez na više plutača

http://www.offspringinternational.com/conventional-buoy-mooring/

multiple hatche (n) (nav arch) višestruko grotlo

multiple-point mooring /ˈmʌltipəl/ (=MPM) COMPARE multiple-buoy mooring A mooring in which lines are taken to a number of points (anchors or sinkers) at the sea bed. (http://www.iala-aism.org/wiki/dictionary/index.php/Multi-point_mooring) sidrenje / vez na više točaka (sidara i/ili plutača)

multiple-time-around echoes (n) (electr, navig) jeke druge vremenske baze (radara)

multiplication /ˌmʌltipliˈkeɪʃən/ (n) (math) COMPARE addition, subtraction, division množenje

multiplied by /ˌmʌltiˌpləid/ (adj) = dividers pomnožen s

multi-purpose port /ˌmʌltiˈpɜːpəs/ (n) (shipping econ) višenamjenska luka

multi-purpose ship /ˌmʌltiˈpɜːpəs/ (n) (nav arch) višenamjenski brod

https://maritimejobs.org/job/master-co-ce-2e/
multipurpose tug /ˌmʌltɪˈpɜːpəs/ (n) (nav arch) višenamjenski tegljač

murry (=murray) (n) (fishing) murina

mushroom anchor (n) (nav arch, boating/yachting) gljivasto sidro

mushroom ventilator (n) (boating/yachting) a ventilator whose top is shaped like a mushroom and fitted with baffle plates so as to permit the passage of air and prevent the entrance of rain or spray

odušna gljiva, gljivasti ventilacijski otvor na kabini

musky octopus (n) (fishing) Lat. Eledone moschata muzgavac
mussel /ˈmʌsəl/ (n) (fishing) = Mediterranean mussel dagnja

muster /ˈmʌstə/ (n) 1 a roll call; the act of assembling for a roll call  zbor članova posade (u izvanrednim prilikama, vježbama gašenja požara, napuštanja broda itd.): The reserve team was the only one to report a full muster. to hold a ~ obaviti prozivku / prozivanje posade (na zbornom mjestu); 2 proziv, prozivanje, prozivka, glavna prozivka; 3 okupljanje za prozivku, poziv na okupljanje

muster /ˈmʌstə/ (v) call to gather or come up to a safety-related or work place on board obaviti proziv, obaviti prozivku, pozvati (na zborno mjesto), pozvati na okupljanje / prozivku: All passengers were mustered at their their assembly stations. The crew mustered, donned lifejackets and deployed a liferaft as a precaution. The crew mustered on the bridge and the chief engineer went to the engine control room to investigate. The general alarm was sounded and the crew were mustered. With the crew mustered and using the vessel’s checklist for grounding as a guide, the master implemented the vessel’s emergency procedures. www.gov.uk/maib The vessel’s engineers were mustered and sent to the engine room to investigate. As soon as the fire is detected, fire party should muster. Must fire party.

muster list /ˈmʌsto,listaɪ/ (n) 1 (navig, safety) raspored za uzbunu
**EMERGENCY MUSTER LIST**

This muster list must be compiled in compliance with SOLAS Chapter III Regulation 22 and the Company Safety Manual.

### Fire or Other Incident

**Signal:** Continuous sounding of the ship’s alarm system.

**Actions:**
- Emergency parties muster at designated stations with warm protective clothing and lifejackets in hand.
- All non-tasked personnel collect warm clothing, don lifejackets and muster at muster role:

### General Emergency

**Signal:** Seven or more short blasts followed by a long blast on the ship’s whistle, repeated on the ship’s alarm system.

**Actions:**
- All personnel to don lifejackets and warm clothing and muster at designated stations.
- Reserve Team to prepare lifesaving appliances for launching.

### Abandon Ship

**Signal:**
- The order to abandon ship will be given ONLY by the Master or his substitute.

**Actions:**
- Proceed in an orderly manner to your designated lifeboat or raft wearing lifejackets and warm clothing. The person in charge will take a roll call before launching.

### Man Overboard

**Signal:**
- Actions: Three short blasts. Immediately inform the officer of the watch (Tell ______) that “Man overboard” and give location. Keep the casualty in sight.

nail (n) (sailing vessels, nav arch, boating/yachting) čavao, čaval, broka, brokva, brukva
naked light  
(n) 1  (marine eng) open flame, such as match or burning cigarette  
otvoreni plamen (npr. cigarete):  The use of naked light and open fire is strictly prohibited.

named  
(adj)  (shipping econ) imenovan, naznačen (teret) ~ port imenovana luka (u teretnici, ugovoru o prijevozu itd.), naznačena luka, ~ cargo teret naznačen (u teretnici, ugovoru o prijevozu itd.)

named bill of lading  
(n)  (mar law) A bill of lading providing for the delivery of the goods to a named person, without also specifying to order or assigns. The named consignee obtains delivery of the goods by surrendering one of the originals of the bill to the carrier or his agent. Although a document of title, the nominate bill of lading is not negotiable.

name of ship  
(n)  (mar law) ime broda

name the ship  
(v)  (nav arch) krstiti brod, dati brodu ime:  The first hybrid tug to operate in German waters was officially named during a party held Thursday in the Port of Bremerhaven. The first LNG carrier to hold Ice Class 1A classification was named this week in Finland. The ship was officially named during a private ceremony at the Daewoo Shipbuilding and Engineering (DSME) shipyard in South Korea.  

teretnica na ime

naming ceremony  
(n)  (nav arch) svečanost krštenja broda:  A naming ceremony was held today for Finland’s new-generation icebreaker, Polaris, built at Arctech Helsinki Shipyard. The first LNG carrier to hold Ice Class 1A classification was named this week in Finland. The ship was officially named during a private ceremony at the Daewoo Shipbuilding and Engineering (DSME) shipyard in South Korea.  

naphtha  
(n)  (cargo, marine eng) a distillation product from petroleum boiling in the approximate range 100–200°C and containing aliphatic hydrocarbons: used as a solvent and in petrol (collinsdictionary); a general term that has been used for over two thousand years to refer to flammable liquid hydrocarbon mixtures  
(Wikipedia)  
nafta (kao derivat), nafta (gorivo):  A cruise ship was involved in a collision with a tanker carrying flammable naphtha early Saturday morning in the Dardanelles strait near Gallipoli, Turkey. After discharging naphtha, we had completed tank washing and gas freeing all tanks to prepare for the next cargo. The vessel was engaged in loading naphtha when, in a sudden strong squall, three of the rope tails on the forward moorings parted.

narrow area  
(n)  (navig) područje skučenih voda, područje ograničene plovidbe:  If the master was not familiar with the situations like the actual one, where the fully loaded ship is to navigate in a narrow area with shallow water.

narrow-band direct printing  
(=NBDP)  (n)  (safety) direktno uskopojasno
ispisivanje
narrow-band direct-printing telegraphy (=NBDP telegraphy) (n) (safety, comm) a method of sending information over the radio and having it printed; a means of communication whereby a printed or hard copy is available at each communications terminal. NBDP is also known as radiotelex, and is used for NAVTEX broadcasts.

NBDP telegrafija: Vessels employing Narrow Band Direct Printing (NBDP) as the Direct Printing Telegraphy (Telex) option for Sea Areas A3 and A4 will have to examine the MF/HF system for compliance.

natural gas
(n) (marine eng, environ) prirodni (ukapljeni) plin:
Of all the fossil fuels
natural gas is the cleanest, and because of emissions legislation is increasing being used for fuelling ships.

**nature of cargo** *(n)* 1 *(cargo)* karakteristike tereta, narav tereta: This efficiency sacrificed two important items: the actual nature of the cargo and the actual weight of the cargo.; 2 vrsta tereta: Types of Packaging The method of packaging (or packing) depends primarily on the nature of the goods themselves and the method of transit for the anticipated voyage.

**nature of distress** *(n)* (safety) priroda pogiblji, vrsta pogiblji: Check nature of distress. Check nature of distressed vessel.

**nature of the goods** *(n)* (cargo) karakteristike robe

**nautical academy** *(n)* 1 nautička akademija, visoka pomorska škola; 2 *(boating/yachting)* škola jedrenja

**Nautical Almanac** /ˈnɔːthɪkl/ *(n)* (navig) Having to do with boats, ships, or sailing

https://www.epiyachts.com/ nautički godišnjak: The current Nautical Almanac contains ephemeral data and concise sight reduction tables. To find the time of moonrise or moonset in the Nautical Almanac, enter the daily-page table with latitude, and extract the LMT for the tabulated latitude next smaller than the observer’s latitude (unless t <source>american_practical_navigator>

**nautical assessor** /ˈnɔːθɪkl/ *(n)* (mar law) Court-appointed experts (usually on matters of navigation and seamanship) who sit with the judge on the bench during the trial of maritime disputes and give their opinions to the judge, at his request, on matters relating to their field of expertise.

**nautical chart** = sea chart pomorska karta, nautička karta: This information was included in the sailing direction abstract which was attached to the passage plan and also marked on nautical chart with a caution symbol. read the ~ čitati pomorsku kartu

**nautical emergencies** *(n)* *(boating/yachting)* nautičke opasnosti: Owning a boat and being on the water can be one of life’s most relaxing and rewarding experiences. But are you prepared for possible nautical emergencies? Practical Sailor
nautical mile (=NM; nm) (n) (geogr, navig) Unit of distance used in marine navigation. (International nautical mile = 1.852 km. 6076.12 ft, 1.1508 land miles.) The international nautical mile is equivalent to the average linear distance over 1 minute of latitude arc at 45° latitude at sea level.

nautical publications /ˈnɑːtɪkl/ (n) (navig) Nautical publications include: List of radio signals, Catalogue of charts and publications, Notices to mariners, Sailing directions, List of light and fog signals.

nautical science (n) (navig) nautičke znanosti
nautical tables /ˈnɑːtɪkl/ (n) (navig) nautičke tablice
nautical tourism /ˈnɑːtɪkl/ (boating/yachting) nautički turizam
nautics /ˈnɑːtɪks/ (boating/yachting) nautika
NAV (n) (navig) kontrola na radaru za pokazivanje/skrivanje navigacijskih podataka: The NAV key shows/hides navigation data, including position, range and bearing to waypoint, ship’s speed and more.

NAVAIDS /ˈneɪvəɪdz/ navigacijska pomagala (na brodu) naval /ˈneɪvəl/ (adj) 1 mornarički, koji se odnosi na ratnu mornaricu naval craft ratni brodovi, ~ base mornarička baza; 2 pomorski; 3 brodski ~ brass brodska mjed

naval architect /ˈneɪvəl aˈtʃɪkt/ (marine eng) inženjer brodogradnje: The naval architect is concerned with the hull, its construction, form, habitability and ability to endure its environment.

naval architecture (n) 1 (nav arch) brodogradnja; 2 (nav arch) projektiranje brodova: A Danish naval architecture firm has been selected to design the roll-on/roll-off vessels for the shipowners.

naval base (n) (navy) mornarička baza, pomorska baza (HRM): Accidental discharge of carbon dioxide resulted in serious injury to a shore-based engineer at the Naval Base.

naval medicine (n) (med) = marine medicine brodska medicina

naval movements (n) (navy) kretanje ratnih brodova: Ch13 is normally used by the naval tugs and to control naval movements within the naval base

naval officer (n) (navy) mornarički časnik https://hr.wikipedia.org/wiki/Hrvatska_ratna_mornarica

naval rank (n) 1 (navy) mornarički čin http://www.seawarstore.com/RankMugs-RN.htm; 2 mornarički činovi
naval submersible  (n) (navy) vojna ronilica

naval yard  (n) (navy) vojno brodogradilište

NAVAREA  (n) (safety, navig) A geographical sea area established for the purpose of coordinating the broadcast of navigational warnings. plovidbeno područje, NAVAREA: The term NAVAREA followed by a roman numeral may be used to identify a particular sea area.

NAVAREA Warnings  /næv,ˌɛəriə/ (n) (navig) the world is divided into 16 NAVAREAS. Warnings are issued when there is a need for immediate information regarding new dangers or changes in navigational aids upozorenja za glavna (svjetska) plovidbena područja, upozorenja NAVAREA: If there is a requirement to issue a safety notice on the high seas, this can only be done by the NAVAREA 4 and 12 Coordinator at the National Imagery and Mapping Agency in Washington, District of Columbia CAMSAR II – Mission Coordination

navigability;  /ˌnævɪˈɡeɪˈblɪtɪ/ (n) (safety, navig) plovnost
navigable /ˈnævɪɡəbəl/ (adj) (navig) plovan, po kojem se može ploviti ~ waterway

plovidbeni kanal

navigable limits granice plovidbe: While manoeuvring, the ship's stern came out of the canal's navigable limits, resulting in a bottom contact. https://safety4sea.com/

navigableness /plovnost/ (n) (navig) plovnost

navigable waters (n) (navig, US) plovidbeni putovi, plovidbeno područje

navigable waterway (n) (navig) plovidni put

navigate /ˈnævɪˌɡeɪt/ (v) (navig) ploviti

navigate blind (v) (navig) ploviti na slijepo: On leaving the charted area the ship was navigated blind, at full sea speed as it approached shallow water and an area of course alterations.

navigating /ˈnævɪˌɡeɪtɪŋ/ (adj) (navig) plovidbeni, koji se odnosi na plovidbu

navigating bridge (=navigation bridge) (n) (navig) the conning station or command post of a ship zapovjednički most, komandni most, Italian: ponte di comando: Details were reported to the navigating bridge, and the chief engineer advised that the fixed CO2 system needed to be used.

http://www.tsb.gc.ca/ENG/reports-reports/marine/1999/m99l0098/m99l0098.asp

navigating cadet (n) (mar law) vježbenik palube, kadet, kado: A navigating cadet is an apprentice officer who provides assistance in various duties on a merchant ship, such as maintenance and minor repair duties. This level is necessary for further career development in deck department.

navigating in fog (n) (navig) plovidba u magli

navigating lights (n) (navig) navigacijska svjetla: It was dark and the skipper was able to see the south cardinal navigation light marking the exit on the other side of the wind farm, as well as the rows of red aviation safety lights on the wind turbines. The mast head tricolour navigation light was on, and a "rain-catcher" radar reflector was hoisted.
navigating officer (n) (mar law) časnik palube: The navigating officer is responsible for safe navigation of the ship, and its cargo operations.

navigation (n) plovidba, navigacija, moreplovstvo Board of ~ (mar law) ministarstvo pomorstva, ministarstvo trgovačke mornarice, ~ in coastal waters obalna navigacija, plovidba u obalnim vodama, terestrička navigacija, ~ in ocean waters navigacija na otvorenom moru, ~ in heavy weather plovidba u nevremenu, ~ in restricted visibility plovidba u smanjenoj vidljivosti, ~ in ice plovidba u uvjetima leda, plovidba kroz led, ocean ~ oceanska navigacija, navigacija na otvorenom moru, polar ~ polarna navigacija, electronic ~ elektronička navigacija, barhymetric navigation batimetrijska navigacija, hyperbolic ~ hiperbolička navigacija, inertial ~ inercijalna navigacija, satellite ~ satelitska navigacija, RDF ~
navigational /ˈnæviɡəʃənl/ (adj) (navig) navigacijski, plovibdeni
navigational aids (n) (navig) = NAVAIDS Any fixed object that a navigator may use to find his position, such as permanent land or sea markers, buoys, radiobeacons, and lighthouses.
https://www.ypiyachts.com/ pomorske oznake
navigational assistance service (n) (navig, safety) služba koja pomaže brodovima prema zahtjevu ili potrebi u otežanim navigacijskim ili meteorološkim okolnostima služba
navigacijske pomoći
navigational audit (n) (navig, safety) navigacijska revizija, navigacijski pregled, navigacijska kontrola: Navigational audits are conducted out on board the Company’s fleet. (https://safety4sea.com/)
navigational elements and parameters (n) (navig) SEE SENC - System Electronic Navigational Chart SEE ECDIS - Standards for electronic chart display and information system cf. IMO resolution MSC.191(79) on Performance Standards for the presentation of navigation related information on shipborne navigational displays
navigacijski elementi i parametri
navigational instruments (n) (navig) the instruments used by nautical navigators and pilots as tools of their trade. The purpose of navigation is to ascertain the present position and to determine the speed, direction etc. to arrive at the port or point of destination (https://www.google.hr/search?q=navigational+instruments&); Navigational instruments are measurement instruments that are used to help ascertain a present geographic position and to determine the speed, direction, altitude and other navigational parameters in order to help arrive at a
navigational publications

navigational publications (n) (navig) SYNONYM reference books = nautical publications navigacijski priručnici: appropriate charts and navigational publications must be corrected to date nautical almanac navigacijski godišnjak, nautički almanah, pilot book peljarska knjiga, peljar, tidal atlas plimni atlas, instruction manuals priručnici s uputama, lights and radio signals svjetlosni i radio signali navigation bridge (=navigating bridge) (n) 1 (nav arch) navigacijski most

new moon (n) (navig) mladi mjesec, mlađ

new ship (n) (nav arch) brod koji podliježe primjeni određenih pravila i propisa zbog rokova u
kojima se odvijaju faze gradnje novi brod

newsprint carrier (n) (nav arch) brod za papir

newsprint ship (n) (nav arch) brod za papir, brod za prijevoz papira

next of kin (n) 1 a (mar law) rođak; 2 srodstvo

next-of-kin (=NOK) (n) (safety) članovi obitelji, srodnici

nickel /ˈnikəl/ (=Ni) (n) (chem) nikalj, nikal, nikl

night orders (n) (navig) 1 The means by which the captain informs the officer of the deck of his
orders for operating the ship. zapovijedi za stražu na mostu za sljedeća 24 sata:
Night orders include assigned operating areas, maximum speeds allowed, required positions with respect
to PIM or DR, and, regarding submarines, the maximum depth at which the ship can operate. (Bowditch)
As the master completed his night orders, the second officer arrived on the bridge to take over as the officer
of the watch (OOW).; 2 zapovijedi za noćnu stražu na mostu

nimbostratus /ˈnimbostraʊtəs/ (meteorol) nimbostratus, gusti oblak

http://eschooltoday.com/clouds/stratus-clouds.html
NIR (=non-ionising radiations) (n) (med) neionizirajuća zračenja
nitriding /ˈnaitrədɪŋ/ (n) (marine eng) nitiranje
nitrogen /ˈnaitrədʒən/ (n) (chem) dušik: The atmosphere is usually established by flushing the container with nitrogen and CO2 During transport, the atmosphere is regulated by nitrogen flushing or CO2 and ethylene scrubbers.
nitrogen /ˈnaitrədʒən/ (=N) (n) dušik
nitrogen monooxide /ˈnaitrədʒən məˈnɒksaid/ (=NOx) (n) (chem, marine eng) dušični monoksid
nitrogen oxide (n) (chem) The combination of nitrogen and oxygen that is released during the combustion process. (http://www.marinedieseleurope.com/) dušični oksid
NMEA (=National Marine Electronics Association) NMEA, Američko nacionalno udruženje za brodsku elektroniku ~ standard 0183 a combined electrical and data specification for communication between marine electronics such as echo sounder, sonars, anemometer, gyrocompass, autopilot, GPS receivers and many other types of instruments. It has been defined by, and is controlled by, the National Marine Electronics Association.; standard NMEA-a koji određuje svojstva komunikacijskog signala, oblik komunikacijskog protokola, vrijeme komuniciranja i oblik poruke standard NME 0183 sentence poruka, oblik poruke, bus sabirnica, komunikacijska veza, talker izvor, odašiljač, listener utok, primatelj, prijavnik, carriage return; (CR) novi odlomak, line feed; (LF) novi red, talker sentence rečenica izvora, proprietary sentence rečenica proizvođača, query sentence rečenica upita
NNSS (=Navy Navigation Satellite System) mornarički satelitski navigacijski sustav, NNSS
NOAA (=National Oceanic and Atmospheric Administration) (n) (meteorol, oceanogr) NOAA’s Mission: Science, Service and Stewardship 1. To understand and predict changes in climate, weather, oceans and coasts; 2. To share that knowledge and information with others; and 3. To conserve and manage coastal and marine ecosystems and resources. (https://www.noaa.gov/contact-us)
Oceanografska uprava SAD: NOAA is initiating a five-year process to end all traditional paper nautical chart production and is seeking the public’s feedback via a Federal Register Notice published on November 15, 2019 https://www.nauticalcharts.noaa.gov/

Noah’s Ark shell (n) (fishing) Lat. Arca Noae kunjka
no-cure no-pay (n) (mar ins, mar law) načelo o korisnom rezultatu spašavanja, nema li uspjeha, nema niti nagrade, bez uspjeha nema nagrade
**no-go area** *(n)* *(navig)* nedopušteno područje plovidbe (određeno ili ucrtano od strane navigatorska, zbog pličine i drugih opasnosti), isključeno područje plovidbe (određeno ili ucrtano od strane navigatorska, zbog pličine i drugih opasnosti): Hazards and ‘no go’ areas must be highlighted, enabling watchkeepers to quickly identify unsafe areas. No depth or no go areas, cross track error or waypoint alarms were set on the ECS. Dangers and No Go areas on navigational charts should only be marked with a chart pencil and with great care.

**no-go zone** *(n)* 1 *(navig)* isključena zona plovidbe (određeno ili ucrtano od strane navigatorska, zbog pličine i drugih opasnosti), nedopuštena zona plovidbe (određeno ili ucrtano od strane navigatorska, zbog pličine i drugih opasnosti), zabranjeno područje plovidbe (određeno od strane navigatorska, zbog pličine i drugih opasnosti): Inexplicably, the pilot had made two no-go zones southeast of the intended course line on his PPU but not the 10.7 m spot much nearer the course line on which they eventually grounded. Always study the chart in detail and outline any no-go areas in the vicinity of your course line.; 2 *(boating/yachting)* a position when a boat attempts to sail either directly into the wind or at an angle toward the wind where its sails cannot generate any lift. This angle is generally around 40 to 45 degree mark but can vary dependant on the characteristics of the boat and its rig. nedostižno područje, područje u koje se ne može jedriti ravno u smjeru vjetra.

http://sailing411.blogspot.hr/2006/02/points-of-sale-sailboats-course-in.html

**noise** *(n)* 1 šum, buka; 2 *(navig, electr)* radarski šum ~ rejection uklanjanje radarskog šuma

**nominal** *(adj)* nazivni, nominalan

**nominal range** *(n)* *(navig)* najveća udaljenost na kojoj se vidi svjetlo s obzirom na zakrivljenost Zemlje i lom svjetlosti geografski domet

**nominate bill of lading** / nəˈmɪnət/ *(n)* *(mar law)* = named bill of lading = straight bill of lading teretnica na ime

**nomination** *(n)* *(mar law)* designation of a specific ship for a particular voyage by a shipowner or shipping line određivanje broda za plovidbu u ugovoru o najmu (čarteru), broda za plovidbu u ugovoru o najmu (čarteru)

**non-cellular ships** *(n)* *(nav arch)* nekontejnerski brodovi

**non-commissioned officer** *(=NCO; non-com (US); noncommissioned officer)* 1 *(navy)* COMPARE commissioned officer A non-commissioned officer (NCO) is a military officer that has not yet earned a rank or commission. dočasnik (ratne mornarice), osoba bez časničkog imenovanja, član posade bez
non-compliant vessel

Merchant Marine officers may also be commissioned as military officers by the Department of Defense. (https://en.wikipedia.org/wiki/United_States_Merchant_Marine)

Two vessels have been detained for non-compliant fuel in Singapore port during Q1 2023. (https://www.seatrade-maritime.com/)

The ICS software, which tracks over 25 million hours of work on board ships undertaken each month by seafarers, has identified that the rate of non-conformances reduced by 25% over the last 12-month period. https://www.marineinsight.com/

Incidents of non-conformities continue to drop to increasingly lower levels over the past year. https://www.marineinsight.com/

Time limit for filing a claim is 9 months from date of delivery, or in the event of non-delivery, 9 months after a reasonable time for delivery has elapsed. (https://www.maerskline.com/en-jm/help/shipping-glossary)

A document not made out to order, but being a receipt and evidence of the contract of carriage, but which is not a document of title, e.g. a waybill and, in some jurisdictions (such as the USA), a (straight) consigned bill of lading. (http://www.maerskline.com/en-jm/help/shipping-glossary)

A transport document that is not a negotiable transport document. (Rotterdam Rules 2009)
non-reversible (adj) 1 (marine eng) neprekretni, nereverzibilan, s direktnim prijenosom; 2 (logist) If loading completed sooner than expected, then saved days will not be added to discharge time allowed. https://officerofthewatch.com/tools/maritime-dictionary/

ušteđeno vrijeme (iskrcaja/ukrcaja) ne račina se u stojnice
non-skid (adj) siguran od klizanja, neklizav
nonslip sole (n) (boating/yachting) protuklizni potplat (čizme za jedrenje)
nonstructural tank (n) (nav arch) nestrukturni tank
non-tidal waters (n) (oceanogr) vode bez plime, bezplimne vode

nonvessel operating common carrier (=NVOCC) (n) (logist, mar law, shipping econ) A cargo consolidator in ocean trades who buys space from a carrier and resells it to smaller shippers. https://officerofthewatch.com/tools/maritime-dictionary/

Non-Vessel- Owning Common Carrier (=Non-Vessel-Operating Common Carrier; NVOCC) (n) a common carrier that holds itself out to the public to provide ocean transportation, issues its own house bill of lading or equivalent document, and does not operate the vessels by which ocean transportation is provided; a shipper in its relationship with the vessel-operating common carrier involved in the movement of cargo (https://shippingandfreightresource.com/difference-between-a-freight-forwarder-and-nvocc/)

prijevoznik koji nije brodovlasnik (NVOCC)
noon sight (n) (navig) snimanje pozicije u podne, snimanje sunca u podne

normal baseline (n) (mar law) normalna osnovna crta, ravana osnovna crta:

Except where otherwise provided in this Convention, the normal baseline for measuring the breadth of the territorial sea is the low-water line along the coast as marked on large-scale charts officially recognized by the coastal State. (UNCLOS)
northbound /ˈnɔːθbənd/ (adj) ANTONYM southbound sjeverni, u sjevernom smjeru, prema sjeveru, koji se kreće prema sjeveru ~ convoj sjeverni konvoj, konvoj prema sjeveru

north-east trades (n) (meteorol) sjeveroistočni pasati

north-east wind (meteorol) sjeveroistočjak, bura, grego
northern blue fin tuna (n) tuna, tunj
Northern Sea Route (n) (shipping econ) ruta preko Sjevernog mora, sjevernomorska ruta: On Saturday the ship docked at Bremerhaven, completing the first voyage by a containership across the Northern Sea Route. www.gCaptain.com

north-up (n) (navig) Relative motion: Compass-stabilized with reference to north. Bearing scale is
north-up motion radar

fixed. True motion: Ground or sea stabilized with compass and speed inputs. Own ship moves on the display. Landmasses and sea are fixed. sjever gore (na pokazivaču radara), prikaz kretanja broda stabiliziran prema pravom meridijanu ~ orientation of radar display orijentacija radarske slike sjever gore, ~ mode The north-up mode paints target pips at their measured distances and in their true (heading sensor) directions from own ship, north bearing maintained at the top of the screen. način pokazivanja sjever gore

north-up motion radar radar s pokazivanjem smjera na sjever, radar s prikazom pravog kretanja broda prema pravom meridijanu

north-west wind (n) (mar law) sjeverozapadnjak, maestral, majštral
north wind (n) (meteorol) sjevernjak, tramontana

Norway lobster (n) (fishing) Lat. Nephrops norvegicus škamp

no-sail zone (n) (boating/yachting) an area where boats cannot sail directly into the wind; the closest that most sailboats can achieve is an angle of 40-45 degrees either side of the direction of the true wind nedostižno područje (u jedrenju)

notary public /ˈnəʊtəri,ˌpʌblɪk/ (mar law) javni bilježnik, notar
notch /ɒtʃ/ (marine eng) urez
notched /ˈɒtʃt/ (adj) (marine eng) nazubljen

note /ˈnəʊt/ (v) 1 primiti na znanje; 2 opaziti, primijetiti; 3 zabilježiti, zapisati
make a ~ of zabilježiti, zapisati, take ~s bilježiti, praviti bilješke, ~ down
zabilježiti, zapisati: An engine cadet was assigned to note down the readings and the fourth engineer was to operate the main engine turning gear remote control. In case of major problem, don’t forget to note down the date and time of the event in the log book.

note /ˈnəʊt/ (n) 1 a bilješka; 2 primjedba; 3 (shipping econ, mar law) obavijest
note of marine protest (n) (mar law) prijava pomorske nezgode, Italian: nota di protesta lodge / note / state / enter / file a ~ prijaviti pomorsku nezgodu

note of protest (n) (mar law) a declaration by the master of circumstances beyond his control which may give, or may have given, rise to loss or damage. prijava pomorske nezgode, Italian: nota di protesta: fearing damage to the cargo during the bad weather, I state the present sea protest, reserving the right to extend the same at the time and place convenient. enter a ~ podnijeti prijavu pomorske nezgode, prijaviti pomorsku nezgodu, extend a ~ proširiti prijavu pomorske nezgode (protest), make a ~ prijaviti pomorsku nezgodu, issue a ~ podnijeti prijavu pomorske nezgode,
**prijaviti protest**: A Note of Protest should be issued by the Master and an acknowledgement obtained from the shippers and/or charterers. draw up a ~ sastaviti prijavu pomorske nezgode: A Note of Protest should be drawn up by the Master to be attached to the bill of lading or passed to the shipper and any named consignee or notify party.

**note of sea protest** (n) (mar law) prijava pomorske nezgode
**Nothing to port / starboard!** (navig, seamanship) Ništa lijevo / desno!
nothing to starboard / port; nothing to right / left (seamanship) order given to the helmsman not to allow the ship to come to right (left) of the course because of some danger lying on that side of the course ništa u desno / lijevo

**notice** / /nətɪs/ (v) 1 a opaziti, primijetiti advance ~ ranija / prethodna obavijest, obavijest unaprijed, final ~ zadnja obavijest, zadnja ETA, preliminary ~ prethodna obavijest / ETA, serve the ~ on the master predati / uručiti obavijest zapovjedniku
**notice** / /nətɪs/ (n) (mar law, shipping econ) obavijest give ~ to obavijestiti nekoga: at the appropriate stage of the passage plan ~ was give to the engine room
**notice** / /nətɪs/ (n) (mar law) zapis u koji se bilježe osobni odnosi važni za raspolaganje brodom i imovinom zabilježba

**notice of abandonment** (n) (mar law) obavijest o proglašavanju broda stvarnom totalnom štetom
**notice of abandonment** (n) (mar ins) obavijest koju osiguranik mora dati osiguratelu ako odluči napustiti osiguranu stvar u korist osiguratelu obavijest o napuštaju broda

**Notice of Apparent Discrepancy** (n) (mar law) SEE letter of protest zahtjev za naknadu štete

**notice of arrival** (n) (shipping econ, mar law) = ETA Notice obavijest o dolasku broda u luku

**notice of protest** (n) (mar law) = note of protest A letter issued by any participant in a voyage citing any condition with which issue is taken. A declaration made by the Master before a notary public or consular official when through stress of weather, there has been or the master fears that there might have been, damage to the vessel or cargo. (www.euronav.com) prijava pomorske nezgode

**Notice of Readiness (≡N/R; NOR)** (n) (mar law) Provision in a voyage charter that the shipowner or master must advise the charterer when the ship has arrived and is ready to load or discharge for laytime to start counting. The clause containing this provision often stipulates the particular hours and days when this notice may be tendered and how soon afterwards laytime commences. http://www.tkmglobal.net/chartering_N.HTM; the document used by the captain of the ship, in the event of voyage chartering, to notify that his ship is ready, in every respect, to load and/or unload the goods. https://www.logisticsglossary.com/term/notice-of-readiness/; Notice served by the Master to inform the terminal/charterer the vessel is ready in all respects to load or discharge cargo. (www.euronav.com) Pismo spremnosti, obavijest o spremnosti accept the ~ prihvatiti / usvojiti pismo spremnosti, tender the ~ predati pismo spremnosti, deliver the ~ predati pismo spremnosti

**notice of redelivery** (n) (mar law) Written notice given by the time charterer to the shipowner giving the date when the ship is to be returned to the shipowner at the end of the period of the charter.
notice of shipment  (n) (mar law, shipping econ) = shipping note

najava ukrcaja

Admirality ~ Admiralitetski oglasi za pomorce, annual ~ godišnji oglasi za pomorce

notices to shipping  (n) (comm, safety) obavijesti za brodove, obavijesti za pomorce

nought /ˈnəʊt/ 1 ništica; 2 nula

NOx dušični oksiđi: The two main pollutants from the ship’s emission are Nitrogen oxides (NOx) and Sulphur oxides (SOx).

NOx absorber catalyst  (n) (marine eng) A NAC, sometimes called a Lean-NOx trap (LNT), is an after-treatment device that acts as a molecular sponge, trapping NOx. When the trap is full, the NAC...
must be cleaned or regenerated. A clean NAC can reduce NOx by up to 90 percent. NOx emission (=nitrogen oxide) (n) (marine eng) ispuštanje dušičnog monoksida

noxious /ˈnɒksɪs/ (adj) 1 škodljiv; 2 otrovan

noxious substance /ˈnɒksɪs/ (n) (cargo) škodljiva tvar

nozzle /ˈnəʊzdʒl/ (n) (marine eng) mlaznica dizel motora, sapnica air foam nozzle

mlaznica zraka za stvaranje pjene za gašenje

NS (=nuclear ship) (n) (nav arch) brod na nuklearni pogon

NT (=net ton) neto tona

NUC (=not under command) (n) (adj) nesposoban za manevriranje (o brodu): Exhibit NUC lights/shapes.
nuclear-powered ship (n) (nav arch) nuklearni brod

Pressurized-water Naval Nuclear Propulsion System

nuclear-powered submarine (n) (navy) nuklearna podmornica

nuclear propulsion plant (n) (marine eng) nuklearno pogonsko postrojenje, atomsko pogonsko postrojenje

nuclear ship (n) (nav arch) nuklearni brod

nucleus /ˈnuːklɛs ; pl. njuːkli, ai/ (=pl. nuclei, nucleuses) jezgra, srž, nukleus
number and kind of packages (n) (mar law) broj i oznake koleta (u teretnici)
nun /nʌn/ (n) (navig) = can buoy a cone shaped navigational buoy; A conical buoy with a pointed top, painted red, and having an even number, used in the United States for navigational aids.

https://wwwypi.yachts.com/ stožasta plutača s parnim brojem (obično crvena) ~
buoy stožasta plutača s parnim brojem (obično crvena): Nun buoys should be kept on the right side of the boat when returning from a larger body of water to a smaller one such as a marina. https://wwwypi.yachts.com/

nursehound (n) (fishing) morska mačka, mačka mrkulja
nut /nʌt/ (n) (marine eng) COMPARE bolt matica (vijka), Italian: dado ~ coupling spojna matica matica steznog vijka, navojna stezna spojka, bolt, washer and ~ vijak, podloška i matica, bolt with ~ vijak s maticom, backing ~ protumatica: On investigation, it was found that the backing nut on the pipe compression joint had

vibrated loose.

nuts /nʌts/ (n) (cargo) orašćići

NVOCC (=non-vessel-operating common carrier; ocean transportation intermediary (OTI)) (n) (mar law) SEE house bill of lading COMPARE VOCC COMPARE freight forwarder SEE Ocean Transportation Intermediary A common carrier that does not operate the vessel by which the ocean transportation is provided, and is a shipper in its relationship with an ocean common carrier.

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; a common carrier that holds itself out to the public to provide ocean transportation, issues its own house bill of lading or equivalent document, and does not operate the vessels by which ocean transportation is provided (FMC https://www.fmc.gov/resources/ocean_transportation_intermediaries).aspx; The main difference between a freight forwarder and an NVOCC is the responsibility. Although both companies will track your cargo and move it through the supply chain, an NVOCC is also acting as a carrier and has more responsibility for your cargo. (https://globalforwarding.com/blog/freight-forwarder-vs-nvocc)

pomorski prijevozni poduzetnik koji ne operira brodom (u linijskoj plovidbi), pomorski prijevozni posrednik koji ne operira brodom (u linijskoj plovidbi): A NVOCC is often termed as a “carrier to shippers” and “shipper to carriers”. https://shippingandfreightresource.com/difference-between-a-freight-forwarder-and-nvocc/ Blue Anchor Line who are one of the top 25 NVOCCs in the world and ranked No.1 NVOCC in the world in 2017.. Blue Anchor Line will have various volume based space/rate arrangements with various carriers around the world, across various trade lanes.. NVOCCs form the largest trade maker in the container shipping
industry. It issues Bill of Ladings, assumes liabilities and responsibilities for the shipments, and may also own and operate its own or leased containers.

https://www.icontainers.com/us/2017/08/01/why-your-nvocc-should-be-fmc-licensed/ Prior to Offering Services in the U.S. Trades, NVOCCs are required to submit proof of financial responsibility for payment of claims (46 CFR Part 515 Subpart C) (arising from its transportation-related activities• https://www.fmc.gov/resources/ocean_transportation_intermediaries.aspx

oak /əʊk/ (n) (cargo) hrastovina
oakum /əʊkəm/ (n) (seamanship) a substance made from soft vegetable fiber such as hemp and jute
impregnated with pine tar

kučina, vuna za šuperenje, stupa, štupa

oar /ər/ (n) (seamanship) veslo

oar lashing (=leather strap) (n) (boating/yachting, nav arch) vjenčić, štrop

oar port (n) (boating/yachting, nav arch, sailing vessels) otvor za veslo

oath /əʊθ/ (n) (mar law) prisega, zakletva under ~ pod prisegom, take the ~ prisegnuti

oats /əʊts/ (n) (cargo) zob

object /əˈbɑːdʒɪkt/ (n) 1 a predmet; 2 objekt; 3 (mar law) predmet osiguranja
insured object predmet osiguranja

object /əˈbɑːdʒɪkt/ (v) 1 primijetiti, imati primjedbu; 2 (mar law) prigovoriti

objection /əˈbɑːdʒɪkʃən/ (n) (mar law) primjedba, prigovor

**Oil rig supplier** **opkrbljivački brod za naftne platforme**
In the case of most hydrocarbons, spilled oil spreads and eventually becomes a very thin film known as a “sheen”.

Coast Guard personnel responded to an oil sheen caused by an unknown source near the pier. The oil sheen came from the hydraulic oil leaking from the mooring winches.
The 120 sq km (46 sq mile) oil slick is thought to be made up of heavy fuel that was used to power the vessel. The total oil slick area has expanded to around 332 sq km from earlier reported 100 sq km.

The incident created an oil spill. The collision resulted in multiple indentations on our vessel’s bow area and a breach in the container vessel’s port bunker tank, resulting in an oil spill. ~ response akcija sprječavanja izljeva nafte u more, clean up an ~ počistiti uljnu mrlju: Huge oil spill left after burning tanker sinks off China. Chinese ships are racing to clean up a giant oil spill after a tanker sank in the East China Sea.

An oil tanker, or a petroleum tanker, is a merchant ship designed for the bulk transport of oil. The grounding of the Exxon Valdez was a watershed event, triggering fundamental changes in the way oil tankers are managed, operated and maintained. There are two basic types of oil tankers: crude tankers and product tankers.

Oil tanker rates are crashing as a pact to limit global crude production begins. Oil tanker rates are crashing as a pact to limit global crude production begins.

Maintenance of machinery has to be carried out regularly. Considering the ship’s situation, various tools, parts and materials are required to be always available onboard. Clear and good understanding of tools, parts and materials are beneficial to engineers for proper upkeep and inventory of tools.

8.1 Maintenance Tools

8.1.1 Hand Tools

a. Hand Spanner/Wrenches

There are different types of hand spanner and wrenches that are available in the workshop which could be selected depending on the type and condition of maintenance work to be done.

Example usage of hand spanner and wrenches:

i. Adjustable wrench is used as easy tool for undetermined size of bolt and nut when immediate tightening is required.
ii. Adjustable pipe wrench is suitable for fastening/loosening small sizes threaded pipes and damage head bolts in an awkward position.
iii. Slogging spanner is used for loosening and tightening big sizes of bolts using hammer.
iv. Instead of adjustable pipe wrench, hook spanner is used for threaded cap connection with teeth to avoid damaging the cap.
v. Offset spanners are used when working in an awkward position jobs.
vi. Square drive wrench is specially used for square bolts or handle.
vii. Torque wrenches are used for a specified torque controlled tightening of bolts and nuts.

operate the ship (w) 1 (shipping econ) ekonomski iskorištači brod, eksplotirati brod, operirati brod: the oil/chemical tanker XXX was one of 36 vessels owned and operated by the company YYY Ltd. The vessel is managed by CMA Ships and is operating on the company’s Far East Line BW Tankers currently owns and operates a fleet of 55 product tankers in the LR2, LR1 and MR segments. Upon delivery the ships will operate in the U.S. flag market on trades served by OSG’s existing vessels www.gCaptain.com The ship was commercially operated by .... on a service linking East Asia with North America and the Caribbean through the Panama Canal. https://safety4sea.com/; 2 pogoniti brod

operate the terminal upravljački terminalom, ekonomski iskorištači terminal: Southampton’s four-berth container facility is operated by Southampton Container Terminals (SCT).

operating costs (n) (shipping econ) Operating costs consists of maintenance, insurance, inspections/renewal of certificates and crew wages. These costs are fixed, and incur whether or not the vessel is active.; The costs incurred by the shipowner during a voyage or time charter, and by the
charterer in a bareboat charter. Comprised mainly of: crew wages and associated costs; insurance (hull and machinery, and protection and indemnity premiums); cost of lubricants and spare parts; repair and maintenance (routine maintenance, dry-dockings and classification fees). (www.euronav.com)

operating cycle (n) (marine eng) radni ciklus
operating port (n) (ports, mar law, US) COMPARE landlord port At an operational port like Charleston, South Carolina, the port authority builds the wharves, owns the cranes and cargo-handling equipment and hires the labor to move cargo in the sheds and yards. lučka uprava u statusu lučkog operatora
operating voltage (n) (electr) radni napon
operation /ˌoʊpəˈreɪʃən/ (n) 1 a rad safe ~ siguran rad, under ~ u radu, u pogonu, boiler ~ rad kotla; 2 (shipping econ) poslovanje, plovidba, servis: In 1956 Sea-Land commenced operations between New York City and Houston, Texas 1956. godine brodarsko društvo Sea-land započelo je linijski servis između New Yorka i Houstona. ~ of vessel upravljanje broda, korištenje broda, poslovanje broda; 3 pogon; 4 hod (stroja); 5 upravljanje (uređajem, strojem), posluživanje (nečega), rukovanje (strojem); 6 operacija, postupak berthing / unberthing ~ operacija pristajanja / odlaska s veza, pristajanje / odlazak s veza
operational /ˌoʊpəˈreɪʃənəl/ (adj) spremen za rad, u radu: Check if high level alarms are operational and have been tested. All other bridge equipment, including speed logs, depth indicators, AIS and GPS receivers was operational and functioning as designed. www.gov.uk/maib
operational costs (shipping econ) troškovi redovitog pogona broda (osiguranje, gorivo i maziva, tekućih popravi i održavanje, dokovanje, posada broda operativni troškovi, troškovi pogona broda
operational expenses (n) (shipping econ) pogonski troškovi
operational level (n) (mar law) COMPARE management level, support level razina odgovornosti za obavljanje dodijeljenih zadataka, dužnosti ili odgovornosti časnika straže na pomorskom brodu radna razina
Operations Department (n) (navy) Operations Department supports the ship in sustained operations at sea as a part of a Joint Task Group or as an independent unit in Anti-Air, Anti-Surface, Anti-Submarine and Strike Warfare operations against the enemy. operativna služba (ratnog broda) OI Division Led by the Combat Information Center Officer (CICO), OI Division consists of Operations Specialists (OSs). They operate radars, navigation equipment, and communication equipment in the Combat Information Center (CIC). They evaluate radar displays, identify contacts, and carry out the tactical decisions for the Combat System. radarsko-komunikacijski odjel (ratnog broda), NN Division NN Division, led by the Navigator, consists of Quartermasters (QMs), who are responsible for the safe navigation in the ship, and for visual communications. Quartermasters maintain all the charts and equipment necessary to safely navigate the ship. When the ship is underway, a Quartermaster is always on watch on the bridge to determine the ships position, assist the Officer of the Deck, and track the Path of Intended Movement (PIM). QMs are experts in visual communications, allowing the ship to communicate with other ships in sight, without using electronic means, which can be detected by the enemy. navigacijski odjel (ratnog broda), OT Division OT DIVISION consisting of the Cryptological Technicians (CTRs, CTTs, CTMs) operating in both CIC and SSES. The CTs encrypt, decrypt, and jam all ranges of signals and information both friendly and
Operations Department

Under OD Division, BMs safely execute all deck evolutions, such as anchoring, mooring, underway replenishment, small boat operations, and flight deck operations. OD Division is also responsible for the preservation and painting of the ship.

Operations Division - OD Division, run by the First Lieutenant, is comprised of Boatswain's Mates (BMs), one of the traditional ratings in the United States Navy, and undesignated seamen.

Operations Department (n) (shipping econ, ports, hum_resources) operativna služba (brodara, luke itd.)

Operations Manager (n) (shipping econ, ports) direktor operativne službe (brodarske tvrtke, luke itd.) Operations Manager (Dry Bulk) direktor operativne službe (brodasko tvrtke) za rasute terete

operations stage (n) (safety) A period during a search and rescue (SAR) incident when SAR facilities proceed to the scene, conduct search, rescue survivors, assist distressed craft, provide emergency care for survivors, and deliver survivors to a suitable facility. (IAMSAR/Camsar2014) operativna faza potrage i spašavanja

operator /ˈopə reɪtə/ (n) 1 (mar law) The company responsible for the commercial decisions concerning the employment of a ship and therefore who decides how and where that asset is employed. The direct beneficiary of the profits from the operations of the ship, this company may also be responsible for purchasing decisions on bunkers and port services. A medium to long-term time or bareboat charterer is considered to be the operator of the ship. Companies heading operator pools are Operators of the ships in the pool. (http://www.ihsfairplay.com/About/Definitions/definitions.html) brodar,

poslovođa: The tanker's operator conducted an in-house investigation Tankerski je brodar obavio unutrašnju istragu. This shipholding group is a major operator of tankers. "K Line" has set out to become the world’s largest capesize operator. Splash24/7 <splash@asiashippingmedia.com> ; 2 (ports, shipping econ, mar law) lučko poduzeće, lučka kompanija port ~ lučko poduzeće, lučko trgovačko društvo, container terminal ~ port company operating the container terminal under a concession agreement; trgovačko društvo koje upravlja kontejnerskim terminalom na temelju ugovora o koncesiji s lučkom upravom (Port Authority) operator kontejnerskog terminala, koncesionar kontejnerskog terminala; 3 (marine eng, ports) rukovalac, rukovatelj, operator, upravljač crane ~ dizaličar, rukovalac dizalice; 4 operator radiostanice operators' cab (n) (nav arch) kabina dizaličara, dizaličarova kabina

oppm measurer (n) (shipping econ, cargo handling) uređaj za mjerenje milijuntih dijelova ulja u tanku
opposed -piston engine (n) (marine eng) motor/stroj s protuhodnim klipovima

optimal search area (n) (safety) The search area which will produce the highest probability of success when searched uniformly with the search effort available. (IAMSAR/CMASAR 2011)

optimalno područje / zona potrage i spašavanja

optimum /ˈɒptɪməm/ (adj) najpovoljniji, optimalan

option /ˈɑːpʃən/ (n) (mar law) izbor at Shipowner's ~ po izboru brodara, po brodarovoj volji

optional /ˈɑːpʃənəl/ (adj) po izboru, opcionalan

orbit /ˈɔːbɪt/ (n) (navig) orbita

order /ˈɔːdər/ (n) 1 red, redoslijed, raspored firing ~ (marine eng) redoslijed paljenja, reverse ~ (marine eng) obratan redoslijed; 2 naredba, zapovijed effect the ~ izvršiti naredbu; 3 nalog give ~s to narediti, zapovijediti (nekome), izdati naredbu (nekome); 4 (shipping econ) naredba place an ~ naručiti, dati narudžu, poslati narudžbu: NYK has placed orders for four VLCCs. Grimaldi placed the order for the six vessels with Nanjing Jinling Shipyard in China late last month. The order represents a total investment worth over $400 million. Grimaldi has placed an order at the Shipbuilding Co. for the construction of two 6,018 teu containerships at a price of $...m each, receive an ~ primiti narudžbu; 5 narudžba ~ book knjiga narudžaba

order /ˈɔːdə/ (v) (navig) narediti, naložiti, dati naredbu, dati nalog ~ engine full ahead narediti stroju 'svom snagom naprijed': The pilot ordered the bow thruster full to starboard, but at the prevailing speed this had no effect. Peljar je naredio 'Pramčani porivnik svom snagom u desno', ali pri tadašnjoj brzini to nije imalo učinka., give ~s dati upute, direct an ~ uputiti nalog, uputiti naredbu, ~ the helm to dati naredbu kromilaru, dati naredbu za kormilarenje: At 1001, the pilot ordered the helm to 'port 20º' and, a few seconds later, gave instructions for the tug to be cast off.

order and conditions of the goods (n) (mar law) stanje tereta (jedan od navoda u teretnici)

order bill of lading (n) (mar law) A bill of lading providing for delivery of the goods to the order of a specified person, by words such as consigned to XYZ Co. Ltd. or to order or assigns. An order bill is negotiable by endorsement and delivery of the document to the endorsee

teretnica po narudžbi, teretnica po nalogu

orderbook (n) (nav arch) knjiga narudžaba (brodogradilišta): The net orderbook for Keppel O&M as at end-March 2020 stood at SGD4bn ($2.8bn), with renewables and gas-related solutions taking up 70% of the value. https://www.seatrade-maritime.com/shipbuilding/

orderly /ˈɔːdəli/ (adv) uredan, učitiv, miran

order printer (n) engine ~ pisač manovre (zapovijedi stroju) (navig) pisač manovre

orders (n) (mar law, shipping econ) Set of instructions given by the shipowner or ship operator to the
order the engine ahead (v) (navig, seamanship) dati naredbu za vožnju naprijed: On receiving the alert from VTS, the pilot ordered the engine to full ahead, helm hard- a-port and instructed the tug to pull on the vessel's port quarter, intending to manoeuvre the vessel back into the fairway.

order the engine astern (v) (navig, seamanship) dati naredbu za vožnju natrag: While weighing up the anchor, the master ordered engines on 'dead slow astern' but found himself in close quarter situation with a bunker-barge. As the rate of turn to port increased towards the jetty, the pilot ordered the engine astern, the rudder hard to starboard and the bow thrust full to starboard.

order the rudder (v) (navig) dati naredbu kormilarenje, izdati naredbu za kormilarenje ~ hard to port / starboard dati naredbu kormilaru sve lijevo / sve desno: The Master ordered the rudder hard to port and repeated the Rule 34 (d) sound signal, but the container vessel continued to alter her course to starboard and, on a NW'ly heading, was heading directly for our tanker’s bow.

ordinary moor (n) (seamanship) method of mooring with anchors in which the up-stream anchor is dropped first normalno sidrenje

ordinary seaman (=OS) (n) (seamanship) COMPARE able-bodied seaman The beginning grade for members of the deck department. The next step is able bodied seaman. https://officerofthewatch.com/tools/maritime-dictionary, www.USMM.org mornar: Ordinary Seaman or OS is an entry-level position in the deck department. An OS performs various general duties within the deck department. His duties include taking care of general needs of the crew and guarding the ship while in port.

ordinates (n) (nav arch) ordinate broda

ordnance exercise /ˈɔːdnəns/ (n) (navig) vojna vježba gađanja

ore bulk oil carrier (=OBO carrier) (n) (nav arch) brod za rudaču, rasuti teret
Organisation of the Petroleum Exporting Countries (OPEC)

**Organizacija OPEC:** There is more uncertainty over cargo volumes next month after the Organisation of the Petroleum Exporting Countries (OPEC) agreed to reduce production by 1.2 million barrels per day from Jan. 1.

**organizer** *(boating/yachting)* vodilica užadi (na kabini, palubi) line ~ vodilica užadi (na kabini), deck vodilica užadi (na palubi)

orientation mode  (n)  (navig) orijentacija načina rada (radara, sustava ECDIS)
orifice plate  /ˈɔrɪfs/  (n)  (marine eng) ploča s kanalićima (tlačnog gorionika)
original Bill of Lading  (n)  (mar law)  Bill of Lading which bears the original signature of the master of a ship or his agent. It is exchanged for the goods at the place of destination of the contract of carriage. originalna teretnica, punovažna teretnica
O-ring  (n)  (marine eng)  prstenasta brtva, okrugla brtva
orlop beam  (n)  (sailing vessels, archaic)  sponja skladišta
orlop deck (nav arch, boating/yachting) the lowest deck in an older ship. najniža paluba ratnog jedrenjaka
orthodromic /ˈɔθədrəmɪk/ (adj) (navig) COMPARE great circle sailing
ortodromski ~ navigation ortodromska plovidba, plovidba po ortodromi,
~ course ortodromski kurs, ~ distance ortodromska udaljenost
orthodromic curve /ˌɔθədrəmɪk/ (navig) ANTONYM loxodromic the shortest
distance between two points on the surface of a sphere, measured along the surface of the sphere (as opposed to a straight line through the sphere's interior) ortodromska krivulja

http://science.sciencemag.org/content/291/5502/264.full?

ortodrome /ˈɔθədrəm/ (n) (navig) ortodroma
oscillate /ˈɔsəliːt/ (v) 1 a oscillirati, gibati se izmjenično; 2 njihati (se); 3 titrati
oscillator time base unit oscillirajuća vremenska baza (radara)
osmosis (nav arch, marine eng) osmoza obrnuta ~ povratna osmoza (u desalinizaciji)

OTI (=Ocean Transportation Intermediary) (n) (mar law, ship handling, US) =
Ocean Transportation Intermediary posrednik u pomorskom prijevozu
Out. (comm) Gotovo. Radiotelefonski razgovor završen. Over and ~
Gotovo. Radiotelefonski razgovor završen.
outboard /ˈaʊt boʊd/ (adj, adv) referring to anything outside of a vessel; outside the hull or away from
the ship’s centreline izvanbrodski, izvan broda / brodice / jedrilice
outboard engine /ˈaʊt boʊd/ (=outboard) (n) (boating/yachting) izvanbrodski
motor, foribordo, Italian: motore fuoribordo electric ~ električni
izvanbrodski motor, petrol ~ benzinski izvanbrodski motor

outboard motor /ˈaʊt boʊd/ (=outboard) (n) (boating/yachting, marine eng)
izvanbrodski motor, fuoribordo
outbound /ˈaʊt bɔʊnd/ (adj) ANTONYM inbound koji izlazi / isplovjava iz luke
(ušća, plovnog kanala, tjesnaca itd.): One coaster was outbound in the outbound lane
and one coaster outbound in the inbound lane. In the very early morning hours (2 am) a loaded tanker was
outbound from a port at about nine knots. At 2233, our ship passed the outbound container vessel. In the
very early morning hours a loaded tanker was outbound from a port at about nine knots. The tanker was
outbound while the tug and barges were inbound when the accident occurred. ~ shipment izvozná
pošiljka, pošiljka za ukrcaj na brod, pošiljka u ukrcaju
outbound ship (n) (navig) ANTONYM inbound ship brod koji isplovjava (iz
luka, ušća, plovnog kanala itd.): As the pilot was to transfer from an outbound coastal
tanker, he instructed the container ship to move to the starboard side (west) of the recommended track to
avoid the tanker. Budući da je peljar trebao preći na brod s jednog obalnog tankera koji je isplovjavao,
peljar je naredio kontejnerskom brodu da se pomakne u desno (zapadno) od preporučenog puta/rute kako bi
se izbjegao tanker.
outbreak /ˈaʊt,breɪk/ (n) izbijanje (vatre, požara)
outdated /ˈaʊt,deɪtɪd/ (adj) zastarjeli, neažuriran
outdrive /ˈaʊt,draɪv/ (n) (boating/yachting, marine eng) = stern drive krmeni pogon,
krmena osovina
Outer Continental Shelf (OCS) Facilities (n) (nav arch) objekti izvan
epikontinetalni pojasa fixed and floating ~ fiksni i plutajući objekti izvan
epikontinetalnog pojasa
outer port / harbour (n) (ports) ANTONYM inner port / harbour vanjska
luka, luči akvatorij prema otvorenom moru (za ukrcaj peljara)
outfit /ˈaʊt.fɪt/ (n) 1 odijelo; 2 (nav arch) all the parts of a ship that are not structural in nature such as pipes, derricks, masts, rigging, engines, machinery, electrical cable, hotel services, etc. (Ship Terms Glossary.html) oprema; 3 opremanje

outfit (v) (nav arch) opremiti, opremiti s: the new tug is outfitted with a fixed-pitch propeller

outfitting (n) (nav arch) opremanje broda: IMO regulations focus on the arrangements and outfitting of the vessel as it pertains to safety and environmental performance. British brand’s second newbuild will now move pierside for final outfitting. www.gCaptain.com ~ wharf (nav arch)

dopremni vez, advanced ~ by adopting the concept of advance outfitting the vessel building cycle time can be reduced and a substantial saving of costs, along with other benefits, depending on the availability of infrastructure in the yards can be achieved. (https://www.marineinsight.com/naval-architecture/advanced-outfitting-in-shipbuilding/)

opremanje broda unaprijed, block ~ Block outfitting involves erection of units of assembled components (a component may be a unit of a pump with its seating and associated piping) and also heavy machinery (for example: boilers) on large blocks of the hull before the blocks are erected and welded to each other. (https://www.marineinsight.com/naval-architecture/advanced-outfitting-in-shipbuilding/)

građenje sekcija broda (blokova) unaprijed

outhaul /ˈaʊt.hɔːl/ (n) 1 (boating/yachting) a line that controls sail shape, specifically the draft of a sail (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) konop za pritezanje

stražnjeg roglja jedra

https://stingysailor.com/2014/03/22/mainsail-outhaul-solution-2/; 2 (seamanship) a line used to haul a piece of gear from a ship uže za prebacivanje stvari s broda

outlet (n) 1 izlaz; 2 (marine eng) izlazni (odvodni, odušni) otvor exhaust gas ~ izlaz ispušnih plinova, water ~ izlaz vode, odvod, ~ valve ispušni ventil, izlazni ventil; 3 ispuštanje, istjecanje, otjecanje

outlet header (n) (marine eng) izlazni kolektor, izlazna sabirna cijev
outline (n) profil, prikaz

outlook /ˈaʊtˌlʊk/ (n) (meteorol) izgledi vremena (za 12 sati) further ~ izgledi vremena za sljedećih 12 sati, extended ~ izgledi vremena za sljedećih nekoliko dana

out of action izvan funkcije, u neradnom stanju: the port will be ~ for twoo weeks following last weeks's floods

out-of-court settlement (n) (mar law) izvansudska nagodba

out of date (n) (adv) zastario

out-of-gauge /ˈaʊt əʊdʒ/ (=OOG cargo) izvan gabarita / dimenzija (npr. teret) ~ boxes izvangabaritni kontejneri: If the pre-plan shows that out of gauge boxes are to be loaded in unacceptable positions, more suitable stowage options should be discussed and agreed with the terminal as soon as possible., out-of-gauge cargoes izvangabaritni tereti

out-of-trim (=out of trim) (n) (stabil, cargo handling) Not properly trimmed or ballasted (not
out-of-water survey

out-of-water survey (n) (boating/yachting) pregled (brodice) na suhom: The boat insurance is coming due and we require an out-of-water survey of the boat.

output /ˈaʊt ˈpʊt/ 1 snaga (na izlazu) engine ~ snaga motora, reduced power ~ smanjena izlazna snaga; 2 korisna snaga; 3 proizvodnja (snage)

outreach /ˈaʊt riːtʃ/ (n) (cargo handling) ANTONYM backreach dohvati dizalice landside ~ dohvati s kopnene strane, waterside ~ dohvati na obalnoj / morskoj strani: The new cranes will be capable of serving ultra-large container vessels with an outreach of 24 containers and a lift height of 165 feet above the pier deck.

outrigger /ˈaʊt rɪɡə/ (boating/yachting) A projecting beam or spar run out from the side of a vessel to help in securing the masts or from a mast to be used in extending a rope or sail; projecting beam(s) over the boat’s or ship’s side, used for rowing etc. jaram (izbačeni krak brodice/čamca, za veslanje i dr.), izbačeni krak/krakovi jedrilice / kanua: The 84-foot steel fishing vessel built in 2007 suffered damage to its bow and outrigger.
outrigger /ˈaʊtərɪɡər/ (n) (sailing vessels, ship_equipment) rasponice koša (na jarbolu jedrenjaka)

Outriggers are long poles deployed from the sides of fishing boats to widen the trolling area and accommodate multiple lines. Outriggers are used when trolling for surface fish. (https://www.westmarine.com/WestAdvisor/Selecting-Outriggers) krakovi na bokovima ribarice (zakretni ili teleskopski), štapovi na bokovima ribarice (zakretni ili teleskopski): Outriggers consist of rigid or telescopic poles between 15 and 35 feet in length that are swung outboard at a wide angle. In the collision the fishing vessel suffered damage to its bow and port outrigger.

outsource (v) ANTONYM in-house To hire a third-party provider to assume tasks previously performed in-house. povjeriti vlastite usluge ili poslove vanjskoj tvrtki

out-turn /ˈaʊt.tɜːrn/ (=outturn) (n) (shipping econ) ANTONYM shipment iskrcanje tereta, iskrčani teret: Freight may depend in amount on the intaken weight of cargo, the outturn weight, the cargo volume, cargo value, or on some other stipulated basis. (Cargo Outturn Report). The ship must notify the agents and Customs of any amendments to be made to the quantity or nature of landed
out-turn certificate

As master, you are responsible to your company and the charterer in so far as outturn of cargo and quick dispatch are concerned.

out-turn certificate (n) (mar law) A document issued by the receivers of cargo indicating the amount of cargo discharged. (www.euronav.com)

out-turn report (n) (mar law) Written statement by a stevedoring company in which the condition of cargo discharged from a ship is noted along with any discrepancies in the quantity compared with the ship's manifest. Also referred to as an over, short and damage report.

http://www.tkmglobal.net/chartering_O.HTM izvješće o iskrcanom teretu, izvješće o količini i stanju iskrcanog tereta (s broda)

outward (adj) ~ bound a ship leaving the port, heading for the open sea koji isplavljiva 1 vanjski; 2 (adv) izvan, izvana

outward clearance (n) (mar law) dozvola za isplavljenje

Outward Light Bill (shipping econ) Računa / faktura za korištenje plovnih putova (pri odlasku broda iz luke) ~ Receipt Potvrda o plaćenoj pristojbi za korištenje plovnog puta

outwards /ˈautwədz/ (adv) prema vani

outweigh /ˈautwel/ (v) 1 prevagnuti, nadvladati: … if the maritime industry cautiously navigates these legal regimes, the benefits could very well outweigh the risks. Do the environmental benefits outweigh the cost? <source>MaritimeProfessional-2011-05</source> <source>MaritimeProfessional-2011-05</source>

Nevertheless, the advantages of wearing lifelines and lifejackets far outweigh the disadvantages. <source>MAIBSAFETYDIGEST_22011</source> <source>MAIBSAFETYDIGEST_22011</source> ; 2 pretegnuti

overage /əˈverɪdʒ/ (n) (mar law) Overage - Cargo discharged in excess of the quantity on the ship's manifest. http://www.tkmglobal.net/chartering_O.HTM višak iskrcanog tereta (u odnosu na brodski manifest / prijavu tereta)

overall /ˈəʊvərl/ (adj) sveukupni, cjelokupni length ~ (nav arch) dužina preko svega

overall rating (n) (marine eng, nav arch) ukupna snaga

overalls (n) (seamanship) = dungarees radno odijelo, tuta: They should be provided with and should wear: (a) a suitable safety helmet constructed to an appropriate standard, (i) overalls waterproof, reinforced, safety boots depending on the risk, sufficient and suitable protective clothing and equipment, including, but not limited to: <source>45_ITF Offshore Standard Agreement 2008</source> <source>45_ITF Offshore Standard Agreement 2008</source>

It was raining and the decks were wet when the electrician, who was wearing safety shoes, helmet, overalls and gloves, went down an upperdeck ladder with his back to the treads. <source>Safety_Digest_3_2004</source> <source>Safety_Digest_3_2004</source>
overall stability (n) (stabil) a general measure of a ship's ability to resist capsizing in a given condition of loading

overbear /ˈəʊvər bɛər/ (boating/yachting) uzeti vjetar (jedrilici), ukrasti vjetar

overboard /ˈəʊvər bɔːd/ (adv, adj) 1 outside, over the side of a ship into the water preko palube;
2 u more throw cargo ~ bacati teret u more, discharge ~ iskrcaj u more (npr. tereta nafte ili balasta), ispuštanje u more: The skipper also looked over the side of the boat and observed that both the engine exhaust and bilge discharge overboard were clear of the waterline. Should any overboard discharges occur, they must be documented in an oil record book, a log that is regularly inspected by the U.S. Coast Guard, fall ~ pasti u more (s broda), nestati (s broda): the 2nd Officer reportedly fell overboard at approximately .... am local time in the the Saint Lawerence River https://gCaptain.com;

overcapacity (n) (shipping econ) prekapacitiranost (npr. brodskog prostora), višak brodskog prostora: On Jan. 3, 2017, BIMCO came out with their shipping forecast and it is for lower growth in the coming years, thanks to overcapacity and national subsidies. The container shipping industry is expected to continue to struggle with overcapacity <update@maritimeprofessional.com Overcapacity, Not Trade Wars, are to Blame for Falling Demand on Asia-US East Coast’ www.gcaptain.com

overcarry krivo ukrcati teret (teret za sljedeći brod ili luku)

overcast /ˈəʊvər kɑːst/ (adj) (meteorol) sky condition when greater than 9/10 of the sky is covered by clouds, potpuno oblačno, oblačno, nebo prekriveno oblacima,

Italian: cielo coperto

overcome (v) prevladati, nadvladati ~ a problem prevladati problem, riješiti problem

overcurrent protection (n) (electr) nadstruknja zaštita, prekostruknja zaštita, zaštita od prekoračenja napona

overdraft limit (n) prekoračenje (računa u banci)

overdrawn (adj) preko dopuštenog ograničenja (o stanju računa na banci), preko limita
overdue (adj, adv) (safety) A situation where a craft has failed to arrive at its intended destination when expected and remains missing. (IAMSAR/Camsar2014) 

overhang (n) (nav arch) dio trupa broda koji nije poduprt vodom; the portion of a vessel's bow or stern which projects beyond a perpendicular at the waterline; The portions of the hull which project beyond the waterline fore and aft. prevjes, obлина крме: … though the berth immediately astern was vacant at the time, potentially it could have received another vessel. The bunker barge overhang would then become a potential hazard. 

It was observed that the quantity of shipping water was affected by some parameters such as wavelength, ship speed, and bow shape in terms of an overhang extension. https://link.springer.com/article/10.1007/s11804-016-1345-y 

Counter or eliptical sterns are similar to cruiser stern, however, on counter the cutaway for the rudder occurs above the waterline, and consequently the counter stern has a pronounced aft overhang and exposed skeg.
overhaul /ˈəʊvəˈhɔːl/ (n) (marine eng) 1 temeljit popravak; 2 (nav arch) remont; 3 (nav arch) tehnički pregled, klasa; 4 (marine eng, nav arch) periodični radovi održavanja

overhaul /ˈəʊvəˈhɔːl/ (v) 1 (marine eng) to repair or put in proper condition for operation; recondition obaviti remont, popraviti; 2 (marine eng) tehnički pregledati; 3 (marine eng, nav arch) temeljit popraviti; 4 (marine eng) periodički servisirati (stroj, pumpu); 5 (marine eng) održavati, preventivno održavati; 6 (marine eng, nav arch) pregledati, pregledavati

overhauling (n) a remont; 2 periodički pregled, klasa

overhead The ceiling, or, essentially, the bottom of the deck above strop palube, svod

overhead crane (n) (cargo handling) viseća mosna dizalica (u skladištu, radionici), stropna dizalica

overheated (adj) (marine eng) servisiran (periodički) ~ engine an engine which has been disassembled, cleaned, inspected, repaired as necessary and tested remontiran, koji je prošao klasu (o stroju): koji je obavio remont

overheating (n) (cargo, marine eng) pregrijavanje, pregrijanost

overladen /ˈəʊvəˈleɪdən/ (adj) (shipping econ) prekrcan (brod)

overlanded (adj) 1 (shipping econ, cargo handling) cargo volume counts more than originally shipped višak ukrcanog tereta; 2 (shipping econ, cargo handling) cargo taken beyond original port of discharge teret prenesen u sljedeću luku, neiskrcan teret

overlap /ˈəʊvəˈlæp/ (n) (boating/yachting) preklapanje (jedrilica u regati)

overlapping (n) (boating/yachting) 1 preklapanje (u jedrenju)
overlapping panneling (nav arch, sailing vessels, boating/yachting) preklapanje platica oplate

overlay (nav) prekriti (o radarskoj slici, elektroničkoj karti), nacrati na (o radarskoj slici, elektroničkoj karti), ucrati na karti / pokazivaču be overlaid with biti prekriven s: The radar pictures were overlaid with the ECDIS routes and the information received from the AIS.

overload /ˌəʊvəˈləʊd/ (marine eng) preopteretiti; (cargo handling) prenakrcati

overloaded 1 a prenakrcan; 2 preopterečen

overreliance on /ˌəʊvərˈreɪliəns/ (safety) petjerano oslannjanje u, pretjerano pouzdavanje u: The probable cause of the contact of the tow with the Grain Terminal breasting dolphins and conveyor was the pilot’s overreliance on floating aids to navigation. http://gCaptain.com

override /ˌəʊvəˈreɪd/ (marine eng) prebacivanje, premoštenje emergency ~ (safety) prebacivanje u nuždi, premoštenje u nuždi: It was decided to operate the deck raising/lowering system on emergency override, which used stored hydraulic pressure.; 2 (marine eng) preskakanje, premoštenje manual ~ ručno prebacivanje

override /ˌəʊvəˈreɪd/ (marine eng) premostiti, zaobići, prebaciti

override of main engine safety (marine eng, safety) poništenje zaštite automatskog zaustavljanja glavnog motora

overriding (adj) 1 važniji, najvažniji; 2 prioritetan: in case of an emergency or drill or in other overriding operational conditions u hitnim slučajevima i vježbama ili u drugim prioritetnim uvjetima

overriding authority and responsibility neograničeno ovlaštenje i odgovornost (zapovjednika za donošenje odluka glede sigurnosti i zaštite okoliša): Nothing in this Safety Management System removes from the Master his overriding authority and responsibility to make decisions, take any steps and issue any orders, whether or not they are in accordance with the contents of this Safety Management System, which he considers are necessary for the preservation of life, prevention of pollution or for the safety of the ship and to request the Company's assistance as may be necessary.

over-ripen /ˈəʊvərˈrɪpən/ (cargo, shipping econ) sazrijeti prerano (o teretu): Bananas may overripen due to failure of the vessel's refrigeration system during the voyage.

overseas trade prekomorski promet / prijevoz / trgovina

oversee (safety) nadgledati, nadyirati: There was no officer overseeing the operation, only an AB had escorted the pilot from the bridge.
oversight /ˈouvərˌsaɪt/ (n) (safety) 1 mistake, error, slip, fault prevent; 2 (navig, safety) = surveillance supervision nadzor: The probable cause of the collision was a lack of effective operational oversight of the ship by the VTS. poor ~ slab nadzor
overspeed governor (=revolution number governor) (n) (marine eng) regulator broja okretaja: A governor that shuts off the fuel or stops the engine only when excessive speed is reached. (http://www.marinedieseleurope.com/)
oversupply (n) (shipping econ) prekomjerna ponuda, višak ponude nad potražnjom: The world of container shipping is going through a prolonged period of instability due to oversupply of new ships entering service and decreased demand for transporting goods between major economies
overtake /ˈouvərˈteɪk/ (v) 1 (navig) preteći, pretjecati: The container vessel was overtaking the tanker with a speed advantage of about 5 knots; 2 susići, doseći, Italian: raggiungere
overtaken ship /ˌouvərˈteɪkn/ (n) (navig) ANTONYM overtaking vessel preticani

brod, brod kojega drugi brod pretječe
http://www.aztecsailing.co.uk/newaztec/theory/ch4/Colreg4s1.html
overtaken vessel pretjecani brod

overtaking /ˌouvərˈteɪkɪŋ/ (navig, boating/yachting) pretjecanje: In a narrow channel overtaking should normally take place on the port side as the vessel being overtaken should be as far as practicable on the starboard side of the channel

overtaking light (n) (navig) = stern light krmeno svjetlo (moguće pretjecanje)
overtaking vessel brod koji pretječe: With a speed of 16kts, the bulk carrier was the overtaking vessel, and as both vessels were heading for a turn in the lane, the bulk carrier’s master ordered the OOW to hail the other vessel to ascertain its intentions. MAIB Safety Digest 2/2018

overtime (n) (shipping econ, mar law) prekovremeni rad, plaća za prekovremeni rad: Work performed over and above an eight hour period shall be considered overtime and be compensated for at overtime rates. Vrijeme na radu od preko osam sati smatra se prekovremenim radom i nadoknađuje se kao prekovremeni rad. ~ rate iznos naknade za prekovremeni rad: Overtime over and above these normal working hours will be paid at the overtime rate stipulated in Appendix A. ~ premium ~ rate osnovna naknada za prekovremeni rad: Work performed over and above these normal working hours shall be compensated at overtime rates.

overturn /ˌəʊvəˈtɜːrn/ (v) (safety) prevrnuti se: a large cargo ship overturned in the Red Sea

owe /əʊ/ (v) dugovati (nekome), biti dužan (nekome): The crew from ... and ... and are now owed tens of thousands of dollars. Kompanija sada duguje nekoliko desetaka tisuća dolara posadi iz ... i ...

owing to (conj) uslijed, zbog

owner /ˈəʊnər/ (n) 1 (mar law) vlasnik broda, brodovlasnik, armator ship~ brodovlasnik; 2 (shipping econ, mar law) brodar, morski prijevoznik

owner cabin (n) kabina na brodu koju koristi brodovlasnik

owner insignia (n) (navig) (comm, navig) oznaka brodovlasnika

owner of the goods (n) (mar law) vlasnik robe, vlasnik tereta

Owner/Operator (n) (mar law) brodovlasnik/brodar

owner pennant (n) (comm, navig) plamenac brodovlasnika

Owners /əʊnz/ (=Owner) (n) (mar law) brodovlasnik, vlasnik broda

Owner’s Agent (=Owners Agent) (n) (mar law) Ship’s agent nominated by, and paid by: the shipowner in accordance with the Charter-Party. http://www.tkmglobal.net/chartering_O.HTM

brodarov agent, brodovlasnikov agent

Owners broker (n) (mar law) Shipbroker who acts on behalf of a shipowner in the negotiations leading to the chartering out of the owner’s ship. http://www.tkmglobal.net/chartering_O.HTM

brodarov broker, brodarov posrednik, brodarov mešetar

Owner’s liability (=SOL) (n) (mar law) COMPARE charterer’s liability odgovornost koju brodar preuzima za obveze nastale u vezi s plovidbom i iskorišćavanjem broda

brodarova odgovornost: A typical SOL example is geographical deviation or departure from the contractually agreed voyage; liability for loss of and/or damage to cargo arising out of such a deviation falls outside the scope of standard P&I.

own ship position (n) (navig) položaj broda (u sustavu ECDIS, na radarskoj slici itd.), pozicija broda

own the ship /əʊn/ (v) (shipping econ, mar law) biti vlasnik broda, biti vlasnikom broda: the oil/chemical tanker XXX was one of 36 vessels owned and operated by the company YYY Ltd.

oxidation (n) (marine eng) oksidacija

oxide /ˈɔksaid/ oksid ~ film sloj oksida

oxidizing substances and organic peroxides /ˈɔksi daizɪŋ/ (n) (cargo) oksidirajuće tvari i organski peroksidovi

oxigen content recorder (n) (cargo handling, safety) pisač količine kisika
oxygen /ˈɑksɪdʒən/ (n) (chem) kisik
oxygen analyzer /ˈɑksɪdʒən/ (n) (cargo handling) analizator kisika fixed and portable ~ ugrađeni i prijenosni analizatori kisika

oyster (n) (fishing) Lat. Ostrea edulis kamenica, oštriga
pack (v) (cargo) nabiti, sabiti, stisnuti, složiti u hrpu
pack* (n) (oceanogr) plovac, plutajući led, pomični morski led
package /ˈpækidʒ/ (n) (cargo, shipping econ) cargo packaged as a single unit; cargo representing a single unit of cargo in transport kolet, kolo, pošiljka tereta, jedinica tereta, komad tereta: The package must be clean and unbroken, and must not display any old, confusing markings. Not much is required of the packaging during the flight.

kolet, teži kolet
packaged goods (n) (shipping econ) (cargo) pojedinačni koleti ili odvojene jedinice tereta u pošiljci koleti, denčani teret, denčana roba, pakirana roba
packaging (n) = packing (cargo handling) Basically, packaging performs the following three basic functions, which we may call the three P’s of packaging, namely: protection, preservation and presentation. A package should protect and preserve the contents during storage and transit from the harvesting (for agricultural products), manufacturing (for manufactured goods) or mining (for ore or other mineral products), to the consuming centre. (http://generalcargoship.com/cargo-packaging.html)
pakiranje (tereta), pakovanje (tereta), ambalaža: if you are considering using more ornate or softer packaging, make sure that first of all the packaging does the job of protecting the item. Choosing a box or crate that can’t bear the weight of the cargo item may damage the packaging.

pack-ice (n) (oceanogr) pomični morski led promjenjiva oblika plovac
packing /ˈpækɪŋ/ (n) (shipping econ) = packaging pakiranje (tereta), pakovanje, ambalaža: When shipping internationally, consider shipping goods in sturdy packing to an interim destination. method of ~ vrsta pakovanja

packing /ˈpækɪŋ/ 1 (shipping econ, cargo) = package komad tereta, jedinica tereta, kolet, kolet; 2 (shipping econ, cargo handling) pakovanje, ambalaža

packing /ˈpækɪŋ/ 1 (marine eng) A class of seal of flexible material used to seal two parts which move in relation to each other. (http://www.marinedieseleurope.com/); A general term applied to a yielding material employed to effect a tight joint, also called gasket material. (https://www.history.navy.mil/)

brtvo, brtva, brtveni uložak, brtveni materijal stern gland ~ brtva šupernice, brtva očnice, stuffing box ~ brtvo brtvene, brtva brtvene, stern tube ~ brtva statvene cijevi, propeller shaft ~ brtva propelerske osovine, rudder ~ brtva osovine kormila, braided-synthetic ~ brtvena pletenica od sintetičkog vlakna, trinela od sintetičkog vlakna, sintetička trinela, pure graphite ~ grafitno brtvo, flax plus teflon ~ brtvo od lana i teflona; 2 brtvlenje

packing /ˈpækɪŋ/ methods of ~ načini pakiranja, vrste ambalaže (shipping econ) pakovanje, ambalaža, pakiranje

packing box = stuffing box brtvenica

packing list (n) (shipping econ) list of packages for each shipment, showing individual breakdown in weights/measure and quantity popis koleta (tereta), lista pakovanja

paddle /ˈpædəl/ (n) (boating/yachting) lopatica za veslanje

paddle-box (n) (nav arch) kućište pogonskog točka

paddle-wheel (n) (nav arch) pogonski točak, pogonsko kotač, pogonsko kolo ~ arms palci točka, ~ floats lopatice točka, ~ rims vijenac točka, ~ shaft osovina točka

paddling (n) (seamanship) veslanje lopaticom

pad eye /ˈpæd.ai/ (=padeye) (n) (cargo handling, nav arch) = eye pad a fitting welded to a
deck or bulkhead. It has an eye to which lines or tackle are fastened and are used for securing or handling cargo. **ušica (na palubi) za privezivanje tereta, očet:** As a result, the **deck pad eyes** failed and the 80 tonne ‘A’ frame fell backwards onto the wheelhouse and the main deck.

---

**pagrus** *(fishing)* lat. *Pagrus pagrus* **porodica sparidae, pagar**

---

**paint** */ˈpeɪnt/* *(seamanship)* **boja, pitura, farba, Italian:pittura; vernice**

**Paraffinic-based fuel** (n) (marine eng, environ) **goriva na parafinskih bazi**: 2020 fuels will be predominantly **paraffinic-based** or aromatic-based and will come with different viscosity, pour point and CAT Fines level. www.safety4sea.com

**Parallax** /ˈpærəˌlæks/ (n) (navig) **paralaksa**

**Parallel courses** (n) (navig) **uspoređni kursovi, paralelni kursovi**: the ships came alongside each other on almost **parallel courses**

**Parallel indexing** (n) (navig) A technique used as a measure to monitor the progress of a vessel on the track and to minimise the cross track distance and to keep vessel at a safe distance from the shoreline or rock. ([https://www.marineinsight.com/](https://www.marineinsight.com/)) **ucrtavanje dužine paralelnih s**
parallel index lines (n) (navig, electr) radarsko smjeralo s urezanim paralelnim crtama
parallel midbody (n) (nav arch) paralelni srednjak
parallel moddle body (n) (nav arch) paralelna sredina

parallel rulers (n) (navig) usporedna ravnala
parallel sweep search (=PS) (n) (navig, safety) SEE search pattern traganje

po usporednim stazama
parallel track limiters (n) (navig) COMPARE diverging limiters usporedni graničnici
paramount clause /ˈpɑːrəˌmaʊnt/ (n) (mar law) Clause in a Bill of Lading or Charter-Party which stipulates that the contract of carriage is governed by the Hague Rules or Hague-Visby Rules or the enactment of these rules of the country having jurisdiction over the contract.
parcel /ˈpaːsəl/ (n) 1 (shipping econ) departed part of cargo, especially oil, which is all of one nature or is for one consignee or port dio pošiljke, djelomični teret, dio ukupne količine tereta: Fuel oil ~ for Exxon is 5000 tons dio tereta goriva za Exxon iznosi 5000 tona A chemical tanker had discharged parcels of cargo at a port in the Middle East and was outbound through a narrow channel to sea. ; 2 (shipping econ) kolet, paket, pošiljka, jedinica tereta
parcel (n) (boating/yachting, seamanship) material wrapped around a line to prevent chaffing
omot konopa (zaštita od trenja)

parcel (n) (cargo, shipping econ) pošiljka (tereta) single ~ pošiljka s teretom za istoga primatelja, multiple ~ pošiljka s teretom za različite primatelje pošiljka s teretom za više primatelja
SINGLE PARCEL WITH CARGO IN ALL HOLDS FOR ONE CUSTOMER

CARGO HOLD No.5
CARGO HOLD No.4
CARGO HOLD No.3
CARGO HOLD No.2
CARGO HOLD No.1

MULTIPLE PARCELS WITH CARGOES IN DIFFERENT HOLDS FOR DIFFERENT CUSTOMERS

parcel box (n) (cargo handling) type of packaging used to protect the goods in parcels kutija (vrsta ambalaže za pošiljke) double-walled and reinforced ~ kutija ojačana s dvostrukim stijenkama: If you are sending parcels internationally, investing in double-walled or reinforced parcel boxes should be a new standard for your business at a minimum

https://shippingandfreightresource.com/ sanduk ojačan s dvostrukim stijenkama

parcel tanker (n) (nav arch, shipping econ) COMPARE parcel a tanker designed to carry an assortment of liquids, as chemicals, or different grades of a liquid, as petroleum, at one time; tanker equipped to carry several types of cargo simultaneously; A chemical tanker with many segregated cargo tanks to carry multiple grades of chemicals as defined in the International Bulk Chemical Code. Typically these can have between 10 and 60 different tanks

(http://www.ihsfairplay.com/About/Definitions/definitions.html) tanker za naftu i derivate,

parcel tanker: The term parcel tanker has no precise meaning, but it is frequently applied to highly specialized ships designed to carry highly specialized liquid cargoes (which often have severe hazards as regards toxicity, corrosiveness, inflammability, or a combination of these, or which must be kept free from all contamination) in relatively small cargo lots, perhaps with a minimum of some 500 tons

https://magazines.marinelink.com/Magazines/MaritimeReporter/197801/content/parcel-tanker-trades-209627 (A) a cargo-carrying capability consisting of individual cargo tanks for bulk chemicals that-- (i) are a permanent part of the vessel; and (ii) have segregation capability with piping systems to permit simultaneous carriage of several bulk chemical cargoes with minimum risk of cross-contamination; and B) a valid certificate of fitness under the International Maritime Organization Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk.

https://definitions.uslegal.com/c/chemical-parcel-tanker/ Knutsen OAS Shipping owns and operates highly advanced parcel tanker, built in Spain. This parcel tanker have up to 34 segregated tanks and is therefore able to carry 34 different products on a voyage

parking area (n) (cargo handling) prostor za vozila (u ro-ro brodu, trajektu):
The cause of the fire has yet to be determined but the coastguard said it might have started in the parking
parrel (ˈpærəl) (n) (nav arch, boating/yachting) a movable loop, used to fasten the yard to its respective mast (http://www.nauticed.org/sailingterms) obruč križa

https://www.q-files.com/history/pirates-galleons/sailing-a-galleon/

parrel cleat /pærəl/ (n) obruči križa spojeni hajmicom

part  1 komad; 2 strana; 3 dio, element fixed ~ fiksni element, nepomični dio, spare ~s rezervni dijelovi, stationary ~ nepomični dio

part: (seamanship) to break puknuti (o užetu): The first two attempts failed because the tow line parted on each occasion. The rope was found to have parted at a point about 14 metres from the eye.

cut the line parted uže je puklo: The mooring lines of the cruise vessel parted due to strong gale. He was struck by an HMPE mooring line that had parted during a berthing operation. https://gCaptain.com

cut parted line puknuto uže

partial awning deck /ˈɔː.nɪŋ/ (n) 1 (nav arch) manevarska paluba: She had a partial awning deck, with a well aft extending from the engine room bulkhead to the break of the poop, which was 86 feet long. http://www.plimsoll.org/resources/scclibraries/wreckreports2002/21052.asp; 2 (nav arch) paluba s ceradom (na putničkom brodu)

partial awning deck vessel (n) (nav arch) brod s djelomičnom manevarskom palubom

partial bulkhead (n) (nav arch) A term applied to a bulkhead that extends only a portion of the way across a compartment. They are generally erected as strength members of the structure.
partial floor

djelomična pregrada
partial floor (nav arch) djelomična rebrenica
particle /paː.tikəl/ (marine eng) čestica fine ~s 1 sitne čestice; 2: the oil broke into fine particles
particular average /pəˈtɪkjuələr/ (mar law) Particular average comprises the costs and/or damage that are exclusively payable by the shipowner whose vessel is damaged (e.g. storm damage) or by the owner of the cargo that has been damaged (e.g. as a result of a leak).
https://www.logisticsglossary.com/term/particular-average/; A marine insurance term meaning a partial and not total loss suffered by an insured. (Particular means percentage and average means loss.)
posebna havarija, partikularna havarija
particulars /pəˈtɪkjuəlz/ (nav arch) podaci o nečem contain ~ about sadržati podatke o, main ~ (nav arch) osnovni podaci o brodu
particulate matter (=particulates) (marine eng) Particles formed by incomplete combustion of fuel. Compression ignition (diesel) engines generate significantly higher PM emissions than spark ignited engines. The particles are composed of elemental carbon, heavy hydrocarbons (SOF), and hydrated sulfuric acid (“sulfate particulates”). (http://www.marinedieseleurope.com/) usitnjene tvari Diesel ~ Sub-micron size particles found in diesel exhaust.
(http://www.marinedieseleurope.com/) usitnjene tvari u ispuhu dizelskog motora,
Diesel particulate filter pročistač ispuha dizelskog motora
partition bulkhead /paːˈtɪfən/ (nav arch) odvojna pregrada, razdjelna pregrada
Partlow chart (cargo handling) A chart that indicates the temperature reading in a reefer container. (http://www.maerskline.com/en-jm/help/shipping-glossary) dijagram temperatura u kontejneru
partners (boating/yachting) Similar pieces of steel plate, angles, or wood timbers used to strengthen and support the mast where it passes through a deck, or placed between deck beams under machinery bed plates for added support. klinovi otvora na palubi za prolaz jarbola (na krstušu i manjim jedrilicama)
partnership (mar law) partnerstvo, partnersko društvo general ~ javno trgovačko društvo; limited ~ komanditno društvo; 2 ortakluk
party (safety) A group having a common temporary assignment or purpose, as working party, cargo handling party, line handling party (http://www.quarterdeck.org/index.html) grupa, tim, ekipa, ruka: the Master ordered for a party consisting of the C/O, C/E and a seaman to internally inspect the damage mooring ~ privezivačka grupa, privezivačka ruka
pascal /peɪˈskæl/ (phys) the SI unit of pressure used to quantify internal pressure, stress pascal (Pascal’s Law) (phys) Pressure applied anywhere to a body of confined fluid is transmitted undiminished to every portion of the surface of the containing vessel. All hydraulic engine systems utilize this principle. In practice, it means that a piston with small area can exert an equal pressure on a larger area actuator. (http://www.marinedieseleurope.com/) Pascalov zakon
pass (v) 1 (navig) prolaziti, ploviti pokraj, proći: he fell asleep while the vessel was ~ing the peninsula of ... The containership adjusted her course to pass the tanker on the port side. ~ clear
passage plan

**passage plan**

**passage of front**

**passage management**

---

**ahead proći slobodno po pramacu:** The OOW initially assessed that there was sufficient room for his vessel to pass **clear ahead of the red vessel**, ~ port to port / starboard to starboard **proći desnim bokovima:** With the vessels now about seven cables apart, he contacted the ferry via VHF and proposed that they should **pass starboard to starboard.** 1 proći; 2 preći; 3 (boating/yachting, seamanship) provući (uže/konop)

**pass** 1 (mar law) dozvolu shore ~ dozvolu za izlazak (s broda) u grad, issue a shore ~ izdati dozvolu za izlazak s broda u grad/luku; 2 (geogr) prolaz (morski); 3 prelaženje, prolaz: The OOW informed his own captain that the oil tanker would not allow a **starboard pass.**

**pass abeam of (n) (navig) proći bočno od:** At 0021, the ship **passed abeam of** Cap Hatteras on a heading of 273° in a position 0.5nm to the east of the ... buoy.

**passage** /pəˈseɪdʒ/ (n) 1 (navig) COMPARE voyage plovidba broda: The root cause of the accident was the deviation from planned track during the critical final stage of the passage the vessel continued on its short passage towards the discharge port The ship was on **passage between** Teesport, UK and Rochefort, France, loaded with fertiliser. The cargo vessel was on passage from Denmark to UK with a cargo of sawn timber. The ship arrived at the pilot station off Jebel Ali, following a 10-day passage from Singapore. In December of ____, a large container vessel was on passage in the Pacific Ocean, when it was noticed that the fuel oil was contaminated with water. (https://safety4sea.com/) **coastwise ~**

**plovidba uz obalu, lay out the ~ ucrtati putovanje:** Coastwise passages of a few hundred miles or less can be laid out directly on charts, either electronic or paper. **passage time**

**trajanje putovanja broda, ~ plan 1 plan plovidbe; 2 plan putovanja, ~ to the berth plovidba do pristana / veza:** Passage to the berth typically takes about 3.5 hours, **inbound / outbound ~ 1 uplovljenje / isplovljenje:** During the seminar the pilots conducted several inbound and outbound passages; 2; 2 a **putovanje broda;** 3 vijaj, vijađ; 4 **traversada,** putovanje, prijelaz (mora, oceana): On 1 August, at 0300, the vessel was on passage in the south-west traffic lane of the Dover Strait Traffic Separation Scheme (TSS). 5 **prolaž to give a clear ~ dati (brodu) slobodan prolaz:** In the Channel Precautionary Area all vessels greater than 220m length overall are required to be given a clear and unimpeded passage ahead when transiting through this area., on ~ from ... to ... u plovidbo od ... do ..., na putovanju od ... do ....: The ship was on passage from Teesport, UK to Marseille, France., on ~ between ... u plovidbi izmeđui, na putovanju između: The tanker is now on passage between Oslo tand Mumbai.

**passage** /pəˈseɪdʒ/ (n) 1 (marine eng) kanal, otvor, prolaz, hodnik annular ~ **prstenasti prolaz, drilled ~ zavojni otvor, zavojni kanal, oil ~ otvor za podmazivanje, w ater cooling ~ kanal za hlađenje vodom;** 2 (oceanogr) kanal, prolaz

**passage** (n) (geogr) prolaz (morski)

**passage management** (n) (safety, navig) provedba slijeda odluka donesenih tijekom plovidbe kojima se na siguran način ostvaruje cilj putovanja **upravljanje brodom, upravljanje putovanjem broda**

**passage of front** (n) (meteorol) prolazak fronte

**passage plan** (n) (navig) a comprehensive, step by step description of how the voyage is to proceed
from berth to berth, including undocking, departure, enroute, approach and mooring at the destination; Passage planning or voyage planning is a procedure to develop a complete description of vessel’s voyage from start to finish. The plan includes leaving the dock and harbor area, the enroute portion of a voyage, approaching the destination, and mooring. (MO RESOLUTION A.893(21) plan plovidbe, plan putovanja: positions were plotted as specified in the passage plan. The P&I club director added that having a proper passage plan, from berth to berth, with the latest available navigational warnings and corrections, is important. prepare ~ prepare plan plovidbe: the passage plan has been prepared, keep to the ~ držati se plana plovidbe, primjenjivati plan plovidbe: At approximately 2300, the ship’s master finished his night orders and advised the second officer to keep to the passage plan and to call him if in any doubt, amend the ~ ispraviti plan plovidbe, promijeniti plan plovidbe: Given the information received from Port Pilots, the master decided to amend the passage plan and proceed to a waiting position about 3 nautical miles (nm) east of the entrance to the port. port ~ plan plovidbe za luku: port passage plan information leaflet plan plovidbe pri ulazu u luku (izlazu iz luke) i informativni prospekt, original ~ prvotni plan plovidbe, originalni plan plovidbe passage plan check list (n) (navig) lista provjera za plan plovidbe, čeklista plana plovidbe passage planning (n) (navig) a description of the ship’s passage which is prepared by an experienced navigating officer of the ship (usually the Second Officer), and includes the required routes for reaching the port of destination. planiranje plovidbe, planiranje putovanja: Such conditions are commonly experienced within the area, were predictable and could have been avoided by effective passage planning. Passage planning (including drawing the courses) is prepared from berth to berth by the Navigation Officer in accordance with the Master’s directives and with the instructions given by the Charterer or the Ship Owner. https://www.pfri.uniri.hr/web/dokumenti/uploads_nastava/20180319_114839_maglic_USKUP passage planning navigation and watchkeeping (n) (navig) Stages of the passage plan: appraisal and risk assessment; planning; execution; monitoring planiranje plovidbe i obavljanja plovidbene straže: It is customary for the Master to delegate the duties of preparing the passage plan to the designate navigational officer (i.e. the second deck officer, who is responsible for navigational equipment and publications). Even after passage planning is complete, a good lookout is vital. https://www.nautinst.org/ Poor passage planning led to the accident. ECDIS ~ ECDIS Passage Planning and Watchkeeping presents individual chapters covering the configuration of ECDIS settings and each of the four stages of passage planning. pilotage /ˈpaiətɪdʒ/ (n) 1 (navig) peljarenje, pišta: Harbour pilotage is compulsory for vessels over 500 GT suspend ~: NSW Ports Authority suspended pilotage for Port Botany and Sydney Harbour due to heavy swell and gale force winds., vessel ~ to pilotage brod koji podliježe peljarenju, brod koji mora imati peljara, ocean ~ peljarenje na otvorenom moru, coastal ~ dužobalno peljarenje, compulsory ~ obvezno
The requirements for compulsory pilotage in the Port of London are contained in the PLA’s Pilotage Directions. Pilotage is compulsory within its pilotage limits for all vessels of 61m or more in length.

Pilotage is compulsory within its pilotage limits for all vessels of 61m or more in length.

The skills development programme included the conduct of acts of pilotage on a variety of vessels under the close supervision of experienced licensed pilots.

At this place the sea pilot will board the vessel and take over the pilotage from the river pilot.

Pilotage involves navigating in restricted waters with frequent determination of position relative to geographic and hydrographic features. It is used when the ship is within sight of land. (Bowditch 2001)

Before the ship left the pilotage area, a low level alarm for the main engine lub-oil drain tank sounded.

The master and pilot exchanged information and completed the vessel’s Pilotage Check List.

For the purpose of the Pilotage Act 1987 and in pursuance of its powers under Section 7 of the said Act, hereby make the following Directions which come into force on 1 October 2003 and which supersede all previous Pilotage Directions.

In the Port of London the pilotage area is divided into pilotage districts, which are further subdivided into pilotage sections.

The pilotage district extends from its eastern limit at the Sunk to Putney Bridge.

The master held a pilotage exemption certificate for the port and was very familiar with the channel, which he had navigated regularly for over 4 years.

The pilotage district extends from its eastern limit at the Sunk to Putney Bridge.

In pilotage waters, it may be appropriate to have available a forecast of the times, of alteration of course, speed and sets expected. At 1130, Houston Pilots suspended pilot boarding at the entrance channel due to fog.

At the entrance channel due to fog, required boarding arrangements for pilot
REQUIRED BOARDING ARRANGEMENTS FOR PILOT

In accordance with SOLAS Regulation V/23 & IMO Resolution A.1045(27)

INTERNATIONAL MARITIME PILOTS’ ASSOCIATION

Figure 4: Required Boarding Arrangements for Pilot poster
pilot boarding area

**pilot boarding area** (n) (navig) područje ukrcaja peljara: Navigation within the port encompassed the approach channel, the short-term anchorage and the pilot boarding area. Poor planning considerations caused the delay in weighing anchor, which in turn required a high speed approach to the pilot boarding area.

**pilot boarding point** (n) (navig) mjesto ukrcavanja peljara: At 2245, the vessel arrived at the designated pilot boarding point.

**pilot boarding position** (n) (navig) mjesto na brodu za ukrcaj peljara

**pilot boarding station** (n) (navig) peljarska postaja, pilotska stanica, mjesto ukrcaja peljara: At 2115 the vessel approached the pilot boarding station. ... the ship weighed anchor and proceeded to the pilot boarding station, where a little later, the port pilot boarded the vessel and went to the bridge. https://safety4sea.com

The ship has two designated pilot boarding stations.

**designated ~ određena peljarska postaja, propisana peljarska postaja:**

The designated pilot boarding station on board the vessel was in accord with IMO Resolutions A.667(16) and A1045(27). The designated pilot boarding station on the ship was not marked. ~ stanchions

**stupići peljarske postaje na ogradi broda:** The designated pilot boarding station on board the vessel did not accord with the dimensions stated in IMO Resolutions A.667(16) and A1045(27) as amended in that the stanchions were only 640mm apart, rather than the minimum 700mm, and were 1020mm in height, rather than the minimum 1200mm. www.gov.uk/maib

**pilot boat** peljarska brodica, pilotina: The vessel was making way at near nine knots in order to match the speed of the pilot boat and was sounding the prescribed fog signal. A pilot boat came alongside to pick up the pilot. A deckhand on board the pilot boat suffered serious injuries whilst the pilot boat was pulling away from alongside the container ship. On board the pilot boat were its coxswain, deckhand and the sea pilot www.gov.uk/maib

**pilot boat ~ nagli pad visine nadvoda broda:** The passing ship’s wash might have caused the pilot boat to drop relative to the cargo ship just as the sea pilot was attempting to step across.

http://www.aluminumnow.com/pilot.htm

**pilot boat on duty** (n) (navig) peljarski brod u službi (zvučni signal)

**pilot book** (n) (navig) peljar, portolan

**pilot briefing** (n) (navig) kratki dogovor s peljarom, kratko upoznavanje peljara s brodom, kratko informiranje peljara: The Master and pilot on vessel A carried out a pilot briefing and the pilot had received a copy of the pilot card. www.safety4sea.com

**pilot card** (n) (navig, mar law) obrazac s općim podacima o brodu, njegovu pogonu i manevarskim karakteristikama (za potrebe peljara); The pilot card, to be filled in by the master, is intended to provide information to the pilot on boarding the ship. This information should describe the current condition of the ship, with regard to its loading, propulsion and manoeuvring equipment, and other relevant equipment. (see IMO Resolution A.601(15) peljarski listić, peljarski obrazac, peljarska karta, pilotska karta: The pilot was given the vessel’s pilot card,
which detailed its manoeuvring characteristics. The master and pilot then discussed the departure plan. The ship’s pilot card was provided to the pilot during the master/pilot information exchange (MPX).

complete the ~ ipspuniti peljarski listić, hand over the ~ predati peljarski listić

https://maritimeprogress.com/product/pilot-card/

pilot certificate (n) (hum_resources, mar law) svjedodžba o osposobljenosti za peljara: PLA pilots were required to hold an STCW II/2 master’s certificate in addition to their PLA pilot certificate. www.gov.uk/maib

pilot change over (n) (navig) zamjena peljara, smjena peljara

pilot charges 1 cijena peljarenja, tarife za peljarenje; 2 troškovi peljarenja

pilot fitness (n) (med, safety) zdravstvena spremnost obavljanja dužnosti peljara, zdravstvena sposobnost obavljanja dužnosti peljara: IMO Resolution A.960(23) states that pilots should have a level of fitness that meets the same standards required by the STCW for seafarers. This is the ENG13 medical assessment standard for seafarers’ fitness, which is renewed biennially or as required following serious illness or injury. www.gov.uk/maib

assessment of ~ provjera zdravstvene spremnosti peljara

pilot hoist (n) (nav arch) The pilot hoist shall be designed to operate as a moving ladder to lift and lower one person on the side of the ship, or as a platform to lift and lower one or more persons on the side of the ship. It shall be of such design and construction as to ensure that the pilot can be embarked and disembarked in a safe manner, including a safe access from the hoist to the deck and vice versa. Such access shall be gained directly by a platform securely guarded by handrails. peljarsko vitlo, peljarsko dizalo, peljarski lift, dizalo za peljara: A pilot boarding hoist is raised by a power winch. The mechanical pilot hoist should be designed to operate as a moving ladder, or as a platform, to lift and lower one person on the side of the ship. Case 1 deals with the failure of a pilot hoist and happened to a pilot disembarking from a high sided vessel on the UK coast shortly before midnight. A mechanical pilot hoist should be so located that it is within the parallel body length of the ship and, as far as is practicable, within the mid-ship half length of the ship The starboard pilot hoist was used to lower the pilot to the waterline and it operated faultlessly
piloting /ˈpaiəlɪŋ/ (n) 1 (navig) the act of guiding a ship (in and out of the port) through near shore hazards by a pilot; Branch of the science of navigation in which positions are determined by reference to visible objects on the surface or by sounding. (http://www.quarterdeck.org/index.html) a peljarenje, pilotaža; 2 (navig) determining ship’s position and directing her course by means of bearings to landmarks or by buoys and soundings when in sight of land (by eyesight or radar) obalna navigacija, terestrička navigacija

pilot ladder (n) (nav arch, safety) peljarske ljestve, jakovljice, jakubice, boškaina; Italian: biscaglina: The pilot ladder had been rigged such that it was nearly 2 metres too long. The situation was made worse because the seaman, who was also the lookout, was also tasked to rig the pilot ladder alone. During my climb on the pilot ladder from the pilot launch up the ship’s side I noticed that one side of the ladder lengthened under my weight. ~ spreader (preventer step) ropes used at regular intervals of the pilot ladder and help to ensure that the ladder does not get twisted which would cause difficulty to the pilot rasponica, duža podnica, duža stepenica (protiv uvijanja peljarske ljestve), ~ manropes a rope which is present on both sides for physical hold of the person climbing or descending from the ship rukohvat od konopa, konop za rukohvat, ~ sideropes ropes used to hold the steps and take the weight of the climbers and the steps bočni konop, ~ steps / treads the steps obviously need to be made of non-slippery material and are also normally made of same material like the spreaders, except the last 3 steps which are made out of hard rubber podnice peljarske ljestve, stepenice (kraće), nogostupi: ALL STEPS Must rest firmly against ship’s side, climb the ~ penjati se uz peljarske ljestve: the job climbing a pilot ladder is not easy so there is a maximum limit to which the pilot is supposed to climb

https://www.brighthubengineering.com/seafaring/49172-role-of-pilot-ladder-on-ships/, rig the ~

postaviti boškainu, postaviti peljarske ljestve: A pilot ladder had been rigged, but the sea pilot attempted to board by stepping up and through an open gate in the railings onto Sunmi’s main deck www.gov.uk/maib The pilot ladder was rigged in accordance with the river pilot’s instructions. rig the ~ on the port / starboard side postavite peljarske ljestve na lijevu / desnu stranu (bok), ~ stanchions stupići peljarskih ljestava na ogradi broda (za prijelaz na palubu): ... the stanchions were only 640mm apart, rather than the minimum 700mm, and were 1020mm in height, rather than the minimum 1200mm.
pilot ladder rigging

pink dentex (n) (fishing) zubatac

pintle /'pɪntl/ (nav arch) the pins or bolts which hinge the rudder to the gudgeons on the stern post štenac kormila, osnac kormila rudder ~ štenac kormila, ~ holder nosač
The target pips are painted at their measured distance and in their directions relative to own ship's heading.
The piping was blocked with a mixture of fine sand and mud of a clayish texture. There are also considerable quantities of cargo piping both above and below decks.

Piracy is on the rise again after a brief lull. The waters of the Gulf of Mexico have suffered from sporadic incidents of piracy for a few years. Three seafarers have been kidnapped after piracy attack. A product tanker was attacked by a group of armed pirates on Tuesday while at an anchorage off the coast of ... Pirates boarded a fully loaded supertanker off the coast of ... The pirates approached the chemical tanker in two speedboats.
piston cooling jet 

(n) (marine eng) An oil jet which sprays the bottom side of the piston to cool the piston. (http://www.marinedieseleurope.com/), rashladni mlaz klipa

piston engine 

(n) (marine eng) klipni stroj, stapni stroj

piston head 

(n) (marine eng) glava klipa: Temperature measurements on the jet-cooled piston head indicated similar levels to those of the original piston, and even lower in some areas. A cast iron ring is fitted around each piston head to form a bearing surface.

piston pin 

(n) (marine eng) = gudgeon pin osovinica klipa, bolcen

piston pump 

(n) (marine eng) COMPARE plunger pump A piston pump is a type of positive displacement pump where the high-pressure seal reciprocates with the piston. A plunger pump is a type of positive displacement pump where the high-pressure seal is stationary and a smooth cylindrical plunger slides through the seal.

piston ring 

(n) (marine eng) klipni prsten, stapni prsten: An investigation into the incident revealed that the engines piston rings were well worn and that 4 out of 5 engine units required new piston crowns. https://safety4sea.com/ butt type ~ klipni prsten s ravnim krajevima, scarfed type ~ klipni prsten s kosim krajevima, lap type ~ klipni prsten s preklopnim krajevima, broken ~ puknuti klipni prsten

piston ring clearance 

(n) (marine eng) zračnost između krajeva klipnog prstena

piston ring opener 

(n) (marine eng) = ringlike otvarač klipnih prstenovna, otvarač prstenovna klipa, izvlakač klipnih prstenov
piston rod (n) (marine eng) stapajica, klijnjača
piston skirt (n) (marine eng) košuljica klipa
piston stroke (n) (marine eng) stapni takt
pitch (v) (navig, marine eng, ship handling) voziti prekretnim porivnikom ~ ahead
voziti naprijed (koristeći prekretni propeljer), zavoziti naprijed: The OOW moved the starboard azipod control lever to pitch ahead but the ship remained stationary. ~ astern
voziti natrag (koristeći prekretni propeljer), voziti krmom, zavoziti krmom
pitch (n) (navig, marine eng) vožnja (prekretnim porivnikom ili azipodom)
ahead ~ vožnja naprijed: Within a few minutes the engineer telephoned the bridge and informed the OOW that ahead pitch was available on the starboard azipod., astern ~ vožnja natrag,
vožnja krmom: The chief officer then applied full bow thrust to port and, on the master’s suggestion, applied astern pitch to the port propeller. His first reaction was to refloat the ship, so he put some astern pitch on the CPP., zero ~ prazan hod, ~ effect efekt koraka propelera, efekt prekretnog propelera ili azipoda
pitch (n) (seamanship) vertical rise and fall of a vessel’s bow and stern caused by a head sea or a following sea posrtanje
pitch (v) (seamanship) posrtati, fikat: The boat’s bow pitched down and the man, realising that he was in danger of falling onto the boat, decided to fall backwards onto the pontoon.
pitch (n) (nav arch) the distance a propeller will advance during one revolution through a solid medium not allowing for slip. korak propelera, Italian: passo d’elica ~ effect efekt
pitch (n) (boating/yachting, nav arch, sailing vessels) smola, paklina, pakal, pegula:

for caulking: smola za šuperenje / kalafatanje

pitch ahead (n) (navig, marine eng) vožnja naprijed (prekretnim porivnikom ili azipodom)
pitch astern (n) (navig, marine eng) vožnja natrag (prekretnim porivnikom ili azipodom), vožnja krmom (prekretnim porivnikom ili azipodom)
pitch effect (n) (ship handling) efekt koraka propelera

pitch hole (n) (inland waterways) A type of spectacular end-for-end capsize, in which the stern is catapulted over the bow.

pitch ahead (n) (navig, marine eng) vožnja naprijed (prekretnim porivnikom ili azipodom)
pitch astern (n) (navig, marine eng) vožnja natrag (prekretnim porivnikom ili azipodom), vožnja krmom (prekretnim porivnikom ili azipodom)
pitch effect (n) (ship handling) efekt koraka propelera

pitching /ˈpɪtʃɪŋ/ (n) (navig) COMPARE ship’s motions a vessel’s motion, rotating about the beam axis, so the bow pitches up and down posrtanje, Italian: beccheggio

pitch pole (n) (boating/yachting, safety) A type of spectacular end-for-end capsize, in which the stern is catapulted over the bow.

pitchpoling (n) (boating/yachting) prevrtanje krom preko pramca

pitting /ˈpɪtɪŋ/ (n) 1 the localized corrosion of iron and steel in spots, usually caused by irregularities in surface finish, and resulting in small indentations or pits (SeaSources.net) točkasta korozija, brazdasto korodiranje, jamasto korodiranje, piting; 2 a (marine eng) ljuštenje (rđe), piting; 3 točke / rupice nastale zbog korozije

pivot /ˈpɪvət/ (v) (marine eng) okretati se oko oslonca, gibati se u zglibu
pivot /ˈpɪvət/ (pivot) (n) 1 a (marine eng) os; 2 stožer; 3 hvatište; 4 zatik; 5 okretište ~ point okretna točka

pivot point /ˈpɪvət/ (=pivoting point) (n) (ship handling, navig) točka oko koje se brod okreće tijekom zakretanja; pivot point sits at the tangent of the turning circle and the axis of the ship and thus reflects the turning speed. (H. Boudu, p. 248) točka okretišta broda: The closer the
pivot point is to the centre of the ship, the smaller the turning radius becomes. H. Baudu (2014), p. 248
When turning while the ship makes headway the pivot point may be located approximately in the ship’s forward quarter. H. Baudu (2014), p. 254 In practice, if the ship is stopped, the pivot point merges with the centre of gravity at the middle of the ship. The position of the pivot point depends on a number of influences. With headway, the pivot point lies between 1/4 and 1/3 of the ship’s length from the bow, and with sternway, it lies a corresponding distance from the stern. A Master’s Guide to Shiphandling, 2nd ed., www.standard-club.com

pivot point točka okreša broda: Once the vessel was clear of the jetty the main engine was put half astern to move the pivot point aft, making it easier for the tugs to turn the vessel. (https://safety4sea.com/)

pivot point točka radarskog zaslona, čeli ja (radarskog zaslona), piksel

place (n) mjesto in ~ of umjesto, put measures into ~ uvesti mjere, uspostaviti mjere

place (v) smjestiti, postaviti

place of business (n) (mar law) sjedište (tvrtke)

place of issue mjesto izdavanja (isprave, dokumenta)

place of passage (n) (navig, inland waterways) mjesto prolaza (u kanalu, rijeci, …): ...in a narrow channel where there is a current and 2 vessels are meeting from opposite directions, “the vessel proceeding with the current or tidal stream shall be the stand-on vessel and shall propose the place of passage […]” and the side on which the vessel will pass. (The Canadian Modifications to the COLREGs) https://safety4sea.com

place of refuge (n) (safety) A place where a vessel in need of assistance can take action to enable it to stabilize its condition and reduce the hazards to navigation, and to protect human life and the environment. (IAMSAR/Camsar2014) mjesto zakloništa

place on (v) (marine eng) postaviti, montirati

plague /pleig/ (n) (med) kuga

plaintiff /ˈpleintif/ (mar law) ANTONYМ defendant tužitelj, podnositelj

tužbenog zahtjeva: Unless the claimant/plaintiff who seized the vessel acts in bad faith, the owner of the vessel may not recover damages due to the arrest or for loss of profits.

plan (n) plan Cargo ~ plan tereta, plan krcanja, outline ~ okvirni plan, skica

plane /plein/ (v) (boating/yachting) When a vessel skims over the surface of the water rather than moving through it. (http://www.apsLtd.com/aps-advisor/sailing-terms-glossary/) glisirati (jedrilicom)

planer (n) (marine eng) blanja, hoblerica

planing /ˈpleinɪŋ/ (n) (boating/yachting) a boat moving over the top of the water rather than through
the water; exceeding theoretical hull speed by skimming the water glisiranje (jedrilice), planiranje plank/plæŋk/ 1 (cargo, seamanship) deblja daska, planka, tavalon, podnica; 2 (nav arch, sailing vessels, boating/yachting) trenica (drvenog broda), platica (drvenoga broda), madir garboard ~s dokobilične trenice / planke, garboard ~ dokobilična platica planked boat (=c) (nav arch, boating/yachting, archaic) SEE carvel planking a method of boat building where hull planks are laid edge to edge and fastened to a robust frame, (en.wikipedia.org › wiki › Carvel_(boat_building) ; carvel boat drvena brodica (s oplatom od trenica), drvena barka (s oplatom od trenica), drveni čamac (s planking (n) 1 (nav arch) broad planks used to cover a wooden vessel's sides; also covering the deck beams https://officerofthewatch.com/tools/maritime-dictionary/ vojevi drvene oplate, madiri (ribarske brodice itd.); 2 drvena oplata hull ~ drvena oplata trupa: The engineer noticed an apparent ingress through hull planking in way of the starboard fuel tanks. Strojarski časnik opazio je očigledan prodor vode kroz vojeve oplate trupa u području desnih tankova goriva, bottom ~ drvena oplata dna, deck ~ drvena oplata palube, side ~ drvena bočna oplata, topside ~ oplata mrtvog boka, outside ~ vanjska drvena oplata, outer ~ vanjska drvena oplata, inner ~ planks attached to the inner side of the frames unutrašnja oplata plank repair (=plank replacement) (n) (boating/yachting, sailing vessels, nav arch) obnova platice, obnova madira, zamjena madira planksheer (n) (sailing vessels) vanjska sržnica planned cruise (n) (navig) planirano putovanje (putničkog broda): The passenger vessel left port for a planned three-hour cruise in the Thousand Islands area of the St. Lawrence River. planning (n) (boating/yachting) A boat rising slightly out of the water so that it is gliding over the water rather than plowing through it. https://www.ypiyachts.com/ planiranje (jedrilice), klizanje (jedrilice po površini mora) ~ speed brzina potrebna za planiranje jedrilice planning stage (n) (safety) COMPARE operations stage A period during a search and rescue incident when an effective plan of operations is developed. (IAMSAR/Camsar2014) faza planiranja operacije potrage i spašavanja plan position indicator (=PPI) (n) (navig) The plan position indicator (PPI), or display console, is the heart of the tactical display system. The PPI console allows its operator to view the inputs from the ship's sensors (radar/sonar/IFF) and tactical symbology, to operate in the desired program mode, and to communicate by voice with other consoles, ship's spaces, or remote ships and aircraft.

play (n) 1 (marine eng) zračnost; 2 zazor

plead guilty (v) (mar law) to admit responsibility priznati krvicu, priznati se krivim:
The Master of the vessel pleaded guilty to violation of the Act to Prevent Pollution from Ships under the terms of a plea agreement... https://gCaptain.com the latest shipping company to plead guilty in U.S. federal court to violations of the Act to Prevent Pollution from Ships related to unlawful discharges at sea. https://gCaptain.com

pleasure boat (n) (nav arch) brodica za razonodu https://www.tes.com/lessons/iaoGHt1NB7PEFA/copy-of-thingies-boat-s-parts

pleasure craft /plezə kraːft/ (=pleasure craft) (n) 1 (nav arch) in a marine context, are all boats used for recreational not commercial purposes. Though the word craft applies to all sizes of vessels, by convention pleasure craft are boats, and most commonly are small to moderate sized boats, under approximately 80 feet (24.3 meters) LOA. Though the term craft applies to all vessels operating in a fluid medium, the term pleasure craft is only used when applied to boats. (http://www.westlawn.edu/student_center/definitions.asp) brodica za razonodu: A 6m, white-hulled, low freeboard pleasure craft was at anchor and engaged in sea angling. Soon after, the crew were able to re-embark, the tow was slipped and the pleasure craft made her own way downriver. Besides, some equipment is mandatory for pleasure vessels of 13.7m in length and over which are classified in the Merchant Shipping Regulations as Class XII vessels. https://Safety4sea.com

pledge /ˈpledʒ/ (n) (mar law) zalog, zaloga
pliers /ˈplaɪəz/ (n) (marine eng) kliješta, pince, Italian:pinze
Plimsoll line /ˈplɪmsəl/ (n) (nav arch, logist) = Plimsoll mark A mark painted on the side of merchant vessels showing the various draught levels to which the ship may be loaded, usually including tropical fresh water, fresh water, tropical sea water, summer sea water, winter sea water and (for vessels under 100 meters in length) winter North Atlantic Ocean water. Plimsollova linija

Plimsoll mark /ˈplɪmsəl/ (n) (nav arch) oznaka na boku broda koja označava najveći dopušteni gazi: a mark painted on the sides of vessel designating the depth to which the vessel may, under the
maritime laws, be loaded in different bodies of water during various seasons of the year (SeaSources.net)

**Plimsolova oznaka, oznaka nadvođa:** A Plimsoll mark is identified by a circle on the vessel's side with a vertical line through and a number of small horizontal lines showing the max depth for summer and winter. **Summer Mark-S Ijetna oznaka, Tropical–T Nadvođe za putovanje tropskim vodama, Fresh–F oznaka nadvođa u slatkoj vodi,**

**plot** (v) (navig) ucrtati (u kartu), plotirati, Italian: *fare il punto:* At anchor, plot the vessel's position on the largest scale chart available. Soon afterwards, the second officer plotted the vessel's position on the chart and initiated a planned alteration of course from 110° to 118° using the autopilot.

