Marine Internal Combustion Engines and Environmental Protection Issues

 Springer

Contents

1	Marine Internal Combustion Engines, Environmental Issues and Global Climate Change.	1
2	Reducing Nitrogen Oxide Emissions from Marine Engines	13
3	Reducing Sulfur Combustion Products Emissions from Marine Engines	71
4	Réduction of Emissions of Products of Incomplete Combustion of Fuel.	79
5	Reducing Greenhouse Gas Emissions	93
6	Alternative Marine Fuels and Prospects for Their Use on Ships	101
7	Gas Fuels and Their Use in Marine Engines	105
8	Use of Alternative Liquid Fuels with Low Flash Point: In Marine Engines	185
9	Use of Ammonia as a Carbon-Free Fuel for Marine Combustion Engines	223
10	Use of Hydrogen as a Fuel for Marine Internal Combustion Engines	243
11	Use of Biofuels for Marine Internal Combustion Engines	253
12	Features of the Organization of Work Processes in Ship Engines Running on Alternative Fuels	257
