cable (n) (ship_equipment) = chain cable A chain or line (rope) bent to the anchor.

sidreni lanac: Own vessel's Master ordered the anchor party forward and by slacking away the anchor cable a collision was avoided. The port anchor was then let go using a similar amount of cable as before, but when applying the brake, the windlass catastrophically failed.

cable (seamanship, ship_equipment) originally, a thick strong rope or wire uže (za...}

priyezivanje i tegljenje, obično deblje) cable (navig) a measure of length or distance - equivalent to (UK) 1/10 nautical mile, approx. 600 feet; (USA) 120 fathoms, 720 feet (219 m) (archaic use) kabel (1/10 nm = 185.2 m): The other ship was now at a distance of some 3 cables and approaching at speed on the port side. With the vessels now about seven cables apart, he contacted the ferry via VHF and proposed that they should pass starboard to starboard. The pilot left the vessel about six cables before the normal pilotage disembarkation point. The vessels were now about seven cables apart. VTS instructed the vessel to drop anchor N-5 anchorage with keeping 4 cables distance to other vessels. (https://safety4sea.com)

cable (electr) električni kabel: The power cable for the grinders was deployed across the deck, which was about two metres above sea level. Damage to cable insulation and fittings - speedy actions by the crew were commendable. Lessons Learned: * Steel braiding on electrical cable is required to be 'earthed' at both ends for safety reasons. ~ armour kabelska armatura, kabelska zaštitna, ~ gland kabelska uvodnica, ~ insulation izolacija električnog kabela: This caused an electrical short, resulting in sparking and leading to high temperatures which caused damage to the cable insulation and fittings. ~ supply ~ dovodni kabel, opskrbni kabel: Early in the morning, the crew noticed that one of the distribution boxes appeared to be live, and that the terminals on the shore supply cable were not insulated, were bundled together and were hanging close to a metal grating above the deck. ~ electrical ~ električni kabel: The heavy electrical cable

sub-entry
berthing /ˈbɜːθɪŋ/ (seamanship, ship & line handling) = docking ANTONYM
unberthing manoeuvring the ship to its berth in the port and mooring it to the quay, dock or pier
pristajanje, privezivanje, koštivanje, akoštavanje: A 100m long, liquid petroleum gas tanker was conducting a routine berthing at a “T” jetty, which was connected to dolphins by walkways. The master insisted on being on the bridge for the canal transit, and for berthing and un-berthing. ~ manœuvre manovra pristajanja: The two men did not discuss the ship’s manoeuvring characteristics, the status of the propulsion or how the berthing manoeuvre would be carried out. The vessel was equipped with a bow thrust unit, rated at 20t, to assist with berthing manoeuvres.
preparation for ~ priprema za privezivanje: On this occasion, when several items of heavy electrical load were started in quick succession in preparation for berthing, the generator frequency dropped below 58Hz.
berthing accommodation (n) (ports) smještaj na vezovima za brodove u luci, smještajni kapacitet za brodove (u luci), svi vezovi zajedno (u nekoj luci)
berthing alongside (n) (seamanship, sailing/boating/yachting, ship & line handling)

multi-word headword sub-entry
MARITIME ENGLISH CORPUS

Using **tlCorpus Software** developed by [David Joffe](https://tshwanedje.com/) and Malcolm MacLeod (advisor: [Gilles-Maurice de Schryver](https://tshwanedje.com/)), a comprehensive Maritime English Corpus has been compiled and designed by the compiler of the Dictionary. The Corpus encompasses the texts related to the wide definition of the concept of 'maritime English' and includes the subcorpora on the following:

- Ship design and construction; naval architecture; ship types
- Shipyards and shipbuilding
- Ship's hull, machinery and equipment
- Ship systems
- General seamanship
- Navigation and navigational equipment, navaids
- Maritime communications
- Marine Engineering, propulsion and auxiliary machinery
- Ship handling and manoeuvring
- Marine electrical engineering and electronics
- Ship automation
- Ocean science, marine geography, hydrography
- Marine meteorology
- Human resources on board ships and in maritime transport
- Health protection and wellbeing of seafarers
- Cargoes carried by sea, cargo handling and stowage; ship stability
- Ports and harbours
- Maritime transport and logistics
- Shipping industry and economics of shipping
- Maritime law and law of the sea; marine insurance
- Safety and protection at sea
- Protection of the marine environment
- Navy and naval ships
- Sailing vessels
- Fishing
- Boating and yachting
- Sailboat racing
- Maths and science
- Jargon, archaisms, figurative use
- Etc.

The 14 million word corpus (1240 texts) has been compiled from the web sources, maritime-related books, handbooks, manuals, journals, etc.
NOTES ON THE USE OF THE DICTIONARY:

**Headword** (main entry, Lemma) = English language entries on the left-hand side of the dictionary. Headwords can be:
(a) single words (cable, berthing) or
(b) multi-word units (berthing accommodation, berthing alongside)

**Homonym** = words of the same form but different, or partly different, meaning (cable1, cable2, cable3, cable4 etc.)

**Pronunciation** = IPA (International Phonetic Association) transcriptions are applied

= (other forms of the word) = derivatives, spelling variations, abbreviations, related words

**Part of speech** = n (noun), v (verb), adj (adjective), adv (adverb), prep (preposition), prep. phrase, etc.

**Sub-entries** = multi-word expressions (all red-coloured):
(a) a word or group of words (adjective or noun) + headword (marked by the sign ~), e.g. supply ~ = supply cable; electrical ~ = electrical cable; preparation for ~ = preparation for manoeuvre

(b) headword (marked by the sign ~) + a word or group of words, e.g. ~ armour; ~ gland; ~

**Usage labels**: Labels mark the register (i.e. maritime-related subject field) where the headwords (terms) or sub-entries are used; In this dictionary these include the following:

| arch(aic) sailing/boating/yachting cargo cargo handling chemical communications el(ectrical engineering engineering (marine) environ(ment) | figurative financ(ial) fishing geogr(aphical) human-resources, inland waterways, insur(ance jargon, logist(ics) | mar(itime) law math(ematical) med(ical) meteorology navig(ation) naval arch(itecture) oceanogr(aphy) phys(ics) ports | sailing vessels seam(anship) ship_equipment ship handling & line handling shipping economics stability, italianism, UK US |

**Definition + source of definition** Where available, definitions are given their source(s); other definitions are adapted or suggested by the author.

= References = references to semantically related word(s); lexical relations: equivalence, synonyms, antonyms; see, compare)
Sense 1, 2, 3 ... = different meanings of the same headword according to their use marked by usage labels (e.g. naval architecture, navig, marine engineering, seamanship, ship equipment, sailing/boating, safety, cargo handling, jargon, obsolete, chemical, medical, UK, US, etc.)

Translation equivalent (TE) = Croatian language equivalents or translations of headwords and sub-entries. Note that Croatian translation equivalents shown in italic, e.g. škeram, prova, štiva, blackout, lockdown podesiti, podešavanje etc. (mainly loan-words from Italian, English and other languages), are examples of sailor's jargon, local dialects or substandard forms in Croatian. They are frequently used on board ships or on the Croatian Adriatic Seaside.

Example + source of example = examples are mainly taken from web sources, either in the original form or slightly adapted

Picture + source of picture = web source is always given (where available)

Note = notes are entered occasionally to enter comments on the usage of an entry or concept
100 A1 character used in Lloyd’s Register denoting that a sea-going vessel is constructed of steel and is classed with Lloyd’s Register http://www4.hcmut.edu.vn/100A1BulkCarrier. Lloyd’s Register of Shipping, 100A1 Bulk Carrier, CSR, BC-A, https://www.atlanticship.dk/ship/dry-422/ A Lloyd’s classified yacht is said to be Maltese 100A1, which is usually written +100A1, while ABS offers two separate designations. An ABS-classified sailing yacht is ABS Maltese A1 (+A1) while a motor yacht is termed Maltese A1-AMS (+A1-AMS), the difference being the surveying of the main propulsion system on the motor yacht, or annual machinery survey (AMS). https://www.blue-growth.org/ 210,000 DWT Bulk Carrier Dual Fuel Use Notation 100 A1 oznaka klase 100A1 (“+” (properly called a Pattee cross but often called a Maltese cross) means the ship was constructed under survey by Lloyd’s Register surveyors; The “100” means that the vessel is considered suitable for sea-going service. The “A” indicates that the vessel is not only built or accepted into class according to LR Rules but is also maintained in good and efficient condition. 1 refers to the anchors and mooring equipment being in good and efficient condition in accordance with the Society’s Rules (www.shipinspection.eu/index.php/chartering-terms/65-c/4472-classification))

AA (=always afloat) (adj) (mar law) a term in Charter-Party which stipulates that the charterer must not order the ship to a port or berth where she would touch the bottom or perhaps be unavailable at any time due to tidal variations (http://www.tkmglobal.net/chartering_A.HTM) uvijek u plutajućem stanju: The charterparty contained the notation AAAA - always afloat, always accessible. Load/Discharge - all ports attended during the charter are to be good and safe, where the vessel can ’safely lie always afloat’; (unless otherwise provided in the charterparty), ...

AAAA (=Always Accessible Always Afloat) (n) (mar law, shipping econ) Term in Charter-Party which stipulates that the charterer must not order the ship to a port or berth where she would touch the bottom or perhaps be unavailable at any time due to tidal variations. (http://www.tkmglobal.net/index.html) stalno na raspolaganju, uvijek u plutajućem stanju

AAR (=against all risks) (prep phr) (mar ins) an insurance policy that provides coverage against all types of loss or damage other than specific ones https://www.investopedia.com/terms/a/against-all-risks.asp protiv svih rizika

A.B./ˈei ˈbiː/ (=Able-Bodied Seaman) (n) (hum_resources, seamanship) = able-bodied seaman stariji mornar, iskusni mornar: On the morning of February 22 the chief mate decided that he would inspect the automatic draft gauges which were located in each of the ballast tanks to attempt to get them to work again. He asked the 4-8 watch ABS to put water driven air blowers on 4P and 4S water ballast tanks at the end of their watch. He was assisted by the chief officer and by an AB; both had just taken over the watch. (The main jobs of the AB include: reporting to the Master, Chief Mate, or Deck Watch Officer, stands bridge watch as Quartermaster or lookout when underway.)

A.B. (=seamanship, mar law) kormilar: An AB helmsman, and the second officer, who was on the engine controls, accompanied the master on the bridge. The two ABSs were both keeping a lookout, but took the helm when required. The Second Officer was monitoring, and the AB was on the wheel. https://safety4sea.com/

aback1 (adv) (sailing/boating/yachting) behind; sail with the wind on the fore side, pressing the sail back, slowing the ship, giving it sternway, or driving it leeward (Mayne 2000 The Language of Sailing) jedro namjerno prebačeno na stranu vjetra (radi usporavanja ili zaustavljanja jedrilice): the ship came up into the wind with all yards aback During a tack, the jib was backed and remained aback as the dinghy came onto port tack. Za vrijeme letanja fok smo držali...
Deliberately sailing **aback** is useful in close quarters sailing, such as when leaving a jetty or mooring. The sail was **set aback** on purpose to slow down the ship. The sail was set **aback** to slow down the ship. Prebacili smo jedro protiv vjetra kako bi se brod zaustavio.

**aback** (prep) toward or nearer to the stern (relative to some other structure or object on board the ship); *a point beyond the midpoint of a ship’s length, towards the rear or stern.*

**abandon** (v) (safety) get away from the ship in an emergency: The master quickly assessed the seriousness of the situation and decided to abandon ship. Following the broadcast of a distress call at 1125, the 26 crew **abandoned** the vessel in an enclosed lifeboat. The master announced an abandon ship drill at 10551 of 06 January 2013.

**aboard** (adv, prep) on board (relative to some other structure or object on board the ship); *a point beyond the midpoint of a ship’s length, towards the rear or stern.*
The accident involved a brake failure on one of the lifeboat winches during a routine abandon ship drill. **Abandon ship!** Napustite brod!, **abandon ship to a liferaft:** The crew members on the vessel were unable to extinguish the fire, which spread rapidly throughout its GRP structure, forcing them to abandon to a liferaft. napustiti brod u splavi za spašavanje, **prepare to abandon ship** pripremiti se za napuštanje broda: The master ordered the crew to launch the liferaft and to prepare to abandon ship., **give order to abandon ship** narediti napuštanje broda: The Master gave the order to abandon ship at 2 a.m. **abandon** /əˈbændən/  (mar law, navig) decision by the shipping company to abandon the ship in an emergency because it cannot be saved **napust broda:** b) prepare lifeboat(s) for rapid boarding c) return inside accommodation; d) advise the Master ready for Abandon. <source>! SOPEP - Example Only - Non Controlled Document </source></sentence></tlCorpus>
abandonment of cargo (n) (mar law) napuštanje tereta: Precautions to detect and avoid cargo abandonment: Shipping lines must ask the customer at the time of booking whether the cargo is going to be shipped as Freight Prepaid or Freight Collect (at destination or elsewhere).

https://shippingandfreightresource.com/precautions-to-take-against-loss-due-to-abandoned-cargo/# There are many reasons for cargo abandonment ranging from perfectly legitimate causes such as consignees going bankrupt, cargo discrepancies in quality or quantity, or other commercial disagreements.

https://shippingandfreightresource.com/

abandonment of the crew (n) (mar law) zapuštanje odgovornosti za posadu: The abandonment resulted to seafarers’ suffering from fatigue and serious mental health problems. SAFETY4SEA <news@safety4sea.com> The Secretary-General is also concerned about abandonment of seafarers which unfortunately has become a more common occurrence.

<sorce>MaritimeReporter-2018-05</source></sentence></tlCorpus>

abandon ship (n) (safety) an order given by the senior officer to go to lifeboats and leave the vessel in the face of disaster that is beyond control napuštanje broda (u pogiblj): All the crew members abandoned ship and were picked up by a roll-on-roll of ship. An abandoned ship has been found drifting in the Atlantic. announce abandon ship objaviti napuštanje broda, prepare to abandon ship pripremiti se za napuštanje broda, instruction for abandon ship upute za napuštanje broda, abandon ship operation operacija napuštanja broda

abandon ship drill (n) (safety) vježba napuštanja broda: As far as practicable, each abandon-ship drill must be conducted as if there were an actual emergency. On one of our vessels, the lifeboat embarkation ladder rope parted during an abandon ship drill conducted in the presence of the US Coast Guard. We recently had one vessel lose control of a lifeboat as it was being lowered to the main deck as part of an abandon ship drill. MARS reports_1992-2016</source></sentence></tlCorpus> routine

abandon ship drill redovita vježba napuštanja broda

abandon ship preparation (n) (safety) pripreme za napuštanje broda

abandon the cargo (v) (cargo, mar law) A cargo maybe considered to be abandoned when the consignee of the bill of lading does not take delivery of the cargo even after repeated reminders and notifications and the cargo lies uncleared eventually forcing the shipping line to consider the cargo as abandoned...

(https://shippingandfreightresource.com/precautions-to-take-against-loss-due-to-abandoned-cargo/# ) napustiti teret: When a cargo is abandoned it causes severe financial losses to all parties concerned – seller, buyer, shipping line, freight forwarder, transporters, banks, Government etc etc..

https://shippingandfreightresource.com/precautions-to-take-against-loss-due-to-abandoned-cargo/

abandon the race (n) (sailing/boating/yachting) prekinuti natjecanje (regatu)

abate /əˈbeɪt/ (v) (meteorol) smiriti se (nevrijeme), oslabjeti (vjetar), stišati se, smanjiti se, ublažiti: The winds gradually abate as the concentrated storm disintegrates.

<source>Chapt-36</source></sentence></tlCorpus> <tlCorpus> <sentence>The master explained that he expected the weather to abate shortly and it was agreed that he would keep the DPA fully informed. <source>MAIBInvReport19_2017</source></sentence></tlCorpus>

abatement /əˈbeɪtmənt/ (n) 1 (safety, marine eng) smanjivanje, ublažavanje: The
current front running choices are distillates and distillate-based products, Liquefied Natural Gas (LNG), or installing an emissions abatement system, or scrubber, as they are more commonly known.

Unless operators opt to install abatement technology known as scrubbers, and continue to burn heavy fuel oil (HFO), it will be therefore essential for the marine industry to prepare for the

One carrier assumes the charges of another without any increase in charges to the shipper preuzimanje troškova (drugog prijevoznika); 2 popust, smanjenje (cijene)

It was likely that the diving gear impacted into the diver’s abdomen during the fall and caused significant internal injuries.

While doing so, the rope suddenly slipped through the stopper, thus tightening, striking the second seaman and causing him abdominal injuries.

The authorities are investigating the abduction of five crew members after their vessel was attacked by gunmen in the country’s territorial waters. There was no report of abduction of crew in the area of ....; and no hijacking of ships for theft of oil cargo

One boat is clear astern of another when her hull and equipment in normal position are behind a line abeam from the aftermost point of the other boat’s hull and equipment in normal position.

When the container ship was abeam the pilot observed that his ship was not answering correctly to the helm. The skipper of the fishing vessel next sighted the other vessel as it came abeam on the port side. The point of berthing is now generally abeam.

The heavey swell abeam made the ship roll very heavily all the way to the breakwater entrance, causing us much anxiety

The ship was about 40 meters off and abeam of the rock called Cheninic Mailllard when he began to turn to starboard. The boats were sailing abeam of each other about 150m apart on a parallel course. At 0023, the ship passed abeam of Cap Hatteras on a heading of 287° in a position 0.5nm to the east of the fairway buoy

With the buoy abeam to port, the Pilot altered course to 250 degrees.
**abeam to starboard (adv) (navig)** ANTONYM abeam to port

*desnoj strani, na desnom boku:* at 2018 the south eastern end of Island Breakwater was abeam to starboard. Once the ferry was abeam to starboard, the pilot put the helm hard to-starboard and asked for full ahead on the main engine.

https://www.pinterest.com/pin/552394710526779264/

**aberration /ˈæbərərəʃən/ (navig)** A deviation from the proper or expected course

*The effect of aberration can be noted by comparing the coordinates (declination and sidereal hour angle) of various stars throughout the year.*

Chapt-15</source></sentence></tlCorpus> The aberration due to the revolution of the earth about the sun is termed **annual aberration**.

*<source>american_practical_navigator</source></sentence></tlCorpus>*

**ablation /æbˈleɪʃən/ (navig)** combined processes (such as sublimation, fusion or melting, evaporation) which remove snow or ice from the surface of a glacier or from a snow-field;

(https://nsidc.org/cryosphere/glossary/term/ablation) **ablicija:** Short-term forecasts are generally paired with local-scale ice analyses and focus on changes in the ice cover based on ice drift, ice formation and ablation, and divergent/convergent processes. <source>Chapt-34</source></sentence></tlCorpus>*

**laser ablation (seamanship)** The U.S. Navy is testing out a new solution to the age-old problem of prepping for painting. Instead of chipping, sandblasting or hydroblasting, it is adopting technology from the aerospace sector: **laser ablation.** (https://maritime-executive.com/) skidanje / struganje boje trupa laserom, ablicija boje trupa laserom, **piketanje laserom ablaze /əˈbleɪz/ (adj) (safety) koji gori brzo i jako, u plamenu, zapaljen:** Just after midnight, a friend of the skipper was walking along a road high above the small harbour when he noticed that the boat was fiercely ablaze, but still at its mooring.

**able-bodied seaman /ˈeɪblbɒdɪd ˈsiːmen/ (navig)** an experienced deck-department seaman qualified to perform routine sea duties; a rating between ordinary seaman and leading seaman or boatswain **stariji mornar, iskusni mornar:** Able Seaman works as a watchstander or a day worker, depending on the requirement on the ship. When the ship is not moving, he
may be asked to perform security related watches. A Merchant Mariner's Document (MMD) is a must for this position. The able-bodied seaman will be responsible for handling mooring or anchoring duties, carrying out vessel and equipment cleaning, maintenance, and painting duties. Duties of AB include but not be limited to: Performs necessary routine maintenance, repairs, and handles tug's business under the direction of deck officer in charge. Captain <noreply-gCaptain@yourmembership.com> At 0345 on 4 August 2018, the ship's third officer took over as officer of the watch (OW); the deck cadet and an able-bodied seaman (AB) were also on the bridge. The duty able-bodied seaman (AB), who had come to the bridge at the start of the watch, was released by the 2/O to conduct routine fire and deck rounds.

Following the safety briefing, one of the able-bodied seamen (AB) used the vessel's forward crane to remove the cargo hold ventilation duct space hatch cover so that the cargo hold hatch cover lifting gear...

**able-bodied seaman**: (n) (mar law, seamanship) at sea an AB's duties include standing watch as helmsman and lookout. Kormirar

**able seafarer (=AB)** (n) (mar law) a rating qualified in accordance with the provisions of regulation II/5 of the IMO STCW convention (https://safety4sea.com/cm-stcw-convention-terms-and-definitions/) stariji mornar, kvalificirani mornar: For the purpose of this Guideline, the term: _Maritime Labour Convention, 2006_ (a) able seafarer means any seafarer who is deemed competent to perform any duty which may be required of a rating serving in the deck department, other than the duty...

The basic pay or wages for a calendar month of service for an able seafarer should be no less than the amount periodically set by the Joint Maritime Commission or another body authorized by the Governing Body of the Interna Maritime Labour Convention (source)</sentence></tlCorpus> able seafarer - deck stariji mornar palube, kvalificirani mornar palube, kormirar: Regulation II/5 Mandatory minimum requirements for certification of ratings as able seafarer deck. Every able seafarer deck serving on a seagoing ship of 500 gross tonnage or more shall be duly certified. STCW 2010 - Regulations, able seafarer - engine The AB seafarer engine is a new qualification and, under section A VII/2.3 and 4, (https://safety4sea.com/cm-stcw-convention-terms-and-definitions/) stariji mornar palube, kvalificirani mornar stroja, voda stroja: ... able seafarer engine shall be required, in addition to compliance with the standard of competence specified in table A-III/4, to complete relevant training and meeting. STCW 2010 - Part A/

**able seaman (=AB)** (n) = able-bodied seaman = A.B.: 1 stariji mornar, iskusni mornar: The able seaman assigned to the watch was absent from the bridge for at least an hour before the vessel grounded. An able seaman, the bosun and another able seaman stood in line between the Panama lead and the bollard and began to pull the slack of the tow line in by hand. At about 1620, he walked towards the Panama chock to check the spring line, while an able seaman close by was preparing a stern line for the mooring tender.

**able seaman**: (n) zvanje kormilara

**abnormality**: /æbəˈnɔːr maɪəlɪti/ (n) (marine eng, safety) neuobičajenost, abnormalnost, neispravnost: Any machinery or equipment showing signs of abnormality or strain must be stopped and taken off load; immediately. MARS reports 1992-2016

**aboard**: /ə bɔːd/ (adv) on or in a vessel, on or within the ship or boat. Fortunately, no one aboard the ship has been seriously injured. One of the biggest problems aboard our own boat during the height of the 1979 storm was the ability of objects to break loose. At the time of the grounding,
the bulk carrier had 22 crew aboard and was carrying a cargo of coal. https://gCaptain.com serve aboard a ship služiti / raditi na brodu (kao pomorac), to come aboard the ship doći na brod, ukrcati se na brod, popeti se na brod: A cargo surveyor came aboard and attached his cargo sampling equipment to the sampling point of tank No. ... fire aboard the vessel požar na brodu, safety aboard the ship sigurnost na brodu: Passage planning must be viewed as an essential and mandatory step that will help to improve the safety of all aboard and it must be completed before the first line even slips the dock. go aboard ići na brod: At low tide, the skipper rowed out in a dinghy and went aboard the boat with a salvage pump. stow aboard: All loaded containers have been weighed at the loading facility before being stowed aboard a vessel for export. ukrcati i složiti na brod abort (v) (marine eng, navig, safety) obustaviti, odustati od, poništiti, anulirati: A decision was made to abort the berthing and return to the anchorage after being told it could take up to 24 hours to clear the whole cooling system. The dangerous cargo shifted while the master was attempting to abort an approach to the Firth in heavy seas. abort a manoeuvre odustati od manovre: The state of the visibility is key in many operations and it is frequently better to abort a manoeuvre early rather than risk being caught out half way through. The training exercises simulated varying conditions and included emergency situations and abort manoeuvres. MAIBInvReport23_2017, abort an anchorage napustiti sidrište: When considering whether to abort an anchorage, the anchor windlass’s limitations should be taken into account as part of assessing the risk of remaining at anchor. abort the berthing: The berthing was aborted unnecessarily by the jetty manager; the problem with the cargo documentation could have been resolved once the vessel was alongside. obustaviti privezivanje, odustati od manovre privezivanja abort point (n) (navig) mjesto napuštanja (manovre), mjesto odustajanja (od manovre): Detailed the requirement for the abort points to be part of the passage plan are agreed between the master, pilot and VTS. Abort points were not discussed on board CMA CGM Vasco de Gama during the master/pilot information exchange (MPX) and were not documented in the passage planning ... MAIBInvReport23_201 Contingency plans should also be made which should be followed in the event of a malfunction or a shipboard emergency, identifying possible abort points and safe grounding areas.

abound /əˈbaʊnd/ (v) obilovati, imati u izobilju about (=ABT) (adv) (sailing/boating/yachting) on or to the opposite tack; across the wind; across the wind in relation to the bow na suprotnoj uzdi, na drugoj / suprotnoj strani (vjetar): Once the manoeuvre is completed, the boat is about. go about When a sailboat tacks into the wind to bring it from one side to the other, she is said to go about. (https://www.ypigroup.com/en/yacht-terms/yachting-glossary/) letati, okrenuti (brod) na suprotnu uzdu, prebaciti se na suprotnu uzdu About ship! (n) (sailing/boating/yachting) the command given to order the crew to tack a vessel http://www.photographers1.com/Sailing/NauticalTerms&Nomenclature.html Okret!, Letanje! above deck (prep phr) (seamanship) on the deck of the boat, not aloft iznad palube, na palubi: The boat was displaying an anchor ball 3m above deck level, and also had a bright orange mizzen sail hoisted to keep her lying into the wind. ... the ship’s stern began to rise and we were overtaken by a single, huge swell that rolled past the ship just above deck level, the crest breaking on to the main deck on both sides. MARS reports_1992-2016
abrasion /ˈbreɪʒən/ (n) (phys) abrazija, grebanje, habanje: It also provides guidance on damage to ropes due to abrasion and exposure to ultraviolet rays from the sun. MAIBInvReport2_2019
abrasion damage (n) (seamanship) šteta zbog abrazije (konopa, bubnja vitla itd): It was concluded that the sample had suffered abrasion damage and had lost 34% of its original strength. The mooring ropes were routinely subjected to abrasion damage thus lowering their designed breaking strength. MAIBInvReport13_2017
internal abrasion damage nutarnja oštećenost zbog abrazije, external abrasion damage vanjska oštećenost zbog abrazije
abrasive /ˈbreɪsiv/ (adj) abrazivan: The abrasive nature of the cargo meant that hotwork repairs were regularly required to the hopper and to the hull, which was prone to cracking.
abreast /ˈbreɪst/ (adv) abreast of; alongside of; situated nearby and to the side of the ship
subočice, po boku, bočno: He stopped the ship's headway abreast of Le Pot, a shallow in the south of Le Cochon buoy. As the vessel was approaching the main berth, abreast of the other ship, the tanker stopped in the water although the main engine was still going ahead. MARS reports_1992-2016
abreast (adv) alongside of usporedno, uz, pokraj: He was guided by a signalman on deck, positioned abreast of cargo hold no. 4.
A.B. seaman /ˈeɪ biːˈsiːmən/ (n) (hum_resources) = A.B. = able-bodied seaman
kormilar
absorb /əbˈsɔːb; əb ˈzoːb/ (v) (phys) upijati, apsorbirati: Pumping was immediately stopped, and the ship's crew attempted to absorb the fuel with the oil spill equipment.

academic awards in ship officer programmes (UK) - Marine Engineering
Engineering (hum_resources) diplome i svjedodžbe za pomorska časnička zvanja u sustavu visokoškolskog obrazovanja i izobrazbe pomoraca (UK) - brodsko strojarstvo: The Academy offers a full engineer officer cadet programme by a Higher National Diploma (HND) route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Engineer Officer’s Certificate of Competency (STCW’95 III/I OOW), and the Higher National Diploma (HND) in Marine Engineering. 
1. Engineer Officer’s Certificate of Competency (STCW III/I OOW), and the award of the Higher National Certificate (HNC) in Marine Engineering. 

DECK OFFICERS časnici palube 1. Deck Officer - Higher National Certificate (HNC) Higher National Certificate (HNC) route leads ultimately to the award of an MCA Deck Officer’s Certificate of Competency (STCW’95 II/I OOW), and the Higher National Certificate (HNC) in Nautical Science. A full deck officer cadet programme by a Higher National Certificate (HNC) route, leading ultimately to the award of an MCA Deck Officer’s Certificate of Competency (STCW’95 II/I OOW), and the Higher National Certificate (HNC) in Nautical Science. The scheme consists of five phases (usually over three years), three spent at the Academy and two at sea gaining practical experience. 

2. Deck Officer - Higher National Diploma (HND) The scheme consists of five phases (usually over three and a half years), three spent at the Academy and two at sea gaining practical experience. 

3. Deck Officer - Foundation Degree (Bachelor of Science Degree in Marine Operations / Nautical Science) a full deck officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW’95 II/I OOW), a Foundation Degree (FdSc) in Marine Operations and a direct top-up pathway to BSc (Hons) Marine Operations Management. 

For more information see: Warsash Maritimer Academy,
As the vessel continued to accelerate, a forward spring was deployed and placed on a bollard by the shore mooring party, who then moved to safety. The effect of the hull is generally to slow down the flow into the propeller and that of the propeller is to accelerate and rotate the flow into the rudder, thus affecting its performance.

Mass or weight can be measured easily and won’t change during the voyage, but the accelerations vary constantly. We distinguish mainly between vertical components and lateral components of the loads and accelerations.

A bilge ejector is acceptable as a substitute provided that, like the pumps, it is capable of giving an adequate flow rate.

**accident** /ˈæksɪdənt/ (safety, mar ins) = marine accident = marine casualty

**COMPARE** incident  (IMO DEFINITION) A **MARINE CASUALTY** (i.e. an ‘accident’) means an event that has resulted in any of the following: 1 the death of, or serious injury to, a person that is caused by, or in connection with, the operations of a ship or; 2 the loss of a person from a ship that is caused by, or in connection with, the operations of a ship; or 3 the loss, presumed loss or abandonment of a ship; or 4 material damage to a ship; or 5 the stranding or disabling of a ship, or the involvement of a ship in a collision; or 6 material damage being caused by, or in connection with, the operation of a ship; or 7 damage to the environment brought about by the damage of a ship or ships being caused by, or in connection with, the operations of a ship or ships. (IMO RESOLUTION A.849(20) adopted on 27 November 1997 - CODE FOR THE INVESTIGATION OF MARINE CASUALTIES AND INCIDENTS);

**NATIONAL DEFINITION** (New Zealand): An ACCIDENT means an occurrence that involves a ship and in which: a person is seriously harmed; the ship sustains damage or structural failure; there is a loss of, or damage to, or movement of, or change in the state of, the cargo of the ship which poses a risk to the ship or other ships; there is a significant loss of, or significant damage to, property (not being the cargo carried by the ship) or the property of any person (whether or not aboard the ship), whether or not the loss or damage arises from an interaction between 2 ships; there is a loss or escape of any substance or thing that may result or has resulted, in serious harm to any person; a person is lost at sea (whether or not subsequently found) or is missing; the ship is foundering, capsizing, being abandoned; stranding; missing or has foundered, capsized, been abandoned, been in a collision, or has had a major fire on board.

(www.emsa2018.com fatal accident nesreća sa smrtnim posljedicama: This is another accident involving a fisherman losing his life,., the accident occurred ... nesreće se dogodila ...., do nesreće je došlo ....: The accident occurred in an area of complex and strong tidal flows where there had been other accidents resulting in damage to vessels and shore infrastructure The accident occurred in an area of complex and strong tidal flows where there had been other accidents resulting in damage to vessels and shore infrastructure. The accident occurred during the hours of darkness on a rising spring tide with good visibility and a west-south-westerly wind blowing at 20-22kts. (In its generic use the term ‘accident’ may refer to any type of maritime accident (=serious consequences) or incident (=minor accidents). For specific use of the terms ‘accident’ and ‘incident’ see ‘marine casualty.’)

**accident** (n) (safety) (generic sense): an undesirable or unfortunate happening that occurs unintentionally and usually results in harm, injury, damage, or loss; casualty; mishap

(https://www.dictionary.com/browse/accident) nesreća: The analysis involved ship condition surveying, material on loss/accident prevention and an extensive seminar programme. ....should take into
The accident happened because deficiencies in the loading and securing of the deck containers were spotted but not rectified before the ship sailed. To avoid the accident, it is essential to have a suitable safety regime in place. The accident could have been avoided had a suitable safety regime been in operation. The accident occurred on a 45,000 dwt vessel where a seaman lost his arm while heaving anchor. There has been no pollution following a collision, grounding, or other serious accident. As the accident happened because deficiencies in the loading and securing of the deck containers were spotted but not rectified before the ship sailed, it is important to ensure that all accidents are reported and investigated to prevent future accidents.

The accident investigation showed that the tripping line had jammed between the cruciform and the jaws of the docking head. accompany \textsuperscript{1}/əˈkʌmpəni/ (=accommodation ladder platform)\textsuperscript{(v)} 1 popratiti (dokumentom), pratiti: All ropes or wires supplied to the vessel should be accompanied by an individual certificate stating the breaking load (MBL).; 2 biti u pratnji: On the bridge was the chief officer, accompanied by an AB lookout.
accomplish /əˈkʌmplɪʃ/ (v) postići, izvršiti, obaviti: They used all the resources available to accomplish or achieve the established goals of safety and efficiency. This program allows the Coast Guard to accomplish its ever-expanding tasks ...

accomplished Bill of Lading (n) (mar law, shipping econ) Original Bill of Lading which has been surrendered to the carrying ship at the discharge port in exchange for the goods. ostvarena teretnica, realizirana teretnica

according to (prep) prema, u skladu s: The thermal capacity used is calculated according to a model, which takes into account: Current RMS values, ambient temperature, negative sequence current.

account (n) (shipping econ) bank account račun, bankovni račun on buyer's account na kupčev račun, bank account bankovni račun: The sale of a tanker for $20 million just transfers $20 million cash from one shipping bank account to another, leaving the aggregate cash balance unchanged. Maritime Economics</src...

accountable to /əˈkaʊntəbl/ (adj) biti odgovoran nekome: Although port authorities are accountable to the legislative body that created them, they often have a great deal of flexibility in operation and finance. As second in command of the ship, he is directly accountable to the Master for all matters pertaining to management, operation, care, safety, and physical condition of deck department operations ... the Mast Marine News 202011</src>

account for (v) 1 odgovarati za, odnosit se na, iznositi: Transportation accounts for 66 percent of total U.S. oil consumption. 66 posto ukupne potrošnje nafte u SAD-u odnosi se na transport. The company has the largest fleet in the group, with 24 vessels currently in operation that account for 21.1% of the worldwide market share. MaritimeProfessional-2015-03</src>; 2 biti odgovoran za: Freight was to be paid in advance and the travelling agent had to account for all sums spent. Maritime Economics</src>

account for (v) uzeti u obzir: The local chart also warned of anomalies due to dredging, and the master ordered a small course alteration to port to account for an offset.

accumulate /əˈkjuːməleɪt/ (w) nagomilati (se), nakupiti (se), skupljati (se): It was concluded that lack of ventilation had allowed hydrogen gas from the batteries to accumulate, to produce an explosive mixture that was ignited by sparks from the angle grinder. With the main engine still running, heat built up, causing soot deposits that had been allowed to accumulate in the EGE to ignite. A plug that absorbs little heat and remains too cool will quickly accumulate deposits of oil and carbon since it is not hot enough to burn them off. Suzuki-outboards-workshop-manual-1</src> The top or bottom of tanks, where water and condensation accumulate, are prone to corrosion and need regular inspection. MARINE ENGINES & PROPULSION</src>
One method of checking the capacity of an accumulator battery is to fully discharge and recharge the battery, using normal operating current and period. The emergency source of electrical power may be either a generator or an accumulator battery, which shall comply with the following:

- **SOLAS**

**accuracy** /ærˈkeɪrəsi/ (n) 1 točnost, preciznost: The bearing accuracy of a radar depends mainly on HBW, the narrower the beam, the better the bearing accuracy. Radar and electronic navigational aids determine the accuracy of positions displayed by electronic position fixing systems by reference to visual bearings and transits whenever available.

**degree of accuracy** stupanj točnosti; 2 COMPARE availability COMPARE coverage COMPARE reliability COMPARE fix rate COMPARE fix dimension COMPARE system capacity COMPARE ambiguity potential točnost navigacijskih sustava: Make use of all available navigation aids and do not simply rely on the perceived accuracy of a GPS track plotter as the single source of navigation.

**predictable accuracy** predvidljiva pogrješka, očekivana pogrješka, relative accuracy relativna grješka, grješka susreta brodova: Relative accuracy is the accuracy with which a user can determine his position relative to another user of the same navigation system, at the same time. Chapt-23

**repeatable accuracy** ponovljiva preciznost: The distinction between absolute and repeatable accuracy is the most important one to understand. Chapt-12

**absolute accuracy** apsolutna preciznost: 25 NM absolute accuracy specified for Loran is valid within each chain’s coverage area.

**accurate** /ækˈrət/ (adj) točan, precizan, ispravan: Bunker plan The bunker plan is a piping (schematic) diagram that is accurate and representative of the bunkering system onboard. Accurate fix

**precizna pozicija broda, precizno određena pozicija,** accurate assessment precizna procjena: He then attempted to acquire the target on the vessel’s ARPA, but was unable to obtain an accurate fix. There are no excuses for not using navigational aids such as ARPA and compass repeaters to aid the accurate assessment of close quarters situations.

**accurate data** precizni podatci: The most accurate data is available only after the target has been tracked for a full 3 minutes.

**accurate position** točna pozicija: When a boat is in difficulty and requests assistance, this cannot be provided promptly unless an accurate position is available. The system provides highly accurate position and velocity information in three dimensions and precise time and time interval on a global basis continuously.

**accurate navigation aid** precizno navigacijsko pomagalo: ECDIS is potentially a very accurate
and effective navigation and bridge watchkeeping aid, but it is no more than just that: an aid. **accurate**

account of **precizan prikaz nečega:** It is not known why the course was altered, and it was possible to establish an accurate account of events only by analysing the vessel’s VDR, **accurate**

measurement **precizno mjerenje:** Use the Variable Range Markers (VRM) for more accurate measurement of the range of the target.

**acid** /ˈæsid/ (marine eng) (cargo) **kiselina:** The inhibited cleaner also contained a colouring agent to indicate the **acid** strength.

**acidic** /ˈæsidik/ (adj) **kiseo, kiselkast, acidičan:** the **acidic** nature of the scrubber washwater

**acidimeter** (n) (marine eng) acidometar, mjerač kiseline

**acidity** /ˈæsidəti/ (n) (cargo, marine eng) **kiselost, aciditet:** With high sulphur fuels, the oil drain interval will have to be shortened to avoid excessive **acidity** in the lube oil. MARINE ENGINES & PROPULSION</n> Some absorption of carbon dioxide from the water and the neutralizing effect of these compounds, removes **acidity**. Marine_Auxiliary_Machinery_pdf</n>

**acid proof** (adj) (marine eng, cargo) otporno na kiselinu, zaštićeno od kiselina

**acknowledge** /əkˈnɔldʒ/ (v) 1 priznati; 2 potvrditi: Communication should be clear, concise and acknowledged at all times in a seamanlike manner. STCW 2010 - Part A</n> The manoeuvring vessel acknowledged, but continued to cross the subject vessel’s bow at distance of less than one cable.</n> &</n> Clear standing orders from master and chief engineer must be given for lowering of lifeboats in port and acknowledged by all officers; &</n> The master further requested the charterer’s agent to sign for receipt of the letter of authorisation and acknowledged of its contents.

The inhibited cleaner also contained a colouring agent to indicate the **acid** strength. **Potvrditi primitak:** Kindly acknowledge receipt of this letter. Ljubazno Vas molimo da potvrdite primitak ovog dopisa. The container ship never acknowledged our ship’s VHF calls

**acknowledgement** /əˈkɒlnidʒmənt/ (n) (comm) (n) (shipping econ) potvrda (primitka poruke): &</n> If it does not, a Note of Protest should be issued by the Master and an acknowledgement obtained from the shippers and/or charterers. Receiving - Delivery liquid cargo</n> The master further requested the charterer’s agent to sign for receipt of the letter of authorisation and acknowledged of its contents.

acknowledgement of receipt (n) 1 (shipping econ, mar law) notification relating to the receipt of goods, potvrda primitka robe; 2 (comm) a notification relating to the receipt of messages and documents. **Potvrdna primitka poruke**

**acorn nut** /ˈeikərn,ˈnæt/ (n) (marine eng) slijepa matica

**acquainted with** /əˈkwɛintid 'wɪð/ (adj) upoznat s: The OOW had little time to become fully acquainted with the traffic and navigational situation. Major-Accidents-On-Sh</n> &</n> It is the duty of every ship personnel to get himself acquainted with the location of the emergency muster station upon joining the ship.</n> Major-Accidents-On-Ships</n>

**acquiescence** /əˈkwɪsəns/ (n) (shipping econ) When a bill of lading is accepted or signed by a shipper or shipper’s agent without protest, the shipper is said to acquiesce to the terms, giving a silent form of consent. **prihvaćanje (teretnice) bez prigovora, prešutno prihvaćanje**

ADDCOMM (=address commission) (n) (shipping econ) Percentage of commission charged by charterers; commission payable by the shipowner to the charterer. unajmiteljeva / čartererova provizija, provizija čarterera free of ADDCOMM bez provizije čartereru, bez čartererove provizije: Free of address, refers to a charter which is not paid the address commission. (The fee paid by vessel owners to charterers, the party who owns cargo and employs a shipbroker who will find a proper ship to deliver the cargo. As a result, the total fees incurred by the charterer are reduced by the amount of the address commission.)

added mass (n) (nav arch) dodatna masa (trupa broda): All these quantities are small in comparison with non-dimensional mass and added mass in sway, and vertical moment of inertia with added moment of inertia in yaw. Vessel_Maneuverability_Guide_e-Feb17

added value (n) (navig) dodana vrijednost (pri planiranju i nadziranju plovidbenog putovanja): By combining and integrating functions and information the INS provides ”added value” for the operator to plan, monitor and/or control safety of navigation and progress of the ship. By operating at EU level, EMSA is providing significant added value to the Member States. EMSA_Facts and Figures_2016

addition /ə ˈdiʃn/ (n) dodatak in addition pored, uz to, osim toga, povrh toga:
In addition, all of the fire detectors were of the smoke detection type - there were no flame or heat detectors fitted. In addition, the starboard steering system’s hydraulic failure alarm sounded on the bridge console’s machinery alarm panel., in addition to pored, uz: In addition to the mooring lines, a tug was being used to hold the vessel’s stern on the berth while its bow thrusters were being used forward. In addition to watchkeeping, the chief officer was responsible for overseeing cargo operations in port.

addition (n) (math) zbrajanje, dopuna, dodavanje: The following changes were made: the raising of gunwales, enlargement of the wheelhouse, the addition of an hydraulic pot-hauler and the fitting of ballast.

additive A compound which is added to improve fuel. (http://www.marinedieseleurope.com/)

aditiv, dodatak gorivu: Some ship engineers also do something similar but without the use of sophisticated equipment and manually blend the stem oil with an additive. ShipInsight - Marine Engineering

marine fuel additives aditivi brodskom gorivu

address (v) (safety, comm) obratiti se (putnicima): address the passengers The captain addressed his passengers over the ship’s CCTV

address (v) (hum_resources) raspraviti o pitanju / problemu, osvnuti se na pitanje / problem, pobrinuti se o problemu, pozabaviti se s (problemom, pitanjem): If you do not receive the delivery please let us know as soon as possible so that we can address the problem and ensure that your needs are met. The varied nature of cyber security threats means that there is no single approach that can address all the risks. IET-Cyber-security-for-ports-and-port-systems-2020_01
**addresssee** /əˈdresi/ (n) 1 naslovnik, primalac pisma: Request the addresssee of the letter to acknowledge its receipt. 21_Protection_and_Indemnity_Vsl accide</tlCorpus>; 2 primalac poruke

**adequate** /ˈædikwət/ (adj) adekvatan, odgovarajući: The only real protection from fatigue is adequate manning for the work being done. Ensure that an adequate risk assessment procedure is drafted for all its ships and that it addresses specifically the launching of lifeboats. It is therefore essential that adequate safety measures are in place. After the alteration of course was completed, the OOW should have rechecked the situation to ensure that the CPA was still adequate.

**adhere to** /ədˈhiər tu/ (v) držati se nečega, pridržavati se (uputa, pravila, ugovora): The officer of the watch was rigidly adhering to the planned navigation track. The obligation to keep an effective lookout at sea is fundamental to safe navigation as is the need to adhere to the rule of the road. This position has been strongly opposed by INTERTANKO, which stresses that any measure in this area must adhere to international law and more specifically UNCLOS.

**adhesion** /ədˈhiʒən/ (n) prijananje, adhezija, lijepljenje: Polyurethane adhesive sealants normally provide good adhesion, but in this case poor surface preparation had resulted in ineffective adhesion to the deck. The adhesion of marine life to the ship hull depends on the type of coating as well as the species. MarineNews-2018-09</tlCorpus> These paints have very good adhesion, apart from their excellent chemical resistance. Hand_book_Marine_Engineering_Handbook</tlCorpus> Soft greases are often used in automatic lubrication systems while stiffer greases can be found where the grease requires vertical adhesion. MarineNews 20200</tlCorpus> adhesion of cargo to holds/tanks

**adjacent** /əˈdʒeisnt ˈtu/ (adj) susjedni, pokrajnji, obližnji: A high speed catamaran (HSC) was scheduled to shift to an adjacent berth. Boundary cooling continued, and adjacent compartment temperatures were monitored. The exclusive economic zone is an area beyond and adjacent to the territorial sea, subject to the specific legal regime established in this Part, under which the rights and jurisdiction of the coastal State 02C Law of the sea - ENG</tlCorpus> adjacent to blizu (nečemu, nečega), pokraj, tik uz, odmah do: The stowage of lifejackets in a dedicated container on deck adjacent to the liferafts allowed the crew to readily access them. Several knives were kept in the wheelhouse and adjacent to the working areas on deck. MAIBInvReport05_2018</tlCorpus> Cofferdams and other spaces that are adjacent to cargo and other tanks may contain flammable vapours, should there have been leakage into the space.

UK-MCA-Code-of-Safe-Working-Practices-for-Merchant-Seafarers-Amendment-2020_1</tlCorpus>, adjacent berth obližnji vez: The angle of approach to the berth was more open than ‘usual’ due to another tanker alongside the adjacent berth</tlCorpus> https://gcaptain.com, adjacent spaces obližnji prostori: <tlCorpus><sentence>2 For determining the appropriate fire integrity standards to be applied to boundaries between adjacent spaces, such spaces are classified according to their fire risk as shown in categories (1) to (14) below. 01C SOLAS - ENG</tlCorpus>

**adjust** /əˈdʒast/ (v) namjestiti, regulirati, ugoditi, naštelati, naštimati, podesiti: If the radar controls are incorrectly adjusted the performance of the radar will be adversely affected. Having fetched a screwdriver, he removed the vent diffuser to adjust the flow of air from the vent. adjust general average (mar law) likvidirati generalnu havariju, adjust the transceiver ugoditi primopredajnik, namjestiti frekvenciju/postaju na radioprijamniku, adjust the autopilot namjestiti automatsko kormilo: At 2012, the master adjust the autopilot to steer 175° to avoid the north-west bound ship, adjust the
adjustable

ship's heading namjestiti pramčani kut, namjestiti pramčanicu, adjust the course namjestiti kurs: The master instructed the OOW to adjust course to pass close astern of Target A and ahead of Target B., adjust the passage plan namjestiti plan plovidbe: Once at sea, the master decided to adjust the passage plan so as to keep the wind and sea fine on the starboard bow., adjust the planned route namjestiti planiranu rutu: It should be possible to adjust a planned route alphanumerically and graphically including: adding waypoints to a route; deleting waypoints from a route; and changing the posit.</source>232(82) Standards for electronic chart display and information system (ECDIS) Netherlands Regulatory Framework (NeRF) – Maritime</source>, adjust the flow rate namjestiti protok (goriva): Some models allow the nozzle operator to adjust the flow rate, while others allow adjustments to the nozzle discharge pressure. MODERN_MARINE_ENGINEERS_MANUAL</source>

adjustable /əˈdʒʌstəbl/ (adj) prilagodljiv, koji se može namjestiti / regulirati, podesiv: The oil supply rate is adjustable and metered to suit the age and running condition of piston rings and liners. MIM_WinGD-X35-B</source> <tlCorpus> <sentence>To dampen these fluctuations, an additional adjustable spring controlling the diaphragm is fitted. MARINE ENGINES & PROPULSION</source> Calculate centering error by measuring known angles after removing all adjustable errors. american_practical_navigator</source>

adjustable spanner (n) (marine eng) francuski ključ adjustable wrench (n) (marine eng, seamanship) francuski ključ: An adjustable wrench has a fixed upper jaw and a moveable lower jaw. suzuki-outboards-workshop-manual-1 The main drawback of an adjustable wrench is the lower jaw and tendency to move slightly under heavy pressure. suzuki-outboards-workshop-manual-1/tlCorpus>

adjuster /əˈdʒʌste/ (n) (mar ins) likvidator šteta, likvidator generalne havarije, procjenitelj šteta average adjuster likvidator generalne havarije / štete, likvidator zajedničke havarije / štete appoint the adjuster imenovati likvidatora generalne havarije: The shipping company appointed an average adjuster to collect the necessary GA security.

adjuster /əˈdʒʌste/ (n) (marine eng) uređaj za namještanje, naprava za reguliranje, uređaj za podešavanje: A dip needle with a sliding weight that can be moved along one of its arms to balance the magnetic force is called a HEELING ADJUSTER. american_practical_navigator</source>

adjustment /əˈdʒʌstmənt/ (n) 1 (marine eng, seamanship, electr) namještanje, reguliranje, ugađanje, prilagođavanje, podešavanje: The correct adjustment of
the limit switch allowed for this, and was designed to prevent over tensioning and stretching of the wire.
The importance of correct adjustment cannot be over-emphasised. Unfortunately, the adjustment of the
linkage caused it to come into contact with other components when the engine was overloaded, which
ultimately led to its eventual failure.

The port propeller had spontaneously moved to full astern pitch
just as the initial course adjustment was made, as requested by the pilot. Make the adjustment
using two screws behind the index mirror.

A recommendation has also been made to the flag State Administration to raise the matter at the IMO, with
the aim of enhancing local fixed firefighting systems and to ensure that it will be very valuable; like-

The aft mooring arrangements did not allow all mooring ropes to have equal tension on them. A nylon mooring rope, which had been secured on a pallet on the aft mooring deck, was loose in its stowage and the master was concerned that if it was washed overboard it would sink and potentially foul the vessel’s propeller. It turned out that just before the incident, the deck crew had been using the aft mooring winches.

Some tidal harbors use pile moorings to provide fore and aft moorings along the edges of a channel, parallel to the main tide flow.

The ship’s gangway should be lifted clear of the quayside, and all fore and aft moorings tended, to ensure no damage is incurred by the heeling angle of the vessel. Seamanstship Techniques DJ House

The vessel’s swing to port could not be checked (=stopped) and the aft mooring lines also parted. The forward and after mooring lines were secured in different ways: the forward mooring party used ropes on bights and left them on the winch warping drum so that rope tension with the chief officer and helmsman in the wheelhouse, the master and pilot focused on the mooring dolphin and the aft mooring team in a position of safety, monitoring of the tug’s situation relied on effective communications between the ship and the tug.

A fire was noticed in the top tier of the deck containers aft of the funnel. The compartments aft of the engine room, for which access was gained via the deck, were all sealed shut.

Aft of (prep phr) iža: A fire was noticed in the top tier of the deck containers aft of the funnel. The compartments aft of the engine room, for which access was gained via the deck, were all sealed shut.

At 0720, the aft spring line parted. The aft spring line slipped as weight came on it because the rope had not been secured correctly.

The Master or the Officer of the Watch (OOW) has to tell the officers in charge of the Fore and After (Mooring) Station to
**aft trim**  
*(nav arch, cargo handling)* zatega (broda): Maintain correct fore-and-aft trim by moving your weight along the gunwale. <source>The_Complete_Sailing_Manual_3rd_Edition</source> Catamarans are sensitive to fore-and-aft trim, so the helmsman and crew must sit close together, near the middle of the boat, to keep it level. <source>The_Complete_Sailing_Manual_3rd_Edition</source>

---

**aft tug** *(seamanship, navig)* tegljač na krmi, tegljač po krmi: The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode. The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode. Make fast the forward / aft tug(s) alongside on port side / starboard side. <source>smcp</source> The pilot twice asked the aft tug to tow right astern, but the tug remained in push mode. <source>MAIBSAFETYDIGEST_22010</source> The aft tug was then released in anticipation that it would take longer than usual to recover her gear. <source>MAIBSAFETYDIGEST_22010</source>

**agency agreement** *(logist, mar law, shipping econ)* An agreement in which the carrier line appoints the port agent and defines the specific duties and areas of responsibility of that agent. <source>general_agency_agreement</source>

**agency clause** *(mar law, shipping econ)* Clause in Charter-Party, which stipulates whether the ship’s agent at the loading and / or discharging ports are to be nominated by the shipowner or the charterer. <source>http://www.tkmglobal.net/index.html</source> klauzula o imenovanju brodskog agenta

**agency fee** *(shipping econ)* troškovi koji se plaćaju agentu za usluge pri osiguravanju smještaja broda i obavljanje carinskih formalnosti; fee payable by a shipowner or ship operator to a port agent; Fee payable by the shipowner or ship operator to a port agent, whose duties may include arranging a berth with the port authority, ordering pilots, tugs and labor, entering the ship in at Customs and collecting freight. <source>http://www.tkmglobal.net/index.html</source>; A fee charged to the ship by the ship’s agent, representing payment for services while the ship was in port. <source>http://www.euronav.com/en/</source> agencijski troškovi, agencijska naknada

**agenda** *(mar law)* The agenda is attached and contains customary items to approve the Minutes, to adopt the Report and Accounts, to elect Members to the Members’ Committee and to appoint Auditors. (dnevni red (sjednice, skupštine itd.): dnevni red (sjednice, skupštine itd.)

**items of the agenda** točke dnevne reda: A Proxy Form and Schedule of Votes are enclosed in respect of the resolution in items 4, 5 and 6 of the Agenda. (P&I Club) <https://www.ukpandi.com/news-and-resources/circulars/2023>
agent /ˈeɪdʒənt/ (n) 1 A person authorized to transact business for and in the name of another person or company. Typical jobs and duties of an agent are the following: 1. sales (marketing, acquisition of cargo, issuing quotations, concluding contracts in co-ordination with the shipping company), 2. booking (zaključivanje tereta; booking of cargo in accordance with allotments assigned to the agent for a certain voyage), 3. customs (dealing with the national customs administration for cargo declarations, manifest alterations and cargo clearance on behalf of the shipping company), 4. documentation (timeliness and correctness of all documents regarding the carriage of cargo), 5. handling (taking care of all procedures connected with physical handling of cargo), 6. equipment control (managing of all equipment stock in a particular area), 7. issuing (authorisation to sign and issue Bills of Lading and other transport documents), 8. collecting (authorisation to collect freight and charges on behalf of the shipping company), 9. delivery (the agent who releases the cargo and is responsible for its delivery to the consignee), 10. handling of cargo claims (Handling of cargo claims as per agency contract), 11. husbanding (handling non-cargo-related operations of a vessel as instructed by the master, owner or charterer) (http://www.iss-shipping.com/cargo/cargo_library_glossarya.asp (P&O Nedlloyd); “Agent” means Vessel owner, Shipping agent, Consignee, Clearing Agent and any other Customer or User of the Container Terminal (Port of Aqaba Container Terminal); A person authorised to transact business for and in the name of another person or company. Types of agents are: brokers, commission merchants, resident buyers, sales agents or manufacturer’s representatives. (https://www.msc.com/shipping-glossary) agent; 2 agencija agents agencija, pomorska agencija: Traffic Service centers; potential distractions associated with making final arrangements for entering port including communications with the ship’s agent or sending departure messages, etc. The master was informed by his agent that the pilot was booked for 1315 the following day; the master made arrangements accordingly. (Types of agents:(1) brokers,(2) commission merchants,(3) resident buyers,(4) sales agents,(5) manufacturer’s representatives.)

agent: (n) (chem) sredstvo, agens: Cargo holds intended for the carriage of dangerous goods should be equipped such that they contain the possibility to use water as an extinguishing agent or for cooling via a permanently installed system as well. extinguishing agent protupožarno sredstvo

aggravate /ˈæɡrəˌveit/ (v) pogoršati

aggregate shipment (n) COMPARE LCL (mar law, shipping econ) Numerous shipments from different shippers to one consignee that are consolidated and treated as a single consignment.

agree 1 dogovoriti se, dogovoriti: Sometimes it may be appropriate to agree a temporary “no go zone” for both ferries and yachts during large regattas. An exchange of factual information should be used by both pilot and the bridge team to establish and agree an effective plan for the passage.; 2 složiti se

agree: (v)

agreement /əˈɡriːmənt/ (n) (mar law) sporazum make an agreement between … and … sklopi ugovor između … i …: the Agreement made between the International Transport Workers’ Federation (the ITF) and the Owners, Managers, Employers and Contract of that Offshore Vessel/Unit (the Owners); 2 (mar law) ugovor Articles of agreement ugovor o ukrcanju (pomorca), ugovor o zaposlenju na brodu, charter agreement ugovor o najmu broda, ugovor o iskorištavanju broda: Under the charter agreement the charterer’s port captain was responsible for arranging and paying for these extra deck fittings.; This agreement shall terminate on … Ovaj ugovor završava dana …; This agreement shall come into force on …. Ovaj ugovor stupa na snagu
This agreement shall expire on Ovaj ugovor istječe dana …; 3 (mar law) dogovor; 4 (mar law) pristanak, odobrenje: Regardless of how well intended, individuals should not be permitted to assume control of the party without the prior agreement of the supervisor. The decision to pass the navigation buoy on the wrong hand was taken by the pilot, with the master’s agreement, when the vessel being overtaken moved across the channel to keep clear of inbound vessels using it.

agreement (n) (mar law) obvezati se, ugovoriti, sklopiti ugovor: Both contracting parties fully agree to comply with all the terms and conditions of this Agreement. The decision to pass the navigation buoy on the wrong hand was taken by the pilot, with the master’s agreement, when the vessel being overtaken moved across the channel to keep clear of inbound vessels using it.

aground /əˈɡraʊnd/ (adv) touching or resting on the bottom when still in the water (i.e. not ashore)

A tanker carrying refined petroleum products is aground in the St. Lawrence River near Morrisburg, Ontario.

Ahoy! /əˈhɔɪ/ poziv kojim se privlači pozornost mornara na brodu ili drugi brod; a call used in hailing a vessel or boat to attract attention Pozor! Ship Ahoy! Pozor svima!

AHT (=anchor handling tug) (n) (nav arch) tegljač za sidrenje
aids to navigation

Aids to navigation (Aton; aton) are any device EXTERNAL to a vessel specifically intended to assist navigators in determining their position or safe course, or to warn them of dangers or obstructions to navigation. While electronic charts and GPS feeds to radars are valuable aids to navigation, an unwelcome side effect is that the modern watchkeeper can often seem obsessed with sticking to 'the red line' (his track). Establish and aid to navigation uspostaviti plovidbenu oznaku, postaviti plovidbenu oznaku (plutaču, svjetlo itd.), extinguished light to navigation.

These procedures should be periodically reviewed with the aim of ensuring that risk is kept as low as reasonably practicable. 14/2014_R4 establish formal familiarisation training for all its personnel, which The helmsman achieved the aim, the electronic chart display data showing him steering between 10 and 15 degrees to starboard of the approach course to counteract the effect of The main aim of my latest survey was to answer the question whether sailing generally, and cruising in particular, was safer.

The pilot then advised the master to put the engine to full ahead and aim for the red buoy marking the south side of the entrance to the channel.

The use of common terminology is emphasised and MRM training aims to improve coordination, communications and team work. Aim at 1 ciljati u / prema: Identify and implement measures aimed at improving the identification of all dangerous and potentially dangerous spaces and increasing compliance with the safe working practices.

2 imati namjeru, imati za cilj, namjeravati, ciljati, aim for ciljati, usmjeriti se prema, ploviti prema: The pilot then advised the master to put the engine to full ahead and aim for the red buoy marking the south side of the entrance to the channel.

The main aim of my latest survey was to answer the question whether sailing generally, and cruising in particular, was safer.

air conditioner  (n) (marine eng) klima uređaj
As both fans were running, he switched off the power to number 1 fan, closed the delivery flap and opened the air conditioning unit access panel. Without warning, one of the two bow thrusters stopped, the air conditioning went off and the lights momentarily dimmed as the ferry experienced a partial loss of electrical power.

**air conditioning** *(n)* *(marine eng)*  kondicioniranje zraka, klimatizacija: As both fans were running, he switched off the power to number 1 fan, closed the delivery flap and opened the air conditioning unit access panel. Without warning, one of the two bow thrusters stopped, the air conditioning went off and the lights momentarily dimmed as the ferry experienced a partial loss of electrical power.

**air conditioning equipment** *(=air conditioning unit)* *(n)* *(nav arch)* rasładni uređaj

**air conditioning intake** *(n)* *(marine eng)* usisizraka uređaja za klimatizaciju

**air conditioning system** *(n)* *(marine eng)* sustav kondicioniranja zraka, klimatizacija

**air cooler** *(n)* *(marine eng)* isparivač, evaporator

**air-course** *(n)* *(sailing vessels)* odušnik, produšnik

**aircourse-board** *(n)* *(nav arch)* rešetka za ventilaciju

**aircraft carrier** *(n)* *(navy)* a naval ship with a landing deck for launching and recovering aircraft

**nosač zrakoplova, nosač aviona**

**aircraft search and rescue unit** *(n)* *(navig, safety)* zrakoplovna spasilačka jedinica

**air cushion vehicle** *(n)* *(nav arch)* = hovercraft lebdjelica

**air cylinder** *(n)* *(marine eng)* zračni cilindar, cilindar zraka: In the engine room, the reserve compressed air cylinder was opened but there was still insufficient air pressure to re-engage the clutches.

**air density** *(n)* *(meteorol)* gustoća zraka

**air draft** *(=air draught)* *(n)* *(nav arch)* The vertical distance from the summer waterline to the
highest point in the ship, usually the top of a mast. https://officerofthewatch.com/ visina (broda)

iznad mora, maksimalna visina (iznad mora)

air drier (n) (marine eng) uređaj za sušenje

air duct /ˈeə dʌkt/ (n) (marine eng) odvod za zrak, zračni vod, vod zraka: Both fans supplied a common air delivery duct, and the airflow from the running fan caused the fan on number 1 to rotate in the reverse direction.

air ejector (n) (marine eng) zračni ejektor

air exhaust (n) (nav arch, marine eng) izlaz zraka, ispuh zraka, ispust zraka

air filter (n) (marine eng) filter zraka

air flow (n) (marine eng) protok zraka, strujanje zraka: He decided instead to reduce the air flow by stuffing a towel into the vent trunking.

air grid (n) (marine eng, nav arch) rešetka za zrak

air grill (n) (marine eng, nav arch) rešetka za zrak

air hammer (n) (seamanship) Hammer driven by compressed air for riveting, or chipping. Sometimes called an air gun or "gun". https://officerofthewatch.com/ pneumatski čekić

air inlet valve (n) (marine eng) usisni ventil zraka, ventil za ulaz zraka

air intake (n) (marine eng) usis zraka: The engine was shut down, and the fuel, ventilation, air intake and exhaust systems were isolated.

air leak (n) (marine eng) propuštanje zraka: In response, two engineers searched the engine room for a possible air leak.

airlift /ˈeə lɪft/ (n) (safety) podići iz mora u helikopter: All five crew were later safely airlifted ashore. Sva petorica članova posade kasnije su bila podignuta iz mora u helikopter Three of the crew members were airlifted to safety by the Navy. Three crew members were critically injured in the incident and were airlifted to a hospital. the Captain and Ship Superintendent were airlifted to a hospital and survived https://gCaptain.com

airlift (n) (safety) podizanje s mora (broda) u helikopter: After initial rescue efforts were impeded by bad weather that stopped other ships getting close, It. and Greek helicopter crews began the airlift on Sunday afternoon.

air manifold (n) (marine eng) kolektor zraka

air masses (n) (meteorol) zračne mase

air pipe (n) (nav arch) zračnik, odzračnik: It was found that the small basis bore ventilation air pipes to the engine room were completely blocked by rust flakes.
air port \( (n) \) (nav arch, US) = porthole: an opening in the side or deck house of a vessel, usually round in shape and fitted with a hinged frame in which a thick glass is secured, to provide light and ventilation to and vision from the interior (https://safety4sea.com) brodsko okno

air pressure \( (n) \) (marine eng) tlak zraka: In this case, crushed nut shells were injected into the turbocharger under 7 bar air pressure.

air pump \( (n) \) (marine eng) pumpa zraka, sisaljka zraka, zračna pumpa

air receiver \( (n) \) (marine eng) spremnik zraka: No 1 compressor was isolated but the engineers soon noticed that the air pressure in the main air receiver was dropping.

air register 1 regulator zraka, registar zraka, uređaj za privod / dovod zraka; 2 privodne lopatice

air start system \( (n) \) (marine eng) sustav zraka za upućivanje stroja

air start valve \( (=air starting valve) \) \( (n) \) (marine eng) A valve which admits compressed air to the air starter for starting purposes. (http://www.marinedieseleurope.com/)

ventil zraka za upućivanje: Accordingly, the air start valves were opened and one of the engineers operated the turning gear control lever with the intention of disengaging the turning gear from The main engine indicator cocks were left open, the turning gear disengaged, the air receiver valves and main air start valve were shut, and the lubricating and cooling water pumps were left running.

air stream \( (n) \) 1 (marine eng) zračna struja, strujanje zraka; 2 (meteorol) zračne struje

air supply \( (n) \) dovod zraka, opskrba zrakom, dobava zraka: There is no doubt that their swift actions in stopping the engines and isolating the fuel and air supplies to the engine room contributed significantly to extinguishing the fire.

air supply valve: The engineer then opened the air supply valve to pressurise the reservoir.

ventil dovoda zraka

air tank \( (n) \) 1 (nav arch, safety) A metal air-tight tank built into a boat to insure flotation even when the boat is swamped. https://officerofthewatch.com/ zračni tank; 2 (sailing/boating/yachting) zračni jastuk

airtight /ˈeəˌtait/ (adj) zrakonepropustan, zrakotijesan

air trunk otvor za dovod zraka

air vent \( (n) \) (nav arch) zračnik, Italian: manica a vento: Following an unsuccessful attempt to fight the fire with a portable dry powder extinguisher, the engines were shut down and the air vents closed.

AIS \( /ˈeɪ aɪ ˈes/ \) (=Automatic Identification System) \( (n) \) (navig, safety) Automatic
AIS base station

AIS Identification System (AIS) - Used to help identify vessels, to assist in target tracking (based on Global Navigation Satellite System), and to improve quality of information available to OOW. AIS continually transmits the ship's own data to other vessels and VTS stations. It also continuously receives data from other vessels and VTS stations and, when linked to radar or ECDIS, can also display this data. AIS transmits: static data (MMSI number, call sign and name, IMO number, length and breadth, type of ship, location of position fixing antenna), dynamic data (ship's position, position time in UTC, course over ground, speed over ground, heading, navigational status, rate of turn), and voyage data (ship's draught, hazardous cargo, destination and ETA, route plan - waypoints) (Seamanship Notes 2004); AIS is a navigation and anti-collision tool enabling the exchange of ship-to-ship information.

AIS base station

AIS data

AIS: AIS should be operational at all times AIS system is used to exchange vessel and navigation data including vessel name and call sign, length and beam, position with accuracy indication and integrity status, course, speed, heading and ROT and other specific information, all in real time. Data is shared with other nearby ships as well as coastal VTS (Vessel Traffic Service) stations. Vessels were usually tracked using AIS as manual acquisition and tracking was generally less reliable. All available equipment should be used by the OOW, whether be it ARPA, AIS or anti-collision alarms (COLREG rule 7 - Risk of collision). The vessel's AIS was switched off. The primary means of navigation was paper charts. The IMO made the carriage of AIS mandatory under SOLAS V for all vessels of 300 GT or more engaged on international voyages from 31 December 2004. AIS is publicly broadcast via a VHF transponder device with the primary function of improving ship-to-ship and controlled water space 'situational awareness', such as major ports and traffic pinch-points like the Dover and Singapore Straits. AIS transmits dynamic position and movement data, voyage related facts and static information such as vessel details designed to enhance water space management within the VHF horizon.

https://www.logisticsglossary.com/term/ais

AIS data

AIS: The OOW was not monitoring AIS information, transmit AIS odšiljati AIS signal: Their ship was not transmitting AIS at the time of the accident, switch on AIS uklučiti AIS: The other vessel switched on its AIS shortly before the collision, AIS shows that AIS pokazuje da: AIS shows that the containership is now moored near the Port of .... (The information provided by AIS is divided into: static information, including the ship's call sign and name; dynamic information, including position, course and speed over the ground and status; voyage related information, including destination, draught, and hazardous cargoes; and short safety related messages. Static and voyage related information is transmitted every 6 minutes, or on request. The reporting interval for dynamic information is dependent on a ship's speed and whether or not it is changing course. The reporting interval for a ship at a speed of between 0 and 14kts and changing course is 4 seconds. (from: MAIB accident report No. 25/2014, p. 4))

AIS base station

AIS data

AIS: The 30,000 DWT containership was underway in the Ligurian Sea as of 11:20 a.m. EDT on Wednesday, according to AIS data from MarineTraffic.com. The speed derived from his GPS fixing and confirmed by AIS data showed the vessel maintained her maximum speed of 12 knots until shortly before the grounding. AIS data and visual observation confirmed that the tanker's speed was not excessive and it was not abnormally close. AIS data as of 15:00 UTC showed the vessel's status as "underway using engine" but with the assistance of six tugs as it continued its voyage to Hamburg.

http://gcaptain.com/capesize-bulk-carrier-breaks-elbe-river-ais/ The AIS data is stored as comma-separated values files (CSV), which allows the data to be saved in a table structured format From the Automatic Identification System (AIS) data displayed on the radar, he saw that vessel A was
overtaking a general cargo vessel, and the vessel B was turning around Foxtrot 3 buoy to enter the south-west traffic lane at a SOG of 12.6kts. At the time of the accident, AIS data showed that there were 11 vessels outside Gibraltar Bay waiting to enter either Algeciras or Gibraltar (Figure 15).

**AIS display** (n) (navig) prikaz u sustavu AIS: Based on visual monitoring of the movement of the ship’s mark on the AIS display and comparison to another vessel’s movement tracking display, it was ascertained that the ship was actually moving west-northwest in the traffic lane.

**AIS MOB device** (n) (safety) An AIS Man Overboard (MOB) device is designed to be carried by individual crewmembers and used in the event of a Man Overboard situation or other personal emergency. AIS uređaj za otkrivanje osobe / čovjeka u moru: AIS MOB devices like the SEAANGEL SA15 AIS FLARE ECO, once activated, will transmit the emergency signal with the exact GPS position on internationally agreed upon frequencies that not only commercial ship crews are scanning permanently but also the U.S. Coast Guard and more and more recreational sailors.

**AIS plot** (n) (navig) pozicija utvrđena AIS-om, AIS pozicija (broda): Due to the loss of power, the AIS transmission ceased, causing the loss of the AIS plot. https://safety4sea.com/

**AIS receiver** (n) (navig) prijamnik sustava AIS, AIS-prijamnik: The target vessel’s details were displayed on the AIS receiver but the option to display the target’s information on the X-band radar, which was fitted with ARPA, was not taken.

**AIS recreation** (n) (navig) rekonstrukcija (pomorske nezgode) pomoću automatskog identifikacijskog sustava An AIS recreation of the incident from Vessel Finder is provided below

**AIS-SART** (=Automatic Identification System - SAR Transmitter) (n) (safety) A survival craft transmitter that sends out an AIS position report based on a built-in GNSS receiver (IAMSAR Vol. III 2013) AIS-SAR predajnik, SART predajnik u sustavu AIS

**AIS Service Management** (n) (navig) Služba upravljanja sustava AIS

**AIS signal** (n) (navig) signal sustava AIS: However, her AIS signal was logged and recorded onshore, allowing the coastguard to identify the vessel; after about 30 minutes they succeeded in contacting her o

**AIS static and dynamic information** (n) (navig) statički i dinamički podatci
AIS target (n) (navig) objekt (cilj, drugi brod itd.) dobiven putem AIS-a: Vessel B’s bridge team was only monitoring AIS targets on its radars and could not detect the change in Vessel A’s heading and speed. (https://safety4sea.com/) He then interrogated an AIS target about 6.

AIS track (n) (navig) putanja broda u sustavu AIS, trajektorij u sustavu AIS, trag ruta broda na pokazivaču sustava AIS: Manual tracks were frequently lost and the information displayed on manual tracks was not as comprehensive or prominent as on AIS tracks.

AIS transmission (n) (navig) slanje signala AIS, odašiljanje AIS signala: Due to the loss of power, the AIS transmission ceased, causing the loss of the AIS plot. (https://safety4sea.com/)

AIS transmitter (n) (navig, safety) predajnik sustava AIS, AIS-predajnik: AIS transmitters on buoys and beacons provide increased awareness and safety when visibility is poor, regardless of the weather and the situation at sea.

AIS transponder (n) (navig) transponder sustava AIS, AIS-transponder: Although there is no requirement to fit a radar reflector and/or an AIS transponder, there are distinct advantages in doing so. Having an AIS transponder is required for all ships above 300 gross metric tons. All passenger ships and all fishing vessels with a length above 15 meters.

AIS voyage details (n) (navig) podatci o putovanju u sustavu AIS update AIS voyage details ažurirati / osvježavati podatke o putovanju u sustavu AIS.

alarm /əˈlaːm/ (n) (safety) uzbuna, alarm, upozorenje, znak za uzbunu sound the alarm dati znak uzbune: During this period the general alarm was sounded and the crew were mustered. There were numerous alarms sounding, including the bilge alarm for the bow thruster space. Sound alarm and commence Williamson turn! Uključite zvučni alarm i započnite manovru traganja po Williamsonu! https://safety4sea.com/, raise the alarm dati znak uzbune, uključiti alarm: Twenty-five hours later, the alarm was raised when its upturned hull was sighted by a passing ferry. One of the AB’s raised the alarm and the Master sounded the emergency alarm and mustered the emergency team by the hold. (https://safety4sea.com/) Soon after, the general alarm was raised, and rescue procedures were initiated. https://safety4sea.com/, trigger the alarm automatski uključiti znak uzbune: Immediately, the bow thruster motor low insulation alarm was triggered and the breaker tripped. Audible alarm zvučni alarm, visual alarm vizualni alarm, activate the alarm aktivirati alarm, pobuditi alarm: failed to notice that the visual grounding warning alarm had been activated, engineering alarm alarm iz strojinarse, inoperative alarm neispravan alarm, alarm koji ne radi: The ECDIS audible alarm was inoperative, general alarm opća uzbuna: The master immediately sounded the general alarm and altered the course hard to starboard, false alarm lažna uzbuna, lažni alarm: The majority of watchkeepers thought that these were false alarms and therefore ignored them.

www.safety4sea.com, disconnect the alarm isključiti alarm, sound of alarm zvuk alarma: All officers and crew members were constantly disturbed and highly stressed by the sound of countless alarms, which made it extremely difficult to concentrate on the many challenges that appeared.Officers and crew members were constantly disturbed and highly stressed by the sound of countless alarms, which made it extremely difficult to concentrate on the many challenges that appeared, reset the alarm resetirati alarm: The second officer arrived on the bridge and began silencing and resetting the alarms, as per the Master’s orders. (https://safety4sea.com/) Alarm was reset on the fire detection panel, which was situated on the bridge, but it immediately reactivated, sounding throughout the accommodation.
The alarms activated: At 2130, multiple bilge and tank alarms activated. https://safety4sea.com/

Alarm message (n) 1 (safety) poruka o opasnosti; 2 (safety) poruka za uzbunu

Alarm message display (n) (navig) pokazivač alarma na radaru: When trouble occurs the radar generates audio and visual (alarm message display) alarms to alert you.

Alarm signal (n) (safety) znak uzbune

ALARP (=As Low As Reasonably Practicable) što niži mogući rizik (od požara): The remaining fire risk should then be As Low As Reasonably Practicable (ALARP). https://safety4sea.com/

Alcohol /ˈælkəhol/ alkohol ingest alcohol konzumirati alkohol

Alcohol consumption (n) (med, safety) uzimanje alkoholnih pića, konzumacija alkoholnih pića: It is likely that the his consumption of alcohol contributed to the seafarer's injury. Alcohol consumption limits granične količine alkohola u krvi: The alcohol limits were higher than those legally required

Alcohol content (n) (hum_resources) sadržaj alkohola u krvi: The loss of co-ordination was due to his blood alcohol content being more than double the prescribed limit. www.gov.uk/maib

Alcohol free (n) (med) negativan test na alkohol: Alcohol tests were conducted on all staff on duty shortly after the incident and the results were satisfactory i.e. negative. The vessel is alcohol free.

Alcohol limit (n) (safety) granica alkohola u tijelu: The Captain of the ship was fined $1,000 and removed from his position for exceeding the alcohol limit in ... waters,

Alcohol test (n) (mar law) test na alkohol: Alcohol tests were conducted on all staff on duty shortly after the incident and the results were satisfactory i.e. negative. (The vessel is alcohol free);

Conduct an alcohol test obaviti test na alkohol

Aldis lamp /ˈɔːldis/ (n) (navig, comm) aldis lampa

https://commons.wikimedia.org/wiki/File:Aldis_lamp.jpg

A-lee /əˈliː/ (=lee) (v) (navig) to the leeward side; on the lee side of a ship; away from the ship niz vjetar, u zavjetrini

Alert /ˈɔːlərt/ (adj) budan: Moving around the bridge will also keep you stimulated and alert! If the skipper and the deckhand had been more alert and had maintained a good lookout, they would have
alert (v) uzbuditi, uzbuniti, alarmirati: The master was immediately alerted and ordered wheel hard over to port. He alerted the coastguard and gave their position. The VTS officer then alerted the local tug skippers and placed them on standby to provide rapid assistance if needed. www.gov.uk/maib The master alerted his crew and then called the company’s emergency telephone number and reported the situation. www.gov.uk/maib Ship-to-shore distress alerts or calls are used to alert rescue coordination centres via coast stations or coast earth stations that a ship is in distress. (ITU-R)

alert the pasengers and crew uzbuditi i posadu, alert the vessels in vicinity! Alarmirajte brodove u blizini!

alert (n) (comm, safety) uzbuna, znak uzbune, signal uzbune: On receiving the alert from VTS, the pilot ordered the engine to full ahead, helm hard- a-port and instructed the tug to pull on the vessel’s port quarter. DSC alert 1 znak uzbune putem DSC-a: If you have DSC radio, you could try a ‘securité’ DSC alert followed by a voice broadcast. 2: The MF/HF DSC frequencies are reserved exclusively for DSC alerts associated with distress, urgency and safety messages.

inadvertent distress alert greškom poslan signal o pogibli, safety alert signal uzbune o sigurnosti, signal sigurnosti, urgency alert signal uzbune o žurnosti, signal žurnosti, alert button dugme za uzbunu: The skipper pressed the Digital Selective Calling (DSC) distress alert button on the VHF radio and the coastguard responded immediately. 
raise the alert podići uzbunu, uključiti uzbunu: Both the RNL I and RYA strongly recommend to raise the alert in the case of an emergency. issue alert poslati signal uzbune o pogibli, izdati signal uzbune o pogibli: The maritime administration said there was no ocean pollution, and issued alerts to nearby vessels to avoid the collision area.

alerting post (n) (safety, comm) Any facility intended to serve as an intermediary between a person reporting an emergency and a rescue co-ordination or rescue sub-centre”. (IAMSAR Manual); sustav za posredovanje između osobe koja izvještava o opasnosti i Spasilačkog koordinacijskog centra (RCC RH/MRCC RH) ili Područnog centra za potragu i spašavanje (RSC/MRSC); (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html) točka uzbunjavanja (u potrazi i spašavanju na moru), mjesto uzbunjavanja (u potrazi i spašavanju na moru): Alerting posts include facilities such as air traffic services (ATS) units or coast radio stations (CRSs). central alerting post središnje mjesto uzbunjavanja (u traganju i spašavanju)

alertness /əˈlɜːt nɪs/ (n) (safety) budnost: Drinking alcohol, especially in combination with being tired, will reduce alertness and will affect judgment and perception. 

alert phase (n) (safety, navig) stupanj opasnosti koji određuje centar za koordinaciju traganja i spašavanja ako postoji sumj a u sigurnost plovnoga objekta i osoba na njemu, zbog toga što nakon utvrđivanja stupnja neizvjesnosti nije uspio pokušaj uspostavljanja veze s plovnim objektom stupanj pripravnosti: During the ALERT phase of a maritime emergency, the SMC should, where possible .1 Issue an “All stations” broadcast under the urgency PAN PAN prefix for information on the vessel or, if the vessel is disabled, to locate vessels able to render assistance.; .2 Alert personnel and SAR facilities, and plan initial briefing of SAR crews.; ..;

alert response (n) (safety) reakcija na uzbunu o pogobili, akcija nakon primitka signala o pogibli

alidade /æliˈdeid; ˈæliˌdæd/ (=alidad) (n) (navig) a device that allows one to sight a distant object
and use the line of sight to perform a task **alidada**

**align** /əˈlain/ (v) (marine eng) **centrirati, poravnati** align with **poravnati s**: The master used considerable lateral thrust to try and align his vessel with the linkspan.

**align** (v) (navig, ship handling) **poravnati s** (obalom / gatom): The pilot next ordered the engine “dead slow ahead” to align the vessel with the dock. [https://safety4sea.com/](https://safety4sea.com/)

**alignment** /əˈlainmənt/ (n) (marine eng) **centriranje, poravnavanje** out of alignment: The port drive unit was found to have been moved out of alignment and the drive shaft had sheared, requiring dry dock repairs. **izvan centra, necentriran, alignment tool alat za centriranje**: The stowage had a working platform from which the riggers could access the top of the alignment tool to connect the slinging arrangements when it was to be deployed.

**alleged** /əˈledʒd/ (adj) (mar law) navodni

**all-electric ferry** (n) (nav arch) [https://www.cnbc.com](https://www.cnbc.com): An all-electric ferry capable of carrying 30 vehicles and 200 passengers has completed its maiden voyage.

**Allen wrenches** (=Allen keys) (n) (marine eng) usadni ključevi

**alleyway** /ˈæliˌwei/ (n) (nav arch) an internal passageway or corridor in the vessel; a passage between two rows of cabins in a ship brodski hodnik, prolaz, kanižela: He peered down the access hatch and saw smoke in the main alleyway below, but he could not see where it was coming from. Two of the crew, wearing BA, entered the alleyway and confirmed that black smoke was coming from a dry store, which was directly under the area where the hot work had been taking place.

**all hands** (n) (comm, seamanship) entire ship’s company, both officers and enlisted personnel svi članovi brodske posade (časnici i mornari): The master sounded the fire alarm and made a public address announcement ordering all hands to their emergency muster stations. The master
instructed him to contact the pilot 2 hours before the vessel was due to arrive at the pilot station, and to call all hands 30 minutes before the pilot boarded. All hands! poziv svim članovima posade, pozor svim članovima posade

**all-hatch ship** *(nav arch)* otvoreni brod, all-hatch brod

allide with /əˈlaɪd/ (v) sudariti se (s foksnim objektom u luci, plovnom kanalu): A containership allided with the pier in the port, causing damage to the pier and unknown damage to the ship. www.gCaptain.com

all in (prep) *(mar law, shipping econ)* The total price to move cargo from origin to destination, inclusive of all charges. prijevoz i ostali troškovi uključeni

**allision** /əˈliːʒən/ *(n) (mar law, US)* the striking by a moving vessel against a stationary object; an event when a ship strikes a fixed object, such as a reef, dock or piling sudar broda s čvrstim objektom na moru, udar broda o čvrst objekt na moru (plutaču itd.), alizija: The bulk carrier was involved in an allision with the ...-registered container vessel. The tanker lost propulsion and struck two mooring dolphins on the Houston Ship Channel. The allision punctured the tankers hull plating, causing the release of about 88,000 gallons of low-sulfur marine gas oil which suddenly ignited in a massive fire ball. http://gCaptain.com Within a few minutes, there was an allision with significant impact and the bridge centre pillar. https://safety4sea.com/

allocate /əˈlɔːt/ (v) *(mar law, shipping econ)* doznačiti, isplatiti: If the Master and a seafarer agree, a portion of such seafarer’s earnings may be allotted to such seafarer’s spouse, children, grandchildren, parents, grandparents, brothers or sisters or to a bank account in the name of the seafarer.

**allotment** /əˈlɔt먼/ *(shipping econ, mar law)* a allotman, predviđena partija tereta za brod

**allotment** *(n) (shipping econ)* a share of the capacity of a means of transport assigned to a certain party, e.g. a carrier or an agent, for the purpose of the booking of cargo for a specific voyage dioba prijevoza tereta (na različite brodare, agente itd.), dio tereta u prijevozničkom poslu (dodijeljen drugom brodaru, agentu itd.)

**allotment** *(n) (shipping econ, mar law)* doznaka (dijela) plaće, dio plaće allotment note doznaka (plaće), priznanica obiteljske doznake: Any Employee shall be granted an allotment note payable at monthly intervals, of up to 80% of her/his wages

allowance /əˈloʊns/ *(marine eng)* The difference between the minimum and the maximum dimensions of proper functioning. (http://www.marinedieseleurope.com/) tolerancija, toleranca

**allowance** *(shipping econ)* naknada, platni dodatak (npr. za dnevnice), doplatak daily subsistence allowance (DSA) dnevnice, dodatak za dnevnice, iznos dnevnica; 2 bonus, naknada: In such cases the allowance shall be an extra 1.5 of
allowed lay time  (n) (mar law) The number of hours allowed for loading and discharging a cargo as stipulated in a Charter Party. (https://www.euronav.com/en/)

allow for /əˈlɔː f ə/ (v) 1 uračunati, uzeti u obzir: Sufficient staff must be available to allow for safe working on the manoeuvring stations in connection with the rope operations. allow for leeway (navig) uzeti u obzir zanošenje broda, uračunati zanošenje broda; 2 omogućiti: Since this accident, the ferry company, in conjunction with the harbour authority, has amended the passage plan to allow for a wider approach to the entrance.

allowing for 1 uračunavanje, uzimanje u obzir allowing for stream and leeway uračunavanje struja i zanošenja; 2 dopuštanje

allow to sail (v) (mar law) dopustiti isplovljenje (brodu): The ship was allowed to sail only after the Maritime Authorities received a formal written undertaking from the ship’s insurer that it will pay fines and other amounts that are agreed or imposed by a court in relation to Maritime Authority’s costs in responding to the incident. http://www.shippingandfreightresource.com/

alloy /ˈælɔɪ ; əˈloʊ/ (n) (marine eng) slitina, legura aluminium alloy alumiunijska slitina, alumiunijska legura, copper alloy bakrena slitina, copper-based alloy slitina na bazi bakra, ferrous alloy željezna slitina, light alloy lagana slitina, tin-based alloy kositrena slitina, slitina na bazi kositra

alloyed /ˈælɔɪd/ (adj) (marine eng) legiran, slitinast

alloyed steel (n) (marine eng) legirani čelik

all-round light (n) (navig) svjetlo vidljivo sa svih strana, svjetlo u 360 stupnjeva, okruglo svjetlo: Rule 27 Vessels Not Under Command or Restricted in Their Ability to Maneuver (a) A vessel not under command shall exhibit: (i) two all-round red lights in a vertical line where they can best be seen; During the pilotage period, the vessel had been constrained by her draft, and had displayed the appropriate signal of three all round red lights in a vertical line.

all standing (n) to bring up all standing naglo zaustaviti jedrenjak 1 (sailing/boating/yachting) fully rigged; to have all sails flying when running before the wind

https://www.ypiyachts.com/ s punim jedriljem, potpuno opremljen; 2 (sailing/boating/yachting) sidrenje jedrenjaka pod prevelikom brzinom broda (s punim jedriljem), kruženje pod punim jedrima, bez pripreme

all-weather-lifeboat (=ALB) (n) (nav arch, safety) brodica za spašavanje u svim vremenskim uvjetima: Meanwhile, the second officer notified the coastguard, who tasked the All Weather Lifeboat (ALB) and the Coastal Rescue Team. At 0049, the ALB arrived on scene and confirmed that there was no damage visible above the ship’s waterline and no pollution. MAIN Report 11/2018

almanac /ˈɔːlməˌnæk/ (n) (navig) godišnjak, almanah nautical almanac nautički godišnjak, nautički almanah

aloft /əˈloʊft/ (adv) 1 (navig, sailing/boating/yachting) above the upper deck; overhead or high above; above; toward or in the rigging above the deck; anything that might be above deck in the rigging or mast gore: Once the ferry was safely alongside, the chief engineer went aloft to check the uptakes, and found traces of white smoke and a smell of burning oil; 2 (seamanship) iznad palube: It is easy to become distracted when working aloft. Kada se radi iznad palube lako dolazi do ometanja / svraćanja
Personnel should avoid microwave radiation hazard by keeping clear of an operating scanner. If working aloft on the scanner unit or other equipment near the scanner unit.

Vessel A was starboard side alongside and carrying out a cargo operation.

The ship arrived alongside in the port at 1100. Brod je stigao na vez u luci u 1100 sati.

During the evening of 11 February 2015 the container ship was alongside in the port of Jebel Ali. A workboat was coming alongside a dredger to conduct a personnel transfer.

The ship moored port side alongside another ro-ro berth and discharged her cargo.

A 100m long, LPG tanker was ready to sail from a river jetty, to which she was secured port side alongside and head upriver.

The general cargo ship was alongside at Barking, London, port side to the quay. www.gov.uk/maib, alongside the ship uz bok broda.

Two tugs should be used alongside the ship until the undocking maneuver is completed ...

Goods delivered “alongside” are to be placed on the dock or barge within reach of the transport ship’s tackle so that they can be loaded. slobodno uz bok broda, franko uz bok broda.

The alarm indication system should identify the space, indicating the presence of water in the...
compartment being monitored if reaches the sensor.

**Altair** /ˈæltər/ (n) (navig) a first magnitude star often used in celestial navigation; the brightest star in the constellation Aquila, zvijezda Altair

**alter** /ɔːltər/ (v) (navig, mar law) promijeniti (smjer / kurs): If vessel B had not altered to starboard there would not have been a collision. Da brod B nije promijenio kurs u desno, ne bi bilo došlo do sudara.

**alteration** /ˌɔːltərəʃən/ (n) (navig) promjena (kursa): Accordingly, at approximately 0013, with the bulkcarrier 3.4nm off the trawler’s port bow, the trawler’s skipper began the first of several alterations to port. A single, broad alteration was not possible because the trawler’s manoeuvrability was limited by its fishing gear. The cargo vessel’s passage plan was to alter course by 60 degrees at the edge of the south-west traffic lane; The master made an alteration of course to starboard to a heading of 300°

**course alteration** promjena kursa: The turn involves two substantial course alterations: one to port abeam of the Prince Consort buoy of up to 40° and one to starboard, close to the Gurnard buoy, of about 140°.

**alteration of course** (n) (navig) promjena kursa: An alteration of course of just 10 degrees, when only 3 miles from the other vessel, was not enough to avoid a close-quarters situation. The planned track involved a 40° alteration of course just one ship’s length before the entrance to the channel.

**make an alteration of course** izvesti promjenu kursa, promijeniti kurs: However, after having made an alteration of course of nearly 30 degrees to port, the port side of the fo’c’sle inevitably collided with the other ship, causing structural damage. The OOW knew that he had to make a planned 21° alteration of course to starboard 10 minutes later and, because the ARPA radars would not acquire the contact, he decided that the planned alteration would a substantial alteration of course.

**alteration of course** značajna promjena kursa, jača promjena kursa: A short time later, a substantial alteration of course was made, which took the vessel from her planned track onto a heading towards the coastline, 45 miles away.

**alteration of course u lijevo / desno**: The vessels were very close as they entered a precautionary area where the cargo vessel made a planned alteration of course to port to head towards the next traffic lane. He decided to continue the alteration of course to starboard to place the yacht on the vessel’s port bow.

**alteration of course from ... to ... promjena kursa sa ... na ...**: Soon afterwards, the second officer plotted the vessel’s position on the chart and initiated a planned alteration of course from 110 degrees to 118 degrees using the autopilot.

**alter course** /ˈæltər/ (v t) (navig) promijeniti kurs: The pilot ordered the helmsman to alter course from 124° to 149° alter course to port / starboard promijeniti kurs u lijevo / desno: Immediately after crossing, she inexplicably began to alter course hard to starboard and turn back towards our vessel. The tanker’s master assumed that the container ship would alter to port on leaving the buoyed channel and pass astern. While Vessel 1 conveyed to Vessel 2 that it would be altering her course to port in order to leave the anchorage areas and proceed towards the Hormuz Strait.

https://gCaptain.com The pilot informed the ferry’s master that he was altering course hard to starboard.

**alternating current** /ˈæltərɪŋ/ (AC) (n) (electr) COMPARE direct current

**izmjenična struja** alternating current generator generator izmjenične struje

**alternating light** naizmjenično svjetlo, svjetlo s promjenom boje

**alternative fuel** (n) (marine eng) alternativno gorivo: Interest in alternative fuels is growing because of the rising cost of diesel fuel, with liquefied natural gas (LNG) looking most promising, with production increasing by 6% to 8% a year, no sulphur and low emissions.
An alternative fuel for compression ignition engines is di-methyl ether (DME).

alternative maritime power (=AMP) (n) (electr) = cold ironing kopneni električni priključak, obalni priključak (na električnu struju)

alternative port (n) (mar law, logist, mar ins) COMPARE safe port alternativna luka: When the intended port is closed, the cargo owner / charterer would be obliged to nominate an alternative port. This is often not possible as there will not be any alternative destination the cargo can be discharged at. (https://safety4sea.com/)

alternative propulsion (n) (marine eng, nav arch) alternativni pogon broda: In recent years, increasing oil prices have prompted interest in alternative propulsion options and changes in fuels for merchant ships. https://www.raeng.org.uk/publications/reports/future-ship-powering-options

alternator /ˈɔːltərətər/ (n) (electr) generator izmjenične struje, alternator: The diesel alternator supplying the bow thruster had shut down due to low lubricating oil pressure. shaft alternator osovinski generator: Stopping the engine had also stopped the shaft alternator which was used to power the bow thrust. 3rd Engineer started No.2 generator and transferred vessel’s electrical load from shaft alternator on to No.2 generator and prepared the dredging pump which would be powered by the shaft alternator. https://safety4sea.com/, emergency diesel alternator dizel generator za nuždu, pomočni dizel generator: The ferry was also provided with an Uninterruptible Power Supply (UPS) and an emergency diesel alternator; both were ready to operate automatically when needed., engine-driven alternator generator pogonjen glavnim strojem: The mechanic changed the batteries, checked the engine-driven alternator output and restarted the heater.

although /əˈlɔːðəl/ (conj) = though iako, premda, makar, mada: Although a safety discussion took place, no formal risk assessment or permit to work was completed. The vessel was being steered by autopilot and, although a bridge navigation watch alarm system (BNWAS) was fitted, it was not switched on.

altitude /ˈæltətjuːd/ (n) (navig) (in celestial navigation) the angle a celestial body makes with a point on the horizon vertically below this object visina (nebeskog tijela, objekta na kopnu, oznake)

altocumulus /æltəˈkjuːmjəlas/ (n) (meteorol) altokumulus

altostratus /ˌaltəʊˈstrætəs, ˈstreɪtəs/ (n) (meteorol) altostratus, visoki gusti oblak

aluminium /əˈliːmjuːn (UK); əˈluːmin (US Canadian)/ (=Al) (n) aluminij

ama (=amas; vaka, va’a) (n) (inland waterways) the outrigger hull(s) of a trimaran, Polynesian fishing boat ama, waka amas (modern sailing boat) izbačeni krak

(trimarana)
amber jack (n) (fishing) = yellow tail gof
ambiguity potential (n) (navig) višeznačnost očitavanja (u navigacijskom sustavu)
ambulance boat (n) (nav arch, med, safety) Boat designed for patient transfer, emergency response, outpatient treatment, transfer of medical supplies at sea, river, or lake.

amend (v) promijeniti, izmijeniti, popraviti: The 2/O amended the passage plan on the ECDIS at the port bridge conning position. The master instructed the 2/O to amend the passage plan to route via the traffic separation scheme (TSS).

Amendment/Cancellation Charge levied by the port/terminal for amending or cancelling any documentation/activity lodged with them (e.g. passing an amending document for change of destination of a container, or the export of that container needs to be stopped etc.)

amenities /əˈmiːnɪtɪz/ (=amenity) (n) facilities or services offered (at a port, marine, etc.); amenities such as shopping centres or sports facilities that are provided for passengers’ convenience, enjoyment, or comfort. sadržaji, ponuda, popodnosti: The vessel is optimized for high
durability, low maintenance and efficient operation, whilst delivering a high level of passenger comfort and amenity. https://gCaptain.com amenities in the marina (sailing/boating/yachting) sadržaji u marini (sve što se nudi u marini), amenities near the marina (sailing/boating/yachting) sadržaji blizu marine

American Bureau of Shipping (=ABS) (n) (nav arch, mar law) The American Bureau of Shipping is a U.S. classification society that certifies if a ship is in compliance with standard rules of construction and maintenance. Američki registar brodova

America’s Cup (n) (sailing/boating/yachting) jedriličarsko natjecanje America's Cup, Jedrličarsko natjecanje Kup Amerike: The America’s Cup, the pinnacle of yachting, was first contested in 1851 making it the oldest trophy in international sport, predating the modern Olympic Games by 45 years. https://www.americascup.com/en/history The 36th America’s Cup Match will be held in Auckland, New Zealand, from the 6th to the 15th of March 2021 and will see the Defender Emirates Team New Zealand racing against the winner of the PRADA Cup, the Challenger Selection Series, with the winner being the first team to score seven points. https://www.americascup.com/en In explaining the team members, the America’s Cup said, “Each team is allowed 6 crew members onboard the America’s Cup Class boats which will be raced in the 35th America’s Cup. America’s Cup team members posada jedrilice u natjecanju

America’s Cup: “The helmsman is responsible for speed, starts and split-second decision-making. The skipper is key to the team, he must have the X factor to make a good team great. Generally the skipper is also the helmsman, ...; “The wing trimmer harnesses the power of the towering sail by controlling the camber and angle of the wing for the best performance and speed in all race conditions; “The tactician has to have a nose for the wind and a chess player’s brain, and be the eyes of the helmsman. He is the central processor of all onboard data and information; “Each team has four grinders onboard [including the tactician]. A grinder is constantly turning the handles on the grinding pedestals to charge the hydraulic system with energy to move all the components that influence the performance of the boat.

https://bernews.com/2017/04/get-know-6-crew-onboard-acc-boats/
amidships /əˈmɪdʃɪps/ (adv) (n) In the middle portion of ship, along the line of the keel. sredina broda, srednji dio broda, po sredini, u sredini: The big tanker struck the smaller vessel amidships, breaching her hull and rupturing a fuel tank. The RIB then circled back into mid-stream and collided with the passenger vessel for a second time, this time amidships on her port side. In the early hours of the morning, the ship was struck amidships on the port side by a large wave. put the wheel amidships staviti kormilo u sredini: Seconds later, the master saw the cliffs emerge through the fog and, realising he was about to ground, he put the wheel amidships to take the impact on the bow and so minimise the chances of serious damage and pollution.
amidship(s) (adv) In or towards the middle of a ship in regard to length or breadth u sredini broda: She struck the smaller vessel amidships, breaching her hull and rupturing a fuel tank.
ammeter /ˈæmˌmɪtə/ (n) (electr) ampermetar
ammonium /əˈmɒnjəm/ (=ammonia (pl.); NH3) (n) (chem) amonij, amonijak: Wärtsilä has started testing ammonia as a potential fuel to help the shipping industry reduce its greenhouse gas emissions. https://gCaptain.com The experts discussed ammonia as a potential solution for carbon-free shipping. The flammability of ammonia is relatively limited, as it is limited in a specific range between 15-25% LEL and UEL. This is a blessing and a problem at the same time. A blessing because it is more difficult to ignite it, and problem because we need to enhance its ignition capability via pilot fuels. https://safety4sea.com/ The advantage of ammonia used as fuel is that it contains no carbon but it needs pilot fuel for combustion. https://safety4sea.com/ Ammonia appears preferable over hydrogen because hydrogen is expensive to store and handle, particularly onboard a vessel. https://safety4sea.com/ green amonia zeleni amonijak (za pogon proda): The Iverson project will have an initial electrolyzer capacity of 240 megawatts to produce 600 metric tons of green ammonia per day, ...
Among other zero-emission fuels, green ammonia is seen as central to deliver on these objectives due to its potential scalability and application on long-distance routes. https://www.globalmaritimeforum.org/

amount /ˈmaʊnt/ 1 iznos gross amount ukupan iznos, bruto iznos amount of rudder (navig) iznos zakreta kormila, stupanj zakreta kormila: The OOW did this while watching the buoy over the timber deck cargo from behind the starboard radar display; he did not monitor the amount of rudder used, or the rate the ship was turning.; 2 količina: On their arrival, the coastguard noticed a considerable amount of pollution in the vicinity of the propeller, and the decision was taken to remove the vessel to a nearby slipway. The skipper told some other fishermen that a significant amount of water had entered the vessel’s under deck area, and that he had experienced some problems with a bilge pump. On the return passage from the other harbour, the bridge team discussed the event further, and decided to restrict the amount of cargo they would load in order to produce a shallower draught.

amount claimed (n) (mar ins) traženi iznos (odštete) determine the amount claimed utvrdiri iznos odštete

amphibious craft; amphibian /æmˈfɪbiən/ (nav arch) amfibija: A fire broke out inside the hull of the amphibious vessel operated on the River Thames by.....

ample time (n) (navig, safety, mar law) dovoljno vremena in ample time If you accept that a TCPA of 12 minutes in open waters means you are now in a close quarters situation, then “made in ample time” means taking action at least 12 minutes before collision. (www.safety4sea.com)

pravodobno, na vrijeme

amplifier /ˈæmplɪfaɪər/ (n) (electr) pojačalo

amplitude /ˈæmplɪtjuːd/ (n) (navig) a measurement of the arc between true East or West and the plane of a selected star or planet at a precise moment in time amplitude

AMS (=Automated Manifest System) (n) (logist) AMS is the abbreviation for Automated Manifest System. https://www.logisticsglossary.com/term/ams-filing/ automatski sustav prijave tereta na brodu (manifesta tereta)

AMVER (=Automated Mutual-Assistance Vessel Rescue System) (n) (navig, safety) a worldwide maritime mutual assistance organisation which provides important aid to the development and coordination of Search and Rescue; a world-wide ship reporting system for search and rescue.; The Automated Mutual Assistance Vessel Rescue System (Amver) is a voluntary ship reporting system operated by the United States Coast Guard (USCG). (Camsar2014) Automatski sustav međusobne pomoći brodova

anchor /ˈæŋkər/ (n) (ship’s equipment, seamanship) sidro, kotva, ankora; Italian: ancora: He always kept his anchor ready%bb for such eventualities and was able to let it go without delay. All anchors are a compromise. Large, heavy anchors may hold better but are difficult to store and manage aboard. Lightweight anchors are easy to deploy but don’t set as quickly and tend to drag

https://www.practical-sailor.com anchor gear sidreni uređaj, anchor watch straža na usidrenom brodu: Demonstrating a good anchor watch, the chief officer of the anchored vessel ensured that, when the accident happened, the alarm was raised quickly and the crew were able to summon., heave up anchor podići sidro (i zaploviti): Heave up anchor and proceed! Podignite sidro i krenite!, let go anchor obroriti sidro, spustiti sidro: The vessel’s
starboard anchor was let go in an attempt to prevent a collision with the berthed ferry. Operating in confined waters, the forward mooring team is normally at hand to let go the anchor if required. raise anchor podizati sidro, anchor up and down sidro okomito u moru, sidro a piko, lower anchor spuštati sidro, stow the anchor podići sidro u sidreno oko, veer the anchor izvući sidro iz sidrenog oka, walk out the anchor izvući sidro iz sidrenog oka (tako da visi iznad mora ili u moru): The master decided to continue heading for the berth at reduced speed, and to berth without bow thrusters by walking out the starboard anchor. drop the anchor spustiti sidro, oboriti sidro: He returned to the bridge to assess the navigational situation, and decided to stop the starboard main engine and drop the anchor. Still unable to regain control, the master ordered the starboard anchor to be dropped as well. The Master realised that the vessel was not slowing down so he ordered the port anchor to be dropped and full astern on the engines. https://safety4sea.com/, stock anchor sidro s kladom, anchor a-peak sidro okomito i iznad dna, Italian: ancora a picco lungo, secure the anchor pričvrstiti i osigurati sidro, ease out the anchor of the hawse-pipe izvući sidro iz sidrenog oka, set the anchor spustiti sidro, postaviti sidro, starboard anchor desno sidro: The chief mate called the duty seaman and ordered him to proceed forward to heave-in the starboard anchor and, once that was complete, to rig the pilot boarding ladder. port anchor lijevo sidro: After weighing anchor, the bosun and a seaman had secured the port anchor and had begun stowing three loose mooring lines down into the forward store room. drag the anchor orati (o sidru): Had the OOW noticed that the ship was dragging anchor, and acted quickly and decisively in calling the master and engineer, the grounding could have been avoided. Da je časnik straže primijetio da sidro ore i da je brzo reagirao i pozvao zapovjednika i upravitelja stroja, nasukavanje bi se bilo moglo izbjeći. Despite the two anchors cast off Etel river, the vessel dragged anchor and stranded on Kerminihy beach, provoking an oil pollution. weigh anchor podizati sidro (s dna), podići sidro (i zaploviti): The master left night orders for the main engines to be at standby, and to start weighing anchor at 1315. After the loading operations were completed, she weighed anchor and proceeded seawards, her escort tug letting go and her two pilots disembarking near the entrance to the deepwater bay. recover the anchor podići sidro (na brod): The master over-estimated the ability of the anchor windlass and the crew to recover the anchor while the vessel was dragging, secure the anchor pričvrstiti i osigurati sidro: After securing the anchor once again, the passage was resumed to the next port, where repairs had been arranged by the shore management. bury the anchor ukopati sidro: The anchor is buried in the seabed and holding.
Northern Jupiter remained at anchor near Singapore as of Tuesday, January 28, 2009.

**anchor** (navig, safety) sidrište: The vessel remained at anchor near Singapore as of Tuesday, January 28, 2009.

**anchorage** (navig) a sheltered place suitable for anchoring in relation to the wind, seas and seabed; area of a port or harbour sidrište: The weather deteriorated while the ship was at the anchorage, and the ventilators were closed as a result.

Working anchorage trgovačko sidrište (za obavljanje operacija ukrcaja/iskrcaja), designated anchorage naznačeno sidrište, propisano sidrište, leave anchorage napustiti sidrište: during NNE gales (in winter) a vessel could be forced to leave anchorage and seek shelter under the lee of the nearby island Krk. Inner anchorage nutarnje sidrište, outer anchorage vanjsko sidrište, lift the anchorage podići sidro, safe anchorage sigurno sidrište, exposed anchorage nezaštićeno sidrište, otvoreno sidrište, sheltered anchorage zaštićeno sidrište: Strong winds were being forecast for the coming night so it was decided to find a sheltered anchorage.

**anchor** (v) usidriti se, usidriti brod: Berthing in this particular harbour was restricted to daylight, therefore on arrival at 0130, the vessel was anchored.

Navigation within the port limit encompassed the approach channel, the short-term anchorage and the pilot boarding area. Anchorage circle krug sidrenja, područje sidrenja: The position indicated that the vessel (bridge) was still 40 metres inside the anchorage circle on the chart. Open anchorage otvoreno sidrište, nezaštićeno sidrište: The vessel was sent to an open anchorage in deep water, but a few days later the wind increased and she dragged anchor twice more.

Position požicija sidrenja: The master also saw that there was another vessel anchored and taking on bunkers to the east of his intended anchorage position. Safe anchorage sigurno sidrište: The pilot immediately called for tugs and the vessel was taken to a safe anchorage where the crew discovered that the sea water inlet filter of the fresh water cooler was blocked. Designated anchorage područje namijenjeno za sidrenje, područje određeno za sidrenje: A laden tanker anchored outside the entrance of a traffic separation scheme (TSS) in a designated anchorage to await the next rising tide in order to proceed upriver to discharge her cargo. Leave the anchorage napustiti sidrište, ispolviti sa sidrište: The Master left instructions on when he should be called and when the crew should begin making preparations to leave the anchorage. Inner anchorage nutarnje sidrište: The VTS agreed that the vessel could use the inner anchorage since the area of the anchorage is outside the area of compulsory pilotage. Outer anchorage vanjsko sidrište, otvoreno sidrište, assigned anchorage dodijeljeno sidrište, mjesto sidrenja određeno brodu: The master came to the bridge at 0115, and confirmed with the second officer the assigned anchorage. Deep-water anchorage sidrište za brodove s velikom gazom, sidrište za prekooceanske brodove: This passage plan should have been changed to pass outside the
Humber deep water anchorage, reach the anchorage doploviti do sidrišta: The vessel reached a Singapore anchorage on June 24 for a detailed inspection to assess the extent of damage.
www.gCaptain.com The ship had reached anchorage No. 3 by 1800 and anchorage No. 2 by 1845.
https://safety4sea.com/; 2 Port charge relating to a vessel moored at approved anchorage site in a harbour. nakanđa za sidrenje

**anchorage dues** (n) (mar law) naknade za sidrenje, pristojbe za sidrenje
**anchor arm** (n) (nav arch) krak sidra
**anchor awash** (n) (navig, seamanship) the anchor is awash, when it is hove up to the surface of the water sidro izvan vode, sidro izvučeno na površinu vode
**anchor aweigh** (n) (navig, seamanship) said of the anchor when just clear of the bottom; The anchor is aweigh when an anchor is just clear of the sea bed. sidro podignuto s morskog dna:
Following a temporary suspension in operations due to a hydraulic line failure, the anchor was aweigh at 1039. Anchor's aweigh!
**anchor ball** (n) (navig) round black shape hoisted in the forepart of a vessel to show that it is anchored
**anchor bed** (n) (nav arch) sidrena stjelja
**anchor bell** (n) (seamanship) a warning bell on the forecastle used while the ship is at anchor in foggy weather zvono za označavanje broda na sidru u magli
**anchor bend** (n) (seamanship, sailing/boating/yachting) a very secure knot used to tie rode (anchor cable) to anchor uzao za sidro
anchor bill *(n)* (nav arch) šiljak lopate sidra
anchor billboard *(n)* (nav arch) A structure on the deck of a vessel upon which the anchor is mounted when not in use [https://officerofthewatch.com/](https://officerofthewatch.com/)
anchor bridle *(n)* 1 *(sailing/boating/yachting)* Anchor bridles (and snubbers) are lengths of nylon line attached to a chain hook. They are used while anchored to create a direct link between an all-chain anchor rode and strong points on the boat - bypassing the windlass. uže za premoštavanje i
anchor buoy  

(1) (navig) plutača za sidrenje; 2 a small buoy secured by a light line to an anchor to indicate position of anchor on bottom oznaka sidra

anchor cable  

(n) veer the anchor cable puštati lanac putem vitla: To veer cable is to let it run out under control., surge the anchor cable puštati da lanac izlazi slobodnim padom: To surge cable is to let it run out under its own weight.; check the anchor cable zaustaviti lanac kočnicom: To snub or check cable is to stop it running out by putting on the brake., snub the anchor cable zaustaviti lanac kočnicom, anchor cable is taut lanac je napet, anchor cable is slack lanac je labav, pay out the anchor cable puštati sidreni lanac, ispuštati sidreni lanac: The failure of the windlass also meant that more anchor cable could not be paid out., anchor cable position

pozicija sidrenja, mjesto sidrenja: While turning in the anchor position at 16531, the ship suddenly listed to starboard. The master intended to put the engines astern when 6 cables from the anchor position., anchor anchor cable straža na sidru, gvardija broda na sidru: The additional benefit of setting an anchor watch is that it should enable the other crew to sleep soundly and obtain quality rest., anchor cable party grupa zadužena za sidrenje: The vessel was dragging her anchor again, so the master called the anchor party and ordered the anchor to be heaved in., secure the anchor cable pričvrstiti i osigurati sidreni lanac: Assisted by two able seamen, the chief officer managed to secure the anchor cables using chain cargo lashings. (seamanship,
The anchor chain now prevented the weight being taken off the anchor cable to allow the windlass to be taken out of gear so that the anchors could be let go under gravity. The cable “grows” in the direction it leads outside the hawse pipe. The anchor cable grows sidreni se lanac podiže: When a cable is at short stay lanac je kratak, lanac je napet i ide okomito prema sidru: When a cable is at short stay, it is taut and leads down to the anchor vertically, anchor cable is at long stay lanac je dug, lanac je dug i pod kosim kutem prema moru, lanac vodi naprijed: when it is at long stay it reaches out and makes an acute angle with the level of the water., ship at anchor cable brod na sidru, usidreni brod: Passing close ahead of a ship at anchor is potentially perilous, but if it is unavoidable, the effects of the tidal stream, wind and a ship’s manoeuvrability need to be taken into account.

anchor chain (n) (nav arch) chain connecting the ship to the anchor sidreni lanac, kadina, kadena: Twenty four hours later, after dragging the anchor and chain along the sea bed with the rig crane's assistance we were able to recover the grapple to our deck, the tanker's anchor and all of its chain. ... the anchor chain has been tensioned beyond the intended safe loading of its windlass. haul in anchor chain povlačiti sidreni lanac na brod, pay out anchor chain puštati sidreni lanac (kako se brod odmiče od sidra), run out anchor chain izvući sidreni lanac, ispuštati sidreni lanac

**anchoring operation** *(n)* (navig, seamanship) operacija sidrenja, sidrenje

**anchoring orders** zapovijedi za sidrenje, Italian: ordini per manovrare le ancore

**anchoring position** *(n)* (navig, seamanship) pozicija sidrenja, mjesto sidrenja:

Approaching the planned anchoring position on a roughly south westerly heading, the vessel ran aground at 1435 on a rock pinnacle charted as an isolated danger. The vessel proceed to find another anchoring position at outer area in N-5 anchorage. https://safety4sea.com/

**anchoring system** *(n)* (sailing/boating/yachting, nav arch) sustav sidrenja, sidreni uređaj:

Your anchoring system is only as strong as its weakest component, which includes not only the rode, but also shackles, splices, mooring bitts, cleats https://www.practical-sailor.com/issues/44_9/features/Ground-Tackle-Inspection-Tips_12479-1.html

**anchoring tackle** *(n)* (navy) sidreni uređaj, uređaj za sidrenja

**anchor is apeak** (ship handling, seamanship, navig) sidro okomito ispod pramca

**anchor is clear of water** (ship handling, navig) sidro podignuto iznad vode

**anchor is dragging** (navig, ship handling) sidro ore (zbog sila vjetra, struje, valova): An anchor is dragging when through stress of wind or tide it does not hold well, and is drawn along the bottom. After a while, the weather deteriorated and the vessel began dragging her

**anchor is dredging** (navig, seamanship, ship handling) namjerno orati sidrom / povlačiti sidro kako bi uhvatio sidro hvata: Are you dredging anchor? Yes, I am dredging anchor. / No, I am not dredging anchor. (namjerna radnja oranja sidrom kako bi sidro uhvatilo)

**anchor is foul** (navig, seamanship, ship handling) sidro se zaplelo

**anchor is holding** (navig, ship handling) sidro drži

**anchor is home** (navig, seamanship, ship handling) when the anchor is secured for sea sidro je u sidrenom oku, sidro je podignuto: the OOW has recognised that the anchor could not be home.

**anchor is in the hawse-pipe** (seamanship, ship handling) sidro je u sidrenom oku, sidro je u padnoj cijevi

**anchor is ready to let go** (navig, seamanship, ship handling) sidro je spremno za obaranje / spuštanje

**anchor is secured** (navig, seamanship, ship handling) sidro je pričvršćeno i
anchor is stowed (navig, seamanship, ship handling) 
sidro je u sidrenom oku:
When the ship is underway, the anchor is stowed in the hawse-pipe.

anchor is veered out (navig, seamanship, ship handling) 
sidro je izvučeno (iz sidrenog oka)

anchor is walked out (navig, seamanship, ship handling) 
sidro je izvučeno iz sidrenog oka i visi

anchor lashings (n) (nav arch, seamanship) 
sredstva za osiguranje / pričvršćivanje sidrenog lanca za vrijeme plovidbe

anchor light (n) (navig) 
svjetlosna oznaka za sidrenje: The anchor cable is secured on the forecastledeck by stoppers, devil-claws and anchor lashings

anchor locker (n) (sailing/boating/yachting) 
A locker used to store the anchor rode and anchor.

anchor ring (n) (nav arch) sidreni kolut, vitica sidra, anel

anchor rode (=rode; anchor rhode) (n) (ship handling, seamanship)
(sailing/boating/yachting) = rode 
A rope or chain specifically designed to hold a ship to its anchor

(sailing/boating/yachting) 
A rope or chain attached to the anchor and secured to the boat. 

Most anchor rodes are made up of a combination of rope and chain. At least some of the rode, the bottom portion next to the anchor, should be of chain or wire rope. In France, the regulations demand five times the length of the boat for the total rode of which one fifth, or one boat length, should be chain (or 2 boat lengths for boats over 9 metres). An anchor-rode is the connection system between anchor and the boat and its sturdiness during mooring is undoubtedly essential.
**anchor rode** *(n)* *(ship handling, ship’s equipment)* COMPARE **anchor scope** length of chain, rope or both used to attach anchor to the boat

**anchor roller** *(n)* 1 *(sailing/boating/yachting)* valjak vodilice sidra, *rokel*

; 2 *(sailing/boating/yachting)* vodilica sidrenog lanca

**anchor’s acockbill** *(seamanship)* (in sailing ships or old ships) when the anchor is suspended perpendicularly from the cathead, ready to be let go

**anchor’s apeak** sidreni je lanac napet i brod je okomito iznad sidra

**anchor’s aweigh** *(n)* *(seamanship)* Said of the anchor when just clear of the bottom (leaving or moving) (www.USMM.org)

**anchor scope** *(n)* *(sailing/boating/yachting, seamanship)* SEE **anchor rode**
**COMPARE catenary** odnos dužine ispuštenog sidrenog lanca ili konopa i dužine broda / brodic.

/ jedrilice, ovisno o dubini; najmanji omjer je 3:1 za lanac i 5:1 za konop; Scope is the ratio between the length of rode deployed and the distance the boat is from the seabed (the height from the seabed to the bow-roller or hawse-pipe, not just depth). (http://kb.rocna.com/kb/Scope_vs_catenary)

**omjer sidrenjaka:** Catenary will be given every chance to prove itself. We will imagine a 16 m (~52′) boat, and simulate 48 m of 12 mm chain. The distance from the seabed to the roller will be 8 m (giving an anchor **scope** of 6:1). A **scope** of **3:1**, i.e. three times the depth of water for the total length of line is okay for most boats anchored in winds up to 5-6 knots (Force 3) or as a "lunch pick". A **scope** of **5:1** is desirable for winds around 25 knots but in a 60 knot gale a **scope** of **7:1** may be desirable.

https://www.go2marine.com/productcenters/anchoring/

**anchor sentinel** *(seamanship)* a separate weight on a separate line which is loosely attached to the anchor rode so that it can slide down it easily *uteg na sidrenom lancu* (it is made fast at a distance slightly longer than the draft of the boat. It is used to prevent the anchor rode from becoming fouled on the keel or other underwater structures when the boat is resting at anchor and moving randomly during slack tide.)

**anchor shackle** *(nav arch)* sidreni škopac **anchor shackle** Type D škopac sidra u obliku slova D

**anchor shank** *(nav arch)* struk sidra

**anchor snubber** *(sailing/boating/yachting) = Shockle line snubber* An anchor snubber is a bridle used to take the strain of the chain rode. *amortizer sidrenog lanca*

https://www.youtube.com/watch?v=aX583nF9xyc

**anchor stock** *(nav arch)* klada sidra

**anchor swivel** *(nav arch)* vrtulj sidrenog lanca, sidreni vrtuljak, *dogulin*
anchor tackle  (n) (sailing/boating/yachting) sidreni lanac/konop i sidreni uređaj, sidreni uređaj
anchor warp  (n) (sailing/boating/yachting) sidreni konop, sidrenjak
anchor watch  (n) (navig) making sure that the anchor is holding and the vessel is not drifting
anchor well  (n) (sailing/boating/yachting) sidreni zdenac, otvor sidra, sidrena jama, proveni gavun
anchor winch  (n) (nav arch) sidreno vitlo
anchor windlass  (n) (seamanship, sailing/boating/yachting) sidreno vitlo

anchovy  /ˈæntʃəvi/  (n) (fishing) Lat. Engraulis encrasicolus inčun, minčun, brgljun,
ancillary /ænˈsiləri/ (adj) pomoćni
ancillary equipment (n) (marine eng) pomoćna oprema
ancillary systems (n) (marine eng) pomoćni sustavi
anemometer /ˌænɪˈməʊmətər/ (n) (navig) an electronic weather instrument that indicates the speed and direction of the wind anemometar, vjetromjer
hand-held anemometer ručni anemometar
aneroid barometer /ˈænərɔid bəˈrəmətər/ (marine eng) barometer, PAB visoko precizni aneroidni barometar
angels /ˈeɪndʒəlz/ (n) (navig) učinak/smetnja jata ptica ili kukaca na radarskoj slici duhovi na radaru
angle /ˈæŋɡəl/ (n) (navig) kut: The vessel was heading away from the line of the berth at an angle of about 15°. at an angle of pod kutom od: The tug’s tow rope messenger was led through a Panama lead, around the bits at an angle of 110° and on to the winch end whipping drum. The vessel heeled to port to an angle estimated at more than 50°, angle opens up / closes kut se povećava / otvara, kut se otvara / zatvara: When the angle between the two boats opened up again, the deck rating and deckhand helped the pilot to board the ship.
angle (n) (nav arch) uglovnica equal angle istokračna uglovnica, unequal angle raznokračna uglovnica, bulb angle gomoljasta uglovnica
angle bar /ˈæŋɡəl bɑːr/ (n) (nav arch) a bar of angle-shaped section used as a stiffener and for attachment of one plate or shape to another okvirna uglovnica, kutni nosač, konzola, kutno ojačanje: A horizontal angle bar was welded to the tops of the outer stanchions, to tie the framework together and to stop the cargo shifting outboard. An accidents involving timber deck cargoes, angle bar, or flat bar welded to the edge the MAIB carried out a study into the of the hatch cover, or steel uprights subject and, in 2003, published its slo The moment he removed the last screw of the securing angle bar, the steel plates shifted towards him. bulkhead angle bar okvirna uglovnica pregrade
angle collar (n) (marine eng) A collar or band made of one or more pieces of angle bar and fitted tightly around a pipe, trunk, frame, longitudinal, or stiffener intersecting or projecting through a bulkhead or deck for the purposes of making a watertight or oiltight joint. ovratnik, kolčak (cijevi), naglavak (cijevi)
angle indicator (n) (navig) pokazivač kuta kormila rudder angle indicator pokazivač otklona kormila, pokazivač kuta kormila: The main rudder angle indicator mounted on the deck head was not checked.
angle iron (n) (nav arch) kutni profil
angle lug uglovnica stringer angle lugs interkostalne uglovnice palubne proveze
sardon, anćuga European anchovy inćun
hand-held anemometer ručni anemometar
angle of approach \( (n) \) (navig) prilazni kut (u odnosu na vez): However, the combination of the vessel’s speed, which was faster than usual, and her angle of approach, resulted in the ferry slightly over-shooting the usual approach track by several meters.

angle of capsize \( (n) \) (nav arch) kut prevrtanja
angle of crank \( (n) \) (marine eng) kut koljena osovine, kut koljena vratila
angle of elevation \( (n) \) kut nagiba, elevacija
angle of flooding \( (n) \) (nav arch) kut naplavljivanja
angle of heel \( (n) \) 1 (stabil, cargo) kut nagiba broda (zbog slaganja tereta): He applied full starboard wheel and the vessel turned rapidly, thus increasing the angle of heel.

(https://safety4sea.com/); 2 (cargo) nasipni kut (kod krcanja rasutog tereta); 3 (nav arch, stabil) poprječni kut nagiba broda
angle of inclination \( (n) \) (stabil) kut nagiba broda
angle of list \( (n) \) (seamanship, nav arch) kut nagiba (uslijed pomicanja tereta):
This violent movement resulted in the timber shifting across the vessel about 1 metre, giving the vessel an angle of list of about 8° to port.

angle of loll \( (n) \) (stabil) COMPARE angle of heel the state of a ship which is unstable when upright (ie: has a negative metacentric height (GMT) and therefore takes on an angle of heel to either port or starboard kut nagibanja broda u uspravljenom stanju pri negativnoj metacentarskoj visini, kut nestabilnosti broda u uspravljenom stanju (uslijed negativne metacentarske visine):
Although a vessel at angle of loll does display features of stable equilibrium, this is an extremely dangerous situation, and rapid remedial action is required to prevent the vessel from capsizing. This violent movement resulted in the timber shifting across the vessel about 1 metre, giving the vessel an angle of list of about 8° to port. This caused her to assume an angle of loll, and manoeuvring back alongside generated forces that made her “flop” from side to side. This change in list, called lolling was often 5 degrees or more, which caused havoc with loading arms, hoses, and mooring lines.
angle of repose (n) (cargo handling) Angle of repose means the maximum slope angle of non-cohesive (i.e. free-flowing) granular material. It is measured as the angle between a horizontal plane and the cone slope of such material. (https://safety4sea.com) nasipni kut: The shipper incorrectly declared an angle of repose for a cargo of granulated pig iron, effectively declaring a cohesive cargo as non-cohesive. https://safety4sea Prior to loading bulk cargo, the shipper should declare characteristics & density of the cargo, stowage factor, angle of repose, amounts and special properties.

angle of roll (n) (seamanship, navig) kut valjanja: In the early evening, the ship again suddenly rolled violently, reaching an extreme angle of roll of 41° to port. In the early evening, the ship again suddenly rolled violently, reaching an extreme angle of roll of 41° to port.

angle of vanishing stability (=AVS) (n) (sailing/boating/yachting) the angle of heel at which the boat's righting moment reach zero (S. Sleight) kut nagiba bez mogućnosti ispravljanja jedrilice

angler /ˈæŋgər/ (=black-bellied angler) (n) (fishing) = anglerfish COMPARE sea devil = frogfish Lat. Lophius piscatorius grdobina, udičarka, žaba, vrag,
A large wave then came over the boat’s stern and, as the other angler moved aft to assist with the bailing, the boat sank stern-first.

Three men left harbour on a winter’s morning in a small speedboat to go angling and to recover some long-line fishing gear they had laid the day before. Angling boat udičarska brodca, udičarska barka, udičar: Her two occupants were maintaining a lookout from the cockpit, and failed to see a small anchored angling boat, which was obscured by the sails and towards which the yacht was crabbing.

Angling is the process of heating a metal to a suitable temperature and holding it there, followed by cooling it at a suitable rate to lower the hardness.

Annual Paid Leave (n) (mar law) godišnji dopust
annual survey (n) godišnji pregled
annual variation (n) (navig) The amount of by which variation changes up or down each year in a particular area. https://www.ypiyachts.com/ godišnja varijacija

Annular (n) (fishing) Lat. Diplodus annularis Špar
anode (n) 1 (electr) anoda, pozitivna elektroda anode material anodni materijal; 2 (safety, electr) cink-protector
answering pennant (comm, navig) ponavljajč (zastavica)
answer to helm (v) (navig) dobro reagirati na kormilo (o brodu)

Antares (n) (navig) a giant red star located in the constellation Scorpio zvijezda Antares

Antenna effective aperture on the antenna efektivna površina antene, dielectric antenna dielektrična antena, Luneburg antenna Luneburgova antena, lens antenna lećasta antena, waveguide antenna antena s valovodima, antenna array slog antena,
The necessary antenna amplifiers have now been mounted so that the range is complete all over the ship.

After tuning the radar switch to the desired range scale and adjust the anti-clutter controls, adjust the anti-clutter control namjestiti uređaj protiv radarskih smetnja

Anticlockwise; anticlockwise: The winds blow clockwise around an anticyclone in the Northern hemisphere anticiklonsko kruženje, cold anticyclone: anticyclone hladna anticiklona, intensification of anti-cyclone; anticyclone jačanje anticiklona

Anti-dumping duties are assessed to mitigate the impact of dumping, which is when foreign manufacturers sell products in the United States at a lower cost than their fair value. (https://www.flexport.com/glossary/anti-dumping-duties/)

Your bottom looks good, but there’s a lot of antifouling paint on it:

Your bottom looks good, but there’s a lot of anti-fouling system on it.

Ležaj bez trenja

An anti-grounding warning zone that covered a narrow arc ahead to a range of about ten minutes’ steaming
anti-heeling system (nav arch) protunagibni sustav broda, sustav protiv nagibanja broda: We had to start the anti-heeling system.

anti-heeling system (stabil) prtounagibni sustav

antimony /ˈæntiməni/ (=Sb) a toxic metallic element that exists in two allotropic forms and occurs principally in stibnite antimon, sibili

anti-rain clutter (navig) smanjenje smetnja od kiše (na radaru)

anti-rolling pin (nav arch) protuljuljna peraja

anti-rolling tanks a pair of fluid-filled, usually water, tanks mounted on opposite sides of a ship below the waterline protuljuljni tankovi

anti-sea clutter (navig) smanjenje smetnja od mora (na radaru)

antiskid deck (sailing/boating/yachting) protuklizna paluba

anti-slip paint (seamanship) protuklizna boja: Consider the application of anti-slip paint.

anti-swinging system (cargo handling) uređaj za umirenje tereta (na dizalici)

anti-syphon swan-neck fitting (sailing/boating/yachting) antisifonska cijev (protiv povrata vode za hlađenje u cilindar)

antitrade winds (=antitrades) (oceanogr) the prevailing westerly winds of the middle latitudes protupasati

anvil /ænvil/ (marine eng) nakovanj

AP (=aft perpendicular) (stabil, nav arch) krmeni perpendikular, krmena okomica

apeak /əˈpiːk/ (=apeek) (ship handling, seamanship) perpendicular to the anchor, the cable having been drawn so tight as to bring the ship directly over it brod okomito iznad sidra, a piko; Italian: a picco; the anchor is a-peak

API (=application programming interface) (logist) programsko sučelje (API), sučelje za programiranje: The Ship Manager provides Next Port of Call data Via API or E-mail notification: The next Port of Call data may be provided by the Ship manager via API through the processing of the noon reports and other internal systems or alternatively via a provider of Ship positioning and Marine Traffic Data. https://risk4sea.com/

API Gravity (=relative density) A means used by the petroleum industry to express the density of petroleum liquids. API gravity is measured by a hydrometer instrument having a scale graduated in degrees API. (https://www.euronav.com/en/glossary/) specifična težina tereta po API-ju (za

API Scale (=American Petroleum Institute Scale) (shipping econ) The API scale is a scale used to define the specific gravity of a cargo. It is mainly used in the crude trades, with the product trades preferring the metric SG scale.(https://www.euronav.com/en/glossary/) indeks tankerskih vozarinskih API-ja (za specifičnu težinu tereta)

apogee /ˈæpəˌdʒiː/ (oceanogr) ANTONYM perigee the point in its orbit around the earth when the moon or an artificial satellite is at its greatest distance from the earth apogeja
Apogeean tides /ˌæpəˈdʒiːən ˈtaidz/ (n) (oceanogr) tides of decreased range or currents of decreased speed occurring monthly as the result of the Moon being in apogee (farthest from the Earth)

Apeogejske mijene, perigejska perioda

Aport (adv) (seamanship) on or toward the port side of a ship s lijeve strane (broda), prema lijevoj strani (broda)

Apparel /əˈpærəl/ (n) (seamanship) a vessel's outfit, such as rigging, anchor and lifeboats brodska oprema

Apparent /əˈpærənt/ (adj) primjetljiv, vidljiv, prividan, jasan: As the vessel closed the harbour entrance it became apparent to the master that the aspect of the breakwater was incorrect and that he was too far to starboard. Early action, which is readily apparent to the other vessel, ensures that the vessels involved will pass safely, and avoids any confusion as to actions taken. The vessel increased speed astern at an angle of about 10o from the berth until it became apparent that the bow would not clear the ferry berthed astern.

Apparent good order and condition (n) (mar ins, mar law) prividno dobro stanje (tereta): The obligation to record the apparent good order and condition of cargo in a bill of lading is owed by the carrier to the shipper. https://safety4sea.com/

Apparent wind (n) (sailing/boating/yachting) COMPARE true wind a combination of the true wind and the wind produced by our motion; The combination of the true wind and the wind caused by the boat's own speed. This is the wind felt on the boat, as well as the one shown by the telltale. https://www.ypiyachts.com/; the velocity and direction of the wind in relation to an observer in motion (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) prividan vjetar: The faster the boat sails into the wind, the more the apparent wind speed increases and the more it feels like it is coming from the front of the boat. The velocity and direction of the wind in relation to an observer in motion. http://www.apsltd.com/aps-advisor/sailing-terms-glossary/

Appeal /əˈpiːl/ (n) 1 (mar law) žalba, apelacija; 2 molba za pomoć

Appeals and Requests žalbe i zahtjevi (u regatnom natjecanju)

Recommendations for Appeals and Requests preporuke za žalbe i zahtjeve (sucima regate)

Appendages /əˈpendidʒəs/ (n) (nav arch, sailing/boating/yachting) konstrukcijski dijelovi izvan brodskoga obrisa (kormila); Objects protruding from the underwater section of a hull; e.g., bilge keels, rudders, stabilising fins, shaft brackets, etc. https://officerofthewatch.com/ privjesci trupu broda (npr. kormila, ljuljne kobilice, stabilizatori itd.)

Appendages2 (n) (sailing/boating/yachting) pripadajući dijelovi (trupa jedrilice), privjesci trupu jedrilice (npr. kormila, kobilice, hidrokrilca itd.)

Appliance /əˈplaiəns/ 1 naprava, uređaj line-throwing appliance naprava za bacanje konopa, life saving appliance oprema za spašavanje, uređaj za spuštanje brodice za traganje i spašavanje; 2 sredstvo

apply the rudder / helm (v) (navig, seamanship) okrenuti kormilo, namjestiti kormilo: Master advised the pilot to apply full astern power. the pilot was surprised that after applying port helm, the ship turned to starboard. peljar se iznenadio što je nakon okretanja kormila u lijevo brod skrenuo u desno apply the rudder / helm the port / starboard helm okrenuti kormilo u lijevo / desno 

appoint /əˈpɔɪnt/ (v) 1 a imenovati; 2 postaviti (nekoga na dužnost): The Shipping Line has appointed a new chief executive officer and chief financial officer. The Board of Directors has appointed Mr. …... as the new CEO of the company. appoint as Master postaviti za zapovjednika, imenovati za zapovjednika, be appointed: Mr. has been appointed new CEO of the Company. 

apportion /əˈpɔʃən/ (v) (shipping econ) raspodijeliti (troškove), rasporediti apportion blame (mar law) pripisati krivnju, okriviti: The role of the MAIB is purely to discover the facts, not to apportion blame or culpability. Uloga MAIB-a je isključivo da se utvrde činjenice, a ne da okrivljuje. 

appraisal /əˈpreizəl/ (n) appraisal of the situation procjena situacije / stanja, procjena: Rule 5 of the COLREGs requires a proper lookout to be maintained at all times so as to make a full appraisal of the situation and of the risk of collision. 

appraisement /əˈpreizmənt/ (n) (mar law) determination of the dutiable value of imported merchandise by a Customs official who follows procedures outlined in their country’s tariff carinska procjena robe 

apprehend /əˈpriːhɛnd/ (v) (mar law) uhititi: The maritime authorities apprehended the perpetrators and confiscated all illegal fishing equipment, scare lines, fish nets including their boat captains and crew. 

apprentice /əˈprentis/ (n) (mar law) COMPARE cadet đak na praksi na brodu (za vrijeme školskih praznika) vježbenik, naučnik, špicfajer (archaic), špico (archaic) engine-room apprentice vježbenik stroja (śPicfajer – vježbenik na brodu, do 70-tih godina prošlog stoljeća se išlo naukovati na brod ljeti između trećeg i četvrtog razreda srednje pomorske. www.poezijaline.net/spicfajeri) 

apprentice officer (n) (mar law) = cadet = navigating cadet An apprentice officer provides assistance in various duties on a merchant ship, such as maintenance and minor repair duties.
This level is necessary for further career development in deck department. 

**apprentice officer** vježbenik palube, kadet, engineering **apprentice officer** vježbenik stroja

**apprenticeship** /əˈprentɪʃɪp/ izobrazba (za časnička ili mornarska zvanja), **kadetura:** He served his apprenticeship as a motor mechanic, after which he worked for 8 years on oil rigs in the north sea followed by many years, and still to the present day.

**approach** /əˈprəʊtʃ/ (navig) prilaz: The OOW monitored the other ship’s approach, and identified her from the AIS. **approach to the port** prilaz luci: The approach to the port required the vessel to enter an inlet several miles wide and then alter course into a bay in which the port was located. **approach route** prilazni plovni put, prilazna ruta, **approach to the berth / dock** prilaz vezu: The normal approach to the berth took the vessel to the port side of the channel to make a steep approach to the jetty, and this plan was followed. A careful and planned approach to the dock is important as a safeguard against unforeseen circumstances that might involve the vessel propulsion, steering, an unexpected action by a tugboat, or delays with line handling.

https://safety4sea.com/, **approach to the entrance:** The approach to the entrance of the river was made on a course of 355° at a speed of 10 knots, aiming to leave a beacon marking the western entrance of the river prilaz ulazu (u luku, ušće, rijeku), **approach to the anchorage:** Throughout the approach to the anchorage the echo-sounder had not been monitored. **prilaz sidrištu,** angle of **approach:** The angle of approach to the berth was more open than ‘usual’ due to another tanker alongside the adjacent berth kut prilaženja (broda vezu, obali, …)

**approach** (v) (navig) prići, prilaziti: The vessel’s main propulsion had failed as she approached the berth and, although the starboard anchor was let go, the vessel could not be stopped. During the night of …. 2019, the Vessel 1 was approaching the designated passage channel to the Fujairah Offshore Anchorage Area, while the Vessel 2 was proceeding outwards through the same passage channel. https://gCaptain.com A general cargo vessel was approaching the dock.

**approach channel** (n) (navig) prilazni kanal (luci, tjesnacu), prilazni plovni put: At 0300, the ship neared the narrow approach channel of the destination port. The tug at this time was in the approach channel to the harbour, still proceeding at full speed. To get there from the Pacific Ocean, ships have to sail up a 90 km long navigation approach channel. https://forcetechnology.com/en/maritime-industry/cases/approach-channel southern limit of the approach channel krajnja južna točka/crta prilaznog kanala, **approach channel buoy** plutača koja označava prilazni kanal: With 1 mile to go, the chief officer called port control again and was instructed to keep east of the outer approach channel buoy.

**port approach channel** prilaz luci, prilazni kanal u luku: Near miss in Port Approach Channel.
approach course (n) (navig) prilazni kurs: The helmsman achieved the aim, the electronic chart display data showing him steering between 10 and 15 degrees to starboard of the approach course to counteract the effect of the tide.

approach downwind (n) (sailing/boating/yachting) prilaz (plutači, vezu) niz vjetar

approach upwind (n) (sailing/boating/yachting) prilaz (plutači, vezu) uz vjetar

appropriate /əˈprɒpriət/ (adv) primjeren, odgovarajući, prikladan, podsman

appropriate measures odgovarajuće mjere: This helps the crew and the shore side to take appropriate precautions odgovarajuće mjere opreza: Fumigants are dangerous if not handled correctly and appropriate precautions are not taken., appropriate action odgovarajuća radnja, primjeren radnja: Be alert to the problem and take appropriate action. They then continued to monitor the situation, and took appropriate action to avoid a collision., appropriate safety equipment odgovarajuća sigurnosna oprema: Although tragically one man lost his life, this accident does demonstrate the benefit of carrying appropriate safety equipment., appropriate precautions odgovarajuće mjere opreza: Fumigants are dangerous if not handled correctly and appropriate precautions are not taken., appropriate action odgovarajuća radnja, primjeren radnja: Be alert to the problem and take appropriate action. They then continued to monitor the situation, and took appropriate action to avoid a collision., appropriate safety equipment odgovarajuća sigurnosna oprema: Although tragically one man lost his life, this accident does demonstrate the benefit of carrying appropriate safety equipment., appropriate precautions odgovarajuće mjere opreza: Fumigants are dangerous if not handled correctly and appropriate precautions are not taken., appropriate action odgovarajuća radnja, primjeren radnja: Be alert to the problem and take appropriate action. They then continued to monitor the situation, and took appropriate action to avoid a collision., appropriate safety equipment odgovarajuća sigurnosna oprema: Although tragically one man lost his life, this accident does demonstrate the benefit of carrying appropriate safety equipment.

approach course (n) (navig) prilazni kurs: The helmsman achieved the aim, the electronic chart display data showing him steering between 10 and 15 degrees to starboard of the approach course to counteract the effect of the tide.

approach downwind (n) (sailing/boating/yachting) prilaz (plutači, vezu) niz vjetar

approach upwind (n) (sailing/boating/yachting) prilaz (plutači, vezu) uz vjetar

appropriate /əˈprɒpriət/ (adv) primjeren, odgovarajući, prikladan, podsman

appropriate measures odgovarajuće mjere: This helps the crew and the shore side to take appropriate precautions odgovarajuće mjere opreza: Fumigants are dangerous if not handled correctly and appropriate precautions are not taken., appropriate action odgovarajuća radnja, primjeren radnja: Be alert to the problem and take appropriate action. appropriation /ə,prəupəriˈeɪʃən/ (n) (financ, mar law) a sum of money set apart for a specific purpose, esp by a legislature (Collins English Dictionary) izdvajanje sredstava (za neku specifičnu namjenu)

approval /əˈpruːvəl/ odobrenje, pristanak: The voyage to Brunsbüttel was continued with the approval of traffic control. Immediately on arrival at the Engine Control Room (ECR), both the chief and third engineers stopped the main engines without approval from the bridge and without knowledge of the navigational position. give approval: In this case, the drivers were routinely allowed to retain their vehicle keys and move their vehicles before approval was given by the crew. odobrati The vessel was taken out of service and was given approval to proceed, at slow speed, to her base for repairs before returning to service a few weeks later. dati odobrenje, without approval bez odobrenja: The extended communications chain led to confusion and the later restarting of engines without the master’s approval., seek prior approval tražiti prethodno odobrenje, tražiti prethodni pristanak, tražiti odobrenje prije (poduzimanja neke radnje): However, the third engineer should have sought prior approval and taken steps to isolate the cooling system., gain approval dobiti odobrenje, ishoditi odobrenje: Without gaining prior approval, the two men decided to remove an adjacent thermometer pocket in the engine’s cooling water system in order to ease access to the rockers.

Approval in Principle (=AIP; pre-approval; initial approval) (n) (mar law)
Approval in Principle (AIP) is generally an indication from a lender that they may be willing to lend you a certain amount of money subject to specified conditions. (https://www.anz.com.au/)

**principijelno odobrenje, prethodno odobrenje, inicijalno odobrenje:**
DNV GL has awarded China’s Hudong-Zhonghua Shipbuilding an Approval in Principle for a 25,000 TEU LNG-powered containership. https://gCaptain.com

**approve** /ə pru:v/ (v) odobriti: A passage plan should be berth to berth, and approved by the master. The vessel remained aground for 11/2 days before the coastal state approved the owner’s salvage plan and the vessel was towed off the shore. The port authority approved the hot work, which was conditional upon the contractor complying with the ship’s Safety Management System (SMS).

**approved** /ə pru:vld// (adj) (mar law) priznat (npr. u konvenciji STCW), odobren:
In particular, access to the upper deck tiers is a problem, even with the approved fire-fighting equipment required by SOLAS. This vessel carried mandatory type approved lifejackets.

**apparatus** /əˈpærətəs/ (n pl) (mar law) pripadnosti broda, pripadci broda

**apron** /ˈeiprən/ 1 (ports) The area immediately in front of or behind a wharf shed on which cargo is lifted.; a concrete or planked area immediately in front of or behind a wharf shed on which cargo is lifted.; a concrete or planked platform at the entrance to a dock, usually extending from the nearby shed/warehouse/rail gauge to the quay edge operativna obala, lučka obalna površina: The area immediately in front of or behind a wharf shed on which cargo is lifted. On the front apron, cargo is unloaded from or loaded onto a ship. Behind the shed, cargo moves over the rear apron into and out of railroad cars. quay apron obala / obalna površina (od ruba obale do obalnog skladišta), front apron operativna obala (između skladišta ili kolosijeka i obalnog zida), rear apron pozadinski obalni prostor (za utovar / istovar vagona i kamiona); 2 (nav arch, sailing vessels) A reinforcing timber bolted to the after side of the stem. http://titanic-model.com pramčana protustatva, uklada, kontraašta, ancikor; 3 (sailing vessels, nav arch) pramčana protupeta, karoc od prove

**APS** (=arrival pilot station) (mar law) dolazak (broda) na peljarsku postaju

**apt to** /æpt/ (adj) 1 sklon čemu; 2 pogodan, prikladan

**aquaculture** /ˈækwaˌkʌltʃər/ (n) (fishing) Aquaculture is an alternative to commercial fishing consisting mainly of fish farming, it involves breeding, rearing and harvesting aquatic species in land based tanks or ocean based cages (https://www.fisheries.noaa.gov/); the cultivation of freshwater and marine resources, both plant and animal, for human consumption or use (https://www.collinsdictionary.com/) akvakultura

**aquatic hazard label** /əˈkwætɪk/ (n) (safety, environ) a label used for any packaged cargo that represent a threat to the marine environment oznaka (etiketa) za opasne pakovane terete u prijevozu morem: According to IMO regulations, any packaged cargo transported at sea which poses a threat to people, other living organisms, property or the environment should be listed on the manifest as “Dangerous Goods” and should display the appropriate hazard labels, for example as per the UN Globally Harmonised System (GHS) or the International Maritime Dangerous Goods (IMDG) code. https://www.itopf.org/knowledge-resources/documents-guides/hazardous-and-noxious-substances-hns/cat
aquatic organisms /əˈkwætɪk/ (n) morski organizmi: Some invasive species have proven very destructive to native aquatic organisms as well causing serious damage to property and marine resources.

aquatic species /əˈkwætɪk ,spiːsɪ/ (=acquatic organisms) (n) morski organizmi: These organisms, known as invasive aquatic species, can negatively affect a ship’s operation, while they also present a threat to the marine environment. SAFETY4SEA <news@safety4sea.com>

arbitrage /əˈbɪt rɑːʒ/ (logist) the method to control disputes between two parties. The decision is binding most of the time. This condition is usually included in a charter contract. https://www.logisticsglossary.com/term/arbitrage/ arbitraža

arbitral award /əˈbɪtrəl/ (mar law) arbitražna odluka

arbitral tribunal /əˈbɪtrəl triˈbjuːnəl/ (mar law) arbitražni sud

arbitration /əˈbɪt rəˈʃən/ (mar law) the process of referring to an agreed person (or body of persons) for judgement on issues of dispute, without requiring the use of courts; a method of settling disputes by one or more arbitrators. Quicker and cheaper than taking a case to court. (http://offshore-industry.net/info/Terms_and_Expressions_in_Shipping_and_Offshore.pdf) arbitraža, izabrani sud

arbitration /əˈbɪt rəˈʃən/ (sailing/boating/yachting) arbitraža (u regatnom natjecanju)

arbitrator /əˈbɪt rəˈtər/ (mar law) arbitražni sudac

arc /ə:k/ (navig) luk: The anti-grounding warning zone covered an arc 1 degree either side of the vessel’s track out to a distance equivalent to 10 minutes’ steaming. in a wide arc u širokom luku: The ship then turned to port and sailed towards the Langlütjen breakwater in a wide arc.; 2 (navig) sektor kružnice

archipelago /əˈkɪəˌpeləɡoʊ/ (geogr) otočje

arc of horizon (navig) luk horizonta

arc of visibility (navig) the portion of the horizon over which a lighted aid to navigation is visible from seaward područje vidljivosti, luk vidljivosti

Arctic Ocean (=Arctic; the Arctic) (geogr) Artktik, Arktičko more: For the next 16 years, commercial fishing will be prohibited in the central Arctic, a Mediterranean-sized patch of icy ocean more than 200 nautical miles from any nation’s coastline. Until recently, ice made commercial fishing impossible in the central Arctic Ocean. But global warming has changed things. The ice now melts
Arcturus

enough in summer to expose as much as 40 percent of the water. Some owners avoid sending ships through the Arctic as alternative trade routes ... https://gcaptain.com/ ice-free Artkičko more bez leda: At the current rate of carbon emissions of about 35 to 40 gigatons a year, scientists are estimating that the Arctic could become ice-free within the next 20 years, Maritime Logistics Professional

Arcturus (n) (navig) a giant fixed star of the first magnitude in Bootes zvijezda Arcturus

arc welding (n) (marine eng) lučno zavarivanje electric arc welding elektrolučno zavarivanje: A standby vessel was in port waiting for her next tasking, so the opportunity was taken to carry out an electric arc welding repair to the bedplate of an alternator located in the engine room.

arc-welding machine (n) (marine eng) aparati za lučno zavarivanje

area /ˈeərə/ (n) 1 površina: They evacuated the area and prevented anyone from approaching the distribution box while they contacted shipyard representatives. crosectional area poprečna površina, unit area jedinica površine; 2 (meteorol) područje area forecast (meteorol) prognoza za područje, area of restricted visibility područje ograničene vidljivosti: Failure to laid down the actions to be taken when follow the checklist, compounded by a entering an area of restricted visibility, lack of positive reporting by other crew the majority of which had been ignored.; 3 područje plovidbe area of restricted waters područje ograničenih voda za plovidbu: Shortly after a large container ship had cleared an area of restricted waters, involving an extended period of slow speed manoeuvring, a fire was noticed in the top tier of the deck containers aft of the funnel., vessels in the area brodovi u tom području: She was, however, now disabled, and the skipper had to rip the wheelhouse door off its hinges to gain access to issue a “Mayday”. Several vessels in the area responded, and she was later safely towed into port., sea area morsko područje, područje na moru: While transiting the inshore route, he used binoculars to search the sea area ahead for the vessel they were to meet., port area lučko područje, područje luke: The VTSO was aware that the ship did not usually transmit on AIS in the port area and therefore had to be tracked manually on the radar display.

area of uncertainty (n) (sailing/boating/yachting, navig) nepouzdano područje areas of navigation (n) (navig, safety) područje kojim brod određene kategorije smije ploviti područja plovidbe area to be avoided (n) (navig, safety) područja unutar utvrđenih granica u kojima je plovidba posebno opasna područja koja treba izbjegavati

argosy (n) 1 (nav arch, sailing/boating/yachting) a Mediterranean trading carrack in the Middle Ages; It is derived from the 16th century city Ragusa[3] (now Dubrovnik, in Croatia), a major shipping power of the day and entered the language through the It. ragusea, meaning a Ragusan ship (https://en.wikipedia.org/wiki/Argosy_(word)); an extremely large ship or fleet of ships, especially merchant ships dubrovačka karaka

http://www.enciklopedija.hr/natuknica.aspx?id=30379; 2 a ship richly laden jako nakrcan brod {archaic}
argument /ˈæɡjʊmənt/ (n) (mar law) svađa, spor, prepirka
arise /əˈraɪz/ (v) nastati, proizaći: General average arises when a deliberate sacrifice or expenditure is incurred for the common safety of the other cargo interests. Most of these accidents arise because of overheating or spillage. The problems arise when the nature of a fire needs everyone on board to respond effectively.
arise from (v) proisteći, proizaći iz, nastati zbog: An accident can be defined as an unexpected hazardous occurrence caused by unsafe practices that arise from inadequate knowledge, improper training, and failure to follow proper procedures, and usually resulting in loss of life or injury to person. All personnel need to be aware of the potential health hazards which can arise from both noxious and less obvious fumes.
armed attack (n) (safety) oružani napad
armoured cable /ˈɑːrmedˌkeɪbəl/ (n) (seamanship) armirano uže: This may be by considering using a fire-resistant/armoured type cable or routeing it outside the engine room so far as this is reasonable.
armed deck (n) (nav arch) ojačana paluba
AR Navigation System (=Augmented Reality Navigation System) (n) (navig) a navigating system providing increased visual support to crew members during their watch-keeping and ship operations by using AR technology to superimpose real-time video imagery and voyage information navigacijski sustav s povećanim stvarnim prikazom:
(Ar the AR Navigator System displays information on other vessels sailing on a vessel’s planned route and surrounding sea areas and other ocean conditions, such as shallow waters, on tablets and screens. It integrates information from the Automatic Identification System (AIS) and radar (TT) with real-time video images from the bridge camera in collaboration with FURUNO’s cutting-edge Electric Chart Display and Information System (ECDIS) FMD3300 series. (#MarineInsight))
aromatic-based fuel (n) gorivo na aromatskoj osnovi: 2020 fuels will be predominantly paraffinic-based or aromatic-based and will come with different viscosity, pour point and CAT Fines level. www.safety4sea.com
ARPA /ˈɑːrpə/ (=Automatic Radar Plotting Aid) (n) (navig) kompjutorizirani radarski sustav pomagala za plotiranje objekata na moru; Automatic Radar Plotting Aid sustav automatskog radarskog ucrtavanja, sustav ARPA, ARPA radar, ARPA, sustav automatskog radarskog plotiranja: ARPA functions as a collision avoidance tool, tracking individual Radar targets and plotting their course and speed in order to determine the closest point of approach (CPA) and time to closest point of approach (TCPA) to own vessel. Both vessels were equipped with operational radars, fitted with Automatic Radar Plotting Aid (ARPA), but neither watchkeeping officer used the ARPA to plot any radar targets. ARPA errors 1 grješke sustava ARPA; 2 ARPA interpretation tumačenje grješaka u sustavu ARPA, use the ARPA: The master selected the container ship’s radar target using the automatic radar plotting aid (ARPA), which enabled him to monitor its progress. There are no excuses for not using navigational aids such as ARPA and compass repeaters to aid the accurate assessment of close quarters situations., ARPA auto acquisition automatsko hvatanje cilja / objekta putem ARPA-a: Use the radar functions, including ARPA auto acquisition and CPA warning features, to give warning of other vessels and developing close-quarters situations., ARPA radar ARPA radar: The OOW was sitting in front of an electronic chart system; an ARPA radar screen was to his left. The OOW knew that he had to make a planned 21° alteration of course to starboard 10 minutes later and, because the ARPA radars would not acquire the contact, he decided that the planned alteration would also suffice as a collision avoidance manoeuvre., ARPA data podatci dobiveni putem ARPA-e: Had the handover included continually checking the latest ARPA data of the approaching vessel, more time would
have been available to properly assess the situation and take effective action. This included information concerning the small vessel, including the initial ARPA data giving a CPA of 1 mile to port., ARPA display pokazivač na ARPA-i, ekran na ARPA-i: While the OOW attempted to acquire the contact on the X and S band ARPA displays, the pleasure yacht made a 20° alteration of course to port., monitor the ARPA pratiti sliku na ARPA-i: The officers's subsequent monitoring of the ARPA failed to identify that the ferry’s bearing was almost steady., ARPA radar je zakazao: Two hours into the passage, the ARPA radar also failed., ARPA target ARPA-cilj, cilj / objekt na ARPA-i: The tanker was also on the radar displays but it was not acquired as an ARPA target., ARPA performance standards standardi učinkovitosti ARPA-e: The ARPA will then give results which meet the ARPA performance standards., fitted with ARPA opremljen ARPA-om: The target vessel’s details were displayed on the AIS receiver but the option to display the target’s information on the X-band radar, which was fitted with ARPA, was not taken., acquired target by ARPA uhvatiti cilj / objekt putem ARPA-e: ... the two buoys marking the southern limit of the channel were clearly visible on the radar and had been acquired by ARPA.

arrange /əˈreɪndʒ/ (v) 1 urediti; 2 srediti: The skipper then decided to establish a fire/smoke boundary, and arranged for the watertight doors to be closed.; 3 (navig) dogovoriti: But before doing so, he managed to arrange a tow from an offshore support vessel. As the vessel was swinging to port, he reduced the helm order to port 10° and then engaged in a VHF radio conversation to arrange passing with an outbound vessel, while the second officer plotted a position on the chart. arrange a berth dogovoriti vez, rezervirati vez; 4 (navig) organizirati: The master decided to advance the ETA, and the OOW contacted the pilots to arrange an 0540 embarkation. This have might have prompted the pilot to arrange tug assistance.; 5 rasporediti; 6 poredati, svrstati; 7 smjestiti; 8 izvesti arrangement /əˈreɪndʒmənt/ (n) 1 (navig) dogovor; 2 (cargo handling, ports) organizacija make arrangements (for discharge / loading) pripremiti (iskrcaj / ukrcaj), organizirati (iskrcaj / ukrcaj); 3 (marine eng) raspored cyinder arrangement raspored cilindara, arrangement of gas flow raspored odvoda plinova; 4 (seamanship) izvedba, sustav, način: working arrangement način rada: to this vessel, which should undoubtedly contributed to the remove the dangers evident from the very serious injuries sustained by initial working arrangement. berthing arrangement način pristajanja, vrsta manovre pristajanja, anchoring arrangement: However, the veering loads produced when the wind backed and freshened, might have reduced the effectiveness of this anchoring arrangement. način sidrenja, closing arrangement način zatvaranja (grotla, skladišta itd.): Therefore no risk control measures had been put in place, such as a hinged barrier or other closing arrangement., mooring arrangement način privezivanja: The vessel’s mooring arrangement consisted of two mooring winches forward and two aft, with captive drums and drum ends., securing arrangement način pričvršćivanja (tereta, sidra, užadi itd.): Make sure that the relevant crew are familiar with the anchor chain securing arrangements., senhouse slip arrangement uredaj s samootpusnom kukom, uredaj za automatsko otpuštanje užeta: However, the rope or webbing lashing is also usually fitted with a quick release, senhouse-slip arrangement to facilitate rapid deployment of the raft in
the event of an emergency, **pilot boarding arrangement** način ukrcaja peljara: Amongst other factors, this safety investigation established that the **pilot boarding arrangement** provided by the ship was not compliant with the relevant SOLAS requirements due to its close proximity to the ship. **5** (marine eng) **uredaj, naprava:** In this case, the long-term aim is now to significantly improve the **securing arrangement** by a permanent modification. **lifting arrangement** uredaj za dizanje: On closer inspection, it was found that the design of the **lifting arrangement** allowed the lifting wire to chafe on the ramp handrails.

**arrange the agreement** (v) (shipping econ) dogovarati uvjete ugovora

**arrest** /əˈrest/ (n) (mar law) **COMPARE seize** The procedure whereby, in common law jurisdictions, a ship (and sometimes cargo and/or freight) may be seized by an admiralty court at the institution of or during an action in rem (infra) to provide pre-judgment security for the plaintiff’s maritime claim.

[http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm](http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm); opći termin koji znači svako zadržavanje broda/tereta radi osiguranja naplate pomorskih tražbina; The procedure whereby, in common law jurisdictions, a ship (and sometimes cargo and/or freight) may be seized by an admiralty court at the institution of or during an action ‘in rem’ - against a thing rather than a person - (infra) to provide pre-judgment security for the plaintiff’s maritime claim.

[https://www.msc.com/](https://www.msc.com/) **zaustavljanje broda, zadržavanje broda, privremena mjera zaustavljanja broda:** Arrest of a ship means the detention of a ship by judicial process to secure a maritime claim, but does not include the seizure of a ship in execution or satisfaction of a judgment. The dispute which led to the **arrest of the** general cargo ship in the port of Hamilton with 14 seafarers onboard causing damage but no serious injuries among passengers or crew **court arrest**

**sudsko zadržavanje broda:** The chartered cargo vessel was placed under court arrest after the shipowner filed a civil claim for money it owed by ..., **arrest order** nalog za zadržavanje broda: The owner representative said: We have not seen any arrest orders and we don’t have any written official documents, a court ruling, or an arrest order., **arrest of vessel** **zaustavljanje broda:** Arrest of a vessel is part of the process by which an Admiralty Court gains jurisdiction over the subject matter of a law suit.

[http://www.maritimelawcenter.com/html/arrest_of_vessel.html](http://www.maritimelawcenter.com/html/arrest_of_vessel.html) **Arrest of a vessel** is the physical process by which, in case of the United States, a U.S. Marshal goes aboard the vessel and physically takes charge of it., **arrest warrant** **nalog za zaustavljanje broda:** An arrest warrant had been issued to the ship. [https://www.marineinsight.com/](https://www.marineinsight.com/) **The terms of the warrant permit the ship to get seized and to pay $... for unpaid fuel.**

**arrest** /əˈrest/ (v) 1 (mar law) **COMPARE seize** **COMPARE detain** zaustaviti brod, zadržati (brod radi naplate dugovanja); 2 (navig, seamanship) stop

**zaustaviti kretanje (broda):** Although the vessel’s engine developed full astern power, this was insufficient to arrest her headway in the space available and she made heavy contact with the quay on the opposite bank of the river (see figure). The master attempted to arrest the vessel’s swing to port using the handwheel. Once on the port bridge wing, the captain adjusted the azimuth propulsion to arrest the vessel’s movement astern. The factors contributing to the inability to fully arrest the ship’s turn are not readily apparent. [https://safety4sea.com](https://safety4sea.com) **arrest the swing** zaustaviti okretanje, zaustaviti odmicanje (pramca, krme): The master used the engines and thrusters in an attempt to arrest the swing but, despite the efforts of the crew, the forward winch brakes also began to render
arrest /əˈrest/ pritvor, zatvor: Failure to comply with certification requirement may result in a heavy fine, arrest or a penalty.
arrest /əˈrest/ (v) 1 (cargo handling) zaustaviti se, blokirati se: Loose lashings allowing the stacks to tilt and arrest sharply as the slack is taken up; 2 (marine eng) zaustaviti, blokirati: The other engine was stopped, to arrest the generation of frictional heat in the clutch, and the water fog fire-fighting system was activated.
arrest of ship (n) (mar law) privremena mjera kojom se brod zaustavlja radi namirenja točno određenih potraživanja privremeno zaustavljanje broda (radi osiguranja naplate), privremeno zaustavljanje broda (kao privremena sudsko mjera): Arrest of the ship as a security for claims. Privremeno zaustavljanje broda kao mjera za osiguranje tražbina wrongful arrest of ship neopravdano privremeno zaustavljanje broda, nedopušteno privremeno zaustavljanje broda
arrival at the port (n) (navig, seamanship) dolazak broda u luku: Prior to arrival at the next port, the master and chief officer were woken and called to the bridge. On arrival at the ship’s next port of call, an underwater survey was carried out and ultrasound measurements of the shell plate were taken in way of the vent port arrival preparation pripreme za dolazak u luku
arrival brief (n) (navig) kratak dogovor prije uplovljenja, kratak dogovor o dolasku broda u luku: Prior to arrival at the pilot station, the master should ensure a pre-arrival briefing takes place with the bridge team.
arrival in port (n) (navig) dolazak u luku: The chief officer has some extra duties on arrival in port while the master is dealing with port entry and other paperwork, otherwise the 6-on 6-off routine is maintained. The motorman was in the process of unplugging the power supply to the refrigerated container units on the vehicle deck in preparation for the vessel’s arrival in port. arrival in port of a ship / tug dolazak broda / tegljača u luku: He then awaited the arrival of a second tug, which assisted in re-berthing the vessel alongside. All proved satisfactory, and he settled back to await the imminent arrival of the pilot. arrival in port of the pilot dolazak peljara: All proved satisfactory, and he settled back to await the imminent arrival of the pilot.
arival notice (n) (navig, comm) a notification by carrier of ship’s arrival to the consignee, the Notify Party; a notice sent by a carrier to a nominated notify party advising of the arrival of a certain shipment or consignment obavijest o dolasku (broda u luku)
arival notification (n) (logist, mar law) A notification sent by the carrier of ship’s arrival to the consignee and the Notify Party shown on the bill of lading. obavijest o dolasku broda
Arrival Pilot Station (=APS -) (n) (mar law, shipping econ) Location often used as the place of delivery of a ship by the shipowner to the charterer at the commencement of a time charter. http://www.tkmglobal.net/index.html dolazak broda na peljarsku postaju - početak najma broda
arrival procedure (shipping econ) postupak pri dolasku / uplovljenju: Make sure your bridge arrival procedures actually help the bridge team and that checklist completion adds value.
arrive at (v) stići u, doći u: The ship arrived at Svendborg via the western entrance of Svendbord Sound. arrive at the port stići u luku: When the vessel arrived at the port, the fumigator appointed to meet the vessel found a very high concentration of phosphine gas in the deceased crewman’s cabin and in th, arrive at the pilot station stići na peljarsku postaju: The
arrived ship

MS Sybille arrived at the pilot station of the port of Dublin at 05:15, arrive at the destination stići na odredište: The coastguard then received a report that the ship had arrived at its destination, arrive at the terminal stići na terminal: A short time later a lady arrived at the ferry terminal clearly in some distress following an altercation with the person driving her there.

arrived ship (n) (mar law) klauzula u brodarskom ugovoru i pismu spremnosti; Requirement of all voyage charters that the ship must have arrived before laytime can commence. Where the charterer has nominated a berth or dock, the ship must have arrived at that berth or dock

http://www.tkmglobal.net/index.html prispjeli brod: A vessel is considered to be “arrived ship” as the Pilot comes on board and lay time will commence. {a vessel is an “arrived ship” as soon as the following conditions have been met: 1. The vessel must have arrived at the loading or discharging berth or port as stipulated in the charter. 2. The vessel must be fully prepared to load or discharge. 3. Notice of readiness in writing, as prescribed, must have been given to shippers or consignees 4. If berth nominated by charter is not available, then vessel can be considered “arrived” when NOR is tendered.

A-shape frame (n) (marine eng) stalak (motora) u obliku slova A
ashore /əˈʃɔːr/ (adv) on the shore, land or beach na kopnu, na obali, na kraju: The propeller may become fouled unless good communication and co-ordination is maintained between the bridge, the mooring parties and the berthing party ashore. The skipper was recovered, landed ashore, and then flown to hospital by air ambulance. land ashore: The rescue operation involving a helicopter, an inshore lifeboat and an all weather lifeboat ensured that the crew and passengers were landed safely ashore.
iskrcati se na kopno / obalu, run / pass a mooring line ashore: At 1555 UTC, two
headlines were run ashore. The master gave instructions for a headline, a forward backspring and an aft backspring to be passed ashore. poslati privezno uže na obalu, dodati privezno uže na obalu, pass a line over the bollard ashore prebaciti privezno uže preko bitve na obali: Two stern lines had been passed over bollards ashore and their respective winch brakes applied., to drift ashore plutati prema kopnu: With nothing now to restrain it, the yacht continued to drift ashore., transfer crew / passengers ashore prebaciti članove posade / putnike na kopno / obalu: The injured crewman was transferred ashore by the local lifeboat and on to hospital by ambulance., lay a boat / ship ashore: The boat had been launched that morning after being laid-up ashore for 6 months. držati brodicu / brod u raspremi na kopnu, come ashore iskrcati se (o pomorcu): prestati ploviti He came ashore in 1992 and worked as Marine Surveyor/consultant with …. Ltd in Glasgow., assistance from ashore pomoć s kopna: If breathing apparatus is not carried on board, and it really is impossible to wait for assistance from ashore, entry should only be attempted when the space has been thoroughly ventilated with clean air, and all residues of CO2 have been removed. {opposite to to aboard or on board}

ashore and afloat (prep phr, adv) na kopnu i na moru, na kopnu i na brodu: To address these issues, senior staff, ashore and afloat, must be pro-active in training, supervising and ensuring that rules are adhered to.

as if (conj) = as though kao da: It sounded as if a cylinder had stopped firing, but they were unable to verify.

as is where is (prep phr) (mar law) - In the condition in which the subject-matter is and at the place where it is lying. This expression is used where goods or a ship, are offered for sale without repair or rectification and with delivery to the purchaser being at the place where the goods are lying.

http://www.tkmglobal.net/index.html u stanju u kakvom jest, na mjestu gdje se nalazi ( o teret/robi ili brodu)

as long as (conj) 1 sve dok, koliko god: The master felt he had no option but to maintain power for as long as possible. Similarly, when leaving a berth, tugs should remain attached for as long as they are needed.; 2 ako, ukoliko: It can save your life as long as you look after it and you understand its features.

as near to as she can safely get (n) (mar law) klauzula kojom brodar, ako je brod trajno spriječen ući u predviđenu luku, može uputiti brod u neku drugu najbližu sigurnu luku radi iskrcaja (IG)

što je bliže moguće

aspect /ˈæspekt/ (navig) silueta, izgled (broda): A check of the visual aspect of the inbound vessel should have raised concerns over the accuracy of the information being provided to the master by the ARPA. The master of Vessel A was also surprised to see a starboard aspect of Vessel B, and used his forward speed and his side thrusters to slide his vessel away to cushion the effect of the imminent collision.

as presented (n) (mar law) onako kako je podnesena (teretnica)

assault boat (n) (navy) a small portable boat used for military amphibious landings or for crossing rivers desantna brodica

assemble /əˈsembəl/ (v) 1 skupljati se: After the general alarm was sounded, the crew
assembled on the bridge He returned to the accommodation, alerted the remainder of the crew and told them to assemble in the wheelhouse. A deck party was assembled and they donned lifejackets and attached themselves to a previously rigged safety line.

assessed

sastaviti, sastavljati, montirati, sklopiti

assembly /oʊˈsembli/ (nav arch, marine eng) montaža, sastavljanje: Welding deformation should be considered in determining the optimal assembly sequence. https://reader.elsevier.com/reader/assembly sequence planning planiranje redoslijeda zavarivanja (blokova brod itd.): Assembly sequence planning is one of the most important tasks with regard to the quality and productivity in manufacturing structures. https://reader.elsevier.com/reader/

assembly /ˈəʊsembli/ (marine eng) to join parts together

assembly (n) (marine eng, nav arch) sklop, Removal of the cylinder head, piston and connecting rod assembly.: The materials in use for that assembly consisted of three different metals, giving rise to accelerated corrosion in the marine environment. The forward hook assembly had sustained considerable damage. When the machinery space was entered, the engine’s No 6 cylinder large end bearing assembly was found to have passed through the port crankcase door, and to have come to rest immediately outside the engine. A dynamic test and examination of the davit winch and brake assembly were made in the presence of the class surveyor, ship representative and contractor representative.

assembly (n) (nav arch) spajanje sekcija broda, spajanje blokova broda
assembly area (n) (safety) područje okupljanja na brodu: All passengers were wearing lifejackets and waiting in the assembly areas.

assembly station (n) (safety) mjesto za okupljanje na brodu (u slučaju opasnosti, uzbune itd.)

assessed /əˈses/ (v) procijeniti, prosuditi, utvrđiti, ocijeniti: ecognise that the barge would be finally realised the barge lay directly encountered shortly after rounding the ahead, there was very little time to assess bend in the channel. However, time should always be taken to properly assess key factors such as the vessel’s position, damage, the depth of water available, the nature of the seabed and the tide before considering whether assessed the risk prosijeniti opasnost, procijeniti rizik: The display of these lights Sea, Rule 7, identifies the correct way to would have facilitated a more thorough assess risk of collision. The passenger ship’s bridge team did not effectively assess the risk of collision with the approaching ferry, so took no action as the give way vessel, assessed the damage when the accident happened, the alarm was raised quickly and the crew were able to assess damage, start engines and re-anchor without undue delay.: The Coast Guard marine inspectors and investigators are investigating the cause of the collision and assessing the damage to the ship’s hull, assessed the situation procijeniti situaciju, procijeniti stanje: When in doubt, reduce speed early or come to a stop to allow time to safely assess the situation., assessed whether ... Then assess whether it can be operated safely in those areas, without adding to your problems., assessed alternative options procijeniti alternativne mogućnosti: by then, however, he had lost the opportunity to properly assessed alternative options, assessed compliance procijeniti primjerenost (standardu, propisu itd.), procijeniti stupanj sukladnosti (s propisom, standardom itd.): It is essential that hotwork controls are strictly adhered to and that auditing procedures assessed compliance., assessed the fitness stupanj pripravnosti broda, procijeniti stupanj sukladnosti (broda s propisima,
standardim: Coastal state authorities should ensure that procedures are in place to assess the fitness of a vessel and her crew after an accident, before she is permitted to proceed on passage., assess the implementation procijeniti provedbu: Assess the implementation of bridge and engine room resource management ?, assess the possible danger procijeniti moguću opasnost: Always assess the possible dangers involved in any tasks, no matter how , assess the vessel’s stability procijeniti stabilitet broda: A technical working group was therefore commissioned to assess the vessel’s stability and to help prevent a recurrence of the accident, assess the true condition procijeniti pravo stanje: However, in common with many other RIBs, there was no access to the under deck areas, so it was very difficult to assess the true condition of the hull.

assessment /ə'sesmənt/ (n) 1 procjena; 2 proučavanje; 3 prosudba assessor /ə'sesər/ (n) 1 sudski pomoćnik; 2 (mar ins) procjenitelj štete, likvidator štete assets /ˈæsets/ 1 (financ, shipping econ) aktiva (u bilanci) assets and liabilities aktiva i pasiva (u bilanci); 2 osnovna sredstva seize the assets zaplijeniti sredstva (brodove, opremu itd.): A bankruptcy judge in the US ruled yesterday no company can seize any assets belonging to troubled offshore operator ... Holdings assign /ə'sain/ (mar law) opunomoćenik assign /ə'sain/ (v) 1 dodijeliti assign an anchorage dodijeliti brodu mjesto sidrenja: On contacting the Port Authority at 0045, the ship was assigned an anchorage., assign duty odrediti zadaću, dodijeliti dužnost / zadaću: He was assigned the duty of OOW., assignsomeone to carry out the task odrediti nekoga da obavi zadaću, dati nekome zadaću da: The 2nd Engineer assigned the cadet to carry out the task, while he attended to other jobs in the engine room. ; 2 odrediti: The earlier they are informed the sooner appropriate resources can be assigned and the best course of action decided and implemented. The duty AB had just come on duty in port when he was assigned to lashing/unlashing operations.

assigned /ə'saind/ (adj) 1 (navig) dodijeljen, namijenjen, raspoređen: The able seaman assigned to the watch was absent from the bridge for at least an hour before the vessel grounded. assigned position: However, if a contact or close quarters situation occurs, the mark should be monitored to ensure that it has not been damaged or moved from its assigned position. dodijeljena pozicija, assigned pilot dodijeljeni peljar, peljar zadužen za određeni brod: The VTSO shall maintain uninterrupted communication with the assigned pilot to facilitate safe passage during the non-pilotage course., assigned anchorage: The Master and the pilot identified the assigned anchorage on the chart and departed the berth with the assistance of two tugs.

dodijeljeno mjesto sidrenja; 2 (mar law) opunomoćen; 3 zadužen assignee /ə'saini/ (n) 1 koncesionar; 2 opunomoćenik; 3 ovlaštenik assignment /ə'sainmənt/ (n) 1 a i (mar law) The transfer by a creditor (the assignor) to another party (the assignee) of a debt or right of action which the creditor has against a third party (the debtor). http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm prijenos duga ili prava na pravni postupak, punomoć za takav prijenos; b assignment involves the transfer of rights, title and interest in order to assign goods by endorsing the bill of lading prijenos prava (na robu), punomoć za prijenos prava; 2 zadaća, zadatak: The severity of the damage to the MS ------- led to discontinuation
of the assignment and to the tug proceeding to the port of Bremen.

assist /əˈsɪst/ (v) pomagati, sudjelovati, asistirati: During the transit, two other seamen, who were stowing loose mooring lines away aft, were sent to assist forward. By this stage, all other engineers had arrived to assist, and the vessel’s full emergency procedures came into play to effectively tackle the fire using the CO2 smothering system. Meanwhile another company vessel, with a more experienced skipper on board, came alongside to assist. assist in: The ship was asked to assist in the search, and one hour later its crew found the missing fisherman in the darkness. A harbour tug was tasked to assist in the berthing operations of a 75,000gt bulk carrier.

assistance /əˈsɪstəns/ (n) (safety) pomoć: The ferry suffered substantial hull damage, but was able to return alongside without assistance. With the assistance of two tugs, a pilot launch, and a fire brigade RIB, the fire was brought under control and eventually extinguished. render assistance pružiti pomoć, ship in need of assistance brod u nevolji: By the time rescue crews arrived, the crew of the Centennial Harmony notified that they were no longer in need of assistance after power to the vessel was restored and the situation stabilized. dogovoriti tegljenje: The particular characteristics of this ship helped the pilot to arrange tug assistance. make arrangements for tug assistance dogovoriti tegljenje, ugovoriti tegljenje, organizirati tegljenje: The managers were informed of the situation in order to make the necessary arrangements for tug assistance.

request assistance zatražiti pomoć: The master called the pilot station by VHF radio requesting assistance, and a pilot and a tug were despatched from the port. About 30 minutes after CO2 flooding began, the master commenced venting the engine room and requested the assistance of shore-based firefighters. provide assistance: This obligation to provide assistance applies regardless of the nationality or status of such persons or the circumstances in which they are found. the Coast Guard Cutter .... was sent to provide additional assistance. pružiti pomoć, call for assistance pozvati pomoć, zatražiti pomoć: However, he was fortunate that his personal radio survived the fall and this enabled him to call for assistance.

receive assistance primiti pomoć: The vessel was allowed to enter the Port of Djibouti where they received assistance from local firefighters and Dutch salvage experts. seek assistance from other crew and try and make the person safe, offer assistance ponuditi pomoć, pružiti pomoć: At the same time the local all-weather lifeboat (ALB) offered assistance. prompt assistance brza pomoć, neposredna pomoć: The activation of the EPIRB resulted in prompt assistance. emergency assistance pomoć u opasnosti, pomoć u nuždi: When planning to use a tug, whether for routine or emergency assistance, the tug’s
specification must be considered to ensure that it is up to the job. **Immediate assistance**

**neposredna pomoć, pomoć smjesta**: After the collision the vessels exchanged details and verified that neither **required immediate assistance**. **Medical assistance** medicsinska pomoć: The ship reported the accident to the coastguard and requested **medical assistance**. At 1621, the vessel’s agent was informed and **he arranged for** an ambulance, **medical assistance**, and first aid to the casualty. **Proceed to one’s assistance** uputiti se u pomoć nekome, krenuti u pomoć nekome: if receiving the distress alert is unable or, in the special circumstances of the case, considers it unreasonable or unnecessary to **proceed to their assistance**, the master must enter in the log-book the reason for failing to proceed to the assistance of the persons in distress, taking into account the reco, **require assistance** trebati pomoć, zatražiti pomoć: The master’s night orders instructed the bridge watchkeeping officers to call him if they **required his assistance**. trebati pomoć, **give assistance** dati pomoć, pružiti pomoć: The vessel requested for assistance from a harbour tug that was on a call-off stand-by situation but it could not **give assistance**. **call for assistance** nazvati radi pomoći, nazvati u pomoć: The weather was good, with calm seas, and there were no tugs in the area to **call for assistance**, **tug assistance** pomoć tegljačem: Following the accident, with **tug assistance** the ship was manoeuvred to the fairway.