~ the ship's position 1 ucrtati poziciju broda; 2: positions were plotted at frequent intervals, ~ the course crtati kurs, povlačiti kurs, ~ the movement of all ships relative to own position ucrtavanje (na radaru) kretanja svih brodova u odnosu na poziciju vlastitog broda: Press the key to start plotting., ~ a fix on the chart ucrtati dobivenu poziciju na karti: On his return, he plotted a fix on the chart at 1930 using a radar range and bearing of a nearby fairway buoy.

**plotter /ˈplɔtər/ (n) 1 (navig) navigacijsko ravnalo; 2 patentni dvokut, plotter**

**plotting /ˈplɔtɪŋ/ (n) (navig) ucrtavanje (u nautičku kartu), plotiranje,**

**plotovanje: Plotting of targets should be done at longer range. radar ~ radarsko plotiranje, crtanje manevarskog dijagrama, ~ tool (boating/yachting)**

*sredstvo za ucrtavanje:* ... then on the chart, align your plotting tool to that relative bearing and move it to intersect the charted feature, ~ of targets ucrtavanje objekata (brodova itd.), plotiranje objekata

**plotting aid (n) (navig) pomagalo za ucrtavanje, pomagalo za plotiranje**

**plotting chart (n) (navig) karta za ucrtavanje, karta za plotiranje**

**plotting diagram (n) (navig) dijagram plotiranja (na radaru)**

**plotting equipment (n) (navig) oprema za crtanje chart table navigacijski stol, parallel rulers usporedna ravnala,, plotters navigacijsko ravnalo, dividers navigacijski šestar, pencils olovke, compass šestar**

The vessel will also feature a complete ABB Integrated Automation System and three Azipod propulsion units. Three minutes after grounding an engineering alarm sounded and the OOW placed both Azipod control levers to zero. Accordingly, the OOW moved the starboard Azipod control lever to pitch ahead but the ship remained stationary. Within a few minutes the engineer telephoned the bridge and informed the OOW that ahead pitch was available on the starboard Azipod.

The Rolls-Royce electrical pod, type Mermaid, propulsion system offers flexibility in machinery and vessel arrangement, and gives improved efficiency and excellent manoeuvrability. Point 1 (n) one of the 32 divisions of the compass card; A unit of bearing equal to one thirty-second of a circle, i.e., 11.25°. A turn of 32 points is a complete turn through 360°. (https://en.wikipedia.org/wiki/Glossary_of_nautical_terms) Zraka kompasa; 2 vjetar (iz podjele kompasa na ruže kompasa), smjer: How near will she point? Six? I doubt she’ll do as well as six, Sir. P. O’Brian Master and Commander, HarperCollinsPubl. 1970 (2003) two ~s on the straboard bow dva vjetra po pramacu s desne strane (tj. oko 23 stupnja), dva prsta desno po pramacu: Target vessel was sighted visually at 111 deg 5 about 4 points on port bow at distance of 8 miles.

Point (v) 1 (boating/yachting) = luff: bježati u vjetar, nekontrolirani prihvaćati; 2 to head close to the wind; to sail as close as possible to the wind. Jedriti oštro u vjetar

Pointed comber (=greater weaver) (n) (fishing) Lat. Serranus scriba pirka, vuk, pjerka, perka

Pointer /ˈpɔɪntər/ (n) pokazivač, kazaljka, indikator
Pointing (n) (boating/yachting) = close reaching jedrenje uz vjetar
Point of interception (n) (navig) sjecište, točka presijecanja
Point of sail (=points of sail, points of sailing) (n) (boating/yachting) smjer kretanja jedrilice u odnosu na vjetar; The position of a sailboat in relation to the wind.
(u odnosu na smjer vjetra): The catamaran is fastest on all \textit{points of sailing}, with the greatest gains on beam- and broad-reaching courses. When you change from one \textit{point of sailing} to another, the sails, the centreboard, and the position of the crew all need to be adjusted to set the new angle of the boat in relation to the wind.

Point to Port Rate \textit{(n) (mar law)} Point to Port Rate - Freight rate which includes all costs from inland place of the exporting country to the port of discharge in the importing country.

poison \textit{(n) (cargo, safety)} a substance which is harmful to human beings (or environment). A substance is classified as a poison if there is a risk of death or serious bodily harm after oral intake, inhalation or skin contact.

poisonous \textit{(adj) otrov}

polar easterlies /ˈpəʊlər eɪstərlɪz/ \textit{(meteorol)} polarni istočni vjetrovi

polar expedition ship \textit{(n) (nav arch, shipping econ)} brod za polarna kružna putovanja: Europe’s newest mega-cruise ship builder 

\textit{MV Werften} says it has signed of Letter of Intent to build two \textit{Polar-class luxury expedition vessels} for Crystal Cruises.

Polar orbiting satellite service \textit{(n) (safety)} a service which is based on polar orbiting satellites which receive and relay distress alerts from satellite EPIRBs and which provides their position (COMSAR 14.4)

pole /ˈpɔl/ \textit{(n) 1} a stup; 2 kolac, motka, štap

pole /ˈpɔl/ \textit{izdanak (jarbola) skysail ~ izdanak jarbola}

pole /ˈpɔl/ \textit{(boating/yachting) tangun, Italian: tangone}

pole and line fishing \textit{(n) (fishing)} Pole and line fishing is a traditional method by which predatory fishes are captured one-by-one on hook and line.
pole mast (n) (nav arch) nastavak jarbola
Pole Star /ˈpoul/ (navig) Sjevernjača
police boat /pəˈliːs,beʊt/ (n) (nav arch) policijski brod
policy /ˈpɒlɪsi/ (n) (mar ins) polica osiguranja unvalued ~ nevalutirana polica,
floating ~ otpisna polica
poling out /ˈpəʊliŋ/ (boating/yachting) zatezanje jedra (kako bi se ubrzalo
kretanje niz vjetar)
polling (n) (navig) traženje podataka o odabranom brodu (u sustavu AIS)
polluter /pəˈluːtər/ (n) (safety) onečišćivač, zagađivač
pollution /pəˈluːʃən/ onečišćenje, zagađenje, policija: A major oil pollution occurred
as a result of the grounding Uslijed nasukanja došlo je do većeg onečišćenja mora. A Coast Guard
overflight Monday confirmed no pollution. The crew is in no danger as a result of this incident and there
has been no pollution. A cargo ship which ran aground has been refloated, with no pollution reported. The
Coast Guard reported Sunday that the vessel had been refloated. No pollution or injuries have been
reported as a result of the incident. www.gCaptain.com Take control of a possible pollution! Both vessels
were damaged but there was no pollution or injury. MAIB ~ risk 1 opasnost od
onečišćenja: there was no pollution risk; 2: No damage was sustained and no oil pollution occurred
as a result of the grounding, avoid ~ izbjeći onečišćenje, izbjeći zagađivanje: In
order to avoid pollution stop cargo, bunkering, all cargo/fuel transfer operations and internal transfer.
(https://safety4sea.com/)
pollution and salvage response (n) (environ, safety) reakcija na onečišćenje i
poziv za spašavanje, intervencija u slučaju onečišćenja i poziva za
spašavanje: The U.S. Coast Guard and partner agencies continue pollution and salvage response
for the vessel .... https://gCaptain.com

ugovor o osnivanju brodarskog poola (u slobodnoj / tramperskoj plovidbi) ~ B POOLCON B is designed for use by tramp pools operating in the dry and liquid bulk trades under contracts of affreightment, spot or time charters to third parties. It governs the relationship between owners entering their ships into the pool and the pool managers and regulates administrative and procedural matters covering pool operations together with the allocation of respective party liabilities and obligations. As an agency agreement, there is no time charter relationship between participants and pool managers. The latest edition of this contract is POOLCON B, issued in 2014. (https://www.bimco.org/search-result?term=POOLCON%20B)

ugovor o osnivanju brodarskog poola (u slobodnoj plovidbi) - tip B, ~ A POOLCON A is designed for use by tramp pools operating in the dry and liquid bulk trades under contracts of affreightment, spot or time charters to third parties. The purpose of the agreement is to achieve the benefits of efficiency for users and their customers without creating restrictions on trade. Pool members' ships are time-chartered to the pool and it is the underlying time charter that provides the basis of the trading relationship between the ship owner and the pool. The latest edition of this contract is POOLCON A, issued in 2012. (https://www.bimco.org/search-result?term=POOLCON%20B)

pooling (n) (shipping econ) 1 (mar law) dijeljenje profita ili gubitka na vozarinama (u brodarskim konferencijama), učešće u profitu ili gubitku na vozarinama (u brodarskim konferencijama); 2 (shipping econ, mar law) objedinjavanje brodara (u slobodnoj plovidbi) pooling agreement (= (shipping) pool agreement; (shipping) pool contract) (n) (shipping econ, mar law) SEE pool SEE POOLCON sporazum (ugovor) o osnivanju brodarskog poola (u slobodnoj plovidbi), sporazum (ugovor) o osnivanju brodarskog pula (u slobodnoj plovidbi)

poop /pu:p/ (n) 1 (nav arch) the structure or raised deck at the after end of a vessel krmina, kasar; 2 krmeno nadgrađe

poop deck /pu:p/ (n) (nav arch, boating/yachting, sailing vessels) a partial deck at the stern above the main deck krmina, krmnica, kasar, paluba krme:

All synthetic moorings aft parted due to blazing fire on poop deck. It was standard practice on board a small UK tanker to rig a gangway from the poop deck. The deck officer in charge of the poop deck was engaged in making fast one of the tugs with its line.

pooped (n) (boating/yachting) having a wave wash over the stern of the boat

https://www.ypiyachts.com/ propeta krma

pooping /'pu:piŋ/ (n) (seamanship) propinjanje krme
poor cod (n) (fishing) pišmolj, pišmoljić
popper (n) (fishing) a fishing lure in a variety of sizes and colours. The body is hollow, which keeps it on the waters surface. As the user jerks the rod the lure pops along the surface; šuplja varalica koja poskakuje na površini mora i stvara mjehuriće te stvara zvuk pop, pop poper
poppets /ˈpɒpɪts/ (n) (nav arch) Those pieces of timber which are fixed perpendicularly between the ship's bottom and the bilgeways at the foremost and aftermost parts of the ship, to support it when being launched. They are parts of the cradle. potporni stupići pod pramacem i kromom (pri porinuću)
porgy /ˈpɔrɡi/ (n) (fishing) pagar
porpoise /ˈpɔrpoʊɪs/ (n) pliskavica
port /ˈpɔrt/ 1 = seaport = harbour the harbour and the adjacent town or city suitable for loading goods and embarking men; an area on both land and water, whether on the sea or river, that provides facilities for shipping vessels to load and unload their cargo (http://www.portinfo.co.uk/port-information/our-blog/247-what-s-the-difference-between-a-port-harbour-and-terminal): The port of Shanghai is the busiest port in the world. a (n) luka loading ~ luka ukrcaja, discharging ~ luka iskrcaja, enter the ~ ući u luku, uploviti u luku, leave the ~ napustiti luku, isploviti iz luke, wait off the ~ čekati izvan luke (o brodu), principal ~ glavna luka, international ~ međunarodna luka, luka za međunarodni promet, inner ~ unutrašnja luka, tidal ~ plimna luka, river ~ riječna luka, riverine ~ riječna luka, convenient ~ povoljna luka, safe ~ sigurna luka, free ~ slobodna luka, leisure ~ sportska luka, outer ~ vanjska luka, multi-purpose ~ višenamjenska luka, congested ~ zatvorena luka, jammed ~ zakrčena luka, transit ~ tranzitna luka, provoza luka, sheltered ~ zaštićena luka, protected ~ zaštićena luka, intermediate ~ usputna luka, međuluka, naval ~ ratna luka, closed ~ zatvorena luka, discharge ~ luka iskrcaja, iskrcajna luka, export ~ luka ukrcaja, izvozna luka, import ~ luka iskrcaja, uvozna luka, manage the ~ upravljati lukom: All countries in the hemisphere have a Port Agency, in one way or another, may be responsible for regulation, enforcement, planning, development, and/or granting concessions to private-sector firms to manage the port and/or terminals., busy ~ višoko prometna luka, luka s velikim prometom:
Southampton is one of the UK’s busiest deep-water ports.; 2 (marine eng) kanal i otvor u košuljici cilindra motora, za ispuh i propuhivanje otvor, kanal exhaust ~ ispušni kanal, scavenge ~ ispirni kanal; 3 (boating/yachting) otvor na palubi / kabini jedrilice;
4 (sailing vessels) odvodni otvor na ogradi
port /ˈpɔrt/ (adj, adv) ANTONYM starboard the term 'port' refers to the left side of a vessel, perceived by a person on board the ship, facing towards the bow lijevi, lijevo
port (n) (navig, seamanship) ANTONYM starboard lijeva strana broda
port (n) (marine eng, nav arch) otvor, ulaz
port (n) (sailing vessels) otvor za top (ratnog jedrenjaka)
Port, steer one eight two! (navig, seamanship) Kormilo lijevo, kurs: jedan osam dva!
portable /ˈpɔːtəb(ə)l/ (adj) prenosiv, prijenosni, pomičan, pokretan, lako nosiv
~ radiotelephone prijenosni radiotelefon, ~ VHF prijenosni VHF-uređaj
portable extinguisher (n) (safety) prijenosni vatrogasni aparat

https://www.marineinsight.com/marine-safety/different-types-of-fire-extinguishers-used-on-ships/

portable megaphone doglasnik, megafon
portable pilot unit; PPI (n) (navig) The portable pilot unit ensures real time information is available on the Pilot’s laptop to assist in onboard decision making.

(https://www.mastermariners2015.com.au/) peljarovo prijenosno navigacijsko računalo: Having set up his portable pilot unit (PPU) using a raster chart, the pilot was able to monitor the vessel’s speed over ground and time of arrival at the anchorage.

portable pump (n) (marine eng, safety) prijenosna pumpa, prenosiva pumpa
portable radio (n) (comm) prijenosna radiostanica, radiostanica u brodici / splavi za spašavanje check ~s provjeriti prijenosne radiostanice
portable radio station prijenosna radio stanica
portable radio station for survival craft (comm) prijenosna radiopostaja

sredstava za spašavanje
portable sampling unit (=PSU) (n) (cargo handling) A device designed to sample the ship’s cargo when its tanks are closed to the atmosphere. It is used in conjunction with a vapor control valve.

(https://www.euronav.com) prijenosni uređaj za uzorkovanje tekućeg tereta
port accommodation (n) (ports) lučki kapaciteti (za prihvat brodova i rukovanje teretom)
port administration (n) 1 a (mar law) lučke vlasti; 2 lučka uprava
port agent (n) (mar law) SEE ship agent ... the ship agent is often called a port agent and, amongst other duties, undertakes the following key roles: - Booking the vessel in and out of the port, and arranging the pilot and tug boat services ; - Providing information on the crew and any passengers to the local immigration authorities - Ensuring the ship’s documentation complies with international regulations prior to Customs inspection - Preparing quarantine pre-arrival report (QPAR) which provides details on the crew, the ship’s previous route and any deaths or illnesses which may have occurred during the voyage - Advising Customs of the ship’s arrival and reporting the cargo on board - Logistics involved with provisions and fuel - Providing the stevedore’s ship planner with the manifest which gives detailed information on the cargo to be handled - Liaising with stevedores and terminal operators regarding the safe handling of containers, break-bulk and bulk liquids, and ensuring that the ship’s master is aware of shore requirements - Organising crew changes, any associated immigration documentation and arrangements such as booking flights - Paying the crew - Handling ship services including repairs and maintenance (https://www.fonasba.com/ship-agents-and-brokers) lučki agent
Portainer /ˈtʃɛɪnər/ (≈ port container crane) (n) (cargo handling) obalna

Portainer crane portalna dizalica

Portal crane /poːˈtɔːl/ (n) (cargo handling, ports) portalna dizalica

Portal mast /poːˈtɔːl/ (n) (cargo handling) portalni jarbol (za teret)

Port anchor (n) (nav arch) lijevo sidro

Port Authority /ˈpɔːt ,ɔːˈθɔrɪti/ (n) (mar law) Port Authority (lučka uprava) zajednički je termin za poduzeće (trgovočko društvo) koje zastupa zakonske, ekonomske i razvojne interese države u luci (npr. potiče međusobnu konkurenciju lučkih poduzeća), ali ovisno o pravno-ekonomskom sustavu neke države, može obavljati i komercijalne poslove pružanje usluga brodu i teretu u luci. Tendencija u Europskoj uniji jest da se funkcije države odvoje od komercijalnih. Poduzeća koja obavljaju lučke operacije (ukrcaj, iskrcaj, slaganje tereta itd.), u engleskom port companie ili port operators, registrirana su u nas kao dionička (d.d.) a dionička (d.d.) a dionička (d.d.). Tako se poduzeće „Lučka Rijeka d. d.“ na službenim web-stranicama (http://www.lukarijeka.hr) određuje na engleskom kao “Luka Rijeka j.s.c. (joint-stock company).; a governing body in a port, i.e. State, Municipal, public, or private body, which is largely responsible for the tasks of construction, administration and sometimes the operation of port facilities and, in certain circumstances, for security (EU Commission) lučka uprava, Italian: autorità portuale: The Port Authority of New York and New Jersey, which owns the terminals and leases them to port operators, issued a statement urging members of the International Longshoremen’s Association to “return to work immediately and resolve their differences after they return.” (https://gcaptain.com) The American Association of Port Authorities says close to $155 Billion will be invested by 2020 to expand U.S. ports to handled bigger vessels. (Costas Paris WSJ Logistics Report (Jan 2, 2017))

Port of Rijeka Authority Lučka uprava Rijeka, Port of London Authority (PLA) Lučka uprava London: the Port of London Authority were established for the purpose of administering, preserving and improving the port of London

Port basin (n) (ports) lučki bazen

Port bil of lading (n) (mar law, shipping econ) lučka teretnica

Port bow (n) (nav arch, navig) ANTOPYM starboard bow lijeva strana pramca, Italian: mascone prora sinistra on the ~ s lijeve strane pramca, po lijevoj
port captain (=Operations Manager; Fleet Superintendent) 1 (shipping econ) The marine / nautical superintendent of a shipping company in the port; Jobs of the port captain: 1. Manage operations of assigned vessels in the fleet, maintain regular communication with assigned vessel personnel and customers to ensure safe, reliable, and efficient operations. 2. Ensure the assigned vessels are properly staffed with competent personnel. 3. Provide on board training and supervision as needed. 4. Ensure assigned vessels are operated in compliance with regulatory Manual, and customer requirements.

predstavnik brodara u luci, port keptin: As an employee of the shipowner, cruise liner or ship manager in a port, the port captain ensures that the vessels are crewed, operated and maintained in accordance with the regulatory requirements, company standards, and customer’s expectations. I am a port captain and among other jobs, I oversee the discharge of a large number of project cargo consignments. The charterer’s port captain stationed himself ashore after the initial visit at the first loading port.; 2 (shipping econ) a ship manager’s officer responsible in a port for supervising the vessel Masters and overseeing project safety, training and regulatory compliance programs.

predstavnik poslovođe broda (ship managera) u luci: The essential functions of the port captain are: Recruit, hire, train, mentor, manage and discipline personnel in the projects marine department., Ensure vessel(s) is operated within all pertinent laws, regulations and guidelines mandated by federal, state or local agencies as well as Company policies and Best Practices. Ta se sredstva koriste za razvojne potrebe luke. lučke naknade, lučke pristojbe, lučke takse: Vessels engaged in foreign trade that enter any port, whether private or government, shall be charged the following PORT DUES on each call based on GRT

port economics (n) (shipping econ) ekonomika luka

port engine (n) (nav arch) lijevi stroj

port engineer (n) 1 (ports) tehnički direktor luke, tehnički stručnjak u luci; 2 (mar law) The Port Engineer supports the Company’s Engineering department goals and staff.

(https://jobsite.gcaptain.com/job/port-engineer/) brodostrojarski predstavnik brodara u luci

port entry guide (n) (ports) vodič o lukama, priručnik o lučkim propisima

port estate (n) (ports) zemljište u vlasništvu lučke uprave lučko zemljište

port expansion (n) (ports) proširenje luke, razvoj luke: CHEC has completed an expansion project at Abidjan Port. https://www.seatrade-maritime.com/ports-logistics/

port facilities (n) (ports) lučki kapaciteti, lučka postrojenja, lučki uređaji

port facility security officer; PFSO (n) (safety) osoba odgovorna za sigurnosnu zaštitu luke

port fees (n) (shipping econ, mar law) = port dues lučke pristojbe

port flap (n) (sailing vessels) poklopac otvora na ogradi
Port functions (n) (Mar law, shipping econ) COMPARE Port Authority Within the port system, one or more organizations fill the following roles: 1. Landlord for private entities offering a variety of services; 2. Regulator of economic activity and operations; 3. Regulator of marine safety, security, and environmental control (usually the responsibility of the harbormaster office or coastguard); 4. Operator of nautical services and facilities; 5. Marketer and promoter of port services and economic development; 6. Cargo handler and storer (mostly private companies or operators); 7. Provider of ancillary activities.

Port gangway (n) (Nav arch) An opening in the side plating, planking, or bulwark for the purpose of providing access through which people may board or leave the ship or through which cargo may be handled. (https://www.history.navy.mil/) bočni siz

Port hand mark (n) (Navig) a buoy or beacon which is left to the port hand when proceeding in the conventional direction of buoyage (i.e. upstream) oznaka s lijeve strane (broda), plutača s lijeve strane (broda)

Port health authority (n) (Shipping econ) lučke zdravstvene vlasti

Port helm (n) (Navig) kormilo u lijevo apply ~ okrenuti kormilo u lijevo: The helmsman responded by applying port helm until the pointer indicated 10° to starboard; use ~ staviti kormilo u lijevo: Once the vessel was clear of the buoy, port helm was used to manoeuvre the vessel back towards the eastern side of the channel.

Porthole /ˈpɔrθoʊl/ (=port hole) (n) (Nav arch) COMPARE deadlight a small aperture in the side of a vessel to admit light and air, usually fitted with a watertight glass or metal cover, or both; A porthole on a ship may also be called a side scuttle or side scuttle (side hole), as officially termed in the SOLAS Convention. brodsko okno (na otvaranje), fineštrin, Italian: oblo

Porthole container (n) (Cargo) hlađeni kontejner s otvorima za dovod i odvod zraka

Port industry (n) 1 (Shipping econ) lučko gospodarstvo, lučka privreda; 2 lučka industrija

Port infrastructure (Ports) sea locks, waterways, breakwaters, quay walls, wharves, docks, piers, jetties, and main roads in a port lučka infrastruktura (obale, lukobrani, zaštita): The coastal and port infrastructures should be linked to and integrated with public planning, operation and the maintenance of the facilities.

port installations (n) (ports) lučka postrojenja, lučki uređaji
portion (n) dio
port labour (n) (shipping econ) lučka radna snaga, lučki radnici
port lid (n) (nav arch) A shutter for closing a port hole in stormy weather.
https://officerofthewatch.com/tools/maritime-dictionary/ pojklopac brodskog okna,
poklopac otvora
port-lid (n) (sailing vessels) poklopac otvora na ogradi
portlight (n) (nav arch) COMPARE porthole an opening in a ship's side, provided with a glazed lid or cover brodsko okno (bez otvaranja)
port logistics (n) (shipping econ) lučka logistika: The departure time is the cornerstone to port logistics. Most departure time dictate the arrival time of another vessel, and that arrival time is key for planning resources for nautical services (pilots, tugs, linemen), cargo services and vessel services (bunkers, waste, etc.).
port management models (n) (mar law, ship handling, ports) There are five main port management models based upon the respective responsibility of the public and private sectors. They include the public service port, the tool port, the landlord port, the corporatized port and the private service port. (https://people.hofstra.edu/geotrans/eng/ch4en/conc4en/tbl_public_privte_roles_ports.html)
modeli upravljanja lukama
Port Marine Safety Code (=PMSC) (n) (navig, safety) pravilnik o sigurnosti za brodove u luci
port medical officer (n) (shipping econ) lučki zdravstveni službenik
port of call (n) (shipping econ) lučka ticanja / pristajanja: What was your last port of call?
when possible, inform the other vessel of the name of the ship, port of registry and the next port of call. The company's trading route joins eastern Asia with northern Europe and includes 12 ports of call.
port of departure (n) (shipping econ) luka polaska broda (u linijskoj službi):
The anchor was then weighed and the vessel returned to her original port of departure, where she berthed without further mishap.
port of despatch (n) (shipping econ) port from which the goods are shipped luka otpreme tereta, luka ukrcaja tereta
port of destination (n) (ports) luka odredišta
port of discharge (n) (shipping econ, mar law) luka iskrcaja: What should be done if serious damage to cargo is suspected before opening the hatches in the port of discharge? ... the terms of this Bill of Lading shall continue to apply until the Goods are delivered by the Carrier to the Merchant at
the amended Port of Discharge or Place of Delivery, whichever is applicable, unless the Carrier specifically agrees in writing to the contrary.

port official (n) (shipping econ, mar law) lučki dužnosnik, lučki službenik, nadležna osoba u luci

port of loading (n) (shipping econ) luka ukrcaja, ukrcajna luka: The goods were transported on terms set out in the charter-party which specifies the precise nature and volume of cargo, the port(s) of loading and discharge and the laytime and demurrage.

Port of London Authority (=PLA) (n) (ports, mar law) Lučka uprava London: The PLA was established in 1909 by the Port of London Act, and is the statutory harbour authority for the River Thames. www.gov.uk/maib

port of origin (n) (shipping econ) luka porijekla

port of refuge (n) (safety) luka zakloništa, luka skloništa

port of registry (n) (mar law) Po rt in the country under whose flag a vessel is legally registered. https://officerofthewatch.com/tools/maritime-dictionary/luka upisa, upisna luka, luka registracije; 2 luka pripadnosti

port of rotation (=port rotation) (n) (shipping econ) luka rotacije, luka promjene linjske rute

port of sailing (n) (shipping econ) luka polaska

port of shipment (n) (shipping econ) luka otpreme, luka ukrcaja, otpremna luka

port operations (n) 1 (shipping econ) lučke operacije (obično ukrcaja/iskrcaja tereta); 2 (cargo) lučke manipulacije

port operator (n) (shipping econ) trgovačko društvo (najčešće privatno) koje pruža usluge teretu ili brodu u luci); stevedoring firms, cargo handling companies, and terminal operators l učko trgovačko društvo, lučko poduzeće, lučka kompanija, Italian: operatore portuale: Port operators typically pursue conventional microeconomic objectives, such as profit maximization, growth, and additional market share.

port privatization (n) (mar law, ports) privatizacija luka: The country's ports have suffered a series of strikes in the past 18 months, principally in protest of the government's port privatisation

service port 1 a port owned by the government and managed by the port authority that controls the port operations (port labour directly employed by the port authority) javna luka kojom upravlja i u kojoj lučke operacije obavlja lučka uprava; 2 državna luka, tool port a type of service port where all assets are owned by the government and operated by the port authority državna luka s privatnim slagačkim i skladišnim operatorima, landlord port a port owned by the government ans managed by the port authority BUT the port authority gives up its control over port operations by leasing the port infrastructure to private operators koncesijska luka s privatnim operatorima lučke infrastrukture, private port a port with privately owned and its operations are under the control of private owners and private operators to whom the port operations are leased privatna luka, luka s privatnom infrastrukturom i suprastrukturom

port quarter /ˈkwoʊ.tər/ (navig) COMPARE port bow the part of a vessel's side towards the stern on the port side, usually aft of the aftermost mast lijevi kvartir
**port reception facilities** *(n) (ports, safety)* prihvatna oprema u luci za otpadne tvari

**port regulations** *(n)* 1 *a* *(mar law)* pravilnik o redu u luci; 2 lučki propisi

**port rotation** *(n) (shipping econ, logist)* A ship route can be defined by a sequence of ports called by ships where ships return to the first visited port after visiting the last port, referred to as a port rotation. (https://www.sciencedirect.com/science/article/) rotacija luka, luka promjene

**port state control** *(n) (mar law)* the procedure whereby governments examine a percentage of ships, which visit their shores, in order to ensure that those ships meet international safety and environmental standards. Such examination is often conducted by classification societies under contract with the state concerned. Other states, however, have government inspection agencies which inspect visiting ships. Many states take note of the number of detentions by them of ships already inspected and classed by each classification society.

http://www.geocities.ws/mpaoral/ch5/berthing_port_offshore_wind.htm

http://www.officerofthewatch.com/tools/maritime-dictionary/inspekcijski nadzor stranih brodova, kontrola/nadzor od strane države luke u kojoj se brod nalazi:
Port State Control (PSC) will check the compliance of the seafarers so when you are sending seafarers onboard make sure that the crew has the proper certificates and endorsements from the flag State

Port State Control Report of Inspection (n) (safety) Izvješće o obavljenom pregledu (broda) od strane države luke (u kojoj se brod nalazi/o)

port storage (n) (logist, shipping econ, ports) a charge levied by the port for the prolonged stay of a container at port after expiry of free days (https://shippingandfreightresource.com) naknada za produženje skladištenja tereta u luci

port structures (n) (ports) lučke obale, gatovi i luškobrani lučki objekti, lučki infrastrukturni objekti

port tack (n) 1 (boating/yachting) ANTONYM starboard tack sailing with the main boom on starboard side, with the wind coming over the port side of the vessel lijeve uzde

port tariff (n) (shipping econ) lučke tarife ~ rates lučki tarifni stavovi

Port ten! (n) (navig, seamanship) Dest lijevo!

port terminal lučki terminal: What are the three key elements that define productivity at a port terminal? Swift exchange of vessels, production per hour, and avoiding idle time when commercial operations have finished.

Port Time (n) 1 (shipping econ) Seabuoy to Seabuoy - The time elapsed between the vessel's passing the port's seabuoy upon entrance to re-passing it upon exit. It includes time for steaming in and out of berth, delays, hose connections, anchorage time, clearing and loading or unloading time.

(www.euronav.com) vrijeme uplovljenja broda od ulazne plovidbene oznake do veza, ukrcaj/iskrcaj te vrijeme isplovljenja od veza do izlazne plovidbene oznake u luci; 2 (ship handling) Port time includes only time for delays, hose connections, anchorage time, clearing and loading or unloading time. Use must be consistent with voyage mileage basis. (www.euronav.com) vrijeme za priključak prekrcajnih uređaja (za tankere u luci), sidrenje te ukrcaj i iskrcaj tereta

port to port (prep phr) (navig) lijevi bok (jednog broda) prema lijevom boku (drugoga broda), prolaziti lijevim bokom (jednog broda) prema lijevom boku (drugoga broda): the OOW intended to pass in the conventional port to port fashion Both pilots agreed to a conventional port to port pass,

port to port bill of lading (n) (mar law) = marine bill of lading pomorska teretnica, teretnica
port user  (n) (shipping econ) korisnik luke
Port Waste Management  (n) (ports) upravljanje prihvatom brodskog otpada u luci
port watch  (n) (navig) navigacijska straža dok je brod u luci na sidrištu itd. navigacijska straža u luci
port workers  (n) (shipping econ) lučki radnici, dokeri

position /po'zifen/ 1 a položaj hold in ~ (marine eng) održati u položaju: the shells are in ~ and shape blazinice su propisno ugrađene; 2 (navig) A geographical location normally expressed in degrees and minutes of latitude and longitude. pozicija (broda): Now a boat’s position (latitude and longitude) can be fixed with near-pinpoint accuracy and, in the case of electronic navigation, accurately displayed on a chart in real time. establish / fix the ship’s ~ odrediti / utvrditi poziciju broda, check ~ provjeriti poziciju broda: Frequently check the vessel’s position using visual bearings, ranges or transits, last known ~ zadnja poznata pozicija; 3 (seamanship) držati brod u poziciji: The tugs then held the ship in position off the berth while the engineers were trying to clear the blocked cooling system.

position /po'zifen/ 1 a smjestiti, postaviti; 2 pozicionirati Position, Navigation and Timing  (n) (navig) pozicioniranje, navigacija i proračun vremena

position circle  (n) (navig) kružnica pozicije
position fixing  (n) (navig) određivanje pozicije broda
position fixing aids  (n) (navig) uređaji za određivanje pozicije broda
position line  (n) (navig) stajnica, linija pozicije transferred ~ pomaknuta

https://www.blueanarchy.org/celestial/

Position Locating Services  (n) (safety) služba lociranja pozicije (broda u pogiblji): Position locating services include: radars, air traffic control, Marine Communications and Traffic Services, Vessel Traffic Services and Reporting Systems, Amver, etc.

position report  (n) (navig, comm) izvješće koje zapovjednik broda predaje službi VTS kako bi je obavijestio o položaju broda unutar područja njene nadležnosti izvješće o poziciji broda positive action to avoid collision  (n) (navig, safety, mar law) primjetljiva radnja izbjegavanja sudara

positive displacement pump  volumetrijska pumpa, volumenska pumpa: To maintain a constant flow through the separators, individual positive displacement-type
positive pressure (n) (marine eng) nadtlak

positive pressure (n) (marine eng) nadtlak

possession /ˈzɛʃən/ (n) (mar law) posjedovanje possession of narcotics and/or contraband cargo, guilty of ~ kriv za posjedovanje (droge, oružja itd.), take ~ of uzeti u posjed, preuzeti: When carriers move freight, they are legally taking possession of the goods and are under obligation to deliver them for a reasonable price.

possessory lien /ˈzɛsərɪ, ˈliːən/ (n) (mar law) zadržavanje broda radi namirenja u korist brodopopravljača i spasavatelja; prestaje gubitkom posjeda; po redu prvenstva za namirenje dolazi iza maritime lien a ispred statutory lien; the right of a bailee to retain property in his possession belonging to another until certain claims of the bailee in possession are satisfied. The common carrier thus had a possessory lien for freight (supra), which was strictly possessory and was lost when the cargo was delivered unconditionally.

pravo retencije, pravo zadržanja broda, retencija broda, zakonsko pravo retencije i ručnog zaloga

Possibility Area (n) (safety) najmanji prostor u kojem je moguće pronaći sve preživjele ili lokacije objekata potrage (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html) moguća zona

possible search area; PSA (n) (seamanship, navig) moguće područje potrage

post /ˈpəʊst/ 1 a stup (svjetla); 2 radno mjesto (na brodu); 3 radno mjesto, namještenje, služba ~ applied for radno mjesto za koje se netko natječe, vacant ~ slobodno (radno) mjesto, qualify for a ~ osposobiti se za službu

post /ˈpəʊst/ 1 izvjesiti: Watch schedules shall be posted where they are easily accessible on board the vessel. Raspored straže mora biti izvješen na lako dostupnom mjestu na brodu. Protect your owners’ interests by posting a gangway watch. keep me posted Obavještavajte me stalno; 2 postaviti ~ a lookout postaviti motritelja

posted price (=contract price) (n) (ship handling) The price for marine fuel oils which appears on a price list published by marine fuel oil (bunker) brokers. objavljena cijena brodskog goriva (na oglasnoj ploči, web-u itd.), objavljena cijena bunkera (na oglasnoj ploči, web-u itd.)

post load (n) (cargo handling) The resultant pressure force in the container corner post, causing damage to the container opšterećenje na stup kontejnera, rezultanta sile

pritiska na kutni stup kontejnera

post-panamax ship (n) (nav arch) a ship too large to transit the Panama Canal, e.g. container ships capable of carrying up to 8,500 TEUs and more brod tipa post-panamax:

Post-Shakedown Availability (n) (nav arch) shipyard’s availability following delivery and is
used to correct deficiencies found during the shakedown period, or to accomplish other authorized improvements to the ship.

**pot** (n) *(fishing)* vrša, kavez: The GRP boat, which was fitted with a vivier tank, had sailed that morning to haul and re-bait pots. **haul a line of ~s** vući vrše / kaveze u nizu: A fishing vessel was on an easterly heading and engaged in **hauling a line of pots** which was about 1 mile long and lay in a north/south direction off a port on the east coast.

**potable water system** *(seamanship, safety)* sustav pitke vode

**pots and traps** *(fishing)* vrše: In pot and trap fishing mud crabs, blue swimmer crabs and rock lobster are species commonly targeted with these methods.

https://www.sustainweb.org/goodcatch/pots_and_creels/

**pouch** /pəʊtʃ/ *(boating/yachting)* a flexible container like a small bag

**mobile phone waterproof ~** vodootporna futrola za mobilni telefon

**poulp** *(fishing)* mušun

**pounding** /ˈpaʊndɪŋ/ *(seamanship, nav arch, boating/yachting)* The action of a boat's bow repeatedly slamming into oncoming waves

https://www.ypiyachts.com/ udaranje (dna) pramca o valove, lupanje dna pramca o valove
pour point (n) (cargo handling) The lowest temperature at which oil will remain liquid točka / temperatura protočnosti tekućine: 1 out of 4 VLSFOs has a pour point above 18°C, while the corresponding ratio for high sulphur fuel oils is 1 out of 100. (https://safety4sea.com/)

Poutassou (n) molet, ugotica

powder /'paʊdər/ (n) prah ~ fire extinguisher (safety) vatrogasni aparat na prah powdery /'paʊdəri/ (adj) (cargo) prašnjav ~ goods prašnjava roba roba u obliku praha

power /'paʊə/ (n) 1 (marine eng) snaga develop ~ razviti snagu, lose ~ izgubiti snagu: A capesize bulk carrier blocked ship traffic in the Elbe River in Germany on Tuesday after losing power while inbound to the port of Hamburg. http://gcaptain.com/capesize-bulk-carrier-breaks-elbe-river-ais/, restore ~ vratiti pogonsku snagu: By the time rescue crews arrived, the crew of the distressed ship notified that they were no longer in need of assistance after power to the vessel was restored and the situation stabilized https://gcaptain.com/canadian-coast-guard-responds-to-bulk-carrier-in-distress-newfoundland-and-labrador or; 2 energija ~ plant električna centrala, energana, produce ~ proizvoditi energiju, stvarati snagu; 3 (mar law) moć, punomoć, ovlaštenje confer the ~ to nekoga ovlastiti, dati nekome ovlaštenje; 4 pogon broda sail under own ~ ploviti vlastitim pogonom

dict. potencija, eksponent: 5 to the power of 4 pet na četvrtu 5 raised to the power of 4 5 na četvrtnu power /'paʊə/ (v) (marine eng) pokretati, pogoniti, tjerati: The vessel will be powered by a pair of MAN D2862 LE463 main engines, each producing 1029kW. https://gCaptain.com

cable 1 (electr) energetski kabel: The vessel’s anchor fouled with a power cable. Sidro se zapetljalo za energetski kabel u moru. submarine ~ podvodni kabel; 2 (electr) električni kabel, dovodni kabel

powercaster (n) (fishing) rola za bacanje

power connection (n) (boating/yachting) strujni priključak, ptiključak struje (u marini)

power distribution (n) (marine eng) razvod (električne) snage marine electrical ~ razvod brodskih električnih instalacija, brodski razvod

power-driven vessel (n) (navig, nav arch) any vessel propelled by machinery (COLREGS) brod na motorni pogon, motorni brod: A power driven vessel making way through the water shall sound at intervals of not more than 2 minutes one prolonged blast.
powered by /ˈpɒərd/ (adj) pogonjen (o brodu), pokretan: TOTE, making the 764-foot long Marlin Class containerships will be the largest dry cargo ships powered by LNG. http://maritimeglobalnews.com

power failure (e-electrical failure) (n) (elect) A power failure occurs when the generation or distribution of power is dysfunctional resulting in blackout. (https://safety4sea.com/) otkazivanje električnog napajanja, otkazivanje električnog sustava, prestanak napajanja (električnom energijom): Power failure may be due to overload or as a result of starting bow thrusters and deck machinery.

power gear 1 pogonski zupčanik; 2 prijenosni mehanizam; 3 pogonski uređaj; 4 strojevi auxiliary ~ pogonski strojevi

power loss (n) 1 (electr) nestanak električne energije total ~ potpun gubitak snage: a total power loss occurred as a result of the sea water cooling system becoming blocked; 2 (marine eng) gubitak snage: The skipper recognised the signs of propeller fouling: the engine stopping suddenly, without gradual power loss, or the engine miss-firing. The vessel suffered a power loss, which resulted in a temporary loss of propulsion and steering.

power of attorney (n) (mar law) punomoć: If the Master cannot present the B/L in time for for the vessel to sail, the Master issues a letter, or power of attorney, to the carrier’s agents authorising the agent to sign the Bills of Lading on his behalf. Power of Attorney for Release of Cargo general ~ (mar law) prokura (punomoć za zastupanje tvrtke), opća punomoć (za zastupanje tvrtke)

power plant (n) 1 (marine eng) pogonsko postrojenje; 2 pogonski uređaji
power plant (n) 1 (marine eng) elektrana floating ~ brod-elektrana; 2 brodska elektrana; 3 pogonsko postrojenje

power-propelled (n, adj) (marine eng, electr) na električni pogon, s električnim pogonom

power stroke (n) (marine eng) radni takt, ekpanzijski takt, radni hod

power supply (n) (electr) uređaj za napajanje

power tools (n) (marine eng) a tool powered by electricity električni alati, elektroalati ~ for DIY enthusiasts električni alati za kućnu radinost

power unit (n) 1 (marine eng) pogonsko postrojenje; 2 (electr, navig) napajanje (radara), jedinica za napajanje

PPC; Potential Points of Collision (n) (navig) moguće točke sudara (na ARA radaru)

PPE (=Personal Protective Equipment) (n) (safety) = personal protective equipment osobna zaštitna oprema: Personal Protective Equipment (PPE) is considered as a first line of defense to keep maritime workers safe while on duty. https://safety4sea.com/ The shipowner and employer must ensure that the PPE supplied is easily accessible, properly stored. https://safety4sea.com/ First, the fitter put on his personal protective equipment, including a full face fiser. Before entering the fire space, crew should wear the appropriate PPE and use the proper fire extinguishing system. (https://safety4sea.com/)
PPI (=plane position indicator) (n) (navig) = plan position indicator The ship radar has a screen, referred to as the Plan Position Indicator (PPI), that displays all the targets that are present within the radar range. (https://www.marineinsight.com/) radarski prikaz, prikaz radarske panorame u ravnini

PPI control panels (n) (navig) upravljački pult radara
On the fifth day of the voyage, a phosphine gas reading of 2.0 parts per million (ppm) was detected at the upper deck alleyway of the accommodation.

PPU (=Portable Pilot Unit) (n) (navig) a portable, computer-based system that a pilot brings onboard a vessel to use as a decision-support tool for navigating in confined water.

Peljarev laptop, peljarski laptop, peljarsko računalo: Tracks recorded on the PPU for the execution of the lead pilot’s previous transits through the Precautionary Area on board the Explorer class vessels Interfaced to a positioning sensor such as GPS/DGPS and using some form of electronic chart display, it shows the vessel’s position/movement in real-time.
was positioned on the port side of the navigation console in front of the lead pilot. MAIB Report 23/2017

practices /ˈpræktɪs/ (n) (shipping econ) običaji good ~ ustaljeni običaji (dobrog poslovanja)

pram bow /ˈpræm/ (n) (boating/yachting) tupi pramac (na manjim brodicama)

pratique /ˈprætiːk/; præˈtiːk/ (mar law) = free pratique a permit by the port health authorities (usually issue via Customs) for an incoming vessel, being clear of contagious disease, to enter the port.

License or permission to use a port https://officerofthewatch.com/tools/maritime-dictionary/ dozvola lučkih zdravstvenih vlasti za uplovljenje broda, slobodan promet certificate of ~ dozvola lučkih zdravstvenih vlasti za uplovljenje broda, free ~ dozvola lučkih zdravstvenih vlasti za uplovljenje broda

prawn /ˈprɔːn/ (n) (fishing) kozica, račić

preamplifier (n) (electr, navig) predpojačalo (radara)

pre-arrival (adj, adv) (navig, safety) prije dolaska ~ checklist popis provjera prije dolaska broda u luku: The second officer had completed most of the pre-arrival checklist before leaving the bridge to prepare for mooring stations. Next time you fill in a confined space entry permit, tick the boxes in the Next time you fill in a confined space entry permit, tick the boxes in the pre-arrival/departure checklist, or carry out a risk assessment, think about who you are doing that for – it should be you and your family, or carry out a risk assessment, think about who you are doing that for.

checks provjere prije dolaska: A large container ship was nearing her pilot station when the master decided to carry out the standard pre-arrival checks in accordance with the ship’s Safety Management System (SMS) procedures.

~ conference dogovor s posadom o dolasku broda: Prior to loading the cargo, the chief officer conducted the required pre-arrival conference, but he did not have the cargo Material Safety Data Sheet (MSDS) at the time, so the safety briefing did not properly cover the cargo. A pre-arrival conference was held in preparation for the the berthing operation.

~ requirements propisi o dolasku broda, zahtjevi na dolazak broda: The master adhered to the pre-arrival requirements as detailed in the ship’s SMS.

pre-arrival meeting (n) (navig) radni dogovor prije uplovljenja: A proper pre-arrival, pre-departure meeting should be held to discuss the passage plan and a meeting should be held prior transiting or entering a busy shipping lane

Pre-arrival Notification (n) (mar law) najava dolaska broda u luku, prethodna obavijest o dolasku broda u luku: Not less than 24 hours before the intended entry, the owner, his local agent or master of the vessel must apply in writing for permission for entry ~ Pre-arrival Notification providing the required information.

pre-carriage (n) (shipping econ) Service of providing inland export transportation from our customer’s premises to the port of loading. dovoz od pošiljatelja do broda: Pre-carriage is a service applicable when the carrier provides inland transportation from the desired inland location, based on the request of the customer. (http://www.maerskline.com/en-jm/help/shipping-glossary)

precaution /ˈprɛkʃən/ (n) (safety) mjera opreza take ~s poduzeti mjere opreza: Take every precaution to prevent pollution of the environment by the ship

precautionary area /ˈprɛkʃənəri/ (navig, safety) područje povećanoga opreza, područje plovidbe gdje valja biti posebno oprezan, područje posebne opreznosti: the precautionary area was marked on the chart Extract of chart No. ... showing the .... Channel Precautionary Area
precautions /priˈkoːfænzt/ mjere opreza
precipitation rate (n) (navig) količina padalina
preclude /priˈklud/ (v) (mar law) spriječiti ~ from spriječiti da (od)
Pre-Commissioning (PRECOM) (US) period preuzimanja broda od strane posade prije primopredaje: Crews are designated to take charge of the ship following delivery. The PRECOM crew's task is to prepare the vessel and its mission systems for full operational capability in Coast Guard service.
pre-cooling (n) (marine eng) predhlađenje
predator fish /ˈprɪdətər fɪʃ/ (n) (fishing) riba grabežljivica, grabežljivac
predetermined (adj) predodređen
Predicted Area of Danger (=PAD) (n) (navig) zone moguće opasnosti (na ARPA radaru)
preferred channel (n) (navig) glavni kanal ~ to port / starboard glavni kanal je lijevo / desno, ~ buoy plutača koja označava glavni kanal, ~ mark a lateral mark indicating a channel junction or bifurcation, or a wreck, or other obstruction which, after consulting a chart, may be passed on either side oznaka glavnog kanala
preheat (v) predgrijati
preheater (n) (marine eng) predgrijač
prejoining briefing (n) kratke upute prilikom ukrcanja časnika i posade na brod
prejudice /ˈprɪdʒudis/ (n) (mar law) 1 a predrasuda; 2 šteta without ~ to (the provision of ...) 1 bez štete za, ne kršćići, ne šteteći; 2 bez kršenja / povrede odredaba (ugovora, pravilnika, konvencije)
prejudice2 /ˈprɪdʒudis/ (v) 1 a predmnijevati; 2 unaprijed odrediti
preliminary (adj) početni, prethodan ~ notice prethodna obavijest
preliminary note (n) (mar law) upis kojim se upisivanje, prijenos, ograničenje ili prestanak prava postiže uz uvjet nažadnoga opravdanja predbilježba
premises /ˈpremɪziz/ (mar law, shipping econ) 1 prostore, prostore, teren, zgrade i pripadajuće zemljište (neke tvrtke) eneter the ~ ući u prostore / prostore; 2 skladište importer’s ~ uvoznikovo skladište, producer's ~ proizvođačevsko skladište, buyer's ~ kupčevalo skladište, seller's ~ prodavateljevo skladište
premium (n) (mar law, shipping econ) premija (osiguranja)
prepaid freight (n) (shipping econ, mar law) vozarina s plaća unaprijed
preparation priprema, priprava, pripravljanje ~ for starting  (marine eng)
priprema (motora( za upućivanje, priprema (motora) za pogon
preparation for sea  (n) (navig) priprema za isplovljavanje, priprema za
isplovljenje
prepayable  (adj) (shipping econ) plativ unaprijed
pre sea training izobrazba prije ukrcanja
present  /ˈprɛzənt/ (v) predstaviti, predočiti (dokument), predati (dokument),
izručiti (dokument), pokazati ~ the Bill of Lading  (mar law) predati teretnicu:
Inaccurate statement in a draft bill of lading was presented for signature to the Master.
https://safety4sea.com/, ~ the document for inspection predočiti ispravu radi
pregleda
present  (v) (fishing) prezentirati udicu / mamac / skosavicu, pokazivati
mamac ribi: Fisherman then present bare or baited hooks, or artificial lures, to the target fish which are hauled on board the vessel one at a time. ~ a jig prezentirati skosavicu, ~ the bait
prezentirati mamac
present  (v) (ship handling, navig) choosing the side of the ship to present (expose) to the wind
okrenuti stranu broda prema, izložiti stranu broda prema ~ beam onto the
wind okrenuti se bočno prema vjetru: How should the ship present itself at the berth so that starboard anchor can be lowered at a precise spot? The easiest way is to present the beam on to the wind, with a very slight headway to arrive at the mooring point. Baudu (2014), p. 257
presentation  /ˌprɛzəˈtenʃən/ (n) 1 a predstavljanje; 2 (mar law) predočenje
(dokumenta), predavanje (dokumenta); 3 (navig) oblici radarskog
prikaza, vrsta radarskog prikaza, vrsta prikaza radarske slike, jedinica
radarskog prikaza unstabilized ~ nestabiliziran prikaz, stabilized ~
stabilizirana slika, HEAD UP ~ pramčanica prema gore (stabilizirana
slika), HEAD UP, NORTH UP ~ sjever prema gore (stabilizirana slika),
NORTH UP, COURSE UP ~ kurs prema gore (stabilizirana slika), COURSE
UP
presentation  (n) (fishing) A term encompassing all elements in catching fish. Lure types and color, water depth, structure, retrieve or trolling technique which makes a successful presentation.
mamljenje ribe ribolovnim priborom, prezentacija ribolovnog pribora
(glavnog najlona, prama, predveza, udica), prezentacija: Fluorocarbon fishing leaders originated in Japan, where the Japanese are extremely detailed about the presentation of their bait.
presentation mode  (n) (navig) modus radarskog prikaza, oblik radarskog
prikaza: This radar has the following presentation modes: relative motion and true motion.
presentation of navigation-related information  (n) (navig) prikazivanje
navigacijskih informacija
preservation  /ˌprɛzəˈveɪʃen/ (n) (cargo) 1 čuvanje, očuvanje; 2 konzervacija; 3
(mar law) očuvanje (u međunar. pravu mora)
preserve  /ˈpriːzvə/ (v) 1 zaštititi, očuvati ~ from (mar law) zaštititi (imovinu) od; 2
(mar law) očuvati (u međunar. pravu mora)
A luxury cruise ship has suffered damaged after running aground in a marine preserve off Panama’s Pacific coast.

**preserve** (n) zaštićeno područje marine ~ žaštićeno more, zaštićeno morsko područje, morski nacionalni park

**pre-sling** (n) (cargo) staviti teret u pasce, imbragivanje

**pre-slinging** (n) (cargo) opasivanje tereta pascima, stavljanje tereta u pasce, imbragivanje

**pre-slung** /priːˈslʌŋ/ (adj) (cargo) teret složen u pasce, teret složen u brage

---

Press the [POWER/BRILL] key to turn on the power.

**press** (v) (marine eng) tlačiti, pritiskati, pritisnuti ~ against pritiskati, tlačiti prema, ~ with increasing force pritiskati sve većom silom, tlačiti sve jače, ~ the key pritisnuti dugme, pritisnuti tipku: Press the [POWER/BRILL] key to turn on the power.

**pressing** (n) (marine eng) prešanje

**pressure** /ˈprɛʃər/ (n) (marine eng) tlak, pritisak cylinder ~ tlak u cilindru, compression ~ tlak kompresije, excess ~ tlak preko dozvoljene granice, firing ~ tlak izgaranje, gas ~ tlak plinova, loss in ~ gubitak tlaka, pad tlaka, raise in ~ povisiti tlak, high ~ visoki tlak, low ~ niski tlak, under ~ pod tlakom, pod pritiskom, steam ~ tlak pare, high back ~ visok protutlak

**pressure gage** /ˈprɛʃər ɡeɪdʒ/ (n) (marine eng) manometar, tlakomjer

**pressure gauge** /ˈprɛʃər ɡeɪdʒ/ (n) (marine eng) manometar, tlakomjer bellow ~ manometar s valovitom komorom, Bourdon ~ manometar s Bourdonovom cijevi, ~ diaphragm manometar s membranom

**pressure jet burner** (n) (marine eng) tlačni rasprškač: gorionik

**pressure pump** (n) (marine eng, boating/yachting) tlačna pumpa

**pressure switch** (n) (marine eng) presostat

**pressure vacuum breaker** (n) (marine eng) vakumsko-prekotlačni ventil
pressure vacuum relief valve (=PV valve) (n) (cargo handling, marine eng) a valve which automatically regulates the pressure or vacuum in a tank.

https://officerofthewatch.com/tools/maritime-dictionary/

prekotlačni otpusni ventil: Model 1200A is designed to protect your tank from damage created by overpressure or excessive vacuum.

https://www.grothcorp.com/products/industrial-processing/item/pressure-vacuum-relief-valve

pressure/vacuum system; (P/V System) (n) (cargo handling, nav arch)
vakuumski/prekotlačni sustav

pressure vessel (n) (marine eng) posuda pod tlakom, tlační rezervoar

pressure-wash (v) (boating/yachting, seamanship) prati (dno brodice) pod tlakom: We were asked if we wanted the bottom pressure-washed or to just give it a quick rinse. If there’s a lot of antifouling paint on your boat bottom, you should have it pressure washed.

pressure washer (n) (marine eng) visokotlačni uređaj za čišćenje

pressurized air (n) (marine eng) stlačení zrak

pre-strapping (n) (cargo handling) opasivanje tereta čeličnim / plastičnim
prevailing wind  (n) (meteorol) prevladavajući vjetar, pretežni vjetar
prevent  (v) spriječiti ~ from spriječiti od, odvatiti od
preventer  (n) 1 (cargo handling, nav arch) uzda (samarice)

preventer-bolt  (n) (sailing vessels) COMPARE chain-bolt svornjak
protusprežnjaka puta
preventers  (n) (cargo handling) A rope used for additional support or for additional securing,
preventive officer  /priˈventɪv/ (n) (mar law) carinski sanitarni službenik
PRF; (pulse repetition frequency) (n) (electr) frekvencije ponavljanja
impulsa: A typical pulse repetition frequency is 500 pulses per second for long pulse and 3000 pulses per second for short pulse.
prima facie  /ˈpraimə ˈfeɪʃi/ (n) (mar law) (at first sight) a rule whereby a particular fact constitutes evidence of a state of affairs, unless contradicted by other stronger, admissible evidence

prima facie case  /ˈpraimə ˈfeɪʃi ˈkeɪs/ at first sight; as it seems at first pravni predmet na prvi pogled
prima facie case  (npr. zahtjev za tražbinu): When the claimant has made out a prima facie case, the burden of proof is then shifted to the carrier who must then prove to the contrary to establish his defence.
**prima facie evidence** *(n) (mar law) dokaz (iz teretnice) po principu oborive pravne pretpostavke dokaz prima facie (na prvi pogled, po izgledu):* When the goods are eventually removed into the custody of the consignee, the details on the bill of lading are *prima facie evidence* of the condition of the goods on discharge, unless: a) Notice of loss or damage has been given in writing to the carrier before or at the time of the...<tlCorpus><sentence>01d_TheSHIPPINGINDUSTRY_001</source></sentence></tlCorpus>

**primary winding** /praimər/ *(n) (electr) primarna uzvojnica, primarna zavojnica*

**prime** /praim/ *(v) (marine eng) nalijevati, puniti (npr. pumpu prije pokretanja), napuniti uljem (da ne bi došlo do trenja), odzračiti (pumpu) ~ the fuel oil system napuniti cjevovod gorivom da se istisne zrak, odzračiti sustav goriva ručnom ili dodatnom (buster) pumpom

**prime meridian** *(n) (navig) The Meridian pasing through Greenwich Longitude nulti meridijan (Greenwich)

**prime mover** *(n) (marine eng, nav arch) A machine that transforms energy from/to thermal, electrical or pressure to/from mechanical form, typically a diesel engine or turbine osnovni pogon, primarni pogon, glavni pokretački stroj: regardless of the rotational speed of the prime mover, the propeller shaft must rotate at about 80 to 100 rev/min. Four stroke engines are used as a *prime mover* for power generation because of their high speed characteristics.

**primer** /praimər/ *(n) (seamanship) podloga (za boju), prajmer*

**prime wood** *(n) (cargo) npr. mahagoni, hrastovina, tikovina* kvalitetno drvo

**priming** /praimin/ *(v) 1 to fill (a pump) with its working fluid before starting, in order to improve the sealing of the pump elements and to expel air from it before starting ispiranje cjevovoda prije uporabe; 2 (marine eng) odnošenje kapljica vode s parom na izlazu iz bublina kipljenje kotla, burno vrijeme

**priming coat** *(n) (safety) zaštitna boja, podloga za boju*

**principal** /prinsipal/ *(n) (mar law) Principal refers to the shipper, consignee, seller, or purchaser of property, and to anyone acting on behalf of such shipper, consignee, seller, or purchaser of property, who employs the services of a licensed freight forwarder to facilitate the ocean transportation of such property.

(https://www.federalregister.gov/documents/2015/11/05/2015-27914/ocean-transportation-intermediary-licensing-and-financial-responsibility-requirements-and-general) *nalogodavac, naručitelj (usluge, prijevoza itd.): The Principal shall at all times indemnify the G.A. against all claims, charges, losses, damages and expenses which the GA may incur in connection with the fulfillment of its duties under this Agreement. FONASBA General Agency Agreement*

**principal** /prinsipal/ *(adj) glavni, najvažniji ~ place of business (shipping econ)*

**sjedište (tvrtke)**

**print** *(n) (marine eng) a mark or indentation made by pressing something onto a surface otisak, druk, print*
priority (/praɪˈɔːri.əti/ (n) (comm) prvenstvo, prioritet, pravo prvenstva select the ~ izabrati prioritet

prior to /ˈpraɪərɪ tu:/ (prep) (mar law) ANTONYM upon prije nego: watchkeeping personnel shall not consume alcohol within four (4) hours prior to serving as a member of a watch. osoblje straže ne smije uzimati alkohol četiri sata prije nego što stupa na dužnost člana straže upon completion of loading and immediately prior to discharge nakon završetka krcanja i neposredno prije iskrcaja

private carriage (n) (mar law) Carriage of particular goods of one shipper under a special contract, usually by charterparty, as opposed to the common carriage (supra) of goods of the public in general, on advertised, liner routes, usually under bills of lading or waybills. slobodna plovidba, tramperska plovidba, tramperska služba

private carrier privatnik prijevoznik, slobodni prijevoznik, prijevoznik u tramp službi

private domain (n) (mar law) A French civil law term referring to all property of the French State which is capable of being owned, including vessels. Such property is unseizable, may be used only for its stated purpose, may never be exchanged or leased for another person’s use and must be sold when it can no longer be used for the stipulated service or use. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

privatno dobro

privateer /ˌpraɪvərˈtiər/ (n) (mar law) gusar

privately run terminal (n) (shipping econ) privatni terminal, terminal kojim upravlja (i koji iskorištava) privatno trgovačko društvo

private maritime law (n) (mar law) pomorsko javno pravo

private port (n) (mar law, ports) COMPARE port privatization privatna luka, luka s privatnom infrastrukturo i suprastrukturom

private sector (n) (shipping econ) privatni sektor, privatna gospodarska djelatnost: Most of the Port’s considerable trade in animal feedstuffs is discharged here where there is large – scale private sector investment in specialist warehousing. ~ investment investicije privatnog sektora, investicije u privatnom sektoru

private service port (n) (mar law, ports) COMPARE public service port The outcome of a complete privatization of the port facility with a mandate that the facilities retain their maritime role. The port authority is entirely privatized with almost all the port functions under private control with the public sector retaining a standard regulatory oversight. Still, public entities can be shareholders and thus gear the port towards strategies that are deemed to be of public interest. privatna luka: Private service ports are maximizing the interests of their shareholders. https://people.hofstra.edu/geotrans/eng/ch4en/conc4cn/tbl_public_privte_roles_ports.html

private terminal operator (n) (mar law, ports) companies that lease terminals from a public port authority (which acts as a landlord) and operate the leased terminals as a private business (https://www.fmc.gov/resources/marine_terminal_operators.aspx) privatni poduzetnik poslova lučkog terminala, privatni operator lučkog terminala

privileged vessel (n) (mar law) = stand-on vessel ANTONYM burdened vessel The vessel that is required to maintain its course and speed when boats are approaching each other according to the navigation rules. https://www.ypiyachts.com/ brod koji ima pravo puta
prize  /praɪz/ (n) (mar law) ship or property captured at sea in war; contrabands seized and confiscated

zaplijenjeni brod, zapljena ~ of war ratni plijen: The ship became a prize of war

PR knot (n) (fishing) he PR Knot is an extremely strong connection designed to join braided superline with a monofilament or fluorocarbon line uao za vezivanje najlona od mono i sukanih / pletenih vlakanaca, PR uao

probability area (n) (safety) najvjerojatnije područje potrage i spašavanja

probability of containment (navig, safety) vrijednost kojom se iskazuje vjerojatnost prisutnosti ljudi u opasnosti u određenome području traganja vjerojatnost sadržavanja

probability of success; (POS) (n) (safety) uspješnost potrage (u sustavu SAR)

problem (n) problem face the ~ suočiti se s problemom, pose a ~ predstavljati problem, postaviti (se) kao problem

procedure /proˈsiːdʒə/ (n) 1 postupak, postupanje, procedura survival ~ postupak za preživljavanje, postupanje za održavanje na životu, SMS ~s procedure upravljanja sustavom sigurnosti: it was established that all SMS procedures had been properly followed, rules of ~ pravila postupka; 2 redoslijed postupaka / zahvata; 3 tehnološki proces

procedure for a vessel entering the port (n) (mar law) postupak ulaska broda u luku

proceed /proˈsiːd/ 1 (v) (navig, seamanship) prosljediti, (o brodu) isploviti, krenuti, uputiti se, nastaviti (plovidbu): The Pilot boarded at 0730 and the ship proceeded inwards. Peljar se ukrcao u 0730 i brod se uputio prema luci. ~ to sea isploviti, uputiti se prema otvorenom moru, ~ at full / great / low speed ploviti punom / velikom / malom brzinom, kretati se punom / velikom / malom brzinom, ~ alongside uploviti i pristati (na vez, uz obalu), ~ along the fairway ploviti plovnim kanalom, ~ to the port / berth krenuti / uputiti se prema luci / vezu: The Pilot boarded at 0730 and the ship proceeded inwards., Heave up and ~! (seamanship, navig) Podignite sidro i isplovite!, ~ outwards isplovljavati: During the night of .... 2019, the Vessel 1 was approaching the designated passage channel to the Fujairah Offshore Anchorage Area, while the Vessel 2 was proceeding outwards through the same passage channel

https://gCaptain.com; 2 ploviti: A ferry was proceeding upriver www.gov.uk/maib

proceedings /proˈsiːdɪŋz/ (n) arbitral ~ arbitražni postupak, legal ~ pravni postupak, initiate legal ~ povesti pravni postupak 1 a (mar law) službeni postupak; 2 rasprava

Proceeding to the Area of Distress (n) (safety) upućivanje na područje pogibli, plovidba prema području pogibli

proceeds /proˈsiːdz/ (n) (mar law) utržak, utržak (od prodaje broda, tereta itd): the owner of the carrier, ..... informed that net cash proceeds after repayment of debt related to the vessel will be approximately $8 million. https://safety4sea.com/

process /ˈprəʊses/ (n) (marine eng) proces, tehnološki slijed basic oxygen ~ bazni proces s kisikom
process /ˈprəʊses/ (v) procesuirati, obrađivati
processing (n) (cargo) obrada (npr. robe u luci)
procurator /ˈpɛrkjuəreitə/ (n) (mar law) SEE authorised officer SEE authorised signatory This word should NOT be used in English law as a substitute for the Croatian or German legal term "prokurist". In Croatian "prokura" denotes "general power of attorney" or "general power to represent the company". prokurist procure /prəˈkjʊər/ (v) to obtain or acquire; secure nabaviti, pribaviti, osigurati:
produce 1 proizvesti, napraviti, stvoriti; 2 (mar law) predočiti (dokument) ~ the Bill of Lading predočiti teretnicu
produce /ˈprəduːs/ (n) (cargo) proizvodi dairy ~ mlječni proizvodi produce the original Bill of Lading (v) (shipping econ) predočiti originalnu teretnicu, uručiti originalnu teretnicu
product carrier (n) (nav arch) = product tanker A tanker for the bulk carriage of refined petroleum products, either clean or dirty
product tanker (n) (nav arch) = product carrier Oil products tankers are non-specialised tankers below 60,000 dwt, as well as coated tankers above this size. These ships carry a spectrum of cargoes, ranging from relatively unsophisticated dirty products such as fuel oil through to clean products such as naphtha.; Product tankers, generally much smaller, are designed to move refined products from refineries to points near consuming markets.; Tanker that carries refined oil products.(https://www.clarksons.com/glossary/) tanker za preradevine, brod za prijevoz naftnih derivata
production 1 proizvodnja; 2 (mar law) predočenje (teretnice)
products of combustion (n) (marine eng) produkti izgaranja
product tanker (n) (nav arch) = product carrier Oil products tankers are non-specialised tankers below 60,000 dwt, as well as coated tankers above this size. These ships carry a spectrum of cargoes, ranging from relatively unsophisticated dirty products such as fuel oil through to clean products such as naphtha.; Product tankers, generally much smaller, are designed to move refined products from refineries to points near consuming markets.; Tanker that carries refined oil products.(https://www.clarksons.com/glossary/) tanker za preradevine, tanker za
Product tanker: A product tanker is designed for the carriage of refined products derived from crude oil (gasoline, Diesel oil, jet fuel) from the refineries.

Certification:
1. Proficiency: A certificate of proficiency includes:
   - Certificate of structural soundness;
   - Certificate of structural readiness;
   - Certificate of proficiency;
   - Certificate of proficiency for structural soundness;
   - Certificate of proficiency for structural readiness;
   - Certificate of proficiency for structural readiness and proficiency for structural soundness;
2. Knowledge: A test of knowledge includes:
   - A test of knowledge on structural soundness;
   - A test of knowledge on structural readiness;
   - A test of knowledge on structural soundness and proficiency for structural soundness;
   - A test of knowledge on structural readiness and proficiency for structural readiness;
3. Ability: A test of ability includes:
   - A test of knowledge on structural soundness and proficiency for structural readiness;
   - A test of knowledge on structural readiness and proficiency for structural soundness;
   - A test of knowledge on structural soundness and proficiency for structural soundness and proficiency for structural readiness;
   - A test of knowledge on structural readiness and proficiency for structural soundness and proficiency for structural readiness;
4. Experience: A test of proficiency includes:
   - A test of proficiency and proficiency for structural soundness;
   - A test of proficiency and proficiency for structural readiness;
   - A test of proficiency for structural soundness and proficiency for structural soundness;
   - A test of proficiency for structural readiness and proficiency for structural readiness;
5. Awareness: A test of proficiency includes:
   - A test of proficiency and proficiency for structural soundness;
   - A test of proficiency and proficiency for structural readiness;
   - A test of proficiency for structural soundness and proficiency for structural soundness;
   - A test of proficiency for structural readiness and proficiency for structural readiness;
6. Experience: A test of proficiency includes:
   - A test of proficiency and proficiency for structural soundness;
   - A test of proficiency and proficiency for structural readiness;
   - A test of proficiency for structural soundness and proficiency for structural soundness;
   - A test of proficiency for structural readiness and proficiency for structural readiness;

Profit:
The VLGC carrier owner has reported a small profit for 2Q16 and the company says that demand in the Far East is likely to remain firm both in the short and long term.

Lateral plan:
The vessel's progress through the Firth was being closely monitored.
prohibited fishery limits (n) (navig, safety) područje zabranjenog ribolova

project /ˈprɔdʒekt/ (n) projekt

project cargo (n) (cargo) materijal i oprema za sastav specijalnih projekata izvan domova, npr. fabrika ili autocesta.

projected route (n) (navig) zacrtana ruta plovidbe

projection /ˈprɔdʒɛkʃən/ (n) (navig) projekcija, Mercator ~ Merkatorova projekcija

projection plane (n) (nav arch) ravnina front view projection plane nacrtna ravnina, top view projection plane tlocrtna ravnina

projector /ˈprɔdʒɛkta/ (n) (navig) SEE searchlight reflektor: LPG & LNG tankers should be equipped with own projectors conform to the Suez Canal Authority's rule of Navigation, and that said projector should be gaslight.

prolong /ˈprɔlɔŋ/ (v) produljiti (vremenski), produžiti

prolonged /ˈprɔlɔŋd/ (adj) produžen, dugotrajniji

prolonged blast (n) (ship handling, seamanship, comm) A blast of from 4 to 6 seconds' duration.

promenadadeck (n) (nav arch) promenadna paluba, šetna paluba

prominent object (n) (navig) markantni objekt

promissory note /ˈprɔmisəriˌnəut/ (n) (mar law, sailing vessels) an unconditional promise in writing made by one person to another signed by the maker, engaging to pay, on demand or at a fixed or determinable future time, a sum certain in money, to, or to the order of, a specified person or to bearer. (BILLS OF EXCHANGE ACT 1882. Part IV.)

promote /ˈprɔməut/ (v) 1 unaprijediti, poboljšati be ~e to the rank of officer biti unaprijeđen u rang časnika: Following interim advances in rank, he was promoted to master in 2008.; 2 spospješiti; 3 pomagati

promotion /ˈprɔməʃən/ (n) 1 a unapređenje (u viši range, na novu dužnost); 2 reklamiranje (proizvoda, usluge)

prompt (adj) hitar, brz, bez oklijevanja
promulgate /ˈprəʊmləɡət/ (n) 1 (mar law) proglasiti, donijeti na snagu: Orders for the provision of pilotage services to any vessel are to be made in such manner as may from time to time be directed by the Trustees and promulgated by an appropriate Notice to Mariners Recommendation: Promulgate the requirements for gateways in vessels’ rails or bulwarks intended for pilot boarding operations by updating its Required Boarding Arrangements For Pilot poster. www.gov.uk/maib; 2 primijeniti, proširiti (pouku, preporuku, odluku): Following its internal investigation, the manager of the company has amended the procedures for the use of VHF for collision avoidance, and promulgated the lessons learned from this accident to its fleet. www.gov.uk/maib

prongs (n) (cargo) vile, vilice (viličara)

proof (n) (mar law) dokaz burden of ~ teret dokaza

propagation /ˌprəˈpleɪʃən/ the act or process of moving through, causing to move through, or transmitting, esp in the form of a wave širenje (radarskih, elektromagnetskih itd.) valova, propagacija (radarskih itd.) valova ~ speed brzina širenja (radarskih) valova, pulse ~ širenje impulsa: Air ducts created by atmospheric conditions can affect radio pulse propagation and thus radar range.

propagation delay (n) (navig) propagacijsko kašnjenje (u sustavu GPS) time shift vremenski pomak, pomak korisničkog sata od GPS vremena, PRN (pseudo range noise) signal za određivanje udaljenosti, PRN

![Diagram of GPS satellite and clock synchronization](image-url)
propane /ˈprəʊpeɪn/ (n) (chem) propan
propel /ˈprɛpəl/ (v) (marine eng) pogoniti, pokretati, tjerati
propeler thrust (n) (nav arch) the effort delivered by a propeller in pushing a vessel ahead
potisak propelera, odriv propelera
propelled /ˈprɛpəld/ (adj) (marine eng) pogonjen, tjeran mechanically ~ na mehanički pogon
propeller /ˈprɛpələ/ (=prop (slang)) brodski vijak, propeler, Italian: elica: A prototype of the world’s first class approved ship’s propeller has been produced using 3D printing techniques controllable pitch ~ prekretni propeler, vijak s prekretnim krilima: Propellers of the CP-type have a relatively larger hub compared with the FP-propellers because the hub has to have space for a hydraulically activated mechanism for control of the pitch (angle) of the blades. (https://marine.man.eu/docs/librariesprovider6/propeller-aftship/basic-principles-of-propulsion.pdf?sfvrsn=0, fixed ~ fiksnii propeler, vijak s fiksnim krilima: Propellers of the FP-type are cast in one block and normally made of a copper alloy. https://marine.man.eu/docs/librariesprovider6/propeller-aftship/basic-principles-of-propulsion.pdf?sfvrsn=0, variable pitch ~ prekretni propeler, obstruct the ~ zapriječiti propeler, predstavljati zapreku propeleru, turn the ~ pokrenuti propeler, left-hand(ed) ~ propeller that turns anti-clockwise in forward lijevokretni propeler: Do you have a right-hand or left-hand propeller? (IMO SMCP), right-hand(ed) ~ propeller that turns clockwise in forward desnokretni propeler
propeller blade (n) (nav arch) krilo propelera, lopatica propelera, pata: The buoy’s superstructure was damaged and its mooring chain was severed by the ferry’s propeller blade. o A ship with bent or cracked propeller blades might experience severe vibrations while sailing.

http://www.machineryspaces.com/Propeller.html
propeller diameter (n) (nav arch) the maximum radius of one blade multiplied by 2 promjer propelera
propeller drag (n) (boating/yachting) otpor propelera pri jedrenju, zavlačenje propelera pri jedrenju: A fixed three-bladed prop, locked in gear, exerts as much drag as hanging a bucket over the stern. Under sail, the drag of folding and feathering props is tiny compared to a standard fixed-blade unit.
propeller performance (n) (boating/yachting) Pitch, diameter, number of blades and handedness all determine a propeller's performance. Thus the ahead or astern pitch varies according to engine rpm, which improves propeller performance and fuel economy, with reduced rpm for a given cruising speed.

On the other hand, with astern propeller performance, in general it was the feathering props that came out best, with better bollard pull than the standard, and better stopping times, and the Autostream coming out top.

propeller pitch (n) (nav arch) korak propelera, uspon lopatice

propeller post (n) (nav arch) statva brodskoga vijka, statva propelera
propeller shaft (n) (marine eng, nav arch) propellerska osovina, Italian: albero

d’elica
http://www.propellerpages.com/?c=articles&f=2006-02-17_Ship_Propulsion

propeller shaft bearing (n) (boating/yachting, nav arch) ležaj propellerske osovine

propeller slip (n) (marine eng, navig, nav arch) the difference between the actual distance travelled minus the distance traveled in frictionless water (https://safety4sea.com/) klizanje propelera, proklizavanje propelera

propeller thrust (n) (nav arch) The effort delivered by a propeller in pushing a vessel ahead. (https://www.history.navy.mil/) izboj propelera

propeller walk (=prop walk) (n) 1 = prop walk smjer okretanja propelera; 2 (n) (navig) tendency for a propeller to push the stern sideways. In theory a right hand propeller in reverse will walk the stern to port zanošenje krme u stranu (zbog vrtnje propelera)

proper course (n) (navig, boating/yachting) kurs pravi jedrilice

properly (adv) ispravno, pravilno, propisno, valjano, prikladno: The cargo must be stowed properly. Tert valja složiti pravilno.

properly and carefully (adv) (mar law) uredno i brižljivo prevoziti, čuvati, brinuti se (za teret)

property /ˈprɒpətɪ/ (n) salved ~ spašena imovina, fixed ~ nekretnine, movable ~ pokretna imovina 1 svojstvo, osobina, karakteristika ~ of the cargo karakteristika tereta, special properties of cargo posebna svojstva tereta; 2 (mar law) imovina

property on board (n) (mar law) objekti spašavanja koji obuhvaćaju teret na brodu, brodsku opremu, pripratke i zalihe, vozarinu i prevozninu, putničku prtljagu i osobne stvari posade stvari s broda

PROP IMM (%) (n) (stabil, nav arch) uronjenost propelera u %

proprietary rights /prəˈpræɪərəri/ (n) (mar law) stvarna prava na brodu

propulsion /prəˈpʌlʃən/ (n) (mar law) stvarna prava na brodu

mechanical ~ mehanički pogon, diesel ~ dizelski pogon 1 pogon, propulzija ~ plant pogonsko postrojenje, pogonski uređaj, ~ unit pogonsko postrojenje, pogonska jedinica, marine ~ brodski pogon, steam ~ parni pogon, electric ~ električni pogon, električna propulzija, dieseled ~ dizel-električni pogon

propulsion load (n) (marine eng) COMPARE hotel load pogonsko

propulsion machinery (n) (marine eng, nav arch) pogonski strojevi: The propulsion machinery
machinery is comprised of the two engines, two gearboxes and two controllable pitch propellers, propulsion power (n) (marine eng) the total maximum continuous rated output power, in kilowatts, of all the ship’s main propulsion machinery which appears on the ship’s certificate of registry or other official document (STCW 2010) porivna snaga propulsion system (n) (marine eng) porivni sustav propulsive (adj) (marine eng) pogonski, propulzivan propulsive power (n) (marine eng, nav arch) porivna snaga, pogonska snaga: Propulsive power is provided by a Sulzer 6RTA62, single acting, direct reversing, two-stroke diesel engine.

prop wash (n) (nav arch, ship handling) vodeni mlaž propelera: The thrust was so much that the prop wash acted as a small tsunami swamping boats and overturning piers at the marina.

prop work ahead (n) (boating/yachting) izboj naprijed
prop work astern (n) (boating/yachting) izboj unatrag
prosecute /proʊˈsiːt/ (v) 1 tužiti, voditi optužbu: The U.S. Department of Justice says 2016 was record year for prosecuting shipping companies and crew for illegal discharges from ocean-going vessels in U.S. waters. gCaptain <info=gcaptain.com@mail83.atl51.rsgsv.net> The master of the MV .... was prosecuted under section 58 of the Merchant Shipping Act 1995 following an investigation by the Maritime & Coastguard Agency.; 2 (shipping econ) vršiti, izvršiti ~ the voyage izvršiti putovanje, obaviti putovanje prosecution (n) 1 tužba: The court ruled that, in a prosecution for violation of the Seaman’s Manslaughter Statute, the government need only prove simple negligence. <tlCorpus><sentence>1 over 1,500 pirates have been captured and released by naval ships because of the lack of any legal authority or jurisdiction for their detention or prosecution. <source>MaritimeProfessional-2014-03</source></sentence></tlCorpus> <tlCorpus><sentence>her vessels or structures such as berths or jetties (this includes damage caused by wash or draw off due to excessive speed), is an offence liable to prosecution. <source>21-ME Arrival at a port</source></sentence></tlCorpus> <tlCorpus><sentence>rigo of _ (tons) of _ (name of cargo) in bulk, for delivery at this port (or at port of _____) unto Messrs _ (Cargo Receivers), and that, During the prosecution of the said voyage and on the date (here describe the accident, machinery breakdown, or heavy weather). <source>30_SEAPOTEST_&_LettersofProtest</source></sentence></tlCorpus> ; 2 (mar law) ANTONYM defense tužiteljstvo, tužitelji prosecutor (n) ANTONYM defense attorney tužitelj: <tlCorpus><sentence>The seriousness of deficiencies varied from reporting to prosecutor, prohibition or banning to legal actions, such as injunction or order. <source>Maritime_Transport_and_Risks_of_Packaged_Dangerous_Goods</source></sentence></tlCorpus>

prospect /ˈprɒspekt/ izgled ~s 1 izgledi; 2: What are the ~s? Kakvi su izgledi?

protect /prəˈtektr/ ~ against zaštititi od 1 zaštititi ~ from zaštititi od; 2 braniti protecting (n) (mar law, mar ins) osiguranje od odgovornosti za štete nanijete brodu i posadi protecting agent (n) (mar law, mar ins) prijevoznikov agent protection (n) zaštita give ~ zaštititi, pružiti zaštitu Protection and Indemnity Insurance; P & I Insurance /ˌpənˈdeɪn ɪnˈfɔrəns/ (n)
Protection and Indemnity Insurance is mutual insurance which covers shipowners' liability to third parties for damage to their ship or cargo, as well as statutory liabilities such as pollution and wreck removal, but does not cover direct losses to the shipowner's own ship or cargo - Tetley; Insurance obtained through a mutual association formed by shipowners to provide liability indemnification protection from various liabilities to which they are exposed in the course of their business, and which spreads the liability costs of each member by requiring contribution by all members in the event of a loss. (http://www.globalshiplease.com/glossary.cfm); Mutual protection provided by an association of shipowners against liabilities not covered by insurance. (www.euronav.com)

PSC ≠ Port State Control (n) = port state control (mar law, safety)

kontrola/nadzor od strane države luke u kojoj se brod nalazi ~ inspection inspekcijski nadzor od strane države luke u kojoj se brod nalazi: Ships

Prepare for PSC Inspection for #IMO2020, ~ Inspector PSC inspektor: PSC inspector may ask and check the approved documentation relating to any installed exhaust gas cleaning systems

www.marineinsight.com

pseudo random noise (n) (navig) pseudo-slúčajno generirani nizovi jedinica (u sustavu GPS)

pseudorange (n) (navig) pseudoudaljenost (u sustavu GPS)

PSV; (platform supply vessel) (n) (nav arch) brod za opskrbu /
psychrometer /səˈkrɒmɪtər/ (n) (meteorol) a hygrometer consisting of wet-bulb and dry-bulb thermometers, the difference in the two thermometer readings being used to determine atmospheric humidity. psihrometar

PTO system (=Power Take-off system) (n) (marine eng) The additional energy generated in the main engine is taken off by the shaft generator to produce electricity as an alternative to the four-stroke gen-sets (https://www.marineinsight.com) sustav PTO, pregonski sustav, sustav oduzimanja snage (radi proizvodnje električne energije), sustav odvajanja snage (radi proizvodnje električne energije): Power Take Off (PTO) systems are available in a power range of 500 kW to 3000 KW in low voltage (450 V) technology and above 3000 kW up to 7000 kW in medium voltage (6600 V) technology. Direct connection to the ship mains without requiring a step-up transformer ensures an efficiency factor above 91%. https://www.wartsila.com

public address announcement (n) (comm, safety) objava putem brodskog razglasa: The master sounded the fire alarm and made a public address announcement ordering all hands to their emergency muster stations.

Public Address System (n) (safety) brodski razglas: the master announced over the Public Address System that a fire had been discovered and the passengers and crew to report to their lifeboat embarkation area

public address system (PA system) (n) (comm) brodski razglas, razglasni uređaj

public domain /dəˈmeɪn/ (n) (mar law) Domaine public - (public domain) - A French civil law term referring to all property of the French State which is incapable of ownership by virtue of its nature or the purpose for which the property is destined. Such property is unseizable, inalienable and imprescriptible http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm javno dobro

public port authority (n) (mar law, ports) a public port authority that owns and maintains the docks and other facilities, and sometimes directly operate the marine terminal that ocean common carriers use (https://www.fmc.gov/resources/marine_terminal_operators.aspx) uprava luke za javni promet

public sector (n) (shipping econ) ANTONYM private sector javni sektor, državni sektor

public service port (n) (ports, mar law) COMPARE private service port The port authority of public service ports performs the whole range of port related services, in addition of owning all the infrastructure. They are commonly a branch of a government ministry and most of their employees are civil servants. Some ancillary services can be left to private companies. Because of the inefficiencies they are related with, the number of public service ports has declined. (https://people.hofstra.edu/geotrans/eng/ch4en/conc4en/tbl_public_privte_roles_ports.html) luka za javni promet, državna luka za javni promet: While public service and tool ports mostly exist to promote public interests, landlord ports attempt to balance public and private interests

public ship (n) (mar law) javni brod

public tender (n) (mar law, shipping econ) javni natječaj ~ offer punuda na javnom natječaju: CMA CGM launched its public tender offer for CEVA shares .... This transaction allows CMA CGM to expand its presence in the logistics sector, which is closely related to
puff = gust: nalet vjetra, reful

pull (v) (seamanship) vući (o tegljaču): the forward tug was pulling ahead tegljač po pramcu vukao je brod prema naprijed. At 0103, with one tug pulling aft, the vessel’s engine driving astern and two tugs and the bow thrusters pushing to starboard, the vessel refloated on the rising tide. MAIB Report 23/2017 The tug is pulling the barge. The forward tug was ordered to pull full. ~ the vessel vući (tegliti) brod, ~ the vessel off the berth vući brod od veza: The pilot then ordered the tug to pull the vessel’s stern off the berth

pull (n) 1 vlak, sila vlaka, sila vučenja ~ force vlačna sila (tegljača), sila vučenja, bollard ~ vlačna sila na kuki (tegljača); 2 potezanje, povlačenje pull along (v) (seamanship) vući dalje, tegliti skroz pull apart (v) razdvojiti, rastaviti, raskinuti pull clear (n) (navig) izvući (nasukani brod), odsukati brod: The ship was pulled clear after less than one hour and towed to the anchorage

pulley /ˈpʌli/ (n) (cargo handling) kolotur, užnica, kolut, Italian: puleggia ~ guide kolutna vodilica

pull in (v tr) (ship handling) podizanje (lanca, sidra, užeta): Paying out anchor wire and pulling wire in was noisy and dangerous.
pull off (v) (seamanship) izvući: The larger tug was transferred aft to pull the ship off.
pull of wind (n) (marine eng) zapuh, nalet vjetra, reful

pull out (v) izvući, istrgnuti

pull over (v) zaustaviti (auto)
pull the line on board (v) (seamanship) povući konop na brod

pull the sail in (v) (boating/yachting) ANTONYM ease the sail out zategnuti jedro (škotom), povući jedro

pulp /pʌlp/ (n) (cargo) pulpa, celuloza

pulpit /ˈpʌlpɪt/ (n) (boating/yachting) A sturdy railing around the deck on the bow.

pulse elongation (n) (navig) modulacija jačine odraza / jeke (radarskog signala)
pulse fishing (n) (fishing) ribolov puštanjem električne struje (elektrokucijom), ribolov električnom strujom: Like the use of explosives and poison, pulse fishing is technically banned in the EU. This is about a technique called pulse fishing, where trawlers use nets that generate an electric current. http://www.bbc.com/news/world-europe-42692924

pulse generator amplifier / symbol generator; PA/SG (n) (navig) generator
elektromagnetskih impulsa (u predajniku radara)

**pulse length** *(n) (navig, electr)* duljina impulsa (radara) long ~ dugački impuls: Use a longer pulse when your objective is long range detection, a shorter pulse when resolution is important, medium ~ srednji impuls, short ~ kratki impuls, set the 1 postaviti duljinu impulsa, appropriate 1 odgovarajuća duljina impulsa, pravilna duljina impulsa, choose the ~ odabrati duljinu impulsa, preset ~ predodrediti duljinu impulsa, postaviti duljinu impulsa ranije

**pulse repetition rate (PRR)** /*spls/ *(n) (navig)*/ impulsna frekvencija

**pulse stretching** *(n) (navig) = pulse elongation* modulacija jačine radarskog odraza / jeke

**pulse turbocharger** *(n) (marine eng)* turbopuhalo pulsirajućeg sustava

**pump** /*pʌmp/ *(v) (marine eng)*/ 1 crpiti, sisati, tlačiti, pumpati; 2 nalijevati, pretakati sisaljkom

**pump** /*pʌmp/ *(n) (marine eng, cargo handling)*/ crpka, sisaljka, pumpa submersible ~ uronjiva pumpa, auxiliary ~ pomoćna pumpa, axial flow ~ aksijalno protočna pumpa, booster ~ dodatna pumpa, buster-sisaljka, centrifugal ~ centrifugalna pumpa, circulating ~ cirkulaciona pumpa, protočna pumpa, extraction ~ pumpa kondenzata, feed ~ napojna pumpa, fresh water ~ pumpa sletke vode, fuel ~ pumpa goriva, pumpa za dovod goriva, fuel ~ rack zupčasta letva pumpe za dovod goriva, gear ~ zupčasta pumpa, hydraulic ~ hidraulična pumpa, jerk ~ visokotlačna pumpa s razvodnim klipom (za ubrizgavanje goriva), Boschova pumpa, *Bosch-pumpa*, luboil ~ pumpa ulja za podmazivanje, lubricating oil supply ~ dobavna ulja pumpa za podmazivanje, pumpa za dobavu ulja, positive displacement type ~ pumpa potisnog tipa, priming ~ pumpa za punjenje (cjevovoda), pumpa za pripremanje prije rada, pumpa za predpodmazivanje, pumpa za uhodavanje, seawater ~ pumpa morske vode, separately driven ~ pumpa sa samostalnim pogonom, service ~ pumpa za opsluživanje, supply ~ dobavna pumpa, pumpa za dobavljanje, transfer ~ prijenosna pumpa, pumpa za pretakanje, ~ driven from the engine pumpa privješena na pogonski stroj, ~ suction line usisni vod pumpe, ~ action tlačenje, reciprocating ~ stapna sisaljka, stapna pumpa, bilge ~ kaljužna sisaljka, kaljužna pumpa, double-acting ~ dvoradna pumpa, pumpa koja radi u oba smjera, single-acting ~ jednoradna pumpa, jednosmjerna pumpa, reciprocating ~ stapna pumpa, reciprocna pumpa, displacement ~ istisninska pumpa positive ~ volumetrijska pumpa, volumenska pumpa istisniska pumpa, volumetrijska pumpa, duplex double acting ~ dvojna dvoradna pumpa, simplex single acting ~ jedoradna pumpa tipa simplex, oil-fuel pressure ~ tlačna sisaljka za gorivo
pump drive  (n) (marine eng) pogon pumpe: The engine is reversed by a simple and reliable mechanism, which incorporates an angularly displaceable roller in the fuel pump drive of each cylinder.

pumping equipment  (n) (marine eng) 1 pumpna stanica; 2 pumpni uređaj, crpni uređaj: Pumping equipment is provided in the tanker storage plant or refinery ashore, but not on the quayside.

pumping rate  (n) (cargo handling) kapacitet pumpe, kapacitet pumpanja (tlačenja/crpljenja): All operations undertaken during loading and discharge should be logged by the ship including details of all valve positions, changes in valve usage, pumping rates, manifold pressures and vessel’s draught and trim.

datacile pompe

datacile pompe

pumpman  (n) rukovatelj pumpa, poslužitelj sisaljka, pumpman

pump out  (v) (seamanship) izbacivati (vodu iz skladišta, tanka, prostorija): On its way to the port, the crew on board were pumping out the water from the vessel. (https://safety4sea.com/)

pumproom  (n) (nav arch, cargo handling) An enclosed area on a tank vessel which houses main and stripping cargo pumps, ballast pumps, eductors and the associated piping and valves necessary for their operation. (www.euronav.com) pumpna stanica, pumprum, Italian: locale delle pompe

pump station  (n) (nav arch) Pumpna stanica je prostor opasne zone (engl. Hazardous area), a smještena je između pramčane pregrade strojarnice i krmene pregrade teretnih tankova. ( pumpna stanica

pump well  (n) (nav arch) pumpni zdenac

punch1 /pʌntʃ/ (v) označiti (točku bušenja), punktirati
punch2 /pʌntʃ/ (n) (marine eng) probojac, probijač, perforator

punched /pʌntʃd/ (adj) bušen, ukucana dlijetom (oznaka)

puncture1 /ˈpʌŋkʃə/ (n) (navig) rupa (pri sudaru, dodiru), proboj

puncture2 /ˈpʌŋktʃə/ (v) probiti: A 60 cm by 20 cm hole was punctured above the waterline in way of a ballast tank

punt (n) 1 (seamanship) A rectangular flat-bottomed boat used by vessels for painting the ship’s side and general use around the ship’s water line, fitted with oar-locks on each side and usually propelled by sculling. https://officerofthewatch.com/tools/maritime-dictionary/ splav / barkasa za radove oko broda; 2 (nav arch) čun (na riječi)

purchase1 /ˈpɜːtʃ/ (v) (mar law, shipping econ) kupiti, nabaviti ~ department nabavna služba

purchase2 /ˈpɜːtʃ/ (n) (nav arch, cargo handling) a tackle; blocks and falls; any mechanical advantage which increases the power applied; the mechanical advantage gained from the use of line
and pulleys (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) čekrak, paranak
threefold ~ a tackle containing two three sheave blocks trostruki čekrak (s tri užnice)
purchase /ˈpɜːʃɪs/ (v) (cargo handling) podići čekrkom
purchase order (n) (shipping econ, mar law) Common grouping of orders for goods/services.
(nhttp://www.maerskline.com/en-jm/help/shipping-glossary/) narudžba usluge, nalog za kupnju, skupljanje narudžba za usluge: Most customers group their orders in a particular way to facilitate distribution at the other end.
purchase price (n) (shipping econ) kupovna cijena
purchaser /ˈpɜːʃər/ (n) (mar law) = buyer kupac
purchaser /ˈpɜːʃər/
purchaser /ˈpɜːʃər/ brodski ekonom
purge /ˈpɜːdʒ/ (v) ispirati, čistiti
purging (n) (cargo handling) čišćenje tanka ispiranjem
purifier /ˈpjuəriˌfaiər/ (n) (marine eng) a device or a substance that is used to purify something such as water, air, oil, etc.; an instrument or equipment that purifies something. Now-a-days due to increase of pollutant in air; our air is becoming polluted and to counter the problem of air pollution.
(http://www.free-marine.com/i3purifier.htm) Purifier is also termed as Centrifuge, as on-board the vessel, purifier use centrifugal force to separate the two medium. A purifier consist of a electric motor which drive the various component, such as Bowl, Nodge (rotating counter), Tachometer, Gear-pump(via pinion gear) (https://shipfever.com/purifier-basic-principle-working/) pročistač, prečistač ulja: Oil purifiers are used on board ship to condition fuel oil and lubricating oil. The oil purifier makes use of centrifugal force to separate fine solids which cannot be filtered out from the oil.
purify /ˈpjuəriˌfai/ (v) čistiti
purser /ˈpɜːsər/ (n) (mar law) brodski ekonom, brodski administrator, brodski komesar
purse seine (n) (fishing) In purse seine fishing the vessel surrounds the school with netting before bringing the bottom together into a purse-like enclosure. mreža plivarica: Purse seine fishing is a technique targeting pelagic (surface/open ocean) schooling fish such as tuna and mackerel.
purse seiner (n) (nav arch, fishing) plivaričar, kočar s mrežom plivaricom
pursuant to (the terms of the contract) /pəˈsjuːənt/ (conj) (mar law) u skladu s (uvjetima ugovora), sukladno, prema, što slijedi iz
push (v) (seamanship) ANTONYM pull: gurati (o tegljaču), potiskivati, goniti:
Two tugs, secured to the vessel, were pushing square at idling revolutions the aft tug’s stem was pushing on the cargo vessel’s stern with the aft towline tight. krmeni tegljač gurao je svojim pramacem krmu broda, pri
The pilot then ordered for the tug to push with full power on the ship’s starboard shoulder. ~ ahead gurati prema pramcu / naprijed, gurati krmu, gurati po krm, ~ astern gurati prema krm / nazad, ~ apart odvojiti, rastaviti, ~ on the stern gurati po krm, ~ clear the ship of the berth gurati brod dok se ne odvoji od veza: The first two tugs were secured and the third tug was standing by to push on until clear of the jetty. (https://safety4sea.com/)

**pushboat** (n) (nav arch) potiskivač
http://swiftships.com/vessels/23-meter-push-boat/

**push button** (n) (electr) pritisno dugme (za uključivanje/isključivanje), dugme-preklopkta

**pusher boat (=pusher tug)** (n) (nav arch, inland waterways) potiskivač, gurač

**pusher tug (=pusher; pushboat)** (nav arch) Tug designed for or engaged in pushing barges from behind. https://officerofthewatch.com/tools/maritime-dictionary/ potiskivač

**pushing** (n) (seamanship) guranje (broda tegljačem)

**pushing off** (n) (boating/yachting) odguravanje (brodice od obale)

**push mode** (n) (navig) režim guranja, stav guranja remain in the ~ ostati u režimu guranja, nastaviti gurati: The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode.

**pushpit** (n) (boating/yachting) krmena ograda

**push point** (n) (navig, seamanship) točka guranja (tegljača o brod): There was a very long lever between the ship’s pivot point and tug’s push point. Poluga između točke okretanja broda i točke guranja tegljača bila je preduga. The card was supplemented by a ship’s particulars sheet and a bollard pull diagram, indicating the preferred tug pushing points and bollard safe working loads. www.gov.uk/maib

**push rod** (n) (marine eng) podizač ventila, podizna motka (usisnog i ispušnog ventila)

**push tug** (n) (nav arch) = pusher boat gurač, potiskivač
put (v) staviti ~ into a port skrenuti u luku (spasa, zakloništa, popravka), ~ off (the ship’s arrival) odgoditi (dolazak broda), zavući, otkazati, ~ out of commission (shipping econ) staviti (brod) izvan plovidbe / servisa

put about (v) (navig, sailing vessels) okrenuti se natrag (o plovidbi broda): C. Columbus agreed to put about if they didn’t sight land in a few days. “The Sea and Civilization: A Maritime History of the World” by Lincoln P. Paine” (http://a.co/3NXFSun)

put ashore (v) iskrcati se (o pomorcu), iskrcati (pomorca)

put in a port (=put into) (v) (boating/yachting, navig) to enter a port or harbor

https://www.ypiyachts.com/, to bring a vessel into port uploviti u luku: The ship is putting in at about noon.

put in gear (v) (seamanship) uključiti (spojku sidrenog vitla), pokrenuti

put on slow ahead staviti (stroj) u vožnju polagano naprijed: The engine was put on dead slow ahead at 0853 but at 0857 the alternators cut out, all power was lost and the engine stopped.

put out ugasiti ~ the fire pogasiti vatru, ugasiti požar: The fire was completely put out at 03:28 h local time on 4 August. Our focus now is to put the fire out and get access to the vessel to assess damage to the vessel and cargo A team of firefighters were sent to the scene and managed to put out the fire.

put the engine ahead / astern (v) (navig, seamanship) staviti stroj u vožnju naprijed / nazad (krmom): The Master of the tanker put the engine astern but a collision ensued nonetheless. Once the vessel was starting to refloat the engines were put astern in an attempt to bring her into deeper water ... (https://safety4sea.com/)

put the windlas in gear (v) (seamanship) uključiti spojku sidrenog vitla, uključiti sidreno vitlo, pokrenuti sidreno vitlo, uglobiti lanac / verigu (sidra), ngranat; Italian: ingranare il salpancora

put the wind on the starboard (port) bow (quarter) (v) (meteorol, navig) okrenuti brod desnom (lijevom) stranom pramca (krme) prema vjetru (u tropskoj oluji): in the path of a tropical revolving storm, put the wind on the port quarter and alter course to starboard as the wind veers

put to sea (v) (navig) to leave port isploviti, otisnuti se, largat (se)

put to (three) shackles (n) (seamanship, navig) pustiti (tri) uze lanca u more

put weight on (n) (seamanship) zategnuti uže, napeti (uže): the tug master put weight onto the towline zapovjednik teglja ča napeo je uže za tegljenje

PW WD (per weather working day) (shipping econ) po svakom radnom danu, ako to dopuštaju vremenske prilike

pyrometer /ˈpaɪrəmətər/ (n) (marine eng) naprava za određivanje vrlo visokih temperatura
pyrotechnics /ˌpaɪrəʊˈtɛknɪks/ (n) (safety) flares, rockets, powder, etc., used for giving signals or for illumination, more generally used as distress signals pirotehnika

PZx triangle /ˌpiː ˈzed ˈtrai æŋɡəl/ (n) (navig) astronomski trokut, navigacijski

QTY (quantity) količina (tereta)

quadrant /ˈkwɔdrent/ (n) (navig) a reflecting hand navigational instrument constructed on the same principle as the sextant but measuring angles up to 90 degrees only kvadrant

quadrireme /ˈkwɒdri riːm/ (n) (nav arch, boating/yachting) a galley with four banks of oars četverovesla, kvadrirema

qualification 1 kvalifikacija; 2 izmjena, modifikacija without ~ (mar law) bez primjedaba; 3 ograničenje (u zakonu, konvenciji); 4 svjedodžba, ovlaštenje: The ship’s crew held qualifications for their positions in accordance with international requirements.

quality control (n) The systematic planning, measuring and control of a combination of people, materials, metrology and machines, with the objective of producing a product that satisfies the quality and profitability of the enterprise. (http://www.maerskline.com/en-jm/help/shipping-glossary) kontrola kakvoće, kontrola kvalitete

quality unknown (n) (mar law, shipping econ) kakvoća nepoznata (u teretnici)

quarantine /ˈkwɔrən tiːn/ (n) (safety) restricted or prohibited intercourse due to contagious disease karantena: Facing extensive delays in port or quarantine can be difficult for the crew. https://safety4sea.com/delays-in-ports-globally-due-to-the-coronavirus/ ~ inspection karantenski pregled: There is only one designated quarantine area for all vessels subject for quarantine inspection., enter ~ ući u karantenu: On February 4, the authorities announced positive test results for SARS-CoV-2, the cancellation of the cruise, and that the ship was entering quarantine.

quarantine disease /ˈkwɔrən tiːn/ (n) (med) karantenska bolest

quarter /ˈkwɔːtə/ (n) 1 četvrtina one ~ jedna četvrtina, three ~ s tri četvrtine; 2 (nav arch, navy) the part of a vessel’s side towards the stern, usually aft of the aftermost mast kvartir, bočna strana krme port ~ lijevi kvartir, Italian: giardinetto di sinistra, straboard ~ desni kvartir, Italian: giardinetto di dritta; 3 the general direction along the water in the quadrant between the beam of a vessel and its stern smjer bočno po krmi on the port / starboard ~ po lijevom / desnom kvartiru
quarter /ˈkwɑːtər/ (n) (nav arch) The upper part of a vessel's sides near the stern. (https://www.history.navy.mil/) kvartir, krmeni kvartir

quarterdeck /ˈkwɔːtərde克/ (n) (nav arch) the aftermost deck of a warship; Deck area designated by the commanding officer as the place to carry out official functions; station of the OOD in port. (http://www.quarterdeck.org/index.html) krmena paluba, zapovjedničko mjesto (na jedrenjaku)

quarterdeck area (n) (navy) a part of a deck on a naval vessel set aside by the captain for ceremonial and official use paluba krmenog kvartira ceremonijal ~ krmena paluba za svešane namjene (pozdrava itd.)

quarterings /ˈkwɔːtərɪŋz/ (n) (cargo) teret drva četvrtačeg profila četvrtač u gredic četvrtačeg profila

quartering sea (n) (navig) sea on the quarter (coming from a side of the stern). valovi u kvartir, valovi u bok krme

quartermaster (QM) (n) (seamanship) kormilar: 1 kormilar; 2 (navy) mornar na križu (jedrenjaka) quarterman /ˈkwɔːtəmən/ (n) 1 kormilar; 2 (navy) mornar na križu (jedrenjaka)

As the ferry began its crossing at 21 knots, visibility was 4-5nm and a quartermaster (QM) was on the bridge. The bridge team consisted of the master, second officer, third officer, quartermaster and a lookout. The mooring watch was set, the quartermaster positioned at the gangway and an OOW on the bridge. On the bridge were the master, who was on the port wing and had the con, the OOW and a quartermaster.

quarter rudder (n) (boating/yachting) bočno kormilo

quarters /ˈkwɔːtərs/ (n) (nav arch, boating/yachting) living compartments on board a ship; living or sleeping rooms; Sleeping areas on the boat. https://www.ypiyachts.com nastambe (posade): Seafarers shall keep their respective quarters clean and in order. Pomorci su dužni držati svoje nastambe čistim i urednim t includes staterooms, dining salons, mess rooms, lounging places, passages connected with the foregoing, etc., individual stations for personnel for fire or boat drill, etc. https://officerofthewatch.com/tools/maritime-dictionary/ living ~ stambene prostore

quarter timbers /ˈkwɔːtər tɪmbəz/ (n) (sailing vessels) krmeno krilno rebro

quartering sea (n) (navig) sea on the quarter (coming from a side of the stern). valovi u kvartir, valovi u bok krme, valovi koso po krmi

quartier-iron (n) nutarnji prsten krilnog deblenjaka (na križu jarbola)

quay /ki/ (n) (ports) = wharf a wharf, typically one built parallel to the shoreline; a loading and discharging place, usually, paralleling the shore. Usual construction consists of a masonry wall in the water, with fill between the wall and the natural shore (Seasources.net) lučka obala,
quay apron /ˈkɪəpərn/ (n) (ports) The area between the quay wall (made of solid masonry) and the nearby warehouse or storage facility; površina između ruba obale i lučkog skladišta operativna

površina lučke obale

quay crane /ˈkiː/ (n) (cargo handling) obalna dizalica
quay rent (=quay money) (n) (logist) in addition to container hire, the shipping company often charges its clients compensation for use of a storage space at the terminal outside the free period. This is to ensure that the container is emptied and made available for reuse in the short term. naknada za najam obalne površine na terminalu (povrh vremena besplatnog korištenja obale)
quayside crane /ˈkiːsайд/ (n) (cargo handling) obalna dizalica
quick lights (n) (navig) lights exhibiting very rapid regular alternations of light and darkness, normally 60 flashes per minute kratka svjetla
quick release device (n) (seamanship) naprava za brzo otpuštanje (lanca, konopa)
quick release hook (n) (seamanship) (nav arch) kuka za brzo otpuštanje (lanca, konopa, brodice za spašavanje), brzootpusna kuka, samotpusna kuka: the ship was moored to quick release hooks on the mooring dolphins At this point, the hook released the tensioned breastline. The boat then started to lower and almost immediately stopped, at which point the quick release hook opened and the boat fell just under a metre into the water. quick release mooring

hook kuka za brzo otpuštanje

https://eurotechbenelux.com/blog/portfolio-item/romanian-quay-port-of-gdyinia-poland/

https://www.logisticsglossary.com/term/quay-rent/

http://www.pacificmarine.net/construction/marine-quick-release-hooks.htm
quick release towing hook (n) (seamanship, nav arch) samootpusna kuka za tegljenje, brzootpusna kuka za tegljenje
quick releasing device (n) (nav arch) naprava za brzo otpuštanje lanca
quick response: QR (n) (shipping econ) A consumer-driven system of replenishment in which high-quality products and accurate information flow through a paperless (EDI) system between all distribution points from the manufacturing line to the retail checkout counter.
(http://www.maerskline.com/en-jm/help/shipping-glossary) brza organizacija prijevoza putem sustava EDI
quick works (n) (sailing vessels, nav arch) = underwater parts podvođe, ribina, živa banda
quitclaim (n) (mar law) A legal instrument used to release one person's right, title or interest to another without providing a guarantee or warranty of title.
(http://www.maerskline.com/en-jm/help/shipping-glossary) prepuštanje vlasničkih prava drugome bez jamstva
quitting the ship (n) (mar law) napuštanje broda
quoin; coign; coigne /'kwain ; 'koin/ (n) (cargo) drveni klin za pričvršćivanje bačava
quotation (n) (shipping econ) 1 ponuda (s cijenom); 2 uvjet prodeja, iz INCOTERMS-a kotacija
rabate /'ri.beit/ (shipping econ) rabat, popust
rabbet plane (n) (boating/yachting, nav arch, sailing vessels) blanja
rabbets /'ræbits/ (n) (sailing vessels) a recess or groove usually of rectangular section, cut into a surface or along the edge of a wooden boat's timber kobilični utori (drvenoga broda)
race /'reis/ (n) (boating/yachting) 1 regata, regatno natjecanje, jedriličarska regata notice of ~ obavijest o regati, raspis regate; 2 jedno natjecanje jedrilicama tijekom jedriličarske regate plov the second race of the sailing regatta drugi plov regate
race: The inner or outer groove or channel bearing ring. (http://www.marinedieseleurope.com/) prsten kugličnog ležaja ~way kanal prstena kugličnog ležaja
racing (n) (boating/yachting) jedriličarsko natjecanje, regatno natjecanje
racing boat (n) (boating/yachting) regatna jedrilica
racing mark (n) (boating/yachting) oznaka na regatnom polju: The helmsman then tried to gybe to head for the first racing mark, but could not as the boat was moving too slowly.
racing rules; racing Rules of Sailing (n) (boating/yachting) regatna pravila
racing sails (n) (boating/yachting) COMPARE working sails regatna jedra,
racing yacht (n) (boating/yachting) COMPARE cruising yacht regatna jedrila
racing yachtsman (n) (boating/yachting) sportski jedriličar
rack (n) 1 (marine eng) = control rack zupčasta letva (pumpe za gorivo); 2 (nav arch) zupčanica; 3 (cargo handling) skladišna polica
rack and pinion (n) (marine eng) zupčasta letva i pogonski zupčanik
rack container (n) (cargo handling) kontejner bez strana, kontejnerska

platforma

racking (n) (nav arch) When a ship is rolling, the accelerations on the ship's structure are liable to cause distortion in the transverse direction. The deck tends to move laterally relative to the bottom structure, and the shell on one side to move vertically relative to the other side. This type of deformation is referred to as 'Racking'. (https://cultofsea.com › Ship Construction); Deformation of the section of a ship, generally applied to a transverse section, so that one set of diagonals in the plane of action is shortened while those at right angles thereto are lengthened. (https://www.history.navy.mil/)
poprečna distorzija (palube, trupa)
racking force (n) (cargo handling) a result of the static and dynamic forces within the container parallel to the ship's deck, causing damage to the container sile izvijanja kontejnera u smjeru paralelnom s palubom broda: Exceeding racking forces can be reduced by use of diagonal lashing units. In the pitching condition the racking force is acting in the

container side frames.

racon /ˈreɪkən/ (=RAdar beaCON) (n) (navig) a radar beacon which produces a coded response or radar paint, when triggered by a radar signal; A racon is a radar transponder commonly used to mark maritime navigational hazards and other navigation features. radarski far odgovarač, radarski far tip racon, rakon, radarski svjetionik: The signal transmitted by the RACON appears intermittently on the display as a Morse character, a dashed or dotted line radiating out from the beacon. In the U.S., RACONs are used to mark lighthouses and buoys, inconspicuous coastlines, navigable spans under bridges, offshore structures such as oil platforms, or environmentally sensitive areas such as coral reefs. Racons are particularly useful for showing up objects which otherwise may be difficult to identify. interrogation subsystem uređaj za odašiljanje signala, transponder subsystem uređaj za odziv, sensitivity time control automatska kontrola pojačanja prijamnika, automatic overload control sustav za automatsku kontrolu preopterećenja, slow sweep ~ racon sa sporim pretraživanjem, fast sweep ~ racon sa brzim pretraživanjem, frequency agile ~ racon s podesivom frekvencijom off-set racon s pomakom vremena,
integrated time off-set ~ upravljiivi racon s pomakom vremena

radar /ˈreɪdə(r)/ (n) (navig, ship_equipment) an electronic system designed to transmit radio signals and receive reflected images of those signals from a target in order to determine the bearing and distance to the target (Seasources.net) radar operational ~ radar u radu, radar koji je uključen, ~ out of operation 1 radar u kvaru; 2 radar koji je isključen, 3cm, X-Band, 9 GHZ ~ radar valne dužine 3 cm, X-pojasnog područja (9320-10000 MHz), 9GHz, ~ target cilj radarskog motrenja, 10cm, S-Band, 3 GHZ ~ radar valne dužine 10 cm, S-pojasnog područja (2900-3100)

radar antenna (n) (navig) radarska antena

radar bands (n) (navig, electr) There are two main frequency bands in commercial Radar: X-Band (9,000 MHz band; wavelength 3cm) and S-Band (3,000 MHz band; wavelength 10 cm). radarski pojasevi ~ frequencies frekvencije radarskih pojaseva

radar bandwidth (n) (electr) širina radarskog pojasa: radar bandwidth is normally matched to the radar pulselength and is usually switched with the range scale and the associated pulselength

radar beacon; racon (n) (navig) = racon radarski far odgovarač, radarski odgovarač

radar beam (n) (navig) radarski snop, radarska zraka, glavna radarska latica horizontal ~ horizontalni snop, vertical ~ vertikalni snop

radar beam deflection system otklonski sustav radara

radar bearing (n) (navig) radarski azimut measure ~ izmjeriti radarski azimut, odrediti radarski azimut, determine ~: Bearing to a target is determined by the direction from which a reflected echo returns.

radar blip (n) (navig) radarski signal, signal na radarskom ekranu

radar controls (n) (navig) kontrole na radaru, upravljačke naprave na radaru, kontrole radara SCANNER ON-OFF prekidač za uključivanje i isključivanje antene, START-STOP glavni prekidač za uključivanje i isključivanje motor-generatora ili statičkog konvertora, TRANSMIT prekidač za prebacivanje načina rada na odašiljanje, STAND BY-RUN spreman za rad (o radaru), spreman za odašiljanje, priprema za rad, preklopa priprema/rad, STAND BY-TRANSMIT; ST BY/TX spreman za odašiljanje, spreman za rad, priprema za rad, PRESS TO VIEW pritisni za pregled (uključuje radar na nekoliko minuta), BRILLIANCE CONTROL kontrola osvijetljenosti (radarske slike), kontrola osvjetljenja, DAYLIGHT CONTROL kontrola za pojačano osvjetljenje (za rad danju bez zaštitne maske, na ARPA radarima), GAIN dugme za pojačanje radarskog
prijamnika i kontrasta slike, dugme za pojačanje osjetljivosti / kontrasta, FOCUS CONTROL kontrola za fokusiranje, LOG / LIN CONTROL kontrola za prebacivanje između logaritamskog i linearnog obilježja prijamnika, SHIFT (CENTERING) kontrola za pomicanje / centriranje (geometrijskog i elektroničkog središta) HORIZONTAL / VERTICAL SHIFT vodoravno / okomito pomicanje, PICTURE CONTROL kontrola stabiliziranja slike, TURN PICTURE CONTROL kontrola zakretanja slike, AUTOTRIM PICTURE ALIGNMENT automatisko centriranje slike, HEADING LINE ALIGNMENT SWITCH; HL ALIGNMENT SWITCH prekidač za centriranje pramčanice, prekidač za dovođenje pramčanice u okomit položaj, HEADING MARKER OFF SWITCH prekidač za privremeno brisanje pramčanice (radi provjere prisutnosti nekog objekta/cilja ispod pramčanice), CLUTTER CONTROL kontrola za smanjivanje smetnja, ANTI CLUTTER CONTROL kontrola za smanjivanje smetnja, RAIN SWITCH preklopkova za smanjivanje smetnja od kiše, ANTI RAIN CLUTTER; A/C RAIN (FTC) kontrola/preklopkova za smanjivanje smetnja od kiše, LONG / SHORT SWITCH prekidač za mijenjanje dužine emisionog impulsa, RANGE SWITCH prekidač za namještanje dometa radara, RANGE SELECTOR SWITCH prekidač za namještanje dometa radara, birač dometa radara, SCALE INDICATOR pokazivač dometa radara, CALL RINGS prekidač za uključivanje prstenova za mjerenje udaljenosti, RANGE SELECTOR SWITCH prekidač za uključivanje prstenova za mjerenje udaljenosti, birač prstenova za mjerenje udaljenosti, FIXED RANGE RINGS stalni prstenovi za područja djelovanja radara, RANGE MARKER daljinar, prekidač za mjerenje udaljenosti, VARIABLE RANGE MARKER; VRM promjenljiva daljinska kružnica (na radarskom pokazivaču), TUNING CONTROL kontrola prilagođavanja frekvencije kistrova emisijskog frekvencijii magnetrona, namještanje frekvencije, kontrola za namještanje prijamnika, EXPANDED CENTRE SWITCH prekidač za određivanje vrijednosti napona vremenske baze, DIMM regulator osvjetljenja skale i mehaničkog smjeralca, prigušivač osvjetljenja, ELECTRONIC BEARING LINE; EBL električno smjeralo, ELECTRONIC BEARING SWITCH; EBM prekidač za uključivanje elektroničkog smjeralca, prekidač za uključivanje električnog kursora, RX MONITOR kontrola rada prijamnika, TX MONITOR kontrola rada predajnika, SPEED SWITCH prekidač za ručno unošenje brzine broda, TIDE CORRECTION kontrola za unošenje brzine i smjera morske struje, PRESENTATION SWITCH preklopkova za izbor vrste rada (TRUE MOTION, RELATIVE MOTION - HEAD UP, RELATIVE MOTION - NORTH UP), RESET prekidač za prebacivanje u početni položaj (prije automatskog prenošenja),
prekidač za resetiranje, TRACKER BALL kugla za upravljanje, TRACKBALL
/ CURSOR PAD kugla za upravljanje (kursorom), POWER
uključivanje/isključivanje radara, napajanje radara, ECONOMY način
rada radara sa štednjom energije, A/C SEA (STC) kontrola radara za
otklanjanje smetnja od valova i mora, RINGS kontrola za prikaz i
skrivanje kružnica udaljenosti, OFFSET EBL kontrola za premještanje
elektroničkog smjerala na druge objekte, PLOT kontrola za ucrtavanje
kretanja svih brodova/objekata u odnosu na vlastiti položaj, INDEX
LINES kontrola / crta za držanje stalne udaljenosti između vlastitog
broda i obalne linije (kopna) ili drugih brodova, INTERFERENCE
REJECTION kontrola uređaja za uklanjanje međuradarskih smetnja,
GUARD ALARM alarm zone oko broda, HM OFF (heading mark OFF) kontrola
za uklanjanje prikaza pramčanice, ECHO STRETCH kontrola na radaru za
izdužavanje manjih odraza / jeka, NAV kontrola na radaru za
pokazivanje/skrivanje navigacijskih podataka, kontrola NAV
radar controls - International Symbols for Radar Controls (n) (navig)
grafičke oznake kontrole radara, međunarodni znakovi za upravljanje
radar coverage (n) (comm, navig) **radarska pokrivenost**: QHM Harbour Control maintains radar coverage of the Eastern Solent including the Portsmouth Harbour Approach Channel.

radar detection (n) (navig) **radarsko otkrivanje, radarska detekcija**

radar display (n) (navig) **radarski pokazivač, pokazivač radara, radarski zaslon, radarski ekran, jedinica prikaza**: The third officer monitored the starboard radar display, which he switched between the 3nm and 6nm range scales. There was an ECDIS and radar display screen positioned on the navigation console in front of each bridge chair. The Master used the radar display and ECDIS for long-range scanning and traffic management. LCD ~ (liquid crystal display) LCD **radarski pokazivač, daylight bright CRT ~ (cathode ray tube)**

katodna cijev za upotrebu pri dnevnom svjetlu, monitor the ~ closely, monitor the ~ closely, monitor the ~ closely, monitor the ~ closely, **pratiti radarski pokazivač pomno, adjust the ~ namjesrtiti radarski pokazivač**: The master ordered the helmsman to steer 319° and adjusted the port radar display to
radar display error

radar display stabilisation (n) (navig) stabilizacija radarske slike
radar duct (n) (electr, navig) valovod, radarski kanal, kanal radara
radar echo (n) (navig) Screen of a cathode-ray tube with an intensity-modulated and persistent radial display, which rotates in synchronism with a highly directional antenna radarski odraz, radarska jeka, jeka na radarskom zaslonu, signal u prijemu
radar equation /ˈreɪdər.ɪˈkweɪʃən/ (navig, electr) jednadžba radara
radarflare (n) (navig, safety) signalna raketa s radarskim signalom
radar for pilot use (n) (navig) radar namijenjen peljaru, radar za peljara
radar gain (n) (navig) osjetljivost radara
radar horizon (n) (navig) radarski horizont: Due to refraction radar can see about 6%

Further reading:

radar interference (n) (navig) međuradarska smetnja (dvaju bliskih brodova), radarska interferencija: Mutual radar interference may occur in the vicinity of another shipborne radar operating in the same frequency band (9 GHz).

radar logbook (n) (navig) dnevnik radara: On the technical side, information recorded in the logbook includes: maintenance and repairs carried out, spares on board and their part numbers, technical
and performance details and information concerning arcs of shadow and blind sectors. On the operational side, information recorded in the logbook includes: details of detection ranges for various types of targets and information concerning detection ranges of conspicuous objects.

