

Brodstrojarski simulator / *Engine Simulator*

Simulator brodskog rashladnog sustava

Provision cooling and air conditioning simulators

Simulator se sastoji od prostorije sa stvarnim provijantom, sustava klima uređaja i simulatora sustava kaskadnog rashladnog uređaja.

The Faculty of Maritime Studies also has Carrier air conditioning simulator that is used in teaching the basic principles of refrigeration technique and Elektrolux provision cooling simulator that is used in later stages in order to familiarize the students with components, control and maintenance of the plant. The Elektolux simulator includes standard provision cooling system, cascade cooling system and indirect refrigeration system.