**assistance to vessels** *(n)* (sailing vessels) pomoć brodovima u pogibli assistant *(n)* pomoćnik, asistent assistant engineer časnik stroja *(US)*: The assistant engineer fought the fire aggressively, and a short while later he reported the fire had been extinguished.

**Assistant engineer** *(n)* *(navig, US)* časnik stroja: The reduction in vessel speed, and interruptions in the electrical supplies alerted the assistant engineer. On entering the engine room, the assistant engineer took the foam extinguisher from the electrician and proceeded forward along the floor plates to fight the fire on the engine. The company .... is seeking engine room officers with an unlimited assistant engineer license 1st assistant engineer prvi časnik stroja, 2nd assistant engineer drugi časnik stroja, 3rd assistant engineer treći časnik stroja *(Remember: The term US term assistant engineer is equivalent to 'engineer officer' in UK English usage and časnik stroja in Croatian. The Croatian term asistent stroja, however is equivalent to 'engineering cadet' in English, and not to its false pair ‘assistant engineer’).*

**Assistant steward** *(n)* *(mar law)* pomoćnik glavnog konobara

**Assist hook** *(n)* *(fishing)* pomoćna udica na jigu

**Assisting Disabled Vessels** *(n)* *(safety)* pomoć onesposobljenim broobima

**Associate Degree in Marine Engineering** *(n)* *(US)* *(mar law, marine eng)* = Foundation Degree in Marine Engineering visokoškolski stručni studij brodostrojarstva Associate Diploma in Marine Engineering: The Academy offers a full deck officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW'95 II/I OOW), a **Foundation Degree** *(FdSc)* in Marine Operations and a direct top-up pathway to BSc *(Hons)* Marine Operations Management.

**Associate Degree in Nautical Science** *(n)* *(US)* *(mar law, navig)* = Foundation Degree in Marine Operations Management visokoškolski stručni studij nautike Associate Diploma in Nautical Science diploma o završnom visokoškolskom stručnom studiju nautike

**assorted spares** *(n)* 1 *(sailing/boating/yachting, safety)* ostali pričuvni dijelovi sail
repair kit, komplet za popravak jedara, sticky backed sail repair tabs, ljepljiva vrpca za popravak jedara, piston hanks, kukice za jedra, whipping twine špaga za podvezice, bottlescrew, zatezač pripona, tirant, strezaljka na navoj, škartoc, ropes - various sizes, užad - različite veličine, clevis pins karabini, split pins and rings, rascijepke i prstenasti osigurači, bulldog clamps, strezaljke za čeličnu užad, marine sealant, silikon, underwater epoxy podvodna smola, waterproof grease, vodootporni vazelin, petroleum jelly uljna želatina, paint and varnish (minor repairs), boje i lakovi (za manje popravke), epoxy glue and fillers, epoksidno ljepilo i kit, glass fibre tape and cloth platno od staklene niti, nails, screws, bolts, and nuts - assorted čavli, vijci, svornjaci i matici - razni, wood - assorted pieces, drvo - razni komadi; 2 klizač glavnog jedra

assume /əˈsjuːm/ (v) 1 pretpostaviti: Never assume - always confirm your vessel’s current position and projected track before deciding an appropriate action. Never assume that an electrical circuit is dead. Therefore, it was reasonable for the master to assume that the tanker would pass down the container ship’s port side.; 2 preuzeti: You should ensure that individual officers are familiar with the vessel and management system before they assume their duties. assume responsibility preuzeti odgovornost: The masters must put in place a bridge organisation that allows them to assume their responsibilities.

assume the cost (v) (shipping econ) preuzeti troškove

assumption /əˈsʌmpʃən/ (n) pretpostavka: There was an assumption that the after moorings were the same as the satisfactory ones forward. Assumptions should not be made, and checking sea room ahead and astern is not only good practice but it should also be common sense. MAIN Safety Digest /2018

make an assumption pretpostaviti: The pilot of the cargo vessel made an assumption, based on scanty information, that the ro-ro vessel was increasing speed., on the assumption that pod pretpostavkom da, pretpostavljajući da: However, he delayed doing so and continued towards the fairway buoy on the assumption that the cargo vessel would eventually take action to avoid a collision., be based on an assumption zasnivati se na pretpostavci: The regular master’s decision to apply more astern power to the port control was based on an assumption that the port azimuth unit was in the same position as the control lever., false / erroneous assumption kriva pretpostavka: Although ESD valves onboard the ship were tested to ensure their closure rates were acceptable, there was a false assumption that the valves were closed.

assured /əˈʃʊəd/ (n) (mar ins) = insured osiguranik the assured osiguranik {pretežno UK}

assured (adj) uvjeren u, siguran u: Once assured of his position, the skipper had only to steer a course to keep the vessel within the safe sector to ensure her safe passage into the harbour. be assured biti uvjeren, uvjeriti se: But it is still the responsibility of ship’s staff to be assured that correct spare parts are being used, and that they are fitted in accordance with manufacturer’s instructions and guidance.

astern /əˈstɜːn/ (adv) 1 the bearing of an object that is 180 degrees from ahead; (behind); toward the stern of a vessel; an object or vessel that is abaft/behind another vessel or object; position, in the rear of or abaft the stern po krmi: Providing there is sufficient sea room, it is safer, and in the spirit of good
seamanship, to pass astern of a ship at anchor; 2 u krmu, krmom: the Pilot put the engine astern. full astern vožnja punom snagom natrag: The master moved the centre console engine control to full astern.

astern operation (n) (seamanship) vožnja krmom

astern power (n) (marine eng, nav arch) snaga za vožnju krmom: Astern power was applied and three short blasts sounded. astern power movement kretanje prema natrag: The vessel’s astern movement due to the currents strained the aft spring line.

astern propulsion (n) (navig) vožnja natrag, vožnja krmom: The tug skipper reacted quickly to the grounding by simultaneously applying astern propulsion and paying out the towing cable. After hearing this distance, the pilot ordered dead slow astern propulsion.

operate astern propulsion voziti natrag, staviti u pogon krmom

as though (conj) kao da: The crew felt that the vessel was behaving as though the fore peak tank was ballasted, whereas they believed it to be empty. All bare electrical cables pose a threat to life and must be treated as though they are live until proven otherwise by a competent person.

as to (conj) što se tiče, u pogledu: In the event of any doubt as to the systems’ operational condition, advice should be sought from the maker’s service agent, without delay, to ensure that the system remains in g As the master allowed the OOW to keep the con to the berth, he did not specifically enquire as to the status of the fins. so as to tako da, kako bi: Careful thought should be given to the lead of the lines so as to avoid creating sharp angles. After manoeuvring from her berth, she proceeded at slow speed so as to keep sufficiently clear astern of another departing ferry.

astrolabe /ˈæstrəˌleɪb/ (n) (navig) a historical navigational instrument which consisted of a dial, showing degrees, with an arm (alidade) pivoting through the centre; predecessor of the sextant

astronomical almanac (n) (navig) a catalogue of tables showing the location of various celestial bodies at specific moments in time throughout the year astronomski godišnjak, astronomski almanah

astronomical navigation /ˌæstrəˈnɒmɪkl/ (n) (navig) astronomski navigacija

astronomical observation (n) (navig) astronomsko motrenje, astronomsko snimanje pozicije

atoll /ˈætəl; əˈtol/ (n) (geogr) atol

atomization /ˈætəmaɪzəʃən/ (n) (marine eng) raspršivanje, atomizacija

atomizer; atomiser /ˈætəˌmaɪzə/ (n) (marine eng) a device used to disperse fuel into fine particles raspršivač

AtoN /ˈei tu ˈen/ (=aton; ATON; Aids to Navigation) (navig) = AtoNav

navigacijska pomagala (na plovidbenom putu):
The Stockholm local authorities launched a new buoy with the ATON transponder to assist commercial and recreational ships moving in and out of the busy harbor.

AON transponder (n) (navig, safety) transponder na navigacijskom pomagalu:

If the buoy becomes detached from the seafloor the AIS transponder will broadcast current position to warn mariners that it is no longer located at the correct marked location.

at or off the port (prep phr) (mar law) u luci i izvan nje

atrip; a-trip /ə 'trip/ (adv) (seamanship, navig) = aweigh (of an anchor) no longer caught on the bottom; tripped; aweigh podignuto s dna (o sidru) ancho's atrip; a-trip sidro je podignuto (s dna) (zastarj.)

at sea (prep phr) (seamanship) na moru, u plovidbi:

It’s now well known that around 80% of accidents at sea (and more than 90% in cases of collisions and groundings) involve so-called ‘human factors’. Towards the end of his watch at sea, a motorman was tasked by the chief engineer to mop up some hydraulic fluid in the steering gear flat which had been leaking onto the deck from t. The junior seaman had only been at sea a few days. It is important that all deck officers have a clear understanding of the International Regulations for Preventing Collisions at Sea and of the manoeuvring characteristics of their vessels. Each issue and the reports they contain are a valuable contribution to improving safety at sea and in port, so protecting lives, property and the marine environment. By working together, at sea and ashore our maritime professionalism can rise to this challenge. A 30m scallop dredger was at sea in moderate weather. One of our greatest dangers at sea is complacency. In my career at sea, spanning just over 47 years, I have seen the use of the word safety increase year by year and … The more time spent at sea, the more the mistakes that will be observed or made, and the more the seaman learns.

at shipper’s risk (prep phr) (mar law) na rizik krcatelja

attach /əˈtætʃ/ (v) 1 (cargo handling) priključiti, prikopčati, vezati: Was this the only way to re-attach a lifeboat to the falls? Regardless of how short the planned journey may be, a powerboat driver should always attach the kill cord around his/her leg before the engine is started. As the FRC was still partly suspended over the deck edge, the assistant bosun and the AB left the boat to help attach a bowsing line to assist in pulling the FRC around the deck edge. There the tugboat was still attached with a loose towline to starboard. attach a grab / spreader / hook to the crane priključiti grabilicu / spreder / kuku na dizalicu:

A second load of oil, weighing 788kg (within the crane’s SWL) was attached to the crane. The hook was attached by shackles to a 2m length, 32mm diameter polypropylene rope strop, the other end of which was attached to a pad eye welded to the top of the b; 2 (ship handling, seamanship) vezati (uže, konop) attach the line vezati uže /
konop, postaviti uže / konop: When the ship is close to the wharf, mooring lines are attached to the bollards.

attached plating (n) (marine eng) pojasni lim

attack* (n) (safety) napad: Pirates have launched a series of attacks in the creeks of the Delta region since last Thursday, abducting at least nine people, security officials said. attempted attack

pokušaj napada (na brod)

attack* (v) napasti - attack the fire gašiti požar, upustiti se u gašenje požara: The chief officer took charge of the deck and approved a two-man team to attack the fire with an extinguisher.

attack on fire (n) (safety) gašenje požara - make an attack on fire on fire gasiti požar, upustiti se u gašenje požara, napasti požar: Two fire parties made an attack on the fire from behind the breakwater bulkhead (Figure 3).

attend /əˈtend/ 1 prisustvovati: If possible, the Master should attend the survey of damaged cargo himself, or have his Chief Officer attend.; 2 pohađati (tečaj): There is a requirement for all navigating officers joining its vessels to attend bridge resource and bridge team management refresher training if they have not completed this training within the last 5 years. Having recently attended a fire-fighting course, the skipper was able to effectively and calmly assess the risks and tackle the fire confidently. The master attended the following relevant training courses: …; 3 pojaviti se (pred nekim) attend before the notary public (mar law) pojaviti se pred bilježnikom;

4 njegovati; 5 opaziti, primijetiti: Unfortunately one of the deckhands did not attend the tug when she sailed at 0415.; 6 paziti na, voditi računa o: Attend to leaking systems promptly – they will never be resolved on their own. Attend to electrical defects promptly. Attend to fuel leaks promptly. The starboard main engine was started, then immediately stopped to attend to a fuel leak.

attendance /əˈtendəns/ 1 prisustvo: As OSV2 was available to assist if required, the master of OSV decided not to request the attendance of a harbour tug. The mooring gang was already in attendance so permission to sail was obtained from the VTS service for the port, moorings were let go and the ship left her berth. In attendance prisutan, u službi, dežuran: Is there an effective deck watch in attendance on board? Je li spremna brodska straža? A crude oil tanker was programmed to sail from Immingham port. Two pilots boarded, and three tugs were in attendance at the time https://safety4sea.com/; 2 pohađanje; 3 njega; 4 služba, posluživanje, rukovanje; 5 (marine eng) održavanje (stroja)

attention /əˈtenʃən/ pozor, pozornost draw attention privući pažnju: The liferaft was only equipped with hand-held flares and these were not sufficient to raise the alarm or draw attention during the search and rescue. 0, give attention to obračati pozornost, pripaziti na nešto, attract attention: The second officer sounded a short blast on the whistle in an attempt to attract attention, and ordered the AB to place the wheel on hand-steering., pay attention obratiti pozornost, posvetiti pažnju: Plan your passage carefully, paying attention to minimum depths, and make additional allowances when there is a heavy swell. In this case, the skipper failed to pay sufficient attention to the wind conditions and the limitations of the novice crew.

attenuate /əˈtenju, əˈtenju/ (v) to weaken or become weak; reduce in size, strength, density, or value

oslabjeti, postati slabijim, oslabiti, smanjiti: any radar bandwidth of less than 5 MHz will attenuate the SART signal slightly

attenuation /əˌtenjuˈeiʃən/ (electr, navig) Attenuation occurs when part of the radar energy is absorbed by water vapour in the atmosphere.. slabljjenje (radarskog snopa), upijanje
Attenuation is greatest in heavy rain and can cause severe reduction in detection ranges but may also occur in hail, snow, sleet and, to a lesser extent, in fog. A 10 cm radar because of its greater power will be less affected by attenuation than a 3 cm radar.

attestor /əˈtestər/ (n) (mar law) svjedok quod attestor kao svjedok

attorney /əˈtrɜːnɪ/ (n) 1 (mar law) (UK) a person legally appointed or empowered to act for another

(Collins English Dictionary) opunomoćenik, ovlaštena osoba:

Two days later, the captain and his attorney attended a formal interview with USCG and heard nothing more until six weeks later when the captain received a “Warning in lieu of Suspension & Revoc”.

When no NCOE attorney is available, a Coast Guard attorney from outside the S&R NCOE might present the case but only if made available by their local commands which occurred infrequently.

An attorney reviewed USCG’s complaint and, after discussing the pros and cons of accepting the Letter of Warning (LOW) sanction, both the captain and his attorney decided to accept it rather than take the risk of losing an argument before an Administrative Law Judge (ALJ) over what constitutes “...”.

The Coast Guard’s representative, who ordinarily is an attorney will then call witnesses and introduce exhibits.

= authorised officer SEE authorised officer similar and related terms: proxy; company secretary; attorney secretary; authorized clerk; authorized officer (US); authorised signatory (UK); AO; authorized representative; confidential clerk; prokurist; 3 (mar law) a lawyer qualified to represent clients in legal proceedings

(https://www.collinsdictionary.com/dictionary/english/attorney) odvjetnik defense attorney

ANTONYM prosecutor branitelj, prosecuting attorney tužitelj; 4 (mar law) zastupnik; 5 (mar law) pravobranitelj; 6 (mar law) a general term for: lawyer, solicitor, counsel, advocate advokat

attributed to /əˈtribjuːt 'tu:/ (v) attribute to damage to pripisati štetu (nečemu)

The cause of the winch failure was attributed to a faulty pilot valve in the cursor’s winch control system, which prevented the winch brakes from applying once hydraulic power was removed. A visual inspection revealed a hole in the hull, which was attributed to the vessel having made contact with the light float.

The starting auction price for the 2007-built vessel is $3.8 m. Ningbo Marine Court is going to hold an auction to sell the 2010-built capesize bulker through online platform Taobao on December 6.

The Maritime Court will auction off the bulk carrier via online platform. The starting auction price for the 2007-built vessel is $3.8 m.

audibility /əˈdiˈbɪlɪti/ (n) (comm) čujnost

audible alarm (n) (safety) zvučni alarm: The ECDIS anti-grounding warning zone alarm then activated on the display, but no audible alarm sounded. This vessel’s two engine room bilge alarms were not audible or visible outside on deck.

audit /əˈdit/ (n) (mar law, shipping econ) revizija, audit: The serious shortcomings with the
navigation on board the vessel had not been identified during the vessel’s recent audits and inspections.

**external audit** vanjska revizija: An external auditor has been appointed by the company to perform a navigation audit on all company fleet, perform an audit provedi reviziju, obaviti reviziju, izvršiti reviziju, navigational audit revizija od strane stručnog plovidbenog povjerenstva, navigacijska revizija: A navigational audit was carried out by the attending marine superintendent and all the staff were re-briefed on the company’s procedures for safe navigation, carry out an audit provedi reviziju: obaviti reviziju, audit procedures postupak revizije, revizijski postupci: Owners and managers should continually review their audit procedures to ensure they remain strong and target all areas of the vessel’s safe operation.

**internal audit** unutrašnja revizija: Internal audits must be carried out to establish that safety and pollution prevention activities comply with Safety Management System.

**IMS audit** IMS revizija, revizija u sustavu IMS: The ship’s last internal IMS audit prior to the accident was undertaken between 17 and 22 September 2015 while the vessel was on passage between Le Havre and Malta.

**auditor** /ˈɔːdɪtər/ (n) (mar law, shipping econ) revizor external auditor vanjski revizor aural watch (=aural) (n) (safety, comm) straža slušanjem (radiotelefona) aureole /ˈɔːriəʊl/ (n) (meteorol) aureola

**aurora** /ˈɔːrərə/ an atmospheric phenomenon consisting of bands, curtains, or streamers of light, usually green, red, or yellow, that move across the sky in polar regions. aurora aurora borealis the luminous, radiant emission from the upper atmosphere over middle and high latitudes, and centered around the earth’s magnetic poles aurora borealis, aurora australis a geomagnetic show of lights seen in the far Southern skies at night.

**authorised officer** (=attorney; proxy; company secretary; attorney secretary; authorized clerk; authorized officer (US); authorised signatory (UK); AO; authorized representative; confidential clerk;) (n) (mar law) SEE authorised signatory officer authorized to act and sign on behalf of the firm; company officer with special power of attorney; any person acting in the exercise or performance of a power, authority, duty or function conferred or imposed by or under any Act and having a right of entry conferred by or under any Act but does not include a police officer;

(zabranim sudovima) (https://www.zakon.hr/z/546/Zakon-o-trgovačkim-društvima) prokurist: Appointment of Authorised Officer(s) for a Body Corporate - The following officer(s) of the Company are hereby authorized to make and sign all declarations of ownership or otherwise for and on behalf of the said Company, as required under the provisions of the Merchant Shipping (Bailiwick of Guernsey) Law 2002. http://www.harbours.gg/CHttpHandler.ashx?id=78142&p=0 ("Prokurist" is a natural person that has "Prokura". "Prokura" is regulated in §§ 48 ff. HGB (German Commercial Code). It gives authority to represent a legal entity to the extent that is defined by law and has to be registered in the commercial register (Handelsregister), there is no correct translation since there are no Prokuristen under UK oder US law. (https://dict.leo.org/forum/viewUnsolvedquery.php?idforum=1&idThread=326329&ip-ende&lang=en); German definition: Angestellter, der für seine Firma Geschäfte abschließen und Verträge unterschreiben darf (službenik koji je ovlašten zaključivati poslove i ugovore za svoju tvrtku)

**authorised signatory** (n) (mar law) = authorised officer company officer with special power of attorney; Officer or representative vested (explicitly, implicitly, or through conduct) with the powers to commit the authorizing organization to a binding agreement. Also called signing officer.
Authorised Signatory means any Director of the Issuer or any other person who is for the time being authorised by the relevant Issuer to sign documents for the purposes of these presents and who has been notified in writing to the Trustee as being so authorised.

Authorised Signatory means any Director of the Issuer or any other person who is for the time being authorised by the relevant Issuer to sign documents for the purposes of these presents and who has been notified in writing to the Trustee as being so authorised.

Authority /ˈɔːθəriti/ (n) (mar law) 1 vlast the Authority vlast (u međunar. pravu mora), harbour authority lučka uprava, navigational authority pomorske vlasti: Furthermore, the local council and local navigation authority were not aware that the cruiser sailed in the winter.; 2 uprava port authority lučka uprava: Once clear of the breakwaters the master reported the accident to the port authority. The port authority sent a tug to assist, however the ship continued to drag her anchor until the wind finally abated and the anchor held in deeper water. In the Port of London Authority, we place great emphasis on reading each safety digest and distilling those lessons learned applicable to port operations ...; 3 ovlast, ovlaštenje, odobrenje on the authority of po odobrenju, uz ovlaštenje: A distress alert from a vessel may be transmitted only on the authority of the master or skipper, or the person responsible for the safety of that vessel.; 4 ovlast, moć: He considered the VTSO had more authority and was better placed to resolve the situation quickly and effectively. exert authority obavljati ovlasti, primjenjivati ovlasti: It is essential that he or she recognises that responsibility and exerts the necessary authority and leadership to ensure a safe outcome.; 5 ministarstvo, nadležno ministarstvo: There is a strong obligation to notify the Authority after major changes in order to have stability check-up. Maritime authority ministarstvo pomorstva: It is essential that he or she recognises that responsibility and exerts the necessary authority and leadership to ensure a safe outcome. Danish Maritime Authority Ministerstvo pomorstva Danske: Prior to the accident, the Danish Maritime Authority has submitted a guidance to enhance safety during transfer operations to the IMO., competent authority nadležne pomorske vlasti, nadležno ministarstvo, nadležne državne vlasti: A VTS is a service, implemented by a competent authority, that is designed to improve the safety and efficiency of vessel traffic and to protect the environment. This section includes summaries and safety recommendations extracted from marine investigation reports on casualties involving ships and occupational accidents as produced and published by the National competent Authority, as mentioned in the source from marine investigation reports on casualties involving ships and occupational accidents ...; 6 the country whose flag a ship is entitled to fly država upisa broda authorization /ˌɔːθəralˈzaʃən/ (n) (mar law) ovlaštenje, odobrenje give authorize; authorise /ˈɔːθəraɪz/ (v) 1 (mar law) ovlastiti: The pilot was authorised by DP World and completed between 60 and 70 ship movements per month. The VTSO also authorised the master to enter the channel as soon as the container ship was clear (Table 3).; 2 odobriti: When the VTS is authorised to issue instructions to vessels, these instructions should be result-oriented only, leaving the details of execution to the parties involved. The hotwork repair had been authorised by the ship’s manager.
auto-bailer (n) (sailing/boating/yachting) A device that uses the suction created from forward momentum to drain water from the inside of a boat. pumpica za samopražnjenje (vode iz jedrilice), automatska pumpica za samopražnjenje (vode iz jedrilice)

auto berthing (n) (ship handling) automatsko pristajanje broda: Kongsberg Maritime designed two systems that enable auto berthing and auto crossing where the crew press a button, and the ship will dock. https://safety4sea.com/autonomous-shipping-becomes-a-reality-in-eu

AutoCAD (n) a CAD-type software oriented to drawing and modeling in 2D and 3D. It allows the creation and modification of geometric models with an almost infinite capacity to develop all types of structures and objects. (https://stacbond.es/en/what-is-autocad-and-what-is-it-for/) autoCAD softver

autodocking (=automatic docking) (n) (ship handling) automatsko pristajanje broda: The Wartsila prototype auto-docking system was successfully tested on the Norwegian ro-ro passenger ship Folgefonn, first out in the open water on a simulated dock in January 2018, and then again successfully in the Stord, Norway harbour in April 2018. https://www.wartsila.com/twentyfour7/... https://www.youtube.com/watch?v=TvFDHIO3L_w&feature=push-sd&attr_tag=csizC5v4EQ9mMSXV-6

auto-ignition /ˈɔː.ti.ən.ɪɡ.ˈnɪʃən/ (n) (marine eng) = self-ignition samo zapaljenje: Pure phosphine gas has an auto-ignition temperature greater than 100°C. The principal cause of explosions in starting air manifolds of marine engines is probably the auto ignition of oil deposited on the inner surface of the manifold, not backfire from cylinders as previously thought.

automated /ˈɔː.təmɪtɪd/ (adj) automatiziran, automatski: Things have moved along apace and the widespread use of the electronic nautical chart, ECDIS, ECS and wholly automated bridge systems are possibly increasing risks in vessel operation, and complacency. Pressing the DSC distress button for 3 seconds would have transmitted an automated distress message, which would have included the identity and position of the vessel.

automated bridge system (n) (navig) automatski zapovjednički most: In conclusion, an automated bridge system is very helpful to the mariner as long as the limitations of the system are known.

Automated Identification System (=AIS) (n) (navig) = AIS sustav automatske identifikacije brodova, sustav AIS, AIS-sustav

Automated Manifest System (=AMS) (n) (logist, US) an electronic information transmission system operated by U.S. Customs and Border Protection (CBP). automatizirani sustav prijave / manifesta tereta
automated satellite tracking (n) (sailing/boating/yachting, navig) automatsko satelitsko usmjeravanje

automated ship (n) (nav arch) automatski upravljan brod: a ship that is run by a pre-programmed software and can only operate within the scope of the algorithm (https://safety4sea.com/)

automatic bilge pump (n) (nav arch) automatska kaljžna sisaljka / pumpa: About 4 hours into the passage, the alarm on the automatic bilge pump alerted the skipper to unexpected water in the bilge.

automatic control system /ˌɔːtəˈmætɪk/ (n) (marine eng, navig) sustav automatskog upravljanja: The vessel command attributed the engine failure to a defect in the automatic control system.

automatic equipment identification tag /ˌɔːtəˈmætɪk/ (n) (cargo handling) oznake za automatsku identifikaciju kontejnera: Automatic equipment identification tags similar to bar codes are placed on containers and truck trailers for identification as they go through different stages of their trip.

automatic fire alarm (n) (safety) automatski požarni alarm: The watchkeeping engineer was alone in the machinery spaces when the automatic fire alarm activated. The automatic fire alarm began to sound.

automatic fire detector /ˌɔːtəˈmætɪk/ (n) (safety) automatski javljač požara

automatic helm (n) (navig) automatsko kormilo, autopilot: When the vessel cleared the approaches to the harbour, the skipper set a course on the automatic helm to pass on his port side a small island, which lay about 2 miles to the south-west.

automatic identification (n) (shipping econ) a means of identifying an item e.g. a product, parcel or transport unit by a machine (device) entering the data automatically into a computer (e.g. barcode, radio frequency, magnetic stripes or optical character recognition) (http://www.iss-shipping.com/cargo/cargo_library_glossarya.asp) automatska identifikacija (pošiljke)

automatic identification system (=AIS) (n) (navig) automatski identifikacijski sustav

automatic keying device /ˌɔːtəˈmætɪk/ (n) automatsko tipkalo

automatic plotting (n) (navig) automatsko ucrtavanje: automatsko plotiranje Facilities such as automatic plotting, electronic bearing lines, variable range markers and radar guard alarms, are normally provided to assist the OOW.

Automatic Radar Plotting Aid (=ARPA) (n) (navig) = ARPA sustav automatskog radarskog ucrtavanja

automatic release hook (n) (safety) kuka za brzo otpuštanje, samootpusna kuka: The bowman released the preventer chain and pulled the Automatic Release Hook (ARH) wire ...
automatic shutdown (n) (safety, marine eng) automatsko isključivanje: The enclosure UV sensors picked up the fire, and the automatic shut down and fire extinguishing process activated.

automatic slowdown (n) (marine eng) automatsko usporavanje rada stroja: Due to the heavy leakage and low pressure on the cooling water system, the main engine automatic slowdown was activated. https://safety4sea.com/

automatic steering (n) (navig) automatsko kormilarenje: He immediately changed
from automatic to hand steering, switched on the second steering motor, and put the helm to port.

autobraking /ˌoʊˈteɪmərɪng/ (n) (cargo handling) uređaj za samoporavnavanje tereta, uređaj za samotrimanje tereta

driverless /ˌdriːvərˈliːs/ (n) (marine eng) the technology by which a process or procedure is performed with minimal human assistance (https://safety4sea.com/) automatizacija

driverless vessel = unmanned vessel

Next generation modular control systems and communications technology will enable wireless monitoring and control functions both on and off board. These will include advanced decision support systems to provide a capability to operate ships remotely under semi or fully autonomous control.

(https://www.unmanned-ship.org/munin/about/the-autonomous-ship/); self-sailing crewless vessel, but there are actually various degrees of autonomy (https://safety4sea.com/) autonoman brod, brod upravljan s kopna, brod bez posade: Dutch maritime group to launch first autonomous vessel by 2019

autonomous shipping autonomno brodovlje, brodovi upravljeni s kopna, brodovi bez posada: Autonomous shipping is coming and for good reason. 90% of global trade moves by sea and it can be a risky business. The weather is getting more extreme which has increased risk to both vessels and crew • a new UK study on navigational requirements for autonomous vessels to identify the future data requirements for autonomous shipping and explore how navigational and wider geospatial data can be used to enable the safe navigation of smart and unmanned vessels.
news@safety4sea.com

autonomous surface vessel (n) (nav arch) autonomno površinsko plovilo

autonomous underwater vessel (n) (nav arch) autonomno bezppsadno plovilo

autopilot /ˌoʊˈteɪˈpailət/ (=automatic pilot) (n) (navig) an electromechanical device which steers ships along a preset course automatsko kormilo, autopilot, automatski pilot: The 2/O initially made a succession of small alterations of course to starboard using the automatic pilot, but then requested the QM to begin hand steering to manoeuvre between the two vessels. engage the autopilot uključiti autopilot: the Master instructed the helmsman to engage the autopilot on a heading of 290°. The master instructed the helmsman to engage the autopilot and then handed the con to the third officer, who stood facing the starboard radar display, with the ECDIS display to his right,
A tanker was transiting a heavily used waterway under VTS control at a speed of about 12 knots and using autopilot control. Gyroscopic autopilot, automatiks kormilo, žirokompas, magnetic compass, automatiko kormilo na žirokompas, adjust the autopilot to bring the vessel on to a COG of 218 degrees.

The vessel was running on autopilot, with the skipper and a deckhand in the wheelhouse and a further crew man resting below in bed.

Auxiliaries (n) (nav arch, marine eng, seamanship) Various winches, pumps motors, engines, etc., required on a ship, as distinguished from main propulsive machinery (boilers and engines on a steam installation). https://officerofthewatch.com/ pomoćni strojevi i oprema

Auxiliary (n) (navy) A vessel whose mission is to supply or support the combatant forces. Pomoćni

Auxiliary boiler (n) (marine eng) pomoćni kotao: A large cargo vessel was alongside in port when the flame in the auxiliary boiler went out unexpectedly. The auxiliary boiler and EGE were linked, with water being taken from the auxiliary boiler to circulate through the EGE.

Auxiliary diesel generator (n) (marine eng) pomoćni dizel generator

Auxiliary drum (n) (nav arch) pomoćni bubanj vitla: The 4mm control wire was wound onto an auxiliary drum, which was connected to the main winch drum.

Auxiliary engine (n) (marine eng) pomoćni stroj, pomoćni motor: The inoperable auxiliary engine meant that the vessel had lost its main emergency services backup, which severely reduced the vessel’s potential pumping capacity. The boat was fitted with two main engines, each driving its own shaft, as well as an auxiliary engine for electrical power.

Auxiliary engine room (n) (marine eng) pomoćna strojarnica: After releasing CO2 some small fires remained in the auxiliary engine room.

Auxiliary equipment (n) (marine eng) pomoćni uređaji: Auxiliary equipment in the engine room includes centrifugal type sea water, fresh water, ballast and bilge pumps, all driven by electric motors.

Auxiliary generator (n) (marine eng) pomoćni generator: The chief engineer put the ship’s engine control lever astern and then went below to change from the shaft to the auxiliary generator.

Auxiliary machinery (n) (marine eng) ship’s machinery other than the main engine(s); e.g., generators, pumps, electric motors, boilers etc. Pomoćni strojevi

Auxiliary power gear (n) (marine eng) pomoćni strojevi

Auxiliary radarscope (n) (navig) radarski ponavljač

Auxiliary ship (n) (navig, nav arch) pomoćni brod

Availability (n) (navi, velebiti) raspoloživost: The availability of a suitable tug may well impact on
the agreed weather limits for a vessel or a berth. The equipment is designed and manufactured only for mooring a vessel in moderate sea conditions, and for relatively short periods, while awaiting berth availability, orders or change of tide. **selective availability** selektivna raspoloživost available /əˈvIləbəl/ (adj) na raspolaganju, raspoloživ: This investigation revealed that the master did not fully understand the chart plotter controls and was not making **best use of the equipment available** - particularly a good visual lookout ... Rule 7 of the Collision Regulations requires all available and appropriate means to be used in determining if a risk of collision exists, and warns of the dangers of misinterpretation and of making assumption **There were no pumps immediately available** and it was deemed too dangerous to go on board, so the vessel sank alongside, ending up sitting on the harbour bottom. **No heavy weather checklist was available** and none was required to be completed as part of the vessel’s safety management system.

**Avast!** /əˈvaːst/ (v) 1 (sailing/boating/yachting, seamanship) (nautical) stop! cease! halt!; an order to stop or cease hauling (stop action at once) https://officerofthewatch.com/ Stani, Stop!, Zaustavi!; 2 (seamanship) Veži! (uže, konop), Agvantaj! (uže, konop), Drži! (uže, konop); 3 stati (naredba), prestatiti (archaic) Avast heaving! (n) (seamanship, ship handling) Stop heaving! Zaustavi/te podizati lanac / sidro! average /ˈævəridʒ/ (n) (mar law) šteta na brodu ili teretu tijekom pomorskoga pothvata; (in marine insurance) a loss or damage to or in respect of goods or equipment. Average in maritime commerce to signify damages or expenses resulting from the accidents of navigation. Average is either general or particular... (https://www.msc.com/) pomorska šteta, havarija, avarija general average opća / generalna havarija, particular average partikularna havarija, average adjuster likvidator / procjenitelj šteta, havarijski procjenitelj, average bond havarijska obveznica, to adjust general average procijeniti / riješiti generalnu havariju average adjuster /ˈævəridʒ əˈdʒʌstər/ (n) (mar law, mar ins) average adjusters are entrusted with the task of apportioning the loss and expenditure over the parties interested in the maritime venture and to determine which expenses are to be regarded as general average (http://www.iss-shipping.com/cargo/cargo_library_glossarya.asp); average adjusters are entrusted with the task of apportioning the loss and expenditure over the parties interested in the maritime venture and to determine which expenses are to be regarded as average or general average. (https://www.msc.com/) havarijski procjenitelj, procjenitelj šteta, likvidator šteta: <tlCorpus> <sentence>The calculation of each individuals General Average Contribution is made by the Average Adjuster, an independent arbitrator selected by the various interests. COMMERCIAL COURSE 160699</tlCorpus> The Average Adjuster added: “Tug assistance will not be admitted under the general average”; 20_General average</tlCorpus>

**average bond** /ˈævəridʒ .bɔnd/ (mar law, mar ins) pravni akt kojim primatelj tereta preuzima izričitu obvezu plaćanja svoga dijela doprinosa u zajedničku havariju, dok se brodar prešutno obvezuje odmah predati teret havarijska obveznica: In a general average situation, all the consignees of the cargoes on board the carrying ship will be notified as soon as possible and those consignees whose cargoes are not sacrificed and thereby indirectly benefited would likely be asked to furnish general average security by way of an average bond together with additional security.

**average speed** (n) (navig) prosječna brzina

**average undertaking** (n) (mar ins) posebna vrsta havarijskog jamstva

**average value** (n) prosječna vrijednost
average voyage length (n) (shipping econ) prosječna duljina putovanja broda (tankera) LR1 average voyage length Size of clean vessel equivalent to panamax; LR1 (Long Range 1) tankers: They are used to load both refined products and crude oil. The ones suitable for dirty products or crude oil are used to be called panamax tankers. LR1 and panamax tankers have a deadweight of between 55,000 MT and 80,000 MT. (https://opensea.pro/blog/ships-types-and-sizes) prosječna duljina putovanja tankera tipa panamax, LR2 average voyage length Size of clean vessel equivalent aframax; LR2 (Long Range 2) tankers: They are suitable for carrying both refined products and crude oil while their size is between 80,000 MT deadweight and 160,000 MT deadweight. It is worth to note that the LR2 vessels suitable to load crude oil are usually called Aframax tankers (from 80,000 MT to 120,000 MT deadweight) and Suezmax tankers (from 120,000 MT to 160,000 MT) instead. (https://opensea.pro/blog/ships-types-and-sizes) prosječna duljina putovanja broda tankera aframax, MR average voyage length MR (Medium Range) tankers: Used to load refined products and their size is between 40,000 MT and 55,000 MT deadweight (https://opensea.pro/blog/ships-types-and-sizes) prosječna duljina putovanja tankera srednjih putovanja (see: https://opensea.pro/blog/ships-types-and-sizes)
avert /əˈvɜːrt/ (v) 1 spriječiti: Port officials are encouraged to exercise this power in order to avert a major accident.; 2 (safety) otkloniti (opasnost): ... we can all recall similar incidents in which we have been involved but were fortunate that something or someone intervened at a crucial moment to avert an accident. avert the casualty izbjeci nesrecu
avoid /əˈvoɪd/ (v) = keep clear = keep out of the way = give way (navig) izbjeći (brod, sudar), izbjegavati (brod, sudar): They then continued to monitor the situation, and took appropriate action to avoid a collision when it became apparent that the ship did not intend to do so. to avoid collision izbjeći sudar: The ro-ro ship also altered course to port and the vessels narrowly avoided colliding. The two ships were now very close, and the master of the inbound ship then took action to avoid collision by turning his vessel hard to starboard and reversing his course. Any action to avoid collision ...shall, if the circumstances of the case admit, he be positive, made in ample time, and with due regard to the observance of good seamanship www.safety4sea.com Had he done so in a timely manner the collision would have been avoided. https://www.marineinsight.com/, avoid close-quarters situation izbjeći položaje opasnih blizina: The master altered course to starboard to avoid a close-quarters situation with the first of the vessels while still keeping a safe distance from the sandbank., avoid a accident izbjeći nesreću, izbjeći nezgodu: To talk about the problems of rules and regulations, stability and training is all very well, but the most straightforward way to avoid accidents is to learn the lessons from those that have impacted on others., avoid misunderstandings izbjeći nesporazume: His/her communications should be clear and concise to avoid any misunderstandings and he/she should then monitor activities to confirm if they have been understood., avoid the ship izbjeći drugi brod: Her master was taking actions to avoid the west-bound LPG carrier ... on her port side. When the vessels were 3 miles apart the cargo vessel altered course by 10 degrees to avoid the trawler, which was now hauling her nets. Seconds later, the engine was put to full ahead, and the helm put hard to port to avoid the tanker., avoid the buoy izbjeću plutaču / oznaku: He altered course to port to avoid the buoys and, as he did so, the vessel grounded on a rock ledge., avoid the risk of izbjeći opasnos od: Classification societies should ensure inconvenience of thoroughly inspecting the components is justified to avoid the risk of a serious accident.
avoidance manoeuvre (n) (navig) manovra izbjegavanja sudara: He initiated an
emergency avoidance manoeuvre to starboard without informing the bulk carrier’s pilot. About 30 seconds later the two vessels collided. https://www.marineinsight.com/

avoiding action (n) (navig) akcija izbjegavanja: The give-way vessel should take avoiding action in open waters at least 12 minutes or more before collision www.safety4sea.com

await /əˈwɛt/ čekati na (isplovljenje, uplovljenje, ulaz u kanal, …): The number of vessels awaiting transit has been reduced to acceptable levels. The vessel proceeded to anchorage to await an improvement in weather conditions. While awaiting the arrival of tugs, the weather deteriorated further.

await berthing space čekati na vez: A record 38 container ships are awaiting berth space — 36 at anchor and two more that were directed to wait in designated areas at sea until anchorages are available https://gcaptain.com/

award /əˈwɔːrd/ (v) 1 nagraditi: For their efforts, Captain McGee and Phillips were awarded the International Maritime Organization’s Bravery at Sea Award, the IMO’s highest honor for bravery at sea, in recognition of their role in preventing a major disaster on one of the nation’s busiest commercial waterways. http://gcaptain.com/; 2 (shipping econ, mar law) nadoknaditi (nekome troškove); 3 (mar law) dobiti posao (na natjećaju), sklopi ugovor (o gradnji broda) be awarded the contract dobiti posao, dobiti ugovor (o natjećaju): We are delighted to have been awarded the classification contract for these innovative containerships, which draw on our real-world experience classing vessels using LNG as fuel Solstad Offshore has been awarded two contracts as part of a frame agreement for building large platform supply vessels https://splash247.com

award /əˈwɔːrd/ 1 a nagrada: He was presented with the Silver Riband Award for his lifetime achievement in the maritime industry. The award is presented every two years by the Council of Marine Carriers (CMC) committee to a recipient who has made a significant, positive and lasting contribution to the marine towing industry https://gCaptain.com; 2 priznanje: In 2008 Captain McFadyen was delighted to receive the award of Lloyds List Ship Master of the Year.; 3 rješenje, odluka (sudska) arbitral award The arbitral award which embodies the decision of an arbitral tribunal http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm)

odluka arbitražnog suda; 4 dodjela (diplome, svjedodžbe): Undertaking the voluntary training currently on offer, that leads to the award of a Certificate of Competency, is a very useful way for fishermen to refresh and update their navigational skills. This type of training currently on offer leads to the award of a Certificate of Competency.

aware (adj) 1 svjestan (nečeg), znati be aware that biti svjestan da, znati da: Watchkeepers must be aware that skippers would rather be called 10 minutes too early, than 1 minute too late – “If in doubt, call him out”. As the vessel approached the berth, the pilot became aware that the following wind and tide were having a greater effect on its speed than he had expected …; be aware of biti svjestan (nečeg), znati (nešto): The skipper was acutely aware of the risks of fire and flood, so he shut the gas supply valve from the gas bottle to the stove, and isolated the electrical supplies at the main. With the vessel now 20 minutes behind schedule, the pilot boat became aware of the high speed on approach, and called the vessel to slow down and swing to starboard to provide a lee for boarding., be unaware that ne biti svjestan da, ne znati da: The OOW was unaware that the tanker was 511m off his ship’s starboard beam.; 2 upoznat; 3 opaziti: As the vessel approached the river bank the lookout became aware of flashing white lights ahead but he did not identify the lights or report the sighting to the OOW.

awareness stage (n) (comm, safety) A period during which the search and rescue system becomes aware of an actual or potential incident. faza saznavanja o potencijalnoj
awash /əˈwɔʃ/ (adv, adj) 1 (seamanship) at a level of the surface of the sea; so low in the water that the water is constantly washing across the surface izvan vode / mora (o sidru) anchor’s awash sidro je podignuto (s dna i nalazi se na površini mora ); 2 (seamanship) pod vodom, mokar: The vessel’s aft deck was almost constantly awash as she rolled in the force 6 seas with the wind on her starboard bow. By this time, the vessel was listing with the deck’s starboard side awash. The main deck was completely awash.

aweigh /əˈwei/ (adj, adv) (seamanship, navig) position of an anchor just clear of the bottom, also indicating that the ship is under way; (an anchor) no longer hooked into the bottom podignut s dna (o sidru): Following a temporary suspension in operations due to a hydraulic line failure, the anchor was aweigh at 1039. With the anchor aweigh at 1235, and a maximum speed of 14 knots, allowing time for acceleration and deceleration the vessel was never going to achieve the programmed ETA. anchor’s aweigh sidro je popustilo s dna, sidro slobodno od dna, sidro podignuto s dna, Italian:l’ancora e spedata

awkward cargo /ˈɔkwərd/ (n) nezgrapan teret, izvangabaritni teret

awning /ˈɑːnɪŋ/ (n) (seamanship, nav arch) a roof of canvas or other material supported by a frame to provide protection from the weather, esp one placed over a part of a deck of a ship; canopy streha, tenda; Italian:tenda awning deck paluba s ceradom (na putničkom brodu)

axe /æks/ (n) (sailing/boating/yachting, nav arch, sailing vessels) sjekira

axial thrust /ˈæksɪəl/ (n) (seamanship, marine eng) aksijalni / uzdužni poriv propeleru

axillary seabream /ækˈsɪlɪrɪ ˈsɪbriːm/ (n) (fishing) batoglavac {ost. hrv. nazivi: divlji arbun, Bajok, Grbić, Batelj, Batokljunac, Rumenac; lat. PAGELLUS ACARNE}

axle /ˈæksəl/ (n) (marine eng) COMPARE shaft An axle is more specifically used for mounting wheels to any type of carriage, such as an automobile, it does not rotate but it may have power transmission shafts mounted inside the axle to drive the carriage osovina

axle of rudder (n) (nav arch) osovina kormila

Aye, aye, Sir!; Ay, ay, Sir!. /aiˌai ˈsɜː/ the reply to an officer’s order signifying that he is understood and will be obeyed (I understand). "I understand and will obey/carry out the order" U redu., Na zapovijed.

azimuth /ˈæzɪməθ/ (n) (navig) the angular distance usually measured clockwise from the north point of the horizon to the intersection with the horizon of the vertical circle passing through a celestial body;
the azimuth of an object is its bearing from the observer measured as an angle clockwise from true north

**azimuthal sight** *(n) (navig) smjeralo, alidada*

**azimuth circle** */ˈæzɪməθ/ *(n) (navig)* instrument used to take bearings of celestial objects

**azimuth device** *(n) (navig) smjeralo, smjerna ploča*

**azimuthing electrical podded propulsor** *(n) (marine eng, nav arch)* = **azipod**

**azimuth compass** *(n) (navig)* an instrument employed for ascertaining position of the sun with respect to magnetic north

**azimuth device** *(n) (navig)*

**azimuth device** *(n) (navig) smjeralo, smjerna ploča*

**azimuthing electrical podded propulsor** *(n) (marine eng, nav arch)* = **azipod**

**azimuth mirror** *(n) (navig) zrcalo smjeralo*

**azimuth mirror** *(n) (navig) smjerna ploča, smjeralo*

**azimuth thruster** *(n) (nav arch, marine eng)* **azimutski porivnik**: The tugboat features a propulsion package based on twin Rolls-Royce Bergen C26:33L9PG engines and a pair of highly reliable Rolls-Royce US 205 CP azimuth thrusters for manoeuvring and strong bollard pull. The chief officer set each azimuth thruster to face 45° outwards for the ship move and proceeded to take the ship through a narrow channel between moored craft.

**azipod** *(n) (nav arch, marine eng)* **porivnik koji omogućuje poriv i kornilarenje te vožnju krmom**; used for a large engine and propeller assembly mounted underneath a ship that can be turned in any direction to provide both propulsion and course changes (http://www.merriam-webster.com/dictionary/azipod). The outboard unit can be 360 degrees rotatable for manoeuvring purposes. **azipod, usmjerivi propeler, propeler-kormilo,** **azimutni porivnik** **azipod control lever** upravljajuča ručica azipoda, ručica za upravljanje azipodom: Three minutes after grounding an engineering alarm sounded and the OOW placed both azipod control levers to zero.
azipod control lever (n) (nav arch, marine eng, navig) upravljačka ručica

azipod control lever: The OOW moved the starboard azipod control lever to pitch ahead but the ship remained stationary.

azipod electric propulsion system (n) (marine eng, nav arch) sustav usmjerenog električnog pogona, električni pogon putem azipoda: Since its development by ABB in 1987, the Azipod electric propulsion system, a streamlined steerable pod motor mounted below the ship, with the propeller connected directly to the motor shaft, has become the preferred propulsion system across a range of shipping segments.

azipod propulsion (n) (nav arch, marine eng) a gearless steerable propulsion system where the electric drive motor is in a submerged pod outside the ship hull sustav usmjerenog pogona, pogon putem azipoda, azipodni pogon, azipodna propulzija: Once on the port bridge wing, the captain adjusted the azimuth propulsion to arrest the vessel’s movement astern. The Azipod® propulsion system, where the electric drive motor is in a submerged pod outside the ship hull, can rotate 360 degrees to boost maneuverability, which is particularly crucial for vessels operating in ice.

azipod propulsor (n) (nav arch, marine eng) azipodni porivnik, azipodni propulzor

babit metal (n) (marine eng) An antifriction metal used to line bearings, thereby reducing the friction of the moving components. (http://www.marinedieseleurope.com/) protutarni metal

Bachelor of Science (Honours) Degree (n) (UK) (mar law) SEE honours degree BSc (Hons) indicates one has completed an Honors Degree Bachelor of Science undergraduate program. An ordinary Bachelor of Science accepts grades on a pass/no pass basis. In contrast, an honors designation requires that students demonstrate superior academic performance (https://www.reference.com/education/bsc-hons-stand-2db47f3f4f4fbb3cf) akademski stupanj prvostupnika s posebnim uspjehom (iznad propisanih standarda) Bachelor of Science (Honours) Degree in Marine Operations Management akademski stupanj prvostupnika nautičkih znanosti s posebnim uspjehom (iznad propisanih standarda): This course draws upon the exciting and challenging area of shipping management. It is tailor-made for those seafarers who decide to embrace a new career path, enhancing the qualifications which they have gained, with the quality of excellence of an Honours degree but without the three years of academic study that is necessary for such a degree on a traditional university course. (http://www.warsashacademy.co.uk/courses/course-pages/bsc-hons-marine-operations-management/course-details.aspx), Bachelor of Science (Honours) Degree in Marine Engineering and Management akademski stupanj prvostupnika brodostrojarstva s posebnim uspjehom (iznad propisanih standarda): Warsash Maritime Academy offers an academic top-up programme leading to a Bachelor of Engineering (Honours) Degree in Marine Engineering and Management.
back (v) (meteorol) (of wind) to shift direction counter-clockwise in the Northern hemisphere and clockwise in the Southern hemisphere: skretati suprotno od kazaljke na satu (o vjetru), mijenjati smjer suprotno od kazaljke na satu (o vjetru): However, the veering loads produced when the wind backed and freshened, might have reduced the effectiveness of this anchoring arrangement.

back (v) (sailing/boating/yachting) to catch the wind on the forward side of the sail: prebaciti jedro suprotno smjeru vjetra radi zaustavljanja ili usporavanja jedrilice, zaustavljati jedrilicu jedrom: During a tack, the jib was backed and remained aback as the dinghy came onto port tack.

back and spill (n) (seamanship) korištenje bočnog izboja propelera pri manevriranju

backboard /ˈbækˌboːd/ (n) (sailing/boating/yachting) klupa na zrcalu krme (barke ili jedrilice)

backfreight (n) (mar law, shipping econ) Freight payable to a shipowner for the carriage of goods back to the port of loading or to another convenient port when the vessel is unable to reach the port of destination because of an excepted peril or because the consignee fails to take delivery of The goods or provide instructions for their disposal. http://www.tkmglobal.net/chartering_B.HTM

backhaul (n) (shipping econ) To haul a shipment back over part of a route that it has already traveled; return movement of cargo, usually opposite from the direction of its primary cargo destination. https://officerofthewatch.com/

backhaul (n) (logist) The process of a transportation vehicle returning from the original destination point to the point of origin. The backhaul can be with a full, partial, or empty load. An empty backhaul is called deadheading. (https://www.globalnegotiator.com/international-trade/dictionary/filter:b/)

back in (v) ući na vez krmom, pristati krmom: Let me see how the ship turns. Then I’ll decide if we go inside or back in.

backing /ˈbækɪŋ/ (n) (meteorol) skretanje vjetra u smjeru suprotnom od kazaljke na satu

backing astern (n) (ship handling) moving astern: vožnja krmom, vožnja broda nazad

back in astern vožnja broda krmom, vožnja broda nazad: The manoeuvre required swinging the vessel 180 degrees and then backing astern to berth port-side to.

backing a sail (n) podupiranje jedra (u regati): A boat moving astern, or sideways to windward, through the water by backing a sail shall keep clear of one that is not. https://www.sailing.org/tools/documents/WorldSailingRRS20172020new-[24067].pdf
backing plate (n) (navig) potporni lim
backing spring (n) (seamanship) uže za tegljenje unazad
backing wind /ˈbækiŋ/ (n) (meteorol) wind which shifts in a counterclockwise direction with time at a given location (e.g. from southerly to southeasterly), or change direction in a counterclockwise sense with height (e.g. westerly at the surface but becoming more southerly aloft) protusatno skretanje vjetra, vjetar u skretanju suprotnom od kazaljke na satu (npr. sa juga na sjeveroistok)
back load (v) (cargo handling) ukrcati ponovno: The vessel must also back load empty containers to achieve the necessary stability criteria for a subsequent safe passage to Asia https://gCaptain.com
backlog /ˈbækˌloʊ/ (n) (shipping econ) velik broj brodova koji čekaju na iskrcaj, zastoj (u luci), čekanje (brodova na ulaz u kanal itd.), čekanje (zbog zakrčenosti luke, prolaza, kanala itd.): To shorten the backlog, non-critical maintenance was postponed, bookings for priority passage have been reduced twice since mid-October and additional crews have been assigned to increase capacity at the canal’s locks. Tanker backlog threatens world oil market gridlock. The container port is loosening the backlog of cargo. Dockworkers have reduced by almost half a backlog that peaked at 40 vessels six weeks ago. https://gcaptain.com/ The Canal Authority says ship backlog has been cleared. https://gcaptain.com/ Backlogs of ships waiting outside major ports across the world is perhaps the most visible sign of the on-going global container shipping crisis and issues in the supply chain. www.gcaptain.com
backlog (n) (shipping econ, nav arch) neispunjena narudžba, zaostatak
back-piece of rudder (n) (nav arch, sailing vessels) list kormila
back pressure (n) 1 (cargo handling) The operating pressure level measured upstream from a control value. (www.euronav.com) povratnilak tekućine / tekućeg tereta; 2 (marine eng) protutlak
backreach (n) (cargo handling) ANTONYM outreach kopneni dohvat dizalice (crane backreach: No. 5)
backstay /ˈbækˌsteɪ/ (n) (sailing/boating/yachting) wire or line reaching from the stern of the vessel to the mast head, used to support the most stražnje leto, zaputka, krmeni štraj; Italian:straglio, Italian:paterazzo (lt.: paterazzo)
backstay adjuster (n) (sailing/boating/yachting) stezaljka krmenog leta,

stezaljka krmenog štraja
backstay bridle račvasti dio na dnu krmenog štraja, fiksni ili s čekrkom/koloturnikom za savijanje
back the jib (v) (sailing/boating/yachting) zategnuti prečku / fok prema vjetru (pri otpadanju, zaustavljanju ili okretanju): However, the veering loads produced when the wind backed and freshened, might have reduced the effectiveness of this anchoring arrangement.

back the vessel (v) (ship handling) voziti krmom, voziti brodom unazad: Once turned successfully, the pilot began backing the vessel;

back up (n) (safety) podrška: The frigate stood there by for back .

back-up arrangements (n) (navig) rješenja za pričuvu, rezervna rješenja (u sustavu ECDIS)

back-up control system rezervni upravljački uređaj, pomoćnu sustav upravljanja: It was considered most likely that the button to activate the back-up control system for the starboard propulsion system was inadvertently pressed during the early stages of the entry into the port.

back-up storage (n) ANTONYM transit shed (ports) pozadinsko skladište

backwash /ˈbækˌwɔʃ/ (n) (navig) a sucking movement of water, such as that of retreating waves usisni val u brazdi broda

backwind (n) (sailing/boating/yachting) povratni vjetar, vjetar iza floka, koji prazni jedro

bad weather (n) (meteorol, navig) nevrijeme, loše vrijeme: A small gas tanker was moored alongside a terminal berth; all mooring bollards were in use due to bad weather. The onset of bad weather the previous day had required the vessel to anchor overnight and await a suitable opportunity for passage to its next port of call ... They took a pride in their work, which they carried out carefully and cheerfully, in the most unbelievably bad weather and sea conditions. The Master came on the bridge due to the increasing bad weather of Tropical Storm / Hurricane. (https://safety4sea.com/) face bad weather naići na nevrijeme, suočiti se s nevremenom

BAF (=Bunker Adjustment Factor) (n) (shipping econ) = bunker adjustment factor Used to compensate steamship lines for fluctuating fuel costs.; A Fuel Surcharge expressed as a percentage added or subtracted from the freight amount reflecting the movement in the market place price for bunkers. (https://safety4sea.com/maritime-dictionary-2/#T); the floating price level of fuel in ocean freight shipping and is typically updated on a quarterly basis. (https://www.flexport.com/glossary/bunker-adjustment-factor/) naknada za fluktuaciju

cijena goriva, faktor promjene cijena goriva: When fuel prices are subject to major price fluctuations, the shipping company sometimes levies a bunker surcharge or BAF (Bunker Adjustment Factor) of BUC (Bunker Contribution) so as to compensate for the risks of price fluctuations. https://www.logisticsglossary.com/term/bunker-contribution/ {also referred to as Fuel Adjustment Factor (FAF)}

bag (n) (cargo) vreća: These were stowed in large bags, each holding an estimated one tonne. The cargo was transferred via a chute into bags stowed in the hold or on deck. bag cargo vrećarija, uvrećeni teret

bagerirati

bagged cargo (n) (cargo) vrećarija, teret u vrećama: The following losses may arise from improper stowage of bagged cargo in containers: The bags slip out of the container when the container doors are opened. Also the density of the contents determined whether a bagged cargo would be considered as bulk or bagged.
bagged stuff (n) (cargo, cargo handling) uvrećeni teret, teret u vrećama, vrećarija

bagging (n) (cargo handling) uvrećavanje tereta

bail /ˈbeɪl/ (n) 1 (mar law) personal security provided by a defendant to the court to prevent the arrest of a ship or to secure its release from arrest. 2 kaucija: The skipper was arrested and imprisoned, then released on bail pending the results of a blood sample analysis to confirm alcohol levels. bail bond kaucijska obveznica; 3 (shipping econ) depozit, roba položena na čuvanje

bail /ˈbeɪl/ (v) (sailing/boating/yachting) to throw or empty water out of a boat, usually by hand

izbacivati vodu iz jedrilice, paljat: Consequently, the five crew started to bail out the water using empty cans. bail out izbaciti vodu (iz barke, jedrilice), ispaljat

bail (n) (seamanship) vjedro, kanta za vodu, sić

bail (n) (seamanship) = rung prečka (na ljestvama)

bailee /ˈbeɪli/ (shipping econ, mar law) ANTONYM bailor a person to whom the possession of goods is transferred under a bailment depozitar: Before finding out who to blame the consignee or cargo owner should notify the sub-carrier or other bailee or their agents where the goods have been shipped or handled by them before delivery to the consignee. Warehousemen and depositories are bailees, as well as carriers.

bailee /ˈbeɪli/ (seamanship) ispolac, palj

bailer (n) 1 (seamanship, sailing/boating/yachting) a device for removing water that has entered the boat; https://www.pinbox.com/index.asp?mc=Hardware&sc=Bailers ispolac, šešula, palj, paj: As the buckets and bailer were not secured to the boat, they quickly drifted off after the boat capsized, leaving the men no effective means of bailing out.

(sailing/boating/yachting) pumpica (malih jedrilica), automatska sisaljka (za automatsko pražnjenje vode iz jedrilice) auto-bailer A device that uses the suction created from forward momentum to drain water from the inside of a boat.
bailment /ˈbeɪmənt/ (n) (mar law) A bailment is the relationship that exists when the bailor of the goods allows another to have temporary custody of them. A bailment is delivery of goods by one person to another for some purpose under a contract.

deponirana roba, čuvanje robe kod depozitara (u depozitnom skladištu i sl.)

bailor /beɪlo/ (n) 1 (sailing/boating/yachting) ispolac; 2 (shipping econ, mar law) deponent

bail out (v) (figurative) bježati s broda (koji tone): Rats bailing out from a sinking ship fig.

Štakori prvi bježe s broda koji tone.

bait (n) (fishing) mamac, ješka, Italian: esca: The skipper and crewman of a 10 metre fishing vessel were on the aft deck, preparing bait and listening to music via a loudspeaker as the vessel headed towards the first string of pots due to be hauled that day. live bait živi mamac

bakery/pastry man (n) (mar law) Bakery/Pastry Man is responsible for cooking bakeries and pastries.

broski pekar/slastičar

balance1 /ˈbæləns/ (n) 1 (shipping econ) saldo; 2 ravnoteža, balansiranje: Of the last three contractors to step onto the gangway, two lost their balance when the gangway dropped, and fell into the water. mechanical balance mehanička ravnoteža, mehaničko

balansiranje, balance weight balansni uteg, uteg za ravnotežu: When the gripe is removed, the tricing pendant will drop down under the suspension hook balance weight.

balance2 (v) uravnotežiti, držati u ravnoteži: Although regarded as a capable skipper, those who knew him, found it extremely difficult to balance this with his ambivalent attitude towards the condition of his vessel.

balance3 (n) (sailing/boating/yachting) balans (jedrilice), ravnoteža (jedrilice)

maintain balance održavati ravnotežu, balansirati

balanced frames (n) (nav arch) The midship frames that are of equal shape and square flanged. There are thirty or more on a cargo vessel, equally divided between starboard and port sides.

balanced helm (n) (sailing/boating/yachting) uravnoteženo kormilo (stabilan kurs jedrilice)

balanced rudder (n) (nav arch) A rudder with its axis halfway between the forward and after edge. A balanced rudder with a maximum angle of 35° to port or starboard.
bale /ˈbeɪl/ (n) cotton bale bala pamuka (cargo) bala

bale capacity (n) (stabil, shipping econ) Total cubic capacity of a ship’s holds available for the carriage of solid cargo which is not capable of filling the spaces between the ship’s frames. It is expressed in cubic feet or cubic meters. Where a cargo is free flowing and is capable of filling the spaces between the ship’s frames, the corresponding cubic capacity is known as the grain or grain capacity.

http://www.tkmglobal.net/chartering kapacitet za bale

bale clamp (n) (cargo handling) hvataljka za bale

bale out the water (v) (sailing/boating/yachting) = bail izbaciti vodu (iz barke, jedrilice, splavi): They managed to right the raft, board it, bale it out, administer sea sickness tablets and release one red hand-held flare, which was immediately spotted by a member of the public who contacted

balisage (n) (navig, navy) SEE buoyage a method of marking a sea route balisaža: sustav označavanja plovidbenih pouova (word of French origin; the English term ‘balisage’ is occasionally used for naval purposes)

ball (navig) kugla (oznaka na brodu): The boat was displaying an anchor ball 3m above deck level, and also had a bright orange mizzen sail hoisted to keep her lying into the wind.

ballast /ˈbælst/ (n) (nav arch, sailing/boating/yachting) heavy weights carried low, i.e. in the bottom of a boat or ship to improve her stability. balast, sovrnja, savurna, tal. zavorra: When the vessel was salvaged, however, an analysis of her stability found that, due to the installation of additional ballast and fishing equipment, her operational displacement had increased by over 30% since new.

ballast (n) (nav arch, stabil, safety, marine eng) Seawater taken into a vessel’s tanks in order to submerge the vessel to proper trim. Ballast can be taken into cargo tanks, double bottoms, fore and aft peak tanks and/or segregated ballast tanks, (SBT). (https://euronav.com) balastna voda, balast: The engineers pumped ballast into the upper starboard wing tanks and pumped out some double bottom tanks on the port side. After discharging ballast from the forepeak, the vessel refloated some 5 hours later without the assistance of tugs. transfer of ballast prijenos balasta, prebacivanje balasta: The transfer of ballast water commenced., discharge ballast iskrčati balast: After discharging ballast from the forepeak, the vessel refloated some 5 hours later without the assistance of tugs., pump ballast pumpati balast: The engineers pumped ballast into the upper starboard wing tanks and pumped out some double bottom tanks on the port side., segregated ballast ballast kept in tanks segregated from cargo pipes and tanks. odvojeni balast, dedicated ballast odvojeni balast, permanent ballast Ballast carried in ship’s tanks that were designed to carry nothing else (https://www.euronav.com) stalni balast, fiksni balast
ballast (n) 1 (shipping econ, stabil) plovidba bez tereta, plovidba u balastu: At the time of the accident, the vessel was in ballast and carrying out sea trials. Ballast A 70 metre product tanker was steaming south in ballast, having discharged her cargo of gas oil the previous day. A 1568gt general cargo ship in ballast was on passage through UK territorial waters on a course of 007° in autopilot, and making good a speed of 7 knots. On September 10th, a bulk carrier arrived in ballast at the Houston Fairway Anchorage, and was due to load a cargo of Pet Coke in Houston, ... (https://safety4sea.com); 2 (shipping econ) mrtvi teret

ballast bonus (logist, mar law, safety) special payment above the chartering price when the ship has to sail a long way on ballast to reach the loading port. (https://www.msc.com/) dodatna naknada za plovidbu u balastu

ballast duct (n) (nav arch) balastni kanal

ballast-free concept (n) (nav arch) use of ballast condition as a change of buoyancy, rather than an addition of weight in order to get the vessel to its safe ballast drafts. In the ballast free ship concept, traditional ballast tanks are replaced by longitudinal, structural ballast trunks that extend beneath the cargo region of the ship below the ballast draft.

(https://safety4sea.com/cm-the-ballast-free-concept-for-tankers-explained) koncept gradnje brodova bez balasta

ballast keel (n) (nav arch) balastna kobilica

ballast leg (shipping econ) ANTONYM loaded leg : 1 dio putovanja u balastu (bez tereta)

ballast passage (shipping econ) plovidba u balastu, plovidba bez tereta: On 11 June 2013, at about 1206(LT), a fire broke out in the engine-room of the tanker, during a ballast passage to Antwerp.

ballast pump (n) (nav arch) a pump used for filling and emptying the ballast tank pumpa

balastne vode: They started the ballast pump and began pumping out water. The duty engineer immediately contacted the second officer and told him to stop the ballast pump and to close the ballast valves.

ballast pumping system (n) (nav arch) pumpni sustav balasta: The ballast pumping system comprises a 500 m³/hr centrifugal pump and two main centrifugal self-priming pumps, each of which has a capacity of 1,000 m³/hr

ballast system (n) (nav arch, safety) balastni sustav, sustav balasta: To transfer the water, the bilge system and the ballast system were connected by remotely opening a cross-over valve. This showed all the ballast pumps and ballast valves, but it did not show the cross-over valve connecting the ballast system with the bilge system.

ballast tank (n) (nav arch) Double bottoms for carrying water ballast and capable of being flooded or pumped out at will. balastni tank, Italian: cassa di zavorra: A 60cm by 20cm hole was punctured above the waterline in way of a ballast tank. The vessel was hove to, and a starboard ballast tank was filled to bring her closer to the upright. Work permits had been issued for the ballast tank and hot work operations, but not for working aloft as, with the hatches closed, there was no danger of falling more than the specified 2 metr double bottom ballast tank balastni tank dvodna: arrangement meant that certain tanks, including double bottom ballast tanks, Collectively, these poor practices could not be sounded. (balst tanks may be permanent, dedicated, or cargo tanks)

ballast valve (n) (nav arch) sisaljka balasta, pumpa balasta, balastna pumpa: The duty engineer immediately contacted the second officer and told him to stop the ballast pump and to close the ballast valves.
ballast voyage (n) 1 (shipping econ) A voyage with no cargo on board to get a ship in position for the next loading port or docking. (http://www.clarksons.com/glossary/) povratna plovidba, plovidba bez tereta; 2 (navi) plovidba u balastu: At 5 am local time, the vessel departed from Rotterdam for a ballast voyage to Montreal, Quebec.

ballast water (n) (nav arch) balastna voda: The fore peak was damaged, causing ballast water to drain to sea, but no pollution was caused. Approximately 40 tonnes of ballast water had been transferred into the bilge collection tank instead of the forward ballast tank as intended. Ballast water is a traditional way to improve the stability, propulsion and manoeuvrability of a vessel. 

https://safety4sea.com/ballast water treatment system sustav obrade balastnih voda: A ballast water treatment system, such as Alfa Laval PureBallast, must last your vessel’s lifetime. IMO ballast water management system convention Konvencija IMO-a o upravljanju balastnim vodama: The IMO Ballast Water Management (BWM) Convention, which has now been ratified, serves as the main international guideline for ballast water treatment systems. Compliance with the BWM Convention is a must.

ballast water exchange (n) (stabil) zamjena balastne vode

Ballast Water Management Convention (=BWM Convention) (n) (mar law, stabil) The BWM Convention aims to protect marine ecosystems by requiring ships to manage their ballast water so that harmful aquatic organisms and pathogens are removed or rendered harmless before the ballast water is released into a new location. (https://www.marineinsight.com/)

Konvencija o upravljanju balastnim vodama: Adopted in 2004, the BWM Convention is known officially as the International Convention for the Control and Management of Ship’s Ballast Water and Sediments.

Ballast Water Management Plan (n) (stabil) plan upravljanja balastnim vodama: Adopted in 2004, the BWM Convention is known officially as the International Convention for the Control and Management of Ship’s Ballast Water and Sediments.

ballast water management system (=BWMS) (n) (nav arch) sustav upravljanja balastnim vodama: As of the end of November 2020, 7,220 of the 9,159 ships registered with ClassNK are obligated to install BWMS in accordance with the BWM Convention. https://www.marineinsight.com/

Ballast Water Record Book (n) (environ, nav arch, safety) Knjiga o balastnim vodama

Ballast Water Treatment System (=BWST; ballast water treatment plant) (n) (stabil, mar law) sustav obradbe balastnih voda: Energy efficient, PureBallast 3.1 offers superior performance in all waters: fresh, brackish and marine. (BWTS) Guard, Alfa Laval PureBallast 3.1 is the third generation of the leading ballast water treatment technology https://www.alfalaval.com PureBallast 3.1 Compact can be configured as a plug-and-play ready module, https://www.alfalaval.com When a ship loads ballast, the water runs through the ballast water treatment plant. It takes time to remove sediment, silt, and biological organisms from the water before it could be loaded in the tanks. https://safety4sea.com/
The safety investigation identified poor condition of a ball bearing inside the winch as the immediate contributing factor to the uncontrolled descent of lifeboat no. (marine eng) ball bearing

ball head (marine eng) centrifugalni dio regulatora: The ball head is the speed detecting portion of the governor.

ballistic missile submarine (navy) a rocket-propelled self-guided strategic-weapons system that follows a ballistic trajectory to deliver a payload from its launch site to a predetermined target.

ball valve (marine eng) kuglični ventil, kuglasti ventil: the watchkeeping engineer closed the local isolating ball valve on the clutch’s air system and opened the system’s vent.

baloon freight (cargo handling) lagani veliki koleti, lagane velike pošiljke

Baltic Dry Index (=BDI) vozarinski indeks / stavovi za suhe rasute terete koje objavljuje 'The Baltic Exchange': The Baltic’s BDI index, which gauges the cost of shipping resources including iron ore, cement, grain, coal and fertilizer, has dropped to 498 points and is over 95 percent down from its all-time high of 11,793 points in 2008 before the financial crisis first hurt the sector. Dry bulk sales fail to keep pace with the BDI. Baltic Dry Index at 5 1/2-Year High .The Baltic Exchange’s main sea freight index rose to its highest since December 2013 on Wednesday, hit a fresh low since Dec. 9, 2020. The Baltic Exchange freight index The Baltic Exchange’s main sea freight index tracks rates for ships carrying dry bulk commodities, fell 90 points, or about 7.4%, to 1,123 points, a fresh low since Dec. 9, 2020. The Baltic Exchange freight index

Baltic Exchange /ˈbɔːltɪk/ (shipping econ) burza čarterskih tereta, burza brodskog prostora i tereta: The center of the chartering business is the Baltic Exchange in London, where brokers representing shippers meet with shipowners or their representatives to arrange the agreements. The Baltic Exchange Ltd., a London-based publisher of shipping rates that shape the cost of hauling everything from iron ore to oil FCA has approved the takeover of London’s Baltic Exchange after shareholders gave the green light for the deal last month. Baltic Exchange freight index The Baltic Exchange’s main sea freight index tracks rates for ships carrying dry bulk commodities, fell on Friday as closure of mines and ports in Australia due to a cyclone weighed on demand for capesize vessels. vozarinski indeksi koje utvrđuje burza čarterskih tereta (The Baltic Exchange), vozarinski stavovi koje utvrđuje 'The Baltic
Baltic index: This week the Baltic Exchange’s main sea freight index, which tracks rates for ships carrying dry bulk commodities and seen by investors as a forward-looking indicator of global industrial activity, plunged to an all-time low.

Baltic index (n) (shipping econ) = freight index indeks vozarina za suhe terete (burze vozarina Baltic Exchange), indeks vozarina za rasute terete (burze vozarina Baltic Exchange): The Baltic index, which tracks rates for ships ferrying dry bulk commodities, fell 3%, or 56 points, to 1,812 points. GCaptain

Baltic mooring (n) (ship handling) COMPARE Mediterranean moor A combination mooring of a vessel alongside the berth which employs a stern mooring shackled to the offshore anchor cable n the region of the “ganger length” (https://www.marineinsight.com) privezivanje uz obalu pojačano sidrom,

https://www.maritimemanual.com/baltic-mooring/

balttime (=Baltic Time C/P) (n) (mar law, shipping econ) General purpose Time Charter Party published by BIMCO BIMCO-ov ugovor o najmu broda na vrijeme

ban (n) (mar law) zabrana: The three-month ban will take effect once the vessel leaves the port. lift a ban ukinuti zabranu: The Government has lifted a ban on 113 vessels entering into the country's territorial waters, ban the ship from entering the port zabraniti brodu uplovljenje u luku: The Maritime Safety Authority has banned the cargo ship from entering or using the country’s ports for three months after the ship was detained for a third time in less than 18 months due to the failure of its operators to safely and effectively manage the operations of the vessel. Australia has banned the vessel from entering its ports after the ship owner repeatedly failed to pay wages to its crew and did not maintain a safe workplace. https://gCaptain.com, import / export ban zabraniti uvoz/izvoz: The Government may decide to impose import ban on crude oil.
ban: (v) zabraniti ban from the waters zabraniti ulazak (brodu) u nacionalne vode (neke države): Maritime authorities have banned the ship from its waters for two years after the ship was discovered... with a hole in its hull. https://gcaptain.com/, ban from entering the waters of... zabraniti ulaz brodu u nacionalne vode (neke države): Before departing, however, the ship was issued with a refusal of access direction notice, effectively banning the vessel from entering or using the ports of... for 24 months. https://gcaptain.com/

banana carrier (n) (nav arch) brod za prijevoz banana, bananijer

banana connector (n) (electr) banana konektor,banana

band /bænd/ (n) (comm) pojas (svjetla, frekvencija itd) VHF marine bands pojas brodskih VHF frekvencija, pojas pomorskih VHF frekvencija: Radio telephone on 2 m band covering area of N Adriatic sea or by VHF Channel 16., S band frekvencijski pojas S: While the OOW attempted to acquire the contact on the X and S band ARPA displays, the pleasure yacht made a 20° alteration of course to port., band X frekvencijski pojas X: The container ship was fitted with two X band radars, and one S band radar, but only the X band radars were operating., x band radar radar frekvencijskog područja X, radar x frekvencijskog pojesa: The target vessel’s details were displayed on the AIS receiver but the option to display the target’s information on the X-band radar, which was fitted with ARPA, was not taken., s band radar: The container ship was fitted with two X band radars, and one S band radar, but only the X band radars were operating.

band (n) (marine eng) pojas (kočnice)

band brake (n) (marine eng, seamanship) pojasna kočnica, tračna kočnica: As the port list increased, hydraulic power was lost, resulting in band brakes on the automatic trawl winch system activating.

banded dye murex (n) (fishing) volak

bank /bæŋk/ (n) (oceanogr) a large area of elevated sea floor sprud: She reached a mud bank across the entrance to this river, where the master knew he would be unable to proceed until the tide rose further. The overtaking manoeuvre resulted in her being on the extreme starboard side of the channel, close to the bank. The stress levels on the bridge rapidly increased as the bank drew ever closer. The vessel had run aground on a bank which was outside the fairway. https://safety4sea.com/

bank (n) (geogr) the slopes bordering a river riječna obala, obala kanala: The boat then made contact with the canal bank, and the helmsman was seen to tip over the guard rail, which was at about knee height and fitted round the cruiser style stern. I believe that the bow cushion effect prevented our bow from hitting the bank of the Canal. When the ship was close to the bank on its starboard, the pilot steadied the vessel parallel to the shoreline. (https://safety4sea.com/) bank effect učin ruba plovnoga puta (u rijeci, kanalu): Speed is critical, since the magnitude of forces created by both bank effect and squat increases with the square of the vessel’s speed through the water., sit on the bank ležati na sprudu / obali / u plićini: The vessel sits on the bank for quite a long time now, and there is a danger of the hull being ruptured. https://www.marineinsight.com/, port / right descending bank lijeva / desna nizvodna obala (rijike): The accident involved a double-hulled tanker and several moored vessels, barges and wharfs along the left descending bank of the Lower Mississippi River from miles 139.5 to 138.7. https://www.marineinsight.com/

bank (n) (meteorol) nakupina oblaka, nagomilani oblaci, gusta naoblaka bank of clouds gusta naoblaka: A bank of dark clouds was swiftly moving from inland.
bank effect (n) (navig) utjecaj ruba plovnoga puta, učin ruba plovnoga puta (u rijeci, kanalu): With the vessel now at the edge of the channel and close to shallower water, she experienced bank effect. Speed is critical, since the magnitude of forces created by both bank effect and squat increases with the square of the vessel’s speed through the water.

bankruptcy /ˈbæŋkrɒpti/ (n) (financ, shipping econ) stečaj, bankrot: rumours of them filing bankruptcy are “untrue, completely groundless”. The company has been on the brink of bankruptcy after facing liquidity problems over the past 12 months, which led to two strikes by its workers in the second half of last year over unpaid wages. www.gCaptain.com bankruptcy protection zaštitu od stečaja / bankrota zahtijev za zaštitu od stečaja / bankrota: A report carried by … suggested the Shipping Line will file for bankruptcy protection within the next two weeks. Rumours of the company filing bankruptcy are untrue, completely groundless.

file for bankruptcy zatražiti pokretanje stečaja: the offshore drilling contractor, filed for bankruptcy after the crash in crude prices made undersea oil wells too expensive to compete. https://safety4sea.com The cruise ship builder… filed for bankruptcy on Monday leaving the fate of the shipyard and its 2,000 employees uncertain www.gCaptain.com

banksman (n) (cargo handling) a crane driver’s helper, who signals instructions to the driver for the movement of the crane and its jib signalist, pomoćnik dizaličaru

baplie (=bay plan) (n) (logist, cargo handling) SEE bay plan An EDI message sent to convey the Bayplan on occupied and empty slots in a certain vessel at a particular time. plan krcanja kontejnera u brodskombayu

bar /ˈbaː(r)/ (1) (nav arch) profil: The mooring rope had come loose because a steel bar, holding the pallet on which the rope was coiled, had broken free from the deck due to weld failure. T-bar T-profij, T-bulg bar gomoljasti T-profij, round bar okrugli profil, half-round bar poluokrugli profil, channel bar U-profij, zed bar Z-profij, flat bar plosnati profil, plosnati čelik, boundary bar rubna šipka (za spajanje rebara broda), short back bar kratki stražnji profil; 2 (marine eng) šipka, motka, greda: While the third engineer was applying tension on the chain block, the flange and one bolt on the trolley cheek plate connecting bar fractured, causing the chain block and trolley to fall from the “H” beam.; 3 (marine eng) poluga

bar /ˈbaː(r)/ (v) 1 spriječiti; 2 zabraniti (past participle: barred)

bar /ˈbaː(r)/ (n) (meteorol) jedinica tlak = 1 hPa bar

bar (n) (oceanogr) sandbar, also called Offshore Bar, submerged or partly exposed ridge of sand or coarse sediment that is built by waves offshore from a beach; Mass of sand or mud formed by the movement of water which creates an area of shallow water.

(http://www.apsltd.com/aps-advisor/sailing-terms-glossary/); a long, narrow shoal across a harbor entrance nanos (pijeska, šljunka, mulja s obale pri oseki): Bars are mostly found at the entrances of great rivers or havens, and often render navigation extremely dangerous, but confer tranquility once inside. https://www.msc.com/shipping-glossary sandbar pješčani nanos u ušću rijeke, bar pilot peljar na riječnom ušću riječni pilot (They are mostly found at the entrances of great rivers or havens, and often render navigation extremely dangerous)

bar /ˈbaː(r)/ (1) (marine eng) bar; 2 (marine eng) tlak u barima, tlak ... bara: In this case, crushed nut shells were injected into the turbocharger under 7 bar air pressure. The subsequent investigation revealed that the fire had started as a result of a leak on the main gearbox cooler spraying oil
at high pressure (18 bar) onto the engine room deckhead and falling onto the starboard engine exhaust manifold. bar bar tlak od … bara: Attempts were made to refit the sampling valve but the 11 bar pressure of the cargo, and the formation of ice on the connection, made it impossible.

baracuda (n) (fishing) barakuda

barber (n) (sailing/boating/yachting) = barber haulier barber

barber haulier /ˈba(r)be(ə)r,ho:liə(r)/ (n) (sailing/boating/yachting) tanki konop kojim se preko klizača uzde i tračnice mijenja kuta glavne uzdi; running fairlead for the jib sheet used to adjust the jib flatter (Seatalk Nautical Dictionary) zateg škotine (na palubi), barber

bare a hand (v) (seamanship) pomoći pružiti ruku pomoći: Tell the Bosun to come on deck and bare a hand. (Seatalk Nautical Dictionary)

bareboat charter (v) (mar law) dati brod u zakup: The vessel is expected to be delivered from the shipyard in the first quarter of 2020, and will be bareboat chartered back to CMB for 15 years. https://splash247.com

bareboat charter party /ˈbeə(r)bət ˈtʃa:(r)tə(r) ,paːˈti/ (n) (mar law) = charter by demise = demise charter party an agreement on a lease of the ship from the owner to the charterer; where the vessel is usually put at the disposal of the charterer without any crew; The hire or lease of a vessel from one company to another (the charterer), which in turn provides crew, bunkers, stores and pays all operating costs. (http://www.clarksons.com/glossary/); Bareboat charterers hire the vessel for a period of time, usually several years, and are responsible themselves for all operational matters including crewing, insurance and maintenance of the vessel. (https://www.euronav.com)

ugovor o zakupu broda, zakup praznog broda, zakup broda: A Bavaria 36 was being sailed by five crew on a bareboat charter between various ports. Bareboat charter usually covers a certain period of time, sometimes a very long period, and is often hinged to a management agreement. In a bareboat charterparty the charterer is given full control to the vessel for a specific long-term period, whereas all operating- and voyage costs are covered by the charter. Most tankers are traded under spot or time charter contracts. The company identified on the charter-party who charters the ship on a bareboat or demise charter. In this the charterer assumes control over all operations, costs and responsibilities associated with the vessel for an agreed period of time. The charterer becomes or appoints the shipmanager and may also have the right to sub-charter the vessel. (http://www.ihsfairplay.com/About/Definitions/definitions.html) The hiring or leasing of a ship for a period of time during which the shipowner provides only the ship while the charterer provides the crew together with all stores and bunkers and pays all operating costs http://www.tkmglobal.net/chartering_

commence a bareboat charter party stupiti u zakup praznog broda, započeti plovidbu pod ugovorom o zakupu praznog broda: The vessel has commenced a 15-year bareboat charter with a major European container line. (The charterer thus will take over almost all of the owner’s functions except for the payment of capital costs. This means that the charterer will have the commercial as well as the technical responsibility for the vessel and pay for maintenance, crew costs and insurance, etc. (https://maritimeinfo.wordpress.com/2011/10/28/bareboat-charter-party/))
bare poles  
(n) (sailing/boating/yachting, sailing vessels) a sailing ship underway with no sails

hoisted  
brod bez postavljenih jedara, brod spuštenih jedara

bare steel  
(n) (nav arch) nezaštićeni čelik

bare vessel  
(n) (mar law) goli brod (bez posade, goriva, zaliha, hrane itd.)

barge /ˈbaː(d)/ (n) (nav arch) = lighter  
a large, flat-bottomed boat used to carry cargo from a port to shallow-draft waterways
teglenica, barža, maona, mauna,

Italian: chiatta: Barges carry dry bulk (grain, coal, lumber, gravel, etc.) and liquid bulk (petroleum, vegetable oils, molasses, etc.). The two men pulled the coil onto the barge and then dropped it down in a suitable area. This effectively made the tug and barge a composite unit in much the same way as a ship.
The pulling tug was connected to the barge by a bridle made up of two short polypropylene ropes. launch a barge spustiti teglenicu u more (s broda tipa LASH), self-propelled barge
teglenica s vlasttim pogonom, mooring barge privezivačka maona: The vessel tied up, bows to the pier with engines at idle, to embark passengers, reducing the gap between the mooring barge and the stern of the passenger vessel to about 30 metres., fuel barge maona za gorivo: The fuel barge arrived alongside and was secured to the ship., stores barge maona za opsrbu brodova: He had a good view of the stores barge below., crane barge maona s dizalicom: The large 60 metre-long crane barge has been contracted to transport the linkspan upriver., ice-class barge teglenica za plovidbu u uvjetima leda: 'M/T Steel', a ship that uses the winter navigation services, sails the Gulf of Bothnia pushing ice-classed barges.
https://safety4sea.com

baseline plane (n) (nav arch) ravnina osnovice
base oil (n) 1 (nav arch, marine eng) ravnina osnovice
base rate (n) (mar law, shipping econ) osnovna vozarina, temeljna vozarina
basic (adj) 1 osnovni: Basic damage control measures were taken, but the vessel’s pumps only just managed to contain the flooding. basic principles osnovna načela, osnovni principi: Whether a vessel is given 10 days or 10 minutes to plan an anchorage, the basic principles are the same.; 2 temeljni: The MAIB is currently investigating three serious accidents involving collisions where qualified, seasoned senior officers have ignored the most basic of watchkeeping principles. At ...... we have a policy that all seagoing staff should repeat their basic safety courses every three years.; 3 glavni; 4 minimalan: The equipment available to the bridge team was quite basic.

Basic and detail ship design (n) (nav arch) SEE ship design; osnovno (idejni projekt) i detaljno projektoranje broda (Our basic and detail ship design service includes: (a) 3D hull and stability modelling – creating comprehensive digital representations of a vessel’s structure and its stability characteristics. This process enables engineers to analyse the ship’s behaviour under various conditions, ensuring its safety and efficiency., © Damage stability analysis – assessing a ship’s ability to remain stable and afloat in the event of damage to its structure. This crucial aspect of detail ship design helps designers implement measures to enhance a vessel’s resilience against potential hazards at sea., (d) Full liaison with class and governmental agencies – essential during detail ship design to ensure compliance with industry regulations and standards. Collaborating closely with these entities facilitates the approval process...
and ensures that the vessel meets all necessary requirements for operation., (e) Intact stability analysis – evaluating a ship’s stability in its undamaged condition. By examining factors such as weight distribution and buoyancy, engineers can optimise the vessel’s design to achieve optimal stability performance while maintaining operational efficiency., (f) • As the owners’ representative, our experts oversee detail ship design projects on behalf of the ship’s owners, ensuring that their interests and requirements are met throughout the process. This role involves coordinating between various stakeholders to achieve the desired outcome efficiently., (g) • Production of stability books and documents – compiling comprehensive records detailing a ship’s stability characteristics and operational limitations. These documents serve as valuable references for crew members and authorities, enhancing safety and regulatory compliance., (h) • Specialist stability analysis – including launching, grounding and drydocking assessments, focusing on evaluating a ship’s stability during critical phases of its lifecycle. By conducting detailed analyses in these areas, engineers can mitigate risks and ensure safe and efficient operations throughout the vessel’s lifespan.

**basic life support** (n) (med) a sequence of actions aimed at resuscitating a person whose life is in danger

**Basic Ocean Freight (BAF)** (n) (shipping econ, mar law) osnovna vozarina za prekomorski prijevoz: The basic ocean freight rate is the price determined by varying factors such as the different origin-destination combinations and the cargo type.

**basic ports** (n) (mar law) luke predviđene redom plovobe u linijskoj plovobi bazične luke, glavne luke

**basic radar system** (n) (electr, navig) osnovni radarski sustav, osnovni radarski uređaj: The basic Radar system consists of two units: the scanner unit and the display unit. The transceiver unit is normally housed in the scanner unit.

**basic tool kit** (n) (sailing/boating/yachting, seamanship, marine eng) osnovni alat na brodici / jahtu / krstašu: screwdrivers - all head types and sizes, including electrical screwdrivers, spanners viličasti ključevi, adjustable spanner, namjestivi ključ, ključ na namještanje, francuski ključ, mole wrench, klijesta za stopice, wire cutter, klijesta za rezanje žice, hack saw and spare blades, pila za metal s pričuvnim listovima, wood saw, socket wrench set, power drill (12 volts), drill bits and screwdriver bits, električna bušilica (12 v), svrdla i nastavci za odvijanje, hand drill and bits, ručna bušilica sa svrdlima, brace and bits teslica s tesarskim svrdlom, pliers and electrical pliers, kombinirana i električna klijesta, hammers and mallet čekići i bat, set of chisels komplet dlijeta, files turpije, lime, tortch, ručna svjetiljka, mirror (to see in confined spaces), zrcalo (za slabo pregledne prostore), bolt cutters noževi

**basin** /ˈbeis(a)n/ (n) 1 (ports) lučki bazen, Italian: bacino; darsena, bazen: A container ship was discharging her cargo in a non-tidal basin. The inbound vessel inadvertently deviated to the south side of the basin before altering course to starboard and then approaching the berth at a higher speed and at a larger angle than necessary. He would then be able to use the propulsion to move the ship into the middle of the harbour basin.; 2 (ports) a docking facility located along a tidal river or in a harbour dok; 3 (geogr) zaljev; 4 (ports) unutrašnja luka: After confirming her position, he realised that the vessel had no choice but to continue to proceed down the narrow channel to the inner basin.; 5 (ports) vanjska luka: The port was entered through a channel marked by pairs of lateral
buoys numbered from 1 at the seaward end to 16 near the outer basin.
basket /ˈbaːskɪt/ (n) (nav arch) jabolna košara, koš
bass /bæs/ (n) (fishing) = sea-bass luben, brancin, lubin, smudut, agač
European seabass luben
bathyscaphe /ˈbæθiˌskeif/ (n) (nav arch) batiskaf
baton (n) (sailing/boating/yachting) zatik, spojni štapić, spojni čep: The shape has been achieved by progressively re-clamping the stringer to batons screwed into the plywood formers.
To bend ply simply soak the ply overnight and encourage the bending by propping it on some batons then placing a weight on top. https://www.diy-wood-boat.com/Plywood.html
guide batons zatici vodilica
(pri ugradnji trenica/madira drvene
batten /ˈbætən/ 1 (cargo) daska, letva batten ends krajevi rezane građe (manji od 2, 5 m dužine); 2 (seamanship) čelična letva za pričvršćenje platna na grotlu
batten (n) (sailing/boating/yachting) a thin strip of material used to create rigidity and shape in sails or canvas. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/); wooden or plastic slats or rods to help maintain the desired airfoil shape of a sail letvica (u jedru), šteka;
Italian: stecca, lajsna jedra batten pocket džep letvice u jedru
batten down /ˈbætən 'daun/ (v) (cargo handling, safety) to close the hatch watertight; the act of making a hatch watertight by wedging the battens against the tarpaulins, or of wedging shut or dogging down any watertight opening zatvoriti hermetički (grotlo, brodsko skladište, ventil): The hatches were properly battened down. The derricks are to be lowered and secured and all the hatches are to be closed and battened down. Port holes and access to pump room battened down. They should have battened down the hatches and vents, and donned lifejackets in case the vessel capsized.
battens /ˈbætənz/ (n) 1 (cargo handling) = cargo battens bokoštitnice; 2 (nav arch) dugače letvice od elastičnog materijala (drvo, polimerni materijal, ili sl) koje služe za crtanje i uglačavanje brodsko forme
(https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijeme.htm#osnovni) letvice: As the sail swings across, the helmsman briefly stops the mainsheet from swinging to leeward so that the mainsail battens flick to their new shape. (drvene / plastične letvice za crtanje i uglačavanje brodsko forme)
batter (v) (meteorol) pogoditi neko područje (o cikloni), sručiti se na (o cikloni), opustošiti neko područje (o cikloni), poharati neko područje (o cikloni): A 200m-long cargo ship has hit a barge full of rocks in the English Channel, as Storm Angus continues to batter the south coast of England. Most powerful hurricane ever recorded over Atlantic Ocean batters Caribbean islands as it moves west with category 5 winds and rains (battery /ˈbætəri/ (n) (electr) električna baterija, akumulator, baterija: Also, make sure that you carry an EPIRB and that the battery in the EPIRB is in date - not everyone will be as fortunate as the crew on board this vessel in this respect. storage battery akumulator, battery capacity kapacitet akumulatora, battery terminal kлемa, stezaljka na polovima akumulatora, starting battery akumulator za upućivanje motora (brodice, jahte, jedrilice, glisera), service battery servisni akumulator, akumulator za dnevnu uporabu (rasvjetu, hlađenje itd. na brodici),
battery

Liquid electrolyte battery akumulator s tekućim elektrolitom i čepovima, battery charger brodski punjač, punjač akumulatora, punjač baterije, AGM battery (absorbed glass mat) hermetički zatvorena brodska baterija / akumulator (elektrolit apsorbiran unutar staklene vune), GEL battery (gel cell battery) hermetički zatvorena brodska baterija / akumulator (elektrolit apsorbiran unutar gela), deep cycle battery servisni akumulator, semi-traction battery servisni akumulator, VRLA battery; valve regulated lead acid battery) akumulator s regulacionim ventilom olovne kiseline, rechargeable battery baterija s punjenjem na mrežni napon, akumulator s punjenjem na mrežni napon, battery booster pojačivač baterija, pojačivač akumulatora, battery operation rad baterije / akumulatora, battery is flat akumulator je prazan, baterija je prazna: He then tried to use the hand-held VHF set, but the battery was flat, battery is out of date bateriji je isteklo vrijeme trajanja: Although the EPIRB battery was out of date, the EPIRB had worked and its signal had been received by the coastguard, and a surveillance aircraft was tasked to locate the ves, battery alarm alarm za praznu bateriju / akumulator: Almost immediately, the battery alarm sounded, recharge the battery dopunjavanje akumulatora, punjenje akumulatora / baterije: These batteries will be recharged during navigation, through shaft generators adding the peak shaving system, and with the aid of 600 m2 of solar panels. https://www.maritimeprofessional.com/news/generation-roro-vessels-unveiled-317740 The batteries will be recharged during navigation using shaft generators as well the a id of 600 square meters of solar panels. http://gCaptain, lithium ion battery litij-ionska baterija, battery pack sklop akumulatora (za pogon broda): The CBO Flamengo will be fitted with a battery pack for hybrid propulsion, importing the vessel’s energy consumption and reducing its cargo footprint. https://gcaptain.com/, lithium battery litija baterija, lithium iron phosphate battery LFP baterija

battery /ˈbætəri/ (n) (marine eng) skup aparata / uređaja, baterija aparata / uređaja, komplet uređaja

battery charger (n) (electr) 1 punjač akumulatora, punjač baterije: It was subsequently discovered that a faulty battery charger had overcharged the boat's batteries, which produced the hydrogen sulphide gas.; 2 ispravljač; 3 brodski punjač

bulk-absorption-float; loUoU Bulk - brzo punjenje do 80% kapaciteta, tj.14,2 V; absorption - punjenje konstantnim naponom do 100% kapaciteta; - float - plutanje - faza održavanja kapaciteta sustav punjenja akumulatora u tri koraka

battery class power notation (n) (nav arch) oznaka klase broda s akumulatorskim porivom: The vessel will be outfitted with Wärtsilä Hybrid Solution and complies with the DNV-GL’s ‘Battery Power’ class notation, allowing the ship’s engines to run more efficiently by operating safely with fewer engines at a higher load. https://gcaptain.com/

battery electric-hybrid vessel (n) (nav arch) brod s elektro-hibridnim pogon: The third battery electric-hybrid Island Class vessel in October, BC Ferries’ fourth Island Class ferry launched early Thursday morning, entering the water at Damen Shipyards Galati in Romania. https://www.marineinsight.com/
battery gases (n) (safety, electr) akumulatorski plinovi: This lack of adequate venting and purging of the battery gases allowed an explosive atmosphere to build up. https://safety4sea.com/
battery power (n) (marine eng, nav arch) akumulatorski pogon: Stena Line recently signed a contract with Callenberg Technology Group for batteries with a total capacity of 1 MWh which will be installed on Stena Jutlandica, which operates between Gothenburg and Frederikshavn. http://trends.nauticexpo.com/project-326281.html?token=ac0e0a566a87782174ced32a51acb5f8866d735 #utm_medium=email&utm_source=insight&utm_campaign=78-electric-hybrid-marine-world-expo-special-edition-19-06-2018&utm_content=title&utm_term=TRENDS_highlight

battery-powered (n) (marine eng) na baterijski pogon, na akumulatorski pogon battery-powered system baterijski pogon, akumulatorski pogon: Louisiana-based SEACOR Marine has completed the installation of the first hybrid battery power system on an an offshore support vessel in the Gulf of Mexico. gCaptain <info=gcaptain.com@mail230.wdc02.mcdlv.net>

battery-powered ship (n) (nav arch) brod na akumulatorski pogon, brod na baterijski pogon: Battery-powered ship has been declared safe after overheating. https://gcaptain.com/
battery switch (n) (electr) glavni prekidač (na brodici, jedrilici): The power for the pump and float switch was derived from the battery side of the battery isolating switch.
battery voltage (n) (electr) napon baterije, napon akumulatora: He discovered that the battery voltage had dropped to below the 10.2 Volt threshold required by the heater to operate its safety features.
battle cruiser (n) (navy) a large warship carrying heavy armament, which is smaller, faster and more manoeuvrable than a battleship krstarica - bojni brod

battleship /ˈbæt(ə)lʃi/ (n) (navy) a type of large, heavily armored warship of the second half of the 19th century and first half of the 20th century armed with heavy-caliber guns, designed to fight other battleships in a line of battle; A naval vessel having a large displacement, good speed, large radius of action, maximum armament, maximum protection against gun fire, bombs, and torpedoes, ability to keep at sea in all weathers and to bear the brunt of sea fighting as a line-of-battle ship. (https://www.history.navy.mil/) bojni brod (generally considered outdated in modern naval warfare)
bauk /boʊˈkʌk/ (=balk) (n) (cargo) (nav arch) A piece of timber from 4” to 10” square. (https://www.history.navy.mil/) greda, četvrtača, sljemenjača

bauxite /ˈboʊksaɪt/ (n) (cargo) boksit

bay /ˈbeɪ/ (n) (nav arch) the position where the container is placed along the length of the container ship; section of vessel in which containers are held (http://www.maerskline.com/en-jm/help/shipping-glossary); A vertical division of a vessel from stem to stern, used as a part of the indication of a stowage place for containers. (https://www.msc.com/) bej, red kontejnera po dužini kontejnerskog broda (od pramca prema krmi): Bays are numbered lengthwise from bow to stern with odd numbers for 20’ containers and even numbers for 40’ containers. The even number between two 20’ containers is used to define 40’ bays. the bay spaces for 20’ containers are numbered throughout fore to aft with odd numbers, i.e. in this case 01, 03, 05 and so on up to 75. The bay spaces for 40’ containers are numbered throughout with even numbers: 02, 04, 06 and so on up to 74. Try to avoid isolated stacks of 20ft containers within 40ft bays in the hold. https://safety4sea.com/ (Theoretically, the thirty-eight bays could be numbered continuously from 1 to 38. However, that would only be sensible if only 20’ containers could actually be loaded. U svakom skladištu
bay /ˈbeɪ/ (n) 1 (geogr) COMPARE gulf COMPARE cove a body of water forming an indentation of the shoreline, larger than a cove but smaller than a gulf

(dictionary.reference.com/browse/bay); body of water partially surrounded by land, usually with a wide mouth to a larger body of water (http://education.nationalgeographic.org/encyclopedia/gulf/)

zaljev, Italian: baia: The vessel was in a sheltered bay and the conditions were good, so the skipper and his deckhand laid out the ring net. A yacht equipped primarily for cruising in the Caribbean is not necessarily going to be able to handle everything a winter storm in the Bay of Biscay can produce. Once the master had received the day’s orders, the launch sailed into the bay to rendezvous with the helicopter for another day of routine training. The vessel was attempting to recover her starboard anchor in adverse weather and sea conditions, off Tees Bay, UK.; 2 zaton

(http://www.differencebetween.net/science/nature/difference-between-gulf-and-bay/: 1. In technical terms, both a gulf and a bay are the same things, and the only difference that is distinguishable is the size. 2. A gulf is considered to be larger than a bay. 3. 3.Gulfs are large bodies of water that have only a narrow entrance along a strait. A bay is also a large body of water that has a wider opening than a gulf. 4. 4.A gulf is much more enclosed than a bay. 5.5.Though it has been said that a bay is smaller than a gulf, there are many exceptions. The Bay of Bengal, about the size of the Arabian Sea, is much larger than the Gulf of Mexico. 6.)

bay (n) (cargo handling, nav arch) a larger open area belowdecks on a ship, as in cargo bay, sick bay

prostor za teret (pod palubom)

bay (n) (nav arch) predio broda engine bay predio strojarnice: The company’s own investigation identified that the temperatures within the engine bay and surrounding areas were higher following modifications made to accommodate the insertion of the additional foam.

bay plan (n) (logist, cargo handling) A stowage plan which shows the locations of all the containers on the vessel. (https://www.msc.com/shipping-glossary) plan krcanja kontejnera

BB (=ballast bonus) (n) (mar law) special payment above the chartering price when the ship has to sail a long way on ballast to reach the loading port naknada za plovidbu u balastu (bez tereta)

BBB (=Before Breaking Bulk) (n) (mar law, shipping econ) SEE break bulk A condition of carriage that freight, or some percentage of it, becomes payable before breaking bulk (discharge of a vessel commences); freight payments that must be received before the discharging of a vessel starts https://www.logisticsglossary.com/term/bbb/ prije početka iskrcaja/ukrcaja, prije otvaranja grotla / skladišta broda (radi iskrcaja/ukrcaja)

BC Code (=Bulk Cargo Code) (n) (cargo handling, mar law) Pravilnik za osiguranje krutog tereta u rasutom stanju: The shipper did not supply information on the characteristics of the cargo as required by IMO’s Code of Safe Practice for Solid Bulk Cargoes (BC Code). After consulting the Bulk Cargo (BC) Code, the master determined that the cargo was non-hazardous seed cake and therefore could be carried on board the ship.

BCH Code (=Code for the construction and equipment of ships carrying dangerous chemicals in bulk - Res. MSC.9(53), (MSC.212(81)) (n) (nav arch, safety) Kodeks za gradnju i opremanje brodova za prijevoz opasnih kemikalija u razlivenom stanju, BCH kodeks

BCO (=Beneficial Cargo Owner) (n) (mar law) the importer, who physically takes possession of cargo at destination; a cargo owner who could be a direct exporter, direct importer, seller or buyer (https://www.shippingandfreightresource.com/shipping-jargon/#BCO) krajnji primatelj tereta
BCR (=Bow Crossing Range)  (n) (navig) minimalna udaljenost
minmoilaženja po pramacu: In this case, the OOW was content to accept a bow crossing
range/distance of 1 mile with the cargo ship and a considerably reduced CPA with the yacht, without
feeling the need to refer to the master.

BDI (=Baltic Dry Index)  (n) (shipping econ) = Baltic Dry Index vozarniški
indeks / stavovi za suhe rasute terete koje objavljuje 'The Baltic
Exchange'

BDN (=Bunker delivery note)  (n) (marine eng) the document showing the quantity and
quality of the bunker(s) delivered to a customer dostavnica goriva, potvrda o isporuci
goriva: Apart from the BDN, the PSC will check the soundings of the tanks where the low sulphur fuel is
kept or where the HSFO is kept for ships with exhaust gas scrubber www.safety4sea.com MARPOL Annex
VI, International Convention for the Prevention of Air Pollution from Ships, now requires certain
information in a BDN. As well as being required for the above purposes, a BDN(as dictated in
MEPC.176(58)) must also include the sulphur levels in the product, as well as delivered quantities.
BDN document is still the primary method to document the quantity delivered to a customer.
following information must be included in the BDN to comply with global standards: Name and IMO number
of receiving vessel; Port of bunkering; Date of commencement of delivery; Delivered product name(s); Quantity
in metric tons; Density at 15 degrees Celsius; Sulphur content; A declaration signed and certified by the fuel oil
supplier's representative that the fuel oil supplied is in conformity with the applicable paragraph of regulation
14.1 or 14.4 and regulation 18.3 of MARPOL Annex VI.

BDR (=Bunker Delivery Receipt)  (n) (marine eng) COMPARE BDN the document
showing the quantity and quality of the bunker(s) received on board ship; document that we supply to
your vessel when we bunker its fuel, as proof of delivery. potvrda o primitku goriva:
Originally the BDR was used as a means to document quantity delivered from a supplier to a customer and
provide evidence of receipt of product.
is a document that we supply to your vessel when we bunker its fuel, as proof of delivery. The BDR must be
accompanied by a sample of the fuel that has been tested, and the ship's copy must be kept onboard for a
minimum of 3 years. http://www.geosgroup.com/news/article/what-is-a-bdr-or-bdn The BDR is completed
by our representative and should be signed (for volume, not weight) upon receipt by the chief engineer or
captain. http://www.geosgroup.com/news/article/what-is-a-bdr-or-bdn (The following information must be
included in the BDN to comply with global standards - same as for BDN)

beach  /biːt/  (v) (mar ins) namjerno nasukati brod (brodicu, barku): Once back in
the safety of the harbour, the skipper was able to beach his boat and make an inspection at low tide. To
avoid sinking, the master decided to beach the vessel. (https://safety4sea.com/) beach a ship

namjerno nasukati brod (radi spašavanja pomorskog pothvata): In an
extreme emergency, a ship's captain may elect to beach his vessel to keep it from sinking in deep water or
for easier rescue of his passengers and crew. To prevent an even greater disaster the SOSREP made the
decision to intentionally beach the ship in Lyme Bay. http://gcaptain.com/ Fearing that the ship could
break up and sink, she was intentionally beached in the nearby bay. During the return trip, smoke began
filling the lazarette, main deck, and engine room. The captain deliberately beached the vessel in shallow
water near shore to evacuate the passengers.

beach  /biːt/  (n) a narrow, gently sloping strip of land that lies along the edge of an ocean or a lake
(education.nationalgeographic.org/.) pješčana morska obala, plaža: ... where it would
beachcomber /ˈbiːtʃkəmər/ (n) 1 (UK, seamanship) a person who searches shore debris for anything of worth, esp a vagrant living on a beach skupljači korisnog ostataka / naplavina na obali nakon brodoloma; 2 (seamanship, US) A derelict seaman found unemployed on the waterfront, especially in a foreign country (seaman without a ship).

beaching /ˈbiːtʃɪŋ/ (n) (mar law, mar ins) deliberately running a vessel aground to prevent a damaged vessel sinking; intentional grounding in order to land crew or cargo namjerno nasukavanje broda (u generalnoj havariji): in an emergency a damaged ship might be beached to prevent it from sinking in deep water. ... he tried to slow down, but the throttle linkage slipped and there was no response from the engine. He was coming in far too fast for beaching. He tried again to throttle back, but in his haste he increased the speed.

beacon /ˈbiːkən/ (n) 1 (navig) a lighted or unlighted fixed aid to navigation attached directly to the earth's surface; Types of beacons: radar reflectors, radio beacons, sonic and visual signals; A lighted or unlighted fixed aid to navigation attached directly to the Earth's surface (lights and daybeacons both constitute beacons). (https://www.msc.com/) svjetleća oznaka, far, svjetionik, oznaka pličine, Italian:meda; boa-radio: On approaching beacon “B”, the cargo vessel reduced speed and altered course to starboard. The vessel passed close to a detached rocky outcrop on its starboard side, which was marked by a beacon. trigger the beacon izazvati uključivanje fara, to erect a beacon postaviti far (oznaku); 2 (navig) a beacon-like buoyant structure, tethered directly to the seabed and having no watch circle zglobni far (usidren u moru) articulated / buoyant beacon A floating mark secured to a sinker, either directly through a joint or by a cable that is held in tension by the buoyancy of the mark. The buoyancy chamber is normally below the surface of the sea. (http://www.iala-aism.org/wiki/dictionar)

beacon (safety) = distress beacon In the system of SAR, beacons use radio signals to indicate distress. Each unit has a built-in transmitter and batteries. Two main beacon types interest the Coast Guard: an Emergency Locator Transmitter (ELT), designed for aircraft and an Emergency Position Indicating Radio Beacon (EPIRB), designed for vessels. Both transmit a radio signal when activated. Unlike most ELTs, EPIRBs transmit a coded message that indicates the identity of the beacon in use. A third type of beacon, which operates through the satellites for use on land, is the Personal Locator Beacon (PLB) class. (http://www.ccg-gcc.gc.ca/eng/CCG/SAR_Maritime_Sar#Rescue_Alerting)

beacon (safety) osobni radio lokator (u traganju i spašavanju): The EPIRB was activated along with the personal locator beacon.

beacon (safety, navig) radiofar, radiooznaka

bead (n) (fishing) perlica (prame)

beakhead (n) (sailing/boating/yachting) the protruding part of the foremost section of a sailing ship, with a triangular deck for working bowsprit sails; housed toilets (heads) for crew w kljun (jedrenjaka), beakhead deck palubica na kljunu pramca
beam (n) (nav arch) an athwart member or girder supporting the portion of the deck above sponja, nosać palube deck beam sponja, nosać palube, tier of beams red sponja
beam (n) (nav arch) = width, breadth the width of a vessel at the widest point; the registered breadth of a vessel, measured at the outside of the hull amidships, or at its greatest breadth širina broda
beam (n) (seamanship, navig) the side of the ship and positions of other ships and objects relative to own ship’s side; the part of the vessel midway between a vessel’s bow and stern bok broda, po boku, atreso: The vessel had no bridge wings, which meant that the sea surface could not be seen from the manoeuvring station within 93 metres%bb of the beam and 184 metres of the stern. on the beam po boku, subočice: --- the westerly cardinal was warning of the danger of a well-charted area of exposed rocks, however the mark was rounded, leaving it just 20-30m on the beam. the skipper was heard to pull the engine control back to neutral as a succession of large waves broke over the vessel, which was now beam onto the sea. before the beam / forward of the beam subočice po pramcu, abaft the beam subočice po krmi: A short time later, the skipper saw the trawler out of the port side wheelhouse window at close range and just abaft the beam. before the beam to port subočice po pramcu lijevo, abaft the beam to starboard subočice po pramcu desno, on the starboard beam desno po boku, na desnoj strani broda: He then held the ship stationary, stemming the 3-4 knot flood tide, with the port’s entrance lock on his starboard beam. The other ship, which was now about 50m on the starboard beam, then altered course to starboard, causing her port quarter to collide with the coaster’s starboard side. on the port
beam lijevo po boku, na lijevoj strani broda: During this manoeuvre, OSV1 also let go all ropes, and as soon as OSV2 was on the port beam, she went astern. The wind was on the port beam and the stern was swinging quickly towards the stone reinforced riverbank. starboard beam desna strana broda: The tidal stream was flooding at between 3 and 4 knots, and a 20 knot wind was acting on the vessel’s starboard beam. He did not see the bulk carrier, which had maintained a steady course and speed and was only 0.25nm off the cargo ship’s starboard beam.

port beam lijevi bok broda, lijeva strana broda: However, as the vessel moved astern into the main shipping channel, the force of the wind acting on her port beam was greater than the power the tugs could produce to hold the vessel against the wind.

turn the ship beam on to the wind okrenuti brod bokom na vjetaru, okrenuti brod bokom prema vjetru: The pilot hurried to the bridge and, with the assistance of one of two tugs in attendance, turned the ship beam-on to the wind in readiness for berthing.

forward of the beam subočice po pramcu: The skipper was well into his day’s work and was shooting a fleet of creels with the wind and seas just forward of the beam when, for some unknown reason, he left the safety of his wheelhouse.

girded grena, nosač: When he reached the after end of the port side conveyor belt, he found the wiper’s body between the conveyor belt roller and a supporting beam.

H-beam nosač od H-profila, H-profil: the flange and one bolt on the trolley cheek plate connecting bar fractured, causing the chain block and trolley to fall from the “H” beam. A fixed “H” beam with a four wheel trolley was fitted directly above the engine.

beam (n) (navig) radarski snop beam width širina snopa
beam ends (n) 1 (seamanship) A vessel lying on her side strane broda, bokovi broda: As lowering continued, the rotation increased until the boat was almost on its beam-ends and with its stern hanging down. 2 (seamanship) on her beam-ends means a ship heeled over on the side so that the deck is almost vertical nagnuti brod (radi čišćenja dna) on her beam ends nagnuti brod (oko 45 stupnjeva tako da se može čistiti dna)
beam knee (=beam arm) (n) (nav arch) A bracket between a frame or stiffener and the end of a beam koljeno sponje
beam reach (n) (sailing/boating/yachting) 1 sailing at an angle approximately 90° to the apparent wind, such that the wind is crossing the vessel’s beam.
beam reaching (n) (sailing/boating/yachting) jedrenje s vjetrom u bok: The wind was south west force 5-6 and good progress was made, the yacht sailing first on a beam reach and then a broad reach.
beam sea (n) (navig) seas (waves) moving perpendicularly to the direction of the ship bočni val, bočno more: A small fishing boat was rolling easily while trawling in a moderate beam sea.
beam seas bočni valovi: Avoiding beam seas, in particular beam seas which lead to synchronous rolling (where a vessel’s natural roll period is equal to the sea’s period), must be avoided, or at least minimised.

beams in aft peak (n) (nav arch) donje sponje u krmenom piku
beam trawler (n) (fishing) a fishing vessel carrying trawl nets boomed out on both sides from a central mast bočna kočarica: On a late winter’s afternoon, in calm sea conditions, a beam trawler
caught her port trawl gear on a fastener. The skipper and 2 crew of a 9.9 metre beam trawler had just completed an uneventful passage to nearby shrimp fishing grounds.

**beamwidth** (n) *navig, electr* the angular width, horizontal or vertical, of the path taken by the radar pulse

beam width distorsion (n) *electr, navig* izobličenje širinom snopa (radara)

beamwidth error (n) *navig* grješka zbog širine radarskog snopa

---

beam wind (n) *meteorol* wind at right angles to the vessel's course *bočni vjetar,*

Italian: vento al traverso: Beam winds reached 90 knots and it was necessary to offset the ship’s heading by 30° to maintain the revised planned track.

bear /bɛə/ 1 (v) *marine eng* A light, or other naviga-tion aid, usually on land, to warn boats of danger or obstruction [https://www.ypiyachts.com/]

bear away (=bear off) (v) *sailing/boating/yachting* ANTONYM luff up ANTONYM
**head up**: namjerno otpadati skretanjem jedrilice od vjetra; to steer or turn a vessel away from the wind; to change direction from close hauled to a reach or run; To fall off. A boat falls off the wind when it points its bow further from the eye of the wind. The opposite of heading up.

https://www.ypiyachts.com/ otpadati, skretati od vjetra, pojati; pojati, zapojati, Italian: *poggiare*: The yacht was *bearing away* with the kicking strap still under tension as the

**bear down on** (v) (sailing/boating/yachting) to head toward and close on another ship

**približavati se s privjetrine**

**bearer bill of lading** (n) (mar law) A bill of lading (supra) providing for the delivery of the goods to whomever holds the bill

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; Person who tenders the Bill of Lading to the ship at the place of discharge in exchange for the goods. Bills of lading are often made out to bearer. http://www.tkmglobal.net/chartering_B.HTM teretnica na donositelja, teretnica (koja glasi) na donosioca

**bearing** / beaining/ (n) (navig) the direction of an object (with reference to you, your ship, another object); the horizontal direction of a line of sight between two objects on the surface of the earth, expressed as the horizontal angle, in degrees, between that direction and north; the direction of an object from an observer, measuring in degrees clockwise form a reference point

(ftp://www.quarterdeck.org/index.html) azimut, horizontalni kut, smjer, Italian: *rilevamento*: In navigation, two or more bearings on stationary objects at wide angles to each other provide a fix. When working close inshore do not rely on a single bearing and range for position fixing: use clearing bearings, use parallel indexes on your radar. closing / opening

**bearings** azimuti koji se približavaju / odvajaju: Over the next 15 minutes, the true bearing of the target changed by 1°, by which time it had closed to 0. Meanwhile, on the tug, the bearing of the fishing vessel was observed to be opening to port and an assumption was made that no risk of collision existed, converging / diverging bearings azimuti koji se približavaju/udaljuju, to take the bearing of an object snimiti azimut nekog objekta, izmjeriti azimut nekog objekta, steady bearing stabilan azimut on a steady bearing
na stalnom azimutu, s azimutom / smjerom koji se ne mijenja: The chief officer saw that the vessel was fishing and, by using the EBL on the radar display, assessed that she was on a steady bearing. Ideally, when two ships are closing on a steady bearing, each is aware of the other’s presence, and action is taken in accordance with the collision regulations. The container ship was approaching on a steady bearing from the port beam at high speed., bearing accuracy

preciznost azimuta, bearing line crta azimuta, linija azimuta: This had not been detected by the OOW, who was monitoring the ship’s position using only a single radar range and bearing line from a fixed beacon. He checked the vessel was on heading for the next alteration of course position, which was indicated by an electronic bearing line on the plotter., leading bearing vodeći azimut, visual bearing vizualno snimljen azimut, vizualno dobiven azimut: After steadying on the new course the OOW fixed the position using a visual bearing and radar distance, and plotted it on the chart in the chart room., monitor the bearing pratiti azimut (drugog broda): The OOW did not monitor her bearing, either visually using an azimuth gyro repeater, or by radar., true bearing azimut pravi: Over the next 15 minutes, the true bearing of the target changed by 1°, by which time it had closed to 0., constant bearing When the angle of an approaching vessel remains the same over time, indicating a collision course.

stalni azimut, konstantni azimut

bearing (n) (marine eng) ležaj, Italian: cuscinetto bearing box kućište ležaja donje glave ojnice, bearing bush košuljica ležaja, tuljac ležaja, bearing cover poklopac ležaja, bearing housing kućište ležaja, vanjsko kućište, bearing surface klizna površina ležaja, ball bearing kuglični ležaj, crankpin bearing leteći ležaj, ležaj osnaca koljena, crosshead bearing ležaj križne glave, gudgeon pin bearing ležaj osovinice klipa, main bearing temeljni ležaj, glavni ležaj, roller bearing valjkasti ležaj, kotrljajući ležaj, large end bearing ležaj osnaca koljena, leteći ležaj: When the machinery space was entered, the engine’s No 6 cylinder large end bearing assembly was found to have passed through the port crankcase door, and to have come to rest immediately outside the engine., ring a bearing provjeravati ispravnost ležaja kucanjem čekića; bearing keys and chocks klinovi za fiksiranje ležaja, anti-friction bearings protutarni ležajevi, protufrikcijski ležajevi, small end bearing gornji ležaj ojnice, ležaj gornje / male glave ojnice: This blanked the oil supply to the small end bearing and cooling oil to the underside of the piston, resulting in overheating and seizure of the piston in the cylinder liner., bearing failure zakazivanje ležaja, kvar ležaja: However, a spate of turbo-charger bearing failures had been linked to overheating.
bearing (n) (shipping econ) utjecaj: have a bearing on the business operation For cargo ships, the properties of cargoes that are permitted to be carried on each ship have an important bearing on safety. Check the bearing condition as described in ...

bearing away (n) (sailing/boating/yachting) turn away from the wind intentionally; turn away from the wind, often with reference to a transit otpadanje, namjerno otpadanje od vjetra, pojanje; Italian:poggiata

bearing bush (n) (marine eng) ležajni tuljac, bukula; lt.:boccola, bukola

bearing cap (=bearing cover) (n) (marine eng) poklopac ležaja: When dismantling the main bearing caps fasten them by means of straps The main bearing caps, made of nodular cast iron, are fixed from below by two hydraulically tensioned screws.

bearing circle (n) 1 (navig) smjeralo, naprava za smjeranje; 2 azimutski kut

bearing cursor (n) (navig) smjeralo interscan bearing cursor interscan smjeralo

bearing discrimination (n) (navig) razlikovanje objekata / ciljeva na istom ili bliskom azimutu (na radaru), odvajanje objekata / ciljeva na istom ili bliskom azimutu (na radaru): bearing discrimination governs the radar's ability to distinguish between two targets close together at the same range.

bearing from a buoy (n) (navig) azimut (snimljen) s plutače: The 3/O fixed the vessel’s position at 1725, a single radar range and bearing from a buoy, which showed that the ship had regained the planned track coincident with a planned 5 degree alteration to port.

bearing journal (n) (marine eng) rukavac ležaja, ležajni rukavac

bearing line (n) (navig) linija azimuta: He checked the vessel was on heading for the next alteration of course position, which was indicated by an electronic bearing line on the plotter.
bearing oil (n) (marine eng) ulje za ležajeve
bearing plate (n) (navig) smjeralo, smjerna ploča
bearing puller (n) (marine eng) izvlakač ležajeva, radapciger bearing puller set

izvlakač ležajeva

http://www.cheaptoolsireland.com/hydraulic-gear-bearing-puller-set-4-6-8-3--2-leg--internal-external-131-p.asp,

bearing puller kit izvlakač ležajeva

bearing resolution (n) (navig) a measure of the capability of the radar to display as separate targets the echoes received from two targets that are at the same range and close together
razdvajanje ciljeva prema kutu, odvajanje ciljeva na istom ili bliskom azimutu, azimutska rezolucija

bearing scale (n) (navig, electr) azimutna skala (na radarskom prikazu)

bearing shell (n) (marine eng) blazinica ležaja: Dismount the upper bearing shell. Take special care that no damage occurs to the bearing shells while they are being removed.
bearing surface (n) (marine eng) ležajna površina
bear off (v) (sailing/boating/yachting) = bear away to turn the vessel or boat away from the direction of the wind skretati od vjetra, pojet, ići u poju
bear up (v) (sailing/boating/yachting) to change direction toward the wind skrenuti u vjetar, skretati u vjetar
beast-hook (n) (nav arch, sailing vessels) zoja
beat /biːt/ 1 (v) (sailing/boating/yachting) = close-hauled SYNONYM head up; to sail close-hauled to windward jedriti uz vjetar, jedriti u orcu: The dinghy was completing its second lap of the fourth race that day, and was beating upwind close by the committee boat when it was hit by a particularly strong gust of wind which caused it to capsize to leeward.; 2 (sailing/boating/yachting) to sail upwind in a sailboat by sailing alternate legs, first on one side then on the other; to zig-zag on alternate tacks; to sail towards the wind by making a series of tacks letati, kosati, zbordižavati; zbordižat
beating /biːtiŋ/ (n) (sailing/boating/yachting) COMPARE running; COMPARE tacking
ploudbia/jedrenje višekratnim letanjem u smjeru vjetra prema cilju ili nekoj točki na moru ili kopnu; sailing as close as possible towards the wind (about 60°) in a zig-zag course to attain an upwind direction to which it is impossible to sail directly (Wikip); Sailing in a zigzag course so as to make progress
**beating straps** *(n) (sailing/boating/yachting)* trake za noge (uz kobilicu jedrilice)

**beat up** *(v) (sailing/boating/yachting)* jedriti protiv vjetra stalnim letanjem, zboundedžavati, jedriti u bordadama

**Beaufort windforce scale** /ˈbɔːfərt rtˈskel/ *(n) (meteorol, oceanogr)* a scale that indicates the wind speed using the effect wind has on certain familiar objects

- 0 calm tišina
- 1 light air lahors
- 2 light breeze povjetarac
- 3 gentle breeze slabi vjetar
- 4 moderate breeze umjereni vjetar
- 5 fresh breeze umjereno jaki vjetar
- 6 strong breeze jaki vjetar
- 7 near gale Žestoki vjetar
- 8 gale olujni vjetar
- 9 strong gale jaki olujni vjetar
- 10 storm ortanski vjetar
- 11 violent storm jaki ortanski vjetar
- 12 hurricane orkan

**becalm** /bɪˈkaːm/ *(n)* A complete lack of wind, rendering sails useless. potpuna tišina, potpun izostanak vjetra, *kalma bonaca*

**becalmed** /bɪˈkaːmd/ *(adj) (sailing/boating/yachting)* a sailing vessel dead in the water due to lack of wind (not moving). Jedrilica bez vjetra: After a late lunch, the boat was becalmed and the two men decided to row the dinghy back to the shore.

**becket bend** (=becket) *(n) (sailing/boating/yachting)* SEE sheet bend, sheet bend

**bedding compound** *(n) (seamanship)* materijal za kalafatanje, materijal za šuperenje

**bedplate** /ˈbedˌpleit/ *(n) (marine eng, nav arch)* the upper surface plating of a foundation platform
of an engine **temeljna ploča**: *overheating of the bedplate* at the main bearing housings; *overheating of the piston connecting rods* engine **bedplate** temeljna ploča glavnog **stroja**: The damage sustained necessitated an engine rebuild and the replacement of the **bedplate** and **crankshaft**.

http://mh-mechanicalengineering.blogspot.hr/2012/06/bedplate.html

**beech** /ˈbiːtʃ/ (n) (cargo) bukva, bukovina

**beep** (n) (electr) kratki zvučni signal (pri startanju ili nekoj naredbi računalu, uređaju), **beep, bip**: The unit *beeps*, the startup screen appears, and then the equipment checks the ROM and RAM for proper operation and displays program number. The senior member momentarily pressed the VHF radio DSC button, but did not hold it down and did not hear the acknowledgment “beep”.

**beetle** /ˈbiːtəl/ (n) (seamanship) bat za kalafatanje: Tom Cunliffe is a lifelong professional sailor who has *served before the mast* in small sailing ships, skippered yachts for private owners, raced offshore, been to sea as mate on a British-registered coasting vessel and taught

**before** (prep) ahead of, on the forward side of *ispred (nečeg na brodu), pred before the beam* (prep phr) subočice po pramcu

**before the mast** (prep phr) (seamanship, sailing/boating/yachting) a work station forward of the main mast; the quarters (accommodation) of the common sailors, in the forecastle, in the front of the ship *u potpaljublju pramca* (smještaj na jedrenjacima za mornare; most often used to describe men whose living quarters are located in the forecastle, officers being housed behind (abaft) the mast and enlisted men before the mast)

**before the wind** (prep phr) (sailing/boating/yachting) Sailing with the wind from astern, in the same direction the wind is blowing, [https://www.ypiyachts.com/](https://www.ypiyachts.com/) **jedrenje niz vjetar, plovidba niz vjetar**: The vessel was aligned to *run before the wind* with a lookout strategically positioned to give directions to the master in order that the vessel could be steered to provide the repair party wit

**belay** /ˈbiːlei/ (v) (seamanship) to make fast a rope or line by taking turns round a cleat or belaying pin; to tie and secure a rope *vezati (konop, uže) na bitvu, učvrstiti konop na bitvu ili o klin, omotati konop na bitvu, Italian: *dare volta su una bitta*

**belay** (v) (seamanship) zaustaviti (uže), zavezati (uže)

**belay** (v) (navy) to cancel an order; An order to halt a current activity or countermand an order prior to execution. ([https://www.msc.com/](https://www.msc.com/)) **opozvati naredbu, poništiti naredbu**

**belaying pin** (n) (seamanship) bar of iron or hard wood to which running rigging may be secured,
bell (n) 1 zvono, brodsko zvono; 2 (seamanship) obilježavanje straže zvukom zvona; 3 (seamanship) dio dana na brodu (1/8 dana): eight bells

bellbook (n) (marine eng) dnevnik stroja (telegraфа)
bell buoy (=bellbuoy) (n) (navig) A buoy with a bell that sounds when the buoy is moved by the waves. https://wwwypiachts.com/ plutača sa zvonom: A bell buoy is usually mounted near a rock or shoal to warn of a serious danger to navigation.
bellmouth (n) (geogr) velika vodena rupa uz rub rijeke (utječe na smjer strujanja)
belly /ˈbeli/ (n) (sailing/boating/yachting) the fullness of a sail trbuh jedra
belly cargo (n) (figurative, cargo, cargo handling) Freight accommodation located below the main deck. (https://www.msc.com/shipping-glossary) teret ispod glavne palube
below (n) (seamanship) Any area of a boat below deck level. Downstairs (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) potpalublje, prostor ispod palube
belt /belt/ cooling belt rashladni pojas, port belt pojas kanala (na cilindru), zona otvora, drive belt pogonski remen, italian: cinghia (marine eng) pojas, zona: The skipper had been on board during the morning to replace the worn main engine fan belt.
bench and vice (n) (marine eng) radionička klupa (stol sa škripom/moršom)
benchmark /ˈbentʃ,maːk/ (n) 1 a mark on a stone post or other permanent feature, at a point whose exact elevation and position is known: used as a reference point in surveying granična točka,
benchmarking

**referentna točka, standard:** These ships will be the new benchmark for the European feeder trades.; 2 (oceanogr) A fixed physical object or marks used as reference for a vertical datum hidrografska nula

**benchmarking** (n) *(shipping econ, safety)* the measurement and comparison with a standard or others of efforts and results in the business process for e.g. input, output, reliability, quality and customer satisfaction (http://www.iss-shipping.com/cargo/cargo_library_glossaryb.asp); compare someone or something with the best that can be achieved within a specified field. utvrđivanje komparativnih standarda, određivanje komparativnih graničnih točaka (za mjerenje razvoja i napretka): Benchmarking is the comparative search for the best practices (processes) that will lead to superior performance of the company.

**benchtop tools** *(marine eng)* stacionarni alati

**bend** /bend/ 1 (v) *(phys)* saviti, savijati, iskriviti: As the wire continued to try to move to starboard (Figure 3), the bracket *began to bend*, freeing the shackle. The port skeg was removed, the port propeller shaft was *bent* and the port propeller blades were badly damaged (Figure 3). While the hull was found to be intact, the Becker rudder was found to be seized and the rudder stock *bent* by about 200 from the vertical.; 2 *(seamanship)* The twisting or turning of a rope so as to fasten it to some object, as a spar or ring; to join two lines together *vezati, zavezati (uže)* *bend* a line *vezati konop / uže, zavezati konop na konop,* **bend** a hitch / knot *zavezati uzao / čvor* *(bend - bent - bent)*

**bend** /bend/ *(navig)* zavoj (rijeke, plovibdenoga kanala), okula, krivina, zakrивljeni element: As the tow *approached a bend in the river*, it started to set quickly to the south, towards a mooring buoy, under the influence of the strong tidal stream. The pilot incorrectly ordered the helm to starboard after the vessel had rounded a *right-handed bend* in the river. At a speed of about 9.5 mph over ground, the pilot began to steer the bend, a turn to port. http://gCaptain.com clear the bend izaći iz zavojra rijeke, proći zavoj rijeke: The bulker carri approached the final *bend* in the channel before the sea reach, speed was reduced and course altered to allow the inbound ship to *clear the bend*, negotiate the *bend* ploviti zavojem (rijeke), prolaziti zavojem: As the vessel was *negotiating the long bend* before the bridge, the pilot, at the master’s suggestion, moved the starboard console to obtain a better view down the side of the ship., *round the bends* na zavojima (rijeke), na okukama: While rounding a *bend*, the tow touched bottom.

**bend** /bend/ (n) *(sailing vessels)* = wale voj gaza, pojas gaza

**bend** /bend/ (n) 1 *(seamanship)* *COMPARE hitch COMPARE knot* any type of knot used to join two lines together; a hitch or knot; Bends are used to secure two lines together (http://shipofficer.com/so/wp-content/uploads/2015/02/1.-Knots-Hitches-and-Bends.pdf) *uzao (za spajanje dvaju konopa / užeta)* single-bend zastavni uzao, carrick-bend
bending  bending the steel by pushing it with a press machine or heating the surface by a gas burner
sijavanje (čeličnih limova)  plate bending sijavanje limova, frame bending sijavanje rebara, pipe bending sijavanje cijevi
bending force  (marine eng) sila sijavanja
bending moment  1  (marine eng) the reaction induced in a structural element when an external force or moment is applied to the element causing the element to bend; the result of vertical forces acting on a ship because of local differences between weight and buoyancy
https://www.msc.com/shipping-glossary  moment sijavanja: At sea the bending moment will change as a result of wave impact which then periodically changes the buoyancy distribution.
2  (nav arch) the result of vertical forces acting on a ship as a result of local differences between weight and buoyancy moment sijavanja: At sea the bending moment will change as a result of wave impact which then periodically changes the buoyancy distribution. The accident occurred suddenly and without warning when only the vessel’s midships tanks were full, creating a maximum bending moment in the sagged condition.
bending moment curve  (nav arch) krivulja momenata sijavanja
bending on sails  (sailing/boating/yachting) nalavljenje i vezivanje jedara za deblenjak (na početku sezone) postavljanje jedara
bending stress  (marine eng) naprezanje pri savijanju: the extra bulb weight exacerbated the problem and the keel was unable to withstand the “in service” bending stresses, and this led to the conditions of failure.
Beneficial Cargo Owner (BCO)  (mar law) a cargo owner who could be a direct exporter, direct importer, seller or buyer.
Beneficial owner (B.C.O.)  1  (mar law) A term usually referring to the registered shipowner, but which may also designate another party having the equitable ownership of the vessel where it is operated under the cloak of a trust. The term may designate some party behind the registered owner, such as a parent corporation or holding company, having some legal or equitable interest in the vessel, including a right to dispose of it krajnji vlasnik
2  (math, logist) Referring to the importer of record, who physically takes possession of cargo at destination and does not act as a third party in the movement of such goods.
beneficiary /ˌbeniˈfɪʃəri/ 1 The entity to whom money is payable (https://www.msc.com/)
primalac (novčane doznačke); 2 korisnik (vlasnik računa u čiju se korist
obavlja uplata); 3 (mar law) The entity to whom a Letter of Credit is issued
(https://www.msc.com/); The seller and the drawer of a draft (https://www.msc.com/)
naslovnik
benefit /ˈbenifɪt/ (=benefits) (n) 1 korist: This case demonstrated the benefit of regular drills.
GPS also frequently has the benefit of cross-track error indication and alarm which, if used effectively, can
provide early warning of a ship deviating from the intended track. for the benefit of u korist,
major benefit veća korist / prednost, benefit from imati koristi od: This section
provides a unique and invaluable source of information for mariners of all disciplines to learn and
benefit from the unfortunate experiences of others.; 2 (mar law) naknade (pomorcima),
prava (zaposlenih pomoraca): the Employee shall be entitled to the wages and other
benefits of this Agreement The following benefits are available after completing a 90-day probation
period: Health Care coverage paid year-round; 401k with company matching contributions (Year 1: 2%,
Year 2: 4%, Year 3 and greater: 6%); 10 days paid vacation each season w/ round-trip travel paid; All
tavel to and from work is arranged and paid for by .... Ability to draw unemployment in the off-season;
Employer-paid training program available
https://jobsite.gcaptain.com/jobs/view/second-mate/52487004/; 3 prednost
benthic /ˈbɛnθɪk/ (adj) (fishing) relating to the bottom of the ocean, or the ocean depths pridneni
benthos /ˈbɛnθəs/ (n) (ports) COMPARE pelagic fish common life forms on the ocean floor
morsko dno benthos fish riba s morskog dna, pridnena riba
bergy bits /ˈbɜːɡi ,bits/ (n) (oceanogr) male ledene sante
Bermudan sloop /bəˈmjuːdən/ (n) (sailing/boating/yachting) 1 bermudski slup a a
one-masted sailing boat with a jib and mainsail rigged fore and aft.
Bermuda rigging /bə(r)ˈmjuːdə/ (=Bermudan rig) (n) (sailing/boating/yachting, nav arch)
oputa s trokutastim jedrom podignutim kosim deblenjakom privezanim pri vrhu ili na vrhu jarbola; an
arrangement of sails and spars featuring a triangular fore and aft sail and a mast with a sharp rake; - A
triangular mainsail, without an upper spar, which is hoisted up the mast by a single halyard attached to
the head of the sail. (https://www.msc.com/) bermudiska oputa
Bermuda sail /bə(r)ˈmjuːdə/ (n) (sailing/boating/yachting, nav arch) trokutasto jedro podignuto
do vrha jarbola s privjetrenim rubom uhvaćenim po cijeloj dužini jarbola i dnom za cijeli debljenjak; A
sailing vessel designed with one tall mast and triangular sails. bermudsko jedro
Bermouli triangle /bə(r)ˈmjuːdə treɪ əŋ(ə)n/ (n) (geogr) bermudski trokut
Bernouli effect (=Bernouli’s Principle) (n) (navig) the function of fluid dynamics that
tends to draw together two ships moving side by side Bernoulijeva jednadžba,
Bermoulijev zakon
berth /bɜːθ/ (n) (ports) The place beside a pier, quay, or wharf where a vessel can be loaded or
discharged. (https://www.msc.com/shipping-glossary); Any place where a ship can safely lie alongside a
quay, pier or dock, at anchor or a buoy, and where she can carry out loading/discharge operations or
embark and disembark passengers; dio vodenoga prostora i dio obale uređen za pristajanje plovnih
objekata i opremljen priveznim sustavom; dockage space for vessel: The port has 21 berths for ro-ro,
project cargo, reefer units, general cargo, and petroleum products. https://www.marineinsight.com/
terminal berth vez na terminalu: A small gas tanker was moored alongside a terminal berth; all mooring bollards were in use due to bad weather., adjacent berth obližnji vez, susjedni vez: A high speed catamaran (HSC) was scheduled to shift to an adjacent berth. obližnji vez, boat's berth vez za brodic: ... and all four were enjoying the fine weather and scenery as they made their way back to the boat's berth. vez za brodic, vez za barke, refuelling berth vez za opskrbu gorivom: The service team boarded the vessel, as the tug's crew were preparing to move to a nearby refuelling berth., repair berth vez za popravak brodova: Crew safety drills continued apace throughout the duration the vessel remained alongside the repair berth, dedicated berth namjenski vez, brodarov vez, vez koji pripada određenom brodaru / brodu: A car and foot passenger ferry arrived alongside her dedicated berth during the early hours of the morning. a (ports) vez (za brod u luci), pristan, pristanište, privezno mjesto, privezište, armiž, Italian: posto ormeggio, vez za opskrbu gorivom to allocate a berth dodijeliti brodu vez (u luci), leave the berth napustiti vez: isploviti se sa veza A tanker was preparing to leave her berth and depart the port by way of a narrow channel. A 30m beam trawler left her berth after being given all the necessary clearances from the harbour authorities., wait for a berth čekati vez, čekati na vez: While waiting for berth, a fully loaded oil product tanker was anchored about 1 mile from the nearest shoal patch., shift to a berth premjestiti se na drugi vez, prebaciti se na drugi vez: The vessel was shifted to another berth and subsequently to dry dock, as originally planned., reach the berth doći do veza, stići do veza: The tug was able to reach her berth and moor up under her own power after the collision., turn off the berth okrenuti se s veza i zaploviti: By 1551, the ship had turned off her berth and was heading toward the departure channel., depart the berth napustiti vez, isploviti sa veza: A container ship departed its berth and was heading on the outward passage with a pilot on board., approach the berth prilaziti vezu, približavati se vezu: The vessel’s main propulsion had failed as she approached the berth and, although the starboard anchor was let go, the vessel could not be stopped., manoeuvre the vessel clear of the berth kormilariti (manevrirati) brodom tako da bude podalje od veza: The master manoeuvred the vessel clear of the berth and then headed on a north westerly course at a speed of 4 knots towards a reef, 5 cables away and marked by north and south cardinal marks., manoeuvre the ship off the berth manovrirati brodom tako da se udalji s veza: The master agreed to the pilot’s suggestion that he would manoeuvre the ship off the berth and turn her, and then that the pilot would take over to negotiate the locks and the river passage., pull the ship / stern off the berth izvući brod / krmu brod dalje od veza, pomaknuto brod / krmu boda s veza: He then ordered the tug to pull the vessel’s stern off the berth and operated the bow thruster to move the bow to starboard., assist the ship on her berth pomoći brodu u manovri do veza: Two tugs were assisting a container vessel onto her berth on a wide river., give a wide berth držati se podalje, zaobići u širokom luku: This means the fishing vessel was restricted and should be given a wide berth at all times. He then handed over the con to
the deep-sea pilot, confirming the need for him to give the light-float a wide berth to starboard.; 2 (seamanship) a place to sleep on board; a bunk or bed in a ship ležaj (na putničkom brodu) berth /bɜːθ/ (v) (ship handling) to bring a ship to a berth vezati brod, pristati: The vessel berthed at the Parker Point ore jetty at 0024 While waiting to berth, a fully loaded oil product tanker was anchored about 1 mile from the nearest shoal patch. There is also a Dhow Harbor located close to Mina Zayed. Vessels such as rig supply crafts, tug vessels, pleasure dhows, personal crafts, and small motorized launches berth here. https://www.marineinsight.com/ berth alongside pristati bočno uz obalu, vezati se bočno oz obalu, Italian: ormeggiare di fianco alla banchina: The ship will be berthing port side alongside. Brod će pristati lijevom stranom uz obalu., berth at vezati se uz / na: We berthed at dock 15., to berth starboard side on / to vezati se / pristati desnom stranom / bokom na obalu: The plan was for the vessel to berth starboard side alongside in readiness to load cargo., to berth port side on / to vezati se / pristati lijevom stranom / bokom na obalu, Italian: ormeggiare sul lato sinistro: the vessel was berthed portside to, facing downstream alongside the Northfleet Hope Container Terminal., to berth stern on / to vezati se / pristati krmom na obalu, vezati se u četverovez, Italian: ormeggiare sul lato dritto: We will berth starboard side to., to berth bow on / to vezati se / pristati pramcem na obalu, vezati se u četverovez, akoštat, berth at the terminal pristati na terminalu, vezati se na terminalu (o brodu): The ship berthed at the terminal during the early morning on May 21 and commenced discharging her cargo. https://gCaptain.com berth /bɜːθ/ (=sleeping berth) (n) (sailing/boating/yachting, seamanship, marine eng) a bed or sleeping accommodation on a boat or ship. ležaj, postelja saloon berth ležaj u glavnoj kabini, krevet u kabini, forecabin berth ležaj u prednjoj kabini, aft berth ležaj u stražnjoj kabini berth /bɜːθ/ (n) (navig) razmak, obilazak give the wreck a wide berth zaobiđite podrtinu u širokom luku, držite se podalje od podrtine, Wide berth requested! Zaobići u širokom luku! berth (n) (sailing/boating/yachting) vez (u marini) wet berths vezovi u moru, dry berths suhi vezovi, vezovi na kopnu, daily berth dnevni vez, annual berth godišnji vez berth benefits pogodnosti za godišnji vez, bonus za godišnji vez berthage /ˈbɜːθidʒ/ (n) (shipping econ, mar law) vezarina, pristojba za korištenje (lučkog) veza ili obale berth bow on (v) (seamanship) pristati pramcem prema obali, vezati se u četverovez pramcem prema obali: A ship may berth port or starboard side on or bow or stem on berth dues (n) (shipping econ, mar law) vezarina, naknada za korištenje veza berthed /bɜːθd/ (adj) (ship handling) privezan (o brodu), biti vezan (o brodu): A cross-channel ferry was berthed starboard side to with its stern to the linkspan. https://safety4sea.com/ berth head (n) (ports) glava veza, glava gata: It was only within the imminent proximity of berth head, just at under half-a-ship’s length away and when a bow tug had to cast off the towing line, the
berth head-in  (v) (navig) pristani pramacem prema obali: Our handy-size, multi-purpose vessel was berthed head-in, starboard side to and had already singled up with pilot on board. Our handy-size, multi-purpose vessel was berthed head-in, starboard side to and had already singled up with pilot on board. (u riječnoj luci, estuaru) vezati se pramacem uzvodno
berthing /bɜːθɪŋ/ (seamanship, ship handling) = docking ANTONYM unberthing manoeuvring the ship to its berth in the port and mooring it to the quay, dock or pier pristajanje, košćivanje, akoštavanje: A 100m long, liquid petroleum gas tanker was conducting a routine berthing at a “T” jetty, which was connected to dolphins by walkways. The master insisted on being on the bridge for the canal transit, and for berthing and un-berthing. berthing manoeuvre manovra
pristajanja: The two men did not discuss the ship’s manoeuvring characteristics, the status of the propulsion or how the berthing manoeuvre would be carried out. The vessel was equipped with a bow thrust unit, rated at 20t, to assist with berthing manoeuvres, preparation for berthing priprema za privezivanje: On this occasion, when several items of heavy electrical load were started in quick succession in preparation for berthing, the generator frequency dropped below 58Hz.
berthing accommodation (n) (ports) smještaj na vezovima za brodove u luci, smještajni kapacitet za brodove (u luci), svi vezovi zajedno (u nekoj luci)
berthing alongside (n) (seamanship, sailing/boating/yachting, ship handling) pristajanje bokom (uz obalu, ponton), bočno pristajanje: He then awaited the arrival of a second tug, which assisted in berthing the vessel alongside.
berthing application (n) (mar law, shipping econ) zahtjev za dobivanje veza: Upon receipt of the Berthing Application / Notice of Arrival, the Harbor Operations Officer makes an initial evaluation of all applications for berth space, taking into consideration the GRT, LOA, and draft of the vessel and the cargo intended to be discharged or loaded.
berthing arrangements (n) 1 (seamanship) upute za privezivanje: What are my berthing arrangements? Immao li vez po dolasku? Gdje ćemo se vezati?; 2 (ports, seamanship) oprema za privezivanje; 3 upute za privezivanje; 4 dobivanje veza u luci to make berthing arrangements arrangements dogovoriti vez za brod u luci, organizirati vez za brod, agree berthing arrangements arrangements dogovoriti vez u luci
berthing bow-to (n) (sailing/boating/yachting, seamanship, ship handling) vezivanje pramacem prema obali, vez u četverovezu s pramacem pream obali
berthing guidelines (n) (shipping econ, mar law) upute za privezivanje broda
berthing impact energy (n) (seamanship) udarna energija broda
berthing in a lock (n) (ship handling, navig) pristajanje u ustavi
berthing instructions (n) (mar law, shipping econ) upute za vez, obavijest o dodjeli veza (u luci): The ship is at anchor awaiting berthing instructions.
https://safety4sea.com/
berthing manoeuvre (n) (ship handling) (seamanship) manovra pristajanja
berthing master (n) (navig, ports) voditelj privezivanja: Before boarding the ship, the pilot met the berthing master on the jetty.
berthing meeting (n) (shipping econ) sastanak svih zainteresiranih za dodjelu veza brodu i obavljanje lučkih operacija sastanak lučke koordinacije daily berthing meeting dnevni sastanak lučke koordinacije

berthing operation (n) (ship handling) (seamanship) manovra pristajanja, manovra privezivanja, manovra dolaska na vez: The chief officer and the officer aft was properly briefed for the berthing operation. The berthing operation required the vessel to be turned through 180° before mooring port side to. A harbour tug was tasked to assist in the berthing operations of a 75,000gt bulk carrier and to pass her tow line from her forward towing winch through a panama lead at the ship’s starboard shoulder.

berthing orders (n) (navig, seamanship) zapovijedi za privezivanje, naredbe za privezivanje, Italian: ordini per l’ormeggio
1 We will berth on the starboard / port side Privezat ćemo se desnim / lijevim bokom., 3 Send out headline! Dodajte pramčani konop., Dobacite pramčani konop., 2 Have heaving lines ready forward and aft! Neka bacala budu spremna na pramcu i na krmi., 4 Send the heaving lines ashore! Dodajte bacalo na obalu., Dobacite bacalo (pandul) na obalu., 5 Use the bow lead! Koristite pramčano oko., 6 Heave on the … line! Natežite … konop., 7 Stop heaving! Prestanite napinjati., 8 Heave in easy! Napinjte polako., 9 Slack away stern line! Popuštajte krmeni konop., Pick up the slack on the … line(s) / … spring(s)., Pritegnite labavi(e) … konop(e)/… špring(ove)., check the … line Zaustavite … konop., 10 Keep the springs tight! Držite špringove nategnutima., 11 Make fast fore and aft! Privezat ćemo se lijevim/desnim bokom., 12 Finished with manoeuvring stations. Privezivanje završeno., Hold on the … line(s) / … spring(s). Zadržite… konop(e)/špring(ove)., 2 We will moor alongside Pristat ćemo bokom na obalu.

berthing party (a) (ship handling) (seamanship) privezivačka grupa, privezivačka skupina, brodoprivezivači: When this happens, there is always the danger of thrusters or a propeller becoming fouled unless good communication and co-ordination is maintained between the bridge, the mooring parties and the berthing party ashore.

berthing pilot (n) (navig, seamanship) privezivački peljar, peljar ovlašten za privezivanje broda: The berthing pilot began the manoeuvre to turn the tanker using a combination of engine, helm and tug movements. The berthing pilot began the manoeuvre to turn the tanker using a combination of engine, helm and tug movements.

berthing plan (n) (navig) plan privezivanja broda, plan pristajanja broda: The berthing plan was revised to prevent the unit’s failure at a critical stage of the berthing manoeuvre. The berthing plan was discussed between the pilot and the Master but the pilot had not mentioned the restricted room due to the other berthed tanker.

berthing port/starboard side to the berth (a) (ship handling, navig) pristajanje lijevim/lijevim bokom uz obalu berthing port/starboard side to the berth, with / without thruster pristajanje lijevim bokom uz obalu, s / bez pramčanog porivnika

berthing position (n) (ship handling) (navig) mjesto vezivanja broda, mjesto
berthing procedure: Just short of the intended berthing position the vessel stopped. The approach went according to plan until the ferry was about 11 ships’ length from its final berthing position, when her three main engine clutches disengaged almost simultaneously.

berthing procedure (n) (seamanship, navig) postupak privezivanja
berthing ropes (n) (seamanship, ship handling) užad za privezivanje: The selection of the sizes and types of berthing ropes used on board ships is largely a matter of commonsense and good practice.

berthing stern on (n) (seamanship, ship handling) = Mediterranean moor = Mediterranean moor pristajanje u četverovez, pristajanje krmom prema obali
berthing stern to (n) (sailing/boating/yachting, ship handling) privezivanje krmom prema obali, vez u četverovezu s krmom prema obali
berth is/not clear (n) (ports) vez je slobodan / vez nije slobodan
berth liner service (n) (mar law, shipping econ) This is a regular scheduled steamship line with regular published schedules (port of call) to and from defined trade areas. (https://www.msc.com/shipping-glossary) redovita linijska služba, redoviti linijski servis, redovita linijska plovidba
berth no berth 1 (mar law, shipping econ) bez obzira je li brod na vezu ili nije; 2 = whether in berth or not
berth operator (archaic, ports) operator veza (terminala), poduzetnik poslova veza / terminala, lučko poduzeće koje upravlja vezom / terminalom: In case of pollution advice immediately berth operators and harbor authorities;
berth or liner terms This is an expression covering assessment of ocean freight rates generally implying that loading and discharging expenses will be for the ship owner's account, and will usually apply from the end of the ship’s tackle in port of loading to the end of the ship’s tackle in port of discharge. (https://www.msc.com/shipping-glossary); linijski uvjeti uključuju vozarinu koja obuhvaća troškove ukrcaja i iskrcaja na teret brodara i preuzimanje i isporuku tereta ispod čekrka linijski vozarninski uvjeti
berth place (n) (ports) vez broda
berth stern first (v) (navig, ship handling) pristati najprije krmom prema obali: The Pilot advised the Master that the vessel would berth stern first at No 5 berth
berth stern on (v) (navig, seamanship, ship handling) = berth stern to pristati i vezati se krmom prema obali
berth stern to (v) (navig, ship handling) pristati i vezati se krmom prema obali
berth terms (=B/T) (n) (mar law) the freight rate that includes cost of carriage from end of ship’s tackle at load port to end of ship’s tackle at discharge port; Expression signifying that the contract of carriage is subject to the customs and conditions of the ports of loading and discharging. http://www.tkmglobal.net/chartering_B.HTM; Shipped under a rate that does not include the cost of loading or unloading. https://officerofthewatch.com/tools/maritime-dictionary/ klauzula o uvjetima prijevoza stvari u skladu s običajima luke ukrcaja
berth-to-berth route (n) (navig) ruta od početnog do krajnjeg veza (u planiranju plovidbe broda - voyage planning): Although the route plotted on the
chart was berth-to-berth, it lacked the necessary detail. The passage plan should be berth to berth, so there should have been a planned route into the port which would have highlighted the discrepancy in the vessel’s position on the ECDIS. https://safety4sea.com/

beset in ice (adj) (navig) opkoljen ledom, zaroobljeni u ledu: The vessels became beset in ice in Northeast Passage.

best bower (n) (seamanship) najveće sidro na brodu

bevel gear /ˈbevəl/ (n) (marine eng) stožnik, kosi zupčanik, stožni zupčanik, stožasti zupčanik, zupčanik s kosim zupcima

bevel square (n) pomični kutomjer, škvara, squadra falsa

beyond /bɪˈjɔnd/ ( prep) 1 (mar law) iznad; 2 iza: Once beyond a nearby bridge, the vessel continued for several minutes before the skipper turned the vessel around and started to head back downriver. Kad je brod prošao obližnji most, nastavio je tako ploviti nekoliko minuta prije nego što je zapovjednik okrenuo brod i usmjerio ga niz rijeku.; 3 iznad (moći) beyond control izvan moći, izvan kontrole: The wind and the waves are beyond our control and the challenge is often finding the best way to use these elements to our advantage. Instead, we were faced with a series of events that escalated beyond our control, beyond repair koji se više ne može popraviti: A new fire tube was fitted to the auxiliary boiler, but the EGE was damaged beyond repair. To make things worse, the VHF radio in the lifejacket pouch had been damaged beyond repair.

bible /ˈbaɪbl/ (n) (sailing/boating/yachting) porozni kamen za ribanje palube (na jedrenjacima)

bid (n) (mar law) proposal, offer ponuda (na natječaju)

bidder (n) (shipping econ, mar law) ponuđač preferred bidder preferirani ponuđač, ponuđač s prednošću: The dry bulk shipping specialist Korea Line Corporation was named the preferred bidder to take over company’s Asia-US and intra-Asia networks

bid opening (n) (mar law) otvaranje ponuda

bifurcation (n) (navig) the point where a channel divides when proceeding from seaward račvanje, bifurkacija

Big Bear (n) (navig) Veliki medvjed

big end (n) (marine eng) COMPARE upper end donja glava ojnice, donji dio ojnice, pršut (= large end; = lower end; = bottom end)

bight /ˈbaɪt/ (n) (seamanship) 1 (seamanship) any section of line that is bent into a U-shape; a curve or loop in a rope udvojak konopa, polukružna petlja užeta: At this point the tail of the rope fouled the propeller and trapped the remaining deckhand in a bight as it whipped overboard. The deckhand on the workboat had passed the line as planned, but he had not noticed that he was standing with his foot in a bight of the rope.

https://home.army.mil/wood/application/files/8915/3868/3675/knots.pdf; 2 (seamanship) a curved section or slack part between the two ends of a rope, labavi dio užeta (između dva kraja užeta); 3
big-scale sand smelt

**plitka uvala** *(geogr)*

**big-scale sand smelt** *(n) (fishing)* **COMPARE sand smelt** gavun oliga *(drugi htv. nazivi: batelj, čiga, gaun batelj, gaun hrskavac, grčki, brfun, grima , mahača, ojiga, tupaća; lat. Atherina boyeri; Italian:latterino capoccione)*

**bilge** /bildʒ/ *(n) (nav arch)* the parts/spaces of a vessel’s hull where the vertical sides curve inwards to form the bottom and where water collects or drains and must be pumped out of the vessel kaljuža, santina, ston, Italian: sentina; assecco: The water level in the bow thruster room eventually reached the outside sea level because of undetected holes in the **bilge area**. **bilge alarm** alarm kaljuža, alarm kaljužnog tanka: The vessel was fitted with a **bilge alarm**, but it had failed to activate. The forward **bilge alarm** did not sound, and the automatic bilge pump indicator lights had been inadvertently covered. The chief officer noted that starboard side **bilge alarm had not activated** within the anticipated time. https://safety4sea.com/ The pump man was conducting tests on the pump room’s **bilge alarms**. https://safety4sea.com/, **bilge level** razina kaljuža, razina tekućine u kaljužnom tanku: He then checked the boat over, including the **bilge levels** and mooring ropes before locking the wheelhouse and making his way home.

**bilge** *(n) (nav arch)* zakriveni dio na spoju dna i boka broda **uzvoj**

**bilge** *(n) (nav arch)* uzdužna zakrivenjenost palube na boku *(https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni)* obluk, uzvoj

**bilge and ballast system** *(n) (nav arch)* a piping system located in holds or lower compartments of a vessel and connected to pumps or eductors. **sustav kaljuža i balasta, kaljužni i balastni sustav, cjevovod kaljuže i balasta**: The bilge and ballast system is used to clear off the accumulated water overboard and also to fill water into the ballast tanks

**bilge blocks** *(n) (nav arch)* **COMPARE keel blocks** Supporting blocks used under bilge for support during construction or drydocking. https://officerofthewatch.com/tools/maritime-dictionary/ potklade ispod kaljuža broda (u izgradnji ili pri dokovanju), bočna sjedala (na navozu): Keel blocks are arranged so that the height of keel above the ground is 1.25–1.5 m, giving reasonable access, but not too high so that a large amount of packing is required https://www.sciencedirect.com/topics/engineering/slipway

---

https://www.sciencedirect.com/topics/engineering/slipway

**bilge bracket** *(n) (nav arch)* uzvojno koljeno

---

https://www.sciencedirect.com/topics/engineering/slipway
bilge clamp (n) (sailing vessels, nav arch, sailing/boating/yachting) bočno pasmo, verzina
bilged on her anchor (n, adj) (navig, ship handling, seamanship) A ship that has run upon her own anchor, so the anchor cable runs under the hull. sidreni lanac vuče se po dnu broda
bilge drain (n) (nav arch, seamanship) odvod iz kaljuže, kaljužni odvod, škarik santine
bilge keel (n) (nav arch) a vane or keel mounted on the outside of a ship at the turn of the bilge perpendicular to the hull to reduce rolling effect ljuljna kobilica
bilge keelson (n) 1 (sailing vessels) bočna hrtotenica, dohrtotenica, bočno dopasmo; 2 (sailing vessels) uzvojna proveza
bilge pipe (n) kaljužna cijev, cijev kaljuže bilge pipe pipe system sustav kaljužnog cjevovoda, kaljužni cjevovod: Large sections of bilge pipe system were renewed, and improved routing was introduced.
bilge piping system (n) (nav arch) sustav kaljužog cjevovoda
bilge plates (n) (nav arch) kaljužni oplatni limovi, oplatni limovi kaljuže
bilge pump (n) (marine eng, sailing/boating/yachting) a hydraulic pump fitted at the lowest inboard part of the hull to bail out water kaljužna crpka, kaljužna pumpa: A significant amount of water had entered the vessel’s under deck area and we had experienced some problems with a bilge pump. The primary deck wash and bilge pump ran continuously with no means of disengaging it from the main engine. The cause of the sinking was failure of the electric bilge pump, leading to the bilge slowly flooding. manual kaljužne vode ručna kaljužna pumpa, electric bilge pump električna kaljužna pumpa, bilge pump handle ručica kaljužne pumpe, bilge pump installation ugradba kaljužne pumpe: While bilge pump installations are fairly straightforward - and definitely within the scope of DIY projects - there are several factors to consider (capacity, wire size, hose diameter, fuse size) before you begin, and there are some good rules of thumb to follow.
Several Bilge Pump Arrangements:
1. Using Engine Driven Mechanical s/v Cooling pump with suction from bilge manifold.
2. Using Submersible high capacity electric pumps.
3. Whale/Graber type hand operated pump.

Other arrangements:
4. Using a domestic water/ demand/ self/ operation/ watermaker LP electric pumps via bilge manifold.
5. Submersible generator powered electric pump issued of battery and main engine failure.

https://www.osculati.com/hr/11148-16.122.35/https://www.osculati.com/hr/11148-16.122.35/maxi-submersible-bilge-pump-g3500-12-v

bilge pump (boat) kaljužna crpka (brodice), kaljužna pumpa (brodice)

https://www.osculati.com/hr/11148-16.122.https://www.osculati.com/hr/11148-16.122.35/maxi-submersible-bilge-pump-g35 00-12-v

bilge pumping system (n) (marine eng) sustav kaljužnih pumpi: A portable salvage or submersible pump will ensure you can pump out compartments not served by the fixed bilge pumping system.

bilges /bildʒiz/ (n) 1 (nav arch) The lowest portion of a ship inside the hull, considering the inner bottom where fitted as the bottom hull limit. https://officerofthewatch.com/tools/maritime-dictionary/kaljuže, santine; 2 kaljužni vod
bilge strake (n) (nav arch) hull plates that form the curved sections that make the transition from bottom shell to side shell uzvojni vod, voj uzvoja, ljuljni vod, voj obluka
bilge stringer (n) (nav arch) kaljužna proveza
bilge suction (n) (marine eng, nav arch) usis kaljuže: The compartment, immediately forward of the accommodation space, had no fixed bilge suction, in order to continue pumping out the water.
bilge system (n) (nav arch) kaljužni sustav: The bilge system in all the holds, except Hold 1, incorporates two centrifugal, self-primping pumps rated at 200 m³/hr, and a single piston type bilge pump of 10 m³/hr
bilge waste (n) (environ) kaljužni otpad: The coastguard has fined a tanker vessel operator $1.30 million for unlawful discharge of bilge waste. https://gCaptain.com
bilge water (n) (nav arch) foul water in the bilges kaljužna voda
bilge well (n) (nav arch) zdenac kaljuže: To pump out the lower car hold bilge wells, the engineer selected each system in turn, opened the appropriate valves and started the bilge pump.

bill /bil/ 1 (financ) a račun; 2 (financ) novčanica, banknota; 3 (mar law) nacrt
zakona
bill /bil/ (n) (nav arch) oštrica lopate sidra, vrh lopate sidra
billboard a fitting at the bow of a vessel for securing an anchor kućište sidra (na pramcu)
bill-board /ˈbilˌbo:d/ (n) (sailing vessels) štit za sidro
billed weight (n) (shipping econ) fakturirana težina (tereta), obračunata težina tereta
billet /ˈbɪlɪt/ (n) 1 (navy, US) položaj, zadaće i zaduženja pojedinog mornaričkog časnika, dočasnika itd.; a specific personnel position, assignment, or duty station which may be filled by one person, most commonly used by the United States Navy (https://en.wikipedia.org/wiki/Billet) zadaće (mornaričkog časnika): There were three major operational departments i.e., Operations, Gunnery and Engineering. Aboard destroyers, these were all Lieutenants‘ billets.
http://www.dd596.com/Our-Ship/Organization A fleet destroyer will normally have all three major department head billets filled by a Lieutenant Commander or fairly senior Lieutenant.
http://www.dd596.com/Our-Ship/Organization; 2 (navy) smještaj mornaričkog časnika (na kopnu): a place, especially a civilian’s house, where soldiers are lodged temporarily.; 3 (archaic, navy) pismeni nalog
bill of anchor (n) (nav arch) vršak lopate sidra, vršak krila sidra
bill of exchange (=draft (US)) (n) (mar law, shipping econ) an unconditional order in writing, addressed by one party (drawer) to another party (drawee), requiring the drawee to pay at a fixed or determinable future date a specified sum in lawful currency to the order of a specified person.
(Glossary of Shipping Terms, US MarAd); Used in connection with Letters of Credit, akin to a bank cheque. This is also known as a draft in the U.S. (https://www.msc.com/shipping-glossary) mjenica
bill of health (n) (mar law) = maritime declaration of health SEE free pratique a document provided to a ship’s master by port health authorities indicating the state of health of the ship’s company and of the port from which the ship is sailing, as well as other ports to which the ship intends to sail pomorski zdravstveni list, zdravstveni list (pomorski):
When a vessel has free pratique, this means that the vessel has a clean Bill of Health certifying that there is no question of contagious disease and that all quarantine regulations have been complied with, so that people may embark and disembark. The Bill of Health must be communicated before departure by the Consul of the country of destination. https://www.msc.com/ clean bill of health A certificate issued by a port indicating that the ship carries no infectious diseases. (čisti pomorski zdravstveni list, pomorski zdravstveni list bez ograničenja / primjedaba
bill of lading (=B/L) (mar law, shipping econ) A document issued by a carrier, or its agent, to the shipper as a contract of carriage of goods. It is also a receipt for cargo accepted for transportation, and must be presented for taking delivery at the destination.
(http://www.businessdictionary.com/definition/bill-of-lading-B-L.html); Originally called a bill of loading, a bill of lading is not necessarily the complete contract of carriage of goods but is usually the best evidence of the contract. It is, as well, a receipt signed by the master or on his behalf indicating in what apparent order and condition the goods have been received on board. Finally, it is also a document of title and thus a document of transfer, but not a negotiable instrument (Tetely); Legal document signed by or for the captain/master, agents, owners of a vessel or the (common) carrier. It is written evidence of the contract of carriage by sea and/or by land.
(http://www.maerskline.com/en-jm/help/shipping-glossary); isprava kojom brodar potvrđuje da je radi prijevoza na brod primio teret te se obvezuje da će poslije završetka putovanja teret predati
ovlaštenomu imatelju te isprave; A document that establishes the terms of a contract between a shipper and a transportation company that moves freight between specified ports for a specified charge. (https://www.msc.com/shipping-glossary) teretnica, konosman, navao, naval: The B/L is usually prepared by the shipper on forms issued by the carrier, serving as a document of title, a contract of carriage and a receipt for goods. to complete the bill of lading ispuniti / popuniti teretnicu, to endorse the bill of lading indosirati teretnicu, ovjeriti teretnicu, upisati opasku na teretnicu, make out a bill of lading izdati teretnicu, sign the bill of lading potpisati teretnicu, set of bills of lading komplet teretnica, stamp the bill of lading staviti pečat na teretnicu, present the bill of lading predočiti teretnicu, prezentirati teretnicu, compile the bill of lading izdati teretnicu, popuniti teretnicu, issue the bill of lading izdati teretnicu ([A B/L is the basic document between a shipper and a carrier and a shipper and consignee. It represents the contract of carriage and defines the terms and conditions of carriage. It is the final receipt from the carrier for the goods shown on it and for the condition of the goods. It describes the nature, quantity and weight of the cargo carried. It is also the document of title of the goods shown. (https://www.euronav.com)])

Bill of Lading date (n) (logist, mar law, shipping econ) datum izdavanja teretnice:
... note that the Bill of Lading date can only be after the Shipped on Board date..
https://www.shippingandfreightresource.com/

bill of lading terms and conditions opći uvjeti poslovanja u teretnici:
Shipment shall be subject to CMA CGM bill of lading terms and conditions available in any CMA CGM agencies or on CMA CGM web site: www.cma-cgm.com

bill of lading - types bill of lading to name teretnica na ime / imenovanu osobo ili tvrtku, bill of lading to bearer teretnica na donosioca, bill of lading (to) order bill of lading - types teretnica po naredbi / nalogu, booking bill of lading teretnica s klauzulama o modalitetima ugovora, charter party bill of lading teretnica bez klauzula o modalitetima ugovora, teretnica u okviru ugovora o prijevozu, clausd bill of lading teretnica s opaskama, nečista teretnica, prljava teretnica, dirty bill of lading teretnica s opaskama, nečista teretnica, prljava teretnica, unclean bill of lading nečista teretnica, prljava teretnica, clean bill of lading - types bill of lading A B/L which bears no superimposed clause or notation which declares a defective condition of the goods and/or the packaging teretnica bez opaske, čista teretnica, dirty bill of lading prljava teretnica, foul bill of lading nečista teretnica, teretnica s opaskama / primjedbama, groupage bill of lading zbirna teretnica, received bill of lading teretnica primljeno na ukrcaj, shipped bill of lading teretnica ukrcano na brod, straight bill of lading - types teretnica na ime, negotiable bill of lading negocijabilna teretnica, utrživa teretnica, non-negotiable bill of lading neutrživa teretnica, through bill of lading direktna / izravna teretnica, transhipment bill of lading teretnica za prekrcaj / razvoz, razvozna teretnica, combined transport bill of lading teretnica za kombinirani transport, combined bill of lading B/L that covers cargo moving over various transports multimodalna teretnica, teretnica u multimodalnom
bill of sale (n) (mar law) ugovor o prodaji (broda)
bill of sale (=sales contract) (n) (financ) A document that confirms the transfer of ownership of certain goods to another person in return for money paid or loaned. (https://www.msc.com/shipping-glossary) ugovor o kupnji (stvari, roba), kupoprodajni ugovor

bellow /ˈbɪləʊ/ (n) (oceanogr) veliki morski val

BIMCO (=The Baltic and International Maritime Council) (n) (mar law, shipping econ) Association whose main object is to promote and defend the interests of shipowners. It also has a membership of shipbrokers and has been responsible for contributing to the creation of a large number of Charter-Parties and other shipping documents. The world's largest private shipping organisation based in Copenhagen, which has been in operation since 1905. (https://www.msc.com/)

BIMCO (svjetska udruga za zaštitu interesu brodovlasnika i brodara): BIMCO promotes proper shipping practices and opposes objectionable and unfair import charges, claims, etc. https://www.msc.com/shipping-glossary
bimetallic thermometer /ˈbaimiˈtælik θəˈmɔrmətə/ (n) (marine eng) bimetalk termometar
bimini /ˈbimini/ (n) (sailing/boating/yachting) tenda nad kokpitom jedrilice; awning over cockpit; a sunshade supported by a metal frame bimini, tenda iznad kokpita (najčešće sklopiva), suncobran (iznad kokpita) bimini top cerada biminija

binary storage unit (n) (electr, navig) jednobitna memorija
bind /baind/ (v) (mar law) obvezati, vezati (bind - bound - bound)
bind pilotage (n) (navig) obalna navigacija direktno sa radarskog pokazivača: Blind pilotage or parallel indexing involves navigating a vessel along a pre-planned track in waters so confined that conventional methods of navigating (transferring visual bearings and radar ranges to the chart) is impractical because it cannot not be done quickly enough. {Here radar comes into its own, with some pre-planning, its graphic presentation, showing the vessels position in the context of its immediate surroundings can be interpreted by the navigator instantly and the vessel conned directly from the radar display in daylight or darkness.}

binnacle /ˈbinəkəl/ (n) (navig) the stand, usually of brass or non-magnetic material in which the compass rests and which contains the compensating magnets; compass holder postolje magnetskog kompassa, okućje kompasa: The skipper borrowed a large magnet from the engine room, placed it close to the binnacle and managed to turn the card 180°, but thereafter the compass’s reliability was found to be somewhat suspect.

binoculars /ˈbainəkəlz; baiˈnokjʊləz/ (n) (navig) dvogled, dalekozor, kanočal: Through
binoculars, the OOW was able to see the vessel's port side light and its deck lights. While transiting the inshore route, he used binoculars to search the sea area ahead for the vessel they were to meet. Post lookout with binoculars.

biodiversity (n) (environ) biološka raznolikost: Ballast Water Treaty is aimed at protecting marine biodiversity.

biofouling (=hull biofouling) (n) (environ) During a ship’s lifetime microorganisms, plants, algae, or animals will gather in its hull, during a process called biofouling. (SAFETY4SEA <news@safety4sea.com>); the undesirable accumulation of various aquatic organisms on ship's hulls

biofuel /ˈbaiəʊˌfjuːl/ (n) (marine eng) biološko gorivo, gorivo biloškog podrijetla: Mediterranean Shipping Company is starting to use biofuel for ships calling at Rotterdam. https://gcaptain.com/

biopod mast /ˈbaɪpɒd/ (n) (nav arch) dvonožni jarbol, bipod

bird's nest (n) (sailing/boating/yachting) COMPARE crow's nest a small lookout position, usually round, placed at the masthead (smaller than the crow's nest) koš za motritelja na jarbolu

bireme /ˈbairiːm/ (n) (sailing/boating/yachting, nav arch) an ancient Greek or Roman war galley propelled by two tiers of oars on each side dvovesla, birema

Biscay low /ˈbɪskəi/ (n) (meteor) biskajska ciklona

bitcoin (n) (financ, shipping econ) bitcoin: The ship was accepting both bitcoins and US dollars for purchases onboard the ship and was waiting to go on a voyage starting this October. https://www.marineinsight.com/

bite /bait/ (v) (fishing) When a fish strikes or takes your bait / lure also known as a hit and strike.

zagristi (ješku, mamca)

bite (n) (sailing/boating/yachting) A rudder “bites” when water begins to flow past it, creating resistance and positive feel at the helm of a vessel.

http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ kormilo drži (pruža otpor), kormilo odgovara

bitt (=bitts) 1 (seamanship) a pair of vertical wooden or iron heads on board ship, used for securing mooring or towing lines bitva, bīta, kljuna (zastarj.), mankul, kaštanjoli (zastarj.): A sternline was led from a roller fairlead, through a set of bitts, around a pedestal fairlead and on to a warping drum. The head line and breast line began to run out around the bitts, and the starboard anchor was let go. They were backed up with only a couple of turns around a single bitt. After securing the first spring on the twin bitt, the second spring line was wound around the winch drum and hauled in taut. secured on the bitts vezan na bitvu, pričvrščen na bitvu: Lines should be stoppered off and secured on the bitts, run around the bitts prebaciti oko bitve, obaviti oko bitve: The head line and breast line began to run out around the bitts, and the
starboard anchor was let go, make fast on the bitts vezati na bitvu: The tug was made fast to bitts at the aft end of the main deck, by the break of the accommodation superstructure, post of the bitts stupić bitve: Synthetic fibre ropes should be made fast using two round turns around the leading post of the bitts before finishing it off with at least three ‘figure of eight’ turns, turn up on the bitts prebaciti preko bitve, prebaciti oko bitve: the rope was turned up on the bitts.

The tug was made fast to bitts at the aft end of the main deck, by the break of the accommodation superstructure.

Synthetic fibre ropes should be made fast using two round turns around the leading post of the bitts before finishing it off with at least three ‘figure of eight’ turns.

The rope was turned up on the bitts.

The luffing wire rope had unwound and the bitter end slipped out of the luffing wire rope drum.

The rescue workers also retrieved the ship’s black box but had
to leave quickly because of the toxic smoke and high temperatures

**black carbon** (n) (environ, marine eng, nav arch, figurative) physical particles of unburned carbon

**crni ugljik**: An expansion of Arctic shipping could increase emissions of so-called “**black carbon**”, which are physical particles of unburned carbon that can settle on land and ice and accelerate shrinking Arctic sea ice. https://gcaptain.com/

**black fish** (n) sipa

**blacklist** (n) (mar law) List of countries published by a particular government which will not allow ships to trade at its ports if they have traded at ports in the countries on that list. **crna lista** (zemalja)

**blackout** /ˈblækəʊt/ (=black out) nestanak struje, zatajenje električnog sustava, raspad elektrosistema: A brief **blackout** occurred when the shaft generator stopped for several seconds and the emergency generator started, but the main engine continued to run. The water had entered the fuel oil system, causing the fuel pumps to seize, and this led to the **blackout**. The engine room staff undertook the **blackout procedure**. **cause a blackout** izazvati / prouzročiti nestanak električne struje: The rapid escape of gas caused the cylinder to “fly” into the control room, where it hit the switchboard and tripped a breaker, **causing a blackout**, complete **blackout** usljed takvoga stanja brod se proglašava nesposobnim za plovidbu **potpun nestanak struje**, suffer a **blackout** pretrpjeti nestanak struje: The vessel suffered a **black out** and started taking on water. (https://safety4sea.com/), **experience a blackout**

**pretrpjeti nestanak struje**: The vessel experienced a black out while transiting the canal. https://safety4sea.com/

**black scorpionfish** (n) (fishing) Lat. Scorpaena porcus škrpun, četinjak, jokavec, bodeč

**black sea bream** (n) (fishing) Lat. Spondylosoma cantharus **kantar, kantor, sivac, grobar, manjamorti**
blackspot sea bream (n) (fishing) COMPARE red sea bream lat. Pagellus

black tail seabream (n) (fishing) Lat. Oblada Melanura  ušata, oćada, češalj, mrkulja, hlamina

Blackwall hitch (n) (seamanship) uzao za kuku
blackwash /ˈblækˌwɔʃ/ (n) (navig) brazda, šija
blackwater /ˈblækˌwɔ.toʊ/ (n) (environ) COMPARE greywater Blackwater is mostly sewage from toilets and generally includes the most harmful bacteria. (https://safety4sea.com) otpadne vode (iz kanalizacije), fekalne vode: On board a passenger ship, a crossover line between the port and starboard ballast/treated black water/grey water tanks passed through an adjacent cofferdam.
black water tank (n) (sailing/boating/yachting) Waste water carrying urine and feces from toilet facilities. crni tank, tank za fekalije
blade (n) 1 (marine eng) lopatica (rotora itd.), krilo movingblade rotorska lopatica, stationary blade statorska lopatica, turbine blade turbinska lopatica, two-bladed propeller dvokraki propeller, three-bladed propeller trikrađi propeler; 2 (seamanship) tanji ravni dio vesla; 3 (nav arch) krilo propelera, lopatica propelera
blading /ˈbleɪdɪŋ/ (n) (marine eng) lopatičje, turbine blading turbinsko lopatičje, turbinske lopatice
blame /ˈbleɪm/ (n) (mar law) krivnja, krivica to put the blame on okriviti (nekoga), no blame culture politika kojom se ne traži krivnja pojedinaca, apportion the blame odrediti udio u krivnji, pripisati krivnju: The role of the MAIB is purely to discover the facts, not to apportion blame or culpability.
blame /ˈbleɪm/ (v) okriviti, kriviti za nes: To blame someone for something. To be blamed for something. Blame is something more important that the consignee or cargo owner should do first. 1. engage a surveyor to ascertain and collate evidence of the loss or damage;
blank /ˈblæŋk/ (n) (navig) praznina, prazno mjesto
blank (v) (marine eng) zatvoriti (prirubnicom), zatvoriti otvor: Two ABs, who were keeping watch on the main deck, considered it to be unsafe to blank the manifold while working under the
It was also found that the fuel compensation damping tank was empty and that the drain valves of the diesel oil service tanks were blanked.