**radar marker (RadarMARKer)** /reɪˈmɑːrkər/ (n) (navig) radarska oznaka

**radar mast** (n) (navig) radarski jarbol

**radar navigation** (n) (navig) Radar navigation uses radar to determine the distance from or bearing of objects whose position is known. This process is separate from radar’s use as a collision avoidance system. [Bowditch 2001] **radarska navigacija**: Radar navigation is similar to traditional navigation in that you have to identify landmarks, measure their position relative to your own and use those measurements to establish a position on the chart. Radar fixing is often quicker than taking bearings with a magnetic compass and is a more professional technique than simply transferring a latitude and longitude from the GPS. 0

**radar noise** (n) (navig) radarske smetnje, radarski šum

**radar plotting** (n) (navig) radarskom plotiranje, radarsko ucrtavanje: If a risk of collision is developing a radar plot should be started or the target captured by the Automatic Radar Plotting Aid (ARPA). inaccurate ~ netočno radarsko plotiranje

**radar position fixing** (n) (navig) određivanje pozicije putem radara

**radar presentation** (n) (navig) radarski prikaz, radarska prezentacija

**radar pulse** (n) (electr, navig) radarski impuls: When radar pulses are transmitted the radar receiver is automatically tuned.

**radar (Radio Detecting and Ranging)** radar

**radar range** (n) (navig) domet radara, radarska udaljenost: The higher the scanner or target is above the surface, the longer the radar detection range. measure the ~ to a target

izmjeriti udaljenost do nekog objekta radarom meaure the ~: The range to a target may be measured three ways: with the fixed range rings, with the cursor (if set to measure range and bearing), and with the VRM., ~ rings kružnice udaljenosti, high / low ~ najveći / najmanji domet radara, determine ~ odrediti udaljenost objekta radarom: Radar determines the range to a target by measuring the amount of time required for a reflected echo to return to the scanner., switch the ~ between ... and ... (NM) prebaciti domet radara između ... i ... (milja), prebaciti radarsku udaljenost između ... i ... (milja): The range is switched between 3NM and 6NM.

**radar reach** (n) (navig) radarsko pretraživanje, traženje radarom

**radar receiver (RX) (=Rx)** (n) (navig) radarski prijamnik, radarski prijamnik, prijamnik radara

**radar receiver - technical specifications** radarski prijamnik - tehničke osobine Intermediate frequency (IF) (MHz) međufrekvencija, Short pulse kratki impuls, Medium/Long pulse srednji/dugi impuls, Noise figure (dB) šum prijamnika (dB)

**radar reflector** (n) (navig) radar reflectors are fitted to vessels or navigational buoys or other charted features to improve their reflective properties so as to make them visible to searching radar.; A metal device designed for reflecting strong echoes of impinging radar signals towards their source. (http://www.seasources.net/Radar_Terms.htm) **radarski reflektor**: The most common type od
radar reflector is the octahedral reflector (8 corner reflectors), passive ~ pasivni radarski reflektor, active ~ aktivni radarski reflektor: There are two types of active radar reflectors or radar transponders which are used to assist the navigator to identify charted objects: racons and remarks.

radar repeater (=PPI repeater, remote PPI) (n) (navig) The equipment used for reproducing the information from a radar set at a remote point by means of a cable. (https://www.iala-aism.org/wiki/dictionary/index.php/Radar_repeater) radarski ponavljač

radar resolution (n) (navig, electr) radar's ability to distinctly display two radar targets which are close to each other radarska razlučivost, rezolucija radara, radarska rezolucija

radar scanner (n) (navig) radarska antena: The scanner transmits the radio pulses and receives their reflected echoes. Most scanners rotate at a constant speed of 24 rpm. Many modern scanners rotate at variable speeds dependent upon the range in use in order to optimize radar detection.

radar scanners - technical specifications (n) (navig, electr) radarske antene - tehničke osobine beamwidth (to −3 dB) (degrees) : horizontal / vertical širina snopa u stupnjevima na 3dB: vodoravno / okomito, Sidelobe attenuation (dB) slabljene bočnih latica, Gain (dB) osjetljivost, dobitalja/jačina, Rotation rate (rpm) broj okretaja (o/min), broj obrtaja (o/min)

radarscope (n) (navig) područje obuhvaćeno radarskim ekranom

radar service (n) (navig) radarska služba: By using four radar scanner’s, the port's radar service extends from the East Lepe buoy, Western Solent to No Mans Land Fort in the Eastern Solent.

radar shadow (n) (navig) radarska sjena

radar simulation simuliranje pomaća navigacijske situacije u vremenu (Sušanj 2006) 

radarska simulacija, simulacija (na ARPA radaru)

radar simulator (n) (navig) radarski simulator (na ARPA-i): The simulator emulates a variety of the functionalities found in modern marine radar and provides control over traffic density, waterways, sea state and weather conditions.

radar station (n) (navig) radarska postaja / stanica

radar surveillance (n) (navig) radarski nadzor

radar sweep (n) (navig, electr) svijetla crta (na radarskom zaslonu), svijetla zraka stolen ~ preskočeni otklon svijetle crte

radar system (n) (navig) radarski uređaj
The OOW also noticed a number of radar targets following the south-west traffic lane of the TSS.

A racon is a radar transponder commonly used to mark maritime navigational hazards and other navigation features.

A direction pointing from the center of a shaft outward.

An electronic apparatus which transmit a radio signal for use in providing a mariner a line of position.

The determination of the position, velocity and/or other
characteristics of an object, or the obtaining of information relating to these parameters, by means of
the propagation properties of radio waves. (ITU Radio Regulations) radioutvrđivanje
pozicije
radio direction finder (RDF) (n) (navig) radiogoniometar
radio forecast (n) (meteorol) radijska vremenska prognoza
radio frequencies radijske frekvencije band 4 very low, band 5 low, band 6 medium, band 7 high, band 8 very high, band 9 ultra high, band 10 super high, band 11 extra high
radio frequency energy (=r.f. energy) (n) (comm, navig) energija
radiofrekvencije
radio frequency head (n) (electr, navig) frekvencijska glava (radara)
radiofrequency; (r.f.; rf; RF) (n) (electr) radiofrekvencija
radiolocator radiolokator
radio log (n) (comm) radijski dnevnik
radio medical advice (n) (med) radioliječnički savjet
radio navigation (n) (navig) Radio navigation uses radio waves to determine position by either
radio direction finding systems or hyperbolic systems, such as Decca, Omega and LORAN-C. Replaced
recently by GPS. Radio determination used for the purposes of navigation, including obstruction
warning (ITU RR) radionavigacija
radio navigational warnings (n) (navig) NAVAREA Warnings; Coastal Warnings; Local
Warnings radijska upozorenja za plovidbu
radio-officer a person holding an appropriate certificate issued or recognized by the Administration
under the provisions of the Radio Regulations (STCW 2010) radio-časnik, radio-oficir, časnik radiotelekomunikacija, radiotelegrafist, markoni, Italian:marconista
radio operator (n) (comm) dežurni radiočasnik, časnik koji koristi
radiostaničar, radiotelegrafist
radio receiver (n) (comm) radijski prijamnik
Radio Regulations (=ITU-R) (n) (comm, safety) Pravilnik o
radiokomunikacijama: The procedures for distress and safety traffic are laid down in the
International Telecommunication Union (ITU) Radio Regulations.
radio-room (n) (nav arch) radiokabina
radiotelegraphy (=W/T) (n) (comm, safety) radiotelegrafija
radiotelephone (n) (comm, navig) radiotelefon
radiotelephone alert (n) (safety) radiotelefonska uzbuna o pogibli: Upon
receipt of a radio telephone transmitted alert at an MCTS centre, the duty MCTS officer will take action in
accordance with the MCTS Standards Manual. CAMSAR II – Mission Coordination
radiotelephone installation (n) (comm) radiotelefonski uređaj
radiotelephony (R/T) (n) (comm, navig) radiotelefonija: Transmissions by
radiotelephony shall be made slowly and distinctly, each word being clearly pronounced to facilitate
transcription. (ITU-R)
radio transmitter (=RT) (n) (comm) radijski predajnik
raft /ra:t/ (n) (nav arch) splav, Italian: zattera

raft (v) (boating/yachting) privezati se bokom uz drugo plovilo: It also helps to minimize swaying motion if you raft up alongside a boat larger than your own.

rafting (n) (boating/yachting) berthing alongside another boat bočno privezivanje dvaju brodova (na sidrištu ili vezu)

rafting alongside (n) (boating/yachting) grupni bočni vez

rafting on a buoy (n) (boating/yachting) grupni vez na plutači

rag (n) (cargo) krpa

rail (n) 1 (nav arch) The upper edge of the bulwarks. Also applied to the tiers of guard rods running between the top rail and the deck where bulwarks are not fitted. (https://www.history.navy.mil/)

brodska ograda ship's ~ brodska ograda; 2 zaštitna ograda (sa stupićima), balastra, murada (brodice, jedrilice); 3 (boating/yachting) the edge of a boat's deck šina na rubu palube i razme

rail car (n) (cargo handling) = wagon vagon

rail connection (n) (ports) željeznička veza

rail flatcar (n) (cargo handling) vagon za kontejnere, Truck trailers are loaded with goods, driven to a rail yard, and transferred to a rail flatcar.

railhead /'reil he(d)/ (n) (ports) location for loading and unloading containers at railroad terminal

mjesto za ukrcaj i iskrcaj kontejnera na željezničkom terminalu

railroad car (n) (cargo handling, US) vagon, željeznički vagon

railway bar (n) (cargo) željezničke šine

railway-ties (n) (US) (cargo) željeznički pragovi

rail yard (n) (shipping econ) teretni kolodvor

rainbow wrasse /ræs/ (n) (fishing) Lat. Coris julis, knez, knezac, kralj, zastava,

vladika

rain clutter (n) (navig) smetnje (na radarskoj slici) zbog kiše suppress the ~ smanjiti smetnje zbog kiše, ukloniti smetnje zbog kiše: Rain clutter can be suppressed by adjusting the A/C RAIN and GAIN controls., ~ adjustment namještanje zaštite od smetnja zbog kiše, ~ control kontrola za uklanjanje/smanjivanje smetnja od kiše i padalina

rainstorm (n) (meteorol) kišna oluja, oluja s kišom

rainwater (n) (boating/yachting) kišnica: Only .05 parts per million (ppm) sulfide is required to make rainwater distasteful ~ catchment skupljanje kišnice

raise /reiz/ (v) 1 a podići; 2 povisiti, povećati

raise (n) povišenje, povećanje, porast ~ in temperature povećanje temperature
raise the anchor (v) (boating/yachting) ANTONYM lower the anchor podizati
sidro
raising of sunken objects /ˈreɪzɪŋ/ (n) (mar ins) vađenje plovnih objekata, zrakoplova, njihovih dijelova i tereta te svih drugih stvari koje su potonule u obalnome moru ili unutrašnjim vodama određene države vađenje potopljenih stvari
rake /reɪk/ (n) (nav arch) the fore and aft inclination from the vertical of a mast, smokestack, stempost, etc.; The forward pitch of the stem. The backwards slope of the stern.
https://officerofthewatch.com/tools/maritime-dictionary/ kosina pramca, nagib pramca
after ~ That part of the stern which overhangs the keel. https://officerofthewatch.com/ kosina krme, nagib krme

1.2. Ship Geometry

► Definitions (continued…)

- Sheer
- Rake
- Parallel middle body
- Entrance
- Run

https://slideplayer.com/slide/5892010/
rake /reɪk/ (n) (boating/yachting) Measurement of fore/aft angle of a mast.
(http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) nagib jarbola (prema natrag ili naprijed)
rake (v) (boating/yachting) nagnuti jarbol (prema natrag ili naprijed)
raked /reɪkt/ (adj) kos, nagnut
rake of mast /reɪk/ (n) (boating/yachting) nagib jarbola
ram /ræm/ 1 (n) (marine eng) klip, klip hidrauličke pumpe hydraulic ~ hidraulički klip; 2 hidraulička dizalica
**ram** (n) (navy, nav arch, sailing vessels) pramčani kljun (ratnog broda / jedrenjaka) ~ bow a strong extension below water of the bow of a ship for the purpose of piercing the hull of an enemy ship pramac s kljunom

**ram** (v) (navy) udariti pramcem

**ramark**; (RAdar MARKer) /ˈreɪmɑːk/ (n) (navig) the RAMARK is a Radar beacon which transmits pulses continuously or to special time schedules, rather than on receipt of a vessel’s radar pulse. They radarska oznaka tipa ramark, radarski far tipa ramark, obični radarski far

**ram horns** (n) (boating/yachting) kuke na deblenjaku (za hvatanje očice prednjeg roglja pri kraćenju jedra)

**ramming** (n) (navy) udaranje pramcem, oštećivanje (drugog broda) pramcem

**ramming damage** (n) (navy) šteta nastala udaranjem pramca o drugi brod, oštećivanje drugog broda pramcem

**ramp** /ˈræmp/ (n) (nav arch) Hinged platform permitting the loading/discharge of vehicles or movement between decks of vehicles aboard Ro-Ro vessels.

https://officerofthewatch.com/tools/maritime-dictionary/ rampa, ukrcajna kosina bow ~ pramčana rampa, stern ~ kramena rampa, slewing zakretna rampa, side ~ bočna rampa, hoistable ~ podizna rampa, rampa na podizanje, ~ door vrata rampe: ramp, uneven tightening of the chain blocks could impose high torsional loads on the hinges and in turn, compromise the effective sealing of the ramp door against the hull., stern quarter ~ bočna krmena vrata, vrata na kvartiru: 200850 Ramp door near miss During her maiden voyage, the CO of a new ro-ro ship was preparing to set the stern quarter ramp door for cargo operations., hoist the ~ podignuti rampu: ving the winch control lever to ‘full hoist’, the winch responded by gradually slowing down in its rotation, stopped briefly and then slowly began to hoist the ramp inwards.
random testing (n) (hum_resources, safety) nasumična provjera, nasumično testiranje: Staff members were identified for random testing regardless of duty rosters or holiday periods. www.gov.uk/maib

range (n) 1 (navig) domet, dohvat, doseg out of ~ izvan dometa, at a close ~ na malom dometu, na maloj udaljenosti: Consequently, when suddenly faced with another vessel at close range, many ships would be unable to avoid a collision by just stopping. measure radar ~ izmjeriti domet radara, select thge ~ of the radar odabrati domet radara: For coastal navigation you might select a range of 6 or 12 miles so that appropriate coastal features will be displayed, for collision avoidance a range of 12 miles or 24 miles may be appropriate, for pilotage into a confined anchorage a range of \( \frac{1}{2} \) a mile may be needed. ~ accuracy preciznost udaljenosti izmjerene radarom: While radar range accuracy is high radar bearing accuracy is low when compared with visual observations. be at a ~ of ... biti na udaljenosti od ...: From the target’s AIS data shown on the port radar display, the OOW saw that the vessel was at a range of 3.9nm and had a CPA of 0.1nm. ; 2 raspon, opseg ~ of output raspon dobave (goriva); 3 (electr, navig) \( D = \frac{1}{2} \times c T; \) \( c = \) Speed of Radio Pulse (3 x 10^8 m/sec); \( T = \) Time between transmission of radio pulse and reception of reflected echo; \( D = \) Distance udaljenost objekta (izmjerena radarom) determine ~ odrediti udaljenost, izmjeriti udaljenost nekog objekta, ~ scale udaljenost na radarskom pokazivaču, kružnica udaljenosti na radarskom pokazivaču range discrimination (n) (navig) razlikovanje objekata / ciljeva na istoj ili
bliskoj udaljenosti (na radaru), odvajanje objekata / ciljeva na istoj ili bliskoj udaljenosti (na radaru)

rangefinder (n) (navig) daljinomjer, instrument za određivanje udaljenosti
untrasonic ~ ultrazvučni daljinomjer

range lights (=range) (n) (navig) = leading lights A pair of lights or day marks
deliberately placed to mark a narrow channel; an aid to navigator consisting of two objects in line
(pokriveni smjer, svjetla pokrivenog smjera)

range of movement (n) (cargo handling) dužina kretanja dizalice duž obale

range resolution (n) (navig) COMPARE bearing resolution razdvajanje
ciljeva (na radaru) prema udaljenosti

range ring (n) (navig) COMPARE Variable Range Marker kružnica
udaljenosti (na radarskom zaslonu), kalibracijski prsten: The range selected
automatically determines the range ring interval, the number of range rings and pulse repetition rate.

fixed ~ fiksa kružnica udaljenosti, nepromjenjiva kružnica, variable ~ promjenjiva kružnica udaljenosti

range scale (n) (navig) ljestvica udaljenosti (na radarskom ekranu) choose

the ~ odabrali kružnicu udaljenosti

https://www.marineinsight.com/marine-navigation/using-radar-on-ships-15-important-points/attachment/radar-range-scale/

range strobe daljinar (na radaru), naprava za radarsko snimanje udaljenosti

rank /ræŋk/ 1 čin naval rank COMPARE naval rank mornarički čin; 2 rang (na brodu), časnički rang: Specifically, the ranks on a vessel are divided into three categories: 1. the deck department, 2. the engineering department, 3. the steward's / catering department

rank promotion (n) (mar law) napredovanje u službi, avancanje, avancat

ransom /rænsm/ (n) (mar law) otkupnina (za oteti brod, posadu itd.): the pirates raked in an estimated ... million dollars in ransoms last year Pirati su prošle godine stekli oko … milijuna dolara na ime otkupnina pay a ~ platiti otkupninu

rap (n) (fishing) varalica, varalica rapala, rapala
rapala (n) (fishing) varalica, varalica rapala, rapala, wobler, teturavac

rapid (n) (geogr) brzac (riječni)

rapid bell ringing (n) (navig) brzo zvonjenje

raster chart /ˈreɪstə/ (n) (navig) skenirana elektronička verzija papirnate pomorske karte; A raster
rasterscan display

chart (RNC) is a direct copy or scan of an existing paper chart rasterska karta
http://www.1yachtua.com/nautilcharts/free_charts.asp

rasterscan display (n) (navig) radarski pokazivač s rasterom: On a raster scan
display the brilliance control regulates the brightness of the picture, making it bright enough for daylight
viewing or dim enough so as not to impair the operators night vision.

ratchet /ˈrætʃɪt/ (n) (marine eng) zupčasti kotačić s raspom, ozubljena

ustavljajača ~ ring spanner zupčasti ključ, zaustavni ključ
ratchet block (n) (boating/yachting) A block that will spin in one direction, but not the other.
Designed to provide friction in the loaded direction so as to make handling a line easier
zapom
ratcheting mechanism (n) (marine eng) zaporna naprava, zaustavni mehanizam
ratchet ring spanner (n) (marine eng) zupčasti prstenasti ključ, zupčasti
okrugli ključ, zaustavni okrugli ključ reversible ~ reverzibilni prstenasti
ključ
rate 1 iznos; 2 kapacitet, učin, brzina discharge ~ (cargo handling) kapacitet
iskrcaja, brzina iskrcaja (npr. tona na sat), iskrcajni učin, ~ of fuel supply
(marine eng) omjer dobave goriva, ~ of wearing stopa trošenja, flow ~ brzina
protoka, maximum loading and unloading ~s maksimalni kapaciteti ukrcaja
i iskrcaja tereta (npr. u tonama na sat); 3 (shipping econ, mar law) The cost, or
revenue, for a particular voyage based on a standard of reference, e.g. Worldsacle, INTASCALE, ATRS.
(www.euronav.com) vozarinski stav; 4 (shipping econ, mar law) iznos najamnine
broda
rate (n) (shipping econ, mar law) vozarinski stav, vozarina ~ changes promjene
vozarine, set the ~ odrediti vozarinu
rate agreement (n) (shipping econ, mar law) Group of carriers who discuss rates and common
problems with options to file independent tariffs.
(http://www.maerskline.com/en-jm/help/shipping-glossary) vozarinski sporazum među
brodarima
rated (adj) (marine eng, nav arch) koji ima snagu od: Main propulsion comprises a pair of
CAT 3516C diesel engines, each rated 2100 bkW at 1600 rpm, and driving Rolls-Royce US 255 FP Z-drive
units with 2.6 m diameter fixed pitch propellers.
rated power (n) (marine eng) indicirana snaga
rate of discharge (=rate of discharging) (n) (cargo handling) (mar law)

ANTONYM rate of loading Number of tons of cargo discharged /loaded each day from / into a ship. Such a provision is often included in the terms of a voyage charter.

http://www.tkmglobal.net/chartering_R.HTM kapacitet iskrcaja, brzina iskrcaja
rate of loading (n) (cargo handling) (mar law) kapacitet ukrcaja, brzina iskrcaja
rate of pay (n) (mar law) iznosi plaće (pomorca), platni razredi
rate of turn (=ROT) (n) 1 broj stupnjeva promjene smjera; 2 (navig) brzina okretanja (kod žiroskopskog kompasa) ~ indicator pokazivač brzine okretanja
rate of turn2 (=ROT) (n) (navig) the speed at which a vessel alters its heading brzina zakreta broda, brzina okretanja broda (stupnjevi./min): Initially, the vessel’s rate of turn (ROT)3 climbed to 31° per minute A few seconds later, as the ROT began to drop. At 0031, with the ROT continuing to drop, the VTS officer called the pilots on VHF channel 12 ...
www.gov.uk/maib lose the ~ gubiti brzinu zakreta (broda): PPU screenshot showing the ship losing rate of turn
rat guard (n) (nav arch) a dish or circular piece of metal made in two parts and fitted closely on hawser and lines to prevent rats boarding or leaving a ship while at a dock or wharf mišobran,

ratify (v) (mar law) ratificirati ~ the convention 1 ratificirati konvenciju: The IMO’s International Convention for the Control and Management of Ships’ Ballast Water and Sediments (BWMC) has been ratified and will enter into force in 12 months’ time; 2: The International Convention for the Safety of Life at Sea, which governs ship construction, was ratified by most maritime nations in 1936, and updated in 1948, and again in 1960 and 1974.

rating1 /ˈreɪtiŋ/ (n) (law) a member of the ship’s crew other than the master or an officer mornar, član posade, Italian:bassa forza; marinaio: The officers were from Croatia, and the ratings were Romanian.

rating2 /ˈreɪtiŋ/ (marine eng) snaga stroja maximum continuous ~ maksimalna kontinuirana snaga exceed the maximum operating ~ (MCR) prekoračiti maksimalnu radnu snagu

rating3 (n) (boating/yachting) bodovna vrijednost hendikapa (koji se daje jedrilici u regati)
rating forming part of a watch (n) (navig, safety, mar law) član posade koji čini dio straže

ratio /ˈreɪʃiə/ (marine eng) omjer compression ~ omjer kompresije ration /ˈreɪʃən/ (safety) racionirani obrok
raw materials /rəʊ/ (n) (cargo) sirovine
raw picture (n) (navig) sirova slika (na radaru), računalno neobrađena slika
raw water filter (n) (boating/yachting, marine eng) = seawater filter filtar vode za hlađenje motora
ray (n) (fishing) Lat. Rajidae; Raja clavata raža, kamenica, koštenjača, polig

rayed Mediterranean limpet (n) (fishing) priljepak, prilipak
RCDS mode; Raster Chart Display System mode rasterski način rada
RCS (=radar cross section) (n) (navig) radarska površina
RCU (=Relative Course Up Picture) (n) (navig) relativna slika s kursom prema gore, slika RCU
RDS (=residual dynamic stability) (n) (stabil) preostala dinamička stabilnost
Re. /riː/ (n) = reference veza (u dopisivanju)
reach 1 (v) stići, prispjeti, doseći, dospjeti (do), doći (do) ~ full speed postići punu brzinu, razviti punu brzinu, ~ the port stići u luku, doći do luke; 2 (boating/yachting) COMPARE point of sail sail from about 60° to about 160° off the wind; sail with the wind abeam jedriti s vjetrom u bok ili pola krme, jedriti mezonave
reach 1 (n) (geogr) ravni dio toka rijeke upper ~ gornji tok, lower ~ donji tok
reach 1 (n) (cargo handling) The horizontal distance that a crane or lifting appliance can cover, measured from its axis of rotation. https://officerofthewatch.com/tools/maritime-dictionary/ dohvat dizalice
reaching (=reach) (boating/yachting) Sailing on a course at about 90° to the true wind direction. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/)

jedrenje s vjetrom u bok ili pola krme, jedrenje s bočnim vjetrom broad ~ 1 jedrenje bočno od vjetra, jedrenje s vjetrom u pola krme, jedrenje široko u vjetar; 2. If the wind is coming from over the quarter, it is called a broad reach. https://www.ypiyachts.com, beam ~ jedrenje s bočnim vjetrom, close ~ If the boat is pointed with its bow more directly into the wind it is a close reach https://www.ypiyachts.com

reachable (n) (boating/yachting) otпадanje kontroliranim zakretanjem pramca više niz vjetar od postoječega kursa namjerno otpadanje, pojanje, pojada

rebound (n) (shipping econ) skok (vozarine, najamnine): Short-lived rebounds of rates will bring occasional relief to the market.

read (v) 1 očitati (vrijednost); 2 (comm) čuti How do you ~? Kako me čujete?

ready (v) 1 spreman, pripravan a make ~, pripremiti Ready about! (n) 1 (boating/yachting) a helmsman’s warning the crew that he is going to tack Spremni za okret!, Spremni za letanje!, Tal. Pronti a virare!; 2 Warning issued to the crew, informing them that a tack or a jibe is in progress ( Spremni za kruženje, Spremni za pojalabandu

realise (v) (navig) shvatiti: At this point, the OOW realised that the vessel was aground.

real property rights (n) (mar law) = proprietary rights stvarna prava na brodu

real rights (n) (mar law) stvarna prava

real wind (n) (boating/yachting) smjer i jačina vjetra na određenome mjestu i u određeno vrijeme stvarni vjetar

reanimaion (n) (med) reanimacija

rear /reər/ (adj, n) ~ end stražnji / krmeni dio broda stražnji dio (broda)

rear admiral /‘riədˌmərəl/ an officer ranking above a commodore and below a vice admiral kontra-adimal

reason razlog give ~s for obrazložiti, objasniti, by ~ of zbog, uslijed, the ~ why razlog zašto

reasonably (adv) (mar law) razborito

rebate /‘rebət/ (n) (shipping econ) popust, rabat contract ~ ugovorni rabat

rebound (n) (shipping econ) skok (vozarine, najamnine): Short-lived rebounds of rates will bring occasional relief to the market.

rebutta /‘rebʊtə/ (n) (shipping econ, mar law) an act of refuting or disproving sth, esp by offering a contrary contention or argument odbijanje (tražbine), neprihvaćanje tražbine: If the claim is declined, and the claimant feels it should have been paid, the claimant should present his rebuttal in letter form to the examiner who declined it.
recall (n) (boating/yachting) opoziv (regate), Italian: richiamo
receipt /ˈriːsɪpt/ (n) 1 (shipping econ) primitak (tereta), prijam, prijem; 2 (shipping econ, mar law) potvrda primitka, časnička potvrda clean ~ čista potvrda o primitku tereta, draw up a ~ sastaviti potvrdu o primitku tereta, sastaviti časničku potvrdu, issue q ~ izdati časničku potvrdu, izdati potvrdu o primitku tereta, sign the ~ potpisati časničku potvrdu, potpisati potvrdu o primitku tereta; 3 potvrda, priznanica
Received. (comm) Razumio., Primio.
received bill of lading (n) (mar law, shipping econ) Can be issued on the carrier's actual receipt or taking custody of goods, if requested goods are not yet necessarily loaded on board a vessel or other conveyance. (http://www.maerskline.com/en-jm/help/shipping-glossary) teretnica primljeno na ukrač
received (for shipment ) bill of lading (n) (mar law) = received bill of lading A bill of lading issued when goods have been received for shipment by a carrier or his agent but have not yet been loaded aboard the ship.
http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; Bill of Lading evidencing that the goods have been received into the care of the carrier, but not yet loaded on board. It also serves as evidence of the contract of carriage and is a document of title, although because the goods have not necessarily been loaded on to the ship, this type of Bill of Lading is not always acceptable to banks as collateral security. http://www.tkmglobal.net/chartering_R.HTM teretnica primljeno na ukrač
receiver (n) (marine eng) spremnik, sabirna komora, sabirnik tekućine, spremnik zraka za ispiranje, spremnik zraka za upućivanje, boca zraka za upućivanje charge air ~ sabirna komora zraka za ispiranje
receiver* (n) (electr) (comm) prijamnik, prijemnik
receiver* (n) (mar law, shipping econ) = consignee party who receives the cargo at the place of destination in the contract of carriage primatelj tereta
receiver* (n) (electr, navig) radarski prijamnik
Receiver of Wreck (n) (safety) Službenik za prijavu pomorskih nezgoda / nesreća / brodoloma
receiver sensitivity (n) (navig, electr) osjetljivost prijamnika (radara)
receiving point (n) (navig) točka prihvata (u VTS-u)
receptacle /ˈreɪspoʊtəkəl/ (n) 1 (marine eng) spremnik, kutija: All battery containers / receptacles should be checked for tightness of fixtures and overall integrity.; 2 (electr) utičnica AC ~ utičnica za iznjeničnu struju, DC ~ utičnica za istosmjernu struju
reception (n) 1 prihvaćanje (otpada, ulja, ...); 2 preuzimanje
reception of alerts(Camsar2014) (n) (safety, navig) primitak uzbuna o pogiblji
recess (n) (sailing vessels, nav arch, marine eng) rebreni utor
recessed /ˈriːsɛst/ (adj) (marine eng) udubljen, produbljen
reciprocal course (n) (nav arch) nasuprotni kurs: Container vessel 'A' was on a reciprocal course in the lane on our port side. He set his heading on a reciprocal course to the tug at near full speed in the expectation that the tug would take avoiding action to prevent a head on situation as
reciprocating engine

**defined by the Collision Regulations. The vessel was on a course almost *reciprocal* to the course of our vessel.**

**reciprocating engine** /riˈsɪp rəˌkiːtɪŋ/ (n) (marine eng) stapni stroj

**recirculate** (v) (marine eng) recirkulirati, kolati u zatvorenom krugu

**recklessly** (adv) bezobzirno

**recklessly and with knowledge** (mar law) bezobzirno i sa sviješću / znanjem

**reckoning** /rɛˈkɛniŋ/ (n) (navig) računanje, procjena (pozicije) dead ~ zbrojena navigacija

**reclaim** /riˈkleɪm/ (v) (ports) nasipati, nasipavati: The Western docks were reclaimed from the sea and developed in the 1920s. Notably, Tuas (automate mega-port) is being built on land *reclaimed* from the sea; it was in 2011, when Singapore raised the minimum height requirements for reclaimed land from 3 metres to 4 metres above sea level.

**reclaimed** (adj) (ports) nasipan ~ berth nasipana vez, nasipana lučka obala, ~ land nasipano zemljište, nasipan teren: In 2011 the port of Singapore raised the minimum height requirements for *reclaimed land* from 3 metres to 4 metres above sea level.

**reclaiming** nasipavanje (mora, obale)

**reclamation** /rɛˈklɛmʃən/ (n) (ports) nasipavanje (mora) land ~ nasipavanje obale

**recognition** (n) (mar law) priznavanje ~ of Cetrificate of Competency

**priznavanje svjedodžbe o osposobćenosti:** The government has given its approval for the Model Memorandum of Understanding (MoU) for *unilateral/bilateral recognition of Certificates*, pursuant to Regulation 1/10 of International Convention on Standards of Training, Certification, and Watchkeeping (STCW) for Seafarers, 1978 as amended. [https://www.marineinsight.com/shipping-news/](https://www.marineinsight.com/shipping-news/)

**recommend** (v) preporučiti

**recommendation** (n) preporuka: *Recommendations have been made to: the International Maritime Pilots’ Association aimed at improving ... www.gov.uk/maib* The purpose of the analysis is to determine the contributory causes and circumstances of the accident as a basis for *making recommendations* to prevent similar accidents occurring in the future. www.gov.uk/maib *A recommendation has been made to the Maritime and Coastguard Agency to propose a review to the navigation status descriptor fields used in the automatic identification system. MAIB accident reports*

**recompression chamber** (n) (boating/yachting, fishing) a hyperbaric treatment chamber used to treat divers suffering from certain diving disorders such as decompression sickness

**barokomora**

**recondition** (v) obnoviti, ponovno osposobiti, ponovno dovesti u ispravno stanje (uređaj, ambalažu tereta)

**reconditioning** (n) (cargo) obnova (pakovanja tereta)

**reconnaissance aircraft** (n) (safety) izviđački avion

**reconstruct** (v) ponovno izgraditi, ponovno sastaviti

**recooper** /riˈkuːpər/ (v) (cargo) popraviti (bačvu, ambalažu sanduka itd.)

**record** /ˈrekərd/ (n) 1 a (mar law, shipping econ) *zapis* keep a ~ of 1 *voditi evidenciju o, voditi zabilježbe o; 2: In the case of damage to a cargo on board, it is vital that all the facts are recorded and documented, make a record zabilježiti, unijeti zapis; 2 podatak,
zabilješka

**record** /rɪˈkɔːd/ (v) 1 bilježiti, zabilježiti, zapisati: Record in the log book inspections of cargo holds undertaken by the ship’s officers or crew during the voyage. **Record** the vessel’s position, date and time of the incident.; 2 **snimati**: Weather, VHF communications, Radar and CCTV, are recorded and can be archived for later use in investigations.

**record book** (n) 1 registar, upisna knjiga, upisnik; 2 (marine eng) dnevnik (ulja itd.) oil ~ dnevnik ulja

**recorder** /rɪˈkɔːdər/ (n) snimač, snimalica

**records** /rɪˈkɔːdɪz/ (marine eng) 1 podaci bunker sounding ~ podaci o mjerenju kaljuža, keep the ~ voditi evidenciju, bilježiti (podatke): Ensure the officer in charge of sounding keeps all the records in place and the volume correction is done appropriately as per the temperature of the oil. www.marineinsight.com a **evidencija maintain proper ~ of voditi ispravnu evidenciju**

**recount** /riˈkaʊnt/ (n) (cargo) ponovno brojanje (tereta)

**recover** (v) 1 izvući (potonuli brod / stvari) iz mora: The submerged boat was later recovered by forklift. ~ the sunken ship izvući brod s dna, podići brod s dna, ~ the buoy izvući plataću s dna; 2 izvući osobu iz mora: The effort to recover the seaman by the pilot boat was hampered by swells reported up to 4 meters. He managed to recover five sailors before hypothermia incapacitated them.; 3 (marine eng, cargo) obnoviti, vratiti u prethodno stanje, regenerirati; 4 (ANTONYM let go podignuti sidro: The port anchor was recovered and, at 1104, the vessel docked at the berth at the Container Terminal lijevo je sidro bilo podignuto i u 11:04 brod je pristao uz vez na kontejnerskom terminalu; 5 (fishing) podići mrežu, podići ribarski alat: The skipper was operating the vessel single-handedly and was attempting to recover his dredge gear on board when the accident happened.; 6 **spasiti** (brodolomce): The skipper was recovered from the sea.; 7 izvući osobu helikopterom s broda: Sector New Orleans directed the launch of an MH-65 Dolphin helicopter crew from Coast Guard Air Station New Orleans to recover the man Prepare for recovery(ing) of persons from the water; 8 (environ) izvući (onečišćenje) iz mora, počistiti (onečišćenje) iz mora: ... approximately 160 tonnes of oil had been recovered as of Wednesday morning

recover (v) 1 obnoviti; 2 (shipping econ) naplatiti ~ the monies 1 naplatiti; 2 ishodovati plaćanje; 3 utjerati naplatu

**recover** (v) (cargo handling, shipping econ) pronaći (nestali teret, kontejner), ući u trag (teretu, kontejneru): Based on our experience, we believe that most of our containers will be recovered soon.

**recovery** (n) (boating/yachting) 1 spašavanje (čovjeka/osobe iz mora), izvlačenje osobe iz mora, podizanje osobe iz mora: Prepare for recovery of persons from the water. ~ manoeuvre manovra spašavanja osobe u moru; 2 (mar ins) vađenje potopljenih stvari (brodova itd.)

**recovery** (n) (boating/yachting) izvlačenje jedrilice iz mora (na prikolici)

**recovery** (n) (cargo handling, shipping econ) pronalaženje (nestalog tereta, kontejnera): Our units on lease to the shipping company were manufactured in our colour, with our logo and markings, which should assist with recovery and re-leasing efforts.
The deckhand was taken to hospital, where he made a full recovery and was discharged the following day. 

**recreational boat** (n) (*nav arch*) brodica za razonodu, rekreacijska brodica  
**recreational craft** (n) (*nav arch*) rekreacijsko plovilo

**recruiting** /'ri'kruːtɪŋ/ (n) (*mar law*) nabava radne snage, opskrba radnom snagom  
**recruitment** /'ri'krʊtmɛnt/ (n) (*mar law*) pronalaženje osoba radi zapošljavanja, zapošljavanje marine engineer ~ zapošljavanje pomorskih strojara, ~

**rectifier** /'rɛktɪˌfaiər/ (n) (*electr*) ispravljäč (izmjenične u istosmjernu struju)  
**rectify** /'rɛktɪˌtai/ (v) ispraviti, popraviti: identify and ~ the fault in the scavenge system pronaći i otkloniti defekt / neispravnost / kvar u sustavu za ispiranje

**recycle** /'riː'saɪkəl/ (v)  
1 (environ) reciklirati; 2 (*nav arch*) poslati brod u rezalište: The old aircraft carrier will be recycled after 32 years of service. Europe has more than adequate capacity to recycle EU-flagged ships, according to new analysis from the International Ship Recycling Association (ISRA). Splash24/7 <splash=asiashippingmedia.com@mail144.sea81.mcsv.net>

**recycling** (=ship recycling; ship demolition; ship dismantling; ship breaking; ) (n) (*nav arch*) = shipbreaking rezanje brodova, rasprema brodova, recikliranje brodova: Turkey has ratified the IMO Hong Kong Convention for the safe and environmentally sound recycling of ships, becoming the first of the five major shipbreaking nations to ratify the treaty. https://gcaptain.us11.list-manage.com Ship recycling is by far the most environmentally friendly and economically sound way of getting rid of old ships, as it allows the materials from the ship, especially steel, iron, aluminium and plastics, to be recycled and made into new products. https://safety4sea.com/

**recycling yard** (n) (*nav arch*) rezalište brodova ship ~ rezalište brodova: The European Commission published its 4th version of European List of ship recycling facilities, including six new yards. SAFETY4SEA <news@safety4sea.com>

**re-delivery** (n) (*mar law*) Return of a ship by the time charter to the shipowner at the end of the period of the charter. http://www.tkmglobal.net/chartering_R.HTM vračanje broda (iz čartera), predaja broda vlasniku (iznajmitelju) po istjeku ugovora o najmu (čartera)

**red lead** /red led/ (n) (*seamanship*) minij  
**red mullet** (=striped red mullet; surmullet) (n) (*fishing*) Lat. *mullus surmuletus* trlja blatarica, trlja striped ~ trlja kamen, trlja, barbun, trljuš, dugonosica,
red scorpionfish (n) = scorpion fish škrpina
red sea bream (n) (fishing) COMPARE blackspot sea bream rumenac okan
red snapper (n) (fishing) atlanski arbun Northern ~ atlantski arburn
reduce (v) smanjiti, sniziti, reducirati ~ speed smanjiti brzinu: If in doubt, do not hesitate. Reduce speed.
reduced navigation zbrojena navigacija
reduction gear (n) (marine eng) an arrangement of shafts and gears used so that the number of revolutions of the output shaft is less than of the input shaft reduktor
 reduction gearbox (n) (marine eng) redukcioni zupčani prijenosnik, reduktor
reduction gearbox with hydraulic clutch (=reduction gearbox with hydraulic clutch for boats or engine) (n) (boating/yachting, nav arch) reduktor s
redwood /ˈredˌwʊd/ (n) (cargo) sekvoja
reed boat (n) (nav arch, boating/yachting, archaic) COMPARE planked boat brodica
od trske, čamac od trske

**reef** /ri:f/ (n) *(navig, mar law)* rock or coral, possibly only revealed at low tide, shallow enough that the vessel will at least touch if not go aground **greben, hrid, Italian: scogliera**: The tug ran aground just after 2 a.m. Tuesday on a **reef** at the entrance to Sea Forth Channel.

**reef** /ri:f/ (v) *(boating/yachting)* to reduce the area of a sail by making fast the reef points **kratiti jedro, skratiti jedro, Italian: terzarolare ~ing the dinghy skraćivanje jedara**

na jedrilici, ~ sail kratiti jedro

**reef** (n) *(boating/yachting)* horizontal part of a sail which can be folded in order to reduce the sail surface **krat (jedra), trcarol; Italian: terzarolo, matafijon** first ~ **prvi krat**,

second ~ **drugi krat, ~ cringles očice za kraćenje jedra**

https://en.wikipedia.org/wiki/Reefing

**reef** /ri:f/ (n) *(mar law)* **greben** *(u međunar. pravu mora)*: In the case of islands situated on atolls or of islands having fringing reefs, the baseline for measuring the breadth of the territorial sea is the seaward low-water line of the reef, as shown by the appropriate symbol on charts officially recognized by the coastal State. *(UNCLOS)*

**reef band** (n) *(US)* **ruka krata jedra, Italian: mano di terzarola**

**reefed sail** (n) *(boating/yachting)* **skraćeno jedro**

**reefer** /ri:fə/ *(=RE)* (n) 1 *(nav arch) = reefer ship = refrigerated cargo ship*

containers suitable for transporting goods in a temperature-controlled condition; Refrigerated container or vessel designed to transport refrigerated or frozen cargo.

https://officerofthewatch.com/tools/maritime-dictionary/brod-hladnjača; 2 *(cargo)* Reefers are refrigerated shipping containers typically used to transport cargo requiring temperature-controlled conditions such as vegetables, fruit, fish, protein or other commodities

reefer cargoes (n) (cargo) hlađeni tereti
reefer container (n) (cargo) a container that is used to transport perishable cargo and has its own, self-powered system to keep it cool hlađeni kontejner: Besides full-loads of dry cargo containers, the inaugural cargo also included various equipment and automobiles, trucks and SUVs, as well as refrigerated “reefer” containers for produce www.gCaptain.com
reefer plugs (n) (cargo handling, nav arch) utičnice / priključci za hlađene kontejnere, frigo-priključci: The ships are designed with a nominal capacity of 14,220 TEU and equipped with 1,000 reefer plugs. http://gCaptain.com
reefer point priključak / utičnica za hlađene kontejnere: The terminal is equipped with a bank of reefer/heater points.
reefer ship brod-hladnjača
reefer traffic (n) (shipping econ, cargo) promet hlađenih tereta seaborne ~ promet hlađenih tereta morem: Drewry forecasts that seaborne reefer traffic will reach 156 million tonnes by 2024, https://www.drewry.co.uk/
reef hook (n) (boating/yachting) kuka na deblenjaku za hvatanje krata jedra
reefing /ri:f/ (n) (boating/yachting) To partially lower a sail so that it is not as large. This helps prevent too much sail from being in use when the wind gets stronger. https://www.ypiyachts.com
skraćivanje jedara mainsail slab ~ skraćivanje zatezanjem pritega deblenjaka i stražnjeg ruba jedra, roller ~ skraćivanje namatanjem (prečke oko prednjeg leta), skraćivanje rolanjem, in-mast roller ~ skraćivanje glavnog jedra umatanjem jedra u jarbol, skraćivanje rolanjem u jarbol, ~ lines konopčići za kraćenje jedra, vezice za kraćenje jedra
reefing hook (n) (boating/yachting) kuka za kraćenje jedra
reef knot /ri:t/ (n) (seamanship) muški uzao
reef points /ri:t/ (n) (boating/yachting) vezice krata jedra
reef sailing (n) (boating/yachting) jedrenje sa skraćenim jedrom, jedrenje s kratom
reef’s tack (n) (boating/yachting) prednji rogalj krata jedra
reeel /ri:l/ (n) (cargo) svitak, kotur, rola, kalem cable ~ (cargo) svitak kabela, kabelska rola: Cable reel deck cargo broke loose. Otkinuo se teret kablovskе role na palubi.
reel (fishing reel) (n) (fishing) = fishing reel A mechanical device for holding and spooling fishing line. Reels have a line spool, brake to slow running fish, handle to retrieve line and foot for clamping to a rod. rola ribarskog štapa, bubanj ribolovnog štapa, rola za ribolov, mašinica za ribolov spinning ~ rola za namatanje najlona, jigging ~ rola za skosanje, fishing ~ rola ribarskog štapa

refloat /riˈfləʊt/ (v) (safety) ANTONYMW run aground odsukati (se), odsukati brod, Italian: disincagliare: The vessel was refloated on the next rising tide using her own power. The passenger cruise ship Saint Laurent has been safely refloated and removed from the Eisenhower Lock chamber in the Saint Lawrence Seaway following Thursday’s allision with a bumper The container ship was refloated in the early morning on Sunday and moved to deeper waters so as to be inspected for damages. A tug was promptly called and with the rising tide the vessel was quickly re-floated
and properly berthed. About 5 minutes later, a third tug arrived. At 0103, with one tug pulling afloat, the vessel’s engine driving astern and two tugs and the bow thrusters pushing to starboard, the vessel refloated on the rising tide. www.gov.uk/maib The vessel was re-floated 4 days later with tug assistance. The vessel remained aground with two tugs on scene attempting to refloat it.

refraction /riˈtrekfən/ (n) 1 (electr) COMPARE reflection Refraction occurs because both light and radar waves are subject to downward bending as they pass through the atmosphere, the amount of bending being greater for longer wavelengths. lom elektromagnetskog vala, refrakcija: Radar waves are longer than light waves, so bending due to refraction will be greater, resulting in the radar horizon lying beyond the visible horizon.

http://www.splashmaritime.com.au/Marops/data/text/Radartex/Radartex.htm; 2 (meteorol) the bending of light as it passes through areas of different density, such as from air through ice crystals refrakcija

refresher course (n) (hum_resources, safety) tečaj obnove znanja i osposobljenosti: The Port Authority required new pilots to complete safety refresher courses.

refrigerant /riˈfridʒənt/ (n) (marine eng) rashladno sredstvo (tekućina ili plin) refrigerated accommodation /riˈfridʒə ret/ rashladni prostor (na brodu, u luci), rashladna skladišta (u luci), frižideri refrigerated cargoes /riˈfridʒə ret/ (n) (cargo) = reefer cargoes hladeni tereti: Written instructions should always be obtained from the shipper prior to loading refrigerated cargo.

refrigerated cargo ship /riˈfridʒə ret/ (n) (nav arch) brod za rashladeni teret refrigerated container (n) (cargo) = reefer hladeni kontejner: Refrigerated containers are used for goods which need to be transported at a constant temperature above or below freezing point. These goods are divided into chilled goods and frozen goods, depending on the specified transport temperature.

refrigerated hold /riˈfridʒə ret/ (n) (nav arch) rashladno skladište, ledenica, hladionica refrigerated ship /riˈfridʒə ret/ brod-hladnjača refrigerating chambers /riˈfridʒə reitən/ (n) (nav arch) ledenice, hladionice refrigerating compressor /riˈfridʒə reitin/ kompresor rashladnog uređaja refrigerating machinery (n) (marine eng) rashladni uređaj refrigerating plant /riˈfridʒə reiten/ (n) (marine eng) rashladni uređaj refrigeration /riˈfridʒə rejən/ (n) (marine eng) hlađenje, rashladni sustav, sustav hlađenja ~ plant rashladni uređaj refrigeration system (n) (marine eng, electr) rashladni sustav refuel /riˈfjuəl/ (=re-fuel) (v) (marine eng) opskrbiti gorivom, krcati gorivo: The operation took place in the Port of Rotterdam when the Cardissa re-fueled Sovcomflot tanker Gagarin. https://gcaptain.com/shell-claims-first-ship-to-ship-lng-bunkering-in-rotterdam

refuelling /riˈfjuəliŋ/ (=refueling (US)) (n) (marine eng) krcanje goriva, punjenje
refuge /ˈrefjuːdʒ/ (n) (safety) zaklonište port of ~ luka zakloništa, luka pribježišta
regatta /ˈrɛɡətə/ (n) (boating/yachting) a series of sailing races regata, jadriličarsko / veslačko natjecanje
Regional ENC Coordinating Centre (n) (navig) regionalni centar za koordinaciju elektroničkih navigacijskih karata
Regional Marine Pollution Emergency Response Centre (REMPEC) (n) (safety) Regionalni centar za žurne intervencije u slučaju onečišćenja mora
register a ship (v) (mar law) upisati brod u upisnik brodova, registrirati brod: The ship was registered in Croatia.
register book (n) (mar law) upisnik brodova main ~ glavni upisnik brodova insert of the main ~ uložak glavne knjige upisnika brodova
registered (adj) registriran, upisan u registar: The MS XY was a UK-registered ship of ..... gross tonnage and ..... m length overall.
registered mortgage (n) (mar law) hipoteka upisana u upisnik brodova, mortgage upisan u upisnik brodova
registered owner (n) (mar law) The legal title of ownership of the vessel that appears on the ship’s registration documents. It may be an Owner/Manager or a wholly-owned subsidiary in a larger shipping group; or a bank or one-ship company vehicle set up by the bank; or of course, it may be a “brass-plate” company created on paper to legally own a ship and possibly to limit liability for the “real” owners and/or benefit from off-shore tax laws. registrirani vlasnik broda, vlasnik broda
registered ship mortgage (n) (mar law) mortgage na brodu, hipoteka na brodu
registered owner (n) (mar law) The legal title of ownership of the vessel that appears on the ship’s registration documents. It may be an Owner/Manager or a wholly-owned subsidiary in a larger shipping group; or a bank or one-ship company vehicle set up by the bank; or of course, it may be a “brass-plate” company created on paper to legally own a ship and possibly to limit liability for the “real” owners and/or benefit from off-shore tax laws. registrirani vlasnik broda, vlasnik broda
register of ships (n) (nav arch) javna knjiga u koju se upisuju pomorski brodovi pod uvjetima koje je propisala pojedina država upisnik brodova, registar brodova
register of yachts (n) (mar law) očevidnik brodica
register ton (n) (nav arch) COMPARE net tonnage, gross tonnage A unit of interior capacity of ships. registarska tona
registration /ˌredʒɪstrəʃən/ (=vessel registration; ship registration) The process by which a ship is documented and given the nationality of the country to which the ship has been documented. The nationality allows a ship to travel internationally as it is proof of ownership of the vessel. (https://en.wikipedia.org/wiki/Ship_registration) registracija broda, upis broda (u Upisnik brodova): Vessel registration process: the vessel vetting is done electronically and within minutes, while all supporting documents are now accepted in E-form prior to registration and post-closing. www.gCaptain.com Today ship registration is used to document ships for ownership in order to provide definitive evidence of nationality for international treaty purposes.
https://www.hg.org/ship-registration.html Procedure of Ship ~ postupak upisa broda (u Upisnik brodova)
regular inspection (n) (nav arch) redoviti pregled (broda)
regular survey (n) redovavan pregled (broda)
regulation 1 propis; 2 pravilnik Port ~s Pravilnik o redu u luci; 3 pravilo (konvencije IMO STCW)

Regulations for Preventing Collisions at Sea (COLREG, COLREGS)
Pravila o izbjegavanju sudara na moru
regulator (n) (marine eng) regulator, uređaj za prilagođivanje, uređaj za regulaciju

Reid vapour pressure The vapor pressure of a fluid at 100 degrees Fahrenheit as determined by test method ASTM D 323-58. (www.euronav.com) tlak isparivanja tekućine (po metodi ASTW D 323-58)

re-ignition (n) (safety) ponovno zapaljenje: To prevent re-ignition, the space containing the seat of fire should be effectively sealed. Dry powder and CO2 extinguishers were used, but these were unable to remove sufficient heat to prevent re-ignition of the burning material; most probably the rubber air bellows that force the clutch shoes into contact with their mating frictions surfaces.

reinforced hull (n) (nav arch) ojačani trup, pojačani trup: The 18,000 cbm LNG carrier is specially designed and constructed to operate in the Baltic Sea, with a reinforced hull capable of breaking through one-meter thick first-year ice.
gcaptain.com/first-lng-carrier-to-hold-ice-class-1a-super-notation-named-in-finland/

reinforcement / riˈɪnˌfərmənt/ (n) (nav arch) pojačanje, ojačanje (konstrukcije)

reinsurance contract (n) (mar ins) ugovor o reosiguranju

relating to (conj) u vezi s, koji se odnosi na

relationship srodstvo, rodna veza

relative bearing (n) (navig) a bearing to an object in relation to the bow of the ship pramčani kut: Relative bearings can be represented by two methods: Red 0° to 180° or Green 0° to 180° depending whether they are to Port or Starboard of the heading marker. Echoes to Port would be read as Red 0° to 180° and echoes to Starboard would be read as Green 0° to 180°. Circular configuration 000° to 360°. Measured from ship’s head (000°) in a clockwise direction. An echo bearing 30° to Starboard would be read as 030° Rel. and an echo 30° to Port would be read as 330° Rel.

relative course (n) (navig) relativni kurs

relative motion (n) (navig) prikaz relativnoga kretanja broda, relativno kretanje (broda), relativno kretanje (na pokazivaču radara): The navigator, primarily to avoid collision, must accurately and quickly solve the problem of the relative movement of other vessels underway and relate that movement to the chart. This ~ unstabilised display prikaz relativne stabilizirane slike, ~ unstabilised display prikaz relativne stabilizirane slike, ~ north up prikaz pravog kretanja broda stabiliziran prema pravom meridijanu

relative motion radar (n) (navig) radar s relativnim pokazivanjem, radar s prikazom relativnog kretanja broda

relative movement (n) (navig) COMPARE relative motion prikaz relativnog kretanja ciljeva u blizini broda

relative wind (n) (boating/yachting) vektor vjetra u odnosu na objekt koji se giba relativni vjetar

relay /ˈrɛlei/ (v) (comm) prenijeti (poruku), retransmitirati (npr. inicijalnu
Mayday ~ prenesena uzbuna/poruka o pogibli, prenesena poruka s oznakom "Mayday", retransmitirana uzbuna/poruka o pogibli

**relay** *(shipping econ)* Marine shipment that is transferred to its ultimate destination port after having been shipped to an intermediate point. (http://www.maerskline.com/en-jm/help/shipping-glossary)

**naknadna isporuka**

**release** *(v)* 1 *(ship handling, seamanship)* **otpustiti**: The Pilot then ordered the operations supervisor ashore to release the headlines. ~ the break otpustiti kočnicu, ~ the line otpustiti uže, ~ the lifeboat otpustiti brodicu za spašavanje, ~ the anchor osloboditi sidro, spustiti sidro: By the time the anchor was finally released, the vessel was already aground; 2 *(environ)* **ispustiti** *(plina, goriva, tereta nafte itd. u more)*: The tanker sank off Spain’s northwestern coast, causing the release of some 63,000 tons of oil into the sea. The tanker ruptured its hull in the incident and released around 200 tons of bunker fuel into the water. The Coast Guard said that an unknown amount of product has been released from the damaged barge. https://gCaptain.com; 3 *(mar law)* **osloboditi** ~ from responsibility osloboditi od odgovornosti, date of ~ from detention datum oslobađanja od zadržavanja (broda); 4 *(mar law)* **osloboditi** *(taoca)*: all the seafarers kidnapped from the containership have been released

**release** *(n)* 1 *(safety, marine eng)* oslobađanje, otpuštanje (kočnice itd.) ~ of the lifeboat otpuštanje brodice za spašavanje, iskopčavanje brodice za spašavanje: An improperly reset hook was to blame for the unintentional release of a freefall lifeboat from a bulk carrier in the Indian Ocean in 2014, ~ gear uređaj za oslobađanje brodice za spašavanje (nakon spuštanja): Shortly afterwards, the forward on-load release gear opened and the painter parted.; 2 *(mar law)* oslobađenje ~ of the sailors oslobađanje pomoraca; 3 ispuštanje u more *(nafte, onečišćenja itd.)*: The collision resulted in the release of approximately 88,200 gallons of methyl tert-butyl ether (MTBE) from the tanker. In the end, the incident resulted in the release of about 200 tonnes of heavy fuel oil and the loss of a substantial number of cargo containers, http://gCaptain

**released date** *(shipping econ)* objavljeni dan (isplovljenja / polaska broda)

**release the hook** *(v)* *(boating/yachting, safety, seamanship)* otpustiti kuku

**release the lifeboat** *(v)* *(safety)* osloboditi brodicu za spašavanje, otkopčati brodicu za spašavanje: The accident seriously injured one of the ship’s engineers, who was inside the lifeboat when it was released. The crew prevented an accidental release of a boat

**release the sheet** *(n)* *(boating/yachting)* otpustiti škotu / škotinu / uzdu

**release the tug** *(v)* *(navig)* otpustiti tegljač, otpustiti remorker: It was the pilot’s usual practice to release the assisting tug as soon as he had established that the vessel had sufficient steerage. Peljar je običavao otpustiti tegljač čim bi ustanovio da brod ima dovoljnu brzinu za kornilarenje.

**releasing hook** *(seamanship, nav arch)* kuka na (automatsko) otvaranje, kuka na samootvaranje

**reliability** *(n)* 1 pouzdanost; 2 *(navig)* pouzdanost (navigacijskog sustava)
reliable (adj) pouzdan
relief /ˈriːli/ (n) 1 a olakšanje; 2 smjena (straže)
relief crew (n) (shipping econ) zamjenska posada
relief valve (n) (marine eng) odušni ventil, ispusni ventil, sigurnosni ventil: The crankcase door explosion relief valve is fitted so that if there is an internal explosion, the relief valve operates and the pressure inside is relieved.
relieve (v) 1 (mar law) osloboditi ~ of obligation osloboditi od obveze; 2 smijeniti (stražu): The Chief Officer relieved the Master for the 0000-0600 watch ~ the watch smijeniti stražu / gvardiju; 3 (marine eng) osloboditi (tlaka), rasteretiti, popustiti; 4 (navy) smijeniti (s dužnosti) relieving officer (n) (navy) časnik koji preuzima / smjenjuje stražu relieving the watch (n) (navig) smjena straže re-load (v) (cargo) 1 ponovno ukrcati teret (npr. nakon havarije); 2 preslagati reloading (n) (cargo handling) ponovno slaganje tereta, preslagivanje tereta: The cargo had been loaded at different heights and widths with a lot of void space between the stacks, therefore the chief officer decided not to ask the reloading. (https://safety4sea.com/)
rely on (v) pouzdati se u, osloniti se na remainder (n) ostatak, preostali dio, preostala količina remark (n) (mar law) opaska, primjedba ~ in the B/L opaske u teretnici remedy /ˈrɛmi/ (n) lijek legal ~ (mar law) pravni lijek reminder (n) (mar law, shipping econ) opomena remote control (n) 1 (marine eng) daljinsko upravljanje; 2 daljinski upravljač, daljinska kontrola remotely controlled (adj) (marine eng, cargo handling) daljinski upravljan ~ crane: The container terminal features eight remotely controlled cab-less cranes that unload containers from vessels and places them directly onto automated, battery-powered Lift Automatic Guided Vehicles (Lift AGVs), which can move up to two containers at a time from the quay to the container yard using an onboard navigation system. daljinski upravljana dizalica remotely-operated underwater vehicle (=ROV) (n) (nav arch) remotely operated underwater vehicle remotely operated vehicle; ROV (n) (safety) daljinski upravljan plovilo: The new remotely operated vehicle (ROV) is returning to shore after nearly a month of rigorous testing in the open ocean
remote ship  (n) (nav arch) a ship controlled by a human operator ashore | brod upravljan s kopnom, dalmjinsko upravljan brod
removable  (adj) skidljiv, odstranjiv, zamjenjiv
removal  /riˈmuːvəl/ (n) (marine eng) skidanje, odstranjivanje, izvlačenje, uklanjanje
remove  (v) skinuti, ukloniti, raspremiti ~ the valve (marine eng) skinuti ventil
remuneration  /riˈmjuːnərəʃən/ (n) (mar law) naknada (štete, troškova itd.)
render  /ˈrɛndər/ (v tr) pružiti, dati ~ assistance pružiti pomoć; 2 učiniti ~ responsible učiniti (nekoga) odgovornim; 3 popustiti (o užetu, konopu, lancu): some lines rendered under the force of the wind neki su konopi popustili pod silom vjetra.A mooring system should always be adjusted so that the winch or brake will render before the line parts. Sustav privezivanja treba namjestiti tako da vitlo ili kočnica popusti prije nego uže buke. Anchor cable rendered in severe gale.
render* /ˈrɛndər/ (v intr) 1 (seamanship) popuštati: the anchor cahin began to ~ sidreni je lanac počeo popuštati; 2 popuštati (o vitlu, kočnici), popustiti: As the wind continued to increase, the stern lines, with the exception of the spring, began to pay out as the winch brakes began to render. OCIMF guidelines recommend brakes are set to 60% MBL, so for a rope of 104 mt the brake should have been set to render at a load of 62. begin to ~ početi popuštati: As the wind continued to increase, the stern lines began to pay out as the winch brakes began to render.
rendering assistance  (n) (safety, med) pružanje pomoći: Under the Maritime Act (674/1994), the master of a vessel who encounters those in distress must, if possible without this resulting in a major risk to their own vessel or crew or others on board, render all assistance that is possible and necessary to rescue those in distress. SAR Manual, Finlan 2010
rendez-vous  /ˈrɛndəʒvəs/ (=rendezvous point) (n) (safety) dogovor susreta (dvaju brodova ili broda i plovila koje stiže u pomoć brodu): The underlying cause of these marine casualties was that the ship’s Master and members of the bridge team became distracted and lost their situational awareness either while maneuvering the ship to rendezvous with the pilot. ~ point točka susreta (dvaju brodova): The Masters of the two vessels had agreed on a rendezvous point and to undertake the ship-to-ship transfer operation on a heading of about 305° and at a speed of about four to five knots. http://www.marineinsight.com/
renew  (v) obnoviti, renovirati
reopen  (v) (navig, safety) ponovno otvoriti (kanal, plovidbeni put itd.): The Houston Ship Channel was reopened with restrictions to shipping on Sunday as emergency officials cleared the channel following a collision between a tanker and two barges containing gasoline. https://gCaptain.com The ship channel was reopened to two-way traffic for vessels under tow, and to outboard traffic for all other ships as of 12:55 p.m. (1755 GMT) on Sunday https://gCaptain.com
repair  /riˈpɛr/ (n) popravak ~ workshop radionica za popravke, ship repair brodoremont, permanent ~ 1 popravak (štete na brodu) u brodogradilištu, popravak broda radi obnove klase (nakon nezgode): The ship then returned to Singapore and was taken out of service for permanent repairs.
www.gov.uk/maib; 2 veći remont, temporary ~ brzi popravak, manji popravak, manji remont, popravak na licu mjesta: Temporary repairs were carried out in the port of ... to the satisfaction of the ship’s classification society before the ship was able to continue the voyage, ~ works popravci, radovi na popravku, effect ~s obaviti popravak,
Both vessels underwent repairs in port and proceeded on their respective voyages, in poor state of loše održavan, (brod, uređaj) u lošem stanju, ship-ers remontno brodogradilište, for: Damage to the ship's rudder necessitated the vessel to be towed to Rotterdam for repair. radi popravka, under ~ za vrijeme popravka: The incident happened when the vessel was under repair na popravku repair: /riˈpeə(r)/ (v) popraviti, obnoviti

repair berth (n) (ports) vez za popravke, remontni vez: Crew safety drills continued apace throughout the duration the vessel remained alongside the repair berth, and as part of her abandon ship training it was planned to lower both starboard side lifeboats to the water.

repairs voda stroja

repair ship (n) (nav arch) brod radionica

repatriation /riˈpætriəijən/ (n) (mar law) vraćanje (pomoraca) u domovinu (npr. nakon pomorske nezgode), repatrijacija: any seafarer shall be entitled to repatriation at no expense to him to the port at which he was engaged svaki pomorac ima pravo na besplatan povratak u domovinu do luke u kojoj se ukrcao na brod The safe repatriation of the crew from the vessels will require the joint efforts of the governmental agencies, the crew manning agency and the owners.

repeat back the message (v) (comm, navig) ponoviti cijelu (glasovnu) poruku: The best practice is to repeat back the message that was sent to you and ask for the sender’s confirmation.

repeater /riˈpiːtər/ (n) (navig) ponavljajač, Italian: ripetitore

replace (v) (marine eng) zamijeniti, ugraditi novi dio, nadomjestiti: Replace the snap on connectors on the hydraulic jacks with angular snap-on connectors.

replenishment /riˈplenɪmənt/ (n) opskrba (matrijalom, rezervnim dijelovima) reply and evaluation unit; (REU) (n) (navig) COMPARE VDR jedinica za reprodukciju i procjenu podataka (VDR-a)

report (n) 1 a izvještće, izvještaj, prikaz arrival ~ izvještaj o dolasku broda, izvještaj o uplovljenju, cargo outturn ~ izvještaj o iskrcanom teretu (prilikom prijave štete itd.), departure ~ izvještaj o polasku broda iz luke, izvještaj o ispoljenju, injury ~ izvještaj o ozljedama, make out a ~ sastaviti izvještaj, make up a ~ sastaviti izvještaj, passage ~ izvještaj o putovanju (broda), port activity ~ izvještaj o radovima u luci, radio ~ radio izvještaj, izvještaj o radio stanici i komunikacijama, survey ~ izvještaj o pregledu, issue a ~ napraviti izvještaj, make a ~ izvijestiti, napraviti izvještaj, poslati izvještaj: the vessel apparently failed to make reports to the VTS and hence
was not being monitored. The lookout reported the lights of a vessel ahead to the chief officer. compile a report sastaviti izvješće; 2 prijava ~ seat prijavnica, šalter za prijavu dolaska broda

report (v) 1 prijaviti, javiti ~ in prijaviti dolazak broda u luku / na vez: All vessels in excess of 20 metres LOA entering the East Solent are required to report to Southampton VTS on VHF Channel 12 when 10 miles from Nab Tower; 2 izvijestiti: The tanker immediately reported the collision to the VTS ~ on izvijestiti o (nečemu); 3 dojaviti (požar)

reported (adj) (navig, comm) prijavljeno, izvješteno: There are no reported injuries or oil leakage. disabled ship ~ in position ... onesposobljen brod prijavljen na poziciji ...

Report if she does not answer the wheel! (navig, seamanship) Izvijestite ako brod ne sluša kormilo!

reporting prijava broda službi praćenja i upravljanja plovidbom prijava broda, javljanje broda ~ point točka javljanja broda

reporting country (n) (safety) država u kojoj je napisano / sastavljeno izvješće

reporting day (n) (shipping econ) dan predaje (pisma spremnosti)

reporting officer (n) (mar law) prijavni službenik u luci

reporting point (n) (navig) mjesto izvještavanja, točka izvještavanja: our ship arrived at the 'Forts' reporting point

reporting scheme (n) (navig, comm) shema javljanja brodova, shema izvješćivanja brodova comply with the ~ pridržavati se sheme javljanja brodova, ispunjavati zahtjeve sheme javljanja brodova

report procedures (n) (mar law) postupak prijave dolaska / odlaska broda

represent /,repə'zent/ (v) 1 predstaviti, prikazati; 2 zastupati, predstavljati

representation (n) (mar law) zastupanje, zastupništvo

representative /,repə'zentətɪv/ (n) (mar law) predstavnik, zastupnik owner's ~ predstavnik brodara

reprimand /'reprɪ,meɪnd/ (v) (mar law) ukoriti, opomenuti, prigovoriti

repudiate /ri'puːdɪt/ (v) (mar law) otkloniti, odbaciti ~ responsibility otkloniti / odbaciti odgovornost

request (comm) zahtjev

require /ri'kwaiə/ (v) 1 a zahtijevati, tražiti; 2 iziskivati; 3 trebati

requirement /ri'kwaiəmənt/ (n) 1 meet the ~s udovoljiti zahtjevima, comply with the ~s ispunjavati zahtjeve, pridržavati se zahtjeva: On arrival at the outer limits, vessels are required to report on Ch 69 that they comply with the navigational safety requirements of Port of London Authority General Directions a zahtjev; 2 potreba; 3 uvjet; 4 nužda

requisition /ˌrekviˈziʃən/ (v) rekvirirati, oduzeti (brod, teret, ...): The government
requisitioned the ship at the outbreak of the war ...

Re. (= Reference) (n) veza (u poslovnom dopisivanju, faksovima, e-mailu), predmet

rescue /ˈreskjuː/ 1 (safety) spašanje, Italian:salvataggio: Marvel Falcon, a liquefied natural gas (LNG) carrier owned by NYK, offered humanitarian assistance to four sailors requesting rescue on on May 13 ...

https://www.marinelink.com/news/nyk-lng-carrier-rescues-sailors-caribbean-437864?; 2 (safety) operacija spašavanja osoba u opasnosti i prva medicinska pomoć pružena od medicinskog i drugog osoblja na mjestu nesreće i premještanje na sigurno mjesto

An operation to retrieve persons in distress, provide for their initial medical or other needs and deliver them to a place of safety.

(IAMSAR/Camsar2014) spašavanje (u SAR sustavu): The master of the vessel is responsible for rescue and evacuation measures on board the vessel in distress. SAR Manual 2010 Rescue measures on board a vessel in distress are coordinated by the master of the vessel, including for any external groups. SAR Manual 2010

rescue /ˈreskjuː/ (v) (safety) spasiti, spašavati: The crew was rescued from the sinking containership The U.S. Coast Guard rescued 113 people overnight from a grounded charter vessel near Woods Hole, Massachusetts. The two crewmembers were rescued by a nearby pilot boat without serious injury. The LNG carrier rescued a crewmember from a fishing boat that wrecked in the North Pacific Ocean. One person was rescued from the water about an hour after the incident and taken to hospital for medical treatment. The three men were subsequently rescued from their life raft. MSC Cruise Rescues Man Overboard After Searching An Hour marineinsight.com Five crew members were rescued and three crew members were found missing. (https://safety4sea.com/)

rescue action plan (n) (safety) A plan for rescue operations normally prepared by the search and rescue mission coordinator for implementation by the on-scene coordinator and facilities. (IAMSAR/Camsar2014) plan akcije spašavanja

rescue aircraft (n) (safety) spašavalački zrakoplov, zrakoplov za spašavanje

rescue basket (n) (safety) košara za spašavanje: They dropped the rescue basket so he could clamber inside, then hoisted him into the helicopter. https://gcaptain.com

rescue boat (n) (safety) = rescue vessel pomorska spasilačka brodica, brodica za traganje i spašavanje (obalne straže, lučkih vlasti itd.): After the collision, the crew on RIG launched the rescue boat, but were not able to locate the skip-per. Maintenance, thorough examination, operational testing overhaul and repair of lifeboats, rescue boats and fast rescue boats must be performed by authorized service providers. https://safety4sea.com/cm-new-requirements-coming-into-force-on-maintenance-of-life-saving-appliances/

rescue coordination (n) (safety) The function of integrating the efforts of search and rescue (SAR) facilities and other resources to achieve concerted and harmonized resolution of SAR incidents in an effective and efficient manner. (IAMSAR/Camsar2014) koordinacija spašavanja

Rescue Coordination Centre (=RCC) (n) (safety) A unit responsible for promoting efficient organization of search and rescue (SAR) operations within a SAR region. (IAMSAR/Camsar2014) Spasilački koordinacijski centar na kopnu, Središnjica za usklađivanje potrage na konu, Centar za koordinaciju potrage i spašavanja, SAR-centar first ~ The first rescue coordination centre (RCC) that is made aware of a search and
rescue coordination service

The first RCC should assume responsibility for all subsequent SAR coordination unless and until responsibility is accepted by another RCC or Provincial/Territorial agency better able to take action. (Camsar2014)

rescue workers

All 22 crew members were evacuated by Spanish search and rescue helicopters.

rescue sub-centre (=RSC) (n) (safety) područni uredi za zaštitu i spašavanje sa svojim ustrojstvenim jedinicama koji provode aktivnosti za potragu i spašavanje na kopnu i unutarnjim vodama (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html) spasilački podcentar, područni centar za potragu i spašavanje na kopnu

rescue vessel (n) (safety) pomorski spasilački brod: Rescue vessel was unsuccessful in attempting to retrieve the capsized vessel. (https://safety4sea.com/)

rescue workers spašavatelji, radnici u spašavanju: The rescue workers also
research vessel retrieved the ship's black box but had to leave quickly because of the toxic smoke and high temperatures.

**research vessel** (emachine) **istraživački brod**: RV .... arrived in the port after completing extensive sea and fishing trials and its delivery voyage.

**reservation** (emachine) **imati rezerve o nečemu, ograditi se od nečega, pokazati sumnju u nešto make a ~ regarding izraziti sumnju o nečemu, ograditi se od nečega**: Often in these circumstances the shipper will make reservations regarding his loading figure Često u tim okolnostima krcatelj može imati rezerve u vezi s brojkama o ukrcaju.

**reserve buoyancy** (emachine) **Watertight volume of a vessel above the waterline.**

https://officerofthewatch.com/tools/maritime-dictionary/ rezervni uzgon

http://slideplayer.com/slide/8073727/

**reset** ( rhyme) **ponovno ugoditi, nanovo regulirati, staviti u početni / nulti**
re-shipment ponovna otprema / ukrcaj tereta (nakon havarije)

residence 1 sjedište; 2 prebivalište, boravak
resident 1 sa sjedištem u, s prebivalištem u

residue 1 ostatak fuel ~ ostatak goriva, cargo ~ s ostatci tereta: The bosun and the crew were asked to get ready to go down into the tank to shovel out the residue cargo, the tank dome being opened at that time, unpumpable ~ ostatak tereta koji se ne može ispumpati; 2 talog

resistance (n) otpor, otpornost ~ to corrosion otpornost na koroziju,
frictional ~ otpornjenja

resistant (adj) otporan ~ to otporan na, corrosion ~ otporan na koroziju,
fatigue ~ otporan na zamor (materijala), temperature ~ otporan na toplinu

resolution 1 (electr, navig) razlučivost (radarskog zaslona), rezolucija; 2 razdvajanje ciljeva (na radaru), razlučivanje ciljeva (na radaru)

resonance cavity (n) (electr) rezonancijska kutija (radara)

resort /riˈzɔːt/ (n) rješenje, izlaz: this method should be the last resort ta bi metoda trebala biti samo krajnje rješenje

resort to law or arbitration (v) (mar law) pribjegavati sudu ili arbitraži, naći rješenje / izlaz u sudu ili arbitraži: The protagonists now resort to law or arbitration for settlement of their disagreement, secure in the knowledge that whatever the outcome, the money will be available.

respective (adj) dotičan, koji se tiče

respond (v) 1 odgovoriti; 2 (safety) reagirati: No pollution or injuries have been reported, according to the General Directorate of Coastal Safety. A total of six vessels were sent to respond to the tanker, the organization reported. ~ to 1 reagirati na: A unified command has been set up to respond to a major gasoline product spill in the Houston Ship after a tanker and tug pushing two barges collided near Bayport https://gCaptain.com; 2 biti osjetljiv na, respond to an emergency

reagirati na opasnost: Coast Guard examiners determined that key safety procedures were inadequate and the crew did not have the necessary equipment to safely respond to an onboard emergency, ~ vessel in distress reagirati na brod u pogiblji: The Canadian Coast Guard responded to a vessel in distress off the coast of Newfoundland and Labrador on Thursday following a report that it was taking on water and losing power. https://gcaptain.com/canadian-coast-guard-responds-to-bulk-carrier-in-distress-newfoundland-and-labrador-or/ gCaptain News for 11/17/2018, ~ to fire reagirati na požar: The Coast Guard have responded to ship fire near the island

respond to helm (n) (navig) reagirati na kormilo (o brodu)

response (v) 1 odgovor; 2 reakcija

response plan (n) (safety) plan intervencije: Implement emergency response plan procedures.

rest (v) ~ against oslanjati se na, ležati na ležati, sjesti, mirovati, počivati, odmarati se
rest (adj) 1 mirovanje period of ~ 1 period mirovanja, period izvan rada / pogona; 2: a rating forming part of a watch shall be provided a minimum of ten (10) hours of rest in every 24-hour period, come to ~ zaustaviti se, doći u stanje mirovanja; 2 odmor (posade): Work and rest period records indicated that the ship’s staff was adequately rested.

rest against the hull (v) (navig) biti naslonjen na trup broda (o peljarskoj brodici), prijanati uz (trup broda): The pilot boat was restin against the cargo ship's hull

restart (v) (marine eng, ship_equip) ponovno uputiti, iznova staviti u pogon, ponovno pokrenuti: Attempts to restart the engine were made and to transfer ballast to bring her upright. (https://safety4sea.com/)

rested (adj) (hum_resources) odmoren (pomorac; peljar): He was well rested and this was his second pilotage act that day

restore (v) (cargo) vratiti (teret / pakovanje) u prethodno stanje ~ into position vratiti (teret / dio) na mjesto

restow (n) (cargo handling, ports) an action taken during the load/discharge operation of a container ship wherein a container may be taken off the ship from one stow position and put back into the same or different stow position for purposes of cargo operation (https://shippingandfreightresource.com) preslagivanje kontejnera u brodu

re-stow (=restow) (v) 1 (cargo handling) an action taken during the load/discharge operation of a container ship wherein a container may be taken off the ship from one stow position and put back into the same or different stow position for purposes of cargo operation (https://shippingandfreightresource.com) preslagivati; 2 ponovno slagati

re-stowing (=restowing) (n) (cargo handling, stabil) preslagivanje (kontejnera, tereta), ponovno slaganje (kontejnera, tereta): When loading and stowing containers do not leave isolated container stacks between interim discharge/load ports to avoid restowing https://safety4sea.com/

rest period (n) (mar law) vrijeme trajanja odmora

restrain /riˈstreɪn/ (v) obuzdati, ograničiti

restricted area (n) (navig) područje ograničene plovidbe, ograničeno područje

restricted in ability to manoeuvre (n) (navig) ograničena sposobnost manevriranja: The tug was not displaying signals to show that it was restricted in ability to manoeuvre (RAM), and despite being the give-way vessel, failed to take early avoiding action. Rule 3(g)(vi) allows towing vessels to exhibit "restricted ability to manoeuvre" signals if circumstances permit. the nature of our operations we were required to work in the NE bound lane of the TSS north of the F3 Junction and were restricted in our ability to manoeuvre (RAM).

restricted visibility (n) (navig) any condition in which visibility is restricted by fog, mist, falling snow, heavy rainstorms, sandstorms and any other similar causes (COLREGS) smanjena vidljivost: Look-out During Periods of Darkness and Restricted Visibility applies to UK ships and other ships operating in UK territorial waters. MAIB Report 11/2018 navigation in ~ plovidba u uvjetima ograničene vidljivosti, ~ bridge checklist popis provjera u slučaju smanjene vidljivosti: The ship’s navigation lights were on, sound signals were being made and the ‘restricted visibility’ bridge checklist had been completed. MAIB accident reports

restriction to shipping (n) (navig, safety) ograničenja plovidbe brodova
resume /riˈzuː.mi/ (v) (safety, navig) nastaviti plovidbu / putovanje / traganje i spašavanje, ponovo započeti: The Saint Lawrence Seaway Development Corporation reports that navigation on the St. Lawrence Seaway resumed at 4 p.m. Saturday — the passage / voyage nastaviti putovanje, ~ traffic ponovno započeti plovidbu: Ferry routes between Denmark and Sweden, which had also been suspended, were resumed shortly after. erries resumed traffic between Germany and Denmark after a brief halt.

COMPARE cover letter životopis, biografija: Resumes should reflect education, experience, salary requirements, minimum requirements specifically related to the attached job description and should be submitted by 4:00 p.m. … by March 24, 2016.

resuscitation /,risəˈsiʃən/ (n) (safety) reanimacija, oživljavanje: The chief officer was evacuated immediately and provided with resuscitation treatment. Following the casualty’s recovery to his vessel’s deck he was given first-aid by way of chest compressions and mouth to mouth resuscitation. Make sure that lifelines, breathing apparatus, resuscitation equipment and other items of rescue equipment are ready for use. (https://safety4sea.com/)

retailer /riˈteɪlər/ (n) (shipping econ) maloprodajni trgovac, trgovac na malo: Danish shipping group A.P. Moller-Maersk’s is betting on winning new customers for its port division by becoming a one-stop shop that can transport goods from factory to retailers’ shelves. gCaptain <info=gcaptain.com@mail70.us4.mcsv.net>

retain /riˈteɪn/ (v) Zadržati, sačuvati

retard /rɪˈtɑːrd/ (v) (marine eng) To set the timing so that injection occurs later than TDC or is advanced a few degrees before TDC. (http://www.marinedieseleurope.com/) zaostati, usporiti se

retiming (n) (marine eng) ponovno reguliranje paljenja

retractor (=ring extractor) (n) (marine eng) otvarač stapnih prstenova (za skidanje i postavljanje stapnih prstenova)

retreat signal /riˈtrɪti/ (n) (safety, navig) signal opoziva (u operaciji SAR)

retrieve crew /riˈtri:v/ (v) (boating/yachting) izvući člana posade u jedrilicu / brodicu

retrofit (n) (nav arch) dogradnja, prilagodba dogradnjom undergo ~s dograditi, obaviti dogradnju: Ships must first undergo inconvenient retrofits to transit through the new locks of the Panama Canal

return 1 (n) povratak, vraćanje ~ water (marine eng) povratna voda, količina povratne vode, inspect the visible ~s for flow provjeravati protok na vidljivim točkama

return 2 (n) (shipping econ, financ) zarada, profit: Australian agribusiness company Elders is quitting the livestock trades citing poor returns on shipping animals to Asia. http://splash247.com/

return cargo (n) 1 (shipping econ) povratni teret; 2 (shipping econ) teret koji se vraća u polaznu luku

return line (n) (marine eng) povratna cijev, povratni vod, povratni cjevovod fuel pump ~ povratna cijev iz pumpe goriva

return on investment (=ROI) (n) (financ) isplativost ulaganja, zarada na investiciji: LNG delivers the best return on investment (ROI) for container shipping lines. www.gCaptain.com
return tubes (n) (marine eng) povratne cijevi

reveal /riˈvəl/ (v) (boating/yachting) otkriti, pokazati, iznijeti na vidjelo

revenue /ˈrevi njuː/ (n) (shipping econ, financ) svi prihodi (iz poslovanja): The CMA CGM Group will thus become a world leader in transport and logistics, with a workforce of 100,000 people, generating over USD 30 billion in revenue. https://shippingandfreightresource.com ~ from business prihodi iz poslovanja

reverse1 /ˈrvɜːs/ (v) 1 (marine eng) prekrenuti, prekretati (stroj); 2 voziti u suprotnom smjeru, promijeniti smjer okretanja, staviti u suprotan smjer

reverse2 (n) (ship handling, seamanship) vožnja krmom, obrnuti smjer run in ~ voziti krmom, voziti natrag, ship movement in ~ kretanje broda u suprotnom mjeru, vožnja broda krmom, vessel making way in ~ gibanje broda u natrag, kretanje broda krmom

reversed frame /ˈrvɜːst/ (=reverse frame) (n) (sailing vessels) an angle bar or other shape riveted to the inner edge of a transverse frame to reinforce it. proturebro

reverse gear (n) (marine eng) uređaj za prekretanje

reverse logistics (n) (logist) Reverse logistics is a part within logistics engaged in the collection of spent and discarded products, packaging and transport materials, returned orders and suchlike

reversible /ˈrevəsəbl/ (adj) (marine eng) prekretan directly ~ direktno prekretan, ~ gearbox prekretni prijenosnik, prekretnik

reversible pitch (n) (nav arch) reverzibilni korak propelera: Many controllable-pitch propellers also have reversible pitch - In order to provide astern thrust, the pitch of the propeller blades is reversed while the propeller continues to spin in the same direction.

reversing /ˈrvɜːsin/ (n) (marine eng) (marine eng) prekret (stroja), prekretanje direct ~ direktni prekret, ~ gear prekretni uređaj, prekretni prijenosnik, prekretnik: Turn the engine with the reversing gear. In this engine the chain drive consists of two identical roller chains driven from wheels bolted to the crankshaft and over a chain wheel linked to the reversing gear. ~ engine prekretni stroj, reverzibilni stroj: For direct reversing main engines >230 mm bore flame arresters or bursting discs are required for each cylinder fitted between the cylinder start air valve and the manifold. A direct reversing engine needs the availability of less capacity of strating air than a unidirectional engine.

revert /rɪˈvɜːt/ (v) (shipping econ, comm) javiti se ponovno ~ing our ETA in six hours Javit ćemo naš ETA ponovno za šest sati
revised regulation /riˈvaɪzd/ (n) (mar law) izmijenjeni propis, izmijenjeno pravilo
rev/min; RPM (n) (marine eng) okretaji u minuti
revocation /ˌrɪvəˈkeɪʃən/ (n) (mar law) opoziv
revoke /riˈveɪk/ (v) (mar law) 1 a staviti izvan snage; 2 opozvati
revolution /ˌrɪvəˈluːʃn/ (marine eng) okretaj (propelera, okretanje complete ~ puni okretaj, ~ counter brojač okretaja
revolve /riˈvolv/ (marine eng) okretati (se), rotirati, gibati se kružno
revolving storm (n) (meteorol) vrtložna oluja
revs /rɛvz/ (marine eng) skraćeno od 'revolutions' okretaji, obrtaji
revving /ˈrɛvɪŋ/ 1 (boating/yachting) increase the number of revolutions, i.e. running speed of a boat engine by pressing the accelerator (especially while the clutch is disengaged) ubrzavanje (rada motora): some engines allow only minimal opening if the gearshift is in neutral, to guard against over-revving; 2 (boating/yachting) to make an idling engine run very fast, in short bursts of power (https://idioms.thefreedictionary.com/revving) ubrzavanje rada motora u praznom hodu, kratko dodavanje gasa u leru: We were revving the boat and we saw smoke. Even occasional revving up out of gear during periods of prolonged idling will help “clear” an engine and reduce the chances of it stalling. MAIB Safety Digest 3/2008 ~ the boat in neutral dodavanja gasa u praznom hosu
RHIB; Rigid Hull Inflatable Boat (n) (nav arch) gumenjak s tvrdim dnom
rhumb line /ˈrʌm lain/ (nav arch) = loxodrome loksodroma

http://www.free-online-private-pilot-ground-school.com/navigation-basics.html

RHU; Relative Head Up Picture (n) (navig) relativna slika s pramčanicom prema gore, pramčanica prema gore
rhythmic light (n) (navig) a light showing intermittently with a regular periodicity ritmičko svjetlo
RIB (=rigid inflatable boat) (n) (safety) = rigid inflatable; rigid inflatable boat; (RIB) gumenjak s plastičnim V dnom (tipa Avon, Zodiac itd.), gumenjak s tvrdim dnom: A rigid inflatable boat (RIB) was being employed as a support boat for an event on the water. The nine passengers boarded the RIB, each having been fitted with manually inflating lifejackets with a crotch strap. A passenger ferry spotted the empty RIB and the helicopter located the helmsman 300m from his boat. This boat was a rigid-hulled inflatable boat (RIB) with a 225hp outboard engine. dive ~ ronilački gumenjak s V dnom, ~ container prazan kontejner: Our onboard procedures ensure that my highly reliable and competent crew open, inspect and seal every empty container on the quay before being loaded. ~: The Bosun asked an AB to lower an
empty drum into the hold for the waste. prazna bačva, ~ hold prazno brodsko skladište: A fall into a near empty hold would be fatal.

rib (n) (sailing vessels, nav arch) rebro (brodice, barke, broda) ~ thickness širina rebra

ride /raɪd/ (v) 1 (navig, seamanship) To lie at anchor. https://officerofthewatch.com/tools/maritime-dictionary/; to float in a buoyant manner while being towed or lying at anchor biti na sidru ~ at anchor biti usidren, biti na sidru, ležati na sidru, ~ out To weather a storm, either at sea or at anchor. https://www.ypiyachts.com držati se u nevremenu; 2 voziti (automobil, motocikl, bicikl); 3 voziti se (u autobusu, automobilu); 4 (marine eng) ležati, sjediti, nalaziti se u, podupirati se o ~ in ležati u, nalaziti se u; 5 (navig) to safely weather a storm whether at anchor or underway ploviti sigurno kroz oluju; držati se sigurno na sidru u nevremenu

rider clauses /raid/ (n) (mar law) nove odredbe (u brodarskom ugovoru), dopuna ugovora novim odredbama

rider keel (n) (sailing vessels, nav arch) protukobilica, kontrakobilica, parmežal

rider keelson (n) (sailing vessels) gornja hrtpenica

ridge /ridʒ/ (n) (meteorol) ANTONYM trough an elongated area of high pressure in the atmosphere greben anticiklone consolidated ~ ustialen greben anticiklone

riding light (n) (navig) = anchor light anchor light; Light required to be shown by a vessel at anchor. (http://www.quarterdeck.org/index.html) sidreno svjetlo, svjetlo usidrenog
broda

**riding sail** *(boating/yachting)* a small triangular sail hoisted on the lower end of the backstay to keep your bow pointed up into the wind when at anchor; traditional triangular riding sail, hoisted on the backstay and sheeted to one side at a range of angles (PracticalSailor.com) **sidreno jedro**:
With twin backstays, sheet the **riding sail** almost flat to one side of your boat. http://www.skippertips.com

riding squad *(n) (safety)* grupa za hitne intervencije (popravke, servisiranja itd.)

riding turn /'raidiŋ/ *(n) (boating/yachting)* zapleteni voj užeta

rig *(v)* 1 *(seamanship)* to set up any device or equipment postaviti ~ the pilot ladder on the starboard side 3 feet above the water Postavite jakovljice na desni bok, tri stope iznad mora; 2 fit out for sailing; the act of preparing the rig before sailing opremiti (jedrilicu, jedrenjak) za plovidbu, pripremiti, Italian: *attrezzare; allestire; armare*

rig *(n) (boating/yachting)* 1 mast, boom and spars, sails, and lines; opći naziv za sve jarbole, oputu, deblenjake, križeve, užad jarbola i deblenjaka snast, Italian: *attrezzatura* the ~ snast, jarbolje i jedrilje, types of ~s vrste snasti (jarbolja i jedrilja) sloop ~ SEE sloop a single-masted boat with only one headsail set at any one time plus the main sail, both sails set in a fore-and-aft line; most frequently applied rig in modern sailboats slup, jedrilica s prečkom i jedrom, jedrilica s flokom i jedrom, ketch ~ SEE ketch a two-masted sailing craft whose mainmast is taller than the mizzen mast (or aft-mast). (https://en.wikipedia.org/wiki/Ketch) keč, jedrilica s dva jarbola, cutter ~ SEE cutter
A general description of a vessel's upper works:

https://officerofthewatch.com/tools/maritime-dictionary/

Jedrilje krstaša; 3 (nav arch, sailing vessels) A general description of a vessel's upper works:

rig (n) 1 (fishing) an arrangement of items used for fishing. It can be assembled of one or more lines, hooks, sinkers, bobbers, swivels, lures, beads, and other fishing tackle; završni dio sistema u ribiolovu udičarskim alatima i tehnikama (https://ribolovnajadranu.hr/ribicki-leksikon) predvez, prevez, privez, završnjak: the KD rig is best used with a curved hook pattern The Carolina rig is a popular and effective way to rig for bass. It is a successful method of soft plastic bait presentation in all depths of water. fluorcarbon ~ fluorkarbonski predvez, Texas ~ sistem za lov silikoncima kod lova spin štapovima (https://ribolovnajadranu.hr/ribicki-leksikon/) ribolovni sustav Texas rig, Carolina ~ način slaganja sistema kod ribolova silikoncima (https://ribolovnajadranu.hr/ribicki-leksikon/) ribolovni sustav Carolina rig

fishing tackle SYNONYM fishing rig SYNONYM fishing gear SYNONYM fishing tackle Gear used in fishing. Member terms: Bob, Bobber, Bobfloat, Cork, Fishhook, Fishing Line, Fishing Pole, Fishing Rod, Gaff, Harpoon, Landing Net, Reel, Fishgig, Fizgig, Gig, Lance, Spear, Spinner ribolovni pribor, dovršen ribolovni alat, arma, gotov sistem (ribolovnog alata)

rig (v) (fishing) napraviti predvez (povraza): How to rig the Carolina rig? Determine the leader length, the general rule is 18 inches of leader per 10 feet of water. Tie your hook on to the leader. On the other end tie on your swivel using a Palomar knot. Slip on the sinker on your main line. Then slip on a glass bead. This adds sound that attracts bass and acts as an insulator protecting the knot from the banging of the weight. (www.fishinfo.com)

rig a wire (v) (seamanship) postaviti čelično uže

rigged opremljjen, pripremljen

rigging / 'rɪɡɪŋ/ 1 (sailing vessels, boating/yachting) COMPARE rigging wires, ropes, chains, tackle and other hardware used to support and control masts, sails and spars/yards of a (sailing)
ship; užad koja pridržava jarbol (čelična, od konopa itd.) i jedra; oprema jedrenjaka / jedrilice / broda iznad trupa; A term used collectively for all the ropes and chains employed to support the masts, yards, and booms of a vessel, and to operate the movable parts of same. (https://www.history.navy.mil/)

Italian: *attrezzatura velica*: Leaving Your Boat Abroad - Rigging. Go up the mast and check all fittings, welds, spreaders, lights, halyards, cotter pins, turnbuckles, sheaves, swages and wires. Lubricate the upper furling swivel, track and masthead sheaves. Clean and grease all your winches and turnbuckles. Pull mast, and hire rigger (if needed) prior to leaving. https://www.practical-sailor.com/issues/45_5/psadvisory/Leaving-Your-Boat-Abroad-Part-II_12585-1.html?ET=practicalsailor:e40165:2438214a:&st=email&s=p_Waypoints051819

standing ~

nepomična oputa, stalna / fiksna oputa, running ~ pomična oputa, pokretna oputa, mast(s) and rigging jarbol(i) i oputa

rigging (n) *(sailing vessels, boating/yachting, nav arch)* rarely an all-inclusive, generic term to include: masts, spard/yards, wires, sails, ropes, chains, tackle and other hardware used to support and control masts and sails in a sailing vessel, sailboat or a ship; Rjeđe, u engleskom, zajednički naziv za oputu i jedrilje snast (jarbolje, jedrilje, oputa i vrv), oputa i jedrilje (jedrenjaka / jedrilice)

rigging screw (n) *(cargo handling, nav arch)* = bottom = turnbuckle steznica pripone

rigging the boat (n) *(boating/yachting)* priprema jedrilice, opremanje jedrilice

right (n) *(mar law)* pravo affect the ~ ugroziti pravo, nepovoljno utjecati na pravo, exercise one’s right ostvariti nečije pravo, reserve the ~ pridržati pravo

right (v) *(seamanship)* izravnati brod, ispraviti brod, *dricat*

right-hand lay (n) *(seamanship)* lijevi suk konopa, lijevo sukanje konopa

righting arm; GZ (n) *(stabil)* = righting lever; GZ poluga uspravljanja ~ curve krivulja poluge uspravljanja
righting lever; GZ (n) (stabil) the horizontal distance, measured in metres, between the centre of gravity (G) and the vertical line of action of the buoyancy force (Bf) acting through the centre of buoyancy (B) when the ship is heeled (Rhodes, Ship’s Stability, Seamanship 2003) poluga

uspravljanja broda: Any changes in weight will inevitably impact on a vessel’s righting lever and her freeboard, both of which are crucial to safety. ... stability calculations, based on the reported asymmetrical distribution of ballast, show that the cargo loading conditions have a negative righting lever arm (GZ) from 0 degrees to 17.3 degrees but a satisfactory GZ above that angle. The righting levers (Z) for specified angles of heel are represented on a Curve of Statical Stability, commonly known as GZ Curve

righting moment; RM (n) (stabil) moment statičke stabilnosti: The Righting Moment is the best measure of a ship’s overall stability. It describes the ship’s true tendency to resist inclination and return to equilibrium. The Righting Moment is equal to the ship’s Righting Arm multiplied by the ship’s displacement.

righting the boat (n) (boating/yachting) ispravljanje preokrenute jedrilice

right-laid (adv) (seamanship) ANTONYM left-laid line or wire in which the strands spiral along in a clockwise direction as one looks along the line; line or wire in which the strands spiral along in an anticlockwise direction as one looks along the line sukan u desno (uže, konop)

right of detention (n) (mar law) pravo pridržaja tereta

right of flag (n) (mar law) pravo na vijanje, državna pripadnost

right of hot pursuit /ˈpəʊˈʃjʊt/ (n) (mar law) pravo progona (u međunar. pravu mora)

right of innocent passage (n) (mar law) navigation through the territorial sea for the purpose (a) traversing that sea without entering internal waters or calling at a roadstead or port facility outside
right of ownership  
ring

internal waters; or (b) proceeding to or from internal waters or a call at such roadstead or port facility.  
(UNCLOS) pravo neškodljiva prolaska: Subject to this Convention, ships of all States, whether coastal or land-locked, enjoy the right of innocent passage through the territorial sea. (UNCLOS)  
right of ownership (n) (mar law) pravo vlasništva (na brodu)  
right of way (n) to have the ~ imati pravo puta (navig, boating/yachting) pravo puta, pravo prolaza, Italian: diritto di rotta  
right-of-way vessel brod koji ima pravo puta

rigid inflatable; rigid inflatable boat; (RIB) (=RIB) (n) (safety, nav arch) = RIB  

rig move (navig, comm) pomicanje platforme  
rig the pilot ladder (v) (seamanship) postaviti jakovljice / peljarske ljestve: rig the pilot ladder on the port side three feet above the water  
rim (n) (nav arch) obod, rub

ring (n) (marine eng) prsten compression ~ kompresijski prsten, brtveni prsten, joint ~ spojni prsten, oil ~ uljni prsten, oil scraper ~ uljni strugač, oil-control ~ uljni prsten, nozzle ~ prsten sapnice, prsten mlaznice, piston ~ stapni prsten, klipni prsten, scraper ~ prsten za otiranje ulja, stružni prsten, sealing ~ brtveni prsten, seat ~, prstenasto sjedište, prstenasto

http://zodiacmilpro.com/hurricane-ribs/
**ring expander** (n) (marine eng) = piston ring opener otvarač klipnih prstenova, izvlakač klipnih prstenova

**ring groove** (n) (marine eng) A groove machined in the piston to receive the piston ring.

**ringlike** (adj) prstenast, u obliku prstena

**ring spanner** (n) (marine eng) okrugli ključ, višekutni ključ, okasti ključ

**sedlo**, top piston ~ gornji prsten stapa, gornji prsten klipa, ~ belt pojas prsten, prsteni pojas, ~ face obod prstena

**rising wood** (n) (sailing vessels, nav arch) središnji umetak nad kobilicom (u konstrukciji drvenoga broda), središnji kobilčni umetak

---

**rinse** /rɪns/ (n) (cargo handling) ispiranje final ~ 1 zadnje ispiranje (brodskog skladišta); 2 a final ~ with fresh water zadnje ispiranje slatkom vodom

**rinse** /rɪns/ (v) ispirati

**rip current** (n) (oceanogr) water disturbance created by conflicting current and wind nemirno more (zbog sraza struje i vjetra)

**ripen** /ˈraɪpən/ (v) (cargo) dozrijevati

**ripening** (n) (cargo) dozrijevanje (voća): If premature ripening takes place during the voyage, progressive ripening by emission of high amounts of ethylene can hardly be avoided.

**ripple** (n) (oceanogr, meteorol) valić

**rippled sea** (n) (meteorol, oceanogr) prvi stupanj stanja mora s valovima visine od 0 do 0,1 metar naborano more

**rise** (n) to give ~ to dovesti do nečega, izazvati nešto, prouzročiti rast, uspon

**rise** (v) 1 dići, dizati, dizati se; 2 rasti

**riser chain** (n) (boating/yachting) sidreni lanac plutače

**risingwood** (n) (sailing vessels) nutarnji dio kilja

**rising wood** (n) (sailing vessels, nav arch) središnji umetak nad kobilicom (u konstrukciji drvenoga broda), središnji kobilčni umetak
risk (n) 1 opasnost ~ of collision opasnost od sudara, underestimate the ~ podcijeniti opasnost / rizik, manage the ~ upravljati opasnostima / rizicima: ... and appropriate control measures were stipulated to appropriately manage the risks; ... in such situations, you need to manage all the pieces of information so that you can manage the risks.; 2 (mar ins) rizik at seller's ~ na teret prodavatelja, cover the ~ pokriti rizik, obuhvatiti rizik

risk assessment (n) (safety) procjena opasnosti, prosudba opasnosti: Risk assessment in respect of navigation in coastal congested waters must be reviewed No risk assessment or consideration of potential consequences was undertaken inadequate ~ nedovoljna prosudba opasnosti

risk of collision opasnost od sudara, rizik od sudara: When 2 power-driven vessels are meeting on reciprocal or nearly reciprocal courses so as to involve risk of collision each shall alter her course to starboard so that each shall pass on the port side of the other.<source>33-ME COLREGS</source> lookouts were posted on either vessel and neither OOW monitored the other vessel after the initial detection in order to make an appraisal of the risk of collision.<source>MAIB_SafetyDigest_2-2015</source>

risks and liabilities (n) (mar ins, mar law) rizici i odgovornost: The risks and liabilities of a freight forwarder undertaking a contract for the transportation of cargo from point to point may include but not limited to: Total loss of cargo; Loss of monies; Damage of cargo; Rerouting of cargo; Abandonment of cargo; Non-collection of documents; Incorrect release of cargo; Risk of carrier’s liability https://shippingandfreightresource.com/risks-and-liabilities-of-a-freight-forwarder/

river (n) rijeka widen and deepen the ~ proširiti i produbiti rijeku: The decision made in January 2019 to widen and deepen the Elbe River, Germany, which serves as the access point for the port of Hamburg, has therefore paved the way for bigger ships to transit the water way in future. https://dredgingandports.com/

riveted joint /riveted/ (n) (nav arch) zakovičasti spoj chain ~ lančano zakivanje,
**riveting** *(n)* (nav arch) a process of fastening a metal in another metal by the use of riveting machine and small cylindrical shaft with head in one end.

(https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/)

**spajanje zakovicama, zakovičasto spajanje** sound tight ~ čvrsti,

**nepropusno zakovani spojevi, leakproof riveting** nepropusno zakivanje

**RM; righting moment** *(n)* (stabil) the ratio of the weight and buoyancy of an inclined ship

**moment statičke stabilnosti broda**: The size of the righting moment at any displacement and angle of inclination is a measure of the ship’s ability to return to an upright position.

**RNC (=Raster Navigational Chart)** *(n)* (navig) a digital scan of a paper chart; An RNC is a digital image originally scanned from paper charts into an electronic format.

(https://www.amnautical.com/) rasterska navigacijska karta, rasterska karta:

Unlike an ECDIS operating in ENC mode, RNC mode operation allows for limited alarm and warning functionality (https://www.amnautical.com/) SRNC; System Raster Navigational Chart

**sustavna rasterska navigacijska karta**

**RNLI (=The Royal National Lifeboat Institution (RNLI))** *(n)* (safety) the largest charity that saves lives at sea around the coasts of the UK, Ireland, the Channel Islands and the Isle

**Britanska udruga za spašavanje na moru**

**RNLI lifeboat** *(n)* (safety) brodica za spašavanje Britanske udruge za

**spašavanje na moru**: The general cargo vessel was undamaged, and stood by the fishing vessel until an RNLI lifeboat arrived and escorted her to her home port. An RNLI lifeboat was dispatched to escort the trawler, and upon its arrival replaced the fire brigade’s pump with a lifeboat salvage pump.
**RNU; Relative NORTH UP Picture**  
(n) (navig) COMPARE RCU relativna North Up slika

**roach** /ˈroʊtʃ/ (n) (boating/yachting) stražnja rubna zakrivljenost jedra

**road** 1 cesta; 2 a partly sheltered anchorage in which ships may ride at anchor sidrište, sidrište uz plovni kanal na prilazu luci, rada in the ~s 1 na prilazu luci, na prilaznom sidrištu; 2 na sidru

**road haulage** /ˈrɔːliŋ/ cestovni prijevoz / transport

**road haulage vehicle** cestovno teretno vozilo

**roadstead** /ˈrəʊd stɛd/ (n) (navig) a partly sheltered anchorage, usually on the side of a port fairway prilazno sidrište, privremeno sidrište na prilazu luci, Italian: rada safe ~ sigurno prilazno sidrište, open ~ sidrište na otvorenom, rada; 2 (mar law) Roadsteads which are normally used for the loading, unloading and anchoring of ships, and which would otherwise be situated wholly or partly outside the outer limit of the territorial sea, are included in the territorial sea. (UNCLOS) sidrište (u međunar. pravu mora)

**roaring** /ˈrɔːrɪŋ/ (n) (meteorol) zonalni zapadni vjetrovi, hučne četrdesete paralele

**roaring fourties** (n) (oceanogr, meteorol) geographical belt located approximately in 40 degrees south latitude in which are encountered the prevailing or stormy westerlies pojas olujnih zapadnih vjetrova (u području južnih četrdesetih paralela)

**ROB** /ˈrəʊbə/ (=Remain on Board) (n) (cargo handling) quantity of (oil) cargo remaining on board; The material remaining in vessel tanks, void spaces, and/or pipelines after discharge. Remaining on board quantity includes water, oil, slops, oil residue, oil/water emulsions, sludge, and sediment. (www.euronav.com) preostala količina tereta na brodu: A dry tank certificate confirming that all pumpable cargo has been discharged and any quantity remaining on board (ROB) is unpumpable, will normally be conclusive evidence, particularly if signed by a representative of the consignees.

**robust** /ˈrəʊbəst; ˈrəʊbəst/ (adj) masovan, čvrst, robustan

**rock** 1 (n) (geogr) greben

**rock** 2 (v) (safety) ljujati, zaljubati, zatreći (fizički) an explosion ~ed the ship eksplozija je potresla brod, eksplozija je zaljuljala brod: Four days after the initial blast, a second explosion rocked the 293-meter vessel. The 296-meter ship was rocked by a powerful explosion while heading west in the Gulf of … on April 26, 2010. the tanker was rocked by three explosions, be ~ed by an explosion biti potresen eksplozijom: The containership was rocked by a series of explosions and a major fire in its cargo holds during a voyage across the North Atlantic …

**rock awash** (n) (oceanogr) greben

**rocker** (n) (marine eng) njihalo, pregibna poluga ~ arm klackalica, otpirač ventila, dvokraka poluga, balanser, ~ gear polužje klackalice, sistem poluga balansera: Oil is also supplied to lubricate the rocker gear operating the inlet and exhaust valves, and to the camshaft and camshaft drive. Because there are two of each valve mounted in the
cylinder head, the **rocker gear** must operate both valves simultaneously.

**rocker arm** *(n) (marine eng)* A lever which transmits pushrod motion to valve stem motion. (http://www.marinedieseleurope.com/) klackalica, klatna poluga (ventila), pregibna

**ručica**

rock**et** /rəˈkit/* (safety) signalna raketa

**rocket flare** *(n) (safety) signalna raketa*

**rocket launcher** *(n) (navy) raketna topovnjača*

**rocket parachute** *(n) (safety) signalna raketa s padobranom ~ flare signalna raketa s padobranom*

**rocking** *(n) (stabil) ljuljanje broda (s jedne strane na drugu): a ship carrying more than 4,300 cows was detained today after it suffered severe rocking from side-to-side as it started a voyage to the Middle East. https://splash247.com*

**rock ledge** *(n) (oceanogr) stijene*

**Rockwell hardness test** *(n) (marine eng)* A measurement of the degree of surface hardness of a given object. (http://www.marinedieseleurope.com/) ispitivanje tvrdoće po Rockwellu

**rocky ground** *(n) (geogr) stjenovito morsko dno: The ship is hard on a rocky ground.*

**rod** *(n) (marine eng) motka, šipka adjusting ~ razvodna motka, motka isključivanja, connecting ~ ojnica, connecting ~ large end donji kraj ojnice, donja glava ojnice, piston ~ stapajica, klipnjača, push ~ podizna motka, spojna motka, steel ~ (cargo, marine eng) čelična motka, čelična šipka, tie ~ kotveni vijak, kotvena šipka*

**rode** /rəʊd/* (=anchor rode) *(n) 1 (navig, seamanship) = anchor rode* lanac između sidra na dnu i brodskog sidrenog oka; čitava dužina lanca (i konopa) između broda i sidra; A rope or chain specifically designed to hold a ship to its anchor. http://www.aps ltd.com/aps-advisor/sailing-terms-glossary/*; anchor line or chain; consisting of all rope, all chain or a combination of chain or rope sidrenjak, sidreni lanac i konop: The vessel is attached to the anchor by the rode, which is made of chain, cable, rope, or a combination of these. The ratio of the length of rode to the water depth is known as the scope. Anchor, rode, or mooring failures resulted in several boats being driven ashore. https://www.practical-sailor.com/ For combination rodes, start by inspecting the rope-to-chain connection, which will be made via a rope-to-chain splice or by utilizing an eye splice and thimble (which in turn will be attached to the chain portion via an anchor shackle).

https://www.practical-sailor.com/*
Roger.

roll /rəʊl/ (n) (navig) motion of the ship from side to side, alternately raising and lowering each side of the deck

roll call (n) (safety) proziv (posade na zbornom mjestu): Performing roll call: .1 At your assembly station one of the officers/crew will perform a roll call. .2 The officer/crew will say This is a roll call, and will call out the passengers individually by their names. .3 When your name is called

Rolled Containers = Short Ship Container neukrcani kontejner

roller /rəʊl/ (n) (marine eng) kotačić, valjak ~ tappet valjak podizača, ~ bearing valjkasti ležaj

roller bearing (n) (marine eng) valjkasti ležaj

roller chock (US) a chock fitted with one or more rollers to reduce friction on mooring lines

roller fairlead (n) (nav arch) A block, ring, or other fitting through which passes a line or the running rigging on a ship to prevent chafing.

zjevača s valjcima, oko za privez s valjcima

deadrise lanac i konop zajedno

rolling gantry *(n) (nav arch)* pomična mosna dizalica (kod LASH brodova)
The new vessels will have a length of 238 meters, a beam of 34 meters and a gross tonnage of 64,000 tonnes. Each will have the capacity to transport over 7,800 linear meters of rolling units, equivalent to about 500 trailers.

roll-on/roll-off vessel (=ro-ro ship) (n) (nav arch) = ro-ro ship vessels used to carry wheeled cargo brod za prijevoz teretnih vozila, ro-ro brod
root cause (n) (safety) temeljni uzrok (besreće, nezgode)
root mean square; (RMS) (n) (math) srednja kvadratna vrijednost, RMS
distance ~; (DRMS) udaljenost RMS
ropax (n) (nav arch) Vessel designed with combined Ro-Ro and passenger capacity.
ro-ro-putnički brod
rope /rəʊp/ (n) (seamanship) General term applied to both fiber and wire rope.
(http://www.quarterdeck.org/index.html) uže, konop
rope clip (n) (seamanship) boca užeta, vezica za osiguranje konopa
rope clutch (n) 1 (boating/yachting) SEE jammer štoper (podigača jedra, floka, pritega buma itd.)
rope drum (n) (nav arch) bubanj vitla (za namatanje užeta), vreteno vitla (za namatanje konopa)
rope fairlead (n) (nav arch) zjevača
rope lashes = lashings konopi i čelik čela za pričvršćivanje sidrenog lanca ili deblje prijevozne užadi boce
rope lay (n) (seamanship) the direction in which a rope is twisted up smjer sukanja konopa
rope loop (n) (seamanship) omča, radanča
rope off (v) (safety) označiti (opasno) područje
rope-runners privezivači, armižatori; armižadori
rope-running rigging (n) (boating/yachting) oprema za rukovanje užadi (na jedrilici)
rope sling pasac od konopa, braga
rope work (n) (boating/yachting) rukovanje konopima, rad s konopima
ro-ro cargo ferry (n) (nav arch) ro-ro teretni brod: A ro-ro cargo ferry was on river passage with a pilot embarked.
ro-ro deck (n) (nav arch) paluba za ro-ro vozila: Within the ship is an enclosed, ventilated and weather-tight Ro/Ro deck that can protectively carry up to 400 cars and larger vehicles www.gCaptain.com
ro-ro freight (n) (cargo) ro-ro teret, teret za prijevoz ro-ro brodovima ~
vessel ro-ro brod, brod za prijevoz vozila
ro-ro passenger fery (n) (nav arch) teretno-putnički trajekt: The largest ro-ro passenger ferry is MS Color Magic. It weighs 75,100 GT (Gross Ton). It entered the service in September 2007 for Color Line. It was built in Finland by Aker Finnyards. The ferry is 223.70 m long, 35 m wide and
The vehicles in the ro-ro ship are loaded and unloaded by means of built-in ramps. For the shipper, the advantage of using a ro-ro ship is speed. Since cars and lorries can drive straight on to the ship at one port and then drive off at the other port within a few minutes of the ship docking, it saves a lot of time of the shipper. The ro-ro ship is different from lo-lo (lift on-lift off) ship that uses a crane to load the cargo. The new ro-ro vessels will have a length of 238 meters, a beam of 34 meters and a gross tonnage of 64,000 metric tons. Each will be able to transport more than 7,800 lane meters of rolling units, equivalent to approximately 500 trailers.

