

Advanced oil tanker operations

According to the Ordinance on Vocations and Certificates of Competencies for Seafarers (of the Republic of Croatia):

Masters, chief engineer officers, chief mates, second engineer officers and any person with immediate responsibility for loading, discharging, care in transit, handling of cargo, tank cleaning or other cargo-related operations on oil tankers shall hold a certificate in advanced training for oil tanker cargo operations.

Every candidate for a certificate in advanced training for oil tanker cargo operations shall:

- meet the requirements for certification in basic training for oil and chemical tanker cargo operations; and while qualified for certification in basic training for oil and chemical tanker cargo operations, have:
 - o at least three months of approved seagoing service on oil tankers, or
 - o at least one month of approved onboard training on oil tankers, in a supernumerary capacity, which includes at least three loading and three unloading operations and is documented in an approved training record book taking into account guidance in section B-V/1; and
- have completed approved advanced training for oil tanker cargo operations and meet the standard of competence specified in section A-V/1-1, paragraph 2 of the STCW Code.

The documentary evidence has validity without time limit.

Acquired competences:

- Contribute to the safe cargo operation of a liquified gas tanker
- Take precautions to prevent hazards
- Apply occupational health and safety precautions and measures
- Carry out fire-fighting operations and respond to emergencies
- Take precautions to prevent pollution of the environment from the release of liquified gases