Consequently, there was no verification that the blank had been put in place before the duty officer attempted to release the pressure in the cargo line.

It appears that the foam was incapable of providing the necessary blanket to extinguish a liquid fuel fire. These produced the expected, thick foam blanket, which quickly smothered the fire.

However, the simple precaution of using a suitable fire blanket, which would have prevented this accident, was missed.

Due to seasonal market demand reductions, Maersk has endeavoured to balance our network to match reduced demand. There will be a blanking of the AE2 service in week 9. This is an additional blank sailing on top of the already communicated Chinese New Year blank sailings.

When the entire voyage is cancelled it is called ‘blanking the string’. When an ocean vessel does not call at one or more of its scheduled intermediate stops, it is called a blank sailing or void sailing from these ports.
(blank sailings) on it’s Asia-Europe & Asia-Mediterranean networks during this period, followed by a temporary structural adjustment to its Asia-Europe network. Due to seasonal market demand reductions, Maersk has endeavoured to balance our network to match reduced demand. There will be a blanking of the AE2 service in week 9. This is an additional blank sailing on top of the already communicated Chinese New Year blank sailings. We aim to minimize the impact to our customers by securing alternative routings wherever possible.

implement blank sailing privremeno obustaviti ticanje (nekih) linijskih luka: Some of the shipping lines being forced to implement blank sailings as there are no “extra” ships on some of the services to cater for the gaps caused by the congestion resulting from the incident ...

https://www.shippingandfreightresource.com/ (There reasons for blank sailing may be internal (no or lack of cargo to pick up making the call at the port uneconomical; low demand of cargo; ship mechanical problems, etc.) and external (port strikes, labour unrest, weather warnings, etc.))

blank the sailings (v) (logist, ship handling) privremeno obustaviti linijske polske brodove: Congestion sees lines blank more sailings amid hopes of a rebound in exports after the lockdown. https://www.tradewindsnews.com/

blank the service (v) (logist, shipping econ) privremeno obustaviti linijski servis (za neku luku)

blast /blaːst/ (n) 1 (navig) the signal of a ship’s whistle zvučni znak, znak brodskom sirenom, zvižduk, zvučni signal: On hearing the continuous blast, he altered course to starboard. Their passage was noted by the their foghorn; three blasts in succession every two minutes-one prolonged and two short. https://gcaptain prolonged blast dugi zvuk / signal: Sound alarm, including three prolonged blasts on ship's whistle., short / long blast kratak / dugi znak, sound a blast dati znak brodskom sirenom: our ship sounded 5 short blasts on her whistle The OOW remained concerned by the movement of the east-bound vessel, which was now within 2nm, so he sounded one blast lasting approximately 3 seconds on the ship’s forward whistle.; 2 (marine eng) mlaz blast of compressed air mlaz komprimiranog zraka; 3 (meteorol) udar vjetra; 4 (seamanship) zvuk trublje

blast furnace (n) visoka peć

blast of air (n) (marine eng) jaki mlaz zraka

blaze /ˈbleɪz/ (n) (safety) veliki požar: The blaze was extinguished at around 5:30 p.m.

bled steam (n) (marine eng) ispuštena para, ispušna para, para oduzeta iz (niskotlačne) turbine: On completion of the work the rams were replaced, the oil reservoir and header tank were replenished, air was bled from the hydraulic system and the steering arrangements were proven.

bleed /ˈbliːd/ (v) (marine eng) odzračivati, oduzimati paru (iz niskotlačne turbine), ispuštati (paru, vodu, …): Replace fuel filters and bleed air from the fuel system bleed the pump of air odzračiti pumpu, bleed air: Replace fuel filters and bleed air from the fuel system On completion of the work air was bled from the hydraulic system and the steering arrangements were proven. odzračiti, ispuštiti zrak (bleed - bled - bled)

bled /ˈbliːd/ (v) (med) krvareti: With the aid of a torch, they were able to see the AB lying 5m below; he was unconscious and was bleeding from a head wound. After stabilising the situation a “Mayday” was put out on VHF channel 16, and first-aid was administered to the casualty, who was unconscious and bleeding profusely. He was bleeding profusely from his right leg.. (bleed - bled - bled)
bleeders (n) (nav arch) A term applied to plugs screwed into the bottom of a ship to provide for drainage of the compartments when the vessel is in dry dock.

bleeding /'bliːdiŋ/ (n) (sailing/boating/yachting, marine eng) odzračivanje bleeding the fuel system odzračivanje sustava goriva
bleeding /'bliːdiŋ/ (med) krvarenje severe bleeding jako krvarenje, internal bleeding unutarnje krvarenje, external bleeding vanjsko krvarenje
bleed screw (n) (marine eng) vijak za odzračivanje
blend /blend/ (n) (marine eng) a mixture of fuel or oil; type of fuel or oil produced by blending
mješavina goriva ili ulja, kvalitet goriva, blenda goriva cargo blend
mješavina tekućeg tereta: Precautions before loading argo blends containing DRI (C) can be identified by their chemical composition, details of which must be requested.
blend (v) If you blend substances together or if they blend, you mix them together so that they become one substance. miješati, blendirati
blended fuel (n) heavy fuel and distillate fuel mixed in various proportions, usually 70:30
mješano gorivo, blendirano gorivo: Many genset engine builders can now offer designs capable of burning the diesel oil or blended fuel either bunkered as an intermediate fuel or blended onboard.
blending with (adj) (navig) Blending is the mixing of two fuels, usually a heavy fuel and marine diesel oil. The intention is to produce an intermediate-viscosity fuel suitable for use in auxiliary diesels (http://www.machineryspaces.com/fuel-oil-blenders.html) koji se stapa s (npr. pomorsko svjetlo s pozadinom)
blind /blaɪnd/ (v) (navig) zaslijepiti: The bridge team’s vision was blinded by the bright city lights to the south, which were virtually doubled in intensity by the reflection from the calm water. be blinded by the light biti zaslijepljen svjetlom: The bridge team on the product tanker was blinded by the bright deck lights of the anchored vessels, blind the vision zaslijepiti vidljivost, zakriliti vidljivost
blind /blaɪnd/ (n) (cargo handling, nav arch) čep, slijepa prirubnica
blind pilotage (n) (navig) COMPARE parallel indexing Blind pilotage or parallel indexing involves navigating a vessel along a pre-planned track in waters so confined that conventional methods of navigating (transferring visual bearings and radar ranges to the chart) is impractical because it cannot be done quickly enough. ucrtavanje dužine paralelne s pramčanicom, obalna navigacija izravno putem radarskog pokazivača: In blind piloting the radar comes into its own, with some pre-planning, its graphic presentation, showing the vessels position in the context of its immediate surroundings can be interpreted by the navigator instantly and the vessel conned directly from the radar display in daylight or darkness. As the visibility was about one cable, the bridge organisation was configured to conduct blind pilotage.
blind sector \textit{(navig)} nevidljivo područje, slijepo područje (radara), mrtvi kut: Funnels, stacks, masts or derricks in the path of the antenna may hide Radar targets which are behind them. However, the lowered position seriously increased the forward visual blind sector to a point beyond that allowed by regulations.

blind shipment \textit{(n)} (logist, shipping econ) A blind shipment is when the consignee involved in a shipment is unaware of who the shipper is. (https://www.flexport.com/glossary) slijepa pošiljka (krcatelj nepoznat primatelju)

blinker \textit{/ˈblɪŋkə/} \textit{(n)} (fishing) Generalni naziv za metalnu varalicu koja svojim bljeskanjem privlači predatore. (https://ribolovnajadranu.hr/ribicki-leksikon/) blinker

blip \textit{(n) = pip} A spot of light on a radar or sonar screen indicating the position of a detected object, such as a ship, an aircraft or a submarine. odraz na radarskom ekranu, svijetli trag (objekta na radarskom zaslonu), repić (objekta na radarskom zaslonu): The mate, who was on watch, saw a blip on the radar and realised that it was a small yacht that he could see about …. (also called: pip)

blister \textit{(n)} (marine eng) blister

blocade \textit{(n)} (safety, navy, ports, mar ins) blokada (luke): ... the Ukrainian/nation’s biggest ports are essentially blockaded by Russian forces. https://safety4sea.com/

block \textit{ (=building block; hull block) \textit{(n)} (nav arch)} a section of ship structure which is a three dimensional entity; the largest construction unit, a part of part of the ship’s hull or superstructure, applied in production. (e.g. with dimensions of about 40x30x15 m and weigh 600 t.) (Aalto University, Finland, School of Engineering; https://mycourses.aalto.fi/pluginfile.php/126146/mod_folder/content/0/L1_1%) brodska sekcija, sklop (trupa broda), sekcija konstrukcije broda (u odvojenoj gradnji), blok-sekcija, brodski modul, blok (broda): Blocks are built in the sub-assembly area and are combined to form a ship. block outfitting opremanje blokova (broda), assemble the blocks spajati sekcije / blokove broda: We install and joint assembled
blocks by right order on a building berth by a crane, and assemble them in the form of the final ship

www.fukuzo.co.jp/en/shipbuilding/process, hull block block -sekcija trupa broda, sekcija trupa broda

www.fukuzo.co.jp/en/shipbuilding/process, block

block  /blık/ 1 (seamanship, cargo handling) a hoisting device in which a rope or chain is passed around a pair of blocks containing one or more pulleys.; One or more wheels with grooves in them (pulleys) designed to carry a line and change the direction of its travel. https://www.ypiyachts.com/
kolotur, koloturje, kolut, bucel, bocel, Italian:bozzello: The main trawl wire parted and the trawl block and bridle chains fell onto the crewman below. to move the turbocharger from its engine room stowage, through the engine room stores access hatch, and onto the vehicle deck above using a chain block attached to the deckhead of the vehicle deck. cargo block kolotur podigača tereta, cargo purchase block kolotur podigača tereta (na samarici ili brodskoj dizalici), double block dvostruki kolotur, single block jednostruki kolotur, snatch block rasklopivi kolotur, otvoreni kolotur: The skipper was guiding the line over a snatch block hanging from gallows extending beyond the side of the vessel., upper block gornji kolot koloturnika, lower block donji kolot koloturnika, cat block kolot s kukom, four-sheave block četverostruki kolotur, kolotur s četiri užnice, cargo purchase block kolotura podizača tereta (na samarici ili brodskoj dizalici), four-sheave block kolotur s četiri užnice, snatch block pomični kolotur, chain block lančani kolotur, kolotur za lanac: The chain block was used at an angle to lift engine components, and the trolley was then used to move them away
block

from the engine.

kolotur, bucel {It.: bozzello; blocco}

block (n) (nav arch) klada (ispod kobalice, dna ili kaljuža broda): The dock is fitted with stationary keel blocks and movable bilge blocks, which usually are fitted on rack tracks, allowing them to be pulled under a vessel before the water is pumped out. (https://www.history.navy.mil/) block
erection postavljanje klada

block /blɔk/ (v) (marine eng) začepiti, blokirati, zaglaviti (se): sea water cooling system was blocked The moving parts of main engine were blocked and stuck.

block and tackle (=purchase) (n) (seamanship, marine eng) (Block and Falls). The complete unit of two or more blocks rove up with an adequate amount of rope.

https://officerofthewatch.com/tools/maritime-dictionary/ koloturnik, čekrk, parank, paranak, palan block and tackle rigged to advantage koloturnik kod kojeg je prijenosni omjer veći od nule (s malom silom dobije se veća sila, npr. koloturnik škote koloturnik na kojem se živi kraj vuče prema gore (npr. kolorutnik škote), block and tackle rigged to disadvantage koloturnik kod kojeg je prijenosni omjer manji od nule koloturnik na

kojem se živi kraj vuče prema dolje

blockchain /ˈblɔk.tʃeɪn/ (n) (logist, shipping econ) Blockchain is a network of users that collectively create a shared system of transparent transaction records or ledgers among the network users.

(www.gCaptain.com); A network of users that collectively create a shared system of transparent transaction records or ledgers among the network users

(https://gcaptain.com/blockchain-in-the-marine-bunker-market/); Blockchain — a shared, distributed ledger — can trace the container’s path through the supply chain with exceptional transparency and
There are many benefits that blockchain can bring to the marketplace such as reducing paperwork delay, eliminating fraud, reducing errors, improving issue identification, improving inventory management and, increasing partner confidence in the process and their confidence in you. As all the members in a blockchain, each share the same view of the data and all the transactions, mistakes, fraud, manipulation, deceit and deception are greatly reduced.

Shipment information is added to the blockchain. The container is loaded onto the ship. As the container awaits transfer to port, officials submit approvals electronically. Blockchain confirms the transaction and executes a smart contract, releasing the shipment.

Tech firm CargoX today launches its much trailed shipping blockchain platform. The system stores documents and data securely encrypted on a public globally accessible blockchain network and is available to lines, shippers, logistics companies and NVOCCs alike.

GSBN will be a blockchain-enabled platform that will help digitise the industry, set standards and transform documentation flows. The move follows last week’s announcement of a joint blockchain platform comprising the Ocean Alliance and Yang Ming from THE Alliance e-Captain.
Blockchain Document of Transfer

created obilježavanje vremena transakcije (u blockchainu), blocks of transactions blokovi transakcija (u blockchainu): new blocks of transactions are added in an “append only” manner, meaning that no one can change or modify the data sets in the blockchain (https://www.linkedin.com/pulse/blockchain-shipping-ahmed-youssef/). Each transaction is an exchange of value (good, service, money, data, etc.) that is encoded in a unique “block” of digital data. The users agree about the quality of the data and each user confirms that the data in any block is true and accurate. Each block of data (or component of the transaction) is connected to the block behind it and to the block next in front of it. Each block is uniquely coded and cannot change its identity and therefore the data in each block cannot change. Every set of data in each block is totally transparent to all the users, and as the blocks are chained together, other blocks cannot be inserted between blocks and the data altered. As the chain grows through the shared user system the need for individual ledgers that captures individual user data is no longer needed as all the information and data is captured in each block and the chain represents all the transactional history and each data component.

Blockchain Document of Transfer (=BDT) (n) (mar law, logist, shipping econ) digitalni prijenosni dokument, digitalni dokument o prijenosu (prava na teret): the CargoX Platform for Blockchain Document Transfer (BDT) was successfully tested by Portall Infosystems and India’s global shipping stakeholders to transfer electronic bills of lading. https://safety4sea.com

blockchain (in shipping) (n) (logist, shipping econ, mar law) (blockchain in shipping) a group of partners coordinating a network of shippers, freight forwarders, ocean carriers, ports, and customs authorities to digitize the ocean shipping supply chain (https://www.linkedin.com/pulse/blockchain-shipping-ahmed-youssef/); “A blockchain is a distributed database, which is shared among and agreed upon a peer-to-peer network. It consists of a linked sequence of blocks, holding timestamped transactions that are secured by cryptography and verified by the network community. Once an element is appended to the blockchain, it can not be altered, turning a blockchain into an immutable record of past activity." (Seebacher & Schüritz 2017; https://www.semanticscholar.org/paper/Blockchain-Technology-as-an-Enabler-of-Service); The intent of introducing blockchains in shipping is "to digitize the end-to-end supply chain processes and help “manage and track the paper trail of tens of millions of shipping containers across the world” (IBM 2017); The aim of the blockchain project (in South Korea) is to share data securely between all its participants and reduce the massive amount of administrative paperwork. (Kang, 2017; Zeng, 2017 https://ieeexplore.ieee.org/abstract/document/8244418); a bitcoin currency platform used in shipping (mostly) containers; a shared, distributed ledger brodarski blockchain, pomorski blockchain, digitalizirana mreža korisnika u transportu roba, digitalizirana mreža svih sudionika u uvozu/izvozu i prijevozu roba: A blockchain system has the ability to place shipping documents on a shared ledger which enables the parties involved in the transportation process such as the: exporter, importer, freight forwarder, carrier, port, and customs authority, to view the entire progress of the shipment.

https://www.linkedin.com/pulse/blockchain-shipping-ahmed-youssef/ Many shipping lines, ports, financial institutions and other private entities are using Blockchain and testing it in many different ways through many pilot projects. Shipping and Freight Resource <info=shippingandfreightresource.com Global trade digitization solution will benefit the industry using blockchain to manage transactions among network of shippers, freight forwarders, ocean carriers, ports and customs authorities

https://www-03.ibm.com/press/us/en/pressrelease/51712.wss Tuesday’s announcement that five shipping lines and four terminal operators are to form a consortium to develop a new blockchain - the Global Shipping Business Network (GSBN) - has raised more questions than it answered. GSBN will be a blockchain-enabled platform that will help digitise the industry, set standards and transform documentation flows. ... https://gcaptain.com In order to secure the blockchain and ensure the correctness of what is being recorded, processes are performed involving both cryptography and user verification.
Blockchain’s inherent immutability allows the real-time exchange of documents while making sure that they have not been tampered with ((Bajpai 2017). Whether in its use by Banks and Shippers to create Trade Finance documents; or creating and transmitting smart bills of lading; or setting up a blockchain-based marketplace app for trading in coffee; or making documentation easy for ports; or ensuring prompt delivery of mandarins for the Chinese New Year; Blockchain is making its presence felt quite rapidly in our industry.. Shipping and Freight Resource <info=shippingandfreightresource.com> (How blockchain works? (an example of shipping flowers overseas - IBM and Maersk are creating a solution for global logistics using blockchain): Blockchain (a shared, distributed ledger) can trace the container’s path through the supply chain with exceptional transparency and security. - 1. The flower grower reads the product for international shipment. 2. Shipment information is added to the blockchain. - 3. As the container awaits transfer to port, officials submit approvals electronically. Blockchain confirms the transaction and executes a smart contract, releasing the shipment. 4. The container is loaded onto the ship. 5. All parties have end-to-end visibility of the container’s progress through the supply chain. 6. The container arrives at the destination port and clears customs. 7. Retailer receives the flowers on time and signs electronically. Information is relayed back to the blockchain. With blockchain, delays will be reduced, resulting in significant cost savings for all parties... (www.ibm.com; ibm.biz/BdsTTF; Shipping and Freight Resource <info=shippingandfreightresource.com>) There are three main elements which constitute the technological foundations of blockchain: These elements include: system architecture, data encryption, and transaction verification.)

blockchain model in shipping (n) (shipping econ, logist) model digitalizirane mreže korisnika u pomorstvu
blockchain technology (n) (logist, shipping econ) tehnologija ulančanih blokova, tehnologija računalno umreženih korisnika transporta,
blockchain-tehnologija: Last year the Municipality of Rotterdam and the Port of Rotterdam Authority jointly started BlockLab: a field lab for Blockchain. Blockchain technology offers considerable potential to change the way we manage supply chains. Its main contributions will be increased compliance and transparency, better tracking of orders and assets, and find more effective ways of resolving trust issues.
http://www.marinestategy.com/key-interviews/ben-van-scherpenzeel-talks-container-throughput-port-planning-infrastructure-blockchain-brexit-and-more Service and solution providers who do not open their data models, processes, and data transaction technology to other participants in the market, might do more damage than good for the whole industry, and blockchain technology specifically.

block coefficient (n) (nav arch) the ratio of the underwater volume of ship to the volume of a rectangular block having the same overall length, breadth and depth
(https://www.myseatime.com/discussion/what-is-block-coefficient-of-a-ship) koeficijent bloka (broda)
block-diagram /ˈblɒk ˈdaɪəɡræm/ (n) (marine eng, navig) blok-schema, blok-dijagram
blocked (adj) (marine eng) blokiranj, zaglavljen, začepljen: The moving parts of main engine are blocked or stuck.
block pallet (=four-way pallet) (n) (logist) The customary dimensions of a block pallet are 100 x 120cm. paleta standardnih dimenzija (100 x 120 cm): A block pallet is sometimes also referred to as a four-way pallet, as a forklift truck can lift it on any of the four sides. https://www.logisticsglossary.com/term/block-pallet/
blocks (nav arch) blocks made of wood or concrete set under the ship’s bottom for support during construction or dry-docking klade bilge blocks klade ispod kaljužnih tankova, keel
**block stowage** *(n) (cargo handling, logist)* Stowing cargo destined for a specific location close together to avoid unnecessary movement. (https://www.msc.com/glossary)

**block train** *(n) (shipping econ)* a number of railway wagons (loaded with containers), departing from a certain place and running straight to a place of destination, without marshalling, transhipping or any coupling or de-coupling of wagons direktni kontejnerski vlak, kontejnerska željeznička kompozicija, blok-vlak, blok-vagoni

**block wedges** *(n) (nav arch) klinovi potklada:* To transfer the ship from the building blocks to the launching cradle, the commonest practice is to drive wedges into the launching cradle.

**blow** /ˈbləʊ/ *(v) (marine eng) puhati, propuhavati, upuhavati:* ... in normal circumstances it is good practice to use ventilation fans to blow fresh air into the compartment for 24 hours and use analysing equipment to check that the atmosphere is safe to breathe before entering. blow clear of otrgnuti, iščupati, blow off ispuhati, ispuhnuti, ispustiti, otrgnuti, otkinuti, blow off valve ispušni ventil za paru, ventil za ispuhavanje, blow out ispuhati, blow overboard otkinuti s broda, iščupati s broda: Dozens of containers were blown overboard in the blast. blow down *(v) (marine eng) propuhati:* Boilers are to be blown down at least once per week dependent upon the frequency required to control the level of dissolved solids contained in the boiler water.

**blower** /ˈbləʊə/ *(n) (marine eng)* A low pressure air pump, usually of either rotary or centrifugal type. It was a very basic boiler: an electrically driven blower supplied air through a flexible, plastic corrugated hose, and a small pump delivered the diesel fuel.

**blow off** *(v) otpuhati blow off the berth otpuhati s veza:* The vessel was blown off her berth when subjected to sudden, unexpected squalls Brod je bio otpušan s veza kad je bio izložen...
iznenadnom neočekivanom olujnom vjetru

**blow the gaff** *(idiom)* izbrbljati, odati tajnu

**Bls** *(=bales)* *(cargo handling)* bale

**Blue Card** *(environ, mar law, nav arch, safety)* Traditionally the Association has provided Blue Cards addressed to a ship’s flag state, confirming that an owner has in place insurance to cover CLC liabilities. (https://www.ukpandi.com/) **plava iskaznica**: On presentation of a Blue Card to his flag state registry, an owner receives a CLC Certificate which he is required to retain on board and which he may be required to present on entering the waters of a state party to the CLC to demonstrate that he has in place insurance to cover claims for oil pollution up to a certain limit (determined by the tonnage of the vessel). https://www.ukpandi.com/

**bluefish** *(fishing)* Lat. *Pomatomus saltator/saltatrix* strijelka, politica, zubatica,

![bluefish](https://www.ukpandi.com/)

**skakuša**

**bluejacket** *(navy)* an enlisted man in the navy, below the rank of Chief Petty Officer

**unovačeni mornar (britanske ratne mornarice)**

**blue peter** *(=P flag)* *(comm)* signal flag for the letter P, hoisted by a ship as the indication that it is preparing to leave port **zastavica P signalnog kodeksa**

![blue peter flag](https://sarumuse.org/2018/06/11/brittany/20170707-blue-peter-flag/)

**blueprint** *(marine eng)* bijela slika na modroj karti; a photographic print of plans, technical drawings, etc, consisting of white lines on a blue background (http://www.collinsdictionary.com)

**modra kopija, kopija, modri nacrt, mustra**
blue shark (n) (fishing) Lat. Prionace glauca pas modrulj, pas modrac, zupka, modri kučak

blue water (n) (navig, geogr, navy) COMPARE green water. COMPARE brown water deep water offshore beyond the continental shelf; The blue water environment extends from the outer edge of the green-water zone to the deep ocean of the world.

(https://en.wikipedia.org/wiki/Maritime_geography); The USA’s 2010 Naval Operations Concept defines blue water as "the open ocean", green water as "coastal waters, ports and harbors", and brown water as "navigable rivers and their estuaries" (https://en.wikipedia.org/wiki/Maritime_geography) otvoreno more, pučinsko more: The enlarged Panama Canal potentially helps inland operators as deep(er) blue water ports attract still larger tonnage that can load more grain and bulk products.

MaritimeReporter-2016-06 ... there will be some heavy-duty apps that are even more supportive of near coastal, coastwise and blue water sails. asj_2014_04_winter</ Going out for a few hours locally in a small vessel is different from casting off for a long coastwise or blue water voyage. asj_2014_04 blue water sailing open ocean sailing, as opposed to being in a lake or sound plovidba otvorenim morem, blue water ships brodovi za plovidbu otvorenim morem, prekomorski brodovi: These yards stay busy and build vessels for the brown water and the green water, and they also build some blue water ships. MaritimeReporter-2015-06 blue water navy (n) (navy) a maritime force capable of operating globally, essentially across the deep waters of open oceans (https://en.wikipedia.org/wiki/Blue_water_navy) ratna mornarica za operacije u međunarodnim vodama (tj. svim morima i oceanim)

blue whiting /blu:,waitiŋ/ (n) (fishing) molet, ugotica
bluish cast (n) (marine eng) plavkasta nijansa
BM (=Transverse Metacentric Radius) the distance between the center of buoyancy and the metacenter poprečni metacentarski radijus: BM is defined as the moment of inertia around the longitudinal axis of the waterplane at which the ship is floating divided by the
displacement volume.

**BML (=Longitudinal Metacentric Radius)** *(stabil)* the distance between the centre of buoyancy and the longitudinal metacentre **uzdužni metacentarski radijus**: BML is defined as the moment of inertia of the waterline waterplane about a transverse axis divided by the volume of displacement. **calculation of BML** proračun uzdužnog metacentarskog radijusa

---

**BN (=base number)** *(marine eng)* High-BN cylinder lube oil should be used to protect the engine from cold corrosion. **bazični broj (ulja za podmazivanje cilindra), indeks bazičnosti (ulja za podmazivanje cilindra), BN**: Till now, CLO of high TBN, generally 80 BN, is being used for the HSHFO. www.safety4sea.com Cylinder lubricants with a **base number (BN)** between 70 and 140 are ideal for use with high sulphur fuels, https://www.chevronmarineproducts.com

**BNWAS (=Bridge Navigational Watch Alarm System)** *(navig)* alarmni sustav plovidbene straže na mostu: The BNWAS was set to alert at 3-minute intervals. The electronic chart display and information system (ECDIS), radar and the **bridge navigational watch alarm system (BNWAS)**, were functioning correctly. He routinely **reset the BNWAS**.

---

**board** /bɔːd/ *(v)* 1 ANTONYM disembark ANTONYM land ukrcati se (pilot): Prior to departure from a berth, the pilot **boarded** the tanker and advised the master that, after clearing the berth, he would leave the tanker and transfer to another (inbound) ship instead of conni the a pilot **had boarded** the vessel and joined the vessel’s master, chief officer and chief engineer on the bridge. After **boarding** a 2000gt dry cargo ship, a harbour pilot discussed with the vessel’s master his plan for the vessel’s first entry to the port. A team of salvors, chemical experts, hazmat teams and other emergency personnel **have since boarded the ship** to manage the situation. https://safety4sea.com; 2 **doci na brod**, Italian: **imbarcarsi**: The port stevedores **boarded** the vessel and commenced loading at 14451. Shortly after the release of the CO2, the shore fire brigade **boarded** the vessel, having been alerted by the master through the port authority. P&I club representatives, surveyors and superintendents **boarded** the vessel in the morning. The pilot **boarded** the ship at 16:30; 3 **popeti se na brod / barku / brodicu / splav**: Five of them successfully **boarded** the liferaft; tragically one man was lost. The nine passengers **boarded** the rescue boat, each having been fitted with manually inflating lifejackets with a crotch strap; 4 **ukrcati se na brod (kao zaposlenik, časnik, mornar itd.)**: The vessel berthed, and the **passengers boarded**. (The term board refers to people (pilots, boarding party, crewmembers, servicemen, etc.), whereas the term load, unload, and discharge is used with cargo. The term land can refer both to people and cargo.)

**board** /bɔːd/ *(n)* *(cargo)* daska (tanja, do 30 mm debljine) **board** foot jedinica mjere za prijevoz / pošiljku drvene građe

**board** *(seamanship)* the side of a ship strana broda **go by the board** letati, okrenuti brod s jedne strane vjetra na drugu

**board** *(sailing/boating/yachting)* = **surfboard** daska za jedrenje

**boarding** /bɔːdɪŋ/ *(n)* *(seamanship)* dolazak na brod (članova posade, putnika, servisera itd.), ukrcaj na brod (osoba), Italian: **abbordaggio** boarding of the vessel dolazak na brod; 2 *(navig, mar law)* **ukrcaj peljara**: The pilot boarding of vessels inwards takes place normally between the Breaksea Light and Barry Roads between 6 to 4 hours before High Water at Sharpness by the Bristol Pilot Cutter. **pilot boarding area** područje
ukrcanja peljara: Poor planning considerations caused the delay in weighing anchor, which in turn required a high speed approach to the pilot boarding area.

boarding accident (n) (navig, safety) nezgoda pri ukrcaju (peljara) na brod, nesterća pri ukrcaju (peljara) na brod: The pilot was injured in the boarding accident at the port.

boarding arrangements (n) (navig) oprema za ukrcaj peljara (ljestve, siz, podigač itd.): Details of the vessel’s next port of call, pilot boarding arrangements and the number of tugs to be used for departure were exchanged. Ensure that the designated pilot boarding areas on the ship are marked and that pilot boarding operations are overseen by a responsible officer.

www.gov.uk/maib boarding arrangements poster poster s uputama za ukrcaj peljara: The IMPA ‘Required Boarding Arrangements for Pilot’ poster provided a clear and easy to understand reminder of the correct procedures to be followed for safe pilot transfer, and was widely used on vessels as a guide for crews. www.gov.uk/maib, designated boarding arrangements upute za ukrcaj peljara, propisane upute za ukrcaj peljara

boarding ladder1 (n) (nav arch) peljarske ljestve, boškaina: The chief mate called the duty seaman and ordered him to rig the pilot boarding ladder.

boarding ladder2 (n) (sailing/boating/yachting) A ladder used to board the vessel. Boarding ladders may be designed to be useful from either the water or a dock and are usually stowed when not in use. https://www.ypiyachts.com/brodski siz, brodska skala

boarding ladder3 (n) (sailing/boating/yachting) ljestve za silazak u more i penjanje na jedrilicu / brodicu, skalice za more
boarding officer  (n)  (mar law) slujbena osoba za pregled broda u luci, vlasti
boarding party  (n)  (mar law) predstavnici lučkih vlasti koji dolaze na brod radi pregleda dokumenata i izdavanje dozvole za uplovljenje, vlasti (agent, carinici, pomorsko-pogranična policija, zdravstvene vlasti)
boarding place mjesto ukrcaja pilot boarding and landing places mjesta ukrcaja i iskrcaja peljara
boarding point mjesto ukrcaja peljara: The pilot boarding point for inbound ultra-large container vessels is 4nm south of the Nab Tower. .. www.gov.uk/maib
boarding position  (n)  (navig) pozicija za ukrcaj peljara: The port control instructed her master that the vessel was to arrive at the pilot boarding position at 0400, and he was then to await further instructions.
boarding speed  (n)  (navig) The speed of a vessel adjusted to that of a pilot boat at which the pilot can safely embark/disembark brzina broda pri ukrcaju peljara
boarding station  (n)  1  (navig) peljarska postaja, pilotska stanica: Before disembarking, the pilot pointed out an inbound ship to starboard, making for the pilot boarding station. ;  2  (nav arch) ukrcajno mjesto (za putnike na brodu): Passengers will board the vessel at one of three boarding stations on each side of the main deck; aft, midship and foredeck.
https://gCaptain.com
board of directors  (n)  uprava, upravni odbor (dioničkog društva): Last month the SCPA Board of Directors approved the purchase of two additional cranes of this size for delivery at the end of 2017, coinciding with the completion of the wharf project. Mr. .... was appointed to the board of directors, expanding the board from three to four independent directors. member of the board of directors član Uprave
board the ship  (v)  (seamanship) to go aboard a vessel (train, aircraft, or other vehicle) ukrcati se na brod, popeti se na brod, doći na brod: The pilot boarded the ship at 15:35 hrs. P&I club representatives, surveyors and superintendents boarded the ship in the morning.
boat  /bəʊt/  (n)  (nav arch)  1  A boat is any vessel or conveyance that floats on or operates on the water and is under 197 feet (60 meters) length overall (LOA). A boat may be used for pleasure, commercial, or residential purposes. Boat is synonymous with small craft in marine use. brodica, barka, čamac, lađa (riječni brod / brodica), ladva, Italian:barca; imbarcazione; natante, battello: In the morning, the skipper and his crew tried to locate the boat, but were unable to do so. ... he waited a few minutes until the skipper of a nearby boat came alongside to assist. “That’s a boat?” No, that’s a yacht,” he said. “They’re bigger and nicer than any boat.” Excerpt From Ace Atkins: Robert B. Parker’s Kickback fishing boat ribarica, ribarska brodica: Two crewmen of a fishing boat were on the deck and had just started to shoot a line of pots. , lifeboat brodica za spašavanje, čamac za spašavanje, rowing boat veslački čamac; 2  strictly speaking a boat is a small open craft with no deck, usually propelled by oars or an outboard engine, sometimes with a lugsail on a short mast (Mayne 2000) brodica, barka, čamac, lađica, lađa (The size breakpoint between boat and ship is necessarily arbitrary; however, Lloyds small-craft division deals with vessels under 60 meters. Experience has also shown that below 60 meters LOA, longitudinal-strength (hogging-and-sagging) calculations are usually trivial, whereas over 60 meters these calculations become important. These are two firm reasons for setting 60 meters as the division between boats and ships)
**boat** (n) *(nav arch, navy)* a vessel of any size, especially a large one (OED); used in this sense mainly in US *brod*

**boat** (n) *(sailing/boating/yachting)* A sailboat and the crew on board. Any boat or ship in a race is referred to as a *vessel* *(Rules of Racing 207-2020)* *jedrilica (u regati)*

**boat balance** *ravnanje jedrilice, balansiranje jedrilice*

**boat bilge pump** *kaljužna pumpa na brodicama / jedrilicama*: there are several factors to consider when dealing with *boat bilge pumps* (capacity, wire size, hose diameter, fuse size) before you begin, and there are some good rules of thumb to follow. [https://www.practical-sailor.com](https://www.practical-sailor.com)

**boat boom** (n) *(sailing/boating/yachting)* A spar rigged out from the side of an anchored or moored ship to which boats are tided when not in use *(http://www.quarterdeck.org/index.html)* *privezni stup za brodice*

**boat care** (n) *(sailing/boating/yachting)* *održavanje brodice, održavanje jedrilice*

**boat chock** (n) *(nav arch)* *sedlo brodice za spašavanje*

**boat console** (n) *(sailing/boating/yachting)* = *steering console komanda (brodice)*, *upravljačka konzola (brodice)*

https://nauticstarboats.com/series/bay-boats/

**boat davit** (n) *(nav arch)* *soha za brodicu za spašavanje*: A pin was passed through these holes to secure the *life boat davit*. Ensure that all devices fitted to *boat davit systems* to prevent overload are tested on each occasion before a boat is hoisted and that such devices are not relied upon during operation.

**boat deck** (n) *(nav arch)* a *deck on which lifeboats are kept* *paluba za brodice, paluba za čamce*: ... the passengers were kept well informed and were mustered on the *Boat deck*.

**boat drill** (n) *(safety)* *uježba spuštanja brodica za spašavanje*: The crew of the ro-ro cargo ship were undertaking a combined fire and *boat drill*, while alongside a UK port. *Boat drills* were carried out regularly, often every week.

**boat engine** (n) *(sailing/boating/yachting)* *unutarnji motor (brodice, jedrilice)*
Mariners, recreational boaters and persons are advised to exercise extreme caution in areas in the vicinity around the safety zone due to the dangers associated with a grounded vessel.

During operation when stowing the boat, it is important to equalise the length of the fore and aft boat falls. After setting the davit arm stopper (cradle stopper), raise the brake lever of the winch slowly and unwind the boat fall wire to allow the boat to lower slightly.

This boat generator expands the very successful series of inverter generators with variable speed. It has a nominal output of 15 kW (18.7 kVA).
boat hook (n) (seamanship) A pole with a hook on one end, designed to grab anything that might be outside the vessel. (generally dock lines, moorings, etc.)

He then used a boat hook to retrieve the floating mooring line and brought that inboard and handed it to the mate to shackle the two eyes together.

boat-hook; boathook (n) (seamanship) čaklja, mezomariner

boatie /ˈbəʊti/ (=boater; boat owner) (n) (sailing/boating/yachting, jargon) = boat owner a boating enthusiast (Austr. and New Zealand) vlasnik brodice, vlasnik barke, nautičar rekreativac: Boaties should always avoid drinking alcohol both on boats and before they set out. https://www.maritimenz.govt.nz/magazines/lookout/issue-30/issue-30-7.asp Boaties don’t like changing names of their boats.

boat indicator (n) (sailing/boating/yachting) instrument for measuring and showing depth, heading, water temperature, engine revolutions, rudder deflection, inclination, etc. pokazivač na brodici, mjerni istrument boat indicator speed (depth / heading / engine / rudder etc.) pokazivač (brzine / dubine / smjera / broja okretaja / otklona kormila / nagiba itd.)

boating¹ /ˈbəʊtɪŋ/ (adj) (sailing/boating/yachting) nautički general boating information osnovne nautičke informacije

boating² /ˈbəʊtɪŋ/ (n) 1 (sailing/boating/yachting) the leisurely activity of travelling by boat, or the recreational use of a boat whether powerboats, sailboats, or man-powered vessels (such as rowing and paddle boats), focused on the travel itself, as well as sports activities, such as fishing or waterskiing (Wiki) nautički turizam; 2 (sailing/boating/yachting) rekreacijska plovidba

boating fees (n) (sailing/boating/yachting) naknade za turističke brodice,
boating licence (n) (sailing/boating/yachting) ovlaštenje za plovidbu brodicom (u nacionalnom moru)

boat insurance (n) (sailing/boating/yachting) osiguranje brodica: Our boat insurance was coming due and that the company would require an out-of-water survey this time around.

boat-keeper upravitelj brodice, barkajol

boat launching (n) (safety, seamanship) spuštanje brodice za spašavanje: ALL seafarers have experience, both positive and negative regarding incidents with boat launching and recovery. Svi pomorci imaju pozitivna i negativna iskustva vezana uz nezgode sa spuštanjem i podizanjem brodica za spašavanje.

boat maintenance and repair shop (=yacht maintenance and repair shop) (n) (sailing/boating/yachting) tehnički servis plovila

boatman /'boʊtmən/ 1 (shipping econ) a commercial boat operator upravitelj brodice, barkajol; 2 (seamanship) person who attends to the mooring and unmooring of vessels privezivač

boatman /'boʊtmən/ 1 (inland waterways) brodarac; 2 (inland waterways, mar law) voditelj brodice (unutrašnje plovidbe): ‘operational level’ means the level of responsibility associated with serving as boatman, as able boatman or as helmsman and maintaining control over the performance of all tasks within his or her designated area of responsibility in accordance with proper procedures and under the direction of a person serving at management level. https://eur-lex.europa.eu/resource.html?avigationTime:(a) for the Union certificate of qualification for a boatman: 540 days of navigation time including at least 180 days were in inland navigation https://eur-lex.europa.eu/resource.html?all boatmen and boatmasters are required to pass an administrative exam organised by a competent authority in order to have their qualifications recognised across the EU, even if they are already in possession of a diploma or certificate from an IWT education or training institute. https://eur-lex.europa.eu/resource.html? able boatman stariji voditelj brodice (unutrašnje plovidbe)

boatmaster (n) (inland waterways) a deck crew member qualified to sail a vessel on the Member States’ inland waterways and who has nautical responsibility for the vessel (https://eur-lex.europa.eu/resource.html?) zapovjednik rječnoga plovila, zapovjednik plovila unutrašnje plovidbe: As there is no EU-wide sectoral legislation for the recognition of professional qualifications for workers below the level of boatmaster, the general Directive 2005/36/EC on the recognition of professional qualifications is applicable. https://eur-lex.europa.eu/resource.html? local knowledge requirements may create unnecessary difficulties for boatmasters operating on certain river stretches https://eur-lex.europa.eu/resource.html? ll boatmen and boatmasters are required to pass an administrative exam organised by a competent authority in order to have their qualifications recognised across the EU, even if they are already in possession of a diploma or certificate from an IWT education or training institute. https://eur-lex.europa.eu/resource.html?

boat note (n) (mar law) potvrda o primitku robe sa teglenice

boat operator (n) (seamanship) rukovatelinj brodice: The brake remote control is a wire connected between the boat operator and the winch brake handle.

boat owner (=boatie) (n) (mar law) vlasnik brodice: Boat owners and hire companies should follow equipment manufacturers’ instructions and guidance when maintaining equipment.

boat panel (n) (sailing/boating/yachting) komandna ploča (brodice)

boat show (n) (sailing/boating/yachting) sajam nautike
boat skipper (n) (sailing/boating/yachting) voditelj brodice (u Rep. Hrvatskoj)
boat skipper (n) (seamanship) zapovjednik brodice: This created problems for the boat skipper in getting the boat near without getting underneath the gangway.
boat station (n) (nav arch, safety) položaj brodica za spašavanje, prostor
brodica za spašavanje: I wonder what they would have written if they had been called out in the middle of the night to muster at boat stations.

boatswain /ˈbəʊsən/ (=bosun; bos'n; bo's'n) (n) 1 (seamanship) ANTONYM
donkeyman an unlicensed member of the crew who supervises the work of the deck men under direction of the first mate; an unlicensed member of the crew who supervises the work of the deck men under direction of the first mate. https://officerofthewatch.com/tools/maritime-dictionary/ vođa palube, noštromo (od koverte / kuverte), Italian: nostromo; nocchiero: Directly reporting to First Mate, the boatswain acts as a foreman of the unlicensed deck crew. A senior Able Seaman is usually considered for this position. Reasonable English skill is desired for this position.
boatswain chair a piece of rectangular board on which a man can sit when working aloft; the board with holes at the sides is suspended by rope arrangement noštromov stolac, boatswain’s pipe noštromova zviždaljka (za davanje zapovijedi posadi), boatswain’s locker A compartment or store usually located forward where lines, paints and other equipment used by the deck crew are stowed. spremište vode palube, noštromovo spremište; 2 (sailing vessels, navy) The person (usually an officer) who coordinated various tasks by the crew by means of a specialized whistle which he could blow two or three tones, e.g. one set of tones told the crew to hang the mizenmast and secure the halyards; another set told them to set the studs and royals; a third set of tones was “Call to Quarters,” and so on. (Wiki); the term that refers to the mate, warrant officer, or petty officer in charge of boats, rigging, and ground tackle aboard ship (http://www.quarterdeck.org/index.html) božman (na jedrenjacima), bocman (from hol. bootsman) (spellings: boatswain = bosun = bo's'n; It.: nostromo, nocchiero)

boat tackle (n) (nav arch) koloturnik brodice za spašavanje, čekrk brodice za spašavanje (za dizanje i spuštanje brodice)
boat transfer (n) (nav arch, hum_resources) brodica za razmjenu posada, brodica za prijevoz posade (na brod, platformu itd. ili s broda, platfpre itd.): The ship was making way towards a boat transfer position inside the Bay. MAIB The LPG ship was on passage to Rotterdam, calling at Algeciras to embark personnel by boat transfer.
boat trim (n) (sailing/boating/yachting) trimanje jedrilice
boat tuning (n) (sailing/boating/yachting) ugađanje jedrilice prije jedrenja, namještanje jedara, trimanje jedara

boatwain's mate (=bosun’s mate; BM) (n) (US) = bosun's mate 1 (seamanship)
The mate (assistant) to the Bosun; The most versatile member of the Coast Guard’s operational team is the boatwain’s mate (BM). Boatwain’s mates are masters of seamanship. BMs are capable of performing almost any task in connection with deck maintenance, small boat operations, navigation, and supervising all personnel assigned to a ship’s deck force. (Wiki) brodski dočasnik (Američke obalne straže): The bosun and the bosun’s mate had been advised of the change of plan by radio at 0510 and met on the main deck at 0515. Boatwain’s mates train, direct, and supervise personnel in ship’s maintenance duties in all activities relating to marlinspike, deck, boat seamanship, painting, upkeep of ship’s external structure, rigging, deck equipment, and boats. (Wiki); 2 (navy)
Boat watermaker

Boatswain’s mates train, direct, and supervise personnel in ship’s maintenance duties in all activities relating to marlinspike, deck, boat seamanship, painting, upkeep of ship’s external structure, rigging, deck equipment, and boats. https://en.wikipedia.org/wiki/Boatswain%27s_mate_(United_States_Navy) Boatswain’s Mate (BM) – This was generally considered to be the senior enlisted rating in the navy, a tradition probably handed down from the days of sail. The Chief Boatswain’s Mate (BMC) was expected to be the most capable seaman on board. http://www.dd596.com/Our-Ship/Organization; 3 (sailing vessels) A warrant officer or petty officer in charge of a ship's rigging, anchors, cables, and deck crew.

Dočasnik palube, dočasnik posade broda: Boatswain’s mates train, direct, and supervise personnel in ship’s maintenance duties in all activities relating to marlinspike, deck, boat seamanship, painting, upkeep of ship’s external structure, rigging, deck equipment, and boats. Boatswain’s Mates (BM) – This was generally considered to be the senior enlisted rating in the navy, a tradition probably handed down from the days of sail. The Chief Boatswain’s Mate (BMC) was expected to be the most capable seaman on board. http://www.dd596.com/Our-Ship/Organization; 3 (sailing vessels) A warrant officer or petty officer in charge of a ship’s rigging, anchors, cables, and deck crew.

Dočasnik palube (na jedrenjaku), dočasnik-pomoćnik vođe palube, dočasnik vođe posade: He then appointed his officers. Young was made master, Stewart the master’s mate, myself quartermaster, Morrison boatswain, and Alexander Smith boatswain’s mate. Charles Nordhoff and James Norman Hall: Mutiny on the Bounty - http://gutenberg.net.au/ebooks08/0800401h.html#c0 The Court put many other questions to the boatswain beside those given here. He was examined closely, as Fryer had been, concerning the men in Christian’s watch, those he saw under arms, my own relationship with Christian, and the like. His evidence made it plain that, although Morrison, Coleman, Norman, McIntosh, and myself all assisted in hoisting out the launch, this was done at the boatswain’s orders, and could not be construed as evidence that we were of the mutineers’ party. Charles Nordhoff and James Norman Hall: Mutiny on the Bounty - http://gutenberg.net.au/ebooks08/0800401h.html#c0

Bobcat /ˈbɔkæt/ (n) (cargo handling) malo jaružalo, mali katerpilar (za radu brodskom skladištu), bobcat

Bobin knotter (n) (fishing) a PR knot tying tool, that makes the PR complicated knot easy

Bobstay (n) (sailing/boating/yachting) stay or cable from end of bowsprit to the stem to prevent the former from lifting

Bobstay-piece (n) (nav arch, sailing vessels) brid kljuna

Body lines (n) (nav arch) brodske linije

Body of water (n) (geogr) količina vode

Body plan (n) (nav arch) pogled na teoretsku formu sprijeda. Na desnoj strani nacrta nalaze se rebra prednje (pramčane) polovine broda, a na lijevoj rebra zadnje (krmene) polovine. (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni) nacrta rebara

Bogie /ˈbəʊgi/ (=boggie) (n) (cargo) a set of wheels built specifically as rear wheels under the container postolje za kontejner, podvozak za cestovni prijevoz kontejnera, kontejnerska prikolica (šasija)

boss (n) bossed framing (n) (nav arch) grbava rebra

bosun /ˈboʊsən/ (=bos'n; bo's'n; boatswain) (n) = boatswain (on a merchant ship) an unlicensed member of the crew who supervises the work of the deck men under direction of the first mate voda palube, noštromo: The Bosun was on deck preparing the pilot ladder.

https://safety4sea.com/ assistant bosun pomoćnik vode palube: As the FRC was still partly suspended over the deck edge, the assistant bosun and the AB left the boat to help attach a bowsing line to assist in pulling the FRC around the deck edge. (boatswain = bosun = bo's'n)

bosun (n) (navy) (on a naval ship) a mate, warrant officer, or petty officer in charge of boats, rigging,
bosun's chair

= božman

bosun's chair (=bo's'n's chair) (n) 1 (seamanship) sjedalo od platna ili drva, za rad na oputi jarbola; a seat consisting of a board and a rope; used while working aloft or over the side of a ship (https://www.vocabulary.com/dictionary/bosun%27s%20chair); a canvas chair attached to a halyard, designed to hoist a person aloft http://www.apsltd.com/aps-advisor/sailing-terms-glossary/viseća sjedalica (za rad na jarbolu); 2 (sailing/boating/yachting) viseća sjedalica (za rad na jarbolu)

both ends (=BENDS) (n) (mar law, shipping econ) Both Ends - At both loading and discharging ports. This term is often used together with GSAAAAB (good safe always afloat always accessible berth), with OSP (one safe port), with OSB (one safe berth) and to qualify the prices of the bunkers on delivery and redelivery in a time charter. Also used to state agency determination (ex. Carrier's agents bends) http://www.tkmglobal.net/chartering_B.HTM

both-to-blame clause (n) (mar law) A clause inserted into some U.S. bills of lading, which required that in the event of a ship collision for which both vessels were at fault, cargo indemnify its carrying vessel for any amount which that vessel had had to pay to the colliding vessel in respect of any claim made by cargo against the colliding vessel. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm

both to blame collision clause (n) (mar law) Clause in a Bill of Lading or charter party which stipulates that, in the event of a collision between two ships where both are at fault, the owners of the cargo must indemnify the carrying ship against any amount paid by the carrying ship to the non-carrying ship for damage to that cargo. This clause arises because, under American law, a cargo owner is not able to make any recovery from the carrier for damage resulting from negligent navigation but may instead sue the non-carrying ship which in turn seeks recovery from the carrying ship in
proportion of his fault. This would render a carrier indirectly liable for a loss for which he is not directly liable to the cargo owner. The clause has, however, been held to be invalid in the American courts when incorporated with a common carrier. http://www.thglobal.net/chartering_B.HTM klauzula osudaru uslijed obostrane krivnje, odredba o obostranoj krivnji u sudaru

bottleneck (n) (shipping econ, ports) a condition in a process of transporting cargo which limits or impedes performance usko grlo (u prometu roba): NY–NJ port is confident warehouse capacity is sufficient to avoid bottleneck. Journal of Commerce Port bottlenecks that have increased supply-chain congestion are showing signs of easing, https://gcaptain.com/
bottlescrew (n) (cargo handling, seamanship) = turnbuckle stezaljka, škartoc,

bottleneck (n) (shipping econ, ports) a condition in a process of transporting cargo which limits or impedes performance usko grlo (u prometu roba):

bottom (n) (nav arch) dno (broda, barke, bordice), Italian: carena: However, the ship's bottom remained intact, meaning no oil escaped. double-bottom (nav arch) dvodno (broda): This condition remained until de-ballasting of #4 wingtank and double bottom in the English Channel., ship's bottom dno broda

bottom (n) (oceanogr, safety) morsko dno: Suddenly the vessel started to vibrate heavily and there was a loud noise. The master then understood that the vessel had hit the bottom but was still making way https://safety4sea.com/

Even under excessive load conditions, the D Shackle on the chain, which is the weaker link, should break first. It is highly unlikely that the lashings will break in any reasonable circumstances, including heavy weather navigation. Ropes will break down when under stress or tension. 

Several barges and vessels broke away from their moorings on the Hudson River due to ice flows. Severe winds cause ship to break away at Port in New Orleans.

The breakage of the tow wire occurred due to wear and tear. 

Several barges and vessels broke away from their moorings on the Hudson River due to ice flows. Severe winds cause ship to break away at Port in New Orleans.

Loose, non-containerized mark and count cargo.

Breakbulk cargo is designed for speed and flexibility for handling breakbulk, palletized, or container cargo. Breakbulk steel imports are expected to decline further this year after falling in 2019, as sinking demand for vehicles and other steel-based products adds to tariff woes. Journal of Commerce (Relating to cargo lifted on and off ships one piece or bundle at a time by means of cranes or derricks, as opposed to cargo shipped on trailers or in shipping containers. Such goods may be described as breakbulk cargo; the ships which carry them are sometimes referred to as breakbulk ships which are operated on a regular basis between advertised ports, provide a breakbulk service. The term breakbulk is often used to denote the opposite of containerized. http://www.tkmglobal.net/chartering_B.HTM)

Breakbulk cargo non-containerized general cargo stored in boxes, bales, pallets or other units to be loaded onto or discharged from ships or other forms of transportation; The term BREAK BULK relates to trades where the cargoes are carried in unitized form such as palletised, bagged, strapped, bundled, drummed and crated like below and also non unitised general cargo (vehicles, steel etc.).
not fit in standard shipping containers or cargo bins (https://www.itexport.com/glossary/break-bulk/)

**break free (from)**

1 (seamanship) okvačiti se (od veza), odvezati se (nenamjerno): Three barges have broken free from the towing vessel after alliding with the Helena.

### Breakbulk Cargo and Barge Operations

**Breakbulk Cargo** is the transportation of goods that cannot be transported in or on a container due to their exceptionally large dimensions or weight. This type of cargo is usually transported by specialized vessels, referred to as breakbulk vessels, which differ from conventional shipping in their design and operation. Breakbulk vessels are used primarily for unloading cargo that is not designed for containerization, allowing for transportation of both large and small goods.

**Break Free** refers to the release of a vessel from its mooring or anchor, typically occurring when the vessel is not under the control of the crew, as may happen in the event of an accident or other unforeseen circumstances. Breakfree vessels are a concern for maritime safety, as they can cause significant disruptions to traffic and port operations.
Highway Bridge pier. The crew often connect it directly to the ship’s structure so that the raft will not break free should the vessel sink. brittle /ˈbrit(ə)l/ (adj) (marine eng) krt, krhak, lomljiv (materijal), loman

brittleness /ˈbrit(ə)lnis/ (n) (marine eng) krhkost, lomljivost

BRM (=Bridge Resource Management) (n) (hum_resources, navig) = bridge
Bridge resource management (BRM) is the effective management and use of all available resources, both human and electronic, by the bridge team to ensure the safe navigation of a ship. BRM incorporates concepts such as workload management, problem-solving, decision-making, communication and teamwork. No BRM training or refresher training was carried out. The master and chief officer of the ship had received BRM training in the form of maritime resource management training in June 2___...

A sailboat broaches when its heading suddenly changes towards the wind due to wind/sail interactions for which the rudder cannot compensate. When this happens, the boat may become unmanageable, as the rudder is ineffective in controlling the boat's direction. In such situations, the boat may roll over, which can be dangerous for the crew. To avoid broaching, it is important to keep the boat on an even keel and to ensure that the sails are trimmed correctly.

The oil was leaking from the unsecured oil drums, causing a spill. To prevent this from happening again, the oil drums were secured to the ship's deck by a painter to avoid broaching.

When a ship is sailing in the following seas and wind astern, it can accidentally turn her leeward side to windward, which can cause water to start coming over the gunwhale. This is known as broaching to. It is particularly dangerous near a beach, as the current and the weight of the cargo net can cause the boat to swing and broach to. To avoid this, the master decided to make a broad alteration to starboard.

The Coast Guard is broadcasting a notice to transiting vessels every 12 hours via VHF channel 16. Broadcast SAFETY or URGENCY.
message, if appropriate. broadcast a distress call and message emitirati poziv za pomoć i poruku o pogiblji, broadcast the information emitirati informacije / podatke: The beam trawler’s AIS was transmitting static and dynamic information, including its status (engaged in fishing), SOG and COG. However, no heading information was broadcast.

broadcast /ˈbrɔːdˌkaːst/ (n) (comm) emitiranje
broadcasting system (n) 1 (comm) razglas; 2 (nav arch) koncertni razglas
broadcast of search and rescue related safety information (n) (safety) After an alert of an actual or potential aeronautical or maritime incident has been detected, a broadcast of search and rescue (SAR) related safety information, which requires and initiates a response by all fixed or mobile stations (aircraft and vessels) in the vicinity, may aid in resolving the incident. (CAMSAR II – Mission Coordination); re-transmission of a distress message emitiranje informacija o traganju i spašavanju: Broadcasts of SAR related information are normally initiated by the SAR Mission Coordinator (SMC). A distress broadcast (Mayday Relay) may, however, be retransmitted or initiated by a station that learns that a mobile station (aircraft or vessel) or person is in distress and it is apparent that further assistance is required. CAMSAR II – Mission Coordination (In general, a broadcast of SAR related aeronautical or maritime safety information shall consist of: .1 Priority (.a Distress, transmitted as “MAYDAY RELAY” (repeated three times); .b Urgency, transmitted as “PAN PAN” (repeated three times); .c Safety, transmitted as “SECURITE” (repeated three times); .d No specific priority (general or routine broadcast); .2 ALL STATIONS (repeated three times); .3 THIS IS (name of transmitting station); .4 Details of the situation (type of distress); .5 Action required by all stations; .6 Contact instructions for follow-on communications)

broaden /ˈbrɔːdən/ (v) proširiti (se), raširiti (se), rastegnuti (se)
broad on (adv) (navig) široko po prednjoj strani broda: The ship was almost broad on to the wind and rolling up to 35/40 degrees, when she took a few heavy rolls of more than 40/50 degrees.
broad on the starboard beam desno po pramčanom boku, broad on the bow halfway between dead ahead and abeam, and halfway between abeam and astern, respectively. široko po pramcu: When the ferry was 5 miles away and broad on our port bow, she altered about 300 to her port, which considerably worsened the situation. At approximately 2115 I sighted the silhouette of a barge in the moonlight broad on the starboard bow at fairly close range.
broad reach (=broad raching) (n) 1 (sailing/boating/yachting) SEE point of sail A point of sail where the boat is sailing away from the wind, but not directly downwind with the sails let out nearly all the way. https://www.safety4sea.com/s vjetrom u pola krme: The skipper, who was helming at the time, handed the wheel to one of the trainee crew and instructed her to keep on a port tack on a broad reach.; 2 (sailing/boating/yachting) jedrenje s vjetrom u pola krme

broadside (adv) (navig, ship handling) bokom prema valovima / vjetru become broadside to the wind / sea biti okrenut bokom prema vjetru / valovima (o brodu): As the vessel became broadside to the wind this also added to the total heeling effect and a maximum list/heel of 60 deg was reported. (https://safety4sea.com/) As the vessel became broadside to the wind this also added to the total heeling effect and a maximum list/heel of 60 deg was reported. (https://safety4sea.com/)

BROB (=Bunkers Remaining on Board) (n) (seamanship) preostalo gorivo na brodu

broken (adj) slomljen, prekinut, puknut broken line (seamanship) puknuto uže / konop: The accident resulting in severe injuries to 2 people caused by three broken lines while making fast the ship. The broken mooring rope was a 70mm diameter polypropylene monofilament 8-strand plaited rope., broken leg / arm / bone / rib skomljena noga / ruka / kost / rebro: 1
then went to my GP (general practitioner) who sent me to hospital for an X Ray where they discovered three broken ribs.

broken down (n) u kvaru, pokvaren, havariran: A containership broken down in the Pacific Ocean. Kontejnerski brod u kvaru na Tihom Oceanu. https://gcaptain.com/

broken image (n) (navig) iskrivljena / nejasna slika (na radaru)

broken stowage (n) (shipping econ) 1 the spaces between and around cargo units, including dunnage, and spaces not available for cargo stowage because of physical obstructions or ventilation and access requirements; Amount of unused space in a ship or a hold by virtue of the irregular shape of the cargo. For example, the space taken up by a bundle of bars of irregular length would be calculated on the basis of the longest length, as if all the bars were of that length.

http://www.tkmglobal.net/chartering_B.HTM neiskorišteni brodski prostor, izgubljeni prostor; 2 (cargo handling) ispuna za neiskorišteni brodski prostor

broker /ˈbrəʊkər/ person who transacts the business of negotiating between merchants and shipowners respecting cargoes and clearances, or one who effects insurances with underwriters; person who arranges for transportation of loads for a percentage of the revenue from the load; A person or firm that establishes a connection between a buyer and a seller. (https://www.msc.com/) posrednik, mešetar, broker: ... in 1980 he joined ... Marine in London and operated as a dry cargo broker on the Baltic Exchange until 1985. Brokers operate in many fields: insurance, steamship transport, securities, drafts, and other phases of foreign trade. Not only do brokers bring buyers and sellers together, but they help to negotiate and close contracts and agreements between them. (https://www.msc.com/) insurance broker osigurateljski posrednik, osigurateljski broker: More specifically brokers connected with the maritime industry can be categorised as: Insurance brokers, who act as the intermediary between the ship/cargo owner and the underwriters when marine insurance is negotiated,

loading broker Company that represents a shipping line at the port of loading brodarov agent / predstavnik u luci ukrcaja, brodarov broker, zastupnik: The loading broker’s duties are to advertise the line’s sailings, to obtain cargoes and co-ordinate their delivery to the ship and to sign bills of lading on behalf of the master, cargo brokers brokeri tereta: Commodity brokers connect sellers and buyers for any specific commodity and Cargo Brokers connect “Commodity Traders” who trade in commodities and Ship owners for the carriage of the commodities. shippingandfreightresource.com (Generally, a broker is a person who acts as an agent or intermediary in negotiating contracts)

brokerage (n) (shipping econ) freight forwarder/broker compensation as specified by ocean tariff or contract; Fee or commission payable by a shipowner to a shipbroker for successful negotiation of a charter, It is normally expressed as a percentage of the freight or hire and demurrage. Brokerage may or may not be payable, according to the terms of the Charter-Party, should the voyage or period of the charter not be completed http://www.tkmglobal.net/chartering_B.HTM; Brokerage is the percentage of freight payable to broker (by owners in c/p’s) or applicable to sale or purchase.

https://www.logisticsglossary.com/term/brokerage/ naknada za posredništvo, špeditorska provizija

brokerage /ˈbraʊkərɪdʒ/ 1 (mar law) brokerstvo, mešetarenje (u pomorskoj trgovini); 2 brokerske usluge brokerage commission brokerska provizija

brokerage clause (n) (mar law) klauzula o proviziji (za posredništvo)

bronze /ˈbrɒnz/ (n) (marine eng) bronca, bronza aluminium bronze aluminjska
At 0300 it was confirmed the vessel was brought up and holding her position with 8 shackles in the water.

Large gangplank leading from a ship to a pier, wharf or float; usually equipped with hand rails. Used to cross from one ship to another, and from a ship to a pier.

The brown water environment starts from the shoreline through to the end of the continental shelf. The brown water environment starts from the shoreline through to the end of the continental shelf. An inland or coastal waterway (US) riječni i unutrašnji plovni putovi: For brown water hulls big enough to merit ballast water treatment systems, the price tag for those systems could hit $1 million. ... at a time the U.S. merchant fleet’s 40,000 hulls are largely comprised of brown water, inland, workboat type vessels. ... as many as 39,500 of our collective 40,000 merchant hulls can be classified as brown water, shallow draft tonnage.
That said; it is also fair to note that inland / **brown water mariners** typically have much shorter work rotations than do their blue water, deep draft counterparts. MaritimeReporter-2016-04

**brown water navy** *(n) (navy)* any naval force capable of military operations in river or littoral environments, especially those carrying heavy sediment loads from soil runoff or flooding

(https://en.wikipedia.org/wiki/Brown-water_navy) **ratna mornarica za unutrašnje vode i priobalje**

**Bruce anchor** *(n) (sailing/boating/yachting)* **sidro tipa Bruce, Bruceovo sidro:** The skipper set his new 20kg “look-alike” **Bruce anchor** in calm conditions, with a trip rope to aid recovery, and then retired for the night with no watch set.
bruise /bruːz/ (n) (med) modrica, masnica: A suitable pair of gloves provides protection to the hands against cuts, and bruises. https://www.transportstyrelsen.se/

bruise /bruːz/ (n) (med) modrica, masnica: A suitable pair of gloves provides protection to the hands against cuts, and bruises. https://www.transportstyrelsen.se/

brush /brʌʃ/ 1 (seamanship) četka, kefa; 2 (seamanship) kist, pinel

Brussels conventions (n) (mar law) The main international conventions are referred to as Brussels Conventions, because the diplomatic conferences at which they were adopted were held in Brussels and the Belgian Government acted as depositary of the Conventions and of the related instruments of ratification, accession and denunciation. Briselske konvencije

B.Sc (≡Bachelor of Science) (n) prvostupnik, baccalaureus, prvostupnik inženjer, univ. bacc.

BSc Degree Marine Engineering (n) (mar law, marine eng) SEE academic awards in ship officer programmes (UK) - Marine Engineering

BSc Degree Marine Operations Management - UK (n) (mar law, navig) SEE academic awards in ship officer programmes (UK) - Marine Engineering

BSc Degree Nautical Science - UK (n) (mar law, navig) SEE academic awards in ship officer programmes (UK) - Marine Engineering

BSS (=basis) (n) (shipping econ) osnovni uvjeti ponude u čarteringu

BTU (=British thermal unit) (n) (marine eng) britanska toplinska jedinica: This means that ... it will be cheaper to operate on conventional HFO using a SOx scrubber and SCRs if the price of HFO is 500 USD/ton and the price of LNG is >12.3 USD/mmBTU. ... Considering both CapEx and OpEx costs, the break-even price for LNG is 12.3 USD/mmBTU.

www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf As LNG is typically
priced in USD/mmBTU, it is challenging to understand the actual price without further conversions. 12.3 USD/mmBTU corresponds to 42 USD/MWh.

bubble /ˈbʌbəl/ (n) mjehurić
bucket /ˈbʌkɪt/ (n) (seamanship) kablić, vjedro, bujol: Before knocking off he suggested that they dip the tape in a bucket of hot water for a few minutes immediately before using it.

bucket elevator (n) (cargo handling) vjedričar, žličar

https://blog.vgprocess.com/uncategorized/elementor-8404/

bucket grab (n) (cargo handling) vjedrasta grabilica, grabilica u obliku vjedra,
The superintendent informed everyone that the ship’s bucket grabs were to be taken ashore.: However, for bucket grabs connected to the crane for handling bulk cargoes, it is prudent to make a substantial reduction The superintendent informed everyone that the ship’s bucket grabs were to be taken ashore.

bucket wheel dredger (n) (cargo handling) jaružalo vjedričar
buckle /ˈbʌkəl/ (v) (nav arch, safety) saviti se, ulegnuti se (lim): Bottom plating on port side of keel buckled extensively for a length of about 15 metres from stem and holed in fore peak tank and bow
The impact caused the tank frame to buckle and resulted in the release of a small quantity of the tank's contents.

**buckled** *(adj)* (cargo handling, safety) uleknut, savijen: Reject a buckled, twisted or damaged container. https://safety4sea.com/

**buckling** *(n)* (nav arch, marine eng) the departure of a plate, shape, or stanchion from its designed plane or axis when subjected to load or to strains introduced during fabrication, thereby reducing its ability to carry loads: savijanje, uleknuće (limova i konstrukcije pri sudaru): Hull girder strength and buckling checks are carried out on all critical sections along the entire length of the hull. The hull failed along the line of a welded deck seam close to the tank hatch coamings, causing buckling of the main deck and ship sides. An investigation into the accident determined that, among other contributing factors, the vessel’s hull did not have sufficient buckling strength. buckling in compression izvijanje kad je brod u progibu

**buffer** *(n)* (marine eng) something that lessens or absorbs the shock of an impact: odbojnik, amortizer, prigušivač

**buffer** *(v)* (marine eng) to act as a buffer, to cushion, shield, or protect: ublažiti, amortizirati

**buffer bow** (=collision-buffering bow) any structure in the ship’s bow for reducing shock or damage due to contact / collision: ojačana konstrukcija pramca (za ublažavanje udara): However, if the ship owner uses the buffer bow, either the buffer bow must be mandatory, or there should be a financial advantage, such as an insurance discount.

**buffer piston** *(n)* (marine eng) razvodni klip, povratni klip

**buffer spring** *(n)* (marine eng) amortizer

**buffer storage** *(n)* a device or area used to store data temporarily (in computers): međuspremnik (računala)

**buffer tank** *(n)* 1 (marine eng) tank za miješanje goriva, banana tank; 2 (marine eng) SEE settling tank taložni tank

**buffer time** *(n)* (logist, mar law) Rezervno vrijeme u projektiranju plovdenog ređa linijskog servisa (koje koristimo u situacijama kada je brod “izašao” iz plovdenog ređa zbog zatruća u luci, slabije produktivnosti u luci, kvara stroja, strajkova, nevremena...). (J. Karmelić, personal information) rezervno vrijeme za nepredvidene okolnosti (u ispunjenju ugovorenog vremena putovanja broda): Therefore, we need to determine an optimal recovery policy and buffer time allocation to the ship route in order to minimize the total costs associated with delays and recovery actions, such as increasing sailing speed. https://ideas.repec.org/a/eee/ejores/v272y2019i1p132-146.html Some liner shipping companies add “buffers” at certain voyage legs to account for uncertain events that may delay the vessels throughout the planned voyage. However, for significantly large delays, the buffers are usually not enough to recover the vessel schedule. Also, an introduction of many buffers in the liner shipping network affects the network efficiency. file:///C:/Downloads/energies-12-02380.pdf

**buffing machine** *(n)* (marine eng) the process of cleaning and removing debris and hard deposits like carbon and sludge from the surface of the metals: alatni stroj za politranje, alatni stroj za sjajenje: A buffing wheel or buffing tool, which is a metal wire wheel, is attached to a portable hand driven buffing machine or an installed buffing wheel.

**build** *(v)* (marine eng, nav arch) graditi, izgraditi build in ugraditi, build a ship
Izgraditi brod: Two vessels were built at Damen Maaskant Shipyards Stellendam using hulls fabricated in Germany, and were delivered in February and May this year.

**Builder (n) 1 (nav arch) brodograditelj, proizvođač; 2 konstruktor**

** Builders (n) (nav arch) brodogradilište:** He left school at 16 and worked in a boat builders. The bolts had not been properly tightened up after its first trial inspections in the builder's yard.

**Builders trials (n) (nav arch)** an event conducted by the shipyard/contractor to inspect, test and evaluate a ship's performance underway pokusne vožnje, probne vožnje

**Building basin (=dry dock) (n) (nav arch) = building dock suhi dok za gradnju broda:** Building basins, or dry docks, are sometimes used for the construction of very large vessels, because it is convenient to lower, rather than to lift, large assemblies, and this method also eliminates problems associated with launching.

https://www.britannica.com/technology/ship-construction#ref539694

**Building berth (n) 1 (nav arch) mjesto gradnje broda; The place of building a ship with the dry-docking and launching facilities such as: slipways (shipways = navoz), marina railways (navoz sa šinama), floating docks (plutajući dok), graving docks (suhi dok za popravke), and shiplifts (plutajuće platforme) ležaj broda (u gradnji), mjesto gradnje broda (navoz, suhi dok, itd.), dilj (mjesto gradnje za manje brodove):** We install and joint assembled blocks by right order on a building berth by a crane The wooden ship was constructed on a building berth, around which timbers and planking were cut and shaped and then fitted together on the berth to form the hull. The berth or slipway from which the vessel is launched is an assembly area, rather than a ship construction site. https://www.britannica.com/technology/building-berth Building berths slope downward toward the waterway, to facilitate launching. Building berths slope downward toward the waterway, to facilitate launching.
building contract (n) (nav arch) ugovor o gradnji (broda) date of building contract datum sklapanja ugovora o gradnji broda

building dock (n) (nav arch) = building basin suhi dok za gradnju brodova:
During the shipbuilding process, each ship block is brought to the building dock, where they are erected with cranes, as per the welding sequence.

building of a ship (n) (nav arch) The process of building a ship includes the following stages: design (projektiranje), 2. production planning (planiranje proizvodnje / izgradnje broda), 3. the arrival of steel (dolazak čeličnih limova i profila iz čeličane), 4. primer coating (zaštitni premaz), 5. cutting of steel (rezanje čeličnih limova i profila), 6. processing of steel (obrada i oblikovanje limova i profila), 7. panel line (izrada limova blok-sekcija), 8. sub-assembly (plošno spojvanje limova), 10. block assembly (sklapanje blok-sekcija), 11. outfitting for blocks (opremanje blok-sekcija cijevima, ventilima i ostalom opremom), 12. block joint on the dock (spajanje blok-sekcija na mjestu gradnje bora - u suhom doku ili na navozu), 13. Goliath crane (gigantska mosna dizalica), 14. sea trial (pokusne vožnje), 15. naming and delivery ceremony (svečanost imenovanja/krštenja broda i primopredaja)

building slip (n) (nav arch) = slipway An inclined launching berth where the ship is built

build the pressure (v) (cargo handling) povećati tlak (u cjevovodu tereta)

build-up (n) 1 (navig) rast, narastanje, gomilanje, akumulacija, povećanje build-up of traffic povećanje prometa (u kanalu), rast prometa (brodu):

https://ocean-shipyard.com/what-we-do/shipbuilding;
https://ocean-shipyard.com/what-we-do/shipbuilding/2

navoz (Ležaj ili mjesto gradnje može biti suhi dok, kosi navoz, platforma itd. U hrvatskom jeziku navoz je opći naziv za ležaj broda u gradnji. Naziv navoz ima i specifično značenje i implicira kosi ležaj (za spuštanje krmom ili bokom u more).)
Because of morning fog, there was a build-up of slow-moving traffic in the Great Bitter Lake.  

(oceanogr) akumulacija leda, stvaranje naslaga; (safety) nakupljanje, akumulacija: The lifeboat bowing wires had seized in their aluminium channels, on the ship's side, due to a build up of corrosion deposits within the channels.

bulb /ˈbʌlb/ (n) (nav arch) kruškolik pramac, bulb stern bulb kruškolika krma, krmneni bulb

bulb (n) (sailing/boating/yachting) bulb kobilice: The boat has one bulb attached to the standard keel fin.

bulb (n) (electr) žarulja: The bulb was changed but without success and after several bulbs were plugged in with the same result it was found that the electric circuit was broken.

bulbous bow /ˈbʌlbus bɔː/ (n) (nav arch) a part of the bow with a round, bulging shape at the bottom of a ship to improve flow and resistance characteristics pramčani bulb, bulbasti pramac, bulb pramca, kruška (pramca), pramac s bulbom, bulb: The vessel herself sustained only minor damage to her bulbous bow. Despite that, the ship continued to move forward with her bulbous bow ramming against the dam and only came to a standstill there. The bulbous bow provides a narrower profile aimed at reducing fuel consumption at slow speed.

bulge (n) (nav arch, marine eng) izbočina, isupčenje in the hull plating isbočina na oplati trupa

bulid up (n) (navig) razvijati brzinu, povećavati brzinu: The pilot put the engine astern and was building up through slow and half to full astern to bring the ship to a stop

bulk /bɔːlk/ 1 (adj) glavni dio, najveći dio; 2 (n) rasuti teret

bulk (adj) 1 unpackaged (cargo) nepakiran, bez pakovanja, u nepakiranom stanju in bulk u voluminoznom stanju, u nepakiranom stanju, bez ambalaže: Traditionally, scrap metal has been carried in bulk and is, therefore, subject to the Bulk Cargo (BC) Code. The vessel loaded cement in bulk in two small ports in the Mediterranean; 2 voluminozan; 3 u rasutom stanju, u sipkom stanju: A bulk carrier loaded a full cargo of wheat in bulk.

bulk cargo (n) (cargo) tereti (suhi i tekući) koji se prevoze u velikim količinama i bez bez pakovanja; unpackaged cargoes such as ore, grain, and oil (includes both dry and liquid cargoes carried in bulk); loose cargo (dry or liquid) that is loaded (shoveled, scooped, forked, mechanically conveyed or pumped) in volume directly into a ship's hold; e.g., grain, coal and oil; a cargo (product) that is shipped loosely and unpackaged voluminoznii tereti, masovni tereti: Grain, coal and sulfur are usually bulk cargo A coaster, recently purchased by new owners, completed unloading her bulk cargo at a berth in a small harbour. Bulk carriers, ore Carriers or bulkers carry dry bulk cargoes. liquid bulk cargo tekući tereti, bulk graing cargo: Bulk grain cargoes are often fumigated to prevent or to address insect infestation. teret žita u sipkom stanju, break bulk cargo komadni teret, generalni teret

bulk cargo (=dry bulk cargo) (n) (cargo) unpackaged dry cargo such as iron ore, non-ferrous minerals, coal or grain; Usually a homogeneous cargo stowed in bulk, and not enclosed in any container. (http://www.euronav.com); dry cargoes carried in loose (=unpackaged) form, such as iron ore, metallic and non-metallic ores, coal, bauxite, alumina, phosphate, grain, sand, etc.), loaded in hip holds rasuti teret, sipki teret dry bulk cargo suhi rasuti teret, rasuti teret
bulk cargo carrier (=bulk carrier; bulk-carrrier; bulkcarrier) (nav arch) brod za rasuti teret
bulk-carrier (=bulker; bulk cargo ship; dry bulk cargo ship) (n) (nav arch) =
bulk cargo carrier = bulker A single deck cargo vessel with an arrangement of topside ballast tanks for the carriage of bulk dry cargo of a homogeneous nature (http://www.ihsfairplay.com/About/Definitions/definitions.html)
brod za rasuti teret: A large bulk carrier, in ballast, embarked a pilot at the entrance to the port and headed upriver on an ebb tide.
Own vessel was a handymax bulk carrier. self-unloading bulk-carrier brod za rasute terete s vlastitim uređajem za iskrcaj tereta, geared bulk-carrier brod za rasute terete s vlastitim opremom za ukrcaj/iskrcaj tereta: Back in 1979, I was Master of a on a long-term charter carrying grain from the USA and Canada to Russia, and this often necessitated a Great Lakes transit.

Bulk Carrier Booklet (n) (nav arch, stabil) Knjiga broda za rasuti teret
bulk cement pipeline (n) (ports) cjevovod za iskrcaj cementa
bulk container (n) (cargo) a container designed for the carriage of free-flowing dry cargoes, which are loaded through hatchways in the roof of the container and discharged through hatchways at one end of the container. kontejner za sipke terete: Bulk containers are used in particular for transporting bulk cargo, such as grain, feedstuffs, spices. Some special dry bulk containers resemble tank containers.
bulker (=bulk cargo ship; dry bulk cargo ship; bulk-carrier) (n) (nav arch) =
bulk cargo carrier brod za rasute terete, brod za sipke terete gearless bulker a bulk cargo ship which does not have its own cranes and/or other form of cargo handling equipment brod za rasute terete bez vlastitog teretnog uređaja, geared bulker a bulk cargo ship which has its own cranes and/or other form of cargo handling equipment brod za rasute terete s vlastitim teretnim uređajem
bulker rate (n) (shipping econ) najamnina za brod za rasute terete: HANDYSIZE bulker rates have continued their cent rally in the past week, supported by a burst of demand in both the Pacific and Atlantic basins.
bulk freight (n) (shipping econ, US) = bulk cargo masovni teret
bulk freight container (n) (cargo handling, cargo) a container with two or three portholes on the top and discharge hatches in the doors; allows the container transport of free-flowing bulk commodities such as grain, iron ore and coal. (https://www.msc.com/) kontejner za rasute terete
bulkhead /ˈbʌlkhed/ (n) 1 (nav arch) the vertical (cross or longitudinal) partitions that divide the ship’s hull into separate compartments; A vertical structural partition dividing a vessel’s interior into various compartments for strength and safety purposes; (termed strength bulkhead).
https://officerofthewatch.com/tools/maritime-dictionary/brodska pregrada: The bulkhead between the shaft tunnel and the main engine room could not withstand the hydrostatic water pressure ...
transverse bulkhead poprečna pregrada: On the inclined plates of the hopper tanks and in the lower hold and the lower stool of the transverse bulkhead, extensive damage in the shape of groove corrosion was found with depth up to 9mm in places. collision bulkhead protusudarna pregrada: The longitudinal bulkhead in way of water ballast tank no. 3 Finally, the collision bulkhead saved the boat from being lost. The collision bulkhead was not penetrated and there was no pollution. longitudinal bulkhead uzdužna pregrada, bulkhead door vrata pregrade, double skin bulkhead dvostruka pregrada, watertight bulkhead nepropusna pregrada, expansion-trunk bulkheads pregrade ekspanzionih tankova

https://sgseafarers.com/forums/topic/ship-construction/ 2 a structure used to protect against shifting cargo and/or to separate the load pregrada (lt.: paratia)
bulkhead (n) (ports) A port structure designed to retain fill at locations with only limited wave action, and not to resist coastal erosion. lučka barijera (za zaštitu od rasipanja obale, nasipa itd.): The price of sea wall and bulkhead construction to be between EUR 750,000 per km and EUR 2 million per km. Filled bulkheads provide a lower initial construction cost and lower maintenance costs than pile supported docks. Economics ruled out conventional pile-supported platform docks in favour of a new Open Cell Bulkhead. https://www.porttechnology.org/
**bulkhead deck** *(n) (navig)* Uppermost deck at which transverse watertight bulkheads terminate

https://officeroftbewatch.com/tools/maritime-dictionary/pregradna-paluba

**bulkhead strake** *(n) (nav arch)* *voj pregrade*

**bulkhead stringer** *(n) (nav arch)* *proveza pregrade*

**bulk liquid** *(n) (cargo)* Unpackaged, homogenous liquid goods, without mark or count and usually free-flowing, bought and sold by weight or volume, such as crude oil, oil products etc. *tekući teret, tekući masovni teret*: Sampling is an important part of the *bulk liquid cargo* custody transfer process and can help in protecting the ship’s interests in the event of disputes over cargo quality.

**bulk liquid chemicals** *(n) (cargo)* *kemikalije u razlivenom stanju*

**bulk raw material** *(n) (cargo, shipping econ)* *sirovine u rasutom stanju, sirovine (koje se prevoze) u velikim masama*
bulk unloader (n) (cargo handling) lopatičar

bulk vessel (n) (nav arch) = bulk-carrier brod za rasuti teret, brod za suhe masovne terete: The bulk vessel was now very close and collision could not be avoided; the bulk vessel struck the container vessel amidships on the port side.

bulky /ˈbʌlki/ (adj) (cargo) velik, glomazan: The boat had an old bulky lifejacket stowed in the bows, and a lifebelt. bulky cargo COMPARE awkward cargo glomazan teret, teret velikog obujma

bulldozer /ˈbuldəʊzər/ (n) (cargo handling) buldožer

bullet (n) (sailing/boating/yachting, figurative) a first place victory in a sailing race. prvo mjesto (u jedriličarskoj regati)

bullnose /ˈbʊlnəʊz/ (n) 1 (nav arch) sidreno oko (u pramčanoj statvi); 2 (nav arch, sailing/boating/yachting) zjevača za privezno uže

bull ray (=common eagle ray) (n) (fishing) Lat. Myliobatis aquila golub, sokol, sokol biskup, šipatka, krlatica

bull rings (n) (cargo, cargo handling) Cargo-securing devices mounted in a floor of containers that allow lashing and securing of cargo. prsteni kontejnera (za pričvršćivanje)

bulwark /ˈbulwɔrk/ (n) (nav arch) the wall (shell plating strake) around any deck exposed to the elements. This includes the weather deck, the poop deck, the fore deck, and any deck on the superstructure. On top of the bulwark is a flat rail (or plate) called the rail. linica, partigeta (drvene brodice), Italian: paratia, mrtva banda, murada: A seaman was told to look over the bulwark and to inform the bosun when the breastlines had been released. The tug's deck is obstacle free and with a 1.1 m bulwark. bulwark rail šina linice, rukohvat linice, bulwark stay upora linice
bulwark planking (n) (sailing vessels) oplata ograde
bulwark rail (n) (nav arch) razma
bulwark rail section (n) (nav arch) razma
bulwark stanchion (n) (sailing vessels) izdanak rebra
bulwark stay (n) (nav arch, sailing/boating/yachting, sailing vessels) potporanj ograde, izdanak, štil
bundle /ˈbʌndəl/ (n) (cargo) svežanj (tereta), snop
Bundling is the assembly of pieces of cargo, secured into one manageable unit. This relevant to items such as structural steel, handrails, stairways etc.

Bundling (n) (logist) - https://www.logisticsglossary.com/term/bundling/
Pakovanje tereta u svežnje

Bung /ˈbʌŋɡ/ (n) (sailing/boating/yachting) Čep za ispusni otvor

Bungee cord /ˈbʌndʒi ɔːd/ (=bungie, shock cord) (n) (sailing/boating/yachting) an elastic cord composed of one or more elastic strands forming a core, usually covered in a woven cotton or polypropylene sheath. Elastična vezica (s metalnim ili plastičnim kucicama za vezivanje bez čvora), Lastik (za skupljanje jedra i sl.): When it comes to boats, there’s never a shortage of stuff to secure, coil, or hang up. Bungee cords are the default go-to in many cases - https://en.wikipedia.org/wiki/Bungee_cord

Bunk /ˈbʌŋk/ (n) (seamanship) built-in sailor’s bed aboard ship - mornarska postelja (u kabini), mornarski krevet, postelja u kabini, Italian: cucceta: The fishing vessel heeled over considerably, throwing one of the crew out of his bunk. The number of bunks on board shall be a minimum of half the number of crew on board ... Each bunk shall be suitable for the height and weight of the crewmembers. IMOCA Race Rule 2012

Bunker /ˈbʌŋkə/ (n) 1 (seamanship, marine eng) fuel used aboard the ship; Compartment for the storage of oil or other fuel.; (in old steam ships) a compartment used for stowage of coal; gorivo, pogonsko ulje bunkers, bunkers delivery isporuka / ukrcaj goriva, bunkers consumption potrošnja goriva, total bunkers cost ukupna potrošnja goriva, bunkers space prostor za spremanje goriva, prostor za bunker, coal bunkers bunker za ugljen, spremište za pogonski ugljen, fuel oil bunkers a large storage container or tank, originally for coal, but today mainly for fuel oil bunkers for pogonsko gorivo, bunker za pogonsku naftu, bunkers ex barge opskrba goriva s teglenice-cisterne, bunkers ex pipe opskrba goriva iz pumpnih cijevi na terminalu, grades of bunkers vrste goriva, bunkers barge maona / brodica za opskrbu gorivom: Just after midnight, a bunker barge moored on the starboard side of a bulk carrier at anchor off port limits (OPL), with two lines and a spring forward and aft. In quick successions, the master ordered ‘dead slow ahead’, ‘slow ahead’ and ‘full ahead’ on the main engine in order to clear the bunker barge. 41-0209_bsu_248-12 The crew of the bunker barge passed the ‘messenger line’ to a crewman on the PSV, along with two mooring ropes. MARS reports_1992-2016, bunkers pipe cijev za osprbu gorivom: The full length of the bunker pipe should then be examined for its condition., bunkers hose fleksibilna cijev za opskrbu gorivom: On close inspection the bunker hose outer core was found cut in two areas - see pictures., bunkers requirements potrebe za gorivom: The Master was kept busy with the phone calls and frequent internal calls to the engine room
about bunker requirements and myself (OOW) drawing up the new Passage Plan, bunker tank tank

bunker: This had resulted from a split between the ballast tank and an adjacent bunker tank, which had been caused during the grounding, bunker line cijev za opskrbu gorivom: He checked the starboard fuel oil tank to reduce the pressure in the bunker line, bunker arm ruka za kranjanje goriva, zglobovna ruka za kranjanje goriva: North Pier: Berths No. 11 and 12 loading arms: 3_16 in. cargo arms; 2 compartment for the storage of oil or other fuel spremište za gorivo

bunker /ˈbʌŋkər/ (v) (marine eng) krcati gorivo: The vessel will bunker with approximately 200 tons of LNG at Rotterdam http://gCaptain.com

bunker /ˈbʌŋkər/ (n) (nav arch) uglenara (na parobrodu), bunker

bunker adjustment factor (=Bunker Contribution (BUC); Fuel Adjustment Factor (FAF)) (n) (logist) When fuel prices are subject to major price fluctuations, the shipping company sometimes levies a bunker surcharge or BAF (Bunker Adjustment Factor) of BUC (Bunker Contribution) so as to compensate for the risks of price fluctuations.

dodatak na vozarinu zbog povećanja cijene goriva: Maersk Line has announced a new Bunker Adjustment Factor surcharge, effective from the start of next year, which it claims is aimed at recovering the costs of compliance www.gCaptain.com Maersk Line said it will introduce a new Bunker Adjustment Factor (BAF) surcharge designed to recover costs of compliance with the global 0.5 percent sulphur cap set to enter into force on January 1, 2020. www.gCaptain.com

bunker certificate (=International Convention on Civil Liability for Bunker Oil Pollution Damage, 2001) (n) (environ, mar law, nav arch, safety) Bunker Certificates concern insurance to cover liability for bunker oil pollution damage. svjedodžba o osiguranju od odgovornosti za zdravstvene posljedice onečišćenja brodskim gorivom: The Convention was adopted to ensure that adequate, prompt, and effective compensation is available to persons who suffer damage caused by spills of oil, when carried as fuel in ships' bunkers. https://www.palaureg.com/

bunker cost (n) (shipping econ) troškovi goriva, troškovi za gorivo: Bunker cost constituted about 25% of hire cost in 2000.

Bunker Delivery Note (=BDN) (n) (shipping econ, marine eng) obavijest o isporuci goriva: BDNs were/are the weakest point in the bunker delivery process as the potential for deliberate manipulation of quality and quantity is rife as is the risk for pure error because of an exhausted Chief Engineer and worn out tankerman exchanging the BDN between the rail of a ship to the deck of a barge in the middle of the night and pouring rain.

https://gcaptain.com/blockchain-in-the-marine-bunker-market/ Ensure Bunker delivery note and Fuel Sample is kept onboard. The BDN should be accompanied by a Representative Sample of the fuel delivered – the MARPOL Sample. www.marineinsight.com

bunker detective (n) (marine eng) detektiv bunkera bunker detective survey

pregled od strane bunker detektiva

bunker fuel (n) (marine eng) the term bunker fuel refers to a number of fuel types, including heavy fuel oil (HFO) for large ocean-going vessels, marine gas oil (MGO), marine diesel oil (MDO) and marine fuel oil (MFO). (https://www.speedyfuels.co.uk/guides/bunker-fuel-marine-oil-guide/) gorivo:
Currently all modern commercial ships run on fossil fuels such as MGO (Marine gas oil), MDO (Marine diesel oil), IFO (Intermediate fuel oil), MFO (Marine fuel oil), HFO (Heavy fuel oil) collectively known as bunker fuel. Shipping and Freight Resource <info=shippingandfreightresource.com@send.aweber.com>

bunkering (n) (marine eng, seamanship) krcanje goriva, opskrbljivanje gorivom, bunkeriranje, krcanje bunkera, bunker bunkering facilities oprema za opskrbu gorivom, kapaciteti / uređaji za ukrcaj i iskrcaj goriva, bunkering operations operacija krcanja goriva, proces krcanja goriva: Cleanup is underway off Spain after a containership spilled fuel oil during bunkering operations Tuesday night.

bunkering barge (n) (nav arch) teglenica za opskrbu brodova gorivom: Just after midnight, a bunker barge moored on the starboard side of a bulk carrier at anchor off port limits (OPL), with two lines and a spring forward and aft.

bunkering hose (n) (marine eng) fleksibilna cijev za opskrbu gorivom, cijev za opskrbu gorivom: Have the bunkering hoses been satisfactorily connected ans suspended on ship and supplier? Jesu li crijeva za snabdijevanje sigurno spojene i osigurane između broda i snabdjevača?

bunkering supply pump (n) (marine eng) dobavna pumpa goriva za brod: The bunkering supply pumps must be stopped momentarily at a place close to the manifold on supplier. Mora biti omogućeno trenutno prekidanje rada pumpi s mjesta u blizini manifolda.

bunkers (n) (seamanship) a term referring to fuel used aboard the ship; the quantity of fuel on board a vessel; vessel's fuel and diesel oil supplies gorivo, bunker: The plan was to take bunkers before proceeding to Tacoma, USA. (the name of the term originates from "coal bunkers")

bunker spend (n) (marine eng) izdaci za gorivo: SimBunker optimizes vessels’ bunker spend, which can account for up to 60% of the total voyage costs, by determining optimal solutions for factors such as speed, bunker purchase and route. www.safety4sea.com

bunker surcharge (=B/S) (n) (mar law, shipping econ) Extra charge applied by shipping lines, or set by liner conferences on behalf of their members, to reflect fluctuations in the cost of bunkers. This surcharge is expressed either as an amount per freight ton or as a percentage of the freight. Also referred to as bunker adjustment factor (BAF), or fuel oil surcharge (FOS), or fuel adjustment factor (FAF).

http://www.tkmglobal.net/chartering_B.HTM nadoplahta na vozarinu zbog povećane cijene goriva: Maersk Line Introduces Bunker Fuel Surcharge to Counter Crude Price Rise

http://gCaptain Bunker Adjustment Factor (BAF) surcharge faktor nadoplahta na vozarinu zbog povećanja cijene goriva: The liner operator will introduce a new Bunker Adjustment Factor (BAF) surcharge designed to recover costs of compliance with the global 0.5 percent sulphur cap set to enter into force on January 1, 2020.

bunker tank (n) (marine eng) tank goriva: When lining up for bunkering, confirm that the bunker tank filling valves are fully open according to the bunkering plan.

bunker vessel (n) (nav arch) tanker za opskrbu gorivom: monitoring and residual forward movement of the bunker vessel significantly contributed to the incidents; 3 Inadequate work
planning: The size of the 
**bunker vessel** required more detailed hazard analysis and planning for the mooring operation ... A **bunker vessel** prepares to supply fuel a VLCC supertanker in the waters off Jurong Island in Singapore

**buntline** /ˈbəntlin ; ˈbʌntˌlain/ (=bunt line)  (n)  (sailing/boating/yachting) konopac za oduvijanje i ubiranje jedra oko deblenjaka i križeva; one of the lines attached to the foot of a square sail to haul the sail up to the yard for furling; lines used to handle the sails of a square rigged ship, used in hauling (furling) the foot of the sail up to the yard ubralja, ubralja križnog jedra 

**buoy** /ˈboʊi; USˈbuːi/  (n)  (navig) a floating object of defined shape and color, which is anchored at a given position and serves as an aid to navigation; it can also be used to indicate a laid mooring; A floating object employed as an aid to mariners to mark the navigable limits of channels, their fairways, sunken dangers, isolated rocks, telegraph cables, and the like. (https://www.euronav.com) 
plutača, plovidbena oznaka, bova; Italian: boa: The VTSO replied: “Proceed to buoy No.1. Keep watch all the time. 

**buntline hitch**

a type of knot used to attach a line to a shackle 

**buoy** hitch

**buntline** /ˈbəntlin ; ˈbʌntˌlain/ (=bunt line)  (n)  (sailing/boating/yachting) konopac za oduvijanje i ubiranje jedra oko deblenjaka i križeva; one of the lines attached to the foot of a square sail to haul the sail up to the yard for furling; lines used to handle the sails of a square rigged ship, used in hauling (furling) the foot of the sail up to the yard ubralja, ubralja križnog jedra 

**buoy** /ˈboʊi; USˈbuːi/  (n)  (navig) a floating object of defined shape and color, which is anchored at a given position and serves as an aid to navigation; it can also be used to indicate a laid mooring; A floating object employed as an aid to mariners to mark the navigable limits of channels, their fairways, sunken dangers, isolated rocks, telegraph cables, and the like. buoyed \( /UK\ buːid; US\ ˈbuːid/ \) \textit{(adj)} \textit{označen plutačom}: the principal dangers are buoyed

buoyed fairway \textit{označeni plovidbeni kanal}: The vessel came rapidly on port and got out of the buoyed fairway and entangled the buoy chain with her screw., buoyed channel \textit{označeni plovidbeni kanal, plovidbeni kanal označen plutačama}: As the tanker left the buoyed channel, the second ship was only 4 cables fine off the container ship’s port bow (Figure 8). The ferry was following a buoyed channel to the open sea. [https://safety4sea.com/]

buoyed
buoy laying vessel (n) (nav arch) brod za plutače, brod za postavljanje plutača

buoy mooring (n) (ports) vez na plutači: The port lifeboat had been launched while at a sheltered buoy mooring. I am a mooring Master at an offshore oil terminal and regularly berth large tankers to buoy moorings.

buoy tender (n) (nav arch) radni brod za održavanje plutača: The 180ft ocean-going buoy tender was underway, steaming at 12 knots on the north side of Kodiak Island. https://gCaptain.com

burden; burthen /ˈbɜːrn/ (n) 1 (nav arch) the carrying capacity of a vessel teretni kapacitet broda; 2 (shipping econ) the weight of a ship's cargo težina tereta na brodu full reach and burden the cargo space, which is normally available for cargo, including lawful deck capacity.

sav kapacitet broda za teret, teretni kapacitet broda; 3 (seamanship) napor, opterećenje heavy burden veliko opterećenje (za zapovjednika, časnika, posadu): The pressure and demands of a stressful sea passage preceding the berthing had placed a heavy burden on the master and the officers and may have affected their judgement.

burdened vessel (n) (mar law, navig) = give-way vessel the vessel required by the Rules of the Road to keep clear of another brod koji je dužan izbjegavati, brod koji izbjegava (u izbjegavanju sudara)

burden of proof (n) (mar law) teret dokaza, teret dokazivanja

burden of proving (n) (mar law) teret dokazivanja: The consignee or cargo owner has the
initial burden of proving the physical loss or damage.

**Bureau Veritas** (n) (nav arch) Bureau Veritas S. A. (formerly BVOI, Bureau Veritas Quality International) is an international certification agency. [Registar brodova Bureau Veritas](http://www.bureauveritas.com/wps/wcm/connect/bv_com/Group)

**burn** /ˈbɜːn/ (v) gorjeti, izgarati: The fire burned through all cargo holds forward of the superstructure. **burn through** progorjeti {burn - burnt/burned - burnt/burned}

**burn** /ˈbɜːn/ 1 (safety, med) opekлина: One crew member sustained first-degree burns in the fire. The chief engineer staggered backwards and suffered burns to his right forearm, face and chest. **sustaining burns** dobiti opekline: A crew member has sustained chemical burns and is in need of medical assistance. [https://gcaptain.com/](https://gcaptain.com/), burn injury opekлина: Burn injuries should always be immediately cooled, under clean, cold running water, for at least 10 minutes. , convert burn energy pretvoriti toplinsku energiju: The nozzle acts to convert heat energy in the steam into kinetic energy. ; 2 (marine eng) izgorjeli dio burn hole rupa nastala izgaranjem: Damaged piston crown: A burn hole of about 10 mm diameter was found in no. 6 piston crown, burn damage šteta nastala izgaranjem: The resulting fire caused substantial burn damage to adjacent electrical fittings and paintwork on the deck, vertical surfaces of the bulkhead and a ventilator cowl.

**burner** /ˈbɜːnər/ (marine eng) gorionik, gorač, plamenik pressure jet burner tlačni gorionik, oil-fuel uljni gorionik, naftni gorionik, rotating burner rotacijski gorionik, steam blast jet burner gorionik s raspršivanjem putem vodene pare, burner barrel tijelo gorionika, tijelo plamenika, burner carrier nosač gorionika, burner tip vrh gorionika, vrh plamenika

**burning** /ˈbɜːnɪŋ/ 1 (adj) koji gori, goreći: The vessel was later towed into harbour, still burning and with the main engine running. **burning surface** goreća površina, burning vessel zapaljen brod, brod koji gori: The crew abandoned the burning fishing vessel safely, using the liferaft to transfer to a nearby fishing vessel which had responded to the “Mayday” ; 2 (n) gorenje, vatra smell of burning miris gorenja: There was a smell of burning around the electrical supply breaker panels, and a number of earths were detected, as well as a high temperature bow thruster.
motor alarm.

**burn out** (v) *(marine eng)* **pregorjeti, izgorjeti:** No. 2 blower motor was also burnt out motor puhala br. 2 potpuno je pregorio

**burst** *(v) *(marine eng)* **prsnuti, puknuti, pući (o cijevi), eksplodirati:** Meanwhile the ETO found the defective box which, when opened burst into flames. Forepeak tank vent heads burst and detached from base due to the shock pressure wave generated by the water inside the fully-ballasted forepeak tank.

**burton** *(n) COMPARE block and tackle *(seamanship)* a light tackle having double or single blocks, used to hoist or tighten rigging **manji čekrk, čekrk manje snage**

**Spanish burton** čekrk s tri koloturnika i kukom

6–55. Determine the force $P$ needed to support the 20-kg mass using the *Spanish Burton rig*. Also, what are the reactions at the supporting hooks $A$, $B$, and $C$?

Onboard tests showed that if the **bus bar** frequency dropped from 60Hz to below 58Hz, two of the three generators experienced severe voltage and frequency
oscillations.

**bush** /buʃ/ (n) 1: The rotating gland is held in place by a two-piece clamp ring that is tightly mounted on the tail shaft and is also connected to the bush by means of bolts, maintaining the forward seal gland in position. a (marine eng) ležaj stapnog svornjaka, bukula; Italian:boccola; 2 klipna / stapna očica

**bushing** /buʃɪŋ/ (n) (marine eng) A metallic or synthetic lining for a hole, which reduces or prevents abrasion between components (http://www.marinedieseleurope.com/) tuljac, rupa za osovinicu, bukula control bushing razvodna čahura, cilindar razvodnika

**business account** (n) (shipping econ) poslovni račun (u banci)

**busy ports** (n) (navig) luke s velikim/ gustim prometom: Jebel Ali is a very busy port that deals with a significant number of vessel movements each year.

**busy waters** (n) (shipping econ) prometne vode, vode s gustim prometom: The vessel lost her main propulsion engine in restricted and busy waters.

**butt** /bʌt/ (n) (sailing vessels) a place where two planks or steel plates are joined at the ends without overlapping sučelni spoj, stik, štik planking butts štikovi trenica, flush-welded butt sučeono zavareni vodonepropusni stik

**butt clearance** (n) (marine eng) zračnost krajeva prstena, razmak krajeva prstena, čelni zazor (prstena): In addition, the butt, or end to end, clearance of the rings was excessively large and the rings were poorly spaced around the piston.

**butt dowel** /bʌt, ˈdaʊəl/ (n) (sailing vessels) spojni šip
butterfly head krasta glava (vijka), leptirasta glava (vijka): Is it not possible that within the hatch the Bolt could be fitted with a Butterfly head, in order that the bolt can be released from the inside?

butterfly nut (n) (nav arch) krilasta matica, leptirasta matica

butterfly valve (n) (marine eng) A valve in the venturi unit which controls airflow.

leptirasti ventil
butterworth (n) (seamanship) A washing process used to gas free or clean a cargo tank, employing hot water or chemicals, sprayed through a patented rotating nozzle. **ispiranje tankova, pranje tankova**

Butterworth hatch (n) (nav arch) an opening on the deck of a vessel opened when cleaning or ventilating the tanks **ventilacijsko grotlo, ventilacijsko grotlo tipa**

**Butterworth, ventilacijski otvor:** it had become normal practice to use the portable washers which were passed through open **Butterworth hatches** The accompanying seaman, who opened the tank's

---

Butterworth hatch, was not protected. [http://maritimeaccident.org/tags/jo-eik/](http://maritimeaccident.org/tags/jo-eik/)

**Butterworth hose** (n) (cargo handling) water discharge hoses designed and manufactured for the tank cleaning operations **gumena cijev u sustavu pranja tankova tipa**

**Butterworth:** Connect two **Butterworth hoses** to Y piece in front of valve BG... and Fire Main Line. The function of a Tank Cleaning **Butterworth Hose** is to transport water or a cleaning solution from a water source such as pump or hydrant to the inlet of a portable tank cleaning machine

---

**Butterworth machine** (n) (cargo handling, nav arch) **stroj za pranje tankova tipa**

**Butterworth**

**butt joint** (n) (nav arch) **spoj dviju trenica (madira) po dužini, spoj na sljub, spoj na stik:** Hence, fillet joints are susceptible, whereas **butt joints** never have this problem.
buttock /ˈbʌtək/ (=buttocks) (n) (nav arch) presjek brodskoga oblika ravninom usporednom s uzdužnom simetričnom ravninom; The curves shown by taking a vertical longitudinal section of the after part of a ship’s hull, parallel to the keel. [https://officerofthewatch.com/tools/maritime-dictionary/uzdužnica broda (vertikala), uzdužnice broda, uzdužna vodoravna ploha broda, uzdužna ravnina, uzdužne ravnine broda buttck lines] The curves shown by taking vertical longitudinal sections of the after part of a ship’s hull parallel to the ship’s keel. [https://www.history.navy.mil/] uzdužne linije broda

buttress (n) 1 (nav arch) potporni stup (rebro), oslonac, potporan; 2 (cargo handling) lateral supports acting between the container stacks and the ship’s structure bočni potpornji za vezivanje kontejnera za strukturu broda buttress system (n) (cargo handling) on large container ships - a system of large towers (bird cages) attached to the ship at both ends of each cargo hold, esp. deck cell guides on the stern; sustav palubnih vodilica za vezivanje i pričvršćivanje kontejnera, sustav vezivanja i pričvršćivanja kontejnera na brodu butt seams (n) (sailing vessels) štikovi trenica
butt sewing (n) (nav arch, seamanship) odvajanje trenica radi šuperenja (kalafatanja
butt strap (n) (nav arch) stičnica
butt welding (n) (nav arch) čelno zavarivanje but joint welding stično

zavarivanje čelno zavarivanje

lovear.live/product_details/80382626.html

buyer /ˈbaɪər/ (n) = purchaser (shipping econ, mar law) kupac

BWAD (=Brackish Water Arrival Draft) (n) (nav arch, navig) gaz u boćatoj vodi
dolasku pri dolasku broda

BWT system (=Ballast Water Treatment System) (n) (environ) sustav

obrade balastnih voda: Fit your own BWT systems while in operation, without the need for
dry-docking? Is that possible https://www.trojanmarinex.com/systems/
A typical ballast water treatment system on board ships use two or more technologies together to ensure that the treated ballast water is of
IMO standards. The SKID BWT systems can treat flow-rates from 10 to 2000 m3/h per ballast pump
The Modular BWT system can treat flow-rates from 10 to 2000 m3/h per ballast pump.
Simple BWT systems should require the minimum of maintenance and servicing. https://optimarin.com/2018/08/31/the-joy-of-six/
by and large (prep phr) (sailing/boating/yachting) sailing somewhat off the wind (about five to seven points off) jedriti blago od vjetra
bycatch (n) (fishing) Fishermen sometimes catch and discard animals they do not want, cannot sell, or are not allowed to keep. This is collectively known as “bycatch.” (https://www.fisheries.noaa.gov/); discarded catch of marine species and unobserved mortality due to a direct encounter with fishing vessels and gear (https://www.fisheries.noaa.gov/) usputni ulov, neželjeni ulov: Bycatch can be fish, but also includes other animals such as dolphins, whales, sea turtles, and seabirds that become hooked or entangled in fishing gear. (https://www.fisheries.noaa.gov/) Bycatch of non-target fish can contribute to overfishing and slow efforts to rebuild fish stocks. Bycatch of non-target fish can contribute to overfishing and slow efforts to rebuild fish stocks. release of bycatch ispuštanje usputnog lova
bye-laws /ˈbai loːz/ (n) 1 (mar law) a lokalni propisi: Appropriate Byelaws, Regulations and directions for navigating in the Pilotage district; 2 (mar law) statut ( tvrtke, trgovačkog društva)
by-pass /ˈbaipaːs/ (n) by-pass valve cirkulacijski ventil, ventil za rasterećenje (marine eng) mimovod, obilaženje, bajpas, odvod
by-pass /ˈbaipaːs/ (v) obilaziti, odvoditi, voditi mimo, mimoilaziti, bajpasirati
by the board (prep phr) (seamanship) overboard; any items gone overboard preko palube, u stranu broda
by the head (prep phr) 1 (seamanship) deeper forward (front end deepest in water) ispred pramca; 2 (seamanship) duboko na pramcu; 3 (seamanship) pretežan brod
by the lee (prep phr) (sailing/boating/yachting) skretanje od vjetra pri jedrenju u krmu (opasnost pri kruženju in prebacivanju delenjaka)
by the mark (prep phr) (seamanship) lanac (u moru) do oznake
by the stern (n) (stabil, seamanship) ANTONYM by the head zatežan brod (krm u tonjena više od pramca)
by the wind (prep phr) (sailing/boating/yachting) u vjetar, oštro u vjetar
C /Celsius, centigrade; carbon/ 1 (meteorol) Celzij, Celzijev stupanj; 2 (chem) ugljik (Celsius, Centigrade; Carbon)
cabin (n) (nav arch) the interior living space of a vessel kabina, mornarska kabina:
Immersion suits must be provided for each member of the crew and be kept in each Seaman’s cabin. The master was in his cabin and the other watch AB was on stand-by in the crew mess room, both were easy to call through the ship’s intercom.
cabin: (n) (nav arch) zatvorena putnička paluba (traejekta, putničkog broda): The upper deck cabin seats 116, with a bathroom for passengers and a dedicated bathroom for crew located forward. https://GCaptain.com open deck otvorena paluba
cabin boy (n) (seamanship) mladić sobe, mali od kamare
cabin cruiser (n) (sailing/boating/yachting, nav arch) motor boat with cabin and berths
motorna brodica s kabinom, krstaš (manji): Life is good on a cabin cruiser. Creature comforts include a galley or kitchen, a head or toilet, and one or more berths or sleeping areas. Don’t be surprised to find air conditioning, heating, hot water, electrical power from a generator, and a hookup for quick access to shore http://www.discoverboating.com/buying/boat/cabin-
cruisers

cabin sole (n) (sailing/boating/yachting) the floor of a cabin pod kabine (jedrilice)
cable /ˈkeɪbl/ (n) (ship’s equipment) = chain cable A chain or line (rope) bent to the anchor.
sidreni lanac: Own vessel’s Master ordered the anchor party forward and by slacking away the anchor cable a collision was avoided. The port anchor was then let go using a similar amount of cable as before, but when applying the brake, the windlass catastrophically failed.
cable (seamanship, ship’s equipment) originally, a thick strong rope or wire uže (za

privezivanje in tegljenje, obično deblje)
cable (navig) a measure of length or distance - equivalent to (UK) 1/10 nautical mile, approx. 600 feet; (USA) 120 fathoms, 720 feet (219 m) (archaic use) kabel (1/10 nm = 185,2 m): The other ship was now at a distance of some 3 cables and approaching at speed on the port side With the vessels now about seven cables apart, he contacted the ferry via VHF and proposed that they should pass starboard to starboard. The pilot left the vessel about six cables before the normal pilotage disembarkation point. The vessels were now about seven cables apart VTS instructed the vessel to drop anchor N-5 anchorage with
keeping 4 cables distance to other vessels. (https://safety4sea.com/)
cable  (electr) električni kabel: The power cable for the grinders was deployed across the deck, which was about two metres above sea level. Damage to cable insulation and fittings - speedy actions by the crew were commendable. Lessons Learned * Steel braiding on electrical cable is required to be ‘earthed’ at both ends for safety reasons. cable armour kabelska armatura, kabelska zaštitita, cable gland kabelska uvodnica, cable insulation izolacija električnog kabela: This caused an electrical short, resulting in sparking and leading to high temperatures which caused damage to the cable insulation and fittings., supply cable dovodni kabel, opskrbni kabel: Early in the morning, the crew noticed that one of the distribution boxes appeared to be live, and that the terminals on the shore supply cable were not insulated, were bundled together and were hanging close to a metal grating above the deck., electrical cable električni kabel: The heavy electrical cable was led parallel to the shore gangway that was hooked on to the ship’s side bulwark on the main deck.
cable  (comm) telegram
cable /ˈkeɪbl/ (v) (comm) send a telegram poslati telegram, telegrafirati
cable connection (n) (electr) kabelski spoj, kabelski priključak: Never begin an exercise without first checking that all bolts are tight, cables are not frayed, cable connections are secure, rack pins are securely in position, ...
cable crossing (n) (seamanship) ukrižani konopi, ukrižana užad
cable gland (n) (electr) kabelska uvodnica: The proximity switch was incorrectly fitted with its cable entry gland higher than the switch body thereby increasing the possibility of water ingress.
cable laid (n) (seamanship) konop sukan u devet strukova (3 x 3 struka)
cable layer (n) (nav arch) polagač kablova
cable-laying ship (n) (nav arch) brod za polaganje kablova, polagač kablova: A 10 year old cable laying vessel was heading for dry dock with a pilot on board.
cable-length 100 fathoms or 600 feet dužina lanca od 600 stopa (182,88 m) (6 feet to a fathom)
cable lifter (n) (seamanship, nav arch) = wildcat podigač lanca, nazupčani bubanj sidrenog vitla, barbotin, Italian:barbotin; ruota ad impronte
cable mark (n) (seamanship) oznaka lanca, mjerilo lanca
cable party (n) (seamanship) in large ships, a group of hands (sailors) needed forward to handle the chain cable or mooring ropes grupa za sidrenje
cable ship (n=CS) (nav arch) a ship specially designed to install and repair telecommunications cables laid on the seabed

brot za polaganje kabela
cable sleeve (n= (sailing/boating/yachting) završetak konopa, stezaljka užeta tipa norseman
cable stopper (n= (nav arch) štoper sidrenog lanca: On the forecastle, the bosun proceeded to show a newly-joined deck officer the features of the 'guillotine'-type anchor cable stopper bar arrangement.
cable termination (n= (electr) kabelska stezaljka, kabelski priključak, klema: It was also observed that the cable terminations within the socket were loose and there was poor contact within the multiple outlets of the adaptor.
cabling agent (n= (mar law, US) agent koji skuplja informacija i prijenos obavijesti bitnih za ugovore o iskorištavanju brodova agent posrednik (u SAD)
caboose /ˈkæbəs/ (n= 1 (nav arch) a deckhouse for a galley aboard ship (archaic use) grotlo brodske kuhinje; 2 (sailing/boating/yachting) any odd corner used as a store privremeno spremište (na starim brodovima)
cabotage /ˈkæbətɪdʒ/ (n= (mar law) = coastal service shipment and sea transport of cargo between coastal ports of one state; Government restrictions reserving domestic transportation (between points within the country) to domestically registered carrier’s.

mala obalna plovidba, kabotaža, obalna plovidba: Cabotage is often governed by statutes, requiring, for example, that only ships flying the flag of the coastal state concerned may engage in the coasting trade between ports of that state, unless waivers are obtained from the government of the state. cabotage restrictions ograničenja na maloj obalnoj plovidbi, kabotažna
ograničenja: The bill proposes that 10% of US crude oil exports should be carried by US ships after 2032. The cabotage restrictions as proposed in the new bill are more usually applied to coastal routes and services or intra-national ones. They are rarer for deep-sea international shipping. Splash24/7 <splash=asiashippingmedia.com@mail245.suw101.mcdlv.net>, relax / ease cabotage laws

omekšati / olalšati zakonske propise o kabotaži: India relaxes cabotage laws. The government has decreed that foreign boxlines will now be allowed to tranship at Indian ports as well as reposition empty containers. Splash24/7 <splash=asiashippingmedia.com@mail245.suw101.mcdlv.net> {today, any coastal navigation, irrespective of the ship’s flag}

CAD (=Computer-aided design) (n= (nav arch, marine eng) the use of computers (or workstations) to aid in the creation, modification, analysis, or optimization of a design

projektiranje s pomoću računala, računalom podržano projektiranje

CAD CAM (n= (nav arch) The goals of CAD/CAM software in shipbuilding: supporting innovative designs and facilitating production; software for the complete definition of a virtual 3D model of the ship and for extracting the production/manufacturing information, including the hull forms generation, GA, NAC, hull structure, machinery and outfitting, electrical design and production outputs.

softver: In ship building industry, CNC and CAM are mostly applied to NC cutting and manufacturing of propeller and prototype ship model. Nowadays, 3D CAD/CAM software packages are the main tools in any shipyard or design office in the marine industry.

products are particularly effective in designing everything from components to entire vessels, the trends is toward comprehensive systems that allows ship designers, builders and owners to integrate design, trial and "cost crunch" a vessel before steel is even purchased. https://www.marinelink.com/article/shipbuilding/mapping-the-future-design-693 CAD/CAM/CAE programs are invaluable assets to the designer, builder and operator of vessels of all sizes and dimensions. Not only do advanced programs allow for the creation of an efficient and cost effective ship structure and outfitting, they provide for enhanced manufacturing practices and techniques, and increasingly help devise a life-cycle maintenance and care plan which can tack profitable years onto a vessel's life. https://www.marinelink.com/article/shipbuilding/mapping-the-future-design-693 Building procedures, block subdivision, subcontracting, all can be simulated, visualized and tested with the 4-D Product Model even before the shipbuilding contract is signed. https://www.marinelink.com/article/shipbuilding/mapping-the-future-design-693

cadet /ˈkædət/ (n) 1 (mar law) COMPARE apprentice kadet, vježbenik: The OOW was accompanied on the bridge by a cadet and a lookout. My seafaring adventures started in 1984 with ..... where I progressed from cadet to master specialising in petro-chemicals. Captain ... commenced his sea-going career with ..... of Leith, working on .... Line steamers as cadet and second officer between 1972 and 1979. The new crew strategy will result in the significant reduction of cadets recruited from such countries as .... navigating cadet kadet, vježbenik palube: He started as a Navigating Cadet with BP Tanker Company in 1971 serving in crude and product tankers worldwide. engineering cadet asistent stroja, vježbenik stroja: An oiler and an engineering officer cadet were assigned to sound the bunker tanks. dual cadet polivalentni kadet, kadet palube i stroja, deck cadet kadet palube, engine cadet vježbenik stroja, asistent stroja: In order to prime the pump, the Third Engineer instructed the Engine Cadet to open the lubricating oil storage tank valve. progress from cadet to napredovati od kadeta do ...: His seafaring career started in 1981 with ... where he progressed from cadet to master specialising in petro-chemicals. oversee the cadet nadzirati kadeta: To facilitate their training, the chief officer was overseeing one cadet who was taking charge of the lifeboat drill, while the second mate was overseeing the other cadet who was taking charge of a fire drill.; 2 (navy) kadet na ratnom brodu; 3 (mar law, UK, US) student visoke pomorske škole (akademije), student više pomorske škole (akademije), polaznik obrazovnog programa za pomorske časnike (nuatičare ili strojare): As the vessel approached the Varne Bank the deck cadet became aware of flashing white lights ahead but he did not identify the lights or report the sighting to the OOW. (In English usage (UK, US, etc.) the term 'cadet' refers to both 'navigating' and 'engineering' cadets whereas in Croatian the corresponding term Kadet (=cadet) only refers to 'navigating cadets'. The word for 'engineering cadet' is 'asistent stroja' or 'vježbenik stroja'.}

cadetship /ˈkædetʃɪp/ (n) 1 (mar law) an officer cadet training programme kadetura, studijski program za pomorske časnike, školovanje prije stjecanja pomorskog časničkog zvania: A cadetship is a great pathway to a career in fields such as marine engineering, navigation, surveying, horticulture and even IT. deck cadetships studijski programi za časnika palube: All UK officer cadet training programmes (deck cadetships) are financed or sponsored by a number of shipping companies and maritime recruitment specialists, in order to complete the sea time elements of the training programme. Anyone wishing to undertake an officer cadetship should apply directly to the shipping companies and their representatives, not to Warsash or UCAS., engineering cadetships studijski programi za brodostrojarske časnike; 2 čin kadeta navigating cadetship vježbenik palube, kadet,
engineering cadet: vježbenik stroja, asistent stroja
CAF (Currency Adjustment Factor) (n) (logist, mar law, shipping econ) naknada za promjenu tečaja valute, faktor promjene tečaja valute

cage /keidʒ/ (n) (marine eng) A housing in which a bearing's rolling elements are held.

kavez, kućište exhaust valve cage skidljivo kućište ispušnog ventila

cago claim (n) (mar law, shipping econ) zahtjev za naknadu štete na teretu

caique /'kaɪk/ originally, a light boat or skiff propelled by one or two oars (used in Turkish waters, the Bosporus); Later, a small Levantine sailing boat with a lateen rig lagana brodica na vesla, lagani čamac na vesla, kaić, today, a small sailing or motor boats plying between the East mediterranean ports and islands (brodica u Bosporskom tjesnacu)

caisson /'keiəsn/ (n) A watertight structure used for raising sunken vessels by means of compressed air. Also the floating gate to close the entrance to a drydock. (https://www.history.navy.mil/) keson

calamari /'kæləmaːri/ (n) (fishing) lignja, liganj

calandraca (n) (seamanship) vrsta brodske hrane - gulaš od krumpira, lučka i slane govedine; žgvacet kalandraka

calculation (n) proračun, izračun: The calculation proved that the vessel was loaded precisely to her summer permitted draft and we were then able to complete the matter amicably. A revised stability calculation showed that after loading the containers on the hatch covers, the vessel would fail to meet Solas minimum stability criteria.

CALDOVREP (n) (navig, comm) CALDOVREP is a mandatory reporting system for vessels transiting the Dover Strait CALDOVREP, Sustav javljanja brodova u Doverskom tjesncu

calibrated /'kæliˌbreɪtid/ (n) (marine eng) kalibriran

calibration /'kæliˈbreɪʃən/ (n) (marine eng) kalibracija: During the post-fire sea trial, the technician for the CPP equipment had made an error in adjusting the astern pitch calibration settings; astern movements were not tested at the time except during a crash stop test. calibration tables tables that represent volumes in each tank according to the liquid (innage) or empty space (ullage) measured in the tank. The tables are entered with linear measurements (for example, feet, inches, meters, centimeters) to obtain calibrated volumes (for example, barrels, cubic meters or cubic feet). (www.euronav.com) kalibracijske tablice

caliper /'kælɪpər/ (n) (marine eng) a tool for measuring diameter. šubler, precizni mjerni alat (za promjer itd.), kaliper

call (n) (safety) a radio transmission (usually on VHF) calling another ship or a station ashore poziv: This call alerted the coastguard, who then monitored their AIS display and observed that the vessel was less than 2 miles from the shore. A call from the MRSC/VTS Centre informed her that she was running into danger. make a call pozvati: He sat on the footrest of the port bridge chair to make the call and, as a consequence, his view through the wheelhouse window was considerably restricted. be on call odazvati se, biti spreman, put out a radio call poslati poziv radijom, pozvati putem radija, acknowledge the call potvrditi poziv, potvrditi primitak poziva: The cargo vessel acknowledged the call and replied that they would maintain
course and speed and pass ahead of the tug and barge., VHF radio call poziv VHF-radijom, poziv putem VHF-a: He finished talking to the master 5 minutes later, and then proceeded to fix the vessel’s position before making a routine VHF radio call. When the vessels were approximately 10 nm from each other, the vessel received a VHF radio call from the cargo vessel requesting that the former alter course so that the cargo vessel could stand on., answer the call odgovoriti na poziv: He quickly proceeded towards the engine control room to answer the call., send a MAYDAY call poslati poziv u pogiblji, poslati poziv MAYDAY: The remaining crewman on board also attempted to send a “Mayday” call, but realised the yacht’s VHF set had failed., make a PAN PAN call poslati poziv o žurnosti: The skipper was unable to determine the cause of the flooding so he made a “Pan Pan” call by VHF radio, to which the coastguard responded., DSC call poziv za pomoć putem sustava DSC (Digital Selective Callin): son is believed to be at risk but not (yet) in distress; You could call the coastguard (if there is time) and ask them to put out a direct DSC call (if the name of the vessel can be ascertained), or ask the coastguard to make a DSC Securité or Pan broadcast on the vessel’s behalf., distress call poziv za pomoć u pogiblji, poziv za pomoć u opasnosti: Always use the DSC to raise a distress call. I broadcast a distress call on International channels 16 and 74, and also on our company frequency for a period of 3 minutes., SECURITE call poziv s oznakom SECURITE: ... vessels entering and crossing the TSS in the Singapore area are required to make a Securité call on the appropriate VTIS channel and/or channel 16, informing vessels in the immediate vicinity of their intentions., attempt to call pokušati nazvati: The mate attempted to call the cruise ship a further five times over the next 30 minutes ..., call the Master pozvati zapovjednika (da dođe odmah na zapovjednički most): Within 1 minute of being called by the 2/O, the master and chief engineer arrived on the bridge.
call (n) (ports) the visit of a vessel to a port for the purpose of loading or discharging the cargo.
ticanje, pristajanje u luci: Regular calls are made by all major ro-ro ship owners, with services to the Middle East, the Far East, Australasia, the Mediterranean, USA, Africa, Continental Europe and the Baltic states. make a call a a port pristati u luci, ticati luku: 18,000-TEU container ship CMA CGM Benjamin Franklin will make its first U.S. call at the Port of Los Angeles in late December.
call (n) (mar ins) premija P&I osiguranja, godišnja premija osiguranja broda u P&I osiguranja: Before the policy year is finally closed, the club can decide to cover the claims and to charge an Additional Supplementary Call. An Estimated Total Call is calculated for any given ship.
call (v) 1 (comm) pozvati: When the overtaking ship was about 7 cables astern, the OOW tried to call her by VHF radio.; 2 (navig) nazvati: At midnight, the master left instructions for the chief officer to call him 30 minutes before pilot embarkation. The master’s night orders instructed the bridge watchkeeping officers to call him if they required his assistance.
call at (v) 1 (shipping econ) ticati luku: We called at the port of Neaples on the way to Algeciras. The world’s biggest shipping company, Maersk Line, and its affiliated shipping services, SeaLand and Safmarine, has agreed to continue to call at the Port of Houston after APM Terminals, a unit of Maersk Group, said it was permanently terminating its operations there. This ship, a Panamax Bulk Carrier, regularly calls at this port to load coal. The maritime authority has banned the ship from calling at the port of ... https://splash247.com/; 2 pristajati u luci: The master was allowed to call at the port again after submitting an undertaking that he would attend an enquiry ... The CMA CGM Group is pleased to announce that the CMA CGM MARCO POLO, the world’s largest containership, calls today, Wednesday.
19th December, at the Terminal de France in Le Havre, France
call by VHF radio (v) (comm, navig) nazvati putem VHF radija, nazvati VHF radijom
call for (v) call for tug assistance pozvati pomoć tegljače tražiti, zahtijevati,
iziskivati: The advice to yachtsmen is to ensure you have the equipment necessary to call for help and to survive in the water.
call format (n) (safety, comm) format poziva (u pomoć u pogiblji): The distress relay on behalf of a mobile unit in distress shall be sent in a form using either a distress call relay by radiotelephony, an individually addressed distress alert relay by DSC, or a distress priority message through a ship earth station. (ITU-R)
call for tender (n) (shipping econ) javni natječaj, raspis za ponude, poziv za dostavljanje ponuda call for tender documents poziv za dostavljanje natječajne dokumentacije
call into a port (v) (shipping econ) ticati luku, pristajati u luci: The ship normally calls into the Port of Rijeka nine times per year.
call on VHF radio (v) (navig) nazvati putem VHF radija, zvati VHF radijom: I made a brief call on VHF and the OOW of the other ship promised to keep well clear. The pilot on vessel A called vessel B on the VHF and asked to pass green to green, which an officer on vessel B agreed upon. www.safety4sea.com
callout (n) (mar law) izvanredni poziv na dužnost, poziv pomorcu za dolazak na dužnost izvan normalnog radnog vremena
call out (v) (safety, comm) izreći naglas, viknuti: If you detect a fire or smell fumes or smoke act immediately as follows: Call out Fire! The helmsman is to repeat the order and call out the compass heading on receiving the order. He was passing close to a boat on an adjacent mooring and managed to hold onto its mooring chain long enough to call out for help.
calls (n) (mar law) plaćanje doprinosa (u generalnoj havariji)
call sign (n) (comm) a code published by the International Telecommunication Union in its annual List of Ships' Stations to be used for the information interchange between vessels, port authorities and other relevant participants in international trade (http://www.iss-shipping.com/cargo/cargo_library_glossaryc.asp) pozivni znak: AIS can also assist in the identification of targets, by name or call sign and by ship type and navigational status. When the nearer one was little over six miles away, I heard a call from one of them, - no name or call sign, just a GPS latitude and longitude to four places of decimals, calling the ship on my starboard bow.
call system (n) (comm, safety) pozivni uređaj hospital call system pozivni uređaj bolnice, refrigerated chambers call system pozivni uređaj rashladnoga spremišta, steward call system pozivni uređaj za poslugu
call via VHF radio (v) (comm, navig) nazvati putem VHF radija, nazvati VHF radijom: As the tanker turned to starboard, the coastguard watch officer called the bulkcarrier via VHF radio, channel 11.
calm /kaːm/ (n) (meteol) tišina, bonaca; Italian: bonaccia calm sea zrcalno more, calm weather mirno more: Rescue crews are awaiting calmer weather and daylight before the ship will be towed to the Port of Rotterdam. https://gcaptain.com/
calve /ˈkæv/ (v) (oceanogr) rascijepiti se (o ledenoj santi), odlomiti se (o ledenoj santi): The iceberg that is set to break off Antarctica’s shelf could calve within HOURS, experts warn. http://www.dailymail.co.uk/sciencetech/article-4647956/Iceberg-set-break-Antarctica-calve.html

CAM (=computer-aided manufacturing; computer-aided modeling; computer-aided machining) (n) (nav arch) računalom podržana proizvodnja, izrada, modeliranje, obrada materijala

cam /kæm/ (n) (marine eng, seamanship) brijeg (razvodne osovine), ekscentar, kvrga, grba: One of the items requiring particular attention from the crew is the cam, which moves the latch to release the hook. cam follower (marine eng) vodilica brijega (kvrga, grbe), set of cams (marine eng) red brjegova (kvrga, ekscentara), separate cam (marine eng) odvojeno izrađena kvrga (brijeg) navučena na razvodno vreteno, locking cam (seamanship) zaporna kvrga, zaporni jezičac, zaporni ekscentar: It is likely that the forward hook and locking cam were not engaged correctly when the lifeboat was recovered after launch during the last annual inspection;, operating cam (seamanship) pokretački ekscentar, kvrga za pokretanje (sklopke): Further examination found that the switch’s operating cam had been modified several years previously., integral cam (marine eng) kvrga (brijeg) u sustavu osovine

camber /ˈkæmbər/ (=round of the beam) (n) 1 (nav arch) The arching of the deck upward measured at the centerline in inches per foot beam. (www.euronav.com); poprečna zakrivljenost palube preluk, poprječno povišenje palube od bokova prema sredini broda; 2 (sailing/boating/yachting) SEE chord truh jedra

cam cleat /ˈkæm,klɪt/ (n) (sailing/boating/yachting) COMPARE clam cleat cleat for securing a rope by means of a cam stoper (užeta na jedrilici), patentna hvataljka,

camshaft /ˈkæmʃaːft/ (n) (marine eng) bregasta osovina, razvodna osovina, razdjelna osovina (vreteno) camshaft drive pogon bregaste osovine, prijenosnik bregaste osovine: There is an integral forged coupling flange for the flywheel, and the camshaft drive gear is split to facilitate replacement.

canal /ˈkænəl/ (n) (geogr) COMPARE channel an artificial waterway dredged and constructed to carry commercial vessels kanal (umjetni): The ship was bound for the Suez Canal.
and subsequently the Far East. A sufficient number of tugs should be made available along the canal at strategic places to assist large vessels regardless of the traffic situation and delays. **canal bank** obala kanala, strana kanala: . . close to the bank he picked up the mooring rope, a mooring spike, and the mallet and attempted to step across the gap between the stern and the canal bank., **canal boat** pomoćna brodica za plovidbu kanalom: Ensure you hire a canal boat that is suitable for your party., **canal convoy** konvoj brodova u kanalu: wrecked gangway On a pleasant evening in the 1980s, our large LPG carrier was 12 hours away from Port Said, and scheduled to join the southbound Suez Canal convoy the next day., **canal pilot** kanalski peljar, peljar u kanalu: Upon consultation with own ship's canal pilot, he confirmed that he had agreed with his colleague on the other vessel to pass port to port – which was the logical action. We had rigged the starboard accommodation ladder to facilitate the transfer of immigration, customs personnel, agents, ship chandlers etc and to embark canal pilots., **canal transit** prolaz kanalom, plovidba kanalom: Arriving for a canal transit, the vessel had rigged the starboard accommodation ladder to facilitate the transfer of immigration, customs personnel, agents, ship, chancellor etc and to embark canal pilots., **canal curve** zavoj u kanalu: At the canal curve, the ship met the downbound bulk carrier.

https://safety4sea.com/

**canal due(s)** (n) (mar law) kanalske dadžbine, dadžbine za prolaz kanalom
Suez canal due dadžbine za prolaz Sueskim kanalom, Suez Canal Net Tonnage Certificate svjedodžba klasifikacijskog društva o neto tonaži broda za prolaz Sueskim kanalom: The Suez Canal Net Tonnage Certificate can be obtained from any class society. The SCNT is measured every time the vessel transits the Canal. The SCNT is close to the vessels International Gross Tonnage SCNT is roughly half the vessel's deadweight

Canal Transit Dues /ˈkænəl/ (n) (shipping econ) Charge levied by a canal authority, such as that for the Suez Canal, for transiting. This charge is based on the ship's tonnage.

http://www.tkmglobal.net/chartering_C.HTM pristojbe za prolaz kanalom, naknada za prolaz kanalom

**can buoy** /ˈkænə/ (=can) (n) (navig) A navigational buoy, cylindrical in shape, that marks the port side of a channel form seaward; painted green and odd numbered.

(https://www.quarterdeck.org/index.html) ; nun; a floating aid to navigation having a flat top valjkasta plutača, cilindrična plutača

**cancel** /ˈkænsəl/ (v) 1 (mar law, shipping econ) ukinuti; 2 (mar law) brisati (iz upisnika); 3 (mar law) raskinuti (ugovor, čarter); 4 (shipping econ) otkazati, prekinuti, obustaviti: cancel the alarm otkazati alarm. otkazati uzbunu: The watchkeeping officer cancelled the alarm. The chief mate was too busy completing ISM papers, entering details in the Log Book and continuously having to cancel various GMDSS alarms.

**cancelling clause** (n) (mar law, shipping econ) The cancelling date is the final layday and the date beyond which, if the chartered vessel has not been presented for loading, the charterers may reject her and cancel the charter. (http://generalcargoship.com/charter-party-laycan.html) ; a voyage charter party clause providing that if the vessel is not ready to load by a certain date, agreed between the parties, then charterers have the option to cancel. Sometimes before the cancelling date it becomes clear that it is impossible for the vessel to arrive at the load port in time. brisovna klauzula, zadnji dan stojnica
cancelling date (=cancelling day) (n) 1 (mar law) A term used in a voyage charterparty, referring to the period of time between the commencement of laytime (being the beginning of the lay days when the charterer must commence loading the cargo), and the cancelling date (being the date after which the charterer may repudiate the charterparty if the ship has not then arrived at the specified port or place of loading).

A term used in a voyage charterparty, referring to the period of time between the commencement of laytime (being the beginning of the lay days when the charterer must commence loading the cargo), and the cancelling date (being the date after which the charterer may repudiate the charterparty if the ship has not then arrived at the specified port or place of loading).

Pravo naručitelja prijevoza da raskine ugovor o prijevozu ako brodar ne osigura da brod bude spreman na ukrcaj/skrcaj u vrijeme predviđeno ugovorom (o iskorištavanju broda na putovanje; voyage charter party) dan obustave stojnica, dan brisanja vremena stojnica: Cancelling Date - The fixing of a cancelling date in the charterparty merely gives warning to the shipowner that non-arrival by the cancelling date may go to the root of the contract ... The Vessel will not be ready to load by the cancelling date. The last day of laydays is the cancelling day. The cancelling date (Box 21, clause 9) defines the other end of this period known as the “laydays” after which the Charterers have the option to cancel the charter party if the ship has still not presented herself for loading.; 2 (mar law) Last date, agreed in a voyage Charter-Party or time Charter-Party, by which a ship must be available to the charterer at the agreed place at the commencement of the contract. If the ship is not available by that date, the charterer may have the option to cancel the charter under certain circumstances and clauses of the Charter Party.

can hook (n) (cargo handling) kukice (kliješta) za bačve

canoe /ˈkænuː/ (n) (sailing/boating/yachting) a light-weight narrow double ended boat, usually fabric stretched over a frame, and propelled by paddles kanu

canopy /ˈkænəpi/ (n) (nav arch, seamanship) tenda

cant /kænt/ (n) (navig, seamanship) kosi kut (broda prema lučkoj obali), koso približavanje / udaljavanje (broda u odnosu na obalu): The vessel then started into a slow starboard cant towards the knuckle, at which point I returned to the wheelhouse and asked the Master for more port thrust – which he acknowledged. The rate of cant to starboard then increased and at this point I observed the Bow Thrust controls were set for starboard thrust.

cant /kænt/ (v) 1 (navig, seamanship) to turn anything so that it does not stand square to a given object. https://officerofthewatch.com/tools/maritime-dictionary/ držati brod koso (prema obali), držati brod koso (prema obali / od obale): Soon, with the ship’s bow canting about 80° away from the wharf, it was realised the swing to port was bringing the stern rapidly towards the wharf. I advised the Master to cant easy to port.; 2 (sailing/boating/yachting) nagnuti se: The yacht was resting on the beach, its deck canted to one side.

cant /kænt/ (n) (nav arch) an inclination of an object (e.g. ship) from a perpendicular nagib, inklinacija

cant /kænt/ (n) (nav arch) krmena obлина

cant /kænt/ (n) (cargo) trupac koji je rezan u obliku ploče po dužini tako da konačni tanki dio ima dvije suprotne paralelno ravne strane, a u nekim slučajevima i treću stranu koja je također izrezana
can't beam
canting keel

cant beam  (n) (nav arch) radijalna sponja
canted keel  (n) (sailing/boating/yachting) kosa koblica (jedrilice IMOCA klase):
The boat shall right itself from 180 degrees of heel when the keel is canted. IMOCA Class Rule 2021
https://www.owenclarkedesign.com/IMOCA_60_design_power_and_performance
can test  (n) (stabil, safety) test (sadržaja vlage) s pomoću kantice: the master
should carry out his/her own inspection (of moisture content) using the “can test”. Examining the results
for free moisture or fluid won’t definitively show that the moisture content of the cargo is less than the
cant floor  (n) (sailing vessels) krmena rebrenica
cant frame  (n) 1 (nav arch) radijalno rebro; 2 (sailing vessels) a frame such as stern frame
which is not square to the keel lin krmeno koso rebro; 3 (sailing vessels) koso rebro
krme, rebro krmene obline
cantilever  /ˈkæntɪliːvər/  (n) (nav arch) a projecting beam supported only at one end konzolna
sponja
cantilever beam  (n) (nav arch) konzolna sponja
canting keel  (n) (sailing/boating/yachting) nagibna koblica
canting system \( (n) \) \( \textit{mechanical} \) \( \textit{sailing/boating/yachting} \) \( \) uređaj za nagibanje kobilice

hydraulic canting system \( \) hidraulički sustav nagibanja kobilice

cant the keel \( (v) \) \( \textit{sailing/boating/yachting} \) nagnuti kobilicu jedrilice (u lijevu ili desnu stranu), promijeniti kut nagiba kobilice: The keel can be canted 38 degrees to both sides.

canvas /ˈkænvəs/ \( n \) 1 (seamanship) a material made of cotton etc. used for making sails platno (za jedra); 2 (sailing/boating/yachting) all the sails of a ship komplet jedara (jedrenjaka), sva jedra; 3 (seamanship) platnena zaštita, platnena ovojnica: One seaman placed a securing wire through the starboard anchor cable, while the other two, on the starboard winch platform, were lashing canvas covers around the mooring wires.

canvas cowl /ˈkænvəs,kaʊl/ \( n \) (nav arch) platnena vjetrolovka

canvassing /ˈkænvəsɪŋ/ \( n \) (mar law) akvizicija tereta

canvas sling \( n \) (cargo handling) platneni pasac

canvaswork \( n \) (sailing/boating/yachting) radovi na platnenim dijelovima (tende, jedra, bimini, vreće, itd.)

CAP (=central alerting post) \( n \) (safety, comm) središnje mjesto uzbunjivanja (u traganju i spašavanju): A Central Alerting Post (CAP) in a given country* is the sole point of contact for SAR matters between all authorities and SAR facilities of this country and the foreign MRCC of the Search and rescue Region (SRR) in which is included the country of the CAP. (COMSAR 14.4)
**cap** /kap/ (marine eng) poklopac, kapa bearing cap ležajni poklopac, poklopac ležaja, ležajna kapa

**cape** /keip/ (sailing vessels) glavina debla (jarbola)

**cap** (n) (marine eng, environ) gornja granica: Under the new global cap, ships will have to use fuel oil on board with a sulphur content of no more than 0.50% m/m, against the current limit of 3.50%, which has been in effect since 1 January 2012. http://www.imo.org/en/mediacentre/hottopics/ghg/documents/faq_2020_english.pdf The current global sulphur cap is 3.5%, while the average sulphur content of today’s heavy fuel oil (HFO) bunkers - by far the most common type of marine fuel burned today - is around 2.7%

**gornja granica sadržaja sumpora (u brodskom gorivu), cap on sulphur emissions** gornja granica ispuštanja sumpora: The new lower global cap on sulphur emissions from international shipping is to come into effect on 1 January 2020

**Capacities of Holds and Tweendecks** (n) (stabil) Plan i tablica kapaciteta

**capacitor** /kəˈpæsɪtər/ (n) (electr) kondenzator

**capacity** /keˈpæsɪtɪ/ (1) (marine eng) kapacitet high capacity pump pumpa velikog kapaciteta, snažna pumpa: The vessel’s main sea water system supplied all sea water pumps, including two high capacity ballast pumps, drawing from two low sea suction and one high sea suction intakes., pumping capacity kapacitet pumpanja: operable auxiliary engine meant that the vessel had lost its main emergency services backup, which severely reduced the vessel’s potential pumping capacity.; 2 (nav arch) zapremnina (broda), kapacitet (broda): It was intended to bring Nos 2 and 3 port and starboard double bottom tanks to 90% capacity by bunkering 85 tonnes in each of the tanks. carrying capacity nosivost, capacity in CBM and CFT kapacitet u kubičnim metrima i kubičnim stopama, nominal capacity (in TEU) nazivni kapacitet (u jedinicama TEU): The containership has a nominal capacity of 12075 TEU; 3 (cargo handling) nosivost (dizalice) lifting capacity moć dizanja (dizalice), nosivost (dizalice): The lifting capacity of the davit was reduced by approximately 90% to around 300 kg. … all cargo was meant to be loaded and discharged with ship’s twin (Gemini) cranes, each of SWL 26 tonnes giving a total lifting capacity of 52 tonnes., handling capacity kapacitet rukovanja (broj koleta/kontejnera na sat; količina prekrcanih tona na sat), kapacitet ukrcaja/iskrcaja, prekrcajni kapacitet: What is the handling capacity of the container crane / gantry?; 4 (nav arch, cargo handling) prostor, sposobnost primanja storage capacity skladišni kapacitet, kapacitet uskladištenja: The vessel’s main sea water system supplied all sea water pumps, including two high capacity ballast pumps, drawing from two low sea suction and one high sea suction intakes.

**Capacity in which Employed** (n) (mar law) zaposlen u svojstvu, kvalifikacija

**capacity plan** (n) (nav arch) A general plan or inboard profile which gives all data relating to the capacity of cargo spaces, tanks, bunkers and storerooms. (www.euronav.com) kapacitivni plan

**capacity tonnage** (n) (stabil) kapacitet broda za teret

**cape** /keip/ (geogr) a promontory or headland protruding into a waterway (The Dictionary of English Nautical Language Database; http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) rt, punta
Capesize rates (n) (shipping econ) vozarine Capesize brodova, vozarine brodova koji zbog svoje širine mora oploviti Rt Dobre Nade ili Rt Cape Horn Capesize spot rate vozarina za kratkoročni najam kontejnerskih brodova

capesize vessel (n) (nav arch, shipping econ) A dry bulk vessel above 80,000dwt or whose beam precludes passage via the Panama Canal and thus forces them to pass around Cape Horn or the Cape of Good Hope brod koji zbog svoje širine mora oploviti Rt Dobre Nade ili Rt Cape Horn, capesize: Capesize vessels generally serve deepwater terminals handling raw materials, such as iron ore and coal. Average daily earnings for capesizes, which typically transport 170,000 tonne-180,000 tonne cargoes such as iron ore and coal, fell $885 to $26,067. http://gCaptain.com A capesize bulk carrier was approaching port while fully loaded with iron ore.
capital cost (n) (nav arch, shipping econ) cost covering interest and capital repayments on a vessel kapitalni troškovi broda: The current market situation, the financial structure of the purchase, and future market expectations affect the level of capital costs.
cap nut 1 (marine eng) matica kape (tlačnog gorionika); 2 (marine eng) stezna matic

capping (n) (navig) Routing a vessel around the Cape of Good Hope, South Africa.
oplovljanje rta Dobre Nade

caprail (n) (sailing vessels, sailing/boating/yachting, nav arch) razma, porub, kuvertela
cap shroud (n) (sailing/boating/yachting) = main shroud glavna pripona, vanjska pripona, vanjska sartija
capsize /kæp 'saiz/ (=overturn) 1 (v) when a ship or boat lists too far and rolls over, exposing the keel; to overturn when afloat; overturn; improper loading of cargo has caused the ship to capsize prevrnuti se: Around 10 minutes after abandoning the vessel, she capsized to starboard and then sank by her stern. Oko 10 minuta nakon napuštanja broda, brod se prevrnuo po desnoj strani i zatim potonuo krmom. The investigation found that ship capsized in extraordinarily violent sea conditions caused by gale force winds and a strong, opposing tidal stream. At one point the lifeboat capsized due to strong wind and waves. It is not yet known what caused the ship to capsiz. 2 (sailing/boating/yachting, safety) odvezati se (konop, uzao)
capsize /kæp 'saiz/ (n) (safety, sailing/boating/yachting) prevrtanje capsiz recovery ispravljanje prevrnutne jedrilice
capsizing (n) (stabil) prevrtanje, Italian: scuffia: The urgency release system for the towing winch on board the tug had operated, but not quickly enough to prevent the tug from capsizing. The ship is in danger of capsizing and causing an environmental hazard. https://safety4sea.com/
capstan /kæp'stæn/ (n) 1 (seamanship, nav arch) a vertically mounted winch head used aboard ship when mechanical power is required for raising anchor, lifting heavy weights, or for any similar work.

pritezno vitlo, motovilo, Italian: vericello verticale; argano: Crew members should not be allowed to operate a windlass or capstan and handle the rope at the same time. He removed the turns from the bits and then three turns from around the capstan. capstan head bubanj

motovila, glava motovila: The slack was taken in using the capstan head of the port winch. However, on the port winch it was first necessary to stop the spring still located on the capstan head in
Order for it to be secured on a bollard on deck.

Captain /ˈkæptɪn/ (n) 1 (mar law, hum_resources) senior officer in charge of a ship, regardless of rank; Rank or commanding officer of a ship or squadron. (http://www.quarterdeck.org/index.html); In the British Merchant Navy a Master Mariner who has sailed in command of an oceangoing merchant ship will be titled Captain kapetan: The captain decided to anchor too close to shallow water. Captain XY commenced his sea-going career with ... Co. of Liverpool, working on ... Line steamers as cadet and second officer.; 2 (mar law) master of the ship zapovjednik broda: As the vessel passed our stern at 2 cables the Captain called the tanker on VHF stating the vessel's name and position and asked the tanker's reason for not giving way. Prior to departure, the Captain explained that they had been experiencing problems with the displays.; 3 (navy) in all navies, the rank next below rear-admiral mornarički kapetan (jednak rangu pukovnika): He is a Captain in the Royal Fleet and has recently finished a three year appointment as Chief Staff Officer (Engineering) ... Am I to understand that the Captain of the Warship considers himself to be the give way vessel? (Captain, in commercial non-military shipping, is a courtesy title usually employed colloquially, and never a rank, as it is in naval usage. Every vessel has a captain, from the smallest yacht to the largest containership. The captain is the person in command of a vessel at a given time. ..... Master means a person who has the experience and has passed the required examination to be licensed to command a vessel according to both international and national regulations pertaining to the size and range of the vessels in which the experience was obtained. Captain is a general and informal term referring to someone in the act of performing in that capacity. Master refers to professional qualification, captain to a state of command or authority. It seems like this isn't getting any simpler, but separating the historical meanings of captain and master shows us the way forward. In commercial shipping, master has an official regulatory meaning while captain does not. (http://gcaptain.com/call-captain-not/))

captain of the fleet (n) (navy) a temporary adjutant-general who is responsible for discipline aboard the ships of a fleet (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary)

capten flote

captain of the port (n) (mar law, US) = port captain = Harbour Master Captains of
the Port and their representatives enforce within their respective areas port safety and security and marine environmental protection regulations, including, without limitation, regulations for the protection and security of vessels, harbors, and waterfront facilities; anchorages; security zones; safety zones; regulated navigation areas; deepwater ports; water pollution; and ports and waterways safety. (Wiki) Employed in this meaning the term is equivalent (in US) to the term harbourmaster which is more frequently used internationally; In the United States, captain of the port is a title held by a United States Coast Guard officer, usually the commander of a United States Coast Guard sector with the rank of captain (O-6). http://www.maritimetoday.com lučki kapetan: Captain of the port duties involve enforcing within their respective areas port safety and security and marine environmental protection regulations, including regulations for the protection and security of vessels, harbors, and waterfront facilities; anchorages; security zones; safety zones; regulated navigation areas; deepwater ports; water pollution; and ports and waterways safety. The Company failed to comply with a recent captain of the port order related to safety of its vessels anchored in the port. https://gCaptain.com The ship now remains at anchor under a Captain of the Port Order. https://gCaptain.com

captain's cabin (n) (nav arch) kabina zapovjednika
captain's mast (n) (sailing vessels) mjesto preslušavanja članova posade i izricanja disciplinskih mjera (zastarjeli izraz)

Captain's protest (n) (mar law) = note of protest a document issued by the master upon arrivat at a port, which shows conditions encountered during voyage, generally for the purpose of relieving ship owner of any loss to cargo and shifting responsibility for reimbursement to the insurance company

company prijava pomorske nezgode
captain's quarters (n) (nav arch) zapovjednikove prostorije, nastamba zapovjednika
captain's sitting room (n) (nav arch) zapovjednikov salon, predsoblje zapovjednika
captive cargo port (n) (shipping econ, US) regionalna luka, luka za terete iz obližnjeg područja
captivity /ˈkæptɪvɪtɪ/ (n) (mar law) zatočeništvo, držanje u zaroobljeništву: the crew was released after six months in captivity posada je bila oslobodena nakon šest mjeseci zadržavanja u zatočeništву

capture /ˈkæptʃə/ (n) (mar law) = seizure zapljena, zaplijenjeni brod: The Navy forces captured an oil tanker accused of violating current navigation sanctions.
caravel /ˈkævəl/ (n) (nav arch, sailing/boating/yachting) ship of the 15th century with three masts carrying a mixture of lateen and square sails, shaped broad in the bow and with a high poop

karavela
carbon /'kærəbən/ (n) 1 (chem) ugljik; 2 (cargo) ugljen
carbonaceous matter /'kærəbəˈneɪʃə/ (n) (marine eng) ugljikove tvari
carbon deposits (n) (marine eng) naslage gareža, naslage ugljika: Observations made at the 12 000-h overhaul of the first Wärtsilä 64 engine in marine service (a seven-cylinder model) revealed no evidence of heavy carbon deposits on the cylinder head flame deck.
carbon dioxide /ˌkaːbəˈdɔɪd/ (n) (chem, marine eng) ugljični dioksid: — accidental discharge of carbon dioxide, resulting in serious injury to a shore-based engineer – inadvertent release of carbon dioxide and the disabling of the vessel off Wolf Rock on 6 December 2007
carbon emission (n) (environ) ispuštanje ugljika (u zrak), emisija ugljika: Leading ports, banks, oil and shipping companies on Monday launched an initiative which aims to have
ships and marine fuels with **zero carbon emissions** on the high seas by 2030, in another step by the maritime sector to reduce CO2. [https://www.maritimeprofessional.com/](https://www.maritimeprofessional.com/)

**carbon-free fuel** *(environ, marine eng)* gorivo bez ugljika: The prediction for 2050 is that the split between **carbon-free and non-carbo containing fuels** will be about 50-50, meaning that one of the carbon fuels may be ammonia. [https://safety4sea.com](https://safety4sea.com)

**carbon intensity indicator (CII)** *(marine eng, environ, nav arch)* The CI measures how efficiently a ship transports goods or passengers and is given in grams of CO2 emitted per cargo-carrying capacity and nautical mile. The ship is then given an annual rating ranging from A to E, whereby the rating thresholds will become increasingly stringent towards 2030. ([https://www.dnv.com/](https://www.dnv.com/))

**gustoće ugljika (u gorivu):** In June 2021, the IMO adopted extensive new CO2 regulations applicable to existing ships. The Energy Efficiency Existing Ship Index (EEXI) addressing the technical efficiency of ships, the **Carbon Intensity Indicator (CII)** rating scheme addressing the operational efficiency, and the enhanced Ship Energy Efficiency Management Plan (SEEMP) addressing the management system. [https://www.dnv.com/](https://www.dnv.com/)

**carbon monoxide** /ˌkaːbən məˈnəʊksaid/ *(safety)* ugljični monoksid: A carbon monoxide detector was also fitted in the wheelhouse. Unfortunately, the atmosphere inside the trunking was only checked some 24 hours after the accident; Oxygen and carbon monoxide levels were found to be normal. **carbon monoxide poisoning** trovanje monoksidom: Heating your boat? Beware of carbon monoxide poisoning. [https://www.practical-sailor.com/](https://www.practical-sailor.com/)

**carbon-neutral voyage** *(environ)* putovanje broda bez štetnog lučenja proizvodnje ugljika: NYK has become the first Japanese shipping company to complete a **carbon-neutral voyage** by offsetting 5,000 tons of carbon dioxide (CO2).... Splash [https://splash247.com](https://splash247.com)

**carbon steel** *(marine eng)* ugljični čelik

**carboy** /ˈkaːˌbɔi/ *(cargo)* stakleni spremnik, **bocun** (za prijevoz kiselina itd.)

**carburetor, carbureter, carburettor** /ˌkaːˈbruːtər; ˈkaːˌbruːtə; ˈkaːˌbrʊˈreɪtər/ *(marine eng)* karburator, rasplinjač

**car carrier** *(nav arch)* brod za automobile, brod za prijevoz (putničkih) automobila: All targets were being plotted on ARPA, a large **car carrier** was ahead of us at three miles but not visible.

**cardboard** *(cargo handling)* karton (za zaštitu tereta): Two-layers of corrugated **cardboard** can protect the goods in the box or container.

**card chasssis** /ˈkaːd, ˈfæsɪs/ *(cargo handling)* prikolica / šasija (na kontejnerskom terminalu)

**car deck** *(nav arch)* paluba za automobile: ... the small watertight access hatch into the bow door space from the **car deck** was unbolted.

**cardinal buoyage system** *(navig)* kardinalni sustav označavanja (plovnih putova)

**cardinal buoys** *(navig)* kardinalne oznake, glavne oznake: It is felt that a separation scheme with precautionary area should be introduced with the dangerous wrecks clearly marked by **cardinal buoys**. ... the vessel continued to be set down onto the **North Cardinal buoy** marking the channel.

**cardinal marks** *(navig)* are used in conjunction with the compass to indicate the direction from the mark in which the deepest navigable water lies, to draw attention to a bend, junction or fork in a channel, or to mark the end of a shoal ([https://www.trinityhouse.co.uk/mariners-information/navigation-buoys/cardinal-marks](https://www.trinityhouse.co.uk/mariners-information/navigation-buoys/cardinal-marks))

**glavne**
Mariners will be safe if they pass north of a **north mark**, south of a **south mark**, east of an **east mark** and west of a **west mark**.
The ship was heading towards a reef, 5 cables away and marked by north and south **cardinal marks**. Cardinal Marks are also used for permanent wreck marking whereby North, East, South and West Cardinal buoys are placed around the wreck. **north cardinal marks** glavna sjeverna oznaka, **south cardinal marks** glavna južna oznaka, **west cardinal marks** glavna zapadna oznaka, **east cardinal marks** glavna istočna oznaka

The four principal points of the compass: North, East, South and West are used in navigation.

Cardio-pulmonary resuscitation (CPR) was immediately performed by crew members.

Care must be taken to ensure that the grips are properly
tightened. This is largely beneficial, but **care must be exercised** to carefully consider and plan each arrival, particularly when responding to changes to the ‘normal’ routine. **Proper care of cargo**

**cargo** (ispravna briga o teretu): Carriers are required to take **proper care of cargo** throughout their loading, navigating, discharging and delivering operations. **Exercise proper care**

**cargo** (voditi pažljivo brigu o): If wet, **additional care must be exercised**, and if possible, the cargo surfaces must be wiped dry or the task must be postponed until conditions improve.

**Medicinska skrb**, **medicinska njega** intensive **care** unit odjel intenzivne skrbi / njega: He was admitted in the local hospital’s intensive care unit.

**Careening** the practice of grounding a sailing vessel at high tide in order to expose one side of its hull for maintenance and repair; **intentional grounding in order to conduct maintenance or repairs**

**Italian**: carenare; carenaggio, karinavat, žbandat: I had no choice but to careen the next port to fix a packing hose but I am considering it again now for bottom paint.; 2 izvoditi barku na suho (radi bojanja i održavanja)

**Cargo** /ˈkaːɡə/ (n) **(UK)** COMPARE commodities the goods, merchandise, commodities, or products carried by a ship, barge, train, truck or plane. **Teret**: If a cargo is susceptible to damage by rain, snow or precipitation, the vessel should opt to discontinue cargo operations altogether during inclement weather. https://safety4sea.com/ Commodity becomes Cargo when it enters the transportation realm. Cargo is what is transported. https://www.shippingandfreightresource.com/ cargo tray tava za teret, cargo surveyors kontrola tereta, kontrolna kuća (za kontrolu tereta), cargo surveyor nadzornik / kontrolor / inspektor tereta, cargo superintendent nadzornik tereta, inspektor / kontrolor tereta, cargo stowage slaganje tereta, cargo procedures postupci pri preuzimanju i predaji tereta, cargo plan plan krcanja tereta, plan tereta, cargo net mreža za teret, cargo mixture mješoviti teret, miješani teret, cargo handling equipment uređaji za ukrcavanie i ukrcanje tereta, uređaji za rukovanje teretom, prekraćajna mehanizacija, cargo flow kretanje tereta / roba, robnog transporta, wheeled cargo ro-ro teret, teret na kotačima, outward cargo teret u ukrcaju, teret u izvozu, mass cargo masovni teret, teret koji se prevozi u velikim količinama, measurement cargo volumenski teret, prostorni teret, liquid bulk cargo tekući masovni teret, tekući teret (u velikom količinama),

It mainly refers to the technological aspect of the use and meaning of the term cargo; the term freight is used in the same meaning in US; The term goods refers to the economical/commercial aspect of the concept of cargo and is used in international trade; the terms commodity and merchandise refer to various types of cargo carried by sea) cargo arm (n) (cargo handling) dizalica (s fleksibilnom cijevi, manigom) za ukrcaj / iskrcaj tankera, maniga: The loading was stopped and the cargo arm disconnected.
cargo battens (=batten) (n) 1 (nav arch) wood battens fitted to the inside of the frames in a hold to keep the cargo away from the ship’s side and to allow the necessary through ventilation. bokoštitnice u skladištu, priboj, razdjelne daske: The cargo battens are damaged. 2 (sailing vessels) letve skladišta, bočne letve skladišta cargo book (n) (cargo handling, safety, nav arch) knjiga tereta cargo booking note (n) (mar law) isprava u ugovoru o prijevozu stvari koja sadržava pojedine važne dijelove zaključnica cargo boom (1) (n) (cargo handling) a heavy boom used in loading cargo teretni stup, samarica, derić, delić cargo boom (2) (n) (ports, shipping econ) veliki porast prometa (luke): The Port of Long Beach has reported its busiest January on record as the cargo boom continues into 2021. https://gcaptain.com/
Cargocaire system /ˈka:ɡəˈkeə/ (n) (nav arch) sustav Cargocaire cargo-carrying capacity (=net capacity; cargo deadweight; useful deadweight) (n) (nav arch) The number of tons of cargo which a vessel can carry when loaded in salt water to her summer freeboard marks. (www.euronav.com) kapacitet za teret: The ship had a cargo-carrying capacity of 18,869 TEUs.
cargo claim (=freight claim (US)) (n) (shipping econ, mar law) 1 a legal demand by a shipper or consignee against a carrier in respect of damage to a shipment, or loss thereof. (https://en.wikipedia.org/wiki/Freight_claim) tražbina, zahtjev za naknadu štete: It is the responsibility of the claimant to file a cargo claim within the prescribed time frame and to respond to any requests from the carrier for supporting documentation. file a cargo claim podnijeti zahtjev za naknadu štete na teretu; 2 reklamacija cargo control room (n) (nav arch, ports, cargo handling) kontrolna prostorija za teret (na brodu ili na terminalu): On the wharf, four operators at the cargo control room were standing by to resume loading operations on the ship. cargo damage (n) (mar law, mar ins) gubitak, manjak, oštećenje i zakašnjenje tereta šteta na teretu: TT Club records indicate that as much as 66% of incidents related to cargo damage in the intermodal supply chain can be attributed in part to poor practice in the overall packing process, https://shippingandfreightresource.com/the-importance-of-declaring-correct-cargo-details-and-consequences-of-cargo-misdeclaration/ cargo damage assessment (n) (mar ins, mar law) procjena štete na teretu: After the accident the ship sailed to the Port of ... for further recovery and cargo damage assessment.
cargo damage claim (n) (mar law, mar ins) zahtjev za nadoknadu štete, odštetni zahtjev za štetu na teretu, prijava štete na teretu, protestno pismo (za havariju, štetu)

Cargo Damage Report (n) (cargo handling) izvještaj o šteti na teretu
cargo deadweight (n) (nav arch) korisna nosivost
cargo delivery (n) (logist) isporuka tereta, predaja tereta import cargo delivery
isporuka uvoznog tereta: Wuhu Port introduces blockchain-based paperless import cargo delivery https://safety4sea.com/
cargo documentation (n) (shipping econ) robni dokumenti, dokumentacija tereta
cargo documents (n) (shipping econ) prijevozne isprave, robni dokumenti, popratni dokumenti uz teret
cargo door (n) (nav arch) vrata ro-ro broda (s rampom za ulaz i izlaz ro-ro tereta)
cargo dues (n) (mar law, shipping econ) naknada za korištenje lučkih obala i lučke mehanizacije: Cargo Dues are charged to the users (exporters, importers or shipping lines) for using the port facilities for movement of the cargo through it. This fee is generally fixed and published in a tariff by the port for a year
cargo failure (n) (cargo handling, safety) Cargo failure is the result of solid bulk cargo becoming liquid (fluid). Liquefaction causes the cargo to become compacted by the ship’s motion and this can imperil ship’s stability neispravnost tereta, opasnost zbog neispravnog tereta (npr. zbog ukapljivanja suhih rasutih tereta): The last report for the years 2008-2017 showed that 101 lives and 9 bulk carriers were likely lost due to cargo failure (this compared with a total of 202 lives lost in all 53 casualties). marinlink.com Moisture related cargo failure mechanisms, widely known as liquefaction, continue to be a major concern for dry bulk shipping marinlink.com
cargo fastener (n) (cargo handling) pritega za teret: The incident happened after the cargo fasteners broke on a load of large diameter steel pipes.
cargo feeds by gravity to the hold when discharging (n) (cargo handling, nav arch) teret koji se kod iskrcaja spušta u tovarni prostor zbog gravitacije
cargo gear (n) (cargo handling, nav arch) teretni uređaj (obično brodski), uređaj za rukovanje teretom: Many general cargo vessels have thier own cargo gear that helps them to load and discharge in ports lacking infrastructure. (Śwadi) A new ship was discharging steel plates with own cargo gear.
cargo handling (n) (cargo handling) all procedures involved in the physical handling of goods rukovanje teretom, manipuliranje tereta: The handling of cargo is carried out either by the ship's own cargo gear or by shore cranes.
cargo handling costs (n) (cargo handling, shipping econ) involves loading, stowage, lightering, and discharging of the troškovi rukovanja teretom
cargo handling equipment (n) 1 (cargo handling) sredstva za rukovanje teretom, oprema za rukovanje teretom, uređaji za rukovanje teretom, teretni uređaj: Cargo handling equipment includes two modern gantry container cranes and six straddle carriers. ; 2 pribor i alati za rukovanje teretom (kuke ,pasci itd.) ; 3
lučka mehanizacija
cargo handling gear  
1 (cargo handling, nav arch) teretni uređaj (obično brodski), uređaj za rukovanje teretom; 2 alati za rukovanje teretom
cargo hatch  (n) (nav arch, cargo handling) grotlo za krcanje tereta, grotlo: For bulkers the most common cargo damage is the leaking of cargo hatches. (https://safety4sea.com/)
cargo hoist  (n) (cargo handling) dizalo za teret
cargo hold recess  (n) (nav arch, marine eng) udubljenje u skladištu: If the HP pipes are located in the cargo hold recess: a. Move the gas pipe further away from the shipside, and b. Arrange the closed duct with inspection openings. www.man-es.com
cargo hook  (n) (cargo handling) kuka (za teret): cargo hooks should never be used when discharging fragile cargo
cargo hose  (n) (cargo handling) A hose usually of 6 to 10 inches in diameter used for the transfer of liquid cargo from ship to shore and vice versa. (www.euronav.com) savitljiva cijev, maniga za teret, fleksibilna cijev za teret
cargo insurance  (n) (mar ins) Cargo insurance is coverage for your shipment from pickup to
cargo interests (n) (shipping econ) Parties having an interest in the cargo.

zainteresirane stranke za teret, vlasnici tereta: A loading/discharge programme should be planned in advance and agreed with cargo interests and the terminal staff. If a vessel causes loss or damage to her cargo and if the carriers are liable, carriers have to compensate cargo interests for their damages.

cargo lien (n) (mar law) privilegij na stvarima ukrcanim na brodu

cargo liner = freighter 1 (shipping econ) teretni brod, teretnjak: I was the bridge watchkeeper on a 9,000 grt cargo liner belonging to a reputable company. A cargo liner carrying a variety of cargo in relatively small consignments would have ‘tween decks to facilitate stowage.

2 linijski brod, linijaš

cargo loading procedure (n) (cargo handling, ports) proces ukrcaja tereta, ukrcaj tereta

cargo manifest (n) (shipping econ, mar law) a comprehensive list of all cargo for a destination. It is made up from the information contained within the B/Ls manifest tereta (a cargo manifest might be used for shipments made by sea, air or land, and will generally show the shipment’s cosignee and consignee, as well as listing product details such as number, value, origin and destination.)

cargo manifold (n) (nav arch, cargo handling) glavni razvodni ventil za tekuće tereta na brodu: A unique substance can be loaded/unloaded to/from all tanks by means of the two common line located aft and fore of cargo manifold. The master needed the chief officer at the ship’s cargo manifold to ensure the vessel was properly aligned to receive a shore connection.

https://safety4sea.com/

cargo marks (n) (cargo handling) oznake na teretu

cargo mass (n) (logist) masa tereta: Cargo Integrity campaign that have bearing on this type of casualty, such as the correct declaration of cargo mass as well as the safe packing and securing of the freight within the container, together with the container structure and maintenance.

https://safety4sea.com/

cargo mast (n) (cargo handling) teretni stup

cargo master (n) (cargo handling, mar law) A Cargo Master is generally seen on a ship where they measure cargo in tonnage and they may have loads from hundreds of different sources that ultimately with go tho hundreds of different destinations. časnik odgovoran za teret, prvi časnik palube

cargo mat (n) (cargo) A mat, usually square and made of manila rope, used to protect the deck covering while taking stores, etc., on board. prostirka za teret (od hasure, rogožine, konopa itd.)

cargo net (n) (cargo handling) mreža za teret: Cargo nets are suitable for mail bags and similar cargoes that are not liable to be crushed when hoisted. Pallets should be lifted within a cargo net.

cargo oil pump (=COP) (n) (nav arch, cargo handling) pumpa tereta nafte, pumpa za naftni teret

cargo oil tank (=COT) (n) (cargo handling, nav arch) naftni tank, tank za naftu, tank za teret nafte cargo oil tank # 2P/S naftni tank br. 2 lijevi/desno

cargo operations (n) (cargo handling) operacija ukrcaja / iskrcaja tereta (s
Following the completion of cargo operations, at 1620 Sunmi departed the berth, bound for Pasajes, Spain. Start the cargo operations, complete the cargo operations.

Cargo owner (n) (shipping econ, mar law) vlasnik tereta

Cargo pipes and fittings (n) (nav arch, cargo handling) cijevi i oprema cjevovoda za teret: Cargo pipes are class II type mild steel pipe. The connections to be of butt welded if possible. The pipelines to be of through cargo tank inside. The pipelines to be arranged with sufficient expansion possibilities.

Cargo plan (n) (cargo handling) a plan giving the quantities and description of the various grades carried in the ship’s cargo tanks.; a plan giving the quantities and description of the various items of cargo, containers or packages in the ship’s hold plan krcanja tereta

Cargo port (n) (nav arch, cargo handling) An opening, provided with a watertight cover or door, in the side of a vessel of two or more decks, through which cargo is received and discharged.

Cargo properties (n) (cargo) svojstva tereta, karakteristike tereta

Cargo pump (n) (cargo handling, nav arch) Pump used on tankers for discharging cargo and loading or discharging ballast. Located, at the bottom of the pump room, these pumps are usually of the common duplex type, or turbine type of which the centrifugal is the most common.