Scheduled to start full operation by the third quarter of 2016, the new ro-ro terminal will become NYK’s first automotive logistics base in the Middle East.

Perforated metal plates, fitted over the outside of injection sea cocks to prevent entrance of foreign substances to the ship’s pumps and piping system.
rotter chock patentno oko
rough /rʌf/ grub, hrapav, neravan
rough out /rʌf aut/ (v) pročistiti ~ a note pročistiti bilješku

Ujedinjenog Kraljevstva
royal-pole (n) vrh jarbola
rpm (revolutions per minute) (n) (marine eng) broj okretaja u minuti
RSD tug (=Reversed Stern Drive tug) (n) (nav arch) tegljač s prekretnim krmenim porivnikom

Damen Twin Fin skeg adds to the effectiveness of the design, giving the RSD Tug 2513 excellent course-keeping and predictable sailing characteristics.
Damen’s radical new always bow first RSD Tug 2513 has reached the final stage of this year’s prestigious Maritime Award KNVTS Ship of the Year prize.
The innovative RSD tug design combines elements of tractor tugs and ASD tugs to create a new class of vessel that effectively has two bows, enabling it to always operate bow first. This makes it exceptionally efficient as it is equally effective at bow and stern assists.
This vessel has excellent seakeeping behaviour, superb manoeuvrability and outstanding towing characteristics. https://products.damen.com/en/ranges/rsd-tug/rsd-tug-2513
R/T (radiotelephony) (=RT) (n) (comm) Radio communication known as RT (Radio Telephony) uses a Tx (radio transmitter) to send out radio waves of a certain frequency and a Rx (radio receiver) to receive the radio waves at the same frequency.

rubber (n) guma heat resisting ~ termootporna guma
rubber packing (n) (nav arch) gumena brtva renew the ~ zamijeniti gumenu brtvu (na brodskim grotlima)
rubber ring (n) (marine eng) gumeni prsten, gumena brtva
rubber seal (n) (marine eng) gumena brtva
rubber-tired gantry (=RTG) (n) (cargo handling) Gantry crane on rubber tires typically used for acceptance, delivery, and container stacking at a container yard.

rubbing strake (n) (boating/yachting) dvostruka razma
rubbish (n) otpaci, smeće
rub off (v) 1 (marine eng) istrti, izbrusiti; 2 brisati
rudder /ˈrʌdər/ (n) (nav arch) Device attached to a ship’s stern that controls the ship’s direction of movement. (http://www.quarterdeck.org/index.html) kormilo, timun, Italian:timone; barra active ~ aktivno kormilo, balanced ~ balansno kormilo, quarter ~ bočno kormilo, single plated ~ jednoplošno kormilo, single pintle ~ kormilo sa štencem, semi-balanced rudder polubalansno kormilo, semi-spade poluviseće kormilo, bow ~ pramčano kormilo, spade ~ viseće kormilo, unbalanced ~ nebalansno kormilo, centreline ~ (sailing vessels) kormilo po sredini krme, quarter ~ (sailing vessels) kormilo na (desnom) kvartiru,
rudder angle indicator (n) (navig) pokazivač otklona kormila

rudder carrier (n) (nav arch) nosač kormila
rudder (deflection) indicator pokazivač otklona (kormila)
rudder fence (=rudder ventilation fence) (n) (boating/yachting) A rudder fence can stop air being drawn down from the surface of the water. This air causes ventilation of the rudder blade and therefore leads to an early stall. zaštita protiv ventilacije kormila
rudder frame (n) (nav arch) A frame within the inner shell, bolted through the letter into the main frame and shell, for the purpose of stiffening the rudder
rudder hole otvor za kormilo, Italian: losca
rudder horn (n) (nav arch) rog kormila
rudder horn gudgeon (n) (nav arch) samica roga kormila
rudder pintle (n) 1 (nav arch) kratka osovina oko koje se okreće list kormila; the pin on which certain types of rudder swing štenac kormila; 2 (nav arch, sailing vessels) osnac kormila
rudder post (n) (nav arch) a part of a rudder by which it is pivoted to the sternpost statva

rudderpropeller (n) (nav arch) propeler s okomitom osovinom; Rudder Propeller can be rotated
rudder stock

rudder stock (n) (nav arch) a vertical shaft having a rudder attached to its lower end and having a yoke, quadrant, or tiller fitted to its upper portion by which it may be turned osovina kormila (SeaSources.net), Italian: asta del timone

rudder tiller (n) (nav arch) rudo kormila
rudder trunk (n) (nav arch) A watertight casing fitted around a rudder stock between the counter shell plating and a platform or deck, usually fitted with a stuffing box at the upper end.
provlaka kormila
rudder ventilation (n) (boating/yachting) podvlačenje zraka niz kormilo, tj. slabo držanje kormila pri okretanju u velikoj brzini (oko plutače) (kormilo dijelom izvan mora zbog nagnutosti jedrilice ili valova); in hydrofoil vessels) Rudder ventilation is caused by waterflow being unable to stay attached to the blade when it is turned at high speed, with air then being sucked down the rudder blade.

Schottel-propeler, rudderpropeller

endlessly to port or starboard and offer pivot capability and vertical adjustment - truly optimum combination of propulsion and steering.
With a rugged coastline and many fjords to cross, Norway has become a world leader in progressive ferry design. To minimize, always keep the leading edge of the rudder smooth and fair, and keep the boat balanced so that it sails straight, without needing much rudder input. A traffic separation scheme does not relieve any vessel from complying with other rules.

Rugged coastline

**ventillacija kormila**, povlačenje zraka niz kormilo: kormilo "u zraku" To run a horizontal appendage attached on the rudder about 3 in. below the static water line

**fence** (n) zaštita protiv ventilacije kormila: a horizontal appendage attached on the rudder about 3 in. below the static water line

A traffic separation scheme does not relieve any vessel from complying with other rules. The rules and regulations applied for the design and construction of oil tankers are primarily developed by the IMO and the classification societies.

**rules and regulations** pravila i propisi, pravila: The rules and regulations applied for the design and construction of oil tankers are primarily developed by the IMO and the classification societies.

**rules of the road** pravila o izbjegavanju sudara (COLREGS)

**ruling** (n) (mar law) odluka (suda), rješenje (suda): Tuesday’s ruling found the master of the ship guilty of recklessness resulting in catastrophic environmental damage.

**run** (v) 1 (boating/yachting) to sail freely and easily, especially with the wind aft; Point of sail approximately 160° from the wind direction
run  (n) (shipping econ) vožnja, plovidba, putovanje the ~ across prijelaza
preko, plovidba preko
run  rad (motora)
run  (marine eng) 1 staviti u pogon; 2 biti u pogonu; 3 upravljati (strojem); 4 voditi (uređaj, stroj)
run aground  (v) (navig) ANTONYM refloat nasukati se: The vessel ran aground on Lymington Banks at about 1632, at a speed of about 11 A general cargo ship carrying fertilizer ran hard aground in Dardanelles strait. A cargo vessel ran aground Friday afternoon on Gros Cap Reef in Whitefish Bay in Lake Superior. Officials say the ship ran aground just after 4 a.m. Tuesday due to a steering issue while navigating westbound in the St. Lawrence Seaway. http://gcaptain.com/product-tanker-grounds-in-st-lawrence-seaway/? The cargo ship briefly ran aground but was quickly refloated by the Coast Guard and a commercial tug. gcaptain
run ashore  (v) nasukati se
run astern  (v) (navig, seamanship, ship handling) voziti natrag, voziti kromom, šijat: The anchors were set for a SW wind and were tested with the engine running astern while transits were observed.
run down  (v) (navig) To collide with a vessel head on. sudariti se pramacem o pramac
run free  (v) (boating/yachting) ANTONYM close-hauled sailing jedriti niz vjetar

Radni mehanizam

running days

days running one after another in succession (for calculating laydays etc.)

tekući dani

running down clause

klaузula o sudaru

running fit

Any machine fit with running clearance to provide for expansion and lubrication.

pokretno dosjedanje, dosjedanje u radu

running fix

SYNONYM transferred position lines

a navigational position determined by the intersection of two or more lines of position taken at different times and then advanced to a common time

 pozicija dvostrukim smjeranjem istog objekta u razmaku vremena, pozicija snimanjem azimuta iz iste točke u razmaku vremena, opažanja u vremenskom razmaku, pozicija broda u razmaku
running gear

1. (marine eng) *pogonski mehanizam*: They have investigated the noise from main running gear, timing gears and injection pump of the diesel engine. The angle of lead of the side cranks varies with the size of engine. The upper piston of the Doxford engine requires its own running gear and crank throws. https://books.google.hr/books?isbn=1483102580;

2. (marine eng) *stapni mehanizam*

running gear*²* (n) (boating/yachting) **pokretni dijelovi brodskog motora** *(propelerske osovine, prijenosa itd.)* ~ alignment *centriranje pokretnih dijelova*: Applying a calculated lift can offset shaft sag while aligning running gear. https://www.proboat.com/2010/11/running-gear-alignment/

running gear*²* (n) (cargo handling) = running rigging **pokretna oputa** *(samarice, dizalice)*

running in  (n) (marine eng) **COMPARE breaking in** a program followed after breaking in; it is a long run program with step by step increase in the load and speed of the engine **uhodavanje motora / dijelova stroja, razrađivanje stroja / dijelova stroja (nakon**

[vremena](http://tdkj.co.uk/Navigation/Pages/Chartwork/Plotting1.htm)
When ever there is a change or renewal in the major combustion parts of the engine i.e. piston or liner and if the engine has gone under complete d’carb, then it is put back in operation under step running programmes known as “Breaking in” and “Running in”.

**running lights** *(n)* *(navig)* = steaming lights = navigating lights all the lights (masthead, side and stern lights) required by law to be shown by a vessel underway; Navigational lights that are required to be used when a vessel is in motion. https://www.ypiyachts.com navigacijska svjetla broda u plovidbi

**running moor** *(n)* *(navig)* sidrenje na jednom sidru

**running rigging** 1 *(nav arch, cargo handling)* ANTONYM standing rigging the rigging of a sailing vessel that is used for raising, lowering and controlling the sails - as opposed to the standing rigging, which supports the mast and other spars. pokretna oputa (samarice, jarbola), vrv (zastarj.), Italian: *attrezzatura corrente*; 2 pomična zaputka, pomični štraj, *patarac*

**running rigging** *(boating/yachting)* ropes used to control the sails pomična zaputka,

**pomična oputa**

**run out** *(=run-out)* *(v)* 1 *(seamanship)* izvlačiti (lanac), puštati (lanac), ispuštati (lanac): The cable run out was brought under control by using the brake. ... the port windlass jumped out of gear, and the port cable ran out to 11 shackles in the water before it could be controlled. The chain started to run out very quickly and the Third Officer was ordered to put on the brake.; 2 *(med)* iscrpsti se, ponestati (snage)

**run-out** *(=runout)* A detectable dimension that indicates a shaft is not straight.

**run the engine** *(v)* 1 *(boating/yachting)* pustiti motor da radi; 2 pokrenuti motor

**run the line from ... to ...** *(v)* *(seamanship)* provući uže od ... do ...

**rupture** *(n)* *(nav arch)* puknuće (broda), napuklina (u trupu broda): A rupture in the forward bulkhead of center cargo tank No. 1 allowed oil from that tank to enter the forepeak tank. Napuklina u prednjoj pregradi srednjeg tanka tereta br. 1 omogućilo je da nafta iz toga tanka uđe u
rupture: (v) (safety, nav arch) otvoriti rupu (na trupu broda), probušiti (trup broda): The 39,500 dwt tanker ruptured its hull in the incident.

rust: /ˈrʌst/ (v) hrđati, rdati

rust: /ˈrʌst/ (n) rđa, hrđa, rđanje, ruzina: The wire was almost two years old and was without indications of rust or defects along almost all of its length. The Bosun and three other AB’s went to remove some rust and paint from one of the cargo holds. ~ flake mrlja rđe: Water could be seen seeping into the ship, apparently from under a large rust flake at the ship’s side. ~ scale ljuska rđe, kora rđe: However, a surveyor from the Federal Grain Inspection Service rejected some of the holds due to the presence of rust scale and loose paint.

rust preventer: (n) (marine eng) zaštita od hrđanja, antikoroziv

rustproof: (adj) nehrdajući

rusty: (adj) rđav, zardao

RV (=research vessel): (n) (nav arch) istraživački brod

Rx (=radio receiver): (n) (comm) radio receiver

RX monitoring (=RX MON): (n) (electr) provjera stanja prijamnika

sacrifice: /ˈsækraftais/ (n) (mar ins) žrtvovanje

sacrifice: (v) (mar ins) žrtvovati: ~ a part of the property or earnings in order to save the maritime venture žrtvovati dio imovine ili zarade kako bi se spasio pomorski poduhvat

sacrificial anode: (n) (nav arch, boating/yachting) Anode of zinc attached to the immersed parts of a hull to prevent deterioration of the hull steel through electrochemical reaction.

https://officerofthewatch.com/tools/maritime-dictionary/ zaštitna anoda (na propeleru, kobilici, kormilu itd.)
sacrificial anode material protektor (kod katodne zaštite), žrtveni anodni materijal

saddle: /ˈsædl/ (n) (marine eng) sedlo, sjedište, nosač transverse ~ poprečni
saddled bream (n) (fishing) Lat. Oblada melanura  ušata, Italian: occhiata

safe (adj) 1 siguran, bezopasan: To be safe, vessels should be aiming for a passing distance of a mile or more in good visibility and open waters, and in restricted visibility vessels should double that distance. www.safety4sea.com far ~r znatno sigurniji; 2 dopušten

safe berth (=SB) (n) (mar law, mar ins) klauzula u ugovoru u prijevozu o sigurnome mjestu ukrcavanja ili iskrcavanja tereta u luci koju određuje naručitelj; Term in a charter party which places the responsibility onto the cargo interests to order the chartered ship to a berth which is physically safe for her while she is there for the purpose of loading or discharging. http://www.tkmglobal.net/chartering_S.HTM siguran vez (u brodarskim ugovorima)
safeguard (n) (safety) zaštitita, mjera zaštite as a ~ against kao mjera zaštite za, amend ~s dopuniti mjere zaštite safeguard (v) zaštiti ~ against zaštiti od, osigurati od

safely (adv) (safety, shipping econ) sigurno, na siguran način: Make sure that cargo is carefully and safely loaded, stowed, separated, carried and discharged.

safe port (=SP) (n) (mar law) luka u kojoj brod može pristati bez opasnosti fizičke ili političke naravi; Term in a Charter-Party which places the responsibility on to the cargo interests to order the chartered ship to a pod which is physically and politically safe for her to reach, remain and leave, taking into consideration the cargo to be loaded or discharged. http://www.tkmglobal.net/chartering_S.HTM sigurna luka (klauzula) u brodarskim ugovorima): • The cargo owner who charters vessels to ports to load or to discharge cargo is required to nominate a “safe port” - i.e. a port which the vessel can safely call at, conduct cargo operations and safely leave. (https://safety4sea.com/)
safe refuge (n) (meteoro) utočište (pred olujom)
safe speed (n) (navig, safety) sigurna brzina maintain ~ 1 držati sigurnu brzinu a: instruction was give to the master to maintain safe speed at all times, proceed at ~ ploviti sigurnom brzinom

safe track (n) (safety, navig) siguran smjer plovidbe

safety (n) freedom from undue threat of harm to life, property and environment (Ship Terms Glossary.html) sigurnost: The safety of our people, at sea and on shore, is paramount to us

safety at sea sigurnost na moru

safety at work zaštita na radu

safety belt (n) (safety) sigurnosni pojas

safety boots (n) (safety) zaštitne cipele

safety certificate svjedodžba o sigurnosti

safety check list (n) (safety) sigurnosna kontrolna lista ship/shore ~
safety code (n) (safety) pravilnik o zaštiti
safety contour (n) (navig) sigurnosni obris, sigurnosna kontura (dna mora na karti ECDIS): ECDIS display screen with safety contour adjusted and in four colour mode set the ~ postaviti visinu sigurnosnog obrisa dna mora na karti ECDIS: The safety contour of 10 meters was set on ECDIS, which was inappropriate, considering the sailing draught of 10.63 metres. A safety contour setting of 10 metres was inappropriate for the voyage as the sailing draft of 10.63 metres meant that the vessel would have grounded at a charted depth of 10.13 metres, before crossing the safety contour, set of ~ postavljeni sigurnosni obris, postavljena vrijednost sigurnosnog obrisa
safety culture (n) (safety) sigurnosna kultura: Immature safety culture leads to fatal accident
safety equipment (n) (safety) sigurnosna oprema
safety glasses (n) (seamanship) zaštitne naočale
safety harness (n) (boating/yachting) A device worn around a person’s body that can be attached to jack lines to help prevent a person from becoming separated from the boat.
https://www.ypiyachts.com sigurnosni pojas, osobna sigurnosna oprema

safety helmet (n) (safety) zaštitna kaciga
safety hook (n) (safety) sigurnosna kuka
safety line (n) (safety) sigurnosno uže (za ulaz u zatvorene prostore)
safety management certificate (n) (safety) potvrda upravljanja sigurnošću
safety management procedures (n) (safety, navig) postupci u sustavu upravljanja sigurnošću na brodu: The SMS bridge procedures provided by the managers were comprehensive and included extensive guidance on the conduct of navigation using ECDIS.
safety management system; (SMS) (n) (safety) sustav upravljanja sigurnošću (plovidbe, broda, kompanije): Without the implementation of a Safety Management System vessels will not be allowed to trade. Safety seems like a very simple process but when you deal with people, weather and equipment, most anything can happen despite the best safety management system.
safety meeting (safety) sastanak o sigurnosti (plovidbe): A safety meeting was held on board in the presence of company management personnel soon after the incident Ship/Shore ~
sastanak o sigurnosti broda/luke
safety message (n) (comm, navig, safety) poruka sigurnosti
SafetyNET (n) (safety) A service of the Inmarsat enhanced group call system specifically designed for promulgation of maritime safety information as a part of the Global Maritime Distress and Safety
System. (IAMSAR/CAMSAR2014); SafetyNET is the satellite service for dissemination of MSI using Inmarsat-C. Navigational warnings, Meteorological warnings and SAR messages are broadcast over the Inmarsat-C system using the enhanced group calling (EGC) facility. (CAMSAR II – Mission Coordination)

služba SafetyNET

safety officer (n) (safety, mar law) an officer responsible for a range of tasks related to safety and security of the ship, crew and cargo časnik sigurnosti na brodu

Konvencija o zaštiti ljudskih života na moru

safety precautions (n) (marine eng) sigurnosne mjere, sigurnosne mjere opreza, mjere predostrožnosti: Safety precautions when dismantling the main bearings: Stop engine; Block the starting mechanism; Shut off starting air supply; Engage the turning gear; Open indicator cocks; After taking safety precautions, like breathing masks, a team entered the tunnel. (https://safety4sea.com/)

safety regulations propisi o zaštiti

safety related messages (=SRM) (n) (navig, comm) sigurnosno povezane poruke, poruke povezane sa sigurnošću

safety rules pravila o sigurnosti

safety shoes (n) (safety) zaštitne cipele: At the time of the accident he was wearing his safety shoes.

safety stop (n) (safety) sigurnosno zaustavljanje, sigurnosno isključivanje

safety tether (=safety line tether; tether) (n) (boating/yachting) sigurnosna vezica (za sprječavanje pada jedriličara u more ili njegova nestanka u nevremenu): Jacklines and fixed points for clipping in should be oriented so that it is nearly impossible for you to go overboard while clipped in. They should be consistent with the tether maker’s guidance for use with their safety tethers.

https://www.practical-sailor.com/blog/Check-Your-Safety-Tethers-12344-1.html
https://www.defender.com/product.jsp?id=3098488

safety valve (n) (marine eng) sigurnosni ventil

safe water buoy (n) (navig) oznaka / plutača sigurne vode, oznaka / plutača sigurne plovidbe

Safe Working Load (SWL) is the safe maximum weight that can be lifted with the load suspended directly from the hook in the standard safe working load, sigurno radno opterećenje, dopušteno radno opterećenje.

Lifting gear is to be marked with Safe Working Loads, and will prohibit the use of lifting gear for hoisting personnel. What is the safe working load of the slings? The vessel's forward and aft mooring fittings had an indicated safe working load (SWL) of 45 MT and those of the main deck 24 MT.

The double bottom was unaffected, but the deck plating crumpled around amidships when the hull Sagged on the uneven surface. The deformation or yielding caused when the middle portion of a structure or ship settles or sinks below its designed or accustomed position is known as sagging.

Said to be (mar law) suggests that the information provided is not based on the shipper's own declaration, but is instead based on theDetailed Information of the Container provided by the shipper. This clause is typically included in bills of lading to protect the carrier from potential claims relating to the weight or quantity of the cargo.

When loading a cargo of toluene and styrene, a pilot was ordered, and the vessel sailed at 1515. Strong winds prevented ferries from sailing from Athenian ports of Piraeus, Rafina, and Lavrio, affecting operations in the Saronic Gulf.

- **sailcloth** (n) (boating/yachting) jedrenina, jedreno platno
- **sail downwind** (v) (boating/yachting) jedriti od vjetra
- **sail drive** (=S-drive) (n) (nav arch) a transmission system for a boat whose inboard engine has a horizontal output shaft; Basically a sail drive set-up is much like an outboard engine's mid and lower section projecting through the boat's hull. It's a bit different in the sense that unlike an outboard engine or inboard/outboard (IO) set-up, the engine exhaust is not exiting the boat via the drive leg, but rather through the hull just like with a conventional drive system. ([http://www.boats.com/reviews/all-about-saildrives/#.WlEXna6nGM8](http://www.boats.com/reviews/all-about-saildrives/#.WlEXna6nGM8))

**S-pogon (jedrilice):**

With the saildrive, the weight of a shaft, stuffing box, and propeller are moved forward, almost under the engine. Further, the propeller’s angle of attack is more parallel to the surface of the water, which will enhance efficiency and help to minimize traditional prop-walk characteristics common to conventional drive configurations.
sail handling hardware (n) (boating/yachting) oprema za rokovanje jedrima:
Sail handling hardware including travelers, snatch blocks, and vangs.
sail hook (n) (boating/yachting) jedrarska kuka
sailing (n) 1 (shipping econ) isplovlenje, polazak broda (iz luke, u linijskoj plovidbi): Competitive high frequency sailings have led to increased containerised throughput Is the ship safely moored/anchored, gangway in place, and ready for sailing? Je li brod sigurno privezan/usidren, siz postavljen i spreman za isplovlenje?; 2 (boating/yachting) jedrenje, bordižanje; 3 (boating/yachting) plovidba jedrilicom / krstašem

The ship owner has hired SMIT Salvage Company to rescue the vessel. The shipping company’s insurance companies and an appointed salvage company on a salvage plan for the vessel.

Salvage must be retained until the claim is resolved, or until the claimant is given disposition by the carrier.

Salvors have Re-Floated M/V Priscilla from Scotland’s Pentland Skerries. SMIT Salvage Americas, LLC have been engaged as salvors for this vessel under a Lloyds Open Form contract (LOF).

Salvors boarded the ship on 4 April. The Coast Guard said Friday that salvors will need to unload about 6,000 tons of cargo from the vessel before it can be refloated. Salvors are expected to remove all oil from the impacted tanks before attempting to move the ship.
**sample** /sa:mpl/ **uzorak (npr. tereta), Take sample of oil.**: All samples should be sealed, labelled and stored for possible future reference. ‘A single sample should be jointly drawn continuously throughout the delivery, using a sampling device at the receiving vessel’s inlet bunker manifold, unless otherwise specified by the authorities having jurisdiction’. (https://safety4sea.com/)

**representative ~ (marine eng) reprezentativni uzorak**: The Bunker Delivery Note (BDN) should be accompanied by a **Representative Sample** of the fuel delivered – the MARPOL Sample. The fuel sample must be sealed with a sign of the supplier and ship’s representative www.marineinsight.com, **take ~ uzorak (tereta): Take sample of oil.**

**sample can kantica za uzorke**

**sampling (n) (cargo, cargo handling)** The process of obtaining a sample of the material in the tank, container or pipeline to use for testing or other purposes. This can be achieved by automatic or manual means. (www.euronav.com)

**uzorkovanje, uzimanje uzoraka All-Levels Sample** A sample obtained by lowering a weighted, stoppered bottle or beaker or bottle to a point 1 foot (0.3 meter) above the free water level and then, with a sharp jerk of the line opening the sampler and raising it at a rate that it is about 75% full (a maximum of 85% full) as it emerges from the liquid.

**uzorkovanje na svim visinama tanka, uzorak uzet na svim visinama tanka, automatic ~ automatsko uzorkovanje, Flow-Proportional ~** A sample taken by an automatic sampler from a pipeline at a rate that is proportional to the liquid flow rate.

**uzorak razmjerno proporcionalan s brzinom protoka tekućine, Time-Proportional ~** A sample taken from a pipeline at regular intervals during a batch transfer period. **uzorkovanje u redovitim intervalima, Bottom ~ uzorkovanje s dna tanka, middle ~ uzorkovanje iz sredine tanka, running ~** A sample obtained by submerging an unstoppered beaker or bottle from the surface of the liquid to a point as near as possible to the shore tank draw off point or about one foot above the level of the free water in a ship tank, and then raising it without letting it rest, at a rate so that it will be about 75% full as it emerges from the liquid. (www.euronav.com)

**rak uzet pri izlasku posude za uzorak iz tekućine / tekućeg tereta, top ~** A sample taken from a valve or connection on a tank or pipeline.

**uzorak uzet pri vrhu tanka (iz ventila ili cjevovoda), spot ~** A sample taken at a specific "spot" within a tank using a stoppered bottle or beaker and lowering it to the level of desired sample then opening it and allowing it to remain at that level until full. A thief or a zone sampler may also be used to obtain spot samples (www.euronav.com) **uzorkovanje na pojedinim mjestima tanka, spot uzorkovanje, Upper, Middle, Lower ~** Spot samples taken from the upper third, the middle and lower thirds of the liquid in the tank. **uzorci uzeti iz pojedinih razina po visini tanka, ~ device naprava (uređaj) za uzimanje uzoraka**

**samson post (n) 1 (boating/yachting)** a strong vertical post used to support a ship’s windlass and the heel of a ship’s bowsprit **privezni stup (na pramcu)**
sanctions

http://yachtpals.com/basic-anchoring-equipment-9072;

2 (cargo handling) = king post teretni stup,

stup samarice: The derricks are supported by masts or samson posts.

sanctions (n) (mar law) sankcije lift ~ on a ship skinuti sankcije s broda,

ukinuti sankcije s broda: The Government lifted sanctions on one of two ships of the tanker company.

sand pijesak coarse grained sand krupnozrnati pijesak: The strainers were blocked with coarse grain sand and shells

sand bank (n) (oceanogr) pješčani sprud, pješčana obala (rijeke): A tugboat also attempted to stop the vessel but was also unsuccessful and the ship aground on a sand bank.

sandbar (n) (oceanogr) = bar = offshore bar An area in shallow water where wave or current action has created a small, long hill of sand. https://www.ypiyachts.com/ pješčani nanos

(u ušću rijeke)

sandblast /ˈsænd blæst/ (v) (marine eng) A cleaning method using an air gun to force the sand at low pressure (about 150 psi) against the surface to be cleaned. " (http://www.marinedieseleurope.com/)

pjeskariti

sandblasting /ˈsænd blaːstr/ (n) (marine eng) pjeskarenje

sander (n) (marine eng) brusilica

sand paper (n) (marine eng) brusni papir, karta žmarilja

sand smelt (n) (fishing) gavun big scale ~ gavun oliga, oliga

sandstorm (n) (meteorol) pješčana oluja: Egyptian ports reopen after Sandstorm clears.

www.gCaptain.com

sanitary sewage systems (n) (marine eng) sanitarni odvodni sustavi, sanitarna kanalizacija

Sanitary Statement (n) (mar law) izjava zdravstvenih organa

SAR (=Search and Rescue) (n) (safety) potraga i spašavanje, traganje i spašavanje International Convention on Maritime Search and Rescue

Međunarodna konvencija o pomorskom traganju i spašavanju,

coverage area the geographical area within which the satellite system provides an availability in accordance with the criteria stated in section 3.5 in the ship-to-shore and shore-to-ship directions, and within which continuous alerting is available. - any of the sea areas as defined in the SOLAS Convention, i.e. sea areas A1, A2, A3 and A4 (COMSAR 14.4) pokriveno područje (satelitskim komunikacijama) Sea Area A1 Sea Area A1: the within the radiotelephone coverage of at least one VHF coast station in which continuous DSC alerting is available (COMSAR 14.4) Morsko područje A1, Područje A2, Sea Area A2 Sea Area A2: the area within the radiotelephone coverage of at least one MF coast station in which continuous DSC alerting is available (COMSAR 14.4)
Morsko područje A2, Područje A2, Sea Area A3 Sea Area A3 is within the coverage of an Inmarsat geostationary satellite in which continuous alerting is available, excluding Sea Areas A1 and A2. Morsko područje A3, Područje A3, Sea Area A4 Sea area A4 encompasses global coverage. Morsko područje A4, Područje A4, Globalno područje, availability the percentage of time in which the system is available for access to and communication through the system (COMSAR A14.4) vremenska raspoloživost (komunikacijskog sustava), priority access Distress alerts and Distress calls are given priority treatment by providing immediate access to satellite channels and for store and forward systems, be placed ahead of all routine traffic. (COMSAR 14.4) pravo prvenstva (u pomorskim komunikacijama), proporitet u pomorskim komunikacijama levels of ~: 1. distress; 2. urgency; 3. safety; 4. other communications razine prioriteta: 1. pogibao, 2. ţurnost; 3. sigurnost; 4. ostale komunikacije: Any system currently being designed for use in GMDSS after 1 February 1999, should be able to recognize, the four levels of priority: .1 distress; .2 urgency; .3 safety; .4 other communications. (COMSAR 14.4)
SAR case (n) (safety) A SAR incident becomes a SAR case when the SAR system responds, would have responded had it been alerted at the time of the incident or when a documentary file is opened whether or not SAR services are dispatched. (Camsar 2014) slučaj potrage i spašavanja classification of ~s: podjela SAR-slučajeva: Maritime MEDEVACS should normally be classified in category 1 or 2. (Camsar 2014) Distress (M1) A person or persons from a vessel are threatened by grave and imminent danger and require immediate assistance. (Camsar 2014) pogibelj pogibao, Distress Reported After the Fact (M1P) An M1 case that has been resolved but would have required a response had the SAR system been alerted at the time of the case. (Camsar 2014) slučaj pogibli nakon zakašnjelog primitka uzbune o pogibli, Potential Distress (M2) The potential exists for an M1 case if timely action is not taken; i.e., immediate response is required to stabilize a situation in order to prevent distress. (Camsar 2014) potencijalna pogibelj
SAR case identification (n) (safety) identifikacija slučaja SAR-a, identifikacija SAR-slučaja: For the purpose of reporting and statistical data, SAR cases are to be assigned a SAR case number and a name. (Camsar 2014)
SAR classification (=SAR cases; SAR categories) (n) (safety) klasifikacija operacija potrage i spašavanja maritime search potraga i spašavanju pomorskim nezgodama, aeronautical search potraga i spašavanje u zrakoplovnim nezgodama, humanitarian search humanitarne akcije potrage i spašavanja, unknown search ostale operacije potrage i spašavanja
SAR communication (n) (safety, comm) komunikacije pri potrazi i spašavanju
SAR co-ordinator /sæˈkərədəriən/ (=SC) (n) (safety) koordinator potrage i spašavanja, SAR koordinator
SAR datum buoy (n) (safety) Droppable floating beacon used to determine actual sea current, or to serve as a location reference. plutača za označavanje morske struje i pozicije pogibli (Australian NATSAR Manual 2018)
sardine /ˈsɜrdiːn/ (n) (fishing) lat. Sardina pilchardus srdela, sardina Atlantic sardine
SAR facility (n) (safety) “any mobile resource, including designated search and rescue units, used to conduct search and rescue operations”; (COMSAR 4/14, Annex 8) kapaciteti potrage i spašavanja zrakoplova

SAR incident (n) (safety) A reported situation which has the potential to require a response from the SAR System. (Camsar2014) There are four types of SAR incidents: maritime, aeronautical, humanitarian, unknown. potencijalni SAR događaj: SAR response may include.1 Tasking SAR services. SAR services typically result from notification to the SAR system of a potential or actual distress situation.; 2 Issuing an “All Stations” broadcast (e.g., distress, urgency, missing aircraft notice, maritime assistance request, etc.); 4 Investigating, for one half hour working time, to determine if a SAR incident is occurring. etc. (Camsar2014)

SAR message (n) (safety) poruka u potrazi i spašavanju, SAR poruka
SAR mission (n) (safety) akcija potrage i spašavanja, SAR-misija ~ reports izvješća o akciji potrage i spašavanja

SAR Operation Coordinator (=SMC) (n) (safety) koordinator u centru za usklađivanje potrage i spašavanja: The SAR mission coordinator (SMC) may designate an on-scene coordinator (OSC) to enhance coordination. CAMSAR III – Mobile Facilities The search and rescue (SAR) mission coordinator (SMC), on-scene coordinator (OSC) or aircraft coordinator (ACO) shall designate on-scene aeronautical and maritime frequencies as required. CAMSAR III – Mobile Facilities

SARNET (n) (safety) SARNET is an Inmarsat-C EGC broadcast service maintained by Her Majesty’s Coastguard, United Kingdom, that provides international wide-area messaging to rescue centres. It is recommended that joint rescue coordination centres and maritime rescue sub-centres make use of this service, where appropriate, in the resolution of international SAR incidents. (CAMSAR II – Mission Coordination) SARNET, svjetska mreža SAR službi, svjetska mreža službi potrage i spašavanja

SAR operation (Search and Rescue operation) (n) (safety) operacija potrage i spašavanja, operacija potrage i spašavanja: On Monday, China Central Television said a search and rescue operation had been cancelled and a clean-up operation had begun after a fire on the surface was extinguished. major ~ Aeronautical and maritime search and rescue (SAR) incidents where primary SAR units, aeronautical and/or maritime, are tasked on an incident for more than four calendar days. (IAMSAR/Camsar2014) operacija potrage i spašavanja duljeg trajanja, conclusion of ~ zaključivanje operacije potrage i spašavanja, završetak operacije potrage i spašavanja, conduct the ~ provoditi operaciju potrage i spašavanja: The vessel proceeded at a slow speed to conduct a Search and Rescue (SAR) operation for the distressed vessel. (https://safety4sea.com/), commence the ~ započeti operaciju potrage i spašavanja: The crew activated their EPIRB and a search and rescue operation commenced. (https://safety4sea.com/)

SAR Operation reports SAR operation reports are compiled for the purpose of improving the SAR System and safety procedures. (Camsar2014) izvješća o operaciji potrage i spašavanja

SAR response (n) (safety) A SAR response is defined as the actions required from the SAR system to resolve a situation. (Camsar2014) akcije potrage i spašavanja, reakcija na primitak signala o pogibli
SARSUM (=SAR Summary) (n) (safety) sažetak operacije potrage i spašavanja: Daily SAR Summaries (SARSUMs) shall be prepared each day by each JRCC. SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned. (Camsar2014)

SAR system (n) (safety) The coordinated SAR system is the combined facilities, equipment and procedures established in each SAR Region to provide the response to SAR incidents. (Camsar2014)

SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned.

CAMSAR II – Mission Coordination

transponder za traganje i spašavanje: In the GMDSS (Global Maritime Distress and Safety System), certain classes of vessel must carry a SART. SARTs transmit in the X-band (3 cm) radio frequency used by common aeronautical and maritime radar. The signals are detected at various distances depending on scanner height, tuning and bandwidth of the radar. CAMSAR II – Mission Coordination

SAR unit (=Unit) (n) (safety, comm) “a unit composed of trained personnel and provided with equipment suitable for the expeditious conduct of search and rescue operations”. (COMSAR 14.4/ Annex 8)

SARSUM (=SAR Summary) (n) (safety) sažetak operacije potrage i spašavanja: Daily SAR Summaries (SARSUMs) shall be prepared each day by each JRCC. SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned. (Camsar2014)

SAR system (n) (safety) The coordinated SAR system is the combined facilities, equipment and procedures established in each SAR Region to provide the response to SAR incidents. (Camsar2014)

SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned.

SARSUM (=SAR Summary) (n) (safety) sažetak operacije potrage i spašavanja: Daily SAR Summaries (SARSUMs) shall be prepared each day by each JRCC. SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned. (Camsar2014)

SAR system (n) (safety) The coordinated SAR system is the combined facilities, equipment and procedures established in each SAR Region to provide the response to SAR incidents. (Camsar2014)

SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned.

SARSUM (=SAR Summary) (n) (safety) sažetak operacije potrage i spašavanja: Daily SAR Summaries (SARSUMs) shall be prepared each day by each JRCC. SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned. (Camsar2014)

SAR system (n) (safety) The coordinated SAR system is the combined facilities, equipment and procedures established in each SAR Region to provide the response to SAR incidents. (Camsar2014)

SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned.

SARSUM (=SAR Summary) (n) (safety) sažetak operacije potrage i spašavanja: Daily SAR Summaries (SARSUMs) shall be prepared each day by each JRCC. SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned. (Camsar2014)

SAR system (n) (safety) The coordinated SAR system is the combined facilities, equipment and procedures established in each SAR Region to provide the response to SAR incidents. (Camsar2014)

SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned.

SARSUM (=SAR Summary) (n) (safety) sažetak operacije potrage i spašavanja: Daily SAR Summaries (SARSUMs) shall be prepared each day by each JRCC. SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned. (Camsar2014)

SAR system (n) (safety) The coordinated SAR system is the combined facilities, equipment and procedures established in each SAR Region to provide the response to SAR incidents. (Camsar2014)

SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned.

SARSUM (=SAR Summary) (n) (safety) sažetak operacije potrage i spašavanja: Daily SAR Summaries (SARSUMs) shall be prepared each day by each JRCC. SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned. (Camsar2014)

SARSUMs shall provide a logical story of the events that occurred for each of the incidents mentioned.
satellite communications =SATCOM\satellite communication terminal\satelitski komunikacije\satellite communication terminal with a 10W BUC option type approved for use on Inmarsat’s Global Xpress network for its maritime Fleet Xpress service\satellite navigation =SATNAV\Satellite navigation uses artificial earth satellite systems, such as GPS, to determine position (Bowditch 2001)\satellite navigation system\satellite navigator (SATNAV)\sawtooth current (n) (electr) pilasta struja\Saybolt viscosity (n) (marine eng) The number of seconds necessary for 60 mL of liquid to pass through the outlet tube of a Saybolt viscosimeter under standardized test conditions.
S-band radar; 10 cm radar

**COMPARE X-band radar**

A common marine radar wavelength is 10 cm (actually 9.2 to 10 cm) with a frequency of 3000 to 3246 megahertz. This is known as S-band radar. The **S-band radar** is used especially when in rain or fog as well as for identification and tracking.

**SCR** (=Selective Catalytic Reduction) *(environ)* SEE Selective Catalytic Reduction unit (SCR) selektivno katalitičko pročišćavanje

**scrap** *(nav arch)* baciti (brod) u staro željezo, otpisati: Oil tanker firm Frontline expects shipping firms to *scrap* more old vessels in the time ahead, which may lead to a recovery in rates for the remaining global fleet in the second half of 2018. Maritime Logistics Professional <update@maritimeprofessional.com> *The ship was scrapped in 2018.*

**scrap** *(nav arch)* staro željezo: A ten-year boxship has been sent for *scrap* recently.

**scrape** /ˈskreɪp/ *(safety)* grebati, ogrebati, strugati, ostrugati: She was tracking well clear of us until, at a mere 8 cables range, she decided to take the deep-draught channel, turned to port and *scraped down* our port side less than 2 cables off. by trawl gear, the fishing vessel responded slowly and, despite the evasive action, the cargo ship collided with her starboard gantry and *scraped down* her starboard side. A container ship *has scraped its side* against the wall of a newly built lock. The Bosun started to *scrape* the parts he could reach from the tank top and when this was done a ladder was rigged to reach areas higher up. (https://safety4sea.com/)

**scrape** *(safety)* ogrebotina: • The ship sustained minimal damage, including *scrapes on its side.*
scrape off /skreip/ (v) (marine eng) ostrugati, otirati, piketati
scraper /skreipa/ (n) (boating/yachting) strugača
scraper ring /skreap ’ring/ (n) (marine eng) An oil-control ring. stružni prsten (na klipu, brtvenici), otirač ulija
scrap metal /skreach/ (n) (cargo) staro željezo
scraping The disposal of old or damaged vessel tonnage by way of sale as scrap melt.; demolition or recycling of ships prodaja broda u staro željezo, bacanje u staro željezo,
predaja broda u rezalište: Since the ship was beyond repair the company sold the ship for scraping
scrapes (n) (shipping econ) materijal nastao nakon rezanja broda staro željezo iron ~ staro željezo
scrapyard (n) (shipping econ) rezalište brodova
scratch (v) 1 (marine eng) grepsti, ogrepsti; 2 iscrptati, urezati crte
scratch (n) (safety) ogrebotina: There were several dents on the side shell of the port quarter below waterline. (https://safety4sea.com/)
screen /skri:n/ (n) (electr, navig) zaslon, ekran, katodna cijev
screen display (n) (navig) prikaz na ekranu, pokazivač: ECDIS screen display at time of grounding
screened /skri:nd/ (adj) (marine eng) zaštićen
screening (n) 1 (marine eng) odjeljivanje, izdvajanje, sortiranje; 2 (marine eng) a spray seal; a strip/layer of wood, plaster, or metal placed on a surface to act as a guide to the thickness of the cement or plaster coat to be applied žaštitni omotač cijevi: It was also observed that the joint and the fuel pump inlet pipe bosses were not covered with approved splash prevention screening, as required under Solas. For many years now my company has fitted simple screening around vulnerable areas so as to dump any spray or leak into the bilge, rather than onto a hot surface.
screen tube /skri:n/ (n) (marine eng) cijev zaslona, ekranska cijev
screw /skru:/ (n) 1 (marine eng) vijak, vida; Italian: vite adjusting ~ vijak za regulaciju, vijak za ugađanje / namještanje / podešavanje, set ~ pritezni vijak, sheet-metal ~s vijci za limove (bez matice); 2 (nav arch) brodski vijak, propeler
screw die (n) (marine eng) nareznica, maći
screw pump (n) (marine eng) vijčana pumpa, pužna pumpa

screw transporter pužni prijenosnik, puž
scrubber /skrbe/ (n) (marine eng) pročistač plina (iz goriva), uređaj za pranje
plina (od krutih čestica i tekućina), scrubber (skraber): DuPont Marine
Scrubber has ‘run-dry’ capability and no by-pass, allowing vessels that travel in and out of ECAs to comply with regulations: a single scrubber can meet 0.1% and 0.5% sulfur requirements Maritike Reporter, March 2017; www.marinelink.com Summarizing the situation with upcoming regulations he noted that to meet the requirement in 2016 and onwards in many areas, and you need to run on HFO you will have to use a SCR to remove the NOx and a scrubber to remove the sulfur. “Then you can go a little bit more expensive and burn light fuel. Then again you need after treatment with a SCR. Or you can go Marine Reporter NUMBER 7 / VOLUME 77 / JULY 2015, www.marinelink.com Scrubber Installs are Approaching 1,000 Ships Globally. www.gcaptain.com The owners have decided to install scrubbers on all of their newbuildings under construction across a number of shipyards. www.gcaptian.com Norway is also working on open loop scrubber bans around its world heritage fjords https://gcaptain.com Most of the ships have adopted exhaust gas scrubber system to comply with the upcoming sulphur emission rule www.marineinsight.com exhaust gas ~ pročistač ispušnih plinova: "A DuPont Marine exhaust gas scrubber enables any vessel to meet sulfur emission limits without switching to expensive low-sulfur fuel when entering an ECA. http://maritimeglobalnews.com/news/drive-scrubber-business-ckyyj8 “Residual fuel and scrubbers can be the most cost-effective and environmentally sustainable method of SOx compliance and EGCSA will use knowledge and data rather than rhetoric to answer questions and explain the benefits." http://maritimeglobalnews.com/news/drive-scrubber-business-ckyyj8 To comply with the regulation, ship owners can opt to burn more expensive low sulfur fuel oil, build or retrofit their vessels to LNG bunker fuel, or continue with heavy fuel oil using scrubbers. http://gcaptain.com Wärtsilä supplied open loop scrubber systems to Korean yard STX Offshore & Shipbuilding for four new 45,000 dwt Ro-Ro ships for its owner Ignazio Messina & C. The vessels will burn residual fuel oil, and the scrubbers ensure that the 0.1% fuel sulphur content emission regulations can be met. http://gcaptain.com http://www.seanews.com.tr, install the ~ ugraditi plinski pročistač, ugraditi scrubber: The shipowner now has commitments to install 20 scrubbers, including those going onto newbuild VLCCs Front Discovery and Front Defender. Splash24/7 <splash@asiashippingmedia.com>, open loop ~ pročistač s pranjemu plina u obliku otvorene petlje: The open loop scrubbers wash out the sulfur and some industry experts believe they are the cheapest way to meet the new global rules. https://gcaptain.com, ~ malfunction kvar pročistača plina, neispravan rad pročistača plina: ... a severe scrubber malfunction caused thousands of gallons of sea water gush into the engine room. https://safety4sea.com, check the ~ for leakage provjeravati pročistač plina zbog puštanja: It is imperative that the structural integrity of the scrubber and associated pipework is constantly checked for signs of leakage or corrosion https://splash247.com, wet scrubber mokri pročistač plina: The basic operational concept of an SOx wet scrubber involves the mixing of water and sulphur from the exhaust gas. ...a corrosive environment within the scrubber tower and associated pipework can cause the risk of water flooding and escape of exhaust gas into the engine room. https://splash247.com, closed loop ~ pročistač s pranjemu plina u obliku zatvorene petlje: Oman has banned the use of open-loop scrubbers in its territorial waters - this means that only closed-loop scrubbers, or hybrid scrubbers used in closed-loop mode, can be used. https://safety4sea.com/
scrub brush  (seamanship) gruba četka (za pranje palube itd.)
scrutinise  /ˈskruːtɪnaɪz/  (v) pomno pregledati
scuba  /ˈskuːba; ˈskjuːba;  (n) (boating/yachting) a self-contained underwater breathing apparatus
boca s kisikom za disanje pod vodom ~ suit scuba-odijelo, ~ gear
oprema za ronjenje: Scuba gear is useful for clearing a fouled prop, freeing stuck anchors, replacing zinc anodes, making underwater repairs, and of course, sightseeing, ...
https://www.practical-sailor.com/ , ~ diver ronilac s bocom i aparatom za disanje, scuba-ronilac
scuba-diving  /ˈskuːba dɪvərn/  (n) (boating/yachting) a mode of underwater diving where the diver uses a self-contained underwater breathing apparatus (scuba), which is completely independent of surface supply, to breathe underwater. (https://en.wikipedia.org/wiki/Scuba_diving) ronjenje s
**bocama, scuba-diving**

**sculling** /ˈskʌlɪŋ/ (n) 1 (seamanship) veslanje s krme; 2 (boating/yachting) A method of providing forward momentum that involves rocking a boat from side to side, with synchronized movement of the rudder back and forth [http://www.apsltd.com/aps-advisor/sailing-terms-glossary/]; pomigavanje, Italian: voga a bratto

**scupper** /ˈskʌpər/ (=scuppers) (n) (nav arch) openings in the side of a ship to carry off water from the waterways or from the drains [https://officerofthewatch.com/tools/maritime-dictionary/]; Any opening or tube leading through the ship’s side to carry water away from the deck. A pipe conducting the water from a deck scupper to a position where it is discharged overboard. (https://www.history.navy.mil/) odljev (s palube), izljevnicna, izljev, manikela: Scuppers are located in the gutters or waterways, on open decks, and in corners of enclosed decks, and connect to pipes, usually leading overboard Ensure all scuppers are still properly plugged. www.sqemarine.com/shipmanuals ~ plug čep odljeva remove ~s skinuti čepove odljeva, plug the ~s začepiti odljeve, ~ pipe odljevna cijev na palubi

**scurvy; scurvey** /skəˈvɪri/ (n) (med) skorbut

**scuttle** /ˈskʌtəl/ (v) (safety) to sink a vessel deliberately by boring holes in her bottom or by opening sea valves; the act of deliberately sinking a vessel naplaviti brod bušenjem ili otvaranjem kingston ventil a (namjerno, radi gašenja požara), potopiti brod bušenjem ili otvaranjem kingston ventil a (namjerno, radi gašenja požara): The wrecked Bulk Carrier will be scuttled off Mexico The ship was scuttled by a submarine. Salvors working the wreck have scuttled the vessel more than three months after she ran aground loaded
The ship is **to be scuttled** off Brazilian coast. Brod će biti potopljen nedaleko od brazilske obale.

**Scuttle** /skətl/ (n) (nav arch) a small opening, or lid thereof, in a ship's deck or hull. *okno, otvor s poklopcem (na palubi ili trupu):* A porthole on a ship may also be called a *sidescuttle* or *side scuttle* (side hole), as officially termed in the SOLAS Convention.

**SDME; Speed and Distance Measuring Equipment** (n) (navig) uređaj za mjerenje brzine i pređenog puta

**S.D.R. (special drawing rights)** (n) (mar law) Special Drawing Rights are an international value used to provide a regular comparative evaluation by the International Monetary Fund of the currency of member nations. Value of a national currency will rise in S.D.R.s as the value of the national currency rises on the world market. S.D.R.s therefore are a fair evaluation of the comparison of national currencies one with another and as such useful as a valuation for limitation in an international convention.

**Sea** (n) 1 (oceanogr) the ocean in general (US); the salty water that covers about three-quarters of the Earth's surface; a large area of salty water that is part of an ocean or is surrounded by land.

**Sea Acceptance Test (SAT)** (n) (navy, navig) svjedočba o ispitivanju u pokusnoj vožnji: Raytheon Anschütz, a leading integrator of naval integrated bridge systems, has
successfully completed the Sea Acceptance Test (SAT) for the Synapsis Tactical Command System (SYNTACS) aboard a series of new Interceptors and Patrol Boats. **sea anchor** (=oil spreader) (n) **(navig, safety) = drogue** a drag or drogue (a conical shaped canvas bag) thrown over to keep a vessel to the wind and sea. **zavlačno sidro**, **Italian: ancora galleggiante**: The sea anchor cuts the speed of the ship’s drift and consequently increases the time available for a rescue tug to reach the ship and take it in tow before it runs aground. **sea-bass** /ˈsiːbæs/ (=seabass; sea-bass; sea bass; European bass) (n) **(fishing)** luben, brancin, lubin, smudut, agač, Italian. *spigola; branzino*

**European seabass** luben, brancin **seabed** (n) **(geogr)** morsko dno, Italian: *fondale*: the salvage team cut and lifted the ship from the seabed. Having the main bridle trailing over the side can cause it to foul with underwater obstructions or simply dredge the seabed and act as an anchor thereby making emergency towing difficult. **seabees** (n) **(seamanship)** mornarske čizme **seaborne** (adj) morski, koji ide morem, koji se kreće morem **seaborne cargo** (n) **(shipping econ, logist)** pomorski teret, teret u prijevozu morem: During 2015, Hong Kong handled 257 million tons of seaborne and river cargo, of which 70% was carried by oceangoing vessels. **seaborne trade** (n) 1 **(shipping econ, logist)** trgovinska razmjena morem: ging maritime superpower, China will play a key role in shaping the future of shipping as it becomes the world’s primary maritime market – leading in seaborne trade, shipbuilding and vertically integrated shipowning and ship management.
seaborne transport

seaborne transport (n) (shipping econ) pomorski prijevoz:

prijevoz robe morem

<tlCorpus><sentence>ndertake measures to protect Aids to Navigation from disasters, which is necessary for safety navigation of vessels, in order to ensure the safety of seaborne transport routes in the event of disasters. <source>MaritimeReporter-2016-03</source></sentence></tlCorpus>

sea bream (=seabream; sea-bream; sea bream) (n) (fishing) = gilt-head bream

English name for marine sparid fishes. The Sparidae family is also known as porgies. These fish have certain distinctive features that make them easily identifiable. First, their bodies are relatively flat. The line from the dorsal area to the front of the fish descends very rapidly giving the face a flattened appearance, especially when viewed in profile. Their color varies widely from species to species, mainly depending on water type and environment. In brackish waters, for example, the fish tend to be darker, with shades of blacks and grays to help them blend in with the environment. Some fish, in other areas, even have a bright red appearance, showing how diverse members of the family can be.

(http://www.wisegeek.org/what-is-sea-bream.htm) ribe iz porodice Sparidae (orade itd.), podlanica, komarča, orada, lovrata, Italian. orata; cagnina: Sea bream are a variety of fish species that are very popular for eating, especially in Europe.; 2 ribe iz porodice Sparus aurata (arbuni itd.)

sea breeze (n) (meteorol) a wind that blows from a sea or ocean towards a land mass smorac, vjetar s mora, maestral, Italian: brezza di mare

sea buoy (n) (navig) the last buoy as a boat heads to sea plutača koja označava izlaz otvoreno more

sea carrier (=sea-carrier) (n) (mar law, shipping econ) morski prijevoznik, pomorski prijevoznik, brodar

seacat (n) (fishing) morska mačka

sea chart (n) (navig) pomorska karta

sea chest (n) 1 (nav arch) a rectangular recess in the hull of a ship. The sea chest provides an intake reservoir from which piping systems draw raw water. usisni tank morske vode, usisni koš: A structural sea chest is fitted with strainers or gratings, and sometimes has a lip that forces water into the sea chest when the ship is underway.

search (n) (safety) operacija koordinirana iz Spasilačkog koordinacijskog centra (RCC/MRCC) ili Područnog centra za potragu i spašavanje (RSC-a/ MRSC-a); (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html); An operation, normally coordinated by a rescue coordination centre or maritime rescue sub-centre, using available personnel and facilities to locate persons in distress. (IAMSAR/Camsar2014) potraga, traganje: Multiple USCG units & partner agencies rescued 5 people from capsized vessel after a search covering 613 square
The search covered 3,753 square nautical miles and lasted approximately 98 hours before it was suspended.

Search and Rescue Mission Coordinator at Sea

The Coast Guard on Thursday suspended its search for the missing crew member of the tugboat, which sank Monday in the Gulf of Mexico. Search for two missing persons has been suspended. Meanwhile, more Coast Guard and Navy rescue crews converged on the scene to search for survivors.

https://gcaptain.com, successful ~ uspješna potraga, unsuccessful ~ neuspješna potraga, continue ~ nastaviti potragu: A search will continue until the SAR Mission Coordinator (SMC) determines that there is no longer a reasonable expectation of survivability, that every reasonable effort has been expended and that all leads have been exhausted.

search (v) (safety) tražiti, tragati: The Coast Guards searched approximately 130 square nautical miles for 27 hours. www.gCaptain.com

search action plan (n) (safety) Message, normally developed by the search and rescue (SAR) mission coordinator, for passing instructions to SAR facilities and agencies participating in a SAR mission. (IAMSAR/Camsar2014)

Search and Rescue /ˈsɜːtʃənd,rɛskju/) (=SAR) (n) (navig, safety) SAR comprises the search for, and provision of aid to, persons, ships or other craft which are, or are feared to be, in distress or imminent danger. (IAMSAR/Camsar2014)

Search and Rescue Facility (=SRF) (n) (safety) mobilno sredstvo potrage i spašavanja

Search and Rescue Incident (n) (safety) Any reported situation which has the potential to require a response from the search and rescue (SAR) system. (IAMSAR/Camsar2014); A SAR incident becomes a SAR case when the SAR system responds or would have responded had it been alerted at the time of the incident. (IAMSAR/Camsar2014)

Search and Rescue Mission Co-oordinator /ˈsɜːtʃənd,ɛskju/) (=SMC) (n) (safety) ravnatelj Državne uprave za zaštitu i spašavanje (DUZS) s potpunom odgovornošću za uspostavljanje i osiguranje provedbe akcije potrage i spašavanja, kao i za odgovarajuću koordinaciju planiranja sudionika potrage i spašavanja zrakoplova; The rescue coordinator temporarily assigned to coordinate response to an actual or apparent distress situation at a RCC or JRCC. (IAMSAR/Camsar2014)

The Australian Maritime Safety Authority (AMSA) is coordinating a search and rescue operation about 35 km north of Port Hedland in Western Australia this morning.

Rescue coordination centres and other established and recognized national points of contact which can accept responsibility to receive Cospas-Sarsat alert data to enable the rescue of persons in distress.

The SART is used to locate a survival craft or distressed vessel: each radar pulse received by the SART causes it to transmit a response which is swept repetitively across the complete radar frequency band, creating a series of dots on the radar display of any vessel within radar range.

Passenger ships ... must have on board a plan for cooperation in the event of an emergency developed in cooperation with the SAR services responsible for the Search and Rescue Regions (SRR) along the ship's route. (SAR Manual, Finland 2010)

The actions required from the search and rescue (SAR) system to resolve a situation.

Konvencija o potrazi i spašavanju 1979, Konvencija o traganju i spašavanju 1979

The performance of distress monitoring, communication, coordination and search and rescue functions, including provision of medical advice, initial medical assistance, or medical evacuation, through the use of public and private resources including cooperating aircraft, vessels and other craft and installations. (IAMSAR/Camsar2014)
comprises the surveillance area of the Coast Guard District in question and other areas of the SRR in its vicinity as agreed or ordered more specifically on the matter and in which the Coast Guard District in question is responsible for maritime search and rescue (SAR). (SAR Manual)

potrage i spašavanja

search and rescue system (n) (safety) The coordinated search and rescue (SAR) system is the combined facilities, equipment and procedures established in each SAR region to provide the response to SAR incidents. (IAMSAR/Camsar2014)

Search and Rescue Unit (=SRU) (n) (safety) postrojba sastavljena od obučenog osoblja i opremljena potrebnom opremom za učinkovitu potragu i spašavanje (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html); A unit composed of trained personnel and provided with equipment suitable for the expeditious conduct of search and rescue operations (IAMSAR/Camsar2014)

state search and rescue (SAR) aircraft or vessels established and equipped specifically for SAR with SAR trained crews aboard. primarna postrojba potrage i spašavanja, secondary ~ sekundarna postrojba potrage i spašavanja: All units of the State government that are not primary search and rescue units but which may be tasked to aid in the resolution of a search and rescue incident. (Camsar2014), Maritime SRUs pomorska postrojba potrage i spašavanja

search area (n) (navig, safety) The area determined by the search planner that is to be searched. This area may be sub-divided into search sub-areas for the purpose of assigning specific responsibilities to the available search facilities. (IAMSAR/Comsar2014)

searchlight /ˈsɜːtʃˈlæt/ (n) (navig) reflektor: LPG & LNG tankers should be equipped with own searchlights conform to the Suez Canal Authority’s rule of Navigation, and that said searchlight should be gaslight. ~ beam snop reflektorskog svjetla, stern ~ krmeni reflektor
searchmaster (n) (safety) An individual who has been appointed by a search and rescue region commander to coordinate and direct a specific search and rescue operation. IAMSAR/Camsar2014

zapovjednik operacije potrage i spašavanja: If a SAR case has the potential to become a major SAR operation, then the appointment of a specific SMC or a searchmaster (SM) is to be considered. Camsar2014

Search Object(s) (n) (safety) zrakoplov/brod koji je nestao ili je u opasnosti ili preživjeli ili dokazi na koje se potraga odnosi; A ship, aircraft, or other craft missing or in distress or survivors or related search objects or evidence for which a search is being conducted. (IAMSAR/Camsar2014)

search operation (n) (safety) operacija traganja, operacija potrage boost the ~ pojačati traganje: The Coast Guard was pressuring the nearby ships to boost the search operations for the missing crewmembers

search pattern /ˈsɜːtʃ/ (n) (safety, navig) A track line or procedure assigned to a search facility for searching a specified area. (IAMSAR Manual) manovra potrage i spašavanja, obrazac potrage i spašavanja expanded square search prošireni četverokut

, sector search sektorsko traganje
search plan

parallel search pattern (single and multiple units) traganje po usporednim

stazama (uključen jedan ili više brodova) CO-ORDINATED CREEPING LINE SEARCH 1 Ship and 1 Aircraft

search plan plan operacije potrage i spašavanja: ground search patterns will conform to either the parallel sweep or contour type of search (CAMSAR III – Mobile Facilities) optimal ~ A plan that maximizes the probability of success of finding the search object, using the available search effort. optimalni plan operacije potrage i spašavanja

search planning (n) (safety) planiranje operacije potrage brodova: The degree of search planning can range from the simple tasking of a search and rescue (SAR) unit on an electronic search, to the complicated coordination of a weeklong search, using many aeronautical and/or maritime SAR facilities. The planning can be carried out manually or by one of the computer programs available. CAMSAR II – Mission Coordination

search speed The speed (or velocity) with which a search facility moves over the ground when searching. (IAMSAR Manual) brzina potrage

search sub-area (n) (safety) A designated area to be searched by a specific assigned search facility or possibly two facilities working together in close coordination. (IAMSAR manual)

podpodručje potrage i spašavanja

search techniques (n) (safety) tehnike potrage, tehnike traganja: Maritime SAR units will simply use the search technique of using latitude and longitude expressed by the convention degrees and decimal degrees. Camsar2014

search the ship (v) (safety) pretražiti brod

search the target (v) (navig) COMPARE acquire the target / vessel tražiti cilj / objekt (na radaru), pretraživati cilj / objekt

sea room (n) (navig) prostor, mjesto, slobodan prostor za manevriranje: the OOW did not consider the lack of sea room No check for sea room astern was made Vessel X’s bridge team did not check for sea room astern before altering course www.gov.uk/maib
seas (n) (oceanogr, navig) valovi: When a ship is sailing in following or quartering seas its motions can become exaggerated and can result in capsizing. following ~ valovi u krmu, head ~ valovi u pramac, quartering ~ valovi u krmeni bok, valovi u kvartir

sea service (n) (mar law) plovidbena služba, staž period of ~ trajanje plovidbene službe

seasick (adj) (med) oboljelo od morske bolesti: He is ~ As soon as seasick symptoms appear (mild headache, nausea, sweating, drowsiness, depression) a more disciplined response is required. Practical Sailor <practicalsailor@e.practical-sailor.com> anyone who has never been seasick has never been to sea. Practical Sailor <practicalsailor@e.practical-sailor.com> be ~ imati morsku bolest, get ~ dobiti morsku bolest

seasickness /ˈsiːsknis/ (n) (safety) morska bolest anti~ medication tablete protiv morske bolesti: Avoid coffee, black tea, colas and alcohol, fatty foods including tuna, tomatoes, salami, hard cheeses and sauerkraut at least 2–4 days before the passage. Start appropriate seasickness medication at least 24 hours prior to departure: 2-3 grams of Vitamin C, Berocca, Stugeron tablets, Compazine suppositories or TransDerm Scopolamine patches. Practical Sailor <practicalsailor@e.practical-sailor.com>

seaside /ˈsiːˌsaid/ (n) to go to the ~ ići na more (npr. na izlet) 1 (geogr) primorje, primorski kraj, obalno područje; 2 obala, more

sea smoke (n) (meteorol) morski dim

seasonal correction (n) (nav arch) sezonska korekcija

seasonal periods /ˈsiːzənəl/ razdoblja godišnjih doba

seasonal products /ˈsiːzənəl/ (n) (cargo) sezonski proizvodi (žitarice, voće, drvo)

sea spray (n) (meteorol) morski dim: With few options remaining, the skipper and crew stood cold and wet from the sea spray on the open foredeck as their vessel burned. <source> Safety_Digest_2_2013 </source> </sentence> </tlCorpus>

sea stabilization (n) (navig) COMPARE ground stabilization stabilizacija radarske slike kroz vodu

sea-stabilized display (n) (navig) COMPARE ground-stabilized display stabilizirana slika kroz vodu, radarska slika stabilizirana u odnosu na more

sea stabilized picture (n) (navig) COMPARE ground stabilized picture radarska slika stabilizirana u odnosu na more

sea state (meteorol, oceanogr) Overall surface conditions of a large area of water (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/); Condition of the water surface resulting from waves and swells. stanje mora, visina valova: Visibility was good, the wind was north-east force 6, and the sea state was

vožnja: After successful sea trials MS .... entered service this month sailing between China and South America. ALP Striker achieved an impressive and most satisfactory bollard pull results of 309.6 tonnes during her sea trials. complete the ~ obnaviti pokusnu vožnju
Paraphrasing the content:

**sea valve** *(n) (safety, nav arch) kingston ventil, ventil za naplavljivanje (brodskog skladišta, broda):*** The sea valves and their seals should be checked prior to loading and checked and sealed again after departure. Kingstone i njihove brtve valja provjeriti prije krcanja pa ih potom provjeriti i ponovno zabrtviti nakon isplovljenja.

---

**sea wall** *(n) (ports) zaštitni zid uke:*** The price of sea wall and bulkhead (=barrier) construction to be between EUR 750,000 per km and EUR 2 million per km.

**seaward** /ˈsiːwɔrd/ *(adv, adj) prema moru, na morskoj strani, morski:* The ship began to turn to port and away from the breakwater, the pilot told me that he did not want to pilot my vessel inwards and we turned around to seaward.

**sea-water cooling suction** *(n) (marine eng) usis morske vode za hlađenje (za plovidbu u plitkoj vodi):*** during the final approach to the anchorage the engineers changed over from the low to the high sea water cooling suction.

**sea water cooling system** *(n) (marine eng) sustav hlađenja morskom vodom:* the whole auxiliary sea water cooling system was blocked with course grain sand and shells.

**seawater filter** *(n) (boating/yachting, marine eng) filtar morske vode za hlađenje motora:* the whole auxiliary sea water cooling system was blocked with course grain sand and shells.

**seaway** /ˈsiwei/ *(n) 1 the sea as a route for travel; an ocean traffic lane; 2 a waterway giving access to an inland port, navigable by ocean-going ships (https://www.collinsdictionary.com/dictionary/english/seaway) a *(navig) morski prolaz, pomorski put, morski plovni put:*
Seaway bill (Sea Way B/L) (mar law) = waybill

Sea Waybills are not documents of title, so that the holder does not necessarily have ownership of the goods. Sea Waybills are increasingly used instead of Bills of Lading: they are simpler, which helps, e.g., when only short sea crossings are involved, or for regular shipments to established customers whose creditworthiness is not in doubt. Seaway bill takes the same form as B/L but is a non-negotiable receipt and not a document of title. Frequently used in the container trade;

A type of bill of lading used for port-to-port or combined transport carriage (http://www.maerskline.com/en-jm/help/shipping-glossary pomorski teretni list: A waybill is identical to a negotiable bill of lading except that it is not a document of title. There are no originals issued for this type of document. When a shipping document is issued to a “named” consignee and it is not a document of title, it may be considered as a “Sea Waybill”... Sea Waybill of Lading is a NON-NEGOTIABLE & NON-TRANSFERABLE DOCUMENT.

https://shippingandfreightresource.com/cargox-blockchain-smart-bl-app/

When a shipping document is issued to a “named” consignee and it is not a document of title, it may be considered as a “Sea Waybill”

Sea seaweed (n) (oceanogr) morska trava

Sea-working unit (mar law, navig) pomorski tehnički ploveći objekt

Seaworthiness /ˈsiːwɔːrθɪznəs/ (safety, nav arch, mar law) A basic theme in maritime law, referring to the obligation of shipowners and carriers to provide a vessel and crew fit to confront the perils of the sea. In the carriage of goods by sea, under art. 3(1) of the Hague and Hague/Visby Rules, the carrier must exercise due diligence before and at the beginning of the voyage (a) to make the ship seaworthy; (b) to properly man, equip and supply the ship; and (c) to make the holds, refrigerating and cool chambers, and all other parts of the ship in which goods are carried, fit and safe for their reception, carriage and preservation; The sufficiency of a vessel in materials constructions, equipment, crew and outfit for the trade in which the it is employed. (www.euronav.com) sposobnost broda za
The main requirements for seaworthiness are that a ship has sufficient crew, stores and fuel, the machinery and equipment are in good repair and that the ship is fit to receive and carry the cargo. http://www.tkmglobal.net/chartering_S.HTM ~ certificate

The seaworthiness certificate is frequently issued to enable a vessel to proceed, after temporary repairs have been effected, to another port where permanent repairs are then carried out. www.euronav.com

seaworthy / si, ˈswɔːði/ (adj) (mar law, safety) certified for, and capable of, safely sailing at sea

deck

Second Mate (=2nd Mate) a qualified Officer in Charge for Navigational Watch (OICNW); responsible for directing the bridge and navigating the ship. His duties include updating of charts and publications, keeping them current, making passage plans, and all aspects of ship navigation. Additional duties include directing line handlers, cargo watches, directing anchor detail and training and instructing crew members. (https://safety4sea.com/) drugi časniki palube, sekondo, drugi (od koverte / kuverte): The Second Mate was assigned the 0000-0400 and 1200-1600 watches. Drugi časniki postavljen je u stražu / gvardiju od 0000-0400 i 1200-1600 sati. The Second Officer of a merchant ship is responsible for the navigation of the ship working from the bridge. He/she is also responsible for maintaining navigational equipment on the bridge. ~ certificate svjedodžba o ovlaštenju za drugog časnika palube: After obtaining his Second Mate’s Certificate in 1961, he spent the next several years sailing with various companies to gain experience on different types of ships.

Section (n) 1 (nav arch) an extruded or fabricated structural member of a ship

第二等工程師 (sec undo, 第二引機師; 上機师): The Second Engineer is responsible for the daily maintenance and operation of the engine department, and for the general supervision of the engine room. (https://safety4sea.com/) drugi časniki stroja (na hrvatskim brodovima; on board Croatian ships), drugi od makine; 2 prvi časniki stroja (na brodovima UK; 1st Engineer on board UK ships)

Second Embarcation (n) (mar law) ambalaža za prijevoz morem

section (n) 1 (nav arch) an extruded or fabricated structural member of a ship

2 (mar law) poglavije (zakona, ugovora), članak; 3 (nav arch, marine eng) presjek, profil angle ~ L-profil, uglovnica, kutni profil, channel ~ U-profil, flat ~ plosnati profil, halfround ~ poluokrugli profil, hollow round ~ šuplji okrugli profil, I~ I-profil, round ~ okrugli profil, cross~ poprečni presjek, single rolled ~ jednostruki valjani profil

sector light / 'sekto/ (n) (navig) sektor koji označuje sigurno ili opasno područje za plovidbu; A navigational light that is visible only for a specific sector or arc of a circle, enabling a boat to determine that it lies within that sector. Sector lights might mark the entrance to a channel.

https://www.ypiyachts.com/ sektor svjetla, sektor sa svjetlom PEL ~ a projector style marine beacon which is used to guide maritime vessels. It does this by projecting a colored sector out to sea with very sharp color changes as the mariner transitions from one sector to the next.

(https://en.wikipedia.org/wiki/PEL_sector_light) PEL sektor svjetla: Typical PEL sector lights will have a complete color change over 1 meter (sideways movement) when the mariner is 5 km from the beacon https://en.wikipedia.org/wiki/PEL_sector_light

http://www.zenilite.co.jp/english/prod/shiko.html

sector search (n) (navig, safety) traganje po sektorima
secure /siˈkjʊə/ (v) 1 (cargo) to make fast; safe pričvrstiti teret, osigurati teret; 2 (shipping econ) priskrbiti (novčana sredstva), dobaviti; 3 (ship handling) privezati (uže i učvrstiti ga), privezati se: The vessel was well secured to the berth. The container ship is secured alongside and discharging containers at Berth 12. ~ at the bollards privezati na bitve, vezati na bitve: Since the headlines were not secured at the designated bollards, the headlines were sent for securing at the designated bollards for the springs, but still to no effect.

secure /siˈkjʊə/ (v) (seamanship) privezati brod: The vessel was secured port side to the jetty, heading west. There were “light airs” at the time, and the vessel was well secured to the berth.

secured /siˈkjʊəd/ (adj) pričvršćen (teret)
secure the cargo (v) (cargo handling, stabil, safety) učvrstiti teret, pričvrstiti teret, osigurati teret: Paper rolls shifted, although the crew tried to secure the cargo by placing air cushions and rubber bags between cargo rolls. (https://safety4sea.com/)

secure the line (n) (seamanship) učvrstiti uže
secure the sail (v) (boating/yachting) vezati spušteno jedro

securing /siˈkjʊərɪŋ/ (n) 1 (cargo handling) vezivanje tereta, pričvršćivanje tereta ~ cargo vezivanje tereta, pričvršćivanje tereta (u skladištu, na palubi); 2 Securing is the fixing and fastening of packages on or in a container by means of dunnage/chains so that transport is safe and seaproof. https://www.logisticsglossary.com/term/securing/ učvršćivanje tereta (u kontejneru, u brodskom skladištu)

securing equipment (n) (cargo handling) oprema za pričvršćivanje
The support boat had made a Securité call on channel 16 giving our course as 235 and speed as 5. The fishing vessel’s operator, who had heard the ferry’s Securité call, saw the ferry and instinctively turned to starboard, towards the south side of the fairway. At 22.00 hours LT, a security call was received over the VHF from another vessel stating that due to the strong winds they were dragging their anchor and were without their main engines.

If an underwriters’ guarantee is required as the form of additional security, those consignees should immediately inform the insurers who will then make the necessary arrangements.

The shipper shall see that the cargo is discharged according to Clause 4 of the Charter Party.

Segments of GPS system

selectivni poziv

Selective Catalytic Reduction unit (SCR) (=SCR) (n) (marine eng) This after-treatment technology reduces NOx emissions by using a urea-based additive, sometimes referred to as DEF. (http://www.marinediesel.europe.com/) *uredaj za selektivnu katalitičku redukciju*: Diesel engines can as per today only meet IMO Tier III with catalysts, i.e. *Selective Catalytic Reduction units* (SCR). An alternative means of meeting the IMO Tier III levels might also be to use Exhaust Gas Recirculation (EGR)

self-acting (adj) automatski
self-bailing cockpit (boating/yachting) Said of the cockpit, that is capable of rapidly draining away any water that may fill the area, with scuppers, drains or bailers.  https://www.ypiyachts.com/
samospražnjujući kokpit, samo praznići kokpit
self-combustion (n) (marine eng) samoizgaranje
self-contained (adj) samostalan, samoprepravljan, samoposlužni, koji ne treba pomoćnih mehanizama
self-draining1 (n) (marine eng, nav arch) samopražnjenje
self-draining2 (adj) samopraznići, koji se sam prazni ~ cockpit samopraznići kokpit
self-ignition (n) (marine eng) samopaljenje
self-induction (n) (electr) samoindukcija
self-loading (adj) samopuneći, koji se sam puni / krca, samokracujući, automatski
self-locating datum marker buoy (=SLDMB) (n) (safety) A datum marker buoy that determines its own position and includes the position information in the transmission of the beacon signal. These beacons usually transmit through satellite services. (IAMSAR/Camsara2014)
samolocirajuća oznaka / plutača na zadanoj točki (s koje počinje traganje)
self-locking (adj) (marine eng) samozatvarajući, na automatsko zatvaranje / zatezanje (o matici vijka): The nuts may be self-locking or provided with a special locking device.
self-lubricating (adj) (marine eng) samopodmazujući
self-priming (adj) (marine eng) samoispirni, samoispirajući
self-propelled (adj) (nav arch) na vlastiti pogon, na automatski pogon
self-propelled floating equipment (n) (nav arch, inland waterways) plutajuća oprema s vlastitim pogonom
self-propulsion (n) (marine eng) samopropulzija, automatski pogon
self-rightening (adj) samoizpravljujući, samoizravnajući, koji sam izravna / ispravi ~ boat samoispriavljujuća brodica / jedrilica
self-righting (n) (boating/yachting) samoispriavljujući
self-starting motor (n) (marine eng) samostartujući motor, samopokretajući motor, motor na automatsko pokretanje
self synchronizing system (n) (electr) samosinkronizirajući sustav radara, električna osovina
self tacker (n) (boating/yachting) jedrilica sa samoletajućim flokom
**self tacking jib** *(boating/yachting)* samoletajući flok, prednje jedro sa šinom (ispred jarbola) za automatsko letanje

**self-tensioning winch** *(nav arch, seamanship)* samozatezno vitlo, vitlo na samozatezanje

**self-trimming vessel** *(nav arch, cargo handling)* A self-trimming ship is a ship whose holds are shaped in such a way that the cargo levels itself (http://www.thefreightforwardingcompany.com/glossary/self-trimming-ship.html)

**seller** *(shipping econ)* ANTONYM buyer prodavalac, prodavatelj

**sell the boat** *(boating/yachting)* prodati brodicu / jedrilicu: If you want to sell the boat%, you may need to haul it out and see what the surveyor has to say about the boat

**semaphore** /ˈsɛməfoʊr/ *(navig)* any visual signaling system with flags, lights, or mechanically moving arms; the flags represent various letters of the alphabet ručna signalizacija, signalizacija zastavicama, signalne zastavice, Italian: *semaforo a braccia* © 2010 Encyclopedia Britannica, Inc. https://www.britannica.com/technology/semaphore

**semi-balanced rudder** *(nav arch)* polubalansno kormilo: Steerage was effected by means of a semi-balanced hanging rudder with a maximum angle of 35°, www.gov.uk/maib
**semi-built** (adj) *(marine eng)* polusastavljen ~ crankshaft polusastavljenog

**koljenasto vratilo**

**semiconductor** /ˈsemɪkɒndʌktr/ (=semi-conductor) (n) *(electr)* poluprovodnik

**semi-controllable forces** (n) *(navig)* sile koje utječu na gibanje broda koje uz odgovarajuća ograničenja može djelomično nadzirati osoba koja upravlja brodom djelomično upravljive sile

**semidiurnal** /ˌsɛmɪdiːərnl/ (n) *(oceanogr)* poludnevni ~ tide poludnevne mijene, dvije plime i dvije oseke dnevno, ~ current poludnevna struja

**seminar** (n) seminar, tečaj: The pilots attended a 4-day ship-handling seminar at the CMA CGM Group headquarters

**semi-portal crane** (n) *(cargo handling)* poluportalna dizalica

**semi refrigerated liquefied gas cargoes** *(cargo)* polurashlađeni ukapljeni plinovi

**semi-submerged** (adj) *(safety)* polupotopljen, poluuronjen: The vessel remained semi-submerged with 2000 L of diesel oil pollution reported. (https://safety4sea.com/)

**semi-trailer** /ˈsemiˌtreɪlər, semaiˈtreɪlər/ (n) UK: a type of trailer or articulated lorry that has wheels only at the rear, the front end being supported by the towing vehicle (https://www.collinsdictionary.com/dictionary/english/semitrailer); US: A semitrailer is the long rear section of a truck that can bend when it turns.

https://www.collinsdictionary.com/dictionary/english/semitrailer poluprikolica
SENC - System Electronic Navigational Chart (SENC)

sistemska baza podataka elektroničkih navigacijskih kartata: a database, in the manufacturer's internal ECDIS format, resulting from the lossless transformation of the entire ENC contents and its updates. (https://puc.overheid.nl/nsi/doc/PUC_2574_14/1/)

information podaci u sistemskoj bazi podataka elektroničkih navigacijskih kartata

SENC-u) STANDARD CHART VIEW / display

1. SENC INFORMATION AVAILABLE FOR DISPLAY DURING ROUTE PLANNING AND ROUTE MONITORING:

   1. Standard display consisting of:
      1. display base 2. drying line 3. buoys, beacons, other aids to navigation and fixed structures 4. boundaries of fairways, channels, etc. 5. visual and radar conspicuous features 6. prohibited and restricted areas 7. chart scale boundaries 8. indication of cautionary notes 9. ships’ routeing systems and ferry routes 10. archipelagic sea lanes;

   2. SENC INFORMATION AVAILABLE FOR DISPLAY DURING ROUTE PLANNING AND ROUTE MONITORING:

      2. Display base to be permanently shown on the ECDIS display, consisting of:
         1. coastline (high water)
         2. own ship’s safety contour
         3. isolated underwater dangers of depths less than the safety contour which lie within the safe waters defined by the safety contour
         4. isolated dangers which lie within the safe water defined by the safety contour, such as fixed structures, overhead wires, etc.
         5. scale, range and north arrow
         6. units of depth and height
         7. display mode.

STANDARDNI prikaz elektroničke karte, ALL CHART VIEWS / displays

All other information, to be displayed individually on demand, for example:
1. spot soundings
2. submarine cables and pipelines
3. details of all isolated dangers
4. details of aids to navigation
5. contents of cautionary notes
6. ENC edition date
7. most recent chart update number
8. magnetic variation
9. graticule
10. place names.

SVI prikazi elektroničke karte

send ashore (v) (seamanship) dodati konop / uže na obalu, poslati konop / uže na obalu primeživačkom brodicom: After closing with the berth, the aft backspring was sent ashore. When our vessel was approximately 15-20 metres from the berth, an aft spring line was sent ashore by heaving line and secured. The ship’s backsprings will be sent ashore first.

send away the line (v) (seamanship) dodati uže

send out the line (n) (seamanship) baciti konop (s broda na obalu, drugi brod)

Senhouse slip hook (n) (safety, seamanship, nav arch) samootpusna kuka tipa Senhouse: The Senhouse slip holding the anchor chain lashing was fitted with a tapered pin.
Senior crew members should guide those with less experience in operational safety.

**Senior Officer** (n) (mar law) zapovjednik i prvi časnik palube; upravitelj stroja i drugi časnik stroja stariji časnik, viši časnik

**Sensitive** (adj) osjetljiv ~ areas (navig) osjetljiva područja (plovidbe), ~ cargoes (cargo) osjetljivi tereti, cargoes ~ to rusting tereti osjetljivi na rđanje

**Sensitive sea area** (n) (safety) osjetljivo morsko područje particularly ~ posebno osjetljivo morsko područje

**Sensor** (n) ~ output izlaz senzora osjetilo, senzor, osjetnik, Italian: rivelatore

**Sensor interface unit; (SIU)** (n) (navig) COMPARE VDR jedinica senzorskog sučelja (VDR-a)

**Sentence** (n) (mar law) presuda

**Sentence** (v) (mar law) osuditi: The master of MV .... was sentenced to pay £2,000 , plus thousands more in costs, after pleading guilty. The Master was sentenced to six months in jail followed by two years supervised release and a $3,000 fine.

**Sentinel** (n) (seamanship) A weight hung from the anchor chain in order to keep the anchor lying as flat as possible to prevent dragging. https://www.ypiyachts.com uteg na sidrenom lancu / konopu

**Separate** /ˈsepərət/ (v) odvojiti, odijeliti, rastaviti: LNG does not need to be separated, as is the case for HFO since approximately 1.5% of the HFO is separated in HFO separators. www.motorship.com/__data/.../White-PaperShipping-in-the-2020-era_Pre-final.pdf

**Separate** /ˈsepərət/ (adj) odvojen, razdvojen

**Separation** /ˌsepəˈreifən/ (n) (cargo) odvajanje, separacija (tereta)

**Separation** (n) (navig) razmak brodova (pri plovidbi kanalom): All vessels should maintain a half-mile separation from specified vessels.

**Separation** (n) (cargo) odvajanje (tereta), separacija: Damage can be reduced by immediate separation of wet cargo (e.g. wet fertiliser) from the rest of the cargo.

**Separation line** (n) (navig) linija odvajanja (plovidbenih putova)

**Separation zone** (n) (navig) područje odvajanja, zona odvajanja
(plovidbenih putova)

**separator** /ˈsɛpəˌreɪtə/ (n) *(marine eng)* separator, odvajač oil water ~; OWS

**separator vode iz nafte ili ulja**, oily water ~; OWS OWS is used to treat the oil-water mixture from bilge spaces, oil tanks or any compartment in the ship which has accumulated water, before discharging it to the sea. **separator zauljenih voda**: Almost all OWS use gravity system for the separation of water from oil.

http://www.separationequipment.com/heli-sep-oily-water-separators/

**sequence** /ˈsɪkwəns/ (n) redoslijed correct ~ pravilan redoslijed, loading ~ *(cargo handling)* redoslijed krcanja tereta, unloading ~ redoslijed iskrcaja tereta

**sequence of events** (n) 1 slijed događaja / zbivanja; 2 *(marine eng)* redoslijed faza rada (motora)

**sequential lobing** (n) *(navig)* = lobe switching prespajanje s jedne latice radarskog snopa na drugu

**sequential readings** /siˈkwəndʒəl/ (n) sekvencijalna očitavanja, očitane vrijednosti u nizu

**sequential switching** (n) *(navig)* = lobe switching prespajanje s jedne latice radarskog snopa na drugu

**series** /ˈsiərəz/ (n) niz, slijed, red, serija

**series turbocharger** (http://www.marinedieseleurope.com) serijsko turbopuhalo

**serious casualty** (n) *(mar ins, safety)* casualties to ships which do not qualify as very serious casualties and which involve a fire, explosion, collision, grounding, contact heavy weather damage, ice damage, hull cracking, or suspected hull defect, etc., resulting in: ● immobilization of main engines, extensive accommodation damage, severe structural damage, such as penetration of the hull under water etc., rendering the ship unfit to proceed*; or ● pollution (regardless of quantity); and/or ● a breakdown necessitating towage or shore assistance (IMO MSC Circular MSC-MEP/C.3/Con.3 2008; EMSA2018) ozbiljna nesreća (požar, eksplozija, nasukanje, oštećenje
serious injury (n) (med) an injury which is sustained by a person in a casualty resulting in incapacitation for more than 72 hours commencing within seven days from the date of injury. (RESOLUTION A.849(20) adopted on 27 November 1997 - CODE FOR THE INVESTIGATION OF MARINE CASUALTIES AND INCIDENTS); A serious injury means an injury which is sustained by a person, resulting in incapacitation where the person is unable to function normally for more than 72 hours, commencing within seven days from the date when the injury was suffered (EMSA2018)

serrated (adj) (marine eng) nazubljen: Clean and check machinesd surfaces and serrated joint faces of the connecting rod. ~ surfaces nazubljene površine

servant /ˈsɜːvənt/ 1 službenik (vozara) owner’s ~ brodarov agent, brodarov službenik; 2 podugovorna stranka, subkontrahent

serve /sɜːv/ (v) 1 (mar law) služiti na brodu (o pomorcu), ploviti, biti ukrcan (radi službe na brodu), biti zaposlen na brodu: all Employees serving in any offshore vessel The pilot was employed by the PLA and had served 21 years as a river pilot. Peljar je bio zaposlen u Lučkoj upravi Londona (Port of London Authority, PLA) i plovio je na 21 godinu kao peljar. He served at sea from Cadet to Chief Officer with ... Liners before coming ashore to a container consortium ...

~ on a vessel raditi na brodu, služiti na brodu: He had previously served as chief officer on the container vessel ... in 2013, ~ as raditi u svojstvu, služiti u svojstvu: He served as chief officer on the container vessel in 20__. ; 2 posluživati: The hatches on this ship are served by two sets of cargo gear generally measure 20 by 30 feet or larger

service (=liner service) (n) 1 (shipping econ) redovita (linijska) plovidba služba (linijska), plovidba (linijska), servis (linijski), linija (brodarska), redovita pruga, linijska plovidba, linijski servis, linijska služba: The service was a 49-day round trip from Singapore and included nine scheduled port calls. resume ~ nastaviti plovidbu, ponovno započeti plovidbu, roll-on/roll-off ~ ro-ro linija, lift-on/lift-off ~ linijski servis za generalni i kontejnerski teret, deepsea ~ prekomorska linija, prekooceanska linija, prekomorska linijska plovidba: Cork is the only Irish port providing a deepsea ro-ro service to Scandinavia, and the Mediterranean, and West Africa. , shortsea ~ servis kratke linijske plovidbe, kratka linijska plovidba, door-to-door ~ direktni prijevoz od skladišta pošiljatelja do skladišta
Feeder services allow Irish exporters to service deepsea markets speedily and efficiently, enter into ~ stupiti u službu, pustiti brod u plovidbu: The MV .... entered into service for the Norwegian shipping company in April., open a ~ otvoriti liniju, uvesti liinski servis: Maersk Line will open a new service from Asia to the U.S., launch a ~ otvoriti (linijski) servis, otvoriti liniju: APL Launches Atlantic Gulf Express Service., return to ~ vratiti se u službu / plovidbu (o brodu): The vessel was later repaired and returned to service., liner ~ linijska plovidba, linijska služba, linijski servis; 2 (marine eng) služba, pogon out of ~ izvan službe, izvan pogona, koji ne radi, ~ life vijek trajanja, rok trajanja, be in ~ biti u pogonu; 3 (shipping econ) linija, brodarska linija; 4 (hum_resources) sea service; required time spent on board by a seafarer in a certain capacity (cadet, officer) in order to qualify for being promoted to a higher qualification (certificate of competency) plovidbena služba (staž), služba na brodu, plovidba (pomorca) time of ~ vrijeme plovidbene službe, trajanje plovidbene službe; 5 (marine eng) tehničko održavanje i posluživanje, servis service capacity (n) (navig) kapacitet sustava service on board (n) (hum_resources) plovidbena služba, radni staž na brodu, plovidba (plovidbeni staž): His contracted work agreement was for 3 months’ service on board followed by 3 months’ leave. service port (n) (mar law, ports) COMPARE port privatization državna luka, javna luka kolom upravlja i u kojoj lučke operacije obavljá lučka uprava service providers (n) 1 (shipping econ) The many companies and government agencies that provide transportation to the public and to businesses are known as service providers pružatelj (transportnih) usluga; 2 transportna poduzeća service record book a personal register recording details of a crew member’s work history, in particular navigation time and journeys carried out ( brodarska knjižica service ships (n) (nav arch) brodovi za razne usluge tegljenja; održavanja, popravaka, dostave, npr. tegljači, jaružala/bageri, pomoćni off-shore brodovi, brodovi za opširbu platformi, znanstvenoistraživački brodovi, brodovi za potragu i spašavanje, specijalni brodovi itd.) pomoćni brodovi, brod za razne usluge: The average age of service ships involved in casualties and incidents was 18.4 years over the 2011-2017 period. www.emsa2018.com service speed (n) (nav arch) brzina u službi, brzina u plovidbi, plovidbena brzina: The ships will operate at service speed of 21 knots. The ship has service speed of 21 knots. The main engine provided a service speed of 23kts. servicing (n) 1 (marine eng) servisiranje, tehnička pomoć; 2 (shipping econ) servisna usluga servomotor /ˈsɜːvəˌməʊtər/ (n) (electr, marine eng) servomotor set (adj) 1 utvrđen, propisan, ustaljen ~ list of readings utvrđeni popis podataka; 2 udubljen
At 2305, the master set the autopilot to steer 165°. ~ at an angle: postaviti pod kutom, podesiti u kut, ~ down 1 spustiti, 2 spustiti se, ~ up izazvati, nastati, stvarati se, ~ to north up namjestiti (radar) s pokarizanjem na smjer sjevera, namjestiti (radar) s prikazom pravog kretanja broda prema pravom meridijanu: Both X-band and S-band ARPA radars were set to north up and true motion. www.safety4sea.com

There was a tidal stream of 0.1 knot setting to the south-west. The ship was now on a south easterly heading, and as she continued to be set to the north by the wind and the swell. unusual tidal ~s neuobičajeni smjerovi morske struje

Lightweight anchors are easy to deploy but don’t set as quickly and tend to drag Practical Sailor

This agreement sets out the minimum standard terms and conditions applicable to all Employees serving in any offshore vessel/unit All watchkeeping personnel shall observe the principles and guidance set out in the STCW 1995 as amended osoblje straže dužno je poštivati načela i upute određene konvencijom STCW 1995 i njenim izmjenama i dopunama

Specific temperature that a refrigerated container has been set to keep. Ideally, the set point and the actual temperature should be identical throughout the voyage. (http://www.maerskline.com/en-jm/help/shipping-glossary) namještena temperatura

Every time you step aboard a sailboat, a new adventure awaits. No trip is the same. You get blown about, soaked, awed, teased and satisfied each time you set sail. https://www.practical-sailor.com/ The ship set sail from Shanghai heading toward Richmond. ~ for isploviti za (neku luku), uputiti se za (neku luku),
The oil tanker was ordered to set sail for Singapore. The container vessel COSCO Shipping Panama set sail from the Greek Port of Piraeus today on its way to Panama.

set sail (v) 1 isploviti, započeti putovanje; 2 (boating/yachting) napuniti jedra

set sail (v) SYNONYM take out all the slack zategnuti (uže) Set the breast line taut! Zategni bočno uže!

set the course (v) (navig) To give the steersman the desired course to be steered.

https://officerofthewatch.com/tools/maritime-dictionary/zadati kurs broda, postaviti kurs broda, staviti brod u kurs

set the engine to (v) postaviti stroj u (neki od položaja za rad): the engine was set to ‘dead slow ahead’ and, at 1000, to ‘slow ahead’. set the engine to full astern postaviti stroj u položaj svom snagom nazad

set the sails (v) (boating/yachting) podići i namjestiti jedra, Italian: inferire le vele

setting (n) postavljanje, ugađanje, namještanje, podešavanje the ~ of the spring (marine eng) namještenost opruge, regulacija opruge

setting (n) (oceanogr) smjer morske struje

setting of current (n) (oceanogr) smjer morske struje

setting of tide (n) 1 (oceanogr) smjer plimne struje; 2 smjer morske struje

settle (v) 1 (marine eng) taložiti se, slijegati se; 2 (marine eng, navig) ustaliti se, stabilizirati se: The engine, running full power ahead, was brought to 80 rev/min astern in 32 s and had settled down steadily at full astern revolutions in 50 s. The ship settled down to a quiet, if somewhat rough passage.

settlement (n) rješenje (problema) financial ~ financijsko / bankarsko izvršenje

settling tank (n) (nav arch, marine eng) taložni tank: The centrifugal pumps discharge bilge water directly overboard, while the piston unit discharges into a settling tank. To ensure fuel feed to the main engine, the separated heavy fuel oil (HFO) is first pumped into the settling tank (buffer tank).

set up (v) 1 namjestiti, regulirati, ugoditi, podesiti; 2 urediti; 3 osnovati

set up (the nut) (v) (marine eng) to tighten the nut on a bolt or stud zategnuti maticu

sever /ˈsɛvər/ (v) 1 odvajanje; 2 raskid (radnog ugovora itd.) ~ pay compensation that an employer provides to an employee who has been laid off, whose job has been eliminated, who through mutual agreement has decided to leave the company, or who has parted ways with the company for other reasons naknada za sporazumni raskid radnog odnosa, ~ costs the costs which are legally required to be paid to the crew as a result of the early termination of any contracts for service on the vessel (BIMCO) naknada za prijevremeni završetak radnog odnosa / ugovora pomorca
severe damage to the environment (n) (environ) damage to the environment which, as evaluated by the State(s) affected, or the flag State, as appropriate, produces a major deleterious effect upon the environment. (EMSA2018) teška šteta okolišu

severe sea conditions /siˈviə/ (n) (meteorol) vrlo teški uvjeti na moru (visoki valovi itd.)

sewage (n) (environ) otpadne vode, vode: · The discharge of sewage into the sea is prohibited, except when the ship has in operation an approved sewage treatment plant

https://safety4sea.com

sewage plant /suˈidʒ/ (n) (nav arch) uređaj za obradu otpadnih / fekalnih voda

sewage treatment plant /suˈidʒ/ (n) (nav arch) uređaj za obradu otpadnih / fekalnih voda: Sewage on board ships needs to be treated before it is discharged to the sea. Sewage treatment plant is used to treat the sewage and make it less harmful for the sea.

sewing /ˈsoʊɪŋ/ (=lashing) (n) (sailing vessels, nav arch, boating/yachting) tehnika spajanja platica drvenoga broda kroz nizove rupica (https://hrcak.srce.hr/188453); technique of connecting planks by threading a binding (most frequently through a series of holes) (šivanje, tehnika spajanja platica drvenoga broda kroz nizove rupica

sewing kit /ˈsoʊɪŋ/ (n) (boating/yachting) komplet za šivanje (jedara)

sextant /ˈsekstənt/ (n) (navig) optical navigational instrument for measuring vertical and horizontal angles at sea; A navigational instrument that uses celestial bodies (stars, planets etc.) to measure a ship's latitude and longitude. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) sekstant

error of the ~ grješka sekstanta

shackle /ˈʃækl/ (n) 1 (nav arch, seamanship) uza lanca: The vessel was anchored using seven shackles of chain in position, which gave a swing circle as indicated ... ~ of cable uza lanca: A VLCC fully loaded with crude oil was laying at anchor with 10 shackles of cable out.; 2 uza (lanca = 25 m), nod: The port anchor was about two shackles in the water. She informed that she has lost her port anchor with 6 shackles of cable and was unable to start her engines.

http://www.splashmaritime.com.au/Marops/data/text/Seamantex/Rigliftex.htm; 3 (nav arch, cargo handling) A
shackle

U-shaped piece of iron or steel with eyes in the end closed by a shackle pin. škopac, gambet, Italian: grappino snap ~ škopac s oprugom, omega ~ omega škopac, ~ pin osovinica škopca, peran, anchor ~ sidreni škopac, joining ~ spojni škopac (sidrenog lanca), lančana škoba, lugless ~ škopac na otvaranje (za spajanje dijelova lanca) patentna škoba / škopac, Kenter ~ patentna škoba / škopac

shackle / škopac

shackle [ˈʃækəl] (v) (seamanship) pričvrstiti škopcem
shackle bonding cords (n) (seamanship) povezice za škopac
shade deck (n) (nav arch) osojna paluba
shade deck vessel (n) (nav arch) brod s osojnom palubom
shade fish (n) hama, krb
shadows (n) (navig) radarske sjene

shaft 1 (marine eng) a rotating or oscillating round, straight bar for transmitting motion and torque, usually supported on bearings and carrying gears, wheels, or the like, as a propeller shaft on a ship, or a drive shaft of an engine. vratilo, osovina, Italian: albero multi-throw ~ osovina s više koljena, turbine ~ turbinska osovina, vratilo turbine, terminal ~ izlazna osovina; 2 vratilo, pogonska osovina output ~ izlazna osovina, intermediate ~ međuosovina; 3 vreteno

shaft alley (n) (nav arch) a watertight passage, housing the propeller shafting from the engine room to the bulkhead at which the stern tube commences osovinski tunel

shaft assembly (n) (nav arch) osovinski sklop, osovinski vod
shaft bearing (n) (marine eng) osovinski ležaj, ležaj vratila, ležaj osovine
shaft boss  (n) (nav arch) nogavica
shaft bracket  (n) (nav arch) strukturni nosač osovine propelera
shaft coupling  (n) (nav arch, marine eng) The means of joining together two sections of a shaft, usually by means of bolts through flanges on the ends of the sections of the shafts osovinska

spojka, spojka osovine
shaft generator  (marine eng) osovinski generator
shafting  (n) (nav arch, marine eng) = shaft assembly osovinski vod parallel ~ paralelne osovine, skew ~ križna vratila, ukrštene osovine, mimosmjerne osovine, propeller ~ osovinski vod propelera

http://www.propellerpages.com/?c=articles&f=2006-02-17_Ship_Propulsion

shaft power (=brake horsepower)  (n) (marine eng) Power delivered at the engine crankshaft. This term is commonly used instead of brake horsepower to express output of large marine engines. (http://www.marinedieseleurope.com/) snaga na vratilu
The 2nd engineer, alongside with the fitter, descended to the ship's shaft tunnel to fix a storm valve that was leaking. (https://safety4sea.com/)

Attempts to manoeuvre clear of the shallows were unsuccessful but the vessel was re-floated 3 days later with tug assistance.

Realising the vessel was approaching shallow water, the bridge team ordered the port anchor dropped. If the tide is against you, get out of the strongest stream by heading for shallow water, but be careful not to run aground.

A vessel or object being towed, other than those mentioned in paragraph (g) of this Rule, shall exhibit, when the length of the tow exceeds 200 meters, a diamond shape where it can best be seen., display a ~ istaknuti oznaku na brodu, exhibit a ~ istaknuti znak / oblik (npr. kuglu, dvostruki stožac itd.), nositi znakove: (d) A vessel engaged in dredging or underwater operations, when restricted in her ability to maneuver, shall exhibit the lights and shapes prescribed in subparagraphs (b)(i),(ii) and (iii) of this Rule Brod koji je zauzet jaružanjem ili podvodnim radovima, kad je ograničene mogućnosti manevriranja, mora nositi svjetla i znakove propisane u stavku 2. točke a), b) i c) ovoga članka
**shape** (v) oblikovati, dati oblik, poprimiti oblik

**shaping** (/ʃeɪp/) (nav arch) Cutting, bending, and forming a structural member. obrada konstrukcijskih elemenata, oblikovanje konstrukcijskih elemenata

**share** (n) 1 (shipping econ, mar law) dionica: Shares of the shipping company fell by the daily limit of 30% today, as trading resumed after the shipping line filed for court receivership last Wednesday. Money raised from the sale of new shares goes to the company itself, which it can use for development. The escalating threat posed by a global trade war is taking its toll on the shares of the world's largest containerline. Splash24/7 <splash=asiashippingmedia.com@mail22.sea21.rsgsv.net> The offer's price is set at CHF 30 per share https://shippingandfreightresource.com/ Shipping company BW Group announced today it has acquired a majority stake in LPG shipowner Epic Gas and has launched an unconditional offer to acquire the remaining shares of the company https://gcaptain.com; 2 karat

**shareholder** (n) (mar law, shipping econ) dioničar: Revenue from the sale of existing shares goes to the existing shareholder. _____ is the second largest shareholder of the shipping company with a 29.6% stake. _____ je drugi najveći dioničar brodskog društva s udjelom od 29,8%. majority ~ većinski dioničar (u vlasništvu broda): French shipping group CMA CGM has upped its stake in Singapore-listed rival NOL to 78% after NOL's majority shareholder unloaded its shares as planned. XXX Capital Management has become the top shareholder in the line, become a ~ postati dioničarem: ____. has become the Liner's largest shareholder after it acquired additional shares from _____

**sharpnose sevengill shark** (n) pas volonja

**sharp-snouted seabream** (n) pic

**sharp-snouted sparus** (n) pic

**sharpsnout seabream** (=sheepshead bream) (n) (fishing) Lat. *Diplodus puntazzo*; Lat. *Diplodus puntazzo* pic, šilac, karoc, orišac, suhalj
shear /ʃiə/ (v) (marine eng) odrezati, odlomiti, rasjeći
shear force /ʃiə/ 1 (nav arch) to cause (a part, member, shaft, etc) to deform or fracture or (of a part, etc) to deform or fracture as a result of excess torsion or transverse load (Collins ED) smik, smicanje: The loading instrument provides a means to readily calculate the still water shear forces and bending moments, in any load or ballast condition, and assess these values against the design limits.; 2 (stabil) poprečna sila allowable ~ dopuštena poprečna sila
shear force curve (n) (nav arch) krivulja poprječnih sila
shearing /ʃiəriŋ/ (n) (marine eng) odrez, naprezanje na odrez
shearing forces (n) 1 (nav arch) vertikalne sile na određenim točkama ili mjestima broda sile prekida; 2 naprezanje uнутрамaterijalaslatsilatendencijomlomailuzdužnogprekidanjasileprekida
shear legs (=shears) (n) 1 (cargo handling) support used in a hoisting rig consisting of two spars

lashed together at the head križno postolje
(boating/yachting) kavalet, križ, škare
shears (n) (nav arch, marine eng) Large machine for cutting plates and shapes. rezalica
limova
sheathing /ʃiːðəŋ/ wood planking fitted over a steel deck, to the planking fitted over the underwater portion of a steel hull podnice, pajoli, obloga dna skladišta
sheave /ʃiːv/ 1 (seamanship, boating/yachting) the wheel of the block over which the fall of the block is rove užnica kolotura: Do the masthead sheaves turn freely? Are the edges of the sheaves worn, so that a halyard might jump the sheave and wedge itself between the sheave and its box?
sheer (n) 1 (nav arch) Upward longitudinal curvature of the upper deck. 2 (nav arch) uzdužna zakrivljenost palube po boku; the upward curve of a vessel's longitudinal lines as viewed from the side skok palube, uzvoj palube, zakrivljenost palube; 2 (nav arch) uzvoj pramca, brandun, kosi dio pramca / krme ~ forward uzvoj pramca, ~ aft uzvoj krme

Whilst being towed back to the anchorage, the tanker took a sheer to port and went aground. As the two ships approached each other, the tanker took a sudden and an uncontrollable sheer to port side and collision was unavoidable.

3 (navig) naglo skrenuti

3 shed (n) 1 (ports) nadstrešnica, skladište-nadstrešnica transit ~ obalno skladište za privremeno / prolazno skladištenje roba); 2 prizemno skladište, skladište hangarskog tipa, hangar

sheep shank (n) (seamanship) skraćenica (konopa)

Sheep Shank, (seamanship) skraćenica (konopa)

http://etc.usf.edu/clipart/58600/58659/58659_sheepshank.htm

The actual damage incurred was as follows: On the port side 10 half round steel fendering on the sheer strake at deck level was flattened with, fortunately, only minor indentation to hull plating and bending of 5 beam knees. Access over the side was through an opening in the bulwark set inboard 400/500 mm from the sheer strake. Upper-deck ~ pojasni voj gornje palube, main-deck ~ pojasni voj glavne palube.
sheet fairlead (n) (boating/yachting) zjevača škote
sheet in (v) (boating/yachting) (boating/yachting) ANTONYM sheet out ANTONYM
ease the sheet zatezati uzdu (škotu / škotinu), Italian: cazzare la scotta
sheet iron (n) (marine eng) željezni lim
sheet leads (n) (boating/yachting) usmjerivači škotina, vodilice škotina s koloturama
sheet-metal screws (n) (marine eng) screws used to hold together sections of sheet metal, fiber, plastic, etc. vijci za limove (bez matice)
sheet out (v) (boating/yachting) popuštati škotu
shelf life (n) (shipping econ) vijek trajanja robe u skladištu
shell (n) 1 a (nav arch) oplata (broda), vanjska oplata ~ plating oplata broda; 2 (marine eng) blazinica, šalica (ležaja), zdjelica bottom ~ donja blazinica, lower ~ donja blazinica, main bearing ~ blazinica temeljnog ležaja, top ~ gornja blazinica, upper ~ gornja blazinica; 3 (safety) granata; 4 plašt boiler ~ plašt kotla
shellback /ˈʃɛl.bæk/ (n) morski vuk
shell first construction (=shell-first shipbuilding) (n) (archaic) (sailing vessels, nav arch, boating/yachting) COMPARE frame first ship construction “typical shell-first construction, with edge-joined planks fastened to one another by mortise-and-tenon joints and reinforced by inserting frames after the Hull was formed” (The Sea and Civilization: A Maritime History of the World by Lincoln P. Paine - http://a.co/3NXFSun) konstrukcija "prvo ljuska" (ranopovijesnih brodica ili brodova)
shellfish /ˈʃɛlfɪʃ/ (n) (fishing) an aquatic animal having a shell, as the oyster and other mollusks and the lobster and other crustaceans (http://www.dictionary.com/browse/shellfish) ljuskari,
**shell plating** *(n) (nav arch)* the plating forming the outer skin of a vessel *oplata, opločenje*

**trupa**
A vessel could be forced to leave anchorage and seek shelter under the lee of the nearby island Krk.

A deck fitted from stem to stern on a relatively light superstructure. The main deck.

Shelter deck vessels have an additional deck above the main deck—a shelter deck.
They launched in a relatively sheltered area, but had intended to move out to a more exposed position on the coast to fish.

As a result of heavy weather conditions and adverse swell, the cargo in holds No 1 & 2 shifted, resulting in the vessel listing by 14 degrees starboard.

The vessel had to shift to another berth across the river to complete loading operations.

Grounds for Vessel Shifting within Berth and to Anchorage

1. pomicanje tereta: As a result of heavy weather conditions and adverse swell, the cargo in holds No 1 & 2 shifted, resulting in the vessel listing by 14 degrees starboard.
2. pomicanje broda (duž veza): The vessel had to shift to another berth across the river to complete loading operations.

A portable beam fitted in a hatchway for the purpose of supporting the hatch covers.

A piece of metal or wood placed under the bedplate or base of a machine or fitting for the purpose of truing it up. Also pieces placed in slack spaces behind or under frames, plates or planks to preserve a fair surface.

A Charter-Party term, which provides that Sundays and public holidays do not count in the calculation of laytime. See also even if used. and unless used.