Cargo purchase (n) (cargo handling) čekrk za podizanje tereta (na samarici, dizalici), koloturnik za podizanje tereta

Cargo receipt (n) (logist, mar law) Receipt of cargo for shipment by a consolidator (used in ocean freight). potvrda primitka tereta (radi prijevoza)

Cargo Record Book (n) (cargo handling, environ, marine eng, safety, seamanship) Knjiga o teretu broda za prijevoz štetnih tekućina u razlivenom stanju

Cargo remaining on board (=CROB) (n) (logist, mar law) neiskrcan teret

Cargo rollover (=rolled cargo; rollover) (n) (shipping econ, logist) SEE blank sailing SEE short shipped cargo COMPARE renomination SEE shut-out charge When an ocean freight cargo is said to have been ‘rolled’, it means it has not been loaded onto the vessel it was meant to sail on. (https://www.icontainers.com/); Rolled cargo is cargo that could not be loaded onto the vessel it was scheduled to sail on, because that vessel ran out of capacity. (https://www.flexport.com/glossary/rolled-cargo/) preusmjeravanje bukiranog (planiranog) tereta na drugi brod: Heavy cargo rollovers observed in September as per Ocean Insights data https://www.shippingandfreightresource.com/ ... in most leading container shipping hubs between a fifth and a third of transshipment cargo was subject to rollovers, adding to the supply chain disruption experienced by shippers in many parts of the world due to capacity and equipment shortages. The carrier will likely roll the cargo onto the next available vessel, Metrics such as carriers’ schedule reliability are worsening and cargo rollover rates are still on the rise. https://www.shippingandfreightresource.com/ At ports, overall rollover percentages continued to climb as well, reaching 39%, a two percent increase on December numbers and a 9% year-over-year. https://www.shippingandfreightresource.com/essel operators have so far had a mixed month with Maersk seeing a 5% increase in rollovers, reaching 38% while its alliance partner, MSC, has been static at 29% since November of last year. https://www.shippingandfreightresource.com/ The congestion has caused vessel turnaround times to more than double and week-long cargo rollovers. https://gcaptain.com/
are various reasons for a container getting rolled, including but not restricted to: Overbooking (insufficient cargo space on board the ship), Vessel omissions (when a vessel skips the port), Vessel weight issues, Customs problems, Missed cut-off days, Documentation problems etc. (https://www.icontainers.com/); other reasons: insufficient cargo handling equipment at the port.

cargo runner (n) (cargo handling) podigač tereta (na samarici), teretnica
cargo securing arrangements (n) (cargo handling) uređaji za pričvršćivanje tereta

cargo securing manual (n) (cargo handling, nav arch) Priručnik za slaganje i pričvršćenje tereta, Priručnik o vezivanju i pričvršćivanju tereta: According to the vessel’s cargo securing manual, only a nominal initial tension was to be applied to the wiggle wire. https://www.marineinsight.com/ Follow your cargo securing manual to the letter.

cargo securing system (n) (cargo handling) sustav vezivanja i pričvršćivanja tereta: The cargo securing system involved the use of foot wires, snatch blocks, and a wiggle wire. https://www.marineinsight.com/
cargo shift (n) (cargo handling) micanje tereta, pomjeranje tereta
cargo ship (n) (mar law, nav arch) brod za prijevoz tereta i najviše dvanaest putnika teretni brod, teretnjak

Cargo Ship Safety Construction Certificate (n) (nav arch) Svjedodžba o sigurnosti konstrukcije teretnog broda
Cargo Ship Safety Equipment Certificate (n) (nav arch, ship’s equipment, safety) Svjedodžba o sigurnosti opreme teretnog broda
Cargo Ship Safety Radio Certificate (n) (comm, nav arch, safety) Svjedodžba o sigurnosti radioopreme teretnog broda
cargo spaces (n) (nav arch, shipping econ) teretni prostori, prostori za teret, teretnjak: Cargo spaces include epoxy coated cargo tanks integrated in the structure separated by longitudinal and transverse corrugated bulkheads and integrated slop tank at fore of cargo space.
cargo stoppage signal (n) (cargo handling) znak za prestanak ukrcaja/iskrcaja tereta
cargo stowage (n) (cargo) slaganje tereta

Cargo Stowage and Securing Code (n) (cargo handling) pravilnik o slaganju i pričvršćivanju tereta

Cargo Stowage Plan (n) (cargo) plan krcanja tereta: The break-bulk vessel cargo stowage plan is a complete diagram of a vessel’s cargo space showing the location (both on and below deck) of all cargo aboard ship prepare the Cargo Stowage Plan 1 pripremiti plan krcanja tereta; 2: The cargo stowage plan is prepared by the loading terminal after the ship has been loaded and is used to facilitate the subsequent loading and discharge of cargo at all ports along the voyage.
cargo surge (n) (ports, shipping econ) rast teretnog prometa (u luci)
cargo surveyor (=independent inspector) (n) (mar law) = marine cargo surveyor A person or organization of persons acting independently (but on behalf of, one or more parties involved) in the transfer, storage, inventory or analysis of a commodity for purposes of determining the quantity, and/or quality of a commodity. (www.euronav.com) inspektor tereta, inspektor za štete na teretu: Having taken four samples, the cargo surveyor moved aft to the sampling point of tank No. 5. After completion of loading, a cargo surveyor boarded to take samples of the cargo. Immediately after completion of line blowing the manifold valves were sealed by the cargo surveyor. Cargo surveyors may also be assigned to the calibration of various measurement instruments and/or storage tanks ashore or on vessels. www.euronav.com

cargo system (n) (nav arch) teretni sustav na brodu: Cargo system is designed so that 11 different substances can be loaded/unloaded at the same time.

cargo tank (n) (nav arch) the compartments to load liquid cargoes such as chemical products. It is made with stainless-steel for the carriage of various types of products. (https://www.fukuzo.co.jp/en/shipbuilding/) tank tereta

cargo tank relief valve (cargo handling) sigurnosni ventili tankova tereta: Are cargo tank relief valves set correctly and actual relief valve settings clearly and visibly displayed? esu li sigurnosni ventili tankova tereta ispravno namješteni, a namješteni tlak vidljivo ispisan? set the cargo tank relief valve regulirati sigurnosni ventili tankova tereta

cargo theft (n) (shipping econ, safety) krada tereta: Cargo theft can occur anywhere along the supply chain affecting local logistics, transporters, storage yards, groupage operators, LCL consolidators, ports, depots, terminals, insurance, carriers and freight forwarders equally. https://shippingandfreightresource.com/first-smart-container-innovation-lab-contopia-labs/

cargo tonnage handled (n) (ports) total weight of goods loaded and discharged in a port promet tereta u tonama

cargo tracer (n) (shipping econ, mar law) a document sent by the agent to all relevant parties, stating that certain cargo is either missing or over-landed potražnica za teretom

Cargo Tracking Note (=CTN; Loading Certificate) (n) (logist) an official marine document that contains information relating to the cargo and its movement between ports (https://shippingandfreightresource.com/ Obavijest o trenutnoj poziciji tereta u transportu: In general, the CTN number must be shown on all documentation related to the cargo shipped under that note. The shipper and/or forwarder should provide the certificate number to the ocean carrier at the loading port (Loading agent) for inclusion in the manifest and bill of lading. (https://shippingandfreightresource.com/)

cargo tray (n) (cargo handling) tava za teret: Cargo trays and pallets, the latter being wooden or of steel construction, are ideal for cargo of moderate dimensions, which can be conveniently stacked, such as cartons, bags, or small wooden crates or cases. clamp

cargo unloading procedure (n) (cargo handling, ports) proces iskrcaja tereta

cargo valve (n) (cargo handling) ventil za tekuće terete: after ensuring that the cargo valves were closed the chief mate proceeded to the bridge and relieved the third mate as the navigation watch officer

cargo ventilation system (n) (nav arch) sustav prozračivanja tereta: In the cargo ventilation system, PV valves setting pressure is 2000 mmWG for pressure, -350 mmWG for vacuum. The lines between PV valves and tanks are so arranged as to permit their self draining to the tanks. Pipe connections are to be full penetration butt welded type.

cargo visibility (n) (shipping econ) lociranje tereta, poznavanje kretanja
tereta (u transportu), vidljivost tereta: In terms of cargo visibility, most supply chains still operate in the dark, yet when fully available and leveraged, true visibility would save shippers millions of dollars in detention and demurrage, late and expedited fees, theft and inventory costs, and improved customer service ...

cargo volume (n) (ports) količina tereta (u prometu lukom), tonaža tereta: Cargo volume at the Port of Long Beach continued to rise in November, setting the stage for a second consecutive calendar year record.

cargo watch (n) (cargo) nadzor nad teretom: keeping an efficient and safe cargo watch is a key requirement of and OOW.

cargo winch (n) (cargo handling) teretno vitlo, manat electric cargo winch električno vitlo, cargo winch drum, motor, gears, shafts, and brakes bubanj, motor, reduktor, vratilo i kočnica električnog vitla, cargo winch barrel bubanj teretnog vitla

cargoworthiness (n) (mar law) prikladnost broda za preuzimanje, prijevoz i očuvanje tereta u stanju u kojem je teret primljen na prijevoz; Fitness of a ship to carry a particular cargo.

http://www.tkmglobal.net/chartering_CHTM prikladnost broda za preuzimanje i prijevoz tereta, sposobnost broda za preuzimanje tereta: The Master always has the final responsibility for the sea- and cargo worthiness of the vessel.

carpenter /kæpˈtɪn/ (n) (seamanship) brodski tesar, meštar: The carpenter asked the second officer to operate the winch, and told the welder and the two ratings to help him push the messenger back onto the rotating drum. The carpenter lowered the messenger line to the tug and the tug’s mate attached the eye of the steel tow wire to the messenger line. The second officer was in charge of the operation; however, the carpenter was the most experienced member of the team and the de facto leader that morning.

carpenter’s compass (n) (sailing/boating/yachting, nav arch, sailing vessels) stolarski šestar

carrack /ˈkærək/ (n) (nav arch, sailing/boating/yachting) a large galleon of the 15th C karaka

carriage /ˈkærɪdʒ/ (=precarriage; postcarriage) (n) 1 (shipping econ) the whole or any part of the operations and services undertaken by the Carrier in the transportation of goods by sea prijevoz, transport, prevoženje: Ships' staff responsible for the loading and carriage of cargoes requiring fumigation are fully aware of the potential risks and safety precautions required. The master or owner of a ship shall not accept for carriage by the ship any cargo that may liquefy when carried by sea unless the actual moisture content of such cargo is less than its TML. However, to facilitate the carriage of bulk cargoes the tank top ceiling had been floored over with steel plates welded together, the bilges having been similarly treated.; 2 kolica, podvozak: The equipment had been installed between decks and was mounted on a carriage that slid out from the ship’s side.

carriage ban (n) (marine eng, mar law, safety) zabrana prijevoza (zbog nedopuštenog sadržaja sumpora u gorivu): As of March 1, the International Maritime Organization (IMO) has adopted the “carriage ban” rule prohibiting to ships from carrying fuel oil with a sulphur content greater than 0.5 percent unless the ship is fitted with an Exhaust Gas Cleaning System, aka scrubber. https://gcaptain.com/ics-ships-could-face-detention-under-new-imo-carriage-ban The carriage ban is intended to make it easier for Port State Control authorities to enforce the IMO's new 0.5 percent sulphur content limit that entered into force on January 1, 2020. https://gcaptain.com/ics-ships-could-face-detention-under-new-imo-carriage-ban

Carriage Paid To  

Act. It is a statute which covers bills of lading, sea waybills, ship’s delivery orders and, in the future, electronic documents

Zakon o prijevozu robe morem
Carriage Paid To (=CPT) (n) (logist) Carriage Paid To, CPT, (agreed place of destination), non-maritime condition. The transfer of costs occurs when the goods have been delivered to the agreed destination. https://www.logisticsglossary.com/term/carriage-paid-to/ vozarina se plaća po isporuci na odredištu
carrick bend (n) (inland waterways, seamanship) a knot used to tie two lines together ukrižani

uzao
carrier /ˈkæriə/ (n) (mar law, shipping econ) a person that enters into a contract of carriage with a shipper (Rotterdam Rules 2009); A party who contracts to carry goods or passengers by water (the contracting carrier), or the party who actually performs such carriage in whole or part (the actual carrier).
http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; any person by whom or in whose name a contract of carriage of goods by sea has been concluded with a shipper. (Hamburg Rules 1978); Party who enters into a contract of carriage with a shipper. The carrier may be the owner or charterer of a ship. http://www.tkmglobal.net/chartering_C.HTM; an entity that arranges the carriage of the goods and issues the Bill of Lading to the Merchant. prijevoznik, vozar, brodar: A carrier is any person or entity who, in a contract of carriage, undertakes to perform or to procure the performance of carriage by rail, road, sea, air, inland waterway or by a combination of such modes. (Glossary of Shipping Terms, 2014; www.marad.dot.gov) Carrier not liable for failure to notify .. https://www.shippingandfreightresource.com/ originating carrier prvi prijevoznik, delivering carrier zadnji prijevoznik, prijevoznik isporučitelj robe
carrier* (n) (nav arch) brod, vrsta broda
carrier* (n) (marine eng) nosač, greda revolving carrier okrenuti nosač, okrenuti tanjur
carrier haulage /ˈhɔːrɪdʒ/ (n) (logist) Carrier haulage is when the shipping company itself takes care of preliminary and subsequent transport of a container. It is also referred to as liner’s haulage.
brodar odgovoran za prijevoz kontejnera morem i kopnom
Carrier Issuing the Bill of Lading (n) (shipping econ) prijevoznik koji je izdao teretnicu, brodar izdavatelj teretnice
Carrier(s) Containers or Shipper(s) Containers (n) (logist, mar law) The term Carrier(s) Container(s) or Shipper(s) Container(s) means containers over which the carrier or the shipper
Carrier’s Inspection Report Form

has control either by ownership or by the acquisition thereof under lease or rental from container companies or container suppliers or from similar sources. Carriers are prohibited from purchasing, leasing or renting shipper-owned containers. (https://www.msc.com/shipping-glossary)

carrier's lien (n) (mar law) When the shipper ships goods 'collect', the carrier has a possessory claim on these goods, which means that the carrier can retain possession of the goods as security for the charges due (http://www.iss-shipping.com/cargo/cargo_library_glossaryc.asp)

Carriers’ Schedule Reliability (n) (logist) SEE cargo rollover Carriers' Schedule Reliability is a measurement of delay from port to port pouzdanost linijskog ticanja, pouzdanost točnosti polaska linijskih brodova iz luke: Metrics such as carriers’ schedule reliability are worsening and cargo rollover rates are still on the rise. https://www.shippingandfreightresource.com/

carry (v) be carried nalaziti se, biti u, carry away odvoditi, odnijeti, carry out izvršiti, provesti, izvesti, obaviti: Carry out a risk assessment before the start of dangerous jobs so that identified control measures can be put in place. Always carry out a full set of CPP tests, both ahead and astern. Avoid carrying out lashing jobs when the vessel is rolling badly, carry through provesti (do kraja), carry the firing loads podnijeti opterećenja izgaranja, carry the injector imati ubrizgač, carry the lubricating oil dovoditi ulje za podmazivanje, carry loose prevoziti bez ambalaže / pakovanja, prevoziti u rasutom stanju, carry on nastaviti: The master sensed that the coxswain was having difficulties and asked him if it was safe to carry on. 1 nositi: Personnel entering tanks must also carry a CO detector together with O and LEL personal detector, (as per company policy when entering tanks after carrying Crude or Fuel Oil. ) 2 voditi; 3 dovoditi; 4 (shipping econ) imati (na brodu, na sebi), nalaziti se (na brodu): in their circular 118 the Panama Maritime Authority states that vessels must carry a minimum of two Watchstanding Deck Officers or one dedicated Radio Officer. This accident demonstrates the need to carry a means of raising the alarm in the event of an emergency. Should high speed vessels carry additional warning lights to indicate their extra speed? A rescue helicopter carrying a doctor arrived after approximately 45 minutes. 5 (marine eng) podnijeti; 6 (shipping econ) prevoziti: Do you carry any dangerous goods? The vessel was certified to carry up to 12 passengers. The vessel was carrying 1973 containers on deck, which were stacked seven containers high. 7 (marine eng) nositi, imati na sebi; 8 podupirati

carry away (v) (seamanship) the act of breaking loose otkinuti se, otpustiti se, otkačiti se {o konopima, palubnoj opremi, škotinama itd}

carry her away (n) (sailing/boating/yachting) inertno kretanje brodice (bez pogona); used if the boat continues moving on her own by inertia forces, withput power abriva

carrying weight (n) (shipping econ) ANTONYM dead weight korisna nosivost

carry out (v) (ship handling) To break loose (of lines) otkinuti se (o užadi

carrying capacity (n) (nav arch, shipping econ) nosivost, korisna nosivost broda, kapacitet: s cross-section and load carrying capacity: The OOCL United Kingdom, with a
Carrying capacity of 21,413 TEUs, is one of the carrier’s six ‘G Class’ vessels and they are currently the world’s largest container ship. www.gCaptain.com

**cart /kaːt/ (n) (cargo handling) SEE dray** a heavy open vehicle, usually having two wheels, used to transport goods locally kola, kolica

cartage /ˈkaːtɪdʒ/ (=drayage) (n) 1 (shipping econ, logist) COMPARE haulage

**comparative drayage** (originally) the process of transporting by cart; in US the term is used for trucking (intra-city hauling on drays or trucks) or for trucking fees.; Cartage is the transportation of cargo to and from a CFS via truck within a local area. (https://www.flexport.com/glossary/cartage/);
The trucking, draying or carting of freight. (https://www.msc.com/) podvoz, dovoz robe do broda (kolicima / kamionom / prikolicom radi ukraća na brod): While drayage is the transport of whole containers, cartage usually involves break-bulk cargo.

https://www.marineinsight.com/; 2 (shipping econ, logist) The rate charged for picking up the goods from the sender or for house delivery. It usually refers to a small distance (locally inside a pier, for instance). (https://www.msc.com/) tarifa za podvoz, tarifa za međugradski kamionski prijevoz

carter's note /ˈkaːtərəs nət/ (n) (shipping econ, mar law) potvrda o primitku robe / tereta sa cestovnog vozila

cartographic ship /ˌkaːtəˈɡræfɪk/ (=chartographic ship) (n) (nav arch) kartografski brod

cartography; chartography /ˈkaːtəɡræfi/ (n) (navig) kartografija

carton /ˈkaːtən/ (n) (cargo handling) kartonska kutija (vrsta pakovanja / ambalaže), karton

cartridge gun (n) (marine eng) pištolj za silikonske patrone

carvel-built (adj) (nav arch, sailing vessels, sailing/boating/yachting) COMPARE clinker-built

**clinker-built boat** constructed with the hull planks laid edge to edge to make a flush smooth finish trup s ravnim trenicama (madirima), trup s ravnim platicama (madirima)

**Carvel-method** (n) (nav arch, sailing/boating/yachting, sailing vessels) Carvelov sustav gradnje broda, metoda gradnje s dodirivanjem platica (trenica, madira)

carvel planking (n) (nav arch, sailing/boating/yachting) COMPARE clinker-built boat

**boat trenice bez preklapanja** ravné trencí, ravné platice: liša gradnja

carvel work (n) (sailing vessels, nav arch, sailing/boating/yachting) glatka gradnja (barke, brodice, jedrenjaka)

**CAS** (=collision avoidance system) (n) (navig) sustav izbjegavanja sudara

**case /ˈkeɪs/ (n) 1 (marine eng) plašt; 2 (mar law) slučaj in** case of u slučaju (da), ako;

3 (cargo handling) kutija, sanduk

case law (n) (mar law) sudska praksa, pravo utemeljeno na sudskim slučajevima: The bill of lading’s identity and legal standing is provided for by national and international law, by case law and precedent, and by common usage over many years. Most of the common law countries follow English statute and case law.

cash (n) (financ) gotovina, gotovinsko plaćanje, plaćanje gotovinom
**cash against documents (plaćanje)** (n) **(financ, mar law)** A method of payment for goods in which documents transferring title are given to the buyer upon payment of cash to an intermediary acting for the seller, usually a commission house. **gotovinsko plaćanje uz predaju prijevoznih dokumenata (teretnice itd.), gotovinsko plaćanje po predaji prijevoznih dokumenata (teretnice itd.)**

**Cashier's Office** /ˈkeɪʃər/ (n) **(shipping econ)**

**cash in advance (plaćanje gotovinom unaprijed (prije otpreme robe))**

**CFO** /ˈkeɪfoʊ/ (n) **(financ, mar law)** A method of payment for goods in which the buyer pays the seller in advance of the shipment of the goods ([https://www.msc.com/shipping-glossary](https://www.msc.com/shipping-glossary)).

**cash machine (bankomat)**

**cast** /ˈkaːst/ (v) **(marine eng)**

- lijevati cast in one piece lijevan iz jednog komada, cast iron lijevano željezo, sivi lijev
- (seamanship, ship handling, sailing/boating/yachting) throw (the line) baciti, dobaciti cast the line baciti konop (na obalu, na drugi brod / brodicu)
- (seamanship, ship handling, sailing/boating/yachting) baciti cast the anchor spustiti sidro, baciti sidro: The MV ..... dragged anchor 2 miles away but did not use enough her propulsion plant to help holding her mooring and did not cast her second anchor.

**casting** /ˈkeɪstiŋ/ (n) **(seamanship)**

- brodolomac casting-off orders **(seamanship)** zapovijedi za odvezivanje
- 1 Stand by engines!, 2 Are you ready to get underway?, 3 Stand by for letting go!, 4 single up fore and aft!, 5 Heave on breast line!, 6 Pay out on breast line!, 7 Let go head line / ster line / breast line / fore spring / aft spring!, 8 Let go towing line!, 9 Stand by bow anchor, 9 Finished with manoeuvring station!

**Casing** /ˈkeisiŋ/ (n) **(marine eng)**

- plašt, kućište, oplata cilindra, outlet casing odvodna (obložena) cijev, boiler casing plašt kotla, funnel casing oplata dimnjaka, iron casing željezna oplata, željezno kućište, rotor casing kućište rotora (turbine), boiler casing kućište kotla, twindlass motor casing casing kućište motora sidrenog vitla: Soon the windlass motor casing shattered ..., engine casing kućište stroja, kućište motora: This allowed boundary cooling of the engine casing to be started, inner casing nutarnje kućište: The inner casing carries the structural load from the HP compressor outer casing to the turbine casing;
- (marine eng) plašt, oplata

**Cask** /ˈkaːsk/ (n) **(cargo handling)**

- bačva (drvena, za alkoholna pića), drvena bačva

**Cashpoint** (n) **(UK)**

**cashpoint** 1 (financ) blagajna; 2 bankomat **cashpoint**

**Cash with order** (n) **(financ, mar law)** A method of payment for goods in which cash is paid at the time of the order and the transaction becomes binding on both buyer and seller. ([https://www.msc.com/shipping-glossary](https://www.msc.com/shipping-glossary)).

**Casing-off orders** **(seamanship)** zapovijedi za odvezivanje
cast iron (n) (marine eng) = gray iron lijevano željezo, sivi lijev, giza: Give extra attention to all valves, especially those made of cast iron.
cast off (v) 1 (seamanship) let go (line); to let go the dock lines in order to get under way. To remove the dock lines, or to free them from their cleats, and throw them to the dock (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) odbaciti uže (s bitve), Italian: mollare (gli ormeggi): He was aware that the end of the rope had been cast off from the mooring bitt on the pier and cast into the water. One of the deckhands went on deck to cast the lines off. On pilot's advice, all lines were cast off, and the two tugs began pulling the vessel away parallel from the berth.; 2 (seamanship) odvezati se (brod): Three Pilots boarded and the vessel cast off at 0900 with 2 tugs made fast. A single mooring line was put out, the two pilots passed each other on the gangway, and the vessel cast off to continue her passage to the sea.
cast steel (n) (marine eng) lijevani čelik
cast the line (v) (ship handling, seamanship, sailing/boating/yachting) = toss a line / throw / toss a line ashore, on the dock, or another boat / ship dobaciti konop / uže, baciti konop / uže
casualties /ˈkæʒjuəltiz/ (n) (safety) 1 a gubici; 2 poginuli u pomorskom nesreći, žrtve (u pomorskom nesreći); 3 štete casualty /ˈkæʒjuəlti/ (n) (safety) nesreća, pomorska nesreća, gubitak: In a recent maritime casualty, a vessel sank with loss of many lives. The second tug was quick alongside the casualty and passed across three charged fire hoses. Type of casualty: Capsizing/Listing EMSA No. ... 3-2008 A recent marine casualty involving a large fishing vessel resulted in multiple fatalities and loss of the vessel.
marine casualty' izvanredni događaj na moru koji je prouzročio štetne posljedice kojima su neposredno ugroženi ljudski životi, imovina i okoliš'; In accordance with the RESOLUTION A.849(20) adopted on 27 November 1997 - CODE FOR THE INVESTIGATION OF MARINE CASUALTIES AND INCIDENTS a marine casualty is an event that has resulted in any of the following: 1. the death of, or serious injury to, a person that is caused by, or in connection with, the operations of a ship; or 2. the loss of a person from a ship that is caused by, or in connection with, the operations of a ship; or 3. the loss, presumed loss or abandonment of a ship; or 4. material damage to a ship; or 5. the stranding or disabling of a ship, or the involvement of a ship in a collision; or 6. material damage being caused by, or in connection with, the operation of a ship; or 7. damage to the environment brought about by the damage of a ship or ships being caused by, or in connection with, the operations of a ship or ships.
pomorska nesreća serious casualty a casualty which does not qualify as a very serious casualty and which involves: .1 a fire, explosion, grounding, contact, heavy weather damage, ice damage, hull cracking or suspected hull defect, etc., resulting in; .2 structural damage rendering the ship unseaworthy, such as penetration of the hull underwater, immobilization of main engines, extensive accommodation damage etc.; or .3 pollution (regardless of quantity); and/or .4 a breakdown necessitating towage or shore assistance. ozbiljna nesreća (požar, eksplozija, nasukanje, oštećenje broda) uslijed kojega brod prestane biti sposoban za plovidbu, very serious casualty a casualty to a ship which involves the total loss of the ship, loss of life or severe pollution vrlo ozbiljna nesreća (s fatalnim posljedicama): The number of very serious casualties has continuously decreased since 2014 with 74 reported in 2017 www.emsa2018.com, suffer a casualty pretrpjeti nesreću: A bulker with 20 crew members onboard had suffered a marine diesel engine casualty that knocked out vessel’s main propulsion, Annual Overview of Marine Casualties and Incidents Godišnji prikaz pomorskih nesreća i nezgoda; 2 (safety) unesrećena osoba,
The casualty was extremely lucky not to suffer more severe or even fatal injuries. Unseretićen je imao sreću što nije doživio ozbiljnije ili čak smrtonosne ozljede. Very soon afterwards another crew member saw the casualty and alerted the chief officer. The emergency services arrived and stabilised the casualty before he was crane out of the hold on a stretcher. He immediately instructed the casualty not to move and contacted the ship’s medic. The fishing vessel skipper skilfully manoeuvred the boat alongside the casualty to enable his colleagues to recover him on board.

The casualty was sighted, it was a dis-masted yacht. The Navy is investigating a casualty to one of the main propulsion diesel engines (MPDE) on board the ship. The MPDE will need to be removed and rebuilt or replaced altogether.

Casualty events are unwanted events in which there was some kind of energy release with impact on people and/or ship including its equipment and its cargo or environment. (IMO; www.emsa2018.com)

Casualty events are classified in: capsize/listing, collision, contact, damage to equipment, grounding/stranding, fire, flooding, hull failure, loss of control, missing, non-accidental events, illegal discharge, other)

A large catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls. A catamaran was fitted with four gas turbine engines, two in each of the hulls.
Incat Crowther is pleased to announce construction of a 35m Catamaran Passenger Ferry for Samso Rederi in Denmark. The ferry will operate between the Aarhus and the island of Samso. https://gCaptain.com
catch fire (v) (safety) zapaliti se (o brodu): Four people died in a car ferry that caught fire off the coast of Greece. A product tanker caught fire off Dayangshan Island on 3 August, killing one crew member and injuring five others. The vessel caught fire after the collision and burnt for more than a week before sinking off China's east coast.

http://www.bbc.com/news/world-asia-china-42690247 The container ship caught fire on 9 March, which cost the lives of five crew members. The ship caught fire off the port.

catenary /koˈtiːnəri/ (navig, seamanship) matematička krivulja kojom se opisuje oblik sidrenoga lanca dok je brod usidren (http://kb.rocna.com/kb/Scope_vs_catenary); a mathematical term which describes the shape of a flexible line (like chain) hung between two points (like the bow of your boat and the seabed); The sag in a line strung between two points https://www.ypiyachts.com/; the curve of the ground tackle lančanica, krivulja ovješenog lanca: a catenary is seen in the real world when a flexible line hangs between two points. It is the effect of gravity, a uniformly directional force, acting along its length. A typical example is the chain and rope connecting your anchor to your boat (http://www.petersmith.net.nz/boat-anchors/catenary.php) In moderate winds of 20 knots, catenary is obvious and a section of the chain lies on the seabed. A more serious scenario of 50 knots wind – the catenary has all but disappeared, and the angle of pull on the anchor is dictated primarily by the scope, not the weight of the chain. (http://www.petersmith.net.nz/boat-anchors/catenary.php) flexible catenary fleksibilna lančanica

cater for /ˈkeitə/ (v) 1 opskrbljivati, snadijevati; 2 brinuti se o, skrbiti se o, pobrinuti se za: The engine control room was informed and the switchboard was then reconfigured with an additional generator to cater for the additional load.; 3 (shipping econ) udovoljiti (zahtjevima prometa), odgovoriti (zatjevima prometa), udovoljiti potražnji: The port will be expanded to cater for coal exports.

catering department /ˈkeitɪŋ/ (=the steward's / catering department) (n) (shipping econ) = steward's / catering department The catering or galley department is responsible for preparation and serving of foods to the crew on board of a ship. There are a number of jobs available in this department that includes Chief Steward, Chief Cook, Second Cook, Bakery/Pastry Man, Cleaners and Dish Washers. opća služba (na brodu), bijelo osoblje, brodski ekonomat
catering officer /ˈkeɪtərɪŋ/ (n) (mar law) časnik opće službe
catering staff (n) (mar law) bijelo osoblje, osoblje opće službe: The galley extraction fans and principal electrical equipment had been shut down some time earlier by the catering staff …
CAT fines (=catalytic fines) (n) (marine eng) using marine fuel with aluminium and silicon content; Cat fines (catalytic fines) are hard aluminium and silicon oxide particles that are normally present in heavy fuel oil. (https://www.motorship.com/news101/fuels-and-oils/on-line-measurement-of-catalytic-fines-in-hfo-systems) aluminjske i slikonske čestice u brodskom gorivu: Cat fines in fuel entering the engine will cause wear: The higher the amount of cat fines, the higher the wear will be. The recommended maximum acceptable level of cat fines entering the engine should always be as low as possible and maximum 15 ppm Al+Si for short periods https://marine.man-es.com/docs/librariesprovider6/
Wear from cat fines in two-stroke engines is found in the combustion chamber on cylinder liner, piston rings and piston ring grooves, resulting in high wear rates and possible scuffing. https://marine.man-es.com/docs/librariesprovider6/
catfish (n) (fishing) som
catfish (n) (fishing) mačka, mačka mrkulja
cathead (=cat) (n) (sailing vessels) a beam extending out from the hull used to support an anchor when raised in order to secure or ‘fish’ it (https://www.msc.com/shipping-glossary) soha sidra {obsolete (zastarj.)}
cathode corrosion protection (n) (safety) katodna zaštita
cathode ray tube /ˈkæθəʊd/ (=CRT) (n) (eletcr) katodna cijev
cathode tube (n) cold cathode tube elektronska cijev s hladnom katodom (eletcr) katodna cijev
cathodic protection (n) (safety, eletcr) katodna zaštita: Impressed Current Cathodic Protection Systems (ICCP) on ships is a long-term solution to corrosion problems and regarded as a superior alternative to sacrificial anode systems. https://www.marineinsight.com/
cat rig (n) (sailing/boating/yachting) snast jedrilice, kao kod lasera ili fina; a small sailing boat with a single mast stepped right in the bow laserska snast: A cat-rigged boat has a single mast, stepped well forward, carrying one fore and aft sail, behind the mast.
catshark (n) (fishing) Lat. Scyliorhinus canicula morska mačka, mačka
catspaw /ˈkætspoʊ/ (n) (seamanship) dvostruki uzao za kuku
cat’s paws (n) (oceanogr, meteorol) Area of small ripples on the surface of the water, created by very light wind on an otherwise becalmed sea surface http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ namreškano more, nabreškano more
cattle (n) (cargo) stoka
cattle ship (n) (nav arch) = livestock carrier brod za stoku, brod za prijevoz stoke
catwalk /ˈkæt wɔːk/ (=walkway) (n) 1 (nav arch) A raised bridge running fore and aft from the Midship House. It affords safe passage over the pipelines and other deck obstructions.
mostić (za hodanje koji spaja pramac i most na tankeru), pasarela (na tankeru); 2 (ports) finger pier; a narrow dock walkway which provides access to a vessel pasarela na gatu, gat

caulk /ko:k/ (=calk) (v) 1 (nav arch, sailing vessels) to fill in the bottom or side plank seams with a material (cotton or oakum) to prevent or stop leaks; zatvaranje kućinom / kudeljom razmaka između madira šuperiti, kalafatat(i), Italian: calafatare

https://www.boatdesign.net/threads/caulking-planks.14435/page-3; 2 (nav arch, sailing/boating/yachting)

brtviti, začepiti (to caulk = kalafatati: „vodonepropusno brtviti sljubnice i stikove nabijanjem šuperiva između platica ili trenica drvena trupa“, (irena radić rossi OSNOVNA TERMINOLOGIJA ZA POTREBE ARHEOLOGIJE BRODA, archaelogia adriaatica ix (2015), 415-453) - ("to make the seams and joints watertight by compressing caulk between the planks or strakes of a wooden hull.") J. Šonje, ur. 2000.Rječnik hrvatskoga jezika)

caulking /'kɔːkɪŋ/ (=calking (US); chinsing) (n) (sailing/boating/yachting, sailing vessels, nav arch) The operation of jamming material into the contact area to make a joint watertight or oiltight. (https://www.history.navy.mil/) šuperenje, kalafanje

caulking-iron (n) (sailing/boating/yachting, nav arch) dlijeto za šuperenje

caulking-mallet (n) (sailing/boating/yachting, nav arch) drveni bat za šuperenje

cause of accident (n) (safety) uzrok nezgode contributory cause of accidents to the accident uzroci koji su doprinijeli nesreći/nezgodi: The purpose of the analysis is to determine the contributory causes and circumstances of the accident as a basis for making recommendations to prevent similar accidents occurring in the future. www.gov.uk/maib

cause of collision (n) (navig, safety) uzrok sudara: The safety investigation concluded that the immediate cause of the collision was communication between the two vessels over the
caution (n) 1 (safety) oprez, upozorenje: Coast Pilot #9 advises mariners to use caution transiting Ouzinkie Narrows, noting currents and shallows, shoals and rocks. https://gCaptain.com to navigate with caution (navig) ploviti oprezno, proceed with caution ploviti oprezno, exercise extreme caution biti na najvećem oprezu: Vessels in the area are advised to exercise extreme caution. https://gCaptain.com; 2 (safety) opomena

cavitation /ˌkæviˈteiʃə/ (n) (nav arch) the formation of air bubbles; The effect caused when air is drawn down into the water by a propeller, resulting in loss of power, overspending of the engine and propeller, and pitting of the metal surfaces of the propeller

CCTV (=Close-Circuit Television; video surveillance) (n) (safety) video-nadzor, sustav videonadzora, nadzorna kamera marine CCTV

CCUS (=carbon dioxide capture utilization and storage) (n) (marine eng, environ) prihvat, korištenje i skladištenje ugljičnog dioksida: The two companies will expand its business in carbon dioxide capture utilization and storage (CCUS) value chains, effectively connecting CO2 collection sites with storage or use sites.

cease /siːz/ (v) (mar law) prestati, obustaviti, završiti: On advice from the terminal we decided to cease discharging and proceed to sea until the typhoon had passed.

celing /ˈsiːlɪŋ/ (n) 1 (nav arch) planking with which the floor and sides of a vessel's hold is covered podnice, pajoli ceiling planks daske podnica, tavaloni podnica; 2 (sailing vessels, nav arch, sailing/boating/yachting) = inner planking planks attached to the inside of the frames of a wooden boat; platice s unutrašnje strane rebara unutarnja oplata; 3 (marine eng) strop, pokrov: As a result of the fire, there was considerable smoke and fire damage to the bulkheads and ceiling. ceiling tank pokrov tanka (!!! ceiling nu konstrukciji broda nije strop, već podnica)

ceiling
ceiling coils (n) (nav arch, marine eng) spiralne cijevi tanka ispod palube, serpentine tanka ispod palube
celestial body /siˈlestiəl/ (n) (navig) nebesko tijelo: The starting point marks where the Sun crosses the celestial equator in the spring and the angle from it to a celestial body is called the sidereal hour angle, or SHA.
celestial fix (n) (navig) nebeska pozicija, pozicija dobivena astronomskom navigacijom: Due to the long time it takes to complete a set of celestial observations, advancing and retarding LOPs is a common feature of a celestial fix.
celestial horizon (n) (navig) an imaginary plane through the observer at right angles to the local vertical horizon (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) astronomski horizont, nebeski horizont
celestial navigation (n) (navig) Celestial navigation systems are based on observation of the positions of the Sun, Moon, Planets and navigational stars. Such systems are in use as well for terrestrial navigating as for interstellar navigating. By knowing which point on the rotating earth a celestial object is above and measuring its height above the observer's horizon, the navigator can determine his distance from that subpoint. A nautical almanac and a marine chronometer are used to compute the subpoint on earth a celestial body is over, and a sextant is used to measure the body's angular height above the horizon. That height can then be used to compute distance from the subpoint to create a circular line of position. A navigator shoots a number of stars in succession to give a series of overlapping lines of position. Where they intersect is the celestial fix. The moon and sun may also be used. The sun can also be used by itself to shoot a succession of lines of position (best done around local noon) to determine a position (Bowditch 2002) nebeska navigacija, astronomska navigacija practise celestial navigation provoditi astronomsku navigaciju primijeniti astronomsku navigaciju (Used primarily as a backup to satellite and other electronic systems in the open ocean.)
celestial object (n) (navig) nebesko tijelo take the bearing of a celestial object snimiti azimut nebeskog tijela
celestial observation (n) (navig) motrenje nebeskih tijela, snimanje nebeskih tijela
celestial pole (n) (navig) nebeski pol: In this time exposure, stars circle the north celestial pole as Earth turns. Stand on the North Pole, latitude 90° N, and overhead will be the north celestial pole, declination +90°. (http://www.skyandtelescope.com)
cell /sɛl/ (n) (nav arch) COMPARE container cell guide a structural arrangement in container vessels that permits ship containers to be stowed in a vertical line with each container supporting the one above it; The construction system employed in modern cellular container carriers; permits quick loading and discharge of sea containers under-deck, stowed in a vertical line with each container supporting the one above it. (https://www.msc.com/shipping-glossary) ĉelija (u brodskom skladištu za kontejnere): In modern vessels cells typically have guides for cranes at each corner to increase the speed and efficiency of loading and unloading containers. https://www.msc.com/shipping-glossary

Cell guide (n) (nav arch) steel bars and rails used to guide containers during loading and discharging whilst sliding in the ship vodilica za kontejnere u skladištu broda: High cube boxes stowed cumulatively, resulting in the highest container extending well above the top of the cell guides. Cell guides on the sides of the hold ensure that the containers stack properly. With cell guides, it is virtually impossible to lose a container overboard during rough weather conditions. https://www.msc.com/ Check
that all cell guides are clear of obstacles and that they are straight and not buckled. https://safety4sea.com/cell position (n) (shipping econ, cargo handling) The location of a cell on board a container vessel identified by a code for successively 1) the bay, 2) the row and 3) the tier, indicating the position of a container on that vessel. (https://www.msc.com/shipping-glossary) slot cellular /ˈselər/ (n) fully cellular container ship kontejnerski brod (samo za prijevoz kontejnera) (nav arch) celularan, kontejnerski cellular vessel (n) (nav arch) a vessel, specially designed and equipped for the carriage of containers kontejnerski brod cement carrier /siˈment/ (n) (nav arch) brod za cement, brod za prijevoz cementa centerboard trunk (n) (sailing/boating/yachting) = centreboard case kućište pomične kobilice centerline (n) (nav arch) simetrala centerline fairlead (n) (nav arch) privezno oko (na pramcu), panama aft centerline fairlead privezno oko na krmi, panama na krmi center of gravity (n) (US) (phys) = centre of gravity; (G) sustavno težište broda (center = US spelling of centre (UK)) center of gravity in metres from bottom of keel (n) (stabil) težište u metrima od dna kobilice center point method (n) (navig) metoda potrage i spašavanja s polaskom iz središnje točke center point method - rectangular area metoda pravokutne potrage i spašavanja s polaskom iz središnje točke, center point method - circular area metoda kružne potrage i spašavanja s polaskom iz središnje točke, center point method - rectangular area, bearing and distance metoda pravokutne potrage i spašavanja s polaskom iz središnje točke, s određenim azimutom i udaljenošću centigrade /ˈsentɪgreɪd/ (n) celzijev stupanj, stupanj celzija centilane (n) (navig) pojas frekvencija podijeljen u sto dijelova (u sustavu LORAN C) centistoke (n) (marine eng) A measurement scale for the viscosity of a liquid. (www.euronav.com) centistoke central processing unit (=CPU) (n) (navig) COMPARE VDR središnja procesna jedinica (VDR-a) centre (n) centre of gravity težište, bottom dead centre (BDC) donja mrtva točka, top centre gornja točka (marine eng) središte, centar centreboard (=centerboard (US)) (n) (sailing/boating/yachting) COMPARE daggerboard a centreboard pivots on a bolt through the cenreboard case and rotates (fore and aft) into its case as it is raised while the tip moves aft in the water; pomična kobilica koja se podizanjem ili spuštanjem okreće oko svoje osi, a dno lista peraje koso se diže prema trupu i obratno pomična kobilica, uvlačiva peraja (jedrilice), koso pomična peraja, centarbot
ooching trzanje (zaletavanje u regati)
centreboard case (n) (sailing/boating/yachting) kućište pomične kobilice, kućište centarbota centreboard case trunk kućište pomične kobilice, kućište centarbota
centre console (n) (navig) središnji pult, glavni pult: The master returned to the centre console, where he attempted to re-establish control of the propulsion;
centre console boat (=CC boat; centre console) (n) (sailing/boating/yachting, fishing) brodica (ribarska itd.) centralnom konzolom: Center-consoles are perfect fishing boats, offering plenty of standing room and open decks for following a fish, open sky for casting, few things to snag lines on, good security in the cockpit, and capability in rough water.
https://www.boattrader.com/
centre girder (n) (nav arch) hrptenica
centre keelson /'sentə ,kelsən; 'sentə ,kɛlsən/ (n) (nav arch) hrptenica
centre lead (n) (nav arch, seamanship) središnje oko, panama: The larger tug was made fast through the centre lead forward to perform the tow The Deck Cadet was passing a mooring rope to the tug from the aft winch drum after taking it around a set of bitts and out through the aft centre fairlead.
centre-line (n) (nav arch) os, središnja linija, simetrala
centreline fairlead (n) (nav arch) pramčano privezno oko, panama%
centreline plane (nav arch) simetralna ravnina
centre of buoyancy (=B) (n) (stabil) the geometric centre of the underwater volume of the ship at a particular instant, and the point through which the total buoyancy force (Bf) is considered to act vertically upwards (Rhodes, Ship’s Stability, Seamanship, 2003) težište istisnine, težište uzgona, centar uzgona: Ship stability is concerned with the relative positions of G (centre of gravity) and B (centre of buoyancy) as the ship is heeled. The officer in charge of loading the ship must be fully conversant with the way that G moves when shifting, loading and discharging weight. longitudinal centre of buoyancy (LCB) uzdužni centar uzgona
centre of effort (=CoE) (n) (sailing/boating/yachting) The geometric center of force created by the wind on the sails. Subject to change based on sail shape and wind direction http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ težište (sila pri jedrenju); 2 (ship handling) težište sila vjetra
centre of flotation (n) (stabil) The centroid of area of a waterplane https://officerofthewatch.com/tools/maritime-dictionary/ centar plutanja longitudinal centre of flotation (LCF) uzdužni centar plutanja: uzdužni centar plovnosti
centre of gravity; (G) (n) (nav arch, stabil) the point where the total weight force (Wf) of the ship is considered to act vertically downwards; The point of equilibrium of the combined weight of a containership and its cargo. For maximum stability, it must be as low as possible in the centre of the structure. (https://www.msc.com/shipping-glossary) sistemno težište broda, sustavno težište broda, sila teže broda, težište broda, težište gravitacije vertical shift of centre of gravity; (G) vertikalni pomak sustavnoga težišta broda, virtual centre of gravity; (G) virtualni položaj sustavnoga težišta broda, longitudinal centre of gravity; (G) (LCG) uzdužni centar gravitacije centre of gravity in metres from after perpendicular (n) (stabil) udaljenost
centre of gravity in metres from after perpendicular (Bales) (n) (stabil)
udaljenost težišta teretnog prostora od krmene okomice (za ukraćaj bala tereta)
centre of gravity in metres from after perpendicular (Grain) (n) (stabil)
udaljenost težišta teretnog prostora od krmene okomice (za žito)
centre of gravity in metres from bottom of keel (Bales) (n) (stabil) Kg
teretnog prostora od kobilice (za bale)
centre of gravity in metres from bottom of keel (Grain) (n) (stabil) KG
teretnog prostora od kobilice (za žito)
centrifugal /senˈtrifjʊɡəl; ˈsentriˌfjuːɡəl/ (adj) centrifugalan
centrifugal pump (n) (marine eng) A pump consisting of a shaft to which vanes are attached and
which rotates in a circular casing. (www.euronav.com) Centrifugalna pumpa,
centrifugalna sisaljka, centrifugalna crpka
centrifugate /senˈtrifjʊɡət/ (v) (marine eng) centrifugirati
centrifuge /ˈsentriˌfjuːdʒ/ centrifuga
centrifuge pump (n) (marine eng) = centrifugal pump centrifugalna pumpa
centrifuging /ˈsentriˌfjuːdʒɪŋ/ (n) (marine eng) centrifugiranje: Regular centrifuging of the oil
is essential for removing particles and water from the oil sump; some engines have the centrifuge running
twenty-four hours a day; only being stopped for cleaning.
CEO (=Chief Executive Officer (US); managing director (UK)) (n)
(hum_resources) = chief executive officer izvršni direktor, glavni izvršni
direktor: German shipping line Hamburg Süd has announced the appointment of Poul Hestbaek as its
new CEO, replacing Arnt Vespermann who will leave the company by the end of the first quarter.

certificate of competency (=CoC) (n) (mar law, hum_resources) A certificate issued and endorsed by the administration, for masters, officer and GMDSS radio operators in accordance with the provisions of chapters II, III, IV or VII and entitles the lawful holder thereof to serve in the capacity and perform the functions involved at the level of responsibility specified.
(https://safety4seam.com/cm-stcw-convention-terms-and-definitions/) svjedodžba o osposobljenosti pomoraca (zapovjednika, upravitelja stroja, časnika palube ili stroja, članova posade kao sastavnog dijela straže itd.), ovlaštenje, brevet, patent, tiket: He held a Chinese STCW II/2 certificate of competency (CoC) with a UK certificate of equivalent competency (CEC). The master was ... years old and held an STCW6 II/2 Master’s Certificate of Competency. IMO STCW certificate of competency svjedodžba o osposobljenosti pomoraca prema IMO konvenciji STCW (1978/1995/2010): III/5 - CoC for ratings as able seafarer engine in a manned engine-room or designated to perform duties in a periodically unmanned engine-room II/1 - CoC for officers in charge of a navigational watch on ships of 500 gross tonnage or more časnik plovidbene straže na brodu od 500 BT ili većem (STCW II/1), poručnik trgovačke mornarice (naziv svjedodžbe/ ovlaštenja u uobičajenoj uporabi prije usvajanja Konvencije IMO STCW 1978/1995), II/2 - CoC for masters and chief mates on ships of 3000 gross tonnage or more zapovjednik broda od 3.000 BT ili većeg (STCW II/2, točke 1-2), prvi časnik palube na brodu od 3.000 BT ili većem (STCW II/2, točke1-2), zapovjednik duge plovidbe (naziv svjedodžbe/ ovlaštenja u uporabi prije usvajanja Konvencije IMO STCW 1978/1995): The master held a .... STCW1 II/2 master’s certificate for vessels of 3000 gross tonnes or more and a certificate of equivalent competency issued by the ---- Maritime Authority., II/3 - CoC for officers in charge of a navigational watch and of masters on ships of less than 500 gross tonnage, engaged on near-coastal voyages časnik plovidbene straže na brodu do 500 BT u priobalnoj plovidbi (STCW II/3, točke 3-4),, zapovjednik broda do 500 BT u priobalnoj plovidbi (STCW II/3, točke 5-6),, II/4 - CoC for ratings forming part of a navigational watch član posade koji čini dio plovidbene straže (STCW
II/4), II/5 - CoC for ratings as able seafarer deck stariji član posade koji čini dio plovidbene straže (STCW II/5), III/1 - CoC for officers in charge of an engineering watch in a manned engine-room or designated duty engineers in a periodically unmanned engine-room časnik stroja odgovoran za stražu u strojarnici sa strojem porivne snage od 750 kW ili jačim (STCW III/1), časnik stroja II. klase (naziv svjedodžbe/ ovlaštenja u uporabi prije usvajanja Konvencije IMO STCW 1978/1995), III/2 - CoC for chief engineer officers and second engineer officers on ships powered by main propulsion machinery of 3,000 kW propulsion power or more upravitelj stroja na brodu sa strojem porivne snage od 3000 kW ili jačim (STCW III/2, točke 1-2), drugi časnik stroja na brodu sa strojem porivne snage od 3.000 kW ili jačim (STCW III/2, točke 1-2), svjedodžba o položenoj I. klasi - upravitelj stroja (naziv svjedodžbe/ ovlaštenja u uporabi prije usvajanja Konvencije IMO STCW 1978/1995), III/3 - CoC for chief engineer officers and second engineer officers on ships powered by main propulsion machinery of between 750 kW and 3,000 kW propulsion power upravitelj stroja na brodu sa strojem porivne snage do 3000 kW (STCWIII/3), drugi časnik stroja na brodu sa strojem porivne snage do 3.000 kW (STCW III/3), III/4 - CoC for ratings forming part of a watch in a manned engine-room or designated to perform duties in a periodically unmanned engine-room član posade koji čini dio plovidbene straže u strojarnici (STCW III/4), III/5 - CoC for ratings as able seafarer engine in a manned engine-room or designated to perform duties in a periodically unmanned engine-room stariji član posade koji čini dio plovidbene straže u strojarnici (STCW III/5), III/6 - CoC for electro-technical officers časnik elektrotehnike (STCW III/6), III/7 - CoC for electro-technical rating brodski električar (STCW III/7), CoC for GMDSS radio operators GMDSS radio operator (STCW IV/2), V/1 - CoC for masters, officers and ratings on oil and chemical tankers Svjedodžba o dopunskoj osposobljenosti – Rad na tankerima za ukapljene plinove (STCW V/1-2-2), obtain the certificate of competency steći svjedodžbu za časnika palubne straže, steći svjedodžbu za časnika palube: He has recently obtained his STCW II/2 Chief Mate’s Certificate, V/2 - CoC for masters, officers, ratings and other personnel on ro-ro passenger ships Svjedodžba o dopunskoj osposobljenosti – Mjere sigurnosti na putničkom brodu (STCW V/2), Second Class Engineer 1 svjedodžba strojara druge klase (= svjedodžba časnika straže u stroja+u), First Class Engineer certificate of competency svjedodžba strojara prve klase, certificate of competency of Competence svjedodžba o osposobljenosti (za pomoračka časnička zvanja prema IMO-konvenciji STCW), First Mate’s certificate of competency of Competency svjedodžba o ovlaštenju za prvog časnika palube, fake certificate of competency lažna svjedodžba o osposobljenosti pomorca: The Government
has taken action on fake certificates of competency.

certificate of competency as Master (n) (mar law) (hum_resources) svjedodžba o osposobljenosti za zapovjednika (How to obtain a certificate of competency as Master?: Ships of 3,000 gross tonnage or more - Masters must: Previous certificate & seagoing service: meet requirements for certification as an officer in charge of a navigational watch on ships of 500 gross tonnage or more and have at least 36 months approved seagoing service in that capacity; however, this period may be reduced to not less than 24 months if not less than 12 months of such seagoing service has been served as chief mate. Education & Training: have completed a period of approved education and training and meet the standard of competence specified in section A-II/2 of the STCW Code for masters on ships of 3,000 gross tonnage or more.)

Certificate of Competency First Class (Deck) (n) (mar law, hum_resources) SEE Class 1 Certificate svjedodžba o osposobljenosti za prvog časnika palube i zapovjednika broda

Certificate of Competency First Class (Engineering) (n) (mar law, hum_resources) SEE Class 1 Certificate svjedodžba o osposobljenosti za upravitelja stroja (strojara I. klase)

certificate of compliance (=Certificate of Conformance; Certificate of Conformity) (n) (logist) A Certificate of Conformance is a document certified by a competent authority that the supplied good or service meets the required specifications. svjedodžba o sukladnosti proizvoda (s propisima nadležnih organa vlasti)

Certificate of Compliance for Fishing Vessel (n) (mar law, nav arch, fishing) Svjedodžba o usklađenosti ribarskog broda

Certificate of Delivery (n) (mar law) a certificate, indicating the condition of a vessel upon delivery for a charter including ballast, available bunkers and fresh water isprava o staljanju broda u najam, isprava o ulasku broda u najam

Certificate of Fitness (n) (safety) a document that certifies an individual or organization as being fit or competent to engage in a particular work activity or industrial project. (www.safopeia.com) svjedodžba o prikladnosti (broda, opreme, osobe itd.), svjedodžba o sposobnosti

Certificate of Fitness for the Carriage of Dangerous Chemicals in Bulk (n) (mar law, safety, nav arch) Svjedodžba o sposobnosti za prijevoz opasnih kemikalija u razlivenom stanju

Certificate of Fitness for the Carriage of Dangerous Goods (n) (nav arch, mar law, safety) Svjedodžba o sposobnosti za prijevoz opasnog tereta

Certificate of Fitness for the Carriage of Liquified Gases in Bulk (n) (mar law, nav arch, safety) Svjedodžba o sposobnosti za prijevoz ukapljenih plinova

Certificate of Fitness for the Transport and Handling of Limited Ammounts of Hazardous and Noxious Liquid Substances in Bulk on Offshore Supply Vessels (n) (mar law, nav arch, safety) Svjedodžba o sposobnosti broda za opskrbu za prijevoz i rukovanje ograničenim količinama opasnih i štetnih tvari u razlivenom stanju

Certificate of Higher Education (CertHE) (UK) (n) (hum_resources)
Certificate of Higher Education (CertHE) (UK)

Certificate of Higher Education (CertHE) (UK) award for completing the first year of a degree course

Certificate of Inspection (n) (shipping econ) A document certifying that merchandise (such as perishable goods) was in good condition immediately prior to its shipment. (A document certifying that merchandise (such as perishable goods) was in good condition immediately prior to its shipment.)

Potvrda o pregledu robe (prilikom ukrcaja): Eventually, just prior to departure I received a Shipper’s Declaration and a Certificate of Inspection and this was supplied only after contacting the local MSA and requesting them to board vessel for discussions and clarification.

Certificate of Origin (=CoO) (n) (mar law, shipping econ, logist) A certified document used in international trade showing the origin of goods. A certificate of origin is an official document that states in which country or group of countries a certain product was manufactured.

https://www.logisticsglossary.com/term/certificate-of-origin/ Svjedodžba o podrijetlu robe certificate of pratique (n) (mar law) = free pratique slobodni promet certificate of proficiency (n) (mar law, hum_resources) A certificate, other than a certificate of competency issued to a seafarer, stating that the relevant requirements of training, competencies or seagoing service in the convention have been met. Documentary evidence (https://safety4sea.com/cm-stcw-convention-terms-and-definitions/) isprava o ispunjavanju uvjeta IMO STCW konvencije certificate of redelivery (n) (mar law) COMPARE Certificate of Delivery certificate, indicating the condition of a vessel upon redelivery from a charter including ballast, available bunkers and fresh water isprava o izlasku broda iz najma certificate of registration (n) (mar law, nav arch) isprava kojom se dokazuje državna pripadnost broda, njegova namjena i podrucje plovidbe upisni list provisional certificate of registration privremeni upisni list certificate of shipment (n) (mar law, shipping econ) otpremnička potvrda, kućna teretnica Certificate of Test and Thorough Examination of Lifting Appliances (n) (safety) Svjedodžba o ispitivanju i cjelovitom pregledu prekrcajnih sredstava Certificate of Test and Thorough Examination of the Crane or Hoisting Device Intended for the Operation on Board Ship (n) (ship’s equipment, nav arch, mar law) Potvrda o ispitivanju i pregledu dizalice odnosno naprave za dizanje koja služi za radove na brodu Certificate of Test and Thorough Examination of the Lift (n) (nav arch, mar law) Potvrda o ispitivanju i temeljnom pregledu dizala Certificate of Weight (n) (logist, cargo handling) svjedodžba o težini (tereta, pošiljke)

COMPARE diploma certificate or award for completing the first year of a degree course)

potvrda o visokoškolskom obrazovanju (jednogodišnjem)

visokoškolskom obrazovanju (jednogodišnjem)

Certificate of Weight
It is the master’s responsibility to verify that the vessel is properly certified and equipped for carrying any intended cargo as soon as he is told about it by the charterers or owners. The vessel was in good condition, had been certified by the MCA 6 weeks earlier, and was manned by an experienced skipper and two crew. The lifting gear and sling were duly certified for the load and had not been subjected to any severe loads since new;

CESNI - European Committee for drawing up Standards (Comité Européen pour l’élaboration des standards pour la navigation intérieure) SEE CCNR - Central Commission for the Navigation on the Rhine an international body set up under the auspices of the CCNR, and in order to streamline the legal frameworks governing the professional qualifications in Europe, certificates of qualification, service record books and logbooks, issued in accordance with the Rhine Navigation Personel Regulation (https://eur-lex.europa.eu/resource.html?)

This Resolution promotes the development of uniform, modern, user-friendly requirements and takes into account the CCNR’s “Vision 2018” for the sustainable development of inland navigation.

Cesser Clause /ˈsesə,kləːz/ (mar law) A clause in a charterparty which releases the charterer from his personal liability to the shipowner and substitutes the bill of lading holder as the debtor. The substituted bill of lading holder thus becomes personally liable for the charges and the shipowner waives his rights against the charterer.

cession /ˈseʃən/ (mar law, shipping econ) ustupanje, ustup, ustupanje prava

cetane index /ˈsiteɪn/ (marine eng) cetanski indeks
cetane number /ˈsiteɪn/ (marine eng) A number which expresses how well a diesel fuel ignites.
Cetanski broj

CEU (=ceu; car equivalent unit) (n) (cargo handling) jedinica za prijevoz automobila, CEU jedinica: A 6,500 ceu Pure Car/Truck Carrier (PCTC) berthed in Mombasa yesterday afternoon for a regular discharge operation.

C&F (=cost and freight) (n) (mar law, shipping econ) COMPARE C.F.R. term of sale meaning "cost/cargo and freight" whereby Seller pays for cost of goods and freight charges up to destination port cijena (robe) i vozarina C&F (named port of destination) cijena i vozarina (s naznakom lake odredišta) (In July, 1990 the International Chamber of Commerce replaced C&F with CFR.)

cf. /ken'tes/ usp., usporedi, isporedi (lat confer)

CFAR (=constant false alarm rate) (n) (navig) broj lažnih alarma sveden na konstantnu veličinu (o ARPA-i)

CFD (=Congestion Fee Destination.) (n) (logist) naknada za štetu zbog zakrčenosti lake odredišta

CFPP (=Cold Filter Plugging Point.) (n) (marine eng) Cold filter plugging point (CFPP) is the lowest temperature, expressed in degrees Celsius (°C), at which a given volume of diesel type of fuel still passes through a standardized filtration device in a specified time when cooled under certain conditions (https://en.wikipedia.org) točka prekida protoka kroz filter za nezagrijano gorivo: The Cold Filter Plugging Point (CFPP) method is used to determine the low-temperature operability CFPP is a critical property used to forecast the owest temperature at which a fuel will freely flow through filters in a diesel engine system. https://www.anton-paar.com/?eID=documentsDownload&document=58092&L=0

C.F.R. (=cost and freight) (n) (shipping econ, mar law) A trade term requiring the seller to arrange for the carriage of goods by sea to a port of destination, and provide the buyer with the documents necessary to obtain the goods from the carrier. Under CFR, the seller does not have to procure marine insurance against the risk of loss or damage to the goods during transit.; Cost and Freight (named destination port): seller must pay the costs and freight to bring the goods to the port of destination. However, risk is transferred to the buyer once the goods have crossed the ship’s rail.

(https://www.dhl.com/hr/hr/home/nasi-odjeli/teret/korisnicka-podraska/incoterms-2020.html) cijena s vozarinom, vanjskotrgovinski uvjet (INCO) koji uključuje cijenu robe i vozarina

CFS (=container freight station) (n) (logist, shipping econ) = Container Freight Station A CFS (container freight station) is a warehouse that specializes in the consolidation and deconsolidation of cargo. (https://www.flexport.com/); A facility at which (export) LCL cargo is received from merchants for loading (stuffing) into containers or at which (import) LCL cargo is unloaded (stripped) from containers and delivered to merchants. (https://www.msc.com/shipping-glossary)

zbirno skladište, konsolidacijsko skladište, zbirna postaja / stanica / centar (za kontejneriziranu robu): An LCL (less than container load) shipment will be taken to a CFS at origin to be consolidated into a container with other cargo. The container will then be trucked to the CY (container yard) before being loaded onto the vessel. https://www.flexport.com/
C.F.S. Receiving Service  
(n) (logist) the service performed at loading port in receiving and packing cargo into containers from CFS to CY or shipside. ([https://www.msc.com/shipping-glossary](https://www.msc.com/shipping-glossary))

usluge konsolidacijskog skladišta, usluge zbirnog skladišta, usluge zbirnog centra, usluge CFS centra 'CFS Receiving Services' referred herein are restricted to the following: Moving empty containers from CY to CFS; Drayage of loaded containers from CFS to CY and/or ship's tackle; tallying: Issuing dock receipt/shipping order; Physical movement of cargo into, out of and within CFS; Stuffing, sealing and marking containers; storage; Ordinary sorting and stacking; Preparing carrier's internal container load plan ([https://www.msc.com/]).

chafing  (n) (seamanship) To wear the surface of a rope by rubbing against a solid object habati se (o konopu): Mooring lines may chafe or get caught in the area of locks.

chaff  (n) (electr) metalni listići za radarske protumjere

chafing gear  material used to protect lines from excessive wear materijali za zaštitu od trošenja trenjem, chafing plate a bent plate, which minimizes the chafing of ropes as at hatches zaobljeni lim (za ublažavanje trenja užadi) protutarni lim, chafing guards protutarne vodilice: The mooring teams were fitting chafing guards to the lines.

chain  (n) (seamanship, ship's equipment) sidreni lanac: ... the windlass hydraulic motor suddenly failed and the entire 11 shackles of chain ran out ...

chain block  (n) (seamanship, cargo handling) lančani čekrk, lančani koloturnik, lančani parank: The bowl was being lowered on to the shaft by the rating using a chain block. The chain block was used at an angle to lift engine components.

chain-bolt  (n) (sailing vessels) svornjak sprežnjaka puta

chain cable  (n) (seamanship, nav arch, ship's equipment) sidreni lanac: The starboard anchor was quickly let go using about 10m of chain cable.

chain drive  (n) (marine eng) lančani pogon, lančani prijenos

chain fall  (n) (cargo handling, marine eng) lančani čekrk

chain guide  (n) (nav arch) vodilica lanca
chain hook (n) (seamanship) kuka za slaganje lanca
https://www.gsproducts.co.uk/8mm-stainless-steel-clevis-slip-chain-hook/
chain link (n) (nav arch) oko lanca, karika, maja: Just as the skipper stopped heaving, the hook opened up under load, causing it to be released from the chain link. Suddenly, a chain link parted and the tugger wire instantly became slack.

chain locker (n) (nav arch) the compartment for storing the anchor chains, located near the bow of the ship. lančanik, prostor za lance, Italian: pozzo delle catene: The last length of chain had broken loose from the chain locker, and the AB was hit and injured by the bitter end.

chain mark (n) (seamanship) oznaka duljine lanca

chain of pipes (n) (marine eng) niz cijevi: The high-pressure gas is distributed via a chain of double-walled pipes to each cylinder. www.man-es.com

chain pipe (=chain-pipe) (n) (nav arch) pipe leading from the forecastle deck to the chain locker cijev lančanika, cijev lanca

chain plate (n) (nav arch) uglava
chain pulley (n) (seamanship, nav arch) podigač sidrenog lanca
chain sling (n) (cargo handling) lančani pasac: Stevedores were securing containers on board a vessel with chain slings.
chain slip (n) (nav arch) otpusna kuka lanca
chain stopper (n) (nav arch) A device used to secure the chain cable when riding at anchor, thereby relieving the strain on the windlass, and also for securing the anchor in the housing position in the hawsepipe. (https://www.history.navy.mil/) zapor lanca, štoper sidrenog lanca: The vessel approached the single point mooring (SPM) to pick up the chafing chain from the buoy and secure it to her bow chain stopper. A chain stopper was subsequently applied to the tug towline (48mm diameter wire) in order for the eye to be placed over the bitts.

https://www.tradekorea.com/product/detail/P333835/Ship-Dog-Type-Cable-Clench-Anchor-Releaser.html

chain well (n) (nav arch) zdenac sidrenog lanca
chainwheel (n) (nav arch) = cable lifter = gipsy = wildcat podigač lanca
chamber (n) combustion chamber komora izgaranja, komora za sagorjevanje, ionization chamber ionizacijska komora (marine eng) komora Chamber of Commerce /ˈtʃɛimbə/ (n) trgovinska komora
chamfer /ˈtʃæmfə/ (v) (nav arch) to cut off the sharp edge at an angle of 90 degrees odrezati pod kutom od 90 stupnjeva (u brodogradnji)
chamfer /ˈtʃæmfə/ (n) (sailing/boating/yachting) rounded edge of the corner at a 45° angle zaobljena oštrica kuta palube (pramčane ili krmene): The boat certainly has a giant foredeck chamfer. This reduces weight and encourages the bow to emerge from waves more readily.

https://www.guillaumeverdier.com/
chandler /ˈtʃændər/ (n) (shipping econ) a company providing the ship supplies to operate and serve its crew, such as groceries; paper products; engine parts; electronics; hardware; etc. A chandler sells these supplies to the ship's agent. brodoopskrbljivač [Originally, chandlers (candle makers) provided illumination to ships.]

chandlery /ˈtʃændləri/ 1 (ports, shipping econ) skladište brodske opreme (u luci), spremište brodske opreme; 2 (seamanship) brodske i pomoračke potrepštine; 3 (sailing/boating/yachting) a store that sells nautical gear nautička trgovina

Change of Destination (=COD) (n) (logist) Change Of Destination. This is a request asking the container ship to discharge your container and transport your goods to another destination than what was originally booked. (https://blog.greencarrier.com/) promjena odredišta (pošiljke), zahtjev za promjenu odredišta (pošiljke)

change of trim at aft end (n) (cargo handling, nav arch) promjena trima na krm

change oil (n) (marine eng) izmjena ulja

change over 1 (v) (marine eng) prebaciti (s jednog sustava na drugi): the engineers changed over from the low to the high sea water cooling suction; 2 (marine eng, navig) prebacivanje changeover from automatic to manual steering prebacivanje s automatskog na ručno kormilarenje

change over2 (n) (navig, hum_resources) razmjena, zamjena change over of pilots (navig) zamjena peljara, razmjena peljara: The accident occurred during a routine changeover of pilots at Gravesend Reach pilot boarding station Be ready for change over of pilots. [also: changeover]

change scale (n) (navig) promjena mjerila (u sustavu ECDIS)

changing over the watch (seamanship) zamjena straže, smjena straže

channel /ˈtʃænəl/ 1 (navig) plovidbeni kanal, kanal: As the east channel is narrow, and weather conditions were poor, I slowed down to allow the other vessel to clear the channel before we entered it. narrow channel uski kanal, navigable channel plovni / plovidbeni kanal: Vessel A was southbound in the channel while Vessel B was approaching the channel entrance on a northerly course. 5 cables from the channel entrance, course was adjusted on the autopilot to 345° in accordance with the passage plan., channel entrance ulaz u plovidbeni kanal, buoyed channel kanal označen plutačama, approach channel prilazni kanal, leave the channel isploviti iz kanala, enter the channel uploviti u kanal, clear the channel napustiti kanal, isploviti iz kanala: While the tanker waited for the cargo ship to clear the channel, no action was taken to stop the tanker from slowly moving towards the channel’s entrance., exit the channel isploviti iz kanala, izaći iz kanala, approach the channel prići kanalu, približiti se kanalu, cross the channel ploviti preko kanala, presijecati kanal, a busy shipping channel prometni plovidbeni kanal, main channel glavni kanal, navigate in the channel ploviti kanalom, ploviti u kanalu, wait outside the channel čekati izvan plovidbenog kanala, channel buoy oznaka plovidbenoga kanala: After passing the last channel buoy before the breakwater entrance at very close range, the pilot ordered hard-a-starboard., deep-graught channel plovidbeni kanal za brodove dubokog gaza: The ship decided to take the
**deep-draught channel**, turned to port and scraped down our port side less than 2 cables off.; **close the channel** zatvoriti plovodbeni kanal: The incident cause the **Channel** to be closed for three days.; **marked channel** označeni plovodbeni kanal: The master decided to leave the marked channel.; **2 (comm) radio-kanal, komunikacijski kanal** listen to the **channel** pratiti kanal, slušati kanal, biti na kanalu, radio **channel** radio-kanal, be on the **channel** biti na kanalu; **3 (geogr, oceanogr) prirodni kanal**

**channel** /ˈtʃænəl/ (n) (sailing vessels) polica lower **channel** donja polica, upper **channel** gornja polica

**channel marked by bouys** (n) (navig) plovodbeni kanal označen plutačama: The ship entered the port through a channel marked by pairs of lateral buoys numbered from 1 at the seaward end to 16 near the outer basin.

**channel marker buoy** (n) (navig) oznaka plovodbenega kanala: However, due to the combined effects of a tidal stream and loss of steering due to decreased speed, the vessel drifted on to the **channel marker buoy**, which got fouled briefly with the rudder.

**channel pilot** (n) (navig) morski peljar, peljar za plovodbu kanalom

**channel transit** (n) (navig) plovodba kanalom: As a Master of VLCCs and ULCCs with many **Channel** transits behind me, I am certainly not against alterations to port in certain circumstances.

**chanty; chanty** /ˈʃænti; ˈtʃænti/ (n) (seamanship) merchant seamen’s work song used when working the capstan or halyards mornarska radna pjesma

**chaplain** /ˈtʃæplin/ (n) kapelan port **chaplain** lučki kapelan, svećenik za pomorce: Using ship movement data from MarineTraffic, chaplains will be able to see when ships are due to come into port and plan their ship visits accordingly. They can then provide care to the seafarers.

**characteristic of Aton** (n) (navig) the audible, visual, or electronic signal displayed by an aid to navigation to assist in the identification of an aid to navigation. Characteristic refers to lights, sound signals, RACONS, radio beacons, and daybeacons (Seasources.net) karakeristika plovidbene oznake, obilježje plovidbene oznake (plutače, svjetla itd.)

**charge** (n) (shipping econ) an amount to be paid for carriage of goods based on the applicable rate of such carriage, or an amount to be paid for a special or incidental service in connection with the carriage of goods iznos vozarine, prevoznina

**charge** (n) 1 (hum_resources) nadležnost, briga person in **charge** nadležna (odgovorna, zadužena) osoba: At the poop deck, the second mate was in **charge** of the mooring operations. be in **charge** biti nadležan (zadužen, odgovoran za): Complacency, familiarisation, and perhaps over confidence, spreads to the Master, Chief and others in charge aboard the vessel. na dužnosti, **officer in charge** dežurni časnik, časnik straže, odgovorni časnik: When I asked the **Officer in charge** his intentions he responded by asking me why, I had not taken action earlier to avoid the original close quarters situation. The **officer-in-charge** instructed the crewman controlling the winch to start heaving slowly to pull the tug’s tow wire on board. Complacency, familiarisation, and perhaps over confidence, spreads to the Master, Chief and others in **charge** aboard the vessel.; 2 (mar law) optužba; 3 iznos vozarine; 4 zaduživanje

**charge** (n) (electr) punjenje (baterije)

**charge** (v) (electr) puniti **charge** the battery puniti akumulator: ... the vessel’s
emergency generator battery charging system was wrongly set up in such a way that two chargers could be charging the battery simultaneously.

charge (v) (shipping econ) obračunati, naplatiti charge a fee obračunati pristojbu / proviziju, impose charge impose dwell time fee nametnuti naknadu (za čekanje tereta u luci): Port of Tacoma Terminal Imposes ‘Long Stay’ Charge for Lingering Import Containers. https://gcaptain.com/

charge (v) (mar law) optužiti: After detecting this breach during a routine inspection of ..., we detained the ship and later charged the chief officer and company. https://safety4sea.com/ Australia has charged the Master of a containership after his ship allegedly damaged a critical underwater cable. https://gCaptain.com charge with crime optužiti za kazneno djelo: the captain has been charged with crimes related to causing a shipwreck due to negligence ... https://gCaptain.com A shipping company and chief Engineer have been charged with concealing deliberate pollution from bulk carrier. https://gCaptain.com

charge (n) (mar law) optužba, terećenje charge air cooler (n) (marine eng) rashladnik zraka za punjenje cilindra charge air receiver (n) (marine eng) spremnik zraka (za punjenje cilindra): Minimum charge air receiver temperature is 35°C.

charges 1 (shipping econ) troškovi: The area off the Nippa lighthouse has been used by ships to refuel and to take on stores, mainly to avoid having to pay port charges. The USCG was satisfied by the vessel’s responses to the spill and no charges were brought against the vessel. collect charges naplatiti troškove, ubrati iznos za troškove; 2 (mar law) optužba: The charges were for failing to maintain an accurate Oil Record and Garbage Record Books onboard the ship. bring charges podnijeti tužbu: Maritime authorities of ... have brought charges against the captain of a bulk carrier for working without the use of proper safety equipment https://gcaptain.com, face charges biti suočen s tužbom: The Master of the MS .... appeared in a court on Monday to face two charges related to the loss of the containers overboard during heavy weather https://gcaptain.com

charge with (v) (mar law) optužiti, tužiti charging (n) pressure (marine eng) prednabijanje (electr, marine eng) punjenje: All charging systems should be checked to ensure that the charging current cannot exceed the specified safe range;

chart (n) (navig) karta, mapa: The chart used was Admiralty Chart 323, a copy of the relevant area being enclosed. This resulted in the use of inappropriate settings with regard to depth contours, and chart and depth alarms. large / small-scale chart karta velikog / malog mjerila: ... the 2nd Mate had plotted the position on a small scale chart and not on the large scale chart that was used by the 3rd Mate for coastal navigation when arriving SE of the Canary Islands., up-to-date chart ažurirana karta, correct the chart ispraviti kartu: Correct all applicable charts through the latest Notice to Mariners, Local Notice to Mariners, and Broadcast Notice to Mariners., latest edition of the chart najnovije izdanje karte, zadnje izdanje karte, paper chart papirnata karta, klasična karta: The principles and requirements of passage planning on ECDIS are no different than when using a paper chart, and a master’s responsibility to cross-check the work of his officers still remains., electronic chart elektronička karta: As the vessel reached the southern end of the box, the deckhand selected a new course from the electronic chart and is reported to have dialled it into the automatic helm, expecting the vessel to turn onto a northerly
We had a look at the latest hydrographic chart, position on the chart pozičija na karti: It is also required to check the position by GPS, compare it with DR positions on the chart and change course on the autopilot at predetermined positions. pokriće odgovornosti unajmitelja / zakupnika broda

**charterer's liability** /ˈtʃæ:tər əˈraɪbɪliːti/ (n) (mar law) naručiteljeva odgovornost, odgovornost naručitelja prijevoza, odgovornost zakupnika broda: Since claims between an owner and a charterer frequently concern hull damages the cover may also include Charterer's Liability to Hull. The Club can provide cover for Charterer's liabilities where cargo is discharged or delivered at a place other than that named on the bill of lading. **charterer's liability insurance** osiguranje odgovornosti naručitelja prijevoza, osiguranje odgovornosti unajmitelja broda, osiguranje odgovornosti zakupnika broda: Charterer's Liability insurance is a P&I cover primarily, but for charterers with a fixed premium.

**charter hire** (n) (mar law, shipping econ) A sum of money paid to the shipowner by a charterer for the use of a ship **najamnina za brod**: Charterhire paid under a voyage charter is also known as freight ... the offshore oil and gas group is suing its ...... Ltd for over USD140,000 of alleged unpaid charter hire.

**charter in** (v) (mar law) To hire a ship from a shipowner. **uzeti brod u najam, unajmiti brod, uzeti brod u čarter**

**chartering agent** (n) (mar law) Shipbroker that acts on behalf of a charterer in the negotiations leading to the chartering of a ship. He is the counterpart to the owner's broker, the shipowner who acts on behalf of the shipowner. [http://www.tmglobal.net/chartering_CHTM posrednik u ugovaranju najma broda, čarterski broker]

**chartering broker** (n) (mar law) = shipbroker agent posrednik, broker

**charter out** (v) To hire a ship out to a charterer. **dati brod u najam, iznajmiti brod, dati brod u čarter**

**charter owner** (n) (mar law, shipping econ) A company that owns container vessels and charters out its vessels to container shipping companies rather than operating the vessels for liner services; also known as shipowner. (http://www.globalshiplease.com/glossary.cfm) **brodovlasnik**

**charter party** (=C/P) (n) 1 (mar law) The contract for a charter is commonly called a charterparty; A document of contract, or agreement, by which a ship- owner agrees to lease, and a charterer agrees to hire, an entire ship, or all or part of the cargo space to carry cargo for an agreed sum under certain conditions. (www.euronav.com) **brodarski ugovor, ugovor o iskorištavanju brodova, čarter partija, čarter, ugovor o najmu / zakupu broda** Voyage charter party ugovor o najmu broda na vrijeme, ugovor o iskorištavanju broda na vrijeme, Time charter party ugovor o najmu broda (brodskog prostora) na vrijeme, ugovor o iskorištavanju broda (brodskog prostora) na vrijeme, Demise charter party ugovor o zakupu cijelog / golog broda (bez posade, goriva i zaliha), Bareboat charter party ugovor o zakupu cijelog / golog broda (bez posade, goriva i zaliha); 2 (mar law) ugovor o prijevozu [charter party; charter-party; charterparty (most recently used spelling)]

**charterparty, charter party** /ˈtʃæ:tər ˈpaːtɪ/ (n) 1 (mar law) a contract of lease of a ship in whole or in part for a long or short period of time or for a particular voyage. It has been said that its origin lies in the mediaeval Latin carta partita or charta partita or charta divisa, where an agreement was torn into two pieces and one half was given to each party. Proof of the whole contract was no doubt difficult
if one party was obstinate - modern methods of photocopying the contract for each party seem preferable. A charterparty is part contract of hire (affreightment (supra)) and part contract of transport (carriage). The proportion of affreightment decreases as one moves from a demise charter, to a time charter and then to a voyage charter, while the proportion of carriage increases from a demise charter through a time charter to a voyage charter. Affreightment is essentially placing a ship at the disposal of another party, while transport is essentially the carrier (supra) taking charge of goods. Hire (infra) is the consideration paid under demise and time charterparties; freight (infra) is the consideration paid under voyage charterparties and bills of lading. A charterparty bill of lading used as a proof of receipt of goods issued by the charterer who charters a vessel to the shipper or shippers for whom the charterer has agreed to transport cargo. 

charterparty by demise (n) = bareboat charter party A charterparty by demise is a contract by which the lessor (shipowner) places a ship in the hands of the lessee (the demise charterer) who assumes possession and control. The consideration paid by the charterer is hire, which is payable at specified intervals during the term of the charter. Under a demise charterparty, the shipowner appoints the master and the crew, although they are paid and controlled by the demise charterer.

charter yacht (n) A charter yacht is a yacht employed primarily for recreational purposes, that is principally operated by a professional crew for paying passengers who themselves will primarily use the yacht for pleasure. Charter yachts are really commercial vessels even though the word
yacht applies to them. Charter yachts must meet commercial requirements for passenger-carrying vessels. **čarter-jahta**

**chart house** (n) *(nav arch, navig)* kabina za pomorske karte, prostorija za pomorske karte

**chart lattice** /ˈtʃaːt,laetis/ (n) *(navig)* mreža karte

chock /ˈʃok/ (n) (nav arch, US, seamanship) = fairlead heavy fittings secured to the deck. Lines are passed through them to bollards on the pier. The types of chocks used are closed, open, roller, and double roller. oko za privez (u oplati broda), zjevača, pasakavi (Italian: passacavo) open roller chock otvorena zjevača s valjcima, 3-roller closed chock zatvorena zjevača s tri valjka, Panama chock oko Panama,
chock

chock (n) (sailing vessels) umetak okvira za jarbol
chock (n) (cargo handling) wedge; secure with wedges klin za sprječavanje pomjeranja složenog tereta
chock (n) (sailing/boating/yachting, ship’s equipment) zjevača brodice, jedrilice
chock boat (n) (nav arch) a cradle or support for a lifeboat postolje brodice za spašavanje
choke /ʃəʊk/ (v) 1 (marine eng) zagušiti, prigušiti, začepiti; 2 (marine eng, sailing/boating/yachting) dodavati/oduzimati zrak u mješavinu (izvanbrodskoga benzinskog motora), otvoriti/zatvoriti zrak: choking off air from the outboard dengine carburetor thereby making the gas/air mix richer; 3 (med) gušiti se: The pumpman and the cadet came out choking.
choke (n) (marine eng, sailing/boating/yachting) The outboard motor features an adjustable choke that changes the amount of fuel in the fuel and air mixture. čok, zrak, ručica za dodavanje i oduzimanje zraka u mješavinu s gorivom (na izvanbrodskim motorima): Do not use the choke when the engine is warm or the air temperature is high. Without a choke, an outboard internal-combustion motor may not start up when cold. When the operator activates the choke through a pull handle, button, or knob, the choke solenoid, a coil, expands, restricting the area through which air enters the carburetor. choke lever polužica čoka, polužica zraka, ručica leptira rasplinjača: Move the choke lever to the CLOSED position.
choke (n) (marine eng) prigušivanje
choose /ʃuːz/ (v) birati, izabrati (choose - chose - chosen)
chop (n) (oceanogr) mareta, valovito more (s kratkim valovima): Despite the worsening conditions and heavy chop to the surface of the sea, the instructor did not consider cancelling the exercise although this had been done on previous occasions.
choppy sea (n) (oceanogr) a sea state having short steep wave valovito more, živo more (s kratkim valovima), jaka mareta, mareta; Italian: maretta viva: Due to the choppy seas, the outbound general cargo vessel had created a lee for the pilot launch to facilitate the boarding process. www.gov.uk/maib The easterly winds over the ebb tide resulted in choppy seas with a maximum wave height of 2m. www.gov.uk/maib
chord /kɔːd/ (n) (sailing/boating/yachting) ravnocrtna udaljenost između prednjeg i stražnjeg poruba jedra; the imaginary reference line from the luff to the leech and a perpendicular from the chord to the sail is the camber or draft, or depth (https://www.practical-sailor.com/); a circle is a straight line
chord: (sailing/boating/yachting) SEE chord: trbuh jedra
christen /ˈkrɪsən/ (v) (mar law, nav arch) krstiti (brod), imenovati (brod): Th newest bulkcarrier was christened on Saturday during a ceremony at the shipyard.
christening /ˈkrɪstənɪŋ/ (nav arch) a ceremony in which the ship’s sponsor (usually a woman) breaks a bottle of champagne across the bow and grants the ship its name krštenje boda, davanje imena brodu
chromium /ˈkrəʊmɪəm/ (=Cr) (n) (chem) krom
chronometer /ˈkraʊnəmətər/ (n) (nav arch) an instrument for measuring time with great accuracy
kronometar
chuk /ʃʌk/ (n) (seamanship) škrip, morša
chum (n) (fishing) bait consisting of chopped fish and fish oils that are dumped overboard to attract fish brum, torilo: the best chum is a mixture of large and small particles and predominately made of liquid.
chumming (n) (fishing) the practice of luring fish such as sharks, by throwing chum into the water. Chum often consists of fish parts and blood, which attract fish primama, mamljenje ribe bacanjem ješke, brumanje
chute (n) (safety) sklizni kanal za spuštanje s broda

chute (n) (sailing/boating/yachting) SEE pouch špinaker, spanker: It is important that the spinnaker is packed correctly in its chute, pouch, bag, or locker before the boat goes afloat.
CIF /siː ˈɛɪl/ (=cost, insurance, freight; , C.I.F.) (n) (shipping econ, mar law, logist) a term of the contract of sale whereby the seller undertakes to pay the cost of the insurance and transport of the goods to the named port of destination. Legal delivery occurs when the goods cross the ship’s rail in the port of shipment. The purchaser takes actual delivery (possession) of the goods at the quay or other place named in the contract, as the place of destination. (The insurance premium and freight charges are included in the price of the goods.)

Cost, insurance and freight. Delivery of goods is the seller’s responsibility to the port of discharge. The freight is paid for by the supplier of goods. (https://www.clarksons.com/glossary/)

CIF & C (=Cost, Insurance, Freight & Commission) (n) (mar law, shipping econ) (logist) A price which includes commission as well as CIF. (https://www.msc.com/)

CIP (n) (mar law, shipping econ) SEE INCOTERMS 2000 Carriage and Insurance Paid to (named place of destination): the containerised transport/multimodal equivalent of CIF. Seller pays for carriage and insurance to the named destination point, but risk passes when the goods are handed over to the first carrier. http://www.tkmglobal.net/inco.html

Cijena s osiguranjem i vozarinom; (označena luka odredišta) (jedan od trgovinskih uvjeta INCOTERMS)

Cijena s osiguranjem i vozarinom: Cost of goods, marine insurance and all transportation (freight) charges are paid to the foreign point of delivery by the seller. CIF (named port of destination)

Cijena s osiguranjem i vozarinom: Cost, insurance and freight. Delivery of goods is the seller’s responsibility to the port of discharge. The freight is paid for by the supplier of goods. (https://www.clarksons.com/glossary/)

Cost, insurance and freight. Delivery of goods is the seller’s responsibility to the port of discharge. The freight is paid for by the supplier of goods. (https://www.clarksons.com/glossary/)

Britanije), IMO STCW: Svjedodžba o osposobljenosti za časnika stroja odgovornog za stražu u strojarnici sa strojem porivne snage od 750 kW ili jačim (STCW III/1): He holds a Class 2 Certificate of Competency which he obtained in 1992. The Combined Class 2 & 1 Engineer Officers course will lead to the issue of Class 2 & 1 Certificate of Competency (CoC), issued by the Maritime & Port Authority (MPA) of Singapore, upon successful completion of written examinations at SMA and oral examinations at MPA., Class 2 Certificate of Competency (Deck) svjedodžba o osposobljenosti za časnika plovidbene straže na brodovima od 500
BT ili većima (STCW II/1) svjedodžba o osposobljenosti za časnika palubne straže (u sustavu pomoračkih ovlaštenja Vel. Britanije)

class certificate (n) (nav arch) svjedodžba klase broda: The lifeboat manual and class certificate, which gives the details of life saving appliances/fire fighting appliances, gave the correct diameter.

Class 3 Certificate of Competency (hum_resources) SEE academic awards in ship officer programmes (UK) - Marine Engineering svjedodžba o osposobljenosti za časnika III. klase (u sustavu britanskih i srodnih pomoračkih ovlaštenja) Class 3 Certificate of Competency A-III/2 CoC for Management Level Deck Department (with restrictions such as near coastal or low tonnage) svjedodžba o osposobljenosti za časnika palube III. klase - za obalnu plovdbu (u sustavu britanskih i srodnih pomoračkih ovlaštenja), Class 3 Certificate of Competency A-III/2 Engineer CoC for Management Level Engine Department (with restrictions such as near coastal or low hp/kw) svjedodžba o osposobljenosti za časnika stroja III. klase - za obalnu plovdbu (u sustavu britanskih i srodnih pomoračkih ovlaštenja)

Class C fire Fires in which the combustible materials are electrical, components such as motors, generators, or switch panels. (http://www.marinediesel-europe.com/) požar klase C

classification (n) (nav arch) klasifikacija broda

classification society (n) (nav arch, mar law) Classification societies are institutions (often non-profit) which inspect, study and report on the seaworthiness and the general and particular condition of individual ships. They also often perform port state control inspections. Finally, they may provide surveying services to national maritime administrations by contract with the governments of those countries. They issue a certificate of “class” of the ship.

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; An independent organization that certifies that a ship has been built and maintained according to the organization’s rules for that type of ship and complies with the applicable rules and regulations of the country of the registry and the international conventions of which that country is a member. (http://www.globalshiplease.com/glossary.cfm) klasifikacijsko društvo: The company dispatched the technical superintendent to the vessel and classification society and underwriters' hull and machinery surveyors attended for a joint survey and investigation. They should contact their lashing equipment manufacturer and classification societies for advice and take appropriate action to reduce the risk of further incidents.

class inspection (n) (nav arch) klasifikacijski pregled, pregled za dobivanje klase broda: Subsequently, the vessel berthed for class inspection and after no damage was found, she was allowed to sail.

class notation (n) (nav arch) oznaka klase (broda): class notation: BV, I + HULL, + MACHINERY, OIL TANKER, CHEMICAL TANKER, IMO II, ESP, UNRESTRICTED NAVIGATION, + AUT-UMS, CLEAN SHIP, ICE CLASS IC, VCS, IG, INWATERSURVEY. MONSHAFT Class notation DNV+A1 Tanker for oil ESP NAUTICUS E0 COAT 210,000 DWT Bulk Carrier Dual Fuel Use; LOA 299.95m x 50m. Class ABS + A1, (E), Bulk Carrier, BC-A, CSR, Hold No’s 2, 4, 6 and 8 may be empty, AB-CM, CPS, +AMS, ACCU, ESP, POT, IHM, UWILD, GRAB (35), TCM, GFS, DFD.

class of ship (n) (nav arch) klasa broda, dodijeljena klasa brodu: A condition of class was issued which allowed the vessel to sail to another port for permanent repairs.
class rule(s)  (n) (sailing/boating/yachting) pravila klase (jedrilica) America’s Cup Class AC75 class rule(s) Pravila klase AC75, class rule(s) 470 Pravila klase 470

class society  (n) (nav arch, mar law) klasifikacijsko društvo: Hull Maintenance: Owners, Class Societies and Repair Yards are to be re-alerted of the risks of introducing residual stresses in hull structure ...

class survey  (n) (nav arch) klasifikacijski pregled, pregled od strane klasifikacijskog društva, pregled za izdavanje klase broda: A void space in a gas vessel was opened up for inspection by ship’s staff prior to a Class Survey. ABS conducts majority of annual class surveys remotely. ABS launched ten remote survey options, with an overall of 28 surveys and audits able to be conducted remotely. (https://safety4sea.com/) The new remote class survey services include Annual Hull Survey, Annual Machinery Survey, Annual Automation Survey, Annual Dynamic Positioning Survey, Annual Navigational Bridge Layout and Equipment/Systems Survey and Annual Load Line Inspection (https://safety4sea.com/)

class surveyor  (n) (safety, nav arch) registarski vještak, registarski inspektor, inspektor iz registra brodova: A class surveyor with divers attended before midnight and after an underwater survey, issued a conditional certificate of class to sail to the nearest major port Later that morning, in the presence of the class surveyor, the same lifeboat was lowered, when the forward fall wire parted and the empty lifeboat fell into the water.

class term  (n) (nav arch) period of the validity of the Certificate of Class rok trajanja svjedodžbe o klasu broda

class the ship  (n) (nav arch) dati brodu klasu: International classification society ABS has been selected to class 11 ultra-large containerships (ULCs) for Denmark’s Maersk Line A/S.

clause  /klaːz/  (n) (mar law) breakdown clause klausula o privremenom prestanku / prekidu ugovora o iskorištavanju broda (čartera), najčešće uslijed havarije stroja, cesser clause klausula o privremenom prestanku ugovora o iskorištavanju broda (čartera) (mar law) = provision odredba (konvencije, ugovora, pravilnika), klausula, zaporka: Does it comply with STCW 95 Section A-VIII/2 part 3.1 clause 14 or 26? The IMO has given the clue for solving the problem in clause 16.8 for all seafarers to see. Such incidents may impinge on the safe berth’ clause in the charter party, if applicable.

claused bill of lading  /ˈklɔːzd/  (n) (mar law, shipping econ) = unclean bill of lading nečista teretnica

claw  /klaʊ/  kliješta

claw cleat  (n) (UK) = cam cleat stoper (užeta na jedrilici), patentna hvataljka, vodoravno stoper

claw hammer  (n) (seamanship) čekić s procjepom (za vađenje čavala)

clay  /ˈkleɪ/  (cargo) glina, ilovača

clayish  /ˈkleɪʃ/  (adj) glinen, od ilovače: the piping was blocked with a mixture of fine sand and mud of a clayish texture

CLC certificate (=Civil Liability Convention Certificate)  (n) (nav arch, safety, mar ins, mar law) A Certificate of Insurance or Other Financial Security in respect of Civil Liability for Oil Pollution Damage. (http://shipinspection.eu/what-is-a-clc-certificate/) svjedodžba o osiguranju od odgovornosti za štete uslijed onečišćenja uljem/nafrom:
Danish ships carrying more than 2,000 tonnes of resistant mineral oil with carbon hydrids in bulk as cargo must acquire the clc certificate. [https://safety4sea.com/]

The Civil Liability Convention ensure that adequate compensation is available due to oil pollution damage resulting from maritime casualties involving oil-carrying ships. [https://safety4sea.com/]

**clean (adj)** čist: Prior to taking a tanker to dry dock, the major job is to **clean** the tanks. keep **clean** čistiti, držati čistim, **clean** the anchor (v) (seamanship) otpetljati sidro, otplesti sidro, osloboditi sidro, **clean up** the oil počistiti prosutu naftu / mrlju od ulja: The master raised a general alarm and the crew immediately proceeded to **clean up** the spilled fuel oil on deck.

**clean bill of health (n) (mar law, med)** a certificate issued by a port indicating that the ship carries no infectious diseases  čisti zdravstveni list

**clean bill of lading (n) (mar law, shipping econ)** The face of a **clean bill of lading** bears no notation of the bad or questionable order of the goods. It means that the goods have been received on board in apparent good order and condition and stowed under deck. [http://www.mindsers.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm]; A receipt for goods issued by a carrier with an indication that the goods were received in 'good order and condition,' without damage or other irregularities. If no notations or exceptions are noted, the B/L is assumed to be 'clean.' (https://www.msc.com/shipping-glossary) čista teretnica, teretnica bez primjedaba: If the charter party requires the master to issue **clean bills of lading**, he must ensure, from the very beginning, that only cargo in apparent good order and condition is allowed to be loaded. The ship was chartered to carry soya beans from Brazil to China. A **clean bill of lading** was issued. [https://safety4sea.com/] {A Bill of Lading which does not contain any qualification about the apparent order and condition of the goods to be transported (it bears no stamped clauses on the front of the B/L). It bears no superimposed clauses expressly declaring a defective condition of the goods or packaging (resolution of the ICS 1951). (http://www.iss-shipping.com/cargo/cargo_library_glossaryc.asp)}

**cleaner (n) (marine eng)** čistač (u službi stroja)

**Clean Hold Certificate (n) (mar law)** Potvrda da je (brodsko) skladište čisto

**cleaning /ˈkliːniŋ/ (n) (seamanship)** čišćenje: **Tank cleaning** involves manual cleaning after an initial pre-wash to remove traces of the last cargo. **thorough cleaning** temeljito čišćenje

**cleaning brush (n) (marine eng)** četka za čišćenje

**cleaning gun (n) (marine eng)** pištolj za čišćenje

**cleanliness /ˈklenlinəs/ (n) (cargo)** čistoća cleanliness of the tanks čistoća tankova

**clean oil (n) (cargo, marine eng)** refined oil products such as naphtha (https://www.clarksons.com/glossary/) naftni derivat

**clean on board (adj) (logist, mar law)** A **clean Bill of Lading** is issued with the added term “clean on board”, which means that the goods have been received in good order and in a good condition, as far as the shipping company can see. **primljeno na brod bez primjedaba**

**clean petroleum products (=CPP) (n) (marine eng, cargo)** Liquid products refined from crude oil, whose color is less than or equal to 2.5 on the National Petroleum Association scale. CPP’s include Naphtha, let fuel, Gasoline, and Diesel/Gasoil. (www.euronav.com) čisti naftni proizvodi

**clean receipt (n) (mar law)** Receipt given by anyone receiving cargo into his care or possession bearing no clausings or notation indicating loss or damage, thus indicating that the goods were received
in apparent good order and condition. potvrda o primitku tereta (bez primjedaba)
cleanse /ˈklenz/ (n) čistiti, ispirati
clean service (n) (shipping econ) Tanker transportation of products lighter than residual fuels, e.g. distillates, including No. 2 Heating Oil. (www.euronav.com) prievoz lakih derivata
cleanup (=clean-up) (safety) čišćenje: Crews are making progress in the clean-up of more than 200 metric tons of heavy fuel oil that was spilled at the port after a chemical tanker hit a jetty. Clean-up efforts after a container ship spill off the coast are being hampered by rough weather. cost of cleanup troškovi čišćenja: the cost of the clean-up of the spilled oil was about 1.85 billion USD, cleanup operation operacija čišćenja onečišćenog mora, operacija čišćenja uljne mrlje: On Monday, China Central Television said a search and rescue operation had begun after a fire on the surface was extinguished. The operation to clean-up balls of oil that have washed ashore in Delaware Bay has expanded to Maryland ... https://safety4sea.com/
clear (adj) jasan, bistar: The visibility was bright and clear and the channel was clear of outward traffic. Our position was very clear - a vessel cannot take bunkers using a substandard hose. It was a clear and bright day, and on arrival at 1430 the wind was northeasterly between 30 – 35 knots. Ensure clear instructions for operating CO2 extinguishing systems are displayed near the distribution control valves and near the gas cylinders. When the situation become too serious and when it was quite clear that fully laden container vessel was not aware how serious the situation was, ...
clear* (adj) (seamanship) ANTONYM foul: slobodan, oslobođen, bez zapreke, bez smetnje, otvoren, nezakrčen, otkvačen, opletet (lanac, sidro), opletljiv (lanac, sidro) clear anchor = founder slobodno sidro, nezapotljan (otpletljiv) sidro: 0506 Resumed heaving anchor 0512 Anchor up and clear. 0514 Dead slow ahead. Rudder 10 degrees to starboard, heading at this time around 2900. (extract from ship’s logbook), clear cable slobodan lanac, nezapotljan (otpletljiv) lanac, clear line oslobođen konop, opletljiv konop, clear propeller (seamanship) oslobođen propeler, opletljiv propeler, clear of the davits dalje od soha:
When outboard and clear of the davits, the remote control brake handle was released to stop the movement.
clear* (adj) (navig) slobodan (po prmcu; od zapreka; prostor): The cargo vessel’s engine was then put astern and she slid aft, along the ro-ro vessel’s hull, until she came clear of the larger vessel. clear entry slobodan ulaz: This then allowed us a clear entry into the deep water lane.,
clear ahead slobodan po prmcu: We passed clear ahead of the first ship which seemed to be making about 25 knots in a SW/ly direction., clear area slobodan prostor: The vessel was fitted with a large wavebreaker right forward, which meant that the forecastle deck had very little clear area., be clear of the channel biti izvan plovidbenoga kanala, proći plovidbeni kanal: The master realised that the other ship would not be clear of the channel for some time and at 2314 he set the engine telegraph from ‘dead slow ahead’ to ‘stop’. , come clear of the vessel biti dalje od drugog broda: The cargo vessel’s engine was then put astern and she slid aft, along the ro-ro vessel’s hull, until she came clear of the larger vessel. VTS reiterated that the VLCC was eastbound in the deep water lane, and to keep well clear of the vessel. The cargo vessel’s engine was then put astern and she slid aft, along the ro-ro vessel’s hull, until she came clear of the larger vessel. biti udaljen od drugog broda, clear of the buoy biti dalje od plutače, proći plutaču: The
pilot turned to guide the master in manoeuvring the ferry clear of the buoy.

**clear** (v) 1 (*navig*) to pass safely by a danger to navigation obići (mjesto ili oznaku opasnosti); 2 (*navig*) isploviti (iz luke), proći (oznaku, objekt na moru, plovdbeni kanal), napustiti: As the vessel cleared the bend the master contacted the pilot station Kad je brod prošao zavoj na rijeci zapovjednik je nazvao peljaršku postaju After clearing the harbour and when heading in a northerly direction, the skipper engaged the autopilot, set the radar at 1.5 miles range. **clear the port** napustiti luku, isploviti iz luke, izaći iz luke: The master held a Pilot Exemption Certificate (PEC), so no pilot was required to manoeuvre the ship off the berth or clear the port. We had by now managed to turn east to clear the port. After unberthing, under pilot’s advice we commenced to swing to port to clear the harbour in an easterly direction., clear the ship zaobići drugi brod, proći drugi brod: The vessel increased speed astern at an angle of about 100 from the berth until it became apparent that the bow would not clear the ferry berthed astern., clear the traffic lane izaći iz plovdbene staze (u shemi odvojene plovdbi), izaći iz plovdbenoga smjera: Although the fishing vessel had started to alter course in order to clear the traffic lane and avoid impeding the safe passage of the two larger vessels, this alteration was not seen by the general cargo vessel’s OOW for ov, clear the buoy proći plovdbenu oznaku: ) and, on seeing the buoy, the Master ordered hard to port in order to clear the buoy ; 3 (*mar law*) obaviti carinske formalnosti to clear customs to carry out customs and immigration formalities before leaving port obaviti carinski pregled, obaviti carinske formalnosti: There has been a significant slowdown in clearing customs. The container arrives at the destination port and clears customs., clear imports obaviti carinske formalnosti za uvoz tereta: Harbour authorities are taking longer than usual to clear the imports with customs officials. https://gcaptain.com; 4 (*mar law*) riješiti; 5 (*marine eng*) očistiti, pročistiti: the engineers tried to clear the blocked cooling system; 6 (*seamanship*) osloboditi (zapetljano uže, lanac, plovdbeni kanal) clear the line: Preparations were undertaken to clear the lines; otpustiti privezno uže, clear the propellers osloboditi propelere: The tug began to recover the slack in the tow and moved ahead to clear the propellers., clear the channel osloboditi plovdbeni kanal (od zapreka, smetnji itd.): The Houston Ship Channel was reopened with restrictions to shipping on Sunday as emergency officials worked to clear the channel following a collision between a tanker and two barges https://gCaptain.com clear* (adj) (*safety*) izvan mora / vode, iz vode / mora: Review the procedures on your vessel to ensure that measures exist to ensure personnel are clear of the danger areas before hatch cover securing pins or locks are released and power applied. clear of the water izvan mora / vode hoist the boat clear of the water izvući brodicu iz mora: The boat returned to the falls, was hooked on and hoisted clear of the water., keep the head clear of the water: This additional buoyancy would have helped the casualty to keep his head clear of the water, thus substantially increasing his likely survival time. iznad mora

clear abreast (adj) (*navig*) slobodan po boku
clear ahead (adj) (*sailing/boating/yachting*) jedrilica slobodna po pramcu,
Italian: *libero di prua*: The offending vessel passed clear ahead at 4 cables. In the meantime, I had already altered course to starboard and we passed well clear ahead.
clearance (n) (*mar law*) odobrenje, dozvola: While awaiting clearance to stow the lifeboat, two crewmen placed the manual winding handle into position on the winch, at poop deck level, and readied
themselves to begin with. The OOW, who was part way through a compass error calculation, requested clearance from the engine control room to deploy the stabiliser fins. request clearance zatražiti odobrenje, obtain clearance dobiti odobrenje, ishoditi odobrenje: After obtaining inward clearance, we unberthed and anchored in the waiting area. grant clearance dati odobrenje, izdati odobrenje, odobriti clearance /ˈkliərəns/ (n) (mar law) dozvola za uplovljenje / isplavljenje broda u luku (od strane carinskih vlasti) inward clearance (clearance inwards) dozvola za uplovljenje: After obtaining inward clearance, we unberthed and anchored in the waiting area. outward clearance (clearance outwards) dozvola za isplavljenje, odlazeći klirens, Port clearance Office lučki carinski ured, lučka carinarnica, to apply for a clearance zatražiti dozvolu za uplovljenje / isplavljenje, to issue a clearance izdati dozvolu za isplavljenje / uplovljenje, izdati klirens, obtain clearance dobiti dozvolu (za uplovljenje ili isplavljenje), ishoditi dozvolu: Vessels must also inform London VTS before the vessel navigates the Thames and obtain clearance from the relevant VTS centre so to do. clearance from the last port of call dozvola za isplavljenje iz zadnje luke ticanja clearance /ˈkliərəns/ (n) (marine eng) zračnost, zazor, razmak: measure the side clearances of the main bearing Note down the clearance on Plate ... diametrical clearance zračnost po promjeru (cilindra), izmjeriti zračnost / razmak / zazor clearance /ˈkliərəns/ (n) (navig) space between two components razmak: The other ship then veered off very sharply to port at such an angle that the final stern to stern clearance between the two ships was very minimal. With only about two cables clearance, the Pilot ordered full astern and emergency dropping of starboard anchor. underwater clearance razmak između dna broda i morskog dna, request clearance from the engine room zatražiti odobrenje službe stroja: The OOW requested clearance from the engine control room to deploy the stabiliser fins. under keel clearance (UKC) dubina pod kobilicom: Once aboard, the draught and other information can be added to enable the pilot to give the master minimum under keel clearance and other relevant information. A loaded tanker was outward bound along an estuary at about 10 knots with an underkeel clearance of about three metres.
clearance /ˈkliərəns/ (n) (meteorol) provedrica clearance agents (n) (mar law) carinska agencija clearance inwards (n) (mar law) odobrenje za uplovljavanje, dozvola za uplovljenje, odlazeći klirens, odlazeći clearance: Make a list of all the documents used in clearing the ship outwards, and compare them with the corresponding ones used for the clearance inwards, i.e. GENERAL DECLARATION ON ARRIVAL - ENTRY OUTWARDS AND DECLARATION clearance of the vessel (n) (mar law) poslovi prihvaćanja i otpremanja broda u luci, dozvola brodu za isplavljenje, poslovi clearancea clearance outwards (n) (mar law) odobrenje za isplavljanje, dozvola za isplavljenje, odlazeći klirens% clearance procedures (n) (mar law) postupak carinske kontrole broda, carinska kontrola broda, obavljanje carinskih formalnosti postupak carinske kontrole broda, obavljanje carinskih formalnosti
clear anchor: slobodno / otpetljano sidro

clear astern (adj) (navig, sailing/boating/yachting) One boat is clear astern of another when her hull and equipment in normal position are behind a line abeam from the aftermost point of the other boat’s hull and equipment in normal position. The other boat is clear ahead. These terms always apply to boats on the same tack.

clear customs (v) (mar law) obaviti carinske formalnosti, proći carinu, rascarniti

clear deck (n) (seamanship) slobodna paluba, paluba bez zapreka

cleared cleared without examination (CWE) carinski otpremljeno bez pregleda 1 a riješen, odobren, dopušten; 2 ocarinjen, koji je prošao carinu goods cleared roba koja je prošla carinsku kontrolu; 3 brod koji je dobio dozvolu za uplovljenje / isplovljenje

clearing (n) (mar law) obavljanje carinskih formalnosti

clearing agent (=clearing agents; customs broker) (n) (mar law) an agent who takes care of the customs clearance aspect of the business carinski agent, agent koji obavija carinske formalnosti za vlasnika tereta: The clearing agent have to be accredited with the local customs authorities, border agencies, port and other authorities relevant to the shipment of goods. https://shippingandfreightresource.com Some freight forwarders have their own customs clearance department/divisions which means that they do not normally use 3rd party customs clearing agents. https://shippingandfreightresource.com Some agents may act as Freight Forwarder only, Clearing Agent only, or Both Forwarding and Clearing agents.

clearing line (n) (navig) siguran put

clearing mark (n) (safety) oznaka sigurnosti

clear key (n) (comm) tipka za brisanje (na VHF uređaju)

clear of the berth (adj, adv) (navig) sa veza, dalje od veza: The master manoeuvred the vessel clear of the berth and then headed on a north westerly course at a speed of 4 knots towards a reef ...

When the vessel was 0.06 mile clear of the jetty the forward tug was ordered to pull full. https://safety4sea.com/

clear of the berth / jetty / dock / wquay (adj) (navig) oslobođen od veza, brod koji je upravo napustio veza, brod koji se upravo odvezao, brod udaljen od veza, biti odmaknut od veza: Soon afterwards, the pilot told London VTS that the vessel was clear of the berth, passing the bellmouth and heading towards the south side of the river. Once the vessel was clear of the jetty the main engine was put half astern to move the pivot point aft, making it easier for the tugs to turn the vessel. (https://safety4sea.com/) When the vessel was 0.06 mile clear of the jetty the forward tug was ordered to pull full. https://safety4sea.com/
clear of the water (n) (ship handling) izvan mora (konop, sidro), iznad mora (konop, sidro): All lines were secured and clear of the water. https://safety4sea.com/
clear skies (n) (meteorol) vedro nebo
clear the anchor (v) (seamanship) otpetljati sidro, osloboditi sidro
clear the goods (v) ocariniti robu: The ports have started clearing goods from ... on Monday, as new tariffs on imports have gone into effect. www.gCaptain.com
clear the ship for entry / departure (v) (mar law) dati brodu dopuštenje za uplovljenje / isplovljenje, obaviti carinske formalnosti za brod: The Coast Guard and Customs and Border Protection boarding teams boarded the vessel and cleared the ship for entry. www.gCaptain.com
clearview screen (n) (navig) kružni prozor (na staklu kormilarnice) s električnim rotacionim brisačem
clear water (n) (sailing/boating/yachting, navig) otvoreno more (bez prepreka za plovidbu): ... on your first few trips afloat, row or paddle away from shore, then hoist the sail once you are in clear water. in clear water na otvorenom (izvan lučice, marine itd.)
clear zone (n) (navig) sigurna zona, slobodna zona
cleat /kliːt/ (n) (nav arch, seamanship) a fitting of metal, plastics or wood with horns, used for securing lines; a device used to secure a control line, sheet, or halyard on a boat. ; A broad classification of devices used to secure a control line, sheet, or halyard on a boat. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) bitvica, kljuna, rog, žabica, bita, Italian: galloccia, Italian: bitta: Loads on the cleat of a 35- to 40-foot boat during an actually hurricane can exceed one ton. cam cleat 1 stoper; 2 bitvica, kaštanjola;

Italian: castagnola
cleat /kliːt/ (v) (sailing/boating/yachting) zaustaviti konop u stoperu
cleat /kliːt/ (v) (seamanship) prebaciti uže oko bitvice
cleat bollard (n) (sailing/boating/yachting) privezni stupić
clerk /ˈklaːk/ (n) (mar law) pisar, činovnik, službenik Master clerk brodski pisar
clevis pin (n) (nav arch) klin škopca (s osiguračem), štift

https://www.sailrite.com/Quick-Release-Clevis-Pin-With-Spring-Key-Ring
clevis slip hook (n) (cargo handling, sailing/boating/yachting) kuka na oprugu, slipna kuka, karabin
clew /ˈkluː/ (n) (sailing/boating/yachting) rogalj na slobodnome stražnjem kraju glavnoga ili prednjega jedra za hvatanje pritega baze jedra uz debljenjak ili za hvatanje uzde prednjega jedra; the after lower corner of a sail in the fore-and-aft rig; the two lower corners in the square rig; the triangle of a sail between the leech and the foot uzdeni rogalj, rogalj škote, zatezni rogalj jedra, stražnji rogalj jedra clewouthaul konop za zatezanje stražnjeg roglja jedra
clew (v) (sailing/boating/yachting) to haul a squaresail up the the yard using lines secured to the clews prikupljati križno jedro
clew line (n) (sailing vessels) SEE square sail rigging uze za pritezanje križnog jedra prema dolje; a clew line pulls the clew of the square sail down to the yard below priteg strane križnog jedra
clew sheet (n) (sailing vessels) SEE square sail rigging uzda križnog jedra, mura križnog jedra
cliff (n) (geogr) stijena, hrid, skoljera: it was next to impossible to monitor your course, let alone see rocks or a cliff face. The vessel ran aground minutes later when the bulbous bow struck the cliff face 182 metres south-east of the harbour entrance. As the boat approached the entrance, it made a sharp turn to starboard and crashed into an unlit low cliff
climatic chart /ˈklai̯mətɪk/ (n) (meteorol) klimatološka karta
climb down (v) (seamanship) spustiti se: He then moved to the forward end of the port hatch
cover to **climb down**. As soon as the pilot had climbed down the first few steps, the right side ropes parted without any warning and an instant later, the left side ropes parted as well.

**clingage** *(cargo handling)* The residue that adheres to the inside surface of a container, such as a ship's tank or shore tank, after it has been emptied (www.euronav.com) **prijanjajući ostatak tekućine u tanku**

**cling to the lifeboat** *(safety)* držati se za brodicu za spašavanje, uhvatiti se za brodicu za spašavanje: Three other sailors managed to cling to the overturned lifeboat and were later rescued by a fisherman and brought to shore.

**clinic for seamen** *(med)* ambulanta za pomorce

**clinker** *(sailing/boating/yachting)* voj preko voja, klinker, madir preko madira

**clinker-built boat** *(sailing/boating/yachting)* COMPARE carvel planking hull construction in which the lower edge of each plank overlaps the upper edge of the one below it **prijeklopna građa brodice, preklopna građa brodice, klinker**

[Diagram: Clinker-built vs Carvel-built]

**clinker work** *(sailing vessels, nav arch, sailing/boating/yachting)* **prijeklopna gradnja** (barke, brodice, jedrenjaka), preklopna gradnja

**clinometer** /klaɪˈnɒmətər/ *(navig)* an instrument used for indicating the angle of roll or pitch of a vessel **inklinometar**

**clip** *(n)* 1 *(sailing/boating/yachting, seamanship)* stezaljka, škrip, moršet; 2 *(nav arch)* štipaljka (za spajanje rebara broda), zahvatač (za spajanje rebara broda)

**clip on unit** *(cargo, marine eng)* Refrigeration equipment attachable to an insulated container that does not have its own refrigeration unit. (https://www.msc.com/shipping-glossary) **privješeni rashladni uređaj (za kontejner)**

**clipper** *(nav arch)* a fast sailing ship **brzi jedrenjak, kliper**

**CLO (=cylinder lube oil)** *(marine eng)* The function of CLO is not simply to neutralize the acid. CLO also functions to lubricate the liner surface, allows heat transfer from the rings to the liner and cleans up the carbon deposits and hence works as a dispersant agent. (www.safety4sea.com) **ulje za podmazivanje cilindra:** The BN 100 CLO brings here additional operating safety margin and allows possible lower lube oil feed rate than the BN 70 regular CLO. 

**clock-nota**

**clockwise** /ˈklɒkˌwaɪz/ *(adv)* (meteorol) u smjeru kazaljke na satu, desnokretan
clog
1 (marine eng) začepljenje (cijevi)
clog
2 (marine eng) začepiti (cijev itd.), The oil filter is clogged.
close
1 zatvoriti, pokriti: A prompt decision was made to close the engine room ventilation, shut the fuel isolating valves and flood the space with CO2. 
2 (seamanship, navig) to move nearer to približiti se (drugom brodu, oznaci, točki javljanja itd.): When the ship exited the buoyed channel at 1915, the master adjusted the course on the autopilot from 112° to 065°, to close a waypoint marked on the paper chart. The cargo ship started to close a dredger that was working on the opposite side of the dock basin, so the pilot told the master to go 'ahead'. The Master realised that an inbound ship was closing faster than he had anticipated.
close
1 (v) 1 zatvoriti, pokriti: A prompt decision was made to close the engine room ventilation, shut the fuel isolating valves and flood the space with CO2. 
close
2 (adv) (navig) near blizu close the bow blizu pramcu: Initially her bearing was 2 points on the port bow but her course took her uncomfortably close across our bow., close ahead blizu po pramcu: As the vessel came close to the entrance the skipper, who was on the bridge alone, noticed two small marker buoys close ahead: Target vessel passed close ahead of own vessel and proceeded towards the 'HA' buoy to embark his pilot., close astern blizu po krm: At about 2050 I returned to the Bridge and the Third Mate reported that target x was standing on and would still pass close astern of us. This resulted in the ferry passing close astern of the cargo vessel., close by u blizini, blizu: The master expected to see the pilot boat close by, and asked the chief officer where it was. For his part, the Master expressed his fear that the vessel was in danger of hitting another mooring buoy close by., close on the beam blizu po boku: 4 in the convoy overtaking us very close on our port beam and at this moment I ordered hard starboard., close on the bow blizu po pramcu: Unfortunately, he did this without looking out, and thus failed to see the other vessel very close on the port bow., stay as close to as ... držati se što bliže ...: As I could see that the other vessel was intent on overtaking on my port side, I stayed as close to the south mark as was safe, given that the prevailing set was predicted to be between 1270T and 1360T at that time., close to blizu nečemu: As the vessel approached the inner harbour entrance, the pilot realised that she was getting close to the southerly pier head, which was on the vessel’s port bow. The mate would direct the master via VHF radio as the ship got close to the buoy. At minimum steerage way we were keeping close to the breakwater head.
close-coupled towing (nav arch) tijesno povezano tegljenje, tegljenje s dva tegljača
Closed Gauging System (cargo handling) A method of obtaining measurements of the tank contents without opening the tank. (www.euronav.com) mjerenje tekućine u tanku bez otvaranja tanka
close down (v) (safety) zatvoriti: The need to close down the engine room and use CO2 was also poorly considered. Despite this, no attempt was made to close down the engine room, or isolate the ventilation or fuel supplies.
closed sea (mar law) morski prostor spojen s otvorenim morem tjesnacem ili uskim prolazom i kojemu su obale i tjesnici pod suverenošću jedne države zatvoreno more
close-feed system (marine eng) zatvoreni napojni krug
close-hauled /ˌkləʊzˈhɔːld/ (sailing/boating/yachting) SEE point of sail COMPARE close reach, broad reach, beam reach, run, no-sail zone
sailing as close to the true wind direction as possible; a vessel beating as close to the wind direction as possible oštro uz vjetar, sasvim uz vjetar, jako u orcu, Italian: bolina: At this
time it is believed that the yacht was sailing close hauled in a south-south-westerly direction. Two Wayfarer class sailing dinghies were crossing the Solent, close-hauled in a fresh breeze and good visibility.

**close-hauled sailing** (n) (sailing/boating/yachting) jedrenje uz vjetar (Italian: andatura di bolina stretta)

in a south-south-westerly direction. Two Wayfarer class sailing dinghies were crossing the Solent, close-hauled in a fresh breeze and good visibility.

**close-hauled sailing** (n) (sailing/boating/yachting) jedrenje oštro uz vjetar

**close-hauling** / klaus ho:ling/ (n) (sailing/boating/yachting) prihvaćanje (skretanje jedrilicom prema vjetru; orcanje, orcavanje), jedrenje oštro uz vjetar, jedrenje oštro u orcu, Italian: bolina: The wind was north-west at 20 knots, and the yacht was on a close haul, heading in a westerly direction.

**close quarter/s situation** / klaus'kwo.tar/ (n) (mar law, navig) položaj brodova u kojemu postoji opasnost od sudara; lying so near another ship that there is no room to maneuver and therefore causing the risk of collision.

**close quarter/s situation** developed položaj opasnih blizina razvio se / nastao je …: A close-quarters situation developed. But the tanker continued on her original heading and a close-quarters situation was quickly developing. A close quarters situation was developing with a cargo vessel to starboard.

**close quarter/s situation** occurred ... položaj opasnih blizina nastao je ...: A recent close quarters situation occurred in the early hours of a spring morning in the southwest bound lane of the Dover Strait traffic separation scheme highlighted several areas of concern in the bridge team operations on one of the vessels involved.

**close quarter/s situation** be involved in a close quarter/s situation nalaziti se u položaju opasnih blizina: This was the second close-quarters situation that this ship had been involved in since it started cross-Channel operations.

**close quarter/s situation** avoid the close quarter/s situation izbjeći položaj opasnih blizina: Had he altered course when it first became clear that a risk of collision existed, a close-quarters situation could have been avoided.

**close quarter/s situation** exists postoji stanje opasnih blizina, postoje opasne blizine: The bulk carrier's subsequent alteration of course to 160° meant that a close quarters situation now existed between the two vessels.

**close quarter/s situation** lead to a close quarter/s situation dovести do položaja opasnih blizina: The vessel X's bridge team did not check for sea room astern before altering course, leading to a close quarter situation between the two vessels.

**close quarter/s situation** multiple close quarter/s situation situacija opasnih blizina uključujući više brodova: It became apparent that a multiple close quarters situation was unfolding.

**close quarter/s situation** zatvoriti (uređaj, ventil ...): Crew member failed to close the drop valve of No 1 stbd tank correctly after completion of sampling. The ABs on deck told the duty officer by radio to close the manifold valve, which he did immediately, but he was unaware of the spill until a terminal representative went on board to make enquiries about the inevitable bunching of ships that occurs when one has to zig-zag through gaps, then alterations could not always be made before the close-quarters situation was deemed to exist …

**close reach** (n) (sailing/boating/yachting) sailing with the wind on the bow, but not close hauled otvoreno uz vjetar; 2 jedrenje otvoreno uz vjetar (Italian: andatura di bilina larga)

**close reaching** (n) (sailing/boating/yachting) steering off a close-hauled course by approximately 20 degrees.

https://www.ypiyachts.com
closest point of approach (=CPA) (n) (navig, mar law) Closest Point of Approach is closest distance two vessels will come to each other based on their Current Course and speed. Usually calculated by AIS, ARPA and MARPA capable devices.

SHIP A: Container vessel, Course 140T, Speed. 23kts, CPA 0.5nm, TCPA 18min.
SHIP B: LPG carrier, Course 140T, Speed. 20kts, CPA zero, TCPA 21min. At 1000 the OOW noticed on the AIS receiver that the general cargo vessel was 3.0nm astern with a CPA of zero. With the ARPA showing a CPA of close to zero, we altered course. At this time vessel B was fine on the starboard bow and the OOW had predicted a CPA of 0.8 nm. Own vessel altered course 55 degrees to starboard to 0900T thus opening the CPA of the target to 1.5 nm astern of own vessel.

An overtaking vessel was coming up from the starboard quarter on a course of 2800 at 18.5 kno and intending to pass ahead with a CPA and bow crossing range of 0.4nm. With a CPA of 0.2 miles in ten minutes I decided that we had no choice but to alter to port and come round behind him. With a CPA to...
regularly tested and found to be satisfactory. The closure of ports and port congestion have caused disruptions in the supply chain and import and exports. (https://safety4sea.com/); 2 (shipping econ) shutdown: zatvaranje (linije, terminala), prestanak rada (terminala, linije): The closure of the terminal was expected to impact over 100 jobs.; 3 (marine eng) zatvaranje (vodova, ventila itd.): Watertight integrity: Inspect all watertight decks and bulkheads periodically to verify that progressive flooding cannot occur and that closure devices (such as watertight doors (WTDs) and duct closures) are in place and in working order.
clothing (n) (safety) odjeća: The crew were wearing heavy clothing.
clothing

Cloud point (n) (marine eng) mutište (tekućeg goriva), temperatura zamućenja

Cloud service (=cloud services; cloud computing services) (n) (logist) a wide range of services delivered on demand to companies and customers over the internet (https://www.citrix.com/glossary/what-is-a-cloud-service.html); (in transport logistics) Cloud-based, Information and Communication Technology (ICT) platforms for transport logistics chain management (https://www.researchgate.net/publication/289149877_The_Use_of_Cloud_Computing_in_Shipping_Logistics); (in container shipping): The Cloud Service is available as a pay-per-use or a subscription offering. It provides visibility into the movements of international container shipments as well as the ability to share structured and unstructured documents between trade parties.

INTERNETSKE CLOUD USLUGE (U TRANSPORTU / BRODARSTVU): Companies that want to do business with carriers that support the TradeLens cloud service have no option but to join and supply the required data. https://www.joc.com/maritime-news/container-lines TradeLens is jointly owned global trade digitized solution by IBM and A.P. Moller-Maersk A/S, through its subsidiary Maersk GTD Inc. Maersk GTD Inc. is an IBM contractor and subprocessor for the provisioning and management of the Cloud Service. https://www-03.ibm.com/software/sla/slabd.nsf/cloud service Data Sharing Specification Data Sharing Specification – is the document that describes the TradeLens data sharing model, which can be found in the TradeLens documentation at https://docs.tradelens.com/.) OPIS DIELJENINH PODATAKA (U CLOUD SLUŽBI), OPIS PODATAKA DOSTUPNIH SUDIONICIMA (U CLOUD SLUŽBI), CLOUD SERVICE CONSIGNMENT Consignment – means separately identifiable collection of goods tracked on the TradeLens Platform that one single transport service contract.

POŠILJKA (U CLOUD SLUŽBI), CLOUD SERVICE PARTICIPANT Participant – means shippers, ocean carriers, terminal operators, inland transportation providers, government authorities, and other supply chain stakeholders subscribing to the Cloud Service who may provide and/or exchange information with the Cloud Service. SUDIONIK U CLOUD SLUŽBI, CLOUD SERVICE CLIENT PROVIDED DATA PODATCI KOJE SUDIONIK PRUŽA CLOUD SLUŽBI: Client agrees that IBM may make such Client Provided Data for a Consignment available to any Participant that is involved in that Consignment in accordance with the Data Sharing Specification. https://www-03.ibm.com/software/sla/slabd.nsf/cloudy (adj) (meteorol) oblačno: South Atlantic. Daytime. Cloudy. Good visibility. - Report No. ..006. My vessel was en route from Necochea in Argentina to the Persian Gulf in October . . cloudy weather oblačno vrijeme: The weather was cloudy with good visibility, and the wind was west-south-westerly Force 3 . ., partly cloudy djelomično oblačno: It was a partly cloudy day, with light winds.
clove hitch /ˈkləʊv,ˈhɪtʃ/ (n) (seamanship) A knot for fastening a line to a spar or pile vrzni uzao, vrzin uzao, Italian: mezzo collo da incappellare; nodo di cabestano
Club (=Protection and Indemnity Club) (n) (mar law) SEE Protection and Indemnity Insurance; P & I Insurance

P & I klub: He then joined the Club in Sep 2012.

crub (n) (sailing/boating/yachting) deblenjak floka, bum floka

cluster /'klʌstə/ (n) 1 a number of things growing, fastened, or occurring close together Skup, grozd: Radar picture: Crossing vessel suddenly emerging from cluster of anchored ships echoes about 1.5 on starboard bow Soon afterwards, her skipper saw a cluster of lights ahead and adjusted course by several degrees to port to avoid them.; 2 grupa (ljudi); 3 (navig) grupa zvijezda, skup sazviježđa; 4 cluster, klastar

clutch /klʌtʃ/ (n) (marine eng) A device used to connect or disconnect the power input to the power output (http://www.marinedieseleurope.com/) spojka, kopča, kvačilo clutch lever poluga spojke, ručka kvačila: After completing the job they intended to disengage the clutch by shifting the clutch lever, clutch control ručica spojke: a routine maintenance of all filters in the clutch control and reduction gearbox lubricating oil circuits was conducted as per ship’s PMS, clutch housing kućište sojke: Checks of the gearbox found that there was damage to the gearbox pinions and clutch housing, dog clutch zupčasta spojka: ... the main engine stopped, resulting in the loss of hydraulic power and a consequent inability to disengage the winch dog clutch, gearbox clutch spojka reduktora, spojka prijenosnika: Shortly after the pilot boarded, a signal on the machinery monitoring system indicated a fault with one main engine to gearbox clutch, hydraulic clutch hidraulička spojka / kopča

http://www.indclutch.com/newsroom/2012/04/HC-Clutches-for-Marine-Gearboxes {Italian:frizione, innesto a frizione}
**clutch** (n) *(sailing/boating/yachting)* = *jammer* A set of jaws, similar to a cleat, designed to hold a rope fast under high loads. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) *stoper*, *štoper* http://www.apsltd.com/hardware/cleats-clutches/clutches-jammers.html

**clutch coupling** (n) *(marine eng)* izvrstiva spojka

http://www.apsltd.com/hardware/cleats-clutches/clutches-jammers.html

**clutch in** (v) *(seamanship)* spojiti se, uključiti se: The self-tensioning system was unable to *clutch in and out* fast enough to render all the lines before they parted. Samozatezni privezni uređaj nije se mogao dovoljno brzo uključiti i isključiti kako bi uže moglo popustiti. The engine would only *clutch in* the ahead mode occasionally and at high engine revolutions.

**clutch out** (n) *(seamanship)* isključiti se (o vitlu), odspojiti se: The self-tensioning system was unable to *clutch in and out* fast enough to render all the lines before they parted. Samozatezni privezni uređaj nije se mogao dovoljno brzo uključiti i isključiti kako bi uže moglo popustiti.

**clutter** /ˈklʌtə/ (n) *(navig)* smetnje (u radarskoj slici), radarske smetnje *sea clutter* smetnje nastale utjecajima valova, smetnje od mora, smetnje od kiše i valova: In rough weather, returns from the sea surface, called *sea clutter*, are received over several miles around own ship and mask nearby targets. 5 miles and the *sea and rain clutter* had been adjusted as the vessel gathered speed and settled at 23kts., *rain clutter* smetnje nastale utjecajima kiše, smetnje od kiše, smetnje od padalina: Radar range scale and tuning (gain, *sea clutter*, *rain clutter*) should be regularly adjusted throughout the watch in order to detect weak radar targets., *anti clutter unit* uređaj za ublažavanje smetnji od mora, *supress the clutter* ukloniti smetnje od valova i mora, *suppress the clutter* ukloniti smetnje od kiše

**CMI** (=Comité Maritime Internationale) (n) *(mar law)* The Comité Maritime International (CMI) has attempted to bring about an international convention on the responsibility of classification societies without success so far. ... . In May 1998, the CMI Assembly adopted Principles of Conduct for Classification Societies. These principles imposed certain duties and procedures and outlined standards of practice and performance for societies which adopt them. A year later, the CMI Assembly adopted Model Contractual Clauses for Use in Agreements between Classification Societies and Governments and Classification Societies and Shipowners, which define and clarify, subject to national law, the circumstances under which civil liability of the classification societies and their employees and agents should be regulated or limited. ... The classification societies have been in serious negotiation with European Union (EU) authorities to produce, if possible, a mutually acceptable directive on liability of classification societies. ...instrumental in the adoption of many important international conventions, e.g. 1) Collisions between Vessels, 1910.

Međunarodni pomorski odbor
CNC (computer numerical control) (n) (nav arch) the automated control of machining tools (such as drills, lathes, mills) and 3D printers by means of a computer. A CNC machine processes a piece of material (metal, plastic, wood, ceramic, or composite) to meet specifications by following a coded programmed instruction and without a manual operator directly controlling the machining operation. numerički upravljani alatni stroj (u izgradnji trupa broda): A CNC machine processes a piece of material (metal, plastic, wood, ceramic, or composite) to meet specifications by following a coded programmed instruction and without a manual operator directly controlling the machining operation.

CNC machine (computer numerical control) (n) (nav arch) A CNC machine processes a piece of material (metal, plastic, wood, ceramic, or composite) to meet specifications by following a coded programmed instruction and without a manual operator directly controlling the machining operation. (A CNC machine processes a piece of material (metal, plastic, wood, ceramic, or composite) to meet specifications by following a coded programmed instruction and without a manual operator directly controlling the machining operation.) računalno numeričko upravljanje: A CNC machine processes a piece of material (metal, plastic, wood, ceramic, or composite) to meet specifications by following a coded programmed instruction and without a manual operator directly controlling the machining operation. https://en.wikipedia.org/wiki/Numerical_control

CNC plate bending machine stroj za računalnom podržano savijanje limova

CNG carrier (Compressed natural gas carrier) (n) (nav arch) a ship designed for transportation of natural gas under high pressure (https://en.wikipedia.org) brod za prijevoz komprimiranog prirodnog plina

CO /ˈsiːˈoʊ/ (carbon monoxide) (n) (safety) ugljični monoksid: The most prevalent source of CO is exhaust from gasoline engines and generators. These fumes reach boaters from leaks in the exhaust system, fumes sucked back into the boat, or from other boats. https://www.boatus.com/ All the crew should know the symptoms of CO poisoning and how to react if it is suspected https://www.boatsafetyscheme.org/stay-safe-advice/carbon-monoxide-co/ Install at least one certified CO alarm (BS EN 50291-2), test it routinely and never remove the batteries https://www.boatsafetyscheme.org/stay-safe-advice/carbon-monoxide-co/

CO2 /ˈsiːˈoʊ ˈtuː/ (carbon dioxide) (n) (safety, marine eng) ugljični dioksid: The fire was extinguished following activation of the CO2 smothering system. (https://safety4sea.com/) After various checks had been performed, the Chief Engineer released the contents of 197 CO2 cylinders into cargo hold 2. https://safety4sea.com/ CO2 emission ispuštanje ugljičnog dioksida, release CO2 pustiti CO2: A cloud of smoke began emerging from Hold 4 which was noticed by the crew who promptly commenced fire fighting measures by releasing CO2 (Carbon Di-Oxide) to suppress it. www.gCaptain.com, release CO2 pustiti CO2

COA (Contract of Affreightment) (n) (mar law) = contract of affreightment An agreement to transport a defined amount of cargo at an agreed freight rate, with the shipowner choosing the ship. (https://www.clarksons.com/glossary/) ugovor o prijevozu robe (za određenu količinu i na određeni rok, npr. godišnji ili višegodišnji ugovor), dugoročni brodarski ugovor na putovanje, afretman

coach roof (n) (sailing/boating/yachting) krov kabine

coach screw (n) (marine eng) vijak sa četvrtastom glavom

coal (n) (cargo) ugljen: The main hazards of the shipment of coal are that it may self-heat and it may (also) emit methane. https://safety4sea.com/
**CO alarm** (n) (safety) CO alarm, upozorenje o prisutnosti ugljičnog monolsida: If fuel burning appliances, generators or engines are used whilst people sleep, all sleeping quarters will need their own alarms. Try to place the CO alarm: in living quarters between 1m and 3m (on plan view) from the appliance

**coal-burner** (n) (nav arch) parobrod na ugljen

**coal carrier** (n) (nav arch) brod za ugljen

**coal-fired** (adj) (marine eng) s pogonom na ugljen

**coaming** /ˈkoʊmɪŋ/ (n) (nav arch, safety) the raised frame work around deck openings, and cockpit of open boats; the raised edge of a hatchway used to help keep out water; raised frame around a hatch opening pražnica grotla, solijer, soljera: Hatches are surrounded by coamings to reduce the risk of flooding in heavy seas. transverse hatchway coaming poprečna pražnica grotla, longitudinal hatchway coaming uzdužna pražnica grotla

**coarse** /ˈkoʊs/ (adj) (marine eng) ANTONYM fine-grained grub, krupnozrnat coarse-grained (adj) ANTONYM fine-grained krupnozrnat

**coast** /ˈkəʊst/ (n) (geogr) the entire extent of land area adjacent to the sea or ocean morska obala, obala: If you ever travel to Europe, you must visit and spend as much time as you can on the Adriatic coast. We spent a very vigilant night at anchor in deep water off the coast. Fortunately, the vessel was near the coast and medical evacuation was effected promptly, and he was repatriated home after a brief hospitalisation. An eight-metre pleasure craft was struck by a passing bulk carrier while anchored for the night in a shipping lane off the north east coast of Australia ... coastal /ˈkəʊst əl/ (adj) obalni

**coastal authorities** (n) (mar law) državne obalne vlasti, obalne vlasti (neke države): MIN 231 (M+F) requires coastal authorities and shipping to inform vessels of erroneous vessel data being transmitted. Report incident to coastal authorities and to MARS (The Nautical Institute).

**coastal navigation** (n) (navig) = terrestrial navigation the safe conduct of a ship where the navigator has the land on one side of his course and the open sea on the other obalna navigacija: Mariners should use GPS in ocean navigation to check the Astronomical position, but in coastal navigation they must be very prudent with the GPS position.

**coastal passage** (n) (navig) dužobalno putovanje broda, putovanje uz obalu: A 5500 teu container ship was on a coastal passage off southern China. The skipper had planned a coastal passage that allowed several port visits en route, enabling him and his two crew members to get adequate rest.

**coastal service** (n) great / short coastal service velika / mala obalna plovidba (shipping econ) obalna plovidba, kabotaža
coastal state  (n) (mar law) a State in whose territory, including its territorial sea, a marine casualty or marine incident occurs (IMO Casualty Investigation Code; EMSA) obalna država: Under Marpol regulations, vessels with faulty pollution prevention/ control systems or related deficiencies must report the situation to the nearest coastal state immediately on such fault(s) being discovered.

costal station  (n) (comm) obalna radiopostaja: If in doubt, consult a Coast Station/RCC before sending a DSC Distress Acknowledgement. The initial message came via the Coast Station from an unknown MMSI.

costal tanker  (n) (nav arch) tanker obalne plovidbe: A coastal tanker was on passage with a cargo of gas oil.

costal trade  (n) (mar law, shipping econ) obalna plovidba, kabotaža

costal vessel / ship  (n) (mar law) brod obalne plovidbe: A 58-metre coastal cargo vessel was steaming south in the early hours of a February morning. This is partly due to a language barrier but also a reluctance by the coastal ships to answer calls on VHF.

costal waters  (n) (navig, mar law) the area from a line approximating the mean high water along the mainland or island as far out as 25 miles including the bays, harbors and sounds (Seasources.net) obalne vode, priobalne vode: In coastal waters or in traffic separation schemes, the restricted nature of the available sea room, and the high density of traffic, necessarily reduces the margins of safety Test manual steering before entering coastal waters.

costal tanker / (n) (nav arch) brod obalne plovidbe: As is common in very busy ports, most coasters, fishing and small craft do not report to VTS or port authorities.

Coast Guard  /ˈkɔst ɡɑːrd/ (n) (safety, mar law) obalna straža: Shortly afterwards Dover Coast guard called the bulk carrier on channel 18 by name and call sign, asked him to change to channel 80 and ... The crewmember was evacuated by the Netherland's Coast Guard and brought to hospital. The coastguard was alerted and the motorman was airlifted to the nearest hospital.

coastguard (=CG)  (n) (safety, mar law) A branch of the government with a mission to protect the coastal waters of a country, administer and enforce legal and safety regulations in the nation’s waterways, maintain aids to navigation, and provide rescue service for mariners in distress (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) obalna straža

costing  (n) (mar law) = cabotage mala obalna plovidba, kabotaža

costing trade  (n) (mar law) obalna plovidba, kabotaža

coastline  /ˈkəʊst ˈlain/ (n) (geogr, environ) obala: 23 out of 28 EU countries have a coastline. The coastline experienced strong storms and high tides last month, washing up rubbish and debris. clean-up the coastline (environ, safety) čistiti obalu: The ocean pollution mapping platform Eyesea, was recently deployed to clean-up the coastline of Isle of Man, after strong storms and high tides. https://safety4sea.com/, survey the coastline (environ, safety) nadzirati obalu: The coastline experienced strong storms and high tides last month, washing up rubbish and debris.

cost line (=coastline)  (n) (shipping econ) obalni brodska linija, obalna
**Coast Pilots** – Books covering information about coastal navigation, including navigational aids, courses, distances, anchorages and harbors.

**Coast Radio Station** (CRS) – A land station in the maritime mobile service. (IAMSAR Vol III 2013)

**Coast Station** – Those coast stations assuming a watch-keeping responsibility in the GMDSS shall maintain an automatic digital selective calling watch on frequencies and for periods of time as indicated in the information published in the List of Coast Stations and Special Service Stations (ITU-R)

**Coastwise** – Along the coast; water transportation

**Coast with Off Laying Dangers** – When passing along coasts with off laying dangers a radar range can be used to pass a danger at a safe distance.

**Coat** – 1. (seamanship, marine eng) pokriti, obložiti, prevući; 2. premazat (bojom)

**Coating** – In 2006 IMO adopted regulations on the coating of ballast tanks. When the ship came into the drydock the ecoshield coating was still in very good condition and did not need to be replaced or repaired. The Polar Code recommends the application of abrasion resistant, low friction coatings to vessels operating in ice-covered waters. When the survey ship was drydocked after navigating 2.5m thick ice with a high content of gravel and volcanic lava, the original coating, applied seven years ago, was virtually intact, undamaged marine coatings

**Coating Technical File** – Mapa tehničkih podataka o zaštitnom premazu balastnih tankova

**CoC** (=Certificate of Competency) – = certificate of competency

**Cock** – A valve which is opened or closed by giving a disc or a tapered plug a quarter turn. pipac shut-off cock pipac za isključivanje, zatvorni pipac, cock drain odvodni pipac, drenažni pipac

**Cocked Hat** – a triangle produced by plotting three bearings on a chart trokut
**cockpit**  (n) *(sailing/boating/yachting)* The seating area of a small boat or sailboat toward which most of the controls are run.  *kokpit jedrilice*

**cockpit**  /ˈkɒkpit/ (n) *(nav arch)* the well of a sailing vessel, especially a small boat, for the wheel and steerman  *http://officerofthewatch.com/tools/maritime-dictionary/*

**zdenac**, *brodski zdenac*,

**Italian:** *pozzo*

**cockswain; coxswain**  /ˈkɒkswɛn; ˈkɒksweɪn/ (n) *(seamanship)* kormilar brodice za spašavanje, kormilar brodice, zapovjednik peljarske brodice,  *skipper (pilotine):* The pilot boat’s  *coxswain* called the river pilot on the Very High Frequency (VHF) radio and it was agreed that the pilot transfer would be completed on Sunmi’s port side.  *www.gov.uk/maib At 1809, the  *coxswain* brought pilot boat onto a course parallel to the ship and made an approach towards the cargo ship’s port side.  *www.gov.uk/com* The  *coxswain of the pilot boat* asked the cargo vessel’s master, by VHF radio, to alter course to port, which he agreed to do.  *https://safety4sea.com/*

**cocktailshaker**  (n) *(marine eng)* koktelmikser (način rashlađivanja klipa)

**cocoa**  /ˈkəʊkəʊ/ (n) *(cargo)* kakaovac

**cod ( =codfish)**  (n) *(fishing)* COMPARE haddock  *bakalar:*  *Cod and Haddock* are two of the world’s most popular food fish.  *https://fishingbooker.com/blog/cod-vs-haddock-all-you-need-to-know/*

Code of Safety for Dynamically supported craft

Code /ˈkʌd/ (n) 1 (mar law) kodeks High Speed Craft code (HSC code)

Međunarodni kodeks za brze brodove, HSC kodeks; 2 (marine eng, mar law) pravilnik; 3 (mar law) zakonik, skup zakona

code alerts and identifiers (n) (navig) obvezni alarmi zapovjedničkog mosta

code flag (n) (comm) = signal flag signalna zastavica, zastavica signalnog kodeksa

Code for Recognized Organizations (=RO Code) (n) (mar law) RO kodeks,
Kodeks za priznate organizacije: The RO Code serves as the international standard and consolidated instrument containing minimum criteria against which organizations are assessed towards recognition and authorization and the guidelines for the oversight by flag States. https://www.imo.org/en/OurWork/IIIS/Pages/Recognized-Organizations.aspx

Code for the construction and equipment of Mobile Offshore Drilling Units (=MODU COde 2009) (n) (mar law) Kodeks za konstrukciju i opremanje pokretnih odobalnih objekata za bušenje, MODU kodeks

Code for the construction and equipment of ships carrying dangerous chemicals in bulk - Res. MSC.9(53), (MSC.212(81) (=BCH Code 1986) (n) (cargo handling, mar law, safety, environ) Kodeks za gradnju i opremanje brodova za prijevoz opasnih kemikalija u razlivenom stanju (BCH Kodeks) i, BCH kodeks

Code of Practice for Ships Carrying Timber Deck Cargoes (n) (cargo handling) Pravilnik za osiguranje tereta drva na palubi broda

Code of Practice for the Carriage of Live Animals Pravilnik za prijevoz živih životinja

Code of Practice for the Safe Carriage of Grain in Bulk (Grain Code) Pravilnik za prijevoz žitarica u rasutom stanju

Code of Practice for the Safe Loading and Unloading of Bulk Cargoes (BLU Code) (n) (cargo handling) Pravilnik za ukrcaj i iskrcaj rasutog tereta

Code of Safe Practice for Cargo Stowage and Securing (n) (cargo handling) IMO kodeks/pravilnik o sigurnom slaganju i učvršćenju tereta

Code of Safe Practice for Cargo Stowage and Securing, 1991 (=CSS Code) (n) (mar law, cargo handling, safety) Kodeks za siguran rad, slaganje i pričvršćenje tereta, CSS kodeks

Code of Safe Practice for Solid Bulk Cargoes (n) (cargo handling) = BC Code

Pravilnik za osiguranje krutog tereta u rasutom stanju

Code of Safe Practice for the Carriage of Cargoes and Persons by Offshore Supply Vessels (=OSV Code) • Kodeks za prijevoz tereta i osoblja brodovima za opskrbu (OSV Kodeks),

Code of Safety for Dynamically supported craft (=DSC Code) (n) (mar law, navig, safety) Kodeks o sigurnosti dinamički podržavanih plovila, DSC kodeks (± Res. A.373(X) (MSC.186(79)))
Code on noise levels on board ships (n) (mar law) Kodeks o razinama buke na brodovima, (- Res. A.468(XII))

Code on safety for special purpose ships (=SPS Code 2008) (n) (mar, safety) Kodeks za brodove posebne namjene (SPS Kodeks), SPS kodeks (MSC/Res.299(87))

code sign /ˈkəʊd,sain/ (n) (comm, navig) signalni kod

CO detector (n) (sailing/boating/yachting, safety) detektor ugljičnog monoksida,
CO detektor: All cabins with a fuel burning appliance should have a CO detector and alarm fitted. If fuel burning appliances, generators or engines are used whilst people sleep, all sleeping quarters will need their own alarms https://www.boatsafetyscheme.org/

codfish (=cod) (n) (fishing) bakalar

coefficient /ˈkɔɪəfiʃənt/ coefficient of performance koeficijent učina, učin koeficijent

CO2 extinguisher (n) (safety) prijenosni aparat za gašenje ugljičnim dioksidom

coffee watch (n) (seamanship) = morning watch jutarna straža, jutarnja gvardija

cofferdam /ˈkɔfəˌdæm/ (n) (nav arch) A small space left open between two bulkheads as an air space, to protect another bulkhead from heat, fire, hazard or collision.
https://officerofthewatch.com/tools/maritime-dictionary/ loska, pregradak, koferdam: Cofferdams are also used for insulation purposes

COG (=course over ground) (n) (navig) = course over ground kurs preko
The ship’s master adjusted the autopilot to bring the vessel on to a COG of 218.

COGSA (=Carriage of Goods by Sea Act) (n) (mar law) U.S. federal codification which standardizes carrier’s liability under carrier’s bill of lading; U.S. enactment of The Hague Rules

Zakon o prijevozu robe morem

cogwheel (n) (marine eng) zupčanik

cohesive material (n) (cargo, stabil) ANTONYM non-cohesive material

kohezivni materijal (rasuti teret)

coil /ˈkoʊl/ (electr) zavojnica, bobina deflection coils otklonske zavojnice (katodne cijevi)

coil /ˈkoʊl/ (v) 1 namatati; 2 (sailing/boating/yachting) To prepare a line for stowing by turning it in equal loops so that it is neat and orderly and ready for use

coils /ˈkoɪlz/ (n) (nav arch, cargo handling) A system of small diameter pipes installed inside a liquid cargo tank for the purpose of heating the cargo by means of hot oil or steam.

Coil the rope namatati konop, kojit, skojit: Coil the rope into your right hand in clockwise loops about two feet long, up to a maximum of about 10 loops. https://www.practical-sailor.com/ Coil down slagati konop, coil a rope in Flemish flake namatati konop spiralno zavojnica, spirala zavojnica heating coil grijača zavojnica, serpentina za zagrijavanje

cold cranking amps (=CCA) (n) (electr, sailing/boating/yachting) struja hladnog uređaja

cold flow properties (n) (marine eng) svojstvo protočnosti hladnog goriva: ...

we expected huge variations in viscosity, density & cold flow properties of VLSFOs

https://safety4sea.com/

cold ironing (n) (electr) shore connection, or alternative maritime power (AMP), is the process of providing shoreside electrical power to a ship at berth while its main and auxiliary engines are turned off

obalni priključak (na električnu struju), kopneni električni priključak:

Solar panels, optimized propellers and cold ironing - the possibility to connect to land power network at ports - are among the economically profitable investments in new technologies - https://safety4sea.com

cold start (n) (marine eng, navig) upućivanje iz hladnog pogona

cold starting (n) (marine eng) startanje iz hladnog stanja

cold storage skladište-hladnjača (u luci), rashladno skladište

cold store brodski frižider, jacera

cold water survival (n) (safety) preživljavanje u hladnoj vodi / moru

collapse /ˈkəˈleɪps/ (n) (cargo) rušenje cargo collapse rušenje tereta, raspad
The MAIB investigation determined that poor stevedoring practices probably contributed to the unsecured cargo stack collapsing. Container stack collapses put vessels and crew in danger. It is known that almost all container stack collapses at sea occur in rough weather with strong winds. Some of the securing points for containers on deck were heavily corroded which cause the stack collapse and loss of containers at sea.

It is known that almost all container stack collapses at sea occur in rough weather with strong winds. Some of the securing points for containers on deck were heavily corroded which cause the stack collapse and loss of containers at sea.

A giant crane collapsed after being hit by a ship at the port of... The accident resulted in the collapse of a shore crane.

A container that can collapse up to a quarter of its size and combine with 3 others to achieve a 4:1 ratio; This means that the space, handling and transportation of empty containers is reduced by up to 75% in comparison to a standard unit.

The container at the lowest tier has the largest risk to collapse due to these loads induced by the weight of containers on top of it. The first casualty in 2021: 36'40' containers fall into the sea from a container ship and another 21x40' collapsed within stacks. Around another 70 containers collapsed within stacks on board the ship.

The flexible container is strong and can take an active top load of over 380 Tonne.

The cargo that is not collected at ports creates congestion and takes up space, reducing capacity for incoming cargo and containers.

The cargo that is not collected at ports creates congestion and takes up space, reducing capacity for incoming cargo and containers.
collided with Cido Shipping’s chemical tanker Lime Galaxy off Jurong Island. As the tanker was turning to port, in order to provide more space for what the Master believed would be a starboard to starboard meeting, it became apparent that the ships would collide. www.nautinst.org - MARS reports The pilot on vessel A ordered hard to starboard and full astern but it was too late, and the vessels collided. www.safety4sea.com collide with sudariti se s: A general cargo vessel sank after it collided with a 10,546-teu containership, vessel X and vessel Y collided ... brod X i brod Y sudarili su se ...: The tanker and the bulk carrier collided Monday night at about 11:30 p.m. approximately 8 nautical miles from the northern entrance in the Bosphorus Strait. Cruise ship with hundreds of passengers and a chemical tanker carrying flammable naphtha collided in the Dardanelles Strait, causing damage but no injuries At 0027 on 11 December 2014, the general cargo vessel ... and the tanker ... collided in the south-west lane of the Dover Strait Traffic Separation Scheme. collier /ˈkɔlɪə/ (n) (nav arch) = coal carrier A vessel designed for the carrying of coal, which may or may not be fitted with special appliances for coal handling. comber /ˈkəʊmər/ (n) (oceanogr) a long, breaking ocean wave val koji se ruši, val na početku rušenja

comber /ˈkəʊmər/ (n) (fishing) Lat. Serranus cabrilla kanjac, Italian. sciarriano cabrilla, kanj, zubuša, kanjica, giričar
combi carrier (=combination carrier) (n) (nav arch) = combination carrier
Ships designed to be able to carry both oil cargoes or ‘dry’ cargoes such as iron ore or grain, in the hope that the vessel can maximise earnings by swapping between wet and dry cargoes and eliminate some of the time spent ‘in ballast’. (www.euronav.com)

brod za mješovitog tereta

COMBILL teretnica za mješoviti (kombinirani) prijevoz
combination carrier (=combi carrier; OBO ship; Ore/Oiler) (n) (nav arch, shipping econ)
Ship capable of carrying oil or dry bulk cargoes, thereby increasing the productivity of the vessel. Typically termed OBO or Ore/Oiler. (http://www.clarksons.com/glossary/)

combination spanner (n) (marine eng)

kombinacijski softver: active combinator aktivni kombinacijski softver za smanjivanje potrošnje goriva: An active combinator automatically optimizes the pitch setting and engine rpm to minimize the consumption. The efficiency gain because of the active combinator being applied is approximately 2%.

combined transport (=combined transportation (US)) (n) (shipping econ)
intermodal transport where the major part of the voyage is by one mode such as rail, inland waterway or sea and any initial and/or final leg carried out by another mode such as road; Intermodal transport where the major part of the journey is by one mode such as rail, inland waterway or sea and any initial and/or final leg carried out by another mode such as road. (https://www.msc.com/shipping-glossary);

prijevoz, kombinirani prijevoz, multimodalni prijevoz: Where the Carriage is Combined Transport, the Carrier undertakes to perform and/or in his own name to procure performance of the Carriage from the Place of Receipt or the Port of Loading, whichever is applicable, to the Port of Discharge or the Place of Delivery, whichever is applicable

Combined Transport Bill of Lading (n) (mar law, shipping econ) A type of Bills of Lading for shipments carried by more than one means of transport (e.g. by a door-to-door freight-forwarding service).; Document evidencing a contract between shipper and a shipping line for carriage of goods on a voyage involving at least two legs. Normally, the issuer of this document is responsible for the goods
from the time they are received into his care until the time they are delivered at destination.

combined transport carrier (n) (mar law) poduzetnik mješovitog prijevoza, operator mješovitog prijevoza

combined transport document (n) (logist) Negotiable or non-negotiable document evidencing a contract for the performance and/or procurement of performance of combined transport of goods. (https://www.msc.com/shipping-glossary) robni dokument za kombinirani prijevoz

combined transport operator (n) (shipping econ) poduzetnik mješovitoga prijevoza

combustible gas indicator (n) (safety) indikator zapaljivog plina

combustion /komˈbʌʃən/ combustion chamber izgarno komora, komora za sagorijevanje, combustion gases plinovi izgaranja, produksi sagorijevanja, combustion space izgarni prostor, combustion stroke radni takt, takt sagorijevanja (eksplodije), products of combustion produkci izgaranja, spontaneous combustion samozapaljenje, internal 1 unutarnje izgaranje izgaranje, sagorijevanje

combustion air system (n) (marine eng) sustav (napajanja) raka za igaranje: The combustion air for main and auxiliary engines should be delivered through dedicated ducts close to the turbochargers. https://www.wartsila.com/encyclopedia/term/engine-room-ventilation Gas air system: Temperature at turbocharger intake, max. 45 degrees C www.wartsila.com

combustion chamber (marine eng) izgarna komora, komora izgaranja: The combustion chamber is enclosed between the cylinder head and the piston and the most of it contained in the top of the piston.

come about (v) (sailing/boating/yachting) SYNONYM Ready about! to change tacks with the boat turning through the wind; to tack: to change tack; to change direction through the wind letati, okretati (jedrilicu), napraviti bordadu

come alongside (v) (seamanship, navig) pristati uz obalu, pristati bokom uz obalu, koštat

come around (v) (navig, ship handling) okrenuti brod (u lijevu / desnu stranu): The pilot ordered the vessel to come around to port and stop the engines. https://safety4sea.com/; 2 (sailing/boating/yachting) to bring a sailing vessel into the wind and change to another tack okrenuti jedrilicu (drugom stranom prema vjetru), letati

come ashore (v) doći na kopno: Denmark will allow merchant sailors stranded on the high seas since the outbreak of the coronavirus to come ashore and be reunited with their friends and families www.gCaptain.com

come due (v) (financ, mar ins) dospjeti (za naplatu, obnovu itd.): While on Grenada, we discovered that our boat insurance was coming due and that the company would require an out-of-water survey this time around. We would need to haul out the boat https://mail.google.com/mail/u/0/#imp/163accbb97b17485
come home (v) (sailing/boating/yachting) When you pull the anchor cable and the anchor comes towards the boat povlačiti se po sidru

Come in, please (v) (comm) frequently said on VHF radio by the station calling another station/ship and waiting for response Prijam.: Ship on may port side, three point three miles away, steering 2-3-6. Come in, please. (This is a frequently used phrase in VHF communications, though not recommended by IMO SMCP. Simply, using the phrase Over. would do.)

come to (v) (sailing/boating/yachting) to stop a vessel by turning into the wind zaiustaviti se okretanjem (jedrilice) u vjetar
come to rest zaustaviti se
come to touch dobću u dodir, dirnuti, taknuti
comfortable /ˈkʌmftəbəl/ (adj) udoban, ugodan
coming alongside (n) (navig, seamanship) pristajanje uz obalu
coming to starboard / port (ship handling) pomicanje broda po sidru u desno / lijevo: But coming 50 yards to starboard and 75 yards aft is not simple, you must adjust all four anchors and visualize the change in the ship’s position.

Comite Maritime International (CMI) Međunarodni pomorski odbor
comity /ˈkɒmətɪ/ (n) 1 (mar ins) They agree in particular to strengthen their links with the member countries of the Council of Europe and with other democratic European countries with which they have friendly relations and close co-operation.(EuroTerm); The doctrine requiring courts of one state to recognize the laws of foreign states and judgments of competent courts of such states, in order to secure the reciprocal recognition by that foreign state of the laws of the first state and the judgments of its courts.http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm;
2 reciprocitet, priznavanje zakona i sudskih odluka na bazi reciprociteta

command (n) (navig) zapovjedanje be in command 1 zapovijedati brodom; 2 biti zapovjednikom: After three years in command, he came ashore and headed the Commercial and Operations department of a shipping company Nakon tri godina plovidbe kao zapovjednik on se iskrcao (zaposlio na kopnu) i bio na čelu komercijalne i operativne službe brodarskog društva.

commander /ˈkɑːmaːrndər/ (n) 1 (navy) naval officer next below captain; Title of an officer between a Lt Commander and Captain. (http://www.quarterdeck.org/index.html) zapovjednik ratnog broda (između čina kapetana i poručnika), kapetan fregate: Commander of the aircraft carrier; 2 the master of a merchant ship zapovjednik

Commanding Officer (=CO; Commander) (n) (navy) The Commanding Officer of a U.S. naval vessel is the officer regularly ordered to command it by the Secretary of the Navy. Regardless of his rank, he has full command, authority, and precedence over all officers and persons serving in his ship. (https://www.ibiblio.org/hyperwar/USN/ref/Seamanship/Seamanship-7.html) zapovjednik (ratnog broda; razarača, fregate, krstarice itd.), kapetan (ratnog broda): The Commanding Officer (CO) of a destroyer under peacetime conditions is normally a Commander with 15 to 18 years of commissioned service. During World War II, the commanding officer was frequently a Lieutenant Commander http://www.dd596.com/Our-Ship/Organization {Regardless of rank, the Commanding Officer was always referred to as “Captain.”}

command of the English language vladanje engleskim jezikom: there is
reason to doubt that the bridge staff have a sufficient command of the English language to be able to respond correctly and without delay to the Pilot’s directions.

**commence** /ˈkə mɛns/ *(shipping econ)* ANTONYM cease započeti, početi: laydays commence to count as of May 15th stojnice se započinju računati od 15. svibnja. Wages shall commence no later than on the day specified and agreed to in these Articles Zarada/plaća se počinje računati najkasnije od dana navedenog i dogovorenog u ovom radnom ugovoru Like the voyage charter there is a clause stipulating when time shall commence to count.

**commission** /ˈkə mɪʃən/ *(shipping econ)* provizija: The gross charter rate is US$12,000 per day, minus a 4.75% commission paid to third parties, for a period of about twelve (12) months to maximum fifteen (15) months. Maritime Today <update@maritimetoday.com>

**commission** /ˈkə mɪʃən/ *(v)* 1 *(shipping econ)* to place / put a ship, crane etc. in service predati u službu / eksploataciju, pustiti u rad, obaviti primopredaju (broda): The vessel was commissioned as the first seagoing container ship in 1968. Houston Authority has commissioned the first of four new Super Post-Panamax STS cranes at its Barbours Cut Container Terminal Furthermore, expired certificates need to be renewed before the vessel can be re-commissioned.; 2 angažirati, povjeriti posao: Danaos have commissioned a salvage and fire extinguishing agency to come on board in order to ensure that conditions are appropriate for the safe return of the vessel’s crew https://splash247.com/

**commission** *(navy)* If a member of the armed forces receives a commission, he or she becomes an officer. (https://www.collinsdictionary.com/dictionary/english/commission) ovlast (časnika ratne ili trgovačke mornarice), odluka o dodjeli časničkog čina

**commissioned light** ponovno osposobljena plovdbena oznaka

**commissioned officer** *(navy, hum_resources)* the term OFFICER almost always refers to only commissioned officers, i.e. the more senior portion of a force who derive their authority from a commission from the head of state. (https://en.wikipedia.org/wiki/Officer_(armed_forces)) časnik (trgovačke mornarice); 2 an officer of the armed forces holding by a commission a rank of second lieutenant or ensign or above
commissioning (n) (sailing/boating/yachting) bring a newly produced sailboat or yacht into working condition

commissioning ceremony (n) (nav arch, navy) ceremonies during which a new ship is placed in service

commissioning of the ship (n) (nav arch) primopredaja broda (od strane brodogradilišta): The technology group Wärtsilä has completed the installation and commissioning of a unique hybrid power system combined with a PV solar energy system

puštanje broda u plovidbu: Although commissioning places the ship in service, much work usually remains to be done by the crew to bring the ship to its full operational capability. Keel laying is one of the four specially-celebrated events in the life of a ship: the others are launching, commissioning, and decommissioning.

re-commissioning of the ship ponovno puštanje broda u plovidbu: Depending on the length of lay-up, three weeks or more should be expected for re-commissioning.

commissioning phase (n) (nav arch) faza primopredaje (broda, dizalice, opreme itd.): Of the cranes that arrived in December, the first is already in use. The second crane is in its final commissioning phase and should be in use in the third week of March.

commit /kəˈmɪt/ (v) izvršiti, počiniti krivično djelo to commit crime

committed (adj) odan, vjeran, posvećen: We remain committed to serving all of our customers.

commodities /kəˈmɒdɪtiz/ (n) (logist, shipping econ, mar law) COMPARE cargo

Commodity maybe defined as a raw material or product that is traded, even on a stock exchange, such as ores, grain, coffee etc.. You may have heard the term “Commodity Trading”, never “Cargo Trading”.. Commodity is what is being bought and sold.. (https://www.shippingandfreightresource.com/).

Commodities are traded on exchanges: sugar, aluminum, coffee, Brent Crude, or copper are easy examples. The London Metal Exchange (LME), the Cocoa-Sugar-Coffee Exchange (CSCE), the Chicago Board of Trade are all registered and highly-regulated exchanges with specific contract requirements, dates, and trading rules. (https://www.xeneta.com/blog/is-container-freight-now-a-commodity)

roba, roba u prijevozu morem: The Baltic Exchange’s main sea freight index tracking rates for ships carrying dry bulk commodities was unchanged on Tuesday, as rising demand for capesize or large vessels typically carrying iron ore and coal was countered by falling demand elsewhere.

https://www.hellenicshippingnews.com/ {the terms “Commodity Brokers”, “Commodity Traders”, and “Cargo Brokers”.. Cargo brokers connect sellers and buyers for any specific commodity and Cargo Brokers connect “Commodity Traders” who trade in commodities and Ship owners for the carriage of the commodities.. (https://www.shippingandfreightresource.com/)}

commoditisation /kəˌmɒdɪtɪˈzeɪʃən/ (=commoditization) (n) COMPARE de-commoditization

“... U slučaju da linijski servis promatramo samo kao proizvod, postoji mogućnost upadanja u zamku komoditizacije u kojoj korisnici ocjenjuju linijski servis samo na osnovi cijene. (J. Karmelić, dokt. dis.); Commoditization refers to the process of making something into a commodity. More broadly, commodification is taking something that previously was not available in the
market and making it so, for instance the commoditization of the food chain has brought many more foods to the market, but has left small producers behind in favor of large, low-cost producers.

Carriers' vessel-sharing agreements were perhaps the start of the commoditization of ocean freight, and they have produced an unwelcome result - diminishing customer service. Lower prices accelerate the “commoditization” of shipping, wherein the level and type of services offered by major shipping lines converge and shipping customers are no longer able to differentiate meaningfully between each alliance or company's offerings.

Commoditization /ˈkɒmədɪtɪzaʃən/ (v) (logist) to treat (something) inappropriately as if it can be acquired or marketed like other commodities (https://container-news.com/)

A commodity is a basic good used in commerce that is interchangeable with other commodities of the same type. (http://www.investopedia.com/) A mass-produced, unspecialized product (Webster's Dictionary); Commodity Can be defined as a raw material or product that is traded, even on a stock exchange such as ores, grain, coffee, etc. (https://globalforwarding.com/); Anything movable (a good) that is bought and sold. (https://www.msc.com/shipping-glossary) A rate published to apply to a specific article or articles. A rate published to show specific rates on specific articles. (https://www.msc.com/shipping-glossary)

Commodity brokers connect sellers and buyers for any specific commodity and Cargo Brokers connect “Commodity Traders” who trade in commodities and Ship owners for the carriage of the commodities

Commodity may be defined as a raw material or product that is traded, such as ores, grain, coffee etc... Commodity becomes Cargo when it enters the transportation realm... Cargo is what is transported... (shippingandfreightresource.com) Once ocean freight becomes a commodity, price will be the only meaningful differentiation among the carriers.

Common Carriage
common carrier  
(n) 1 (mar law) A shipping company which provides service to the general public at published rates; A common carrier is a company that offers service to the general public.  
A public or privately owned firm or corporation that transports the goods of others over land, sea, or through the air, for a stated freight rate.

common carrier service  
(n) (shipping econ) a person or company that transports goods or people for any person or company and that is responsible for any possible loss of the goods during transport.[2] A common carrier offers its services to the general public under license or authority provided by a regulatory body.

common dentex  
(n) (fishing) = pink dentex Lat. Dentex dentex zubatac, žubatac, mudrac mora, dental, Italian. dentice: For many people common dentex (Dentex dentex) is the most valuable specie of fish that can be caught in Mediterranean Sea.

Common dolphinfish  
(n) (fishing) lampuga, pučinska skakavica, lampura,

common eel (=European eel)  
(n) Lat. Anguilla anguilla jegulja, angula, uklica,
Common law (n) (mar law) the legal tradition which evolved in England from the 11th century onwards. Its principles appear for the most part in reported judgments, usually of the higher courts, in relation to specific fact situations arising in disputes which courts have adjudicated. The common law is usually much more detailed in its prescriptions than the civil law.

Law that derives its force and authority from precedent, custom and usage rather than from statutes, particularly with reference to the laws of England and the United States (Glossary of Shipping Terms - US Department of Transportation) bičajno pravo, anglo-sakonsko pravo: Under common law the force and authority of the law derives from precedent, custom and usage rather than from statutes, particularly with reference to the laws of England and the United States. Most of the common law countries follow English statute and case law. common law obligations obveze iz običajnoga prava, obveze prema anglo-sakonskom pravu: The terms under which a private carrier contracts out of his common law obligations must be clearly stated if they are to protect him in law.

Common lobster (n) (fishing) Lat. Homarus gammarus hlap spiny common lobster rakovica, spinous common lobster rakovica (also known as European lobster)

Common pandora (n) pandora (fishing) Lat. Pagellus erythrinus arbun, ribon, rumenac, arbor, jarbun, marelić, Italian. Pagello Fragolino

Common rail injection system (n) (marine eng) sustav ubrizgavanja goriva sa zajedničkom sabirnicom: The gas supply system on the GI engine is of the common rail type, where the pressure in the fuel gas supply system is constantly equal to the gas injection pressure.

www.man-es.com

Common rail system (n) (marine eng) A diesel fuel injection system employing a common pressure accumulator, called the rail, which is mounted along the engine block.

(sustav goriva sa zajedničkom sabirnicom (goriva): In the common rail system a single pump supplies fuel at high pressure to a common manifold feeding the cylinders.

Common risk (n) (mar ins, mar law) opasnost u pomorskom pothvatu koja se odnosi najmanje na dva posebna interesa zajednička opasnost

Common safety (n) (mar law, mar ins) zajednički spas

Common seabream (n) (fishing) Pagrus pagrus pagar, parag, parog, albun
common sole (n) (fishing) = sole fish list, švoj, šfolja
common spiny lobster (n) (fishing) jastog, lItalian: aragosta

common two-banded seabream (n) (fishing) Lat. Diplodus vulgaris fratar
common-user berth (n) (mar law, ports) COMPARE single-user berth a berth whose use is not restricted to the ships of any one line or shipping company otvoreni vez, vez za brodove svih brodara, vez za sve lučke operatore
common user facility (n) (mar law, ports) lučki kapacitet za sve korisnike, lučki vez / kapacitet u vlasništvu lučke uprave
common user terminal (n) (mar law, ports) terminal open to any vessel that makes arrangements to call at this terminal otvoreni terminal, terminal na raspolaganju svim zainteresiranim brodarima
common venture (n) (mar law) = joint venture A basic concept in maritime law, reflecting the understanding of maritime commerce as a joint undertaking on the part of shippers, carriers and consignees; shipowners and charterers; and their respective insurers, who (directly or indirectly) confront the perils of the sea together, and who should therefore share both the profits and the risks attendant upon their combined operation. zajednički pothvat, pomorski poduhvat

Communicating with the Media/Public (n) (safety) komunikacije sa sredstvima priopćavanja i javnošću (u SAR operacijama), komunikacije s medijima i javnošću (u SAR operacijama): Where circumstances allow, clearance shall be obtained from the SMC or designated Public Affairs Officer prior to conducting such interviews or making public releases. Personal opinions on the conduct of a particular SAR operation or on departmental policy should not be offered. (Camsar2014)

communication (n) (comm, electr) communication system uređaji za komunikaciju, sustavi za dojavu
communication² (n) 1 (comm, navig) sporazumijevanje, komuniciranje: Communication between vessel bridge teams must be sufficiently early, clear and unambiguous,
especially when it involves a deviation from the collision regulations. The safety investigation concluded that the immediate cause of the collision was communication between the two vessels over the VHF radio, communication over VHF radio komunikacija putem VHF radija: Communication between the two vessels over the VHF radio, which continued even when a close-quarter situation had developed, thus reducing the possibility of timely and effective until the collision occurred.

https://gCaptain.com, clear and unambiguous communication jasna i nedvosmislena komunikacija, jasno i nedvosmisleno sporazumijevanje: To reduce risk in this sort of situation, clear and unambiguous communication is essential. https://www.marineinsight.com/; 2 (comm) priopćenje, obavijest, poruka, vijest communication hatch (n) (cargo handling, comm) doglasni otvor communications (n) (comm) komunikacije establish communications with uspostaviti komunikaciju s, doći u vezu s: Establish communications with the RCC and/or On-Scene Coordinator and other SAR units. (https://safety4sea.com/)

communications desk (n) (comm, navig) komunikacijski pult, pult za veze: communications desk on the after port side of the bridge communication signals znakovi za komuniciranje: Before entering confined spaces check that communication signals are agreed communications satellite (n) (comm) komunikacijski satelit companion (n) (nav arch) a covering over the top of a companionway poklopac kabine, poklopac ulaza (u brod, skladište, jedrilicu), tambuć companion ladder (n) (nav arch) = companionway a staircase fitted as a means of access from a deck to the quarters stubište ulaza (u potpalublje, kabinu jedrilice)

companionway /ˈkɒmpənweɪ/ (n) (nav arch) a stairway on a ship leading from one deck to another; A raised hatch, with a ladder leading below deck (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) palubne stepenice,
unutrašnje stubište (na brodu)

**companionway** (n) *(sailing/boating/yachting)* entryway into the cabin from the deck

https://www.ypiyachts.com/ silazne stepenice u jedrilici, stubište ulaza u (potpalublje, skladište): Watertight **companionway doors** are mandatory.

**company** /ˈkʌmpəni/ (n) 1 *(mar law)* trgovačko društvo, poduzeće, **kompanija**
limited liability **company** dioničko društvo, d.d., joint stock **company** društvo
s ograničenom odgovornošću, d.o.o., private limited **company** *(LTD.)*
privatno dioničko društvo, public limited **company** *(plc)* javno dioničko
društvo; 2 *(mar law, shipping econ)* the owner of the ship or any other organization or person such
as the manager, or the bareboat charterer, who has assumed the responsibility for operation of the ship
from the shipowner and who, on assuming such responsibility, has agreed to take over all the duties and
responsibilities imposed on the company by these regulations; (STCW 2010); (= shipping company)
brodarsko društvo, brodovlasnik; 3 *(seamanship)* all the officers and crewmembers
with assigned duties on a ship **posada broda**

**company procedures** (n) *(safety)* obvezni postupci brodarskog poduzeća:

Company procedures have been amended instructing masters to keep safe distance from anchorages.

**company secretary** (n) *(mar law)* = authorised officer = authorised

**signatory** The company secretary is responsible for the efficient administration of a company,
particularly with regard to ensuring compliance with statutory and regulatory requirements and for
ensuring that decisions of the board of directors are implemented. Despite the name, the role is not
clerical or secretarial. (https://en.wikipedia.org/wiki/Company_secretary) **prokurist**
company's standing instructions (n) trajni nalozi brodarskog društva:  
This decision was contrary to his company’s standing instructions that required its vessels to use the east Solent route when arriving or sailing from Southampton.

compartment /kəmˈpɑːtmənt/ (n) 1 (nav arch) a subdivision of space or room in a ship
http://officerofthewatch.com/tools/maritime-dictionary/ predio (dio konstrukcije na brodu), dio brodskog skladišta, odjeljak, odjeljenje: Damage to the ship was contained to two flooded compartments. Seawater flooded the compartment below the main deck; 2 (stabil) brodski prostor

compartmentation (n) (nav arch) raspored prostora (broda)

compass /ˈkɒmpəs/ (n) (navig) kompas, busola; Italian: bussola steering
compass (sailing/boating/yachting) kormilarski kompas, magnetic compass
magnetski kompas, marine compass brodski kompas, conventional compass konvencionalni kompas, gyro compass zvrčni kompas, žiroskopski kompas, žirokompas, hand bearing compass ručni kompas, compass adjustment ispravljanje kompasa, compass deviation devijacija

compass adjuster (n) (ship's equipment) kompenzator kompasa: As a licensed compass adjuster, I was recently required by the local PSCO to adjust the magnetic compass of a large capesize bulk carrier after evidence of unusually large deviation ... MARS reports_1992-2016</tlCorpus>
After making some superficial alterations to the correctors, the compass adjuster issued an ideal deviation certificate to the Master indicating near nil deviations on all headings. <source>MARS reports_1992-2016</source>

compass adjustment (n) (ship's equipment, navig) the method of analyzing and compensating for deviating forces of a vessel's magnetic compass kompenzacija kompasa:
Curve Of Magnetic Azimuths: During the course of compass adjustment and swinging ship, a magnetic direction is needed many times, either to place the vessel on desired magnetic headings or to determine the deviation of ... american_practical_navigator</tlCorpus> The term compass adjustment refers to any change of permanent magnet or soft iron correctors to reduce normal compass errors american_practical_navigator</source></sentence></tlCorpus>

compass bearing (n) (navig) kompasni snimak, kompasni azimut,
Italian: rilevamento con bussola: The radar was set up to be sea stabilised, compass
bearing, rather than relying on but the log input was reading zero knots.
compass rose (n) (navig) the circular design on the compass card illustrating the 32 points of sailing or the 360 degree gradations of a circle ruža kompassa

compensation /ˌkompenˈseɪʃən/ (n) 1 (navig) kompenzacija kompasa; 2 (mar ins) osigurnina

compensation weights (n) (navig) kompenzacijske kugle (kompasa)
particular job; legal and practical proof of this skill: osposobljenost, sposobnost: The inspectors may also randomly check the competence of the seafarers by asking questions related to their capacity and their experience.

competency (n) 1 (hum_resources) a skill needed to do a particular job; legal and practical proof of this skill: The officer of the watch was very inexperienced and he had not yet developed sufficient competency to keep a bridge watch in the Dover Strait at night by himself.; 2 osposobljenost certificate of competency (CoC) (mar law, hum_resources) svjedočba o osposobljenosti, ovlaštenje

competent authority (n) (mar law) any national regulatory body or authority designated or otherwise recognised as such for any purpose in connection with IMO code: nadležne vlasti, nadležni organ vlasti, nadležno ministarstvo

competent court (n) (mar law) a court in a Contracting State that, according to the rules on the internal allocation of jurisdiction among the courts of that State, may exercise jurisdiction over the dispute (Rotterdam Rules 2009): nadležni sud

Competent Harbour Authority (n) (navig, safety) nadležna lučka uprava

Competent Harbour Authority pilotage limits (n) (navig, safety, mar law) granice peljarenja nadležne lučke uprave

competitor /ˈkʌmpətər/ (n) (sailing/boating/yachting) A person who races or intends to race in the event. (Rules of Racing 2017-2020): natjecatelj (u regati)

competitor clothing and equipment (n) (sailing/boating/yachting) odjeća i oprema natjecatelja (u regati)

compile /ˈkʌmplai/ (v) compile an abstract: sastaviti apstrakt (izvadak, sažetak), compile a summary sheet of information: ispuniti obrazac i glavnim informacijama 1 (mar law, shipping econ) sastaviti, napisati, popisati; 2 prikupiti (podatke)

complacency /ˌkʌmpləˈsænsi/ (n) (safety) a feeling of satisfaction, esp. extreme self-satisfaction; pretjerana ležernost i samoujerenost kao rezultat dugogodišnje prakse i iskustva odnosno rutiniranosti samoujerenosti, smanjen oprez zbog ustaljenih navika, samozadovoljnost, samodovoljnost, samodopadnost: This whole incident reflects complacency on the part of the officers in addition to a blatant disregard for the rules designed to prevent collisions occurring at sea: Complacency is a major cause of maritime casualties.

complain /ˈkʌmplin/ (v) žaliti se, uputiti reklamaciju

complaint /ˈkʌmplənt/ 1 žalba, pritužba; 2 reklamacija to make complaint: uložiti žalbu / reklamaciju

complement /ˈkɒmplɪmənt/ (n) (mar law, hum_resources, navy) A ship’s company. The entire crew of a ship when it is fully manned. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary)

brodska posada: The vessel had a complement of seven crew members in accordance with her Minimum Safe Manning Document. Brod je imao posadu od sedam članova u skladu s Ispravom o minimalnom sigurnom postavu posade. The destroyer had a wartime complement of 320 personnel. The peacetime complement included 14 officers and 230 enlisted men. ship’s complement brodska posada, bridge complement posada na zapovjedničkom mostu: Her bridge complement was a second officer and a lookout.
complete /kəmˈpliːt/ (v) 1 (mar law, safety) ispuniti (obrazac); 2 dovrđiti, završiti
complete /kəmˈpliːt/ (adj) potpun, dovršen
completion /kəmˈpliːʃən/ (n) 1 a (shipping econ) izvršenje, završetak (ukrcaja, projekta, itd.), dovršenje: Ullage and temperature measurement of all the vessel's cargo tanks should be carried out upon completion of loading and immediately prior to discharge.; 2 a (mar law) ispunjavanje (dokumenta, obrasca)
compliance /kəmˈpleiəns/ ispunjavanje, ispunjenje, pridržavanje, poštivanje (konvencije, zakona, ugovora): Singapore, the world’s busiest port by shipping tonnage, has reported a high level of compliance with IMO 2020 regulation with just two vessels detained for using non-compliant fuel in the first quarter of the year. https://www.seatrade-maritime.com/ in compliance with u skladu s, sukladno
compliance assessment (n) (logist, US) A compliance assessment is an analysis or audit of a company's customs transactions.
comply with /kəmˈplai/ (vi) ispunjavati (zahtjeve), biti u skladu s, poštivati (propise, zahtjeve): Ensure the vessel complies with the fire and safety regulations
https://gcaptain.com Starting in January, vessels the world over will have to drastically reduce sulfur content in their fuel to comply with rules set out by the International Maritime Organization in London. to comply with with the regulations ispunjavati / poštivati propise, comply with rule 19 of COLREGS pridržavati se pravila broj 19 Pravila o izbjegavanju sudara, failure to comply with the regulations neispunjavanje propisa, nepridržavanje propisa, comply with the STCW requirements pridržavati se Konvencije IMO-a o standardima za obrazovanje, izdavanje ovlaštenja i držanje straže pomoraca
component /kəmˈpəʊənt/ (n) 1 (nav arch, marine eng) sastavnica, sastavni dio, komponenta, konstrukcijski element additional component dodatni dio, dodatna komponenta, running component pokretni dio, stationary component nepomični dio, fiksan dio, main components glavni sastavni dijelovi a (marine eng) sustav zraka za upućivanje: Starting air system: Pressure at engine during start.; min. (20 °C) kPa 1500 www.wartisla.com (34DF)
Composite rigging (=synthetic rigging) (n) (sailing/boating/yachting) sintetička oputa: Composite (or synthetic) rigging is one of the biggest and most cost-effective performance improvements that you can make. info.Upfront.com

Composite ship (=composite steamer) (n) (nav arch) U prijelaznom periodu korištenja željeza umjesto drva kao materijala za konstrukciju broda, kompozitni brodovi su bili prirodan slijed. U ovom tipu konstrukcije je kompletno orebrenje, to jest kobilica, pasma, rebrenice, proveze, bočna rebra i sponje, napravljeno od željeza i samo su drvene platice dna, stropa, boka i palube od dvjeta. (https://www.fsb.unizg.hr/kziha/shipconstruction/main/trgovbrod/4tipovibrodova.pdf); a ship with a wooden casing and iron frame (https://www.thefreedictionary.com/Composite+ship) kompozitni brod (od kombinacije željeza i drva), drvo/željezni parobrod: For a few years, composite ships were built with iron frames and wooden skins, but difficulties with corrosion between the wood and metal soon led to hulls built completely of metal, both sailing ships and steamers. https://njscuba.net/artifacts/obj_hull_steel.php

# Composition

1. sastav (pismeni), sastavak;
2. (chem) sastav chemical compound

# Compound

/ˈkɒmpənd/ (safety) izdvojena jedinica, agencija, formacija IMO compound agencija IMO-a, izdvojena jedinica IMO-a

# Compress

stlačiti, sabiti, komprimirati, sabijati

# Compressed air cylinder

(n) (marine eng) boca s komprimiranim zrakom

# Compressed air system

(n) (marine eng) sustav komprimiranoga zraka

# Compression

(n) compression ring kompresijski prsten, maintain compression održavati kruti spoj, čvrsto povezati, compression stroke tlačni takt (motora), kompresijski takt (motora), compression ratio omjer
compression ignition engine (marine eng) motor u kojem do paljenja dolazi uslijed tlačenja, motor na paljenje kompresijom

compression ratio (=compression rate) (marine eng) The ratio between the total volume in the cylinder when the piston is at BDC and the volume remaining when the piston is at TDC. (http://www.marinedieseleurope.com/) omjer kompresije

compression stroke (marine eng) kompresijski takt, stapaj kompresije

compressor 1 (marine eng) a mechanical device which increases air pressure kompresor air compressor kompresor zraka, zračni kompresor, centrifugal compressor centrifugalno puhalo, steam driven air compressor kompresor zraka na parni pogon, turbine-driven air compressor zračni kompresor na turbinski pogon; 2 (seamanship) štoper sidrenog lanca

compress the chest (safety) pritiskanje grudnog koša (u davanju umjetnog disanja)

comprise /kəmˈpraɪz/ (v) sastojati se od, uključiti, obuhvatiti

compulsory /ˈkɒmpʌlsərɪ/ (adj) 1 obvezan, obligatan: Pilotage shall be compulsory within the area described in paragraph 2 below for all vessels be compulsory biti obvezan, morati, vessel subject to compulsory pilotage brod koji obvezno mora imati / uzeti peljara; 2 prinudan, prisilan

computation računanje, izračun, obračun (vozarine)

con /ˈkɒn/ (=conn) (n) 1 (navig, ship handling) The position of responsibility and authority for the operation and steering of a ship (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary); Conduct of the navigation of a ship (MAIB reports); station, usually on the bridge, from which a ship is controlled (navy) kormilarenje, zapovijedanje brodom / brodicom / čamcem za spašavanje, komanda (nad brodam, brodicom): the vessel continued her passage through the west Solent with the master conning from his forward console chair at the starboard radar. by 2112 the vessel was clear of the berth and the pilot began conning the vessel toward the harbour entrance do 12:12 sata brod se udaljio od veza i peljar je preuzeo vođenje broda prema izlasku iz luke In any event, the officer having the con must be clearly indicated in the ship’s deck log at all times. <source>american_practical_navigator</source> <sentence></sentence> </litCorpus> take over the con preuzeti zapovijedanje nad brodom, preuzeti kormilarenje brodom, preuzeti komandu nad brodom: the master took over the con 0 Who has the con? The assistant pilot took over the con for the passage to the container terminal. The pilot took over the con for the passage to the container terminal., hand over the con predati kormilarenje broda, predati zapovijedanje brodom: The Master handed over the con to the 3/O., have a con upravljeti brodom, kormilariti: On the bridge were the master, who was on the port wing and had the con, the OOW and a quartermaster. Who has the con? Tko upravlja / kormilari brodom? The Master, who had been surveying the pilot transfer from the wheelhouse, now had the con, with a helmsman on the wheel. The Master now had the con, with a helmsman on the wheel. The master had the con and he had instructed the second officer to compile the required information for the mandatory CALDOVREP report www.gov.uk/maib The Master had the conn, the Second Officer was monitoring, and the AB was on the wheel. https://safety4sea.com/, take the con preuzeti kormilarenje, preuzeti
kormilo, preuzeti upravljanje brodom: ... eventually, the mate took the con and set a course clear of the coast and back towards the vessel’s intended track, be at the con
zapovijedati (brodicom, brodom), kormilariti: I was inbound to a port with the local pilot at the conn. ; 2 the place where a person who cons a vessel is stationed mjesto upravljanja brodom /brodicom
con /kon/ (v) 1 (navig) to direct the steering of (a vessel); to direct the helmsman davati naredbe kormilaru, kormilariti con the ship / vessel davati naredbe za kormilarenje: The Master/Pilot exchange took place between the Master and the pilot who was to con the vessel.; 2 upravljati brodom / brodicom
con (n) (navig) the conduct of navigation of the vessel provedba plovidbe broda
con (n) (navig) zapovjedno mjesto
concealed damage (n) (cargo handling, mar law) damage that is not evident from viewing the unopened package (https://www.msc.com/shipping-glossary) skriveno oštećenje (tereta)
concealed loss or damage /kənˈsɪːld/ (n) (shipping econ, mar law) When damage is discovered after the delivery receipt is signed and the cartons are opened, it is termed concealed damage. skriveni gubitak ili oštećenje, nevidljivi gubitak ili šteta: When concealed loss or damage occurs, the carrier should be immediately contacted at the delivering terminal, to request an inspection.
concern /kənˈsɜːn/ (n) (navig) zabrinutost, sumnja, briga: In May 2004, the Chemical Distribution Institute (CDI) carried out an inspection of the vessel during which four areas of concern with respect to bridge operations were highlighted. The navigator”s primary concern is the safe navigation of his/her vessel to its destination. raise concern pobuditi zabrinutost, izazvati zabrinutost: the recent collisions in the Singapore Strait have raised concern among the city-state's shipping community They also did not raise any concerns about the 'starboard to starboard' passing. www.safety4sea.com
concerned /kənˈsɜːnd/ 1 koji se tiče all the concerned svi zainteresirani, sve zainteresirane strane; 2 zabrinut
concession /kənˈsefən/ dopuštanje to make a concession to dopustiti concession (n) (shipping econ, ports) koncesija grant concession dati koncesiju, izdati koncesiju: The concession for operating the container terminal was granted by the Port Authority.
concession approval (n) (mar law, ports) koncesijsko odobrenje
concessionary deed (n) (mar law, ports) koncesijsko odobrenje
conclusion stage (n) (safety) A period during a search and rescue (SAR) incident when SAR facilities return to their regular location and prepare for another mission. (https://ccga-pacific.org/training/manuals/IALMSAR/Camsar-2014-english-signed.pdf) zaključna faza potrage i spašavanja
condensate /kənˈdenseɪt/ (n) kondenzat de-aerated condensate odzračeni kondenzat, otplinjeni kondenzat condensate (v) kondenzirati (se), pretvoriti paru u vodu condensate extraction pump (n) (marine eng) sisaljka kondenzata, kondenzatna pumpa
condensation  reduction of a vapor or gas into a liquid state  kondenzacija

condense  /ˈkændəs/  condense  out  kondenzirati, pretvoriti u tekućinu, ukapljivati kondenzirati
condenser  (=condensing unit)  (n)  (marine eng) The condenser is a heat exchanger which removes the latent heat from exhaust steam so that it condenses and can be pumped back into the boiler. (http://www.machineryspaces.com/feed-system-condenser.html); A condenser is a vessel in which a vapour is deprived of its latent heat of vaporization and so is changed to its liquid state, usually by cooling at constant pressure. (http://www.generalcargoship.com/marine-condenser.html)

kondenzator, zgušnjivač: In surface condensers, steam enters at an upper level, passes over tubes in which cold sea water circulates, falls as water to the bottom and is removed by a pump (or flows to a feed tank). http://www.generalcargoship.com/marine-condenser.html The Chief Engineer was called to the engine room as the deck steam condenser had overheated and was releasing a lot of steam.

condenser tube  cijev kondenzatora: How a defective condenser tube can be located? Empty seawater side and open up condenser, then place light polythene over tube plate and create a vacuum. Suction will indicate faulty tube or tubes.
condenser: (=capacitor) (electr) kondenzator (el.)