Charter-Party term which provides that Sundays and public holidays do not count in the calculation of laytime. See also even if used. and unless used.
provides that Sundays and public holidays count in the calculation of laytime, whether or not used for loading or discharging, as the case may be. http://www.tkmglobal.net/chartering_S.HTM nedjelje i blagdani uključeni

**ship bell**

**ship**

**ship announcing system**

**ship**

**ship bell** Measure of time onboard ship. One bell sounds for each half hour. One bell means 12:30, two bells mean 1:00, three bells mean 1:30, and so on until 4:00 (eight bells). At 4:30 the
cycle begins again with one bell. brodsko vrijeme, jedinica mjere za brodsko vrijeme

shipboard /ʃɪpˈboːd/ (adj) brodski, koji se nalazi na brodu ~ crane brodsko dizalica, palubna dizalica, ~ automation brodsko automatizacija, ~ service 1 brodsko služba; 2 brodsko uporaba, brodsko primjena

shipboard crane (n) (nav arch) brodsko dizalica

shipborne /ʃɪpˈboːrn/ (adj, adv) 1 (seamanship) carried or designed to be transported by ship

brodski, na brodu; 2 (shipping econ) COMPARE airborne koji se prevozi brodom

shipbuilders (n) (nav arch) A company that demolishes or cuts up vessels which are obsolete or unfit for sea.

shipbreakers (n) (nav arch) A company that demolishes or cuts up vessels which are obsolete or unfit for sea.

shipbreaking (n) (nav arch) = recycling rasprema brodova, rezanje brodova: safe and environmentally sound recycling of ships

shipbreaking yard (n) (nav arch) raspremno brodogradilište, rezalište brodova

shipbroker (n) (mar law) an agent for the ship owner when buying, selling and chartering ships; a ship broker may also obtain cargo and may arrange for its loading or discharge; A person/company who on behalf of shipowner/shipper negotiates a deal for the transportation of cargo at an agreed price.

http://www.tkmglobal.net/chartering_S.HTM agent posrednik, pomorski broker, brodski mešetar, posrednik: Shipbrokers also act on behalf of shipping companies in negotiating the purchasing and selling of ships, both second-hand tonnage and newbuilding contracts.

shipbroking a financial service, which forms part of the global shipping industry. Shipbrokers are specialist intermediaries/negotiators (i.e. brokers) between shipowners and charterers who use ships to transport cargo, or between buyers and sellers of ships. (Wiki) posredništvo za brodove

shipbuilder (n) (nav arch, mar law) brodograditelj, brodogradilište ~s brodogradilište, brodogradilišna firma

shipbuilding (n) (nav arch) shipbuilding deals with design, construction, operations and maintenance of marine vessels. brodogradnja, gradnja broda: The discipline of shipbuilding monitors all stages of the life of a marine vessel right from the initial designing to advanced design, actual construction, testing, operations, and maintenance as well as launching, at-sea testing, seatrials and dry-docking of the vessels.

shipbuilding contract (n) (nav arch) ugovor o gradnji broda: Kawasaki Heavy Industries announced that it has terminated the shipbuilding contract for the top hole drilling/light well intervention vessel. https://www.marinelink.com/news/cancelled-contract432427?utm

shipbuilding methods - wooden boats (n) (nav arch) sustavi gradnje drvenih brodova, metode gradnje drvenih brodova touching paneling
shipbuilding terms

(Carvel method) sustav gradnje s dodirivanjem platica, Carvelov sustav gradnje broda, overlapping paneling (Clinker method) sustav gradnje preklapanjem platica oplate, diagonal overlapping paneling sustav gradnje s dijagonalnim postavljanjem platica oplate, unwrapping paneling and 'patching' paneling sustav gradnje s razmotljivim trakama i umetcima ("zakrpama") vanjske oplate, laminating method lamelirana gradnja brodice, sustav gradnje brodice laminatima, combined touching and diagonal method sustav kombinirane (mješovite) gradnja brodica

shipbuilding terms (n) brodograđevno nazivlje

shipchandler (n) (shipping econ) = chandler Particular merchants handling ship's stores, supplies, and sundries, etc. Sometimes handles spare parts as accommodation to ship operators.

ship channel (n) (navig) plovidbeni kanal, plovni kanal: There were 44 vessels waiting lined up to enter the ship channel and 37 vessels waiting to leave on Sunday morning

https://gCaptain.com

ship classification (n) (nav arch) klasifikacija brodova

ship contract (n) (nav arch, mar law) ugovor o gradnji broda: This ship contract is very important for Finnish shipyard.

ship design (n) 1 (nav arch, shipping econ) početak i postupak stvaranja projekta novog broda do stadija njegove minimalne ali dovoljne definiranosti (Irena Radić Rossi. archaeologia adriatica ix (2015), 415-453); https://hrcak.srce.hr/188453; The development of a new ship design is carried out in three steps. The first one is the https://www.wartsila.com/encyclopedia/term/ship-design-process: (1) Basic Design with aim to create a baseline concept of the new vessel that satisfies the shipowner's requirements. At this step, the Preliminary General Arrangement Plan and a short description of the vessel are prepared.; (2) The second step is the Contract Design with the aim to develop detailed contract plans and specifications necessary to calculate the price of the vessel and to sign the Contract with a shipyard.; (3) after signing the contract with a shipyard, it is possible to carry out the Technical Design which contains all drawings, documents and calculations to be approved by a class society, national authority and shipowner.

ship disposal (n) (nav arch) odlaganje broda u rezalište: Ship Disposal involves a number of challenging issues, especially things related to the environmental and safety issues. There are various environmentally friendly methods and options available for a ship disposal. Green Ship Recycling or Ship Breaking is considered as the best option for disposing of a retiring vessel in a safe and environmentally friendly way.

ship documents (n) brodskie ispravy

ship earth station (=SES) (n) (comm, navig, safety) brodská zemálska postaja / stanica (u satelitskoj komunikaciji): Ship earth stations complying with the provisions of
ship form (n) (nav arch) ploha koja opisuje brodski trup brodska forma

ship handler (n) 1 (ship handling, navig) osoba koja rukuje brodom, osoba koja manevrira brodom: Internal Factors/forces under the control of the Ship handler are Engine power, speed, effect and type of the propeller, rudder movement and type, thrusters, anchors and mooring lines, tugs. External Factors/forces that the ship handler must take into account are: tide, Sudden change in wind velocity and direction (gust), set and drift, proximity of other ships, depth of harbours or waterways; 2 (ship handling) voditelj operacije rukovanja brodom (zapovjednik, časnik palubne straže ili osoba na terminalu), voditelj manevriranja brodom

ship handling (n) (navig, seamanship) = manoeuvering the art of proper control of a ship while underway, especially in harbours, around docks and piers; ship handler’s control of ship’s motion, understanding and competence in responding to physical forces acting upon the ship and motions of the ship, ship’s hydrodynamics and aerodynamics in all weather, tide and current and wave conditions

rukovanje brodom, maneuvranje: (As per IMO STCW 2010) ship handling includes: 1. Manoeuvring the ship when approaching pilot stations to embark or disembark the pilot, taking account of weather, tide, distance to travel and stopping distance, 2. navigating a river, estuary and confined waters, allowing for the effects of current, winds and shallow water on the actions of the helm, 3. turning the ship at a constant rate, 4. manoeuvring in shallow waters, allowing for the reduction in under-keel clearance caused by squat, roll and pitch, 5. handling the interactions between ship and river banks (bank effects), 6. berthing/docking and unberthing/undocking under all wind, tide and current conditions, with or without a tug, 7. handling interactions between ship and tugs, 8. being able to use ship’s propulsion systems and manouevring systems, 9. choosing a mooring; to moor using one orr two anchors; to assess the various factors that determine the length of anchor chain to drop, 10. to be able to notice an anchor dragging, and know how to release a fouled anchor, 11. to be able to enter a dry dock, when damaged or undamaged, 12. to be able to sail and manouevre in bad weather, including coming to the assistance of a ship or aircraft, to be able to carry out emergency towing operations; 13. to be able to manoeuvre with care in order to launch lifeboats and to release survival gear in bad weather, 14. to be able to winch survivors on board from rescue craft or liferafts, 15. to be able to assess the manoeuvring characteristics of the main types of ship (stopping distances, turning circle at different speeds and draft, 16. to be able to sail at reduced speed to avoid damage being caused by other ships by bow wave or wake, 17. to be able to take necessary precautions when sailing in ice, or when ice is accumulating on board, 18. to be able to sail close to or within traffic separation zones, and in zones covered by the VTS The most basic thing to be understood in ship handling is to know and anticipate how a ship behaves under all circumstances and what orders should be given in order to make the ship behave and move exactly the way you want her to.

ship handling characteristics (n) (navig, seamanship) manevarske karakteristike broda

ship handling course (n) (navig, hum_resources) IMO-based course covering: ship manoeuvrability; manoeuvring in narrow waters; Berthing, un-berthing maneuvers with or without pilot assistance; Ship’s hull integrity tečaj rukovanja brodom Simulator Shiphandling & Manoeuvring Course

ship handling seminar (n) (mar law, ship handling) tečaj rukovanja brodom, seminar za rukovanje brodom: lead pilot and three other pilots attended a 4-day ship-handling seminar at the Company’s headquarters

ship handling simulator training (n) (navig) korištenje simulatora u
Ship in international navigation (n) (mar law) brod u međunarodnoj plovdb
Ship in seas (v) (boating/yachting, navig) take in seas krcati more / valove na palubu (u nevremenu)
Ship inspection (=vessel inspection) (n) (nav arch, marine eng) inspekcijski pregled broda
Ship inspection and survey (n) (nav arch, marine eng) inspekcijski pregled i nadzor brodova
Shipload /ˈʃiplaʊd/ (n) complete ~ sav brodski teret - jedinstvena pošiljka (pod jednom teretnicom) (shipping econ) a full load for a ship sav brodski teret (kao jedna pošiljka)

Shiploader (n) (cargo handling) brodoukrcavač
https://www.porttechnology.org/news/bedeschi_supplies_shiploader_to_puerto_brisa
Ship loading software (n) (cargo handling, ship handling) softver za izračun stabiliteta broda pri krcanja tereta na brod: amcLoad is a convenient, high performance ship loading software (in world wide distribution) developed for cargo ships carrying liquid or dry cargo i.e. Oil Tankers, Chemical Tankers, LPG Tankers, Bulk Carriers, Cement Carriers, General Cargo Ships, etc.
Ship management (n) 1 (shipping econ, mar law) 'the rendering of services under contract related to the systematic organisation of economic resources and transactions required for the sustenance of a ship as a revenue-earning entity' (Panayides, P. M., 2001); The provision of ship operating services relating to crewing, technical and safety management (including maintenance and repair) and the compliance with all government, flag state, class certification and international rules and regulations. upravljanje brodom, upravljanje brodovima, poslovno vođenje broda ~ contract / agreement ugovor o upravljanju brodom: Once the demise charterer obtains the ship he will then operate it either himself or perhaps through a ship management agreement.; 2 (mar law, shipping econ) ekonomsko upravljanje brodovima ~ company upravitelj brodova, trgovačko društvo (poduzeće) koje se bavi upravljanjem brodova: The best ship management companies are usually those who also own and manage their own fleets. The Thome model calls for a good partnership between shipowners and the ship manager, which in turn can allow for costs to be reduced and operations improved, capitalizing on the expertise, experience and economies of scale (offering lower fixed cost / ship) that a big ship management company is able to offer.; 3 brodski management (ekonomsko iskorištavanje brodova)
Ship management information (n) (mar law) podaci o korisniku broda
Ship manager (n) (mar law, shipping econ) fizička ili pravna osoba koja upravlja poslovanjem,
The company designated by the ship owner or charterer to be responsible for the day to day commercial running of the ship and the best contact for the ship regarding commercial matters. Including post fixture responsibilities, such as laytime, demurrage, insurance and charter clauses. This company may be an owner related company, or a third-party manager, whose purpose is primarily the management of ships for their ship-owning clients. (http://www.ihsfairplay.com/About/Definitions/definitions.html)

shipmaster (n) (mar law, seamanship) The International Federation of Shipmasters’ Associations (IFSM) represents individuals “who are in possession of an Internationally recognised Certificate of Competency, issued by the Government of an established Maritime Nation who are serving or have previously served, in Command of Seagoing Ships whether engaged upon International or Domestic Trade.” zapovjednik broda, kapetan broda

Ship Master’s Medical Report (n) (med) zapovjednikov zdravstveno izvješće ~ Form obrazac zapovjednikova zdravstvenog izvješća

shipmate /ˈʃɪpmɛt/ (n) 1 (hum_resources) pomorac (član posade), mornar (član posade ratnog broda); 2 (navy) mornar (član posade ratnog broda), član posade (ratnog broda)

shipment (n) 1 (shipping econ) = consignment, package A quantity of goods or cargo that are shipped together.; Cargo transported under the terms of a single bill of lading or air waybill, irrespective of the quantity or number of containers, packages, or pieces. (http://www.businessdictionary.com/definition/shipment.html) pošiljka: Much of Cork’s traffic in trade vehicles is handled at the Tivoli Ro-Ro terminal where regular shipments are discharged from British and mainland European ports. One shipment can require sign-off from 30 unique organizations and up to 200 communications. www.ibm.com; Shipping and Freight Resource

<info=shippingandfreightresource.com accept the ~ prihvatiti pošiljku, deliver the ~ predati pošiljku, take delivery of the ~ preuzeti pošiljku; 2 (shipping econ, mar law) The act or an instance of shipping goods otprema tereta, špedicija: When there is a shipment, the customer (BCO or Freight Forwarder) contacts the carrier (physically or online) to discuss and finalise the details of the shipment such as freight rates, frequency of sailings, vessel availability, space availability, container availability, transit time etc..

https://shippingandfreightresource.com/can-transit-time-be-guaranteed-in-shipping/; 3 (shipping econ, ship handling) ukrcaj (robe, tereta); 4 (cargo handling) partija tereta

ship mortgage (n) (mar law) Security on a ship and its appurtenances by the shipowner as security for a loan. It is derived from the English common law chattel mortgage and is similar to the hypothèque maritime of the civil law. Ship mortgages in common law jurisdictions may be either legal or equitable mortgages

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; „pravo prema kojem je vjerovnik ovlašten namiriti svoju tražbinu iz prodajne cijene broda ostvarene sudskom prodajom ili izvensudskom prodajom ili uzimanjem broda u posjed i iskorištavanjem broda.“ (Pomorski zakonik RH) pomorska hipoteka, hipoteka na brodu, brodska hipoteka

ship naming (n) (US, nav arch) ceremony is held at the shipyard when a new ship is ready to sail out after undergoing the required sea trials imenovanje broda: Ship Naming traditionally
occurs before the ship is christened, while construction is in progress. Once the construction of a ship is completed, the ship owner is notified of the completion and a particular date is fixed for its naming ceremony. *Ship naming ceremony* is held at the shipyard when a new ship is ready to sail out after undergoing the required sea trials.

**ship naming and launching** (n) *(nav arch)* krštenje i porinuće broda: Ship naming and launching procedures are arranged to provide a ship hull with her identity.

**ship observation** (n) *(navig, safety)* brodsko motrenje

**ship of the line** (n) *(navy, sailing vessels)* The ship of the line was designed for the naval tactic known as the line of battle, which depended on the two columns of opposing warships maneuvering to fire with the cannons along their broadsides. *brod u bojnoj liniji, brod u bojnoj brazdi*

**Ship Oil Pollution Emergency Plan (=SOPEP)** (n) *(environ)* Brodski plan u slučaju opasnosti od onečišćenja uljem, Brodski interventni plan u slučaju opasnosti od onečišćenja uljem

**ship operating expenses** (n) *(nav arch, shipping econ)* The costs of operating a ship, primarily consisting of crew wages and associated costs, insurance premiums, ship management fees, lubricants and spare parts, and repair and maintenance costs. Ship operating expenses exclude fuel cost, port expenses, agents' fees, canal dues and extra war risk insurance, as well as commissions, which are included in voyage expenses. (http://www.globalshiplease.com/glossary.cfm) *operativni troškovi broda*

**ship operation** (n) *(shipping econ, navig)* vrsta operacija brodom, vrsta manipulacije brodom: Ship operation: Under pilotage / Manoeuvring / Berthing / Anchoring, etc.

**ship operator** 1 (n) *(mar law, shipping econ)* = carrier fizička ili pravna osoba koja je kao posjednik broda nositelj plovidbenoga pothvata; osoba koja je nositelj brodarske djelatnosti u najširem smislu (DP); A firm that charters vessels for its service requirements, which are handled by their own offices or appointed agents at ports of call. Vessel operators also handle the operation of vessels on behalf of owners. *brodar; 2 brodarsko poduzeće; 3 poslovođa (broda)*

**shipowner** /ʃɪpˌəʊnər/ (n) *(mar law)* The person who equips and fits out a ship, provides her with the necessary provisions and crew and runs or operates her. When a person who fits out and operates a ship, is also the proprietor of it, he is called “owner”. (http://www.maritimeknowhow.com) *vlasnik broda, brodovlasnik*: “God must have been a shipowner. He placed the raw materials far from where they were needed and covered two thirds of the earth with water.” (Erling Naess, Norwegian shipowner, 1901-1993) Splash24/7 <splash@asiashippingmedia.com>

**shipowner's bill of lading** (n) *(mar law)* teretnica koju izdaje brodovlasnik (u svojstvu ugovornog prijevoznika)

**shipowner; ship owner** (n) 1 *(mar law, shipping econ)* brodovlasnik, brodarsko poduzeće, brodarska tvrtka; 2 *brodar*

**shipowner's liability (SOL)** SOL or Shipowners’ Liability to Cargo is a common term used to describe the insurance arranged to cover a member’s liabilities arising from a breach of contract of carriage, where such a breach deprives the carrier of the right to rely on defences or rights of limitation which would otherwise have been available to him. *odgovornost bodara, odgovornost vlasnika broda:* A typical SOL example is geographical deviation or departure from the contractually agreed voyage; liability for loss of and/or damage to cargo arising out of such a deviation falls outside the scope of standard P&I. ~ *insurance osiguranje brodarove*
shipped bill of lading

=Shipped on Board Bill of Lading

(n) (mar law)

This type of Bill of Lading must contain reference to the goods having been shipped on board. It is often required by banks who advance money using the Bill of Lading as collateral security and who wish to be satisfied that the goods are on board the ship.

(n) (mar law)
Shipping (n) (shipping econ, mar law) pomorski prijevoz, pomorski transport, morski transport: the process of transporting an item by sea ~ consignment pomorska pošiljka / teret, pošiljka robe morem, ~ documents robni dokumenti, otpremni dokumenti, ~ marks transportne oznake, ~ note prijava ukrcanja, ~ procedure proces pomorskog prijevoza, organizacija pomorskog prijevoza, prijevoz robe (morem): Shipping the goods by sea is still much more efficient than shipping all that stuff by land or air., ~ space brodski prostor, brodski teretni prostor, ~ technology tehnologija pomorskog prijevoza / transporta; 2 (shipping econ, mar law) brodavstvo, brodarsko gospodarstvo ~ company brodarsko poduzeće, brodarsko trgovačko društvo, brodar, ~ industry brodarstvo; 3 (shipping econ) ukrcaj tereta, otprema tereta; 4 plovidba tramp ~ (shipping econ) slobodna plovidba, liner ~ linijska plovidba; 5 (navig) brodovlje, brodovi, svi brodovi (u luci, na sidrištu itd.), flota: Core routes are those supporting the most important commercial shipping flows servicing major markets. https://transportgeography.org/?page_id=2067; 6 plovidba, promet brodova: Shipping suspended in Bosphorus. Mississippi river barge shipping resumes after floods. Prometi teškina na rijeci Msississippi povno je uspostavljen nakon poplava. https://gCaptain.com A wave of significantly cold weather with high winds and rain in Greece has disrupted shipping and left the islands of the Aegean cut off for several days as ferry boats stayed moored. www.safety4sea.com

Shipping Act (n) (shipping econ) Zakon o pomorskom prijevozu (US), pomorski zakon

Shipping agent (n) (shipping econ, mar law, logist) SEE ship agent A shipping agency or shipping agent is the designated person or agency held responsible for handling shipments and cargo, and the general interests of its customers, at ports and harbors worldwide, on behalf of ship owners, managers, and charterers. In some parts of the world, these agents are referred to as port agents or cargo brokers. There are several categories of shipping agents such as: port agents, liner agents, and own agencies, each rendering specific services depending on the shipping company they represent. (https://en.wikipedia.org/wiki/Shipping_agency) pomorski agent, brodarski agent,

brodarov agent: In practice however, the agent can act for any of the parties involved in the voyage and in any capacity as agreed between the agent and the principal. https://www.fonasba.com/ship-agents-and-brokers

Shipping agents (n) 1 (mar law, shipping econ) pomorska agencija; 2 brodarska agencija

Shipping area (n) (navig) plovidbeno područje, područje pomorskog prometa: a few minutes of refamiliarisation of the rigging, and practising of key manoeuvres is time well spent before venturing into a busy shipping area.

Shipping articles (n) (mar law) = ship’s articles = articles of agreement = work contract = sign-on sign-off agreement COMPARE contract of employment enlistment contracts signed by enlisted personnel (US Navy); a set of documents that constitute the contract between the seamen and the captain (master) of a vessel (https://en.wikipedia.org/wiki/Ship%27s_articles) ugovor o ukrcanju, radni ugovor (pomorca) sign the ~ potpisati radni ugovor, potpisati ugovor o ukrcanju

Shipping certificate (n) (mar law, shipping econ) potvrda (nalik teretnici) koja se izdaje
This dangerous deepwater shipping channel leads to the Milford Haven waterway and Port of Milford Haven, the UK’s largest energy port and the biggest port in Wales.

A shipping company is a company that operates frequent scheduled or liner services, with predetermined port calls, using a number of owned or chartered vessels to transport cargoes by containers; also known as a liner company or a ship operator.

Many of the shipping documents such as commercial invoice, packing list, bill of lading, certificate of origin etc are still paper-based.

A shipping forecast is a prognoza vremena za brodove, prognoza vremena za pomorce.
shipping lane (n) (shipping econ, logist) COMPARE shipping routes A sea lane, sea road or shipping lane is a regularly used route for vessels on oceans and large lakes. morski transportni putovi: One of the most important shipping lanes on the planet is the Strait of Malacca, the shortest route between the Pacific and Indian Oceans, which you can see here as a congested line of ships traveling past Singapore, Malaysia, and Indonesia. https://www.vox.com/2016/4/25/11503152/shipping-routes-map

shipping law pomorsko pravo: ..., this section will look at the liens found in shipping operations, and examples will be mainly from shipping law.

shipping line (n) (mar law, shipping econ) 1 brodarska linija, brodska linija, brodski servis: Modern shipment, between freight forwarder and shipping line, is contracted by means of a Combined Transport Document; 2 linijsko brodarsko društvo: Many of the larger exporting companies maintain an inhouse shipping and distribution department which negotiates contracts of affreightment or carriage of goods for the company with the shipping line that trades to the area of the world where the company’s goods are destined; 3 brodarsko linijsko poduzeće; 4 linijski brodar: Liner Waybill: Document, issued by a shipping line to a shipper, which serves as a receipt for the goods and evidence of the contract of carriage.

shipping market (n) (shipping econ) pomorsko tržište, tržište brodskog prostora

shipping movements (n) (navig) kretanje brodova ( luci, području VTS-a): The VTS operations and information service covers the Solent and Southampton Water and involves the monitoring and co-ordination of shipping movements.

shipping note (n) (mar law, shipping econ) SEE delivery note najava ukrcaja, obavijest o ukrcaju

shipping order (n) (mar law, shipping econ) = shipper’s note Equivalent of booking and contract of carriage evidencing the agreement to transport goods.

shipping pool (n) (shipping econ, mar law) SEE pool “An organized group of shipowners and/or traders sharing a common purpose” (“Shipping Pools” by William Parchard; https://commons.wmu.se/); “A cooperation between owners who place vessels in a jointly controlled operational unit where freight income on timecharter basis is divided between the partners according to a predetermined key” (Leif Höegh & Co. (1998).Annual Report 1998, Oslo: Leif Höegh & Co.); A shipping pool is an arrangement where a group of ship owners (Participants) pool their vessels together and place them under the care of an appointed commercial/pool manager. (http://www.maerskline.com/en-jm/help/shipping-glossary) nalog ukrcaja, dispozicija ukrcaja

brodarski pool, objedinjeni brodari (u slobodnoj plovidbi), brodarski pul: Shipping pools arise out of the need to organize commercial operations purposefully, to enhance efficiency and to provide meaningful transportation services that can place an owner in a stronger bargaining position vis-à-vis charterers, thereby enhancing profitability. https://lawexplores.com/pools-in-international-shipping/ (In a shipping pool) Participants retain ownership of their vessels and continue to be responsible for the performance of the contracts, procurement, financing, insurance, manning and technical management of their respective vessels. The earnings of the vessels will be pooled together and distributed to the vessel owners according to a pre-agreed weighting system. (https://www.mpa.gov.sg/web)
The vessel was seized by the ... Coast Guard on Friday in a key **shipping route** in the Gulf. www.BBCNews

There is potentially an infinite number of maritime shipping routes that can be used for commercial circulation, but the configuration of the global system is relatively simple. The main axis is a circum-equatorial corridor linking North America, Europe and Pacific Asia through the Suez Canal, the Strait of Malacca and the Panama Canal. https://transportgeography.org/?page_id=2067

**ship-to-ship distress alert** (n) (safety, comm) Ship-to-ship distress alerts are used to alert other ships in the vicinity of the ship in distress and are based on the use of digital selective calling in the VHF and MF bands. Additionally, the HF band may be used. (ITU-R) *digitalna uzbuna o*
A ship-to-ship (STS) transfer operation is the transfer of cargo between seagoing ships positioned alongside each other, either while stationary or underway. Cargo typically transferred via STS methods include crude oil, LNG, LPG, and petroleum products. The Masters of the two vessels had agreed on a rendezvous point and to undertake the ship-to-ship transfer operation on a heading of about 305° and at a speed of about four to five knots.

https://www.marineinsight.com/

Westports has earmarked nine high-performance ship-to-shore cranes to handle OOCL United Kingdom’s containers.

www.gCaptain.com

Ship-to-shore distress alerts or calls (by a ship station or a ship earth station) are used to alert rescue coordination centres via coast stations or coast earth stations that a ship is in distress. These alerts are based on the use of transmissions via satellites (from a ship earth station or a satellite EPIRB) and terrestrial services (from ship stations and EPIRBs). (ITU-R) digitalna uzbuna o pogiblji: brod-kopno (putem DSC)

Ship traffic in the St. Lawrence Seaway has not been impacted by the grounding of the tanker.

**short circuit** /ʃɔː.tˌsɑː.tɪt/ (n) (electr) kratki spoj

**short coastal navigation** (n) (shipping econ) mala obalna plovidba

**short coastal service area** (n) mala obalna plovidba

**shortcomings** (n) (safety, navig) nedostatci serious ~ ozbiljni nedostatci: The serious shortcomings with the navigation on board the vessel had not been identified during the vessel's recent audits and inspections. Both shortcomings were subject to Flag State approved exemptions from safety regulations.

**short delivery** (n) (shipping econ, mar law) manjkava isporuka, nepotpuna isporuka, manjak tereta

**shortfall** /ʃɔː.tˌfoʊl/ (n) (mar law, shipping econ) manjak (tereta)
short flashing light (nav arch) svjetlo na kratke bljeskove
short form bill of lading (mar law) skraćeni oblik teretnice
short-handed sailing (boating/yachting) plovidba (jedrenje) sa smanjenim brojem posade
Short Land Container (logist, mar law) COMPARE Short Ship Container kontejner koji je ostao na brodu i fizički nije iskrcan u manifestiranoj luci iskrcaja (J. Karmelić, personal information); A container that is short land means that it has been left onboard a shipping vessel in spite of the vessel arriving at the port of call that the container was meant to be unloaded at.
neiskrcan kontejner short landed Cargo volume count (at delivery destination) less than originally shipped.
manjak tereta (po obujmu, broju koleta) pri iskrcaju ~ cargo manjak tereta pri iskrcaju short-sea service (shipping econ) = short sea trade kratka plovidba; 2 velika obalna plovidba
short sea shipping (shipping econ) kratka plovidba short sea trade 1 kratka plovidba; 2 velika obalna plovidba
Short Ship Container (logist, mar law) COMPARE Short Land Container Kontejner koji je ostao na terminalu i fizički nije ukrcan na brod u manifestiranoj luci ukrcaja (J. Karmelić, personal information); a container that reaches the container terminal within the stack period for a certain ship but is left behind by the operator of the vessel due to many reasons.
neukrcan kontejner short shipped cargo (shipping econ, mar law) cargo missing when loading the shipment on the vessel; i.e. less than shown in the bill of lading; Part of consignment which has not been shipped in a specific ship, normally because there was insufficient space in the ship or because the goods arrived at the port of loading after the ship has completed loading or has sailed.
short splice (seamanship) upleteni spoj dva užeta
short stay (seamanship, ship handling) When the scope of chain is slightly greater than the depth of water. lanac nešto duži od dubine mora
short ton (cargo handling) COMPARE long ton American ton (2000 lbs). 0.9072 tonnes. kratka tona, američka tona
shot (US, seamanship) = shackle :1 a short length of chain, usually 15 fathoms (90 feet) uza
sidrenog lanca: If you must temporarily join two shots of chain, common methods are the riveted connecting link, the double jaw midlink, and the quick-connect link https://www.practical-sailor.com/

shoulder /ˈʃouldə/ (n) 1 (navig, ship handling) mjesto na oplati desne ili lijeve strane pramca broda predviđeno za guranje ili vučenja od strane tegljača strana pramca port ~ lijeva strana pramca: The smaller tug was made fast on the port shoulder to assist in maintaining the course.

starboard ~ desna strana pramca: The pilot ordered one of the tugs to make fast on the starboard shoulder.

shove off (v) (seamanship) to push a boat away from alongside odgurnuti brodicu (boćno) od obale ili drugog broda

shutters /ˈʃʌtərs/ (n) (meteorol) pljuskovi, Italian: rovescio

shower sump pump (n) (boating/yachting) crpka vode iz kuponači

SHP; shaft horse power (n) (nav arch) snaga na osovinii

shrimp (n) Lat. Parapenaeus longirostris račić, kozica

shrimps (n) (fishing) račići

shrink (v) stegnuti se, skupiti se, suziti se ~ on to navući na toplo (cijev itd.), navući u zagrijanom stanju

shroud /ʃraʊd/ (boating/yachting) standing rigging running from a mast to the sides of a ship's pripona, sartija, satriga, sartija; Italian: sartia, sarče lower ~ donja pripona, topmast ~ križna pripona, upper ~ gornja pripona

shroud whip (n) (boating/yachting) uže za napinjanje pripona

shudders (n) (navig) podrhtavanje (trupa broda), trešnja: A very short while later a shudder was felt and the vessel's speed decreased.

shunt /ʃaʊnt/ (electr) šant (paralelno spojen element)

shunting yard /ˈʃʌntɪŋ/ (=shunting station) (n) (ports) = marshalling yard A shunting station or marshalling yard is a railroad emplacement where trains or separate wagons are split and reconnected. https://www.logisticsglossary.com/term/shunting-station/

shutdown /ˈʃʌtədn/ (n) 1 a (marine eng) isključenje pogona, prekid pogona, obustavljanje rada ~ procedure postupak isključenja pogona; 2 (marine eng) mirovanje prolonged ~ dugotrajno mirovanje; 3 zatvaranje (luke, terminala, linije, usluge), prestanak rada (luke, terminala, linije, usluge) shut down (v) 1 ugasiti (motor, radar itd.): When the door of the cabinet containing the
CO₂ release mechanism was opened, a power black-out occurred and the engine shut down. The main engines were shut down. 2 (marine eng) zatvoriti: The steam supply to the deck machinery was shut down The engineers quickly shut the boiler down and put the fire out with a portable foam fire extinguisher. (https://safety4sea.com/); 3 (shipping econ) prestati poslovati, zatvoriti (liniju, servis, terminal): APM Terminals notified the Texas Workforce Commission on June 12 that it would shut down its Barbour's Cut terminal in La Porte, Texas on July 24, about a month sooner than expected. Wild weather and heavy seas shut down Australia's Port Botany terminal today.

**shutdown procedure** (n) (safety, cargo handling) postupak za prekid rada

**emergency ~ postupak za prekid rada u slučaju opasnosti**

**shut off** (v) 1 a isključiti, zatvoriti; 2 (marine eng) prekinuti dovod (nečega) ~ ventila za zaustavljanje (dovoda)

**shut-off valve** (marine eng, electr) A valve which opens and thereby stops the flow of a liquid, air, or gas. (http://www.marinedieseleurope.com/) ventila za isključivanje motora, ventila za isključivanje dovoda goriva

**shutting down the engine** (n) (marine eng, shipping econ) gašenje stroja, gašenje motora: Shutting down the engine for longer periods

**shuttle tanker** (n) (shipping econ, nav arch) moderate sized tanker designed for the regular short-haul transport of oil between FPSO (=Floating production, storage and offloading vessel) vessels or single point mooring buoys and cooal refinery terminals (http://www.scribd.com/doc/10232629/Glossary-of-Naval-Architecture-Terminologies-Definitions#scribd); A shuttle tanker is a ship designed for oil transport from an off-shore oil field as an alternative to constructing oil pipelines. It is equipped with off-loading equipment compatible with the oil field in question.; Tanker carrying oil from offshore fields to terminals. (https://www.clarksons.com/glossary/)

**tanker za prijevoz tereta nafte sa naftnih platformi, tanker za kraće plovidbe (od naftnih platforma do odredišta):** Tankers on the North Sea run (often called shuttle tankers) have been specially designed to load at the bow from a single point mooring at sea. A shuttle tanker is a ship designed for oil transport from an off-shore oil field as an alternative to constructing oil pipelines. Shuttle tankers are largely conventional tankers which are equipped to station themselves on an offshore loading buoy far at sea and to load their cargo of crude oil directly from the oilfield, where it has been kept in a reservoir with perhaps the sulphur removed.

![Shuttle tanker](https://en.wikipedia.org/wiki/Shuttle_tanker)

**sick** (adj) bolestan

**sick bay** (n) (safety, nav arch) = ship's hospital ship's hospital or dispensary; the compartment on board reserved for medical purposes; the space on board a ship where members of the crew and passengers are given medical service and includes the dispensary, operating room, wards, etc. (https://www.history.navy.mil/) brodska bolnica

**sick cases** (n) (med) slučaji oboljenja / bolesti / oboljelih na brodu

**Sick List** (n) (med) Popis oboljelih
sickness  *(med)* bolest, oboljenje
sick pay  *(med, mar law)* bolovanje; 2 *(mar law)* naknada za bolovanje
sick room  *(safety)* brodsko bolnica
side (=side of a ship; ship’s side)  *(seamanship)* strana (broda), banda,
Italian: *banda* port / starboard side lijeva / desna strana broda
side clearance  bočne zračnosti: Check that the side clearances of the main bearing shell are sufficient to allow the free movement of the bottom shell during its dismantling.
side coils  *(nav arch)* bočne serpentine
side deck  *(boating/yachting)* bočni dio palube
side elevation  *(boating/yachting)* bočna vertikalna projekcija, bočni pogled, bokocrt, elevacija
side flat line  *(nav arch)* granica ravnog boka
sidelight  *(navig)* one of the required running lights of a ship bočno navigacijsko svjetlo: The stern light and the red sidelight were visible alternately.  port ~ lijevo
navigacijsko svjetlo: the ship’s port sidelight was not easily seen, starboard ~ desno navigacijsko svjetlo, fixed ~ stalno okno, ~ with movable deadlight plug okno sa skidljivim čepom, okno sa skidljivim poklopcem, observe a ~ primijetiti bočno navigacijsko svjetlo, opaziti bočno navigacijsko svjetlo: The bridge team ~ on vessel A observed the starboard green sidelight and masthead lights on vessel B.
sidelight frame  okvir okna
sidelights  *(navig)* the red and green running lights, carried on the port and starboard sides respectively, of vessels under-way bočna svjetla
side light; side lights  *(nav arch)* = porthole brodsko okno, bočno okno

side lobe echoes  *(navig)* lažna bočna jeka (na radaru): Side lobe echoes can be reduced through careful reduction of sensitivity or proper adjustment of the A/C SEA control.
sidescuttle  *(nav arch)* SEE porthole A porthole on a ship may also be called a sidescuttle or side scuttle (side hole), as officially termed in the SOLAS Convention. bočno okno (s poklopcem i bez): Side scuttles and windows together with their glasses, deadlights shall be of approved design and substantial construction in accordance with, or equivalent to, recognised national or
international standards.

**side shell** *(nav arch)* oplata boka

**side strake** *(nav arch)* voj boka

**side stringer** *(nav arch)* proveza boka

**side tank** *(navig)* bočni tank

**side trawler** *(nav arch)* bočni koćar

**sideways force** *(boating/yachting)* sila zanošenja

**side web** *(nav arch)* okvir boka

**sifting** *(cargo)* rešetkast, koji djeluje kao sito, koji se rasipa

**sight** */sait/* *(n)* 1 *(navig)* an accurately timed measurement of the altitude of a celestial body

snimak, smjeranje (nebeskih tijela) Sun ~ snimak Sunca (sekstantom), Moon ~ snimak Mjeseca, star ~ snimak zvijezde, to take ~s of the Sun / Moon / planets / stars

vidokrug to be in ~ of land vidjeti kopno, biti na domak kopna, kopno u vidokrugu, vessels in~ of each other *(navig)* visual perception of an object: brodovi u međusobnom vidokrugu (kada vide jedan drugoga, bilo okom ili radarom); 3 vizualno opažanje

**sight** */sait/* *(v)* 1 to measure timed the altitude of a celestial body snimati (nebeska tijela), smjerati; 2 *(cargo)* vizualno pregledati (teret) for ~ing na uvid; 3 to see for the first time, as to sight a ship on the horizon *(http://www.quarterdeck.org/index.html)* opaziti,

**ugledati**: At this time, the OOW sighted an unidentified vessel emerge from a cluster of anchored ships

**sight** */sait/* *(v)* *(navig, safety)* opaziti (u traganju i spašavanju), uočiti: The OOW failed to sight the red light buoy marking the southern limit of the approach channel into the basin. Časnik u straži nije opazio plutaču sa crvenim svjetlom koja obilježava prilazni kanal prema lučkom bazenu.

**sighted** */saitid/* *(adj)* *(safety, comm)* opažen, uočen ~ one liferaft in position ...

Opažena jedna splav za spašavanje na poziciji ....

**sight glass** *(marine eng)* a clear viewing window or port in the suction side of the fuel system to see if air has entered the fuel system *(http://www.marinodieseleurope.com/)* kontrolno staklo, kontrolni prozorčić

**sighting** *(n)* *(safety, comm)* opažaj, opaženi brod, uočeni brod Report ~s!

Izvijestite o svojim opažanjima!

**sighting of oil** *(n)* *(safety)* opažena zauljena površina mora, primijećeno ulje/nafta na moru: The sighting of oil near the reef is of environmental concern because the world heritage site is the largest ecosystem of its kind, hosting over 1,500 species of fish, 400 of coral and 4,000 mollusks.

**Sight Reduction Tables for Marine Navigation** *(n)* *(navig)* **SEE ephemerides**

the process of deriving from a sight the information needed for establishing a line of position; Nautički godišnjak, s podacima o nebeskim tijelima (efemeride) nautičke tablice (za astronomsku navigaciju), astronomske tablice za pomorce, nautičke table

**sign** */sain/* *(mar law)* potpisati (se) ~ the Bill of Lading potpisati teretnicu
sign /sain/ (n) znak
signal /ˈsɪɡnəl/ (n) 1 znak; 2 (navig, safety) signal distress ~ signal pogibelji, signal pogiblji, fog ~ signal za maglu, gun ~ signal iz vatrenog oružja, signal pucnjem, light 1 svjetlosni signal, manoeuvrig ~ signal za manovru, smoke ~ dimni signal, sound ~ zvučni signal, warning ~ signal upozorenja, whistle ~ signal zviždaljkom / siren
signal buoy (n) (navig) signalna plutača
signal flag (n) (comm) signalna zastavica: Hoist signal flag OSCAR. maritime ~ s pomorske signalne zastavice
signal hoists (n) (comm, navig) signalne zastavice
signal lights (n) (navig) signalna svjetla
signalling (n) (comm, navig) signalizacija
signalling equipment (n) (boating/yachting, safety) signalizacijska oprema: For signalling equipment, the more diverse your distress signaling ability, the greater your chance of rescue. Flares, flashlights, and mirrors are a must but more technological options like EPIRBs, 406MHz Personal Locator Beacons (PLB), a portable satellite phone, a cost-effective, 121.5MHz handheld, aviation VHF transceiver for contacting planes overhead and a handheld VHF should all be seriously considered. Practical Sailor
signal pistol (n) (comm, nav arch) signalni pištolj
signal station (n) (comm, navig) signalna stanica
signatory /ˈsɪgnətri (UK), ‘sɪgnətri (US)/ (n) (mar law, safety) potpisnik, zemlja
potpisnica: As a signatory to the International Convention on Maritime Search and Rescue (SAR) 1979, the Canadian (Croatian, etc) government is responsible for “the provision of medical advice, initial medical assistance, or medical evacuation”. Camsar2014
signature (n) (mar law) potpis ~ of Master potpis zapovjednika, ~ of Seafarer potpis pomorca
significant wave heights (n) (oceanogr) the average height (trough to crest) of the one-third highest waves valid for the indicated period niz prognostički značajnih visokih valova, niz izuzetno visokih valova: Gigantic 17-Meter Significant Wave Heights Forecast for NW Pacific Ship Lanes rapidly developing storm low is forecast off the coast of Japan January 22nd-23rd with storm to hurricane-force winds and significant wave heights to 17 meters, or about 56 Feet. This will be a dangerous storm affecting ships arriving and departing Japan • A developing hurricane force storm low over the west-central North Atlantic continues to move eastward at 35 knots producing winds of 55-75 knots with significant wave heights up to 12 meters (40 feet) within 180 NM south and 120 NM west of the center. http://gcaptain.com/dangerous-north-atlantic-storm-impacting-shipping-lanes
signing-on and signing-off (n) (mar law) ukrcaj / iskrcaj pomoraca, sklapanje pomoračkih ugovora
sign off /sain/ (v) (shipping econ) iskrcati se s broda (završiti ili prekinuti zaposlenje na brodu), potpisati ugovor o iskrcanju (pomorca), završiti ugovor o ukrcanju, iskrcati se, raskinuti ugovor: <tlCorpus><sentence>I made it back to Texas, signed off the vessel and actually arranged my own cab to the hospital. <source>MaritimeProfessional-2016-05</source></sentence></tlCorpus>
sign on /sain/ (v) (shipping econ) ukrcati se na brod (započeti ugovor o zaposlenju na brodu), uposliti se na brodu, potpisati ugovor o ukrcanju (pomorca), Italian: *imbarcare* (*un marittimo*):

Any seafarer who is put ashore at a port other than the one where he *signed on* these Articles and who is put ashore for reasons for which he is not responsible, shall be returned as a seafarer or otherwise, but without expense *to* the Agreement ~ sample <source>45_Art of Agreement_sample</source>

**sign on** sign-off agreement (n) (mar law) = articles of agreement

**shipping articles** ugovor o ukrcanju (pomorca), radni ugovor (pomorca

**silence** šutnja radio ~ 1 radiošutnja; 2 impose ~ nametnuti radiošutnju,

**narediti radiošutnju**

**silencer** /ˈsailənsər/ (n) (marine eng) prigušivač

**silicon**; (Si) /ˈsɪlɪkɒn/ (n) (chem) silicij, kremen

**silo** /ˈsaɪloʊ/ (n) (ports, cargo handling) = elevator silos

**silt** (n) mulj, talog, glib

**simple turn** (n) (seamanship) COMPARE round turn: poluvoj konopa

**simultaneously** (adv) istovremeno, istodobno, simultano

**since** (prep) 1 od, otkada: the navigation in the channel has been discontinued ~ last March

plovidba kanalom je obustavljena od prošlog ožujka; 2 (conj) budući da, jer: the launching has been postponed ~ the hull painting hadn’t been finished on time porinuće broda je odgođeno budući da radovi na bojanju trupa nisu bili završeni na vrijeme

**single** (adj) pojedinačan, jednostruk, jednovremen ~ storage capacity

**single-decker** (n) kapacitet jednovremenog uskladištenja, ~ user berth vez koji koristi samo jedan brodar

**single-acting** (adj) (marine eng) jednoradni (stroj) ~ engine jednoradni motor

**single arm anchor** (n) (nav arch) jednokrako sidro

**single bend** (n) (seamanship) zastavni uzao

**single-buoy mooring** (=SBM) (n) (navig) SEE single-point mooring sidrenje na jednom sidru, vez na jednom sidru

**single deck vessel** (=singledecker) (n) (nav arch) a vessel with one continuous deck

brod s jednom palubom: Many single deck vessels have very large hatches, and some are

known as ‘self-trimmers’ because of provisions for the cargo to flow into all corners of the hold. The most suitable cargoes for single deck vessels are heavy bulk cargoes, such as coal, grain, and iron ore. However, these vessels also carry light cargoes, such as timber, which can be stored on deck as well as below. Single decked vessels are not suitable for general cargoes, since there are few means of separating cargo tiers and lots.

single-decked vessel (n) (marine eng) kotao s jednim bubnjem, kotao s jednostrukom komorom

singed up / singled up / (adj) (navig, seamanship) brod koji je ujednostručio užad za privezivanje (pri manovri odvezivanja), brod koji je (pri manovri odvezivanja) ostao samo na jednom užetu na pramcu i krm, singled up: The ship is singled up to one headline, one spring forward and one breast line aft.

single-flow boiler kotao s jednostrukom dimnom komorom

single-handed sailing (n) (boating/yachting) jedrenje u jednosjedima

single-handed yacht (n) (boating/yachting) jedrilica jednosjed, jednosjed

single lace hitch (n) (seamanship) čipkarski uzao

single-point mooring (=SPM) (n) (navig) the single point mooring buoy consists of a buoy that is permanently moored to the seabed by means of multiple mooring lines; An SPM is a loading buoy anchored offshore that serves as a mooring point as well as an interconnection for tankers loading or offloading liquid products. sidrenje (privez) na jednu točku (sidro ili plutaču): shuttle tankers have been specially designed to load at the bow from a single point mooring at sea. Single Point Mooring (SPM), also known as mono-mooring or bow mooring, means the tanker is moored at the bow, using one or two hawsers to a buoy or tower. This had little effect, and the ship drifted beam on to the wind, eventually striking the SPM buoy aft of amidships.

single propeller (n) (nav arch) jedan propeler

single sideband radio (SSB) (n) ~ transmitter uskopojasni predajnik (comm) uskopojasni radio, SSB
Single up! (v) (navig, seamanship) (Zapovijed koja se izdaje na početku manovre odvezivanja); an order to take in the extra parts of doubled up mooring lines, so that only a single part of each line remains on the dock Ujednostručeni, Ostanite na jednom konopu! (na vezu koji zapovijedi pilot ili zapovjednik), Single up! (izg. singl ap), smanjite broj privezne užadi na minimum (naredba peljara ili zapovjednika pri odvezivanju broda): Some time before the Pilot comes aboard the ship, the Master or the Officer of the Watch (OOW) has to tell the officers in charge of the Fore and After (Mooring) Station to single up. Under their control the ratings then cast off all but the essential mooring ropes (lines) so that the vessel is singled up aft and singled up forward. Single up to a headline and one spring. Ujednostručen na jedno pramčano uže i špring.

single-user berth (n) (mar law, ports) privatni vez, brodarov vez, unajmljeni vez

single voyage charter (n) (mar law) brodarski ugovor za jedno putovanje

singling up ujednostručenje užadi za privezivanje

sink (v) 1: A cargo ship sank and one person died after colliding with freighter near the Bosphorus Strait’s Black Sea entrance. a (v intro) potonuti, Italian: andare a picco, The yacht ended up sinking off the coast off the Greek island of Skyros in the Aegean Sea. As the vessel’s freeboard reduced, the Master realised that the vessel was sinking and ordered the crew to prepare to launch the liferafts. The vessel sank late in the evening on 18 March 2015. Chinese ships are racing to clean up a giant oil spill after a tanker sank in the East China Sea. The yacht ended up sinking off the coast off the Greek island of Skyros in the Aegean Sea.; 2 (v tr) potopiti (drugi brod), Italian: affondare: The aircraft sank the freighter. ~ a ship potopiti brod: The authorities have decided to sink the very large ore carrier off the coast of Maranhao. https://splash247.com/

sink a ship (v) (navy) potopiti brod

sinker (n) (fishing) Any type of weight used for fishing rigs, made from lead or steel. uteg (za povraz, udice, predvez itd.), olovo: A pyramid sinker made of lead is nowadays widely regarded as too toxic a material. bullet ~ uteg u obliku metka, egg ~ weight jajasto

sink outlet (n) (boating/yachting, marine eng) ispust sudopera, odvod sudopera

sirocco; scirocco /siˈroʊkoʊ/ (n) (meteorol) široko, šilok, južni vjetar

sisal (n) (seamanship) sisal, konop od sisala

sistership (=sister ship) (n) 1 Ship with the same specification as another. This is sometimes
SITREP

offered to a charterer by a shipowner who has two or more identical ships but is not certain at the time of negotiating the charter that will be in the most suitable geographical position to perform the voyage.

http://www.tkmglobal.net/chartering_S.HTM a (nav arch) brod blizanac (iste konstrukcije); 2 (shipping econ) brod iste kompanije

SITREP (=Situation Report) = situation report izvješće o situaciji (potrage i spašavanja), izvješće o stanju (potrage i spašavanja), sitrep: In prolonged distress incidents and in all incidents where the search object is not located, situation reports (SITREPs) shall be issued by the joint rescue coordination centres (JRCCs). Camsar2014 shall be sent with priority precedence in the following sequence: .1 SITREP ONE AND INITIAL .2 SITREP TWO, SITREP THREE, etc. .3 SITREP (number) AND FINAL Camsar2014 When the search and rescue (SAR) operation is successfully completed or search reduction has been authorized, the JRCC shall send a final SITREP. Camsar2014 All SAR units (SRUs) engaged on SAR missions shall pass situation reports (SITREPs) through the OSC or ACO is assigned to the SMC, or to the nearest Marine Traffic and Communications Services centre, for onward transmission to the SMC. CAMSAR III – Mobile Facilities daily dnevno izvješće o situaciji (potrage i spašavanja)

situated (adj) smješten, položen

situational awareness (n) (safety) poznavanje stanja, poznavanje situacije, svjesnost o stanju: This affected their situational awareness and they failed to sight the red lightbuoy marking the southern limit of the approach channel into the basin. The OOW monitored the vessel's position solely against the intended track. Consequently, his situational awareness was poor. His attention to the pilot transfer left his navigational situational awareness less than adequate. lose ~ izgubiti kontrolu nad poznvanjem stanja, loss of ~ gubitak svjesnosti o stanju, nepoznavanje stanje: Contributing to the accident were the bridge team’s loss of situation awareness and failure to follow loss of steering emergency procedures, including the requirement to inform nearby vessel traffic of their perceived loss of steering. https://safety4sea.com

situation report (=SITREP) (n) (safety, comm) izvješće kojim se prenose informacije između Spasilačkih koordinacijskih centara (RCC RH i MRCC RH), Spasilačkog koordinacijskog centra (RCC RH ili MRCC RH) i spasilačkih postrojbi (SRU) i obrnuto, a koje se odnose na zrakoplov u opasnosti, odnosno SAR akciju (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html) izvješće o stanju (u plovidbi, u području plovidbe), izvješće o situaciji

six degrees of freedom (n) COMPARE ship’s motions šest vrsta gibanja broda

size (n) veličina, obujam ship’s ~ veličina broda
size/weight ratio (n) (marine eng) omjer veličine i težine

skalop (n) (nav arch) otvor za prolaz zavara, tekućine i plinova kroz strukturni element izrez
skeg (n) (nav arch) a reinforcing brace between the after end of a keel and the rudderpost peta
skew /skjuː/ (adj) kos, nakrivo

skid1 (n) (cargo, logist, cargo handling) COMPARE pallet paleta: A pallet is considered to be a load platform that includes a bottom deck or face, while a skid has a top deck but no bottom deck. The term skid and pallet are commonly used interchangeably for load platforms used in material handling and logistics applications. In terms of professional usage,

skid: (=skid) (n) (nav arch) staza sohe inclined ~ kosa staza za spuštanje brodice ili splavi za spašavanje skids (n) (boating/yachting) saonice boat trailer ~ klizni nosači na prikolici za brodice, saonice na prikolici za brodice

skids  (=slipway; ways) (n) (boating/yachting, meteorol) = slipway navoz
skiff (n) (seamanship, nav arch) a small sea-going boat for rowing or sailing; motorised boats of small size and construction used for various purposes requiring fast speed skif, brza brodica: Two skiffs approached the tanker and boarded the vessel. A lightweight, high performance sailing dinghy, capable of easily planing across the water at high speeds. (http://www.apsltde.com/aps-advisor/sailing-terms-glossary/) The vessel was approached at speed by three skiffs.  https://safet4sea.com "pirate ~ piratski skif http://www.sundanceboats.com/skiff-boats/sundance-b20-ccr-skiff/

skiff (n) vještina
skim (n) (boating/yachting) = plane glisirati
skimmer /ˈskimə/ (n) (boating/yachting) gliser
skimming boat (n) (boating/yachting) = speedboat, skimmer gliser

skin (n) (nav arch, figurative) the outside planking or plating of a ship vanjska oplata inner ~ nutarnja oplata broda

skipper /ˈskɪpər/ 1 (seamanship, mar law) a person who has command of a boat or sea-craft or tug, more or less equivalent to captain in charge aboard ship zapovjednik brodice / manjeg broda (npr. tegljača, peljarske brodice, ribarskog broda), skiper, kapetan ribarice, ta. padrone marittimo tug ~ zapovjednik tegljača: The pilot communicated on VHF radio with the tug skippers.; 2 (boating/yachting) kormilar (jedrilice), Italian: commandante di yacht; 3 (mar law, boating/yachting) voditelj brodice, voditelj manjeg plovila, skiper ~ and crew skiper i posada

skipper2 (v) (boating/yachting) voditi jedrilicu, voditi brodicu: To skipper a small keelboat you need understanding weather and sea condition, rigging, anchoring, sailing and reefing, navigation, manoeuvring docking under power and much more.

skylight /ˈskiːlɪt/ (n) (nav arch) (in old time ships) an erection built on a deck, having glass lights in its top and fitted over an opening in the deck for the purpose of admitting light and air to a compartment below https://officerofthewatch.com/tools/maritime-dictionary/ vidnik engine ~

vidnik strojarnice
sky pilot (n) (seamanship) a chaplain brodski kapelan
skysail mast (n) nadvršni nastavak
slab reefing (n) (boating/yachting) vezivanje ostatka jedra nakon kračenja
slack (adj) ANTONYM taut the opposite of taut; loose; to allow a line to run out labav (konop, lanac), popušten (konop) cable is ~ konop je labav
Slack away! (v) (seamanship) start slacking; make loose; to pay out a rope or cable by carefully releasing the tension while still retaining control (https://www.history.navy.mil/) Popusti konop!
Slack away head / stern / breast line. Popusti pramčano / krmeno / bočno uže.
slacken /ˈsleken/ (n, v) 1 popustiti (uže) a (seamanship) olabaviti se (konop, vitlo): The second mate relayed the order to slacken the breastlines to the bosun.; 2 usporiti ~ speed usporiti brzinu broda
slackness /ˈslæknɪs/ (n) 1 popustljivost; 2 propust slack; slacken (v) (seamanship) ANTONYM tauten to allow a rope or chain to run out, or feed it out olabaviti (konop), popustiti (konop), laškat: The pilot instructed the master to slack all headlines and sternlines. ~ away popustiti (konop)
slack tide (n) (oceanogr) = slack water High slack water occurs when high stand is reached throughout the bay and flood flow stops. period mirovanja morskih mijena low ~ niski vodostaj, high ~ visoki vodostaj
slack water (n) (oceanogr) COMPARE water level The point between flood and ebb (or ebb and flood) currents when there is no horizontal movement.; The state of a tidal current when its speed is near zero, especially the moment when a reversing current changes direction and its speed is zero. The term also is applied to the entire period of low speed near the time of turning of the current when it is too weak to be of any practical importance in navigation. (https://shoreline.noaa.gov/glossary.html) voda u mirovanju, mirni vodostaj, period mirovanja morskih mijena, Italian:stanca: The best time to berth or leave is at slack water. The vessel's arrival at its berth was planned to coincide with the period of slack water. After casting off the berth just after slack water, the vessel's stern-first exit was assisted by two large tugs. The plan therefore required a reduced speed to ensure they reached the straits at slack water. Slack water was at 0926 and so the passage was made with a 2 - 4 knot flood stream, which in some sections of the narrow channel was directly abeam. The terminal's brochure recommends unberthing at slack water or on rising tide. high ~ visoki mirni vodostaj, visoki vodostaj: We have high slack water when the tide is at its highest and just about to turn., low ~ niski mirni vodostaj, niski vodostaj
slam into (n) (navig, ship handling) hit (the ship) udariti u (brod, lučku obalu): The VLCC slammed into a berthed ship in the port.
slamming udaranje mora (valova) o trup broda
slate tablet /ˈsleɪt/ (n) (archaic, navig) A slate tablet was kept near the helm and was used by the watchkeeper to speeds, distances, headings and tacks during the watch. pločica za bilješke (u straži): If no problems accured during the watch, the slate would be wiped clean so the new watchkeeper could "start over with a clean slate". Captain Bucko's Nauti-words Handbook
slats /ˈslaɪts/ (n) (cargo) letve
slave station (n) (navig) COMPARE master station pomoćna postaja, pomočna stanica
sleepers /ˈslɪpə/ (n) 1 (nav arch) Timbers or concrete or steel bars placed upon the ground or on top
sleeping cabin

of piling to support the cribbing, keel, and bilge blocks. (https://www.history.navy.mil/) pragovi/navoza, pragovi suhog / plutajućeg doka; 2 (cargo, UK) željeznički pragovi/sleeping cabin (n) (boating/yachting) kabina za spavanje

sleet /sliːt/ (n) (meteorol) rain drops that freeze into ice pellets before reaching the ground/susnježica

sleeve /sliːv/ (marine eng) a casing, usually of brass, fitted over line or other shafting for protection against wear or corrosion, or as a bearing surface/tuljak, košuljica, kolčak, cijevasti element/sleeved engine (n) (marine eng) Engines with replaceable cylinder liners. (http://www.marinedieseleurope.com/) stroj sa zamjenjivim košuljicama cilindra

slew (v) (seamanship) okretati se (oko osi)

slewing crane /sluːiŋ/ okretna dizalica
http://www.rtr-slewing.com/productshow.asp?/16/Crane_Slewing_Rings.html

slewing speed /sluːiŋ/ brzina (horizontalnog) okretanja dizalice

slick (n) oil ~ uljna / naftna mrlja (safety) mrlja

slide (n) (safety) sklizni tobogan (daska) za napuštanje broda

slide (v) klizati, pomicati klizanjem ~ the camshaft axially uzdužno pomicati bregastu osovinu klizanjem

slider (n) (boating/yachting) klizač (za hvatanje jedra uz jarbol)

sliding doors (n) (nav arch) klizna vrata

sliding hatch beam pomična sponja

sliding ways (n) (nav arch) One of the structures on each side of and parallel to the keel, supporting the crandle under the bilgeways on which the vessel rests in launching.

https://officerofthewatch.com/tools/maritime-dictionary/saonik (ispod broda na

navozu), saonice

slight malen, neznatan, lagan, površan, slab visibility ~ to moderate

vidljivost slaba do umjerena

slightly (adv) slabo, lagano, malo, neznatno
slight sea (n) (oceanogr) treći stupanj stanja mora s valovima visine od 0,5 do 1,25 metara
valovito more

sling (n) (cargo) a piece of line whose ends are spliced together, passed around an article to be hoisted
pasac, braga, Italian: braca; braga chain ~ lančani pasac, lančana braga:
Chain slings, however, are used for heavy slender cargoes, such as timber or steel rails., make up into
~ s složiti teret u pasce / brage, net ~ mrežasti pasac, mrežasta braga, rope ~ pasac od konopa, webbing ~ platneni / tkani pasac

slinging opasivanje tereta, stavljanje tereta u pasce, imbragivanje
sling of lower yard (n) vješalo donjeg križa
sling (slung, slung) (v) (cargo) opasati teret pascem (bragom), staviti u pasac / bragu, imbragat; Italian: imbracare

slip (v) 1 (seamanship) When at anchor, disconnecting the cable or letting the end of the cable run out
ispustiti lanac (da isklizne) u more ~ the cable / chain pustiti da lanac
isklizne u more: The cable was subsequently slipped and the vessel was taken out of service due to
the damage to the windlass and the loss of her anchor.; 2 otpustiti (tegljača / konop / uže):
The pilot ordered the forward tug to be slipped. The pilot reduced the speed and the tug was slipped and
clear. (https://safety4sea.com/)
slip (n) 1 (ports) obalna rampa (za trajekte); 2 (ports, boating/yachting) A space
between two docks or piers where a boat can be moored. https://www.ypiyachts.com/ obala
između dva gata marina ~ vez u marini: · If you're leaving your boat for less than
four weeks, it may be most convenient to leave it in the water, providing you can find a secure marina slip
or mooring; 3 (nav arch) kosi navoz
slip (n) (mar ins) ceduljica / bilješka s podacima o riziku
slip 1 (nav arch) The difference between the theoretical distance the propeller should travel in one
revolution and the actual distance the vessel travels.
(http://www.propellerpages.com/?c=tech_info&f=terminology) klizanje propelera, skliz
propelera: Under actual operating conditions, slip occurs as propellers rotate, so absolute forward
movement (actual pitch) is less than theoretical pitch.
http://www.propellerpages.com/?c=tech_info&f=terminology; 2 the difference between the pitch of a
propeller and the advance of the ship through the water corresponding to one revolution hod
propelera u jednom okretaju
slip (n) (boating/yachting, US) A designated space for a boat to dock in.
(http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) vez na pontonu u marini: They
walked down Dock A to Slip A-47 He keeps a 126-foot boat in a slip at the harbor marina. boat ~ vez
na pontonu, put a boat in its slip dovesti brodicu na (pontonski) vez u marini

**slip gear** *(nav arch)* uređaj za ispuštanje (lanca, užeta)

**slip hook** *(nav arch, ports)* samootpusna kuka, *slipna kuka*

**slip line** *(seamanship)* udvojak, *duplin*

**slipper** *(marine eng)* klizni element, klizač

**slip rope** *(seamanship)* vezice za pričvršćivanje konopa, *boce od konopa*

**slipway** /ˈslɪp weɪ/ *(slipways; ways; slip; skips)* *(nav arch, boating/yachting)* The space in a shipyard where a foundation for launching ways and keel blocks exists and which is occupied by a ship while under construction. *(https://www.history.navy.mil/)*; an inclined launching berth where the ship is built *navoz (u brodogradilištu), Italian: scalo (d'immersione):*

The *ship launching slipway*, a structure consisting of a sloping way down to the water from the shipyard, is an essential aspect of the ship launching procedure and has been extensively used for launching newly made or repaired ships.

**slip wire** *(seamanship)* čelikčelo za pričvršćivanje užadi, žičane *boce*

**sloop** /ˈsluːp/ *(boating/yachting)* a single-masted boat with only one headsail and mainsail set at any one time, both sails being set in a fore-and-aft line; most frequently applied type of sailboat rig in modern sailboats; *krstaš s jednim visokim jarbolom i trokutastim jedrima od kojih glavno jedro može biti pričvršćeno za sošnjak jedrilica s uzdužnim jedrima / snasti, *slup, jedrilica:*

For ultimate windward performance, nothing beats a deep-fin keeled sailing *sloop* with a tall, high aspect ratio Bermuda rig *(https://www.sailboat-cruising.com/sailing-sloop.html)* Very high aspect ratio sloop rigs like the one shown here are only really appropriate for racing sailboats, where windward performance is vital for success. *(https://www.sailboat-cruising.com/sailing-sloop.html)* *sloop-rigged sailboat*

**jedrilica s uzdužnim jedrima / snasti, *slup, jedrilica, fractionally rigged sailing ~ jedrilica s dijeljenom oputom, jedrilica sa sedmosminkom**
sloop-rigged sailboat (n) (boating/yachting) jedrlica s uzdužnim jedrima / snasti, slup: For ultimate windward performance, nothing beats a deep-fin keeled sailing sloop with a tall, high aspect ratio Bermuda rig

slop /slɒp/ (n) (cargo handling) A mixture of petroleum and water normally arising from tank washings. talog discharge the remaining ~s to the barge iskrcaj preostaloga taloga iz tanka u teglenicu

slop chest /slɒp/ (n) (shipping econ) = bonded store a ship's store of merchandise, such as clothing, tobacco, etc., maintained aboard merchant ships for sale to the crew

https://officerofthewatch.com/tools/maritime-dictionary/ sidil, zapećačeno skladište (na brodu), zapećačeno spremište

slope (n) (geogr) kosina, padina

slop tank (nav arch) a tank specifically designated for the collection of tank draining, tank washings and other oily mixtures taložni tank: The ship should compile and retain a report on the condition of the vessel’s tanks prior to loading, including a record of the ullages in slop tanks. Before tank washing operations begin, the volume of space available in the slop tank must be determined and a rough estimate made of the washing time necessary to fill that volume.

sloshing (n) (seamanship) prelijevanje vode / tekućine s jedne strane tanka (broda) u drugu: For this vessel sloshing will only be a problem when water ballast is filled into hold no. 3 while at sea.

sloshing loads (n) (nav arch) sile zapljuškivanja: Sloshing loads may be induced on the ship’s internal structure through the movement of the fluids in tanks/holds whilst slamming of the bottom shell structure forward may occur due to emergence of the fore end of the ship from the sea in heavy weather.

slot /slɒt/ (n) 1 The design and carrying capacity of container ships are based on TEU (Twenty-Foot Equivalent Unit) specifications which is 20 x 8 x 8.6 feet or 6 x 2.4 x 2.4 meters. That is the dimension of a single slot on board a container ship (https://shippingandfreightresource.com/ a (cargo) prorez, utor axial ~ uzdužni prorez, uzdužni utor, uzdužni presjek

slot (n) (cargo handling, nav arch) urez u palubi za hvatanje vezova za teret urez u palubi

slot (n) (boating/yachting) The opening between the jib and the mainsail. https://www.ypiyachts.com/ procjep (za strujanje zraka između floka i jedra): Wind passing through this slot
increases the pressure difference across the sides of the mainsail, helping to move the boat forward.

.slot charter (n) (mar law, shipping econ) chartering by a carrier of slots/spaces on other carrier's vessels ugovor o najmu/zakupu jednog ili više mjesta za kontejner na kontejnerskom brodu

.slot cost calculation (shipping econ) izračun troška slota

.slot position (n) (shipping econ, cargo handling) = slot¹ = cell position slot

.slot weld azola

Slow ahead! (seamanship, navig) Lagano naprijed!: Initially the engine was on slow ahead but at 0802 was reduced to dead slow ahead

Slow astern! (seamanship, navig) Lagano krmom!

slow down (v) (navig) usporiti, smanjiti brzinu: If you are on the overtaken vessel’s port side, you have no choice but to slow down or alter to port if required to do so by another vessel. When about 20 minutes from the first set of beacons, own vessel started to slow down, ...

Slow speed ahead / astern! (navig, comm) Polako naprijed / natrag!

.slow-speed diesel engine (n) (marine eng) sporohodni dizel motor

slow steaming (n) (shipping econ) a process of deliberately reducing the speed of cargo ships to cut down fuel consumption and carbon emissions plovidba smanjenom brzinom (radi ekonomičnosti), usporena plovidba: Slow steaming involves reducing the speed of the cargo ship from usual 20-24 knots to around 15 knots. The term slow steaming is used as a notion for vessels sailing below their design speed. A new report …maintains slower ship speeds would massively reduce the damage shipping is causing to human health, nature and the climate. https://splash247.com/

.sludge /slʌdʒ/ (n) (marine eng) A mixture of petroleum and water, usually semi-solid, frequently containing sand and scale. (www.euronav.com); Deposits inside the engine caused by dust, oil, and water being mixed together by the moving components. (http://www.marinediesel europe.com/) kal, fekalije, mulj, talog, blato, zaulljeni talog: Kverner of Norway provided the solid/oil waste incinerator unit, which has an approximate burning capacity for solid waste of 50 kg/hr for sludge oil. The evidence presented to the jury showed that the vessel discharged around ten metric tons of sludge into the ocean. ~ oil zaulljeni kal, ~ tanker tanker za prijevoz mulja i otpadaka kanalizacije, tanker za otpadnu vodu, ~ tank tank otpadnih voda

.sluggish (='slʌgij) (adj) move, turn or react much slower than normal or expected trom: Pilot
to the Master: "I want to see how the ship turns. If she is sluggish, we'll back in".

**sluice** /sluːs/ (n) (nav arch) An opening in the lower part of a bulkhead fitted with a sliding watertight gate or door having an operating rod extending to the upper deck or decks.

https://officerofthewatch.com/tools/maritime-dictionary/odvodni kanal: Sluices are useful in center line bulkheads, as in case of damage to one side of the ship the water may be quickly admitted to the other side before the ship is dangerously listed. https://officerofthewatch.com/tools/maritime-dictionary/

**small craft** (n) 1 (nav arch) A general term for any less than ship sized vessel; in a marine context, is any vessel or conveyance that floats on or operates on the water and is under 197 feet (60 meters) length overall (LOA). A small craft may be used for pleasure, commercial, or residential purposes. Small craft is synonymous with boat in marine use. Though the term craft applies to all vessels operating in a fluid medium, the term small craft is only used when applied to boats.

(http://www.westlawn.edu/student_center/definitions.asp) brodice, manji brodovi, barke;

2 (navy) **brodice**

**small end** (n) (marine eng) **ANTONYM** large end = top end gornji kraj ojnice

**small spider crab** (n) (fishing) bradavičasti račnjak mala rakovica

**small-spotted catshark** (n) (fishing) morska mačka bljedica

**smart bill of lading** (n) (logist, shipping econ, mar law) pametna teretnica: The traditional paper-based Bill of Lading is being replaced with a fast, safe, and reliable digital equivalent, namely the CargoX Smart B/L™ which is the industry’s first blockchain based smart bill of lading.

**smart container** (n) (cargo, logist) containers which are equipped with sensors designed to provide real-time tracking of its location and movements. pametni kontejner: Using this technology (smart containers), whether you are a shipping line, customer or security agency, you can track the progress of your containers anywhere in the world, plan your equipment and stock inventory which could possibly lead to reduced costs

https://shippingandfreightresource.com/first-shipping-line-with-100-smart-containers/ Everyone will operate much more effectively with smart containers: from the shippers themselves to ports, terminals, insurance companies, customs, and homeland security.

https://shippingandfreightresource.com/first-smart-container-innovation-lab-contopia-labs/

**smart port** (n) (ports, logist) A smart port is an automated port that uses nascent technologies such as big data, Internet of Things (IoT), blockchain solutions and other smart technology

(https://en.wikipedia.org › wiki › Smart_port) pametna luka, digitalizirana luka: The
smart port of tomorrow that wants to engage trade with China is going to need an integrated and seamless technology base that will allow movement of product and containers from vessel to port to land based transport. The aim of this model is to reduce the total cost of the supply chain through optimal asset utilisation, lower inventory costs through efficient cargo management and visibility of the entire value chain from manufacture to end user. https://splash247.com/what-constitutes-a-smart-port/

smart ship elektronički upravljан brod, "pametni" brod: China’s first "smart" ship embedded with a domestically-developed intelligent navigation system made its debut in Shanghai. The smart ship is installed with SOMS, a China-Developed marine system with autonomous learning ability and intelligent operation system. It can analyze real-time navigation and meteorological data, pick the best routes and alert the crew to hidden dangers in advance.

SMC (=search and rescue mission coordinator) (n) (safety) = Search and Rescue Mission Co-ordinator at Sea the joint rescue coordination centre (JRCC)/maritime rescue sub-centre (MRSC) as a whole acts as SMC.(Camser2014) koordinator aktivnosti potrage i spašavanja na moru: If a SAR case has the potential to become a major SAR operation, then the appointment of a specific SMC or a searchmaster (SM) is to be considered. Camser2014 appoint the ~ imenovati koordinatora aktivnosti potrage i spašavanja

SMCP; IMO Standard Marine Communication Phrases (n) (comm, safety, navig) IMO-ovi standardni pomorsko-komunikacijski izrazi, IMO-ov standardni pomorsko-komunikacijski rječnik

SMDG User Group for Shipping Lines and Container Terminals. skupina korisnika brodarskih linija i kontejnerskih terminala: SMDG develops and promotes UN/EDIFACT EDI messages for the maritime industry and is an official Pan European User Group recognised by the UN/EDIFACT Board.

smear /ˈsmiər/ cover with oil, grease, etc podmazati, zaštititi kontakte od korozije: A regular maintenance program consists of periodically checking mounting bolts and brackets, keeping wiring connections clean, tight and external wiring connections smeared with a thin coating of petroleum jelly.

SMNV; IMO Standard Marine Navigational Vocabulary, 1979 (n) (comm, safety, navig) COMPARE SMCP; IMO Standard Marine Communication Phrases IMO-ov standardni navigacijski pomorski rječnik

SMS Company the shipowner or any person, such as the manager or bareboat charterer, who has assumed responsibility for operating the ship. brodarsko društvo (u Pravilniku o upravljanju sigurnosti)
SMS; Safety Management System (n) (safety) a formal risk management framework to improve safety in the maritime industry sustav upravljanja sigurnošću (plovidbe, broda, kompanije) DPA - Designated Person Ashore zadužena osoba brodarskog društva (kompanije), DOC - Document of Compliance (issued to the Company) potvrda o usklađenosti (koja se izdaje kompaniji), SMC - Safety Management Certificate (issued to the ship) Potvrda o upravljanju sigurnošću (koja se izdaje brodu)
smuggling /ˈsmʌglɪŋ/ (n) (mar law) krijumčarenje, kontrabanda
snap (n) (fishing) A small device similar to a dog leash snap, tied to the line and used for attachment and quick release of hooks, rigs and lures. kopča (za udicu)
SNAP (v) (ship handling, seamanship) poknuti (uže, konop), prsnuti (uže, konop): Two sailors were injured after after a mooring line snapped. As a vessel was moving along the dock from one loading hatch to another, one of the vessel lines snapped in half and recoiled toward both the dock and the vessel ... when a mooring rope snapped, an officer, standing in a designated safe area, was struck by the rope and seriously injured.
https://gcaptain.com/safe-harbor-learning-from-mooring-accidents/?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+Gcaptain+%28gCaptain.com%29&goal=0_f50174ef03-9f2525655c-169984497&mc_cid=9f2525655c&mc_eid=dea04dcdf2
SNAP (v) (seamanship) naglo se vratiti (konop kada pukne), naglo odskočiti (privezno uže pri pucanju), odbiti se od, letjeti / šibati uokolo (o puknutom konopu), šibati okolo (puknuti konop): The first headline parted, snapped back and struck the seaman on the head. ~ zone opasna zona (na kaštelu, palubi, krmic) zbog letenja puknutog užeta: The diagram shows the potential area of danger (snap-back zone) when the spring line parts at the spring line fairlead. The snap-back zone would be increased if both pedestal fairleads were used.
https://safety4sea.com/the-continued-dangers-of-snap-back-zones/ It was highlighted that in contrast to previous guidance, it was no longer considered adequate to mark snap-back zones on the mooring deck around critical points such as the warping drum, roller fairleads and the pedestal rollers only.
https://safety4sea.com/the-continued-dangers-of-snap-back-zones/ "Skuld would once again like to highlight to its members the potential complex nature of a parting line’s snap-back zone and the need to
treat the whole mooring deck as a hazardous area.

**snap-hook** (snap hook) (n) (boating/yachting) brzootpusna kuka,

**brzootpusna kopča:** Sailors are cautioned not to use non-locking snap-hooks because they can self self-detach when a side-load put inward pressure on the gate.

https://www.practical-sailor.com/blog/Check-Your-Safety-Tethers-12344-1.html He explains that the failure was at the tether clip—the snap hook that attaches the safety tether to the boat.

https://www.practical-sailor.com/blog/Check-Your-Safety-Tethers-12344-1.html

**snap-on connector** (n) (marine eng) naskočna spojnica, uskočna spojnica:

Replace the snap on connectors on the hydraulic jacks with angular snap-on connectors. MAN video:

Dismantling the main bearings

**snap ring** (n) (marine eng) prstenasti uskočnik

**snap shackle** (n) 1 (boating/yachting) kopča za prednje jedro, karabin,
The reason why the safety shackle clip failed is under investigation.

A snatch block is a single sheaved block with a hinged strap that can be opened and the bight of a rope inserted, making it unnecessary to reeve the end of the rope through the block.

The Snellius–Pothenot problem determining the position of an unknown accessible point $P$ by its bearings from three inaccessible known points $A$, $B$, and $C$. Pothenotov problem, određivanje pozicije broda mjerenjem dvaju horizontalnih kutova istodobno.

In general, many cruisers prefer the freedom of snorkeling to scuba diving.

Snotters or canvas slings are suitable for bagged cargo.

(http://www.history.navy.mil/) *limena zahrpa*

**soft skills** *(n)* (safety) Non-technical skills, the so-called “soft skills”, such as the ability to manage yourself and others, work under pressure, demonstrate resilience in response to adversity are becoming more and more important in shipping industry.(https://safety4sea.com/cm-thoughts-on-future-crew-manning-challenges); ship officers’s skills such as communication, teamwork and digital skills *natehničke vještine (časnika, pomoraca), sociopsihološke i upravljačke vještine (časnika, pomoraca): “I do encourage our industry to focus more on soft skills, soft skills such as situational awareness, decision-making, communication, teamwork, leadership, personal resource, managing stress, and coping with fatigue “*, (https://safety4sea.com/) - Capt. Albert E. Bartilad during the first SAFETY4SEA Forum in Manila

**soft wood** *(n)* (cargo) meko drvo, mekana građa

**SOG (≈speed over ground)** *(n)* (navig) brzina preko dna: The vessel was proceeding against the ebb current at between 8 kts speed over ground and 9.5 to 10 kts speed through water A quick check of the GPS gave an astern SOG (speed over ground) of around one knot, so the chain was running out at rate of one shackle per minute. The cargo ship was on an autopilot heading of 135° and proceeding at a speed over the ground (SOG) of 6.5 knots. The ship’s speed over the ground (SOG) was 10.3 knots (kts).

**solar panel** *(n)* (electr) *solarna ploča:* The patented EnergySail can be fitted with marine-grade solar panels and therefore it is capable of providing ships with a zero emissions source of supplementary propulsive power and electrical power. https://www.marineinsight.com/ flexible ~ savitljiva

**solar power** *(n)* (electr) sunčeva energija, solarna energija
**SOLAS** (International Convention for the safety of Life at Sea)  
(Maritime law) Međunarodna konvencija o zaštiti ljudskih života na moru

**solder** /ˈsəldər/ (marine eng, electr) lem; 2 lemilica
**soldering** /ˈsəldərɪŋ/ (marine eng) lemljenje
**soldering paste** (marine eng) A paste which insures a clean solder bond.

(http://www.marinedieseleurope.com/) pasta za lemljenje

**sole** /səʊl/ (fishing) list, švoja, soja common ~ list

**sole** (boating/yachting) the floor on a boat pod (jedrilice / brodice)

**sole fish** /səʊl/ (=black sole; Dover sole; sole) (fishing) Lat. *Solea solea; Solea vulgaris* list, švoj, švoja, soja, Italian. *sogliola*

**solenoid** /səˈlɔɪn/ (electr) An electrically magnetic device used to do work. Schematically, an electromagnet with one or two coil windings wound around an iron tube that also serves as the bushing of the movable iron core.  
(http://www.marinedieseleurope.com/) solenoid, elektromagnet sa svitkom

**Solent stay** (boating/yachting) nutarnje leto, nutarni štraj removable ~ skidljivo nutarnje leto
solid bulk cargoes

sole piece  /ˈsoʊl/  (n)  1 (nav arch) petcha; 2 (nav arch) peta statve

solicitation  /səˈlisɪteɪʃən/  (n) (mar law) solicitation means any request or appeal, either oral or written, or any endeavor to obtain, seek or plead for funds, property, financial assistance or other thing of value, including the promise or grant of any money or property of any kind or value. (https://definitions.uslegal.com/s/solicitation/); Act or instance of requesting or seeking bid, business, or information. Unlike an offer, a solicitation is not a clear indication of the intention to enter into a binding agreement. (http://www.businessdictionary.com/definition/solicitation.html)

prikupljanje (ponuda, novca), traženje (ponuda), zahtjev (za slanje ponuda): the Port Authority rejected all offers received in response to a procurement solicitation. Port of Houston Authority - Procurement Manual All inquiries regarding the solicitation are to be directed to the Director of Procurement. Any vendor who violates any Port Authority ethical standards is subject to debarment and is subject to disqualification from future procurement solicitations Port of Houston Authority - Procurement Manual ~ for Formal Procurement bids/proposals pribavljanje formalnih ponuda za nabavu

solid  (n)  1 a i tvrdo tijelo; 2 kruta tvar

solid  (adj)  1 a krut, čvrst; 2 cjelovit, iz jednog komada ~ forged iskovan od jednog dijela

solid bulk cargoes  (n) (cargo) kruti rasuti tereti: The prime hazards associated with the shipment of solid bulk cargoes are those relating to structural damage due to improper cargo distribution, loss or reduction of stability during a voyage and chemical reactions of cargoes. http://www.imo.org/en/OurWork/Safety/Cargoes/CargoesInBulk/Pages/default.aspx risks of carrying ~ rizici pri prijevozu krutih rasutih tereta: Carrying solid bulk cargoes involves serious risks, which must be managed carefully to safeguard the crew and the ship. These risks include reduced ship stability, and even capsizing, due to cargo liquefaction; fire or explosion due to chemical hazards; and
damage to ship structures due to poor loading procedures.

**solid fuel** *(marine eng)* kruto gorivo

**solid waste** *(marine eng)* kruti otpad (iz brodske kanalizacije)

**solvent** /ˈsɔlvənt/ *(marine eng)* otapalo, rastvarač: An important function of the cleaning agent is to be a good solvent for the gypsum in the sludge. It should also act as a dispersant and emulsifier

**sonar** (*=S*ound *N*avigation *A*nd *R*anging) *(navig)* a sound-based device used to detect and range underwater targets and obstacles ultrazvučni navigacijski uređaj,

**soot** /sʊt/ *(marine eng)* čađa, gar

**SOPEP** (*=Ship Oil Pollution Emergency Plan*) *(environ)* = Ship Oil Pollution Emergency Plan ... as per the MARPOL 73/78 requirement under Annex I, all ships with 400 GT and above must carry an oil prevention plan as per the norms and guidelines laid down by International Maritime Organization under MEPC (Marine Environmental Protection Committee) act.

**Brodski plan u slučaju opasnosti od onečišćenja uljem, Brodski interventni plan u slučaju opasnosti od onečišćenja uljem:** Master of the ship is the overall in charge of the SOPEP, along with the chief officer as subordinate in charge for implementation of SOPEP on board. In order to avoid oil pollution and crew loss, SOPEP/SMPEP procedures are to be followed (https://safety4sea.com/) If oil spill to sea dock immediately alert P&I local representative & address to SOPEP. www.sqemarine.com/shipmanuals

**S.O.S.** /ˈes əʊ əs/ (*=SOS*) *(safety)* a Morse code distress signal, used internationally, that was originally established for maritime use (https://en.wikipedia.org/wiki/SOS) poziv u pomoć,

**SOS**

**SOTDMA; (Self Organizing Time Division Multiple Access)** *(navig)* samoorganizirajući vremenski podijeljen višestruki pristup (u sustavu AIS)

**sound** *(adj)* in ~ condition u dobrom stanju, u zdravom stanju: Containers stowed in forward holds 1-3 have been declared a total loss after fire and water damage, but boxes in the aft of the ship, in holds and on deck, are assumed to be in a sound condition. *(cargo)* ispravan, zdrav (teret)

**sound** *(v)* 1 dati zvučni signal: Sound alarm, including three prolonged blasts on ship’s whistle. ~ a fire alarm dati zvučni alarm za požar, zazvoniti na ubzunu: a fire alarm ~ed on the fire control panel in the bridge požarni alarm zazvonio je na kontrolnoj ploči za požar na mostu when the lub oil low pressure alarm sounded they decided to stop the engine kad se oglosio alarm za preniski tlak ulja odlučili su zaustaviti stroj, the alarm ~ed uključio se alarm, ~ a blast: A power driven vessel underway but stopped and making no way through the water shall sound at intervals of no more than 2 minutes two prolonged blasts in succession with an interval of about 2 seconds between them. dati znak brodskom sirenom; 2 to measure the depth of the water mjeriti dubinu mora: The master checked the tidal information and saw that low water was at 0130. Meanwhile, the chief officer sounded around the vessel with a lead line.

**sound** *(n)* 1 *(geogr)* ocean or sea channel between two bodies of land; a body of water between the mainland and a large coastal island prolaz (između kopna i otoka), tjesnac; 2 *(geogr)* a large sea or ocean inlet larger than a bay, deeper than a bight, and wider than a fjord; or a narrow sea
sound

sound (v) (seamanship) izmjeriti dubinu (mora, tanka), Italian: scandagliare:
All the ship’s tanks / compartments were sounded and monitored for any ingress of water or possibility of pollution. The chief officer sounded around the vessel with a lead line.

sounding /saʊndɪŋ/ (n) 1 (cargo) Measuring the depth of liquid contents in a tank mjerenje količine tekućine u tanku, mjerenje tanka: Soundings of the fore peak indicated no ingress of water. Apart from the BDN, the PSC will check the soundings of the tanks where the low sulphur fuel is kept or where the HSFO is kept for ships with exhaust gas scrubber marineinsight.com. Apart from the BDN, the PSC will check the soundings of the tanks where the low sulphur fuel is kept or where the HSFO is kept for ships with exhaust gas scrubber. www.marineinsight.com take the bilge ~s izmjeriti kaljuže, ~ logbook dnevnik mjerenja kaljuža: The sounding log books need to be updated regularly and signed by the chief engineer and the officer taking the soundings.

www.marineinsight.com, check the ~s of tanks provjeriti mjerenje tekućine u tankovima: Apart from the BDN, the PSC will check the soundings of the tanks where the low sulphur fuel is kept or where the HSFO is kept for ships with exhaust gas scrubber. www.marineinsight.com The 3rd Engineer was on deck taking manual soundings of the fuel tanks with a sounding tape. https://safety4sea.com; 2 (navig) mjerenje dubine mora, snimanje dubine mora ~ interval interval snimanja dubine, očitati dubinu, give the ~ očitati dubinu mora: Keep giving us soundings, every 10 seconds.
sounding machine mehanički dubinomjer
sounding pipe (=sounding tube) (n) (nav arch, cargo handling) a vertical pipe in an oil or water tank, used to guide a sounding device when measuring the depth of liquid in the tank cijev za sondiranje, sonda za mjerenje kaljuže, mjerna cijev: Ensure all sounding pipe of fuel tanks have a lid and are marked. www.marineinsight.com

http://www.free-marine.com/i3bunkering.htm
sounding records (n) (nav arch, stabil) zapis mjerenja kaljuža, zapis sondiranja, podaci o sondiranju
sounding weight (n) (boating/yachting, seamanship) utežni dubinomjer, dubinomjer s utegom, škandaj (tal. scandaglio)
sound-insulated (adj) (marine eng) zvučno izoliran
soundness (n) (nav arch) čvrstoća, konstrukcijska čvrstoća
soundpowered telephone (n) (comm) bezbaterijski telefon
sound signal (n) (navig, comm) a device which transmits sound, intended to provide information to mariners during periods of restricted visibility and foul weather zvučni signal: Use sound
sound signals as necessary. sound the ~: At the same time the appropriate sound signal under Rule 34 (d) was sounded on the whistle (air horn) to convey doubt as to other vessel’s intentions and illegal manoeuvre.
dati zvučni signal, make a ~ dati zvučni signal: No sound signal was made and the second officer did not look over the starboard quarter to make sure that there were no vessels in close proximity.
sound signals (n) (navig, comm) zvučni signali: There are only three types of sound-signal equipment mentioned in the Rules - whistle, bell, and gong, with the latter only required on vessels 100 meters or more in length. The whistle and gong are used by larger vessels when anchored in poor visibility in addition to the normal sound signals. Sound signals of a vessel not under command in restricted visibility zvučni signali broda nesposobnoga za plovdbu u slučaju ograničene vidljivosti: In accordance with Rule 35 (c) (Sound signals in restricted visibility), a vessel not under command shall, instead of the signals prescribed in Rule 35 (a) or (b) (Sound signals in restricted visibility), sound at intervals of not more that 2 minutes three blasts in succession, namely one prolonged followed by two short blasts.
sound the alarm (v) (safety) uključiti zvučni alarm, uključiti zvučnu uzbunu: The second officer sounded the general alarm and the crew mustered on the bridge.
southbound / sauθˈ baʊnd/ (adj) (navig) južni, u smjeru juga, koji se kreće prema jugu ~ convoy konvoj u smjeru juga, južni konvoj southeasterly / sau i stɛli/ (n) (meteorol) jugoistočnjak, jugo south-east trades (n) (meteorol) jagoistočni pasati south-east wind (n) (meteorol) jagoistočni vjetar, jagoistočnjak, jugo southerly / səʊθli/ južni vjetar
SOx sumporni oksidi: The smoke containing sulphur oxides emitted by the combustion of marine fuel will further oxidise and in presence of catalyst like NO2, will form sulphuric acid which is a major cause of acid rain.
https://www.marineinsight.com/maritime-law/what-is-sulphur-oxides-or-sox-air-pollution-from-ships/
SOx emissions can cause premature mortality, heart attack, lung disease, asthma and other respiratory symptoms. https://yaramarine.com/sx-cleaning-technology/what-is-sox/
SOx scrubber (n) (marine eng) The scrubber system is designed to remove SOx from the exhaust and operates utilising seawater.
(https://www.wartsila.com/products/marine-oil-gas/exhaust-gas-cleaning/sox-abatement/wartsila-one-loop-scrubber-system) pročistač sumpornog oksida, uređaj za pranje plina (od sumpornog oksida, krutih čestica i tekućina): The only alternative for meeting the maximum sulphur content of 0.5% with the HFO currently available is to clean the engine exhaust gases of sulphur oxides using an SOx scrubber.
www.motorship.com/_data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf Many ship owners have already opted for SOx scrubbers in their newbuildings, because the additional price for low sulphur fuel oils has, at least historically, been considerably higher than for conventional fuel.
www.motorship.com/_data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf The use of SOx scrubbers may look like the “easy alternative”, but when the actual consequences of higher hotel loads, additional costs for chemicals (NaOH) when operating in closed loop mode, and sludge disposal are considered, it is not that easy.
space /speis/ (n) 1 razmak, udaljenost; 2 (marine eng) prostor wasted ~ (shipping econ) izgubljeni / neiskorišteni brodski prostor, annuar water ~ prstenasti vodeni prostor, rashladni prostor u obliku prstena, bunker ~ prostor za
The space charter agreement will commence in March 2020. As a member of THE Alliance, Hapag-Lloyd already offers many services on the route. However, to strengthen it even further, Hapag-Lloyd has signed a space charter agreement with Maersk and MSC that will give it access to selected services of 2M.

Spacer pontoons were placed alongside Berth 15 to keep deep-draught vessels a distance of 2 metres from the quay.

Spanish burton (n) (cargo handling) any of several tackles employing a runner in addition to the fall Španjolski čekrk
Spanish mackerel (n) 1 a plavica; 2 lokarda
spanker /ˈspæŋkə/ (n) (boating/yachting) 1 On a square rigged ship, the spanker is a gaff rigged fore-and-aft sail set from and aft of the aftmost mast. stražnje sošno jedro (na jedrenjaku); 2 (boating/yachting) spenker (na regatnoj jedrilici)

spanner /ˈspænə/ (n) (UK) 1 (marine eng) A form of open-head wrench. ključ za vijke ratchet combination ~ zaustavni okrugli ključ, zaustavni okasti ključ, ring ~ okrugli ključ, okasti ključ, adjustable ~ namjestivi ključ, podesivi ključ, francuz, open ended ~ viličasti ključ, otvoreni ključ

ključ za spajanje vatrogasnih cijevi
**spanner wrench** /ˈspænər/ (n) (marine eng) COMPARE spanner COMPARE

**wrench** ključ za vijke

**span tackle** (n) (cargo handling) podigač kraka samarice

**spar** /spaːr/ (n) 1 (boating/yachting, nav arch) A term applied to a pole serving as a mast, boom, gaff, yard, bowsprit, etc. Spars are made of both steel and wood. (https://www.history.navy.mil/); any pole that supports a sail jarboli, deblenjaci, križevi itd., Italian: *alberatura*; 2 (nav arch)

**križ** (jarbola)

`; 3 (navig) morska oznaka u obliku štapa ili motke motka, štap

**spar buoy** (n) (navig) a buoy shaped like spar plutača na stupu

**spar ceiling** (n) 1 (nav arch) removable strips of timbers or battens fixed to the frames in the cargo hold to keep cargo away from the ship's sides

(http://min.sg/dictionary/maritime-dictionary.asp?term=spar+ceiling) podnice, pajoli, obloga
DNA skladišta: Before commencing to load scrap iron, the lower strakes of spar ceiling should be well protected from damage by covering with dunnage boards.

Spar ceiling, cargo battens & side battens

https://knowledgeofsea.com/preparation-of-cargo-spaces/; 2 bokoštitnice (u brodskom skladištu); 3 = cargo battens letve skladišta

Spare anchor (n) (nav arch) pričuvno / rezervno sidro
shttps://shipsnmoreships.smugmug.com/keyword/Anchor; spare
Spare part (n) (marine eng) SYNONYM spares pričuvni dio, rezervni dio
Spares /speə/ (n) (marine eng) pričuvni dijelovi, rezervni dijelovi essential ~ osnovni pričuvni dijelovi
Spark /spa:k/ (n) (electr) iskra, varnica ~ ignition system sustav paljenja iskrom
Spark arrester (n) (marine eng) A device which prevents exhaust gases from igniting any flammable materials that are near the engine. (http://www.marinediesel.eu/) iskrolovka, hvatač iskri
Sparking plug (n) (marine eng) svjećica za paljenje smjese u benzinskom motoru svjećica, Italian: candela
sparks (n) (seamanship, figurative) the radio operator radiotelegrafist
spar sail (n) (boating/yachting) križno jedro
spar-shaped mark rešetkasta oznaka
spawning /ˈspɔːnɪŋ/ (n) 1 (fishing) Reproductive activity of fish; the act of releasing eggs into the water by female fish for fertilization by male fish mrijesta nj; 2 (fishing) mrijestilište
SPB (safe berth, port) (shipping econ) siguran vez i luka
speaker (n) (comm) zvučnik
speaking tube doglasna cijev, potravoče
speargun /ˈspiːɡən/ (n) (fishing) podvodna puška
special cargo (n) (cargo) poseban teret, specijalni teret: Special cargoes include Out of Gauge cargo, In Gauge and Break Bulk cargo
special compensation (n) (mar law, mar ins) posebna naknada (za spašavanje)
special craft (n) (nav arch) specijalni brod
special drawing rights (SDR) (n) (mar law, shipping econ) posebna prava vučenja
special inspection (nav arch) = occasional inspection izvanredni pregled broda
special marks (n) COMPARE lateral marks, cardinal marks, isolated danger mark, safe water mark (navig) posebne oznake
special rate (n) (shipping econ) freight rate established for a specified commodity for a specific period of time posebna vozaina, specijalna tarifa
special survey (n) The survey requirement of a classification society that usually takes place every four years. At the special survey vital pieces of equipment are opened up and inspected by the classification surveyor. (www.euronav.com) specijalni pregled (broda)
specifications (n) (marine eng) opis, specifikacija technical ~ tehnički opis
specify (v) (mar law) = stipulate odrediti (ugovorom, propisom)
specimen (n) 1 uzorak; 2 epruveta
spectacle frame (n) (nav arch) A single casting containing the bearings for and furnishing support for the ends of the propeller shafts in a twin screw vessel. (https://www.history.navy.mil/) dvojno rebro
spectral efficiency (n) (navig) iskoristivost spektra
speed (n) brzina: The vessel’s maximum speed was 23kts. great ~ velika brzina, high ~ velika brzina, increased ~ povećana brzina, low ~ mala brzina, reduced ~ smanjena brzina, safe ~ sigurna brzina, at high / low ~ velikom / malom brzinom, ~ control (marine eng) upravljanje brzinom, upravljač brzine, kontrola brzine, ~ droop variranje brzine, opadanje brzine, ~ range 1 broj okretaja; 2 raspon snage, ~ sensing mjerenje brzine, praćenje brzine, ~ setting namještanje brzine, firing ~ brzina potrebna za paljenje, rated ~ nazivna brzina, running ~ radna brzina, eksploatacijska brzina, brzina
Today, sea navigators measure their ship's speed using modern GPS (Global Positioning System) driven device. The vessel was proceeding at an excessive speed (in excess of that allowed by local regulations), which reduced the amount of time available for the bridge to take avoiding action. https://gCaptain.com

Three men left harbour on a winter’s morning in a small speedboat to go angling and to recover some long-line fishing gear they had laid the day before. <source>MAIB_SafetyDigest_2-2015</source> We rented a speedboat with skipper.

The speed log measures speed based on the Doppler phenomenon and acoustic wave propagation (https://safety4sea.com/) Other modern navigating aids on board are various types of radars, RDF, speed logs, depth finders, chronometers, compasses and electronic charts. The Nautical Institute survey showed that only 35 per cent of VLCCs are fitted with bottom lock doppler speed logs. Other equipment is to be tested and made ready for going to sea: the engine-room telegraph, the speed log, the ship’s whistle, the steering gear and the winches, for instance. Speed log measures the speed through water. (https://safety4sea.com/)
speed made good

speed of advance (=SOA) brzina približavanja objektu (luci, obali, vezu, plovidbenom kanalu itd.), brzina kretanja broda: After adjusting the track as necessary to pass well clear of any hazard, choose a speed of advance (SOA) that ensures the ship will arrive on time at its destination or at any required point. We knew our arrival time, and **w**ere **a**djusting our SOA up the Chesapeake Bay to arrive right on time. https://gCaptain.com;

speed of approach (n) (navig, safety, mar law) brzina približavanja (brodova u situaciji opasnih blizina): if the combined speed of approach is 40 knots, you’ve just allowed yourself only 3 minutes to get out of the way of the other vessel (www.safety4sea.com)

speed of current (oceanogr) = drift brzina struje

speed over ground (SOG) (navig) = speed made good brzina preko dna: GPS based on satellite triangulation defines the SOG. (https://safety4sea.com/)

speed range (marine eng) raspon brzine

speed reduction (marine eng, nav arch) smanjenje brzine: It is desirable to have an automatic alarm system in place that will tell us when time for hull cleaning. A 6% reduction of speed is equivalent to 18% increasing of fuel bills or 18% in pollution. (https://safety4sea.com/)

speed through the water (=STW) (navig) the speed that the engine develops and it is linked to the fuel consumption (https://safety4sea.com/) brzina kroz vodu

speed trials (nav arch) = trial trip pokusna vožnja

speel plates and profiles (nav arch) čelični limovi i profili

sphere (n) kugla, sfera
sphere buoy (n) (navig) okrugla plutača, plutača u obliku kugle
spherical trigonometry (n) (navig) sferna trigonometrija
spider crab (n) (navig) Lat. *Maja squinado* rakovica
spider hoop (n) (fishing) klinarica jarbola
spidering (n) (logist, cargo handling) the strengthening of circular tanks for transport, this prevents the tanks from becoming warped. The tanks are strengthened with steel of wood crossbeams giving a spider appearance. [https://www.logisticsglossary.com/term/spidering/](https://www.logisticsglossary.com/term/spidering/)

spill /spai/ (n) (nav arch, sailing vessels) A stout metal pin headed on one end and pointed at the other, made of either square or round bar, and used for securing heavy planks and timbers together.

spike /spaik/ (n) (nav arch, sailing vessels) A stout metal pin headed on one end and pointed at the other, made of either square or round bar, and used for securing heavy planks and timbers together.

spill 1 (n) (safety, cargo) Oil getting into the sea in any amount for any reason. izljev (nafte, ulja), curenje: An accidental spill occurred during routine fuel transfer operations. clean up the ~ počistiti iscurenu naftu, počistiti naftnu mrlju: Crews continue to clean HFO spill at the Port of ...., size of the ~ obim izljeva: The size of the spill is not yet clear., ~ response reakcija na izljev (nafte): Equinor has secured vessels and equipment for oil spill response in Port Fourchon, Louisiana, and from various ports across southeast Florida. [https://splash247.com](https://splash247.com)

spill 2 (v) (safety, environ) curiti, iscuriti, proliti se: An unknown quantity of bunker fuel was spilled at the port during bunkering operations on the ship at berth About 9,000 gallons of gasoline spilled into the Houston Ship Channel near Bayport, Texas, following a collision on Friday [https://gCaptain.com](https://gCaptain.com)

spillage (n) (safety, cargo) izljev (nafte, ulja), onečišćenje, prosipanje, curenje ~ during loading/discharging curenje (prosipanje) tereta za vrijeme ukrcaja/iskrcaja

spill control gear (n) (safety) oprema za kontrolu izljeva

spilled (adj) (cargo, environ) iscuren, koji je iscurio, prosut oil / fuel ~ iscurena nafta, iscuren gorivo: There still have been no signs of oil or fuel spilled since the ship ran aground Monday morning.

spinning (n) (fishing) spin

spindle /ˈspindəl/ (n) (marine eng) A spindle is a narrow shaft that is used for rotating parts that rotate around the spindle itself vreteno actuator ~ motka / vreteno servoklipa, control ~ upravljačko vreteno, razvodna motka

spinnaker (n) (boating/yachting) špinaker, spinaker ~ pole tangun špinakera  
[http://www.sailberkeley.com/student-tips/spinnaker](http://www.sailberkeley.com/student-tips/spinnaker), hoist the ~ podići špinaker, lower the ~ spustiti špinaker, ripped ~ rasparan špinaker, asymmetric ~ asimetrični špinaker
spinnaker bag

spinnaker chute

https://en.wikipedia.org/wiki/Spinnaker

spinnaker bag (n) (boating/yachting) vreća za špinaker

spinnaker boom (n) (boating/yachting) deblenjak spinakera, tangun špinakera

spinnaker chute (n) (boating/yachting) jama za špinaker, cijev za špinaker
pack the spinnaker in the ~ slagati špinaker u cijev
spinnaker guy (n) (boating/yachting) privjetrinska uzda spinakera
spinnaker pole (n) (boating/yachting) = whisker pole = whisker pole deblenjak

špinakera, tangun; Italian: tangone
spinnaker pouch (n) (boating/yachting) torba za špinaker, spremnik za

špinaker, vreća za špinaker
http://wyckam.com/product/companionway-spinnaker-bag/
spinnaker sheet (n) (boating/yachting) uzda pričvršćena za zavjetrinski rogalj spinakera
zavjetrinska uzda špinakera
spinning (n) (fishing) varaličarenje shore ~ varaličarenje s obale
spinning lure (n) (fishing) teturavac, varalica teturavac
spinning reel (n) (fishing) COMPARE fishing reel a fishing reel having a stationary spool mounted parallel to the rod and a revolving metal arm that winds the line onto the spool and disengages during casting. (http://www.thefreedictionary.com/spinning+reel) rola ribarskog štapa (za dizanje i izbacivanje najlonske niti na ribarskom štapu), bubanj ribarskog štapa (za dizanje i izbacivanje najlonske niti na
ribarskom štapu) two-speed ~ dvobrzinska rola
https://en.wikipedia.org/wiki/Fishing_reel
spiny cockle (n) (fishing) čančica
spiny dogfish (n) (fishing) kostelj
spiny lobster (n) (fishing) jastog
spirits (n) žestoka pića
spit (n) (geogr) rat, prirodni šljunčani nasip
spitfire (n) (boating/yachting) oljni flok
splash about (v) 1 (marine eng) zapljuskivati; 2 poprskati
splashboard (n) (boating/yachting) A raised portion of the hull forward of the cockpit intended to prevent water entering. https://www.ypiyachts.com/ valobran (na palubi jedrilice/brodice)
splice /splais/ (v) (safety) A method of uniting the ends of two ropes by first unlayering the strands, then interweaving them so as to form a continuous rope. (https://www.history.navy.mil/) plesti (konop, uže) short ~ kratka upletka
splice /splais/ (n) (seamanship) upletka, pjumbadura; Italian: impiombatura
eye-~ upletka s okom, horse-shoe ~ potkovasta upletka, cut-~ dvopletka
splicing (n) (seamanship) A method of uniting the ends of two ropes by first unlaying the strands, then interweaving them so as to form a continuous rope.
https://officerofthewatch.com/tools/maritime-dictionary/ pletenje konopa, pletenje užadi, pjumbanje
split (n) izrez, iscijep, rascijep
split (v) raskoliti, razdvojiti, odcijepiti ~ in two prelomiti se u dva dijela (o brodu): An inland tanker had split in two in rough weather. GCaptain https://gCaptain.com
split (adj) razdvojen, razrezan, raskoljen ~ pin (marine eng) rascijepka, ~ big end koso podijeljen donji kraj (ojnice)
spoilage /ˈspɔːlɪdʒ/ (n) (cargo handling) kvarenje tereta
spoiler /ˈspɔɪlər/ (n) (boating/yachting) produžetak ili spušteni dio krme jedrilice koji služi za silaženje u

more spojler

spoil ground (n) (navig) muljevito dno, nevidljivo dno: Note the approximate position of this spoil ground as lat 22° 23.24N, long 114° 42.21E.
spoke /spouk/ (n) (nav arch) a radial projection from the rim of a wheel, as in a ship’s wheel ručica kormilarskog kola, paok kormilarskog kola king-- The upper spoke of a steering wheel when the rudder is amidships, usually marked in some fashion (top spoke of neutral steering wheel). gornja ručica kormilarskog kola
sponson /ˈspɔnən/ (n) (nav arch) galerija
spontaneous combustion /spɒnˈteɪnɪəs kəmˈbaʃfən/ (n) (cargo, marine eng)
samozapaljenje
spool /spʊl/ (n) (fishing) kalem (ribarskog najlona), špula (ribarskog najlona)
spool /spʊl/ (n) (electr) svitak, kalem, špula
spool valve A hydraulic directional control valve in which the direction of the fluid is controlled by means of a grooved cylindrical shaft (spool). (http://www.marinediesel europe.com/) klipni ventil
sport cruiser (n) (boating/yachting) regatni krstaš, natjecateljski krstaš
spot (n) 1 mjesto; 2 točka, mrlja, pjega
spot charter (n) (mar law) = voyage charterparty A charter for a particular vessel to move a single cargo between specified loading port(s) and discharge port(s) in the immediate future. (www.euronav.com) kratkoročni najam broda
spot commission (n) (shipping econ, mar law) broker commission negotiated and invoiced within the same business year provizija za posredovanje u sklapanju ugovora o kratkoročnom (jednogodišnjem) najmu brodova, trenutna provizija, promptna provizija
spot freight rate The spot freight rate is the freight rate a vessel receives on a USD per tonne of cargo basis (https://brage. bibsys.no) trenutna vozarina, promptna vozarina: For tankers, spot freight rates are reported in Worldscale.
spot hire (n) (shipping econ) kratkoročni najam broda: But, analysis of spot hires (on a timecharter basis, which is net of fuel and port costs) by MSI shows that Capesize vessels (typically 180,000 dwt) were earning $14.5 k/day and $11.5K/day in January 2018 and February 2018 respectively. https://www.maritime professional.com/news/bulk-shipping-economics-317750
spot market (n) 1 (shipping econ) ANTONYM futures market The market for the immediate chartering of a vessel, usually for single voyages. Short term contracts for voyage, trip or short term time charters, normally no longer than three months in duration. (http://www.clarksons.com/glossary/) tržište kratkoročnih ugovora o najmu brodova, ugovori o kratkoročnom najmu brodova, tržište ugovora o neposrednom, trenutnom najmu brodova, spot tržište: The tanker operator forecasts the tanker spot market to improve from the current levels, but to remain well below the levels seen at the start of the year.; 2 (financ) The spot is a market for financial instruments such as commodities and securities which are traded immediately or on the spot. In spot markets, spot trades are made with spot prices. (http://www.investopedia.com/terms/s/spotmarket.asp?); The spot market is also referred to as the “physical market” or the “cash market” because of the instant and immediate pace and movement of orders made as orders are made at current market prices. Market prices are unlike forward prices, which cover prices at a later date. tržište robama i vrijednosnicama po tekućim cijenama i uvjetima na licu mjesta, gotovinsko tržište: Unlike the futures market, orders made in the spot market are settled instantly. Spot markets can be organized markets or exchanges or over-the-counter (OTC) markets. In
some cases, crude oil, for example, futures market goods are sold at spot prices. However, the physical delivery of the goods happens on a later date. The spot market is also referred to as the “physical market” or the “cash market” because of the instant and immediate pace and movement of orders made as orders are made at current market prices.

**spot prices** *(n)* 1 *(shipping econ)* tekuće cijene na tržištu tereta i vozara; 2 The current price of a financial instrument is called the spot price. It is the price which a particular instrument can be sold or bought during a particular time and specified place.

trekumu cijene na tržištu tereta i vrijednosnica, cijene na licu mjesta, trenutne cijene: In some cases, crude oil, for example, goods are sold at spot prices. However, the physical delivery of the goods happens on a later date.

**spot rates** *(n)* *(shipping econ, mar law)* Contract rate (spot rate) covers total operating expenses such as port charges, bunkering, crew expenses, insurance, repairs, and canal tolls. The charterer will generally pay all cargo-related costs. (www.euronav.com) vozarinski stavovi za kratkoročni najam brodova, najamnina za kratkoročni najam broda, vozarine ugovorene na licu mjesta po tekućim cijenama i uvjetima, trenutni vozarinski stavovi, promptni vozarinski stavovi: To maximize profit (minimize costs), ship owners must adjust speed in response to bunker prices and spot rates. On Friday, The Loadstar reported that container spot rates from Asia to the US had been plummeting, with the Shanghai Containerised Freight Index (SCFI) recording a 10% drop for the US west coast and 7% for east coast ports. http://gCaptain.com

**spot trade** *(n)* *(shipping econ)* a spot trade is the purchase of financial instruments done on the spot or immediately (http://www.investopedia.com/terms) burza financijskih instrumenata (vrijednosnica, teretnica itd.); 2 *(financ, shipping econ)* trgovanje financijskim instrumentima (vrijednosnicama, teretnicama, ...

**sprains, strains, dislocations, fractures** *(n)* *(safety)* uganuća, istegnuća, iščašenja, lomovi

**sprat** /ˈspreat/ *(n)* papalina, saraga

**sprats** /ˈspreɪts/ *(n)* *(fishing)* a genus of small oily fish of the family Clupeidae sleđice, papalina

**spray** /ˈspreɪ/ *(n)* *(marine eng)* raspršeni mlaz, sprej divide up into ~ raspršiti, fine ~ sitna prašina, ~ nozzle mlaznica raspršivača, ~ deflector raspršivač, adjustable ~ nozzle podesiva mlaznica, automatic ~ sysetm *(safety)* automatski sustav gašenja požara raspršivanjem

**spray hood** /ˈspreɪ,huːd/ *(=sprayhood)* *(boating/yachting)* vjetrobran (na kabini brodice, jedrilice), zaštitna cerada (nad ulazom u kabinu

**jedrilice/krstaša), sprayhood**
spraying (n) (seamanship) špricanje (mora)
spray out (v) raspršiti
spread (v) 1 širiti se, razviti (se); 2 proširiti se (o vatri, požaru): The fire spread from the engine room to deck 15 via the exhaust stack, forcing crews to fight the fire in two places.
spread (n) razmak
spreader /ˈspredə/ (n) (cargo handling) a telescopic, metal frame for lifting containers with gantry cranes, straddle carriers, transtainers, reach-stackers or forklift trucks
https://www.logisticsglossary.com/term/spreader/

hvataljka (dizalice) za kontejner, spreder, krožeta container ~ hvataljka kontejnera, kontejnerski spreder, telescopic ~ teleskopski spreder, spreder na izvlačenje po dužini

spreader (n) (safety, nav arch) Spreaders are struts attached to the sides of a mast to hold the shrouds away from the mast and increase the angle at which they meet the mast.
(https://goodoldboat.com/spreaders-101/) gazište (peljarskih ljestava): 5th step from bottom of the pilot ladder must be a spreader. elongated ~ produženo gazište peljarskih ljestava
**Spreader** (boating/yachting) = crosstree

Small spars extending toward the sides from one or more places along the mast. [https://www.ypiyachts.com/križ na jarbolu, krožeta, Italian: crocetta](https://www.ypiyachts.com/križ na jarbolu, krožeta, Italian: crocetta): Genoas can brush against the spreaders when trimmed close or when tacking, and the mainsail lies on them when it is eased well out.

**Obloga križa (plastična, metalna):** A smooth plastic (usually vinyl) spreader boot fitted at the outer end of the spreader will protect the sails from chafe damage that would arise from their rubbing against the end of the spreader or the seizing wire that holds the shroud in place. 

spring (n) (marine eng) opruga, talian:molla calibrated ~ graduirana opruga, helical ~ spiralna opruga

spring (=spring line) (n) (seamanship, ship handling) A line securing a vessel to a dock, particularly one that prevents fore and aft movement.

(http://www.apsltd.com/aps-advisor/sailing-terms-glossary/); Usually of the best wire hawsers; one of the first lines sent out in mooring. špring (konop, uže) amidships ~ središnji špring, stopping ~ zaustavni špring, forward ~ (ship handling) pramčani špring, aft ~ krmeni špring

spring a leak (v) (boating/yachting, seamanship) početi puštati

spring bearing (n) (marine eng) a bearing located along the propeller shaft to keep it in a straight line elastični ležaj (propelerske osovine): In spring bearings (or line-shafts) the chief load is the weight of the shaft, a least so long as the bearing and shaft are in line and in alignment. Practical Marine Engineering By William F. Durand, p. 193 The main shaft extends from the main reduction gear shaft of the reduction gear to the propeller. It is supported and held in alignment by the spring bearings, the stern tube bearings, and the strut bearing.

http://www.propellerpages.com/?c=articles&f=2006-02-17_Ship_Propulsion

spring-loaded (adj) nabijen oprugom, opterećen oprugom, napregnut oprugom

spring tide (n) (oceanogr) near the time of full moon and new moon, gravitational forces of the moon and the sun act together, producing tides that are higher and lower than average

(Seasources.net) živa morska mijena, Italian:acqua viva: The ship is heading into a
spring food tide and is unlikely to make a good speed.

https://www.pinterest.com/pin/207517495303902558/

**sprinkler** /ˈspriŋklə/ (n) ~ system sprinkler sustav, sustav gašenja prskanjem vode, ~ head prskalica: A deflector plate on the sprinkler head causes water to spray out over a larger area, ~ system uređaj sprinklera, šprinkler-uređaj (safety) sprinkler sprinkler system (n) (nav arch, safety) sustav gašenja požara prskanjem,
sprinkler sustav gašenja požara

**sprit** (n) (boating/yachting, sailing vessels) A spar that supports the peak of a four-cornered sail extending from the mast. https://www.ypiachts.com/ sošnjak

**spritsail** (n) (boating/yachting) A four-sided fore and aft sail set on the mast, and supported by a spar from the mast diagonally to the peak of the sail. https://www.ypiachts.com/ sošno jedro

**sprocket** /ˈsprokit/ (n) (marine eng) zubac, klin ~-wheel a wheel on whose periphery are teeth designed to engage with the links of a pitch or sprocket chain through which motion is transmitted to a second sprocket lančanik, zupčanik za lančani prijenos
spur dog (=piked dogfish) (n) (fishing) pas
spur gear /spɜːr/ (n) (marine eng) A toothed wheel having external radial teeth. (http://www.marinediesel.europe.com/)
čelnik, čelni zupčanik, zupčanik s ravnim zupcima: The camshafts are driven by a train of hardened and ground steel spur gears from the crankshaft split gear.

spurling gate (n) (nav arch) zvono lančanika
spurling pipe (n) (nav arch) cijev lančanika

squall /skwɔːl/ (n) 1 (meteorol) A sudden and violent gust of wind. https://officerofthewatch.com/tools/maritime-dictionary/; a strong wind characterized by a sudden onset in which the wind speed increases at least 16 knots and is sustained at 22 knots or more for at least one minute (Seasources.net) oljni nalet, nalet jakog vjetra s kišom, nevera, crna bura, Italian:groppo; colpo di vento; raffica: After the squall cleared, in about 10 minutes, we were horrified to see that our ship was lying at right angles to the wharf with our stem only a few metres from the vessel at the next berth astern heavy weather ~ jaki nalet vjetra popraćen kišom, olujna nevera; 2 oluja, olujni vjetar squall line /skwɔːl/ (n) (meteorol) = line squall olujna pruga, pruga maha, linija maha, redna oluja squally weather /skwɔːli/ (n) (meteorol) olujno nevrijeme, oluja square /skweə/ (n) kvadrat square /skweə/ (adj) čvrsto povuć
square /skwə/ (n) (boating/yachting, nav arch, sailing vessels) kutnik, škvara

square-body frame (n) (sailing vessels) središnje rebro

squared /skwəd/ (adj) (math) na kvadrat, na dugu potenciju

square knot (n) (seamanship) = reef knot Simple knot used for bending two lines together or for bending a line to itself. (http://www.quarterdeck.org/index.html) muški uzao

square off /skwəf/ (v) (cargo) odrezati (kraj daske), izravnati rub (daske)

square-rigged sail (n) (boating/yachting) A sailboat having square sails hung across the mast.

square rigging (v) (sail) brod s križnim jedrima

square root (n) (math) drugi korijen, kvadratni korijen

square sail (n) (boating/yachting) četvrtasto jedro, Italian: vela quadra
square sails - sailing vessel (n) (sailing vessels) križna jedra - jedrenjak

squat /skwɒt/ (n) (navig) uron broda koji nastaje usljed djelovanja smanjenog tlaka ispod trupa, a posebno je izražen u plitkoj vodi; the phenomenon by which a vessel moving quickly through shallow water creates an area of lowered pressure under its keel that reduces the ship’s buoyancy, particularly at the bow zagažaj broda, uron krme: OOW must be aware of underkeel clearance and effects of squat. Časnik straže mora znati dubinu ispod kobilice i uron. Curves should be drawn for shallow water
and infinite width of channel, indicating the **maximum squat** versus ship speed for various water depth/draught ratios. www.gov.uk/maib **effect of ~ učin urona broda, djelovanje urona broda:** During the transit, as per the passage plan, speed was to be reduced to below 12 knots to minimise the **effect of squat** on under keel clearance. **effect učin zagažaja broda:** Maximum estimated **squat effect** was provided for under keel clearances (UKCs) of 3.10m and 7.75m at a ship’s speed of 4, 6 and 8kts. www.gov.uk/maib 

**squelch control knob** *(SQL)* /ˈskwelʃ/ *(comm)* kotačić (na VHF uređaju) za isključivanje buke/smetnje na kanalu

**squid** /ˈskwɪd/ (≈European squid) *(n)* = ink fish 1 Lat. Loligo vulgaris liganj, lignja, europska lignja, kalamar common ~ liganj, lignja

**squid jig** *(n)* *(fishing)* skosavica (za lignje)

**squish area** /ˈskwɪʃ/ *(marine eng)* The area confined by the cylinder head and flat surface of the piston when on compression stroke. stlačeni prostor (u cilindru pri kompresijskom taktu)

**SRU** *(=Search and Rescue Unit)* *(n)* *(safety)* = Search and Rescue Unit
stability /staˈbɪlɪti/ (=ship stability) (n) 1 (stabil) the tendency which a vessel has to return to the upright position after the removal of an external force which inclined her away from that position

stabilnost (broda): Vessel’s stability is a measure of its ability to get back on an even keel after suffering a heel which is a "temporary" inclination of a ship, caused by outside forces such as winds, waves or when a ship turns. (https://safety4sea.com/) dynamic ~ dinamička stabilnost, positive ~ pozitivan stabilitet (jedrila se može sama izravnati), negative ~ negativna stabilnost, neutral ~ neutralna stabilnost, static ~ statička stabilnost, statički stabilitet, damaged ~ stabilitet brod u oštećenom stanju (zbog prodora mora u brod): Stability calculations (for intact or damaged stability) focus on the center of gravity, center of buoyancy, and metacenter of vessels and on how these interact. (https://safety4sea.com/), intact ~ COMPARE stability in the damaged condition stabilitet brod u neoštećenom stanju, range of ~ The number of degrees through which a vessel rolls or lists before losing stability. (https://www.history.navy.mil/) raspon stabiliteteta; 2 stabilitet (broda)

stability book (n) (nav arch, safety) knjiga stabiliteta

stability calculation (n) (nav arch, stabil) Stability calculations (for intact or damaged stability) focus on the center of gravity, center of buoyancy, and metacenter of vessels and on how these interact. proračun stabilnosti, račun centracije, izračun stabiliteta: Stability calculations (for intact or damaged stability) focus on the center of gravity, center of buoyancy, and metacenter of vessels and on how these interact. (https://safety4sea.com/) ship’s ~ izračun brodskog stabiliteta, conduct ~ obaviti proračun stabilnosti: The person who is responsible for the loading should conduct stability calculations for the intact and damaged stability of the vessel in order to confirm vessel’s compliance to the stability requirements as they have been tested and established by the classification society. (https://safety4sea.com/)

stabilitet change (=change in stability) (n) (stabil, nav arch) promjena stabiliteta broda: The metacentric height of the ship changes due to flooding. This can be explained by the general expression of metacentric height: \( GM = KB + BM - KG \). The explanation of reduction in stability can be done in two ways, which is exactly what we will study in this article, but at a later stage. For now, it should suffice to understand that when a ship is flooded, it results in a change of KB and BM values. The KB rises due to flooding, and it may rise further due to change in the ship’s trim. However, there is a significant reduction in BM, which is a function of the area moment of the ship’s water plane. Why? We will look into that when we study the Lost Buoyancy Analysis. https://www.marineinsight.com/naval-architecture/ship-stability-damaged-stability-ships/
stability curve (n) (nav arch, navig) krivulja stabiliteta ~ diagram krivulja poluga stabiliteta, Reedov dijagram

stability for great angle of heel (n) (nav arch) stabilnost pri većim kutovima nagiba

stability information (n) (navig) informacija o stabilitetu post ~ izvjesiti informaciju o stabilitetu

stability in the damaged condition (n) (stabil) SEE stability stabilnost broda u oštećenom stanju

stability table (n) (stabil) tablica stabilnosti, tablica centracije

stability triangle /ˈtreɪəŋɡəl/ (n) (stabil) trokut stabiliteta

stabilization (n) (navig) stabilizacija radarske slike

stabilized display (n) (navy) radarski prikaz stabiliziran kompasom: Stabilized display is a type of presentation also known as north up display. north-up ~ radarski prikaz s oznakom azimuta prema sjeveru: With a North-up or Course-up stabilised display, where the radar is interfaced with a gyro compass the heading marker will always point to the true course being steered., course-up ~ radarski prikaz stabiliziran s kursom

stabilizer /ˈsteɪbləiz/ (=stabiliser) (n) (nav arch) stabilizator (na putničkom brodu): These stabilizers were developed by Voith and Robert Allan Ltd to improve tractor tug directional stability allowing for a reduced size skeg and thereby improving manoeuvrability and fuel efficiency. https://www.marinelink.com/news/traktor-sx-design-tug-commences-444061

stabilize; stabilise /ˈsteɪblɪz/ (v) (navig) stabilizirati ~ the radar stabilizirati: The radar was stabilised with GPS instead of speed over water from the log

stabilizing compass (n) (navig) stabilizacija kompasom

stable /ˈsteɪbl/ (adj) (stabil): it is essential that the vessel remains stable both in still water and in turbulent seas

stable equilibrium (n) (nav arch) stabilna ravnoteža

stack /stæk/ (v) (cargo) slagati (kontejnere)

stack /stæk/ (n) 1 (cargo) red složenog tereta (npr. složenih kontejnera)

container ~ two or more containers, one placed above the other, forming a vertical column red složenih kontejnera; 2 (ports) An identifiable amount of containers stowed in a orderly way in one specified place on an (ocean) terminal, container freight station, container yard or depot.

slagalište kontejnera, površina na terminalu za slaganje kontejnera

stack /stæk/ (n) (nav arch) brodski dimnjak, ciminjera

stackable (adj) (cargo handling) prikladan za slaganje (o teretu): Make sure your
Stages (I, II, III A, III B, IV)
levels The European Union's (EU) term for the phased-in implementation of increasingly stringent diesel engine emissions regulations. The four main regulated emissions are carbon monoxide, hydrocarbons, particulate matter and nitrogen oxides. (http://www.marinedieseleurope.com/) faze EU I, II, III A, III B, i  IV za ograničavanje dušičnih oksida u ispušnim plinovima strojeva

stained /ˈsteɪnd/ (adj) (cargo) zamrljan (o vrećama tereta), zauljen, zamašćen ~

bag zamašćena vreća

stainless steel /ˈsteɪnlis/ (n) (marine eng) nehrđajući čelik

stake /steik/ (n) 1 (shipping econ, mar law) udio (kapitala u vlasništvu tvrtke): Statoil acquires 25% stake in Brazil's Roncador.

https://www.maritimeprofessional.com/news/statoil-acquires-stake-brazil-roncador-312183 The ... Group has entered into a definitive agreement to buy an additional 36.3% stake in ... Tankers, bringing its total stake in the product tanker company to 43.5%. www.gCaptain.com CMA CGM takes 10% stake in CSP Zeebrugge Terminal. Splash24/7 <splash=asiashippingmedia.com@mail22.sea21.rs gsv.net> Shipping company BW Group announced today it has acquired a majority stake in LPG shipowner Epic Gas and has launched an unconditional offer to acquire the remaining shares of the company. https://gcaptain.com

acquisition of major ~ otkup glavnoga udjela u dionicama (trgovačkoga društva); 2 (cargo, safety) kolac, štap

stakeholders /ˈsteɪk,heʊldəz/ (n) Any person, group or organisation with an interest in, or who may be affected by, the activities of another organisation.; svi zainteresirani sudionici obuhvaćeni u nekom poslu, projektu, pothvatu, bitni čimbenici: Stakeholders often look closely at ships on order as a percent of the existing fleet size. https://www.maritimeprofessional.com/news/bulk-shipping-economics-317750 The Coast Guard and all regulatory stakeholders, as always, remain in awe of the skills exhibited by the professional mariners who ply the nation’s waterways. <source>MaritimeProfessional-2014-05</source> With the cumulative Hong Kong port throughput bumping up against 20 million TEU’s annually, some stakeholders consider the port to be at maximum efficiency already. <source>MaritimeProfessional-2017-01</source> The port authorities, its stakeholders including terminal operators and customs have arranged for the empties to be returned to various private/shared depots outside the port.. https://shippingandfreightresource.com In the case of an incident all stakeholders should be notified. main ~ glavni dioniocari

stale /steil/ (adj) (cargo) pljesniv, ustajao

stanchion /ˈstænʃən/ (n) 1 (nav arch) = pillar uporni stup koji podupire palubnu sponju ili drugi element broda; a fixed or portable metal or wooden vertical post designed to support another items such as the deck beams, fife rail or the cap rail (https://www.iims.org.uk/wp-content/uploads/2014/03/Glossary-of-ship-and-boat-building-terms.pdf);

upright structural member upora (u skladištu ili trupu broda) upper-deck ~ upora gornje palube, main-deck ~ upora glavne palube, lower-deck ~ upora donje palube, hold ~ upora skladišta; 2 (cargo) upora za drvo, okomiti drveni stupovi za slaganje tereta drva: Vertical timber side members, or stanchions, are used to secure the cargo either side.
stand

standby

1 (navig) rad (radara, stroja, generatora itd.) u pripremi:
When maneuvering or alongside working cargo, two generators share the load with the other on standby. ;

2 u pripravnosti (osoba, član posade): A qualified helmsman should be on standby to take the wheel immediately have a helmsman on ~ 1 staviti kormilara u pripravnost;
2 imati kormilara u pripravnosti, place someone on ~ stavit nekoga u stanje pripravnosti: The VTS officer then alerted the local tug skippers and placed them on standby to provide rapid assistance if needed. www.gov.uk/maib

stand by (v) 1 (comm, safety, marine eng) to be prepared to execute an order or a manoeuvre biti spreman / pripravan: The pilot ordered the tugboat to stand-by with the intention to make fast when the ship was inside the basin. www.gov.com/maib Vessel A’s pilot ordered the tugs to standby as they were approaching the buoyed fairway. www.safety4sea.com Approaching to the N-5 anchorage, the Master ordered to stand by 4 crews, on forecastle deck for dropping anchor operation and reduced speed. (https://safety4sea.com/) Engines on stand by. Strojevi pripravni. / Strojevi u pripravi.

put the engines on ~ staviti strojeve u stanje pripravnosti: The Master ordered the Chief Engineer to put the main engines on standby. (https://safety4sea.com/), ring ~ narediti pozor u stroju (telegrafom); 2 čekati na poziv na radiopostaji ~ on! to be on radio watch waiting for a call or instructions Čekajte!, Ostanite na kanalu!; 3 to remain in the vicinity, prepared to render assistance biti u blizini, stajati pokraj (broda u opasnosti radi pružanja pomoći), biti spreman (za pružanje pomoći)

stand-by (adj) rezervni, pomočni ~ generator pomočni generator, rezervni generator

stand-by! (v) 1 (marine eng, comm) Pozor (u stroju)!; 2 (comm) Pozor! (ostanite na liniji / na vezi) Stand by engine(s)! (navig, marine eng) Pozor u stroju! ~s Pozor u strojevima!, Engine~ing by. Stroj u pripravnosti.