{the main difference between capacitor and condenser is that the term capacitor is a relatively newer term while condenser is an older term. (https://www.quora.com/What-is-the-difference-between-a-capacitor-and-a-condenser)}

condition: uvjet, okolnost, stanje, prilike on condition that pod uvjetom da, ako, condition of machinery stanje stroja, stanje postrojenja, operating condition režim rada, uvjeti rada

condition: 1 stanje; 2 uvjet to fulfill the condition ispuniti uvjet

conditioned air kondicionirani zrak

conditioning: (n) 1 (marine eng) priprema (kotlovne vode); 2 (marine eng) kondicioniranje (zraka) air-conditioning klimatizacija

condition precedent: (n) (mar law) osnovni / bitni uvjet ugovora o prijevozu

conditions of stability: (n) (stabil) stanja stabilnosti broda stable condition brod u stabilnoj ravnoteži, stabilno stanje, neutral condition indifferentna ravnoteža, neutralno stanje, unstable condition labilna ravnoteža, stanje
nestabilnosti, nestabilno stanje
classify /kənˈdəkt/ (v) voditi, provoditi to classify an operation voditi (operaciju), provoditi (operaciju)
classify /ˈkəndəkt/ izvršenje
classify /kənˈdəkt/ (marine eng) odvoditi classify away odvoditi
classify /kənˈdəkt/ (v) (marine eng) dovoditi
classify (n) (hum_res) ponašanje: The ship sank due to the negligent classify carried out by the crew of the ship https://safety4sea.com/ code of classify pravila ponašanja
classify /kənˈdəkt/ (v) ponašati se: Seafarers shall conduct themselves in an orderly, faithful, honest and sober manner, and shall at all times be diligent in their respective duties and obedient to the lawful commands of the Master classify oneself ponašati se
conductivity /ˌkəndəˈkɪvətɪ/ (n) (electr, marine eng) vodljivost, provodljivost
electrical conductivity električna vodljivost, thermal conductivity toplinska vodljivost
conductor /kənˈdəktə/ (n) (electr) provodnik, vodič električne struje
cone /kən/ apex of a cone vršak stošca stožac, konus

conference (n) (mar law, shipping econ) an association of ship owners operating in the same trade route who operate under collective conditions and agree on tariff rates; Two or more shipping lines operating a service in common between designated geographical areas. The lines agree a set of freight rates and any special rates for shippers and each line charges the same as the others.
http://www.tkmglobal.net/chartering_C.HTM brodarska konferencija, konferenca: Competition in liner service is regulated generally by agreements, known as conferences, among the shipowners. steamship conference brodarska konferencija, member of the conference brodarska društvo - članica (brodarske) konferencije, conference rate konferencijski vozarsinski stav, liner conference linijska konferencija
confined spaces /kənˈfaind/ (n) (safety, nav arch) Confined spaces are tanks, cofferdams, void spaces, CO2 chambers and cold storage chambers zatvoreni prostori, skučeni prostori, suženi prostori enter confined spaces ući u zatvorene prostore, confined spaces entry ulaz u zatvorene prostore
confined waters /ˈkɒnfənd/ (n) (navig) zatvorene vode, skučene vode
confirm (n) 1 (shipping econ) potvrditi: We hereby confirm receipt of this letter Ovime potvrđujemo primitak Vašega dopisa; 2 utvrditi
confirmation 1 a potvrda; 2 dokaz
confirming bank (n) (mar law, shipping econ) The bank that adds its confirmation to another bank’s (the Issuing Bank’s) Letter of Credit and promises to pay the beneficiary upon presentation of the documents specified in the Letter of Credit (https://www.msc.com/shipping-glossary) potvrđujuća banka
confiscate /ˈkɒnfɪskət/ (v) (mar law) konfiscirati, oduzeti, zaplijeniti confiscate the ship konfiscirati brod
conflict of interests (n) (sailing/boating/yachting) sukob interesa Guidance for conflict of interests smjernice o sukobu interesa
conflict of laws (n) (mar law) sukob prava, sukob pravnih sustava
conform /kənˈfɔːm/ (v) odgovoriti, biti u skladu s to conform with the rules biti u skladu s pravilima, odgovarati pravilima
conformance test report (n) (nav arch) izvješće o provjeri sukladnosti
confused sea /ˈkənˈfjuːzd/ (n) (oceanogr) = cross sea waves progressing in several directions

at once križano more, nemirno more
http://sunshinecoast.peterhyndman.com/2011/12/confused.html

confused swell (n) (oceanogr) križano mrtvo more
CONGENBILL Bill of Lading intended to be used with Gencon charter parties One of the clauses in this Bill of Lading states that it incorporates all the terms of the Charter-Party.

(n) (navig) stožasta plutača

CONLINEBILL  
(n) (mar law) Liner Bill of Lading published by the BIMCO

teretnica za linijski prijevoz

conn (=con)  
(n) upravljati kormilarenjem broda, kormilariti, biti za kormilom: The pilot had the conn and the vessel was sailing down the fairway on a 90 degree course and a speed of 9 knots over the ground. https://safety4sea.com/

connect /kəˈnekt/  
1 spojiti; 2 priključiti

connecting carrier  
(n) (logist, shipping econ, mar law) A carrier which has a direct physical connection with, or forms a link between, two or more carriers. (https://www.msc.com/shipping-glossary)

posredni prijevoznik

connecting rod  
(n) (marine eng) A rod joining the piston with the crankshaft. ojnica, klinnjača, Italian: biella: The connecting rods are of three-piece design, which makes it possible to pull a piston without opening the big end bearing. https://wartsila.www.com fixed centre

connecting rod ojnica s fiksnim središtem, connecting rod with Marine large (big) end ojnica s brodskom izvedbom donje glave, connecting rod shank tijelo ojnice, connecting rod foot peta ojnice

https://www.researchgate.net/figure/Fig-1-Connecting-Rod-Nomenclature_fig1_353170180

connecting rod alignment centriranje ojnice, centriranost ojnice

connecting rod large end bearing  
(=connecting ro lower end bearing)  
(n) (marine eng) leteći ležaj, ležaj donje glave ojnice
connecting rod upper end bearing (=connecting rod small end bearing)  
*(n)* (marine eng) gornji ležaj ojnice

**connection** *(n)* (electr, marine eng) spoj, veza recirculation connection priključak optoka / optjecanja (u zatvorenom krugu), loose and corroded connection labav i korodiran spoj, firm mechanical connection čvrst mehanički spoj

**connectivity at sea** *(n)* (hum_resources) dostupnost interneta pomorcima: The latest Seafarers Happiness Index report ... has revealed that seafarer happiness continues to fluctuate – with improvements in connectivity at sea, but also continuing concerns regarding workload among the issues raised by seafarers. https://www.marineinsight.com/

**connectivity on board** (=access to the internet on board) *(n)* (hum_resources) 
**dostupnost interneta pomorcima na brodu:** Connectivity onboard has proved to effectively improve seafarers’ mental health and their overall wellbeing. Access to the internet should be a basic right, rather than a luxury, as it gives seafarers the opportunity to stay in touch with their closed ones ashore. https://safety4sea.com/

**connector** *(n)* (electr) spojka snap-in connector STORZ-spojka

**connexion** *(n)* (navig) spoj, veza

**conning officer** *(n)* (navig) časnik koji upravlja brodom, časnik koji kormilari brodom, časnika koji upravlja brodicom za spašavanje

**conning position** *(n)* (navig) upravljačka pozicija na zapovjedničkom mostu, mjesto upravljanja brodom ili brodicom, mjesto kormilarenja brodom ili brodicom: The 2/O amended the passage plan on the ECDIS at the starboard bridge conning position

**ConRo** (=Container Roll-on/Roll-off ship) *(n)* (nav arch) kombinirani kontejnerski i ro-ro brod: Matson, Inc has placed an order for two new combination container and roll-on/roll-off vessels to add to its Hawaii fleet. The two ConRoses will be built on a 3,500 TEU platform, with enclosed garage space for up to 800 vehicles.
consecutive /ˈkɒnˈsɛkjʊtɪv/ (adj) neprekidan, kontinuiran, konsekutivan, uzastopan

consecutive voyage charter\(^1\) (n) (mar law) ugovor o najmu broda za nekoliko uzastopnih putovanja

consecutive voyage charter\(^2\) (n) (mar law) brodarski ugovor za više uzastopnih putovanja

consecutive voyages (n) (shipping econ, mar law) ugovor u kojemu se brodar može obvezati da će obaviti više unaprijed određenih putovanja; Successive voyages of a ship on charter to one party. The Charter-Party may stipulate the number of voyages or the total quantity of cargo to be carried or the total period during which the shipowner performs the maximum number of voyages.

http://www.tkmglobal.net/chartering_C.HTM uzastopna putovanja

consent\(^1\) (n, v) 1 a pristati; 2 suglasiti se

consent\(^2\) pristanak, suglasnost

conservancy (n) (navig, mar law) a fee levied to retain upkeep of the approaches to waterways and canals. naknada za održavanje plovidbenih putova

conservation 1 zaštita (od korozije) conservation of the ship zaštita broda (od korozije itd.) 2 (mar law) očuvanje živih bogatstava (u međunar. pravu mora)

consideration /ˈkɑːn sɪˈdɑr ˈreɪʃən/ (n) obzir, razmatranje point for consideration predmet za razmatranje, with due consideration given to s posebnim obzirom na, take into consideration uzeti u obzir
Consideration /ˈkɑːn ˈsida ˈreɪfən/ (n) (mar law) payment for a service; recompense; fee naknada, novčana naknada, kompenzacija: In consideration of this service, to be duly performed, the Master agrees to pay the undersigned seafarers the wages expressed herein and/or set forth in supplemental provisions and/or agreements. Kao naknadu taj posao, koji se valja uredno obaviti, zapovjednik se obvezuje platiti nižepotpisanim pomorcima zarade navedene u ovom ugovoru i/ili propisane odredbama u dodatku i/ili drugim ugovorima. In consideration of kao naknada za, u zamjenu za

Consignment /ˈkɑːnˈsain/ (v) (logist, shipping econ, mar law) dostaviti (pošiljku), poslati, otpremiti

Consignee /ˌkɑːnsəˈniː; ˌkɑːnsaiˈniː/ (n) (mar law, shipping econ, logist) = receiver

Compare shipper. Compare consignor The party to whom delivery of the goods is to be made under a contract for the carriage of goods by water.

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm, the person entitled to take delivery of the goods. (Hamburg Rules 1978); The person to whom cargo is consigned as stated on the bills of lading (www.euronav.com) primatelj, primatelj tereta: Once the vessel reaches its destination port and the cargo that is mentioned in the bill is offloaded, the goods will be handed over to the consignee, after verification of the consignee’s identity, etc.

https://www.marineinsight.com/The ultimate consignee is the party who will be the final recipient of the a shipment. In many cases the consignee is the same party as the ultimate consignee.

https://www.flexport.com/

Consignee mark (n) (shipping econ, mar law) a symbol placed on packages for identification purposes; generally a triangle, square, circle, etc. with letters and/or numbers and port of discharge (https://www.msc.com/shipping-glossary) primateljeva oznaka, oznaka primatelja (robe)

Consignment /ˈkɑːnˈsainmənt/ (n) (mar law, shipping econ) SYNONYM shipment goods sent for shipment; a separate identifiable number of goods (available to be) transported from one consignor to one consignee via one or more than one modes of transport and specified in one single transport document (http://www.iss-shipping.com/cargo/cargo_library_glossaryc.asp) pošiljka (tereta), robna pošiljka (Consignment is the same as a shipment of goods. The buyer of this shipment is called the consignee; the seller of the goods is called the consignor)

Consignment Note (n) (mar law, shipping econ) document prepared by the shipper and comprising a transport contract. It contains details of the consignment to be carried to the port of loading and it is signed by the inland carrier as proof of receipt (http://www.iss-shipping.com/cargo/cargo_library_glossarya.asp) najava ukrcaja, krcateljeva obavijest o prijevoznom ugovoru

Consignment note /ˈkɑːnˈsainmənt noʊt/ (shipping econ) (mar law) željeznički tovarni list, tovarni list

Consignor /ˈkɑːnˈsaɪnər, ˈkɑːnsaiˈnər/ (shipping econ, mar law) (logist, US) = shipper a person or company shown on the bill of lading as the shipper; A term used to describe any person who consigns goods to himself or to another party in a bill of lading or equivalent document.

(https://www.msc.com/shipping-glossary); the shipper of the cargo; the consignor is the shipper or exporter sending goods, pošiljatelj, otpremnik, dostavljac (A consignor might be the owner of the goods, or a freight forwarder who consigns goods on behalf of his principal. (https://www.msc.com/shipping-glossary))
consist sastojati se consist of sastojati se od / iz console /ˈkɒnsəl/ 1 konzola, nosač

http://www.equip4ship.com/e,equipment,3595,engine-room-monitor-console.html

consolidate (v) (shipping econ) to group and stuff several shipments together in one container grupirati teret (za slaganje u kontejner) consolidated cargo (n) (logist, shipping econ) konsolidirani teret, zbirni teret consolidated container (n) (logist, mar law, shipping econ) = LCL A container stuffed with several shipments (consignments) from different shippers for delivery to one or more consignees. konsolidirani kontejner, zbirni kontejner
Consolidated Freight Station; (CFS) (n) (shipping econ) = Container Freight Station zbirno skladište kontejnerske robe, konsolidacijsko skladište, zbirna postaja / stanica / centar (za kontejneriziranu robu), centar za punjenje i pražnjenje kontejnera

consolidated pack ice /ˈkɒnsəˌlɒd/ (n) (oceanogr) područje konsolidiranog leda

consolidated shipment (n) (logist, mar law, shipping econ) An arrangement whereby various shippers pool their boxed goods on the same shipment, sharing the total weight charge for the shipment. (https://www.msc.com/shipping-glossary) konsolidirana pošiljka, zbirna pošiljka

consolidation (n) (shipping econ, cargo handling) = groupage The combination of many small shipments into one container. (https://www.msc.com/shipping-glossary); cargo containing shipments of two or more shippers or suppliers, usually involving goods for stowing into containers; The grouping together of several compatible consignments into a full container load. Also referred to as groupage http://www.thmglobal.net/chartering_CHTM; Consolidation occurs when the shipping company or carrier of the containers also accepts to transport consignments of goods that are smaller than the capacity of a container in terms of volume. The carrier will cluster various smaller consignments (LCL) until he can fill one container. https://www.logisticsglossary.com/term/consolidation/; The act of collecting the LCL cargo from the various shippers and packing into a container is known as Consolidation (https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/); Consolidation is the act of combining LCL shipments into a truck or container. (https://www.flexport.com/) razvrstavanje tereta po primateljima, konsolidacija tereta, skupljanje tereta (radi prijevoza u kontejnerima)

consolidation shed (n) (shipping econ) COMPARE container depot zbirno skladište (za kontejnerski teret)

consolidator (=Groupage Consolidator) (n) (cargo handling) COMPARE Consolidated Freight Station; (CFS) The person or firm that consolidates (combines) cargo from a number of shippers into a container that will deliver the goods to several buyers.; ...the LCL cargo is delivered by the client to a warehouse for packing into a container.. The act of collecting the LCL cargo from the various shippers and packing into a container is known as Consolidation. The entity that handles such operations are known as Consolidators (Groupage Operators)

konsolidacijskog skladišta, operator konsolidacijskog centra, operator kontejnerskog zbirnog skladišta: In the case of consolidation cargo, the consolidators issue their House Bills of Lading to the shippers and secure a Master Bill of Lading from the shipping line for the container which is booked with the line as an FCL and which will show them as a shipper on the lines bill of lading.

https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/ In the case of consolidation cargo, the consolidators issue their House Bills of Lading to the shippers and secure a Master Bill of Lading from the shipping line for the container which is booked with the line as an FCL and which will show them as a shipper on the lines bill of lading

https://shippingandfreightresource.com/difference-between-lcl-and-consolidation/

consort /ˈkɒnsɔːt/ (US, navig) tegljeni brod (na Velikim Jezerima), brod u teglju
conspicuous /ˈkɒnˈspɪkjʊs/ (adv) uočljiv, raspoznatljiv, koji se ističe, upadljiv
conspicuous point uočljiva točka, conspicuous radar features obilježja
uočljiva na radaru: The crucial factor in radar navigation is to correctly identify radar conspicuous features that are recognisable on the chart as well as on the radar screen. Towers, monuments, buildings and other prominent features that are favourites with compass navigation will not be visible on radar. However, objects such as headlands, islands, buoys and beacons will, with the added advantage that they will be equally useable by day or night.

constant pressure (n) (marine eng) stalan tlak, konstantan pritisak
constrained by draught /ˈkɒnˈstreind/ (seamanship) (brod) ograničene
sposobnosti maneuvriranja zbog svog gaza: The vessel was on harbour manoeuvring mode under bridge control, displaying the appropriate signals to indicate her ‘constrained by draught’ status. The vessel was constrained by her draft and displayed the required signals in the deep water route. The vessel was constrained by its draught and had the correct lights displayed.

constraint /ˈkɒnˈstreint/ (n) (mar law) ograničenje operational constraints
ograničenja za rad
construction 1 konstrukcija, struktura: construction: steel; 2 gradnja, izgradnja; 3 izvedba
constructive total loss (n) (mar law, mar ins) izvedeni potpuni gubitak roda, izvedena totalna šteta: The giant ship has just been declared a total constructive loss and will trigger a sizeable insurance claim. https://splash247.com/

construe /ˈkɒnˈstrjuː/ tumačiti to construe the rules tumačiti pravila
consular /ˈkɒnsələ/ (n) (mar law) an official appointed by a sovereign state to protect its commercial interests and aid its citizens in a foreign city konzul
consular (adj) konzularni
consular declaration (n) (mar law) A formal statement describing goods to be shipped, filled in and approved by the consul of the country of destination prior to shipment. (https://www.msc.com/shipping-glossary) konzularna izjava / deklaracija

consular fees (n) (mar law) konzularne pristojbe
consular invoice (n) (mar law, shipping econ) an invoice covering shipment of goods certified by a consular official of the destination country, and used normally by customs or officials concerned with foreign exchange availability to ascertain the correctness of commercial invoice values (http://www.jlbshipping.com/a-z-of-shipping-terms.html); A document, certified by a consular official, is required by some countries to describe a shipment. It is used by Customs of the foreign country to verify value, quantity and nature of the cargo. (https://www.msc.com/shipping-glossary) konzularna faktura, račun potvrđen od strane konzula
consulate (n) konzulat
consume /ˈkɒn sjuːm/ (v) trošiti
consumer /ˈkɒn sjuːmaʊ/ (n) (shipping econ) potrošač, klijent
consumers (n) (electr) električni potrošači
consumption /ˈkɒn sʌmpʃən/ (n) potrošnja, potrošak in port consumption
potrošnja (goriva) u luci, consumption of fuel potrošnja goriva
contact (v) (comm) obratiti se, stupiti u vezu s, kontaktirati: At 2045 on 21 August 2016, the vessel’s officer of the watch (OOW) made radio contact with Southampton Vessel Trafic Services
MAIB Report 23/2017  When the ship was in the eastbound lane of the Strait of Gibraltar fic separation scheme (TSS), the watchkeeping officer contacted the Port Pilot Station using very high frequency (VHF) radio, channel 13. MAIB accident reports establish contact with uspostaviti vezu / kontakt s: The tanker established contact with the bulker over the VHF radio, and the two vessels mutually agreed on a suitable course of action., make contact with stupiti u vezu / kontakt S: We later also made contact with a chemical tanker, who was also anchored nearby.

contact (n) (navig, safety, nav arch) dodir, kontakt: the tanker could not avoid a glancing contact on her starboard quarter with the crossing vessel. The vessel made contact with a fender system, causing damage to the hull and the fender system. https://safety4sea.com/ make contact with dodirnuti, udariti u: the cargo vessel’s port quarter made heavy contact with the lock gate.

heavy contact jak dodir, jak kontakt: However, this was too late to prevent the vessel making heavy contact with the quay.. This seemed to work and the Master also deployed a bow thruster to stop the starboard turn, but it was too late; the vessel made several heavy contacts with the breakwater.

come into contact with doći u dodir s (drugim brodom), dodirnuti (drugi brod): The drifting vessel came into contact with the portside of the bulk carrier causing damage to both vessels. (https://safety4sea.com/)

contact (n) (safety) udar (broda u obalu, morsko dno itd.), dodir (broda s obalom, morskim dnom itd.) bottom contact udar broda o dno, dodir broda s dnom

contact (v) (safety, nav arch, navig) udariti (u obalu, lučki objekt), dodirnuti: At 1254 on 22 June 2013, the ferry Sirena Seaways made heavy contact with berth 3 at Harwich International Port. The vessel made contact with a jetty and accidentally ruptured its hull, causing the release of about 200 tons of heavy fuel oil from the fuel tank. As the pilot manoeuvred the vessel around Tilburyness, he lost control of the vessel and she contacted the quay at Northfleet Terminal. Dok je peljar vodio brod oko Tylurnessa, izgubio je kontrolu nad brodom pa je prod udario u obalu terminala Northfleet. make contact with the quay udariti u obalu, dodirnuti obalu: Shortly thereafter the pilot ordered full astern, but the vessel’s starboard bow made contact with the quay. The containership made a heavy contact with the quay and a shorecane.

contact (n) 1 (electr, marine eng) spoj, kontakt contact brushes (electr) četkica/e, contact-welding točkasto zavarivanje, touch-contact welding točkasto zavarivanje, close contact tijesan dodir a stvoriti električni spoj
contactor (n) (electr) teleprekidač

contagious disease /konˈteɪdʒəs/ (adj) zarazna bolest

contain /kənˈteɪn/ (v) 1 a sadržavati, sadržati: If oil contained on deck take action to clear up. ; 2 uključi(va)ti; 3 obuhvačati; 4 (safety) obuzdati (vatra), sputati, blokirati, suzbiti contain fire obuzdati požar, suzbiti požar, ograničiti požar: The ship’s fire suppression system was immediately activated, which contained and extinguished the fire. The container fire that broke out was largely contained and brought under control after one week through the launching of immediate fire-fighting efforts Shipping and Freight Resource <info=shippingandfreightresource.com@send.aweber.com>, contain the emergency situation

obuzdati izvanredno / opasno stanje: ... despite the breakdown of the structural barriers, the ship’s officers and crew managed to contain the emergency situation without any personal injury or pollution to the environment.
container /kənˈteɪn/ (n) (cargo) SYNONYM freight container SYNONYM shipping container A box made of aluminum, steel or fiberglass used to transport cargo by ship, rail, truck or barge. Common dimensions are 20’ x 8’ x 8’ (called a TEU or twenty-foot equivalent unit) or 40’ x 8’ x 8’, called an FEU. Variations are collapsible containers, tank containers (for liquids) and rag tops (open-topped containers covered by a tarpaulin for cargo that sticks above the top of a closed box). In the container industry, containers are usually simply called boxes.

(http://www.aapa-ports.org/Industry/content.cfm?ItemNumber=1077) kontejner (od 20 ili 40 stopa, po ISO standardima) reefer container hlađeni kontejner, kontejner-hladnjaca, open-top container kontejner s otvorenim krovom, otvoreni kontejner, closed-top container kontejner sa zatvorenim krovom, container Loading Report Izvjesće o ukrcanim kontejnerima, 20 ft standard 20’ x 8’ x 8’6” standardni kontejner dužine 20 stopa širine 8 stopa visine 9 stopa i 6 inča, hired container unajmljen kontejner, self-owned container vlastiti kontejner, brodarov kontejner, dry container dry containers are used to carry solid dry goods like coal, grain, steel products, ore and other similar products in loose form kontejner za sipke terete kontejner za suhe rasute terete, deck container palubni kontejner, kontejner složen na palubi: forward ends of seven deck containers on bay 01 port and starboard outboard stacks set in due to impact of swell waves;
container /ˈkɒntɪnər/ (cargo) any receptacle or enclosure for holding a product used in storage, packaging, and shipping (https://en.wikipedia.org/wiki/Container) spremnik (stakleni, drveni itd.) glass container bocun (za kiseline), stakleni spremnik glass container (cargo) bocun (za kiseline itd.)

container /ˈkɒntɪnər/ (n) (marine eng) spremnik air container spremnik zraka (glass container).

container bay (n) (nav arch) COMPARE container tier dio brodskog skladišta za uzdužno slaganje kontejnera, bay, bej (svako skladište kontejnrsrkog broda obično se sastoji od dva baya osim krajnjeg skladišta na pramacu i krmilj)

container booking (n) (logist, shipping econ) Arrangements with a steamship line to transport containerised cargo. (https://www.msc.com/shipping-glossary) zaključivanje prijevoza kontejnera

container cell guide (n) (nav arch) vodilica za kontejnere (u brodskom
container chassis (n) (cargo handling) A piece of equipment specifically designed for the movement of containers by road to and from container terminals.

container check digit (n) (logist) The seventh digit of the serial number of a container used to check whether prefix and serial number are correct (ex: MSCU-123456-7).

container crane (n) (cargo handling) A rail-mounted gantry crane located on a wharf for the purpose of loading and unloading containers on vessels.
container depot (=container yard) = container yard COMparaRE consolidation shed A container depot or yard is where several containers are stored or held in transit, once they are unloaded. (https://www.marineinsight.com/); The container freight station or a designated area where empty containers can be picked up or dropped off. (https://www.msc.com/shipping-glossary) kontejnersko skladište: The container depot provides a single place where shipping and logistics companies can keep their containers until it is time for reloading. Once containers have been unloaded, they are trucked back to the depot, where they are registered by company officials. https://www.marineinsight.com/ {A common misconception is to consider that storage facility for fully-loaded containers (see: consolidation shed) is also container depots. In fact, those are merely holding facilities or terminals (https://www.marineinsight.com/).}

Container Freight Station (=CFS) (n) 1 (ports, shipping econ) The facility for stuffing and stripping a container of its cargo, especially for movement by railroad.; a place or warehouse on the dock or a container terminal where cargo is loaded (“stuffed”) into or unloaded (“stripped”) from containers; Place where consignments are grouped together and packed into a shipping container or where such consignments are unpacked. http://www.tkmglobal.net/chartering_C.HTM zbirno skladište, konsolidacijski centar, centar za punjenje i pražnjenje kontejnera, zbirna postaja / stanica / centar (za kontejneriziranu robu)

Container Freight Station charge The Container Freight Station Charge is the charge assessed for services performed at the loading or discharging port in packing or unpacking of cargo into/from containers at the CFS. (https://www.msc.com/shipping-glossary) naknada / tarifa za korištenje usluga konsolidacijskog skladišta; 2 (n) (ports) a port that is used for the loading of containerized cargo from boats (also called container terminal) kontejnerski terminal (Generally it involves less than containerload shipments)

container gantry crane (n) (cargo handling) kontejnerska mostna dizalica,
container hire (n) (logist) The payment charged by shipping companies to their clients for the use of their containers outside the free period, after it has left the terminal. 
https://www.logisticsglossary.com/term/container-hire/

**najamnina za brodarov kontejner (nakon istjeka roka besplatnog korištenja kontejnera)**

**Container Interchange Report** (n) (logist, mar law) A container interchange report is a document that gives a detailed description of the outward condition of a container when the container transfers from one responsible holder to another. **Izvješće o kontejneru koji prelazi u ruke drugoga prijevoznika ili krcatelja:** By preparing an **interchange report** for each transfer, it can be established when damage to a container has occurred and the party who during that period had the container in his possession can be held responsible.

**containerisation (＝containerization (US))** (n) 1 (shipping econ) a technique of using a container to store, protect and handle cargo while it is in transit. This shipping method has both greatly expedited the speed at which cargo is moved from origin to destination and lowered shipping costs.

**kontejnerizacija;** 2 (cargo handling, shipping econ) stowage of general or special cargoes in a container for transport in the various modes **slagannje robe u kontejnere**

**containerised shipping** (n) (shipping econ) **kontejnersko brodarstvo:** Containerised shipping is an important component of global trade and currently there are over 22 million containers operating around the world. https://shippingandfreightresource.com

**containerizable cargo** (n) (cargo handling) cargo that will fit into a container and result in an economical shipment **teret koji se može prevoziti u kontejnerima,**

**kontejnerski teret**

**container lashings** (n) (cargo handling) **vezovi za pričvršćivanje kontejnera,** **rice za kontejnere:** Regularly check and tighten **container lashings** during the voyage, when
container lease (n) (shipping econ) the contract by which the owner of containers (lessor) gives the use of containers to a lessee for a specified period of time and for fixed payments.

(container parts) iznajmljivanje kontejnera, najam kontejnera, leasing kontejnera

containerline (n) (mar law, shipping econ) kontejnerski linijski brodar: The escalating threat posed by a global trade war is taking its toll on the world’s largest containerlines. Splash24/7 <splash=asiashippingmedia.com@mail22.sea21.rsgsv.net>

container line (n) (shipping econ) kontejnerska brodarska linija

container load (n) (cargo handling, shipping econ) a load sufficient in size to fill a container either by cubic measurement or by weight (https://www.msc.com/shipping-glossary) teret za jedan kontejner full container load; FCL = F.C.L. sav teret u kontejneru glasi na jednog, tj. istog primatelja izravna kontejnerska pošiljka (sav teret u kontejneru glasi na istog primatelja), less-than-container load; LCL = LCL kontejner s robom koja glasi na više različitih primatelja zbirni kontejner

container load plan (n) (cargo handling) a list of items loaded in a specific container and where appropriate their sequence of loading plan krcanja i slaganja tereta u kontejner Container on Flat Car (=COFC) (n) (cargo handling) ANTHONYM trailer-on-flatcar A container placed directly on a railroad flatcar without chassis.; An American abbreviation for the railroad service, 'Container on a Flat Car' as opposed to 'Trailer On a Flat Car,' refers to the mode of carriage of rail shipments. (https://www.msc.com/shipping-glossary) kontejnerski ravnı vagon, flat container-on-flatcar (=COFC) (n) (cargo handling) kontejnerski vagon (nakrcan s kontejnerom)

container part load (n) (logist) A shipment that does not utilise the full volume of a container nor the maximum payload by weight. Usually, additional part loads are added to fill the container for transport. (https://www.msc.com/shipping-glossary) neiskorišteni prostor u kontejneru container parts (n) (cargo) sastavni dijelovi kontejnera
container pool (n) (logist) An agreement between transportation companies that allows for the most efficient use and supply of containers (containers from different owners are 'pooled' together and everyone can use any one of them). kontejnerski pool, pool kontejnera

container price (n) (logist) SEE shipping containers market SEE shipping container cijena (koštanja praznog) kontejnera, prodajna (nabavna)

cijena kontejnera: The forecaster also noted that container prices have been relatively stable over the past 30 days (July) as compared to the previous 90 days https://www.hellenicshippingnews.com/(2023)

https://gcaptain.com

container row (n) (nav arch, cargo handling) COMPARE container tier red kontejnera po širini broda

container seal (n) (safety, cargo) Container seals are used to secure the container doors once the loading of cargo is completed.; Container seals are used to secure the container doors once the loading of cargo is completed. lokot kontejnera: The Bill of lading includes the container seal number for verification by port authorities, port customs and the customer receiving the cargo.
Review carefully the container securing software input data and its warning messages. MacGregor and Maersk Line have agreed to cooperate on the development of the next generation of container securing systems.

A single deck cargo vessel with boxed holds fitted with fixed cellular guides for the carriage of containers has departed China carrying a record 19,621 TEUs. The Pudong Container Terminal has a total quay length of 900 meters and is able to accommodate the fifth and sixth generation container ships.
Container shipping, which moves 95% of all manufactured goods, is estimated by industry executives to be worth $1 Trillion a year (gCaptain <info=gcaptain.com@mail83.atl51.rsgsv.net> ). Container shipping, the backbone of the global trading system, is showing signs of fatigue as the pandemic descends into its darkest days.

Currently, there is a high demand for container shipping. Container shipping lines rake (=grow) in profits thanks to strong consumer demand that has contributed to port congestion and soaring freight rates. https://gcaptain.com;

Container stack (cargo handling) Two or more containers, one placed above the other, forming a vertical column. (https://www.msc.com/shipping-glossary) Red složenih kontejnera

Container stowage Slaganje kontejnera Container stowage on board slaganje kontejnera na brodu
Stowage position of container

**Container Sublease Agreement** (n) *(shipping econ)* **Sporazum o podnajmu kontejnera**

**container terminal** *(n) (ports)* A specialized facility where ocean container vessels dock to discharge and load containers, equipped with cranes with a safe lifting capacity of 35-40 tons, with booms having an outreach of up to 120 feet in order to reach the outside cells of vessels. Most such cranes operate on rail tracks and have articulating rail trucks on each of their four legs, enabling them to traverse along the terminal and work various bays on the vessel and for more than one crane to work a single vessel simultaneously. Most terminals have direct rail access and container storage areas, and are served by highway carriers. (http://www.aapa-ports.org/Industry/content.cfm?ItemNumber=1077); An area designated for the stowage of containerised cargoes; usually accessible by truck, railroad and marine transportation. (https://www.msc.com/shipping-glossary) **kontejnerski terminal**: In addition, Crowley has expanded Isla Grande’s **container terminal** capacity for handling refrigerated containers; paved 15 acres to accommodate container stacking; added containers and associated handling equipment to its fleet; installed a new electrical substation to provide power for the new gantry cranes; constructed a new seven-lane exit gate to increase speed and efficiency for trucking partners; and implemented a new, modern terminal operating software system (TOS) to modernize and enhance cargo deliveries and exchanges. www.gCaptain.com The **container terminal** has an annual capacity of more than 3 million TEU.

**container terminal service charges** *(n) (logist)* any charges, fees, duties, dues, penalties in relation to any of the Container Services at the Container Terminal, including any lease rents that may be charged by ACT in respect of the use of any of its facilities or Equipment (dlca.logcluster.org) **tarife**
usluga kontejnerskog terminala: ACT reserves the right to alter any Container Service Charges or conditions of this notification from time to time with prior notice and upon the approval of the Authority. Aqaba Container Terminal

container throughput (=port container traffic) (n) (shipping econ) container traffic in TEU handled by container cranes in a port (includes loaded & empty containers; import, export and transhipped containers) kontejnerski promet luke, promet kontejnera (u luci): Europe’s largest port, the Port of Rotterdam ended 2018 with a total container throughput at 469.0 million tonnes (MT) which slightly higher than in 2017, which was itself a record year (467.4 MT). Measured in TEUs, the standard unit for containers, the increase of the container throughput was 5.7% and the annual total was 14.5 million TEUs – also a record.

Shanghai Port ranks first in container throughput globally. The container throughput of Shanghai Port surpassed 47 million 20-foot equivalent units (TEUs) in 2021, https://safety4sea.com/

2 (ports) promet punih kontejnera (u luci)

Container Transport Operator (=CTO) naručitelj u intermodalnom transportu, kontejnerski operator, kontejnerski vozar

container weight verification (n) (shipping econ) ovjera težine kontejnera, provjera težine kontejnera: The imminent enforcement of mandatory container weight verification is causing widespread fear of disruption among shippers and freight forwarders, according to a new customer survey by INTTRA, the ocean shipping e-marketplace.

Container Weight Verification Requirements (n) (mar law, safety, cargo)

Obvezna provjera bruto težine kontejnera u transportu: (SOLAS Treaty) Container Weight Verification Requirements - The new mandatory regulations applicable to shippers were released on July 1, 2016, and require that every shipper must verify the gross weight of all containers before they are loaded on board.

container yard (=CY; container depot) (n) 1 (ports) a materials–handling/storage facility used for completely unitized loads in containers and/or empty containers; A container yard (CY) is where ocean containers are stored before and after a sailing, and where carriers store empty containers. (https://www.flexport.com/); A container yard is a port facility where containers are stored before they are loaded onto a ship or after they have been discharged from a ship.
Container Yard to Container Yard (CYCY) (logist) The shipping term CYCY explains that the responsibility of the carrier begins (port of loading) and ends (port of discharge) at the container yard. (https://blog.greencarrier.com/) Customs have limited the allowable stay of the containers inside the yard from 120 days to 90 days “to free up space on the port container yards.” https://shippingandfreightresource.com

It was noticed that the fuel oil was contaminated with water. (https://safety4sea.com/) How do I know if my fuel is contaminated? What can I do to treat contaminated fuel or clean a contaminated tank? https://www.practical-sailor.com/

The vessel was also regularly pumping contaminated water directly overboard.

Often samples are taken at the commencement of loading after a small quantity has been pumped, in order to check if any contamination is revealed. ; 3 (marine eng) presence of harmful foreign matter in a fluid or in air miješanje vode s uljem za podmazivanje

Over the years, the main point of contention in the
ongoing case has been the poor state of the 26-year-old tanker. point of contention točka sporenja, sporna točka

Conventional Buoy Mooring (=CBM) (n) (ship handling, navig) = multiple-buoy mooring The Conventional Buoy Mooring (CBM) system includes multiple buoys that are fixed to the seabed by means of mooring lines and marine anchors. The three to six buoys are permanently installed in a rectangular pattern that allows safe mooring of a vessel which is positioned between the buoys with tug assistance. (http://www.bluewater.com/products-technology/mooring-systems/turret-mooring-systems/soft-yoke-tower/)
klasični način vezivanja tankera na plutače: Spread mooring systems with buoys are called Conventional Buoy Mooring (CBM) systems and do not require any modifications to the
Metal drums were being loaded on to a conventional cargo ship and, in the process, had to be slung over bales of greasy wool.

**conventional direction of buoyage** (n) (navig) the general direction taken by the mariner when approaching a harbor, river, estuary, or other waterway from seaward, or proceeding upstream or in the direction of appropriate nautical documents (normally following a clockwise direction around land masses) (Seasources.net)

**conventional ship** (n) (nav arch) klasični brod, konvencionalni brod

**converging courses** konvergentni kursovi, kursovi koji se spajaju / približavaju

**conversion** /kənˈvɜːʃən/ (n) 1 (nav arch) preinačen / prenajmenjen brod: The conversion work was performed by Feeney Shipyard of...

**convert** /kənˈvɜːt/ (v) 1 a pretvoriti, konvertirati; 2 adaptirati

**converter** (n) (marine eng) konverter

**convey** /kənˈveɪ/ (v) 1 a prenosit, prevoziti, transportirati; 2 prenijeti, dovesti

**conveyance** /kənˈveɪns/ (n) means of conveyance transportno sredstvo, sredstva transporta (shipping econ) transport of goods from one place to another transport, prijevoz, prijenos

**conveyor** /kənˈveɪə/ (cargo) transportni (tračni) conveyor belt tračni transporter, transportna traka, transporter, conveyor system transportni sustav, sustav transportera, ship unloading conveyor iskrcajni transporter, ship loading conveyor ukrcajni transporter

**conveyor belt** (n) (cargo handling) a mechanical device in the form of a continuous belt for transporting cargo, mainly dry bulk cargo transporter, transportna traka: The amount of cargo remaining on the conveyor belt which will be loaded onboard the ship after a cargo stoppage signal
has been given by the ship. The chief officer activated the emergency conveyor belt stop system and called for help.

convict /ˈkənvɪkt/ to pronounce (someone) guilty of an offence osuditi, kazniti: The shipping company was convicted of violating the Act to Prevent Pollution from Ships. The have been convicted and fined $40,000 and $35,000 respectively after pleading guilty for ...

convoy /ˈkɒnvɔɪ/ (n) 1 (navig) a group of ships sailing together for mutual guidance or protection konvoj: The situation became complicated because the ship had just initiated a passage in a convoy through the Suez Canal. The vessel has just initiated a passage in a convoy through the Suez Canal. Vessels arrive 0300 hrs till 0400 hrs and can join the Convoy; 2 (inland waterways) plovni sastav, riječni konvoj large convoy a pushed convoy composed of the pusher and seven or more barges

cool /kʊl/ (v) hladiti, rashladiti

coolant (n) (marine eng) rashladno sredstvo, rashladni medij: The coolant used for removing and conveying the heat from a piston may be either fresh water, distilled water or lubricating oil.

cool down (v) (marine eng, cargo handling) ohladiti: Every month, at the turnaround port, it was a routine for the engine crew to isolate, cool down and open the economiser (also known as waste heat or exhaust gas boiler) to clean out the accumulated soot and unburnt carbon particles. The area around cargo hold 4 was to be cooled down later.

cooler (n) charge air cooler međurashladnik 1 (marine eng) rashladnik, hladnjak: The central cooler, the main engine cylinder cooling fresh water cooler, and the main engine lub oil cooler are all plate type, and were manufactured by Alfa Laval, Sweden. The cooler is required to maintain optimum temperature and viscosity and cools the oil using seawater that passes through tubes or plates depending on the type of cooler.; 2 rashladno sredstvo
cooling /ˈkuːliŋ/ (n) (marine eng) hlađenje, rashlađivanje bore cooling klađenje kroz zavojne / radijalne kanale
cooling cargo chamber (n) (nav arch) stanica za hlađenje tereta
cooling coils (n) (nav arch) serpentine (rashladnog uređaja)
cooling control (n) (marine eng) regulator hlađenja
cooling down (n) (cargo handling, marine eng) pothlađivanje
cooling fan (n) (marine eng) rashladni ventilator, ventilator
cooling medium (n) (cargo handling, marine eng) rashladno sredstvo
cooling piping (n) (marine eng) cjevovod sustava za hlađenje
cooling pump (n) (marine eng, cargo handling) rashladna pumpa
cooling system (=cooling water system) (n) (marine eng) rashladni sustav
HT cooling system sustav rashladne vode visoke temperature, LT cooling system sustav rashladne vode niske temperature
cooling water (n) (marine eng) rashladna voda cooling water system sustav rashladne vode
cooling water treatment (n) (marine eng) obrada rashladne vode: Insufficient cooling water treatment, combined with the heavy corrosion of the engine components, can also cause the cooling water jacket to crack. https://safety4sea.com/
cool out (v) rashladiti
Co-ordinator of Surface Search (=CSS) (n) (safety, navig) koordinator potrage i spašavanja na mjestu nesreće
copal (n) (seamanship) lak za drvo, verniž
cope with (v) 1 uhvatiti se u koštac, izići na kraj; 2 biti dorastao, svladati poteškoće, ići u korak s
copper /ˈkɔpə/ (=Cu) (n) (chem) bakar
copper paint koper (podvodna boja), koperpajn
copper tube (n) (marine eng) bakrena cijev
copra /ˈkopra/ (n) (cargo) the dried, oil-yielding kernel of the coconut kpra, suhe koštice kokosova oraha
Copy. SEE Roger. Razumio., Primio.
copy not negotiable (n) (mar law) prijepis teretnice nije prenosiv, neprenosiva teretnica
coral reef (n) (geogr) koraljni greben: Bulker grounded in Papua New Guinea, damages coral

corb  (n) (fishing) grb {drugi hrv. nazivi: Hama, dronj, harba, koraf, korbel, salamun, šarac; lat. UMBRINA CIRROSA)

cord  /ˈkɔːd/ (n) 1 (seamanship) konopac, uže ; 2 žica
cordage  /ˈkɔːdɪdʒ/ (=mooring ropes) (n) 1 (sailing/boating/yachting) all the ropes used aboard ship, esp. all the lines of the rigging oputa; 2 užad, konopi: Our approach was to take the weathered 10- to 12-year-old nylon three-strand line, cordage that for half of its life had been used as part-time dock line, and for the other half, enlisted as full-time (24/7) dock line, tethering a 41-foot sloop to a fixed pier in a very protected cove on the Chesapeake Bay. ( Practical Sailor <practicalsailor@e.practical-sailor.com> mooring cordage privezni konopi, privezna
užad: Marine ropes characteristics: Strand: 3, 6, 8, 12; Diameter: cordage 160 mm; Layer: single or double braid; Material: polyester, PP(polypropylene), polypropylene & polyester mixed, UHMWPE(ultra-high molecular weight polyethylene), nylon; http://www.nauticexpo.com Fountom mooring ropes can be used for all types of vessels including yacht, tug boat and cargo ship. http://www.nauticexpo.com
core  /ˈkɔːr/ (n) (seamanship) jezgro konopa
Corinthian  (n) (sailing/boating/yachting) an amateur sailor jedrtiličar amater, jedriličar početnik
cork  /ˈkɔrk/ (n) 1 (cargo) pluto; 2 (nav arch) izolacijsko pluto
corned beef  (n) (cargo) konzervirana govedina, konzervirano meso
corner casting (=corner post) (n) (cargo) fittings located at the corners of containers providing means of supporting, stacking, handling and securing the container; Each corner of a container is fitted with a corner post. This is a steel cube, fitted with an oval opening on the outside. These openings serve to lift the containers or to secure them onboard a vessel, truck, railway wagon, or to connect the container to another container. https://www.logisticsglossary.com/term/corner-post/
kutni okov / odljevak (na dnu i vrhovima kontejnera): The corner castings are used in conjunction with twist locks to secure containers when traveling on road vehicles or stack and fasten them securely to the deck of ocean-going vessel. 

https://www.indiamart.com/proddetail/container-corner-is0-1161-11141061091.html

corner fittings (n) (cargo handling) kutni okovi / odljevci (na dnu i vrhovima kontejnera) top corner fittings gornji kutni okovi kontejnera, bottom corner fittings doljni kutni okovi kontejnera

corner method (n) (navig) metoda potrage i spašavanja u zoni određenoj koordinatama kutova

corner post (n) (cargo) vertical frame components fitted at the corners of the container, integral to the corner fittings and connecting the roof and floor structures (https://www.msc.com/shipping-glossary)

corner method (n) (navig) metoda potrage i spašavanja u zoni određenoj koordinatama kutova

corner post (n) (cargo) vertical frame components fitted at the corners of the container, integral to the corner fittings and connecting the roof and floor structures (https://www.msc.com/shipping-glossary)

corner method (n) (navig) metoda potrage i spašavanja u zoni određenoj koordinatama kutova

corner post (n) (cargo) vertical frame components fitted at the corners of the container, integral to the corner fittings and connecting the roof and floor structures (https://www.msc.com/shipping-glossary)

kutni stup kontejnera, kutni oslonac: A corner post is a vertical structural member at either side of an 'end frame' of a container joining a top and a bottom corner fitting. Reject damaged containers. Containers with damaged corner posts placed in the bottom of a stow are likely to collapse. 

https://safety4sea.com/
coronavirus (n) (med) koronavirus: Denmark will allow merchant sailors stranded on the high seas since the outbreak of the coronavirus to come ashore and be reunited with their friends and families 
gCaptain www.gcCaptain.com

Corporate Social Responsibility (CSR) (n) (mar law) Voluntary self-regulation and integration of social and environmental factors in business decision-making, taking into account the perspectives of individuals and groups material to the success of the business and/ or impacted by its activities (http://www.jterc.or.jp/english/kokusai/conferences/pdf/120426_linda-1.pdf)

društveno-odgovorna kompanija: The broad aims of this study are to see if the shipping industry's CSR requirements with regard to seafarers' welfare are met and how maritime security initiatives give seafarers a difficult time https://www.researchgate.net/ ... IADC is a treasure trove of data, it also espouses four sacred tenets of the dredging; namely Corporate Social Responsibility, Sustainability, Emissions Control and Safety. <source>MaritimeReporter-2016-06</source> <sentence>True, a few companies had launched corporate social responsibility programs, and there was some feeling— that more needed to be done. <source>MaritimeProfessional-2012-11</source> <sentence>Corporate Social Responsibility in shipping društveno-odgovorno brodarstvo

corporized port (n) (mar law, ports) COMPARE landlord port Concerns ports that have almost entirely been privatized, with the exception that ownership remains public and often assumed as a majority shareholder. The port authority essentially behaves as a private enterprise. This management model is unique since it is the only one where ownership and control are separated, which lessens "public good" pressures landlord port authority are facing and "shareholder value" pressures private ports are facing. 

(https://people.hofstra.edu/geotrans/eng/ch4en/conc4en/tbl_public_private_roles_ports.html) luka s privatnim koncesionerima, privatna luka
corrected times (n) (sailing/boating/yachting) korigirana vremena (u bodovanju rezultata regate)
correspondent (n) (mar ins) Representatives of the Association who are based in all major and minor ports throughout the world. Correspondents can be maritime lawyers, ship’s agents or in some cases surveyors korespondentni P&I osiguravatelj, predstavnik korespondentnog P&I osiguravajućeg društva (u luci)
correspondent bank (n) (shipping econ, mar law) A bank that, in its own country, handles the business of a foreign bank. (https://www.msc.com/shipping-glossary) korespondentna banka
corrode /kærəud/ (v) korodirati, podlijezati korodiranju
corrosion /kærəʒən/ (n) (marine eng, seamanship) korozija, hrđanje internal boiler
corrosion unutarnja korozija kotla, cause corrosion izazvati koroziju: ... the water draining out of some coals can be highly acidic, and may cause corrosion to uncoated metal surfaces including tanktops, sounding pipes and/or bilge systems. https://safety4sea.com/
corrosion removal (n) (marine eng) skidanje rđe
corrosion resistance (n) (marine eng) otpornost na koroziju
corrosion-resistant (adj) otporan na koroziju corrosion-resistant steel čelik otporan na koroziju
corrosive (adj) corrosive action djelovanje korozije, corrosive acids korozivne kiseline korozivan
corrosive substances (n) (cargo) korozivne tvari (klasa 8 opasnih tereta)
corrugated plate /'kɔrəɡeɪtɪd/ (n) (nav arch, marine eng) valoviti lim, rebrasti lim
corrugation /kɔrə'ɡeɪʃən/ (n) 1 nabor, rebrasti materijal; 2 (nav arch) rebrasto

corsair /koːˈseɪər/ (n) (mar law) gusar (archaic)
corvette /koʊˈvɛt/ (n) (navy) a fast, highly manoeuvrable warship, somewhat smaller than a destroyer (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) korveta
Cosine theory

Cosine theory /ˈkəʊˌsain/ (n) kosinusov poučak

COSPAS-SARSAT (=Cospas-Sarsat) (n) (safety) međunarodni satelitski sustav za potrebe traganja i spašavanja, određivanja pozicije pogibelji; an international satellite system for search and rescue used for the transmission of distress alerts sent by emergency position-indicating radio beacons (EPIRBs), emergency locator transmitters (ELTs) or personal locator beacons (PLBs) via a satellite link. (SAR Manual); International satellite system for search and rescue, Cospas-Sarsat detects distress beacons signals on the 406 megahertz frequency.

COSPAS-SARSAT is an international SAR satellite system used to detect and locate signals from distress beacons.

COSPAS/SARSAT is an international SAR satellite system used to detect and locate signals from distress beacons.

**Beacons – Alerts from 406 MHz distress beacons** — ELTs, EPIRBs and PLBs—are received by the COSPAS-SARSAT constellation of geostationary (GOES) and low-earth orbiting (LEO) satellites and relayed to ground stations called local users terminals. Alerts are then forwarded to the associated mission control centre (MCC) for processing and determination of position. (CAMSAR II – Mission Coordination)

The 406 MHz distress beacons are coded, and when properly registered, identify the aircraft or vessel and give contact information, which the JRCC/MRSC coordinator uses in resolving the incident. (CAMSAR II – Mission Coordination) (CAMSAR II – Mission Coordination), **VHF-DSC EPIRBs VHF DSC**

**epirb**: Ships operating exclusively in a GMDSS “A1 sea area” may, in lieu of satellite EPIRBs, use VHF-DSC EPIRBs transmitting on channel 70. These EPIRBs transmit their MMSI number, their GPS position and other vital information. (CAMSAR II – Mission Coordination) Ships operating exclusively in a GMDSS “A1 sea area” may, in lieu of satellite EPIRBs, use VHF-DSC EPIRBs transmitting on channel 70. These EPIRBs transmit their MMSI number, their GPS position and other vital information. They are registered in the national MMSI database for each country. (CAMSAR II – Mission Coordination)

**cospas-sarsat system** (n) (navig) sustav potrage i spašavanja COSPAS-SARSAT
cost /kɒst/ (n) (shipping econ) trošak (npr. prijevoza) cost of transport prijevoznog troškovi, cijena transporta, cost incurred trošak nastao uslijed, troškovi nastali uslijed, maintenance cost troškovi održavanja, operational cost pogonski troškovi, raise costs povećati troškove, manage the costs upravljati troškovima, reduce costs smanjiti troškove

cost 2 (n) (shipping econ, logist) cijena (proizvoda, robe, tereta u transportu) cost of commodity cijena robе, vrijednost robe

cost and freight (=CFR) (n) (mar law) međunarodni trgovski uvjet prema kojemu je prodavatelj dužan platiti troškove i vozarinu kako bi se roba dopremila do luke odredišta, ali rizike gubitka ili oštećenja robe i povišenje cijene snosi kupac od trenutka kad roba prijeđe brodsku ogradu u luci ukrcanja; Cost and Freight (CFR) means that the seller must pay the costs and freight in order to transport the goods to the port of destination in question.

https://www.logisticsglossary.com/term/cost-and-freight/troškovi i vozarina: The term CFR obliges the seller to clear the goods. This term can only be used for transport by sea and inland shipping traffic. https://www.logisticsglossary.com/term/cost-and-freight

Cost and Insurance (=C&I) (n) (mar law) a price that includes the cost of the goods, the marine insurance and all transportation charges except the ocean freight to the named point of destination (Glossary of Shipping Terms, www.marad.dot.gov) cijena robe i transportno osiguranje

cost of shipment (n) 1 (shipping econ) cijena prijevoza: It now costs British shippers nearly $1,000 more per feu to get their goods from Asia compared to their neighbours on the continent. https://splash247.com; 2 troškovi prijevoza

CO2 system /ˈsɔː tuː/ (n) CO-2 sustav, sustav gašenja ugljičnim dioksidom portable CO2 system prijenosni CO-2 sustav, fixed CO2 system fiksni CO2 sustav

cotter pin /ˈkaʊtəˌpin/ (n) (marine eng, sailing/boating/yachting) rascjepka, šplinta

cottonwood (cargo) pamučika

count /kaʊnt/ (v) 1 računati; 2 brojati; 3 uzeti u obzir

count (n) (mar law) točka optužnice: Count one of the indictment alleged that the Police Port Security Unit traced an oil sheen in the to the M/V …

countdown odbrojavanje (udaljenosti): VTS officer’s radar screenshot showing the countdown to the …; the tug was connected to the port quarter to counter winds gusting to force 5 The helmsman was leaving his throttle ahead to counter the tide and then removing the kill-cord from his wrist in order to hold on to the barge. counter the prop walk spriječiti efekt smjera okretanja propelera, counter the crosswind spriječiti efekt poprečnog vjetra

counter /ˈkaʊntə/ (n) (nav arch, sailing vessels) COMPARE overhang The part of the hull that lies above the water at the stern. https://www.ypiyachts.com/ oblina krme counter
counteract /ˌkaʊntərˈækt/ (v) djelovati u suprotnom smjeru, nastojati

spriječiti, osujetiti, djelovati suprotno: The helmsman achieved the aim, the electronic chart display data showing him steering between 10 and 15 degrees to starboard of the approach course to counteract the effect of the tide. The master intended to use the bow thruster to counteract the onshore wind and hold the bow steady; the tug, under the direction of the pilot, would hold the stern.

counter current (n) (oceanogr) protustruja: There is a counter current flowing westerly in Bonita Cove at that time.

counter-flow (n) (geogr) protutok vode, protustrujuanje: A contributing factor was the vessel’s bow entering an area of counter-flow while her stern remained in the main ebb flow, causing her bow to unintentionally pay off to starboard. Dodatni faktor nezgode bio je ulazak broda u područje protutoka vode dok je istodobno krma boda ostala u toku glavne struje od oseke, što je izazvalo neželjeno otpadanje njegova pramca u desno.

counter-offer (n) (mar law) Response to an offer which in some way varies the terms or conditions of that offer, by virtue of a party making a counter-offer, the offer itself is no longer binding. Offer and counteroffer form the basis of the negotiations involved in chartering.

http://www.tkmglobal.net/chartering_C.HTM odgovor na ponudu (pri ugovaranju najma broda)

counter rudder (n) (navig) determines the amount of opposite helm to be applied

protukormilo

countersign (v) supotpisati, potpisati s druge strane

counterweight /ˈkaʊntərwēt/ (n) (marine eng) Weights that are mounted on the crankshaft opposite each crank throw. These reduce vibration and bearing loads.

(http://www.marinedieseleurope.com/) protuuteg, uteg za ravnotežu

countless (adj) bezbrojan

country damage (n) (mar law) Damage to baled or bagged goods (e.g. cotton) caused by excessive moisture from damp ground or exposure to weather, or by grit, dust or sand ashore.

zemljane štete

country of origin (n) (shipping econ) country in which the goods have been produced or manufactured, according to criteria laid down for the purpose of application of the customs tariff, of quantitative restrictions, or of any other measure related to trade. zemlja podrijetla (robe, tereta), zemlja proizvodnje robe

country of Provenance (n) (shipping econ) the country from which goods or cargo are sent to the importing country zemlja otpreme robe

coupled to /ˈkɑːpled/ (adj) spojen na, priključen na, prikopčan na: The anchor was coupled to a short length of chain, which was intended to be attached to the boat’s painter to form the anchor cable.

coupling /ˈkʌplɪŋ/ (n) (marine eng) spojka, Italian: innesto: A hydraulic coupling on the mooring winch gave way, squirting a jet of hot hydraulic oil all over the mooring station. The ship was towed from the River Thames following the failure of a drive shaft universal coupling in her engine bay. Unfortunately, on the next occasion, the left sleeve of his jacket became entangled with a coupling on the rotating propeller shaft. coupling nut spojna matica, matica steznog vijka, navojna stezna spojka, coupling dog zupčasta spojka, flexible coupling
izvrstiva spojka, fleksibilna spojka: A flexible coupling is always fitted between the turbine rotor and the gearbox pinion. The membrane-type flexible coupling is made up of a torque tube, membranes and adaptor plates. friction coupling tarna spojka, frikcijska spojka: The motor drive is equipped with a friction coupling to prevent overload. https://www.directindustry.com/prod/renold/product-5242-1022417.html
coupling (n) (marine eng) spojna prirubnica
coupling bolt (n) (marine eng) svornjak
coupling nut (n) (marine eng) protumatica
courier service /ˈkʊəri/ (n) (shipping econ, US) poštanski prijevoz
course /kɔːs/ (n) (navig) COMPARE heading the intended direction of movement of a vessel through the water (SMCP); The intended horizontal direction of travel of a craft; a ship’s desired direction of sailing kurs, kurs (naređen za kormilarenje), namjeravan kurs,
rota: Target vessel 20 degrees on port bow, course 225, speed 11. A 1,700gt products tanker was on a southeasterly course 3 miles off the Yorkshire coast. Own ship, a 4,000 grt container feeder, proceeding from south of Lamma anchorages on a course of 088 degrees to pass some 0. She was heading on a north-westerly course at a speed of 8 knots. to alter the course promijeniti kurs: Please alter your course 20 degrees to starboard, to follow the course slijediti kurs, ploviti kursom: The ship was following a course of 110° in hand steering, at a speed of 11 knots. The ship was following an autopilot controlled course over the ground (COG) of 222° at a speed over the ground (SOG) of 15.5 knots (kts). www.gov.uk/maib, to keep the course držati kurs: ... we made an agreement that he would alter course to starboard and pass my stern, in other words we would follow the COLREG so I kept my course and speed. to maintain the course držati kurs: Whilst an overtaken vessel has a duty to maintain course and speed, this does not mean that she should ignore the safe channel and stand into danger. to make good the course ploviti kursom, preći put pod određenim kursom: The container ship was making good a course of 240° at a speed of 18kts. to lay off the course ucrtati kurs, to plot the course ucrtati kurs, on crossing courses u križanim kursovima, on reciprocal (opposite) courses u nasuprotnim kursovima: ARPA showed one vessel ahead on reciprocal course, speed 23knots, converging courses konvergentni kursovi, kursovi koji se spajaju, diverging courses divergentni kursovi, kursovi koji se odvajaju, opening courses kursovi koji se otvaraju, divergentni kursovi, closing course 1 kursovi koji se spajaju a konvergentni kursovi, parallel courses paralelni kursovi: At 1810, the bulk carrier was overhauling us on our port side on a parallel course and having a speed of around 13 knots. set the course namjestiti kurs, postaviti kurs, ucrtati
When the vessel cleared the approaches to the harbour, the skipper set a course on the automatic helm to pass on his port side a small island, which lay about 2 miles to the south-west. 

Steer a course ploviti u kursu od ..., kormilariti na kursu od ..., držati kurs: At approximately 0735 own ship was steering a course of 266 T for Falmouth Pilot Station. 

Original course početni kurs, prvotni kurs, prethodni kurs: Starboard helm was maintained whilst a full turn was taken out of the vessel before resuming our original course of 3140. 

Planned course planirani kurs, predviđeni kurs: Soon thereafter the OOW indicated to the Master that they had drifted from their planned course and the Master affirmed. 

Steady course stalni kurs, stabilni kurs: For ARPA to display reliable target information, the observer’s ship must maintain a steady course and speed for at least 3 minutes. Rather than changing course as planned, the ship remained steady on a course of 057° T at a speed of 11 knots. 

On the wrong course biti na kursu od ... (o brodu): The vessel was on a course of 125 degrees making about 10 knot, ... www.safety4sea.com (The term "course" indicates the course ordered to the helmsman to steer, as opposed to "heading" which is the true course true which the ship is actually making). 

Course tečaj; 2 seminar; 3 predmet, kolegij (na visokoj školi, fakultetu) 

Course (meteoro) promjena meteorološkoga elementa tijekom vremena hod 

Course (=main course sail) (n) (sailing vessels) najniže križno jedro, glavno križno jedro, majstra: The ship was running fast under her courses, single reefed topsails and topgallants. 

Main course glavno donje križno jedro, fore course prednje donje križno jedro, mizzen course krmeneno donje križno jedro; 2 (sailing vessels) donji dio jarbola (jedrenjaka) 

Course (hum_resource) tečaj refresher course tečaj obnove znanja, advanced course napredni tečaj, to follow the course pohađati tečaj, to attend the course pohađati tečaj; 2 seminar; 3 nastavni predmet, nastavni kolegij 

Course (a) 1 a tijek, tok in due course pravovremeno, pravodobno, a matter of course naravna stvar, normalni postupak 

Course adjustment (n) (navig) promjena kursa (manja): The second mate then made a series of small course adjustments. https://safety4sea.com/ 

Course alteration (n) (navig) promjena kursa: when about two and a half points forward of the beam, they started a course alteration to STARBOARD as if to try and cut across our bows. The decision to make the normal course alteration to port (as per the passage plan) was a bad one and should have been delayed. 

Course change (n) (navig) promjena kursa: my Mates that there is absolutely no reason to come within five cables in an overtaking situation in open waters, and by altering early only a small course change is required. 

Course line (n) (navig) linija kursa: By the time she had drawn abeam, I was already 1 mile northeast of my proposed course line. Once the vessel was on a steady course to the anchorage, the Master used the vessel’s paper chart to plot a direct course line from the assigned anchorage back to the vessel’s position. 

Course 2 /koːs/ a tečaj; 2 seminar; 3 predmet, kolegij (na visokoj školi, fakultetu)
course made good (=CMG) (navig, sailing/boating/yachting) kurs postignut nakon

During the time while trying to get the light on, the Master was using the radar for guidance and the course made good was displayed on the GPS screen. The chemical tanker ..... is in the North-East Lane of the Dover Strait TSS, course made good 043°, speed 14 knots close to “South-East Ridens” buoy.

course over ground (=COG) (navig) = ground track kurs preko dna: By now, the tanker was 1.058nm from No1 buoys, making good a course over the ground of 126° at 22 knots. The vessel was making approximately 10 knots and a course over ground of approximately 027°.

course recorder (n) (navig) pisač kursa, kursograf: ‘Course Recorder’, ‘Bell Book’ entries and interviews with Master, watch Officers and Helmsman have verified the above manoeuvres of the vessel

http://www.amimarine.net/category/4/Course%20Recorders

courses (n) (sailing/boating/yachting) ohe mainsail, foresail, and the mizzen, osnovno jedrilje

course steered (n) (navig) zadani kurs, održavani kurs

course through the water (n) (navig) kurs kroz vodu

course to steer (n) (navig) kurs plovidbe: The ... was not given a helm order, or a course to steer, and instead was given broad directions on what he should do. When the officer of the watch requires a course to be steered by compass, the direction in which s/he wants the wheel turned should be stated followed by each numeral being said separately,

course up (n) 1 (navig) Course-up: Compass-stabilized relative to ship's orientation. The bearing scale rotates to place ship’s heading (course set) at the screen top at the moment the course-up mode is selected. trenutačni kurs gore (na pokazivaču radara) course up orientation of radar display orijentacija radarske slike trenutačni kurs gore, course up mode način pokazivanja trenutačni kurs gore: The course-up mode is an azimuth stabilized display in which a line connecting the center with the top of the display indicates own ship's inten; 2 kurs prema sjeveru: The course up the Strait of Gibraltar to Cabo de Sao Vicente TSS is approximately 290°.

**cover** /ˈkʌvə/ (n) (marine eng) poklopac, pokrov, kapa, zaštitna kapa: The bilge cover was opened up and the bilge was found to be half full of salt water ... As soon as he cracked open the dome cover, hot condensate water (at about 80°C) escaped from the opening and spilled over the oiler.

outer cylinder cover vanjski poklopac cilindra, vanjska glava, cylinder cover of double deck construction dvokatni poklopac cilindra, cylinder cover insert uložak poklopca cilindra, unutarnja glava, cylinder cover poklopac cilindra, bearing cover kapa ležaja, poklopac ležaja

**coverage** (n) (navig) pokrivenost, područje pokriveno navigacijskim sustavom, frekvencijom itd., područje pokrivanja (navigacijske opreme): In instances such as these, which may be out of VTS coverage, it is suggested that other endangered ships be empowered to report such rogue vessels to the coastal authorities, Make sure that
before setting sail, full chart coverage and associated publications for the intended passage are held on board. The display was in relative motion and was off-centred to extend the coverage ahead of the vessel to about 4.5 nm.

coverage factor (n) (navig) faktor pokrivenosti (u SAR-u)
covering /ˈkʌvərɪŋ/ (n) (marine eng) zaščita, oblog: Tiger stripes have now been painted on the deck and a soft protective covering placed around the flange.

covering-board (n) (sailing vessels) ANTONYM planksheer The wider outermost plank of the deck mounted over the tops of the frames and covering the sheer strake of a decked boat. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) nutarnja sržnica

covering note (n) (mar ins) = slip- ceduljica / bilješka s podatcima o riziku

cover letter (=letter of application for a job) (n) 1 (mar law) COMPARE resume a document sent with your resume to provide additional information about your skills and experience. The letter of application is intended to provide detailed information on why you are a qualified candidate for the job (https://www.thebalancecareers.com/job-application-letter); The main purposes of a cover letter is to provide a short summary of who you are and what you have to offer and why you would be an excellent candidate for the job. (http://marineengineer.es/) popratno pismo s molbom za posao, pismena molba za posao, motivacijsko pismo: In the first paragraph of your cover letter to explain why you are interested in the job. You want to write about who you are and what you are doing currently, such as work, studies, etc. http://marineengineer.es/; 2 an accompanying letter sent as an explanation, introduction, or record popratni dopis, popratno pismo (A cover letter is an important part of almost any job application. While a resume offers a thorough look at your background, skills, and education, the cover letter is your opportunity to point out information that makes you well qualified for the position at hand. Think of the letter as making the case for your candidacy. And, while resumes tend to be a bit dry, listing information in bullet points, a cover letter has room to be more engaging. (https://www.thebalancecareers.com/cover-letter-template-2060213))

COVID pandemic (n) (med, shipping econ, logist) pandemija COVID 19: The COVID-19 pandemic led to a sudden dip in international seaborne trade but by late 2020 there was a swift rebound mainly in container and dry bulk shipping. In 2021 the surge in e-commerce, capacity constraints, equipment shortages, and renewed virus infections in some parts of the world put supply chains under pressure in 2021. https://Gcaptain.com

COW (=Crude Oil Wash) (n) (cargo handling) = Crude Oil Washing The use of a high-pressure stream of the crude oil cargo to dislodge or dissolve clingage and sediment from the bulkheads, bottom, and internal tank structures of a vessel during the discharge operation. (www.euronav.com) pranje tankova sirovom naftom

cowl /ˈkauəl/ (n) (nav arch, sailing/boating/yachting) a hood shaped top or end of a natural ventilation trunk or pipe that may be rotated to cause wind to blow air into or out of the trunk palubna ventilacijska cijev, šijun, Italian: cuffia; manica a vento: The fire caused substantial burn damage to adjacent electrical fittings and paintwork on the deck, vertical surfaces of the bulkhead and a ventilator cowl. ... fire damage was limited to the paintwork on the forecastle break bulkhead, a reefer electrical supply cable, light fittings and a hold ventilation cowl.

cowl ventilator (n) (nav arch) (sailing/boating/yachting) palubna ventilacijska cijev,
Meanwhile, the rescue boat coxswain and assisting crew member continued to investigate the cause of the engine failure. The pilot boat coxswain contacted the bridge by VHF to enquire the reason for the delay. At this stage, the lifeboat coxswain decided that the risk to the yacht’s crew was too great, and they were evacuated from their vessel by helicopter.

The closest point of approach (CPA) between the vessels was 0.5nm in 88 minutes time. A CPA of 0.8nm was predicted with own ship whilst CPAs of less than 0.3nm were predicted between the ferry and two other vessels. Vessel B had a CPA of 0.5 NM The ship’s second officer saw that the target ship was crossing ahead with a CPA of 0.5nm. The target was 10° on the port bow, 4 NM away with a CPA of 0.2 NM. https://safety4sea.com/ CPA limit prostorna granica točke mimolaženja, CPA data početni podatci o najbližjo točki mimolaženja: The initial CPA data is displayed after 1 minute of tracking, CPA is reducing / increasing najbliža točka mimolaženja se amanjuje / povečava: At the same time, the OOW of …. noticed that the CPA of the other ship was reducing, so he used the VHF radio to attempt to establish communications with that ship.

c.p.p. (=controllable pitch propeller) (n) (marine eng, nav arch) prekretni porivnik, prekretni propeler: The controllable pitch propeller (CPP) was turning at full manoeuvring speed of 130 rpm in neutral pitch, as was usual on this vessel when manoeuvring. CPP can move its blade in the desired position by changing the pitch of the blades. A general cargo vessel suffered an accident when its CPP malfunctioned.

CPR (=cardio-pulmonary resuscitation) (n) (med) an emergency procedure for manually preserving brain function until further measures to restore spontaneous blood circulation and breathing in a person who is in cardiac arrest. masaža srca: The AB was given oxygen and CPR was started. The two men carried out cardio-pulmonary resuscitation (CPR) until he began to cough and eventually breathe freely. We need to initiate Cardiopulmonary Resuscitation (CPR)

CPT /carriage paid to (named place of destination); c.p.t. (n) (shipping econ, mar law) SEE INCOTERMS 2000 prijevoz plaćen do (odredišta pošiljke): Carriage Paid To
CQD (named place of destination): the general/containerised/multimodal equivalent of CFR. The seller pays for carriage to the named point of destination, but risk passes when the goods are handed over to the first carrier. [http://www.tkmglobal.net/inco.html](http://www.tkmglobal.net/inco.html)

**CQR anchor** (=coastal quick release anchor) (n) (sailing/boating/yachting)

SYNONYM plough anchor plužno sidro, sidro plug

**crab** (n) 1 rak, rak crveni, rak od koče swimming crab rak crveni; 2 rakovica

**crack** (n) (nav arch, marine eng) pukotina, napuklina: A crack had developed in the fuel injection pipe, and fuel may have spurted from the crack onto a hot surface. Furthermore, he had encountered water in the tank several months previously due to a crack in the deck; on that occasion the vessel made shore safely, whereupon the water was drained from the tank, pumped overboard and the deck repaired. The container ship developed a crack and flooding after experiencing heavy weather. The crack inside the hull of the ship had expanded. [https://gCaptain.com](https://gCaptain.com) crack of shell plate napuklina na oplati broda, develop a crack napuknuti, doći do napuknuća: The ship developed a crack and flooding after experiencing heavy weather in ... crack in the fuel pipes: Problems in the fuel system may lead to cracks and leakages in fuel pipes in case of improper fuel treatment [https://safety4sea.com/](https://safety4sea.com/) napuknuće cijevi goriva

**cracking** /ˈkrækɪŋ/ (marine eng, nav arch) napuknuće, pukotina, prslina: There was also evidence of the likelihood of fine cracking in the steel adjacent to the fillet weld, but this went undetected by the repairer ...

**cradle** /ˈkreidəl/ (nav arch) a woden or steel frame built to support a boat or vessel when it is hauled out saonice ship cradle A framing built up on the ways and in which the ship rests while being built and launched. [https://officerofthewatch.com/tools/maritime-dictionary/](https://officerofthewatch.com/tools/maritime-dictionary/) saonice na
Craft /kraːft/ (n) 1 (nav arch) any vessel or conveyance that operate in a fluid medium or a vacuum. Thus, boats are craft; aircraft are craft; and spaceships, spacecraft, and space capsules are craft. When applied to vessels or conveyances that float on the water, a craft is any boat or ship of any size or type and of any use. (http://www.westlawn.edu/student_center/definitions.asp)

Naval craft /ˈnɑːvəl/ (nav arch) (n) a vessel or conveyance for naval warfare. These include aircraft carriers, destroyers, submarines, and corvettes. (http://www.westlawn.edu/student_center/definitions.asp)

Water craft /ˈwɔːtər/ (n) (nav arch) any vessel or conveyance that operate in a fluid medium. These include boats, ships, barges, and ferries. (http://www.westlawn.edu/student_center/definitions.asp)

Non-displacement craft /nɔn-dɪsˈpɛlzmənskəʊ/ (n) (nav arch) a vessel or conveyance that has a displacement that is equal to or less than the weight of the vessel plus its load. These include small boats, dinghies, and canoes. (http://www.westlawn.edu/student_center/definitions.asp)

Ship's crane /ˈʃɪps kraɪn/ (n) (nav arch) a crane that is installed on a ship and is used for lifting and moving cargo and equipment. (http://www.westlawn.edu/student_center/definitions.asp)

Dockside crane /ˈdɒksaɪd kraɪn/ (n) (nav arch) a crane that is installed on a dock and is used for lifting and moving cargo and equipment. (http://www.westlawn.edu/student_center/definitions.asp)

Gantry crane /ˈɡæntri kraɪn/ (n) (nav arch) a crane that is mounted on a gantry and is used for lifting and moving cargo and equipment. (http://www.westlawn.edu/student_center/definitions.asp)

Mobile crane /ˈmɑːbl kraɪn/ (n) (nav arch) a crane that is mounted on a mobile platform and is used for lifting and moving cargo and equipment. (http://www.westlawn.edu/student_center/definitions.asp)

Shore crane /ˈʃɔːr kraɪn/ (n) (nav arch) a crane that is installed on a shore and is used for lifting and moving cargo and equipment. (http://www.westlawn.edu/student_center/definitions.asp)

Craft Operating Manual (n) (nav arch, safety) Priručnik za upravljanje plovilom

Crane /ˈkraɪn/ (cargo handling) dizalica: What is the safe working load of the crane? Do not approach the crane slings/hook until the crane is fully stopped and ensure all is safe and secure prior to approaching. Bridge crane /ˈbrɪdʒ kraɪn/ mosna dizalica, container crane /ˈkɒntɪnjerzərskə kraɪn/ kontejnerska dizalica, kontejnerski most, dockside crane /ˈdɒksaɪd kraɪn/ obalna dizalica, quay /ˈwɝf kraɪn/ obalna dizalica, floating crane /ˈflɔtɪŋ kraɪn/ plutajuća dizalica, plovna dizalica, gantry crane /ˈɡæntri kraɪn/ mosna dizalica (npr. kontejnerski most): Each gantry crane was fitted with warning devices that operated automatically whenever the gantry crane travelled along the length of the deck. Mobile crane /ˈməʊbəl kraɪn/ autodizalica, crane rails /ˈkræn rælz/ staze za kretanje dizalice duž obale /ˈəʊbəl/ kranske staze (na lučkoj obali), kranske šine (na lučkoj obali), shore crane /ˈʃɔːr kraɪn/ obalna dizalica: The vessel had berthed and commenced discharging, with a shore crane, a load of 72,000 metric tons of steaming coal. Ship's crane /ˈʃɪpz kraɪn/ brodska dizalica: The officers and the crew should make a thorough assessment of the condition of ship’s crane and derrick wires at regular intervals. Deck crane /ˈdek kraɪn/ palubna dizalica, shipboard crane /ˈʃɪpbaʊrd kraɪn/ brodska dizalica, cargo crane /ˈkærə kraɪn/ teretna dizalica, dizalica za teret: A shore stevedore
operating a ship’s **cargo crane** used the bypass key to override the jib luffing lower limit cut-off switch, so that the cargo sling could be landed at the desired spot on the wharf. **crane hook** **kuka dizalice:** The pumpman was stationed at the manifold, monitoring the cargo hoses still attached to the deck **crane hook.** **hatch crane** **dizalica iznad brodskog skladišta:** Operate the **hatch crane** only if there is a person on each side to check whether the hooks are connected properly. **hose-handling crane** **dizalica za rukovanje fleksibilnim cijevima (na tankerima):** Shortly after our tanker arrived at the designated berth, the bosun was operating the **hose-handling crane** to position the vessel’s gangway to provide safe access to the ship. **mobile crane** **autodizalica:** The **mobile crane** lifted the lifeboat and suspended it below the davit heads while the crewmen attached the
The headsail tacks are cranked on via block and tackle. I finished cranking the winch to lift the boat. The resulting secondary explosion was large enough to tear the crankcase door from its...
crank counterweight  (n)  (marine eng)  protuuteg koljenastog vratila, kontrauteg koljenastog vratila
crank handle  (n)  (marine eng, sailing/boating/yachting)  ručka za pokretanje motora, ručica za pokretanje vitla, kurbla: This final closed position allowed the winch motor to be started with the crank handle in place.
cranking motor  (n)  (marine eng): motor za stavljanje u pogon koljenčastog vratila
cranking power  (n)  (fishing) snaga prijenosa (role)
crankpin  /ˈkræŋkˌpin/  (=crank journal)  (n)  (marine eng)  The portion of the crank throw attached to the connecting rod. (http://www.marinediesel europe.com/) osnac letećeg ležaja:
As No. 5 crankpin was seriously damaged, the crankshaft was found beyond use and had to be scrapped.
crankshaft  (n) (marine eng) A rotating shaft for converting rotary motion into linear motion.

koljenasto vratilo, koljenasta osovina, koljenčasta osovina: The slow-speed diesel engine rotates at this low speed and the crankshaft is thus directly coupled to the propeller shafting. The engine has an underslung crankshaft held in place by main bearing caps. https://wartsila.www.com The crankshaft is forged in one piece and mounted on the engine block in an under-slung way. https://wartsila.www.com

koljenastog vratila, oslonac koljenastog vratila, osnak, crankshaft journal pin oslonac letečeg ležaja, oslonac koljena, osno koljeno, čep ručice, fully-built crankshaft potpuno sastavljena koljenasta osovina, semi-built crankshaft polusastavljena koljenasta osovina, heavily bent crankshaft jako savijena koljenasta osovina, revolution of the crankshaft okret koljenaste osovine, crankshaft bearing temeljni ležaj, ležaj koljenaste osovine: If a crankshaft bearing is running hot, oil is heated and an oil mist produced which can lead to a crankcase explosion.

semi-built crankshaft polusastavljeno koljenasto vratilo
crankshaft deflection (n) (marine eng) progib koljenastog vratila, progib koljenaste osovine

crankshaft gear (n) (marine eng) zupčanik koljenastog vratila

crank throw /ˈkræŋkˌθrəʊ/ (=crankthrow) 1 one crankpin with its two webs

vratila: Turn the crankthrow to the exhaust side.; 2 (marine eng) razmak od vratila do ručke (koljenastog vratila)

crank web /ˈkræŋkˌweb/ (=crankweb; web) rame koljenastog vratila, koljeno, krak koljena, pršut: The plan was to position the crank shaft in such a way that the crank web was in the horizontal position. The crankshaft is fully balanced to counteract bearing loads from eccentric masses by fitting counterweights in every crank web. https://wartsila.www.com

http://fiftyfivenotion.blogspot.hr/2012/08/crossplane-crankshaft.html

crasch box (n) (sailing/boating/yachting) protusudarna pjena (jedrilice): A crash box, made of closed-cell foam, capable of being destroyed without affecting the watertight integrity of the hull should the boat make a head-on collision, shall be fitted in the bow of the boat. IMOCA Race Rule 2021

crash maoeuvre (n) (marine eng, safety) naglo zaustavljanje broda

crash stop (n) (safety, sailing/boating/yachting) zaustavljanje u nuždi, trenutačno zaustavljanje (radi spašavanja osobe u moru): The master conducted a crash stop and turned on the vessel’s deck lights.

http://www.marinediesels.info/2_stroke_engine_parts/crankshaft.htm

crate /ˈkreɪt/ (n) (cargo handling) niski otvoreni sanduk, krletka, letvarica, gajba, kašeta: Crates of uniform size and weight should be stacked directly one atop another. ... the spare part was inadequately secured inside the crate and as the crate tilted, the internal shift of weight assisted the ‘tipping’ motion;

crew management (n) (shipping econ, mar law) upravljanje posadama
crew manager (n) (shipping econ, mar law) upravitelj posada
crewmember (n) 1 any member of the ship’s company član brodske posade (svaki član: časnik ili mornar): The Master reacted immediately and despatched one of the crew-members to meet the boarding party.; 2 a rating, i.e. non-licensed member of of the ship’s company mornar, član niže posade
crew mess (n) (hum_resources) blagovaonica posade
crew positions on a race yacht / boat (n) (sailing/boating/yachting) mjesta članova posade regatne jedrilice, regatna posada jedrilice skipper Skipper (the boss): Is the team manager, captain, chief executive and ultimately decision maker on strategy and tactics, working in tandem with the navigator. kormilar, navigator Navigator (the nerd): Gets the boat from point-to-point as fast as possible, using wind and current. Has lots of hardware and software and is a meteorology expert. navigator, trimmer Trimmer (the power): Trims the sails and responsible for boat speed. Keeps a fast sail shape, works with the driver and other trimmers to reach the goals set by the skipper and navigator. trimer jedara, driver Driver (the pilot): Has the skill to steer boat fast in all conditions for long periods. Knows how to surf the waves and keep the boat racing fast, sailing on the edge in tough conditions. pilot, bowman Bowman (the acrobat): Works at the bow – the wettest, coldest and most exposed end of the boat. Changes sails or helps with manoeuvres. Fast, agile and sometimes a bit masochistic. bowman, pitman Pitman (the pivot): Is the lynchpin at the centre of every operation. Choreographs the manoeuvres, controls the staylards lines and coordinates between the drivers and the bow team. podigač, pitman, pivot, boat captain Boat captain (the repairman): Makes sure the boat is in optimum condition throughout the race and manages maintenance and repairs onboard. Usually from an engineering background. mehaničar, watch leader Watch leader (the motivator): Is responsible for one “watch” – a group of sailors working together on deck. Makes sure that the right people are doing the right job at the right time. voda jedrilice, onboard reporter Onboard reporter (the storyteller): Captures and delivers the stories and action while at sea. Not allowed under any circumstance to take any part in sailing. reporter, brodski kroničar
crew quarters /'kruː,ˈkw əːtə/ (n) (nav arch) nastambe posade
crew's quarters (n) (nav arch) nastambe za posadu, prostor za posadu, kabine za posadu
crew's weight (n) (sailing/boating/yachting) težina posade (potrebna za ravanjanje jedrilice)
crew transfer (n) (hum_resources) razvoz posada (iz luka na brodove; brodova u luke, broda na brod), prebacivanje posade (na brod), premještanje posade (na brod)
crew transfer vessel (=CTV) (n) (hum_resources) vessels or boats used to transport wind farm technicians and other personnel out to sites on a daily basis.
crew wellness (n) (mar law) The five dimensions of crew wellness and wellness at sea (Social, Emotional, Physical, Intellectual and Spiritual) are for working seafarers and all factors related (SAFETY4SEA <news@safety4sea.com>) blagostanje posade, blagostanje pomoraca: How is crew wellness implemented onboard? social crew wellness socijalno
criminalisation (n) (mar law) kriminalizacija, krivično optuživanje

criminalisation of seafarers kriminalizacija pomoraca: This case was one of the worst examples of the unjustified criminalisation of seafarers.

crimping (n) (fishing) krimpanje, vezivanje predveza

crinus /ˈkrɪŋəs/ (n) (sailing/boating/yachting) = lacing eye očica jedra, plastična ili metalna očica ušivena u jedru reef cringles

Reinforced cringles in the sail designed to hold the reefing lines when reefing the sail. https://www.ypiyachts.com očice jedra (za kraćenje) {It.: brancarella}

criterion /ˈkraɪtəriən/ (n) mjerilo, kriterij {pl. criteria (kraiˈtiəriə)}
crockery /ˈkrɒkəri/ (n) posuđe
crocus cloth (=abrasive cloth) (n) (marine eng) abrazivno platno
crop /ˈkrɒp/ (n) (shipping econ) godišnji urod (žitarica itd.)
cross /ˈkrɒs/ (v) 1 prijeći, prelaziti, presijecati: The Savannah crossed the Atlantic under steam propulsion for part of the voyage, pioneering the way for the British ship Sirius, which crossed the Atlantic entirely under steam in 1838. Their vessel was crossing the tanker bow from starboard to port.

to cross the channel prijeći kanal, ploviti preko kanala: the vessel was crossing the channel before grounding,
cross ahead prelaziti ispred (drugog broda): The OOW sighted a vessel crossing ahead from starboard to port at a very close range. The master decided to make a further alteration of course to starboard in the hope that he could cross ahead of the two vessels and clear the end of the sandbank. A few minutes later the green vessel was observed to be crossing ahead at a range of four cables. Another vessel, which had just left the anchorage areas, was observed crossing ahead of the oil tanker, at a close range. https://gCaptain.com, cross the traffic lane presjeći stazu u plovnom kanalu, cross the traffic lane presijecati plovidbenu stazu, presijecati plovidbeni smjer, cross the traffic separation scheme (TSS)

prijeći zonu odvojene plovidbe, presijecati zonu odvojene plovidbe: A cargo vessel was on a regular service that required her to routinely cross a Traffic Separation Scheme (TSS).

; 2 križati se (o kursovima)
cross bar (n) (nav arch) greda, nosač
cross beam (n) (sailing/boating/yachting) sponja katamarana
cross bearings (n) (navig) križane crte azimuta, linija azimuta koje se presijecaju cross bearings position pozicija dobivena presijecanjem dviju crta azimuta, pozicija opažanjem dva ili više objekata
cross-channel service (n) (shipping econ) plovidba preko kanala: The ship was cleared to continue her cross-channel service.
cross-check (v) (navig) višestruko provjeriti, provjeriti na više načina: The ship’s position should be monitored and cross-checked using more than just one method, and the track projected ahead to ensure detection of any possible dangers.

Cross Clot Space Charter Party (n) (shipping econ) Ugovor o međusobnoj razmjeni dijela brodskog prostora
**cross-docking** *(n) (logist)* This is the transhipment of goods at various points in the delivery chain. The term cross-docking relates to the physical receipt of goods and their immediate transit to the next phase in the delivery chain, without interim storage.

https://www.logisticsglossary.com/term/cross-docking/

**preuzimanje radi izravnog prijevoza kontejnera (do odredišta):** For example **cross-docking** refers to cargo that is directly loaded/discharged out of the container into the truck (or vice versa) to be shipped to the final destination. https://www.logisticsglossary.com/letter/?letter=c

**crosshead** /ˈkrɔsˌhed/ *(marine eng)* **crosshead bearing** ležaj križne glave: erm

Performance and reliability tests were also conducted, and the first installation made on a large two-stroke engine to measure **cross-head-bearing** temperatures. **križna glava, Italian:** testa a croce:
The designs of the crankshaft, **cross-head**, bearings and exhaust valve actuating gear are, in the main, similar to the components introduced with the K-GF series.

https://www.quora.com/What-is-the-purpose-of-a-cross-head-in-engines {It.: testa a croce}

**crosshead engine** *(n) (marine eng)* **motor s križnom glavom**
crossing (n) 1 (navig) prijelaz (poprijeko, npr. kanala, plovnog puta): A passenger ferry, on a southerly heading in daylight and good visibility, was crossing a TSS. A small taxi boat with two passengers on board was crossing a navigation channel in dense fog.; 2 (navig, mar law) presijecanje crossing situation križanje kursova (u Pravilima o izbjegavanju sudara): The red vessel, being a stand-on vessel in a crossing situation, failed to comply with Rule 17 (Action by stand-on vessel) of the COLREGS but [reduced speed and] altered course to port to avoid collision ... both vessels were now heading in the same direction when the other vessel again altered to port and created a crossing situation, crossing vessel 1 brod koji presijeca kurs (drugom brodu): The crossing vessel came into close quarters situation with a group of ships ahead and then steered a course of 1700T towards the 2CZ buoy. The OOW noted the crossing vessel’s name on the AIS and attempted to alert the crossing vessel on the VHF about the impending danger, without success.; 2 brod koji plovi prijeko kanala crossing courses (n) (navig) križani kursovi, ukrižani kursovi crossing situation (n) (navig) when two vessels approach each other and their paths are crossing.

crossover /ˈkrosˌəʊvər/ (n) (cargo handling) prebacivanje (s jedne strane na drugu), prebacivanje s jednog cjevovoda na drugi manifold crossovers 1
prebacivanje s jedne ventilske jedinice na drugu; 2 prespajanje s jednog manifolda na drugi; 3: All crossover must remain isolated to each other.

crossover valve ventil za prespajanje: However, the cross-over valve connecting the ballast and bilge systems was left open.

cross sea (n) (oceanogr) = confused sea a sea phenomenon appearing when two wave systems cross each other at nearly perpendicular angles križano more, bibavica, mareta

cross sea (n) (oceanogr) ukrižano more, Italian: onde incrociate

cross-section (n) poprečni presjek

cross-sectional area (n) (marine eng) površina poprečnog presjeka: Due to the number of containers the vessel was carrying on deck, her cross sectional area at the time of the accident was 6,750 m², which in a wind speed of 15m/sec equated to a force of approximately 120t acting on the vessel.

cross tie /ˈkrɔs, tɛi/ (n) (nav arch) prečka

cross track error (=XTE) (n) (sailing/boating/yachting) greška bočnog otpadanja od kursa: After the turn, the vessel slowly diverged from her planned track and, eventually, the GPS alarm sounded as she strayed outside of the 2 cable cross track error (XTE) margin.

cross track measure a boat’s or ship’s distance from the intended track udaljenost od
Cross trade: The remote transport of goods, when they are neither transported to one country, nor dispatched from that same country. 

Cross-trade (shipping econ) slobodna plovidba, tramperska plovidba, slobodno (brodarsko) tržište, otvoreno tržište (brodovima trećih zemalja)

Cross tree (n) (nav arch, sailing vessels) either of a pair of wooden or metal braces on the head of a mast to support the topmast, etc okov vrha jarbola, krožeta,

Italian: crocetta

Crosswind (n) (meteorol) poprječni vjetar

Crosswise (n) crosswise tightening unakrsno stezanje (vijaka)

Crow bar /'krou ,ba/ (cargo) željezna poluga s ojačanim račvastim dnom za podizanje jedne strane teških komada tereta od dna čelična poluga - podigač, pralica, štrangulin,
čuskija, pajs, praseća noga: Dockers working in the ship's holds also use pinch or crowbars for moving heavy packages, and hand hooks for manoeuvring packages into position.

crowded anchoring position (adj) (navy) an anchorage area with too many ships anchored

Prezauzeto (sidrište): the Master found the intended anchoring position to be also crowded with
nearly 4 vessels being too close and encountered with rough sea, wave and poor visibility.

crown /kraʊn/ (n) (seamanship) COMPARE anchor kruna sidra
crown gear (n) (marine eng) zupčanik s nazubljenom krunom
crown shackle (n) (nav arch, seamanship) škopac na kruni / čelu sidra
crow’s nest /ˈkraʊz, nest/ (n) (nav arch) COMPARE bird’s nest A lookout station attached to or near the head of a mast. https://officerofthewatch.com/tools/maritime-dictionary/ koš za

CRS (n) (comm, safety) a maritime radio station situated on shore which monitors radio distress frequencies, coordinate the radio traffic and relays ship-to-ship and ship-to-land communications. Some of CRSs are categorised as MRCCs or MRSCs or NAVTEX CRSs. (https://www.egmdss.com) obalna radiopostaja, obalna radiostanica

crucifix /ˈkruːsɪfɪks/ (n) (nav arch) križasti stup

crude oil /ˈkruːd/ (n) (cargo) unrefined oil; bilo kakva tekuća mješavina ugljikovodika koja se u prirodi nalazi u zemljinoj korii, obrađena ili neobrađena u oblik pogodan za transport (Pravila za statutarnu certifikaciju pomorskih brodova, Opći propisi) sirova nafta, neprerađena nafta: The movement of liquid bulk cargo, crude oil and derivatives, from the tanker is undertaken by means of pipelines connected to the shore-based storage tanks. crude oil cargo teret sirove naftе: Recently one of our tankers discharged an excess of nearly 150,000 barrels (bbls) of crude oil cargo., ultra-light crude oil ultralaka sirova nafta: The tanker was carrying 136,000 tonnes of ultra-light crude oil which generates a toxic underwater slick that would be invisible from the surface.
crude oil carrier (=crude oil tanker) (n) (nav arch) tanker za naftu: A tanker for the
Crude Oil Washing

A method of cleaning tanks using oil from the ship's cargo. COW is normally used when a tanker is discharging. Oil is taken from the tanks and pumped through a special line to fixed or semi-fixed tank washing machines where it is sprayed against all inside surfaces of the tank. This procedure removes any cargo which is 'clinging' to the surfaces of the tank. (www.euronav.com)

Cruise (v) (sailing/boating/yachting) to sail to and fro over a particular area. The vessel can cruise at a speed up to 23 knots.

Cruise industry (n) (shipping econ) gospodarstvo brodova za kružna putovanja: The cruise industry has been among the worst hit by the pandemic.

Cruise line (n) (shipping econ) brodar za kružna putovanja: Almost all cruise lines offer an Internet Café complete with pay-as-you-use options for guests to stay connected. ... two important agreements were made: with the US group Carnival Corporation for the construction of two cruise ships for the Holland America Line and Carnival Cruise Lines, and with Viking Ocean Cruises for another two cruise ships. Cruise line sailing kružno putovanje, kružni servis: In July, the port signed a new fiveyear agreement with Carnival, keeping the world's biggest cruise line sailing at least two vessels from the city year-round through 2019, cruise line service kružna plovidba, kružni servis

Cruise liner A cruise ship or cruise liner is a passenger ship used for pleasure voyages, where the voyage itself and the ship's amenities are a part of the experience, as well as the different destinations along the way.

Cruise operator (n) (shipping econ) brodar za kružna putovanja: Fun, luxury, experiences — that's what cruise operators sell, and by all accounts, it is selling well.

Cruise passenger (n) (shipping econ) putnik na brodu za kružna putovanja, putnik na kružnom putovanju: In 2014, Port of New Orleans terminals handled more than one million cruise passengers, based on embarkations and www.maritimeprofessional.com.

Cruise port /kruːz/ luka za kružna putovanja: Dubrovnik is Croatia's premier cruise port.
Southampton is the UK’s premier cruise port, handling almost half a million passengers.

**cruiser** /ˈkruːzə/ (nav arch) = cruise ship brod za kružna putovanja, kruzer,

https://www.cruisecompetet.com/ships/carnival_magic_cruise_ship.html

**cruiser** /ˈkruːzə/ (n) (sailing/boating/yachting) = cruise ship krstaš

**cruiser** /ˈkruːzə/ (n) (navy) A high speed vessel designed to keep at sea for extended periods and in which protection against gun fire is subordinated to speed and long radius of action. Used largely for scouting and convoy work. (https://www.history.navy.mil/) **krstarica**: Light cruisers and heavy **cruisers** are so designated in accordance with the calibre of the guns carried.

(https://www.history.navy.mil/) light **cruiser** lagana **krstarica**, heavy **cruiser** teška **krstarica**

**cruiser clothing** (n) (sailing/boating/yachting) odjeća za kružarenje

**cruiser fittings** (n) (sailing/boating/yachting) oprema krstaša

**cruiser stern** /ˈkruːz/ 1 (nav arch) krstarička krma; 2 (sailing/boating/yachting) krstaška krma

**cruise ship** /ˈkruːz/ (n) (nav arch) A cruise ship or cruise liner is a passenger ship used for pleasure voyages, where the voyage itself and the ship’s amenities are a part of the experience, as well as the different destinations along the way. brod za kružna putovanja, kročera: A cruise ship in Dubrovnik

**cruise terminal** /ˈkruːz/ (n) (ports) terminal za brodove za kružna putovanja dedicated **cruise terminal** namjenski terminal za brodove za kružna putovanja, expand the **cruise terminal** proširiti terminal za brodove za kružna putovanja: The cruise port operator plans to invest USD50 million across the year to expand the **cruise terminal**. https://splash247.com/

**cruise trade** /ˈkruːz/ (n) (shipping econ) plovidba brodova za kružna putovanja

**cruise trip** (=cruise voyage) (adv) (shipping econ) putovanje broda za kružna putovanja, putovanje putničkog kružera: Carnival Corp said on Monday it planned to resume some of its **cruise trips** from North America in August as it tries to recover from the coronavirus pandemic, which has brought the industry to a virtual standstill. https://gCaptain.com

**cruising** /ˈkruːzɪŋ/ (n) (sailing/boating/yachting) a journey by sea, especially as a holiday/vacation or recreation **krstarenje**: The vessel’s autonomous **cruising capability** ensure she is globally capable and able to tackle challenging, far-reaching itineraries

**cruising power** (n) (nav arch) brzina krstarenja

**cruising range** (n) (navig) maksimalna udaljenost u morskim miljama koju brod može ostvariti do ponovnog krcanja goriva doseg plovidbe, doplov, autonomija broda,
The ship has a cruising speed of 22 knots.

Cruising yachts, also known as pleasure yachts, are private or government-owned vessels that are solely used for ferrying passengers or for conducting cruises. Practical Sailor

As the deck ratings struggled to lift the pilot onto the ship, the angle between the two vessels changed, crushing the pilot's leg between them.

The cryogenic temperature range has been defined as from −150 °C (−238 °F) to to absolute zero (−273 °C or −460 °F), the temperature at which molecular motion comes as close as theoretically possible to ceasing completely.

The cryogenic pump is a high-pressure reciprocating pump with three cylinders actuated by linear hydraulic pistons. (www.man-es.com)
cubbies (n) (sailing/boating/yachting) lokeri za hranu i osobne stvari

cube root /ˈkjʊːb,ruːt/ (n) (math) treći korej

cubic capacity (n) (nav arch) The inside measurement of a tanker’s cargo compartments or tanks, usually expressed in barrels or cubic feet/meters. (www.euronav.com) kubična zapremnina, zapremnina u kubičnim mjerima, korisna prostornost, kapacitet give added cubic capacity povećati kubičnu zapremninu
cubic foot (n) (math) kubična stopa {≈0,028317 kub. metara}

customs declaration (n) (mar law) carinska prijava
customs duties (=custom duty) (n) (mar law, logist) = duty Customs duties or import duties are taxes imposed by countries to protect their domestic markets against foreign products. They serve as a trade restriction to provide domestic products with a head start. Import duties on goods are levied on the basis of the statistics code, the country of origin and statistical value or, in case of some agricultural products, per unit (of weight). https://www.logisticsglossary.com/term/customs-duties/
carinske pristojbe
Customs entry (n) (mar law) declaration on incoming foreign goods carinska prijava, carinska deklaracija
customs entry (n) (mar law) a declaration of the kind, amount, and value of goods being taken in or out of a country, for purposes of customs clearance (https://www.flexport.com/) carinska prijava, carinska deklaracija
customs exam (n) carinski pregled: A Customs exam is either an X-ray, Tail Gate, or Intensive exam. (https://www.flexport.com/)
Customs Inward Clearance (n) (logist) Declaring incoming goods to customs for import purposes and releasing these for free circulation.
Cut off Time (=date draft) (n) (logist, mar law) = closing date

**Carinski pregled robe u uvozu (iskrcaju)**
customs officer carinski službenik
customs regulations (n) (mar law, sailing/boating/yachting) carinski propisi
cut (n) (med, safety) posjekotina
cut (n) (sailing vessels, nav arch) = recess rebreni utor

**Cut and Run** (n) (logist, mar law) Odluka o prekidu trgovačkih operacija u luci u određeno vrijeme, neovisno o tome da se planirana količina tereta neće iskrčati ili ukrcati (i da će tom odlučkom planirani kontejneri za iskrcaj ostati na brodu (short landed) i planirani kontejneri za ukrcaj ostati u luci (short shipped). (J. Karmelić, personal information; If the vessel is horribly behind schedule it may have to do what is known in the shipping business as a “cut and run.” This means that even though unloading operations have not been completed, the vessel must go in order to make later legs in its schedule.

**trgovačkih operacija u luci** (This term is the shortened form of the earlier phrases 'cut and run away' and 'cut and run off'. (https://www.phrases.org.uk/meanings/cut-and-run.html))

cut and run (v) (seamanship) prerezati konope, ispustiti lance i žurno isploviti (u opasnosti)
cutless bearing (n) (sailing/boating/yachting) The cutless bearing supports the propeller shaft of your vessel while allowing it to turn freely without damage (www.practical-sailor.com) osovinski ežaj (brodice) sa žljebovima (radi hlađenja):

https://www.followingseas.media/blog/2017/1/30/name-that-bearing-1

**cut off** isključiti, obustaviti dovod (goriva, vode, struje): The switch was intended to cut off power to the winch when the davit closed to within approximately 12mm of the sensor. This handle was quickly re-fitted to the valve spindle and the valve was repositioned, with a result that the hydraulic pressure was cut off, causing the brake to activate. The ship speed was reduced and power supply cut off to Decks 3 and 4.

**Cut off Time** (=date draft) (n) (logist, mar law) = closing date

**gating in** The latest time a container may be delivered to a terminal for loading to a scheduled train or ship. Cargo refused shipment because it arrived after the closing date is 'shut-out.'
(https://www.msc.com/shipping-glossary); The last date or time at which export cargo will be received for a particular vessel or aircraft.; The latest time cargo may be delivered to a terminal for loading to a scheduled train or ship.
cutout (adj) 1 a udubljen, izdubljen, urezan; 2 nazupčan cut out isključiti, prekidati cut out (v) cut out the fuel supply prekinuti dovod goriva, isključiti dobavu goriva prekinuti, isključiti: the alternators were cut out cut-out (n) 1 (nav arch) prolaz za ukrepe: the free edges (cut surfaces) of cut-outs, hatch corners etc. should be free from notches and must be properly prepared. https://www.marineinsight.com/naval-architecture; 2 (nav arch) otvor izrezan u limu cut&run (=cut and run) (v) (logist) SEE cargo rollover SEE short shipped cargo situacija kada brod zaostaje u svojem plovidbenom redu (schedule) i operativa treba “dovesti brod na schedule”. Te mjere dovođenja broda u vremenski okvir plovidbenog redu su “recovery measures”, a među njima je često CUT&RUN. To znači da se donosi odluka da brod u određenom trenutku prekida trgovačke operacije u luci, te određeni teret ostaje na obali neurcana. To dovodi do preusmjerenja bukiranog tereta na drugi raspoloživi brod (=cargo rollover). U tim slučajevima teret ostaje neurcavan i mora se pre-bukirati na sljedeći brod. (personal information: Jakov Karmelić 2021); terminate discharge/loading operations before all the boxes have been discharged or loaded in order to maintain schedule.. This delay could be due to slow port operations, delays due to weather etc..
zarestajanje broda u njegovu plovidbenom redu, ranije završiti operacije iskrcaja/ukrcaja tereta (uslijed zaostajanja broda u njegovu plovidbenom redu): The vessel is behind schedule and has to cut and run.
cutter/ /ˈkʌtər/ (US) (nav arch) peljarski brod, peljarska brodica, pilotina: The pilot then advised the master that he was disembarking into the pilot cutter, and that the master should put the engine to full ahead, and aim for the red buoy marking the south side of the entrance to the channel as soon This was seen by the pilot following in the cutter astern, and he immediately repeated his previous advice to the master via VHF radio. pilot cutter peljarska brodica: Another inward vessel came up astern of me and asked the pilot cutter if he should slot in behind me or continue towards the cutter, he was advised to do the latter
cutter/ /ˈkʌtər/ (n) jedrilica s jednim jarbolom, glavnim jedrom i dvije prečke, koja služi uglavnom za kružna putovanja i razonodu.; The cutter rig sailboat has two jibs, the foremost one usually a high-cut yankee set on the forestay and the other a staysail set on an inner forestay.
(https://www.sailboat-cruising.com/cutter-rig-sailboat.html) jedrilica-krstaš, krstaš,
kuter; koter: Admittedly a cutter rigged sailboat is not quite as efficient to windward as a sloop rigged version, but its other benefits outweigh this small mark against it.
(https://www.sailboat-cruising.com/cutter-rig-sailboat.html) There are two variants of the cutter rig: (a) with bowsprit and (b) with no bowsprit. Tacking a Cutter Rig Sailboat is slightly more complicated than with a sloop as you’ve got two headsails and an extra pair of sheets to deal with when going about.
cutter /ˈkʌtə/ (n) (marine eng) rezalica, freza

In the 18th century, the term CUTTER was used for any vessel in Great Britain’s Royal Customs Service, and when the US Coast Guard was established in 1790 (then called the US Revenue Cutter Service) they adopted the same term for their vessel. Today, all vessels in the Coast Guard fleet 65 feet and longer are called cutters.

A cutter was deployed to the scene to attempt a tow, however conditions were rough and the initial attempt was not successful. The U.S. Coast Guard’s first national security cutter took to the sea on Friday, operating in concert with the service’s new maritime patrol aircraft, the Ocean Sentry HC-144, and a newly re-engined HC-65 helicopter.

damage stability (=damaged stability) (n) (nav arch, stabil) COMPARE intact stability This type of stability concerns with stability of the ship when it is damaged, usually hull is breached. It includes of flooding of ship compartments when hull is damaged leading to sinkage of the ship below margin line or even total sinkage or capsiz of the ship.
(https://lshipdesign.blogspot.com/2016/11/briefly-explo.png) stabilitet broda u oštećenome stanju: The study of damaged stability of a surface ship comes of use when the ship's watertight hull is affected in a way that allows water to flood any compartment within the ship’s hull. Since this changes the stability parameters of the ship, the extent of which depends on the extent of damage and flooding, it is studied separately from intact stability. https://www.marineinsight.com/naval-architecture/ship-stability-damaged-stability-ships/ the IBC/BCH Code is amended by Res. MSC.369(93) and the IGC Code is amended by Res. MSC.370(93) requiring tankers to be fitted with an approved stability instrument capable of handling both intact and damage stability cases http://www.amc.gr/amcLoadingSoftware.htm The careful positioning the bulkheads allows the ship to fulfill the damage stability criteria. A direct damage stability loading instrument provides a solution that will make it easy to demonstrate compliance with the damage stability requirements to the Port State a source>MaritimeReporter-2015-12</source></sentence></tlCorpus> Typically the vessel’s GM-limits for damage stability are adjusted so that “A”=”R” Typically the vessel’s GM-limits for
damage stability are adjusted so that “A” = “R”. In this case, the master of the bunker barge pumped water into the vessel without understanding the effect on the damaged stability.

**effects of damage stability**

- posljedice promjene stabiliteta broda u oštećenom stanju: Effects of flooding on a ship: Change of Draft; Change of Trim; Heeling; Change in Stability
- damaged stability,
- damage stability booklet
- knjižica stabilnosti broda u oštećenom stanju: As per today’s requirements from some IACS members it is not enough just to enter the predefined damage cases that are presented in the vessel’s damage stability booklet. Therefore the loading computer has been extended to include damage cases that incorporate a complete survey of the intact condition in accordance with MARPOL, IBC or IGC.

**damage stability calculation**

- izračun stabiliteta broda u oštećenom stanju: Permeability is the ratio of maximum flooded water (in damaged condition) volume to the space volume. It is used in damage stability calculations.

**damage stability verification instrument**

- instrument za provjeru stabilnosti broda u oštećenom stanju: IMO has adopted guidelines and applicable IMO Code amendments for the mandatory carriage of damage stability verification instruments onboard new and existing tankers.

**damage stability requirements**

- zahtjevi za određivanje stabilnosti broda u oštećenom stanju: ... approved range of loading conditions; and existing tankers (are) provided with approved limiting KG/GM curves covering all applicable intact and damage stability requirements.

**damage survey of the ship**

- pregled broda poslije havarije: After re-floating, the damage survey showed the vessel had sustained damage to its bottom plating in way of the forepeak and ballast tanks 1, 2, and 3.

**damp**

- (adj) vlažan: Two packages were wet / damp / mouldy.

**damper**

- (n) 1 (marine eng) zaklopka, zasun
- control damper
- regulacijska zaklopka, upravljačka zaklopka; 2 amortizator: An appropriate axial damper is fitted to all MC engines to minimize the effects of the axial vibrations.
- 3 (marine eng) prigušivač

**damping effect**

- (n) (marine eng) prigušni učin, utjecaj prigušenja

**damping tank**

- (n) (marine eng) prigušni tank: It was also found that the fuel compensation damping tank was empty and that the drain valves of the diesel oil service tanks were blanked.

**dampness**

- (n) (meteorol) vlažnost (zraka)

**damsel fish**

- (=Mediterranean chromis) (n) (fishing) crnelj, kaliger, čančol,
**danger** /ˈdeindʒə/ (n) (safety) opasnost, pogibelj: He determined that the vessel was stable and not in danger of sinking. The OOW realised that the ferry was heading into danger, and alerted the master. Later in the evening he assessed that the weather no longer posed an immediate danger to the ship.

**immediate danger** neposredna opasnost: There is no immediate danger to our passengers or the ship and there is no reason to be alarmed.

**high danger** velika šteta, danger area opasno područje, područje opasnosti: The ship was then navigated clear of the danger area, allowing her to berth safely soon afterwards.

**pose a danger** 1 predstavljati opasnost: Later in the evening he assessed that the weather no longer posed an immediate danger to...
dangerous and hazardous cargo

The ship; to srljati u opasnost, avoid danger izbjeći opasnost: the Colregs require all vessels to 'avoid entering a separation zone' unless it is necessary to avoid immediate danger.

imminent danger neizbježna opasnost: At about the same time, the outbound pilot boat identified the vessel on radar, realised that she was in imminent danger of grounding, and called on VHF to warn the master.

run into danger ući u opasnost, srljati u opasnost, ići ususret opasnosti: You are running into danger. Shallow water to the south of your vessel.

potential danger potencijalna opasnost: moguća opasnost All forms of cracks are a potential danger and are totally unacceptable.

be aware of the danger biti svjestan opasnosti, shvatiti opasnost: The master must be aware of the danger in the port named and exercise his right of proceeding to the nearest safe port.

head into danger srljati u opasnost, ploviti prema opasnosti: Watchkeepers ashore noticed that the vessel was heading into danger, and made verbal warnings.

dangerous cargo (=D&H cargo) (n) (cargo handling, cargo)

opasan teret
dangerous cargo (n) (cargo) opasni teret: The ship was displaying navigation lights appropriate to its length and a local signal, a flashing red light at the masthead, to indicate it was carrying a dangerous cargo. A specialist cargo ship was in port loading a dangerous cargo.

dangerous course /ˈdeindʒərəs/ (n) (navig) opasan kurs: You are steering a dangerous course.

dangerous goods (n) (cargo) goods are considered dangerous if the transport of such goods might cause harm, risk, peril, or other evil to people, environment, equipment or any property whatsoever (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp)

opasni tereti: aying navigation lights appropriate to its length and a local signal, a flashing red light at the masthead, to indicate it was carrying a dangerous cargo. In this case the container must be treated as dangerous goods and should be marked properly and stowed in accordance with the IMDG Code.

dangerous goods declaration Document issued by a consignor in accordance with applicable conventions or regulations, describing hazardous goods or materials for transport purposes, and stating that the latter have been packed and labelled in accordance with the provisions of the relevant conventions or regulations (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp)

opasnih tereta na brodu, izjava o opasnim teretima na brodu

Dangerous Goods Certificate (n) (safety, cargo handling) Svjedodžba o prijevozu opasnih tereta: Those responsible for the packing of dangerous goods into a freight container or vehicle should provide a signed dangerous goods container or vehicle packing certificate, stating that the provisions of paragraph 5.4 of the IMDG Code have been met, and the original or a copy should be handed over to the vessel operator.

Dangerous Goods Declaration (n) (mar law) Document issued by a consignor in accordance with applicable conventions or regulations, describing hazardous goods or materials for transport purposes, and stating that the latter have been packed and labelled in accordance with the provisions of the relevant conventions or regulations (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp)

Deklaracija o opasnim teretima na brodu, Izjava o opasnim teretima na brodu: The shipper of dangerous goods should provide a dangerous goods declaration embodying the relevant details listed in section 9 of the general introduction to the IMDG Code and the original or a copy should be placed aboard the ship. This is a signed certificate or declaration that the consignment, as offered for carriage, is properly packaged, marked, labeled or placarded as appropriate and in proper condition for carriage...
Dangerous Goods Declaration (DGD) (logist, mar law) Hazardous Goods Declaration must be issued by the shipping company in accordance with the IMDG regulations.

Prijava opasnih tereta, deklariranje opasnih tereta: Based on these details of DGD, the shipping company will determine whether the goods can be accepted for transport. If this information is not given in time or if it is incorrect, the shipping company may refuse the cargo. https://www.logisticsglossary.com/term/dgd/

Dangerous Goods Manifest (mar law) Manifest opasnih tereta na brodu: The Dangerous Goods Manifest lists the weight, quantity, packaging, class and stowage of all hazardous cargo on the vessel. It is compiled by the agent and signed by the Master.

Dangerous Goods Packing Certificate (cargo handling, cargo) A document as part of the dangerous goods declaration in which the responsible party declares that the cargo has been stowed in accordance with the rules in a clean container in compliance with the IMDG regulations and properly secured (http://www.iss-shipping.com/cargo/cargo_library_glossaryd.asp)

Svjedodžba o pakovanju opasnih tereta

dangerous obstruction (navig) opasna prepreka, opasna zapreka, opasna smetnja: A safer option would have been to leave far more sea room before altering course, and carefully monitoring their position as they sailed around a dangerous obstruction.

dangerous quadrant (navig) opasan kvadrant

dangerous situation (safety) opasno stanje, opasna situacija: Besides taking care to control the heating of fuel oil tanks, the recommendations of the IMSBC Code must be strictly followed to prevent a dangerous situation from developing as well as to avoid cargo damage.

dangerous substances (cargo, safety) opasne tvari: Brief all crew members / passengers on the symptoms caused by dangerous substances.

dangerous target (navig) opasna jeka (na radarskom ekranu)

danger zone (navig) zona izbjegavanja, zona uklanjanja s puta (drugim brodovima): We held a special safety drill prior to entering the danger zone.

debris /ˈdəbrɪs; ˈdebri/ (n) (safety) ostatci (od eksplozije nesreće): All of a sudden, the aft turbocharger exploded and debris flew all over the engine room. Dozens of containers were blown overboard in the blast, creating a debris field that was estimated to be five miles around the vessel.

nakon brodoloma: The NTSB launched its investigation into the sinking of the MV … on October 5th after floating debris from the vessel was located by Coast Guard searcher and rescue crews. That day, only the EPIRB and debries were found. The following morning, the liferaft was recovered, inflated but with a severed painter.

debt /dɪt/ (n) (shipping econ, mar law) dug: Lien is the right to hold property until a debt is paid off. Top priority debt means claims for public interests, which are paid first to creditors and include cargo owners’ damages and unpaid charter fees … The court arrest the container vessel over an estimated USD eight million pollution debt. bad debts nenaplativa potraživanja

debtor /ˈdɛtər/ (n) (mar law) ANTONYM creditor dužnik
debunkering (n) (safety) iskrcanje goriva (radi rasterećenja broda): The debunkering of the ship that sunk in may has been completed and all leaks sealed.

decanting /diˈkæntiŋ/ (n) (safety) discharging the slop liquid overboard iskrcanje iz taložnog tanka u more, iskrcanje pročišćenog sadržaja taložnog tanka u more: Decanting of Slop Stbd will be carried out after enough time has been given to slops to settle. Although the decanting line between these tanks should have been drained of naphtha during tank washing, this was overlooked. The owners do not give enough time for decanting which takes about 24/36 hours and express their concern over any time delays.
decarbonisation /di.ˈkærəbnəˌziːʃən/ (n) (environ, marine eng, nav arch)
dekarbonizacija
decarbonize /di.ˈkærəbnəz/ (=decarbonise (UK)) (v) (environ, marine eng)
dekarbonizirati, osloboditi od ugljika
decay /ˈdiːkeɪ/ (n) (cargo) propadanje (tereta), truljenje, gnijiljenje
deceleration /di.ˈsɛlərəˈʃən/ (n) (marine eng) ANTONYM acceleration opposite of
acceleration
usporavanje
deciduous fruits /diˌsidjuəs/ (n) (cargo) voće bjelogoričnih biljaka, listopadno
voće: Optimum transit temperatures for deciduous fruit vary greatly per type and variety, but mostly range between −1 and +4°C. Reefer trade growth was held back due to lower shipments of both deciduous and citrus fruits on the back of extreme weather conditions in Europe and drought in South Africa and Chile, Twitter https://www.drewry.co.uk/
decision odluca make a decision donijeti odluku, odlučiti: Given the tug’s rapidly closing distance to the pipeline gantry, he was conscious of the limited time available in which to make his decision., decision-making donošenje odluka: Fatigue affects a person’s alertness, comprehension, decision making abilities, judgment, awareness of danger and many other capabilities essential to the OOW.
deck (n) (nav arch) the structures or structural parts of a ship forming the approximately horizontal surfaces in the ship’s general structure paluba, koverta (na sjevernom Jadranu), kuverta (u Dalmaciji), Italian:ponte; coperta: Decks are usually designated by their location, as boat deck, bridge deck, upper deck, main deck, etc. on deck na palubi: Once the helicopter winchman was on deck, he discussed the situation with the crew. The lashings of the grab loosened and the grab shifted away from its position on deck., flush deck ravna plauba, paluba bez prepreka, clear deck slobodna paluba, paluba bez prepreka, bridge deck paluba navigacijskog mosta, forecastle deck paluba kaštela, car deck paluba za putničke automobile, vehicle deck paluba za teretna vozila, main deck glavna paluba, poop deck paluba krnice, krmica, paluba kasara, paluba krmnenog nadgrađa, navigating bridge deck paluba zapovjedničkog mosta, boat deck paluba brodica za spašavanje, above deck iznad palube, below deck ispod palube, for on deck carriage teret primljen za prijevoz na palubi, deck Cargo Memo Izjava o palubnom

teretu
https://cruiseline.com/ship/zuiderdam/decks {(abbr.) Dk}
deck beam (n) (nav arch) palubna sponja, katina, žbaj, lata: It was also noted that the hold, in general, was in poor condition with heavy scaling on all surfaces and large wasted holes in the deck beams, especially those adjacent to the former hold bulkhead.
deck boy (n) (mar law) mladič palube, muco, moco: the deck boy standing near the tank entrance entered the hatch to help his colleagues.

dock cadet (≡Trainee Navigational Officer; Nautical Apprentice) (n) (mar law) kadet, vježbenik palube: The Deck Cadet was passing a mooring rope to the tug from the aft winch drum after taking it around a set of bitts and out through the aft centre fairlead.

dock cargo (n) (cargo) the cargo carried on deck rather than stowed under deck. On-deck carriage is required for certain commodities, such as explosives. (https://www.msc.com/shipping-glossary)

cival transport, teret na palubi: The list could not be significantly reduced by adding ballast, so the decision was made to jettison some of the deck cargo. The vessel managed to make her way to a safe anchorage, where the deck cargo could be removed and complete packages eventually re-stowed.

secure deck cargo for sea pričvrstiti palubni teret za režim plovidbe

dock centre girder podveza, bočni nosač palube

dock crane (n) (nav arch) palubna dizalica: The C/O and deck crew held a toolbox meeting and prepared the port (weather) side combination ladder first. The bosun, with the assistance of a deck cadet and five seamen, had just completed changing the cargo wire on a dock crane. I was overseeing a bulk carrier self-discharging cargo by dock cranes and grabs.
Simultaneously, the **deck crew** was taking fresh water from a shore connection through tank filling pipes located on the poop deck. As the vessel’s propulsion was going astern in order to stop the vessel the Master reported by VHF radio to the **deck crew** that the vessel was ‘in position’.

**Deck department** *(mar law, seamanship)* **služba palube:** The **deck department** onboard a ship offers a wide range of jobs from ordinary seamen to the captain. Job positions in this department include Captain, Chief Officer, 2nd & 3rd Officers, Boatswain and Seaman. All shipboard personnel and, in particular, the **deck department**, must be advised to report any deficiencies immediately.

**Deck equipment** *(cargo handling)* **palubna oprema, prekrcajna oprema na palubi:** Three container vessels have recently suffered heavy-weather damage to **deck equipment**, bow structure, anchor and containers.

**Deck erection** *(nav arch)* **palubno nadgrađe**

**Deck fittings** *(nav arch)* **pribor (oprema) za vezivanje tereta na palubi:** Several areas of the vessel were damaged, these included the **deck fittings**, hatches and coamings.

**Deck gate** *(nav arch)* **a gate in the main deck railing designed to take the ship’s gangway while**
The investigation also found that the **deck gate opening** was unsuitable to be used as a means of pilot access. www.gov.uk/maib

The sea pilot attempted to board by stepping up and through an **open gate in the railings** onto ship’s main deck www.gov.uk/maib

**deck gear (n)** (*nav arch*) deck machinery, deck fittings, running rigging, and standing rigging.

**deck girder (n)** (*nav arch*) podveza palube, flanged plate **deck girder** nosač paluble s pojasnom trakom

**deckhand /ˈdekˌhænd/ (n) (seamanship, mar law) = seaman** a person whose job involves aiding the deck supervisor in (un)mooring, anchoring, maintenance, and general evolutions on deck.

After a short while the **deck hand** reported that he was unable to close the brake. **efficient deckhand (E.D.H.)** iskusni mornar, stariji mornar

**deckhand 2 (=deck crew members) (n)** persons involved in the operation of a vessel navigating on Union inland waterways carrying out tasks related to navigation, cargo handling, stowage, maintenance or repair, with the exception of persons solely assigned to the operation of the engines, electrical and electronic equipment; (https://eur-lex.europa.eu/resource.html?član

**deck hatch** 1 palubni otvor; 2 poklopac palubnog otvora, **bokaporta**;

**bukaporta** deck **deck hatch** poklopac palubnog otvora: The planks were bound and stacked in three tiers on top of the **deck hatch covers**.

**deckhead (n)** (*sailing/boating/yachting*) The underside of the deck, viewed from below (the ceiling.)

**https://www.ypiyachts.com** pregrada, strop potpalublja, strop palube: A ro-ro ferry was fitted with moveable car decks which could be raised to a stowage position at the **deck head**, or lowered for use.

**deck height (n)** (*nav arch*) the vertical distance between the moulded lines of two adjacent decks

**deck-hook (n)** (*sailing vessels*) **zoja** (*it.*: gola prodiera di coperta)

**deckhouse (n)** (*nav arch*) an enclosed structure built on the ship’s upper or main deck **palubna kućica, Italian:** **tuga:** A deckhouse is commonly composed of spaces that are used for crew accommodations and control of the ship (bridge, radio room, etc.) **poop deckhouse** **krmena**

**kućica:** kućica na krmici

**deck lashings (n)** (*cargo handling*) palubna oprema za učvršćivanje (tereta), **palubne rice:** *Deck lashings* were removed and crew stood by to remove the support trestle at the front of the trailer.
deck leak (n) (sailing/boating/yachting, nav arch) propuštanje na palubi, propuštanje palube
deck level (n) (seamanship) razina palube: Before I reached the deck level I noticed that below the top step one rope was partly torn off.
decklight (n) (nav arch, seamanship) = deadlight špiraj svjetlnik
deck lighting (n) (nav arch) palubna rasvjeta, rasvjeta palube: It took a while before I could clearly distinguish the towing lights, due to the bright deck lighting of the tug.
deck lights (n) (navig) palubna svjetla, radna svjetla na palubi: The weather and sea conditions were good, but it was dark, so navigation lights and aft deck lights were switched on.
deck line (n) (nav arch) linija palube, oznaka palube
deck load (n) (cargo handling) teret na palubi: A general cargo/container vessel was on passage in heavy weather with a full deck load of containers.
deck log (n) (navig) A full nautical record of a ship’s voyage, written up at the end of each watch by the deck officer on watch. The principle entries are: course steered; distance run; compass variations, sea and weather conditions; ship’s positions, principal headlands passed; names of lookouts, and any unusual happenings such as fire, collision, and the like. (www.euronav.com) dnevnik palube
Deck Logbook (=deck log) (n) 1 (navig, seamanship) This log is the legal record of the passage. Dnevnik palube: In any event, the officer having the conn must be clearly indicated in the ship’s deck log at all times. The deck log combined with the bearing log should constitute a complete record of the passage. At the time of the collision, the container ship’s OOW was at the chart table completing the hourly entries into the deck log. In deck log book all the entries regarding navigation and charts are mentioned. As everything was quiet, the master took the opportunity to inspect the deck logbook and found that the entries were incomplete. ; 2 (cargo handling) Dnevnik ukrcaja tereta na palubu: Cargo Lashing Deck Log
deck machinery (n) (marine eng, nav arch) All sorts of machinery which is located on various decks of a ship used for mooring, anchoring etc., such as windlasses, winches etc. palubni strojevji: The steam supply to the deck machinery was shut down and the Master informed of the situation ... the insulation readings returned to normal and power supply was restored to the deck machinery.
deck officer = mate časnik palube, oficir palube: Deck Officers maintain watches on the bridge at sea and about the ship in port. They are responsible for passage planning, the safe navigation of the ship, cargo loading and discharge, ship stability, communications and the maintenance of the hull and deck equipment. The duty deck officer flashed the Aldis lamp five times in the direction of the overtaking ship – but no response. deck officer trainee student nautike: At the conclusion of the initial training the successful trainee will have attained: HNC/HND, Foundation Degree or Honours Degree in Marine Operations. (eg. in UK, Ireland)
deck party (n) (seamanship, safety) palubna skupina (za izvanredna stanja), plaubna grupa: A deck party was assembled and they donned lifejackets and attached themselves to a previously rigged safety line. The Master was quick with his order to put rudder hard to port and to order the deck party to deploy a lifeflour.
deck plank (n) (sailing vessels, nav arch, sailing/boating/yachting) platica palube
deck planking (n) (nav arch) wood sheathing or covering on a deck oplata palube
drvenog broda
deck plate (n) 1 (nav arch) palubni lim, lim palube: The poop deck plate buckled in way of sheared Panama fairlead. ; 2 (sailing/boating/yachting) a metal or GRP plate fitting on the deck that
can be opened to take on fuel or water  
**deck plating** (n) (nav arch) steel plating of a deck  
**oplata palube:** The fairlead detached from the **deck plating.** Whilst this was being heaved tight the complete structure of the Old Man suddenly broke away from the **deck plating.**

**deck railings** (n) (nav arch) **ograda palube:** Once clear of the upper **deck railings,** the load on the crane hook continued to swing dangerously and was impacting heavily on fittings around the manifold area.

**deck rating** (n) (seamanship) a member of deck rating staff  
**mornar palube, član posade palube:** At one point, the chief officer and another **deck rating** lost sight of the two crew detailed to remove the tarpaulins.

**deck ratings staff** The Deck Ratings Staff includes: Bosun (head of the rating staff); Welder/Fitter (this rank onboard renders his services to both the deck as well as the engine department), Able Bodied Seaman (AB), Able Bodied Seaman (AB), Trainee OS (https://safety4sea.com/)  
**članovi posade palube**

**deck scuppers** (n) (nav arch) **palubne izljevnice, manikele:** All **deck scuppers** were to be sealed and sawdust or other absorbent material provided. Although **deck scupper plugs** could have contained the overflow, prevailing rain made oil spill over the shipside.

**deck scuttle** (n) (nav arch) **palubno okno, palubni otvor, manikela:** In preparation for loading, the fish room hatch and a **deck scuttle** were opened.
decks of sailing warships  
(n) (sailing vessels) palube ratnih jedrenjaka poop deck the highest deck, unarmend, mainly used as accommodation by officers, and by the signalling lieutenant krmena paluba, quarter deck stern deck used for officers’ accommodation (Captain’s cabin etc.); armed with 12 cannons (“12-pounders”, i.e. cannons for ~12 pounds cannon balls ≈5.5 kg) paluba kvartira (krmenog nadgrađa), paluba nastamba (kapetana i časnika), forecastle deck deck on the raised forecastle from where most ship’s sails were controlled; four guns (68-pounder) and short-range cannonades (smashers) paluba kaštela, pramčana paluba, upper gun deck deck open to weather, carrying small boats; armed with 24-pounder guns, 15 on each side; also carrying an admiral’s cabin at the stern gornja topnička paluba, middle deck carried 24-punder guns, 14 on each side; used for crew’s accommodation, galley, dining rooms srednja paluba, lower deck The lowest gun deck; 32 pounder cannons (18 on each side) donja paluba, orlop deck the deck overlapping the hold; used for storage; the ship’s purser and carpenter najniža paluba, hold the deck at the very bottom of the ship; used for storage; provisions (food, drinks); cannonballs, pare ropes, sails and repair materials skladište, štiva (Source: http://www.thepirateking.com/ships/manofwar.htm ((Anatomy of an English Man of War))

deck stack  
(n) (cargo handling) red kontejnera na palubi: Deck stack collapses often occur in those bays where the stack weight was exceeded. https://safety4sea.com/

deck-stanchion  
(n) (nav arch, sailing vessels) upora glavne palube
deck stepped mast (n) (nav arch, sailing/boating/yachting) jarbol oslonjen na palubi: The mast of a deck stepped boat is usually easier to raise and lower and are usually intended for lighter conditions than keel stepped boats. https://www.ypiyachts.com
deck store (n) (nav arch) The spare gear and consumable stores provided for the upkeep and safe working of the tanker and her cargo, excluding stores used in engine room. (www.euronav.com)
palubna sprema, palubno spremište

deck strake (n) (nav arch) voj palube
deck stringer (n) (nav arch) a girder and strake of deck plating that runs along the outboard edge of the deck proveza palube
deck transverse (n) (nav arch) okvirna sponja
deck traverse (n) (nav arch) okvirna sponja
deck web (n) (nav arch) okvir palube

declaration (n) 1 (mar law) deklaracija General declaration on Arrival Opća izjava o dolasku broda, Opća prijava dolaska broda: When reporting at the Custom House, inward light dues are paid and GENERAL DECLARATION ON ARRIVAL (or Inward Entry) is completed by the Master or Agent.

General declaration on Departure Opća izjava o odlasku broda, Opća prijava odlaska broda, Hazardous Cargo declaration Prijava opasnog tereta, General declaration of Health Opća zdravstvena izjava, cargo declaration prijava tereta: In addition, a copy of the cargo declaration will need to be provided.

false declaration lažna prijava, neispravna prijava: There are heavy penalties for making a false declaration and the person signing the forms is declaring that the particulars entered or accompanying the forms are true and complete.

Crew declaration Prijava posade, Stores declaration Prijava zaliha; 2 (mar law) izjava

Declaration of Dangerous or Polluting Goods (n) (safety) Deklaracija o opasnim ili onečišćujućim tvarima

Declaration of General Average (n) (mar law, mar ins) proglašenje generalne
declaration of origin  
(n) (mar law, shipping econ) appropriate statement as to the origin of the goods, made in connection with their exportation by the manufacturer, producer, supplier, exporter or other competent person on the commercial invoice or any document relating to goods.

declaration of origin
(n) (mar law, shipping econ) appropriate statement as to the origin of the goods, made in connection with their exportation by the manufacturer, producer, supplier, exporter or other competent person on the commercial invoice or any document relating to goods.

Izjava o porijeklu robe

declaration of security  
(n) (safety, mar law) sporazum između dvađu brodova ili između luke i broda kojim se utvrđuju mjere sigurnosne zaštite koje će primijeniti pojedine stranke
deklaracija o sigurnosnoj zaštiti

declare  
(v) 1 (mar law) izjaviti: I declare to the best of my knowledge, that these cargo details are correct for the cargo carried in ……; 2 (mar law) prijaviti, dati izjavu o: Prior to loading bulk cargo, the shipper should declare characteristics & density of the cargo, stowage factor, angle of repose, amounts and special properties.; 3 (mar law) proglasiti declare a container sound

proglasiti kontejner ispravnim: The statement says that the containers have been declared sound; 4 prijaviti (carinarnici), deklarirati (na carini)
declared value for carriage  
(n) (mar law) The value of the goods, declared by the shipper on a bill of lading, for the purpose of determining a freight rate or the limit of the carrier’s liability.

(https://www.msc.com/shipping-glossary) prijavljena vrijednost tereta za prijeoz
declared weight  
(n) (cargo handling, logist, mar law) deklarirana težina (tereta), prijavljena težina tereta: Reject a container that exceeds the declared weight or is likely to give rise to the permissible stack limits being exceeded. https://safety4sea.com/
declaration  
(n) 1 (navig) The angular distance North or South of the celestial equator measured along a great circle passing through the celestial poles
deklinacija (u astronomskoj navigaciji); 2 (navig) The angle between the compass indication of magnetic north and the closest meridian
deklinacija (na kompasu)
decility  
/diˈklɪvɪti/ (n) 1 (sailing/boating/yachting) nagib jedrilice; 2 (nav arch) inclination of the slipways on which ships are built and down which they slide during their launching
dekomoditizacije (u logistici kontejnerskog transporta)
decommoditization  
(n) (logist) COMPARE commoditisation shifting away from being a shipping line to an end-to-end logistics provider.

dekomoditizacije (u logistici kontejnerskog transporta)
deconsolidation  
(n) (logist) the act of separating out LCL shipments to prepare them for final delivery
deconsolidation point (n) (shipping econ, cargo handling) A point where loose or other non-containerised cargo is ungrouped for delivery. (https://www.msc.com/shipping-glossary)
skladište za dekonsolidaciju tereta (radi isporuke pojedinim primateljima), skladište za pražnjenje kontejnera
dedicated (adj) namijenjen samo za ..., namjenski: The frameworks also meant the use of a dedicated "tipping" winch, emergency stop button could no longer with a remote control. on dedicated reefer ships na brodovima građenim isključivo za hlađene terete, dedicated service a service specially designed for the use by one or more particular customers. strogo namjenske usluge, dedicated lookout posebni motritelj, strogo namijenjen motritelj: The MAIB considers that a dedicated lookout is required during the hours of darkness., dedicated engineer posebni časnik stroja, posebni stroja: This vessel did carry a dedicated engineer, who was able to deal with the flooding.
dedicated berth (n) (mar law, ports) = single-user berth brodarov vez, vez za jednog korisnika, vlastiti vez: A car and foot passenger ferry arrived alongside her dedicated berth during the early hours of the morning.
deduct /diˈdʌkt/ (v) 1 izvesti, zaključiti; 2 oduzeti, odbiti: If the shipowner wrongly and in breach of contract deprives the charterer for a time of the use of the vessel, the charterer can deduct a sum equivalent to the hire for the time so lost.
deduction /diˈdʌkʃən/ (n) (mar law) odbitak (od plaće) deductions from the wage odbici od plaće: The only deductions from such wages shall be proper statutory deductions as recorded in the Special Agreement and ..., statutory deductions zakonski odbici
deem (v) 1 držati, smatrati, misliti: Freight including charges shall be deemed fully earned on receipt of the Goods by the Carrier and shall be paid and non-returnable in any event. By the time the other vessel was a mile off, it was deemed that there was a risk of collision. This Agreement shall be deemed to be terminated in the case of the sale of the Vessel or, if the Vessel becomes a total loss or is declared as a constructive total loss. ... There were no pumps immediately available and it was deemed too dangerous to go on board, so the vessel sank alongside, ending up sitting on the harbour bottom. the risk shall be deemed to exist if ... valja držati da rizik postoji ako ...; 2 suditi; 3 vjerovati: The bridge team on the ferry deemed the fishing vessel to be on the wrong side of the fairway.
deept draft (n) (navig) duboki gaz: As the displaying of the deep draft signal is voluntary (Colreg 28), it was suggested that it should be made mandatory. As we are a deep draft vessel, we have to alter course at the buoy SE of Pyramid Shoal in order to go South (180 degrees). (Said of ships with deep draft and therefore restricted in their ability to manoeuvre)
deept draft channel (n) (navig) plovidbeni kanal za brodove s dubokim gazom: She was tracking well clear of us until, at a mere 8 cables range, she decided to take the deep-draught channel, turned to port and scraped down our port side less than 2 cables off.
deept draft vessel (n) (mar law) = vessel constrained by her draught brod ograničen svojim gazom: Large deep-draught vessels are requested to stay at least 1 nautical mile eastward of the Light Buoy for pilot boarding because of the strength and proximity of Own vessel, a large, deep-draught loaded tanker, was proceeding to anchorage at night under VTS instructions. Deep-draught vessels advised to use the channel between the One Fathom Bank beacons.
depeening low (n) (meteorol) dolina koja se produbljava
depth (n) (marine eng) deblja prirubnica, deblja flanda: Several designs of high output engines have cylinder liners with deep flanges in which a large number of small passages is drilled to carry coolant close to the cylinder bore.

depth frame (n) (nav arch) duboko rebro
depth laden (adj) (seamanship) jako nakran (brod): Vessel Traffic Services (VTS) made several calls to the bulker warning that there was a deep laden VLCC tanker in the eastbound lane and they needed to give it a wide berth.

depth port (n) (shipping econ) luka za koje se tereti krcaju dublje u brodsko skladište kasnija luka ticanja: Thus, cargo for later or deep ports on the voyage has to be loaded first, and that for earlier ports loaded last.

depth sea (n) (oceanogr, mar law) pertaining to offshore ocean areas (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) otvoreno more, područje prekomorske plovidbe deep sea vessel prekoceanski brod, prekomorski brod, brod prekomorske plovidbe: This residual fuel is the heavy fuel oil (HFO) traditionally supplied to ships as bunkers and used in the main engines of most deep-sea and some coastal vessels.

depth-sea navigation = ocean navigation duga plovidba, oceanska plovidba, prekomorska plovidba: During depth sea navigation at full sea speed, with the chief engineer's approval, the Electrician was engaged in isolating each of the four engine room supply fans for routine inspection, mainetnance and operation.

depth sea pilot (n) (navig) peljar za peljarenje na otvorenom moru: The OOW received a call from a depth sea pilot on board a nearby tanker, warning him of a developing close-quarters situation.

depth-sea service (n) (shipping econ) duga plovidba, preko oceanska plovidba, prekomorska plovidba: This practice is on the increase, usually involving the use of containers in deep sea container services.

depth-sea tanker (n) (shipping econ) preko oceanski tanker: Low-speed engines are dominant in the mainstream deep sea tanker, bulk carrier and container ship sectors while medium-speed engines are favoured for smaller cargo ships, ferries, cruise

depth-sea trade (n) (shipping econ) duga plovidba, preko oceanska plovidba, prekomorska plovidba: The largest vessels, which typically are around 80,000 cubic meters, are used in the depth-sea trade, for example from the Arabian Gulf to Japan.

depth-sea tug oceanski tegljač
deep six (idiom) (seamanship) to throw an article overboard bacati stvari u more
deep tank (n) (nav arch) tank extending from the shell plating, or inner bottom to the lowest deck

duboki tank, diptank: Deep tanks are often fitted with hatches so that they may also be used to store dry cargo instead of fuel oil, ballast water, or liquid cargo. About 130 tonnes of fuel were to be taken into No 2 deep tank, which had a 360 tonnes capacity.

depth tank bulkhead (n) (nav arch) pregrada dubokoga tanka
deep transverse (n) (nav arch) visoki poprečnjak
deep V hull (n) (nav arch) trup u obliku slova V: 74 MAIB Safety Digest 2/2008 _ CASE 24 CASE 24 Great Fun Until it all Goes Wrong Narrative A new model of a 7m long, stepped deep V hull powerboat had been acquired by a leisure craft sales office. (Italian: carena a V)
Deep water (=:deepwater) (n) Duboko more, Duboka voda: All vessels should walk out the anchor when anchoring in deep water. The normal course in this area entails a dog leg to pass the beacons and keep in deep water.

Deep water anchorage (n) (Navi) Sidrište za brodove s dubokim gazom: This passage plan should have been changed to pass outside the Humber deep water anchorage.

Deepwater berth (n) (Ports, shipping econ) Privežište izvan doka, vez u dubokoj vodi

Deep water channel (n) (Ports) Plovidbeni kanal za prekomorske brodove: The deep water channel from Fawley to the Container Terminal is maintained to a depth of 10.2m below Chart Datum.

Deep waterline (n) (Nav arch) The waterline at which the vessel floats when carrying the maximum allowable load. (https://www.history.navy.mil/) Teretna linija (potpuno nakrcanog broda)

Deep water port (=:deepwater port) 1 Luka s dubokim obalama (za privez brodova): Phillips 66 and Trafigura have formed a joint venture to develop an offshore deepwater port capable of fully loading Very Large Crude Carriers off the Port of Corpus Christi, Texas. https://gcaptain.com/phillips-66-and-trafigura-to-develop-deepwater-port-off-corpus-christi/; 2 Luka za prekoceanske brodove

Deep water route (n) 1 (Navig) A designated area within definite limits which has been accurately surveyed for clearance of sea bottom and submerged obstacles to a minimum indicated depth of water. (www.euronav.com) Plovidbeni pravac za brodove dubokoga gaza: The larger vessel was in a deep water route, recommended for vessels with a draught of 16m or more, but her draught was only 6m. The vessel was proceeding along the designated east-bound deep water route, close to the separation zone of the TSS.; 2 (Shipping econ) Prekomorska ruta, prekomorski plovidbeni pravac

Deep water terminal (n) (Ports) Terminal za prekoceanske brodove, terminal za prekomorske brodove: The Port of Salalah, a major Arab Gulf regional gateway port and transshipment hub on the Arabian Sea, has inaugurated a new deep-water General Cargo and Liquid Bulk Terminal.

Default /ˈdɛfəlt/ (n) Početna postavka / vrijednost, nulta postavka (računalni programi): The OOW was resetting the transponder and it had reverted to default settings in the process. Factory default value tvornička nulta postavka, tvornička nulta vrijednost: The safety contour had been left at the factory default value of 30m. The safety contour on the ECDIS display for the voyage was set at 30m.

Default (n) 1 (Mar law) Ogluha, neispunjenje, neizvršenje, propust: The steverdores, agents or manager of the vessel shall be under any liability whatsoever to the Merchant for any loss damage or delay arising or resulting directly or indirectly from any act, neglect or default on his part while acting in the course of or in connection with his employment and, but without prejudice to the generality of the foregoing provisions.; 2 The failure of a defendant to appear and answer a summons and complaint. Nepojavljivanje na sudu, neodaziv na poziv suda

Default judgement (n) (Mar law) Default judgment is a binding judgment in favor of either party based on some failure to take action by the other party. (https://en.wikipedia.org/wiki/Default_judgment) Presuda o propustu (neizvršenju,
Due to a defect, No.3 generator was unavailable for use.
SAD: Defense Mapping Agency Hydrographic/Topographic Center creates or produces charts to determine the fix position of the vessel by the lighthouses, headland, and buoys indicated in their charts.

deferral /diˈfɜːr/ (v) (safety, mar law) odgoditi, otkazati deferral sailing odgoditi

deflection system /diˈflekʃən/ (n) (electr, navig) defleksija, iskrivljenost koljenastog vratila: The main engine crankshaft deflection was to be measured and recorded at the anchorage, a routine job completed every three months.

deflection coils /diˈflektərl/ (n) (navig, electr) otklonske zavojnice (radara): The focused electron beam is deflected by a magnetic field that is generated by current flow through a set of deflection coils.

deflection indicator /diˈflektən/ (n) (navig) pokazivač otklona (kormila)

deflection /diˈflektən/ (n) (marine eng) otklon rudder deflection otklon kormila; add deflection to the design, build a deflection system

deficiency /diˈfɪʃən/ 1 (safety) neispravnost, nedostatak, manjak: deficiencies found and follow up actions utvrđeni nedostaci i naknadne radnje / akcije

deficit /diˈfɪʃənt/ neispravan, manjkav, defektan, nedovoljan: Deficient fire safety equipment has led US Coast Guard (USCG) inspectors to detain a bulker at the Port of Tacoma until the issues can be resolved. The atmosphere in any enclosed space may be deficient in oxygen and/or contain flammable and/or toxic gases or vapours.

deflection /diˈflektən/ (n) (marine eng) bending or movement away from the normal position, due to loading

defer /diˈfɜːr/ (v) (safety, mar law) odgoditi, otkazati defer sailing odgoditi

isplovljenje, otkazati isplovljenje: A further assessment of the risks should be made and, if necessary, sailing deferred until the equipment is repaired.

deferred payment /diˈfɜːrd ˈpɛmənt/ (n) (financ, logist) odgođeno plaćanje, naknadno plaćanje

deferred rebate /diˈfɜːrd ˈreɪbət/ (n) (shipping econ) naknadni rabat

deficiency /diˈfɪʃən/ (safety) neispravnost, nedostatak, manjak: deficiencies found and follow up actions utvrđeni nedostaci i naknadne radnje / akcije The agency team found the deficiencies on the 85,300 dwt bulkcarrier while conducting a routine inspection on 28 September. The Chief Officer is responsible for any deficiency in the number on the discharge of the goods. These deficiencies include, among others, failure to maintain critical equipment such as the ship’s engines and fire extinguishing systems, inadequate food provisions, unsanitary living conditions including defective toilets and water leakage into cabins, inadequate training for crew and evidence of crew exceeding 72 hours of work in seven days and being underpaid.

The delivery was preceded by an extensive program of trials and tests in which the proper working and safety of all systems was verified. Japanese shipping giant Kawasaki Kisen Kaisha (K Line) has taken delivery of a 88,000 dwt coal carrier from compatriot shipbuilder Imabari Shipbuilding in Marugame.

Delivery of the first ship is anticipated for 2020.
delivery order /diˈlɪvəri,ˈɔːr/ (shipping econ) = ship’s delivery order  a release
document issued by the carrier releasing the cargo to the consignee mentioned in the bill of lading; A
document from the consignee, shipper, or owner of freight, ordering a terminal operator, carrier or
warehouseman to deliver freight to another party.

(http://www.globalnegotiator.com/international-trade/dictionary/delivery-order); An order from the
consignee, shipper or owner of freight to a terminal operator, carrier or warehouse to deliver freight to
another party. On imports, it may also be known as a pier release
(http://www.maerskline.com/en-jm/help/shipping-glossary); A carrier’s delivery order (negotiable
document) is used for splitting a B/L (after surrender) in different parcels and have the same function as
a B/L. (http://www.isn-shipping.com/cargo/cargo_library_glossary.asp); Document issued by a liner
company's agent authorizing the party named in it to take delivery of specific cargo from a ship. It is
normally issued in exchange for an original Bill of Lading.

http://www.tkmglobal.net/chartering_D.HTM; A Delivery Order is a document issued by the carrier, in
exchange for (1) One or all duly endorsed Original Bill(s) of Lading or duly authorised and issued Bank
Guarantee (2) A Telex Release confirmation from the loading port or principal confirming surrender of
one or all Original bills of lading issued for the shipment (3) A copy of a Sea waybill issued, thus releasing
the cargo to the legal consignee mentioned in the bill of lading..

(http://shippingandfreightresource.com/what-is-a-delivery-order/); A delivery order (DO) is the
document that is sent to the trucker with the pickup and delivery details of the shipment.

(https://www.flexport.com/glossary/delivery-order/); isprava kojom brodar potvrđuje da je primatelj
podmirio sve obveze iz teretnice te može preuzeti teret. primatelj se legitimira prezentacijom originala
teretnice zapovjedniku broda. U praksi se najčešće primatelj s teretnicom javi prijevoznikovu agentu.
Nakon što je primatelj podmirio sve obveze iz teretnice, agent povlači teretnicu i u zamjenu za nju
izdaje posebnu priznanicu kojom se potvrđuje da je osoba navedena u ispravi zakoniti primatelj
teretnice i da ne postoje zapreke da joj se teret preda. Ta se isprava naziva bez zapreke. (cf. D. Pavić);
isprava kojom agent posrednik potvrđuje da je primatelj ispuni sve obveze iz teretnice izručnica,
bez zapreke, nalog za iskladištenje / izručenje tereta s broda, nalog za
iskrcaj, delivery order, nulla osta (tal. = bez zapreke): In the liner trade it is usual
for the to present his B/L to the Carrier and receive in exchange a Delivery Order. This is the consignee's
authority to take of the goods from the ship or wharf or warehouse. Only with this delivery order the
consignee can clear the cargo with customs and take delivery of the cargo from the port or terminal or
depot or wherever it is stored. https://shippingandfreightresource.com/what-is-a-delivery-order/ A delivery
order issued by the carrier in exchange for One or all duly endorsed Original Bill(s) of Lading or a duly
authorised Bank Guarantee (in the absence of an original bill of lading) or a a copy of a Sea Waybill issued
https://www.shippingandfreightresource.com/is-a-delivery-order-a-legal-document/# It is imperative that
the delivery Order is issued to the right entity and in accordance with the endorsements that are required
on a bill of lading before release of the delivery order (depending on how the bill of lading is consigned).

https://www.shippingandfreightresource.com/is-a-delivery-order-a-legal-document/# - Delivery order
should be clearly distinguished from bill of lading: the delivery order is not a negotiable document, nor does it
evidence receipt of goods, nor does contain the provisions of the transport contract under which the goods
are shipped. (http://www.globalnegotiator.com/international-trade/dictionary) ; - a carrier’s delivery order
(negotiable document) is used for splitting a B/L (after surrender) in different parcels and have the same
function as a B/L. (http://www.lss-shipping.com/cargo/cargo_library_glossary.asp); -)

delivery party (n) (shipping econ, mar law) The party to which goods are to be delivered.

primatelj (robe, pošiljke, tereta)

delivery terms (n) (logist, mar law) = INCOTERMS 2000 International agreements on
international transport of goods https://www.logisticsglossary.com/term/delivery-terms/
međunarodni trgovinski uvjeti, INCOTERMS: The contract stipulates standard
agreements that divide the costs and risks between the seller and the buyer. adopted in 2000 by the United Nations Commission on International Trade Law (UNCITRAL).

departure /diˈpaːtʃər/ (n) (seamanship) polazak (broda na putovanje), isplovljenje, partenza: Ensure that checklists include the requirement to prove propulsion controls before arrival and before letting go mooring lines on departure. The day after departure from a turnaround port, the chief officer began deep-sea ballast water exchange. At the time of departure, my VHF radio was tuned to Ch 16 and the appropriate Harbour Channel. 20 minutes after departure the cargo vessel’s main engine oil mist detector alarm sounded while the engine was at full ahead. The chief officer came to the bridge just before departure and was not fully briefed.

delay in departure kašnjenje u polasku broda: Fortunately no one was on the gangway when it failed and the incident resulted only in equipment damage and a minor delay in departure.

departure checks provjere pri isplovljenju: Prior to weighing anchor the chief mate had started to test the gear, and when the master arrived on the bridge he finished off the pre-departure checks.
departure checklist popis provjera pri isplovljenju: The poor use of the departure checklist is most likely to have contributed to this failure.

departure manoeuvre manovra isplovljenja: The master and pilot exchanged information on the vessel’s status and briefly discussed the planned departure manoeuvre.

departure report izvješće / izvještaj o isplovljenju, izvješće / izvještaj o polasku iz luke: Instructions from the charterer may indicate that arrival and departure reports for all ports be turned in on completion of the voyage.

departure time vrijeme isplovljenja, vrijeme polaska broda iz luke: The Master set the vessel’s departure time to midnight that same day.

departure arrangements (n) (navig) dogovoreno isplovljenje broda, operacija isplovljenja broda: As the problem could not be immediately detected and rectified, the scheduled departure arrangements had to be postponed resulting in off hire and commercial loss.
departure briefing (n) (navig) kratak dogovor o isplovljenju broda: Despite this familiarity, the master ensured that the presailing checklist had been fully completed and he held a full pre-departure briefing with the bridge team, discussing the manoeuvre, the environmental conditions, and ... A pilot boarded and was in the pre-departure briefing with the Master and bridge team ...

departure brief (n) (navig) kratak dogovor prije isplovljenja broda: Although departure and arrival briefs might occasionally seem repetitive and unnecessary, they do help to ensure that everyone is aware of where the vessel should be.

departure briefing /ˈbriːfiŋ/ (n) (safety) kratak dogovor, kratke obavijesti i upute, kratko upoznavanje posade s nekom operacijom na brodu, brifing: There was no pre-departure briefing and almost no information flow between the officers once the vessel was underway. This is achieved by a good predeparture briefing and a commentary from the master during the passage. A crew briefing should always take place before each mooring operation, even if the planned manoeuvre may appear routine. The new pilots received a safety briefing on boarding practices and a practical demonstration of ladder use. www.gov.uk/maib safety departure briefing

upoznavanje sa sigurnošću na brodu: Take time to give a thorough safety briefing.

When the surveyor eventually arrived, the lifeboat crew mustered and carried out a safety briefing, arrival departure briefing kratak dogovor o uplovljenju broda, departure briefing kratak dogovor o isplovljenju broda

departure draught /diˈpaːtʃə/ (n) (navig) gaz pri isplovljenju

departure port (n) (shipping econ) luka polaska, luka isplovljenja, polazna luka na putovanju: In this occurrence, 41 passengers embarked at the initial departure port and received the briefing; on the other hand 219 other passengers, who embarked at later ports, did not receive the briefing.

departure procedure (n) (navig) postupak pri odlasku/isplovljenju (broda iz luke): Ballasting operations should be part of the vessel’s standard departure procedures and safety management system. Departure procedure, as agreed with the pilot, was to tow the vessel upstream against the current, then turn the vessel at a distance that would allow the vessel to gain minimum steerage speed ...

dependant /diˈpendənt/ (=dependent) (n) (mar law) Family members who meet specific benefits eligibility requirements. (http://www.quarterdeck.org/index.html) član obitelji (zaposlenog pomorca)

deploy /diˈplɔi/ (v) upotrijebiti, postaviti, rasporediti (tegljače, opremu itd): They poorly considered the deployment of tugs, which ideally should have made fast on the starboard side before passing the breakwater. Loše su rasporedili tegljače (oko broda), jer su oni, u idealnoj situaciji, trebali biti uhvaćeni s desne strane broda prije nego što je brod prošao lukobran. The skipper was concerned that the vessel would capsize, so instructed the crew to deploy a liferaft without delay. Deploy standby vessel to patrol safety zone of a two mile radius and warn vessels in vicinity. The crew abandoned the vessel and deployed the life raft. (https://safety4sea.com/) Search and rescue assets were deployed immediately. Aircraft and navy vessels were deployed to assist in firefighting. https://splash247.com/ The vessel is deployed on shipping company's service operating between the Far East and Mediterranean.

https://gcaptain.com deploy on the service uvrstiti u linijsku plovibdu, uključiti brod u plovidbu (servis), imati brod u Inijjskoj službi: The ship is deployed on Maersk Line’s service. Both newbuildings are planned to be deployed in the company’s route network on the North Sea. • The vessel will bunker with approximately 200 tons of LNG at Rotterdam and will be deployed on the intra-European carrier’s Baltic service http://gCaptain.com The ship is deployed on
deploy /diˈpoʊlɪt/ (v) položiti (novac / dokument)
deposit /ˈdɛpət/ (n) 1 (financ) polog (novca u banci / dokumenta itd.): If a general average deposit is required, the consignees will have to pay the amount demanded in return for a receipt for it. ; 2 (marine eng) talog, naslaga, talozi čade: Such engines will obviously be more sensitive to the mechanism of piston crown deposit build-up than older designs having much lower mechanical and thermal load levels. By spraying a certain amount of water into the compressor, the deposit can be removed, provided it has not already become too hard. Clean the gear housing and the spindle parts thoroughly and remove all deposits before filling the new oil. Clean any deposit on the piston. carbon deposits naslage ugljika, scale deposit naslage kamenca: To reduce the corrosive action and inhibit the formation of scale deposit in the system it is usual to provide some form of water treatment.
deposit (v) (oceanogr, marine eng) taložiti (se), nanositi
deposition (n) (marine eng) taloženje (u gorivu, tanku): Fuels with high sediments can cause excessive sludge deposition in tanks and throughout the handling and treatment/fuel injection systems.
deposition (n) (mar law) testimony taken down in writing under oath (https://www.merriam-webster.com/dictionary/deposition) izjava pod prisegom pred sudom, svjedočenje pod prisegom

depot /ˈdepət; US ˈdiːpət/ (cargo) The place designated by the carrier where empty containers are kept in stock and received from or delivered to the container operators or merchants. (https://www.msc.com/shipping-glossary) skladište: A discarded marine flare ignited on the picking line at a depot where ship’s garbage is sorted. The port authorities, its stakeholders including terminal operators and customs have arranged for the empty containers to be returned to various private/shared depots outside the port.. https://shippingandfreightresource.com to release a container from depot

depreciation /diˈpreʃən/ (n) (shipping econ) amortizacija (broda)
depression /diˈpreʃən/ (n) (meteorol) a region of low atmospheric pressure that is usually accompanied by low clouds and precipitation ciklona, područje niskog tlaka, depresija: The weather forecast indicated that the centre of the depression and the ship’s intended course were converging, so the officers and crew had been ordered to secure the ship for heavy weather. Some two days into the ocean crossing, the frontal depression had deepened into a severe storm. The depression was tracked and, in an effort to avoid the worst of the weather, the ship altered course. cold
Due to a deep depression producing severe gales, the vessel remained within the lee of the land for most of her voyage. The vessel was passing directly over an area of water with less depth than the draught of the vessel. By the time he was on deck, the depth sounder was showing minimal depth, and almost immediately the keel touched the bottom. When the depth decreased to 38 metres, the anchor took some of the weight and the ship's head swung into the wind. The vessel was passing directly over an area of water with less depth than the draught of the vessel. By the time he was on deck, the depth sounder was showing minimal depth, and almost immediately the keel touched the bottom. When the depth decreased to 38 metres, the anchor took some of the weight and the ship's head swung into the wind.

immediately went to the Bridge and discussed my concern with the Chief Officer as to what was happening with the tides, then I looked at the **depth sounder** - it said 2.8 metres! A vessel's position as displayed on an ECS can and should be crossreferenced using radar, Loran, visual, **depth sounder** etc.

**derivative** /diˈrivət/ (n) 1 (cargo) **derivat**; 2 (cargo) **naftni derivat**, **naftni proizvod**: The movement of liquid bulk cargo, crude oil and derivatives, from the tanker is undertaken by means of pipelines connected to the shore-based storage tanks. 3 (marine eng) **inačica, izvedba**: A V18-cylinder **derivative** of the 3600 series was jointly developed by Caterpillar with the Spanish enginebuilder Bazan Motores to target high-speed ferry propuls

**derrick** /ˈderik/ (n) **hajmica samarice, upornica derić, delić**: The derricks are the ship's cranes, and their lifting capacity can vary from 3 tonnes to 50 tonnes or more. Derricks are used for raising or lowering heavy weights, cargo, stores, etc. **single swinging derrick** jednostruka samarica, **union purchase derrick** udvojene samarice, **Hallen derrick samarica** s teretnim stupom u obliku polegнутог слова D **Hallenova samarica, Stuelcken heavy lift derrick** samarica tipa Stuelcken za teške terete, **derrick heel** peta kraka samarice, **peta samarice**: The **derrick heel** had not lifted and the wire strop was
As soon as a container is lifted off an anchored vessel it starts swinging, the degree of swing depending upon the state of sea; as the derrick head swings together with the barge, so does the container.

Velle derrick samarica tipa Velle s teretnim stupom u obliku slova T samarica tipa Velle, head of the derrick glava samarice, vrh deriča, rig the derrick pripremiti samaricu za rad

derrick (n) (ship’s equipment) = derrick boom krak dizalice
derrick boom (=lifting boom) (n) 1 (cargo handling) samarica, krak samarice, deblo, grana: The derrick topping lift double purchase was disconnected from the derrick head and attached to the derrick boom near the heel with a wire strop, with the intention of using the greater force available to free the heel pin.; 2 krak dizalice
derrick chock (n) (cargo handling, nav arch) hajmica samarice, upornica
derrick equipment (n) (cargo handling) oprema samarice
derrick guy brk samarice
derrick heel (n) (cargo handling) peta samarice
derrick hoist (n) (cargo handling) brzina dizanja kraka dizalice
derrick pin (n) (cargo handling, nav arch) osnac samarice
derrick post (n) (cargo handling) teretni stup
derrick winch (n) (cargo handling) vitlo samarice: Worst of all, the port derrick winch auto-tensioner had frequently failed, causing the port derrick to suddenly drop directly in the area where the crew member was positioned.
desalination (n) (marine eng) desalinizacija morske vode sea water
desalination system sustav desalinizacije morske vode, desalination system
teretni stup: Wärtsilä’s delivery comprises a total of 10 large MSF distillation systems with unit capacities spanning from 115 tons/day to 900 tons/day, and 4 Single Stage Desalination
systems (SSD) with unit capacities of 30 tons/day.

desalinator /diːˈsæliˌneɪtə/ (n) (marine eng) desalinator manual desalinator ručni desalinator (za brodice, jahte), power desalinator električni desalinator (za brodice, jahte)
descale /diːˈskɛl/ (v) (sailing/boating/yachting, comm) odstranjivati kamenac, skidati kamenac (iz cijevi, vodenih prostora)
descaling /diːˈskɛlɪŋ/ (n) (sailing/boating/yachting, marine eng) odstanjivanje kamenca, skidanje kamenca
descaling chemical (=descaling agent) (n) (sailing/boating/yachting, marine eng) kemijsko sredstvo za odstranjivanje kamenca: A less labor-intensive alternative is to dissolve it with an acid descaling chemical, which hopefully will attack the calcium salts selectively, leaving the expensive metal bits undamaged. https://www.practical-sailor.com/
descend /diˈsend/ 1 ANTONYM ascend silaziti, spuštati se: Never descend into a confined space to save a victim unless you are equipped with proper breathing apparatus and have support from other personnel. However, when the brake was applied, it failed and the boat continued to descend. The Pilot managed to descend the remaining two metres to the boat deck. AB2 then descended to assist AB1 while the Fitter went to notify the Captain.; 2 (marine eng) spuštati se (o klipu motora) description of goods (n) (mar law) opis robe (u teretnici)
desertion /diˈzɜːʃən/ 1 (mar law) the act of purposely and unlawfully abandoning the ship by the crew neodgovorno napuštanje broda; 2 (mar law) a crewmember unlawfully leaving his duties on a vessel neodgovorno napuštanje dužnosti na brodu (npr. straže itd.)
design /diˈzain/ 1 plan, nacrt, crtež design drawings izvedbeni nacrt, basic design opći plan / nacrt (broda), detail design detaljni plan (broda), production design proizvodna / radionička tehnološka dokumentacija (za gradnju broda); 2 konstrukcija
design /diˈzain/ 1 projekrirati, konstruirati: The new 158-metre ro-pax vessel will be designed and optimised to carry passengers and cargo between the Danish islands of Bornholm and Sjælland.; 2 kreirati
design izvedba: A special inlet port design and engine control system ensures a homogeneous and lean mixture of air and gas. Improved hull design and the use of ships with larger cargo carrying capacities have led to a reduction in emissions and an increase in fuel efficiency.
designated anchorage (n) (navig) A protected waterway clearly marked on local charts, lying clear of navigation channels and offering adequate depth and good holding ground where boats may anchor. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) označeno sidrište, područje određeno za sidrenje, područje obveznog sidrenja: A laden tanker anchored outside the entrance of a traffic separation scheme (TSS) in a designated anchorage to await the next rising tide in order to proceed upriver to discharge her cargo.
designated area (n) (navig) označeno područje, područje određeno za (sidrenje itd.): One of our tankers was proceeding with a Pilot on board to anchor in the designated area for bunkering in a large Asian port.
designated person /ˈdeziɡ.netɪd/ (n) (mar law, safety) (u pravilniku ISM) osoba koja ima izravan pristup najvišoj razini upravljanja zadužena osoba, nadređena osoba
Designated Person Ashore (DPA) was informed and began an investigation immediately. We arranged for the vessel’s bridge officers, and company’s Designated Person (DPA) and marine / nautical superintendent to attend an equipment-specific training course on the ECDIS type fitted on board; The master also contacted the vessel’s designated person ashore. At 2113, the chief officer notified the company’s designated person ashore (DPA) of the situation.

designated route (n) (navig) zadana ruta, zadani smjer, obvezna ruta: At about 2100 hrs, after reaching her waypoint, the vessel altered course to 070ºT and was proceeding along the designated east-bound deep water route

design criteria (n) (nav arch) konstrukcijska obilježja (broda): Design criteria: Ice-strengthened, single decked, single screw motor ship with double bottom and double skin with coated cargo tanks. No steel structure facing into the cargo tanks. The hull form is designed for minimum resistance, overall design provides an environmentally friendly, cost-effective, reliable and flexible unit. One deep-well pump for each tank and complete segregation for each cargo tank, one vapour return line.

design drawing (n) (nav arch) COMPARE shop drawing a pictorial representation of the aesthetic designs and concepts that the client (shipowner) needs and the designer intents to provide (https://www.linkedin.com/pulse/what-differences-between-design-drawings-/) a rough illustration of an object, classified with the help of through lines. It is the first stage of the designing phase (https://www.linkedin.com/pulse/what-differences-between-design-drawings-/) opći nacrt (broda), idejni nacrt

designed /diˈzaind/ 1 konstruiran: 70 BN cylinder oil and an engine series is well designed against corrosive wear and with no need for excessive BN. It must be remembered that anchoring equipment is designed and manufactured only for mooring a vessel in moderate sea conditions, and for relatively short periods, while awaiting berth availability designed for namijenjen za, konstruiran za, designed to konstruiran za, namijenjen za: Siemens’ SINOx SCR system is designed to reduce the emissions of different exhaust gas pollutants simultaneously—notably NOx, HC and soot—as well as to achieve a sound attenuation Fuel feed lines are integrated in the pump housing, and the fuel system is designed to keep pressure pulses low. The anchor gear is not designed to stop a ship. In the 1950s, as trade volume increased, the industry started to develop special tankers designed to carry up to 40 parcels of different chemicals within a single ship.; 2 namijenjen: Among the measures designed to ease inspection and maintenance are: cylinder heads hydraulically tightened with four stud screws on the cylinder block; and … The manoeuvre was designed to make best use of a strong south-westerly wind.; 3 određen

designed for /diˈzain/ (adj) 1 (marine eng) projektiran za: The injector was also designed for robust safety in the event of a fault condition.; 2 (nav arch) namijenjen za: These vessels have multiple decks designed for the carriage of cars, and a high cubic in order to maximize the number of vehicles which can be loaded.

designed output (n) (marine eng) nazivna snaga (motora), projektirana snaga

designed waterline (=DWL) (n) (nav arch) Designed waterline – je presječnica forme broda i ravnine vodne linije za koju je brod osnovan. Na toj vodnoj liniji brod redovito postiže i najveću nosivost. (Designed waterline – je presječnica forme broda i ravnine vodne linije za koju je brod osnovan. Na toj
Despite all three of the vessel’s own pumps running, the situation continued to deteriorate, and the skipper issued a “Mayday” on Channel 16 about an hour later. The speed was about nine knots, despite a speed limit of five knots that should have been observed at this point.
destination /ˌdestiˈneɪʃən/ (n) (shipping econ, mar law) odredište: The freight was short or damaged at destination. On being cleared by the coastal state authorities, the tanker continued on her voyage, arriving at her destination after two days. port of destination odredišna luka, luka odredišta: In the evening, in order to adjust the ETA at the destination port the following morning, the Master decided to stop and drift for an hour in open water before resuming passage at full speed. Separate manifests must be made out for each port of destination., get to the destination doći do odredišta: Through bills of lading: In many cases it is necessary to employ two or, more carriers to get the goods to their final destination., final destination konačno odredište, krajnje odredište: In the event, all units were discharged safely at the berth and reached their final destination. All the sound containers are now being released and will be loaded on other vessels for transport to their final destination., country of destination zemlja odredišta: When no such enactment is in force in the country of shipment, the corresponding legislation of the country of destination shall apply.
destroyer (n) (navy) COMPARE frigate A small fast warship armed with missiles, mines, torpedoes, depth charges and guns, usually employed as an escort to protect larger ships, and to attack submarines. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) razarač stealth destroyer nevidljivi razarač, neprimjetljivi razarač

destiny /ˌdestiˈneɪʃən/ (n)
detach /ˈdɪtəʃ/ (v) odijeliti, odvojiti, isključiti: The damaged wire had been removed from the jetty bollard, and work was underway to detach the wire from the winch drum when the chief officer arrived at the after mooring deck.
The head incorporates four valves whose seats are detachable; the exhaust valve seats are water-cooled. The large exhaust gas inlet casing is of two-piece construction comprising a detachable inner casing fitted with the turbine nozzle assembly and a fixed outer casing containing the rotor shaft fitted with the turbine wheel.

The cylinder condition monitoring system is intended to detect faults such as blow-by past the piston rings, cylinder liner scuffing and abnormal combustion. A thermocouple sensor is installed close to the pumping chamber to detect delivery valve leakage; if the delivery valve were to leak, fuel from the rail would be re-pumped, causing a temperature increase in the pump

The cylinder condition monitoring system is intended to detect faults such as blow-by past the piston rings, cylinder liner scuffing and abnormal combustion. A thermocouple sensor is installed close to the pumping chamber to detect delivery valve leakage; if the delivery valve were to leak, fuel from the rail would be re-pumped, causing a temperature increase in the pump

Before departing the ship, the fumigator-in-charge briefed the chief officer, and issued him with two gas masks and some phosphine gas detection equipment.

The installation comprises the separator, an automatic control panel, water detector, water detector controller and discharge detector. Personnel entering tanks must also carry a CO detector together with O and LEL personal detector, (as per company policy when entering tanks after carrying Crude or Fuel Oil.)
detent (n) (seamanship) A catch on a mechanical capstan which keeps it from rotating. A notch in a ratchet. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) zaporni zubac na vitlu

detention /diˈtenʃən/ (=detention of ship) (n) (mar law) COMPARE seizure

COMPARE arrest: zadranje broda, zadranje broda u luci (kao mjera osiguranja naplate potraživanja), zaustavljanje broda: Thus any irregularities in such documentation may result in fines, detention or other such serious implications for the vessel. Port State Control inspectors issued a detention deficiency against one of our vessels for a defective tachometer on an auxiliary engine. The AMSA said the deficiencies were serious enough to warrant immediate detention of the ship. https://gCaptain.com damages for detention 1

naknada za zadranje; 2 prekostojnice zbog zadranja broda u luci, release from detention osloboditi (brod) nakon zadranja: The vessel, which had passed through the Great Barrier Reef on its journey, was released from detention upon completion of her crew training, temporary detention of ship privremeno zaustavljanje broda, detention of ship zadranje broda, detention charge Charge payable by a shipper or receiver to a shipping line for detaining equipment or a vessel beyond the time allowed http://www.tkmglobal.net/chartering_D.HTM naknada za zadranje broda / opreme, lift the detention prekinuti zadranje broda, obustaviti zadranje broda: The detention was lifted on Saturday, 30 March, after the ship passed the independent International Safety Management (ISM) audit. https://gCaptain.com, suffer detention biti zadran (o brodu), biti zaustavljen (o brodu): marine insurers has found vessels that suffer a detention are far likely to encounter a major incident https://safetyatsea.net, warrant detention to a ship izdati nalog za zadranje / zaustavljanje broda: A total of 212 detentions were warranted to ships found with serious deficiencies. https://safety4sea.com/, ship detention privremeno zadranje broda: The Paris MoU has issued its list of ship detenions for February 2021. https://safety4sea.com/

detention 1 The fee applicable to all containers that remain in the customer's possession longer than the agreed free time. http://www.maerskline.com/en-jm/help/shipping-glossary; in the context of container shipments relates to equipment (while the container is empty after unpacking in imports or before packing in exports) (https://www.shippingandfreightresource.com/) držanje tereta (duže
od roka predviđenog ugovorom, zadržavanje broda u luci, pravo pridržaja (broda / tereta u luci, pravo pridržaja na imovin nalogodavatelja: Detention days are counted from pick-up empty containers to gate-in full minus free days. detention fee - export naknada za držanje tereta pri ukrcaju, detention fee - import naknada za držanje tereta pri ukrcaju na brod; 2 (logist) Detention is a fee that you have to pay if you have picked up your imported containers but didn’t return them to the shipping line in time. (https://blog.greencarrier.com/10-shipping-terms-every-international-shipper-should-know)

naknada za zakašnjelo vraćanje zadržanih kontejnera brodaru

detention charge (n) (mar law) A penalty charge against shippers or receivers for delaying the carrier’s equipment outside the port, terminal or depot beyond the allowed Free Time. ( kazna za kašnjenje u ukrcaju ili iskrcaju tereta)

Detention Insurance Policy (DIP) (n) (mar ins, mar law) a service to identify all critical calls in advance using the automated Next Port of Call Risk Assessment via API with an alert follow up in case of a risk of the call being critical and/or tailor the Risk Assessment to your needs (https://risk4sea.com/) policia osiguranja za zadržavanje broda: Benefits of the Detention Insurance Policy Service; No Room for Error; Fully Automated Process; Targeted Optimised Preparation in Advance https://risk4sea.com/

detention of cargo (n) = right of detention (mar law) pravo pridržaja tereta
detention of ship’s equipment (n) (shipping econ) penalty charge against shippers or consignees for delaying carrier’s equipment beyond allowed time. penali za zadržavanje brodsko ukračno/iskrćajne opreme (Demurrage applies to cargo; detention applies to equipment)
detention tank (n) (safety) tank za zadržavanje prolivenog ulja/nafte (pri ukrcaju/iskrcaju)
deteriorate /diˌtiərəˈreɪt/ 1 pogoršati (se): the situation continued to deteriorate stanje se stalno pogoršavalo Despite all three of the vessel’s own pumps running, the situation continued to deteriorate, and the skipper issued a “Mayday” on Channel 16 about an hour after the flooding was discovered.; 2 (v) kvariti se (o teretu), pokvariti se; 3 (meteorol) pogoršati se (vrijeme, vidljevost): the weather deteriorated and the anchor chain began to render vrijeme se pogoršalo i sidreni je lanac počeo popuštati Weather conditions have further deteriorated since Saturday, with winds of 50 km/h and waves of 6 meters. As the ship the Humber, the weather deteriorated and the wind increased to south-easterly force 8, accompanied by a 2-3m sea. https://www.gov.uk/government/organisations/marine-accident-investigation-branch the visibility deteriorates vidljevost se smanjuje, vidljevost se pogoršava: When visibility appears to be improving, stay on your guard, it can deteriorate twice as quickly and without warning.
deterioration /diˌtiərəˈreɪʃən/ 1 kvarenje (tereta), pogoršanje stanja (tereta): Hay, wool, pepper, cocoa - if wet or damp, are very liable to spontaneous combustion, sweat damage and deterioration. to suffer deterioration pogoršati se (npr. stanje tereta); 2 (marine eng) pogoršanje (stanja): Root cause/contributory factors Improper maintenance: Erosion and deterioration of the piston crown were not acted upon at the time of periodic overhauls and routine inspections;

Det Norske Veritas (n) (nav arch) Stiftelsen Det Norske Veritas or DNV is a classification society organised as a foundation, with the objective of ‘Safeguarding life, property, and the environment’. 
devanning (n) (logist) = stripping: unloading cargo from a container; the removal of freight; the unloading (unpacking, 'stripping') of a container. (https://www.msc.com/shipping-glossary)

pražnjenje kontejnera: An FCL shipment will be *devanned* at a warehouse destination. An LCL (Less than Container Load) will be *devanned* (or deconsolidated) at a CFS (Container Freight Station) destination. https://www.flexport.com/glossary/devanning/

deivate /diːvəit/ (v) skrenuti (s kursa): During the blackout, the rudder unexpectedly turned to port, causing the vessel to *deviate sharply from its course* and toward the tug and tow. to *deviate from the course skrenuti s kursa*: What time does the off-hire period cover when the ship must *deviate from her course* and put into a port of refuge? On 13th October 20__, I, ____, Master of the M/V Sea Crest, (relative) had to *deviate to the port of ______* as port of refuge on account of fire in the engine room on 10th October 19, and herewith declare In the aftermath of the incident, it was determined that ship’s Second Officer had *deviated from the intended course* to ... in order meet pilot boat deadline.

deivation /ˌdiːviˈeɪʃn/ (n) 1 (navig) magnetic compass error caused by the magnetic properties magnetska devijacija, devijacija (kompasa) magnetic deviation magnetska devijacija, deviation table tablica devijacije, add easterly / westerly deviation dodati istočni / zapadnu devijaciju, subtract easerly / westerly deviation oduzeti istočnu / zapadnu devijaciju; 2 (navig) skretanje s kursa, skretanje s puta; 3 (mar law, shipping econ) skretanje s puta / putovanja: Any *deviation* in saving or attempting to save life or property at sea or any reasonable *deviation* shall not be deemed to be an infringement or breach of the Rules or any contract of carriage.

deviation from the planned route skretanje s planirane rute, deviation limit granično skretanje (s putanje/rute), granična devijacija: The ECDIS was set with the following safety parameters: a safety contour of 10 metres; a cross-track deviation limit of 0.2 either side of the planned track.

deviation clause (n) (mar law) A departure by the carrier of goods by sea from the agreed or customary geographic route, done without the consent of the cargo interests; Clause in a Bill of Lading or Charter-Party allowing the shipping line or shipowner to deviate from the agreed route or normal trade route. This clause varies from contract to contract and may permit the ship to call at unscheduled ports for whatever reason, or to deviate to save life or property.

http://www.nkmglobal.net/chartering_D.HTM klaузula o skretanju s plovidbenog puta, klaузula o devijaciji s plovidbenog pravca, klaузula o devijaciji, privremenih prekid pomorskega ugovora o prijevozi zbog skretanja u luku zakloništa ili na popravak, devijacija, kršenje ugovora zbog skretanja s rute: *Deviation clause* allows the shipowner to proceed on a course other than usual and reasonable to save property.

deviation report (n) (Navig, comm) izvješće o skretanju

deviations (n) (safety, mar ins) occupational accidents which consist in the description of the event deviating from normality leading to the accident *odstupanja od normalnog funkcioniranja (sustava, opreme na brodu) koji dovode do ozljeda i oboljenja na radu*: Deviations include: 1. Deviation due to electrical problems, explosion, fire. 2. Deviation by overflow, overturn, leak, flow, vaporisation, emission. 3. Breakage, bursting, splitting.
slipping, fall, collapse of Material Agent, 4. Loss of control (total or partial) of machine, means of transport or handling, 5. Slipping - Stumbling and falling - Fall of persons, 6. Body movement without any physical stress (generally leading to an external injury, 7. Body movement under or with physical stress (generally leading to an internal injury, 8. Shock, fright, violence, aggression, threat, presence

**device** 1 naprava, sprava, uređaj, mehanizam, aparat fall-safe device besprijekorna naprava / uređaj, uređaj koji ne može zatajiti / otkazati / zakazati, sprava koja radi bez greške, explosion device eksplozivna naprava, explosion detection device uređaj za sprječavanje eksplozije, control device upravljačka naprava (ručka itd, kontrolni uređaj, regulacijski uređaj: The governor, which is the principal control device in any engine, is so termed as it controls the engine speed at some fixed value., safety device sigurnosni uređaj: A safety device is fitted in case the system breaks down., release device: If the main release device fails to launch the lifeboat, the assigned crew member operates the emergency lifeboat release lever.

**dew** /dju/ (meteorol, cargo) rosa: It was early morning and the rungs on the fixed stanchions were moist with dew.

**de-watering** (n) (seamanship) izbacivanje vode, isušivanje dew condensation (n) (cargo) kondenzacija od rose dewpoint /dju:point/ (n) 1 (cargo handling) rosište, temperatura rosišta: Because charge air from the turbocharger never falls below the dew point, there is no danger of water condensation in the cylinders, ... where the metal temperatures are below the acid dew point (160°C), these vapours condense as sulphuric acid, resulting in corrosion. The dew point shall be calculated for the specific site conditions. The minimum charge air receiver receiver temperature shall be above the dew point, otherwise condensation will occur in the charge air cooler. https://www.wartsila.com/; 2 (meteorol) rosište dew-point readings (n) (cargo) 1 očitavanje rosišta; 2 očitana rosišta: Record relevant dew-point readings in the cargo spaces and outside.

**DF engine** (=dual fuel engine) (n) (marine eng) = dual-fuel engine stroj na dvije vrste goriva, stroj s alternativnim gorivima DGPS (=Differential Global Positioning System) (n) (navig) diferencijalni globalni sustav za određivanje pozicije: A position obtained by DGPS gave her position as being on a 20 metre contour on the chart. The only option available to the master was to hold
station by monitoring his **DGPS**. wide area **DGPS** široko-prostorni DGPS (WADGPS)

diagrammatic /ˌdaɪəˈɡræmətɪk/ (adj) shematski, dijagramatski: The cargo plan shows in diagrammatic form the longitudinal section of the ship and each hold with its respective decks, with main consignments marked off by coloured blocks
diagram of steam cycle /ˈdaɪəɡræm/ (n) (marine eng) dijagram parnog procesa
diagram of watertube boiler /ˈdaɪəɡræm/ shema / nacrt vodocijevnog kotla
dial /ˈdaɪəl/ 1 brojčanik: Fit a dial indicator in a support and fasten it in position as illustrated.; 2 skala (instrumenta)
dial /ˈdaɪəl/ birati (broj, vrijednost na instrumentu): The owner’s shouts were heard by his son on the helm, who promptly stopped the engine and immediately used his mobile telephone to dial 999 and ask for coastguard assistance.
dial gauge (=dial-gauge) (n) (marine eng) mjerni uređaj s ljestvicom, komparator, mjerni instrument s ljestvicom (urom): Check the lifting of the crankshaft by means of two dial-gauges
diameter /daiˈæmətər/ (n) promjer, dijametrar: For example, 0.5 tonne of water per hour will flow through a hole of just 18mm in diameter assuming a constant head of 25mm. The tug’s steel tow wire was 44mm in diameter and weighed 7.8 kg/cm.
diamond /ˈdaɪəmɔnd/ brodška signalna oznaka romboidnog oblika romb: Dangerous cargo/goods/commodity are often indicated by diamond-shaped signage.
https://www.facebook.com/capt.haytham.nouni/posts/daylight_shapes-day-shapes-are-mast-head-signals-visualy-indicating-the-status/958624807917654/ We were displaying navigation lights, day signals (ball,
diamond, ball) plus red white red lights for a vessel restricted in its ability to manoeuvre throughout. The first and the last poles were marked with a black diamond each. Both diamonds and poles, as well as tube, were perfectly visible on the tug’s radar screen in all scales.

https://www.slideshare.net/ucmetcsto/colreg-shape-animation

diamond plate /ˈdiarmənd/ (n) (nav arch) križna ploča, metalna ploča u obliku romba
diaphragm /ˈdaɪəfræm/ to deflect diaphragm deformirati dijafragmu, diaphragm seal membranska brtva dijafragma, membrana, ovojinica
diaphragm plate /ˈdaɪəfræm/ dijafragma na dnu tanka (za mjerenje tanka):
The Piston rod passes through a stuffing box which is bolted into the diaphragm plate.
diaphragm pressure gauge /ˈdaɪəfræm/ (n) (marine eng) manometar s membranom, tlakomjer s dijafragmom
die /dai/ (n) (marine eng) a tool for cutting thread nareznica, alat za narezivanje navoja
diesel /ˈdiːzəl/ (n) (marine eng) dizelski motor, dizel-motor: Before a large diesel is started it must be warmed through by circulating hot water through the jackets, etc.
diesel-alternator (n) (electr) dizelski generator: The ferry was also provided with an Uninterruptible Power Supply (UPS) and an emergency diesel alternator; both were ready to operate automatically when needed.
diesel drive (n) (marine eng) = diesel propulsion dizelski pogon
diesel-driven (adj) (marine eng) pogonjen dizelskim motorom: A diesel-driven, portable salvage pump was placed on board.
diesel-driven ship (marine eng) brod s pogonom na dizel-motor
diesel-electric drive (n) (marine eng) dizel-električni pogon: A number of vessels are built with diesel-electric or turbo-electric drive.
diesel electric hybrid engine (n) (sailing/boating/yachting) hibridni dize-električni motor
diesel-electric vessel (n) (nav arch) brod na diezel-električni pogon: Four 6-cylinder models (each developing 5700 kW) are specified to drive the main gensets of a diesel-electric LNG carrier.
diesel engine (n) (marine eng) dizelski stroj, dizelski stroj, dizel motor: The first merchant ocean-going liner driven by a diesel engine was the Selandia in 1912. A diesel engine may be designed to work on the two-stroke or four-stroke cycle. The four-cycle Diesel engine is easier to reverse than the two-cycle Diesel engines as there are fewer moving parts to be changed in direction of rotation. The most powerful diesel engines in the world are two stroke crosshead engines. • Dual-fuel or
spark-ignited engines are already capable of operating with fuels such as methane and natural gas in gaseous form from fossil, biomass or synthetic sources, while diesel engines can run on liquid biofuels, biodiesel or e-diesel. https://www.marineinsight.com/ marine diesel engine brodski dizelski stroj, brodski dizel stroj, brodski dizel motor, brodski stroj: An important parameter for a marine diesel engine is the rating figure, usually stated as brake horsepower (bhp) or kilowatts per cylinder at a given revolutions per minute., inboard diesel engine nutarnji dizel motor, outboard diesel engine izvanbrodski dizel motor, 2 stroke diesel engine dvotaktni dizelski stroj: A slow-speed two-stroke diesel is usually arranged to operate continuously on heavy fuel and have available a diesel oil supply. The 2 stroke diesel crosshead engine works on exactly the same principle and cycle as the 2 stroke diesel trunk piston engine. Unlike the 4 stroke engine, a two stroke diesel engine does not use the piston to push out the exhaust gas, instead, air enters the cylinder around bottom dead centre and sweeps or cleans the exhaust gas from the cylinder, 4 stroke diesel engine četverotaktni dizelski stroj: In a four stroke trunk piston engine of 1100 kw output, a hole was (burn) through a piston crown., medium speed diesel engine srednjohodni dizelski stroj: On a medium speed 4 stroke engine the oil is supplied to the main bearings through drillings in the engine frame to the crankshaft main bearings., high speed diesel engine brzohodni dizelski stroj: These ancillaries need electrical power which is usually provided by generators driven by medium- or high-speed diesel engines., low speed diesel engine sporohodni dizelski stroj: The 130 TBN lubricant was evaluated for 3 months in the Sulzer 6RLB90 low-speed engine of a container ship, which operated at 85–90 per cent maximum continuous rating. Medium- and low-speed gas-burning engine designs are offered by the MAN Diesel group, which cites successful experience with a Holeby 16V28/32-G (gas injection)

Digital freight forwarders have the ability to offer the services of a freight forwarder but on an instant basis using online technology and data. Digital freight forwarders (i.e. companies like Twill, FreightHub, Flexport etc.) understand, develop, use and offer some of the most modern technologies known to the industry; are repurposing data from previous shipments and creating codes and algorithms to automate the most common activities; are able to use sophisticated methods to market their services using the full gamut of social, traditional and mainstream media for a quicker and more effective reach.

Some of the services at the top of the list are: instant rates, instant online booking, real-time container tracking, digital documentation, own dashboard for the shipper.

Digitalisation, innovative concepts and technologies like Blockchain, Big Data, IoT, Artificial Intelligence there have been several changes in the industry https://shippingandfreightresource.com/trade-and-digitalisation/

Digital processing unit /ˈdɪdʒɪtəl/ digitalni procesor
digital selective calling /ˈdɪdʒɪtəl/ (=digital selective call; DSC) (n) (safety, comm) A technique using digital codes which enables a radio station to establish contact with, and transfer information to, another station or group of stations. (IAMSAR/Camsar2014) digitalni selektivni poziv (u sustavu GMDSS)

Digital Selective Calling /ˈdɪdʒɪtəl/ (=DSC) (n) (comm, safety). DSC is a semi-automated means of establishing initial contact between stations. Once this contact has been established, normal radiotelephony is used for subsequent communications. The main use of DSC by small vessels is for distress, urgency, and safety purposes digitalni selektivni poziv (DSC), digitalno selektivno pozivanje: Although there is no regulatory requirement for a vessel of this size to carry an EPIRB, liferaft or Digital Selective Calling (DSC) capable VHF radio, all are recommended. The captain contacted the coastguard via Digital Selective Calling who alerted the rescue helicopter and two lifeboat stations. The skipper pressed the Digital Selective Calling (DSC) distress alert button on the VHF radio and the coastguard responded immediately.

digital shipping line (n) (logist, mar law) COMPARE digital fright forwarder

Digital Shipping Lines have consortiums and associations set up to improve their digital presence: 1) Maersk Line teamed up with IBM to create the TradeLens project, which is a blockchain technology in the global supply chain to enable trust between multiple trading partners including carriers, freight forwarders, customs, port authorities and more when transacting in a digitized global trade documentation process with Maersk Line, ZIM Lines and PIL as members currently.; 2) A rival to the above grouping consists of CMA CGM, Cosco Shipping (including OOCL), Evergreen Marine, and Yang Ming Line, representing about one-third of total global containership capacity.. This consortium is based on CargoSmart technology, a shipment management software provider owned by Cosco.. digitalni linijski brodar, digitalni brodar: Through their eCommerce platforms digital shipping lines offer services similar to the services offered by digital freight forwarders. (1) Maersk Line teamed up with IBM to create the TradeLens project, which is a blockchain technology in the global supply chain to enable trust between multiple trading partners including carriers, freight forwarders, customs, port authorities and more when transacting in a digitized global trade documentation process with Maersk Line, ZIM Lines and PIL as members currently..)

digital transformation of shipping (n) (logist, shipping econ, mar law) the maritime sector should keep in mind the 7 digital trends: 1. E-platforms: They will improve shipping by offering an online booking, online cargo management and customer personalization; 2. Advanced analytics: Offers network optimization, dynamic pricing, as well as empty container repositioning., 3. Internet of Things (IoT): The technology provides vessel machinery monitoring and reefer container conditions monitoring; 4. Alternative Intelligence (AI): 4. E-service centers, dynamic capacity reallocation, predictive maintenance; 5. Autonomous vessels and robotics: automated vessel navigation, automated port calls; 6. Blockchain: E-bill of lading, payment automation and cargo insurance; 7. Cyber security: Security assurance for customer data and security assurance for automated
With the arrival of a new decade, the shipping industry continues experiencing digital transformation, with shipping companies having to switch from the traditional way of operations into a modern and smart environment; https://safety4sea.com/cm-3-key-features-for-shippings-digital-transformation {Three key requirements for an effective digital transformation: 1. Maritime organization need to digitalize the core business, meaning they need to adopt successful digital strategies to their current operation. 2. Maritime organization need to digitalize the core business, meaning they need to adopt successful digital strategies to their current operation. 3. Shipping companies need to develop a robust internal digital foundation, helping companies lure the ideal digital talent to help the business develop, update the current systems.}

**dihedral corner reflector** /diˈhiːdrəl/ (n) (navig, electr) dvostrani kutni radarski reflektor

**dike** /daɪk/ (=dyke; sea-dike) = dyke zaštitni nasip (u luci), zaštitni lukobran, *diga*, zaštitni *mul* (molo): Building *dikes* or levees to protect against one metre of sea level rise varied from EUR 1 million per km to EUR 4 million per km. https://safety4sea.com

**dildo** (n) (seamanship, sailing/boating/yachting) = thole-pin palac za veslo, škeram, škaram

**diligence** /ˈdɪlɪdʒəns/ (n) marljivost, revnost with due diligence s pažnjom (dobar privrednik, stručnjaka itd.): Inspection, lubrication, renewals of parts including the wire and rigging must be carried out with due diligence., act with due diligence poslovati s pažnjom dobrog privrednika, raditi u skladu s pravilima dobre pomoračke prakse, raditi kao dobar stručnjak-pomorac, exercise due diligence poslovati u maniri dobrog gospodarstvenika / stručnjaka: The carrier shall be bound before and at the beginning of the voyage to exercise due diligence to make the ship seaworthy, properly man, equip and supply the ship and make all parts in which cargo is to be carried, (but he will be responsible if they fail to exercise due diligence in carrying out their work.), practise due diligence poslovati pažnjom dobrog gospodarstvenika / privrednika

**Dilution of Precision (=DOP)** (n) (navig) raspršenje točnosti horizontal dilution of precision; HDOP horizontalna komponenta raspršenja točnosti

**dimension** /diˈmenʃən; daiˈmenʃən/ (n) 1 mjera, dimenzija; 2 izmjere (broda)

**diminish** /diˈmiʃn/ diminish in thickness stanjiti se: It consists of a disc on the side of which are a number of radial vanes which diminish in thickness as they approach the periphery., diminishing depression ciklona u slabljenju smanjiti se: The use of ECDIS does not diminish the importance of keeping a good lookout.

**dimmer** /ˈdimər/ (=DIM) (n) (comm) prigušivač (svjetla na VHF uređaju)

**dinghy** /ˈdiŋgi/ (=dink; tender) (n) 1 (sailing/boating/yachting) a small boat for recreation or racing, especially an open boat with a mast and sails; also used as a tender boat *jedrilica*, sportska *jedrilica*, *jedrilica* za razonodu, mala *jedrilica* general-purpose dinghy *jedrilica* opće namjene; 2 a rowboat or small sailboat (in India) dingi; 3 a small boat carried on a larger vessel as a launch or lifeboat, usually powered by oars, sail, or small outboard motor *pomoćna brodica / čamac*, bajbot
dining room (n) (mar law) blagovaonica
dink /ˈdɪŋk/ dingi {skraćeno od: dinghy}
dip1 (n) (cargo handling) mjerna šipka take the dips of the cargo tanks izmjeriti razinu tereta u tankovima mjernom šipkom: When loading crude oil cargoes, dips should be taken of all the vessel's cargo tanks upon completion of loading to check for the presence of free water.
dip2 (n) 1 (navig) position of a flag when lowered part way in salute; method of salute between vessels zastavica za pozdrav, zastava djelomice spuštena u znak pozdrava; 2 (navig) pozdravljanje brodova zastavom
dip3 (v) 1 (navig, comm) to lower the flag and immediately raise it again as a salute spustiti (signalnu zastavicu) dip the flag spustiti i podignuti (zastavicu u znak pozdrava drugiom brodu); 2 (navig, comm) spustiti zastavicu djelomice; 3 (cargo handling) izmjeriti uranjanjem šipke: On completion of discharge all tanks, including empty ballast tanks, should be dipped and, where possible, visually inspected in the presence of a representative of the terminal or cargo interests …; 4 umoćiti, uroniti (nešto u vodu)
diploma (n) (hum_resources) (UK) a document showing that someone has successfully completed a course of study or passed an examination; (US) a document showing that a student has successfully completed their high school or university education diploma, svjedodžba diploma of Higher Education (DipHE) diploma for for completing the first two years of a degree course) diploma / svjedodžba o visokoškolskom obrazovanju (dvogodišnjem)
dipstick (n) (marine eng, cargo handling) mjerni štap, mjerni štipić: Investigations found that when the mate did his pre-sailing checks, he wiped the engine sump dipstick on a rag, which he casually left on a tank top above the engine exhaust manifold. With no level on the dipstick, it was clear that the 220 litre oil charge was being lost or was not being returned from the sump by the oil scavenge pump. {štap za mjerenje visine tekućine (nafte, ulja) u tanku, karteru itd.}
direct /diˈrekt; daiˈrekt/ (v) 1 a usmjeriti; 2 uputiti
direct action (n) (mar law) The right of a third party who has a liability claim against an insured to proceed directly by suit against the insurer, usually because the insured has been declared bankrupt or has become insolvent. In most jurisdictions, direct action is permitted only by statute. http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm izravni odštetni zahtjev, izravni zahtjev za naknadu štete
direct-contact heater (n) (marine eng) dodirni zagrijač
direct cooled piston (n) (marine eng) ANTONYM indirectly cooled piston A piston which is cooled by internal circulation of oil from an oil jet. {direktno hlađeni klip, uljem hlađeni klip
direct-coupled engine (n) 1 (marine eng) direktno spojeni motor (na osovinu): A direct-coupled propulsion engine cannot operate unaided since it requires service pumps for cooling and lubrication, and fuel/lube oil hand The three layouts involve the use of direct-coupled slow-speed diesel engines, medium-speed diesels with a gearbox, and the steam turbine with a gearbox drive to the propeller. According to the way the main engine is joined to the shafting, they may be classified as direct coupled engines, i.e. coupled directly to the propeller shafting (also called direct drive) and geared engines, i.e. coupled to a reduction gearing (indirect drive). ; 2 direktni priključak
direct coupling (n) (marine eng) neposredni spoj, direktni priključak
**direct current** (=DC) *(electr)* istosmjerna struja
**direct drive engine** *(marine eng)* stroj s neposrednim pogonom, motor bez reduktora: The vessel’s **direct-drive diesel engine** was in engine room control ...
https://safety4sea.com/
**direct injection** *(marine eng)* In diesel engines with direct injection the combustion chamber is not divided and fuel is injected directly to the cylinder. (http://www.marinedieseleurope.com/)
**neposredno ubrizgavanje, direktno uštrcavanje**
**direction** /ˈdɪ rekʃən ; ˌdaiˈrekʃən/ *(n)* smjer, pravac opposite **direction** suprotn smjer, anticlockwise **direction** u smjeru suprotnom od kazaljke na satu, clockwise **direction** u smjeru kazaljke na satu
**direct injection** *(marine eng)* In diesel engines with direct injection the combustion chamber is not divided and fuel is injected directly to the cylinder. (http://www.marinedieseleurope.com/)
**direction** *(safety)* naredba issues a **direction** izdati naredbu, narediti: AMSA issued a **Direction** for the vessel to make its way to safety in the Port of Geraldton. https://gcaptain.com/
**directional light** *(n)* a light illuminating a sector or very narrow angle and intended to mark a direction to be followed **svjetlo pokrivenog sektora**
**directional stability** *(navig, ship handling)* stabilan smjer (kretanja broda): However, with the speed increasing on a flood tide, the tug was finding it difficult to maintain **directional stability**. https://safety4sea.com/
**direction control valve** *(marine eng)* ventil za regulaciju smjera protoka
**direction finder** (=DF) *(navig)* A radio receiver with a directional coil antenna mounted over a compass card, used in navigation to determine the bearing of a radio signal. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) **goniometar** radio **direction finder** radiogoniometar
**direction finding** (=DF) *(safety, navig)* Homing on signals to pinpoint a position. (in SAR) **radiogoniometrija, određivanje azimuta radiogoniometrom**: Direction finding includes: VHF DF and HF DF.
**direction of current** *(oceanogr)* = set of current smjer u kojem teče morska struja;
The direction TOWARD which a current is flowing. **smjer morske struje**
**direction of waves, swells or seas** *(oceanogr)* The direction FROM which the waves, swells or seas are moving. **smjer valova i mrtvoga mora**
**direction of wind** *(meteorol, oceanogr)* The direction FROM which the wind is blowing. **smjer vjetra**
**directions** /ˈdi rekʃənz ; ˈdai rekʃənz/ *(n)* **upe**: Pilotage Exemption Certificates may be applied for in accordance with the provisions of Section 8 of the Pilotage Act 1987 and Schedule 2 to these **Directions**.
**direct-printing** *(comm, safety)* automated telegraphy techniques which comply with the relevant recommendations of the International Telecommunication Union Radiocommunication Sector (ITU-R). (COMSAR 14.4) **direktno ispisivanje, direktno printanje**
**direct reversing engine** *(marine eng)* stroj s direktnim prekretom: For **direct reversing main engines** >230 mm bore flame arresters or bursting discs are required for each cylinder fitted between the cylinder start air valve and the manifold.
**direct supervision** *(n)* neposredni nadzor (broda)
**dirty ballast** *(environ)* the seawater used for ballast when it is contaminated with the remnants or residue left in cargo tanks that previously carried crude persistent refined oils. (www.euronav.com) **prljavi balast, zauljeni balast**
dirty oil (n) (shipping econ) Less refined oil products such as fuel oil.

(dirty petroleum products (=DPP) (n) (marine eng, cargo) Liquid products refined from crude oil, whose color is greater than 2.5 on the National Petroleum Association scale. DPP’s include Fuel oil, Low Sulfur Waxy Residue (LSWR) and Carbon Black Feedstock (CBFS). (www.euronav.com)

prljavi naftni proizvodi: DPP's will usually require heating during the voyage as their viscosity or waxiness would make discharge difficult at ambient temperature. www.euronav.com

disability /ˌdiːˈsablɪti/ (n) onespособлjenost: The compensation provided under this paragraph for 100% disability shall not exceed US$150,000 for officers and US$100,000 for ratings, with lesser degrees of disability compensated for pro-rata.

disabled (adj) (safety, navig) onespособлjen (o brodu): The vessel became disabled just off Portugal’s southern coast following an engine room fire. https://gcaptain.com/

disabled vessel /diˈseibəld/ (=disabled ship) (adj) (navig) = vessel not under command (NUC) A situation wherein a vessel or aircraft afloat and not in distress or potential of distress, has lost all means of propulsion, steering or control to such a degree as to be incapable of proceeding to safety without assistance. (COMSAR) onespособлjen brod, brod nespособan za maneviranje: The vessel was disabled and had to be towed to port. The multipurpose vessel was in the vicinity of the disabled vessel as of 1150. German media reports say the disabled vessel blocked shipping traffic on the Elbe for several hours. http://gcaptain.com/capsize-bulk-carrier-breaks-elbe-river-ais/ The Canadian authorities began tracking the disabled containership on ... A Very Large Ore Carrier (VLOC) has been disabled since June 26 after a fire in its engine room

disagreement /ˌdiːˈɡriːmənt/ (n) nesporazum, neslaganje: If in doubt, query his intentions, and in case of disagreement, ensure that conflicting intentions / interpretations are resolved before continuing with the operation. After a slight disagreement about the stowage factor the surveyor confirmed that the vessel was within the stability criteria required by SOLAS.

disassemble /ˌdiːˈsembəl/ (v) (marine eng) rastaviti, demontirati

disassembly /ˌdiːˈsembli/ (n) (marine eng) rastavljanje, razmontiranje,

demontaža: Replacement or inspection of the piston rings is possible without disassembly of the liner: the piston can be partially removed from the liner for this purpose. For easy assembly/disassembly, the parts are connected to each other with slide connections.

disaster (n) (safety) nesreća: The tragedy is considered the worst maritime disaster in the country in over 30 years.

disbursements /diˈbɜːsmənts/ (n) 1 (shipping econ, logist) all expenses that the agents made for the vessel in a port (e.g. port duties, loading and unloading costs, tugs, provisions, etc.)

(disbursements account obrčun svih izdataka pomorskoga agenta za račun brodara u luci pristanišanja broda; Account rendered by a ship’s agent at a port and recovered from the carrier. (https://www.msc.com/shipping-glossary) izdaci (za agencijske usluge brodu prije putovanja) disbursements account obračun svih izdataka pomorskoga agenta za račun brodara u luci pristanišanja broda; Account rendered by a ship’s agent at a port to the shipowner for all sums paid out in respect of the ship’s call at the port such as pilotage, towage, any cash advance to the master, supply of provisions and stores and the agency fee. Receipts known as vouchers support the account, http://www.tkmglobal.net/chartering_D.HTM račun otpreme, troškovi otpreme, port disbursements Payments incurred for a variety of port expenses embracing fresh water, bunkers, customs fees etc. lučki izdaci (za takse,
pristojbe, tegljenje, peljarenje itd.), master's disbursements (zapovjednikovi izdaci): Master's disbursements are expenses by the master for items that are necessary for the navigation of the ship and the prosecution of the voyage. 1 (mar ins) In ocean marine insurance policies, the term disbursements relates to all expenses of the shipping company before the start of a journey, such as the costs for bunkers, provisions, inventory, outgoing port duties, etc. izdaci brodara prije početka putovanja broda

Disbursement Service Fee (n) (logist) A disbursement fee is charged for clients who do not pay their duties and taxes directly to customs, or other government authorities, and request that the freight forwarder does so on their behalf. This service fee is calculated as a percentage of those duties and taxes outlaid by (freight forwarder). (https://www.flexport.com/glossary/disbursement-service-fee/)

naknada špediteru za carinske i porezne usluge

disc 1 kolo, pločica; 2 disk

discard (v) (marine eng) odbaciti, baciti u smeće: Remove and discard the piston ring and scraper ring.

disc cutter (n) (marine eng) rastavni rezač

discharge (n) 1 (shipping econ, cargo handling) iskrcaj broda: The following procedures are recommended to ensure that a proper record is made of the loading, carriage and discharge: At the time of the incident, the vessel was passing Ile d’Ouessant (Ushant), France, en route for discharge at Rotterdam. complete discharge završiti iskrcaj: A vessel was preparing to sail from port after completing discharge when multiple alarms sounded.; 2 (cargo handling) iskrcaj (ereta (nafte, rasutih tereta itd): Samples should be taken from the vessel’s bunker tanks upon completion of loading and prior to discharge. cargo discharge iskrcaj tereta: When the cargo discharge was almost completed, the master and 2 other crew members entered the tank with the intention to carry out the required squeezing as described above.; 3 (nav arch, marine eng) odvod, ispust, pražnjenje, ispuštanje: Ensure that the water in ballast tanks is uncontaminated prior to discharge, by sighting of the surface and sample drawn from each tank; engine discharge odvod iz motora, ispust iz motora, overboard discharge ispuštanje u more (balasta, nafte itd.), iskrcaj u more (balasta, nafte itd.): Should any overboard discharges occur, they must be documented in an oil record book, a log that is regularly inspected by the U.S. Coast Guard

discharge (v) 1 (nav arch, seamanship) ispuštati, prazniti, iskrcaji, odvoditi

discharge ballast iskrcaji balast, ispuštiti balast: After discharging ballast from the forepeak, the vessel reflated some 5 hours later without the assistance of tugs., discharge bulge water ispuštiti kaljužnu vodu u more: The owner and operator of a fishing vessel have been fined $1 million after pleading guilty to discharging oily bilge water from the vessels’ engine rooms. https://gCaptain.com; 2 (shipping econ, mar law, cargo handling) iskrcaji (teret): It is the duty of the First Mate to receive and discharge cargoes, it is advisable for the master to note a protest whenever the consignees failed to discharge cargo or take delivery thereof, and pay freight in accordance with C/P or B/L terms. The ship duly moved to the container berth to discharge her cargo. The vessel was discharging a cargo of steel plates with shore cranes alongside a quay.

discharge (n) (environ) ispuštanje (nafte, ulja) u more: Dumping oil-contaminated water overboard is almost always followed by an attempt to cover the illegal dumping up by failing to record these discharges in the ship’s oil record book The tanker knowingly failed to record overboard discharges of oily bilge water. https://gCaptain.com illegal discharge protuzakonito
**Discharge** (n) *(hum_resources)* iskrcaj pomorca, otpust (nakon završetka ugovora): Any seafarer may request his immediate discharge on grounds of injury or illness. Svaki pomorac može zatražiti hitan iskrcaj s broda uslijed ozljede ili oboljenja. Any seafarer may request his or her immediate discharge on grounds of injury or illness, and such discharge may be granted in the Master’s reasonable discretion at the next appropriate port.

**Time and place of discharge** vrijeme i mjesto iskrcaja (pomorca) s broda: The Master shall give to a seafarer discharged from his vessel either on his discharge or on payment of his wages, the Seafarer's Identification and Record Book as issued by the office of the Maritime Administrator, with an entry specifying the period of his service and the time and place of his discharge.

**Discharge hose** (n) *(cargo, shipping econ, cargo handling)* iskrcajna fleksibilna cijev, iskrcajna gumena cijev: Each pump had a discharge hose passing through the port side freeing port leading to one of the tanks.

**Discharge line** (n) *(cargo handling, nav arch, marine eng)* cjevovod iskrcaja, odvodni cjevovod, odvodna cijev, iskrcajna linija: Frequently, overboard discharge lines are fitted with non-return valves to reduce the risk of backflooding. Although some ESD valves appeared to have been pressure tested by ship's staff, those on the cargo discharge lines were not, as there was no readily available method to do so.

**Discharge operations** (n) *(shipping econ, cargo handling)* operacija iskrcaja, iskrcaj: After re-checking the complete cargo system, discharge operations were resumed with all standard Company and Industry procedures in place. Later, the discharge operations were also suspended at shore request.

**Discharge rate** = unloading rate kapacitet iskrcaja (nafte, rasutih tereta), brzina iskrcaja (u tonama): ... the maximum venting capacity is well below the designed discharge rate of the pumps! This should cover the order in which tanks are to be loaded/discharged, tank/pump/pipe work allocation and loading/discharge rates in order to minimise the stress on the vessel and the risk of cross-contamination of different grades of cargo. What is the maximum loading rate / discharging rate?

**Discharge under pressure** (n) *(marine eng)* tlačni pročistač

**Discharge valve** (n) *(cargo handling, marine eng)* ventil za iskrcaj (tereta): The pump system consists of an expansion bellows, a suction valve, the pump itself and a discharge valve with non-return function. The cargo discharge valve of cargo tank 3S had stuck during the previous discharge and could only be used with a limited rate.

**Discharging** (n) *(shipping econ, mar law)* iskrcaj: Loading, Discharging and Delivery of the cargo shall be arranged by the Carrier’s Agent unless otherwise agreed.

**Discharging port** (n) *(cargo, shipping econ)* luka iskrcaja: Demurrage at the loading and discharging port is payable by the Charterers at two (2) per cent to cover insurance and other expenses.

**Discharging rate** (shipping econ) brzina iskrcaja, kapacitet iskrcaja
disciplinary proceedings /ˈdiːsəˌplɪnərɪ/ (n) (mar law) stegovni postupak, disciplinski postupak: The Master shall comply with the following disciplinary procedures against an erring seafarer:

disconnect (v) iskopčati, isključiti, otkvačiti, otpožiti: There is also often a need for a clutch to disconnect the engine from the gearbox. Shore party reboarded vessel and managed to disconnect cargo hose and lower it to the water.

discontinue (v) obustaviti: When grabs are in use, it is strongly suggested that, if a cargo is susceptible to damage by rain, snow or precipitation, the vessel should opt to discontinue cargo operations altogether during inclement weather and avoid working cargo through partially open hatchways. traffic discontinued obustavljena plovidba

discount /ˈdiskaʊnt/ (n) (shipping econ) popust: The original invoice must disclose all discounts and allowances, if any.

discrepancy /diˈskrepənsi/ (n) 1 (shipping econ) razlika (u broju, količini, opisu, ... tereta), nepodudarnost: Whereas the said discrepancy is beyond vessel’s control, the Owners, the Master, the Vessel and the Crew are not responsible for any dispute S obzirom da je spomenuta razlika iznad naše moći, brodovlasnik, zapovjednik i posada ne mogu biti odgovorni u slučaju bilo kakvog spora Believing the original plan to be incorrect, he amended the ullages in the discharge plan; The C/O did not discuss the discrepancy and revised stopping ullages with the OOW and Master, resulting in a one-man error. Any discrepancies in the value of the sounding may lead to suspicion and further investigation.

www.marineinsight.com Discrepancy between both figures razlike između brojaka (količina tereta); 2 (navig) failure of an aid to navigation to maintain its position or function as prescribed in the Light List odstupanje plovidbene oznake od objavljenih podataka
discretionary penalty /dɪsˈkreyʃənriˌpeneltri/=DP (n) (sailing/boating/yachting) prosudbena kazna (u regati): The notation ‘[DP]’ in a rule means that the penalty for a breach of the rule may, at the discretion of the protest committee, be less than disqualification. World Racing Rules of Sailing
disease /dɪˈziːz/ (med) bolest: a ship clean and free from any disease brod na kojem name nikakve (zarazne) bolesti Infective disease zarazna bolest, contagious disease zarazna bolest: This is to certify that the ship is free from any contagious disease, infectious disease zarazna bolest
disembark /diˈsimˌbɑːk/ (v intr) ANTONYM embark iskrcaji se (o peljaru, putniku, osobi): The pilot disembarked soon after unberthing, and the vessel proceeded at Full Ahead The heading was chosen to create a lee for the sea pilot to disembark safely, and the drift rate increased substantially under this beam wind situation until the ship became wind-rove at about 14:55. The package must be presented to the CBSA prior to any persons being allowed to disembark or embark the vessel, or any cargo being discharged. A pilot was about to disembark from a small cargo vessel in benign weather conditions, with a good lee, and the pilot launch alongside and under control. At 1524, the pilots disembarked after the ship entered the approach channel marking safe passage through the Bay.

https://safety4sea.com/ disembark a pilot iskrčati peljara: A 16m, twin screw pilot launch was tasked to disembark a pilot from an 81m general cargo ship., disembark a vessel / ship iskrčati se s broda: It has taken measures to ensure its required radio procedures are followed, and has changed the point at which pilots disembark outbound vessels. A ship pilot at the Port of Lisbon in Portugal has died after falling into the water while disembarking from a containership early Wednesday
morning. gCaptain <info=gcaptain.com@mail23.sea91.rsgsv.net>, disembark the lifeboat 1
iskrcati se iz brodice za spašavanje: All crew, except the assigned operating crew, disembark the lifeboat; 2 iskrcati se s brodice za spašavanje, disembark the passengers iskrcati putnike: Sirena Seaways was subsequently moved to another berth to disembark the passengers and vehicles, disembark the casualty iskrcati unosrećenu osobu: the ship deviated to the nearest port to disembark the casualty, disembark the passengers iskrcati životinje: Permission to disembark the animals will be granted only once authorization to do so is received from CFIA and once all necessary animal health permits are pr
disembarkation (= dis.im.bɑːˈkei.ʃən) (n) (navig) landing (of a pilot, crewmember etc.)

Two mooring bollards were displaced in the accident. After the impact with the quay the bulbous bow was displaced to port.
displace axially premjestiti uzdužno / aksijalno

displaced volume (n) (nav arch) istisnuta zapremnina

displacement /dɪˈspleɪmənt/ (n) (nav arch) the volume of fluid displaced by a freely floating
and unrestrained vessel, the weight of which equals the weight of the vessel and everything on board
at the time the displacement is recorded. https://square-words.tk › World War II; The weight in tons of the water displaced by a ship. This weight is the same as the total weight of the ship when afloat.
There are two factors that affect the displacement of the ship, the weight of the ship components that can be transformed (DWT) and the weight of the ship components that cannot be changed (LWT). Triple E class container ship Mærsk Mc-Kinney Møller - General characteristics: Type: Container ship; Tonnage: 165,000 DWT; Displacement: 55,000 tonnes (empty); Length: 400 m (1,312 ft); Length 400 m (1,312 ft); Beam: 59 m (194 ft); Draft: 16 m (52 ft). Displacement or displacement tonnage is the weight of water that a ship displaces when it is floating, which in turn is the weight of a ship (and its contents). It is usually applied to naval vessels rather than commercial ones, and is measured when the ship’s fuel tanks are full and all stores are aboard. (Wikip.)

Displacement hull: A hull design that achieves buoyancy by displacing a volume of water equal to its weight. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) Displasman, displacement table tablica istisnine, tablica deplasmana, loaded displacement ukupna istisnina, light displacement laka istisnina.

Displacement (DISP.) (n) 1 (marine eng) In a single acting engine, the volume swept by all pistons in making one stroke each. The displacement on one cylinder in cubic inches is the circular area (in square inches) times the stroke (in inches). (http://www.marinedieseleurope.com/) Stapajni obujam; 2 (marine eng) pomicanje, pomak, premještanje; 3 (marine eng) istisnuće (pumpe), istisnina (pumpe)

Displacement coils (n) (electr) COMPARE deflection coils zavojnice za pomak slike (na radaru)

Displacement from draught readings (n) (stab) istisnina dobivena iz očitavanja gaza

Displacement pump (n) (marine eng) volumetrijska pumpa, istisninska pumpa

Displacement speed (n) (sailing/boating/yachting) The theoretical speed that a boat can travel without planing, based on the shape of its hull. This speed is 1.34 times the length of a boat at its waterline https://www.ypiyachts.com istisninska brzina (jedrilice, brodice)

Displacement tonnage (n) (nav arch) the weight the water displaced by the vessel which in turn is the weight of the vessel at that time. (expressed in tons) (www.euronav.com) Istimina broda, deplasman light displacement tonnage the weight of the vessel only and the vessel's loaded displacement is the weight of the vessel and all cargo, stores, fuel, water, etc. on board (www.euronav.com) lagana istisnina broda, lagani deplasman

Display /diˈspleɪ/ (n) (navig) radarski pokazivač, pokazivač, ekran (radara), displej: The navigating officers on board the ferry had a preference for interrogating AIS targets on the radar display. Radar display radarski zaslon, radarski ekran: The chief officer saw that the vessel was fishing and, by using the EBL on the radar display, assessed that she was on a steady bearing. The master went to the bridge and, on examining the port radar display, found the automatic tuning facility was not operating correctly. We tried to acquire the contact on the S band radar display.

**disponent owner**

A person or company which has commercial control over a vessel’s operation without owning the ship as in a bareboat charter; Person or company who controls the commercial operation of a ship, responsible for deciding the ports of call and the cargoes to be carried, very often, the disponent owner is a shipping line, which time charters a ship and issues its own liner bills of lading. In most cases, Industrial Maritime Carriers are acting as “disponent owners”. [http://www.tkmglobal.net/chartering_D.HTM](http://www.tkmglobal.net/chartering_D.HTM); Charterer who has sublet the vessel and is acting as the owner per the terms of the contract.

(www.euronav.com) **brodar raspolagatelj**: This is done by taking the ships they require on time charter or another form of long term lease known as a bareboat charter, in which event they may be referred to as the disponent owner. The definition of a **disponent owner** is “deemed to be the owner but not actually the owner”. The registered or **disponent owner** of the vessel named herein (or substitute) only shall be liable for any damage or loss due to any breach or non-performance of any obligation arising out
of the contract of carriage, whether or not relating to the vessels seaworthiness. The person who hires a ship (or several ships) in bareboat charter or in time charter is called a ‘disponent owner’. If the commercial operation of the ship is entrusted to a managing company, than the manager is called ‘managing owner’. http://www.maritimeknowhow.com/ Many ships today are owned by banks or finance/leasing companies who have no operational involvement whatever. In practice the lessee companies, referred to as ‘Disponent Owners’ or one of their subsidiary companies, may appear as the Manager of the ship. The disponent owner, reimbursed the head owner 50% of that sum under the Inter-Club Agreement (ICA). https://safety4sea.com/ 2 (mar law) A person, such as a bareboat or time charterer, who, while not being the registered owner of a ship, nevertheless has the right to dispose of it (i.e. to control its commercial operation), notably by sub-chartering it to a third party. Although lacking title to the vessel, the disponent owner may have many of the rights and responsibilities of the owner

the port side of the keel; 2 (med) uganuće

**distort** /diˈstɔːt/ (v) izobličiti, iskriviti, iskriviti, deformirati: If the surface was uneven, then when the bolts were tightened the bedplate would be distorted, which in turn would distort the crankshaft, causing unacceptable stresses to be set up when the engine was running.

**distrainment proceedings** (n) (mar law, mar ins) ovršne radnje
distrainment proposal (n) (mar law) = execution proposal prijedlog za ovrhu

distraint /diˈstreint/ (n) 1 (mar law) COMPARE execution the seizure and holding of property as security for payment of a debt or satisfaction of a claim ovrha, pljenidba, zabrana distrain law ovršni zakon; 2 (mar law) zaustavljanje broda radi ovrhe

distress /diˈstres/ 1 (safety) A search and rescue incident where there is a reasonable certainty that one or more individuals are threatened by grave and imminent danger and require immediate assistance. (IAMSAR/Camsar 2014); a situation at sea when a station (ship, floating object, etc.) is threatened by grave and imminent danger and requests immediate assistance; Examples: fire, explosion, flooding, collision, grounding, list - danger of capsizing, sinking, vessel disabled and adrift, undesignated distress, abandoning vessel, person overboard; a state of danger to the lives of the passengers and crew of a vessel pogibao, pogibelj, Italian: pericolo respond to a vessel in distress reagirati na poziv za pomoć s broda u pogibli: The South African Maritime Safety Authority (SAMS A) is responding to a VLCC in distress off the port of St. Johns. https://gcaptain.com/; 2 nesreća, opasnost

distress acknowledgement /əkˈnoldʒmənt/ (n) (comm, safety) potvrda primitka poruke o pogibli: This 'auto acknowledge' should be disabled so that any DSC Distress Acknowledgement must be sent manually. If in doubt, consult a Coast Station/RCC before sending a DSC Distress Acknowledgement.

distress alarm (n) (comm, safety) SEE distress alert uzbuna o pogibli, signal pogibli, alarm o pogibili: The watchkeeping officer sent the DSC Distress Alarm.

distress alert (n) (safety, comm) The distress alert is a digital selective call (DSC) using a distress call format, in the bands used for terrestrial radiocommunication, or a distress message format, in which case it is relayed through space stations. (ITU-R); The distress alert may also contain information regarding the nature of the distress, the type of assistance required, the course and speed of the mobile unit, the time that this information was recorded and any other information which might facilitate rescue. (ITU-R); digitalni signal uzbune o opasnosti prema Spasilačkom koordinacijskom centru (RCC RH/MRCC RH) ili područnom centru za potragu i spašavanje (RSC/MRSC) koji mogu osigurati organiziranu pomoć; (https://narodne-novine.nn.hr/clanci/sluzbeni/full/2011_11_129_2586.html)

digitalna uzbuna o pogibli (putem DSC u sustavu GMDSS), digitalni selektivni poziv za pomoć u pogibili (u GMDSS-u), digitalni poziv za pomoć u pogibili (poslan putem DSC u sustavu GMDSS), DSC uzbuna o pogibli: The distress alert shall be sent through a satellite either with absolute priority in general communication channels, on exclusive distress and safety frequencies reserved for satellite EPIRBs in the Earth-to-space direction or on the distress and safety frequencies designated in the MF, HF and VHF bands for digital selective calling (see Appendix 15). (ITU-R) DSC distress alert digitalni selektivni poziv u pogibili, DSC poziv za pomoć u pogibili: Some DSC equipment
is programmed to automatically acknowledge a DSC Distress Alert. Send the distress alert poslati digitalni selektivni signal o pogiblji: The distress alert shall be sent through a satellite either with absolute priority in general communication channels, on exclusive distress and safety frequencies reserved for satellite EPIRBs in the Earth-to-space direction or on the distress and safety frequencies designated in the MF, HF and VHF bands for digital selective calling (see Appendix 15). (ITU-R), repeat the distress alert ponoviti digitalni selektivni signal o pogiblji: Once selected and initiated, a DSC distress alert will continue to be automatically repeated until terminated by the operator, initiate the distress alert započeti slanje digitalnoga signala pogiblji, poslati signal pogiblji, cancel the distress alert poništiti poslani digitalni selektivni signal o pogiblji, otkazatii poslani digitalni selektivni signal o pogiblji, genuine distress alert stvarni znak pogiblji: Unfortunately, some genuine distress alerts often go unheeded. False distress alert lažni digitalni selektivni signal pogiblji: False distress alerts already impose a considerable burden on Rescue Co-ordination Centres (RCCs) and divert SAR resources away from real distress situations and therefore also reduce the confidence of seafarers, receive a distress alert primiti digitalni selektivni poziv za pomoć u pogiblji: All stations which receive a distress alert or call transmitted on the distress and safety frequencies in the MF, HF and VHF bands shall immediately cease any transmission capable of interfering with distress traffic and prepare for subsequent distress traffic. (ITU-R) Distress alert (=a distress call transmitted electronically via DSC) should be distinguished from distress call (=a voice distress call transmitted via radiotelephony (VHF, MF, HF)).

distress alert button (=DIST) (n) (comm) dugme za uključivanje alarmnog signala u pogiblji, dugme za uključivanje digitalnog selektivnog alarma o pogiblji
distress alerting uzbunjivanje o pogiblji, digitalno selektivno uzbunjivanje o pogiblji
distress alert relay (n) 1 (comm, safety) The distress alert relay is a DSC transmission on behalf of another station. (ITU-R); a re-transmitted distress alert prenesena digitalna uzbuna o pogiblji (putem DSC u sustavu GMDSS), prenesen digitalni selektivni poziv za pomoć u pogiblji, retransmitiran digitalni selektivni poziv za pomoć u pogiblji: The distress relay on behalf of a mobile unit in distress shall be sent in a form, appropriate to the circumstances using either a distress call relay by radiotelephony, an individually addressed distress alert relay by DSC, or a distress priority message through a ship earth station. (ITU-R) A station transmitting a distress alert relay or a distress call relay in accordance with Nos. 32.16 to 32.18 of RR32-5 shall indicate that it is not itself in distress. (ITU-R); 2 prenošenje poziva za pomoć u pogiblji, retransmitiranje digitalnoga selektivnoga poziva za pomoć u pogiblji
distress and safety frequencies (n) (safety, comm) radiofrekvencije za komunikacije u pogiblji i sigurnosti keep a communications watch on the distress and safety frequencies: držati stražu na frekvenciji za pogibao i isgubljene:

The MRCC and MRSCs keep a constant marine radiocommunications watch on the following international distress and safety frequencies: · VHF-DSC channel 70 (156.525 MHz); · VHF channel 16 (156.800 MHz); · MFDSC frequency 2187.5 kHz SAR Manual, Finland 2010
**distress beacon** *(n) (safety)* A generic term used to describe any emergency locator transmitter, emergency position-indicating radio beacon or personal locator beacon. (IAMSAR/Camsar2014=Canadian Coast Guard))

There are two types of distress beacons regulated for use: 
1. COSPAS-SARSAT 406 megahertz (MHz) emergency locator transmitters (ELTs), emergency position-indicating radio beacons (EPIRBs) and personal locator beacons (PLBs), and 
2. Very high frequency (VHF) digital selective calling (DSC) EPIRBs (IAMSAR/Camsar2014=Canadian Coast Guard))

**radiosignal pogibli, radiopredajnik signala pogibli, radiolokator pogibili:** In the absence of other information, a signal from a 406 megahertz distress beacon, on its own, is to be considered as a sign of distress and shall be investigated immediately. Camsar2014; Cospas-sarsat

**trigger the distress beacon aktivirati radiosignal pogibli:** The skipper triggered the distress beacon on Monday afternoon and abandoned his 60-foot racing boat in a life raft, https://gcaptain.com/

**distress beacon alert** *(n) (safety) uzbuna putem radiosignala o pogibili:** Through the COSPAS-SARSAT system, the Canadian Mission Control Centre (CMCC) receives 406 MHz distress alerts from Emergency Locator Transmitters (ELTs), Emergency Position-Indicating Radio Beacons (EPIRBs) and Personal Locator Beacons (PLBs). CAMSAR II – Mission Coordination

**distress call** *(n) COMPARE distress alert** The distress call is the initial voice or text procedure (ITU-R) poziv za pomoć u pogibili (poslan radiotelefonijom), Italian: *chiamata di soccorso:* Always use the DSC to raise a distress call. transmit the distress call poslati poziv za pomoć u pogibili

*The vessel was located about 100 kilometers from Mumbai when it sent out the distress call. Sending a distress call by*
digital selective calling or by VHF channel 16 when an emergency arises is the right action to take. The distress call shall be sent on the distress and safety frequencies designated in the MF, HF and VHF bands for radiotelephony. (ITU-R), transmit a distress call poslati poziv za pomoć u pogiblji, odaslati poziv za pomoć u pogiblji: The skipper transmitted a distress call on VHF radio, which was answered by other vessels also sheltering in the bay., send a distress call by DSC poslati poziv za pomoć u pogiblji putem sustava DSC: Sending a distress call by digital selective calling or by VHF channel 16 when an emergency arises is the right action to take. The skipper immediately notified his crewman of the situation and sent out a distress call., broadcast a distress call poslati poziv za pomoć u pogiblji: After broadcasting a distress call at 1125, the 26 crew abandoned the vessel in an enclosed lifeboat., make a distress call poslati poziv za pomoć u pogiblji: The other deckhand was roused, while the skipper made a distress call to the coastguard. At 2:51 a.m., the captain made the first radio distress call to the Coast Guard https://gcaptain.com, receive a distress call primiti poziv za pomoć u pogiblji: Whilst on watch recently, I received a DSC distress call. 0538 Ship X to Coast Station - I have received distress call and am proceeding to position 0552 Ship X to Coast Station - I am now 4nm away. The Coast Guard received a distress call from the -----flagged vessel reporting that it was in need of assistance-
distress call relay (n) 1 (comm, safety) The distress call relay is the initial voice or text procedure for a station not itself in distress (ITU-R) glasovno prenošenje poziva za pomoć u pogiblji (radiotelefonijom), retransmitiranje poziva za pomoć u pogiblji (radiotelefonijom); 2 prenesen poziv za pomoć u pogiblji, retransmitiran poziv za pomoć u pogiblji
distress communications komunikacije u pogiblji: Distress communications rely on the use of terrestrial MF, HF and VHF radiocommunications and communications using satellite techniques. Distress communications shall have absolute priority over all other transmissions. (ITU-R)
distress flare (n) (safety) baklja za upozorenje o pogiblji
distress message (n) (comm, safety, navig) The distress message is a subsequent voice or text procedure following the DSC distress alert or initial distress call. (ITU-R, RR32-1) poruka pogiblji, poruka o pogiblji, poruka o opasnosti: As a result of this, the coastguard issued a distress message on behalf of the vessel, and an RNLI lifeboat and two helicopters were tasked to the scene. Pressing the DSC distress button for 3 seconds would have transmitted an automated distress message, which would have included the identity and position of the vessel.
distress phase (n) (safety, navig) stupanj opasnosti koji određuje centar za koordinaciju traganja i spašavanja ako je primljena sigurna obavijest da su plovni objekt i osobe na njemu u ozbiljnoj i neposrednoj opasnosti i potrebna im je hitna pomoć; A distress phase exists when a 406 megahertz (MHz) ELT has been reported by the Cospas-Sarsat system (elemental or composite position); A situation wherein there is reasonable certainty that a vessel or other craft, including an aircraft or a person, is threatened by grave and imminent danger and requires immediate assistance. (IAMSAR/Camsar2014) stupanj pogiblji, stupanj pogibelji: During the DISTRESS phase of a maritime emergency, the SMC shall, when applicable: .1 Initiate action in accordance with the detailed plans or instructions for the conduct of SAR operations in his/her area of responsibility. .3 Develop a search plan. .9 Assess and determine the most suitable SRU for assuming the duties of on-scene coordinator. Camsar2014
distress position (n) (safety, navig) pozicija broda u pogiblji: I was about 8 hours
steaming distance from the **distress position** and there were several ships nearer. What is your ETA at distress position?

**distress procedure** *(safety, comm)* DSC procedures use a combination of automated functions and manual intervention to generate the appropriate distress call format in the most recent version of Recommendation ITU-R M.541.

**distress relay** *(comm, safety)* prenesena poruka s oznakom mayday, prenesena poruka o pogibli: Within minutes I had received a Distress Relay from USCG in Miami, then another, and another, and another. **Do not send a DSC Distress Relay** to 'All Ships/All Stations' before consulting a Coast Station/RCC, unless you have been appointed 'On-Scene Co-ordinator - OSC' by the RCC.

**distress signal** *(navig, safety)* a radio signal, flag display or a sound, light used in calling for assistance in distress or emergency znak pogibli, signal pogibli: The Coast Guard Maritime Rescue Coordination Centre (MRCC Mumbai) received a distress call Sunday night at approximately 11:00 p.m. from the MV .... reporting that the vessel was listing by about 20 degrees. ... at 04:05h, an EPIRB distress signal has been received at Varna MRCC from .... Nothing else was heard from the vessel, and **no distress signal** was received. **false distress signal** lažni signal pogibli, genuine distress signal stvarni signal pogibli: Sometimes it may happen that genuine distress alerts will go unheeded.

**distress site** *(safety)* mjesto pogibli, mjesto oasnosti: The method of penetrating and accessing the distress site rests with the aircraft commander and the SAR Tech team leader. (Camsar2014)

**distress traffic** *(comm, safety)* Distress traffic consists of all messages relating to the immediate assistance required by the ship in distress, including search and rescue communications and on-scene communications. (ITU-R) **radiopromet u pogibli**: A distress traffic always has to commence with stating the position of the vessel in distress as specified in “GENERAL 11 Positions /13 Bearings” ...

The distress traffic controlling station/other stations may impose radio silence on any interfering stations by using the term “Seelonce Mayday/Distress”, unless ... **control of distress traffic** kontrola radioprometa u pogibli, upravljanje radioprometom u pogibli, monitor distress traffic pratiti radiopromet u pogibli, cease distress traffic obustaviti radiopromet u pogibli

**distress vessel** *(safety)* brod u pogibli: Various vessels asked distress vessel to repeat position and other details.

**distribute** /ˌdɪstrɪˈbjuːt/ *(v)* rasporediti (teret u štivi), raspodijeliti, razmjestiti, razdijeliti: stination, another agent working in close liaison with the agent forwarding the cargo will break bulk the consignment and distribute the goods to the various consignees. When dunnaging use boards placed 750 to 1000 mm apart so as to distribute the weight evenly over the beams.

**distribution** *(n)*

1 *(cargo handling, shipping econ)* rasperod (tereta), otprema (tereta): The cargo plan plan shows the distribution and position of the cargo in the ship’s holds or on deck. However, it was afterwards confirmed by sounding that there had been considerable asymmetrical distribution of ballast before the ship listed;

2 *(marine eng)* razvod, razvođenje: Connections are provided on the accumulators for the injection valves and for the fuel distribution and injection-control components. Result of investigation 1 It was established that despite being shut, the steam distribution and inlet valves were not holding. Atomisation is the usual term to indicate the proper distribution and penetration of fuel in the combustion chamber;

3 *(marine eng)* rasperod (sila, opterećenja): The mean indicated pressure is determined as a check on cylinder load distribution as
distribution box well as total engine output. The higher number of bolts allowed for a more even distribution of the stresses at the joint line and facilitated a slimmer connecting rod than with the two-bolt design. even distribution ravnomjeran raspored: Two pairs of studs are said to give the most even distribution of holding-down load, and also allow the tie rods to be located close to the bearing for efficient transfer of firing pressure load.

distribution box /ˌdistriˈbjuːʃə/ (n) (electr, marine eng) razvodna stanica, razvodna kutija: Fortunately, the breakers on the shore distribution box tripped automatically and there was no fire or injury.

distribution panel /ˌdistriˈbjuːʃən/ (n) (electr) razvodna ploča: The 220 volt electrical distribution panel outside the engine room access was totally destroyed.

distribution system (n) (electr) razvodni sustav: Trained shipboard personnel should be assigned to check and approve all SPDs in use or brought on board for compatibility with the vessel’s electrical distribution system prior to use.

distribution valve /ˌdistriˈbjuːʃən/ (marine eng) razvodni ventil: Before commencing the task, he isolated the line by shutting off the main distribution valves as well as the inlet valve for the steam heating coil from where the return line issued.

distributor /ˌdistriˈbjuːtə/ (n) (marine eng) razvodnik, razdjelnik distributor cap poklopac razvodnika, kapa razvodnika, distributor valve razvodni ventil: The distributor valves provide air to operate each starting valve in the correct order and timing, air start distributor razvodnik zraka za upućivanje stroja: The Air Start Distributor: The air distributor normally consists of a series of pilot valves, one for each cylinder arranged radially ... , distributor rotor The metering mechanism of the distributor-type fuel-injection system.
distributor block (n) (marine eng) blok razvodnika: A distributor block placed on the exhaust valve provides high-pressure hydraulic oil via two control valves to the exhaust actuator on top of the exhaust valve and to the booster function in the FBIV. www.man-es.com

disturb /diˈstɜːb/ (v) 1 (comm) ometati; 2 (cargo) dirati (teret, kolete); 3 (navig) ometati (promet, druge brodove): Always pass at a safe distance. Try to avoid crossing ahead. Do not disturb the vessel being overtaken. This can all be summarised very easily by the application of Good Seamanship and Common Sense.; 4 smetati: He did not want to disturb the master and did not contact the bridge.

disturbance /diˈstɜːrbəns/ (n) 1 smetnja, ometanje; 2 (meteorol) a disruption of the atmosphere that usually refers to a low pressure area, cool air and inclement weather poremećaj, Italian:perturbazione: The night was dark and there was a 25 knots wind blowing in the opposite direction to the tidal current, causing some disturbance on the river.

ditch (v) to land (an aircraft) on water in an emergency prisilno sletjeti na vodu

ditch bag (n) (sailing/boating/yachting, safety) vodonepropusna vreća za preživljavanje: Ditch Bags and Emergency Gear - Make sure you have all the supplies necessary for emergency survival (yes - you do need a compass, and only one Kit supplied Practical Sailor

ditching (n) (safety) The forced landing of an aircraft on water. prisilno slijetanje na more, ditching

diurnal /daiˈɔːnəl/ (adj) having a period or cycle of approximately 1 tidal day dnevni, jednom na dan

diurnal wind /daiˈɔːnəl/ (n) (meteorol) dnevni vjetar

dive /daɪv/ (v) roniti, uroniti: He dived underneath, but found it very difficult to free the skipper. No salvage is to be dumped /dived /jumped /thrown without written authorization from the carrier.

dive boat (n) (nav arch) ronilačka brodica, pomoćna brodica za ronjenje: flares would reduce the chance of flare reports being made to the coastguard from vessels out of sight of the situation; Divers and commercial dive boats should consider the overall risk when operating in busy shipping lanes.

dive equipment (n) ronilačka oprema: The group managed to remove their dive equipment to lighten the RHIB, which had been holed in a number of areas.

dive fishery (n) (fishing) ronilački ribolov: Dive fisheries typically involve hand collection of the target species with the aid of a breathing device.

diver /daɪvər/ (n) (safety) ronilac: Subsequent survey of underwater hull by a diver and internal inspection of bottom and peak tanks did not show any damage. The diver made a positive indication that he wished to continue with the dive and then he entered the water unaided. Following suspected damage, a diver’s examination can, at best, give only an indication of the condition of the external hull ... Divers are inspecting the ship’s hull for damage. Five divers are searching the area. Navy divers: Navy Divers were on the scene in case the ship was mined. https://safety4sea.com/

diverge (v) (navig) skrenuti (s kursa): After the turn, the vessel slowly diverged from her
planned track and, eventually, the GPS alarm sounded as she strayed outside of the 2 cable cross track error (XTE) margin. Your vessel is diverging from the reference line.

divergence /daiˈvɜːdʒəns/ (n) (meteorol) širenje vektorskog polja, a u meteorologiji služi za opis vodoravnih strujanja zraka divergencija: The actual track was then reconstructed to show the divergence of the two tracks.

diverging /daiˈvɜːdʒɪŋ/ (adj) divergentan (kurs), koji se odvaja diverging courses /daiˈvɜːdʒɪŋ/ divergentni kursovi, kursovi koji se otvaraju diverging limiters /daiˈvɜːdʒɪŋ/ (n) (navig) divergirajući graničnici division /daiˈveɪʃən/ (n) (navig) skretanje: Further engine problems necessitated a second division for repairs. Due to the berth; Despite the fact that the direct safe route to the berth was obstructed, the pilot convinced the master that it was safe to take a diversion and pass to the side of the warship that was obstructing the direct passage; On proceeding to the bridge, I discovered that my vessel was only 13 miles from the indicated position and required only a small diversion to arrive in 45 minutes. diversion of route mijenjanje rute

diversion /daiˈvɜːʃən/ (n) (logist, shipping econ) a change made in the route of a shipment in transit (also, reconsignment) (https://www.msc.com/shipping-glossary) preusmjeravanje tereta u transportu divert /daiˈvɜːt/ skrenuti, odvojiti, odvratiti: If practicable, divert the vessel to the nearest suitable port that can cater for the vessel and provide fast access to the container; We had received a message to say that we were to divert to Singapore for bunkers. The Port of Los Angeles plans to divert cargo ships to other destinations because of pandemic-fueled congestion. https://gcaptain.com/ The two shipping companies have begun diverting ships away from a marine terminal closed due to a COVID infected worker, ... https://Safety4sea.com divert the route promijeniti rutu: The vessel has unexpectedly diverted its route. https://www.marineinsight.com/ dive site (n) (navig) mjesto ronjenja, pozicija ronjenja: Skippers should not let their dive support boats drift far from the dive site.
dive support vessel (n) (nav arch) prateći ronilački brod, prateća ronilačka brodica: Dive support vessels should not rely too heavily on other vessels seeing and identifying an “A” flag correctly.
divided by (adj) COMPARE multiplied by podijeljen s, dijeljeno s
dividers /diˈvaɪdəz/ (n) (navig) a navigational tool used to measure distances on a chart navigacijski šestar: The position of the buoy is taken off the chart by dividers and entered in the GPS and saved as a waypoint. https://www.timbecon.com.au/spring-dividers

diving /ˈdaɪvɪŋ/ (n) ronjenje: The swell had increased, the weather was closing in, and it was decided
that the conditions would make diving unsafe.

diving casualty (n) (safety) ronilačka nesreća, ronilačka nesreća pri ronjenju

diving centre (sailing/boating/yachting, safety) ronilački centar

diving equipment (n) ronilačka oprema

diving helmet (seamanship) ronilačka kaciga: “SWITCH ON!” the diver yelled into the speaker inside his Superlight 17 fiberglass diving helmet. https://gCaptain.com

diving incident (safety) ronilačka nezgoda, nezgoda pri ronjenju: Diving accidents occurring in coastal waters and remote areas usually require medical assistance on short notice. CAMSAR II – Mission Coordination

diving inspection (safety) ronilački pregled: A diving inspection was necessary to untangle the messenger line from the starboard pod; no damage to the pod was found.

diving operations (safety, navig) ronjenje, ronilačke operacije: The dive boat was displaying an International Code ‘A’ flag to denote diving operations in progress.

diving survey (safety) ronilački pregled dna broda: After a diving survey of the vessel’s hull, rudder and propeller, the attending Classification Surveyor found the vessel in all respects capable of continuing on her voyage.

diving vessel (nav arch) ronilački brod: The diving vessel was displaying clearly and conspicuously the international code flag Alpha, drawing attention to the fact that it was engaged in diving operations. diving support vessel prateći ronilački brod: Modifications were being carried out on the diving bell recovery system of a diving support vessel.

division (math) dijeljenje

division1 (nav) A main subdivision of a ship’s crew (1st, E, G, and so on)

(fhttp://www.quarterdeck.org/index.html) služba - odjel (na ratnom brodu); 2 (nav) an organization composed of two or more ships of the same type. divizijun brodova

division wall (nav arch, marine eng) pregradna stijena

DLOSP (=dropping last outwards sea pilot) (mar law) iskrcaj zadnjeg peljara pri isplavljenju broda

DO (=D.O.; diesel oil) (marine eng) dizel gorivo

dock (v) (ship handling, seamanship) privezati se, pristati: She floated free with the rising tide and finally docked about 3 hours late. Our ship was docked in Sydney and, at around 11. Double-checking the computer, he saw that the ship/AIS was still docked. The Terminal wanted the vessel to dock and undock with holds open. These pier improvements will allow two 18,000-TEU ships to dock at the same time The incident occurred at approximately 3:45 p.m. local time as the containership was docking under the supervision of the pilot. https://gcaptain.com dock the boat under power

pristati na motorni pogon (o jedrilici), pristati uz pomoć motora (o jedrilici)

dock2 (ports) The designated water area, alongside or between piers, intended for ships to tie up for the purpose of loading or unloading cargo and passengers.

(http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) lučka obala,

pristanište: The designated water area, alongside or between piers. On the day the vessel was scheduled to leave the dock, all the ship’s Officers and Crew were busy for the whole day attending various jobs. While sailing further into the port, we came closer to the dock and saw a docked bulker. All packages which are found broken during discharge should be laid aside on board, or if discharging on to the dock, and the damaged cargo locked up (a lock-up should always be provided and carefully recoopered, etc. The
breast line bollard failed and due to a lack of spread of lines we drifted off of the **dock**. In **dock** u luci: About 5 years ago I was appointed as Captain to a ship during the first voyage after it had been in **dock** for repairs., On the **dock** u luci, na lučkoj obali: Incoming cargo should be carefully examined - which is best done on the **dock** or wharf rather than on board - and every unsound or suspicious package rejected until its contents have been ascertained., Leave the **dock** isploviti, napustiti luku: On the day the vessel was scheduled to **leave the dock**, all the ship’s Officers and Crew were busy for the whole day attending various jobs., On the **docks** na lučkoj obali, in the **docks** u luci, be off the **dock** biti udaljen od veza (gata, obale): ... the exchange did not address how far the vessel was to be off the **dock** when the ship was to start turning, when the tugs were to be let go,

---

**dock** (n) (ports) pier; jetty; **gat**: When a ship broke away from a **dock** in Portland, Oregon, it was found that her ropes had been too slack. contact between two vessels, **King George Dock**, Hull on 13 November 2007 Published 30 May _ Viking Islay – loss of three lives, 25 miles off the East Yorkshire coast on 23 September 2007 Publi This may be an area such as a river or port, or a precise place such as a particular berth, wharf, **dock** or mooring.

**dock** (n) (ports) berth; quay; A cargo handling area parallel to the shoreline (https://www.msc.com/shipping-glossary) **pristan, vez**: The ship was secured alongside the **dock** within 15 minutes. The vessel **came into dock** at the Port of Vancouver’s Global Container Terminal.

**dock** (n) (ports) originally, the term dock denotes an area of water that can accommodate a ship and can be closed off by locks to allow regulation of the water level.; the water space between adjacent piers or wharves or the space in a drydock **dokovska luka**: Once the lock had filled, the vessel **entered the dock** and made her way towards the berth. Previously, they had operated from a sheltered enclosed **dock**, but the new pontoon was located in a more exposed position within the harbour. contact between two vessels, **King George Dock**, Hull on 23 November 2008

**dock** (n) (ports) lučki bazen, Italian: **bacino; darsena**: An **enclosed dock**, with limited manoeuvring space and other vessels in close proximity, is not the ideal place to get to grips with a vessel’s handling characterist The master has applied for a pilot to bring the ship to the berth or **dock**. She then proceeded into the second **dock** without further incident.

**dock** (n) (sailing/boating/yachting) In US it often indicates a small landing pier for accommodating boats in a river or lake creek. **gat u marini, mali gat (za brodice, jahte, glisere), mali pristan**: They walked down **Dock A** to Slip A-47 … to **return to the dock** is simply the reverse of what was done to get out of the **dock** and go. https://www.practical-sailor.com/

**dock** (v) 1 (ship handling, navig) **a = berth** to navigate a vessel to tie up at a wharf **uploviti u luku, uploviti u dokovsku luku**: The vessel remained afloat and was able to **dock**. On Saturday the containership **docked at Bremerhaven**, completing the first voyage by a containership across...
the Northern Sea Route.

dockage /ˈdɔkɪdʒ/ (n) (mar law, shipping econ) a charge by a port authority for the length of water frontage used by a vessel tied up at a wharf. naknada za korištenje vezova u luci:
Vessels engaged in foreign trade that berth at any port of call shall also be charged DOCKAGE at BERTH per GRT per calendar day or fraction thereof, as follows, provided that, for purposes of computation, a maximum of 50,000 GRT shall be used: dockage at berth naknada za korištenje veza uz lučku obalu, dockage at anchorage naknada za korištenje veza na sidrištu
dock alignment heading (n) (navig) pramčanica poravnata s pristaništem, pramčanica u smjeru pristaništa: At that time, the heading of the Levant was 024 degrees with a speed of 4.3 knots, about 41 degrees off the dock alignment heading of 343 degrees.
https://safety4sea.com/
dock basin (n) (ports) a space between two wharves or piers for the mooring of ships lučki bazen: The cargo ship started to close a dredger that was working on the opposite side of the dock basin, so the pilot told the master to go ‘ahead’.
dock bumper (n) (sailing/boating/yachting) obalni odbojnik

dock dues (n) (ports, mar law) Charge levied against a shipowner or ship operator by a port authority for the use of a dock. http://www.tkmglobal.net/chartering_D.HTM dokovske
prijostjbe, prijostjbe za korištenje veza: The Dock Master will require to sight the Dock Pass issued by the authority when dock dues have been paid before he will permit the vessel to leave. The buyer will be responsible for the charges involved in getting the goods off the ship to his warehouse, such as lighterage, dock dues and custom duties.

dock entrance (n) (ports, navig) prilaz vezu, prilaz lučkom bazenu
docker /ˈdɔkər/ (n) = power distribution (ports, shipping econ) lučki radnik, doker
dock gate (n) (ports, navig) ustava lučkog bazena, dokovska usatva, brana za u lučki bazen
docking /ˈdɔkɪŋ/ 1 pristajanje docking under power (sailing/boating/yachting) pristajanje na motor (o jedrilici), pristajanje motorom (o jedrilici); 2 privezivanje
docking bracket /ˈdɔkɪŋ/ (n) (nav arch) koljeno za dokovanje
docking communicator /ˈdɔkɪŋ/ (n) (navig, comm) dvosmjerni razglasni uređaj između zapovjedničkoga mosta i manevarskih mjesta manevarski razglas, komandni razglas za pristajanje broda
docking head (n) (nav arch) A docking head is linked to a cone in the boat and keeps the boat steady during all operations with the davit (when the boat is at its upper position in the davit)
protnunihajuća glava sohe (za brodice): The ship was fitted with a “Caley” type davit, consisting of a single fall running through a docking head to a single release hook in the boat. A docking head fixed to the davit is triaxially operated via three hydraulic cylinders and fits directly onto a cone in the boat.

docking joystick joystick za mavevriranje u luci (na vezu) IPS docking joystick joystick za motore Volvo Penta: The Joystick system calculates balance and thrust to match your boat’s specific characteristics. https://www.volvopenta.com/marine/accessories/joystick-control/
docking line (n) (sailing/boating/yachting) privezni konop, privezno uže
docking maneuver (=docking manoeuvre UK) (n) (ship handling, US) ANTONYM undocking maneuver manovra pristajanja broda
docking master (n) (mar law, navig) = dock master upravitelj dokovskog veza, zapovjednik lučkog bazena: upravitelj lučkog veza/terminala After a nine-hour, all-night river transit, the vessel was approaching the discharge terminal, where the river pilots disembarked and the docking master boarded.
(ing) pilot /dɔkɪŋ/ (n) (mar law, navig) lučki pilot (za privezivanje broda): The crew were rigging the pilot ladder to receive the Hamburg dock pilot and preparing to make fast the tugs. Once the docking pilot boarded, the river pilot disembarked on the pilot launch.

docking plan (n) (nav arch) Detailed structural plan and profile of the lower hull structure required for correct location of the vessel in dry docking. https://officerofthewatch.com/tools/maritime-dictionary/
plan suhog dokovanja broda
docking signals /dɔkɪŋ/ (n) (navig) signali za privezivanje broda
docking survey /dɔkɪŋ/ (n) carry out a docking survey obaviti pregled broda u remontnom brodogradilištu (safety) pregled broda u doku, pregled broda u remontnom brodogradilištu: After an underwater survey a conditional certificate of class was issued for the ship to sail to the nearest major port in order to carry out a docking survey. Result of investigation: It was concluded that after the last tail end shaft and docking survey two months ago, the shipyard staff had failed to fully tighten the bolts of the two-piece clamp ring (shaded in red) on the tail shaft.
docking telegraph /dɔkɪŋ/ (n) (comm, navig) komandni razglas za pristajanje

dock master (n) (ports, navig) = wharfinger, upravitelj lučkog veza, zapovjednik dokovskog veza, zapovjednik lučkog bazena: I should also mention that in many well-managed terminals, it is customary for an experienced berthing or dock master to control the shoreside operation in close liaison with the pilot. At 0430, VTS informed the vessel that the dock master was prepared to allow the vessel to berth and that the fire and rescue services would attend on her arrival.
dock pass (n) 1 (mar law) dozvola (pomorcu) za izlaz u grad; 2 dozvola (brodu) za uplovlenje u dokovsku luku: But if the ship is in an enclosed dock, the Dock Master will require to sight the Dock Pass (issued by the authority when dock dues have been paid) before he will permit the vessel to leave.
dock pilot (n) (ports, navig) peljar za vezivanje broda, peljar za pristajanje uz vez
dock receipt (n) (mar law, shipping econ) A receipt issued by the carrier attesting to the delivery of the goods to the dock prior to their loading aboard the ship. It contains all relevant information about the cargo such as weight, volume, number of pieces etc. It is also used to calculate freight and other handling costs for the cargo. potvrda o uskladištenju (u luci), potvrda (luke) o primitku tereta na ukrcaj: When the cargo consignment is delivered to the terminal a dock receipt is issued to the person delivering it. When delivery of a foreign shipment is completed, the dock receipt is exchanged for a bill of lading with the transportation line.
dock regulations (n) (ports) lučki propisi
dockside /dɔksaɪd/ (adj) on the dockside na (lučkoj) obali 1 (ports) obalni: Despite his injuries, the bosun managed to swim around the stern of the ship to a dockside ladder, from where he was assisted out of the water and given medical treatment; 2 (ports) the land area immediately adjacent to the dock lučki
dockside /dɔksaɪd/ (n) (ports) lučka obala: At 0530 the cargo loading crane driver arrived, and an hour later he started to remove the smoking cargo to the dockside, where it was cooled down once more. As the master put the engines astern to clear the linkspan, he dragged the pontoon away from the dockside.
dockside crane /dɔksaɪd kreɪn/ (n) (cargo handling, ports) obalna dizalica, dizalica na lučkom doku: Are dockside cranes available? Yes, dockside cranes are available.
dockside manoeuvring (n) (navig, seamanship) manovra pristajanja broda, pristajanje broda
dock trials (n) (nav arch) events conducted at the shipyard to determine the ability of the ship, from a material standpoint, to conduct sea trials safely ispitivanja broda u brodogradilištu ili na opremnom vezu prije primopredaje
dock wall (n) (ports) obalni zid: A dredger was clearing a shoal, close off the next berth downstream, between the dock wall and the centre of the fairway.
dock warrant (shipping econ) a document acknowledging that the goods have been deposited with a dock or port potvrda o uskladištenju (tereta s broda u lučko skladište): Along with the Bill of Lading the Dock Warrant and Delivery Order are some of the most important documents of title to the goods.
dock water (n) (stabil) water density that lies between the two extremes, i.e. fresh water and salt water miješana voda, stvarna gustoća vode (između gustoće slatke i slane vode) dock water allowance (DWA) the number of millimeters by which the mean draught changes when a ship passes from salt water to dock water, or vice versa, when the ship is loaded to the Summer displacement (Rhodes, Ship's Stability, Seamanship, 2003) iznos promjene gaza pri ulasku u područje različite gustoće vode, krcanje u miješanoj vodi
dock worker (=dockworker) (n) (ports) lučki radnik: On the whole this well-intentioned article was a good one illustrating the type of incident that kills hundreds of seamen and dock workers every year around the world, including the odd surveyor. Offshore vessels’ units’ crews shall not be required or induced to carry out cargo handling and other work traditionally or historically done by dock workers without the prior agreement of the ITF dockers’ union ...
Dockworkers' Union (n) (hum_resources) sindikat lučkih radnika: Felixstowe Port Accuses Union of Letting Down Dockworkers https://gcaptain.com/
dockyard /ˈdɔkˌjaːd/ 1 (ports, nav arch) a shipyard or facility where ships are constructed or repaired opremni vez, remontni vez: Dockyards are sometimes more associated with maintenance and basing activities than shipyards There was no fire watch, either by the dockyard or the ship because nobody realised he was working through.
brodogradilište; 2 (nav arch) remontno vez u ratnoj luci, vez za opremu i popravak ratnih brodova; 4 a shipyard or plant where ships are constructed or repaired brodogradilište
Doctor / Physician (n) (med, mar law) person responsible for the treatment of crew members.
brodski liječnik, brodski doktor: The position of a doctor / phisician requires current license and extensive experience within primary care, trauma, internal, cardiac, and emergency medicine. If in port, and it is thought necessary, a doctor should be called or the injured person should be sent to a hospitl:
documentary credit any arrangement, however named or described, whereby a bank (the Issuing Bank) acting at the request and on the instructions of a customer (the Applicant) or on its own behalf, http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; a process in which a bank, at the request of a buyer of goods, undertakes to pay the seller of the goods a certain amount, subject to production of a number of clearly defined documents. A Letter of Credit is the basic document for documentary credit.
documentary shipper (n) (mar law) a person, other than the shipper, that accepts to be named as “shipper” in the transport document or electronic transport record. (Rotterdam Rules 2009)
dog (v) (seamanship) A hood over a hatch to protect from wind and spray (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) zaštitna cerada nad grotlom ili otvorom
dog (n) (seamanship, nav arch) A hold fast, a short metal rod or bar fashioned to form a clamp or clip and used for holding watertight doors, manholes, or pieces of work in place

https://www.logisticsglossary.com/term/documentary-credit dokumentarni akreditiv, akreditiv, bankovni komercijalni kredit, komercijalni akreditiv: Standard form bills of lading, charterparties, marine insurance policies and sales contracts are good examples of common forms and the accepted meaning of the terms, as well as the York/Antwerp Rules on general average and the Uniform Customs and Practice for Documentary Credits.
documentary shipper (n) (mar law) a person, other than the shipper, that accepts to be named as “shipper” in the transport document or electronic transport record. (Rotterdam Rules 2009)
zamjenski krcatelj, opunomoćeni krcatelj: a number of the provisions in the chapter on the shipper’s obligations to the carrier can be criticized. For example it is not clear to what extent the shipper will still be liable for breaches of the obligations under chapter 7 in a situation where a documentary shipper delivers the goods to the carrier. http://www.maritimelawlibrary.se
Document of approval for the rate of sewage discharge (n) (environ) Dokument odobrenja količine ispuštanja neobrađenih sanitarnih otpadnih voda
Document of Approval of the Stability Instrument (n) (nav arch, stabil) Potvrda o odobrenju računalnog sustava za provjeru stabiliteta
document of compliance (=DOC) (n) (marine eng, cargo, navig) potvrda o usklađenosti: This enabled the local Lloyd's Surveyor to complete the survey and issue a Document of Compliance for Carriage of Dangerous Goods in Bulk. The vessel must be in possession of a valid Document of compliance with special requirements for ships carrying dangerous goods. Interim document of compliance privremena potvrda o usklađenosti
document of title (n) (mar law) isprava koja navodi tko je vlasnik tereta odnosno tko ima pravo primiti teret isprava koja daje naslov na teret: The voyage charter remains the governing contract of carriage; the bill of lading serves only as a receipt and as a document of title to the goods. Contract of carriage applies only to contracts of carriage covered by a bill of lading or any similar document of title, ...
dog /'dɒg/ (n) (seamanship) A hood over a hatch to protect from wind and spray (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) zaštitna cerada nad grotlom ili otvorom

https://safety4sea.com/ winch dog zupčasta spojka vitla: The Chief Engineer managed to engage a mechanical winch dog before the last layer of wire unraveled from the towing winch drum After the Chief Engineer had engaged the dog, I pulled the throttle back to
dead slow ahead and ....
https://timcoindustries.com/our-catalog/deck-hardware/6-dog-raised-watertight-hatch-copy/
dogbolt  /ˈdɒɡ bəʊlt/  (nav arch)  leptirasta matica za zatvaranje poklopca brodskog okna

dog clutch  (n)  (marine eng, cargo handling)  A dog clutch is used to separately engage or disengage each of the units of the winch: the cable lifter, mooring drum and a warp end.  zupčasta spojka:
In order to remove the dried old grease around the dog clutch and shaft, it was necessary for the seaman to extend his arm between the drum and the winch drive gear and clear it manually.  He then attempted to remove the old grease from the dog-clutch arrangement.  Lay out the port trawl wire but the main engine stopped, resulting in the loss of hydraulic power and a consequent inability to disengage the winch dog clutch.

dogfish  (=spiny dogfish, spurdog, mud shark, piked dogfish)  (n)  1
COMPARE nursehound  Lat.  Squalus acanthias  pas kostelj  spotted dogfish
COMPARE small-spotted catshark  morska mačka

dogs  (n)  (marine eng, sailing/boating/yachting)  leptiraste matica

dog ship  (n)  (shipping econ, logist)  Dodatni brod koji se u linijskom servisu angažira, izvan redovitog plovdbenog reda, u situacijama kada se na tržištu/u pojedinoj luci u izvanrednim situacijama akumulira veća količina tereta (mogu biti puni kontejneri, ali isto tako i prazni kontejneri) koje nije moguće ukrcati (evakuirati) na brodovima u redovitom linijskom servisu.  (J. Karmelić, personal information);  an additional lship enetered in the regular liner service due to increased market demands
(increased volumes of cargo, containers etc.) **dodatni brod u linijskom servisu (radi povećanih zahtjeva tržišta)**

**dog’s teeth** *(n)* **zubatac**

**dog vane** *(sailing/boating/yachting)* pokazivač smjera vjetra, **muštravent**; **muštravenat**

**dog watch** *(=dodge watch)* *(n)* *(seamanship)* a short watch period, generally half the usual time (e.g. a two hour night watch between two four hour ones); A dog watch is a work shift, also known as a "watch", in a maritime watch system that is half the length of a standard watch period. This is typically formed by splitting a single four-hour watch period between 16:00 and 20:00 (4 pm and 8 pm) to form two two-hour dog watches, with the "first" dog watch from 16:00 to 18:00 (4 pm to 6 pm) and the "second" or "last" dog watch from 18:00 to 20:00 (6 pm to 8 pm).

(https://en.wikipedia.org/wiki/Dog_watch) **polusmjena, pola vremena straže:** Under the new system, by just doing one of the 2 hour dog watches in the morning, I can make sure that each of the officers gets a break one day in three. 

2 *(seamanship)* **brodska straža** *(na našim starim brodovima) od 00:00 do 04:00 sata, pasja gvardija** first **dog watch** brodska straža od 16:00 do 18:00, last **dog watch** brodska straža od 18:00 do 20:00 *(U hrvatskoj pomorskoj tradiciji "pasja straža" odvija se od 00:00 do 04:00 a u engleskoj ratnoj mornarici oda traje od 16:00 do 20:00.)*

**doldrums** /ˈdɔldrəms/ *(n)* *(meteorol)* **SYNONYM equatorial trough = horse latitudes** COMPARÉ trade winds the belt on each side of the Equator in which little or no wind ordinarily blows; a popular nautical term that refers to the belt around the Earth near the equator where sailing ships sometimes get stuck on windless waters.

(https://oceanservice.noaa.gov/facts/doldrums.html) **ekvatorijalna tišina**

**dolphin** /ˈdɔlfɪn/ *(n)* *(ports)* a large wooden pile or a block of wood piles with a ring bolt at each end, used as a mooring post or for mooring a buoy; A structure consisting of a number of piles driven
A minor aid to navigation structure consisting of a number of piles driven into the seabed or riverbed in a circular pattern and drawn together with wire rope. (https://www.msc.com/shipping-glossary) privezni stup, stup za vez (izvan lučke obale), dolfin: At this point the vessel’s bow was 440M (just over 2 ship’s lengths) from the dolphin of the bulk berth. The vessel was to moor to a fixed jetty forward, stern ramp onto a floating pontoon, and rest alongside an isolated dolphin amidships, which was also used for a spring from aft. One man was standing on the dolphin ready to throw a heaving line down to take the spring from the boat. mooring dolphin a cluster of pilings to which a boat or barge ties up privezni stup: The Port Authority had built a mooring dolphin especially for cruise ships for this purpose and assured us that it was strong enough for all of the headlines. Instead of moving into the river, the pilot manoeuvred the ship close and parallel to the jetty, and as she approached the upriver mooring dolphin, he placed the engine full astern. The LNG ship struck the wharf’s south mooring dolphin. https://safety4sea.com/
**donkey engine** (n) (marine eng) A small gass, stem or electric auxiliary engine, set on the deck and used for lifting, etc. [https://officerofthewatch.com/tools/maritime-dictionary/](https://officerofthewatch.com/tools/maritime-dictionary/) **mali pomoćni motor** (parni, električni)

**donkeyman** /ˈdɔrkiːmən/ (n) (marine eng) = oiler head of engine room ratings; an obsolete title; The term derives from 'donkey-man', i.e. a rating in charge of the 'donkey-engine' - a small steam engine that was used to propel the coal into the boilers of the main propulsion engines **vođa stroja**, **noštromo (od) makine**, **Italian: caporale di macchina**: The propulsion plant department can also include some petty officers, such as the donkey man and the storekeeper and, if the ship is a tanker, there may also be the pump man. The donkey man took a few recordings and noted them in the Engineer’s Log. (It.: caporale di macchina)

**donkey pump** (n) (marine eng) pomocna pumpa pare

**door** (nav arch) vrata sliding door klizna vrata: The sliding door opened and the two passengers were just about to step through the door when, to their alarm, they found that there was no deck outside the door., **ramp door** vrata rampe (ro-ro broda, trajekta): 200850 Ramp door near miss During her maiden voyage, the CO of a new ro-ro ship was preparing to set the stern quarter ramp door for cargo operations., **side door** bočna vrata (ro-ro broda): Whilst a Pilot was disembarking from the side door of a Ro-Ro vessel departing port, both the side ropes of the pilot ladder parted once the full weight of the pilot was on the first rung of the ladder., **cabin door** vrata kabine: Looking down into this hatch, he saw flames and smoke coming from the open cabin door., **bow door** pramčana vrata: Ro-Ro ferry bow door failure in port Bow door operating panel on car deck valves was found in the correct sequence., **access door** prilazna vrata: On opening the access door to the hold, the officer saw that the first mate was unconscious, about three metres from the door., **door operating handle** ručka za otvaranje vrata: The door operating handle protruded farther inside the watertight doorway space than was necessary., **hinged door** vrata sa šarkama: The lower frame box is on the front of the engine provided with a large hinged door for each cylinder., **watertight door** vodonepropusna vrata: Water flooded through an open watertight door and into the accommodation. Lessons learned * Always fully open a watertight door before passing through the doorway when the door is in the remote-close mode., **container door** vrata kontejnera: The container released has bent door hinges, rust, dents, old cracks in the door of the container, apparent improper previous repairs etc. [https://shippingandfreightresource.com/](https://shippingandfreightresource.com/)

**door-to-door service** (n) **1** (shipping econ) Said of a service or freight rate provided by a container shipping line whereby goods are loaded into a shipping container at the shipper’s premises and not unloaded until they arrive at the consignee’s premises.

http://www.tkmglobal.net/chartering_D.HTM; Describes the transportation of a container and its contents or cargo from consignor to consignee; also known as House to House. Not necessarily a through rate. (https://www.msc.com/shipping-glossary) **prijezvoz od skladišta otpremnika (prodavatelja) do skladišta primatelja; 2** **(shipping econ)** prijevoz tereta pod istom teretnicom od prodavačeva/proizvođačevog do kupčeva/potrošačevog skladišta usluga / služba / servis vrata -vrata, izravan / direktan prijevoz

**DOP** (=dropping last pilot) (mar law) iskrcaj peljara pri isplovljenju broda

**Doppler effect** (n) (navig) A change in the observed frequency of a wave, as of sound or light, occurring when the source and observer are in motion relative to each other, with the frequency increasing when the source and observer approach each other and decreasing when they move apart. The motion of the source causes a real shift in frequency of the wave, while the motion of the observer
Doppler frequency oscillator produces only an apparent shift in frequency. Also called Doppler shift. Dopplerov efekt

Doppler frequency oscillator (n) (navig) namjestivi oscilator, regulacijski oscilator, podesivi oscilator

Doppler log (n) (navig) ultrazvučni brzinomjer, snimalica dubina, uređaj za ultrazvučno snimanje dubina, Doppler-log: ... , an increase in current reading from 2.2kts to 3.2kts, and a Doppler log reading of 4.5kts were all immediately observed. A visual sighting of the clump weight wires showed it to be streamed astern, also DP observation It was assumed, wrongly as it turned out, that in shallow water the Doppler Log goes automatically into ground tracking mode and gives speed over the ground.

dormant period (n) (navig) razdoblje mirovanja (u sustavu BNWAS)

dory (n) kovač, šampjer
https://www.britannica.com/animal/dory-fish
double (v) (seamanship) COMPARE Single up! to place a second dockline alongside the existing one udvostručiti (privezno uže)
double-acting (n) (adj) (marine eng) dvoradni double-acting pump dvoradna pumpa, double-acting piston dvoradni stap, double-acting engine dvoradni stroj
double bottom (n) (nav arch) the space between the inner and outer skins of a vessel called respectively the inner bottom and shell, usually extending from bilge to bilge and for nearly the whole length of the vessel fore and aft, and subdivided into water or oil tight compartments
(https://www.seasources.net/) dvodno, Italian: doppio fondo: In the system shown in the diagram above, the oil is stored in tanks in the double bottom from which it is pumped to a settling tank and

heated.
https://www.tc.gc.ca/eng/marinesafety/tp-tp14609-4-construction-150.htm
double bottom strut (n) (nav arch) element koji povezuje i prenosi vertikalno opterećenje između uzdužnjaka oplate dna i pokrova dvodna razupora dvodna
The next morning, the chief officer resumed the operations by deballasting one of the after double bottom tanks. This prudent practice is to avoid any damage to cargo by water which may potentially enter the hold via leaking double-bottom tank manhole lids, sounding and air pipes and cracks or holes in tank plating.

The boiler is also provided with a double casing which allows the passage of combustion air to the air control register surrounding the burner.

Double check all line-ups before pressing ‘pump on’.

A boat or vessel with a pointed shape to the hull both bow and stern. A double hull product tanker, berthed starboard side to at high water tide in the terminal to discharge a cargo of oil products.

A steel plate installed on an existing structural plate and used as a strengthening base for repair of a damaged area.

The vessel, a double hull product tanker, berthed starboard side to at high water tide in the terminal to discharge a cargo of oil products.
Mooring lines are then doubled if necessary. Double up watches and listen!

Good listening watch to be kept on VHF and, in case of any doubt about intentions of another vessel, seek clarifications after positively identifying her and inform VTS/port control. There is no doubt that plotters and autopilots have eased the burden of wheelhouse watchkeepers in recent years. If in doubt, ask before proceeding.

My own vessel is a very manoeuvrable and responds very well to course and speed alterations but I doubt whether the Master of the container ship can say the same!

Without further questioning he decided to use water to douse the fire. The skipper opted to engage the main engine-driven deckwash pump so that the crew could fill a bucket with water for him to douse the flames.

dowel /ˈdoʊəl/ (marine eng) cap-locating dowel zatik za postavljanje poklopa / kape, dowel pin zatik: Dowel pins were used mainly because the tightness of the shrink fit could not be guaranteed.

down below (prep phr) (seamanship) pod palubom, potpalublje, u dnu broda: The fire started down below, in the ship's engine spaces. Half an hour after coming on watch, the 2/O sent the lookout down below to 'stand-by' in the crew mess.

down by the head (n) (seamanship) a vessel with the bow riding deeper than the stern pretežan brod: By the time Boat B’s skipper had stepped across on to Boat A, his vessel had started to go down by the head and list to port. The ship is 2.3 metres down by the head.

down by the stern (n) (seamanship) ANTONYM down by the head a vessel that is overloaded astern and riding deeper aft zatežan brod: The ship is 1.8 metres down by the stern at present.
downcomer /ˈdɔːn kəmə/ (marine eng) silazna cijev (u odvodu itd.)
downdrain (n) (geogr) strujanje vode prema ušću rijeke: During a flood tide, an outward flow of water known as the ‘downdrain’ near the face of Northfleet Hope Container Terminal interacts with the inward tidal stream to create a counter-flow off the berth,
downgrade /daʊndreɪd/ (v) (meteorol) degradirati, spustiti rang, ublažiti: Several ports in Florida remained closed on Monday even as former Hurricane Irma, now downgraded to a Tropical Storm, moved on into neighbouring Georgia.
downhaul /ˈdaʊn həʊl/ (sailing/boating/yachting) any a line used to control either a mobile spar, or the shape of a sail priteg tanguna, karikabaso; Italian: caricabasso spinnaker pole downhaul priteg tanguna špinakera, karikabaso
down payment (n) (shipping econ) plaćanje unaprijed, avans
down rigger spuštač ribolovnog udičarskog sistema (kod panule)
downstream (adv) nizvodno, niz rijeke: Having asked his two passengers if they were holding on, he commenced a turn to starboard to head downstream.
down time (n) (marine eng) period izvan rada (stroja): This result in the shortening of lubricant life, lower lifetime of key components, reduced reliability and increased downtime.
downwind (adv) (sailing) with the wind astern; point of sail 180° from the true wind direction niz vjetar, šotovento, plovidba u čistu krmu
dowse; douse /daws/ (v) 1 (sailing/boating/yachting) to take in, or lower a sail; to lower, smoother and hold down a sail quickly spustiti jedro, ubrati jedro; 2 prigušiti svijetlo, pogasiti svijetlo
Do you read me? (comm) Čujete li me? How do you read me? Kako me čujete?
DP (=dynamic positioning) (n) (navig) dinamičko pozicioniranje: The ship was held in position by its DP system
DPC (n) (hum_resources) dežurni kontrolor prometa u luci, dežurni u službi nadzora plovidbe: The VTS Duty Port Controller (DPC) received the coxswain’s call at 1812:40 The DPC role was to liaise and co-ordinate pilotage movements in the district. Several sea pilots had completed V-1032 training for VTS operations and fulfilled the role of DPC within the VTS team www.gov.uk/maib
DPO (=dynamic position operator) (n) (navig) operator dinamičkog pozicioniranja
DP vessel (=dynamic positioning vessel) (n) (nav arch) brod za dinamičko pozicioniranje
draft (=draught) = draught depth of a loaded vessel in the water taken from the level of the waterline to the lowest point of the hull of the vessel gaz broda: Our draft at the time was 5.7M forward and 9.8M aft I was OOW on a loaded bulk carrier with a draft of 9.9 metres making 8 knots at Half Ahead. The ship’s drafts on departure were 21.33 m forward, 21.5 m midships, and 21.43 m aft. https://safe4sea.com/ calculate draft izračunati gaz: The ship’s draught was calculated by the Chief Officer. It was 12.69m forward and 12.72m aft., take the draft izmjeriti gaz, departure
draft: napraviti nacrt / prijedlog draft a firm offer sastaviti nacrt ponude

draft^2 (n) (sailing/boating/yachting) = belly SEE chord: dubina trbuha jedra, trbuh jedra

draft^3 (n) (mar law, shipping econ) = bill of exchange an unconditional order in writing, addressed by one party (drawer) to another party (drawee), requiring the drawee to pay at a fixed or determinable future date a specified sum in lawful currency to the order of a specified person; A signed, written order by one party that instructs another party to pay a third party a specific amount. It can also be called a bill of exchange. (http://www.maerskline.com/en-jm/help/shipping-glossary) mjenica bankovna mjenica, clean draft A draft to which no documents have been attached. čista mjenica

draft calculations (n) izračun gaza: The draft calculations made by the master were on the basis that the vessel was floating in sea water, however, the specific gravity at the time was in fact 1015.
draft indicator (n) (navig) pokazivač gaza remote draft indicator daljinski pokazivač gaza: All bulk carriers should have reliable remote draft indicators.
draft marks (n) (nav arch) numerals applied vertically to the sides of a ship fore and aft indicating the depth of the keel (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) zagaznice, oznake gaza borda: draft marks and load lines not readable
draft of cargo (cargo) teret složen u pasac, braga tereta
draft of sail (n) (sailing/boating/yachting) zakrivljenost plohe jedra, projekтирани трбух jedra
draft reading (n) (seamanship) očitavanje gaza: Access to the shore for draft reading is often difficult.
draft read out očitavanje gaza, očitani gaz, očitano stane gaza: The remote draft read outs were inoperative and, reportedly had been for several years.
draft restriction (n) (navig) ograničenje gaza: Two days before arrival at a river entrance, a Company Vessel was advised by the agent of a draft restriction of 36.1 ft (11.00 m) due to the low water flow in the river.
draft signals (n) (navig) oznake gaza: We were navigating in the appropriate traffic lane, following the designated deep-water route at a speed of about 12 knots, displaying deep draft signals.
draft survey (n) (cargo handling) određivanje količine tereta na brodu
pomoću gaza, kontrola gaza: On completion of the first parcel, a draft survey was taken by the Chief Officer and the quantity of cargo calculated by himself and a surveyor.
draft surveyors kontrolori gaza, tvrtka za kontrolu gaza: They are also used by draft surveyors to read the offside marks and stern readings where launches are not available.
drag¹ /drag/ (v intr) (navig) COMPARE dredge to fail to hold to the ground, i.e. to lose control of an anchored vessel because of heavy seas, currents, wind or a foul bottom, so that the anchor cannot hold its ground orati (na sidru), Italian: spedare (ancoraggio): the anchor is dragging sidro ore, sidro ne drži A decision to pay out another shackle of cable was taken to try and stop the vessel dragging her anchor. The crew weighed anchor and then re-anchored, but to no avail as they continued to drag with six shackles out. drag anchor orati (sidrom): Ensure engines are available in case vessel starts to drag anchor Pazite da strojevi budu spremni za upućivanje u slučaju da brod počne orati As the squall passed, own vessel started to drag anchor. At 0936, the ship began to drag her anchor to the north and towards the shore line. According to reports the container ship dragged anchor and ran aground on the southwest tip of Kinmen island. Due to the strong winds the ship was dragging its anchor and was without their main engines. (https://safety4sea.com/) The ship dragged her anchor in severe weather and grounded. A bulk carrier dragged its anchor under the adverse weather conditions and went aground while anchoring. https://safety4sea.com/ (There are four common factors that can cause an anchor to drag: poor bottom, short scope, insufficient shock absorption, and yawing. Each of these reduces the holding capacity of the anchor, (PracticalSailor.com))
drag² (n) (nav arch) razlika između gaza na pramacu i gaza na kromi zatega
drag³ (n) (fishing) to drag a net vući / potezati mrežu
drag⁴ (n) (fishing) kočnica (role ribolovnog štapa)
drag⁵ (=propeller drage) (n) (sailing/boating/yachting) otpor propelera pri jedrenju, zavlačenje propelera pri jedrenju: It is fair to say that a 2 blade Max-Prop
propeller located on a horizontal shaft (sail-drive) will have the least drag while a 5 blade Max-Prop on a high angle shaft will have the most drag. https://www.pyiinc.com/max-prop.html

**dragging** /ˈdræɡɪŋ/ (n) (navig) COMPARE dredging

**orante sidra:** Beware of dragging, especially when in an area of strong tides / current. Unfortunately, none of the bridge team realised the slow dragging of the anchor, having monitored the ship’s position by distant radar ranges, which failed to change appreciably.

**dragging anchor** (n) (navig, seamanship) A dragging anchor means when the ship drifts without holding power even though it has been anchored. (https://safety4sea.com/cm-dos-and-donts-when-dragging-anchor/) sidro koje ore, brod čije sidro ore, Italian:ancora arante: Are you dragging anchor? Yes, I am dragging anchor. A tanker in ballast at anchor in a storm began dragging her anchor in Tees Bay, UK. Plotting the anchor position and estimating a bridge swinging circle is necessary to determine whether a vessel is dragging anchor.

**dragnet** (n) (fishing) mreža potegača

---

**drain** /dren/ (v) (marine eng, seamanship) 1 ispustiti, ispuštati (vodu, ulje, tekućinu): in Figure 4 Forward hook assembly showing damage The second mate then remained on the boat while it was lifted clear of the water, allowed to drain, and then hoisted to the embarkation level. drain away ispustiti: ...I, and as water was still coming on to the deck, he opened one of the freeing port shutters to try and drain it away, drain the water off odvodniti, ispustiti vodu, isušiti tank, drain the daily fuel tank odstraniti talog i vodu iz dnevnog tanka goriva; 2 otjecati, slijevati se: The seawater, now trapped on deck, was unable to drain overboard as closure devices blocked all freeing ports. https://safety4sea.com/; 3 isušiti: A
hydraulic pipe bulkhead gland was found to be leaking, which had allowed the hydraulic oil to **drain away** and air to enter the system during the lay up period.;  

4 odvoditi

**drain** /ˈdriːn/ (n) **air drain** odušni otvori na zračnom vodu, drenažni kanali na vodu zraka: The CO2 line’s **air drain** in the engine room was checked and found to be in order.,  

**gravity drain** otjecanje slobodnim padom, ispuštanje samotokom: From the sump the oil is drained into the lubricating oil tank for re-use. In most cases this is a **gravity drain** to a tank in the double bottom., **oil drain** otvor za ispuštanje ulja: The bearing covers are each fitted with an oil filter, an **oil drain** opening and an oil gauge glass., **drain hole** ispusni otvor: A double seal arrangement is provided at each branch point with a **drain hole** to detect leakage and prevent intermixing or contamination. **odljevni otvor**, otvor za drenažu: Clear glass sample bottles rinsed with boiling water should be used to take **drain** or **bottom samples** from service, header and storage tanks.

**drainage** /ˈdredʒɪŋ/ (marine eng, cargo handling) odvod (kondenzata), pražnjenje: Emergency **drainage** of Hold 1 is also possible using the engine room bilge pumps. Always ensure that freeing ports are kept clear, and that containers on deck have adequate **drainage holes**. When the drain valves from the main air receiver were opened, the condensate flowed into the **drainage pot** in sufficient quantity to cover the bottom of the pot and the **discharge hole**. **drainage pump** cijevi za odvod kondenzata

**drain channel** (n) (marine eng) **ispusni kanal, ispusni žljeb**: The tube also acts as a **drain channel** to ensure that any leakage from the fuel valve and the HP pipe is drained off. Seawater had leaked through the middle cross joint **drain channel** and through the corner of the hatch coamings. https://safety4sea.com/

**drain cock** (n) (marine eng, nav arch) **ispusni pipac**: The crew found that cargo was coming out through the open **drain cock** on the tank cleaning line branch to 5 Starboard Cargo Oil Tank (COT). The **drain cock** of the tank cleaning line was kept open as a precaution against freezing.

**drain hole** (n) (marine eng, nav arch) **ispusni otvor**: Drain holes were blocked and none had non-return valves.

**draining plug** (n) (nav arch, sailing/boating/yachting) čep izljeva

**drain off** /ˈdriːn ˈɒf/ (v) (marine eng) ispustiti, iscijediti, isušiti: The engineers had to work rapidly to **drain off** this water before it got into the engines.

**drain pipe** (n) (nav arch, marine eng) **odljevna cijev**: The leaking oil from the holed bunker pipe found its way through a **drain pipe** in the side channel into the overboard discharge line causing the oil pollution.

**drain plug** (n) (nav arch, sailing/boating/yachting) odvodni čep: Although the boat was fitted with a **drain plug** on the transom, the internal compartments were not interconnected. The capsized boat was later towed to the jetty, where it was found that the hull **drain plug** was missing.

**drains** (n) (cargo, cargo handling) (sealable) openings in the floor of reefer containers for the drainage of condensation https://www.logisticsglossary.com/term/drains/ drenažni otvori knotejnera

**drain system** (marine eng, seamanship) odljevni sustav: Consequently, the shipyard did not conduct appropriate engineering analysis or testing of the condensate **drain system** prior to fitting it. Both the shipyard and the owner’s representative considered the **drain system** to be open and therefore not prone to pressure accumulation.

**drain tank** (n) (marine eng) **drenažni tank, sabirni tank, odljevni tank**: The oil in the **drain tank** is being constantly circulated through a centrifugal filter / purifier / strainer. He
proceeded to stop the transfer pump locally and shut the inlet valve of the drain tank. The oil then drains from the crankcase into the drain tank or sump. atmospheric drain tank drenažni tank pod atmosferskim tlakom

**drain tap** *(n)* *(sailing/boating/yachting, marine eng)* ispusni pipac
drain valve *(n)* *(marine eng, nav arch, cargo handling)* ispusni ventil: odvodni ventil The cargo then passed through the partially opened tank cleaning valve and fully opened drain valve on to the deck, resulting in the oil cargo spilling on deck; 5. Prior to the changeover, he opened the drain valve at the bottom of the tank being put into service and started to drain off water.

draft /drait/ *(nav arch, stabil)* = draught the distance measured vertically on the midship transverse section, from the base line to the load waterline; the distance from the keel to the waterline (WL), as measured at the forward and aft ends of the ship gaz broda, Italian: pescaggio, peškaj: The vessel, loaded to a draught of 13.5 metres, was upbound in a river estuary. The work will deepen and, in some places, widen the river, to allow vessels of 13.5 m draught to pass at low tide. Vessels of up to 14.5 m draught, meanwhile, will be able to pass at high tide. https://dredgingandports.com/

draught aft gaz na krmi, take the draught izmjeriti gaz, snimiti gaz, departure draught gaz u odlasku, arrival draught gaz u dolasku, maximum draught najveći gaz, draught forward gaz na pramcu, draught on departure gaz pri isplovljenju, draught on arrival gaz pri dolasku / uplovljenju, sailing draught gaz u plovidbi: Maximum sailing draught and minimum draught for safe manoeuvring permitted by the port authority., designed draught projektni gaz, minimum draught najmanji gaz, minimalni gaz, anticipated draught predviđeni gaz, gaz nakon ukrcaja / iskrcaja: ... the actual time, particulars of draught, information regarding the tonnage and type of cargo she will work, and the maximum draught anticipated when loading has been completed., recommended draught preporučeni gaz: The vessel had transferred cargo and ballast in order to meet the recommended draught, however this proved insufficient., vessel constrained by her draught brod ograničene sposobnosti manevriranja zbog svojega gaza: ‘Any vessel... shall... avoid impeding the passage of a vessel constrained by her draught exhibiting the signals in Rule 28., light draught gaz bez tereta, gaz nenakrcanog boda: The vessel was light draught and had a large windage area, and was yawing substantially., fresh water draught gaz u slatkoj vodi: During the master pilot exchange of information, the master declared that the vessel’s fresh water draught was 4.1 m., have a draught of ... metres imati gaz od ...metara: The master advised the pilot that the ship had a draught of 15.52m and was ‘very heavy’. www.gov.uk/maib, even-keel draught na ravnoc koblici: The ship had an even keel laden draught of 15.50m. (draught=draft)

draught /drait/ *(n)* *(navig, oceanogr)* isušenje (kanala ili tjesnaca) uslijed vjetra, pad razine vode zbog isušenja vjetrom: The Panama Canal Authority (ACP) says it will set temporary draft restrictions on vessels transiting the Canal because of drought caused by El Niño.

draught /drait/ *(n)* *(marine eng)* propuh, cirkulacija zraka induced draught usisna cirkulacija zraka, natural draught prirodna cirkulacija zraka, prirodni propuh, mechanical draught prisilna cirkulacija zraka, umjetni propuh draught aft /drait/ *(nav arch, seamanship)* krmeni gaz, gaz na krmi draught amidships /drait/ *(nav arch)* gaz na sredini broda
draught and trim calculation (n) (stabil) proračun gaza i trima
draught forward /draːft/ (n) (nav arch, seamanship) pramčani gaz, gaz na pramcu
draught indicator /draːft/ pokazivač gaza
draught marks /draːft/ (n) (nav arch) zagaznice, bale check the draught marks
provjeriti zagaznice, očitati zagaznice
draught restrictions (n) (navig) ograničenje zgog gaza broda: During the passage
the ship’s agent advised the shio’s master of the draught restrictions at the discharge berth ...
https://safety4sea.com
draught signals (n) (navig) SEE vessel constrained by her draught
oznake ... the deep draught signal was being displayed, visibility was in excess of 10 miles, wind w'ly
force4. The target vessel was a westbound tanker of about 80 to 90,000 tonnes inballast, she was not
displaying deep draught signals and her name and callsign are not known.
draw (v) to require sufficient depth of water necessary to move the ship without grounding gaziti (o
brodu), imati gaz: the vessel is drawing 17.6 meters brod ima gaz od 17,5 metara How much does
your boat draw? Koliki je gaz vašega broda? Own ship was a bulk carrier drawing 17.7m, heading up the
southern North Sea bound for Rotterdam and using the Sandettie Deep Water Route.
draw (v) (mar law, shipping econ) povući, podignuti (novac) draw a part of the net
wages podići dio plaće: on the vessel’s arrival in port the Employee shall be entitled to draw all
or part of the net wages due to her/him in respect of the current calendar month, draw a cheque To
write out in due form an order to pay money on the writer’s account; to write out (a bill, cheque, or
draft). ispuniti ček, draw money podići novac
draw (v) (navig) približiti se, prolaziti blizu: The two vessels were drawing too close.
Simultaneously, and rudder was moved to hard-a-port and, to our great relief, the drift net slowly began to
draw astern and was cleared about two cables off. Now drawing ahead of the tanker, and some distance to
the north-east of the track, the pilot ordered ‘Full Ahead’ and ‘Hard a Starboard’ ...
draw attention (v) privući pažnju, skrenuti pažnju, upozoriti: I wish to draw
your attention to the fact that owing to the negligent and careless handling by the stevedores, during
discharge of the above cargo, heavy damage has been caused to the goods. Cylinder heads are fitted
with relief valves in order to draw attention to any abnormally high firing pressure.
drawback (n) (marine eng, nav arch) nedostatak: Owners should seek expert professional
advice, and wherever possible, reference should be made to design drawings, and the designer/builder consulte
d to check construction details and suitability of the modification.
drawee (n) (financ) The individual or firm that issues a draft and thus stands to receive payment.
(https://www.msc.com/shipping-glossary) trasant, dužnik
drawer (n) (financ) trasant
drawing /ˈdrɔːɪŋ/ (=drawings) (n) (marine eng, electr) nacrti: List of manuals and drawings
available on board. The information and drawings available on board the vessel at the time included the
final (approved) drawing for the compressed air system but did not mention the modified drainage system.
design drawing idejni nacrt: Owners should seek expert professional advice, and wherever
possible, reference should be made to design drawings, and the designer/builder consulted to check
construction details and suitability of the modification., technical drawing the act and discipline of
composing drawings that visually communicate how something functions or is constructed
(https://en.wikipedia.org/wiki/Technical_drawing) tehnički nacrt, tehnički crtež: Although
technical drawings were not supplied, the company used an experienced contractor to undertake the work,
which was overseen by an independent consultant.

**shop drawing** izvedbeni nacrt, radionički nacrt, layout drawing situacijski nacrt, opći nacrt

**drawing board** (n) (nav arch) crtaći stol

**draw knife** (n) (seamanship) nož s dvije oštrice

**draw off** (n) (navig) spuštanje razine mora (zbog prevelike brzine broda u kanalu): damage caused by wash or draw off due to excessive speed

**draw out a lesson** (v) povući pouku: There is a need to inform the shipping and fishing industries, the pleasure craft community and the public of the general circumstances of marine accidents and to draw out the lessons to be learned.

**draw up** (v) (shipping econ, mar law) sastaviti, napisati: Draw up a Statement of Facts covering the time the breakdown occurred and deviation commenced ... draw up a report

sastaviti izvješće, draw up a document sastaviti / napisati dokument, sastaviti / napisati ispravu, draw up a contract sastaviti ugovor, napraviti nacrt ugovora, draw up instructions napisati upute: Shipyards and repair yards should draw up clear instructions for each type of vessel, draw up a passage plan sastaviti plan putovanja: The Master was kept busy with the phone calls and frequent internal calls to the engine room about bunker requirements and myself (OOW) drawing up the new Passage Plan. draw up the cargo stowage plan sastaviti plan krcanja, napraviti plan krcanja draw (wind) (v) (sailing/boating/yachting) to fill with wind and begin propelling a sailboat

povući vjetar (o jedru)

dray /drei/ (n) (cargo handling) cart or for local haulage or carriage of cargo, eg. on the dock or within the port) kola, kolica

**drayage** /ˈdreɪidʒ/ (n) (cargo handling) = cartage prijevoz kolicima: Drayage is a specialized field in a supply chain that usually involves the movement of containers. [https://www.marineinsight.com/](https://www.marineinsight.com/)

1 (shipping econ) naknada za podvoz, naknada za prijevoz kolicima

**drayage** /ˈdreɪidʒ/ (n) (shipping econ) COMPARE cartage Drayage is used for the short-distance movement of cargo that has its main leg of the journey by land or sea. (https://www.marineinsight.com/); Inland transportation from vendors to the port of shipment, and from discharge port to the point of stripping the ocean container; Drayage is the transportation of a full ocean container via truck. A full container will be loaded onto a chassis and trucked to a nearby warehouse or rail ramp. (https://www.flexport.com/glossary/drayage/) kopneni prijevoz (od prodavatelja do luke ili od luke do primatelja/kupca na kopnu): Drayage operators move shipping containers between railway terminals, seaports, or warehouses. [https://www.marineinsight.com/](https://www.marineinsight.com/)

**drayage drivers** vozači u kopnenom prijevozu: Cargo owners and drayage drivers complained over what they considered unfair fees for failing to pick up cargo and return equipment in a timely manner. [https://www.joc.com](https://www.joc.com)

**drayage operator operator kopnenog prijevoza**: While drayage operators in California await the fate of legal challenges to AB5, some are shifting to a freight-broker model, and owner-operators are becoming licensed as individual companies [https://www.joc.com/](https://www.joc.com/)

**inter-carrier drayage** kopneni prijevoz među različitim prijevoznicima, **intra-carrier drayage** kopneni prijevoz unutar istog prijevoznika, **interni prijevoz**, **pier drayage** prijevoz po
dredge  /dredʒ/ (v) 1 (ship handling, seamanship, navig) COMPARE drag to use an anchor to help maneuver large vessels in close quarters maneuvrati oranjem sidra: Dredging anchors is a method which is used to assist a ship in maneuvering during unavailability or inability of tugs to assist as required Do not dredge anchor. Concerned that the vessel might sink, the Master released the tow and put both engines full ahead in an attempt to dredge the anchor into shallower water.  a (v tr) (navig, seamanship) zavlačiti sidrom (kako bi se ukopalo / kako bi uhvatilo / držalo), namjerno oranje sidra; 2 (ports) to dig up the bottom in order to deepen the channel; process of removing sediment from harbour or river bottoms for safety purposes and to allow for deeper vessels jaružati, produbljivati plovidbeni kanal / more uz vez, bagerirarti: The maritime authorities will jointly dredge the rivers as low water draught has become a threat for vessels carrying goods and passengers. https://dredgingandports.com/news/2020/ Terminal 1 basin was dredged to a depth of 17.5 metres. dredge the fairway jaružati plovidbeni kanal, dredge the seabed jaružati morsko dno, bagerirati morsko dno, produbljivati i čistiti morsko dno jaružalom:Having the main bridle trailing over the side can cause it to foul with underwater obstructions or simply dredge the seabed and act as an anchor thereby making emergency towing difficult. <source>PUBS-Loss-Prevention-Tug-and-Tow-Safety-and-Operational-Guide_A5_onscreen</source>; 3 (fishing) to fish using a fishing dredge kočariti, vući koći, orati po dnu:

dredge: (n) 1 (nav arch) = dredger A ship or barge that specialises in deepening channels by digging up and moving the bottom. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) jaružalo, bager, dredža; 2 (fishing) = dredge net mreža potegača: At about 1415, the fishing vessel returned to the mussel beds and started dredging again. After a few tows, when the vessel was heading into shallower water and turning to starboard to haul the starboard dredge

dredged channel (n) (ports) kanal održavan jaružanjem / bageriranjem: screenshot showing ship departing the dredged channel ... the vessel approached the westward edge of the dredged channel ....
Dredge net povlačna mreža, mreža potegača  
https://en.wikipedia.org/wiki/Fishing_dredge

Dredger /ˈdredʒə/ (cargo handling) jaružalo, bager: Dredgers are now attempting to free the ship’s bulbous bow, with numerous tugs trying to pull it free. https://safety4sea.com/ grab dredger

jaružalo grtalica, suction dredger jaružalo usisavač, dipper dredger
jaružalo žličar, bucket wheel dredger jaružalo žličar

Dredging /ˈdredʒɪŋ/ (ports) jaružanje, bageriranje: The crew of a twin beam scallop dredger had hauled the beams inboard and had secured them in position with the safety chains ready to empty the catch of scallops. <i>Corpus</i><span class='corpus'>: Dredging and disposal of dredged materials Generally speaking, dredging activity consists of periodic removal of material from the seabed in approach channels to port and harbour basins to maintain widths and depths in previously dredged areas to ensure the safe access for vessels. <source>14-ME-tal_001</source></span> Environmental groups argue that dredging will lead to wildlife habitat losses along the river. 
https://dredgingandports.com/ dredging disposal odlaganje iskopa s dna mora,
dredging project \(\text{projekt produbljivanja luke / prilaznog kanala luci}:\) The dredging project will take the channels to 55 feet deep, from their current depth of 50 feet, and widen the channels in select areas to allow for two-way traffic of ultra-large container vessels. dredging master plan razvojni plan jaružanja u luci, dredging operations jaružanje, radovi jaružanja: The ship struck a submerged liquid propane pipeline during dredging operations in the port ship channel, https://gCaptain.com

dredging \(\text{\textipa{dredz}\text{\textgreek{i}n}}\) (n) (seamanship, ship handling) COMPARE dragging namjerno

orane sidrom kalo bi sidro uhvatilo orane sidrom, zavlačenje sidrom: The vessel was yawing and rolling heavily and dredging her anchor at the anchorage due to strong winds and heavy sea, now coming from the southeast. http://gCaptain.com Harbor deepening project gets final government approval.

dredging (n) (fishing) kočarenje po dnu mora, ribolov oranjem po dnu mora: Dredging is a technique primarily targeting bottom dwelling molluscs such as scallops and clams. The weather conditions were good, and dredging took place until 0930 when there was insufficient water over the mussel beds to continue. dredging operations ribolov povlačnom mrežom / koćom, dredging gear oprema za kočarenje povlačnom mrežom / koćom

dredging anchor (n) (navig, seamanship) sidro kojim se ore, Italian: ancora dragante

dredging buoy (n) (navig) a buoy indicating the boundary of an area that is being dredged oznaka za jaružanje

dressed full (adj) (seamanship) all flags sent up for decorating the ship brod potpuno ukrasen galom, gran pavese

dressing (n) (med) zavoj sterile dressing sterilni zavoj

dress ship (v) (seamanship) to decorate a ship with flags; flying all the flags of the ship in port to celebrate a special event ukrasiti brod galom: Dressing Ship is done with the International Code Signal Flags. Officer’s flags, club burgees and national flags are not used. http://www.boatsafe.com/nauticalknowhow/dressing.htm

dress the wound (v) (safety) povezati ranu: He then used the boat’s first-aid kit to dress his father’s arm, using a wooden spatula from the galley as a splint and cottonwool pads to stem the flow of blood.

dribbling (n) kapanje, curenje

drift (n) (navig, ship handling) a vessel’s lateral movement caused by ocean currents, one of the variables employed to calculate a reliable course over the bottom; The movement of a search object caused by environmental forces. zanos broda, zanošenje broda, Italian: scarroccio, Italian: deriva: We continued to monitor the tanker’s drift and it was ascertained that she would probably miss the jack up rig but collide with the other rig. The autopilot was set in ‘heading mode’, which meant that the drift was to be corrected manually. Despite dropping port anchor to minimize the drift, our ship hit the bow of the cruiser. drift angle kut zanošenja: We
tried to alter the **drift angle** by rapidly putting the helm over from port to starboard, but to little avail.,

**drift rate** brzina otpadanja, brzina zanošenja: The weather deteriorated and the **drift rate** increased to 37 miles per day., **counter drift** suprotstaviti se zanošenju, spriječiti zanošenje djelovati protiv zanošenja

**drift** (v) zanositi se, otpadati, **deriva**: I went out on to the boat deck to see what was happening and saw that the ship was **drifting away** from the berth and was already about 2 metres off the fenders. The vessel was **drifting** and getting closer to buoy No. 1 to starboard A bulk carrier experienced main engine failure and subsequently **drifted** about 700 nautical miles northeast of Honolulu

https://safety4sea.com The vessel is **currently drifting** towards shore. https://safety4sea.com/ The ship lost speed on January 31 as it passed by the island, and it began to **drift** in a southeasterly direction, driven by strong winds. https://safety4sea.com/

**drift** (v) (navig) leeward movement of a ship/boat caused by currents when not under power **plutati (bez pogona), biti nošen strujom i vjetrom**: the vessel drifted midstream in the freshening breeze. the vessel was located 150 nautical miles west of La Rochelle on Friday and was drifting east at east at 1 knot. The tide was turning and the stern of the vessel started to **drift away**, opening up a gap between it and the pier. The boat then **drifted**, downwind without power, towards the far side of the bay. I could see the coast, and had no reason to suspect that the ship might **drift off course**. The vessel is currently on emergency power and **drifting** in the Gulf of Mexico as it awaits the arrival of a tugboat.

http://gcaptain.com/american-vehicle-carrier-adrift-in-gulf-of-mexico-after-fire An abandoned ship has been found **drifting** in the Atlantic.

**drift** (n) (oceanogr) the speed and flow of a moving mass of water or current **struja, jačina struje**: We failed to realise that as we were traversing a gap between the islands, a strong current was flowing that induced sudden and strong **set and drift**. During this time the RoRo vessel **drifted towards** the coast. (https://safety4sea.com/) **effect of drift utjecaj brzine struje, zanošenje**

**strujom / vjetrom, jačina struje**: Navigation in boyed channel, with regular alterations of course, requires the bridge team to closely monitor the vessel’s position so that the **effects of set and drift** on differing headings can be assessed and appropriate action taken to ensure the safety of the vessel.

**drift** (n) (safety, oceanogr, navig) The movement of a search object caused by environmental forces. (CamSar2014=Canadian Coast Guard) **zanos objekta potrage (zbog struje, vjetra itd.)** (The forces that must be considered may include: • Sea current (SC) • Tidal current (TC) • Lake current • River current • Bottom current • Long shore current • Wind current (WC) • Leeway (LW) (CamSar2014))

**drift angle** (n) (ship handling) **kut zanošenja (pri okretanju)**: The maximum turning moment of the hull resistance is reached at a **drift angle** of about 45 degrees.
**drift current** (n) (oceanogr) struja od plime i oseke

**drifter** /ˈdriftə/ (n) (sailing/boating/yachting) puna genova (iznimno duga po bazi); A Drifter is a full-draft, lightweight nylon No. 1 genoa that does away with the frustration and aggravation of sailing in light air. **drifter**: Drifters are a hybrid designed specifically for cruising sailors. A drifter generally allows a vessel to sail close hauled and to tack, and it’s very easy to control when set and struck

drift error

(n) (safety) greška u određivanju pozicije potrage i spašavanja zbog zanošenja

drift ice

(n) (oceanogr) putujući led, led nošen strujom

drifting

(n) 1 (navig) zanošenje, plutanje: * Sailing vessels are very susceptible to drifting due to the considerable amount of windage on the sails. Finally, after about two days' drifting, the fire burnt itself out and the barge was towed to a repair facility. After drifting for a couple of days, the vessel was able to get underway to the harbour with a two-tugboat escort. https://splash247.com/; 2 (electr, navig) brzina pomaka (osi zvrka)

drifting (n) (navig) zanošenje broda (zbog struje, vjetra): As a result, my tanker was only able to keep slow ahead against that weather. drifting astern to the shore and was actually hardly controllable by the rudder. Many of these vessels exhibit NUC lights while drifting. Evidence suggests that the ship was never 'brought up' to five shackles and was continuously dragging anchor and drifting in a NE'ly direction. 0515 Our vessel was drifting to port so I ordered to increase the speed to slow ahead and increase helm to 20 degrees to starboard.

drifting (n) (fishing) fishing from the boat carried (drifted) by current and wind; Ribolov iz neusidrenog broda pomoću balona ili bez njih, koji vodene struje i vjetar lagano nose. (https://ribolovnajadranu.hr/ribicki-leksikon/) ribolov s brodice nošene strujom i vjetrom, driftanje, drifting
The Master of the bulk carrier began to heave in the port anchor and to maneuver the vessel to avoid coming into full contact with the drifting vessel. (https://safety4sea.com/)

Simultaneously, and rudder was moved to hard-a-port and, to our great relief, the drift net slowly began to draw astern and was cleared about two cables off. Around midnight, a long line of weakly lit buoys came into view, indicating the existence of drift nets.

After the drill was completed the crew were dismissed. perform a fire, lifeboat or other emergency drill izvoditi protupožarnu vježbu, vježbu spuštanja brodica za spašavanje i ostale vježbe u slučaju opasnosti, abandon ship drill vježba napuštanja broda: This was the immediate contributing factor to the uncontrolled descent of lifeboat no. 1 during the routine abandon ship drill at sea. On one of our vessels, the lifeboat embarkation ladder rope parted during an abandon ship drill conducted in the presence of the US Coast Guard, boat drill vježba spuštanja brodica za spašavanje: Narrative The crew of a UK registered 5300gt ro-ro cargo ship, built in 1970, were undertaking a combined fire and boat drill, while alongside a UK port, fire drill protupožarna
vježba, vježba gašenja požara: During an engine room fire drill, the crew practised an evacuation through the emergency escapes. The alarm was sounded, and the crew were split so as to cover the fire drill and the lowering of the boat. lifeboat drill vježba spuštanja brodice za spašavanje: On a Sunday morning with good weather conditions and the ship steaming at 14 knots in ballast, the crew prepared to conduct a lifeboat drill. man overboard drill vježba osoba/čovjek u moru Last man overboard drill was on October 12th. impact drill udarna bušilica drill (n) 1 (marine eng) svrdlo, Italian: punta: This task involved drilling holes through the deck plate with a magnetic drill. spot weld drill sjekač zavara, sjekač vara, pneumatic spot weld drill pneumatska bušilica za zavarivanje; 2 bušilica straight drill štapna bušilica, angle drill kutna bušilica drill bits (n) 1 (marine eng) svrdlo za bušilicu insert the drill bits umetnuti svrdlo u bušilicu, remove the drill bits izvaditi svrdlo bušilice

drilled (adj) rifle-drilled spiralno probušen, vijčano probušen bušen, probušen: The fuel line consists of channels drilled in cast parts which are clamped firmly on the engine block ...

drilling (n) (marine eng) a process of cutting or enlarging a cylindrical hole in a solid material (https://www.marineinsight.com/technology/a-list-of-processes-used-in-marine-workshop-of-ship/)

bušenje drilling machine bušilica drilling rig (n) (nav arch) naftna platforma, bušotina za naftu: A drilling rig was engaged in operations in a designated offshore oilfield. Our offshore supply vessel was holding station close to a drilling rig, with two hoses connected, delivering bulk barite and fuel.

drilling ship (=drillship) (n) (nav arch) brod za bušenje nafte: The current world record is 3,400 meters, set by Maersk Voyager’s sister drillship, Maersk Venturer, when it drilled the Raya-1 well for TotalEnergies offshore Uruguay in 2016. https://gcaptain.com/

drill press (n) (marine eng) okomita bušilica, bušilica na vertikalnom stupu drinking water system (n) (nav arch) sustav pojne vode, sustav pitke vode drip (v) kapati, cijediti: Care should be taken that there is not too much oil on the torch which could drip and possibly cause a fire;

drip tray (n) 1 (marine eng) nakapnica; 2 (safety) posuda za prikupljanje prolivene tekućine: Check that drip trays are in position and empty .. some 100 litres of cargo spilled into the manifold drip tray and approximately 20 litres overflowed on to the main deck.

drive /draɪv/ (n) 1 (marine eng) pogon diesel drive 1 dizelski pogon a: Today practically
all vessels use a **diesel drive**, diesel-electric **drive** dizel-električni pogon: A combination of geared diesel and diesel-electric **drive** is exploited in some offshore support vessels. **Direct drive = direct-coupled engine** direktan pogon (bez reduktora): The direct drive of a fixed pitch propeller by a low-speed two-stroke engine remains the most popular propulsion mode for deep sea cargo ships. **Indirect drive** posredni pogon (s reduktorom), turbo-electric **drive** dizel-električni pogon, camshaft **drive** pogon bregaste osovine: On a two stroke crosshead engine lubricating oil is supplied to the main bearings and camshaft and camshaft **drive**. The lost-motion clutch or servo motor uses a rotating vane which is attached to the camshaft but can move in relation to the camshaft **drive** from the crankshaft., **Electric drive motor** stroj na električni pogon, stroj s elektropogonom: A podded propulsor (or pod) incorporates its electric drive **motor** in a hydro-dynamically optimized submerged housing., **Genset drive** pogon generatora, pogon agregata: First introduced in 1971, the 250 mm bore/300 mm stroke K-engine was designed mainly to be a genset drive but numerous propulsion plant applications have been logged in tugs, offshore supply ships and fishing vessels., **Hydraulic drive system** hidraulički pogonski sustav: The fire pump was in operation to provide cooling water for the windlass hydraulic drive system.; 2 (sailing/boating/yachting) potisak, Italian: *spinta* drive (v) (marine eng) pogoniti, pokretati, tjerati: ... practically all modern engines use up to 25 per cent of that heat to drive a turbocharger. All MC engines can be arranged to drive shaft generators. The skipper was unable to drive the vessel off the shoal and he decided to wait until high water before making further attempts to refloat. (drive - drove - driven)
drive (n) (marine eng) prijenos chain drive lančani prijenos: The frame section for the four- and five-cylinder engines consists of one part with the chain drive located aft.
drive belt (n) (sailing/boating/yachting, marine eng) pogonski remen: The crew member was wiping clean the base of the scaler with the air motor running, when his glove became entangled in the moving drive belt, trapping his fingers.

**Drive gear** (n) (marine eng) pogonski prijenosnik, reduktor: In order to remove the dried old grease around the dog clutch and shaft, it was necessary for the seaman to extend his arm between the drum and the winch drive gear and clear it manually. There is an integral forged coupling flange for the flywheel, and the camshaft drive gear is split to facilitate replacement.

**Drive shaft** (n) (nav arch, marine eng) pogonska osovina: The port drive unit was found to have been moved out of alignment and the drive shaft had sheared, requiring dry dock repairs.

**Drive unit** (n) (marine eng, nav arch) pogonska jedinica, pogonski uređaj: The port drive unit was found to have been moved out of alignment and the drive shaft had sheared, requiring dry dock repairs.
**driving force** *(n)* *(sailing/boating/yachting)* potisak

**driving gear** *(n)* *(marine eng)* pogonski uređaj, pogonski zupčanik: The relative movement between **driving gear** and camshaft is via a helically toothed sleeve integrated in the gearwheel, meshing with the corresponding counterpart on the camshaft.

**driving generator** *(n)* *(marine eng)* pogonski generator: Diesel engines are used as main propelling machinery and frequently as auxiliary for **driving generators** to provide electric power for shipboard use.

**driving motor** *(n)* *(marine eng)* pogonski elektromotor, pogonski motor: The emergency generator must be rated to provide power for the **driving motors** of the emergency bilge pump, fire pumps, steering gear, watertight doors and possibly fire fighting equipment.

**driving turbine** *(n)* *(marine eng)* pogonska turbina

**driving wheel** *(n)* *(marine eng)* pogonski zupčanik, pogonsko kolo

**drizzle** /*drizl*/ *(n)* *(meteorol)* small, slowly falling water droplets, with diameters between 0.2 and 0.5 millimeters kišica

**drogue** /*draug*/ *(n)* *(safety)* a sea anchor zavlachno sidro: The master and crew of this vessel deserve praise for practising good seamanship by using the anchor and cable as a **drogue** and preventing what would have been a potential calamity to both the vessel and local fishermen. Many sailors use an icicle hitch to form a bridle when dragging their **drogue**

**dromon (=dromone)** *(n)* *(sailing/boating/yachting)* a type of galley and the most important worship of the Byzantine navy from the 5th to 12th centuries AD **dromona**, bizantska

**dromona**

**drone** /*draun*/ *(n)* *(nav arch, navy)* bespilotno plovilo, plovilo-dron, dron

**mine-hunting drone** bespilotni minolovac, underwater drone podvodno bespilotno plovilo, marine drone bespilotno istraživačko plovilo, plovilo-dron, plutajući dron: Marine Drone - is an Unmanned Surface Vehicle, catamaran type, with tele-operated and/or autonomous modes. Ultra portable (50 kg), it is the ideal platform for all kinds of investigations in shallow waters, ocean drone oceanski dron, bespilotno
droop (n) (marine eng) Droop is the variation in engine speed following a load change, approximately
4% for a full load change. variranje brzine stroja pri promjeni opterećenja

drop (v) 1 (ship handling) = let go oboriti sidro, puštati lanac u more: The vessel was advised by the VTS to drop anchor at anchorage "B". Until recently, tankers and other vessels were always dropping anchor in the area between the westbound and eastbound lanes, South and West of Nippa, in order to carry out above mentioned operations safely. You may need to consider dropping more cable.

drop port anchor Oborite lijevo sidro!; 2 otpustiti (uže, konop) drop the headline! Otpustite pramčani konop!; 3 drop off a sling (o teretu) ispasti iz pasca

drop (-disembark) (v) (navig) iskrati (peljara): After dropping the pilot we made a second attempt to head East, again a coaster heading South tried to cross our bows, this time at 2 cables range.

drop (n) (marine eng, electr) pad, smanjenje, opadanje: An inexplicable drop in radar performance can often be traced in water in the waveguide. A voltage drop caused large, but equal errors in both gyrocompasses. The drop-in voltage set off a number of power failure alarms on the bridge, including both gyrocompasses. (https://safety4sea.com/) temperature drop pad temperature: Cycle thermal efficiency is approximately the same as that of a simple cycle engine, as additional fuel is required to offset the drop in compressor exit temperature. There was a sudden drop in cooling water pressure: engine jacket temperatures were shooting up and automatic main engine slow-down or shut-down trips would operate suddenly., drop in pressure pad tlaka, pad pritiska: Earlier that day there had been intermittent main engine problems due to a drop in lubricating oil pressure, but the exact cause of the reduced oil pressure was not yet known., pressure drop: Thanks to the double lap joint, the pressure drop will be almost constant irrespective of the wear on the liner and rings., drop speed Speed reduction from high idle after a load is placed on the engine. (http://www.marinedieseleurope.com/)

brzina padanja broja okretaja (It may also be useful to use the term 'anchoring' rather than 'drop anchor' to avoid misunderstanding. ()

drop (n) (marine eng) padati, opadati: At about 0330 the watchkeeper noticed that the engine revolutions were dropping and that the engine was making a strange noise.

drop an anchor (v) (seamanship) = let go oboriti sidro: The Master then sent the helmsman to the bow to drop anchor as requested by the river pilot. Busan VTS had directed the vessel to drop her anchor in N4 Anchorage Area. The vessel was instructed by VTS to drop anchor at N-4 anchorage upon arrival. (https://safety4sea.com/) The VTS instructed the vessel to drop anchor N-5 anchorage with keeping 4 cables distance to other vessels. https://safety4sea.com/ (lt.: ammainare)

drop astern (v) (navig) pustiti se po krm i broda (o tegljaču): A tug assisted the unberthing by pushing on the inshore (port) bow, and was then ordered to drop astern and escort the vessel out.
drop back 1 (v) (navig) to increase the distance from the vessel ahead by reducing one's own speed
2 (navig) usporiti; 3 (seamanship) pasti natrag (o užetu): However, the messenger kept slipping off the warping drum, causing the tow wire to drop back onto the tug.
drop-keel (n) (nav arch) a keel that can be pivoted up into a well for sailing in shallow waters

drop light (n) (seamanship) prijenosna svjetiljka sa zaštitnom rešetkom

drop line (n) (cargo handling, nav arch) the pipelines which drop oil cargo to the bottom of the tanks vertically from the pipeline on deck – thus bypassing the pump room. vertikalna cijev za punjenje tankova: The combined pipeline system of the shore and the ship deliver the oil to the cargo oil tanks directly via the drop lines. This tank also had the drop line blocked at the bottom.
drop-off charge (n) (logist, shipping econ) Charge made by container owner and/or terminal operators for delivery of a leased, or pool container into depot stock.

(p://www.msc.com/shipping-glossary) naknada za uskladišteni kontejner
drop the pilot (n) (seamanship) iskrcati peljara: The ship had slowed to drop the pilot. After clearing the Panama canal en route to Guayaquil my vessel dropped the pilot at Balboa and had just passed the seaway buoy southbound. (Not recommended!: Say disembark the pilot instead.)
drought /drou̇t/ (meteorol) suša
drown /drou̇n/ 1 utopiti se: Two seafarers are presumed drowned after a container ship sank in the .... Sea on 5 September. Without this additional buoyancy a person can quickly tire and drown. Wearing a lifejacket when it is rough makes sense, but most fishermen drown in calm conditions when they least expect to find themselves in the water.; 2 (v) utopiti, potopiti (lt.: annegare; British English: drown: When someone drowns, or when they are drowned, they die because they have gone under water and cannot breathe. Forty-eight people drowned after their boat capsized. He walked into the sea and drowned himself. drain VER)
drowning /drou̇ning/ (n) (safety) utapanje, Italian: annegamento: He died from a combination of hypothermia and drowning about 10 minutes after the initial capsize. Fishermen had been fishing for many years they did not wear lifejackets, and when they were suddenly thrown into the water they were at serious risk of drowning.
drug and alcohol policy (n) (med, safety, hum_resources) politika o uporabi droga i alkohola: Drug and alcohol policy specified that staff should not have an alcohol level above that stated in the Road Traffic Act 1988, which was 80mg of alcohol per 100ml of blood, when on duty. wwww.gov.uk/maib
drug test (n) (med) test na drogu: As part of routine drugs testing of our crews, all crewmembers recorded negative tests, Several crew members aboard the MV ..... have been suspended and may end up getting fired after testing positive for drugs pass the drug test uspješno proći na testu na droge, fail the drug test pasti na testu na droge, negative drug test negativni test na drogu, positive drug test pozitivni test na drogu: The U.S. Coast is warning credential mariners against the use of hemp-based CBD products that could result in a positive drug test. https://gCaptain.com, nen-negative drug test pozitivni test na drogu
drum 1 a (cargo) bačva; 2 (seamanship, nav arch) bubanj (vitla); 3 (marine eng) komora lower drum donja komora, donji bubanj, main drum glavna komora, upper drum gornja komora, gornji bubanj, water drum vodena
During self-discharging of a dry bulk cargo, the engine room rating on watch informed the cargo control room by portable radio that he was proceeding to the conveyor belt tunnels. All dry bulk cargoes must be transported strictly according to the recommendations in the bulk carrier (BC) Code.

A brokerage (commission) of 1¼% to each of the brokers involved in the fixture is usual in dry cargo chartering.

A small dry cargo carrier was en route in a vessel traffic services (VTS) controlled restricted waterway and, because of her size, was without a pilot.

Several attempts were made during the next two hours to extinguish the fire, first with portable foam and dry chemical extinguishers, then with a fire hose before the decision was made to flood the engine room with CO2.

After unloading the ship entered drydock to effect permanent repairs During the short passage to drydock, all tanks were monitored and the ballast pump was continuously discharging the ingress into the fore peak tank. In the drydock, it was observed that apart from the large hole punched in the shell plating in way of the fore peak tank, there was no other damage. With company’s and class approval, the vessel continued on
its short passage towards the discharge port, where, after unloading, she entered drydock to effect permanent repairs. The four main types of dry docking methods are as follows: floating dock, excavated dock, patent slip, ship lift. After discharging cargo at Warrenpoint, the ship proceeded to Belfast dry dock, where a full inspection revealed extensive structural damage throughout the forward third of the hull with 26 penetrations in three compartments. MAIB Report 11/2018
gašenje suhim prahom: Both teams were able to locate the source of the fire at the main engine and it was soon put out using portable dry powder extinguishers.
dry powder piping (n) (safety, nav arch) cjevovod praha za gašenje

dry storage (n) (sailing/boating/yachting) zimovanje na suhom, zimovanje jedrilice: For longer periods of time, it may be cost effective leave your boat in dry storage.
dry tank certificate (n) (cargo handling, mar law) potvrda da je tank suh i čist, potvrda o ispražnjenom tanku: The terminal or cargo interests’ representative should be requested to sign a dry tank certificate and only after this has been signed should shore hoses be disconnected. A dry tank certificate is issued on completion of discharge. This should be signed by the consignees.
dry wipe (n) (marine eng) čišćenje na suho

dry van (n) (cargo, logist, figurative) the standard 20Ft and 40Ft containers
https://www.logisticsglossary.com/term/dry-van/; Standard containers are also known as general purpose containers or dry van standardni kontejneri od 20 ili 40 stopa

DSA /di: es ‘ei/ (=daily subsistence allowance) (n) (mar law) iznos dnevnice

DSC (=Digital Selective Calling) (n) (navig) a technique using digital codes which enables a radio station to establish contact with, and transfer information to, another station or group of stations, and complying with the relevant recommendations of the International Telecommunication Union Radiocommunication Sector (ITU-R). (COMSAR 14.4); A calling service between ship to ship, ship to shore or vice versa for safety and distress information. (https://safety4sea.com/) digitalno selektivno pozivanje, digitalni selektivni poziv, DSC uzbuna: At about 0630 our vessel received a DSC alert on 16MHz for a vessel in position 01°25'N 103°54'E - somewhere in the region of the Singapore Straits. When this, too, did not get a response, I sent them a DSC call. Whilst on watch recently, I received a DSC distress call. Although a Mayday message was broadcast on VHF radio channel 16, Digital Selective Calling (DSC) was not used. DSC distress alert SEE distress alert digitalni selektivni poziv u pomoć u pogilibi, DSC uzbuna o pogilibi, DSC-poziv za pomoć u pogilibi: Upon notification of a DSC urgency or distress alert at the JRCC/MRSC, the JRCC/MRSC SAR mission coordinator shall: .1 Obtain the distressed vessel’s MMSI and other vital data. CAMSAR II – Mission Coordination

DSC alert message (n) (safety) The DSC alert message shall be composed as follows.1 Format specifier (distress, urgency, safety); .2 Nine-digit MMSI (.a ship station: MIDXXXXXX, or .b coast station: OOMIDXXXX); .3 Nature of the distress (default setting is “undesignated”); .4 Distress coordinates (default is “no position information” or 99999 99999); .5 Coordinated Universal Time (UTC): hhmm (default is “no time information” or 8888); and .6 Mode of subsequent communication (default is “radiotelephony”). DSC poruka o uzbuni ("MID" is maritime identification digits or country code, and “X” is any integer from 0 to 9;)

DSC Code (=Code of Safety for Dynamically supported craft) (n) (mar law, safety, navig) Kodeks o sigurnosti dinamički podržavanih plovila (DSC Kodeks), DSC Code [- Res. A.373(X) (MSC.186(79))]

DSC craft (n) (nav arch) brod koji plov na površini ili iznad nje, a kojemu se svojstva razlikuju od konvencionalnih istinskih brodova. (Mln. pomorstva RH) Dinamički podržavano plovilo (cf. IMO Res. A.373(X), as amended, IMO Res. MSC.37(63) (DSC Code))

D-shackle (=cable shackle; chain shackle) (n) (ship’s equipment) Also known as a chain shackle, D-shackles are narrow shackles shaped like a loop of chain, usually with a pin or threaded
DSV (=diving support vessel; deep submerged vessel) (n) (nav arch) brod za ronilačke radove: Failure to Recognise a Suspended Load Results in Death Narrative Modifications were being carried out on the diving bell recovery system of a diving support vessel.

DTS (=Digital Throttle and Shifting) (n) (sailing/boating/yachting) digitalno upravljanje komandama gasa i kopče (brodice), digitalne komande (brodica): Many of the larger Mercury outboards are digitally compatible. So you’ve got SmartCraft® Digital Throttle & Shift (DTS), right at your fingertips. Smoother shifting. Quicker response. A whole new level of control for single-engine boats. https://www.mercurymarine.com/

dual channel watch (n) (comm) dvokanalno osluškivanje, dvokanalna radijska straža
dual control (n) dvostruko upravljanje, duple komande

dual-fuel engine (=DF engine) (n) (marine eng) stroj na dvije vrste goriva, stroj s alternativnim gorivima, motor s dvojnim gorivima: The new low-pressure dual-fuel engine provides CAPEX reductions of 15% to 20% through a substantially simpler and lower cost LNG fuel gas handling system. Gas or dual-fuel engines running on gas have 25% lower CO2 emissions, while NOx emissions are 85% lower than for a diesel engine. https://www.wartsila.com For example Wärtsilä’s dual-fuel engines running on gas have 12 - 30% lower greenhouse gas emissions than Wärtsilä’s diesel engines. www.motorship.com/__data/.../White-Paper_Shipping-in-the-2020-era_Pre-final.pdf The vessels will have capacity of more than 23,500 TEU with dual fuel engines that can operate on LNG fuel. https://gcaptain.com/hapag-lloyd-orders-six-ultra-large-containerships-at-dsme/?subscriber=true Each vessel will be fitted with six Wärtsilä 46DF dual-fuel engines, plus gas valve units and auxiliaries. https://gcaptain.com/

dual-fuel mode dvojni način rada (motora), dvojni režim rada (motora), dvojni modus rada (motora): On a container vessel with an ME-GI engine, it is possible to change between two different fuel modes: Dual-fuel and fuel oil mode. www.man-es.com switch from one (dual-fuel) mode to a different (oil) mode prebaciti motor iz jednog u drugi način rada: the engine platforms designed according to the diesel principle allow the crew to switch seamlessly between different fuel modes. www.man-es.com, switch between different dual-fuel modes prebaciti se između različitih načina rada
dual-fuel propulsion (n) (marine eng, nav arch) pogon na dvije vrste goriva, alternativni pogon: The 1,400 tea vessels will feature dual-fuel propulsion enabling them to burn LNG and conventional bunker fuel.
dual-fuel ship (n) (nav arch, marine eng) brod s pogonom na dvije vrste goriva (naftu i ukapljeni prirodni plin), brod s dvovrsnim pogonom, brod s alternativnim pogonom
dual-fuel technology tehnologija pogona na dvije vrste goriva: Both the main and at least one auxiliary engine will use dual-fuel technology, providing cleanly generated electricity for the ship’s 300 reefer containers.
dual purpose crew (n) (mar law) posada dvojne namjene (za rad na palubi i u stroju): Ratings are trained to perform the duties of the dual and general purpose crew.
dual-voltage electrical system (n) (electr, sailing/boating/yachting) sustav
dvostruke voltaže (12 i 24 V): More and more new boats in the 40- to 60-foot range are being manufactured with dual-voltage electrical systems (12 VDC and 24 VDC). https://psailor.lt.acemlnb.com

dual watch key (=D/W) (n) (comm) tipka za uključivanje / isključivanje rada na radnom kanalu i istovremenog praćenja kanala 16

duck boat (=duck) (n) (navy) a wheeled amphibious vehicle amfibijska

vozilo/brodica

duct /dʌkt/ (n) 1 (nav arch) kanal: The connection between the duct and containers is made by couplings which are pneumatically controlled. • Semicircular duct and Rudder bulb Semicircular duct and rudder bulb are fitted in front and back of the propellers respectively. MaritimeReporter-2015-12; 2 (marine eng) vod, cijev: The charge air duct, for example, is integrated in the crankcase.; 3 (electr) kanal za električni kabel

ducted propeller (n) (marine eng, nav arch) propeler u sapnici

ductile /ˈdʌktɪl/ (adj) (marine eng) rastezljiv, pružljiv: The monobloc crankcase is made of ductile cast iron, the side walls extending far down below the crankshaft centreline. Casing material was changed from grey (laminar) cast iron to ductile (nodular) cast iron and the turbine enclosed in a protective shroud.

ductility /ˈdʌktɪli/ 1 (marine eng) That property of a material which permits its being drawn out into a thread of wire. (https://www.history.navy.mil/) pružljivost, rastezljivost: Factors to be considered when designing cylinder liners include material composition, strength, ductility, heat transfer coefficient and wear properties.; 2 vodljivost

ducting (n) 1 (electr) vođenje (signala); 2 (electr, navig) An extreme form of super-refraction is known as ducting, when the radar beam is conducted for long periods within a duct formed by air layers. vođenje (radarskog signala) zračnim kanalom

duct keel (n) (nav arch) Longitudinal passage within the double bottom, usually on the centreline, extending from the collision bulkhead to the engine room, through which ballast, bilge, fuel and hydraulic piping may be conducted and providing access to double-bottom spaces.
due diligence

dwell (n) (marine eng) The angle that the valve remains in the fully open position.
(dhttp://www.marinedieselurope.com/) kratak zastoj (ventila, stroja, uređaja)
dwell due (n) (logist, ports) naknada za stajanje / čekanje (broda ili kontejnera u luci): Ports of Los Angeles and Long Beach Approve Controversial Container Dwel Fee on Ocean Carriers https://gcaptain.com The dwell fee is designed to speed the flow of cargo from terminals amid unprecedented congestion https://gcaptain.com
dwell fee (n) (logist) = dwell due naknada za stajanje / čekanje (broda ili kontejnera u luci): The port has today announced that the implementation of Container Dwell Fee will be further postponed to the 29th of 2021. https://www.shippingandfreightresource.com/ Ocean carriers are liable to be charged the Container Dwell Fee for each import container that falls into one of two categories: a. For containers that are scheduled to move by truck, ocean carriers will be charged USD100/- per container per day increasing in increments of USD100/- per container per day, if the containers have been sitting in the terminals for nine days or more.; b. ... https://www.shippingandfreightresource.com/
dwell time (n) (shipping econ, logist, mar law) Dwell time is the amount of time which cargo or ships, spend within a port. It is a key indicator of how efficiently a port is operating, how quickly cargo is flowing through its terminals and how long a ship is spending in port. The longer cargo is stuck in port, the more it costs shippers. (https://www.marinetraffic.com/blog/no-time-to-dwell/); vrijeme čekanja tereta u luci prije njegova ukrcaja na brod ili izlaska iz luke kopnenim ili rječnim putem; vrijeme čekanja broda u luci na iskrcaj ili ukrcaj tereta vrijeme čekanja (tereta / broda) u luci,

indexs vremena čekanja tereta na ukrcaj na brod u luci: Typically, dwell time is the time taken for exports inside terminal gates to be loaded onto a ship and imports onto a truck or train. In addition to easing terminal congestion, shorter dwell times enable cargo owners to save on storage charges applied by port authorities. Dwell time doesn’t just impact shippers, but ship operators too. Container vessels operate on schedules and a delay in any particular port is felt across the service. The shorter the dwell time, the lower the vessel and marine terminal operating costs. https://www.marinetraffic.com/ Customs are working to reduce container dwell time at ports. https://www.hellenicshippingnews.com/ (Dwell time measures the efficiency of the port operations (like berth allocation, rail and road connections or cargo handling, etc. container moves, or loading/discharging rate of a commodity per hour) and overall time of the ship in the port. (L. Vukić, personal communication)}
dye marker /dai/ (n) (comm, navig) signal u boji
dyke /daik/ (=dike; sea-dike) (n) (ports) An artificial earthen wall, often meant to prevent flooding of the hinterland. Like revetments but without, or hardly any, beach in front of the structure. (http://www.coastalwiki.org/wiki/Sea_dikes) zaštitni lukobran, zaštitni nasip (u luci),

Dynamically Supported Craft Safety Construction and Equipment Certificate (nav arch, mar law) Svjedožba konstrukcije i opreme dinamički podržavanog plovila
dynamical stability arm curve /daiˈnæmɪk əl/ (nav arch) krivulja poluga dinamičke stabilnosti
dynamic load /daiˈnæmɪk/ (nav arch) dinamičko naprezanje: The final tightening of wire falls must be always done manually and only efficient sea lashings must bear the dynamic loads at sea.
dynamic positioning (=DP) (navig) DP is a vessel capability provided via an integration of a variety of individual systems and functions. A computer-controlled system to automatically maintain a vessel's position and heading by using its own propellers and thrusters. Position reference sensors, combined with wind sensors, motion sensors and gyrocompasses, provide information to the computer pertaining to the vessel's position and the magnitude and direction of environmental forces affecting its position (https://www.nialexisplatform.org/certification/dynamic-positioning/)
dinamičko pozicioniranje: Examples of vessel types that employ DP include ships and semi-submersible Mobile Offshore Drilling Units (MODU) Since the development of Dynamic Positioning which incorporates the usage of SONAR, Radar and other comprehensive detection, ships have started finding it easy to maintain their pace and steady their being in the deeper parts of the oceanic and sea waters. The installation of an upgraded dynamic positioning system (DPS) fitted to a platform supply vessel (PSV), while alongside a quay, had proceeded well. dynamic positioning system sustav dinamičkog pozicioniranja (broda): DP Systems are vital for safety operations such as deep water drilling (Drillships, Mobile Offshore Drilling Units), anchor handling (Anchor handling tug supply vessel operation for anchoring of non-DP MODU), supply for oil rigs and platforms (entry to the 500m safety zone of offshore installation), subsea construction, ROV Support etc.
https://www.lerus-training.com, manual dynamic positioning ručno dinamičko pozicioniranje: Manual DP was immediately selected (with yaw control), full astern thrust was applied and the vessel's movement stopped. https://maritime-executive.com/
https://en.wikipedia.org/wiki/Dynamic_positioning (The computer program contains a mathematical model of the vessel that includes information pertaining to the wind and current drag of the vessel and the location of the thrusters. This knowledge, combined with the sensor information, allows the computer to calculate the required steering angle and thruster output for each thruster. This allows operations at sea where mooring or anchoring is not feasible due to deep water, congestion on the sea bottom (pipelines, templates) or other problems. (Wiki))

dynamic positioning operator (=DPO) (n) (navig) a person who in charge of control with Dynamic Positioning System. operator sustava dinamičkog pozicioniranja

dynamometer /ˈdaɪəˈmɒmɪtər/ (n) (marine eng) a device for measuring engine torque and horsepower. dinamometar, mjerač sile

eagle flies (n) (seamanship, figurative) dan is plate plaća

eastbound /iːstˈbaʊnd/ (adj, adv) (navig) ANTONYM westbound prema istoku, u smjeru istoka: On my last tour of duty I was towing a crane barge from Singapore using the East bound lane of the TSS. We were a loaded VLCC, eastbound along a narrow and busy sea lane. ... the inshore traffic zone is effectively closed to larger vessels proceeding eastbound from Tanjung Pelepas and Singapore. The two bulk carriers collided in the East-bound water route of the traffic separation scheme (TSS) https://safety4sea.com/
easterlies (n) (meteorol) istočni vjetar, istočnjak
eastery (n) (meteorol) istočnjak easterly wind istočni vjetar
easterly (adj, adv) 1 (navig) koji se kreće prema istoku, prema istoku easterly course na istočnom kursu, u kursu prema istoku: VTIS East was informed about close quarter situation after own vessel was clear and back on an easterly course. , easterly heading istočni smjer: The ship made steady progress on an easterly heading into strong north-easterly winds and heavy swells. The ship was now on a south easterly heading, and as she continued to be set to the north by wind and swell. ; 2 (meteorol) istočni (vjetar), s istoka northeasterly winds sjeveroistočni vjetar, sjeveroistočnjak, vjetar iz sjeveroistoka: The ship made steady progress on an easterly heading into strong north-easterly winds and heavy swells.

Easy! (seamanship) Carefully (watch what you’re doing) Polako!, Lagano! {An order for work conducted on board. ;naredba pri obavljanju poslova na brodu, rukovanja priveznom užadi itd.}

ebb /ˈeɪb/ (v) (oceanogr) a falling tide; the period when the tidal current is flowing from the land; outgoing tidal current draining a body of water spušati se (o moru, mijenja), opadati, Italian:flusso (di marea); marea calante: the tide was ebbing at about 0.3 knots towards the northeast The tide was on the ebb. Unknown to them, the increasing ebb caused the yacht’s anchor to drag.

ebb (n) 1 (oceanogr) oseka: Unknown to them, the increasing ebb caused the yacht’s anchor to drag.; 2 (oceanogr) struja uslijed oseke: Unknown to them, the increasing ebb caused the yacht’s anchor to drag.

ebb current (n) (oceanogr) struja oseke, struja uslijed oseke: Due to the ebb current and her loss of manoeuvrability, the ship ran aground outside the fairway level with buoy 30 after the collision.

ebb tide /ˈeɪb/ (n) (oceanogr) a state of low water; period of time during which the tide is falling
oseka: The ebb tide was causing the ship to set to starboard, and because of her slow speed and poor manoeuvrability she did not return to her planned track. The vessel slipped from her berth on the ebb tide and made her way along the short, straight, narrow channel to open water.

e-bill of lading (=eBL) (n) (mar law, shipping econ) = electronic bill of lading
SEE paperless bill of lading elektronička teretnica, digitalna teretnica
EBL /ɪlekˈtronɪk; ˌiːlekˈtronɪk/ (=electronic bearing line) (n) (navig) elektroničko smjeralo: To take the bearing of an object simply adjust the EBL until it cuts through the centre of the object and read off the bearing from the EBL readout on the display. Modern radars incorporate an improvement on the EBL by using an electronic cursor. The cursor is usually a cross which can be moved around the screen by using a trackball or other pointing device. EBL readout očitanje putem elektroničkog smjeralo, EBL reference očitanje putem elektroničkog smjeralo, offset the EBL prebacivanje smjeranja na drugu točku / cilj (na radarskom pokazivaču)
eBL (n) (logist, mar law, shipping econ) SEE electronic bill of lading elektronička teretnica, digitalna teretnica: With the aim of eliminating the risk of lost, stolen or late BLs in Reefer cargo delivery, we worked with the customer and offered our TradeLens electronic Bill of Lading (eBL) solution. https://www.maersk.com/
ebony /ˈebəni/ (n) (nav arch) ebenovina

EBTIDA (=Earnings before Interest, Taxes, Depreciation & Amortization) Earnings before Interest, Taxes, Depreciation & Amortization (EBTIDA) is a very popular, but also controversial measure of operating performance in the bulk shipping industry (https://seekingalpha.com) dohodak prije odbitka kamata, poreza, i amortizacije: The revenue earned from liner services grew 3.9%, to $31.45bn, with ebitda skyrocketing by 62.5% to $6.1bn, for a net income of $1.75bn. https://gcaptain.com/ We expect the aggregate EBITDA of the shipping companies we rate globally to grow by 3%-5% in 2021. https://www.hellenicshippingnews.com Most shipping companies report EBITDA in their earnings report. https://seekingalpha.com (EBITDA is a pro-forma accounting figure that measures the operating efficiency of a company, taking into consideration vessel operating expenses and administrative overhead. (https://seekingalpha.com/article/919401-how-to-make-sense-of-ebitda-in-the-shipping-industry))

EC (=Electronic Chart) (n) (navig) elektronička karta

ECA (=Emission Control Areas) (n) (marine eng) Svjetska područja kontrole ispuštanja (sumpornih oksida, dušičnih oksida itd.): Since January 1st, 2015, only vessels with a sulphur content of the fuel lower than 0.1% are allowed to sail through Emission Control Areas (ECAs). https://www.embassy-freight.be

ECDIS (=Electronic Chart Display Information System) (n) (navig) ECDIS with adequate back-up arrangements may be accepted as complying with the up-to-date charts required by regulations V/19 and V/27 of the 1974 SOLAS Convention, as amended. - (IMO 232(82) Standards for electronic chart display and information system (ECDIS) sustav pomorskih karata s elektroničkim pokazivačem, informacijski sustav i prikaz elektroničkih karata, elektronički kartografski sustav, sustav ECDIS: The intended route had been prepared using the ship’s electronic chart display and information system (ECDIS) and the OOW selected the scale on the ECDIS display that closely aligned with the 12 nm range scale. The intended route had been prepared using the ship’s electronic chart display and information system (ECDIS) and the OOW selected the scale on the ECDIS display that closely aligned with the 12 nm range scale ... ECDIS was the vessel’s primary means of navigation and the units were networked with the ship’s radars and Automatic Identification System (AIS). www.gov.uk/maib The transition to Electronic Chart Display and Information System (ECDIS) set for 2025 is already underway, but this does not mean the end of backup paper charts, and hopefully not the end of the navigational skills associated with traditional pilotage. https://www.practical-sailor.com/ The ship’s electronic chart display and information system (ECDIS) recorded the wind from the west at 15 knots. https://safety4sea.com/ ECDIS chart elektronička karta
**ECDIS display** /ekdis/ (n) (navig) **ECDIS** is a digital navigational chart system which can be used instead of paper charts, making the navigator’s workload easier with its automatic capabilities such as route planning, route monitoring, automatic ETA computation and electronic navigation chart updating. The International Maritime Organisation (IMO) made the carriage of **ECDIS** mandatory under Safety of Life at Sea (SOLAS) Chapter V (Safety of Navigation) for most large vessels of 3000 GT or more, on 1 July 2018. (https://www.marineelectronics.com/news/ecdis-maritime-accident-255821)

The OOW looked at the **ECDIS display** and reported to the master that there was no cause for concern. A few minutes later, after having been contacted by VTS, the OOW zoomed in on the **ECDIS display** and realised that the vessel was aground. At 0240, the 3/O noticed that the ship’s speed shown on the **ECDIS display** had reduced to 7.4kts. Using such tools, **ECDIS** can help to establish the best time-saving route planning within pre-defined ‘safety corridors’ although ... a one-to-one check of the entire route from berth to berth must still be carried out.

The ship was equipped with an **ECDIS**, though it was not in use at the time of the accident as its chart licence expired. www.gov.uk/maib zoom in the **ECDIS display** povećavati prikaz na ECDIS-u, zumirati na prikazu elektroničke karte, zumirati na displeju ECDIS-a.: The 2/O had zoomed in the **ECDIS display** and changed the chart view from ‘standard’ to ‘all’, change the view from 'standard' to 'all'

promijeniti prikaz karte sa "standardnog prikaza" (prema IMO-u) na "sve prikaze": The 2/O changed the chart view from ‘standard’ to ‘all’, standard **ECDIS display** Standard Display is the display mode intended to be used as a minimum during route planning and route monitoring. (https://puc.overheid.nl/nsi/doc/PUC_2574_14/1/) standardni prikaz na ECDIS karti, 'all' **ECDIS display** prikaz svega na karti: The 2/O zoomed in the **ECDIS display** and changed the chart view from ‘standard’ to ‘all’, which showed more detailed depth information.

**ECDIS display base:** 1 Display base to be permanently shown on the **ECDIS display**, consisting of: temeljni podatci na ECDIS-u

**ECDIS - Standards for electronic chart display and information system**
(n) (navig) **standardi za prikaz na sustavu ECDIS**

**e-charge point** (n) (ports, electr, marine eng) mjестo punjenja baterija (u luci): **e-charge points** at ports could soon become a common sight on the UK seas and coastal towns.

https://safety4sea.com/

**e-chart symbols** (n) (navig) **oznake na elektroničkoj pomorskoj karti**
**E - Landmarks**

**The reflection of a radar signal from an object; the display of the reflected signal on the radar screen**

**jeka, odraz (na radarskom ekranu):** The target ship’s echo
appeared on the radar at 3 miles multiple echoes višestruke jeke (od jednog objekta): Multiple echoes can occur when a strong, short-range echo is received from a target, echo strength jačina jeke, false echo lažna jeka, unwanted echo neželjena jeka, lažna jeka, sea echo smetnje od mora i valova, smetnje s mora, indirect echo indirektna jeka: Indirect echoes may be returned from either a passing ship or from a reflecting surface on your own ship, such as a stack, echo enhancement pojačavanje odraza / jeke, echo stretch izdužavanje odraza, pojačavanje odraza, echo expansion povećanje odraza, echo strength jačina odraza: The echo strength depends on the peak power of the transmitted pulse and the characteristics of the target, weak echo slab odraz: Remember! The weakest echoes, or those not seen at all may be the most dangerous, displayed echo (on the radar screen) jeka prikazana na radarskom zaslonu: At 1219:43, with the VRM touching the displayed echo of the corner of the quay.

echosounder (=echo-sounder) (n) (navig) An instrument which transmits sound through the water and receives reflected signals from the bottom, and which, by measuring the elapsed time, computes and displays the depth. (http://www.seatalk.info/cgi-bin/nautical-marine-sailing-dictionary) ultrazvucni dubinomjer: At 2007, the Master directed the 3/O to change the scale on the echo sounder from 50 m to 100 m. https://safety4sea.com/check echosounder provjeriti zvučni dubinomjer, hydroacoustic echosounder 1 ultrazvucni dubinomjer; 2 eholot, switch on / off the echosounder uključiti / isključiti ultrazvucni dubinomjer: The vessel’s electronic navigation equipment were functioning properly but the echosounder had been switched off shortly after leaving the port.
echo stretch kontrola na radaru za izduživanje manjih odraza / jeka, kontrola za pojačavanje slabijih odraza / jeka na radaru: The object of echo stretch or expansion is to make small targets look bigger.
echo trail (n) Echo trails are the afterglow of target echoes that represent their movements relative to own ship. They are useful for monitoring or zoom or shift is activated. trag cilja na radarskom ekranu, zadržana slika na radarskom zaslonu (nakon promjene područja): Echo trails are useful for assessing target movement and collision possibility.

http://www.furuno.com/special/en/model1835/function.html {This feature shows the past position of echoes and therefore the movement of each echo by displaying their previous positions at regular intervals.}
eclipse /iˈklips/ (n) (navig) an interval of darkness between appearances of a light tama, pomrčina, eklipsa, period tame (plovidbene oznake)
eco-friendly ship (=eco-ship) (n) (environ, marine eng, nav arch) ekološki
prihvatljiv brod: the use of resources and energy to transport people and goods by ship and specifically concerns the reduction in such resources and energy in order to preserve the global environment from GHGs (greenhouse gas) and environmental pollutants generated by ships.

e-commerce (n) (safety) elektronička trgovina: The e-commerce players will decide the future of e-shipping world of the future.

economic speed (n) (shipping econ, navig) the speed of a vessel producing the best possible financial results for the owners, considering the following: 1. The prices of bunkers in the ports en route. 2. Fuel consumption of the vessel at various speeds. 3. Daily operating costs. 4. The net freight per ton of cargo. 5. Operating profit per day) http://www.tkmglobal.net/chartering_E.HTM

ekonomična brzina

economiser /iˈkɒnər/ (economizer) (n) (marine eng) a device that uses the waste heat from a boiler flue to preheat the feed water zagrijač napojne vode, ekonomajzer: At the same time, the exhaust temperature was not reduced too low, so retaining the potential for waste heat recovery from an economiser.

economy of scale (economies of scale) (n) (shipping econ) a condition/theory of economy which encourages the production of larger volumes of a commodity to reduce its unit cost by distributing fixed costs over a greater quantity. ekonomija velikih brojeva, ekonomija razmjera: The flexibility, critical mass, economies of scale and the availability of manpower for the ships are some of the factors that are considered important in making the “outsourcing” or “inhouse” Economies of scale will tend to give figures higher than the flat rate of the Worldscale for smaller vessels and lower than this for larger vessels. Having already achieved the economies of scale offered by larger vessels, carriers no longer need to order more capacity than is necessary to satisfy near-term demand https://www.joc.com/maritime-news

ECS (engine control system) (n) (marine eng) SEE engine control system sustav upravljanja brodskim strojem

eddies /ˈediz/ (eddies) (n) (navig) A current of water moving against the main flow. Often causes small whirlpools. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/) vrtložna struja, virovi: I went into the chartroom and had a look at the chart and there were numerous symbols of eddies in the vicinity of our position. This is particularly so at night, when the presence of turbulent water and eddies in the vicinity of obstructions such as bridge buttresses might not be readily apparent until their effects are experienced.

eddy current /ˈedi/ (n) (electr) vrtložna struja, Foucaltova struja

eddy water /ˈedi/ (n) (nav arch) povratna voda (od propelera)

EDI (electronic data interchange) (n) (shipping econ) an interactive electronic system that enables a supplier and a customer to communicate easily elektronička razmjena podataka, sustav EDI: The customs broker sends his import or export declaration via the customs web application or an EDI message.

edible cockle (n) kapica srčanka

edible oil /ˈedibəl/ (n) (cargo) jestivo ulje

educational qualification školovanje, školska kvalifikacija name of institute / college naziv školske ustanove / visoke škole

educt /iˈdakt/ (v) separate a substance from another substance without chemical change; separirati edukcijom odvoditi, odvajati
**eductor** *(n)* *(marine eng)* In most turbo-charged engines, crankcase fumes are not removed by direct suction as in the normally aspirated engines. Instead a venturi principle is used. This is commonly called an eductor. **eductor, ejektor:** A certain amount of coking takes place in the stack around the rim of the eductor tube where more oxygen is available. Blocked Sea Suction Prevented Engine Room Flood Vessel’s **eductor system valve**. He found that the starboard main engine bilge **eductor system valve**, which was out of sight, behind the engine, had completely sheared off from the sea water suction pipe. **cargo eductor eduktor tereta (nafte), ejektor tereta (nafte)**

https://www.globalspec.com/learnmore/manufacturing_process_equipment/fluid_processing_equipment/eductors

**eductor room** /ˈdʌktɔr/ *(n)* *(marine eng, cargo handling)* a pump room to transfer liquid cargo

**prostorija eduktora, prostorija / tank za prijenos tekućeg tereta**

**EEDI** (=Energy Efficiency Design Index) SEE Energy Efficiency Design Index (EEDI) *indeks za energetsku učinkovitost broda:* The **EEDI** evaluates the ship efficiency by means of propulsion power and transport work. (https://rules.dnv.com/docs/pdf/gl/maritimeraules/gl_vi-13-1_e.pdf)

**eel** /iːl/ *(fishing)* jegulja *(drugi hrv. nazivi: angulja, bižat, čapor, kajman, kračica, žutica; lat. ANGILLA ANGILLA)*

**EEXI** (=Energy Efficiency eXisting ship Index) *(nav arch)* a measure related to the technical design of a ship and introduced by the IMO to reduce GHG emissions of ships, is pretty simple; it is just a limit to the maximum power of the ship and is a one-time change. (https://safety4sea.com/) indeks smanjenja ispuštanja stakleničkih plinova (pri projektiranju brodova)

**e-ferry** *(n)* **trajekt na električni pogon, električni trajekt:** The e-ferry is powered by a 4.3MWh battery – the largest ever in a boat www.NauticExpo.com Over one year, the **e-ferry** will prevent the release into the atmosphere of 2,000 tons of CO2, 42 tons of NOx, 2.5 tons of particulates and 1.4 tons of SO2 ...

**e-ferry route** *(n)* *(shipping econ)* **linija električnih trajekata:** The maiden voyage was between the ports of Soby and Fynshav, on the islands of Ærø and Als in southern Denmark, a trip that is seven times longer than any other **e-ferry route**.