Stand by for let go. (navig, comm) Spremni za odvezivanje., Spremni za manevar isplovljenja. Standing by for let go. Spremni smo za odvezivanje

stand mode (n) (navig) pripravni način rada (radara)

stand clear of (navig) (v) stajati podalje od, držati se podalje od

standing block (n) (seamanship) nepomični kolotur (u čekrku, koloturniku)

standing moor /stændɪŋ/ (n) (seamanship) sidrenje s dva sidra (ili plutače); 2 stalni / stabilni vez

standing orders /stændɪŋ/ (n) (navig) In the standing orders the Captain sets required fix intervals, intervals for fathometer navigation and collision avoidance requirements. trajne zapovjedi (zapovjednika / brodara straži): The master had not issued any written standing orders. Similarly, masters should make this requirement clear in their standing orders: “If in doubt, call me out! He gave the following reasons for this: 1 There was a Standing Order to call the Master for any alteration of course of more than two degrees. Master’s ~ zapovjednikove trajne zapovjedi, bridge ~ stalne zapovjedi mostu: I wonder if some ships have Bridge Standing Orders, why OOWs are so reluctant to call Masters and why action is left so late., call the master (in case of doubt) nazvati zapovjednika (u slučaju dvojbe), pozvati zapovjednika

standing part of rope /stændɪŋ/ (n) (seamanship) mrtvi kraj konopa

standing rigging /stændɪŋ/ (n) (nav arch) all the wires and ropes that support the mast and boom; does not normally need to be adjusted; oputa kojom se učvršćuje samarica nepokretna
stand off (v) (navig) odmaknuti se (od obale, drugog broda)

stand of the tide (≡stand of the tide) (n) (oceanogr) = slack water vodostaj

stand on /ˈstænd,ɒn/ (≡ˈstænd,ɒn) (v) ANTONYM give way to hold a ship’s (boat’s) course and speed držati kurs i brzinu (brod koji ima pravo puta)

stand-on vessel (n) (navig, mar law, boating/yachting) = right-of-way vessel The vessel that is required to maintain its course and speed when boats are approaching each other according to the navigation rules. Also known as the privileged vessel. https://www.ypiyachts.com/brod s pravom puta, brod koji ima pravo puta: ... in a narrow channel where there is a current and 2 vessels are meeting from opposite directions, “the vessel proceeding with the current or tidal stream shall be the stand-on vessel and shall propose the place of passage [...]”and the side on which the vessel will pass. (The Canadian Modifications to the COLREGs)

standpoint stajalište, stanovište, gledište
staple knee /ˈstæpl/ (n) (sailing vessels) okvirno koljeno

Starboard! (interj) (boating/yachting) A loud clear voice is often preferred to gain the attention of someone not looking. The most common of these would be to announce “STARBOARD” in a potential sailboat-on-sailboat collision situation. By stating this, you are stating that there is a close quarters situation, that collision is possible, and you are stating you are the Stand-On vessel. (Practical Sailor <practicalsailor@e.practical-sailor.com>); Uzvuk kao znak upozaravanja da jedrilica ima pravo puta radi izbjegavanja sudara u regati/jedrenju. Vode!

starboard /ˈstɑːbɔrd ;ˈsta:bɔːd/ (adj) ANTONYM port towards the right-hand side of a vessel facing forward; the term ‘starboard’ refers to the right side of a vessel, perceived by a person on board, facing towards the bow desni, Italian: dritta ~ side desna strana, ~ engine desni stroj, on the ~ side na desnoj strani, s desne strane

starboard /ˈstɑːbɔrd ;ˈsta:bɔːd/ (n) (seamanship) ANTONYM port the right-hand side of the ship when looking from aft forward desna strana broda, desni bok broda

Starboard, steer one eight two! (navig, seamanship) Kormilo desno, kurs: jedan osam dva!

starboard anchor (n) (nav arch) desno sidro

starboard bow (n) (nav arch, navig) COMPARE port bow desna strana pramca, desni pramac, Italian: mascone prora dritta on the ~ desno po pramcu, two points on the ~ dva vjetra (prsta, =oko 23 stupnja) po prmacu
At 0011, the OOW saw a vessel 20° off the starboard bow.

**starboard engine** (n) (nav arch) desni stroj

**starboard hand mark** (n) (navy) ANTONYM port hand mark oznaka s desne strane (broda), oznaka koju valja ostaviti s desne strane broda

**starboard helm** (=starboard wheel) (n) (navig) kormilo u desno: Once the vessel was clear of the buoy, **starboard helm** was used to manoeuvre the vessel back towards the western side of the channel.

**starboard light** (n) (navig, nav arch) desno svjetlo

**starboard quarter** (n) (navig) desni kvartir

**starboard side to** (adv) (navig) desnim bokom uz obalu berthed ~ brod vezan desnim bokom uz obalu

**starboard tack** (n) 1 (boating/yachting) sailing with the main boom on port side; A sailboat sailing on a tack with the wind coming over the starboard side and the boom on the port side of the boat.

**desne uzde**: If two boats under sail are approaching, the one on port tack must give way to the boat on starboard tack. [https://www.ypiyachts.com/](https://www.ypiyachts.com/); **2 jedrenje na desnim uzdama**

**Starboard ten!** (navig, seamanship) Deset desno!

**starboard turn** (n) (navig) okret u desno sharp ~ nagli okret u desno

**stargazer** (n) (fishing) Lat. URANOSCOPUS SCABER bežmek, ćać, ćaća, batoglav,

**pušač**

**start** (n) uputiti, staviti u pogon, pokrenuti, startati ~ from cold (marine eng)

staviti u pogon iz hladnog stroja, ~ the lubricating oil pumps uključiti pumpe ulja za podmazivanje

**starter** (n) (marine eng) pokretač, starter, Italian:avviatore ~ air uputni ventil

**starter drive** (n) (marine eng, archaic) The mechanical device that engages the flywheel teeth and transmits the starter force to the flywheel. [http://www.marinedieseleurope.com/](http://www.marinedieseleurope.com/) pogon

Pokretača motora, poluga pokretača motora

**starter grip** (n) (marine eng, boating/yachting) ručica za pokretanje izvanbrodskoga benzinskog motora

**start from cold** (v) (marine eng) staviti u pogon iz hladnog stanja

**starting** (n) (marine eng) upućivanje, stavljanje u pogon, pokretanje,

**startanje** ~ air system sustav za upućivanje zrakom sustav upućivanja zrakom

**starting air** (n) (electr) Compressed air used for starting an engine.

starting air distributor (n) (marine eng) razvodnik zraka za upućivanje stroja: The starting valve is opened by control air from the starting air distributor and closed by a spring.

starting air system (n) (marine eng) sustav zraka za upućivanje

starting air valve (n) (marine eng) ventil uputnog zraka, uputni ventil

starting crank (n) (marine eng) ručica za upućivanje motora, kurbla

starting fluid leak test (n) (marine eng) The air intake system can be tested by spraying all joints with starting fluid while the engine idles. Changes in idle speed indicate leaking connectors.

starting notch (n) (marine eng) A slot on top of the plunger that provides 20 percent more fuel than is used at maximum torque speed, used at start up and overridden by governor control once low-idle speed is reached. uputni urez na plovku

starting problems (n) (marine eng) nevolje s paljenjem, nevolje s upućivanjem stroja

starting to luff (n) (boating/yachting) početak prihvaćanja

start-up/shut-down procedures (n) (cargo handling) postupci za početak i završetak krcanja tereta (npr. nafte): An efficient system of communication should be established between the vessel and the terminal and the start-up/shut-down procedures for cargo operations agreed.

state (v) 1 navesti; 2 razjasniti; 3 prikazati, razložiti; 4 ustanoviti; 5 odrediti

state funding (n) (nav arch, shipping econ) COMPARE subsidy državno financiranje (brodogradnje): Japan has officially launched a complaint at the World Trade Organization (WTO) over Seoul’s state funding of local shipbuilders. The measures in question relate to the development, production, marketing, and/or sale or purchase of commercial vessels, including vessels designed to carry crude oil, liquefied natural gas and shipping containers. stateroom  
(n)  (seamanship)  A private room or cabin for the accommodation of passengers or 
officers.  (https://www.history.navy.mil/); senior officer's or captain's room or cabin kabina za 
goste, kapetanova kabina officer's stateroom časnička kabina

statical load  
(n)  (nav arch)  statičko naprezanje

statical stability  
(n)  (nav arch)  statička stabilnost moment of ~ moment 
statičke stabilnosti

statical stability arm curve  
(nav arch)  krivulja poluga statičke stabilnosti

statical stability curve (=GZ curve)  
(n)  (stabil, nav arch)  a graphical representation of 
the ship's transverse statical stability  krivulja statičke stabilnosti
statical stability moment curve (n) (nav arch) krivulja momenata statičke stabilnosti

static converter (n) (electr, navig) = motor generator jedinica napajanja (radara)

station 1 (comm, safety) postaja, stanica ~ bill The posted bill showing stations of the crew at maneuvers and emergency drills. https://officerofthewatch.com/tools/maritime-dictionary/

station 2 (nav arch) motrilište

diagram of statical stability moment curve

statute /ˈstætju:t/ (n) (mar law) an enactment of a legislative body (e.g. parliament) expressed in a formal document objavljeni zakon (koji je donio parlament), važeći zakon, zakon na snazi

statute of limitations /ˈstætju:t/ (n) (mar law) a legislative enactment prescribing the period of time within which proceedings must be instituted to enforce a right or bring an action at law zastara

diagram of statical stability moment curve

statutory /ˈstætjʊtərɪ/ (adj) (mar law) zakonski, prema zakonu ~ duty zakonska obveza / dužnost, ~requirements zakonski propisi / uvjeti

statutory certificates /ˈstætjʊtərɪ/ (n) (mar law) isprave propisane međunarodnim ugovornim dokumentima ili nacionalnim propisima statutarne isprave, zakonske svjedodžbe, propisane svjedodžbe

statutory lien /ˈstætjʊtərɪ/ (n) (mar law) privilegiji koje priznaje zakon, ali se ostvaruju samo nakon
utuživanja potraživanja; primijenjuje se radi namirenja potraživanja brodoprodbijaja, šteta na teret i tjelesnih šteta; imaju prednost pred hipotekom/mortgage na brodu (Grabovac) zakonski privilegij na brod

statutory publications /ˈstætjʊtəri/ (n) (mar law, navig) publications such as: International Code of Signals, operating and maintenance manuals for navaids, navigation tables, nautical almanac, notices to mariners, shipping guidance and information notices, sailing directions, lights list, tide tables, tidal stream atlases, admiralty list of radio signals zakonom propisane publikacije (koje svaki brod mora imati)

statutory regulations /ˈstætjʊtəri/ (n) (mar law) zakonski propisi, statutarni propisi: Standards of accommodation are high, and are controlled by various IMO and ILO statutory regulations. IMO and ILO ~ obvezujući propisi IMO-a i ILO-a

statutory requirements (n) (mar law, safety) zakonski zahtjevi

statutory stipulations /ˈstætjʊtəri/ (n) (mar law) zakonske odredbe

stay /ˈsteɪ/ (n) 1 (boating/yachting) leto, štraj; Italian: strallo; straglio check ~, lower ~ donje leto, jib~ leto floka (do gornjeg križa ili 7/8 jarbola), head~ prednje leto (od vrha jarbola do pramca), prednji štraj, proveni štraj; 2 (nav arch) prečka karike lanca

stay /ˈsteɪ/ (n) (shipping econ) boravak port ~ vrijeme boravka broda u luci

stay /ˈsteɪ/ (n) (mar law) court order to temporarily suspend the execution of a court judgment or other court order (Wiki) odgoda izvršenja, odgoda izvršenja (sudske odluke): The Gibraltar-based single-hull tanker Wilmington has been given a stay of execution and will be able to continue its role as a storage vessel for fuel oil until the courts have reviewed the EU-legislation on single-hull tankers ~ of execution odgoda izvršenja, stay order Court order that suspends a judicial proceeding (or a judgment resulting from it) in part or in full. nalog za odgodu izvršenja (sudske odluke): The Line was granted stay orders to protect its ships from seizure in the ports of ... earlier this month, and is applying for stay orders elsewhere., issue ~ on donijeti odluku o odgodi izvršenja (sudske odluke): Judge issues temporary stay on AB5 https://joc.com

staybolt /ˈsteɪˌboʊlt/ (n) (marine eng) A stress bolt running diagonally upward from the bedplate to the opposite side of the frame. (http://www.marinediesel europe.com/) sprežnjak, sprežni vijak

staysail /ˈsteɪˌseɪl/ (boating/yachting) smal jib tacked between mast and headstay; a smaller jib hanked onto an intermediate forestay mali flok, olujni flok, letno jedro, Italian: trinchetta: Adding an inner forestay and staysail will give you the sail plan you need for
beating along in a blow.

**STBY/TX key** *(n)* *(navig, electr)* tipka za pripremu i odašiljanje (radarskih impulsa), tipka STBY/TX: The STBY/TX key toggles between stand-by and transmit status.

**STC; Sensitivity Time Constant = A/C rain (FTC)** promjenjivo vremensko pojačanje (na radarskom prijamniku)

**STCW Convention** *(n)* *(mar law)* = IMO STCW Convention, 1978/1995/2010

**steadily** /ˈstɛdli/ *(adv)* stalno, postupno

**Steady!** /ˈstɛdi/ *(navig, seamanship)* an order to hold a vessel on the course she is heading Ravno!

**steady** /ˈstɛdi/ *(adj)* 1 *(navig, seamanship)* to keep the helm so as to stop the swing of the ship to port or starboard stalan, ustaljen ~ course ustaljen kurs, on a ~ course na pravom kursu, na stabilnom kursu, na sigurnom kursu: Once the vessel was on a steady course to the anchorage, the Master used the vessel’s paper chart to plot a direct course line from the assigned anchorage back to the vessel’s position; 2 *(figurative)* to be on a ~ course biti uspješan u nečemu *(figurative use)*: With more than 120 years in the marine insurance business, we are now on a steady course. We have a long history to rely on and can step in to the future with confidence.

**steady** /ˈstɛdi/ *(v)* ustaliti, stabilizirati, uravnaiti ~ the course ustaliti kurs: The Master steadied the vessel on a heading to return her to the planned track.

**Steady as she goes** *(n)* *(navig)* one of helm orders Tako ravno!, Upravo tako/ Drži tako!, alavija

**steady bearing** *(n)* *(navig)* When the angle of an approaching vessel remains the same over time, Indicating a collision course. *(http://www.apsltd.com/aps-advisor/sailing-terms-glossary/)* stabilni azimut

**steady flow** *(n)* *(marine eng)* stalni protok, stalni dotok (goriva itd.)

**steadying sail** *(n)* *(boating/yachting)* a sail hoisted to steady the ship against rolling, rather than for propulsion ravnajuće jedro, krmeno jedro za držanje smjera (na sidru)

**steady wind** /ˈstɛdi/ *(n)* *(meteorol)* stalni vjetar

**stealth** /ˈstɛlθ/ *(adj)* *(navy)* moving with extreme care and quietness, esp so as to avoid detection neprimjetljiv, nevidljiv ~ destroyer nevidljivi razarač
steam /ˈstiːm/ (n) 1 (marine eng) para bled ~ ispuštena para, para oduzeta iz niskotlačne turbine, exhaust ~ ispuzna para, turbine gland ~ para koja istječe iz brtvenice turbine, admit ~ pustiti paru u, dovesti paru u, generate ~ proizvoditi paru, heat by ~ zagrijavati parom, produce ~ proizvoditi paru, raise ~ dignuti tlak pare, supply ~ dobaviti paru, dovesti paru; 2 vodena para ~ coil parni zagrijač sa spiralnim cijevima
steam /ˈstiːm/ (v) (seamanship) ploviti: The vessel was steaming at 14 knots, and the master had instructed the chief officer to remain at least 3 cables from the island.
steam bending (n) (marine eng) savijanje pod parom
steam bent frame (n) (nav arch) drveno rebro savijeno parom
steam chest valve (n) (marine eng) razvodnik pare
steam drum (n) (marine eng) parni bubanj, parna komora
steamer /ˈstiːmə(r)/ (n) (marine eng) parnjak, parobrod, brod na parni pogon
steam generating plant (n) (marine eng) uređaj za proizvodnju pare
steam generator (n) (marine eng) generator pare
steam heating coil (n) (marine eng) parni zagrijač sa spiralnim cijevima
steaming (n) (navig, shipping econ) plovidba, plovlenje ~ time vrijeme plovidbe (do mjesta pogiblji): On receipt of distress call, fix own position, calculate distance and steaming time to distress position. (https://safety4sea.com/)
steaming lights (n) 1 (navig, boating/yachting) = navigating lights = running lights lights displayed at night, indicating that a sailing vessel is under motorized power. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) navigacijska svjetla combined stern / masthead light kombinirano svjetlo, single steaming light jedno jarbolno svjetlo, two steaming lights dva jarbolna svjetla
http://www.boatsafe.com/nauticalknowhow/060199tip5.htm; 2 (boating/yachting, navig) navigacijska svjetla (motornih brodica)
steam plant  (n) (marine eng) parno postrojenje
steam-powered  (adj) (marine eng) na parni pogon
steam pressure  (n) (marine eng) tlak pare
steam propulsion  (n) (marine eng) parni pogon
steam reciprocating engine  (n) (marine eng) parni stapni stroj
steamship  1  a (n) parobrod ~ company parobrodarsko društvo, brodarsko društvo, brodar;  2 (US) Today, ships that transport cargo overseas are powered by diesel fuel instead of steam motorni brod;  3 (US) brod (općenito)
steamship agent  (n) (prep phr) (US, mar law, shipping econ) The local representative who acts as a liaison among ship owners, local port authorities, terminals and supply/service companies. An agent handles all details for getting the ship into port; having it unloaded and loaded; inspected and out to sea quickly. An agent arranges for pilots; tug services; stevedores; inspections, etc., as well as, seeing that a ship is supplied with food, water, mail, medical services, etc. A steamship agency does not own the ship.
pomorski agent, brodski agent
steamship company  1  (shipping econ, mar law) parobrodarsko društvo;  2 (US, mar law, shipping econ) a business company that owns ships that operate in international trade
steamship line

**steamship line** *(n)* *(US, mar law, shipping econ)* A steamship (ocean carrier) service running on a particular international route. Examples: NSCSA (National Shipping Company of Saudi Arabia), American President Lines (APL), Maersk Sealand, Evergreen, etc. **brodarska linija, linija, brodski servis**

**steer** /stiə/ *(v)* *(navig)* kormilari, držati smjer, **Italian:** *timonare* ~ the course 1 držati kurs, kormilari u smjeru; 2: A general cargo ship was on loaded passage in coastal waters, steering a course of 184 degree true and making a speed of about 11.4 knots, ~ manually: The ship was being steered manually by the helmsman. **kormilari ručno**

**brodarsko društvo**

**steam turbine** /stɪ:m ˈtɜː.bin; stɪ:m ˈtɜː.bain/ *(n)* *(marine eng)* parna turbina

**steel** /sti:l/ *(n)* čelik alloy ~ legirani čelik, carbon ~ ugljični čelik, corrosion-resistant ~ čelik otporan na koroziju, fine-grained ~ čelik sitnozrnate strukture, stallness ~ nerhđajući čelik

**steel plate** *(cargo, nav arch)* čelični lim

**steel rope** = wire čelično uže, čelik-čelo, kavodifero

**steel ship** *(nav arch)* čelični brod

**steel sling** čelični pasac

**steel strapping** *(cargo handling)* čelične trake

**steep seas** *(meteorol)* Tall and short waves caused by water current and wave directions being opposite to the direction of the wind. https://www.ypyachts.com/ oлуjno more

**steer** /stɪə/ *(n)* *(meteorol)*
steerage /ˈstiərɪdʒ/ (n) (navig) act of steering a vessel: the vessel had sufficient steerage broj je imao dovoljnu brzinu za kormilarenje Steerage was effected by means of a semi-balanced hanging rudder with a maximum angle of 35°.

steerageway /ˈstiərɪdʒˈweɪ/ (n) (navig) the slowest speed at which a vessel is capable of steering The intended track now involved a very sharp starboard turn of almost 130° at minimum steerageway.

steer around ploviti oko, upravljati brodom tako da brod plovi oko (plutače, lukobrana, drugog broda, nekog objekta): Immediately on reaching the bridge, the pilot ordered half ahead and hard-astarboard, with the intention of steering the ship around the breakwater head.

steering /ˈstiərɪŋ/ (n) 1 (navig) kormilarenje automatic ~ automatsko kormilarenje, manual ~ ručno kormilarenje, hand ~ ručno kormilarenje, emergency ~ kormilarenje u nuždi, sustav kormilarenja u nuždi; 2 sposobnost kormilarenja lose ~ izgubiti sposobnost kormilarenja: A Bulk Carrier Under Tow Lost Steering Off Nova Scotia. A 143-meter bulk carrier is under tow back to port after losing steering off Cape Breton, Nova Scotia

steering cable (n) (nav arch) lanac kormilarskog uređaja: The steering cable had been replaced using an outdated spring-loaded ball joint to connect it to the outboard engine frame.

steering casualty (n) (navig, safety) nezgoda uslijed lošeg upravljanja / kormilarenja brodom

steering column upravljачки stup (kormila)

steering control stand (n) (nav arch) kormilarski stalak

steering engine kormilarski stroj

steering equipment kormilarski uređaj

steering failure (n) (safety) zakazivanje kormilarskog uređaja, otkazivanje kormilarskog uređaja: The vessel had suffered a steering failure brodu je otkazao kormilarski uređaj. Steering gear failure should be treated as an emergency situation and immediate actions should be followed in order to prevent human or property loss.

steering gear (n) (nav arch, ship_equipment) a gear consisting of the steering wheels, leads, steering engine, and fittings by which the rudder is turned kormilarski uređaj: Her main engine was kept at full ahead, but was stopped when the chief engineer reported to the master that the steering gear was badly damaged. Steering gear -main and auxiliary- should be checked and tested 12 hours before vessel’s departure, as appropriate.

Steering gear tested, started heaving port anchor. main ~
All ships should have an auxiliary steering gear system operating in case of a main system failure.

steering light svjetlo za kormilarenje
steering machinery strojarnica kormilarskog uređaja
steering oar (n) (boating/yachting) upravljačko veslo, veslo za kormilarenje
steering orders = helm orders zapovijedi za kormilarenje, naredbe za kormilarenje, Italian: ordin al timoniere
1 Midships!, 3 Starboard five!, 2 Starboard!, 4 Port fifteen!, 5 Hard-a-starboard!, 6 Hard-a-port!, 7 Meet her!, 8 Steady!, 9 Steady as she goes!, 10 Starbiard ten!, 11 Ease to five!
steering pump (n) (nav arch) pumpa kormilarskog uređaja: Both steering pumps were switched on.

steering stand (n) (navig) kormilarsko postolje, mjesto za kormilarenje
steering wheel (n) (nav arch, boating/yachting) a ship’s wheel or boat’s wheel is used to change course; together with the rest of the steering mechanism it forms part of the helm kormilarsko kolo

kolo boat ~ kormilarsko kolo brodice
https://en.wikipedia.org/wiki/Ship%27s_wheel

stellar catfish morska mačka mrkulja
St. Elmo’s Fire (n) (meteorol) a luminous, and often audible, electric discharge that is intermediate in nature between a spark discharge and a point discharge (Seasources.net) vatra svetog Elma

stem /stem/ (n) 1 (nav arch) the extension of keel at the forward of a ship; the bow frame forming the
apex of the intersection of the forward sides of a ship pramčana statva, ašta, ašta od prove rabbet (sailing vessels) utor pramčane statve; 2 (seamanship, figurative) pramac / prednji dio broda: If there is a tide or current running, the vessel's stem should be turned into it.

stem (v) (navig) ploviti prema, ploviti protiv ~ the tide ploviti protiv struje
stem (n) (mar law) Availability of a cargo on the date or dates on which a ship is offering to load.

stem band (n) središnji lim opločenja pramčane statve od kobilice do vrha pramca

žlijeb pramčane statve, kopo
stem-piece (n) (sailing vessels) umetak za statvu, umetak za protustatvu
stemson /ˈstɛmsən/ (n) (nav arch, sailing vessels) pramčano koljeno, pramčano uzvojno koljeno

stem the current (v) (seamanship) ploviti protiv struje, okrenuti se protiv struje

stem the tide (v) (navig) to head the vessel's bow directly into the current or waves; overcome adverse circumstance ploviti pracom protiv struje, biti okrenut pracom prema struji: The Pilot continued proceedings for berthing, directing the tugs to turn the ship around through 180 degrees, to stem the tide.

step the keel (v) (boating/yachting) spustiti pomičnu kobilicu do dna, postaviti pomičnu kobilicu do dna

step the mast (v) (boating/yachting) postaviti jarbol, staviti jarbol u ležište: The system allows to step a mast using only a hinged mast step, a hinge (a fork and an eye) in the capshrouds along the same axis as the hinge in the mast step and a tang on the forward face of the mast, near its base, to connect the spinnaker pole. http://www.caphorn.com/sections/Pages/mast_stepping_system.htm

stere /ˈstiə/ (n) (cargo) a unit used to measure volumes of stacked timber equal to one cubic metre (35.315 cubic feet); tradicionalna metrička jedinica u prijevozu drva za ogrijev, otprilike jednaka jednom kubnom metru ili 35.314 kubnih stopa jedinica za mjeru u prijevozu drva (Franc., Italija)

stere /ˈstiə/ (n) (cargo handling) stere, tradicionalna metrička jedinica u prijevozu drva za ogrijev, otprilike jednaka jednom kubnom metru ili 35.314 kubnih stopa

stern /sta:n/ (n) (nav arch) the after end of a vessel krma, Italian: poppa, popa, pupa

stern breast line (n) (seamanship) bočno krmeno uže

stern chock (=stern pipe) (n) (ship handling) A round or oval casting, or frame, inserted in the bulwark plating at the stern of the vessel through which the mooring hawser or warping lines are passed. (https://www.history.navy.mil/) krmeno oko (za priveznu užad))

stern door (n) (nav arch) Watertight horizontally-hinged door integral to the transom on a stern-loading Ro-Ro vessel. https://officerofthewatch.com/tools/maritime-dictionary/ krmena vrata ( na ro-ro brodu)
During this relatively short run, the owner decided to again check the stern gland. The dredger was eventually salvaged and, after much investigation, water was found to be leaking through the hull plating near to the stern gland in the engine room. There was a mass of large size monofilament longline around the propeller and the stern gland housing.
The stern light (n) (navig) = overtaking light White navigation light that can be seen only from astern to 6 points on either quarter (total of 12 points, or 135 degrees.)

Krmeno svjetlo: Our vessel was overtaking a large bulk carrier in ballast. His stern light seemed very dim, it later turned out to be a cabin light. She was exhibiting a masthead light, port and starboard sidelights and a stern light. The stern light and the red sidelight were visible alternately.

Stern line (n) (seamanship): Krmeno ulje, Italian: cavo di ormeggio di poppa; cavo alla lunga di poppa

Sternpost /stɛrnpost/ (n) (nav arch, sailing vessels) the main vertical post in the stern frame upon which the rudder is hung

Krmene statve, foot of the ~ peta krmene statve: The recovery was successful and the vessel managed to get alongside the quay under her own power, where initial repairs to the foot of the stern post were carried out. ~ knee krmeno uzvojno koljeno, karoc od krme

Stern power (n) (navig) snaga za vožnju krmom, snaga za vožnju natrag: The vessel did not have very good stern power.

Stern pulpit (=lpushpit.) (n) (boating/yachting) A sturdy railing around the deck at the stern.

Stern quarters (n) 1 (seamanship) krmeni kvartiri; 2 krmene nastambe

Stern ramp (n) (nav arch) Stem- (transom) mounted hinged platform located to permit the loading/discharge of vehicles aboard a Ro-Ro vessel.

Sternson (n) (sailing vessels) krmeno koljeno

Stern thruster (n) (nav arch) krmeni bočni propeler

Stern timbers (n) (sailing vessels) rebra krmnenog okvira

Stern transom (n) (sailing vessels, nav arch, boating/yachting) krmeno zrcalo

Stern trim (n) (cargo handling, nav arch) uronuće po krm, trim po krm

Stern tube (n) (nav arch) the tube under the hull to bear the tailshaft for propulsion

Stern tube sealing arrangement (n) (nav arch) brtvljenje statvene cijevi
sternway (adv) (navig) ANTONYM headway ship making way in reverse, stern first
gibanje broda prema natrag, kretanje broda natrag, kretanje krmom, krmom, abriva po krm (gather ~ abriva po krm), zalet krmom
stevedore (n) (shipping econ) = port operator = longshoreman Terminal operator who is designated to facilitate the operation of loading and discharging vessels and various terminal activities. (http://www.maerskline.com/en-jm/help/shipping-glossary) slagatelj, slagač, slagateljsko društvo, štivador, lučki poduzeće: The ship been loaded according to the stevedores' suggestions. (https://safety4sea.com/)

stevedores /ˈstiːvərz/ 1 Labor management companies that provide equipment and hire workers to transfer cargo between ships and docks. Stevedore companies may also serve as terminal operators. The laborers hired by the stevedoring firms are called stevedores or longshoremen. slagatelj, lučki slagači, štivador; 2 slagateljsko društvo stevedoring company /ˈstiːvərdɪŋ/ (n) (shipping econ) slagateljsko društvo, slagatelj, lučki slagači, štivador
steward /ˈstjuərd/ (n) (shipping econ) brodski konobar, kamarijer Chief ~ glavni konobar
steward call system pozivni uređaj konobara
steward's / catering department = catering department bijelo osoblje, opća služba (na brodu), brodski ekonomat
sticker (n) (cargo handling) komadić drveta koji u pakiranju služi kako bi odvojio raspiljene daske jednu od druge i tako omogućio prozračivanje tereta sticker
stiff (adj) (nav arch) = tender krut (bod)
stiffened panel (n) (nav arch) ukrepljeno opločenje
stiffener /ˈstɪfnər/ (n) (nav arch) a steel element added for strengthening plating, in the form of a secondary structural; element koji ukrepljuje (učvrščuje, pojačava, ukručuje) brodsku konstrukciju; A term applied to a fore-and-aft girder running along the side of a ship and also to the outboard strake of plating on any deck. (https://www.history.navy.mil/) ukrepa, ojačanje: After the accident the ship went into the nearest port where her hull was strengthened with temporary external stiffeners bulkhead ~ ukrepa pregrade, longitudinal ~ on longitudinal bulkhead uzdužna ukrepa uzdužne sterekra
stiffness  (n) (marine eng, nav arch) krutost, ukrućenje
stiffness  (n) (nav arch) the tendency of a vessel to remain in the upright position, or a measure of the rapidity with which she returns to that position after having been inclined from it by an external force  sposobnost uspravljanja (broda), uspravnost (broda)
stiff ship (n) (stabil, nav arch) ANTONYM tender a ship with a very large GM (metacentric height) caused by KG (height of the ship’s center of gravity the above keel) being too small. kruti brod, prestabilni brod
stiffship situation (n) (stabil, cargo handling) stanje krutog broda: Ship-board factors run from ... to the use of accurate data to predict parametric rolling and other ship motions, and the incidence of a so-called ‘stiff ship’ situation. (https://safety4sea.com/)
stipulate /ˈstɪpljʊˌleɪt/ (v) (mar law) = lay down = set out odrediti, utvrditi, propisati
stipulated /ˈstɪpljʊˌleɪtɪd/ (adj) (mar law) određen (u ugovoru, propisu, konvenciji), predviđen, zacrtan
stirrups /ˈstɪrəps/ (n) stremen nogostupa (na krizu jarbola)
stock /stɑːk/ (=rudder stock) (n) (nav arch) struk kormila
stock /stɔk/ (n) (shipping econ) zalihe large ~s velike zalihe
stock /stɔk/ (n) (boating/yachting) klada (admiralitetskog) sidra
stock (n) (nav arch) a general term applied to the keel blocks, bilge blocks, and timbers upon which a vessel is constructed klada
stock (n) (boating/yachting) a crossbeam at the upper part of an anchor https://www.ypiyachts.com/

klada sidra © 2019 Encyclopedia Britannica, Inc.
https://www.britannica.com/technology/stock-anchor
stock bearing ležaj struka kormila
stockless anchor (n) (nav arch) patentno sidro, sidro bez klade
stockpile /ˈstɒk ˈpæl/ (n) (ports) skladište za rasuti i sipki teret: To maximise the unloading process loose cargoes are often loaded from a stockpile or stockyard into a hopper
stocks (n) (nav arch) a general term applied to the keel blocks, bilge blocks, and timbers upon which a vessel is constructed (SeaSources.net) klade

stockyard /ˈstɒk.jaːd/ (n) (ports) 1 lučko skladište; 2 skladište za sipki i rasuti teret

stokehold /ˈstəʊk.həld/ (n) (nav arch) ložište, kotlovnica

stoker /ˈstəʊkər/ (n) (marine eng) ložač, fogišta; Italian: fuochista

stonefruit (n) (cargo) košunjičavo voće: Apples, pears, kiwis, grapes and stonefruit (peaches, cherries etc.) are traditionally the main products that dominate this segment of reefer transportation.

Stop engine! (navig, marine eng) Zaustavite stroj! Stop port / starboard engine!
Zaustavite lijevi / desni stroj!

Stop heaving! (v) (seamanship) Ne povlačite više!, Zaustavite povlačenje!
(užeta), Zaustavite podizanje! (sidra)

stoppage /ˈstɑːp.dʒ/ (n) zastoj, prekid, obustava

stopped (adj) (navig, seamanship) zaustavljen vessel ~ zaustavljen brod

stopper 1 (seamanship, nav arch) A mechanical device or knot used to keep a rope from running.
https://www.ypiyachts.com/ štoper (sidrenog lanca): Evidently they had not applied stoppers on the chain prior to abandoning the tanker. chain ~ štoper lanca; 2 (boating/yachting, seamanship) naprava s jednom ili dvjema nazubljenima ekscentričnim polutkama za zaustavljanje pomične užadi jedrilja ili pomične opute jarbola štoper (na jedrilici), stoper line ~ rope to secure another rope stoper užadi (podigača, škotina), Italian. bozza; bozze

stopper knot (n) 1 (seamanship) čvor protiv raspletanja užeta
Although the engine was then set to ‘full astern’, the vessel’s stopping distance of 4 cables exceeded the available space ahead and she consequently made contact with the quay. Iako je stroj stavljen u položaj svom snagom natrag, zaustavni put broda od 4 kabela bio je duži od raspoloživog prostora po pramcu pa je brod zbog toga udario u obalu.

**stop the line** (seamanship) zaustaviti uže na vitlu, zadržati uže na vitlu, **aguantare ~ the line!** Zaustavi uže / konop!, Italian: **Aguanta!; Tieni fermo!**

**stop-water** (nav arch, sailing vessels) canvas and red lead, or other suitable material, placed between the facing surfaces of plates and shapes to stop the passage of oil or water (https://www.history.navy.mil/)  

**storage** /ˈstɔːridʒ/ (n) 1 a (cargo) skladištenje, uskladištenje; 2 (ports) skladište back-up ~ pozadinsko skladište, covered ~ natkriveno skladište, zatvoreni skladišni prostor, open ~ otvoreno skladište, otvoreni skladišni prostor, single ~ capacity jednovremeno uskladištenje, jednovremeni skladišni kapacitet, cold ~ skladište-hladnjača, rashladno skladište; 3 skladištenje tereta radi povoljne prodaje (npr. nafte), držanje zaliha na skladištu: Oil producers may be struggling as a result of low prices but the oil storage business has never been in better shape. oil ~ facilities skladišni kapaciteti za naftu, ~ tankj tank za skladištenje (sirove) nafte

**storage** /ˈstɔːridʒ/ (n) (boating/yachting) odlaganje (opreme, odjeće itd.)

**storage** /ˈstɔːridʒ/ (n) (ports) skladišnina, naknada za skladištenje free ~ period ležarina, razdoblje bez naplate skladišnine, vrijeme oslobođeno od plaćanja skladišnine

**storage accommodation** /ˈstɔːridʒ/ (n) (ports) skladišni kapaciteti

**storage area** (n) 1 (cargo handling) skladišni prostor; 2 (nav arch) spremište: He and his assistant went to the acetylene storage area, but were confronted by a ferocious fire on the port polypropylene mooring rope and from the acetylene bottles.

**storage battery** (n) (electr) akumulator

**storage charge** (n) (shipping econ, mar law) Charge for goods held in storage facilities (warehouses) under a fixed agreement for periods of time, and which is not included in other arrangement. (http://www.maerskline.com/en-jm/help/shipping-glossary) skladišnina

**storage facilities** (n) (ports) skladišni kapaciteti: Oil traders are struggling to find enough ships, railcars, caverns and pipelines to store fuel as more conventional storage facilities fill up amid abundant supply and plummeting demand due to the coronavirus crisis.  

https://gCaptain.com
storage locker  (n) (boating/yachting) ostava, prenemiste pod klupom kokpita, gavon, bakista
storage tank  (n) 1 (ports) tank za teret, tank za vodu; 2 (marine eng, nav arch) spreminik, rezervoar, tank; 3 (boating/yachting) tank za vodu
store  /sto:/ (n) sprema, brodska sprema List of ~s Popis zaliha, check the ~s provjeriti zalihe (hrane, vode ...), Bosun's ~ sprema vode palube
store /sto:/ (v) 1 (cargo) uskladištiti, spremiti: Oil companies booked tankers are expected to store as many as 9 million barrels of crude in northwest Europe amid signs that space in on-land depots is filling up. There are 14 to 16 Aframax-class tankers now storing crude in the region, J.; 2 pohraniti; 3 memorirati; 4 sakupljati
storehouse  /sto: ˌhaus/ (n) (ports) prenemiste, skladište supplier's ~
dobavljačevi skladište
storekeeper  /sto: ki.ˈpeə/ (n) (shipping econ) brodski skladištar
store list (n) popis zaliha hrane
Store List of Lights Popis zaliha
storeroom  /sto: ru.ˈm/ (n) 1 (nav arch) prenemiste; 2 (nav arch) The space provided for stowage of provisions or other materials. https://officerofthewatch.com/tools/maritime-dictionary/
smočnica, dispensa, ta. cambusa
stores  /sto:z/ (n) 1 a (shipping econ) skladišta; 2 supplies on a ship or boat; A general term for provisions, materials, and supplies used aboard ship for the maintenance of the crew, and for the navigation, propulsion and upkeep of the vessel and its equipment. (www.euronav.com) brodske zalihe, zalihe ~ and spares brodske zalihe i rezervni dijelovi: Our vessel anchored at 0730 to await delivery of stores and spares. Delivery of stores and spares have to be arranged and cleared through customs.; 3 zalihe hrane
stores and provisions (n) (seamanship) zalihe i hrana za brod, zalihe i provijant
stores file (n) (seamanship) knjiga / mapa zaliha
storing (n) skladištenje, spremanje robe
storm  (n) (meteorol) wind of at least force 10 Bf. (48 knots) jaka oluja, orkanski vjetar: This is a dangerous storm as it is tracking eastward at a fairly low latitude and is affecting shipping from North Europe and Mediterranean ports and US East Coast and Gulf ports. centre of the ~ središte oluje, centar oluje, to weather the ~ prebroditi oluju, proći kroz oluju, the ~ is tracking NE .. oluja se kreće prema sjeveroistoku (NE) ..: The center of the storm, which drenched parts of northeast Florida, Georgia and South Carolina earlier this week, was not threatening land as it moved east-southeast about 270 miles (435 km) southwest of Cape Hatteras, North Carolina, http://gcaptain.com/dangerous-north-atlantic-storm-impacting-shipping-lanes, the ~ impacts ... oluja obuhvaća ...: Dangerous north-atlantic storm- impacting shipping-lanes.
oluja nepovoljno utječe na pomorske putove ..
storm jib (n) (boating/yachting) olujna prečka, olujni flok, Italian: tormentina
storm sail (n) (boating/yachting) olujno jedro
storm sails (n) (boating/yachting) ANTONYM light wind sails olujna jedra: Storm sails are heavy, bulky and impractical for a skipper to take from yacht to yacht.
storm signal  (n) (safety) znak upozorenja za oluju
storm surge  (n) (oceanogr) COMPARE storm tide  a rise in water level on oceans and lakes caused by high winds pushing the water’ surface and piling water deeper and deeper as the storm moves forward. If combined with high tide may have destructive effect both as it moves ashore and when retreating after the storm pases olujna plima, olujna poplava: The longer the spring line (or any dock line), the more elasticity you will have in the event of a storm surge. Any marina facing significant storm surge is not safe, but those protected from a long fetch by a low wave barrier are particularly vulnerable. The port of Shanghai: In order to future-proof the port against rising storm surges and other climate effects, costs would be between EUR 340 million and EUR 550 million.

storm tide  (n) (oceanogr) olujna plima
storm track  (n) (meteorol) putanja oluje
storm trysail  (n) (boating/yachting) olujno jedro: The sail is required by offshore race rules and is a must for ocean-voyaging boats, but most modern production boats aren’t even set up for a storm trysail.
storm valves and pipes  (n) (nav arch, safety) ventili na palubi i cijevi koji se zatvaraju u slučaju nevremena

stow1 /ˈstoʊ/ (v) 1 (cargo handling) slagati (teret), složiti; 2 (seamanship) To put away or store in such a way as to make seaworthy. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/)
spremiti; 3 (boating/yachting) Složiti jedro (oko buma)
stow2 /ˈstoʊ/ (n) složeni teret, red (složenog) tereta logs in under deck ~ trupci složeni ispod palube
stowage /ˈstoʊidʒ/ (cargo) Loading or unloading goods into or from a space (container or vessel) in the most efficient manner. https://www.logisticsglossary.com/term/stowing/ slaganje (tereta) improper ~ neispravno slaganje tereta: The loss of containers was caused by improper stowage.
stowage factor /ˈstoʊidʒ/ (n) (shipping econ, cargo handling) (cargo handling) the space occupied by a unit weight of cargo under normal conditions. It allows the calculation of the space the cargo will occupy in the hold, given the weight of the cargo (Swadi); The average cubic space occupied by one ton weight of cargo as stowed aboard a ship. https://officerofthewatch.com/tools/maritime-dictionary/ faktor slaganja: Prior to loading bulk cargo , the shipper should declare characteristics & density of the cargo, stowage factor, angle of repose, amounts and special properties.
stowage plan /ˈstoʊidʒ/ (n) (cargo handling) plan slaganja tereta, plan krcanja tereta ~ of the hold plan slaganja u brodskom skladištu, ~ of the tween deck plan slaganja u međupalublju
stowaway /ˈstoʊəˌweɪ/ (n) (mar law) a person illegally aboard and in hiding

https://officerofthewatch.com/tools/maritime-dictionary/ slijepi putnik, ta. clandestino: ...
three stowaways were found hiding on an containership approximately three miles offshore of port of ..... GCaptain www.gCaptain.com

stowed /ˈstoud/ (adj) (cargo handling) složen: Make sure that cargo is carefully and safely loaded, stowed, separated, carried and discharged. cargo ~ složen teret

stow sails (v) (boating/yachting) slagati jedra (nakon jedrenja)
stow the sail (v) (boating/yachting) složiti jedro

St.Pierre /ˈstɛ.pjɛr/ (=Saint Pierre) (n) (fishing) = dory kovač

straddle carrier /ˈstrædəl/ (n) (cargo handling) Container terminal equipment, which is motorized and runs on rubber tires.; a hoisting device for loading or unloading containers onto or from a trailer https://www.logisticsglossary.com/term/straddle-carrier/

straight /ˈstreit/ (adv) ravno, izravno, direktno

straight /ˈstreit/ (adj) ravan, izravan, direktan, nesvinut a ~ line pravac, ravan crta

straight bill of lading /ˈstreit/ (n) (mar law) A straight bill states that the goods are consigned or destined to a specified person. It is marked nonnegotiable or not negotiable on its face. It may be transferred by its holder by delivery, accompanied with an agreement (express or implied) to transfer the title to the bill or to the goods it represents http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

straight course /ˈstreit/ (n) (boating/yachting) ravan kurs keep a ~ držati ravan kurs

straighten /ˈstreɪtən/ (v) izravnati

straight line (n) 1 pravac; 2 ravnaja linija

strain /ˈstreɪn/ (n) (phys) The measure of the alteration of form which a solid body undergoes when under the influence of a given stress. (https://www.history.navy.mil/); the change in dimension of a body under load expressed as the ratio of the total deflection or change in dimension to the original unloaded dimension. It may be a ratio of lengths, areas, or volumes - Collins On-line izobličenje, deformacija linear ~ linearna deformacija, value of ~ veličina deformacije

strain /ˈstreɪn/ 1 (v) naprezati se (materijal); 2 deformirati se, izobličiti se

strainer /ˈstreɪnər/ (n) (marine eng) COMPARE filter a coarse filter; Strainers are designed for relatively “large” particle sizes and we adhere to the guideline that strainers are best used for particles
you can see with your eyes, which tends to be particles larger than 50 microns.
(pročistač (grubi), filtr (grubl), cjedilo, Italian:succhiarola, sitasti
pročistač: The strainers were blocked with course grain sand and shells. fine mesh ~
pročistač guste mreže, pročistač s finim sitom, discharge ~ tlačni
pročistač, suction ~ usisni pročistač
strait /streɪt/ (n) (geogr) tjesnac a narrow ~ uski tjesnac
strake /streɪk/ (n) (nav arch) vodoravni niz čeličnih limova na brodskoj oplati; continuous planking or
plating fitted out to and from stem to stern of a vessel's side
strange /strænd/ (n) (seamanship) an element of a rope, consisting, in a fiber rope, of a number of rope
yarns twisted together and, in a wire rope, of a primary assemblage of wires
strang /'strænd/ (n) (safety, navig) nasukati se be ~ed: The cargo ship has been stranded at the mouth of
the river for more than a week after she ran aground while departing the port ... The ship was stranded at
posn ... at 04:00 h local time on 6 June. biti nasukan
striated gurnard /strɪktˈɡɜːnard/ (n) Lat. Lepidotrigla Cavallone kokot, lastavica, kokot
stream /stri:m/ (n) SYNONYM current  
the Golf Stream  
Golfska struja (oceanogr)  
morska struja

stream /stri:m/ (n) (marine eng) strujanje exhaust ~ ispušno strujanje

stream anchor (n) (nav arch) an anchor weighing from about one-fourth to one-third the weight of the main bow anchors and used when mooring in a narrow channel or harbor to prevent the vessel's stern from swinging with the current or the tide  
strujno sidro

streamline /ˈstriːmlain/ (v) (logist) make (an organization or system) more efficient and effective by employing faster or simpler working methods;

http://www.businessdictionary.com/definition/streamline.html; To improve the efficiency of a process, business or organization by simplifying or eliminating unnecessary steps, using modernizing techniques, or taking other app

http://www.businessdictionary.com/definition/streamline.html

pojednostaviti i ubrzati proces (transporta robe od prodavatelja do kupca)

streamline flow A nonturbulent flow, essentially fixed in pattern.
(http://www.marinedieseleurope.com/)  
strujno protjecanje, laminiranostrijanje

streamlining (n) (logist) povećavanje efikasnosti pojednostavljevanjem procesa (transporta): He said customers’ were looking to deal with “fewer business partners to do the same or more types of services.” The new services include streamlining the process of weighing, stripping and filling the shipping containers and improving trucker appointment systems” for delivery and pick-up. https://www.maritimeprofessional.com/news/maersk-port-business-woos-customers-314928

streeked weeverfish (=greater weever) (n) 1 (fishing) Lat. Trachinus draco pauk  
mrkulj, pauk, ranj, ranjan; 2 Lat. Trachinus radiatus pauk bijelac, taranta, ranj,

street turn (n) (logist, shipping econ) In the process of shipping, once a delivery order has been issued for an import full container and the customer has unpacked it, they are required to return the
empty container to a depot nominated by the shipping line.
https://shippingandfreightresource.com/shipping-jargon-street-turn/; charge for returning the empty container to a depot nominated by the shipping line **naknada za vračanje praznog kontejnera:** Some container carriers are said to start charging **Street Turn charges** of between $40 and $75 for such containers used for both import and export activities...

**streight edge** /strɛit,ɛdʒ/ (n) (marine eng) a flat stiff edge for checking straightness ravnī rub strength /streŋθ/ 1 čvrstoča (materiijala) tensile ~ vlačna čvrstoča, increase ~ povećati čvrstoću; 2 čvrstina (broda); 3 jačina strength deck (n) 1 (nav arch) the uppermost continuous deck contributing to the hull girder longitudinal strength paluba čvrstoće; 2 (nav arch) = main deck glavna paluba strength /stres/ (n) 1 (phys) force or a system of forces producing deformation; 2. An applied force or system of forces that tends to strain or deform a body. naprezanje, napregnuto stanje: As with any cargo ship it is important to load the cargo so that stresses in the ship remain at a minimum or at least evenly distributed. bending ~ naprezanje zbog savijanja, fluctuating ~ izmjenično naprezanje, tensile ~ vlačno naprezanje, naprezanje zbog vlaka, compressive ~ kompresivno naprezanje, naprezanje, shear ~ smično naprezanje, ultimate ~ maksimalno vlačno naprezanje: granica naprezanja na vlak, unit ~ jedinično naprezanje, working ~ radno naprezanje, measure the ~ izmeriti naprezanje, value of ~ veličina naprezanja; 2 udar, udarac; 3 pritisak

**stress imposed** (n) (nav arch) naprezanje izazvano ...: In harbour, where the ship is in sheltered water and is subjected to reduced dynamic loads, the hull is permitted to carry a higher level of stress imposed by the static loads, so a certain amount of difference in the loading of each hold is allowable.

**stress od weather** (n) djelovanje nevremena
**stress-strain curve** (n) (marine eng) krivulja naprezanja i deformacije
**stress-strain diagram** (n) (marine eng) dijagram naprezanja i deformacije
**stress-strain line** (n) (marine eng) linija naprezanja i deformacije
**stretch** /strɛtʃ/ (n) (marine eng) rastezanje, vlačna sila ~ of the stud rastezanje vijka, vlak vijka

**stretch** /strɛtʃ/ (v) (boating/yachting) 1 razvući, rasprostrijeti; 2 razapetiti jedro

**stretching screw** (n) (cargo handling) = turnbuckle stezaljka, škartoc

**strike** /straɪk/ (= (inf) strike, (past tense) struck, (past part.) struck) (v)

**udariti (u / o nešto):** When the squalls struck, some lines rendered; others parted. Kad je olujni vjetar zahvatio brod, neki su privezni konopi popustili, a drugi su puknuli. The LNG ship’s port bow struck the container ship’s port quarter at 0636. MAIB accident reports ~ a dock udariti u luku

**obalu:** The Transportation Safety Board is sending two investigators to the port after large container ship strikes dock in Vancouver, ~ an object udariti u neku lučku građevinu, ~ a bridge: The general cargo ship MV ... ... was transiting the Ems River when it struck the bridge near the town of Weener at about 6:40 p.m. local time after the bridge failed to raise for the vessel. The vessel struck a bridge on Main-Donau-Kanal. udariti u most, ~ a buoy udariti u plutaču, ~ a ship udariti u brod: The tanker’s bow struck the port side of the container ship, penetrating the two port
wing ballast tanks and the no. 4 port cargo tank, ~ a reef udariti o greben: The containership struck the reef at a speed of about 17 knots, ~ a pier udariti u gat (molo): The ship was coming in to dock when it lost control and struck the pier despite efforts to stop the vessel, ~ a crane udariti u dizalicu (o brodu), srušiti dizalicu: A containership struck multiple shoreside gantry cranes and another ship while berthing. https://gCaptain.com, ~ bottom udariti o dno: The ship strayed into shallow water and struck bottom.

strike /strɪk/ (n) (mar law) štrajk: … Shipping Services is advising of a further 24 hour general strike on December 3 which is expected to affect vessel movements at many country’s ports and terminals. Strike has brought all ships to a halt. Strike causes delays at ports. Štrajk izaziva kašnjenja u lukama.

strike clause /strɪk/ (n) (mar law) Clause in a Bill of Lading or Charter-Party that sets out the options available to the parties to the contract of carriage in the event that a strike prevents or interrupts the loading or discharging of the cargo. http://www.tkmglobal.net/chartering_S.HTM

stringer /ˈstrɪŋər/ (n) SEE structural components a fore-and-aft girder running along the side of a ship and also to the outboard stroke of plating on any deck proveza ~ plate lim proveze, bulkhead ~ proveza pregrade, side ~ bočna proveza, proveza boka, deck ~ palubna proveza, deck ~ plate palubna proveza

strip /strɪp/ (n) vrpca, traka bimetallic ~ bimetalna traka

strip: (v) ~ the tank očistiti (tank), odstraniti nečistoće u tanku

stripe /strɪp/ 1 (navig) pruga (pomorske oznake / plutače / svjetionika); 2 pruga (na zastavi); 3 (seamanship) pruga na časničkoj odori, štrika

striped red mullet /ˈstrɪpɪd/ (n) 1 (fishing) Lat. Mullus surmuletus trlja od kamena, trilja, trlja
blatarica
striped seabream (n) (fishing) Lat. *Lithognathus mormyrus* ovčica, arkaj, košač,

samac, mormora
stripper pump (n) (marine eng) = stripping pump pumpa za isušivanje tekućine iz tanka (nafte itd.), pumpa za ispumpavanje tekućine iz tanka (nafte itd.)

stripping /stripin/ (n) 1 (cargo) unloading of various small consignments from a container
posušivanje (tanka): special purpose areas for container stuffing and stripping shed have been set up.
; 2 (cargo handling) ANTONYM stuffing unstuffing the container; The process of removing cargo from a container.; a service offered to the customer in which the carrier performs stripping (cargo unloading) or stuffing (cargo loading) of the customer’s container at the port area.

pražnjenje kontejnera
stripping pump (n) (cargo handling) (marine eng) pumpa za čišćenje cjevovoda, pumpa za isušivanje tekućine iz tanka (nafte itd.)

stripping system (n) (nav arch) before changing cargoes or gas-freeing it is most important to remove all cargo liquid from tanks, piping, reliquefaction plant and any other part of the cargo system.

sustav čišćenja starog tereta (iz tankova, cjevovoda, pumpa itd.): There are two kinds of stripping procedures applying for this vessel. Cargo tanks 6P&S, 5P&S, 4P&S which are located aft of the manifold and cargo tanks 3P&S, 2P&S, SLOP which are at fore of the manifold. Stripping
is done by using compressed air or nitrogen when substances can not face to contact the air ie oxygen.

**stroboscope** /ˈstrəʊbə skəʊp/ (n) (marine eng) An instrument used to observe the periodic motion of injection visible only at certain points of its path. (http://www.marinedieseleurope.com/)

**strobskop**

**stroke** /strʊk/ (n) (marine eng) stapaj, hod (klipa), takt ~ / bore ratio omjer stapaj / provrta cilindra, bottom of the ~ donji krajnji položaj klipa, on its down ~ klip (stap) u hodu prema dolje, working ~ radni takt, power ~ radni takt, compression ~ kompresijski takt, takt stlačivanja, exhaust ~ ispušni takt, expansion ~ ekspanzijski takt, takt exspanzije, firing ~ takt paljenja, idle ~ jalovi takt, induction ~ usisni takt, power ~ radni takt, return ~ povratni stapaj, suction ~ usisni takt, top of ~ gornji položaj klipa, gornji položaj stapaja, working ~ radni takt

**stroke** /strʊk/ (n) (seamanship) zaveslaj

**stroke-to-bore ratio** (n) (marine eng) omjer stapaj i provrta cilindra

**strongbacks; strong back** (n) (nav arch) zaštitni teglački luk

**strong beam** (n) (nav arch) pojačana sponja, pojačana palubna sponja

**strong breeze** (n) (boating/yachting) (meteorol) jak vjetar

**strong gale** (n) (meteorol) olujan vjetar

**strongholds** (n) (nav arch, safety) uke za pričvršćivanje peljarskih ljestava: A pilot ladder could be deployed over the top of the rail and then secured to the strongholds that were welded to the deck.  ww.gov.uh/com

**strop** (n) (cargo handling) pasac (s dvije omče na krajevima), braga

**structural components** (n) (nav arch) elementi konstrukcije broda: Ship’s structural components undergo several types of deformation.
Chapter 6: Ship Structural Components

Longitudinal Strength Members
- Keel
- Longitudinal
- Stringers
- Deck Girders
- Plating

Transverse Strength Members
- Frame
- Floor
- Deck Beams
- Plating

http://slideplayer.com/slide/3816017/

structural damage oštećenje konstrukcije, konstrukcijska šteta: There was significant structural damage to the starboard side of the forward mooring deck, fore peak tank and the ship's starboard quarter. www.gov.uk/maib

structural features /ˈstrʌktʃərəl/ (n) (nav arch, marine eng) konstrukcijska obilježja, konstrukcijske osobine
structural item /ˈstrʌktʃərəl/ (n) (marine eng, nav arch) strukturni element
structural member /ˈstrʌktʃərəl/ (n) (nav arch) konstrukcijski dio broda
structural tank /ˈstrʌktʃərəl/ (n) (nav arch) strukturni tank
structure /ˈstrʌktʃər/ (n) 1 konstrukcija supporting ~ nosiva konstrukcija; 2 struktura
strum box /strʌmboks/ (=strum; rose box) (n) (nav arch) The enlarged terminal on the suction end of a pipe which forms a strainer to prevent the entrance of material liable to choke the pipe. (https://www.history.navy.mil/) košara, sito, usisno zvono
strut /strʌt/ 1 (nav arch) prostorna sponja; 2 = panting beam
strut /strʌt/ 1 (nav arch) podupora; 2 (nav arch) nosač izvan trupa na podvodnome dijelu broda; brace supporting the propeller shaft; = shaft bracket skrok shaft ~ nosač osovine, podupora osovine
STS transfer (=Ship-to-Ship Transfer) (n) (cargo handling, navig) the transfer of ship's cargo, which can be oil or gas cargo, between two merchant tanker vessels positioned alongside each
Other (https://safety4sea.com/) prekrcaj tereta s broda na brod: STS transfer is most frequent for liquid cargoes, but also applies for dry cargo. The operation may be conducted with both vessels at anchor or, in some cases, may be conducted underway. https://safety4sea.com/

stub (n) (boating/yachting) izdanak /trupa) keel ~ izdanak trupa za kobilicu: The keel has recently been cleaned, primed, and painted, and is holding up well. However, the seam between the keel and the keel stub is opening up. The keel bolts are not leaking. This boat was hit so hard that the keel stub itself has been cracked.

stuck /stʌk/ (=stick - stuck - stuck) (adj, v) (marine eng) stisnut, zaustavljen: Some moving parts of the main engine are stuck. Neki su pokretni dijelovi stroja zaustavljeni.

stud /stʌd/ (n) (marine eng) http://marineengineeringonline.com/holding-bolts-marine-diesel-engines/; stud bolts have both ends threaded, but one end takes a nut while the other is screwed into a tapped hole. usadni vijak, pržunj, Italian: prigioniero: Maintenance is facilitated by hydraulic tightening devices for the cylinder head holding-down studs, the main bearing studs and the connecting rod big end studs.

fixing ~ pričvarski vijak, tensioning ~ pritezni vijak, vijak za pritezanje

stud /stʌd/ (n) (navig, seamanship) prečka karike lanca: Chains consist of chain links which can be either stud-links or studless links. ~ link karika lanca s prečkom
**studless chain**

/stʌdlis/ (n) (nav arch) sidreni lanac s karikama bez prečke

https://shundehai.en.made-in-china.com/product/xCImMvDdAYhe/China-38mm-Grade-3-Marine-Stud-Link-Anchor-Chain.html

**Stuelcken derrick**

(n) (cargo handling) samarica za teške terete (proizvođač)

**studless chain link**

/stʌdlis/ karika bez prečke
stuff /stʌf/ (v) (cargo) puniti (teret u kontejner) bagged ~ uvrećeni teret, teret u vrećama, vrećarija
stuffing /ˈstʌfiŋ/ (n) (cargo) ANTONYM stripping The process of packing a container with loose cargo prior to inland or ocean shipment.; loading of various small consignments into a single container punjenje (kontejnera): special purpose areas for reefer containers and dangerous cargo containers and a container stuffing and stripping shed have been set up.
stuffing and stripping /ˈstʌfiŋ/ (n) (cargo handling) punjenje i pražnjenje kontejnera
stuffing box /ˈstʌfiŋ/ (n) 1 (marine eng) an assembly which is used to house a gland seal. It is used to prevent leakage of fluid, such as water or steam, between sliding or turning parts; A chamber having a manual adjustment device for sealing. (http://www.marinedieseleurope.com/) brtvenica ~

bulkhead pregrada brtvenice, ~ packing brtva brtvenice
http://mh-mechanicalengineering.blogspot.hr/2012/06/stuffing-box.html 2 (nav arch, boating/yachting) When used within a nautical setting, a stuffing box is wrapped around the shaft of a boat’s propeller.

šupernica (propelerske osovine)
sturgeon /ˈstɹdʒən/ (n) (fishing) jesetra
S-twist (n) (seamanship) ANTONYM Z-twist sukanje konopa u lijevo
STW (speed through the water) (n) (navig) brzina kroz vodu
stylus (n) pisač, pisaljka indikatora
subagent (n) (mar law) podagent
sub-charter (n) (mar law) potprijezvozni ugovor, podugovor, podbrodarski ugovor, podčarter
sub-charterer (n) (mar law) Person or company who charters a ship for a party, who is not the owner but who, in turn, has chartered the ship. http://www.tkmglobal.net/chartering_S.HTM
podčarterer, podunajmitelj broda
Sub-Committee on Safety of Navigation, Communication and Search and Rescue (n) (safety, mar law) Pododbor za sigurnost plovidbe, komunikacije te traganje i spašavanje IMO-a
**subcontract** (n) *(mar law)* podugovor

**sub-contractor; subcontractor** /ˈsʌbkonˈtəktr/ 1 *(mar law)* Sub-Contractor includes owners, charterers, and operators of vessels (other than the Carrier), stevedores, longshoremens, lighterers, terminal and groupage operators, road and rail transport operators, warehousemen, customs inspection stations, port authorities, pilots and any independent contractors employed by the Carrier performing the Carriage and any direct and indirect sub-contractors, servants and agents thereof whether in direct contractual privity or not. (TeamLines) podugovorni poduzetnik; 2 *(shipping econ)* dobavljач; 3 izvođač (radova, ugovorenog posla)

**subdivision freeboard** /ˈsʌbˌdɪviʃən/ *(nav arch)* pregradno nadvođe

**subject to** /ˈsʌbˌdʒektɪd/ *(adj)* (mar law, marine eng) podvrgnut

**subject to** /ˈsʌbˌdʒiktɪd/ *(v)* podvrgnuti, podvrći, izvrgnuti, izložiti: After Port State Control inspections, both vessels were detained subject to completion of repairs. MAIB accident reports

**submarine** 1 *(navy)* podmornica attack ~ napadačka podmornica, tactical ~ taktička podmornica

**submarine** 2 *(adj)* podmorski

**submarine cables and pipelines** *(navig)* podvodni kablovi i cjevovodi

**submarine loading terminal** *(n)* *(cargo handling, ports)* A terminal where loading is carried out by means of an offshore hose run along the sea bottom. terminal za podvodni ukrcaj

**sirotne nafte**

**submerged** *(adj)* *(safety)* uronjen: Some partly submerged containers pose a threat to leisure boats and commercial shipping.

**Submerged Turret Loading (STL) system** *(n)* *(cargo handling)* Sustav krcanja sirotne nafte putem uronjenog prekrcajnog tornja: The basis of the Submerged Turret Loading system is the buoy moored to the seabed. The buoy is pulled into and secured in a mating cone in the bottom of the vessel and thus connecting the mooring system. Internal in the buoy is the turret to the mooring and riser systems. The outer buoy hull can rotate freely with the vessel around the turret by means of internal turret bearings. Oil is transferred through an in-line swivel via the loading manifold to the piping system of the vessel. Disconnected, the buoy will float in an equilibrium position ready for new connection.

**submersible** /ˈsʌbˈmɜːsəbl/ *(nav arch)* ronilica

**submission** /ˌsʌbˌmɪʃən/ *(n)* podnesak, podnošenje (molbe, zahtjeva itd.)

**submit** /ˌsʌbˈmɪt/ *(v)* *(mar law)* 1 a podnijeti, dostaviti; 2 predati (dokument) ~ a claim podnijeti odštetni zahtjev, uložiti reklamaciju, ~ a document 1 predati ispravu, predati dokument: Within 24 hours of the ship’s arrival, its owner, local agent or master should submit the documents to the Port Formalities Office (PFO).; 2: The following documents are submitted in support of this claim: ...
sub-refraction (n) (electr, navig) podrefracija
subsidy (n) (shipping econ, financ) subvencija, državna potpora: Government support for any industry including shipping – which is feeling the heat of global competition might seem like a good thing. But direct subsidies from governments in fact have a negative impact on the global shipping industry as they affect free trade. ‘COSCO Shipping is heading for a solid 2017 result, but much of that can be attributed to subsidies’ https://fairplay.ihs.com/commerce/article/4296986/cosco-heads-for-profit-on-huge-subsidies-and-recovering-market?mgs1=f562pNGwZF maritime subsidies državna potpora brodarstvu, subvencije brodarima
subsistence /ˈsəbˈsistəns/ (n) naknada za troškove (dnevnica, bolovanja itd.) daily ~ allowance naknada za dnevnice
substandard vessel (n) (mar law) podstandardni brod
substantial /ˈsəbˈstænʃəl 1 a čvrst, jak; 2 znatan, izražit ~ damage znatna šteta, velika šteta
substitute flag /ˈsəbstɪˌfɔːl/ (n) (comm) ponavljač, zastavica ponavljač
substitution clause /ˌsəbstɪˈʃən/ (n) (mar law) The replacement of a ship with another ship.
supstitucijske klauzule (u brodarstvima), klauzula o zamjeni broda (u ugovoru o najmu broda)
subtract /səbˈtrækt/ (v) oduzeti
subtraction /səbˈtrækʃən/ (n) (math) oduzimanje
suction /ˈsəksʃən/ (n) (marine eng) usis, sisanje, usisavanje ~ stroke usisni takt, sea water ~ 1 usis morske vode; 2 low / high sea water ~ usis morske vode na otvorenom moru / u plitkim vodama, ~ strainer usisni pročistač, ~ pipe usisna cijev, ~ valve usisni ventil
suction and discharge mode (n) (marine eng) režim crpljenja i tlačenja (tekućine): The centrifugal type sea water, fresh water, ballast and bilge pumps, all driven by electric motors. These are capable of operating in regular conditions in both suction and discharge mode without overloading.
suction stroke (n) (marine eng) usisni takt, faza usisa
suction valve (n) (marine eng) = intake valve usisni ventil
suction ventilator (n) (nav arch) usisni ventilator, zračni ejektor
sue /suː; US suː/ (v) (mar ins) tužiti: The consignee is not the original party to that contract of carriage. However, upon receiving the bill of lading from the shipper, he will also acquire the right to sue the carrier by reason of the transfer of the bill of lading to himself. The Merchant Marine Act of 1920, which is commonly referred to as the Jones Act, is a federal law that allows seamen to sue their employers for on-the-job injuries caused by negligence on the part of vessel owners, companies, shipmasters, or fellow crew members ~ (somebody) for damage tužiti (nekoga) zbog štete
sue and labour clause (n) (mar law) klauzula o dužnostmi umanjenja štete ako je osiguranik poduzeo mjere za umanjenje štete
Suez Canal Net Tonnage Certificate (n) (nav arch, mar law) svjedočba klasifikacijskog društva o neto tonaži broda za prolaz Sueskim kanalom: The Suez Canal Net Tonnage Certificate can be obtained from any class society. The SCNT
is measured every time the vessel transits the Canal. The SCNT is close to the vessels International Gross Tonnage SCNT is roughly half the vessels deadweight.

**Suez Canal Required Documents** *(n) (navig)* Ispraze za prolaz Sueskim kanalom

**Suezmax** *(n) (nav arch)* brod koji može ploviti Sueskim kanalom brod tipa Suezmax

**suffer damage** *(v) (navig)* pretrpjeli oštećenje, biti oštećen: Both vessels suffered major structural damage to their bows, but there were no injuries or pollution. The tanker suffered only minor damage to its bow.

**suitable** *(adj)* prikladan, pogodan, podesen ~ for pogodan za

**suit of sails** *(n)* (boating/yachting) jedrilje, komplet jedara, sve jedrilje podignuto i razvijeno; 2 sve jedrilje podignuto i razvijeno

**sullage** *(n)* COMPARE sewage plant

**sulphur** *(chem, environ, marine eng)* sumpor: BP Plc expects more than 90 percent of the world’s shipping fleet will comply with new regulations slashing sulfur levels ships are allowed to burn starting 2020 gCaptain <info=gcaptain.com@mail70.us4.mcsv.net> The IMO has warned that it expects immediate compliance with the new regulations and any ships not meeting the low sulphur requirement could be deemed “unseaworthy”.. The warning comes in anticipation of the International Maritime Organization’s low sulphur fuel rule which is to take effect on January 1, 2020. http://gcaptain.com/paris-mou-to-enforce-low-sulphur-fuel-requirement-from-day-one/? To comply with the rule, ships will need to either burn higher cost low sulphur bunker fuel, use an exhaust gas “scrubber” system, or be converted or built for alternative fuel such as liquidified natural gas. http://gcaptain.com/paris-mou-to-enforce-low-sulphur-fuel-requirement-from-day-one/? They were using fuel that exceeded the maximum allowable sulfur concentration in the U.S. Caribbean Emission Control Area. https://www.marineinsight.com low ~ fuel gorivo s niskim postotkom

**sumpora, niskosumporno gorivo**: BP Sees Strong Compliance with 2020 Low Sulphur Fuel Rule gCaptain <info=gcaptain.com@mail70.us4.mcsv.net>, cap on ~ gornja granica

**sadržaja sumpora, plafon sadržaja sumpora**: Demand for high sulfur fuel oil is expected to crater in 2020 when the International Maritime Organization introduces a cap on sulfur. gCaptain <info=gcaptain.com@mail21.sea21.rsgsv.net> The International Chamber of Shipping is looking ahead towards a zero-carbon future for shipping as sulphur and greenhouse gas emissions takes center stage starting with the IMO 2020 global sulphur cap next year. https://gcaptain.com, ~ dodatak na vozarinu za (brodarovo) poštivanje gornje granice udjela sumpora u gorivu: the shipping company applied sulphur cap surcharge, reduce ~ content in the fuel

**smanjiti udio sumpora u gorivu**: Starting in January, vessels the world over will have to drastically reduce sulfur content in their fuel to comply with rules set out by the International Maritime Organization in London. https://gcaptain.com

**sulphur content analyser** *(n) (environ)* uređaj za analizu sadržaja sumpora *(u gorivu):* ... High-Tech is to offer the Japanese company’s handheld XRF sulphur content analysers to the maritime market. The technology enables vessel crews to test the sulphur content of their fuel, on the spot http://trends.nauticexpo.com/project-328301.html?

**sulphur content limit** *(n) (marine eng, environ)* granični sadržaj sumpora *(u gorivu):* Starting from January 1, 2020, the International Maritime Organization will require ships to burn fuel with a sulphur content limit of 0.5 percent, down from 3.5 percent currently. gCaptain <info=gcaptain.com
sulphur emission from vessels (safety, marine eng) ispuštanje sumpora iz brodova: The United Nations’ shipping agency set global regulations on Thursday to limit the amount of sulfur emissions from vessels and said they would come into force from 2020.
sulphur limit (marine eng, environ) granični postotak sumpora, granični
udio sumpora (u gorivu): the International Maritime Organization decreed in October 2016 that the sulfur limit on marine fuels will fall to 0.5% in 2020, from 3.5%.
sultriness /ˈsʌltrinis/ (meteorol) sparina
sumbarine /ˈsʌmberi.ni/; '.sʌmberi.ni/ (adj) podmorski, podvodni ~ cable podmorski kabel
summary judgement (mar law) a judgment entered by a court for one party and against
another party without a full trial. (https://www.law.cornell.edu/wex/summary_judgment); a summary
judgment (also judgment as a matter of law) is a judgment entered by a court for one party and
against another party summarily, i.e., without a full trial. Such a judgment may be issued on the merits
of an entire case, or on discrete issues in that case. (https://en.wikipedia.org/wiki/Summary_judgment);
a judgment entered by a court for one party and against another party without a full trial sudska
odluka u skraćenom postupku, sumarna presuda: A procedural device used
during civil litigation to promptly and expeditiously dispose of a case without a trial. It is used when there
is no dispute as to the material facts of the case and a party is entitled to judgment as a Matter of Law.
summer fresh water line teretna linija za slatku vodu (ljetna)
summer load line (nav arch) ljetna teretna crta, ljetna teretna linija
summer tank (nav arch) ljetni tank
sump /samp/ (marine eng) uljno korito, dno kartera, slivnik: The sump is the main
storage tank, located under a grill in the crankcase. ~ tank slivni tank, engine ~ uljno korito
https://bpi.ebasicpower.com/shop/all-applications/engine-system/lineware/oil-pans; 2 (boating/yachting) santina
sump pump (boating/yachting) a pump which removes liquid from the engine sump pumpa
tuša
sunburn /ˈsʌn.bɜːrn/ (safety) sunčanica
sundry /ˈsʌndri/ (pron) razno, ostalo
sunken (adj) (safety) potonuli (brod): A giant crane was used to lift a sunken tugboat from the
bottom of the Hudson River.
sunken ship (safety, mar ins) A sunken ship means that the vessel lost her buoyancy. It does not
imply the total loss of the ship. (www.emsa2018) potonuli brod
sunk forecastle (nav arch) A forecastle which is raised only a partial deck height above the
sunk poop

(n) (nav arch) A poop deck which is raised only a partial deck height above the level of the upper or weather deck.

niski kaštel

level of the upper or weather deck.

sunpowered telephone bezbaterijski telefon

sunrise /ˈsuːn raiz/ (n) izlazak sunca

sunstroke /ˈsuːn streuk/ (n) (med) sunčanica

supercargo (n) (mar law) Person employed by a ship owner, shipping company, charterer of a ship or shipper of goods to supervise cargo handling operations. Often called a port captain.

https://officerofthewatch.com/tools/maritime-dictionary/ nadzornik tereta, inspektor tereta, soprakariko

supercharger /ˈsuːprəˌtʃɑːdʒər/ (n) (marine eng) An air pump driven by the engine which fills the cylinders with a higher pressure than atmospheric pressure. (http://www.marinediesel-europe.com/)

prednabijač

supercharging /ˈsuːprəˈtʃɑːdʒɪŋ/ (n) (marine eng) prednabijanje

superheat /ˈsuːpər hit/ (v) (marine eng) pregrijavati

superheater /ˈsuːpər hɪˈteɪ/ pregrijač (pare)

superintendent nadzornik, kontrolor, šoprakariko, Italian: sovraccarico: At that time I was Assistant Dock Superintendent, later transferring to ‘Special Projects’ within the Company. A superintendent from the bunker supplier also came onboard to monitor the bunkering and had a briefing with the Chief Engineer. https://safety4sea.com

superior /ˈsuːpriər/ (adj) nadređeni, pretpostavljeni, viši o činu

super-refraction (n) (electr, navig) nadrefrakcija, superrefrakcija: The radar beam is refracted more than normal causing considerably increased target detection ranges, typically up to 25%.

supersede /ˈsuːpərdiːd/ (v) istisnuti, zamijeniti

superseding clause (n) (mar law) A clause in a bill of lading (providing that the bill of lading itself supersedes all agreements or freight engagements for the shipment of the goods, and also that all the terms of the bill of lading, whether written, typed, stamped or printed, are binding on the shipper, consignee, owner of the goods and holder of the bill, as if the bill were signed by them, any local customs or privileges to the contrary notwithstanding

super-slow steaming (n) (shipping econ, navig) sailing involving two-stroke engines (on container vessels) which are able to run continuously at low loads ensuring a more flexible and energy-efficient vessel operation, thus reducing consumption to more than 50 per cent and significantly reducing the pollution of the environment superekonomična plovidba: Maersk Line won award for super slow steaming initiative.

superstructure /ˈsuːpəstrəktʃər/ (n) (nav arch) a structure built above the uppermost complete deck; a pilot house, bridge, galley house, etc; according to International Convention on Load Lines (1966): detached enclosed structure on the freeboard deck and extending transversely to within 4% of the breadth from the vessel's sides https://officerofthewatch.com/tools/maritime-dictionary/ General term for sections of a vessel constructed on and above the upper or main decks of a vessel.

https://officerofthewatch.com/tools/maritime-dictionary/ nadgrade
superstructure decks /ˈsuːpə,strəˈkrɪf/ palube nadgrada
supertanker /ˈsuːpə,tæŋkə/ (n) (nav arch) sueretanker: So-called supertankers, which exceed 100,000 dwt, are employed to transport crude petroleum from the oil fields to refineries.
supervise /ˈsuːvaɪz/ 1 a nadzirati, nadgdledati; 2 recenzirati
supervision /ˈsuːvəˈvaɪʒən/ (n) 1 (marine eng, nav arch) a nadzor, nadziranje, nadgledanje; 2 (marine eng) tehnički nadzor
supervision during the ship construction (n) nadzor nad gradnjom broda
supervisory board /ˈsuːpəˌvaɪzərɪ/ (mar law) nadzorni odbor (dioničkog društva)
superyacht (n) (nav arch) yachts that are generally over 150 feet (45.7 meters) LOA, though there is no firm cut-off point on the lower-end of the size range. Many super yachts are ships, not boats or small-craft superjahta
supper pipe odljevna cijev
supplant /ˈsuːpəplɑːnt/ (v) potisnuti
supplier /ˈsuːpəplər/ (n) 1 (shipping econ) dobavljač ~'s storehouse dobavljačevo skladište; 2 (mar law) osoba koja će u naručiteljevo ime isporučiti teret koji treba ukrcati i prevesti isporučitelj robe; 3 opskrbljivač
supplies (n) (seamanship) = stores brodske zalihe (materijala), zalihe hrane
supply /ˈsuːplai/ (n) 1 a dovod, dobavljanje, dobava ~ of fresh air dovod svježeg zraka, ~ system sustav dovoda / dotoka, dobavni sustav, metered fuel ~ dozirana dobava goriva, power ~ snabdijevanje (električnom) energijom, dovod električne energije, fuel-oil ~ dovod goriva; 2 snabdijevanje, opskrba; 3 dostava; 4 dotok
supply /ˈsuːplai/ (v) dobavlji, snabdijevati, opskrbljivati, podržavati
supply and demand (n) (shipping econ) ponuda i potražnja: Freight rates fluctuate according to supply and demand: When cargoes are fewer than ships, rates are low.
supply boat (n) (navy) opskrbnaja brodica
supply chain (n) (logist) dobavni lanac: Technologies such as Blockchain, IoT, Big Data, Machine Learning, Artificial Intelligence are all finding their niche in the whole process of supply chain. https://shippingandfreightresource.com/scit19-where-supply-chain-innovation-and-technology-come-together/ All parties have end-to-end visibility of the container’s progress through the supply chain%. www.blockchain_IBM.pdf Maersk’s ability to gain greater control of shipments as they move through the supply chain is key to the largest container line transforming itself into a provider of integrated end-to-end logistics. https://www.joc.com/maritime-news/container-line The pandemic has exposed the fragility of the global supply chains. (https://safety4sea.com/)

Supply Department (n) (navy) Supply Department provides te ship with everything: repair parts, stores, meals, and “hotel” services. Nabavna služba (ratnog broda) S1 Division Stores Division is the ship’s version of a hardware store, repair parts warehouse, and convenience store, all rolled into one. The Storekeepers provide material support to the entire ship za zalihe i pričuvne dijelove, S2 Division The Food Service Division in the ship is staffed by Culinary Specialists (CSs).
prehrambeno-ugostiteljski odjel, S3 Division Sales and Services Division in the ship is staffed by a team of Ship's Servicemen (SHs) dedicated to customer service. S-3 includes the Barber Shop, Laundry, Ship's Store and Vending Machines, and is inextricably linked to the morale of the ship.

odjel za opće potreøtne posade

supply ship (n) (nav arch) opskrbeni brod, brod za opskrбу

support /saˈpɔːt/ 1 a (marine eng) nosač, stup, potpora, uporanj; 2 (navig) nosač / stup svjetlosne oznake; 3 podrшка; 4 postolje

support/səˈpɔːt/ (v) nositi, podnijeti, podupirati, podržavati

support level /saˈpɔːl/ (n) (mar law) razina odgovornosti za obavljanje dodijeljenih zadataka, dužnosti ili odgovornosti na pomorskome brodu pod vodstvom osobe na radnoj ili upravljačkoj razini pomoćna razina

surcharges /sɜːtʃʊər/ (n) (shipping econ) additional charges above ocean freight naknada za dodatne troškove, dodatni troškovi (iznad iznosa vozarine): Carriers intend to be compensated for the higher fuel costs or investments in scrubbers they incur during the two months before permanent floating LSFO surcharges covering their entire fleet... https://www.joc.com/maritime-news/container-lines/more-trans-pacific-carriers-levy-interimimo-surcharges-november_20190913.html? Each carrier will have its own temporary surcharges for spot and contract shipments. Each carrier is calling its low-sulfur fuel surcharge by a different name https://www.joc.com/maritime-news/container-lines/more-trans-pacific-carriers-levy-interim charges

mandatory ~ obvezni dodatni troškovi (iznad osnovnih): A mandatory surcharge constitutes a part of the rate which is not covered by the basic ocean freight.

(http://www.maerskline.com/en-us/shipping-services/rates-and-pricing), Bunker Adjustment Factor– SBF a charge to account for the fluctuations in bunker costs (oil used by the vessels) that changes on quarterly basis dodatni troškovi uslijed fluktuacije cijena brodskog goriva, Terminal Handling Charges –THC The Terminal Handling Charges are based on the cost of handling the container in the terminals, including loading and discharging containers to/from the vessel. dodatni troškovi rukovanja teretom na terminalu, Documentation Charges the charges for providing the necessary transport documents at the origin and destination, based on your shipping instructions troškovi za izradu transportne dokumentacije

sure /ʃʊər/ (adj) siguran, pouzdan make ~ provjeriti, uvjeriti se, osigurati se surf /sɜːf/ 1 (boating/yachting) to ride on or along a wave on a surfboard surfati na dasci; 2 (navig) planirati (na valovima), klizati (na valovima)
surf /sɜːf/ (n) = breaker the waves breaking upon a shore or reef lomni valovi (na grebenu ili obali); 2 (oceanogr) pjenas lomnih valova

surface (n) površina, ploha bearing ~ ležajna površina, glazed ~ ostakljena površina, inclined ~ kosa površina, inner ~ unutarnja površina, outer ~ vanjska površina, vanjska ploha, sloping 1 kosa površina, nagnuta ploha, running ~ radna površina, klizna ploha, wearing ~ površina izložena trošenju, ~ heater površinski zagrijač, bearing ~ ležajna površina

surface effect ship (=SES) (n) (nav arch) dvotrupac koji dio istisnine poništava tlakom zračnogaja jastraža među trupovima brod tipa SES high speed surface-effect ship brži brodovi koji koriste utjecaj površine mora

surface permeability factor (n) (nav arch, safety) površinski koeficijent
naplavljivosti

**surface picture (SURPIC)** *(n) (safety)* A list or graphic display from a ship reporting system of information about vessels in the vicinity of a distress situation that may be called upon to render assistance. *(IAMSAR)* površinska slika pozicija brodova ili objekata (u SAR-u), **surpic**

**surface ship** *(n) (navy)* površinski brod

**surfboarding** jahanje na valovima, surfanje daskom

**surf casting** obalni ribolov sa plitko položenih pjeskovitih obala surf

**surfing** *(n) (boating/yachting)* jahanje na valovima, surfanje
dizanje mora (od valova prema obali), storm ~ naglo dizanje mora u oluji

**surge** *(n) (oceanogr)* the swell of the sea; rising and falling of the sea, usually due to wave action

**surge** *(n) (marine eng)* A momentary rise and fall of pressure or speed in a system or engine.

**surgeon** *(n) (med)* brodski liječnik, brodski doktor; 2 *(med)* kirurg

**surge the cable** *(v) (seamanship)* popustiti lanac, popuštati lanac

**surging** *(n) (navig)* COMPARE ship’s motions in surging the sea’s motion accelerates and decelerates the ship zastajanje; 2 *(navig)* ubrzanje (broda na valu), proklizavanje

**surmullet** *(n) (fishing)* trilja, trlja kamenjarka

**surplus** *(n) (marine eng)* višak, suvišak; 2 preostatak; 3 pretičak

**surround** *(v)* okružiti, opkoliti; 2 opasati

**surveillance** *(n) (marine eng, nav arch)* nadzor, nadziranje, nadgledanje

**survey** *(n) (nav arch, marine eng)* pregled (broda, opreme itd.), inspekcija (broda, opreme itd.), kontrola: If possible, the Master should attend the survey of damaged cargo himself, or have his Chief Officer attend. The first survey covered the reporting of near misses and accidents when boarding or landing a vessel and the training received for such operations.

www.gov.uk/maib call a ~ zatražiti pregled, joint ~ zajednički pregled, submit a ship to ~ podvrgnuti brod pregledu, arrange for a ~ dogovoriti pregled, organizirati pregled, intermediate ~ The inspection of a ship by a classification society surveyor that takes place 24 to 36 months after each Special Survey. međupregled, periodični pregled, periodična inspekcija broda (dvo- ili trogodišnja),
The inspection of a ship by a classification society surveyor that takes place every five years, as part of the recertification of the ship by a classification society. (http://www.globalshiplease.com/glossary.cfm)

The ship was refloated within an hour and proceeded to the port where an underwater survey was conducted, with the purpose of establishing the general practices of pilotage.

Survey /səˈvaɪəl/ (v) 1 pregledati, pregledavati: Ensure any damage is surveyed and recorded. ~ the damage pregledati štetu, obaviti pregled štete; 2 kontrolirati survey and control book (n) (nav arch) knjiga pregleda i nadzora

Surveyor (n) 1 (safety) inspektor, nadzornik, kontrolor marine ~ person who inspects a ship hull or its cargo for damage or quality brodski inspektor, marine cargo ~ brodski inspektorza štete na teretu; 2 kontrolor (robe, tereta), kontrolna kuća cargo ~ inspektor tereta, inspektor za štete na teretu; 3 fizička ili pravna osoba koja zaprima prijave o nastalim štetama na teretu te utvrđuje njihovu prirodu i opseg havarijski procjenitelj

Survey report (n) (nav arch) izvješće o inspekciji (broda, opreme) surveys of the ship (n) pregledi broda

Survey vessel (n) (nav arch) istraživački brod

Survival /səˈvaɪəl/ preživljavanje

Survival craft /səˈvaɪəl/ (n) (safety) plovila za spašavanje: Survival crafts and other lifesaving appliances should be prepared for use (https://safety4sea.com/) As a precaution, prepare survival craft & other life saving appliances.

Survival pack (n) (boating/yachting, safety) komplet za preživljavanje: The contents of all survival packs can be divided into three categories: vessel gear, crew aids, and signaling equipment. Vessel gear includes items like paddles, a heaving device, a bailer and a drogue - equipment that helps in recovering crew, getting away from a sinking or burning vessel, and keeping the life raft afloat. Practical Sailor

Survival suit /səˈvaɪəl/ (n) (safety) odijelo za preživljavanje: donn the ~ obući odijelo za preživljavanje, staviti odijelo za preživljavanje, imati na sebi odijelo za preživljavanje: The seafarers donned their survival suits and got into a liferaft. Pomorci su imali na sebi odijela za preživljavanje i popeli se na splav za spašavanje. The three donned their survival suits and got into a liferaft, then onto a daughter craft from an emergency response and rescue vessel (ERRV) that was now on scene

Survivor /səˈvaɪər/ (n) (safety) preživjeli, brodolomac, pomorac koji je pretrpio brodolom: The helicopter crew brought the three survivors to the Regional Medical Center. The freighter arrived on scene and rescued more than 200 survivors. If survivors are taken on board, list names & next of kin. list of missing persons. www.sqemarine.com/shipmanuals

Susceptibility /səˈseptəˈbɪlətɪ/ (cargo) osjetljivost, sklonost (oštećenju) ~ to chilling osjetljivost na hladnoću
susceptible to /səˈseptəˈbəl/ (adj) SYNONYM liable to SYNONYM subject to osjetljiv na (o teretu) ~ rusting osjetljiv na rđanju, koji lako rđa
suspect /səˈspɛkt/ (v) sumnjati (na) ~ damage to cargo 1 sumnjati na štetu na teretu; 2 predvidjeti štetu na teretu
suspect (adj) sumnjiv: The maritime authorities have seized a vessel suspected of carrying products in violation of international laws.

suspend (v) (navi) obustaviti, prekinuti: At 1130, Houston Pilots suspended pilot boarding at the entrance channel due to fog. ~ service obustaviti ploidbui, obustaviti servis: The container carrier has suspended service to the port.
suspicious /səˈspjəs/ (adj) sumnjiv

sustain /səˈstein/ (v) (mar ins) pretrpjeti, podnositi ~ damage pretrpjeti štetu: the tug sustained significant damage above the waterline tegljač je pretrpio znatno štetu iznad vodene linije. No damage was sustained and no oil pollution occurred as a result of the grounding. Brod nije pretrpio nikakvu štetu niti je došlo do onečišćenja mora uslijed nasukanja. An underwater hull inspection carried out alongside the berth later that day revealed that the vessel had sustained no damage. www.gov.uk/maib

The ship sustained shell plate damage to the bottom of its hull, causing water ingress to some ballast tanks and flooding in the engine room. The vessel sustained damages to her bow. The other vessel sustained major damages, the one to the port side forward ballast tanks both above and below the waterline, to the port side hull and deck fittings from cargo hold no. 1 to just forward of the accommodation.

(https://safety4sea.com/), ~ engine failure pretrpjeti otkazivanje glavnog stroja, doći do otkazivanja glavnog stroja, otkazati (o stroju): The ship sustained engine failure, causing the vessel to drift into rocks. Brodu je otkazao glavni stroj pa je brod otplutao do grebena.
sustainable fuel (n) (marine eng) održivo gorivo

SV; (sailing vessel) (n) (nav arch) jedrenjak
swamp /swɔmp/ (v) (seamanship) napuniti brodicu vodom / morem (bez potapanja)

swan-neck ventilator (n) (nav arch) kukasti ventilator

sway /ˈsweɪ/ (v) (seamanship) a rhythmic vessel’s motion from side to side zanošenje broda (bočno), pomicati se bočno

swaying /ˈswiŋ/ (n) (navig) (nav arch) COMPARE ship’s motions in swaying the sea’s motion accelerates and decelerates the ship from side to side bočno gibanje broda

sweat /swet/ (n) (cargo) znojiti se (o teretu)
sweat /swɛt/ (n) (cargo) znojenje, kondenzacija ship’s ~ kondenzacija na dijelovima konstrukcije broda, cargo ~ kondenzacija na teretu, znojenje tereta

sweat clause /swet/ (n) (mar ins, mar law) klauzula o znojenju tereta (kondenzaciji)
sweating /ˈswɛtɪŋ/ (n) (cargo) vlaženje tereta zbog kondenzacije znojenje (tereta), kondenzacija (tereta)
sweep (n) (electr, navig) svjetla točka (na radarskom zaslonu)
sweep down /swipes/ (v) (cargo handling) počistiti (skladište od zaostataka
tereta)
sweepings /ˈswiːpiŋz/ (n) (shipping econ) pometačina (ostatci tereta iz brodskog skladišta)
sweep width (n) (safety) A measure of the effectiveness with which a particular sensor can detect a particular object under specific environmental conditions. (IAMSAR Manual) efikasnost otkrivanja objekata (u SAR-u)
swell /ˈswel/ (n) 1 (oceanogr) Condition of the water surface caused by a distant wind system. The individual swell appears to be regular and smooth with considerable distance between rounded crests. (Camsar 2014) valovi mrtvog mora, mareta; 2 (oceanogr) mrtvo more, bibavica, štiga, Italian: onda lunga; ondata; mare moto ondoso heavy ~ jako mrtvo more
swell (n) (med) oteklina
swept volume /ˈswɛpt/ (n) (marine eng) stapajni volumen SWG; (slotted wave guide) (n) (electr, navig) valovod (radara) s prorezima
swim (v) plivati: After swimming through towering waves for 30 minutes, the second mate pulled himself into the lifeboat
swing ¹ /ˈswɪŋ/ (v) 1 (ship handling) progressive change of heading caused by an angle on the rudder, or by a ship circling around her anchor skrenuti (pramac ili krma broda ili tegljača, npr. pod djelovanjem sile tegljenja), skretati, okretati (se): the tug master put weight onto the towall which resulted in the tug’s bow immediately swinging to starboard and making contact with the lock wall zapovjednik tegljača napeo je uže za tegljenje, što je odmah izazvalo skretanje tegljačevog pramca udesno i dodir s obnim zidom ustave The vessel’s rate of turn now accelerated to starboard and the vessel was swinging rapidly towards the right-hand bank of the river. Brzina okretanja broda udesno se povećava i brod je brzo skretao prema riječnoj obali na desnoj strani. However, the vessel’s head was still swinging rapidly to starboard. The ship is swinging to port at a rate of 12° per minute. ~ to starboard / port skretati u desno / lijevo: The vessel was now swinging to starboard even though the bow thruster was full to port. <tlCorpus><sentence>As the bow began to swing to port and towards the other ship, the Pilot ordered “midships” and then “starboard 10” to counter the swing. <source>MAIBSAFETYDIGEST_12011</source></sentence></tlCorpus>; 2 (ship handling) okrenuti (brod), zaokrenuti (brod); 3 (marine eng) gibanje se oko osi, njihati se
swing ² (n) (seamanship, navig) zakretanje (broda), okretanje: The master used the engines and thrusters in an attempt to arrest the swing but, despite the efforts of the crew, the forward winch brakes also began to render. Zapovjednik je upotrebio strojeve i pramčane porivnike kako bi zaustavio zakretanje broda, ali usprkos pokušajima posade kočnica na pramčanom vitlu je počela popuštati. Using full rudder and full power the skipper could not stop the swing to starboard. (https://safety4sea.com/) commence the ~ započeti zakretanje / okretanje (broda)
swing away (v) (seamanship) odmicati se od (obale) skretanjem, skrenuti od obale (o pramcu): The ship's bow began to swing away from the berth.
swing in (v) 1 (boating/yachting) vratiti se u jedrilicu (iz položaja trapeziranja); 2 (seamanship) zakrenuti prema unutra ~ the lifeboat zakrenuti podignutu brodicu za spašavanje prema ležištu na palubi
swinging (n) (navig) okretanje broda, zaokretanje broda: The manoeuvre required
swivel

swivel the vessel 180 degrees and then backing astern to berth port-side to; 2 (cargo handling)

njihanje (tereta), ljuljanje (tereta)

swinging area (n) (cargo handling) područje okretanja broda, krug okretanja

broda: The Master had briefed the officers on the intended manoeuvre to ensure the vessel was turned as tightly as possible owing to the relatively confined swimming area.

swing out (v) 1 (boating/yachting) izbaciti se van (na trapezu); 2 (seamanship) zakrenuti (brodicu za spašavanje) izvan boka broda (radi spuštanja)

swing out the lifeboat (v) (seamanship) izvući brodicu za spašavanje izvan boka broda (radi spuštanja)

swirl compression (n) (marine eng) A combustion chamber configuration which uses curved mixing ridges in the intake ports and/or a re-entrant piston bowl (a bowl whose top edges curve inward). (http://www.marinedieseleurope.com/) vrtložna kompresija, vrtložna komora izgaranja

swirl plate (sw3l/ (n) (marine eng) ploča za raspršivanje

switch (n) (electr) sklopka, prekidač, preklopka, Italian:interruttore

switch (v) a prebaciti; 2 uključiti ~ on uključiti, ~ off isključiti

switch bill of lading (=SBL) (n) (logist, mar law) A Switch Bill of Lading is simply the second set of bill of lading that may be issued by the carrier or their agent “in exchange of” or “substituting” the first set of bill of lading originally issued when the shipment was effected. This clearly implies that the second set of bills of lading cannot be issued while the full first set is still in circulation and active. (https://shippingandfreightresource.com/what-is-a-switch-bill-of-lading-and-when-and-why-is-it-used/) drugi komplet teretnice: Switch bills of lading may be requested at (a) When there has been a change in the original trading conditions; (b) Goods have been resold (probably high-seas sale) and the discharge port has now changed to another port, © The seller (who could be an intending agent) does not wish the name of the actual exporter to be known to the consignee in case the consignee strikes a deal with the exporter directly

switchboard / switʃˈbɔːrd/ razvodna ploča, rasklopna ploča, Italian:quadro elettrico; quadro di distribuzione main ~ glavna razvodna ploča: The main elements of a marine distribution system are the main and emergency switchboards, power panel boards,
motor controllers, lighting and small power panel boards.

https://commons.wikimedia.org/wiki/File:Angoumois_-_Engine_room_7_-_Switchboard.jpg, emergency ~

pomoćna razvodna ploča, razvodna ploča za izvanredna stanja

switchbox / swɪtʃˈbɒks/ (n) (electr) razvodna kutija

switch off (v) (electr) isključiti

switch on (v) (electr) uključiti ~ the radar set isključiti radar (iz napona): Before switching off the radar set turn the brilliance and gain, to the minimum and turn off the anti-clutter controls. This will extend the life of the display and allow the next operator to set up the radar using standard procedure in the minimum time.

swivel /ˈswɪvəl/ (n) 1 (nav arch, boating/yachting) sastavni dio lanca koji omogućuje njegovo okretanje; a special link constructed in two parts which revolve on each other, used to prevent fouling
A rotating fitting used to keep a line from tangling
https://www.ypiyachts.com/vrtulj, vrtuljak, vrtulja, vrtilica, dogulin

A rigging component with many uses. Swivels acts as a line stop and rigging
connectors for bottom rigs also connects the fishing line to a leader to prevent line twist;
dio sitnog ribolovnog pribora koji se gotovo uvijek koristi u svim ribolovnim tehnikama; Metalne je konstrukcije i
ima funkciju spajanja dvaju najlona te služi da se najlon ne uvrče. vrtjelica, vrtilica, dogulin,
cogulin

SWL (safe working load) (n) (cargo handling, safety) certified load limit applied to lifting
appliances and gear; maximum load which can safely be borne by a lifting or hauling appliance, such as
crane or winch http://www.tkmglobal.net/chartering_S.HTM sigurno radno opterećenje,
dopušteno radno opterećenje shackle with ~ of 6 tonnes škopac sa
sigurnim radnim opterećenjem od 6 tona

tacit acceptance /ˈtæsit/ (n) (mar law) prihvaćanje šutnjom
tack /ˈtæk/ (v) (boating/yachting) = come about ANTONYM jibe
To change a boat's direction, bringing the bow through the eye of the wind. https://www.ypiyachts.com/; To tack repeatedly, as when trying to sail to a point up wind of the boat. https://www.ypiyachts.com/; This basic sailing maneuver refers to turning the bow of the boat through the wind so that the wind changes from one side of the boat to the other side. The boom of a boat will always shift from one side to the other when performing a tack or a jibe. (https://www.discoverboating.com/) letati, okrenuti (s lijevih uzda na desne ili s desnih uzda na lijeve), promijeniti smjer jedrilice (stranu jedrilice u odnosu na smjer vjetra), zborderžat (Sjev. Jadran), zburdežavat (Dalmacija), napraviti bordadu, jedriti u cik-cak (protiv vjetra), borderžat (Sjev Jadran), burdežat (Dalmacija),
tack /tæk/ (n) (boating/yachting) attachment on the lower part of the luff of a sail; the tack is the sail angle connecting the luff and the leech; The forward most corner of a sail. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) **oglavni rogalj (dio jedra), oglavni kut jedra, prednji donji rogalj (jedra ili prečke), privjetreni rogalj, rogalj špinakera za hvatanje tanguna, Italian:** **punto di mura**
The term "tack" is defined as a leg of a zigzag course steered in beating to windward; it is one of the four legs of a zigzag course in sailing. In boating and yachting, "tack" refers to the alignment of a boat to the wind. There are different types of tack, each with its own specific usage:

- **Tack**/ˈtæk/ (=tacking) (n) (boating/yachting) one leg of a zigzag course steered in beating to windward; jedna strana okreta pri jedrenju oštro u vjetar bordada, letanje, okret (u jedrenju), okret u vjetar, promjena strane jedrenja, prebacivanje smjera jedrenja, jedna strana letanja

- **Tack**/ˈtæk/ (n) (sailing vessels, boating/yachting) sheet for the lowest squaresail (on a sailing vessel) uzda najnižeg križnog jedra (na jedrenjaku)

- **Tack**/ˈtæk/ (n) (boating/yachting) a line attached to its lower corner (in a square-rigged sail); a line holding down the tack of spinnaker or gennaker to the boat, also called "downfuker"; konop koji izlazi iz baštuna, odnosno ide od kraja baštuna do donjeg hvatišta (asimetričnog) spinakera (https://www.regate.com.hr/index.php/north-sails-baza-znanja); konop kojim se prednji donji rogalj jedra pričvršćuje na brod (https://www.kontekst.io/hrvatski/rogalj); konop koji drži genaker/drifter na baštunu (http://nautica-portal.com/forum/index.php?topic=5207.0) zateg (na roglju prednjeg jedra), mura

- **Tack**/ˈtæk/ (n) (boating/yachting) Tack is an alignment of a boat to the wind. ..., while a port tack is when the wind is blowing from the port side of the vessel, simple.

The Complete Sailing Manual, on the port ~ a port tack is when the wind is blowing from the port side of the vessel; lijeve uzde - vjetar dolazi s lijeve strane (boka) jedrilice, bilo s pramca ili krme, a deblenjak (bum) je otklonjen lijevo (gledano s krme) (cf. nautica-portal.com/forum/index.php) na desnim uzdama: Boats on a port tack shall keep clear of boats on starboard tack (Rule 10). STARBOARD-TACK RULE A sailing boat that is on starboard tack (with the boom to port) has the right of way over a boat on port tack.

Complete Sailing Manual, on the port ~ a port tack is when the wind is blowing from the port side of the vessel; lijeve uzde - vjetar dolazi s lijeve strane (boka) jedrilice, bilo s pramca ili krme, a deblenjak (bum) je otklonjen lijevo (gledano s krme) (cf. nautica-portal.com/forum/index.php) na desnim uzdama, on the same ~s na istim uzdama, on opposite ~s, na suprotnim uzdama
tacker (n) (marine eng) pribijač

tacking /ˈtækɪŋ/ (n) (boating/yachting) COMPARE gybing one of the two most important manoeuvres in sailing by turning the boat through the wind using the rudder, sails, and crew weight; okretanje jedrilice s jedne strane na drugu u smjeru vjetra; A zigzag course to achieve a net upwind direction. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) letanje, križanje, okretanje jedrilice u smjeru vjetra, zbordižavanje, jedrenje u cik-cak roll ~ letanje s njihanjem, ~ with a trapeze letanje s trapezom
tackle /ˈtækəl; (often nautical) ˈteɪkəl/ (n) 1 (cargo handling) = block and tackle any mechanical system for lifting or pulling, esp an arrangement of ropes and pulleys designed to lift heavy weights (Collins); Any combination of ropes and blocks that multiply power. koloturnik, čekrk, parank; Italian: paranco, palan span ~ klobučnica, podigač samarice, čekrk kraka samarice, paranak kraka samarice, under ship's ~ pod čekrkom, na obali ispod broda, ground ~ sidro
siderni lanac i konop
tackle /ˈtækəl/ (often nautical) ‘teikəl/ (v) 1 (safety) uhvati se u koštac s nečim, nositi se s nečim: Another ultra-large container vessel has run aground in North Europe, again raising questions about the ability of salvage facilities to tackle a major incident involving the new megaships. ~ the fire uhvati se u koštac s vatrom, gasiti požar; 2 (safety) prihvatiti se čega, nositi se s nečim, latiti se
tackle-to-tackle (n) (mar law, shipping econ) preuzimanje teret ispod brodskog teretnog vitla, prijevoz od ispod čekrka (u ukrcaju) do ispod čekrka (u iskrcaju)
tactical action officers (=TAO; TAOs) (n) (navy) časnici za taktička djelovanja	
taffrail (n) (boating/yachting) The rail around the top of the bulwark or rail stanchions of the after end of the weather deck, be it upper, main, raised, quarter, or poop. (https://www.history.navy.mil/)

zaobljena ograda krme
https://commons.wikimedia.org/wiki/File:Taffrail_(PSF).png
t-aft; the moulded draught measured on APO (frame zero) bažarni gaz izmjeren na krmenoj okomici (perpendikularu)
tag (v) (navig) imenovati, staviti oznaku s nazivom, označiti s nazivom ~ the track označiti putanju: The VTSO manually acquired the ship’s radar target as the vessel left the short-term anchorage prior to the collision, but he did not ‘tag’ the track with the vessel’s name.
Take action (n) (navig) poduzeti (radnju, mjeru): The OOW took action by altering the course to starboard in order to keep out of the way of the stand on vessel. The Master became aware of vessel C on the port bow. He could see the green, red and forward top lights on vessel C but did not take any action. (https://safety4sea.com/)

Take delivery of (v) 1 (nav arch) preuzeti ~ the ship preuzeti brod (prilikom

Take delivery of (n) (nav arch) preuzeti (prilikom na)

Take turn (v) (seamanship) to pass a turn around a belaying pin or cleat prebaciti (uže) preko bitve, Italian: date volta

Tainted fuel oil has clogged and damaged ship engines.