**effect** /ɪˈfekt/ *(n)* *(mar law)* **ucinak, djelovanje, zakonska snaga, posljedica, efekt with effect from … until … počevši od … do …, s punovažnošću od … do …, have effect on utjecati na, djelovati na, imati učin na:** Although the engine telegraph had been set from full ahead manoeuvring to half ahead, this had no effect on the engine speed ..., **adverse effect on nepovoljan učin na, negativan utjecaj na:** Such mixing may have an **adverse effect on the running condition**, **immediate effect** neposredni
Effect of wind and rolling

**učin:** This had an **immediate effect** as he then made a large alteration to starboard and passed clear. **full force and effect** punopravni **učin:** This Agreement is applicable and **of full force and effect** whether or not the Owners have entered into individual contracts of employment with any Employee. **side effect** popratno djelovanje, popratna posljedica, **take effect** (navig, marine eng) djelovati, početi djelovati: Astern movements were given in time to stop the vessel, but the movement failed to **take effect**. **take effect (mar law)** stupiti na snagu (propis, zakon, pravilo, norma, ugovor itd.), početi važiti: Orders at Japanese shipyards rocketed 186% in October as shipowners rushed to build ships that will comply with the International Maritime Organization's (IMO's) new standards, **which will take effect from** July 2016. **to come into effect** stupiti na snagu: This Agreement shall **come into effect** on..........................and shall continue until........................., **sealing effect** brtveni **učin**, **učin brtvljenja:** To assist in the **sealing effect**, air from the compressor volute casing is led into a space within the gland., **desired effect** željeni **učin**, željeno djelovanje, **efekt:** Miraculously **this had the desired effect** and she altered just in time to port passing us at a CPA of less than 0.1 mile., in **effect** na snazi: Regulation currently in effect. **effect** /ɪˈfekt/ (v) 1 izvršiti **effect payment** platiti (račun), izvršiti plaćanje, **effect a repair** popraviti, obaviti popravak, izvršiti popravak: There were enough spares and bits and pieces to **effect a temporary repair.**; 2 djelovati **effect** (n) posljedica **effective** /ɪˈfektɪv/ (adj) učinkovit, djelotvoran, efikasan: The fishing vessel’s skipper’s last-minute avoiding action was too late to be **effective**. **take effective action** poduzeti efikasnu radnju: the speed was too high to **take effective action** to avoid collision It is therefore important when manoeuvring to know how a vessel’s CPP will behave on failure so that **effective action can be taken.** The action taken to stop the ferry when an uncertain situation developed was **effective** in avoiding collision. https://safety4sea.com/, **effective 1 January 2015** koji stupa na snagu 1. siječnja 2015., **effective means** učinkovito sredstvo, djelotvorno sredstvo: ECDIS provides the bridge team with an efficient and **effective means of navigation.**, **effective Bridge Team and Resource Management** učinkovito upravljanje ljudskim resursima na mostu: **Effective bridge resource management** should eliminate the risk that an error on the part of one person could result in a dangerous situation., **effective protection** učinkovita zaštita, efikasna zaštita: Pipelines for fire-fighting purposes (monitor supply, foam, water spray, etc.) installed on open deck should have **effective protection** against corrosion. **effective dates of contract** (n) (mar law, shipping econ) datumi stupanja na snagu početka / završetka ugovora: **Effective dates of contracts** can be amended, even orally There’s nothing to preclude parties from agreeing to modify the **effective date of a transportation contract.** Such agreement would be an amendment to the contract itself. As long as there was no conflict between the parties, such an amendment could even be an oral one. **effective plating area** /ɪˈfektɪv/ (n) (nav arch) sunosiva širina lima **Effect of wind and rolling** (n) (stabil) učin vjetra i ljuljanja broda, utjecaj vjetra i ljuljanja broda: The generic risk assessment for STS (Ship-to-Ship) operations – which is also applicable to bunkering operations – was reviewed and revised to take into consideration the **effect of**
wind and sea on the other ship at anchor.

efficiency /ˈɛfɪsɪənsi/ (n) 1 a djelotvornost, efikasnost; 2 (marine eng) iskoristivost, korisni učinak thermal efficiency termički stupanj djelovanja, combustion efficiency korisni učinak izgaranja, degree of efficiency stupanj iskoristivosti, plant 1 stupanj iskoristivosti pogona / postrojenja, increase the efficiency povećati stupanj iskoristivosti, fuel efficiency iskoristivost goriva, efikasnost goriva: Fuel costs contribute a major share of the total operating expenses for a Kamsarmax bulker. Therefore, the fuel efficiency is of great importance.

https://www.wartsila.com/.../shipping-in-2020-choosing-the-right-fuel-and-propulsion., propeller efficiency učin propela, efikasnost propela, poor efficiency slab učin, slaba iskoristivost, slaba efikasnost: The higher hotel load and the poor efficiency of the auxiliary gensets in meeting the hotel load outweighs these gains for the 2-stroke concept compared to the 4-stroke concept. https://www.wartsila.com/.../shipping-in-2020-choosing-the-right-fuel-and-propulsion.,

loss in efficiency: The loss in efficiency over the reduction gear box is 2% (a one stage gear is applied) and the CPP is calculated to have a 1% lower open water efficiency compared to the FPP used in the 2-stroke concept.

efficient /ˈɛfɪʃnt/ (adj) 1 a učinkovit, efikasan, uspješan; 2 sposoban efficient deckhand /ɪˈfektɪv/ (=E.D.H.) (n) (law) stariji / iskusni mornar efficient speed /ɪˈfektɪv/ (marine eng) korisna brzina effort /ˈefət/ (n) napor, pokušaj to make every effort pokušati sve, učiniti sve: If there is an unusual discrepancy between the shipper's figure and that disclosed by the vessel's loading ullages, every effort should be made to have the latter inserted in the bill of lading., make a good effort potruditi se jako: The crew made a good effort in tackling the fire but their work was hampered by containment difficulties.

e.g. /ɪ:ˈdʒɪsi/ (=eg.; eg) npr., na primjer (lat exempli gratia)

EGB (=Exhaust Gas Boiler) (marine eng, environ) kotao ispušnih plinova: "Un-burnt fuel and lubricants can also settle in the EGB, which reduces the ignition temperature of soot, while increasing a risk of soot fire

EGC (=Exhaust Gas Cleaning) (environ, marine eng) pročišćavanje ispušnih plinova EGC Record Book Knjiga pročišćavanja ispušnih plinova: The nitrate discharge data and analysis certificate is to be retained on board the ship as part of the EGC Record Book and made available for PSC if requested www.marineinsight.com

EGCSA (=Exhaust Gas Cleaning System Association) (environ, marine eng) Udrug u sustava za pročišćavanje ispušnih plinova egging /ˈɛɡɪŋ/ (fishing) lov na lignje s obale, lignjolov s obale

EGR (=Exhaust Gas Recirculation) (marine eng) recirkuliranje ispušnih plinova: An alternative means of meeting the IMO Tier III levels might also be to use Exhaust Gas Recirculation (EGR), although this technology has still to be further validated.

**egress** ˈɪgres (v); ˈiːgres (n) 1 (v) izaći, izlaziti: The engineers attempted to egress using the elevator, but found it not operable. [https://safety4sea.com/](https://safety4sea.com/); 2 (n) izlazak, izlaženje: Recognizing that the only other egress from the ECR was through the engine room, the engineers tried to leave but were forced back into the ECR by heavy smoke. [https://safety4sea.com/](https://safety4sea.com/)

**ejector** /iˈdʒekər/ (marine eng) a static pump for ejecting liquid, as from a sump; induces fluid flow by entraining the liquid in the flow of a stream of air, steam, or water. ejektor, potiskivač, mlazna pumpa, strujna vakuumskas sisaljka: The ejector can be used for all suction purposes. Ellehammer Ejectors are ejector pump strujna vakuumskas sisaljka

**elapse** (v) 1 istjeći, isteći: An audible signal is usually given when the 5 seconds have elapsed and a message is sent. Only 30 minutes had elapsed from the vessel striking the quay wall to it sinking. time for delivery has elapsed rok za isporuku je istekao: Time limit for filing a claim is 9 months from date of delivery, or in the event of non-delivery. 9 months after a reasonable time for delivery has elapsed.; 2 (mar law) istjeći (o roku), isteći (o roku), proći (o roku): During the course of a voyage if your vessel is or has experienced bad weather or any nature of extraordinary damage or loss that may be caused to your vessel and/or cargo you must prepare a Note Of Protest and upon arrival and/or never after 24 hours having elapsed (not including holidays, Saturdays and Sundays) have it notarized at Notary Public.

**elastic coupling** (n) (marine eng) elastična spojka, opružna spojka, elastična spojnica: Elastic or flexible couplings allow slight misalignment and damp out or remove torque variations from the engine. The system comprises a compact unit with a step-up gear coupled directly to the generator, which is located above the elastic coupling.

**elastic curve** krivulja elastičnih deformacija: The line in the right-hand diagrams connecting the maximum amplitudes reached simultaneously by each mass on the shaft system is called the ‘elastic curve’. The most significant masses in any mode of vibration are those with the greatest amplitude on the corresponding elastic curve.

**elastic limit** ˈiˈleistik/ (marine eng) granica elastičnosti

**elastic steel** ˈiˈleistik/ (marine eng) elastični čelik, rastezljivi čelik
electric /ˈlektri̞k/ (adj) električni (For the difference between 'electric' and 'electrical' see: http://english.stackexchange.com/questions/31649/what-is-the-difference-between-electric-and-electrical-and-their-usage): 1. Electric is used to describe things pertaining to electricity. It can also be used metaphorically: the evening was electric. 2. Electrical can be used nearly everywhere that electric is used when pertaining to electricity (aside from some set phrases). It is not generally used metaphorically in the way electric is.. 3. So, in the case of electric(al) machine from your question, since you are talking about something that runs on electricity, the two words are essentially identical in meaning.)
electrical /iˈlektrikəl/ (adj) električni electrical engineer inženjer
elektrotehnike, elektroinženjer (‘electrical engineer’ (not ‘electric engineer’); ‘electrical officer’ (not ‘electric officer’))
electrical cable (n) električni kabel: The fire was caused either by a short circuit where the electrical cables were draped over the non-continuous bulkheads, or by an overheating electrical device belonging to one of the crew.
electrical conductivity (n) električka provodljivost, električka vodljivost
electrical fault (n) električni kvar: All the indications suggest that the fire was probably caused by an electrical fault on the bilge pump or high bilge level float switch circuit which were the only circuits that were live while the boat was at the mooring. Lack of attention, spontaneous combustion and electrical faults are the major causes of shipboard fire. Tender vessel caught fire due to a suspected electrical fault. (https://safety4sea.com/)
electrical motor (n) elektromotor: Root cause/contributory factors Incorrect layout of sea-water piping directly over steering pump electrical motors; The electrical motors and components were successfully cleaned out with solvents, dried out and made fully operational in the anchorage by ship’s staff ...
electrical officer časnik za električne uređaje i instalacije, brodski elektro-časnik: Electrical engineer is responsible for maintenance of all the electrical equipment on a ship such as motors, switchboards, fire detectors, navigational lights, batteries etc. He assists ship’s deck officer and engineer in all kind of electrical malfunctions. The third engineer, who may or may not hold a certificate of competency, keeps the 2x2 watch and where an electrical officer (electrotechnical officer) is not carried usually maintains the ships electrical equipment. In our fleet, we now require electrical officers (E/O) to examine carefully all radar antennas, cable penetrations and junction boxes on the compass deck and masts once a month ...
electrical panel (n) strujna ploča, električni ormarić: A lifeboat should never be hoisted by operating the winch motor from a remote electrical panel as this may by-pass the safety cut-outs, can result in loss of control due to communication difficulties and also pose an electrocution hazard.
Electrical power was isolated throughout the ship with the exception of the emergency fire pump, which had been started to provide fire-fighting water. At the time, all electrical power was being supplied by the main engine driven shaft generator, and so with the main engine shutting down, all electrical power was also lost.
electrical shortcut (n) kratki spoj: This caused an electrical short (cut), resulting in sparking and leading to high temperatures which caused damage to the cable insulation and fittings.
electrical socket (n) (electr) električna utičnica: Overloaded electrical socket and defective adaptor.
electrical spares (n) (sailing/boating/yachting, electr) pričuvni dijelovi za električne instalacije fuses osigurači, bulbs žaruljice, terminal fittings stopice, soldering iron and solder nit za lemljenje i lemilica, tape - insulating and self-amalgamating vrpce - izolirajuće i samostapajuće, battered for torches baterijski ulošci za svjetiljke, distilled water for topping up batteries destilirana voda za dolijevanje akumulatorskih čelija, hydrometer (for checking battery cells) hidrometar (za provjeru akumulatora), connecting blocks spojnica
electrical spark (n) (electr) električna iskra: Do check the Product and Material the halogen lamp. Either the hot lens or bulb, Safety Data sheets of materials to or an electrical spark from the lamp ignited identify if there are dangers associated the mixture, causing the explosion.
electrical storm (n) (meteorol) oluja s električnim pražnjenjem, električna oluja: elines for completing the ship/shore safety checklist: The operations should be suspended and all deck and vent openings closed on the approach of an electrical storm.
electrical supply (n) (electr) napajanje električnom energijom: About 40 minutes after leaving the berth the ship experienced a series of short power failures which interrupted the steering gear electrical supplies.
electrical system (n) (electr) električni sustavi: A complete failure of the vessel’s electrical system with the navigation equipment and the radio set is considered probable in view of the arrangement of the load batteries. After salvage, the main engine could be restarted, but all the electrical systems were damaged.
electrical tape (n) (electr) izolacijska traka, električna traka, električna vrpca: Following the incident the school’s instructors examined the flare firing mechanism and decided to place a band of electrical tape around it to help prevent inadvertent firing of the flare.
electrical wiring (n) (electr) električni vodovi, električno ožičenje, električna mreža: The insulation of electrical wiring should be checked at regular intervals. A short circuit occurred in the electrical wiring.
electric arc welding (n) (electr) elektrolučno zavarivanje: A standby vessel was in port waiting for her next tasking, so the opportunity was taken to carry out an electric arc welding repair to the bedplate of an alternator located in the engine room.
electric boat /ˈlektrɪk/ (n) (sailing/boating/yachting) brodica na električni pogon
electric charge (n) (electr) električni naboj
electric circuit (n) (electr) strujni krug: Check that electric circuits are in good condition and that fuel pipes are free from chaffing.
electric device (n) (electr) električni uređaj, električni aparat
electric drive (n) (nav arch) električni pogon: The century-old Amsterdam canal boat Gerarda Johanna looks like a classic with wood paneling, but beneath its floorboards lies a high-tech underbelly: rows of lithium ion batteries, 66 in all, with an electric drive train powering its propeller. https://gcaptain.com/amsterdams-boats-go-electric-ahead-of-2025-diesel-ban/
electric ferry (n) (nav arch) električni trajekt, trajekt na električni pogon: When delivered later in 2019, the 70m electric ferry will be able to take up to 550 passengers and 75 cars on up to 3,600 annual trips in the rough waters between Landeyjahöfn on the mainland and the Westman Island,
covering eight-mile route in about 45 minutes.  
https://www.marinelink.com/news/iceland-electric-ferry-powered-abb-462829 The new **electric ferry** will feature a large battery pack (3000kWh) and is designed to operate in a fully electric mode for most of time, with onshore charging in both harbors, with an estimated average charge time of 30 minutes.  
https://www.marinelink.com/news/iceland-electric-ferry-powered-abb-462829 During particularly challenging weather conditions, when the consumption of battery power may exceed the available energy, this **electric ferry** will use its diesel-electric generator set.  
https://www.marinelink.com/news/iceland-electric-ferry-powered-abb-462829 The scope of ABB supply for the **electric ferry** also includes generators, transformers, switchboards, the Power and Energy Management System (PEMS) and the Energy Storage Control System (ESCS).  

**electric generation** (n) (electr) generiranje električne energije, proizvodnja električne energije, proizvodnja električne struje  
**electric generator** (n) (electr) električni generator, generator električne struje  
**D.C. electric generator** generator istosmjerne struje  
**electric heater** (n) (electr) električni grijač: The oil is heated by steam (although thermal oil or **electric heaters** are used on other systems).  
**electrician** /ɪˈlektrɪʃən/ (n) (electr, marine eng) električar (brodski), struja  
**electricity** (n) (electr) električnost, električna struja generate **electricity** proizvoditi električnu struju  
**electricity usage fee** (n) (shipping econ) naknada za korištenje električne energije (za napajanje brodova, hlađenih kontejnera itd.)  
**electric motor** (n) (electr) elektromotor: There is at least one good solution where the boat has a single point hoisting/lowering system with an **electric motor**. The turning gear on a turbine installation is a reversible electric motor driving a gearwheel which meshes into the high-pressure turbine primary pinion. An **electric motor** can provide a drive with very low-vibration characteristics, a quality valued for warships, research vessels and cruise ships ...  
**electric motor** (n) (sailing/boating/yachting) električni pogonski motor (za brodice, jahte) inboard **electric motor** nutarnji pogonski električni motor:  
The VETUS brushless electric motor does not use carbon brushes, which makes it whisper-silent and maintenance-free. At low revolutions, the efficiency of this brushless motor is considerably higher than conventional electric motors equipped with carbon brushes. The VETUS brushless motor also has a very favourable power to weight ratio. Another remarkable feature of the brushless VETUS **electric motor** is the very low number of revolutions (max. 1,250 r.p.m.), which means that it can be coupled directly to the propulsion shaft, without the need for a reduction gearbox.  

**electric power** (n) 1 (electr) električna struja: Loss of the ship’s own propulsion, **electric power**, steerage and manoeuvrability could be foreseen and eventually occurred.  
2 električna energija provide **electric power** opskrbiti električnom energijom  
**electric-power unit** /ɪˈlektrɪk/ (n) (electr) agregat električne energije  
**electric pre-heating coil** (n) (marine eng) električni predgrijač  
**electric propulsion** (=electrical propulsion) (n) (nav arch) električni pogon:  
Diesel **electric propulsion** allows the engines to be placed wherever is most suitable, as they no longer have to be aligned with reduction gearing .. Another example of the flexibility facilitated by an **electric propulsion** is the Flexpower 2000 system.
propulsion system is a semi-submersible rig installation whose gensets are mounted on the main deck and propulsion motors in the pon GE will provide the electric propulsion system with his partners Imesa and Nidec that will bring operational efficiency and excellent maneuverability to Seaside EVO largest cruise ships. GE’s electric propulsion solution consists of propulsion controls along with transformers, variable frequency drive (VFD) technology, propulsion motors and distribution transformers. 

electric pump (n) (electr, marine eng) električna pumpa, električna crpka, električna sisaljka: After fitting the new propeller, the contractor cast off and, while leaving the marina, pumped the bilges using the electric pump.

electric ray (n) (fishing) COMPARE ray Lat. Torpedinidae; Lat. Torpedo marmorata drhtulja, drhtulja šarulja, mramorna drhtulja, tremol

electric shock /ˈlektrɪk/ (n) (electr) električni udar, elektrošok: Another crew member who went to his aid also received an electric shock from the same source and sustained a serious injury.

electric welding /ˈlektrɪk/ (n) (electr) električno zavarivanje: ... a lack of maintenance or bad watchkeeping practices. They are usually caused by fuel spills, overheating components or careless use of electric welding or gas brazing gear. The officers became curious, seeing the electric welding cable leading from the engine room along the upper deck, and followed it to the hot work site in hold no. 3

electric winch (n) (cargo handling, seamanship): The bosun operated the electric winch briefly, and the manual winding handle, in the hands of the two other crewmen, swung rapidly and struck one of them on the head.

electric wiring /ˈlektrɪk.waɪrɪŋ/ (n) (electr) = wiring električni vodovi electric wiring diagram elektrošHEMA
electrode /ɪˈlektrəʊd/ (n) (electr) elektroda electrode holder nosač elektrode

electrolysis /iˈlektrəlɪsɪs/ (n) (sailing/boating/yachting, electr) A small amount of electric current that passes between dissimilar materials. Causes corrosion on the spars and rigging of many sailing vessels where dissimilar materials are in constant contact. elektroliza, korozija uslijed elektrolize

electromagnetic wave /ɪˌlektrəʊmæɡˈnetɪk/ (=EM) (n) (electr) elektromagnetski val

ground electromagnetic wave površinski valovi, sky electromagnetic wave

prostorni valovi

electronic aids (n) (navig) elektronička navigacijska pomagala: The bulk carrier’s officer of the watch did not effectively use the electronic aids available to maintain a proper lookout. In most collisions and groundings, electronic aids such as ARPA, CPA and TCPA alarms, waypoint alarms and depth alarms had not been used.

electronic bearing line (=EBL) (n) (navig) elektroničko smjeralo: We have monitored or plotted their radar targets using the cursor or ARPA facility; taken a series of compass bearings using the radar’s electronic bearing line; and/or taken a series of visual compass bearings using the azimuth ring. Facilities such as automatic plotting, electronic bearing lines, variable range markers and radar guard alarms, are normally provided to assist the OOW. He checked the vessel was on heading for the next alteration of course position, which was indicated by an electronic bearing line on the plotter.

electronic bearing marker /ɪlekˈtronɪk/ (=EBM) (n) (navig) elektronička oznaka azimuta: The ARPA is non-functional and the electronic bearing marker is about 20 degrees out.

electronic bill of lading /ɪlekˈtronɪk/ (=e-Bill of Lading) (mar law, shipping econ, logist) elektronička teretnica: India is now looking for ways to implement electronic bills of lading, electronic delivery orders, certificates of origin, letters of credit, and other trade documentation across all export-import transactions in India. https://safety4sea.com

Electronic Cargo Tracking Note (=ECTN) (n) (logist) If you are shipping to, or through one of the countries listed (e.g. listed African countries) then you will need special waiver certificate documentation in order to clear customs. https://www.logisticsglossary.com/term/electronic-cargo-tracking-note/

Potvrda o oslobađanju od podnošenja dokumentacije za carinski pregled (za robu u tranzitu): These waiver certificates (also known as ECTN – Electronic Cargo Tracking Note) are required by certain African countries to effectively control, supervise and manage import / export traffic to the country. https://www.logisticsglossary.com/term/electronic-cargo-tracking-note/

electronic chart /ɪlekˈtronɪk/ (n) (navig) The electronic chart displays the vessel’s ‘real-time’ position, course and speed. It also carries out different complex functions to help improve the bridge crew’s situation awareness' and can merge together radar imagery, ship information, chart activity and AIS information all into one view.

(https://www.marineelectronics.com/news/ecdis-maritime-accident-255821) elektronička karta: The mate was alone on the bridge, navigating with the aid of an electronic chart system while seated on the wheelhouse chair. The intended route had been prepared using the ship’s electronic chart display and information system (ECDIS) and the OOW selected the scale on the ECDIS display that closely aligned with the 12 nm range scale set. He was primarily using an electronic chart plotter with a GPS input, although he had two radars and a magnetic compass at his disposal.

Electronic Chart Display and Information System (=ECDIS) (n) (navig) elektronički navigacijsko-informacijski sustav, sustav ECDIS: The OOW was monitoring the vessel’s position on the Electronic Chart Display (ECDIS) but was not plotting the
position on the paper chart. We have developed the Electronic Navigational Charts for the Strait (and our port) which can be used together with the Electronic Chart Display and Information System (ECDIS) for real-time navigation without the use of paper charts. were fully compliant with International Maritime Organization (IMO) requirements. The ship was fitted with two independent Electronic Chart Display and Information System (ECDIS) units.

**electronic circuit** /ˌɪlekˈtronɪk/ ˌsɪk/ elektronički krug

**Electronic Data Interchange** (=EDI) exchange of information through an electronic format elektronička razmjena podataka

**electronic device** (n) (electr) elektronička naprava, elektronički uređaj: It is recommended to thoroughly check the vessel’s equipment, especially for the arrangement, configuration and adjustment of electronic devices so that errors in installation can be recognized in time and if need be already be dealt with during the sea trial.

**electronic engine control** (=EEC) (n) (marine eng) Microcomputer coupled with sensors and controls for fuel, coolant, and other on board systems, as well as self diagnostic ability. ([http://www.marinedieseleurope.com/](http://www.marinedieseleurope.com/)) elektroničko upravljanje strojem

**electronic navigation** (n) any method of position fixing using electronic means, including: radio navigation, radar navigation, satellite navigation. elektronička navigacija: Although she was equipped with an Electronic Navigation System, which would have provided waypoint alarms, this was not in use because the crew were not sufficiently trained in its use.

**electronic navigation aids** /ˌɪlekˈtronɪk/ (n) (navig) elektronička navigacijska pomagala: It is essential that all mariners are not only trained in the operation of electronic navigation aids, but understand the weaknesses and how these aids should be used as a decision support system rather than a decisionmaking system.

**electronic navigational chart** /ˌɪlekˈtronɪk/ (=ENC) (n) (navig) compiled from a database of information this chart presents the OOW with a vector chart. Information is built up in layers so the OOW can decide to exclude certain features in order to keep the view clear and simple elektronička navigacijska karta, elektronička karta: Using an electronic navigational chart within ECDIS, the OOW can monitor the safety corridor, safety contours, their own vessel GPS and its vector, any other vessels AIS and vector, the tide vectors and exploit the customizable menu. [https://www.marineelectronics.com/news/ecdis-maritime-accident-255821](https://www.marineelectronics.com/news/ecdis-maritime-accident-255821)

**electronic navigation equipment** (n) (nav arch, navig) elektronički navigacijski uređaji, elektronička navigacijska oprema: The vessel’s electronic navigation equipment, which included the electronic chart display and information system (ECDIS), radar and the bridge navigational watch alarm system (BNWAS), were functioning correctly.

**electronic position fixing system** /ˌɪlekˈtronɪk/ (n) (navig) sustav elektroničkog određivanja pozicije: Navigators should use all available means to check the position of their vessel, but they must regularly verify the accuracy of positions displayed by electronic position fixing systems by reference to visual bearings and transits whenever available.

**electronic range and bearing line** (=ERBL) (n) (navig) elektroničko smjeralo za mjerenje udaljenosti i smjerova

**electronic range marker** /ˌɪlekˈtronɪk/ (=ERM) elektronički daljinomjer

**electronics** (n) (electr) elektronika, elektroničko traženje tereta

**electronic tracking** /ˌɪlekˈtronɪk/ (shipping econ) elektroničko praćenje tereta

**electronic transport record** (n) (mar law, math) information in one or more messages issued by electronic communication under a contract of carriage by a carrier, including information logically
associated with the electronic transport record by attachments or otherwise linked to the electronic transport record contemporaneously with or subsequent to its issue by the carrier, so as to become part of the electronic transport record, that: (a) Evidences the carrier's or a performing party's receipt of goods under a contract of carriage; and (b) Evidences or contains a contract of carriage. (Rotterdam Rules 2009)

elektronički prijevozni zapis  
negotiable electronic transport record

an electronic transport record: (a) That indicates, by wording such as "to order", or "negotiable", or other appropriate wording recognized as having the same effect by the law applicable to the record, that the goods have been consigned to the order of the shipper or to the order of the consignee, and is not explicitly stated as being "non-negotiable" or "not negotiable"

negocijabilni (prenosivi)

elektronički prijevozni zapis, non-negotiable electronic transport record

an electronic transport record that is not a negotiable electronic transport record. neprenosivi

Electronic Unit Injector (=EUI) (n) (marine eng) An electronically controlled injector which depends on a cam and rocker arm mechanism to produce fuel injection pressure.

(http://www.mariniedieseleurope.com/) elektronički upravljan ubrizgač
electrotechnical officer /eteknəˈrikl/ (=ETO; electronics officer) (n) (mar law) = electrical officer = ETO časnik elektrotehnike i elektronike na brodu, brodski elektrotehnički časnik: Electro-Technical Officers are specialist officers working within the Engineering Department where they take particular responsibility for the maintenance of on board control engineering and electronic systems including propulsion control, radio communications and electronic navigation aids. Marine Electrotechnical Officer; METO brodski časnik
elektrotehniheke/elektronike
electrotechnical rating (n) (mar law, marine eng) elektrotehničar član posade
electrohydraulic machinery on board (n) (marine eng) brodski

elektrohidraulički strojevi
elevation /ˌeləˈvifən/ (n) 1 visina: At an elevation angle of about 35 degrees and a height of about 40 metres, the pipe suddenly slipped out of the grab and fell with great force back onto the deck ... the satellite is at such an elevation for Inmarsat that the signal from the ship is beamed up at a perfect angle to intercept the GPS antenna.; 2 presjek, profil side elevation bočni profil, bokocrt, pogled sa strane: Side elevation of typical ballast hold shows how lamellar tear is caused; 3 okomita vertikalna projekcija; 4 vertikalni profil
elevation of focal plane above datum (n) (navig) visina žarišta svjetla iznad srednje razine mora visina svjetla

elevator /eˈlevətər/ (n) (cargo handling) elevator, pneumatski uređaj (za ukrcaj/iskrcaj tereta u silosu): Elevators (US) or silos are normally associated with grain. They may be operated by pneumatic suction which sucks the grain out of the ship's hold.; 2 nagnuti transporter: Some hoppers have an elevator for depositing the cargo into heaps on the quay side for later onward transportation.
elevator* (n) (nav arch) dizalo (za zapovjednički most), lift (zapovjedničkoh mosta): Vessels elevator should be in good working condition during pilots embark and disembark of the vessels to avoid fatigue and / or injuries due to climbing higher floors. https://safety4sea.com/ (Suez Canal Authority)
elongated spreader produženo gazište pilotskih ljestava
Elongation /ɪlˈɔŋɡeɪʃən/ (n) 1 (marine eng) Istezanje: ... the control valve is adjustable which can be used to allow for fuels of varying ignition qualities and changes in the camshaft timing due to chain elongation; 2 (seamanship) Prodlujenje, istezanje (užeta): ... on a rare day at anchor, we worked the ramp door in and out several times and eliminated diverse causes such as possible wrong rigging, elongation of wire ropes, malfunction or wrongly adjusted limit switches etc. The amount of elongation in the tested ropes prior to destruction was impressive, but it was still shorter than the up-to-25-percent elongation that new nylon cordage will exhibit prior to failure.

Embark /emˈbaːk/ (v) ukrcati (peljara): The vessel arrived to the pilot boarding point and embarked the pilot. A fast modern container vessel was preparing to embark a pilot during the early hours of the morning. A small cargo vessel inbound towards the channel was preparing to embark a pilot via a ladder on its port side, as had been directed by the VTS. At 1411 on 24 February 20... two pilots from the Port Terminal embarked the ship for the outbound transit of Baía de São Marcos. The vessel arrived to the pilot boarding point and embarked the pilot. A fast modern container vessel was preparing to embark a pilot during the early hours of the morning. A small cargo vessel inbound towards the channel was preparing to embark a pilot via a ladder on its port side, as had been directed by the VTS.

Embarkation /ˈembaːˈkeɪn/ (n) se (seamanship) ukrcavanje, ukrcaj, ukrcavanje embarkation deck (nav arch) paluba za ukrcaj putnika: The boats were brought to the Embarkation deck without incident. The vessel’s approach to the pilot embarkation area was being monitored by VTS. The vesse...
emergency gear (sailing/boating/yachting) t oprema za slučaj opasnosti i napuštanja brodice / jaht

emergency /iˈmɜːdnɪsi/ (safety) 1 “an unforeseen combination of circumstances or the resulting state that calls for immediate action; an urgent need for assistance or relief.”

hitna slučaj; 2 a situation at sea or in port when a ship or its crew (its equipment or cargo/passengers) is in immediate danger and urgent assistance is required opasnost: In an emergency raise the alarm, call the master and instigate measures to prevent damage I can confirm that the lack of a common language in the event of an emergency is a serious risk to crew and vessel safety. When you have an emergency on board, it is sensible to let the coastguard know, even if you do not require assistance. deal with an emergency nositi se s opasnošću: This is especially important in the highly stressful situation when dealing with an emergency, maritime emergency see:

https://www.maritimeknowhow.com/home/emergency-procedures opasnost na moru; 3 izvanredno stanje, kritično stanje: If you have DSC radio, you could try a ‘securité’ DSC alert followed by a voice broadcast; During an emergency, a DSC Pan alert should be made, followed by a VHF voice broadcast stating the situation and danger.; 4 nepredviđen događaj emergency alarm (n) (safety) alarm za slučaj opasnosti: The container ship’s engine telegraph was set to ‘stop’ and the emergency alarm was sounded. The bridge and nearby crew were alerted and the emergency alarm was activated. Immediately the emergency alarm was sounded and a full rescue team prepared to muster near the tank. Sound the general emergency alarm. Uključite alarm za opću opasnost general emergency alarm alarm za opću opasnost: Operate the general emergency alarm. Uključite alarm za opću opasnost.

emergency anchorage /iˈmɜːdnɛs/ (n) (navig) sidrište za slučaj opasnosti, pomoćno sidrište: He then ordered the OOW and the bosun to the forward mooring station for an emergency anchoring.

emergency beacon (n) (safety, navig) radiosignal opasnosti: A skipper who activated his emergency beacon and abandoned ship has been rescued some 840 nautical miles southwest of Cape Town. https://gcaptain.com/

emergency breathing system (=EBS; Emergency Underwater Breathing Apparatus (EUBA)) (n) (safety, med) Emergency Breathing Systems (EBS) provide a way to extend time underwater so that escape from a helicopter, which has capsized as a result of an attempted controlled ditching or an uncontrolled water impact, is achievable if not constrained by other factors. (https://skybrary.aero/) uređaj za hitno umjetno disanje: VIKING Life-Saving
Emergency bunker surcharge

Carriers implement an EBS once fuel costs have risen so high that they cut into carriers’ profits.

Some of the findings related to passenger briefings and emergency communication brought to light by the investigation were: The failure to notify those on board of an emergency situation delayed emergency response.

Equipment has launched the first aircrew lifejacket to secure approvals under latest European Aviation Safety Agency ETSO for an emergency breathing system. https://gcaptain.com/ EBS solutions sometimes feature bulky air cylinders which pull on the lifejacket and rest on the hip during in-flight hours, impeding mobility and potentially causing discomfort. https://gcaptain.com/

Emergency bunker surcharge (n) (logist) Carriers implement an EBS once fuel costs have risen so high that they cut into carriers’ profits.

Emergency call (n) (safety) poziv u slučaju opasnosti, hitni poziv, žurni poziv

Emergency checklist (n) (safety) popis provjera u nuždi / opasnosti:

Emergency Checklist - Fire: 1. Sound general emergency alarm. Muster fire party.; 2. At sea, alter course & speed to reduce draft & minimize fire spread.; 3. Advise bridge; 4. Call master; 5. Determine location of fire. Master / Ch. Officer; 6. Conduct fire control procedures; 7. Assess proximity of navigational hazards, including traffic, and maneuver the ship as appropriate.; 8. (a) In case of fire in engine room: Engine room – checklist “Main Engine Failure” as appropriate. (b) Steering gear compartment – checklist “Steering Failure” as appropriate; © Generator compartments – checklist “Total electrical power Failure (Blackout)” as appropriate.; 9. Broadcast URGGENCY or DISTRESS message, if appropriate., etc.

Emergency checklist Oil Pollution popis provjera u slučaju onečišćenja naftom:

Emergency Checklist - Oil Pollution: Stop all cargo & bunkering operations; Stop all ballasting & de-ballasting operations; Call Master; top all bilge pumping / internal transfer; Stop all cargo/fuel transfer operations; Mu ster fire party; Ad vise berth operators; If oil spill to sea dock immediately alert P&I local representative & address to SOPEP. www.sqemarine.com/shipmanuals

Emergency checklist - Main Engine Failure popis provjera u slučaju otkazivanja glavnog stroja: Emergency Checklist: Main Engine Failure: Check for other vessels in the vicinity; Check for navigational hazards in vicinity; Use sound signals as necessary; Call Master; ... Describe damage and establish Cause of breakdown; Establish if repairs possible by vessel’s staff; etc.

Emergency checklist - Search and Rescue popis provjera u slučaju operacije traganja i spašavanja: Emergency Checklist - Search and Rescue: On receipt of distress call fix own position, calculate distance & steaming time to distress position; Record contents of distress alert and / or message; Call Master; Establish communications with the RCC and /or On-Scene Coordinator and other SAR units as appropriate; Maintain radio watch.; Monitor X-Band radar and AIS for SART signals as appropriate; Consult IAMSAR Manual Volume III and industry guidance on rescue procedures; If assistance can be rendered then follow guidelines in IMO publication: “MERCHANT SHIP SEARCH & RESCUE MANUAL”; etc.

Emergency checklist - Power Failure popis provjera u slučaju nestanka električne energije, emergency checklist - Flooding popis provjera u slučaju naplavljivanja / prodora vode, emergency checklist - Hull Failure popis provjera u slučaju strukturalne onesposobljenosti trupa broda, popis provjera u slučaju onesposobljenosti trupa broda

Emergency communication /ɪˈmɜːdʒənsi/ (n) (comm) komunikacija u opasnosti:

Some of the findings related to passenger briefings and emergency communication brought to light by the investigation were: The failure to notify those on board of an emergency situation delayed emergency response.
The frequent crew changes also meant that individual crew members had not carried out emergency drills on all the vessels they were expected to operate. Emergency drills should be designed so that crews become familiar with all that they may be required to do. Emergency-related activities may include personal safety familiarisation and training, planning and conduct of emergency drills, proper response to actual emergencies.

Ensure that everyone on board is very familiar with the emergency equipment carried: both location and use. Most of the emergency equipment, including ventilation shut-off valves and the emergency fire pump, were not properly maintained and no-one could remember when they were last tested.

Is there provision for emergency escape? Postoji li izlaz za slučaj opasnosti? The skipper took an extinguisher from the wheelhouse and operated it through the emergency escape hatch. Emergency escape breathing device; EEBD dišni aparat za izlaz u slučaju opasnosti, dišni aparat za izlaz u nuždi: He donned an Emergency Escape Breathing Device (EEBD) and escaped into fresh air.

The engineers urgently requested that emergency escape breathing devices (EEBDs) be sent down to them to augment the one EEBD in the ECR.

Lifeboat drills shall be made in order to fulfill the requirements of the annual emergency evacuation drill required by the unit’s Emergency Evacuation Plan (EEP). This involved negotiating a vertical ladder section within a straight access trunking.

Punom snagom naprijed zbog opasnosti!

Svom snagom krmom zbog opasnosti!: reason, this pilot simply did not seem to appreciate the problem of our approach speed relative to the proximity of the wall and I put the engines on emergency full astern. Residual headway of own vessel despite the emergency full astern manoeuvre.

Automatic start up of the emergency generator at a low voltage value is usual on modern installations. The emergency generator had failed to
start automatically because it had been left in hand control. Any faults or defects in the emergency generator/alternator, its prime mover and associated equipment, must be rectified and immediately reported to the appropriate management office. At some stage the ship’s emergency generator started, after the ship’s main diesel generators stopped as a result of lack of cooling water. It was not until 15 minutes later that the emergency generator was started and the generators were cooled down sufficiently to enable them to be re-started. On the next day, the emergency generator also stopped, resulting in a total loss of power. https://gCaptain.com

emergency lighting (/ɪˈmɜːdʒənsi/) pomoćna rasvjeta, rasvjeta u nuždi: Emergency lighting for occupied areas, navigation lights, communications systems and alarm systems must also be supplied. emergency lighting system sustav pomoćne rasvjete, sustav rasvjete u nuždi / opasnosti

emergency lights (n) (safety) svjetla u nuždi, pomoćna svjetla: Emergency lights came on, and the vessel stopped rolling and adopted a list of about 45 degrees to starboard.

emergency locator transmitter (=ELT) (n) (comm, safety) An aeronautical radio distress beacon for alerting and transmitting homing signals. (IAMSAR/Camsar2014) lokatorski predajnik u opasnosti (za zrakoplove)

emergency manoeuvre (n) (marine eng, ship handling) izvanredna manovra: The pilot called the engine room by telephone, advising of the need to prepare for an emergency manoeuvre. manovra u slučaju opasnosti

emergency muster station (n) (safety) pomoćno zbrojno mjesto, zbrojno mjesto u nuždi, mjesto za okupljanje u nuždi: The master sounded the fire alarm and made a public address announcement ordering all hands to their emergency muster stations.

emergency order (n) (navig, safety, ship handling) zapovijed u nuždi (opasnosti), hitna naredba: The pilot gave emergency orders to both tugboats to try to slow the vessel and turn the bow. https://safety4sea.com/

emergency party (n) (safety) skupina za djelovanje u opasnosti, grupa/tim za djelovanje u nuždi, protuhavarijska grupa: The master immediately mustered the emergency parties. Meanwhile, the ship’s emergency party was activated and the passengers advised of the situation by the captain. Other members of the crew cooled down the area as the emergency party then entered the hold and confirmed it to be clear.

emergency phase (n) (safety) A generic term meaning, as the case may be, uncertainty phase, alert phase or distress phase. (IAMSAR/Camsar2014) faza opasnosti (u traganju i spavašanju): Maritime SAR emergency phases must primarily be reported to the nearest MRCC/MRSC. SAR Manual, Finland 2010 alert phase (of the emergency phase) A situation wherein apprehension exists as to the safety of an aircraft or a vessel and of the persons on board. (IAMSAR/Camsar2014) faza uzbunjivanja (u sustavu SAR), uncertainty phase (of the emergency phase) A situation wherein doubt exists as to the safety of an aircraft or a vessel, and of the persons on board. (IAMSAR/Camsar2014) faza neizvjesnosti (o postojanju pogiblji - u sustavu SAR), distress phase (of the emergency phase) A situation wherein there is reasonable certainty that a vessel or other craft, including an aircraft or a person, is threatened by grave and imminent danger and requires immediate assistance. (Camsar) faza opasnosti / pogiblii

emergency plan (n) (safety) plan u slučaju opasnosti: The vessel’s emergency plan for grounding incidents was activated. Shipboard Marine Pollution emergency plan; (SMPEP)
Emergency Position Indicating Beacon

**Brodski plan za slučaj onečišćenja mora**: Repeatedly practise ship's emergency and reporting procedures as outlined in the shipboard oil pollution plan (SOPEP) and shipboard marine pollution emergency plan (SMPEP).

**Emergency Position Indicating Beacon** (/ɪˈmɜːdʒənsi/ (=EPIRB) (n) (navig, safety) uređaj koji omogućuje određivanje položaja broda ili ljudi u nezgodni ili autonomno određuje položaj broda u nevolji te o njemu izvješćuje mjerodavne ustanove na kopnu uređaj za otkrivanje položaja, Radioplutača koja odašilje poziciju broda u opasnosti, epirb {Osnovne frekvencije uređaja za otkrivanje položaja su 406.025 MHz te 121.5 MHz.}

**emergency power** (n) (safety, marine eng) pomoćni pogon, pomoćno napajanje, pogon u nuždi: The vessel is currently on emergency power and drifting.

**emergency power plant** (/ɪˈmɜːdʒənsi/) (n) (marine eng) pomoćni generatorski sustav

**emergency power supply** (/ɪˈmɜːdʒənsi/) (n) (marine eng) napajanje električnom energijom za slučaj nužde: Where the rudder stock is greater than 230 mm an alternative power supply is to be provided automatically from the ship’s emergency power supply or from an independent source of power located in the steering gear compartment. The emergency power supply is operational. Select emergency power supplies for bridge and navigational equipment. (https://safety4sea.com/)

**Emergency Procedure Guide** (n) (safety) Vodič za postupanje u izvanrednom stanju

**emergency procedures** (n) (safety) postupci u opasnosti, postupci u nuždi: By this stage, all other engineers had arrived to assist, and the vessel’s full emergency procedures came into play to effectively tackle the fire using the CO2 smothering system. A drill will be held to familiarize passengers with their assembly stations, with their life-saving equipment and with emergency procedures. Crews were regularly exercised in emergency procedures, including fire drills, and could refer to the vessel’s comprehensive Fire Action Drill checklists.

**emergency release** (n) (safety) otpuštanje u nuždi, oslobađanje u nuždi,

**pogon u nuždi**: Procedures for emergency release methods, time delays and release speed shall be established and this information shall be displayed at the conning position. Additionally, ensure your derrick head block emergency release is operational and that the crew know how to activate it.

**emergency release system** sustav za oslobađanje u nuždi, uređaj za oslobađanje / otpuštanje u nuždi: The lack of an accepted international industry standard for tug tow line emergency release systems. The investigation has identified a number of factors which contributed to the accident, including: The emergency release system for the towing winch on board Flying Phantom had operated, but not quickly enough to prevent the tug from capsizing.

**emergency repairs** (/ɪˈmɜːdʒənsi/) (n) (safety) popravci u nuždi

**emergency response and rescue vessel** (/ɪˈmɜːdʒənsi/ (=ERRV) (n) (nav arch, safety) brod (brodica) za hitne intervencije i spašavanje: An emergency response and rescue vessel was operating offshore during a period of heavy weather. Jade Traffic coordinated the initial emergency response. The Master was immediately called and the oil spill emergency response plan was activated.

**emergency response operation** (n) (safety) operacija reakcije u nuždi, akcija reakcije u nuždi: The Port Authority initially responded to the incident due to the release of hazardous materials, and a Unified Command was established soon after the collision to manage the emergency response operations and planning.
emergency response plan (n) (safety) plan reakcije u nuždi: When an accident takes place, the emergency response plan comes into play, but can the operator be sure that it works? Implement emergency response plan procedures (https://safety4sea.com/)

emergency response team (n) (safety) skupina za reakcije u nuždi: After the ship’s emergency response team provided air to the stricken crew via in-line breathing apparatus, the motorman recovered and was able to leave the tank. The emergency response team removed the cabin ceiling panels and confirmed that the fire was out. https://safety4sea.com/

emergency run (n) (marine eng, safety) manevar u nuždi

emergency services (n) (safety) služba za pomoć u slučaju opasnosti, služba za pomoć u slučaju nužde, interventna služba, služba za hitne intervencije: The emergency services arrived on the scene within minutes and several pumps were quickly rigged to try and prevent further flooding. The skipper raised the alarm immediately with the emergency services, and a full air and sea search was conducted. Approximately 15 minutes after the spillage, the local emergency services arrived and established an exclusion zone around the vessel.

evacuation (n) (safety) manevr u nuždi

emergency shutdown system /iˈmɜːdʒənsi/ (n) (cargo handling, nav arch) sustav za brzo zatvaranje u nužni

emergency shutdown /iˈmɜːdʒənsi/ (n) 1 (safety) obustava rada u slučaju opasnosti, zaustavljanje (stroja) u nuždi: ... a lubricant header tank is incorporated in the structure for effective lubrication of the turbocharger rotor following emergency shutdown of the engine. The Master, upon arrival on the bridge, activated the Emergency Shut Down and the main engine stopped.

emergency shutdown /iˈmɜːdʒənsi/ (n) 2 brzo zatvaranje u nužni: Our deck crew raised the alarm immediately and cargo discharge was stopped using the emergency shutdown (ESD) button. The chief officer saw and heard a leak and activated the emergency shut down (ESD) valves.

emergency signal /iˈmɜːdʒənsi/ (n) (safety) signal za slučaj opasnosti: No emergency signal was sounded on the ship’s whistle.

emergency situation (n) (safety) izvanredno stanje, opasnost: Despite the breakdown of the structural barriers, the ship’s officers and crew managed to contain the emergency situation and bring the ship alongside at the Suez Canal Container Terminal without any personal injury or pollution to the environment. If passengers are to be embarked on your vessel, for whatever reason, ensure they are aware of what to do in an emergency situation. The coastal state should always be informed of any emergency situation on board. contain the emergency situation svladati stanje opasnosti, svladati opasnost: The ship’s officers and crew managed to contain the emergency situation and bring the ship alongside at the Suez Canal Container Terminal without any personal injury or pollution to the environment. (https://safety4sea.com/)

emergency squad COMPARE damage control team interventna grupa ( slučaju opasnosti) ship’s emergency squad brodska interventna grupa ( u slučaju opasnosti)

emergency start (n) (ship handling, safety) upućivanje (stroja, pumpe itd.) u slučaju opasnosti: After an emergency start of engines and thrusters, the ship’s master manoeuvred the ferry back alongside. https://safety4sea.com/

emergency start (n) (ship handling, safety) manevriranje (stroja, pumpe itd.) u slučaju opasnosti: After an emergency start of engines and thrusters, the ship’s master manoeuvred the ferry back alongside. https://safety4sea.com/

emergency station (n) (safety) postaja za slučaj opasnosti, postaja za slučaj izvanrednog stanja: The Captain said he had everyone go to their emergency stations for a head count and if it was determined that an evacuation was required. Vessel’s personnel was immediately be called to the emergency stations. (https://safety4sea.com/) emergency station

signal signal za okupljanje na postajie za slučaj opasnosti: Sound appropriate
**Emergency Stations signal** & call Master.

**emergency steering** /ɪˈmɜːdʒənsi/ (n) (nav arch) kormilarski uređaj za slučaj nužde, pomoćni kormilarski uređaj: Subsequent investigation revealed that none of the Officers knew how to operate the emergency steering. The master changed over to emergency steering.

**emergency steering gear drill** /ɪˈmɜːdʒənsi/ vježba isprobavanja kormilarskog uređaja za opasne situacije

**emergency stop** /ɪˈmɜːdʒənsi/ (safety) zaustavljanje glavnog motora u nuždi, zaustavljanje u slučaju opasnosti: Shutdown functions for lube oil pressure, overspeed and emergency stop are provided as standard. It was observed that the automatic emergency stop system for the engine room supply fans had already tripped the blowers and the fixed CO2 gas release alarm had been activated. emergency stop button dugme za zaustavljanje u slučaju opasnosti: Fit audible and visual alarms on new deck cranes, which activate automatically when the emergency stop button is pressed, emergency stop system sustav za zaustavljanje u slučaju opasnosti: It was observed that the automatic emergency stop system for the engine room supply fans had already tripped the blowers and the fixed CO2 gas release alarm had been activated.

**emergency switchboard** /ɪˈmɜːdʒənsi/ (n) (electr) rasklopna ploča za slučaj nužde, razvodna ploča za slučaj nužde, razvodna ploča za slučaj opasnosti, pomoćna razvodna ploča: Never forget that your emergency switchboard is always on and ready to feed the more important systems in the ship. A quick look showed that the breaker on the emergency switchboard was open; this was immediately rectified and the fire pump re-started.

**emergency system** (n) (safety) sustav za nuždu, uređaj za slučaj opasnosti: Nowadays, when joining a new vessel I not only quickly make myself familiar with the operation of emergency systems (steering, fire pump, total smothering etc. Also, DMA demanded that independent systems for the supply of control air to emergency systems are established.

**emergency team** (n) (safety) skupina za djelovanje u nuždi, grupa/tim za djelovanje u opasnosti, protuhavarijska grupa: An emergency team was struggling to overcome the leak. The emergency team removed the casualty to the ship’s hospital, where it was noticed that his blood pressure was low and he was showing signs of dizziness and... The fire alarm was activated and speed was reduced while the emergency team proceeded to the location, with two crewmembers wearing breathing apparatus.

**Emergency Towing Plan** (n) (nav arch, ship handling) Plan za tegljenje u nužnosti

**emergency transmitter** /ɪˈmɜːdʒənsi/ pomoćni predajnik: predajnik u nuždi

**emergency transmitter** /ɪˈmɜːdʒənsi/ predajnik u slučaju opasnosti, predajnik u nuždi, pomoćni predajnik

**emergency turn** (n) (safety, navig) okret u nuždi, okret u opasnosti: With a distance of less than one mile between our two rapidly-closing vessels, we executed an emergency turn to starboard with engine going full ahead. The Ferry was approximately 3 miles astern of the crossing vessel and just prior to our emergency turn had altered course to starboard to pass clear of our ship.

**Emergeny Escape Breathing Apparatus (=EEBA)** (n) (safety) dišno aparat za izlaz u nuždi

**Emergeny Escape Breathing Device (=EEBD)** (n) (safety, marine eng) dišno aparat za izlaz u nuždi: He donned an Emergency Escape Breathing Device (EEBD) and
escaped into fresh air. The chief engineer also donned an EEBA and remained in the control room as back up.

**emission** (n) *(marine eng)* ispuštanje (ugljika, štetnih plinova itd. u zrak), emisija (štetnih plinova, ugljika itd. s broda): Staged pre-mixed combustion allows NOx emission levels to be reduced without the need for expensive selective catalytic reduction systems typically required by diesel engines to meet the Greece Calls for ‘Realistic’ EU Emissions Policy for Shipping. https://gcaptain.com/ CO2 emission ispuštanje ugljičnog dioksida, NOx emission ispuštanje dušičnog monoksida: The Bergen C26:33 gas engines reduce CO2 emissions by 25 percent and NOx emissions by up to 90 per cent. zero emission nulto ispuštanje: The vessels will use electricity in port, courtesy of large lithium batteries, thus generating zero emissions while at berth. https://www.maritimeprofessional.com/news/generation-ro-ro-vessels-unveiled-317740 • The vessels will be designed to meet the highest Finnish/Swedish ice class, IA Super, with hybrid battery power for zero emissions while in port https://gCaptain.com, emission of oil ispuštanje nafte: Our role is to prevent, prevent and limit emissions of oil to protect the marine environment www.gcaptain.com, IMO emission timeline vremenski raspored IMO-a za ograničavanje ispuštanje štetnih plinova s brodova, vremenski plan IMO-a za ograničavanje ispuštanje štetnih plinova s brodova

**Emission Control Area (=ECA)** (n) *(environ, mar law)* Svjetska područja kontrole ispuštanja (sumpornih oksida, dušičnih oksida itd.): Most ships which operate both outside and inside these ECA will therefore operate on different fuel oils in order to comply with the respective limits. In such cases, prior to entry into the ECA, it is required to have fully changed-over to using the ECA compliant fuel oil, regulation 14.6, and to have onboard implemented written procedures as to how this is to be undertaken. Similarly change-over from using the ECA compliant fuel oil is not to commence until after exiting the ECA. http://www.imo.org/en/OurWork/Environment/PollutionPrevention/AirPollution/Pages/Sulphur-oxides-(SOx)-%E2%80%93-Regulation-14.aspx

**emit** /ɪˈmɪt/ (v) *(environ)* ispuštati (u zrak): Ocean-going vessels emit hazardous air pollutants or air toxics that are associated with adverse health effects impacting populations living near ports and coastlines. https://www.marineinsight.com

**employ** /ɪmˈplɔi/ (v) 1 koristiti, iskoristiti: Because the tie bolts are so close to the crankshaft, some engines employ jack bolts to hold the crankshaft main bearing cap in position instead of conventional studs and nuts. MAN two-stroke engines employ constant pressure turbocharging. Employing radar within a wind farm is not reliable; therefore, the decision by the captain not to employ the radar while transiting the wind farm was understandable.; 2 primijeniti: Skippers and engineers employ routine checks such as checking engine and gear oil levels, inspecting bilges for unusual water levels and ensuring bilge pumps are serviceable etc.; 3 uposlit: The vessel’s size, and that she was not carrying passengers, meant there was no requirement for the master to employ a pilot for this entry. Following an extensive career at sea, the river pilot had been employed with the company for over 15 years.

**employee** /emˈplɔi; ,emploɪ/ (n) *(mar law)* zaposlenik, pomorac (u ugovoru o zaposlenju)

**employment** /ɪmˈplɔimənt/ (n) 1 upotreba; 2 zaposlenje: Hand transmitted vibration (HTV) is one of the hazards that seafarers face in the course of employment on board ships. contract of employment ugovor o zaposlenju, ugovor o ukrcanju; 3 služba; 4 korištenje, iskorištavanje
empties (n) (logist, ports) prazni kontejneri: The port authorities, its stakeholders including terminal operators and customs have arranged for the empties to be returned to various private/shared depots outside the port. https://shippingandfreightresource.com

empty' (v) isprazniti: The forward tanks were emptied and refilled without incident, except that the day's operations ended with an overflow.

empty' (adj) prazan empty tank prazan tank: The Coast Guard was notified immediately of the grounding and the sounding of all empty tanks and void spaces including verification of cargo tank ullages commenced.

empty container (=MTY) (n) (cargo, ports) ANTONYM loaded container

prazan kontejner: Full import containers are coming in, but there is not enough export cargo going out and therefore empty containers are piling up. https://shippingandfreightresource.com Empty containers represent a sizeable proportion of logistics activity, however previous studies on container freight operations in Melbourne have tended to focus on commercially valuable, loaded containers - not empty containers. https://www.sciencedirect.com/science/article/pii/S2352146519300997 Empty containers sitting on chassis across the USA is said to be one of the reasons for the pile-up of full containers in the ports as those chassis are then unable to pick up full import containers.

https://www.shippingandfreightresource.com/

empty leg (n) (shipping econ, logist) prazna dionica putovanja (broda), dionica putovanja bez tereta

empty slot (n) (logist) An available loading position on a stack car created when a container is not loaded to an available position. Also known as a vacant slot. (https://www.msc.com/shipping-glossary) prazno mjesto za kontejner (u brodu), prazni slot

emulsifier (n) (seamanship, safety) emulzivno sredstvo: An important function of the cleaning agent is to be a good solvent for the gypsum in the sludge. It should also act as a dispersant and emulsifier

enable (v) omogućiti: He was confident that his “twin-screw” experience was sufficient to enable him to safely manoeuvre the ship off the berth. The additional benefit of setting an anchor watch is that it should enable the other crew to sleep soundly and obtain quality rest.

e-navigation (n) (navig) ‘the harmonized collection, integration, exchange, presentation and analysis of marine information on board and ashore by electronic means to enhance berth to berth navigation and related services for safety and security at sea and protection of the marine environment.’ (IMO) elektronička navigacija, digitalna navigacija, e-navigacija: Administration (NCA) has initiated the first full-scale trial of e-navigation in Norwegian waters in conjunction with e-navigation technology and services company NAVTOR. The first e-navigation test involves the ferry MS Stavangerfjord digitally sharing its routing information with NCA via NAVTOR’s NavStation ‘digital chart table’. These (e-navigation) include but not limited to the Automatic Identification System (AIS), Electronic Chart Display and Information System (ECDIS), Integrated Bridge Systems/Integrated Navigation Systems (IBS/INS), Automatic Radar Plotting Aids (ARPA), Long Range Identification and Tracking (LRIT) systems, Vessel Traffic Service (VTS) and the Global Maritime Distress Safety System (GMDSS). https://www.marineelectronics.com/news/ecdis-maritime-accident-255821 ENC /iː ɛn 'siː/ (=Electronic Navigational Chart) (n) (navig) elektronička navigacijska karta: Navigation was conducted by eye and by reference to an electronic navigational chart display (ENC). None of the bridge team had been trained in the use of ENC, and the settings were inappropriate, such that key dangers would not have been displayed; An ENC contains more information than an RNC and has a slightly different look than a paper chart. Different objects on an ENC have attributes; by clicking on a vessel or lighthouse, for example, more information about the object will become available. https://www.amnautical.com/ Because of the increased amount of data available, ENCs
are suited for use with alarms and warnings to alert crews of danger in the ship's path. 

https://www.amnautical.com/ There is an increased reliance on NOAA electronic navigational charts (ENC) as the primary navigational product and the decreased use of traditional raster chart products. 

https://www.nauticalcharts.noaa.gov/ dual ENC dvojni prikaz elektroničke karte, 
single ENC jednokratni prikaz elektroničke karte, ENC display prikaz na elektroničkoj karti: Navigation was conducted by eye and by reference to an electronic navigational chart display (ENC).

encapsulated keel (n) (sailing/boating/yachting) plastificirana kobilica: 
Encapsulated vs exposed iron keel - fiberglass shell surrounding the iron keel. 

https://www.practical-sailor.com/

encase /inˈkeɪs/ (v) zatvoriti u kućište, sadržati u kućištu 
ENC data (n) (navig) podatci ENC 
encircle (v) okružiti, zaokružiti 
enclose /ɪnˈkləʊz/ (=inclose) (v) 1 okružiti; 2 priložiti (privitak pismu, mailu); 3 ograditi, opkoliti; 4 zatvoriti 
enclosed (adj) 1 zatvoreni; 2 priložen 
enclosed spaces (n) (nav arch) zatvoreni prostori (u brodu): Tragically, accidents in enclosed/confined spaces continue to be one of the most common causes of work-related fatalities on board ships today. The enclosed space where the seafarers were working was filled with the toxic gas. 
enclosed spaces entry ulazak u zatvorene prostore: Investigation findings: Enclosed
Space Entry checks were not carried out. The tanks were washed, made gas free and, after enclosed space entry permits had been issued, the crew could enter for mopping. enclosed spaces lifeboat

zatvorena brodica za spašavanje: Following the broadcast of a distress call at 1125, the 26 crew abandoned the vessel in an enclosed lifeboat. While undertaking a routine maintenance check of an enclosed lifeboat an officer detected a strong odour when he opened the boat’s access door. enter enclosed spaces ulaziti u zatvorene prostore: All seafarers, regardless of rank, must not enter an enclosed space without permission and then, only in accordance with ship management’s established procedures https://safety4sea.com. Seafarers must not ignore the basic safety procedures and precautions when entering enclosed spaces. https://safety4sea.com/

encounter /ɪnˈkaʊntər/ (v) susresti, naići (na): Although neither master was on the bridge, standing/night orders were not used to alert the watchkeepers to the risks they were likely to encounter during their bridge watch. encounter boisterous weather (meteorol) naići na olujno nevrijeme, close encounter (navig) blizak susret: While I wished to bear away from the flood current in mid channel, I was reluctant to put myself in a close encounter with the ship. Inevitably, this can lead to dangerous close encounters. encounter adverse weather naići na nepovoljne vremenske uvjete, naići na nevrijeme: The master expected to encounter adverse weather conditions on the route.
appropriate action for two vessels meeting end on or nearly end on and an incident was averted, however, the incident made a lasting impression on me. passing end on ... 1 (ship handling) passing on reciprocating courses mimoilaženje na suprotnim paralelnim kursovima (pramcem prema pramcu): On most occasions when they are passing, either end on or overtaking, they think nothing of trying to pass as close as 0.4 miles and ... 2 (ship handling) two vessels passing close on the bow or stern mimoilaženje na vrlo maloj udaljenosti; 2 (ship handling) pramac (krma, bok) na vrlo maloj udaljenosti od drugog broda, obale itd.; 3 (navig) pramacem prema, prednjim/stražnjim dijelom (broda) prema ...: The port anchor is let go and the ship turned to port to take the beach end on. endorse (v) ovjeriti, potvrditi: Bills of lading should wherever possible be endorsed to show that the volume and weight measurements are not provided, ascertained or warranted by the carrier. Gdje god je moguće, teretnicu valja ovjeriti kako bi se dokazalo da prijevoznik (vozar) nije pružio ili ne jamči za podatke o količini i težinama tereta. The plan was endorsed by the second engineer and the Terminal representative.

endorse (v) indosirati (mjenicu, teretnicu, ček itd.)
endorse (v) potvrditi (svjedodžbu), ovjeriti svjedodžbu / ovlaštenje (pomorskog časnika): The Master in question had a full certificate issued and endorsed for STCW 95 by the MSA of a very reputable authority. The only fault he could find was that the Master’s Bahamian certificate had not been endorsed for STCW 95.

endorse (v) upisati opasku / bilješku (u teretnicu, časničku potvrdu)
endorse (v) pribilježiti / ovjeriti svjedodžbu (pomorskog časnika)

endorsed bill of lading (n) 1 a (mar law) indosirana teretnica; 2 teretnica s opaskom

endorsee /inˈdɔːsiː; ˌendɔːsiː/ (n) (mar law) COMPARE endorser A party to whom an order bill of lading (supra) is endorsed by the original consignee (supra) or a previous endorsee of that same bill of lading. See Tetley naslovnik (teretnice)

endorsement /ɪnˈdɔːrsmənt/ (n) (mar law, shipping econ) prijenos prava iz teretnice po naredbi: izjava zakonitog posjednika teretnice kojom on naredjuje prijevozniku da umjesto njemu teret preda drugoj osobi. Obično se upisuje na naličju teretnice (D. Pavić); the transfer of the right to obtain delivery of the goods of the carrier by means of the consignee’s signature on the reverse side of a bill of lading; The original bill of lading can change hands through endorsement whereby the endorser (the original owner of the cargo) transfers ownership of cargo to the endorsee (the new owner of the cargo as agreed between both the parties). (https://www.marineinsight.com/); a signature on a legal or financial document indosman, indosament, prijenos prava iz teretnice: For the release of cargo at destination and for the purpose of documentary credit negotiations, there are several endorsements required on a bill of lading endorsement in blank bjanko indosament, special endorsement puni indosament

endorsement /ɪnˈdɔːrsmənt/ (n) (mar law) bilješka na poleđini dokumenta, naledjenje (If the name of the new consignee (transferee) is not stated, the endorsement is an open one which means that every holder of the document is entitled to obtain delivery of the goods.)

endorsement /ɪnˈdɔːrsmənt/ (n) (shipping econ, mar law) opaska / primjedba (u teretnici itd)

endorsement /ɪnˈdɔːrsmənt/ (n) (mar law) ovjera, potvrda: The vessel was quite old but held
valid certificates and the Load Line annual endorsement had been signed three months previously. Being on a Bahamian ship, he also had a Bahamas certificate and application had already been made for the new endorsement.

endorsement /nˈdɔrsmənt/ (n) (mar law) A document issued to masters and officers, either as part of the certificate or as a separate document. This attests (endorses) that the national certificate has been issued in accordance with all STCW requirements (https://safety4sea.com/cm-stcw-convention-terms-and-definitions/); an isprava kojom se potvrđuje da je nacionalno pomoračko ovlaštenje izdano u skladu sa zahtjevima Konvencije STCW IMO-a. ovlaštenje pomorca (sukładno konvenciji STCW), pomoračko ovlaštenje (sukładno konvenciji STCW)

endorsement of the bill of lading (n) (mar law) prenošenje prava iz teretnice po naredbi ili drugih vrijednosnica s prethodnoga imatelja indosiranje (teretnice): In the conventional method, when a bill of lading is issued in original, the destination agent of the carrier may issue release of cargo only after at least 1 of the issued originals are surrendered by the consignee, after checking the endorsements on the bill of lading.

https://shippingandfreightresource.com/cargox-blockchain-smart-bl-app/

endorse the B/L (v) (mar law, shipping econ) To sign over a Bill of Lading to another, thus transferring title to the goods described in the Bill of Lading to that party.

http://www.tkmglobal.net/chartering_E.HTM

endorsing (n) (mar law, logist) The holder of a bill of exchange, order form, cheque or original Bill of Lading transfers this document to a third party (the endorsee) whose name he may or may not know, by putting his signature and company stamp on the back of the document.

https://www.logisticsglossary.com/term/endorsing/ indosiranje, ovjera prijevoznog dokumenta (na poleđini)

ends (n) (cargo) kratki komadi drvene građe short ends kratki komadi drvene građe

end switch (n) (electr) krajnji prekidač, granični prekidač

end-to-end service cjelokupna usluga prijevoza: By developing a logistics offering to complement our maritime activity, we will be able to propose a full ‘end-to-end’ service to our customers. https://shippingandfreightresource.com/

endurance /ɪnˈdjuərəns/ (n) (marine eng) Maximum time period (indicated in hours or days) that a
vessel can operate unreplenished while performing its intended role.

https://officertools.com/tools/maritime-dictionary/izdržljivost, autonomija: The high-pressure fuel system was designed and endurance tested at 2000 bar; an actual injection pressure of around 1400 bar thus represents a substantial safety margin. endurance limit granica izdržljivosti, endurance test test izdržljivosti (užeta, ...): nylon rope endurance test energy (marine eng) energija kinetic energy kinetička energija: The kinetic energy in the exhaust gas rotates the valve a small amount as it passes., chemical energy kemijska energija, heat energy toplinska energija: The temperature of the droplets rise rapidly as they absorb the heat energy from the hot air in the cylinder, and they ignite and burn before they can hit the relatively cold surface of the liner, mechanical energy mehanička energija, thermal energy toplinska energija: In the internal combustion engines the energy is converted from thermal to mechanical energy., convert energy pretvoriti energiju: The four stroke cycle is so called because it takes four strokes of the piston to complete the processes needed to convert the energy in the fuel into work.

Energy Efficiency Design Index (EEDI) a regulatory measure for ships, mandating a minimum required level of efficiency and a reduction of carbon dioxide (CO2) emissions.

(https://www2.eagle.org/en/) indeks za energetsku učinkovitost broda: The EEDI for new ships is the most important technical measure and aims at promoting the use of more energy efficient (less polluting) equipment and engines. https://www.imo.org/en/OurWork/Environment The EEDI provides a specific figure for an individual ship design, expressed in grams of carbon dioxide (CO2) per ship’s capacity-mile (the smaller the EEDI the more energy efficient ship design) and is calculated by a formula based on the technical design parameters for a given ship. https://www.imo.org/en/OurWork/Environment

Energy Efficiency Design Index (EEDI) Technical File (marine eng, nav arch) Tehnički zapisnik za projektni indeks za energetsku učinkovitost (goriva)

energy efficiency index for existing vessels (EEXI) (marine eng, nav arch) indeks energetske učinkovitosti za postojeće brodove: the International Maritime Organization (IMO) expected to soon adopt requirements for energy efficiency index for existing vessels (EEXI) and carbon intensity indicator (CII). https://gcaptain.com/

enforce /ɪnˈfɔrs/ to ensure observance of or obedience to (a law, regulation, rule, etc) primijeniti (propis, zakon, pravilo), provesti (zakon, propis, pravilo): Cargo interests and authorities should also oversee shipments and ensure the fitness of both cargo and vessel before loading, and proper stowage and securing and adequate stability before departure, enforcing all applicable regulations and observance of best industry practices. That they have to enforce COLREG 72 rules, particularly those related to the conduct of vessels in restricted visibility conditions (safety speed).

enforce the law / regulation provesti zakon / propis

enforcement /ɪnˈfɔrnmənt/ 1 (mar law) ovrha, prisilna naplata enforcement debtor ovršenik, enforcement creditor ovrhovoditelj, law enforcement

provedba zakona, provedba prava: The adverse effect of alcohol on performance is becoming increasingly recognised by national enforcement authorities and ship owners, with alcohol testing following an accident becoming more widespread., take enforcement action against ... poduzeti zahtjev za prisilno provođenje zakona protiv .... The US Coastguard is moving to take enforcement action against the Company after it failed to comply with the captain of the
port order. https://gCaptain.com; 2 ovrha na brodu
engage /ɪnˈɡeɪdʒ/ (v) 1 (marine eng) zahvatiti, ukliniti; 2 (marine eng) spojiti engage
with keys spojiti klinovima; 3 (mar law) zaposliti se: with effect from the date on which
the Seafarer is engaged until the date on which s/he signs off; 4 (marine eng) uključiti (stroj,
kačilo, kočnicu itd.), Italian:innestare: Several fruitless attempts were made to engage
the brake but this was all to no avail. In the engine room, the reserve compressed air cylinder was opened
but there was still insufficient air pressure to re-engage the clutches.; 5 (shipping econ) biti u
plovidbi, ploviti (o brodu) vessel engaged in coastal trade brod (koji plovi)
 u obalnoj plovidbi; 6 angažirati
engine /ˈendʒɪn/ (marine eng) stroj, brodski stroj, brodski motor, pogonski
stroj: The RTA72U is a single-acting, low-speed, two-stroke reversible marine diesel engine
manufactured by New Sulzer Diesel Ltd. unidirectional engine neprekrtni stroj / motor,
 jednosmjerni stroj: In case of a controllable pitch propeller an unidirectional engine is
sufficient. Most medium speed engines are unidirectional., steam-reciprocating engine parni
stupni stroj: In the steam reciprocating engine, the up and down movement of the pistons is
converted into rotary movement by piston rod and crankshaft., two-stroke engine dvotaktni
motor: A slow-speed two-stroke diesel engine is usually arranged to operate continuously on heavy fuel
and have available a diesel oil supply for manoeuvring conditions., reversible engine prekretni
motor / stroj: In large diesel engines, the main engines must be reversible and should be able to
produce thrust efficiently in both the directions ( ahead and astern), , opposed-piston engine
motor s protuhodnim klipovima: The opposed piston two-stroke engine in service today is
single-acting., marine propelling engine brodski pogonski stroj, main engine
glavni stroj, glavni porivni stroj: Where CPP is in use there is no requirement to reverse the
main engine After reaching the planned position, we disengaged the main engine and put our AIS on 'not
under command' mode., lifeboat engine motor brodice za spašavanje: Even though
adequate spares for the lifeboat engine and the air motor were available on board, the ship's staff was
unaware of its inventory and location., geared engine motor s posrednim pogonom
propelera, moltor s reduktorom, gasoline engine (US) benzinski motor
motor sa slobodnim klipom, free piston engine, four-stroke engine
četverotaktni motor: For a four-stroke engine, the exhaust and suction strokes are shown by the
horizontal line at C, and this has no effect on the cycle., external combustion engine stroj s
vanjskim izgaranjem, double-acting engine dvoradni motor / stroj: 9 A B&W
662-WF/40 two-stroke double-acting engine, first installed as a six-cylinder model in the Amerika (1929),
direct-coupled engine motor s izravnim pogonom propelera, motor bez
reduktora, auxiliary engine pomoćni motor: The auxiliary engine and the engine bilge
pump were renewed., compression ignition engine motor s paljenjem na
kompresiju, dizel-motor: The diesel engine is a compression ignition engine, that is to say a
type of engine in which air is compressed to a pressure sufficient to produce a high temperature... , put
the engine on slow / half / full speed ahead prebaciti stroj na polagano / pola
snage / punom snagom naprijed, warm up the engine through zagrijavati
motor, turn the engine okretati stroj: After opening the indicator cocks the Engineer should
**turn the engine** through at least one complete revolution by means of the turning gear. **speed up the engine** ubrati stroj: Whilst we were in the process of altering course to starboard, ship B made a sudden alteration of course hard to port and began to **speed up** even more, (own ship speed was 23 knots), **try the engine isprobati stroj**: Try the engine in port on starting air only when situation external to the ship is quite safe. **slow down the engine usporiti (stroj)**: This gave the engineer enough time to **slow down the engine** allowing it cool. on the port side of the bank, in which there was no traffic present at that time., **run the engine upravljati strojem / motorom**, **rukovati strojem**: However, when it is necessary to **run the engine in reverse** it must be started in reverse and the fuel injection timing must be changed., **reverse the engine prekretati motor**, **mijenjati smjer okretanja stroja**: To **reverse the direction of the engine**, pressure oil is led to one side of a hydraulic piston which is coupled to the camshaft. Where a controllable pitch propeller is in use there is no requirement to **reverse the main engine**, **prepare the engine for sea pripremiti stroj za plovidbu**, **Vee engine, V-engine** motor u V-izvedbi, **V-motor**: The **V-engine** big ends run side-by-side on the crankpin., **unidirectional engine istosmjerni motor**: In case of a controllable pitch propeller an **unidirectional engine** is sufficient., **trunk piston engine klipni motor, motor bez križne glave**: In the 2 stroke **trunk piston engine**, the side thrust caused by the angularity of the connecting rod is transmitted to the liner by the piston skirt or trunk., **turbocharged engine motor s turbopuhalom**: In the **turbocharged engine**, the necessary scavenging is obtained by providing a satisfactory pressure difference between the air manifold and the exhaust, **slow-speed engine sporohodni / sporokretni motor**: The **slow-speed diesel engine** rotates at this low speed and the crankshaft is thus directly coupled to the propeller shafting., **single-acting engine jednoradni motor / stroj**: The four Sulzer six-cylinder ST70 two-stroke **single-acting engines** (700 mm bore/990 mm stroke) developed a total of 9560 kW at 127 rev/min., **reversing the engine prekretanje stroja / motora**: The vessel is proceeding at full speed, only when speed is considerably reduced blast of compressed air will be applied for stopping and **reversing the engine**., **reversal of the engine prekretanje motora, prekret stroja**: Reversal of the **engine** will be unnecessary if variable-pitch propellers or reversible gearboxes are used., **outboard engine izvanbrodski motor**: The **outboard engine** had a maximum power rating of 225kW (300hp), and had been supplied with a mid-range 21., **non-reversible engine neprekrteni motor (za vožnju u jednom smjeru)**: Two-piece replacement cams were introduced for **non-reversible engines to simplify renewal.**, **multi-cylinder engine motor s više cilindara, medium-speed engine srednjohodni / srednjokretni motor**: SWD decided to develop a high-powered **medium-speed engine**, **marine engine brodsk motor**: Turbocharger is an integral part of the ship’s **marine engine** as it reuses the exhaust gases in order to increase the overall efficiency of the engine., **large bore engine motor sa cilindrima velikog promjera**: Wear rates vary, but as a general rule, for a **large bore engine** a wear rate of 0.05 - 0.1mm/1000 hours is acceptable, **in-line engine motor s vertikalnim u liniji postavljenim cilindrima, motor u L- izvedbi**: As an option for particularly difficult applications, the **in-line engine** can be specified with control of the turbocharger turbine surface by MaK’s Variable Multi-Pulse (VMP) syst- tem., **high-speed engine brzohodni / brzkretni motor**: The connecting rod must be strong.
yet must not be too heavy because of inertia forces, especially in high speed engines, exhaust ported engine motor s ispušnim kanalima: In a two-stroke exhaust ported engine, both inlet and exhaust port timings are symmetrical about bottom dead centre (BDC) and these will be identical when the engine is reversed ..., crosshead engine motor / stroj s križnom glavom: A two stroke crosshead engine must be supplied with air above atmospheric pressure for it to work.

engine apprentice (=engine assistant) vježbenik stroja, asistent stroja, engine block (n) (marine eng) blok motora, Italian: blocco motore: The BV design is based on a single-piece engine block cast in GGG500 nodular iron carrying two banks of cylinders in a 55° V-configuration. The engine block combines crankcase and cylinder housing in one rigid casting with an integral camshaft housing and charge air manifold. The engine block has a stiff and durable design to absorb internal forces and enable the engine to be resiliently mounted without any intermediate foundations. https://www.wartsila.com/

engine book (n) (marine eng) = engine log dnevnik stroja

engine control 1 uređaj za upravljanje strojem, ručka za upravljanje strojem: The OOW woke up and, sensing something was wrong, he immediately moved the engine control to neutral, and then full astern, but the vessel grounded nonetheless.; 2 upravljanje strojem

engine control console (n) (marine eng) upravljački pult strojarnice

engine control room (=E.C.R.) (n) (marine eng) Space adjacent to engine room from where engine room systems may be controlled and monitored.

https://officerofthewatch.com/tools/maritime-dictionary/ upravljačka kabina strojarnice: The oil mist detector has remote monitoring from the engine control room.
engine control system (=ECS) (n) (marine eng) sustav upravljanja strojem:
The pilot fuel pump transmits the prevailing fuel pressure to the engine control system. The engine control system fully controls the combustion process by electronic control of fuel injection and exhaust valve opening according to the measured instantaneous crankshaft position. www.man-es.com (In the MAN ME-GI engine) The engine control system (ME-ECS) receives information from the FGSS control system about the available amount of fuel gas and it calculates the required amount of fuel oil. Today, the ME-GI engine operates on 3% fuel oil and 97% gas fuel, www.man-es.com The GVT is controlled by the ECS and it separates the FGSS from the ME-GI during shutdown. www.man-es.com

engine damage 1 havarija stroja, kvar motora: A 292-meter .... suffered “engine damage” which left the ship adrift in the Elbe River for about a half hour before tugs arrived to provide assistance.; 2 šteta na stroju

engine data (n) (marine eng) podatci o stroju, informacije o stroju: RTA60C
engine data: Bore 600 mm; Stroke 2250 mm ... An optional Customer Communications Module translates engine data to standard ASCII code for transmission to a PC or via satellite to remote locations.

engine department (n) (mar law) = engine-room department služba stroja:
The Officer of the watch on the Bridge must give the Engine Department at least one hours notice before Stand By for manoeuvring. I am the head of the Engine Department and am responsible for personnel and the proper operation, maintenance, and safety of the vessel’s propulsion system, power generation, ...

engine drive 1 pogon motora: The gearing arrangement used to reduce the medium-speed
engine drive down to suitable propeller revolutions.; 2 pokretanje motorom

engine-driven (adj) (marine eng) pogonjen strojem, pokretan strojem: Booster pumps are used to pump the oil through heaters and a viscosity regulator to the engine-driven fuel pumps.

engineer /ˌendʒiˈniə/ (n) engineer officer časnik stroja, strojarski časnik, engineer officer in charge dežurni časnik stroja, dežurni strojar, First Assistant engineer (US) prvi časnik stroja, prvi strojar, Junior engineer mladi strojar, Senior engineer 1 stariji / viši strojar; 2 viši strojarski inspektor, engineer superintendent strojarski inspektor, watch engineer časnik stroja u straži, strojar u službi, watchkeeping engineer časnik stroja u straži, ovlašteni časnik stroja, 1st engineer prvi časnik stroja, 2nd engineer drugi časnik stroja, chief engineer upravitelj stroja, kapo, refeer engineer časnik stroja za rashladne uređaje, certificated engineer ovlašteni časnik stroja, osposobljen časnik stroja, licensed engineer ovlašteni časnik stroja, 3rd engineer treći časnik stroja, 1st assistant engineer (US) prvi časnik stroja, 2nd assistant engineer (US) drugi časnik stroja, 3rd assistant engineer (US) treći časnik stroja (mar law, marine eng) časnik stroja, strojarski časnik, oficir stroja, makiništa

engineering /ˌendʒɪˈnɪərɪŋ/ (n) 1 tehnika; 2 strojarstvo marine engineering brodsko strojarstvo, brodostrojarstvo; 3 inženjerstvo

engineering cadet (n) 1 (marine eng) vježbenik stroja, asistent stroja, asistent engineering cadetship školovanje prije stjecanja zvanja časnika

stroja: The Maersk Engineering Cadet Educational Programme is a world-class training opportunity equipping you with the skills and qualifications you need to be a marine engineer.; 2 (marine eng)
asistentura
Engineering Department (navy) COMPARE engine-room department

Engineering Department’s mission is to maintain and safely operate O’KANE’s engineering plant in order to support O’KANE’s primary mission as an instrument of national policy. The primary responsibilities of Engineering Department are to safely and efficiently provide propulsion, and generate and distribute electrical power throughout the ship. Additional responsibilities include: Fresh water distillation, steering control, damage control, drainage, and sewage treatment.

A Division Auxiliaries Division maintains almost all of the ship’s auxiliary engineering equipment on board the ship. Known as A-Gang, the Enginemen (ENs) are responsible for the ship’s air conditioning plants, fresh water distillers, potable water system, sewage system, steering system, and galley equipment.

E Division Electrical Division is primarily tasked with maintaining the ship’s electrical distribution systems. Additionally, the Electrician Mates (EMs) are responsible for shipboard lighting, cathodic protection, casualty power, degaussing systems, laundry service equipment, galley equipment, and electrical tool issue and maintenance.

MP Division The Gas Turbine Systems Mechanical Technicians (GSMs) and Gas Turbine Systems Electrical Technicians (GSEs) are primarily responsible for main propulsion and electrical power generation. The GSMs maintain four LM-2500 Gas Turbine Engines, and all associated equipment, in two Main Engine Rooms, necessary to provide and control propulsion.

R Division Repair Division is home to a mix of Damage Controlmen (DCs), Hull Technicians (HTs), and damage control petty ofﬁcers. It is primarily responsible for maintaining the O’KANE’s structural integrity and repair equipment. The Damage Control Assistant (DCA) provides general and speciﬁc training on proper fire-fighting, ﬂooding, and other casualty response techniques. Every Sailor must ﬁrst be a ﬁre-ﬁghter.

The vessel command attributed the engine failure to a defect in the automatic control. Meanwhile, the rescue boat coxswain and assisting crew member continued to investigate the cause of the engine failure. The vessel experienced an engine failure in severe weather off the coast of Japan on February ...

https://gcaptain.com/

The camshafts are mounted in bearing bushes ﬁtted in bores in the engine frame. Lubricating oil for the main bearings is
supplied through holes drilled in the **engine frame**.

**engine housing** *(marine eng)* **kućište motora**: The crankshaft damper is mounted outside the **engine housing** for optimum cooling and accessibility; bolted covers and replaceable nylon bearings permit rebuilding of the damper on site.

**engine indicator** *(marine eng)* The **engine indicator** is used to record the cylinder pressure of an engine and piston travel in an X - Y graph, where pressure forms the vertical axis and piston travel forms the horizontal axis **pokazivač indicirane snage stroja, indikator motora**: **Engine indicator** is the device used to take the indicator diagram, which can be considered as a 'stethoscope' for diesel engines. **engine indicator diagram dijagram indikatora motora**, **engine indicator cock pipac indikatora motora**: This involved the fuel being shut off, the main **engine indicator cocks** being left open, the turning gear being disengaged, the air receiver valves and main air start valve being shut, ...

**engine inlet** *(sailing/boating/yachting, marine eng)* **dovod za motor, usis rashladne vode za motor**: Approximately two-thirds of the flow pass through a HT circuit and returns directly to the **engine inlet**, while the remainder is fed into a thermostatically controlled LT circuit. From the main **engine inlet rail** the fuel enters each fuel pump (one per cylinder). The air is cooled before passing to the **engine inlet manifold** or scavenging air receiver.

**Engine International Air Pollution Prevention Certificate** *(mar law, marine eng, nav arch, environ)* **Međunarodna potvrda o sprječavanju onečišćenja zraka za motor**

**engine in the engine control room** *(marine eng, navig)* **upravljanje stroja iz kontrolne kabine / prostorije (ne s mosta)**: With the engine in engine room control, no one on the bridge was actively monitoring the status of the engine. [https://safety4sea.com/](https://safety4sea.com/)

**engine load** *(marine eng)* **opterećenje motora, opterećenje stroja**: Pulsating compressor noise, typically registered at around 30–50 per cent **engine load**, can be an issue due to today's higher power outputs. The maximum efficiency measured at near-70 per cent **engine load** was around 69 per cent.

**engine log** *(marine eng)* **dnevnik stroja**: Any such loss of water must be recorded in the **Engine Log Book** and reported to the Chief Engineer. The chief engineer will examine the **Engine Log** when he has time. **engine logbook 1 dnevnik stroja; 2 engine log abstract izvod iz dnevnika stroja**

**engine maintenance** *(marine eng, sailing/boating/yachting)* **održavanje stroja, održavanje motora**: A planned lifeboat drill was carried out on a coastal tanker while she was alongside in port for **engine maintenance**.

**engine manufacturer** *(marine eng)* **proizvođač motora**: By working with a prospective operator, the **engine manufacturer** is then able to make an accurate assessment of the maintenance costs. The ship remained at the anchorage as the main **engine manufacturers** were arranged to attend the vessel to repair the air start valve.

**engine-mounted** *(adj)* **ugrađen na stroj(u), montiran na stroj(u)**: As a result, the **engine-mounted fuel pump** had sheared off and the fuel pump casing was fractured. [source>MAIBInvReport01_2018</source>](https://www.wartsila.com)

**engine operating range** *(marine eng)* **radno područje stroja, opseg rada stroja, raspon radnog opterećenja stroja, raspon snaga stroja/motora**: Below nominal speed the load must be limited according to the diagrams in this chapter in order to maintain engine **operating parameters** within acceptable limits. [https://www.wartsila.com](https://www.wartsila.com)
engine operation (n) (marine eng) rad motora, rad stroja, upravljanje strojem, rukovanje strojem: The resulting flexibility allows engine operation to be adjusted and optimized for fuel economy or low NOx emissions.

engine orders (n) (marine eng, navig, safety, ship handling) = propulsion orders zapovijedi stroju, Italian: ordini andatura macchine: Any engine order given should be repeated by the person operating the bridge telegraph(s) and the officer of the watch should ensure the order is executed. standard engine orders standardne naredbe za upravljanje strojem, Full ahead / astern! Svom snagom naprijed / krmom!, Half ahead / stern! S pola snage naprijed / krmom!, Slow ahead / astern! Lagano naprijed / krmom!, Dead slow ahead / astern! Sasvim lagano naprijed / krmom!, Stop port / starboard engine! Zaustavite lijevi / desni stroj!, Emergency full ahead! Hitno punom snagom naprijed / krmom!, Stand by engine! Pozor u stroju!, Finished with engine(s)! - No more manoeuvring! Svršeno u stroju - Završeno s manevaranjem!, Bow thruster full / half / to port / starboard! Pramčani porivnik svom snagom / pola snage lijevo / desno!, Stern thruster full / half / to port / starboard! Krmeni porivnik svom snagom / pola snage lijevo / desno!

engine order telegraph (=chadburn) (n) (marine eng) Electromechanical device that transmits orders to the engine room concerning desired direction of turn and general speed of the engines. (http://www.quarterdeck.org/index.html) strojarski telegraf 1 Stand by with engine/s!, 2 Start engines!, 3 Dead slow ahead!, 4 Slow ahead!, 5 Half ahead!, 6 Full ahead!, 7 Dead slow astern!, 8 Half astern!, 9 Full astern!, 10 Finished with

engine - no more manoeuvring! https://wiki.alquds.edu/?query=Engine_order_telegraph

engine output (n) (marine eng) snaga motora: For engine outputs of up to 8000 kW, only one turbocharger is used.

engine performance (n) (marine eng) radne karakteristike, performanse stroja, radni učin stroja: The controllable injection timing (CIT) pumps also ensure that engine performance is improved at the service load. The computer-controlled fuel injection system opens up possibilities to optimize engine performance, thanks to the freedom to choose key parameters: injection timing, injection pressure independent of engine speed, maximum injection quantity ...

engine power (n) (marine eng) snaga motora, snaga stroja: Using full rudder and engine power, and transmitting appropriate signals on the air horn and VHF radio, the master just managed to turn the ship’s head into the wind and... An engine power range from 20 000 kW to 28 000 kW per turbocharger is covered by the TPL-91B. limit engine power ograničiti snagu stroja
(radi smanjivanja onečišćenja): ... to reduce greenhouse gas emissions from international shipping, technical measures to limit engine power are among the ideas being considered to reduce carbon dioxide (CO2) from the existing fleet. Marineinsight https://www.marineinsight.com/, engine, power limitation ograničavanje snage stroja, regain engine power povratiti (pogonsku) snagu: The cruise ship suffered a total power failure. It regained engine power at 2.14pm, according to ship tracking data, and was escorted to port. www.TheTimes.uk

engine problems (navig) problemi sa strojem, poteškoće sa strojem: the 
ship was having some engine problems and drifted midstream in a strong breeze brod je imao problema sa strojem i otpadao (plutao) u jakoj struji po sredini kanala i pri jakom vjetru On boarding, it was discovered that the loaded vessel had engine problems and the Master had ordered spares which would arrive the 
following morning. After several days at sea a serious engine problem occurred in number 7 cylinder.

engine readiness (n) (navig) spremnost stroja za pokretanje / manovru 
state of engine readiness stanje spremnosti stroja za manovru, stupanj spremnosti stroja za manovru

engine ready for immediate manoeuvre (n) (navig) stroj spreman za 
neposrednu manovru: Own ship quite rightly in my opinion had her engine ready for 
manoeuvre, but, does not appear to have had any intention to use it.

engine repairs (n) (marine eng) popravci na stroju: My technical department at the time 
was fully engaged in carrying out a major engine repair ... The sea conditions were slight and the vessel continued to drift in a southeasterly direction towards the Moroccan coast while engine repair work continued.

engine revolution (n) (marine eng) broj okretaja stroja: About 10 minutes afterwards, 
the main engine revolutions dropped from 1400 rpm to about 1100 rpm.

engine room (=engine-room; engineroom) (n) 1 (marine eng) = machinery 
room = machinery strojarnica, brodska strojarnica: The duty engineer entered the 
engine room at 06:50 to man the engine room. The chief engineer entered the engine room at the 
upper level, without BA, to guide the fire brigade. ; 2 (marine eng) strojarnica, Italian:sala 
macchine; locale motore
At 1450, the engine room alarm panel repeater sounded in his cabin, so he immediately ran the short distance to the engine room access where the panel was situated.

As the lift was being prepared, the engine room alarm sounded.

The duty engineer opened the overboard valve to prevent the system from potentially overflowing into the engine room bilges.

Smoke was filtering through the engine room bulkhead and filling the wheelhouse, making it impossible to use the main VHF radio set.

On leaving his office, he saw flames rising from the stairwell around the engine room casing.

The master decided it would be necessary to operate the engine room CO2 system to extinguish the fire.

Whilst the other engineer officers were engaged on various jobs, one of the engine room crew was cleaning the lube oil filters.

An exhausted engine room crew once again opened, cleaned and boxed up the sea suctions (again filled with tiny fish) and the ship sailed from the terminal without any delay.

**Engine-Room Department** *(Marine Eng)* služba stroja: The Engine Department onboard a merchant ship is responsible for all maintenance and repairs of engines, electric motors, pumps, winches and other mechanical and electrical equipment. Job positions, on board a (US / Croatian, etc.) ship, within this department include Chief Engineer, 2nd, 3rd and 4th Engineer, Trainee Engineer, Chief Mechanic, Mechanic, Fitter, Oiler, Wiper and Engine Utility Man. Engine-Room Department - The modern ship's propulsive unit, whether steam turbine or diesel engine, is run on oil, and the **engine-room department** is composed of a team of engineer officers and ratings controlled by the chief engineer, who ranks after the master. The modern ship's propulsive unit, whether steam turbine or diesel engine, is run on oil, and the **engine-room department** is composed of a team of engineer officers and ratings controlled by the chief engineer, who ranks after the master.

**Engine Room Door** *(Nav Arch, Marine Eng)* vrata strojarnice: He shut the **engine room door**, informed the master of the fire and recommended that both main engines be shut down. It was initially assumed that the smoke was coming from the open **engine room door**. He shut the **engine room door**, informed the master of the fire and recommended that both main engines be shut down.

**Engine Room Double Bottom Tank** dvodno u strojarnici

**Engine Room Escape Hatch** *(Nav Arch, Safety)* groto strojarnice za izlaz u nuždi: The **engine room escape hatch** was locked from the outside. Assuming this was an **Engine Room escape hatch** then it would be best secured from the inside, thus allowing those attempting to get out to achieve their escape.

**Engine Room Fan** *(Ventilator U Strojarnici)*: Conscious of the need to isolate the oxygen supply, and potential fuel supply to the fire, he blocked the engine room ventilators, and shut down the **engine room fans**, main engine and generator.

**Engine Room Fire** *(Safety, Marine Eng)* požar u strojarnici: The fuel is supplied to the injectors through drillings in the cylinder head, dispensing with high-pressure fuel lines and removing a potential cause of **engine room fire**. By now the crew, who had regularly exercised fighting an **engine room fire**, had blocked off the engine room vents, carried out boundary cooling on the deck using the hand-operated deckwash pump, and ... A containership suffered an **engine room fire** that left the ship adrift in the Caribbean Sea. https://gCaptain.com

**Engine Room Hatch** *(Nav Arch, Marine Eng)* grotlo strojarnice: Back in the wheelhouse, the skipper closed the **engine room hatch** and instructed the crew to haul in the fishing gear and don their lifejackets. The **engine room hatch** was opened, and a hose was discharged into the engine room. The **engine room hatch** was opened, and a hose was discharged into the engine room.

**Engine Room Log Book** *(Engine-Room Log)* *(Marine Eng)* dnevnik stroja: Marine engineers are required to keep a log of all important machinery parameters such as pressure, temperatures, revolutions etc. in the **engine room log book**. A sea protest must by copies of the deck log book and of the **engine-room log**.

**Engine-Room Personnel** *(Marine Eng)* osoblje strojarnice, posada strojarnice, svi zaposleni u strojarnici: **Engine-Room personnel** is fully ready to manoeuvre and bridge manned to relay engine orders.

**Engine-Room Rating** *(Marine Eng)* mornar stroja, član nižeg osoblja stroja

**Engine-Room Space** *(Prostor Strojarnice)*: If **engine-room space** allows, the complete cylinder unit (cylinder head, water collar, liner, piston and connecting rod) can be withdrawn as a single assembly.

**Engine-Room Staff** *(Marine Eng)* osoblje strojarnice, personal stroja: Two of the **engine room staff** remained in the engine room and two went to the vehicle deck. The second engineer distributed the day’s work to the **engine room staff**, verbally instructing the junior wiper to burn the garbage in the incinerator.
**engine telegraph**

**engineroom telegraph** *(n) (marine eng)* veza između zapovjedničkog mosta i strojarnice za upravljanje strojem; A mechanical signaling device for communicating propulsion orders and acknowledgements between the bridge and the engine room.

(steamtalk.info/cgi-bin/nautical-marine-sailing-dictionary) **strojarski telegraf,** **telegraf za stroj:** Other equipment is to be tested and made ready for going to sea: the engine-room telegraph, the speed log, the ship's whistle, the steering gear and the winches, for instance.

**engine room vent** *(n) (nav arch, marine eng)* zračnik u strojarnici, ventilacijski otvor u stiojarnici: ..., the tug master and chief engineer went back on board and “cracked” open the engine room vents before returning to the rescue vessel.

**engine-room watch** *(n) (marine eng)* straža u stroju: s tankers and bulk carriers employ dual-watch (poli-valent) officers (MarOff in the Natherlands) capable of keeping simultaneously the navigating and engine-room watch.

**engine room workshop** *(n) (marine eng)* strojarska radionica: Making the ramp door operable A new set of wedges and small doublers was quickly fabricated in the engine room workshop and immobilisation and hot work permits were obtained at the next berth the following day.

**engine skylight** *(n) (nav arch)* vidnik strojarnice: I sent my watchman to close the engine room skylight and inform the crew of the rain.

**engine spares** *(n) (sailing/boating/yachting, marine eng)* pričuvni dijelovi motora

**spark plugs** svjećice (benzinski motor), injector ubrizgač (dizelski motor),

**repair kit for fuel and water pumps with seals and impellers** komplet za popravak pumpe goriva i pumpe rashladne vode s brtvama i impelerima, set of hoses komplet gumenih cijevi, oil filters filtri ulja, fuel filters filtri goriva, set of gaskets, seals, and O-rings komplet brtava i brtvenih prstena, fuel gorivo, oil and grease ulje i mast za podmazivanje, fuel antibacterial additives antibakterijski aditivi za gorivo, spare ignition key rezervni ključ za paljenje motora

**engine speed** *(=r/mn) (n) (marine eng)* broj okretaja / obrtaja motora, brzina stroja: Engine speed is controlled by a mechanical or electronic governor with hydraulic actuator. The ‘heart’ of the system was a microprocessor to which the actual engine speed and crankshaft position were transmitted as output signals. Full load can be accepted swiftly and smoothly at any engine speed, says EMD, and a 10 per cent overload capability can be exploited for two out of every 24 h of running. A reduction in engine speed compared with the BL550 limited the mean piston speed and yielded the increased output with virtually the same brake mean effective pressure. Although a late order to increase engine speed and helm was given, the vessel made contact with the buoy.

**engine stores** *(n)* 1 *(nav arch)* spremište strojarnice; 2 *(marine eng)* zalihe i materijali za strojarnicu

**engine switch** *(n) (marine eng, sailing/boating/yachting)* prekidač motora (za dovod i zatvaranje goriva na izvanbrodskom motoru)

**engine telegraph** *(marine eng)* strojarski telegraf: At 2340, the master moved the engine telegraph from ‘dead slow ahead’ to ‘slow ahead’; the tanker’s speed was about 2kts and it remained on an easterly heading. A load programme led to a delay between the setting of the engine telegraph and the engine achieving the speed intended. The Master was quickly on the bridge and moved the engine telegraph to stop. If the engine telegraph printer for some reason does not function, movements shall be recorded manually, in this case in the Bridge and Engine Bell Books. The ship’s engine telegraph
was set to full ahead.

**engine top** *(marine eng)* 
**vrh stroja:* — The exhaust valve and fuel injection — Integration of the top-controlled booster injection valve (FBIV) on the cylinder cover [www.man-es.com](https://www.man-es.com)

**engine trials** *(marine eng)* 
**strojarske probne vožnje, strojarske pokusne vožnje:** it would have been prudent to retain at least one escorting tug; 2 The outward pilot was apparently unaware that the vessel was intending to conduct **engine trials** off port limits (OPL) and was scheduled to return and anchor in the waiting area;

**engine utility man** *(marine eng, mar law)* 
a rating who provides assistance in various duties within the engine room, such as maintenance and minor repair tasks. **mornar stroja**

**English law** *(mar law)* All law applicable in England. The major sources of English law are: 1) the common law of England; 2) the rules of equity; and 3) statutes and regulations of the United Kingdom applicable to England. Other sources of English law include English admiralty (i.e. maritime) law, the Law Merchant, the ecclesiastical law (of the Church of England) and custom **pravo Ujedinjenog Kraljevstva, englesko pravo** *(izvori/vrela engleskog prava)*

**enhanced survey programme** *(=ESP)* *(nav arch)* program pojačanog pregleda

**environmental barrier**  *(environ)*  *zaštitna obrana (plutajuća) za zaustavljanje onečišćenja, zaštitna barijera (plutajuća) za zaustavljanje onečišćenja*: Contractors have now started working around the clock in constructing an environmental barrier around the wreck and also preparing the wreck for the cutting -
Environmental conditions at the time were good; there was hardly any swell or wind.

Environmental damage is done by major spills, such as the Exxon Valdez or the Deepwater Horizon events, in reality, every spill matters. No environmental damage was reported / sustained.

Environmental harm was reported / sustained.

There is growing concern regarding the environmental impact and associated costs of petroleum based fluid discharges. Oil pollution response plans and drills are not frequently required to be used in anger, but when an incident does occur their value is immense and can significantly reduce the environmental impact of a spill. The big concern now is for the environmental impact, he said. There could also be a very tall plume of condensate, this ultra-refined form of oil, underneath the surface.

Environmental impact statement isvješće o utjecaju na okoliš.

The ships represent a new generation of environmentally friendly ro-ro ships as they comply with the latest environmental rules of the new IMO-standard EEDI (Energy Efficacy Design Index),”

An environmental protection barrier (EPB) is to be built around ship leaking crude oil. The EPB that will mitigate threats to the marine ecosystem.

Environmental salvage = environmental award ekološka nagrada, nagrada za ekološko spašavanje

Environmental status dobro ekološko stanje morskog okoliša

EOOW – Engineer Officer of the Watch časnik straže u stroju: EOOW - This MCA certificate competency (CoC) allows candidates to work as an engineering Officer of the Watch (OOW) on any size and type of vessel.

Unless a candidate is exempted by the UK Maritime and Coastguard Agency due to previous industrial experience/qualifications, an MNTB Workshop Skills Training programme has to be undertaken and passed before initial certification as Engineer Officer of the Watch (EOOW) can be gained.

EPFS =Electronic Positioning Fixing System sustav za elektroničko određivanje položaja

Ephemerides an annual publication giving the positions of the sun, moon, and planets during the course of a year, information concerning eclipses, astronomical constants, etc
ephemeris (sg. ephemeris)

ephemeris /iˈfeməris/ (n) (navig) table of the positions of celestial bodies at regular intervals, often with supplementary information. efemerida: In the USA, an official (and initially separate) series of ephemeris publications began with the issue for 1855 as The American Ephemeris and Nautical Almanac (pl. ephemerides)

epicontinental sea (n) (mar law) SEE continental shelf That portion of the sea lying upon the continental shelf, and the portions which extend into the interior of the continent with similar shallow depths. Also known as epeiric sea; inland sea.

EPIRB /ˈiː pə:b/ (=Emergency position-indicating radiobeacon) (safety, navig) SEE beacon a radio transmitter that emits a distinctive distress signal to aircraft and satellite receivers supplying an exact position for search and rescue missions. A device usually carried aboard maritime craft that transmits a signal which alerts search and rescue authorities and enables rescue units to locate the scene of the distress. (Camsar2014) An equipment to help determine the position of survivors during a SAR operation; An equipment to help determine the position of survivors during a SAR operation. (https://safety4sea.com/) EPIRB radioplutača, radio plutača za označavanje pozicije u slučaju opasnosti ili potonuća, epirb: The EPIRB alerted the coastguard and enabled the recovery to be initiated. No matter where you are in the world, an EPIRB sends a signal to emergency responders through a satellite system called Cospas-Sarsat. An EPIRB is used to alert search and rescue services in the event of an emergency. It does this by transmitting a coded message on the 406MHz distress frequency. The owner also provided an EPIRB and one of the crew had a personal locator beacon. ... the mariners use of VHF Channel 16 and an emergency position-indicating radio beacon (EPIRB) allowed rescue crews to quickly receive the distress call and pinpoint their location. https://gcaptain.com/ ship's EPIRB
EPIRB distress alert

**vrste eirba**: 1. COSPAS-SARSAT–EIRBS under the COSPAS-SARSAT system work on the 406.025 MHz and 121.5 MHz band and are applicable for all sea areas  
2. INMARSAT E–1.6 GHz band is the one which this EPIRB works on. These are applicable for sea areas A1, A2 and A3. VHF CH 70– This works on the 156.525 MHz band and are applicable for sea area A1 only, **activate EPIRB aktimirati EPIRB**: The crew **activated their EPIRB and a search and rescue operation commenced.** (https://safety4sea.com/)

**EPIRB distress alert (n) (safety)** An equipment to help determine the position of survivors during a SAR operation. **poziv za pomoć u pogibli putem EPIRB-a:** MV ‘Tian Fu’, a Hong Kong flagged vessel, saved the survivors. They sent out **EPIRB distress alert** from their boat.

**epoxy** /ˈpɔksi/ (n) (nav arch) a polymer resin used for coatings and adhesives **epoksidna smola, epoksi-smola:** After approximately two hours of painting, using a spray gun to apply **epoxy paint** with thinners, there was an explosion which blew the tank apart. We also had limited success using **epoxy and polyurethane adhesive**

https://www.practical-sailor.com/blog/Repairing-Plastic-Water-or-Holding-Tanks-12520-1.html **Epoxy or polyester? areas., ancillary equipment pomočna oprema: Attention was also paid to the weight of the
ancillary equipment serving the engine., anchoring equipment uredaj za sidrenje: It must
be remembered that anchoring equipment is designed and manufactured only for mooring a vessel in
moderate sea conditions, and for relatively short periods, ..., mooring equipment uredaj za
 privezivanje broda: Lessons learned The limitations of the vessel’s anchor and mooring
equipment failure  error

equipment are of paramount importance, cargo handling equipment will be arranged on deck and there will be large hatch openings closed with steel hatch covers, safety equipment

sigurnosna oprema, zaštitna oprema: During fire safety equipment verifications, the fixed CO2 cargo hold line identified as number five hold was tested by blowing compressed air into the system line. Seafarers should always wear safety equipment where appropriate, and be alert for any hazards caused by the presence of oil, grease or water on deck. The emergency generator is a vital part of ship’s safety equipment and it is the most vulnerable engine onboard, fire-fighting equipment

protupožarna prema: The port operator must inspect the work site and issue the required work permits after ensuring that there is no combustible material in the vicinity, fire fighting equipment is readily available and a fire watch is being maintained. The main portable means of fire fighting equipment are the different types of hand held extinguishers.
equipment failure (n) (marine eng, ship’s equipment) zatajivanje opreme: Critical equipment failure Zatajivanje kritične opreme

equipped with (adj) opremljen s, koji sadrži / ima: The tanker was equipped with ground stabilised radar, log and GPS, all of which indicated that she was making sternway. The vessel was equipped with a bow thrust unit, rated at 20t, to assist with berthing manoeuvres. Each vessel was equipped with azimuth stern thrusters and a bow thruster, but the bow thruster fitted to OSV1, which was the easterly of the two vessels, was defective. Both TCA and TCR series turbochargers are available optionally with VTA technology, whereby a nozzle ring equipped with adjustable vanes replaces the fixed vane ring used in the standard turbochargers.
equity (n) (mar law) A principle of fundamental fairness and justice applied by admiralty courts and arbitrators in maritime disputes where the circumstances of the case warrant doing so (e.g. altering the normal order of ranking of maritime claims načelo poštenosti

equity (n) 1 (financ) Any right to an asset or property, held by a creditor, proprietor, or stockholder (shareholder). kapital; 2 (financ, shipping econ) On a balance sheet, equity represents funds contributed by the owners (stockholders) plus retained earnings or minus the accumulated losses.

vlasnički kapital (EuroTerm): The Norwegian operator attracts private equity. Norveški brodar privlači privatni vlasnički kapital (radi kupnje brodova). Private equity firm pays $7.29bn to privatise Melbourne port. QIC Private Capital has beaten out plenty of competition to buy the Port of Melbourne, paying A$9.7bn ($7.29bn) to take the port private via a 50-year lease. Splash24/7 <splash=asiashippingmedia.com@mail244.atl21.rsgsv.net>; 3 (shipping econ) temeljni kapital, osnivački kapital
erection (n) (nav arch) postavljanje, montaža

ERM (=electronic range marker) (n) (navig) an electronic means of measuring the radar bearing of a target with a rotating radial line on the radar screen elektronički daljinomjer: The ship’s position was monitored by GPS waypoint navigation and the helmsman maintained a distance of 1.5 to 2 miles off the coast using the radar electronic range marker.

erosion /iˈrəʊʒən/ (n) (marine eng) erozija: Look carefully for any signs of erosion damage.
erosion-resistant otporan na eroziju
error (n) (safety) human error ljudska grješka, ljudski faktor: Human error accounts for the majority of accidents. the fault performed without intention, purpose or desire; errors may be
based on skills, decision and perception of errors. **grješka, greška**: Effective bridge resource management should eliminate the risk that an error on the part of one person could result in a dangerous situation. **compass error** grješka kompasa: Magnetic compass error is se / gyro compass course / magnetic compass course is ... degrees. Gyro compass error is ... degrees plus / minus. , error of the sextant grješka sekstanta, assess an error utvrđivanje pogreške, plot an error ucrati grešku, mean error srednja pogreška, gross navigational error gruba navigacijska pogreška, gruba pogreška, systemic error sistemska pogreška, navigational error navigacijska pogreška, pogreška položaja broda:, accidental error slučajna pogreška, square error kvadratna pogreška mean error srednja kvadratna pogreška, vector error vektorska pogreška, navigational error navigacijska pogreška, repeatable error grješka ponavljanja, yaw error grješka određivanja radarskog azimuta zbog zaošijavanja

**error correction unit** *(navig)* korektor grešaka

**escape** *(v) (safety)* 1 izbjeći, pobjeći: The third engineer was fortunate to escape serious injury. Crew members gathered to fight the fire while the Chief Navigating Officer rang the Master from his cabin to seek advice on how to escape the fire. He was advised to escape through the starboard aft accommodation door.; 2 izaći: Floodwater was trapped in the shelter, and the vessel capsized before the water could escape through the freeing ports.; 3 istjeći: This had allowed heated fuel and vapour to escape where it was ignited, probably by the engine’s hot exhaust manifold.; 4 propustiti escape *(n)* 1 (safety) izlaz emergency escape izlaz u slučaju opasnosti, escape hatch otvor za izlaz u nuždi, grotlo za izlaz u opasnosti: Without stating his intentions, he entered the lift car, climbed through the escape hatch on the top, and shut the hatch behind him. The skipper took an extinguisher from the wheelhouse and operated it through the emergency escape hatch.; escape route put za izlaz u nuždi / opasnosti: All passengers are requested to follow the escape routes shown.; 2 (cargo handling, marine eng) curenje, istjecanje: This led to undue pressurising of cargo lines for all cargo tanks loaded with MTBE cargo and No 1 stbd tank filling up causing escape of cargo onto the deck through the PV Valve. This may result in an explosion if a flammable phosphine:gas:air mixture ignites spontaneously, accompanied by the continuing escape of toxic phosphine gas.; 3 (marine eng, safety) propuštanje; 4 (safety) bijeg narrow escape izbjeći za malo, jedva izbjeći: The superintendent, who was on the jetty inspecting the ship side at that time, had a narrow escape.

**escape route** *(n)* (safety, nav arch) izlaz u opasnosti: The cargo hold had only one escape route;

**escape slide** *(n)* (safety) tobogan za izlaz u opasnosti

**escort** *(n)* (navy, navig) pratnja, brodovi u pratnji: The company ordered two tugs with 80 tons bollard pull performance for its escort and towing operations on the Thames and Felixstowe. escort tug prateći tegljač: The new escort tug provides significantly enhanced escort towing and seakeeping performance. These escort tugs are designed to the following Bureau Veritas class notations: BV 1 HULL, Escort Tug, MACH, Fire-Fighting Ship 1 water spraying, Unrestricted Navigation AUT-UMS The tanker had just departed the terminal with an escort tug alongside.

**escort** *(v)* (navi) pratiti: The two ships were given pilots and were escorted to a safe anchorage The bulk carriers are being escorted by the Russian icebreakers. The navy will escort the cargo ships to provide
Russian icebreaker clears way and escorts ship to Antarctic station. https://safety4sea.com/escort the vessel (navy) pratiti brod: The destroyers escorted the ship to the port.
e-shipping (n) 1 (shipping econ) elektroničko brodarstvo; 2 (shipping econ) sustav elektroničke dokumentacije u transportu
ESP (=enhanced survey programme) (n) (nav arch) program pojačanog pregleda
establish communications (n) (comm) uspostaviti vezu, uspostaviti komunikacije: Vessels outbound from the Port of Southampton should establish communications at least 30 minutes prior to leaving berth and obtain permission from Southampton VTS before letting go. The vessel’s radar echo was acquired and tracked by the VTS officer, who made several attempts to establish communications with the unknown contact which was heading downstream. The third officer attempted to establish communication with the other ship but neither he nor the container ship’s master knew the tanker’s name.
established direction of traffic flow marks (n) (navig) oznake utvrđenoga plovidbenog smjera
establish the risk of collision (v) (navig) utvrditi opasnost od sudara: A quick and easy method to establish whether or not a risk of collision may be developing with another vessel on radar, is to position the EBL over the centre of the contact, as if to take a bearing of it. If after two or three minutes the contact appears to be moving towards the centre of the display and along the EBL, a risk of collision may be developing.
estimate /ˈestimət/ (n) 1 procjena: ... the amount of ballast transferred was based on the master’s estimate. With the PRU value, stating the external moment relative to the engine power, it is possible to give an estimate of the risk of hull vibrations for a specific engine. make an estimate of the damage procijeniti štete, napraviti procjenu štete: The shipping company and its salvors are still unable to make a precise estimate of any damage to the ship or its cargo.; 2 ocjena; 3 proračun; 4 mišljenje
estimated position (=EP) (n) (navig) procijenjena pozicija (broda): After the alteration of course to 270°, the OOW did not effectively monitor the vessel’s position; no fix was taken when steady on the new course, no estimated position (EP) was calculated and radar parallel indexing was not used.
Estimated Time of Arrival (=ETA) procijenjeno vrijeme dolaska (broda), ETA: After the initial contact with the pilots regarding our Estimated Time of Arrival and pilot boarding arrangements, no further contact was made. notice of Estimated Time of Arrival obavijest o ETA-i, notify Estimated Time of Arrival poslati obavijest o ETA-i
Estimated Time of Departure (=ETD) Procijenjeno vrijeme polaska (broda): Warming through is to commence, not less than 12 hours prior to the estimated time of departure.
estimate tidal heights (v) (oceanogr) procijeniti visinu plime
estuary (n) (geogr) an area of waterway where river water flows into the sea estuar, riječno
ETA /iː tiː/ (=estimated time of arrival) (shipping econ) = ETA Notice
Liner schedules publish ETD and ETA since they cannot be held responsible for lateness due to bad weather conditions. (https://www.msc.com/shipping-glossary) procijenjeno vrijeme dolaska (broda), procijenjeno vrijeme dolaska u luku odredišta: Passage planning had identified that one of the year’s strongest spring ebb tides was running and the estimated time of arrival was at low water, but that sufficient safe water still existed in the dredged channel for a safe entry to be made. To achieve the ETA at the pilot station, minimum speed was selected, but the stronger than expected flood tide left the OOW with the choice of either advancing his What is your ETA at ...(name) Pilot Station in local time? My ETA at...(name) Pilot Station is ... hours local time. ETA is usually seen in shipping schedules circulated by shipping lines or information provided to the port https://www.shippingandfreightresource.com/ The estimated date of arrival at the planned discharge port is 4 April 20... https://safety4sea.com/ confirm the ETA potvrditi očekivano vrijeme dolaska broda: Masters of vessels bound for Chepstow, Lydney and Sharpness boarding a pilot from the Barry Roads Station must give at least 24 hours confirmation of their ETA off the Breaksea Light, advance the ETA ranije procijenjeno vrijeme dolaska broda: The master decided to advance the ETA, and the OOW contacted the pilots to arrange an 0540 embarkation, amend the ETA ispraviti procijenjeno vrijeme dolaska: The pilots were called up and the ETA was amended to 0830, adjust the ETA prilagoditi procijenjeno vrijeme dolaska: In the evening, in order to adjust the ETA at the destination port the following morning, the Master decided to stop and drift for an hour in open water before resuming passage at full speed, ETA change SEE cargo rollover promjena ETA-e, promjena procijenjenog vremena dolaska (broda): In terms of the number of changes to delivery dates (ETA), the Asia to US West Coast trade lanes showed the largest increase from an average of 1.67 ETA changes per shipment in January 2020 to 3.93 by January this year https://www.shippingandfreightresource.com/

**ETA Notice** obavijest o očekivano dolasku broda u luku

**ETB** (=Estimated Time of Berthing) (n) (logist) – a term used to denote the date and time at which a ship is expected to berth at a port/terminal. procijenjeno / očekivano vrijeme raspoloživosti veza: ETB is usually seen in pre-arrival notifications sent to the ships.

**ETC** (=Estimated Time of Completion) (n) (logist) commonly used to denote the date and time at which a ship is expected to complete its cargo operations (https://www.shippingandfreightresource.com/) procijenjeno / očekivano vrijeme završetka operacija ukrcaja / iskrcaja tereta u luci: ETC is usually seen in arrival reports sent to ship owners. https://www.shippingandfreightresource.com/

**ETD** /ˈtiːdiː/ (=Estimated Time of Departure) (n) (shipping econ) procijenjeno / očekivano vrijeme polaska iz luke: Masters of vessels outward bound from Sharpness and sailing before 1300 hours must agree, either directly or through their Agent, their ETD with the Duty Pilot by telephone before 1730 hours on the previous day. The agreed ETD must be confirmed by the Master directly to the Sharpness Pierhead

**ethanol fuel** /ˈɛθənlɒl/ (n) (sailing/boating/yachting) etanolsko gorivo, etilni alkohol: Ethanol fuel is particularly susceptible to degradation, and if left untreated can cause serious harm to
**ETO (Electrotechnical Officer; electronics officer)**

Responsible for electronics troubleshooting, maintenance and repair of various onboard electronics based systems, including navigation, radio and satellite communications, automation, IT support including LAN and client side computers. Also responsible for email configuration and marine radio communications.

**ETS (Estimated Time of Sailing)**

A draft report published on 15 October 2018, by the European Parliament’s Committee on Transport and Tourism sets out a proposal for a Regulation creating a **European Maritime Single Window** environment. The report focuses on the harmonisation of data elements and data sets, and supports the cooperation between customs and maritime authorities at both national and Union level. It also recognises that, even with a fully harmonised data set, relevant authorities might require additional data. Moreover, the draft report states that Member states should allow the use of port community systems, as long as those systems are then passing the necessary information to the **National Single Window**. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them.

**Euro pallet**

A euro pallet measures 80 by 120 cm. Throughout Europe, this pallet has a deposit value of about EUR 15.00 (2017 rate).

**European Maritime Single Window**

A draft report published on 15 October 2018, by the European Parliament’s Committee on Transport and Tourism sets out a proposal for a Regulation creating a **European Maritime Single Window** environment. The report focuses on the harmonisation of data elements and data sets, and supports the cooperation between customs and maritime authorities at both national and Union level. It also recognises that, even with a fully harmonised data set, relevant authorities might require additional data. Moreover, the draft report states that Member states should allow the use of port community systems, as long as those systems are then passing the necessary information to the **National Single Window**. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of Mumbai early Monday. When the lifeboats arrived, they were unable to approach the stricken vessel to evacuate the crew because of rocks located astern and the swell waves breaking over them. A helicopter has successfully evacuated the crew of the container ship which ran aground off the coast of ...
... the skipper continually monitored the flooding boundary, the crew donned their lifejackets, and the liferaft was deployed in case they had to evacuate the vessel. The vessel was evacuated from the port and towed out to sea in order to ventilate its hatches offshore.

https://safety4sea.com, evacuate to a liferaft spasiti se ukrcavanjem u splav za spašavanje: Three of the four people were able to evacuate to a life raft before the vessel sank. One crew member remained missing, evacuate by helicopter evakuirati helikopterom: Initially 14 persons were evacuated by helicopter leaving 9 onboard attempting to stabilize the situation. (https://safety4sea.com/)

evaporation /ɪˈvæpərəʃən/ isparivanje, evaporacija: Conradson Carbon value is the measure of the percentage of carbon residue after evaporation of the fuel in a closed space under control.

evaporation rate 1 omjer isparivanja; 2 brzina isparivanja

evaporator evaporator, isparivač: The pressure in the evaporator is below atmospheric (i.e. a vacuum) so that the water boils at a lower temperature (about 65°C). Each primary refrigerant circuit has its own evaporator within the brine chiller which results in totally independent gas systems. The fresh water generator (or evaporator) uses the heat from the main engines in the cooling water to produce fresh water from sea water.

eVDSD (=electronic visual distress signal device) (n) (safety) elektronička vizualna naprava za slanje signala uzbune o pogiblji: %Electronic visual distress signal devices (eVDSDs) that are evaluated as meeting the design and performance requirements of the recently published Radio Technical Commission for Maritime Services Standard news@safety4sea.com

even (adj) 1 jednak, ravnomjeran; 2 ravan even surface ravna površina; 3 gladak

evening star (n) (navig) as bright star or planet clearly visible in the west just after sunset when the horizon is still clearly visible večernja, večernja zvijezda, Venera

even keel (n) (nav arch, cargo handling) ship in a state of stability; When a boat rides on an even keel, its plane of flotation is either coincident or parallel to the designed water line

https://officerofthewatch.com/tools/maritime-dictionary/ ravna kobilica: The vessel was loaded with coal and the draft was 16m even keel. At the time of the accident, the ship was approximately at even keel with a draft of about 9m. on even keel na ravnoj kobilici: The passage of my vessel drawing 20.6m on an even keel with the cargo of crude oil was planned for the end of last year.

evenly (adv) ravnomjerno: This enables the lateral thrust of the short connecting rod to be distributed evenly over the full depth of the skirt. Studs should be evenly tightened so that a satisfactory joint can be provided.

even number (n) (math) ANTONYM odd number parni broj

event 1 događaj: The crew responded properly to the event and quickly extinguished it.; 2 zbijanje; 3 zgoda; 4 radnja

eventually /ɪˈventjuəli/ (adv) 1 na kraju, konačno: Eventually, after another hour, the men were winched off and conveyed to a shore hospit.: the ship, the cargo underwent liquefaction; By ballasting incorrectly to correct the list, the ship's staff made the problem worse, until the vessel eventually capsized.; 2 naknadno, kasnije: When the surveyor eventually arrived, the lifeboat crew mustered and carried out a safety briefing. {eventually ne znači eventualno, već konačno!!! Hrvatskoj riječi eventualno odgovara possibly u engleskom}

evidence (n) (mar law, shipping econ) dokaz: There was evidence that the use of rope slings to lift the jumper hose in the past had probably caused the coiled wire sleeve to be displaced, causing the hose to kink. This could then be used as evidence to the IMO committees that there are still problems with DSC.
There are two main types of evidence when defending los or damage claims: Factual evidence: what a witness actually said, did or saw at the time of an incident; and Opinion evidence: what a witness thought about what happened. https://safety4sea.com/

documentary evidence
dokazna dokumentacija, pismena dokumentacija: This clearance is not given until the Collector of Customs is satisfied that documentary evidence has been produced to testify that the cargo is in order, the necessary permits have been procured, and ... in his evidence u svojoj izjavi, u svoju obranu, produce the evidence predočiti / predati dokumentaciju / dokazni materijal, dati na uvid dokaze, take photographic evidence snimiti dokaz: Once with the Harbour Master the vessel’s Master was shown photographic evidence that clearly showed ballast water being discharged from the ship, provide evidence pružiti dokaz, dati dokaz: Histograms of engine operation can also be produced to provide evidence of performance over time.

ex. (n, prep) (logist, mar law) "Ex." signifies that the quoted price applies only at the indicated point of origin (e.g. "price ex factory" means that the quoted price is for the goods available at the factory gate of the seller). franko ..., slobodno iz ..., iz: Ex. port of ...; ex. works; ex. factory; ex. seller's premises, etc.

examination /ɪɡˈzæmiˈneɪʃən/ 1 ispit; 2 istraživanje, istraga: Furthermore, close examination of the selected track showed that it did not in fact pass between the rock and the island, but to the other side of the rock and over other obstruction. During examination it was found that the hose and discharge horn had been replaced. a thorough examination iscrpna pretraga / istraga: The vessel was later raised to enable a thorough examination to be made, including an assessment of her stability.; detailed examination iscrpna pretraga, detaljna pretraga: Detailed examination of the fore peak found that of the four frames, two had waste and come away from the shell plating completely.; 3 pregled, pretraga: Regular examination and testing of lifting equipment is an essential element of safety management and risk reduction. medical examination liječnički pregled: First aid was administered for cuts and bruises and subsequent medical examination ashore declared the seaman fit for duty after a few days’ rest.

examine /ɪɡˈzæmin/ (v) 1 pregledati: The chief engineer will examine the Engine Log when he has time.; 2 provjeriti, ispitati: Regularly examine upper deck, non-water tight hatch arrangements. The voyage was longer than usual, so the crew had no opportunity to examine or to clean the scavenging air or exhaust trunkings. The local P&I club correspondent and/or an independent surveyor should also be called upon to examine the cargo and to witness the loading and discharge should there be subsequent claims.

exceed /ɪkˈsiːd/ (v) 1 prevršiti, premašiti, preći, biti veći od: The interval between consecutive periods of rest shall not exceed 14 (fourteen) hours. razmak između dva perioda odmora ne sme preći 14 sati; 2 prebaciti, prekoračiti (dozvoljenu količinu), prijeći mjeru: The water velocity inside suction pipes shall normally not exceed 2 m/s and inside delivery pipes not exceed 4 m/s.

excepted days (n) (mar law) izuzeti dani (nedjelja i praznici)

excepted perils (n) 1 (safety) izuzetne opasnosti, izuzeti slučajevi; 2 (mar law) iznimni slučajevi

exception (n) izuzetak, iznimka: I would like to stress again that these examples are the norm and not the exception and I have plenty more photographs to prove it. with the exception of osim, izuzevši, s izuzetkom: As the wind continued to increase, the stern lines, with the exception of
the spring, began to pay out as the winch brakes began to render.

excessive /ɪkˈsesɪv/ (adj) 1 prekomjeren: Excessive wear will take place if the crosshead guides are out of alignment or if the guide clearances are excessive. excessive pressure prekomjerni tlak: However, due to excessive pressure (estimated to be 6 bar), about 500 litres of DO was pushed out of the port tank vent, some of it overflowing over the upper edge of the drip; 2 pretjeran excessive wear pretjerano habanje: Increased surface temperature means that the material strength is reduced, and the oil film burnt away, resulting in excessive wear and increased thermal stressing.; 3 prevelik, previsok excessive speed prevelika brzina: Fundamental to the vessel being too close to the edge of the bank and at an excessive speed was the decision to overtake the barge at the entrance of the smaller channel. The probable cause of the contact of the liquid petroleum gas carrier with a mooring dolphin was the pilot’s approach with excessive speed and at too steep an angle.

https://safety4sea.com/, excessive heat prevelika toplina, previsoka tempertaura: The engine crankshaft was damaged and the entablature probably distorted due to the excessive heat generated as a result of the overspeed, excessive vibration previsoke vibracije: The turbochargers are provided with a connection for Disatac electronic tachometers, and prepared for signal equipment to indicate excessive vibration of the turbochargers.

exchange (n) izmjena radio exchange (comm) razgovor putem radija, razmjena radijskih poruka: Editor’s note: In this context, ‘lookout by all available means’ includes the use of VHF, as the radio exchange made it apparent to the stand-on vessel that the give-way vessel was not intending to take appropriate action.

excluded spaces (n) (shipping econ) izuzeti / isključeni (brodski) prostori exclusive economic zone (n) (mar law) an area beyond and adjacent to the territorial sea, subject to the specific legal regime established in this Part, under which the rights and jurisdiction of the coastal State and the rights and freedoms of other States are governed by the relevant provisions of this Convention. isključivi gospodarski pojas: In the exclusive economic zone, the coastal State has sovereign rights for the purpose of exploring and exploiting, conserving and managing the natural resources, whether living or non-living, of the waters superjacent to the seabed and of the seabed and its subsoil, and with regard to other activities for the economic exploitation and exploration of the zone, such as the production of energy from the water, currents and winds; (UNCLOS)

excursion ship (n) (nav arch) izletnički brod execution /ˌeksiˈkjuːʃən/ (n) 1 provedba, izvršenje: Poor planning / execution of the mooring manoeuvre. It is appropriate to emphasise the critical nature of the Master/Pilot relationship, and the Master’s obligation to monitor the pilot’s performance and execution of the vessel’s passage plan at ALL times. Inadequate work planning and execution.; 2 (mar law) ovrha, izvršenje (sudske odluke) execution on a ship (n) (mar ins, mar law) ovrha na brodu execution proceedings (n) (mar law, mar ins) ovršne radnje execution proposal (n) (mar law) prijedlog za ovrhu executive /igˈzekjətiv/ (n) rukovoditelj, izvršni službenik: Mr XY joined the .... Insurance Association as Chief Executive in 2005. He was appointed Chief Executive in October 2012. Executive Department (n) (navy) he Executive Department provides medical services, administrative services, counseling services, and a Master-At-Arms Force that maintains good order and discipline in the ship. It is led by the Executive Officer. Izvršna služba (ratnog broda), zdravstvena, administrativna i disciplinska služba (ratnog broda)
The Personnel Specialists (PSs) update Sailor’s service records, chop orders, and are the
ensure Sailors receive all payment benefits for which they are eligible and that all crew members are
paid the correct amount on time. **odjel za ljudske resurse (ratnog broda)**,

**Administrative** The Yeomen (YNs) handle all official correspondence, publications, and documents
for the Command. YNs generate and compile all of O’KANE’s instructions and policies.

**administrativni odjel (tarnog broda)**, **Career Counseling** The ship maintains one
Navy Counselor (NC) on board to assist crew members in applying for numerous programs offered by
the Navy. The NC ensures that all reenlistment requests are accurate and submitted. **odjel za
izobrazbu (na ratnom brodu)**, **Master-at-Arms** The Master-At-Arms Petty Officers
(MAs) maintain good order and discipline both on and off the ship. MAs continuously inspect the ship for
cleanliness and safety. **disciplinski odjel, Medical** The ship maintains two Hospital Corpsman
(HM) on board to support the crew with medical treatment, and to provide quick response in case of an
emergency. The ship’s Independent Duty Corpsman (IDC), “Doc,” serves as the command’s sole resource
for both routine and emergency medical care. **zdravstveni odjel**

**Executive Officer (=XO; Exec.) (n) (navy)** The Executive Officer (XO) is the second in
command on the ship. He functions as the administrator of the ship and has overall responsibility for all
personnel on board. (http://www.dd596.com/Our-Ship/Organization); The executive officer. The
Commanding Officer’s chief assistant is the executive officer, who is detailed as such by the Secretary of

**izvršni časnik (ratnog broda), dozapovjednik (ratnog broda):** He (the XO) promulgates
the plan of the day and oversees virtually every evolution. (http://www.dd596.com/Our-Ship/Organization)
{"izvršni časnik" - doslovni prijevod; Regardless of rank, the officer second in command of a ship, squadron
or shore activity. In early days, such an officer was the first Lieutenant. (http://www.quarterdeck.org/index.html)}

**exemption /ɪkˈzɛmpʃən/ (mar law) izuzeće:** This vessel had missed two annual **Load Line
Exemption surveys.** https://gCaptain.com pilot **exemption certificate izuzeće od obveze
uzimanja peljara (u luci):** However, due to the frequency of visits to the port, one officer did
have a **pilotage exemption certificate.** The master, **who held a Pilotage Exemption Certificate,** decided to
swing the vessel at the berth because he did not wish to depart stern-first in such conditions., **exemption
clause a clause in a contract, which relieves the carrier’s responsibility for certain events: zaporka o
izuzeću, odredba o izuzeću, klauzula o izuzeću (od odgovornosti),
request for exemption zahtjev za izuzeće: The Flag State’s process for managing requests
for exemptions from international safety regulations was also found to lack rigour., **exemption from
izuzeće od Exemption Certificate (n) (nav arch, mar law, safety) Svjedodžba o oslobađanju
(od zahtjeva Konvencije SOLAS)
Exemption from Deratisation Certificate izuzeće od obveze predočenja svjedodžbe o deratizaciji
**exercise /ˈeksəˈsaiz/ (n) vježba, vježbanje: The evening before the exercise, a team briefing
was held, during which an alternative exercise to the crossing was briefly discussed. revision exercise
vježba ponavljanja
**exercise (n) upotreba, primjena
exercise /ˈeksəˈsaiz/ (v) 1 vježbati, uvježбавати: The general health of officers has improved
since they now have time to exercise and sleep more regularly; The retention of personnel is significantly
higher as officers get better job satisfaction and are more willing to continue; 2 primjenjivati, prakticirati: As the vessel approached a precautionary area at 21 knots, Vessel Traffic Services (VTS) advised the vessel to exercise caution as three outbound vessels were ahead and intending to cross the TSS.

exhaust /ɪkˈzɔːst/ (n) exhaust system ispušni sustav / sistem: A simple yet efficient exhaust layout designated Daihatsu single-pipe (DSP) exhaust system recovers gas energy effectively by allowing a good match to the turbocharger, exhaust arrangement raspored ispuha, ispušni sustav, exhaust line ispušni vod, ispušni cjevovod: It is desirable that the engine room air should be able to circulate inside the exhaust line, the air outlet being located as close as possible to the end of the exhaust line. 1 (marine eng) ispuh, ispust, škarik: ... airborne noise is generated from the air intake, the structure and the exhaust. Flames came out of the main engine exhaust at the funnel and ignited waste oil that was lying on the funnel top.; 2 ispušni plin

exhaust /ɪkˈzɔːst/ (v) 1 ispuštati; 2 isprazniti

exhaust analyzer (n) (marine eng) A test instrument used to measure the density of the exhaust smoke to determine the combustion efficiency. (http://www.marinedieseleurope.com/) uređaj za analizu ispuha

exhaust and inlet system (n) (marine eng) sustav ispuha i dovoda zraka

exhaust gas (n) (marine eng) ispušni plin: The passages for the inlet air and exhaust gas are incorporated, as are the cooling water passages and spaces. As well as these, most oiltankers install inert gas generators which may continuously produce an exhaust gas containing nitrogen and carbon dioxide for fire extinguishing. exhaust gas emission emisija ispušnih plinova, ispuštanje ispušnih plinova: Because of the need to minimise exhaust gas emissions in this area, the ferry will operate primarily on LNG using two 9-cylinder Wärtsilä 20DF medium-speed dual-fuel engines.

exhaust gas cleaning system (EGCS) (n) (marine eng) uređaj za pročišćavanje ispušnih plinova: Working with Euroshore, the association of European port reception facility providers, the EGCSA has been taking a science-based approach to the quality of scrubber washwater discharges. http://maritimeglobalnews.com/news/drive-scrubber-business-ckyyj8 The number of merchant ships with exhaust gas cleaning systems either installed or on order is approaching 1,000 ships worldwide, according to a survey by the Exhaust Gas Cleaning Systems Association. (2018) www.gcaptain.com

exhaust manifold (n) (marine eng) a device which connects all the exhaust ports to one outlet

ispušni kolektor, razvodna cijev ispuha: Drain cocks in exhaust and inlet manifolds are to remain open when machines are at rest and should be regularly tested and proved clear of blockages. The engine room fire was probably caused by the ignition of lubricating oil that sprayed from a fatigue-fractured fitting on one of the main engine’s pre-lubrication oil pumps onto the hot surface of the main engine’s exhaust manifold.
exhaust pipe (n) (marine eng) ispušna cijev: If the oil mist meets a hot spot it can be ignited; it is therefore important to keep the insulation around the exhaust pipes in good condition.

exhaust port (n) (marine eng) The opening through which exhaust gas passes from the cylinder to the manifold. (http://www.marinedieseleurope.com/) ispušni kanal, ispušni otvor: As the piston uncovers the exhaust ports on the power stroke, the exhaust gas starts to leave the cylinder. The opening and closing of the exhaust and air inlet ports are shown diagrammatically in the typical timing diagram.

exhaust silencer (n) (marine eng) prigušivač ispuha: Exhaust gas is conducted away from the turbocharger through the outlet casing via exhaust pipes to the exhaust silencer, then out into the open air through the stack or through the exhaust gas boiler.

exhaust steam (n) (marine eng) ispušna para

exhaust valve (n) (marine eng) ispušni ventil: The two inlet and two exhaust valves seat on renewable inserts in the head, those for exhaust service being intensively cooled and sealed with Viton O-rings. A nodular cast iron cylinder head, hydraulically bolted to the crankcase at four points, incorporates two inlet and two exhaust valves. exhaust valve cage kućište ispušnog ventil: All water flowing across the cylinder head runs through the exhaust valve cages, significantly reducing the valve seat temperature.

exhaust valve gear polužje ispušnog ventila, uređaj ispušnog ventila

exhaust ventilator (n) (nav arch, marine eng) odvod ventilacije, odušnik: The vessel had been towing her twin rig gear for about 3 hours when the skipper saw smoke coming from the outlet of the engine room exhaust ventilator.

exhibit /ˈɛɡzɪbɪt/ (v) (navig) istaknuti (svjetlo, signal), izvjesiti, podići (zastavicu): Many of these vessels exhibit NUC lights while drifting. Rule 3(g)(vi) allows towing vessels to exhibit restricted ability to manoeuvre signals if circumstances permit. In many regions, local regulations require vessels carrying dangerous cargoes to exhibit a flashing red light. Exhibit "Not under Command" shapes or lights and use sounds signals as necessary https://safety4sea.com/; 2 (marine eng)
pokazivati (karakteristike, obilježja): Smaller turbochargers exhibit better acceleration and vibration behaviour. Another synthetic lubricant, Castrol 778, is claimed to exhibit excellent anti-wear and rust-protection properties supported by superior oxidation stability.

exit /ˈeɡzɪt ;ˈeksit/ (n) (navig) izlaziti exit the lock izaći iz ustave: As soon as the tanker had exited the breakwater, the pilot’s launch transferred the pilot to the container ship. Čim je tanker izašao iz ulaza pri lukobranu, peljarska brodica prebacila je peljara na kontejnerski brod., emergency exit izlaz u slučaju opasnosti, nužni izlaz, exit the port izaći iz luke, isploviti iz luke: They should develop such procedures for preparation of the vessel to exit port that would ensure that the vessel would not be able to exit port not fully ballasted and they would allow the captain to conduct ballasting operation ..., exit the tank izaći iz tanka

exit (n) (safety) izlaz: The ferry’s exit from the harbour was delayed. exit door izlazna vrata, vrata za izlaz (u nuždi): Engineers and ratings should be fully familiar with all exit doors of the engine room so that in an emergency, they can evacuate safely, exit channel izlazni plovidbeni kanal: The exit channel from the terminal had a draught restriction and sailing was subject to a narrow tidal window. Vessels with a draught of over 10m must enter and exit the channel between the No1 buoys.

exit plan (n) (navig) plan isplovlenja, plan izlaska (iz luke, plovidbenog kanala, uskih prolaza itd.): Before you enter a channel, a harbor, a port, or any confined or restricted space you must have an exit plan. https://gCaptain.com 

exonerate /ɪɡˈzɔnəˌreɪt/ (v) (mar law) osloboditi od (obveze, odgovornosti): ... if a stevedore is injured on board, the vessel will be subjected to a very harsh inquiry/investigation and the authorities will likely exonerate the stevedore company of any blame and instead unfairly hold the ship liable for damages.

exoneration (n) (sailing/boating/yachting) iskupljenje (u regati) exoneration clause odredba / klauzula o povlastici, Klauzula o oslobađanju rizika / odgovornosti

expand /ɪkˈspænd/ (v) 1 širiti se, proširiti se: The gases expand forcing the piston down on the power stroke. The liner will expand more and is free to expand diametrically and lengthwise. The clear description of the accidents, the analysis and conclusions, enable seamen to expand their knowledge.; 2 povećati (volumen): These pistons have dish-shaped crowns that give a spherical form to the combustion space and are designed to be free to expand without causing undue stresses.

expanded square search (n) (navig, safety) traganje po proširenome četverokutu

expansion /ɪkˈspænʃən/ (marine eng) 1 rastezanje coefficient of expansion koeficijent rastezanja: The parts made of brass have a larger coefficient of expansion than the other parts of the valve.; 2 ekspanzija: A header tank allows for expansion and water make-up in the system. One benefit is that smaller turbochargers are required for the reduced gas flows; the lower scavenge ports also allow greater expansion in the cylinder and thus improve fuel consumption.; 3 povećanje, širenje, proširenje: A major difference with the Miller cycle compared with a normal diesel cycle is the decreased compression due to the additional expansion of the cylinder load after IVC before BDC.

expansion bellows (n) (marine eng) rastezljiva spojnica, valoviti kompenzator, valoviti prigušivač: The company investigation found that the rupture of the
**expansion bellows** was caused by an overpressure in the pump system between the suction valve and the delivery valve.

**expansion piece** *(marine eng)* rastezljiva spojnica, dilatacijski umetak: After slowing down, the leak was located in the expansion piece between the manifold and the blower in the top inlet, an extensive fracture of the bottom of one of corrugation.

**expansion pressure** *(marine eng)* tlak ekspanzije: The scavenge air pressure, exhaust gas temperature and compression, combustion and expansion pressures are continuously monitored.

**initial expansion pressure** početni tlak ekspanzije

**expansion ratio** *(marine eng)* ekspanzijski omjer, stupanj širenja: The cycle efficiency is a function of the compression ratio (or more correctly the effective expansion ratio of the gas–air mixture after combustion).

**expansion stroke** *(marine eng)* ekspanzijski takt (u radu motora): Slow or late combustion of fuel during the expansion stroke commonly referred to as afterburning may cause the engine to lose power considerably. The opening of the exhaust valve can be delayed about 15°, thereby lengthening the expansion stroke and improving the efficiency and reducing the fuel consumption.

**expansion tank** *(nav arch)* overflow tanks used to provide for expansion, overflow, and replenishment of oil in stowage or cargo tanks ekspanzijski tank, ekspanzioni tank: A header or expansion tank is placed at a sufficient height to allow the venting and water make-up in the system.

**expansion valve** *(marine eng)* ekspanzijski ventil, prigušni ventil: It was reported that while this system was operating, the piping near the expansion valve began constricting flow due to freezing hydrates.

**expel** /ɪkˈspel/ *(v)* 1 istjerati, odstraniti; 2 istiskivati (tlačenjem): Intermittent rotation of exhaust valves is caused by the flow of burnt gases expelled from the cylinder. i.e lower piston, so allowing air under pressure, which is delivered to the scavenge space by the turbocharger, to flow through the cylinder and expel the remaining burnt gases. As the piston moves up the cylinder, the hot gases (consisting mostly of nitrogen, carbon dioxide, water vapour and unused oxygen) are expelled from the cylinder.

**expenditure** izdatak, trošak: As a result of the ship’s staff’s not observing the maker’s maintenance instructions and poor engineering practice, the company incurred an unplanned expenditure of nearly US$ 100,000.

**expense** izdatak, trošak: ..., maximize the exploitation of the waste heat available in ships whose operating profiles and revenues can justify the added expense and complexity. He recommended that it should be renewed, but the owners were reluctant to take on the extra work and expense, and delay the vessel’s return to service. To avoid overtime expenses, few shipowners provide any assistance to the Duty Officer on the bridge at night. **expenses incurred (from)** nastali troškovi, troškovi nastali uslijed: In addition to the extra expenses incurred, the vessel arrived at the discharging port three days late. **out-of-pocket expenses** džeparac, at the expense of na trošak / račun (nekoga): Significantly lower NOx emissions are reported, as well as reduced smoke and even carbon monoxide, but at the expense of a slightly higher fuel consumption. ..., the mate’s receipt was signed with the note, ‘Shipped on deck at shipper’s/receiver’s risk and expense, operational expenses operativni troškovi, pogonski troškovi

**experience** /ɪkspiəriəns/ *(safety)* doživjeti, proživjeti, iskušati, pretrpjjeti: Shortly after the contact with the foundation the ferry experienced a blackout. The ship left port in the early evening and, once clear of land, started to experience significantly stronger winds than were originally forecast, prompting the master to adjust the passage plan ... It was a last resort action as he had not
previously experienced a similar situation and remained unaware of the fact that the port unit was misaligned. experience fire (safety) pretrpjeti požar, zapaliti se, experience rough / heavy weather (navig, meteorol) proći kroz / doživjeti / pretrpjeti nevrijeme: ... the instructor of one of the RIBs decided to close on a cardinal mark post, where the water was confused, so that the trainees could experience the influence of rougher water.

experienced /ɪkˈspiərənst/ iskusan, vješt: An experienced and responsible deck officer shall be in charge of the forward deck when connecting/disconnecting chafe chain; The experienced crew member leaned back to get a better view of what had become entangled, and, in doing so, his left foot slipped on the footrope.

experience fire (v) (safety) doživjeti požar, zapaliti se, doći do požara: The ship experienced a fire in a mechanical space as she was pulling into Falmouth, Jamaica. While underway a towing vessel with six crewmembers on board experienced an engine room fire.

expiration /,ekspiˈriʃən/ (n) (mar law) termination of a certain period istjek (ugovora): This Agreement shall terminate upon the expiration of a period of............... months from the date Ovaj ugovor završava po istjecju vremenskoga razdoblja od .... mjeseci od dana ...

expire /ɪkˈspaɪər/ (v) (mar law) istjeći (ugovor, dozvola): the contract has expired rok ugovora je istekao.

expired certificate svjedodžba kojoj je istekao rok važenja: Furthermore, expired certificates need to be renewed before the vessel can be re-commissioned.

expiry /ɪkˈspaiərɪ/ (n) 1 (mar law) istjek (ugovora) expiry date datum istjeka roka (akreditiva, tarifa itd); 2 (safety, ship handling) istjek roka (trajanja): We recently replaced some of the sealed spare batteries and decided to test the old ones to see if they still worked. The expiry date on them is 2014.

expiry of laytime (n) (mar law) Moment when the time allowed in the Charter-Party for loading and / or discharging, as the case may be, has been used up. If loading or discharging, as the case may be, has been used up. If loading or discharging has not been completed, demurrage or damages for detention become payable. istjek vremena stojnica, istjek stojnica

explosion (n) (safety) eksplozija: The explosion came from the ship’s boiler room, which triggered a fire onboard. the explosion occurred došlo je do eksplozije, nastala je eksplozija: Shortly afterwards, the first explosion occurred, spreading throughout the crankcase, blowing off the crankcase doors and igniting the whole of the lower engine-room atmosphere. Locked doors on a tanker mean horrific accidents should a fire or explosion occur. Approximately 25 minutes after the last tank was loaded, an explosion occurred and fire developed near the forward part of the cargo area. The ship was less than a year out of the shipyard when an explosion occurred in a cargo hold,

explosion relief valve opetusni ventil za slučaj eksplozije: Explosion relief valves are fitted to the crankcase to relieve any build-up of excess pressure inside the engine;

explosion-proof (adj) (safety) protueksplozijski, siguran od eksplozije: A cargo light was used to illuminate the work area, which was not intrinsically safe/explosion proof.

electroexplosives (n) (cargo) eksploziv: Other ‘illegal’ goods or possessions can include weapons, explosives, pets, drugs in any form other than for medical purposes. (Klasa 1 opasnih tereta)

exponentiation / ˌekspaʊnˈeɪʃən/ a mathematical operation, written as bn, involving two numbers, the base b and the exponent (or index or power) potenciranje: 3 raised to the power of 5 3 na petu 3 squared 3 na kvadrat 3 cubed 3 na kub / 3 na treću (b raised to the n-th power, b raised to the power of n, or b raised by the exponent of n, most briefly as b to the n. Some exponents have their own pronunciation: for example, b2 is usually read as b squared and b3 as b cubed.)

export (n) (shipping econ) izvoz: The MAIB has already pointed out that there is a strong case for
weighing unaccompanied lorry trailers before they are loaded for export.

**export declaration** *(n) (shipping econ, mar law)* An export declaration is a document submitted at the time of export at the export (https://www.flexport.com/) izvozna deklaracija, prijava robe za izvoz

**export(ed) cargo** *(n) 1 (shipping econ) izvozni teret; 2 (ports) teret u ukrcaju*

**export licence** *(n) (mar law, shipping econ)* a government document which permits the licensee to engage in the export of designated goods to certain destinations izvozna dozvolja, dozvola za izvoz

**export rate** *(n) (mar law, shipping econ)* a (freight) rate published on traffic moving from an interior point to a port for transshipment to a foreign country izvozni vozarinski stav, vozarinski stav za izvoz (u luku druge države)

**exposed port** *(n) (ports, navig)* luka izložena valovima i vjetru, nazaštićena luka: A high-sided ro-ro vessel was berthed in an exposed port, waiting to load cargo.

**expose (to)** *(v) 1 izložiti (nečemu): ... under extreme sea conditions and when vessels sail in ballast, the vessel and (deck) cargo are not only exposed to a risk arising from excessive speed, but that reducing the speed, Another explanation could be that our berth, being the first one inside the breakwater, was more exposed to the ocean swell. In both these cases wires which usually rested in not easily accessible blocks were exposed to the elements. However, the location of her destination port meant that she would have to eventually transit more exposed waters. Thus bare steel was exposed to attack by the corrosive cargo.; 2 izvrgnuti (nečemu)

**exposure** *(n)* exposure to weather *(navig)* izloženost vremenskim prilikama / nevremenu / atmosferilijama: Although both men had been wearing lifejackets that had inflated, neither was able to survive their exposure to the heavy weather conditions. (safety)

izloženost: Exposure to detrimental environmental conditions e.g. salt, moisture, airborne sand and dust; Improper winding under load: It was thought that exposure to hot, high pressure fuel oil over a long period had caused the fitting to suffer from fatigue or stress corrosion cracking.

**express bill of lading** *(n) (logist)* An express bill of lading is a type of bill of lading that doesn't require the cargo to be "released." prijevoznika isporuka tereta bez izdavanja originalne teretnice: An express bill of lading is a type of bill of lading (B/L) in which the carrier is obligated to deliver the goods to the named consignee and no original bills of lading (OBL) are issued at all.

**extant** *(adj)* *(navig)* postojeći: The edition of Admiralty Chart 1892 extant at the time of the accident was dated 26 February 2015 and the subsea cables of IFA 1 were first charted on the 10 July 1987 edition <source>MAIBInvReport03_2018</source>

**extend** *(v) 1 protezati se, širiti se: The water jackets does not usually extend below the port belt.; 2 produžiti, protezati (se), ispružiti: A deep sump provides a large oil capacity to reduce ageing of the lubricating oil and extend intervals between oil changes. The Safety Investigation Authority decided, in accordance with the Safety Investigation Act, to extend the investigation to include the procurement of traffic services and contract related issues ... Risk assessment training must extend to all stevedores and seamen, particularly those in charge of other workers.

**Extended Dry-Docking Scheme** *(n) (nav arch)* Shema produljenog intervala pregleda podvodnog dijela trupa na suhom

**extended dwell time fee** naknada za produženo čekanje (tereta/broda) u luci: A private container terminal has started charging an extended dwell time fee for containers lingering
in the terminal.

extension (n) 1 (marine eng) produžetak, proširenje: They inserted the fan extension hose into the tank and vacated the area. Winch brakes need to be applied tightly, and using a wheel spanner or extension bar to get added purchase may be necessary. This is an extension of US Coastguard directives which required all tonnage visiting US ports to display diagrams of their fuel loading, transfer and storage; 2 (shipping econ) produženje (vremena, roka): A further extension of maintenance intervals can be secured by plasma (ceramic) coating or chrome plating the surface of the uppermost piston ring.

extent (n) to a greater extent u velikoj mjeri 1 obim: To determine the extent of flooding, the skipper checked the fish room and found water at the same level as that in the engine room.; 2 veličina; 3 razmjer; 4 stupanj; 5 opseg, obim: The full extent of the damage to the smaller vessel was not realised until some time after the collision.; 6 mjera to some extent u izvjesnoj mjeri, donekle: ... the pilot was left with little room for manoeuvre or time for critical decision making, and the grounding of the vessel became to some extent inevitable., to such an extent that do te mjere da, toliko da: The bolts were wasted to such an extent that the threaded parts were reduced to 50% of their original diameter., to the extent that do te mjere da: The OOW had become over-confident in his ability, to the extent that he was prepared to stretch the parameters within which the master had permitted him to operate autonomously. The bolts were wasted to such an extent that the threaded parts were reduced to 50% of their original diameter., to the full extent u punoj mjeri: In such situations, the use and handling of AIS information becomes more difficult, and the AIS can not be used to its full extent, thus losing its meaning to the navigator.

externally (adv) (marine eng) izvana, s vanjske strane: Modern turbochargers with externally lubricated journal bearings have uncooled casings. The chamber is drained externally by a tap and cleaned without risk of contaminating the lubricating oil system.

extinguish /ɪkˈstɪŋwɪʃ/ (v) (safety) ugasiti, pogasiti extinguish fire ugasiti požar: The fire on board has been extinguished by crewmembers. The fire was fully extinguished within about and hour. The master decided it would be necessary to operate the engine room CO2 system to extinguish the fire. Attempts to extinguish fires in accommodation and engine room failed. Crew members were able to extinguish the fire and no injuries were reported, but the vessel remains without propulsion and adrift some 100 miles off the coast. http://gcaptain.com The fire was extinguished following activation of the CO2 smothering system. was extinguished following activation of the CO2 smothering system Fire was extinguished following activation of the CO2 smothering system, https://safety4sea.com/, extinguish the light ugasiti (navigacijsko) svjetlo: The question of whether or not to extinguish the side lights once the vessel was no longer making way then arose.

extinguished light (n) (navig) ugašeno svjetlo, pogašeno svjetlo extinguisher /ɪkˈstɪŋwɪʃə/ (safety) aparat za gašenje požara, protupožarni aparat: The chief engineer attempted to fight the fire using an extinguisher, but was quickly driven back into the ECR. The skipper took an extinguisher from the wheelhouse and operated it through the emergency escape hatch. portable extinguisher prijenosni protupožarni aparat, ručni aparat za gašenje: The ETO immediately grabbed the closest portable extinguisher, which happened to be the 45ltr foam extinguisher, and put the fire out., water extinguisher protupožarni aparat na vodu: The second engineer had more success, and tackled the fire with a water extinguisher., foam extinguisher protupožarni aparat na pjenu: The AB immediately unplugged the fan and fought the fire using a foam extinguisher located in the adjacent
alleyway., CO2 extinguisher; carbon dioxide extinguisher protupožarni aparat na ugljični dioksid: They were able to enter the compartment and discharge their CO2 extinguisher, but they were beaten back by the smoke. The crew put out the fire by using a portable CO2 extinguisher., dry powder extinguisher protupožarni aparat na suhi prah: The fire was subsequently extinguished using a dry-chemical fire extinguisher. Following an unsuccessful attempt to fight the fire with a portable dry powder extinguisher, the engines were shut down and the air vents closed.

https://www.indiamart.com/proddetail/fire-extinguisher-4540933112.html, fire extinguisher aparat za gašenje požara, protupožarni aparat: He fetched a fire extinguisher from the forepeak and with 3-4 blasts put the fire out. The brake shoe on one of the aft captive drums caught fire as the winch paid out, and it had to be tackled with a fire extinguisher.

extinguishing (n) (safety) extinguishing agent sredstvo / agens za gašenje: At least the cargo holds intended for the carriage of dangerous goods should be equipped such that they contain the possibility to use water as an extinguishing agent or for cooling via a permanently installed system as well., dry chemical extinguishing system sistem za gašenje požara suhom pjenom: Dry chemical extinguishing systems are designed to combat Class B (flammable liquids and gases) and Class C (electrical) fires., foam extinguishing system sistem gašenja požara pjenovima: Fixed foam extinguishing systems are used to smother flammable liquid fires., gas extinguishing system sistem gašenja požara plinovima: Gas extinguishing systems have proved to be most efficient in enclosed spaces, such as machinery rooms, electrical panels and cargo holds., fire extinguishing appliances uređaji za gašenje, protupožarni uređaji: What fire extinguishing appliances are available on board ship?

gašenje

extract (v) 1 izvaditi, ekstrahirati; 2 istisnuti; 3 izvući: Heating of sludge oil tanks, waste oil and oily water bilge tanks in order to extract water. Their surfaces are curved to extract the
maximum amount of energy from the exhaust gases and transfer it to the turbine shaft.

eractor (n) (marine eng) = piston ring opener otvarač klipnih prstenova

erextraordinary event (n) (safety) događaj na brodu koji nisu planirali zapovjednik ni posada i može rezultirati opasnošću za ljudske živote, imovinu ili okoliš izvanredni događaj

extraordinary event (n) (nav arch) najveća širina, maksimalna širina

extraordinary event (n) (nav arch) najveća duljina

Ex Works (n) (shipping econ, mar law) an INCOTERM of sale meaning the seller delivers to the buyer at seller's named premises; free from manufacturer's premises; including charges only up to the seller's factory or premises. All charges from there on, such delivery, distribution, and commissions, are to be borne by the buyer.

Ex-works, means that the seller delivers to the buyer at the seller's named premises.

Ex Works (n) (shipping econ, mar law) franko tvornica, slobodno iz tvorničkog skladišta, the seller makes the goods available at his premises

eye 1 (nav arch) oko za privez, oko za prolaz konopa, oćet,

Italian: occhiello

2 (marine eng) a hole through the head of a needle, pin, bolt, etc. or a loop forming a hole or opening through which something is intended to pass, such as a hook, pin, shaft, or rope (SeaSources.net) očica, oko rod eye oko / očica ojnice

eye (n) (meteorol) the low pressure center of a tropical cyclone središte (ciklone)

eye-bolt (marine eng) vijak s maticom na očicu

eye pad (=eye-pad; eyepad) (n) (nav arch, cargo handling) SEE pad eye uška (za pričvršćivanje / vezivanje užadi, tereta, peljarskih ljestava), ušica (za pričvršćivanje / vezivanje užadi, tereta, peljarskih ljestava), oćet:

Accommodation ladder should be secured to ship's side by using eyepad, magnetic or pneumatic system.

www.impahq.org
eye plate  uška veza (rica na palubi), očet
eye protection device  (n)  (seamanship)  očna zaštitna pomagala
eye splice  (n)  (seamanship, sailing/boating/yachting)  A fixed loop, or attachment point at the end of a line. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/)  oko konopa s

fabrication shop  (n)  (nav arch) Fabrication Shops include: - Cutting shops; - forming shop; - Pipe fabricating shop
facets  (n)  (electr, navig)  smetajuća radarska jeka na malim površinama mora male površine (radarske jeke)
facilitate  (v)  1 olakšati: As the boat had to approach stern first in order to be picked up, two lines were passed to the crew to facilitate her positioning.;  2 omogućiti: This was to facilitate easy access for the ship's personnel to continuously monitor the after-draft while cargo loading was nearing completion.;  3 pomoći
facilities  (n)  1 usluge;  2 kapaciteti port facilities lučki kapaciteti;  3 postrojenje obalna postrojenja;  4 sredstva, oprema cargo handling facilities prekrcajna sredstva, sredstva za prekrcaj
facility  (n)  1 (ports) postrojenje, kapaciteti reception facility prihvatna postrojenja: The water has to be properly treated before discharge into the sea, and the sludge must be disposed of at reception facilities ashore., bunkering facilities kapaciteti za ukrcaj goriva, port facilities lučki kapaciteti, lučka postrojenja: The vessel hit the quay, and then the link span, causing significant damage to both the ferry and the port facilities., cargo handling facilities kapaciteti za prekrcaj (ukrcaj i iskrcaj) tereta, ukrcajno-iskrcajni kapaciteti, storage facilities skladišni kapaciteti, extend the facilities proširiti / povećati kapacitete, pružiti sve pogodnosti / pomoć, shoree facility obalno postrojenje: They also cannot accept the fact that they have to land large amounts of slops to shore facilities as this costs them money., loading facility ukrcajno postrojenje: arly there is growing pressure in some quarters for the IMO to establish a legal requirement that all loaded containers are weighed at the loading facility before being stowed aboard a vessel for export.;  2 uređaj: The ARPA facility would have made this task easy.
facsimile receiver  facsimil prijamnik, faks
factory ship  (n)  (nav arch) brod-tvornica
fade  (v)  (navig, comm) gubiti se, slabjeti (signal)
fading /ˈfeɪdɪŋ/ (n) (electr, navig) slaboženje (signala, elektromagnetskog vala, svjetla), gubljenje: As they made their way across the water, in fading light, the tender was rocked by the wash of another craft and it capsized, throwing all three men into the water.

fail /fæl/ (v) 1 (marine eng) zatajiti, otkazati: The engine remains manoeuvrable even if one cylinder fails: in such a case the relevant fuel pump is set to the zero index position. The main engine failed while approaching the pilot station. fail to work ne raditi (o uređaju, opremi), prestati raditi, zatajiti: All flares must be periodically checked and renewed when past their “use-by” date. Otherwise they may fail to work, when needed. CASE 22 _ Narrative The owner of a high powered, rigid inflatable boat (RIB) was well known to have been a keen and competitive, se, biti u kvaru / defektu; 3 (marine eng) popustiti (materijal)

fail (v) ne uspjeti, propasti: A vessel can travel several hundred yards, especially if the operator fails to reduce speed, in the time it takes for the track line to update on an electronic chart. Numerous attempts to repair the main engine failed. https://safety4sea.com/ the rope failed uže je popustilo, uže je zatajilo: The rope, which was made of high-modulus polyethylene (HMPE), failed in-board close to the roller pedestal that leads the rope from the winch at a 90° angle to the roller fairlead. https://gcaptain.com/safe-harbor-learning-from-mooring-accidents/

fail (v) propustiti (učiniti): Too often mariners fail to appreciate the importance of frequent fixes while navigating in restricted visibility. If the crew fail to re-secure the painter before launching, this liferaft will certainly be lost along with the painter. fail to inform propustiti obavijestiti o: the crossing vessel failed to inform VTS and other traffic about her intention to leave the anchorage and cross the traffic lane, fail comply with the regulations ne poštovati propise, ne pridržavati se propisa: The other ship failed to comply with a number of regulations to keep his and other vessels safe, including failing to make his vessel’s radar operational, failing to make sound signals, and failing to ensure all the navigation lights were working. http://gcaptain.com/

fail-proof /ˈfeɪlpruːf/ (n) (safety) besprijekoran: Hatch lid modified to incorporate safer lifting and permanent fail-proof securing arrangements;

fail-safe /ˈfeɪlseɪf/ nepokvarljiv, poudan, siguran, bez kvara, samoisključujući: In the case of bridge operations, it is prudent to have fail safe procedures in place, such as the testing of manual steering, before entering any harbour ...

failsafe operation (n) (safety) besprijekoran rad

failure /ˈfeɪlɪər/ 1 kvar, havarija sudden failure of the main engine iznenadna havarija glavnog stroja, hull failure pucanje trupa broda, napuknuće trupa: The ship encountered heavy seas during a passage of the English Channel, causing catastrophic hull failure, main engine failure otkazivanje glavnog stroja, zatajenje glavnog stroja: The vessel command attributed the main engine failure to a defect in the automatic control, mechanical failure mehanički kvar: The diesel generator mechanical failure resulted in a fire in the engine room. https://gcaptain.com/; 2 prekid u radu power failure

nestanak električne energije: In the event of a power failure to any one of the steering gear power units, an audible and visual alarm shall be given on the navigating bridge.; 3 propust, neizvršenje, neispunjavanje: Failure to comply with certification requirement may result in a heavy fine, arrest or a penalty and loss of insurance The basic errors here seem to be the failure of the other vessel to comply with the Collision Regulations, particularly with reference to Rule 13 (overtaking) and Rule 18, d. failure to report ne izvijestiti, propustiti izvijestiti, catastrophic
There have been many reported instances of sudden and catastrophic failure of roller fairleads on ships due to ineffective inspection and maintenance.

Corrective/preventative actions Following the failure of the hose, all the other hoses were hydraulically pressure-tested.

The cause of the sudden steering failure could not be established;

However the following contributory factors were noted:

- brake failure
- rudder failure
- overtaking of material, device, construction
- overtaking of motor, device, construction

The accident involved a brake failure on one of the lifeboats.

A sternline was led from a roller fairlead, through a set of bitts, around a pedestal fairlead and on to a warping drum.

The master ordered to heave on the forward backspring and to slacken the headline, which had been passed from the centre mooring winch through the vessel’s centreline Panama fairlead.

A Voith Schneider tug was attached through the forward centreline fairlead, with the (now repaired) ASD tug from Case 1 pulling on the vessel’s port quarter to try to counter a strong cross-tide and force 6 winds.

The cargo vessels’ stern ramp and aft fairlead arrangements were certainly contributory to these accidents.

A regional meeting of Asia’s leading seafaring nations has highlighted the plight many seafarers face in the event of a maritime accident and has pledged to lead the drive towards proper and effective implementation of the International Maritime Organization (IMO) and International Labor Organization (ILO) agreed Guidelines on the Fair Treatment of Seafarers.
fairway (n) (navig) COMPARE waterway: navigable channel for entering or leaving a port, usually marked by port and starboard buoys, seamarks etc.; A navigable channel for vessels, often the regular or prescribed track a vessel will follow in order to avoid dangerous circumstances (e.g. port access via a river’s estuary). (https://www.msc.com/shipping-glossary) fairway buoy (=FB) (n) (navig) plutača na početku plovivdenog kanala (s morske strane): Several minutes later, another fairway buoy fitted with a Racon was detected at a range of 6nm fine on his starboard bow. Due to my ship’s draft, the fairway buoy must be passed on our port side. fairway depth (n) (navig) dubina plovivnoga kanala
fairway speed (n) (navig) obvezna brzina u plovivbenom putu / kanalu: What is the fairway speed? Fairway speed is 7 knots. fair weather (n) (meteorol) weather in which there is less than 4/10ths of cloud cover, no precipitation, and there is no extreme visibility, wind or temperature conditions lijepo vrijeme, vedro vrijeme: A vessel with low freeboard is susceptible to ship seas on deck even in relatively fair weather. The trawler was returning to her home port, in fair weather and good visibility, but it was dark. fake /feɪk/ (n) (seamanship) one complete circle of a coil of rope red složenog konopa (u krugu) FAK freight rates (=Freight All Kinds rates; FAK rates) ANTONYM commodity-based rates: a pricing model in which the freight rate charged is the same for all types of goods in a specific size/type of container (say 20’ GP) and does not depend on the cargo type inside the container. (https://www.shippingandfreightresource.com/fak-rate-and-how-it-works/); They are applicable to all types of goods and not restricted to any particular commodity. opča vozariniska tarifa (sve vrste roba/tereta): They have added all sorts of extra charges to
the deal we made in November, which virtually doubled the price we agreed. Now they (the carriers) are saying we have to work with their FAK rates until at least March. ... https://gcaptain.com/ Please find the new Freight All Kinds (FAK) rates applicable as from January 1st, 2021 (date of loading in the origin ports) until further notice: ... http://www.cma-cgm.com/ While the consolidator may charge its clients on a commodity-specific basis, it pays the undercarrier a predetermined FAK rate.

https://www.globalnegotiator.com/international-trade/dictionary/fak-freight-kinds/ FAK freight rates are quoted primarily by undercarriers to consolidators (NVOCCs and air freight consolidators) who fill shipping containers with different kinds of cargoes received either from different shippers or for different consignees or both. https://www.globalnegotiator.com/international-trade/dictionary/fak-freight-kinds/

**FAL Convention** (=Convention on Facilitation of International Maritime Traffic) *(n)* *(mar law, shipping econ)* The Convention’s main objectives are to prevent unnecessary delays in maritime traffic, to aid co-operation between Governments, and to secure the highest practicable degree of uniformity in formalities and other procedures. (https://www.imo.org/)

Konvencija IMO-a o poticanju međunarodnog pomorskog prometa: The new FAL Convention requirement for all Public Authorities to establish systems for the electronic exchange of information related to maritime transport marks a significant move in the maritime industry and ports towards a digital maritime world, reducing the administrative burden and increasing the efficiency of maritime trade and transport.” https://safety4sea.com/iaph

**falkusa** /ˈfalkuʃa/ *(n)* *(sailing/boating/yachting)* a traditional fishing boat used by fishermen from the town of Komiža on the Adriatic island of Vis, Croatia **gajeta falkuša**

---

**fall** *(n)* *(seamanship)* čekrk, parank; paranak forward fall pramčani čekrk (na brodici za spašavanje), prednji čekrk (na brodici za spašavanje): The second mate was designated to be the cox’n of the starboard lifeboat, and two ABs were tasked with releasing the forward and aft falls., **fall** kratni čekrk (na brodici za spašavanje), stražnji čekrk: The aft falls block chain ring had been placed in the hook securing bracket, and the safety pin pushed though it, as shown in figure 3., **fall** zaustavnički koloturnik čekrka, blok čekrka: He re-attached the aft falls block chain ring correctly to the hook, and lashed the hook securing arrangement., **fall** zaustavljač koloturnika (čekrka): The seaman was not using any kind of fall arrest systems.

**fall** *(n)* *(seamanship)* handling rope end of a block and tackle; dio užeta između dva kolotura u čekrku/koloturniku radna struna koloturnika, uže koloturnika / čekrka

**fall** *(n)* *(seamanship) = hauling line* the end of tackle rope to which the power is applied in lifting cargo živi kraj užeta (na koloturniku/čekrku), radni kraj užeta (na koloturniku/čekrku), radna struna koloturnika/čekrka

**fall** *(n)* *(sailing/boating/yachting)* podigač jedra, gindac
**fall due** (v) *(mar law)* **dospijeti, dospijevati**: Demurrage shall fall due day by day and shall be payable as per Charter Party.

**fall off** (v) *(seamanship, navig)* to change direction so as to head more downwind **otpasti (o brodu, jedrilici), otpadati od vjetra**: the effect of the wind on the starboard quarter caused the vessel to fall off to starboard vjetar desno po krmi izazvao je otpadanje broda u desno

**fall overboard** (v) *(safety)* **pasti u more (s broda), nestati (s broda)**: A crew member is lucky to be alive after falling overboard off the coast of ... on Monday. the Deck Officer reportedly fell overboard at approximately .... am local time on the Canadian side of the Saint Lawrence River [https://gCaptain.com](https://gCaptain.com) He fell overboard and drowned at sea. A man fell overboard while involved in mooring operations. ([https://safety4sea.com/](https://safety4sea.com/)) The crewman was retrieving the forward mooring rope from the sea when he suddenly lost his balance and fell overboard. ([https://safety4sea.com/](https://safety4sea.com/)) Turn the ship on side that man fell overboard.

FBIV (=fuel booster injection valve) ventil za dopunsko ubrizgavanje goriva: Dual fuel operation requires injection valves for both pilot fuel oil and gas. The FBIVs operate as main injection valves when the engine operates in fuel oil mode and as pilot oil injectors when the engine operates in dual fuel mode. www.man-es.com Since the fuel oil injection pressure is generated by the booster function in the FBIV, the high-pressure fuel-oil pipe has been removed as well. www.man-es.com

F.C.A. (=free carrier- (named place) (n) (mar law, shipping econ) Free Carrier means that the seller fulfils his obligation to deliver when he has handed over the goods, cleared for export, into the charge of the carrier named by the buyer at the named place or point. If no precise point is indicated by the buyer, the seller may choose within the place or range stipulated where the carrier shall take the goods into his charge. When, according to commercial practice, the seller’s assistance is required in making the contract with the carrier (such as in rail or air transport) the seller may act at the buyer’s risk and expense.; Free Carrier (named place): the seller hands over the goods, cleared for export, into the custody of the first carrier (named by the buyer) at the named place. This term is suitable for all modes of transport, including carriage by air, rail, road, and containerised / multi-modal transport.

http://www.themglobal.net/index.html; an incoterm (per 2010 Incoterms®) that requires the seller to clear the goods for export and to either: deliver the goods to the buyer at the seller’s premises or deliver the goods to the buyer at another named place.

(https://www.flexport.com/glossary/incoterm-free-carrier/) franko (morski) prijevoznik, slobodno morski prijevoznik (s navedenim mjestom preuzimanja robe), franko brodar, franko vozar: When using the FCA incoterm, the point at which the seller is delivering the goods to the buyer must be named: e.g., “FCA, Name of Origin CFS.”

https://www.flexport.com/glossary/incoterm-free-carrier/

FCC (=first class charterer) (shipping econ) prvoklasni čarterer

F.C.L. (=full container load) (n) (mar law, shipping econ) ANTONYM LCL

COMPARE container load Full Container Load – means that the container has cargo that is shipped by one shipper for delivery to one consignee.. FCL is one of the Container Service Types in shipping.. (https://www.shippingandfreightresource.com/); In a FCL shipment the shipper usually packs its goods in the container and seals it.; sav teret u kontejneru glasi na istoga primatelja; Quantity of cargo, which fills a shipping container to capacity, either by weight or cubic measurement.; an ocean shipment in which the cargo occupies a full container (of any size)

(https://www.flexport.com/glossary/full-container-load/) izravna kontejnerska pošiljka, direktna kontejnerska pošiljka: FCL is cheaper than LCL LCL costs more than FCL per unit of freight. That’s because freight agents prefer a full container load rather than to figure out how to bundle many LCL shipments in a full container. FCL gets delivered more quickly than LCL

FCL allowance (n) (mar law, shipping econ) Deduction from the FCL freight provided by a shipping line or liner conference to a shipper who loads a minimum number of tons or cubic meters of cargo into a shipping container. There may be various allowances depending on the degree of utilization of the container. Also known as utilization allowance. popust na vozarini za puni kontejner / FCL (popust najvećem krcatelju za teret u jednom kontejneru)

FCL/FCL (n) (shipping econ) Term used to describe a container freight rate whereby the shipper is
fear (v) fear damage to cargo bojati se / strahovati da je teret oštećen strahovati, bojati se

feathering (n) (sailing/boating/yachting) Sailing a fine directional line between two points of sail, usually close hauled and irons http://www.apsltd.com/aps-advisor/sailing-terms-glossary/

feathering mechanism (n) (sailing/boating/yachting) mehanizam elastičnog propelera

feathering propeller /ˈfeðəriŋ/ (n) (sailing/boating/yachting) COMPARE folding propeller COMPARE fixed propeller Feathering props are one of the best propellers for sailing boats when mixing performance under sail and power. they get their name due to the feathering blades, which align with water flow when in neutral.

(https://kingpropulsion.com/autoprop/); an automatically self-pitching feathering propeller which varies its pitch depending on the operating conditions, thus maintaining maximum efficiency at all times. ... The blades automatically adjust their pitch to match the engine torque to the varying load conditions. (http://myboatsgear.com/); A propeller whose blades have been rotated so that the leading and trailing edges are nearly parallel with the aircraft flight path to stop or minimize drag and engine rotation.; Feathering props have blades that rotate 180 degrees so the leading edge is still the leading edge in reverse, which makes them more efficient in reverse over folding and fixed propellers. (http://myboatsgear.com) skloplivi prekretni propeler (s krilima u liniji kretanja jedrilice), skloplivi propelera s promjenjivim korakom lopatica: The Max-Prop feathering propeller had excellent stopping power, but needed rebuilding three times in 18 years. The Flexofold was sized to match the new smaller 75-horsepower engine. https://www.practicalsailor.com/issues/44_2/features/Folding-vs-Feathering-Props_12354-1.html?ET=practicalsailor:e36748:2438214a:&st=email&ses=p_Grabbag012118 The advantages of the Max-Prop are very little drag when sailing as the prop instantly feathers unless the engine is engaged, no freewheeling in neutral, adjustable pitch, and incredible stopping power in reverse. Max-Prop can literally bring a boat from 6 knots to a dead stop in a boat length

https://www.practicalsailor.com/issues/44_2/features/Folding-vs-Feathering-Props_12354-1.html?ET=practicalsailor:e36748:2438214a:&st=email&ses=p_Grabbag012118 My installation required that the prop shaft be trimmed about 1/2 inch meaning that it could never again be used with a fixed prop; a critical concern to determine for your boat before undertaking...it is a marriage and divorce is always expensive. Consider this factor on any feathering/folding prop selection.

https://www.practicalsailor.com/issues/44_2/features/Folding-vs-Feathering-Props_12354-1.html?ET=practicalsailor:e36748:2438214a:&st=email&ses=p_Grabbag012118# As the blades rotate 180 degrees in ¼ turn of the shaft a feathering propeller has the same efficiency in reverse as in forward. ... ... a feathering propeller is a low drag propeller. When motoring, the blades swing to the ahead or astern angled position, but under sail they ‘feather’, turning parallel to the boss. Feathering propellers typically produce nearly as much forward thrust as folding propellers and more forward thrust than those that are fixed. They are also generally more efficient than folding propellers when going astern.

https://www.sailmagazine.com/diy/why-low-drag-propellers Feathering props create about 5-10% of a fixed prop’s drag, sometimes less, while folding props have almost zero drag.

Feathering is only possible with variable pitch propellers and means that the blades are turned such that their mid-to-outer section is aligned with airflow and they create minimal air (or water) resistance. (Wikipedia)

feature (n) osobina, obilježje, karakteristika, crta, svojstvo, posebnost

fit out (v) (seamanship, sailing/boating/yachting) opremitи, armat; armati

fitted with (adj) be fitted with with biti opremljen (s), imati, sadržavati
opremljen (s), koji ima / nosi na sebi, koji sadrži

fitter (n) 1 (marine eng) a rating responsible for daily maintenance and minor repairs of all mechanical
equipment onboard the ship monter: The fitter began the job by unscrewing the securing bolts of the
angle bar at one end of the plates, then moved to the other end.; 2 mehaničar; 3 strojobravar

fitting (n) 1 (marine eng) okov na palubi za hvatanje vezova za teret hvataljka, okov
fitting (n) 1 (marine eng) ugradnja, montaža, sastavljanje; 2 (marine eng) uređaj
fittings (n) (marine eng) a small part on or attached to a piece of piping, furniture or equipment
oprema, sitna oprema, ventili, zasuni, pipci itd., armatura, fitinzi pipeline

fittings oprema cjevovoda, piping fittings cijevna armatura

fittings (n) (sailing/boating/yachting) sitna oprema male jedrilice small-boat

fittings sitna oprema male jedrilice, okovi male jedrilice (hvataljke, bitvice, pramčani okov, stoperi, vodilica škote i škotine, tračnica
vodilice)

**fix** (n) *(navig)* the intersection of two or more lines of position; A geographical position determined with certainty by one or more of the following: visual references, radio navigation aids, celestial plotting, or any other navigation device. *(IAMSAR)* požicija broda (dobivena snimanjem), opaženi položaj, položaj broda snimanjem jednog ili više terestričkih objekata, Italian:*punto* mark a **fix** on the chart označiti poziciju na karti: No fixes were marked on the chart, and even the normal recording of GPS positions in the log was not carried out., electronic **fix** pozicija broda određena pomoću sustava elektronske navigacije, satellite **fix** pozicija broda određena pomoću satelitske navigacije (npr. GPS), plot a **fix** ucrtati poziciju: If ECDIS is in use, fix frequency is not an issue. Nevertheless, it is reasonable to plot fixes at less frequent intervals when using an ECS, checking the system with a hand-plotted fix at prudent intervals., to obtain a **fix** dobiti / odrediti poziciju broda: The usual method of obtaining a fix on the chart from radar ranges is to use a pair of compasses and draw “position circles” of at least three, widely-spaced identified conspicuous objects.

macgregor has received an order from fincantieri bay shipbuilding in wisconsin, usa to supply two **fixed boom crane**s that will handle the hoses on a new 5,400m3 liquefied natural gas (lng) bunker barge https://gcaptain.com

**fixed fittings** (n) *(cargo handling)* Fixed container fittings include: Deck and hatch cover foundations, Lashing points, - In hold installations, - Tank top fittings **nepomična oprema za pričvršćivanje kontejnera** **fixed container fittings** **fixed fittings** on deck **nepomična oprema za pričvršćivanje kontejnera na palubi, **fixed fittings** in hold **fixed fittings** u skladištu **nepomična oprema za pričvršćivanje**
**Fixed light** *(n) (navig)* a light showing continuously and steadily, as opposed to a rhythmic light

**Stalno svjetlo**, *fiksno svjetlo*

**Fixed offshore facility** *(n)* nepomični odobalni objekt

**Fixed pitch propeller** *(=f.p.p.)* *(n) (nav arch, marine eng)* = fixed propeller

**Prekretni propeler**: The engine drives a fixed pitch propeller and, at sea, is run at 83 rpm to give the ship a speed of about 12 knots.

**Fixed propeller** *(=fixed prop)* *(1) (nav arch, marine eng)* COMPARE controllable pitch propeller COMPARE folding propeller COMPARE feathering propeller

**Fiksni propeler**: A fixed propeller can create a considerable amount of drag when sailing. A three-blade fixed prop could reduce your boat’s speed by as much as 20 percent.

**Fixed rates** COMPARE spot market

**Fixed route** stalni pravac / ruta / brodska linija, utvrđena ruta, ustaljena linija, redovita linija

**Fixing by radar ranges** *(n) (navig)* određivanje pozicije s radarskim mjerjenjem udaljenosti
Successful conclusion of the negotiations between shipowner and charterer, generally through shipbrokers, resulting in the charter of a ship.

May and June fixtures are in the $7.50 to $7.80 per tonne range for some operators” for a Brazil to China voyage, said a Shanghai-based capesize broker on Thursday.
flag state requirements

authority and responsibility to enforce regulations upon vessels that are registered under its flag, including regulations relating to inspection, certification, safety, and pollution ... https://www.shippingandfreightresource.com/ Law of the flag state pravo države zastave broda: The provision of such crew management services includes the following services, (ii) ensuring that the applicable requirements of the law of the Flag State in respect of rank, qualification and certification of the Crew and employment regulations, such as Crew’s tax and social insurance are satisfied. (Flag state maritime legislation determines how a ship is manned and taxed and whether a foreign-owned ship may be placed on the register. (https://www.msc.com/shipping-glossary))

flag state requirements (n) (mar law) inspekcijski nadzor domaćih brodova, propisi države zastave broda

flake /flēık/ (n) (sailing/boating/yachting, seamanship) COMPARé flake: to lay a rope or chain down in long bights side by side or in coils in regular order so that it will run out clear or can be easily and rapidly paid out slagati konop: The Figure 8 Flake allows the rope to be pulled rapidly off the deck with minimal risk of kinking, twisting, or knotting. Before making the flake, start at the cleat and work your way to free the end shaking out any twists. flake down složiti konop

flake /flēık; feɪk/ (=fake) (n) (seamanship) složeni konop, namotaj konopa, uredno složeni konop, Flemish flake spiralno složen konop

flake catfish (n) (fishing) mačka mrlula (drugi hrv. nazivi: mačka kamenjarka, mačka puričanka, parda, rijanka, šarka, šćedrovača, mačka pjegavica, mrka morska mačka; lat. SCYLORHINUS STELLARIS)

flake the mainsail (=fold the mainsail on the boom) (v) (sailing/boating/yachting) prikupiti jedro (slagenjem na bum): To flake a sail, start with the sail flat and make accordion folds of the sail into itself, eventually pulling the head down onto the flaked pile.

flame (n) (safety) flame arrester zaustavljáč plamená, osigurač plamená: The...
relief valves are made with an approved flame arrester function. For direct reversing main engines >230 mm bore flame arresters or bursting discs are required for each cylinder fitted between the cylinder start air valve and the manifold. flame plate plamena ploča: Individual cylinder heads, incorporating a thick bore-cooled flame plate, are held down by four hydraulically tightened studs.

flame trap odvajač plamena, prigušivač plamena: In an attempt to reduce the effects of an explosion, flame traps and relief valves are provided in the pipelines. plamen: The base oil ignited and a sheet of flame and dense smoke enveloped the area.

flame arrester (=flame screen) (n) (safety) A device comprised of a fine wire gauze that is fitted into the discharge end of a vent line. It prevents the passage of flame, but will allow vapor to pass through. (www.euronav.com) zaustavljač plamena, blokator plamena

flame detector (n) (safety) javljač plamena, detektor plamena: Flames, as opposed to smoke, are often the main result of gas and liquid fires and flame detectors are used to protect against such hazard.

flameproof enclosure (n) (safety, electr) neprodorni oklop (el. spoja)

flammable (adj) flammable cargo zapaljiv teret, flammable gas zapaljiv plin, flammable liquid zapaljiva tekućina, flammable vapours zapaljive pare zapaljiv

flammable cargo (n) (cargo) zapaljivi teret: After carrying a flammable cargo, always assume that the atmosphere within a tank is flammable. Oil tankers, carrying various flammable cargoes, experience a real danger of explosion when vapours remain in emptied tanks.

flammable gases (n) (cargo) zapaljivi plinovi: A container packed or loaded with flammable gases or liquids having a flashpoint below 23°C c.c. should only be stowed under deck. Ventilate properly, and ensure that the atmosphere is correctly tested for both toxic and flammable gases, and that the atmosphere is certified as being safe.

flammable liquids (n) (cargo) Flammable liquids are those that give off vapours which become spontaneously combustible at certain temperatures (flash point); these are often referred to as "inflammable" but "flammable" is preferred. (https://www.msc.com/shipping-glossary) zapaljive tekućine: Dry chemical extinguishing systems are designed to combat Class B (flammable liquids and gases) and Class C (electrical) fires. Adjacent to the store was a designated storage arrangement for chemicals and flammable liquids. (Klasa 3 opasnih tereta)

flammable solids (n) (cargo) zapaljive krute tvar (klasa 4 opasnih tereta)

flange (n) deep flange deblja prirubnica, liner flange prirubnica košuljice: The cylinder liners are short single-piece units with intensive cooling of the upper part achieved by bore cooling of the liner flange. (marine eng) prirubnica, flanda: They had difficulty in removing bolts from a flange and so decided to cut them off, using gas cutting equipment.

blank flange slijepa prirubnica: Take off the assembly and replace it with a blind flange, bolt the flange spojiti prirubnicu vijcinama, flange connection prirubnički spoj: Although the vessel had been in operation for less than six months since the last dry-docking, it was evident that excessive vibrations caused some flange connections to become loose: 3., pipeline flange prirubnica cjevovoda: It was soon established that the leak originated from a failed joint at a pipeline flange on
a fuel pump oil return line.
http://marineengineersblogs.blogspot.hr/2013/06/types-of-coupling_17.html

**flank** (n) (marine eng) SEE crest: bok zuba (na zupčaniku)

**flank** (n) (navig) The maximum speed of a ship - faster than "full speed". (https://www.msc.com/shipping-glossary) najveća brzina broda

**flap** (v) (sailing/boating/yachting) treperiti (o jedru), lepršati, tresti se

**flare** /flər/ (n) (safety) A pyrotechnic signalling device; usually used to indicate distress. baklja: At 0500 another flare was sighted approximately 2nm ahead of own vessel and the Coastguard was advised. parachute flare baklja s padobranom, white flare bijela baklja, hand-held flare ručna baklja, mini-flare mini-baklja, orange smoke flare baklja narančastog dima, red flare crvena baklja: During the twilight hours of the morning a red flare was sighted on a northerly bearing, approximately two minutes later, a second flare was sighted., buoyant flare plutajuća dimna baklja, fire the flare ispaliti baklju, zapaliti baklju: The crew members of the vessel had abandoned the ship and fired flares for help from a lifeboat, alerting other vessels., distress flare baklja za slučaj pogiblji: The skipper contacted the coastguard by mobile telephone and a deckhand ignited a distress flare., flare sightings opažanje baklji (za slučaj pogiblji i drugih opasnosti), red flare crvena baklja: Red

**flares** are recognized internationally as a distress signal. https://www.skipperhints.com/public/1103.cfm

**flare** /flər/ (n) (nav arch) the spreading out from a central vertical plane of the body of a ship with increasing rapidity as the section rises from the water line to the rail; A curvature of the topsides outward towards the gunwale. (https://www.msc.com/shipping-glossary) kosina pramca: The port side of the ship’s bow flare was badly damaged. MAIB accident report

**flash light**

---

**flare** /http://racetrackdriving.com/tech/brake-line-flares-metric-sae-inverted-bubble// (=flaring) (n)

---

**prošireni otvor cijevi**

https://www.balkanplumbing.com/learn-how-to-flare-copper-water-tubing-tips/

**flash** (n) thin flash of tanak sloj / obloga 1 (navig) a relatively brief appearance of a light bljeskajuće svjetlo, svjetlo; 2 (marine eng) sloj obloge, sloj zaštitnog materijala: The tin flash also functions as an effective dry lubricant when new bearings are installed and the engine is barred over.

**flash** (v) (comm, safety) bljeskati, signalizirati bljeskajućim svjetlom: The 3rd Officer used the Aldis Lamp to flash him and the Pilot attempted to call him on VHF. After Dover Coastguard were informed, they requested that we continued to call on VHF and flash the bulk carrier.

**flashback** (n) (safety) povratni plamen

**flashing light** (n) (navig) a light in which the total duration of light in each period is clearly shorter than the total duration of darkness and in which the flashes of light are all of equal duration bljeskajuće svjetlo: A deckhand released a second flare when they spotted the blue flashing lights of emergency service vehicles on the shore, and a third flare on hearing the approach of the local lifeboat. Suddenly he sighted a flashing light twice within a short space of time on the port bow and very close to the ship. In many regions, local regulations require vessels carrying dangerous cargoes to exhibit a flashing red light. Fl single flashing na bljeskove, long flashing dugi bljeskovi, group flashing bljeskovi 3 u grupi, Fl (2+1) composite group flashing bljeskovi 2+1 u grupi, continuous quick flashing kratki bljeskovi, Q(3) group quick kratki bljeskovi u grupi, IQ interrupted quick kratki bljeskovi na prekide, VQ continuous very quick flashing light ultrakratki bljeskovi, flashing light signalling signalizacija bljeskajućim svjetlom

**flash light** (n) (safety) ručna svjetiljka: During this turn, there was a short flashing with an
orange **flashlight** from the other vessel, but nothing else.

**flashpoint** *(n)* *(marine eng)* The temperature at which a fuel will give off a vapor that will burn momentarily when exposed to a flame or spark. *(http://www.marinedieseurope.com/)* **plamište:**

Use only clean oil with a **flash point** above 250 °C. The fuel can be dangerous to handle and store; this is especially so if the **pour point** is high, making it necessary to heat the HFO close to its **flash point**.

**flat** *(n)* *(cargo handling)* **vagonska platforma (vagon bez stranica), flat**

**flat** *(adj)* **ravan, plosnat:** The engine must also be bolted to a **flat surface**.

**flat bottom** *(n)* *(nav arch, marine eng)* **ravno / plosnato dno**

**flat car** *(=flatcar)* *(n)* *(cargo handling)* a rail car without a roof and walls **plato-vagon**, **plato-vagon**, **vagonska platforma, vagon bez stranica**

**flat container** *(n)* *(cargo)* = **flat rack** **ravni kontejner, kontejnerska platforma, flat kontejner**

**flathead grey mullet** *(n)* *(fishing)* **cipal od porta**

**flathead mullet** *(n)* *(fishing)* Lat. **Mugil cephalus** **cipal blataš**

**skakavac, javra**

**flat keel** *(=keel plank; center plank)* *(n)* *(sailing vessels, nav arch)* **plosna kobilica**

**flat of bottom forward** *(prep phr)* *(nav arch)* **na ravnom prednjem dijelu dna:** Most frequent damage to hull plating seems to occur on the **flat of bottom forward**. Čini se da se oštećenje oplate
flat oyster

flat oyster (n) (fishing) kamenica, oštriga

flat rack (=flat rack container) (n) (cargo handling) a container with no sides and frame members at the front and rear.; container can be loaded from the sides and top

flat kontejner: The unit affected was an empty flat rack with a wooden floor. Flat racks and open-top containers are used for the transport of Out of Gauge cargo (OOG).

https://www.msc.com/shipping-glossary

flat rate (n) (shipping econ, mar law) Flat rate reflects the costs in USD of transporting a tonne of cargo for a standard vessel on a route-specific round voyage. The standard vessel is of 75.000 dwt, traveling at 14.5 knots with a consumption of 55 tonnes of 380cst fuel oil. referentna vozarina: The reference rate, also known as the flat rate, is reported as Worldscale 100 (WS100),

flaw /fləʊ/ (n) 1 neispravnost; 2 grješka, greška: This design flaw seems to have existed from the time of construction of the ship and apparently had not been rectified; 3 (mar law) pogreška u proceduri; 4 (nav arch) pukotina, napuknuće

flawless /ˈflɔːləs/ (adj) bez greške, bez smetnji

flax oil (n) (cargo, marine eng) laneno ulje

fleed /flɪt/ (n) (shipping econ) brodovlje: The incident was reviewed by the management office, and shared with all vessels in the fleet; owner's fleet brodovlje nekog brodovlasnika: This incident report will be circulated to the owner's fleet and to the industry to increase safety awareness; In future, the vessel is to verify the condition of the entire cargo-hose string with the terminal The information was promulgated to class, the shipyard and throughout the owner's fleet and offices. A campaign on mooring safety has been carried out in the company fleet., fishing fleet ribarska flota: The Scots fishing fleet is the third biggest in the European Union., company fleet brodarova flota, flota brodara: A campaign on mooring safety has been carried out in the company fleet., manage the fleet upravljeni flotom

fleed² (n) (shipping econ, mar law) An organization of ships, aircrafts, marine forces, and shore based fleet activities, all under one commander, for the purpose of conducting major operations.

mornarica merchant fleet trgovačka mornarica

fleed (n) (navy) mornarička flota, flota

Flemish eye splice (n) (sailing/boating/yachting) omča s metalnom upletkom
Flemish flake  *(seamanship)*  COMPARE flake: spiralno namotan konop, spiralno namatanje užeta
Flemish horses  *(sailing vessels)*  uže nogostupa na križu

flexibility /ˌfleksiˈbiliti/  *(marine eng)*  savitljivost, opružnost, elastičnost, prilagodljivost: The propulsion plant must therefore allow flexibility in operation over a range of power levels while maintaining operating efficiency with respect to fuel and lube oil consumptions. Operational flexibility and power output are fostered by the single-stage sequential turbocharging system which is based on two turbochargers. Load flexibility of the engine, prilagodljivost stroja svim opterećenjima.

flexible /ˈfleksɪbəl/  *(adj)*  savitljiv, elastičan, fleksibilan: The false metal tank top was extremely flexible and water could be heard moving when this was walked on. Flexible pipe.

elastična cijev: As the fire spread, it is possible that flexible pipes in the engine room failed, thus allowing more water into the vessel. Flexible hose, elastična cijev (gumena, platnena, sintetička): The chief engineer decided to recharge the system, using a flexible hose linking a full Freon cylinder and the recharging valve located on the compressor. During this operation, a flexible hose on the crane came adrift from its coupling and hydraulic oil under high pressure sprayed out, some of it entering the bosun's eyes. Flexible tubing, elastične cijevi, fleksibilne cijevi.

flight deck  *(navy)*  deck of ship on which planes land and takeoff, poletno-slijetna paluba.

flip  *(v)*  *(safety)*  prevrnuti se (o brodici): The fishing boat flipped while attempting to hoist a fully-laden net and its catch over the side. https://safety4sea.com/

float  *(n)*  *(nav arch)*  plutajući objekt: Having passed abeam of the light float, the other vessel altered course to port.

float  *(v)*  *(plutati): A liferaft's ability to float free is pivotal to its usefulness in an emergency. The rope, being stiff and heavy did not float, the excess slack went straight down into the ship's propeller. The draft calculations made by the master were on the basis that the vessel was floating in sea water, however, the specific gravity at the time was in fact 1015.

float  *(n)*  *(=refloat)*  *(v)*  *(safety)* = refloat odsukati (brod)

float  *(n)*  *(marine eng)*  plovak: The power for the pump and float switch was derived from the battery side of the battery isolating switch.
float\(^{(n)}\) (fishing) A term also for bobber, used as a strike indicator for live bait fishing. plovak (za udicu)

floating\(^{(n)}\) plutanje

floating koji pluta, plutajući floating container plutajući kontejner, kontejner koji pluta: Ships have been alerted to the danger of floating containers near the scene of the disaster, although no pollution or hazardous cargo have been reported.

floating anchor \(^{(n)}\) (sailing/boating/yachting) plutajuće zavlačno sidro

floating boom \(^{(n)}\) (safety) plutajuća brana, barijera (za sprječavanje širenja onečišćenja mora) (plutajuća)

floating breakwater \(^{(n)}\) (ports, nav arch) plutajući ponton – valobran

floating craft plutajuće plovilo, plutajući objekt

floating crane A crane mounted on a barge or pontoon, which can be towed or is self-propelled, used usually for lifting or handling heavy cargoes: plutajuća dizalica, plovna dizalica,

http://maritime-connector.com/ship/matador-3-9272137/

floating dock \(^{(=floating drydock)}\) \(^{(n)}\) (nav arch) A U-shaped dock with double skins which is filled by opening up the sillcocks, and allowed to settle so the middle section will be lower than the keel of the ship so that repairs can be made on her hull.

https://officerofthewatch.com/tools/maritime-dictionary/ plutajući dok, plovni dok,

Italian: bacino galleggiante

floating ice \(^{(n)}\) (oceanogr) plutajući led: The draft calculations made by the master were on the basis that the vessel was floating in sea water, however, the specific gravity at the time was in fact 1015.

floating liquefied natural gas facility \(^{(=FLNG facility)}\) \(^{(n)}\) (nav arch) plutajući LNG objekt: In 2018, Shell's huge floating liquefied natural gas (FLNG) Prelude, the world's largest vessel, will begin its job of extracting and processing gas at sea, reported CNBC. The 488-meter-long and 74-meter-wide floating facility left the shipyard Maritime Logistics Professional <update@maritimeprofessional.com> The Prelude facility weather vanes 360 degrees around a turret, moored in 248 meters of water. Three stern thrusters enable FLNG Prelude to maintain an optimum heading that will facilitate offtake operations within the design limits of the facility and associated cargo transfer equipment. The facility is moored to the sea bed via 16 anchor piles and chains whilst being
Floating Storage Regasification Unit (FSRU)

directly connected to wells that access the gas reservoir via flexible risers routed through the turret.

https://www.marinelink.com/news/largest-worlds-vessel432418

floating mark (n) (navig) plutajuća oznaka
floating marker light (=FML) (n) (safety) plutajuća svjetleća oznaka
floating object (n) (nav arch) plutajući objekt: The echo was weak and occasionally disappeared, giving the impression that it was interference or a floating object drifting in the sea.

floating policy (n) (mar law) otpisna polica
floating production, storage and offloading vessel (=FPSO) (n) (nav arch)
Floating Production Storage and Offloading vessels, or FPSOs, are offshore production facilities that house both processing equipment and storage for produced hydrocarbons

https://www.rigzone.com/training/insight.asp?insight_id=299

floating production storage and offloading (ship) (=FSRO) (n) (nav arch)

plutajući objekt za proizvodnju i skladištenje tekućih tereti
floating smoke signal (n) (navig) plutajući dimni signal

Floating Storage Regasification Unit (=FSRU) (n) 1 (nav arch) COMPARE

LNG terminal FSRU vessels can be classified either as ships or offshore installations depending upon the design they incorporate. They (FSRUs) can appear as: (a) newly built floating units for regasification
floating storage unit  float plan

of LNG; (b) constructed as a separate unit aboard the LNG carrier itself, or (c) an old gas carrier can be converted into an independent unit and placed in a particular destination as an offshore installation (cf. https://www.marineinsight.com/types-of-ships/what-is-floating-storage-regasification-unit-fsru/)

plutajuća jedinica za uplinjavanje ukapljenog prirodnog plina, plutajući terminal za uplinjavanje ukapljenog prirodnog plina, plutajuća jedinica (objekt) za regasifikaciju ukapljenog prirodnog plina, FRSJ: A Floating Storage Regasification Unit (FSRU) is a vital component required while transiting and transferring Liquefied Natural Gas (LNG) through the oceanic channels. Therefore, FSRU can be termed as a special type of ship used for LNG transfer. https://www.linkedin.com/pulse/fsrufloating-storage-regasification-unit-john-kingsley

https://norgascarriers.com/our-services/fsru-services/; 2 (nav arch) ... a vital component required while transiting and transferring Liquefied Natural Gas (LNG) through the oceanic channels. FSRU can be termed as a special type of ship used for LNG transfer. https://www.marineinsight.com/types-of-ships/what-is-floating-storage-regasification-unit-fsru/ brod za uplinjavanje ukapljenog prirodnog plina, brod za regasifikaciju ukapljenog prirodnog plina (A difference should be made between a LNG Terminal and SFRU (Floating Storage Regasification Unit: an LNG terminal is a port facility for discharge and redistribution of LNG, whereas a FRSU (Floating Storage Regasification Unit) is a ship specifically designed for (or a converted LNG ship) for storage and regasification of LNG)

floating storage unit (=FSU) (n) (nav arch) plutajući objekt za skladištenje tekućih tereta

float low in the water (v) (navig) biti duboko uronjen u vodi
float off (v) (seamanship, safety) odsukati se: With the engine still going astern, she floated off on her own. Sa strojem koji je još uvijek vozio nazad brod se sam odsukao.

float out (v) (navig) zaplutati (iz doka): ... the world’s biggest cruise ship, was floated out of dry dock

float out (n) (nav arch, navig) isplovljenje iz doka: The float out was conducted June 18 and 19 under perfect conditions

float out the ship (v) predati brod moru, spustiti brod u more: Viking’s first cruise ship built for the expedition cruise segment was floated out at Fincantieri’s Vard shipyard in Søviknes, https://maritime-executive.com/article/vard-floats-out-viking-s-first-expedition-cruise-ship

float plan (prep phr, n) (sailing/boating/yachting) plan boravka na moru radi razonodne, jednodnevnog ili višednevnog poslati obavijest o planu jedrenja / krstarenja: ... always remember to give someone an idea of where you’re going and how long you plan to be out. Should the trip be longer, file a float plan with a friend or leave one at your local marina. Information should include a description of your boat, passengers on board, safety equipment available, where you’re heading, and how long you expect to be gone https://www.discoverboating.com/resources/onboard-first-aid-guide file a float plan

predati plan krstarenja
floe (n) (oceanogr) plutajući led big floe veća plutajuća ledena masa
flog /flɔ/ (n) (sailing/boating/yachting) lamatanje jedra
flood (n) (oceanogr) the period when a tidal current is flowing landward; a rising tide; incoming tidal current filling a bay or other body of water plima, visoka voda, Italian: flusso flood
tide plima, plimna struja, p'limni val: The vessel had been in that position for several minutes when the flood tide caught the stern and pushed her to one side of the narrow channel.

flood stream plimna struja: Slack water was at 0926 and so the passage was made with a 2 - 4 knot flood stream, which in some sections of the narrow channel was directly abeam.
flood (v) (oceanogr) rasti (o moru, morskim mijenama): The wind was force 2 from the north north east and the tide was flooding at 3 knots from the north.
flood (n) (safety, seamanship) naplavina (u kaljuži, tanku): The master went into the engine room and saw flood water rising in the bilges. flood water naplavna voda, flood level
razina naplavljivanja, razina naplavne vode: After divers had partially plugged the puncture and a high capacity shore pump had been rigged, the flood level in the pump room was reduced to below floor plate level, enabling a cement box to be constructed to prevent further flooding.

flood /flɔd/ (v) (seamanship) to fill a space with water naplaviti, poplaviti: The accommodation space started to flood, but instead of investigating the source of the flooding further, the skipper instructed the crew to retrieve the nets. The bow thruster space was found to be flooded. Breaching of the hull caused water to flood a compartment below the main deck. https://gCaptain.com CO2 flooded into the engine room. https://safety4sea.com/
flooded (adj) naplavljen (skladište, strojarnica; radi gašenja požara)
flooding 1 (n) (safety) Flooding is the result of water ingress onboard and can affect the watertight integrity and finally the stability of the vessel (https://safety4sea.com/); ship flooding may result from damage in vessel's hull due to collision or grounding, heavy weather such, leakages at the ballast tanks etc. naplava, naplavljivanje (skladišta itd.), prodor vode: The exact cause of the flooding is unknown. The accommodation space started to flood, but instead of investigating the source of the flooding further, the skipper instructed the crew to retrieve the nets. Last passage and conducting ballast exchange operations when a large gate valve in the engine room on the ballast/bilge system failed, causing severe flooding. Establish extent of flooding and approximate rate of water ingress. Utvrdite obim naplavljivanja i približnu brzinu prodora vode.
flooding of ship's spaces (n) (safety) naplavljivanje brodskih prostora: Some flooding of forward spaces was caused by wave damage to ventilation pipes when the vessel was hove to, but she reached port without further problems.
flooding tide (n) (oceanogr) plimna struja, plima: running astern with main engine and bow thruster, the wind and the flooding tide were slightly on the vessel’s port side.
flood light (n) (nav arch) reflektor: The main deck, including the pilot ladder, was well illuminated by the deck flood lights and the bridge wing lights. The main deck, including the pilot ladder, was well illuminated by the deck flood lights and the bridge wing lights. Although it was dark, the deck was well lit by the ship's own floodlights and the floodlights on the wharf. https://www.marineinsight.com/
flood stage (n) (oceanogr, inland waterways) faza visoke vode (rijeke), faza plime, period plime: The accident happened while the river was at major flood stage.
Soon after the onset of the **flood tide**, the tension on the forward ropes increased and the bow was set slowly off the wharf. Although there was a **flood tide** and the westerly wind was blowing at 15 knots, a tug was not considered necessary.

**floor** /flɔːr/ (n) (nav arch) *poprjčni nosivi element dna broda koji se proteže od uzvoja do uzvoja*; Vertical transverse full-breadth plating between inner bottom and bottom shell plating.

The investigation later found that halfway down the ladder to the forecastle tweendeck, oxygen concentrations were in the order of 10% and only 5-6% at **floor level**. The Third Officer heard a cry and a thud on the **floor of the hold**, looking down, he saw the seafarer lying at the bottom of the hold.

**floor** /flɔːr/ (n) (nav arch) *dno brodskog skladišta, pajolada (drvene barke)*: That aluminum **floor plating** in the engine rooms are exchanged with plating of steel. **floor plates podni limovi, limovi dna skladišta**: As the chief engineer went onto the **bottom floor plates** to check the freedom of the propeller shaft he saw there was about 40cm of water in the bilge... **floor plating podni limovi, limovi rebrenice, limovi dna skladišta**

**floorboard** (sailing/boating/yachting) *podnica, pajol*

**floor ceiling** (n) (sailing vessels) *planking with which the bottom or tank top of a vessel's hold is covered nutarnja oplata dna, pajol, Italian:pagliolo; paliolato*

**floor grating** (n) (nav arch, marine eng) *podne rešetke, gradele, gradelaj*: Air is delivered into the bottom opening and rises through a **floor grating** over the cargo and returns via another section of the plenum to the top port.

**flooring** (n) (nav arch) *podne daske (užljebljene), pajoli*: A few days into the voyage, with the ship pitching heavily in gale force winds and high seas, two crewmen were repairing the cabin **flooring** in a crew cabin.

**floor plate** (n) (nav arch) *podni lim, podna ploča*: Safely carry out necessary modifications to any similar deficiencies and/or deformed **floor plate(s)**.

**floor timber** (n) (sailing vessels) *rebenica, pjana, lukoča, kalata* (More on Croatian sailing ship terminology see: https://hrcak.srce.hr/188453)

**flotilla** /ˈflɒtɪlə/ (n) (navy) *flotila HRM flotilla Flotilja HRM Flotilla Command Zapovjedništvo Flotile, Surface Action Division Divizijun za površinsko...*
**Flotilla Command**

**Flotilla Command** in Croatian is **Flotilina zapovjedništvo**. It is the **command and control** of the naval forces.

**Support Division** in Croatian is **Djelovanje, Support Division**.

**Mine Division** in Croatian is **Protuminski divizijun**.

**Resident Ship Detachment** in Croatian is **Resident Ship Detachment**.

**Marine Corps Company** in Croatian is **Marine Corps Company**.

**Infantry** in Croatian is **Satnija mornaričko desantnog - pješaštva**.

**Flotsam, Jetsam, Ligan (Lagan), Wreck**

Flotsam refers to things found floating after a ship has perished. Jetsam refers to things thrown overboard to lighten a ship. Ligan (Lagan) refers to things thrown overboard with a buoy to mark where they are. Wreck refers to an abandoned vessel or part of a vessel which is still afloat, stranded or aground.

**Flounder** /ˈflaʊndər/ (fishing) Lat. Platichthys flesus

**Flour** /ˈflɔːr/ (cargo) brašno

**Flow** /fləʊr/ (v) teći, kolati, strujati, izlijevati se: When the system is working properly, the water should flow across the tanktop.

flow through propušati, protjecati: The blower impeller, as it rotates, accelerates the air flow through the impeller, and the air leaves the blower with a velocity that is convertible into a pressure at the diffuser.

flow by gravity protjecanje

istjecanje slobodnim padom / samotokom (flow - flew - flown)

**Flow** /fləʊ/ (marine eng) protjecanje, protok, tijek, tok, strujanje: There are thermostatic valves to regulate the flow of either the sea or the fresh water.

heat flow (marine eng)

**Strujanje topline**: This is particularly important because the exhaust seat insert incorporates a water-cooled cavity to maximize heat flow from the valves.

flow meter mjerač protoka: A flow meter is fitted into the system to indicate fuel consumption.

air flow protok zraka, strujanje zraka: The blower impeller, as it rotates, accelerates the air flow through the impeller, and the air leaves the blower with a velocity that is convertible into a pressure at the diffuser.

**Gas Flow Protok Plina**: The new bearing arrangement facilitates the use of axial and radial exhaust gas flow into the turbocharger, extending the options for the enginebuilder.

**Flow Rate Brzina protoka**: The...
so-called fuel-stop valve interrupts the fuel supply to the relevant injector in cases of excessive fuel flow rates.

flow\textsuperscript{3} (n) (navig) kretanje (prometa) traffic flow (navig) kretanje prometa brodova: The other vessel crossed the south bound traffic lane on a course of 0750T and not at right angles to the traffic flow.

flow\textsuperscript{4} (n) (ports, shipping econ) promet tereta (u luci) flow control valve ventil za regulaciju protoka flowmeter /ˈflouˌmiːtə/ (n) (marine eng, cargo handling) An instrument used to measure the flow rate of a fluid in motion. (http://www.marinedieseleurope.com/) mjerač protoka (tekućine, tekućeg tereta)
flow of radar signal (n) (electr, navig) tok radarskog signala u predaji i prijamu

FLT (=fork lift truck) viličar: At all times around 250 new and refurbished used forklift trucks and port equipment are in stock, available for sale or rent.

fluke /ˈflʌk/ (n) (seamanship, nav arch) lopata sidra, krak sidra, pata: As the anchor was lifted the bosun informed us that one fluke was missing.

flurries (n) (meteorol) light snow falling for short durations lagani kratkotrajni snijeg: Newfoundland: Sea-effect flurries forecast for the island, with western portions seeing heavier amounts in the 10-15 cm range. snow flurries a brief instance of snow with thin, single flaked showers lagane snježne padaline: Snow flurries tend to come from stratiform cloud.

flush (v) (sailing/boating/yachting) isprati: Flush your cooling system

flush deck (n) (nav arch) A deck running from stem without being broken by forecastle or poop.

https://officerofthewatch.com/tools/maritime-dictionary/ paluba bez nadgrađa, ravna paluba (bez prepreka), kontinuirana paluba: Taking hold bilge and tank soundings is very important at sea for the safety of the vessel. However, is it really possible to do this with the flush deck sounding caps when shipping seas over the decks? No, it is not possible.

flush deck vessel (n) (nav arch) Vessel having an upper deck extend continuously from bow to stern. https://officerofthewatch.com/tools/maritime-dictionary/ brod bez nadgrađa

flush face (n) (cargo) ravni rub daske

flush joint (n) (nav arch) spoj sa stičnicom, dodirni spoj

flute /flut/ (n) (marine eng) udubina (ženskog dijela rotora), žljeb (ženskog dijela rotora)

fly /flai/ (v) 1 (navig, seamanship) vijoriti: The vessel, on which I was Chief Officer, was managed and
owned by a reputed Japanese company, *flying a FOC* and manned by multinational Asian crew. The ship *flies the flag* of ... to *fly a flag* vijoriti zastavu: The correspondent does not mention if the warship was *flying a flag hoist*. The vessel *flew the flag* of a European State and, for the purposes of operating and chartering, had managers in that Country.

; 2 (navig, seamanship) izvjesiti (zastavu), istaknuti, dići (fly - flew - flown)

**fly** (v) (safety) letjeti, poletjeti: A search and rescue helicopter *flew out* to the vessel, and a portable pump was lowered.

**fly block** (n) (seamanship, sailing/boating/yachting) SEE dead-eye *bigota*

**flybridge** (n) (sailing/boating/yachting) a high position or deck from which to steer a boat

**flybid**

This liferaft had not yet been stowed in its permanent location on the *flybridge*.

**flying bridge** (n) (nav arch) krilo navigacijskog mosta

**flying jib** (n) (sailing/boating/yachting) protuflok

**flying sail furler** (n) (sailing/boating/yachting) In flying sail furlers, only the head of the sail is attached to the torsion rope, the rest of the sail is independent from the furler, and the tack is connected to a floating ring on the lower drum, allowing it to remain stationary while the drum turns.

**slobodan uređaj za namatanje prečke / genove (neovisno od prednjeg leta):** Flying sails furlers are an excellent upgrade for anybody looking to improve performance (professional skippers or hotshot racers, but also sailors keen on cruising).

https://www.westmarine.com/WestAdvisor/Flying-Sail-Furlers The NEX flying-sail furlers are composed of 2 mechanisms, the spool and swivel, each with terminals allowing for fitting or use.

**slobodan sustav za namatanje prečke / genove (neovisno od prednjeg**
leta): Flying sail furlers are designed to be used with light and heavy flying, asymmetrical sails, at heading angles between a close reach and a broad reach.

flyweight (n) (marine eng) zamašni uteg: It consists of revolving carrier on which are mounted two weights (the flyweight) having cranked levers.

flywheel /ˈflaiˌwiːl/ (n) (marine eng) zamašjak, Italian: volano: There is an integral forged coupling flange for the flywheel, and the camshaft drive gear is split to facilitate replacement. The valve gear is actuated by side-loaded camshafts driven from the flywheel end through nitride-hardened gears.

FMC (=Federal Maritime Commission) (n) (mar law, US) The Federal Maritime Commission (FMC) is an independent federal agency, based in Washington D.C., responsible for the regulation of ocean borne transportation in the foreign commerce of the U.S.A.

Federalna pomorska agencija (US)

FO (=F.O.; fuel oil) (shipping econ, marine eng) brodski: Signs to be placed on both FO and DO service tanks and in vicinity of activation point outside the engine room, warning crew of the risk of blackout if QCVs are shut; gineer and a company superintendent who was on board to carry out an inspection of the vessel, planned to test the operation of QCVs in the fuel oil (FO) and diesel oil (DO) tanks.

F.O. (=free out) (n) 1 (mar law, shipping econ) A term of a charterparty which obliges the charterer to control and pay for discharging the cargo. The term is sometimes also found in contracts of sale of goods, often in combination with one of the Incoterms.http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.html; The cost of unloading a vessel that is borne by the charterer.

Franko iskracaj tereta, cijena prijevoza uključuje i troškove iskrcaja tereta, slobodno iz a (shipping econ, mar ins) troškove iskrcaja snosi primatelj franko iskrcaj

foam /ˈfəʊm/ (n) (safety) pjena (za gašenje požara): We carried out a test on a sample foam extinguisher following servicing, to ensure it is capable of laying an effective foam blanket. air foam mehanička pjena, mechanical foam foam produced by mixing a foam concentrate with water to produce a foam solution: mehanička pjena, foam extinguisher protupožarni aparat na pjenu: He briefly entered the space and rapidly discharged a portable CO2 and a foam extinguisher, foam monitor top za gašenje pjenom, protupožarni top na pjenu: Soon afterwards, an offshore supply vessel arrived on scene and began to fight the fire with a powerful foam monitor.

Foam monitor extinguisher (n) (safety) protupožarni aparat na pjenu foam system (n) (safety) sustav gašenja pjenom: ... it specifies only CO2 and halon systems, with no mention of the high-expansion foam systems which are being installed more frequently
F.O.B. (=free on board) *(mar law, shipping econ)* (jedan od trgovinskih uvjeta INCOTERMS)

cijena uključuje ukrcaj tereta na brod, a term of the contract of sale. INCOTERMS: Free on Board means that the seller delivers when the goods pass the ship’s rail at the named port of shipment. This means that the buyer has to bear all costs and risks of loss of or damage to the goods from that point. The FOB term requires the seller to clear the goods for export. This term can be used only for sea or inland waterway transport. If the parties do not intend to deliver the goods across the ship’s rail, the FCA term [free carrier] should be used.; Prodavatelj je dužan predati robu u ukrcajnoj luci uz bok broda na mjestu ukrcaja u luci koje je označio kupac ili u teglenici (D. Pavić); Free On Board (named loading port): the classic maritime trade term, Free On Board: seller must load the goods on board the ship nominated by the buyer, cost and risk being divided at ship’s rail. The seller must clear the goods for export. Maritime transport only. [http://www.tkmglobal.net/inco.html](http://www.tkmglobal.net/inco.html); Sales term denoting that the seller is responsible for delivering the goods to the port of loading agreed in the contract and for loading them on to the ship nominated by the buyer. The risk of loss or damage to the goods generally passes from the seller to the buyer when the goods pass ship’s rail at the port of loading.

http://www.tkmglobal.net/chartering_F.HTM franko brod, franko ukrcano na brod: For Carriers, FOB is a “business” term used to classify cargo that is commercially controlled by consignees at a location port (FOB) as opposed to cargo that is commercially controlled by shippers at the same location port (CIF).;

https://www.shippingandfreightresource.com/incoterms-and-the-shipping-line/# Customers understand and refer to FOB as an Incoterms rule where FOB = Free On Board, because in reality, for them this is what it is. https://www.shippingandfreightresource.com/incoterms-and-the-shipping-line/# F.O.B. *(named port of shipment)* franko brod (s naznakom luke ukrcaja), F.O.B. Freight Allowed the same as FOB named inland carrier, except the buyer pays the transportation charge and the seller reduces the invoice by a like amount franko brod (kupac plaća transport do luke), F.O.B. (Freight Prepaid) Freight Prepaid: The same as FOB named inland carrier, except the seller pays the freight charges of the inland carrier (Glossary_of_Shipping_Terms.pdf) franko brod (prodavac/izvoznik prijevoz do luke), F.O.B. (named port of exportation); *(US)* F.O.B - seller is responsible for the cost of placing the goods at a named point of exportation (Glossary_of_Shipping_Terms.pdf) franko brod (prodavac plaća prijevoz do imenovane luke), F.O.B. vessel Seller is responsible for goods and preparation of export documentation until actually placed aboard the vessel (Glossary_of_Shipping_Terms.pdf) franko brod (prodavac je dužan pripremiti izvozne dokumente)

FOBAS (=Fuel Oil Bunkering Analysis and Advisory Service (FOBAS)) *(n)* *(marine eng)* Služba za analizu brodskih goriva: FOBAS has tested several samples from the ARA region which had tested Total Sediment Potential (TSP) results exceeding the ISO 8217 specification limit of 0.10% m/m. www.safety4sea.com

fo’c’sle /ˈfoʊksəl/ (=forecastle) *(seamanship)* prednji kaštel fo’c’sle head prednji kraj kaštela: One of them had come aboard with the night stevedores un-noticed and sneaked inside the fo’c’sle head when a crew member was inside sorting out light clusters. It was estimated by those at harbour stations on the fo’c’sle head that the tug passed no more than 10 - 15 meters ahead. {fo’c’sle or fo’c’sle; fo’c’sle};

fog *(n)* *(meteorol)* visibility to less than one kilometer magla: Also, the navigation lights were switched on, a fog lookout was positioned on the forecastle, engines were ready for immediate manoeuvre and speed was moderated to 8 knots. yards. It was dark and visibility was reduced by fog; both factors
requiring the presence of an additional lookout on the bridge. **radiation fog** A common type of fog, produced over a land area when radiational cooling reduces the air temperature to or below its dewpoint. **radijacijska magla**, **advection fog** fog that is produced when damp air is moved across a surface that is cooler than the air. It is most commonly seen over seas or other bodies of water. When the temperature of the air is lowered to its dew point, changes start to happen. First, saturation occurs. Then, fog **advekcijska magla**, **frontal fog** Fog associated with frontal zones and frontal passages **frontalna magla**, fog **forming stvaranje magle**, **formiranje magle**, fog **increase jačanje fronte**, **coastal fog** obalna magla, dense fog **gusta magla**: In the dense fog, one of the tugs managed to identify the vessel and transfer a crew member across onto her deck. The collision occurred in darkness, dense fog and in an area of heavy shipping traffic. MAIB, patchy fog mjestimična magla; 2 magla - vidljivost manja od 1000 metara

**fog bank** *(meteorol)* gusti sloj magle, gusta magla: When crossing the Traffic Separation Scheme a fog bank developed, giving visibility of 10 to 20 yards.

**fog-bound** *(navig)* Said of a vessel when forced to heave to or lie at anchor due to fog.

https://officerofthewatch.com/tools/maritime-dictionary/ u magli, zahvaćen maglom: Collision with dredger A coastal tanker completed discharge in the forenoon and was being piloted out in a fog-bound harbour channel.

**fog detector** *(navig)* instrument za otkrivanje i upućivanje alarma za maglu; An electronic device used to automatically determine conditions of visibility which warrant the activation of a sound signal or additional light signals detektor magle

**fog dissipation** *(meteorol)* rasplinjanje magle

**fog gong** *gong za maglu*

**fog horn** *(sailing/boating/yachting)* a sound signal device used in case of fog rog za maglu: ..., and started taking evasive action by switching the steering from autopilot to manual, going hard to port and sounding the fog horn.

**fog patches** *(meteorol)* male odvojene naslage magle: The weather forecast was for Force 6 and good visibility apart from isolated fog patches.

**fog signal** *(seamanship)* zvučni znak sa svjetionika i/ili brodova koji upozorava na maglu upozorenje za maglu, signal za maglu: The vessel was making way at near nine knots in order to match the speed of the pilot boat and was sounding the prescribed fog signal. The Master started the fog signal. https://safety4sea.com/

**fog signalling appliances** *(navig)* uređaji za signaliziranje magle

**fog siren** *(nav arch)* zviždaljka za maglu; 2 (safety) sirena za maglu

**foil** /ˈfɔɪl/ *(=hydrofol)* *(sailing/boating/yachting)* Hull appendage primarily used to produce lift and/or affect leeway or stability or elevation or righting moment (https://www.imoca.org/mediacenter/uploads/imoca-class-rule-2021-v-2-31.pdf); Dodatak (privjesak) trupu koji prvenstveno služi za podizanje jedrilice i/ili sprječavanje zanošenja ili moment statičke stabilnosti jedrilice.; Foils perform a dual role: their vertical surface creates lateral resistance to prevent leeway, while their horizontal surface provides upward lift beneath the hull, reducing wetted surface area and lift to leeward thereby increasing righting moment and stability. (https://www.guillaumeverdier.com/) hidrokrilna kobilica (jedrilice), foil (jedrilice), hidrokrilo (jedrilice): It is said that Thomson’s foils begin to generate lift at a lower speed and are
efficient to a deeper angle downwind than the others. https://www.yachtingworld.com/ retractable foil

Uvčačiva hidrokrilna kobilica (jedrilice), hidrokrilo na uvlačenje/izvlačenje: A foil shall be retractable and shall use only one degree of freedom for this movement. foil in / out foil u moru / izvan mora, hidrokrilo u moru / izvan

foil /ˈfɔɪl/ (v) (sailing/boating/yachting) jedriti jedrilicom s hidrokrilnom kobilicom:

“And we are not fully foiling, we are semi-foiling, so the foil picks the boat up and it loses all the drag of the hull and up it goes and at some point you’ll go down a wave and you can’t get out of that wave, ... https://www.guillaumeverdier.com/

foil /ˈfɔɪl/ (n) (sailing/boating/yachting) profil, šina rolfloka, cijev rolfloka
foil adjustment system (n) (sailing/boating/yachting) uređaj za namještanje hidrokrila (hidrokrilne jedrilice)
foil-borne sailboat (n) (sailing/boating/yachting) SEE foiling sailboat jedrilica s hidrokrilima
foiler (=foiling sailboat) (n) (sailing/boating/yachting) = foiling sailboat hidrokrilna jedrilica, jedrilica s hidrokrilima, foil jedrilica
foiling (n) (sailing/boating/yachting) jedrenje s hidrokrilnom kobilicom (There are three concepts of foiling at work: (1) one that designers VPLP call the ‘Dali’ foil because of its ostensible similarity to the artist’s moustache; (2) Alex Thompson’s DSS-style foil on Hugo Boss; and (3) another type designed by Nick Holroyd of Team New Zealand used on Jérémie Beyou’s Maitre Coq. (https://www.yachtingworld.com/features/why-do-the-new-vendee-globe-imoca-60-yachts-have-foils-100185))
foiling catamaran (n) (sailing/boating/yachting) hidrokrilni katamaran
foiling sailboat (=foiler) (n) (sailing/boating/yachting) jedrilica s hidrokrilnom

https://www.yachtingworld.com/

foil rake (n) (sailing/boating/yachting) kosina hidrokrila / foila jedrilice (prema naprijed / natrag): Foil rake = +/- 5 degrees
foils (n) (sailing/boating/yachting) sve vrste kobilica
foldable container (n) (cargo, cargo handling, logist) = collapsible container
sklopivi kontejner, rasklopivi kontejner
folding propeller (n) (sailing/boating/yachting) COMPARE fixed propeller
COMPARE feathering propeller A type of propeller with blades that fold inward in order to reduce drag on a sailboat. (http://www.apsltd.com/aps-advisor/sailing-terms-glossary/). Folding propellers however, cannot change pitch and are therefore not reversible. sklopivi propeler (neprekretni), sklopivi propeler (s nepromjenjivim korakom lopatica): ...

I went with a Gori folding prop for my Bavaria Vision 42 (Volvo 40 hp saildrive) and have been very happy with it. It has the lowest drag of any prop when folded, excellent reverse thrust, little to no prop walk, and
an "overdrive" feature that can keep the reverse prop pitch while moving forward, for use when motorsailing or in flat water, resulting in increased fuel efficiency. A folding or feathering prop will need more maintenance than a fixed prop. A folding propeller will produce the least drag under sail.

http://myboatsgear.com/

**follower** *(n) (marine eng)* vodilica podizača ventila, podizač: Rollers are arranged at the lower end of the push rod and are fitted to run on the cam surface with the purpose of reducing friction. The fuel pump cam follower is moving up the rise of the cam on the delivery stroke. In the simple arrangement the lower end of the push rod carries a head or a "follower" which rides on the cam.

hinged cam follower zglobni podizač brižega, podizač u obliku šarnira: In many engines side thrust on the push rod is prevented by using a hinged cam follower ...

**folding prop** folding or feathering prop will need more maintenance than a fixed prop. A folding propeller will produce the least drag under sail.

**following sea** *(n) (oceanogr, navig)* wave or tidal movement going in the same direction as a ship; A sea with waves approaching from the stern of the boat. https://www.ypiyachts.com valovi u krmu, krmeni valovi: The vessel was proceeding in following seas at a speed slightly slower than that of the following wave train.

**following wind** *(n) (navig)* vjetar koji puše u krmu, 10° lijevo i 10° desno od uzdužne osi broda vjetar u krmu, uzdužni vjetar: As the vessel approached the berth, the pilot became aware that the following wind and tide were having a greater effect on its speed than he had expected, ...

**FONASBA** (=Federation of National Associations of Ship Brokers and Agents) *(n) (mar law)* Međunarodna udruga nacionalnih udruženja pomorskih agencija

**food store** *(n) (nav arch)* spremište hrane

**foodstuff** /ˈfuːdstʌf/ *(cargo)* hran (kao vrst tereta), prehrambeni artikli: Always unpack cartons containing canned beverages and foodstuffs, ...

**foot** *(n) (marine eng)* stopy (jed. mjere), noža: Recently, a freight ship was underway in 15 foot seas when the forepeak flood alarms activated.

**foot** *(n) (marine eng)* donji kraj / dio: The foot of the piston rod is bolted to the crosshead pin.

**connecting rod** foot peta ojnice

**foot** *(n) (sailing/boating/yachting)* The lowest (bottom) edge of a sail. donji porub jedra

**foot** *(n) (sailing/boating/yachting)* peta jarbola

**footing** *(n) (sailing/boating/yachting)* povećavanje brzine laganim otpadanjem

**footing** *(n) (safety)* tlo (pod nogama): Crew member positioning the gangway lost his footing and fell approximately 3-4 metres to the main deck.

**foot of pier** *(n) (ports)* dno gata (prema obali)

**foot of sail** *(n) (sailing/boating/yachting)* the bottom of a sail. osnovica jedra, baza jedra, donji rub jedra, donji porub jedra

**foot of the sail** *(n) (sailing/boating/yachting)* baza jedra

**footpump** *(n) (electr, sailing/boating/yachting)* nožna pumpa
force majeure (n) (mar law) A common clause in contracts, exempting the parties for non-fulfillment of their obligations as a result of conditions beyond their control, such as earthquakes, floods or war; Circumstance which is beyond the control of one of the parties to a contract and which may, according to the terms and conditions, relieve that party of liability for failing to execute the contract. 

declarar force majeure

Forbes log (n) (navig) Forbesov dnevnik: A Forbes log consists of a small rotator in a tube projecting below the bottom of the vessel, and suitable registering devices.

force /fɔːs/ (n) 1 (phys, marine eng) sila centrifugal force centrifugalna sila: When the flyweights are rotated the centrifugal force throws the weights outwards. inertia force inercijska sila, sila inercije, sile tromosti: The first-order inertia force from the lower piston is balanced against the corresponding force from the upper pistons, and a well-balanced engine is obtained. 

stretching force vlačna sila, torsional force torzijske sile, sila torzije, to exert force vršiti pritisk, pritiskati, exercise force primjenjivati silu, amount of force veličina sile, internal force unutarnja sila, tensile force vlačna sila, resist a force oduprijeti se sili; 2 (meteorol) jačina (vjetra): The weather was fine but overcast, and it was very dark, there was a force 3-4 wind and it was low water. ... southerly wind speeds were peaking between midnight and 0300 at force 7 with gустs of force 9.; 3 (mar law) snaga, punovažnost come into force doći na snagu, postati punovažan: The IMO 2020 regulation came into force on 1 January worldwide mandating that vessels use fuel with less than 0.5% sulphur content. https://www.seatrade-maritime.com/regulation/, enter into force stupiti na snagu, remain in force biti na snazi: This Agreement shall remain in force as specified in clause 1.01 of this Agreement. FONASBA

force /fɔːs/ (v) force against pritiskati, stlačiti, natjerati, force out izbaciti, istjerati, istisnuti: In this way any water which may have collected in the cylinders will be forced out. 1 stlačiti; 2 ubaciti pod pritiskom; 3 prisiljavati, siliti: The worried harbour authorities forced the barge to cast off from the berth, leaving it to drift in the harbour with no assistance.

forced /fɔːst/ (adj) 1 (marine eng) prisilan forced circulation prisilna cirkulacija, prisilno kruženje, forced draught fan ventilator za tlačnu cirkulaciju; 2 (mar law) prinudan

force majeure (n) (mar law) = Act of God a common clause in contracts, exempting the parties for non-fulfillment of their obligations as a result of conditions beyond their control, such as earthquakes, floods or war; Circumstance which is beyond the control of one of the parties to a contract and which may, according to the terms and conditions, relieve that party of liability for failing to execute the contract. 

http://www.tmaglobal.net/chartering_F.HTM viša sila declare force majeure

prijavitviši silu, objavitvišu silu: The forwarding company declares force majeure due to COVID-19 impact due to a potential inability to fulfill its ocean and air freight contracts. https://www.joc.com/international-logistics_/ Some ports have taken the precaution to declare ‘force majeure’ to pre-empt claims and legal liability. (https://safety4sea.com/), force majeure notice

obavijest o stupanju "više sile" na snagu: Force majeure notices have been served to customers of the affected projects and the group is working closely with them to mitigate the impact of COVID-19. https://www.seatrade-maritime.com/shipbuilding

foot-ropes (n) (sailing vessels) nogostup od konopa (na križu jarbola) foot (the sail) (v) popustiti jedro/flok (kako bi jedrilica dobila na brzini pri jedrenju uz vjetar)

for and on behalf of (=for the account of and on behalf of) (n) (mar law) odredba brodarskog ili agencijskog ugovora: za i u ime (brodara) u ime i za račun for’ard /ˈfɔːrd/ (adv, adj) = forward (navig) = ANTOMY aft 1 prema pramcu; 2 sprijeđa (=forward)
force of wind  (n) (meteorol) jačina vjetra: As the vessel moved astern into the main shipping channel, the force of the wind acting on her port beam was greater than the power the tugs could produce to hold the vessel against the wind.

ford  (n) (geogr) plićak (u rijeci), riječni plićak

fore  /fɔː/  1 (adv) a term used in indicating portions or that part of a ship at or adjacent to the bow; towards the bow sprijeda, na pramcu: On the pilot’s advice, all headlines and sternline(s) were first let go, retaining only the backsprings fore and aft. Stations were called fore and aft, preparatory to making fast tugs.; 2 (n) prednji dio (broda): The impact caused considerable damage to the fore end of the vessel, including penetrations below the waterline.; 3 (adj) prednji, pramčani: Once the towline was secured to the customer vessel, the initial part of the inward passage was uneventful, with the tug maintaining a fore/aft position with no weight in the towline.; 4 prema pramcu: They were stowed at floor level at the fore end of cargo hold No. 3.

fore-and-aft  (n) (nav arch) The direction on a vessel parallel to the center line. smjer po uzdužnici broda

fore-and-aft bridge  (n) (nav arch) prijelazni most, mostić, pasarela (It.: passerella)

fore and after  (n) (sailing vessels) uzdužna greda grotla

fore-and-aft line  (n) (nav arch, seamanship) uzdužnica broda

fore-and-aft rigged ship  (n) (sailing/boating/yachting) COMPARE square-rigged ship a ship with a rig in which the principal sails are fore-and-aft

fore-and-aft sails  (n) (sailing/boating/yachting) uzdužna jedra

fore body plan  (n) (sailing/boating/yachting) prednja kabina

forecabin  /ˈfoʊˌkeɪbən/  (n) (sailing/boating/yachting) prednja kabina

forecast  /ˈfɔːkɑːst/  (n) (meteorol) description of the most significant weather conditions expected during the current and following days prognoza, Italian: previsione coastal forecast COMPARE offshore forecast a forecast of wind, wave and weather conditions between the coastline and 25 miles offshore (Seasources) obalna prognoza, prognoza vremena za priobalje, 24 hour forecast prognoza vremena za 24 sata: “.24 HOUR FORECAST LOW 46N42W 954 MB. WITHIN 360 NM SE AND 180 NM NW QUADRANTS WINDS 55 TO 75 KT. SEAS 44 TO 60 FT.” NOAA Hurricane Force Warning issued 1630 UTC FRI JAN 29 2021.

forecast  (v) (meteorol) prognozirati vrijeme: When bad weather is forecast during a port call, it is important to ensure that it is safe to remain in port. Strong northerly winds had been blowing in the preceding days, and were again forecast for the coming day when the yacht set sail to the east.

forecastle  /ˈfɔːksəl/  (n) 1 (nav arch) Raised and enclosed forward superstructure section of the hull. https://officerofthewatch.com/tools/maritime-dictionary/ kaštel, pramnica, Italian: castello di prora: Fortunately, the fire damage was limited to the paintwork on the forecastle break bulkhead, a reefer electrical supply cable, light fittings and a hold ventilation cowl.; 2 pramčano nadgrade (foˈčsle; foˈčsle; foˈčsle)

forecastle deck  (n) (nav arch) a deck over the main deck at the bow paluba kaštela: Damage to Ship or Equipment 19-473 AP MOELLER Accident to seafarer 19 December 2009 The accident occurred on the forecastle deck during the mooring operation at departure from Singapore.
The two Third Officers monitored the vessel’s position, the Helmsman and bridge telegraph, and one Ordinary Seaman remained on the forecastle head as required by USCG regulations. It was discovered towards dawn that the fo’c’sle head escape door on deck was not in its original locked position, whereupon the fo’c’sle head area was searched.

The clock, it was discovered towards dawn that the fo’c’sle head escape door on deck was not in its original locked position, whereupon the fo’c’sle head area was searched. The incident was immediately reported to the bridge and the foredeck was evacuated. The deckhand left the cabin to make his way to the foredeck.

The majority of the damage however, was noted in the fore end and it was observed that there was water leaking into the hold at the junction of the main deck and the forward hold / forepeak bulkhead.

In a free trade zone goods may be stored in the zone without being subject to import duty regulations.
foreman /ˈfoʊ.mən/ (mar law) predradnik, nadglednik, voda grupe, Italian: capo squadra: Overnight, I had delegated my chief foreman to oversee the discharging under my guidance.

fore mast (n) (sailing vessels) SEE sailing ship - masts pramčani jarbol, deblo pramčanog jarbola, jarbol od prove, Italian: albero di trinchetto

fore topmast (E) pramčani košni nastavak, košni nastavak pramčanog jarbola, fore topgallant mast (F) pramčni sljemeni nastavak, sljemeni nastavak pramčanog jarbola, fore royal mast pramčani vršni nastavak, vršni dio / nastavak pramčanog jarbola

fore-noon-watch (n) (seamanship) the 0800 to 1200 watch dopodnevna straža

fore peak /ˈfɔː.piːk/ (=forepeak) (n) (nav) the section of the hold of a ship that is within the angle made by the bow and is used for trimming or for storage of cargo; odjeljak u trupu broda ispred sudarne pregrade (https://www.fsb.unizg.hr/geometrija.broda/donji/glosarijteme.htm#osnovni)

pramčani pik, forpik, prednji pretežni tank, gavone di prua: There was already about 60 cubic meters of water in the forepeak which was close to the critical limit.

forepeak bulkhead (n) (nav arch) The bulkhead nearest the stem, which forms the after boundary of the forepeak tank. https://officerofthewatch.com/tools/maritime-dictionary/ pregrada pramčanog pika

forepeak tank (n) (nav arch) ANTONYM afterpeak tank tank pramčanog pika, pretežni tank: Fortunately, the collision bulkhead, at the aft end of the fore peak tank, was in good condition and saved the vessel from flooding uncontrollably. The crew felt that the vessel was behaving as though the fore peak tank was ballasted, whereas they believed it to be empty. After securing to the shore with unusually long lines, it was discovered that the empty fore peak tank was holed below the waterline.

foresail /ˈfoʊ.seil; (naut: ˈfɔː.səl)/ (n) (sailing/boating/yachting) COMPARE jib the forward most sail on a vessel prednje jedro, flok

fore / side / side ballast (n) (sailing/boating/yachting) pramčani / bočni / krmeni balast

fore spring (n) (ship handling) pramčani špring: As the chief officer made his way to the forecastle to see what was happening, the fore spring parted. When she sailed past at about 19:13, the fore spring of the MV … broke.

fore station = forward station ANTONYM aft station stanica za privezivanje na pramcu
**forstay** *(n)* 1 *(sailing/boating/yachting)* **ANTONYM** backstay  a steel wire attached either at the very top of the mast, or in fractional rigs between about 1/8 and 1/4 from the top of the mast. The other end of the forstay is attached to the bow of the boat. **prednje leto, proveni štraj, Italian:** strallo **inner forstay** nutarnje leto, nutarnji štraj: How do I install an **inner forstay** or Solent stay? “; 2 kraće pramčano leto, mali štraj

**forest product carrier** *(n) (nav arch)* brod za drvo i drvne prerađevine

**fore tack** **prednji rogalj** *(floka, jedra)*

**fore top mast** *(n) (sailing vessels)* prvi produžetak jarbola, **paroket**

**forfait contract** *(n) (financ)* prodaja nedospjehih novčanih tražbina banci uz isključenje prava banke na regres prema prodavaocu, za slučaj da tražbine nisu naplate (V. Leho-P. Jurković, Rječnik bankarstva, Masmedia 998) **forfaitni ugovor, forfetni ugovor**

**forfeit** /ˈfɔːrɪt/ *(v)* 1 *(mar law)* lose (s.th.) or lose the right to (s.th.) by some error, offense, or crime. To suffer the loss of something by wrongdoing or non-compliance

(https://www.dictionary.net/definition/forfeit) **izgubiti pravo / jamčevinu**; 2 *(mar law)*

**odreći se** *(Origin: Middle English from ca. 1300, from Old French forfait "crime", originally the past participle of forfaire "transgress", (https://www.dictionary.net/definition/forfeit))

**forfeit** *(n) (mar law)* something that a person has to pay, or something that is taken from them,
forfeit because they have done something wrong gubitak prava

forfeit\(^3\) (v) (mar law) zaplijeniti

forfeit\(^4\) (n) (figurative) kazna, globa

forfeit clause (n) (mar law) forfetni stavak

forfeit rate (n) (shipping econ, mar law) način otpreme pri kojemu je ukupna svota za ispunjavanje naloga određena ugovorom; visina naknade za špeditorsku uslugu i iznosi određenih troškova trećih osoba (https://repozitorij.fpz.unizg.hr/); fixed / lumpsum freight (in forwarding goods) fiksna naknada, forfetni stavak

forfeit shipment (n) (mar law) špedicija u kojoj se naknada ugovara u fiksnom iznosu i koja obuhvaća sve naknade i sve troškove realizacije ugovora; forfetna otprema, forfetna špedicija

forfeiture /ˈfɔːfiʃər/ (n) 1 (mar law) Forfeiture is the loss of any property without compensation as a result of defaulting on contractual obligations, or as a penalty for illegal conduct. (https://www.investopedia.com/terms/f/forfeiture.asp); losing or surrendering something as a penalty for a mistake or fault or failure to perform etc. confiscate, forfeit, forfeited(verb), surrendered as a penalty. (https://www.definitions.net/definition/forfeit) gubitak prava; 2 konfiskacija, oduzimanje prava

forge (v) kovati

forged iron (marine eng) kovano željezo: The cylinder cover comprises a stiff grey cast iron cap fitted with a thinwalled forged heat-resistant steel bottom.

forged steel (n) (marine eng) kovani čelik

forkbeard (n) (fishing) Lat. Phycis phycis tabinja, babinja, mrkulja, grujeva mati, mrka tabinja

forked shape viličasti / rašljasti oblik, oblik U-profila

fork lift (n) (cargo handling) = fork lift truck viličar: Occasionally containers are hoisted aloft while standing on the forks of a fork lift truck.

forklift pockets (n) (cargo handling) Openings or recesses in the side of a freight container designed to facilitate the entry of the forks of a fork lift truck. (https://www.msc.com/shipping-glossary) džepovi u dnu kontejner: Some bulk containers are equipped with forklift pockets, which allow handling by forklift trucks

fork lift truck (=FLT) (n) (cargo handling) viličar, viljuškar: Fork lift trucks (FLT) are mechanically or electrically operated and fitted in front with a platform in the shape of two prongs of a fork. Container handling at the terminal comprises container lift trucks, reach stackers, fork lift trucks and all the attachments needed. Test certificates, maintenance reports and pre-operation checks of the gear they...
provide and intend to use, eg **fork-lift trucks**, cranes, slings and ladders.
received a VHF radio call from the cargo vessel requesting that the former alter course so that the cargo vessel could stand on.; 2 prethodni, prijašnji: As a marine consultant and surveyor I visit merchant ships from time to time and as a former shipmaster I take an interest in the way in which shipping is conducted nowadays.

**form stability** (n) (stabil) stabilitet forme
**forward** /ˈfɔːrwd; ˈfɔːrid; ˈfɔːrəd/ (=for’d;) (adv, adj) 1 (adv) in front; towards the bows of a ship; in the fore part of a ship; prema pramcu, naprijed: The vessel was required to move forward about 30 meters to load the after hatch. He was standing just outside the after door to his wheelhouse, facing forward and to starboard.; 2 (adv) sprijeda (na brodu), ispred forward of ispred: My father, who was skipper, decided to take the ropes out of the cage roller on the starboard quarter and let the boat pivot on the shooting bar forward of midships., forward of the beam subočice po pramcu: 1045: Target observed at about one point forward of the port beam, distance approx 4.6 miles.; 3 (adv) prednji, pramčani: Crew educated on the snap back zones at forward and aft mooring stations. On impact, the container ship’s OOW felt a sudden and unusual vibration from the forward part of the vessel.

**forward** (v) (shipping econ, mar law) poslati, dostaviti: The Master is busy with emails, communicating to all parties the results of the inspection and forwarding all relevant documents.

**forward base** (n) (safety) A base, located as close as possible to an incident site, which is capable of handling large aircraft and has sufficient facilities (with augmentation, if necessary) to support a major aeronautical or marine disaster operation. (IAMSAR/COMSAR) najbliža baza (mjestu pogibli) za pružanje pomoći

**forward body** (n) (nav arch) pramčana rebra broda
**forward breast line** (n) (seamanship) bočno pramčano uže, prednje bočno uže: The ship pivoted about the forward port shoulder causing one of the forward breast lines to part.

**forward end** (n) 1 (nav arch) prednji dio broda, pramčani dio broda: The seaman at the forward end jumped across the gap to the embarkation deck. The forward end of the lifeboat fell to the water but it was undamaged and there were no injuries to the crew.; 2 (seamanship) pramčana strana (dijela broda), prednji dio (dijela broda): He then moved to the forward end of the port hatch cover to climb down. There were two three-furnace oil-fired Scotch boilers at the forward end of the engine room, the starboard boiler could be operated on the main engine exhaust gases. The fire continued to spread rapidly throughout the forward end of the wheelhouse, filling it with thick black smoke.

**forwarders** /ˈfɔːrwdəz/ (n) (mar law) the party arranging the carriage of goods including connected services and/or associated formalities on behalf of a shipper or consignee otpremnik, špedicija, otpremnička tvrtka, špediter: ..., by signing declarations, a forwarder confirms that the goods have been correctly classified and that the packing and labelling conforms to the appropriate regulations. It has been noted with alarm that there is an increasing tendency for freight forwarders to sign dangerous goods declarations. international forwarders međunarodna špedicija (tvrtka)

**Forwarder’s Certificate of Receipt (=FCR)** (n) (mar law) Špeditorska potvrda o primitku tereta (špedicijski vrijednosni papir)

**forwarding** (n) (mar law, shipping econ) otpremništvo, špedicija

**forwarding agent** (=forwarding agents; forwarder; freight forwarder(s)) (n) (mar law) pravna ili fizička osoba koja se obvezuje da radi prijevoza određene stvari sklapa u svoje
forwarding instruction

A **freight forwarder** is expected to (a) arrange transportation of the cargo from/to the customers’ premises and port (b) arrange the distribution or “forwarding” of the cargo as per the instructions of their client (c) have the capability to negotiate freight rates with the shipping line (d) to book cargo with the shipping line as per the requirement of the client or under their own contract (e) process all relevant shipping documents such as certificates of origin, customs and port documentation, bills of lading and associated shipping/negotiating documentation (Eur1, Certificate of Origin, etc) (f) issue their own approved house bill of lading (HBL) although they are not an NVOCC, etc.

Forwarding agents include booking space on a ship, providing all the necessary documentation and arranging Export Customs clearance. An agent/operator who undertakes to handle the movement of goods from point to point on behalf of the cargo owner.

Freight forwarders may or may not also do customs clearance. Kuehne + Nagel Inc., the Swiss freight forwarding agents, handled 4,355,000 TEU’s in 2018.

**forwarding instruction** (n) **(shipping econ, mar law)** document issued to a freight forwarder, giving instructions to the forwarder for the forwarding of goods described therein.

**forward line** (n) **(seamanship)** pramčano uže: High tides and strong winds caused the ship to surge along the berth, causing the forward lines to slacken.

**forward mooring lines** (n) **(seamanship)** pramčana privezna užad, privezna užad na pramcu, pramčani konopi

**forward moorings** pramčani vez, pramčani konopi, **proveni armiž**: The master was able to view the forward moorings from the bridge, but the after moorings were obscured. The vessel was engaged in loading Naphtha when, in a sudden strong squall, three of the rope tails on the forward moorings parted. The remaining forward mooring ropes then parted as the vessel’s bow started to swing away from the quay.

**forward of** (adv) 1 **(seamanship)** = **ispred** **(vlastitog broda)**: This was unsuccessful, and a short time later the ship made contact, at over 3 knots, with a concrete dolphin which was about 70 metres forward of the ship’s berth. 2 **(seamanship)** **ispred** **(dijela broda)**: The two remaining crew members decided that they should relocate the pumps to the adjacent compartment, immediately forward of the accommodation space, which had no fixed bilge suction, in order to continue
forward perpendicular  an imaginary line drawn perpendicularly through the waterline where the forward edge of the stem meets the summer load line  

forward ropes  (n) (seamanship)  pramčani konopi:  Soon after the onset of the flood tide, the tension on the forward ropes increased and the bow was set slowly off the wharf.

forward spring  (n) (seamanship)  pramčani špring, prednji špring:  During the shift, the forward spring lines became too long. They agreed that the forward spring would be the last mooring rope to be let go and that the vessel would then move stern first into the fairway. The ship was manoeuvred off the berth as normal using the forward spring.

forward station  (n) (seamanship, navig)  grupa mornara, obično na čelu s prvim časnikiom, na pramcu broda pri manevriranju brodom  stanica za privezivanje na pramcu:  the Master or the Officer of the Watch (OW) has to tell the officers in charge of the Fore and After (Mooring) Station to single up.

forward store  (n) (nav arch)  pramčana sprema:  Ventilation openings to the forward store were still closed in the seagoing position.

forward tank  (n) (nav arch)  pramčani tank:  The forward tanks were emptied and refilled without incident, except that the day’s operations ended with an overflow. The skipper preferred to use fuel from it is essential to be alert for subtle the forward tanks before the aft tanks changes that can make a big difference.

forward trim  (n) (cargo handling)  pramčani trim

forward tug  (n) (ship handling)  tegljač po pramcu, tegljač na pramcu:  The forward tug was also to the vessel was minor and she was able to requested to push on the starboard bow.

foul  /fau/l/ (v) (seamanship, ship handling)  entangle zapleti, zapleti se (o užad, lanac itd.), zakačiti, zapetljati se, Italian: impigliare:  We must be sure that there are no lines, small boats, or obstructions which would be likely to foul the rudder or propeller. We were concerned that the lines could foul the boat’s rudder or propeller. Eventually, while the tug barely managed to clear the bow of the anchored ship, the towline fouled her anchor cable ...

foul the anchor zapleti sidro, zapetljati sidro, zapeti sidrom o:  on, the Pilot’s assessment was 2-3 knots * The reader of the MARS report may be left with the impression that the Pilot was aware that the anchor was fouled by a heavy and probably very long wire rope., foul the propeller zapleti se o propeler:  The master of the tug became concerned that the large amount of slack in the starboard side of the bridle could foul his propellers, so he moved his tug to the port bow of the tanker, Fortunately, the propeller was not fouled and after tugs were fast, the ship sailed without further incident. Damaged bollard Narrative While securing alongside, a ferry’s bow thrusters became fouled by her own mooring lines, foul the line zapleti se o uže / konop:  The fishing vessel was concerned that the cargo vessel would cross pot line and foul one of the riser lines, foul the fender zapleti se o odbojnik:  ..., as a result of variations in water levels due to tides and in vessels’ draughts due to changes in displacement, such steel fenders can foul the fenders on the berth from above or below, and potentially damage/dislodge them., foul the ladder zapleti se o brodski siz:  When berthed in ports with high tidal range, or when obstructions on the quay could foul the ladder, it may be more prudent to leave it suspended so that the crew can tend it continuously., be fouled with zapetljati se s, zapleti se o:  As the crew tried to heave anchor once again they noticed that their anchor appeared to be fouled with the ground tackle of the second tanker. Once the anchor was clear of the water, the seaman reported that it was home but fouled with some lashing wire.

foul  /fau/l/ (adj) (ship handling, cargo handling)  ANTONYM clear:  a piece of equipment that is
foul

foul rudder

jammed or entangled; not clear zapleten, zapetljan, zakačen foul anchor
zapetljano sidro, foul rope zapleten konop

foul (adj) 1 (seamanship) jamed, not clear zapleten, zakačen, zapetljan foul anchor
zapleteno sidro, zapetljano sidro, foul propeller zapleteni propeler,
zapetljani propeler, foul line zapleten konop; 2 obrašteno, blatno,
šporko foul bottom obrašteno dno

foul (v) (safety) (navig) oštetiti, udariti u, zahvatiti (plutaču, lanac, konop
itd.): The ship's starboard quarter fouled a lock gate. desni kvartir broda udario je u vrata ustave i oštetio ih

foul (v) (environ) onečistiti (more, obalu), zagaditi (more, obalu): The tanker sank off US east coast and fouled thousands of miles of coastline.
foul an anchor (v) (seamanship) zakvačiti nečije sidro / sidreni lanac
foul anchor /faʊl/ (n) (seamanship) anchor with chain wrapped about a fluke or the stock or with some other encumbrance entangled about it zapleteno sidro, zaglavljeno sidro

foul bill of lading a bill of lading, i.e. receipt for goods, issued by a carrier with an indication that the goods were damaged when received (https://www.msc.com/shipping-glossary) nečista teretnica, teretnica s opaskom

fouled /faʊld/ (adj) (seamanship) jammed, not clear zapleten (konop, lanac),
zapetljan, zamašen fouled anchor zapetljano sidro, zapleto sidro,
zapelo sidro: In light of this experience, a procedure will be established whereby attempts to clear a fouled anchor should be made by letting go the brake and manoeuvring until the anchor is cleared.
foul hawser (n) (seamanship, ship handling) Said of the anchor chain when moored and the chain does not lead clear of another chain. https://officerofthewatch.com/tools/maritime-dictionary/
zapleto sidreni lanac / konop

fouling /faʊliŋ/ (n) (environ) The types of fouling are broadly categorised as microfouling –microscopic organisms including bacteria and diatoms producing a slime layer on the hull – and macrofouling being larger organisms visible to the human eye such as barnacles, tubeworms and fronds of algae.

obrašaj (na dnu brodskog trupa): Fouling increases the frictional or drag resistance, the most important component of resistance. (https://safety4sea.com/)
foul propeller /faʊl/ (=fouled propeller) (n) (seamanship) zapleten vijak /

propeler

foul rudder /faʊl/ (=fouled rudder) (n) (seamanship) zapleteno kormilo,
foul tide  Foundation Degree in Marine Operations Management - Nautical Science

zapetljano kormilo
foul tide /faʊl/ plimna struja iz nepovoljnog smjera
foul weather (n) (meteorol) nevrijeme, Italian: maltempo; cattivo tempo: The vessel deviated from its route but evacuation was delayed by foul weather and darkness. Importantly, and as would prove to be lifesaving, the skipper had opted to wear a two-piece foul weather suit with buoyant sections. foul weather gear Gear, clothing or accessories that are designed to accommodate needs that arise from bad weather issues https://www.ypiyachts.com oprema za nevrijeme
(odjeća, obuća, alati, pribor): The schooner’s crew is thankful for the large diesel stove in the galley to dry their foul weather gear and keep the boat’s interior warm. https://gcaptain.com
foundation (n) (nav arch, marine eng) a structural support for equipment and machinery in a ship
temelj, oslonac: The structural support for the boilers, main engines or turbines, and reduction gears are called the main foundations. auxiliary foundation the support for auxiliary machinery
temelj pomoćnog stroja
Foundation Degree (=FdSC) (UK) A foundation degree is a vocational qualification in higher education, introduced by the government of the United Kingdom in September 2001, which is available in England, Wales and Northern Ireland. This makes it similar in level to the associate's degree awarded in the United States, and sometimes in the United Kingdom. It is below the level of an honours degree (Bachelor of Science, Bachelor of Arts, Bachelor of Laws etc.). Courses are typically two years full-time study or 3 to 4 years part-time study and are offered both by universities and colleges of higher education. visokoškolski stručni studij (temeljni studij - niži od BSc), diploma o završnom visokoškolskom stručnom studiju: A foundation degree is a degree level qualification which combines academic study with work place learning. Foundation degrees are ideal if you're unsure about taking a full degree or if you want to study while you work. (https://www.ucas.com/ucas/undergraduate/getting-started/what-study/foundation-degrees)
Foundation Degree in Marine Engineering (=FdEng) (n) (UK) (mar law, marine eng) = Associate Degree in Marine Engineering visokoškolski stručni studij brodostrojarstva i tehnologije pomorskog prometa - brodsko strojarstvo (temeljni studij), diploma o završnom visokoškolskom stručnom studiju brodostrojarstva i tehnologije pomorskog prometa - brodsko strojarstvo (temeljni studij): The Warsash Academy offers a full engineer officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Engineer Officer’s Certificate of Competency (STCW A-III/I OOW), a Foundation Degree (FdEng) in Marine Engineering and a direct top-up pathway to BEng (Hons) Marine Engineering and Management.
Foundation Degree in Marine Operations Management (=FdSc;) (n) (UK) (mar law) visokoškolski stručni studij nautike i tehnologije pomorskog prometa - (temeljni studij), diploma o završnom visokoškolskom stručnom studiju nautike i tehnologije pomorskog prometa
Foundation Degree in Marine Operations Management - Nautical Science (=FdSc) (n) (UK) (mar law, navig) = Foundation Degree in Marine Operations Management = Associate Degree in Nautical Science visokoškolski stručni studij nautike i tehnologije pomorskog prometa - (temeljni studij), diploma o završnom visokoškolskom stručnom studiju nautike i tehnologije pomorskog prometa: The Warsash Academy offers a
full deck officer cadet programme by a degree route, leading ultimately to the award of a UK Maritime and Coastguard Agency (MCA) Deck Officer’s Certificate of Competency (STCW ’95 II/OOW), a Foundation Degree (FdSc) in Marine Operations and a direct top-up pathway to BSc (Hons) Marine Operations Management.

**founder** /ˈfaʊndər/ 1 (v tr) to fill with water and sink; to sink out of control potopiti se,

potonuti: In darkness and heavy seas, a small general cargo ship began to founder. About an hour after the vessel foundered, a rescue helicopter arrived on scene. Very soon afterwards, the barge collided with the pulling tug, overrunning her and causing her to capsize and founder.

2 (v tr) (navy) potopiti (drugi brod), to sink another ship (in a battle)

**foundering** /ˈfaʊndərɪŋ/ (n) (navig, safety) potonuće: However, there was very little time to consider the options, because the capsize and foundering were very rapid.

**four-stroke engine** (=4-stroke engine; 4 S engine) (n) (marine eng) četvortotaktni motor: The four-stroke engine usually rotating at medium speed, between 250 and 750 rev/min) is used for auxiliaries such as alternators and for main propulsion with gearbox to provide a propeller.

**Fourth Engineer** (=Second Assistant AEEngineer (US); 4th Engineer) (n) (marine eng, mar law) An engineering officer junior to the second assistant engineer/third engineer in the engine department. (https://safety4sea.com/) treći časnik stroja (UK), treći strojar: An engine cadet was assigned to note down the readings and the fourth engineer was to operate the main engine turning gear remote control.

**FP** (=forward perpendicular) (n) (stabil, nav arch) pramčana okomica, pramčani perpendikular

**F.P.A.** (=free of particular average) (n) cijena prijevoza ne uključuje troškove nastale zbog partikularne avarije

**FPSO** (ship) (=Floating production storage and offloading (ship)) (n) (nav arch) plutajući objekt za proizvodnju i skladištenje tekućih tereta (FPSO: Oslo-listed BW Energy has penned a deal to acquire the 1981-built floating production storage and offloading (FPSO) vessel from BW Offshore for $50m. https://splash247.com/)

**fractional rig** (n) (sailing/boating/yachting) oputa s nižim vršnim hvatištem leta; a type of rig where the jib attaches below the top of the mast dijeljena oputa, sedamosminska oputa jarbola

**fracture** /ˈfrektʃər/ (n) (nav arch, marine eng, safety) lom, prijelom: they identified a 3-metre longitudinal fracture in the hull bottom plating The chief engineer identified that the fire had been caused by a fracture in a low pressure fuel sensor pipe coupling, which had resulted in oil spraying onto the unshielded, main engine exhaust drain cock. extensive fracture prijelom / napuknuće većih razmjera ili dimenzija: After slowing down, the leak was located in the expansion piece between the manifold and the blower in the top inlet, an extensive fracture of the bottom of one of corrugation.

2 (marine eng, nav arch) napuklina, napuknuće

**fracture** /ˈfræktʃər/ (v) (med) slomiti (nogu, ruku): He was bleeding from his head, ears and nose and had fractured his legs and right wrist. (https://safety4sea.com/)

**fragile** /ˈfrædʒəl ; US ˈfrædʒəl/ (adj) lomljiv: Fragile cargo is only accepted for shipment provided that it is adequately stored in solid packaging materials (grades, wooded boxes), preferably new.

**fragility** /ˈfrædʒɪlɪtɪ/ (n) (marine eng, cargo handling) lomnost, lomljivost

**frame** (n) 1 (nav arch) one of the transverse members, the rib-like part of the skeleton of a ship
frames act as stiffeners holding the outside plating in shape and maintaining the transverse form of the ship. **main frame** glavno rebro, **reverse frame** proturebro, **frame thickness** širina rebra, **frame depth** visina rebra, **cant frame** koso rebro; 2 kostur; 3 postolje

frame2 (n) (marine eng) the main structural member of an engine okvir (stroja), okvirna konstrukcija: These shoes are lined with white metal, a bearing material and they reciprocate against the crosshead guides, which are bolted to the frame of the engine. stalak motora The shells are held in position and shape by seatings of the bedplate or frame. **frame structure** okvirna konstrukcija: The frame structure of the cylinder does not come into contact with water., frame section sekcija stalka motora, okvirna sekcija: The frame section is attached to the bedplate with bolts., **engine frame** stalak stroja, stalak motora: The crankshaft vibration was coupled to the engine frame and double bottom which, in turn, transferred vibration energy back to the crankshaft.

frame antenna (n) (nav arch, comm) okvirna antena
frame first ship construction (=frame-first shipbuilding) (n) (nav arch, sailing vessels) COMPARE shell first construction “typical shell-first construction, with edge-joined planks fastened to one another by mortise-and-tenon” joints and reinforced by inserting frames after the Hull was formed (The Sea and Civilization: A Maritime History of the World by Lincoln P. Paine" - http://a.co/3NXFSun) konstrukcija "prvo rebra" (kostur broda)

frame lines (n) (nav arch) Lines of a vessel as laid out on the mold loft floor, showing the form and position of the grames. Also the line of intersection of shell with heel of frame.

framework (n) okvir: One such regulation gave us the ISM Code, an excellent framework for robust safety management which requires that each company’s objectives include the continuous improvement of safety management skills.

framework tower (n) (safety, navig) toranj, rešetkasta kula (za svjetlo)
framing (n) (nav arch) orebrenje, rebra broda, buškamenat
franchise1 (n) (nav arch) orebrenje, rebra broda, buškamenat
franchise (n) (mar ins) in marine insurance a sum or percentage stated in a policy, below which the insurer disclaims all liability franšiza deductible franžiza, non deductible franžiza integralna franšiza
franchise2 (n) (US) koncesija, zastupstvo
franchise (n) (shipping econ, mar law) povlastica, privilegij
Franc Poincaré (n) (mar law) The unit of value in which the limitation of the carrier’s liability is sometimes expressed. (Franc Poincaré)

fraud (n) (logist) prijevara: Blockchain reduces or eliminates fraud and errors
fraying (n) (cargo) struganje, ribanje
free alongside ship (=FAS; free alongside) (mar law, shipping econ) An incoterm from the ICC: the seller must deliver the goods to a pier and place them within reach of the ship’s loading equipment. (https://www.msc.com/shipping-glossary) slobodno uz bok broda, franko uz
bok broda free alongside ship (named port of destination) slobodno uz bok broda (naznačena luka odredišta) (jedan od trgovinskih uvjeta INCOTERMS)
freshwater freeboard ljetno nadvođe za slatku vodu, summer freshwater freeboard ljetno nadvođe za teret drva, summer timber freeboard ljetno nadvođe za teret drva za slatku vodu, minimum freeboard najmanje nadvođe, winter freeboard zimsko nadvođe, winter timber freeboard zimsko nadvođe za teret drva, high freeboard visoko nadvođe: The wind caught the beam of the high-freeboard and low draught vessel, and started setting her on to the lee shore, less than two miles downwind., low freeboard nisko nadvođe: The boat had a low freeboard at its stern, which was further reduced by a poorly fitted patch where the engine control cables passed through the transom., timber freeboard nadvođe za teret drva

https://www.globalsecurity.org/military/systems/ship/measurement.htm

freeboard deck (nav arch) the uppermost continuous deck exposed to the weather and sea

freeboard mark (n) (sailing/boating/yachting, nav arch) oznaka nadvođa, bala

freeboard ring (n) (navig) krug nadvođa

Free Carrier … (=FCA; FRC) (n) (mar law, shipping econ) SEE F.O.B. franko

Free days (n) (mar law) vrijeme ili rok odobren za punjenje / pražnjenje kontejnera

freediver (n) (sailing/boating/yachting) ronilac na dah

freedom of navigation (n) (mar law) sloboda plovidbe
freedom of passage (n) (mar law) sloboda prolaska equal freedom of passage jednaka sloboda prolaska, jednako pravo prolaska free end (n) (seamanship) = working end ANTONYM bitter end slobodni kraj užeta, radni dio konopa, radni kraj konopa, Italian: filo libero free fall lifeboat (=FFB; freefall lifeboat) (n) (nav arch, safety) Some ships have freefall lifeboats, stored on a downward sloping slipway, dropping into the water as holdback is released. Such lifeboats are considerably heavier to survive the impact with water. https://officerofthewatch.com/tools/maritime-dictionary/brodica za spašavanje na slobodan pad, gravitacijska brodica za spašavanje: While at anchor, an inspection of the free fall boat (FFB) was to be carried out, among other things. There is no standard procedure for launching free-fall lifeboats, as design and fittings vary considerably. Freefall lifeboats are used for their capability to launch nearly instantly and high reliability, and since 2006 are required on bulk carriers that are in danger of sinking too rapidly for conventional lifeboats to be released. https://officerofthewatch.com/tools/maritime-dictionary/ While abandoning the ship, In case of FFB, the crew should proceed to assigned seats and fasten the seat belts. The freefall lifeboat was inadvertently released. (https://safety4sea.com/)

free from general average (n) (mar law) posebna klauzula u ugovoru o prijevozu ili u teretnici prema kojoj se stranke uzajamno odriču prava na kontribuciju iz zajedničke havarije tako da sve štete i troškove snosi stranka koja ih je pretrpjela slobodno od zajedničke havarije, uzajamno franko od zajedničke havarije
**Free in (F.I.) (mar law, shipping econ)** klauzula u ugovoru o prijevozu stvari morem kojom se određuje da troškove ukrcaja snosi krcatelj; Free of expense to the shipowner of cargo handling at the loading port. free surface effect (n) (navig) utjecaj na stabilnost broda koji prilikom nagnuća broda stvaraju slobodne površine učinak slobodnih površina, utjecaj slobodnih površina: Partially filled cargo tanks with no longitudinal bulkheads may cause large free surface effects to the extent that the initial metacentric height (GM) becomes negative. calculate the free surface effect izračunati učinak slobodnih površina
free surface I value (n) (stabil) moment inercije slobodnih površina prostora za određeni prostor broda
free surfaces (n) (cargo handling, safety) nepokrivene tekućine u brodskim tankovima ili rasuti teret u brodskim skladištima slobodne površine free surfaces effect efekt slobodnih površina: Bulk cargo ships loaded with grain as this type of cargo can lead to free surface effect which causes stability issues to the vessel. (https://safety4sea.com/)
free the vessel (v) (safety) odsukati brod, osloboditi nasukani brod: AIS data from MarineTraffic.com showed that the vessel was freed with help of tugs at 12:30 p.m. local time on Friday.
free time (n) (mar law) slobodno vrijeme između prihvaćanja pisma spremnosti i početka računanja stojnica vrijeme predaha
free trade (n) (shipping econ, mar law) • Free-trade agreement slobodna trgovina free trade agreement sporazum o slobodnoj trgovini: A free trade agreement is a pact between two or more nations to reduce barriers to imports and exports among them. Under a free trade
policy, goods and services can be bought and sold across international borders with little or no
government tariffs, quotas, subsidies, or prohibitions to inhibit their exchange. Opposite to protectionism.

Free Trade Zone (=FTZ) (n) (shipping econ) a site within a country where foreign and
domestic goods are held until they ready to be released into international commerce.; A part of the
territory of a state (a seaport or an inland place) where any goods introduced are generally regarded, in
so far as import duties and taxes are concerned, as being exempted (Kyoto Convention). Duties are
imposed on the merchandise (or items manufactured from the merchandise) only if and when the goods
pass from the zone into an area of the country subject to the Customs Authority.
(https://www.msc.com/shipping-glossary) slobodna zona, slobodna carinska zona (If
the final product is imported into the U.S., duties and taxes are not due until the goods are release into the
U.S. market. Merchandise may enter a FTZ without a formal Customs entry or the payment of Customs duties
or government excise taxes. In the zone, goods may be: stored; tested; sampled; repackaged or relabeled;
cleaned; combined with other products; repaired or assembled, etc.)

free turn (n) (mar law, shipping econ) slobodno od čekanja na red
freeze (=froze, frozen) (v) smrznuti, zamrzavati: Any delay in squeezing can cause the
cargo to freeze at the bottom and this can lead to residue on board or delay by several hours in discharge
of cargoes.

freezing (n) zamrzavanje: The drain cock of the tank cleaning line was kept open as a precaution
against freezing.

freezing point (n) (marine eng) ledište, točka zamrzavanja: It was dark and the air
temperature was at freezing point.

free zone (n) (mar law) dio kopnene i vodene operativne površine pomorske luke ili riječnoga
pristaništa u kojemu se slobodno obavljaju gospodarske operacije robom bez carinskih ograničenja
zemlje kojoj pripada ta luka ili pristanište slobodna zona

freight (shipping econ) (mar law, shipping econ) remuneration payable to the carrier for the
carriage of goods under a contract of carriage. (Rotterdam Rules 2009); The amount of money due for
the carriage of goods and payable either in advance or upon delivery.; [Fr.: fret] [Span.: flete] [Itt.:
nolo] [Gr.: Fracht] - the remuneration payable for the carriage by the vessel of property or passengers or
for the use of the vessel
http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm); Freight
includes all charges payable to the Carrier in accordance with the applicable Tariff and the Bill of
Lading. vozarina, prevoznina, brodarina, nolo; Italian:nolo: Rates for the

freight (=cargo) (n) (US, cargo) the cargo carried teret: The carrier received the freight in good
condition at origin. U polaznoj luci prijevoznik je primio teret u dobrom stanju The freight was short and
damaged at destination Na odredištu je teret bio manjkav i oštećen. However, passengers and freight were stranded on board for 28 hours, before she could be safely re-floated and berthed alongside. freight lifter viličar (1000-3000 kg), air freight avionski teret, movement of freight promet tereta, teretni promet, types of freight vrste tereta

freight (n) (mar law) najamnina broda (u ugovorima za putovanje - Voyage Charter Party): Freight rates for Capesize dry bulkers remain firm. Freight rates for large capesize dry cargo ships on key Asian routes could stay around current levels next week, supported by stable cargo volumes and firm bunker prices, ship brokers said

freight all kinds (n) (shipping econ) paušalna vozarina

freight bill (n) (shipping econ) Carrier’s invoice for freight charges applicable to a shipment. Also called freight invoice; Destination (Collect) Freight Bill: Prepaid Freight Bill. (1) Bill rendered by a transportation line to consignee containing description of freight shipper name, point of origin and weight charges (if not prepaid). (2) Bill rendered by a transportation line to shipper containing description of freight, consignee, destination and weight charges.

vozarinski račun, faktura za vozarinu, račun za prevozninu: Freight bill - Carrier's invoice for freight charges applicable to a shipment. Also called freight invoice. original paid freight bill originalni naplaćeni vozarinski račun, originalna naplaćena faktura za vozarinu

freight carriage paid to (n) (mar law) medunarodni trgovinski uvjet prema kojemu prodavatelj plaća vozarinu do ugovorenoga mjesta odredišta, ali rizik za gubitak ili oštećenje prelazi s prodavatelja na kupca u trenutku kada je roba isporučena prvomu prijevozniku, a ne kada prijeđe brodsku ogradu vozarina plaćena do

Freight Carriage paid to … (named point of destination) (n) (mar law, shipping econ) vozarina plaćena do … (označeno mjesto odredišta)

freight carried forward (n) (shipping econ, mar law) vozarina s plaća po isporuci (u luci iskrcaja)

freight carrier (n) (nav arch) teretnjak, teretni brod: Medium-speed four-stroke diesel engines are dominant in the propulsion engines of smaller ships as well as larger specialist tonnage such as cruise vessels, car/passenger ferries and ro-ro freight carriers.

freight claim (=cargo claim) (n) 1 (mar law, shipping econ) = cargo claim tražbina, za naknadu šteta; 2 (mar law, shipping econ) zahtjev za naknadu vozarine

freight collect (n) (shipping econ, mar law) = freight forward freight and charges to be paid by the consignee/receiver/importer; ea freight payable at destination; ea freight payable at the destination. The agent of the shipping company will collect the freight in the port of destination before the goods are made available to the holder of the original Bill of Lading.

vozarina po primitku tereta (od strane primatelja tereta)

freight conference (n) (mar law) = liner conference = shipping conference linijska konferencija

freight container (n) (cargo handling, cargo, US) = container kontejner: Those responsible for the packing of dangerous goods into a freight container or vehicle should provide a signed dangerous goods container or vehicle packing certificate. The drums were then secured on wooden pallets
and these were finally stacked inside a standard marine freight container.

**freight contractor** *(n)* (mar law) = disponent owner = chartered owner

brodar raspolagatelj; 2 ugovaratelj tereta

**freighter** *(US)* = cargo liner a ship designed to carry all types of general cargo teretnjak, linijski brod, linijaš

**freighter cruiser** *(n)* (nav arch) teretno-putnički brod

**freight forward** *(n)* (shipping econ, mar law) = freight collect vozarina se plaća po isporuci, vozarina po isporuci

**freight forwarder** *(n)* (mar law) = forwarding agent COMPARE NVOCC SEE Ocean Transportation Intermediary A party who arranges for the carriage of other people's goods by sea, for a fee, usually calculated as a percentage of the freight charge plus expenses. At times, the freight forwarder acts as a principal contractor in respect of the shipper and bears the responsibilities of a common carrier. At other times, the freight forwarder acts merely as an agent of the shipper, with the obligation to exercise reasonable care and skill. 

http://www.mindserpent.com/American_History/reference/Tetley_admiralty/Tetley_2004.htm; a person acting as an agent in the transshipping of freight to or from foreign countries and clearing freight through federal customs. (http://www.maerskline.com/en-jm/help/shipping-glossary); Freight Forwarder is a multi-function agent/operator who undertakes to handle the movement of goods from point to point on behalf of the cargo owner. (https://shippingandfreightresource.com/topics/logistics/); “companies that serve both to shippers and carriers by organising and coordinating the transportation of goods” (https://www.researchgate.net/publication/282052433_Research_in_Humanitarian_Supply_Chain_Man agement_and_a_New_Framework/) špediter, otpremnik: It has been noted with alarm that there is an increasing tendency for freight forwarders to sign dangerous goods declarations. With the best will in the world, no freight forwarder can make such a declaration honestly. The shipping operators are customers of the port, while freight forwarders, that provide services for shippers, are customers of the shipping operators. Lee & Song (2010) ocean freight forwarder *(US)* an individual or company located in the U.S. which: a) arranges cargo movement to an international destination, b) dispatches shipments from the United States via common carriers and books or otherwise arranges space for those shipments on behalf of shippers, c) prepares and processes the documentation and performs related activities pertaining to those shipments (https://www.fmc.gov/resources/ocean_transportation_intermediaries.aspx) prekooceanski / prekomorski otpremnik, prekooceanski / prekomorski špediter (An individual or company that prepares the documentation and coordinates the movement and storage of export cargoes)

**freight forwarder's bill of lading** *(n)* (mar law) špediterska teretnica

**freight forwarding** *(n)* (mar law, shipping econ) špedicija, otpremništvo

**freight forwarding platform** *(n)* (logist) digitalna špediterska platforma:

Ship4wd, a digital freight forwarding platform offering an online, simple and reliable self-service end to end shipping solution. https://www.shippingandfreightresource.com/

dogovaranje vozarine
freight prepaid (n) (shipping econ, mar law) freight and charges to be paid by the consignor/shipper/exporter; Freight which is payable before the contract has been performed.
http://www.tkmglobal.net/chartering_F.HTM, sea freight payable in advance, in the port of departure, i.e. before transport by sea commences https://www.logisticsglossary.com/term/freight-prepaid/
vozarina se plaća unaprijed
freight quotation (n) (logist, shipping econ) COMPARE freight negotiation freight quotation is a document that outlines the charges involved in the movement of cargo from Point A to Point B. (https://www.shippingandfreightresource.com/fare-and-how-it-works/) ponuda vozarine: The process of freight quotation comes in a few different flavours: Freight Tender or RFQ, contract rates, open rates, spot rate, Named Account rates, FAK rates.
https://www.shippingandfreightresource.com/fare-and-how-it-works/
freight rate /'freit reit/ (n) (shipping econ) = freight cijena prijevoza stvari iz jedne luke u drugu određena po jedinici mjere; The agreed charge for the carriage of cargo expressed per ton(ne) of cargo (also Worldscale in the tanker market) or as a lump sum. (http://www.clarksons.com/glossary/); The amount charged by container shipping companies for transporting cargo, normally as a rate per 20-foot or 40-foot container; the charge per unit (as per hundred pounds or per ton) by a carrier for the transportation of cargo generally published in a freight tariff
(http://www.merriam-webster.com/dictionary/freight%20rate); Amount of money paid to a shipowner or shipping line for the carriage of each unit of cargo, such as a ton, a cubic meter or container load http://www.tkmglobal.net/chartering_F.HTM; The charge made for the transportation of freight.
vozarinski stav, iznos vozarine, cijena prijevoza robe morem, vozarina: Factors that can either increase demand for tankers or lead to excess supply will clash for the balance of 2016, leading to great fluctuations in oil tanker freight rates. The report indicates that maritime freight rates continue to be a major factor driving global inflation. https://gCaptain.com set a freight rate odrediti vozarinu, utvrditi vozarinu, freight rates plummet vozarine jako padaju, freight rates plunge vozarine jako padaju, freight rates fall vozarine padaju: Container freight rates fell in August after two months of gains and came close to their 20-month low. Freight rates will subsequently fall due to increased vessel supply as newly built and repaired ships are delivered to owners by shipyards., freight rates soar vozarine rastu: Oil
Tanker rates soar as supplies surge from Iraq, Saudi Arabia etc. Freight rates surge: Rates for the world’s biggest oil tankers surged to the highest since January as shipments accelerated from Saudi Arabia and Iraq, the two biggest suppliers in the Persian Gulf. Freight rates rise: Shipping freight rates for transporting containers from ports in Asia to Northern Europe rose by 2.7 percent per $573 per 20-foot container (TEU) in the week ended on Friday. Rates for very large crude carriers (VLCCs) are set to rise further next week, fuelled by a raft of cargoes from West Africa and the Middle East. Rates for VLCCs from West Africa to China soared to W50 on Thursday against W43 on the same day last week. Freight rates climb: Freight rates for very large crude carriers (VLCCs), which climbed to a nine-month high this week, are set to remain firm on tight tonnage supply and strong cargo volumes. Freight rates hit the the highest level: VLCC freight rates from the Middle East and West Africa to Asia hit their highest level since March 16 on March 22. Firm freight rates stabilise: Freight rates out of the US Gulf have been firm in October, indicating that the balance, at least for now, is in favour of shipowners. Freight service (n) (shipping econ) linijski servis: The Port of Cork and Compagnie Luxembourgeoise de Navigation (CLdN) have announced a new weekly RoRo freight service between Cork, Ireland and the Port of Zeebrugge, in Belgium. Freight service providers (n) (shipping econ) Freight service providers transport cargo, such as manufactured products, raw materials, and food, and are generally hired by businesses. Freight tariff (n) (shipping econ, mar law) Schedule, published by a liner conference or shipping line, containing freight rates for a variety of commodities likely to be carried by the lines and whether these are payable on the weight of commodity or its cubic measurement. Freight tender (=Request for Quotation (RFQ)) (n) (logist, shipping econ) = Request for Quotation zahtjev za ponudu vozarine: Many multinational companies especially BCOs, who have large volumes moving across various trade lanes send out Request for Quotation (RFQ) through freight tenders which covers the freight rates for a set volume over a set period on multiple trade lanes. Freight terminal (n) (shipping econ) Privately run terminals, such as freight terminals run by railroads, have similar organizational structures to those of publicly operated terminals but generally focus on commercial operation and managing the arrival and desired departure times of cargo. Freight ton (n) (shipping econ, logist, mar law) a unit of volume or weight used for charging or measuring freight in shipping. It depends on the type of material being shipped but is often taken as 40 cubic feet, 1 cubic metre, or 1000 kilograms freight is charged at £40 per ton of 1 cubic metre. Freight train (n) teretni vlak Frequency shift keying (=FSK) (n) (navig) digitalna modulacija pomakom
frekvencija (u sustavu AIS)
fresh air trunk (n) (nav arch) dovodnik svježeg zraka
fresh breeze (n) (meteorol) vjetar jačine pet bofora i brzine od 29 do 38 kilometara na sat
umjereno jak vjetar: There was a fresh breeze of 15-20kts on the starboard quarter.

https://safety4sea.com/
fresh water (n) (marine eng) slatka voda, svježa voda, pitka voda: Lubricating oil coolers using sea or fresh water as the cooling medium, must also be periodically checked for oil leakage.
fresh water allowance; FWA: COMPARE dock water the number of millimeters by which the mean draught changes when a ship passes from salt water to fresh water, or vice versa, when the ship is loaded to the Summer displacement (Rhodes, Ship's Stability, Seamanship, 2003) koeficijent promjene gaza pri prijelasku iz morske u slaku vodi i obratno, fresh
water tank tank slatke / pitke vode: Immediate inspection of other fresh water tanks to ensure potability of water supply was arranged as soon as reasonably practicable.

https://safety4sea.com/
fresh water* (n) (environ) voda (iz vodovoda): As soon as you bring the boat ashore, hose it down with fresh water. Check the harness’s stitching regularly and wash it thoroughly in fresh water after each sail.

fresh water generator (n) (marine eng) generator slatke vode: The Wärtsilä Serck Como fresh water generators produce the fresh water needed onboard a cruise ship for deck washing, laundry, cabins, swimming pools, and technical applications that need high quality water. Minor repairs had just been completed on the shell plate of the fresh water generator (evaporator) by a shore workshop while in port.

fresh water pump pumpa slatke vode: On most engines the fresh water and sea water pumps are both of the centrifugal type.

fresh water system sustav pojne vode
fresh-water system (n) (sailing/boating/yachting) sustav slatke vode, sustav svježe vode: As the entire fresh water system relied on a single cooler, the loss of sea water to this cooler resulted in the ship losing its main engine.

fresh water tank tank svježe / slatke vode: The fresh water tanks and the DO header tank overflowed within a few seconds of each other ... (abbr) FWT
friction /ˈfrɪkʃn/ low coefficient of friction niski koeficijent trenja (marine eng, seamanship) trenje, frikcija: The propeller shaft friction in the stern tube is excessive. The ropes are mainly subject to internal friction and corrosion.

frictional force (n) (marine eng) sila trenja: Rings act as a barrier that prevents frictional force and eventually engine failure.

https://www.marineinsight.com/tech/how-are-piston-rings-made/
frigate /ˈfrɪɡet/ (n) (navy) COMPARE destroyer fregata: Two common types of warship used in most navies are frigates and destroyers. Both are designed for quick manoeuvrability and can be used to escort and protect larger vessels from air, surface and underwater threats. Destroyers are much less common, with only a handful of navies possessing these kind of warships.
https://www.naval-technology.com/ The Sunday Times has reported that at least two Type 23 frigates will have to be axed (scrapped). https://ukdefencejournal.org.uk/ Old type frigates will be axed and replaced with automatic mine hunting capability. BBC News

frogfish (n) žaba, grdobina, grdobina žutka, rošpo {drugi hrv. nazivi: hrnja, hudobina, račina, rošpo, vražica, žaba; lat. LOPHIUS PISCATORIUS}
frogman (n) (safety, navy, figurative) member of underwater demolition team čovjek žaba
front (n) (meteorol) the boundary or transition zone between two different air masses fronta: As the
vessel proceeded down the loch, a weather front began to pass through the area and the wind direction veered. warm front topla fronta, cold front hladna fronta, occluded front result of the meeting of a warm and cold front okluzivna fronta, zatvorena fronta, main front glavna fronta, sharpening of a front jačanje fronte frontal disturbance (n) (meteorol) frontalni poremećaj front end amplifier (n) (electr) malošumno pojačalo front loader (n) (cargo handling) čelni viličar, čeoni viličar

frostbite (n) (med) smrzotina: Skin contact with liquid Freon can cause frostbite.
froth system (n) (safety) sustav gašenja prahom frozen (adj) smrznut: A fitter and the deck crew worked many long hours for two days to open the frozen manholes and there was much stress due to this unforeseen complication.
frozen cargo (n) (cargo) smrznuti teret (-12 st. i niže), smrznuti teret: The cargoes comprised perishable, frozen and chilled cargoes.
FRT (=freight per tonne) (mar law) vozarina po toni fruit (n) (cargo) voće green fruit nedozrelo voće, citrus fruit južno voće, agrumi fruit carrier (n) (nav arch) brod za voće, brod za prijevoz južnog voća

Frustration of Charter (n) (mar law) When the contract cannot be completed or materialized without the fault of any party it is called frustration. (https://www.lawteacher.net/free-law-essays/contract-law/shipping-and-charter-party-contract-law-essay.php); frustration occurs whenever the law recognises that, without default of either party, a contractual obligation has become incapable of being performed because the circumstances in which performance is called for would render it a thing radically different from that which was undertaken by the contract. Non haec in foedera veni. It was not this that I promised to do. (https://www.steamshipmutual.com/publications/Articles/Kyla0613.htm); Frustration of contract under the carriage of goods by sea is concerned with the situation where, following the formation of a valid contract, an event occurs which is not the fault of either party but which has a significant impact on the obligations contained in the contract.

frustracija ugovora o prijevozu ili najmu broda, raskid ugovora o prijevozu ili najmu broda uslijed izvanrednog događaja izvan kontrole tužene stranke: Owners had attempted to induce frustration of the charterparty by electing not to repair the vessel https://www.steamshipmutual.com/publications/Articles/Kyla0613.htm) There are various kinds of
frustration and the first one is impossibility of the performance and this type of frustration happens when the ship that is chartered is lost or becomes constructive total loss.

The second kind of frustration is that when any change has been brought in the law and as a result of this law the performance of the contract becomes unlawful and delay also causes frustration as a delay may result in not achieving the objectives of the contract.

FSC (=fuel surcharge) (n) (logist, shipping econ) a fee assessed by a carrier to account for regional / seasonal variations in fuel costs (https://www.flexport.com/glossary/fuel-surcharge-fee/)

vozarinska naknada za poviše cijene goriva

FSM (=free surface moment) (n) (stabil) moment slobodnih površina

FSRU (n) (nav arch, ports) SEE Floating Storage Regasification Unit

plutajuća jedinica za plinofikaciju ukapljenog prirodnog plina (LNG-a), plutajući terminal za plinofikaciju ukapljenog prirodnog plina (LNG-a), plutajuća jedinica za regasifikaciju ukapljenog prirodnog plina (LNG-a), FSRJ

FSU (=floating storage unit) (n) (nav arch) plutajući objekt za skladištenje tekućih tereta

FTC (=Fast Time Constant) (n) (navig) COMPARE ACR visokopropusni filtrar male vremenske konstante (kod radara), sustav brisanja smetnji s padalina

FTL (=full truck load) (n) (logist) COMPARE F.C.L. a type of trucking in which an entire truckload (usually 53' long trailer) is reserved for the transportation of the cargo. izravna kontejnerska pošiljka kamionom

FTP Code (=Fire Test Procedures Code) (n) (mar law, safety) Međunarodni kodeks za primjenu postupaka požarnog ispitivanja

fuel /ˈfjuːəl/ (n) (marine eng, shipping econ) gorivo fuel oil nafta (kao gorivo kod dizel motora), gorivo, availability of fuel mogućnost dobivanja goriva, synthetic fuel sintetičko gorivo, umjetno gorivo, solid fuel kruto gorivo, marine fuel broдsko gorivo: As marine fuel oil normally contains a small quantity of water, it is necessary to prime the bowl each time that it is run, ..., inferior fuel nedovoljan dotok goriva, intermediate fuel oil (IFO) nafta (37 Ct), heavy fuel oil (HFO) teško gorivo, teška nafta, mazut: The main problem in burning heavy fuel oil in small high-speed engines is ignition delay. In order to reduce maintenance costs, at some time prior to the incident, the company had approved a change of fuel from heavy fuel oil (HFO) to marine gas oil (MGO) for the heater, but the crew failed to make the necessary changes to the fuel pre-heating circuit and the auto-start prf, fuel injection system sistem ubrizgavanja goriva, to supply fuel opskrbiti / snabdjeti gorivom, dobaviti gorivo: The mixing tank is used to collect recirculated oil and also acts as a buffer or reserve tank as it will supply fuel when the daily service tank is empty., to run on fuel raditi na određenoj vrsti goriva (o motoru), pokretati se na određenoj vrsti goriva (o motoru): The fuel system can be changed over so that the engine...
Fuel cleaning system

Fuel cleaning system: More ports around the world are banning ships from using a fuel cleaning system that pumps waste water into the sea, one of the cheapest
options for meeting new environmental shipping rules. https://gcaptain.com

**fuel consumption** *(n) (marine eng)* potrošnja goriva: The change from K-GF to L-GF resulted in a 2 per cent improvement in the specific fuel consumption, and the lower speed accounts for a 5 per cent improvement in propeller efficiency. *Specific fuel consumption* increases with worn injectors and liners, broken piston rings, high back pressure, fouled turbocharger and air cooler and leaking exhaust valves. (https://safety4sea.com/) Fuel consumption: Total energy consumption at 100% load; kJ/kWh 7710 www.wartsila.com

**fuel filter** *(n) (marine eng)* filtar goriva: Replicated fuel leakage from main engine duplex **fuel filters**. replace the **fuel filter** zamijeniti filtar goriva novim

http://www.machineryspaces.com/fuel-filters.html

**fuel gas supply system** *(=FGSS) (n) (marine eng)* SEE FGSS sustav dobave plina u motor
fuel injection (n) (marine eng) ubrizgavanje goriva fuel injection pump pumpa za ubrizgavanje goriva: Each cylinder is individually served by a fuel injection pump, HP pipe and injection valve with uncooled nozzle., time the fuel injection regulirati vrijeme ubrizgavanje goriva, tempirati ubrizgavanje goriva: An electronically controlled system optimally times fuel injection and the opening and shutting of exhaust valves., fuel injection system sustav ubrizgavanja goriva: The very high standard of reliability and lifetime now attained by modern fuel injection systems is the result of considerable investment in R&D and production technology by designers and equipment manufacturers.

fuel injector (n) (marine eng) ubrizgač goriva, rasprskač goriva: The fuel injectors deliver the atomised fuel to the cylinder.

fuel knock (n) (marine eng) A noise produced in the cylinder of a diesel engine during combustion, usually when the fuel oil has a low ignition quality. (http://www.marinedieseleurope.com/) lujanje u radu motora (zbog slabog goriva)

fuel line (n) (sailing/boating/yachting) dovodna cijev goriva, dovod goriva: Double-walled HP fuel lines distribute the fuel from the pumps along the engine to each cylinder.

fuelling (n) (marine eng) opskrba gorivom: The move to electronic control of fuelling brings advantages in accuracy of delivery and timing ... ease of fuelling lakőća opskrbe gorivom

fuel oil (=FO) (n) 1 (marine eng) Fuel oil (also known as heavy oil, marine fuel or furnace oil) is a fraction obtained from petroleum distillation, either as a distillate or a residue. (https://en.wikipedia.org/wiki/Fuel_oil); A name given to the heaviest grades of residual fuel used in marine oil burning boilers. Fuel Oil, or Residual Fuel Oil (RFO), refers to fuels that are primarily non-boiling fractions. (www.euronav.com) gorivo, pogonska nafta, brodska nafta: Double-walled HP fuel lines distribute the fuel from the pumps along the engine to each cylinder. in the marine industry Marine Diesel Fuel is the blend of distillate and residual oils (intermediate types). http://www.kittiwake.com/fuel_terminology Heavy fuel oils are mainly used as marine fuel, and HFO is the most widely used marine fuel at this time; virtually all medium and low-speed marine diesel engines are designed for heavy fuel oil.

https://www.bomin.com/en/news-info/glossary/details/term/heavy-fuel-oil-hfo.html heavy fuel oil (HFO) 1 The generic term heavy fuel oil (HFO) describes fuels used to generate motion and/or fuels to generate heat that have a particularly high viscosity and density. In the MARPOL Marine Convention of 1973, heavy fuel oil is defined either by a density of greater than 900 kg/m³ at 15°C or a kinematic viscosity of more than 180 mm²/s at 50°C. (https://www.bomin.com/en/news-info/glossary/details/term/heavy-fuel-oil-hfo.html) teška nafta: Operation on Heavy Fuel Oil Main engines designed to manoeuvre on heavy fuel oil are to be operated according to the manufacturer’s instructions.; 2 mazut, intermediate fuel oil (IFO) nafta (37 Ct), store fuel oil spremiti gorivo, transfer fuel oil prebaciti gorivo, supply fuel oil dovesti gorivo, dovoditi gorivo, switch to cleaner fuel oil prebaciti se na čišće gorivo: ... the national government is providing incentives to owners to switch to cleaner fuel oils; 2 loživo ulje (kod kotla)

fuel oil mode (n) (marine eng) = Diesel mode režim rada na naftu

fuel oil pump (n) (marine eng) pumpa goriva: Marine fuel oil pump can be also called fuel oil service pump, fuel oil supply pump fuel oil booster pump or fuel oil circulation pump. It can be in centrifugal, gear, three screw and other types. (http://silipump.com/application/marine-fuel-oil-pump/)
The diesel fuel oil supply on the engine is divided into two systems: one for the pilot fuel and one for the back-up fuel. The fuel oil system for a diesel engine can be considered in two parts: the fuel supply and the fuel injection systems. The fuel oil system is checked and circulated with hot oil.
**fuel pipe** (n) (marine eng) cijev goriva: Problems in the fuel system may lead to cracks and leakages in fuel pipes in case of improper fuel treatment https://safety4sea.com/

**fuel pump** (n) (marine eng) pumpa goriva, sisaljka goriva: It is also very important that the fuel pump and exhaust valve operate at exactly the right time, so the camshaft is driven by the crankshaft.

**fuel return line** (n) (sailing/boating/yachting) povratna cijev goriva

**fuel supply** (n) (marine eng) dovod goriva, dobava goriva: At that point, the chief engineer started isolating the engine room ventilation and fuel supplies.

**fuel system** (n) (marine eng) sustav goriva: The fuel system can be changed over so that the engine can be run on diesel fuel. If the HFO is unstable, the asphaltene will precipitate from the fuel and block filters and/or cause deposits in the fuel system, as well as lead to excessive sludge formation in the fuel separator.

**fuel tank** (n) (marine eng) tank goriva, spremnik goriva, tank. serbatoio della nafta: An investigation of the fuel tanks found that the fuel pick-up tubes within both tanks had become detached from the tank top fuel hose fittings. They tried swapping the two fuel tanks and supply hoses, but this failed to rectify the fault.

**fuel transfer** (n) (marine eng) = fuel change-over fuel change-over prebacivanje s jednog goriva na drugo: The ship must keep ready the fuel oil transfer plan for LSFO and HSFO fuel. www.marineinsight.com fuel transfer record zapis prebacivanja s jednog goriva na drugo

**fulcrum** /'fʊlkrəm/ (n) (marine eng) pivot point of a lever uporište poluge: A cast iron rocker housing supports the fulcrum for the fuel and valve levers, encloses the valve gear and also forms the cylinder head water outlet connection ...

**fulfill** (v) 1 ispuniti, izvršiti: As a result, the deck watch was effectively composed of a single
person who was expected to fulfill all of the tasks of navigation, maintaining a lookout and steering.

Full Ahead! (adv) (seamanship, navig) Svom snagom naprijed! The pilot ordered full ahead, hard to port and requested one of the tugs to assist. 2235 Pilot away at southern boarding ground 2236 Full Ahead 2240 Half Ahead, course 125 deg, crossing the west bound lane at almostright angles to the separation scheme. Seconds later, the engine was put to full ahead, and the helm put hard to port to avoid the tanker. The pilot ordered “full ahead”.

full and by (prep phr) (sailing/boating/yachting) Sailing as close to the wind as possible with full sails.

https://www.ypiyachts.com/  sasvim u vjetar (ali bez trešnje jedara)

full and complete cargo (=F/C) (n) (mar law) This expression characterizes a full cargo, in accordance with the custom of the port, which will either bring the vessel down to her maximum permissible draft or fill the vessel cubically as the case may be.

maksimuma

Full astern! (adv) (seamanship, navig) Svom snagom krom!, Svom snagom nazad!: At 2019 as the vessel passed the tanker berth the pilot ordered full astern, rather than his usual slow or half astern The master immediately applied full astern pitch and full port thrust. Consequently, although full astern was ordered, this only increased the power ahead on the starboard propeller. Manual DP was immediately selected (with yaw control), full astern thrust was applied and the vessel’s movement stopped.

full-away (adv) (marine eng) punom snagom naprijed: After every economiser cleaning, for the first hour after Full Away, it became standard practice to deploy an additional seaman on the upper deck, ... I switch off the MF/HF DSC at the end of passage and only switch it on again at full away. The container ship’s third officer returned to the bridge and, on instruction from the master, he rang ‘full away’ with an engine setting of 80rpm. At the time the FULL – AWAY is received the auxiliary scavenge air blower should be stopped, the starting air stop valve closed and all drains opened.

full cargo (n) (cargo, shipping econ) jedini teret na brodu, sav teret na brodu: The ship had departed Gladstone at 1054 that day after loading a full cargo of coal destined for Bayuquan, China. A large bulk carrier was unberthing after loading a full cargo of coal.

Full Container Load (=FCL) (mar law, shipping econ) FCL means that all goods in the container are listed on one Bill of Lading, and as such are owned by one party.

https://www.logisticsglossary.com/term/full-container-load/  teret u kontejneru samo za jednog naručitelja (u direktnom prijevozu, door-to-door): The German-flagged full container ship ……. was en route back from the east coast of the United States to Europe. At about 0218 on the morning of 17 September 2011, a very serious marine casualty occurred on board the full container vessel …

full liner terms (n) (logist, mar law) Full Liner Terms express what is and what is not included in the freight price, from the shipping company’s point of view. The freight rate includes loading, lashing, trimming, transport itself and unloading of the cargo. puni linijski prijevoznii ugovori

full load (n) (marine eng) puno opterečenje: For modern engines, the optimum injection duration is around 18–20° crank angle at full load, and the maximum firing pressure is reached in the second half of that period. Droop is the variation in engine speed following a load change, approximately 4% for a full load change.

full load (n) (cargo handling, shipping econ) cjeloviti brodski teret, sav brodski teret iste vrste: Own vessel, a 21,310dwt multipurpose vessel with a full load of containers and a draught of 9.5 m. They finished loading at 1500 and sailed at 1510 with a full load for Monasteras in Kalmar Sound, Sweden.
**full mission bridge simulator** (n) *(navig)* navigacijski simulator sa svim funkcijama zapovjedničkon mosta: ... the Master and Deck officers involved will attend a Bridge Team/Pilot Relationship course on a **full mission ship bridge simulator**.

**full operational capability** (n) *(navig, electr)* COMPARE initial operational capability: vrije me rada u punoim pogonu (navigacijskog sustava)

**full power** (n) *(nav arch)* punom snagom, svom snagom: ... the engines had been running at full power for some six-and-a-half hours ... At full power the turbocharger may be rotating at speeds of 10000RPM

**full reach and burden of the ship** (n) *(nav arch, mar law)* sav prostor i nosivost broda

**full reverse** svom snagom natrag

**full rigged sailing vessel** (=fully rigg ed sailing vessel) (n) *(sailing/boating/yachting)* jedrenjak, nava

---

**full rigged ship - barque** *(sailing/boating/yachting)* a sailing vessel with three or more masts, all of which are square rigged **jedrenjak tipa bark, bark**
full rudder (navig, seamanship) kormilo do kraja (lijevo ili desno), kormilo sve lijevo ili sve desno: At the same time the tanker also altered, apparently under full rudder, to starboard. Using full rudder and engine power, and transmitting appropriate signals on the air horn and VHF radio, the master just managed to turn the ship’s head into the wind and execute the 180-degree turn and head out to open sea. The master realised that a dangerous situation was developing and applied full starboard rudder. Using full rudder and full power the (tug) skipper could not stop the swing to starboard and he collided with the bulbous bow of the vessel. Noticing that the CPA of the approaching ship had not increased as expected, the master increased to full starboard rudder. MAIB accident reports, full port rudder kormilo sve lijevo (naredba korimlaru)

full scantling vessel (n) (nav arch) brod s punim dimenzijama elemenata, brod građen s punim dimenzijama materijala full-sized lines plan (=full-sized plan) (n) (nav arch) A 1:1 scale construction drawing of a boat and its parts. nacrt brodice u naravnoj veličini

Full speed! (n) (marine eng, comm) Svom snagom Full speed! ahead Svom snagom naprijed, Full speed! astern Svom snagom natrag

full speed (n) (navig, nav arch) puna brzina: Following this discussion my pilot advised me that as we were proceeding further up the harbour we should enter first and so we should maintain full speed. at full speed punom brzinom: After disembarking the pilot, the vessel proceeded out to sea at full speed. A little later, we saw a vessel approaching at full speed from the south heading towards the Western Boarding Ground.

Full speed ahead / astern! (navig, comm) Punom snagom naprijed / natrag! full starboard / port wheel (=full starboard / port rudder) kormilo sve u desno / lijevo: The Master applied full starboard wheel and the vessel turned rapidly, thus
Increasing the angle of heel. (https://safety4sea.com/)

**Fully automated unattended machinery space** (n) *(marine eng)* = UMS

**Automatska strojarnica (rad bez osoblja u stroju)**

**Fully autonomous ship** (n) *(nav arch)* = A ship run by an operating system that can calculate consequences and risks, and make decisions by itself (https://safety4sea.com/) **Sasvim**

**Autonoman brod**

**Fully battened sail** (n) *(sailing/boating/yachting)* = A sail that has sail battens across its entire width to provide better sail shape **Jedro s letvicama po cijeloj širini jedra**

**Fully laden** (adj) *(navig)* = Nakrcan (brod), pod punim teretom: A fully laden 80,000 tonnes deadweight tanker was manoeuvring to go alongside when a total power loss occurred as a result of the sea water cooling system becoming blocked. The ship left the port of Riga fully laden with timber three days earlier.

**Fully loaded** (adj) *(navig)* = Fully laden nakrcan (brod), pod punim teretom: A pilot boarded a fully loaded product tanker as it approached the port entrance.

**Fully manned** (adj) *(navig, mar law)* = Sa svom propisanom posadom: The bridge and engine room was fully manned with a Bosun and AB stationed on the bow for lookout and emergency anchor purposes. I had always reduced my speed and kept the engine room fully manned when transiting these areas.

**Fully pressurised liquid gas cargoes** (n) *(cargo)* = Potpuni stlačeni ukapljeni plinovi

**Fully refrigerated liquefied gas cargoes** (n) *(cargo)* = Potpuno rashlađeni ukapljeni plinovi

**Fully-rigged** (adj) 1 *(sailing vessels)* = Jedrenjak (obično trojarbolni) s punom snasti (tj. oputom i jedrima); 2 *(seamanship)* = Potpuno opremljen i postavljen (brodski siz): Do not leave the gangway unattended once the lashings are removed until the gangway is fully rigged or secured. They left the gangway suspended outboard, fully rigged and secured horizontally at main deck level, ready to be lowered for the pilot next morning.

**Fume** (n) *(safety)* = Dim, zagušljiva para: This grinding created significant amounts of fumes. ... four seamen were sent to check the lashings and they were all overcome by the fumes in one of the holds. The OS who had removed the plug received some phenol fumes inside the face shield and inhaled a small amount of fumes.

**Fumigation** (n) *(cargo)* = The fumigated holds and packaging materials are treated in such a way that all vermin has been exterminated. They will also bear a stamp and be accompanied by a certificate. (https://www.logisticsglossary.com/letter/?letter=f) Fumigation makes use of poisonous gases that are classed as pesticides or fumigants, to fill an entire place and suffocate the pests and kill them. (https://www.marineinsight.com/) **Fumigacija:** The contractor who carried out the fumigation of the cargo provided the master with documentation that named the fumigant, defined the dosage rate, outlined the fumigation plan and the safety precautions. Before commencing any fumigation, a thorough briefing is provided by the suppliers of the fumigant covering safety and gas monitoring procedures plus any additional control measures. The vessel completed loading of wheat at port and commenced cargo fumigation subsequently before departure. Safety4sea (https://safety4sea.com/) All the hatch covers were opened to ensure the vessel was gas free since fumigation had been carried out in all cargo holds at the loading port. https://safety4sea.com/ **Fumigation** has to be carried out very carefully and by certified, well-qualified pest control operators. https://www.marineinsight.com/ *(The most common pesticide gases used for fumigation are methyl bromide and phosphine. (https://www.marineinsight.com/)*
fumigation certificate (n) (cargo) svjedodžba o fumigaciji

function /ˈfʌŋkʃən/ (n) funkcija: The oil feed rate is controlled according to engine load and is adjustable as a function of engine condition.

function /ˈfʌŋkʃən/ (v) raditi, djelovati, funkcionirati: The coupling may in addition function as a clutch or disconnecting device. The fire detection system did not function correctly.

function namjena: Connected to the SSV is an empty space in the fuel outlet channel, whose function is to dampen the pressure waves when the SSV is opened. primary function prva / temeljna namjena

funding (n) (shipping econ) finacijska pomoć, financiranje, finacijska potpora: The Vancouver Fraser Port Authority received federal funding for projects that will improve the flow of goods to and from the Port of Vancouver.

funds (n) (mar law, shipping econ) financijska sredstva secure funds osigurati sredstva, pribaviti sredstva:

fungi /ˈfʌŋɡai ; ˈfʌndʒai; ˈfʌndʒi/ (car go) gljivice (štetočine na teretu): Amongst the most familiar fungi affecting citrus fruit are green and blue penicillium mould growth which is accelerated by high storage temperatures. (fungi (pl); fungus (sg))

funnel /ˈfʌnəl/ (n) (nav arch) = stack brodski dimnjak, cimijnera; fumaiolo: A significant area on every deck between the funnel and the machinery spaces is thus released for other purposes. Only the uptake was burning inside the funnel, probably because the inside bulkheads were too caked with carbon to burn. High density black smoke was then seen coming from the funnel.

funnel casing (n) (marine eng, nav arch) kućište dimnjaka, oplata dimnjaka

funnel down (v) (meteorol) stuštiti se (o vjetru), sučiti se

funnel smoke (n) (marine eng) dim iz brodskog dimnjaka

furl (v) (sailing/boating/yachting) to roll a sail; to roll or wrap a sail around the mast, spar or forestay to which it is attached namatati (prečku/flok/genovu, jedro), rolati, Italian: imbrogliare

furler (n) (sailing/boating/yachting) = furling system Each furler is composed of a drum, a series of sections (extrusions) which come around the forestay and a hoisting system: halyard swivel or sheave box. naprava za namatanje (prečke/genove ili jedra), sprava za rolanje, rol-mehanizam headsail furler sprava za rolanje floka, mehanizam za rolanje floka, rolflok, jib furler sprava za namatanje floka (prečke/genove), the furler jams naprava za namatanje zapinje: But if your furler jams for some reason - a seized upper or lower bearing, for example - and you can't furl the sail, then here's what to do: furler take one jib sheet off, then coil the other and take it right forward ..., furler jam zapinjanje (blokiranje) naprave za namatanje, furler extrusions elementi šine rol-mehanizma: The reefing system is manufactured from aluminium extrusions which are highly conductive, furler swivel vrtulj rol-mehanizma, dogulin rol-mehanizma, furler drum bubanj rol-mehanizma
The basic components to most furling systems include the foil extrusion, which rises out of the lower drum and incorporates a feeder in which the sail's luff tape enters the groove. Then there is the upper swivel (in most systems - but not all) and the furling line and associated hardware to route the furling line aft to the cockpit. Before you buy any jib furling system, obtain your pin-to-pin forestay measurement before you either remove or unstep your mast. The most dependable type of furling systems are the "head swivel" style that have a lower drum, metal extrusions, and a ball bearing head swivel.
furlough /ˈfɜːlou/ (n) (hum_resources) poslati na neplaćeni dopust: European ferry operator Stena Line will furlough 600 employees as the coronavirus pandemic decimates passenger travel across Europe. https://gCaptain.com The Sweden-based company said it intends to maintain 80% of the salaries of the furloughed workers. https://gCaptain.com

furlough /ˈfɜːlou/ (n) (hum_resources) unpaid leave neplaćeni dopust

furl sail (n) (sailing/boating/yachting) roll-jedro, jedro na namatanje (u jarbol ili deblenjak)

furnace /ˈfɜːnis/ (n) (marine eng) ložište, plamenica: The hot gases produced in the furnace are used to heat the feedwater to produce steam and also to superheat the steam from the boiler drum.

boiler furnace ložište kotla: The chief engineer then purged the boiler furnace for about an hour after the incident.

furthermore /ˈfɜːrðərmə/ (adv) osim toga, još, nadalje: Furthermore, all crewmembers, especially those who may not have attended formal firefighting training, should be instructed on how to react in such situations.

fuse /fjuːz/ (n) 1 upaljač (eksploziva, bombe); 2 (elec) osigurač, Italian:fusibile: As he operated the controls for the solenoid to withdraw the securing pins, the fuse blew, leaving the pins engaged. On investigation, it was found that the plug had a 13A fuse not the 2A which was required, upon investigation all other fans where found to be the same and withdrawn from service until correctly rated fuse box ormarić s osiguračima, kutija osigurača: Because the fuse boxes were in the forward auxiliary generator hold, the skipper went out on deck and opened the access hatch to the space.

fusibility /ˈfjuːzəbiliti/ (n) (marine eng) topljivost, rastopivost high fusibility laka topljivost

fusion (n) welded by fusion zavaren taljenjem (phys, marine eng) fužija, taljenje, stapanje, spajanje

futtock /ˈfutək/ (=futtocks) (n) (nav arch) Pieces of timber that make up a large transverse frame. (https://www.msc.com/shipping-glossary) obluk, obluk rebra, rebreni nastavak, produžnik, priklad, kopul, korba, kriva glava ((dio drvenog rebra u jedrenjaka))

futtock-rigging (n) (sailing vessels) kosne pripone

futtocks /ˈfutəks/ (n) (sailing vessels) rebro 1st futtocks donji dio rebra, 2nd futtocks obluk rebra, 3rd futtocks obluk rebra, 4th futtocks gornji dio rebra

futtock shrouds (n) (sailing vessels) kosne priponice ((u jedrenjaka))
futures /ˈfjuːtərz/ (n) (financ, shipping econ) = futures contract ročnice, rokovni ugovori, ugovori s naknadnim datumom izvršenja oil futures naftne ročnice, naftni rokovni ugovori (s naknadnim datumom izvršenja): U.S. oil futures briefly plunged below zero in April as monthly contracts expired and holders desperately sought tanks to store the oil. https://gcaptain.com/, futures briefly plunged ročnice su nakratko pale

futures contract (n) (shipping econ) A futures contract is a legal agreement, generally made on the trading floor of a futures exchange, to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future. ročnica, burzovni ugovor o kupoprodaji roba ili financijskih instrumenata (vrijednosnica, teretnica) po prethodno dogovorenim cijenama ali s naknadnim datumom izvršenja, rokovni ugovor, futures ugovor

futures exchange (n) (shipping econ) burza ročnica, burza rokovnih ugovora in future contracts for delivery on a specified future date. futures market ANTONYM spot market A futures market is an auction market in which participants buy and sell commodity and futures contracts for delivery on a specified future date. (http://www.investopedia.com/terms) tržište roba (tereta) i ugovora o prijevozu s naknadnim datumom izvršenja, tržište ročnicama, tržište rokovnih ugovora

FV (=fishing vessel) (n) (nav arch) ribarski brod: Later that evening, loaded with the bagged cockles, the fishing vessel anchored, to wait for the next rising tide to enable her to return to harbour. At that instance, the master on the coaster returned to the forward part of the bridge and detected the fishing vessel 5 to 6 cables ahead. The remaining crew held onto the upturned hull, until they were seen by a passing fishing vessel, and recovered on board.

FW (=fresh water) slatka voda: Lubricating oil coolers using sea or fresh water as the cooling medium, must also be periodically checked for oil leakage. According to the fresh water capacity tables, we were using 14 tonnes per day, which for 11 men is way over the mark (usually 3-5 tonnes is standard).

F.W. pump (=fresh water pump) pumpa slatke vode: On most engines sea water and fresh water pumps are fitted.

gaff /ˈɡæf,seil/ (n) (sailing/boating/yachting) spar that holds the upper edge of a sail; duga oblica, koso podignuta i privedana pri vrhu jarbola, o koju je uhvaćen gornji dio četvrtostranog uzdužnog jedra ili privjetrinska strana trokutastog uzdužnog jedra; a spar to which the head of a fore-and-aft sail is bent sošnjak, pik, pilun gaff jaw rašlje sošnjaka

https://www.rcgroups.com/forums/ (It.: picco)

gaff (n) (seamanship, sailing/boating/yachting) mornarska kuka, mezomariner
gaff /ˈɡæf/ (n) (fishing) a long hook with a sharp point to haul fish in ribarska kuka, harpun, kučma, ganač, kučva blow the gaff odati tajnu, izbrbljati (Italian: mezzo marinaio)
gaff rig (n) (sailing/boating/yachting) snast s četvrokutastim glavnim jedrom

gaff-sail /ˈɡæfˌseɪl/ (n) (sailing/boating/yachting) snast s četvrokutastim glavnim jedrom

gaff-rigged ship (n) (sailing/boating/yachting) any sailing vessel or boat that is rigged using a gaff brod sa sošnim jedrom: 6m gaff-rigged wooden sailing yacht was on passage between two German ports in the Baltic, with four people on board.
gaffsail /ˈɡæfˌseɪl/ (=trysail) (n) (sailing/boating/yachting) COMPARE lug sail A four sided sail used instead of a triangular main sail. Used on gaff rigged boats. (1 Mast; 2 Gaff; 3 Peak; 4 Throat; 5 Boom; 6 Clew; 7 Tack; 8 Saddle; 9 Parrel; 10 gasffsail; 11 Bridle; 12 Peak Halyard; 13Throat
Halyard) https://www.ypiyachts.com/; Sošno jedro je nastalo skraćivanjem latinskog jedra tako da je postavljen sošnjak (3 =peak) koji se uz vrh jarbola podiže i pričvršćuje hajmicom (11 = bridle) sošno jedro
Gaff Sail Parts

1. Peak
2. Gaff
3. Head
4. Throat, the corner by the mast
5. Foot
6. Clew
7. Foot
8. Leach
9. Reefing Lines
10. Head
11. Topsail
12. (11) Cut out to fit mast

https://classic-sailing.com/article/hold-on-the-peak-up-on-the-throat-gaff-rig-sailing/
gaff-sail boom (n) (sailing/boating/yachting, sailing vessels) deblenjak sošnog jedra
gaff-topsail (n) (sailing vessels) sošno košno jedro, freccia di maestra (tal.)
gage /geɪdʒ/ (US) mjerilo, mjerni instrument {gage = gauge}
gage reading (n) (US) stanje na mjerilu vodostaja: gage reading 43.6 feet
gain /geɪn/ (n) (navig) The gain functions to adjust the receiver sensitivity for the best reception of signals of widely varying amplitudes. intenzitet odraza na (radarskom) ekranu, osjetljivost radara, namještanje pojačanja prijamnika: Gain may be adjusted automatically or manually. Push the GAIN control to choose automatic or manual adjustment alternately.
set the gain namjestiti razinu osjetljivosti odraza na radarskom pokazivaču
gain /geɪn/ (n) (navig) pojačavanje osjetljivosti radara
gain control (n) (navig) kontrola za namještanje osjetljivosti radara: The gain control affects the receiver and not the display as the brilliance does. Turning up the gain will increase the amplification of the incoming signal, making weak echoes look stronger, but confusing the display with background speckle or noise, similar to the background crackling of an ordinary radio.
gale (n) 1 (meteorol) wind of at least force 8 Beaufort; sustained wind speeds from 34 to 47 knots (39 to 54 mph) vrlo jak vjetar (po Beaufortovoj ljestvici), Italian: burrasca: The weather forecast for the planned voyage predicted gale and storm, ... Expecting to berth the following day, the Master paid out a scope of 6 shackles of chain on the port anchor in gale conditions. gale force (wind) vrlo jak vjetar, olujni vjetar: he conditions alongside were calm, although the wind was predicted to be between force 3 and 4, increasing to 5 to 7 and perhaps gale force 8 later. Once out of the harbour, very rough weather was encountered with a heavy swell and gale force winds. The weather throughout the day had been strong Westerly gale force winds, increasing in strength. (https://safety4sea.com/), whole gale olujni vjetar, severe gale vrlo jak vjetar: The wind overnight was south-west force 6 to 7, and the morning’s forecast predicted south-west winds of force 7 to severe gale 9, occasionally storm force 10, decreasing 4 at times., near gale jak vjetar: 201235 Anchor cable rendered in severe gale Our vessel let go her starboard anchor at an exposed roadstead at night in a near gale (30-33 knot wind), awaiting delivery on a new charter., 2 (meteorol) oluja gale warning (n) (meteorol) oluja, jaki vjetar, nevrijeme: A panamax container vessel sailed just after midnight, with approaching gale warning in force. issue a gale warning izdati upozorenje o oluji / nevremenu: The BOM issued marine gale warnings and hazardous
seas to continue tomorrow until midnight Eastern Standard Time Thursday 24 September, with further disruptions to shipping expected. The following day, a gale warning was issued for the port area.

galleon /ˈɡæliən/ (n) (nav arch) A large three-masted sailing ship with a square rig and usually two or more decks, used from the 15th to the 17th century galijun, galija

gallery /ˈɡæləri/ (n) (marine eng) uzdignuta platforma u strojarnici oko glavnog stroja za smještaj pomoćnih strojeva platforma (u strojarnici), galerija

galley /ˈɡæli/ (n) (nav arch) a cookroom or kitchen of a ship; Kitchen compartment aboard a vessel.

https://officerofthewatch.com/tools/maritime-dictionary/ galija, antička galija galija

galley /ˈɡæli/ (n) (sailing vessels) A large, usually single-decked medieval ship of shallow draft, propelled by sails and oars and used as a merchant ship or warship in the Mediterranean (www.thefreedictionary.com/galley)

galley boy mladić kuhinje, mali od kuhinje, mali od kužine, moco: The ratings in the Catering Dept. are the Ship’s Cook, Assistant Cook, Baker, Pantry and Galley Boy, Messman etc.

galley counter (n) (sailing/boating/yachting) predio kuhinje (na brodici, jedrilici): ... sharp edges can potentially exist in pressed stainless steel or aluminium fittings around the living and common spaces onboard ship, eg air louvres, galley countertops and sinks, insulated bulkhead claddings, deckhead panelling, corrugated / perforated shelving, gratings etc.

galley range (n) (ship’s equipment) štedljank brodske kuhinje

galley stores (n) (seamanship) namirnice, zaliha hrane, provišta
galvanic corrosion (n) (sailing/boating/yachting, nav arch) elektroliza, korozija

uslijed galvanskih struja: Layers of paint which had built up over the years had masked the galvanic corrosion, thus hiding the actual condition of the clamping screw. To avoid areas of severe galvanic corrosion, redundant hull fittings on GRP hulls should, ideally, be removed and appropriate repairs made to the GRP. prevent galvanic corrosion spriječavanje elektrolize

galvanize /ˈɡælvəˌnaiz/ (=galvanise) (v) (marine eng) pocinčati, galvanizirati, prevući cinkom
galvanized /ˈɡælvəˌnaizd/ (adj) (nav arch, safety) pocinčan, galvaniziran: The exhaust gas receiver and exhaust pipe are provided with insulation covered by a galvanized steel plate.

gammoning-piece (n) (nav arch, sailing vessels) platnica kljuna
gang /ˈɡæŋ/ (n) (cargo handling) A group of stevedores usually four to five members acting together with a supervisor assigned to a hold or portion of the vessel being loaded or unloaded. (https://www.msc.com/shipping-glossary) brodska ruka, grupa lučkih radnika, ganga, škvadra stevedore gang štivadorska ruka, number of gangs on board broj ruku na brodu, ship gang waiting time čekanje brodskih ruku, shore gang obalna ruka, lučka ruka, un/lashing gang grupa za od/vezivanje

kontejnera: On arrival at the vessel’s home port an unlashing gang immediately boarded and released the lower lashing bars and twist locks that connected the bottom two containers in each stack stowed on deck. Give the shore lashing gang precise instructions as to how containers should be secured. https://safety4sea.com/
gang (n) (hum_resources) radna skupina, radna grupa mooring gang

privezivačka grupa, privezivački tim: As there was a lot of weight on the spring and the mooring gang had not taken sufficient turns of the gantline, the gantline parted.
gangboard (n) (nav arch) SYNONYM gangplank pasarela, mostić (mostić od dasaka ili tavalona za hodanje, koji spaja pramac i most)
gangplank (=brow) (n) (sailing/boating/yachting) a mobile bridge to facilitate loading/unloading of persons and cargo onto a ship http://www.apsltd.com/aps-advisor/sailing-terms-glossary/ pasarela; Italian: passerella, mostić: In winter, with ice and snow on the gangplank it was a sheer balancing act at times.
gangplank (n) (nav arch, ship’s equipment) brodska skala (tavalon)
gangway /ˈɡæŋˌwei/ (n) (nav arch, ship’s equipment) = accommodation ladder the opening in a bulwark including the ship’s accommodation ladder; a passageway, side shell opening, and
Several crew members left the vessel via the port side gangway and the gangway was then returned to the stowed position. Please rig a combination of the pilot ladder and the gangway on the port/starboard side. Update and keep inspection and maintenance records as per PMS; Do not leave the gangway unattended once the lashings are removed until the gangway is fully rigged or secured.

Gangway fall čekrk brodskog siza, koloturnik brodskog siza, parank brodskog siza: Gangway fall wire parted. At this time, the Master and duty officer who were on the bridge saw the gangway fall wire rope part.

Gangway watch straža pri brodskom sizu: Shortly after, the OS was relieved for a break by the duty AB, whose duties included the gangway security watch.

Shore gangway brodski obalni siz: Immediately, our crew safely re-moored the vessel and the shore gangway was repositioned and secured.

Hoist / lower the gangway spuštati / podizati brodski siz: Having removed all the stanchions and guardrails, the AB started to hoist the gangway.

Heave up the gangway podići bodski siz: The gangway was also heaved up.
https://classic-sailing.com/article/hold-on-the-peak-up-on-the-throat-gaff-rig-sailing/ (‘The opening in a bulwark including the ship’s accommodation ladder’ (Croatian: otvor u linici sa sizom) is the original meaning of the term gangway in Maritime English but in modern use gangway is synonymous to accommodation ladder)
gangway  (nav arch) the opening in a bulwark that gives access to a gangplank or accommodation ladder

gangway  (ship's equipment) mali mostić (za ulaz u brod),
Italian: passerella, pasarela yacht gangway mostić jahte, pasarela jahte

**gangway watch** (safety) straža pri brodskom sizu: Protect your owners’ interests by posting a gangway watch.

**gangway-up order** (med, safety) naredba o zabrani napuštanja broda (zbog epidemije): The gangway-up order was put into effect back on March 21 to combat the growing COVID-19 outbreak. The gangway-up order required all civilian mariners working on MSC ships worldwide to stay aboard their ship and suspended crew shore leave. GCaptain

**gantlet** (n) (safety) zaštitna rukavica

gantline  /ˈgæntˌlain; ˈɡæntlin/ (sailing vessels) a line rove through a sheave for hoisting standing rigging, boatswain's chair, men or gear podigač dijelova opute (na jedrenjaku), podigač sjedala mornara na jabol: The gantline is secured to the bosun's chair with a 'rolling hitch'

gantline  (ship's equipment) mali mostić (za ulaz u brod), Italian: passerella, pasarela yacht gantline mostić jahte, pasarela jahte

gantline  (seamanship) 1. A rope to throw ashore as messenger for a mooring line. 2. A rope for mooring a lifeboat. uže za prihvaćanje i povezivanje priveznih konopa: A forward back spring was passed and secured to a dolphin ring by means of a gantline. As there was a lot of weight on the spring and the mooring gang had not taken sufficient turns of the gantline, the gantline parted.

gantry /ˈɡæntri/ (cargo handling) mosna dizalica, granik: ... containers are not meant to be handled by a single point suspension system such as a derrick fixed to a dumb lighter, but by a shore gantry. These gantries move not only parallel to the quay, but also run back for considerable distances, and so cover a large stacking area, and are able to plumb the ship's hold. The handling capacity of container gantry is 29 TEUs per hour. Apart from slewing deck cranes, corrosion, wastage and cracks can affect the structural and components of monorail hoists, overhead and travelling gantry cranes, derricks and other lifting gear.

gantry crane (cargo handling) track-mounted, shoreside crane utilized in the loading and unloading of general cargo, containers and heavy lift cargo. mosna dizalica (na obali), granik, okvirna dizalica: The West Basin Container Terminal currently includes 13 post-Panamax ship to shore gantry cranes, 19 transtainers, 39 tophandlers, and more than 170 yard hustlers, helping move more than 800,000 containers per year Each gantry crane was fitted with warning devices that operated automatically whenever the gantry crane travelled along the length of the deck.
Since the morning of 30th October, access to this main port has been restricted as one of the 5 STS (Ship to Shore gantry cranes) was blown off its rails due to the extreme winds. The terminal has installed a new electrical substation to provide power for the new gantry cranes.

The 12 mm gap between the safety pin and its brake release lever, and the less-than-adequate maintenance on the brake-lever mechanism, contributed to the unexpected release of the lifeboat down the davit cradle. The gap between the turning gear’s worm and the flywheel.

There was a 5m gap between the ship and the quay. The vehicle carrier continued her south-easterly approach with the pilot now aiming for a gap between the inbound tanker and an outbound container ship.

The ship’s Master stopped delivery of the garbage to the barge and requested the crew of the barge to cast off and collect the bags. The shipboard gantry crane was used to discharge the garbage into the barge, with delivery of the garbage to the barge under the direct supervision of the ship’s Master.

A company’s Garbage Management Plan is vital onboard in order to ensure effective compliance with Annex V of MARPOL. Garbage includes all kinds of food, domestic and operational waste excluding fresh fish and parts thereof, generated during the normal operation of the vessel and liable to be disposed continuously or periodically.

Garbage Management Plan (n) (environ) Plan za rukovanje smećem

Garbage Pollution Prevention Certificate

Gas

Garbage Pollution Prevention Certificate (n) (environ, nav arch) Potvrda o sprječavanju onečišćenja smećem
Garbage Record Book (n) (environ) Knjiga o smeću
Garboard plank (n) (sailing vessels, nav arch) the strake closest to the keel dokobilična platica, dokobilična trenica
garboard strake (n) (nav arch) the strake of bottom shell plating adjacent to the keel plate (running fore and aft), dokobilični voj, dokiljni voj
garfish (=sea needle) (n) (fishing) iglica, jagla, dingula, inglun

{drugi hrv. nazivi: Aguc, dingula, igla, jagla, jgla, žigulja, angužigula, iglac; lat. BELONE BELONE}

gas /gæs/ (n) (marine eng) plin burnt gases izgorjeli plinovi, exhaust gas ispušni plin: The rotation force is provided by exhaust gas acting on vanes fitted to the valve stem. Some of the exhaust gas is cooled and cleaned before recirculation to the scavenge air side., combustion gases plinovi izgaranja: This gap provides a leakage path for the combustion gases so that one piston ring alone is insufficient to seal adequately., escaping gases ispuh plinova: The ship's crew made several attempts to refit the sampling valve, but due to the high pressure of the escaping gas and the formation of ice on the pipe, these were unsuccessful., inert gas generator generator inertnog plina, uređaj za proizvodnju inertnog plina, inert gas inertni plin: Line clearance was undertaken for a 45-minute period during which the inert gas system (IGS) was not run. Fires in the engine internal spaces can be attacked and extinguished using inert gas such as CO ,
gas, or water, boiler exit gases izlazni plinovi kotla, burning gases gorući plinovi, izgarajući plinovi: As the piston passes tdc, the burning gas expands, driving the piston toward bdc, rotating the crankshaft and its attached weighted flywheel.

gas: (n) (US) = petrol benzin gas oil (marine eng) gorivo, mazut, marsh gas oil zemni plin, gas station (US) pumpna stanica
gas bottle (n) 1 (marine eng, seamanship) plinska boca: Look for the less obvious fire risks: cable insulation, heat transfer to the other side of bulkheads/decks, and the possible release of gas from nearby gas bottles. The acetylene ignited because the gas bottle valves were open.

gas cargo container (n) (cargo) spremnik za prijevoz plina
gas carrier (n) (nav arch) ship especially designed ocean-going vessels that are dedicated for transporting all types of liquefied natural gases (LNG) and liquefied petroleum gases (LPG) to their destinations (https://www.marineinsight.com/types-of-ships/what-are-gas-carrier-ships/); Gas carriers carry gases like LPG, ammonia, butane propane etc. brod za prijevoz plina, plinski tanker: A fully pressurised gas carrier had just completed loading liquefied propane at an oil refinery. Capacity of a gas carriers depends on the trade for which it was constructed and ranges from 3,500 –1,50,000 m³. (https://www.marineinsight.com/types-of-ships/what-are-gas-carrier-ships/)

gas cutting (=autogenous cutting) (n) (marine eng) the process of cutting metals by application of high temperature flame or torch produced by combination of two gases-oxygen and acetylene (https://www.marineinsight.com/tech/a-list-of-processes-used-in-marine-workshop-of-ship/)

autogeno rezanje
gas detection (n) (cargo handling, nav arch) otkrivanje propuštanja plina gas detection system sustav za detekciju propuštanja plina, uređaj za detekciju propuštanja plina: Before departing the ship, the fumigator-in-charge briefed the chief officer, and issued him with two gas masks and some phosphine gas detection equipment. fixed gas detection fiksnii sustav za detekciju propuštanja plina
gas detector (safety) detektor plina: The master was carrying a walkie talkie as well as a personal gas detector (combined O and LEL) and the chief mate and pump man were standing on deck.

portable gas detector prijenosni detektor plina, personal gas detector individualni detektor plina, multi-gas detector detektor raznih vrsta plina
gas distribution block (n) (marine eng) razdjelnik plina: The gas distribution block effectuates the engine control system signal into a safe and correctly timed administration of fuel to the engine. www.man-es.com
gases (n) (cargo) plinovi pod tlakom, ukapljeni ili otopljeni pod tlakom, plinovi (klasa 2 opasnih tereta)
gas-flow (n) (marine eng) strujanje plinova, odvod plinova: A nodular cast iron cylinder head was configured to achieve improved air and gas flow rates for the PA6B STC version.
arrangement of gas-flow raspored odvoda plinova (iz komore izgaranja do dimnjaka)
gas free (adj) (safety) bez plina gas free certificate A certificate issued by a chemist after sampling the air in a tanker’s cargo tanks after the cargo has been pumped out. (www.euronav.com)
svjedodžba o neprisutnosti plina
gas freeing (n) (cargo handling) otplinjavanje tanka, oslobađanje tanka od plina: After gas freeing and one of the crew entering the tank, the leak was found and the hydraulic line repaired. commence gas freeing započeti otplinjavanje
gas fuel (n) (marine eng, nav arch) plinsko gorivo
gas-fuelled vessel (n) (nav arch) brod na plinski pogon, brod s pogonom na plinsko ulje LNG-fuelled vessel brod s pogonom na ukapljeni prirodni plin
gash /gæʃ/ (n) (nav arch, safety) SEE indent: udubina (na oplati broda), urezotina (na oplati broda): The collision left the tanker with a 30-foot gash in its hull. The collision caused a gash under the ship's waterline. The gash is above the waterline, and the ship is docked alongside in the port of repair. The collision resulted in a large gash on the starboard side of the tanker, causing it to take on water. tear a gash stvoriti porezotinu (na trupu broda), izazvati porezotinu (na trupu broda): The collision tore a gash below the ship's waterline.
gash (n) (med) posjekotina, dubok rez

https://response.restoration.noaa.gov/about/media/final-farewell-oil-tankers-single-hulls.html
gas injection valve (=gas valve) (n) (marine eng) ventil za ubrizgavanje plina (na dual-fuel motoru): The high-pressure gas is distributed via a chain of double-walled pipes to each cylinder, where the gas enters the gas distribution block and finally the gas valves via the gas distribution channel in the cylinder cover. www.man-es.com When the gas injection valves are opened with hydraulic oil, a gas jet is injected into the combustion chamber. www.man-es.com
gas jetty (n) (ports) gat za brodove za ukapljeni plin, vez za brodove za ukapljeni plin
gasket /'gæskit/ (n) (seamanship) An elastic packing material used for making joints watertight. 
https://officerofthewatch.com/tools/maritime-dictionary/brtva, brtvilo,
**gas leak** *(n) (safety, marine eng)* propuštanje plina, curenje plina: The ignition heat source was a hot gas leak from around the “plenum seal”.

**gas leakage** *(n) (safety, marine eng)* propuštanje plina, curenje plina: A control bore is provided in the cylinder cover to enable possible gas leakage to be detected between the two parts of the cover.

**gas locker** *(n) (sailing/boating/yachting)* spremnik za plinsku bocu self-fraining gas locker spremnik plinske boce samopražnjenjem

**gas meter** *(n) (cargo handling, safety)* mjerilo plina: The most common type of gas meter employed on ships uses catalytic sensors to detect flammable gases (methane).

**gas mode** *(n) (marine eng, nav arch)* COMPARE Diesel mode COMPARE fuel oil mode rad (stroja) na plinsko ulje, način rada na plinsko ulje, raditi u plinskoj verziji / modusu: Maximum instant load steps in % of MCR in gas mode

**gas oil** *(n) (marine eng)* plinsko ulje (destilat između 230 i 425 stupnjeva C), lako dizelsko gorivo, vrlo laka nafta marine gas oil brodsko plinsko ulje, laka brodska nafta: The ship was running at slow speed on one diesel generator, which was being supplied with marine gas oil (MGO) from one of two fuel oil service tanks.

**gasoline engine** *(n) (US) (marine eng)* = petrol engine benzinski motor

**gasoline; gasolene** /gæsəliːn/ *(n) (US) = petrol benzin

**gas piping** *(n) (marine eng)* cjevovod plina

**gas port** *(n) (cargo handling, marine eng)* odušnik plinova: Monitoring of the levels of oxygen, carbon monoxide and flammable gases (methane) via the gas ports is the method for assessing these hazards.

**gas supply** *(n) (marine eng)* dovod plina, opskrba plinom gas supply pressure and temperature tlak i temperatura dovoda plina (u LNG stroj): The requirements to gas supply-pressure and temperature are: – for the ME-GI engine: high-pressure gas at
gas-tight door  (n)  (nav arch, safety)  plinotijesna vrata: Access to the modules was through a water and gas tight door which incorporated a viewing port.

gas-tight seal  (n)  (marine eng)  plinotijesna brtva, plinonepropusna brtva: A piston ring is a spring tensioned ring set in grooves in the circumference of a piston that push out against the walls of the cylinder forming a gas tight seal.

gas turbine  /ˈɡæs,tɜːbain/  (n)  (marine eng)  plinska turbina: A large catamaran was fitted with four gas turbine engines, two in each of the hulls. The main candidates for gas turbine propulsion in commercial shipping are cruise ships.

gas valve train  (≡GVT)  plinski ventilski sklop, sklop ventila plinskog ulja, plinski ventilski sustav: The gas valve train (GVT) is fitted in front of the ME-GI and gensets www.man-es.com The GVT controls the safe admission of gas to the ME-GI engine.

gas welding  (n)  (marine eng)  plinsko zavarivanje, autogeno zavarivanje: Before a gas welding operation is carried out, all equipment and connections are to be checked and verified they are in safe condition;

gate  (n)  1  (navig)  vrata ulaza u lučki bazen brana u ustavi: After the lock gate in the direction of the Elbe was opened, the TMV …., which was moored on the opposite side, was the first vessel to sail out of the lock. dock gate brana u ustavi, ustava, lock gate brana ustave: A coastal tanker was berthed 150m ahead of a lock gate while waiting to enter port to discharge her cargo.

zaštitna vrata: An additional security gate was being installed at the top of the gangway in way of the pilot boarding access.; 2  (nav arch)  vrata security gate sigurnosna

izlaz (luke, terminala): Twenty-eight Vehicle Monitor Systems have been installed at the Road, Rail, Exit Gates. Six local control station have been commissioned at individual gates and have now been successfully connected through optic fibre to the Main Control Station at the North Gate Complex. http://www.marinelink.com/news/radiological-detection423644?utm

vrijeme zatvaranja primanja kontejnera na terminalu (24 sata prije primanja pisma spremnosti broda)

gateway  (=ˈɡeɪtweɪ)  (n)  (ports) A point at which freight moving from one territory to another is
interchanged between transportation lines. (https://www.msc.com/shipping-glossary) luka, lučki prometni čvor
gateway (n) (shipping econ, ports) vrata (države u svijetu): Typical vessel paths in Canada’s Pacific waters highlight the role of Canada’s western ports as a gateway to trans-Pacific trade. https://safety4sea.com/
gather (v) 1 skupljati, skupiti, okupljati se: At the centre they are formed to gather the air which enters at the eye of impeller. They expected to make the short transit to the sandy area and then gather in the forward part of the boat to discuss the next part of the exercise. Water was pouring into the engine bay and all the people on board gathered at the stern to help bail out the water.; 2 (navig) o attain headway / stern way; to get going or pick up speed kretati se u jednom smjeru (o brodu) to gather sternway kretati se krmom, kretati se nazad (o brodu): The ship started gathering sternway Brod se počeo kretati krmom / u krmu The skipper engaged the engines astern, and the boat started to gather sternway. At 0212, the master, still misled by the 0210 plotted position, noted that the vessel was still not gathering sternway, and increased to half astern., gather headway kretati se pramacem (brod), kretati se naprijed (brod): The ferry continued to gather headway. With the ship gathering headway, it was observed that the head was swinging very quickly to starboard, and accordingly, hard port rudder was applied., gather way To attain headway or sternway (to get going or pick up speed),; to get going or pick up speed početi ploviti prema naprijed ili nazad (o brodu), početi se kretati: Coming immediately onto their course of 160°, the combination of excessive leeway as the yacht was gathering way, and the onshore swell, quickly placed them in danger., gather speed dobivati na brzini: ... the sea and rain clutter had been adjusted as the vessel gathered speed and settled at 23kts. Over the next 5 minutes, the ship gathered speed from 8kts to 13kts.
gating in (n) (logist) ANTONYM Cut off Time "checking in" for shipments prijava dolaska kontejnera na terminal: A container needs to gate in at the Container Yard (CY) before the CY cut-off, and a LCL (Less than Container Load) shipment needs to gate in at the CFS (Container Freight Station) before the CFS (Container Freight Station) Cut-off. Quoted rates are locked in with the carrier once the shipment has gated in. https://www.flexport.com/glossary/gating-in/GATT (=General Agreement on Tariffs and Trade) (n) (shipping econ, mar law) A multilateral treaty to help reduce trade barriers between the signatory countries and to promote trade through tariff concessions. The World Trade Organization (WTO) superseded GATT in 1994. (https://www.msc.com/) Opći sporazum o trgovini i carinama
gauge /ˈɡeɪdʒ/ (n) (UK) 1 (marine eng, safety) = gage mjerilo, mjerni instrument, mjerač, pokazivač: The lub-oil tank’s contents gauge indicated that the tank was empty; approximately 10000 litres of oil had apparently ‘disappeared’. A level gauge gives a local read-out of the drain tank contents. deflection gauge komparator, diphragm pressure gauge barometar s membranom, pneumatic gauge pneumatski pokazivač sadržaja tanka, below pressure gauge barometar s valovitom komorom, pressure gauge manometar, tlakomjer: They also showed that the pressure reading on the differential pressure gauge for the on-line oil filter remained low, indicating that the filter did not require changing., gauge tube cijev manometra, gauge glass vodomjerno staklo, pokazivač razine (tekućine), manifold gauge tlakomjer na ventilskoj jedinici, manometar na manifoldu, level gauge mjerač razine, pokazivač razine, gauge glass mjerno staklo, staklo mjerila: The bearing covers are each fitted
with an oil filter, an oil drain opening and an oil gauge glass. The bearing covers are each fitted with an oil filter, an oil drain opening and an oil gauge glass.

**contents gauge** mjerilo sadržaja (tekućine u tanku): The lub-oil tank's contents gauge indicated that the tank was empty; approximately 10000 litres of oil had apparently ‘disappeared’.

**tide gauge** pokazivač razine mora (plime i oseke): To assist approaching ships in assessing the depth of water available, MAIB has suggested to the harbour authority that a tide gauge is placed at the entrance to the port.

**2 kalibir, šablon**

**gauge**

1. mjeriti šablonom, mjeriti; 2 kalibrirati

**gauge stick** (marine eng, cargo handling, nav arch) mjerni štap, mjerni štapić

**gauging system** /ˈɡeɪdʒɪŋ/ (marine eng, cargo handling) A process of measuring height of a liquid in a storage tank usually using a weighted graduated steel tape and bob. (www.euronav.com)

**sustav mjerenja tank level gauging system** sustav mjerenja razine tekućine u tankovima, ballast tank gauging system uređaj za mjerenje razine tekućine u balasnom tanku

**gauntlet** /ˈɡɔːntlit/ (safety) zaštitna rukavica

**Gaussian maximum shift keying** (=GMSK) (navig, electr) digitalna modulacija minimalnog pomaka faze (u sustavu AIS)

**gear** /ˈɡiər/ (marine eng) zupčanik, Italian: ingranaggio camshaft gear zupčanik bregaste osovine: The camshaft gear drive at the free end of the crank- shaft and the auxiliary drive hub are fitted on a taper using the oil injection method.

**idle gear međuzupčanik**: Type of drive: gear(state approximate ratio between crankshaft and camshaft gears, number of idle gear(s), etc.,

**intermediate gear međuzupčanik**: The intermediate gear wheels of the camshaft drive can be aligned more quickly than before by means of a built-in device to move the wheels vertically and horizontally.

**set of gears niz zupčanika**, train of gears niz zupčanika, worm gear pužni zupčanik, pužni kolo, pužni prijenos, gear ratio omjer zupčanika, odnos zupčanika: These pumps are integrated in the gear drive at the front side of the engine and driven by the crankshaft with a gear ratio of 1.65 at speeds of up to 1800 rev/min.

**gear wheel zupčanik**: The use of gear wheels for the camshaft drive allows the thrust bearing to be very short and stiff, and to be carried in a closed rigid housing.

**idler gear međuzupčanik**: The camshaft drive is located at the free end of the engine; the crankshaft gear drives via a compound idler gear for each camshaft.

**gear** /ˈɡiər/ (marine eng) uređaj, mehanizam jack gear uređaj za okretanje motora, running gear pogonski mehanizam: The upper piston of the engine requires its own running gear and crank throws.

**reversing gear prekretni uređaj, prekretni prijenosnik**: This oil is also used to operate the hydraulic reversing gear for the engine.

**timing gear razvodni mehanizam**: The camshaft timing gear is attached to the front end of the engine, positioned between the crank gear and cam gear.

Accordingly, the air start valves were opened and one of the engineers operated the turning gear control lever with the intention of disengaging the turning gear from the main engine flywheel.

**turning gear uređaj za okretanje**: A flange is provided for the vibration damper at the end, opposite to the coupling; a gearwheel for the gear drive is flanged on the coupling end. Timing is controlled by cams or gear drive from the engine camshaft.
gear* (n) (marine eng) prijenosnik auxiliary drive gear prijenosnik pomoćnog pogona
gear* (n) (seamanship, ship’s equipment) the general name for ropes, blocks and tackles, tools, etc. (things). https://officerofthewatch.com/tools/maritime-dictionary/ oprema, uređaji
gear* (n) (cargo handling) = cargo gear A comprehensive term in general use on shipboard signifying the total of all implements, apparatus, mechanism, machinery, etc., appertaining to and employed in the performance of any given operation, as cleaning gear, steering gear, anchor gear, etc. (SeaSources-US.dict.net) brodski uređaj za kranjanje tereta, oprema za dizanje/spuštanje tereta
gear* (n) (safety) sigurnosna oprema, sigurnosni uređaj: Everything was labelled, panic bags were clearly marked and every crew member briefed on the location of safety gear.
gearbox /ˈgiəboks/ (n) (marine eng) reverse gearbox prekretni uređaj, prekretna kopča, reversing gearbox prekretna spojka, prekretna kopča, gearbox drive pogon zupčanog prijenosnika, reduction gearbox reduktor, marine gearbox brodski reduktor 1 zupčani prijenosnik, Italian: invertitore; 2 reduktor; 3 kutija mjenjača; 4 zupčani mjenjač
gear-driven (adj) (marine eng) na zupčasti pogon, sa zupčastim prijenosom: The camshaft is either chain or gear driven from the crankshaft. The PTO at the free end accepts either gear-driven or belt-driven pumps and alternators.
geared container ship (n) (nav arch) Containerships that are equipped with cranes or derricks for loading and unloading containers and other cargo operations. kontejneski brod s opremom za ukrcaj/iskrcaj tereta
geared engine (n) (marine eng) ANTONYM direct-coupled engine motor s prijenosnikom, brodski stroj s reduktorom, motor s posrednim pogonom propelera: According to the way the main engine is joined to the shafting, they may be classified as direct coupled engines, i.e. coupled directly to the propeller shafting (also called direct drive) and geared engines, i.e.coupled to a reduction gearing (indirect dr.
geared ship (n) (nav arch) brod s vlastitim uređajem za ukrcaj/iskrcaj tereta
gearing /ˈgiərɪŋ/ (n) (marine eng) zupčanici, sustav zupčanika: The resulting damage to the shaft and gearing and to the turning gear casing disabled the ship for a month and cost a six-figure sum to repair. reduction gearing reduktor: Torsional vibration involves the whole shaft system of the propulsion plant, engine crankshaft, intermediate shafts and propeller shaft, as well as engine running gear, flywheel, propeller and (where appropriate) reduction gearing, flexible couplings, clutches and PTO drives.
gearless bulk carrier (n) (nav arch) SEE bulker brod za rasute terete bez uređaja za ukrcaj/iskrcaj tereta
gearless ship (n) (mar law, shipping econ, nav arch) Gless – Gearless Ship - Ship which is not equipped with her own crane(s) or derrick(s). http://www.tkmglobal.net/chartering_C.HTM brod bez opreme za krcanje/iskrcaj tereta
gear pump (n) (marine eng) pumpa pokretana zupčanicima: A chain-driven rotary-gear pump provides lubricating oil to the main bearings and through internally drilled passages in the crankshaft to both connecting rod bearings.
gear ratio (n) (sailing/boating/yachting, marine eng) A marine transmission has several jobs, but the
primary one is to deliver torque to the propeller. **prijenosni omjer:** Decreasing RPM from the engine through a **gear ratio** in the transmission reduces propeller RPM and increases available torque at the propeller. https://www.cat.com/ For our Cat® Three60 Pod 650 propulsion system, for example, we identified the optimal **gear ratio** — a slightly deeper 2.17:1 — that gives you better low-speed yacht control https://www.cat.com/

**gears** /ˈɡeərz/ (n) (marine eng) bevel **gears** konični zupčanici, stožnici, double-helical **gears** zupčanici sa strjelastim zupcima, herringbone **gears** zupčanici sa strjelastim zupcima, **intermeshing** **gears** međusobno zahvaćanje zubaca zupčanika, single-helical **gears** cilindrični zupčanici s kosim zupcima, **spur** **gears** čeoni zupčanici, čelni zupčanici, cilindrični zupčanici s ravnim zupcima, valjkasti zupčanici, **valjčasti** zupčanici: The crankshaft drives the camshaft by a **train of gears** and the cams lifts the pushrods, thus transferring the motion to the rocker arms, which swing on pivots.

**gearshift** (n) (marine eng) ručica prijenosa

**gear wheel** (n) (marine eng) zupčanik, zupčasti kotač: If the **gear wheels** are misaligned, shock loading will result, which can lead to broken teeth. The camshaft was raised to be close to the cylinder covers and is driven via **gear wheels**.

**gelcoat** /ˈdʒelkəʊt/ (n) (nav arch, sailing/boating/yachting) staklasti zaštitni sloj, **đelkota**: Acrylic fiberglass coatings – an alternative when waxes and polishes won’t revive your **gelcoat** – leave a hard, clear plastic coating on **gelcoat**. https://www.practical-sailor.com/ reparirajte **gelcoat** štete na đelkotu, **gelcoat** crack napuklina đelkota, puknuće đelkota: every owner of a fiberglass boat will have to deal with **gelcoat cracks** and chips, **gelcoat** repair popravak đelkota: For small **gelcoat repairs** like this, we use a Preval sprayer ... Until recently, they used to sell a handy aerosol **gelcoat repair kit**, crazed **gelcoat** gelcoat that has hardened and become covered with a random network of small cracks (https://www.practical-sailor.com/) đelkota sa zrakastim napuklinama: On some early fiberglass boats you may encounter crazed **gelcoat** – that is, gelcoat that has hardened and become covered with a random network of small cracks; **gelcoat crazing** zrakasto napuknuće đelkota: A severe case of crazing may require you to grind away the crazed gelcoat altogether, acrylic **gelcoat** akrilni đelkot, akrilni zastitni sloj

**GENCON** (n) (mar law) Widely used general purpose voyage Charter-Party published by BIMCO.

BIMCO-ov ugovor o najmu broda Gencon, opći ugovor o njamu broda general agency (=GA; General Agent) (n) (mar law) opća pomorska agencija, pomorska agencija, pomorski agent

**General Agency Agreement** (n) (mar law) ugovor o općoj agenciji, ugovor o generalnoj agenciji: The Agreement covers the General Agency work within the Territory. It includes the duties of marketing, operations, accounting and finance mentioned below. FONASBA General Agency Agreement

**general agent** (=GA; General Agency) (n) (mar law) opći pomorski agent, pomorski agent, pomorska agencija: The Principal hereby appoints the GA as its agent for all maritime services and vessels (either owned or chartered including any space or slot charter agreement) calling at the GA’s territory serving the trade between …. and ... FONASBA General Agency Agreement

**general alarm** (n) (safety, navig) opća uzbuna, znak za opću uzbunu: The master
raised a **general alarm** and the crew immediately proceeded to clean up the spilled fuel oil on deck.

**sound the general alarm** dati znak za opću uzbunu: The master sounded the general alarm and the well practised fire-fighting organisation swung into action. The master sounded the general alarm to muster the crew members. After the general alarm was sounded, the crew assembled on the bridge and donned immersion suits collected from two decks below. As soon as a fire is detected general alarm should be sounded.

general alarm bell (n) (safety) zvono za opću uzbunu, zvono opće uzbune sound the general alarm bell uključiti zvono za opću uzbunu

general arrangement plan (=GA plan; general arrangement drawing) (n) 1 (nav arch) A drawing of a ship which lists all necessary statistics and operating information such as LOA, SDWT, cargo, water, fuel capacity, etc ([www.euronav.com](http://www.euronav.com)) opći nacrt broda, opći plan

---

**general average** (=GA) (n) (mar law, mar ins) A general contribution of money paid by all parties concerned in a marine adventure in direct proportion to their several interests when a voluntary or deliberate sacrifice has been made of one or more of the party's goods in time of peril with a view to saving the remainder of the property. ([www.euronav.com](http://www.euronav.com)); Intentional act or sacrifice that is carried out during voyage to preserve the venture from a real peril. The party who has suffered a loss as a result is reimbursed by all the other parties to the marine adventure, each paying a proportion of the amount of the loss according to the value of their interest. [http://www.tkmglobal.net/chartering_G.HTM](http://www.tkmglobal.net/chartering_G.HTM); General Average is a legal principle of Maritime Law under which, all parties who are involved in that voyage, shall be asked to proportionally share the losses resulting from such sacrifice. ([https://shippingandfreightresource.com](https://shippingandfreightresource.com)); havarija koja pogađa sve sudionike pomorskoga pothvata; namjerni čin žrtvovanja dijela broda ili opreme za vrijeme plovidbe radi očuvanja pomorskog pothvata. Pretrpjelu štetu plaća, u razmjerom dijelu, svaki sudionik pomorskog pothvata; General Average is a maritime law principle requiring that the shipowner and cargo interests proportionately share in the costs associated with rescuing a vessel after a major casualty. When GA is declared, cargo owners are required to contribute to a GA fund before their cargo can be released. ([https://gCaptain.com](https://gCaptain.com))

**zajednička havarija, generalna havarija, generalna avarija:** GA is a principle of maritime law where damages or salvage costs etc are shared among the cargo in proportion to its value and adjuster [http://gCaptain.com](http://gCaptain.com) The basic concept of GA is that all losses, including salvage, port, and transfer costs, are shared between surviving cargo [http://gCaptain.com](http://gCaptain.com) Once ashore, containers for which **General Average and Salvage security has been provided** (“secured containers”) will be stacked apart from those which remain unsecured (“unsecured containers”). [https://gCaptain.com](https://gCaptain.com) **General Average** requires that the shipowner and its customers share a proportionate amount of the costs associated with saving a vessel after a major casualty. [www.gCaptain.com](http://www.gCaptain.com) **General Average** is a principle of maritime law that requires that the shipowner and its customers share a proportionate amount of the costs associated...
General Average act (n) (mar law) There is a general average act when, and only when, any extraordinary sacrifice or expenditure is intentionally and reasonably made or incurred for the common safety for the purpose of preserving from peril the property involved in a common maritime adventure. (York/Antwerp Rules 1994)

General Average contribution (n) (mar law) The monetary contribution required of shipowners and cargo owners (or their respective insurers) in respect of general average expenditures and general average sacrifices.
general average contribution (n) (mar law) doprinos u zajedničku havariju

general average fund (=GA fund) (n) (mar ins, mar law) fond zajedničke havarije

contribute to a general average fund uplatiti doprinos / udio u fond zajedničke havarije: When General Average is declared, cargo owners are required to contribute to a GA fund before cargo can be released. www.gCaptain.com

general average security osiguranje zajedničke havarije, jamstvo za zajedničku havariju: The company has set the salvage security to the amount of 42.5% of the CIF (cost, insurance and freight) value of the cargo, with an additional 11.5% required as GA security. The containers have been declared sound and for these containers all General Average and Salvage securities have been submitted. The shipping company appointing an average adjuster to collect the necessary GA security. We therefore again urge all cargo interests that are yet to provide General Average/Salvage securities to do so without further delay, in order to allow delivery of their cargo. https://gCaptain.com set the general average security odrediti iznos osiguranja / jamstvo za štetu (u generalnoj havariji): The adjuster set the salvage security in the amount of 42.5% of the CIF (cost, insurance and freight) value of the cargo, with an additional 11.5% required as GA security.

general cargo (n) (cargo) general cargo consists of both containerized and breakbulk goods, in contrast to bulk cargo. Cargo, consisting of goods, unpacked or packed, for example in cartons, crates, bags or bales, often palletised. (https://www.msc.com/) generalni teret, komadni teret, opći teret: General cargo is handled by cranes on the quay, floating cranes or by the ship's own cargo gear (deck cranes, derricks, etc.). The container ship arrived in Esbjerg, Denmark, from Larvik, Norway for discharging and loading general cargo in containers. General cargo can be shipped either in breakbulk or containerised. (https://www.msc.com/)

general cargo ship (=freighter (US); general cargo vessel) (n) (nav arch) A single or multi deck cargo vessel for the carriage of various types of dry cargo. Single deck vessels will typically have box shaped holds. Cargo is loaded and unloaded through weather deck hatches (http://www.ihsfairplay.com/About/Definitions/definitions.html) brod za opći teret, brod za generalni teret, teretnjak: A 1680gt general cargo ship in ballast was on passage to Sweden, course was 132° in autopilot and speed was 10 knots. A 2500 grt general cargo ship, carrying a timber deck cargo, was heading towards the entrance to a 300m wide buoyed channel, on a course of 004° in autopilot. A 79-metre general cargo vessel was on passage through UK waters in the early hours of a winter’s morning. A general cargo ship arrived with an import cargo that was stacked high on the hatch covers, exposing a large lateral wind area. General cargo vessels are equipped with gears with sufficient capacity (about 30-40 tons SWL) able to handle containers and other general cargoes.
General Characteristics (n) (nav arch) opći podatci o brodu
general compressed air system for deck (n) (nav arch) sustav zraka opće službe za palubu
General Declaration (n) 1 (mar law) opća izjava, opća prijava (tereta); 2 (mar law) Opća carinska deklaracija
general electric maintenance (n) (electr) opće održavanje električkih sustava insulation izolacija, test equipment ispitna oprema, oprema za testiranje