Tainting /'teintiŋ/ (n) 1 (cargo handling) onečišćenje a kaljanje (npr. mirisom, bojom drugog tereta), prožimanje; 2 mrlja, pjega

Take ~ the bearings snimiti azimut, ~ the soundings mjeriti / sondirati

Kaljuže, ~ the sights of snimiti azimut / položaj (zvijezda, nebeskih tijela) uzeti

Take ~ the bearings snimiti azimut, ~ the soundings mjeriti / sondirati

Kaljuže, ~ the sights of snimiti azimut / položaj (zvijezda, nebeskih tijela) uzeti
take in (v) (boating/yachting) o lower and furl the sails ubrati jedro, spustiti i ubrati jedro
take in (v) (ship handling) uvlačiti sidro, podizati sidro: “Take in 100 feet on the port bow, and let out 100 feet on the starboard aft anchor, hold the other anchors where they are.”
take in water (v) (safety, seamanship) krcati vodu / more (o oštećenom brodu): The fore peak of the cargo ship was damaged, causing it to take in water.
take legal action (v) (mar law) a judicial proceeding brought by one party against another

take off (v) (safety) uzlet (helikoptera)
take off pilot (v) (navig) iskrcati peljara: The pilot was taken off the 257-meter shuttle tanker off St. Ann’s Head in 35 knot winds and wave heights of 4-5 meters.
take on (v) (cargo) poprimiti (boju, miris)
take on water (v) (n) (safety) puštati, krcati vodu / more, propuštati: The tug is taking on water with four people aboard. The tugboat began taking on water while in transit, forcing the crew to cut the towline … The collision resulted in a large gash on the starboard side of the bulkcarrier, causing it to take on water. They were taking on too much water. If the ramp isn’t properly closed the ship can take on water and make the ship unstable https://gcaptain.com Vessel started taking on water while anchored. (https://safety4sea.com/)
take out all the slack (v) (seamanship) set taut zategnuti (uže)
take out of service (v) (shipping econ) povući (brod) iz plovidbe: Ports around the world are denying entry to certain vessels, travel restrictions have postponed crew changes, ships are taken out of service and crew have been laid off. https://safety4sea.com/
takeover (n) (mar law, shipping econ) preuzimanje tvrtke / kompanije
take over (v) 1 (shipping econ) preuzeti (teret, trošak, ...); 2 (mar law) preuzeti stražu, smijeniti stražu: Before taking over a navigational watch the officer should read and sign the standing orders ~ the watch preuzeti stražu, smijeniti stražu, preuzeti gvardiju: When taking over the watch, the OOW did not check the ship’s intended track relative to any dangers to navigation that would be encountered on his watch. At 2350, the second officer (2/O) arrived on the bridge to take over the navigational watch. https://www.gov.uk/maib-reports; 3 (shipping econ) preuzeti tvrtku / kompaniju; 4 (shipping econ) preuzeti položaj / funkciju: Ms. .... will take over as chief executive officer, succeeding Mr. .......
take over the watch (v) (navig, seamanship) ANTONYM hand over the watch to preuzeti stražu, preuzeti brodsku str4ažu, preuzeti gvardiju: At 1830 the master arrived on the bridge to take over the watch from the chief officer
take place (v) dogoditi se, zbiti se, odviti se, odigrati se
take the bearing (v) (navig) izmjeriti azimut, snimiti azimut
take the ground  (n)  (mar law, safety) dodirnuti morsko dno (o brodu)
take the lead (in pilotage)  (v)  (navig) voditi peljarenje, peljariti: Typically, the lead pilot takes the lead for the passage from the pilot boarding point to a position adjacent to the Terminal, while the assistant pilot takes the lead for the remainder of the passage and for the berthing.
take the wind out of his sails  (v)  (boating/yachting) ukrasti vjetar (drugoj jedrilici / jedrenjaku), jedriti uz vjetar (u privjetrini drugom brodu) i uzeti mu vjetar
take to the sea  (v)  uputiti se na more, ploviti: In the 1300 B.C. the Greeks began to take to the sea.
take up the slack on the line  (v tr)  (seamanship) potegnuti olabavljeni konop
take water in  (v)  (seamanship) krcati vodu, propuštati vodu / more: the vessel reportedly took water in its engine room at about 10.00 en route from ...... to ......
talkback system  (n)  (comm) interkomunikacijski sustav
talkie-walkie  (n)  (comm) = walkie-talkie ručni radiotelefon, toki-voki
tall ship  (n)  (boating/yachting) a sailing ship which has very tall masts and square sails
(https://www.collinsdictionary.com/dictionary/english/tall-ship) jedrenjak, veći brodovi na jedra

https://www.sailboston.com/2016/12/tall-ships-explained/
tally  /ˈtæli/  (v)  (cargo, shipping econ) brojati (teret): Tally the cargo!
tally  /ˈtæli/  (n)  (cargo) brojanje tereta
tally  (v)  (boating/yachting) zatezati uzde floka (škotine)
tally book  /ˈtæli/  (n)  (cargo) brojačka knjižica
tally clerk /ˈtæli/ (n) (shipping econ, mar law) osoba koja uspoređuje ukrcan teret s opisom tereta na teretnici brojač (tereta)
tallying /ˈtæliŋ/ (n) (shipping econ) brojanje tereta: The tallying of cargo during loading and discharge is a useful means to avoid or limit shortfalls. The tallying of cargo during loading and discharge is a useful means to avoid or limit shortfalls.
tallyman /ˈtælɪmən/ (n) (mar law, shipping econ) brojač (tereta u luci)
tally sheet (n) (cargo, mar law) brojački listić
tamper /ˈtæmpə/ (v) (cargo, seamanship) If someone tampers with something, they interfere with it or try to change it when they have no right to do so
pomiješati: 'MPA is investigating the bunker craft operator and supplier ... for using a magnet to tamper with the Mass Flow Meter (MFM) of its bunker tanker, Southernpec 7, during a bunkering operation	tampered (adj) (cargo handling) neovlašteno otvoren (kolet, pošiljka), neovlašteno diran (kolet, pošiljka), pomiješan bez dopuštenja: Masters must be fully aware of all items stored in the ship's bonded locker and make sure that none of the items placed under seal is tampered with. Therefore careful watch should be maintained, when loading, for any packages which may have been tampered with, or broken.
tamper with /ˈtæmpə/ (v) dirati (teret ili pošiljku neovlašteno), dirati se u nešto (neovlašteno), nezakonito otvori (pošiljku): Our package was tampered with! Netko je nezakonito otvorio našu pošiljku! "MPA is investigating the bunker craft operator and supplier ... for using a magnet to tamper with the Mass Flow Meter (MFM) of its bunker tanker, Southernpec 7, during a bunkering operation https://www.maritimeprofessional.com/news/singapore-investigating-bunker-tampering-345527 They have investigated bunker tampering while bunkering in the port
tangled (adj) (seamanship) = fouled zapleten ~ mooring line zapletena privezna

užad
tank /ˈtæŋk/ (n) (nav arch, marine eng) Compartments for liquids or gases. They may be formed by the ship's structure as double bottom tanks, peak tanks, deep tanks, etc., or may be independent of the ship's structure and installed on special supports. (https://www.history.navy.mil/) tank, cisterna, rezervoar, čatrnja, Italian:cassa; serbatoio; cisterna; tanca collecting ~ sabirač, sabirnik, kolektor, double bottom ~ tank dvodna, expansion ~ ekspanzioni tank, header ~ kolektor, sabirnik, heavy oil ~ tank teškog goriva, inspection ~ kontrolni tank, lubricating oil ~ tank ulja za podmazivanje, make-up ~ kompenzacijski tank, nadolijevni tank, service ~ pogonski tank, potrošni tank, dnevni tank, sump ~ slivni tank, supply ~ dobavni tank, dobavni rezervoar, fresh water ~ tank slatke / svježe vode,
tank blowing  propuhivanje tanka

tank bulkhead  (n)  (nav arch)  pregrada tanka

tank ceiling  (n)  (nav arch)  vrh dvodna, pokrov dvodna, gornja stijenka
dvodna: It had originally been built with two holds covered by means of wooden hatchboards and tarpaulins, side bilges and a wooden tank top ceiling. However, to facilitate the carriage of bulk cargoes the tank top ceiling had been floored over with steel plates welded together.

tank cleaning  (n)  (cargo handling, seamanship)  tank cleaning removes any hydrocarbon vapours, liquids or residues from tanks čišćenje tankova: Tank cleaning is required for many reasons, such as to carry clean ballast, remove sediments from tank top plating, prepare the tankers for internal inspections or prior to entering dry dock. (https://safety4sea.com/)
tank cleaning system  (n)  (nav arch)  sustav čišćenja tankova: Each cargo tank is fitted with two tank cleaning hatches for tank portable tank cleaning machines. Tank cleaning hatches is also used for ventilation gas freeing fans. Tank cleaning pump is centrifugal, electric driven capacity 40 m³/h, 10 bar.

tank container  (n)  (cargo)  kontejner za tekuće terete, tank-kontejner: Tank
containers are generally designed for an operating pressure of up to 3 bar (above atmospheric).

tanker /ˈtæŋkər/ (n) (nav arch) a ship designed to carry various types of liquid cargo, from oil and gasoline to molasses, water, and vegetable oil.

tanker oil ~ 1 tanker za prijevoz nafte, tanker za prijevoz zemnog ulja; 2 tanker za ulje, sludge ~ tanker za prijevoz otpadnih voda, shuttle ~ tanker za prijevoz nafte sa naftnih platformi

tanker design and construction (n) (nav arch) projektiranje i gradnja tankera: Most of IMO’s regulations pertaining to tanker design and construction are contained in the International Convention for the Safety of Life at Sea (SOLAS) and the International Convention for the Prevention of Pollution from Ships (MARPOL 73/78 and subsequent amendments).

tankerman (n) (seamanship) person responsible for of the day-to-day operations of a small oil tanker or LNG tanker barge etc. tankerski mornar: The tankerman is responsible for the safe and efficient transfer of liquefied natural gas products between barges, ships, and facilities including completion and accountability of barge logs, bills of lading and gauge reports. The AB/tankerman is to monitor product level in tanks, operate diesel engines, operate cargo pumps, operate tank/pipeline valves, and operate manual and hydraulic booms.

tanker market (n) (shipping econ) tankersko tržište, tržište brodova-tankera: The clean tanker markets are depressed as ton mile demand across the MR2 to LR2 markets remains stagnant. Splash24/7 <splash=asiashippingmedia.com@mail120.atl51.rsgsv.net> depressed ~ tržište-brodova tankera u padu / depresiji: The clean tanker markets are depressed as ton mile demand across the MR2 to LR2 markets remains stagnant. Splash24/7 <splash=asiashippingmedia.com@mail120.atl51.rsgsv.net>

tanker operation /ˈtæŋkər/ (n) (shipping econ) linijski servis

tank gauge /ˈtæŋkˌgeɪdʒ/ (n) (nav arch, cargo handling) pokazivač razine tekućine u tanku

tank level (n) (marine eng) razina u tanku

tank suction (n) (marine eng) usis tanka

tank-test (n) (nav arch) SEE seakeeping pokus u bazenu, ispitivanje modela broda u bazenu

tank-test (v) ispitivati u bazenu, obavljati pokuse u bazenu
tank top /ˈtæŋk,топ/ (n) SYNONYM inner bottom 1 (nav arch) the plating laid on the bottom floors of a ship, which forms the top side of the tank sections or double bottom (SeaSources.net)

pokrov dvodna: However, to facilitate the carriage of bulk cargoes the tank top ceiling had been floored over with steel plates welded together.

tap /ˈtæp/ (n) (boating/yachting, marine eng) slavina

tap (n) (marine eng, boating/yachting) a hand drilling tool for cutting threads ureznica, mašć: Carbon steel taps are fine for aluminum. High speed steel is required for stainless stee

svrdlo za ureznicu
Make sure that the box edges are taped so that the edges and seals of the box are secured with high-quality packaging/packaging/parcel tape.

- **taper** /ˈteɪpə/ (v) 1 *(marine eng)* a stanjiti se (prema jednom kraju, npr. klipa), stanjivati se; 2 ukositi, zašiljiti (se)
- **tapered** /ˈteɪpəd/ (adj) zašiljen, koničan
- **tapering** (n) *(marine eng)* suženje, stanjivanje ~ to a thinner section smanjen na tanji presjek, obrađen na tanji presjek
- **taper of shaft** /ˈteɪpə/ *(nav arch)* kosina propelerske osovine, ukošenje propelerske osovine

tappet /ˈtæpit/ (n) (marine eng) a mechanical part that reciprocates to receive or transmit intermittent motion, esp the part of an internal-combustion engine that transmits motion from the camshaft to the push rods or valves; the rocker arm *valjak (podizača ventila)* roller ~ *valjak*

podizača ventila

tapping (=tap) (n) (marine eng) a process of making threads in a hole of metal *narezivanje, izrada navoja*: The tools are plug tap, intermediate tap and taper tap.
https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/ ~
target /ˈtæɡət/ (n) 1 cilj; 2 (navig) objekt radarskog motrenja (npr. brod), objekt radarskog snimanja, cilj radarskog motrenja: The second officer saw a target on the tanker’s starboard quarter at a range of 1.9nm. acquired ~ označeni objekt (na radarskom ekranu), prihvaćen cilj radarskog motrenja, tracked ~ označeni objekt (na zaslonu), prikazani objekt (na zaslonu): At 0224, the second officer selected the container vessel as a tracked target on his radar display., ~ lost cilj izgubljen, objekt radarskog motrenja izgubljen, activated AIS ~ aktivan AIS objekt, dangerous AIS ~ opasan AIS objekt, selected AIS ~ odabran AIS objekt, sleeping AIS~ AIS objekt u mirovanju, lost AIS ~ izgubljen AIS objekt, acquire the ~ uhvatiti objekt, odrediti poziciju objekta (na radarskom pokazivaču), prihvati radarski objekt, select the ~ odabratи objekt (radarskog motrenja): The ship’s second officer selected the target on the ARPA and identified that it was crossing ahead with a CPA of 0.5nm.
target alarm (n) (navig) The target alarm serves to alert the navigator to targets (ships, landmasses, etc.) entering a set area, with audio and visual alarms. alarm za unesene objekte, alarm cilja set the ~ namjestiti alarm za neki objekt, silence the ~ namjestiti alarm na tiho, deactivate the 1 isključiti alarm za objekte
target swap (n) (navig) zamjena cilja / objekta (radarskog motrenja)
target tracking (n) (navig) traženje i pronalaženje cilja / broda / objekta:
tariff /ˈtærɪf/ 1 (shipping econ) the charges, rates and rules of a transportation company as listed in

**techniques tehnike narezivanja**
https://www.kmstools.com/blog/hand-taps-proper-tapping-techniques/
published industry tables. List of published rates, rules and regulations applicable to the transportation of goods in specified trade lanes or between two areas. (http://www.maerskline.com/en-jm/help/shipping-glossary) **cijene usluga, tarifa:** All NVOCCs operating in the U.S. trades are required to publish a *tariff* (46 CFR § 520.3). *Tariffs* must be open for public inspection and show all rates, charges, classifications, rules, and practices between all points or ports on their service routes. https://www.fmc.gov/resources/ocean_transportation_intermediaries.aspx

**port ~ lučke tarife, cijene lučkih usluga, effective ~ važeće tarife:** 2 A tariff is a tax imposed by one country on the goods and services imported from another country. (https://www.investopedia.com/terms/t/tariff.asp) **porez na cijene uvoznih roba,**

**uvozne tarife:** The U.S. and China are moving closer to agreeing on the amount of tariffs

https://gCaptain.com

**Tariff Code** (*n*) *(logist)* The Harmonized Commodity Description and Coding System (HS code) of the tariff nomenclature is an international standardised system of names and numbers for the classification of commodities. https://www.logisticsglossary.com/term/tariff-code/

**tarp** (*n*) *(cargo)* = tarpaulin cerada, nepropusni prekrivač

---

**tarpaulin** (*n*) *(cargo handling)* = paulin heavy canvas used as a covering cerada ~ sheet pokrov od cerade: If the cargo needs to be protected from rain, tarpaulin sheets can be provided to cover the top of the container

**tasking** *(safety)* dodjela dužnosti (u operaciji SAR), dodjela zadaća (u operaciji SAR): SMCs must provide a complete and detailed briefing when *tasking* responding facilities. Camsar2014 SAR taskings of Canadian Coast Guard (CCG) SRUs are routinely done via a verbal message and deemed to be sufficient. Camsar2014

**taut** *(adj)* *(seamanship)* ANTONYM slack; slacken under tension; with no slack; tightened zategnut (konop, lanac), napet: When the operator reported that the line was taut, the supervisor asked the pilot to have it slackened. cable is ~ konop je napet, konop je zategnut, ~ rope zategnut o uže, napeto uže

**tauten** *(v)* *(nautical)* napinjati (konop), zatezati: The spring is therefore first *tautened* by hauling on the head line to prevent the stress caused by a jolt.

**T-bar** *(n)* *(nav arch)* a rolled or extruded structural shape having a cross section shaped like the letter T
TBN (=Total Base Number) (marine eng) Total Base Number (TBN) is the quantity of acid, expressed in terms of the equivalent number of milligrams of potassium hydroxide that is required to neutralize all basic constituents present in 1 gram of sample (ASTM Designation D 974); TBN is a measure of (alkaline) additives in the oil.

TCPA (=time of closest point of approach) (navig) vremensko razdoblje najbliže točke mimoilaženja ~ limit vremenska granica točke mimoilaženja

TCPA (Time Closest Point on Approach)
➢ TCPA is the time estimated as measured along the echo line form its present position to the closest point on approach.

TDC (=top dead centre) (marine eng) gornja mrtva točka (hoda klipa motora)

TDMA (=Time Division Multiple Access) (navig) vremenski podijeljen višestruki pristup (u sustavu AIS)

teak /tɛə/ (n) 1 tik; 2 (cargo) tikovina

tear /teə/ (n) 1 (marine eng, cargo handling) deranje; 2 (nav arch) pukotina, napuklina,
Damage to own vessel consisted of indentation of the bulwark plates and a 800 mm long tear of the shell plating on the starboard bow.

tear /teə/ (v) kidati, parati
tear /teə/ (v) habati se
tear up /teə/ (v) rastaviti, skidati, demontirati

technical data (n) (marine eng, nav arch) specifikacija, tehnički podaci
technical management (n) (mar law) The company designated by the ship owner or operator or ship manager to be specifically responsible for the technical operation and technical superintendancy of a ship. This company may also be responsible for purchases regarding the fleet, such as repairs, spares, re-engining, surveys, dry-docking, etc. tehničko upravljanje brodom, tehnički management broda: The ship was by an external technical management company.
technical manager (n) (mar law, shipping econ) tehnički poslovodav broda, tehnički manager

technical specifications (n) (marine eng) tehnički opis, tehnički podaci, tehničke osobine
technical supervision (n) tehnički pregled, tehnički nadzor
technical waterborne craft (n) (nav arch) tehnički plovni objekt

bridge ~ brodski telegraf (na mostu), davač zapovijedi stroju, engine-room ~ strojarski telegraf, emergency ~ pomoćni telegraf, telegraf u nuždi

telemedical assistance service (=TMAS) (n) (safety, med) the provision of urgent medical services, including specialist services, for vessels at sea via a satellite or mobile phone services (SAR Manual) telemedicinska pomoć, medicinska pomoć na daljinu

telemedicina (n) (med) telemedicina, zdravstvena skrb na daljinu: Telemedicine in the maritime sector - FutureCare enlisted the minds and might of Yale with data and information

telemeter /′tiː ˈlɛmɪtə/ (n) (nav arch) telemetar, daljinomjer

telemotor A device for operating the control valves of the steering engine from the pilothouse, either by fluid pressure or by electricity. (Ship Terms Glossary.html) letemotor

teleprinter /′tel.iˈprɪntər/ (n) (comm) teleprinter

telescopic /′tel.iˈskɒpɪk/ (adj) teleskopski, izvlačiv, na izvlačenje

tele over radio (comm) radiotelex

tell-tale /′tel.tɛl/ (=telltale) (n) 1 (boating/yachting) a piece of cloth or yarn tied to the stay or sail to act as wind direction indicator; vrpčasti pokazivač namještenosti jedra u odnosu na smjer vjetra, postavljen na priponama ili u jedru ili prednjem jedru pokazivač vjetra, vunice,
Temper /ˈtempər/ (n) (marine eng) The condition of a metal with regard to hardness achieved through heating and then suddenly cooling. kaljenje uz naknadno naglo hlađenje, postupak omekšavanja kaljenog čelika ili lijevanog željeza

Temperature (n) temperatura constant operating ~ stalna radna temperatura, exhaust ~ temperatura ispušnih plinova, rate of ~ rise raspon povišenja temperature, ~ regulator termoregulacioni ventil, termostat, working ~ radna temperatura, ~ drop pad temperature, smanjenje temperature, ~ increase / decrease porast / pad temperature, ~ reading očitavanje temperature, raise the ~ podići temperature, povisiti temperature, reduce the ~ sniziti temperature, smanjiti temperature

Temperature drop (n) (marine eng) pad temperature

Temperature log (n) (cargo handling) dnevnik temperatura

Temperature-resistant (adj) (marine eng) otporan na temperaturu tempered /ˈtempərd/ (adj) (marine eng) grijan, kaljen, otvrdnut grijanjem: ... nitrated for high wear resistance and anti-corrosion properties; crankshafts are forged in one piece from wear-resistant, quenched and tempered alloy steel.

Template /ˈtempləit; ˈtempəlit/ (n) 1 (nav arch, marine eng) A mold or pattern made to the exact size of a piece of work that is to be laid out or formed, and on which such information as the position of rivet holes, size of laps, etc., is indicated. (https://www.history.navy.mil/) šablona, model, kalup, kalibar; 2 obrazac, predložak

Temporarily extinguished light /ˈtempərəli/ (navig) privremenno pogašeno svjetlo

Temporary /ˈtempərəri/ (adj) privremen, provizoran ~ notice privremena obavijest

Temporary measures (n) (mar law) Privremene mjere uključuju zadržavanje broda (detention,
temporary repair  COMPARE permanent repairs  popravak na licu mjesta: The crew carried out a temporary repair, and the vessel was re-floated at 2120. On arrival at the next port divers undertook temporary repairs to Class satisfaction to enable the vessel to remain in service subject to completing permanent repairs (https://safety4sea.com/)

temporary shipowner (n) (mar law) brodar  tend (v) 1 biti sklon, imati tendenciju: ... westbound vessels in the Singapore Strait often tend to treat it as a restricted fairway with some justification and believe that they are, under Rule 9(d), privileged; 2 (seamanship) paziti, pomoći, opsluživati ~ the ship (safety, navig) opsluživati brod, paziti na brod: An experienced yachtsman remained behind to tend the El Pirata, ~ the mooring lines paziti na rad privezne užadi: During the loading operation, the mooring lines, cargo loading hoses/arms and gangway must be carefully checked and regularly tended to prevent the ship from moving (ranging), along the berth. http://sailor-ru.narod.ru/chapter3/3-20.htm  tender /ˈtɛndə/ (v) (shipping econ) predati, dovesti do ~ the goods to the ship's tackle dovesti robu ispod brodskog čekrka (=dizalice, samarice), ~ the Notice of Readiness predati pismo spremnosti, get in the ~ ući u pomoći gumenjak / brodicu, get out of the ~ izaći iz gumenjaka / brodice, invite ~s zatražoto ponude, raspisati natječaj  tend /ˈtɛndə/ (n) 1 a small boat used from shore to the main boat or 'mother boat' pomoćna brodica, pomoćni gumenjak (uz jahtu, gliser), pomoćni čamac, tender, bajbot: ... an able seaman close by was preparing a stern line for the mooring tender. ... three fishermen were using a borrowed tender to get ashore from their vessel, which was moored on a mid stream pontoon. tow the ~ vući pomoći gumenjak, ~ boat 1 pomoćna brodica;

2 bajbot

https://www.selfsufficientme.com/opinion/sea-princess-cruise-ship-holiday-review; 2 (shipping econ) ponuda (na natječaju), tender: The Environment and the safety requirements related to the aforementioned recommendations to the call for tender documents.

tender /ˈtɛndə/ (adj) (navig) ANTONYM stiff gegav (brod), nedovoljno stabilan brod, vergulast brod ~ ship gegav brod  tender boat (n) (navig) = utility boat pomoćna brodica, radna brodica: As a precautionary measure, an oil boom was deployed around the damaged tender boat. A second ship's tender boat was used to tow the damaged tender boat ashore.

tender clause /ˈtɛndə/ (n) (shipping econ, mar law) klaузula ponude, klaузula veta, nadzora i ponude  tender ship (n) (nav arch) a ship with very small GM (metacentric height) caused by KG (height of the ship's center of gravity the above the keel) being too large gegav brod
tend the buoy  (v) (seamanship) održavati plutacu
tend to  (v) težiti ka, nastojati, biti sklon nečemu: it tends to influence nastoji utjecati ~ dry off težiti posušivanju
tennon  (n) (boating/yachting, marine eng) The end of a piece of wood, plastics or metal cut into the form of a rectangular prism, designed to be set into a cavity or mortise of a like form in another piece. (https://www.history.navy.mil/) klin, šip, pričvrsni element ~ heel

petica jarbola
tenon  (n) (sailing vessels, nav arch, boating/yachting) SEE mortise jezičac, čep patched ~ zakrpani jezičac
tensile  (adj) (marine eng) vlačni, koji se odnosi na vlak ~ force vlačna sila, sila vlaka, ~ strength the measure of a material’s ability to withstand a tensile, or pulling stress without rupture, usually measured in pounds or tons per square inch of cross section. vlačna čvrstoća, ~ stress vlačno naprezanje, naprezanje uslijed vlaka, ~ test test na vlak, ispitivanje rastezanja
tension  (v) stezati, stegnuti
tension  (n) 1 (phys, marine eng) a force that tends to produce an elongation of a body or structure. The act of stretching or the state or degree of being stretched; Stress applied by a pulling force on a part. (http://www.marinedieseleurope.com) napetost, vlak, naprezanje na vlak; 2 (electr) električni napon, napon: However, by the time the operator reached the dolphin, there was considerable tension in the line. high ~ visoki napon, extra high ~ (EHT) vrlo visoki napon; 3 zategnutost užeta / konopa, napetost užeta / konopa: The intensity of the tension on the mooring lines is controlled by operating mooring winches or turning the mooring lines around a bit so that teh counter the thrust of a propeller.
tensioner  (n) (cargo handling) stezaljka, tirant, škartoc: tensioner ratchet strap ~ nazubljena pritezna vrpca, nazubljena pritezna traka
tension winch  (n) (seamanship) samopritezno vitlo
term  (n) 1 a naziv, termin; 2 rok; 3 stavka, klauzula; 4 stručni naziv, termin
terminal  (n) (ports) Terminals are centralized meeting points where service providers can manage the flow of transportation vehicles, serve customers, and efficiently load and unload freight and passengers; A terminal is defined as a single man-made facility that may have several berths, that handles vessels and possibly more than one type of vessel or cargo. (http://www.portinfo.co.uk/port-information/our-blog/247-what-s-the-difference-between-a-port-harbour-and-terminal) terminal port ~ lučki terminal, oil ~ naftni terminal
terminal /ˈtɜːrnəl/ (n) (electr) stezaljka, priključak, kлемa: It was also observed that the cable terminals within the socket were loose and there was poor contact within the multiple outlets of the adaptor.

terminal operator /ˈtɜːrnəl əˈpəʊrətər/ (n) (shipping econ) the company that operates cargo handling activities on a wharf.

terminal capacity (n) (ports) kapacitet terminala (za kontejnere, raste terete ili sl.): The port authority has expanded the terminal capacity for handling refrigerated containers.

terminal handling charges (n) (logist, shipping econ) additional costs, on top of the sea freight, charged by the shipping company for the handling of containers at the container terminal before being loaded onboard a vessel. https://www.logisticsglossary.com/term/terminal-handling-charges/

Terminal Handling Charge (THC) (n) (ports, shipping econ) the charge levied by the port for the loading and discharging of a container from the ship (https://shippingandfreightresource.com)

Terminal Handling Service - Destination (=DHC) (n) (shipping econ) This service covers the cost of the handling of a container at the destination port or terminal.

Terminal Handling Service - Origin (=OHC) (n) (shipping econ) This service covers the cost of handling a container at the origin port or terminal.

Terminal Operating Software system (=TOS) (n) (ports) operativni softver kontejnerskog terminala: The modern terminal operating software system (TOS) to modernize and enhance cargo deliveries and exchanges. With the TOS in place, terminal employees now work from an indoor gate-control center, interacting with truck drivers from kiosks via communication handsets and cameras. This operation is also paperless, helping to further reduce gate-lane transaction times.

terminal operation /ˈtɜːrnəl əˈpəʊrətʃən/ (n) (shipping econ) poslovno upravljanje terminalom: Terminal operation is organized to provide such necessary services as customer ticketing, package handling, and parking and docking for automobiles, trucks, aircraft, or ships.

terminal operator /ˈtɜːrnəl əˈpəʊrətər/ (n) (shipping econ) the company that operates cargo handling activities on a wharf.
kontejnerskog terminala, lučko poduzeće koje upravlja kontejnerskim terminalom, **terminal-operator**: Most large container ports in Europe have terminal operators controlled by carriers. www.gCaptain.com

**terminal port** /ˈtɜːrnɪnl/ **(shipping econ)** zadnja luka (na putovanju broda), krajnja luka the ship at her ~ brod u zadnjoj luci svoga putovanja

**terminal staff** /ˈtɜːrnɪml/ **(ports)** osoblje terminala, zaposleni na (lučkom) terminalu

**terminate** /ˈtɜːrnɪteɪt/ **(mar law)** završiti (ugovor), ispuniti, okončati: the period of employment is terminated by reason of completion of the voyage rok zaposlenja završio je završetkom putovanja the Agreement shall **terminate** upon the expiration of a period of.................... months from the date upon which such notice was given. ~ the voyage izvršiti ugovor o putovanju broda, završiti putovanje: Otherwise, it warned, it would consider the voyage terminated under Clause 19 of its bill of lading and cargo owners would thus become liable for storage and demurrage charges as per its tariff http://gCaptain

**termination** **(n)** **(mar law)** završetak (ugovora), istjek roka trajanja (ugovora): The Fee and Expenses shall continue to be payable for a further period of the number of months stated in Box 19 as from the effective date of termination.

**terms and conditions** **(n)** **(mar law)** Terms and Conditions means all terms, rights, defences, provisions, conditions, exceptions, limitations and liberties of the Bill of Lading. opći uvjeti poslovanja, opći uvjeti poslovanja prijevoznika, ugovorni uvjeti: Please note that all cargo shipped is subject to terms and conditions on the lines bill of lading

**terms of agreement** **(n)** **(mar law)** stavke ugovora

**terms of sale (=TOS)** **(n)** **(mar law)** = INCOTERMS 2000 trgovinski uvjeti, INCOTERMS

**terms of shipment** **(n)** **(shipping econ, mar law)** trgovinski uvjeti

**terrestrial navigation** /ˈtɛrestriəl/ **(n)** **(navig)** = coastal navigation method of determining the position of the ship by using terrestrial landmarks such as light house, buoys, islands, and other fixed objects. terestrička navigacija

**territorial sea** **(n)** **(mar law)** COMPARE continental shelf An area over which the sovereignty of a coastal State extends, beyond its land territory and internal waters and, in the case of an archipelagic State, its archipelagic waters, to an adjacent belt of sea, described as the territorial sea. ; Waters adjacent to a state’s coast and subject to its sovereignty. (http://www.duhaime.org/LegalDictionary/T/TerritorialSea.aspx) ; the area within which the sovereignty of a coastal State extends, beyond its land territory and internal waters and, in the case of an archipelagic State, its archipelagic waters, to an adjacent belt of sea, described as the territorial sea.

**teritorijalno more**: Every State has the right to establish the breadth of its territorial sea up to a limit not exceeding 12 nautical miles, measured from baselines determined in accordance with this Convention. (UNCLOS) Every State has the right to establish the breadth of its **territorial sea** up to a limit not exceeding 12 nautical miles, measured from baselines determined in accordance with this Convention. http://www.un.org/depts/los/convention_agreements/texts/unclos/part2.htm **The territorial sea** is a belt of coastal water extending at most 12 nautical miles (22.2 km; 13.8 mi) from the baseline (usually the mean low-water mark) of a coastal state. (www.emsa2018.com) **breadth of the territorial sea** **1 širina**

**teritorijalnog mora; 2**: Every State has the right to establish the breadth of its territorial sea up to a limit not exceeding 12 nautical miles, measured from baselines determined in accordance with this
**terrestrial waters**

*Convention*, **outer limit of the territorial sea** *vanjska granica teritorijalnog mora*: The outer limit of the territorial sea is the line every point of which is at a distance from the nearest point of the baseline equal to the breadth of the territorial sea.

[Image of a map showing territorial waters, exclusive economic zone, and continental shelf]

**terrestrial waters** *(n)* *(mar law)* **COMPARE continental shelf**

*Veliki vodeni prostori koji su u cijelosti okruženi kopnom;* Territorial waters, in international law, that area of the sea immediately adjacent to the shores of a state and subject to the territorial jurisdiction of that state. Territorial waters are thus to be distinguished on the one hand from the high seas, which are common to all countries, and on the other from internal or inland waters, such as lakes wholly surrounded by the national territory or certain bays or estuaries. (https://www.britannica.com/topic/territorial-waters)

three-island vessel brod s trodijelnim nadgrađem (kaštel, most, krmica)
three-point-fix (n) (navig) pozicija s pomoću tri točke
three pole cable (n) (electr) kabel s tri žile
three pole switch (n) (electr) tropolni prekidač
three sixty (n) (navig) okret za 360 stupnjeva Are you going to do a three sixty?
three-strand rope (n) (seamanship) konop sukan od tri struka, sukani konop,
sukano uže
three-wire system (n) (electr) The most common transistor arrangement, in which each part of the PNP (Positive, Negative, Positive) or NPN (negative, Positive, Negative) emitter, base, collector sandwich has its own metal lead. (http://www.marinedieseleurope.com/) trožilni sustav, trožilni uređaj
threshold /ˈθreəld ; ˈθreəld/ (n) (electr, navig) razina prihraćanja signala
throttle /ˈθrotl/ (n) 1 (boating/yachting, nav arch) ručica gasta, poluga gasa: I pushed the engine’s throttle into gear, and we soon heard a “WOOP, WOOOP, WOOOP” from the dock. https://gCaptain.com ~ control ručica gasa: The pilot launch engines were controlled by separate throttle controls; 2 (marine eng) gas, papučica gasa, Italian: acceleratore
throttle (v) (boating/yachting) voziti punom brzinom, voziti punim gasom: He
throttled the boat engine into the port.

**throttling (n)** (*marine eng*) Reducing the engine speed by reducing the flow of fuel.

(http://www.marinediesel-europe.com/) prigušivanje (brzine motora)

**through bill of lading (=Through Bill) (n)** (*mar law*) A bill of lading (supra) providing for the carriage of goods by water, from their point of origin to their final destination, either by successive ocean carriers or by more than one mode of transportation

teretnica koja pokriva prijevoz u kojemu sudjeluje više prijevoznika; Bill of Lading issued by a shipping line for a voyage requiring on-carriage, thus involving at least one transshipment. According to the particular contract, the issuer of the Bill of Lading may be responsible for the goods throughout the voyage or only for one leg, acting as agent for the on carriage.

http://www.tkmglobal.net/chartering_T.HTM izravna teretnica, direktna teretnica, multimodalna ili kombinirana teretnica, teretnica koja pokriva prijevoz od vrata prodavaoca do vrata kupca

**through hull fitting (=through-hull fitting) (n)** (*boating/yachting*) Fittings attached through the hull to which a sea cock and hose, a transducer, or other device is attached.

https://www.ypiyachts.com/ispust kroz trup (metalni, plastični): Through hulls are used to expel waste water, such as from a sink, to let sea water in, such as for engine cooling, and to allow placement of sensors such as depth gauges. https://www.ypiyachts.com/

(boating/yachting) ventil za odvod / dovod na trup

**throughout /θruːˈaut/ (prep)** skroz, skroz-naskroz, preko svega

**throughput /θruːˈput/ (n)** (*shipping econ, ports*) promet (luke): Shanghai become the world’s largest container port by throughput. In the first quarter of 2017, the Port of Hamburg’s total throughput was up by 1.7 percent at 35.4 million tons. **Container throughput** at the Port of Rotterdam has risen significantly in Q1 2018 to 3.5 million TEU per quarter

http://www.marinestrategy.com/key-interviews/ben-van-scherpenzeel-talks-container-throughput-port-planning-infrastructure-blockchain-brexit-and-more unitised ~ promet jediničnog tereta, bulk cargo ~ promet rasutih tereta: **Bulk cargo throughput** was 6.7 percent higher at 12.2 million tons, and general cargo handling at 23.1 million tons, just 0.7 percent lower., **general cargo ~ promet generalnog tereta:** On the export side, **general cargo throughput** at 11.9 million tons represented growth of 3.4 percent., ~ increased by 7.7 percent **pomet je porastao za 7,7 posto:** Container **throughput** in ports of Latin America and the Caribbean increased by 7.7% in 2018 in comparison with the previous year. www.maritimeprofessional.com

**through rate /θruː/ (n)** (*shipping econ*) a freight rate applicable from point of origin to destination direktna vozarina, direktan vozarinski stav: A through rate may be either a joint rate or a combination of two or more rates.
through traffic /θruː/ (n) (shipping econ) direktan promet
through transport /θruː/ (n) (shipping econ) izravni prijevoz, direktni transport
throw (n) (marine eng) par koljena osovine s osnacem; The part of a crankshaft to which the connecting rod is fastened. (http://www.marinedieseleurope.com/) ručka (koljena koljenčaste osovine)
throw overboard (v) (safety) = jettison; bacati (teret) u more, baciti preko palube u more
thrust /θrʌst/ (n) 1 (marine eng) potisak, pritisak, guranje piston ~ potisak klipa, potisak stapa, side ~ bočna sila; 2 (seamanship) poriv ~ astern poriv prema natrag, ~ forward poriv prema naprijed
thrust bearing /θrʌst/ (n) (marine eng) odrivni ležaj

http://marinenotes.blogspot.hr/2012/08/functions-of-ships-main-engine-thrust.html

thrust block /θrʌst/ (n) (marine eng) bearing arrangement, aft of the engine(s), by which the thrust of the propeller is transmitted to the ship. https://officerofthewatch.com/tools/maritime-dictionary/odrivni blok main engine ~ odrivni blok glavnog stroja
thruster /ˈθrʌstər/ (n) (maritime) porivnik, traster, thruster: The Captain fired up the thrusters to back the ship off the docks. bow pramčani porivnik (za manevriranje)

krmi (za manevriranje)
~ uvlačivi porivnik koji se okreće 360 stupnjeva: Our retractable thrusters are excellent for use as bow or stern thrusters in boats and ships with shallow or flat bottomed hulls, or where a tunnel opening in the hull at all is not desirable.
https://side-power.com/kategori/1898/baug-hekkpropell-1224v/
thruster control (n) (navigation) ručica za upravljanje pramčanim porivnikom, upravljač pramčanog porivnika
thrust load (n) (maritime) A load which pushes or reacts through the bearing in the axial direction of the shaft. (http://www.marinedieseleurope.com/) aksijalno opterećenje
thunder /ˈθʌndeər/ (meteorology) grom, grmljavina
thunderbolt /ˈθʌndeərˈbəʊlt/ (n) (meteorology) munja
thunder clouds (n) (meteorology) oljni oblaci
thunderstorm /ˈθʌndeərˈstɔːrn/ (n) (meteorology) a storm with lightning and thunder, produced by a cumulonimbus cloud, usually producing gusty winds, heavy rain and sometimes hail grmljavinska oluja, grmljavinsko nevrijeme, oluja, nevera (na Jadranskom moru),
Italian: **temporale** ~ high grmljavinska anticiklona, light ~ neverin, severe ~ jaka grmljavinska oluja

**thursh wrasse** (n) (*fishing*) Lat. Symphodus tinca lumbrak

**thwart** /ˈθɔːt/ (n) (nav arch) (boating/yachting) a bench seat; a seat running across an open boat

**klupica** poprečna klupica (na jedrilici, brodici za spašavanje), banak

**thwartships** /ˈθɔːtʃips/ (adv) = athwartships (seamanship) at right angles to the fore and aft line (across the ship) poprijeko (boda, brodice)

**ticket** Master’s ~ svjedodžba o položenom kapetanskom ispitu, tiket svjedodžba o položenom ispitu za ovlaštenje

**ticket** (n) (shipping econ) putna karta (na putničkom brodu, trajektu)

**tick off** (v) označiti kvačicom (npr. na popisu pitanja, radnji itd.), štrihirati

**tidal arrow** (n) (oceanogr) plimna strjelica

**tidal atlass** (n) (navig) plimni atlas

**tidal berth** (n) (oceanogr) plimni vez, vez s plimnim režimom

**tidal conditions** (n) (oceanogr) plimni uvjeti

**tidal current** (=TC) (n) (oceanogr) Tidal currents occur in conjunction with the rise and fall of the tide. The vertical motion of the tides near the shore causes the water to move horizontally, creating currents. When a tidal current moves toward the land and away from the sea, it “floods.” When it moves toward the sea away from the land, it “ebbs.”

(https://oceanservice.noaa.gov/education/tutorial_currents/02tidal1.html) plimna struja,

**Italian: corrente di marea**: an irregular bottom and constricted channel produces rapid tidal currents, abrupt current direction changes, and hazardous croscurrents. http://gCaptain.com

**tidal curve** (n) (oceanogr) plimna krivulja
tidal drift (n) (oceanogr) strength / speed of the tidal drift brzina plimne struje
tidal energy platform (n) (nav arch) brod-platforma za proizvodnju električne energije korištenjem plime i oseke: The tidal energy platform was designed by Damen to be transported and installed all over in the world to provide clean energy in remote areas and small islands, replacing diesel generators.
tidal port plimna luka, luka s plimnim režimom
tidal race (n) (oceanogr) brzac (struje)
tidal range (oceanogr) The difference of a tide’s high and low water levels.
https://www.ypiyachts.com raspon plime, plimni režim, razlika / raspon između plime i oseke: Max tidal range in the port of Rijeka is 1.2 m.

tidal rip (n) (oceanogr) sraz struja, spoj struja
tidal set (n) (navy) smjer plimne struje
tidal stream (n) (oceanogr) = tidal current plimna struja: The tidal stream around Tilburyness is complex due to the fluvial flow of the river. Plimna struja oko Tilburynessa je složena uslijed riječnog toka Tidal stream: 290° at 6kts The tidal stream was flowing north to south.
tidal waters (n) (oceanogr) plimne vode, vode s plimom
tidal wave (n) (oceanogr) A tidal wave is a shallow water wave caused by the gravitational interactions between the Sun, Moon, and Earth. (https://oceanservice.noaa.gov/facts/tidalwave.html) plimni val
tide /ˈtaid/ (n) 1 (oceanogr) the vertical rise and fall of the ocean level caused by the gravitational force between the earth and the moon (and to a lesser extent, between the earth and the sun (Seasources.net) morske mijene, plima i oseka, Italian:marea spring ~ živa morska mijena, high ~ plima, visoka voda, flood ~ plima, ebb ~ oseka, slack ~ stanje mirovanja mijena, mirovanje mijena, the ~ rises and falls plima raste i pada, the tide drops plima opada, semidiurnal ~ poludnevne mijene, height of ~ visina plime: We had to wait for sufficient height of tide to transit these channels, diurnal ~ jednodnevne mijene, rising ~ plima u rastu, more u porastu: A tug was promptly called and with the rising tide the vessel was quickly re-floated and properly berthed., low ~ oseka, niska voda, neap ~ mrtva morska mijena, check ~ and currents provjerite morske mijene i struje a morska mijena; 2 SYNONYM tidal current Tidal currents occur in conjunction with the rise and fall of the tide. The vertical motion of the tides near the shore causes the water to move horizontally, creating currents. When a tidal current moves toward the land and away from the sea, it “floods.” When it moves toward the sea away from the land, it “ebbs.” (https://oceanservice.noaa.gov/education/tutorial_currents/02tidal1.html) plimna struja set of ~ smjer plimne struje, drift of ~ jačina plimne struje, brzina plimne struje,
setting of ~ smjer plimne struje, to stem the ~ ploviti protiv plimne struje, ploviti protiv struje; 3 plima; 4 struja
tide rips (n) (oceanogr) an area of rough water typically caused by opposing tides or by a rapid current passing over an uneven bottom (https://en.oxforddictionaries.com/definition/tide_rip) sraz struja, nemirno more zbog sraza struja

http://www.saltwater-dreaming.com/learn-surfing/rip-currents.htm
tides (n) 1 (oceanogr) the vertical rise and fall of the ocean level caused by the gravitational force between the earth and the moon (and to a lesser extent, between the earth and the sun (Seasources.net) morske mijene; 2 struje variable ~ promjenljive struje
Tide Tables (n) (navig) Tablice morskih mijena, Italian: Annuario delle maree Admiraltry ~ Admiralitetske tablice morskih mijena

tie-bolt /tai,beult/ (n) (comm) kotveni vijak, kotvena šipka

vremenske baze (radara)
timebase trace (n) (navig) neprekinuta svijetla crta (na radarskom zaslonu)
time charter (n) (mar law) A time charterer (TC) is an arrangement where the charterer is given
operational control for the cargo-holding vessel, while leaving management in control of the ship owner.
(https://brage.bibsys.no) brodarski ugovor na vrijeme za cijeli brod, ugovor na
vrijeme: A general cargo vessel operating under a time charter agreement was scheduled to load a
combined cargo of containers and cement bags under deck and, unusually for the ship, containers on deck.
Under TC (time charter) contracts, vessels are hired for a specific period at a pre-decided daily rate. In the
Time Charter the charterer is usually responsible for bunkers, port charges, canal tolls and any crew
overtime connected with the cargo. The charter rate (hire) is quoted in terms of a cost per month per
deadweight ton. www.euronav.com trip ~ The trip time charter is for one voyage, or a very short period
of time the **ugovor o najmu broda za jedno ili vrlo krako putovanje**: *Trip charter rates* are therefore also spot rates, but in contrast to the voyage charter the payment is made on a $/day basis, hence reducing risk for the ship owner in the occurrence of delay outside of port.

(https://brage.bibsys.no), enter into a ~ contract **sklopite ugovor o najmu broda na vrijeme**: .... Shipping announced has entered into a *time charter contract* with ..... for one of its Capesize dry bulk vessels, the m/v ..... **timecharterer**

**time charterparty** *(mar law)* A time charterparty is a contract whereby the lessor (the shipowner or demise charterer) places a fully equipped and manned ship at the disposal of the lessee (the time charterer) for a period of time for a consideration called hire payable at specified intervals during the term of the charter.

**brodarски ugovor na vrijeme** *(EUDict)*, **ugovor o najmu broda na vrijeme**, **ugovor o iskorištavanju broda na vrijeme**: In *Time Charter Party agreements*, the charterer may only assume responsibility for operations, routing and cargo, while technical, crewing etc. remain with the owner.

**time charter rate** (=**TC rate**) *(shipping econ, mar law)* the daily rate the ship owner receives for operating a vessel under a time charter agreement, and is denoted in USD/day

(https://brage.bibsys.no) **dnevna najamnina broda u ugovoru na vrijeme**: Rising **TC rates** give a brighter outlook for the dry bulk industry and vice versa. **TC rates** for dry bulk vessels have fallen considerably over the last few months. Panamax and Ultramax one-year **TC rates** have fallen by 38% and 39%, respectively, to $5,000 and $5,200 per day.

**time freight** *(shipping econ)* **vozarina po jedinici vremena**

**time lost in waiting for berth to count as loading or discharging time** *(n)* *(mar law)* vremeno izgubljeno zbog čekanja na privez računa se kao vrijeme ukraćaja

**time lost waiting for berth to count** *(v)* *(mar law)* Time Lost Waiting for Berth to Count - A Charter-Party expression which denotes that the laytime are to start from the time the Notice of readiness is presented by the master to the charterer's agent, ever, though vessel is held up because no berth is available. http://www.tkmglobal.net/chartering_T.HTM uračunati i izgubljeno vrijeme čekanja na vez

**Time of bow closest range** (=**TBCR**) *(navig)* vremensko razdoblje do minimalne udaljenosti mimoilaženja po pramcu

**time policy** *(mar ins)* **polica na vrijeme**

**time sheet** *(mar law)* **SEE statement of facts** dokument u obliku tablice koji se sastavlja radi bilježenja i obračunavanja stojnica i prekostojnica i uštede u vremenu; Statement, drawn up by the ship’s agent at the loading and discharging ports, which details the time worked in loading or discharging the cargo together with the amount of laytime used.

ton /tn/ (n) (nav arch) is a unit of measure - used principally as a unit of mass, and as a unit of volume

tona short ~ (US) kratka tona (2000 lbs), long ~ (UK) (UK) duga tona (2240
lbs), metric ~ equal to 1000 kilograms, or approximately 2204 pounds

metrica tona (1000
kg / 2204 lbs)

to name bill of lading (n) (mar law) = named bill of lading teretnica (koja
ton mile demand  

"tona / milja": The clean tanker markets are depressed as ton mile demand across the MR2 to LR2 markets remains stagnant

tonnage /ˈtnʌndʒ/ (n) 1 (nav arch) A measure of the volume of a ship.

gross ~ (GT) the actual carrying capacity of the ship’s hull below the upper deck, in cubic feet, divided by 100. bruto tonaža, Italian: stazza lorda, gross register ~ (GRT) The volumetric cargo capacity of the ship according to its certificate of registry. bruto registarska tona, net ~ gross tonnage less the number of cubic feet reserved for crew’s quarters, ships stores, bunkers, engine room space, etc. neto tonaža, Italian: stazza netta, deadweight cargo capacity In a voyage charterparty, the vessel’s deadweight tonnage, from which bunkers, fresh water and constant (e.g. galley supplies, paint, lubricating, oil, etc.) are deducted, to determine the ship’s actual cargo carrying capacity. kapacitet nosivosti, deadweight ~ the actual cargo carrying capacity of the ship, when she is fully loaded with cargo so that the hull is immersed in water up to her Plimsoll marks nosivost, displacement ~ a term usually used in warships to measure the weight of the water displaced by the ship when she is fully loaded with all her crew, bunkers, stores and equipment and armament on board.

istisnina, register ~ the gross tonnage and/or the net tonnage, as entered on a ship’s certificate of registry. A register ton is 100 cu. ft. registarska tonaža; 2 zapremsinska tonaža, baždarna tonaža; 3 brodovlje, brodovi, tonaža brodovlja: The Panama Canal closed its 2018 fiscal year with a record tonnage of 442.1 million Panama Canal tons (PC/UMS), which represents a 9.5 percent increase from the previous year. https://www.marinelink.com/news/panama-canal-sets-record-annual-cargo-442512

Tonnage Dues Slip /ˈtnʌndʒ/ (n) (shipping econ) Isprava o obračunu pristojba na temelju tonaže

tonnage mark /ˈtnʌndʒ/ (n) (nav arch) baždarska oznaka

tonnage measurement /ˈtnʌndʒ/ (n) (mar law) način određivanja zapreminine brodskog prostora (kao mjerilo za naplatu pristojbi i drugih naknada broda prema luci, državi luke itd.))

baždarenje broda

tonnage measurement certificate /ˈtnʌndʒ/ baždarska svjedodžba

tonnage measurement certificates /ˈtnʌndʒ/ baždarske isprave

tonnage measurement deck /ˈtnʌndʒ/ paluba baždarenja

tonnage opening /ˈtnʌndʒ/ (nav arch) an opening left in a deck for bringing the space covered within the exemptions of a rule for calculating tonnage (https://www.merriam-webster.com/dictionary/tonnage%20opening) tonažni otvor

tonnage tax (n) 1 (mar law) Taxes, fees, harbor dues etc. paid on the vessel based on a tonnage
calculation. **pristojbe plaćene po tonaži; 2 (shipping econ) olakšice brodarima**

**obračunate po tonaži brodova:** Tonnage tax is one of the main maritime subsidies. This is considered to be an implicit subsidy, since the shipping-specific tax, based on the tonnage of a ship, replaces regular corporate income tax. The result is a more favourable tax treatment.

**tonne** /ˈtʌn/ (n) (cargo) A unit of mass equal to 1000 kg or 2204.6 pounds tona, metrička tona

**tonne-miles** (=tm) (n) (shipping econ) A unit of freight transportation equivalent to a ton of freight moved one mile.; Quantity transported multiplied by average voyage distance.

(www.euronav.com) tona milja, tona-milja, jedinica prijevoza tereta: jedan tona tereta prevezen u duljini od jedne milje: This ship will start trading when freight rates rise slightly above $155 per million tonne-miles (mtm). At $155 per mtm, the ship will sail at the lowest possible speed of 11 knots to save fuel, offering a transportation of 10,1 billion tonne-miles (btm) a year. MTM - million ton miles millijun tona milja

**tons per day** (=TPD) (n) (cargo handling, mar law) The quantity of cargo loaded or discharged each day. The time allowed by a shipowner to a charterer for loading or discharging, known as laytime, is often expressed as a number of tons per day. tona na dan

**tool** /ˈtʊl/ 1 (marine eng) alat, oruđe: Ensure that all the necessary tools are at hand. store ~s spremiti alat, power ~ alatni stroj, mehanički alat, cordless ~ akumulatorski alati, bežični alati; 2 (marine eng) sredstvo
toolbox (n) (marine eng) kutija za alat
tool cabinet (n) (marine eng) kolica za radionice
tool port (n) (mar law, ports, US) COMPARE port privatization COMPARE

**landlord port** Similar in every aspect to a public service port, the tool port differs only by the private handling of its cargo operations, albeit the terminal equipment is still owned by the port authority. In several cases, a tool port is a transitional form between a public service port and a landlord port. (https://people.hofstra.edu/geotrans/eng/ch4en/conc4en/tbl_public_privte_roles_ports.html)

Represents the most common management model where infrastructure, particularly terminals, are leased to private operating companies with the port authority retaining ownership of the land. The most common form of lease is a concession agreement where a private company is granted a long term lease in exchange of a rent that is commonly a function of the size of the facility as well as the investment required to build, renovate or expand the terminal. The private operator is also responsible to provide terminal equipment so that operating standards are maintained. (https://people.hofstra.edu/geotrans/eng/ch4en/conc4en/tbl_public_privte_roles_ports.html)

**državna luka s privatnim slagackim i skadišnim operatorima**

**to order bill of lading** (n) (mar law) = order bill of lading Bill of Lading which requires an endorsement by a consignee before goods can be delivered to him by the carrying ship. Also called a “Bill of Lading to order.” http://www.tkmglobal.net/chartering_B.HTM teretnica po naredbi / nalognu

**to order of shipper** (prep phr) (mar law, shipping econ) The shipper, by way of endorsement and passing of the document, allows a transfer of the rights to take delivery of the goods in the document e.g. a bill of lading. po krcateljevom nalognu, po nalognu krcatela
tooth (n) (marine eng) zub, zubac (zupčanika)
toothed gear /tuθ/ (n) (marine eng) zupčanik
top (n) koš (na jarbolu, samarici), Italian: coffa
top breadth (n) (nav arch) The width of vessel measured across the shelter deck. širina broda na zaštitnoj palubi
top dead centre (=TDC) (n) (marine eng) ANTONYM bottom dead centre
gornja mrtva točka (hoda klipa motora): When setting the engine to TDC on the compression stroke for cylinder #1, you must realize that the crankshaft rotates twice for every single rotation of the camshaft. Onal jerk pump fuel injection system: diesel fuel is injected at high pressure into the combustion chamber just before the top dead centre (TDC).

torsion of a ship (n) (nav arch) torzija broda, uvijanje trupa broda: ... when the
The direction of the waves is at approximately 45 degrees to the velocity of the ship, port side of the forward section and the starboard side of the aft section would experience a wave crest at the same time, and vice versa. This results in a type of periodic loading which causes the hull to twist. This effect is called torsion, ... https://www.marineinsight.com/naval-architecture/understanding-design-of-container-ships/

tort a civil wrong arising from an act or failure to act, independently of any contract, for which an action for personal injury or property damages may be brought; Tort laws involve civil suits, which are actions brought to protect an individual's private rights. There are two major categories of torts typically seen in education-related cases: intentional and negligence. (www.thefreedictionary.com/Civil+tort);

zaštita prava pojedinca od drugih pojedinaca; odgovornost pojedinca; tort, in common law, civil law, and the vast majority of legal systems that derive from them, any instance of harmful behaviour, such as physical attack on one's person, interference with one's possessions, or the use and enjoyment of one's land, economic interests (under certain conditions), honour, reputation, and privacy. The term derives from Latin tortum, meaning "something twisted, wrung, or crooked." The concept encompasses only those civil wrongs independent of contracts.; civil wrong arising from an act or failure to act, independently of any contract, for which an action for personal injury or property damages may be brought (https://www.collinsdictionary.com/dictionary/english/tort)

Maritime liens can arise not only when the personified ship is charged with a maritime tort such as a negligent collision or personal injury, but also for salvage services, for general average contributions, and for breach of certain maritime contracts.

tort law /tɔːt/ (n) (mar law) izvanugovorno pravo, obvezno pravo, zaštita privatnih prava pojedinaca
torts /tɔːts/ (n) (mar ins) izvanugovorna odgovornost
toss a line (=throw a line; pass a line) (v) (boating/yachting) = pass a line

https://www.practical-sailor.com dobaciti konop (na obalu, drugu brodicu / jedrilicu): Perfecting to toss the line requires some practice https://www.practical-sailor.com/ Toss the coils in an underhanded manner so that they unwind as they fly.

total loss (n) (mar law) an actual total loss of the vessel or such damage to the vessel that the cost of saving and repairing her would exceed her market value at the time of the collision. (Lisbon Rules 1987, potpuni gubitak broda, totalna šteta: She sustained major damage, including the total loss of her port controllable pitch propeller hub and a section of tail shaft. In the event of the total loss of the Ship before delivery, either the Builder or the Buyer shall be entitled to terminate this Contract by written notice to the other, such notice to be delivered within thirty (30) days after the date (the “Determination Date”) on which it is determined that the Ship has become a total loss pursuant to Clause 3. (Shipbuilding Contract) The number of total losses among vessels over 500GT hit at a 20-year low in 2018 despite growth in the global fleet, according to the International Union of Marine Insurance. https://gcaptain.com constructive ~ potpuni gubitak pri kojemu je brod toliko uništen da njegov popravak nije isplativ izvedeni potpuni gubitak, izvedena totalna šteta, actual ~ stvarni potpuni gubitak, stvarna totalna šteta, declare ~ proglasiti totalnu štetu: Containers stowed in forward holds 1-3 have been declared a total loss after fire and water damage The ship stayed afloat but was eventually declared a total loss and sold for scrap. Car carrier declared total loss after explosion onboard. https://safety4sea.com/ The ship has been declared a total loss following a fire that broke out onboard.

transmitter/receiver unit; t/r = transceiver primopredajnik, radarski predajnik i odašiljač: The transmitter/receiver unit, or t/r, is generally housed in the gearbox of the scanner unit.
transom /trænsəm/ (n) (nav arch) a more or less flat surface across the stern of a vessel zrcalo,

kvadar
transom edge (n) (nav arch) rub zrcala
transom flap (n) (boating/yachting) zasun na zrcalu
transom flaps (n) (boating/yachting) klapne na zrcalu krme (za pražnjenje vode)
transom knee (n) (nav arch) koljeno na zrcalu (brodice)
transom plate (n) (nav arch) transoms ploča, krmena poprečnica
transponder (=TRANSMitter - resPONDER) (n) (navig) transponder transport /trænsˈpɔːt/ (n) = transportation prijevoz, transport transport /træns pɔt/ (v) prevoziti
Transportable Moisture Limit (=TML) (n) (safety, cargo handling) granica vlažnosti tereta u transportu: section 4.5 of the Code stipulates the shippers’ responsibility to ensure that the testing and sampling for Transportable Moisture Limit (TML) and moisture content is carried out at the correct intervals. https://marinelink.com
transportation /ˌtrænspɔːˈteɪn/ (n) (US) = transport movement of people and goods from one location to another transport, prijevoz (roba, putnika) means of ~ transportno sredstvo, ocean ~ pomorski transport, flow of ~ odvijanje transporta, tijek transporta: Terminals are centralized meeting points where service providers can manage the flow of transportation vehicles, serve customers, and efficiently load and unload freight and passengers.

transportation department (n) (US) (mar law) ministarstvo transporta
transportation improvement (n) (US) (shipping econ) unapređivanje transporta
transportation industry (n) (shipping econ) transport (grana gospodarstva)
transportation mode (n) (logist, shipping econ, geogr) transportation modes are an essential component of transport systems since they are the means by which mobility is supported. A wide range of modes that may be grouped into three broad categories based on the medium they exploit: land, water and air. (https://transportgeography.org/?page_id=100) vid transporta: Each transportation mode has its own requirements and features, and is adapted to serve the specific demands of freight and passenger traffic. This gives rise to marked differences in the ways the modes are deployed and utilized in different parts of the world. More recently, there is a trend towards integrating the modes through intermodality and linking the modes ever more closely into production and distribution activities. At the same time, however, passenger and freight activity is becoming increasingly separated across most modes. https://transportgeography.org/?page_id=100

transportation regulations (n) (logist, US) transportni propisi, propisi o transportu robe
transportation vehicle (shipping econ, US) prijevozno sredstvo, transportno sredstvo
transport beneficiary (n) (shipping econ, mar law) osoba koja ima određena prava prema ugovoru o prijevozu stvari korisnik prijevoza
transport document (n) (mar law) a document issued under a contract of carriage by the carrier that: (a) Evidences the carrier’s or a performing party’s receipt of goods under a contract of carriage; and (b) Evidences or contains a contract of carriage. (Rotterdam Rules 2009) prijevozni dokument, transportni dokument, prijevozne isprave za robu/teret
transport operator (n) (mar law) opći prijevoznik koji radi s vlastitim ili unajmljenim/zakupljenim prijevoznim sredstvima (EU, za razliku od carrier = pomorski prijevoznik) prijevoznik, opći prijevoznik
transtainer /ˈtrænstoʊni/ (n) (cargo handling) A type of crane used in the handling of containers, which is motorized, mounted on rubber tires or rail wheels and can straddle at least four railway tracks, some up to six, with a lifting capacity of 35 tons for loading and unloading containers to and from railway cards. skladišna kontejnerska dizalica: Transtainers or stacking cranes, straddle carriers, van carriers, front and side loading fork-lift trucks are used for moving and stacking containers within the terminal up to five-high, i.e. five containers one above the other.
transversal stability calculation

transverse /ˈtrænzvɜːs/ (adj) at right angles to the ship’s fore-and-aft center line

transverse /ˈtrænzvɜːs/ (n) (navig) SEE deck beam

transverse axis /ˈtrænzvɜːs/ (n) (nav arch)

transverse bulkhead (n) (nav arch)

transverse effect (n) (seamanship)

transverse frame (n) (nav arch) a structural member that extends outward from the keel and upward to the main deck
transverse load \( (n) \) (nav arch) poprječno naprezanje

transverse metacentre \( (=TM) \) \( (n) \) (nav arch) poprječni metacentar

transverse movement \( (n) \) (ship handling) poprečno kretanje broda, bočno gibanje broda

transverse propulsion unit \( (n) \) (nav arch, marine eng) poprečni propelerski uređaj

transverse section \( (n) \) (nav arch) poprečni presjek

transverse shift of stern \( (n) \) (navig, seamanship) izboj krme

transverse stability \( (n) \) (nav arch, stabil) the measure of a ship’s ability to return to an upright position after being disturbed by a force that rotates it around a longitudinal axis

stabilnost: Analysis of static transverse stability arises from the effect of upsetting forces or heeling moments, ... https://www.marineinsight.com/naval-architecture/intact-stability-of-surface-ships/

transverse statical stability \( (n) \) (stabil) the ability of a ship to return to the upright position when it has been forcibly heeled by an external force and is momentarily at rest when floating in still water (Rhodes, Ship’s Stability, Seamanship, 2003)

transverse thrust \( (n) \) (seamanship, navig) izboj, sila izboja, bočni odriv
propelera
transverse web (n) (navig) poprečno rebro bottom ~ poprečna rebra u dnu
transverse web plate (n) (nav arch) poprečnjak dna bottom transverse ~ plosni
okvir poprečnjaka dna

trap
trapdoor (=embarkation platform) (n) (ship_equipment) an opening the bottom of the
lower platform of the gangway to allow access from and to the pilot ladder; The pilot ladder shall be
rigged to extend through the trapdoor and secured 1.5 meters above the bottom platform ( SOLAS
3.3.2.1). otvor u platformi brodskog siza (za ulaz peljara) : The IMO guidelines are
against trapdoors since they are considered to be unsafe. https://safety4sea.com/ ‘the pilot ladder shall be
rigged through the trapdoor extending above the platform to the height of the handrail’ (IMO regulation)
https://safety4sea.com/ If a trapdoor is fitted in the lower platform to allow access from and to the
pilot.ladder, the aperture should not be less than 750 mm x 750 mm.

https://navsregs.wordpress.com/tag/pilot-ladders/

trapeze /trəˈpiːz/ (n) (boating/yachting) trapez standard ~ harness standardna

oprema trapeza
trapezing techniques (boating/yachting) tehnike trapeziranja, tehnike na trapezu
trapped radar wave (navig) uhvaćeni val (u radarskom kanalu)
travel /ˈtrævl/ (n) 1 (shipping econ) putovanje ~ expenses putni troškovi, prijevozni troškovi; 2 (marine eng) put, hod piston ~ hod klipa, put klipa, gibanje klipa
travel /ˈtrævl/ putovati, ploviti: Many shorter routes, including coastal routes, are heavily traveled.
travel documents (mar law, boating/yachting) putne isprave
traveller /ˈtrævələ/ (=traveler (US)) (boating/yachting) A fitting that slides from side to side on a line or track. Commonly used as an attachment point for the mainsheet.
**travel lift** *(n) (boating/yachting)* samohodna dizalica (za brodice), **travelift:** A travel lift or crane hoists the boat on shore from the water. **Travelifts** are equipped with 4-wheel independent steering that allows a perfect alignment of wheels under all conditions. 90° steering also ensures excellent maneuverability, allowing flawless functionality even in very confined spaces.

![Travel Lift Diagram](https://www.harken.com/traveler/)

**travelling crane** *(n) (cargo handling)* pokretna obalna dizalica (na šinama)

**traverse** /ˈtrævəs/ *(v) (shipping econ)* prelaziti, prijeći

**trawl** /ˈtrɔːl/ *(nav arch, fishing)* koča, koća, povlačna mreža ~ block koloturnik koće, koloturnik za povlačenje mreže: The **trawl block** was then hauled and tensioned.

~ **gear** oprema za koćarenje, koćarski alat: The starboard derrick, with the **trawl gear**
suspended from it, probably then swung inboard and the trawler rapidly capsized to port.

The lights were those of a fishing vessel, which was trawling in a northerly direction.

A deckhand placed a hook into one of the trawl door inner chain links.

Pelagic (surface/open ocean) trawling involves the towing of large nets behind one or more fishing vessels. The main feature in all demersal trawling techniques is that the hauled net maintains contact with the seafloor as the vessel is underway. This is achieved by weighting the bottom edge of the net entrance, whilst floating the top edge with the use of buoys.
trawl net (n) (fishing) mreža potegača, koča

COLREGS require that a vessel engaged in trawling, in addition to the lights prescribed for its length, should display two all-round lights in a vertical line. The upper light is green and the lower light is white.

trim /trim/ (v) 1 (stabil, nav arch, cargo handling) izravnavanje gaza broda (na pramcu i krm),
iravnomjernim slaganjem tereta po dužini broda; the arithmetic sum of the drafts forward and aft
above and below the mean water-line(SeaSources.net); The condition of a vessel with reference to it's longitudinal position in the water. It is the difference between the forward and after drafts expressed in feet/inches or meters/centimeters. (www.euronav.com) trim, Italian: assetto: TRIM is positive when aft is larger than tfwd, i.e. the ship has an aft trim. aft ~ krmeni trim, forward ~ pramčani trim, moment to change ~ jedinični moment trima, ~ by the stern
trim po krmi (zatežan brod): A small trim by the stern is desirable as most ships are expected to sail better in a seaway in this condition., ~ by the head trim po pramcu: Excessive trim by the head should be avoided because the rudder will be immersed less making the ship difficult to steer.;

(boating/yachting) To haul in on a sheet to adjust the sail trim. https://www.ypiyachts.com/, small adjustments made to sails in order to maximize their efficiency (http://www.aps ltd.com/aps-advisor/sailing-terms-glossary/)

trimanje jedara, namještanje jedara, ugađanje jedara

trim: (v) 1 (boating/yachting) namjestiti, trimati ~ the sail namjestiti jedro kacati jedro, trimati jedro, našteltati kedro; 2 zategnuti ~ the line zategnuti uže, kacati konop

trim aft (=trim by the stern; draft) (n) (stabil) zatega

Trim and Stability Book (n) (stabil) knjiga trima i stabiliteta

trimaran (n) (nav arch) trotrupac, trimaran

trim by head (n) (cargo handling) A vessel is said to trim by the head when its draft forward is greater than aft pretega

trim by stern (=trim aft; drag) (n) (nav arch, cargo handling) A vessel is said to trim by the or stern when its draft aft is greater than forward zatega

trim calculation (n) (stabil) proračun trima, centracija trima

trim calculations (n) (stabil) proračun trima

trim forward (=trim by the head) (n) (cargo handling) pretega
trim indicator (n) (nav arch, cargo handling) pokazivač trima
trimmed by the bow /trimd/ (adj) (cargo) brod trimovan / triman po pramcu, pretežan brod
trimmed by the stern (cargo) zatežan bord, brod trimovan / triman po krmì
trimming /′trimiŋ/ (n) (cargo handling, safety) izravnavanje gaza broda (na pramcu i krmì)
uravnoteživanje tereta na brodu: Cargo trimming is a mandatory requirement for some cargoes, especially where there is a risk of the cargo shifting or where liquefaction could take place. It is recommended the cargo in all holds be trimmed in an attempt to minimise the risk of cargo shift.
trimming hatch (n) (nav arch) otvor za sipke terete
trimming lever (n) (stabil, cargo handling) poluga trima
trimming moment (n) (nav arch, stabil) a moment exerted by a weight anywhere in the ship acting about the center of flotation moment trima, moment trimovanja: A trimming moment causes the ship to trim or tip, around the center of flotation.
trimming of sail (n) (boating/yachting) ugađanje jedra, podešavanje jedra, trimanje jedra
Trinity House /′triniti/ (n) (shipping econ) Uprava za održavanje plovidbenih putova u Vel. Britaniji
trip /′trip/ (n) (marine eng, electr, safety) ispad iz rada, izbacivanje iz rada / pogona, naprava za iskopčavanje iz pogona (u slučaju pregrijavanja, manjka ulja, itd.), zaštita low-lube-oil-pressure ~ zaštita od preniskog tlaka ulja, overspeed ~ izbacivanje u slučaju prevelike brzine, zaštita od nadnormalne brzine, ~ test test iskapčanja
trip (n) (hum_resources) putovanje ~ to sea posao na brodu, first ~ prvi posao na brodu: The deck cadet who was on the bridge at the time of the accident. It was his first trip to sea.
trip (v) 1 (marine eng, electr, safety) ispasti iz rada (o stroju, motoru, pumpi itd.): On Tuesday the only running auxiliary engine of the vessel tripped and the emergency generator automatically cut in. https://gCaptain.com The voltage in the electric distribution system dropped and the No.3 generator main circuit breaker tripped. (https://safety4sea.com/); 2 (marine eng) otpustiti; 3 (electr) izbaciti (o osiguračima); 4 otkinuti
Triple-E containerships (n) (nav arch) Three E: energy efficiency (energetska efikasnost), economy of scale (ekonomika velikih brojeva), environment (zaštitu okoliša) kontejnerski brod tipa tri-e: Maersk Line has indicated that the central considerations of the original Triple-E’s – energy efficiency, economy of scale and the environment – will remain unchanged.
trip line (n) (boating/yachting) A line attached to the end of an anchor to help free it from the ground. konopac za oslobađanje sidra
tripod /′traipəd/ (adj) tripod, na tri noge
tripod mast /′traipəd/ (n) (nav arch) tripodni jarbol, tronogi jarbol
trip out (v) (electr, marine eng) izbaciti (osigurač)
trip out (v) (marine eng, electr) ispasti iz rada, iskopčati se: At 1811 the port generator tripped out on high fresh water temperature, closely followed by the starboard generator tripping out, also on high fresh water temperature.
tripped engine (n) (marine eng) stroj koji ispao iz rada, stroj koji je prestao raditi: Attempts by the crew to restart the tripped auxiliary engine and to start the other auxiliary engines failed. https://gCaptain.com

tug’s propellers.

tune the radar set  \(\text{n (navig)}\)\: \text{ugoditi radar}\: \text{To tune the radar set choose a distant weak target, as the effect of tuning will be more obvious. Then adjust the tuning knob for the clearest and...}
brightest picture. If you are at sea, with no targets visible, adjust the set for maximum sea clutter.

**tungsten** /ˈtʊŋstən/ (n) (chem) volfram, tungsten

**tuning** /ˈtjuːnɪŋ/ 1 (navig, marine eng) ugađanje (radara itd.), fina regulacija, fino namještanje, fino podešavanje: The radar receiver can be tuned automatically or manually, and the default tuning method is automatic; 2 (marine eng) regulacija; 3 (marine eng) štelanje; 4 (boating/yachting) adjusting the standing rigging, the sails and the hull to balance the boat for optimum performance ugađanje jedara

**tuning control** (n) (navig) kontrola za ugađanje radara (na frekvenciju odašiljača): The tuning control can be compared to the tuning control of an ordinary radio, in that it tunes the receiver to the frequency of the transmitter.

**tunnel** /ˈtənəl/ (n) (nav arch, marine eng) = shaft tunnel osovinski tunel ~ access prostor za pristup osovinskom tunelu, shaft ~ osovinski tunel tunnel recess (n) (nav arch) prostor odrivnog ležaja

**tunny** /ˈtʌni/ (n) tuna, tunj

**turbine** /ˈtɜːbɪn; ˈtɜːbain/ (n) (marine eng) turbina gas ~ plinska turbina, low-pressure ~ niskotlačna turbina, steam ~ parna turbina, ~ blade lopatica turbine, ~ casing kućište turbine, ~ gland steam para koja istječe iz brtvenice turbine

**turbine blading** (n) (marine eng) turbinske lopatice, lopatičje turbine
turbine propulsion turbinski pogon ship's ~
During a short sea passage on a twin-engined ship, a motorman was cleaning around the turbo blower of one of the main engines. Turbochargers of Marine Engines are an important part of the system as they utilise the waste heat of the exhaust in order to supply charge air for scavenging of the engine. The equipment consists of turbine and blower attached on the same shaft.

If the blower side cleaning is not carried out properly, then the supply of air to engine will be reduced, resulting in lack of air and improper combustion with black smoke. The Blower side of turbocharger is cleaned by fresh water. The engine is run at its full load rpm to achieve best possible cleaning.
turbocharge /ˈtɜːbəʊˌtʃaːdʒ/ (marine eng) turbonabijanje
turbocharger /ˈtɜːbəʊˌtʃaːdʒə/ (marine eng) turbopuhalo

turbocharging /ˈtɜːbəʊˌtʃaːdʒɪŋ/ (marine eng) turbonabijanje
turbocompressor (marine eng) turbokompresor
turboelectric drive /ˈtɜːbəʊˌiˈlektrɪk/ (marine eng) turboelektrični pogon

turbogenerator /ˈtɜːbəˌdʒɛnərətər/ (marine eng) turbogenerator
turbot /ˈtɜːbət/ (n) (fishing) romb, rumbac, rumbač, plat
turbulence /ˈtɜːbləns/ (n) (meteorol) disrupted flow in the atmosphere that produces gusts and eddies turbulencija
turn 1 (v) (navig) okrenuti (o brodu), okretati (o brodu): Meanwhile, the tanker had turned almost 90deg from her original heading. The ship started to turn quickly to starboard. The pilot said: "Let me see how she turns". Then I’ll decide if we go inside or back in. Once turned, the engine was put ahead and speed increased. (https://safety4sea.com/) ~ the ship onto a heading okrenuti brod na pramčanicu od ... stupnjeva, okrenuti brod u ... smjer:
Accordingly, at approximately 0013 the OOW turned the vessel onto a north-westerly heading. The vessel turned from a heading of 090 to 170 degrees in 70 seconds. (https://safety4sea.com/), ~ towards skretati prema, okrenuti prema: At the same time, the second officer noticed that his ship was turning towards the bulk carrier.; 2 (ship handling) prebaciti (uže / konop oko bitve) ~ the line on the winch namotati / prebaciti uže oko vitla, namotati (uže oko bitve)
**turn**  (n)  1  *(navig)* okret broda (u rijeci, plovidbenom kanalu): The vessel was approaching a starboard turn in the river, with a flood current astern, when the pilot ordered the helm to starboard 15°. commencement of the turn of the ship The turn around Bramble Bank into the Thorn Channel is known to be difficult for large vessels, particularly when inbound. www.gov.uk/maib both vessels were heading for a turn in the lane starboard ~ okret broda u desno: The Master put the engine astern and initiated a starboard turn to abort entry to the lock canal entrance.  
(https://safety4sea.com/), port ~ okret broda u lijevo, rate of ~ brzina okretanja: Within 30 seconds the vessel’s rate of turn was 25°/min to starboard, round the ~ doći na pola okreta: Soon afterward, as the vessel was rounding the turn, the pilot ordered the engine stopped, execution of the ~ okret (broda radi izbjegavanje zapreke), izvršenje okreta (broda radi izbjegavanje zapreke); 2 *(ship handling, seamanship)* okret, namotaj (užeta), volta, Italian: *volta libera* put a few ~s on on the winch namotati / prebaciti konop nekoliko puta oko (bubnja) vitla

**turnaround**  (n) *(shipping econ)* vrijeme obrtaja broda, vrijeme iskrcaja/ukrcaja tereta s/iz boda u luci: For private terminals, turnaround or transfer time is directly related to how much profit is made.  
**turn away from the wind**  (n) *(boating/yachting)* skrenuti od vjetra

**turnbuckle**  */ˈtɜrnˌbʌkəl/ (n) *(nav arch, cargo handling)* = bottlescrew navojna stezaljka za vezivanje i pričvršćivanje tereta; Two threaded bolts encased within a frame, used to put tension onto a vessels standing rigging. (http://www.aps ltd.com/aps-advisor/sailing-terms-glossary/); two threaded bolts encased within a frame, used to put tension onto a vessels standing rigging (http://www.aps ltd.com/aps-advisor/sailing-terms-glossary/); A device for setting up a tension, as in a lifeline, by turning a buckle into which two eyebolts are threaded. (http://www.quarterdeck.org/index.html) stezaljka, škartoc, tirant, Italian:*arridatoio*; *tornichetto*
The pilot asked the master if the ship was ‘good turning’, to which the master replied “She is, but maybe she’s heavy”. Times and speeds at 90°, 180°, 270° and 360° turning should be specifically shown, together with an outline of the ship.

Illustration of typical turning circles of various sized container vessels.
turning data (navig) podaci o okretanju (broda): The only turning data provided on board for the ship’s loaded condition in shallow water was for a ‘half ahead’ speed of 12.2kts. www.gv.uk/maib

turning effect (navig, ship handling) okretni učin (kormila)

turning forces (boating/yachting) sile skretanja

turning gear (marine eng) The turning gear on a turbine installation is a reversible electric motor driving a gearwheel which meshes into the high-pressure turbine primary pinion. A reversible electric motor which, through a system of gears, can be used to turn slowly a large diesel engine or steam turbine and gearbox assembly. It enables precise positioning for overhaul or examination. The engaging and disengaging of the turning gear is accomplished by the lever. (https://www.wartsila.com/encyclopedia/term/turning-gear) uredaj za okretanje stroja, okretaljka: makineta An engine flywheel housing of multi-functional design supports starters and turning gear, and conveys fluids between the different modules. So, dis-engage the turning gear before starting. The indicator cocks are opened, the turning gear engaged and the engine turned through several complete revolutions. The engine’s turning gear was engaged, and the engine was then allowed to cool before the lub-oil pump was stopped and the cooling water system drained.

turning in a narrow channel (boating/yachting, seamanship, ship handling) okretanje u uskom kanalu
turning lever (n) (nav arch, navig) poluga zakretanja broda

unentered (adj) (shipping econ) neprijavljena ~ goods neprijavljena roba
uneven /ʌnˈiːvən/ (adj) neravan
unfamiliar (adj) nepoznat ~ area (navig) nepoznato područje: When navigating in an unfamiliar area, restricted visibility, or in darkness, this is usually best achieved by the use of latitude and longitude or reference to a local feature.
unfit to proceed (adj) (safety, mar law, mar ins) Unfit to proceed means that the ship is in a condition, which does not correspond substantially with the applicable international conventions or national legislation, presenting a danger to the ship and the persons on board or an unreasonable threat of harm to the marine environment. (www.emsa2018.com) nesposoban za plovidbu (o brodu)
unfurl (v) (boating/yachting) ANTONYM furl to unfold or unroll a sail odmotati (flok, jedro)
unhook (v) 1 (cargo handling) otpustiti s kuke, izvaditi kuku (s tereta); 2 otpustiti s udice
unidentified underwater object /ˌʌnaiˈdentɪəd/ neidentificirani podmorski objekt
unidirectional engine /juːnɪˈdɪrekʃən/ (n) (marine eng) istosmjerni motor, neprekretni stroj
uniflow scavenge /ˈjuːnɪˌflɔʊ/ (n) (marine eng) istosmjerno ispiranje, uzdužno ispiranje
uniform /juːˈnɪfɔːrm/ (adj) jednak, jednolik, ujednačen po veličini (o teretu), jednoličan, jednoobrazan
Uniform Customs and Practice for Documentary Credits (1993) (n) (mar law) Jedinstvena pravila i običaji za dokumentarne akreditive, 1993
uniform lateral buoyage system (n) (navig) jedinstveni lateralni sustav označavanja (na moru)
Union certificate of qualification (n) (inland waterways) a certificate issued by a competent authority attesting that a person fulfils the requirements under this Directive ((https://eur-lex.europa.eu/) svjedodžba Unije o stručnoj osposobljenosti
union jack (n) (boating/yachting) A small flag representing the nationality of the boat. https://www.ypiyachts.com/ zastava države (na brodu, jedrilici)
union purchase /juːˈnɪʃn,prəˈtʃəs/ (n) (cargo handling) zajednički rad dviju samarica (na istom grotlu), povezani podigači dviju samarica, španjola, dvostruki koloturnik, samarice spojene za zajednički rad
unit /ˈjuːnɪt/ 1 a jedinica; 2 uređaj, mehanizam, postrojenje, jedinica control ~
1 upravljački uređaj; 2 kontrolni uređaj, feed-water ~ napojni uređaj, power
~ pogonski agregat, jedinica snage, main propulsion ~ glavno pogonsko
postrojenje, propulsion ~ pogonsko postrojenje, pogonski uređaj,
pogonska jedinica, steam generating ~ uređaj za proizvodnju pare; 3
postrojenje; 4 cjelina as a complete ~ kao zasebna cjelina, kao poseban
sklop; 5 element; 6 mjerna jedinica, jedinica mjerenja
unit cargo (cargo) jedinični teret (na paletama), paletizirani teret
uninterrupted (adj) neprekidan, neprestan
uninterrupted power supply (=UPS) (n) (cargo handling, electr) stalna opskrba
električnom energijom
unitised /ˈjuːnɪtaɪzd/ paletiziran (teret), jediničan (teret)
unitised cargo (n) (shipping econ) jedinični teret (na paletama itd.): Unitised
cargoes (commodities) include paper, pulp, plywood, hardboard, lumber, aluminium, lead, steel pipes and
many more.
unitising The consolidation of a quantity of individual items into one large shipping unit for easier
and faster handling through methods such as palletizing, stripping, slinging and containerization.
https://officerofthewatch.com/tools/maritime-dictionary/ slaganje u jedinični teret: The
process of unitising consists of strapping together individual bales or bundles into a unit.
unit load (n) (shipping econ) jedinični teret (na paletama itd.)
unit stress (n) (marine eng) jedinično naprezanje
universal joint (n) (boating/yachting) univerzalni zglog, univerzalna osovina
(omogućuje postavljanje u svim smjerovima)
Universal Time Co-ordinated (=UTC; Universal Coordinated Time) (n)
(navig) koordinirano univerzalno vrijeme
unlay /ˈʌnleɪ/ (v) (seamanship) untwist and separate the strands of a rope otplesti (konop, uže)
unless (conj) ako ne, ukoliko ne, osim ako
unlikely /ˈʌnlaɪkl/ (adj) nevjerojatan, koji se ne očekuje in the ~ event u teško
vjerojatnom slučaju
unlikely /ˈʌnlaɪkl/ (adv) nevjerojatno
unlimited navigation (n) (mar law) neograničena plovidba
unlimited trade (n) (mar law, shipping econ) = unlimited navigation
neograničena plovidba
unlit /ˈʌnˈlit/ ~ buoy pogašeno svjetlo, pogašena plutača (adj) neosvijetljen, pogašen, ugašen, bez svjetla, ugašena (plutača), plutača bez svjetla: the buoy in the fairway was ~
unload /ˈʌnləʊd/ (v) (cargo handling) ANTONYM load: iskrcati unloader /ˈʌnˈleʊda/ (n) (cargo handling) brodoiskrcavač (na terminalu za rasute terete), mosna dizalica za iskrcaj rasutog tereta ship ~ brodoiskrcavač unloading /ˈʌnˈləʊdɪŋ/ 1 SYNONYM discharge iskrcaj broda: Unloading was carried out during the day, suspended overnight, resumed at 0900 the following morning and completed by midday. Iskrcaj je obavljen za vrijeme dana, prekinut po noći, ponovno započeo u 0900 sljedećeg dana i završen do podna.; 2 iskrcaj tereta unloading arm (n) (ports) COMPARE loading arm iskrcajni kran, maniga: The unloading platform supports the unloading arms, pumps and the operator’s shed.
unloading platform

unloading platform (n) (ports) iskrcajna platforma (za naftu): The unloading platform is the larger rectangle in the middle that is inside the fender line so the ship won’t actually touch it.

unloading rate (n) (ports) kapacitet iskrcaja: brzina iskrcaja (u tonama, koletima, broju kontejnera) A 57,000 t capacity silos for grain and soya storage with 5,000 t/day unloading rates.

UN/LOCODE (=United nations Codes for Ports and other Locations) (n) (navig, mar law) šifrirani popis luka i odredišta UN/LOCODE

unmanned craft (n) (nav arch) plovila bez posade, autonomna plovila, plovila upravljana s kopna: Meanwhile the Comité Maritime International (CMI) has established its own Working Group on ‘Maritime law for unmanned craft’. It will consider how international conventions and regulations can be adapted to provide for the operation of unmanned vessels on the high seas

unmanned engine room /ʌnˈmænd/ (n) (marine eng) = unmanned machinery space automatska strojarnica, strojarnica bez osoblja prisutnog u stroju: The engine room is arranged with a control and monitoring system, that meets LR class requirements for a periodically unmanned engine room. periodically ~ strojarnica povremeno bez osoblja prisutnog u stroju: engineer officers in charge of a watch in a manned engine-room or designated duty engineer in a periodically unmanned engine-room (UMS) (A-III/1) □ Chief Engineer Officers and Second Engineer officers on-ships-with 3,000kw propulsion power or more.

unmanned machinery space /ʌnˈmænd/ (U=UMS) (n) (marine eng) automatska strojarnica (upravljana s mosta), strojarnica bez stalne straže u stroju

unmanned vessel (n) (nav arch) brod bez posade, brod upravljan s kopna, autonomni brod: Rolls-Royce offers a vision in which a small crew of 7 to 14 people monitor and control the operation of a fleet of unmanned vessels across the world using interactive smart screens, voice recognition systems, holograms and surveillance drones to monitor what is happening both on board and around the ship. (http://gcaptain.com)

https://www.enterprisetimes.co.uk/2017/11/20/cybersecurity-risks-weigh-shipping-industry/ Who is liable when an unmanned ship causes a collision? The report shows that over 60% say it is unclear how insurers will treat unmanned ships.

https://www.enterprisetimes.co.uk/2017/11/20/cybersecurity-risk-weigh-shipping-industry/

unmoor /ʌnˈmʊər ; ʌnˈmoʊ/ (v) (seamanship) ANTONYM moor* the act of letting go a mooring buoy, letting go mooring lines, or if a ship is moored with anchors, reconnecting each anchor to its own chain and heaving in the anchors (Seasources.net) odvezati se, napustiti vez

unmooring /ʌnˈmoʊ.ɪŋ/ (n) (seamanship) odvezivanje, manovra odvezivanja broda

unmooring manoeuvre manovra odvezivanja broda

Unnecessary SAR Alert (=UNSAR) (n) (safety) poruka poslana od Sposilačkog koordinacijskog centra (RCC/MRCC) nadležnim tijelima kada je sustav potrage i spašavanja nepotrebno aktiviran lažnom uzbnom;

(https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html) nepotrebná SAR uzbuna: UNSAR’s can be intentional or unintentional; the circumstances will be recorded and as appropriate, reported to the appropriate authorities for follow-up action. (Camsar2014)

unnecessary search and rescue alert (=UNSAR) (n) (safety) A message sent by a
unobstructed deck

unstable ship

joint rescue coordination centre to the appropriate authorities as a follow-up when the search and rescue system is unnecessarily activated by a false alert. (IAMSAR manual) **nepotrebná SAR-uzbuna**

**unobstructed deck** /ˌʌnəˈstræktid/ (n) (nav arch) kontinuirana paluba, paluba bez zapreka: The Damen Offshore Carrier (DOC) 7500 has an endurance of 65 days, a large, flat and **unobstructed deck** of 2,300 m², a deck strength of 20 t/m² and is highly fuel-efficient.

http://gcaptain.com/ship-info-damen-offshore-carrie-7500/
http://gcaptain.com/ship-info-damen-offshore-carrie-7500/

**unpackaged** (adj) (shipping econ) nepakovan (teret), neupakiran, bez pakovanja unpackaged bulk goods nepakovani rasuti teret, nepakovani masovni teret

**unreefed sail** /ˌʌnˈriːft/ (n) (boating/yachting) neskraćeno jedro

unreeve 1 izvući uže iz kolotura; 2 odmotati (kabel)

**unreliable** /ˌʌnˈrɪliəbəl/ (adj) nepouzdan

**unreported** (adj) (safety) A situation where a craft has failed to report its location or status or did not arrive at its destination when expected and remains missing. neprijavljen očekivani dolazak broda

**unrig** /ˌʌnˈrɪɡ/ (v) raspremiti (jarbol, samaricu)

**unripe** /ˌʌnˈraɪp/ (adj) (cargo) nezreo, nesazrio

**unscrew** /ˌʌnˈskruː/ (v) odviti, odvidati

**unseaworthiness** (n) (nav arch) The states or condition of a vessel when it is not in a proper state of maintenance, or if the loading equipment or crew, or in any other respect is not ready to encounter the ordinary perils of sea. (www.euronav.com) nesposobnost broda za plovidbu

**Unseaworthiness and Unfitness Exclusion Clause** (n) (mar ins) klauzula o izuzeću od odgovornosti zbog nesposobnosti i nespremnosti broda za plovidbu: Insurance companies use Unseaworthiness and Unfitness Exclusion Clause stated in ICC (A) not to cover similar claims either, unless the insured can prove that he was not aware of the condition of the container at the time of loading. https://shippingandfreightresource.com/

**unseaworthy** /ˌʌnˈsiːwərθi/ (adj) (nav arch) nesposoban za plovidbu

**unship** /ˌʌnʃiːp/ (v) 1 the act of detaching or unrigging any piece of apparatus from its operating position raspremiti; 2 (boating/yachting) oboriti jarbol, skinuti jarbol i oputu

**unsound** /ˌʌnˈsaʊnd/ (adj) (cargo) neispravan (koleto, teret), nezdrav (koleto)

**unstable equilibrium** (n) (nav arch) labilna ravnoteža

**unstable ship** (n) (stabil) nestabilan brod: A ship may become unstable if the centre of gravity (G) is allowed to rise too high.
unstepping (n) (boating/yachting) skidanje jarbola, spuštanje jarbola (radi radova, popravka): The jib furler is designed to be installed without unstepping the mast nor cutting the wire.

unstuffing (n) (cargo handling) pražnjenje kontejnera

unwind /ʌnˈwaɪnd/ (v) (marine eng, cargo handling, seamanship) odmotati, odviti, odvrnuti

up and down (prep phr) (seamanship) okomit (sidor, sidreni lanac)

up-and-down motion (n) (marine eng) gibanje gore-dolje, hod gore-dolje

up-and-down movement (n) (marine eng) = up-and-down motion gibanje gore-dolje, kretanje gore-dolje

upbound (adj) (navig) a vessel traveling upstream koji plovi uzvodno: The upbound bulk carrier was transiting in the South Shore Canal of the St. Lawrence Seaway, off Kahnawake, Quebec. https://safety4sea.com/

update /ˈʌpˌdeɪt/ (v) ažurirati, osvježiti: The VTS officer provided an update on vessel movements in the pilotage area. ~ AIS voyage details osvježiti podatke u sustavu AIS

updated /ˈʌpˌdeɪtid/ (adj) ANTONYM outdated osvježen, ažuriran ~ list

najsvježiji popis, ažuriran popis

updating (n) (navig) ažuriranje, vremensko obnavljanje chart 1 ažuriranje navigacijskih karata

uphaul /ʌpˈhɔːl/ (n) (boating/yachting) = topping lift :3 A line or wire used to control the height of a spinnaker pole https://www.ypiyachts.com/ podigač tanguna špinakera, podigač tanguna, carica alto
upkeep /ʌp'ki:p/ (n) (seamanship, marine eng) = maintenance održavanje

upon (prep) ANTONYM prior to nakon, nakon nečega, nakon što

upper deck (n) (nav arch) the highest level internal deck on a ship, i.e. just below the superstructure and open deck; the topmost full-length deck of a ship: a full-length deck above the main deck (https://www.merriam-webster.com/dictionary/upper%20deck) gornja paluba: In particular, access to the upper deck tiers is a problem, even with the approved fire-fighting equipment required by SOLAS. ~ plating oplata gornje palube, ~ beam sponja gornje palube

upper-deck beam (n) (nav arch, sailing vessels) sponja palube

upper-deck hock (n) (nav arch, sailing vessels) zoja gornje palube

upper deck line (n) (nav arch) linija gornje palube

upper deck sheer strake (n) (nav arch) pojasni voj gornje palube

upper-deck stringer bar uglovnica proveze gornje palube

upper drum (n) (marine eng) gornji bubanj, gornja komora (kotla)

upper end (n) (marine eng) gornji kraj (ojnice), gornji dio (ojnice)

uppermost /ˈʌpəˌməʊst/ (adj) najviši

upper strake (n) (nav arch) gornji voj

upperworks (n) (seamanship, nav arch) Superstructures, or deck erections located on or above the weather deck. Sometimes used with reference to a ship’s entire above-water structure.

https://officerofthewatch.com/tools/maritime-dictionary/ nadgrađe, nadpalublje

upright (adj, adv) uspravno, uspravan: Attempts to restart the engine were made and to transfer ballast to bring the ship upright. (https://safety4sea.com/) An enclosed lifeboat gets upright on its own if an overturn have been caused by big waves. (https://safety4sea.com/) in ~ position u uspravnom položaju

upstream /ˈʌpˈstriːm/ (adv) ANTONYM downstream uzvodno, uz rijeku

uptake (n) (marine eng) a metal conduit connecting the boiler combustion space with the base of the smokestack dimovod

up-to-date; up to date /ˈʌp tu deɪt/ (adj) osvježen (o podacima), osuvremenjen, ažuriran

upturned (n) (boating/yachting) prevrnut (jedrilica, brodica): The youngest member of the crew swam to the upturned hull and managed to climb on to it. The following morning, a passing ship saw the upturned hull and the survivor, and raised the alarm.

upwind /ˈʌpˌwɪnd/ (prep) (boating/yachting) the direction towards which the wind is coming from, from a given reference point uz vjetar

upwind (n) (boating/yachting) svi kursovi u vjetar

urgency /ˈɜːdʒənsi/ (comm) žurnost (drugi stupanj prioriteta u pomorskim komunikacijama), hitnoća (drugi stupanj prioriteta u pomorskim komunikacijama), usmena poruka s oznakom Pan Pan: Broadcast SAFETY or URGENCY message, if appropriate.

urgency alert (n) (comm) signal uzbune u žurnosti transmit ~ poslati signal o žurnosti, emitirati signal o žurnosti: A DSC urgency alert may be transmitted only with the authority of the master of skipper, or the person responsible for the safety of the vessel
urgency call (safety, comm) The urgency call format and the urgency signal indicate that the calling station has a very urgent message to transmit concerning the safety of a mobile unit or a person. (ITU-R; WRC-07) poziv s oznakom žurnosti

urgency message /ˈɜːdʒənsi/ (comm, navig, safety) poruka žurnosti

urgency traffic /ˈɜːdʒənsi/ (comm) radio promet u žurnosti

USCG (=US Coastguard) (mar law) 1 Američka obalna straža; 2 (nav arch) inicijali brodova Američke obalne straže

use (n) uporaba, upotreba, primjena in ~ u upotrebi, make use of 1 upotrijebiti, koristiti; 2 primijeniti

used laytime (mar law) The amount of lay time that was taken by the vessel for loading and discharging on a voyage. (www.euronav.com) iskorišteno vrijeme stojnica

user menu overview (navig) pregled korisnikova izbornika na radaru

U.S.F (=United States Frigate) (n) (navy) fregata Mornarice SAD-a

U-shaped (adj) u obliku slova U

USS (=United States Ship) (navig) brod Ratne mornarice SAD-a, brod Američke ratne mornarice

usufruct /ˈjuː ˈʃɹʌkt/ (mar law) plodouživanje; 2 (mar law) The legal right of using and enjoying the profits of something belonging to another party. (http://www.maerskline.com/en-jm/help/shipping-glossary) iskorištavanje (tuđega)

UTC (=Universal Time Coordinated; formerly GMT (Greenwich Mean Time); Universal Co-ordinated Time) (navig) The international term for time at the prime meridian. koordinirano univerzalno vrijeme, koordinirani svjetsko vrijeme

utilities /juˈtɪltɪs/ (public) 1 businesses that provide the public with necessities, such as water, electricity, natural gas, and telephone and telegraph communication komunalne ustanove, komunalije; 2 komunalne usluge, komunalnije, useful features, or something useful to the home such as power, electricity, gas, water, cable and telephone, telecommunications, internet connection, water, wastewater, etc. komunalne usluge, komunalije

utility boat (nav arch) SEE tender boat Any small vessel that can be used for many tasks around a ship. (www.seatalk.info/cgi-bin/nautical-marine-sailing) pomoćna brodica, radna brodica: The Utility Vessel Series complements Damen’s range of heavy duty workboats and offshore vessels. https://products.damen.com/en/clusters/utility-support-vessel
utilization
valued policy

2 A type of small, open powerboat, constructed of either fiberglass or aluminum, with minimal features. These include jon boats, skiffs and work boats. (http://en.termwiki.com/EN/utility_vessel-5514)

turistička brodica, radna brodica

utilization /ju:tilaiˈzeɪfən/ (n) 1 upotreba, korištenje; 2 iskorištavanje

utmost /ˈʌt,meɪst/ (adj) krajnji, najviši, maksimalan

U-turn (n) (navig) a turn resembling the letter U; especially a 180-degree turn made by a vessel

okret u obliku slova U, U-okret, okret za 180 stupnjeva: a U-turn collision in North Sea Marine traffic records suggest the container ship, made a sudden U-turn roughly 25 minutes before the crash. It is not known why it changed course. make a ~ napraviti U-okret: The cause of the collision is still under investigation, but an AIS animation of the ships’ track shows the the Ship 1 made an sudden U-turn directly into the side of the Ship 2.

vacation days /ˈveɪkeɪʃən/ (n) (shipping econ) dani dopusta

vaccination /ˈvækʃəneɪʃən/ (n) (med) cijepljenje, vakcinacija

vaccination certificate /ˈvækʃəneɪʃənt/ svjedodžba o cijepljenju

vaccine /ˈvækʃən/ (n) cjeplivo, vakcina

vacuum /ˈvækjʊəm/ (n) vakuum ~ pump line vakuumski crpni cjevovod, vakuumski pumpna linija

vacuum clamps /ˈvækjuəm/ (n) (cargo handling) vakuumska kliješta: Vacuum clamps were primarily designed to lift newsprint, but are now also used with other types of reeled paper.

VAIL (=Vacuum assisted infusion laminaton) /ˈvæəklɛstəd/ (n) (boating/yachting) izrada laminata (jedrilice, plastične brodice) vakuumskom infuzijom: elan’s hull construction technology ensures the required hull strength and stiffness, while using the least amount of material possible in order to save weight and make the yacht more responsive and enjoyable to sail.

http://elan.yachtmarten.com/files/16d0422d1aa3f55621062bb75ef5eea1.pdf

valid until koji vrijedi / važi i do (o ispravi)

valuables /ˈvæluəblz/ (n) dragocjenosti

value /ˈvæluː/ (n) 1 a vrijednost; 2 količina; 3 iznos

valued policy (n) (mar ins, mar law) polica u kojoj je označena ugovorena vrijednost osiguranoga
**valueless** /ˈvæljuːlɪs/ (adj) bezvrijedan

valve /ˈvælv/ (n) (marine eng) ventil, pipac, Italian: *valvola* ~ head glava ventila, pladanj ventila, ~ lifter podizacija ventila, ~ operating gear 1 ventilno polužje, ventilski uređaj; 2 mehanizam ventila, mehanizam za otvaranje ventila, ~ rocker gear ventilno polužje, ventilski uređaj, mehanizam ventila, ~ seat sjedište ventila, ležište ventila, sedlo ventila, sjedalo ventila, ~ stem vreteno ventila, struk ventila, osovina ventila, loza, air master ~ glavni ventil zraka, master ventil, manevarski ventil, automatic ~ automatski ventil, colntrol slide ~ razvodni ventil, razvodnik, delivery ~ dovodni ventil, dobavni ventil, tlačni ventil, exhaust ~ ispušni ventil, fuel injection ~ ventil goriva, fuel spray ~ ventil za raspršivanje goriva, inlet ~ usisni ventil, ulazni ventil, indicator ~ indikatorski pipac, pipac za indiciranje, isolating non-return ~ izdvojeni nepovratni ventil, interlock ~ ventil uređaja za blokiranje, main stop ~ glavni zaporni ventil, master ~ glavni ventil, master ventil, needle ~ igličasti ventil, non-return ~ nepovratni ventil, n.r. ~ (non-return valve) nepovratni ventil, one-piece ~ jednodjelni ventil, pilot air control ~ ventil za upravljanje sekundarnog zraka, pilot ~ razvodni ventil, upravljački ventil, pilot ventil, piston ~ klipni ventil, razvodni ventil, razvodnik, pump delivery ~ dobavni ventil pumpe, pressure regulating ~ regulacioni ventil tlaka, prekotlačni ventil, pretlačni ventil, quick speed ~ brzozaporni ventil, relief ~ odušeni ventil, otpusni ventil, sigurnosni ventil, remote operating non-return ~ nepovratni ventil s daljinskim upravljanjem, safety ~ sigurnosni ventil, starting air ~ ventil uputnog zraka, ventil zraka za upućivanje, starting ~ uputni ventil, thermostatic ~ termoregulacioni ventil, termostatski ventil, air inlet ~ ventil za ulaz zraka, cylinder head ~ ventil na glavi cilindra, distribution box ~ razvodna ventilska stanica, inlet ~ usisni ventil

valve clearance (n) (marine eng) zračnost ventila, mrtvi hod ventila

valve grinding (n) (marine eng) brušenje ventila

valve guide (n) (marine eng) vodilica ventila

valve lift (n) (marine eng) podizaj ventila

valve operating mechanism (n) (marine eng) mehanizam otvaranja ventila, polužje za pokretanje ventila, ventilno polužje

valve overlap (n) (marine eng) preklapanje ventila

valve rotator (n) (marine eng) rotator ventila

valve stem (n) (marine eng) vreteno ventila

valve train (n) (marine eng) ventilni mehanizam, niz ventila
van /væn/ (n) 1 (cargo) a covered motor vehicle for transporting goods, etc, by road kombi,
manje teretno vozilo: Special rapid tensioners are available for lashing automobiles and vans.;
2 karavan, natkriveno vozilo
vanadium /vəˈneɪdiəm/ (=V) (n) (chem) vanadij
van carrier /ˈvæn,kæriə/ (n) (cargo handling) kontejnerski prijenosnik (na gumenim kotačima), jahač
vane /vɛn/ (boating/yachting) vjetrulja (zastavica na vrhu jarbola), moštravent, muštravent
vane /væn/ (n) (marine eng) krilce (turbine), lopatica radial ~ radijalne lopatice, radijalna krila, rotating ~ rotirajuće krilce, okretno krilce, krilce rotora,

inlet ~ ulazne lopatice

vang /væŋ/ (n) (boating/yachting) A device, usually with mechanical advantage, used to pull the boom down, flattening the sail. https://www.ypiyachts.com/ priteg deblenjaka (buma), vang, Italian: ritenuta del boma: Mainsail tw ist is controlled by tension in the mainsheet or vang. boom ~ ropes secured to the after end of a gaff and led to each side of the vessel to steady the gaff when the sail is not set. (https://www.history.navy.mil/) priteg deblenjaka, spinnaker
vanishing angle  variable pitch propeller

**pole ~ priteg deblenjaka spinakera**

http://www.harken.com/content.aspx?id=3897

**vanishing angle**  *n*  (*nav arch, navig*) maximum angle degree of heel after which the vessel becomes unable to return to her upright position **kritični kut nagiba (broda):** he point where the GZ curve meets the horizontal axis, is called the point of **vanishing stability**, since righting lever becomes zero at this point.

vapor  /ˈveipə/  (*n*)  1 (*marine eng*) = vapour  **para;**  2 raspršena tekućina

vapour  /ˈveipa/  (*n*)  1 (*marine eng, UK*)  **para;**  2 raspršena tekućina

vapour return line  (*n*)  (*marine eng*)  **povratni cjevovod pare**

variable  /ˈvəriəbəl/  (*adj*)  **promjenljiv (vjetar, …)**

variable pitch propeller  (*n*)  (*nav arch*)  = **controllable pitch propeller** A type of propeller that has adjustable blades for varying speeds or directions, and may be able to reduce drag when under sail.  **prekretni propeler, propeler s promjenjivim korakom propelera**
Variable Range Marker (=VRM) \((n)\) (navig) promjenjiva kružnica udaljenosti (na radarskom zaslonu), promjenjiva daljinska kružnica, promjenjivi označivač udaljenosti, promjenjiva kružnica za mjerenje udaljenosti check the accuracy of ~ provjeriti preciznost promjenjivog označivača udaljenosti
variation /ˌvɛəriˈeɪʃən/ (n) 1 magnetic compass error caused by the difference between the magnetic pole and the geographic pole and certain local conditions magnetic ~ magnetska varijacija a (navig) varijacija; 2 (marine eng) variranje, odstupanje, varijacija, promjena

variegated scallop (n) kapica mala
variety (n) raznolikost, mnogostrukost
varnish /ˈvɑːrniʃ/ (boating/yachting) lak, verniž, Italian: smalto marine ~ brodski lak, one-part ~ jednokomponentni lak: The type of polyurethane that is commonly used in woodworking is a one-part finish
http://hingstssignpost.blogspot.com/2013/06/one-part-polyurethane-varnish.html, two-part ~
vary (v) 1 odstupati, varirati; 2 mijenjati se
**vast** *(v) (seamanship)* COMPARE Avast! stati, zaustaviti, prestati

**vauxhall** *(n) (nav arch)* linica, puna ograda broda

**V-belt** /ˈviːbɛlt/ *(n) (marine eng)* konusni remen

**V-berth** *(n) (boating/yachting)* usually the forward berth of the boat, located in the bow

https://www.ypiyachts.com/pramčani krevet

**VCG; vertical centre of gravity** *(n) (stabil, nav arch) = KG* the height above the baseline of the centre of gravity visina sistemnog težišta broda iznad kobilice, vertikalno težište

**VDR** /ˌvɪˈdiːə:/ *(=Voyage Data Recorder) (n) (navig)* VDRs, required for ships over 3,000 gross tons under international law, are the equivalent of ‘black boxes’ on aircraft, recording crucial data such as radar images, position, speed and bring audio, among other data. (gCaptain <info@gcaptain.com>); a complete system, including any items required to interface with the sources of input signals, their processing and encoding, the final recording medium, the playback equipment, the power supply and dedicated reserve power source. (IMO); VDR is a collection and storage device, recording on a continuous loop, and records the command and control inputs of the vessel. (https://www.marineelectronics.com/news/ecdis-maritime-accident-255821) **uredaj za zapis plovidbenog putovanja, zapisivač podataka o putovanju broda, snimalica podataka o putovanju, crna kutija, uredaj VDR:** The National Transportation Safety Board has completed its documentation of the wreck of the cargo ship …… and the associated debris field, but the vessel’s voyage data recorder (VDR) has not been located. Audio recordings are likely to have deleted deliberately from the voyage data recorder (VDR) The VDR should continuously maintain sequential records or preselected data items relating to the status and output of the ship’s equipment, and command and control of the ship

https://shipinsight.com/what-is-a-voyage-data-recorder-vdr/ **simplified VDR system**

**pojednostavljeni uredaj za zapis plovidbenog putovanja, pojednostavljeni uredaj VDR**
V-drive /ˈviː,draɪv/ (nav arch, marine eng) V-pogon
VDR recording /ˈviː,drɛrɪŋ/ snimak crne kutije, snimak VDR-a: the VDR recording shows that the vessel was already turning to starboard before the 'port 20°' order was given. Snima VDR-a pokazuje da je brod skretao u desno prije nego što je kormilaru dana naredba lijevo 20.
VDU /ˈviː,duː/ (=visual display unit) (n) A VDU displays images generated by a computer or other electronic device. (https://techtrends.com/definition/vdu) zaslon, ekran
vector (n) (math) A line drawn to indicate both the direction and magnitude of a force, such as leeway or a current. https://www.ypiyachts.com/ A graphic representation of a physical quantity or measurement, such as wind velocity, having both magnitude and direction. (IAMSAR Manual)
vektor: Vectors indicating the ship's direction of travel, were displayed on the radar screens. www.gov.uk/maib
vector chart /ˈvektər chart/ (n) (navig) slojevita pomorska karta s više razina pa se može mijenjati nominalno mjerilo. Vektorski podaci (koordinate točaka i njihove veze) formirane su tako da tvore geometrijske figure u obliku l-točaka, linija i područja (Kos, Zorović, Vranić); There are two types of electronic charts that an ECDIS can display: Raster Navigational Charts (RNCs) and Electronic Navigational Charts (ENCs,) otherwise known as vector charts. (https://www.amnautical.com/)
vektorska karta: Vector charts may show more dense information when used to zoom in. Raster charts are limited in their functionality in this regard. https://www.amnautical.com/
Vee-engine /ˈviː,ɛndʒɪn/ (marine eng) V-stroj, V-motor, motor s cilindrima

V Veer /ˈviː/ 1 (meteorol) wind direction that changes clockwise mijenjati smjer (u smjeru kazaljke na satu, na sjevernoj polutki) (o vjetru), skretati (o vjetru): SW wind ~ing to NE jugozapadni vjetar u skretanju na sjeverozapadni Four days into the voyage, while transiting a TSS, a gale warning was received warning of southerly veering westerly force 8 to 10 winds imminent.; 2 (seamanship) allow a line, wire, or chain to run out by its own weight; To veer a cable is to let it out more. https://www.ypiyachts.com/ ispuštati konop ili lanac: They were veering the cable by slacking the brake on a disconnected windlass. to ~ out the cable ispuštati sidreni lanac (kontrolirano), to ~ in the cable uvlačiti lanac (sidra), povlačiti lanac (sidra), podizati lanac (sidra), virat, ~ the line izvlačiti uže / konop; 3
veer and haul the line: with the bow entering the lee of the breakwater and the stern still exposed to the full force of the wind, the vessel veered to starboard.

veer and haul the line (v) (seamanship) izvlačiti i povlačiti uže na prekide

veering /ˈviərɪŋ/ (adj) ~ wind vjetar koji skreće u smjeru kazaljke na satu (sjev. polutka) (meteorol) vjetar koji skreće u smjeru kazaljke na satu (sjev. polutka), satno skretanje vjetra

veering wind (n) (meteorol) vjetar koji skreće u smjeru kazaljke na satu (sjev. polutka) veering wind (n) (meteorol) wind which changes in a clockwise direction with time at a given location (e.g., from southerly to westerly), or which change direction in a clockwise sense with height (e.g., southeasterly at the surface turning to southwesterly aloft) (Seasources.net) vjetar u skretanju u smjeru kazaljke na satu (npr. sa sjevera na sjeveroistok)

veer out (v) (seamanship) ispuštati sidreni lanac

vehicle /ˈviːkəl/ 1 vozilo road ~ cestovno vozilo, ~ carrier brod za prijevoz vozila; 2 (marine eng) prijenosnik, medij act as a ~ djelovati kao prijenosnik / medij; 3 vozila (vrsta tereta): All types of vehicle, from automobiles to road-building machinery, can be transported by container ship.

vehicle deck /ˈviːkəl/ (n) (nav arch) paluba za vozila

vehicle ferry /ˈviːkəl/ brod / trajekt za prijevoz vozila

vehicles carrier (n) (nav arch) A multi deck cargo ship for the carriage of new cars and trucks which are loaded via ramps (http://www.ihsfairplay.com/About/Definitions/definitions.html) brod za prijevoz cestovnih vozila

velocity /ˈvɪləsɪti/ (n) brzina

velocity made good (VMG) (n) (boating/yachting) stvarna brzina

vendor /ˈvɛndər/ (n) (mar law, shipping econ) prodavalac, prodavatelj

venereal disease /ˈviːnɪərəl/ (n) (med) spolna bolest

vent /ˈvent/ (n) (nav arch, marine eng) odušna cijev, odušnik deck ~ palubni
odušnik: Shortly after, water could be heard entering the double-bottomed tanks through the deck vents.

**ventilating cowl** /ven-ti-leit-ing/ (nav arch) a hood shaped top or end of a natural ventilation trunk that may be rotated to cause wind to blow air into or out of the trunk zračnik, šijun

**ventilating fan** /ven-ti-leit-ing/ (n) (nav arch) ventilator

**ventilating rudder** (n) (boating/yachting) kormilu "u zraku" (izvan mora/vode):
Many sailors know about the problem of a ventilating rudder during the bear away.
https://www.advancedsailingtechnologies.com/appendages/

**ventilation** /ven-ti-lei-ön/ (n) (cargo) (marine eng) ventilacija, prozračivanje, prozračenost insufficient ~ nedovoljna ventilacija, natural ~ prirodna ventilacija, forced ~ prisilna ventilacija

**ventilation chute** (n) (nav arch) zračnik

**ventilation system** /ven-ti-lei-ön/ closed @ zatvoren ventilacijski sustav

**venting** /ven-tiŋ/ 1 odzračivanje, otplinjavanje, odsušivanje; 2 (cargo handling) prozračivanje: Emissions produced by venting during loading and transit are in the range of 0.1 to 0.3 percent, depending on tanker design and cargo characteristics.

**venturi tube** (n) (marine eng) A specially shaped tube with a small or constricted area used to increase velocity and reduce pressure. (http://www.marinediesel europe.com/) Venturijeva cijev

**verbal communication** (n) (comm) verbalna komunikacija, jezična komunikacija non~ neverbalna komunikacija, nejezična komunikacija

**verify** /ver-i,fai/ (v) provjeriti, verificirati, ovjeriti

**vermin** /vər.mən/ (n) (cargo handling) nametnici, štetocene, gamad, crvi

**vernal equinox** /ˈver-nəl ˈekwənoks/ (n) (navig) proljetni ekvinocij

**vernier caliper** /vər-nēr ˈkeɪlər/ (n) (marine eng) an extremely precise measuring instrument; the reading error is 1/20 mm = 0.05 mm pomićna mjerka, obični šubler

**versatile** /ˈver-sə-tel/ (adj) praktičan extremely ~ izuzetno praktičan
very serious marine casualty

vertex /vɜːtɪks/ (n) 1 vrh, vršak; 2 (navig) vrh / vršak pomorske oznake
vertical (adj) okomit, vertikal
vertical jiggling (n) (fishing) U Vertical jigglingu postoje dvije osnovne tehnike izvođenja: short i long jerk. Kao što sama riječ govori, short jerk označava kratko trzanje štapom i namotavanje role, dok long jerk nešto duži trzaj sa štapom prilikom kojeg varalica klizi kroz more i u povratku jig svojom akcijom privlači ribu na udarac.

(vertikalni moment) vertikalni moment
vertical tube boiler (n) (marine eng) strmocijevni kotao, kotao s strmim cijevima

Very High Frequency (=VHF) vrlo visoka vrekvencija (30-300 MHz)
very high sea (n) (meteorol, oceanogr) osmi stupanj stanja mора s valovima visine od devet do četrnaest metara teško more, more jačine 8

Very Large Crude Carrier (=VLCC) (n) (nav arch) = VLCC supertanker, vrlo veliki tanker (preko 250 000 dwt)
very large gas carrier (=VLGC) a large gas carrier with a carrying capacity of more than 60,000 cbm vrlo veliki brod za prijevoz plinova
very quick lights (=VQ) (navig) vrlo brza svjetla ~ lights svjetla koja ističe

nasukani brod
very rough sea (n) (meteorol, oceanogr) šesti stupanj stanja mora s valovima visine od četiri do šest metara olujno more, more jačine 8
very serious marine casualty (n) (mar law, mar ins) marine casualty involving the total loss of the ship or a death or severe damage to the environment. (IMO; www.emsa2018.com) vrlo ozbiljna nesreća (s fatalnim posljedicama): As the collision incident was not considered a very serious marine casualty incident under the International Maritime Organization (IMO)
vessel (n) = ship 1 very description of water craft, including non-displacement craft, WIG craft and seaplanes, used or capable of being used as a means of transportation on water (COLREGS); Any displacement or non-displacement vehicle that uses water as a means of navigation; a maritime craft.

(IAMSAR Manual) brod ~ engaged in fishing brod koji ribari, ~ constrained by her draught brod koji je ograničen u manevriranju zbog svojeg gaza, general cargo ~ brod za generalni teret, inward / outward ~ brod kji uplovljava / isplovljava, seagoing ~ 1 morski brod; 2 prekomorski brod, foreign-going ~ brod u međunarodnoj plovidbi, merchant ~ trgovački brod; 2 sud, posuda, zatvorena tlačna posuda pressure ~ tlačna posuda, tlačni rezervoar, posuda pod tlakom, close pressure ~ zatvorena posuda pod tlakom, zatvorena tlačna posuda; 3 (inland waterways) inland waterway vessel or sea-going ship unutarnji vodni putovi, unutrašnji plovni putovi

vessel aground (navig, safety) nasukani brod, brod se nasukao

vessel alongside (navig, seamanship) brod uz obalu, brod vezan bočno uz obalu

vessel capital cost (n) (shipping econ) kapitalna vrijednost broda

vessel constrained by her draught (n) (mar law) brod ograničen svojim gazom: A vessel constrained by her draught may, in addition to the lights prescribed for power-driven vessels in Rule 23, exhibit where they can best be seen three all-round red lights in a vertical line, or a
vessel engaged in fishing (n) (mar law) any vessel fishing with nets, lines, trawls or other fishing apparatus which restrict maneuverability, but does not include a vessel fishing with trolling lines or other fishing apparatus which do not restrict maneuverability (COLREGS) brod koji riba
vessel finder (n) (navig) an interactive website for free ship tracking based on AIS technology (http://www.marinevesseltraffic.com/2013/07/vessel-finder.html) uređaj satelitske navigacije za traženje i praćenje kretanja brodova, Vessel Finder: An AIS recreation of the incident from Vessel Finder is provided below
vessel movements (n) (ports) promet brodova u luci: the Port of Southampton is one of the largest and most diverse ports in Europe, handling 55,000 commercial vessel movements and 34 million tonnes of cargo each year.
vessel not under command (NUC) (n) (mar law) vessel which through some exceptional circumstance is unable to maneuver as required by these Rules and is therefore unable to keep out of the way of another vessel (COLREGS) brod koji ne može manevrirati, brod nesposoban za manevriranje
Vessel-Operating Common Carriers (=Ocean Common Carrier) (n) (mar law, shipping econ, logist) = VOCC COMPARE NVOCC A VOCC which: a) Holds itself out to the general public to provide transportation by water of passengers or cargo between the United States and a foreign country for compensation, b) Assumes responsibility for the transportation from the port or point of receipt to the port or point of destination, c) Uses, for all or part of that transportation, a vessel operating between a port in the United States and a port in a foreign country (https://www.fmc.gov/resources/vessel_operating_common_carriers.aspx) linijski pomorski prijevozni poduzetnik koji operira brodom
Vessel Operational Agreement (n) (shipping econ) Sporazum o brodskoj operativi daily ~
vessel opertative cost (n) (shipping econ) operativni troškovi broda
vessel restricted in her ability to manoeuvre (RAM) (n) (mar law) a vessel which from the nature of her work is restricted in her ability to maneuver as required by these Rules and is therefore unable to keep out of the way of another vessel (COLREGS) brod ograničene mogućnosti manevriranja, brod ograničene sposobnosti manevriranja: The term “vessels restricted in their ability to maneuver” shall include but not be limited to: (i) a vessel engaged in laying, servicing or picking up a navigation mark, submarine cable or pipeline; (ii) a vessel engaged in dredging, surveying or underwater operations; (iii) a vessel engaged in replenishment or transferring persons, provisions or cargo while underway; (iv) a vessel engaged in the launching or recovery of aircraft; (v) a vessel engaged in mine clearance operations; (vi) a vessel engaged in a towing operation such as severely restricts the towing vessel and her tow in their ability to deviate from their course. ... we were required to work in the NE bound lane of the TSS north of the F3 Junction and
were restricted in our ability to manoeuvre (RAM). All relevant lights and daylight signals displayed for a vessel restricted in ability to manoeuvre. The term "vessel restricted in her ability to manoeuvre" means a vessel which from the nature of her work is restricted in her ability to manoeuvre as required by these Rules and is therefore unable to keep clear

**vessel routeing system** *(n) (navig, safety)* sustav mjera i postupaka za poboljšanje sigurnosti plovidbe u područjima velike gustoće prometa *sustav usmjereni plovidbe*

**vessel sharing agreement** *(n) (mar law, shipping econ)* A term agreement between two or more carriers in which a number of container positions (slots) equal in space are reserved on particular vessels for each of the participants. *(http://www.maerskline.com/en-jm/help/shipping-glossary)*

**sporazum o raspodjeli brodskog prostora**

**vessel's status** *(n) (navig)* current function or condition of the ship at sea, e.g. vessel restricted in her ability to manoeuvre, vessel not under command, vessel fishing, towing etc. *stanje broda, služba broda, funkcija broda:* The second officer did not acquire the vessel on the ARPA or use the AIS data to determine the vessel’s name or status.

**vessel subject to compulsory pilotage** *(n) (mar law, navig)* brod koji podliježe obveznom peljarenju, brod koji obvezno mora imati peljara

**Vessel Traffic Management System** *(=VTMS) (n) (navig, safety) = VTMS* a marine traffic monitoring system established by harbour or port authorities, similar to air traffic control for aircraft. Typical VTS systems use radar, closed-circuit television (CCTV), VHF radiotelephony and automatic identification system to keep track of vessel movements and provide navigational safety in a limited geographical area. *Služba nadzora i upravljanja plovidbom u luci*

**Vessel Traffic Monitoring Information System** *(=VTMIS) (n) (navig)* *Služba za nadzor i upravljanje pomorskim prometom:* The purpose of this Directive is to establish in the Community a vessel traffic monitoring and information system with a view to enhancing the safety and efficiency of maritime traffic, improving the response of authorities to incidents, accidents or potentially dangerous situations at sea, including search and rescue operations, and contributing to a better prevention and detection of

Vessel traffic planning (navig, safety) planiranje plovidbe, planiranje prometa u plovidbenom području

Vessel traffic service (=VTS; vessel traffic services) (n) (navig, safety) Vessel traffic services deal with managing ship traffic on marine routes, suggesting best routes for a vessel and ensuring no two vessels run into each other on congested routes. (https://www.marineinsight.com/marine-navigation/what-are-vessel-traffic-services/); Vessel traffic services - VTS - are shore-side systems which range from the provision of simple information messages to ships, such as position of other traffic or meteorological hazard warnings, to extensive management of traffic within a port or waterway. (http://www.imo.org/en/ourwork/safety/navigation/pages/vesseltrafficservices.aspx) Služba nadzora pomorske plovidbe, služba nadzora plovidbe, kontrola i vođenje plovidbe (u kanalima, lukama itd.), služba VTS: About 30 seconds before the collision Vessel Traffic Services (VTS) intervened to warn both vessels that they were running into danger but no response was received. The most commonly used sensing components of vessel traffic services are: 1. Radar system; 2. AIS; 3. Radio direction finder The purpose of a Vessel Traffic Service (VTS) is to provide active monitoring and navigational advice for vessels in particularly confined and busy waterways. There are two main types of VTS, surveilled and non-surveilled. Surveilled systems consist of one or more land-based sensors (i.e. radar, AIS and closed circuit television sites), which output their signals to a central location where operators monitor and manage vessel traffic movement. Non-surveilled systems consist of one or more reporting points at which ships are required to report their identity, course, speed, and other data to the monitoring authority. https://www.navcen.uscg.gov/?pageName=vtsMain

Vessel Traffic Services and Reporting Systems (n) (safety) Organisations that manage vessel traffic services and/or vessel traffic reporting systems are capable of providing, to varying degrees, information about participating vessels (location, construction, cargo, etc.) that may be of use in resolving a SAR incident. (Camsar2014) Služba nadzora pomorske plovidbe i javljanja pozicije brodova

vessel underway; vessel under way; (n) (mar law) brod koji plovi, brod u plovidbi

vessel/unit (n) (mar law) (u ugovorima o ukrcanju pomorca) brod ili plutajući objekt

vessel valuation (n) (shipping econ) (nav arch) tehnička i ekonomska prosudba gradnje novoga ili kupovanja rabljenoga broda prosudba broda, tehničko i ekonomsko vrijednovanje broda

vetting /ˈvɛtɪŋ/ (shipping econ, mar law) to check the contents, quality, etc. of something carefully
dubinska analiza, dubinska prosudba, odabir najpovoljnijeg rješenja,

vetting ship ~ (shipping econ) Ship vetting is an in-depth assessment of a ship’s quality and suitability for a task. It is the best way to match available vessels to the operational requirements of the
voyage and the need to properly manage risk. Vetting is the evaluation of the potential risks such as the ship’s structural integrity, competence of owners, managers and crew, past casualties and incidents. (https://www.marineinsight.com › guidelines › vetting-checklist-of-ships) Vessel registration process: the vessel vetting is done electronically and within minutes, while all supporting documents are now accepted in E-form prior to registration and post-closing. (www.gCaptain.com) dubinska analiza stanja broda (radi sklapanja ugovora o najmu), dubinska procjena stanja broda (radi sklapanja ugovora o najmu), odabir najpovoljnijeg broda (za određen ugovor o zakupu ili ekonomskom iskorištavanju brodova), inspekcija broda radi najma: Ship vetting is the process through which a prospective charterer or buyer of a particular piece of tonnage will evaluate the subject vessel to assess its past performance, safety records, performance results, regulatory compliance and many other items. www.gCaptain.com Vessel registration process: the vessel vetting is done electronically and within minutes, while all supporting documents are now accepted in E-form prior to registration and post-closing. www.gCaptain.com, ~ of the crew dubinska prosudba o posadi (sigurnosna, zdravstvena, pravna itd.): In the pandemic-affected countries the process of vetting the crew may take time, and this delay will fall on the shipowner rather than on the charterer VGM (=verified gross mass) (n) (mar law, shipping econ) SEE VGW Shortform for SOLAS Verified Gross Mass. Basically each container that is exported has to have its weight checked and declared to the shipping line before it is loaded. (https://www.shippingandfreightresource.com/topics/solas-vgm/) ovjerena bruto masa (kontejnera): The IMO’s three-month so-called “light touch” enforcement of the SOLAS revision that all packed containers must have a certified VGM (verified gross mass) before loading on board a ship comes to an end. VGW (=verified gross weight; verified gross mass; VGM) (n) (logist, mar law) In 2014 the International Maritime Organisation has agreed to adjusting the SOLAS regulation VI/2. This adaption involves that the party, which has been notified as shipper on the B/L, has the responsibility to pass on the verified gross weight (VGW) or verified gross mass (VGM) to the carrier. ovjerena bruto težina (masa tereta) VHF channel kanal na VHF-u: Switch on VHF - Channel 16. VHF contact veza putem VHF-a, VHF kontakt be in ~ biti na vezi putem VHF-a, biti na VHF vezi: The bridge teams of both vessels were in VHF contact VHF DF (=VHF Direction Finding) (n) (safety, comm) VHF radiotelefon s radiogoniometrom: Some MCTS centres have direction finding (DF) capability on selected VHF aeronautical and maritime frequencies. (Camsar2014) VHF DSC distress alert (n) (safety) uzbuna o pogobili emitirana putem VHF DSC radija, VHF DSC uzbuna o pogobili: If an MCTS officer receives a VHF-DSC distress alert and the distress coordinates are within the MCTS centre’s AOR, the MCTS officer will transmit a VHF-DSC distress alert acknowledgement. The only Distress Alert that the vessel is likely to be interested in at that time is one received on VHF DSC, which might be close-by. MARS reports_1992-2016</source></sentence></tlCorpus>
VHF-DSC EPIRBs require further assistance. Camsar2014

VHF-DSC EPIRBs (n) (comm, safety) VHF DSC epirb: Ships operating exclusively in a GMDSS “A1 sea area” may, in lieu of satellite EPIRBs, use VHF-DSC EPIRBs transmitting on channel 70. These EPIRBs transmit their MMSI number, their GPS position and other vital information. Camsar2014

VHF DSC radio (n) (comm, safety) VHF DSC radio: The bulk carrier responded at about 5nm after the OOW used the VHF DSC "all ship call" and contact was established on a VHF working channel. MARS reports_1992-2016</source></sentence></tlCorpus> However, he would have been more assured of an immediate response from the coastguard had he initially raised the alarm by pressing the VHF DSC distress button. Safety_Digest_2-2013</source></sentence></tlCorpus> ...had the Guard boat used his VHF DSC to broadcast an ALL SHIPS call, this incident would probably not have happened! <source>MARS reports_1992-2016

VHF radio (=VHF radiotelephone) VHF radio is a transmitting-receiving system, which allows the operator to either transmit or receive information on the marine VHF (Very High Frequency) band (https://www.egmdss.com) VHF radio

VHF radio communication (=VHF radiocommunication) (n) (comm): The audit emphasises the hazards involved in VHF radio communication between vessels, for the purpose of collision avoidance. (https://safety4sea.com/)

VHF radio conversation (comm) razgovor putem VHF-a: VHF2 radio conversation between te two vessels had resulted in the two bridge teams holding conflicting views as to what had been agreed regarding vessel X overtaking vessel Y. www.gov.k/maib

VHF radiotelephone /vi: ʃeit ˈɛf/ (n) (VHF radio) UKV radiotelefon, VHF radio: I made a brief call on VHF and the OOW of the other ship promised to keep well clear.

VHF RT (=VHF radiotelephony) (n) (comm) VHF radiotelefonija: Marine VHF RT works in the VHF part of the marine radio frequency spectrum, which extends between 156 MHz to 174 MHz. https://www.egmdss.com

via /vaɪə/ (prop) putem, preko, via ~ port of Rijeka 1 putem luke Rijeka, preko luke Rijeka, kroz luku Rijeka; 2: the Mediterranean-Asian route via the Suez Canal

vibrate /vaɪˈbreɪt/ Suddenly the vessel started to vibrate heavily and there was a loud noise. (https://safety4sea.com/)

vibration /vaɪˈbreɪʃən/ (phys, marine eng) vibracija, vibriranje, titranje: The severe vibrations lasted several seconds. engine ~s 1 vibriranje motora, vibriranje stroja; 2 vibracije u stroju, torsional ~s torzijska vibracija, create ~ izazvati vibracije, stvoriti vibracije

vibration damper (n) (marine eng) prigušivač vibracija

vice /vais/ (=vise (US)) (n) 1 (marine eng) škrip, morša bench ~ škrip na
Vice Admiral /ˈvɜːsˌædməl/ (n) (navy) a commissioned officer of flag rank in certain navies, junior to an admiral and senior to a rear admiral (Collins English Dictionary online) viceadmiral

Victory ship COMPARE Liberty ship an emergency fast cargo vessels to replace the slower Liberty ships in World War II teretni brod tipa Victory (za prijevoz u konvojima u II. svjetskom ratu): On April 28, 1943, the new ships were given the name Victory and designated the VC2 type (V for Victory type, C for cargo, and 2 for a medium sized ship between 400 and 450 feet long at the waterline). The Victories could carry 10,850 deadweight tons (the weight of cargo a ship can carry) or 4,555 net tons (the amount of space available for cargo and passengers), a larger load than the Liberties could manage. Victory ships typically carried a crew of 62 civilian merchant sailors and 28 naval personnel to operate defensive guns and communications equipment. The Victory ships were different from the Liberty ships primarily in propulsion, the steam engine of the Liberty giving way to the more modern, faster steam turbine. The Victory ships had engines producing between 5,500 to 8,500 horsepower. Their cruising speed was 15-17 knots (approximately 18.5 miles per hour).

victualling /ˈvɪktəliŋ/ (n) (shipping econ, boating/yachting) opskrba broda / brodice namirnicama, panatika; Italian: panatica

Victualling Bill /ˈvɪktəliŋ/ (n) (shipping econ) račun / potvrda o kupljenim namirnicama (u carinskom skladištu)
victuals store /ˈvɪtʃəlz/ spremište namirnica, gambuža

view (n) pogled in ~ of u vezi s, s obzirom na, s ciljem da, with a ~ to u svrhu, s ciljem da

vigilance /ˈvɪdʒɪləns/ (n) (safety) budnost, oprez

violate /ˈvaɪəleɪt/ (v) (mar law) prekršiti: Three shipping companies and a number of their employees were convicted of violating the Act to Prevent Pollution from Ships, obstruction of justice, and false statements.

violation /ˌvaiəˈleɪʃən/ (n) (navig) kršenje: The root cause/contributory factor of the accident was violation of COLREGS Rules 5 (Lookout), 8 (Action to avoid collision), 10 (Traffic separation schemes), 17 (Action by stand on-vessel) and 18 (Responsibilities between vessels) by rogue container vessel ~ of COLREGS kršenje pravila o izbjegavanju sudara, fine for pollution ~ globiti
violent /ˈvaiələnt/ (adj) žestok (vjetar), jak, snažan: The ship capsized in extraordinarily violent sea conditions caused by gale force winds and a strong, opposing tidal stream.

violently /ˈvaiələntli/ (adv) žestoko, jako, snažno

violent storm (n) (meteorol) jaki orkanski vjetar, teška oluja

Virtual AIS ATON (=Virtual Automatic Identification System) (n) (navig)

SEE AtoN An aid to navigation with no physical structure. It exists only through AIS messages broadcast from another location. A few uses of virtual ATONs include environments where buoys are moved seasonally, such as in sea ice, or where a marker needs to be placed quickly, such as to mark a newly identified isolated danger or wreck (https://nauticalcharts.noaa.gov/publications/portrayal-of-ais-aids-to-navigation.html) virtualna (izvanbrodska) navigacijska pomagala na bazi AIS-a: AIS ATONs on NOAA nautical charts are portrayed with a magenta circle, enclosing an ATON symbol. The same symbol is used to depict both real and synthetic AIS ATONs, with a magenta “AIS” label next to the circle. Virtual AIS ATONs have a “V-AIS” label.

viscosity /ˈvɪskəs/ (n) (marine eng) The property of an oil (or any fluid) by virtue of which it offers resistance to flow. (http://www.marinedieseleurope.com/) viskoznost, viskozitet, žilavost

reduce ~ smanjiti viskoznost, ~ regulator regulator viskoznosti, mjerač viskoziteta

viscous /ˈvɪskəs/ (adj) viskozan, ljepljiv, žilav render oil less ~ smanjiti viskoznost goriva

vise (=vice (UK)) (n) (US) (marine eng) škrip, morša

visibility (meteorol) vidljivost: Daylight Visibility: moderate in rain showers It was a clear night and the visibility was good. arc of ~ kut vidljivosti, bad ~ loša vidljivost, excellent ~ izvršna vidljivost, good ~ visibility more than 5 nautical miles dobra vidljivost: The visibility was good and the wind was south-easterly between 6 and 15 knots., moderate ~ visibility between 2 and 5 nautical miles umjerena vidljivost, poor ~ 1 visibility between 1000 m and 2 nautical miles; 2 loša vidljivost, restricted ~ 1 visibility less than 0.5 nautical mile ograničena vidljivost; 2 smanjena vidljivost, reduced ~ smanjena vidljivost: The Maritime and Port Authority issued a reduced visibility warning to ships, the ~ deteriorated vidljivost se pogoršala, ~ improves vidljivost se poboljšava

visibility report (n) (meteorol) izvješće o vidljivosti

visibility scale (n) (meteorol) ljestvica vidljivosti, stupnjevi vidljivosti 1 dense fog gusta magla, 2 thick fog jaka magla, 3 fog magla, 4 moderate fog umjerena magla, 5 poor visibility slaba vidljivost, 6 moderate visibility umjerena vidljivost, 7 good visibility dobra vidljivost, 8 very good visibility vrlo dobra vidljivost, 9 exceptional visibility izuzetna vidljivost
visible (adj) vidljiv, koji se vidi
visor (n) (nav arch) pramčana vrata (ro-ro broda, trajekta), podizni dio

pramca (ro-ro broda, trajekta)

visual display unit (=VDU) = VDU pokazivač, ekran, displej
visual signal (n) (comm, navig) vizualni signal, vidljivi signal
vituals /ˈvɪtəlz/ (n) namirnice, provišta

VLCC (=Very Large Crude Carrier; VLCS (Very Large Container Ship)) (n)
(nav arch) Very Large Crude Carrier (VLCC) is an ocean-going crude oil tanker of 200,000 to 299,999 dwt. supertanker, vrlo veliki tanker (preko 250 000 dwt) - rates dnevna

najamnina za supertankere: MidEast VLCC rates jump by almost $13,000 a day; Basra cargos could increase daily rates by $9,000. Freight rates on Asian routes for very large crude carriers (VLCCs) are set to climb higher next week as unloading delays and weather-related port congestion in
China tighten vessel supply on strong chartering activity, brokers said on Thursday. 

*https://www.marinelink.com/maritime/tanker-charter-rates*, freight rates for ~ vozarinski stavovi za supertankere: Freight rates on Asian routes for very large crude carriers (VLCCs) are set to climb higher next week as unloading delays and weather-related port congestion in China tighten vessel supply on strong chartering activity, brokers said on Thursday. 

*https://www.marinelink.com/maritime/tanker-charter-rates* Ship owners will try to push VLCC rates close to 100 on the Worldscale measure, daily rates for VLCCs dnevna najamnina za supertankere, ~ surge vozarine VLLC brodova naglo rastu: VLCC rates from the Middle East to Japan surged to W88.5 from around W79 a week earlier, equivalent to daily earnings of $65,858, 

**VLOC** (=Very Large Ore Carrier) *(n)* *(nav arch)*: A giant VLOC loaded with iron ore has run into trouble off the coast of Brazil. https://gCaptain.com

**VLSFO** (=Very Low Sulphur Fuel Oil ) *(n)* *(marine eng)* SEE LSFO gorivo s vrlo niskim udjelom sumpora: 1 out of 4 VLSFOs has a pour point above 18° C, while the corresponding ratio for high sulphur fuel oils is 1 out of 100. (https://safety4sea.com/)

**VOCC** (=Vessel-Operating Common Carrier) *(n)* *(mar law, shipping econ, logist)* = Vessel-Operating Common Carriers COMPARE NVOCC pomorski prijevozni poduzetnik koji opera brodom (u linijskoj plovidbi), pomorski prijevozni posrednik koji opera brodom (u linijskoj plovidbi) 

voice hailer doglas, megafon, portavoč

**void** *(n)* *(nav arch)* an enclosed empty space in the ship prazan prostor, praznina
void space (n) (nav arch) prazni prostor: The forward void spaces were also reported to have water ingress.

void spaces (n) (cargo handling) prazni prostori (u brodskom skladištu)

Voith-Schneider propeller (n) (nav arch) propeler tipa Voith-Schneider

Voith-Schneider propulsion (n) (nav arch) The Voith Schneider Propeller (VSP) combines propulsion and steering in one unit pogon tipa Voith-Schneider

volatile organic compounds /ˈvɔləˌtɪl/ (VOCs) (n) (cargo handling)

Hydrocarbon-based emissions released through evaporation or combustion. The term VOC is usually used in regard to stationary emission sources. (http://www.marinedieseurope.com/) hlapljivi organski sastojci: Volatile organic compounds (VOCs) are emitted when loading and have to be
removed, this being done with equipment on deck. It is estimated that 4 to 7 million of tons of cargo is lost due to VOC emission yearly

**volatility** /voləˌtiləti/ (chem) hlapljivost
**voltage** /vɔltidʒ/ (electr) napon, električni napon lethal ~ napon opasan po život

**voltage drop** (n) (electr) pad napona

**volume** /ˈvɔljuːm/ 1 a volumen cylinder ~ volumen cilindra, swept ~ stapajni volumen; 2 obim; 3 količina (tereta): In February the port’s TEU volumes decreased 22.9% compared to last year to 544,037 TEUs https://gCaptain.com

**volume contract** (=service contract) (n) (mar law) COMPARE contract of affreightment Service contracts are between a shipper and an ocean common carrier or an ocean common carrier agreement in which the shipper commits to provide a certain minimum quantity of cargo over a fixed period of time and the ocean common carrier or the ocean common carrier agreement commits to a certain rate or rate schedule and a defined level of service.

(https://www.fmc.gov/resources/how_to_file_service_contracts.aspx) ugovor o prijevozu robe za određenu količinu i na određeni rok.

**volume control** (=VOL) (n) (comm) upravljačka ručica/kotačić za jačinu zvuka (na VHF uređaju)

**volume of cargo** (n) (shipping econ) količina tereta

**volume rate** (n) (mar law) Rate applicable in connection with a specified volume (weight) of freight.

vozaranina na temelju količine (težine) tereta

**volumetric efficiency** (n) (marine eng) The ratio of the air that enters the cylinder compared to the actual volume of the cylinder. (http://www.marinediesel europe.com/) volumetrijski koeficijent iskorištenosti (pumpe, kompresora)

**Volumetric Transverse Shifting Moment of grain** (=TSM;) (n) (stabil) moment volumetrijskog pomaka (za žito)

**voluntary** /'voləntərē/ (adj) 1 (mar law) namjeran ~ risk namjeran rizik (radi spašavanja pomorskog pothvata), ~ sacrifice namjerno žrtvovanje (tereta); 2 dobроволjan

**volunteer** (=volənt'riə) (n) dragovoljac, dobrovoljac ~ assistance (safety) dragovoljna pomoć u traganju i spašavanju, volunteer: Volunteer assistance is a key element in maximizing the efficiency of SAR operations, prevention and safety-related activities.

Camsar2014, ~ organisation dragovoljačka organizacija, dobrovoljačka organizacija: Where necessary, the maritime SAR tasks of each volunteer organisation participating in maritime SAR operations are defined in greater detail under the Maritime SAR Plans of the Search and Rescue Sub-Regions (SRS). SAR Manauk, Finland 2010

**volute** /vɔljuːt/ (marine eng) puž, spirala

**vortex** /vkɔr’teks/ (marine eng) vrtlog ~ chamber vrtložna komora

**voyage** /vɔidʒ/ (n) (shipping econ) COMPARE passage putovanje (broda), vijaj complete the ~ završiti putovanje, interrupt the ~ prekinuti putovanje: Type of voyage: international / short international / internal waters, etc., resume the ~ nastaviti putovanje (nakon nesreće, havarije), trans-oceanic ~ prekomorsko
Voyage Charterparty

**putovanje, prekoceansko putovanje**: For trans-oceanic voyages, construct the track using a navigational computer, a great circle (gnomonic) chart, or the sailings.

**putovanja**: Type of voyage: international / short international / internal waters / domestic

**voyage charterparty** *(n)* *(mar law)* A voyage charterparty is a contract whereby the lessor (the shipowner or demise or time charterer) places all or part of the carrying capacity of a ship at the disposal of the lessee (the voyage charterer) for the transport of goods agreed upon, on one or more voyages, for a consideration called freight, based on the quantity of cargo carried and is payable as provided for in the charterparty.

**brodarski ugovor za putovanje, zakup broda za jednu plovidbu** *(EUdict)*, **ugovor o najmu broda za putovanje, ugovor na putovanje** *(A. Ferguson)*

**voyage costs** *(n)* *(shipping econ)* COMPARE operating costs cost that incur for a particular voyage. Fuel costs, canal dues, pilotage and port charges are the main costs related to a specific voyage. (https://brage.bibsys.no)

**voyage data recorder** (VDR) *(n)* *(navig)* VDR A protective capsule (recoverable in the event of a casualty) used to provide a record of key operational events throughout a 12 hour period. Events recorded include: radar, voice, DGPS, engine orders, weather information. In the event of an incident involving the ship, these data may be used to analyse events. (A. Ferguson)

**voyage estimate** *(n)* *(shipping econ)* Calculation of the profitability of a prospective voyage of a ship using estimated figures. http://www.tkmglobal.net/chartering_V.HTM

**voyage expenses** *(n)* *(shipping econ, nav arch)* Expenses incurred for a ship’s traveling from a loading port to a discharging port, such as bunkers cost, port expenses, agent’s fees, canal dues, extra war risk insurance and commissions.

**voyage monitoring** *(n)* *(navig)* Nadziranje provedbe putovanja

**voyage planning** *(n)* *(navig, shipping econ)* Planiranje putovanja, planiranje plovidbe

**voyage policy** *(n)* *(mar ins)* Polica na putovanje

**voyage recording** *(n)* *(navig)* Snimanje putovanja
voyage segment (n) (mar law) the section of the voyage being undertaken at the time of the marine casualty or incident. (www.emsa2018.com) dio brodskog putovanja: A voyage segment can be: 1. Anchored or alongside, 2. Arrival or Departure, 3. transit (between the departure and mid-water or mid-water and arrival); 4. Mid-water (between transit phases). www.emsa2018.com

VRM /ˈviː.ə.ɹˈɛm/ (n) (navig) = Variable Range Marker
the variable range marker (VRM) is used primarily to determine the ranges to target pips on the PPI promjenljiva daljinska kružnica (na radarskom pokazivaču), pomična kružnica udaljenosti, promjenljiva kružnica za mjerenje udaljenosti, kalibracijski prsten: The accuracy of the VRM can be checked by placing the variable ring exactly over several of the fixed rings in turn, and noting any discrepancy in the readings indicated. ~ unit 1 mjerna jedinica promjenjive daljinske kružnice; 2 choose the VRM unit izabratи mjernу jedinicu promjenjivу kružnicy udaljenosti, move the ~ pomjeranje promjenljive daljinske kružnice: Whether you use a traditional controls or a trackball, the method of use is the same. The range of a target is measured by moving the VRM strobe or cursor until it just touches but does not cut the closest edge of the target, set the ~ namjestiti VRM, namjestiti promjenjivu daljinsku kružnicu: The pilot ordered ‘dead slow ahead’ and set the variable range marker (VRM) on his allocated radar to a distance of two ship lengths. THe pilot ordered ‘dead slow ahead’ and set the variable range marker (VRM) on his radar to a distance of two ship.

VSP (=Voith-Schneider Propulsion) (n) (marine eng, nav arch) pogon Voith-Schneider: VSP = Voith Schneider Propeller;

VTIS (n) (comm, navig) Služba za nadzor i informiranje u pomorskom prometu: The vessel did not warn VTIS or the surrounding vessels. (https://safety4sea.com/) The goal of the VTIS is to “improve vessel transit safety by providing vessels with advanced information of other reported marine traffic and any additional information which may affect traffic safety within the area covered by the VTIS” (Marine Exchange of Los Angeles-Long Beach, 1994).

VTM (=Vessel Traffic Management) (n) (navig, safety) služba za upravljanje pomorskim prometom: The Port Control operates a Vessel Traffic Management (VTM) system to provide a communication link between ships, pilots and the port.

VTMIS (n) (navig, safety) = Vessel Traffic Monitoring Information System Služba za nadzor i upravljanje pomorskim prometom

VTMS (=Vessel Traffic Management System) (n) (navig, safety) = Vessel Traffic Management System a marine traffic monitoring system established by harbour or port authorities, similar to air traffic control for aircraft. Typical VTS systems use radar, closed-circuit television (CCTV), VHF radiotelephony and automatic identification system to keep track of vessel movements and provide navigational safety in a limited geographical area. Služba nadzora i
VTS /ˈvɪːtɪs/ (=vessel traffic service) (n) (navig, safety) = vessel traffic service

Systems facilitating safe and efficient vessel traffic movement to or from ports, or within restricted sea areas adjacent to the coasts of states, under which ship traffic is subject to the supply or exchange of information, or the giving of advice or instructions, by coastal stations. On November 27, 1997, the International Maritime Organization (IMO) adopted Resolution A.857(20), entitled Guidelines for Vessel Traffic Services. That Resolution defines a V.T.S. as a service implemented by a Competent Authority, designed to improve the safety and efficiency of vessel traffic and to protect the environment. The service should have the capability to interact with the traffic and to respond to traffic situations developing in the V.T.S. area.

služba nadzora plovidbe, služba VTS, VTS, služba kontrole i vođenja plovidbe, sustav nadzora plovidbe: About 30 seconds before the collision Vessel Traffic Services (VTS) intervened to warn both vessels that they were running into danger but no response was received. www.nautinst.org - MARS reports Southampton VTS provides an Information and Traffic Organisation Service for all Southampton VTS provided an Information and Traffic Organisation Service for all of dangerous maritime traffic situations and to provide for the safe and efficient movement of vessel traffic within the VTS area. www.gov.uk/maib Inform VTS or port authority, as appropriate. report to ~ prijaviti se Službi VTS-a, prijaviti se VTS centru: The vessel passed to Busan VTS limit with her course 356 degrees and her speed 11.5 knots, and reported to VTS center and then was instructed by VTS to drop anchor at N-4 anchorage upon arrival.

(https://safety4sea.com/)

VTS area /ˈvɪːtɪs/ (=VTS limit) (navig, safety) područje VTS-a: When a VTS authority organises and manages traffic within its VTS area as part of its function, then it would normally also declare the provision of a Traffic Organisation Service (TOS). As a minimum, a vessel navigating within a VTS area should contact the operator, alerting them of their presence.

VTS order (n) (navig) zapovijed od službe VTS-a comply with the ~ izvršiti naredbu VTS-a, poslušati naredbu VTS-a: Both vessels complied with VTS orders and anchored in a designated area for investigations by port authorities;

WAD (=Weather Adapted Duct) Since WAD is located in front of propeller and makes the speed of flow into propeller slower by hindering the flow at stern, the wake ratio (t-W) is improved.

(http://archive.jime.jp/e/publication/yearbook/yb/pdf15/yb15-5.pdf) konus propelerskog voda za usporavanje brzine protoka ispred propelera: Corona Citrus is equipped with WAD (Weather Adapted Duct) in front of the propeller which promotes her propeller efficiency and Hybrid Fin behind the propeller which accelerates energy savings.

https://www.marinelink.com/news/k-line-takes-delivery-corona-citrus In order to save energy, the Weather Adapted Duct (WAD) was installed in front of the propeller and Hybrid Fin behind the propeller.

wage /ˈweɪdʒ/ (n) 1 (shipping econ) zarada, plaća: The wages of each Employee shall be calculated in accordance with this Agreement and the attached minimum wage (Appendix A) Zarade svakog pomorca obračunavaju se u skladu s ovim ugovorom i priloženom tablicom o minimalnoj plaći

Account of Seamen ~s obračun plaća pomoraca, net ~s neto zarada, čista zarada, neto plaća, ~ increase povećanje plaće: The seamen called off a strike after reaching a deal with employers on a wage increase.

2 nadnica

wages and maintenance (n) (mar law) plaće i troškovи uzdržavanja (u brodarskim ugovorima)

waggon /ˈwægən/ (n) (cargo handling) wagon

wagon /ˈwægən/ (n) (cargo handling) wagon
waist (n) (seamanship) portion of the deck between the forecastle and quarterdeck of a sailing vessel
dio trupa između pramca i krme (jedrenjaka)

waiting costs (logist, mar law) the agreed transport price includes a small amount of spare time for loading and unloading the goods. For container transport, it amounts to 2 hours for loading and unloading. [https://www.logisticsglossary.com/term/waiting-costs/ dopušteno vrijeme čekanja na ukrcaj / iskrcaj tereta

waiting time (n) (shipping econ) vrijeme čekanja na vez (koje se ne računa u vrijeme stojnica)

wait time (n) (shipping econ) vrijeme čekanja (na uplovljenije, iskrcaj broda itd.): The wait time to pass through the Panama Canal has shortened to four days, down from more than 10 days last month, the authority that runs the waterway said on Thursday. normal ~ normalno vrijeme čekanja: The authority confirmed it had received several complain from users. A normal wait time (wiating period) to pass through the Panama Canal is 24-36 hours

waive /weɪv/ (v) (mar ins, mar law) to set aside or relinquish ⇒ to waive one’s right to something; to refrain from enforcing (a claim) or applying (a law, penalty, etc) odustati od nečega (odštetnog zahtjeva, tražbine, tužbe) ~ inspection 1 odustati od pregleda (robe); 2: The carrier will send a representative to perform the inspection or will waive inspection. If the carrier does not respond within 5 working days, the consignee may make the inspection himself, ~ on the right of claim odustati od prava na prigovor

waiver /ˈweɪvər/ (n) 1 (mar ins, mar law) odustajanje od (odštetnog) zahtjeva; 2 (mar law) Document used to allow cargo carriage by different flag vessels other than original destination country vessels. prepuštanje prijevoza drugom brodu

waiver clause (n) (mar law, mar ins) Clause in a marine insurance policy stating that no acts of the insurer or insured in recovering, saving or preserving the property insured, shall be considered a dismissal from or acceptance of abandonment. [http://www.iss-shipping.com/cargo/cargo_library_glossaryw.asp klauzula o odustajanju od odštetnog zahtjeva

wake /weɪk/ (n) (navig) vessel’s track through the water; turbulent water left behind a vessel in motion brazda (broda), šija the vessel’s ~ 1 brazda broda; 2: The vessel’s wake immediately caught the tug’s skeg Brazda broda odmah je zahvatila petu kormila na tegljaču

wale /weil/ (=gunwale) (n) (sailing vessels, nav arch, boating/yachting) the side planking on a wood ship lying between the bottom and the top-side planking voj gaza, pojas gaza, žuljnica, bokoštitinica

walk back /ˈwoʊk, ˈbæk/ (v) (seamanship) 1 prekrenuti smjer okretanja sidrenog vitla, filare l’ancora; 2 vratiti / uvući sidro: Walk back the anchor clear of the hawse
pipe  Vratite/uvucite sidro tako da visi iz sidrenog oka (padne cijevi) ~ anchor povući sidri
prema natrag
walkie-talkie  /ˌwɔːkiˈtɑːki/ (=walky-talky) SEE talkie-walkie ručni
radiotelefon, voki-toki, toki-voki
walk out  (v) (seamanship) ANTONYM walk back  payout anchor cable under power
izvući sidro (iz sidrenog oka, prije obaranja), pinelat,
Italian: appennellare l'ancora:
At this point, control of the anchor windlass was transferred to the bridge and the cable was walked out. All vessels should walk out the anchor when anchoring in deep water. anchor izvući sidro (iz sidrenog oka)
walkway  /ˈwɔːkweɪ/ (n) (nav arch) nogostup
wall  (n) 1 (marine eng) stijenka, stijena cylindrical ~valjkasta stijena, dividing ~ razvodna stijena, thin ~ tanka stijenka; 2 (nav arch) pregrada
walrus  /ˈwɔːləs/ (n) morž
war clause  (n) (mar law) Clause in a Bill of Lading or Charter-Party which sets out the course of action open to the master of a ship in the event that the ship or her cargo or crew would be put at risk because of war should the voyage proceed. http://www.tkmglobal.net/chartering_W.HTM klauzula o pravima i dužnostima brodara u slučaju rata
ward room  /ˈwɔːrdruːm/ (=wardroom) (n) (nav arch, navy) A compartment aboard ship near officers’ stateroom used as officers’ mess room. (http://www.quarterdeck.org/index.html) časnički salon
wardroom messroom (=officers’ messroom) (n) (nav arch) a dining room in which officers eat their meals časnička blagovaonica, salon za brodske časnike
ware  (n) roba
warehouse  /ˈweərəs/ (n) (ports) ANTONYM transit shed  A place in which goods or merchandise is stored. Warehouses operated by private firms house goods for longer periods skladište bonded ~ carinsko skladište, consignment ~ konsignacijsko skladište, dock ~ obalno skladište, lučko skladište, public ~ javno skladište
warehouse to warehouse (n) (shipping econ) od skladišta do skladišta

warfinger (n) (shipping econ) an owner or manager of a wharf lučko poduzeće, lučki operator export ~ luka ukrcaja

warm up (v) zagrijati

warm up the engine (n) (boating/yachting) zagrijati motor

warn (v) upozoriti

warning (n) fog ~ upozorenje za maglu, storm ~ upozorenje za oluju, upozorenje o olju (comm, safety) upozorenje gale ~ (meteorol) upozorenje za jak vjetar, give ~ of 1 upozoriti na; 2 najavit opasnost o, monitor Navarea ~ pratiti upozorenja za pojedina plovidbena područja, ~ sign znak upozorenja, ~ light upozoravajuće svjetlo, issue a ~ izdati upozorenje, objaviti upozorenje: The Bureau of Meteorology (BOM) has issued a marine wind warning for the Sydney, Hunter and Illawarra coasts until midnight tomorrow-

warp /ˈwɔːrp/ (v) 1 to move (a vessel) by hauling on a rope fixed to a stationary object ashore or (of a vessel) to be moved thus pomicati brod uz obalu (pomoću priteznog vitla); 2 pritezati (uže): Both mooring parties were warping the vessel astern; 3 (boating/yachting) povlačenje krme usidrenog broda u stranu (s pomoću manjeg sidra); 4 move one end of a vessel broadside by heaving on a line secured on the dock potezati brod prema obali (vitlom)

warp /ˈwɔːrp/ (n) (seamanship) = warping winch pritezno vitlo

warp (n) (boating/yachting) uzdužne niti jedarskog platna

warp (n) (boating/yachting, seamanship) Heavier lines (rope or wire) used for mooring, anchoring and towing. https://www.pyiyachts.com/ debliji konop, deblje uže

warping /ˈwɔːpɪŋ/ (n) (seamanship, ship handling) zatezanje (užeta), natezanje (užeta): While repositioning the ship along the jetty during a ‘warping’ action using the spring-lines, one of the forward spring-lines failed. https://gcaptain.com/safe-harbor-learning-from-mooring-accidents/?

warping capstan /ˈwɔːpɪŋ/ (n) (seamanship) pritezno vreteno

warping drum /ˈwɔːpɪŋ/ (n) 1 (seamanship) bubanj za namatanje i zatezanje konopa (na sidrenom vitlu); 2 (nav arch, seamanship) pritezno vitlo

warping end /ˈwɔːpɪŋ/ (n) = winch drum glava vitla, bubanj vitla (za pritezanje priveznog konopa)

warping head /ˈwɔːpɪŋ/ (n) (seamanship) No. 6 in the picture: A warping head refers to a device which is a small spool-shaped auxiliary drum with flange at the end fitted outside the main part of a warping winch. (http://ellsenmarinewinches.com/warping-wincho/)

bubanj za uže (na
Warping line /ˈwɔrpiŋ/ (n) (seamanship) pritezno uže, pritezni konop
Warping winch /ˈwɔrpiŋ/ (n) (seamanship) Warping winch is one kind of marine winch device with warping head and installed on ship for multiple uses, including ship anchoring, mooring, hauling and lifting operations. The winch can adopt electric power mode, hydraulic power mode, or diesel power mode and so on. (http://ellsenmarinewinches.com/warping-winch/) pritezno vitlo: When mooring alongside we used the warping winch on the main deck aft to sed to warp in the stern
Warps /ˈwɔːps/ (n) (seamanship, boating/yachting) privezna užad, vezaljke
Warrant officer (=WO) (n) 1 (navy, hum_resources, UK) a person in the army, the air force, or the marines who is above the rank of sergeant and below the rank of lieutenant. (https://www.collinsdictionary.com/dictionary/english/warrant-officer) časnički namjesnik, podčasnik; 2 (US) In the United States Navy, a warrant officer is above the rank of petty officer and below the rank of ensign. (https://www.collinsdictionary.com/dictionary/english/warrant-officer); officers above all non-commissioned officers, candidates, cadets, and midshipmen, but subordinate to the lowest officer grade of O-1 (i.e. Second Lieutenant) (NATO: OF-1). (https://en.wikipedia.org/wiki/Warrant_officer_(United_States) viši časnički namjesnik
Warranty /ˈwɔrənti/ (n) (mar law) 1 a čvrsta ugovorna obveza osiguranika u pomorskome osiguranju da nešto učini ili propusti jamstvo, garancija; 2 ovlaštenje, punomoć; 3 opravdanje
War ship (n) (navy) ratni bod
Warship departments - modern ships (n) (navy) Službe ratnog broda - suvremenih brodovi, organizacija suvremenih ratnih broda Combat System Department bojna služba (ratnog broda), bojni sustav (ratnog broda), Weapons Department Služba naoružanja, Operations Department Operativna služba, Supply Department Nabavna služba, Engineering
warship departments - traditional  

**Department Tehnička služba**

warship departments - traditional *(navy, US)* službe ratnog broda - tradicionalne: *(In the traditional system and Second World War)* There were three major operational departments i.e., Operations, Gunnery and Engineering. operational *(operations)* department operativna služba, gunnery department topnička služba, artiljerijska služba, oružna služba, engineering department služba stroja

vrijeme trajanja gvardije
http://jst.org.uk/our-tall-ships/life-on-board/

watch² /wɔtʃ/ (n, v) 1 čuvati, paziti na ~ the cargo čuvati teret; 2 (navig) paziti pozorno, pomno motriti
dužnosti držanja straže

watch duties (n) (seamanship) dužnosti držanja straže

watch handover (n) (navig) preuzimanje straže, smjena straže: In preparation for the watch handover, the second officer checked the settings on the port 'X-band' radar display. During the watch handover, the master instructed the 2/O to amend the passage plan to route via the Sunk traffic separation scheme (TSS) instead of via the North Hinder Junction. https://www.gov.uk/maib

osoba u straži, osoba koja drži stražu: At 0400 on 13 June 2013, the chief officer took over the duties of the bridge watchkeeper U 0400 dana 13. lipnja 2013. prvi časnik palube preuzeo je stražu.

watchkeeping /wɔtʃ, ˈkiːpɪŋ/ (navig) straža, obavljanje straže: Whilst watchkeeping at sea, the officer of the navigational watch shall be assisted by at least one posted lookout solo ~ straža

Watchkeeping officer /wɔtʃ, ˈkiːpɪŋ/ = officer-of-the-watch časnik straže

Watchkeeping personnel /wɔtʃ, ˈkiːpɪŋ/ (navig, safety) osoblje straže

Watchkeeping receiver /wɔtʃ, ˈkiːpɪŋ/ alarmni prijamnik

Watchkeeping regime /wɔtʃ, ˈkiːpɪŋ/ (navy) način obavljanja straže a six hour on / six hour off ~

Watchkeeping system /wɔtʃ, ˈkiːpɪŋ/ (navig) sustav držanja straže traditional ~

klašični sustav držanja straže

Watchman /wɔtʃˌmæn/ (safety) stražar: Employment of shore watchmen is advisable

Gangway ~ stražar kod brodskog siza, stražar kod brodske skale, deck ~ stražar na palubi

Watchman (n) (navig) radarski stražar, upozorenje o istjeku namještenog

vremena straže na radaru: The Watchman feature transmits for one minute at the elapse of the chosen time interval to help you keep regular watch of the radar picture for safety or other purposes.

Watch officer (n) (mar law) časnik straže, Italian: ufficiale di quarto
watch receiver (n) (navig, safety) dežurni prijamnik, trajno uključeni prijamnik
watchstander /ˈwɔtʃ.stændə/ (n) (navig) časnik ili član posade u straži
watchstanding /ˈwɔtʃ.stændɪŋ/ (n) (seamanship) držanje straža, držanje gvardije
watch system (n) (mar law) sustav držanja straža traditional ~ tradicionalan sustav držanja straža
water (n) 1 (oceanogr) more ship ~ krcati more u nevremenu (u brod, kaljuže, skladište, na palubu), depth of the ~ at the berth dubina mora uz vez; 2 (marine eng) voda cooling ~ rashladna voda, fresh ~ slatka voda, raw ~ sekundarna rashladna voda, recirculated cooling ~ rashladna voda koja kruži u zatvorenom krugu, salt ~ morska voda, slana voda, sea ~ morska voda, more, ~ cooled hlađen vodom, ~ cooling hlađenje vodom, ~ make-up dodavanje vode, ~ space vodenim prostor, rashladni prostor, ~ treatment obrada vode, obradba vode, pripremanje vode, feed ~ napojna voda; 3 (boating/yachting) voda, more: The amount of the hull in the water - its waterline shape - can be altered by the crew moving forwa rds or aft and this shape will have an effect on the way the boat handles. A dinghy sails fastest when it is upright in the water ... Only fit a fixed rudder w hen you have moved the boat into water deep enough retake the rudder blade without it hining the bottom.
water area (n) (mar law, ports) akvatorij
water ballast (n) (nav arch) voden balast No4 DB TK S&B ~ desni i lijevi tank dvodna br. 4
waterborne /ˈwɔtə.bərn/ (adj) 1 pomorski, na vodi / moru, po vodi / moru ~ craft plovilo, ~ paint brodska boja, ~ sector vodni gospodarski sektor, ~ transport vodni transport: the waterborne sector in Europe issued an ambitious “Strategic Research Agenda”, aiming at realizing a zero-emission waterborne transport for newbuilt ships and inland barges by 2030 and a zero-emission waterborne transport for any ship type on any ship voyage by 2050. http://trends.nauticexpo.com; 2 koji se prevozi morem; 3 koji pluta, koji plovi
waterborne craft (n) (nav arch) = watercraft plovdbeni objekt, plovilo
water bucket (n) (seamanship) sud za vodu, kanta za vodu, sić
water bus (n) (nav arch) hidrobus
water circulating pump (n) (marine eng) vodoprotoka sisaljka, vodocirkulaciona pumpa
water-cooled /ˈwɔtə.kuːld/ (adj) (marine eng) hlađen vodom, na vodeno hlađenje
water cooling /ˈwɔtə.kuːlɪŋ/ (n) (marine eng) hlađenje vodom ~ passage prolaz / kanal vode za hlađenje
water cooling suction /ˈwɔtə.kuːlɪŋ/ (n) (marine eng) sisanje vode za hlađenje: During the final approach to the anchorage the engineers changed over from the low to the high sea water cooling suction.
water cooling system /ˈwɔtə.kuːlɪŋ/ (n) (marine eng) sustav rashladne vode, sustav voda za hlađenje: The whole auxiliary sea water cooling system was blocked, comprising the pump strainers, the main air compressor cooler, the deck steam condenser, the lubricating oil and air coolers of the two diesel generators and the turbo alternator.
watercraft /ˈwɔːtə kraːft (UK); ˈwɔːtə kraɪft (US)/ (n) 1 (nav arch) a boat or ship; 2 water-borne vehicles including ships, boats, pleasureboats, hovercraft and submarines plovilo, plovidbeni objekt; 2 (seamanship) also used collectively (=boats/ships) plovila, brodovi, brodice; barke personal ~ osobno plovilo, plovila za osobnu uporabu: Please observe that all operators of personal watercraft and the like must be able to present a valid personal watercraft license. Violations of the new provisions are punishable by fine. Maritime Logistics Professional <update@maritimeprofessional.com>

water drain (n) (nav arch) odvod vode, škarik
water drum (n) (marine eng) vodeni bubanj

waterfront /ˈwɔːtə frʌnt/ (n) the area of a town or city alongside a body of water, such as a harbour or dockyard. Waterfront may refer to the dockland district of a community. primorje, područje uz more, obalno područje, lučko područje, gradski priobalni pojas, priobalje: Australian ~ productivity has deteriored in the second half of 1999 lučki promet Australije opao je u drugoj polovici 1999. godine Just back from a whirlwind two-day tour of the Cleveland waterfront, there is much to report from this bustling and growing Maritime Logistics Professional <update@maritimeprofessional.com> Belfast ~ obalno / lučko područje Belfasta, Canadian ~ Kanadsko primorje, Kanadsko priobalje

water gauge (n) (marine eng) mjerač razine vode
Waterguard Officer (n) (shipping econ) carinski službenik zadužen za izdavanje dozvole za obavljanje lučkih operacija

water heating (n) (marine eng) zagrijavanje vode
water ingress (n) (safety, nav arch) prodor vode / mora, ulaz mora: The forward
void spaces were also reported to have water ingress.

**water level** *(n)* *(inland waterways, navig)* vodostaj rijeke, razina vode high ~ visoki vodostaj, low ~ niski vodostaj

**water line** *(n)* *(nav arch)* presjek teoretske forme vodoravnom linijom na zadanoj visini iznad osnovice (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarjteme.htm#osnovni); A term used to describe a line drawn parallel to the molded base line and at a certain height above it; the line where the hull of a ship meets the surface of the water. (Wikip) vodna linija, vodena linija:

Inspections have revealed significant damage to the ship’s hull below the water line as a result of its grounding loaded ~ vodna linija nakrcanog broda, vodna linija potpuno opterećenog broda

**Ship size (side view)**

L.O.A. Length Over All
Registered Length
L.P.P. Length between Perpendicular

Crossing point inside Bow plate and Upper deck

Rudder shaft or center of Rudder head

**water line plan** *(n)* *(nav arch)* nacrt vodnih linija i vertikala, horizontalni plan

**waterline plan** *(n)* *(nav arch)* = half-breadth plan nacrt vodnih linija broda

**waterlogged** *(adj)* *(seamanship, boating/yachting)* pun vode, napunjen vodom

**watermaker** *(n)* *(boating/yachting)* generator vode: A watermaker that is used almost daily essentially requires no maintenance, other than occasional replacement of the pre-filter cartridge

https://www.practical-sailor.com

**water plane** *(n)* *(nav arch)* ravnina vodne linije, ploha vodene linije, ravan vodene linije

**water plug** *(n)* *(nav arch)* priključak za vodu

**waterproof** /ˈwɔːtəˈpruːf/ *(adj)* vodonepropustan, vodotijesan, nepromočiv ~ canvas nepromočivo platno, nepromočiva cerada

**waterproofs** /ˈwɔːtəˈpruːfs/ *(n)* *(boating/yachting)* nepropusna odijela
water pump impeller (n) (marine eng) rotor pumpe za vodu, impeler pumpe za vodu
waters /ˈwɔː.təz/ (n) (navig) more, vode in Croatian ~ u hrvatskim vodom
water separator (marine eng) separator vode
waterspout /ˈwɔː.tə.spɔut/ (meteorol) 1 a rapidly rotating column of air extending from a cumulonimbus cloud with a circulation that reaches the surface of the water a morska pijavica

https://en.wikipedia.org/wiki/Waterspout ; 2 prolon oblaka

water spray system (n) (cargo handling) vodena zavjesa: Is the water spray system ready for use? Je li vodena zavjesna spreman za upotrebu?
water supply (n) (nav arch, marine eng) dovod vode, opskrba vodom
water tank (n) (boating/yachting) tank vode, tank za vodu: Plastic water holding tanks and water tanks have the advantage of not corroding, but they are hardly failure proof. They can crack and fail under extreme vacuum pressure if the vent is clogged. https://www.practical-sailor.com/blog/Repairing-Plastic-Water-or-Holding-Tanks-12520-1.html
watertight /ˈwɔː.tə.tait/ (adj) Hatch covers and seals must be in good water-tight condition.
vodotijesan, vodootporan
watertight bulkhead /ˈwɔː.tə.tait/ (n) (nav arch) vodonepropusna pregrada
watertight door (n) (nav arch) vodonepropusna vrata: There may be watertight doors in the bulkheads on the 'tween decks levels. All watertight doors should be closed. Close all watertight doors.

~ frame okvir nepropusnih vrata
http://www.westmoorengineering.co.uk/series-100-watertight-doors/
watertight lug /ˈwɔː.tə.tait/ (nav arch) nepropusna pločica
water track (n) (navig) kurs brazde
water tube /ˈwɔː.tə.tjuː.bə/ (n) (marine eng) vodena cijev, cijev (kotla) za protok vode
watertube boiler /ˈwɔtəˌtuːb/ (n) (marine eng) vodocijevni kotao

Diagram of a watertube boiler.

watertube wall /ˈwɔtəˌtuːb/ (n) (marine eng) vodocijevni ekran (kod kotla)

way /ˈweɪ/ (n) 1 a navigable body of water, plovni put, plovni kanal,

waterway /ˈwɔtəˌwei/ (navig) 1 a navigable body of water, plovni put, plovni kanal,

provedbeni kanal: The Columbia River waterway remains open to all traffic, but the Captain of the Port may need to limit deep-draft commercial traffic upriver... The Strait of Hormuz is one of the world's most important waterways for oil supplies. confined ~ uski provedbeni kanal, suženi

provedbeni kanal: When manoeuvring a vessel in a confined waterway where the margin for error is small, a tug is always a good investment.; 2 (inland waterways) vodni put

waterway /ˈwɔtəˌwei/ (sailing vessels) proveza

wave /ˈweɪv/ (n) 1 (oceanogr) The condition of the water surface caused by local wind and characterized by irregularity, short distance between crests, whitecaps, and breaking motion. (IAMSAR/Camsar2014) val ~ height visina vala: About 11 hours later, a maximum wave height of 15.6 metres was recorded. ... the World Meteorological Organization has established a new world record significant wave height of a massive 19 meters measured by a buoy in the North Atlantic.; 2 (marine eng) nalet, prodor ~ of exhaust gas fumes (marine eng) oblak dima ispušnih plinova

waveguide /ˈweɪvɡuɪd/ (n) (electr, navig) valovod (radara)

wavelength /ˈweɪvlɛŋθ/ (n) (comm, oceanogr) valna duljina, duljina vala:

Electro-magnetic waves of such a relatively small wavelength tend to travel or propagate in an almost straight line between Tx and Rx and only extend beyond the visible horizon (line of sight). https://www.egmdss.com Wavelength of 160 MHz wave frequency is (300 x 106) / (160 x 106 ) = 1,875 m

wax /ˈweks/ (n) vosak

way /ˈweɪ/ (n) 1 vožnja, kretanje (broda), provedba vessel under ~ brod koji nije nasukan, usidren ili privezan brod u provedbi, brod u vožnji, get under ~ isploviti, zaploviti, otploviti, take all the ~ off zaustaviti kretanje broda, under way u provedbi; 2 (nav arch) područje (trupa broda) in ~ of frame No. ... and ... u/na području rebra br. ... i ... (pri opisu oštećenja na brodu); 3 način by ~ of putem, posredstvom, preko

way ship's moving through the water gibanje (broda) kroz vodu, kretanje (broda) kroz vodu
**waybill** /'weiˌbɪl/ (n) 1 (mar law, shipping econ) A waybill is a non-negotiable receipt issued after receipt of the goods by the carrier. It is clearly marked non-negotiable. It is usually employed in the container trade for normal shipments with consent of the shipper who does not insist on being issued a negotiable bill of lading. It is not a document of title, so that delivery of the goods shipped is made, not by presentation of a document, but by the consignee nominated on the waybill identifying himself. Only one original waybill is usually issued to the shipper. Although it is not a document of title, it is a contract of carriage.

**waypoint** /ˈweɪˌpoʊɪnt/ (=WPT; wp) (n) 1 (navig, boating/yachting) an intermediate point or place on a route or line of travel, a stopping point or point at which course is changed (https://en.wikipedia.org/wiki/Waypoint); A location defined by navigational coordinates, especially as part of a planned route. (https://en.wikipedia.org/wiki/Glossary_of_nautical_terms#W); An intermediary position within a passage plan.

**međutočka, točka promjene kursa (na putovanju; obično se unosi u GPS ili na kartu za plotiranje), točka okreta:** A typical GPS receiver can locate a waypoint with an accuracy of three meters or better when used with land-based assisting technologies such as the Wide Area Augmentation System (WAAS). https://en.wikipedia.org/wiki/Waypoint#With_GPS The 2/O adjusted the ship’s heading to 136º towards waypoint 'XY' distance to WP005 udaljenost do međutočke 005, approach the ~ približavati se međutočki: A few minutes later, the vessel was approaching a planned waypoint requiring an alteration of 24º to starboard to 314º, ~ marker oznaka međutočke na radaru: The waypoint marker shows the location of the destination waypoint set on a navigation plotter., reach the ~ doći do međutočke, doploviti do međutočke: At about 2100 hrs, after reaching her waypoint, the vessel altered course to 070ºT and was proceeding along the designated east-bound deep water route., arrive at a ~ stići do međutočke, doći na međutočku: At 2345, the vessel arrived at a navigational waypoint indicating a planned course alteration., reach the ~ stići do međutočke, stići do točke mijenjanja kursa: if you wait until you reach your current active waypoint, you will know where you are. Alternatively, you can use another waypoint stored in the GPS or a charted object near your course line a međutočka
The Electronics Technicians (ETs) and Interior Communications Electricians (ICs) operate and maintain the ship's electronic support systems. Primary responsibilities include the operational readiness, calibration and casualty control of the Exterior Communications System, Interior Communication System, Navigation System, Surface Search Radar System, and electronic equipment not specifically assigned to another division.

*ways (=way) (n) (nav arch) = slipway* launching track in a shipbuilding yard

*navoz*

*Weapons Department (n) (navy)* The Electronics Technicians (ETs) and Interior Communications Electricians (ICs) operate and maintain the ship's electronic support systems. Primary responsibilities include the operational readiness, calibration and casualty control of the Exterior Communications System, Interior Communication System, Navigation System, Surface Search Radar System, and electronic equipment not specifically assigned to another division.

*oružna služba (ratnog)*

CM Division The division consists of Fire Control Technicians responsible for the ship’s strike warfare mission. They operate the Tactical Tomahawk Weapon System Advanced Tomahawk Weapons Control System to launch Tomahawk Land Attack Missiles (TLAM) against deep strike targets. CM Division’s GMs operate and maintain the ship’s MK 41 Vertical Launch System. raketi odjel, CA division CA Division - is manned by Sonar Technicians Surface (STG) who are responsible for all sonar systems.

(https://www.public.navy.mil) odjel sonara: The SONAR Technicians (STGs) operate and maintain the AN/SQQ-89 Integrated ASW Suite. The AN/SQR-19 Tactical Towed Array SONAR provides long-range passive detection of enemy submarines, while the AN/SQS-53C Hull-Mounted SONAR is used actively and passively to detect and localize submarine contacts.

CG Division The Gunners Mates (GMs) in Ordnance Division are responsible for the safekeeping and transportation of almost all ammunition on board the ship, and most of the weaponry used to fire the ammunition. The MK 45 5”/54 Caliber Gun Mount, in conjunction with the MK 34 Gun Weapon System, is used against surface ships and close hostile aircraft, and to support forces ashore with Naval Gunfire Support. ; CG Division - is manned by Gunner’s Mates (GM) who are responsible for the maintenance and operation of the 76mm Gun battery, the six torpedo tubes, guns, dual .50 caliber gun mounts and all crew served weapons.

(https://www.public.navy.mil) odjel za municiju i oružje wear /weə/ (n) trošenje, habanje ~ and tear (marine eng, shipping econ) trošenje i habanje, ordinary ~ and tear included uključeno redovito trošenje i habanje wear /weə/ (v) 1 trošiti se, habati se; 2 nositi, oblačiti ~ the goggles nositi zaštitne naočale wear and tear (n) (safety) damage to cargo, machinery, ship’s equipment etc. due to normal use habanje i trošenje wear-in (n) 1 a (marine eng) trošenje; 2 habanje wear out (v) potrošiti se, ishabati se wear-out (v) 1 a (marine eng) trošiti, istrošiti; 2 ishabati, ishabati wear-out (n) 1 a (marine eng) trošenje; 2 habanje maximum ~ najveće trošenje, najveće habanje, resist ~ oduprijeti se trošenju, pružiti otpor habanju, suffer ~ biti izvrgnut trošenju, biti oštećen habanjem wear-resistant (adj) otporan na trošenje, otporan na habanje weather /ˈweðə/ (meteorol) vrijeme (atmosfersko): Most common weather threats that can harm the vessel, are hurricanes, squalls, typhoons or tropical cyclones. (https://safety4sea.com/) bad ~ loše vrijeme, nevrijeme, boisterous ~ jako nevrijeme, fair ~ lijepo vrijeme, heavy ~ nevrijeme, to encounter / enter bad ~ naići na nevrijeme, ući u nevrijeme, adverse ~ loše vremenske prilike, nepovoljne vremenske prilike, in severest ~ condition u najoštrijim vremenskim uvjetima, rough ~ nevrijeme, loše vrijeme, stand the ~ držati se / oduprijeti se nevremenu, through stress of ~ zbog djelovanja / utjecaja nevremena, thick ~ gusta magla, unstable ~ nestabilno vrijeme, severe ~ nevrijeme, inclement ~ oštro nevrijeme: As a result of the inclement weather, the bulk carrier went adrift Monday off Peloponnese peninsula. www.safety4sea.com
weather (v) 1 (navig) prebroditi, izdržati nevrijeme; 2 proći u privjetrinu drugog broda
weather (ship handling, navig) vjetar: The drifting vessel then came broadside to the weather and suffered a sudden severe heeling over to starboard. (https://safety4sea.com/)
weatherboard /weðəˈboʊd/ (n) (navig) privjetrina, strana privjetrine
weather deck (n) (nav arch) the uppermost continuous exposed deck - usually either the main deck or, in larger vessels, the upper deck; A deck that is not roofed and thus is open to the ever-changing weather conditions of the sea is referred to as the weather deck. It is the uppermost deck on the ship which is exposed to environment.
(https://www.marineinsight.com/marine-navigation/10-types-of-decks-every-seafarer-should-know/)
izložena paluba
weatherfax (n) (meteor) vremenski faks
weather forecast vremenska prognoza, Italian: bollettino
meteorologico: WEATHER FORECAST FOR THE ADRIATIC FOR THE FIRST 12 HOURS VREMENSKA PROGNOZA ZA JADRAN ZA PRVIH 12 SATI The ship’s master should always be aware of the weather forecast and be ready to appropriately handle the vessel under circumstances of bad weather in case that violent wind, torrential rain or surging waves appear. (https://safety4sea.com/)
weather helm (n) (boating/yachting) list kormila više u privjetrenoj strani; tendency of boat to head into the wind when the helm is released skretanje kormilom u vjetar, privjetreno kormilo, bježanje u vjetar (kad se ispusti rudo/kolo kormila), skretatnje u vjetar, Italian: barra sopravento
weather map (n) (meteor) zemljopisna karta određenoga područja s určanom mrežom meteoroloških stanica na kojoj su dogovorenim znacima prikazane vremenske prilike tijekom

sinoptičkoga motrenja vremenska karta
weather outlook further ~ daljnji izgledi vremena (za sljedećih 12 sati)
izgledi vremena (za 12 sati)
weather permitting (=WP) (prep phr) (mar law) Term used in a voyage charter to signify that laytime does not count when weather conditions do not allow loading or discharging operations to be carried out. http://www.tkmglobal.net/chartering_W.HTM; The time during which no work can be carried out due to the weather, will not be deducted from the agreed loading and unloading time. https://www.logisticsglossary.com/term/weather-permitting/ ako vrijeme dopušta
weather permitting working days (n) (shipping econ, mar law) pogodni radni dani
weather report vremensko izvješće, izvještaj o vremenu
weather route (n) (meteor) klimatološka navigacijska ruta
weather running days (n) (mar law, shipping econ) tekući dani ako vrijeme dopušta
weather shore (n) (boating/yachting) ANTONYM lee shore the shore if wind blows strongly offshore
weather side (n) = windward side 1 (navig, meteorol) windward side privjetrina; 2 strana broda izložena vjetru, strana privjetrine
weather system (n) (meteorol) vremenski sustav
weather warning (n) (meteorol) vremensko upozorenje, upozorenje o nevremenu: The area of NW Bahamas is currently under a severe weather warning with wind gusts in the 35-50kt range.
weather wizard (n) (meteorol, navig) izvješće o vremenskim prilikama
weather working days (=WWD) (n) (mar law) Days on which work is normally carried out at a pod arid which counts as laytime unless loading or discharging would have ceased because of bad weather.
weather web (n) (nav arch) the vertical portion of a beam; the athwartship portion of a frame; the portion of a girder between the flanges
web frame (n) (nav arch) a built-up frame to provide extra strength consisting of a web plate with flanges on its edges, placed several frame spaces apart, with the smaller, regular frames in between.

okvirno rebro, ojačano rebro
wedge /wedʒ/ (n) (marine eng, seamanship) wood or metal pieces shaped in the form of a sharp V, used for driving up or for separating work
weed /wiːd/ (n) (oceanogr) morska trava, morske alge
weigh /ˈweɪə/ (v) (shipping econ) podići sidro tako da brod može zaploviti; heave up an anchor in preparation for sailing; raising the anchor of the vessel from the sea floor and pulling it up to the side of the vessel after the engines have been brought up to operating power.; lift anchor off the bottom
podići sidro, dizati sidro, dignuti sidro: While the anchor was being weighed the cable rendered against the windlass dok smo podizali sidro konop na vitlu je popustio the decision was taken to weigh anchor bilo je odlučeno da se podigne sidro After weighing anchor offshore at the entrance to the Houston Ship Channel and boarding a pilot, the ship proceeded inbound up the channel to City Dock 24 to
discharge its cargo of steel rolls. ~ anchor! Podigni sidro!: ... the ship weighed anchor and proceeded to the pilot boarding station where the pilot boarded the vessel and went to the bridge.

weighed /ˈwɛld/ (adj) podignuto (sidro) anchor ~ sidro podignuto (s dna) 
weighing anchor /ˈwɛɪn/ (boating/yachting, seamanship) to pull up an anchor dizanje 
sidra: Weighing anchor manually can keep you keep fit, but I’ve also seen people suffer back injuries, mangled hands and get covered in evil-smelling mud.

weight /weɪt/ (n) 1 težina, uteg gross ~ bruto težina, light ~ mala težina, take the ~ on the line preuzimati težinu napinjanje konopa, napinjati konop: The master instructed the C/O to start taking the weight on the head line. ; 2 (seamanship) opterećenje (užeta, konopa): The lines were bearing too much weight, which the master instructed to be cast off. Konopi su bili suviše opterećeni pa je zapovjednik naredio da se otpuste. put the ~ on the line opteretiti uže (konop)
weight: (n) 1 (fishing) olovo (na dnu povraza), uteg (na dnu povraza); 2 (fishing) peškafondo
weight (=t) (n) (stabil) = weight; w težina (t): An off-center weight situation can be caused by: Unequal adjustment of weight during loading procedure; Shift of weight; Unsymmetrically cargo addition/removal (https://safety4sea.com/)
weight, quantity, number of packakges unknown (n) (mar law) težina, količina tereta i broj koleta nepoznati (primjedba u teretnici)
weight force (=Wf) (n) (stabil) the force acting vertically downwards sila teže
weight or measurement in owner's option (n) (shipping econ, mar law) težina ili obujam po izboru brodara
weight ton (=W/T) (n) (shipping econ) A ton of 1000 kilos težinska tona: Weight tons can be expressed in short tons of 2000 pounds, long tons of 2240 pounds or metric tons of 1000 kilos (2204.62 pounds)
weight unknown (n) (mar law) težina tereta nepoznata (primjedba u teretnici)
weight; w (n) (stabil) teret shift the weight pomjerena težina: Whenever a weight already on board is shifted, G will move parallel to and in the same direction as the shift of the centre of gravity of the weight
weld /ˈweld/ (n) (marine eng) var, zavareni dio
weld /ˈweld/ (v) zavariti, zavarivati
weldable /ˈweldeɪbəl/ (adj) zavariv, koji se može zavariti
welded /ˈwɛldɪd/ (adj) (marine eng) zavaren ~ plating (nav arch) zavareni lim, zavarena oplata
Welder/Fitter (hum_resources) zavarivač / monter: This rank onboard renders his services to both the deck as well as the engine department. https://safety4sea.com/
welding /ˈwɛldɪŋ/ (n) (marine eng) the process by which metals are joined by heating and melting the metals and simultaneously adding filler material (https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/)
zavarivanje: Different types of welding are electric arc, laser, electronic beam etc but the most famous out of these is electric arc welding. https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/ arc ~
lučno zavarivanje
well /wel/ (n) 1 (nav arch) The space in the bottom of the ship to which bilge water drains so that it maybe pumped overboard. Also the space between partial superstructures (Ship Terms Glossary.html) zdenac deck ~ palubni zdenac, deep ~ pump sisaljka dubokog zdenca: The chief officer then circulated the cargo, using the deep well pump, to ensure a good representative sample was obtained.; 2 (nav arch) sliv tekućeg goriva
westbound /westˈbaʊnd/ (adj, adv) koji se kreće prema zapadu: a laden product tanker was ~
westerlies (meteorol) zapadni vjetrovi
westerly wind (meteorol) zapadni vjetar, zapadnjak: Although there was a flood tide and the westerly wind was blowing at 15 knots, a tug was not considered necessary.
well (n) mokar ~ paint svježa boja
wet /wet/ (v) pomočiti, smočiti
wet-bulb thermometer (n) (marine eng) uronjivi termometar
wet damage (n) (cargo, mar ins) šteta nastala vlagom ili vodom (o teretu), mokra šteta: Wet damage due water ingress (rain, seawater etc) into the container; https://shippingandfreightresource.com/ Wet damage due to condensation inside the container when an incorrect type of container is used like using a normal container instead of a ventilated container https://shippingandfreightresource.com/
wetdock refit (n) (seamanship) održavanje u moru
wether forecast (n) (meteorol) vremenska prognoza the latest ~ najnovija vremenska prognoza
wet market (=wet) (n) (shipping econ, mar law) generic term for the tanker market tankersko tržište
wet sleeve (n) (marine eng) A cylinder liner which is about 70 percent exposed to the coolant. (http://www.marinedieseleurope.com/) mokra košuljica
wet submersible (navy) ronilica u kojoj je posada u ronilačkim odijelima i izložena tlaku okolne tekućine mokra podmornica
wetted area (n) (boating/yachting, nav arch) The surface area of a hull immersed in water. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) površina trupa brodice pod vodom
whale /wel/ (n) kit: A fleet of marine robots built and operated by the National Oceanography Centre (NOC) and its partners has detected whales and porpoises and recorded the sounds they make in a survey
of the deep ocean off northern Scotland.

**whale boat** *(n)* *(nav arch)* kitolovac
**whale catcher** *(n)* *(nav arch)* kitolovac
**whaler** /ˈweɪlə/ *(n)* *(nav arch)* kitolovac, brod kitolovac
**whaling** *(n)* *(fishing)* lov na kitove, kitolovstvo

**wharf** /wɔːf/ **SYNONYM** quay 1 *(ports)* the oldest term in English referring to port structures. It denotes any structure of timber, masonry, cement, or other material built along or at an angle to the navigable waterway, with sufficient depth of water to accommodate vessels and receive and discharge cargo or passengers; A dock of substantial size parallel to shore where ships can tie up for loading or service.

(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary/db.cgi?db=db&view_records=1&uid=default&Term=wharf); Structure built alongside the water or perpendicular to the shore where ships berth for loading or discharging goods.

http://officerofthewatch.com/tools/maritime-dictionary/

**lučka obala, pristan, vez**, Italian: *banchina; calata; pontile*: The wharf typically has front and rear loading docks (aprons), a transit shed, open (unshedded) storage areas, truck bays, and rail tracks. The vessel berthed at new **container wharf** that was completed in 2017.

http://aucklandwaterfront.co.nz/location/; 2 a structure built for boats to stop at, at the edge of the land or leading from the land out into the water (MacMillan) **gat, molo**;

3 *(US)* same as a pier (in US use) **gat, dok**

**wharfage** /ˈwɔːfɪdʒ/ *(n)* *(ports)* lučke obale (sve operativne obale zajedno); 2 *(shipping econ, mar law) = cargo dues* naknade za korištenje vezova naplative na temelju tereta koji brod prevozi; A charge assessed by a pier or wharf owner for handling incoming or outgoing cargo. naknada za korištenje lučkih obala i lučke mehanizacije: All non-containerized foreign cargoes coming in (imported), going out (exported) or transshipped through a government-owned wharf shall be charged WHARFAGE for the use of port facilities on the basis of the total metric or revenue tonnage whichever is applicable, rounded off to the nearest ton. All containerized foreign cargoes (FCL) shall charged WHARFAGE per box. The wharfage fee is then charged back to the customer in order to provide transparency and to share the costs. ~ **fee** naknada za korištenje lučkih obala

**wharfinger** /ˈwɔːfɪndʒə/ *(n)* *(mar law)* predstavnik brodara / brodovlasnika u luci, predstavnik brodara na vezu u luci (u vlasništvu brodara); 2 *(shipping econ)* brodar koji upravlja vezom (terminalom) u luci; 3 *(shipping
What is your heading? (navig, seamanship) Koji je vaš kurs? My heading is ...

degrees. Moj kurs je ... stupnjeva.

wheel /wiːl/ (n) (cargo) pšenica

wheelhouse /ˈwiːlˌhaus/ (n) (nav arch) location on a ship where the steering wheel is located, often

interchanged with pilothouse and bridge kormilarnica

wheelhouse poster (n) (navig) The wheelhouse poster should be permanently displayed in the wheelhouse. It should contain general particulars and detailed information describing the manoeuvring characteristics of the ship, and be of such a size to ensure ease of use. (see IMO Resolution A.601(15)

poster u kormilarnici: According to the wheelhouse poster, the minimum manoeuvring speed for vessel A was 5 knots. www.safety4sea.com
wheelhouse top /'wiːl hauːs/ (n) (nav arch) krov kormilarnice
wheel orders (n) (navig) naredbe za kormilarenje
wheel over point (=WOP) (n) 1 (navig, nav arch) točka započinjanja otklona kormila
Wheelsman

Whip

proračunate točke okretanja broda
wheelsman /ˈwɪzləm/ (n) (mar law) kormilari
whereas /weərˈæz/ (conj) dok, dočim, naprotiv, dok nasuprot tome ...
whereby /weəˈbɛəri/ (conj) (mar law) čime
wherever (pron, adv) gdje god, kamo god
whether in berth or not (=WIBON) (mar law, shipping econ) Provision in a voyage charter that, once the ship has arrived at the port and tendered notice of readiness, if required, laytime will start to count in accordance with the Charter–Party whether or not the ship has reached the berth. http://www.tkmglobal.net/chartering_W.HTM bez obzira je li brod na vezu ili nije
while /ˈwail/ (conj) dok, za vrijeme dok
whilst /ˈwailst/ = while pretežno u pravnim tekstovima dok, za vrijeme dok
whip /ˈwɪp/ (n) 1 (seamanship) a method of preventing the ends of a line from unlaying or fraying by turns of small stuff, stout twine or seizing wire with the ends tucked podvezica (konopa)
The line whipped back towards the ship, striking the seaman who had been looking over the bulwark.

whipstaff /'wipstɑːf/ (n) (sailing vessels, archaic) a (vertical) wooden rod attached to a yoke on the rudder of a vessel, by which the vessel was steered (https://www.oxfordreference.com/) kormilarski štap (preteča kormilarskog kola)
whip wire (n) (seamanship) dvostruki konop (za izvlačenje s kuke, koloture itd.), duplin, povratni privezni konop
whirl /wɜːl/ (n) (oceanogr) vrtlog ~wind (meteorol) vrtložni vjetar

whirling motion /ˈwɜːliŋ/ (n) (marine eng) vrtložno gibanje

whirlwind /wɜːl,wind/ (n) (meteorol) vrtložni vjetar

whisker pole /ˈwɪskər/ (n) (boating/yachting) COMPARE spinnaker pole A whisker pole allows boats to sail deeper angles with the genoa without the genoa getting caught behind the main sail. The most obvious difference between the whisker pole and the spinnaker pole is that whisker poles are used for genoas and jibs while a spinnaker pole is used for a spinnaker.

spar used to hold a large jib or genoa outboard when sailing downwind. http://www.apsltd.com/aps-advisor/sailing-terms-glossary/
deblenjak prečke, tangun floka, tangun (postavljen na floku)

whistle /wɪsl/ (n) (comm) brodska zviždalja, brodska sirena

white bream (n) (fishing) Lat. Diplodus sargus sargus šarag, sarag, crnoprugac,
have improved visibility, the Coast Guard said www.gCaptain.com

white cap (n) (oceanogr) valovi s pjenicom na vrhu, ovčice: Reduced white caps

whitecup (n) (oceanogr) pjena vala

white fish (n) (fishing) bijela riba

white horses (n) (oceanogr) waves in wind strong enough to produce foam or spray on the wave tops valovi s pjenom na vrhovima, bjeličasti valovi, Italian: maroso (onda) ~ and caps foam or spray on wave tops caused by stronger winds (usually above Force 4) ovčice, valovi s pjenom na vrhovima
white lead /ˈwaɪtˌlɛd/ (n) (seamanship) bijeli olovni minij
white seabream (n) 1 Lat. Diplodus annularis špar, ltalian: sparo, kolorep, baraj, češljić, šparac, bili špar, šarma, šipjun, frankul, šparmić, barić, haluz, prstenac, kolorepi šarag (other Croatian names)

šarg
white smoke (n) (marine eng) The smoke emitted during a cold start from a diesel engine, composed mainly of unburnt fuel and particulate matter. (http://www.marinedieseleurope.com/)
bijeli dim (iz motora)
whiting (=bib, pout whiting, pout, pouting) (n) (fishing) Lat. Merlangius merlangus (Noth Seas, Baltic); Lat. trisopterus luscus (Mediterranean, North Atlantic, Baltic, Black Sea)
WHO (=World Health Organization) (n) Svjetska zdravstvena organizacija
wide berth (n) (navig) keep at a considerable distance zaobilazak u širokom luku ~ requested mole se brodovi da plove u širokom luku oko ..., keep a ~ ploviti u širokom luku oko
widen /ˈwaidən/ (v) proširiti
width /ˈwɪdθ/ (n) (nav arch) COMPARE beam širina broda
wield /wiːld/ (v) rukovati, mahati
Wilco. (comm) I understand and will comply. Primio. Učinit ću kako je naređeno.
wildcat /ˈwaildˌkæt/ (US, seamanship) = cable lifter = gipsy a sprocket wheel on the windlass for taking links of the chain cable https://officerofthewatch.com/tools/maritime-dictionary/podigač sidra (u sidrenom vitlu), barbotin
wilful /ˈwilfʊl/ (adj) namjeran ~ misconduct (mar law) namjerni neposluh, baraterija
willy-nilly /ˈwɪliˈwɪli/ (meteorol) orkan, ciklon, tropska oluja
winch1 (n) (nav arch, seamanship) a hoisting or pulling machine fitted with a horizontal single or double drum vitlo, motovilo, vinč, manat, kriket, Italian: verricello
self-tensioning ~ samozatezno vitlo, service a ~ održavati vitlo, dismantle a ~ rastaviti vitlo, cargo ~ teretno vitlo, steam ~ parno vitlo, warping ~ pritezno vitlo, hydraulic ~ hidraulično vitlo, operate the ~ rukovati vitlom, upravljati vitlom: The carpenter asked the second officer to operate the winch, and told the welder and the two ratings to help him push the messenger back onto the rotating drum., ~ brake kočnica vitla: Despite the attempts by the AB to secure the winch brake, the anchor chain continued to run out. ~ handle / lever ručica kočnice vitla: The brake remote control is a wire connected between the boat operator and the winch brake handle., ~ barrel bubanj vitla: The tow line had become jammed under other turns on the winch barrel., ~ control upravljač vitla, uređaj za upravljanje vitom: He operated the hydraulic winch control at minimum speed to gently open and lower the ramp door. A second able seaman was at the winch controls., ~ control lever
upravljačka ručica / poluga vitla: Responding to the shouts overheard on the portable VHF radios the master, who was busy with arrival formalities, ordered the CO on the VHF to move the winch control lever to ‘full hoist’ position, while he rushed towards the after deck., ~ drive pogon vitla: Before ramp door operations, with the ramp secured and the winch drive out of gear if possible, the movement of winch actuators must be confirmed to be in synchronisation with the remote control lever., ~ clutch spojka vitla, kvačilo vitla: to pay out the port trawl wire but the main engine stopped,
resulting in the loss of hydraulic power and a consequent inability to disengage the winch clutch.

**electric ~ električno vitlo:** The primary cause of this accident was the failure of the winch interlock microswitch, which should have prevented the electric winch from operating when the manual handle was inserted.

**hydraulic ~ hidrauličko vitlo:** While Brian cleared off the stern deck I started to get the gear aboard with the hydraulic winch, which was turning in order to use the warping drum.

**lifeboat ~ vitlo brodice za spašavanje:** Review the condition and specification of other lifeboat winch motors to ensure that they would not contribute to further incidents. **Stop ~!**

**Zaustavi vitlo!** Calling out to my mate Brian, “Stop winch”! Acting quickly he stopped it by the emergency lever. Unfortunately I had been pulled right around the drum, underneath it and thrown out on to t

**towing ~ vitlo za tegljenje:** A harbour tug was tasked to assist in the berthing operations of a 75,000gt bulk carrier and to pass her tow line from her forward towing winch through a panama lead at the ship’s starboard shoulder.

**trawl ~ vitlo kočarice, vitlo za povlačenje koče:** Heavy equipment was installed including: a main engine capable of providing 265kW (but de-rated to 228kW); a trawl winch with a core pull of 5.

**electrical ~:** Moreover, the electrical winch had no emergency stop arrangement. **električno vitlo**

---

**winch**² *(n)* *(boating/yachting)* vitlo (jedra, floka)

**winch**³ *(v)* *(safety)* izvući (čovjeka iz mora) vitlom helikoptera: The HM Coastguard successfully winched two of the fisherman from the overturned hull of the fishing vessel. The Italian coast guard sent a helicopter to winch the crew to safety.

**winch aboard** *(v)* *(seamanship)* podići vitlom na brod: The casualty was winched aboard a rescue helicopter and taken to hospital.

**winch brake** *(n)* *(seamanship)* kočnica vitla: With each boat fully loaded, its winch brake was released and then re-applied on a couple of occasions as the lifeboat was lowered to the water.
**winch controller** upravljač vitlom: He then stood to one side to see along the starboard deck and instructed the winch controller to start heaving.

**winch dog clutch** (=winch dog; dog clutch) = dog· zupčasta spojka vitla, zupčasta spojka sidrenoga vitla

http://generalcargoship.com/deck-machinery-anchor-windlass.html

**winch driver** (n) (seamanship) rukovatelj vitla: Each winch position is equipped with a safety
cage for the **winch driver**.

**winch drum** *(seamanship, marine eng)* bubanj vitla: On the forward mooring deck a 28mm HMPE rope on a captive **winch drum** was employed as a breast line; a 56mm polyester mix rope on a captive winch was also used as a breast line;

**winch gear** *(cargo handling)* pogonski uređaj vitla, pogon vitla: The O/S was holding the hose of the grease gun with his right hand while resting his left hand on the groove where the **winch gear** is engaged.

**winch handle** *(boating/yachting)* ručica vitla: The gangway was lowered manually by means of the **winch handle** and rigged for access.

**winch head** *(nav arch, seamanship)* glava vitla, bubanj vitla: ..., he slipped on the recovered dredging gear lying on the deck and, as he fell, his left hand became caught in the rope between the **winch head** and the lower framework.

**winch in** *(boating/yachting)* potegnuti uže vitlom

**winching area** *(safety)* An area provided for the transfer by helicopter of personnel or stores to or from a ship. (https://www.icao.int/) mjesto na brodu za podizanje posade / punika / i drugih osoba) vtlom

**winchman** *(seamanship)* rukovatelj vitla

**winch motor** *(cargo handling)* motor vitla: The controls of the electrical **winch motor** were unreliable. The **winch motor** was rated with a nominal pull of 50kN.

**winch operator** *(seamanship)* rukovatelj vitla: A **winch operator** must stand only on the designated area for a safe and effective operating position;

**wind** *(meteorol)* vjetar: Wind: westerly, 40kts, gusting 56kts prevailing ~s pretežiti vjetrovi, heavy ~ jak vjetar, an area of high ~s područje jakih vjetrova, shifting ~ promjenjivi vjetar, vjetar promjenjiva smjera, coastal ~ vjetar s mora, obalni vjetar, excessive ~ prejak vjetar, vrlo jak vjetar: Bulker runs aground on rocky shore in Sardinia due to excessive **wind**.

**wind** *(marine eng, seamanship)* namotati, namotavati, Italian: avvolgere: The drum, which has cable wound on it, is
usually smooth with flanged ends. Bubanj vitla, oko kojega je namotano čelično uže, obično je gladak i ima prirubnice na krajevima. The mooring ropes were wound on winch drums with brakes applied rather than

windage  (n) 1 (boating/yachting) zanošenje zbog dijelova jedrilice i posade
izložene vjetru: Very few boat owners know the frontal area or "windage" of their boat, nor the area and efficiency of their anchor flukes. Yet these may be the most important, if not the only criteria for judging what size anchor may hold what size boat, under a known set of conditions.

wind ahead  (n) (boating/yachting) vjetar sprijeda, vjetar u pramac
wind and tide opposed  (n) (boating/yachting) vjetar i struja iz suprotnih smjerova, pristajanje s vjetrom i strujom iz suprotnih smjerova
wind and tide together  (n) (boating/yachting) vjetar i struja zajedno, pristajanje s vjetrom i strujom u istom smjeru
wind astern  (n) (boating/yachting) vjetar straga
windbound  (adj) (navig, boating/yachting) nošen vjetrom ~ ship brod koji je zadržan vjetrom

wind chill factor  (n) hladnoća pojačana vjetrom
wind current (=WC)  (n) (meteorol, oceanogr) The water current generated by wind acting upon the surface of water over a period of time. struja izazvana vjetrom

wind deviation  (n) (meteorol) otklon vjetra
wind direction  (n) (meteorol) smjer vjetra
wind drift  (n) (ship handling, navig, seamanship) zanošenje broda vjetrom

windfall  (n) (meteorol) obrušavanje vjetra (s planina uz more)
wind force  (n) (meteorol) jačina vjetra: At the time of the initial incident winds force 10 were experienced along with large sea / swells.
wind generator  (n) (boating/yachting) vjetrogenerator

https://safety4sea.com

wind indicator  (n) (boating/yachting) vjetrokaž

https://windexdevelopment.com/
winding /ˈwainding/ (n) 1 (electr) zavojnica, navojnica motor ~s 1 zavojnice motora; 2: Bow thruster motor windings and wiring were damaged by sea water, secondary ~ sekundarna zavojnica, primary ~ primarna zavojnica

windlass /ˈwindsl/ (n) 1 (nav arch, ship_equipment) a special type of winch used to raise and lower the anchors and to handle the forward mooring lines. sidreno vitlo, vitlo sidra, mulinel, Italian: salpancora; argano put the ~ in gear uključiti spojku sidrenog vitla, ingranat, put the ~ out of gear isključiti spojku sidrenog vitla,

dežgranat ; 2 vitlo (za brodice, barke, jahte)

winding channel (n) (geogr) zavojiti kanal: As we maneuvered up a winding channel the channel curved to port, yet the pilot ordered starboard rudder as we approached the next turn.

windjammer /ˈwɪndʒəmər/ (n) (nav arch) a large iron- or steel-hulled square-rigged sailing ship of the late 19th and early 20th centuries with three, four, or five masts, built mainly between the 1870s and 1900 to carry cargo on long voyages (Wikip.) jedrenjak

www.gCaptain.com
windlass barrel (n) (nav arch) bubanj sidrenog vitla, Italian: *tamburo del mulinello*

windline (n) (oceanogr) tragovi vala nošeni vjetrom, obrisi valova (uslijed vjetra)

wind on the beam (n) (navig, boating/yachting) bočni vjetar, vjetar u bok

wind on the quarter (n) (navig, boating/yachting) vjetar u kvartri

window /ˈwindrəʊd/ (n) (nav arch) brodski prozor

window wiper (n) (navig) brisač stakla

wind right aft (n) (navig, boating/yachting) vjetar ravno u krmu

windrode /ˈwɪndrəd/ (adj) (boating/yachting, navy) caused to ride or drive by the wind in opposition to the course of the tide; -- said of a vessel lying at anchor, with wind and tide opposed to each other okrenut u vjetar, a protiv smjera struje (o brodu na sidru)

wind rose (n) (navig) ruža vjetrova, vjetrulja

wind rotation (n) (meteorol) skretanje vjetra

wind run (n) (meteorol) put vjetra

wind scoop (n) (boating/yachting) hvatalo vjetra (radi ventilacije)

windscreen (n) (nav arch) vjetrobran, Italian: *parabrezza* ~ wiper brisač vjetrobrana, brisač vjetrobranskog stakla
wind's eye (n) (meteorol) pravi smjer vjetra
wind shear (n) (meteorol) variation in wind speed and/or direction over a short distance
smicanje vjetra low-level ~ prizemno smicanje vjetra
windshield (n) (nav arch) vjetrobran bridge wing ~ vjetrobran na krilu mosta, paravenat
wind shift (n) (boating/yachting) promjena vjetra, promjena smjera vjetra
wind speed and direction indicator pokazivač smjera i brzine vjetra
windsurfing /ˈwindsərɪŋ/ (n) (boating/yachting) jedrenje na dasci, surfanje
wind the ship /waɪnd/ (v) (seamanship) okrenuti brod (na vezu, u doku, lučkom bazenu)
wind vane (n) (boating/yachting) an instrument that determines the direction from which a wind is blowing senzor smjera vjetra, Italian: banderuola
windward /wɪnˈdɔːd/ (adv, adj) (navig) = weather side = upwind. ANTONYM leeward. a direction upwind from a point of reference
windward berth /wɪnˈdɔːrd/ (n) (boating/yachting) privjetreni vez
windward helm (n) (boating/yachting) = weather helm privjetreno kormilo
windward side /wɪnˈdɔːrd/ privjetrina
wing (n) (nav arch) an open-air extension of the bridge to port or starboard, intended for issuing orders and communication while docking, mooring etc. krilo navigacijskog mosta take someone) under one's ~ uzeti nekoga pod svoje okrilje / pasku
wing and wing (n) (boating/yachting) sailing downwind with jib on one side and mainsail on opposite side jedrenje u leptiru, leptir
wing control upravljački uređaj na krilu mosta, daljinska kontrola na krilima mosta
wing double bottoms (n) (nav arch) bočna dvodna
wing nut (n) (marine eng) krilasta matica, matica s krilcima
wing tank the tank adjacent to the double bottom tanks. These tanks are located at the side on both port and stbd side. They are used for ballasting purposes. bočni tank overhead ~ gornji bočni tank, viseći bočni tank, upper ~ gornji bočni tank, lower ~ donji
bočni tank
wing transom (n) (sailing vessels) završna prečanica krme
winterize the engine /ˈwintəˌraɪz/ (n) (marine eng, boating/yachting) pripremiti motor za zimu
winter load line (n) (nav arch) zimska teretna crta, zimska teretna linija
winter navigation (n) (navig, oceanogr) zimska plovidba, plovidba u zimskim uvjetima: Finland releases instructions for winter navigation.
winter north Atlantic load line (n) (nav arch) zimska teretna crta za sjeverni Atlantski ocean
wiper (n) = cleaner a rating responsible for general duties within the engine department such as cleaning of engine room and various tools and equipment. čistač (u službi stroja)
wire1 /waɪr/ čelično uže, čelik-čelo worn and damaged ~s istrošena i oštećena čelična užad, ~ rope čelik-čelo, čelično uže
wire2 (n) (navy) antena podmornice poke the ~ izroniti na antensku dubinu:
Let's poke the wire. - Poke the wire, aye, Sir.
wireless /ˈwaiərəsl/ (n) (comm) radio
wireless (v) (comm) obavijestiti putem radija
wireless operator /ˈwaiərəsl/ (n) (comm) radiotelegrafist, radio operator
wireless telegraphy; W/T /ˈwaiərəsl/ radiotelegrafija
wire line (n) (seamanship) čelik čelo, čelično uže
wire rod (cargo) željezna šipka
wire rope (n) (seamanship) čelično uže, čelik-čelo, sajla, kavodifero
semi-solid ~ polukruto čelično uže
wire-running rigging (n) (boating/yachting) oprema za rukovanje čeličnom užadi
wire sling (n) (cargo handling) čelični pasac, čelična braga
wiring /ˈwaiərɪŋ/ (n) (elect) električni vodovi, električne instalacije, kablovi
wiring diagram (n) (elect) električna shema, shema spajanja

withdraw /ˈwɪdrəʊ/ (v) 1 a izvući, izvlačiti; 2 izvaditi; 3 naplatiti (ček), podići (novac) ~ a cheque naplatiti ček; 4 podići (novac) ~ €100 podići 100 eura
withdrawal /ˈwɪdrəʊəl/ (n) 1 a izvlačenje; 2 vađenje; 3 povlačenje; 4 vučenje (novca, mjenica)

within (prep) unutar (nekog vremena), za (neko vrijeme), u okviru: Within 1 minute of being called by the 3/O, the master and chief engineer arrived on the bridge.

withhold; withhold /ˈwɪθhəʊld/ (v) zadržati, čekati (s isplatom): ICC regulations prohibit withholding payment of freight bills because of a pending claim.

withstand /ˈwɪθstænd/ (v) 1 a oduprijeti se, odoljeti; 2 izdržati (nevrijeme, štetu), podnijeti

witness /ˈwɪtnɪs/ (n) (mar law) svjedok

wobbler; wabbler /ˈwɔblər/ (n) (fishing) a type of fishing lure varalica tipa wobbler,

vobler ~ fishing ribolov voblerima, spoon ~ žličasta varalica

wooden plank (n) (marine eng) drveni podmetač, drveni blok, cok

wooden ship (n) (nav arch) COMPARE composite ship COMPARE iron ship drveni brod, drveni jedrenjak
woodwork /ˈwʊdˌwɜːrk/ (=woodworking) (n) (boating/yachting) radovi u drvu, održavanje drvenine (na brodici)

wording /ˈwɜːdɪŋ/ (n) (mar law) tekst, riječi the original ~ (mar law) izvorni tekst: the original wording of Article 4 reads ... izvorni tekst članka 4 glasi ...

work (v) 1 raditi ~ on a six hour on / six hours off watchkeeping regime (navig) raditi po sistemu 6 sati straže 6 sati odmora; 2 jako opteretiti, turirati ~ the machinery (marine eng) preopteretiti strojeve

work (n) rad hard ~ 1 naporan rad; 2 težak rad, mechanical ~ mehanički rad, useful ~ koristan rad

work agreement (n) (hum_resources) ugovor o zaposlenju: His contracted work agreement was for 3 months’ service on board followed by 3 months’ leave.

workboat (n) (nav arch) radna brodica, brodica za izvođenje radova i popravaka: The Sea Machines V2 is a heavy-duty autonomous workboat built for offshore and nearshore operations. unmanned autonomous ~ samostalna radna brodica bez pomorske posade

work contract (n) (mar law) SEE articles of agreement = contracted work agreement COMPARE contract of employment radni ugovor: His work contract was for a period of 4 months on and 2 months off.

worker (n) radnik day ~ dnevničar

working /ˈwɜːkɪŋ/ (n) 1 rad; 2 djelovanje; 3 funkcioniranje; 4 pogon (stroja), hod (stroja)

working channel (n) (comm) radni kanal: The port's working channel, VHF channel 69, was very busy and the ship’s master did not hear the full exchange between port control and the tug.
Working cycle = operating cycle (marine eng) radni ciklus
Working days (mar law) days when normal working is carried out in a port. radni dani
Working end (seamanship) radni dio užeta / konopa, slobodni dio konopa
Working end of rope (seamanship) = live end of rope živi kraj konopa
Working frequency (comm, navig) radna frekvencija: The station maintains a listening watch on VHF channels 12, 14 and 16. VHF CH12 is the principal working frequency for communication with VTS, as well as inter-ship communications throughout the area.
Working knowledge (n) praktično znanje, radno znanje, stvarno znanje, praktično poznavanje
Working lights (navig) radna svjetla (na palubi)
Working load (marine eng, cargo handling) radno opterećenje
Working/operation procedures (safety) planovi i kontrolne liste za brodske operacije
Working part (marine eng) radni dio, radni element
Working permit (safety) radna dozvola
Working pressure (marine eng) radni tlak, radni pritisak
Working Procedure Agreement (shipping econ) Sporazum o radnim procedurama
Working sails (boating/yachting) radna jedra, uobičajeni komplet jedara
Working stress (marine eng) radno naprezanje
Working stroke (marine eng) = power stroke radni takt, radni stapaj
Working temperature (marine eng) radna temperatura optimum ~ optimalna radna temperatura, reach ~ postići radnu temperaturu
Workmanship (nav arch, marine eng) kvalitet izrade, vještina izrade: Since surveying and approval is an important part of the ship construction process, all workmanship should be of commercial marine quality.
https://www.marineinsight.com/naval-architecture/10-important-ship-construction-regulations/
Works (ports) radovi, građevinski radovi general ~ javni radovi, javni građevinski radovi
Workshop /ˈwɜːkʃɪp/ (n) nav arch = repair ship brod radionica
Workshop /ˈwɜːkʃɪp/ (marine eng, seamanship) radionica engine room ~
Strojarska radionica: All personnel are told to conduct a proper risk assessment each time before a gas torch is lit, even in a designated hot-work place like the engine room workshop. On one of our vessels the fitter was involved in making a spoon blank for a pipeline by cutting out an empty thinner drum in the engine room workshop.
Workshop training (marine eng) radionička praksa
Worktable /ˈwɜːkteɪbl/ (n) radni stol
World Geodetic System (=WGS) (navig) Svjetski geodetski sustav
Worldscale (=WS) (shipping econ, mar law) An international index of freight for tankers. Worldscale is a schedule of freight rates for a standard ship in US dollars per tonne of oil for an array of oil routes. The rates listed in the table are designated as Worldscale Flat or WS100 and are revised annually. (http://www.clarksons.com/glossary/); Worldscale is a nominal worldwide tanker scale used to establish
payment of freight services; Nominal freight scale applying to the carriage of oil and oil products in bulk by sea. An international freight index for tankers that provides a method of calculating the freight applicable to transporting oil by reference to a Standard Vessel on a round trip voyage from one or several load ports to one or several discharge ports. (www.worldscale.co.uk)  

Worldscale: The flat rate point 100 is effectively the breakeven point in accordance with the basis of calculation for the Worldscale Standard vessel but not for any other size. Worldscale includes expenses associated with ports, transit fees, port and voyage time and vessel bunker costs assessed in relation to the Worldscale Standard Vessel basis of calculation in order to produce a comparative nominal freight scale reported in dollars per tonne. Worldscale is used to calculate freight rates for oil tankers and product carriers. It is a tanker chartering tool, its principle is to provide the ship-owner with the same net return per day irrespective of voyage performed for the Worldscale Standard Vessel at WS100. 

Worldscale Rates are based upon a 75,000 tonne total capacity vessel performing a round voyage and expressed in dollars per tonne of cargo. Any new Worldscale rate request will require mileage calculations, any voyage costs and port cost information. Rate calculations may involve several different route options to determine the cheapest. The final rate agreed will be determined as a percentage of the 'Worldscale' rate, based upon a guaranteed minimum quantity of cargo. This allows for charter parties to cover a wide range of possible voyage options without the need to calculate and negotiate each one separately. www.euronav.com

World Shipping Council (WSC) (n) (shipping econ, mar law) The goal of the World Shipping Council (WSC) is to provide a coordinated voice for the liner shipping industry. The WSC and its member companies partner with governments and other stakeholders to collaborate on actionable solutions for some of the world's most challenging transportation problems.  

Svjetsko vijeće linijskih brodara: According to a recent report by the World Shipping Council, on average a total of 1.382 containers lost at sea every year.  

World-wide Navigational Warning Sevice (WNWS) (n) (navig) Globalna služba upozorenja za plovidbu
world-wide navigational warning system (=WWNWS) (n) (navig, comm) svjetski sustav izvještavanja brodova, sustav koordiniranoga izvješćivanja i upozoravanja brodova u plovidbi, sustav WWNWS Worldwide Radio Navigation System (=WWRNS) (n) (navig) Globalni radio-navigacijski sustav

worm /wɜːm/ (n) 1 (marine eng) puž ~ gear pužni prijenos, pužni pogon; 2 pužni vijak, vijak s beskonačnim navojem

worm: (n) (fishing) crv

worm, serve, and parcel (v) (seamanship) zaštititi užad od oštećenja (omatanjem nitima konopa, krpom)

wormwheel /wɜːmwɪl/ (n) (marine eng) The toothed wheel of a worm gear nazubljeno kolo (pužnog zupčanika)

worn /wɔrn/ (adj) (marine eng) istrošen

WP (=weather permitting) (shipping econ) pod uvjetom da to dopuštaju vremenske prilike

WPT (=waypoint) (n) (navig) = waypoint međutočka

wrap /raep/ (n) (seamanship) namotaj, volta

wrap (v) (seamanship, boating/yachting) omotati (uže oko vitla), namotati (uže na vitlo)

wrapstop (n) (boating/yachting) plastični obruč ili kapa na završetku najviše cijevi za namatanje genove kojim se sprječava vrtinja i pucanje leta protuvrutjak

wreck /rek/ (=shipwreck) (n) 1 a (navig, safety) podrtina, Italian: relitto: Over the weekend approximately 150 cubic meters of oil was pumped from the wreck of the stranded bulkcarrier to
a tank barge brought in from Panama. wreck swept to showing hull odvučena na prikazanu dubinu, wreck showing hull podrtina koja strši iz vode, wreck considered dangerous podrtina, vjerojatno opasna, wreck not considered dabgerous podrtina koja nije opasna, dangerous ~ opasna podrtina: Dangerous wreck in position 15 degrees 34 minutes North 061 degrees 29 minutes West.

https://en.wikipedia.org/wiki/MS_World_Discoverer; 2 brodolom;

wreckage /ˈrɛkɪdʒ/ (n) 1 a (safety, mar ins) brodolom: The National Transportation Safety Board has released the first photos and video of the wreckage of the sunken El Faro.; 2 uništenje broda;

3 vađenje potonulih stvari stvari potonule u more

wreckage /ˈrɛkɪdʒ/ (n) 1 a (safety, mar ins) brodolom: The National Transportation Safety Board has released the first photos and video of the wreckage of the sunken El Faro.; 2 uništenje broda;

3 vađenje potonulih stvari stvari potonule u more; 4 potonuli brod, podrtina: Wreckage of the ship has been found in the Philippines.

wreck buoy /ˈrɛk/ (n) (safety, navig) oznaka podrtine, plutača koja označava podrtinu

wreckage /ˈrɛkɪdʒ/ (n) 1 a (safety, mar ins) brodolom: The National Transportation Safety Board has released the first photos and video of the wreckage of the sunken El Faro.; 2 uništenje broda;

3 vađenje potonulih stvari stvari potonule u more; 4 potonuli brod, podrtina: Wreckage of the ship has been found in the Philippines.

perek /ˈrɛk/ (n) (mar law) The operation of clearing navigable waters of sunken vessels or other submerged objects which threaten the safety of navigation. Wreck removal claims are frequently secured by special legislative rights of detention, sale and/or forfeiture, under national law.

uklanjanje potonulih brodova i drugih stvari (u plovidbenom kanalu itd.): IMO focuses of wreck removal Except the dangers behind wreck removal, there is also the issue of costs and risks involved in marking and removing hazardous wrecks.

Wreck Removal Convention /ˈrɛk/ (n) (mar law) Međunarodna konvencija o ukljanju podrtina

wrench /rɛntʃ/ (n) (US) 1 (marine eng) COMPARE spanner ključ za pritezanje i otpuštanje vijaka, vrst alata za stezanje i otpuštanje matice vijaka; a hand tool used to exert a twisting strain, such as setting up bolts, nuts, etc ključ za vijke torque ~ moment ključ, dinamometar, impact wrench udarni ključ pneumatic ~ pneumatski udarni ključ, hexagonal
wrist pin

key ~ šesterokutni ključ, socket ~ usadni ključ, nasadni ključ, pipe ~ = pipe wrench rolcange (njem. Rohrzange), ključ za cijevi, combination ~

kombinirani ključ

wrist pin (n) (marine eng) osovinica klipa, svornjak klipa, svornjak stapa
writ /rit/ (n) (mar law) pravna isprava, službena isprava, sudski nalog za izvršenje

writing (n) pisanje in ~ (mar law) 1 pismeno, napisano, pisanim putem; 2: Put your observations or remarks in writing.

writ in personam (n) (mar law) In common law jurisdictions, the writ whereby an action was traditionally instituted against a person, including a corporation, rather than against a thing

pravni postupak protiv osobe (brodara itd.)

writ in rem (n) (mar law) In common law jurisdictions, the writ whereby an action was traditionally instituted against a thing.

postupak protiv stvari (npr. broda itd.), sudski postupak protiv stvari (npr. broda itd.)

wrongdoing 1 a prijestup; 2 zlodjelo

wrought iron /rɔːt/ (n) (marine eng) kovano željezo

W/T (=wireless telegraphy) (n) (comm) radiotelegrafija

WWNWS (=World Wide Navigational Warning System) (n) (safety) The World Wide Navigational Warning System (WWNWS) is for long-range NAVAREA warnings and coastal NAVTEX warnings. (IAMSAR Manual) Sijetski sustav za navigacijska upozorenja: It provides for globally coordinated ordained transmissions by giving NAVAREA Coordinator duties to a State for each of 21 NAVAREAs.
xB (centre of buoyancy from aft perpendicular) (stabil) COMPARE yB (centre of buoyancy from aft perpendicular)

X-band radar (=3 cm radar) (navig) radar X-pojasnog područja, radar frekvencijskog područja X, X radar, trocentimetarski radar: the commonest commercial marine radar is 3 cm (actually 3.1 to 3.2 cm). This corresponds to a frequency of 9300 to 9500 megahertz (millions of cycles per second) and is known as X-band radar. The x-band radar is used for a sharper image and better resolution. https://www.marineinsight.com/

xF (centre of flotation from aft perpendicular) (stabil) udaljenost centra plovnosti od krmene okomice

xF (longitudinal centre of flotation) uzdužni centar plovnosti

XG (longitudinal centre of gravity) (stabil) udaljenost sistemnog težišta od sredine broda

Xg (centre of gravity from aft perpendicular) (stabil) udaljenost sistemnog težišta od krmene okomice

X2 Zoom (navig) kontrola na radaru za bolju informaciju o željenom objektu / cilju

yacht /jɔ:t/ (n) 1 A recreational vessel, usually of intermediate to large size.

http://www.apsltd.com/aps-advisor/sailing-terms-glossary/; Private or charter vessel designed for
pleasure cruising, racing, etc. propelled by wind or power.

jedrilica single-handed yacht
jednosjed, sailing ~ a recreational sailing boat jahta-jedrilica, power yacht

motorna jahta, sail ~ jedrilica-jahta

http://www.superyachtworld.com/news/pirates-storm-sail-yacht-tiara-91; 2 plovni objekt duljine veće od dvanaest metara namijenjen za dulji boravak na moru i koji je pored posade ovlašćen prevoziti ne više od
dvanaest putnika (Pom. zakonik RH) jahta

https://www.yachtsinternational.com/yachts/yachts-top-100; 3 A yacht is any moderately large vessel or conveyance that floats on the water which is used for pleasure, not for commercial purposes (http://www.westlawn.edu/student_center/definitions.asp); a medium-sized sailing boat equipped for leisure, cruising or racing jahta

yacht club /ˈjɑːtʃ/ (n) (boating/yachting) jedriličarski klub
yachting /ˈjɑːtɪŋ/ (n) (boating/yachting) nautika, jahting, Italian: navigazione da diporto

yacht ladder (n) (boating/yachting) a removable boarding stair provided with a fix higher platform siz jahte, mostić jahte, pasarela jahte

yacht racing /ˈjɑːtʃ/ (n) (boating/yachting) sportsko jedrenje

yachtsman /ˈjɑːtsmən/ (n) (boating/yachting) jedriličar
yachtswoman /ˈjɑːtʃswəmən/ (n) (boating/yachting) jedriličarka

yard /jɑːrd/ (n) 1 shipyard brodogradilište: During the night shift, shipyard workers brought on 450V electrical supplies and distribution boxes from the yard to provide power to the ship Za vrijeme noćne
smjene brodogradilišni radnici donijeli su priključne kablove za 450 volta i priključne ormariće za opskrbu broda električnom energijom; 2 (nav arch) remontno brodogradilište, remontni vez

yard /jaːd/ (n) the horizontal spar from which a square sail is suspended; A term applied to a spar attached at its middle portion to a mast and running athwartship across a vessel as a support for a square sail, signal halyards, lights, etc. (https://www.history.navy.mil/) križ (nosač križnog jedra) signal ~ zastavni križ, križ za zastave, ~-pennant klobučnica zastave, lamp ~ križ za svjetlo, lower ~ donji križ, topsail ~ kosni križ, topgallant ~ gornji križ, sway the ~ podići križ sošnoga jedra, royal ~ vršni križ, ~ arm the end of a yard vanjski kraj križa

https://en.wikipedia.org/wiki/Yard_(sailing)

yard arm (n) (sailing vessels) The port or starboard half of a yard is the port or starboard yardarm (http://www.quarterdeck.org/index.html) krilo križa (jedrenjaka)

yard-arm irons /jaːd,ərn/ (n) vanjski prsten krilnog deblenjaka (na križu jarbola)

yard delivery (n) (nav arch) primopredaja broda u brodogradilištu

yard number /jaːd/ (n) (nav arch) each shipyard typically numbers the ships that it has built in consecutive order novogradnja broj …

yard-pennant /jaːd/ (n) klobučnica križa

yarn /jaːn/ (n) (seamanship) COMPARE strand; nit konopa, nit struka konopa, Italian: filo synthetic monofilament ~ povratak od jedne sintetičke niti,
**yaw** /jɔː/ (v) (navig, boating/yachting) COMPARE ship’s motions a vessel’s motion rotating about the vertical axis, so the bow rotates from side to side; to veer suddenly and unintentionally off the course (Seasources.net); to turn from side to side in an uneven course [https://www.ypiyachts.com/](https://www.ypiyachts.com/)

**yaw error** (n) (navig) grješka određivanja radarskog azimuta zbog zaošijavanja broda: A 3° yaw at the wrong moment will produce a 3° error in the radar bearing.

**yawing** /ˈjɔːɪŋ/ (n) (navig) 1 COMPARE ship’s motions a vessel’s motion rotating about the vertical axis, so the bow ‘yaws’ from side to side zaošijavanje

[https://www.containerhandbuch.de/chb_e/stra/index.html?/chb_e/stra_02_03_03.html](https://www.containerhandbuch.de/chb_e/stra/index.html?/chb_e/stra_02_03_03.html); 2 (boating/yachting) to swerve off course momentarily or temporarily; to deviate temporarily from a straight course (https://www.thefreedictionary.com/yawing); To swing off course because of the force of following seas (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary/); The turning of a boat off course
caused by seas arriving at an angle.
(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary/) bježanje u vjetar, bježanje u orcu, štraorcivanje

**yaw** /ˈjɔːl/ *(nav arch)* a two-masted boat, with the smaller, after mast stepped behind the stern post.

---

https://www.ypiyachts.com/  jol, jola
http://www.greatwoodboats.com/customboats/sailboats/21%27%20Caledonia%20yawl.html

**yB** *(stabil)* udaljenost točke B od krmene kobalice

**year built** *(nav arch)* godina izgradnje broda

**year of build** *(nav arch)* godina gradnje (broda): Year of build: 1984

**year-round navigation** *(navig)* plovitba tijekom cijele godine: Year-round

**Northern Sea Route navigation** may be possible by 2030.

**Yellow Book** *(med)* žuta knjižica (svjedodžba o cijepljenju)

**yellow fever** *(med)* žuta groznica

**yellow tail** /ˈjɛləʊtɛl/ *(=yellowtail)* *(fishing)* gof, orhan

---

**yew** /ˈjuː/ *(cargo)* tisa, tisovina

**yG** *(stabil) = XG* udaljenost sistemnog težišta (G) od krmene kobalice

**yield point** *(marine eng)* The stress at which a piece of material under strain yields markedly, becoming permanently distorted without increase of load. (https://www.history.navy.mil/) **granica popuštanja, granica razvlačenja**

**yoke** /ˈjʊk/ *(nav arch)* a frame or bar having its center portion bored and keyed or otherwise constructed for attachment to the rudder stock **jaram (kormila)**

York-Antwerp Rules /ˈjoʊk,əntwɔrp/ (mar law) The rules under which a general average sacrifice is determined and by which the payments to the party who sacrificed are calculated. The most recent Rules are the York/Antwerp Rules 1994, amended in Sydney, Australia in 1994 at a meeting of the CMI. The Rules are not imposed by a national or international statute, but by agreement of the parties, in the charterparty or the bill of lading 

ugovorne odredbe u predmetu zajedničkih havarija York-Antwerpenska pravila

zare (n) (fishing) zara, varalica tipa zare silent ~ tiha zara

Z-bar (n) (fishing) A structural shape with a cross section resembling the letter Z. Z-profil

Z-drive /ˈzɛd,draɪv; (US) ˈziː,dræɪv/ (nav arch, marine eng) a type of marine propulsion unit, i.e. an azimuth thruster in which the pod can rotate 360 degrees allowing for rapid changes in thrust direction and thus vessel direction. This eliminates the need for a conventional rudder. (wikipedia) Z-pogon: .. propulsion for each tug comprises a pair of CAT 3516C diesel engines, each rated 2,000 kW at 1,600 rpm, and each driving a Rolls-Royce, US255 fixed pitch Z-drive unit in ASD configuration. <source>MaritimeReporter-2015-02</source> <source>MaritimeReporter-2015-03</source> <source>MaritimeReporter-2015-11</source> “The most important factor for our Inland Waterway customers to install a Z-drive is certainly the high maneuverability and therefore increased efficiency and safety. <source>MaritimeReporter-2015-11</source></sentence></tlCorpus>

Zener diode (n) (marine eng) A diode which conducts at a specified voltage in the reverse direction, without burning out, over a wide current range. (http://www.marinedieseleurope.com/) Zenerova dioda

zenith /UK ˈzɛnɪθ ; US ˈziːnθ/ (navig) zenit

zenith distance /UK ˈzɛnɪθ ; US ˈziːnθ/ (navig) zenitna udaljenost

zephyr winds /ˈzɛfu/ (meteorol) a gentle breeze lahor

zigzagging Alternating tacks on approximately equal distances. https://www.ypiyachts.com/

ponavljano letanje, jedrenje u cik-cak

zinc /ˈziŋk/ (chem) cink

zinc anode /ˈziŋk,ænəʊd/ (=sacrificial anode) (boating/yachting, nav arch)
zinc plate /zɪŋk/ (nav arch) anodna ploča od cinka, cink-ploča, protugalvanska ploča

**zodiac** /ˈzaʊdi ək/ (navig) an area of the sky that extends approximately 8° north or south (as measured in celestial latitude) of the ecliptic, the apparent path of the Sun across the celestial sphere over the course of the year (https://en.wikipedia.org/wiki/Zodiac); the position of the sun throughout a year as it appears to move through successive star groups or constellations **zodijak**

zodiac /ˈzaʊdi ək/ (nav arch) a brand of very popular inflatable and rigid inflatable boats (RIBs) used by SCUBA divers because of their stability and ease of boarding from the water and as tenders by much of the boating community pneumatski gumenjak, gumenjak tipa **zodiak**

zone /zəʊn/ (ports) geografski pojas port industrial ~ lučka industrijska zona, free ~ slobodna (carinska) zona

**Z-twist** (n) (seamanship) twisted rope with a right-hand lay, the most common twist in rope; opposite of S-twist **sukanje konopa u desno**

**zulu time** (=universal time coordinated; UTC; coordinated universal time) (n) (navy, navig) = UTC Zulu ("Zulu time") is used in the military and in navigation generally as a term for Universal Time Coordinated (UTC); more commonly known as "GMT" (Greenwich Mean Time) is time at the Zero Meridian (https://greenwichmeantime.com/info/zulu/); the difference between local time and Greenwich Meridian Time or Greenwich Mean Time (GMT) **razlika između lokalnog i univerzalnog koordiniranog vremena, koordinirano univerzalno vrijeme (UTC)**

**zz Chem tanker** (n) (nav arch) tanker za prijevoz kemikalija
